## Tornadoes, Rain Batter Soggy State

By The Associated Press

Five tornadoes and widespread rainstorms battered rain-soaked Texas Tuesday as a weak cold front pushed through the state. Two persons perished in a fiery collision of a bus and a milk truck during a driving rain near Kirbyville in Southeast Texas. At least one injury was attributed to the twisters.

At mid-morning Wednesday the front was located along a line looping from the Lufkin area down to Brownsville.

One twister ripped through the P. R. Stroder farm, 22 miles west of Corsicana, about midnight. It picked up a tractor shed, uprooted trees, damaged a barn and burned out a television set on the farm. A transformer and about 2,000 feet of REA power lines also were knocked out.

Residents said the tornado moved in from the southwest with a tremendous roar. About 70 of an inch of rain fell on the farm within a few minutes.

Scattered thunderstorms occurred along the line of the front Wednesday.

Jack Adams, 69, Nacogdoches, and Marion R. Landrum, 23, Lufkin, were killed in the Kirbyville smashup. Twelve others were injured.

A norther was pushing down from Canada and threatened to knife into Texas Thursday.

The Weather Bureau forecast colder temperatures in the Panhandle and South Plains Wednesday night with the lowest reading in the 40s.

Two other tornado funnels skipped across West Central Texas Tuesday night but apparently didn't touch ground.

One was sighted about 5 miles north of Abilene during a heavy rain and hailstorm. The other was spotted near Gorman, 75 miles southeast of Abilene. Police reported no evidence of damage in either area.

Floods also plagued parts of Texas. The Weather Bureau warned residents in the Central Texas area near Cameron to brace for lowland flooding along the rising Little River.

The Navidad River near Schulenburg was running bankfull but wasn't expected to overflow unless more heavy rains are received.

The Weather Bureau said skies east of the front in Texas were partly cloudy and mostly clear west.

The rains that started spreading over Texas Sunday were taking heavy tolls in crop damage, especially in West Texas.

Winds reaching 90 miles an hour raked an area near Lubbock late Tuesday during a thunderstorm.

Farmers surveyed widespread damage to cotton and grain crops. Bee Landrum, farm editor of the Lubbock Avalanche-Journal said some estimates indicate the value of the South Plains cotton crop was cut by 15 per cent by rain damage. This would represent a 50 million dollar loss on a crop expected to yield growers 350 million dollars. Others were more optimistic.

### Back-To-School Trend Reported

Warm sunshine helped boost school attendance today.

Supt. Floyd Parsons said a survey of principals showed attendance was increasing at all schools except Washington and College Heights. Washington had the same number absent as yesterday, and College Heights reported a slight increase over Tuesday.

A definite back-to-school trend was evident in all other schools, Parsons said.

Yesterday, there were 1,024 pupils absent—about 17 per cent of enrollment.

### Storm Threat Clears Skies, Cotton Harvest Is Resumed

Big Spring and Howard County were pinpointed by Weather Bureau forecasts Tuesday night as being in a dangerous weather zone but other than for banks of black, threatening clouds, a few gusts of wind and spotted sprinkles of rain, the area escaped any damages.

Some showers fell in the north part of the county but it was not believed that the additional moisture augmented the damage to cotton and feed stuffs.

Farmers felt some alarm when the wind built up momentum shortly after dark—fearful that the gale would topple the heavy-headed grain crops in the fields. A check Wednesday indicated that no damage developed.

Bright sunshine returned to the sodden countryside Wednesday morning.

The area was more fortunate than many other places in the state.

Some farmers were planning to resume cotton picking today. Check indicated that sufficient drying out had developed to permit pickers to return to the fields. If no more rain falls, the cotton harvest should be back in full swing within a day or two, observers believed.

Jimmy Taylor, county farm agent, said that he had talked with a number of ginners and a considerable group of cotton farmers since the rains.

It was generally agreed, he said, that while the grade of the cotton would be lowered a small degree, as a whole comparatively little damage to crops developed.

He said that ranchers were pleased with the rains and saw in them a big help in the effort to restore pastureland.

Small grains which had been planned for winter will be materially benefited by the moisture. There is a considerable acreage of crops of this sort in the county, the agent stated.

### Virginia's Pupil Placement Law May Have Life After All

RICHMOND, Va. (AP)—Virginia's anti-integration Pupil Placement Act, thought to have been killed by the U. S. Supreme Court two days ago, may still have legal life after all.

This view, expressed by a lawyer for the state, drew qualified agreement yesterday from the judge who earlier this year called the law "unconstitutional on its face."

Some top state officials agreed the law was dead when on Monday the U. S. Supreme Court declined to review a 4th Circuit Court of Appeals decision affirming a ruling by U. S. Dist. Judge Walter Hoffman that Norfolk and Newport News schools must integrate.

Today there was less agreement. These questions were apparent: When the Circuit Court affirmed Hoffman's ruling, did it affirm only his finding that the law of the Negro plaintiffs in the two cases "no adequate administrative remedy?"

Or did the Circuit Court affirm, as well, Hoffman's opinion that the law was "unconstitutional on its face?"

A. B. Scott of Richmond, attorney for the three-man Virginia Pupil Placement Board, told Hoffman in court yesterday that the idea the Supreme Court action of Monday invalidates the placement law is a "misunderstanding."

Hoffman agreed, in part.

The judge said that while he said affirmed Hoffman's ruling that Negro plaintiffs in the Norfolk and Newport News school suits were offered no adequate administrative remedy.

Under terms of the Pupil Placement Act, part of a package

### State To Rest Case In Trial Of Roy Barker

COLORADO CITY — Records from Municipal Court of Minneapolis, Wis., were introduced by defense attorneys this morning in the trial of ex-policeman Roy Barker to show that Jack Kiser was on parole from a Minneapolis "workhouse" at the time of his death here last June 29.

Kiser died in the local police station. Barker, policeman at the time, is charged with murder without malice.

It is alleged that he struck Kiser with a blackjack, causing the latter to die.

District Attorney Eldon Mahon said the state would rest its case this afternoon.

Testimony was heard from Mrs. Kiser and Dr. Kenneth Cowan this morning. Yesterday, as a state's witness, she told of the incident surrounding her husband's death. Under cross examination this morning, she said that both she and Kiser had been drinking on the night in question.

Dr. Cowan testified that he examined Kiser on the floor of the police station, finding bruises on the back of his head and in back of his left ear. He said it was his opinion that the bruises could not have been caused by a fall, and that a blow with a police "slapper" could have caused the injuries.

Mrs. Kiser testified Tuesday that she had seen her husband struck by a "slapper"—a flat blackjack—and that "he went limp and died shortly thereafter."

Kiser was arrested by police following a disturbance at Starr's Drive-in, east of Colorado City. Mrs. Kiser had driven into the door of an old cellar behind the drive-in. After an attempt to free the car from the cellar door, Kiser entered the drive-in. Mrs. Kiser said that he had gone to get help. Police were called by drive-in employees who claimed that Kiser was using abusive language.

Kiser was taken to the police station and according to Mrs. Kiser's testimony, as he was being booked he said a "foul word" and Barker slapped him.

"Then Jackie went for him," she said. She testified that two men grabbed Kiser and that Barker struck him with the slapper.

Dr. Jarrett Williams, Abilene pathologist, said that Kiser's death was due to a hemorrhage at the base of the brain, and added that Kiser had "sustained a blow or blows at the back of the head."

Under cross examination, Williams testified that a test of Kiser's blood indicated that Kiser was intoxicated. He also admitted the possibility that a blood vessel could have burst under the combination of drink, anger and exertion, but added that it was "extremely unlikely."

House members took up a resolution condemning the use of federal troops to enforce public school integration orders in Texas or elsewhere. After the long resolution was read, opposition members asked a second reading.

Memorials and tributes occupied most of the time in the House while the Senate met for about 20 minutes and dismissed until 10:30 a. m. tomorrow.

The resolution under House consideration was offered by Rep. Joe Chapman of Sulphur Springs. It would inform President Eisenhower that Texas does "not request the use of federal troops" to enforce "modern sociological concepts" and declares it is the state's constitutional right to preserve order and prevent violence.

The House yesterday sidestepped the resolution demanding that the governor let them consider segregation matters now.

A part of Daniel's program for the session got off the ground somewhat last night in a hearing before the House Criminal Jurisprudence Committee. Little difficulty was seen in eventual final passage of a bill creating a state law enforcement study commission.

In the Senate, the General Investigating Committee was to question Largent Parks, president of Preferred Life Insurance Co. and Preferred Life Underwriters Inc. of Dallas. No explanation was given for calling him. Two co-op writers had been summoned earlier as the committee sought more testimony in its investigation of "loose talk" about legislators.

Meanwhile another House subcommittee dug into the problem of rewriting Daniel's million dollar water planning bill. A substitute measure and 33 amendments also will have to be considered. It was ordered to report "as soon as possible."

Lobby registration was the other key reason why Daniel called back the lawmakers. Up to now, neither House nor Senate committee has even assigned the bills to subcommittee.

### Attorneys Clash In Cage Trial

DALLAS (AP)—Attorneys clashed in heated arguments today as the state sought to show that Ben Jack Cage, the tall, smiling insurance promoter, embezzled \$100,000 from the ICT Corp.

The former secretary-treasurer of the ICT Corp., one of the 74 companies in Cage's former insurance and investment empire, was the chief witness. He is Francis J. Knoll, now of Philadelphia.

Over vigorous objections, Dist. Atty. Henry Wade sought to bring out how and why money owed Jack Cage and Co. by the ICT Corp. skyrocketed from about zero to a million and a half dollars in the spring of 1955.

Both state and defense sought to find out more about the \$100,000.

### UF Needing \$32,750 To End Drive

Still needing \$32,750, the Big Spring-Howard County United Fund campaign faces its last scheduled report meeting Thursday.

All workers were being urged today to complete their contacts and turn in reports at the noon meeting in the Settles Hotel.

"We can still close out on schedule, if every worker will finish his assignment," said K. H. McGibbon, general campaign chairman. "Please work those cards and turn in reports."

McGibbon also reminded that persons who have not been contacted and who wish to contribute may do so by calling the United Fund offices, Telephone AM-4381. A worker will be dispatched to pick up any gift that is offered, he said.

Goal of the drive is \$89,100. Through Tuesday, about \$56,350 had been raised.

Funds collected in the one-year drive will go to finance for the next year the operations of Salvation Army, YMCA, Boy Scouts, Red Cross, Girl Scouts, Milk & Ice Fund, Cancer Society, West Side Youth Center and Summer Recreation Program.

### Search Expands For Instruments From Gondola

IRON MOUNTAIN, Mich. (AP)—A search for scientific instruments looted from the gondola of a Navy high-altitude balloon extended today to Chicago and Milwaukee.

About 20 per cent of the equipment has been recovered, officials said, but the most important instrument, a camera, is still missing. The recovered articles include a radio, the log book and some records.

Otto C. Winzen, president of the Winzen Research Corp., who came here from Minneapolis to direct salvage of the equipment, said the FBI is attempting to trace some of the missing items to Chicago and Milwaukee.

The search extended to those cities, Winzen said, on the theory that they were carried away by souvenir hunters.

The balloon came down in a swamp about 25 miles southeast of here in the Hermansville area of Upper Michigan last Friday.

Most of the articles recovered so far have been turned in voluntarily.

Winzen said immunity from prosecution was offered if the items were returned immediately.

Some of the recording instruments were turned in by teenagers. Others were recovered by FBI agents and state police.

No arrests have been made and no charges filed.

### LATE BULLETIN

NEW YORK (AP)—The stock market raked upward today under the impetus of a strong demand from all sections of the country.

President Eisenhower's statement that he would make a series of talks on his "beliefs and determinations" on the national economy and other matters was credited by many brokers with sparking the price rebound.

(Earlier story on Page 3-A).

# Macmillan Arrives For Conferences With Ike

Before a closed meeting of the executive board of the Teamsters Union got under way in Chicago, smiling President-elect James Hoffa, center, posed at the head of conference table with Vice President William Lee, left, of Chicago, and President Dave Beck, right. They met to discuss sessions with the U.S. District Court, the Senate racketeering investigating committee and the union leadership.

### GOALS DELAYED House Stalled On Segregation Item

AUSTIN (AP)—Stalling tactics were used again today in the House to delay at least temporarily a show down vote on a resolution demanding that Gov. Price Daniel submit segregation legislation.

House members took up a resolution condemning the use of federal troops to enforce public school integration orders in Texas or elsewhere. After the long resolution was read, opposition members asked a second reading.

Memorials and tributes occupied most of the time in the House while the Senate met for about 20 minutes and dismissed until 10:30 a. m. tomorrow.

The resolution under House consideration was offered by Rep. Joe Chapman of Sulphur Springs. It would inform President Eisenhower that Texas does "not request the use of federal troops" to enforce "modern sociological concepts" and declares it is the state's constitutional right to preserve order and prevent violence.

The House yesterday sidestepped the resolution demanding that the governor let them consider segregation matters now.

A part of Daniel's program for the session got off the ground somewhat last night in a hearing before the House Criminal Jurisprudence Committee. Little difficulty was seen in eventual final passage of a bill creating a state law enforcement study commission.

In the Senate, the General Investigating Committee was to question Largent Parks, president of Preferred Life Insurance Co. and Preferred Life Underwriters Inc. of Dallas. No explanation was given for calling him. Two co-op writers had been summoned earlier as the committee sought more testimony in its investigation of "loose talk" about legislators.

Meanwhile another House subcommittee dug into the problem of rewriting Daniel's million dollar water planning bill. A substitute measure and 33 amendments also will have to be considered. It was ordered to report "as soon as possible."

Lobby registration was the other key reason why Daniel called back the lawmakers. Up to now, neither House nor Senate committee has even assigned the bills to subcommittee.

### UF Needing \$32,750 To End Drive

Still needing \$32,750, the Big Spring-Howard County United Fund campaign faces its last scheduled report meeting Thursday.

All workers were being urged today to complete their contacts and turn in reports at the noon meeting in the Settles Hotel.

"We can still close out on schedule, if every worker will finish his assignment," said K. H. McGibbon, general campaign chairman. "Please work those cards and turn in reports."

McGibbon also reminded that persons who have not been contacted and who wish to contribute may do so by calling the United Fund offices, Telephone AM-4381. A worker will be dispatched to pick up any gift that is offered, he said.

Goal of the drive is \$89,100. Through Tuesday, about \$56,350 had been raised.

### Search Expands For Instruments From Gondola

IRON MOUNTAIN, Mich. (AP)—A search for scientific instruments looted from the gondola of a Navy high-altitude balloon extended today to Chicago and Milwaukee.

About 20 per cent of the equipment has been recovered, officials said, but the most important instrument, a camera, is still missing. The recovered articles include a radio, the log book and some records.

Otto C. Winzen, president of the Winzen Research Corp., who came here from Minneapolis to direct salvage of the equipment, said the FBI is attempting to trace some of the missing items to Chicago and Milwaukee.

The search extended to those cities, Winzen said, on the theory that they were carried away by souvenir hunters.

The balloon came down in a swamp about 25 miles southeast of here in the Hermansville area of Upper Michigan last Friday.

Most of the articles recovered so far have been turned in voluntarily.

Winzen said immunity from prosecution was offered if the items were returned immediately.

Some of the recording instruments were turned in by teenagers. Others were recovered by FBI agents and state police.

No arrests have been made and no charges filed.

### Strategy Meeting

WASHINGTON (AP)—British Prime Minister Harold Macmillan came here today to appeal to President Eisenhower for restoration of the American-British partnership in scientific research. He said his single purpose is to "improve friendship and extend cooperation" between the two countries.

Macmillan's plane landed at 9:17 a. m. after an overnight flight from London. He was met by Secretary of State Dulles who said that while the Communist world is held together by force the free world is united by understanding. "We must never take that understanding for granted," Dulles said in his greeting.

Dulles declared the three-day talks, opening at the White House in the afternoon, were not just aimed at strengthening American-British ties. Their broad purpose, he said, is to help all nations which need to cooperate and work together to wage peace successfully.

Macmillan also referred to the interest of other friendly countries in telling Dulles his talks with Eisenhower would have "only one purpose—to improve our friendship and extend cooperation between our two countries in all fields, and they are many, in which we work together with our allies and friends."

SATELLITE PROBLEM

Macmillan recalled he met with Eisenhower at Bermuda in March but said that "a good deal has happened" since then and another meeting was indicated. He did not mention it, but the two developments which clearly lay behind the decision to meet this time were Russia's firing of intercontinental missiles, and the launching of the Sputnik satellite early this month.

Macmillan's first scheduled meeting with Eisenhower was set for 6 p. m. but it was expected he actually would go to the White

### Abel Decides Not To Take Stand

NEW YORK (AP)—Soviet Col. Rudolf Abel, being tried on spy charges, has decided against testifying in his own defense and will call no defense witnesses, his lawyer said today.

The attorney, James B. Donovan, disclosed these plans to newsmen during a recess as the trial neared an end.

The prosecution may complete its case today. Donovan said Abel had made the decision not to testify and to rest his case on the testimony presented by the prosecution.

### U.N. Syrian Debate Cools Off For Saud's Mediation

UNITED NATIONS, N.Y. (AP)—army officers took control in Syria.

The U.N. Assembly's debate on the Syrian-Turkish crisis went into a cooling-off period today to await results of King Saud's try at mediation.

There still was no indication from Damascus, however, that the Syrian regime would send representatives to Saudi Arabia to negotiate with the monarch and the Turks on the latest threat to peace in the Middle East.

Turkey dispatched Minister of State Fatim Rustu Zorlu and two aides to Saudi Arabia yesterday. There was speculation in Ankara, the Turkish capital, that Saud would propose at least a token withdrawal of troop reinforcements which Turkey sent to the Syrian border after pro-Soviet

# Ike To Go Directly To People In Series Of 'Faith' Parleys

NEW YORK (AP)—President Eisenhower will go directly to the American people in a series of talks to proclaim anew his faith that the free world will prevail against communism in this outer space age.

The President's plans for perhaps half a dozen speeches in various sections of the country in the next few weeks were disclosed as he told a nationwide radio audience last night he intends to seek opportunities to set forth his views in these critical times.

Speaking before 1,500 applauding guests at a Waldorf-Astoria Hotel dinner sponsored by the National Fund for Medical Education, Eisenhower dealt mainly with a need for money to train more doctors and other medical personnel and to expand health facilities.

He revised his prepared text shortly before he spoke to assert solemnly that he also had other problems on his mind, and that he plans to discuss them in the weeks ahead.

He put it this way against the

### Partnership In Research Urged

House of an opening session in mid-afternoon.

Diplomatic authorities said there was no doubt that Macmillan and the British government generally feel that the best way to recover lost ground is to pool the scientific resources, including the brain power, of both Britain and the United States.

Eisenhower has spoken of employing the North Atlantic Treaty Organization as something other than a military alliance. This suggests that he has in mind a NATO pool of scientific resources. Other administration officials reported he was planning along that line.

### Tito Aid Suspended

WASHINGTON (AP)—Secretary of State Dulles has decided to suspend the bulk of U.S. aid to Yugoslavia, including jet planes, because of President Tito's recognition of Communist East Germany.

Qualified officials were not sure whether any new Middle East initiative on the part of the United States or Britain would come out of the talks. They did expect some further evidence of determination on the part of both governments to resist Soviet gain in the area.

Greatly expanded scientific cooperation between Britain and the United States would require a presidential proposal to Congress to modify the basic law governing release of atomic weapons secrets. Some of the President's advisers see this as a serious obstacle, because they are not sure what the temper of Congress will be when it resumes work in January.

### U.N. Syrian Debate Cools Off For Saud's Mediation

UNITED NATIONS, N.Y. (AP)—army officers took control in Syria.

The U.N. Assembly's debate on the Syrian-Turkish crisis went into a cooling-off period today to await results of King Saud's try at mediation.

There still was no indication from Damascus, however, that the Syrian regime would send representatives to Saudi Arabia to negotiate with the monarch and the Turks on the latest threat to peace in the Middle East.

Turkey dispatched Minister of State Fatim Rustu Zorlu and two aides to Saudi Arabia yesterday. There was speculation in Ankara, the Turkish capital, that Saud would propose at least a token withdrawal of troop reinforcements which Turkey sent to the Syrian border after pro-Soviet

background of Russia's progress in the satellite and the long-range ballistic missile fields.

"They include the continuing endeavor of our people in the fields of scientific achievement—and the methods for attaining even greater achievements, our responsibilities and our opportunities abroad, the strength of our domestic economy, the character and power of our defense programs, and the right of our people to confidence in these strengths."

"I have unshakable faith in the capacity of informed, free citizens to solve every problem involved," he said.

Departing from his prepared text, the President said further to a round of applause at that point: "If I may be able, in these talks, to set out in proper perspective the truth and the facts of these matters, no time consumed will be too much, no personal inconvenience too great."

The President provided no detail regarding his plans. But aides said he will make perhaps as many as half a dozen speeches, some of them outside of Washington. The first, most likely dealing with the nation's science programs, is expected soon.

The talks probably will continue into the early weeks of next year.

The administration has been sharply criticized by some members of Congress who feel the satellite and missile programs have not been pushed vigorously enough.

Eisenhower's plans to speak out underscore his determination, aides said, to reiterate his stated belief that the free world can outdo the world of communism.

In doing so, the President will be putting his personal prestige on the line in an effort to bolster America's confidence in the nation's military and domestic economy programs.

Without saying so in so many words, Eisenhower indicated he intends to put great emphasis on the domestic economy — at this time of slumping stock market prices.

Twins Greet Boston

The Foster twins Jerry, left, and Jimmy, right, with their mother Mrs. John Foster of Pocatello, Idaho, walk away from their plane in Boston. The 13-year-old identical twins may make the sixth kidney transplant in medical history. Jimmy suffers from an ailment that causes deterioration of his kidneys. Doctors have said in previous similar cases the only hope for life is kidney transplant from the healthy twin. The boys will undergo tests at Peter Bent Brigham hospital to determine if the operation can be performed.

## Syrians In Training For Guerrilla Army

By ANGELO NATALE  
DAMASCUS, Syria (AP)—A group of men, rifles in hand, dived to the ground at a given signal, sprawled on their stomachs and began firing in a partially completed football stadium.  
This was the scene today at one training center for Syria's Popular Resistance organization—a movement composed of tens of thousands of civilians in the Arab nation's "irregular army."  
The organization has moved into high gear since tension increased over Turkish troop concentrations on the Syrian border.  
Some 400 civilian volunteers turned up for the football-field, firing practice not far from the heart of Damascus. Many were youngsters who looked as if they had just entered their teens. Some wore the PR uniform—olive green coveralls—but most were in street clothes.  
They fired at 28 targets with whatever weapons were available, mostly old French rifles.  
The scene was typical of what is happening throughout Syria, in Damascus, Aleppo, Homs and Latakia—all key cities—members of the resistance organization are receiving battle instruction for the "sacred self-protection" of Syria. They are being trained for street fighting. Weapons are being distributed in various cities. The army chief of staff, Maj. Gen. Afif Bizry, has called on the volunteers to wage relentless guerrilla warfare in the event of an invasion.  
The popular resistance organization is headed by Bizry's brother Col. Salah Bizry.  
One of the Damascus group, 15-year-old Fathi Atak, said he joined the movement to "defend the Arab homeland which extends from the Atlantic to the Arab (Persian) Gulf."  
Does he believe the Turks will attack Syria? "Yes," said Fathi. Why? "Because they are massing troops on our border."  
Reports from Aleppo said the local government—at a ceremony yesterday, gave the signal to the public resistance organization to start digging trenches around the city and in northern areas close to the Turkish border.

## 4-H Electrical Demonstration Is Set For Saturday

An electrical demonstration for Howard County 4-Hers and their parents will be held here Saturday sponsored by Texas Electric Service Co.  
Bill Sims, county 4-H director, said the meeting will be held in the Fair Association barn beginning at 9 a.m. All 4-H members in the county and their parents are urged to attend. A lunch will be served at noon and the program will continue to 3 p.m. Members of various 4-H clubs are asked to bring lunches, Sims said.  
Olen Graves, service representative for TESCO, is in charge of the demonstration but will probably have other Texas Electric employees helping him. The demonstration will be to help the 4-Hers with electrical problems, and acquaint them with electrical possibilities and safety in wiring arrangements.  
Following the demonstration, some of the 4-H members will have opportunities to give shorter demonstrations, Sims said.

## Yarborough Hits Missile Secrecy

DALLAS (AP)—Sen. Ralph Yarborough (D-Tex.) says keeping a veil of secrecy about missile development won't help the United States regain the lead in the race to outer space.  
"I think the American people want to know the truth of why we have fallen so far behind in the race for space," Yarborough said last night. He spoke at a three-state conference of the National Assn. of Radio and Television Broadcasters.  
"No stamp of top secret will protect us if we are permanently outstripped in the space between the stars."  
Yarborough recalled the President's Commission on Government Security recommended last June that Congress enact legislation setting up penalties up to 5 years imprisonment for persons disclosing information classified as secret or top secret without proper authorization.  
He called the proposed legislation "an extension of a dangerous threat to freedom of speech and the press," and pledged to fight it.

## Shaken Wall Street Awaits Better Times

NEW YORK (AP)—A badly shaken Wall Street today wondered when its favorite barometer, the stock market, would straighten itself out.  
The market has been declining since mid-July. Many paper profits have been erased.  
This week brokerage house board rooms have been crowded with people, intently watching the illuminated ticker tape and asking, "When will the turn come?"  
Some Wall Street prophets feel the decline may be bottoming out. Others aren't so sure. Few, if any, expect an immediate return of a rampaging bull market.  
Looking back on the decline, many agreed with Gerald Loeb, partner in E. F. Hutton & Co.: "It's a little too late to sell and a little too early to buy."  
In the first two days this week the market has taken a severe drubbing on heavy selling waves. On Monday the break was the largest for any day since Sept. 26, 1955, following President Eisenhower's heart attack.  
Yesterday things were a little better. The market didn't go down quite as much as on Monday. But it did sink to a new low for more than 2½ years.  
Quoted value of stocks listed on the New York Stock Exchange totaled \$219,175,881.025 Jan. 1. Since then about \$3 billion has been clipped from that figure, based on the fall in the Associated Press average.  
That average reached its 1957 high of \$188.80 July 12. Yesterday it closed at \$150.90.  
In back of the downturn brokers pointed to numerous items, which could generally be summed up in the word "uncertainty" about the domestic and international situations.  
On the domestic front there were such items as tight money, defense order cancellations, minor layoffs at scattered points, failure of business to boom as much as the more optimistic had anticipated.  
On the international front there were such items as concern over the Middle East and whirling events in the form of Sputnik, that Russia is ahead of the United States in missile developments.  
H. I. Prankard II, president of Affiliated Fund, said, "We do not believe that this adjustment in market prices which has been taking place has been completed. "While we feel that many stocks are still overpriced, we also feel that the prices of many other stocks have reached points where they represent excellent values for long-term investment."

HOUSTON (AP)—Gov. Marvin Griffin of Georgia last night called for formation of "the biggest, most resolute organization in the South we have ever had" to halt integration and protect states' rights.  
"The time has come in the South when we must unite," Griffin told an audience of predominantly pro-segregationists which included 60 members of the Texas Legislature.  
"If we organize, become resolute, nothing will be able to move us, not one foot," Griffin said.  
He said he wouldn't be a candidate for President in 1960, but would support a third party candidate, "if it means the salvation of this country and the protection of the people's rights under the Constitution."  
The entire crowd joined in singing "Dixie" and "The Eyes of Texas" to the music of a white high school band. During the meeting several persons in the audience waved small Confederate flags.  
He said he was not a moderate and warned Southern politicians that "no longer can they pussy-foot" on segregation.  
His speech was sponsored by the Citizens Council of America in Texas, Inc., a pro-segregation organization.

## Griffin Urges Fight By Dixie

HOUSTON (AP)—Shelby Gill of Amarillo undoubtedly hopes future birthdays don't end up like his 42nd yesterday.  
Gill, in Colorado to hunt elk, was given a 30-day jail sentence and fined \$150 for drunken driving and fined \$10 for not dimming his headlights. Justice Walter Christian imposed the sentences.

HOUSTON (AP)—Col. W. B. Bates has been elected chairman of the board of governors for the University of Houston. He succeeds the late H. R. Cullen, oilman-philanthropist.

HOUSTON (AP)—The first anniversary of the Hungarian revolt against Communist oppression began quietly today in Budapest. Red troops and police stood ready to smash any demonstrations.

WESTERN embassies in the Soviet satellite capital reported at mid-morning that all appeared normal. Workers appeared to be going to their jobs, students to school.  
"All is quiet, all is normal here," said a German-speaking official at Budapest's big Csepel steel works by telephone. The steel plant was the scene of the last-ditch stand of Hungarian workers against Russian tanks that crushed the revolt.  
Communist leaders have warned repeatedly that they would crush mercilessly any attempt to observe the anniversary publicly, whether with street marches and meetings or even by wearing of black mourning bands.  
Premier Janos Kadar, the Communist puppet installed when the Soviet troops smashed the revolt last November, warned again yesterday against any outburst.  
"If somebody wants a fight, all right, we can fight too," he told a meeting of the Patriotic People's Front, which includes Communists and fellow travelers.  
"We Communists will use force" to remain in power, he said, but "we prefer peace."  
Armed guards at barracks and strategic buildings were strengthened. Elaborate measures were taken to prevent unauthorized persons from getting hold of vehicles, typewriters or duplicating machines.  
Soviet troops were kept out of sight in barracks in Budapest and in nearby camps. But strong Rus-

## Hungarian Revolt Anniversary Quiet Following Red Warnings

VIENNA (AP)—The first anniversary of the Hungarian revolt against Communist oppression began quietly today in Budapest. Red troops and police stood ready to smash any demonstrations.

## Griffin Urges Fight By Dixie

HOUSTON (AP)—Gov. Marvin Griffin of Georgia last night called for formation of "the biggest, most resolute organization in the South we have ever had" to halt integration and protect states' rights.

## Bad Birthday

HOUSTON (AP)—Shelby Gill of Amarillo undoubtedly hopes future birthdays don't end up like his 42nd yesterday.

HOUSTON (AP)—Col. W. B. Bates has been elected chairman of the board of governors for the University of Houston.

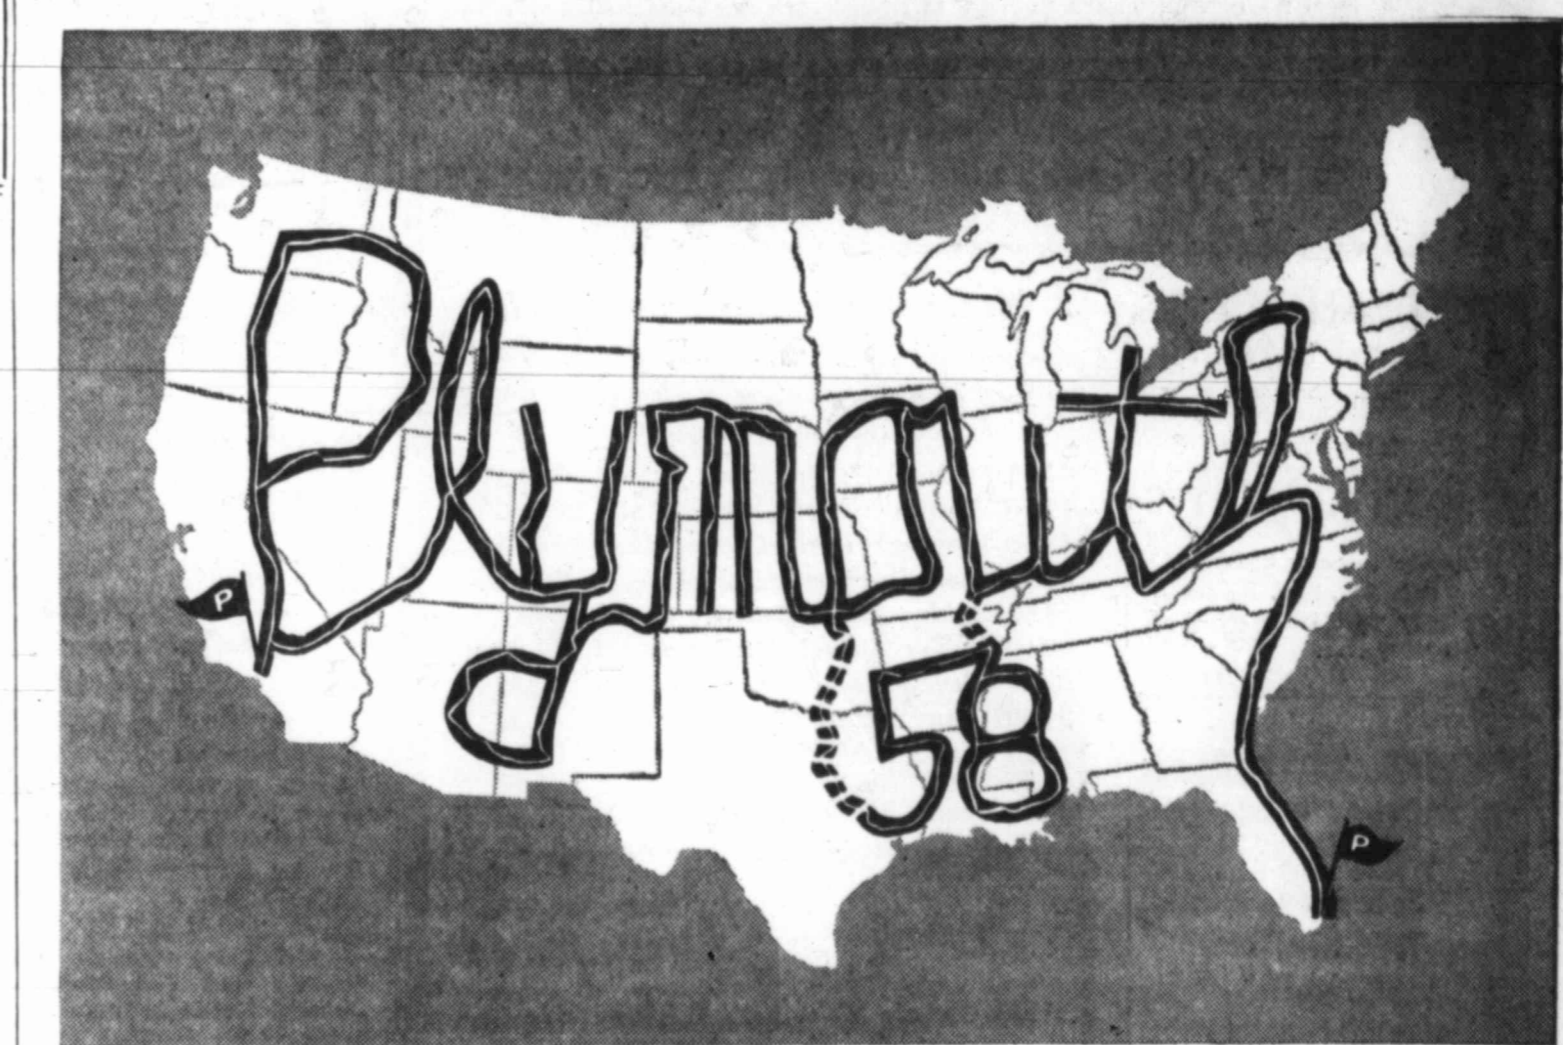

HOUSTON (AP)—The first anniversary of the Hungarian revolt against Communist oppression began quietly today in Budapest.

## Over 100 Sign For Moose Club

The proposed Loyal Order of Moose organization has exceeded its quota of 100 members, required for securing a charter, and now expects to have 400 enrolled for the first initiation.  
Membership fee will be half price until the first initiation is held. Leaders in the movement said the lodge probably will open in about three weeks.  
They have leased the old Skyline restaurant building which will serve as clubroom for the Moose. Another booster meeting is scheduled for 8 p.m. Wednesday in Room 314, Crawford Hotel. Persons interested in membership in the organization should contact Bill Sawyers, Sam Burns, A. D. Rice, Louis Heflin, Charlie Dese, or any other member.

# YOUR NEXT PLYMOUTH JUST TAMED THE TOUGHEST TEST TRACK ON EARTH!

That's the "track" scrawled across the map: 58,000 miles... more than twice around the world. Six years of driving crammed into 58 days by a brand-new 1958 Plymouth. Read below, see how it affects your future.

When you step into an auto showroom and plunk down hard-earned cash for a new car, you've got a right to more than just surface beauty. You've got a right to a car that's going to stand up under the punishment of day in, day out driving. A car that can go on delivering new-car comfort and economy season after season.

when the Plymouth braked to the final halt were impressed by the results of this extraordinary test.

- Total miles traveled: 58,000
- Total days elapsed: 58
- Number of brake applications: 37,551
- Number of wheel revolutions: 47,732,000
- Number of engine tune-ups: 6

We designed the 1958 Plymouth to do just that. But we didn't settle for endurance in theory. We wanted proof.  
See that route outlined above? It spells out "Plymouth '58" across 37 states. We ran a new Plymouth—one of the first stock production models to roll off the lines—across the route three times to roll up 58,000 miles in just 58 days. That's 1000 miles a day!  
Here are just a few of the results. And even experienced automotive editors who were there

**SENSATIONAL STORE-WIDE**

SORRY! NO TRADE-INS AT THESE LOW PRICES!

**STOCK LIQ**

**The Real REASON Behind This Sale...**

We are PREPARED in this . . . our semi-annual store-wide sale to give you the GREATEST values we have ever offered. With the cooperation of several manufacturers, we have been able to purchase OUTSTANDING buys from various markets . . . yes, for months we have PREPARED for this sales event! And that's not all. Conditions beyond our control FORCED our hand in CLOSING OUT our White Deer West Texas store. Distance was an important factor and our time was limited to one week to move. These stocks were moved to our W. 4th and Gregg store with the same GOING OUT OF BUSINESS TAGS remaining on them. This merchandise was originally TAGGED at cost and LESS. We already have TOO much stock in this store. Now we're literally SWAMPED. You can't buy top quality stocks for less, no matter where you go as liquidators have marked everything down to the proverbial nub. Come early! The early bird catches the worm — YOU may catch a turkey as they are flown off the roof when the clock tolls 9 Thursday morning!

DR. FLORENCE VAN STRATEN ... with fall-out chart of Washington, D. C., area

## War-time Wave Is Now Civilian Meteorologist

WASHINGTON (AP) — Dr. Florence Van Straten is a rare bird — the only woman civilian meteorologist working for the U. S. Navy.

As a war-time WAVE weather officer, she was the only woman ever assigned to active duty aboard a Navy ship. A slim brunette with brown eyes, she looks like a secretary as she sits at her Pentagon desk. But it's high level stuff, including jet and missile travels and radioactive fallout, that occupies her time.

Actually, Dr. Van Straten, 43, a native of Darien, Conn., who holds a Ph. D. in physical chemistry from New York University, would rather be a writer. Fate steered her into this unusual job of research and idea generating on weather problems — present and future.

In her spare time, she writes on a variety of subjects, including science fiction. But, for the Navy, here's an idea of the everyday problems that beset Dr. Van Straten, head of the technical requirements section, U. S. Naval Weather Service:

**Weather for Jets**  
"If jets fly above 50,000 feet, how will we be able to give them weather?"

"If we're going to fire ICBMs (intercontinental ballistic missiles) we have to have a fair idea of the wind structure through which the ICBM ascends and descends."

Although she's just written a Navy manual, "Use of Radar as a Weather Instrument," she doesn't do any weather forecasting.

"I'm probably the world's worst forecaster," she maintains.

Dr. Van Straten gets along pretty well in what might be considered a man's realm and recently received a Navy award for "meritorious civilian service" for devising a method of forecasting radioactive fallout patterns from nuclear explosions on a day-to-day basis. It's now in use by all Navy forecasters. She holds a civil service grade 14, which carries a base pay of more than \$10,000 a year.

Cooking is one of her favorite

## Rosebud Members Hear Seasonal Program

The time of year is right for landscaping and planting bulbs, Rosebud Garden Club members were told Tuesday morning at a meeting held in the home of Mrs. J. G. Lewis, cohostess was Mrs. W. B. Younger.

On the program were Mrs. Horace Reagan, who gave pointers on landscaping, and Mrs. Jack Cook, whose topic was "Bulbs." Both pointed out that this is the time of year to work over the yard and arrange bulbs in the ground.

Two new members, Mrs. Odell Womack and Mrs. John Furquerson, were present for the first time and Mrs. Travis Wyatt was a guest.

During the business meeting the

## Circles Pack For Indians

Clothes for the Indians in Arizona were packed Tuesday morning by the members of the Evan Holmes Circle of Baptist Temple.

The women met in the home of Mrs. Everett Rayburn, where the packing was done as part of the work with community missions. The devotion was given by Mrs. Rayburn from the book of Acts.

Prayers were offered for the missionaries on the birthday list for the day. Mrs. J. S. Bennett, Sterling City Route was designated, the next hostess.

**HORACE BUDDIN**  
Mrs. N. W. Derryberry was hostess to members of the Horace Buddin Circle Tuesday morning, when the group mended and prepared garments to be sent to the Arizona Indians.

The meeting was opened with a prayer by Mrs. Lorraine Sims. It was announced that the Bible study, to be held by the circle on Nov. 11, will be at night. Mrs. Neal Bryant will teach the course at the church.

Five women were present for the work.

1321 12 1/2-26 1/2

### For Half Sizes

For the slightly shorter figure. A lovely dress-up frock for special occasions, designed especially for you in half sizes. Three sleeve lengths.

## Here's Simple Cure For Ailing Thumb

CLINTON, Okla. (AP)—Mrs. Bud Owen was rising out of some of her granddaughter's clothes when she threw her thumb out of place.

While on her way to the doctor's office, she turned around in her car when her grandchild got bubble gum all over her face.

Mrs. Owen reached to get her grandchild and just then the girl hit grandma's ailing thumb—and it popped right back into place.

## Rev. F. C. Flores, Daughter Are Speakers For WSCS Tuesday

Members of the WSCS of the First Methodist Church heard the Rev. F. C. Flores and his daughter, Rebecca, Tuesday morning at the church. They met for a general session.

Rev. Flores, pastor of the Methodist mission for Latin-Americans, was introduced by Mrs. W. A. Hunt. He told of his work with the local mission when he was sent out from Abilene, and then as it was continued when he came to the mission as the pastor.

The speaker discussed the growth of the mission and told the women of the new church, which will be finished some time in November. There was a question and answer period at the conclusion of his talk, and this brought out the fact that he is preaching every evening for braceros, some of whom have never seen a Bible.

Miss Flores discussed the youth work and the women's programs. Mrs. R. W. Thompson presided for the meeting, which 31 attended. Mrs. Jordan Grooms brought the devotion, based on The Inner

## OWC Newcomer Prizes In Varied Categories

Prizes for various qualifications were given Tuesday morning at the coffee for newcomers given at the Officers' Wives' Club.

Mrs. Myrl Pierce won the prize for being the newest bride; Mrs. W. J. Boudreau won the award for having a touch of orange in her attire; the prize for having the most pills in her purse went to Mrs. Samuel B. Garris, and for having a runner in her hose, Mrs. David R. Forward was a winner. Mrs. Nolan F. Young, who was married on Friday 13 was presented a gift and the centerpiece on the coffee table.

Hostesses for the party were members of the executive board. They featured a Halloween theme in their decorations, with an arrangement of brown and gold fall flowers on a brown cloth on the refreshment table.

The next social for the Wives' Club will be a luncheon at the Officers' Club slated for Nov. 7. Reservations must be made by calling Mrs. Robert Steffy, AM 4-6320, or Mrs. George T. Ward, AM 4-4169.

Ten newcomers were present with the members of the club, and Mrs. Florence Whatley was a guest.

## Fora Votes To Enter Jabberwok

Members of the Spoudazio Fora have voted to enter a number in the Jabberwok to be given by the Junior Woman's Forum on Nov. 23. The group met at the home of Mrs. Glen Brown Tuesday evening, with Mrs. Ben Erwin as co-hostess.

A report was given on the rummage sale, which was held recently, and members decided to have another sale on Nov. 9.

Mrs. John King was in charge of the program; she discussed "The Constitution — What It Means To You." It was announced that Mrs. Emma Cochran will be the hostess on Nov. 12.

Refreshments were served to 11.

## Catholic Women Meet Tuesday For Teachers Training

Women from Big Spring and Snyder met at St. Thomas Catholic Church for a Confraternity Teachers Training Course in religion for the lay members.

Teaching methods were discussed by Sister Ellen of the Missionary Sister of Our Lady of Victory.

The Rev. William Moore taught a class dealing with doctrine. It was announced that a special course in doctrine will be given each Tuesday, from 9 to 11 a.m., for children not in parochial schools. There will be 30 sessions.

These complete the course satisfactorily will be given teachers certificates it was announced. Seventeen attended the meeting.

## Girl Scouts Have Grooming Lesson

Five Girl Scouts had a lesson on good grooming Tuesday afternoon when they were given shampoos and sets at the Hairstyle Clinic. The troop is under the direction of Mrs. Andrew Terpening, with Mrs. George T. Ward as assistant leader.

Receiving the training in grooming were Sandra Crawford, Sue Batterton, Jeannette Wiemer, Kay Foster and Joyce Davidson.

## Beta Sigma Phi Has Book Review, Film

Mrs. Billy Casey reviewed the book, "The Believers" by Janice Holt Giles, for the Xi Delta Epsilon Chapter of Beta Sigma Phi Sorority Tuesday evening. The chapter met in the home of Mrs. Bill Newsum.

Plans were completed for the dinner dance set for Nov. 2 at Park Inn. Mrs. Casey and Mrs.

## Mrs. Marshall Day Leads WSCS Study

Wesley Methodist WSCS Circles met together at the church Tuesday morning to begin the study of "Christ, the Church and the Race." Mrs. Marshall Day brought the introduction and first chapter.

The worship center was arranged with dolls of all races surrounding a miniature church.

Mrs. Day led the meditation, and members joined in a discussion of the first chapter.

For closing, a prayer and litany was brought by Mrs. Bill Clemon and Mrs. Valena Bryant.

## Various Activities Are Announced By Catholics

Plans were made for several activities Tuesday evening when members of St. Thomas Altar Society met at the church.

It was announced that parents will be invited to the Halloween party to be given at the church Sunday afternoon at 5:30. Children are to dress as saints, and prizes will be given.

The meeting of the district council of Catholic Women was announced for Sweetwater on Nov. 5 at 9 a.m. Anyone desiring trans-

portation may call Mrs. J. E. Flynn at AM 3-2517, members were told.

A benefit bingo party will be given at the church on Nov. 17. Chairman is Mrs. Flynn, with Mrs. L. D. Jenkins and Mrs. Bernard Huchton as committee members.

Mrs. Wayne Basden explained the legislature bill providing for a recreation center for the state hospital.

Fifteen were present at the session.

## Hours Announced For Flower Show

Hours for the Fall Flower Show to be presented Thursday, are from 3 to 8 p.m. The show, which is sponsored by the Council of Big Spring Garden Clubs will be set up in the Practical Arts Building at Howard County Junior College.

Included in the council are the Big Spring Garden Club, the Planters, Spaders, Rosebud, Oasis and Four O'Clock Garden Clubs.

Theme for the show is Lone Star Parade, and arrangement classes will follow appropriate titles, such as The Wind Blow, Texas Drought, Black Gold, The Giant, Romance of the Gulf, Tall Tales, King Cotton and others.

## Daughter Is Born To Robert Myerses

Mr. and Mrs. Robert Myers, Bldg. 7 Apt. 2, Wagon Wheel Apts., are parents of a daughter, Patti Michele, born Tuesday at the Big Spring Hospital. She weighed 7 pounds 14 1/2 ounces.

Mrs. Myers is the former Maxine Rosson, daughter of Mr. and Mrs. Tom Rosson. Paternal grandparents are Mr. and Mrs. Albert Myers, Miami, Ohio.

## Knott News

KNOTT—M. T. Mitchell and his granddaughter, Linda Mayfield, are in Oklahoma where they are visiting relatives.

Mr. and Mrs. Bolin of Lewisville spent the weekend with their son, W. T. Bolin, and his family.

Fred and Jack Aves and Dick Buehler are on a hunting trip this week. Mrs. Effie Caves and Mrs. Fred Caves visited with Mrs. Alice Herren and Ida.

## Apple Crispie May By Warm Or Cool

Apple crispie served warm or cold, with or without cream, is a most welcome fall dessert. It can be made with little effort and is liked by almost any member of the family.

**APPLE CRISPIE**  
Ingredients:  
3/4 cup sifted flour  
1 cup sugar  
6 tbs. butter or margarine  
4 cups thinly sliced pared apples  
3/4 cup water  
1 tsp. vanilla  
1/4 tsp. salt

Method:  
Mix flour, sugar and butter together with pastry blender or fingers until crumbly. Turn apples into a shallow baking dish—6 by 10 by 1 1/2 inches. Mix water, vanilla and salt together; sprinkle over apples. Sprinkle crumb mixture over apples evenly. Bake in moderate (350 degrees) oven until apples are tender and topping is browned—about 40 minutes. Serve warm as is or with plain or whipped cream. Makes 6 servings.

## Sub For Grapefruit

Ever cut large oranges in half and serve, like grapefruit, for breakfast. To be eaten with a teaspoon? Be sure to cut the fruit away from the dividing membranes.

## Colorful Towels

Easy-to-use fruit stamp-ons in red, yellow and blue plus day-names in cross-stitch make a gay set of towels for the kitchen rack. No. 140 has hot-iron and color transfers.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y.

## Benefits, Parties Are Planned By Rebekahs

Plans for benefit affairs and family entertainment were heard by the Big Spring Rebekah Lodge, 284, at their meeting Tuesday evening at the IOOF Hall.

Odd Fellows announced a chili supper for Monday evening beginning at 7:30. Proceeds will be used to purchase new regalia. Tickets will be 75 cents. The family night entertainment will be held Tuesday after a short business meeting. The Greens will entertain the Pinks at a covered dish affair.

Eighteen attended the meeting at which Mrs. Claude Gilliland, noble grand, presided.

## Newly-Formed Circle Names Officers Tuesday

A newly formed group, the Anne Dwyer Circle of First Baptist Church, met Tuesday afternoon in the home of Mrs. Wayne Bartlett. Mrs. Zack Gray was named chairman, with Mrs. Bartlett to serve as cochairman. Mrs. Dave

## Dorchester is secretary; Mrs. Raymond Moore, treasurer.

Elected to serve as program chairman is Mrs. Charles Tyler, and Mrs. Bob Dean will be community missions chairman. Stewardship will be in charge of Mrs. Jim Scrimshire; Mrs. Kyle Lord will be prayer chairman.

Mrs. Marvin Baker will supervise the work of the young people of the church; Mrs. Jack Swearingen is to be mission study chairman.

Mrs. Tyler began a review of the book, "Continents in Commotion" and showed slides to illustrate her review. Names for secret pals were drawn.

The project for the group will be to collect clothing and school supplies for the children at Kate Morrison School and to furnish cosmetics for patients at the Big State Hospital.

## Junior Woman's Forum Adds Nine To Roster

Nine new members were received into the Junior Woman's Forum Tuesday afternoon when the club met in the home of Mrs. William Shropshire for a program and business meeting.

New members are Mrs. Jack Taylor, Mrs. Jerry Ward, Mrs. Kyle Cauble, Mrs. Kelley Lawrence, Mrs. Bill Draper, Mrs. Paul Meek, Mrs. Charles Neese, Mrs. Kenneth Perry and Mrs. E. C. Smith.

Mrs. Bruce Wright, presiding in the absence of the president, introduced Hugh Hamm and Jerry Dunlap, instructor and student in Driver Education at Junior High School. They stressed the importance of distance perception, knowing how long it takes to bring a car to a stop from various speeds, and field division.

During the business hour, the group was told of the decision of the City Federation of Women's Club to maintain a library at the state hospital. The forum will assist in its operation.

Mrs. C. W. Shouse, ways and means chairman, announced that invitations to participate in the

Jabberwok had been distributed. She said three judges would make the winning decisions for which prizes of \$50, \$25, and \$10 will be given. The show will be presented in the large auditorium at Howard County Junior College, on Nov. 23 at 8 p.m.

"We took an oath that nothing in the world would ever break the bonds of true friendship . . . But then she moved to another part of town."

## U.S. Faces Great Danger In Mid-East

By JOHN HIGHTOWER

WASHINGTON (AP)—For years the Middle East has been torn by conflict. The United States never has succeeded in devising a policy for dealing decisively with it.

As a result the United States today faces greater dangers and deeper involvements in the power politics of that region than at any time in its history. It also faces the possibility of serious defeats there by Russia unless means can be found to block the spread of Soviet influence.

The United States has had two major objectives: to make peace between Israel and the Arab states and to protect the region against Soviet inroads. Many of the best informed diplomats and officials consider the Israeli-Arab conflict to be the main source of trouble. With a permanent peace arrangement between Israel and its Arab neighbors, all other troubles would be manageable.

All efforts in this direction, however, have failed.

Other factors are the conflict between the newly independent peoples of the Middle East and the colonial powers of Western Europe, and the struggle for leadership among Arab states.

**BIG POTENTIAL**

If Russia could break the ties and influence of the United States and its allies, the Soviet gains would be tremendous. Russia would get authority over output from the world's richest concentration of oil reserves. It would control the Suez Canal and the airways between Europe and Asia. It would break the chain of American and Allied bases which is the first line of defense against Soviet striking power.

The high stakes made the whole topic of Middle East politics and defense one of the top items on the agenda for the meeting here this week of President Eisenhower and British Prime Minister Harold Macmillan. But this is nothing new; the Middle East has been a priority problem for every high-

level Western conference for years. And the prospects are that this will be true for years to come. It seems probable that any except the most carefully localized outbreak of fighting would sooner or later draw United States forces into the maelstrom of a Middle East war.

U. S. commitments began to take firm shape in 1947 when President Truman proclaimed the policy of helping Greece and Turkey to resist Communist pressures. This became known as the "Truman Doctrine."

**DULLES WARNING**  
In 1952 Greece and Turkey became members of the North Atlantic Alliance. As Secretary of State Dulles sharply reminded Russia last week, that pact means an attack on Turkey would be considered an attack on the United States.

In November 1955 Britain, Turkey, Iran, Iraq and Pakistan formed the anti-Communist Baghdad Pact. The United States within a short time began joining con-

mittes of the alliance—just short of full membership.

The most recent commitment came last March when President Eisenhower and Congress joined in proclaiming an intention to defend the Middle East against aggression by "international communism," with the use of force if that became necessary and if any country attacked asked for American help.

By these measures the U. S. government has tried to fill the vacuum left by the decline of British and French power in the area. At the same time it has sought to disassociate itself—in the eyes of the Arab countries especially—from identification with the former colonial rulers even though they are its principal allies in the cold-war. This aspect of Ameri-

can policy led to a fantastic spectacle last November: the United States joined Russia in the United Nations to denounce Britain and France along with Israel for attacking Egypt.

In the intervening year this breach of Allied cooperation has been largely overcome under the pressures of increasing Soviet political and diplomatic offensives against the Middle East.

While an obscure border inci-

dent between Turkey and Syria could explode into World War III, Secretary Dulles says this ultimate disaster is unlikely to occur because world opinion will not permit it. Behind this official attitude, authorities here say, are a belief that Russia is angling only to increase its influence with the Arab states and the conviction that the United States will do everything it can to prevent an outbreak.

A team of 10 specialists, headed by Dr. Fred Wendorf, Tech anthropologist, will gather archaeological information on the Southwest's climate for the past 15,000 years. A fund of \$15,000 has been pro-

vided by the National Science Foundation for the first year of study.

Wendorf, pointing out that written weather records go back only about 100 years, said the scientists will have to go farther back than that.

"Only when we can estimate what has happened weather-wise in this section through at least the past 150 centuries can we gain the proper perspective for long range forecasts," he said.

### Tech To Gather Data On Weather

LUBBOCK (AP)—Texas Tech plans to gather data for possible long-range weather forecasting.

A team of 10 specialists, headed by Dr. Fred Wendorf, Tech anthropologist, will gather archaeological information on the Southwest's climate for the past 15,000 years. A fund of \$15,000 has been pro-

vided by the National Science Foundation for the first year of study.

Wendorf, pointing out that written weather records go back only about 100 years, said the scientists will have to go farther back than that.

"Only when we can estimate what has happened weather-wise in this section through at least the past 150 centuries can we gain the proper perspective for long range forecasts," he said.

Soil layers may hold clues to the kind of weather the area has undergone for centuries.

### Storm Awaited

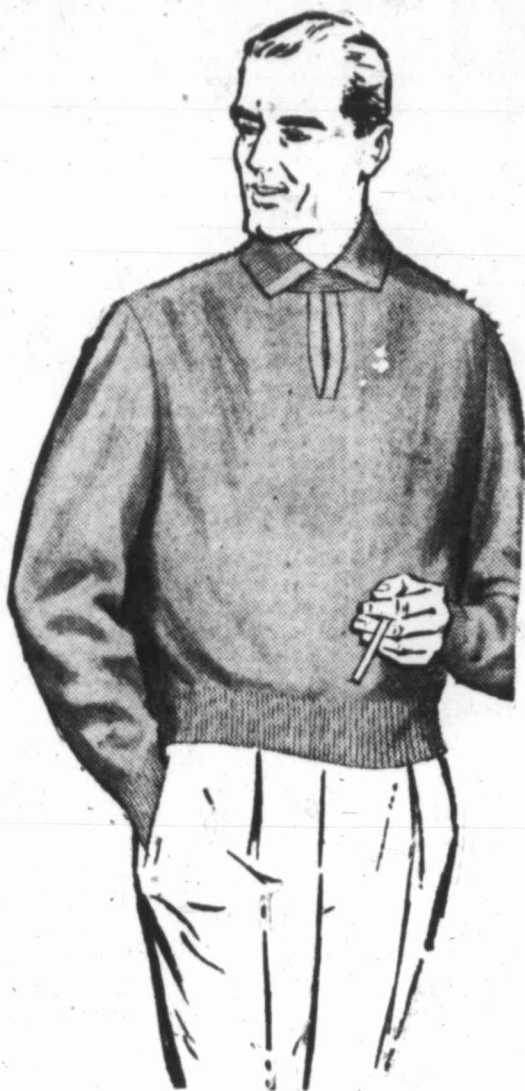

FT. BRUCKNER, Okinawa (AP)—Okinawa was alerted today for Typhoon Judy, expected to hit the island and its big U.S. base within 48 hours. The storm was located 900 miles southeast of Okinawa, with center winds of 144 miles per hour and gusts up to 195 m.p.h.

### Uncle Ray:

Domestic Hens Had First Home In Asia

By RAMON COFFMAN  
If we search for the ancestors of our domestic chickens, the trail leads us to southern Asia. There was a time when the red jungle fowls of India were supposed to be the only ancestors of our domestic breeds. Now we know that India has gray jungle fowls, as well as red, and that kindred wild fowls live in southern China, Malaya, Burma and the East Indies.

An early British observer of the red jungle fowls reported: "They have the same habits as domestic poultry. The cock struts at the head of his hens, and keeps watch over their safety. When disturbed, he flies to a high branch and crows with all his might."

**Q. How did the New World obtain domestic chickens?**  
A. Most of them were brought across the Atlantic by settlers from Europe. Some, however, have been imported from Asia.

**Q. Which parts of Canada and the United States produce the most eggs?**

A. Ontario is, by far, Canada's leading egg province. The hens of Ontario lay enough eggs to provide nine dozen a year for every man,

woman and child in Canada. Quebec ranks second in egg production. It is followed by Saskatchewan, Alberta, British Columbia and Manitoba.

Iowa has been the leading American egg state for many years. It produces enough eggs in a year to give two to every person on earth!

California and Minnesota have been pressing Iowa closely during the past few years. Following them, in this field, are Pennsylvania, Illinois, Ohio, Indiana, Texas and Wisconsin.

**Wreck Victim Still Critical After Surgery At Lubbock**

Additional surgery was performed Tuesday night on Joan Watkins, Howard County City-County Health Unit clerk, in a Lubbock hospital in further efforts to save her life. Miss Watkins was critically injured Monday morning in a car accident near Tahoka.

Relatives here said that surgeons inserted a tube in Miss Watkins' throat in an effort to assist her in breathing and that the measure had been effective. She continues in a very critical condition. She suffered extensive head injuries and underwent surgery on Tuesday as soon as she was admitted to the Methodist Hospital in Lubbock.

Meantime, Miss Bo Bowen, nurse at the City-County Health Unit, who was Miss Watkins' companion, has been admitted to the Big Spring Hospital. She has a broken left ankle, bruises and abrasions. Her condition was described Wednesday morning as

**Former Resident Dies In Kansas**

Mrs. Olga Schimkowsch, former resident of Big Spring, died Tuesday morning in a hospital in Wakenwey, Kans.

She had gone to Kansas in July and submitted to surgery on Aug. 3. Her condition had grown steadily weaker.

For several years Mrs. Schimkowsch had been a nurse here and for much of the time she was here she did special nursing in all the local hospitals.

**Stops Heart Gas 3 TIMES FASTER**

An amazing little black tablet containing the fastest acting medicine known, is taking the country by storm. This famous BELL-ANS tablet for acid indigestion, gas, heartburn, and other stomach troubles is a real breakthrough. It's the only medicine that stops heart gas 3 times as fast as other stomach tablets. Get BELL-ANS today for the fastest relief.

**Ballots Due For Start Of Absentee Voting Thursday**

Mrs. Pauline Petty, county clerk, said Tuesday afternoon she has been advised that the printers will have some of the ballots for the Nov. 5 election available by Thursday afternoon.

She said that as quickly as the ballots are in her hands, she will establish a box at her office to care for absentee voters. It is possible, if the printers deliver the ballots in time, that absentee votes may be accepted late Thursday.

If this is not possible then the absentee voting will be started on Friday morning.

Three constitutional amendments are at stake in the Nov. 5 voting.

There are no other issues to be laid before the voters. Most observers doubt if any sizable vote will be polled. The Howard County Commis-

sioners on Monday authorized the printing of 5,000 ballots. It was frankly asserted that nowhere near that number of voters will go to the polls but it was pointed out that distribution of ballots in sufficient quantity for each voting precinct makes it necessary that a supply well above the probable number to be required has to be provided.

All 17 voting precincts in the county will be in operation on election day.

**Finance Offer Made On WAFB Housing**

Williams & Dunlap, Dallas contractors who submitted the low bid on Webb AFB housing, have authorized an offer of 5 1/2 per cent for financing costs of the project here.

Date of closing has been extended to Nov. 8, 1957, for the Title VIII housing, Webb AFB officials have been advised.

The contractors, who submitted a proposal of \$6 1/2 million on the 490 units, advised the Air Force that "we have authorized Mr. Walter L. Green, Housing Securities of New York to offer Webb Capehart housing at 5 1/2 points for all financing cost, which is commensurate with the newly authorized FHA authorized financing costs."

"We feel that this will produce private capital in lieu of the depleted FNMA funds."

At first the contractors were bound by the 4 1/2 per cent limitation, which made FNMA an alternate source. But with depletion of this fund, the federal housing agency relaxed its cost of money restrictions. After the Williams & Dunlap authorization to meet the higher interest rate in an effort to secure private capital, the Air Force amended its letter of acceptability to make the closing date Nov. 8. Previously, it had been extended to Oct. 18.

**New Trial Is Granted**

Harvey Hooser Jr., who dropped out of the profession of law six months ago and only returned to that field in the past few days, won his case in his initial appearance in the courts on Tuesday.

He obtained a new trial for Jesse Garcia, Latin-American, who had pleaded guilty in county court earlier this week to transporting liquor and had been fined \$250 and sentenced to 30 days in the county jail.

Hooser contended that certain advisory remarks to the court by John Richard Coffee, county attorney, in which the court was informed that Garcia was a repeater and had been before the court on previous occasions for the same offense, made the case reversible.

Coffee told the court Tuesday that he had checked the law and the contention was sound.

Judge R. H. Weaver then granted the motion and accepted a not guilty plea from Garcia. He set bond at \$750. Bond normally is \$500 in such cases.

It was the first motion for a new trial to be aired in the county court in several years.

It was not announced when Garcia would be called to stand trial.

**\$239,000 County Taxes Are Paid**

Howard County taxpayers have paid off \$239,553.02 of their total tax bill of approximately a million dollars, Mrs. Viola Robinson, county tax assessor, reported Tuesday afternoon.

The total represents the amount paid since Oct. 1 when current taxes became payable at the assessor's office.

She added that the bulk of the payments made to date have been from individuals and from independent business establishments.

Relatively few of the bigger mortgage companies who pay taxes on many pieces of real estate on their books have sent in their payments. None of the major corporations have paid their tax bills.

**Local Woman's Mother Succumbs**

Mr. and Mrs. Harold Turner left today for Lake Ariel, Penn., after receiving word of the death of her mother, Mrs. Rose Turner. Death occurred about noon Tuesday, and was unexpected. Mrs. Turner, about 60, reportedly suffered a cerebral hemorrhage. Details were not immediately known here, but it was planned for funeral services to be held Friday.

Mrs. Harold Turner is employed here at the Medical Arts Hospital, and her husband is with The Herald. They reside at 509 1/2 Bell St.

**Enough Drawers For 800 Years**

LONDON (AP)—The British War Office admits it has enough long woolen drawers to last the Women's Royal Army Corps for the next 800 years.

The matter was raised during a hearing by a parliamentary committee which published its report yesterday.

**TV Space Station Planned**

WASHINGTON (AP)—A television "station" that circles the earth hundreds of miles high every 90 minutes probably will be blasted into the skies within a few years, Navy scientists said today.

The TV satellite could easily be equipped with a 6- or 12-inch telescope, they said. It would be powered by solar batteries, drawing power from the sun, and could remain in operation for decades. It would be aimed and focused from the ground.

But the Navy scientists emphasized at a news conference they are not speaking of a sky spy designed to ferret out military information from the lands over which it passes. Their program contemplates a space observatory, its cameras and telescopes aimed into the heavens and answering questions about the universe.

Other military sources have already disclosed plans to send a TV satellite labeled "Big Brother"—orbiting around the world, its cameras pointed down.

A Bible Thought For Today

Where the spirit of the Lord is, there is liberty. (II Cor. 3:17)

Time For Winter Checkups

These successive coolish mornings — down to 49 degrees a couple of times, in the low 50s repeatedly—remind us of frost and freeze just ahead, probably a little earlier than usual this year.

gas stoves to be prepared for the winter. If you have any stoves with rubber hose connections, play it safe by replacing the rubber with copper tubing.

Inept Criticism Of The Queen

The visit of Queen Elizabeth II and her Prince Philip to Canada and the United States seems to have been a complete success. Huge crowds followed them everywhere, either cheering wildly or maintaining respectful silence.

political power, and a jealous Parliament is quick to slap down any gesture in that direction. But the British Commonwealth of Nations, like the British Empire before it, finds a monarch indispensable as a symbol of unity, just as we rally around our Constitution.

David Lawrence

Other Areas To Guard 'Civil Rights'

WASHINGTON — Sometimes the big news is what officials and members of Congress are saying privately but which, for reasons of their own, they hesitate to say publicly.

"Why hasn't the President sent federal troops to maintain law and order in Wisconsin where incident after incident of violence has occurred in connection with the strike at the Kohler plant?"

"I think," said one senator, "that we had repeated the provisions of law permitting the use of troops to enforce 'civil rights.' It's going to be hard to justify all this when we get back into session again."

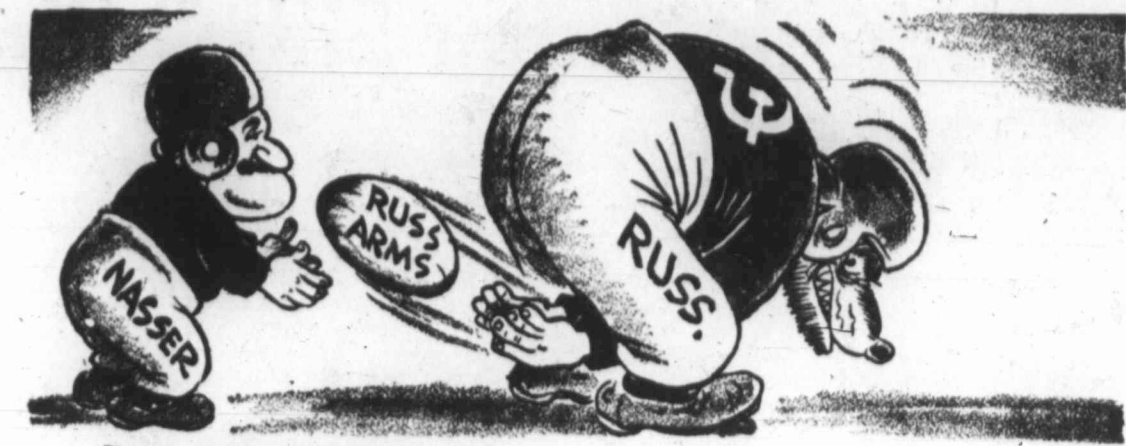

Another question posed is this: "Why, if the Declaration of Independence defines all men as created 'equal,' does the law of the land today provide a color discrimination against Japanese and Chinese?"

The Big Spring Herald

Published Sunday morning and weekday afternoons except Saturdays by AFFILIATED NEWSPAPERS, Inc.

MR. BREGER

CHARLESTON, W. Va. — Patrolman Ernest Greenleaf takes the Charleston statute against litterbugs literally. He chased one all the way to the city incinerator.

Tricky End-Around Play

Ed Creagh The Wall Street Breakdown

WASHINGTON — Queen Elizabeth probably didn't notice it on her trip through New York's financial district the other day, but Wall Street was having one of its every-now-and-then nervous breakdowns.

And the board was a sad sight by anybody's reckoning that day. But now that all the paper streamers have been swept up, the word is about that the market has sagged.

Hal Boyle Decay Of The Funny Bone

NEW YORK — S. J. Perelman, regarded by many as the witliest man alive, believes America's greatest medical problem is its decay of the funny bone.

Since leaving Brown University, Perelman has turned out some 15 books and plays, more than 200 humorous skits for the New Yorker magazine, and innumerable movies.

Around The Rim Hard To Control The Poplar

What if your dollar would buy only four cents' worth of goods and services compared with pre-war days? Suppose the smallest paper money in your billfold was a \$100 bill and wouldn't buy a dinner in a good restaurant?

Inez Robb Strip-Tease On The Football Field

All right, so I am out of step with the times. But are drum majorettes and similar undressed dolls really necessary to the American way of life?

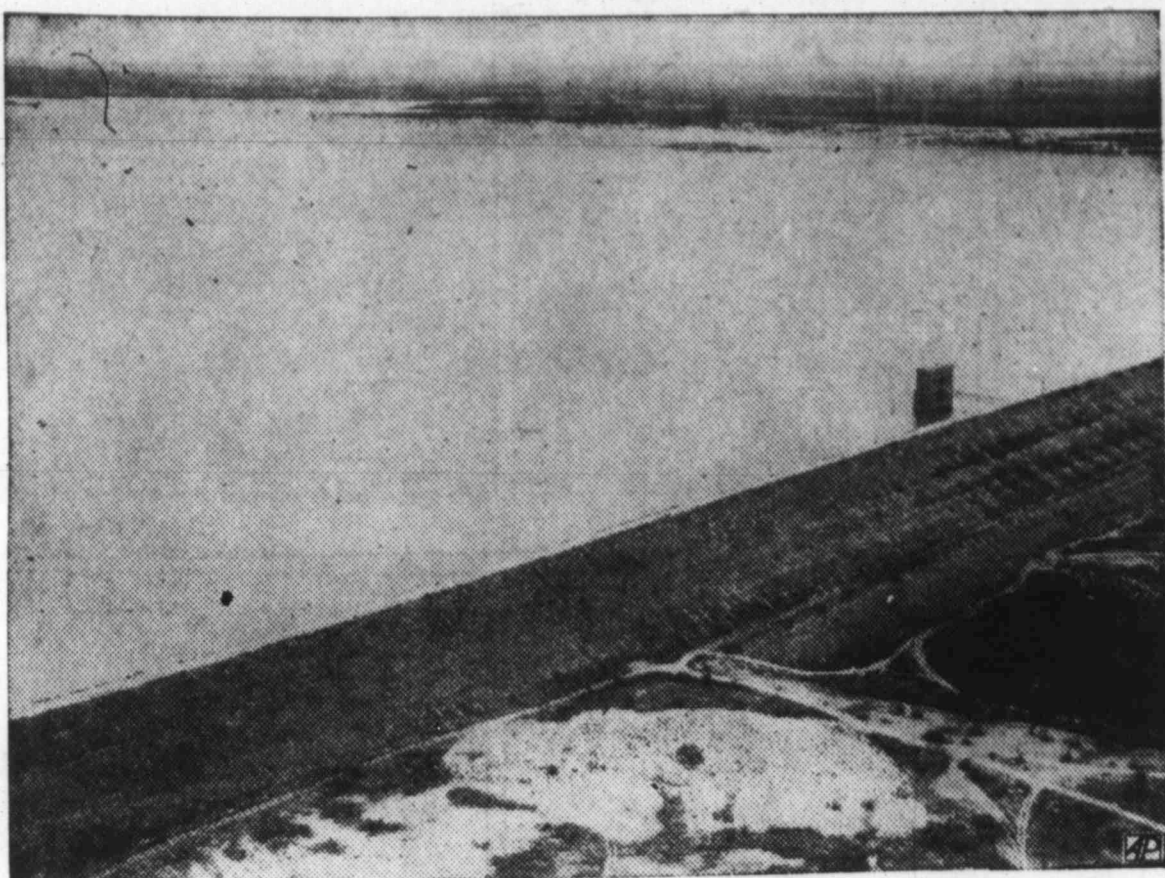

The Gallup Poll World Views Sputnik With Surprise

Table showing poll results for World Views Sputnik With Surprise, comparing various cities like Washington-Chicago, Toronto, Paris, etc.

Table showing poll results for Purpose of Satellite, comparing various cities like Washington-Chicago, Toronto, Paris, etc.

"Glorious news, dear! All the neighbors have raised money for you to continue your lessons in SCOTLAND!"

Heavy Rains Fill Lake

Heavy rains in West Central Texas have sent millions of gallons of water pouring into North Concho Lake near San Angelo, sending the lake to its highest level. North Concho Lake is 76.41 feet deep at its deepest point and recently held 173,684 acre feet of water.

# Move By Opposing Sides Fails To Halt 'Confidential' Retrial

LOS ANGELES (AP)—A move by opposing sides apparently has failed to sidetrack a scheduled public retrial of criminal libel conspiracy charges against Confidential magazine.

The plan, spearheaded by Atty. Gen. Edmund G. Brown and defense attorney Arthur Crowley, was turned down by Superior Judge Herbert V. Walker, it was announced yesterday.

Meades and others, which would include Confidential magazine publisher Robert Harrison. Brown said he told Judge Walker he would make such a motion—if he would entertain it—for two reasons: first, he did not want to see "all that smut reiterated"; and, second, he was having trouble extraditing Harrison. "We feel it is not right to try the people here unless Harrison is with them," Brown said.

## Moon Rocket Editor Appointed

AMARILLO (AP)—Bill McReynolds warily became today what the Amarillo Globe-Times believes is the first newspaper moon rocket editor.

McReynolds said he hesitated to take the job because he didn't want to wind up by being assigned to ride the first rocket to the moon.

# Publisher Chases Out NAACP Official

LONGVIEW (AP)—Publisher Carl Estes yesterday drove an NAACP official from his office during a conference over a proposed statewide meeting of the organization here.

The Longview News and Journal which Estes publishes identified the official as Edwin Washington of Dallas.

Estes then asked Washington to leave. The News and Journal said Washington didn't move when asked twice more to leave, and Estes drove him out of the office.

# Missile Secrecy Lets Up A Little

WASHINGTON (AP)—The Defense Department, encouraged that its missile test program "has reached a stage where certain information may now be made public," is relaxing its tight secrecy lid a little.

The Pentagon disclosed last night the successful firing of a Jupiter intermediate range ballistic missile at Cape Canaveral, Fla. It not only identified for the first time the missile tested, but went on to say the Jupiter flew "its prescribed course" and hit in the "preselected target area."

Public interest in the tests has been whetted by Russian claims of missile advances and by the Oct. 4 Soviet launching of an earth satellite. The satellite still is streaking around the earth at 18,000 miles an hour.

has come for all of us to get down off Ike's lap and start asking some questions." Financier Bernard Baruch told a New York group that "America is worried, and should be."

## Sarnoff Protests Pay-TV Program

PITTSBURGH, Pa. (AP)—Robert W. Sarnoff, president of the National Broadcasting Co., said today pay-television can succeed only by "devoicing the substance of free television."

The Federal Communications Commission announced Oct. 17 that a proposed public trial of subscription TV will be limited to cities having top-quality TV service from at least four stations.

BROWNSVILLE, Tex. (AP)—Judge Clarence Bennett took one look at Guillermo Trejo III and excused him as a prospective juror in a condemnation suit. Trejo, 6, was taken back to school by his father even though he does have property listed on the tax rolls, a major requirement for qualifying as a juror.

**'Y' Clubs Choose Youth Government Officer Nominees**

Three candidates for the area nominations to the Youth in Government project were selected at a joint meeting of Hi-Y and Tri-Y Clubs Monday evening.

John Roy Phillips was named candidate for the area nomination as president pro tem of the senate, while Toni Thomas was named candidate from the Seba Tri-Hi-Y as legislative committee chairman. If they gain the area nomination at the Oct. 26 pre-legislative conference at Texas Tech in Lubbock, they will hold those offices in Austin Dec. 12-15.

Kathleen Thomas was nominated as reporter, and she will have this office at the state meet in Austin.

A total of 49 club members and six adults has been lined up for the area meet at Tech.

**Play Selected By Civic Theatre**

"Bell, Book and Candle" has been selected for production before Christmas by the Big Spring Civic Theatre. The theatre board of governors, after two meetings Sunday and Monday, picked the play out of a long line-up of modern and traditional works.

A strong female lead will be needed for "Bell, Book and Candle." But casting of this production may prove difficult, as the women members of the theatre group are short on experience. There never is any trouble casting male leads, as several of the men have had well rounded stage experience.

The call may go out soon for a pretty, talented and preferably experienced young lady to head the cast.

"Bell, Book and Candle" may be described as a tale of modern witchcraft, a sort of comedy-fantasy. The heroine is a witch, as are several of her relatives, but the young lady is rescued from her evil immortality by falling in love with a mortal and thus becoming a mortal herself.

The board of governors also considered a play, "Weeds," by Sam Blackburn, a reporter for The Herald. It was decided to consider Blackburn's work for production at a later date, possibly as part of an annual program by local playwrights.

**College Players Iron Out Kinks**

The Howard County Junior College players have been racked with the flu, and their rehearsals have suffered accordingly. But it begins to look as if their play, "See How They Run," will open on schedule. It also looks as if the production will turn out to be one of the better plays of the season.

There are still some kinks to be ironed out, but most of the major problems are now history, and the players have nearly a week to go before curtain time.

"See How They Run," if properly done, is one of the zaniest works on the stage. It begins with an unenergetic kind of light humor and grows steadily into a slapstick farce. The play, in which the characters become more and more confused by the situation they find themselves in, ends on a note of utter confusion.

"See How They Run" will play at HCJC next Monday and Tuesday.

**Daily Average Oil Production Falls**

TULSA (AP)—Daily average oil production dipped 975 barrels to 6,739,850 during the week ended Oct. 19, the Oil and Gas Journal said today.

The largest drop was 9,300 barrels to 802,900 barrels in Louisiana. Oklahoma increased 23,700 barrels to 569,500 the largest gain.

The Journal estimated 1957 production at 2,113,971,550 barrels compared to 2,090,559,406 a year ago.

Colorado was down 4,550 barrels to 143,400; New Mexico, 500 to 253,300; and Arkansas, 275 to 81,350.

Production was unchanged in Texas at 2,650,100 barrels.
