## Thursday's Time For 'Trick Or Treat'

Thursday night, nearly every doorbell in Big Spring will jangle not once but many, many times. On each occasion, the householders will probably find his front porch infested with a clutter of very young witches, skeletons, desperate looking pirates, clowns and slightly unconvincing ghosts. In high treble voices this invading force will chorus:

"Trick or treat?"

Needless to add, each of these small bandits will be packing a sizeable paper bag.

There may be a few householders who will survey the scene and then slam the door sourly. Most will do otherwise. They will cannily have made preparations—a pile of candy, cookies, or fruit will be placed conveniently near the door.

And the "hold-up" victim will solemnly deposit a handful of this assorted loot into each paper bag. Then he will return to his easy chair only in time to get right up again and go back and repeat the performance.

For Thursday night is Halloween. A night when ghosts, goblins and other horrible critters run at large.

In the old days, it was a true night of terror—not because of the prevalence of belief in the warlocks and banshees so much as because of the fear of unbridled vandalism.

Halloween was the night not too many years ago when the younger generation threw off all of the shackles of parental and moral restraint and let themselves go. They reverted to savagery. Property was destroyed. Peace of mind was shattered. Nothing was secure nor sacred.

Today's celebration of the night has tamed materially. A few warped individuals will perpetrate deeds of vandalism but as a whole, the observation will be mostly restricted to the nocturnal visits of the very young of each neighborhood to all available residences.

A mild form of extortion will be permitted.

This is predicated with shrill warning "Trick or treat?"

One wonders, oftentimes, when these mites come with their brash demand what would happen if the householder should bluntly refuse the "treat" and defy the juvenile raiders to go ahead with their threatened "trick."

In a vast majority of instances, such a procedure would leave the invaders completely frustrated. They anticipate no refusal; hence

**READY FOR 'TRICK OR TREAT'**  
L. C. Furrr, left, and Troy Lynn Williams

they have no trick planned.

Food and variety stores have sold vast quantities of ammunition for the defense of the invasion. Manufacturers have come forth with packages of specially bedecked candies and cookies for payment of this minor form of blackmail. The traditional Halloween colors of orange and black prevail and the old job of assembling enough payoffs to meet demand has been greatly diminished.

Meantime, there are certain dangerous aspects to this annual festival. There is the danger, of course, that not all the celebrants are harmless tots—there may be a few truly evil marauders at work.

There will be some vandalism and it is wise to stow all yard machinery, lawn furniture or other readily moveable objects in a safe place.

Parents of young "trick or treaters" should make certain their progeny do not wander too far afield; that they stay on sidewalks and do not go into the streets. Costumes for the little ghosts and goblins should not be black—such garbs are difficult to see at night and could result in a tragedy should some tot walk into the path of an oncoming automobile.

Halloween has lost its old flavor. It is no longer a night of wild orgy and barbarism in most places. It has softened remarkably.

And despite the tall tales that Pop is very likely to tell his children of his own daring escapades in the past, in actuality the old man is happy, indeed, that today's celebration is likely to be inoffensive.

## President Plans To Attend NATO Meeting In Paris

WASHINGTON (AP) — President Eisenhower said today he plans to attend the mid-December NATO Council meeting in Paris—assuming a majority of the heads of the government of the other 14 member nations also attend.

Eisenhower told a news conference he would like very much to visit England on the same trip but does not know whether he will be able to.

It was Eisenhower's first news conference in three weeks. He dealt also with these other subjects:

**LITTLE ROCK**—The school integration situation at Little Rock, Ark., continues to improve, Eisenhower said, and he most devoutly hopes and prays it soon will be possible to withdraw all remaining federal troops from that city.

Eisenhower said once again that patience and tolerance, rather than fiat and law, will lead to a solution in the controversy over school integration. He repeated, too, that the South has lived with segregation for a great many years and it is not easy for the residents of that area to change.

**CIVIL RIGHTS COMMISSION**—Eisenhower said he has been looking for weeks for the right people for appointment to the new Civil Rights Commission authorized by Congress. He hopes to be able to name the members soon, and he feels appointment of the commission will contribute to easing the situation in Little Rock.

**ZHUKOV**—U. S. officials can only speculate regarding the meaning of the Kremlin announcement that Marshal Georgi Zhukov has been relieved as Soviet defense minister, Eisenhower said.

Eisenhower noted that some top Soviet officials have been likening the removal of Zhukov to the resignation of Charles E. Wilson as U. S. secretary of defense.

The President touched off a round of laughter by adding that he hoped Zhukov's resignation was as completely voluntary as Charlie Wilson's was.

**SPENDING**—Asked whether it will be possible for the government to stay within a 70-billion-dollar spending ceiling for the fiscal year starting next July 1, Eisenhower replied that would require a very serious retardation elsewhere—meaning of spending in nonmilitary fields.

Eisenhower made that statement after discussing the possibility of staying within a 28-billion-dollar spending ceiling for defense during the current fiscal year ending next June 30.

## Crop Damages Appear Light

Frosty weather of last Sunday and the rains of a few days before do not seem to have materially damaged the cotton crop in Howard County.

In fact some seem to think that the frost may have been slightly beneficial—helping to speed up the opening of some bolls, which had been feared, has not proved as widespread as was at first believed possible. As a result, the growers have not suffered much loss from down-grading.

Fairview gin reported it has ginned 680 bales so far and that last night it was necessary for the plant to operate all night.

Apparently the harvest is making good progress all over the county.

## Khrushy Denies Showdown Battle

LONDON (AP)—Nikita S. Khrushchev last night brushed off reports of a Kremlin showdown battle with Marshal Georgi K. Zhukov and announced the ousted Soviet defense minister will receive a new post.

While the western world buzzed with rumors of a struggle between Khrushchev and Zhukov in prolonged meetings of the Soviet Communist party Central Committee, the ebullient party chief turned up at a Turkish Embassy reception and told reporters:

"We have not decided on a new job for him (Zhukov) yet, but he will have one according to his experience and qualifications.

Khrushchev and Premier Nikolai Bulganin compared Zhukov's removal with the recent resignation of U. S. Defense Secretary Charles E. Wilson.

"It's all the same," they said. "There is no difference."

## Tribes Increase

CLAREMORE, Okla. (AP)—The Indian population is growing too large for reservations to hold it. That is the view of Glenn Emons, U. S. Commissioner of Indian Affairs, who spoke yesterday to delegates of the National Congress of American Indians.

# National Heads Of NATO Will Meet

**Mrs. Lorch Refuses**

In a heated recess scene, Mrs. Grace Lorch, right, of Little Rock, Ark., refuses to attend a closed session of the Senate Internal Security Subcommittee in Memphis, Tenn. Mrs. Lorch said she would testify only in an open hearing. Sen. Jenner (R-Ind.), left, presiding at the 3-day hearing, gave her 24 hours to consult a lawyer. Chief counsel Robert Morris stands beside Jenner.

## Lack Of Funds To Keep City Employees From Getting Raise

The city probably won't authorize any salary increases at the present time, because the money is not available.

This was shown at the City Commission Tuesday night. The city manager, H. W. Whitney, said that a group of employees approached him about two weeks ago asking for a raise. He told them that the commission would have to authorize the increases, but when the commission saw the city's financial condition, salaries were not even considered.

A budget comparison report for the six months which ended Sept. 30 revealed that the city is \$24,167.96 under its budget in general fund expenditures, but it was over its budget by \$25,827.88 in the water and sewer revenue fund. This is due to the small amounts of water sold last spring in the rainy times.

Whitney also showed that cash on hand in the general fund Sept. 30 as compared with the same time last year was \$1,026.51 less than last year. In the water and sewer fund, it was \$38,124.82 less and \$296.97 less in the parking meter fund.

In other matters, the commission tabled a request to waive peddler's fees for blind persons here. The proposal was sponsored by the State Program for Rehabilitation of the Blind. W. E. Hollinger, representing the state program, outlined what the organization was trying to do in selling household goods door-to-door. He said their salesmen would be here about once every three months and the peddler's fees—\$12.50 per person per quarter—would be too high.

Hollinger said that other cities, including Odessa, had waived the salesmen's fees. The commission said it would give a definite answer at the next meeting, Nov. 12.

The salvage rights at the dump ground will be turned over to G. C. Creech, who submitted the

highest bid of \$80 per month. A total of five bids were received. The city was collecting \$101.01 from John Duncan, but he dropped the contract about six weeks ago.

The city received another application for a closed-circuit TV-movie franchise. Custom TV Inc., Houston, made application, but the application was tabled until the commission could check into the firm.

Last spring, the city issued a franchise to the Big Spring Amusement Co., composed of R&R Theatres and the Vumore Co. of Abilene, but it was not exclu-

## Chinese Due Nobel Prizes

STOCKHOLM (AP)—Stockholm newspapers today reported two young Chinese physicists working in the United States will receive the Nobel Prize in Physics.

They are Prof. Tsung Dao Lee, 30, of Columbia University; and Prof. Chen Ning Yang, 34, of the Institute for Advanced Study at Princeton, N.J. Last January they announced discoveries that destroyed the "principle of parity," for 30 years a basic law of all physical theory.

The two newspapers, Aftonbladet and Expressen, also said Sir Alexander Todd, 59, would receive the Nobel Prize in Chemistry.

Todd is a Cambridge University professor and a world authority on nucleotides, minute chemical building stones of living matter.

The Swedish Academy of Science will meet tomorrow afternoon to make final selection of the 1957 winners.

Each prize is worth about \$42,000 this year. Tomorrow's selections will complete the 1957 awards.

The "principle of parity" held that submicroscopic particles always behaved symmetrically, having no distinctively different right or left sides, no tops or bottoms.

In experiments conducted at Columbia University on the basis of reasoning by Lee and Yang, the most elementary particles now known were proven to have an intrinsic "right-handedness" or "left-handedness" in their direction of spin. Physics authorities at Columbia likened the discoveries in future importance to the earlier pronouncements of Albert Einstein.

## Fight Eviction, Then Die In Fire

NEW YORK (AP)—A Brooklyn family which had fought eviction from a frame building condemned as a fire trap—and the family finally was to move out tomorrow—perished early today when flames swept the structure. Dead were a family of four and a 4-year-old niece.

The victims were identified as Michael Gutierrez, 28, his wife, Augustine, 28; their two children, Evelyn, 9, and Antonio, 6; and a niece, Solidad Gutierrez.

## Convention To Consider World Issues

PARIS (AP)—The North Atlantic Treaty Organization officially announced today that the government chiefs of its 15 member nations will attend its December council meeting in Paris.

An announcement came from the White House in Washington today that President Eisenhower would lead the American delegation to the summit conference, an outgrowth of the President's meeting with British Prime Minister Macmillan in Washington last week.

Both Eisenhower and Macmillan had withheld announcement of their plans to attend the December council until the NATO notification but it was generally known they would be on hand.

The meeting was suggested to the two Allied chiefs in Washington by Paul-Henri Spaak, the NATO secretary general. Both Eisenhower and Macmillan enthusiastically approved Spaak's suggestion.

**RECENT DEVELOPMENTS**  
Both the Washington meeting and plans for the NATO summit meeting were a reaction to several recent major developments in Russia. These included:

1. Apparent development of Soviet guided missiles to a point that threatens NATO members in Europe and possibly the United States.

2. Launching of Sputnik, the Soviet earth satellite.

3. The Middle East crisis resulting from Soviet charges that Turkey—a NATO member—is planning to attack Syria and the Russian warning of intervention. Turkey and the United States have denied the Soviet blast.

To regain equality with Soviet missile development, Eisenhower and Macmillan agreed to increase exchanges of scientific information, including cooperation on development of nuclear weapons. The final communiqué from their meeting called for a revolutionary revision of Allied defense systems to mobilize resources of the free world to meet the Russian challenge.

The NATO meeting presumably will seek a way to carry out the Washington objectives. One way might be distribution of American-developed atomic weapons, if the U.S. Congress clears away existing legal barriers.

**POWER**  
The communiqué called for reinforcing allies all over the world with a deterrent and retaliatory power of nuclear weapons.

Other NATO leaders have called for a joint missile-nuclear development program to pool the West's scientific brain power and physical resources.

The meeting of NATO government chiefs will be the biggest top-level meeting since the Versailles conference after World War I.

Eisenhower went to Europe in August 1955 for the summit meeting with Soviet, British and French leaders at Geneva.

British newspapers have predicted the Eisenhower will stop off in London while in Europe to return Queen Elizabeth II's recent visit to the White House.

## 3 Are Indicted In Saunders Co. Case

V. A. Gomez, widely known from the Saunders Company. Others indicted were Leroy Wright, who was indicted on three counts of embezzlement; and Hubert Dyer, indicted on one count of embezzlement. They are former employees of the Saunders Company.

In Wright's case, bond was fixed by Judge Sullivan at \$2,000 in each case; Dyer's bond was fixed at \$2,500.

Gil Jones, district attorney, said that the indictments stemmed from investigation by officers into a long series of thefts extending over a three-year period. The district attorney estimated that some \$9,000 worth of goods had been confiscated as a result of the investigation. The articles seized by investigating officers are being held in a warehouse.

Jones estimated that the total loss suffered by the Saunders Company in the raids would probably run as much as "\$30,000 or more."

The grand jury returned indictments in 19 of 20 matters which were placed before it for consideration, Jones stated.

Other indictments included: Al (See INMATED, Page 18, Col. 4)

## Carr Temporarily Tosses Out Farm Bloc Water Issue

AUSTIN (AP)—House Speaker Waggoner Carr today temporarily threw out a controversial farm bloc water issue injected into the administration's long-range planning bill.

However, his ruling that the proposed amendment was "vague and indefinite" only meant another delay as supporters said they would resubmit their much-wanted change in new form.

Debate continued on the water bill as Rep. Tony Korothe of Sherman pleaded for unity and said he would attempt to introduce a proposal to give the farm bloc what it wanted.

Sponsors held a brief meeting and recessed until 10:30 a.m. without conducting any business. A House resolution (HCR) which criticizes President Eisenhower's decision to move Federal troops to Little Rock and declares no federal troops are wanted in Texas was referred to the Senate State Affairs Committee.

A compromise lobby control measure and a water bill for research could come up for action in the Senate tomorrow.

The old rural-city fight delayed action in the House yesterday when efforts were made to change the present law applying to 200-acre foot reservoirs. A point of order was raised on the proposed amendment and the representatives quit work for the day.

The amendment would allow anyone to construct a 200-acre foot reservoir on his property and use the water "for any and all" purposes without obtaining a permit from the Board of Water Engineers. A permit now is required except when the water is used for domestic and livestock purposes.

Several corrective amendments were attached to the House water bill. However, it still calls for setting up a planning division under the Board of Water Engineers. The division's main job would be to research and formulate a state-wide plan on a million dollar budget.

**Siam Surrenders**

Siam, the lady elephant that went on a 13-day Catskill, N. Y., mountain vacation and became adept at avoiding capture, meekly submits at last to men who had been trying to catch her. The 2½-ton circus performer, ill with a cold, was returned to her winter quarters at Mitchell Hollow.

SEVENTEEN

"I got suspicious when she started putting her unsolved math problems in her love letters..."

## Senators Agree On Missiles Speedup

WASHINGTON (AP)—Sen. Dirksen (R-Ill.) said today the country is willing to pour any amount of money that can be spent usefully and constructively into missile development to surpass the Russians.

Dirksen, the assistant Republican leader, said public reaction to the Soviet Sputnik is likely to bring a determined drive in the next session to increase defense expenditures.

Assessing this same reaction, Sen. Morse (D-Ore.) called in a separate interview for a crash program of missile development.

He said it ought to be directed "by the nation's top scientists and not by the politicians."

A number of other senators of both parties have called for a speedup in missile development and have deplored rivalry among the services.

But Dirksen said that as a member of the Senate Appropriations Committee he will combat any tendency to provide defense agencies with more funds than can be used by the competent, trained manpower available to them. He said lack of such manpower may be a critical element in speeding up the program.

**SCIENTISTS REPULSED**

If it is, Morse said it will be "because the administration has discouraged the scientists at every turn."

President Eisenhower has held firm thus far on a 38 billion dollar outlay for defense in the current year, ending next June 30.

Secretary of Defense McElroy has canceled a 170-million-dollar cutback in research and develop-

## Experts Uncertain Of Zhukov's Future

WASHINGTON (AP)—U.S. officials figured today that Marshal Georgi Zhukov is definitely on the skids, but they were uncertain how far he would fall.

President Eisenhower has an opportunity at a news conference to give his own views on the Zhukov mystery. As top generals, Eisenhower and Zhukov worked together at the end of World War II and Eisenhower has expressed admiration for Zhukov's soldierly qualities.

Evidence that Zhukov was on the downgrade was found here most concretely in the way in which Soviet Communist party boss Nikita Khrushchev referred to him while talking with reporters at a Turkish Embassy reception in Moscow yesterday.

Khrushchev was quoted as saying "we" would give the world's military leader and war hero a new assignment "commensurate with his qualifications."

This comment was read in Washington as a patronizing reference to a man of Zhukov's stature and a confirmation of the impression which had been growing since Sunday that Khrushchev is firmly in control of Soviet authority.

**MAY BE WRONG**

If the analysis now being made here is correct—and the confirmation or rejection will await Zhukov's new assignment—it means that many experts in the Western world have been wrong about the extent of Zhukov's power all along. It also suggests the possibility they may have been wrong about the nature of his influence on Soviet policies.

When Zhukov was restored to prominence following the death of Joseph Stalin four years ago, he quickly became in Western eyes one of the men to watch in the Soviet hierarchy. The impression was strengthened when he became a member of the Communist party ruling clique and finally moved into the Presidium of the party's central committee as a member.

The Zhukov role, as many Western experts built it up, was further enhanced by prolonged and intense interests over the possibility he provided a channel for personal exchanges between President Eisenhower and the topmost Soviet policy makers.

Finally in the last few months, following the June purge of V. M. Molotov and Georgi Malenkov from the ruling group, Zhukov be-

## Burglars Go Modern, Says Crime Expert

OKLAHOMA CITY (AP)—Burglars have gone modern in Oklahoma, says State Crime Bureau Chief O. K. Bivins.

He claims the old fashioned way of pounding open a safe and trusting to luck on a getaway has gone the way of the horse.

"They are using hastily rigged telephones to communicate information to the 'driller' who works on the safe," Bivins said yesterday. "We have seized such equipment at the scene of a burglary in a supermarket in Bartlesville."

Bivins said his agents had received information that telephones had been placed in the kit of burglary tools used by some professional operators out of Texas.

"With this particular gang—still on the loose—the telephones are not as important as the cutting torches," Bivins said.

He said they work like this:

After casing the store to be burglarized, the gang lays a telephone line from the safe to a vantage point outside the building where streets can be covered in all directions. The telephone is powered by dry cell batteries.

"The 'peeler' or 'driller' can work comfortably, assured he won't be surprised by an officer who might slip in through the back of the building."

"The lookout communicates all the information from the outside. When an automobile passes, the man operating the torches and drills stops work."

Bartlesville police said in the recent burglary attempt there, the burglars apparently were disturbed and departed in such a hurry they left the telephone equipment behind.

## Israel's Social Welfare Chief Seriously Injured By Bomb

JERUSALEM (AP)—Israel's social welfare minister was reported in serious condition today, a victim of a deranged young Jew who hurled a small grenade into the Israeli Parliament.

Premier David Ben-Gurion, Foreign Minister Golda Meir and two other Cabinet ministers escaped with minor injuries when the explosive went off last night near the speaker's dais. But anxiety was expressed over the condition of Welfare Minister Moshe Shapiro, who was hit in the stomach, head and chest.

Police said the grenade was thrown from the rear of the public gallery by Moshe Ben Jacob Douek, 25, a former patient in a mental hospital. A maintenance employee nabbed him.

Police quoted Douek as saying he had a grudge against Youth Aliyah, an immigration organization which helped him migrate from Iraq to Israel several years ago. In past years he reportedly

claimed damages unsuccessfully for an injury received 10 years ago; wrote a threatening letter to the president of the Israeli Supreme Court, was confined to a mental hospital and then released, and tried to set fire to one of Israel's largest hospitals.

Ben-Gurion, the 70-year-old white-haired leader of Israel almost continually since its founding, was injured superficially on his hands and left leg by bomb splinters. He was hospitalized overnight although he insisted on going home.

Mrs. Meir, 59, former Milwaukee school teacher and foreign minister since June 1956 also was kept at the hospital overnight. She received a slight splinter wound in her right foot.

Communications Minister Moshe Carmel, who suffered a broken bone in the left arm, was also hospitalized.

Health Minister Israel Barzilai was scratched but returned to Parliament when the session was resumed two hours after the bombing. Small holes blown in the walls and floor were the only visible signs of the incident.

Mrs. Meir was addressing about 150 members in a foreign policy debate when the grenade was thrown. It landed between the speaker's dais and the government table, within two feet of where Shapiro and Carmel were seated.

There was a flash of fire, a loud report, and a cloud of smoke. Shapiro and Carmel sat still, blood spreading on the floor. Other ministers jumped up. Visitors in the gallery tried to flee but were held until police arrived.

## San Antonio Lady Lost 43 Pounds With Graham

Mrs. J. N. Graham, 1230 Jennings Ave., San Antonio, Texas, wrote us the following: "Not only does Barcortene help in reducing, but it is wonderful for eliminating gas and bloating. It's also a good tonic. I have lost 43 pounds and feel wonderful. My health is so much better, now that I have lost so much excess weight."

Get Barcortene from any Texas drugist. If the very first bottle doesn't show you the way to take off ugly fat without starvation diet, return the empty bottle for your money back.

## Defense Dept. Chief Hits Rumor About Bill Payments

WASHINGTON (AP)—The Defense Department will pay its bills when they come due—apparently even if it breaks through its 38 billion dollar spending ceiling for the year.

Secretary of Defense McElroy blamed an "apparent misconception" for reports of delayed payments and said last night the Army, Navy and Air Force should "make it clear they will of course pay bills as they fall due under the terms of contracts" with suppliers of equipment.

His memorandum was addressed to the secretaries of the three services. Its phrasing indicated that the "misconception" may have been on the part of the military services. By far the greatest proportion of defense contracts are those of the Air Force.

Defense contractors have complained strongly in recent days that they had been informed full payments could not be made immediately as all bills fell due. This the contractors argued, meant that the government was forcing the companies to assume some of its financing burden.

In his memorandum, McElroy

told the service secretaries that "although the 38 billion dollar current budget objective must be kept in mind at all times, I expect you to advise me whenever you find that specific cuts that may appear necessary to meet these expenditures of objectives will jeopardize essential programs."

This seemed to leave open the possibility that it might be necessary to push beyond the spending ceiling.

At any rate, it was clear that a decision made by former Secretary Charles E. Wilson had not set aside: A directive to hold spending during the first half of the current year to 19 billion dollars.

In answer to questions about McElroy's announcement, a Defense Department spokesman said it was possible that spending in the first six months of the year which started last July 1 might go 400 million dollars above the Wilson-ordered 19 billion dollar level.

He was unable to say how this excess might be offset in the last half of the year.

**Uncle Ray:**  
**Bold Plan Employed By Conquering King**

By **RAMON COFFMAN**  
After defeating the Persians, Alexander headed toward the old country known as Phoenicia ("fe-NISH-uh").

There was little trouble about winning power on the mainland, but the capital city, known as Tyre, was on an island about three-fourths of a mile from the coast. Phoenicia had war galleys to use in defending Tyre. Alexander had a special desire to capture those galleys because he believed that he would need them in a later war on Egypt.

A bold idea came to the Macedonia monarch. He would build a causeway! Fortunately the wa-

## U.N. Chief Willing To Mediate Crisis

UNITED NATIONS, N. Y. (AP)—The president of the U.N. Assembly, Sir Leslie Munro, says he is also willing to try to solve the Turkish-Syrian crisis through private talks.

The blunt-spoken diplomat from New Zealand, who is presiding over the bitter Middle East debates, said in an interview yesterday that he—like his predecessors in the top assembly post—is ready to go outside the meeting halls to aid in solving problems facing the world organization.

In the present crisis, he asserted, "quiet diplomacy can play an important role," and the Assembly president can help by conferring privately with the "principal protagonists and discussing the problem with them."

"I am willing to take part in any way I can," Munro declared.

There was a growing belief in the U.N. that the necessary two-thirds majority could not be mustered for either of the two suggestions made informally to the Assembly—that Secretary General Dag Hammarskjold mediate, the Western proposal, or that a special investigation commission be sent to the trouble area, a Syrian suggestion backed by the Russians.

Munro, known for usually saying what he thinks, refrained from

## Baptists To Honor Longview Newsman At Annual Meeting

DALLAS—Ellie Hopkins, a reporter and editor for the Longview Daily News and Morning Journal for more than 27 years, Wednesday was named recipient of the 1957 Annual Press Award sponsored by the Baptist General Convention of Texas.

He is now vice president of Carl Estes publications, which include the two daily newspapers, weeklies and magazines.

Hopkins will receive a \$150 engraved wrist watch and a commemorative plaque in presentation ceremonies the afternoon of Nov. 7, at the convention's annual meeting in Fort Worth. He will be the only layman honored.

The 48-year-old editor is a member of the choir singer, Sunday school superintendent and active deacon in the First Baptist Church of Longview.

He has been a member of the News and Journal staffs since 1930. Starting as a general reporter, he became city editor, city and telegraph editor, managing editor and since 1945 has served as editor-in-chief of all Carl Estes publications.

He was named vice president of the firm early this year. Other papers he has worked on since starting as a cub reporter and copyreader 31 years ago include the Marshall News Messenger and the Jefferson Daily Journal.

He has written numerous editorials for special Christian events and covered untold religious meetings of various faiths. His editorials have won medals from the Freedoms Foundation for five successive years and he has won two first places among editorial writers in the Texas Press Association competition.

## 2 Crewmen Die In Crash Of Jet

SALINA, Kan. (AP)—A B47 bomber crashed on a small hill at the edge of the bombing range at Schilling Air Force base yesterday, killing two of its three crewmen.

The pilot, Capt. Bobby Hodges, 35, of Okonla, Miss., parachuted safely. Those killed were Capt. Bernard Rinebold, 33, of Macedon, N.U., and Capt. Harold Horry of Wichita Falls, Tex.

### 'Miss Satellite' Contestant

Galveston's Betty Jean Zapalac, one of the contestants in the "Miss Satellite of 1957" contest to be held in connection with the Galveston Days sports car races Nov. 9-10 at the Galveston airport, admires Houston's Dave Tallaksen's car. A bevy of Gulf Coast beauties will compete in the contest to select a "real live satellite" for Texas. More than 125 drivers from 18 states are expected to compete in the races.

## IPAA Okays Import, Gas Bill Support

DALLAS (AP)—The Independent Petroleum Assn. of America pledged support of the voluntary oil import curb program and voted to continue support of the Harris-O'Hara natural gas bill at the closing sessions yesterday of the annual convention. The oilmen said "Congress and the executive branch of government have determined that oil imports must be limited in the interest of national defense and the consuming public." Some oilmen have urged mandatory, not voluntary control over what they call excessive imports. The association also voted to continue efforts to obtain congressional approval of the Harris natural gas bill, which would free the gas industry of some federal controls. The oilmen said "utility type control is not applicable to production, gathering and sale at the wellhead of natural gas. Continuance of such controls will result in great harm to the producer and consumer, and therefore is not in the public interest." Former Undersecretary of State

## Heart's Safety Device Ceases To Be Helpful

CHICAGO, Oct. 30 (AP)—A safety valve action of your blood now is becoming a menace, outmoded by evolution like your appendix was, a heart specialist said today. "This safety valve is ability of the blood to clot and stop bleeding from injuries. "It was mighty important in early days when people lived by tooth and claw and went around bashing heads in," said Dr. Edgar V. Allen of the Mayo Foundation, president of the American Heart Assn. "But nowadays we don't suffer many injuries, and don't need this mechanism so much. "And the trouble is that blood clotting is a major factor in producing heart attacks. Clots form inside narrowed arteries and cut off the blood supply. "If we could reduce the blood's tendency to clot, heart attacks and other complications would be sharply reduced," he told a news conference at the opening of the association's annual meeting. There have been suggestions that everyone over 40 take a blood-thinning drug regularly, as do President Eisenhower and others who have had heart ailments. But Dr. Allen said this wouldn't be practical "until a drug is found that works the same way all the time. Then we could take daily pills and make tremendous progress in preventing heart attacks." He said the lowered blood clotting ability could be a hazard in auto accident injuries, but said there are quick ways of restoring the clotting mechanism to normal. Body tissues also help stop bleeding from injuries, producing some clotting substances, Dr. Robert W. Wilkins of Boston, president-elect of the AHA, pointed out. Both officials called for intensified research to find ways of halting America's "epidemic of heart attacks." They urged more basic research, more funds to pay scientists better salaries, and recruitment of "more and better minds and talent" to find answers. "Prevention of heart attacks lies in basic knowledge which we do not yet have," Dr. Allen said. A fatty material, cholesterol, is suspected of playing a role in heart attacks, but much more needs to be learned about it, said Dr. Wilkins. About half the people who have heart attacks, or attack symptoms actually have normal amounts of fat in their blood, he said. "We don't yet know whether reducing the amount of cholesterol in the bloodstream actually reduces a person's chances of having a coronary," said Dr. Allen.

## 'Misunderstanding' Blows Up Into Riot By Criminal Insane

MEDICAL LAKE, Wash. (AP)—Smoldering unrest among criminally insane patients at the State Mental Hospital blew up into a dramatic nine-hour revolt that ended harmlessly last night for 56 hostages. "It was all a misunderstanding and there will be no changes in the program," said Dr. Garrett Heyns, state director of institutions, in two radio broadcasts the rebels ordered him to make before they would give up. Not until the inmates heard Heyns' voice over their radios in the big maximum security building would they release the guards and turn over weapons that included two makeshift knives, some razor blades and a tear gas riot gun. Heyns, who raced to Spokane, 15 miles away, in a state patrol car to make the broadcasts over a commercial radio station, didn't say enough in his first statement. "An inmate then asked by telephone that Heyns also assure them that popular Dr. E. R. Hodgson would be retained as medical director of the security unit. Heyns went across the street to another station and added a promise about Hodgson in a second broadcast. Only minutes after Heyns returned from Spokane, the inmates told the 17 guards in the night shift, waiting outside to get ready to come in, that the hostages would be released when they arrived at the door. They were. The hostages came out the gate one by one and were greeted by the rain for hours, watching while state patrolmen unloaded rifles and shotguns from their cars for a possible assault, and waiting while Heyns, Hodgson and Dr. G. Lee Sandriker, hospital superintendent, conferred with inmates inside. Albert Hutchings, chief security guard at the building, resigned Monday at Heyns' request and the inmates had read newspaper accounts of it. Heyns said they apparently thought Hutchings' departure would change the treatment system. Hutchings, dressed in civilian clothes, was called into the two-hour conference between inmate

## Officers Probe For Clues In Strike Violence

DAINGERFIELD, Tex. (AP)—Peace officers probed for clues today in shogun and dynamiting terrorism linked to a six-week-old steel strike. A state reward offer spurred investigation of two gas pipeline blasts. A shotgun blast tore into the bedroom of an invalid woman Monday night and a bomb shattered property of a Lone Star Steel Co. stockholder yesterday. Authorities charged two men with burglary in the shooting, which took place at the home of a non-striker. The bombing of the Sinclair Oil distributing docks, owned by Bo Irvin, described as a heavy stockholder in Lone Star Steel, remained a mystery. Gov. Daniel offered a \$1,000 reward for evidence leading to the arrest and conviction of the person or persons responsible for the bombings of gas pipelines Saturday night. The strike at the nearby Lone Star plant started Sept. 21 in a dispute over filling temporary vacancies. The company has said 2,500 persons are working, including some who originally went on strike. The United Steelworkers Union says 1,500 are out. Both management and union have called it a wildcat. The buckshot charges were fired into the home of Robert Blundell, 44, a millwright who was at work at the time. One charge came within two feet of Mrs. Nettie Fennell, 67, a stroke victim. She is Mrs. Blundell's mother. The bomb badly damaged the oil company docks. Ranger Arthur Hill said it was a "pretty heavy one." Charged with burglary in the shooting were J. W. Duffy, a strik-

## Parental Interest Key School Factor

By IRWIN FRANK. HOUSTON, Oct. 30 (AP)—It takes more than a new building or a raise in teachers' pay to make a high school one of the best in the nation. Dr. Woodrow Watts, principal of Lamar High School in Houston, says the key factor in establishing a high academic standard in a school is the interest of parents in their children's education. Lamar High was ranked as one of the nation's 38 outstanding high schools by Robert Marschner of Homewood, Ill., who sought to determine the best schools in the nation and the factors that made them the best. He drew up a list of schools which in the last two years produced 20 or more finalists in the national merit scholarship race. Lamar and Highland Park High in Dallas were the only Texas schools on the list. Watts, who has taught 20 years in Houston, says the parents of his 2,150 students are mostly col-

Stops Heart Gas 3 TIMES FASTER. An amazing little black tablet containing the famous active medicine known as taking the country by storm. This wonder pill AND tablet for acid indigestion, gas, heartburn, and sour stomach contains no harmful drugs, narcotics, or poisons. 58 FORD COMING NOV. 7. Nothing newer. AROUND THE WORLD. The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement. The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A. The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges. This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world. The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon. Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river. On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur. This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok. Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan. The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries? The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best. The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value. This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

proved and approved around the world 58 FORD. The 58 Ford is the car that will set a new test track. TARBOX-GOSSETT. 3rd At Johnson. Your Ford Dealer. Dial AM 4-7424.

### A Bible Thought For Today

Receive my instruction and not silver, and knowledge rather than choice gold. (Prov. 8:10).

### Ineptness, Not Security, Protected

You probably noticed that there has been a decided increase in the amount of publicity handed out by the Defense and other departments of recent days — following hard on the heels of (1) the Soviet's announcement that it had fired a long-range missile, presumably of 4,000 to 5,000 miles, and (2) followed by the sensational inter-space Sputnik.

This is no coincidence. One reason Sputnik was such a shock to Americans is that all but the most meager information had been withheld from them by Washington bureaucracy with increasing diligence, for the past two or three years.

We did not know how bad or how good our own ICBM program was, thanks to official id-sitting, so these developments fell like a thunderclap upon us.

All segments of the American press, Democratic and Republican alike, have protested what they have denounced as the tightest censorship in American history. It has been denied access to government information, particularly in the Pentagon and allied agencies that it considered to be harmless from a security standpoint. Officials high and low have closed the door on a great deal of information the press felt the American people should have access to, mainly because each bureau chief decided its release would endanger security.

It has been charged that the only harm such release would do would be to the official involved and whatever particular blunder he had made. If he thought an item should be marked top secret, it was marked top secret—and that was that, regardless of its innocuous nature.

Now that the need to offset Russia's propaganda bonanza with its ICBM and its Sputnik is apparent to everyone, there are indications that the lid is being lifted somewhat. But it should also be noted that these releases are favorable to the department involved, calculated to offset the Russian triumph in long-range missiles and an earth satellite.

Nobody in his right mind would want the government to make public any phase of the defense program that would aid or comfort the enemy. But the evil in the current or at least recent, blackout in Washington is that it as often as not protects the inefficient and the incompetent in positions of authority and power, rather than genuine security secrets.

President Eisenhower could perform no more salutary service than to destroy the last shreds of the iniquitous self-protecting censorship that has grown up like some noxious weed in Washington in the last few years.

### Need For Relieving Pressure

There is an apparent injustice in certain aspects of the federal income tax laws that may get the attention of the next session of Congress.

Texas, as well as other states, is entering an era when the exercise of eminent domain in taking land for highway construction, water development and various other purposes will be necessary on a large scale.

As Bea G. Oneal, a Wichita Falls attorney, points out, "Under the income tax law, if the land of an owner is taken, for example, by a city or water district by condemnation, and the compensation paid is greater than the owner paid for the land, the excess is held by the Internal Revenue Service to be income and is taxable, unless the owner, within one year, invests the proceeds in similar land."

Thus, the landowner is put in a squeeze. One agency takes his land, and the other takes part of the sale price. He sells it involuntarily, when he would much prefer to keep it perhaps; to preserve the

"profit" thus involuntarily gained, he must invest the proceeds in other land when he might prefer to invest it in something else. He pays all normal income taxes, the same as everybody else, but a transaction which he never sought in the first place, and was forced to engage in by condemnation, could put him in a higher bracket and thus eat up the "profit" earned and more besides.

It is understood the special session of the Texas Legislature will be asked to petition Congress for the relief of these people, and an amendment to the tax bill is expected to be laid before Congress in January.

It is enough, it would appear, to deprive a man of his land at a price fixed by law without forcing him to pay federal taxes on the increment or, to avoid this levy, to make him find "similar" land somewhere else and reinvest the proceeds within one year. He would have to act fast and buy on a buyer's market, and the seller would have to pay federal income taxes on his increment unless he, too, found and bought.

### David Lawrence

### No 'Law' To Put Troops In Little Rock

WASHINGTON — President Eisenhower, on the advice of his legal aides, now has cleared the air and taken the position that federal troops are in Little Rock "not to enforce or to advance any governmental policy respecting integration, desegregation or segregation" but to enforce a court decree.

This declaration in a letter to Sen. Stennis, Democrat, of Mississippi, has been countered by one of the outstanding lawyers in America — Alfred J. Schweppe, of Seattle, a member of the board of editors of the "American Bar Association Journal" who challenges the President to produce a single statute or constitutional provision that gives the federal government legal power to use troops solely to enforce a federal court order.

The President's letter to the Mississippi senator is along the same lines as a reply he also made to Rep. Herlong, Democrat, of Florida, who candidly told the Chief Executive that he was getting many complaints from parents of boys in the military service. "Just a continuation of your present tactics should result in their boys being ordered to proceed militarily against the South in an effort to enforce school integration." Mr. Herlong added: "You have not had any trouble like the trouble you will have if that is done."

The President's legal position now, as stated to Sen. Stennis, is as follows:

"They (the federal troops) are there, simply, because the normal processes of law have been frustrated. Due to state use of force, first, to block federal court orders, due next to state refusal to use troops to prevent mobs from blocking federal court orders, and due finally to local inability to comply with federal court orders because of mob violence unrestrained by state authorities, other than normal means had to be found to uphold the law. State and local law enforcement

agencies being either unwilling or unable to uphold the law, it became imperatively necessary that the law be upheld by the federal government."

What "law" did the President have in mind? It so happens that Mr. Schweppe, who was born and raised in the North and served for many years as dean of the University of Washington Law School, wrote an article published currently in "U. S. News & World Report" in which he takes up the same points raised by the President. Mr. Schweppe has written extensively on legal subjects and is chairman of the American Bar Association's committee on judicial councils.

Mr. Schweppe points out that the "laws" which the President is faithfully to execute are the acts of Congress and not court orders. The noted lawyer adds that the very statutes cited by the President in his proclamation ordering federal troops to Little Rock refer to "the laws of the United States" and apply to contingencies in which "unlawful obstructions" make it impracticable to enforce "the laws of the United States" by the ordinary course of judicial proceedings."

Mr. Schweppe says: "Obviously a district court decree cannot be held to be a 'law of the United States.' Such a decree is binding only on the parties, is a precedent only within the district, and is not binding on a federal judge who disagrees." He adds:

"I have found no statute empowering the President to use troops to execute the marshal's duties in the event of the latter's inability to do so. . . . If there is no such statute, the President would be acting illegally and beyond his powers. I have seen nothing in the press, moreover, concerning any effort of the U. S. marshal to enforce the Little Rock decree prior to action, by the President."

On the subject of "domestic violence," Mr. Schweppe declares that the Constitution does not permit federal intervention except with the consent of the state unless the violence takes the form of "unlawful obstruction" of a law of Congress and not just of court orders.

Congress has specifically said in the "posse comitatus" act of 1878, recodified in 1956, that the armed forces cannot be used to enforce court orders unless "expressly authorized" by a statute, and such a statute does not exist today. Mr. Schweppe cites the President's own words on Sept. 11, 1956, when he said to a press conference, "I believe it is called a 'posse comitatus' act. . . . That is the thing that keeps the federal government from just going around where it pleases to carry out police duties."

Mr. Schweppe also quotes the decision of the Supreme Court of the United States in the case growing out of Mr. Truman's seizure of the entire steel industry in 1952. The court said:

"The President's power, if any, to issue the order must stem either from an act of Congress or from the Constitution itself. . . . In the framework of our Constitution, the President's power to see that the laws are faithfully executed refutes the idea that he is to be a lawmaker."

For Once, The Truth

### Ed Creagh

### Losing A Good Public Servant

WASHINGTON — This country loses one of its best and most dedicated public servants Nov. 1 when Louis B. Nichols retires. He has been the No. 3 man in the FBI for years.

He joined the FBI 23 years ago. In that time very few people outside Washington ever heard of the husky, six-foot, dark-haired Nichols who at 41 is a man with an astonishing memory and endurance and a burning conscience.

He played the FBI up and himself down. But the FBI can thank him for much of the enormous goodwill it enjoys. In 15 years in Washington this writer has never known a government employee who worked so hard.

His routine, day in and day out, year after year, has been from 8:30 in the morning till 11 or 12 o'clock at night in the office, with usually 10 or 11 hours on Saturday and a shorter stint on Sunday.

Most of the time he ate lunch

and dinner at his desk. His going to work on the FBI. But I think it's a lifesaver for Nichols. Men around him worried constantly about his long hours. Now he is going into private business to make some money for his family.

A few years ago, during a vacation which was never spent far from a telephone, he built a cabin near the water about 100 miles from Washington so he and his two sons could fish. Since then he probably hasn't been there four times a year.

The three top men in the FBI are J. Edgar Hoover, director; Clyde Tolson, associate director; and Nichols, assistant to Hoover. When Hoover and Tolson were out of town, Nichols ran the FBI.

He was up to his neck in everything the FBI did. Besides being in charge of its records and communications, he was the man who, since the late 1930s, has handled its public relations.

### Assassination: Picture Of Doubt

NEW YORK — Here in the city beautiful that nearly every day can greet a dawn with a homicide, there came a sudden death that gave the millions pause.

It was a different death. It was not a routine death in a city where many strange ways of death are routine.

This was a gangster death, the going away with five bullets in his body of the kind of a man who dies with big money in his pocket but who when alive, while often arrested is rarely convicted.

It is the kind of a story that is big news to City Hall and of the man who rides into work here from the suburbs, a source of gossip from the Bowers flop house to Park Ave.

It is an example of the "law beyond the law"—the tale of a man who many people think deserves to be killed but he is killed not by the people, but by his people.

His death may be justice but it is not law. Police officials announced 100 detectives have been assigned to search for the killers, but very few of the 8½ million people here think the 100 will ever bring the two killers to successful trial; nor do they worry much.

For some reason that amazes more civilized nations, many Americans and some of the law officers they hire feel that justice is done when one underworld character exterminates another, a legal and moral attitude as indefensible as it is indigenous.

When I read in the papers that Albert Anastasia had been slain in the same New York hotel out of which Arnold Rothstein, the gambler, had struggled, clutching a dying belly, I could not escape the thought that these gangsters, like the German forces had met in war, were military creators of a military mind, and sometimes were guilty of confronting a new situation with a habit rather than an improvisation.

As an observer of death on many fronts, however, some artistic and some inartistic, I must say the two-man execution of Anastasia marks a postwar low in the art of public assassination.

The whole picture is one of self-doubt, not only from the viewpoint of those who fired but from the standpoint of those who ordered the triggers pulled. They belong in line—those who pulled the triggers. And those who gave the order, belong in the electric chair.

### MR. BREGER

"My husband accidentally spilled a can of paint on the wall — so I framed it..."

## Around The Rim

### Watch Out For The Fine Print

I have before me the "self-interpreting profile leaflet preference record vocational (ch cm) personal (ah, am)" brought home by No. 1 Boy.

There are 14 assorted columns on the left hand side with numbers extending down (or up, depending on where you start) with no apparent uniformity. These columns are graduated, but crazy like a fisherman's ruler. The first 10 per cent takes up a good fourth of the length of the column, but by the time you reach half way, by the ruler, the gauge says 60 per cent.

These columns are labeled outdoor, mechanical, computation, scientific, persuasive, artistic, literary, musical, social service, clerical; then under another section, group activity, stable situations, dealing with ideas, avoiding conflict, directing others.

Somewhere across each of these columns a line is drawn, and the number through which it was drawn is written at the top of the column. How the lines got there or how the numbers were selected, I do not know. Perhaps his psychiatrist dug them out from under the couch (upon which No. 1, No. 2 and No. 3 Boy all love to recline); perhaps there were other tests; perhaps there were Russian spies; or perhaps he just took a fancy to the particular numbers.

But having obtained these numbers, by fair means or foul, you glance to the right hand side of the paper under "vocation-al."

"Circle the number that corresponds to the V-score," the instructions read. Just what a V-score is, deponet knoweth not, nor doth said chart sayeth. However it does explain that you should "copy the

scores 0 through 9 in the boxes at the top of the chart. Be sure to put the 0 score in the 0 box." (I can understand that!)

For the last five columns you again write in that V-score and transpose the numbers under the boxes A through E. Now, says the directions, "your scores in Scales B & D may have to be changed. (The bold print giveth, the fine print taketh away.) You look up your age and find out how much you have to subtract from your score. This confirms what I have suspected—the older you get, the less you know."

All of this is supposed to tell you what you prefer to do, or for what you might be best adapted. In No. 1 Boy's case there are reasonably high marks in outdoor, mechanical, computation, science, artistic, clerical, dealing with ideas, etc.

The trick, of course, is to find a proper combination. For instance, No. 1 Boy might be ideally adapted as an innovating mathematician assigned as a repairman on a power pole. In his off moments he could write down reports of his activities or draw sketches of them. Contrarily, with his ratings in music, persuasiveness and social service, he would be ill-suited as a welfare worker selling pianos on the side.

There must be more to this subtle sheet than meets my eye or penetrates my brain. I stand in awe and fear of it and recoil at the thought of submitting to such an appraisal, knowing full well that I might be unmasked as being better suited as a whistling day-dreamer with abilities as a hodge carrier. How embarrassing, because I can't whistle worth a darn.

—JOE PICKLE

### Even Better Luggage Handling On Jets

SEATTLE—The revolution in air travel presaged by the coming jet age is breath taking.

Indeed, it is so revolutionary that plain passengers like you and me may be able to get our baggage back without it being smashed to a pulp, one of the biggest current gripes against air travel.

This would be a sure-'nuf miracle, but engineers at Boeing, who are building the nation's first commercial jet transport, believe they have achieved it. These engineers have built removable bins that are tailored to fit the luggage holds of the Boeing 707 (jet).

Hereafter luggage bound from New York to San Francisco, for example, will not be tossed higgledy-piggledy into the hold. It will be pre-packed in the New York-San Francisco bin, then placed in the plane and finally unloaded—bin and all—at the end of the journey.

This should preserve both luggage and tempers, and speed up the delivery of bags at the end of the trip. As a matter of fact, the jet will force a revolution on the ground to match that in the air. All current ground service will have to be re-cast and speeded up, from the purchase of tickets to passenger loading, to keep pace with the jets.

The first commercial jet is expected to roll off the Boeing assembly line before Dec. 31, 1957. She is earmarked for Pan-American World Airways, which hopes to put her into service by the end of 1958. Thereafter, Boeing will deliver passenger jets as fast as she can make them to Trans World Airlines, American Airlines, Braniff, Continental, Sabena, Air France, British Overseas Airways Corp., Qantas, Air India, Cubana, Varig and Lufthansa.

Through the 20th Century, the world has

been steadily cut down to size by the airplane. The jet will whittle it much further. In the opinion of Capt. Bob Buck, who heads TWA's jet integration program, "The Boeing 707 will shrink our old globe another 40 per cent."

As Carter Burgess, TWA president points out, "Because of the time differential, it will be possible to leave London at 8 a.m., after an early breakfast, and arrive in New York at 9 a.m., in time for a second breakfast."

Or, as Pan-American reminds, one can take off from New York in the morning, even with a five-hour time differential working against the passengers, and arrive in London in time for dinner.

There is no doubt that the jet will revise the whole pattern of trans-Atlantic flight. Because the jet flies above weather, there will be no particular advantage to night flying, as at present. Daylight flights across the Atlantic will be common and much less tiring than the present long-night flights.

It is also one woman's opinion that the jet age foreshadows the tourist age in the air. Who is going to pay a premium for a de-luxe trip across the continent when it will be flown in four hours or less? And who is going to buy a berth or compartment across the Atlantic when the time is cut to six hours?

The first jets will carry 162 tourist passengers. Or 131 first class. Or 134, if passengers are divided into 38 deluxe travellers and 96 tourists.

We Americans, the most travelling critters in the history of the world, are on the threshold of a new and exciting age of tourism. We are going to go farther and faster than ever before, and no matter how isolated in jungle or hidden in mountains—will be safe.

### Russia First Because Of Harder Work

PRINCETON, N. J.—As the Administration tackles the problem of how to repair U. S. prestige and regain its leadership in scientific research, the typical American feels that there is a simple reason why the Soviets were "first up" with their satellite:

"The Russians just worked harder at it."

In a nationwide survey, completed by the American Institute of Public Opinion since the launching of the Sputnik, the public offers several reasons why they think the Russians were able to put a satellite in orbit before the U. S. was.

Many, for example, feel it was due to the Russians having better scientists, particularly German scientists who came to Russia after World War II.

Others feel that it was due to the fact that Russia made more money available for their program. Still others said it was poor U. S. organization and rivalry between the armed services.

But the reason which Gallup Poll interviewers heard most often in explanation of why the Soviets were first can best be summed up in the words of a 30-year-old housewife in Pitts, Ga.:

"We had too many things going on at once, while the Russians concentrated on one—the satellite."

The Institute assigned its corps of trained opinion reporters to ask this question of a scientifically selected cross-section of adults from coast to coast:

"Why do you think Russia was able to launch the earth satellite before the U. S. did?"

Here are the four principal reasons, ranked in order of frequency of mention, along with typical answers volunteered by persons questioned in the survey:

1. The Russians worked harder and longer at it; concentrated on one thing. . . . "The Russians have a crash program and they concentrate all their scientists on one project. . . . They were working on it alone to the exclusion of all else. . . . Russia has been working on it a lot longer than we have." . . . "They put forth their total efforts while

we are occupied in many problems" . . . "Because they spent more time to develop it and less time to achieve peace" . . . "They are not so divided in their scientific work, they put all their efforts into one project."

2. Russia has better scientists; got scientists from Germany after World War II.

"Largely because their imported scientists, German and Italian, were directed by Russia to push their efforts to gain world-wide political advantage." . . . "Their scientists are government-trained and specialized for that." . . . "The scientific training of Russians is superior to ours." . . . "Russia has all the best scientists captured from Germany." . . . "They had most of the German rocket experts and they worked hard on this project." . . . "Russian scientists are better controlled in their objectives." . . . "Their scientists are smarter and they are better equipped than the U. S."

3. U. S. program was badly organized; inter-service rivalry slowed our program down.

"The Russians all worked together, they didn't do it separately like our Army and Navy did." . . . "Too much bickering among the branches of the service." . . . "Scientists were interfered with by the Army, Navy and Air Force." . . . "Too much red tape in the U. S." . . . "Misunderstandings and differences between the services caused the U. S. to be slower." . . . "Friction among the armed services, with each afraid one service would beat the other."

4. Russians made more money available for their satellite program.

"It's just that they were willing to put the necessary money into advanced scientific research." . . . "Not enough money available for research in the U. S." . . . "Russia spends more money and time on scientific development and their training is geared to science." . . . "On account of their system of government, they didn't spare expense." . . . "Russian government more interested and behind their scientists." . . .

**New High In Styling, Safety**

A complete safety group, consisting of power steering, power brakes, padded dashboard and sun visors, is available on all 1958 Dodge cars. This Custom Royal four-door Lancer also features the compound picture windshield, standard on all hardtop and convertible models. The push-button Torque-Flite transmission is an added convenience, and the safety Torsion-Aire ride is standard on all models. The Dodge 1958 line goes on display Friday at Jones Motor Co., First and Gregg.

**1958 LINES TO BE SHOWN**

**Safety, Performance Go With Dodge 'Swept-Wing' Styling**

Safety engineering, fuel economy and engine performance, plus dramatic "swept-wing" styling are among advances which mark the 1958 Dodge passenger cars.

They will be unveiled to the public Friday, with Jones Motor Co. First and Gregg, showing the cars locally.

With its modern styling, Dodge expects to capitalize on already established public acceptance. Riding comfort and handling ease, with emphasis on safety are among talking points for the new line.

Complementing the dual headlight styling is a strikingly different grille design built of stainless steel. Upper grille bars wrap around the front fender edges and end at the edge of the cross-hatched grille in "bombs" which house the circular parking lights.

Looking over the sweep of hood on all 1958 Dodge convertibles and Lancer hardtops is the compound-curvature "picture" windshield, which wraps around not only at top and bottom, but across the roof line, offering unobstructed visibility at the corners and sides, as well as at the top.

Accentuating the low, lance-like profile of the 1958 Dodge are the styling accents of the sides and rear-end. The jet-age rear fins are reminders that this car was designed with directional stability in mind.

A completely new line of engines, headed by the rugged Ram Fire V-8, powers all 1958 Dodge cars. Combining light weight, compactness, quiet operation and economy, the Ram Fire V-8 is standard on all Custom Royal and station wagon models in the 350-cubic inch version.

A 361-cubic inch version of the

Ram Fire is available on all Dodge Eights with the D-500 engine package.

Ram Fire "350" uses a single four-barrel carburetor for high efficiency and low fuel consumption. Lighter in weight than any engine of similar size, it requires less space under the hood, and is easier to service. Featuring a 10-1 compression ratio, it is of a deep block design.

The 825 cubic-inch Red Ram engine, standard in Coronet and Royal models, provides improved fuel economy through better burning of the fuel-air charge. The compression ratio is 9.0 to 1, and the new combustion chamber design increases efficiency and gasoline mileage.

The Getaway Six, a 230-cubic inch engine with compression ratio of 8.0 to 1, is available on Coronet models.

A completely new power steering design called Constant Control is available on all 1958 Dodge models equipped with Torque-Flite or Power-Flite automatic transmissions.

Embodying the all-important feature of full-time operation, Constant Control affords unexcelled ease of maneuvering, requiring only three and one-half turns of the steering wheel from extreme left to extreme right.

A suspension system regarded as the most modern of any American design—Torsion-Aire—again is standard equipment on all 1958 Dodge models. Horizontal steel torsion bars replace conventional coil springs, giving a smoother, more controlled ride, and requiring less maintenance.

Rear leaf springs are mounted outside the frame, rather than in-

side, increasing the car's stability on curves and reducing sway on turns. Dip and surge on stopping and acceleration have been virtually eliminated.

Offered this year for the first time as a single safety package on the 1958 Dodge are full-time power steering, Total Contact floating shoe power brakes, padded dashboard and padded sun visors. Other safety features include Life-Guard safety latches and safety door handles, both designed to secure doors against accidental opening.

**Christmas Help Asked For Patients In TB Hospital**

SANATORIUM — Help is needed in the area served by McKnight State Tuberculosis Hospital to provide an adequate Christmas for the 350 patients there who will spend the Yule season in the hospital.

Volunteers in the area provide a Christmas gift shop which allows patients to do both their shopping and mailing free of charge. The shop will be conducted Dec. 24 this year so that gifts from patients to their families will have time to reach their destinations. Volunteer workers who can give their time at the hospital as well as cash and miscellaneous gifts are on the wanted list for this project. Now in its fourth year the Christmas gift shop has done more than provide gifts for patients and their families. It has cut the number of patients leaving the hospital in December against medical advice from 47 per cent of discharges in 1954 to 10 per cent in 1956.

**Space 'Taxis' First Steps To Planets**

By ALTON L. BLAKESLEE  
AP Science Reporter  
NEW YORK (AP) — Space ferries and taxis will likely be the first steps in human travel to Mars, Venus and elsewhere in space. They will make short hops—riding up only about as high as Sputnik did.

Their job will be to build and supply space platforms or hotels circling steadily around the earth. Up there the space ships will be built and launched to carry humans on historic explorations of space.

This is the view of most experts on rocketry and space travel. They feel it will be far simpler and cheaper to launch the actual space cruisers from a kind of stepladder in the sky than from the earth itself. The reason involves some hard facts about rockets and gravity.

A well-supplied space cruiser in which humans could live safely and comfortably for weeks or months could weigh many dozens of tons.

Getting that weight off the ground all in one piece takes enormous rocket power. It has to start from scratch, against the full gravity pull of the earth.

Just to send up a 20-pound baby moon in Project Vanguard calls for a 22,000-pound rocket, half a ton of rocket for each pound of payload to be hung in the sky.

MANY DESIGNS  
Numerous experts have proposed designs and plans for the space hotels and cruisers.

First one, then another, then another rocket is shot into an orbit 500 miles or higher above the earth. They are timed or controlled to be bunched.

reaction as gas molecules rush out the narrow, opened back end. The high speed ejection of this mass produces a thrust in the opposite direction.

The escaping gas doesn't need air or anything else to push against. And the rocket moves faster if it doesn't have to fight wind resistance ahead of it.

Launched from a space platform, it has less force of earth's gravity to overcome also.

Once a rocket is aimed for Mars it will coast without further power, falling through space in a great circle to intercept its target planet. If he wants, the captain can boost his speed by short bursts of rocket fire.

BRACING JETS  
Approaching Mars, he turns his ship by firing small steering jets. Then he uses his main rocket

power to offset Mars' pull of gravity enough to back down slowly and gently onto the planet.

Come home, he first rejoins his space hotel, then comes back to earth aboard ferry or taxi rockets.

Re-entering the earth's atmosphere at high speed could burn up a ferry or taxi or big rocket. But rocket engines can be fired as brakes and approaches can be made in swooping glides to slow the speed in the earth's high thin atmosphere to make safe landings on earth.

Rockets now ride up on chemical fuels, either liquid or solid propellants or both. They are being made even more powerful.

Atomic energy is a future fuel. The sun's heat might also be used to generate electricity, and with it produce streams of ions or elec-

trons producing little kicks to power a space cruiser once it was up in space.

Enthusiasts are sure human space travel is coming. But there are Doubting Thomases, and many persons who wonder why humans should go traipsing around the universe anyhow.

Tomorrow: Goals and prizes from space explorations).

Israelis Visit  
DALLAS (AP)—Three members of an Israeli industrial good will mission, sponsored by the Israel government, will arrive this afternoon to acquaint local business leaders with Israel's industrial growth and potential for private investment.

Rockets now ride up on chemical fuels, either liquid or solid propellants or both. They are being made even more powerful.

Atomic energy is a future fuel. The sun's heat might also be used to generate electricity, and with it produce streams of ions or elec-

trons producing little kicks to power a space cruiser once it was up in space.

Enthusiasts are sure human space travel is coming. But there are Doubting Thomases, and many persons who wonder why humans should go traipsing around the universe anyhow.

### To Wed Soon

Dr. and Mrs. J. E. Hogan, 509 Westover, are announcing the engagement and approaching marriage of their daughter, Janet, to Lt. William H. Brigman, son of Mr. and Mrs. Paul Brigman, Brunswick, Ga. Wedding vows will be exchanged in the home of the bride's parents on Nov. 9.

## Four Are Guests At Toastmistress Club

At a meeting of the Tall Talkers Toastmistress Club Tuesday evening, four guests were present. They were Mrs. H. B. Madry, Mrs. Morris Patterson, Mrs. Malcolm

## Girl Scouts, Brownies Hold Meets

Girl Scout Troop 27 and the Brownie Troop of the third grade of Airport School gathered at the school Tuesday afternoon for a hike up Scenic Mountain.

At the top, the Scouts taught games and songs to the Brownies. Later the group of 22 was joined by eight parents, who served refreshments. Mrs. Ernest Miller is the leader.

An investiture service was planned Tuesday afternoon by Brownie Troop of the second grade at Park Hill School. The group met at the Girl Scout Little House, where the ceremony will be held Tuesday.

Mrs. Toby Cook and Mrs. Bill Estes are leaders of the troop. Refreshments were served by Annette Fitzhugh and Leslie Ann Garrett.

## Officers Of OES Honored At Dinner

Mr. and Mrs. Fred Eaker were hosts for a dinner at the Officers' Club Tuesday evening honoring the officers of the Eastern Star. He is the worthy patron.

Fall flowers and foliage were used to accent the autumn, and places were marked with cards in the shape of fall leaves.

Mrs. Eaker pantomimed the record, "It's In The Book" for 36 who attended.

## Golf Association

Members of the Ladies Golf Association of Big Spring Country Club will meet Friday at 1 p.m. for luncheon at the club. Reservations must be made Thursday by calling the club, AM 4-7701.

### Harvest Theme

Mrs. Travis Carlton, at left, and Mrs. Jack Cook, members of the Rosebud Garden Club made an arrangement for the cafeteria at Washington Place School. Using fall fruits and vegetables, the gardeners made a composition, which will be left in the cafeteria for some time. This is the second of the garden clubs to take the project of making arrangements for one of the cafeterias.

## Certificates Of Merit Given To Two At Rebekah Lodge Meetings

Two members of local Rebekah lodges were presented with certificates of merit at meetings held in their respective meeting halls on Tuesday evening.

A special evening of entertainment was held by members of the Big Spring Rebekah Lodge at the IOOF Hall. This was the dinner af-

fair that concluded an attendance contest, and the losing Greens entertained for the Pinks.

The hall was decorated with fall flowers and Halloween symbols. On the buffet was a witch surrounded with corn and pyracantha berries.

Mrs. K. J. Nielsen was presented with a certificate of merit for unwritten work by Mrs. J. R. Petty. Mrs. Maggie Richardson, a charter member, and A. Knappe of the Mullin Lodge, were made lodge mother and father. Mrs. Claude Gilliland presented Mrs. Richardson with a corsage of pink carnations. The Mullin Lodge presented Mr. Knappe with a gift.

Mrs. Lynn White was accepted as a new member. Sick visits were counted. Seventy-five members and ten guests were present.

John A. Kee Mrs. O. G. Burns received a certificate of merit from Mrs. W. C. Cole, lodge deputy, when the John A. Kee Rebekahs met in Carpenters Hall.

Mrs. Homer Petty presided in the absence of the president. Plans were completed for the rummage sale that will be held Saturday. Mrs. Tad Brown and Mrs. D. F. Harris are in charge of the sale.

Nineteen members including 11 past noble grands, attended the meeting.

crocheted cloth over yellow and was centered with a straw cornucopia filled with yellow and bronze chrysanthemums.

Mrs. Overman registered the guests and Mrs. Maynard served. For her party Mrs. Wilburn wore a champagne faille brocade dress fashioned along princess lines with low rounded neckline and cap sleeves. Her accessories were black. She wore a corsage of tiny yellow chrysanthemums accented with a bronze ribbon.

Mr. and Mrs. Wilburn were married on Oct. 18 at the home of the bridegroom's parents. Her parents are Mr. and Mrs. O. H. Derington, 302 NE 2nd St.

An autumn theme was used to decorate throughout the house. The tea table was covered with a brown

While we are all sorry to have MRS. R. D. WHITTINGTON move from Webb, we are happy for her that she is going back home, which is Shreveport, La. Col. and Mrs. Whittington have been in Big Spring a long time and they are just about "home-folk."

So many attractive women were at the tea to honor Mrs. Whittington. MRS. LEO HELLMAN was pretty in black with pearl bib as her only adornment. MRS. ROY E. IRELAND is one of the most personable women we have met in some time. She wore a bright red knit suit with a small fur piece and small hat Tuesday afternoon.

MRS. CHARLES PIERCE, who was assisting with the refreshments, wore a blue wool one-piece dress and a smil white hat that featured a graceful white feather that snuggled closely to her cheek. We were happy to meet MRS. L. R. SIMPSON who is a nice friendly person.

MR. AND MRS. W. G. WILSON JR. have returned from Dallas where they accompanied their son, W. W. Wilson, who left from there for New Orleans where he took a

MRS. FRED WHITAKER, who is in charge of the World Communion Day for the Council of Church Women, is reminding all the participating churches to get their duffel bags packed and the parcels for peace ready. These will be shipped soon. The council will have the World Communion Day at the Webb Air Base Chapel at 3 p.m. Friday.

It was a nice gesture on the part of the junior college to have a reception following the presentation of "See How They Run." It's nice to meet the cast and get to know them better. They have a good show and to me it seemed well cast.

MR. AND MRS. L. C. STOKER of Texarkana are expected to be here over the weekend to visit with her sister, Mrs. Schley Riley, and Mr. Riley. They had visited overnight here earlier in the week before going to New Mexico.

The next meeting will be held in the home of Mrs. Nobles on Nov. 5. Twenty-three members were dismissed with the benediction.

Mrs. W. L. Vaughn brought the worship service, and Mrs. Laswell offered the prayer of dedication.

The speaker showed charts explaining the division of the money received by the organization. Pamphlets dealing with tithing were distributed.

Named as a committee to make the by-laws were Mrs. Tom Buckner, Mrs. Pete Shepherd and Mrs. Rex Greenwood.

It was decided that the Evan Holmes Circle will have charge of the YWA; the Horace Buddin Circle, the Sunbeams, and the Fishers Circle, the Junior GA. The Business Women's Circle will have charge of the Intermediate GA.

Prayers were offered by Mrs. Sam Bennett and Mrs. Richard Grimes. The boxes packed for the Indians in New Mexico were prepared for mailing.

The round table group met after the session and exchanged books. Twenty members were present, with two guests, the Rev. A. R. Posey and Jimmie Bennett. It was announced that all circles

### Have A Cup

Mrs. C. H. Pierce serves a cup of coffee to the honored guest, Mrs. Robert D. Whittington, at a party given at the Officers' Club Tuesday afternoon. Mrs. L. R. Simpson, at right, was co-chairman of arrangements for the social, which the Officers' Wives' Club gave. Friends from Webb AFB and from town gathered to bid Mrs. Whittington "goodbye." She will soon leave for Shreveport, La.

## Mrs. Whittington Is Complimented At Tea

Friends of Mrs. Robert D. Whittington gathered in the Officers' Lounge at Webb AFB Tuesday afternoon to bid her farewell. With her husband, she will leave soon to make a home in Shreveport, La.

Hostesses for the tea were members of the Officers' Wives' Club, with Mrs. C. H. Pierce and Mrs. L. R. Simpson in charge of the party arrangements.

Greeting guests was Mrs. Kendall Clement, OWC president, who presented guests to the honoree. Featuring a color scheme of pink and red, the tea table was done in a white cloth over red. An arrangement of pink, red and white carnations

Decorated with silvered foliage furthered the colors as did the pink candles held in silver candelabra, matching the flower container. Silver services at each end of the tea table were used for serving by members of the house party.

Mrs. R. W. Mulledy, Mrs. R. F. Steffey, Mrs. T. S. Simpson, Mrs. Donald Barr, Mrs. James Watson, Mrs. T. W. Smith, Mrs. D. K. Winston, Mrs. Simpson and Mrs. Pierce.

## Play Given For WMU At College Baptist

"A Visit for WMU" written for the College Baptist WMU by Mrs. Bill Blalack was presented at the meeting Tuesday morning at the church.

Taking parts were Mrs. Ben Caldwell, Mrs. Bob Swift and Mrs. Blalack. Following the short meeting the group of nine visited prospective members. They then returned to the church where they had lunch.

Rev. H. W. Bartlett joined them for the covered dish affair.

## Hillcrest WMU To Prepare For Needy

Members of the Hillcrest Baptist WMU met at the church Monday evening for their monthly business meeting and made plans for preparing baskets for needy families during the Thanksgiving season.

The group opened the meeting by singing "Lead On, O King Eternal," which was followed by the devotional on stewardship by Mrs. Terry Carter. Mrs. Carter read the prayer and Mrs. Jim Smith led the prayer.

During the business hour, the group made plans to pack baskets of food for needy families and will complete the plans at the meeting next Monday evening. The union will start work on their circle yearbooks at the Monday to the meeting in November.

They also adopted as their song, "Our Best," the colors will be royal blue and white, and the flower will be a white carnation. The women voted to serve refreshments each first Monday to the Girls Auxiliary and the Sunbeams.

Seven were present for the meeting, which was dismissed by prayer led by Mrs. H. L. Bingham.

## Buffet Supper Is Given For Jaycee-Ette Official

Mrs. C. L. Cowley Jr. of Dallas, state president of the Jaycee-ettes paid her official visit to the local organization Tuesday evening and was a guest for a buffet supper at Carlos Restaurant.

The table from which the guests were served was arranged with pyracantha berries. The center of interest was a triple gold candleholder. The center holder was filled with the berries, and on either side were the burning tapers.

The meeting was a called one in order for Mrs. Cowley to meet with the local members and she held a question and answer session on scrapbooks. She told of the new judging system and also announced the fall board meeting which will be held in Amarillo in November.

Guests from Colorado City were Mrs. Dwayne Williams, Mrs. H. B. Slaughter, secretary of the Colorado City club, Mrs. John Grubbs, their treasurer, and Mrs. Goodwin Simpson, regional past vice president. Other guests were Mrs. Ransom White of Lubbock and Ann McLaughlin of Chicago, Ill.

Thirteen members attended.

**Education Study Shows No Effects On Students' Values**

CHICAGO (AP)—A study of high school students added today to an apparently growing body of evidence that American education has no effect whatever on their life values.

Last March Philip E. Jacob of the University of Pennsylvania released a study which indicated that the inner guideposts of American college students go unchanged through their freshman through their senior years.

Today Jacob W. Getzels, an educational psychologist at the University of Chicago, reported findings about high school students which he said are "exactly in line with what Jacob found."

"The high school score," he said in a prepared paper, "seems to add up to no runs, no hits, no errors—that is, of course, if not influencing children's values during four years of educational effort

is considered no error."

Getzel was on the program of the conference of the American High School sponsored by the University of Chicago and the National Citizens Council for better schools.

He said Americans may be said to hold two kinds of values:

1. Fairly stable "sacred" values—belief in democracy, belief in the rights and equality of the individual, an optimistic view of mankind's future.
2. "Secular" values, which are "undergoing crucial transformation" with changes in America's technological and social structures. For example, he said "socialability" is displacing hard work as the key to success in the eyes of many Americans—"the hard-working, self-determined Horatio Alger hero is giving way to the affable young man in the grey flannel suit."

**Permian Bldg. Is Purchased For \$731,000**

A warranty deed transferring ownership of the Permian Building, Inc., to the Coates Realty Co. was filed in the office of Pauline Petty, Howard County clerk, Tuesday.

The deed specifies that the new owners paid \$731,981.99 for the office building. The clerk's office attached \$374 in U. S. Revenue stamps to the document.

It is explained in the deed that \$340,000 of the purchase price was paid in cash and that the buyer assumed an obligation against the building for \$391,981.99—notes held by the Prudential Insurance Co. which mature in 1969.

The property involved was offi-

cially described as Lots 17-18 in Block 12 of the original Big Spring plat.

Attached to the deed a copy of the minutes of a meeting of the board of directors of Permian Building, Inc., held in Fort Worth on Oct. 21. The sale itself was completed on Oct. 25.

The minutes of the meeting related that Mrs. Laura Cooley, president of Permian Building, Inc., presided at the meeting and that all of the stockholders and board members were present.

Wallace K. Coates, representing the Coates Realty Co., was in attendance.

The board members were identified as Gus Cooley, vice president; Mrs. Lena Bell McLaughlin, secretary and assistant treasurer;

and Mrs. Doris Ann Hull, treasurer and assistant-secretary.

The Permian Building, one of the largest and best known office buildings, is located at the corner of Scurry and 2nd Sts.

It was erected in 1933, with formal opening on Nov. 22 that year.

**OH, MY ACHING BACK**

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless, uncomfortable feeling.

For quick relief get Doan's Pills. They work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headaches, muscular aches and pains. 2. by their soothing effect on bladder irritation. 3. by their mild diuretic action tending to increase output of the 15 miles of kidney tubes.

Find out how quickly this 8-way medicine goes to work. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. Ask for new, large size and save money. Get Doan's Pills today!

**BenJack Denied New Trial, Gets Out On Bond**

DALLAS (AP)—BenJack Cage, former insurance promoter convicted of embezzling \$100,000 from the ICT insurance empire he once headed, was free on bond today.

A motion for a new trial was denied by Dist. Judge Frank Wilson yesterday. But a \$7,500 appeal bond was set and posted.

Cage had been in jail since Friday, when a jury convicted him and gave him the maximum of 10 years.

The tall, handsome promoter, who built a 74-company empire in four years, was formally sentenced after the motion was denied.

Cage, relaxed and smiling during the week-long trial, appeared glum and showed deep circles under his eyes.

Asked of his plans, he said, "I just don't know what I'll do. I'm in a helpless position."

Cage refused to speculate on the outcome of the appeal. "After that trial, I'm not making any more predictions," he said.

Cage's attorneys said the appeal probably will be argued in March. They predicted the case would be reversed.

Defense Attorney Pete White, in the argument for a new trial, said the prosecution had failed to show Cage got personal possession of 20,000 shares of stock involved. White also objected to introduction of 16 checks payable to former Insurance Commissioner Byron Saunders. He said they had nothing to do with the indictment.

Wade said the defense did not deny any of the evidence.

"I think the jury verdict was supported by the testimony. And I ruled on the admissibility of the evidence as the trial went along," Wilson told the attorneys.

**3 Cities Under Mock Assaults**

FORT WORTH (AP)—Atlanta, Kansas City and St. Louis come under simulated bombing attacks today in the ninth annual navigation and reconnaissance competition of the Strategic Air Command.

Twenty heavy bomber teams will fly their missions from Carswell AFB here. Sixty-six SAC medium bombers and four Royal Air Force crews in two of Britain's new jets will operate from Pinecastle in Florida.

Half the competitors will drop their first mock bombs today, the others tomorrow. The exercise ends Nov. 5.

Five B36s and five B52 jet bombers will set out each day from Carswell. The medium bomber crews from Pinecastle will fly B47 and RB47 jets.

Competing crews will drop 270 simulated bombs and travel more than 700,000 miles before the exercise is completed, spending a total of 1,500 hours in the air.

Carswell's 11th bomb wing is the defending champion unit of the SAC.

**Vice Cops Okay Elvis' Gyration**

HOLLYWOOD (AP)—Elvis Presley, quiver-lipped hero of the fainting set, performed under the scrutiny of vice squad officers last night. They said they found nothing wrong with the show, from a standpoint of propriety at any rate.

The officers were dispatched to the Pan-Pacific Auditorium because of complaints about the previous night's proceedings. It was then that about 10,000 of Presley's constituents went insane over their idol's unique brand of song and dance.

Many parents who accompanied their offspring to the production claimed Presley was manipulating his hips in a manner that was most vulgar, to say the least.

**Higher Post**

# DAN BIRDWELL SET TO PLAY

The Big Spring football camp was cheered by the news that Danny Birdwell would be eligible for Friday night's game with Odessa here. Birdwell's teachers had informed Coach Al Milch that the big lineman was low in some of his grades but Danny worked hard to make them up and has been okayed for Friday night.

Some bad news tempers the good, however. Wayne Fields, star running back, stands little if any chance of seeing action against the Bronchos.

Fields, who injured a knee in last week's game with Abilene, didn't even suit out yesterday.

Coach Milch said he would probably hold out Fields Friday even if he expressed a desire to play because he wanted to take no chances with him.

"This boy has another season of eligibility remaining and we want to take no chances with him," Milch stated.

GARLAND KENNON

## Garland Kennon UT Line Star

AUSTIN (SO)—The biggest man in the University of Texas football ranks is matching his size with ability as the Longhorns continue to gain stature with their defensive skill.

Garland Kennon, who weighs 233 and stands 6-7, is looking forward to his fourth varsity game against SMU Saturday. He has been a starter ever since the opening game of his sophomore season and just last week came up with the peak performance of his career.

The massive tackle, who has missed action in only one of the past 25 games played by Texas, is from Center, a small town in upper East Texas. Two of his fellow starters, both of whom likewise are highly-skilled on defensive, are "neighbors." Fullback Don Allen is from New London and Right Halfback Max Alvis hails from Jasper.

Kennon, too, felt like he played his best game of the year against the Arkansas Razorbacks, especially defensively. "I was getting away from blocks better and working up more steam when I was heading for the sideline." (That's how the Texas coaches and players describe pursuit when the play is going to the opposite side.)

Texas' good showing to date is not so surprising to Kennon. "I felt we would do better than most of the people we were expecting," he said. "What I saw in spring training led me to believe this. It was just the way the boys hit. You could hear more leather popping than before, and that's a good sound."

When Kennon reported for fall training as a sophomore, he was listed on the roster as a fourth-string center, mainly because he looked like he might become a football player. His development was phenomenal, for in a little more than two weeks he had taken over as the No. 1 left tackle and was there when the Longhorns opened against Texas Tech.

Garland, a petroleum engineering major, logged 410 minutes that year and was acclaimed one of the best sophomore linemen in the Southwest Conference. As a junior last year, he divided time between guard and tackle duty and played his best ball offensively.

"He also blocked well for us against Arkansas," Coach Royall reminded.

Kennon recovered two fumbles in Georgia game and one of them set up a Texas scoring opportunity on the Bulldogs' 16 late in the first quarter.

The curly-haired tackle also came through with a "big play," in the Tulane game, stopping the Wave's Gene Newton short of a first down on the Texas 12-yard line in the third quarter when the score was deadlocked.

Regarding his size Kennon says, "weight isn't nearly as important as a quick reaction when you're charging. If you're out-

trapped in the end zone for a safety. The Eighth Graders had held the Colts on their one, but with first down from that point, the winning play developed.

Hard at work Tuesday on blocking and tackling fundamentals, the team was looking sharp. Coach Zellars reported that the team had been clicking well all week and he felt they would be ready for Thursday's clash.

North Side Junior High of Abilene will be host to the Freshmen team of Coaches Dan Lewis and Chop Van Pelt Thursday at 4:00 p.m.

Holder of a 5-1 record, the North Side gridgers are expected to be rugged. Their only loss came from another Abilene team, Lincoln Junior High.

Two weeks ago, they defeated Levelland 19-7 to bring their worst loss standings to 3-2.

## Yearling 11's Seek Win Combination This Week

Coaches Hugh Hamm and Jimmy Marcus were running their Seventh Grade football team through extensive drill Tuesday afternoon in preparation for Thursday's game. They met a potent Sweetwater eleven here at 6:30 on the north practice field.

Last week, the seventh graders dropped a decision to this same team at Sweetwater, 19-6. Still not fully recuperated from the recent flurry of illness, several boys remained absent from workout sessions.

The Eighth Grade ensemble of Coach Bobby Zellars faces what he terms a "tough ball game" here Thursday at 8 p.m. with Sweetwater.

Last Thursday, his team dropped a hard-fought contest to the Sweetwater bunch, 2-0.

The two-puncher came late in the third period when Jimmy Madry

## Giant Tackle Pacing Lamar Grid Troupe

BEAUMONT (A)—A giant tackle swung through college football this season.

He is Dudley Meredith of Boret, a former star at Del Mar Junior College in Corpus Christi and Midwestern University of Wichita Falls.

It's seldom a lineman is credited with football victories but they say Meredith is the reason Lamar Tech is undefeated through seven games and appears on the way to the Lone Star Conference championship and a possible bowl bid.

Coach J. B. Higgins says "It would be a travesty of justice for Dudley not to make Little All-America. He is good enough to make anybody's big-time All-America."

In the biggest game of the season—the night Lamar Tech beat East Texas 7-6 to become the conference favorite—the 233-pound tackle blocked a punt, dropped the Lion quarterback three straight times for five to seven-yard losses on pass attempts and his coach said "his pursuit was tremendous. He stopped wide stuff on both sides of the field, as well as plugging his own spot."

Agassit Southwestern Louisiana the guitar-strumming lineman notched two points by blocking a punt for a safety. Against Sam Houston, whom Tech battled to a tie, star Bobby Grisham ran six plays at Tech—all at Meredith's position. Grisham wound up with a net three yards.

They tell a story that's supposed to be true about J. B. (Ears) Whitworth, who is being deposed as head coach at Alabama after this season.

Jimmy Lynch, referee of the TCU-Alabama game earlier this year, informed Whitworth he himself was saddled with the job of alerting Whitworth and the Alabama team via telephone it was time to return to the playing field five minutes before the scheduled kickoff time.

Whitworth said he wouldn't respond, however.

"That won't work. I ain't answering any phones these days. I'm afraid it might be the alumnus on the other end."

The Abilene B football team, which brought an undefeated record here last week and succeeded in protecting it against the local reserves, said (through a spokesman) it had never been hit as hard as it was by the Dogies.

The Shortorns have put in some rugged afternoons in scrimmages against the Big Spring varsity and the experience is beginning to pay off.

The Abilene team hadn't been scored on in five games before Saturday but the Shortorns crossed the Eagles' goal line twice and would have won but for a fumble in the last few minutes.

Hugh Hamm, the 7th Grade football mentor, will coach the 9th Grade basketball team here, according to present plans. He succeeds Charles Caraway in the post. Caraway quit during the summer to go to Lubbock.

Jack Sledge, the New London boy who went to TCU, may never become the star he was expected to be for the Frogs. His lack of speed has kept him on the bench thus far.

## Rockets Turn To Cage Game

The Lakeview Rockets, coached by Roosevelt Brown, closed out a rugged season with a final defeat from Plainview last week, 31-8. The contest was played at Abilene, a part of a homecoming activity.

The loss had a brighter aspect, however, for previously they had dropped an encounter with Plainview, 57-6.

The Rocket's tallies came on a pass play and a safety. Quarterback B. F. Newton tossed a 15-yarder to Willie Miles in the flat on the five. Miles slipped across for the only touchdown.

Looking sharp defensively, Rogers Evans brought in two points when he broke through and caught a Plainview back in the end zone for a safety. Other standouts were Donnie Ray Traylor and Luther Bryant, who picked up good yardage offensively.

It was the best showing that the Rockets had presented this season. They turn now to basketball for what Coach Brown hopes will be a "lot better" season, Brown says he plans to have a game with Crane around November 15, if it can be arranged.

## Frame-Ups Retain Advantage In Loop

In OWC Bowling League play Monday night at the Clover Bowl, the Frame-ups kept their first place lead by winning three points over the last place Duds.

The Splitties set down the Bowlers, 3-1, while the God-offers dumped the Cotton Pickers by taking all four points. The game between the Pockettes and Sittin' Ducks was split two points even.

Ann Lytle topped the individual game play with a score of 163, while Ruth Makris was second high with 161. Betsy Moss held high individual series with 457.

The Frame-ups led team scoring with a 2332. A 7-6 split was picked up by Ruby Harrison and Betty Porter picked up a 7-5.

Standings:

Team	W	L	Pts.
Frame-ups	21	1	21
Splitties	17	5	17
Pockettes	17	5	17
Bowlers	17	5	17
God-offers	16	6	16
Sittin' Ducks	13	9	13

## Anthony's Opens Up A Big Gap In Bowling Circuit

C. R. Anthony's team is opening up a wide gap between it and the other clubs in the Ladies' Classic bowling league here.

Anthony's shaded Riteway Motors, 3-0, last night at Clover Bowl for its 22nd win in 24 starts.

In other matches, Cosden won over Texaco Stars, 2-1; Hodges Hobby House turned back Good Housekeeping, 3-0; while Pinkie's bested Neel's Transfer, 2-1.

Sugar Brown dominated individual scoring with 196-194-566. Olive Cauble had the second best aggregate, 502. Both bowl for Cosden.

Cosden topped team scoring with 812-293. Texaco was next, with 757-2183.

Splits were converted by: Frances Bartlett, Cosden (5-7); Jane Pasquale, Myrick Texaco (5-6); Locky Beach, Pinkie's (4-5-7); Angie Merrill, Pinkie's (5-7); Mary Ruth Robertson, Pinkie's (4-5); and June Sprosser, Good Housekeeping (4-7-10).

## Knott Girls Turn Back Dragon Club

KNOTT (SC)—The Knott girls' basketball team humbled Flower Grove, 59-40, in their first game of the season here Tuesday night.

Neva Jackson, a regular guard, and three other players missed seeing action for the Billies due to illness. Coach Bill Bolin used all 16 players he had.

Knott led at the end of the first quarter, 16-8; at half time, 36-19; and after three periods, 51-27.

Sue Paige had 23 points as the Knott leader. Joan Sample scored 18, Ann Rogers eight, Virgie Graham six and Sharon Cline and Brenda Woods two each.

Penny Butchie tallied 25 and Mary Butchie 15 for Flower Grove.

## Dr. Pepper And Fireball Tops

Sinclair bounced Phillips, 3-1; Fireball Muffler decked Dr. Pepper, 3-1; and Bell Telephone blanked R. M. Minton, 4-0, in Commercial bowling league competition last week.

Dr. Pepper had a 948 for game high while Fireball Muffler assembled the top aggregate, 2687.

C. Frazier dominated individual scoring, with 255-646.

Standings:

Standing	W	L
Fireball Muffler	12	8
Phillips	11	9
Bell Telephone	10	10
Dr. Pepper	9	11
R. M. Minton	9	11
Sinclair	8	12

# Crow Inspires Scribe To Pick Texas A&M

NEW YORK (A)—What is so rare as a day in June? Then, if ever, the world's in time and a college football forecaster can forget all about moral victories, blocked punts, intercepted passes and off-side penalties. But one can't forget about a 33-18 record, the second straight week.

This week's picks with no confirmation that the average will be any better: Texas A&M over Arkansas: John Crow is the hero of the Texas Aggie squad. So, shall we say "as the Crow flies..."

Oklahoma over Kansas State: The Sooners now know their rivals do not read the Oklahoma clippings. This could even become lopsided.

## LOOKING 'EM OVER With Tommy Hart

Unless he has sand in his shoes, Paul (Bear) Bryant would be foolish to leave Texas A&M for Alabama. The rumor has been printed in the metropolitan dailies.

True, Alabama is his alma mater but Paul has the ideal setup at A&M. And he's done so well by the Aggies he can probably write his own ticket.

The fact that Alabama is bound to get involved in the segregation issue would probably go far toward convincing Bryant that he would be better off in Aggieland. It likely will get to the point in the Deep South where the college teams will be restricted to booking games within their own area and be barred from bowl trips outside of New Orleans and Jacksonville, Fla.

It's the question of time until the Southwest Conference schools start admitting Negroes and playing them.

I think Alabama may pluck Frank Moseley of Virginia Poly Institute for its next coach. The choice appears to lie between him and Harry Gilmer and Moseley has had more coaching experience than Gilmer.

However, don't rule out Red Sanders of UCLA as a possibility at Tusculooza. He's unhappy in Los Angeles and may be ready to make the big jump.

There's one thing about it, Alabama can pay the money to land a big-time coach. His football team has been down since Frank Thomas was forced to step out but the Crimson Tide's athletic department is in top shape, financially.

## FRIDAY

Boston University over George Washington, Miami over Villanova.

SATURDAY

EAST: Cornell over Columbia, Pennsylvania over Harvard, West Virginia over Penn State, Pittsburgh over Syracuse, Princeton over Brown, Dartmouth over Yale, Rutgers over Delaware, Holy Cross over Quantico (Sunday).

SOUTH: Georgia over Alabama, Kentucky over Memphis State, Louisiana State over Vanderbilt, Mississippi State over Tulane, South Carolina over Maryland, Virginia Tech over Richmond, Virginia Military over Virginia, The Citadel over William & Mary.

MIDWEST: Cincinnati over Detroit, College of Pacific over Marquette, Missouri over Colorado, Iowa State over Drake, Illinois over Purdue, Nebraska over Kansas, Oklahoma State over Texas Tech, Minnesota over Indiana, Wichita over Dayton.

SOUTHWEST: Arizona State (Tempe) over New Mexico A&M, Baylor over Texas Christian, Hardin-Simmons over Texas Western, Rice over Clemson, West Texas over Arizona.

FAR WEST: Idaho over Montana, New Mexico over Denver, Oregon State over Washington State, Washington over Southern California, UCLA over California, Utah State over Brigham Young, Utah over Colorado State University, Wyoming over Air Force Academy.

## DELEGATION IS TOLD City Will Work For LL Parks

Although no official action was taken, the City Commission told a delegation representing the Little League Tuesday night that the city would do as much as possible toward establishing more ball diamonds in the city.

D. R. Gartman headed a three-man committee which asked the city to build two more diamonds for the Little and Teenage League boys. Gartman said that the two new diamonds would be needed to handle the boys which they expect next year. About \$10,000 would be needed, he estimated.

The entire commission voiced the need for the parks but said at the present time, the city did not have the money to spend building such diamonds. Gartman said the leagues had an oral agreement to get land on the southeast corner of HCJC on a diamond.

Roy Bruce asked about using Steer Park for the Teenage League, but the committee said questions standing between the league and the park were (1) liability for injuries and (2) payment of electricity bills. The park belongs to the school.

Next mentioned was the north-west corner of 8th and Owens, or across from the proposed YMCA building. The commission and the committee agreed that the site was a well located, and the city said it would do everything possible to help build a park there.

Curtis Driver commended the men working with the Little and Teenage League programs and said the city would do everything possible to help. The city manager was instructed to check to see which of the city, school or county owned the property at 8th and Owens.

County Judge R. H. Weaver came to the meeting later and said the county would be willing to do what it could, but legal restrictions forbade them from building the parks.

He said the county would be willing to let them build on county land if the section under consideration at 8th and Owens were on its property.

The committee from the leagues urged the city to move as fast as possible, so any diamonds constructed would be ready by opening of the season about a week before school is out next spring.

## Tidwell Builds Bowling Lead

Tidwell Chevrolet gained a maximum four points in Men's Classic Bowling league competition earlier this week to stretch its lead.

Tom McGreevy had a big hand in the Tidwell, win, though Charles Porter of Lee Hanson's quintet had a high single game of 257. H. Gardner of Parker Shell was close, with 224.

In other matches, Madewell Humble accepted a forfeit from Cosden, Standard Sales took three points from Lee Hanson's and Campbell Construction split with Parker Shell, 2-2.

Standings:

Team	W	L
Tidwell Chevrolet	20	11
Standard Sales	21	11
Lee Star Motor	20	12
Madewell Humble	19	13
Lee Hanson's	12	20
Parker Shell	11	21

## Wogs Play Baylor Frosh Tonight

TCU seeks to pad its lead in Southwest Conference freshman football Wednesday as the unbeaten Wogs play one-time loser Baylor.

Rice plays Del Mar Junior College at Corpus Christi Thursday and SMU and Texas clash at Dal on Friday.

# Sauer Comeback Akins Is Winner

NEW YORK (A)—Big Hank Sauer, 36, who hit 26 home runs to give the Giants a needed lift in their last season in New York, made the 1957 National League Comeback of the Year award.

This was the verdict of the members of the Baseball Writers' Assn. who participated in HANK SAUER The Associated Press annual poll.

Sixty-four of the 159 participating writers felt Sauer's recovery from a poor season in 1956 was the most noteworthy. Cincinnati third baseman Don Hoak was second with 29 votes.

Far back in third place was Giants' pitcher Ruben Gomez with seven votes. He was followed by first baseman Stan Mustaf of St. Louis with six and Brooklyn pitcher Johnny Podres with five.

Sauer embellished his 1957 home run output with 76 runs batted in. He batted .259 in 21 games. His 26 circuit blows increased his total for 13 big league seasons to 275.

The resident of Inglewood, Calif., was given his unconditional release by the St. Louis Cards at the close of the 1956 campaign. He was picked up by the Giants as a free agent.

Sauer's 1956 batting average was .298. But he played in 75 games, many of them as a pinch-hitter, and managed five homers and 24 RBIs.

Hank's best year was 1952 when he led the National League with 37 homers and 121 runs batted in for the fifth-place Chicago Cubs. He won the Most Valuable Player Award. He is the only member of a second-division club to have done so.

Hoak also was helped by a change of uniform the past season. In 1956 he hit .215 for the Cubs. With the Redlegs he had a .295 average along with 19 homers and 90 RBIs. In 10 previous professional seasons—major and minor league—Don never hit more than seven home runs.

Gomez, who compiled a 7-17 record last year, won 15 games and lost 13 in 1957. He was the Giants' biggest winner.

Mustaf won his seventh league batting title with a .351 average after finishing with .310 the previous season. Podres, in his first season out of Uncle Sam's Navy, captured the earned run title with 2.66 and won 12 games while losing nine.

Slugging outfielder Del Ennis of St. Louis was named as the comeback player on four ballots. Red Schoendienst, Milwaukee's second baseman, got three votes.

Players with two votes were first baseman Dee Fondy, shortstop Dick Groat and pitcher Vern Law of Pittsburgh, pitcher Curt Simmons and shortstop Granny Hamner of Philadelphia, third baseman Eddie Mathews of Milwaukee and first baseman Gil Hodges of Brooklyn.

Those who received single votes were pitchers Lew Burdette and Gene Conley, outfielder Wes Covington and first baseman Frank Torre of Milwaukee, outfielder Willie Mays of the Giants and shortstops Ernie Banks of Chicago and Alvin Dark of St. Louis.

## ROY HARRIS GIVES Foe Boxing Lesson

HOUSTON (A)—Roy Harris, the young school teacher who also gives boxing lessons, handed out one to Willi Besmanoff, the German heavyweight, last night.

It brought Harris, the nation's third ranking contender, his twenty-third straight victory.

Harris, who hails from Cut-and-Shoot, got a unanimous 10-round decision with a strong rally starting with the fourth round.

He had Besmanoff staggering in the fifth and ninth rounds.

## FRIDAY

# Rotary Hears Discussion Of Jury System

Freed Of Charge

Anthony (Cappy) Coppola, a bodyguard of slain gangland chief Albert Anastasia, is handcuffed as he is escorted by a corrections officer for hearing on a vagrancy charge in Manhattan Arrest Court in New York City. He was acquitted of the charge and later taken to a police station for another round of questions in connection with Anastasia's slaying by two gunmen in a barber shop of a New York hotel.

The jury system is one of the bulwarks of American democracy, but it is not infallible. Therefore, its strength and justice lie in the type of individuals who served on juries, James Kerr, member of a Midland law firm, told the Big Spring Rotary Club at its Tuesday meeting in the Settles. When good solid, intelligent citizens accept their opportunity for jury duty, they are casting bread upon the waters, he said. "Almost everyone of you," he told the Rotarians, "will be in the courthouse some day. What you want and deserve is justice. You will want and deserve the kind of juror you would make." Kerr, who appeared under the auspices of Southwestern Insurance Information Services, Inc., said that all any person or firm deserves in court is justice and that economic circumstance or social position should not enter into the verdict. He also projected a which emphasized that jury service is a privilege, not a duty. Ben Johnson arranged the program and Walton S. Morrison introduced Kerr.

## AMENDMENTS

# Water Bond Plan Is Termed 'Vital'

(Last in a series)  
Last, but not least—to dust off a tattered phrase—the ballot of three constitutional amendments next Tuesday will be one proposing a state water bond fund. It is, according to proponents, one of the most vital amendments to face Texas voters in years. This is because it carries with it a potential of generating \$600 million of water conservation and distribution projects within the state at a time when water is becoming increasingly important. If voters approve the amendment, here is what it would provide:  
1) That the state issue \$100 million in general obligation bonds (and subsequently another \$100 million if the legislature decreed by two-thirds majority);  
2) That the proceeds from sale of these bonds would be loaned to local governmental units (such as cities, districts, etc.), for water projects;  
3) That the state would repay its bonds as local units repaid what they borrowed (at a fractionally higher interest rate than the state had to pay); and  
4) That as the loans made by the state become attractive for private investors the state would sell its paper and make the funds available for other loans.  
There are some restrictions upon the loaning of the funds. One is that the state could not loan more than \$5 million on any one project nor more than one-third of the cost of the project. Another is that all projects would have to be declared feasible by the state board of water engineers and would have to be backed up with necessary water rights.  
This is how the proposed state bonds would work in many instances:  
A city might have a feasible water project, estimated to cost \$1,500,000. Try as the city might, it could only sell \$1,000,000 in bonds because of other obligations. Instead of letting the entire \$1 1/2 million project fold for lack of finance, the state would step in and loan the needed \$500,000 on what would amount to a second lien basis.  
The city then would repay the state as well as the other bond holders at the same rate of interest as secured on the other bonds. As the water improvements resulted in more water and thus made it possible for the city to grow and perhaps create new jobs, new business and new industries, the bonds would be considered an increasingly better risk, so much so that private investors would want to buy up what was left of the state's share. The state would sell, turn around and re-loan the money to another city or district in need of help.  
Those backing this amendment—and practically every political sub-division in the state is on record favoring along with every water conservation group—claim that in addition to the possibility that one state dollar will enable two other private dollars to go to work to save more water for Texas, the fund will permit the state largely to handle and control its own water development. They also claim that this can be done with the possibility of little if any cost to the state because the bond money will be loaned with the sound expectation of repayment.  
Some of those opposed say that this would amount to putting the state in the banking business; that it would be pledging the credit of all the state to help scattered sections of the state, that some loans might go sour.  
No one, however, argues that water isn't growing more important by the day for Texas. That's why this is such an important matter for you to decide next Tuesday.  
**Gun Victim Is Still Critical**  
Frank Edens, shot in a west side cafe early Tuesday morning, remained in critical condition today.  
Officials at Big Spring Hospital reported that Edens was showing some improvement but he was still listed as a critical case. Edens sustained several wounds from a .22 caliber revolver, and one of the bullets is still lodged near his heart. Doctors thought it more dangerous to try to remove it than to let it remain.  
Edens was shot by Gaither V. Ledlow early Tuesday morning at Jeff's Cafe, 1012 W. 3rd. Ledlow, a cook, said he saw Edens in the cafe, and they scuffled as Ledlow tried to call the police. During the scuffle, Ledlow started shooting.  
The city police said the matter was carried to the grand jury Tuesday, but no indictment was returned against Ledlow.

## Freed Of Charge

Anthony (Cappy) Coppola, a bodyguard of slain gangland chief Albert Anastasia, is handcuffed as he is escorted by a corrections officer for hearing on a vagrancy charge in Manhattan Arrest Court in New York City. He was acquitted of the charge and later taken to a police station for another round of questions in connection with Anastasia's slaying by two gunmen in a barber shop of a New York hotel.

## Former C-City Resident Dies

COLORADO CITY — Funeral services for Mrs. Vivian Lee Eidsen, 36, Irving, Texas, a former resident of Colorado City, were to be held today at the First Baptist Church in Irving with the Rev. Henry Kincaid officiating. Graveside rites are to be held in Colorado City at 10 a. m. Thursday with the Rev. Clarence Collins, Methodist minister, in charge. Burial will be in Colorado City Cemetery. Kiker and Sons are in charge of the arrangements both in Irving and in Colorado City.

## Ben Walker Takes New Assignment

Ben Walker, who has been a highway patrol officer here for more than a year, has accepted an assignment at Abilene in the safety program of the state public safety department. His duties will be to appear before clubs with talks on traffic control and to do other public relations work in behalf of the department's program.

## Two Persons Cast Absentee Ballots

Two absentee votes have been cast in Howard County in the Nov. 5 election on three amendments to the constitution. The absentee voting will close at 5 p. m. Friday.

## English Mother To Visit Daughter Here

Mr. and Mrs. Gilbert Grubbs and Mr. and Mrs. M. J. Partlow of Big Spring will leave Friday for New York City to meet Mrs. Grubbs' mother, Mrs. Evelyn Routledge of Stoke-On-Trent, England.

## Johnson Hall Joins Local Police Force

A new patrolman went to work for the police department replacing one who resigned. Assigned to the night shift captain in A. V. Brown is Johnson Hall, who lives at 1604 Lark. Jerry Fisher, also on Brown's shift, resigned last week and went to Breckenridge. Fisher had been here only about six months.

## Pleds Guilty To Charges Of DWI

LAMESA — Domingo Gonzalez, 19, of O'Donnell Latin American youth, was charged with driving while intoxicated.

## Drivers Of School Buses Recognized

Five Big Spring school bus drivers Tuesday received recognition for perfect safety records. Awards of Merit were presented to the quintet by the Texas Safety Association. The certificates cited the fact that the five men, who make up the entire Big Spring staff of school bus drivers, completed the 1956-57 school year without an accident.

## City Crews To Start Lowering Street Grade Near New School

Instructions were given to proceed with lowering grade of Goliad with city crews so the work could be accomplished as soon as possible. The City Commission Tuesday night authorized the city engineer, H. W. Whitney, and city engineer Clifton Bellamy to start the work immediately. The work came after Bellamy reported that a pipeline contractor, Everett Copeland, who was previously employed, would be held up at least another 10 days on a project at Pecos.

Modes Of Transportation Have Changed

On view around Big Spring is this old-time stagecoach, with team, as a stark-contrast to pioneer days of travel. There's some contrast represented in the modes of transportation, since the stagecoach is serving to ballyhoo new model automobiles. Youngsters are being treated to rides, just to see how their forebears used to travel. This is the Sentinel Mountain Stage, from South Fork, Colo., manned by working cowboys.

## CAT ON A COLD ROOF

A cat on the roof of a trailer house can make a lot of noise and create a great deal of alarm in the mind of a woman alone at night.

Tommy Cole, deputy sheriff, and Wes Patton, constable, answered an agitated call for help by a woman in a trailer on E. 2nd, at 1:30 a. m. today. The woman, who was alone, said she was certain someone was trying to break into her trailer via the roof. The noise on the roof, she said, had been continuing for two hours.

Cole climbed a nearby tree and turned his flashlight on the top of the trailer house. A huge cat glared at the light, and then sped away into the night.

The officers reported their finding to the woman and assured her there was no burglar on the roof.

## INDICTED

(Continued from Page 1)

binio Ortega, burglary, repeater indictment, bond \$3,000; Abraham F. Lopez, burglary, repeater, indictment, bond \$3,000; Everett Lee Cavet, forgery and passing, bond \$2,500; Morris Minter, forgery and passing, two indictments, bond \$2,500 each.

John D. White, fraud with a worthless check, bond \$2,000; Donald L. States, indecent exposure to a minor, bond \$2,500; Wayne Allen Davis, theft by bailee, bond \$2,000; Eddie Atip, car theft, bond \$2,000; Clifford L. Skinner, theft, bond \$2,000; Garland O. Henderson, DWI second offense, bond \$2,000; Julian Earl Turnbow, DWI second offense, bond \$2,000; and George Rijo, forgery, bond \$2,000.

His Carpenter was foreman of the grand jury. Members were Ross A. Boykin, Clift M. Epps, Mrs. Charles D. Read, R. C. Anderson, C. V. Wash, L. B. Edwards, W. C. Hutchins, Mrs. Robert Stripling, Knox Chadd, Vic Alexander and Bernard Huchton.

## W. H. Allison, 77, Dies At Lamesa

LAMESA — William Henry Allison, 77, a resident of Dawson County since 1925, passed away Tuesday at a local hospital after a long illness. He was born in Iowa and came to Texas in 1905. He was a farmer and a member of the Methodist Church. He is survived by a wife, Mrs. Allison, and several children.

## Abilene Man Dies In Hospital Here

T. L. Green, 80, of Abilene died in a hospital here last night. The body was taken to Kiker-Warren Funeral Home in Abilene today for burial arrangements. Mr. Green, hospitalized for some time, had been seriously ill since last February. He was the father of State Rep. Howard Green of Fort Worth.

## Park Hill Carnival

A Halloween carnival, sponsored by the P-T-A, will be staged at the Park Hill School Thursday evening. Doors open at 7 p. m.

## City Crews To Start Lowering Street Grade Near New School

Instructions were given to proceed with lowering grade of Goliad with city crews so the work could be accomplished as soon as possible. The City Commission Tuesday night authorized the city engineer, H. W. Whitney, and city engineer Clifton Bellamy to start the work immediately. The work came after Bellamy reported that a pipeline contractor, Everett Copeland, who was previously employed, would be held up at least another 10 days on a project at Pecos.

## Drivers Of School Buses Recognized

The work came after Bellamy reported that a pipeline contractor, Everett Copeland, who was previously employed, would be held up at least another 10 days on a project at Pecos.

# Wildcat Spotted In Sterling, Test Slated On Howard Well

Location has been announced for a new wildcat in Sterling County. Meanwhile operator was shut in before potentiating the Limpia No. 1 Hunter, between the North and West Vincent (Canyon) fields of Howard County.

The new wildcat is Dean Stolz of Midland No. 1 Foster & Hildebrand. It is about five miles southeast of Sterling City and will explore to 2,200 feet. In Howard County, Limpia No. 1 Hunter was building tanks before potentiating. It is an east offset to the Norfolk No. 1 Shafter, discovery well in the North Vincent field, and a west offset to the Woodson No. 1 Pauline, discovery in the West Vincent pool.

## Coahoman Seriously Ill As Result Of Poisoning

Delfino Molina, 19, of Coahoma, is in Big Spring Hospital in a serious but not critical condition as result of poisoning. Molina was found in his car in a ditch beside the road one mile north and a mile and a half east of Sand Springs at 3:45 p. m. Tuesday. Ralph White, Coahoma, discovered Molina as he drove along the road. The youth was semi-conscious and in great pain. White summoned an ambulance and notified officers, Jack Shafter and Tommy Cole, deputy sheriff, investigated the case. River Funeral Home ambulance brought the youth to Big Spring Hospital. Shafter said that it appeared Molina had drunk some drug and then attempted to drive his car along the road toward Big Spring. He became so ill he lost control of the car and it left the road and ran into a borrow ditch. The boy was slumped in the car seat when White came upon him.

## HOSPITAL NOTES

Gregg; Clem Sanchez, 603 N. Douglas; Simpson Powell, Jal, N. M.; Billy Redmon, 1005 E. 2nd; Amy Echols, Coahoma; Zelma Newton, Rt. 1; Marvina Murphy, 113 Wright.

## 40 Scouts Given Awards Tuesday At Honor Court

Awards were presented to approximately 40 boys during the Court of Honor for Scout Troop No. 4 at the East Fourth Baptist Church last night. New members receiving their tenderfoot badges were Rex Jones, Mike Stuart and Gary Odell. In addition, leaders distributed five first class badges, one second class badge, three star awards and 30 merit badges.

## W. H. Allison, 77, Dies At Lamesa

LAMESA — William Henry Allison, 77, a resident of Dawson County since 1925, passed away Tuesday at a local hospital after a long illness. He was born in Iowa and came to Texas in 1905. He was a farmer and a member of the Methodist Church. He is survived by a wife, Mrs. Allison, and several children.

## Abilene Man Dies In Hospital Here

T. L. Green, 80, of Abilene died in a hospital here last night. The body was taken to Kiker-Warren Funeral Home in Abilene today for burial arrangements. Mr. Green, hospitalized for some time, had been seriously ill since last February. He was the father of State Rep. Howard Green of Fort Worth.

## Park Hill Carnival

A Halloween carnival, sponsored by the P-T-A, will be staged at the Park Hill School Thursday evening. Doors open at 7 p. m.

## City Crews To Start Lowering Street Grade Near New School

Instructions were given to proceed with lowering grade of Goliad with city crews so the work could be accomplished as soon as possible. The City Commission Tuesday night authorized the city engineer, H. W. Whitney, and city engineer Clifton Bellamy to start the work immediately. The work came after Bellamy reported that a pipeline contractor, Everett Copeland, who was previously employed, would be held up at least another 10 days on a project at Pecos.

## Drivers Of School Buses Recognized

Five Big Spring school bus drivers Tuesday received recognition for perfect safety records. Awards of Merit were presented to the quintet by the Texas Safety Association. The certificates cited the fact that the five men, who make up the entire Big Spring staff of school bus drivers, completed the 1956-57 school year without an accident.

## Pleds Guilty To Charges Of DWI

LAMESA — Domingo Gonzalez, 19, of O'Donnell Latin American youth, was charged with driving while intoxicated.

## Johnson Hall Joins Local Police Force

A new patrolman went to work for the police department replacing one who resigned. Assigned to the night shift captain in A. V. Brown is Johnson Hall, who lives at 1604 Lark. Jerry Fisher, also on Brown's shift, resigned last week and went to Breckenridge. Fisher had been here only about six months.

## City Crews To Start Lowering Street Grade Near New School

Instructions were given to proceed with lowering grade of Goliad with city crews so the work could be accomplished as soon as possible. The City Commission Tuesday night authorized the city engineer, H. W. Whitney, and city engineer Clifton Bellamy to start the work immediately. The work came after Bellamy reported that a pipeline contractor, Everett Copeland, who was previously employed, would be held up at least another 10 days on a project at Pecos.

# Ex-Resident's Rites Set Here

Funeral for Clyde C. McKee, 60, former Big Spring resident, will be held at 2:30 p. m. Thursday at the Valley-Pickel Chapel. Mr. McKee was killed instantly early Sunday in Tucson, Ariz., where he had lived for the past 13 years. He was struck by a car while crossing a street.

## Public Speaking Class To Start

The informal class in effective speaking, part of the YMCA adult program, is still open to registrations. Bobo Hardy, general secretary, said Wednesday. It starts at 8 p. m. Thursday and will be held for one and a half hours each Thursday for six weeks. Tips on fundamentals of effective expression of ideas will be given. J. B. Apple is the instructor. Fee is \$5 for non-members and free to Y members.

## Man Loses Car

A man slightly under the influence of intoxicants in the police's estimation said he lost his car here Tuesday night. It was located in a short time three blocks from where he reportedly left it. The man, who said he was from Snyder, said he left his car from the 200 block of Johnson from 7 to 10 p. m. Tuesday, but when he returned, it had been stolen.

## Late Reports Of Thefts Come In

A tire and two fender skirts stolen Friday were reported Tuesday. T-P Investment, 508 Main, reported that a tire had been taken from a pickup owned by W. E. Davidson sometime Friday night. Also Thomas Wood, Webb AFB, reported that two fender skirts were stolen from his 1955 Ford of Dallas or at the Clover Bowl Friday night.

## Facing Charges

LAMESA—Dawson County Sheriff's officers returned from California Tuesday with Charles Ullum, who will face theft by bailiff charges here.

## Amateur Hour Set

WESTBROOK—The junior class of Westbrook High School is to sponsor an "amateur hour" program in the cafeteria at 7:30 p. m. Thursday. Admission charge will be 50 cents for adults and 25 cents for children under 12 years of age.

## MARKETS

LIVESTOCK  
CATTLE—AMERICAN (AP)—Hogs 400: 75 cents above last week's close, and \$118 top paid here today was 50 cents higher than paid as its quarter-million-dollar issue went at the highest interest rate in the big futures market.

Moose Lodge Opening Stated

Initiation and grand opening of the proposed Big Spring Moose Lodge has been scheduled for Dec. 1 in the Settles ballroom.

Nuclear Sub Makes It 'Comfortable' Under Arctic Ice

GROTON, Conn. (AP)—What's it like to spend 5 1/2 days under the arctic ice pack in a submarine?

During the 14-day arctic trip, the Nautilus said today, the Nautilus traveled farther north than any ship ever did—to 87 degrees latitude, just 190 nautical miles from the North Pole.

Her sonar equipment helped her locate and avoid dangerous submerged ice formations.

When the Nautilus returned here, she had chalked up her 100,000th mile under nuclear power, participated in the NATO Exercise Strike and set an underwater endurance record of 14 days, 3 1/2 hours and 5,007 miles.

Candy Charged

DALLAS (AP)—Stripper Candy Barr was charged yesterday with possession of 300 grains of marijuana. Officers said the entertainer gave them the weed after a raid on her apartment Sunday.

### TIDWELL CHEVROLET

1501 EAST 4TH

Dear Friend:

Now Chevrolet takes the giant step with a car that's almost too new to be true! Big, new in length, lowness and width. Boldly new in power and performance. Brilliantly new in the cushioned softness of its ride.

Never before has any car been so wonderfully new in so many different ways. Never before have you had such a beautiful way to be thrifty.

To see what's new this year, feast your eyes on Chevrolet. You'll hardly know where to look first.

There will be favors for the entire family as well as FREE HAMS for those over 18 who register Thursday, October 31.

FREE coffee and donuts served all day.

We will be looking for you, TOMORROW, OCTOBER 31.

LEROY TIDWELL

## 16 Apparently Killed In Crash Of AF Tanker

FLAGSTAFF, Ariz. (AP)—All 16 men aboard apparently were killed when a four-engine Air Force tanker was smashed into a steep and remote northern Arizona mountain yesterday.

The only authorities to reach the charred wreckage reported finding eight bodies and no sign of life. A thorough search for additional remains was begun today.

The Air Force said the plane, a KC97 on a routine flight from Walker AFB, N.M., was carrying 16 men but did not identify them.

The tanker plowed into the sheer side of Gray Mountain, about 40 miles east of the Grand Canyon site where 128 persons died in the crash of two airliners in July 1956.

An explosion was heard shortly after the plane was reported seen flying low over a nearby trading post. Reporter Bill Deaver of the Flagstaff Arizona Daily Sun, who reached the foot of the bluff shortly before darkness halted rescue operations, said a wide area around the wreckage was burned off.

The peak of the mountain, an ash-covered dead volcano, rises about 7,000 feet above sea level and 1,000 feet above surrounding terrain. The plane hit about half way up.

Sheriff Cecil Richardson of Coconino County said the tragedy apparently occurred between 9 and 10:30 a.m., but it was mid-afternoon before the wreckage was sighted.

Mrs. Vivian Stanfill, operator of nearby Gray Mountain Trading Post on the Navajo Indian Reservation, said she saw a big plane flying very close to the ground shortly after 9 o'clock. Harry Singer, who lives 10 miles west of Gray Mountain, said he also saw the plane and, a few minutes later, heard an explosion.

Visibility at the time was given as 10 to 15 miles, and a heavy fog covered the ground in the area.

Singer went to the scene, saw the wreckage and drove to Tuba City, Ariz., to report the crash.

Two Tuba city policemen climbed the bluff and signaled that they were unable to find any survivors. They said they saw eight bodies.

### Recruiter Is Due

The regular Marine recruiter visit here is scheduled for Nov. 6-7, it was announced Tuesday. S-Sgt. James Purvis, Marine recruiter for this area, is to be at the post office from 10 a.m. to 5 p.m. on Nov. 7 and from 8 a.m. to 3 p.m. on Nov. 8. All men and women interested in Marine Corps enlistment may interview him at these times.

### Goals Set

DALLAS (AP)—A Southern Baptist Evangelism Department committee set goals yesterday of 25,000 churches taking part in simultaneous revivals and 525,000 baptisms for 1959. Dr. Leonard Sanderson, secretary of evangelism for the Southern Baptist Convention Home Mission Board, said Southern Baptists will join seven other Baptist groups for a united evangelistic effort.

## Cotton Burs May Build Farm Profits

Return of cotton burs and trash to the field from which they originally came is a practice that will probably be highly popular with farmers in Howard County this year, according to Jimmy Taylor, county farm agent.

He said that farmers who have tried this method of treating land have found that land with burs will outproduce non-treated land by 20 to 50 per cent.

These claims, he said, have been supported by experiment work done at the agricultural stations in Lubbock and Spur.

Reasons for the results achieved are understandable, Taylor pointed out. Cotton burs have about the same chemical content as barnyard manure.

The nitrogen, phosphorus and potash content of one ton of burs would cost a farmer \$7.50 if the elements were bought in other forms.

Taylor said: "Soil treated with burs has a much higher water holding capacity than does non-treated land. It also is more resistant to wind erosion. Another good feature is that the results from the use of burs usually shows up for more than one year. Some tests have

resulted in increased yields for as much as five years.

"The main disadvantage of the practice is the labor and expense of hauling the burs from the gin to the field. Another disadvantage is that there is a danger of spreading weed seed that have been picked-up-through-burs and trash from some other farmer's field.

"Despite the difficulties, however, many farmers in this area agree that the burr program is a means of building up their soil and increasing production. Tests at the Lubbock station have shown the application of two tons of trash and burs per acre have increased production by 102 pounds lint cotton per acre. They have found the average value of burs in this test to be \$12.30 per ton when applied at this rate.

"Although many farmers will find that they do not have enough burs from their own ginnings to apply this amount, they will find many of the gins can supply

them with as many burs as they need.

"Farmers who are not willing to enter the program on a large scale are encouraged to try it on a small test plot. It could be one very good way to increase profits from Howard County cotton crops."
