Ike Names MIT Man As Science Expediter

WASHINGTON (AP) — President Eisenhower says Russia quite likely leads America in some areas of missile development. He has appointed a scientist expediter to the job of pushing this country ahead in this age of outer space weapons.

Response To Ike Talk Said 'Gratifying'

WASHINGTON (AP) — The White House reported "a very gratifying response from over the country" today to President Eisenhower's speech last night on plans to step up U.S. science - missile programs.

Tornadoes Kill 12 In 3-State Area

Dr. J. B. Cummins, believed to be the oldest practicing physician in the United States, kept strictly to business in Fort Worth, even though it was his 99th birthday. What's he doing? He's mixing up a prescription for a patient, just as he has always done.

Storms Leave 200 Injured

ORANGE (AP) — Explosive-like tornadoes ripped into Texas, Louisiana and Mississippi as people prepared to retire last night, killing at least 12 persons and injuring up to 200.

House, Senate Reach Accord On Daniel Crime Study Bill

AUSTIN (AP) — The House and Senate agreed today on Gov. Price Daniel's demands for a state crime study commission.

Base Housing Date Extended

Another extension has been granted to Williams & Dunlap, contractors for the Webb AFB housing project.

Gilliam Quits Joint Revaluation Panel

Red Gilliam, member of the Howard County Commissioners Court and chairman of a special committee of two members each from the county, the city and the schools to investigate the feasibility of a tax revaluation program for all agencies, resigned from the committee and from his post as chairman this morning.

Estimated Cotton Crop For Texas Down 200,000 Bales

WASHINGTON (AP) — Texas cotton production was estimated today at 3,900,000 bales, down 200,000 bales from the prediction issued last month.

United Fund Nears Goal

The United Fund campaign was only \$1,556.26 away from its goal today, and leaders hoped to put the finishing touches to the drive during the weekend.

Survivors Tell Of Narrowly Escaping Death From Tornado

By IRWIN FRANK
ORANGE (AP) — One survivor after another told today of narrowly escaping death in last night's tornado.

Crosby, Kathy In Hometown

WEST COLUMBIA, Tex. (AP) — Crooner Bing Crosby and his bride, actress Kathy Grant, were back for a weekend visit in her old home town today.

Guidance System

DALLAS (AP) — The commander of the Air Force's Air Research and Development Command said yesterday an elaborate guidance system for the 1,500-mile Thor missile is in the making. Lt. Gen. S. E. Anderson said the new system is "much more than a beefed-up autopilot."

Bergman, Rossellini Separate

Actress Ingrid Bergman and director Roberto Rossellini, shown in Rome, separated after seven years of married life. An announcement by their attorney in the Italian capital said they separated because of incompatibility.

Ingrid Packs To Leave Rome After Breakup Of Marriage

ROME — Ingrid Bergman packed today to leave this ancient city where she once found happiness.

With her 7½-year marriage to Roberto Rossellini broken up, the beautiful Swedish actress planned to leave Sunday for London with her three children by the Italian film director.

Rossellini was already gone, reported en route by car to Paris. Friends professed not to know whether Miss Bergman would return to Rome to live, or whether the legal separation the couple obtained yesterday would be followed by a divorce.

A divorce would have to be obtained in another country, since Italian law's only provision for dissolving a marriage is an annulment granted by the Roman Catholic Church. Miss Bergman, now 42, and Rossellini, 51, were married by proxy in Mexico on

May 24, 1950, after she received a Mexican divorce from her first husband, Dr. Peter Lindstrom.

Ercole Graziadei, the Rome attorney who arranged for the separation, said he had received no instructions to initiate divorce proceedings.

Graziadei was called to Paris to make arrangements for the separation soon after the couple was reunited in the French capital. Miss Bergman was playing there in the stage play "Tea and Sympathy." Rossellini had been absent in India for almost a year making documentary films for the Indian government. During that period his name was linked with a pretty Indian script writer, Sonali Das Gupta, who preceded Rossellini to Europe and was last reported in Paris.

Miss Bergman said her children by Rossellini—Roberto, 7, who was born a week before his moth-

er got her divorce from Lindstrom and the 5-year-old twin girls, Isabella and Isotta Ingrid—would accompany her to London where she will work on a new motion picture.

Miss Bergman is scheduled to go to Hollywood in February to work in another movie for 20th Century Fox.

Miss Bergman has an 18-year-old daughter, Jenny Ann, by her first husband. She is a student at the University of Colorado.

Nordyke Tells About Texas

By ROBERT E. FORD
AP Staff Writer

THE TRUTH ABOUT TEXAS, Thomas Y. Crowell Co., \$3.95

Lewis Nordyke, the former Texas newspaperman now turned magazine and book author, seeks to explain Texas to Texans themselves and to outsiders in his latest book, "The Truth About Texas."

That's quite an undertaking, even cutting a few corners, and nothing less than a whole bookshelf could more than scratch the surface.

But Nordyke has produced an interesting book, and to non-Texans it would explain certain attitudes of Texans. Certainly it gives a bird's-eye view of the geography.

The jacket calls it an informal history of the state. That hardly is the case. There are some interesting stories about events in the past, but it remains too sketchy to be considered a real history.

But the historical stories are entertaining and are woven together with present day happenings to keep the reader from being exposed to an indigestible quantity of facts.

Nordyke touches all parts of the state, with separate chapters on Houston, San Antonio, Dallas and Fort Worth, then going into regional reports on other cities.

The book also includes a chapter on politics and the Texas Rangers.

RPM SUPREME HALTS ENGINE WEAR

this new kind of oil will do more for your car than any other—or your money back!

New exclusive Detergent-Action Compounding keeps engines so clean, guards them so well, cars last years longer!

Triple-grade protection: Gives fast starts, instant cold-weather lubrication like a light oil; acts like medium-weight oil in ordinary driving and protects like heavy oil in hot, long runs.

Cuts friction drag to increase horsepower as much as 15%, save up to 1 gallon of gas in every 8.

Proved in the Big Run . . . over 51,000 miles of the West's toughest roads, from Alaska to Mexico . . . and proved by hundreds of thousands of satisfied users.

MONEY-BACK GUARANTEE

Your first crankcase-full of RPM Supreme is guaranteed in writing. If you're not satisfied, its full purchase price will be refunded. Try RPM Supreme today!

We take better care of your car—and we bring you "26 MEN" on TV

STORMS

(Continued from Page 1)

age to a house or two at other towns in this vicinity.

In Louisiana, a section of Alexandria four or five blocks square suffered heavy damage. Other tornadoes dancing across that state inflicted minor damage at Torras, where four persons were injured, and at Evangeline, Andrews Cove, Filmore, Curtis and Lecompte-Cheneville, in widely scattered areas.

At least 10 of those injured in the Texas twisters were reported in serious condition.

Fires flared briefly after gas lines were snapped at Groves, but firemen from Nederland and Port Neches quickly controlled the flames.

NO SMOKING

Smoking and use of candles were forbidden in the Riverside section of Orange because of the fire hazard.

The National Guard armory in Orange literally was blown apart, and the ripping winds did heavy damage to a fieldhouse and band hall at Litcher Stark High School here.

Nine of 130 mothballed Navy ships were whipped from their moorings here. Three were blown across the Sabine River and three others, all large landing craft, were swept to midstream. Navy personnel escaped injury.

In the Riverside section, where numerous houses were lifted off their foundations, Preston Peltier, his wife and four children had gone to bed 10 minutes before the tornado slashed at their home.

"First we heard the wind," related Peltier, a construction insulator, "and then the explosion as the walls and windows gave way. We thought at first that Sputnik had hit."

"We fell flat on the floor, and my wife and I covered the children with our bodies. All I felt was the walls crashing around us and starting to squeeze us together. I don't see how we got out alive."

He estimated the family of six was crowded into an area three feet square.

HODGE PODGE PATTERN

Wrecked dwellings and a few business places were left in a hodgepodge pattern as the tornadoes skipped from one area to another in both Orange and

IKE

porting to him and to me, will have the active responsibility of helping me follow through on the program.

OTHER ACTIONS

Eisenhower also announced these other actions:

1. He has directed Secretary of Defense McElroy to make certain that Holaday, the Pentagon's missiles director, "is clothed with all the authority" that McElroy himself has in that field so that no administrative or interservice block can occur. Killian will work closely with Holaday.

2. He and McElroy have agreed that any new missile or related program originated from now on will, wherever practicable, be put under a single manager and be administered without regard to the separate armed services.

3. He will propose to Congress legislation to remove legal barriers which block exchange of certain technological information with friendly countries. There is a legal barrier only with regard to atomic information on the fabrication of weapons.

4. If such legislation is passed, he plans to push for a scientific committee within NATO for pooling of research efforts along the lines of a preliminary agreement the President recently reached with Britain's Prime Minister Harold Macmillan. Similar action in the Southeast Asia Treaty Organization and in comparable organizations also will be studied.

NO QUICK CURE ALL

As for demands in some quarters for an increase in defense spending, Eisenhower made it clear he feels that would provide no quick cure.

"It misses the whole point," he said, "to say that we must now increase our expenditures of all kinds on military hardware and defense—as, for example, to heed demands recently made that we restore all personnel cuts made in the armed forces."

"Certainly we need to feel a high sense of urgency. But this does not mean that we should mount our charger and try to ride off in all directions at once."

At another point the President said solemnly: "What the world needs today even more than a giant step into outer space, is a giant step toward peace."

Eisenhower said his scientific friends advise him "one of our greatest and most glaring deficiencies is the failure of us in this country to give enough high priority to scientific education and the place of science in our national life."

The scientists believe a second critical need is to give higher priority, both public and private, to basic research, Eisenhower said.

He announced he intends to talk further regarding those two requirements next week. He will make another nationwide TV-radio address from Oklahoma City next Wednesday evening.

Eisenhower hammered hard at what the United States already has accomplished in the fields of missiles and other modern weapons.

"Our scientists assure me that we are well ahead of the Soviets in the nuclear field, both in quantity and quality. We intend to stay ahead."

As for missiles, Eisenhower said this country has a well diversified family of such weapons—38 different kinds with almost one-third of them in actual operation as distinguished from the development stage.

Groves, leaving untouched sections between.

Twenty-two National Guardsmen joined police of half a dozen cities and towns, including Orange, Beaumont and Port Arthur, to prevent looting. Furniture and personal belongings of storm victims were strewn about the stricken districts.

Sanders, the Orange police chief, said Miller's Furniture Store,

some distance from the Riverside district, was demolished.

"There were seven people in the store at the time," he said. "None of them was hurt, but don't ask me how they got out."

Peace officers and residents of affected areas said there presumably was more than one tornado. Most estimates were that the twisters struck Groves about 9 p.m. and Port Acres about 9:10

p.m., but they varied from 9:20 to 9:42 p.m. on the hour the deadly funnel ripped into Orange.

In Groves, a community of 15,000 population, the twister slashed through a shopping center and an adjacent residential area.

Policeman Percy Daily, who lives in that vicinity, related:

"I went outside and found a jeep with a family of three that had been rolled over three times.

"Neither the father nor mother was hurt. I picked up a 5-year-old girl who appeared to be badly hurt and rushed her to the hospital. But when we got there the doctors found she was not seriously hurt."

In contrast to the heavy damage in Orange and Groves, only one house was reported to have been destroyed at nearby Nome and only one damaged at China.

Orange forms the northeast corner of one of a huge industrial triangle with Beaumont and Port Arthur the other points. They are in far Southeast Texas.

The city has a population estimated up to 35,000. The industry is based on oil, gas, chemicals, lumbering, rice milling and canning. It has a direct connection with the Gulf of Mexico through the Sabine-Neches Waterway.

Business Takes Up Old Baseball Chant

By SAM DAWSON
NEW YORK — Fans of a baseball club that used to call Brooklyn home have been wailing: "Wait until next year." Today business leaders and government officials are taking up the same chant.

The long and strong business boom has stopped for a breather. It is widely recognized that the next six months or so will be comparatively quiet at the best, and slightly lower at the worst, is the forecast of the majority of government and private economists.

But wait until next year. Almost all of the southerners are counting on a renewal of the boom. Only a rare Cassandra here and there talks gloomily of a real recession. Depression has become a naughty word.

Part of this is due to the widely held belief that the government will do something—that the government won't let a recession develop, unemployment spread, business profits turn to business losses.

What government does undeniably has considerable weight on business activities.

But the Federal Reserve Board chairman reminds us that government cannot and should not "prevent declines that have to occur from time to time."

This will shock those who hold that government by its own actions alone can and must halt a recession at its outset.

There is considerable difference of opinion as to just what is happening today. President Eisenhower calls it a breather. Some of his government economists stick to the rolling readjustment tag.

The Federal Reserve chief, William McChesney Martin, holds that

the breather is really a healthy correction after a boom that brought inflation as its price and that any attempt to prune the industrial pump now would bring on another spurt of inflation and further cheapening of the dollar's purchasing power.

Business in many lines didn't boom this fall as industrialists and merchants had hoped. But overall activity is at such a high level and the unemployed form such a small percentage of the total labor force that most Americans aren't really hurt by the breather.

It's that next year about which there is uncertainty. So far the signs favor those who hold that the pickup which didn't make an appearance this fall will arrive some six or nine months from now.

But wait until next year. Almost all of the southerners are counting on a renewal of the boom. Only a rare Cassandra here and there talks gloomily of a real recession. Depression has become a naughty word.

Senior Citizens Forming Club

Initial steps were taken Thursday toward the formation of a senior citizens club.

A temporary steering committee composed of Mrs. Jessie Thomas, Mrs. Bob Wolfe and DeWitt Davis was named to serve until the next meeting. Date for the meeting is Nov. 15 from 2 to 4 p. m. at the YMCA.

The YMCA adult program committee headed by Mrs. Arch Carson, will serve as hosts for the occasion.

After a short get-acquainted activity, there will be a brief business session to name a "permanent" steering committee to serve for a period of two months. The group will settle on a meeting time. YMCA facilities are available to the senior group. There also will be a recreational and game period, followed by refreshments.

Senior clubs who are interested in the club may contact members of the steering committee, or Bob Hardy, general secretary for the YMCA, or Mrs. Carson.

Howard County Commissioners Court canvassed returns from Tuesday's election on the constitution and confirmed the returns which were announced on Wednesday. No discrepancies were found in the check of the ballots from the 17 voting boxes.

The county commissioners also voted to buy six tablet and 12 chairs for the use of the election precinct officials in conducting future elections at Precincts 1 and 3.

P. O. Hughes made the motion to buy the furniture. The motion was seconded by Hudson Landers.

The vote was unanimous. Lee Porter, county auditor, will be instructed to make the purchase at the most satisfactory price to the county.

Parents night has been scheduled at the YMCA for 8 p. m. today. The event will be a climax of special interest classes, said Everett Taylor, program director.

There will be exhibitions of trampoline acrobatics, baton twirling, cheer leading and of crafts. Any interested person is invited to attend, said Taylor.

From Cloister To Politics For Science Chief

WASHINGTON (AP)—Dr. James R. Killian is moving from cloistered university life into one of the sharpest controversies and some of the knottiest problems Washington has seen in many a year.

Sitting at the right hand of President Eisenhower as "special assistant to the President for science and technology," the 53-year-old head of the Massachusetts Institute of Technology will find he also is concerned, directly or indirectly, with such matters as these:

1. Clamoring criticism from people in and out of Congress who demand to know why we are supposedly behind Russia in the missile weapon field, why Russia is ahead in the satellite launching business, (c) what is going to be done about it.

2. Money—should more be spent for military scientific projects?

3. The rivalry of the individual armed forces in weaponry, which Eisenhower calls alleged inter-service competition.

Killian is no stranger to Washington activities, having served on an Army science advisory panel in 1951 and on a number of national foundation and scholarship boards.

COMES CALMLY
He comes to Washington calmly. But he said in a statement at Cambridge, Mass., last night that "I shall move as rapidly as possible to marshal the best scientific and engineering talents in the United States and to make it available to the President for the formulation of national policy which involves science and technology."

Killian said, too, that "a very strong scientific advisory group is an essential part of the plan, and the recruiting of this group will proceed with the utmost dispatch."

Did Eisenhower's announcement last night on the new set-up for scientific advisory group, which will be headed by Killian, mean that a "great" missile and earth satellite programs?

At one point in the President's address the language suggested Killian might be such a czar. He said Killian, aided by a strong advisory group, will be the active responsibility of helping me follow through on the program," Eisenhower said also that Dr. Killian "will see to it" that projects which experts believe have the best possibility of "small, steady, with the utmost speed" and that Killian "will make sure" that the best talent and full resources are applied to high-priority projects.

NEEDS AUTHORITY
But then Eisenhower also said: "The Defense Department will be the official directly responsible to the secretary in charge of missile development. I have directed that the secretary make certain that the guided missile director is clothed with all the authority that the secretary himself possesses in this field, so that no administrative or interservice block can occur."

Although Eisenhower mentioned no names, it was apparent he was talking of William M. Holaday, special assistant to the secretary of Defense Neil McElroy.

The President disclosed still another facet to missile management plans. He said he and McElroy had agreed "that any new missile or related program heretofore in the pipeline, whenever practicable, be put under a single manager and administered without regard to the separate services."

It was learned last week that the Pentagon was exploring the idea of the southern tip of the state's southern tip.

Another slice of territorial rancor and flailing winds which battered parts of Texas Thursday moved eastward along with the twisting turbulence.

A brisk electrical storm struck Nacogdoches which measured 2.5 inches of rain Thursday.

As much as 3.5 inches of rain drenched parts of Karnes County west of Ronge and caused some flooding of range land along the San Antonio River. It was accompanied by 36-m.p.h. winds.

Wind and rain also whipped through the Corsicana area, toppling a drive-in theater movie screen there and losing 60 inch of moisture in 20 minutes.

More creeks went out of banks and there was further flooding of lowland farm areas along the Sulphur River in East Texas. Losses mounted for farmers who have been unable to harvest cotton, sweet potatoes and peanuts.

In the Athens area, livestock was moved to higher ground.

Farmers around Electra likewise counted more crop damage as 4.1 inches of rain fell Thursday, boosting the total since Sunday to 4.27 inches.

Sherman got 2.46 inches of rain, swelling the year's total to a record 61.51 inches. The old mark was 60.40 in 1946.

Other rainfall measurements in the 24 hours ending at 6:30 p. m. Thursday included Wichita Falls 1.20 inches, Waco 85, College Station 69, Dallas 55, Fort Worth 47, Houston 43, Mineral Wells 32, San Angelo 30, Junction and Pecos 14, Wink 08, Abilene, Austin and Beeville 07, Meaumont 05, Big Spring, Childress and Galveston 03, Midland 02 and Alpine, Lubbock and San Antonio 01.

CASTEL GANDOLFO, Italy (AP)—Pope Pius XII told fashion experts from eight European nations today that clothing should be modestly fashioned and not too luxurious.

ALGIERS (AP)—Sixty-six rebels were killed throughout Algeria in the past 24 hours and a large quantity of arms and ammunition seized, the French said today.

Tracking Static

On globes like this one held by statistician Marie Jenkins, scientists are plotting the shifting patterns of heavenly noise. With these records, they will be able to predict the amount of radio noise expected in various areas.

Scientists Plot Noises Of Space

Outer space keeps broadcasting noise, too, usually heard as hisses or smother cracklings, all of it radio talk from distant families of stars.

Charting all this racket — and then trying to predict how loud it will be when — is one goal of scientists during the International Geophysical Year (IGY).

With good predictions, radio signals can be stepped up to ride steady and clear over the noise. Or different frequencies can be chosen to get through, or better equipment designed, explains William Crichtlow, chief of the radio noise section of the Boulder Laboratories, National Bureau of Standards here.

The knowledge and forecasting of atmospheric noise would benefit every user of radio, reducing the risk of accidents to planes and ships, and improving all kinds of radio communication.

To do this, a world-wide chain of 16 special radio stations is tuning in and recording atmospheric and cosmic noise. The IGY, a 64-nation effort to learn new facts about our world and its natural events, provides a global study of the radio cacophony.

Most of our earth-born static or noise is created by storms. Lightning flashes generate energy at all frequencies. Low frequency noise from thunderstorms sometimes can be heard by radio around the world. The heavenly noise varies with season, geography, time of day and sunspot activity. It's noiser at night than in the daytime.

At other times, storm static is bothersome only locally. The sounds are so characteristic that directional antenna can help locate storms far away, or even follow a local weather front, Crichtlow said.

The bureau designed special noise recorders for use at Boulder, at Bill, Wyo., at Byrd Station in the Antarctic, in Hawaii, Greenland, Panama, Brazil, Sweden, Morocco, Nigeria, South Africa, Japan, India, Malaya, and Australia. All will be in operation by the end of this year.

The listening post of this station, 15 miles away at Gunbarrel Hill, is a wooden building 8 by 12 feet and 8 feet high, nicknamed the doghouse. On the roof is a 21-foot vertical antenna surrounded by a network of 90 wires stretching horizontally from the roof to poles 100 feet away.

Once a day a scientist visits the doghouse, calibrating equipment and removing noise recordings traced on graph paper.

Crichtlow and his team at the Boulder Laboratories are recording and analyzing all the data collected during the IGY by all 16 stations. He figures this means 400 readings per day per station, or some 2,300,000 a year. Electronic computing machines make it possible.

SPECIFIC FORECASTS
Noise forecasting maps have been drawn in the past. IGY findings will make the maps more accurate, not just for general seasonal noise estimates, but for forecasts at more specific times and places, Crichtlow said.

Then radio engineers can know when to step up power to assure reception—just as you speak louder when a truck goes past your house—or what minimum power will get through, or how to improve equipment, or choose the best times on fixed circuits to assure good listening.

Wayne Allen Davis, charged in an indictment returned last week with theft by bailor, pleaded guilty to the charge in 118th District Court on Friday morning.

His punishment was fixed at 2 years in state penitentiary by Judge Charlie Sullivan.

Davis, under a probation sentence in Sweetwater, will be returned to that town by local officers. Officers here said that Sweetwater authorities have stated they will revoke the probation granted Davis for the earlier offense.

ENID, Okla. (AP)—Service Station Operator Mike Withers was taken aback by a reply from a blonde little girl as he cleaned off the windshield of her mother's car.

"I'll bet your mother calls you Goldlocks," he suggested hopefully.

"She doesn't neither," shot back the youngster. "She calls me knucklehead."

Martin Extender Flows Oil As Wildcat Spotted Near Stanton

Husky Oil & Panotech of Houston No. 1 Breedlove seemed assured Friday of becoming a north-west extender to the Breedlove Devonian field in northwest Martin County.

Flowing through one foot of perforations, the venture returned 3,400 feet of free oil and 400 feet of oil cut mud in an hour and a half of testing below 12,000 feet.

Martin County also gained another wildcat, this one to seek the Spraberry some two miles north-east of Stanton. It will be the Plymouth No. 1 J. E. Millhollon.

A Dawson County wildcat, Texaco No. 1 Miller, was taking a drillstem test in the lower Pennsylvanian section. Dawson County address an East-Mungerville pool producer.

El Paso Natural Gas Company No. 1 Lamb, 1,950 from the south and 650 from the west lines of section 25-32, ELRR, 16 miles northwest of Gall, was circulating at 8,888 in limestone. This depth was reported erroneously at 11,541 yesterday.

Gulf No. 1-C Clayton, 760 from the south and east lines of section 34-42-24, T&P, 11 miles southwest of Gall, penetrated to 3,116 in anhydrite.

Oceanic Oil No. 1 R. N. Miller Estate, 660 from the north and 560 from the east lines of section 32-30-6N, T&P, drilled to 4,861 in lime.

R. J. Caraway and Lloyd Smith No. 1 J. R. Weaver, 788 5/8 from the north and 330 from the east lines of labor 27, league 3, Taylor CSL, completed at a total depth of 9,118, having topped out in the Carson section at 9,638. The 5 1/2-inch string was run to bottom of hole and perforated from 9,066-74. Operator pumped 156 barrels of 36-gravity oil per day and reported a gas-oil ratio of 300:1. The section was washed first with 300 gallons of water, then 1,000 gallons and finally with 2,500 gallons. This venture is located six miles northwest of Lamesa.

Texaco No. 1 Miller, C. N. E. SW 17-36-3N, T&P, four miles southwest of Lamesa, drilled to 11,065 in limestone, taking a drillstem test from 11,030-85.

John L. Cox No. 1 Graves, 650 from the north and east lines of section 48-34-4N, T&P, four miles northwest of Ackerly, was treating with 80,000 gallons of sand and

oil through perforations at 8,257-8,313 and 8,350-93 in the Dean sand. John L. Cox No. 2 Schooler, 2,320 from the south and 760 from the east lines of section 43-33-5N, T&P, 15 miles southeast of Lamesa, waited on a pumping unit.

Texas Crude No. 1 Riggan drilled at 4,710 in lime.

Davidson-Penbrook No. 4 Key Estate is a new location in the Welch, 660 feet from north and west lines, 3-C39, PSL Survey. Drilling depth is 5,000 feet.

Nortex Oil and Gas Co. No. 11 Willis Winters, in section 9-25, drilled at 2,540 in lime.

Humble No. 14-UT Clay, in the Howard-Glasscock field, completed from the Queen section for a daily potential of seven barrels of oil and 5 per cent water. Gravity is

26 degrees. Location is 2,310 from north and 900 from west lines, 138-29, WANW Survey. Total depth is 2,557 feet, and top of the pay zone is 1,700 feet. Perforations extend from 1,700-14 and 1,744-94 feet.

Plymouth Oil Company No. 1 J. E. Millhollon will be a 7,000-foot Spraberry wildcat 1,800 from the north and 660 from the east lines of section 7-39-1S, T&P. This is on a 2,670-acre tract located two miles northeast of Stanton and in an area where small Spraberry production had been indicated previously.

Husky Oil Company & Panotech No. 1 Breedlove, 660 from the south and west lines of tract 92, league 258, Briscoe CSL, took a drillstem test in the Devonian 12, 054-55 with the tool open for one hour and 30 minutes. Recovery was 3,400 feet of free oil and 400 feet of oil cut mud. There was a good flow throughout the test and the initial flowing pressure was 490 and the final pressure 1,395 pounds. Operator was preparing to reverse out mud and water. This venture is 10 miles southwest of Patricia and is a mile north and slightly west of the Breedlove Devonian field.

Zapata No. 1 Strain, 660 from the north and west lines of section 14-36-1N, T&P, eight miles north of Stanton, drilled 3,860 in lime and dolomite and was laying down drill pipe to run casing.

Western Drilling Company No. 3 D. N. Pace, 2,310 from the north and 2,267 7/8 from the west lines of section 81-97, H&TC, pumped 49 1/2 barrels of 29.5-gravity oil on potential. The test is bottomed in the Sharon Ridge (1700) field at 1,781 on a ground elevation of 2,249. It made 20 per cent water after acidizing with 250 gallons and fracturing with 10,000 gallons. Gas-oil ratio was 100:1.

Bond No. 1 A Jackson, in the Sharon Ridge 1700 field, pumped 27 barrels of oil and 15 per cent water in 24 hours. Oil tested 26 1/2 degrees. The well is 330 from south and east lines, 82-97, H&TC Survey. The hole extends to 1,721 feet, and top of the pay section is 1,425 feet.

A conditional pardon granted in 1936 to Earl Mennefeld has been revoked effective Nov. 7. Gil Jones, district attorney, was advised by telegram today.

Mennefeld, tried here in 118th District Court this week on a charge of forgery, was found guilty by a jury and his punishment fixed at three years in state prison.

His attorney has given notice that he intends to appeal the case. Jones said that Mennefeld was convicted in McCullough County in 1949 on a charge of rape. He was sent to the state penitentiary where he remained until 1956—serving on a 25-year sentence.

At that time a conditional pardon was granted.

The telegram to Jones said that a representative of Texas Department of Corrections will be dispatched here to take custody of the prisoner and return him to the state prison to resume serving the sentence assessed in 1949.

Thieves carried the fender skirts and hub caps away from a car parked at HCJC Thursday night in addition to rifling the inside of the auto.

H. J. Carter, 1212 E. 15th, told the police that two fender skirts and four hub caps were stolen from his 1956 Chevrolet. The car was parked at HCJC from 6:30 p. m. to 10.

He said the glove compartment also had been rifled, as well as the remainder of the inside of the auto.

Edith Gay, staff secretary in the Big Spring Chamber of Commerce office, will represent the agency at the annual meeting of the Chamber of Commerce Managers Association of West Texas in Brownwood this weekend.

The CCMAW gathering starts this evening and will be concluded Sunday. Activities are centered at the Brownwood Hotel.

Ask Ruling
DALLAS (AP)—The Dallas School Board, admittedly "faced with a dilemma," asked yesterday for a Federal Court ruling on a mandate to integrate schools in January in light of two state segregation laws.

Far North Now Getting Milk In Frozen Blocks
WINNIPEG (AP)—Delivery of fresh milk in frozen quart-size blocks, to be melted at room temperature for use, is believed to have solved the problem of milk delivery at a northern Canadian military base, an army spokesman says.

Experimental deliveries in this form, believed to be the first in Canada, were successful.

The spokesman said 10,000 quarts of milk, frozen in wax-paper, quart containers, were shipped 1,000 miles by railway refrigerator car from Winnipeg to Fort Churchill, Man.

He said medical authorities found the milk's quality was not altered

Man Stabbed During Fight

J. W. Harding is in Cowper Hospital with multiple stab wounds in the chest and arms, abrasions and bruises sustained as result of a fight Thursday night at the Joe Torres place, according to police.

Mrs. Harding, police said, called the station to report that her husband had been in a fight with a man and woman, identified as being Latin-American.

The police, acting on warrants charging aggravated assault, arrested Tommy Larez and Gomez Diaz, both males.

The two held were still at the city jail at noon. Plans were transferred to the county later in the day, it was said.

The hospital reported that Harding was in a state of severe shock on Thursday night but that Friday morning he was much improved.

Probation Is Revoked

A conditional pardon granted in 1936 to Earl Mennefeld has been revoked effective Nov. 7. Gil Jones, district attorney, was advised by telegram today.

Mennefeld, tried here in 118th District Court this week on a charge of forgery, was found guilty by a jury and his punishment fixed at three years in state prison.

His attorney has given notice that he intends to appeal the case. Jones said that Mennefeld was convicted in McCullough County in 1949 on a charge of rape. He was sent to the state penitentiary where he remained until 1956—serving on a 25-year sentence.

At that time a conditional pardon was granted.

The telegram to Jones said that a representative of Texas Department of Corrections will be dispatched here to take custody of the prisoner and return him to the state prison to resume serving the sentence assessed in 1949.

Thieves carried the fender skirts and hub caps away from a car parked at HCJC Thursday night in addition to rifling the inside of the auto.

County Officers To Take Holiday

The Howard County Courthouse will be closed all day Monday in observance of Veterans Day.

This was finally decided at 11:30 a. m. today.

Two hours earlier, it had been the general impression that most of the offices in the county building would remain open.

A conference was called by office heads and out of it emerged a final decision—the holiday will be observed.

Concurring in this decision were Mrs. Pauline Petty, county clerk; Wade Choute, district clerk; R. H. Weaver, county judge; and Mrs. Viola Robertson, county tax assessor.

It was assumed that other offices in the building would follow suit.

Judge Charlie Sullivan, 118th District Court, has announced that his court will not operate Monday. He has a non-jury civil docket set for Tuesday.

The sheriff's office

Doggone It All

Three San Antonio cats display sharp interest in health of Russian dog Laika, now orbiting around the earth in Sputnik II. But they are ready to tear his eyes out if he comes back to earth. Local cats are peevish because Laika is capturing the spotlight during National Cat Week. But Cat Week has gone to the dogs.

Red Fete Marks No New Feats But Rumors Bring Dog Down

WASHINGTON (AP) — The 40th anniversary of the Bolshevik Revolution passed without any sign that the Russians had attempted any special new scientific feats to mark the occasion.

However, reports circulated in Moscow last night that the Russians may try to parachute back to earth the little dog, Laika, which since Sunday has been spinning around the earth in the second Soviet satellite.

Other reports reaching London today from supposedly reliable sources said Russia soon will fire aloft a third satellite twice as big as the half-ton Sputnik II and with another live dog aboard. These reports said the third satellite will be aimed at penetrating farther into space than the two Sputniks now hurtling around the earth.

Western scientists have been on the alert for what some of them believed might be a new Russian space venture to dramatize the anniversary yesterday of the Bolshevik Revolution.

There had been some speculation the Russians might try to send a rocket to the moon.

In Cambridge, Mass., officials of the Smithsonian Astrophysical Observatory said last night they had received no word from any observers indicating any unusual activity on the moon yesterday. Dr. J. Allen Hynek, associate director, said there have been "rumors only" that the Russians would try to fire a rocket to the moon.

Moscow sources said the launching of a moon rocket was envisaged by the Soviets, but not in the immediate future. One informant said "we have the technical capability for launching such a rocket, but it is not part of our immediate program."

In London, Britain's chief atomic expert said last night it would give a push to Western collaboration if the Russians reach the moon on their next space expedition.

Sir John Cockcroft, director of the Harwell Atomic Research establishment, said "the shock of Sputnik has brought, particularly in the United States, a feeling for more collaboration in the Western world. . . . I think what is now required is for the Russians to hit the moon with Sputnik III and this will help us very considerably."

Meanwhile, Smithsonian Observatory officials asked away last night from an earlier comment that the 1,120-pound Sputnik II may have come apart. That earlier statement was made on the basis of unconfirmed reports from various sources.

Hynek and Dr. Fred L. Whipple, the observatory's director,

said last night they don't think Sputnik II is breaking up. Hynek said he watched the dog-carrying satellite yesterday morning.

Hynek said Sputnik II went right across a star in the Big Dipper—"It almost looked like a celestial collision, but I saw no separation."

"Generally when something like that occurs—a splitting of a satellite—a great many people would see it," Hynek added. "None of the observations today reported any more than one object."

Hynek and Whipple agreed it would be quite an accomplishment to get Laika, the satellite's female dog passenger, back to earth.

The second Soviet satellite is rocketing through space at about 18,000 miles an hour. Its orbit carries it out as far as 1,066 miles and within nearly 100 miles of the earth. Even if the dog was ejected at that closest point, a safe parachute drop to earth would be a startling achievement.

Some sources in Moscow speculated that Sputnik II is equipped with an automatic device that would spring the dog from the space vehicle at a pre-set time. Others theorized she might be expelled from the satellite when her physical condition showed signs of deteriorating.

There was no fresh word on

Laika's condition. Moscow radio reported yesterday radio signals were being received with information on the "main physiological functions of the animal."

Baptists End Meet With Plea For Moderation In Race, Labor

FORT WORTH (AP)—Messengers to the Baptist General Convention of Texas wound up their annual session yesterday urging a course of mediation and moderation, time and patience in overcoming racial and labor problems.

The resolution adopted by the convention recalled the Scripture, "Blessed are the peacemakers for they shall be called the children of God."

It also asked Baptists to "prayerfully and humbly seek the wisdom of God." The action by the messengers is not binding on member

churches since the organization is not an ecclesiastical body.

The convention also resolved to express sympathy to oppressed peoples of the world and to express gratitude to God for blessings enjoyed by this nation.

In an address closing the afternoon session Rep. Brooks Hays, Little Rock, Ark., president of the Southern Baptist Convention, said of the school integration crisis in his city.

"Where there is controversy, let us ask no man to dilute his convictions." He added: "We Christians

should speak the truth in love, for it is the contribution of love to the healing wounds that we must magnify in our Baptist family."

Hays listed three principles to be observed concerning racial problems:

1. "Do not seal the lips of your pastor."
2. "We will seek a non-violent solution to the problem."
3. "We will try to do justice in particular situations."

Dr. E. Hermond Westmoreland, pastor of the South Main Baptist Church in Houston, was re-elected president. Dr. Charles P. McLaughlin, superintendent of missions for the Tarrant Baptist Assn., was named first vice president and the Rev. G. Mack Cole, pastor of the First Baptist Church at Snyder, second vice president.

Messengers named more than 300 persons to serve on institutional boards and agencies.

Howard E. Butt, Jr., Corpus Christi grocery organization executive, told the closing session last night that evangelization is "Christian witnessing in walking shoes."

Butt spoke in place of evangelist Billy Graham, who was not able to attend as scheduled.

The convention presented Ellie Hopkins of Longview, executive editor of Carl Estes publications, its 1957 press award, given annually for outstanding Christian service in the field of journalism.

Hopkins also was presented a new car by Estes, publisher of The Longview News and Journal and other publications.

Kiwanians To Stage Yule Party At State Hospital

Big Spring Kiwanians will make certain Christmas parties in 76 other wards in the hospital will also have similar parties and presents — organizations, churches and individuals cooperating to bring Christmas to all the patients in the hospital.

J. D. Elliott, Kiwanis representative on a city-wide committee working to bring more comforts and happiness to the unfortunate inmates of the state hospital, reported on the general plans for the Christmas party at the Thursday meeting of the Kiwanis Club.

It was suggested that other Kiwanis clubs in the West Texas area be given an opportunity to share in the party—since patients at the state hospital come from two score or more counties in this area.

The hospital is supplying the club with a "gift list—a listing of items wanted and needed by the patients in the ward. This list includes many items of clothing.

A Christmas tree, with all of the traditional decorations, is a part of the plan.

Lamesa Council Votes To Back CRMWA Study

LAMESA — The Lamesa City Council Thursday tabled any action on park improvements here, although voters of the city Tuesday approved \$50,000 in park improvement bonds. The council's action was actually a "wait and see" move, as county voters had turned down \$125,000 in park improvement bonds Tuesday.

Booster of the swimming pool projects here, for which the money was to have been used, were talking of a second election.

The council was told that the sale of the issue could be shelved until such time as money to build the pools was available.

The city fathers voted to comply with a request from the Canadian River Municipal Water Authority for a contribution of 50 cents per water meter. The money will be used in a survey of the CRMWA's proposed dam and lake site. The Federal Bureau of Reclamation is ready to begin a survey, splitting the cost with the authority, councilmen were told. Total cost of the project to the city is \$1,861.50.

After hearing members of the Lamesa Chamber of Commerce and Board of City Development, the council agreed to ask the Texas Highway Department to change the population signs on highways entering the city to 13,813, the average of the estimates made by various firms who have taken surveys in the city, based on the national average per connection.

The Pioneer Natural Gas Company was given the authority to boost its rate, effective with the Dec. 1 billing, as the council passed, on third and final reading, an amendment to the gas company's franchise ordinance.

Former Dawson Resident Dies

LAMESA—Mrs. Maude L. Knox, 71, a former resident of the Sand Community in western Dawson County, passed away about midnight Wednesday in a Lubbock hospital.

She and her husband, Ed Knox, lived in this area for 19 years preceding 1948 when they moved to Estancia, N. M. She was a member of the Methodist Church.

Survivors include her husband; three daughters, Mrs. Tom Barron, Plains; Mrs. J. M. Wood, Lubbock; and Mrs. Gordon Corry, San Diego, two sons, Edwin B. Knox, Monahans, and Albert S. Knox of Borger; two sisters, Mrs. A. D. Rhea, Fort Worth, and Mrs. L. D. Scarborough, Whitney, and a brother, A. T. Bosh, Houston.

Funeral services were to be held at 2 p.m. Friday at the Higginbotham Funeral Chapel. Interment was to be in the Lamesa Memorial Park.

Model 714 Tape-O-Matic Tape Recorder
With Stacked and Staggered Stereophonic Tape Playback

One of the remarkable features of this model that you will enjoy is the "Stacked and Staggered" stereophonic tape playback. This means that you can enjoy the dimensional realism of any stereophonic tape on the market today. In addition, of course, you can make and enjoy professional quality high fidelity recordings with push-button simplicity. V-M combines the finest engineering with modern manufacturing techniques to give you numerous advanced features heretofore unobtainable. For your convenience, and pleasure, V-M tape-o-matic offers you push-button controls, fingertip "pause" feature, automatic shut-off, precision tape index timer, three speakers with 40 to 15,000 cps frequency range plus a host of other great features.

NEW '58 FORD RANCHERO . . .
America's first work-or-play truck!

'58 FORD' TRUCKS—FIRST
WITH THE FEATURES THAT COUNT!

NEW TILT CAB TRUCKS . . .
Lowest-priced* Tilt Cab line in America!

NEW '58 FORD PICKUP . . . Modern Styleside body is as wide as the cab and standard at no extra cost!

Step ahead . . .
with all that's new . . .
costs less, too!

Meet America's newest, most modern trucks—Ford for '58! Discover the new advances in this pace-setting line. See the many advantages that help you do your job better and at lower cost!

Then match your specific requirements against Ford's over 300 new models. Whatever your need—from half-ton pickup to heavy duty tandem—Ford's got it! And you'll get a truck that costs you less to own, less to run and lasts longer, too.

So see your Ford Dealer today and step ahead with America's most modern truck—built modern to cost you less.

NEW capacity! Extra-wide Styleside pickup bodies have 23% more loadspace than any other competitive pickups . . . biggest loadspace per dollar!*

NEW savings! Only Ford offers the modern styling and extra capacity of Styleside pickup bodies at no extra cost!

NEW easy ride! Scientific Impact-O-Graph ride tests have proved amazing superiority of Ford's suspension over competitive pickups . . . a ride mighty close to that of a car!

NEW comfort! Drivized Cabs have non-sag seat springing, suspended pedals and weather-protected inboard steps.

NEW power! Powerful, more rugged V-8 engines! And only Ford offers Short Stroke economy in both Six and V-8!

NEW safety! "Safety Vision" dual headlights . . . Lifeguard steering wheel . . . and double-grip door locks . . . standard on all Ford trucks!

*Based on a comparison of manufacturers' suggested retail prices.

THE BIG FLEETS BUY MORE FORD TRUCKS THAN ANY OTHER MAKE!

FORD TRUCKS COST LESS . . . LESS TO OWN

YOUR NEWSPAPER SERVES

The story behind the headlines and the copy in a newspaper is spelled S-E-R-V-I-C-E. This newspaper and every other paper in the country is a "public service" - it is informative, educational, humanitarian and civic-minded. Dad turns first to news and editorials; Mom likes fashion stories and recipes; the kids like the comics.

There's something for everybody in every phase of everyday life! Fundamentally your newspaper serves you with information - whether in the news columns, or in the ads! Truly your paper is a "service-center" . . . the meeting-place and the market-place of the community.

Sam McComb New Scouting Chairman

Sam A. McComb veteran Boy Scout worker and for years chairman of the district's camping and activity committee, was elected Thursday evening as chairman of the Lone Star District.

He will succeed Maruice R. Koger at the annual meeting on Dec. 6.

Other officers elected were Cliff M. Epps, vice chairman; Jack Alexander, vice chairman; Carl E. Campbell, district commissioner; W. D. (Dub) Caldwell and Doug Orme, council executive board members.

Approximately 75 Scout leaders attended the monthly leaders meeting at the county courtroom. Unit leaders, in the round table sessions, devoted most time to reports on progress of the autumn round up and of the exposition, set for Nov. 22-23. Some 6,000

New 'Light' Seen In Texas

From one tip of Texas to the other Friday came reports of sightings of a bright light on the western horizon Thursday night.

Some said it was only a bright, white light. Others said it was red, blue and green at times.

Such a light the night before was said by the Smithsonian Astrophysical Observatory at Cambridge, Mass., to have been planet Venus.

The light was spotted in Texas Thursday night in areas generally to the west of Brownsville, San Antonio, Waco, Brownwood, Amarillo and Paris.

Sheriff Jack Cartwright at Dimmitt, on the upper South Plains, said the light was too large to be a star and appeared round. Stanley Vinson, police dispatcher at Hereford, described it as a bright object with blue lights on the bottom.

At Levelland, where a bright unidentified object was seen early Sunday, policeman A. J. Fowler said he followed the bright light by car Thursday night for about half an hour.

Fowler said it appeared to be two bright lights, one on top of the other, tinted red and blue.

He estimated it was about 2,500 feet high and about one mile away.

U.S. Well On Way To Gaining Hydrogen-Boron Rocket Fuels

PITTSBURGH (AP)—A scientist revealed today that the United States soon will attain substantial production of boron-hydrogen high energy fuels, compounds which some sources suspect were the new type rocket power Soviet Russia says it used to fire Sputnik II into space.

"Project Zip" was the code name assigned to the research by the Navy in 1952. It has been classified as secret until very recently.

Pilot plant production of boron-hydrogen compounds has been under way for some time at the plant of Callery Chemical Co. in Butler County 25 miles north of Pittsburgh. Dr. George F. Huff, the company's director of research, told a reporter. The output has been devoted to research.

A new four-million-dollar plant going into production next spring at Lawrenceburg, Kas., will produce "practical quantities," he said. Larger production will come from a 38-million-dollar plant scheduled to open at Muskogee, Okla., in January 1959.

Callery is a subsidiary of Mine Safety Appliances Co. Gulf Oil Corp. recently purchased 25 per cent of Callery stock and is assisting some of the research work. A number of other companies are engaged in similar work.

Power of a fuel is measured by the number of British Thermal Units of heat generated when it burns. Rockets convert this heat energy into motion energy.

For comparison purposes, the gasoline which powers your car yields about 18,500 BTU's per pound. The liquid burned by jet aircraft yields about 18,000 BTU's.

A pound of boron-hydrogen compound is more than 50 per cent more powerful. Decaborane, a solid, yields 28,500 BTU's per pound.

Muscovites Enjoy Fete

MOSCOW (AP)—Thousands of Moscow residents danced in the streets until early today while more than 3,000 Communist leaders wound up the Nov. 7 anniversary program with a grand ball at the Kremlin.

While Soviet citizens enjoyed street festivities as part of their two-day holiday commemorating the Bolshevik Revolution 40 years ago, Nikita Khrushchev danced and sang revolutionary songs at the ball in St. George's Palace.

The Soviet Communist party boss was in high good humor, swinging an unidentified Russian woman through a dance and joining a spontaneous songfest.

With Premier Nikolai Bulganin and President Kliment Y. Voroshilov, Khrushchev made a hand-shaking tour through the crowd that jammed reception rooms to consume great heaps of caviar and plenty of vodka and champagne.

Voroshilov welcomed Red China boss Mao Tse-tung and Poland's Wladyslaw Gomulka with a short speech. He praised Soviet scientists, saying they were men of peace rather than of war.

One of the most active hand-shakers at the party was Britain's "Red Dean" of Canterbury, the Very Rev. Hewlett Johnson. The Anglican churchman is one of the West's best-known fellow travelers.

Crane Man Scores In Calf Roping

SAN FRANCISCO (AP)—Bill Linderman of Walla Walla, Wash., took first place in bareback bronc riding and scored in steer wrestling at the Grand National Rodeo last night.

Don Toelle, Burns, Ore., led the steer wrestlers with a time of 3.6 seconds. Bill Lowe, Crane, Tex., took first in calf roping with 13.9 seconds. Marty Wood, Bowness, Alta., was the only qualifier in saddle bronc riding. Bob Cullison, Hyattsville, Wyo., won the bull riding.

Crowd Broken Up

NEW YORK (AP)—Police broke up two demonstrations last night outside the Soviet United Nations delegation headquarters on Park Avenue, where a reception was being held to celebrate the 40th anniversary of the Bolshevik Revolution.

Petting Banned For Catholic Youngsters

SANTA FE, N.M. (AP)—Directives forbidding steady dating, petting, necking and kissing have been issued for Catholic teen-agers in the Archdiocese of Santa Fe.

The directives from the Very Rev. O. A. Coggiola, archdiocesan chancellor, went to priests and principals of Catholic schools.

"Our Catholic schools have not had serious problems concerning 'going steady' and related matters," Coggiola said. "The archdiocese, however, wishes to prevent a problem from developing. The directives here set forth, therefore, may be styled 'preventive medicine.'"

Excerpts from the directives: "Going steady" is a normal, praiseworthy preparation for engagement and eventual marriage. One in the teens and still in school is not usually prepared to enter the holy marriage state within a reasonably short time. Steady dating normally interferes seriously with a young person's success as a student. Going steady constitutes a definite moral danger. Hours regularly spent alone in the company of the same person can be and frequently are an occasion of sin for immature young people.

"Students must refrain from necking and petting, and even at times kissing, since doing so is sinful and usurps the prerogatives reserved for the state of holy matrimony which they are not yet prepared to enter.

"Dances held under school auspices for elementary school children are forbidden.

"Dances shall not last beyond midnight, excepting proms. Proper dress, in keeping with Christian modesty, shall be required of all who attend dances.

"Students disobeying these directives will not be allowed to hold positions of leadership or be members of honor societies. Those continually offending will be asked to withdraw from the school."

Six Mishaps Are Reported

Four accidents occurred in Big Spring after noon Thursday, and two came this morning.

Early today, J.T. Williamson, 710 Nolan, reported a car owned by Juanita Newton, Knott, rolled into his parked car.

Also today, Faye Lander, 309 E. 5th, and Laura Laws, 804 Main, were drivers of cars in an accident at 6th and Main.

Thursday, Donald Rich of Coahoma and Cora Coley, 1408 E. 8th, were in an accident in the 1700 block of W. 3rd. At 5th and Gregg, Lois Barber, 101 N. Runnels, and Lee Barber, 207 N. Goliad, were involved in a mishap.

Glenn Earhart, 301 Mesquite, was in a hit-and-run at the intersection of FR 700 and Airbase Road. The car which did not stop was a 1953 Ford.

Marjorie Morgan, Vera, Okla., and Sam Armstrong of Coahoma were drivers of cars colliding at 1200 W. 3rd also Thursday.

Demonstration Given

GARDEN CITY—Teachers of the Garden City schools were given a demonstration Thursday afternoon of the use of art materials in the classroom. Conducting the demonstration was Betty Jo Foster, art consultant for the Milton Bradley Co.

Knott Needs Driver, Maintenance Man

KNOTT—The Knott school is in need of a head bus driver, who would also serve part-time as maintenance man.

Supt. Bill Bolin said that the position involved driving one of the buses, taking care of the buses, and also some plant maintenance service. Those interested might contact him for details.

LEGAL NOTICE

THE STATE OF TEXAS
To: B. H. Smith, Defendant: Greeting: You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock a.m. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 2nd day of December, 1957, at or before ten o'clock a.m. before the Honorable District Court of Howard County, Texas, at the Court House of said County in Big Spring, Texas.

Said Plaintiff's Petition was filed in said court on the 31st day of July A.D. 1957, in this cause numbered 1956 on the docket of said court, and styled: Beuna Bell Smith, Plaintiff(s), vs. B. H. Smith, Defendant(s).

A brief statement of the nature of this suit is as follows, to-wit: Plaintiff's suit being a suit for divorce based upon cruelty of such a nature as to render the further living together insupportable, in which suit the Plaintiff ask custody of a minor child born to Plaintiff and Defendant, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unaverted.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Big Spring, Texas, this 16th day of October, D. 1957.

Attest:
WADE CHOATE, Clerk
District Court, Howard County, Texas

a sure sign... for dependable TV SERVICE
ELECTRON TUBES
TV-RADIO SERVICE
Service is our business! And the
only way we can stay in busi-
ness is to assure you prompt, de-
pendable TV service. That's why
every TV set we service is com-
pletely tested and repaired by a
skilled technician. And that's
why we use top-quality RCA
Silvermaster Picture Tubes and
RCA Receiving Tubes—they
bring out the best in any make
of TV set

Webb Fliers Bail Out North Of Gail

A pilot instructor and his student from Webb AFB parachuted to safety Thursday when their T-33 jet trainer flamed out near Gail.

First Lt. James P. Lamb, pilot instructor, 25, and 2nd Lt. George Dalition, 23, student, landed with out apparent injury on opposite sides of a ridge about a mile north of Gail. The trainer crashed, disintegrated and burned about 300 yards north of U. S. 190 a mile east of Gail. It struck in a mesquite pasture on the Bill Long ranch.

Lt. Lamb had radioed that the ship was in trouble and vibrating at about 2:30 p.m. When the jet motor stalled, he instructed Lt. Dalition to bail out, then pointed the plane toward open country and, at about 8,000 feet, ejected himself.

A helicopter was dispatched from Webb AFB and picked up the two fliers as well as directed the crash convoy to the scene of the mishap.

Lt. Lamb is the son of Mr. and Mrs. Thomas Kelsey Lamb, 2636 North Street, Beaumont. Lt. Dalition is the son of Mr. and Mrs. M. Dalition at 2200 Balboa Street, San Francisco, Calif.

Local Observers Get No Alert On Russian Satellite

Big Spring Satellite Observers Corps has not as yet been alerted to keep an eye out for the second Russian satellite, according to J. T. Clements, vice chairman.

"I have been expecting a call to set up a watch," he said, "but no such notice has come to us out of national headquarters."

E. B. McCormick, president of the group, would receive the notice if the local group was wanted to do watch-duty. He had received no such instructions Friday morning.

The corps has been called out once since the Red satellite program started. Heavily overcast skies on that date forealled any opportunity to sight the wanderer.

"They don't eat more nutritious breakfast cereals... they don't drink peppier soft drinks... so go back out there and prove you're as good as those other guys!"

68 Revolutions

LONDON (AP)—Moscow radio said Sputnik II completed 68 revolutions around the earth by 6 a.m. today.

Rights Panel Faces Bitter Racial Problem

WASHINGTON (AP)—President Eisenhower's selection of the six-member commission, provided for by the Civil Rights Act passed by Congress last August, have since been underscored by the inflamed feeling aroused by the school integration controversy in Little Rock.

Eisenhower, who only recently said he was having trouble finding men of the caliber and stature he wanted, announced the appointments late yesterday.

Retired Supreme Court Justice Stanley Reed was named chairman.

The appointments are subject to confirmation when Congress reconvenes. Meantime the members armed with power to subpoena witnesses, can swing into action as soon as they get organized.

Still to be named by Eisenhower, also subject to Senate confirmation, is a full-time staff director at \$22,500 a year.

NO PLANS YET

Reed, returning to Washington last night said he had no immediate plans for starting the commission's operations. As a justice, he joined in the Supreme Court's unanimous ruling in 1954 that racial segregation of public schools was unconstitutional.

Named as vice chairman was John A. Hannah, president of Michigan State University and a former assistant secretary of defense.

Other members are John S. Battle former governor of Virginia; J. Ernest Wilkins, a Negro and an assistant secretary of Labor; the Rev. Theodore M. Hesburgh, president of the University of Notre Dame, South Bend, Ind.; and Robert G. Storey, dean of the law school at Southern Methodist University, Dallas, Tex.

The White House listed Reed, Battle and Storey as Democrats. Hannah and Wilkins as Republicans and Hesburgh as a political independent. The law requires that not more than three be from any one political party.

In East Lansing, Mich., Hannah said he has "no magic solution" to the civil rights problem, but "I have agreed to do my best to help meet it in any way I can."

DIXIE VIEW POINT

In Charlottesville, Va., Battle said he was told Eisenhower wanted a member "with the strong southern viewpoint which I have accepted," he said, hoping to "contribute to a better understanding of a problem which is disrupting our country in these perilous times."

Commission members not already on the government payroll will receive \$50 a day plus expenses for the time they work. Eisenhower's selections met with a generally favorable reaction from the few senators available for comment.

However, Sen. Eastland (D-Miss), chairman of the Senate Judiciary Committee to which the nominations presumably will be referred, decline immediate comment.

At the last session of Congress Eastland fought the civil rights bill at every step. It was passed only after the Senate took the unusual course of bypassing his committee.

Sen. Kefauver (D-Tenn) said he felt that Eisenhower had appointed "distinguished men able to do a good job" and added he thought they would meet with "general acceptance."

NO WOMEN

He said, however, that he was sorry Eisenhower didn't appoint a woman to the commission, saying he felt they have a good understanding of "emotional and human problems."

Sen. Gore (D-Tenn) said "it appears to be a group of distinguished Americans."

Sen. O'Mahoney (D-Wyo) described the President's appointees as "men of talent and ability."

Kefauver, Gore and O'Mahoney all voted for the civil rights bill in final modified form.

Pittsburg In 26th Day Of Driver Strike

PITTSBURGH (AP)—This steel metropolis today struggled for the 26th straight day without its main transportation system as losses from a strike mounted into unestimated millions.

Drawing on experience gained during a similar 35-day strike of trolley and bus operators against the Pittsburgh Railways Co. in 1954, residents generally have adjusted to finding other means of getting to work and to school.

But merchants have felt the strike keenly. Many shoppers have put off buying, hoping the walk-out won't last much longer.

It is estimated that business of big department stores has been off between 30 and 40 per cent. Sales in neighborhood business sections also have been affected. Taking up the transportation slack in a metropolitan area of some 1 1/2 million are auto pools, commuter trains, taxicabs and 14 independent bus lines connecting the downtown section with various suburbs.

A number of courtesy ride stations also have been set up. Some residents simply walk.

Before the strike started Oct. 14 Pittsburgh Railways had an estimated 350,000 daily riders.

The influx of autos into the congested downtown area has caused several monumental traffic jams.

Pittsburgh's hilly terrain, twisting streets and lack of main thoroughways all contribute to the vexing traffic problem.

City officials have moved to ease the situation by inaugurating new traffic rules. Others are in the works.

There has been some discussion of organized staggering of working hours at plants and offices. So far nothing much has come of it.

No end of the strike is in sight. Federal and state regulators are watching closely for a change in

Boy Badly Burned

Mrs. Isabel Jones, a nurse at Sun Valley Hospital, San Fernando, Calif., ministers to 12-year-old Allan Bronnberg after the boy suffered burns over 90 per cent of his body. Police said the boy told them playmates poured gasoline on him and struck a match.

position by either side to call for resumption of stalled negotiations.

About 2,200 trolley and bus operators struck in a contract dispute centering on wages.

The strikers, members of Division 85 of the Amalgamated Assn. of Street, Electric Railway and Motor Coach Employees, demand a 36-cent hourly wage increase in a two-year contract.

Before talks collapsed Pittsburgh Railways offered a two-year pact with a 16-cent-an-hour raise over the basic pay rate of \$2.14. This included a four-cent cost-of-living increment which the firm offered to freeze into the basic scale.

Unknown Soldiers To Lie Together

WASHINGTON (AP)—Ceremonies next Monday at the tomb of the Unknown Soldier will be the last Veterans Day program there honoring a fighting man of World War I as the sole symbol of America's unidentified military dead.

By next Veterans Day, formerly known as Armistice Day, the unknowns of World War II and of Korea will have been buried at the shrine in Arlington National Cemetery.

Reed Sees Trouble For Rights Panel

WASHINGTON (AP)—Former Supreme Court Justice Stanley F. Reed looks for "plenty of trouble" ahead for the new Civil Rights Commission he has been named to head.

He was one of nine justices who by unanimous decision in 1954 declared racial segregation in the public schools unconstitutional.

Now, the results of that controversial ruling have brought Reed back from retirement to try to ease some of the tensions that resulted, as well as to look into other phases of civil rights.

The Kentucky-born Democrat, who will be 73 next month, has been named by President Eisenhower to head the six-member commission in a two-year study of civil rights problems.

Last Feb. 25, Reed stepped down from the Supreme Court where he had served for 19 years, because he said it no longer seemed wise to continue "the strain of unremitting exertion" required by his court duties.

Last night, Reed, smiling and looking fit, stepped from a plane at Washington's National Airport to learn that the President had announced his return to a new government post.

Reed was just coming back from a rules committee meeting of the American Bar Assn. at Louisville, Ky. He was still working on judicial matters.

Asked if he foresaw difficulties ahead in his new job, he replied "I'm sure we'll have plenty of trouble." But he seemed quite content to face whatever it might be.

Though officially retired at \$35,000 a year, Reed has kept his hand in judicial matters. Federal retirement law permits him to sit on lower courts when requested to do so. Only last June, he broke precedent by serving on a U.S. court of claims case here.

He was appointed to the Supreme Court in 1938 by President Roosevelt after a career in government work that included service as solicitor general—the government's chief lawyer before the Supreme Court.

At the time of his appointment to the court, Reed was considered a New Dealer, but later he came to be regarded as one of the court's conservatives.

Eisenhower, in accepting Reed's resignation, said Reed had participated in many important decisions, that would "influence our nation's development for a long time to come."

In a recent speech to the California State bar, Reed noted the controversy stirred up by the court's civil rights decision and commented that "fortunately wrong decisions are not irremediable."

Only chaos can result from misuse of power in opposing court judgments, he said, but those who dislike a decision can seek amendment of the Constitution or a court reversal of the decision.

Doggy Sputnik III May Be In Works

LONDON (AP)—Reports reaching London today from usually reliable sources said the Soviet Union soon will send up a third Sputnik—twice as big as Sputnik II and with another live dog aboard.

The reports said Sputnik III will weigh a ton and will be sent even higher into space than the second Soviet moon. The latter went up just over 1,000 miles.

The next launching was described as part of a long-range program in which Soviet scientists will probe farther and farther into space.

A NEW KIND OF CAR IS BORN!

Tomorrow at Your Pontiac Dealer's!

BOLDEST ADVANCE IN 50 YEARS!

THE GOLDEN JUBILEE CAR!

It's a revolution on wheels—boldly planned from the very beginning as a Golden Anniversary showpiece for Pontiac and General Motors. This one you really must see—here is a car unlike any you have ever known! This Golden Jubilee Pontiac is actually an all-new breed of cars—in four brilliant series and 16 sleek models covering virtually every price bracket.

In all of them you'll find engineering advances so daringly different yet so basically sound that they will trigger the next big change in automobile design. You'll find a few of these ideas illustrated here, but even they can't begin to tell the full story.

Why not be among the first to discover the newest. When you meet this bold new Pontiac, you're in for a driving thrill that is impossible to duplicate in cars of conventional design. So make it a point to see your Pontiac dealer soon and prove to yourself that no car in history ever left yesterday so far behind!

Ever-Level Air Ride*

The most perfect suspension system ever designed—and Pontiac's revolutionary Aero-Frame is specifically designed for it! Air cushions on all four wheels literally float you over the bumps... keep the car perfectly level regardless of load or road!

Aero-Frame STABILITY

Here is the biggest basic construction change since the early days of motoring. Pontiac's revolutionary new frame design is lighter, stronger, more stable than the conventional box type used on other cars.

Circles-of-Steel SAFETY

Pontiac's completely new body construction surrounds you with girder steel protection—above, below, fore and aft. Now you can drive with wonderful new peace of mind!

Quadra-Poise ROADABILITY

Only the wheels know where the bumps are! Pontiac's new suspension geometry ends dice, sway and bounce to bring you the smoothest ride, easiest handling you've ever known!

Tempest 395 PERFORMANCE

Try Pontiac's new jewel-action response! Scores of exclusive engineering innovations make Pontiac's hefty power plant a miracle of smoothness... and you can choose from four horsepower ratings including Tri-Power Carburetion* and Fuel Injection*.

Sweeping Advances In '58 Pontiac

Notable changes in appearance, in engineering, in performance and in luxury are to be seen in the Pontiac line for 1958, going on display Saturday at Marvin Wood Pontiac, 504 E. 3rd. At top is the volume seller, the Pontiac Chieftain four-door sedan. With a 122-inch wheelbase, it is called the "big" car with a "little" price. The lower photo is of Pontiac's perennial favorite, the high-styled Star Chief four-door Catalina. It has 124-inch wheelbase, has the big new "Tempest 395" V-8 engine and features luxurious interior appointments.

PRESENTED HERE SATURDAY

Complete New Design Noted In Pontiac Models For 1958

Sixteen all-new models in four series are presented for 1958 by Pontiac, making the boldest advance in engineering and design changes in its long history. A new body, new chassis, new "Tempest 395" V-8 engine, new optional equipment and a special series of family-size "dream cars" are to be seen. The 1958 Pontiacs go on display Saturday, and are on the show-rooms of Marvin Wood Pontiac, 504 E. 3rd. They are longer, lower, wider and combine high performance with comfort in high style. In addition to the top-of-the-line Bonneville convertible and sport coupe, Pontiac offers other new innovations for '58. Among them are a convertible in the lowest priced Chieftain line, air ride suspension as an option on all models, along with improved fuel injection, introduced by Pontiac last year. The new "Tempest 395" V-8 engine is bigger than ever, with displacement increased from 347 to 370 cubic inches, and designed to deliver power where most needed—in the traffic range. Pontiac engineers list 88 new features in the 1958 models and 135 separate safety features. Striking "New Direction" styling accentuates the car's longer, lower, wider look. The low, horizontal grille is topped by dual twin head lamps and rises above the heavy bumper, which incorporates massive parking and signal lamps. From the rear the 1958 Pontiacs will be immediately recognizable by dual twin tail lamps above oval, chromed, back-up lamp ports, and the simply styled trunk lid bears chrome handles on each side of the superbly fashioned name plate. In addition to the five-passenger Bonneville convertible and the sport coupe, Pontiac has for 1958 the Star Chief series consisting of two and four-door Catalinas, a four-door sedan with slim center pillar, and a custom Safari station wagon. The Super Chief line includes two and four-door Catalinas and a slim pillar, four-door sedan. The Chieftain series is led by the convertible, new in this line; two and four-door Catalinas, two and four-door slim pillar sedans, and a two-seat and a three-seat, four-door station wagon. On 122" and 124" wheelbases, the new Pontiacs are as much as 4.5 inches lower in height, are 2.2 inches wider and as much as 8.7 inches longer overall. Passenger leg room has been increased by 4.5 inches, ample head room is retained and luggage space is enlarged. A new sculptured instrument panel has key instruments grouped before the driver for quick, safe reading through the deeply recessed, two spoke steering wheel.

Ford Shows Advancements In Truck Line For 1958

Significant advancements are announced for the 1958 line of Ford trucks, which are now being displayed, and may be seen locally at Tarbox-Gossett, Third and Johnson Streets. Ford led the industry in retail truck sales in the 1957 model year, is offering styling and engineering advances to hold the top spot. New, safety vision, dual headlights, are standard on all Ford conventional and tilt-cab trucks. The new lights, which give much more road illumination at night, are integrated in a simply styled, cross hatch grille. They give the truck an uncluttered, functional appearance. Headed by the spectacularly successful Styleside pickup, which accounted for more than 35 per cent of the company's 1957 half-ton truck production, Ford is offering more than 300 models ranging from the versatile Ranchero, through light, medium, heavy, extra heavy and tandem trucks. Major engine and mechanical improvements have been incorporated throughout the line, and automobile-inspired styling, recently introduced on Ford's truck line, has been further developed and enhanced. Substantial increases in engine durability have been effected by modification of crankshafts, pistons, valves and camshafts. Improved performance under all operating conditions has been achieved through a new carburetor of advanced design. Engine efficiency is also increased by the addition of a new water pump of higher capacity and velocity and a modification of the ventilating system. Six-cylinder economy is substantially increased through modification of the accelerator pump system.

A non-glare instrument panel paint protects against glare. Leading an exceptional parade of optional equipment for the new cars is air ride suspension, new for passenger cars in the middle price range, which gives an ever-level ride regardless of load or road conditions. Pontiac's fuel injection, introduced last year, has been improved and tailored for the new, bigger engine. Super Hydramatic transmission, power brakes, power steering, power-operated windows, four-way power seat with a new "memorymatic" control device, which returns it to a pre-selected setting, are other extras, as is a new "safeguard" speedometer, which buzzes when a set speed is exceeded; a new "safetrack" differential, which eliminates rear wheel slip; a new split front seat back lock to prevent seat tilt on sudden stops; a new door lock warning lamp, and a new combination car and portable transistorized radio.

which matches the cab in width and offers 25 per cent more payload capacity than other pickup models. Horsepower in the V-8 engines for light duty trucks has been increased from 171 to 181 to give higher performance. As in the past, Ford will offer heavy duty engines as optional equipment in the medium duty line.

PHOENIX, Ariz. (AP)—Guy Jackson Jr., of Anahuac, Tex., was re-elected president of the National Reclamation Assn. yesterday.

PHOENIX, Ariz. (AP)—Guy Jackson Jr., of Anahuac, Tex., was re-elected president of the National Reclamation Assn. yesterday.

Pioneer Methodists To Conduct Revival

Revival services will open Sunday at the Pioneer Memorial Methodist Church, 26 miles southwest of Garden City, Rev. C. T. Jackson, pastor, has announced. Speaker for the meetings will be Dr. H. Clyde Smith, Big Spring district superintendent. Services will be held at 7 p.m. daily throughout the week, with the last sermon scheduled for 9 a.m. Nov. 17.

Coffee Given For T&P Ladies Safety Council

About 60 attended the coffee given Thursday morning by the T&P Ladies Safety Council. The affair, especially for new and prospective members, was given in the home of Mrs. K. D. Heston. Receiving guests were Mrs. Heston, Mrs. R. F. Fallon, Mrs. J. W. Forrester, Mrs. Buster Vinson and Mrs. Arthur Paschall. Assisting in the house party were Mrs. Albert Smith, Mrs. H. M. Doan, Mrs. Tip Anderson, Mrs. B. E. Neal Jr., Mrs. J. H. Webb, Mrs. W. G. Wilson Jr., Mrs. J. E. Shipp, Mrs. D. D. Dyer, who registered guests, and Mrs. S. M. Barbee. At the refreshment table, past presidents presided over the silver coffee service. They were Mrs.

R. D. Ulrey, Mrs. H. F. Jarrett, Mrs. C. L. Richardson and Mrs. Paschall. The table was covered with an ecru linen cutwork cloth and held chrysanthemums of orchid and wine shades, in combination with white and purple grapes. The arrangement, in tree shape, bore a small bird figurine perched atop the flowers, and was in a milkglass bowl. The council meets at 2 p.m. at the Settles Hotel, on the second Thursday of each month, and all eligible for membership are invited to join the group. All women employees of the railroad, wives of active or retired workers, and widows of employes are eligible to become members.

Bulb Planting Is Subject Of Spaders Club Program

Two speakers gave Spaders Garden Club members tips on bulb planting and day lilies when the group met Thursday morning at the home of Mrs. Dave Dorchester. Mrs. Kyle Cagle told the club that to achieve better effect, bulbs should be grouped according to color. She recommended Dutch iris, daffodils, hyacinth, and narcissus for these groupings. In potting crocus, she said they should be planted about five inches in the potted soil which should never be allowed to become dry. Mrs. H. B. Perry spoke on the care of day lilies and said they should be planted during the summer months. Mrs. Earl Burnet was introduced as a new member.

A report on the state hospital orientation classes was given by Mrs. W. D. Caldwell, who attended along with Mrs. V. A. Whittington and Mrs. Don Grantham. Council report was given by Mrs. Cagle, and Mrs. C. A. Tonn was elected club representative to the council civic beautification committee. Mrs. Grantham will represent the club on the committee to work with the judges for the Christmas decorating contest. Members were reminded that copies of Mary Kettle's book on flower arranging is now available. Twenty-one members were present.

MIRY DONNELLY... baldies offer challenge

Woman Wigmaker Has Unusual Occupation

SANTA MONICA, Calif. (AP)—This may come as quite a surprise to men, but there are as many bald headed women as men. Authority for that random statistic is 43-year-old Mrs. Ruth Mary Donnelly, a wigmaker known professionally as M. Ruth. As far as her trade is concerned, she has three women clients to every man, and the men who come to her establishment to have a "rug" made are, for the most part, under 30 years of age. At that age men are quite sensitive about the loss of hair. Women always see a bald headed woman. They do something about it, and quick. Mrs. Donnelly says she really enjoys her rather unusual occupation. "Bald heads used to make me nervous," she explains, "but today they present an artistic challenge. Much as an artist gazing at an uncompleted canvas, you see the heads as forms on which to create attractive hair lines. "It is very rewarding to see your creation restore the confidence of men and women who have lost their hair. It is a rewarding profession, too, financially." M. Ruth charges from \$200 up for a woman's wig, whereas the price for a man's skypiece ranges upward from \$250, mainly because there is more detail work. Many women wear partial wigs, known as crown falls, to cover thinning hair at the top of their heads, and there are many young women whose hair thins out, due perhaps to some deficiency during pregnancy. Disease, worry and hereditary factors contribute to baldness, wigmaker Ruth says. "Young men who replace the receding hairline with a wig find that girls at dances start saying 'yes' for a change," she laughs. "I like my work. I enjoy making people feel their REAL age instead of their apparent age. It becomes interesting in this field when I meet an elderly French wigmaker. I studied and practiced with him for some time before I went out on my own. It's hard and exacting work. There's only one way to learn it and that is to study on the job with a proficient wigmaker. There are no schools here that teach it. By comparison, Germany's schools have three year courses. "We use human hair in the wigs, most of it from Europe, because it is long, Chinese and Indian hair is less satisfactory than European and American." Mrs. Donnelly is married to a utility company executive.

Credit Club To Help Buy Decorations

Members of the Credit Club voted Thursday to give \$10 to the Christmas Decoration Fund of the Chamber of Commerce, when the group met at the CC conference room. A Christmas party was planned for Dec. 16, with the time and place to be announced later. Mrs. Noel Hull was the winner of the capsule prize. New committee chairmen were named by Mrs. Caribel Laughlin, newly-elected president. They include Pauline Sullivan, program; Mrs. Jewel Kuykendall, telephone; Mrs. Raymond River, social, cards and gifts; Mrs. Varnell Johnson, publicity; Pyle Bradshaw, membership; and Mrs. M. T. Kuykendall, ways and means and project. Appointed chaplain was Mrs. Jewel Kuykendall. Seventeen were present for the meeting.

AAUW Members To Attend Meet, Luncheon Saturday

Planning to attend the area meeting of the American Association of University Women in San Angelo Saturday are Mrs. Cass Hill, Mrs. F. E. McDonald and Mrs. Earl Penner. The session will begin at 10 a.m. at the Town House with a luncheon served at noon. Other local members of the AAUW will meet at 1 p.m. Saturday at the Wagon Wheel Restaurant for a luncheon and program. Theme of the day's study will be You and Your Community. Hostesses for the luncheon are Nell Brown, Mrs. William Shropshire, Mrs. S. M. Anderson, Mrs. C. L. Beach, Mrs. J. B. Bownds and Mrs. L. D. Spradling.

Mrs. Ron Uffins Is Given Shower

Mrs. Ron Uffins, the former Nelda Jean Stewart, was the honoree for a kitchen shower at the home of Mrs. John Rudeseal Thursday evening. Cohostess for the surprise party was Mrs. Lynn Webb. Fourteen attended the affair. The refreshment table was covered with a beige handwoven linen cloth. The tiered wedding cake was topped with a pink carnation corsage, which was presented to the honoree. The couple was married on Nov. 2.

Luncheon And Recipe Party Are Compliments For Janet Hogan

Pre-nuptial parties continued for Janet Hogan, bride-elect of Lt. William H. Brigman, with two being given Thursday. Miss Hogan, daughter of Dr. and Mrs. J. E. Hogan, 508 Westover Road, will become the bride of Lt. Brigman Saturday evening at the home of her parents. He is the son of Mr. and Mrs. Paul Brigman of Brunswick, Ga. Thursday, Mrs. Jack Woodall and Mrs. Ed Swift entertained a group of friends at luncheon in the Woodall home honoring the bride-elect. Guests were seated at foursome tables, each centered with a tiny mass arrangement of pink and white chrysanthemums. These were held in small Chinese cups and were on cloths the color of cafe au lait, sparkling with silver and gold threads. Sixteen places were marked with small pink roses. The honoree, who wore a black silk sheath with jet carbobs, was presented with a gift from the two hostesses. RECIPE PARTY Guests came to the home of Mrs.

S. M. Smith Thursday evening bringing gifts of kitchen linens and favorite recipes, which were presented to Miss Hogan. During the informal party, a guessing game was played, in which the group tried to name the articles contained in a large grocery bag. Winners presented their prizes to the honoree. Refreshments were served from a table arranged with a centerpiece of measuring spoons in pink bronze, pink carnations and a recipe book on a holder. The arrangement was given to the bride-elect, and guests then filed their recipes as a registration. Fourteen of Miss Hogan's school friends attended the party, for which she chose a full-skirted cotton frock of black and white, with a black bow marking the high neckline. Mrs. Smith presented a hostess gift to the honored guest.

Mrs. Courington Named Guest Of Month At OWC

A Thanksgiving theme was used for the luncheon of the Officers' Wives' Club Thursday at the Officers' Club, when Mrs. G. D. Courington was named guest of the month. She was presented with a gift from the club. The floral arrangement of wine chrysanthemums and corn with autumn foliage was won by Mrs. J. B. Smith. Mrs. C. D. Peters was awarded the welfare fund prize. Named guest of the month for December was Mrs. Ronald Carpenter. Plans were announced for the newcomers coffee to be held at 10 a.m. Nov. 19 at the Officers' Club. Hostess group for the affair will be named at a later date. Chaplain Verlin E. Mikesell spoke to the group, stressing the need for teachers of the Sunday School classes. Another speaker, Maj. Ralph Murphy, told of the work which volunteers do in the Dependents' Assistance department. He announced that on Nov. 18-21 an orientation course for volunteers will be given at the Dependents Assistance Building. Hours are slated for 9 to 11:30 a.m. each day.

Study Club Has Review

COAHOMA — The Coahoma 1941 Study Club met recently in the home of Mrs. Fred Salling with Mrs. J. A. Westmoreland reviewing Robert Browning's poem, "The Ring and the Book." The next meeting will be the annual Thanksgiving dinner; place will be announced later. Nine attended. Visitors this week in the home of Mrs. Rosie DeVaney were Mr. Mrs. Noble DeVaney and Donna of Dallas, and Mr. and Mrs. Fred L. Cove, Carla Jo and Carrie Lyn of Midland. Mr. and Mrs. P. F. Shedy have returned from Comanche where they attended the funeral of a brother-in-law, Charlie Smith. Mr. and Mrs. C. P. Owen are in Houston this week visiting their son and family, the Rev. and Mrs. Joe Owen. Mr. and Mrs. Frank Edens of Buchanan Dam are visiting here this week with her sister, Mrs. Chester Coffman. Helen Hall of Odessa and Wendell Shiva of Midland visited recently in the home of Mr. and Mrs. A. D. Shive.

Rebekahs Honor 25 Past Noble Grands At Seasonal Dinner

Past noble grands of the Big Spring Rebekah Lodge were entertained at a Thanksgiving dinner Thursday evening at the IOOF Hall. Hostesses were members of the lodge. Mrs. C. D. Herring offered the invocation. A poem in honor of the noble grands was read by Mrs. Claude Gilliland. Diversion following the dinner was canasta and 42. Head table was marked with a floral fruit, and vegetable composition in the shape of a turkey. Eighty were present, including 25 noble grands. Announcement was made of the initiation ceremony to be held at the lodge meeting Tuesday evening.

Doll's Wardrobe

Many new outfits for a little girl's doll are provided with this sew-simple pattern. You will have fun making the tiny clothes, too. No. 1325 with PHOTO-GUIDE is for dolls 14, 16, 18, 20, 22, 24 inches. For exact yardages, consult pattern. Send 35c in coins for this pattern to HHS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Don't miss the new sewing manual Home Sewing for '57—an inspiring pattern book filled with all-season styles. Gift pattern printed in the book 25c.

ESA Sorority Has Book Review For A Model Meeting

A model meeting was held by members of the Epsilon Sigma Alpha Sorority Thursday evening in the home of Mrs. Bob Tawater. Cohostess was Mrs. Harold Summers. A review of "The Lucky Number" was given by Mrs. J. D. Benson. The group voted to make up a basket for a needy family for Thanksgiving. Plans were announced for the pledge ritual, which is to be followed by a dance, on Nov. 14. The time and location will be decided on later. Two new members, Mrs. Doyle Dean and Mrs. A. W. Saylor, were introduced to the group. It was announced that there will not be a regular meeting of the sorority next week, due to the ritual.

Ackerly People Have Guests During Week

ACKERLY—Visitors to Ackerly this week include Don Rasberry of Big Spring who was a guest in the home of his brother, Dolph Rasberry, and family. Also from Big Spring were Mrs. Nora Oaks and Mr. and Mrs. Cris Querido. They were guests of Mrs. Myrtle Sikes and Mrs. W. H. Harworth. They visited Mr. and Mrs. A. D. Reed and family also. Mrs. Elmer Mashburn and Mitsy of Stanton visited with Mrs. Mashburn's mother, Mrs. Myrtle Sikes, Thursday.

Decorator Touch Easily Added With Plastic Tile In Bathroom

The magic of the decorator touch is transforming today's bathrooms into glamour showplaces. Nowhere else in the home, whether old or new, is a wealth of color more richly rewarding, than in the bathroom. Whether your luxury taste runs to pretty pastels or high fashion shades, colorful walls show off your decorator talent to best advantage, as background for lovely towels, gay little cosmetic bottles and big jars of bubble bath. Whether you are building a new home, or remodeling, plastic wall tile offers wide color selection, top quality perfection, long lasting durability and so lightweight and easy to handle you can even do it yourself. And no sudden shocks of touching a cold, cold wall... this modern tile responds to room temperature and encloses your bathroom in radiant color and inviting warmth. Your choice of color is practically unlimited, and so is the opportunity for creative self-expression. If your dream bathroom has a rosy glow, you will find just the shade of rose you've always wanted. While you are selecting just the shade of rose that pleases you most, let your fancy wander to improving perfection. You can, too, with decorative use of contrasting tile—perhaps in a delicate tint of leafy green. Just one of many ideas might be a narrow green border for your plastic tiled walls, with a tiled ceiling to carry new light on reflected beauty. Tiled ceilings are tremendously smart, and present no problem, with lightweight tile. For elegance and a really terrifically important look, black plastic wall tile is putting showmanship into bathroom fashions. Dramatized with a decorator touch of bright contrast, such as every sixth tile a deep red color, and presto, you have the smartest effect of all—a bathroom tiled in contrasting stripes! While an extra bathroom is no longer a luxury, there is no reason why a second bathroom should be the stepchild of the family home. With plastic wall tile, luxury is at your finger tips, in colors that make even the smallest areas a bright and shining accomplishment. Completely tiling a small space in light and airy colors of plastic tile has a wonderful way of creating a spacious illusion.

Italian Scallopine Adds Menu Variety

Italian Scallopine with a double tomato sauce is a delightful way to add variety to menus. Ingredients: 1-3 cup fine dry bread crumbs 1-3 cup grated Parmesan cheese Salt White pepper 1 large egg 8 paper-thin slices (about 1 lb) tender veal 3 tbsp (about) olive oil 1 can (8 oz) tomato sauce 1 medium-sized tomato (skinned and seeded and diced) Basil Method: Mix bread crumbs, cheese and a dash of salt and pepper together thoroughly on flat plate or waxed paper. Beat egg just until foamy. Dip slices of veal, one at a time, in egg and then in bread-crum mixture. Heat 2 tablespoons of the oil in a large (12 inches) skillet until very hot; add as many of the veal pieces as will cover bottom of pan. Brown veal well on both sides and by this time—3 to 5 minutes—meat will be cooked through; remove and keep warm. Add remaining 1 tablespoon of oil to skillet and brown rest of veal the same way; add more olive oil if necessary. Meanwhile slowly heat tomato sauce with fresh tomato, sugar and basil to taste. You can use minced fresh or crushed dried basil seasoning powder. Serve veal with tomato sauce. Makes 4 servings.

Crocheted Bolero

Add glamour to a plain dress with this lovely bolero in simple crochet stitches and trimmed with colorful crocheted flowers. No. 171 has crochet directions—sizes 12, 14, 16, 18, 20 inclusive. Send 25c in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y.

Brown Corned Beef

You can dress up the canned corn beef hash by turning it into a greased ring mold and baking it in the oven.

Fresh Fruit Flavor

Substitute orange juice for part of the water when preparing lemon-flavored gelatin. Adds fresh flavor and nutrition!

First Baptists Complete Initial Preparations For Finance Drive

Members of the First Baptist Church have completed organization and set up canvassing schedules for a capital and operating funds campaign which is due to be completed by Nov. 27.

Preliminary work was completed at two dinner meetings during the past week, and another dinner has been scheduled for next Tuesday evening when initial reports will be heard.

All these activities are in preparation for the church "loyalty dinner" to be held Nov. 18 and a campaign "kickoff dinner" Nov. 19. Leaders hope the general canvass can be completed in one week, in time for final reports on Nov. 27.

Most local pastors will be in their pulpits for services this weekend. Exceptions are at College Baptist Chapel where Rev. Carlos Gruber of Plainview will start a revival and at First Methodist Church where Horace Garrett will speak Sunday morning in observance of Layman's Day.

Fr. William J. Moore at 7 a.m. and 11 a.m. at St. Thomas Catholic Church. Confession will be heard from 5:30 to 6 p.m. and 8 p.m. on Saturday. Benediction will follow the last mass.

At the Sacred Heart (Spanish-speaking) Church, Mass will be held at 8 a.m. and 10:30 a.m. Sunday. Confessions will be heard on Saturday from 5-6 p.m. and 7-8 p.m. Benediction will be at 5:30 p.m. on Sunday.

Mass will be said Sunday at 5:30 p.m. in Coahoma at Joseph's Mission by the Rev. Fr. Adolph Metzger, OMI.

Christian

"The Power of Pentecost" (Acts 2), the second in a series of eight sermons on the Book of Acts, will be brought by the Rev. Clyde Nichols at the morning hour at the First Christian Church. Don Jones will sing Malotte's "The Lord's Prayer." At the evening hour the sermon will be on "New Laws for Life" (Matt. 5). The junior choir will sing.

Christian Science

Man's perfect, sinless nature as the spiritual child of God will be emphasized in the Lesson-Sermon entitled "Adam and Fallen Man" at Christian Science services Sunday.

Keynoting the scriptural readings is the following passage to be read from Genesis (1:27): "So God created man in his own image, in the image of God created he him; male and female created he them."

A correlative passage which refers to this record of creation will be read from "Science and Health with Key to the Scriptures" (516:27-29): "To emphasize this momentous thought, it is repeated that God made man in His own image, to reflect the divine Spirit."

The Golden Text is from Psalms (112:4): "Unto the upright there ariseth light in the darkness."

Church Of Christ

T. E. Cudd, minister of the Main Street Church of Christ, will have as a subject Sunday morning, "Forsaking the Assembly" and in the evening he will speak on "Some Bible Questions Asked."

Church Of God

The Rev. C. W. Hutchins at the First Church of God will speak on the "Sermon on the Mount" which is the second in a series at the morning hour. In the evening, his topic will be "Refuse Him Not" (Hebrews 12:25).

Episcopal

Services at St. Mary's Episcopal Church will be a celebration of the Holy Communion at 8 a.m.; the family service at 9:30 a.m. and morning worship and sermon by the rector, and Rev. William D. Boyd, at 11 a.m.

Lutheran

St. Paul Lutheran Sunday school and adult Bible study will be at 9:30 a.m. The Rev. Wayne Dittloff will speak at the 10:30 worship services. At 4 p.m. the Lutheran Layman's League will meet at the church. Adult discussion group will meet at 6:15 p.m.

Methodist

Horace Garrett will be the lay speaker for the First Methodist Layman Day services. Lt. John Herritt will sing the offertory solo, "How Lonely Are Thy Dwellings." Rev. Wesley Deats will bring the evening sermon on "Taboo or Sacred?"

At the Wesley Methodist Church, Rev. Wayne Parmenter will speak on "The Time Is Now" at the morning hour. In the evening his topic will be "Holy Faith."

Presbyterian

"Christ and Prayer" is the subject announced by the Rev. Jack Ware for the Sunday morning service at St. Paul Presbyterian Church. In the evening, the pastor will preach on the topic, "The Foundation That Conquers Fear." The congregation of the First Presbyterian Church will hear the Rev. Gage Lloyd Sunday morning as he speaks on the subject, "The Unnecessary Sermon." At the 7:30 p.m. service, he will preach on "The Word of God Victorious" which is the sixth in his series of sermons on the book of Revelations.

Webb AFB

Chaplain Carl L. Mabry will speak at the Webb general Protestant services at 11 a.m. Sunday school is at 9:45 in the chapel annex.

Catholic confession is from 7 until 8 p.m. on Saturday. Mass is at 9 a.m. and 12:15 p.m. on Sunday at the base chapel.

Gospel Tabernacle

Big Spring Gospel Tabernacle, Noah Tuttle, pastor, is at 1963 Searcy. Sunday school, 10 a.m.; church services, 11 a.m.; evening services, 7:30 p.m. Services are broadcast each Sunday at 8 a.m.

Latter-Day Saints

Priesthood classes are held at 9:30 a.m. Sunday at the Girl Scout House, 1407 Lancaster. Sunday school is scheduled at 10:30 a.m. The evening worship service is at 6:30 p.m.

7th Day Adventist

Services of the Seventh Day Adventist Church will be at 2:20 p.m. (Saturday) followed by church services at 3:30 p.m.

Cosden Employees Set New Record With Gifts To UF

Cosden Petroleum Corp. employees have completed the most successful United Fund campaign ever conducted, Jack Y. Smith, labor relations manager for the firm, announced today.

Cosden employe gifts to the Big Spring and Howard County United Fund totaled \$7,195.28. Smith reported. Contributing to the total were 785 employes for an average of \$10.35 each.

Contributions included \$1,172.66 from 161 workers in the refinery maintenance division, \$1,649.94 from 260 employes in refinery operations, \$1,571.50 from 93 workers in the refinery offices, \$2,401.18 from 249 in the general offices and related facilities, and \$400 which was reported directly to the United Fund by individuals.

"The final results throughout the company are most gratifying," Smith said. "The total amount exceeded all previous years and each of us may be well pleased with our participation in making 1957 a record year."

TV Competition Inquiry Asked

WASHINGTON (AP)—Western Television Co. asked the Federal Communications Commission yesterday to inquire into "the issue of how far existing stations may go toward suppressing competition."

The company is owned by David P. Pinkston and Leroy Elmore, operators of Radio KDAV at Lubbock, Tex., and it seeks a permit for a Channel 5 television station there.

An FCC examiner recommended in September that Texas Tech at Lubbock be granted a Channel 5 license for a non-commercial station.

The commission reserved its decision to study Tech plans to finance the project, stating it wanted more information about offers by stations KCBQ-TV and KDUB-TV in Lubbock to give \$30,000 each toward building and operating the Tech station.

Western Television, after its reference to suppressing competition, said in a petition filed with FCC yesterday.

"It must always be kept in mind that the prime function of the commission is to serve the public interest. If the commission grants the Tech application without reopening the record, it will have allowed its processes to have been used by the two existing stations in Lubbock to safeguard themselves against the rigors of additional competition."

The petition requested a further hearing with Western as a competing applicant for the channel. It noted that a competing commercial application by C. L. Trigg for Channel 5 was withdrawn in April, and said Tech paid Trigg \$25,000 from an unknown source as partial reimbursement for his expense.

Western also said Channel 26 had been reserved for educational use at Lubbock but never applied for, and said it questioned the right of Tech to Channel 5 under the circumstances.

Legion Auxiliary Sets 'Poppy Day'

The American Legion Auxiliary has scheduled Saturday as "Poppy Day" in Big Spring with poppies to be sold on the streets in a fund-raising project.

Mrs. O. W. Sparks, auxiliary president, said that all of the money the group raises will be used in the program for assisting needy or disabled veterans and their families.

Assisting auxiliary members with sale of the poppies will be members of the Rainbow Girls, home economics students in the Big Spring schools, and other girls from junior high.

Concerning Spiritual Gifts

EACH ONE HAS SOME TALENT TO BE USED IN GOD'S SERVICE

Scripture—1 Corinthians 12-14.

By NEWMAN CAMPBELL

DR. WILBUR M. SMITH states that the first chapter listed in today's lesson is one of the most important in all the New Testament. I agree with him. He suggests too that the younger classes and the older ones too, introduce it by the teachers allowing the pupils to name as many different types of workers in their own church as they can think of.

First would be the preacher, then the organizer of the Sunday school, next the teachers, the church treasurer, the organist, choir singers, elders, deacons, trustees and church visitors. Each does his or her best to make a well rounded church organization.

I would suggest, too, for the younger members of the class, those in primary schools, that they list the talents or gifts of members of their own schools. There are children who have special gifts for arithmetic; others who excel in reading, writing, spelling, etc.

Each of the children in one

room has something that distinguishes him or her from the others. If it is not in the school's curriculum, these might be good-nature, thoughtfulness of others, obedience to the school rules, etc.

Paul knew the people of the Corinthian church well, and he points out their diversified gifts or talents, but all should have the same spirit, he wrote, for God is the same "which worketh all in all."

There were people in the church who had wisdom; others with knowledge; another faith in the Spirit. Another might have the gift of healing; another of working miracles; still another the gift of prophecy. Others had diverse kinds of tongues, and others who could interpret these mysterious tongues. "But all these worketh that one and the same Spirit, dividing to every man severally as he will."

Then Paul likens the church to our bodies, which are made of many parts, each being necessary to all the others, but connected by one Spirit, and by one Lord.

MEMORY VERSE

"Follow after charity (love), and desire spiritual life."—1 Corinthians 14:1.

how shall it be known what is piped or harped? "For if the trumpet give an uncertain sound, who shall prepare himself to the battle?" So likewise ye, except ye utter by the tongue words easy to be understood, how shall it be known what is spoken? for ye shall speak unto the air."

God is not the author of confusion, but of peace, as in all churches of the saints," Paul wrote.

"We cannot all have the best gifts," wrote W. E. Vine. "We can seek God's grace and help to desire them and by prayer and humble obedience to His will and the leading of the Spirit, and by placing ourselves at His disposal, being content with what He gives us or withholda, we shall find that He will use us for His glory."

Let all the pupils, young and older, be urged to follow Mr. Vine's advice, and see what we can do for our church and in our everyday lives, try to help bring the Kingdom of God nearer.

IT'S NICE TO BE ABLE TO SAY "Charge It"

Shopping is a lot more convenient, more pleasant, if you have a good credit record.

If you enjoy the reputation of paying your bills promptly, all you have to say is "Charge It."

The department store, the physician, the dentist, the butcher and the baker, all gladly extend credit to responsible people. And all you have to do to enjoy this convenience is to pay your bills promptly, on or before the date they are due.

Whether you're buying on a monthly charge account . . . or on a deferred payment plan . . . buy only what you will be able to pay for on the date it is due. Use your credit—don't abuse it. Pay promptly and when you say "Charge It," any merchant or professional man, anywhere, will cheerfully grant your request.

A DOWNTOWN CHURCH PREACHING CHRIST

Give God A Chance—God Will Open Doors For You!

HOW SMALL, YET HOW BIG

How small a man seems—walking down a lonely road on a rainy day, with gaunt trees towering over him.

How small man is, and how frail in body. The trees in the picture and even the chimneys on the old house will probably long outlive the man.

Yet how big man is—in the things that are not of the body, but are of the mind and soul. God has not made man mammoth. But He has made him potentially great—if he will but accept the blessings given him, and use the tools of Christian teachings.

Man finds in the Church, the encouragement and the instruction to enable him to make from his God-given divine spark something great and enduring—and of benefit to all human-kind.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses

LOOKING 'EM OVER

With Tommy Hart

In his column, The Barbershop, which appears regularly in the Chicago Daily News, John P. Carmichael was sadly in error when he wrote: "... Probably no state in the Union, with the possible exception of Ohio, has as many high school football teams as Pennsylvania. The figure runs well over 600..."

Gene Harlow, coach of the Arkansas State football team, says fellow mentors being called upon to serve as guest speakers fall into a rut by repeating themselves.

To help the fans who have to listen to them better understand what they mean, Harlow made the following contribution in interpreting what the speaker really is thinking when he deals in stock quotes:

1. "Given enough time, I can develop a winning team here at Unbuckled U." (What he really means: "I'm looking for another job and haven't found it yet.")
2. "I want to give Southwest State the kind of team it deserves." (Or, he's saying to himself, "They're getting what they desire for the salary they're paying me, but I'd like to win a few so I'd get an offer to get the hell out of here.")
3. "We'll have a lot of spirit and hustle." (Or, "We'd better have, because we haven't got anything else.")
4. "We're going to surprise some teams this fall." (Or, "We're going to show up for all the games.")
5. "We'll be better, but so will everybody else." (Or, "We're going to lose just as many as we did last year.")
6. "We're relying heavily on sophomores this season." (Or, "Our record the past two seasons proves the seniors and juniors can't play.")
7. "Halfback Joe Shoulderpadding shows fine potential but he needs a little more seasoning." (Or, "He can't block, tackle, kick or pass, but his father is a trustee of the college.")
8. "Tackle Joe Noseguard may experience some scholastic difficulty." (Or, "He's a helluva player, but he can't read or write.")
9. "I appreciate the alumni." (Or, "The XY&Z's!")
10. "We honestly feel we'll provide our fans with some entertaining afternoons." (Or, "We know we've got a real good band.")
11. "We look good in practice, but we don't know how we'll look in a game." (Or, "We know, but we can't bring that up.")
12. "We didn't win as many games as we did last year, but I never associated with a finer bunch of boys." (Or a worse bunch of football players.)
13. "We tell our boys that those other guys put their pants on one leg at a time, just like everybody else." (But we don't tell them how big the pants are.)

Two carloads of cinders are being added to the track at HJC, which will raise it about another inch in height.

The track is also being reworked so that it will drain more quickly. The clay in the cinders shipped here last year held the water after rains.

BY 18-0 TALLY Snyder 9th Shuts Out Yearlings

Snyder blanked the Big Spring Ninth Grade Yearlings here Thursday night, 18-0. The loss was the fourth in seven starts for the Yearlings.

The Snyder Freshmen set up a sharp passing offensive, in covering the deciding factor of the game. They tossed 14 passes, completing nine for 229 yards. Big Spring managed to complete four of nine, gaining 90 yards.

Big Spring rolled off 169 yards rushing; the Tigers gained 177. First downs for Snyder totaled 10, as compared to the Yearlings' seven.

John Weaver, left halfback for the Tigers, rambled wide after snapping loose off this right tackle, and went 28 yards for a first period score. The play was set up by a completed toss from quarterback Larry Patterson to end Stan Druze, which ate up 26 yards from the Snyder 46.

The Big Spring Fresh, unable to kick out a first down, punted from their own 20. Wind-blown and bouncing high, the ball rolled dead on Snyder's 22. From there the Tigers moved 78 yards in seven plays to the double-stripe and a 12-0 lead.

Mike Moffett and Weaver cracked at the line three times, then a connection by the airways to Kruse settled on the BS 42. Following a couple of thrusts by Weaver, quarterback Patterson spied Jesse Crawford in scoring position, and tossed a neat 53-yarder for the TD.

The Yearlings gave their sole indication of scoring punch with less than three minutes remaining in the first half.

F. L. Lasater, who saw limited action because of recent illness, was dropped on his 12-yard marker on a kickoff return.

Sam Baugh's Son To Aim Strikes At Coahomans

COAHOMA, (SC)—Todd Baugh, son of the famous Sammy Baugh, leads the Rotan Yellowhammers into Coahoma tonight against Dub Behrens' Bulldogs.

The important District 6-A game begins at 7:30 p.m. Rotan must win in order to maintain a tie for first place in conference standings—a spot it now occupies with Merkel. Coahoma must win in order to keep alive its chances for a first place finish—the Bulldogs lost their first conference game of the year last week to Merkel.

Like his father, Todd Baugh is considered a fine passer and is dead set on riddling the Coahoma pass defenses tonight.

Coahoma will be far below peak strength. Flu and injuries have taken a terrific toll of Bulldog players.

Visits Roscoe Tonight

The Stanton Buffaloes (above) visit Roscoe tonight for a District 6-A test, their final road game of the 1957 season. Left to right, front row, they are Delton Chesser, Tommy Newman, John Ray Orr, Virgil Miller, Corky Britton, Jim Standifer, and Buzzy Brewer. Middle row, Loie Badgett, Eddie Avery, Gilbert Casbeer, Larry Counts, Otis Lord, Landon Hightower, Donnie Hull and Morris Petree. Back row, Coach Bowden Cook, Wayne Parum, Rodney Myrick, Dwayne Thompson, Garland Polson, Bobby Boyce, Norman Donelson and Assistant Coach Wayne Grable.

SWC RACE MAY BE CUT TO 2 TEAMS SATURDAY

By HAROLD V. RATLIFF
The Southwest Conference football race will be cut to two teams Saturday if form is followed down the line.

Texas A&M is favored to beat Southern Methodist and continue on its merry, undefeated, untied way toward a second straight championship.

Arkansas is supposed to whip Rice and knock it out of the title race. Texas is expected to trim Baylor and cling to a chance of a tie for the title.

But this is the period when upsets are considered form and the race could be as jumbled as scrambled eggs come midnight Saturday.

Texas A&M, proudly trying to protect its No. 1 rating in the country and at the same time stay out front in the championship drive, meets a suddenly-grown, dangerous Southern Methodist at College Station in the only night game.

The Aggies are solid chances to halt an SMU pass attack, enervated by its late-blooming star, sophomore Don Meredith, and thunder on to their 11th straight triumph. But they're not as positive about it as they were last week before SMU shot down Texas.

Arkansas is supposed to whip Rice and knock it out of the title race. Texas is expected to trim Baylor and cling to a chance of a tie for the title.

Realignment Talk Silenced By Frick

NEW YORK (AP)—Commissioner Ford Frick and other baseball officials had a go at figuring out a realignment for the indispensed Pacific Coast League yesterday. But if they hit on a plan, they hung it in a closet to see if it rattles before making it public.

All that was announced after the meeting was a statement saying (1) the meeting had been held, (2) who attended, and (3) they will meet here again Tuesday.

The session was so hush-hush Frick's office even refused to name the hotel on the northwest corner of Lexington and 42nd St. where the meeting was held.

White Frick did go so far as to say "a number of possibilities were considered which representatives at the meeting will take back to their leagues and clubs for their views," the only note that perked up the day was the fact Texas League and American Assn. representatives sat in on the conference.

That bears out predictions that any realignment of the PCL could set off a chain reaction throughout most of the minor league structure.

Denver, of the American Assn. and Dallas, of the Texas League, have been prominent in guesses as to where the PCL will land now that the National League has moved into Los Angeles and San Francisco with the Dodgers and Giants.

If those two cities are to serve as substitutes for the PCL, only two-thirds of the league's problem is solved, however. The Hollywood club also will have to scam out of the Los Angeles area. Salt Lake City, a onetime PCL franchise, or Phoenix have been nominated as the third replacement.

It was learned, however, that the Texas League was not directly involved in yesterday's discussion. And the American Assn. representative was excused from the meeting before it got down to hard facts.

Leslie O'Connor, president of the PCL, said afterward "All I can say is that we can only hope and see what happens." Ed Doherty, president of the American Assn., upheld the secrecy pact, but when questioned did say "We won't give up Denver easily."

Austin All But In As Champ

The first district champion of Class AAAA was virtually determined Thursday night as a weekend of Texas schoolboy football, destined to decide a third of the 93 district winners, got under way.

El Paso Austin sewed up representation of Dist. 1 in the state AAAA playoffs by beating El Paso Jefferson 46-14. Austin still can be tied for the district title but would get into the playoffs anyway.

Featuring the bulky Friday night schedule will be the clash of undefeated, united teams in Class AAA—Nederland at Port Neches. From this game should come the finalist of the lower bracket, although it won't definitely decide the Dist. 11 championship.

Abilene puts its long winning streak—44 straight games—on the line in an important Dist. 2 encounter in Class AAAA. The Eagles meet Odessa, generally regarded as the only threat in Abilene's path back to the state playoffs.

In the other match, Snider Gulf turned back Tom Conway's Humble station, 21.

B&H had high team game of 851 and Prager's the outstanding series with 2415.

Eddie Johnson turned up with the best single game effort, with 233. Vic Alexander had a 558, for the top aggregate.

Standings:
Team Men Store 18 12 500
Prager's Men Store 17 12 476
B&H Men Store 17 12 476
Wilson Brothers 16 14 533
Alexander's Jewelry 15 15 500
Toby's Drive In 14 16 467
Donald's Drive In 14 16 467
Tom Conway's Humble 13 17 423
Snider's Golf 12 17 407

Following the 12-0 first half, the Fresh of Coaches Dan Lewis and Chop Van Pelt tightened their ground defenses, limiting the Tigers to three first downs. During the first two periods, they had picked up six.

But passing was more effective than at first, and Snyder's Patterson threw to Jimmy Don Robinson for 28 yards to push a 66-yard scoring drive along, and from the line John Weaver scored for an 18-0 advantage.

Tackles Lead All-Star List

By TED SMITH
NEW YORK (AP)—Alex Karras of Iowa, first team All-American for 1956, and Lou Michaels of Kentucky, on last year's second team, lead the strong crop of current line candidates in the opinion of AP's All-America boards.

Both are tackles. Karras plays for the nation's fifth ranked team, but Michaels has shone despite the fact Kentucky has won only one out of seven games.

Other linemen who received top recommendations from the 12 regional boards are James Gibbons of Iowa and Sam Williams of Michigan State, from the Big Ten, both ends; Jimmy Phillips of Auburn, also an end; Charles Krueger, Texas A&M, tackle who was on the 1956 third All-America; Bill Krisher, Oklahoma guard; Jim Brackens, Oregon State guard; and Joe Palermo, Dartmouth guard.

The Associated Press All-America, based on the recommendations of the regional boards made up of sport's writers and sportscasters, will be announced Dec. 5 and will take into account all regular season games. Present appraisals may be revised in the four big remaining college football weekends.

Bears And Packers In Grid Feature

The Green Bay Packers and the Chicago Bears send their identical records against each other in Sunday's professional football tilt, nationally televised over the Columbia Broadcasting network.

The game, which is co-sponsored by American Petroleum, Inc., can be seen in this area over KEDY-TV. Both teams have won two and lost four in league play. Last Sunday saw the Bears nose the Rams to improve their record, while Green Bay lost ground in their loss to last year's champion Giants.

Former Southwest stars will be all over the field when the two teams meet in Chicago. The Packers will have TCU's former Ken Wineberg, playing his first year of pro ball, and veterans Bill Howton of Rice, Carlton Massey of Texas, and Bill Forrester of SMU. The Bears feature Arkansas' Jack Hoffman and Fred Williams and several other stars from the Southwestern area.

Filchok Is Fired

WINNIPEG (AP)—Frank Filchok, formerly of the Washington Redskins and New York Giants in the National Football League, said yesterday he has been fired as coach of the Saskatchewan Roughriders in the Western Interprovincial Football Union because the club had a losing year.

Winning a game, he said, is not enough. The Golden Bears are fighting mad but Texas isn't in too good a humor itself. Texas is more versatile.

Winning a game, he said, is not enough. The Golden Bears are fighting mad but Texas isn't in too good a humor itself. Texas is more versatile.

Longhorns Bid For First 2-AAAA Victory Tonight

With nothing at stake save prestige and civic pride, the Big Spring Steers and the Midland Bulldogs take the field in Midland at 8 o'clock tonight.

For the information of those patrons in Midland who made complimentary remarks after the local school's decision to forfeit its baseball last spring to Abilene, the Steers will be there.

And chances are, they'll hit the field ready to play football. The remarks emanating from Midland about the baseball forfeit still rankle here. The Steers want to get even and reason now is as good a time as any to start.

Whether they have the horses and get the necessary breaks is something else again.

Midland has a good ball club, a 3-3-1 record notwithstanding. At least one of those losses could be charged off to the fact that illness hit the Midland camp at the wrong time. And the other two reversals possible occurred before the Bulldogs jelled as a ball club.

Midland will field just as big a ball club as the Steers and one, that no doubt, is much faster. Too, the Bulldogs have a pitcher in John Hunter who must favorably impress the Steers.

Odessa, who shot down the Steers last week.

The Bulldogs also have a blockbuster of a fullback named Doc

Boyce, a junior, who has been compared favorably with Wahoo McDaniell, Midland's great fullback of two seasons ago.

Big Spring is winding up its second season in District 2-AAAA and has yet to register a football victory. That should be an added incentive for the Steers to go 'all out' tonight.

The Steers will be at full strength again tonight and local fans are hopeful they make the same effort tonight they did against Odessa. If that occurs, it could produce a win.

Wayne Fields will be ready to roll for the Longhorns again and local fans will match him against Boyce or any other fullback in the district.

Jimmy Evans, who sat out last week's game with Odessa due to an injured foot, will be prepared to play either at quarterback or tailback. At quarterback, he'll divide time with Bill French and Bill Bob Satterwhite. At tailback, he will spell Buddy Barnes.

Big Jan Loudermilk, who scored twice against Odessa last week, rounds out the Steer backfield. He has been improving every game and should be hard to contain tonight.

This is the final road game of 1957 for Big Spring. The Steers close out against San Angelo here next Friday night.

Hogan Factory Is Swamped With Orders For Equipment

FORT WORTH, Tex. (AP)—Like a baseball player, the first breath of spring will have Ben Hogan itching for golf. That's when the little man of some of the game's greatest moments will start tuning up for another try at a fifth National Open championship.

But tournament golf is far from Hogan's mind these days as he operates his golf club factory. They're swamped with orders.

"I have been so busy I couldn't even go over and watch the boys in tournaments around here, for instance the Dallas Open," he said. "I've only played six rounds since just before the last Open. Day before yesterday I got in 13 holes at Rivercrest here—a business round."

The directors of his company were holding a meeting.

Hogan said it wasn't that he wouldn't like to play all the time but the days of the tournament tour are over as he devotes his time to becoming a business tycoon.

He'll follow the same schedule he started in 1950—playing in a few select tournaments a year. Now it's only four.

Hogan goes to Florida in February to spend a month, playing in the Seminole pro-amateur in March to get his game tuned up for another Masters at Augusta.

Andrade Is Winner

FRESNO, Calif. (AP)—Cisco Andrade, 137½, chopped away at Jorge Macias, 140, unmercifully with a wicked left jab until referee Frank Manfredo stopped their 10-rounder at 2:14 of the ninth round last night.

Fireball Muffler Still A Leader

Fireball Muffler nudged Phillips 66 by a 4-0 count, Sinclair outlasted Bell Telephone, 3-1; and R. M. Minton scrapped Dr. Pepper to a 2-2 tie in Big Spring Commercial bowling league competition here this week.

The standings:

Team	Won	Lost
Fireball Mufflers	17	1
Phillips 66	11	13
Bell Telephone	11	13
R. M. Minton	11	13
Dr. Pepper	11	13

Moore Favorite

WASHINGTON (AP)—Davey Moore, a rugged halfpint from Springfield, Ohio, is a 9-5 favorite to beat Jose Cofero of Los Angeles in their 10-round featherweight bout at Capitol Arena tonight.

Grid Underdogs Are On Spot This Weekend

By ED WILKS
The Associated Press

This college football season, one of the best ever, now comes up with a weekend that plunks the underdogs on the spot along with the favorites. It's put up or shut up for most everybody.

The big games tomorrow are Texas A&M-SMU, Oklahoma-Missouri, Auburn-Mississippi State, Iowa-Minnesota, Ohio State-Purdue, Navy-Duke, Tennessee-Georgia Tech, Michigan State-Notre Dame and Oregon-Washington. Just about all of them have a double angle.

Texas A&M, No. 1 again in The Associated Press poll, probably has had its scare for the year (last week's 7-6 decision at Arkansas) and is a two-TD favorite. Southern Methodist, putting in a late bid for the Southwest Conference title and a bowl berth must knock off the Aggies to make the bid bud.

Oklahoma's sub-par Sooners, finding summer soldiers among the supporters who have beaten the drums through 46 consecutive victories, must win big against Missouri to retain their national prestige. Missouri, grown ambitious after winning four in a row, must knock off the Sooners to swipe the Orange Bowl spot.

Auburn, giving Oklahoma a battle for second place in the poll, is at least a touchdown pick in its big bid for a perfect season and the Southeastern Conference title. But Mississippi State must look good in this one for any chance at a bowl shot.

Iowa, knocked out of the Big Ten lead by last week's tie with Michigan, is a touchdown favorite as the Hawkeyes eye a repeat crown although barred from a Rose Bowl repeat. Minnesota, twice beaten but still hopeful of the Rose Bowl bid since the Gophers play one more game than Ohio State and Michigan State, must win this one to stay alive.

Tennessee, a touchdown favorite, has lost only to Auburn but can't lose another and retain a crack at one of those bowl berths. Georgia Tech, poking its nose in with last week's upset of Duke, must win the rest of the way for a seventh consecutive bowl appearance.

Michigan State, favored for two TDs, is working on a comeback up the top 10 list after that upset by Purdue three weeks ago. Notre Dame, knocked off by Navy last week and facing Oklahoma next week, must win this one in its comeback try from last season's poor showing.

Ohio State can't afford to breathe easy against Purdue if the Buckeyes are to retain the Big Ten lead. The upset of Duke, must win the rest of the way for a seventh consecutive bowl appearance.

Oregon, having whipped the other eligibles, could clinch the Pacific Coast Conference's approval for the Rose Bowl by defeating Washington.

CALLING THE SIGNALS...

Pictured above are two Steers who will probably call some of the signals against Midland tonight! They are, left to right, Bill French and Billy Bob Satterwhite.

What's the play?
Pass, long run, or short drive?

The gasoline in your car is constantly called on to carry the ball in response to a signal from your accelerator.

Cosden's Premium Ethyl Gasoline delivers this instant response better than ever today. Thanks to the most modern refining techniques, it gives you new bonus power in every drop.

If your car doesn't require premium gasoline, Cosden Higher Octane Regular now boasts extra built-in power for real mile-saving economy.

Give Cosden the real test of quality gasoline. Try its response to the signals you call.

Fill up and find out!

Judge Dismisses Adoption Plea

SEBRING, Fla. (AP) — Circuit Judge Joe D. Kinsey yesterday dismissed a 76-year-old man's petition to adopt his former wife and ordered the couple to show cause why the final divorce decree entered Oct. 21 should not be set aside.

Kinsey said it appeared that there is "a likelihood that the divorce decree was obtained by collusion, deception and fraud upon this court which may result in a judicial farce."

The petition for adoption of Virginia Rebman, 44, was filed by her former husband, Walter H. Rebman, a retired secretary of the Borden Co. in New York.

Mrs. Rebman charged mental cruelty in her divorce petition.

Rebman and his former wife said in the adoption petition that the arrangement would benefit both because they have "mutual reliance and dependence on each other due to their association over the past 10 years," and have mutual business interests.

Ike's Call For Science Panel Due Approval Of NATO Allies

WASHINGTON (AP) — President Eisenhower's call for creation of a NATO scientific committee to speed the sharing of knowledge among Allied nations seemed assured today of enthusiastic acceptance by the European allies.

The test of Eisenhower's leadership on this issue will come in persuading Congress to grant him the necessary authority to share secret atomic weapons information.

He is expected to face more opposition on the issue in Congress than at a December meeting of the North Atlantic Treaty Organization in Paris, Eisenhower will head the U. S. delegation.

Eisenhower's main argument to congressional leaders was indicated last night in his broadcast speech on measures designed to recover for the United States the lead in missile-era weapons which the Soviets demonstrated by their successful launching of earth satellites.

"In the free world," Eisenhower said, "we all have a lot to give and a lot to gain security through the pooling of scientific effort. Why should we deny to our friends information that we are sure the Soviets already have?—information our friends could use toward our mutual security."

"Why for want of the fullest practicable sharing, should we waste American research funds and talent struggling with technological problems already mastered by our friends?"

He projected two moves bearing on Allied relationships in the scientific field. He said he would ask Congress to "remove legal barriers to the exchange of appropriate technological information with friendly countries."

If this authority is granted, he went on, he would support organization of a scientific committee within NATO "to carry out an enlarged Atlantic effort in research."

A similar group could possibly be set up within the Southeast Asia Treaty Organization and other alliances, he suggested.

He also said that Secretary of State Dulles would appoint a science adviser in the State Department and science attaches in "appropriate" U. S. embassies abroad.

The State Department has had an office of science adviser for several years. The position presently is held by Walter M. Rudolph, a career State Department official who is primarily an economist. The President's statement indicated that he expects Dulles to put a trained scientist in the job and to give him authority for dealing with the proposed new NATO committee and with the United States in all fields of science and technology. The British particularly have sought to restore the World War II partnership of Britain, the United States and Canada which by intensive joint effort produced history's first atomic bomb.

Some administration officials consider relaxation of congressional restrictions on atomic secrets to be one of the keys to the whole broad range of allied cooperation.

They are by no means certain at the moment, however, whether Congress will go along.

The issue has long been a highly controversial one. Several years ago the law was changed somewhat to let the President provide Allied military forces with information on the uses and effects of atomic weapons so that they can plan their offensive and defensive strategy. But the modified law does not permit any sharing of information on basic scientific secrets.

Uncle Ray:

Irish Scientist Found 'Whirlpool' In The Sky

By RAMON COFFMAN

The whirlpool Nebula is of spiral form. Like many other spiral nebulae this one can be seen clearly with the help of a telescope.

The Whirlpool is near the end of the handle of the Big Dipper. Its spiral form was first observed by Rosse, an Irish astronomer, in 1845. Rosse had the largest telescope of that time. It was 50 feet long and six feet in diameter.

One hundred and twelve years have passed since then and thousands of new spiral "nebulae" have been discovered.

The 200-inch telescope has brought into sight a vast number of nebulae which never were seen before.

Spiral nebulae are made up largely of stars, or distant suns. Millions of stars are clustered in the same region of the sky, and together they make an "island in the sky."

Almost all the stars which we see on a clear night are in our own galaxy. Those in the Milky Way are much "blurred together," and we cannot see many of them clearly without a telescope. Our own galaxy has hundreds of millions of stars.

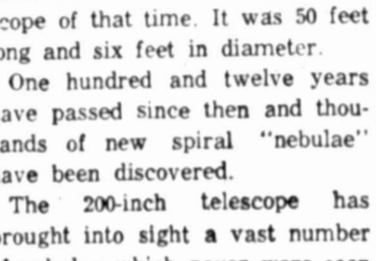

The Great Nebula in Andromeda is one of the famous nebulae and its size is hard to believe: After long and careful study, astronomers have figured the distance across it to be more than 350 quadrillion miles!

If the fastest shell ever fired from a cannon could go such a distance, the time needed would be millions of years. That nebula, however, is only a patch of brightness as we see it from the earth. Astronomers do not know its size until after its distance was learned.

What thoughts we may have when we consider the vast size of our galaxy, and of others which exist in distant space!
