Near-Capacity Crowd Hears Program Of Pamplona Choir

A near-capacity crowd was entertained in City Auditorium Wednesday evening at the presentation of the Pamplona Choir, second in the Concert Assn. series. It was a surprisingly good audience for a long-hair program.

The choir, which is on U. S. tour from Pamplona, Spain, is considered to be one of the finest small choruses in the world, and they showed it. Their voices blended perfectly, and there was never an indication of error.

Most of the numbers were of the long-hair variety in which words are not important. The music was aimed at orchestral effects of the human voice. The a capella choir was heavy on contraltos and mezzo-sopranos, which gave their music a sonorous effect. Many of the pieces were based on least partly on the madrigals of ancient Europe, a music form with which the program was opened.

The audience enjoyed "Bells" by Luis Senfl. This music described the ringing of bells sustained by the sopranos above the melody of the contraltos. Two other numbers

well received were "Supplications of the Soul," by Lopes Grassa, and "Echo," by Orlando di Lasso, the latter being a dialogue between a voice and its echo, a descendant of madrigal form.

Women Bite, Too Mailman Finds

NEW YORK (AP)—Mailmen occasionally have unfortunate experiences with dogs, but carrier Leroy Hunter says he had the "bite" put on him by a woman.

In Felony Court yesterday, Hunter charged he was bitten on the wrist by Mrs. Gloria Rohan, 21, because he refused to hand over her relief check and put it in her mailbox—in accordance with postal rules.

Mrs. Rohan's lawyer said she has false teeth and therefore it could not have been much of a bite.

Magistrate Neal P. Bottiglieri held Mrs. Rohan in \$500 bail on a charge of third-degree assault.

U. N. Turns To Arms Issue

UNITED NATIONS, N. Y. (AP)—The U. N. Assembly turned to the thorny disarmament issue today as the West sought to bring Russia back into negotiations by agreeing to add 10 nations to the Disarmament Commission.

Western delegates hoped to introduce a compromise proposal after the Assembly vote on a 24-nation resolution calling for new disarmament negotiations based on the latest Western proposals.

The resolution, which cleared the 82-nation Political Committee 57-9 last week, was certain of Assembly approval.

The compromise plan appeared headed for trouble, however. A Soviet spokesman told a reporter his delegation did not agree with the political makeup of the proposed additions. They reportedly include only one Soviet bloc member—either Poland or Czechoslovakia—and would have pro-Western Tunisia represent the Middle East.

The Russians have announced they will not negotiate on either the 12-nation commission or its five-nation subcommittee as presently organized. This would render pointless the Western call for new arms talks and cripple the

whole U. N. disarmament machinery. There were also rumblings of dissent from India, which originally proposed enlarging the commission by 10 nations. India's plan which the Russians openly favor, would add both Poland and Czechoslovakia to the commission as well as Communist Yugoslavia and pro-Soviet Egypt.

Noise Listed As Cause Of Violence

NEW YORK (AP)—A psychologist says noise contributes toward violence in both humans and animals.

Dr. Fabian Rouke, head of the psychology department at Manhattan College, has been asked to organize a research group and conduct a study of noise hazards for New York's "quiet city" campaign.

Rouke said, "It is known that high-frequency sound waves can induce forms of epileptic behavior in laboratory animals." He said the epileptic type reaction often is the underlying cause of crimes of violence.

Grandmother Denies Taking Child From Home At Gunpoint

NORTH LITTLE ROCK, Ark. (AP)—Mrs. Bertha Huddleston denied last night her granddaughter, 5, was taken from a children's home in Lincoln, Neb., at gunpoint Tuesday.

Marilyn Henry was with Mrs. Huddleston in her home here. Charges of child stealing were filed today at Lincoln against Mrs. Huddleston, the child's paternal grandmother, and James Henry, the father.

Deputy county Atty. Dale Fahrbruch of Lincoln said Henry was identified from a picture as the man who pulled a gun on employees of the children's home.

Authorities throughout the Midwest and Southwest had been alerted to pick up Mrs. Huddleston, Henry and the child. The child had been placed in Cedars Home for Children pending outcome of litigation dating back to 1954. The mother, Mrs. Herbert Martin of Lincoln, and the grandmother sought custody.

Mrs. Martin and the man she married after being divorced from Henry have lived in Lincoln about three months. Mrs. Huddleston told newsmen Lincoln authorities were mistaken

in their identification and her son had remained in North Little Rock while she went to Lincoln alone.

She said she was not aware of the charges filed against her at Lincoln.

Mrs. Huddleston said a man accompanied her to the children's home and identified him as Don Ellis of Lincoln. She said she met Ellis in the court house at Lincoln and he told her the best way to

get custody of the child was to go to the home and take her. Mrs. Huddleston said she pushed away one woman employee when the woman tried to keep her from removing the child.

Alberta Kuklich, superintendent of the home, had said Mrs. Huddleston led Marilyn to an automobile while a man held a revolver on employees.

Mrs. Huddleston was granted custody of the child about a year ago by a Little Rock judge and extradition proceedings had been filed against Mrs. Martin in Arkansas.

Hot Checker Gets 14-Year Penalty

LOS ANGELES (AP)—Charles R. Speedie, notorious nationwide phony check passer, has been sentenced to 1 to 14 years in prison.

"You probably will serve most of this sentence," Superior Judge Lewis Drucker commented. "Any time you seek parole you will find eight other states want to extradite and prosecute you."

Speedie, arrested Sept. 5 in a Cleveland suburb, was known as the "Traveler" to police across the country. He claims he passed \$300,000 in bogus checks during a 15-year career.

Headon Collision Kills 3 Persons

MONAHANS, Tex. (AP)—A headon collision yesterday killed three persons and injured a fourth.

Sam Archibald, 42, and his wife, Ethel, about 45, of Monahans and Kenneth Schrimpton, 23, of Odessa were killed.

Mack Kline, 63, of Odessa, who was riding with Schrimpton, was hospitalized here in critical condition.

First Law Of Session

Gov. Price Daniel, seated, signs into law a bill (HB47) which authorizes the state to accept title to certain lands in El Paso county known as Hueco Tanks. The measure, sponsored by Rep. Richard White of El Paso, left standing, was the first act of the special session to become law. At right standing is Sen. Frank Owen of El Paso.

No Exceptions For Birthday Of Future King

By EDDY GILMORE
LONDON (AP)—The future king of England got up in a windy dormitory at 7:15 on his 9th birthday today and went to school like any other boy.
His mother and father, Queen Elizabeth II and Prince Philip, told the headmaster at Cheam School that no exception should be made of their son.
It was Charles' first birthday away from the royal splendor of palaces and carpeted castles. He spent it at the boarding school 30 miles south of London where he was enrolled this fall.
Instead of a big shindig, he had lessons.
Rising in the half light just after a chilly dawn, Charles scrubbed himself and trotted off to chapel for prayers with the other boys.
Headmaster Peter Beck handed Charles his presents and greeting cards at the breakfast table. All week long a weighted-down country postman had been delivering them.
Then, with very little ado, Charles was hustled off to the classroom.
The boy's presents were small. His big presents, selected last summer when the royal family vacationed at Balmoral Castle in Scotland, have been packed away. Charles will receive them at Christmas.
To mark the day, Buckingham

Palace released a new photograph of Charles which was refreshingly different from many others of the past. It showed a smiling schoolboy, his left hand in his pants pocket, leaning nonchalantly against an ornate grand piano. His striped shirt sloppily tucked in at the belt.
A red tie was looped around his neck, his coat humped at the back, his hair was neatly brushed from left to right and there was a twinkle in his eyes.

Ground Fog Covers State

By The Associated Press
Some patchy ground fog was about all that was left Thursday of nearly a week of rain over Texas.
The Weather Bureau said patchy ground fog covered some large eastern and central portions of the state early Thursday with fair skies elsewhere.
Partly cloudy skies with no rain were forecast.
Freedown temperatures Thursday ran from 60 degrees at Galveston and Brownsville to 34 at Amarillo and Dalhart.
Heavy rains sloshed over the Houston-Galveston-Beaumont area late Thursday. Gentle to moderate rains covered much of the state.
A severe weather alert along and 60 miles on either side of a line from 60 miles north of Houston to Alexandria, La., expired with no violent weather reported.
Some thunderstorms hit the Houston-Galveston area in that period, however, and flooded some streets and yards in west Houston briefly.

Cops Resign In Protest To Hiring Of Policewoman

ATHENS, Tex. (AP)—All three policemen working for this East Texas city resigned yesterday in a protest over the hiring of a woman member of the force.
Mayor A. R. Cox promptly accepted the resignations and told the officers they needn't come back.
The protest by Police Chief Joe McGee and two fellow officers was directed at the employment of Jessie Sweeten, 23, whose father, Jess Sweeten, was Henderson County sheriff for 20 years.
Sweeten succeeded nearly three years ago by the present sheriff, J. W. Brownlow. When Brownlow went to the county jail to take over Jan. 1, 1955, the two men tangled in a brief fistfight.
Cox said McGee and the other officers, Frank Baker and A. L. Skinner Jr. came to his office yesterday.
"The chief . . . told me that the sheriff's department had informed him that if Miss Sweeten went to work for us they would cut us off the air and not let us use their jail," Cox said later.
Athens has no city jail and it uses the county's shortwave radio, paying the salary of a night dispatcher.
"I had the authority to accept the resignations, which I did," Cox said.
McGee gave this version: "It was just a little disagreement on hiring this woman po-

Exposes Out For Confidential

LOS ANGELES (AP)—Confidential and Whisper magazines have decided to retire from the "expose" field.
The magazines have announced in newspaper ads that they will "eliminate expose stories on the private lives of celebrities," beginning with the March, 1958, issue of Confidential, and the April, 1958, issue of Whisper.
The ads said the magazines "never felt that such stories violated any laws," but nevertheless agreed on the format change with the state attorney general and county district attorney.
"We are confident," the magazines said, "that our millions of readers will find the new format interesting and exciting."

Builders Awaiting Turn Of The Tide

NEW YORK (AP)—Home and office builders are watching closely today for the turn of the tide in the tight money mortgage market.
Some feel sure it will come next year, making 1958 the time to build. Others are just as sure that long-term financing will be as tight and expensive two or three years from now as it is today.
Those who think tight money is due to ease soon cite a fall in supply of home mortgages this year because home building is off, and also count on an expected drop next year in demand for funds for business expansion. They argue these two things will make investment funds plentiful.
The doubting Thomases say that there are fewer new mortgages today simply because money is so tight and borrowing so expensive

that fewer persons can afford to build houses. They say that any drop in demand for new financing by business will be more than offset by rising demand for funds by state, local and federal governments.
They add that big lenders—insurance companies, large banks and investment firms—don't expect to have more money to lend next year than this.
A drop in interest rates on long-term borrowing such as mortgages for home and office building is called unlikely for some time, although short-term interest rates may ease as business lets up on its demand for funds. Builders report interest charges still tend to rise, especially for commercial buildings.
At the Dallas meeting last week of the Mortgage Bankers Assn. of America there was much optimistic talk of a pickup in home building next year. But George W. Warnecke, head of his national mortgage investment and real estate firm with headquarters here, says that beneath the surface there was much pessimism as to the amount of money that will be available to finance a reversal in the home building trend.

Anti-Censor Report Due

HOUSTON (AP)—The chairman of the Sigma Delta Chi Freedom of Information Committee was to report today at the opening business session of the annual convention of the professional journalistic fraternity.
The chairman, Vernon Newton Jr., managing editor of the Tampa, Fla., Tribune, said yesterday "public opinion is the life blood of a free government, but when the bureaucrats shut off the free flow of facts to the public the public can't develop opinions."
"If the secrecy in federal government that has been permitted to develop in the last 25 years is permitted to continue to expand in the next 25, we will not only lose freedom of the press but all of the freedoms of the American people will be irreparably damaged," Newton said.
Some 350 newspaper, radio and public relations executives and writers attended the convention. J. Q. Mahaffey, editor of the Texarkana Gazette and Daily News, was to speak at a luncheon, while Harry Waddell, publisher of Petroleum Week, will speak at a dinner tomorrow night.
Sol Taishoff, national president from Washington, D.C., will make a report.
The Galveston Daily News, oldest newspaper in Texas in continuous publication, was to receive a plaque from the Historic Sites Committee of the fraternity's Texas association.
David Leavell, vice president and general manager of the 115-year-old newspaper, was to receive a plaque from Ralph Frede of the University of Houston.

Polar Explorers Home For Yule?

McMURDO SOUND, Antarctica (AP)—The Navy's "old explorers," veterans of the long dark winter in the antarctic, were told today some but not all of them might get out by Christmas.
Rear Adm. George J. Dufek, Navy commander in the antarctic, told an assembly of the men due for rotation they could leave any time their one-year assignments are up and their jobs completed, if weather and ice conditions permit planes and ships to take them out.
Nineteen veterans of the recently ended polar winter have left. More than 60 others remain.
Dr. Maurice Balkaleinik, formerly of Brussels, Belgium, and more recently on the staff of the VA Hospital at Minot, S. D., is now assigned to the local VA Hospital.
Dr. Bakaleinik, a surgeon, has been in this country about seven years. He served in the Belgian army during World War II and followed his profession in Belgium before coming to this country.

Electronic Brain To Be Forecaster

COLLEGE STATION, Tex. (AP)—One of these days they may start using an electronic brain to forecast the weather.
Progress in that direction was reported today by a Texas A&M scientist.
Considerable accuracy already has been attained in predicting fog under certain conditions, Guy Franceschini said in a paper prepared for the national meeting of the American Meteorological Society.
Franceschini, who heads the A&M Department of Oceanography and Meteorology, said successful fog forecasts have come from feeding information into a simulator, also known as an analog computer or electronic brain.
"It does a fine job where there are static conditions—where the air is still and none is blown into an area," he said. "Now we're trying to work things out where we can use it along with a system allowing for changes, such as warmer or cooler or moister air being mixed into a sort of weather cocktail."

"There appears to be good reason to hope this can be worked out soon."
Franceschini said the progress in fog forecasts follows a trend in the whole science of weather predicting toward the machine method. He attributed this trend primarily to a promise of greater speed and increased objectivity through a removal of the human element.
About 160 scientists and other experts are meeting. The three-day gathering ends tomorrow.
Dr. John Freeman of Gulf Consultants in Houston said last night lack of money is a major barrier to stepping up the rate of meteorological research.
Another A&M faculty member, Prof. E. P. Segner of the civil engineering department, said his studies indicated wind velocity in a tornado striking Dallas last April 2 must have reached 217 m.p.h.
He based the estimate on an appraisal of the forces required to inflict damage in the twister's wake.

Delegates Named For FB Meeting

Seven delegates from the Howard County chapter will be going to Dallas this weekend for the annual Texas Farm Bureau annual convention.

'Professor' Due At Hearing On Garbage Racket

WASHINGTON (AP)—C. Don (The Professor) Modica, who witnesses say tutors gangsters' sons in mathematics and the social graces, was called today to testify about New York's garbage disposal rackets.

HOSPITAL NOTES

BIG SPRING HOSPITAL. Admissions—Thelma R. Musgrove, 1409 Tucson; Robert M. Hill, 804 Lancaster; Ward Hall, 1700 Rannels; Jesse Mae Ester, 406 SW 4th; Lessie Mae Reece, 807 Ohio; Dorothy Meritha Johnson, 1603-B Lincoln; Richard Chapman, Howard House; H. W. McCannless, 1808 Johnson; V. T. Orenbaum, Box 483; Luis Renteria, 902 N. Cherry.

Official Takes Off For Baby Sitting

The office of the drivers license examiner will not be open on Friday and Saturday.

Loyalty Dinner Set At Armory

About 500 members of East Fourth Baptist Church are expected to attend a banquet tonight to be held at the National Guard Armory.

Thieves Hit Store And Motorscooter

About six or seven pairs of socks were stolen from McCrory's Store Wednesday.

Reading Consultant In Lamesa Schools

LAMESA—Evelyn Miller, reading consultant with Houghton Mifflin, Boston, Mass., will be in Lamesa today and Friday to give class demonstrations in reading.

Ford Tractors To Be Shown Friday

The most powerful tractors ever built by Ford Motor Co. will go on display Friday at Big Spring Tractor Co., 1101 Lamesa Highway, according to Lloyd Wasson, manager of the local firm.

There are 12 models of the new tractors, six in each power class. Three are special utility models; six are all-purpose four-wheel models and three are row-crop models with three optional front wheel arrangements.

Drilling Grandmothers

Five members of the Dayton Grandmothers' Club drill team parade for the photographer. Their director says her hardest job was to keep them from talking during drills, which require utmost concentration.

Dayton Grandmothers' Drill Team Happily Outstepping Father Time

DAYTON, Ohio (AP)—Twenty-eight Dayton Grandmothers aren't letting Father Time get the jump on them. They're marching right along with him and enjoying every minute.

70 Pilots To Get Jet Wings Friday

Graduation exercises for 70 jet pilot students will be held at the Webb Air Force Base Chapel at 7:30 p.m. Friday.

AT HCHCP MEET

Children were postponed due to illness of one of the delegates, Mrs. George Bass Jr. D. A. Sellers, HCHCP vice president, presided at the meeting.

Father Of Four Pleads Guilty To Giving Hot Check

James D. White, 21, the father of four children, oldest of whom is just 4 years, pleaded guilty in 11th District Court today to giving a local car dealer a worthless check for \$965 for the purchase of a second hand automobile.

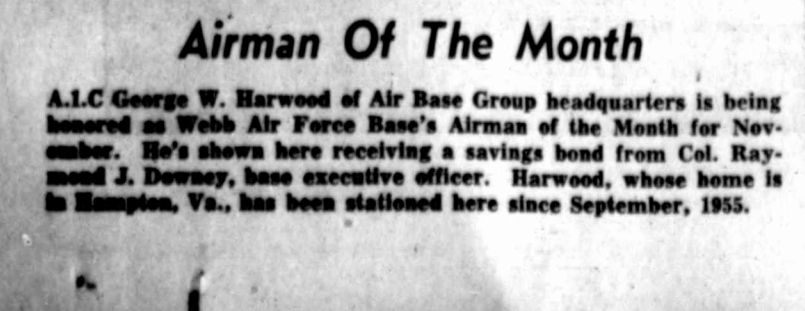

Christmas Seals Are Mailed Today In Dawson County

LAMESA—Christmas seals will begin arriving at Lamesa and Dawson County homes Friday, according to Hal Fees, general chairman of the 1957 Seal Sale of the Dawson County Tuberculosis Association.

Mrs. Hiller Dies In Priddy Today

Mrs. J. W. Hiller, 84, mother of Mrs. Albert Hohertz, 2010 Rannels, died at 1:30 a.m. today at her home in Priddy. She had been ill for a long while.

Services are pending, but rites will be said at the Zion Lutheran Church in Priddy, Mrs. Hohertz and family are in Priddy.

Administration Cool Toward Standby Law

WASHINGTON (AP)—The administration gave a cool reception today to a proposal that Congress quickly enact a standby law providing wage, price, credit and rationing controls.

Sen. Capehart (R-Ind) suggested the action yesterday at a two-day conference of 1,200 businessmen-members of the National Defense Executive Reserve.

Government officials attending the sessions indicated clearly, however, the administration would neither recommend nor request the standby power.

"Unquestionably the administration would accept standby authority if Congress voted it," one high mobilization official said, adding: "But we won't ask for it. This administration is committed to a policy of avoiding direct economic controls if possible."

He said others who commented along the same line declined to be quoted by name.

The reservists are business executives who have served in Washington and stand ready to return in event of mobilization.

Capehart told them that the perils now facing the country make it advisable to set up the legal framework for wartime economic regulation.

Leads Race

Diosdado Macapagal, a liberal, piled up an overwhelming lead in the Philippine vice presidential race. He led House Speaker Jose B. Laurel, Jr., the Nationalist nominee and member of one of the Philippines' leading political families.

Liberal Gains Lead In Votes

MANILA (AP)—Liberal Congressman Diosdado Macapagal increased his lead in the contest for Philippine vice president today. Counting of Tuesday's votes continued to show victory for President Carlos Garcia.

After a brief decline yesterday, Macapagal again was running well ahead of Jose B. Laurel Jr., Garcia's Nationalist party running mate. Returns from strong Nationalist provinces indicated widespread ballot splitting.

Latest unofficial tabulations gave Macapagal 909,065 votes to Laurel's 662,904. Other vice-presidential candidates were out of the running but the race between the two leaders was still not conceded.

These were the latest presidential returns: Garcia 856,027; Jose Yulo, Liberal, 566,156; and Manuel P. Manahan, Progressive, 422,415.

Civil War Vet Notes Birthday

HOUSTON, Tex. (AP)—The oldest living Civil War veteran, Walter Williams, celebrates his 115th birthday today listening to the country music of Texas Ruby and Curley Fox.

The entertainers will play "Dixie" and "Cotton-eyed Joe," two tunes requested by the white-haired, bed-ridden Williams.

Mrs. Willie Mae Bowles, Williams' daughter, said the veteran was looking forward to the party.

"I'll be 115 years old and that's a mighty long time to live," she quoted him as saying.

The only thing bothering Williams was the absence from home of his wife, who died Nov. 2 at the age of 84 of a heart ailment.

Williams had not been told of her death, Mrs. Bowles said, because doctors were afraid the news would have a bad effect on him.

Mrs. Bowles said "he's been fretting and worrying about her."

A three-layer birthday cake covered with 115 candles was ready for Williams.

Williams will be propped up in bed for a while during the open house, but Mrs. Bowles said he would not leave the bed or wear the Confederate uniform given him two years ago.

Williams is one of two Civil War veterans still living. The other is 111-year-old John Sailing of Siant, Va.

The old soldier was born Nov. 14, 1842 in Itawamba County, Miss. He served as a forage master during the Civil War.

Crops Need Open Weather

AUSTIN (AP)—The Department of Agriculture said a month of open weather is urgently needed to get Texas crops under cover.

Harvest crews and machinery remained idle in rain, drizzle and fog last week as rain-soaked crops were deteriorating in fields, the department said yesterday.

"Lack of open harvest weather was becoming increasingly serious," it said.

"Farmers have now been out of the fields much of the time for five consecutive weeks in many parts of the state. Late September to early November is usually the peak cotton, sorghum and peanut harvest period for a large area."

Winter grass and small grains continued to grow rapidly in cool, rainy weather over practically the entire state. Many small grain fields, however, were too soggy for grazing by stock generally classed in good to very good condition. Grass and weeds were coming up in the Trans-Pecos and South Texas as a result of showers.

In the High Plains, soil bank acreage fields were getting rank. Wet weather further delayed harvest of the High Plains' bumper sorghum crop. Logging is an increasing threat in many fields, along with the hazards of sprouting, mildew and rot.

Despite wet weather, rice growers pushed combines through soggy fields, gathering this year's high-yielding crop.

Brandos Expecting

HOLLYWOOD (AP)—Marlon Brandos' bride is expecting a baby next summer, her studio reports. "We are delighted," actress Anna Kashfi said yesterday, in confirming the report. She married the actor last Oct. 11 in Los Angeles.

Fourth Of Nation Hit By Chest Ills

CLEVELAND (AP)—At least one fourth of the nation's people have had to spend a day or more in bed since mid-summer because of severe colds, sore throat, Asian flu or similar upper respiratory ills, a report by a U. S. Public Health Service official showed today. There were 3 million so affected from mid-July to October.

Dr. William Stewart, assistant to the surgeon general of USPHS summarized the latest available data on the Asian flu situation before the 85th annual meeting of the American Public Health Assn.

As to Asian flu alone, he said: "The anticipated epidemics are now occurring in various parts of the country, particularly in the middle Atlantic and east north central states."

"Slight to moderate increases in mortality (that is, above normal seasonal rates) chiefly among older persons, have occurred in several places where epidemics are in progress."

He said that "future spread of the epidemic can be anticipated in essentially all parts of the country not now affected," and added:

"A high national incidence can

satellite of Russia, that is the way to proceed," he said.

SPENDING TO RISE

Eisenhower did not mention controls but did make clear, in his speech from Oklahoma City last night, that defense spending will increase. New programs, he said, "will involve substantial cost."

This must be added to present spending for defense, which cannot be cut substantially, he said. "For that reason," he added, "the first thing is to search for other places to cut expenditures."

Eisenhower addresses the civilian reservists this afternoon. Vice President Nixon, Secretary of Defense State Dulles, Secretary of Defense McElroy and Secretary of Commerce Weeks spoke in yesterday's daylong sessions.

Nixon reassured the reservists that, despite Soviet technological advances, "the United States and its allies are strong enough to meet and defeat any enemy on any field in the world."

He said the major Communist threat is not "overt aggression" but the Soviet cold war tactics of political and economic maneuver, propaganda and subversion.

This country's chief reliance in countering the many-sided Russian offensive, he said, is an adequate mutual assistance program including economic aid which enables free countries to defend themselves and maintain their independence.

NATO Studies Plan For Air Platforms As Missile Bases

PARIS (AP)—NATO's aeronautical research director said today the North Atlantic Treaty Organization is studying plans to build aerial platforms for the launching of nuclear missiles.

These, Dr. Theodore von Karman told a news conference, would be in addition to the submarine nuclear platforms whose production U. S. Sen. Jackson (D-Wash) urged yesterday.

Jackson told the newsmen today the United States is going ahead with development of a nuclear-powered intercontinental ballistic missile. He said it would be a one-stage rocket and more efficient than chemically propelled missiles after 2,000 miles.

Von Karman, former chief scientific adviser to the U. S. Air Force and now director of NATO's aeronautical research and development program, said plans for aerial launching platforms are still only preliminary. He said the underwater ones — using atomic submarines — are not envisaged before 1960.

Marine Acquitted, Another Convicted In Beating Trials

YOKOSUKA, Japan (AP)—One U. S. Marine was acquitted and another acquitted today as the Navy began trials of 16 Leathernecks accused of brutality to brig prisoners at Sasebo naval base.

Cpl. Glenn W. Fredericks, 21, Fleetmate, Alaska, was sentenced to 14 days at hard labor and reduced to private rank for punching a sailor while Fredericks was on guard duty in the Navy brig at the south Japan Navy base.

The conviction and sentence are subject to review.

A similar charge against Cpl. Dayton W. Dierksen, 21, St. Lawrence, S. D., was dropped when the complainant, fireman Carlos E. Vota, 18, Amarillo, Tex., told the court he could not remember being hit by the Marine. Dierksen is due for discharge from the Marines Friday.

Sgt. Bobby Phillips, 22, of Tyler, Tex., also was to be tried in a summary court today.

President Eisenhower, accompanied by Col. William Draper, walks to his plane at Washington's national airport for a flight to Oklahoma City where he delivered a nationwide radio and television speech. Draper is the chief executive's air force aide and pilot.

Little Pig On A Sled, Still Not Dead; Can We Bear It?

By STEVE LOWELL
ALAMOGORDO, N. M. — There's a silly little jingle that goes like this:
"Last night I saw upon the stair.
"A little man who wasn't there.
"He wasn't there again today.
"My gosh, I wish he'd go away!"
And so to the story of the four bears and the little pig.
Part of the public set up a loud howl when it learned the Russians had sent a dog up in Sputnik II. It's understandable. In our country we grow up with the idea "a man's best friend is his dog."
Some of the more indignant latched onto this thought.
"That's just like the Russians. They have no conception of individual freedom and now they show

they have no heart.
Then came a shocking revelation.
About two weeks ago it was learned a New York game farm was sending four bears to the Air Force Missile Development Center at Alamogordo. For use in experiments!
There was another loud howl from the public. "You can't mistreat those poor bears! It's inhuman!"
Air Force information men reassured Mr. and Mrs. America that the bears were not going to be sent up in artificial satellites. It was explained they have a bone structure much like man's. So they were going to be used in other experiments.
There are human volunteers galore, the Air Force says, who are willing to go through such tests for the eventual benefit of man. Col. John P. Stapp, chief of the aero-medical laboratory at the missile center, is one. He rode a rocket sled 632 miles an hour a few years ago and slammed to a violent stop — for the sake of science.
But scientists believe it's easier on man to use animals in such experiments and estimate from the results what would happen to a man in a like case.
There are the high-flying monkeys, mice and guinea pigs at the missile center which have been riding rockets into the blue for a number of years and helping man

get ready for that big step.
But awful news came. There was a report a pig had died in a demonstration. The story was that it had been fastened in a catapult-like sled and sent down a track to a violent stop such as a human might undergo in a head-on auto collision. It was to show auto makers how safety devices can save lives in accidents.
"Do you have to write anything about it?" was the anguished cry from the Air Force.
"Well, an animal died, didn't it?"
"That's what I understand," came the answer. "But do you really have to say anything about it?"
"We'd be missing an interesting point if we ignored the fact. So out went the story. And an anxious young lieutenant chased after Col. Stapp to find out what to tell the easily offended public.
Col. Stapp came back with the assurance most of the risk was still being taken by men, although there was a bear in the act.
The public could relax again. There was no dead pig.
Which leads to another jingle:
"Last night I saw upon a sled,
"A little pig that wasn't dead.
"He wasn't dead again today.
"My gosh, I wish that he'd drop."
You finish it. I don't want to get in trouble with the public any more than the Air Force does!

Poem, Orchid Halt Divorce

CHICAGO (AP)—A poem and an orchid brought Taras Tokarewyc a trial reconciliation yesterday with his wife Mary, who had sued him for a divorce on charges of cruelty.
The poem and orchid also ended a court order which forbade them to talk to each other or cook or eat together—although they were permitted to share their three-room honeymoon apartment. It was issued last week by Judge Elmer Holmgren after Mrs. Tokarewyc, 44, demanded that her 30-year old husband, whom she married in July, be evicted.
Tokarewyc, a machine operator, protested and the injunction was to be effective while her divorce suit was pending.
Mary and Taras were back in court yesterday and asked that their segregation be ended. Lawyers for both sides said that Mary had pinned on an orchid which Taras bought for her and the pair had reconciled when he wrote the poem to her.
Judge Holmgren lifted the injunction and said he would be glad to dismiss the divorce suit. Mary's lawyer indicated that formality will be taken care of soon.

It Sobered Some Customers

PHILADELPHIA (AP)—A young man strode into a west Philadelphia taproom the other night, called for a stiff drink, gulped it, then made for a public telephone at the far end of the bar.
He was on the phone two hours, bartender William Alexander said, pleading with a girl not to break off their romance.
Customers caught snatches of desperate entreaty—"Let's try to patch things up, please. . . . You've got to take me back. . . . I'll kill myself if you don't. . . . He signaled for another drink, but did not stop talking, threatening. Shortly before midnight the caller slammed down the receiver and went out a side door into the street.
A few minutes later, police said, a motorist saw him throw himself under a tractor-trailer. He was killed.
Detective John Keenan said the man was 27-year-old Benjamin F. Major.

Crowd Angry At Missing Speech

OKLAHOMA CITY (AP)—About 4,000 were turned away from Municipal Auditorium as President Eisenhower spoke last night and some were loudly unhappy about it.
A local public relations firm hired to handle arrangements announced seating would be on a first-come, first-served basis outside of a few hundred places reserved for the working press.
When the doors were opened last night, only the top deck of the auditorium—holding 500 persons—was filled on that basis. The rest of the seats were reserved.
Stan Pate, head of the public relations firm, said the committee in charge of arrangements directed him to hand out some 1,786 tickets to members of the working press, the nonworking press, the sponsoring Frontiers of Science and the State Semicentennial Commission.
Stanley Draper, Chamber of Commerce managing director, said Secret Service agents told him to distribute 700 tickets to the Republican party, 200 to Gov. Raymond Gary, 200 to the secret Service, and 250 to college entertainers who appeared early in the program.
A Secret Service spokesman denied his organization had anything to do with ticket distribution.

News Dealers Beat Charges

HOUSTON (AP)—Charges of selling obscene literature were dismissed yesterday after the defense quoted the Supreme Court, presented a psychologist, a novelist, a book store owner and read passages from the best-selling novel "Peyton Place."
Defense attorney Seymour Lieberman quoted a recent Supreme Court ruling saying "sex and obscenity are not synonymous." Each defense witness said the material in question, the magazine called "Adam," was not obscene.
Three newsstand owners, Charles Epstein, Sam Wiederman and James Malone, were charged in August after police seized 800 copies of the magazine.
Lieberman, who brought an armload of reading material which included the Kinsey Report and Ladies Home Journal, at one time read a passage from "Peyton Place."
"I think that's far enough," Judge Sam Wiesenthal snapped.
Dr. Bertram Weiss, a clinical psychologist, testified "People want to think about sex, talk about sex and philosophize about sex."
Wiesenthal dismissed the charges on grounds the complaints were faulty.

Scientific Earth R
DALLAS (AP) the International and Geophysical Investigation finally more than investigate Dr. John chief at Can Toronto, special meeting of the Geophysical Man-made 1 nal something than the beg travel era. He said th

Scientist Urges Earth Research

DALLAS (AP)—The president of the International Union of Geodesy and Geophysics said yesterday "investigation of the earth is infinitely more important to us than investigation of space."
Dr. John Wilson, geophysics chief at Canada's University of Toronto, spoke at the annual meeting of the Society of Exploration Geophysicists.
"Man-made moons, he said, signal something more important than the beginning of the space travel era."
He said the International Geo-

physical Year is an all-out study of the sun's radiation reaching the earth and its atmosphere.
"That's important because our lives depend on that radiation. It provides us with heat and light. It causes the ocean currents. It includes the cosmic waves. It may cause changes in the earth's magnetic field," Wilson said.
As an example of the problems studied, he said man burns much more fuel than ever before. So there is much more carbon dioxide put into the atmosphere, he said. Wilson said the carbon dioxide may form a thick blanket which will cut down the sun's energy reaching the earth.
Wilson said this would change climates, vegetation and ways of life.

Judge Must Be Married, Too

HALESOWEN, England (AP)—Albert A. Pastore told a judge yesterday he fled from the scene of an accident involving his car because he had just spotted his wife on the street and he had another woman with him.
"Nobody knows my wife quite like I do," Pastore declared in court. "My instinct was to put distance between the two women. I realized if my wife reached us, she would cause a scene."
The court dismissed a charge of failing to stop after an accident and let Pastore off with a fine of 2 pounds—\$5.00—for careless driving.

Cotton Staple Averages Inch

LUBBOCK — Despite adverse weather conditions on the High Plains this fall, statistics on cotton classing data from the U. S. Department of Agriculture's classing office show the average staple length this year is one inch. The average micronaire is 4.3 and the average Pressley strength is 75,000 pounds per square inch.
This is the first time statistics on micronaire and Pressley data have been available, George W. Pfeiffenberger, executive vice-

president of the Plains Cotton Growers announced. Pfeiffenberger said arrangements were made with the USDA to publish the micronaire and Pressley data in addition to grade and staple statistics.
As of Nov. 2, cumulative figures from 220,000 bales classed at the Lubbock and Lamesa classing offices show that in grade 64.1 per cent of the cotton is white and 35.9 is light spotted and spotted. W. E. Franklin, head of the Lubbock office, reported that the vast majority of the 35.9 per cent cotton classed as spotted actually is light spotted cotton.
In staple 71.8 per cent is one inch or longer and only 1.6 per cent is shorter than 15-16.

Flier Must Choose Career Or His Brother's Life

OKLAHOMA CITY (AP)—An Air Force lieutenant is awaiting an appeal to the Air Force to see if he must resign his commission if he gives a kidney to his seriously ill twin brother.
The flier is Sam Merriman, now of Hondo, Tex., Air Force Base. The brother is Billy Merriman, a veteran suffering from a kidney disease.
Doctors hope a healthy kidney from Sam will help Billy.
In Washington, the Air Force

said the flier has been given permission to have the operation but if he loses a kidney he also loses his flying status. He is an Oklahoma National Guard officer on temporary, one-year flying duty.
The Air Force said if he lost qualifications as an aviator he would be dropped from flying service but could seek a non-flying billet with the Guard if one is open.

Fred Waring Sets Lubbock Concert

Fred Waring has been booked with his Pennsylvanians for an appearance in the Lubbock Auditorium on Nov. 23. He has a new show, "Hi-Fi Holiday," which features newest hits of Broadway, Hollywood and Tin Pan Alley.
There is included a wide variety of all types of music, among them melodies whose special qualities have made them enduring "classics." Only an evening show is contemplated, according to Civic Lubbock, Inc., the sponsor.

ZALE'S Pre - Christmas Savings

FRIDAY, SATURDAY AND MONDAY

If you are interested in a real savings, check every item listed in this ad: SAVINGS UP TO 50% AND MORE.

Not in years has Big Spring witnessed such drastic reductions on Diamonds, Sterling Silver, Watches, Appliances, and Dinnerware.

We have from our diamond department a 3-Carat diamond set in a platinum mounting with tapered baguettes, \$2,950. A 1½-Carat diamond set in either ladies' or men's mounting, Reg. \$1,595. How Big Is A Dream?

Tom Barton, 29, shown in his wheelchair, can tell you it's a big disappointment for an ex-football player to swallow when he finds he's paralyzed for life. Tom became paralyzed after a swimming accident in 1945. He is shown holding his specially rigged shotgun he uses to hunt with from the wheelchair.

Bid To Adlai Seen As Debate Limiter

WASHINGTON (AP)—The Eisenhower administration evidently hopes to limit partisan debate on some major foreign issues by bringing Adlai Stevenson into preparation of plans for next month's NATO summit conference in Paris.

The Democratic leader has accepted a bid from the Republican administration to come here next Monday and confer with Secretary of State Dulles. The State Department presumably hopes to have tentative proposals for the NATO meeting worked out by that time.

The invitation to Stevenson and his acceptance were the latest moves in a cautious political and policy negotiation designed to revive bipartisanship in foreign affairs in the face of Russia's gains in military power.

How well the effort will succeed in forestalling sharp party controversy when Congress returns in January depends mainly on two critical factors:

1. The extent to which President Eisenhower and Dulles consult with Stevenson in detail and accept his ideas in shaping their program.

2. The degree of support Stevenson can muster among Democratic leaders in Congress for any plans to which he may decide to commit himself.

Results of the Monday meeting—which could also lead to a talk between Stevenson and Eisenhower—may show clearly how much bipartisan cooperation is to be expected.

Stevenson himself has clearly reserved his right to criticize any proposals with which he disagrees.

While the issues have not yet

all been publicly stated by Eisenhower or Dulles, their known approach to the NATO summit meeting in mid-December makes it clear that they have in mind some radical propositions.

Eisenhower has already declared he would seek changes in the law to permit sharing atomic secrets with Allied nations. The administration is also expected to ask for an increase in funds available, either as loans or grants, for aid to foreign countries.

The President is planning to advise the North Atlantic Allies that he is prepared to stockpile nuclear weapons in Europe for their use in event of war with Russia.

Those are among the proposals which Dulles is expected to talk over with Stevenson.

Procrastinators Crown 1956 Queen

PHILADELPHIA (AP)—The Procrastinators Club of America, dedicated to doing-it-later, has finally got around to crowning its 1956 queen.

She's 17-year-old Beth Swinand, who, like the other club members, believes it's better to do tomorrow what you might have done today.

Lester Waas, 37-year-old head of the club, says procrastination is relaxing, healthful and leads to success in life.

The club is planning a Christmas party — for April or thereabouts. Members postponed a decision on the exact date.

Queen Elizabeth I in latter part of her life.

A. Before her death in 1603, the good "Queen Bess" probably would have rewarded anyone with great wealth who could produce just a few conveniences modern housewives take for granted.

At the very least, a dukedom would have been given to the imaginative inventor capable of illuminating the first Elizabeth's dimly lit palace with the glow of electricity. What Queen Bess would have paid for an automatic washing machine is anyone's guess.

Q. Would it be correct to suppose the Elizabeth I lived in a "backward" era?

A. Although Queen Bess lacked material comforts, the years in which she lived were rich in things of immeasurable value. The Elizabethan Era produced many of the world's greatest writers and

French Protest Tunisian Arms

PARIS (AP)—Foreign Minister Christian Pineau said today the French government will consider any American or British delivery of arms to Tunisia contrary to Atlantic solidarity.

Pineau told the National Assembly's Foreign Affairs Committee that Britain and the United States "are about to effect delivery of arms to Tunisia."

He said France "regretted this Anglo-American initiative."

Pineau announced the Cabinet's opposition to arms for France's former protectorate after an all-night series of meetings and exchanges between Premier Felix Gaillard and British and American envoys.

U. S. Ambassador Amory Houghton delivered a note to Gaillard yesterday stating the United States wants to go ahead with arms deliveries to Tunisia. By doing so, the Americans hope to stave off Tunisian acceptance of Soviet-bloc arms offered by Egypt.

The U. S. note aroused speculation that Premier Habib Bourguiba of Tunisia has received new offers from Egypt or Communist-bloc countries.

The French are reluctant to see any arms flow into Tunisia for fear they will funnel on to the Algerian rebels.

After delivery of the American note, Gaillard called off a scheduled speech and hurriedly convened his Cabinet. Later he conferred with Houghton and the British charge d'affaires, Sir George Young.

The American Embassy called the meeting "a very small affair... a family squabble." There were indications the United States might be willing to delay the arms deliveries, but the British were reported demanding quick supplies for Bourguiba, thus far a staunch friend of the West.

Moscow Claims Ike Urged Arms

LONDON (AP)—Moscow radio said today President Eisenhower called for a stepped-up American armaments program in his Oklahoma City speech.

The broadcast gave the Russian people the gist of Eisenhower's talk last night. It said the President conceded that the Soviet Union "now has many more scientists and engineers than the U.S.A., and trains them at a faster pace" and added:

"However, from this fact President Eisenhower drew the conclusion that the U.S.A. must make every effort to strengthen its armed forces. It is essential to be constantly ahead of the Communists in military power, he said."

The broadcast claimed some American papers described the President's proposals as a "guns before butter" program.

'Long Tom' Stays Around Old Haunts

WASHINGTON (AP)—Listed on Page 260 of Washington's 1,500-page telephone directory is the name "Connally Tom Hon 3205 Woodland Dr."

Only the "Hon" for honorable—a designation given all members and former members of Congress in the directory—indicates this is not just another average citizen of this voteless metropolis.

Former Texas Sen. Tom Connally took his seat in the House March 4, 1917. He served in that body, from the Central Texas 11th District, until March 3, 1929, then moved to the Senate. He stepped out voluntarily Jan. 3, 1953.

Still regal looking carrying his 6-foot-plus figure erectly, the silver-haired 80-year-old Texan now lives here in retirement with

his gracious wife. She was the widow of the late Texas Sen. Morris Sheppard when they were married in the early 1940s. Connally had been a widower for several years.

Seen about town only occasionally, usually at some gathering of Texans, Connally seemed pleased when asked for an interview.

"I'm just taking life easy," he said. "I keep up with my reading, and there's still a lot of mail to be attended to."

It seems that a lot of Texans still think he's their senator. "The other day I got a letter from a man wanting me to help get his son transferred to some new assignment in the Army," Connally recalled. "Instances like that I refer the correspondents to

Ban On Trick Ad Asked By Board

BEVERLY HILLS, Calif. (AP)—The National Assn. of Radio & Television Broadcasters code review board for TV asked stations yesterday not to use a method that flashes commercials to the viewers' subconscious.

The idea has created quite a furore. Don Martin, assistant to the president of NARTB, said that by this method a message is flashed at 1-3000th of a second, and repeated every five seconds during the showing of a movie. He said the viewer does not even see the message, or at least is not conscious of seeing it, but it does reach his brain.

The board held that "any proposal to use... subliminal perception" be referred to the board immediately for further review and consideration.

SEATTLE (AP)—The Boeing Airplane Co. and the Air Force announced jointly today the B52E, a new model of the eJt glo 1 bomber, has gone into service with the Strategic Air Command.

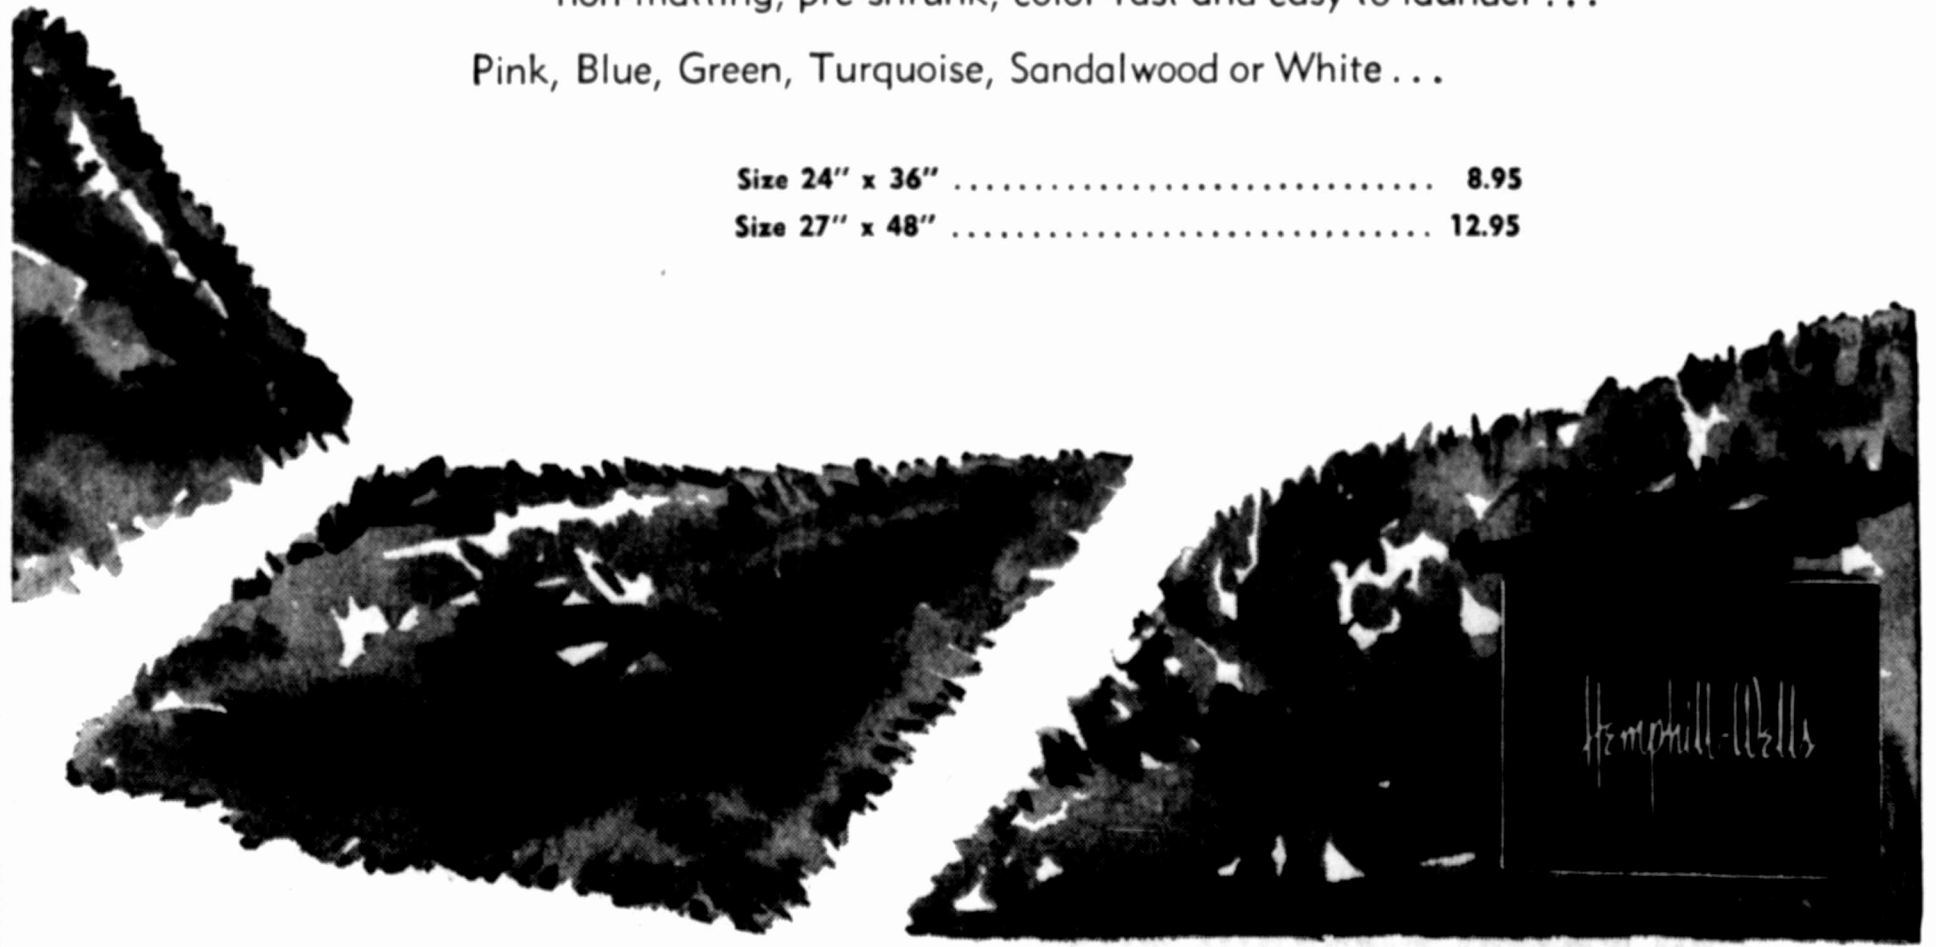

The improved model is the fifth since Boeing began production of the 200-ton B52s. Major advances in the B52E are increased navigational accuracy, more reliable electronics systems, greater crew comfort and relocation of some equipment.

External appearance, speed, range and altitude remain unchanged from earlier models. The B52S can fly more than 6,000 miles without refueling at speeds up to 630 miles an hour and altitudes of more than 50,000 feet.

BIRDS

T
P

Turkey and ably grace m Thanksgiving. The big bird they are cheap. Lee Burkel dealer, says biggest turkey, which cost meat for Last year t about 27 cent.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, THURSDAY, NOVEMBER 14, 1957 SEC. B

Talking Over Old Times

John L. Lewis, head of the United Mine Workers, has some pointed remarks as he and former President Harry Truman get together with old friends at a luncheon in Washington, D. C. Left to right: Oscar Chapman, secretary of the Interior under Truman; Truman; former Sen. Tom Connally of Texas, and Lewis.

BIRDS PLENTIFUL

Thanksgiving Turkey Prices To Be Lower

Turkey and dressing will probably grace more dinner tables at Thanksgiving than ever before. The big birds are plentiful and they are cheap.

Lee Burkelow, local produce dealer, says this was one of the biggest turkey crops in recent years, which means plenty of low cost meat for the holidays.

Last year turkey hens sold for about 27 cents per pound on foot,

while the toms brought 22 or 23 cents. This year both should be cheaper, but it's still too early to know the exact price.

"From the big surplus of turkeys, I look for them to be down four or five cents a pound," said Burkelow.

Local butchers also think the Thanksgiving birds will be within reach of everyone. Eldon Cook, market manager of a large gro-

cery store, says dressed turkeys will likely be sold for 40 cents a pound or less.

"Whatever it is, the store won't make any profit," he said. "It's been customary to sell turkeys at cost, and if we don't do it, our competitors will."

He didn't say why the stores sell them so cheaply. Maybe they make their profit from cranberry sauce and pumpkin pie mixtures.

Traffic Violations Become Cause Of Most City Fines

Fines for moving traffic violations contributed the largest portion of funds in corporation court last month, according to the monthly report from the police department.

A total of 272 fines were assessed in the court for moving violations—speeding, failure to grant right-of-way, etc.—and the total assessed was \$2,336. The nearest total was \$1,756 assessed 85 persons on drunkenness charges.

Twenty persons were fined for driving without a valid license, and their fines totaled \$335. Twenty-seven vagrancy charges brought \$235 in fines. Four persons were fined \$149 on indecent exposure charges.

Bedroom Dangers

SAN FRANCISCO (AP)—The bedroom, not the bathroom, is the most dangerous room in the house, a National Safety Council survey of accidental deaths in San Francisco shows. The survey also showed falls are the most frequent cause of death in the city.

For all types of offenses, police officers issued 1,137 tickets. This included overtime parking. During September, the department issued 1,415 tickets.

Overtime parkers paid \$435 in fines during October, as compared with \$453 during September. Cash receipts for the month amounted to \$3,775.50 compared with \$5,446 for September, and during the past month, prisoners laid out \$1,599.

N. Ward Addition Nears Completion

The six-classroom addition to North Ward Elementary School should be completed this month, Bill French, engineer for the project, has informed school officials.

The job was scheduled for completion this week, but rainy weather and other providential hindrances have caused slight delays, French said. The classrooms will be put in service as quickly as they are available, school authorities said.

\$610,000 In 'New Money' Is Seen As Need Of City Schools

School expansion needs that would require an estimated \$610,000 in "new money" have been outlined for school trustees by Supt. Floyd Parsons.

The superintendent stressed that all of the expansion was conceived as an "ideal program," with no thought that it can be realized immediately.

"It is a goal toward which we should point and begin to make some plans," he said.

Admitting much of the program can't be undertaken at once, Parsons said there are several projects in the "needed soon" category. These include a 15 or 20 classroom addition to the high school, remodeling of Big Spring Junior High (for which \$60,000 was allocated Tuesday), a six-classroom addition to Kate Morrison Elementary School.

Other projects, not as urgently needed, but which should be in the long-range planning stage at present, are a 12-classroom building adjacent to the Webb AFB housing site, all-purpose rooms (cafeterias) at elementary schools

which don't now have them, a central administration building, site purchase east of Washington Elementary School, dressing room facilities for the athletic plant, and sidewalks, curbs and paving at several schools.

Parsons said funds are available for the high school enlargement, for the Junior high remodeling, and for athletic dressing rooms. He said government assistance would be contemplated for any

No Hot War

VIENNA (AP)—Nuclear pioneer Otto Hahn said last night that both the United States and Russia possess enough atomic and hydrogen bombs to destroy "entire mankind." But the noted German scientist and Nobel Prize winner told a lecture audience both major powers are "perfectly aware" of the consequences of using nuclear weapons "and they will therefore refrain from starting a 'hot' war."

new school to serve the Webb housing district.

Needed for the other projects, he estimated, is \$90,000 for the Park Hill addition, \$50,000 for the Kate Morrison addition, \$250,000 for all-purpose rooms at East, West and North Ward, Kate Morrison and Lakeview, \$150,000 for the administration building, \$20,000 for purchase of a site in the east part of town, and \$50,000 for the paving, sidewalks and curbing.

In presenting the outline, Parsons told trustees "it seems advisable to constantly re-survey our building needs in order that we may be current in our thinking."

He said that, ideally, the projects he enumerated "should be in plan" at the present.

A Bible Thought For Today

How shall we escape, if we neglect so great salvation; which at the first began to be spoken by the Lord, and was confirmed unto us by them that heard Him. (Hebrews 2:3)

We Can Be Trusted With Facts

We Americans don't often think of ourselves as a mercenary people. That is a tag often hung on Frenchmen, whereas the French are among the world's most practical, down-to-earth nationalities.

1940s that we were entering a long period of world unrest and uncertainty, of accelerated science and invention. We know who our enemy is. We know he couples an ability to solve scientific problems with a ruthlessness and determination that brook no consideration of morality or principle.

Putting It On One Line

A lot of people breathed easier when the Internal Revenue Service finally got round to clarifying a ruling it had made earlier involving expense account items.

out, and IRS never bothered with it before. Large firms and individuals with heavy expense accounts keep records as a matter of course.

***america's number one
action medium . . .
 the daily newspaper**

1. Every weekday an average of 57,000,000 copies of newspapers are sold in the U. S. — more than packs of cigarettes, quarts of milk, or loaves of bread.

2. People in the U. S. spend for their newspapers \$3,-120,000 a day, \$25,851,000 a week, \$1,344,236,000 a year.

3. According to a Market Research Corp. of America study, on a typical day 88 per cent of America's homes receive one or more daily newspapers.

4. There is no "summer replacement" for newspapers. Monthly variations in circulation show virtually no change in newspaper circulation from season to season.

5. People like to read newspaper advertising. According to the Continuing Study of Newspaper Reading, men rank advertising third (just ahead of sports news); women rank advertising first.

6. The Continuing Study of Newspaper Reading also reveals that the average newspaper page, with both news and advertising on it, enjoys a median readership of 64 per cent by men and 73 per cent by women.

7. More than one-third of all ad money spent is invest-

ed in newspapers. In 1956 newspapers got \$3,305,000,-000 — more than was received by radio, TV, magazines and outdoor combined — according to McCann-Erickson, Inc. Preliminary Estimate.

8. TV in the homes does not affect newspaper readership. Cunningham & Walsh's continuing study of "Videotown" reveals that newspapers alone of all major media remain unaffected by TV's arrival in the home.

9. Since 1940 newspapers have maintained a constant level of popularity. Newspaper circulation has virtually paralleled growth in U. S. households.

10. Newspapers are keeping modern. Over \$700,000,-000 has been invested by newspapers in recent years to improve plants, equipment and product.

11. One of the most exciting innovations is color. As of February, 1957, 819 newspapers offered advertisers Color. The combined circulation of these papers exceeds 41,000,000.

12. The daily newspaper is the Number 1 Advertising Medium in America from every standpoint. It leads in revenue. It leads in audience. It leads in results!

Newly pulled cotton started coming to the gins late yesterday afternoon. Some of the first bales were mixed with remnants of bales pulled last Saturday.

Ginners are expecting to operate around the clock if the weather will stay dry for a few days. Several farmers have stated that all cotton will be harvested mechanically within the next five years.

The feed crop is still hanging by some thin, brittle stalks. Some of it is beginning to fall down, and a lot more will hit the dirt if we get a strong wind.

Ray Winans, local grain dealer, says it will take several days for the grain to dry out enough to meet the government specifications of 13 per cent moisture.

Winans says the damp mornings are worse than a shower would be, because the grain has several hours to soak up moisture.

Farmers won't get much for the grain, anyway, but if they sell for cash they will lose an additional 24 cents per hundredweight.

Another problem of getting the grain harvested is that of combines. Winans said there might be some brought in, but right now there are not enough combines to get the grain out in less than two or three weeks.

A lot of braceros get homesick after they've made some money and the weather turns cold.

His association has brought in two bus loads of 40 each within the last week or so. After boll pulling reaches a peak another 160 may be imported.

One hazard in using braceros is that the farmer may be tapped for \$15 subsistence pay for each day the bracero is not working.

The bracero gets \$1.15 for each day or part of a day he doesn't work. For instance, if he gets in 38 hours during the two-week period, this is subtracted from 64, to leave 26 hours.

Buchanan said some farmers might be required to pay out some money, but it shouldn't be too expensive for most of them—especially those who found other work to be done.

He bought a mechanical cotton picker for \$6,400, and says it would pay for itself in a month of steady running. He handles Mexican Nationals, but says labor costs are mounting so much that mechanical harvesting is the farmer's only salvation.

He said several cotton pickers are operating in the Lovington area. They tag the cotton quite a bit when it is wet, but with dry cotton do about as good a job as most human pickers.

Someday a lucky treasure hunter may find a small fortune in the sandhills just south of Cisco.

One story concerns a Union payroll during Reconstruction days. Texas was under military control, and a large number of troops were stationed in Austin.

They had been harassed by renegade whites and Indians until they finally buried the gold and turned to give battle.

Only two or three soldiers escaped, but they finally reached Austin where the story was related to the authorities. Troops were sent back for the gold, but it was not found.

"I don't believe anyone ever found a single piece of it," said Bacon. "But other relics have been unearthed to give the story some credence."

The story reaches back much further into history—back to the time when Texas was still a part of Mexico. A wagon train carrying much gold was sent from Santa Fe to Nacogdoches, Texas.

He thinks there may be a fortune, or maybe two fortunes, hidden somewhere on his grandfather's old farm.

He thought it was an authentic copy, but neither he nor anyone else has found the money.

Bacon says many treasure hunters have swarmed over the place, and even now someone occasionally tries his hand at finding the golden cache.

Among many people, there is a refusal to admit that the United States is really behind the Russians in outer space.

"I think we're catching up with them but we're just not letting it out," said Mrs. August Miller, pretty brunette waitress at the Hotel Foeste.

After all, this is the United States. We haven't been licked yet. Sure, the Russians are smart.

This same idea—that America is close to or even ahead of the Soviets in guided missile development but won't say so for security reasons—was expressed, also, by a lawyer, electrician and banker.

The two most worried people encountered by this reporter were David Fenske and John Kroos, both 14 and freshmen at Central High.

While concerned, John was certain America would catch up. "Russia puts out a lot more engineers and scientists than we do but we got the smarter ones."

Americans Refuse To Believe U. S. Behind

Editor's Note — How does the average American feel about having a couple of Russian moons in space? Worried? Confident that we will do as well, or better? Top AP reporters took samplings in two average cities. Here's what they found.

By SAUL PETT SHEBOYGAN, Wis., Nov. 14 — The people in this industrial community of 45,000—"The worst city in the world," as sausage fans know it—read about, talk about, wonder about Soviet satellite, but there is little sign of deep concern.

Mention Sputnik in Sheboyan and the first reaction is a broad grin and frequently a joke. "Among many people, there is a refusal to admit that the United States is really behind the Russians in outer space, or, if it is, that it will stay behind long."

"I think we're catching up with them but we're just not letting it out," said Mrs. August Miller, pretty brunette waitress at the Hotel Foeste.

After all, this is the United States. We haven't been licked yet. Sure, the Russians are smart.

This same idea—that America is close to or even ahead of the Soviets in guided missile development but won't say so for security reasons—was expressed, also, by a lawyer, electrician and banker.

The two most worried people encountered by this reporter were David Fenske and John Kroos, both 14 and freshmen at Central High.

While concerned, John was certain America would catch up. "Russia puts out a lot more engineers and scientists than we do but we got the smarter ones."

"I don't think we've really been told how far we've progressed in missiles," said W. F. Schlundt, vice president of the Security National Bank.

Press about Sputnik. Only a few phone calls, said Harold R. Maier, managing editor. One caller said he hadn't seen Sputnik but did hear some dogs barking.

"I'm not too disturbed," said the Rev. T. Parry Jones of the First Methodist Church. "One thing it's done, it's turned some people's eyes up to the sky for the first time since their courting days."

By RELMAN MORIN GATLINBURG, Tenn. — A full moon hung in the sky like a big silver ball over the Great Smoky Mountains the other night. The driver switched off the lights of the bus for a moment and drove easily in the white brilliance.

"Biggest moon I ever saw," he said. "You suppose it's ours?" The passengers in the bus laughed. A man said: "I'll bet ours will be twice that big when we get it going."

When the average man in the South speaks about the Russian satellites at all today — and you don't hear much talk of them — he is more likely to joke than to express anxiety or outright fear.

Sputnik has stirred curiosity certainly, some awe over the thought of man-made objects whirling in space but no great alarm.

For one thing, the military implications apparently are by no means widely understood. At a cigar counter in Gainesville, Ga., a few days ago, a man was saying: "They've got a gadget whizzing around out there somewhere. So what? Are they going to bomb us tomorrow? I don't see the connection."

DOESN'T BELIEVE IT In Chattanooga, Tenn., a farmer said: "I just don't believe in that stuff. Sounds to me like more Russian propaganda."

A local situation frequently colors the attitude of the people. For instance, in the whole region around the national laboratory at Oak Ridge, Tenn., one of the centers of atomic research, the man on the street plainly reflects the attitude of scientists and technicians working nearby.

opinion, American scientists have not been given the unhindered opportunity to develop research projects.

In a curious way, the fact the Russians put a dog inside Sputnik II seems to have impressed people in this region more than the fact that they succeeded in getting the bigger satellite into its orbit.

"Think of that poor dog," said a Gatlinburg housewife. "That's a cruel thing to do." Sputnik may have contributed to a decline in President Eisenhower's popularity in the South today.

Rep. Moss (D-Calif.), chairman of the House Government Information subcommittee, hailed the decision today as "recognition of the people's right to know the facts of federal government."

Moss said the General Services Administration has issued a new order removing existing restrictions on photographic access to corridors and other building areas ordinarily open to the public.

The new policy does not alter present regulations governing federal court and grand jury rooms, which are subject to court orders, or to offices occupied by government agencies.

The order stems directly from protests arising from an incident at Jackson, Miss., June 13 when a deputy United States marshal confiscated the camera of a Jackson Daily News photographer.

Asst. U.S. Attorney Jack McMill ordered photographer W. C. Shoemaker's camera seized because Shoemaker did not get permission of the federal building custodian before taking pictures in a corridor outside the grand jury room.

Wind Up Campaign Friday Night

The Foran Buffaloes (above) terminate their 1957 football season Friday night, at which time they clash with Christoval in a home game. Kickoff time is 8 o'clock. Left to right, front row, they are William Conger, Dale Soles, Jerry Pike, Benny Barnett, Fred Park, Raymond Martin, Sammy Barnett and David McElreath. Middle row, Milton Bardwell, Johnny Bob Asbury, Tommy Willis, Rodney

Allison, Jerry Bardwell, Dewey Howard, Muri Bailey, Ray Newsom, Jimmy Anderson and Tommy Gilmore. Back row, Charles Skeen, Kenneth Duffer, Johnny King, Frank Tate, Pete Jones, Joe Fields, Loy Pike, Gary Don Starr, Travis Schaffer, Stanley Willis, George White and Ken Gibson. The coach is James Blake.

Record Turnout Of Nimrods Due

AUSTIN (AP)—More deer hunters than ever before are expected in the woods when the season opens Saturday. Game Commission Secretary Howard Dodgen predicted the record hunting day, giving these reasons: The range is in the best condition in years and the deer have shown a great deal of activity with bucks already starting to run. More than 500,000 licenses already have been assigned to dealers for sale to hunters, compared to 440,000 at this time last year. Many youngsters will be hunting for the first time. More women also are going on all ranches with many husband-wife teams making applications for permits to hunt on the commission's management areas. A good deer crop. Prospects in the Hill Country are especially promising. Dodgen said. Grass is high on all ranches and there is a good crop of acorns. The same is true of the East Texas and Northeast Texas areas. In the Trans-Pecos area, where the season on mule deer opens Nov. 20, conditions are better than usual. Bucks are big in the South Texas hunting grounds and shooting should be good, wardens reported. At the same time, wardens cautioned hunters against rattlesnakes, which are more plentiful than the bucks.

Aggies In Top Shape For Tilt

By The Associated Press Texas A&M and Rice worked long and hard Wednesday, aiming for the showdown game in Southwest Conference football. If the Aggies win, they'll clinch their second Southwest Conference championship in two years and their first trip to the Cotton Bowl in more than a decade. The Aggies were under an NCAA ban last year. If Rice wins, it will keep the Owls in the running for the championship. Rain at Houston left up late in the afternoon and Rice held a long scrimmage. Coaches said Rice would be in its best physical condition of the year. TCU worked two hours with minimum of contact. The Frogs meet Texas at Austin Saturday. Texas held a full scale workout. Back at full strength, the Longhorns held an extensive handoff practice, designed to curb frequent fumbling. Arkansas Coach Jack Mitchell planned kicking game practice Thursday. He ran the Razorbacks through what he termed "a pretty good practice" for the SMU game. SMU drilled in the mud but skipped contact. Billy Dunn was moved to the starting left end post and Jerry Sharrock was moved to No. 1 center. Baylor held a long scrimmage. The Bears are off this weekend.

Machen TKO Winner After Tenth Round

By JACK STEVENSON SAN FRANCISCO (AP)—A little fight, low blows and possibilities of retirement formed boxing topics today after undefeated heavyweight Eddie Machen slammed and battered Tommy Hurricane Jackson into surrender. The 195-pound Machen, 25, of Redding, Calif., wants the championship bout with Floyd Patterson. He has an added talking point since his televised fight with Jackson last night goes into the record as a 10th-round TKO, the same as Patterson scored over the Hurricane July 29. Jackson and Manager Lippe Briardbart declared Eddie hit several low blows in taking his 24th straight victory. Machen said he didn't hit below the belt knowingly. Referee Frankie Carter didn't assess any penalties for low punches. With Jackson's right eye puffed closed at the end of the 10th, Briardbart called Carter over to view the damage and Frankie stopped it. The fight was scheduled for 12 rounds. "I recommend that the fight be stopped," said Briardbart. Asked if he would have Jackson retire after the two consecutive batterings by Patterson and Machen, Lippe replied: "He'll have to take a long rest. Retirement is up to him." The Hurricane, from St. Albans, N.Y., who weighed his heaviest at 201 for this one, had little to say. Asked what he thought Machen could do against Patterson, he said: "I'd be a good fight. Who'd win? I dunno."

WHEN CHIPS ARE DOWN Eagles Are Tough To Beat, Anytime

By HAROLD V. RATLIFF Associated Press Sports Editor In just two weeks they'll start fighting it out for the Texas school football championship. A storied record goes on the line that is, if Abilene is around to contest for another championship. Should the Eagles triumph again they will set the all-time record for consecutive titles at four and also bring to Chuck Moser, the coaching genius of Abilene, a personal record. That was how he explained Abilene's currently unbeaten season. Moser, as well as most of the fans, knows Abilene isn't nearly as strong as the past three Abilene teams. They also know that the winning streak has to come to an end unless a stronger team can emerge soon. However, Abilene has a lot of momentum left and plenty of price. The Eagles can beat superior teams because of that. They just might make it the rest of the way. It's going to be tough for any team to wrest away the spirit and fight that has kept Abilene going. Back in the distant 20's, when Texas school football was starting to bloom as the biggest sports attraction of them all Paul Tyson produced four state champions in six years at Waco. Three of them were consecutive. In the 30's Blair Cherry equaled Tyson's record with three in a row at Amarillo. Since then several coaches have had two champions in succession before Moser, compiling a fantastic record at Abilene, tutored title teams in 1954-55-56. Moser already has the longest winning streak in Texas interscholastic League history. His teams have won 45 games in a row. Abilene is favored to win its district without trouble and to advance to the state playoffs for the fourth time in four years. If this comes about Abilene will first play the winner of the El Paso District, then the winner of that game will take on the winner of the two adjoining districts. All indications are that Amarillo will be the team that comes from there. The way it looks from here Abilene and Amarillo will battle in the quarter-finals of the state race. Amarillo undoubtedly will be the favorite. It has been rated No. 1 in the rankings all the way; it was picked for the championship stake there in August when the coaches gave their thoughts to the press at the coaching school. But one should hesitate in picking Abilene to get beat. Moser had a thought along that line the other day when he was talking about

ABILENE NEARS CROWN Champions To Be Decided In 25 Districts This Week

By The Associated Press Twenty-five district champions will be determined this week to round out the state playoff brackets in the lower divisions of school football. Meanwhile, Classes AAAA and AAA, with all eyes on Abilene, Amarillo and Nederland, will be completing half their fields for the state championship beginning Nov. 29. Abilene, three times Class AAAA state champion, will be after its 46th straight victory and the district championship against Midland Friday. Amarillo, the top-rated AAAA outfit, also will be seeking to sew

up its district title as the Golden Sandies visit Borger Saturday. In Class AAA, Nederland, the last undefeated, untied team and favorite for the championship, plays Vidor Friday bent on annexing the district title and moving into the state playoffs. El Paso Austin, Dallas Highland Park, Texarkana, Houston Bellairs, Galena Park already have clinched playoff spots in AAAA. Austin and Alice are expected to do so this week, the former needing only to beat Udon in Travis and the latter to defeat Laredo. In AAA only two district champions are on the line—Brenham

and San Benito. But Sweetwater, Breckenridge, Garland, and Cuero are expected to win theirs Friday while Killeen and LaVega clash for one in a headon collision. Class AA has 16 champions and 13 to go. Already determined are Dimmitt, Lockney, Perryton, McCombs, Ranger, Hamilton, Lewisville, Terrell, Bonham, New London, Marlin, Jasper, Belton, Liberty, Boling and San Antonio Sam Houston. Class A has 20 with 12 to be determined this week. Ready for the playoffs are White Deer, Sundown, Ozona, Mason, Henrietta, Crowell, Wilmer-Hutchins, Cooper, Linden, White Oak, Clifton, Mart, Madisonville, Garrison, Tomball, East Chambers, Bastrop, Hallettsville, Bishop and Los Fresnos.

Home Builder Turns Down Offer By Negro Athlete SAN FRANCISCO (AP)—Willie Mays' attempt to buy a house here failed yesterday. The 27-year old San Francisco Giants baseball centerfielder offered the \$37,500 the owner asked for a new house on Miraloma Drive, but was turned down after a wait of several days. The owner said there was great neighborhood pressure against the deal, permitting a Negro to buy. Walter A. Gnesdloff, who is still offering the house at the same price—but not to Mays—said: "I'm just a union working man and I'd never get another job if I sold this house to that baseball player. I feel sorry for him, and if the neighbors say it would be okay, I'd do it." Gnesdloff, a small-scale builder and contractor, said two property owners he works for put pressure on him not to sell to Mays and neighbors objected by telephone. "I've never been through this kind of stuff and I'm not even mad about it now," the normally ebullient Mays said last night. "I'd sure like to live in San Francisco, but I didn't want to make an issue about it. "I figure if a guy has his own problems he's got to lick them himself, and if neighbors don't want you, what's the good of buying," Mays continued. "But talk about a thing like this goes all over the world, and it

LOCAL TEAMS END SEASON

Coch Bobby Zellar's Eighth Grade football team advances against Lamesa there at 4 p.m. today, weakened as usual by injuries.

Beginning the season with 44 hopefuls and ending with 26 boys out for yesterday's practice, the coach says:

"I started this season with a healthy bunch of boys, but I have not played a game under that circumstance yet."

Limping around the field during workout sessions Wednesday were Jimmy Masary, out with a chipped bone in his shoulder, and Ken Moeling, who injured a knee ligament on Monday's activity.

Caublé's Retains Lead In Circuit

Caublé Cleaners retained their first place bulge over Girdner Electric in Housewives Bowling league standings by defeating Good Housekeeping, 2-1, here Wednesday morning.

In other matches, Girdner's edge Truman Jones Motor, Wasson and Trantham lashed Zale's Diamondettes and Hi-Fi House turned back Gandy Creamery, all by 2-1 counts.

Girdner led team scoring with 718-1897. Caublé Cleaners had a 653 single game effort while Zale's Diamondettes registered an 1807 a gregate.

Juanita Campbell of Zale's had a 195 game high, followed by Marie Irwin's 162. Marie bowls for the same team.

Janie Guy of Gandy's had a 436 for the best aggregate. Moe Caublé of Caublé's came in with a 412.

Next week, Gandy's meets Truman Jones, Caublé's opposes Zale's Girdner Electric tangles with Hi-Fi House and Wasson and Trantham squares off with Good Housekeeping.

Standings:
Team W L
Caublé Cleaners 10 1
Girdner's 8 3
Truman Jones 7 4
Hi-Fi House 6 5
Gandy's Creamery 5 6
Wasson-Trantham 4 7
Zale's Diamondettes 3 8
Good Housekeeping 2 9

A victory today, and there should be one, judging from a previous 13-12 score, will bring the record to three wins, one loss, and one tie.

Sweetwater has been the only team to halt the Yearlings, while Snyder managed a 0-0 tie. They have defeated Lamesa and Andrews. Today's game with Lamesa at 6:00 will climax another grid season for the seventh grade charges of Coaches Hugh Hamm and Jimmy Marcus.

At Lamesa, the Seventh Grade Yearlings take on what should be a not too difficult contest. In a previous game with the Tornados, the Yearlings bounced to a 37-7 victory.

Even at that, Coach Hamm says that he will be facing a different eleven, as Lamesa splits its team up into two groups, so he doesn't know what he may be headed for. A win for this afternoon will bring the season's standings to 4-3.

Gene Lamb will be the manager for Big Spring and will be assisted in the backfield with such stand-out regulars as Rickey Wise, James Samples, and Jerry Bethel.

Season stalwarts in the line include tackles David Roles and Bob Williams; guards Rickey Peters and James Jennings; center, Danny Coats; and ends Donnie White and Jimmy Horton.

Dan Lewis and Chop Van Pelt, head instructors of the Freshmen Yearlings, also close out at Lamesa at 8:00 p.m.

The Ninth Graders hold wins over Big Lake, Lovelland, and Snyder. The boys will be in fair shape considering that at one time this season some 23 boys were absent because of the flu.

Dodgers Face A Roadblock

LOS ANGELES (AP)—The deadline for dropping files in the Los Angeles Dodgers' baseball contract is today—and citizens protesting the Chavez Ravine real estate deal say they are set to unload a whopper.

A group called the Committee to Save Chavez Ravine for the People says it has collected at least 51,787 reasons why the Dodgers may not be playing in the foreseeable future. In Walter O'Malley's proposed dream stadium.

The committee said that before the 5 p. m. deadline a petition with more than the required 51,787 signatures to force a public election on the city's Chavez Ravine deal will be filed with the City Election Commission.

The petition, if valid, could force a special election within three months, or the referendum could go on the next regular election ballot in June.

In either case, Dodger President O'Malley's plans to begin construction on a 50,000-seat stadium on the 300 acres given the club by the city would be sidetracked, perhaps completely derailed.

The "citizens' committee" was organized after the City Council, by a 10-4 vote, transferred the Chavez Ravine property to the Dodgers in exchange for the 22-500-seat Wrigley Field and other considerations.

Backbone of the committee is an organization of small property owners and taxpayers.

OU, Irish May Play In Rain

NORMAN, Okla. (AP)—Oklahoma will put a number of records on the line when it meets Notre Dame in a nationally televised battle here Saturday — and one of them may be broken at the outset of the intersectional battle.

Coach Bud Wilkinson is rumored to have controlled the weather almost as well as he has the scores of Oklahoma's home games.

During his 10-year tenure as head coach, the Sooners have never played a home game in the rain. That's one record which may be snapped this weekend. Rain has fallen for three days and more showers are forecast through Friday.

For two days this week, the Sooners practiced in the mud, then were driven inside yesterday by rain and water on the practice field.

Coach Bud Wilkinson says the muddy field practice may come in handy this weekend.

He admits that rain and mud hamper his team's fast-break offense, which is based largely on speed.

After the Kansas State game Nov. 3 Wilkinson pointed out the field was slippery, and indicated this may have been a factor in comparatively low score.

Oklahoma won the game 13-0 and has since thrashed the Missouri Tigers 39-14 to run its vic-

PCL Won't Draft Dallas: O'Connor

DALLAS (AP)—Warner Lewis, general manager of the Dallas Eagles, says a Pacific Coast League statement is no threat to Dallas' chances of alignment with a higher classification league.

The president of the PCL, Leslie O'Connor, said his circuit has "no intention of drafting any clubs from the Texas League."

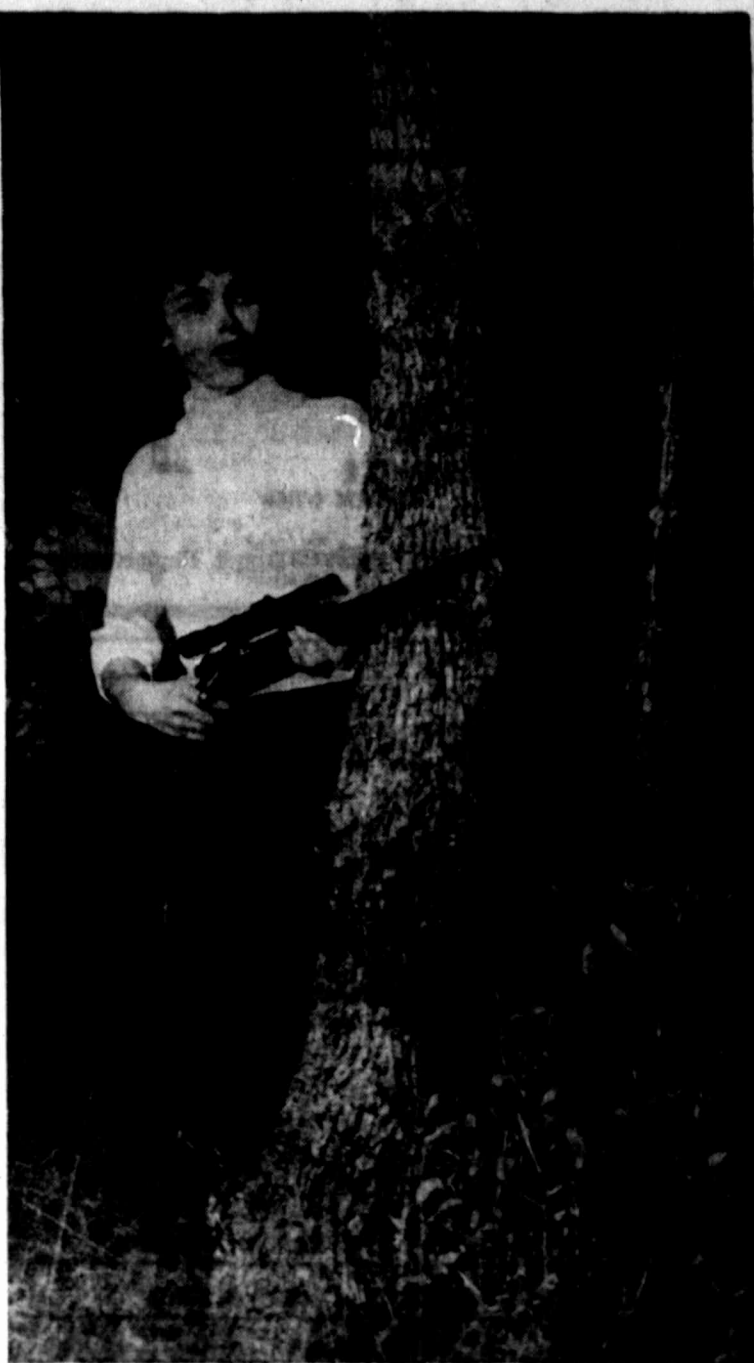

Lewis said, "Regardless of any statements, I think this is the year of decision for the minors. Some realignment is necessary, and if it is, I don't see where they can turn but to Dallas or Houston, or both. Just look at the map and you'll see what I mean. We're about the only good-sized cities adjacent to other league territories."

Sunday, however, league directors met here and refused Texas loop members permission to seek berths in higher classification leagues.

The flu numbered all-league halfback Frank Gifford among its victims last week, and he promptly ran feverishly for 126 yards Sunday as the Giants whipped the Chicago Cardinals 27-14. That was trouble?

Yesterday the virus clipped Gene Filipski, and Jim Patton came up with an old-fashioned charity horse. Those two lead the club in punt and kickoff returns. Another regular defensive back, Dick Nolan, is still hospitalized with the flu.

LINEUP CHANGES

Tabbies Had Edge On 'Dogs: Scouts

Local scouts who have watched the San Angelo Bobcats, Friday night opponents of the Big Spring Steers, in action say the Felines are a little faster than Midland, which beat the Longhorns last weekend, 7-0.

San Angelo and Midland played to a scoreless deadlock earlier in the year and it was generally agreed that Angelo outplayed the Bulldogs. The Bobcats once moved the ball inside the two yard line against Midland, but lost the ball on a fumble.

Reports out of San Angelo say Coach Bob Harrell has made several changes in his lineup.

He's moved Ken Milliken, his regular center, to guard and installed Joey Marsala, a junior, at the pivot position.

Bobby Lowry will start at quarter-

PGA Match Play Facing A Vote

LONG BEACH, Calif. (AP)—Delegates to the National Convention of the Professional Golfers' Assn. of America today were expected to approve a move to change the PGA match play championship to a 72-hole medal play competition.

While no officials would comment directly, the change to medal play might well conflict in public interest with the United States Golf Assn. Open, which over the years has been dominated by the professionals but which is open to amateurs.

A PGA national open would be restricted to professionals and under that title could well draw censure from the USGA, of which the PGA membership in convention here seems well aware. Gate receipts from the USGA Open far outshadow anything the PGA match play tourney gets year in, year out.

A vote on the switch from match to medal was expected late today.

"One-phone" problem?

Modern homes have plenty of phones

What a predicament! Right in the middle of dinner preparations and the phone in the hall rings. If you're like most housewives, you've had that happen more than once. And you've probably wished for a kitchen telephone. Additional telephones solve those "one-phone" problems, come in handy in any room in your home.

Arrange today to make yours a well-telephoned home. Take your choice of additional phones in black, red, beige, yellow, ivory, blue, green, white, pink, or gray. There is a one-time-only charge for colors other than black.

ADDITIONAL TELEPHONES . . .
ONLY 1.00 A MONTH
(plus tax and a small one-time installation charge)

Starters Are Announced For Ward School Battle

Starting lineups were released today by coaches of the Ward School All-Star tilt, which will be played Friday at 6:15 p.m. in Memorial Stadium.

At quarterback for the Brahmas will be Dickie Bethel; left halfback, Howard Bain; right half, Gary Lancaster; and fullback, Dick Irons.

Linemen will be: center, Donald Anderson; guards, Groman Sweeney and Kent Brown; tackles, Terry Isbell and Tony Loftis; ends, D. R. Gartman and Ronnie Payne. Brahma coaches are Bill Cook, C. W. Tanner, Earl Penner, and T. H. Stromberg.

Listed backfield starters for the Longhorns were: quarterback, Albert Fierro; left half, Jody Thompson; right half, Manuel Spinata; fullback, Kenny Crane.

The forward wall will be centered by Ronnie Booth. Tackles will

Knott To Oppose Ackerly Tonight

KNOTT, (SC)—Knott's girl basketball team challenges undefeated Ackerly in a game at 8 o'clock here tonight.

B teamers start playing at 7 p.m. The featured attraction goes on at 8:00.

Admission prices for the double-header have been set at 20 and 40 cents.

Knott kayozed Flower Grove Tuesday, 52-38. The Billies led at the end of the first period, 7-4; at half time, 22-20; and after three periods, 36-33.

Frame-Ups Return To First Place

The Frame-ups regained their lead in the O. W. C. League bowling this week, when the Spittails lost all four points to the Goof-Offers. The Sitting Ducks trounced the Frame-ups, 3-1.

In other matches, the Pockettes tied for second place when they set the Bowleros, 4-0. The Duds won over the Cotton Pickers, 3-1. Betty Porter and Ruth Makris, each with a 181 game, achieved the high individual games, while Ruth had a 517 aggregate. Jerri Krass was second with her 154-451.

Preceding the bowling, a farewell gift was presented to the league president, Waneta Lingelbach, who is moving to San Antonio. Ruby Harrison, the vice president, succeeds Waneta as president.

Industrial Decline Bears Out Market

By SAM DAWSON
NEW YORK (AP)—Slowly but surely the slight dip in industrial activity which began last spring is widening out today—even as the stock market foretold.

It shows in figures from the steel and oil industries, in textile output cutbacks and weak prices, in factory employment, and even in starting to tinge the white collar worker's outlook.

Consumers continue to spend as much or more for goods and services. But many manufacturers are finding they must produce fewer units if they are to keep their stocks from rising. Higher prices and more use of services color the consumer spending totals.

The economy is still riding high and no great drop is feared. But every month new segments of the economy enter into the current breather.

Steel production this week is lower than at any time since early August 1956, when it was affected by the summer strike. Steel makers are saying they look for little improvement the rest of this year or early in the next, unless their auto customers order better.

The oil industry is being warned that a rough year may be ahead. Demand still tops last year but not by the margin expected. Production is running far enough ahead of consumption to make for price weakness in some products. Gasoline price cuts have been

made recently in scattered sections of the nation.

Troubles of the overcrowded textile industry have brought some new price weakness in some lines. To hold down rising stocks several of the bigger textile firms are planning an eight-day shutdown, distributed between the Thanksgiving and Christmas holidays.

Total employment remains near a peak. In October it rose again, but this time chiefly because of an unexpected demand for farm workers. The ranks of factory workers grew slimmer.

In time, some say, this could mean less paper work for front offices, less urge on the boss' part to hold onto white collar help.

Judge Sides With Lensmen

MIAMI, Fla. (AP)—Judge George E. Holt has taken a stand against two other Miami Circuit Court judges, Stanley Milledge and Vincent Giblin, in their efforts to bar news photographers.

"The public should be allowed to actually see how their judges conduct public trials," Holt commented from the bench yesterday.

Regarding Canon 35, of the American Bar Assn., which has been used to bar photographers from courtrooms, Holt said: "Those who seek to uphold it have been in steady but slow retreat for some time, since their objection to photographers and their work has slowly but surely been overcome by example, reason, logic, plain common sense and rapid improvement and development of equipment."

"I have concluded that there is no valid objection to photographers operating their calling in the courtroom, and that Canon 35 should be canceled and annulled."

Both Milledge and Giblin recently have attempted to extend their prohibitions against picture-taking to include the courthouse corridors.

45 Rebels Killed

ALGIERS (AP)—The French today reported killing at least 45 rebels in the Oran area of West Algeria, 30 of them in a large-scale mop-up by planes and artillery in the ouarsenis Mountains.

Bennett Doesn't Want Own Show

By CHARLES MERCER
NEW YORK (AP)—In a season when every singer wants his own television program—and nearly everyone has a show—Tony Bennett is an exception. He doesn't want his own program—yet.

All jazzophiles know Bennett. Hit records, a popular night club act, frequent guest appearances on TV... Bennett's way at the top in his field. But even a jazzphobe would enjoy meeting him. He's a pleasant, modest, articulate guy who rather reminds you of Perry Como before absolutely everybody knew Como.

Here's what we mean: Three of Bennett's friends, seated around him the other day, were telling a fellow that Bennett had turned down several offers for his own show.

"Look, don't give the impression that the networks were clubbing each other over the head to get me," Bennett said. "There was an opportunity and if I'd tried hard for it maybe I'd have gotten it, but I didn't want my own show."

That's interesting. Why not? "I'm not ready for it yet, I feel," Bennett said. "I have a lot to learn. You might say I'm trying to study television, and there's no better opportunity to do that than appearing in guest spots."

Sunday evening, for example, he will appear on the Ed Sullivan Show. Last Sunday he appeared on the Steve Allen Show. He's been a frequent Como guest and has—and will—appear on many another variety program.

"It may be two or three years before I'm ready for my own show," Bennett said. "I don't want to go on just as a name after a network has given me something to do. That just doesn't work out."

Cagney Accepted By Longshoremen

By BOB THOMAS
NEW YORK (AP)—James Cagney, flanked by two New York policemen, walked to the end of Pier 17 through a crowd of tough longshoremen.

The workers greeted him warmly, shouting comments to him. He answered them back in kind, and they were delighted. It was obvious that they accepted him as one of their kind.

Cagney was reporting for a scene in his new movie, "Never Steal Anything Small," which was filming near the Brooklyn Bridge. It's a musical satire in which he plays a tough guy who sings his way to control of a corrupt labor union.

When he did his campaign number before the rugged-looking audience on the wind-swept pier—some actors, some not—he was immensely convincing. James Cagney, ex-hooper, an actor who has earned millions, still could act the mug.

"That's what growing up in this town did for me," Jimmy said as he sat in the shelter of a truck and surveyed the skyline of New York. "Imagine me trying to play a tough guy if I hadn't been brought up in a tough part of town! Believe me, it has paid off well over the years."

Being back in the scenes of his boyhood prompted some nostalgia on his part. He talked about his early days around 79th Street on the East Side.

"Sure, the kids were tough in those days," he said. "They used blackjacks and knives then too. But there didn't seem to be the organization that there is today. We traveled in gangs, but every guy was fundamentally a freelancer."

"Today, the kid gangs seem to have taken a note from the mobs in organizing and demanding protection money and that sort of thing. It's vicious."

After 25 years of living in California and New England, he has no yen to return to his native city.

"If you had to live in a city, this would be the place to do it," he observed. "Here you've got the best theater, the best museums, the best schools. But thank heaven I don't have to live in the city."

Dog's Heartbeats

TOKYO (AP)—A scientist said today Japanese radio monitors may have recorded a broadcast of heartbeats from Laika, the dog in the second Soviet earth satellite, Dr. Takashi Hayashi, a professor of medicine, said he was analyzing a recording made Nov. 6 as the satellite passed over Japan. "I found a set of waves which I believe came from the dog," Hayashi reported.

The Judgment Wasn't Peanuts

LOS ANGELES (AP)—When Mrs. Bertha Ekman opened the can labeled "peanut brittle" she found it wasn't, and the judgment she got from a jury wasn't peanuts, either.

The jury awarded her \$25,000 yesterday. Mrs. Ekman had testified that when she opened the phony can of peanut brittle, paper snakes sprung out at her.

She sued Wilmington, Calif., and cafe owner James Munson for \$117,250, claiming that the shock

Truman On Rights

NEW YORK (AP)—Former President Harry Truman says the nation should stop worrying about Russia's Sputniks and concentrate on civil rights, including the problem posed by Little Rock. He spoke last night at a dinner of the Joint Defense Appeal of the American Jewish Committee and the Anti-Defamation League of B'nai B'rith.

Brace For Storm

GUAM (AP)—Guam braced today for Typhoon Lola, expected to pass 20 miles south of here by noon Friday. With 135 m.p.h. winds near its center, the typhoon was expected to cause winds of 35 to 40 m.p.h. here late today, increasing to 50 to 60 m.p.h. by Friday noon.

Nehru Birthday

NEW DELHI (AP)—India today celebrated Prime Minister Nehru's 68th birthday as children's day, with nationwide student rallies, dramas and other festivities.

BIG SPRING DAILY HERALD

SEC. C BIG SPRING, TEXAS, THURSDAY, NOVEMBER 14, 1957 SEC. C

Queen Nominees

One of these beauties will preside as "Autumn Queen" at the Autumn Carnival set for Saturday night in the high school gymnasium under auspices of the BSHS Student Council. Students may vote for their respective favorites as many times as they like—at a penny a vote. Proceeds will go to the Student Council. Identity of the queen will be disclosed during the carnival. Nominees, left to right, are Carol Ann Phillips, sophomore; Lynn McMahan, senior and Jo Ann Ebling, junior.

BSHS 'Autumn Queen' To Be Honored At Saturday Carnival

Autumn Queen of Big Spring High School will be introduced during the Autumn Carnival to be staged Saturday evening in the high school gymnasium. At present, there are three class nominees in the running for the honor. They are Lynn McMahan, senior, Jo Ann Ebling, junior, and Carol Ann Phillips, sophomore. The carnival will run from 7 to 11 p.m. Saturday. Twenty booths, sponsored by the various high school organizations, will be in operation. Plans for the carnival were completed at a meeting of the Student

Council this week. The group also took up plans for a drive for Thanksgiving food for needy families. A \$5 prize will be given to the home room with the highest rate of participation in the project of bringing canned foods to go in the baskets. The council also will furnish hens for 15 baskets and the Key Club is sponsoring a blanket drive which it hopes will result in a blanket for each basket. The drive is to start next Monday and continue through Nov. 26. Carol Ann Phillips was named to handle arrangements for a school

assembly to feature the Lightcrust Doughboys. Posters advertising the Autumn Carnival have been placed in the high school, junior high and elementary schools, said Malinda Crocker and Sherry Lutting. Organizations and the booths they will operate at the carnival include Senior Class, slide show; Junior class, cake walk, dance; Sophomore Class, bingo; Spanish Club, Marriage booth; Latin Club, slave sale; Key Club, spook house; DeMolays, fortune telling; Dramatics Club, Hernando's hide-away; Hi-Y Club, basketball toss; FHA I, dart board; FHA II, food concession; BiClub, pumpkin pitch; DE Club, coin pitch and dutch pitch; Pep Squad, cotton candy; Press Club, door prize; Bible Club, rock 'n' roll; and Band Club, pop corn balls.

Christmas Business Gain Seen In Retailer Survey

Sales increases for Christmas 1957 are expected over last year's record business by a majority of the nation's retailers surveyed by the Bureau of Advertising, American Newspaper Publishers Association. Despite recent economic reports of general business uncertainty, 54 per cent of the retailers surveyed predicted gains for their store while 33 per cent expect sales on a par with last year's record level.

Sales increases up to 30 per cent are forecast with the average gain pegged at 7 per cent. Soft goods departments were singled out to make the highest percentage gains over last year. Sportswear, both men's and women's, was the merchandise line most mentioned. As a key to increased sales, more aggressive promotion programs are planned this Christmas by 36 per cent of the retailers surveyed; 57 per cent stated their advertising expenditures will be about the same as 1956, while 7 per cent are considering decreases. Newspapers continue as the retailers' basic medium, survey results show. More than three-quarters

of the retailers in the survey plan to invest 80 per cent or more of their total advertising budget in newspapers. Fifty-six per cent are allocating nine-tenths of their budget to newspapers; in 15 per cent of the stores surveyed, newspapers will be the only advertising medium used.

To New Job

Joe V. Niedermayer, field director for the Buffalo Trail Council, Boy Scouts of America, has accepted appointment as Scout executive of the Llano Estacado Council with headquarters in Amarillo. His resignation becomes effective Nov. 20. Niedermayer, a veteran Scoutmaster, had served four years as field director at Midland, supervising the council's program activities.

24 Football Teams Invited To Play Here

Twenty-four high schools expected to be involved in bi-district and other football playoff games are being invited to stage their championship contests here. Wayne Smith, Chamber of Commerce manager, said teams are being invited here from an area extending from Ranger to El Paso and from Ozona to Perryton. The invitations have been sent both to school officials and the Chambers of Commerce in the various towns, Smith said. The Big Spring Chamber offers to furnish the stadium, lights, ticket personnel, and provide trophies and programs for any of the contests which are staged here, Smith said. A similar program, on a smaller scale, was undertaken last year and resulted in the Merkel-Sundown playoff game being played here. The project cost the Chamber about \$370, Smith said. He said good will and benefits resulting from the hundreds of visitors to Big Spring more than offset the expenses.

Sterling City Class Slates Turkey Shoot

The Senior Class of Sterling City is to have its annual turkey shoot on Dec. 1, beginning at 1 p.m. The site is two miles west of Sterling City on U. S. 87. There will be classes for high powered rifles, shotguns, pistols and .22 calibre rifles.

Low Resistance Chief Cause Of Infection By 'Common Cold'

Do you sneeze when you sit in a draft, come down with colds when your feet get wet or when you are chilled? Research on the pesky problem of the common cold has indicated that your chances of infection are not increased by such exposures. Usually you have permitted your resistance to be lowered or else you have been in contact with someone with a cold. Some massive and extensive studies have indicated that direct contact is the best and surest way to catch a cold. Just be near someone who has a cold and sneezes or utters a mouthful of spray words and you had better be in good physical condition. When you get a cold, doctors agree that the best thing is to get plenty of rest, preferably in bed. You not only get well quicker, but you don't spread the infection around so thoroughly. Doctors vary in remedies, frequently prescribing to head off something worse than the cold. Aspirin, whose actual therapeutic value is not clear, is good to relieve the discomfort. Preparations that help keep the nasal passages clear will increase chances for effective breathing and easier rest and perhaps head off an attack of sore throat. Fruit juices or water are indicated to restore body fluids lost to the cold. Physicians generally hoot at the idea that the nasal or respiratory passages are connected with the bowels, hence they do not prescribe the laxatives once so freely taken. Some new cold vaccines have proven effective—but only for the particular type of virus from which they have been compounded. Along comes another kind of virus and maybe you take a cold anyhow. At best, the immunity is not totally effective, and the length of protection is not yet established. If it's any comfort to you, medical science is doing research on

the common cold on numerous fronts. Meanwhile, you can follow your usual routines except you ought to avoid that pneumonia shortcut—the hot toddy and six blankets. Ordinarily, you should be over the hump in two or three days, otherwise your resistance is lower than you thought and you may be on the border line for something infinitely worse. In other words, see your doctor.

Tax Collections Show Big Gains

The city has collected approximately \$18,000 more in current taxes in October and November of this year than the same time of 1956. Through Tuesday afternoon, the city had collected \$308,666.83 in current taxes, as compared with \$290,299.58 for October and 12 days of November, 1956. The total for this year is net from \$318,199.92 in taxes. Citizens who paid during October got three per cent discount, and payments in November bring a two per cent credit.

IN 58 DAYS A '58 PLYMOUTH RAN 58,000 MILES—EQUAL TO

MORE THAN TWICE AROUND THE WORLD

AND IT DROVE EVERY INCH OF THE WAY!

We knew this car was tough.

We designed it that way.

That's why we weren't afraid to give Plymouth the toughest, true test run of all time...with all America as the "track."

We didn't coddle this Plymouth. Didn't crate it and ship it from place to place. We aimed it out of Los Angeles one misty morning and sent it through a course that ran 58,000 miles through 37 states.

The time limit? Only 58 days.

A thousand miles a day!

The equivalent of 6 years' driving crammed into little more than 8 weeks!

Three times this Plymouth crossed the Rockies. Three times it wound its way up and down across the country...passing through more than 1200 cities and towns. Whipping over turnpikes...creeping through city traffic...arrowing down super-highways...feeling its way through 500 miles of rutted detours. And when the drivers turned the key to end the marathon, it still looked, ran and rode like new.

This is what lasting value really means. The ability to take everything that American roads and weather can dish out—and come up grinning. Why don't you give Plymouth a test drive yourself—today? You'll see what we mean.

That's the Plymouth "track"...and just look at that route! Every possible road and weather condition. Plymouth ran every inch of that murderous route 3 times in just 58 days. That greater proof of lasting, built-in stamina!

Star of the Forward Look... **Plymouth** ahead for keeps!

THE Bible Story LIBRARY ILLUSTRATED

The Holy Scriptures Retold in Story Form

ONLY \$1.00 PER VOLUME
COMPARE WITH OTHERS AT \$3.50 UP

YOUR PRICELESS HERITAGE IN 4 MAGNIFICENT VOLUMES

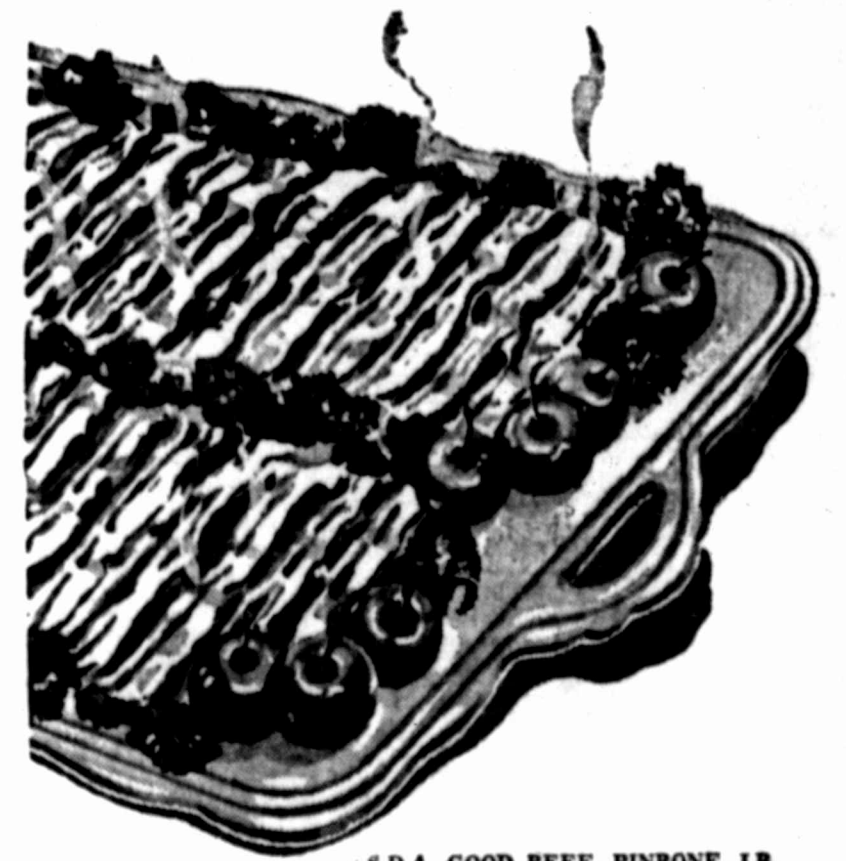

VOLUME 1 ON SALE THIS WEEK - BUY A BOOK A WEEK

For young and old alike... here's another "extra" provided for you by Piggly Wiggly in time for the coming-up Christmas season. Starting with Creation, this handsome series tells chronologically the beloved stories of the Testament and helps give young and old a better understanding of the Bible itself. The four volumes are crammed with painting and engraving masterpieces never found in any but the most costly editions.

Start collecting your set this week. Buy several - you'll want extra sets to use as wonderful gifts. Volume 1 on sale this week... buy a book a week!

BUZ SAWYER

HELP, HAGH! LIFT ME UP!
AND GIVE THE TRICKY ZORKA A CHANCE TO GRAPPLE WITH ME!
NO!
AT LEAST YOU, THE MAN WHO SHOT ME, COULD HELP ME TO BE MORE COMFORTABLE!
WHAT DIFFERENCE DOES YOUR COMFORT MAKE?
YOU HAVE ONLY A FEW MINUTES TO LIVE... THEN, CONFOUND YOU, I'LL MAKE MYSELF MORE COMFORTABLE.

DIXIE DUGAN

IF THAT SLIDE DOESN'T BURN HER SHE'S GLUED TO THE SADDLE!
HERE I AM --

NANCY

I HAVE TO HELP AUNT FRITZI CLEAN HOUSE
SHE WANTS EVERYTHING TO BE NICE AND SHINY FOR HER PARTY
UGH! MAYBE I SHOULDN'T HAVE USED FURNITURE POLISH ON THE APPLES

L'IL ABNER

SNIFFER—THY SLAUGHTERHOUSE IS BURNNIN' DOWN!!
MAH HEART IS TORE TWO WAYS—FO' TH' SAKE O' SUFFERIN' HUSBIN-LESS, DOGPATCH WOODIN-HOOD, AH HOPES MAH SCHEME WORKED!!
B-BUT, FO' TINY'S SAKE—AH HOPE IT D-DIDN'T!
IT (YAWN!) WORKED!!
ONLY IS'A YARS OLD—AN' DOOMED!!

BLONDIE

WHY ARE YOU WORKING SO HARD?
I'M WORKING SO HARD BECAUSE I'M SO TIRED
I HAVEN'T THE ENERGY TO STOP

ANNIE ROONEY

WHAT'S JEWEL'S FATHER LIKE? CAPTAIN JASON FLEECE IS ONE OF THE FINEST MEN WHO EVER WORE SHOE LEATHER—AN' NOW YOU'RE WONDERING HOW THAT CAN BE BECAUSE HIS DAUGHTER IS SO MEAN AN' SNOBBISH AT TIMES --
OH—I DIDN'T SAY THAT, MISS REIDA --
NO, BUT I'M SAYING IT FOR YOU—KINDNESS COMES NATURAL WITH YOU AN' YOU'VE GOT MANNERS—THAT'S TWO THINGS ALL THE FANCY SCHOOLS AN' HOME SPOILING NEVER BROUGHT TO DEAR LITTLE JEWEL --
I'M ONLY A POOR RELATION AROUND HERE, WORKING FOR MY KEEP, BUT I SEE THINGS, AND IF YOU WERE TO ASK ME—JEWEL IS BEING RAISED EXACTLY AS HER AUNT JULIA WANTS IT!!

SNUFFY SMITH

UNK SNUFFY TELLS ME YORE PAW JEST STARTED GIVIN' YE A ALLOWANCE
I SHORE AM SURPRISED HE TOLD YE-- HE RUN ME OFF WIF TH' BRESH BROOM WHEN I COME OVER TO TELL YE ABOUT IT
SHUX-- HE WUZ JEST FUNNIN' WIF YE, SAMANTHY-- HE'S GIVIN' ME A ALLOWANCE, TOO--
WAAL-- I RECKON HE'S GOODER-HEARTED THAN I GIVE HIM CREDIT FER
I GIT A WHOLE NICKEL JEST' OTHER WEEK JEST' LIKE YE GIT
I GIT A QUARTER EVER BLESSET WEEK

GRANDMA

HELLO, BOYS!
GEE, THAT GRANDMA REALLY HAS IT MADE!
SHE HAS AN AGREEMENT WITH TH' MANAGER O' TH' MOVIE 'T' GET IN FOR HALF PRICE...
...AS SHE ALWAYS FALLS ASLEEP AND NEVER SEES MORE THAN HALF OF ANY PICTURE!

DONALD DUCK

D. DUCK'S CUT-RATE SIGN CO.
BANKRUPTCY SALE!

JOE PALOOKA

IT'S PAST MIDNIGHT... I'LL TAKE THE OLD RIVER ROAD... I'LL GET HOME QUICKER!
H-HUH? I CAN'T BELIEVE MY EYES... I MUST BE SEEING THINGS?
WHY--IT'S A R.O.D., WHAT IN THE WORLD WOULD A YOUNGSTER BE DOING OUT AT THIS TIME OF NIGHT?

MARY WORTH

BROTHER! I'VE NEVER HEARD ANYTHING LIKE THAT MRS. BARTON! THE PROFESSOR TOLD HER THAT THE DIET I PRESCRIBED FOR HER WAS RUINING HER HEALTH!
THE PROFESSOR CAN BE VERY CONVINCING! I KNOW!
I FEEL SO MUCH MORE VIBRANT SINCE I'VE BEEN UNDER PROFESSOR BORRIGARD'S CARE, NANETTE! DON'T YOU THINK MY FIGURE SHOWS IT?
WELL, YES, MRS. BARTON! I THINK SO!
I'M SURE I'VE LOST MY WEIGHT TOO... DON'T YOU THINK SO, NANETTE?
I... I DON'T KNOW... MRS. BARTON! PERHAPS YOU HAVE... IN PLACES WHERE IT DOESN'T SHOW!

REX MORGAN

DOESN'T IT BOTHER YOU A LITTLE, CHARLES?... HAVING YOUR FRANCEE GO OUT WITH A... UM... NOTORIOUS CHARACTERS LIKE MR. DIPOLO?
NOT A BIT, ALONE MARY! IT'S STRICTLY FOR PUBLICITY!
AND MY ACTUALLY DISLIKES THE GUY!
DOES SHE?
I'M CHILLY! WOULD YOU MIND PULLING MY WRAP AROUND MY SHOULDERS, MR. DIPOLO?
