Reds Willing To Talk Over Control Of Space

'Package Deal' For Summit Meet

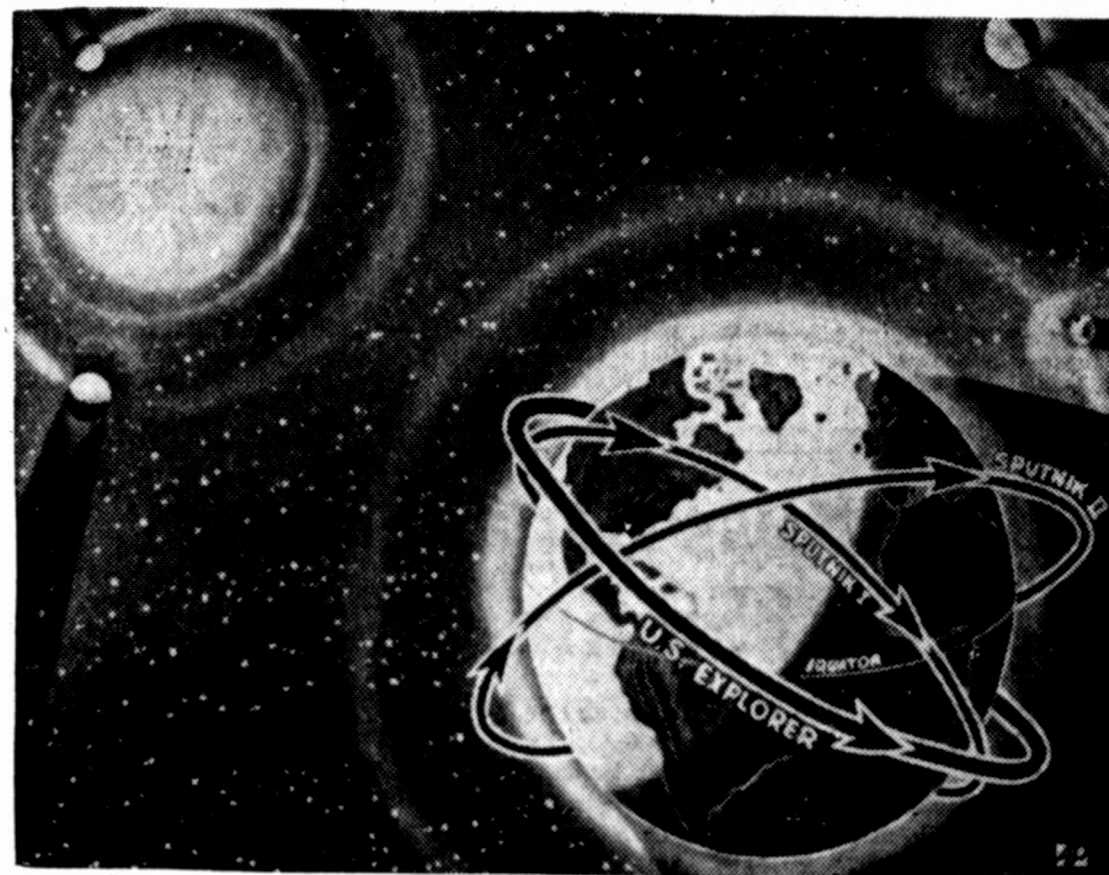

MOSCOW (AP)—The Soviet government has notified President Eisenhower officially that it will discuss fully the control of outer space as part of a package deal including the abolition of nuclear weapons and the reduction of armed forces.

Premier Nikolai A. Bulganin, in a communication delivered yesterday in Washington, said the Soviet Union accepted the idea of preparing for a summit conference through normal diplomatic channels but ruled out any prior foreign ministers' conference because of Soviet opposition to Secretary of State Dulles.

Bulganin, replying to President Eisenhower's Jan. 12 letter, proposed a nine-point agenda for a summit meeting of East and West leaders.

Soviet Foreign Ministry spokesman Leonid F. Ilyichov told a news conference today the Soviet government is ready to participate in a summit meeting based on either broad or restricted representation.

(Moscow radio began broadcasting the text of Soviet Premier Nikolai Bulganin's letter to President Eisenhower just after the Moscow news conference).

How Explorer's Orbit Compares With Sputniks

Space drawing by AP Artist John A. Carlton indicates orbital plane of U.S. satellite Explorer in comparison with Sputnik I and Sputnik II. Sputnik I has disintegrated, and the radio batteries of Sputnik II have long been dead.

Moon Rocket Talk Renews As Explorer Continues In Space

WASHINGTON (AP)—The Navy, beaten into space by the Army's Explorer satellite, is pushing preparations today for another try at getting its Vanguard vehicle aloft.

The 72-foot Vanguard rocket was visible at its launching tower at Cape Canaveral, Fla., pointing to a possible early firing attempt. But the Navy kept mum on its plans.

There was renewed talk of sending a rocket to the moon as the Explorer whirred through space on its mission of collecting and radiating back scientific information. The Explorer went into orbit Friday night.

Meanwhile, free world statesmen welcomed America's breakthrough, which some of them said should have a favorable influence on finding a formula for East-West peace.

Vice President Nixon said the American achievement "should have the effect of developing unusual support in world opinion" for President Eisenhower's proposal to dedicate outer space to peaceful uses.

Eisenhower made that proposal in a Jan. 12 letter to Russian Premier Nikolai Bulganin. A reply to that letter was delivered here yesterday, but its contents have not been made public.

Although there have been some congratulatory comments from Russian sources, one Soviet scientist noted that the 30.5-pound Explorer is much smaller than either of the Russian satellites.

However, the scientist, Kiril Stanyukovich, voiced the hope in a Moscow broadcast that "peaceful competition of satellites in the two countries will lead to enrichment of the world's scientific knowledge."

Eisenhower has said that all data collected by the Explorer will be shared freely with other nations, including Russia.

The Explorer, six feet long and shaped like a pointed tube, is sending back coded radio signals regarding on temperatures, cosmic rays and meteorites it is meeting in its 18,000-mile-an-hour journey.

Dr. Ernst Stuhlinger, chief of

GRAND CHAMPION FINEWOL LAMB
Walter Lowe Jr. exhibits prize winner

LIGHTWEIGHT PIG WINS TROPHY
Joe Carter shows grand champion swine

Carter, Parker Lowe, Reynolds Show Champs

By DON HENRY
GARDEN CITY—Joe Carter exhibited the grand champion pig and Walter Lowe Jr., Ritchie Reynolds and Doug Parker showed the championship lambs in the 21st annual Glasscock County Livestock Show here this morning.

A large crowd was on hand for the show, a free barbecue dinner and the auction which was slated this afternoon.

There were some 30 pigs and 100 lambs on display.

Carter won the swine championship with his lightweight entry. Runner up was Donald Plagens, who showed the first place heavyweight pig.

Young Lowe showed the champion finewool lamb, edging Vernon Asbill for that ribbon.

Reynolds showed both grand and reserve champion crossbred lambs.

Parker scored a triple victory, exhibiting both grand and reserve champion Southdown lambs. He also had the champion pen of three lambs.

THE SHOW RESULTS

LIGHTWEIGHT PIGS—Joe Carter, first and second, and Bud Saunders third.

HEAVYWEIGHT PIGS—Donald Plagens, Ralph Heelscher and James McNutt, (Grand Champion, Carter; Reserve, Plagens).

LIGHT FINEWOL LAMBS—Barbara Cook, first and second, Mary Ruth Asbill, third.

HEAVY FINEWOL LAMBS—Walter Lowe Jr., Vernon Asbill, Sammy Chaney, (Grand Champion, Lowe; Reserve, Vernon Asbill).

LIGHT CROSSBRED LAMBS—Ritchie Reynolds, first and second; David Harris, third.

HEAVY CROSSBRED LAMBS—Milton Mow, Barbara Cook, Freddy Chaney, (Grand Champion, Reynolds; Reserve, Reynolds).

SOUTHDOWN CROSSBRED LAMBS—Milton Mow, Billy Fisher, Gerald Cypert.

SOUTHDOWN LAMBS—Doug Parker, first and second; Jack Asbill third (Grand and reserve champions, Parker).

PENS OF THREE LAMBS—Doug Parker, Jack Asbill, Barbara Cook.

AFTER SLAYING Ex-Con Sits Up With His Victim

FORT WORTH (AP)—A former convict shot and killed Willie "The Fox" Hooser, 49, early today on the Jacksboro Highway, then sat up with the corpse five hours before authorities were contacted.

Johnny Williams, 48, in whose kitchen the shooting occurred, told Sheriff Harlan Wright he just didn't know what to do with Hooser after killing him.

He fired six shots from a revolver into Hooser as a climax to an argument about 3:30 a.m.

Williams would not say what the argument was about except that it was not over a woman. Williams, released in May from the penitentiary after a burglary term, is married but his wife was away.

While Hooser lay face up on the kitchen floor, which was strewn with broken chairs, Williams said he pondered what to do with the body.

He said he considered dumping it but finally decided to call a friend and ask that Wright be informed.

While the friend called Wright,

Williams picked up his chihuahua dog, Prissy, and took her to relatives.

"Once before when I was arrested," he said, "the officers took her to jail with me and she had to stay there. I didn't want that to happen to Prissy again."

After taking the dog away, Williams, dressed in cowboy boots and wearing a hearing aid, returned to the four-room house, one block south of where a dynamite blast blew up gambler Frank Cates' house in 1956.

Williams said Hooser came over to his place yesterday afternoon and that they talked "all night."

He said they did some drinking but not an excessive amount.

Hooser was found with a paring knife in hand. Williams said Hooser jumped at him and tore his coat, which he displayed to Wright.

Hooser served a term for burglary and was released in 1929.

Williams has been a used car salesman. His mother, Mrs. Pearl Bissett, said her son suffered from cirrhosis of the liver and was unable to do hard work.

Big Spring Team Wins Debate Title At Howard Payne

Julius Glickman and Stephen Baird of Big Spring High School defeated 19 other teams to win first place in the boys' debate tournament sponsored Friday and Saturday by Howard Payne College.

Julius also won second place in boys' original oratory and boys' extemporaneous speaking.

Other Big Spring High School students participating were Kelly Meek, Linda Nichols and Sandra Havens. They were accompanied by Philip Wayne as a sponsor. One hundred and 10 students and coaches participated from Midland, Abilene, Big Spring, Milby (Houston), Sam Houston (Houston), Temple, Killean and Monterey (Lubbock) High Schools.

C. H. Wasson Is City Candidate

The first hat went into the ring today for the coming City Commission election.

C. H. Wasson, 1027 Stadium, filed for the April election this morning. Wasson is co-owner of Wasson & Trantham Furniture Co.

Three places on the five-member board will be filled at the April 1 election. The terms of Roy Bruce, Curtis Driver, and Dr. Lee O. Rogers expire at that time.

Citizens interested in running for the City Commission may file with the city secretary, C. R. McClenny. Filing deadline is midnight March 1.

Murder Charge Filed On Pair In Arispe Death

Charges of murder have been filed against Henry Marin, 18, and Armando Franco, 22, in the mid-night slaying Saturday of Benicio Acosta Arispe, 26, in a restaurant on the north side.

The charges were filed Sunday in the court of Walter Grice, justice of the peace. Bonds had not been set for the two Latin-Americans at 11 a.m. Monday.

The men were placed in the Howard County jail Monday morning after having been held in the Big Spring city jail from 4:45 a.m. Sunday when they were arrested.

Officers said that both Marin and Franco discussed the shooting of Arispe in detail and made no effort to deny they were involved.

The fatal altercation developed, according to Bobby West, investigator for the office of Guilford Jones, district attorney, as a fight which occurred in Spec's Drive-in Restaurant around 11 p.m. Saturday.

Arispe and four other men were seated in a booth in the cafe, 20 feet from the front door. A man stepped inside the door and began shooting. He fired four or five times.

Arispe, struck by four bullets, was fatally wounded and dead on arrival at the Cowper Hospital. Driver for the River Funeral Home ambulance said that he believed Arispe died about the time the ambulance was crossing the viaduct enroute to the hospital.

Randall Sherrod and Bill Cartwright, night deputy-sheriffs, and Wes Patton, constable, went to the farm residence of Marin and Franco. They found them in bed and arrested them.

En route back to Big Spring, a hidden gun was recovered and taken to the sheriff's office.

West said that none of the four companions of Arispe was struck by any of the bullets fired by the gunman. One man was slightly cut when a bullet shattered a drinking glass on the table.

Graveside services were conducted Monday at 2 p.m. for Arispe in the Catholic Section of the City Cemetery. Burial was in charge of River Funeral Home.

Arispe was a laborer and had lived in Big Spring for 18 years.

Survivors included his wife, two sons, Joe and Benicio Arispe Jr.; three daughters, Mary, Heien and Elanda; his mother, Mrs. Dolores Arispe; five brothers, Trina, Severo, Louis, Julian, and Alonzo, all of Big Spring; five sisters, Mrs. Rosinda Gonzales, Mrs. Eunice Rodriguez, Sabina Arispe and Theodorina Arispe, all of Big Spring, and Mrs. Francisco Cortez, Lamesa.

New Post

Earl Rudder, vice president of Texas A&M College, sits at his desk in Richard Coke Building on the campus as he assumes his new duties. Rudder, who resigned as Texas State Land Commissioner to become chief administrator of the college, is an A&M graduate of 1922 and has a brilliant military record earned in World War II. He is a native of Eden, and has had a successful business and public service career.

Predict Passage Of Defense Fund

WASHINGTON (AP)—Senators Knowland (R-Calif.) and Mansfield (D-Mont.) predicted today that the Senate will pass a \$1,410,000,000 emergency defense money bill before the day ends.

Earlier demands by some senators that another one or two billion dollars be added to the money bill were cooled by both satisfaction at the successful orbiting of the U.S. Explorer satellite and by the insistence of Senate leaders that the present urgent requests should not be delayed by additions.

"I think the bill will go through now just as it cleared the Appropriations Committee," Mansfield, assistant Democratic floor leader, said in an interview.

"These funds are needed and should move ahead as rapidly as possible," Knowland, the Republican leader, said.

The measure now carries \$1,260,000,000 of new funds to step up programs for ballistic missiles, nuclear submarines that can launch some kinds of missiles, de-

tection systems for both enemy aircraft and missiles, and additional air bases.

It also provides authority to transfer 150 millions Congress previously voted for other purposes to many of these same programs.

Sen. Symington (D-Mo.), former secretary of the Air Force, renewed his contention that the pending money bill "is totally inadequate to carry out unanimous recommendations of the Senate Preparedness subcommittee."

The Air Force would get the bulk of the new funds, some \$10 million dollars for its missiles and dispersal of Strategic Air Command jet bombers.

The Navy would receive 350 millions, most of it for Polaris intermediate missiles and a start on three special nuclear submarines to launch them, either under water or on the surface.

The Army would receive 40 million dollars of transfer funds to step up its own missile program.

Stanton Stabbing Probe Continues

Sheriff Dan Saunders, Martin County, said Monday that he was still working on the investigation of the stabbing of a bracero by two holdup men on Saturday night in Stanton but that so far he had not been able to apprehend the offenders.

He said that he arrested two men Sunday and brought them to Big Spring where the badly wounded Mexican, Amelio Acosta, was given an opportunity to look at them. Saunders said that victim was unable to identify either.

Saunders said that the bracero was attacked by the pair as he walked along a street. He was stabbed and then robbed of \$5. He lost considerable blood and his condition is regarded as serious but not critical.

Stanton Man Is Burned Seriously

STANTON (SC)—Courtney Clements, about 25, of Stanton was badly burned when he came in contact with a hot wire on a power line construction job a half-mile south of here at noon today.

Clements was taken to Midland Memorial Hospital in an Arrington ambulance. The hospital said at 1 p.m. his condition was serious.

The son of Mr. and Mrs. Jack Jagers of Stanton, Clements was employed by the R&S Construction Co. of Midland.

Early Vanguard Launching Planned For Navy Satellite

CAPE CANAVERAL, Fla. (AP)—It was widely and reliably reported today that an early launching of a basketball-size "moon" will be tried with the Vanguard missile.

One Vanguard test vehicle is being prepared for launching with a 6.4-inch, 3 3/4-pound grapefruit size satellite in its nose.

The Navy had planned to launch at least two more experimental miniature moons before moving up to the larger, fully instrumented sphere.

But recently the impression has solidified among persons in touch with Vanguard personnel that the forthcoming launching will be the last with the small-size satellites.

These reports say that particularly if the small-moon launching

guard try—probably sometime in March — will carry a 21 1/2-pound, 20-inch satellite.

Such an effort is against the better judgment of some of the most experienced men involved in missile work here. Opponents of a "crash" Vanguard effort hold that this is a sophisticated, difficult scientific program that cannot be rushed to a conclusion.

They argue that the only purpose in hurrying the Navy's program is for propaganda purposes.

To observers here it is evident that the Vanguard workers, many of them young scientists only a few years out of college, are under heavy strain both because of large work loads and because of worry.

They will not discuss their

problems publicly. They have been told that the Naval Research Laboratory in Washington will do the talking.

But from their casual observations one learns that they sometimes feel that:

1. The public is expecting too much.
2. The brass in Washington may be pushing too hard.
3. The Vanguard crew bowed to mechanical difficulties and adverse weather.
4. They dismantled the 31-foot second stage for repairs. Meanwhile, the Army moved in with its Jupiter-C, and last Friday, launched the first U.S. satellite.
5. Although the Navy men were glad to see the Army succeed, this could not be called a boost for Vanguard crew morale.

File Suit Against A&M

Mrs. Barbara Tittle, 20, left, and Mrs. Lena Bristol, 24, right, look over a copy of a mandamus suit prepared by John M. Barron, Brazos County attorney, for them against Texas A&M College. The suit, filed in district court at Bryan, asks the court to order college officials to allow the two women to enroll at A&M—an all-male school. Mrs. Bristol, mother of two, and Mrs. Tittle were turned down by school officials when they sought to enroll earlier last month.

Dulles, Russ Legate Open Survey Of Summit Chances

WASHINGTON — Secretary of State Dulles and Ambassador Llewellyn Thompson open today a survey of U.S.-Soviet relations and of chances for holding an East-West summit conference later this year.

With a new letter from Soviet Premier Nikolai Bulganin before them for study, they may develop a new U.S. challenge to the Soviets to undertake serious diplomatic negotiations for a top-level meeting.

Bulganin's 17-page letter, the newest in a series he has addressed to President Eisenhower, was delivered to the State Department yesterday. Both the State Department and the White House declined comment until the letter can be translated and studied.

At the same time, the department was informed that the new Soviet ambassador to this country, Mikhail A. Menshikov, is expected here Wednesday or Thursday. He replaces Georgi Zarubin, who left last week for home.

These events, coupled with reports of a relaxation in earlier Soviet demands for a summit meeting before April, gave rise to speculation that Moscow may be ready for advance consultations through diplomatic channels.

An interview published in London last week quoted Soviet Communist party boss Nikita Khrushchev as saying he was willing to wait a little while if the Western Powers wanted more time. There were indications Bulganin's letter took a similar line.

Thompson, U.S. envoy in Moscow, came home for consultations last weekend. Dulles returned from a trip to the Middle East Saturday.

The United States, in launching its first earth satellite, recovered much prestige and strengthened its bargaining position with Russia, particularly in respect to proposals for outer space control.

Several possible moves have been considered here and in other Western capitals for new initiative by the Western Powers on the summit conference problem.

These moves include calling a foreign ministers' meeting of the United Nations Security Council, forcing the Soviets to make up its mind on the expanded U.N. Disarmament Commission. It has so far opposed by calling that new body into session for the first time, and making specific new proposals to Moscow for a foreign ministers' conference outside the U.N.

The present attitude here seems to be that if there is any chance at all of getting a summit conference on reasonable conditions then the U.S. government should do everything possible to bring it about.

'57 Traffic Death Rate Down; Lowest By Mileage In History

CHICAGO — The nation's traffic death toll in 1957 was 38,500, a 3 per cent drop from 1956, and marked the lowest mileage death rate in history.

"The 1957 record is, of course, definitely encouraging," said the National Safety Council, which announced the figures today. "It reflects an unmistakable improvement in traffic behavior and enforcement."

Deaths on the highways last year compared with 39,628 in 1956, which was one of the highest on record. The 1,100 fewer deaths in 1957 was the second largest reported in any year since the end of World War II and was surpassed only by a decrease of approximately 2,400 deaths in 1954, the council said.

The 1957 mileage death rate (deaths per 100 million vehicle miles) was 5.9, compared with the previous all-time low of 6.3 in 1956 and 1954.

The council said every month of 1957 except August showed a drop or no change in traffic fatalities from the same month in 1956. "One year does not make an era of safer traffic," the council said. "But 1957 could well be the turning point in the war on traffic accidents. It is significant that the improvement was attained in the face of a 4 per cent rise in motor vehicle travel."

Traffic deaths in December totaled 3,710, a 4 per cent drop from the toll of 3,858 lives "in a month that traditionally brings peak danger on the highway."

The all-time high traffic death toll was 39,969 in 1941.

The council commended governors, mayors and traffic enforcement agencies for the 1957 record, and added: "The drivers and pedestrians deserve a big pat on the back too. They, of course, actually made the improvement possible."

The leading cities for the year in each population size group, ranked according to deaths per 10,000 registered vehicles, included:

100,000-200,000 — Montgomery, Ala. 0.4; Hartford, Conn., .7; Lubbock, Tex., 0.8.

Houston Boys Hop Freight, Return To Stern Parents

HOUSTON — Two young Houston boys who hopped a freight train to Dallas Friday night came home yesterday to find stern parents waiting for them at the bus station.

Both Louis Ronald Martin, 9, and Darrell Gene Jones, 10, were hustled off to bed. But before Louis climbed into his bed his mother, Mrs. John Martin, gave him a lecture and a spanking.

All Darrell's father, J. E. Jones would say was that he was "aggravated" about his son's trip. "He really enjoyed the trip home on the bus and the other children think he's a hero," Mrs. Martin said.

She added, however, that Louis did not "like the belt too much." She used the belt in her spanking.

Dallas policemen found the two sleepy-eyed boys wandering along the railroad tracks Saturday morning. They said they were looking for another freight train to take them back to Houston.

The boys told officers they had meant to hop off the train at Teague, 170 miles from Houston. When they got to Teague it was so cold they got back in the boxcar and rode on to Dallas, they said.

When they got to Dallas they were hungry, cold and tired and wanted to go home.

Darrell said, "We didn't mean to run away. We just wanted to go up to Teague and play." He said he had been to Teague and thought it was a nice town.

Trailways Bus Co. volunteered to take the boys home free of charge.

Address

Secretary of the Treasury Robert B. Anderson is shown as he addressed members of the North-western Field and Stream Association in Wichita Falls, the secretary, ending election year enthusiasm over U.S. economy, said ultimate responsibility for security lay with the people as much as any administration.

Hayworth, Hill Plan Honeymoon

BEVERLY HILLS, Calif. — Actress Rita Hayworth and movie producer James Hill will honeymoon in Europe when the bride finishes work on a picture. They were married Sunday in a quiet ceremony in her home.

It was the first marriage for Hill, a partner in Hecht-Hill-Lancaster Productions. For Miss Hayworth it was the fifth marriage. She is 39, Hill 41.

Miss Hayworth's daughters, Rebecca, 13, by Orson Wells; and Yasmin, by Prince Aly Khan, were present. Her former husbands include oilman Ed Judson and singer Dick Haymes.

Churchill's No 'Ham'

KANSAS CITY — Harry S. Truman spent 40 minutes last week looking at 35 oil paintings by Winston Churchill.

Is Sir Winston as great an artist as he is a statesman? "Impossible," said the former President. "He would have to be a Rembrandt. . . . He's the statesman of the age, you know."

Churchill's paintings are on display at the William Rockhill Nelson Art Gallery. It is the first time his work has ever been exhibited to the public in a one-man show. The collection will move on this week for showings in eight other cities in the United States and Canada.

"They are damn good," Truman concluded.

"At least you can tell what they are. And that's more than you can say for a lot of these modern painters. Han-and-eggars, I call them. They just throw an egg at the canvas and mix in a little ham."

GROUNDHOG IS BACK IN DEN FOR 6 WEEKS

If ever a Groundhog had a golden opportunity to see his shadow on Groundhog Day, Sunday was the occasion!

There is no supportable evidence there are any Groundhogs in this neck of the woods but if they did live here, and if they adhered to the theory attributed to them, every dog-gone one is now rolled up in a neat furry ball in his den. There, so the legend goes, he will remain for six more weeks.

Sunday was a delightful day, balmy enough, provided with a surplus of brilliant sunshine and around 60 degrees temperature. Even Sunday night did not push the mercury down to freezing level—low was 33.

Therefore, if there is anything to the Groundhog Day legend, we are in for six more weeks of bad weather before Spring can officially be welcomed.

No Poker Class (Not Officially)

BLOOMINGTON, Ind. — Indiana University wants it known that it is not offering a course in how to play poker.

Chairman Earl Hoff of the Annual Indiana Authors Day observance wrote to a New York book publisher asking for a review copy of "The Education of a Poker Player," written by Herbert O. Yardley. The book is being reviewed along with others by Indiana authors published in 1957.

The publishers sent the book, then followed it with a letter asking whether a decision has been made on its adoption as a textbook and how many courses and students would be affected.

West Texas Will Stay Cool Awhile

By The Associated Press

Bone-chilling temperatures hung on in Texas Monday but a slight warming trend was indicated in all areas but West Texas. Skies were generally fair in East and North Central Texas and partly cloudy in South Central Texas. Considerable cloudiness blanketed West Texas.

Dawn temperatures ranged from 24 degrees at Childress to 58 at Corpus Christi. Other lows included Dallas 25, Amarillo and Lubbock 29, Abilene 30, and Lufkin 31.

No rain had fallen for days and

once again rainfall was getting below the annual averages for this date.

Actresses Describe Sudden Stardom

By WILLIAM GLOVER
 NEW YORK, Feb. 3 (AP)—Sudden Broadway stardom—what is it like at first—and later on? Two young actresses currently know the separate answers. One is just arriving, the other just departing after rocket rides to acclaim.

To find it is wonderful, says Anne Bancroft, praised by critics for performance in "Two for the Seesaw."

To keep it thrilling—and a challenge, says Julie Andrews, who became Broadway's darling in "My Fair Lady."

Newcomer Bancroft, a raven-haired miss of 26 years and direct manner, is deliberate and subdued about the triumph that marks her first stage performance.

"Acting is the gratification," she declares, "though naturally I liked the reviews for myself. But more than that personal satisfaction, what the critics said will enable me to reach out more and do all the kinds of parts I have wanted."

There could hardly be a greater contrast in stage personalities than exists between just-arrived Anne and blue-eyed, crisply English Julie Andrews, who tonight wound up her two-year stint in the smash musical success "My Fair Lady." Her assignment is being taken by Sally Ann Howes, another English girl.

"I feel an awfully important part of my life has occurred here," says 21-year-old Julie. "I don't think I'm any different inside but I have learned an awfully lot here."

Three arrivals bow on Broadway this week: "Oh, Captain! A musical starring Tony Randall enters the Alvin Feb. 4; "Cloud Seven," a comedy is due at the Golden the following night; and on Feb. 6 "Interlock," starring Celeste Holm, arrives at the Anta.

Congress Farm Attacks Now Include Cooperatives

By OVID MARTIN
 WASHINGTON, Feb. 3 (AP)—Attacks in Congress on agricultural programs and institutions have widened to include farm cooperatives.

The House Ways and Means Committee—where tax bills are written—is being called upon to add to the tax burden of cooperatives. Pending before House and Senate agriculture committees are recommendations of the Eisenhower administration that federal farm-aid programs be overhauled.

The call for higher taxes on cooperatives has been made by the National Tax Equality Assn. The association is made up of private business interests which compete against farmer cooperatives. It is particularly strong in the Midwest where, of course, the farm cooperative movement is strongest.

The tax equality group has been trying for many years to get Congress to tighten tax laws on cooperatives.

It contends that the present income tax laws give cooperatives exemptions that put them in an advantageous position in competing with private business.

In the attacks over the years, the cooperative movement has been successful in staving off new legislation proposed by critics.

This success largely reflects the fact that most farm organizations and groups—no matter how they might differ on controversial crop control and price support programs—stand together in behalf of cooperatives.

The cooperative movement has grown to be big business in the agricultural field. Government reports put their annual operations at around 10 billion dollars.

There are now about 9,750 cooperatives in the country. At one time they exceeded 10,000. But the number has been decreasing slightly in recent years, largely because of consolidations.

THE STATE OF TEXAS
 TO: JENNIE BELL, STEVEN BELL, KATHLEEN BELL, STEVEN BELL AND FRANCES L. BELL, AND THE UNKNOWN HEIRS AND LEGAL REPRESENTATIVES OF JENNIE BELL, DONALD BELL, KATHLEEN BELL, STEVEN BELL AND FRANCES L. BELL, AND IF JENNIE BELL IS MARRIED, HER HUSBAND, WHOSE NAME IS UNKNOWN AND IF FRANCES L. BELL IS MARRIED, HER HUSBAND, WHOSE NAME IS UNKNOWN. DEFENDANTS. GREETINGS.

You are hereby summoned to appear by filing a written answer to the Plaintiff's Petition, being Plaintiff's Second Amended Original, at or about the 10 o'clock A. M. of the First Monday after the expiration of forty days from the date of the issuance of this citation, before the Honorable District Court of Howard County, Texas, at the Court House of said County in Big Spring, Texas.

There are hereby summoned to appear by filing a written answer to the Plaintiff's Petition, being Plaintiff's Second Amended Original, at or about the 10 o'clock A. M. of the First Monday after the expiration of forty days from the date of the issuance of this citation, before the Honorable District Court of Howard County, Texas, at the Court House of said County in Big Spring, Texas.

Plaintiff's Petition was filed in said Court on October 21, 1957, and Plaintiff's Second Amended Original was filed in said Court on January 17, 1958, at which time and place the proposals will be publically opened and read aloud.

Copies of specifications and Contract Documents are on file and may be examined without charge in the office of the City Engineer. Copies may be procured without charge from Freese and Nichols, Consulting Engineers, 607 Danziger Building, Fort Worth, Texas.

A cashier's check or acceptable bid, together with a bond payable to the City of Big Spring, Texas, in an amount not less than five (5) per cent of the bid submitted, must accompany each bid as a guarantee that, if awarded the contract, the Bidder will, within ten (10) days of award of contract, enter into a contract and execute a bond on the terms provided in the Contract Documents.

A performance bond in an amount of not less than one hundred (100) per cent of the contract price, conditioned upon the faithful performance of the contract and upon payment of all persons supplying labor or furnishing materials, will be required.

In case of ambiguity or lack of clearance in stating proposal prices, the City of Big Spring, Texas, reserves the right to adopt the most advantageous construction thereof, or to reject any or all bids and waive formalities. No bid may be withdrawn within thirty (30) days after date on which bids are opened.

CITY OF BIG SPRING, TEXAS
 G. W. DANNEY, Mayor

LEGAL NOTICE

INVITATION FOR BIDS
 Sealed proposals addressed to G. W. Danney, Mayor of the City of Big Spring, Texas, will be received at the office of the City Manager in the City Hall, Big Spring, Texas, for the furnishing of a High Service Pumping Unit and Motor Starter, until 5:00 P. M., CST, Tuesday, Feb. 11, 1958, at which time and place the proposals will be publically opened and read aloud.

Copies of specifications and Contract Documents are on file and may be examined without charge in the office of the City Engineer. Copies may be procured without charge from Freese and Nichols, Consulting Engineers, 607 Danziger Building, Fort Worth, Texas.

W. Germany Adamant Against Support For Allied Troops

BONN, Germany (AP)—West Germany stood adamant today in her refusal to pay in the future for support of Allied troops in this country.

The main bone of contention is Britain's demand for 588 million marks (140 million dollars) to help support British troops in Germany in the next fiscal year.

The Germans contend further payments to the Allies will endanger the buildup of the new West German defense establishment. The Allies claim West Germany should help pay for the foreign troops helping to protect Germany since the Bonn regime has failed to bring its armed forces to anywhere near the strength promised NATO.

West Germany pledged a 500,000-man force to the alliance but so far has less than 150,000 men under arms. Bonn's 1957-58 defense budget totaled nine billion marks (\$2,200,000,000) as opposed to 1,420,000 pounds. West German government opposition leaders now are busy pushing through Parliament a bill cutting income taxes 45 million dollars a year.

In the fiscal year ending March 31, Bonn is paying 588 million marks (140 million dollars) for the British troops and 278 million marks (66 million dollars) to France.

She has paid the United States 325 million marks (77 million dollars). The Americans have demanded a second installment amounting to the same figure.

Johnston delivered the child singlehandedly.

"I was all shook up," he said.

Weather Control?

WASHINGTON (AP)—The groundhog made no appearance in Washington yesterday. The Washington Zoo wouldn't let him outside.

Cold Air Fans Broad U.S. Areas

By The Associated Press
 Strong northerly winds fanned cold air across broad areas in the eastern half of the nation today, with the icy blasts reaching into the Gulf Coast states.

Freezing temperatures were general as far south as southern sections of Georgia and Alabama. Readings were in the 30s in northern Florida and near 50 in the southern part of the state. Snow flurries fell in parts of northern Alabama.

Winds reached gusts of 30 to 40 m.p.h. in the Great Lakes region and below-zero readings were reported in most of the upper Mississippi Valley and eastern Dakota. Temperatures near 10 degrees extended as far south as southern Illinois and central Missouri.

Gunfire, Traffic Lead Death Tally

By Associated Press
 Gunfire and traffic accidents, with nine deaths each, led the death toll by violence in Texas over February's first weekend.

In all, 23 persons had been reported killed by late Sunday night.

Fire Damage

BAYTOWN, Tex. (AP)—An early morning fire yesterday caused an estimated \$65,000 damages to the Robert E. Lee High School gymnasium.

Rio Grande Slowly Losing Its Grip On Lives Of Residents

By JERRY MARTIN
 MISSION, Tex., Feb. 3 (AP)—The Rio Grande is slowly losing its grip on the lives and fortunes of the people who live along its banks.

Erection of the huge dams and levees that ultimately will control its surge to the sea will change the paradoxical character of the "Great River."

Rising high in the Colorado Rockies, the Rio Grande begins its long journey to the sea from snow cascading down the eastern slopes of the Continental Divide. On its winding, 1,900-mile course to the Gulf, it passes through some of the most rugged and starkly beautiful landscape in the nation.

Along its banks live more than 1,300,000 people as varied as the moods of the unpredictable river—which to them means life—and sometimes death—in its churning flood waters.

The romantic Rio Grande, a name synonymous with the desert land of the great Southwest, is a river with little water, yet those living beside it can tell the terrors of mighty floods.

To the Mexican farmers, whose ancestors depended on it much as they do today, the river during flood season is an enemy to curse. In times of drought it is a friend to bless. But always it is an awesome entity which dominates their lives.

"Yes, it is our Great River. . . it is our life," says a Mexican cotton farmer with a mixture of the strange pride and possessiveness felt by the people who live along its lower banks and through irrigation make their living from the sun-baked earth.

Colorado cowboys, Pueblo Indians in New Mexico and citrus growers in the Lower Rio Grande Valley of Texas all seem to share a compelling affinity with the great river.

For 1,300 miles, the Rio Grande wanders through the mighty canyons of the Big Bend, the scrub-brush country and desertland that marks the boundary between Texas and Mexico.

Along its entire length, throughout the 200,000 square mile basin it drains, the erratic flow of the Rio Grande has traditionally held a firm grip on the destiny of those who live beside it.

CRUEL GRIP LESSENS
 But each year engineers whittle away a little more of the river's sometimes cruel authority over those who work the land.

By dam and levee construction, they are making strides toward eventual complete control of the river, which in 1954 smashed the area near Laredo with a monstrous 50-foot crest, destroying an international bridge and causing millions of dollars damage.

Water from this stream grows more precious as population and irrigation increase along its course to the Gulf, especially along the final 800 miles. It is there that much of the dam construction is under way or planned.

Col. Leland Hewitt, U.S. member of the Boundary Commission, says much of the damage caused by the 1954 floods could have been averted if the proposed Diablo Dam had been in place. This 90 million dollar structure is to be built 8 miles north of Del Rio. Besides flood protection for several cities in Texas and Mexico, the dam will open up another 300 or more square miles of desert land for irrigation by storing thousands of acres of water each year.

Diablo and other dams built and planned along the final 800 miles will do much to curb the Rio Grande's dominating influence on the area's economy. Regulation of the river's flow and saving water that normally wastes into the Gulf will stabilize its value the year-round.

Falcon International Dam, a structure capable of storing more than 2,800,000 acre feet of water,

has been a boon to the citrus and cotton growers in the lush Lower Rio Grande Valley.

During the worst of the long drought, the storage dropped to a mere trickle, forcing rigid rationing programs below Roma, so humans could have drinking water.

Construction of Diablo and Anzules Dam, nearing completion south of Mission, is expected to save thousands of acre feet of additional water that otherwise would waste into the Gulf, water which Falcon Dam is too far north to catch.

Rio Grande Valley interests are seeking to have three small channel storage dams built in the river bed below Falcon Dam to save flood waters and catch runoff from rains between Falcon and the Gulf.

Mexico, which shares the vital interest in Rio Grande water, recently completed a tidalwater dam near the mouth of the river to keep salt water out of the tidal reaches. This is an earthen structure, but there have been efforts launched to make it a permanent steel water dam.

Keeps Hair Healthy

Janet Leigh believes that it pays off to learn all you can about keeping hair healthy and in good condition. Janet will soon be seen in Universal-International's "Touch of Evil."

HOLLYWOOD BEAUTY

Janet Leigh Follows Careful Hair Routine

By LYDIA LANE

HOLLYWOOD—I first met Janet Leigh during the war when Norma Shearer introduced me to her new find, saying, "I have great hopes for her becoming a star."

This prediction has not only been fulfilled, but Janet has, along with fame, an exciting marriage with Tony Curtis, a lovely baby, and a beautiful home in Beverly Hills, and has been able to see the world while having a career.

"I was in Europe for five months the last trip," she told me, "and while I found the experience broadening it did have its inconveniences."

"You can't buy the same things over there that we have here, especially for the hair. So I went over with a huge suitcase full of my formula, because I wasn't taking any chances on trying new preparations."

Five years ago Janet had to bleach her hair for a role and she photographed so well she has kept it light.

"Your hair is in beautiful condition," I remarked.

"I don't try to do it myself, and when I'm traveling I take along detailed instructions for the beauticians," she confided. "It's a challenge when you bleach your hair to keep it soft and shiny."

Janet is so thorough and capable, I was not surprised how well-informed she is about hair.

"I believe in lots of brushing with natural bristles. I don't like nylon brushes because they are

too stiff and do not cleanse the hair as well. I always bend over when I brush, for it helps to bring the blood up to the scalp."

As we sat there chatting over tea I remarked how much more relaxed Janet seemed.

"I have been working on it," she confessed, "but I had to do something. I was tied up in knots and interested in too many things. The pressure piled up. I got so tense I couldn't sleep without a pill."

"Tenseness has its inception in the mind. It comes from what is eating at you inside," Janet explained. "You can't run away from problems that upset you. The sooner you realize this, the sooner you can lick it."

"I'm by nature an organized person, and I want to do everything well, but you can overdo being a perfectionist. When I learned to take first things first, a great deal of pressure was relieved. I no longer get overly tired, irritated at trifles and blow my top."

"The best advice that can be given is to be true to yourself, because when you are not, you are headed for trouble."

We talked of fashion and how people's ideas change with styles and seasons.

"I have changed my ideas completely," she confessed, "but with me it is a natural process of growing up. I used to wear peasant skirts and blouses in the daytime and strapless gowns for evening wear. I used to have a lazy way of buying my clothes so that I was always shopping. You have to formulate your ideas about your wardrobe and have a plan."

"Having a baby did not detract a bit from your figure," I observed.

"I am five-six," Janet said, "and I like to stay around 112. But when I'm working too hard I lose six or eight pounds. I have found it is very difficult to gain weight when I don't have time to rest."

"The best thing that ever happened to me was a nutrition course I had to take at school. They made a list of all the things you should eat every day, like milk, eggs, green and yellow vegetables, fresh fruit, salads and cheese. I decided I would try to cultivate a taste for nutritional foods. I found that when I did I felt better."

MORE BEAUTIFUL HAIR

If you know what to do and what not to do you can have more beautiful hair than you have ever dreamed. In Leaflet M-2, "Do's and Don'ts for Beautiful Hair," are many suggestions for a lovelier you. In addition are many ways of selecting the "right" hairdo, foods to give strength to your hair and the special bleaching formula that Janet Leigh uses. For your copy of leaflet M-2, send only 10 cents to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

Festive Party Suggestions For Teenagers Include Easy Recipes

When you're young, practically any occasion is an excuse for a party, and in the weeks ahead, a young lady's social calendar might well be crowded with Valentine parties, farewell dinners for service-bound beaux, engagement showers, pre-game suppers and record fests. To help along these happy doings, the current issue of a magazine for teen-agers explains how to give these parties, plan the menu, set the table, arrange entertainment and, in general, make certain a "good time is had by all."

VALENTINE TEA DANCE

For Valentine's Day, revive the hearts-and-flowers tea dance, that wonderfully romantic "twenties" institution currently staging a comeback. An authentic tea dance starts about four in the afternoon, lasts till six or seven p.m.

For Valentine's Day, the magazine presents a preeminently white-and-sheering table decor and a "sweet but simple" menu of cream cheese and olive finger sandwiches, dainty Valentine card cookies, assorted mints and iced tea.

BEFORE THE GAME SUPPER

With the basketball season at its height, a pre-game supper is the order of the evening. Party-time is usually limited for this one, so keep everything simple. Good ideas here are a buffet table with silverware, dishes and food arranged in logical sequence and a no-knife menu (easier to handle).

An Oriental dinner, plotted from time-saving canned foods, includes crisp vegetables, "roses," celery and carrot sticks, cauliflowerets with cottage cheese, fried noodles, rice, Mandarin Cherry Mold and tea.

On a bandana-bright tablecloth, place four colorful megaphones lettered to spell out "TEAM." Add to the party ingredients a scattering of pennants and a few choruses of the old school song.

SHOWER BRUNCH

Since spring is notorious for the prodigious number of engagements it produces, showers are apt to be numerous. To make the one you give stand out as "one of many," try a shower brunch. Starting about 11 o'clock of a Saturday morning, it allows guests to sleep late and doesn't interfere with dating hours.

Since a party brunch requires food light enough for breakfast, filling enough for lunch and glamorous enough for a party, plan a menu of orange and grapefruit sections dressed up with lemon sherbet. Deviled Egg Timbales with Mushroom Sauce, coffee cake, milk and-or-coffee.

FAREWELL DINNER

A farewell party for a best beau or for big brother going into the service calls for a dinner party complete with dressed-up clothes, soft candlelight and a picture-pretty table, according to the magazine.

The menu for this affair should be one to remember. The home-cooked feast includes a Ring Around Meat Loaf with Onion-Tomato Gravy, duchess potato peaks, peas and water chestnuts, finished off with rum raisin ice cream and milk or coffee.

SHARE-A-RECORD PARTY

If there's no really special occasion in the air but you're in a party mood, why not throw a Share-A-Record Party. Dancing to your favorite record—as well as everyone else's—is the excuse for this one, and food should be of the nibbling variety. Pretzels, nuts and potato chips will do fine, but wind up the session with something really grand—in this case, a superb Chocolate Torte accompanied by cocoa or coffee.

Here are recipes to help you:

VALENTINE COOKIES

1/2 cup butter or margarine
1/2 cup dark brown sugar
1 egg
2 tsp. vanilla
2 cups sifted flour
1/2 tsp. baking powder
1/2 tsp. salt
Red and yellow food coloring
1/2 cup finely chopped walnuts
Cream butter, sugar, egg and vanilla in bowl till fluffy. Add flour, baking powder and salt and mix to moderately soft dough. Remove one-fourth of dough and tint to light red using about one drop of yellow food color to every four of red. On floured waxed paper, shape into one-inch-thick roll. Form into heart-shaped roll, wrap in waxed paper or foil and chill in freezer, laying one side flat against the bottom of freezer. Stir nuts into remaining dough.

Chill both doughs at least six hours or overnight. Then roll out walnut dough on 14" x 17" cookie sheet. Mark dough deeply into 2 1/2" squares. Bake at 375 degrees F. for about twelve to fifteen minutes or until lightly browned. From heart-shaped roll, cut waxy hearts. Bake at same temperature for about eight minutes. Cool. Make Confectioners' Frosting recipe below) and ice squares completely. While damp, press pair of hearts onto each square. Makes thirty cookies.

Confectioners' Frosting: Beat one egg white lightly with one tsp. vanilla. Add two cups confectioners' sugar and beat until smooth-spreading.

MANDARIN CHERRY MOLD

1 No. 2 1/2 cup fruit cocktail
1 eight-ounce jar maraschino cherries
1 cup marshmallows
2 envelopes unflavored gelatin
1 tall can (1 2/3 cups) chilled evaporated milk
Red food coloring
1 tsp. almond extract
2 tpsps. lemon juice
1/2 tsp. salt
1-3 cup chopped toasted almonds
Drain fruit cocktail and cherries separately, saving syrup. Chop cherries fine. Into top of double boiler, measure one cup of fruit cocktail syrup and one-half cup maraschino syrup. Add marshmallows and gelatin. Cook over boiling water, stirring occasionally till marshmallows melt. Cool till mixture begins to jell.

In separate bowl, put evaporated milk, a few drops of coloring, almond extract, lemon juice and salt. Beat till stiff. With same beater, beat jellifying mixture till fluffy. Fold both mixtures together along with drained fruit cocktail, cherries and toasted almonds. Turn into casserole or loaf pan holding seven cups. Chill until firm (at least three hours). Unmold and garnish with slivers of cherries and whipped cream. Serves twelve.

DEVILED EGG TIMBALES

4 hard-cooked eggs finely chopped
1 tsp. minced pimiento
1 tsp. minced parsley
1 tsp. salt
Pinch each, celery salt, thyme, white pepper
3 tpsps. butter
1-3 cup dry bread crumbs
1 cup light cream
2 egg yolks
2 egg whites
Combine in a mixing bowl hard-cooked eggs, pimiento, parsley, salt and spices. Toss lightly to blend. Cover bowl and set aside. Melt butter in saucepan. Stir in bread crumbs and gradually add cream. Cook until smooth, stirring constantly. Remove from heat and beat in egg yolks. Return to heat and cook for two to three minutes more over low heat, stirring constantly from the bottom of the pan.

Remove saucepan from heat and stir in seasoned hard-cooked egg mixture. Then blend in lightly beaten egg whites. Spoon the mixture into five buttered half-cup timbale molds or custard cups, filling each about two-thirds full. Set molds in pan of hot water and bake at 350 degrees F. (moderate) oven for thirty minutes or till knife inserted in center of timbale comes out clean.

Cool timbales three minutes; unmold onto bed of watercress on serving platter, garnishing each with a pimiento daisy. Top with Mushroom Sauce. Makes five servings.

Mushroom Sauce: In saucepan, combine 1 can (10 1/2 oz.) condensed cream of mushroom soup, 1/4 cup milk and 1/4 teaspoon thyme. Heat slowly, stirring occasionally.

RING MEAT LOAF

2 1/2 lbs. beef chuck
1 lb. lean pork
1-1 1/2 pkgs. onion soup mix
3 eggs lightly beaten
2-3 cup tomato sauce
1/2 cup warm water
1 1/4 cups corn flakes
Gravy coloring
Have butcher grind beef and pork together. Place meat in bowl. In another bowl, place soup mix, eggs, tomato sauce and water. Mix well and add to meat, working in with fork. Add corn flakes and mix well. Pack into lightly greased six-and-one-half cup ring mold. Pat down with back of spoon. Place mold on shallow baking pan; bake at 350 degrees F. for one hour.

Carefully pour off drippings into a cup. Invert ring mold on shallow baking pan. Brush surface of meat with two tablespoons of drippings combined with a few drops of gravy coloring. Brown in 350 degrees F. oven for five to ten minutes. Then, using two spatulas, gently transfer to serving platter. Garnish with duchess potatoes and parsley; fill center with peas and water chestnuts. Serve with Onion-Tomato Gravy (below) to eight.

Onion Tomato Gravy: Combine 2 2/3 cups water, 1-3 cup tomato sauce, 2-3 package onion soup mix, and 1 teaspoon monosodium glutamate in a bowl. Measure 6 tablespoons drippings from meat loaf into saucepan with 1 teaspoon gravy coloring. Place over very low heat; gradually stir in 1/2 cup flour. Slowly add tomato-onion soup mixture, stirring constantly till hot and thickened.

CHOCOLATE TORTE

1 pkg. angel food cake mix

3 cups heavy cream
6 tbs. quick chocolate powder
3 tbs. confectioners' sugar
1/2 cup finely chopped walnuts
1 cup orange marmalade
1/2 cup finely chopped raisins
1 cup coarsely chopped walnuts
Following directions on box, prepare cake mix. Bake in a 10" tube pan at 375 degrees F. for thirty-five to forty-five minutes. Cool upside down for at least two hours. Cut into four equal layers.

To make the filling-frosting, combine in large mixing bowl cream, chocolate powder and sugar. Beat until stiff and peaky. In smaller bowl, combine one cup of the whipped chocolate-cream mixture with finely chopped nuts.

In third bowl, combine marmalade and raisins. Place bottom layer of cake on serving dish; frost top surface with half the chocolate-cream-nut mixture. Then top with second cake layer.

Cover with all of marmalade-raisins mixture. Add third cake layer. Frost with remaining chocolate cream nut mix.

Place fourth cake layer on top. Now frost the entire cake with the chocolate cream. Decorate sides with coarsely chopped nuts and refrigerate till ready to serve. Will serve eight to twelve.

Actors Show Hyperions How Women Play Cards

Members of the 1930 Hyperion Club "saw themselves as others see them" at a meeting Saturday afternoon in the home of Mrs. R. V. Middleton.

A group of players from the Civic Theatre presented a one-act play, "If Men Played Cards as Women Do," and went through the various phases of a card session.

There was an exchange of gossip, aside remarks, and a discussion of fashions and recipes. Taking part in the play were Sgt. Dewey Magee, Sgt. Ronald Uffins, Airman Norman Sant and Airman Hugh McCauley. They were presented with a sum of money to be applied on the theatre building.

Mrs. H. C. Stipp reported on the recent meeting of the city federation. Mrs. Ira Thurman told of the work being done by the volunteer council at the state hospital and discussed the needs of the patients.

She spoke of the charm school, being held each Friday by a Sigma Phi chapter, and of the newly-instituted visitation program.

Announcement was made that an orientation course will begin at the hospital Feb. 11, and all volunteers are invited to attend. Registration will be at 8:30 a.m., with classes to start at 8:45. Luncheon will be served at the hospital, and the session will end at 3:30 p.m.

The club met at Morales' Restaurant for luncheon, and then

gathered in the home of Mrs. Middleton for the play and business meeting. Hostesses with Mrs. Middleton were Mrs. Ova Mae Edwards and Mrs. J. Y. Robb. Eighteen attended the meeting.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers

made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne*)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H.* At your druggist. Money back guarantee.

Brindleys' Open House Marks 45th Anniversary

Exactly 45 years ago Sunday, E. E. Brindley took as his bride Miss Earnest Reagan of Big Spring. The couple marked the anniversary Sunday afternoon with open house at their new remodeled home nine miles from town.

Mrs. Houston Cowden, sister of Mrs. Brindley, and Mr. Cowden assisted the couple in receiving guests. Members of the house party included Mr. and Mrs. Bert Shive, Mrs. Jake Bishop, Mr. and Mrs. J. B. Apple, Mr. and Mrs. Nat Shick, Mrs. Bob Eberly, Mrs. Dorothy Reagan, Carrie Crammell of Sweetwater, Mrs. Granville Dawson of Midland, and a niece and her husband, Mr. and Mrs. Tom Hamm, Abilene. Tommie Hamm of Abilene was at the register.

The refreshment table was laid with a cutwork cloth and featured a pyramid arrangement of snapdragons and roses in graduated hues of pink. A twin floral creation graced the buffet and was complemented with pink tapers in silver candelabra. A silver coffee service was at one end of the table, a silver punchbowl at the other. White napkins were lettered in silver with the couple's names and anniversary date.

Guests called throughout the afternoon.

Mrs. Boren Hostess For MOD Coffee

Coffees for the March of Dimes continued during the week with one given Saturday in the home of Mrs. Douglas Boren.

Sponsors for the affair were the Jaycee-ettes. In the house party with Mrs. Boren were Mrs. David Simms, Mrs. Dave Mayrand, Mrs. James Cape, Mrs. Waymon Phillips and Mrs. Byron Chudom.

An arrangement of yellow gladioli and greenery brightened the serving table, where silver appointments were used.

About 25 members of the Jaycee-ettes and their guests called during the morning.

Two Happy Generals

Major Gen. Donald N. Yates, commandant of the Air Force Missile Test Center, left, and Major Gen. John B. Medaris, commanding officer of the Army Ballistic Missile Agency, wear broad grins as they congratulate each other on the successful launching of the first U.S. satellite at Cape Canaveral. The missile was launched from the facility commanded by Gen. Yates and off a missile designed by Gen. Medaris' agency.

De-Emphasis On Hot Rodders Urged

By ALTON L. BLAKESLEE
AP Science Reporter

NEW HAVEN, Conn. — President Eisenhower's science adviser today called on Americans "to de-emphasize the hot rodgers among our youth and to encourage the hot minds."
But also, Dr. James R. Killian Jr. said, we mustn't try to engage in a numbers race with the Soviet Union for scientists and engineers. Emphasis should be on specialists who also have general education to fulfill democratic needs and goals.
Making his first major public address since being appointed Eisenhower's special assistant for science and technology shortly after Sputnik I was launched, Dr. Killian said this nation must give more priority to its "hot minds" or high-level talent "which has the capacity to lead, to innovate, and to imagine—and thus to advance our society."

ence at Yale University brings together leaders in science, education and news media.
In a message to the conference, Eisenhower said the nation's security and world peace "require all the ingenuity and energy the American people can muster."
"To meet the Soviet challenge and to take full advantage of the promises of this scientific age, we need also a broader understanding and knowledge of the natural forces which man seeks to bring under benevolent control."
Killian said adequate pay for teachers, shortage of student aid and buildings had already been stressed as central and critical needs.
Then he outlined five less-recognized educational needs which he said must be met to keep this country strong:

1. More stress on discovering and educating talented youngsters, especially in aptitude for mathematics.
2. "More rigor and more emphasis on excellence" in high schools. Science should be strengthened. College entrance requirements should be raised.
3. Advantage should be taken of resources of liberal arts colleges to encourage scientific talent and postgraduate science study.
4. More graduate schools and graduate courses in engineering are needed.
5. All Americans should gain "a high degree of scientific literacy."

Houston Attorney Asks Justice Post

HOUSTON — Edwin Smith said yesterday he would seek the Supreme Court seat of associate Justice St. John Garwood.
Dist. Judge Wilmer B. Hunt said earlier he would run.
Smith, 46, practiced in Marshall and Longview before coming to Houston in 1942.

Space Age Touches Sensitive Chord

By GEORGE W. CORNELL
AP Religion Writer

Man-made flight through the heavens today touches a sensitive chord in the churches.
"Handwriting in the sky," some ministers say.
The spiritual consequences, as many see it, can be either helpful or harmful—either open people's eyes to fuller truth, or blind them to anything but dazzling technology.
"He who lives by the Sputnik (science) shall perish by the Sputnik," a Roman Catholic churchman said, recasting Jesus' maxim about the sword.

Few subjects have provoked such wide religious comment lately as the furor over nuclear-space engineering, triggered by Russia's earth satellites.
In Chicago, a group of pastors and Midwestern business leaders pondered how spiritual resources in the nation "must be mobilized to save us." The conference is sponsored by the University of Chicago.
"Victory and survival," the sponsors say, "will come only through deeper understanding of the laws which govern the hearts and minds of men and the practical applications of these laws to national life and our international relations."
In church circles, two opposite tendencies have been stressed as the possible effects of the new technological developments on faith:

1. A heightened sense of reverence and humility before the grandness of the universe, with a more vivid realization of God's infinite supremacy over it.
2. A rash of intensified materialism, stressing sheer mechanical prowess to the neglect of spiritual values.

Such an "exaltation of science above all other forms of power," said Rev. Dr. O. Frederick Nolde, a noted Lutheran theologian of Philadelphia, would mean "falling into the trap" of prof-

fessed atheistic materialists.
It would be vain indeed, he added, to try to outdo a system by becoming like it.
As noted by the Rev. Handel Brown, a Presbyterian pastor of St. Cloud, Fla., the Bible tells of man's first effort to reach into the stratosphere.
That was when people, duplicating Adam's effort to become equal to God, started building the Tower of Babel. "Let us build a tower," they said, "whose top reaches into the very heavens." The result: confusion and dismay.
"There is nothing wrong with outer space exploration," the Rev. Mr. Brown said, "but let us never get the idea that spiritual satisfaction depends upon scientific achievement."
The objective of the final search will not be found in the hazy distances of outer space. It will be found in Christ.
Unlike olden times, when some clergymen fought new scientific feats as devilish tampering with God's order, religious leaders today welcome such achievements as gifts—to be used for good or ill, by man's choice.
The Most Rev. Bernard J. Sheil, Catholic auxiliary bishop of Chicago, says that man, "the alleged master of his destiny" now "stands in terror before his own creation."
"Nothing now intervenes between himself and annihilation except his own moral sense. But he is no longer sure that it will sustain him in this, his hour of truth."
Commented evangelist Billy Graham: "The Bible says put on the whole armor of God, and we need spiritual armor at a time like this."
The Rev. Dr. Maurice Elsen-drath, president of the Union of American Hebrew Congregations, said: "We should at least be as concerned with the mission to mankind as we are with a missile to the moon."

Sterling City Waterworks To Be In Operation Soon

STERLING CITY — The long-awaited waterworks for Sterling City will soon become a reality, according to Mayor John Woolraven. The water tower is being constructed now, and should be completed within the next 30 to 45 days, depending upon the weather.
The water system which will cost \$160,000 was started several months ago. Water for the city will be pumped from a 353-gallon well located a mile west of town.
The tower is second hand, according to Woolraven, but is in good condition.
"We got a bargain in it," he said. "A new tank would have cost us \$29,000, but we got this one for \$17,000."
Water rates will start at \$3.50 per month for a minimum of 3,000 gallons. Usage above that will cost residents 75 cents per 1,000 for the next 2,000 gallons, then 50 cents for the next 5,000. If one uses more than 10,000 gallons per month, he will be charged 40 cents for each additional 1,000 gallons.
If everyone uses city water, the rates may eventually be lowered.
"Not everyone will tie onto the

lines now," he said, "but as their pumps wear out or need major repairs, they'll start using city water."
The water problem has vexed Sterling City for several years. Woolraven said numerous samples had been sent to Austin for analysis, and several of them showed the water to be contaminated. Even the water being used in the courthouse was found to be unsuitable for drinking purposes, the mayor said.

Dallas Gasoline Prices Drop

DALLAS — Prices on gasoline dropped 2 to 4 cents per gallon here yesterday and service stations feared a new price war.
Both major and independent stations were involved. R. G. Herring, president of Dallas Service Stations Assn., predicted the price slashing would spread today.
The cut prices included 24.9 cents a gallon for regular and 27.9 for ethyl, down about 4 cents for each grade.
In last year's war, the price for regular dropped as low as 18.9 cents per gallon.

Midland Woman Held In Shooting

MIDLAND — Mrs. Jearline Green, 27, was held today in the fatal shooting of Eddie Small Saturday night.
Police said Mrs. Green accused Small of attacking her husband, Robert Green, 37, with a meat cleaver.
Mrs. Green said in a statement that an argument started when Small threw Green's coat from a table onto a cafe floor. She said Small grabbed a meat cleaver and began hitting Green about the head and neck. It was then, she said, she shot Small.
Green's wounds required several stitches, police said.

Demonstration By Designer

Dr. Werner Von Braun, designer of the Jupiter-C, shows how the Explorer, America's first successful satellite, is circling the earth every 90 minutes since its launching at Cape Canaveral, Fla. Dr. Von Braun took part in a news conference at IGY headquarters in Washington after it was definitely established that the satellite was in orbit. He holds a model of the Jupiter-C with its slender satellite nose.

**Fatal Plane Crash
Stirs Up A Storm**

LOS ANGELES (AP) — Collision of two military planes over suburban Norwalk, killing 48 persons, brought a demand today for immediate action on the part of the secretary of defense.

County Supervisor Kenneth Hahn noted that the Norwalk disaster was one of three aerial collisions over southern California in as many days.

"I am sending a telegram to the secretary of defense, asking that he appoint a special investigating court not merely to fix the blame for the crash but to study the increasing problems of air traffic in metropolitan areas," he said.

"The court should be empowered to make new rules, if necessary, to protect the lives and property of our residents."

Gov. Goodwin J. Knight earlier called for a full-scale congressional investigation of airway traffic controls.

The tragic series—which took a total of 55 lives — began Friday. Two Air Force B-28 medium bombers smashed together over the desert east of Daggett, killing the two-man crew on one of them.

Saturday night over Norwalk a C-118 Military Air Transport Service plane and a Navy Neptune patrol bomber rammed together. And yesterday, while investiga-

tors still were poking through charred wreckage at Norwalk, two civilian planes collided 30 miles east of here. All five occupants of the two craft died.

The Norwalk collision came on a cloudless night at 2,500 feet with a fiery explosion witnessed by hundreds.

The four-engine MATS transport, carrying service personnel and reservists, had taken off from nearby Long Beach Municipal Airport for McGuire Air Force Base, N. J., five minutes earlier. All 41 aboard were killed.

The twin-engine Navy Neptune had departed from the Los Alamitos Naval Air Station, a few miles away, about 15 minutes before the crash. Aboard the bomber were eight reservists on a routine training flight. Two survived.

The two aircraft fell some 2 1/2 miles apart.

The Navy bomber crashed in an abandoned clay pit, missing blocks of homes by a few hundred feet.

The transport, disintegrating as it fell, hit in one of the busiest sections of Norwalk. Its tail section crushed a service station and its fuselage ripped into the parking lot and garage of the sheriff's office substation across the street.

A 23-year-old housewife, Mrs. Edith Hernandez, was decapitated by a flying piece of wreckage.

**AFL-CIO Opens War
On Teamsters Union**

MIAMI BEACH (AP) — The AFL-CIO declared open war today on the expelled Teamsters Union by directing Michigan labor forces to regroup and leave Teamsters boss James R. Hoffa out in the cold.

The action is expected to spur retaliatory measures from Hoffa who, after taking the Teamsters Union helm under a court monitor system, is holding a pow-wow with the Teamsters Executive Board here next week.

The Teamsters, who defied AFL-CIO corruption charges and were expelled after they elected Hoffa, have reserved a beach hostelry called The Castaways.

George Meany, AFL-CIO president, was due to cancel charters of the Hoffa-dominated AFL Michigan Federation of Labor and the Michigan Industrial Council controlled by onetime CIO chief Walter Reuther.

The AFL-CIO Executive Council, in its opening winter session today, was expected to okay Meany's move and issue a new AFL-CIO charter calling a special convention Feb. 24 at Grand Rapids to establish the new Michigan labor organization.

Hoffa's scandal-rocked Teamsters Union, prominent in the present Michigan AFL federation, will be denied any delegates or voice in forming the new AFL-CIO unit.

Under Hoffa's influence, the Michigan federation says it will balk at the merged Michigan labor setup. But AFL-CIO leaders predict that the bulk of the former AFL union forces in the state would swing over to the new organization.

It means the ascent of Reuther and the descent of Hoffa so far as the key state of Michigan and the rest of the main body of organized labor is concerned.

Nothing New

BRUSSELS, Belgium (AP) — Russia's reports on her two Sputniks arrived at the International Geophysical Year headquarters today. Nicolet said they contained "nothing new."

**Truman Denies
Asking Ike To Run**

NEW YORK (AP) — Former President Harry S. Truman says he never actually offered to back President Eisenhower for the presidency.

In fact, he said in a televised interview aired yesterday, he had warned Eisenhower against seeking the office.

In his book "Crusade in Europe," Eisenhower wrote that at the time of the Potsdam conference in 1945 Truman, then president, told him: "General, there is nothing that you may want that I won't try to help you get. That definitely and specifically includes the presidency in 1948."

Eisenhower said that at the time he treated the remark as "a very splendid joke" and replied: "Mr. President, I don't know who will be your opponent for the presidency, but it will not be I."

Truman made his comment in a See It Now report televised last evening over the CBS network. The interview, moderated by Edward R. Murrow, was filmed a year ago in the Florida Keys.

Truman maintained that he told Eisenhower at Potsdam that "it was my opinion that man at the top with a military reputation could only have that reputation smeared if he went into politics."

Asked if what he said he told the general could be taken as almost an offer and warning at the same time, Truman declared: "It could be taken as that."

The former President said a military career does not give a man the varied experience he needs to understand the whole national picture, as a president must.

He cited Presidents Zachary Taylor, Ulysses S. Grant and Eisenhower as examples.

"They're honorable men," he said. "They want to do the right thing, but they've been educated in a manner that's like a horse with blinders on—he only sees one direction right down the road."

On other subjects, Truman said he decided when he was about 15 or 16 "that it was a sissy thing to be a piano player and I quit," and that he really doesn't like the song "Missouri Waltz," his musical trademark.

AN IMPORTANT ANNOUNCEMENT

*To Every Texan who ever
enjoys a glass of Beer*

Seventeen years ago, a new idea was born. It was this: To produce a beer to match the taste characteristics of the world famous Munich beers of Bavaria — but to combine with this taste, a special lightness of body designed for increased enjoyment in warm or hot climates.

The result was Lone Star... a delightfully different beer of absolutely superb quality ideally suited to the Texas climate. It was the first of the great "light" beers of modern brewing. And it changed the tastes of Texans. It grew almost overnight into a great favorite of the Southwest, became the fastest growing brand of beer in America and built the Lone Star Brewing Company into the largest brewery in the Southwest — all in just a few short years.

But this is history.

Now another new idea is here — an idea that promises to make another great change in the beer preferences of Texas. As you know, many statements are made about beer quality. They concern "top" quality, "premium" quality, "supreme" quality, "consistent" quality, "uniform" quality — or make special claims for water, yeast, hops, grains, and almost every other phase of

beer processing. And many of the same statements are made about almost all beers. Yet taste and common sense tell us that despite what is said, all beers are not the same in either quality or taste.

How then could you, as a consumer of beer, ever be absolutely certain of the relative quality of any brand, — or even that your preferred brand was always the same quality, whenever you bought it?

Until now of course, the answer has been — you couldn't. But now — in Lone Star — you can. For many months now, we at Lone Star have been developing a system whereby the quality of the beer in every Lone Star bottle or can could be verified and Certified by one of the world's greatest independent testing laboratories.

As of this week, this completely new idea in absolute Certification of quality in every Lone Star package has become a reality. And we at Lone Star are proud indeed to be able to bring to Texas the nation's first CERTIFIED QUALITY beer. The Certificate shown here tells you in detail just how much this means.

The "CERTIFIED QUALITY" stamp and registration number you will now find on each Lone Star label tells you these things:

1. Every completed brew has passed through 213 tests and quality checks which have been verified by the United States Testing Company as having met the very highest standards of quality brewing.

2. Every brew has been registered, by number, with the United States Testing Company and individually Certified.

3. The beer you buy in each Lone Star package came from the Certified brew whose number appears on its label.

With the advent of absolute and positive quality certification by a qualified independent, unbiased organization of unquestioned integrity, a new era is now launched in the field of quality brewing. We are proud to say of Lone Star... in no other beer can you now be so sure of "As Fine a beer as is brewed in the World."

Now...
America's only

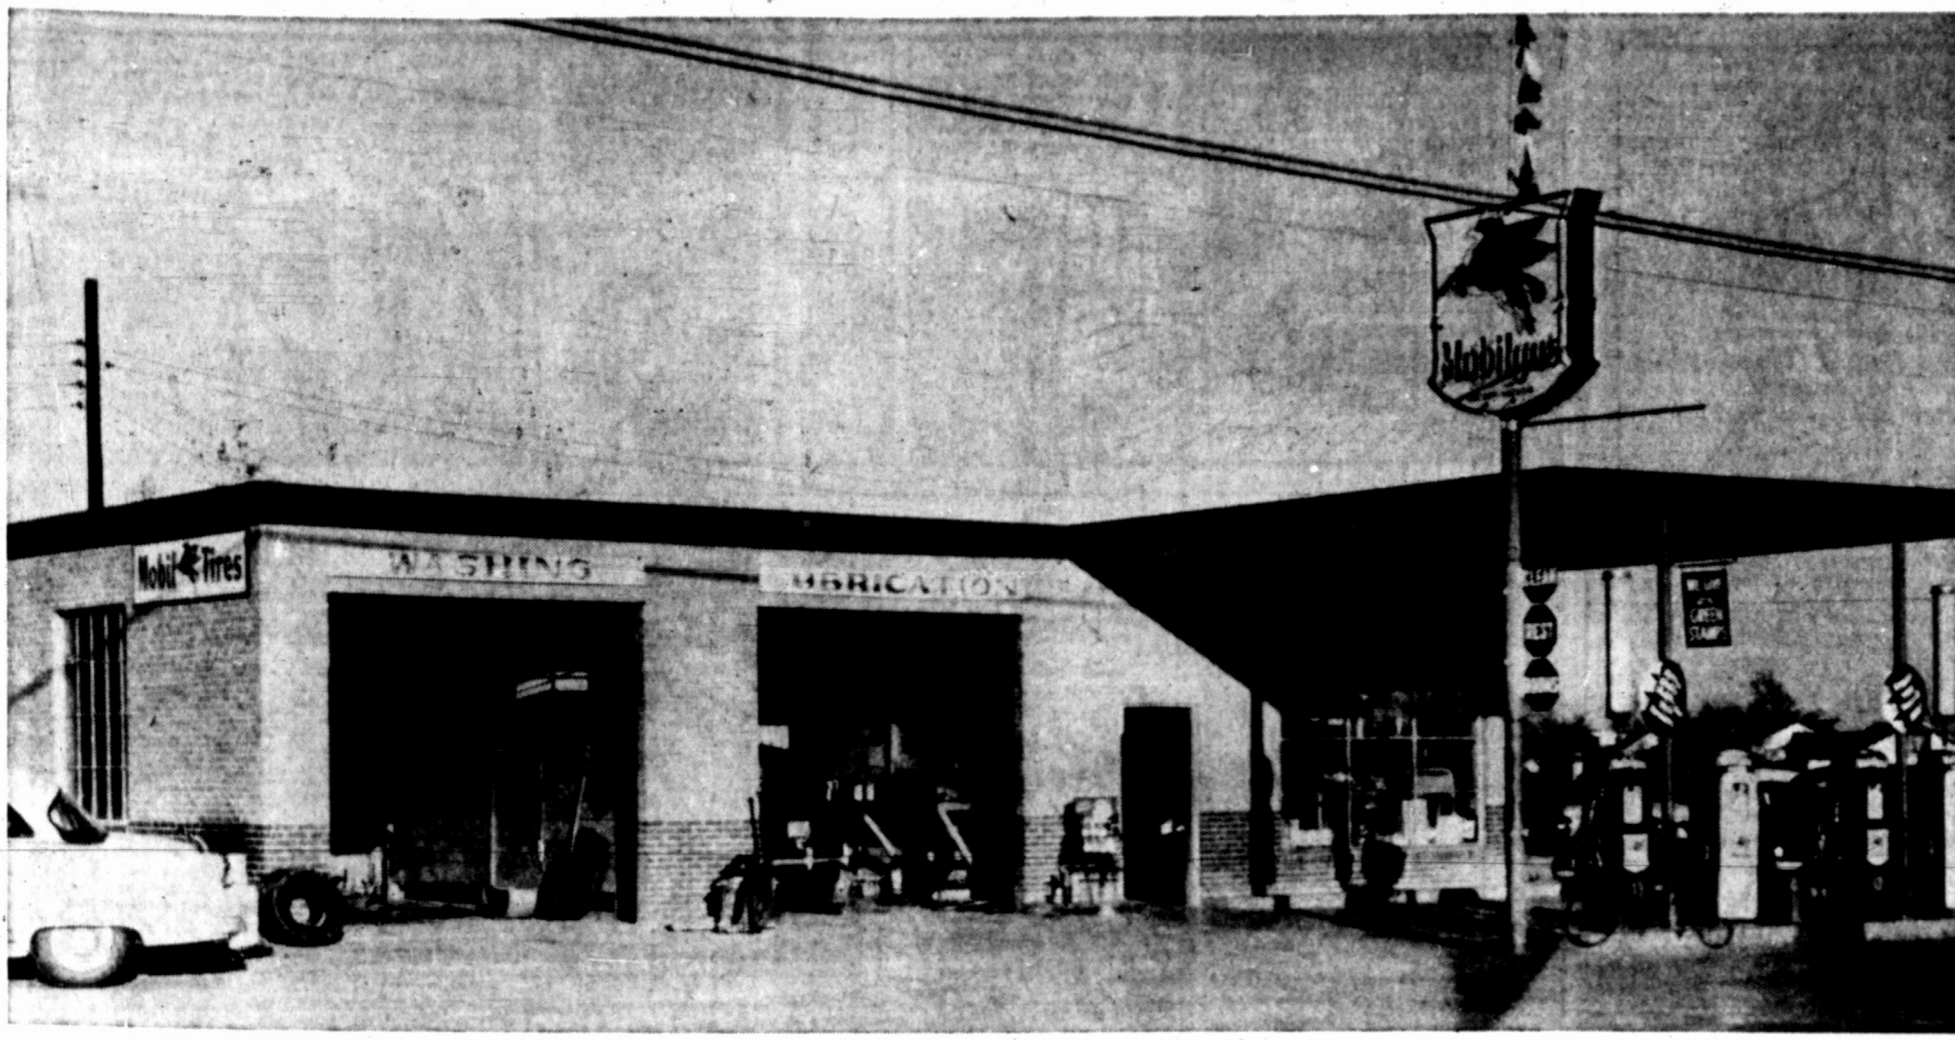

Beer!

Service-With-A-Smile Station

The Grady Harland Magnolia Service Station (above) is one establishment where employees greet customers with smiles. Courtesy is something Harland insists his personnel use in dealing with the public. Not only does the establishment, located at 1000 Lamesa Highway, handle Magnolia premium gasolines and motor oils, but stocks a limited amount of automotive accessories, as well.

City, Ideal Firms Assure Satisfaction

There are two principal objectives to be sought when you send your clothing to a laundry.

First of all, you want the garments cleaned—all of the dirt removed. Second, you want them returned to you in good condition. Ideal Laundry and Dry Cleaners, 401 Runnels, and City Laundry and Dry Cleaners, 121 W. 1st, are specialists in achieving these two ends.

The workmen who operate these establishments are experts in their field. They know exactly how to do the job and, knowing how, they take pride in turning out first class work. A phone call to either the Ideal or the City will insure that your clothing will be returned to you promptly and when you get it back it will be spotlessly clean. You'll be proud of how good it looks.

Both the Ideal Laundry and the City Laundry operate dry cleaning plants in addition to their laundry service. There's a big advantage in this to their customers. One phone call brings the pickup truck for both laundry and

clothing in need of dry cleaning. A single delivery returns both to the customer.

One trial at either the City Laundry or the Ideal Laundry will make a regular customer of you. The service is prompt, the fees reasonable, the work beyond compare.

Phone either of these fine establishments and let them handle your laundry and dry cleaning problem.

Son Fills In For His Ailing Father

YORK, Pa. (AP)—Actor Cameron Mitchell is filling in for an ailing performer in the York Little Theater's production of "Inherit the Wind" which opened Friday night. The performer is his father, the Rev. Charles M. Mitchell, a retired minister. The 37-year-old actor played the role of Matthew Harrison Brady in the play based on the famous Scopes monkey trial of the 20s. Brady is the fictional counterpart of the late William Jennings Bryan. Mitchell said it was the first time he'd ever undertaken a role on such short notice, and added: "It's a great part—just right for my father—but not for me."

Be Prepared For Tragedy

It's always a good idea to plan ahead concerning what procedure to follow when tragedy strikes within your family or your circle of friends, because everyone experiences such a thing at one time or another during his lifetime. When death strikes in a family, it is wise to know beforehand a qualified, responsible mortician, one who is trained to take much of the responsibility of planning rites for the victim off your shoulders.

A local concern qualified in every way to plan for services is the Nalley-Pickle Funeral Home, located at 906 Gregg Street. Nalley-Pickle Funeral Home, owned and operated by Coy Nalley and J. C. Pickle, offers the subscriber the opportunity to pick without pressure the type and kind of service and casket which meets his needs, wishes and purse. The Nalley-Pickle establishment came by its reputation for honesty and business integrity through hard work and long service. Personnel of the Nalley-Pickle Funeral home is capable because it has been well-trained to cater to the needs and wishes of its clientele. Nalley-Pickle can point to a reputation for prompt, reliable service for catering to the public in emergencies. Those who seek out their services find employees of the establishment respond promptly to their calls, regardless of the hour. By virtue of their own and how to do it.

Beauty Consultant To Be At Gound's

A special representative of the Du Barry Cosmetics Co. is to spend a week at Gound Pharmacy, 419 Main, to consult with Big Spring women on their beauty and cosmetic problems. She is Miriam Volt, who will be here five days, Feb. 10-15.

Miss Volt will give free make-up lessons to ladies who make appointments at Gound's for the consultations. She also will go over the individual beauty problems with the women, making recommendations for both present and future needs. Wayne A. Gound, owner of the pharmacy which stocks a complete line of Du Barry cosmetics, said Miss Volt also will confer extensively with all of the sales staff at the store, leaving with them information they can make available to customers concerning Du Barry and Richard Hudnut cosmetics. Miss Volt is to be on hand in the Gound store from 9:15 a.m. until 5 p.m. each day of the week of Feb. 10.

Local women who wish to secure appointments should contact the store this week. Or, the store is mailing out a number of appointment cards which may be used to make reservations. While the beauty consultant is here, Gound's will distribute special "Beauty Care" booklets to women who are interested. Miss Volt also will present miniature items of cosmetics to the customers who confer with her.
