Rescuers Dig For Men In Snowslide

Workers search in vain for the bodies of four men who were swallowed up by a snowslide in the Southwest Colorado Mountains near Ouray. The men shoveling discovered a tractor buried by the avalanche but the bodies of the four men were apparently swept away by the canyon-jumping slide, and it is possible they will not be found until spring.

Farm Problems To Be Studied At HCJC Conference Tuesday

Ways to improve this area's agricultural economy will be explored here Tuesday at the first of two "Agri-Business" conferences to be held in West Texas. The event, to be staged at Howard County Junior College starting at 9:30 a. m., will feature talks by some of the leading agriculturalists in Texas. All Howard County farmers and stockmen have been invited, and Big Spring business-

men also are being urged to participate.

A barbecue luncheon will be served at noon, courtesy of the Big Spring Chamber of Commerce, one of the sponsors. All of the activities will take place in the college auditorium and arrangements are being made to accommodate a crowd of from 200 to 300 persons.

The battery of speakers includes V. G. Young of College Station, state agricultural agent; Jack Bond, who is on the staff of the Texas Agricultural Experiment Station at Bushland; Charles Casbolt, Lubbock, representative of

the DeKalb Agricultural Association; Paul Marion, superintendent of the Spur Experiment Station; C. B. Spencer, Dallas, representing the Texas Cottonseed Crushers Assn.; and Charlie Thompson, Colorado City banker and chairman of the Federal Land Bank of Houston.

Loyan Walker of Abilene, manager of the agricultural department of the West Texas Chamber of Commerce, and C. B. Senter of Van, agricultural representative of the Texas & Pacific Railway Co., are in charge of arrangements, along with local Chamber officials.

Visitors will be welcomed by Dr. J. E. Hogan, president of the Big Spring Chamber. The speakers will be honored at a breakfast to be served at 7:30 a. m. Tuesday at the Wagon Wheel Restaurant.

Topics to be covered at the conference cover such fields as farm credit, outlook for cotton, grain sorghum production and use of the feed in fattening livestock in this area, and land management in dry areas.

The state farm agent will speak on "Agriculture Today and Tomorrow in West Texas."

A similar conference will be held Wednesday at Colorado City. The two meetings are sponsored by the T&P Railway Co., WTCC, Big Spring and Colorado City Chambers of Commerce and state and federal agricultural agencies.

County Slates FM 700 Work

All 29 right of way deeds for the land over which projected FM 700 is to pass are now in the hands of the county commissioners. The last batch of deeds arrived this morning.

A check showed that 90,982 acres of land will have to be acquired by the county for right of way needs for the road. The county has agreed to provide a 200-foot right of way to the state for the road which will be a loop line connecting U. S. 87 and U. S. 80 and extending from the south edge of the city to a point on U. S. 80 near the Cosden refinery.

Now that the last of the deeds have arrived, the commissioners indicated they would begin work on the task of acquiring the needed land at once.

The Howard County Commissioners Court heard a report on the road situation at their meeting on Monday morning. Only routine business occupied the time of the court. Lee Porter, auditor, distributed copies of the annual financial report of the county for 1957.

Stassen, Republican Chiefs Back Off For State Battle

HARRISBURG, Pa. — The State Democratic organization today looked around for a gubernatorial candidate to replace Mayor Richardson Dilworth of Philadelphia.

On the Republican side, state GOP leaders dug in for a fight with Harold Stassen for the party nomination for the same post. They have yet to endorse a candidate to oppose him.

Democrat Dilworth's withdrawal and Republican Stassen's formal announcement of candidacy were prime weekend political developments in Pennsylvania as maneuvering continued for organization tickets in both parties for the May 20 primary.

Dilworth's action left Lt. Gov. Roy E. Furman as the only avowed candidate for the Democratic gubernatorial nomination. Gov. George M. Leader has hinted strongly he would not accept Furman as his running mate in the governor's expected candidacy for the U. S. Senate.

Allies No Judges In African Dispute

LONDON — The Foreign Office said today the United States and Britain will act only as go-between — not judges — in trying to help repair relations between France and Tunisia.

Nothing the United States or Britain does or thinks about the situation will be binding on the other two countries, a spokesman said.

'Normal Channels' For Summit Meet Urged

Iraq Parliament Ratifies Union With Jordan

BAGHDAD, Iraq — The Iraqi parliament today ratified the agreement joining Iraq and Jordan into a federal Arab state.

King Faisal II, who made the agreement with King Hussein of Jordan last week and who will be chief of the federal state, was present for the debate.

Premier Abdul Wahab Murjan declared the union will be the cornerstone for full-fledged Arab unity.

Former Premier Fadhl Jamali, in an apparent reference to the United Arab Republic of Syria and Egypt, to be headed by President Nasser, said "We do not want an empire led by one person, but we want a union to federate the Arab states and maintain their personalities."

The federation of Iraq and Jordan, he added, was necessary for security against the dangers of Zionism and communism.

He said he hoped Syria, Saudi Arabia and the Persian Gulf sheikdom of Kuwait would join the new federation.

King Saud of Saudi Arabia, who has remained aloof so far, sent his blessing for the federation to King Hussein of Jordan, Pakistan, Britain and Spain also sent congratulations.

'Much Colder' Weather Due

Much colder weather, with wind to add to the discomfort, was forecast today by the U. S. Weather Bureau.

The temperature Monday morning was definitely on the cold side. It was 22 degrees for the low last night and at 8 a. m. today the mercury stood at 24 degrees.

Gray skies, a very faint mist and a cutting wind sent pedestrians scurrying.

The change was in marked contrast to Sunday—a balmy pleasant day with bright sunshine and a temperature that hit 69 degrees in midafternoon.

Tonight will partly cloudy and cold, the Bureau said. The same is on tap for Tuesday.

By The Associated Press
Texas was chilled again today as cold winds, driven south by western fronts, spread across the state. But the state escaped the fury of storms that hit the East Coast.

There was no sign of a lull within the next few days. The Weather Bureau's 5-day forecast called for temperatures to be from 24 to 37 in the northern areas of West Texas, 37 to 47 in the South Plains areas. Normal maximums should be from 52 to 68.

Forecasters said West Texas weather would be colder tomorrow, with a mid-week rising trend, and turning colder for the weekend.

Precipitation should be in the form of moderate to heavy showers.

Ike Says Present Efforts In Impasse

WASHINGTON — President Eisenhower in a new letter to Soviet Premier Bulganin has suggested that both sides work through normal channels for an eventual East-West summit conference. He described present efforts as an "impasse."

In what was in effect a reply to

NEWS IN BRIEF

MIDLAND — Loretta Cline, 17, of Corsicana, was killed late last night when her car overturned near here. Her death raised to 18 the number of violent deaths in Texas over the weekend.

ROME — Heavy fog today hampered a search over southern Italy and the Ionian Sea for an American Air Force plane missing with 16 persons aboard.

CRESCENT CITY, Calif. — Three persons burned to death and a fourth is missing in a fire which destroyed a block of business buildings in this northwestern California logging community last night. The fire started in a hotel.

EVANSVILLE, Ind. — Five persons were killed when an explosion and fire destroyed a farm home near here. Firemen gave the cause of the fire as a gas furnace explosion.

THOMASVILLE, Ga. — President Eisenhower today continued to await weather favorable enough for him to play golf or go quail hunting.

Eisenhower arrived from Washington last Thursday in the hope of finding warm sunshine which would help him get rid of a cold. Snow, subfreezing weather and rain have restricted his recreation to beside-the-fire bridge.

SEOUL, Korea — The North Korean Communist regime today admitted in a broadcast from Pyongyang, North Korean capital, that a South Korean national airplane had been forced by Communist agents to land in North Korea. It was believed here that the action may have been in reprisal for the recent arrest of a top Communist agent in South Korea.

Jury Rakes Youth Crime

DALLAS — The grand jury returned indictments today, saying this area "has a teen-age robbery problem."

"After five weeks of enduring a sickening parade of nice appearing young people from good families who have turned into thieves, the grand jury suggests to the parents of this county that they make a point of knowing where their young people are and who they are with when they go out," the jury said. The report continued:

"Gangs of 17 and 18-year-old boys, largely high school students, are being apprehended by police. Businessmen are being held up and citizens slugged and robbed en route home from work."

"The grand jury feels that these young men... should be indicted and sent to trial."

"We know that the citizens of this county can be killed just as dead and robbed just as completely by a youth at the start of his criminal career as by a seasoned criminal."

Police Chief Forrest Keene of Fashionable University Park stated:

"Parents should check their kids' cars from time to time. They'd be surprised what the kids are carrying under their seats or taped under the dashboard."

This followed the arrest of two vodka drinking boys caught with a pistol, blackjack and two daggers. He said the two had fired five shots from the pistol at five older boys, none of which was hit.

It Snows And Blows At South Pole, Too

NEW YORK — At the South Pole it snows and blows, too.

But only about two inches of new snow accumulated there during the entire last year when Americans lived at the U. S. base and measured snowfall.

Land at the South Pole lies under 8,300 feet of snow and ice—showing what can happen if nobody shovels.

Bulganin's criticism of Secretary of State Dulles, Eisenhower said any preparatory work "would, as far as the United States was concerned, require the participation of our secretary of state."

The White House made public today the text of Eisenhower's six-page reply to letters from Bulganin. It was sent to Moscow Saturday.

Eisenhower expressed "considerable puzzlement" in view of Bulganin's proposals as to "what you think another such summit-meeting could contribute to a genuine settlement of our problems."

He accused Bulganin of demanding "the right to veto discussion" of the proposals Eisenhower believes vital to international peace.

Eisenhower said he came to this conclusion because Bulganin has "proposed and insisted on" discussing 10 topics. Eisenhower in turn suggested discussing eight other problems to which Bulganin has objected.

Eisenhower said in reference to earlier exchanges:

"I wrote that, if there were to be a top-level meeting, I would be willing to discuss your proposals in good faith if you would so discuss mine. Your answer is that I must be prepared to discuss your proposals but as regards mine there must, you said, be unanimous agreement of all participants as to the necessity for considering such proposals." In other words, you demand the right to veto discussions of the matters I believe to be vital to peace."

Setting aside diplomatic language, Eisenhower said he deplored "constantly mounting accusations within the Soviet Union" to the effect that the United States is ruled by "aggressive war-minded imperialists."

He cited party chief Nikita Khrushchev's Jan. 22 speech in Minsk as "an outstanding example of such charges."

"What is the explanation of such charges?" Eisenhower asked. "They seem to fly in the face of established history."

The President said he was really amazed to hear Soviet leaders who have never been near this country contend that there are Americans who call for preventive war.

"If any such persons exist in the United States," Eisenhower said, "I do not know of them, nor do I know of any 'imperialist ruling circles' that are supposedly eager to plunge the world into war in order to make financial gains."

U. S. PROPOSALS
Eisenhower again called for the Soviet Union to consider these proposals:

1. Limit use of the veto in the U. N. Security Council.

2. Agree to devote outer space to peaceful purposes only. Eisenhower said Bulganin seemed to "belittle this proposal" and declared: "A terrible new menace can be seen to be in the making. That menace is to be found in the use of outer space for war purposes."

"The time to deal with that menace is now. It would be tragic if the Soviet leaders were blind or indifferent toward this menace as they were apparently blind or indifferent to the atomic and nuclear menace at its inception a decade ago."

3. Make a start toward disarmament by "checking the use of fissionable material for weapons purposes."

Eisenhower, as a follow-up to last month's cultural exchange agreement with Russia, suggested that leaders of thought and influential citizens within the Soviet Union should visit the United States not to acquire technical knowledge but rather to learn at first hand "the feeling of our people toward peace and the working of our popular institutions as they affect our conduct of foreign relations."

Eisenhower said: "Most of the Soviet citizens who exert an influence are strangers to this country with, I feel, totally false conceptions. These misconceptions I should like to see corrected in the interest of better relations."

"I can assure you that groups of qualified citizens of the U. S. S. R. coming here for the purpose I describe would receive every facility to learn about our country and our people and the working of our political institutions."

"I think our young people should get to know more about each other. I strongly feel the recent agreement for the exchange of 20 to 30 students a year is a small step in the right direction, but woefully inadequate. I may write you further on this topic."

Hospitalization For Dogs

Mrs. Frank R. Zagarino found hospitalization insurance for dogs handy when Mrs. Magoo, her pet, turned up with an injured foot. In fact, if your dog and cat stage an old-fashioned nose-clawing, tail-chewing battle, hospitalization insurance now is available that will pay for surgery, X-ray, drugs and other necessary veterinary hospital expenses while the wounds are healing.

Probers May Air FCC 'Influence'

WASHINGTON — Allegations that some persons connected with the White House tried to influence decisions of independent regulatory agencies may be aired today before a House subcommittee.

Bernard Schwartz, who has made such allegations, was summoned back to continue his testimony before the House group which fired him a week ago as its counsel.

Schwartz was ousted in a row over the conduct of the subcommittee's probe of the Federal Communications Commission and five other regulatory agencies.

He has charged that FCC Commissioner Richard A. Mack accepted at least \$2,500 dollars from a lawyer for one of four applicants for television Channel 10 in Miami, Fla. Schwartz said Mack was pledged to vote for the lawyer's client, which received the grant last year.

Mack, who has said Schwartz's charges are "without foundation," will testify later in the week, perhaps Wednesday.

Schwartz has said a "White House clique" has exerted pressure on supposedly independent agencies which regulate the broadcasting, airline, power and other industries. He has not given

details, but has mentioned the names of Sherman Adams, President Eisenhower's top aide; Secretary of Commerce Weeks; former New York Gov. Thomas E. Dewey; and Col. Gordon Moore, a brother-in-law of Mrs. Eisenhower.

Chairman Harris (D-Ark) of the investigating subcommittee pledged to "go through to the end to present all the facts" concerning the FCC's award of Miltm's TV Channel 10 to Public Service Television, Inc., a subsidiary of National Airlines.

Figuring in Schwartz's charges of White House pressure on regulatory agencies are letters reportedly written by presidential aide Adams to Murray Chotiner, a Los Angeles lawyer who managed Vice President Nixon's campaign for the Senate in 1950.

Body Found

HOUSTON — The bloody-faced body of a night watchman at the Coastal Concrete Co. was found on the grounds of the plant today. The man was James Beatty, 53, who lived on the plant premises.

U.S. Conciliation Effort Threatened

TUNIS — U. S. efforts to conciliate between France and Tunisia were threatened today by a Tunisian demand that the U. N. Security Council investigate the Algerian rebellion now.

Tunisian President Habib Bourguiba cabled his U. N. delegate, Mongi Slim, to put the new demand before the Council as an extension of Tunisia's previous protest against the French air attack Feb. 8 to the border village of Sakiet Sidi Youssef. The Council is scheduled to debate the earlier complaint tomorrow.

Bourguiba said in an interview he had enlarged his demand because France had countered his first protest to the U. N. with a demand for a U. N. investigation of Algerian rebel operations from Tunisian sanctuaries.

The French contended they bombed Sakiet Sidi Youssef because rebels were concentrated there. The Tunisians claim 79 persons, including women and children, were killed.

Western sources termed the new Tunisian move "highly embarrassing." They feared it would give the Communists a new platform from which to attack the West. The American Embassy said

Bourguiba's action had made U. S. conciliation efforts more difficult. "It is time for the whole free world to take a stand on Algeria," the Tunisian President said. "One can no longer continue the fiction that it is only an affair for France."

"They (the French) have charged that the fellegha (rebels) operate from Tunisia. Now I want the world to see and discuss what has made these fellegha, why there are fellegha and why they fight."

The Asian-Arab group of nations has brought the Algerian rebellion before the General Assembly three times but it has not been before the Security Council before. France has previously rejected all U. N. intervention, contending that her North African territory is her domestic concern.

Meanwhile, the military situation continued calm in Tunisia, with no sign of an incident between Arabs and Europeans. Bourguiba has demanded that French troops quit the country. He said he had yielded to an appeal from U. N. Secretary General Dag Hammarskjold not to make things impossible for the troops by denying them food. Supplies moved into the French camps on a semi-normal basis.

Queen And Escort

Escorted by Speaker of the House Sam Rayburn (D-Tex.), Miss Barbara Denechaud, 18-year-old New Orleans beauty, makes her grand entrance to the Mardi Gras Ball over which she reigned in Washington, D. C., as Queen. Costumed members of the Krewe, seated on the floor, join in the applause. The 1958 ball was dedicated to the Louisiana Waterways Industries.

Food For Needy

Some of the representatives of 178 eligible families are shown getting surplus food passed out by the City Relief Bureau at Warner Park field house in Chattanooga, Tenn. A total of 932 persons are in the families hit by unemployment. They got cheese, meal, flour, powdered milk and rice on the basis of the number in each family. It was called a month's ration.

Demo Issues Are Highways, Housing

WASHINGTON (AP)—Senate Democrats picked highways and housing today as likely to offer the speediest opportunities to pump federal expenditures into the faltering economy.

Sen. Gore (D-Tenn.) announced the Senate Public Works subcommittee he heads will begin hearings tomorrow on proposals to accelerate the interstate highway program.

Sen. Sparkman (D-Ala.) said in a separate interview he is drafting legislation aimed at making it easier for people with moderate incomes to buy houses in the \$10,000 to \$15,000 bracket.

Sparkman's plans call for still further easing of down payment requirements in that bracket, and for other actions to make more housing credit available.

The weekend brought disclosures also that both the administration and Democratic House leaders are studying the possibility of tax cuts at some later date, and that the administration is working toward proposal of another billion-dollar building program.

The billion-dollar program, most of it from private sources, would go for construction of 150 to 170 federal buildings under a proposed revival of the lease-purchase plan.

The government would take title after paying for their construction in rents over a period of years.

The government already is pushing a \$36-million-dollar program involving 92 lease-purchase projects already approved.

Last week President Eisenhower proposed a two-billion-dollar postal modernization program.

Within the government, the Treasury, the President's Council of Economic Advisers and other agencies were reported studying "preparedness" plans for tax reductions, but without expecting any need to use them to bolster the economy.

House leaders are talking in terms of a tax slash of more than five billions, if they think the economy needs it.

The total is expected to include proposals for income tax cuts in each, whole or partial elimination of the low and middle income brackets of World War II transportation

taxes, some excise tax reductions, relief for business, and some revisions to eliminate unintended hardships.

The Democratic Advisory Council took a different approach. It suggested the government spend more, especially for defense.

Properly done, it said, such a program would help the economy, leave present tax rates unchanged and still permit a balanced budget.

It said from 9 to 12 billion dollars more than the nearly 39 billion dollar current defense budget could be spent over the next three years "without undue strain on our economy."

Gore said he now is thinking in terms of speeding up the interstate highway program by efforts to earmark more of the highway users taxes for road building.

Governors of Massachusetts, New York and Colorado will testify in Washington. They also have been extended to several other governors.

Two Youths Die, 3 Hurt In Drag Race

REDWOOD CITY, Calif. (AP)—A 17-year-old expectant mother and a 21-year-old machinist were killed and three other youths, including another pregnant teenager, were injured in a "drag race" yesterday.

Robert J. Bruschi, San Mateo, was killed instantly when one of the two speeding cars in the 90-mile-an-hour race down a residential street at 1:30 a. m. smashed into two parked cars.

Mrs. Teddie Jean Hunt, Menlo Park, died in a hospital an hour later. She and her husband James 19, who was injured, have an 18-month-old son.

John Miller, 22, Redwood City, driver of the car which crashed, was booked at city prison on suspicion of manslaughter.

Miller's wife Peggy Jean, 17, an expectant mother, was treated for minor injuries, as was another passenger, 19-year-old Mary Houle of Belmont.

LETTERS TO THE EDITOR

Dear Editor:

In the Sunday, Feb. 16, B. S. Herald an article appeared with the heading "Illness Causes Injury Symptoms". In this article they referred to strept throat as the illness, which in this boy's case did exist I'm sure, after all most of us will suffer a slight soreness of the throat if we holler a great deal, the only difference we possibly have never screamed "help" as many times as he did.

This all started last Thursday at one of our public schools, one of our elementary schools. Perhaps it was 2 p. m. or 4 p. m. it doesn't matter after all it was not a scheduled bout, just a case of a young gang like most. The principles of such being 16 against one. That's right 16 boys ages 8 through 13 vs one 8 year-old, 60 lb., 4-foot-2-inch second grader. The difference was pretty great. Those parents should be proud for they have a winner, that is if the boy was one of the 16. The parents of the loser, well the odds were against him, that is why he was in this hospital suffering with abrasion, bruises, yes even possible concussion. They say strept throat. I wonder why when this boy would scream out while trying to sleep "HELP ME."

Results—perhaps he'll be back on his feet again. But what about his memory that's important too. Fear is a terrible thing, yet this little eight year old boy has every reason to be afraid or to hate. Which will be the stronger, will he be turned to a gang for protection or be a hoodlum like those who attack him? No, not this child for he has truly good parents, interested in him as a son, not a hero people will praise and rave about no that's material things for bragging. He'll one day be a real man and not a coward and bully like these sixteen boys.

All considered it's discouraging to know that children of the ages 8 through 13 have acquired in their short life so much hate that they can and do resort to criminal assault, perhaps they are not to blame. So be proud parents your boys were great that day, they won. You're only worry is that one day they won't have their gang to back them up. Then you will know what a coward you have raised.

It has not been my intention to slander the Herald for what was reported to them, it is my intention to get through to the people the truth which has not been reported this time or previous times. For this has happened before and will continue to happen if something is not done. And the coach's paddle is not the cure.

Ninety nine Robbin and a speedy recovery little man.

Mrs. Charles Hood
1810 Morrison Dr.

know what a coward you have raised.

It has not been my intention to slander the Herald for what was reported to them, it is my intention to get through to the people the truth which has not been reported this time or previous times. Mrs. Charles Hood
1810 Morrison Dr.

Dear Sir:

Last night (Feb 14) I went to the railroad station in Odessa to put my mother-in-law on the late train. I found several hundred high school students from Big Spring in and around the station. They were feeling fine because the basketball team had defeated Odessa and the victory gave Big Spring the district championship.

I wish you to know that in spite of the fact that the Big Spring boys and girls, and lots of their mothers and fathers, teachers and friends were packed like sardines in the waiting rooms and on the platform, and in spite of the fact that the train was late on a night when they had every temptation to celebrate, that they all of them, behaved like ladies and gentlemen. I am proud of the people, including the younger generation, of Big Spring.

Sincerely,
Harold Young
Attorney at Law
-107 E. 4th St.
Odessa, Texas

Local Girl To Make McMurry Choir Trip

ABILENE—Mary Ella Bigony of Big Spring, a senior at McMurry College, will accompany the college's Chamber choir group on its annual spring tour, which begins March 1.

The Chanters, a mixed voice choir under the direction of Dr. Richard C. von Ende, head of the music and fine arts department at McMurry, will tour the Panhandle and parts of New Mexico, going as far as Las Vegas—there will be 15 appearances.

U.S. Britain Ink Pact For Missile Bases

WASHINGTON (AP)—The United States and Britain have successfully negotiated an agreement for jointly controlled nuclear missile bases. It seems certain to become the pilot pact for arming other NATO allies with medium-range rocket weapons.

A formal announcement is not expected before midweek.

The key to the agreement is joint control of the missile system which will be set up on British soil with American-made weapons.

The issue of who would pull the trigger in event of a war has been hotly debated in Europe. Those who opposed arming NATO with nuclear missiles argued that the United States might plunge an Allied nation into war without that nation's consent, merely by pushing a button.

The 1,500-mile missiles which Britain will receive from the United States, according to reports here and in London, will be distributed among four bases along the eastern shores of the British Isles.

London dispatches said that Britain would pay the 90-million-dollar cost of constructing the base. The United States will supply the missiles by the end of this year and U. S. crews initially will handle the weapons. British crews will take over as soon as they can be trained.

The hydrogen bomb warheads, with which the missiles would be equipped in wartime, will be stockpiled at the bases but they will be under U. S. control. Under U. S. law the President cannot transfer atomic weapons to any other country.

At the NATO summit conference in Paris in December the heads of the 15 Allied governments decided that NATO defenses in Europe should be reinforced with U. S. nuclear missiles. They left it up to Gen. Lauris Norstad, supreme Allied commander, to decide where the missile bases should be and to work out arrangements with the governments concerned. Then those governments and the United States will negotiate formal agreements.

U.S. Population About 172,790,000

WASHINGTON (AP)—The population of the United States was about 172,790,000 as of the first of the year.

This estimate, reported by the Census Bureau, was about three million bigger than the previous year and represented a rise of more than 22 million since the last general census in 1950.

The bureau said both births and deaths in 1957 reached record totals for any year in U. S. history.

New 'Egg Law' Is Effective Today

The new egg law which goes into effect today will change the methods of some local poultry owners, says Bert Badger, inspector with the Texas Department of Agriculture. Badger has been working with the new law for several weeks, and to acquaint producers and grocers with the new law, sets forth some of the provisions of it.

1. Small producers, such as a farm housewife who sells a few dozen eggs a week, may sell eggs without grading or marking them. She will not be allowed to advertise them as anything but ungraded eggs, however.

2. All stores selling eggs must have them marked in some way or other. If the eggs are ungraded, then this must be shown on the carton and also in the advertising. A store will not be allowed to advertise any eggs as "High Quality," "Country Fresh," or similar terms, unless the eggs have been classed as Grade A or higher.

3. Regular producers must have their name and address on the carton if the eggs are to be sold under the owner's label. If the grocer buys eggs wholesale or in large cases and then resells them under the store's name, then this name and the grade of the eggs must be shown on the carton.

4. Small producers are not required to label their ungraded eggs, but if they are bought for resale then the second seller must label them by the proper grade.

5. Everyone selling graded eggs must buy a license. The cost ranges from \$5 to \$25 annually, depending upon the number of eggs sold monthly.

The grocer is also required to secure a license, though he is given one free of charge. Hotels, cafes and hatcheries are exempt from the law, except that they cannot advertise eggs as being higher than the actual grade. All grades are the same as those set up by the U. S. Department of Agriculture, and no producer can use the term USDA on his egg cartons unless the eggs meet the USDA standards.

The license is not required for the farm flock owners if he sells ungraded eggs. If he buys eggs from a neighbor, however, and mixes them with his own for resale, then a license is required. The license may be obtained from John C. White, Commissioner of Agriculture, Austin, Texas.

This is not a new type of law, says Badger. Texas is the last state in the union to pass it, and thus far it has been highly successful in other areas. The fact that Texas had no such law has caused the state to become a dumping ground for stale, inferior eggs.

Anyone affected by the law who wishes more information on it can visit or telephone Bert Badger whose office is in the basement of the Post Office Building, Big Spring.

Trapped In Boat ASBURY PARK, N.J. (AP)—When the annual Jersey Coast Boat Show closed its doors Saturday night, the exhibitors found piles of snow outside. A dozen of them curled up in the sleeping facilities provided in the boats they were exhibiting.

Learns Son Is Dead

Mrs. Eula Burns puts her hand to her head and bursts into tears as she and her husband, center, were told by San Bernardino County, Calif., Sheriff Frank Bland, right, that their 13-year-old son, Donald, had been found dead. The lad tumbled onto a ledge in rugged mountain country while hiking with companions.

Official Blindness Keeps Victim In The Snake Pit

By FRED POWLEDGE
CLINTON, Conn., Feb. 17 (AP)—For the better part of 15 years, John J. Egan has lived in the shadow of a maddening nightmare.

He spent five of those years in and out of mental institutions in what the U.S. Court of Claims called a case of "mistaken identity and almost incredible negligence" on the part of the government.

And, for the past 10 years, he has been fighting to convince neighbors and employers he is not only sane but never was insane in the first place.

Egan's record is legally clear now. But, after 15 years, he's a broken man. He has no job and very little money. He's almost a social leper. He is 45 years old. The story started during World War II on the Pacific Island of Samoa.

He was serving on Samoa when he had an attack of bronchitis. Egan was being treated in an infirmary when a fight broke out between an enlisted man and an officer. One of the brawlers was being treated for mental troubles.

Egan started to separate the two. The next thing he knew, he was being restrained and a needle was going into his arm. When he woke up, the tragic mistake had happened. As far as the Navy Department was concerned, he was insane.

The Court of Claims, ruling on the case last month, found that witnesses to the fight had lied to make it easy on the enlisted man. They said the fight never happened. The Navy concluded Egan imagined it.

Egan was shipped back to the States and began the rounds of various government mental institutions near Washington. No one in the institutions believed his story. Most insane persons are sane to themselves.

names were the same and the serial numbers were similar. The Marine Corps, thinking the two men were one, discharged Egan. He appealed and lost.

Egan, now a civilian, found a job with the Veterans' Administration in Hartford. The VA learned that his military record was not clear. They fired him on Christmas Eve, 1945.

He appealed and was reinstated; then fired again. In 1948, his case was reviewed by the secretary of the Navy and he was declared sane. His record was cleared to the satisfaction of the VA. He got his job back.

Then the VA cut its working staff. Egan was discharged. He became a field representative for the Social Security Administration—until his superiors checked his record. They decided he was unfit to administer federal law.

That was in October, 1956. Since then Egan has not held a job. Employers don't like to hire workers who have been in mental institutions even though their records may be clear.

Egan didn't quit fighting. His attorney took the case to court and, after an involved legal process, the Claims Court ruled that Egan was due a captain's back pay for the five years he had been declared insane.

Resort To Prayer To End Walkout

LAMAR (AP)—Lamar residents resorted to prayer in seeking an end to a six-week strike at the Lawn Boy Co. plant, largest employer in this town of 3,300. The town's 10 churches were filled as the worshippers heeded a plea from the Ministerial Assn. to pray for reconciliation of the plant management and the 350 members of the striking United Auto Workers.

Weather Moves Up Layoff Schedule

NEWARK, N.J. (AP)—When the Westinghouse Electric Corp. announced that some 1,200 workers at a plant here would not work today, it may have been of some concern to the workers.

But as far as the company was concerned, it was a mere matter of bookkeeping. The plant has been laying off workers for a day at a time off and on because of production cutbacks. The next layoff was scheduled for Monday, Feb. 24. So the company just moved it up one week because of the weather.

3 by the wage dispute. Negotiations are at a stalemate.

Education By Mail Plays Important Role In Russia

By THOMAS P. WHITNEY
AP Foreign News Analyst

Correspondence courses play an extraordinarily important role in Soviet higher and technological education. The latest figures in Russian statistical handbooks—for the school year 1956-57—show that 36 per cent of total enrollments in Soviet universities and institutes consists of students taking correspondence courses.

According to Dr. Homer Kempfer, executive director of the National Home Study Council in Washington, there are from one to 1 1/2 million active pupils of correspondence courses in the United States. Most, he said, are studying courses of college level. Correspondence courses are of particular importance to Soviet men and women who wish to continue their education but must also stick to their jobs.

National Guard Saves The Day

WASHINGTON, N.J. (AP)—When Mrs. Oscar Dancy went into labor at her home on top of Montana Mountain during the height of the snowstorm, state police sent a snowplow to clear the road to her house. The snowplow got stuck.

Wilderness-Type Rescue In Brooklyn

NEW YORK (AP)—A policeman's widow got snowbound in her Brooklyn cottage. Two police radio cars, two sanitation bulldozers and a police emergency squad failed to reach her.

High Schoolers Advised To Improve Study Habits

KENT, Ohio (AP)—Even the high school valedictorian—the person who holds the No. 1 spot in the graduating class—may find the sledding rough in college because of poor study habits, says an Ohio educator.

Dr. Loren S. Hadley, director of Kent State University's new student program, writes in a recent issue of "School and Society" magazine that "about 95 per cent of those entering college lack adequate study skill, and this includes many high school valedictorians."

Autopsy Ordered In Actor's Death

HOLLYWOOD (AP)—An autopsy has been ordered to determine the cause of the death of actor Philip Van Zandt, 54, whose body was found yesterday in his apartment. A bottle of sleeping pills was beside him.

Warmup Leaves Her Out In Cold

CINCINNATI (AP)—Mrs. Mary Hart had cold feet so she heated an iron on a stove, wrapped it in a towel and went to bed. The idea worked and she soon was asleep. But her comfort was short lived. She awoke to find the bed afire.

Starts His Own A-Bomb Project

OXNARD, Calif. (AP)—City Atty. Joseph Goss wrote a letter to Dave White of Oxnard asking him to return two books long overdue at the public library. The books were "Atomic Power" and "How to Make an Atomic Bomb in Your Own Kitchen."

Thief Has Wit

CLEVELAND (AP)—While three thugs slugged and robbed a drug-store operator of \$500, a fourth member of the gang sold a cigar to an unexpected customer. Edward Chakoff, 36, owner of the Purity Drugstore, told police he was held on the floor behind a counter while the fourth thug sold a cigar to a customer, told him the cash register was broken and asked him to return later and pay the 15 cents.

The Impala Convertible with Body by Fisher. Every window of every Chevrolet is Safety Plate Glass.

Going great and for good reasons! '58 Chevy

The sales figures, we're happy to say, leave no room for doubt. People like this '58 Chevrolet enormously! They like its looks, its new length and lowness, its remarkable new ride, its peppery new performance—all the things that make it nothing but new. Stop in and see how easy it is to own. You'll get the best buy on the best seller—Chevrolet!

NEW CHEVROLET STATION WAGONS

Chevrolet's new wagons are lower, wider and nine crisp inches longer. All have a new, larger liftgate that curves clear around at the corner. And it raises completely out of the way for easier loading. If you've got the yen for a wagon, Chevy's got just the one for you. Five, in fact, to pick from.

Deadly Storm Hits Northeast Regions

By The Associated Press

A death-dealing storm swept across the Northeast yesterday, leaving snow falls of up to 58 inches. The storm had hit an area from Mississippi to New England.

The storm was centered over Portland, Maine, today and heading for the Atlantic.

Meanwhile, a polar air mass over the Midwest dropped temperatures to the lowest level of the year.

The upper Plains had readings such as 30 below zero at Bismarck, N.D., and 29 below at Bemidji, Minn.

Winter's double-barreled blast left in its wake at least 60 deaths.

While Weather Bureau officials in New York City hesitated to call the Northeast storm a blizzard, they conceded that one of a blizzard's three key features—frigid temperatures—had made use of the term possible.

The temperature in New York City was down to 8 degrees before dawn.

The two other attributes of a blizzard, swirling snow and high winds, had already taken hold of much of the Atlantic Coast.

Even after the center of the storm had passed most of the Northeastern section of the nation, snow continued to fall from the eastern Great Lakes and the upper Ohio Valley to New England. Gusty winds reached 50 miles an hour.

In Boston, a 37-year-old record was swept from the books last night when 17 inches were measured. The City Weather Bureau spoke of "the wildest coastal storm of the winter." The old mark for a 24-hour snowfall in the city was 16 1/2 inches, set in 1921.

At least 11 Connecticut communities declared states of emergency and similar steps were ordered in other New England states, New York and Pennsylvania. The big problem was drifts—some as high as a two-story building blocked highways and isolated entire towns.

The death toll by states was Pennsylvania, 9; Massachusetts, 3; Colorado, 5; Iowa, 4; West Virginia, 3; North Carolina, 3; Illinois, 2; New Hampshire, 2; South Carolina, 2; Virginia, 2; Missouri, 2; Michigan, 2; and Maine, 1.

Expensive Taste

ATLANTIC CITY, N. J. (AP)—Here's one burglar who wanted nothing but the best. Police reported a man broke into a liquor store and helped himself to \$20 in cash and more than 20 bottles of scotch whisky valued at \$170.

Stanton May Seek Cotton Classing Station For Area

STANTON (SC)—Efforts may soon be made to have a cotton classing station located at Stanton, according to Allen Singleton, secretary of the Martin County Chamber of Commerce.

A meeting of the chamber's agricultural committee will be held Tuesday at 2 p.m., at which time this question will be discussed among others.

Singleton says such an office was established at Lamesa this last year and he thinks there is enough cotton in Martin, Midland, Glasscock and Howard counties to justify another in this area.

One purpose of the meeting is to organize support for such a station, then methods of getting it will be inaugurated.

Romance Among The Vegetables

BLUEFIELD, W. Va. (AP)—Large cases of canned food, draped with a white sheet and backed with velvet, served as an altar. White meat-wrapping paper was used to form the aisle leading to the altar.

The scene: Mills Food Market. The event: The wedding of delivery boy Everett Farmer of Bluefield and Charlotte Richardson of Bluefield, W. Va.

The Rev. Monroe Dotson of the

Bluefield Union Mission performed the ceremony. Farmer, an employee of the store about six weeks, said he chose the store for his wedding "just because I wanted to."

Guilty On Narcotics Charge

Striptease dancer Candy Barr surrenders her personal effects to Dallas County Deputy Sheriff Rudy Hernandez at county jail after she was found guilty on a charge of illegal possession of narcotics. The jury set the penalty for the flaxen-haired dancer at 15 years in prison. Her attorney said an appeal of the case is planned.

Many Economists See No Upturn

By ROBERT FARRINGTON

NEW YORK, Feb. 17 (AP)—The last time the nation had 4 1/2 million unemployed, eight years ago, the pickup in jobs began in March, the month President Eisenhower has predicted will see an upswing this time.

Historically, jobs are always fewer in winter but pick up in the spring. What has some economists worried, however, is the million-job drop between December and January double the "normal" number and the biggest recorded since the 1930s depression. Quite a few do not share Eisenhower's optimism and think economic recovery will lag until the summer or fall. The nation's usual employment pattern has had some odd shifts.

In 1949, the pickup didn't come until April, but then the traditional pattern reversed and unemployment rose in the following months, reaching a peak for the year in July of four million out of work. In 1954, February and March were both bad with 3,700,000 out, but things got better in April and continued to improve with a few wobbles through the year.

This February may set a record, however, as the worst unemployment month in 18 years. Secretary of Commerce Weeks predicts five million may be without jobs. This figure tops February 1950 when 4,700,000 were out.

The 4 1/2 million unemployed figure over which President Eisenhower expressed concern this week is actually for the Dec. 16-Jan. 15 period, classed as January by the statisticians.

HOLD RECORD*

If this February's unemployment does not exceed Weeks' five million estimate, February 1950 will still hold the record for having the greatest percentage of the nation's working force without paychecks since 941.

There's a lot of argument about that percentage.

The number of unemployed divided by the number in the working force gives the percentage of unemployed. Commerce Department statisticians take this unemployment rate and adjust it for seasonal variations, part-time workers and a number of other factors.

The Commerce Department figures the January unemployment rate at 5.8 per cent. Administration critics using different adjustments say it is closer to 9 per cent. The unadjusted rate (4 1/2 million divided by a labor force of 67 million) is over 6 1/2 per cent.

The formula for comparing the modern adjusted rate with the unadjusted rate of 20 years ago is a statistical nightmare.

The department gave up and lists both in the economic report Eisenhower sent Congress last month. Sometimes the adjusted rate produces a higher percentage some months than the unadjusted rate, and sometimes the reverse.

Here's a comparison of the low spots in the American economy over the years, sticking to the unadjusted percentage.

1923—far and away the blackest year ever with nearly 13 million out of a labor force of 52 million. There were about 10 million women in that labor force.

1941—5 1/2 million unemployed, 10 per cent of a labor force of 52 million. There were 14 million women.

1949—3 1/2 million unemployed, 4 per cent of the 63 million labor force which had grown mostly with women. That black February the unemployment rate was 7.6 per cent, unexceeded from 1941 to date.

1954—3 1/2 million unemployed, 5 per cent of 65 million, 20 million of them women.

1957—2,700,000 unemployed (4 per cent) out of a labor force of 68 million containing more than 20 1/2 million women.

Misdirection

TULSA, Okla. (AP)—An envelope addressed to John G. Staudt of the National Bank of Tulsa was returned by the bank marked "unknown." Staudt is a bank director.

Mother Of 10 Becomes Nun

A 62-year-old widowed mother of 10 children kneels before one of her sons, Fisher John Burns, 26, in Washington, D. C., as she becomes a Roman Catholic nun in a ceremony at Adoration Convent. The former Mrs. Gertrude Burns of Columbus, Ohio, now is Sister Gertrude, member of the Franciscan Nuns of the Most Blessed Sacrament. She follows nine of her children into Catholic religious orders.

Guthrie, Duncan Pick Sites For Mitchell, Sterling Tests

Big Spring operators have staked wildcats in Mitchell and Sterling counties. Both are to be shallow tests.

In Sterling, Duncan Drilling Co. staked the No. 1 Harris about 12 miles west of Water Valley as a 2,100-foot test. And in Mitchell, C. W. Guthrie announced location of the No. 1 Maurice Watson about eight miles southwest of Westbrook. It will test to 3,000 feet.

and 1,787 from east lines, 16-30-66, T&P Survey, and 12 miles north of Gail.

Howard

Standard of Texas No. 1 C. C. Guffy, in the North Vincent field, waited on cement after squeezing perforations below 2,218 feet. Total depth is 3,430 feet. The venture is 2,173 feet from south and 467 from west lines, 58-20, Lavaca Survey, and two miles north of Vincent.

Husky & Pano Tech No. 1 Yates cored from 12,071-79 feet today in the Devonian after taking an unsuccessful test over the weekend. Drilling test was from 11,931-12,071, with tool open 80 minutes. Recovery was 30 feet of drilling mud with no shows. Top of the Devonian is 12,067 feet. The wildcat is 660 from south and west lines, Tract 22, League 263, Kent CSL Survey, and 10 miles southwest of Patricia.

Pan American No. 1 Ross, in the Breedlove field, deepened to 660 from north and west lines, seven miles southwest of Patricia, 660 from north and west lines, Labor 4, League 259, Borden CSL Survey.

Zapata No. 1-B Strain, 10 miles north of Stanton, drilled in red beds at 210 feet today. The project is C NE SW, 18-35-in, T&P Survey.

Negroes Tell Of Looting Auto

Was it your car which was ransacked Saturday night and from which \$15 in change was stolen? If so—contact either the police chief or the sheriff.

C. L. Rogers, police chief, said that two Negro men have been arrested in Midland. The men had around \$15 in change in their possession.

They have admitted that they stole the money from a parked car in Big Spring on Saturday night. The car was parked on E. 4th street at the time.

The Negroes are not certain just what make or model of car it was they looted.

Rogers said that the owner of the money can have it if he is able to properly identify it and establish his claim.

He said that he had arranged with the Midland officers to take custody of the two men and would bring them to Big Spring to face charges.

Mitchell

Guthrie No. 1 Maurice Watson is a new wildcat eight miles southwest of Westbrook and about a mile from production in the Latah East Howard field. Drilling is 330 feet from north and east lines, 21-29-15, T&P Survey, on a 320-acre lease. Drilling depth is 3,000 feet.

Sterling

Duncan No. 1 Harris is a 2,100-foot exploration three miles from the Water Valley field and 12 miles from Water Valley. Drilling is 990 from north and 1,650 from west lines, 126-6, H&TC Survey. It will drill to 2,100 feet.

AGRI-BUSINESS' Speaker Is Authority On Farming

Charles Casebolt of Lubbock, one of the speakers for the 'Agri-Business' conference here and in Colorado City Tuesday and Wednesday, should be an authority on his subject, grain sorghums and their uses.

Now regional manager for the Dekalb Agricultural Assn., Casebolt has been engaged in agriculture virtually all his life. He grew up on a cattle ranch in the Flint Hill section of Kansas, graduated from Colorado A&M College at Fort Collins, Colo., and worked for several years as a county farm agent in both Colorado and Kansas.

As a county agent, he organized a soil conservation district in Colorado, an irrigation district in Kansas, and organized and edited a county-wide newspaper while serving as a farm agent in Kansas.

He also has operated farms, both irrigated and dryland, and was in the registered Angus cattle business for a time.

For several years, Casebolt has grown and promoted the use of

CHARLES CASEBOLT combine milo. He introduced the first hybrid grain sorghum to central Kansas.

MEN IN SERVICE

Franklin T. Kirby, A-C 2 U S Navy Patrol Squadron 19, visited his parents, Mr. and Mrs. V. M. Kirby, Park View Addition, during the past weekend. Kirby, who is stationed at Alameda, Calif., and his squadron were in a Navy P-2V.7, patrol plane on a cross-country flight from Alameda Naval Air Station to Abilene. After his graduation from Big Spring High School in May of 1955, Kirby enlisted in the Navy in October of that same year. He had been associated with S&S Wheel Alignment before entering the service.

Also with the First Fleet off California is Arthur R. Menefield, seaman apprentice, USN, son of Mr. and Mrs. Ellis Menefield, 906 N.W. 24th, aboard the frigate USS Wilkinson.

And so is Jerry D. Kinman, fireman, USN son of Mr. and Mrs. T. J. Kinman, 1100 N. Main, Big Spring. He is the husband of the former Peggy A. Murphy, 908 W. 4th. Kinman is aboard the light cruiser, USS Worcester.

W. A. Hallman Of Loraine Dies

COLORADO CITY—William Andrew Hallman, 77, of Loraine, died in the Young Medical Center in Sweetwater early Sunday.

Mr. Hallman was a retired farmer and was born Jan. 15, 1881, in Alabama. He had lived in Loraine since 1960. He was a member of the Baptist Church and married Pearl Mae Turner Dec. 25, 1904. She died in 1910 and in 1911, Mr. Hallman married Miss Ada Light.

Burial services will be held at 2 p.m. Tuesday in the First Baptist Church in Loraine. Officiating pastors will be Rev. W. D. Green of Loraine and Rev. Avery J. Sullivan of Sweetwater. Burial is to be in the Byron Cemetery, north of Loraine and under the direction of the Kiker and San Funeral Home of Colorado City.

He is survived by his wife, two sons, Roy of Roscoe and Max of Redlands, Calif.; a daughter, Mrs. Raymond Wheeler of Loraine; and a sister, Mrs. Gertrude Lowe, Tyler, 10 grandchildren and 10 great-grandchildren.

Retail Committee Meets Wednesday

Retail Committee of the Chamber of Commerce is to meet at 10 a.m. Wednesday to map its activities for the year. Ed Fisher, chairman, announced today.

Fisher said he will propose that the group establish subcommittees to handle various projects.

The committee also is expected to approve a holiday schedule for 1958, and will discuss plans for continuation of the "Better Buy Days" program launched last year.

Fisher called the meeting for the Chamber of Commerce offices in the Permian Building.

Knife, Fork Club's Dinner Is Tonight

Ninety-one members of the Big Spring Knife and Fork Club had made reservations at noon today for the dinner meeting of the club tonight at the Settles Hotel.

Mrs. Moore Sawtelle, secretary, said that reservations would be closed at 1 p.m. The dinner is at 7:30 p.m. and the speaker tonight is Capt. Michael Fielding, world traveler and adventurer.

Dawson Has New Candidates

LAMESA — Three newcomers to the political field tossed their hats into the ring here Saturday.

Two, Mrs. Robert Milikan and Robert Smith, announced they would be candidates for the office of clerk of the 108th District Court. The third, Oatso Roberts Jr., announced he would be a candidate for commissioner of Precinct 4.

Roberts, a well-known turkey grower and florist, is a graduate of Lamesa High School and attended St. Ross and Hardin-Simmons University. He is a veteran of the U. S. Navy in World War II.

Mrs. Milikan, the former Peggy Speck, is currently personal secretary to Co. Atty. George Hansard. Smith, now maintenance engineer at the county courthouse, is an Army veteran of World War II. Both graduated from Lamesa High School and attended Texas Tech. They are the only candidates to announce as yet for the office being vacated this year by W. W. Petteway, long-time district clerk.

Snyder Baby Dies On Way To Hospital

COLORADO CITY—Gerald Ann Derrick, two-month-old daughter of Mr. and Mrs. R. W. Derrick of Snyder, died en route to the Snyder Hospital Sunday. The child was born Dec. 2 in Snyder.

Funeral services will be held from the Oak Street Baptist Church, officiating burial is to be in the Colorado City Cemetery. Time for the service is to be announced by the Kiker and Son Funeral Home in Colorado City.

Burglary Trial Under Way In District Court

Israel Ortega, charged with burglary, was on trial before a jury in 118th District Court at 11:30 a.m. today on a charge of burglary. Ortega's case was the first called for trial at the current session of criminal cases in the court. He is accused of having burglarized the Hull and Phillips Food Store at 611 N. Gregg on the night of Dec. 4, 1957. A safe containing approximately \$200 in silver was stolen. Thirty cartons of cigaretttes also were taken.

A jury was selected at 11:20 a.m. Forty-two of the sixty jurors summoned for duty this week were on hand when the court convened at 10 a.m.

It was said to be the largest turnout of jurors in some time. Guilford Jones, district attorney, advised Charlie Sullivan, district judge, that several pleas of guilty will be entered this week.

The following cases were announced ready for trial:

Thomas Jefferson O'Haver, DWI second offense; Lewis Cevallos, Leandro Cevallos, and Narciso Cevallos, theft; David Wright Stafford Jr., arson.

Ortega's case was the one the district attorney elected to try first.

Judge Sullivan executed the remainder of the jury panel when the jury box had been filled with instructions to report back to court at 9 a.m. Tuesday.

Two Fines Of \$100 Levied

A Latin American woman, arrested for illegal transportation of liquor, pleaded guilty to the charge in Howard County Court this morning. She was fined \$100.

She identified herself as Jesusa Olvera. She is the first woman to be brought before the court in a long time charged with illegal transportation of liquor.

Fernando Alquera, also charged with transporting, pleaded guilty. His fine was fixed at \$100.

Clyde O'Daniels Weems, 19, whose car knocked down a parking meter, careened across the courthouse lawn barely missing the southwest corner of the building and the crashed into a parked car on W. 4th. Friday night pleaded not guilty to a charge of driving while intoxicated. His bond had been set at \$500.

Trim, Fit Class Starts Tuesday

A new section of the YMCA's "Trim and Fit" class for women will begin Tuesday morning.

Instructor for the class, which lasts from 9:30 to 10:30 a.m. daily, Tuesday through Friday, is Mrs. Jean Eads. The class features light calisthenic and other exercises to provide better muscle tone and control.

The class will run from Tuesday through March 4. Similar sessions will run from March 25 through April 18, and April 29 through May 23. There is no fee for members of the YMCA, and the charge for non-members is \$5.

Weather Again Delays Paving

Cold temperatures for the second straight Monday have prevented start on the downtown paving job by the contractor, W. D. Caldwell.

The streets have been repaired and prepared for the contractor to lay the hot-mix surfacing, but the specifications forbid undertaking the work in cold temperatures.

Caldwell was to start last Monday, but the bad weather prevented him working any day last week.

2 Traffic Mishaps Reported Sunday

Two accidents were reported in Big Spring Sunday.

Ed Dye of Hobbs, N. M., and Tonnie Sweatt of Andrews were in collision at 3rd and Nolan. In the 400 block of Main, Manuel Quintana, Sterling City Rt., and Judy Couble were involved in an accident.

Juke Box Loses \$40

About \$40 in change was taken from a juke box at the El Rancho over the weekend. Nothing else was reported missing from the 307 NW 4th establishment, policemen reported.

HOSPITAL NOTES

BIG SPRING HOSPITAL.
 Admissions—Josephine Hernandez, 609 NW 9th; Ola Buchanan, Rt. 1; A. C. Henry, Coahoma; Norma Crockett, 1008 Sycamore; Roger Turner, 1094 Birdwell; Darla Darby, Snyder; Candy Nunee, 907 NW 8th; Janetta Griffice, Rt. 2.

Dismissals—Danny Cynthia and James Long, 1305 Stanford; Glenda Sebastian, Stanton; Crawford Connor, 803 Ohio.

THUNDERSTORM FORECAST FOR THE DATE 23 TO 30, 1958.			

Flames and debris are belched through windows as floors collapse in a six-story building in downtown Manhattan, trapping six firemen under wreckage in the burning building. Two were found and quickly removed, but they died soon afterward.

Death Trap

There is less resistance because of the cold poles, the air is being cooled, and by a simple law of physics, as it cools the molecules become less active and pack closer together. And the air becomes more dense and heavier.

As it becomes heavier, the air at the poles sinks toward the earth sluggishly. It tends to form in great, invisible mountains of cold air.

Then...

In time, there is something like an invisible avalanche of air. It slides down and starts to move across Arctic Canada toward the United States.

It is at this time that the westerlies come into play. They are generated by the fact that the earth is constantly revolving. The envelope of air around our planet is not, of course, firmly attached to the ground. It is held to the earth only by gravity.

That means that the earth tends to spin inside the air envelope, with the air slipping slightly behind. And we get prevailing west winds.

Normally, those west winds act as a breakwater, which blocks the migration of that cold, Arctic air southward through the United States. The farther east one goes, the stronger the cumulative effect of the westerlies, and the warmer the weather.

Now, however, the westerlies have veered unexpectedly to a southern path. They are no longer acting normally as a breakwater against the Arctic cold. And so intense cold has invaded the United States east of the Continental Divide — and stayed, and stayed, and stayed.

And why have the westerlies gone off course?

That's another question, yet to be answered. Our hope of ending the winter is to make more accurate predictions of weather at longer range, lies in more and better information through research.

Wandering Westerlies Receive Blame For Inclement Weather

By HILLIARD SCHENDORF

With most of the nation in the grip of old man winter, and the east digging out from something approaching a blizzard, the question has inevitably arisen: "What happened?"

The weather is not only unseasonable, but it is also unexpected. The U. S. Weather Bureau expected it to be considerably warmer in the East than it is.

Now, weather authorities come up with this explanation: You can blame it on the wandering westerlies.

The great, global circulation of air which produces our weather involves several great rivers of air on the move.

At the hot equator, for instance, the air is warmed and rises. And it moves high above earth toward the North and South poles — in our hemisphere, of course, toward the North Pole.

That is simply the line of least resistance.

C. M. Leopard Rites Held

Funeral for Carl M. Leopard, 58, who died suddenly Saturday evening, was to be held at 2 p.m. Monday at the River Funeral Chapel.

The Rev. Jack Power, Trinity Baptist pastor, was to officiate and burial was to be in the City Cemetery with military rites conducted by members of the Disabled American Veterans chapter.

Mr. Leopard, who has resided here since 1930, was a veteran of World War I and was a DAV member.

He leaves his wife; one daughter, Mrs. Frank House, Bryan; two sons, Eugene Leopard, Big Spring, and Leon Leopard, Brownfield.

Palbearers were to be Tom Hardie, Marvin Graham, Greely Aston, Eldon Cook, R. R. McKinney, Charles Hodges.

Cornerstone Service Set At New Church

Communicants of St. Mary's Episcopal Church will gather at their new edifice, 10th and Gollard, for the first time Tuesday afternoon to usher in the Lenten season and participate in the service of the "Laying of the Cornerstone."

The service will begin at 5:30 p.m. and immediately precede the traditional Shrove Tuesday pancake supper which will be served in the new Parish Hall.

Members of the parish will return to their old building at 5th and Runnels for the opening Lenten service. Formal opening service for the new church is scheduled for 10:30 a.m. Sunday.

The Lenten schedule includes the celebration of the Holy Communion on Ash Wednesday at 7:30 a.m. and the recitation of the Penitential Office and the Holy

Communion at 10 a.m. The services on Thursday will be a celebration of the Holy Communion at 10 a.m. and the service of Evening song and address at 7:30 p.m. which will be followed by the Service of Secularization of the Church Building.

This will be the final service in the present structure, which has served the parish since 1896.

Further services for the Lenten season will include an additional service of the Holy Communion at 7:30 a.m. and 10 a.m. on Tuesday mornings.

Following the opening service for the new St. Mary's Church Sunday, all services will be held there, with a new schedule of Sunday services to be as follows: Holy Communion, 7:30 a.m.; Family Worship Service, 9:15 a.m.; and Morning Service at 11 a.m.

Last Rites Set For Mrs. Morren

Last rites for Mrs. Laura Bell Morren, 73, will be held at 10 a.m. Tuesday at the First Baptist Church in Coahoma.

Services will be conducted by the Rev. Mark Reeves, pastor, and burial will be in the Coahoma Cemetery beside the grave of her husband who died 4½ months ago.

Mrs. Morren leaves one daughter, Mrs. Rommy Mays, Coahoma, and five sons, J. B. Morren, Casper, Wyo.; J. C. Morren, Colorado City; Ed Morren, Westbrook, Earnest Morren, Abilene, and Mancel Morren, Ruidoso, N. M.

Sumatra Rebel Leaders Order A New Squeeze

JAKARTA, Indonesia (AP)—Rebel leaders in Sumatra have ordered a new economic squeeze on President Sukarno's shaky government today. His army chief replied with an apparently unenforceable order to arrest the top rebels.

In the first major step since it proclaimed its existence Saturday, the rebel government on Sumatra directed all foreign firms to halt oil shipments and royalties to the central government treasury here.

There was no indication whether the companies would comply. Most of the refineries are on Sumatra, which is largely controlled by the rebels.

If the oil companies comply, it would strike a body blow to the Jakarta government, which received millions of dollars annually in royalties and much foreign exchange from the oil shipments. Motor transport on populous Java also is dependent on Sumatran oil.

The major oil companies affected—the American Caltex and Stanvac and Royal Dutch Shell—operate mostly on rebel Sumatra. Oilmen say the government-held sectors of Borneo could not begin to supply Java's needs.

The rebel order underscored the Outer Islands' main economic complaint against the Jakarta regime.

Sputnik-Age Hen

"Gertie," two-year-old hen which laid seven eggs in three days, is displayed by her proud owner, Guy Porti, 7, of El Paso. Gertie, originally intended as the star performer in a dish of chicken dumplings, laid four eggs the first day, two the next, and one on the third. Then, proud of her rocket-age production feat, she crowed like a rooster about it. The eggs were all normal in appearance and size.

HOW TO RELIEVE YOUR TENSIONS AND BE HAPPIER

If anxieties and tensions are depriving you of the full pleasure of life, it's time for you to take stock of your present state of mind. There's no need to be frightened, since many people today suffer a little mental tension. But a little tension can often lead to more tension, and so on. That's why you should follow these suggestions:

- 1. TALK IT OUT!** Confide your worries in some level-headed person you trust. You'll be amazed how different your problems look after you've talked them out.
- 2. ESCAPE FOR A WHILE!** When things go wrong, sometimes it's best to lose yourself for a while, in a movie or a book. When you face your worries again, you may find them a lot easier to solve.
- 3. WORK OFF YOUR ANGER!** "Blowing up" can't possibly answer your problem. When you reach your boiling point, work off your anger in a sport, or some project around the house.

These are just three of the many easy-to-follow suggestions which psychiatric experts have developed to help you get rid of your tensions and live a happier life. To find out more, write for the free booklet, "How To Deal With Your Tensions". Address: Better Mental Health, Box 2500, New York 1, New York.

Rare White Coat

Unusual snow fall blankets City Park in New Orleans as sub-freezing temperatures preserved the white coat. Up to two inches of snow were recorded in the New Orleans area, the heaviest since 1895 and the first measurable snow in twenty years.

CRMWD Water Rates Up Only Slightly, Manager Says

Water rates charged the City of Big Spring by the Colorado River Municipal Water District for 1958 are only slightly higher than those estimated for 1957, E. V. Spence, general manager, said Friday.

The actual 1957 rate was lower than estimates because consumption exceeded estimates, he added.

Spence made the observation in connection with reports from the meeting of the Big Spring city commission at which the possibility of increasing water rates was considered.

"The commissions of the member cities certainly have the responsibility of fixing charges which they feel are necessary and justified," he said.

"However, it must be realized that the CRMWD, which is the product of cooperative effort of Big Spring, Snyder and Odessa, is bound to make charges required by the indenture which sets out the terms under which the district sold its bonds to finance construction of its dam, pipe lines, wells, pumps, etc."

Based on Big Spring's estimate of 2,020,000 gallons consumption in 1958, the fixed monthly charge of \$19.679.25, plus 6 cents per thousand gallons, would mean an estimated cost of 17.7 cents per thousand. This is only 2 of a cent per thousand more than the estimated cost quoted to Big Spring for the period 1951-57.

Last year the city's fixed monthly charge, plus 6 cents per thousand gallons, resulted in an estimated cost of 16.15 cents per thousand. But Big Spring consumed more water than estimated, so its actual unit cost was 15.1 per thousand.

If consumption is higher than estimated this year, the unit cost would be less than the 17.7 estimated, Spence explained.

The thing which has changed in

the CRMWD rate structure to member cities is its fixed monthly charge, Spence added. The reason that the fixed monthly charge in Big Spring has advanced from \$14,779.13 in 1957 (and to a much greater degree in Odessa) is twofold. In the first place the fixed charge takes into consideration costs of producing and delivering the increased water demands of the cities. In the second place, and bearing more heavily this year, is the requirement by CRMWD bondholders that a reserve of 1.45 times the annual principal and interest requirements be maintained.

"The CRMWD, in order to expand its system and to be always in the position of furnishing its

members all the water they want when they want it, is issuing \$4,600,000 in additional bonds," said Spence. "Naturally, this will increase principal and interest payments each year, and by the same token it will create the necessity of bringing our reserve up to 1.45. Part of the increase up to 1.45, without which the district cannot borrow funds to meet its members' demands for expansion."

Spence said that the CRMWD welcomed inquiry from anyone at anytime, especially from the member cities.

"We are delighted to go before any group to make a complete report of all phases of our operations," he added. "Reports of our meetings and operations have been rather full, but we welcome the opportunity to discuss them more in detail with governing bodies of cities and any other groups or individuals."

Four Of Seattle Family Drowned

SHELTON, Wash. (AP)—Four members of a Seattle family, out for a Sunday afternoon drive in Olympic National Park, were trapped and drowned when their automobile plunged down a 100-foot cliff from a gravel road and landed upside down in six feet of water in Lake Cushman.

The dead were Mr. and Mrs. Herbert A. Clark, both 48, and their two children, Susan, 5, and Loren, 2 1/2.

Mr. and Mrs. Arvis Rudeen of McCleary, Wash., and their two granddaughters, Susan, 11, and Mary Tauscher, 8, Elma, Wash., managed to get out. Mrs. Rudeen was admitted to Mason County hospital but the others had only minor injuries.

The sheriff's office said recent heavy rains apparently weakened the road.

Rudeen tried unsuccessfully to save the Clarks.

Congressmen Urge U.S. Sovereignty Over Antarctica

WASHINGTON (AP)—A group of congressmen who visited Antarctica was reported today to have recommended that the United States claim sovereignty over part of the continent and discuss joint administration of other areas.

The exact recommendation of the six-man House Commerce subcommittee made to President Eisenhower by letter Jan. 17 was kept secret.

In a formal report to the House, the subcommittee said only "we are of the opinion that the time has arrived for a re-evaluation" of the position on Antarctica of the United States has maintained since 1924. This position was that the United States recognized no territorial claims of other countries in the far southern continent and made none of its own, but reserved all its rights.

In 1924, the United States was well ahead of the rest of the world in antarctic exploration. Many other countries have entered the field since then.

New Zealand, Australia, France, Norway, Argentina, Chile, Great Britain and the Union of South Africa have asserted territorial claims in Antarctica. The Soviet Union, Belgium, Japan and the United States have operated scientific stations there in connection with the International Geophysical Year but have asserted no claims.

Miners' Return

Buddies lift from a mine car one of five killed by a sudden, heavy slate fall in Laidlaw Mine of Amherst Coal Co., at Man, W. Va. Recovery of bodies followed eight hours of frantic rescue work. One miner, trapped, was freed.

All Are Worried Except The Scouts

NEWARK, N.J. (AP)—Among the hundreds of Boy Scouts marooned by snow on weekend trips to mountain areas were 40 boys stranded on top of Kittatinny Mountain in New Jersey.

A snowplow couldn't reach them, but one boy managed to wade through the drifts to a telephone and call to reassure their families. His report: "Having a wonderful time."

Editor Misses

YORK, Maine (AP)—The editor of the Old Farmers Almanac, which is widely considered a safe weather forecaster, was scheduled to speak here last night. Sponsors had let editor Robb Sagendorph pick the date, on the assumption that he would choose a nice night. The speech was canceled.

U. S. History Hinged On A Small Incident

By TOM HENSHAW

They enlisted the Indian at a village called Murdering Town. It had seemed like a good idea at the time. But now, neither Christopher Gist nor the major was sure.

The redman asked too many questions. He turned surly when his offer to carry the weary major's rifle was declined. And Gist's forest sense warned him they were being led astray.

"How much further?" the major asked.

"Two whoops," said the Indian. They trudged on through the cold, dark Pennsylvania forest. The young major was bone-tired and the bobbing back of the tireless Indian guide, 15 paces ahead, somehow irritated him.

The forest thinned suddenly and they were in a snow-covered clearing hemmed by tall white oaks. Light from the dull gray sky was a relief after the dark woods. Their vigilance relaxed.

It was then the Indian suddenly whirled and fired at them.

"Are you shot?" cried the major.

"No," said Gist.

With that, they overpowered the Indian. Gist wanted to kill him but the major insisted on letting him go.

It was just a small and not unusual incident in the continuing struggle in the wilderness where England and France were sparing for a continent. It would have been long forgotten but for two things.

The major's name was George Washington.

And it was the first time he had come under fire.

Washington was a 21-year-old gentleman-major (politically appointed) of Virginia militia at the time. He was on his first military mission, bearing an English message directing the French to leave the Ohio Valley.

Somewhere on that tough mid-winter trail across western Pennsylvania, Washington turned his back on a prospective life of ease and became an able and dedicated public servant.

He commanded men for the first time; he conducted negotiations with the French and with the maddeningly subtle Indians; twice he nearly lost his life. On that "nearby" the course of American history could have depended.

TEC Officials Think Texas Would Suffer In Depression

By ED OVERHOLSER

AUSTIN, Feb. 17 (AP)—Texas Employment Commission officials said today Texas would suffer more if a major depression strikes now than it did during the black days of the 1930s.

Col. Perry Brown, chairman, said the reason is Texas' shift to an industrial state, including heavy investments and big payrolls in aircraft and defense plants.

Texas unemployment percentage in the midst of the depression never got above 14 per cent of the working force compared with a national average of 25 per cent. The percentage was even higher in the industrial East.

Brown said the multi-million dollar TEC fund would cover weekly payments for about six months if a major depression hits and puts one fourth of the state's 1,782,000 insured workers out of a job.

Only a small percentage, 72,160, now are drawing weekly unemployment checks averaging about \$24. The maximum is \$28. A year ago the total was 45,424 with state benefits the first week of February \$690,000 compared to \$1,385,000 for the first week of this month.

Brown said the TEC acted as a trustee for employers' money to pay their employees on rainy days. He said the fund now has \$302,901,000. It is collected from all employers with 4 or more workers, some 68,200 in Texas.

If the number of insured unemployed remains steady, Brown said the fund probably would take care

of the demand for six years without having to increase payments from the employers.

"This trust fund has never been tested. It may be on trial now," said the chairman.

The commission, in business since mid 30s, was keeping a nervous eye on this week's tabulation of claims. The state's history shows a normal decrease in the number of unemployed beginning the second week in February following the normal post-holiday slump.

"We don't have a crystal ball and don't know how long this is going to go on. But the TEC was designed to absorb the shocks of the depression and we appear to be in some sort of a depression now," he said.

He explained that at "about this time of year crops begin to be planted and unemployment goes down."

SPECIFIC REASONS

TEC officials said the specific reasons for the high unemployment in Texas, estimated at 180,000, was the drop in the number of workers at aircraft and government installations.

The oil industry was cited as one of the most stable in the state with 95 per cent of the workers covered by unemployment insurance and with the lowest rate of unemployment of any industry.

This clashed with the statement earlier this week by Gov. Price Daniel who said the high unemployment was attributable to excessive oil imports which have cut Texas production and because agriculture has been affected by adverse weather and ill-advised federal policies.

Brown said the reason the TEC

fund had been built up to more than 300 million dollars was due partly to the persistent efforts of the TEC's district office workers to place people in jobs.

He explained getting a worker on a job meant more money for him and did not reduce the fund. The chairman indicated he believed the \$28 weekly maximum needed to be jacked up although he said "that is not in our province." The rate is fixed by the Legislature.

MEN PAST 40

Troubled with GETTING UP NIGHTS
PAINS IN BACK, HIPS, LEGS
Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular Inflammation is a constitutional disease and medicine that give temporary relief will not remove the cause of your troubles.

Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy.

The past year men from 1,000 communities have been successfully treated here at Excelsior Springs. They have found soothing relief and a new zest in life.

The Excelsior Medical Clinic, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods has a New FREE BOOK that tells how these troubles may be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers

made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H.* At your druggist. Money back guarantee.

Know How To Check Quality Of Husband's Suits? Here Are Tips

Millions of women have "double vision" about men's fashions these days, says a leading style expert. They get this way, it was said, by keeping one eye on a man's good dress and the other on the inflated family budget.

Every woman who lends a helping hand to a man in his clothing purchases should know what quality standards he is entitled to for his money and how to recognize them, said Daroff.

"Zero" of all suiting fabrics. Suits that change their size in cleaning have not had this costly, important quality treatment, he explained.

COMING EVENTS

FAIRVIEW W.D. CLUB will meet at 2:30 p.m. in the home of Mrs. W. A. Langley, 1200 W. 1st St. ... BIG SPRING CHAPTER No. 47, O.E.S. will meet at 7:30 p.m. at the Masonic Hall.

DOES Host Founder's Day Tea

Special recognition was given to past presidents of the BPO Does Sunday afternoon at a Founders Day Tea in the Elks Club. Those recognized were Mrs. Grace Grandstaff, Mrs. Glen Gale, Mrs. Joe Clark and Mrs. Mary Ragsdale.

Spaghetti With Tuna And Tomato Sauce

Cold weather calls for substantial food, and here is where the spaghetti-tuna combination comes in handy. Try this: Ingredients: 3 tbsps. olive oil, 1 medium-sized onion (chopped fine), 1 large garlic clove (crushed), 3 tbsps. minced parsley, 1 can (7-oz.) tuna fish, 1 can (8-oz.) tomato sauce, 1 pkgt. (8-oz.) thin spaghetti.

Valencia Rankin Has Birthday Party

The fifth birthday anniversary of Valencia Rankin was celebrated Friday afternoon at the home of her parents, Mr. and Mrs. Horace Rankin.

Midway 4-H Clubs See Demonstration

Midway 4-H boys and girls met jointly Monday morning at the Midway school for a demonstration of how to build an electric hot bed. Bill Sims, assistant county agent, gave the demonstration and Elizabeth Pace, HD agent, showed how it should be planted.

Fire Ma'ams To Meet

There will be a meeting of the Fire Ma'ams at 2 p.m. Friday in the home of Mrs. R. T. Hale, 711 San Antonio.

ed Howard County Junior College. Lt. Becker was graduated from high school in Quincy, Mass., and from Massachusetts Institute of Technology, Boston. He is presently stationed at Webb AFB as a jet pilot instructor.

Out of town guests for the wedding were Mrs. S. H. Becker Sr., Quincy, Mass., mother of the bridegroom; Mr. and Mrs. A. B. Turner of Abilene, grandparents of the bride; Mr. and Mrs. Bob Boydston, Midland. Also, several aunts and uncles of the bride attended; they included Mr. and Mrs. E. Turner, Pampa; Mr. and Mrs. H. Laycock, White Deer; Mr. and Mrs. B. C. Cox, Pampa; Mr. and Mrs. W. Cunningham, Jalisco; Mr. and Mrs. J. D. Mallow, Abilene.

Umbrella Line

A white cartwheel, designed by Jean Barthele, is trimmed with fringed ribbon and frames the wearer's face beautifully. This is one of the headliner styles in the millinery parade for spring and summer.

be stitched by hand; buttonholes on the coat should be evenly and closely stitched by hand to give long wear, and trousers should be unpieced at the crotch, he concluded.

A knowledge of these check points of quality tailoring can save you a headache, Daroff maintained, and the eagle-eyed little woman, with her shopping psychology already geared to quality shop-

She's 'High' Fashion

Newcomer Tina Louise, one-time Broadway glamourous, declares that tall girls should be glad because of their height and tells why. She is making her first movie appearance in "God's Little Acre."

HOLLYWOOD BEAUTY

Tall Girls Should Be Glad They're That Way

By LYDIA LANE HOLLYWOOD — In heels Tina Louise is a little under six feet, but this doesn't bother her a bit. "Being tall has really been an asset," she told me. "The first appearance I made in show business was as one of a group of glamorously-extra tall girls."

Lt. Becker, Miss Turner Pledge Vows In Double Ring Ceremony

Wedding vows were exchanged by Terral Janice Turner and Lt. Stanley H. Becker, Sunday afternoon at Birdwell Lane Church of Christ. Parents of the couple are Mr. and Mrs. Melvin B. Turner, 1308 Tucson, and Mr. and Mrs. Stanley H. Becker Sr., Quincy, Mass.

LT. AND MRS. STANLEY H. BECKER

Following the ceremony the reception was held at the home of Mrs. J. M. Peurifoy, 1514 Eleventh Place. Cora Sue Turner was at the register. The bride's three-tiered cake was decorated by the mother of the bridegroom who flew here for the wedding. Atop the white cake stood a miniature bridal couple in front of a wedding bell.

LOOKING 'EM OVER With Tommy Hart

Doff the fedora to Johnny Johnson, who has done a terrific coaching job with the Big Spring Steers this season. It's very unusual for a Big Spring team to be favored in any District 2-AAAA endeavor.

They outdistanced Odessa by two lengths which, incidentally, finished with the same record it enjoyed last year — five wins and three losses. Johnson is now in this fourth season here and has been optimistic about this club from the start.

In 1955-56, he went with a group of underclassmen and had to settle for a 9-21 season. That was the year the Steers were thrown in with the Amarillo schools, Lubbock and etc. The locals took their lumps, but they learned.

Evidently, Dave Sime is confident he can beat Bobby Morrow in the 100-yard dash of the ABC Relays here April 4-5. In a recent interview with Tex Maule of Sports Illustrated magazine, Sime says he has improved his start, which was the only thing that really had him worried.

"I was coming up too fast on the start, I'd go straight up and my angle would be wrong. Then a guy like Ira Murchison is ahead of you and you start to lean and you're off balance and you can't run."

"I can run pretty straight up so I can get my legs up higher and if I lean, I lose speed. Ira beat me at the start in the 100 at Washington last week and I started to lean and said to myself, 'He's gonna throw you off balance, Dave.'"

TEXAS OPEN IS WON BY BILL JOHNSTON

SAN ANTONIO, Tex. — Club professional Bill Johnston, who plays only the winter tour—and not too much of that—was showing the big names of golf a thing or two today. He was the only player winning money in all tournaments this year.

Marr Makes Tree Shot

Dave Marr, playing out of Rumson, N. J., gets back on the fairway as he chipped from behind a tree on his approach to the 17th green during the second round of the Texas Open Golf Tournament at San Antonio. Marr was leading the field by six strokes going into the third round of play. (AP Wirephoto).

IN FORT WORTH GG Finals To Be Staged Tonight FORT WORTH — Champions of the 22nd annual Texas Golden Gloves Tournament were to be crowned here tonight.

The 24-bout card of semifinals and finals bouts are scheduled for the fourth night of the big show. The only 1957 champions qualifying for the tournament—welterweight Alton Allen of Houston and lightweight Victor Gratino of Galveston—still are in the running in the boxing show.

MAULE SAYS THAT MOST TRACK FANS WILL AGREE THAT SIME, WHEN HE ATTEMPTS TO SPEED UP, IS THE FASTEST HUMAN BEING IN THE WORLD. ADDING THAT ONLY MORROW CAN CONTEST THIS CLAIM.

Apparently, the thinking all along the Eastern Seaboard and especially around the Carolinas, is that Sime can take Morrow, Texas, of course, for the world. However, the two will be seen in the relay races, and each will probably run anchor on his sprint relay quartet.

Opposition has cropped out to the plan to pit junior college entries in the American Business Club Relays here April 4-5 against senior college freshmen.

Little Has Been Settled In The Cage Scuffles

With only three weeks remaining in the regular season, the basketball races in at least half a dozen major conferences are in a state of frenzied confusion. So far only three teams are definitely in the NCAA postseason tournament. They are Connecticut, champion of the Yankee conference; Idaho State, Rocky Mountain Conference; and Oklahoma State, selected as an at-large team.

There are some heavy favorites, of course. Cincinnati, (9-1) which plays Drake tonight, is the choice in the Missouri Valley. Bradley is right behind with an 8-2 mark. Kansas State, top team in the Associated Press poll, remains undefeated in Big Eight competition (7-0). The Kansas Jayhawks will try to keep their slim hopes alive tonight against Missouri.

The 33-year-old professional at Mt. Timpanogos Course in Provo won his first tournament with two great closing rounds. He had a 5-under-par 66 over the \$6,490-yard Brackneridge Park course in the third round, and then he played conservatively but effectively in the final. "I only tried to get on the green, so I could 2-put," he explained.

IN PACIFIC COAST—A jumble. If any team looks good in the pack, it's California. After an 80-82 decision over Southern California Saturday, they play Stanford tonight. UCLA, another main contender, clashes with Washington.

D'Amato To Keep A Close Watch On Erskine Bout FLOYD PATTERSON'S manager will be sitting home by the telephone Friday when Joe Erskine risks his chances for a heavyweight title bout in a European championship match with Ingemar Johansson in Sweden.

Erskine already has reached an agreement with promoter Harry Levine for Patterson to defend against Erskine in London next summer. If the big IF is Erskine's ability to beat Johansson on his home grounds in Goteborg, Sweden.

STEERS BOOK GRAHAM CLUB The Big Spring Steers, marking time for their bi-district basketball playoff game with the El Paso district champion, will play the powerful Graham Steers in an 8 o'clock practice game here Friday night.

SUN DEVILS NEAR LOOP CAGE CROWN Arizona State College at Tempe faces only one barrier—downstate rival University of Arizona—in its dash for the Border Conference basketball championship.

THE SUN DEVILS, a full game in front of runnerup New Mexico A&M, have only two games remaining on the conference schedule and both are against Arizona. The Sun Devils should be heavily favored to win both and take their first border basketball title.

STAMFORD — Mike McClellan, the travelling freshman backfield star, just won't return to Baylor despite the pleas of 1,000 students. That was Mike's decision, made with no hesitation yesterday, when four Baylor students brought him the petition with 1,000 signatures. McClellan is an outstanding prospect, coaches agree.

BAD WEATHER PLAYS HAVOC WITH SPORTS IN THE EAST show was canceled when a judge and many exhibitors were unable to reach the Saddle Tree Farms Club. A soccer game between the First Vienna team of Austria and an all-star American aggregation in New York also was canceled.

HOUSTON — Golf great Sam Snead was expected today to enter the \$30,000 Houston Classic Golf Tournament that starts here Thursday at Memorial Park. In Bronxville, N.Y., a horse

George Halas Will Coach Chicago Bears In 1958

CHICAGO — Owner George Halas of the Chicago Bears is going to make a coaching comeback at the age of 63 with some "new ideas" he's itching to put into practice. The National Football League pioneer yesterday announced he will succeed Paddy Driscoll as head coach of the team he organized as the Decatur, Ill., Staleys in 1920 and moved to Chicago in 1937.

It will be Halas' third return to coaching. He celebrated his other two comebacks with championships in 1933 and 1946. Two years ago, he handed the coaching reins to Driscoll, saying administrative and coaching duties were too much for him.

Driscoll piloted the Bears to the Western Division title in 1956 only to lose the playoff championship to New York. The Bears were preseason favorites last year but finished in the second division with a 5-7 record.

Halas said Driscoll would become administrative vice president in charge of team organization and added there would be no other staff changes. That means retention of assistant coaches Phil Handler, Luke Johnson, Clark Shaughnessy, George Connor and Sid Luckman.

"When I quit coaching," said Halas, "I couldn't think of any reason to induce me to come back. But sitting back and looking over the situation the last two years, I felt coaching methods in pro football were changing and I developed some new ideas. Now I want to try out those ideas."

Halas said Driscoll would become administrative vice president in charge of team organization and added there would be no other staff changes. That means retention of assistant coaches Phil Handler, Luke Johnson, Clark Shaughnessy, George Connor and Sid Luckman.

Davis To Scout Plainsman Five

HAROLD DAVIS, HCJC cage mentor, will take a busman's holiday tonight. He will scout for the National Football League the Plainsman's game with Odessa in Odessa tonight.

Davis plans to scout Frank Phillips in the Plainsmen's game with Odessa in Odessa tonight. Davis was highly pleased with the manner in which his club performed in both conference games last weekend. The Hawks beat the Clarendon club badly from the field but Clarendon won the game at the free throw line.

In Amarillo, it was virtually no contest. The Hawks led from the start and wound up winning by 19 points. HCJC needs one more win to make it 20 triumphs for the year. If the Hawks should tie Clarendon for second place, they would have to arrange a playoff with the Bulldogs to see which club competed in the Texas Junior College conference tournament. First and second place teams in each zone are eligible to take part in the state meet.

The Hawks also may be picked to take part in the Region V tournament at Amarillo again. Teams are selected off their records and the Hawks are now 19-8.

PEARSON WINNER IN MIAMI MEET MIAMI, Fla. — Albie Pearson, diminutive Washington rookie outfielder, battled John Gray of Philadelphia to the 19th hole yesterday before winning the Major League division of the annual Baseball Players' Golf tournament.

Pearson, 5 feet 6 inches tall, won on the par 4 19th when Gray took a 5 after missing a two foot putt. Gray is 6 feet, 4 inches. Pearson reached the finals by eliminating defending champion Alvin Dark of St. Louis 4 and 2. Gray beat Al Lopez of the Chicago White Sox 3 and 2.

The consolation flight was distinguished by a hole in one, the first ever made in the 27 years the event has been held. It was fired by Don Bessent of Los Angeles who beat Del Rice of Milwaukee 2 up.

LEW HOAD WINNER IN TENNIS SERIES EVANSTON, Ill. — Australian Lew Hoad, making a strong bid for the world professional tennis title, stretched his lead over champion Pancho Gonzales over the weekend. Hoad whipped Gonzales in three sets Saturday night and then administered 6-4, 6-4, victories yesterday for a 13-7 edge in the series.

A crowd of 4,228 saw Hoad outplay Gonzales yesterday by rushing the net and keeping Pancho rotating back and forth with his pinpoint volleys. The tour continues tonight at Boston.
