BIG SPRING, TEXAS, THURSDAY, MARCH 27, 1958

PRICE FIVE CENTS

TWENTY PAGES TODAY

Finally The Work Begins

Crewmen of dirt contractor W. D. Caldwell found plenty of sidewalk supervision as the first few feet of hot-mix street surfacing was laid on 1st St. this morning about 11:30 a.m. The stretch is the first which has been laid on the 16 1/2-block downtown paving program. Caldwell has had contract for the project, but rainy and cold weather has held up the work for over six weeks. Cars can drive on the hot-mix surface in only a matter of hours after it is laid.

# Khrushchev Replaces Bulganin As Premier

MOSCOW (AP)—Nikita S. Khrushchev became premier of the Soviet Union today, replacing Nikolai Bulganin. The shift makes Khrushchev head of both the Soviet government and the Communist party and invests him with a power comparable to that of the late Joseph Stalin. Bulganin, as had been expected, submitted his resignation as premier to a joint session of the two houses of the Supreme Soviet. Bulganin had held the job since February, 1955.

## Oklahoma Ups Oil Allowable

OKLAHOMA CITY (AP)—Water-flood recovery projects will get a break in April under a new order by the Corporation Commission. The Commission raised the April oil allowable to 510,000 barrels yesterday compared with 504,000 in March and purchaser nominations of 507,500 barrels.

The slight increase still leaves the state's expected production well below January and February allowable, which were for 585,000 barrels per day. Production, however, was running substantially below those figures, causing the Commission to order an 11 per cent cut across the board on production for March.

The across the board cut, which for the first time affected water-flood recovery and salt water projects, drew sharp protests. Several companies with large waterflood projects contend that any reduction ruins the well completely since a constant pressure of water must be maintained to force out the oil. Yesterday the Commission decided to apply more of the cut to the allocated and unallocated conventional wells.

# Princess Margaret's Ex-Beau Announces 'No Wedding Plans'

LONDON (AP)—Peter Townsend said today he and Princess Margaret have no intention of marrying. Through his lawyer, Alan Phillips, Townsend issued this statement saying there are no grounds whatever for supposing that his seeing Princess Margaret in any way alters the situation declared specifically in her statement in the autumn of 1955.

The princess in October 1955 said she had decided to place duty above all else and not to marry the 43-year-old World War II hero. Townsend's statement was released a day after his first open meeting with Margaret since she renounced him because he is a divorced man. His visit had revived speculation that the romance was being revived.

Before issuing his statement, Townsend paid a business call within 50 yards of Margaret's residence.

The bronzed, 43-year-old Townsend, his features rigidly set, drove up to a commercial building hard by Clarence House and called for two hours at a rubber company's headquarters. He refused to tell newsmen whether he would see Margaret again and said he was getting fed up with the press.

Margaret breakfasted in bed in her Clarence House suite. Presumably she pored over newspaper accounts of their reunion yesterday—their first since Townsend started his world tour 17 months ago. At Delft, in Holland, Queen Elizabeth smiled cordially as she began the final day of a state vis-

## 'LUNAR PROBES'

# Ike Approves Moon Travel Research

WASHINGTON (AP)—The United States said today it will make up to five attempts to send unmanned space vehicles to the vicinity of the moon.

The White House and Defense Department issued separate announcements.

Secretary of Defense McElroy said that with President Eisenhower's approval the Pentagon's Advanced Research Projects Agency will proceed with several programs for launching a number of small, unmanned space vehicles.

An initial allocation of about eight million dollars has been made to start the space program. The administration thus moved to follow up Eisenhower's statement last night that studies of outer space can provide benefits for the world's people and their children.

McElroy said Roy W. Johnson, ARPA director, is issuing instructions to the Army, Air Force and Navy to undertake the new programs. The Pentagon announcement said:

"The programs authorized include both scientific earth satellite and efforts to determine our capability of exploring space in the vicinity of the moon, to obtain useful data concerning the moon, and provide a close look at the moon. In technical terms these programs are called 'lunar probes.' Authority to undertake one,

and possibly two, lunar probes was given the Army's Ballistic Agency at Huntsville, Ala. ABMA was also authorized to launch two and possibly three earth satellites. Modified Jupiter-C rockets will be used in these projects.

"A program calling for three lunar probes was assigned to the Air Force Ballistic Missile Division (BMD), Los Angeles, Calif. BMD will use a Thor-Vanguard system with a third stage to be developed. "Meanwhile, the Naval Ordnance Test Station at Inyokern,

Calif., was ordered to develop a mechanical ground scanning system for use, when available, in lunar probes."

A Defense Department spokesman said the present intention is not specifically to hit the moon but "it is possible that one of these vehicles could hit it."

The spokesman said the ground-scanning system for mounting in the space vehicles would be a "primitive TV" device, sufficient to provide a relatively crude image of the geographical features of the moon, on its now unknown far side.

## Guinness, Woodward Win Academy Awards

By JAMES BACON HOLLYWOOD (AP)—Joanne Woodward, who came to Hollywood's fanciest party of the year in a dress she sewed herself, and Britain's "Man-of-1,000-Faces," Alec Guinness, today hold movie-dom's top Oscars.

"The Bridge on the River Kwai" was voted the best picture last night at Hollywood's 30th Academy Awards, a show that many critics called one of the best ever. Red Buttons, a comic unwanted by television, won the supporting actor Oscar for his first movie and first serious role. Buttons played the U.S. airman who married a Japanese girl in "Sayonara."

And Miyoshi Umeki, who played Buttons' wife in the picture, won the feminine supporting Oscar. She was the first Japanese to win the honor.

Miss Woodward bought \$125 worth of material and whipped up a dress and coat that looked all right among the high-priced Dior and Don Loper creations of the other movie queens.

"I didn't think I had a chance," she said. "So I didn't want to invest too much. Even when they called my name, I thought they said 'Deborah Kerr.'"

Miss Woodward had an actress' tour de force in "The Three Faces of Eve"—and she did it the hard way. The picture was a true-life psychiatric study of a Georgia woman with a triple personality. Miss Woodward, a Georgian herself, did the sudden changes in continuity rather than shooting each personality separately.

Guinness, usually a master of British satire, played a hard-nosed British colonel in "Kwai." His award was accepted by actress Jean Simmons, an old friend. Guinness wanted to fly over for the Academy Awards but an insurance policy on his current movie prevented him leaving England.

Miyoshi, a Japanese singing star, said, "I didn't hope to win. I was just happy to be nominated." For Buttons, the award was the culmination of a career that has had more ups and downs than a

Grand Canyon mule pack. "I feel this should serve as an inspiration for every guy who has been written off in this business as I was," he said. Other top awards went to David Lean, the British director of "Kwai," and to song writers Sammy Cahn and Jimmy Van Huesen for their hit "All the Way."

More than 70 top stars participated in the NBC telecast of the awards.

## Tech Ouster Brings AAUP Charge On Academic Freedom

WASHINGTON (AP)—Texas Tech was charged yesterday with violating academic freedom in the dismissal of 13 of its professors by Byron Abernethy, Herbert Greenberg and Per Stensland.

The charges were made by investigators for the American Assn. of University Professors and were published in the spring issue of the AAUP Bulletin.

Texas Tech was one of nine schools named in connection with the dismissal of a total of 13 faculty members. The investigating committee reported "a strong belief" among Texas Tech faculty colleagues of the three men that they were dismissed because of alleged "questionable" opinions on race relations, support of the "liberal party" of the Democratic Party in Texas and other views on social, economic or political questions.

The reports will be considered by AAUP's Committee on Academic Freedom and Tenure. The group, in turn, could recommend that the colleges concerned be censured at the association's annual meeting in Denver April 25-26.

Censure by AAUP is simply an expression of displeasure and carries with it no particular penalties.

Skyward

Satellite Explorer III, the black tip at the top of the rocket, is carried toward outer space by the Army's Jupiter C rocket. It was announced from Cape Canaveral, Fla., that all stages of the rocket fired normally.

## Rain Sweeps Over State

By The Associated Press Rain started in northwestern Texas Thursday and was expected to sweep east and southward across the state.

Rain showers hit the Panhandle and upper Red River Valley early Thursday and moved as far east as Wichita Falls, Amarillo and Childress had fog.

Skies were partly cloudy east and clear to partly cloudy over West Central and Southwest Texas.

## Cosden Aide Sees A 'Helpful Effect'

Although seemingly small in terms of percentage of total oil demands, the import allotment cuts imposed by President Eisenhower today may have a helpful effect, in the opinion of Marvin M. Miller, Cosden Petroleum Corporation senior vice president.

"It will be interesting to see what the comments from the big boys will be," said Miller. Whether the sole penalty of being cut out of government contracts would be sufficient to enforce the presidential reduction in allotments remains to be seen. Miller thought it might bring some of the major non-cooperation program into line.

"If imports are cut by even this much (about 60,000 barrels per day) and the demand holds firm, and if the oil states hold the production line, the statistical picture for the oil industry ought to be brought into fair balance by June 1," he said. "If the demand steps up, then things can improve faster."

While gasoline stocks are excessive, they will be worked off rather rapidly as the warmer season comes on. The heavy oils, a residual product from refining processes, constitute a burdensome stock. Also, crude stocks are running at least one-fourth over the desired level, and in the face of imports, are showing little disposition to decline.

One of the files in the oilment on the presidential order is that a

## Balky Firms Barred From U. S. Contract

WASHINGTON (AP)—President Eisenhower cut down allotments under the government's voluntary crude oil import program today and barred non-complying companies from getting government oil contracts.

Eisenhower issued an executive order and approved a cabinet committee report applying further curbs effective April 1 on the inflow of foreign oil, as a national security measure.

His action means that petroleum companies which now import crude must reduce their foreign purchases by almost 15 per cent, to reduce the nation's total intake and to let newcomers enter the oil-importing field.

The order does not alter the voluntary quotas previously established for the Pacific Coast states, Arizona and Nevada. But from the Rocky Mountains east, total imports will be reduced from the 771,400 barrels-a-day average now in effect to 713,000 barrels daily.

The foreign countries chiefly affected are Venezuela, Canada and the oil-rich Middle Eastern nations.

Though seemingly a severe curtailment, the presidential action spared oil importing companies the long-threatened imposition of mandatory import controls on crude petroleum. There had been talk of a mandatory program because some firms have failed to comply with the previous voluntary allocation.

Eisenhower's executive order invoked the "Buy American" Act to induce such companies to come into line.

It instructed government agencies—in this case, chiefly the armed forces—to buy domestic petroleum unless it is unavailable or unreasonably priced, or unless the foreign oil they buy is brought into the country by an importer who is complying with the voluntary program.

The cinching-up of oil imports was recommended by an Eisenhower cabinet committee assigned to investigate crude oil imports. That group is headed by Secretary of Commerce Weeks.

Asst. Secretary of Commerce Frederick Muller explained the actions at the White House where the documents were issued today. With the Rocky Mountain allotment left intact at 220,100 barrels a day, the new over-all allowable is 933,100 barrels, compared to the present 991,500.

In one form or another, the government has kept voluntary import restrictions going for three years, but seldom has been able to obtain complete compliance.

Last July 29, following a finding by mobilization authorities that the inflow of foreign oil was a threat to national security because of its impact on the domestic industry, a tightened voluntary plan was issued and backed up by the presidential warning that if it

# Jess Talkin

by Jess Blair

Bismark Schafer, ranching northeast of Garden City, says he never saw cattle fatter at this time of year. The filiree is furnishing good grazing, and grass is starting to come out. He has been feeding cottonseed cake, which he plans to continue until the cows have finished calving.

Schafer sold his cattle down to 27 head in 1952, but is now back up to about 60. He doesn't plan to buy any more, as they are too high. He said he intended to "grow back" into the business, which would not take too long because of a good calf crop this year.

The meat packers in this area are caught between high prices for beef cattle and a growing resistance on the part of housewives, who are refusing to buy the better cuts of meat.

B. S. Hubbard Jr., manager of a local packing company, says not all the fat cattle for sale make good beefsteak. He was speaking about the wheatfield cattle which have a yellowing tinge in the fat. Hubbard says some owners can't understand why packers shy away from such animals. The reason is that such beef doesn't sell readily, and to eliminate this yellow color, the animal must be put in the feedlot about 30 days.

Hubbard says there is a trend toward heavier cattle, especially among packers, as they are more profitable. He says there may be a revision in cattle-grading standards. Some of the larger cattle, such as Santa Gertrudis, which are good foragers but lacking in

male sterile Kaffir and Variety 07, which itself resulted from a crossing of Flainsman and Martin. Taylor says the nearest thing to Martin of all the hybrids.

The 610 is crossed between a male sterile Kaffir and 7087 maize. It makes a good yield, but like its parent 7078, has a tendency to fall over. On the plots tested the fall-over was from 25 to 26 per cent. It was one of highest yielding of all the hybrids, however.

There are several good varieties for irrigation farming, such as the 620's, 650's and 660's, Taylor said, but they are not so productive for dryland fields. The earliest maturing of all varieties is the 590, but it does best in a cooler climate.

Mr. and Mrs. Will Johnson, farming six and a half miles southwest of Ackerly, are not bothered too much by the high cost of eating. They dine as well as anyone, but by raising much of their food at home, they manage to hold the grocery bill to \$5 a week.

"I figure if we lived in town the cost for the week of us would be over \$15 a week," he said.

The Johnsons moved to their 480-acre farm in 1920, and still live somewhat like they did then. They have a small orchard, a good irrigated garden, milk cows and 100 laying hens. The earliest maturing of eggs for the table and have a case a week left over to be sold.

Once or twice a year he butchers a calf for the locker, while the concrete cellar serves as protection against tornadoes and holds a dozen jars of home-canned fruit and vegetables.

He is hoping the hard freezes are over for the season, as the peach trees are pink with blossoms. Last year, however, they were nipped back three times and still made a fair crop of fruit.

Last year his cotton made nearly three-quarters of a bale per acre, and the maize was also good. This year he thinks there is already enough moisture to insure a fair yield.

"Not many farmers like to do this chore type of farming," said Johnson. "It does take more work and staying at home, but it pays off at the end of the year. There is always more left over from the crop."

## 6 To Appear At Tax Study Hearing

AUSTIN (AP)—Six witnesses have been scheduled to air their views on taxation at a meeting of the Texas Tax Study Commission tomorrow in Abilene.

Sen. William Fly of Victoria, chairman, said yesterday the Commission's fourth public hearing will take the testimony of these witnesses:

The State AFL-CIO, represented by President Jerry Holleman of Austin; the West Texas Chamber of Commerce, by Fred Husbands of Abilene, executive vice president; the Council of Motion Picture Operators and the Texas Chain Store Assn., represented by W. O. Reed of Austin, former speaker of the Texas House; the Texas Independent Telephone Assn.; Bernard Buie of Stamford, implement dealer.

## New Satellite Takes Longest Orbit Pattern

CAPE CANAVERAL, Fla. (AP)—Explorer III, the world's newest satellite, dipped and soared today through the strangest orbit pattern man has yet established.

Its radio voice untiringly transmitting information, the new Army moon 12 times each 24 hours soars up and up until it is about 2,100 miles out in space.

After each outward swing, it dips earthward into the thin upper reaches of the atmosphere, only about 100 miles up.

No other satellite is known to venture this close. Because of increasing atmospheric drag and the greater pull of gravity near the earth, Explorer III is expected to have a relatively short life.

Maj. Gen. John B. Medaris, commander of the Army Ballistic Missile Agency, which fired the new Explorer, told reporters it probably would not live longer than two weeks.

He said the men in charge were very happy with the performance of the rocket and satellite.

ORBIT A BENEFIT

The odd orbit, he said, should prove to be of considerable benefit—"some substantial advantage"—to the over-all space research program.

He pointed out that the satellite, while venturing far out into space, also would explore air densities at the lower altitudes where it would overlap a region that had been measured by high-altitude sounding rockets such as the Aerobee.

Thus far the first time science would have important measurements in the fringe areas that are difficult to study but are highly important both to manned and unmanned aircraft.

Werner von Braun, deputy to Medaris, said one reason the new Explorer failed to attain a more successful orbit was that the second stage of the four-stage Jupiter-C rocket ignited a little too soon. The satellite was accelerated prematurely to orbital speed of 18,000 m.p.h.

The launching, followed by 10 days the successful Navy launching of the Vanguard satellite, which flies out to a distance of 2,500 miles. Previously Russia had launched two Sputnik rockets, only one of which is still in orbit. The Army launched its Explorer I successfully Jan. 31, but failed March 5 to get Explorer II into an orbit.

The satellite itself is the same size as Explorer I, 80 inches long and 6 inches wide—and at 31 pounds it weighs only a fraction of a pound more than the first Explorer.

## New Sumatra Offensive Set

MEDAN, Sumatra (AP)—Jakarta government forces are planning a new offensive into western Sumatra in an effort to crush rebel troops before the rebels attempt a planned counterattack on this important North Sumatra port city.

Lt. Col. Hasan Kasim, chief of staff for the Medan military area, said today that the rebels are now plotting to drive towards Medan from Tapanuli province south of here. But "we will not sit around waiting for them to attack."

Kasim said that Col. Maludin Simbolon, the rebel foreign secretary and a chief military leader, has been in Tarutung for the past four days planning the attack on Medan.

Strong Jakarta forces have been halted at Prapat on the shore of Lake Toba about 100 miles southwest of Medan. If they press on down the main road, they would be in Tapanuli.

Kasim said Jakarta's military leaders expect "little fighting" in taking important centers in Tapanuli, which although officially neutral is believed sympathetic to the rebels.

Teen-Age Enterprise

Bobby Moore, 17-year-old Whitehouse High School junior, uses an emergency measure, a shovel, to sack his wares during an overhaul of his successful charcoal plant. The lad turned the sale of a horse and saddle into a going business.

High School Junior Uses Science To Build Business

WHITEHOUSE, Tex. (AP)—Bobby Moore, a high school junior, has used his science courses to turn a neat profit. Looking for a way to profit from his knowledge and interest in science, he founded and built the Moore Charcoal Co. last summer. He parlayed capital from the sale of a horse and saddle into a going business. Last year the honor student supplied stores in 15 East Texas towns and cities. It will be better this year, he believes. Bobby, 17, has been getting ready for the coming outdoor barbecue season all winter and now is equipped to turn out 5,000 pounds of chunk and briquette charcoal a day.

His first attempts at producing charcoal ended with two cords of what he called the "finest oak a neat profit." He then wrote his congressman and the Library of Congress for pamphlets on charcoal methods. He also began studying all of the sources of information he could find. With this new knowledge in addition to what he had learned in high school science Bobby built his first successful kiln of concrete blocks, adding homemade conveyors, rotary screens, mixers, dryers, bins and bagging devices, all built from old oil drums and other discarded equipment either given him or purchased for a few dollars.

Big Springers Tell Of Reading Benefits

What do books and reading mean to Big Spring citizens? The Howard County Junior College contacted a number of widely known residents and asked: "Which is your favorite book and why?" The answers were interesting and reflect an unusual light on the role that reading plays in the lives of busy men and women. R. L. Tollett, president of Caden Petroleum Corp., declared that "choosing my favorite author or book was too difficult... I had rather discuss books in general." Tollett wrote, in part: "Practically all my preparation for learning has been through reading. Not all from bound books, spent in listening to lectures and remarks of learned people has been only a fraction of the time I have spent in reading. Through reading I have found explanation and interpretation of what I have experienced and observed and thereby have acquired considerable understanding if not much wisdom. A. J. Frager, merchant, thinks that of all the authors he has studied, Rudyard Kipling "most captures my interest and holds my attention. My nomination for his greatest book is 'Kim'... Kipling saw India in a marvellously direct and realistic way and with impressive mastery in phrase-making is able to exactly convey the sweltering heat, the drenching rains, fever... to his readers. 'Leaves of Gold' is the favorite book of Mrs. W. Anthony Hunt, wife of the president of Howard County Junior College and a leader in women's activities in Big Spring. "It is an anthology," she writes, "of inspirational writings from some of the world's great authors—ancient and modern... It is a heart's haven for directing one's thoughts toward things of lasting truth and beauty." John Gentile may have a special reason for the selection of his favorite author—Allan Nevins. Gentile, who teaches history at HCJC, was a student in some of Mr. Nevins' classes in Columbia University. "A standard work which should be in every library is his 'Grover Cleveland: A Study in Courage,'" Gentile thinks. John Austin, asked his favorite of all books, was torn between the Bible and "Art Through the Ages," by Helen Gardner. "Not because it meant more than the Bible," he explains, "but because of its definite influence upon leaving me with a more open mind to many things—ultimately giving me an instructive background for trying to mold myself in the way in which I should like to be." Dickens' great story, "A Tale of Two Cities," is the favorite of Mrs. Olen L. Puckett. The other choice she has is the 139th Psalm. "I feel that great works of fiction should be read leisurely and then read again in order to savor them to the fullest," she writes. "When one is content to sit and watch Madame Defarge knit, I would say the book has had an influence."

Mouse-In-Chili Case Is Upheld

AUSTIN (AP)—The Court of Criminal Appeals today approved a two-year sentence assessed in the mouse-in-a-chili-bowl swindle case. "The court finds no fundamental defect in the sufficiency of the indictment," its opinion said. Paul Thorneberry drew two years in prison on conviction of swindling Luther Tipton, Dumas cafe operator, of \$75. Court records show Thorneberry produced the body of a mouse from a bowl of Tipton's chili and wanted \$100 "just to forget it." Thorneberry settled for a \$75 check.

PUBLIC RECORDS

BUILDING PERMITS Ruben Marquez, build a residence at 201 NW 4th, \$500. Wendal Parks, move a building from 304 Wyoming to the city limits, \$750. Sam Fisherman, build an addition to a residence at 302 7th, \$850. D. C. Braverton, remodel a building at 401 E. 23rd, \$500. Hypnosis Urged As Medical Tool

DALLAS (AP)—Two men urged general practice doctors today to forget side show antics and use hypnosis as another way to improve the patient's welfare and comfort. Dr. Maurice Bryant of the University of Washington and Professor William Heron of the University of Minnesota were to address the annual American Academy of General Practice Scientific Assembly today. Bryant said a hypnotist simply sets up the proper conditions, makes appropriate suggestions and lets the subject hypnotize himself.

He said hypnosis can be used to treat migraine headaches, stuttering, certain low back pains, alcoholism, weight problems, frigidity and other conditions. He stressed that a complete physical examination should first rule out any true organic ailments. Heron defined "suggestion" as an idea, accepted unanalytically and without resistance or criticism, and capable of inspiring action. He said a hypnotized person is simply extra-suggestible. The person feels that it's easier to comply than resist. The professor of psychology said the public still has fearful notions about hypnosis. Many think that they will be unconscious and not

know what they are doing. Nothing, Heron stated, could be further from the truth. He said that a hypnotized individual never becomes unconscious and always knows what he is doing. However, his uncritical attitude, induced by hypnosis, will let him do things that he would not otherwise do under the prevailing circumstances. Heron said the subject probably will not accept suggestions that are contrary to deep-seated moral standards. Both speakers stressed that hypnosis can be a useful tool in the family doctor's office.

Knott Revival Set

KNOTT—Preacher for revival services in the First Baptist Church here will be the pastor, the Rev. Bobby Phillips. The 10-day revival will begin Friday night.

Kidnap Reported

MARSHALL (AP)—Kenneth Whitworth, 21, of Tyler told police yesterday he was kidnaped, held for almost eight hours and robbed of between \$60 and \$80 by two men who picked him up while he was hitchhiking.

Dry Weather Prevails In U.S.

By The Associated Press Rain and strong winds hit areas along the Atlantic Coast and the Southeast and there were a few wet spots in the West but dry weather prevailed in most other parts of the country today. The rain belt in the East extended from parts of Georgia and Alabama northward into southern New York state and southern New England. Some snow was mixed with rain and drizzle in parts of central Pennsylvania.

Strong northeasterly winds lashed the southern New England and mid-Atlantic coastal areas. Gusts reached 50 m.p.h. at Atlantic City, N.J., during the night. Small craft warnings were posted for most of the mid and north Atlantic coast. The early spring storms, however, appeared diminishing and the forecast called for light rain or drizzle from southern New England and New York state southward into the Carolinas.

Poage Blames Economic Mess On Farm Prices

By TEX EASLEY WASHINGTON (AP)—The nation's economic plight can be laid to depressed farm prices, Waco Rep. Bob Poage asserts. He said public works projects will help but they won't cure. During a debate on lowering of crop price supports, he told the House: "The present depression, just as the depression of 1929, had its roots in inadequate farm buying power. The history of the last five or six years closely parallels the history of the years preceding 1929. Then, as now, we had enjoyed a period of general prosperity, high wages, full employment, liberal profits, substantial urban construction, and an active stock market." After comparing the past few

months with the period preceding the great depression of the 1930s, he added: "I am for anti-depression activities but these work programs and tax reduction programs can do nothing more than maintain a sagging economy. They do not strike at the cause of our industrial decline." Around the Capitol: Dozens of letters of appreciation for the boxes of Texas ruby red grapefruit distributed among all members of Congress came to Rep. Joe Kilgore of McAllen, who arranged it. What he thought was to be a brief Christmas trip to Washington to see his three children has turned out to be a 16-year star for W. C. Thompson, 72, former Plainview man. Soon after the 1942 Christmas holiday visit with his two daughters and son, all federal employees, he was asked to help relieve a war-time manpower shortage by working at the Senate post office. He accepted and held the job until 1947, when Republicans got control of Congress and displaced Democratic patronage job holders. He worked at various jobs in the city until the Democrats again were in the majority. He's now piloting an elevator in the Capitol.

### Hero Of Community

Dr. William P. Ball, 86, is a hero of Cleburne, and particularly of its high school graduates. Within the state, he's well known among Baptists for scholarships he's given to persons attending Baptist schools. In 1953 Dr. Ball started his first scholarships and has invested \$150,000 in them for Cleburne High School graduates.

### Cleburne Medic Beloved For Scholarships

CLEBURNE — About six years ago an ambulance rolled peacefully between Alvarado and Cleburne. Without warning a door opened and Dr. William Ball, 80, a passenger but not a patient, fell out.

The horrified ambulance driver braked the vehicle, ran back and loaded the doctor in the ambulance. He suffered a brain concussion and a broken shoulder. But he was up and around shortly.

Dr. Ball, now 86, is a darling of this city southwest of Dallas and particularly of Cleburne High School graduates. Within the state, he's well known among Baptists for scholarships he's given to persons attending Baptist schools.

Each year for 30 years, from 25 to 35 per cent of the graduating classes of Cleburne High School are children he helped bring into the world.

Dr. Ball has invested \$150,000 in scholarships for Cleburne graduates. Considerations in naming recipients are citizenship, Christian character, integrity, determination, graciousness and personality, said Dr. Charles Pitts, pastor of the Highland Baptist Church of Dallas and Dr. Ball's pastor in Cleburne when the first scholarships were set up in 1923.

### Stopped On Green

COLUMBUS, Ohio — Truck driver Herschel Powell stopped for a green light in suburban Worthington. He had to. The traffic signal snapped off its support post and landed on the hood of his truck, he told police.

### Miss Woodward Fulfills Vow By Winning An Oscar

By BOB THOMAS  
HOLLYWOOD — Nineteen years ago, a 9-year-old Georgia girl listened to a radio broadcast of Vivien Leigh winning an Oscar for "Gone With The Wind." She turned to her mother and said: "Someday I'm going to win an Academy Award."

Last night Joanne Woodward fulfilled that promise. Against the strong competition of film veterans Deborah Kerr and Elizabeth Taylor, she won Hollywood's highest prize for her first starring role—as the schizophrenic Southern girl in "The Three Faces of Eve."

After she became the new queen of the movies, the greats of Hollywood came to pay her court at a gala supper at the Beverly Hilton Hotel. Among the celebrants: Marlon Brando, Clark Gable, Doris Day, James Stewart, Rosalind Russell, June Allyson and Kim Novak.

Few of them realized that Joanne was decked out in a gown she had made herself.

Joanne, a green-eyed blonde with slim proportions (she admits she can't be included in the "new recruits of the bosom parade"), is a girl who says what she means.

Although the official biographies list her as 27, she readily admits she is 28. When nominated for Eve, she said in an interview: "I don't feel the performance was really my best."

"I hope I never stop talking my mind, she said last night as she clutched her Oscar after the broadcast.

Joanne said she developed the yen to act when she was a little girl in Thomasville, Ga. She recalled: "My brother got the measles and I substituted for him in giving the pledge of allegiance at a program when I was 3. The audience clapped and clapped, and they had trouble getting me off the stage. I loved it so."

The local chapter has received banners for leadership contests in which they won second place in junior farm skill, third place in senior chapter conducting and second place in green hand quiz.

### Bottles Aren't Bouncing Now

SEAFORD, N.Y. — All is quiet these days at the home of the Herrmanns. Those strange goings-on just stopped.

"We're very thankful for it," said Mrs. James M. Herrmann. For three weeks now, not a bottle has bounced.

The Herrmanns' household for more than a month had been the scene of all sorts of shenanigans that puzzled both police and parapsychologists.

Tops popped off bottles. A phonograph sailed across the room and landed with a crash. A glass centerpiece took off and slammed into a corner shelf. A bookcase toppled. All this, and more, so it was said.

Mrs. Herrmann said that Dr. J. Galtier Pratt, Duke University expert on extrasensory perception who investigated the events, told her such things usually ended as abruptly as they began.

### Alec Flabbergasted By 'Oscar' Award

LONDON — Alec Guinness' chauffeur told him early today that he had won Hollywood's Oscar as the best male actor of the year. "He was flabbergasted," reported the chauffeur.

Guinness got the news as he headed for the studio where he is working on a new film. The chauffeur had heard about the award on a news broadcast. At the studio his colleagues gave him an informal ovation and officials arranged a jubilee lunch with champagne.

"I am very delighted and surprised," Guinness said. "The award to me is also a tribute to my coworkers." Then he rushed off to be made up as the flamboyant old artist in the film based on Joyce Carey's novel "The Horse's Mouth."

# 'Grim Reaper' Cuts City Zoo To One Monkey

The city zoo's population was cut in half about six months ago, when one monkey died.

Now the city has only one monkey left in the City Park. And the one is getting old, said Johnny Johansen, city park superintendent.

Johansen has no idea how old the monkey is, but he knows she is over 18 years old. Johansen has been with the city that long, and he said the monkey was around when he went to work.

The female which died about six months ago was very old, also, he said.

In past years, the city has had as many as five monkeys in the pens, but that number was held for only a small time. One of the five, a baby, was killed shortly after birth by people throwing rocks into the cage.

Several times, Johansen said, persons have agreed to donate monkeys, but before the city ever

# 5 Million People Listed As Alcoholic

NEW YORK — About five million persons in this country need help because of excessive drinking, estimates Mrs. Matty Mann, founder and executive director of the National Council on Alcoholism.

She told the opening session of the group's annual three-day conference that 70 million U.S. adults drink, and one in 14 is an alcoholic needing assistance to overcome the habit. Most alcoholics are married and living at home with their families, she said.

The council seeks to aid alcoholics and their families in obtaining psychological help and treatment facilities.

# License Business Slow Wednesday

Car tag sales in the office of Viola Robinson, Howard County Tax Collector for Monday and Tuesday totaled more than \$35,000 but Mrs. Robinson still gloomily asserts that hundreds of motorists have not as yet put in

# belated drivers have only four days left to buy their tags.

Monday's business was \$13,610.03. Tuesday it stepped up to \$21,691.48. However Wednesday did not see any sizeable turnout of tag buyers. Only a small crowd was on hand most of the day.

Deadline for tags to be purchased expires on April 1. Since Mrs. Robinson's office will be closed on Saturday and Sunday,

# Combined Choirs To Sing 'Messiah'

The combined choirs of two Big Spring churches will present the Easter portion of Handel's "Messiah" on alternate Sundays during the Easter season.

The first presentation will be next Sunday, Palm Sunday, at 7:30 p. m. in St. Paul Presbyterian Church. The second performance will be on Easter Sunday, at 7:30 p. m. in the First Presbyterian Church.

Mrs. Jack Ware, wife of the pastor of St. Paul Church, is choir director. Miss Betty Guthrie will be organist.

Mrs. Ware lists the following program:

"Behold the Lamb of God," chorus.

"He was despised," Martha Conway, contralto.

"Surely He hath borne our griefs," chorus.

"Thy rebuke hath broken His heart," chorus.

"Behold, and see," chorus.

"But thou didst not leave His soul in Hell," James Furlong, tenor.

"Lift up your heads, O ye gates," chorus.

"How beautiful are the feet," by Amy Percy, soprano.

"I know that my Redeemer liveth," by Betty Ware, soprano.

"Since by man came death," chorus.

By man came also the Resurrection.

For as in Adam all die even so in Christ shall all be made alive," chorus.

"Behold I tell you a mystery The trumpet shall sound," by Nolan Young, baritone.

"Worthy is the Lamb," chorus.

"Hallelujah," chorus.

Sopranos include Mmes. Virginia Baumann, A. B. Brown, Mentora Carter, John Fort Jr., Ollie Layman, Barbara Marion, Amy Percy and C. E. McStravick. Altos include Mmes. Martha Conway, Leola Edwards, Elizabeth Johansen, Eleanor Mason, Bobbie Peters and Charline Rockwell, and Misses Mary Jane Engstrom and Doreen Robertson.

Tenors will be James Furlong, Dick Wisdom and Nolan Young. Basses will include George Baumann, K. L. Brady, John Fort Jr., R. M. Heine, Bernie Freeman, Bill Owen, Paul Soldan and Jack Ware.

# Ike Tells Promise Of Space Benefits

WASHINGTON — President Eisenhower held out to all the world's people today the promise that studies of outer space can provide benefits for them and for their children.

Within hours after the United States had put its third satellite into orbit yesterday, Eisenhower made public a document in layman's language prepared by his Science Advisory Committee — an "Introduction to Outer Space."

Tangible benefits from better weather forecasting and communications were listed along with military advantages and less definite gains in scientific research as possibilities of the future.

The report emphasized scientific opportunities. It said there would be military advantages as well, especially in communications and reconnaissance. But it tended to discount talk of such things as satellite bombers and bases on the moon. It said these "appear to be clumsy and ineffective ways of doing a job."

It offered as a rough estimate that a couple billion dollars, spent over a period of years, could make it possible to send a man to the moon and return him safely.

How soon this might occur, the report said, depends on how rapidly the program is pushed. Possibly not even this century—or on the other hand within one or two decades.

But it said much more could be done by sending smaller space vehicles, with robot controls, to carry on explorations and radio data back.

Even before man himself moves into space, the report said, his instrument-equipped satellites can help mankind. Listed as examples:

Satellites used as relay stations for radio and television can link all the corners of the world.

They can watch, from out in space, the whole intricate pattern of the earth's weather, spot gathering storms and hurricanes.

Out beyond the distorting refraction of light in the earth's atmosphere, they can be stations from which science can see with clarity "new sights forever hidden from observers who are bound to the earth."

With ultraprecision atomic clocks mounted in satellites, scientists can test the prediction of Einstein that the measurement of time may be different in space.

They will show the intensity of cosmic radiation out beyond the filtering effect of the earth's atmosphere, out in space where man proposes to venture.

# Good Neighbors

MALLEN — Gov. Daniel and Mrs. McAllen's three Mexican states have accepted invitations to attend the general assembly of the International Good Neighbor Council May 1-3.

Graves and Carolyn Ritter; boys' declamation, Jimmy Cattan and (alternates) Rodney Batten and Clarence Neill; ready writing, Jonnie Wayland and Ruth Ann Allison, and (alternates) Sandra Nichols and Barbara Ritter; number sense, Margie Appleton and Jimmy Knous, and (alternates) Bory Allen and Jimmy Hair.

Others are spelling and plain writing (7th and 8th grades), Reba Graves and Joe Adams, and (alternates) Margie Appleton and Bory Allen; and for the 5th and 6th grades, Linda Lambert and Leonard Malmstrom. Donna Sue Jean Newman and Vivian Bishop.

Competing in the picture memory contests will be Diane Brooks, Linda Lambert, Norma Long, Nadine Honeycutt, Donnie Shive, Robert Wayne Pherigo, Anna Lee Bishop, Charlotte Mann and Leonard Malmstrom. Donna Sue Barnes will be story telling contestant. Her alternates will be Phill Cochran and Nanine Whitley.

# Coahoma Entries Chosen For Dist. School Contests

COAHOMA — Coahoma High School representatives have been chosen for the district Inter-scholastic League contests to be held here Saturday.

In declamation, senior girl contestant will be Rosalie DeVaney and senior boy will be Mack Robinson. Junior girl contestant will be Joan Davis.

Typing entrants will be Mary Camp and Sadie Nixon. Other contestants and participants will be spelling, Glenda Denton and David Stoker; ready writing, Sharon Finley and Patsy Greenfield; ready reading, Sue Alice Beard and (alternate) Druella Cutright; shorthand, Jeannie Bobo and Darlene Gregg; extemporaneous speaking, Doyle Warren; and number sense, Malcolm Roberts, Edward Reeves and Jerry Nell Thomas.

In the elementary school contests, events and contestants are to be:

Girls declamation, Patricia Hughes and (alternates) Reba

Pass The Pizza!

Pizza pie is a specialty at the home of 1st Lt. and Mrs. Edward D. Aitken and Janice Marie. One to experiment with new recipes, Mrs. Aitken has an extensive repertoire of culinary treats. One of the most unusual, Pakistani Chicken, is made from a recipe given her by exchange student officers from Pakistan.

### Her Grandfather Taught Her How To Cook; Try Pakistani Chicken

A man gets the credit for teaching Mrs. Edward D. Aitken, 509 East 13th, how to cook. He is her grandfather, who started her out in the kitchen when she was a high schooler.

She is one of those refreshing homemakers who honestly enjoys cooking and seems to find those three-meals-a-day something of a challenge. For some time she has made it her hobby to clip recipes from newspapers and magazines, and she experiments with attractive ways to serve food.

Her husband remarks that he looks forward to dinner because his wife's meals are adventures in eating. It was after they were married that he learned to relish highly seasoned foods. For instance, her pizza pie, the recipe for which is disclosed here, 1st Lt. Aitken, who is assistant communications officer at Webb AFB, remembers one occasion when he helped his wife bake a flock of the pies for a party they hosted for 40 people.

During their assignment at Scott AFB, they invited some student officers from Pakistan home to dinner. Noticing homesickness for the food of their homeland, the guests were urged to bring whatever they wanted to prepare and cook to their hearts' content in the Aitkens' kitchen. The result was Pakistani Chicken.

The Aitkens laugh when they recall their first reaction to the dish. They describe the chicken as chattering in color; this, of course, was due to the turmeric. But the flavor was indescribably delicious and the couple later used the recipe in preparing for a festive gathering; it proved to be a triumphant piece de resistance. Try it for yourself, as the recipe is shared here. It is to be served with the rice, instructions for which are included.

Any cook appreciates a recipe that is easy and foolproof. Such is Mrs. Aitken's Chocolate Cream Frosting. The Herald reporter is quick to praise its fine flavor and fluffy consistency.

1st Lt. and Mrs. Aitken and their daughter Janice Marie, 6, moved here January 17. The officer, with eight years to his service record, had been stationed in Texas before—at San Antonio, Waco and San Angelo. Preceding the assignment here, the staff members of the household had remained with his family in San Anselmo, Calif., while he was in Iceland for a year.

His base was a radar site, with 13 officers and 185 men, and no town nearby. Rocks made up the landscape in this particular area, but the fellows did have television! Aitken noted, however, that parts of Iceland are beautiful and the temperature averages around 60 in the summertime, 28 during winter months. The family's superb hi-fi instrument was bought in Iceland. It is a German-made Salzburg, and the collection of record albums has begun.

Golfing and flying are his hobbies. Mrs. Aitken, who is a native of Massachusetts, likes to sketch. She did the posters for a recent bake sale benefit at the Officers' Club. Janice Marie, who is a first grader, has only one disappointment connected with Big Spring—her Maltese kitten vanished soon after their arrival.

With summertime not far distant, the Aitkens pass along this secret for broiling steaks outdoors. Baste the meat with equal parts of melted butter and Worcestershire sauce.

Here are her recipes:

- PAKISTANI CHICKEN**
- 1 medium frying chicken (cut-up)
  - 3 large tomatoes (fresh)
  - 1 large onion
  - 1 clove garlic
  - $\frac{1}{2}$  tsp. chili powder
  - $\frac{1}{2}$  tsp. ground chili pepper
  - 1 tsp. turmeric
  - Salt to taste
  - Butter for frying
- Brown chicken lightly in melted butter. Remove chicken and saute onion and garlic until limp and onion is transparent. Add cut up tomatoes and spices. Simmer for

about 10 minutes. Place chicken in large pan or dutch oven. Pour tomato mixture over. Cover and simmer over low heat until chicken is done, about  $\frac{1}{2}$  hour. Stir occasionally, and if chicken appears too dry, add  $\frac{1}{2}$  cup tomato juice. Serve with rice, below.

- RICE**
- 1 1-3 cups pre-cooked rice
  - $\frac{1}{4}$  cup raisins
  - $\frac{1}{4}$  tsp. nutmeg
  - $\frac{1}{4}$  tsp. salt
  - Pepper to taste
  - Butter for browning
  - $\frac{1}{2}$  cups boiling water
- Lightly brown rice in small amount of butter, stirring constantly. Remove from heat and add remainder of ingredients except water. Return to stove and cook about 5 minutes longer, stirring continually. Add water. Cover and place in oven preheated to 350 degrees for 15 minutes or until rice has absorbed all water.

**PIZZA SAUCE**

- 1 large can whole tomatoes
- 2 6 oz. cans tomato paste
- $\frac{1}{2}$  tsp. black pepper
- 2 Tbsp. oregano
- 2 cloves garlic (minced very fine)

1 large onion (chopped)  
Salt to taste  
1 tsp. Worcestershire sauce  
1 Tbsp. sugar

Saute onion in small amount of fat until limp but not brown. Add canned whole tomatoes and simmer about 10 minutes. Remove from heat and put through strainer. Discard pulp and seeds. Return puree to heat and add rest of ingredients. Simmer over low heat until sauce thickens, about one hour. If sauce gets too thick

dilute with one can of tomato sauce. Refrigerate unused sauce. Keeps well for several weeks. Hot roll mix makes excellent pizza dough. Follow package directions. Spoon sauce over rolled out dough. Top with mixture of your choice, mushrooms, anchovies, salami. Next, top with Mozzarella or Provoloni cheese. Bake at 375 degrees about 15 minutes or until dough is lightly brown around the edges and cheese is melted.

**CHOCOLATE CREAM FROSTING**

- 4 squares unsweetened chocolate
- $\frac{1}{4}$  cup butter or oleo
- 2 cups sifted powdered sugar
- 6 Tbsp. milk
- 2 eggs unbeaten
- 1 tsp. vanilla

In double boiler, melt chocolate and butter. Remove from heat; stir in rest of ingredients. Fill lower part of double boiler with ice water; set top in place. With electric beater or egg beater, beat frosting at high speed until it is light colored and stands in peaks.

Split cake layers; fill; frost. Refrigerate for one half hour before cutting. Frosts an 8" cake.

**KIDNEY BEAN BARBECUE**

- 1 lb. ground beef
- 1 medium onion (chopped)
- 1 green pepper (chopped)
- 1 cup diced celery
- 2 Tbsp. bacon fat or shortening
- 2 Tbsp. flour
- $\frac{1}{2}$  cup catsup
- $\frac{1}{2}$  cup red table wine
- $\frac{1}{2}$  cup water
- 1 Tbsp. red wine vinegar
- 1 Tbsp. brown sugar
- 2 Tbsp. Worcestershire sauce
- 2 tsp. chili powder
- Salt to taste

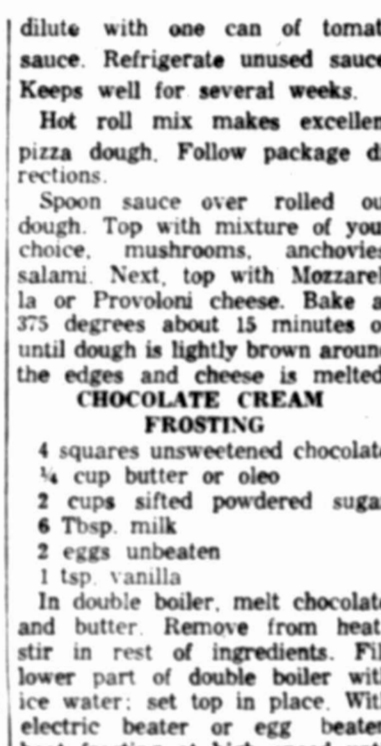

2 cans (No. 303) red kidney beans (drained)  
Saute first four ingredients in bacon fat until meat is no longer red; stirring frequently with fork so meat is broken into small pieces. Blend in flour; add catsup, wine and water. Cook, stirring constantly until mixture boils and thickens. Add vinegar, sugar, Worcestershire sauce, chili powder and salt.  
Bring to boil, then cover and simmer gently one hour, stirring occasionally; add drained kidney beans; cover and simmer 10 minutes longer.

When you pick up Morton's Potato Chips this weekend, you will find a new, clean, crisp, modern package you've never seen before! Clean, opaque white that keeps your Morton Potato Chips fresher and crisper from sun-light... fresher, better, golden-brown chips inside... and a label design just like the other Morton Food Products you've always preferred. Now Morton's Potato Chips, Morton's Salad Dressing, Morton's Tea, and all the other popular Morton brands look just alike... your quick-glance guarantee of quality, freshness, and economy!

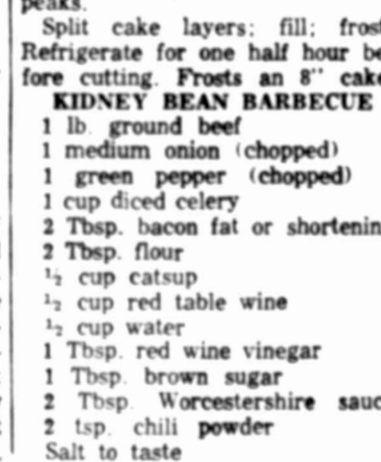

**SOUTHWEST FOLKS BUY MORE MORTON'S POTATO CHIPS THAN ANY OTHER BRAND**

Crunchy... Munchy... GOOD!

Pick up a "Family Size" bag for the week-end!

COTTAGE CHEESE POTATO BAKE

KIDNEY BEAN BARBECUE

### Cottage Cheese, Long Favored For Salad, Is Suited To Cookery

Cottage cheese is a national favorite. Proof of the fact is found in the results of a national consumer survey which revealed that 81 per cent of the homemakers questioned use this nutritious product.

The versatile product is a rich source of high quality protein and calcium. Popular for sandwiches and salads, cottage cheese is also useful for cooking. The Borden Test Kitchen has come up with some recipes that require little effort or time to prepare.

- Try these:
- COTTAGE CHEESE POTATO BAKE**
- 2 Tbsp. flour
  - 2 tsp. parsley flakes
  - 1 tsp. salt
  - $\frac{1}{2}$  tsp. onion salt
  - $\frac{1}{2}$  tsp. paprika
  - $\frac{1}{4}$  tsp. pepper
  - 6 to 8 medium cooked potatoes, thinly sliced (4 cups)
  - 2 cups cottage cheese, sieved
  - 2 Tbsp. butter
  - $\frac{1}{2}$  cup fine bread crumbs
  - 2 Tbsp. butter
  - $\frac{1}{4}$  cup homogenized milk
  - Grated Parmesan and Romano cheese
  - Combine flour and seasonings. Arrange layer of potatoes in buttered  $1\frac{1}{2}$  quart casserole; top with cottage cheese. Dot with butter; sprinkle with seasonings. Repeat until all are used.
  - Saute bread crumbs in remain-

- ing 2 Tbsp. butter until lightly browned. Pour milk over potato-cottage cheese mixture. Top with sauteed bread crumbs. Bake in moderate oven (350) for 25 minutes. Remove from oven. Sprinkle generously with grated Parmesan and Romano cheese. Return to oven; bake 5 minutes. Makes 6 to 8 servings.
- COTTAGE CHEESE OMELET DELUXE**
- 6 eggs, separated
  - 1 cup cottage cheese, sieved
  - $\frac{1}{2}$  tsp. salt
  - $\frac{1}{4}$  tsp. pepper
  - 2 Tbsp. butter
- Preheat oven to moderate temperature (350 degrees). Beat egg yolks until thick and lemon-colored; blend in cottage cheese, salt and pepper. Beat egg whites until stiff but not dry; fold into egg yolk mixture. Melt butter in large skillet; pour in omelet mixture. Cook over medium heat, 4 to 5 minutes until bottom of omelet is lightly browned. Remove from heat; place in oven. Bake about 20 to 25 minutes or until omelet is puffy and top is lightly browned. Remove from skillet to hot serving platter. Serve with Gruyere Cheese Sauce. Makes 6 servings.

- GRUYERE CHEESE SAUCE**
- 2 Tbsp. butter
  - 2 Tbsp. flour
  - $\frac{1}{4}$  tsp. paprika
  - 1 cup milk
  - 1 1-oz. portions Gruyere cheese, grated
  - 2 to 3 drops tabasco sauce
- Melt butter in top of double boiler. Blend in flour, paprika and pepper. Remove from heat. Gradually blend in cream. Cook over hot water, stirring constantly, until mixture begins to thicken. Add grated cheese and Tabasco sauce. Cook until cheese is melted. Serve hot over Cottage Cheese Omelet Deluxe. Makes about 1 1/4 cups.

### Milk Shakes Are Nutritional Snacks

Youngsters enjoy mid-afternoon snacks, which their mothers try to pack with vitamins. Serve graham crackers with a golden milk shake, if you would please. Here's how to make it:

- GOLDEN MILK SHAKE**
- Ingredients:
- 1 envelope ( $\frac{3}{4}$  ounce) vanilla-flavored milk-shake powder
  - 1 jar (5 ounces) strained baby-food apricot-applesauce
  - 2 cups milk
  - 1 to 2 tablespoons sugar
- Method:
- Put milk-shake powder, apricot-applesauce, milk and sugar in a

container. Cover tightly and shake until powder is dissolved. Pour over ice cubes; stir until milk shake is chilled and thinned somewhat. Serve in small glasses. Makes 3 to 4 servings.

### one pound of churrgold

# FREE\*

now in NEW PIK-A-STIK PACKAGE

The certificate shown above appears on all packages of the delicious NEW Churrgold Margarine. If your grocer is out of Churrgold ask him to order it for you.

# Daniel Sees Great Hope For Economy

AUSTIN (AP)—Early state action promises Texas the brightest future of any state in spite of the current recession, Gov. Daniel said last night.

"This is the unanimous opinion I have received from qualified persons who have studied the matter," Daniel told public employees. It was an apparent answer to

criticism earlier by the Texas AFL-CIO.

"I have confidence that prophets of gloom and doom will not talk us out of a continuation of our unparalleled growth and progress."

The labor organization asked Daniel to speed up construction programs still on the drawing boards in an effort to halt rising unemployment. It also asked for more pay raises to state employees and upping the state's maximum unemployment compensation from \$28 to \$40 even if a special session of the Legislature was necessary. It said the payments should be extended from 26 to 39 weeks.

"No special session of the Legislature is necessary, because our state did not wait for a recession to exercise its responsibility of providing highway, water conservation, attraction of industry, increased salary, and building construction programs which were needed for future progress and development," Daniel said.

"I hope no one will be tempted to play politics with this important matter."

**EMPLOYEE OF YEAR**

Daniel presented the Austin employee of the year award to Doris Connerly, state legislative librarian for 30 years. She was cited for her diligent service to the Legislature and to the public.

The state government's early effort, Daniel said, "is one reason that the economic and employment situation in Texas is much better than in most of the other states."

"These programs now in effect were initiated or expanded by the Legislature last year. They are not of the temporary, pump-priming variety, but are necessary and sustained programs designed to help the economy of our people and the growth of our state."

Daniel said these were programs in effect now:

**Highways**—More than 200 million dollars to be spent in construction this year, the highest in history and more than any other state.

**Water**—The 200 million dollar loan fund program for cities, water districts and other political subdivisions seeking state aid to construct conservation projects is moving faster than any other of its type.

**State building construction**—40 million dollars now contracted for new buildings.

**Unemployment**—Reactivation of the Industrial Commission to attract new industries with special emphasis on areas more severely touched by unemployment. The Texas Employment Commission placing an average of 56,000 persons a month in an effort to halt the jobless trend.

**Water**—The 200 million dollar loan fund program for cities, water districts and other political subdivisions seeking state aid to construct conservation projects is moving faster than any other of its type.

# CRITIQUE Of The Local Entertainment Scene

By BOB SMITH

## Local Writers Begin To Write

The writers club, fortunately, is not growing by leaps and bounds. It is growing no faster than new members may be absorbed, initiated and become acquainted with older heads.

There is never a big, overflowing and hard-to-manage crowd of people—just a small, well-knit group capable of discussion without need for more than a moderator.

Already, the impetus provided by the organization is beginning to be felt by its members, most of whom are actually beginning to write instead of just planning to.

Purpose of the writers club is to provide mutual constructive criticism. Manuscripts are read at the meetings, and listeners afterwards tell their impressions and make suggestions.

Present active members include Mrs. Jessie G. Thomas, George and Virginia Bauman, Norman Sant, John Austin, Mrs. Darel Highley, and this reporter.

Bauman, who is moderator, alternates with Mrs. Thomas as host for the bi-weekly meetings. Sandwiches, coffee and cake are served through the long evenings, which many times last till midnight.

Any writers or would-be's who would like to join the group may call any member for further information. There are no dues and no other expenses to be paid by members, and no formal organization other than the office of moderator.

## Exhibition Open To Local Artists

All Big Spring artists are invited to enter the San Angelo College art exhibition to be held April 13 through 25 on the SAC campus. Sponsored by the art department, the exhibits will be shown in the Art Building.

The purpose of the exhibition is to encourage painting and sculpture in the area, and to acquaint the public with examples of West Texas art. Deadline for entries is 3 p. m. Tuesday, April 1.

There will be an entry fee of one dollar for two entries, two dollars for three, and three dollars for four to six entries.

Artists will be classified according to standing, e. g. amateur, no formal or supervised study; student, in school or under supervision; and professional, anyone who has had work displayed in any outstanding state or national exhibition.

Officials will accept mediums in oil, watercolor or other water-based medium, paste, prints, drawings, sculpture of any kind, and mixed mediums. There will be no limit to dimension barring the practical aspects of finding exhibition space. Watercolors and drawings should be matted, and all other paintings should be framed.

Any artist who resides within a one hundred mile radius of San Angelo is eligible to enter. Interested artists may write the San Angelo College Art Department for detailed information.

## Handel's Due An Easter Workout

The pageant won't be the only Easter event. The combined choirs of St. Paul's and the First Presbyterian Churches will present two programs of the Easter portion of Handel's "Messiah."

The first presentation will be Palm Sunday, March 30, at 7:30 p. m. in St. Paul's Church. The second will be on Easter Sunday, 7:30 p. m., at the First Presbyterian Church.

Incidentally, I discovered in some recent research that it has for many generations been a strong tradition that the audience

## Wife Called Best Abortionist Patron

NEW YORK (AP)—The most frequent patron of the abortionist is the wife—not the single girl, divorcee or widow—says the latest Kinsey Institute report.

"Of all pregnancies among married women, only 66 per cent result in the birth of a child, 17 per cent end in miscarriage, and 17 per cent in abortions," the current issue of McCall's magazine said in an article on the report.

Other findings:

Almost three out of four women no longer married—widowed, divorced or separated—continued to have sexual relations.

Today's young wives are having fewer abortions than their mothers did at the same age.

Miscarriage is more common than generally realized.

The article, the second in a series of two on the Kinsey Report, "Pregnancy, Birth and Abortion," deals with wives, divorcees and widows. The first article on the report dealt with single girls.

The sampling taken by the institute was derived from interviews with 5,293 white women—part of the same group used for the 1953 study on sexual behavior of American females.

The magazine noted that the group interviewed contained a high proportion of women of the upper 20 per cent in educational background and social standing, and that there was a high proportion of women from the Northeast and from urban areas.

Women from rural areas, Roman Catholics and women with only grade-school educations made up a relatively small number in the sampled group.

## TB Assn. Officers At State Meeting

HOUSTON (SC)—Four representatives from Howard County are attending the annual Texas Tuberculosis Assn. convention which began today. The four are Mrs. Ross Bartlett, Mrs. J. T. Isbell, Jack Watkins, and Mrs. Zack Gray.

The convention will continue through Saturday. Watkins is newly elected president of the Howard County TB Assn., and Mrs. Gray is executive secretary.

# Biggest Problem Is Zero Gravity

By STEVE LOWELL, ALAMOGORDO, N.M. (AP)—The prime space age problem can be posed in five letters. It's zero-G. Zero-G means no gravity. When man gets far into space, away from the earth's pull, he will weigh nothing.

Col. John Paul Stapp, space's No. 1 pioneer, puts it this way: "We must find out how well man can change gravity climates. A 150-pound man on earth would weigh 25 pounds on the moon, but during his flight from the earth he would weigh nothing."

"There is no way to experiment with prolonged absence of gravity except with an orbital satellite research vehicle. We can learn a good deal with animals, but eventually we will need man to experiment with total weightlessness."

Putting it another way, the first step to the moon—or to anywhere in outer space—will be a manned satellite. Then, says Stapp, it will be a space platform.

The next probability, he believes would be a moon landing and exploration—and that is about as far as we can conjecture at this time.

Stapp, a 47-year-old physician, is head of the aero-medical laboratory at the Air Force Missile Test Center here. Next month he goes to Dayton to take over a similar laboratory at the big air base there.

Of the solution to zero-G, he says: "This may turn out to be as easy on man as it was for him to go through the sound barrier, but we'll never know until we try. Indications are that he will adjust. He did when he learned to fly."

**WE CAN FEEL IT**

Weightlessness is the sort of thing you can experience for a fraction of a second when you drive at fairly high speed over a comparatively sharp rise in a highway. As the car clears the bump and starts down the other

## Senate Space Panel Would Go Along With Moon Plans

WASHINGTON (AP)—Senate Space Committee members said today they are willing to go along with a two-billion-dollar expenditure to put a man on the moon and return him to earth.

President Eisenhower's Scientific Advisory Committee said in a report it probably will cost a couple of billions over a period of years to bring about the feat.

Sen. Hickenlooper (R-Iowa) said space developments over a long range of years may cost a great deal more than that.

But Sen. Anderson (D-NM) said in a separate interview the country will get the cost back if it develops the nuclear propulsion he said will be necessary to reach the moon.

Anderson, a member of the Senate-Atomic Energy Committee, said, "If we develop the nuclear propulsion necessary, we can save the two billion by reducing the cost of chemically propelled rockets."

"With nuclear propulsion, we will have a one-stage weapon that is far more accurate and dependable than any we have now."

## Incumbent On Ballot For Coahoma Election

COAHOMA—Only the three incumbents are named on the ballot for the school trustee election here April 5. They are Smith Cochran, T. O. Earnest and Wornor Robinson.

## To Conduct Services

KNOTT—Elder Al Lock of Fort Worth will conduct services at the Mt. Joy Missionary Baptist Church here Friday and Saturday evenings and Sunday morning.
