Former Mayor Charged

Sam Hoover, center, former mayor of Pasadena, was charged in Beaufort in connection with the gang-slaying of Edward Laird of Houston. He is shown at a habeas corpus hearing with his two attorneys, Wyatt Baldwin, left, and Joe Goodwin, both of Beaufort. The hearing was continued.

PENALTIES IN EFFECT

Motorists Still Licensing Autos

Although deadline for buying 1958 car plates expired Tuesday, a sizeable number of belated applicants were storming the office of Viola Robinson, tax collector, Wednesday.

Majority of these were signing affidavits they had not driven their cars since midnight April 1. In such cases plates may be issued without penalty.

One deputy reported that a worried motorist came in early Wednesday. "I have two cars—a passenger car and a pickup," he said.

He was assessed a fee of 20 per cent above the regular price for the pickup and signed an affidavit that the passenger car had not been operated since midnight.

St. Thomas Church Announces Services

Holy Week schedule at St. Thomas Catholic Church includes confessions from 4:30 to 8:30 p.m. today.

Mrs. Spillman Dies Today

Mrs. Lucille Spillman, 76, died in a hospital here Wednesday after a long illness.

Odessa, Midland Autos In Wrecks

Midland and Odessa motorists were involved in accidents here Tuesday and today.

Sheriff Returns With Suspects

Sheriff Miller Harris returned from Portland, Ore., Tuesday night with Odell Laverne Allen, 32, former Snyder man.

Big Spring Man On World Fair Staff

Jim C. White, Big Spring, flew Tuesday to Europe to be one of the hosts and guides at the United States building at the World Fair in Brussels.

Senior Citizens Club Will Meet Friday

Members of the Senior Citizens Club will meet Friday at the YMCA at 7:30 p.m. for their regular period of fellowship.

U.S. Beaten By Red Propaganda

WASHINGTON (AP)—On the testimony of Secretary of State Dulles the United States is taking a propaganda beating from the Soviet Union.

Land Services Held In Lamesa

LAMESA—Funeral was held at 2:30 p.m. today for Tilman Pryor Land, 77, who died here yesterday.

Four In School Race At C-City

COLORADO CITY—At Colorado City, four candidates are competing for two places on the school board.

Pool, Runway Bid Dates Set

LAMESA—Meeting in joint session Monday afternoon, the Dawson County Commissioners Court and the Lamesa City Council set dates for the opening of bids for paving an airport runway and for construction of two swimming pools.

82 Wrecks Occur In March

March was another big month for accidents.

Pony Impounded At Sand Springs

A small, fat, dark brown pony was impounded by C. B. Y. Rone, Sand Springs, Wednesday morning after he found the animal wandering on the highway in front of his residence.

'Straw Hat Day' Scheduled

"Straw Hat Day" probably will be scheduled during the Special Events subcommittee of the Chamber of Commerce Retail committee meets.

TEC Veteran Of 20 Years Loses His Job

AUSTIN (AP)—General counsel Lee Williams of the Texas Employment Commission, a veteran of 20 years in the TEC, was fired today by a 2-1 vote of the commissioners.

HOSPITAL NOTES

BIG SPRING HOSPITAL Admissions—Belle Ann Graves, Stanton; Buddy Martin, Terminal; Barbara Crenshaw, City; Lula Gipson, City; Billy Redmon, City.

MEN IN SERVICE

Marine Sgt. Floyd H. Lackey, son of Mrs. Vera R. Kiser of 704 San Jacinto, Big Spring, and husband of the former Carley Fris of Honolulu, T. H. arrived in the Hawaiian Islands in early March and reported to the First Marine Brigade at the Naval Air Station, Kaneohe Bay.

Aircraft Carrier Suffers Hull Crack

NEW YORK (AP)—The aircraft carrier Corregidor suffered a crack in her hull in heavy seas in the Atlantic last night. She took in some water but was reported in no immediate danger of sinking.

One-Legged Pilot Big Hero Today

BISHOP, Calif. (AP)—A tall, one-legged man who believes in "getting things done and going through the red tape line" is the hero of California's High Sierra today.

Herald Advertising Is

1ST. Choice For:

- Coverage
- Flexibility
- Results
- Low Cost
- Readership
- Acceptance

Six vital factors make advertising in The Herald your most effective buy in Big Spring. To be effective, a medium must have coverage, especially in the market served by local business. The Herald, alone of all advertising medium, guarantees its circulation. Nearly 10,000 copies a day delivered into Big Spring and surrounding area homes assures you of coverage where it counts, in the homes of your customers.

The Herald is completely flexible, you can use it any day and in any amount you wish, capitalize on special sale days or events to get maximum benefits.

Results are proven when you use a consistent schedule in The Herald. Top reader acceptance, the magic of the printed word, always there to be studied at leisure, referred to at any time.

Herald advertising has the lowest cost of any medium in

Big Spring. You can reach the nearly 30,000 readers of The Herald for less than 2c each, less than the price of a post card alone!

"I see in The Herald..." is a common phrase heard around Big Spring hundreds of times daily. People believe what they see in the newspaper, look to it to be informed on the happenings in their home town, their area, the state and nation.

The Herald is accepted readily into the home. This is proved by the fact that nearly 10,000 people daily buy the paper. They want to know what is happening and a recent Gallup poll shows that people regard advertising as news.

Cash in on these, and many other reasons why The Herald is the 1st choice of advertisers in Big Spring. Just dial AM 4-4331 and let an advertising man plan a program for you.

Builders Agree Housing Act To Push Business

WASHINGTON — Builders and housing officials predicted today the \$1,850,000,000 Housing Act will help push home construction, but emphasized it is no panacea for the business recession.

President Eisenhower signed the Democratic-sponsored bill with a demand that congress quickly correct some provisions which, he said, conflict with the private enterprise system and "burden the public purse."

But the Federal Housing Administration sped orders to its field offices liberalizing down payments as the law permits. Some builders have notified FHA they were waiting to advertise the new terms to prospective-home buyers.

The 3 per cent minimum down payment now applies to FHA-insured mortgages of up to \$13,500. Instead of \$10,000. On mortgage sums above \$13,500, the down payment remains at 15 per cent and above \$16,000, 20 per cent.

This means that a \$14,000 dwelling, which FHA calls the "typical" new house, may be bought for \$500 down instead of \$900.

FHA Commissioner Norman P. Mason said the lower down payment and the removal of discount controls would be "a boon to home buyers and the home building industry."

DENOUNCED BY IKE
Mason did not mention the billion dollars earmarked to support the mortgage market. Congress added this fund as "an immediate stimulus to home construction." It was denounced by Eisenhower, who had asked only for 500 million dollars to be used at his discretion. He got the 500 million too.

The billion dollars is at the disposal of the Federal National Mortgage Assn. With this money and 200 million dollars released to FNMA a few weeks ago, that agency is able to tell lenders and builders they can go ahead with construction plans with the assurance the government will buy up any mortgages they choose to sell.

Some lesser officials predicted this would spur the industry in new selling efforts. One said privately it would provide builders and lenders with "an important reassurance that they can plan on bigger scale operations."

The National Assn of Home Builders said the law could be of "tremendous benefit to moderate income families" who have been hampered by tight housing credit.

The new law authorized Eisenhower to boost the GI interest rate from 4 1/2 per cent to 4 3/4 per cent. This, coupled with the decline in other interest rates, may cause lenders to look more favorably on veterans' housing loans.

Eisenhower criticized this provision on grounds that the rate should be more flexible—in other words, that he should be permitted to raise it higher if the situation warrants.

By failing to gear GI interest rates to market conditions and by requiring the government to buy such mortgages at par, the President said, "the legislation provides in effect for substituting one billion dollars of federal financing for financing by private investors"

Catholic Mission, Scene Of Race Row, Will Re-Open

NEW ORLEANS — The small Catholic mission of St. Cecilia at nearby Jesuit Bend, scene of a racially tinted row more than two years ago, will reopen Sunday for Easter services. A white priest will say Mass.

The mission, about 20 miles south of New Orleans, was closed after some parishioners objected to a Negro priest, the Rev. Gerald Lewis, assigned there Oct. 2, 1955.

Archbishop Joseph F. Rummel said in a letter: "We cannot permit the closed chapel to stand forever as a symbol of resistance to the authority of the church."

Archbishop Rummel ordered a spiritual symbol of reparation and thanksgiving. It included three days of prayer during which the congregation is to attend Mass in the morning and other services during the day.

Questioned In Shooting
Mrs. Irene Gresham, 49, fights back tears as Patrolman F. O. Mote questions her in the shooting of her husband in Dallas. David Gresham, 30-year-old cafe operator, was in critical condition with four bullet wounds. Mrs. Gresham told police the gun, which Patrolman Mote holds, went off accidentally during a scuffle.

Situation Eases On Israel Border After Peaceful Eve

CAIRO — The situation on the Israeli-Syrian border was easier today after a day without fighting. But Israel made plain she intends to go ahead with the Lake Huleh reclamation project, raising the possibility of new clashes.

Mahmoud Fawzi, foreign minister of the United Arab Republic, leaves for Zurich today to talk with U.N. Secretary General Dag Hammarskjold about the fighting Sunday and Monday on the Israeli-Syrian border.

The Middle East News Agency said the U.A.R. held up a request for a Security Council meeting on the clashes because the U.N. Armistice Commission has succeeded in quieting things. The report added that the request will be kept on file, however.

Israeli Foreign Minister Golda Meir said in Jerusalem after an emergency Cabinet session that her government intends to carry on with the Huleh project.

The U.A.R. has accused Israel of aggression in the Huleh truce area and warned that Arab forces would not stand idly by while Israel attacks Syria. Israel claimed that Syrian troops opened fire first on the Israeli workers. The two forces swapped tank and artillery shots for several hours Sunday and Monday but only a few casualties were admitted by each side.

Incumbents Hold Upper Hand In Texas Municipal Elections

By The Associated Press

Incumbents held the upper hand by a small margin Tuesday in city elections across Texas.

Getting elected in Killeen had special benefits. Voters also passed an amendment to pay the mayor and city councilmen for the first time. Jack Odom defeated Ted Connell for mayor 514-465. Paul Goode, Dr. Dixie Hamilton and Dr. James Gandy were elected councilmen.

The incumbent Independent Club drew a margin of about 2-1 in the Laredo city election with 13 of 17 precincts reporting.

The Independent Club, headed by Mayor J. C. Martin Jr., was composed of all incumbent candidates. It was opposed by the Webb County Reform Party, headed by Guillermo Benavides.

Unofficial and incomplete returns gave Martin an edge of 5,804-2,987, with other independent club candidates leading by about the same margins. Eight city councilmen, a police chief and other officials were elected.

Texas Fruit Outlook Good

AUSTIN — Fruit prospects in Texas are excellent, the Department of Agriculture reports.

The department said yesterday cool weather has delayed blooms and no serious frost damage has occurred. Peaches were in full bloom.

Corn and sorghum seed was planted between showers although many farmers worked land that was too wet, causing cloddy seed beds, the report said.

Considerable corn acreage remains to be seeded, however, and even where planted the cool, wet soils have held back germination. Warmer soils are needed to prevent seed from rotting.

Cotton planting was active in the Coastal Bend. South Texas flax was blooming but heads are unusually short. Small grain prospects continue very promising.

After spending a winter of high living on plains wheat pasture, the USDA said cattle hit northwest auctions and central markets in heavy volume so fields could be saved for grain. Seasonally heavy marketing of yearling and spring lambs also continued. A good demand remains for stocker cattle and calves.

Burns' Daughter Is Back In Jail

SAN DIEGO, Calif. — The 20-year-old daughter of Bob Burns, the late bazooka-playing comedian was back in jail today.

Barbara Ann Burns was arrested yesterday — the second time since Sunday — on suspicion of violating the federal law requiring narcotic addicts to register on crossing the U.S. borders.

She had been arrested on the same charge Sunday when she returned from a visit to Tijuana, Mexico, and was released Monday on her pledged bond of \$1,000.

Miss Burns denied she is now an addict. She said she had been cured in January after treatment in a sanitarium.

Recession Cause

MEMPHIS, Tenn. — The former lord mayor of Dublin, Ireland, says the United States would never have an economic depression if it were like his own country— "we've never been prosperous enough to have one. Robert Briscoe spoke at a meeting of the Memphis Jewish Welfare Fund.

At Doctors' Meeting

Among the physicians attending the monthly meeting of the 356th USAF Hospital staff at Webb AFB Monday evening was this quintet. Left to right are Lt. Col. Richard J. Brightwell, hospital commander; Dr. John Fish of Big Spring, secretary of the Permian Basin Medical Society; Capt. George Dermksian, San Antonio, instructor at the USAF School of Aviation Medicine; Dr. David B. Conner, Midland; and Dr. P. W. Malone, Big Spring. Dr. Dermksian was speaker for the meeting.

Oceans Can Provide Unlimited Amount Of Hydrogen Power

By EVERETT S. ALLEN
New Bedford Standard-Times
(Written for The AP)

Three-fourths of the earth's surface is ocean, and a large proportion of ocean is hydrogen. Add the technology of the hydrogen bomb, and the formula spells an incalculable boon for mankind—cheap, virtually inexhaustible power.

Once this particular application of hydrogen fusion is mastered—and some authorities predict it within 15 years—the oceans could provide enough cheap electricity to supply the world for a billion years.

Even the rivers and lakes of inland nations could be transformed into power producers by harnessing hydrogen fusion—thus spreading

the benefits to every country on the globe.

To Americans caught in the cold war, however, the most important aspect of the international race for cheap power is that the United States presently is not leading the field.

There is considerable evidence to indicate that diplomatic courtesy rather than scientific justice brought about the joint U.S.-British announcement on hydrogen fusion. Non-government authorities in both countries have indicated the British scored a clear first in the controlled release of the H-bomb type of energy for eventual peaceful application.

It may be that other nations also are ahead of America in this

field. Both the French and the Soviets are known to be working on it.

The process involves the fusing of four nuclei of hydrogen into one nucleus of helium.

A very high temperature is required, and some type of special "container" is needed to hold the gas after it has been raised to the temperature called for.

It has been estimated that temperatures of 370 million degrees centigrade would be required to establish a hydrogen "fire" that would be self-sustaining and give off more energy than was required to keep it going. This is more than 20 times the temperature of the sun's interior.

American experiments reported by the press since they left England have reached temperatures as high as six million degrees. Sir John Cockcroft, Nobel Prize-winning director of the British atomic research establishment, has said Britain's efforts soon would surpass the sun's core temperature which he estimated at 15 million degrees.

The main problem, of course, is to find a suitable "container" for these tremendous temperatures. But it seems only a matter of time vast energy from the seas will power humanity's workshops.

Tomorrow: Food from the sea.

Business Leaders Not Ignorant Men

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail.

That if you suspect most business executives are illiterate, you couldn't be more wrong. A Harvard survey found the most successful executives were the greatest readers of nonfiction books.

That comedian George De Witt tells of the man who, accused of wife abandonment, told the judge, "Your honor, if you knew my wife you'd know I'm no deserter. I'm a refugee!"

That nearly 20 million persons in the United States are named either John or Mary. Sorry, I don't have the figures on Tom, Dick and Harry.

That there are more life insurance policies in effect in this country—over 239 million, than there are persons—173 million.

That Celeste Holm says a woman's beauty parlor is a place where the customers can let down their hair while it's being put up.

That in most lands the average citizen knows only a tenth the words in his language. By the way did you know the Chinese word

for mother is "ma"? Check this with your laundryman.

That those who say vegetarians—such as the late George Bernard Shaw—are wealkings overlook the fact that the gorilla doesn't eat meat.

That the salmon, according to the Fisherman magazine, lays about 15,000 eggs a season, or about the same number as most television comics.

That Christians aren't the only ones who claim guardian angels. The natives of Easter Island also believe in the supernatural power of a private spiritual guardian, "aku-aku."

That a slot machine in Havana bears this pleading sign: "Don't slug me."

That in the 18th century theater, spectators showed their disapproval by tossing a candle on the stage. If the audience threw enough candles, down came the curtain.

That Robert Q. Lewis says the occupational malady of pedestrians is that run-down feeling.

That there's a way to test how smart your wife is. Ask her how many of the 65 cuts of beef she can name.

Magnolia Cuts Crude Oil Prices

DALLAS (AP)—Magnolia has announced a cut in several grades of crude oil prices.

The reduction, effective yesterday, applied to the following grades of oil in Texas, Oklahoma and New Mexico:

Oklahoma crude purchased in Garvin, Grady, Hughes, McClain, Oklahoma, Pottawatomie and Seminole counties, reduced from \$3.15 to \$3.05 per barrel for 40-degree gravity and above, with a two-cent differential downward for each degree of gravity, to \$2.65 for below 21-degree gravity.

Seeligson crude reduced from \$3.35 to \$2.20 per barrel for 40-degree gravity and above, with a two-cent differential downward for each degree, to \$2.78 for below 20-degree gravity.

North Texas crude reduced

from \$3.15 to \$3.08 per barrel for 40-degree gravity and above, with a two-cent differential downward for each degree of gravity, to \$2.84 for below 29-degree gravity.

Scurry County, Texas, crude will be purchased on the intermediate scale, which reduces the price from \$3.15 to \$3.08 per barrel for 40-degree gravity crude oil.

West Texas-New Mexico intermediate crude will be purchased on the basis of \$3.08 per barrel for 40-degree to 44.9-degree gravity, with a two-cent per barrel differential downward for each degree of gravity above 44.9 to \$2.86 for 55-degree gravity and above. The usual two-cent per barrel differential downward from 40-degree gravity to below 25-degree gravity will remain unchanged.

Pounded Pilot Escapes Jet

SANTA MONICA, Calif. (AP)—What do you do—at 650 m.p.h.—when your jet fighter becomes uncontrollable?

Leo J. (Pete) Colapietro, 34, bailed out. The result: he broke his right arm in two places, fractured his pelvis, cracked two vertebrae and dislocated his shoulder.

"It probably was the fastest bailout on record," said Colapietro at Santa Monica Hospital, where he is recovering from the March 18 crash.

He said the Douglas F4D Skyray he was testing went out of control on a routine flight over the ocean. Then the cockpit canopy ripped off. He reached up to trigger the ejection mechanism, and, he thinks, the buffeting slipstream dislocated his shoulder. But he got out.

Carpets Keep New Look

With proper care wall to wall carpeting will retain the new look.

Correct cleaning methods have seemingly been a mystery and controversial even to carpet manufacturers. After much research a product is on the market that cleans and fluffs up beat down carpet paths plus removal of spots thereby maintaining the new look. The textile engineer of a large carpet mill says—"It's the best we've found."

The product is Blue Lustre. It is easily applied with a long handle brush. One half gallon of Blue Lustre concentrate cleans three 9 x 12 rugs.

Dulles Makes Revealing Talk On Propaganda

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON (AP)—You are going to live—for a long, long time—in a world where both the United States and the Soviet Union hold in readiness hydrogen bombs that can blow each nation, and perhaps humanity, off the map.

That's the reality you face, so you can listen with one ear to the jockeying, the propaganda and the arguments now going on about stopping the tests of nuclear weapons.

That much is clear—although he didn't say it in so many words—from Secretary of State Dulles' news conference, one of the most revealing and productive conferences he's held in a long time.

This country suffered a propaganda defeat this week—and Dulles admitted it—when the Soviets announced they would stop testing nuclear weapons themselves.

This didn't have much practical meaning since they left themselves an out: they said they'd feel free to resume their tests if this country continued testing.

Since this country will, no doubt the Soviets will.

And Dulles not only reaffirmed the American decisions to have nuclear tests this summer but indicated the United States was thinking of more tests.

He said this country has been willing to stop its tests as part of a program leading to the elimination of nuclear weapons but that the Soviets don't show any inclination to go that far.

The idea that this country would be willing by itself to get rid of its nuclear weapons—built up at enormous cost over many years—looks like a pipe-dream and for very realistic reasons:

So long as this country has hydrogen bombs that can destroy the Soviet Union, the Soviets will be reluctant to start a war of any kind. That's the biggest single deterrent to Soviet aggression this country has.

Prisoners Given Old-Time Beating

MELBOURNE, Australia (AP)—A masked man today gave two prisoners at Melbourne's Pentridge Jail 12 strokes each with a water-soaked cat-o-nine-tails.

Murderer William John O'Meara, 37, and gunman John Henry Taylor, 27, were whipped for shooting at a guard during an escape attempt. It was the first such whipping in this area in 15 years and was a hot political issue during the trial of the two men.

Insurance Report Brings Mail Flood

WASHINGTON (AP)—The Veterans Administration said today it is being flooded with mail because of an incorrect report that it has 60 million dollars in unclaimed dividends on World War II GI life insurance policies.

VA's statement said the report may have started from the recent cancellation of 63,000 undeliverable National Service Life Insurance dividend checks.

These checks, which totaled less than three million dollars, were returned to VA because veterans had moved without leaving a change of address notice with the post office, VA said.

Although the checks have been canceled the money is being held in a special fund and will be paid to eligible veterans as they are located, VA said.

Grain Export

HOUSTON (AP)—Thurman Sherwood, manager of the public grain elevator, said more than 5,077,000 bushels of grain were exported last month from Fort Houston, the largest total since April, 1952.

HOW MANY OF THESE MUSTS WILL YOUR NEXT WAGON HAVE?

- 1. STYLING THAT WILL STAY IN STYLE**
Ford Station Wagon styling is Thunderbird-inspired. So you know it's going to be in style for a long time to come. And Ford offers you six different body styles to choose from.
- 2. ALL-NEW V-8 ENGINE**
Ford V-8 power is all-Thunderbird, too... with new Precision Fuel Injection that pays off in still better gas mileage. And it can be yours in all Fords (including the lowest-priced wagon of the low-price three).
- 3. MOST MODERN "SIX"**
The Ford Mileage Maker Six is the most modern and most economical Six in its field. It's the 1958 version of the engine that scored most miles per gallon in last year's Mobilgas Economy Run.
- 4. SINGLE-CONTROL LIFTGATE**
Loading and unloading is a cinch with Ford's single-control latch. Just a flick of the wrist and both lift-gate and tailgate open. You can close both gates with one hand, too.
- 5. GENUINE FOAM-RUBBER CUSHIONS IN FRONT SEATS OF ALL MODELS**
Only Ford wagons offer you the added luxury of genuine foam-rubber front seat cushioning in every model. And all Ford wagon seats are scientifically contoured over non-sag springs for greater riding comfort.
- 6. LOWEST PRICE POSSIBLE**
Because Ford sells nearly half again as many station wagons as its nearest competitor, Ford can sell these fine wagons at half the fine-car price.
- 7. TRADITIONALLY MOST WANTED AT RESALE TIME**
Ford Station Wagons, dollar for dollar, have traditionally commanded top prices on the used car lots. Another reason why your investment in a Ford wagon holds up better.

Big Spring DO Program Is Oldest Without Interruption

Vocational co-operative training was first introduced into Texas public schools in 1931, and four years later Big Spring added the program and has had it ever since. Actually, because the program has never lapsed here, Big Spring schools today have the oldest Diversified Occupations course in the state from point of continuous operation.

This method of teaching vocational education was inaugurated under the Texas State Plan for Vocational Education in 1933 with programs in Georgetown, Mt. Pleasant and Yoakum. In 1935 the Big Spring schools installed a program in the curriculum with the late Pascal Buckner employed as the coordinator. Since Mr. Buckner the following people have served as coordinators in the local program: Seth Parsons, Pat Murphy, Stanley Cameron, Joe B. Neely, J. B.

Whiteley, William Burdett, and Ed. Shive, who is employed in the position at the present time. Through the efforts of the school and community the local program has attained the status of being the oldest program in Texas that has enjoyed continuous operation. This reflects a keen interest in education of this type on the part of the schools, parents, and local business men in the community.

VIClub Adds To Program's Success

VIC is no abbreviation for victory, but this composite of the first letters of Vocational Industrial Club has brought added success to vocational training efforts.

tain phases of the program into the mechanics of the club makes for added emphasis on the program. In addition, the members get experience in organizational work by serving as officers and committee members. They learn how to conduct meetings, to establish orders of business and to know how to deal with questions of parliamentary law. They are impressed over and over with the importance of the lofty ideals connected with their work and thus do not dismiss a job as a mere instrument for getting a paycheck.

Students in these classes earned \$13,007.52 during the first semester of this school year. Earnings for the entire year will be approximately \$30,000. With some, these earnings are necessary for the students to complete their high school education; for others, they represent a means for continuing their education beyond the high school level.

Benson Gains By Ike Veto

WASHINGTON (AP)—Now that farm programs for the current year are fairly well set, Secretary of Agriculture Benson is in a position today to resume efforts to get long-range changes in federal farm policies.

As for the recreational side, the provision of social and other such activities sustains interest of the students and makes for better balanced personalities. Where there are VIClubs, the rate of student turnover is decidedly less than where there is none.

Texas Leads In Soil Bank Work

WASHINGTON (AP)—Texas, Minnesota and North Dakota lead in that order in the amount of land being retired this year under the long-range conservation reserve part of the soil bank.

Until President Eisenhower vetoed a bill Monday to rescind reductions in some farm price supports, Benson had been struggling to keep from losing ground with his program to lessen the government's role in agriculture.

Another value of the VIClub program is that of district and state meets where young people from one community are brought in contact with those from other places. They learn to appreciate viewpoints, diverse as well as kindred interests, and also to compete in job skills with each other.

Under this program, farmers sign contracts to divert general crop land to soil and water conservation uses, tree plantings, and wildlife protection for periods of 3, 5 or 10 years. They get annual payments averaging about \$10 an acre. In addition, the government bears a part of the cost of establishing long-range conservation practices on the land.

The veto gave a new presidential endorsement to Benson's philosophy that the best way to help farmers is to put them in a position to compete more effectively in domestic and world markets by lowering price supports and easing production restrictions.

Mexico Still Feels Drought

WASHINGTON (AP)—The International Federation of Agricultural Producers said today the cattle industry in northern Mexico is still feeling the effects of last year's severe drought.

By March 14, farmers had signed contracts to retire 2,993,000 acres for rental payments totaling \$26,645,000 and \$26,551,000 for conservation practices.

Aides said Benson realizes that there is not much chance of getting from the present Congress revisions in federal farm laws. As a consequence, he is looking ahead to the Congress to be elected next November.

The industry normally supplies this country with a sizeable number of feeder cattle.

Defense Shakeup, Outer Space Programs Supported

WASHINGTON (AP)—The administration's toned-down defense reorganization and outer space control programs appeared likely today to attract substantial two-party backing in Congress.

Although the full outline remained to be filled in by decisions of President Eisenhower, leading legislators said on the basis of preliminary briefings they foresee congressional approval of what Sen. Bridges (R-NH) described as a moderate Pentagon shakeup.

Agreeing on this score, Sen. Mansfield of Montana, acting Democratic leader, also applauded Eisenhower's proposal to create an independent government agency to supervise space developments in the civilian and purely scientific field.

Second Shooting Victim Is Dead

WOODWARD, Okla. (AP)—A clerk who was wounded Sunday when two youngsters riddled a Woodward grocery store with pistol fire died yesterday. Robert Smith, 12, and his brother David, 10, have been accused of the shootings.

A second murder charge was filed against Robert after Adrian Wilson, 22, died in a Woodward hospital. Robert also is charged with murder in the shooting of Wilson's employer Ralph Blair, 49.

A preliminary hearing will be held Friday. Robert is in jail. David has been sent to a private boys' ranch.

Sen. Saltonstall (R-Mass) said he regards the reorganization plan as "practical and helpful." He said he thinks Congress will approve its major points.

Murder Charge

BONHAM, Tex. (AP)—Floyd Perryman, 58, was charged with murder yesterday in the death of Fred Hilburn, about 60, a former Dallas resident. Hilburn died after a beating in a tourist court cabin the night before.

Prospective congressional opposition declined sharply with Bridges' announcement that no attempt will be made to set up a single military commander. Bridges had strongly opposed any such move.

Brenda Gilbert

is a senior and she is in her first year of training as a nurse aide. Her training station is Medical Arts Hospital.

Boys 11 through 15 ...

Follow the easy rules ... build your own Soap Box Derby racer!

Think of all the fun you'll have ... planning and building your own racer ... and competing in the Soap Box Derby! Just remember: follow all the rules! Building In Lamesa Ahead Of Former Rate

LAMESA — Building permits issued by the city inspector during March totaled \$128,350, the lowest of the current year.

The first three months, however, totaled \$661,370, far ahead of any recent comparable period. The permits are expected to be almost doubled within the next 10 days when a permit is issued for the new hospital. Workers are now on the site with construction slated to begin soon. The hospital is to cost \$639,000.

Only two business building permits were issued during March, both for remodeling. George's Ready-to-Wear was issued a permit for \$3,000 worth of remodeling. The front of the new location of Lamesa Music Co. was remodeled at a cost of \$500. The largest permit issued during the month was for the Second Baptist Church for its new \$66,500 building on N. Bryan Street, across the street from the new county hospital.

Fourteen residential permits were issued. Three of them were for new residences, two for houses moved in and remodeled, and nine

Special Discourse Set For Sunday By Jehovah's Witnesses

The Big Spring Congregation of Jehovah's Witnesses is planning a day of special activity Sunday. Highlight of which will be the public discourse "A New Song for Men of Good Will," to be delivered by Billy M. Woods, local minister, at Kingdom Hall, 217 1/2 Main, at 6 p.m.

The talk will be delivered simultaneously around the world in 164 countries and islands in the 16,000 Kingdom Halls of Jehovah's Witnesses and in selected public meeting places. Following the talk will be the Watchtower Bible Study on the subject "Surviving A World Without Gratitude."

An effort will be made by the local congregation to contact as many of the people of Big Spring as possible with a personal invitation.

Buys Into Bank

LITTLEFIELD, Tex. — E. J. Wicker said yesterday he had bought a controlling interest in the Securities State Bank of Littlefield and would succeed J. C. Hill as president. Wicker had been executive vice president of the Midland National Bank.

Manager Named For Baker Hotel At Colorado City

COLORADO CITY (SC)—Garlan H. Green, native West Texan, has been named manager of Colorado City's Baker Hotel, due to open around May 1. His appointment is effective April 15, according to Ed Baker, Fort Worth developer who is making extensive renovation to the hotel here, formerly known as the Crawford.

Green, native of Robert Lee, has lived in Colorado City for the past three and a half years, associated with the Sun Oil Co.

He formerly managed the Holland Hotel in Alpine and the Mayfield Hotel in Clayton, N. M. His wife, the former Margo George, hotel career man who has directed hotels in Mexico and the Southwest, and with whom Green in the past has been associated.

Green is a Navy veteran. He and Mrs. Green are active in civic and church affairs in Colorado City. They have three children.

GARLAN H. GREEN

Leftists Shut Out In Thai Elections

BANGKOK, Thailand — Right-wing Gans and a leftist shut-out in parliamentary elections in five Thailand provinces today brought a call from military leaders that the ruling National Socialist party purge itself of "pro-Communist, antidemocratic" elements.

Unofficial returns from the voting Sunday gave the opposition right-wing Democrats all 12 seats in Bangkok, the capital, and adjoining Dhonburi province.

The balloting did not shake the NSP's control in the Assembly, where it now holds 97 of the 186 elected seats and all 105 appointed seats. The Democrats hold 53, the leftist front 12, the Seri Managasia party 6 and there are 18 independents.

Tranquilizers Aid In Quieting Herd

LUBBOCK, Tex. — They used to use a singing cowboy to settle down nervous cattle. Now they use tranquilizers.

More than 200 cattlemen gathered at Texas Tech College here today to hear the results of Tech's feeding experiments.

Dr. Wise Burroughs of Iowa State University said new tranquilizer drugs are being administered to cattle to calm them down and help them gain weight.

Fog Creeps Into Texas From Coast

By The Associated Press
Fog crept from along the coast into Central and East Texas Wednesday.

It covered the section from the coastal bend to Louisiana and extended inland to Austin, College Station and Lufkin.

San Antonio had a drizzle.

Austin got .37 inch of rain Tuesday. Laredo, San Antonio and College Station all had traces.

Tuesday's top temperatures varied from 64 at Dalhart to 88 at Presidio.

Presley Doing Fine In Service

FT. HOOD, Tex. — An Army spokesman says Pvt. Elvis Presley "is progressing very well" with his Army basic training.

The rock 'n' roll singer started calisthenics yesterday, had two hours of drill and classroom instruction.

"Pvt. Presley is receiving exactly the same treatment as all the other young men in his company," Lt. Col. Marjorie Schulten, Ft. Hood public information officer, said.

Youths Sought In Teacher's Beating

DETROIT — Two teenage youths were sought by police today in the beating of a woman teacher at Denby High School.

Mrs. Ethel Tincher, 45, said she was struck in the face and stomach by the pair after she found them loitering in a hallway during class hours. She was treated at a hospital and released.

She said she did not think her attackers were students. She estimated their ages at about 18.

Elopers Wed Second Time

NEW YORK (AP) — A British heiress and a shipping clerk, world-trotting elopers, were married here yesterday for the second time in two months.

Portrait painter, and the former Tessa Kennedy said they went through the second ceremony because their first marriage in Havana was in Spanish and they "couldn't understand a word of it."

The couple was married on Jan. 27 by a notary public in Cuba after traveling from Scotland to find an official who would perform the ceremony. The bride's father, Geoffrey Farrar Kennedy, had obtained a writ to prevent the marriage in England or Scotland on grounds that his daughter, 19, was too young.

Elwes, 26, told newsmen the Havana wedding was legal and binding. Justice Henry Clay Greenberg performed the second ceremony in his chambers in State Supreme Court.

T&P Reduces Expenses, But Revenues Fall, Taxes Go Up

Operating expenses of the Texas & Pacific Railway Co. declined by a million dollars last year, but revenue was down by nearly two million. On top of that, taxes jumped up by nearly two million dollars.

Thus, the carrier ended the year with net income of \$4,838,645 as compared with \$8,474,004 the previous year.

Specific figures showed \$79,500,037 operating revenue plus \$2,191,657 other income. For 1956 the figures were \$81,388,881 and \$1,863,007.

Operating wages were \$36,789,875 last year, other operating expenses were \$23,527,246, taxes were \$8,098,503, and fixed charges \$2,359,908. For 1956 the comparable figures were \$37,114,786 operating wages, \$24,378,731, other operating expenses, \$6,182,714 taxes, and \$2,560,404 in fixed charges.

Per cent of return on property investment was 2.85 for the year compared with 4.30 the previous year.

Last year the T&P had 7,394 employees on the average paid out an aggregate of \$39,023,422 in wages. The year before there were 7,888 workers and \$39,588,408. Just how this worked is reflected in the average straight time wages per hour—\$2.21 in 1957 and \$2.05 in 1956. Average annual wage was \$5,417 last year and \$5,019 the year before.

Net ton miles in 1957 was 2,310,697,000 and the year before it was 4,513,270,000. Passenger miles stood at 152,279,000 and in 1956 it was 166,532,000. Back in 1953 the figure was 174,868,000. Where did the T&P get its rev-

enue? Figures show \$68,432,321 of last year's total from hauling freight, \$4,090,909 from carrying passengers, \$4,336,669 from carrying mail and express, and \$4,831,795 from other sources.

Dividends were maintained at \$4,285,550 last year, the same figure as for the past five years. This was equal to \$5 per share on preferred and \$8 on common.

A breakdown on revenue tonnage shows \$2,234,184 from agricultural products, \$228,210 from animals and products, \$3,272,231 from products of mines, \$1,050,256 from products of forests, \$9,531,581 for manufactured goods and miscellaneous items (this includes gasoline and other other petroleum products).

The T&P added six units to its completely Dieselized locomotive fleet, making 208. The company added 267 freight cars, retired 76 and had a net of 7,759 on hand at the end of the year. The passenger car total remained at 226. Company service equipment increased 11 units (all for service) and 13 units were retired, leaving this total at 587. Thus the total cars stood at 8,574.

California Faces Danger Of Floods
By The Associated Press
Danger of floods in sections of California appeared increasing today as more precipitation added to the already recent heavy falls of rain and snow.

Across the continent, the stormy weather which hammered the Northeast Coast appeared diminishing. However, strong winds and some rain continued during the night near the New England coast.

In other parts of the country, wide areas of precipitation were reported in the Western two-thirds but mostly clear skies and warmer temperatures were indicated in the Eastern third.

Some 900 residents of Alviso, Calif., 35 miles southeast of San Francisco, were forced from their homes by floodwaters of the Guadalupe River. Eight rivers on the California coast were bankful or overflowing. The San Francisco area is having its wettest season in nearly 70 years.

'Wheat Rebels' Rebuff Feds
MINERVA, Ohio (AP)—Four federal crop surveyors were rebuffed by 200 "wheat rebels" yesterday when they came to measure wheat acreage on a Columbiana County farm owned by Dr. P. Scott Whiteleather.

Whiteleather, a Minerva physician who farms as a sideline, has been waging a long fight against federal wheat controls. He is the president of the Independent Farmers of Ohio. He owes the government \$530 in penalties and costs for overplanting his wheat allotments in two previous seasons on his 150-acre farm.

The agents took one look at the milling crowd bearing picket signs and drove away.

A spokesman, Rodney A. Bell of Ashley, said he would report the incident to Dave T. Herrman, chief of the Ohio Agricultural Stabilization and Conservation Committee in Columbus.

A sign in the Whiteleather yard warns Department of Agriculture employees to keep their distance. "I didn't make it convenient for them," Whiteleather said.

The crowd of farmers—numbering 215 who came here in 98 cars—kept the agents off the property. Finally, Whiteleather himself approached. Bell got out of his automobile and introduced himself and announced his intention to make the survey.

"I sure as Sam Hill protest that," said Whiteleather. "Do you refuse?" Bell asked. "I refuse with all the determination at my command."

Whiteleather's supporters convinced the federal agents—for the time being anyway.
