Scrambled Cars

This is an air view of the derailment of 26 freight cars of a 110-car Milwaukee Road train in the Milwaukee suburb of Elm Grove. Note the shattered depot in the foreground with only the roof intact. The wreck occurred on the Milwaukee and Minneapolis-St. Paul from an as yet undetermined cause. The Watertown Plank Road, a busy thoroughfare, bisects the middle of the picture. No one was injured.

Aerial Collision Downs Airliner; 47 Are Killed

Twister Hurts 2, Wrecks Trailers

Rough and rugged weather ruled the Big Spring area early Sunday morning and repeated its performance in parts of the district Sunday night.

Two persons were hospitalized when winds overturned their trailer house near Lake J. B. Thomas Sunday night.

The countryside was left saturated by heavy rains which began after midnight Saturday. Considerable hail, varying in size from small ice pellets to sizeable stones, accompanied the rainfall and damaged flowers and plants in some parts of town and in the county.

The rainfall was better than an inch on the average and in some sections, particularly southeast of town and extending to the westward, built up as much as 1.5 inches. Here in the city, the U. S. Experiment Station reported .78 inch rain but other gauges around town showed anywhere from an inch to as much as 1.40 inch.

There was considerable washing during the deluge and paving was left cluttered with stones and rubble. Some city streets were damaged and city crews were busy making repairs on these Monday morning.

The city missed out on the repeat performance of bad weather on Sunday night. It was in this section of the storm that Mr. and Mrs. Walter Davidson were hurt. They were injured when wind gusts toppled their trailer house on the southwest shore of Lake J. B. Thomas.

Their injuries were not serious, it was reported at the Howard County Foundation Hospital. They were to be discharged today.

The Davidsons, who work with Claude Hodnett at Sportsman's Paradise on the southwest shore of the lake, said that a small twister apparently buffeted their trailer house.

Pumpers for the Colorado River Municipal Water District, concurred in this belief, for the district's boat house near the Big Spring-Odessa intake was ripped loose and twisted around. Damage, however, was negligible. Another trailer house, this one unoccupied at the time, was overturned, and other small damage done.

The rains of early Sunday morning brought the April total to 1.87 inches in Big Spring and the year's total to 6.61 inches. This compared with 3.46 for the same period in 1957.

Sunday, in Big Spring, was a typical April day. The night passed quietly although ominous weather raged west of town. Several tornadoes were spotted and some damage was done by the twisters.

Texas Electric Service Company reported the following rainfall: Eskota .76 (.03 on Sunday); Morgan Creek .26 (.04 on Sunday); Sweetwater .54; Colorado City .52; Snyder .45; switch plant 1.03; downtown plant 1.12 and Chalk .65.

Carl Hill, who lives north of Cosham, had 7.0 inch rain early Sunday morning. Rainfall in the Center Point community was gauged at 1.5 inch.

The belt extending around the city from the southeast to the southwest seems to have averaged out better than 1.5 inch for the Sunday morning storm.

Lake J. B. Rises Again

Lake J. B. Thomas came up another notch on the strength of Saturday night thundershowers. Elevation Monday morning was 2,255.54, or 2.46 feet below service spillway level.

The increase amounted to 44 of a foot, or 3,200 acre feet of water. This is slightly over a billion gallons. It brought to 18,700 acre feet the increase within the past four days and left the lake with 184,700 acre feet of water.

Lake Colorado City, the Texas Electric Lake at Colorado City, came up .25 of a foot and Monday was at elevation 2,068.05, which is 1.95 feet below service spillway level.

At Cosden Country Club, south of Big Spring, the lake level rose by four feet Sunday morning, but it is still well below spillway level.

There may have been some slight increases for Powell and Moss Creek lakes, but there were no reports. The rise in these, however, is expected to be small.

Oil Co. Leader Dies In Midland

MIDLAND — Clarence Chase, 51, district land manager for Sun Oil Co. in Midland, was found dead today in the yard of his home.

Officers said he apparently was accidentally electrocuted while working in the yard. His widow and two sons survived. One son, Marshall, is a student at Texas Tech in Lubbock.

TRADER OUT OF BUSINESS

TRAVERSE CITY, Mich. — Trader Dick Lievens is out of business—forced out right in the middle of a boom all his own.

Dick is 11. His parents forced him to give up a bike, a role of tape, marbles and ball bearings, a magnet, some balloons, and 35 cents in cash, among other things.

Parents of others really are to blame for ending Trader Dick's career. He found a nest of 30 young garter snakes while visiting in Jackson. Parents of friends didn't appreciate snakes popping out of their children's pockets.

Voters Must OK County Purchase Of Fire Equipment

Howard County Commissioners have been advised that they are empowered to buy fire fighting equipment for use in protecting property in the county from fire but that such purchase cannot be made until a county-wide election on the matter is conducted.

The commissioners had asked John Richard Coffee, county attorney, for an opinion on the board's power to make such a purchase. A fire truck which had been brought by the county several years ago and which was in the hands of the city fire department was wrecked some months ago. The city reported the accident to the county and the question of replacement was brought up.

Coffee said that the law sets up a requirement for the commissioners to first obtain a mandate from the people by a county-wide election before it is empowered to spend county funds for such purchases.

The commissioners did not take any action Monday on the matter.

Lightning Causes Minor Fire Sunday

Plenty of lightning bounced around Big Spring early Sunday morning, but no damage resulted. Firemen were called out about 12:35 a.m. Sunday to a grass fire at 700 Aylford, but they came back with a report on no damage. The fire had evidently been caused by lightning.

About 5:30 a.m., a firemen went to 508 Main where a Tate, Bristow & Parks neon sign caught fire, but again, the report was no damage.

Big Spring Man Dies Of Wreck Injuries Sunday

John Lee Parker, 41, Texas & Pacific switchman and who also carried a motor route for the Herald, died Sunday at Del Rio of traffic injuries.

He was hurt when the car in which he was riding collided with a bridge abutment near Comstock, west of Del Rio at 5 p.m. Saturday. Mr. Parker succumbed at 6 p.m. Sunday in a Del Rio hospital. He had sustained broken legs and possible internal injuries.

Funeral has been set for 3 p.m. Tuesday at the River Funeral with the Rev. L. J. Power, pastor of the Trinity Baptist Church, officiating. Burial will be in the Masonic Section of the City Cemetery with Masonic rites at the graveside.

Mr. Parker left here Saturday at noon with R. Leo Cobb, also a T&P switchman, who, according to reports received here, was driving. He escaped without serious injuries and was discharged from the Del Rio Hospital to enter the VA Hospital here.

Mr. Parker, who resided at 1907 N. Monticello, was born Aug. 10, 1916 and came here in 1926 from Crane. He was a graduate of Big Spring High School and has been employed by the T&P for the past 14 years. For the past year he had carried The Herald's Knot route in his off-duty time.

He was a member of the Trinity Baptist Church and of the Masonic Lodge.

Surviving Mr. Parker are his wife, Kathleen Parker; one son, Johnny K. Parker; two brothers, Louis M. Parker, Colorado City, and Cecil Parker, Corpus Christi; one sister, Mrs. Joe B. Hoard, Pecos; and his mother, Mrs. Jeff Pike, Foran.

Riders In Jet Also Are Killed

LAS VEGAS, Nev. (AP) — A big airliner winging east in perfectly clear weather collided with a supersonic fighter bomber high over the desert today, exploded and crashed. All 47 aboard the airliner were killed.

The jet plane was an F100F Super Sabre from nearby Nellis Air Force Base, a pilot training center. The craft's two occupants, on an instrument training mission, rode the craft to their deaths.

Initial reports were that one or both had parachuted, but the chute sighted apparently was a drag chute from the plane.

The collision was at 21,000 feet over a hilly desert area southwest of Las Vegas.

Observers said there was a spurt of flame as the United Airlines transport exploded, then went into a long death dive, trailing flames, black smoke and debris.

The DC7 was carrying 37 regular passengers, 5 airline employees and a crew of 5 from Los Angeles to New York via Denver, Kansas City and Washington.

It left Los Angeles at 7:30 a.m. and was due over this desert gambling resort at 8:31 a.m., although it was not scheduled to land here.

The crippled airliner crashed like a bomb. A rescue party headed by sheriff's deputies reached the scene by midmorning and reported all dead. Most of the bodies remained in the fuselage and the wreckage, which burned on the ground and was not widely scattered.

The scene is 9 1/2 miles south of Las Vegas' McCarran Field, within 10 miles of the mountains where actress Carole Lombard died when a transport in which she

was a passenger hit a peak in 1942. The jet came down three miles away from the airliner and over a hill. The Air Force said the bodies of both airmen were in the wreckage.

After the collision, Nellis AFB said, its radio men heard one report from the jet: "Mayday" — the aviator's distress call. There were a few other words, so garbled they were indistinguishable.

The radiomen said the speaker could have been saying "flame-out" or "bailing out." A flame-out is when a jet's engine quits.

Col. Bruce Hinton, in charge of the training group, said he assumes it was a flame-out because neither man parachuted.

Hinton said he did not know if the jet was on instruments at the time of the collision, but that it could have been. If the fliers were on instruments, the one in the rear seat would have been hooded and the one in front would have been the observer.

Hinton said: "Neither got clear. Neither used his chute. The airplane hit and went to pieces. We couldn't tell if they were trying to get out when it hit. A reported chute in the air was not connected with a pilot."

The jet reported in by radio shortly before the Mayday call to obtain visual clearance to descend it had been operating at 27,000 feet, he said.

Tornado Is Sighted Near Wichita Falls

By The Associated Press

A tornado boiled over Northwest Texas Monday and the Weather Bureau issued a warning that more stormy weather was in store.

Little Deandale near Wichita Falls was threatened by a twister early Monday, but it passed over without striking the ground and causing damage.

Monday's weather alert was for severe weather for portions of North Central Texas, southeastern Oklahoma, northeastern Texas and extreme southwestern Arkansas.

The alert is in effect from 2 p.m. until 8 p.m. It came after a squall line began developing from Oklahoma City to Fort Worth. The alert does not include the Fort Worth-Dallas area.

The Weather Bureau said a few severe thunderstorms and a tornado or two can be expected in the area.

The alert is along a 120-mile-wide band, 60 miles on either side of a line from Ardmore, Okla., to Texarkana.

Another tornado threatened little Deandale, near Wichita Falls, early Monday, but the storm passed over without causing damage.

Deandale was hit by a tornado April 2. One man was killed and much property damaged. The April 2 funnel was one of three that struck the Wichita Falls area.

The funnel Monday was sighted on radar at 7:30 a.m. by weather stations at Wichita Falls and Fort Worth.

Joe Dobry, weatherman at Wichita Falls' Kell Field, said the funnel was visible to him. It was swirling above ground about 18 miles northeast of Wichita Falls.

Another twister was reported at Lake Thomas near Big Spring Sunday night. The house trailer of Mr. and Mrs. Walter Davidson was overturned, and the Davidsons were slightly hurt. A boat-house also was broken loose by the storm.

Thunderstorms growled over Northwest Texas early Monday, and a cold front headed into the

Panhandle was expected to stir up still more turbulence. It was the third straight day of menacing weather in parts of the state.

Forecasters said a squall line across the upper Red River Valley and western Oklahoma was responsible for an early thundershower at Wichita Falls. It was moving toward the Fort Worth-Dallas area.

A similar line of thunderstorms rumbled southward from the eastern Texas Panhandle during the night, finally playing out near San Angelo about 3 a.m. Hail fell in several areas.

This followed on the heels of vicious winds and hard rains causing damage in a number of sections early Sunday—a continuation of Saturday night storms also marching southward across the Panhandle.

Deluge Loads Dirt On Streets

City street maintenance crews had their hands full of work this morning carting topsoil off the city's streets.

Heavy washing resulted from Saturday night's torrential rains, but the city manager reported that very little damage resulted on paved streets.

Only small spots of paving at 4th and Main and 5th and State were reported washed out. The usual washing occurred on unpaved streets, however.

This morning, maintainers were used to scrape dirt and gravel off paved streets where it had been deposited by fast-moving water. Areas around storm sewer drains were especially heavy with dirt, gravel, and some rocks. Rocks were strewn across the Eleventh and Goliad corner, having been left there when water rushing down Goliad went into the storm sewer.

The city manager, H. W. Whitney, said that the rain, evidently lighter on the North Side, didn't cause as much washing on unpaved streets there as usual.

ation of Saturday night storms also marching southward across the Panhandle.

A tornado destroyed a grain elevator 10 miles south of Abilene early Sunday. Minor damage but no injuries was reported from winds hitting up to 20 m.p.h. at Fort Worth and Wichita Falls.

Several dozen fishing boats were swamped on Possum Kingdom Lake near Mineral Wells.

Sunday night's thunderstorms ripped Borger for half an hour. Inch-thick hail stones smashed windows and inflicted other minor damage.

Cool air spreading from Colorado was expected to send still another squall line rolling from north to south across the Panhandle later Monday.

A new five-day forecast promising little or no moisture after the first of the week indicated this might be the last of such disturbances for a time.

Early-morning fog lowered visibility to zero around Cotulla in South Texas early Monday, and to 1/4 miles around Corpus Christi. There was patchy ground fog around Houston and Beaumont.

Except for clouds around Corpus Christi and Wichita Falls, skies were generally clear across the state.

Temperatures before dawn ranged from 45 at Dalhart to 67 at Corpus Christi. Readings Sunday varied from 69 at Amarillo to a summery 96 at Presidio in the Big Bend.

Rainfall measurements in the 24 hours ending at 6 p.m. Sunday included Wichita Falls 1.17 inches; Childress .99; Fort Worth .67; Waco .65; College Station .54; Abilene .49; Austin .47; Amarillo .30; San Angelo .18; Lubbock .16; Victoria .05 and Houston .03.

In the hard blow early Sunday, a number of cabin roofs also were damaged at Possum Kingdom Lake. At Cedar Crest Lodge, where the winds struck hardest, C. E. McFarling estimated loss at \$25,000.

'I Wanted To Kill Some Nuns And Priests,' Youth Explains

DOYLESTOWN, Pa. — A man who said he resented what he thought were rebuffs from the church and therefore "wanted to kill some nuns and priests" waived extradition today and was returned to Trenton, N.J., scene of an outburst of shooting Saturday night.

Louis Felipe Marrero, 24-year-old father of two, who crashed into a convent in Trenton and wounded three nuns with a shotgun, was brought before Judge Edward G. Biester of Bucks County Court for the brief extradition hearing.

Trenton police said Marrero signed a statement in which he admitted shooting the nuns and turning the area around St. Joachims convent and school into a battleground as he fought off police and National Guardsmen for more than an hour.

The youth, who spoke of seeing visions of the Virgin Mary, finally slipped from the building and

walked to the Delaware River 10 blocks away.

He got into a rowboat and crossed over to Pennsylvania, where he surrendered to a guard at the Fairless works of the U.S. Steel Corp.

The prosecutor quoted Marrero as saying he had sent a series of suggestions to such prominent Catholics as Bishop Fulton J. Sheen and then became resentful when his suggestions were ignored.

Among other things, Marrero suggested a religious medal for spacemen in the U.S. armed forces and also sent Bishop Sheen his own version of the Bible.

Two nuns wounded seriously in the shooting spree were reported out of danger. They are Sister Lorenzina Sassani, 50, who was shot in the chest, and Sister Madeline Fussie, 23, Bayonne, N.J., who suffered a shotgun blast in the thigh.

The third nun, Sister Angela

Bulla, 24, Torrington, Conn., and Asbury Park, N.J., was wounded in the arm and was listed in good condition.

A passer-by was hit in the mouth by pellets fired by Marrero from a convent window.

The prosecutor said Marrero has no police record or record of mental illness.

The handsome, wavy-haired youth sat in the Falls Township, Pa., police station and spoke calmly of his "visions."

"I have been having visions and signs from the Virgin Mary for about two years," he said. "I've never spoken to her. I've never seen her. Just the signs."

Marrero, an \$80-a-week press operator who lives only two blocks from St. Jotchim's, was married in the church and was known in the neighborhood as a regular churchgoer. He has two children, aged 1 and 3.

Regional Debate Champions

These are the boys' and girls' debate winners in the Region I Interscholastic League literary contests held at Texas Tech during the weekend. Julius Glickman, right, and Stephen Baird are the Big Spring High School team which won boys' honors. Ann Elder, left, and Susan Elwell made up the girls' championship team from Midland High School. The Big Spring literary team was fourth

high in the regional journey with 40 points. Other Big Spring point getters were Sandra Tally, first in ready writing; Betty Guthrie, third in shorthand; and Nita Jones with two fifth places in journalism events. The debaters and Miss Tally qualified and will compete in the state tournament May 3. (Photo by Lubbock Avalanche-Journal).

Outstanding Club Award

Nancy Cunningham, left, treasurer of the Texas Vocational Industrial Training clubs for the next year, and Bobby Thurman, center, District 5 president, present to Roy Worley, principal of the local high school, the plaque the Big Spring VIClub won in Fort Worth Saturday. The local club was chosen as the outstanding unit in this district.

Big Spring VIClub Chosen As Outstanding Unit Of District

Big Spring High School's Vocational Industrial Club was selected as outstanding chapter of District 5 at the state VIC meeting in Fort Worth Friday and Saturday. Nancy Cunningham of Big Spring was elected state VIC treasurer. Lynn West of Lamesa won a \$1,000 college scholarship donated by the Sears Foundation. In addition to carrying a full load of school work, West has a fulltime job with Texas Electric Service Co. Mary Russe, Austin, was elected sweetheart of the 2,500-member Vocational Industrial Club of Texas. The Big Spring chapter won second place in the chapter conducting contest, second place in the photo panel display of activities, and third place in the chapter notebook division. Individuals in the local club who won first place awards include Bobby Thurman, parliamentary procedure; Nancy Cunningham, identification in the photography division; Alan Alexander, meat cutting; Sandra Murphy, laboratory technician; Jackie Tucker, painting; and Lorene Mearns, nurse's aide. Second place winners were Melva Turner, nurse's aide in skill speed; Alan Alexander, meat cut-

'Y' Groups Score Big Victory At Spring Meet In Amarillo

If adults do as well in the YMCA building campaign as the young people have done in their activities, success lies ahead for current fund appeal. Everett Taylor, program director, said that the Big Spring delegation all but swept the field in honors at the West Texas district spring Hi-Y conference in Amarillo. "I think this is an evidence of the quality of program these young folk have developed," he said. "As our adults make their investments in the new YMCA home, I know they can make them in full confidence that there are no finer boys and girls. Their record at Amarillo proves it." The chartered bus with its 41 passengers and two private cars of delegates returned Sunday afternoon bearing a host of honors. Foremost of course, was the district presidency won by Buddy Barnes, son of Mr. and Mrs. Chester Barnes, Buddy, with intense backing of the local club, polled 100 out of a total of 147 votes in his race with Gwin Morris of Hereford. Buddy will preside at both the fall and spring conferences and otherwise supervise the activities of the district youth program. Another top honor—most coveted among the clubs—was won by the Kappa Xi chapter of the Tri-Hi-Y. It was picked as the honor club of the year and won a handsome gold trophy. The Seba chapter of Tri-Hi-Y won the AA honor club rating, next to the top, and a rating went to the Iota Tri-Hi-Y, the Sigma Delta and the Exquire Hi-Y. The Exquire Hi-Y won the sports festival with Billy Bob Satterwhite setting the pace with first places in the 20-yard free style and back stroke swimming events. He took second in the 40-yard free style event and with Gordon Dickenson placed second in the 40-yard relay. Randy Hensley captured second place in the ping pong tournament; the Sigma Delta chapter took second in the basketball tournament; the Kappa Xi Club took second in the volleyball tournament. An instrumental combo, "The Continentals," romped off with first place in the talent contest. Members of this unit were Coub Eastman, Robert Stripling, Dennis McCullough, Tony Starr, Randy Hensley, and Sam Willey. There were 388 delegates registered and 46 were from Big Spring. Other cities represented were El Paso, Odessa, Midland, Abilene, Sweetwater, Hereford, Pampa, Plainview, Lubbock, Wichita Falls and Amarillo. Accompanying the group from here were Mrs. Clyde Thomas and Mrs. Jimmy Jones, who led discussion groups. Mrs. K. H. McGibbon, and Taylor.

Mrs. Scott Dies Sunday

Mrs. Mary Elizabeth Scott, 83, mother of Herman Scott, of Luthers, died at her farm home two miles west of Lake T. A. m. e. l near Sweetwater Sunday. The widow of W. T. Scott, Mrs. Scott had lived in the Sweetwater area for 52 years. She had visited at Luthers occasionally and had holdings in this vicinity. Services are set for Tuesday at 10 a. m. in the Highland Heights Methodist Church with the Rev. J. W. Felder, pastor, officiating. Burial is to be in the Garden of Memories Cemetery at Sweetwater. Besides Herman Scott, other survivors include one sister, Mrs. Alice Scott, Sweetwater; a brother, E. J. Osborn, Merkel; eight grandchildren and nine great-grandchildren.

Selecting Jurors

Judge Charlie Sullivan, 118th District court, set a jury commission to work at 9 a. m. Monday drawing panels to serve his court for the June term. The commissioners were instructed to draw 20 names for grand jury duty and 300 for petit jury service.

5 Women Trapped In Auto, Drown

NEWTON, Mass. (AP)—Five women residents of a nursing home—the youngest 80, the oldest 93—were trapped and drowned in a driverless automobile yesterday when the car slipped its brakes, rolled down a grade and into a lake. William L. Bruce, 34, an assistant dean at Harvard Law School, dived after the car but could not open its doors because of water pressure. He said the women inside "looked terrified—numb with fear." He said that for five minutes, as the air-filled car slowly settled into the water, the women fought desperately to escape and stared through the closed windows in horror as four men tried to free them. One of the victims was Mrs. Ina Dowling, 85, who precipitated a Miami court scandal in 1954. Her accusations that a Florida court had mishandled her husband's two-million-dollar estate led to grand jury inquiries into court officers' conduct and to the impeachment of a judge, later acquitted. The others were identified as Mrs. Gertrude Cummings, 85; Mrs. Hattie Gordon, 96; Mrs. Esther Ross, 92; and Mrs. Dorthida Hirtches, 80. "The women were frozen with fear," Bruce said. "One woman had her face pressed against the back seat of the car—blocking out the sight of the rising water." Mrs. Kenneth Watson, 58, owner of the nursing home, said she was about to drive the five women on a ride into the country when the accident occurred at 3:40 p. m. The car belonged to Mrs. Dowling. Police quoted Mrs. Watson as saying: "I had just helped the women into the car and was going back into the house after a coat. I shut the door on the driver's side and left the motor running and the brakes on." Mrs. Watson said that as she walked away the car lurched forward and moved down the driveway. She ran after it but couldn't get near it. Police guessed that one of the women may accidentally have shifted the automatic transmission lever into drive position. The car knocked down a 3-inch flagpole, plunged 30 feet down an embankment, rolled further and took another 30-foot dip into Crystal Lake. It settled in 12 feet of water, three car lengths from shore. Mrs. Watson ran back into the house and fainted.

Joe C. Quick Is Holdup Suspect

A youthful bank bandit apprehended a short time after he had held up and robbed a bank in Marlow, Okla., last Friday was identified locally as the former manager of the Howard House—Joe Cecil Quick, 20. Dispatches said that the bandit had given his home as Odessa. Local information was that Quick formerly served as manager of the hotel, here leaving Big Spring about two months ago. Quick is accused in Oklahoma with having held up the Marlow First National Bank Friday, fleeing with \$5,000. He was taken into custody about 20 minutes later and, according to reports, handed over the cash and the pistol he had used in the holdup.

Articles Are Found

M. W. Whitney reported finding a clock and two cigarette lighters in a State National Bank money bag Sunday. He said he found the objects at the south end of Virginia Ave.

HOSPITAL NOTES

BIG SPRING HOSPITAL
Admissions—E. E. Banks, 505 N. Bell; Myrlene Rogers, Knott Rt.; Henrietta Flores, 300 N. Gregg; Bobby Dixon, 501 Young; Mr. and Mrs. W. E. Davidson, Coahoma; Jesse Fryar, 1004 Scoury; L. B. Stager, El Paso; Alberta Conway, Westbrook; G. E. Fleeman, 901 Lancaster; Mrs. Bessie Sneed, Rt. 1; Claude Eggleston, Midland. Dismissals—Virgie McNew, Tarzan; Sherry Burcham, Midland; Clara Gray, 111 E. 15th; Pedro Piejerna, McCamey; Nettie Wallace, Gail Rt.; Shirley Bradford, 406 W. 10th; R. A. Eubanks, 608 Goad.

Police School Opens Today For Two Weeks

Policemen began a traffic school today with classroom work, but they got plenty of practical experience Sunday before the school started. A total of four accidents occurred in Big Spring Sunday which required investigation. A car driven by Harold Danford, 403 NW 11th, was involved in an accident at 4th and San Antonio. Policemen reported he had hit a car owned by Bill Cartwright. At 10th and Main, cars driven by Dale Smith, 401 Hillside; Beverly Houser, 1310 Stadium; and Wilburn Laws, 904 E. 12th, were in collision. Paul Hernandez, 508 NW 5th, and Ted Phillips were in an accident at NW 4th and Lancaster. Thomas Olaque, 620 NW 4th, and Salvador Sanchez, 624 NW 3rd, collided at NE 2nd and Nolan. Policemen are now taking a four-hour class each day for the next two weeks on different phases of traffic control and law. Teaching the course today is Sgt. J. Ross Kemp, safety engineer and educational director of the Department of Public Safety at Midland. Classes are being held in both the morning and afternoon so patrolmen from all three shifts can take it.

Rites Held For Mrs. Wilkinson

Mrs. W. M. Wilkinson, 83, pioneer West Texan and a long time resident of Stanton, died Saturday at Lubbock. She passed away at the home of a daughter, Mrs. Kenneth Cox, 3120 32nd Street, with whom she had been staying. Services were to be held at 2 p. m. Monday at the First Methodist Church in Stanton. Burial was to be in the Evergreen Cemetery beside the grave of her husband, who died in 1941. Arrangements are in charge of Rix Funeral Home of Lubbock. Mrs. Wilkinson was born in Comanche County on April 3, 1875, and her husband was one of the personalities immortalized in Larry Chittenden's famous ballad, "The Cowboy's Christmas Ball." Mr. Wilkinson, then a cowboy on the old SMS ranch, was the "Windy Bill" from Little Dead Man's Branch" who called out the dances for that celebrated frontier ball at Anson.

W. E. Henderson Dies At Cleburne

Word has been received here of the death of W. E. Henderson, about 68 years of age, who resided at Venus, Texas. Mr. Henderson, in and out of a Cleburne hospital for a number of weeks, passed away at 1 a. m. today. He was the father of Mrs. O. C. Hart of Houston, a former resident of Big Spring and one-time teacher in the local schools. Other survivors include his wife and a son, Steve, of Austin, along with three grandchildren. Plans for funeral services were incomplete this morning but he probably will be buried in Venus Tuesday. Mr. Henderson had been in semi-retirement in recent years due to a heart condition.

Two Homes Are Hit By Burglars

Two of four burglaries reported over the weekend in Big Spring were at residences. Art Parteat, 610 Nolan, said that a radio and a watch with a diamond setting were taken from his residence sometime Saturday night. Noah Tuttle, 2303 Goliad, said that someone had entered his house—evidently with a key—and took \$1 plus an unknown amount from a small bank.

IOOF Lodge Slates Work In First Degree

First degree work is on the schedule for IOOF Lodge No. 117 at 8 p. m. today. W. W. Parker, Noble Grand, announced this morning. The lodge will meet in Carpenter's Hall. Parker said all members are urged to attend. Fire Chiefs Meet Fire Chief H. V. Crocker was in Lubbock today for a meeting of fire chiefs and marshals. The meeting will continue through Tuesday.

Drunkenness Fines Total \$300 Today

Of the \$363 in fines assessed in corporation court this morning, \$300 was on drunkenness charges. Thirteen drunks drew fines this morning, and their fines totaled \$300. One drew a \$60 fine. Most were for \$15, however. In other cases, three speeding fines were issued, two for \$10 each and one for \$20. One \$10 fine was for running a red light, and two fines of \$5 were given for failure to grant right-of-way and for following too closely. A \$3 fine was given for parking in an alley.

Hip Fracture Is Result Of Fall

Mrs. Frank Powell suffered a broken hip in a fall at her home at 406 Johnson Sunday morning. She was undergoing surgery at the Howard County Foundation Hospital during Monday morning. Mrs. Powell has gone into the back yard following a Saturday night shower and slipped and fell. Mr. Powell, who has been seriously ill at home, was returned to the VA Hospital Sunday.

Harvard Prof Arrested For Perjury In Soble Spy Case

BOSTON (AP)—FBI agents arrested Mark Zborowski, 50, Russian-born Harvard researcher, on perjury charges today in connection with the Jack Soble Soviet espionage ring. He was held in \$20,000 bail for further hearing Wednesday at a brief arraignment before U.S. Commissioner Peter J. Neilligan. A short man, about five feet five, Zborowski was visibly nervous and pale. His only comment in the small federal building courtroom was on the matter of bail. He said \$20,000 was "an awful lot of money" and added: "I never intended to leave here and I can be here anytime you want me." U.S. Marshal Ralph Gray led him away, handcuffed, to the detention room. FBI Director J. Edgar Hoover had said earlier Zborowski's arrest was on the basis of a federal warrant issued in New York Friday. It charged Zborowski with perjury resulting from his testimony before a federal grand jury. No details were given. Asst. U.S. Atty. Norman Hubley told Commissioner Neilligan secret copies of the indictment are being opened today in New York. For that reason he asked the continuance to allow time for the indictments to be sent up here. Hubley said Zborowski has been living in suburban Brookline for about a year and is employed as an anthropologist at the Harvard School of Public Health. He is a naturalized citizen but is registered as a foreign agent, Hubley added. The arrest was made at his home. Zborowski was handcuffed as he was led down the long federal building corridor but the cuffs were removed during the arraignment. Hoover identified Zborowski as Russian-born. He came to this country in 1941 and six years later became an American citizen. The involvement of Zborowski with the Sobles is a development in the FBI scrutiny of secret activities of Vassili Zuhlin, who reportedly was a general in the NKVD—Russian secret police. Soble, his wife, Myra, and Jacob Albam were arrested by the FBI in New York Jan. 25, 1957, on conspiracy charges to commit espionage as members of a Soviet espionage ring. All pleaded guilty and have been sentenced. While testifying before a Senate Internal Security subcommittee in 1956, Zborowski admitted carrying out assignments for the NKVD in France in the 1930s. He denied he had been an espionage agent for the Russians since coming to America. The FBI said Zborowski is Russian-born and has been a naturalized citizen since 1947. He came to the United States in 1941. Continuing, the FBI said: "Zborowski sailed from Lisbon, Portugal, in 1941 and arrived in the United States on Dec. 29, 1941. On June 30, 1957, he became a naturalized American citizen in New York City. "Since his arrival in this country, Zborowski has been employed as night foreman in a metal products firm and has conducted research in contemporary culture at Columbia University. "From 1949 to 1951 he was an anthropologist with the American Jewish Committee and from 1951 to 1954 conducted research on a project under a grant from the U.S. Public Health Service. In 1954, 1955, and 1956, Zborowski conducted research at a New York City Veterans Administration hospital under another grant. Since July, 1957, he has been employed at Harvard University, Cambridge, Mass. "He has resided in the New York City and Boston, Mass., areas since his arrival in America. Zborowski was married in 1937 and has one son."

Heart Attack Today Fatal To Jess Sherrod

Jess Randall Sherrod, 78, farmer and rancher in Howard County for 60 years, died today of heart attack suffered at the home of a daughter, Mrs. Owen Johnston, in Sand Springs.

Borden

Gordon Street No. 1 Clayton & Johnson, about 10 miles southwest of Gail, has been plugged and abandoned at 8,272 feet. The wildcat project was 1,930 from north and 460 from west lines, 16-32-4n, T&P Survey.

Dawson

Midwest No. 1 Davis, a Pennsylvania wildcat, deepened to 4,845 feet in dolomite. The project is 12 miles northwest of Lamesa, 2-310 from south and 330 from west lines, 60-M, ELARR Survey.

Garza

Continental No. 1 Kirkpatrick continued to swab today after perforating from 6,762-66 feet. Operator treated with 250 gallons of acid and then, after recovering load, swabbed 51 barrels of new oil in four hours.

Glasscock

Operator waiting for cement to set 5 1/2-inch string at 6,214 feet today at the Bright & Schiff No. 1 Bryans about seven miles southeast of Garden City. It is a Spraberry wildcat, C NW NW, 26-35-4s, T&P Survey.

Martin

Pan American No. 2 Nolen, in the Breedlove field, swabbed 47 barrels of new oil from Devonian perforations in an unreported length of time. Perforations extend from 12,022-34 feet. It is 660 from south and east lines, Labor 1, League 259, Borden CSL Survey.

Hamon & Republic No. 1 Holton

drilled in lime at 6,294 feet. The Devonian wildcat is six miles northwest of Tarzan, 5,757 from east and 5,872 from south lines of League 246, Wheeler CSL Survey. Husky & Pano Tech No. 2 Breedlove, also in the Breedlove pool, made hole at 6,282 feet in lime. It is located 1,419 from north and 4,509 feet from east lines of League 358, Briscoe CSL Survey, and 10 miles southwest of Patricia.

WEATHER

NORTH CENTRAL TEXAS—Scattered thunderstorms mainly in southeast this day. Mild temperatures. **WEST TEXAS**—Partly cloudy through Tuesday with scattered thunderstorms mainly east of Pecos Valley this afternoon. Mild temperatures. **DAY FORECAST**—Temperatures may be slightly below normal. No important changes. Moderate, widely scattered thunder showers early in week. Otherwise, light rain or none.

Navy Claims New Altitude Record

Lt. Cmdr. George Watkins, left, of Alhambra, Calif., is congratulated by John Norris, Grumann Aircraft Co. test pilot, after taking a Grumann F11F-IF Super Tiger jet fighter to 76,828 feet in a flight from Edwards AFB at El Centro, Calif. Vice Adm. William V. Davis said it was a new unofficial record for conventional aircraft. It bettered by 6,520 feet the previous recognized mark, held by an Englishman.

Necessity Of Leadership In Science Cited

BRACKETVILLE (AP) — The United States faces a stern necessity of maintaining world leadership in developing peaceful uses of atomic energy, the Southwestern Assembly concluded yesterday.

The assembly, composed of 75 leaders of industry, science and education from Southwestern states, met for three days in this Southwest Texas resort town. Columbia University and Rice Institute co-sponsored the assembly. A final report on panel discussions recommended cooperation of government and industry in domestic and world development of atomic power.

The assembly expressed confidence that an effective, workable division of effort between government and private industry is emerging. Government competition with private power companies should not increase, the report asserted.

Private industry has demonstrated willingness to accept its share of the program and government must continue to shoulder a large part of research and development costs, the group said.

Declaring that continued development of atomic power for other nations would be an extension of the American domestic program, the assembly said it "heartily endorses the leadership and participation of the United States in the International Atomic Energy Agency."

This agency has been in operation in Vienna for six months on the basis of President Eisenhower's "atoms for peace" pronouncement. Its charter has been ratified by 65 nations.

Its objectives are for atomic research and education to be stimulated and for American atomic power industries ultimately to find additional profitable world markets.

Another objective is to establish safeguards against diversion of atomic materials for military uses.

Political Storm Is Ahead For Brazil

By JULIUS GOLDEN

RIO DE JANEIRO (AP) — The ominous rumble of political thunder heralds a storm ahead for Brazil. This country's severe economic crisis and growing political instability seem to be opening the gates to social turmoil.

In Latin America, strong words by the Roman Catholic Church often can be symptomatic of developing unrest. And the church's highest dignitaries this week issued a stern warning to the government to move swiftly or risk panic and chaos.

Signs of unrest are increasing. Last week in Sao Paulo commuters rioted because of poor train service.

Monday night, in Rio's fashion-

able Copacabana section, 50 persons ripped apart a bakery they suspected of grinding old dirty bread and selling it as meal. Scores of mothers in Rio have gone on hunger strikes because of lack of school facilities for their children.

Above all there is constant grumbling—growing louder every day—against uncontrolled inflation. Prices in the first two months of this year alone rose by 5 per cent, and it is estimated they went up 4 per cent more in March.

The political situation, which three months ago appeared stable, has deteriorated. At the basis of the new instability is the Communist question.

A federal court recently granted freedom from arrest to Communist leader Luis Carlos Prestes after he had spent 10 years in hiding. He must still face charges of subversion.

Prestes' victory was the signal for increased Communist activity. There has been talk of legalizing the party, which was outlawed in 1947.

The most immediate problem facing Brazil is the economic crisis. Government coffers are just about bare of foreign exchange. Import commitments are increasing. The revenue from exports is dropping. The government is storing 10 million bags of surplus coffee, at tremendous cost to the taxpayers, because it fears a surplus could cause a price slump on the world market.

The government has been forced to issue more money, decreasing the cruzeiro's value. The free market price of the cruzeiro has fallen from 90 to the U.S. dollar in December 1957 to 122 today.

Inflation in these circumstances has been rolling ahead unchecked.

Showery Weather Is U.S. Outlook

By The Associated Press

Showery weather in widely scattered sections of the country was the outlook today, with a continuation of fairly mild temperatures in most areas.

Heaviest precipitation during the night was in a belt from the lower Great Lakes southwestward across the Ohio Valley and Tennessee and into Mississippi and northern Alabama. Amounts of more than half an inch in a six-hour period were reported throughout the wet area.

Strong winds lashed some sections, including Jackson, Miss., which reported some trees uprooted. Hail fell in some areas.

Iranian Oil Fire Heats Wide Area

TEHRAN, Iran (AP)—A fire in one of Iran's richest oil wells today was shooting up a pillar of flame more than 70 feet high, forcing persons living 20 miles away to turn on their cooling systems and costing the government-owned National Iranian Oil Co. an estimated million dollars a day.

The glow from the burning well near Ahwaz could be seen 80 miles away. Peasants threshed their crops at night by it.

America's best known oil fire fighter, Myron Kirby, took off from Houston, Tex., for Iran half an hour after getting a call to help. An official of the Iranian company said it will take months to put out the fire, started by an explosion Saturday.

Dimmitt Student To Edit Paper

ABILENE—Ivan Sinclair, junior journalism major from Dimmitt, has been elected editor of the Hardin-Simmons University Brand, student newspaper, by the university board of publications, Dr. Robert G. Collmer, chairman, announced.

Larry Lewis, junior journalism major from Ozona and editor of the Brand this year, was named business manager of university publications. He will serve as advertising and budget manager of three university publications including the Brand, Bronco, yearbook, and Corral, student literary magazine.

Patsy Kirby, sophomore religious education major from Dallas, was elected editor of the Bronco and Martha Gay Ueckert, sophomore English major from Iowa Park, was named editor of the Corral.

If You Are Ineligible For NSLI

Let us tell you how you can still apply for old line legal reserve life insurance similar to your old GI insurance. If you are under age 45 and in good health, you may qualify, usually without physical examination, for the same basic low NSLI rates charged by the Government during World War II. (Slightly higher rates for older ages.)

Tear out this ad and mail it today with your name, address, occupation and date of birth to Time Life Insurance Co., Dept. 70A, San Antonio 8, Texas. (Advertisement)

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your druggist. Money back guarantee. *Reg. U.S. Pat. Off.

Duty To Report Facts Told To Members Of News Group

NEW YORK (AP) — The government and press, radio and television have a duty to report the facts—unfavorable as well as favorable—directors of The Associated Press said today.

They cited the business recession and failure of the first Vanguard satellite missile as examples of unfavorable news that should not be suppressed.

"It would be a disservice to emphasize bad news out of proportion, but it would be unthinkable to attempt to suppress news of any kind," the directors said in their annual report.

"Nothing could be better calculated to destroy public confidence quickly and completely," the report, read at the AP annual membership meeting in the Waldorf-Astoria Hotel, said, "The strength of democracy lies in an informed people."

The directors noted that the launching of two Soviet Sputniks was followed by a clamor for the United States to match the Soviets.

"With much advance notice and full news coverage, the attempt was made in December to launch

the Vanguard—and it failed," the directors said.

"Both the armed services and the news media were blamed by some critics for creating a spectacle of the failure and injuring the United States in the eyes of the world. We believe this criticism shortsighted.

"A totalitarian government can release only the good news and hide its failures. In a free country, it is the duty of the government (in this case the armed services) and press, radio and television, to report the facts, good and bad."

Of the reporting of the business recession, the directors' report said: "As increased unemployment, slackening business and other factors added up to a recession, some individuals suggested seriously that news media had accelerated (or even caused) the downturn by reporting unfavorable facts."

"Here again the function of a free press in a free country is misunderstood."

The directors said, "Associated Press coverage has provided what the public has a right to expect—

thorough, fair and factual reporting."

As an example, they cited a series of articles last month on business conditions around the country, assembled from information gathered by AP domestic bureaus.

"This series reported evidences of downturns but some bright spots," the directors said.

"It was more widely published than any daily series in more than two years. The Associated Press did not undertake to prove anything; it merely reported what its staff and members found and what they were told."

Referring to the Little Rock school integration story, the report said: "Editors of AP newspapers lined up on opposing sides editorially, but for their news columns they used, almost without exception, the factual accounts by AP's reporters and photographers."

Describing the past year as one of dramatic news on many fronts, the report said the AP again had met challenging demands.

"Public interest shifted drastically with the shifts on the world scene," the report noted. "The news service of The Associated Press fulfilled its obligation to report objectively what was happening and to explain without bias its meaning."

The report said there has been some improvement of coverage in Communist-dominated areas.

"In Russia, AP now has a third American staff correspondent," it said. "Facilities for getting news from other Iron Curtain areas have been improved."

"There is no change regarding coverage of Communist China, however. An impasse between the U.S. State Department and the Chinese leaves an AP reporter and representatives of other news organizations with passports validated for travel into China. But the Chinese are unwilling to accept them pending arrangements for reciprocal admission of Chinese newsmen into the United States."

Strange Object Is Sighted In Skies

ATLANTA (AP)—A strange bullet-like object with a fiery tail was sighted in at least six states last night as it streaked high across the Southeastern sky. An astronomer said it probably was a giant meteor.

Newspapers and radio stations

were flooded with calls. Several observers said the object appeared to disintegrate and fall toward the earth.

The Atlanta Weather Bureau said it had reports of the object from as far north as Martinsburg, W.Va., and Corbin, Ky., and as far south as 20 miles north of Albany, in south Georgia.

B. L. Seward, U.S. weather observer at the bureau, said, "From all we can figure, the ball made that trip in about 25 seconds. One jet pilot was flying at 30,000 feet and he reported the fiery ball to be well above him."

Dr. William F. Calder, astronomer for Agnes Scott College near Atlanta, said: "Both the Russian Sputniks are down, and the reported ball of fire was too big to have been made by one of our satellites. There is a possibility that it could be a rocket case or something like that, but my guess is that it was a meteor."

The object was also reported sighted over Birmingham, Ala., Chattanooga, Tenn., and in the vicinity of Asheville, N.C.

Crash Is Fatal To Noted Rescue Pilot

ADELANTO, Calif. (AP)—Bob Symons, 48, one of the nation's best known and most daring rescue pilots, was killed Saturday in a glider accident.

Symons' most recent publicized exploit was rescuing four stranded Stanford University students from a 11,700-foot ledge in the Sierra above Yosemite National Park.

Narcotics Raids

LOS ANGELES (AP)—Police cracked down on the narcotics traffic in Los Angeles over the weekend, arresting 244 persons.

\$100,000 Legs

Lovely Shari Stennette, who has her legs insured for \$100,000 with Lloyds of London, shares her exercises with Hollywood Beauty readers in today's column. Shari is under contract to the Red Skelton show over CBS-TV.

HOLLYWOOD BEAUTY

Special Exercises To Make Legs Beautiful

By LYDIA LANE

HOLLYWOOD — Shari Stennette's beautiful legs have been insured for \$100,000 with Lloyds of London. This young dancer, who is under contract to the Red Skelton show, was chosen by Gower Champion to be his partner while Marge was having a baby.

"None of my family is a professional," Shari told me in her dressing room at CBS-TV. "I was sickly as a child and I was not well enough to go to school until I was nine years old. As a health measure, I took dancing lessons. This was the best thing that could have happened to me because it gave me plenty of exercise, a good appetite and it gave me outside interests."

"With such high value placed on your legs, do you give them special care?" I asked.

"I love ballet dancing and I practice every day," Shari explained. "I feel that this type of exercise is good for anyone's legs. The trouble with most people, even when they are active, is that they do a few movements all of the time and the rest of the time their muscles are seldom used."

"What muscles do you consider to be least used?" I wanted to know.

"One muscle which is located just below the calf affects the shape of the ankle. A good way to exercise it is to keep your feet flat on the floor—about a foot apart. Keeping your back straight, see how far you can bend your knees without lifting up your heels. Even if you go down only a small way, you can feel a pull above your heel."

"There are practically no movements that we make naturally that reach the inside muscles of

the thigh," she continued. "To tone the thigh muscles, try holding on to a chair with the left hand, and standing on the left foot, raising the right leg sideways seeing how high you can lift it—keeping the knee straight. As you raise your leg, feel the muscles on the inside of your thigh doing the work. Do this to a count of 10 and then reverse."

"The muscles in back of the knees are seldom used. It seems we can do everything we want without ever straightening the legs completely. For conditioning these muscles, I recommend using a piece of furniture waist high as a substitute for a ballet bar. Place one foot on it keeping the knee straight and the leg outstretched. Feel this stretch when you bend over and try kissing your knee. These may seem like simple exercises, but they will help one to have more beautiful legs," Shari said as we parted.

MORE EXERCISES

You can have a lovelier figure with daily exercise, but there is a technique to exercising and building muscle-tone. Leaflet M-5, "Exercises of the Stars," will give you the answer to the quickest and most satisfying results. For your copy of Leaflet M-5, send only 10 cents and a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

Westbrook People Have House Guests

WESTBROOK — Mrs. L. F. Golden and son, Merle, of Texas City are visiting here with the Leroy Millers and in Otschalk with Mr. and Mrs. Gay Moore and son.

Mr. and Mrs. Walter Oden and son of Garden Bell, Calif., have been guests in the home of his brother, Mr. and Mrs. Sam Oden and family.

Mrs. C. E. Taylor visited her mother, Mrs. Herschel Smith in Knott recently.

Attending the Sunday School convention in Lubbock will be Mrs. Willie Byrd.

Recent visitors in Abilene were Mr. and Mrs. R. O. Lee and children, who were guests of Mr. and Mrs. M. D. Cheek.

Luncheon Menus For Westbrook School

Lunches planned for the school cafeteria at Westbrook include the following dishes:

Monday: baked ham, candied sweet potatoes, sliced pineapple on lettuce, bread, butter, milk, chocolate cake. Tuesday: hot dogs, sliced cheese, lima beans, combination salad, butter, bread, milk, fruited gelatin.

Wednesday: red beans, macaroni and cheese, relish plate, cornbread, butter, milk and cherry cobbler. Thursday: hamburger steak, carrots and peas, brown gravy, steamed rice, bread, butter, milk, purple plums. Friday: perch filets, potatoes, green beans, cabbage salad, rolls, butter, jelly, milk.

To Melt Chocolate

It's best to melt chocolate over hot water, rather than direct heat, because it scorches easily.

Versatile Apples

The Winesap apple, available through June, is both an eating (as is) and cooking apple.

366-N

Eye-Catcher Set

Combine sewing and crochet to make this eye-catching set of close-fitting hat and giant-size bag. No. 366-N contains pattern pieces; material requirements; full directions.

Rainbow Colors Spark Shoe Season

By DOROTHY ROE

Feet and legs takes the spotlight this spring, as knee-length dresses focus attention on smart-footwork. And shoe designers are all set to keep the situation well in hand with a blaze of brilliant leathers for heel-and-toe drama.

Colors that will be seen in new shoes of the season include: emerald green, lipstick red, royal blue, turquoise, sun gold and dove blue. In addition there are the important but less sensational range of beiges and browns, navy and black.

Many of the new shoes are highlighted with touches of white leather, appearing much earlier in the season than usual.

The smartest shoes have simple lines and few ornaments this season, with pointed toes and needle heels still important.

Two new style trends are the return of the D'Orsay pump and the emergence of slender instep straps and T-straps in shoes for round-the-clock wear.

Smooth polished calfskins are most important for street and dressy wear, with many silky-napped reversed calf shoes in high colors shown for casual and sports wear.

Launder Blankets, Sweaters Carefully Before Storing

CHICAGO, April 21—Don't despair if big dry cleaning bills loom on the horizon now that it's time to pack away the winter woolens. A washer and automatic clothes dryer can help you slash the bills by laundering blankets and sweaters yourself if you follow practical suggestions offered by the American Home Laundry Manufacturers' Association. Here are their directions:

Blankets: Wash only one large or two small blankets at one time. For soiled bindings, mix a solution of detergent and water and brush on with a soft brush or sponge. Fill washer with warm or cold water. Use same temperature wash and rinse water. Add a light duty detergent, then blanket.

After running the washer only long enough to produce suds, turn it off and let blanket soak about 10 minutes. Spin water out and run blanket through rinse, adding water conditioner at beginning of rinse cycle for best results. (Some of the newer washers will do this automatically.) After rinsing, spin again. (Use slow speed setting, if your washer has one.)

To dry, pre-heat dryer. Place blanket in dryer with three or four clean bath towels. These act as a cushion for the blanket and help it keep its original size and shape. Use the warm dryer setting and remove blanket while it is still damp. Do not dry completely. Reshape it by pulling small sections along the length and width, keeping edges straight.

Sweaters: Can be washed very much in the same way. Pretreat areas of heavy soil, as at neck and cuffs, with detergent and water. Wash white or yellow sweaters alone, and for best results limit load to two sweaters. As in blanket washing, don't dry sweater completely. While still slightly damp, stretch to shape and lay on top of dryer or other flat surface to finish drying.

Garlic Bread

Serving soup and dessert for lunch? Thick slices of hot crusty garlic bread will help satisfy soups-eaters.

1354
12-20

Casual Sun-Dress

A casual, well tailored two part costume that makes every wearing a special occasion. Contrast collar and cuffs are optional.

No. 1354 is in sizes 12, 14, 16, 18, 20. Size 14, 34 bust, monotone, 4 1/2 yards of 3/8-inch.

Send 35 cents in coins for this pattern—add 5 cents for each pattern for first-class mailing. Send to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y.

Send 35 cents today for your copy of Home Sewing for '58. A complete sewing magazine for every woman who sews for herself and her family. Gift pattern printed inside the book.

White Tie

New for spring is this tailored pump in emerald green matte finish leather with new pointed toe, stiletto heel and buckled bow of highly polished white calf, for dressy day wear.

T-Strap

Many women will welcome the return of the strap pump with curved medium Louis heel. This one is pale beige polished calf with slender T-strap, pointed toe.

D'Orsay Pump

This is an old favorite, back on the fashion scene in bright red patent leather with black-and-red calf bow, needle heel.

Open Back

For late day wear, the sling-back sandal returns, in gay combination of royal blue, emerald green and white buffed leather with closed pointed toe.

Delegates Return

Mr. and Mrs. Douglas Boren and Mr. and Mrs. Ralph McLaughlin have returned from the state convention of Jaycees and Jaycee-ettes which was held in Austin during the past few days. They were gratified, Mrs. McLaughlin said, by the interest taken in the welfare of Jodie Simpson of Colorado City, who was orphaned recently when a plane crash took the lives of her parents, the Goodwin Simpsons. A trust fund for her education has been established.

Relatives Gather In Home Of Caubles

Guests in the J. P. Cauble home have been their sister-in-law, Mrs. Brooks Sullivan, Billy and W. D. of San Antonio, and their son and family, Mr. and Mrs. Don Cauble of Eunice, N. M.

The elder Cauble has recently returned from Dallas, where he received medical treatment. He was accompanied by his daughter, Mrs. B. J. Petty, and Mrs. Sullivan.

Miss Parks Honoree For Wedding Shower

Local hostesses combined to give a bridal tea Saturday evening for Barbara Parks of McKinney, who is to be married to Charles Modisette of Haynesville, La., on May 16.

Miss Parks is the daughter of the Rev. and Mrs. James S. Parks, former residents of Big Spring. Rev. Parks was, at one time, pastor of Baptist Temple.

Scene of the shower was the home of Mrs. Garland Sanders, who presented the honoree and her mother, along with Mrs. E. F. Modisette of Haynesville, mother of the prospective bridegroom.

Belva Wren registered the guests, and gifts were displayed by four of the hostesses, Mrs. Delbert Simpson, Mrs. Willard Smith,

Mrs. M. F. Ray and Mrs. Monroe Gafford.

Four other hostesses, Mrs. Bill Todd, Mrs. Tom Buckner, Mrs. Leoland Edwards and Mrs. Willard Hendrick, served from the yellow and white tea table.

White net over white satin formed the floor length table cover and was caught at intervals with bows of yellow satin ribbon, in the center of the table was a bowl of yellow gladioli and daisies; white tapers completed the decor. Serving appointments were of crystal.

Other hostesses who assisted in entertaining the more than 50 visitors, were Mrs. Alvin Smith, Mrs. Bob Wren, and Mrs. Rex Edwards. An electric skillet was a gift from the hostess group.

Oriental Make-Up And Fashions Go Together

Want to hop on the Oriental Express? You're already aboard, if you're wearing an Indian Sikh's turban, a petaled cap like a Japanese topknot, jewelled chopsticks lancing your chignon, a Hong Kong sheath or a Viet-Namese tunic.

Then, how about an Oriental make-up to tilt your eyes charmingly.

Oriental make-up techniques go back to the first "Madame Butterfly" ever staged in this country.

Well-timed for the Oriental makeup is an eye shadow stick in a dazzling array of six high-fidelity colors, any one of which looks electric when used over a creamy shade of make-up foundation and worn at the same slant as cheek rouge. Of the six colors the blue or green has the strongest Oriental feeling.

Apply this eye shadow stick straight from the tube and at a slant by gliding it along the roots of your upper lashes and by stroking more and more color up and out toward the temple and brow.

Tool No. two for drawing your slanted eye line is an automatic eye pencil. To make its mark look Oriental, gently pull lid taut with your fingertips and draw a line along your upper lashes.

The slant comes from dipping the line a fraction of an inch as you pencil toward the nose, from zipping it up a fraction of an inch as you go toward the temple. Outline lower lashes, and as you

go toward the temple, lift the line a trifle at the corner.

Apply creme mascara to upper and lower of the table was a bowl of yellow gladioli and daisies; white tapers completed the decor. Serving appointments were of crystal.

Rosemary will grow well in a flower pot. Use the fresh herb with steak or chicken.

CARD OF THANKS

We wish to extend our thanks to the friends and neighbors, Northside Church and Rebecca Lodge for the food, flowers and words of comfort received during the loss of our loved one.

The Family of A. E. Prichard.

CARD OF THANKS

We sincerely thank all the kind friends, neighbors, relatives, doctors and nurses at Cowper Clinic, for the many courtesies, expressions of sympathy and beautiful floral tributes that were given at the passing of Rick.

Mr. and Mrs. J. W. Moore and family.

LOOKING 'EM OVER

WITH TOMMY HART

Sweetwater will be dropped from the 1959 Big Spring High School football schedule to make way for Odessa's new high school, which will be placed in District 2-AAAA. Present plans call for the first game to be played with Odessa Friday, Nov. 20.

Sweetwater is an ancient and honorable foe of the Steers but when it came time to choose between Sweetwater and Snyder, the choice had to be Snyder. The Tigers are a much better drawing card, as far as Big Spring is concerned.

Among spectators at the ABC Relays here April 5 were Jackie Sandifer, the Oklahoma University halfback; and his former teammate, Jimmy Harris.

New Mexico A&M still has hopes of getting Gerald Erwin, the Odessa High quarterback, but Gerald has designs on landing a baseball scholarship at Arizona University, which annually fields one of the top collegiate nines in the country.

Tommy Morris of the Bronchos also hopes to go to Arizona on a baseball scholarship.

Bobby Bragan, the Cleveland manager, now has several Negro players on his club.

When Jackie Robinson broke into the big leagues back in 1947, however, Bragan asked to be traded from Brooklyn.

Jerry Jetton of Andrews, voted the most outstanding high school entry in the last ABC Relays, is only a sophomore. He has but one more season of eligibility, however.

Even though he saw it under conditions that were most unfavorable, Eddie Southern, star quarterback of the University of Texas track team, told ABC officials the cinder track at Memorial Stadium here was one of the finest on which he had ever run.

I think the ABC people ought to have a special quarter in the 1959 meet, just so local fans can see Southern at his specialty.

Los Angeles has a right to brag about the manner in which it supports any sports promotion.

The city will eventually rival Milwaukee as the best major league baseball city in the country.

And George Parnassus, a boxing promoter out there, points with pride to three major title fights staged there during the past six months.

They include the one between Archie Moore and Tony Anthony, which did \$125,000 in business, including the TV take; Alphonse Helmi-Raton and Macias (\$209,000 at the gate and \$23,000 TV) and Hogan (Kid) Bassey-Ricardo Moreno (\$215,047, with a TV blackout).

Houston is bragging it may go over \$50,000 for the upcoming Joe Brown-Ralph Dupas championship tussle.

The Texas Sports Roundup Association, which recently included Big Spring's Jan Loudermilk in its all-state basketball team, claims to have almost 600 paid-up members and is shooting for an enrollment of 1,500.

It lists such well known sports personalities as Dickie Moege, Bill DuBose, Bud McFadin, Bill Stages, Darrell Tully, Kyle Rose and Freddy Walcott on its membership rolls.

There are rumors the Gillette Safety Razor company will cancel its sponsorship of the Friday night fight telecasts because the rating of the show has all but dropped to zero.

Arkansas And SMU Cling To Leads

Arkansas and Southern Methodist cling to the lead in Southwest Conference golf and tennis, but each has fairly close pursuers.

Arkansas beat Texas 4 1/2-1 1/2 last week to maintain its position atop the golf standings with an 18-6 record. Baylor trimmed Rice 5-1 and Texas Christian 3 1/2-2 1/2 to move into second place with a 15 1/2-4 1/2 mark.

Seattle, 3 SEC Schools Liable?

NEW ORLEANS (AP)—The executive committee and council of the National Collegiate Athletic Assn. today put the final touches on the report from its rules infractions committee.

There were unconfirmed reports that Seattle and three Southeastern Conference schools were due for punishment, but NCAA Executive Director Walt Byars refused to comment what schools, if any, would be penalized.

Dick Metz Wins Lake Charles Tournament

LAKE CHARLES, La. (AP)—Dick Metz, never considered his best around the greens, won the \$5,000 Lake Charles Invitational golf tournament yesterday with a 42-foot putt.

The 49-year-old Fort Worth, Tex. professional picked up top money of \$833.33 by sinking the shot in a sudden-death playoff with Buster Cupit of Fort Smith, Ark.

Metz and Cupit were tied with eight-under par 280s after 72 holes. Metz got into the playoff by firing birdies on the 17th and 18th holes of the last round for a two-under par 70. Cupit had a 72.

Troy Badgett, Port Arthur, Tex.,

6-A Big Spring (Texas) Herald, Mon., April 21, 1958

HCJC'S BOBBY BLUHM
New Lamesa Tourney Champion

Bobby Bluhm Is Lamesa Champ

LAMESA (SC)—Off to his greatest year in golf, Bobby Bluhm of Big Spring and Howard County Junior College wrapped up championship honors in the annual Lamesa Invitational tournament by topping Roland Adams, Lubbock, in the Sunday afternoon finals here, 1 up 19 holes.

Bluhm ran down a birdie putt of six feet on the extra hole to end the match, after his tee shot had landed 50 yards from the pin. Adams tried valiantly to stay in contention. He attempted to run

Title Fight Is News To Texan

HOUSTON (AP)—If Texan Roy Harris is going to fight heavyweight champion Floyd Patterson in New York, it'll be as much news to Lou Viscusi Harris' manager, as anybody else in these parts.

The New York News said today Patterson would defend his title in August at Roosevelt Raceway with Harris, the Cut and Shoot, Tex., battler his probable foe.

The paper said a group of Texas oil millionaires, headed by Major Riddle, will underwrite the fight. It quoted Alvin Weil, secretary of Roosevelt Raceway, a push trotting plant, as saying the track had been approached.

The News said the Texans were in New York over the weekend and toured Roosevelt with Gus D'Amato, Patterson's manager.

Viscusi, when told of the report, said he had not been contacted by anyone concerning the fight. Efforts to find Riddle were in vain. No one around here knew such a person.

Seattle, 3 SEC Schools Liable?

NEW ORLEANS (AP)—The executive committee and council of the National Collegiate Athletic Assn. today put the final touches on the report from its rules infractions committee.

There were unconfirmed reports that Seattle and three Southeastern Conference schools were due for punishment, but NCAA Executive Director Walt Byars refused to comment what schools, if any, would be penalized.

Dick Metz Wins Lake Charles Tournament

LAKE CHARLES, La. (AP)—Dick Metz, never considered his best around the greens, won the \$5,000 Lake Charles Invitational golf tournament yesterday with a 42-foot putt.

The 49-year-old Fort Worth, Tex. professional picked up top money of \$833.33 by sinking the shot in a sudden-death playoff with Buster Cupit of Fort Smith, Ark.

Metz and Cupit were tied with eight-under par 280s after 72 holes. Metz got into the playoff by firing birdies on the 17th and 18th holes of the last round for a two-under par 70. Cupit had a 72.

Troy Badgett, Port Arthur, Tex.,

down a putt of better than 12 feet and barely missed.

The HCJC youngster, who had beaten a fellow townsman, Bobby Wright, in the morning semi-finals, 3 and 2, had a lot of pressure on him on the 18th green in his match with Adams. Adams had made his six par four. Bluhm was faced with a six-foot putt but made it.

The two toured the first nine all even with 35. Adams had won three with a par four but Bluhm evened matters with a par three on four.

The Lubbock player gained the upper hand with a par on fifth but Bluhm again pulled even with a birdie four on No. 6. On the sixth, Bluhm's second shot landed in the frog hair and he clipped to within three feet of the pin.

Bluhm birdied No. 8, a par five hole, but Adams responded with a winning par on nine and the two took a break all even.

Bluhm gained the initiative on No. 11 with a par. The two halved on down to 17, when Adams sprung with a birdie four to pull even.

Bluhm was three under regulation figures for the match. He was two under in his morning test against Wright. He had Wright two down at the turn.

The championship match:

Par	34	34	34-36
Bluhm out	435	354	34-33
Adams out	434	353	33-33
Bluhm in	434	354	35-37
Adams in	444	345	34-35-70
Bluhm out	3		
Adams out	3		

Bluhm succeeded John Paul Cain, Texas Tech linkster, as the champion here. Cain was not able to compete again, due to other commitments.

Bobby's victory earned him a new set of clubs.

Adams beat Bob Van Wie, Lamesa, 3 and 2, in his morning semi-final match.

Tommy Hutto, Big Spring, turned back a fellow townsman and a golfing buddy, E. L. Powell, in the third flight final, 1 up.

Bunky Grimes of Big Spring, a teammate to Bluhm on the HCJC golf team, copped third flight consolation laurels with a 3 and 2 win over J. B. Claiborne, Lamesa.

Eddie Don Harris, Big Spring, prevailed in the sixth flight by turning back Ed Peterson, Lamesa, 1 up.

Dwaine McRorey, Big Spring,

Carlos Team Pads Lead In Circuit

Carlos Restaurant padded its lead in Webb Chicks' bowling league standings last weekend with a 4-0 success at the expense of Coker's Restaurant.

In other matches, Continental Trailways bounced Gillman's and the Handicaps fashioned a win over Seven-Up, both by 4-0 margins.

Marie Raleigh of Continental padded individual scoring, with 206-545, followed by Margo McGreevy of Carlos, who had 201-520.

Continental and the Handicaps divided team honors, with 691-1917 and 666-1922, respectively.

Splits were converted by: Margo McGreevy, Carlos 5-7; Shirley Bishop, Carlos, 4-5; Pauline McLawhorn, Handicaps, 4-5; Lucy Garrison, Handicaps, 2-7; Jean Harvey, Handicaps, 4-5, 5-7 and 2-7; Sally Severance, Gillman's, 2-7; and Wilma Sheppard, Seven-Up, 2-7 and 4-7-10.

Standings:

Team	W	L
Carlos	8 1/2	3 1/2
Seven-Up	6 1/2	5 1/2
Continental	6 1/2	5 1/2
Handicaps	5 1/2	6 1/2
Coker	5 1/2	6 1/2
Gillman	4 1/2	7 1/2

LONGHORNS TO HOST SNYDER ON TUESDAY

The Big Spring Steers will get a respite from the District 2-AAAA wars Tuesday, at which time they tangle with the Snyder Tigers in a 4:15 o'clock engagement here.

Big Spring and Snyder ordinarily meet anywhere from four to six times a season. However, they have only two bookings this year. The Steers wind up their season Saturday, May 10, against Snyder in Snyder.

The Longhorns have one other game on tap this week. They visit San Angelo Saturday for a return bout with Jack Wilkinson's Bobcats. Big Spring tipped Angelo, 7-6, in a game played here April 8.

Big Spring has now won ten of 15 starts, including two of four conference games. Snyder warmed up for the game against Big Spring by splitting a double header against Abilene in Abilene last Saturday. The Tigers won the first game, 5-4, then dropped the second, 6-4.

The split left Snyder with a record of seven wins, compared to ten defeats. The Tigers play Rotan in Snyder today. That game was originally set for last Friday but postponed due to rain.

Coach Roy Baird of Big Spring indicated he would make liberal use of his substitutes tomorrow, in order to give his regulars a rest. He could start Jay LeFevre, Terry Stanley or Kenny (Rock) Johnson on the pitching rubber.

Snyder will probably go with Richard Mahan in left field, Neil Boyd in center, Ken Drake at second base, Gerry Vice at shortstop, Coleman John behind the plate, Jerry Fleming in right field, David Hale at third base and possibly Norman Gladson on the mound.

Snyder's play has been limited to exhibitions this season, since the Tigers have only one other team in their conference—Leveland.

Milton (Speedy) Moffett, former Big Spring football coaching aide, is still the Tiger mentor.

The Steers are still in contention for the District 2-AAAA championship. Three teams are tied for the top spot—Midland, Abilene and Odessa—but are only one game ahead of the Longhorns. Big Spring plays each team one more time.

THEY SEEK HIM Sievers Clobbers Boston Hurling

By JOE REICHLER
The Associated Press

The National League's best and worst streaks ended yesterday. The man responsible? Stan Musial. Who else?

Having seen his St. Louis mates drop their first four games this season—all to the Chicago Cubs—Stan the Man finally decided to take matters into his own hands. He smashed two home runs and drove in four runs to lead the Cardinals to a 9-4 victory over previously unbeaten Chicago.

The Cubs' league lead was cut to half a game by the San Francisco Giants, who walloped Los Angeles 12-2.

The Phillies, behind Robin Roberts' fivehit pitching, defeated the Milwaukee Braves 3-2 and Pittsburgh nipped Cincinnati 4-3 on E. C. Stevens' ninth-inning home run.

Musial hit his first homer—third of the season—in the first inning with a man on base. That gave the Redbirds a 2-0 lead. With the Cards leading 4-3, he smashed a 3-0 pitch with one on in the fifth to launch a four-run rally that led to his team's first victory.

A crowd of 47,234 sweltered in

the sunbaked Los Angeles Coliseum as the Giants blasted three home runs over the convenient 42-foot left field wall. Danny O'Connell hit two and Daryl Spencer hit one. Carl Furillo walloped one for Los Angeles to raise the total of homers to 12 in the three-game series. The crowd brought the three-day attendance total to 167,209.

Ramon Monzant, who was beaten by Los Angeles at San Francisco, went all the way and hurled an eight-hitter. Don Drysdale suffered his second loss to the Giants.

Roberts, who was knocked out in his first start after pitching five scoreless innings, went all the way this time for his first victory. He helped his cause with three of Philadelphia's seven hits and scored the winning run in the seventh. Both Milwaukee runs came on homers. They were hit by Henry Aaron and Harry Hanebrink, in the seventh.

Bob Friend became the first Pittsburgh pitcher to go the distance in the Pirates' victory over Cincinnati. Rookie first baseman Stevens, who entered the game in the ninth as a defensive measure, came up with two out in the ninth and hit a Willard Schmidt serve out of the park to end the game.

Scott Friends Bitter Over Successor To His Senate Seat

RALEIGH, N.C. (AP) — Two friends of the late Sen. W. Kerr Scott (D-NC) have spoken out bitterly against the man chosen

by Gov. Luther Hodges to take Scott's place in the Senate.

B. Everett Jordan of Saxapahaw textile manufacturer and at one time a Scott political associate, received the appointment Saturday, Scott died last Wednesday after a heart attack.

The Jordan selection drew quick praise from Sen. Sam J. Ervin Jr. and John D. Lawkins Jr., state Democratic chairman, but brought a strong attack from Terry Sanford of Fayetteville and Ben Roney, Scott's administrative assistant.

Both Sanford and Roney suggested that Hodges had named Jordan to hold the Senate seat only until 1960, when Hodges' term as governor will expire. Before Scott's death last week, Hodges had been mentioned often as a possible candidate for the Senate in 1960.

The governor and Jordan declined comment. Sanford, a former state senator who managed Scott's 1954 Senate campaign, said in a statement that Jordan is "a man who looks like a temporary senator."

He also spoke sharply of "the

incredible effort to pamper Jordan off as a close friend, associate and cousin-in-law of Sen. Scott. The cousin part is correct, but the friend and associate part doesn't ring true." Friends of Sen. Scott, Sanford added, "are deeply offended."

Jordan was a close adviser during Scott's successful race for governor. After his election, Scott made Jordan state Democratic chairman. Jordan held the job until he became state Democratic national committeeman.

Sanford claimed that Jordan "fought Kerr Scott almost from the day Scott gave him an appointment in the Democratic party organization."

Roney described the appointment as "insulting to the memory of Sen. Scott and not in the best interest of North Carolina."

However, Sen. Ervin recalled boyhood friendship with Jordan and said the governor "acted wisely."

Larkins said Jordan would bring "experience and political acumen to the office."

Heart Attack Fatal To Baptist Leader

FORT WORTH (AP)—Dr. J. Howard Williams, a Baptist leader whose church duties had taken him to many lands, died of a heart attack yesterday. He was 63.

Since 1953 he had been president of Southwestern Baptist Theological Seminary here.

Twice he turned from church pastorates to serve as executive secretary of the Baptist General Convention of Texas. He had been a pastor in Texas, Oklahoma and Kentucky.

The funeral service will be held at 3 p.m. tomorrow in Truett Memorial Auditorium on the seminary campus.

Dr. Williams leaves his wife; three daughters, Mrs. Frank Sanford of Chicago, Mrs. Joe Ma-

son of Bartlett, Tex., and Mrs. M. D. Woodruff of Fort Worth; and two sons, J. Howard Williams Jr. and Kelly Williams, both of Houston.

Also surviving are three brothers, Luther Williams of Fortna, Calif., Maurice Williams of Houston and Reeves Williams of Osage City, Kan.; three sisters, Mrs. W. J. Sloan and Mrs. W. H. Marshall, both of Dallas, and Mrs. Grace Keltner of San Antonio, and 15 grandchildren.

Born in Dallas, the minister was one of 12 children in the family of Mr. and Mrs. Daniel Williams. He quit school at the age of 9 to help support the family, but pursued his education in vocational classes at night.

This led eventually to his graduation from Baylor University in 1918. Four years later he took a master of theology degree from the seminary he was to head three decades in the future.

Baylor conferred a doctor of divinity degree on him in 1932. His education was interrupted by overseas service in World War I as a chaplain with the 1st Army Corps.

Pastorates of Dr. Williams included Trinity Baptist Church in Dallas, at Venus, Tex., Middletown, Ky., Sulphur Springs, Tex., First Baptist in Corsicana, Tex., First Baptist in Amarillo and First Baptist in Oklahoma City.

Between church tenures he served in 1931-36 and again in 1945-53, as executive secretary of the Baptist General Convention of Texas, of which he also was president in 1938-39.

Pilot Escapes Crash Of Jet

LOUISVILLE, Ky. (AP)—An out-of-control jet trainer crashed and exploded in a field surrounded by a crowded residential area last night. The pilot parachuted to safety.

Capt. William T. Ball, 31, a Marine assigned to the Columbus Naval Air Station, said he ejected himself from the plane after its electrical system failed and the craft had gone out of control in a thunderstorm.

He landed on a roof of a house about four miles away, and suffered broken ribs.

The TV2 Navy jet trainer crashed into a 30-acre muddy cornfield. It exploded and shot a ball of flame about 200 feet into the air.

"The pilot was lucky and picked a good place to fall. Just two city blocks away in all directions are houses," County Police Maj. James Pendleton said. "It was close, awfully close."

Teen-Age Horde Roughs Up N.Y. Subway Riders

NEW YORK (AP)—A screaming horde of more than 50 teenage boys terrorized subway passengers on a trip from Coney Island into the heart of Brooklyn yesterday.

The youths, all Negro members of three notorious Brooklyn gangs, stabbed three teen-agers, one critically. Two of the stabbing victims were white, one Negro.

Two other white boys were roughed up.

The toughs boarded the subway after two boys were stabbed at Coney Island. For eight stops they ran through the cars, bullying passengers and picking fights with other youths.

Police seized 44 boys — 25 of them 16 or younger — as they left the subway at 18th and McDonald avenues in Brooklyn. The others fled.

Douglas Baldwin, 16, stabbed in the abdomen, was in critical condition at Coney Island Hospital.

A City Youth Board worker had told police that members of three Brooklyn gangs planned a rumble — all-out battle — at Coney Island. A short time later, Baldwin and Herbert Goggins, 17, staggered bleeding into Coney Island Hospital. They told authorities they had been attacked by a group of boys on Surf Avenue, the ocean resort's main street.

Hold On, Podnuh!
LONDON, Ky. (AP)—When the Indian threw the heroic cowboy to the ground, 11-year-old Leroy Young reached for his BB gun and fired.

The whole show disappeared from the television set amid a tinkle of broken glass.

Leroy got a spanking; his father an unexpected repair bill.

Think of your children!

Wherever you live, blight is a very real threat to your family's personal and economic safety.

No neighborhood is free from the danger of this stealthy disease.

Blight anywhere in your community usually spells trouble. If not today, tomorrow.

Decay feeds on neglect and carelessness. It starts in one home, spreads block by block, strangles whole neighborhoods unseen. Your living conditions slide downhill, property values shrink, taxes go up... local facilities of every kind deteriorate.

Act today to protect your family's future. Keep up your own home. Work with your neighbors in community-improvement groups.

Group action has worked wonders for other neighborhoods. It will work for yours. Start now by writing for practical, effective information to:

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, MONDAY, APRIL 21, 1958 SEC. B

Charged In Beating

Six teen-agers—two girls and four boys—are booked in a New York police station on charges of beating up two men in apparently motiveless assaults. From left they are: Phillip McManus, 16; Frederick Hammer, 17; Diana Perritt, 17; Janet Huls, 17; Douglas Di Gerlando, 16; and Robert Verrelli, 17. Detectives said one girl approached a victim, took his hand and began walking with him. The others then jumped him.

Highway Dollar Generates Many More, Formby Relates

SAN ANTONIO (AP)—"A highway dollar spent in a county generates four to five dollars of business, affecting many phases of the economy of a county," said Chairman Marshall Formby of the Highway county judges and commissioners today.

Formby, a Plainview attorney, spoke to the spring convention for the South Texas organization.

"Since the end of World War II, times have been so good in most counties that most people have forgotten the impact of a highway dollar," Formby said.

"Now with increased unemployment in certain areas of the state, businessmen of Texas counties are realizing once again that the highway dollar spent in their county is a boon to their business. They realize that many of the dollars spent in the county stay there permanently and are turned over and over, giving a big boost to the economy of the county."

Formby said Texas hopes to spend 503 million dollars in the next 2 years on highway construction.

The recent highway bill signed by President Eisenhower will give Texas nearly 36 million extra dollars to be spent by December, 1959. This will have to be under contract by December of 1958 and will have to be spent within one year of that date, Formby said.

About 20,000 new jobs will be

created in Texas by the program. This includes forces needed to supply workers on the job site, because he said, there are usually four workers behind the scenes for each worker on a job.

Formby gave a break-down on a typical million dollar highway construction contract in a county. He said at least 4 men would be required to make up a survey party, at least 11 would be used for purchase and negotiation of right of way, and that other engineers and draftsmen would be needed for the plans.

Of the million dollars, an average of \$140,000 would be spent on right of way, including moving fences, buildings, title policies and other items.

An average of 30 local workers would be employed to move the fences, etc., at a cost of \$20,000. At least 150 title policies would be purchased at a cost of \$14,000.

Formby said the contractor then would employ a minimum of 100 people on the various jobs on this million dollar construction project. Nearly 75 per cent of the labor needed for bridges and culverts are local people and draw wages of \$24,000 on such a project. Many permanent employees of the contractor usually move into the community and spend their wages locally over a period of six months.

On such a project, there is usu-

ally purchased about 3,500 barrels of cement and 2,000 board feet of lumber. At least 200 tons of steel are required and usually purchased through a local lumber yard. At least \$1,500 is spent with local service stations for petroleum products. Sand, Gravel, caliche and other base materials are always purchased locally, if available, and this brings in another \$6,000 to local citizens.

It usually takes at least 30 trucks to haul materials and these trucks purchase at least \$5,000 worth of gasoline.

Formby said it is estimated that the total payroll generated by a million dollar project is equivalent to \$1,000 additional money spent each day in the community for six months.

Based on working days, the payroll would total about \$300,000 and create at least 100 jobs for local people.

The highway chairman said that the economic impact does not stop there. He said businesses usually spring up to sell food, gasoline and other items. Property values are materially increased, raising taxable value.

The additional roadside establishments employ, directly or indirectly, thousands of people, creating thousands of jobs.

"We have heard a lot lately about prosperity and depression," Formby said. "We have heard a lot about the new federal highway program being a pump-priming, anti-recession measure. But don't let the stir and hustle in Washington on this legislation fool you into thinking this is another 'leaf raking' measure of the '40's. It isn't. These are increases to take up the slack in the present federal highway act and to accelerate federal highway construction."

Formby said a recent highway planning survey indicates motor vehicles will increase 32 per cent in Texas in 10 years, which means that by 1969, there will be 6 million vehicles in Texas, traveling an average of 150 million miles each day. Formby said we need this accelerated program to take care of the needs of Texas' motorists.

Labor Dept. Conference May Decide Bracero Future

By **TEX EASLEY**
WASHINGTON (AP)—A Labor Department conference this week may determine how the Mexican farm worker program will function this crop year.

Thursday and Friday 13 representatives of growers in states which use large numbers of the braceros—the legally admitted Mexican nationals—will come here to advise the secretary of labor.

The advisory committee, which will hold closed meetings with government officials, is composed of three representatives from Texas, three from California, and each from other states using substantial numbers of the laborers.

Although only 64,000 laborers were in this country March 31, the total is expected to increase rapidly as crops near harvest. Cotton, for example, soon will be ready for picking in extreme South Texas.

Last year 450,000 Mexicans came to work for American employers. Department officials and many members of Congress received ur-

gent requests from growers that the rate of entry be stepped up.

Late last week the department authorized an additional increase of 5,000 Mexicans in the numbers permitted to come into South Texas. The quotas are determined on the basis of demand for the help, and of the availability of domestic workers. The braceros are admitted only where a labor shortage has been found to exist.

Rep. Kilgore (D-Tex.) said of his Lower Rio Grande Valley district: "We are watching right now to see if the 5,000 additional braceros will meet the demand."

"The department has assured me they will protect the domestic workers and yet will see that the crops don't spoil in the fields for lack of labor."

Farmers Need Warm Sunshine

COLLEGE STATION (AP)—Farmers' biggest need is a lot of warm sunshine, the Texas Agricultural Extension Service said today.

"Soil moisture conditions were improved very much in almost all the state by showers after high winds dried the surface, making seedbed preparation difficult, but lingering cool temperatures have delayed some planting and much germination and growth of crops and pastures," Director John Hutchison said after checking reports from district farm agents.

Crops range from up and growing slowly in South Texas to plant-

ing as far north as the Rolling Plains and in far West Texas. South Plains (Lubbock) farmers have prepared seedbeds on about 75 per cent of their crop acreage. Rain replenished needed surface moisture. Wheat is making good growth.

Conditions in far West Texas were improved by rain after high wind sapped surface moisture. The subsoil still has adequate moisture. Cotton is being planted but germination is slow. Small grain and alfalfa are making good growth.

La Villita Has Numerous Mayors

By **HARVEY SCANDRETT**
Written For The Associated Press

SAN ANTONIO (AP)—La Villita has more alcaldes—honorary that is—than France has premiers.

It is a San Antonio custom for the mayor to trundle visiting notables over to La Villita, 240-year-old one-time residential core of old San Antonio, and proclaim them honorary alcaldes—or mayors.

Those so honored include New York's mayor, Robert Wagner, and such peppery personages as Sarah Churchill and Glenn McCarthy.

Ordinarily the visitors see little more than the cluster of ancient adobe houses in a setting of palm, banana and orange trees and tropical flowers a few steps from the Alamo.

Restored several years ago as an arts and crafts center and historic shrine, La Villita was dubbed "Williamsburg with a Sombbrero" by a mayor's secretary.

But come San Jacinto Day, April 22, and three days thereafter, La Villita will be pulsing with gaiety and good living.

Four "Nights in Old San Antonio," recalling romantic times of

other centuries, will be a public participation event of the Fiesta San Jacinto, which annually celebrates the final defeat of the Mexican tyrant, Santa Anna.

In Cos House, where Gen. Cos surrendered the city in 1835 to Ben Milam's Anglo-Texans, senoritas will serve tacos, enchiladas and other tangy dishes of a complete Mexican dinner.

Across the street in La Casita (the little house), hausfraus will dish up heaping plates of sauerkraut, frankfurters and potato salad.

In Navarro Plaza, within the walls of La Villita, vendors will offer such delicacies as sliced papaya; pepitas, green pumpkin seeds fried in olive oil, nopalitos, tender strips of young cactus and pan dulce candy.

Italian pizza, Irish stew and other national dishes will be served elsewhere.

Young dancers will perform on the Arneson River Theater stage, separated from its audience by the narrow channel of the San Antonio River. A burlesque of the formal coronation of the fiesta queen will be held on the same stage and the theatre's stone and soot tiers will seat judges and viewers of the fiesta's river parade.

Cancer Type Can Be Halted

LOS ANGELES (AP)—A common type of cancer in women, which stays hidden for the first 10 years and then spreads quickly, can be fairly well controlled if caught when its first symptoms appear, a New York City surgeon reported today.

Ten years after operation, as many as 85 per cent of the women are alive in the cases in which the degree of malignancy is low. Where the cancer cells are wildly malignant, only 20 per cent of the patients survive 10 years or more.

If medical science had a good blood test that would reveal this hidden cancer during its decade of hibernation, a very high percentage of cures could be produced, said Dr. Carl T. Javert.

Dr. Javert addressed the American College of Obstetricians and Gynecologists. He reported on 400 cases covering 20 years of practice.

This malignancy is cancer of the endometrium or inner lining of the womb. Bleeding which cannot be otherwise accounted for is the most common symptom. But there could be some way of detecting it before this stage, Dr. Javert said.

U.S., Canadian Newspapers Cite AP Former President

NEW YORK (AP) — Newspapers of the United States and Canada paid tribute today to Robert McLean, recently retired president of The Associated Press, for his years of dedication to honest and factual reporting of the news.

He responded at the AP annual luncheon by expressing hope that the spread of accurate information would help to build understanding between peoples and comity between nations.

McLean, president of the Philadelphia Bulletin, served for almost 20 years as president of the AP.

worldwide newsgathering cooperative. He continues as a director, a post to which he was first elected in 1924.

Publishers and editors from across the nation, representing the AP membership, joined at the luncheon in the Waldorf-Astoria Hotel in hailing McLean for fostering high standards of objective reporting.

Similar tributes were paid by the Board of Directors, the staff, the Associated Press Managing Editors Assn. and the Canadian Press.

McLean, chief speaker at the luncheon, replied that "What you have shown here is a pride in the Associated Press itself and in its accomplishments."

"And I hold that pride to be justified," he said, "because the publication of news — the stark news, if you will — news without bias or prejudice — without intent to influence — without regard to whether the news be good or bad, favorable or unfavorable — is essential to the successful operation of a democracy."

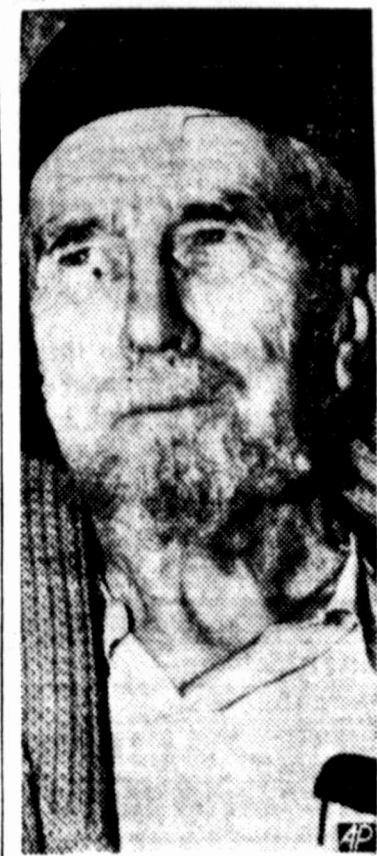

McLean said The Associated Press had contributed to the development of the nation by presenting accurate and quick information to every section and enabling the citizens to form their judgments of events.

"May we not hope," he said, "that the same spread of accurate information that has helped to unify this nation will somehow help to solve the conflicts of this far more complex world."

The AP Board of Directors, in its tribute to McLean, adopted a resolution expressing "affectionate respect for one who has provided so fine an example of self-effacing dedication to the cause of free and honest journalism."

The board, composed of newspaper executives, said that under McLean's presidency The Associated Press "steadily expanded facilities and membership in the rapid and profound changes through the world."

"Yet physical growth is only part of the story. Under the leadership of Mr. McLean, The Associated Press adhered strictly to the creed of a factual, nonpartisan, nonpolitical news report."

Poet Pound

Poet Ezra Pound poses outside the federal courthouse in Washington after a treason indictment against him was dismissed, opening the way for his release from St. Elizabeth's Hospital, a mental institution, where he has been confined since 1946. He is 72.

Layman Dies

ROANOKE, Va. (AP) — Everett L. Repass, 69, passenger traffic manager of the Norfolk — Western Railway and prominent Presbyterian layman, died yesterday.

Repass was elected president of the Executive Committee of the Assembly's Men's Council of the Presbyterian Church in the United States in 1947.

Congress May Delay Decision On Anti-Recession Tax Cut

WASHINGTON (AP) — Congress may delay until June or even July any decision on reducing taxes to fight the recession.

This view was put forward today by influential members of the Democratic-controlled House, which originates tax legislation, in the midst of conflicting comments elsewhere that (A) the slump is leveling off or (B) that quick action by Congress is needed on many fronts to boost the economy.

New support for a tax cut came in an economic study report by the Rockefeller Brothers Fund recommending a series of public and private steps but calling a tax reduction the quickest way to get results.

The report itself made no specific recommendations as to timing or size but Nelson A. Rockefeller, fund president, said he personally favors a cut within a month.

He said he would go along with the economists who recommended a five to seven billion dollar slash.

The attitude of key members of Congress on taxes, however, appears to have undergone some change in recent weeks. Earlier, the belief was prevalent that the decision would come in April or May — certainly not later than June 30, because many wartime excise tax rates are due to drop then unless extended.

But legislators considering the problem say these excises could be extended at present levels and changed later if excise cuts are decided upon.

The possibility of a tax cut was still very much in the picture. Even if the economic slump

impact on both consumption and investment."

3. Public works — but "only useful projects" which can be quickly started and completed.

4. Easier monetary policy by the Federal Reserve system to make more money and credit available.

5. Added unemployment compensation to supplement state programs.

6. Top-level guidance: "There is need for an informal advisory committee to meet at the call of the President and under his direct leadership... to consider and advise on stabilization policy, either antirecession or anti-inflationary as appropriate."

Sen. Aiken (R-Vt.) commenting on the Rockefeller study, said he has not found "any general demand for heavy tax reductions." Sen. Humphrey (D-Minn.) said he does not favor a tax cut now because of its possible adverse effect on pending public works legislation.

Sen. Ives (R-N.Y.) said in a radio broadcast he thinks "the steam has gone out of the drive for heavy tax reductions," with Congress inclined to wait another month or two before reaching a conclusion.

Secretary of Commerce Weeks said he believes the recession has hit bottom and that business should take an upturn by mid-summer.

"Confidence is coming back," he said in an interview, and predicted that April employment statistics will show a brighter job picture than March.

Sen. Lyndon B. Johnson (D-Tex.) took issue with what he

called the "complacent contentment" of the administration and said that "personally, I don't intend to sit it out."

called the "complacent contentment" of the administration and said that "personally, I don't intend to sit it out."

Princess Begins Trinidad Tour

PORT OF SPAIN, Trinidad (U-P)—Britain's Princess Margaret set out today to renew her acquaintance with this island of calypso which first captured her fancy two years ago.

The pretty, 27-year-old princess was greeted by cheering thousands who braved a drizzling rain to see her arrive yesterday. She is here on a state visit to open the new West Indies Federation Legislature tomorrow.

Later she will leave on an 11,000-mile tour of British Guiana, Jamaica, British Honduras and Nassau. She returns home May 7.

Orange, blue and white flags of the new federation festooned the airport as Margaret stepped from her plane wearing a summery knee-length dress, a perky smile tilted to one side and a new head-knocking hairdo.

Although she had flown from London to the strains of calypso music, Margaret was greeted on arrival by a band from the Jamaica military regiment playing the national anthem.

Howard Payne Is Site For Program Citing Democracy

BROWNWOOD — Eight distinguished speakers, an historical pageant and dedication of the new \$50,000 Naval Reserve Electronics Building on the campus are scheduled this week for Howard Payne College's annual Democracy-in-Action Week.

The speakers are Dr. John Tower, assistant professor of political science at Midwestern University, Wichita Falls; Rear Admiral Walter G. Schindler, commanding officer, Eighth Naval District, New Orleans; Dr. Joe Gerber, dean of the college and professor of psychology at Stephen F. Austin State College, Nacogdoches; Judge Tom Renfro, associate justice, Court of Civil Appeals, Fort Worth; Dr. Thomas H. Taylor, HPC president emeritus; R. H. Lawrence of Dallas, executive director and secretary of the Texas Bureau for Economic Understanding; John C. Brogan, United States deputy director of defense, and Roy Rubottom, assistant United States secretary of state.

The annual program, explains Dr. Guy D. Newman, HPC president, is designed to bring to the campus and community some of America's most brilliant men to point up the advantages of our democratic society, to give a better understanding of our social and political heritage.

Political Writer On Program For WTCC Convention

FORT WORTH—One of the nation's most prolific writers in support of individual freedom and free competitive economy will be a featured speaker of the 40th annual convention of the West Texas Chamber of Commerce.

Thurman Sensing, executive vice president of Southern States Industrial Council, will be the speaker at the annual dinner of the WTCC convention, to be held in Fort Worth April 27-29.

Sensing will share a convention program that also features discussions of Texas tax problems, the new economic impact of Texas agriculture, an outline of the state's new water program, and an analysis of the industrialization possibilities in West Texas.

The convention will also have an address by one of the nation's top sales executives, Bill Gove of EMC Recording company of St. Paul, Minnesota.

Sensing, who will speak at the annual dinner on the evening of April 28, has received four awards from the Freedoms Foundation including one Certificate of Merit and three Medals of Honor.

Noted as a keen analyst of the political and economic scene, he is the author of a weekly column, "Sensing the News," which appears in many Southern newspapers and is widely reprinted in other publications.

Spanking Law

RICHMOND, Va. (U-P)—Virginia's 1958 Legislature passed a law to permit a teacher to spank an unruly pupil but Superintendent of Education David V. Paschall says it will seldom be needed.

Paschall says it is strictly a last resort and will serve primarily to prevent unreasonableness. The law permits "reasonable corporate punishment."

Etna Erupts

CATANIA, Sicily (U-P)—Scientists said today a new series of eruptions has burst open two new craters atop Mt. Etna.
