Abilene Group Submits Low Bid On Airport Construction

B. G. Brown & Co., J. A. Pruitt and T. M. Brown & Sons, Abilene contractors, were the successful bidders for construction of the long-awaited Howard County airport. It was announced at 12:30 p.m. today that the bid of \$617,418.38 was lowest of five submitted to the Howard County Commissioners Court this morning.

the county more than two years ago for an airport. The remaining \$300,000 is being provided by the CAA.

Senate OK's Military Pay Increase Bill

WASHINGTON (AP)—Unanimous Senate action practically guaranteed an early pay increase for the nation's fighting men today—possibly by June.

House Starts Work On Bill To Extend Unemployment Pay

WASHINGTON (AP)—The House starts work today on a bill to extend jobless benefits, with a wide-open choice of how to go about it.

Drizzle Due To Continue

Big Spring's winter-in-April weather is expected to continue today and Thursday when May arrives, according to the report from the U. S. Weather Bureau.

Abilenian Elected To Insurance Post

BOSTON (AP)—R. D. Batjer of Abilene, Tex., took office today as president of the National Assn. of Independent Insurance Adjusters.

TV 'Learn' Plans Laid

LOS ANGELES (AP)—The nation's broadcasters today launched a public education campaign—named Learn and Live—in a move to make "ignorance unfashionable."

Final 'Y' Drive Briefing Is Held

More than 100 volunteer workers turned out Tuesday afternoon for the final briefing session in preparation for the YMCA's capital fund campaign.

President Cautious On Recession Signs Sees Evidence Slump Flattening

WASHINGTON (AP)—President Eisenhower said today the April decline in unemployment cannot be interpreted as meaning for sure that the nation is on the high road to recovery from the recession.

How To Pack A Sack

Just to prove that there's two sides to every story, take a gander at this well-packed sack. Marilyn Monroe proves that a curve's a curve in any style as she shows off one of her new wardrobe additions in a cosy at-home display in New York City.

Ike Against Change In Defense Plan

WASHINGTON (AP)—President Eisenhower said today any basic compromise on his defense reorganization plan would mean a retreat to a dangerous degree of military ineffectiveness.

THE YMCA STORY

Activities Exhaust Both Time, Space

(One of a Series) When it comes to schedules and activities, facts prove that the YMCA has run out of time and space so far as meeting additional demands is concerned.

More Twisters Strike As Storms Continue 6th Day

By The Associated Press At least one tornado and possibly two struck in Texas during the night and another round of vicious thunderstorms threatened the eastern part of the state Wednesday.

Other Topics

Sen. Stennis (D-Miss), floor manager for the complex measure in the upper house, said the Senate version would add some 576 million dollars the first year to the present armed services payroll of just above 10 billions.

The Bride Wore A Happy Smile

Jim Bough, 29, guides the knife through the wedding cake as his 85-year-old bride, the former Mrs. Laura Belle Wilson, looks up with a most contented smile.

Some Texas Roads Closed

AUSTIN (AP)—The Highway Department said today these roads were closed: Atlanta District—State 154 from Marshall to Harleton; State 43 from Bivins to FM 125; State 49 from Jefferson to FM 248; FM 134 from Jefferson to Baldwin; FM 450 from Harleton to FM 449; FM 144 from Junction of State 26 to Jenkins to State 11.

The 'something new' part of the rhyme in this case would be the cast Mary Ellen Sullivan wears on her foot and ankle as she is helped by her uncle, Joseph T. McEnaney, into church at Providence, R. I., for her wedding to James McGovern. The bride broke her ankle a week before the wedding.

Bride Types 3 Hours, Then Says 'I Do'

KANSAS CITY (AP)—The bride typed for three hours, then said: "I do."
The proxy wedding of Virginia Ann Miller, 22, Topeka, to Hector Correa Polit of Quito, Ecuador, ran five hours behind schedule through a bridal shower of red tape.
Legal amenities were so staggering that Ecuadorian Consul George A. Arcentales called in five of his countrymen to help:
(1) A power of attorney by which the bridegroom gave the proxy; (2) a certificate from the Supreme Court of Ecuador, certifying that the power of attorney is legal; (3) an initial inscription of marriage which amounts to the minutes of the ceremony; (4) a later and more detailed version of the inscription of marriage; (5) a document which in this country would simply be referred to as a marriage certificate.
The Ecuadorians first wrote out these documents in longhand (even these copies are kept) and Virginia typed them. Virginia learned Spanish in high school and the papers were in Spanish so the going was tough. Corrections had to be made.
Three of the copies will go to the Ecuadorian government. One goes to the bride, the other is retained by Mr. Arcentales. The bridegroom doesn't get any.
Virginia and Hector, 23, met while both were students at Kansas University. He is a statistician for the government of Ecuador.
Said Virginia in explaining the proxy ceremony: "I've been told it would have been just awfully complicated if I'd attempted to enter Ecuador without first being married."

Rocketeer Proposes 'Veep' For Space

WASHINGTON (AP)—A onetime missile czar under Hitler suggested today that President Eisenhower take on another vice president to direct space work.
Dr. Walter R. Dornberger, now a Bell Aircraft Corp. assistant, proposed this idea before the House Space Committee. His plan soared beyond Eisenhower's more modest proposal to set up a civilian space agency.
"I am told that the President might use more vice presidents to help him run the country," Dornberger said, "and a vice president of space could be a good office to start expanding the second level of our national administration."
Space work between here and the moon should be handled by the military because of its prime military importance within the next 20 years, he added. He said civilian scientists could have responsibility for "prestige" projects farther out.
In separate prepared testimony, Frederick C. Durant III of the AVCO Research Laboratory, a past president of the American Rocket Society, called for including efforts of foreign scientists in the U.S. space program. He said this would speed space progress and promote American leadership internationally.
Dornberger, a former German general, said it is harder to avoid duplication and money difficulties in this country than in Nazi Germany where, as he pictured it, he could hire and fire both military and civilian personnel and write his own ticket for funds.
In the United States, a small space agency at the presidential level should have full decision authority, he said.

WTCC Studies Water Problem

FORT WORTH (AP)—Action on the water evaporation problem, re-election of officers and passage of resolutions featured the windup of the West Texas Chamber of Commerce's two-day convention yesterday.
Amarillo was chosen for the convention next year.
Durwood Manford of Austin, chairman of the Board of Water Engineers, said a test will be run soon in West Texas on the evaporation problem.
Manford said Texas A&M is currently testing a chemical powder designed to prevent water evaporation, and that he could not disclose the site in West Texas where it is to be tested.
WTCC directors re-elected Berl Goffrey of Fort Worth to a second term as president and Roy Holmes of Abilene to a third term as treasurer. Fred Husbands of Abilene was re-elected to the executive vice presidency, a paid post he has held since 1951.
The board passed resolutions endorsing a bill by U.S. Rep. Frank Icard making it mandatory for the President to restrict oil import quotas at the same ratio that ex-

Solved Carpet Cleaning Problem

Research now has the answer to carpet and upholstery cleaning with the new product, Blue Lustré. It is completely safe for finest carpets whether woolen, rayon nylon or cotton. The nap is left open and fluffy as colors return to their original beauty and lustre. No residue remains to cause rapid resoiling. Clean entire carpet or just spots and traffic paths with Blue Lustré and a long handle brush. One-half gallon of odorless Blue Lustré concentrate cleans three 9 x 12 rugs.

A Little Late

DALLAS (AP)—T. J. Slaggett was standing in his auto company office yesterday when the telephone rang during a violent thunderstorm.
"Your roof is blowing off," exclaimed an excited voice.
"Yes, thanks, I know," Slaggett replied. He was dripping from head to foot and standing in about three feet of water.

Sheriff Seeks Sale Victim

EVANSVILLE, Ind. (AP)—Sheriff Frank McDonald tried again today to find Mrs. Juanita Malin at home in order to deliver the deed to her home, sold at auction to satisfy a judgment for a \$69.90 grocery bill.
Mrs. Malin's \$10,000 house was one of three bought at sheriff's auctions by Morris Esche, 30-year-old Purdue University student. The sheriff returned the deeds to the other owners Tuesday.
Esche had agreed to return the deeds for the total of his payments plus expenses. McDonald said Esche returned them for \$1,425.65, and did not charge interest or attorney's fees.
The sheriff said the money did not come from contributions, but declined to say where he got it.
The sales attracted attention after Mrs. Malin, widowed mother of nine children, reported her house had been sold for \$150, without her knowledge, to satisfy the grocery bill judgment.

Industry Maintains Research Spending

By SAM DAWSON
NEW YORK (AP)—New products are the life blood of the chemical industry. And so it is maintaining its spending on research at around 500 million dollars this year.
The 23-billion-dollar-a-year industry has been taking its lumps from the recession along with the rest. But it boasts there have been no layoffs so far in research and fewer in production than the average for all industry.
Confidence in finding new wonders and exploiting present ones is a reason that the chemical industry will spend about 2 1/2 billion dollars on new production facilities in 1958 and 1959. The Manufacturing Chemists Assn. says 1 1/2 billion dollars of this construction already is under way and 1/4 of a billion more is projected under plans considered firm.

Sheriff Welds Escape Hatch

HASKELL, Tex. (AP)—Sheriff Bill Pennington welded new steel plates yesterday in a county jail cell which three prisoners had used as a come-and-go escape hatch.
Pennington said the trio left on two occasions to burglarize three Haskell business firms. He said they returned to jail both times but one of the group failed to come back after a third outing.
The sheriff said \$92 in cash and some cigarettes were taken in burglaries of two motor car companies and a sandwich shop.
Pennington said he discovered the escape route after James Golden of Bravard, N.C., held on for-forgery charges, was found missing Monday morning. Golden was re-arrested at Stamford, Tex., yesterday.
The sheriff identified the others as Dan Griffin of Stamford and Raymond Stevens of Anson.
Pennington said they got out by removing 54 bolts from a steel plate in the rear of Golden's cell, squeezing down a service passageway containing plumbing and out a door.

More Vanguard Firings Planned

CAPE CANAVERAL, Fla. (AP)—Navy scientists forged ahead with plans for a bigger and better Vanguard rocket program today after learning that the latest launching was washed out by wire trouble.
Officials announced in Washington that the 72-foot rocket failed about 300 miles up when a malfunction developed in the electronic system of the second stage.
As a result, the rocket's third stage did not ignite after what appeared to be a successful launching Monday night instead of pushing the fourth U.S. satellite into orbit. Vanguard plummeted about 1,500 miles out to sea.
From telemetry data obtained during the flight, the Naval Research Laboratory learned that the rocket and its 20-inch spherical satellite fizzled because the "brain" in the second stage vehicle never beeped a signal to spark the final stage solid fuel propellant.
Officials speculated that an open wire somewhere within the complex structure of the second stage was the culprit.
The news assured project heads that the basic Vanguard workings behaved according to plan and that the Navy can go ahead with its stepped-up test program.
The new mission will be to launch a satellite in space—perhaps one a month in the immediate future. During the first seven Vanguard experiments the primary purpose was to test the rocket itself, not to orbit a man-made moon.

LEGAL NOTICE
THE STATE OF TEXAS
To: WELMA A. BRITTON Defendant(s),
Grievance.
You are hereby commanded to appear by filing a written answer to the Plaintiff (s) Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 2nd day of June, 1958, at or before ten o'clock A.M. before the Honorable District Court of Howard County, Texas, at the Court House of said County in Big Spring, Texas.
Said Plaintiff (s) Petition was filed in said court on the 11th day of February, A.D. 1958, in this cause, numbered 11209 on the docket of said court, and styled, Part 6, Britton Plaintiff (s), vs. Welma A. Britton Defendant (s).
A brief statement of the nature of this suit is as follows, to-wit:
Plaintiff alleges legal marriage and residence in State of Texas 12 months and residence in Howard County for more than six months, all next to filing of this petition.
Demand: Cust treatment of children.
Prayer for divorce, as is more fully shown by Plaintiff (s) Petition on file in this suit.
If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.
The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.
Issued and given under my hand and the Seal of said Court, at office in Big Spring, Texas, this 14 day of April, A.D. 1958.
Attest: WAD. CHAYE, Clerk, District Court, Howard County, Texas, By Wade Chayé

YMCA
Big Spring Youth Is Looking To You!
To Provide The Community With A Center Of Christian Influence — A New YMCA Home
It's wonderful to grow . . . and just like our children, Big Spring is growing. In 10 short years our boy and girl crop has far outgrown the limited facilities of a reconverted church building . . . and if present trends continue, within the next decade we will have almost twice as many boys and girls in the teen-age and youth brackets. If a fraction of major developments planned for our community come to pass, the parade of youth will be greater still.
Boys and girls reflect their community . . . how it feels about their moral and physical well-being. Our boys and girls won't fail unless our community first fails them.
The YMCA, with its ideals of Christian leadership and service, has an unique opportunity to shape the future health and happiness of our young people But it must have your help!

FACTS ABOUT THE YMCA BUILDING CAMPAIGN
● Total estimated cost of the project is \$309,000. The entire amount must be raised in Big Spring . . . the Big Spring YMCA is independent of outside control and support.
● Gifts may be divided over a three-year period with either monthly, quarterly or annual payments.
● All gifts are deductible for income tax purposes.
● This campaign is being conducted locally without professional fund raising assistance. All gifts go directly into the New YMCA Building Fund.
● Good surroundings for the young people who will determine Big Spring's future are not a luxury but a wise investment. The New Y Building will not be elaborate . . . there are no unnecessary frills.

THIS PROGRAM IS OFF TO A GOOD START
Many people have labored for many months to lay the groundwork for this YMCA capital fund campaign. A 2-acre site, in the Birdwell Lake area (just west of the old Baseball Park) has been obtained for the building. Architects have been employed to design a building that will fill the needs of the community. Some major gifts have built the YMCA building fund to better than \$100,000. Sound planning has gone into the entire project. It is off to a good start. Now, its success is dependent upon whole-hearted cooperation from every citizen of the community who wants to see the very best atmosphere provided for our boys and girls.

You'll Have An Opportunity Soon To Respond To The Appeal For Our Young People. Won't You Respond?

YMCA

Oklahoma Flow At Same Level

OKLAHOMA CITY (AP) — Oklahoma's crude production allowable for May was kept at about the same level as April after a market demand hearing in which no demands were issued for change.

The Corporation Commission maintained the same formula with production expected to be about 515,000 barrels daily. This month's allowable is 511,000 per day. New wells accounted for most of the increase. Purchasers nominated 513,750 barrels per day compared with 567,000 a month ago. The U.S. Bureau of Mines forecast a demand of 540,000 barrels.

DEAR ABBY

GET ADVICE—BUT SOON!

By ABIGAIL VAN BUREN

DEAR ABBY: My husband and I got married and went to his father's house for our honeymoon. They live on a farm in Minnesota. The second night he got his temper up and ran out of the house because I said this was not my idea of a honeymoon. I ran after him and blustered my feet in the snow and almost lost the baby. Now he wants me to take him back but I don't think I could ever care for him again after what he called me. Should I give him another chance or not?

UNLUCKY BRIDE DEAR UNLUCKY: Ask your clergyman or a marriage counselor to give you both a refresher course in the responsibilities of a married couple. You owe it to the baby who is on the way to make a success of your marriage.

DEAR ABBY: I work in a small office and like my job except for one thing. It is generally very cold in the office and I keep asking my boss to turn up the heat. He won't believe I'm cold until he feels my ankles. If they are cold, he turns up the heat. What can I do about it? COLD COOKIE

DEAR COOKIE: If you continue to let your boss check your ankles you could be up to your neck in trouble. Either turn up the heat

DEAR ABBY: When someone wrote and asked you if all the young couples necked in cars, you replied, "No, the woods are full of them." I want to ask, what would respectable adults be doing out in the woods to have observed these young couples? Sincerely, CADET J. E. T.

DEAR CADET: Enjoying the wild life, I imagine.

CONFIDENTIAL TO PHIL: Why use a cannon to bring down a pigeon? Save the heavy artillery for later.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Cheryl's Father Seeks Custody

HOLLYWOOD (AP) — Stephen Crane, seeking full custody of his daughter, faces a fight "to the last degree" by Lana Turner.

Lana will fight for her child, her attorney Jerry Giesler said after Crane said he would appeal a ruling which made Cheryl Crane, 14, a ward of the Juvenile Court.

"It will be resisted to the last degree—to our last breath," said Giesler.

Cheryl fatally stabbed Lana's lover, John Stompanato, April 4. She said she did it to protect her mother from harm. Last Thursday Juvenile Court placed her temporarily in custody of Lana's mother.

"We are satisfied with the court's decision," said Giesler. "And we hope eventually Miss Turner will have her daughter back."

Crane, 43, owner of a Beverly Hills restaurant, said that his attorney would file the appeal this week. His lawyer Arthur J. Crowley said it was the first step in a campaign by Crane to win Cheryl's custody.

Although at odds legally, Crane and the actress appeared on good terms when both visited probation and juvenile authorities at Santa Monica to discuss their daughter's case.

4th Kathy Fiscus Rescuer Is Killed

PASADENA, Calif. (AP) — Just nine years ago one of the world's most heartbreaking rescue attempts failed to save the life of Kathy Fiscus, 3.

When the child's body at last was being hoisted from the 94-foot well into which she had fallen, rescue worker Bill Yancey spoke the final words of the grueling, 49-hour underground fight: "Easy, men; keep it coming up gently."

Moments later Yancey emerged from the hole, the body of little Kathy in his arms.

Yancey died yesterday, much in the same manner — underground, and barely a mile from the Fiscus tragedy. Three others associated with Kathy's accident have died "violently."

Yancey, 47-year-old contractor, went into an eight-foot sewer ditch with the same disregard for danger that he displayed when he toiled two days below ground trying to save Kathy. A man had been sent for lumber to shore the ditch, but Yancey didn't wait.

"He said he'd be all right and jumped down," related coworker Ted Slade. "I started to move some equipment . . . and when I looked around the earth had caved in and Bill was buried."

Yancey dug desperately to uncover Yancey's head. Firemen administered oxygen. But Yancey was dead, his chest crushed.

On April 8, 1949, Kathy Fiscus tumbled into the 14-inch casing of an abandoned well.

Hour after hour people all over the world waited tensely for every detail of the struggle to sink a parallel casing and tunnel across to the trapped child.

When the shaft was completed Yancey was the first man down. He dug by hand in the tunnel across to the old well pipe. He and a doctor found Kathy dead. And Yancey was the last man out. He got a hero's medal.

Tragedy had followed other Fiscus rescue workers. One was hurt in an auto explosion the same year. Another died in a 1949 construction accident. The wife of a third was murdered in 1953.

And, in 1952, the wife of the rescue's director, Mrs. Raymond Hill, was killed in a traffic accident — just one block from the spot where Yancey died.

Pilot Sears His Eyeballs, But Lands Bomber

ABILENE, Tex. (AP) — A young Air Force copilot, his B47 jet bomber afire and the top canopy blown off, bled sears from his eyeballs and wind that seared his eyeballs to land the plane here Monday night rather than abandon a fellow officer.

First Lt. James E. Obenauf, 24, Grayslake, Ill., made a perfect landing while flying from the blind copilot's seat, something the Strategic Air Command said had been considered impossible because he is behind a solid bulkhead and cannot see forward.

The B47 was in a training flight from Amarillo to Denver. At 30,000 feet, near Dalhart, Tex., one of its six jet engines caught fire.

First Lt. John P. Cobb, 25, Elko, Nev., navigator, bailed out through the escape hatch.

Maj. James M. Graves, 38, Fort Worth, the pilot, blasted off the top canopy. His ejection seat did not work and he bailed out through the nose escape hatch.

Obenauf's ejection seat also failed to work. On his way to the nose he discovered Maj. James E. Maxwell, 32, Portsmouth, Va., navigation instructor, unconscious and his oxygen mask off.

Unable to get Maxwell through the hatch, Obenauf returned to his copilot's position. The controls there were the only ones working.

There he was flying blind with the wind whipping through the cabin at 400 miles an hour. Ground control stations gave him his position and permission to fly 300 miles to Dyess Air Force Base here, his home base. He made a perfect landing.

He and Maxwell were hospitalized for shock, frost bite and burning eyes. Their condition was reported good.

Graves and Cobb landed on ranches near Dalhart. They suffered bruises, but only Cobb was hospitalized.

New Champ In Deep Well Class FORT STOCKTON, Tex. (AP) — The Texas deep well drilling championship was claimed yesterday in a wildcat test which reached a depth of 21,867 feet 13 miles east of here.

Phillips' No. 1-E2 University reached a little more than four miles in a side-tracked hole to break the old state record. There were no indications of commercial oil or gas production at the 4-mile depth level. But the test logged shows of gas production between 8,118-11,715-feet.

Tentatively scheduled to go 23,000 feet, the Phillips well could set a new world's depth record, now held by Richardson Bass and others as a Louisiana Marshlands 22,570-foot test.

The Phillips well also represents the deepest whip-stock operation ever attempted in Texas.

The wildcat is one of three deep Phillips tests in central Pecos County of West Texas.

Suez Payment Issue Settled

CAIRO (AP) — Removal of a major barrier to good Western relations with Egypt — the Suez Canal compensation issue — while President Nasser is visiting the Soviet Union was viewed by diplomatic observers today as highly significant.

The Egyptian government signed an agreement yesterday to pay shareholders of the old Suez Canal Co. 82 million dollars compensation for Nasser's nationalization of the waterway in 1956.

The shareholders also will keep 167 million dollars in company assets outside Egypt, for a total of 249 million. The value of all company shares on the Paris exchange just before nationalization was about 200 million.

The 49 million extra compensates the company for the revenue it would have gotten in the 12 years its concessions had to run.

The Cairo press predicted that economic talks with Britain and France will be resumed soon to clear up compensation for property Egypt seized when the two countries invaded Suez in 1956.

That would lead to resumption of diplomatic relations with Britain and France broken at the time of the Suez invasion.

The United States is reported planning to release 30 million dollars worth of Egyptian assets frozen since the invasion in a cautious campaign for friendlier U.S. relations with Egypt.

The Suez agreement provided that the company could keep, as the first installment, on the 82 million dollars, about 15 million in canal transit fees held in Europe. Beginning Jan. 1, Egypt will pay five annual installments of about 11 1/2 million and the balance in 1964.

Cold Air Moves Into East U.S.

Cold air moved into the Eastern third of the country today as temperatures moderated in parts of the chilled Midwest.

The cold air moved southeastward during the night and spread to near the Atlantic and Gulf coasts and was expected to envelop almost all areas during the day.

Temperatures dropped from 15 to 20 degrees from Lower Michigan to western sections of the Atlantic Coast states and southwestward through the Ohio Valley, northern parts of the Gulf Coast states and into Oklahoma and Texas.

Temperatures in the frosty belt ranged from the 20s in the northern Great Lakes region through the 30s in the Ohio Valley and the 40s and 50s toward the leading edge of the cold air mass.

Showers and thunderstorms erupted near the cold air front in the South and East. Heaviest storms were in Texas, which was hit by rain, hail and strong winds in north, central and eastern sections. Tornadoes also hit Texas, damaging buildings, but no injuries were reported.

Girl Finally Born Into 'Male' Family

JOHNSON CITY, Tenn. (AP) — A newborn girl has caused a sensation in the Emory Harrison household.

She is the first daughter born to the family that gained nationwide publicity when their 14th son was born three years ago this month.

"I'm pleased as punch," Harrison chuckled after the birth Monday night. "And all the boys are pleased too." He and some of the 13 living sons, who range in age from 3 to 24, operate a nearby farm. Mother and daughter are reported well at a hospital here.

Dag Intervenes In Polar Plan

UNITED NATIONS, N.Y. (AP) Diplomats speculated today on the effect — if any — U.N. Secretary General Dag Hammarskjold's Security Council intervention on behalf of the U.S. arctic inspection plan will have on the veto-wielding Soviets.

Hammarskjold, who normally goes in for private diplomacy, surprised everyone last night with an unprecedented endorsement before the council of the U.S. proposal opposed by the Soviets.

Speaking briefly at the close of debate, the secretary general told the 11-nation Council he welcomed the U.S. initiative in proposing that the northern area be put under international inspection against surprise attack. He expressed hope the proposal might break the current disarmament stalemate.

Soviet Delegate Arkady Sobolev listened tight-lipped. The U.S.S.R. was expected to give some indication of her reaction when the Council resumes debate Friday.

Sobolev had denounced the U.S. resolution as an effort to divert public opinion from Soviet charges that peace is endangered by flights of U.S. nuclear bombers across the arctic toward Soviet soil. He introduced a counter resolution to pass the U.S. proposal on to a summit conference.

In Moscow, Soviet Foreign Minister Andrei Gromyko derided the U.S. proposal as a "matter of sheer publicity" and a move to get intelligence data on Soviet arctic territory.

It raised the question whether he had incurred undying Soviet enmity, as his predecessor, Trygve Lie, did in June 1950 by accusing the Communists of aggression in Korea. The Reds as a result never missed a chance to block Lie and he finally resigned in November 1952.

400 To Graduate From Junior High

Tom Ernest, principal at Junior High School, today announced that Dr. Morris Williams, head of the education department at Texas Tech, would be speaker at the commencement exercises this year for the ninth grade.

The program will be presented in the high school auditorium on May 20 at 8 p.m. The more than 400 who will graduate from junior high is thought to be the largest class in history. Some 380 were graduated last year, Ernest said.

Rest After Bad Night

Nestled between her two dolls and sleeping like a baby, Judy Peterson, 3, is safe in her home in Rockledge, Fla., after being lost in rough, snake-infested palmetto brush for 12 hours. Judy, daughter of Mr. and Mrs. Harold J. Peterson was found by Airman 2nd Class P. N. Thomas, a member of a 1,000-man search party, that beat through the brush.

Ward's, Sears Outlets Note Big Gain In Mail Order Sales

Mail order sales are booming across the nation, and the two catalog offices here are keeping step.

Both Montgomery Ward and Sears Roebuck officials say their Big Spring mail order business has shown substantial increases during the past few months.

In some sections, the mail order boom is credited to the U. S. business recession. However, F. O. Gebert, local manager for Montgomery Ward, says Big Spring hasn't had a recession. Ward's store sales here also have shown good gains in recent months.

Sears doesn't operate a retail store in Big Spring, but M. L. Walters, manager of the mail order store, says catalog sales are up, especially for April.

"People are looking through the catalogs carefully, trying to save all they can," said Walters.

Gebert pointed to a similar statement by Paul M. Hammaker, executive vice president of Montgomery Ward & Co.

"People haven't stopped buying. Instead, they're buying with more care," said Hammaker.

The real boom in both retail and catalog sales here started in April, said both Gebert and Walters. They consider this especially remarkable in view of the fact that very little Easter business went into the April records. Last year, April benefited from three weeks of Easter trade but the 1957 sales are being exceeded this month.

Hammaker said Ward's total sales this year are running more than 2 per cent ahead of the same months in 1957. He believes his firm is getting a bigger share of available business.

Merchandisers are now faced with a buyer's market, which calls for "sharper merchandising and a

better advertising job," according to the Ward's executive.

"Salesmanship is now necessary, along with the right prices and quality merchandise," he said.

Both Sears' and Ward's have issued spring sale catalogs aimed at curbing any soft sales trend.

Gebert said the Ward catalog is the largest sale book in the company's history, featuring price reductions averaging about 13 per cent on some 20,000 items of merchandise.

Walter said his company last week got out its spring sale catalog. It is 86 pages larger than the 1957 spring edition, and also includes a supplement showing price cuts made after the regular sale catalog went to press. The Sears manager had no information on the percentage of price reductions, but said substantial savings are offered.

Spring Hike In Outdoor Work Brings Drop In Unemployment

WASHINGTON (AP) — A spring increase in outdoor work has brought a surge in employment and a slight drop in joblessness but no letup in demands for government anti-recession action.

Releasing its figures 10 days earlier than usual, the Commerce Department said unemployment dropped 78,000 during April — the first decline since last October but far short of the normal 300,000 to 350,000 decline from March to April.

The report was issued as the House prepared to debate a bill for extension of jobless benefits. Along with the April jobless total of 5,120,000, the department reported an increase of 596,000 in employment to a new total of 62,907,000 persons working. Secretary of Commerce Weeks said nearly all the gain in employment resulted from the usual spring pickup in agriculture and other outdoor activities.

Paradoxically, although unemployment declined, the report said the percentage of jobless persons increased from 7 per cent in March to 7 1/2 per cent in April on a seasonally adjusted basis, which takes into account a number of statistical factors.

AFL-CIO President George Meany, referring especially to the less than normal drop in unemployment, said the report proves the recession continues to worsen. Meany, calling anew for prompt anti-recession legislation, said:

"Immediate action to improve and extend unemployment compensation and to cut taxes on low and middle income individuals is essential if America is to be put back to work."

In a similar vein, the Democratic Advisory Council urged a tax cut of more than three billion dollars in lower income brackets, plus new billions in public spending and a further drop in interest rates.

The 24-member council accused the Eisenhower administration of inaction and said, "The well-being of the American people is now at stake."

Sen. Humphrey (D-Minn.) likewise said the administration has not put sufficient government weight behind efforts to fight the recession.

"The latest figures on unemployment confirm that the economic situation has not improved and may very well become more serious," Humphrey said.

Sen. Mansfield of Montana, assistant Democratic leader, said in a separate interview that while the April jobless decline was somewhat encouraging "I don't

Oil Dividend

BARTLESVILLE, Okla. (AP) — Phillips declared a regular quarterly dividend of 4 1/4 cents a share yesterday.

Army Reservists

Maj. Gen. Earl Rudder (left), pins the oak leaf emblem on James Lindsey, managing editor of the Midland Reporter-Telegram, recently given a direct appointment as a major in the Army reserves. Lindsey, vice chairman of the board of directors at Texas Tech, was assigned to Rudder's staff. He said he will be attached to the Army reserve center which has jurisdiction in the Midland area and will be a public information officer.

A Bible Thought For Today

Or deposedst thou the riches of his goodness and forbearance and long-suffering; not knowing that the goodness of God leadeth thee to repentance? (Romans 2:4)

Don't Forget Our Base Of Operation

In Moscow the Soviet organ Pravda said Russian scientists learned something about space travel from the dog Laika's Sputnik excursion, but not enough; so other animals will be used to supply more information.

While speculating on ventures into space, perhaps it would be wise to reserve ample thought and funds on faster- and longer-ranged bombers, guided missiles up to 6,000-mile range, the training of people to handle them, plus the necessary political and diplomatic activity to keep our position on this mundane sphere secure.

Idealism And Practicality

Dr. Albert Schweitzer is a great and good man who gave up a brilliant career as an organist-composer to become a physician among the benighted savages in darkest Africa.

Interest of a clean, or at least a cleaner, hydrogen bomb, or a quest in which Dr. Teller is also a leader.

He has lived the greater part of his life among his patients, far from what we call civilization, an isolated post with very little contact with the outside world except for occasional brief visits to Europe and America.

So far as his career discloses the eminent missionary knows no more about nuclear energy than any other well-educated person, and no more about the effects of radioactive fallout than any other physician.

The Gallup Poll

Men (And Women) Turn Down 'The Sack'

PRINCETON, N. J.—Let the women and children worry about such things as the recession and H-bombs, to the men of America there's a much greater danger facing the nation—the "Sack."

men particularly—were against lengthening the skirts to a "new look," although one man offered the compromise: "If the legs are nice, wear short skirts, if bad, cover them with long skirts."

We Trust It's Nothing Trivial

James Marlow

The Little Green Man

WASHINGTON (AP)—The recession is beginning to look like a little green man in a space suit, with the Eisenhower administration and the Democratic leaders in Congress wondering goggle-eyed which way he's going.

Texas, the Senate's Democratic leader, while calling for greater effort by the administration, isn't rushing into a tax cut either.

Secretary of Commerce Weeks rushed out Tuesday with figures — which ordinarily wouldn't be available for another 10 days — to show unemployment in April had dropped numerically below the March figures.

Hal Boyle

Trouble With The Feet

NEW YORK (AP)—You may think there's something wrong with your neighbor's head but the chances are much greater there's something wrong with his feet.

their feet are to them, so they take better care of them," said Lelyveld. "Occupationally speaking, barbers and housewives have the worst feet."

"All but about 15 per cent of adult foot defects are unnecessary," he observed. "They could have been prevented in childhood."

"Lovers are all right for a man — if he's really sitting down loafing. But they aren't suitable if he's doing heavy work around the house."

MR. BREGER

Truth In Reverse

MILWAUKEE (AP)—Raymond Ruditys, 19, reported to the police that another motorist followed his car for three miles, played bumper tag with him, then cut him off, reversed gears and rammed him from the front.

Police upon investigation, said the only thing wrong with the story was that nobody did those things to Ruditys. He did them to Edward Zubulski, 17, when he found Zubulski out for a ride with a girl he had dated. Judge Frank Gregorski fined Ruditys \$100 and jailed him for 30 days for driving after revocation of his driver's license.

Counting Chickens

BRIDGETON, N. J. (AP)—A local used car lot lost a fat profit just because it took inventory. The inventory disclosed that one car on the lot didn't belong to the company.

Around The Rim Snared By His Words

More than one culprit has been trapped by returning to the scene of the crime. You don't have to be a bank robber, an arsonist, ambush, embezzler, etc. to fall into this snare.

For instance, take Bro. Jake, who was home for the weekend for a sort of family gathering. Having recited his alleged exploits at Signal Mountain, he was the target of a campaign on the part of his daughter, Peggy, and little cousins, Dede, Meredith and David, for a trip to the fabled peak.

Intrepid Explorer Pickle built up a good head of steam for the trip until he learned that there was no longer a trail over which a car could move freely to the base of the hill. Old Signal had to be approached by a hike of some three miles, which dimmed its lustre so effectively that soon he had launched a great build-up for Moss Spring.

So from the springboard of Moss Creek Lake the party set off for the springs, fortified by the tales of exploration in the dark "caverns" from whence the spring issues. Bro. Jake began recalling how, as a lad, he had probed the bowels of the earth in breath-taking exploits. He even angled the beam of a flashlight into the relatively tight aperture of the spring,

explaining how he once had been all but trapped.

"Daddy," broke in Peggy. "That wasn't Moss Spring."

"Eh?" said Jake, taken aback. "What do you mean?"

"You got trapped in the 'big spring.' " "Harumph!" the old adventurer cleared his throat. "So it was, but that was another time... yes, another time. Now here at Moss Spring..."

And he retreated in some disorder from his breathless chronicle.

Expressing surprise later to Sister Judith, whose brood had accompanied them, that he should be picked off first base by his own daughter and confounded by his own words, he absorbed the other half of the lesson.

Inez Robb

Canny Dutch Control Their Tulips

AMSTERDAM—Have you ever pondered why the people in the old song were "tiptoeing through the tulips?"

Well, sir, they were tourists and they were trying to sneak up on 'em—on the tulips, that is—and it ain't easy. It's always a case of too hot or too cold, too young or too old, too early or too late.

This time it's the latter—I'm too early and the tulips are too late, thanks to the long, cold spring that Europe has shared with the U. S. A.

The first pale sunshine arrived only a few days ago, but spring is here, all right. As I stepped off the train in the Amsterdam station, I barely avoided being run down by a Dutch boy and girl, holding hands and obviously floating on cloud No. 7.

But if the tulips and I are off schedule, all is by no means lost. On each side of the railroad tracks from Rotterdam to Amsterdam, great, golden fields of daffodils stretch in the distance. They are as molten as the fields of Kansas in August, and enough to drive a small-scale gardener like myself into a frenzy.

Furthermore, the smart Dutch know exactly what to do with frustrated tourists like myself who can't ever synchronize themselves with the tulip. They hustle us into cars and take us out to Keukenhof, a showplace of the bulb industry that must be patterned after Heaven.

In this 75-acre garden spot, 30 minutes from Amsterdam, tulips, narcissi, daffodils, hyacinths, crocus, anemone and lilies bloom on schedule, or else. And if the flower-lover sees only this display, he really has no complaint.

This old estate, with its meandering laek stocked with black as well as white swans, and with its thousands of noble

old trees (particularly beeches), is the perfect, park-like background for a glorious display of flowering bulbs.

With an art so subtle it cannot be detected, all of Holland's recalcitrant bulbs have been forced in greenhouses and planted throughout Keukenhof in such masses and with such skill that they look as if they had spent their lives in that particular spot they now glorify.

Hundreds of thousands of bulbs make a rainbow of the park, and hyacinths saturate it with perfume. After the Brussels World's Fair, I felt I would never be able to walk again. But I walked eight miles around and through Keukenhof until my Dutch friends begged for mercy. And I would still be there, enchanted by the massed beauty of the flowers, the old trees and the white peacocks if camping weren't forbidden.

Each bed of tulips, each shade of hyacinths and every variation of the daffodil family seemed more beautiful than the last. I have in my notebook the names of at least 200 bulbs that I must have in my own poor garden.

If I was ravished by the beauty of Keukenhof, I was entranced by the fact the park was filled to overflowing with American tourists, all equipped with from two to four cameras and all recording the beauty for posterity. Hundreds of American servicemen with their families, located in France, Germany and England, are, like myself, in Holland for tulip time.

It—tulip time—is one of the greatest tourist attractions in Europe. And the efficient Dutch have learned how to cope with nature, the weather and the bulbs when they fail to perform on schedule. They lure the tourists out to Keukenhof. And no one has sued yet.

David Lawrence

To Correct Abuses In Supreme Court

WASHINGTON — Will the Supreme Court of the United States be required to return to its original role—to serve solely as a judicial institution? Will a majority of the present justices give up their evident determination to change the court into a "third legislative chamber"?

The fight in Congress at the moment centers on a move to enact legislation which would spell out in detail the limits of the Supreme Court's authority to pass upon certain kinds of cases.

Congress, under the Constitution, may by law specify to a certain extent what types of cases the Supreme Court may consider for decision. Many observers think none of the pending bills will be adopted at this session. But the fight is only beginning. Many groups of citizens throughout the nation are taking up the issue because it is felt that public opinion has not yet been alerted to the usurpation practiced by the present critics of the pending legislation to imply that the court as an institution is under fire.

On the contrary, it is the activity of those who have perverted the court's original purposes and judicial functions which has brought on the controversy of today.

When as eminent a man in Congress as the veteran from Wyoming, Sen. Joseph C. O'Mahoney, Democrat, asks that every judge be required to swear specifically in his oath that he will not participate in any decisions that "knowingly alter the Constitution"—a procedure which a Senate subcommittee now requires before confirming new judges—it indicates a belief that something is wrong with the attitude of the present justices toward the Constitution. Their decisions apparently reflect a feeling that they may sit on the bench for life and legislate without regard to constitutional precedents of the past.

Sen. O'Mahoney, it will be recalled, was one of the leaders in the crusade against the late President Franklin D. Roosevelt's effort to influence the decisions of the Supreme Court by appointing six extra justices who, it was assumed, would decide cases as he wanted them decided. The Wyoming senator was in the forefront of that movement against usurpation, and he is logically concerned with the usurpation of power by the court itself today.

Unfortunately too many people have been misled into believing that the sole criticism of the court now is due to the fact that it disregarded law and precedent in deciding the "desegregation" cases on "psychological" rather than on legal grounds. Putting aside these cases, however, there are many other decisions on a far-reaching nature which, if reversed either by Congress or the people, will make the Supreme Court a "third legislative chamber." This, by the way, is the phrase used by Judge Learned Hand, the distinguished judge, now in re-

retirement, who formerly sat on the U. S. Circuit Court of Appeals in New York and won a nationwide reputation for the soundness of his judicial decisions. In a series of lectures at the Harvard Law School, he recently exposed the erratic trend in the Supreme Court decisions of today.

The present Supreme Court has ignored the Constitution in many cases. Though the Constitution, for instance, says that Congress and the judiciary are coordinate and independent institutions, the Supreme Court has undertaken to tell congressional committees what subjects they may investigate and what questions are pertinent to an inquiry—as if there were any limit on the right of Congress to get information on which to base laws or new amendments to the Constitution.

The Supreme Court has also told the states they cannot decide who shall or shall not be admitted to practice law or how to set up tests of qualifications of experience and character before issuing a license to an applicant.

The Supreme Court has undertaken, moreover, to hamper police officers in interrogating persons accused of crime and to interfere with prompt efforts at finding the guilty persons. Confessed rapists and murderers have recently been released by order of the Supreme Court because the police didn't formally arraign a suspect within a short time after he was picked up. Police officers claim they need time to sift the innocent from the guilty.

The Supreme Court has given professed Communists a break by declaring that Congress has no right to say by law that persons joining organizations which advocate the overthrow of our government may be punished. The court says, in effect, it must be proved that the individual Communist has engaged in specific action aimed at the immediate overthrow of government. He can preach treason but can be prosecuted only if the treason is successful in its effect on other persons.

These are but a few of the aberrations of the present court. The country has not yet waked up to the dangers of the court's unprecedented rulings. The pending bills designed to limit or restrict the jurisdiction of the court constitute the beginning of a prolonged battle to stop the usurpation of legislative power by the present Supreme Court. It may take years to win the fight, but the struggle will increase in intensity as the public learns what's at stake.

It is not the court as an institution, but the mistaken attitude of a majority of the justices as to what the court has a right to do, which is the basis for the growing demand that the powers of the present court be curbed. It's not the proper use, but the abuse, of the judicial function which is at issue.

(Copyright, 1958, New York Herald Tribune Inc.)

Strapping Philosophy

DECATUR, Ga. (AP)—John C. Cragg, 38-year-old principal of Southwest DeKalb High School, has his own, old-fashioned preventive for juvenile delinquency.

It is a two-inch-wide leather strap which he uses on boys of any grade when he feels their misconduct deserves it. The dosage usually is 10 licks and the offender is given his choice of accepting suspension in lieu of the whipping but few ever take that way out, Cragg says.

He estimates that not more than 1 per cent of approximately 1,800 students ever feel the strap but "every one of them knows I have one." Cragg believes that the leather has "straightened out" many a would-be delinquent and says many whom he has whipped have later thanked him for it.

Placing The Blame

ENID, Okla. (AP)—Mrs. Nora Belle Dozier, Enid police woman, thinks parents are mainly to blame for juvenile delinquency.

She reported an Enid mother calling the police department regarding the new curfew law and said: "I sure am glad you passed that law. Now maybe you can get my children to stay home at night."

Brother's Keeper

DUBOIS, Pa. (AP)—Police stopped two brothers on a street here pulling on cigarette butts.

The boys—aged five and six—were reprimanded for smoking and sent home. Police found the pockets of one boy's pants filled with half-smoked butts.

Film Of Interest To Women Will Be Shown Free Of Charge May 7

Open and free showings of a life-saving film, "Breast Self-Examination," arranged by the Howard County Unit of the American Cancer Society, will serve as health and life insurance for numberless women in this community. The motion picture, which has played a vital role in the never-ceasing nationwide public education program of the ACS, demonstrates a simple method of detecting early signs of breast cancer.

Doctor Advises Patient

In this scene from the American Cancer Society's life-saving film for women, "Breast Self-Examination," to be shown at the Ritz and State Theatres on May 7 at 1:15 p.m., the doctor emphasizes to his patient the importance of monthly self-examination of the breasts.

Thousands of women, however, following the teachings of this illuminating motion picture, find no lumps at all. Actually, the greater number of such lumps that are found are benign or harmless. The suggested examination is merely precaution, wise precaution. For when a lump is found in an early stage, treatment can start immediately, with excellent chances for cure.

Early detection of cancer is saving more and more lives each year. It is delay in detection and delay in essential treatment that lead to tragedy in cancer cases.

Wedding Vows Exchanged By Couple In Lamesa

LAMESA—A double ring ceremony read Sunday afternoon in the Church of Christ united in marriage Zona Lou Brown and Jimmy M. White.

Mr. and Mrs. C. S. Brown of Elmore City, Okla., are the parents of the bride. Parents of the bridegroom are Mr. and Mrs. W. C. White of Lamesa.

John A. Kee Rebekahs Gain Two New Members

Two candidates for membership were accepted Tuesday evening by the John A. Kee Rebekah Lodge, Mrs. G. W. Robertson and Mrs. Leonard L. Robertson, along with several others, will receive the Rebekah degree in candlelight services to be held May 13 at Carpenters Hall.

Next Tuesday evening Mrs. H. F. Jarrett, lodge deputy, will conduct a school of instruction. In keeping with the theme of the Rebekahs, president, "keys of knowledge," the group will have a question and answer period.

Mrs. Bryans Leads Mary Zinn Program

A program from The Methodist Woman magazine was led by Mrs. J. C. Bryans Tuesday afternoon at a meeting of the Mary Zinn Circle, First Methodist Church.

Delphian Officers Elected

LAMESA—Mrs. H. M. Stover was elected president of the 48 Delphian Club at the meeting Monday evening. Other officers are Mrs. William Spires, first vice president; Mrs. Homer Simpson, second vice president; Mrs. Robert Koger, recording secretary; Mrs. Richard Crawley, corresponding secretary; Mrs. Jim Neil, treasurer; Mrs. Tom Brannon, parliamentarian; and Mrs. Raymond Orson, reporter.

Plan Arizona Visit

Mr. and Mrs. J. D. Leonard, 1500 Pennsylvania, will leave Friday for Arizona, where they will visit their son, Lt. and Mrs. Robert Leonard at Williams Air Force Base.

Plan Dallas Trip

Dr. and Mrs. H. M. Jarratt are to leave Thursday for Dallas, where they will attend the state dental meeting.

Forsan Club Dinner

Members of the Forsan Study Club and their guests will gather at 7:30 p.m. Thursday at Coker's Restaurant for their annual May Day dinner.

Adameses Have Son

Mrs. and Mrs. Ray Adams, 1708 Scurry, are parents of a son, Andrew Lloyd, born Tuesday morning at Malone & Hogan Hospital.

Coffee Is Honor For Mrs. Nabors

Mrs. Gene Nabors was the honoree for a coffee given Tuesday morning in the home of Mrs. Odell Womack.

Westbrook Students Attend Senior Day

WESTBROOK — A group of high school seniors attended Senior Day at Hardin-Simmons University Saturday.

Junior-Senior Event Has Seasonal Theme

ACKERLY—The annual Junior-Senior banquet followed the theme of April Showers Saturday night at the Green Hut Cafe in Lamesa.

Mrs. Millikan Gives Review For Class

LAMESA—Mrs. Bob Millikan reviewed the book, "The Happy People," by Sam Jenkins at a reception held Tuesday evening in the parlor of the First Baptist Church.

Watch Band

A new waterproof watch band for nurse's and women's sports watches has been developed from non-corrosive stainless steel.

LOOKING
EM OVER

With Tommy Hart

Ex-Big Spring Billy Maxwell had an average score of 73 for each of his eight rounds in his first two Tournaments of Champions at Las Vegas, Nevada.
He fashioned a 26 in this year's play at the gambling center for an 18-hole average of 71.5 but still made \$1,040 less in the meet this year than he did in 1957.
His 'take' this time amounted to \$1,190, compared to \$2,230 for last year. A 74 he shot on the third round Saturday robbed him of the chance to finish higher in the money.
In 1957, his 288 enabled him to finish in a tie for second place, three strokes off Gene Littler's pace, Jimmy Demaret, Dow Finsterwald and Bill Casper were deadlocked with Maxwell in 1957.
This year, he and Demaret split the 13th place money.
The sky's the limit for HCJC's ace linkster, Bobby Blumh, once he makes his putter better. He'll match his game off the tee with anyone.

John Pipes, director of the U. S. Public Links sectional tournament here (June 16), says he now has raised enough money to send one player to the National Public Links meet.
All indications point to a fine meet here.
Jockey Bill Hartack, who was injured recently, says he has never weighed more than 111 pounds and actually loses weight during the two months of the year he doesn't ride.

Joe (Flash) Gordon, one of the best known members of the New York Yankees, is currently selling insurance in Sacramento, Calif. He managed the San Francisco Seals in the Pacific Coast League in 1957.
Plans are being made to increase the seating capacity of the Ole Miss football stadium (the state's largest) from 32,000 to 45,000.
Johnny Vaughn, who played his collegiate football at TCU in the '30's, has made Rebel fans football-conscious as they never have been before.

Dutch Meyer, the venerable TCU athletic director, has introduced a plan which would have each of the Southwest Conference schools hosting the others in a track and field meet sometime during the spring.
It doesn't stand too much chance of success, since schools like Texas, Texas A&M and SMU wouldn't want to be confined in such a way.

Incidentally, Texas Tech has already entered the 1959 A&M Relays. Evidently, Coach Delmer Brown was pleased with the reception he got here.
George (Tuck) Steinback, the former big league outfielder who lived here for several months after retiring from the game, recently underwent an appendectomy in Los Angeles.
He is now employed as director of special ticket sales and Knothole Club activities for the Los Angeles Dodgers.

TIGERS NO TROUBLE

Shantz Racks Up
Second Victory

By ED WILKS
The Associated Press
The way little Bobby Shantz figures it, he'd really have it made if he played only eight-inning games in the American League and all the clubs were like the Detroit Tigers.
The stubby southpaw extended

his hex over the Tigers with a six-hit, 5-1 New York Yankee victory yesterday—his 11th straight win his second success in two 1958 starts and again he had a shutout until the ninth.
While padding Shantz' lifetime record against Detroit to 13-4, the decision also pushed the Yankees into a 1 1/2 game lead. The other three AL games were rained out.
Shantz, 32, came to the Yankees from Kansas City in February, 1957. He was 11-5 last season, led the league with a 2.45 earned run average and was voted the AL's comeback player of the year in the AP poll after long-time trouble from a back ailment.
Shantz walked only one and struck out seven yesterday, three times fanning catcher Jim Hegan, late of Cleveland. Only Gus Zernial and Mill Boltling gave Shantz any trouble yesterday, each getting two hits.
Shantz, who needed ninth-inning relief help for a 4-3 victory over Baltimore in his other decision, held the Tigers to four hits, two of 'em infield singles, for eight innings with his change up and sinker which breaks away from right-handed hitters. The Tigers had nine right-handers in the batting order.
The Yankees counted nine of their 13 hits against right-hander Paul Foytack, two of them home runs by Bill Skowron, his first of the year. The two belts, the first Skowron has pulled into the left field seats at Yankee Stadium in two years, drove in the first three Yank runs.
Foytack, who had complete games in his two victories this season, gave way in the fourth when Shantz doubled with two out and scored on Hank Bauer's single. Rookie right-hander Bob Shaw then kept the Yankees hitless 'til the eighth—when Yogi Berra rapped a change up into the right field stands for his second homer of the year.

Odessa Upset
By Midland

MIDLAND (SC)—The Midland Bulldogs remained in a tie for first place in District 2-AA football by shading the Odessa Bronchos, 8-1, here Tuesday afternoon.
Ed Bobbitt hurled the victory, yielding only five hits to the favored Bronchos.
The loser was Tommy Morris, whose offerings were combed for seven safeties. Morris lasted less than four innings. The loss practically eliminated Odessa from the title running. In a pre-season poll, the Bronchos were favored to cop the bunting.
Midland now has a 4-1, won-lost record. Odessa is 2-3.

East Ward Wins

East Ward shaded Kate Morrison, 1-0, in an Elementary School softball league B game played Tuesday. Randy Cahoon pitched the win. His slants were caught by Joe Aufus.

Cosden Upset By Hodges
Hobby House in Circuit

The ladies' classic bowling league at Clover Bowl Tuesday night. Cosden saw its lead shrivel to 2 1/2 games when it lost a 3-0 decision to fourth-place Hodges Hobby House.
In other matches, Anthony's retained its hold on second place by swamping Neel's Transfer, 3-0; the same margin by which third place Pinkie's racked up the Texaco Stars. Good Housekeeping blanked Riteway Motors, 3-0, in the other match.
Pinkie's and Hodges Hobby House divided team scoring laurels, with 799-2226 and 796-2316, respectively.
Angie Merrill of Pinkie's registered the top individual score, with 210-529; followed by Dot Hood of Cosden, who had 208-503.
Splits were converted by: Vera Dozier, Anthony's, 3-7 and

TIM TAM AND SILKY
ARE CO-FAVORITES

By ORLO ROBERTSON
LOUISVILLE, Ky. (AP)—The steadily improving Tim Tam and the sensational stretch running Silky Sullivan were quoted as co-favorites at 5-2 today as the second richest Kentucky Derby in history loomed with 19 finely tuned 3-year-olds listed as probable starters.
As of now, the largest field since Count Turf turned back 19 rivals in 1951 is in prospect.
Based on a field of 19, the 84th running of America's most glamorous turf classic will gross \$167,500, a figure exceeded only by the \$167,550 of 1956, when Needles took home the major share of the purse.
The track condition will have a large say on how many parade to the post for the 4:30 p.m. start at Churchill Downs.
After days of rain, the weatherman today forecast somewhat cooler temperatures and a drying wind. With no more rain the track for the 1 1/4 mile race could be fast by Saturday.
A crowd of 100,000 is expected. Three horses commanded major attention today as the vanguard of the festive-minded crowd moved into this Ohio River city.
They are Tim Tam, a royally bred son of Tom Fool from the fabulous Calumet Farm of Mrs. Gene Markey; Silky Sullivan, the flaming California chestnut who has caught the fancy of the public as few horses have since Man O'War, and Jewel's Reward.

champion money winning 2-year-old 1957 who heads the three-horse entry from Mrs. Elizabeth N. Graham's Maine Chance Farm.
Silky Sullivan is owned by Tom Ross and Phil Klipstein, newcomers to America's premier horse race.
Tim Tam, winner of only \$275 last year but victorious in the \$100,000 Flamingo and Florida Derby this year, won the trial stakes yesterday under 23-year-old Ismael Valenzuela.
The Texas-born Mexican was called on to ride the Calumet ace after Bill Hartack broke a leg last Saturday.
Ebony Pearl, considered third best of Maine Chance's three-horse entry, was second by a neck and C. V. Whitney's Flamingo was third, another 1 1/4 lengths back as Tim Tam negotiated the muddy strip in 1:39.3-5.

Abilene Eagles
Shade Bovines

The Abilene Eagles racked up the Big Spring Steers 7-3, here in the second when he delivered polar bears and penguins Tuesday afternoon and went winging on toward the District 2-AAAA championship.
The War Birds, who haven't been beaten by the Steers since World War II, got their runs in clusters, scoring three in the fifth and three more in the seventh.
The seventh inning outburst came after the Longhorns had dispatched two runs home, and he sixth and made serious gestures of being ahead.
The door was opened for the visitors in the fifth when the Steers fouled up a double play ball and catcher Sal Sarmiento failed to tag an incoming runner from third base, apparently thinking that the forced play situation was on.
Pat Armstrong scored the first Abilene run in the second when he walked advanced on a sacrifice and finally sprinted to the plate on a passed ball.
The Longhorns tied it in the fourth on a single by Wayne Fields and Jackie Thomas' triple.
Randy Hurst, Roger Mac Evans and Alan Peake counted for the Eagles in the fifth. The big blow of the inning was a two-run double off the bat of Jerry Dehlinger.
The door was opened for the visitors in the fifth when the Steers fouled up a double play ball and catcher Sal Sarmiento failed to tag an incoming runner from third base, apparently thinking that the forced play situation was on.

Abilene Eagles
Shade Bovines

George Peacock and pinch-hitter Billy Roger's single in short left field gave the Steers their other two tallies in the sixth.
Abilene iced the verdict in the seventh when Peake singled and stole second. Dehlinger walked, Armstrong hit a booming triple and then sprinted to the dish on a popout, during which home plate was left uncovered.
Lefty Chubby Moser toiled on the mound for Big Spring and accepted his third loss, against five wins. With a break or two, he quite probably would have come home the winner.
Evans and George Nicholas divided time on the mound for Abilene. Evans racked up his seventh mound success of the year.
Big Spring out-hit the Eagles, 7-6, though no Steer managed more than one blow. Bobby McAdams clubbed a first inning triple for the Steers.
Dehlinger led Abilene with a triple and a double. Armstrong collected a single to go along with his three-baser.
The defeat led Big Spring with a 2-3 conference record and 10-7 on the season. Abilene now has a record of five conference assignments.

Shows How

One-time home run slugger Jimmy Fox, shows young Minneapoli players how one of baseball's greys used to do it. Left penniless this winter by a siege of hard luck, Fox is now a coach for the club.
Chicago (AP)—Lee Walls has hit seven homers so far this season—one more than his entire 1957 production.
And if you don't think he's proud of them, watch him fume if he is reminded two were of the Chinese variety over the Great Wall in Los Angeles Coliseum.
The 25-year-old Chicago Cub outfielder yesterday slammed two real ones off Warren Spahn of the Milwaukee Braves yesterday.
"Everyone is talking about that screen (in the Coliseum) and I'm getting sick of hearing it," he said. "They are homers in the box score and that's where they count. Every other player in the league will have a chance to do the same thing out there. They don't talk about singles that plop off the screen. But they think it's a big joke when somebody homers over it."
With this off his chest, Walls admitted he always has been a pretty good hitter, but last year he got a bad start.
"In the first place, early in the season my hand was stepped on and about 30 stitches were taken in my fingers. It was just a bad year for me."
Walls came to the Cubs from Pittsburgh on May 1 last year with Dale Long in exchange for Dee Foust and Gene Baker.
His 1957 record was .277 at the plate and six homers. With the Pirates in 1956, his first season in the majors, he hit .274 and 11 home runs.

Walls Crashes
7th Home Run

Sun., May 25—Dodgers vs VFW.
Mon., May 26—Gold Sox vs Yankees.
Tue., May 27—Gold Sox vs Yankees.
Wed., May 28—Dodgers vs Yankees.
Thu., May 29—Owls vs Yankees.
Fri., May 30—VFW vs Dodgers.
Sat., June 1—Yankees vs Gold Sox.

Pumpers Advance
To First Place

The Pump Doctors plowed into first place in the Cosden Bowling league standings over the weekend, winning over the Welders, 3-0.
Don Greenwood led the winning group with a 195-509, and Don Hale had a 191-504 for the losers.
The Chemical Department operated the way for the Doctors' progress by knocking the Operators out of that coveted position, 2-1. J. D. Allison rolled a 173-485 for Chemical, and Phillip Gressett's 163 and Wes Shouse's 426 were mainstay performances for the losers.
Sales beat Maintenance, 3-0, with Red Kinman paving the way with a solid 172-494. For Maintenance, Floyd Young was a 165-456.
In a final practice round, the Engineers rapped the Painters, 3-0. Jack Munnell had a 198-545 for the victors club, and Jerry Cockrell's 457 paced the Swabs.
Standings:
Pump Doctors 32 13
Welders 23 22
Chestate 22 23
Engineers 19 26
Painters 16 29

Morrow Won't Run
For Two Weeks

ABILENE (AP)—Spring Star Bobby Morrow won't be competing in track for another two weeks, Coach Oliver Jackson of Abilene Christian College said today.
Morrow suffered a groin injury in practice last week, couldn't run in the Penn Relays and will be out of a 5-college meet at Denton tomorrow night.

Wee Willie Pep
Still Winning

BOSTON (AP)—Wee Willie Pep, former king of the featherweights who refuses to quit to age, today planned a brief rest before taking on the next youthful boxer who thinks he is ready for the old master.
"I just want a couple of weeks off and then I'll be ready for any other fella who thinks he can knock off old Willie," the 35-year-old battler from Hartford, Conn., said.
Pep once again has too much to let youth have his sting as he earned a 10-round unanimous decision over previously unbeaten Jimmy Kelley of Lowell before a 4,191 Tuesday night at Mechanics Building.
Willie displayed an assortment of punches in holding off bull-like charges to end the 19-year-old Kelley's 15-bout undefeated streak.
Kelley, bleeding from a cut above his left eye and the nose until the final bell, but couldn't catch the elusive Pep.
The victory was No. 213 for Pep who turned pro back in 1940 when Kelley was a child in his native Greece.

PARLEY SET
THURSDAY

Teen-Age baseball league enthusiasts will meet at the new Police Building at 7:30 o'clock Thursday evening to discuss plans for the 1958 season, which is right at hand.
All parties interested in the circuit are urged to be on hand, since some important problems remain to be worked out.

Tigers Turn Back
San Angelo, 9-8

SAN ANGELO (SC)—The Snyder Tigers edged the San Angelo Bobcats, 9-8, in a practice baseball game here Tuesday afternoon.
San Angelo's won-lost record is now 7-8. Snyder has a 9-10 mark.
Snyder, 500 301 0-8 10 5
San Angelo 224 000 0-8 12 5
Lee, Weaver, Gladson and John; Johnson, Salvato and Marsala.

Anderson, Shirey Return
As Hawks Prep For State

The Howard County Junior College Jayhawks will be strengthened for their appearance in the Texas Junior College Conference track and field meet in Paris next week by the return of Harold Anderson and high jumper-pole vaulter Delbert Shirey.
The two have missed the last two meets, due to injuries. Anderson is still recovering from a knee while Shirey must take care with an injured knee cartilage.
HCJC's chief competition in the state meet will probably come from Cisco, a powerhouse all season.
Pee-wee Garrett, a sprinter from Sunda, Texas, returned to action for the Hawks last week, with good results. Garrett had been on the shelf with a groin injury but he came back last week in the West Zone meet and nipped HC's Ray Clay in the 100, then captured second in the 220.
Cisco's bid for the state crown, no doubt, will be led by Bruce Lovard, who recently sped the

Bowdry To Seek
22nd Victory

CHICAGO (AP)—A young kayo specialist, light heavyweight Jesse Bowdry, 20, St. Louis, tries for his 22nd victory in 24 pro starts against seasoned Clarence Hinnant, Washington, D.C., in a Chicago stadium 10-round-rounder tonight.
Bowdry, making his TV debut, has scored 18 knockouts since he turned pro 2 1/2 years ago.
Both his defeats were by Sonny Ray, the last by a knockout in July. Since then, Bowdry scored four consecutive knockout victories.
Hinnant, 25, eighth-ranked by the National Boxing Assn., packs a knockout punch too. He has scored 20 kayoes in 25 victories against 11 defeats and a draw.
ABC will telecast at 8 p.m., CST.

Purkey, Bell
Sink Cards

By ED WILKS
The Associated Press
Cincinnati hoped to perk up its pitching when it got Bob Purkey from Pittsburgh last winter, but at the moment Purkey's the only one perkin' on the Redleg staff.
The Redleg corps has accomplished only two complete games and one shutout in 10 decisions so far and Purkey has authored them all, while gaining three of Cincinnati's five victories.
The 28-year-old right-hander, who won more than three in one major league season for the first time last year when he was 11-14 for the last-place Pirates, stayed unbeaten last night as Gus Bell's three-run eighth-inning homer beat St. Louis 5-2.
Purkey gave up 10 hits, but walked none, and struck out three while reducing his earned run average to 1.04 for 26 innings.

Bob Friend No
Friend To LA

LOS ANGELES (AP)—To the modest list of pitchers not petted by the off-killer dimensions of Memorial Coliseum, add the name of Robert Friend of the Pittsburgh Pirates.
"I think Ebbefts Field was a lot tougher place to pitch," the 27-year-old exponent of control and curveballs said Tuesday night after nearly suffocating the Dodgers with an elegant four-hitter.
It was the finest pitching performance yet seen in the brief baseball history of the Coliseum, and Friend's colleagues mounted an 1-hit drive to help him dispose of the Dodgers 7-1.
Bell's first 1958 home run broke up a "be game against winless" Wilmer (Vinegar Bend) Mizell. Johnny Temple swapped solo homers with Cardinal rookie Gene Green. Stan Musial was 3-for-4 for the Cards and now leads the league at 553.
Gino Cimoli's third homer was the only Dodger run off Friend, who holds both Pirate complete games this season. Carl Erskine lost his first.
Spahn helped himself with three hits, two of 'em doubles, and drove in three runs for the Braves while Ed Mathews made his No. 6 homer good for two runs.

FIGHT RESULTS

BOSTON (AP)—Vince Martinez plans at least one tune-up bout before his scheduled 15-round showdown with Virgil Alkins June 6 in St. Louis for the welterweight title vacated by Carmen Basilio.
Martinez, idle since his triumph over Gil Turner, in the elimination series many weeks ago, was signed by matchmaker Sam Silverman Tuesday for a 10-round bout with Armand Savoie of Montreal next Tuesday at Mechanics Building.
