Real Backers Of The YMCA

For the past three years the 1953 Hyperion Club has had the YMCA as its special project. In addition to being among the federated clubs which this week announced a \$2,500 gift, the 1953 Hyperion Club gave \$382 it had accumulated to the YMCA building fund. But the 24 members represented at right by Mrs. Jackson Friedlander, president, and left, by Mrs. R. H. Weaver, vice president, went a step further. They signed up with D. M. McKinney, office manager, for another \$300 pledge. (Keith McMillin Photo.)

Calendar Differential Ups June Allowable

AUSTIN — The Railroad Commission today set the June statewide allowable at 2,479,174 barrels a day, an increase of 42,603 daily. The commission continued the eight-day production pattern set for this month. The increase results from a calendar day differential. Under the conservation policy, this means that wells will

be shut down in June for 22 days instead of 23 days as in May. The independents generally wanted the oil regulatory commission to hold the line on the low production pattern. Although only 4 of 13 major crude purchasing companies recommended this pattern, they generally said that they could get along satisfactorily on 8 days.

Major purchasers told the commission they were making heavy withdrawals from their excess stocks and in addition were making spot purchases outside their own leases. Bruce Street of Graham, representing the West Central Texas Oil and Gas Assn., said the problem of unconnected wells had not been materially affected in recent months by the low production schedule. He said less than one per cent fewer wells were having to truck their oil than two years ago in his area.

Belly-Landing B52 Takes Off Again

WESTOVER AFB, Mass. — The first B 51 atomic bomber ever successfully landed on its belly was pronounced ready to fly again today two months after its amazing escape from destruction. But the crew planning to take the B52 off on a flight to Tinker AFB, Oklahoma City, later today was running no chance this time with the faulty landing gear.

The wheels that failed to extend last March 11—giving Maj. C. M. Maloney, 39, Jacksonville, Ill., and his 6-man crew an uncomfortable choice between bailing out or crash-landing the 8-million dollar airplane—will remain locked in the down position for the entire flight. At the Air Materiel Command depot at Tinker, the 2-engine, global range bomber will be put through complete inspection and overhaul.

The Boeing-built 200-ton bomber, based at Loring AFB, Maine, was 8 miles above Montreal on a simulated bombing run March 11 when multiple electrical system trouble developed. It was impossible to lower the landing gear. But Maj. Ernest Norman, Manhattan Beach, Calif., and Capt. James R. Burnett, St. Paul, Minn., navigators, plotted an accurate course to the 12,000-foot long runway at 8th Air Force Headquarters here. During the long, grinding slide, the magnesium surface of the airplane's belly threw back a brilliant sheet of flame. Some equipment on the bomber floor caught fire, but fire trucks quickly put out the flames. None of the men aboard was injured. A recovery team from the 99th Field Maintenance Squadron here, borrowing a technique developed by the Royal Air Force, raised the scrawled plane out of the mud by inserting huge flotation bags under the swept-back wings and pumping them full of air. As the bags filled, they gently lifted the jet bomber. Huge jacks were inserted at nine key lifting points.

Soviet Union Launches Its Third And Largest Sputnik

MOSCOW — The Soviet Union today launched its third and largest Sputnik, an 11.9-foot cone weighing nearly a ton and a half. A special announcement by Tass, official Soviet news agency, said the new earth satellite, fired in connection with the Soviet International Geophysical Year program, was jammed with apparatus and instruments for probing the secrets of outer space.

The announcement gave no indication that the latest satellite carried a living passenger, a companion to the dog Laika which went up and died with Sputnik II. Instead it listed the numerous items of equipment with which it said the new Sputnik would report on the upper layers of the earth's atmosphere as "a contribution of Soviet scientists to world science." The announcement gave no in-

dication of the launching power of the new Sputnik nor the location of its launching site. It reported the Sputnik was orbiting normally at the rate of one circuit of the earth every 106 minutes and reaching a maximum altitude of 1,166 miles. The weight was announced as 2,919.53 pounds or more than double the 1,120-pound weight the Russians reported for Sputnik II. The new Sputnik circles three American satellites circling in outer space, the largest of them weighing 30.8 pounds. Russia's two earlier satellites have reentered the earth's lower atmosphere and disintegrated. The announcement said the satellite entered its orbit at an angle of 65 degrees to the equatorial plane, indicating it will cover almost the entire inhabited part of the earth from close to the Arctic

Circle to just above the Antarctic Circle. At Cambridge, Mass., it was estimated that Sputnik III newest and largest satellite should have a life of about six months. The associate director of the Smithsonian Astrophysical Observatory, Dr. Allen J. Hynke, added that the satellite may be visible in many parts of the United States in the evening twilight tonight. The announcement said the rocket which lifted the Sputnik aloft broke off and itself went into orbit close behind. No indication was given of the size. The satellite was described as 5 feet 7 inches wide at its base and 11 feet 9 inches high. That would be large enough to be seen from earth with the naked eye under proper lighting conditions. The three U.S. satellites circle the globe in a narrower band that extends about half as far on either

Matlock Loses Produce Planned For New Store

A truck load of produce was seriously damaged and the truck in which it was being transported was wrecked at 4 a.m. today when the vehicle missed a culvert and plowed into a borrow ditch on U. S. 87 seven miles south of Big Spring. Highway patrol officers investigated the wreck. The patrol reported that Troy Alexander Matlock, 501 E. 2nd, was en route to Big Spring with the produce. He planned to open a fruit and vegetable stand at 2nd and Golland and the produce was to be his initial stock. The patrol said that Matlock apparently went to sleep and lost control of the 1951 Chevrolet truck he was driving. He was not injured. (See OIL, Page 6-A, Col. 5)

Airport Funds Due Next Week

R. H. Weaver, county judge, said Thursday he has been advised by the Civil Aeronautics Authority that the agency will make its money grant to Howard County for its share in the Howard County airport next week. Weaver said that the CAA explained the grant will be made with certain stipulations dealing with the county acquiring final title to the land involved. He regarded this as satisfactory, he said, in that it is what the county has been asking the CAA to do. The CAA is providing approximately \$300,000 toward the building of the airport. The county's share is \$500,000. Contract was awarded some weeks ago to a group of Ahilene contractors to build the airport. The county is now in the process of clearing a right-of-way and involved in certain mineral leases. It is felt that this can be clarified in a relatively short time and, with the CAA funds at hand, there should be no reason for any great delay before the contractor can begin his work.

70 Pct. Of YMCA Objective Reported

The most successful report session to date Wednesday gave the YMCA building fund campaign its greatest encouragement so far. Workers in two sections of the general division brought in pledges and gifts of \$21,271, while big gifts added \$4,445, making the day's total \$25,716. This boosted the cumulative total to \$219,071.50, or 70 per cent of the \$309,000 goal. Visibly encouraged by this response, campaign leaders urged their volunteer solicitors on to greater effort and declared "open season."

R. W. Whipkey, teams captain, distributed blank prospect cards to all workers so that they could make contact with any who have not yet had a part. Until now solicitation was restricted to those for whom the worker carried a card. The final scheduled report session before the dinner which will conclude the campaign is set for Friday at 5:15 p.m. in the Settles ballroom. K. H. McGibbon and Clyde McMahon sectional leaders in the general division, and Dan Krausse, associate big gifts chairman, urged their colleagues to make the Friday session the best of the campaign. Wednesday's report produced an exceptionally good turnout of team members, team captains and divisional leaders—some 150 or more. General division results (with cumulative totals in parenthesis) following the Wednesday report showed: Section A (K. H. McGibbon)—Division 1-A (Robert Stripling) \$2,472 (\$3,953); 2-A (Arnold Marshall) \$1,362 (\$7,485); 3-A (George Oldham) \$2,759 (\$15,802.50); 4-A (Truman Jones) \$1,120 (\$2,200); 5-A (Tom Guin) \$2,839 (\$4,122); total \$10,532 (\$23,562.50). Section B (Clyde McMahon)—Division 1-B (Jerry Mancini) \$1,225 (\$4,171); 2-B (J. B. Apple) \$863 (\$2,008); 3-B (George McAllister) \$3,213 (\$8,556); 4-B (Bob McEwen) \$1,728 (\$3,414.50); 5-B (Grover Cunningham Jr.) \$3,690.50 (\$5,928.50); total \$10,719.50 (\$24,078). Big Gifts (Dan Krausse) reported \$4,445 (\$171,431). Altogether the figure was \$25,716 (\$219,071.50).

Nixon Receives Warm Washington Welcome

Thousands Line Capital Streets

Takes Over

Andre Mutter leaves the French assembly emergency session in Paris after being named new minister for Algerian affairs with full political power over the North African territory.

Thousands Line Capital Streets

WASHINGTON — President Eisenhower warmly welcomed Vice President Nixon home from South America today and said Communist-inspired riots against him there would simply strengthen inter-American friendship. And from thousands of citizens and well-wishers there was a roaring welcome for the vice president and his wife.

Nixons in Peru and Venezuela will, in the end, strengthen inter-American ties, Eisenhower said it would have this result because the American nations in their common association resent any Communist leadership against their unity and interest. MINORITY BLAMED Nixon, in response to Eisenhower, attributed the mob attacks to a minority who did not understand the purposes of the United States. He said the great majority of the people in all walks of life are friendly to the United States today. Nixon offered that as the principal observation of his eight-nation tour. Eisenhower paid high personal tribute to Nixon, saying the vice president under trying conditions had conducted himself efficiently, effectively and with great dignity. After Nixon wound up his response, he and Eisenhower climbed into an open top automobile and rode together into the city. The vice president and his wife came from Puerto Rico this morning, arriving at 11:57 a.m. GREETED BY CHILDREN Just about the first to greet them at the airport were their two children. Patricia was in her beaming father's arms the moment he stepped from the plane ramp. Julie leaped into a warm embrace from Mrs. Nixon. During the 20-minute drive from the airport to the White House, the vice president and his wife were greeted by cheers and a steady round of applause virtually all the way. Nixon spent just about the entire 20 minutes waving to the crowds. The crowd of several thousand in front of the White House cheered Nixon as he drove in the northwest gate. Some 300 White House staff members and their families were lined up along the driveway inside the White House gates and they, too, joined in the accolade. Secretary of State Dulles and the President and Nixon for lunch. Nixon's aircraft was flying a small American flag and the vice president's flag beside the pilot's and co-pilot's windows. As it rolled up beside the reception area the door of the plane was opened and the notables on hand, headed by Eisenhower, moved forward to the foot of the stairway to greet the returning vice president. Pat Nixon, the vice president's wife, was first through the door with Nixon a step behind. The crowd yelled and waved. HERO'S WELCOME It was the kind of greeting a returning hero would receive. Eisenhower had in effect given something of that touch to Nixon's arrival by praising in advance the calmness, fortitude and courage he said the vice president had shown in adversity. Eisenhower was the first to greet the vice president. The President stood in the midst of the crush of people, Eisenhower's complete disregard of the usual security processes. The receiving line turned into something approaching a mob scene. Eisenhower walked just ahead of Nixon down the confused receiving line, grinning and chatting. The great show of warmth contrasted with the grim scenes Nixon had so recently left. The movement to give him a popular expression at a news conference Wednesday—had obtained for Nixon about the kind of resigning or president might get on coming here.

Airport Funds Due Next Week

R. H. Weaver, county judge, said Thursday he has been advised by the Civil Aeronautics Authority that the agency will make its money grant to Howard County for its share in the Howard County airport next week. Weaver said that the CAA explained the grant will be made with certain stipulations dealing with the county acquiring final title to the land involved. He regarded this as satisfactory, he said, in that it is what the county has been asking the CAA to do. The CAA is providing approximately \$300,000 toward the building of the airport. The county's share is \$500,000. Contract was awarded some weeks ago to a group of Ahilene contractors to build the airport. The county is now in the process of clearing a right-of-way and involved in certain mineral leases. It is felt that this can be clarified in a relatively short time and, with the CAA funds at hand, there should be no reason for any great delay before the contractor can begin his work.

Pflimlin Wins New Support In Struggle Against Algerian Coup

PARIS — Premier Pierre Pflimlin's new government won Socialist aid today in the struggle against the spreading French military coup in Algeria. Former Premier Guy Mollet, as leader of the Socialist party, agreed to become deputy premier. Mollet's decision is expected to be followed by a gesture to the French colonialists and military in Algeria, who underscored their defiance of Paris by organizing additional "committees of public safety." This gesture would be the reappointment of Robert Lacoste as minister for Algeria. Although a Socialist, he is acceptable to Frenchmen in Algeria demanding no compromise in the battle to stamp out the 3½-year-old Algerian nationalist rebellion. More than 15,000 reinforcements were brought in to help Paris police keep order. Armored units ringed the capital were on constant alert. Paris was quiet but jittery after a second night of battles between rioters, from both the extreme right and the Communist left, and security troops. RIOTERS QUIET Rioters in Algiers who touched off the crisis Tuesday stayed quiet under orders of the head of the dissident junta, paratroop Brig Gen. Jacques Massu. Pflimlin for the moment depended on Maj. Gen. Raoul Salan, the French commander in chief in Algeria, to preserve the facade of government control. He designated Salan to assume provisional civil and military authority in the North African territory and announced later he had received Salan's first report. The implication was that it was satisfactory. Heavily censored dispatches from Algeria indicated local mili-

Aide Unimpressed By New Sputnik

PROVIDENCE, R. I. — Secretary of the Army Wilber M. Brucker professed today to see "nothing startling" in the announced launching by the Russians of Sputnik III. "We've been expecting it for some time," Brucker said in a news conference here. "We assume that they've tried several times in recent months and failed. Of course, any satellite launching is an achievement, and we should give them credit for it." Brucker is on a cross-country tour in connection with Armed Forces Week.

Unknown Soldier Selection Resumes

HONOLULU — A decorated infantryman of the Korean War singles out for national tribute today a comrade-in-arms who fell unknown in that far off fighting. In a simple ceremony, M-Sgt. Ned Lyle will place a wreath of Hawaiian flowers on the casket of one of four unidentified dead of the Korean conflict. The serviceman Lyle selects will be flown to Arlington National Cemetery for burial beside the Unknown Soldier of two world wars. The four unknowns, representing the four branches of the U. S. armed services, were chosen previously from among 853 unidentified dead of the Korean War interred here. These remains were assembled from various cemeteries in Korea. The final group was brought here in 1956. Site of the selection ceremony is the National Memorial Cemetery of the Pacific, a grass-covered expanse laid out on the floor of an ancient volcano crater. The site is known to Hawaiians as Puuwaia or "Hill of Sacrifice." Some 14,000 military dead are buried there. In a similar ceremony tomor-

Lake Receives Surprise Rise

A surprise, delayed inflow from Bull Creek edged the Lake Thomas level to a new record Thursday. At noon, the elevation was 2,257.02—98 of a foot below service spillway level. When the flow on the Colorado River ceased Tuesday, the elevation was 2,256.76. But water from the upper reaches of Bull Creek came down and added another 2,000 feet of water. Flow from Bull Creek is diverted into Lake Thomas by means of a big diversion channel. The lake now contains 196,000 acre feet of water, or more than 65 billion gallons. It is 96 per cent of volume capacity.

VACATION-PAC Is a special free service of The Herald which means the newspaper will be saved for you while you're away on vacation. Just call The Herald, give the dates you'll be gone, and your papers will be saved for you, to be delivered in a package—a handy plastic bag you can use. Many, many people are using VACATION-PAC. GOLDEN GATE CHAPEL CHOIR VISITS BIG SPRING AGAIN TODAY
Program of sacred music set for 8 p.m. at First Baptist Church

Golden Gate Choir Sings Here Tonight

The Golden Gate Theological Seminary-Chapel Choir will be presented in concert for the sixth consecutive year at 8 p.m. today in the First Baptist auditorium. However, all the Baptist churches of the Big Spring Assn. are joining in the sponsorship of the concert. There is no charge and the public is urged to attend. Accompanist for the choir again is Mrs. Orline Hughes Suffer, a former Big Spring resident and whose father, S. B. Hughes, was once pastor of the East Fourth Baptist Church. The choir is under the direction of Dr. Carlyle Bennett, who has fashioned several outstanding choirs at the seminary at the entrance of the Golden Gate in San Francisco. Only four more stops remain on the itinerary of the choir which is now en route home after a tour that included presentations in California, Arizona, New Mexico, Texas, Louisiana, Mississippi, Indiana, Illinois, Kentucky, Tennessee and Arkansas. The 16 voices which make up

the chapel choir are drawn from 11 states, as well as Vancouver, B. C., and Honolulu, Hawaii. Although the program will be predominantly that of sacred music, there will be a change of pace from the classical to treasured hymns and spirituals. Doreen Branton will be featured in a violin selection, and Mrs. Suffer will play two prelude numbers and the offertory. There are selections also for the men's quartet, the men's chorus, and the women's ensemble. Members of the choir will be guests of the First Baptist Church for dinner and will be guests in homes of the members.

Children's Rally Slated Friday At West Side Baptist

A rally for children and workers of all Big Spring Good News Clubs will be held on Friday afternoon at 4 o'clock at the West Side Baptist Church. A special program is being planned, including several "surprise" features. The boys and girls will participate, through the singing of their Good News Club songs and choruses, and recitation of Bible memory work which they have learned during the year. The rally will be under the direction of Leona Hooper and Louise Paulger, directors of the Child Evangelism Fellowship, which sponsors the weekly Good News Clubs. They will be assisted by Mrs. Bill Waldrop, Mrs. Kenneth Ewins, Mrs. Ina Monteith, and Jackie Hipp. Parents and friends of the members are invited to attend, and an award will be given to the boy and girl bringing the most guests.

Scapgoatism

PROVIDENCE, R.I. — A team of Brown University psychologists reports that reading smutty books

does not make the reader more likely to commit sex crimes. Drs. Nissim Levy, Lewis R. Lipsitt and Judy F. Rosenblith said blaming lewd literature is a form of "scapgoatism".

Ralph Marterie Band Will Play At Webb Dance

Ralph Marterie, a virtual unknown four years ago in the world of popular music, today is leader of one of the most popular bands in the country. He brings his group to Webb AFB for a tea dance Sunday afternoon at the Officers Club from 5 p.m. to 9 p.m. Down Beat magazine recently conducted a poll on college campuses to determine the favorite band—and Marterie got the nod. His band has one of the most impressive strings of hit records of any unit going today. Marterie began his career in 1949 when he was leader of an orchestra on the ABC network. About that time Mercury Records wanted a fresh band to star on long-playing recordings, and a company official heard some records Marterie's group had cut for fun with the studio crew. The band got the nod and promptly became a hit. Once on the road its popularity rocketed and in 1952-53 it "broke wide open." It's been going "wide open" ever since.

U.S. POLICIES

Nixon Faces Big Task After Tour

SAN JUAN, Puerto Rico (AP) — Vice President Nixon faces an enormous task at the end of his riot-marred, 18-day tour of South America. He must find common denominators for U.S. policies toward such divergent areas as ultra-democratic Uruguay and dictatorially ruled Paraguay; for oil-rich Venezuela and tin-poor Bolivia; for the root problems of Latin America from which Communist-agitated demonstrations and violence against him stemmed. Nixon's conclusions and recommendations probably will be made in a formal report to President Eisenhower and in later speeches. But already he has indicated some of the guide lines. Here are some of the major points Nixon has touched on in speeches and news conferences during his visits to Uruguay, Argentina, Paraguay, Bolivia, Peru, Ecuador, Colombia and Venezuela: 1. There is a serious misunderstanding among some Latin-American groups — particularly university students and professors, union leaders, and newspaper and radio editors—of the real motives and aims of the United States in Latin America. Nixon may recommend that his government step up its program of exchange visits and its informational activities. He also may propose greater frankness in discussion of problems of concern to Latin-American nations. 2. The United States, contrary to Communist claims, favors industrial development in Latin

America and looks with favor on plans for establishment of a hemispheric common market. 3. The United States, which fought three major wars in defense of liberty in 35 years, rejoices when such nations as Argentina, Colombia and Venezuela throw off the yoke of dictatorial rule. But at the same time the United States still adheres to the 1933 agreement of Montevideo providing for nonintervention in the affairs of other nations. 4. Russia probably will drastically step up its present economic offensive in Latin America. The United States, in meeting the challenge, will concentrate on programs designed to keep open the historic channels of trade between North and South America. 5. Although the Communists undoubtedly agitated the violent attacks against him, Reds were only a small minority of those actually demonstrating. But they did constitute a well organized minority. Their actions against him have shown the Southern Hemisphere the brutal face of an opposition which would deny liberty of expression just as did the dictatorships of Juan Peron, Gustavo Rojas Pinilla and Marcos Perez Jimenez.

In order to oppose dictatorships—either of the right or left—the United States and its allies must take both defensive and aggressive, affirmative positions. "We must launch and wage unceasingly a war against poverty, misery and disease," the conditions of which dictatorships feed, Nixon declared. Nixon also has taken up the problems of individual countries. He told the Uruguayans, for example, that some progress is being made on studies aimed at reducing U.S. duties on wool, a major Uruguayan export. He also bluntly told ultra-nationalist Argentines that there is little chance of their getting a U.S. government loan for development plan for producers of lead, copper, zinc and tungsten may cushion the effect of low prices on their economies. To mineral-conscious Bolivians and Peruvians, he pointed out that the Eisenhower administration's proposals for a domestic subsidy plan for producers of lead, copper, zinc and tungsten may cushion the effect of low prices on their economies.

Blakley Still On Tour Of Central Texas

WACO (AP)—William Blakley continued his handsaking campaign for the Democratic nomination for U.S. senator through Central Texas today. He scheduled stops at Mart, a livestock auction at Groesbeck, a Rotary Club luncheon at Mexia, and was to visit Wortham, Corsicana, Rice, Ennis, Alma, Palmer and Ferris before returning to Dallas.

Blakley's campaign swing which began yesterday is taking him through territory which has strongly backed the political campaigns of U.S. Senator Ralph Yarborough, whom Blakley will oppose in the July 26 Democratic Primary. It covers Limestone, Ellis, Hill, Johnson, McLennan, Freestone and Navarro counties, and his campaign managers hope to gain some clues as to his potential strength in these areas. The Dallas financial, cattle and oilman generally avoided talking politics yesterday as he made the rounds of barber shops, drugstores and other business houses. He met voters with, "Hell, I'm Bill Blakley." Sometimes he forgot to tell them he is running for the Senate. "I knew you were," said elderly T. C. Lee on a street corner in Venus, Johnson County. "I can spot a candidate a mile away." "Do I look like a candidate?" replied Blakley. "That's a compliment; this is my first time." This is his first campaign for public office. He was appointed interim senator in 1957 by Gov. Allan Shivers to fill the unexpired term of Price Daniel who had been elected governor. Blakley did not seek to keep the office in the special election in which Yarborough was elected. In Cleburne he met Mrs. J. H. Mims, from whom he had rented a small house when he and his bride moved there 36 years ago. Some 1,200 persons attended a reception in his honor at Waco last night. Blakley made no speech.

In Line Of Duty

SPARTANBURG, S.C. (AP)—Mrs. Betty Baker made it by car to with just a few minutes to spare before giving birth to a five-pound, eight-ounce son. Her chauffeur, now a father for the second time, was Buck Baker — national stock car racing champion.

2 Passengers Die In Odd Bus Mishap

DENISON (AP)—A Jefferson Lines bus skidded off a slick highway early today, hit a tree and a power pole and split open. A young mother and her child were electrocuted and four passengers were injured. Irvine Echota of Kansas City, Mo., said the bus driver apparently swerved to miss an auto and plunged off the road. "I saw the car and the driver started wrestling the wheel," said Echota. "The bus started to skid and I thought 'Oh, oh, here we go.'" Bus Driver James Towse of Tulsa declined to make a statement except to say it was a "skidding accident." Mrs. Shirley Stith, about 21, of

Fort Worth, and her daughter, Melanie Jane, about 1 1/2, were killed. Echota said the baby fell out of a 6-foot gap in the side of the bus. When the mother jumped out to get her, he said, they were electrocuted. The passengers had to wait nearly an hour for the Texas Power and Light Co. to shut off power to a high tension line lying across the bus before they could get out. Four persons were treated at a hospital in this North Texas city. Their names and injuries were not immediately available. The bus, containing 18 passengers and the driver, was en route from Dallas to Minneapolis. The accident occurred at about 1:15 a.m.

101 Dogs, Cats Killed In Streets

Motorists continued to kill more dogs and cats here than the city exterminator. During April, 101 dogs and cats were picked up by the city that had been killed on streets. During the same time, 70 were destroyed in the city pound. Eight animals were redeemed or sold during the same time. The monthly report from the pound revealed that \$23.50 in pound fees were collected and \$43 in license fees were paid.

Firm

President Eisenhower speaks with firmness and emphasizes his remarks with a two-handed gesture as he answers a news conference question. The President said he believes economic troubles are partly responsible for anti-American demonstration in South America. He said violence against Vice President Nixon appears to reflect a pattern of Communist inspiration and exploitation.

Smashed Windows Of Nixon Car

This closeup shows the shattered windows of the car in which Vice President Richard Nixon rode through jeering Venezuelan mobs in Caracas. The vice president's car was badly dented and its windows broken by kicks and blows from sticks and lead pipes. Nixon was not injured in the anti-United States demonstration.

Court Will Decide Priority On Jobs

LONGVIEW (AP)—When an employe goes out on strike, refuses to come back to work when the company sets a deadline, is fired, and another worker is hired, whose job is it? Some 2,600 employes of Lone Star Steel Co. at Daingerfield, Tex., want a court's opinion. They went to court yesterday after an arbitration verdict said Lone Star Steel must rehire the strikers who walked out last Sept. 21. Workers who did not strike or who have been hired as replacements brought the suit in the name of Roy Bell. The suit seeks a court order forbidding any breach of employment contracts by the company and any violation of state law guaranteeing the right to work and to enter into contracts. The suit is against Lone Star Steel and does not name the United Steelworkers, the union which represented the discharged strikers. Fred Erisman, Longview lawyer, filed the suit. The arbitrator's decision directs that the company re-employ the strikers with full seniority rights, provided it has jobs for them. Lone Star has announced extensive layoffs since the autumn strike that brought some strife to the area. Bell claims the new workers or those who stayed on the job in face of the strike hold seniority over employes who went out on strike. The suit divides the plaintiffs into three groups—continuous employes, newly hired workers and those hired during the strike or after it ended Nov. 1. The petition estimates 600 men stayed at work during a series of incidents marked by gunfire and dynamitings, that some 1,000 were hired by Lone Star during the strike, and another 1,000 returned and took jobs without seniority, on a new employe basis. Arbitrator Peter Kelliher's ruling Monday which apparently restored all strikers to full seniority and requires Lone Star to hire them in preference to workers without seniority. Both company and union said the lengthy decision was complicated and that they were study-

'Motel Week' Observance To Begin Sunday

In recognition of the importance motels are assuming in our national way of life and in the economic strength they add, Motel Week is being observed nationwide this year from May 18 to 24. It is a salute to one of the fastest growing industries in the United States and is sponsored by the American Motor Hotel Assn.

In step with America's new interest in the casual approach to living, use of the nation's motels has never been greater. As more and more are built, their popularity continues to increase.

The average motel today is a fairly small roadside hostelry of about 20 rooms. It still specializes in selling a good night's sleep to tired travelers for a reasonable price.

More motels than ever before are providing extra services that were practically unknown at motels 10 years ago. A higher percentage of such lodging places have restaurants, swimming pools, service stations, and lounges. Telephones and TV in every room are featured throughout the country. Some large, deluxe motor hotels provide a wide range of services from banking to barber shops and are, in reality, complete, modern villages.

The drawing power of motels is that they're so attractive and easy to use. No need to be separated from your car. It's just outside the door. And no need when you arrive feeling disheveled to walk through a formal lobby. The trend today is to provide all necessary services at the one motel stop.

Motels in the U. S. number around 57,000 with more being built every day. As an indication of the size of this fastest growing new industry, the bill for heat, light and power in the nation's motels amounted to \$160,000,000 last year and for keeping the rooms clean, a tidy sum of \$35,600,000.

Petrillo To Quit As Union Leader

NEW YORK (AP)—James C. Petrillo announced today he will step out as president of the American Federation of Musicians next month after 18 years in the post. He said his physician had advised him to take things easy. Petrillo, who is 66, has been an officer of the AFM for 26 years. He is a vice president of the AFL-CIO.

He said he will have to ask that he not be renominated when the union holds its 61st annual convention in Philadelphia. Petrillo made known his feelings in a communication published in the organization's official publication, The International Musician.

Texas Pianist Due Back Home

MOSCOW (AP)—Van Cliburn, the Kilgore, Tex., pianist who won the Tchaikovsky International Piano Competition last month, was scheduled to leave for Copenhagen enroute to New York today. He received another thundering ovation last night after a concert at the Moscow Conservatory of Music which ended his Russian tour.

The Russian crowd kept demanding encores even after he thanked them with a brief speech in Russian. There was a roar of approval when he said he will return to the Soviet Union later in the year.

Rabbi Dies

LORCA, Spain (AP)—Rabbi Barnett R. Brickner, 66, of Cleveland, one of the leaders of the Zionist movement in the United States, died Wednesday of a cerebral hemorrhage. He was spiritual head of the Euclid Ave. Temple in Cleveland since 1925 and was president of the Central Conference of American Rabbis in 1955-56. He was born in New York City.

Texans Close Ears To Poll Tax Urging

AUSTIN (AP)—Texans closed their ears to repeated pleas they pay their poll taxes. The total estimated 1957 paid poll taxes or exemptions made by Comptroller Robert Calvert was 2,655,318—far under the record high of 2,410,188 in the last election year, 1956.

Poll taxes not only qualified citizens to vote, but gave them an open door to party precinct conventions where many basic political issues are decided. In this year's precinct meetings, there will be a struggle for control between rival factions of the Texas Democratic Party; the labor-liberal group and the conservative faction led by Gov. Daniel.

The labor-liberal faction is working under direction of the Democrats of Texas, who are at odds with the governor. The let-down in poll tax payments came after strong drives by all party factions and by many civic groups. After the deadline had passed Feb. 1, developments pointed to a heated contest for governor and for U.S. senator, in numerous legislative races, and in hundreds of local races.

A poll tax costs \$1.75. Of this, \$1.50 is levied by the state, with \$1 going to the available school fund, 50 cents to the general revenue fund. Counties are permitted to levy an additional 25 cents. Persons over 60 are exempt. In cities of more than 10,000 they must obtain certificates to vote. In other areas they may obtain a written certificate, or vote upon affidavit.

Bare Legs Battle Left Up To Girls

GRAND PAIRIE, Tex. (AP)—The battle of the bare legs went to the wearers of the shorts when the City Commission declined to act on a petition from 400 residents asking that shorts be outlawed in the downtown areas as indecent. Mayor Pro Tem Dewey Miller said he had been advised an ordinance against shorts would be unconstitutional.

Cops Press Hunt For Rude Nude

DRUMRIGHT, Okla. (AP)—Creek County officers are pressing their search for a rude nude. Cushing Police Chief Clyde Sapp says reports keep coming in that a nude young man has been using his car to force trucks and autos off the road.

Sapp said the driver apparently has been operating east of here and near Sapulpa. The Highway Patrol also reported an unclothed man had been sighted in the area about six times in recent weeks. One truck driver who said he was forced off the road asserted he could have rammed the car "but I was so dumfounded at seeing a guy drive down the highway in his birthday suit I thought at first I was seeing a ghost."

Wins Contract For Air Base Fence

TULSA (AP)—Claude Mathis, Amarrillo general contractor, had the apparent low bid of \$92,433 for an addition to the operations building and a security fence at the Amarrillo AFB, the Army Engineers said yesterday. The government estimate was \$103,963.

The Mar Lang-Stafford Construction Co., Sherman, bid an apparent low of \$199,239 for construction of a special weapons training building at Perrin AFB. The government estimate had been \$193,935.

DEAR ABBY

LET BROTHER DO IT

By ABIGAIL VAN BUREN

DEAR ABBY: My fiance and I are planning a large church wedding. My parents approve, but my father flatly refuses to walk me down the aisle. He says he and Mom went to the preacher's house and got married in twenty minutes and that should be good enough for me. Anyway, the only way I can get him down the aisle is to drag him. I have an older brother who says he'd do the honors, but I think that is proper only when the father of the bride is dead. Please help me. I've always dreamed of walking down the aisle on my father's arm.

BRIDE TO BE
DEAR BRIDE: Your father means well but he has a case of old-fashioned stage fright. If the combined efforts of your mother, the minister and you can't budge him, your best bet is to march down the aisle on your big brother's arm.

DEAR ABBY: My sister-in-law and I used to be the best of friends. For two years now she has ignored me. She has parties and doesn't invite me. I can't imagine what I ever did to offend her. My husband (her brother) says I should call her up and ASK her why she's mad at me and I say SHE should call ME up and

tell me what I did to her. Who is right?

NOT SPEAKING
DEAR NOT: Call HER! Time's a wastin'!

DEAR ABBY: I married a man and learned (after three children) that our marriage vows meant nothing to him. I fought against divorce for twelve years and finally gave in. He married one of the women he ran with during our marriage. I went to work (he was supposed to support me, but didn't) and paid off our house. In the meantime, his marriage blew up. Our children are married now (he wasn't present) and out of loneliness I let this nogood bum talk me into renting him a room in my house. He comes and goes as he pleases and sponges meals off me. He asks me to take his telephone messages. I have been doing it! Am I insane?

WONDERING
DEAR WONDERING: If you were insane you wouldn't know how wrong this set up was. Get rid of him—and the sooner the better.

DEAR ABBY: My husband is so strict with kids that he makes me sick. He will hit them on the street—in the store, or even in the doctor's office. He don't care where he is if they get out of line. They come to me and cry

about how hard he is on them and I am afraid they are getting to hate him. How can I get him to be a little more patient with them?
DEAR DELLA: Parents who punish their children publicly are both cruel and foolish. The humiliation hurts more than the blow. If you can't explain it to him, ask your family doctor to

CONFIDENTIAL TO CLANCY: This is no time to lower the boom!

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

Walkout Begins At Phillips Plants

BORGER, Tex. (AP)—Desk Sgt. Owen May of the Borger Police Department said members of Operating Engineers Local 351 started an orderly walkout last night at midnight at six Phillips Petroleum plants here.

May said no pickets were expected until late today, when the plants were completely shut down. He said everything was orderly.

Neither union nor company officials could be reached immediately.

However, union officials said late yesterday the union had rejected the latest company offer. Contents of the offer were not revealed.

Some 2,700 union members were affected by the strike. Five hundred men have been on strike at the Phillips Plains Plant here since May 1.

Negro Youths Look Away From Politics

PRAIRIE VIEW, May 15 (AP)—Improvement in personal and family living and how to get along with other people are the subjects in which Negro youths of Texas are most interested, a survey conducted by Prairie View A&M College reveals.

The findings were based on a study conducted among 2,000 Negro youths of high school age across the state.

Only mild interest was expressed by the youths in the subject of race relations and sex problems.

The youths indicated a low interest in problems on how to handle fears, jealousies, shyness and personality differences.

At the bottom of the list as far as interest was concerned was how to make the most of hand-me-down clothes and other items.

The survey found that whether students live in rural or urban environments appeared to make the most difference in their interest.

City students were generally more interested in all areas of personal and social adjustment than rural youths.

The occupation of the student's mother was found to be significant in expressions of interests.

The father's education and occupation had some influence while religion, mother's education and the marital status of parents had less influence.

Whether a student was well or poorly adjusted and the amount of family problems were also found to be key factors in determining

the fields and intensity of his interests.

Prairie View's youth research is a part of the Texas Cooperative Youth Study, a large-scale research project sponsored by 18 Texas colleges and universities approved to train vocational home-making teachers, the Home and Family Life Division, Texas Education Agency, and the Hogg Foundation for Mental Health.

Bishop To Take Episcopal Post

SAN FRANCISCO (AP)—The Very Rev. James A. Pike becomes bishop coadjutor of the Episcopal Diocese of California today at colorful ceremonies in Grace Cathedral.

Fifteen bishops of the Episcopal church join in the sacred laying on of hands to elevate Pike, former dean of the Cathedral of St. John the Divine in New York, to bishop.

The Rt. Rev. Henry Knox Sherrill, the church's presiding bishop; the Rt. Rev. Edward Lambe Parsons, retired bishop of California and the Rt. Rev. Horace B. Donegan, bishop of New York serve as chief co-consecrators.

Dean Pike, 45, will succeed the Rt. Rev. Karl Morgan Block, who is ill and will retire in September.

Bolivian Rebels Seize Province

LA PAZ, Bolivia (AP)—Rebels held parts of oil-rich Santa Cruz Province today but the Bolivian government claimed to have headed off a nationwide uprising.

President Hernan Siles Zuazo ordered troops to the eastern province and declared a state of siege—modified martial law—over the entire country.

The government said the revolt was led by Santa Cruz leaders of the extreme right-wing Falange and the Communists.

An official spokesman said their aim was to stir up a nationwide revolt that would interfere with parliamentary elections in June and prevent the return of former President Victor Paz Estenssoro, who has been ambassador to London for two years. He heads the government MNR party, the National Revolutionary Movement.

Recent riots and demonstrations in Santa Cruz have protested Siles' policy of depositing all revenues from the nationalized oil industry in the federal treasury and leaving none for the provincial government.

A government spokesman identified the revolt's leaders as Communist Carlos Valverde and Falangist Mario Gutierrez. The spokesman added that many high government leaders had been marked for arrest and President Siles was to have been assassinated.

travel-minded casual cloche

First class companion to travel with your newest fashions, any where, any clime. High, flattering young lines in airy perle visco straw.

SEC. B BIG SPRING, TEXAS, THURSDAY, MAY 15, 1958 SEC. B

Marines Caribbean Bound

Marines from the 6th Regiment of the Second Marine Division board helicopters at Camp LeJeune, N. C., to be flown to the aircraft carrier Tarawa off the coast. The battle-equipped Marines were sent to the Caribbean area but are to be returned.

IT'S STILL BIG

\$53,000 Chopped Off City's Debt

The city made its biggest payment on its bonded indebtedness in a year last month, chopping the debt by some \$53,000.

The monthly report from the

city secretary showed that during April, the city retired \$53,000 in tax bonds, and paid \$15,783.75 interest. The bonded indebtedness now stands at \$1,183,500 tax bonds and \$1,511,000 revenue bonds. No payment was made last month on the revenue notes.

The \$53,000 payment was the largest for a month since the city paid \$60,000 in April of 1957.

Water metered to customers during April amounted to 109,235,200 gallons, under April of last year by 29,625,700 gallons but above March by 17,586,600 gallons. Water and sewer charges billed to customers during the month amounted to \$54,383.12, a decrease of \$2,515.38 from April of 1957.

Current tax collections were \$895.43, and delinquent tax revenue amounted to \$2,585.22. Boating and fishing permit fees totaled \$870, and dog tag-pound fees brought in \$66.50.

From the gas franchise, the city collected \$5,964.82, and \$3,317.30 came from the electric franchise. Occupation tax revenue amounted to \$142, and electrical permits brought in \$260.65. Revenue from plumbing permits was \$150, and building permit fees were \$146.50.

At the golf course, fees for weekend and holiday playing amounted to \$244, and nine-hole green fees totaled \$156.50. Monthly cards brought in \$120.

Revenue from parking meters during April was \$3,141.54.

No Injuries When Rocket Blows Up

KINGSVILLE, Tex. (AP)—A two-stage rocket built by Texas A&I students exploded here yesterday, blasting metal bits over a 150-foot radius. There were no injuries.

The students had hoped that the rocket, which exploded without leaving the ground, would rise more than 20,000 feet. The launching attempt was made about 20 miles east of here on the King Ranch.

Bob Broughton Joins Sheriff's Staff As Deputy

Miller Harris, sheriff, announced today that Robert Broughton, long time resident of the Big Spring area, would become a deputy on his staff effective tonight.

Broughton is to be assigned to night patrol duty as a partner of Deputy Bill Cartwright.

Harris said that Broughton was added to the staff to fill the vacancy caused by resignation of W. T. (Tommy) Cole. Cole, who has been a deputy since Harris took office, is making the race for County Commissioner, Precinct 2.

Broughton, Harris said, has just been released from service with the army. He served in the military police.

He is well known, the sheriff said, having spent his life here. He is a graduate of Big Spring High School.

Broughton is the second deputy Harris has replaced in the past month. Randell Sherrod, who was Cartwright's partner, resigned to devote his full time to private business and was replaced by E. W. York on May 1.

Drunks, Traffic Violators Dominate Court Statistics

Traffic violators outnumbered the "drunks" in corporation court during April, but the drunks drew more fines.

There were 162 traffic violators fined during the month, according to the monthly police report, as against 100 drunks. However, the 100 were assessed fines totaling \$2,182; traffic violation fines amounted to \$1,408.

Fines of \$195 were assessed against 13 persons for driving without a driver's license. Twenty-four vagrancy complaints brought

fines of \$171. Three disturbance complaints cost defendants \$100.

Overtime parking tickets paid during the month brought in \$789, and \$23 were paid on warrants.

Cash receipts in the police department amounted to \$3,355, and \$1,710 in fines were laid out in jail.

For all offenses, including speeding, overtime parking, and running red lights, members of the police department issued 1,352 tickets in April as compared with 955 for March.

Forsan Slates Graduation Exercises Tonight, Friday

FORSAN — Commencement exercises for the Forsan eighth graders will be held today at 8 p.m. with the high school graduation program scheduled Friday night at the same time.

School officials announced that Delores Parker, daughter of Mr. and Mrs. Leo Parker, was valedictorian, and Joyce Shoultz,

daughter of Mr. and Mrs. L. T. Shoultz was salutatorian of the eighth grade class.

Everett Bailey and Ida Lou Camp were named valedictorian and salutatorian, respectively, of the senior class.

Walker Bailey, county superintendent of schools, will deliver the main address tonight, and Harry Barrett, vice chairman of the Forsan Board of Trustees, will present the certificates to the eighth graders.

R. L. Shelton, president of the Forsan Service Club, will present the club's awards, and Supt. J. T. Holladay will hand out the school awards. The same procedure will be followed for the senior graduation, except that Holladay will also announce winners of scholarships.

The commencement address for the Forsan seniors will be given by Dr. Berlie Fallon, professor of education at Texas Tech. Chairman of the school board C. V. Wash, will present the diplomas.

Jet Transports For Ike, Aides

WASHINGTON (AP)—The government is buying three jet transports costing five million dollars each to be used by President Eisenhower and other high ranking officials on long distance trips.

The planes, four-jet Boeing 707s, may be delivered by the end of this year. The 707, now being produced for commercial use, has a top speed of 500-600 miles an hour and is capable of stratospheric flight.

Eisenhower's approval of the purchase order was announced Wednesday by White House press secretary James C. Hagerty, who said the planes would be available for use by the President or other top government officials on cross-country or intercontinental flights.

Hagerty said none of the three-speed jets would be assigned to Eisenhower alone. He said the President would continue to use his personal plane, the propeller-driven Columbine III, on many trips.

The Boeing plane was picked, Hagerty said, because it is "the first American jet transport aircraft with substantial flying experience."

7 Suspects Plead Guilty At Lamesa

LAMESA—Seven of the 15 persons indicted by the 106th District Grand Jury in its session here last week have appeared before Judge Louis B. Reed to enter pleas of guilty.

Joe Giddins was sentenced to eight years in the penitentiary for burglary; Jimmy Gardenhire was sentenced to 7½ years in the penitentiary for burglary; Alton L. Baker was sentenced to six months in jail for second offense DWI; Billy Franklin Rickman, Jimmy Loden and Bobby Rickman were given three-year probation sentences for burglary; and LeRoy Bowers was given a two-year probation sentence for forgery.

Texas Due Showers

By The Associated Press
Scattered showers and thunderstorms were forecast for all of Texas Thursday and Friday.

Rain fell at Wichita Falls early Thursday. Patches of fog covered widely scattered areas of the state.

Three tornado funnels whirled their threat over the Lower Rio Grande Valley Wednesday afternoon, but the Brownsville Weather Bureau said they dissipated without touching the ground.

of Public Safety officer sighted one funnel north of Harlingen, a second was seen by the Civil Aeronautics Administration personnel north of Brownsville and a third was seen by the CAA tower workers south of Brownsville. Showers spattered Palacios, Victoria, San Antonio, Sherman, Junction, Abilene and Wichita Falls during the afternoon. Rain fell at Dallas, Lufkin, Victoria, Austin and San Antonio Wednesday night.

.27, Junction .12 and Mineral Wells .04. Highs ranged from 72 degrees at Junction and Amarillo to 100 at Presidio.

Storybook Hour

Mrs. Harry L. Gunn pauses in her household tasks to read stories to her sons. "Kelly" celebrated his fifth birthday on Wednesday and Russell is 1 1/2 years old.

The Gunns' Top Salad Combines Avocado, Pineapple And Gelatin

Recipes that are quick and uninvolved but nutritional are favorites with most homemakers and Mrs. Harry L. Gunn, 1809 Main, is no exception. Salads are particularly appealing and the foremost one in her collection is Avocado Salad.

It is a luscious combination of lime gelatin, nuts, whipped cream, pineapple and avocado, with the proportions given in her recipe below. As a member of St. Thomas Catholic Church, she is frequently called on for a dish for some function. This salad is usually her choice.

The family always rallies around for the congealed salad that has been a standby in many a home. This one, sometimes called Golden Glow Salad, calls for a package of orange gelatin, three or four carrots grated and a small can of crushed pineapple. It can be varied with lemon gelatin and sliced stuffed olives, to add a twang.

Filling that cookie jar is standard practice; her husband, who is a geologist with Cosden Petroleum Corporation, and their two sons are ready patrons. Kellan, whose nickname is Kelly, was five on Wednesday, and Russell is 1 1/2. All of them take to the Cherry Nut Cookies which Mrs. Gunn frosts; from the recipe, with minor changes, can emerge pineapple cookies.

Kelly happens to be allergic to eggs. So his mother, after much research, found a recipe for Apple Sauce Cake which requires no eggs. It is quite moist and can be stored nicely.

Mrs. Gunn was for a time assistant woman's editor of the Lubbock Avalanche-Journal after her graduation from Texas Tech. and has taught senior English. With Mrs. Darel Higley and Mrs. Stan Green, she has organized a kindergarten for three of their children. The youngsters get instruction one morning each week in speech and music and learn to play games. Mrs. Gunn's forte is teaching them how to sing to her piano accompaniment.

The newly installed president of Mu Zeta Chapter, Beta Sigma Phi, enjoys sewing and makes shirts for her sons. A hi-fi collection and movies are family diversions.

Try Mrs. Gunn's recipes:
AVOCADO SALAD
1 small can crushed pineapple

at a time. Beat in sifted dry ingredients alternately with milk; begin and end with flour. Beat only until smooth after each addition.

Spoon batter into small greased and floured cupcake pans (each about 2 inches in diameter) filling them 3/4 full. Bake in moderate (375 degrees) oven until cake tester inserted in center comes out clean—about 20 minutes. Remove from pans to wire rack to cool. Frost as desired.

1 pkg. lime gelatin
1 avocado
1/4 cup chopped pecans or walnuts
1/4 pt. cream, whipped
1/4 cup mayonnaise

Drain juice from crushed pineapple. Add enough water to make one cup. Bring to a boil and use the liquid to dissolve package of gelatin. Chill until firm, then whip with rotary egg beater or mixer until light. Add crushed pineapple, avocado, chopped nuts, already whipped cream and mayonnaise.

This salad may be served at once or stored in the refrigerator.

APPLE SAUCE CAKE
1 cup white sugar

2-3 cup shortening
1/2 tsp. cinnamon
1/4 tsp. nutmeg
1 cup nuts
3 cups flour sifted three times
1 cup brown sugar
2 cups sweetened apple sauce
2 tsp. soda mixed in the apple sauce
1/2 tsp. allspice
1 cup raisins
Mix in order given and bake in a loaf pan for 1 1/2 hours, in slow oven.

CHERRY NUT COOKIES
1 1/2 cup flour
1/4 tsp. salt
3/4 cup margarine
1-3 cup cherries
2-3 cup sugar

1 egg
1/2 tsp. vanilla
1/2 cup nuts
Blend margarine, sugar and egg; then add other ingredients. Bake in 400 degree oven for 10 to 12 minutes. Frost with recipe below:

CHERRY NUT FROSTING
1 cup powdered sugar
2 to 3 tbsps. melted margarine
Add these ingredients to juice from cherries and blend together. Use frosting for cookie tops.

(Note: For variation in order to make pineapple cookies, substitute brown for white sugar and crushed pineapple for cherries.)

TUNA ASPARAGUS CASSEROLE
1 can tuna fish
1 can asparagus
1 cup medium white sauce
Bread crumbs
Grated cheese
Use juice from the can of as-

paragus as part of liquid for the white sauce. Line bottom of casserole dish with tuna, then a layer of asparagus. Pour white sauce over mixture and sprinkle bread crumbs and grated cheese on top.

Put That Corn Into A Pudding

Corn pudding is a delightful variation from the usual bowl of creamed corn found on West Texas tables. Here is a recipe worth trying:

CORN PUDDING
Ingredients:
2 tbsps. butter
2 tbsps. flour
1 cup milk
1 can (1 lb. and 4 oz.) cream-style whole-kernel corn
1/2 tsp. salt
White pepper
1/4 cup minced green pepper
2 eggs (slightly beaten)
1/4 cup fine cracker crumbs

mixed with a little melted butter

Method:
Melt butter in medium-sized saucepan over low heat; stir in flour. Add milk; cook and stir constantly until thickened. Stir in corn, salt, pepper to taste and green pepper. Remove from heat. Blend a little of the mixture into eggs; stir back into skillet. Turn into buttered 1-quart baking dish. Sprinkle with buttered crumbs. Set dish in pan of very hot water. Bake in moderate (350 degrees) oven until knife inserted near center comes out clean. Makes 6 servings.

For Broiled Chicken

Like to improvise in the kitchen? Baste that broiled chicken with a mixture of soy sauce, sugar and a suspicion of ground ginger or nutmeg. Add a clove of crushed garlic if you like that flavor.

Rind Flavors Cupcakes

Just two teaspoons of grated orange rind change the flavor of these Midas Cakes. They are especially good served with a fruit bowl.

MIDAS CAKES
Ingredients:

1 cup sifted cake flour
1 1/4 tps. double-acting baking powder
1/4 tsp. salt
1/4 cup butter
1/2 cup sugar
2 tps. grated orange rind
1/4 tsp. vanilla
4 egg yolks
1/4 cup milk

Method:
Sift together the flour, baking powder and salt. Cream butter, sugar, orange rind and vanilla. Beat in egg yolks thoroughly, one

Ingenious Cooks Offer Food Value And Flavor

By CECILY BROWNSTONE

Associated Press Food Editor
Many American cooks are ingenious about using nutritious foods in delicious and inviting fashion.

We're thinking of the ways we have evolved of serving fruit and vegetable beverages as a first course; of our appetizer salads that appeal to both men and women; of our special ham-and-egg combinations; of our barbecued meats, poultry and fish; of our unique fruit desserts; of our refreshing flavored milk drinks.

It's unfortunate that more women do not take steady advantage of presenting basic foods in ways attractive enough to have families eat and relish them. We say this because studies made recently by the USDA's Institute of Human Nutrition and Home Economics indicate that many families are still not getting, in their everyday diets, the nutrients essential to good health.

During the war, providing balanced meals was emphasized and many families heeded advice from nutrition specialists. Nowadays it is a good idea to review the basic foods needed every day and to check up to make sure they are being included in meals.

With all the dieting that is going on in this country, some of these foods are too often skipped. To provide high-quality protein we need meat, poultry, fish and eggs. Milk is a necessary food, and cheese and ice cream can help supply it. We need vegetables, including leafy green and yellow varieties, and potatoes; citrus as

ASPARAGUS HORS D'OEUVRE

well as other fruits. Breads and cereals are still the staff of life.

It's fun to dream up new ways of serving nutritious foods. If your family eschews vegetables, for instance, there are many guises in which they may be offered so they will be welcome. We've seen them gobbled up when served as an hors d'oeuvre.

Here's how to serve fresh asparagus in this fashion—though frankly we can't understand why anyone would want to bypass this utterly delightful spring and early-summer vegetable no matter how it is served.

FLEMISH ASPARAGUS

Ingredients:
2 pounds asparagus (cooked and drained)
4 hot hard-cooked eggs
½ cup butter or margarine
Salt
Freshly-ground pepper.

Method:
Arrange hot cooked asparagus stalks so tops are together in a long row on heated serving platter. Mash hot eggs thoroughly or force through a fine sieve (do not use a ricer).

Melt butter in 8-inch skillet over low heat; stir in mashed eggs and salt and pepper to taste. Spoon mashed eggs over center of asparagus stalks in a neat row.

Note: Before cooking asparagus be sure to pare off center fibrous covering from stalks (up to buds) with a swivel-blade vegetable peeler. Arrange in deep 10-inch skillet with ¾ to 1 cup boiling water and ¼ teaspoon salt. Cover and cook rapidly just until stalks are tender—7 to 10 minutes—lifting cover a few times; drain.

New Ham Sandwich

Well-seasoned cole slaw, along with cold sliced ham, makes a delicious and different filling for a sandwich. Serve for lunch with deviled eggs.

Child's Eating Habits May Be 'Educated'

LUBBOCK, May 13 — "Martha Nell drank a whole glass of milk last night. That's something we never could get her to do."

Such statements are being heard more often these days, thanks to new methods of teaching nutrition in public schools. Dr. Willa Vaughan Tinsley, Texas Tech home economics dean, reports. And many of the techniques teachers are using can be adapted by parents with "sweet tooth," "food strike" and similar problems.

"Trying to wean a child away from sweets may just alienate him from the parent," Dean Tinsley explains. "If we can get children to eat what they need, superfluous foods will not loom in importance."

Most children want to grow big, she continues. And a simple home experiment can show them that proper food does make a difference in how a youngster grows.

This can be done by putting quick sprouting seeds with some soil in two glasses, watering one glass and leaving the other dry. Growth soon starts in the moist glass because moisture permits the seed to utilize available food.

Parents likely will find their child's teacher a strong ally in im-

proving the youngster's eating habits, Dean Tinsley says.

Modern teachers recognize another important fact; it's not so much when you eat but what you eat that counts. Some families prefer cereals and light meals at night and heavier foods at breakfast. That's fine, as long as each person is getting all his nutritional requirements throughout the day.

Good teachers are keeping their nutrition terminology simple—within the understanding and interest of children, she says. If parents will team up with teachers, a lot of children's eating problems can be solved.

Dessert For Guests

With a package of brownie mix, a can of walnuts and a can of chocolate sauce on your pantry-shelf, and some ice cream in your freezer, you can have a super-rich dessert for unexpected company. The baked brownie squares are topped with the ice cream and chocolate sauce, of course.

Store Fudge Sauce

Chocolate sauce, to be served over ice cream, usually stores well in a tightly covered container in the refrigerator. Nice to keep on hand!

Glazed Pork

Currant jelly makes a pretty and delicious glaze for a boneless smoked pork shoulder butt. This cut of meat is fine for a small family.

Cheese Sandwich Is Universal Favorite

Cheese is a universal favorite for sandwiches. It's ingenuity that makes the finished product, and here are three variations which you might like to adapt for your own use.

The first leaves the amount of ingredients up to you. But do put cheddar cheese, sweet pickles and pimientos through the meat chopper. Then mix with mayonnaise and spread on bread. Broil these open sandwiches for an extra taste treat.

HAM-CHEESEBURGER

4 hamburger buns
Prepared mustard
4 slices ham
¼ lb. Blue cheese
1 cup sauerkraut
Split buns; toast if desired. Spread bottom half with mustard. Place ham slice on bun.

Cover with sauerkraut and top with crumbled Blue cheese. Put top of buns in place and wrap sandwich loosely in aluminum foil. Heat 20 to 30 minutes. Serve warm.

FRENCH TOASTED CHEESE

12 slices bread
6 slices cheddar cheese (sandwich size)
2 eggs
¼ cup milk
6 tbsps. butter or margarine
Make 6 sandwiches of the bread and cheese. Beat eggs enough to combine yolks and whites; add milk and beat enough to combine.

Dip each sandwich quickly into milk mixture turning to coat both sides.

Heat skillet and add ¼ tablespoon butter for each sandwich; brown slowly. Turn, adding another ¼ tablespoon butter for each sandwich; brown slowly.

A 10-inch skillet usually holds 2

Fruit Meringue

Line custard cups with lady fingers. Then fill with sweetened diced fresh fruits and pile high with meringue made by whipping 2 egg whites stiff and then beating in ¼ cup sugar (makes enough for 4 servings). Bake in a hot (425 degree F.) oven for 3 to 4 minutes.

Fresh Fruit Cup

Serve a medley of diced fresh summer fruits, sweetened with sugar, flavored with rum or rum extract, and topped with a scoop of orange sherbet.

sandwiches plus one cut in half. Six sandwiches can be pan-fried in two batches. Serve 1 or 1½ sandwiches per portion.

Cooper
"KLIPPER" Power Lawn Mower

Glamorous Dessert Uses Two Mixes

An elegant dessert is not necessarily one that requires a great deal of time to prepare. Custard Fruit Meringue utilizes two commercial mixes plus heavy cream and dark cherries, to emerge as a glamorous dessert on any occasion.

CUSTARD MERINGUE

Ingredients:
1 pkg. meringue mix
1 pkg. vanilla pudding (cooked type)
½ cup heavy cream
1 cup canned dark sweet cherries (well drained.)

Method:
Use only one of the envelopes in the package of meringue mix; prepare it according to directions on envelope for meringue shells. Spread meringue in buttered 9-inch pie plate. Hollow out center with back of spoon, building up edge. Bake according to envelope directions; cool.

Make up vanilla pudding according to package directions; cool. Whip cream; fold into pudding. Fill meringue shell with mixture; chill several hours. Just before serving garnish top with cherries.

Eggs Espagnole Are Novelty Dish

For a different way to serve eggs, try creating a Spanish flavor. Here's a recipe:

EGGS ESPAGNOLE

Ingredients:
¾ cup tomato sauce
8 pimiento-stuffed olives (sliced)
8 eggs
½ cup grated cheddar cheese

Method:
Divide tomato sauce and sliced olives among 4 buttered shirred-egg dishes. Break 2 eggs into each dish. Sprinkle with grated cheese, covering yolks. Bake in slow (325 degrees) oven until eggs are firm—about 25 minutes. Serve at once. Makes 4 servings.

MORTON'S TEA

BETTER FLAVOR. LOWER PRICE!

When you make Iced Tea, you want plenty of it! That's why so many folks are switching to Morton's Tea... there's such a tremendous saving in the price that you can serve all you want, and still help your food budget. Yet Morton's Tea gives you the finest quality and flavor you could ask. Try it yourself and see!

every bit as good as

MORTON'S POTATO CHIPS!

Father's breakfast muffins

The Recipe

Blend together 2 tablespoons sugar and 1½ teaspoons cinnamon; set aside. Sift together 1½ cups sifted all-purpose flour, 2 teaspoons Clabber Girl Baking Powder, ¼ teaspoon salt, and ¼ cup sugar. Cut in ¼ cup shortening until mixture is fine; stir in ¼ cup chopped nut meats and ¼ cup seedless raisins. Beat together 1 egg and ¼ cup milk until just blended; add all at once to flour mixture; stir until ingredients are just dampened. Fill 12-2½ x 1½-inch greased muffin pans one-fourth full of batter. Sprinkle each with about ¼ teaspoon sugar-cinnamon mixture. Top with remaining batter evenly, smoothing the surface. Bake in a 400° F. (hot) oven about 20 minutes. Serve hot. Yield: 12 muffins.

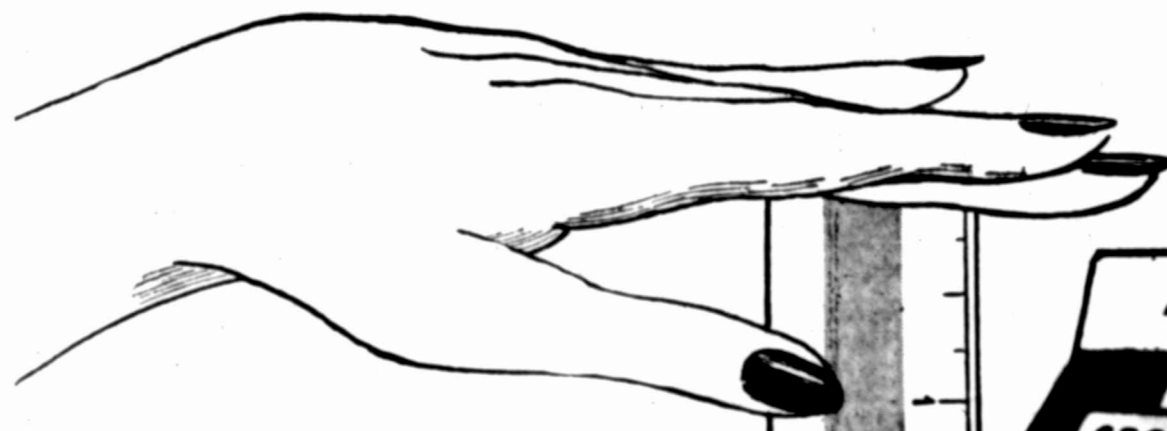

The most important thing about baking...

It's the balance of ingredients in baking powder that governs its leavening action. Only when these are scientifically balanced can you be sure of uniform action in the mixing bowl plus that final, balanced rise to light and fluffy texture in the oven.

Balanced Double Action means Better Baking!

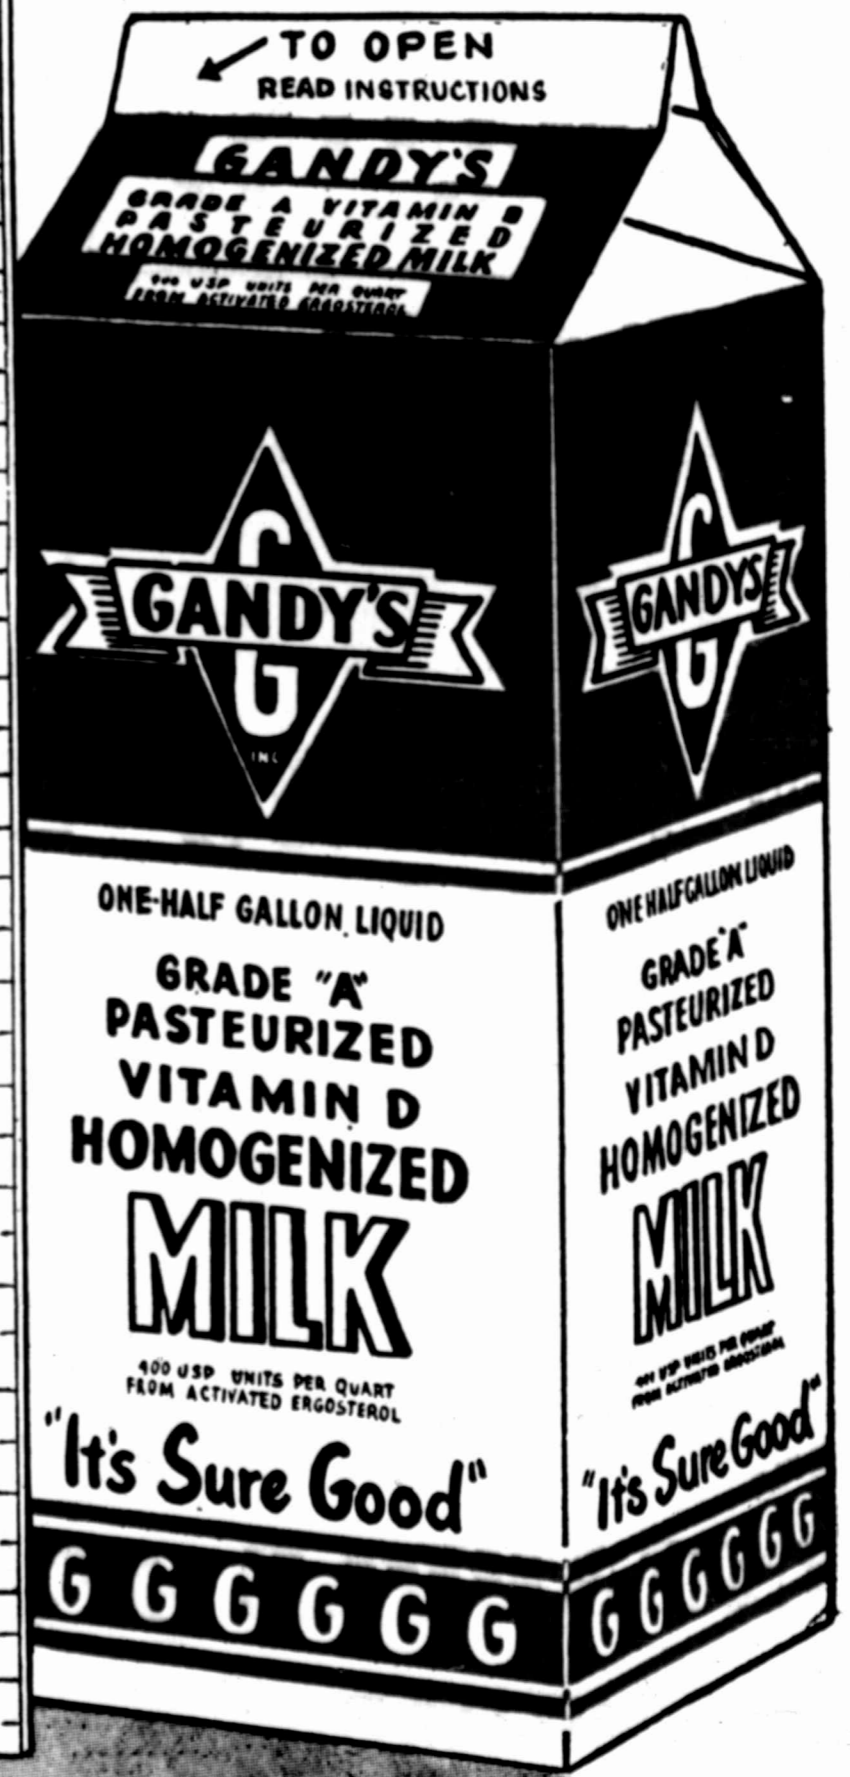

Measure Milk by it's Quality!

Green Burglar Leaves His Mark

HILLSBORO, Ore. (AP)—After several thefts at his garage, R. I. Williams decided to give police a hand.

On a ledge over a window through which burglars had entered, Williams put a gallon jug filled with green dye.

Over the window he put a metal sign. He tied one end of a wire tied to the trigger of a shotgun pointed at the jug.

Early Wednesday a burglar knocked aside the sign. Williams' device worked swell. The gun went off, the shot broke the jug and down came the dye.

The burglar was persistent. He roamed through the garage, took three cartons of cigarettes and walked away, leaving a string of green footprints.

Reno (Texas) Store Brings Back Memories Of 'Old Days'

RENO, Tex., May 15 (AP)—If you are fond of memories about the south, they jacked up the building and moved it with a team of mules in 1932.

While the structure is far from antique, the signs of age are unmistakable. The large brick center beam still stands. Some of the old showcases still remain in use. And the ceiling, smoked by assorted types of stove over the years, is a dead giveaway.

"We went from wood to coal oil, to coal, and now to gas," Deweese recalls.

Now he and his wife, the former Mable Fenley, stand around an open heater in the center of the store to visit with their customers.

If you think business conditions are a little tough nowadays, let Frank tell you about the period immediately after World War I.

"Prices fell so low overnight," he relates, "that my father and I went to the store one night and marked the merchandise down more than \$1.00."

"Yeah, 1919 was worse on us than the depression in 1930. We just struggled to keep going like everyone else."

Changes in the way people live have affected operations of the community store as much as anything else. Take the ice house which used to stand in the back.

"Used to," says Deweese, "I could sell 1,200 pounds of ice a day, but now I would do good to sell a dime's worth every three months."

"Ice sales went out faster than anything I ever saw. Everybody has refrigerators now."

Before travel to Paris became so easy, the store also handled dry goods.

"We sold shoes, clothes and piece goods," says Frank, "but when the cars came around we quit handling them."

He remembers when people did not ask for a little package of this or that. When they came to town, they stocked up for weeks ahead.

"Sugar, syrup and lard came in barrels."

"Just dipped what you wanted," says Deweese. "Black strap and light strap were the only kinds of syrup we had, and people would bring in their own containers and draw up a bucketful, or how much they wanted."

"This was the way we sold our lard, sugar and coffee."

His father used to send Frank three miles into Paris with a team of mules and a helper for a load of groceries, usually around 1,500 pounds. The trip took from early morning until nightfall.

Last year Frank suffered a slight heart attack. He says that has slowed him down quite a bit, but he's still on the job.

Border Pass Permits Work Well In Texas

EL PASO, May 15 (AP)—Practically all residents of Mexico immediately south of Texas' rugged Big Bend area cross the Rio Grande for their mail and supplies.

They use "Class B" ports of entry—places so small that many of them are not on the maps. They were set up by the Immigration and Naturalization Service.

Deputy Dist. Director Joseph Cushman returned recently from a grueling week-long inspection trip of these ports. He said everything is "shipshape."

The seldom heard from ports include Porvenir, Candelaria, Ruidosa, Chinati, Redford, Lajitas, Castalon, San Vicente, Stillwell's Crossing and Boquillas.

Marcus T. Neely, district director of the service, was partly responsible for their being set up.

"For a hundred years people in that part of Mexico have been crossing the river to buy their groceries and supplies for the simple reason they couldn't get them anywhere else," Neely said.

Although this was done with the "tacit consent" of the I&NS, it really wasn't cricket at all by the rule book.

Customs was so entrenched that most of the aliens who traded at the little Texas riverside stores and commissaries had learned to have their friends send them their mail to Texas stores because it was much faster.

Communication with the interior of Mexico from the south side of the Big Bend is almost non-existent.

So, the I&NS created the Class B ports. Class B means that no alien may enter through these ports unless he is a resident alien in the United States, has a non-resident border crossing card, or is a United States citizen.

Then the word spread, by word of mouth through the stores, that aliens must report for crossing permits. A team of immigration officers was amazed to find hundreds of applicants for the cards fording the Rio Grande to the 10 ports for registration.

That was about three years ago. The system continues to work well, Cushman said.

Things Were Smooth In Colombia
Vice President Richard Nixon and Colombia's president-elect Alberto Lleras Camargo are in a happy mood as they chat during Nixon's visit to Bogota. Nixon found the welcome not as pleasant when he arrived in Venezuela where he was stoned and spat upon.

Russian Medic Reports On 'Signal' System For Health

By RENNIE TAYLOR
AP Science Reporter

SAN FRANCISCO (AP)—A Russian medical scientist says the vital organs of human beings can be made to obey visual or sound signals or other communications from the outside.

Glads can be speeded up or slowed down; hearts can be kept from beating too fast under excitement; stomachs and intestines can be given diseases by signals and then can be cured the same way, he asserts.

This concept opens up a great new field in psychosomatic medicine.

In fact, he went on, humans and higher animals probably do all their functioning through a complicated signal system of this kind. If anything goes wrong with it, the result may be mental illness.

Under this line of reasoning the formula for healthy existence would be to keep the signal system in good working order and to modify it here and there so it would maintain all the body's processes in balance.

The statements came from Prof. Constantine Bykov, director of the famed Pavlov Institute near Leningrad. He talked Wednesday at a new conference at the American Psychiatric Assn. meeting through two Russian-speaking American physicians, Dr. W. Hoesley Gant of Baltimore and Dr. Iago Galston of New York.

Prof. Bykov's work is an outgrowth of the discovery more than half a century ago by Ivan Pavlov that a dog could be made to drool at the sound of a bell.

Civil War Vet Notes Birthday
SLANT, Va. (AP)—"Gen." John Salling receives birthday greetings today from well-wishers on both sides of the Mason-Dixon Line.

Four members of Congress were included in a delegation which planned a 100-car motorcade to this tiny southwest Virginia community to spend part of the day with Salling on his 112th birthday anniversary.

Salling—the "general" is purely honorary—is one of the two remaining veterans of the Civil War. The other, also a Confederate, is 116-year-old Walter W. Williams of Houston.

Scheduled to be on hand for the festivities were Reps. Smith (R-Kan.), Fred Schwengel (R-Iowa), W. Pat Jennings (D-Va.) and Sen. A. Willis Robertson (D-Va.).

In addition to the congressmen, the motorcade includes representatives of the armed forces, veterans groups and just plain citizens.

Salling, now confined to a wheel chair but still peppery, was expected to greet his guests in his new summerweight Confederate uniform, presented several weeks ago by members of the Woman's Army Corps at Ft. Myer, Va.

Fluoridation Brings Violent Threats
OGDEN, Utah (AP)—Four city councilmen have discovered that supporting fluoridation of the community's water supply can be as uncomfortable as aching teeth.

Fluoridation has run into some strong opposition here, and it could be violent opposition.

The County Welfare Council announced yesterday the four councilmen have been threatened by physical violence or business boycotts by numerous anonymous callers.

Mayor Raymond S. Wright and Councilmen C. Austin Seager, Elmer Myers and Scott B. Price voted to set up a fluoridation plant. The other three Council members voted against it.

The city is going ahead with plans to buy the equipment through an initiative petition against fluoridation is to be voted upon in November 1959.
