Police Puzzle Over Nurse's Hired Death

VENTURA, Calif. (AP)—Police fitted in the pieces today of a plot they said led to the brutal killing of attractive Olga Duncan, whose bruised body was found in a shallow grave beside a lonely road.

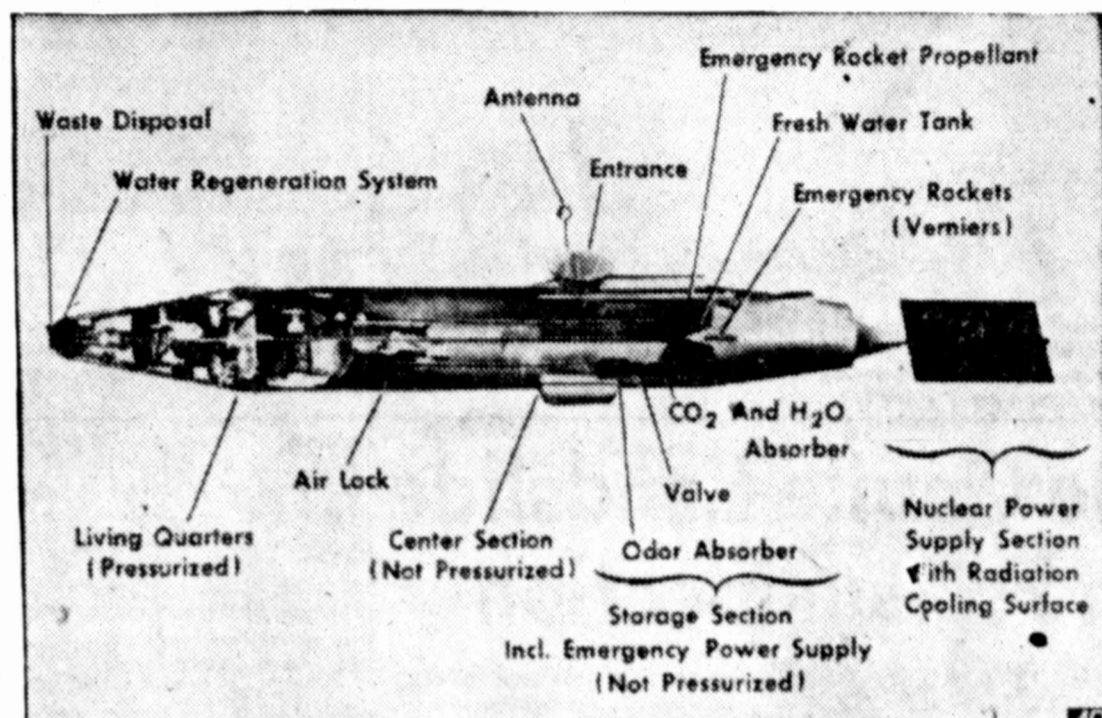

time, indicated that because the murdered nurse was carrying a child more than five months' development, the case possibly would be considered a double homicide.

been married five times in eight years. She is charged with posing in court here as her son's wife, along with a paid confederate, to obtain a fraudulent annulment of her son's marriage last August.

Earthmen Ready For New Contacts

Atlas Radio Transmits Messages

WASHINGTON (AP) — Earthmen were ready today for more two-way radio contacts with the mighty Atlas missile-satellite, now in its fourth day of hurtling about the globe.

Model Of Atlas Space Station

This is a cutaway of an Atlas space station showing how the shell of the Atlas missile would be utilized in space to provide living quarters for its crew.

New Court-At-Law For County Urged

Howard County Bar Assn. today proposed to the Howard County Commissioners Court that a county court at law be created in Howard County.

mitted would create a new county judge. His duties would be solely in the field of litigation in the county court—which would leave the regular county judge free to perform his functions as presiding officer of the commissioners court.

Hereford Sale Set For Jan. 7

Howard County and South Plains Hereford Breeders Assn. directors are to meet tonight to complete plans for the 15th Annual Hereford Breeders Assn. sale scheduled here for Jan. 7.

Satellite?

This streak of light which passed across the sky above Dallas, is thought to be the Atlas satellite now orbiting the earth.

Goldfine Sentenced To 3 Months

BOSTON (AP) — Federal Judge Charles E. Wyzanski Jr. sentenced New England industrialist Bernard Goldfine to three months in jail today for contempt of court in failing to turn over company records in a tax probe.

30 BILLION LIGHT YEARS

New Observatory May Track, Guide Spaceships Of Future

BIG PINE, Calif. — They've dedicated a 1 1/2-million-dollar radio observatory near here that some day may track and guide space ships as they speed far out into the universe.

\$460 Million Into State Till From Odds And Ends

AUSTIN (AP)—The odds and ends of the Texas state revenue system produced almost 460 million dollars in 1958.

Loot Stolen Here Seized At Waco

Merchandise, mostly women's garments, worth about \$750 has been confiscated from two Negroes in Waco. The loot had been taken from five Big Spring stores here probably Thursday and Friday.

Weeks, the police said. In all, 25 items were stolen, including 10 dresses, six sweaters, three suits, two skirts, a pair of shoes, one pair of pajamas, and a hat.

Canon Lawyer Asks Dismissal

FT. HOOD (AP)—James Gardner, San Antonio lawyer, asked for a dismissal today in the court-martial here of Lt. Col. Jack Canon.

200 Visit Toy Display

Only a small group of citizens found time to look over the handiwork of the fire department Sunday afternoon.

Stork Holds Off

Mrs. Bernard Freiden went through two major events in Memphis, Tenn. She was made a citizen of the United States and gave birth to her third son, all in less than four hours.

Gardner asked a dismissal on grounds that two charges of theft against Canon are misdemeanors and not felonies. He also asked dismissal because, as he put it, "the two prosecution witnesses are acknowledged liars and thieves."

SCHOOL UNITS BOOST FUND

This is just about the "last call" for your help in financing poor children's Christmas happiness. The Cheer Fund will have to be closed out by Wednesday. More money is needed, and you are urged again to make your gift.

servatory may be able to reach far enough back into time to see our own world as it was billions of years ago — perhaps while it was still being formed.

The observatory will be able to peer 30 billion light years back into time and space.

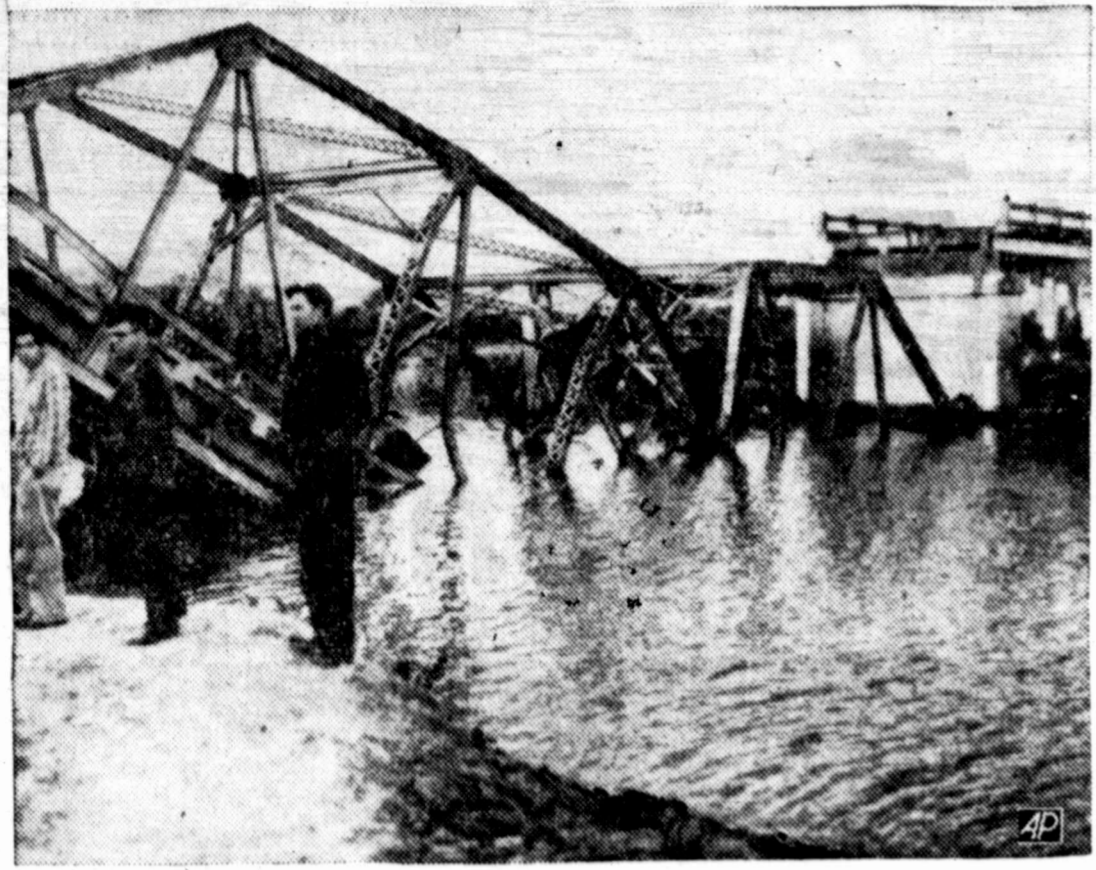

far is two billion light years. This is the range of the 200-inch Hale telescope on Mount Palomar in San Diego County.

Only the observatory will be able not only to receive radio impulses over tremendous distances, but send them as well.

The report noted that evasion of the registration law was encouraged by inequities and numerous administrative problems. Under-registration of commercial vehicles alone was estimated at a four million dollar loss annually to the state.

Four Survive Collapse Of Bridge

A steel truss bridge on Highway 9, 16 miles northeast of Corpus Christi, collapsed under the weight of a bulldozer. Four passengers in a car carried under the cold waters of the Nueces River escaped serious injury after crawling through the windows of the car. The bulldozer flipped off a truck, which was driven away safely.

De Gaulle Landslide In French Election

PARIS (AP)—Premier Charles de Gaulle's handwagon rolled on in France Sunday with his third personal voting victory. As expected, members of the Electoral College overwhelmingly elected him the first president of the Fifth Republic.

The wartime hero, 68, who stepped aside as premier in 1946 rather than play second fiddle to the National Assembly, now can assume the presidency for a seven-year term with greatly increased powers. He will take over the office from Rene Coty, 76, Jan. 8.

The "rule by Assembly" of the Fourth Republic collapsed just as De Gaulle had predicted. Under special powers granted him to reform the French state after the revolt last May, De Gaulle wrote a new constitution with a strong executive.

His first victory came when the new constitution was approved by an 80 per cent vote in a September election.

In November, a new National Assembly was elected with a pre-

ponderance of De Gaulle followers. In Sunday's presidential election De Gaulle got 78.5 per cent of the valid ballots of the grand electors, an Electoral College representing the French mainland and overseas territories.

De Gaulle did not vote or take part in the election. As premier he did not belong to any category of the grand electors, made up of mayors, municipal and county councilors, Parliament members and a few plain citizens.

Of 79,468 valid ballots, complete returns gave De Gaulle 62,392.

The two token opposition candidates ran far behind. Communist Georges Marrange, 70, mayor of the Paris suburb of Ivry, received 10,354 votes. Albert Chatelet, 75, a University of Paris dean and candidate of the non-Communist opposition to De Gaulle, got 6,722.

Until the talks over the presidency, De Gaulle remains premier with his broad special powers to rule by decree. These special powers automatically expire when he becomes president.

Many reorganization measures,

almost all affecting internal affairs, still are in the Cabinet mills and must be approved in the next two weeks.

One of these is the 1959 budget, which almost certainly will call for new taxes.

When De Gaulle moves into the Elysee Palace as president, he will have power to:

Appoint a premier without the necessity of his choice being approved by Parliament—ministers will be named by the president according to the proposals of the premier.

Submit some bills passed by Parliament to a referendum.

Demand reconsideration of bills he does not like.

Dissolve the National Assembly after consultations with the premier and the president of the two houses of Parliament.

Assume full power in a grave emergency where the independence or security of the state is endangered, or normal institutions can no longer function.

Forest Conservation Battle Still On; Bill Set For Congress

By BEM PRICE
WASHINGTON (AP)—For many people the prospect of America exhausting its wild forests where a civilization-battered man can find peace for his soul is almost inconceivable.

With our exploding population, however, the loss is possible, and therein lie the seeds of a dispute which will affect countless future citizens.

There are those who would set aside, as this generation's gift to the future, between 50 and 5 million acres of wilderness in 11 Western states and Alaska which remain as the Indians found them thousands of years ago.

Opponents fold that setting aside these lands would mean locking up potentially valuable assets, with a subsequent loss in taxes and wages from private exploitation.

This is not a new dispute. It has been going on since the late 1860s when a national park was first proposed. Such a park did come into being in 1872. Arguments over such use of public land haven't changed much since.

In each of the last two sessions of Congress efforts were made to pass a national wilderness preservation bill. Another effort probably will be made early in the coming 86th Congress.

Fifty to 55 million acres appear to be a lot of land until you consider that the United States and Alaska contain 2,309,683,680 acres. Of this total the federal government owns or controls 477 million acres, including 181 million acres of forest land. About 58 million

acres of true, roadless wilderness lands remain in the nation.

The chief fear of opponents seems to be that once the wilderness preservation principle is established by law, more and more land will be brought under its protection.

While the opponents generally agree that wilderness preservation is desirable, they object to preservation by an act of Congress—which is much tougher to change than administrative fiat.

These forests are administered by the Bureau of Indian Affairs, the Bureau of Land Management, the U.S. Forestry Service and the National Park Service.

Forests which would be protected lie for the most part in the high and remote areas of the West where timber cutting, oil exploitation, mining and cattle grazing probably would be arduous and expensive. At least that is what the advocates of the proposal claim.

An opposition point of view was given by Warwick M. Downing of Denver, chairman of the Oil Industry Public Lands Committee.

Downing said in an interview: "The U.S. Geological Survey recently reported that the public lands have earned \$127,400,000 during the past year. This proposed bill would set aside at least 50 million acres now and probably soon another 50 million acres from which there would be no land revenue."

Why the urge to place these forest lands in escrow by law? Howard Zahniser, executive secretary of the Wilderness Society,

a nationwide group of conservationists with headquarters here, said in a report to his members: "Those who have been studying wilderness preservation needs have come to the conclusion... that all our land is destined to be put to some human use. The pressures of civilization are such that none of the land... can be expected to escape."

Commercial interests generally have opposed the proposed law. The bill is supported by 22 national organizations, including the AFL-CIO, the General Federation of Women's Clubs, the Garden Club of America, the National Wildlife Federation and the American Planning and Civic Assn.

Official Entry

By The Associated Press
Winter made its official entry into Texas at 2:40 a.m. Monday but by the temperature readings it could have been the first day of spring.

Maximum readings Sunday afternoon ranged from 56 degrees at Presidio to 69 at Brownsville.

A warming trend was forecast for Monday with increasing cloudiness and showers along the coast.

Teen-Age Couple Held In Lubbock

LUBBOCK, Tex. (AP)—A teen-age couple from Maine, captured in a 2-state search for a quantity of stolen poison, are being held here on federal charges of auto theft.

FBI agents identified the pair as Paulette Root, 14, and Clarence Goldthwaite, 19, of Scarborough, Maine.

Police started the hunt Saturday after an insect exterminator at Clovis, N.M., reported the disappearance of a panel truck containing a 25-pound can of cyanide gas and sodium fluorotrate.

A state highway patrolman spotted the truck several hours later at Springlake, Tex., and gave chase. The occupants escaped on foot after wrecking the truck three miles east of Springlake.

Finding the poison missing from the truck, police began a search the outskirts of Clovis.

Police later arrested the young couple trying to hitchhike at Plainview, Tex.

Republicans To Pick Site For Convention

WASHINGTON (AP)—Republicans will meet in Des Moines, Iowa, next month to pick a 1960 convention site and start working on that year's election campaign.

The five-day series will include meetings of a convention site committee Jan. 19-20, the GOP Executive Committee Jan. 21, and the full Republican National Committee Jan. 22-23.

The site committee will receive bids from interested cities and may make a recommendation for action by the national committee later in the week. The meeting comes a week after a Democratic site committee receives formal bids at a New Orleans meeting Jan. 16. The Democratic group will report to its full committee Feb. 27.

Seven cities already have submitted informal bids for the Democratic convention, and all are reported interested also in the Republican meeting. They are Chicago, Los Angeles, San Francisco, Miami Beach, Philadelphia, New York and Atlantic City. Television networks have been urging selection of the same city for both conventions.

Chairman Meade Alcorn said, "has been called to begin intensive development of a two-year program for the presidential and congressional campaigns of 1960."

It will include study of last month's election results and of possible ways of strengthening the party organization.

Another kind of organization problem faced Republican members of the Senate as a group of GOP insurgents pushed efforts to take party control in that body. The small group of senators, variously labeled progressive, moderate and liberal, still has not agreed whom to back but one of them, Sen. Clifford Case (R-N.J.) said Sunday he is sure they will unite behind a single candidate for the party's floor leadership.

4 People Die In Bus-Car Crash

CHICAGO (AP)—The flaming crash of a Chicago Transit Authority bus and a car Sunday night killed four occupants of the auto. Twelve other persons, including 11 bus passengers, were injured.

Blazing Start

Climbing aloft on 300,000 pounds of thrust, the mighty Atlas missile got off to a beautiful start at Cape Canaveral, Fla., on its journey to an orbit around the earth. The blastoff was accompanied by a violent roar and a blinding flash of white flame from the missile's three powerful engines.

Stand Tall, Girls

England's distinguished Margaret Leighton, in Hollywood for a movie role, visits in today's Hollywood Beauty. She feels that tall girls, like herself, should dress to their height rather than play it down. She will soon be seen starring in "The Sound and Fury" for 20th Century-Fox.

HOLLYWOOD BEAUTY

British Actress Likes The U. S. Customs

By LYDIA LANE
HOLLYWOOD — I watched Margaret Leighton, the distinguished English actress, play a scene for 20th Century-Fox's "The Sound and Fury" with a perfect Southern accent. But when she crossed the stage, her hello to me was very British. This is Miss Leighton's first visit to California. "I am enchanted with the ease and style of life here," she told me. Her only complaint is that working so hard on the picture gives her no time to go shopping. "There is no place in the world where you find such wonderful sport clothes as you do here," she exclaimed. "And no women in the world wear them like the Americans. I admire so much your chic of dressing casually — as if you were just going to the office — and then you are so beautiful. There is nothing studied or self-conscious about it. When other women get all dressed up they seem to be aware of it, and that detracts. "And the make up!" she continued to enthuse. "I thought you wore much less than English women. But now I know that it only seems less — you put it on so naturally." Miss Leighton had equal enthusiasm for American food. "It is so good and beautiful, but there

is often too much of it. When I played in "Separate Tables" in New York, I often wanted to run into a drug store for just a bite. But even there I found myself wasting food. I just can't eat so much at one time." I asked her if there were anything unpleasant she wanted to say about us. "There is no growth in compliments," I reminded her. "I'm not sure, but I think maybe the American women might be happier if their men were more dominant. I feel that a woman secretly likes a man to have the authority." Miss Leighton said the best advice she was ever given was not to worry about her height. "It is a fatal mistake to pay attention to it. The worst thing you can do is to wear flat shoes. I wear the highest heels and live up to every inch of my height, standing as straight as I can. It is amazing how lack of concern on my part makes all the difference. "People who see me on stage often say, when they stand next to me and measure their height with mine, I had no idea you were so tall."

Toddlers Togs

Scalloped trimmed dress and undies for a tiny girl—sew-simple romper for a boy. Both in pattern 1364 that can be completed easily and quickly. No. 1364 is in sizes 6 mos., 1, 2, 3 years. Size 1, dress, 1 1/2 yards of 35-inch; slip, 1 1/4 yards; panties, 3/4 yard; romper, 3/4 yard. Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Add 10 cents for each pattern for first-class mailing. Send 35 cents today for your copy of Home Sewing for '58. A complete sewing magazine for every woman who sews for herself and her family. Gift pattern printed inside the book.

Brownies Use Fruit To Fashion Santas

Using apples, marshmallows and cranberries, Brownies of Troop 316 made Santa Clauses Friday afternoon at a meeting in the home of the leader, Mrs. J. S. Knight. Mrs. Henry Dirks is assistant leader. The group sang carols and closed the party with the friendship circle; refreshments were served by Martha White, Jan. 9 is the date set for the next meeting, which will be held in the Knight home, 1104 South Monticello.

Dublins Host Luncheon

Mr. and Mrs. Charles M. Dublin were hosts for a family luncheon Sunday at their home, 600 Scurry. Honored guest was Mrs. O. T. Coffee of Ashland, Ore., Mrs. Dublin's sister.

Present for the occasion were their two brothers, Will Terry of Hobbs, N. M., and Mr. and Mrs. John Terry, John Ray and Shirley of Eunice, N. M., Another sister, Mrs. John Dublin of Midland, attended as did Mr. and Mrs. John Dublin Jr., Larry and Chris of Barnhart.

The gathering included the host couple's children, Mr. and Mrs. Howard Kemper, John and Dorothy Jean of Phoenix, Ariz., and Mr. and Mrs. Horace Garrett, Sue and Ann, Big Spring.

Display Yule Cards In A Unique Way

AP Newsfeatures
If you are bored with the old routine way of displaying Christmas cards in your home, put your ingenuity to work to make a Christmas card holder that may be stored away and used each year.

To make the Noel card holder, cut a piece of felt 5 inches long, 5 inches wide. Make a stylized angel; transfer it to the felt. Cut 5 five-inch squares of felt. Decorate each of 5 squares with scattered stars. These will form the pockets for the cards. Make stars with the decorator attachment set for the icicle stitch.

Form one complete stitch pattern. At the last stitch, lift the presser bar, pivot the fabric slightly, lower the presser bar and make another complete stitch pattern. Continue until a star is formed. Paste a colored star in the center of each to add a touch of holiday sparkle.

Baste pockets one above the other on the outline of the angel, starting at the bottom. Use under or top braider to stitch outline of the angel using gold soutache braid.

Put a couple of button holders at the top of the felt after turning the top down about an inch. Run soutache gold through it and tie in bow.

SANTA HOLDER
A free-form Santa doesn't need a pattern. A large circle can form the body, a smaller circle placed on top forms the head. The arms are two "bumps" drawn on either side of the circle.

A cap is placed on the top circle and two boots extend at angles at the bottom. Red felt goes to body and cap; black is good for boots and belt; pink felt is for the face, and odd scraps of colored felt may be used for eyes, nose and mouth. His beard, cap and boot edging, and tassel are made of white outing flannel.

Cut a piece of red felt that is the size of half of the body circle. Trim the top edge in a moon shape. Cut a 1-inch wide piece of black felt to fit this edge and baste into place to form belt.

Now place a piece of farlatan or other heavy backing in back of this pocket section. Set decorator attachment to arrowhead stitch, making a line of stitching down the center of the belt section, following the line of the belt.

Make two lines of stitching on either side of this with the blind stitch pattern of the automatic decorator. Using this same combination of stitches, make three vertical design lines in the center of the large circle in same pattern stitch.

This pocket section may now be placed on Santa's body by basting it. Applique body, head, cap and boots on to a piece of heavy backing material. Zigzag eyes, nose, mouth and moustache on to head.

Cut white outing flannel into 1 1/2 inch strips. Hem both edges with narrow hemmer. Place strips between two blades of the ruler so stitching will be in center of strip, and gather.

Fort Worth Nuptials Unite Sheila Sutphen, Benjamin Carter

Robert Carr Chapel at TCU was the setting for the nuptial service which united Sheila Sutphen of Fort Worth and Specialist 2.C Benjamin Hutchinson Carter, U. S. Navy, San Diego in marriage Friday evening.

The bride is the daughter of Mr. and Mrs. Mark Sutphen, Fort Worth, formerly of Big Spring. Mr. and Mrs. Wyatt R. Carter of Glendale, Calif., are parents of the bridegroom.

The Rev. Albert Venting, Baylor University professor, read the vows.

Donna Sutphen attended her sister as maid of honor. Bridesmaids were Carolyn Miller and Sally Coper, Big Spring; Robin Clay, cousin of the bride, and Natalie Helms of Alexandria, La. Toni Sutphen was her sister's junior bridesmaid.

Paul Carter of Burbank, Calif. stood with his brother as best man. Groomsmen were another brother,

Wyatt R. Carter Jr. of La Crescenta, Calif., Walt Marks of Redwood City, Calif., and Jim Teague, Fort Worth.

The bride was given in marriage by her father. Gowned in satin with appliques of Alencon lace, she carried a white orchid bedded in stephanotis. The basque was styled with portrait neckline, its lace appliques studded with pearls. White kid gloves complemented the shirred three-quarter sleeves. The dome silhouette skirt ended in a chapel-length train. Her strand of pearls was a gift from the bridegroom.

Yule Coffee Adds To Festivity

Mrs. Ladd Smith and Mrs. J. M. Hill added to the holiday festivities with a Yule coffee Saturday morning at the home of Mrs. Felton Smith.

Seasonal decorations were installed throughout the home. Silver appointments were set on the refreshment table, which was covered with an eggshell linen cloth. A Christmas candle stood at the center.

Mrs. John H. King, Mrs. E. P. Driver, Mrs. Roxie Dobbins and Mrs. Wally Slate alternated at the coffee service.

About 90 called between 10 a.m. and noon. Among them were two out-of-towners, Mrs. Edith K. Fisher of St. Louis, Mo. and Mrs. Richard Frazier, Midland.

Spoudazio For Has Dinner Dance

Red and green streamers transformed the IOOF Hall into a festive setting for a dinner dance Saturday night, when members of Spoudazio For entertained their husbands and guests.

Greenery and candles decorated the tables, and gifts were exchanged from a small pink and silver tree flanked by red candles in pink and silver holders. A special gift was presented to the president, Mrs. John H. King.

Mrs. Bob Bright acted as hostess and was assisted by Mrs. Ben Erwin and Mrs. Charles Lusk.

About 35 attended.

Davises To Amarillo

Mr. and Mrs. Dick Davis and family plan to leave Tuesday night for Amarillo. They will have the holidays with their parents, Mr. and Mrs. Silas Ellis, and will return Thursday evening.

Rice For Mold

If you want enough cooked rice to fill an 8 1/2 or 9 inch ring mold, you'll have to start with 2 cups of raw rice.

For The Hostess

Dainty daisy embroidery makes this lovely apron look so pretty whether worn for kitchen or hostess duty. P. S. An ideal gift! No. 275 has tissue; hot-iron transfer; full directions.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Add 10 cents for each pattern for first-class mailing.

Sammy Robertson Is Feted On Birthday

Sammy Robertson, son of Mr. and Mrs. Sam Robertson, celebrated his fifth birthday Saturday with a party.

Mrs. Robertson took note of Christmas in the decorations. She fashioned trees out of ice cream cones by icing them in green and trimming with colored candies. Three red bells adorned the white birthday cake, and red and green ice cubes chilled the red punch. Robin and Lucretia Drake and Jimmy Campbell won the prizes in the games. The ten guests received gift-wrapped favors from a lighted tree.

Coming From Illinois

Judge and Mrs. Charlie Sullivan are expecting their daughter and her family home for the holidays. The Rev. and Mrs. Preston M. Denton and children reside in Rockford, Ill. where he is pioneer missionary for the Illinois Baptist State Assn. and the Home Mission Board of the Southern Baptist Convention.

Yule In Denton

Mr. and Mrs. Harold Davis and family will depart today to spend the week with his relatives in Denton.

Missile Chief Shows Atlas' Path

Maj. Gen. Bernard A. Schriever, Air Force ballistic missile chief, points to where the Atlas satellite passes near the southwestern corner of the United States in its orbit around the earth. Schriever said the successful orbiting is a "very definite step toward putting man into space."

New Road Is Tentatively Added To County Program

Howard County Commissioners-elect on hand as observers, Monday morning approved a request by promoters of Suburban Acres south and west of Big Spring to add 1.25 mile of county road as a part of the 1959 county highway program.

MEN IN SERVICE

Army Recruit Homer H. Massey III recently completed eight weeks of basic combat training at Fort Riley, Kan. The 19-year-old soldier attended Handley High School. His mother, Mrs. Evelyn G. Rodeghiero, lives in Colorado City.

W. Germans Offer To Build Big Dam

BONN Germany (AP)—A West German industrial group, with firms from other Western countries, has made an offer to the United Arab Republic to build the controversial Aswan Dam, the government announced today.

Widow Tells Of Insurance

ST. LOUIS, Mo. (AP)—"That insurance—Jim and I didn't take it out for now. We hoped to have children."
Thus the young widow of James S. Bullock, victim of a mysterious killer Wednesday night, began her explanation of why there was so much insurance on her husband's life.

Santa Was't Falling After All

PORT HURON, Mich. (AP)—Coast Guard and Air Force rescue teams sprang into action today when a parachutist was reported going down in Lake Huron.
The three men and one woman set off 10 days ago from the Canary Islands to drift with the trade winds 3,000 miles to Barbados, in the West Indies.

Layoffs Increase

DALLAS (AP)—Layoffs at Chance Vought Aircraft, Inc., hit by two pre-Christmas contract cancellations by the Navy, soared toward 3,000 employees today.

Lon A. Strain Dies In C-City, Rites Tuesday

COLORADO CITY (SC)—Lon A. Strain Sr., 70, died in the hospital here at 7 a. m. Monday after having suffered a heart attack 12 hours earlier.
Mr. Strain, a prominent stock-farmer in the Fairview Community, had been a resident of Mitchell County for more than half a century. He was president of the Lone Wolf Electric Cooperative.

Services will be held at the First Methodist Church at 2:30 p. m. Tuesday with the pastor, the Rev. Clarence Collins, officiating. Burial will be in the Tevillie Cemetery. Kiker & Sons will take the body to the church at 12:30 p. m. Tuesday and it will lie in state until time for the services when the casket will be closed and not reopened.

Mr. Strain was born Sept. 24, 1888, in Parkersburg, W. Va., and married in 1917. He was a member of the United Methodist Church. He was a long time member of the Methodist Church and served as a steward. He also was a member of the Masonic lodge, had been a veteran of World War I and was active in rural improvements, including the REA program.

Surviving him are his wife; three sons, Lon A. Strain, Ross Strain and Wortham Strain, all of Fairview community in northwest Mitchell County; his step-mother, Mrs. J. M. Strain; three brothers, J. R. Strain, Tahoka, E. T. Strain, Colorado City, and J. L. Strain, Fairview. He also leaves three sisters, Mrs. W. L. Thorpe, El Cerrito, Calif.; Mrs. D. R. Jones, Abilene, and Mrs. Drew Cawthon, Cuthbert; two half brothers, Billy and James Strain, Fairview community; and four grandchildren.

Mrs. Lawson's Rites Set Today

Mrs. Edna Lawson, confined to a local hospital for the past six years, passed away at 4:40 p. m. Sunday. She was 75.

Mrs. Lawson was born in Oklahoma Aug. 8, 1883. Her husband, W. M. Lawson, preceded her in death in June, 1957.

Funeral services were to be conducted at 4 o'clock this afternoon at the Nalley-Pickle Funeral Home, with Rev. D. R. Phillips of Phillips Memorial Church in charge. She was to be buried beside her late husband in Trinity Memorial Park.

Survivors include a son, C. D. Lawson, Big Spring; a sister, Mrs. Pearl Bradley, address unknown; four grandchildren and six great-grandchildren.
Palbearers will be D. W. Powell, K. C. Harrison, Phillip Palmer, W. R. Weatherford, Dave Craddock and Truman Dennis.

U.S. Gives Aid To Slavs

BELGRADE (AP)—The United States today signed an agreement with Yugoslavia granting this Communist country nearly 95 million dollars U.S. economic aid.

The agreement was signed by U. S. Ambassador Karl Rankin and Dep. Foreign Minister Bogdan Cernobila.

The United States during fiscal year 1958-59 will deliver about 900,000 tons of wheat, 27,000 tons of cotton, 30,000 tons of edible oil and 10,000 tons of beans from agricultural surpluses.

Yugoslavia will pay in dinars, the local currency, in a counter-joint fund. About 60 million dollars of the fund will be made available to Yugoslavia as a 30-year loan for development of industry, mining, transport and agriculture.

Titan Crews Work Again

CAPE CANAVERAL, Fla. (AP)—The first attempt to fire a Titan, the nation's newest war rocket, has failed, but today the launching crew prepared for another shot in the near future.

Titan, first of the nation's so-called second generation missiles, spurted a flash of flame when the first stage engine ignited Saturday. Seconds later it spattered out when a malfunction occurred. The trouble apparently was caused by a fuel line hose that burst as the engine roared into action.

This was the first attempt to launch the Titan, a 90-foot two-stage intercontinental range ballistic missile which is being developed for combat use.

The Titan reportedly could easily match the 8,000-mile distance over which the Russians claim to have fired an ICBM.

Oil Man Scores Venezuela Tax Hike

CARACAS, Venezuela (AP)—A sudden 10 per cent hike in income taxes decreed by the government hurt industrial development in Venezuela, a spokesman for a major U.S. oil company said Sunday night.

The country's ruling junta announced the 10 per cent hike Saturday. Foreign oil companies will have to turn 60 per cent of profits over to the government instead of the 50-50 split in the past.

State Hospital Patients Are Being Remembered In Big Way

The once forgotten people at Christmas are being remembered in a big way again this season. More than 900 patients at the Big Spring Hospital will each receive gifts and will be feted to a party and refreshments this evening, thanks to generosity of people in this and the surrounding area.

Starting at 7 p. m. there will be a pageant staged by parties on hand. Various wards of the hospital department has provided the costumes and settings for the pageant.

Presentations—underclothing to supplement the limited supplies that patients have—are all on hand at the wards and this year, said Mrs. Ira Thurman, co-ordinator of volunteer services, there are spares in event there could possibly be a slip-up. The hospital population was "frozen" over the weekend so that there would be no inter-ward transfers except for emergencies.

Numerous clubs will be on hand to be hosts for the ward parties. Among them are:

- Ward 3 (male), Big Spring Lions Club; ward 4 (male), Big Spring Rotary Club; ward 7 (male), Big Spring Kiwanis Club; ward 9A (male), Big Spring ABClub; ward 9B (male), Big Spring Junior Chamber of Commerce.

Ward 5 (female), John A. Kee Rebekahs, Airport Baptist Church; ward 6 (female), the 1946-55 Hygiene Club and Big Spring Rebekahs; ward 8 (female), the 1948 and 1950 Hygiene Clubs and Exemplar Chapter of Beta Sigma Phi; ward 10A (female), Midland Volunteer Group; ward 10-B (female), XI Epsilon Delta of Beta Sigma Phi, the Altrusa Club, Woman's Forum and the volunteer group from Stanton; wards 1 and 2 (male and female), District Nurses Assn.

Arrangements for this big party have been shaped under the hospital advisory council, and more especially under Raymond River, chairman, R. W. Whipkey and Mrs. H. W. Smith.

Besides those who are actually helping in the ward parties, cash contributions have come from various other organizations. The out-of-town helpers include:

- The 20-30 Club of Lubbock; Methodist and Baptist Women of Ft. Worth; the Home Demonstration Club, Perennial Garden Club of Midland; the Christian Women's Fellowship of Plainview; Altrusa Club, Abilene Club, Alph Study Club, Altrusa Daughters and

Spring Junior Chamber of Commerce.

Garlen Club of Snyder; Masonic Lodge, Courtney HD Club, Tarzan HD Club, I. O. O. F. Lodge, Xi Alpha Beta chapter of Beta Sigma Phi, Phi Stantion; Forsan Study Club; Forsan Home Demonstration Club; Lee's HD Club; Andrews Study Club; 1941 Study Club of Coahoma; Borden County Group; McFarland circle of Presbyterian Church in Odessa; Vincent Baptist Women; the 1921 Study Club of Colorado City.

Other local organizations include Modern Women's Forum, Baptist Temple Circles, Christian Women's Fellowship, Temple Israel Sisterhood, Salem Baptist Church, the Rho Xi, Xi Mu, Beta Omicron chapters of Beta Sigma Phi, Spaders, Planters and Oasis Garden Clubs, the 1955 and 1953 and 1955 Hygiene Clubs, B&PW Club, Elbow HD Club, XYZ Club, Beaver Gamma, Eager Beaver Young Men's Club, Big Spring Credit Women, auxiliary of the BLF & E. The Future Homemakers of America Chapters of the area have collected and furnished stamped Christmas cards for patients to send home, and there have been countless individual gifts as well as gifts of materials and services.

Borden

Texas No. 2-E Clayton, C SW SE, 40-25, T&P Survey, penetrated to 8,431 feet in lime today. It is eight miles north of Vealmoor.

Plymouth No. 1 Johnson progressed at 9,262 feet in lime. The re-entered wildcat is C SE SE, 44-32-5n, T&P Survey.

Ashmun & Hilliard No. 1 Morris Miller, 10 miles east of Gail, deepened to 6,899 feet in sand and shale. The wildcat is C NE NE, 31-37, H&C Survey.

Hunt No. 1 Clayton made hole in lime and chert at 9,100 feet.

Paralyzing Cold Grips Northeast

Paralyzing cold gripped much of the Northeast as winter arrived today.

The mercury plumbed depths in the mountains of New England, New York and Pennsylvania. Unofficially, Blomington in the Adirondacks hit for low honors with a report of 33 degrees below zero.

Wanakena, N.Y., was credited officially with 31 below.

In New England a second day of subzero brought -23 to Lebanon, N.H., and Newport, Vt.; and -21 at Montpelier, Vt., and Presque Isle, Maine.

St. Marys, Pa., had 20 below, and Phillipsburg, Pa., 14 below. The big chill over most of the nation's eastern two-thirds, brought a 16 below zero as far south as Rome, Ga.

LUCK'S LUCK IS ALL BAD

At 2:55 a. m. today east of Coahoma Pk. Michael W. Luck ran out of—
Luck, course, who is with the 307 Engineers Battalion (Airborne) at Fort Bragg, N. C., was en route home in a 1957 Volkswagen convertible. Villa P. Pario Jr. was at the wheel. They had left Fort Bragg at 5 a. m. Sunday for San Diego, Calif., on holiday leave. Pario apparently fell asleep at the wheel, and three-fourths of a mile east of Coahoma the car left the road and overturned.

The two were brought to the Webb AFB hospital in a Nalley-Pickle ambulance for treatment, but neither suffered serious injuries. Not so the Volkswagen.

Garrett No. 1 Wright, C NE NE, 18-1, J. Poitevint Survey, was being drilled 7,288 feet today from operator prepared to cut a core today. The wildcat is eight miles southeast of O'Donnell.

Forest No. 1 Harris, 13 miles southwest of Lamesa, penetrated to 8,580 feet in lime and sand. It is 3,400 from south and 660 from east lines, League 267, Moore CSL Survey.

Dawson

Kerr-McGee No. 1 Slaughter made hole in lime, sand and shale at 7,345 feet. It is 3,520 from south and 540 from east lines, Section 4, Thompson Survey.

Blalock No. 1 Neff is a wildcat four miles northeast of Post, 330 feet from south and west lines, 9-25, H&G Survey, and it is contracted to 2,800 feet to try the San Andres.

The Conoco No. 1 Thuet swabbed lead today from Giorletta perforations 4,029-32, 4,037-41 and 4,047-61 feet after washing with 500 gallons of acid. The site is four miles northwest of Post, 990 from north and 330 from east lines of the southwest quarter, A-1063.

Southern Union No. 1-A Koonsman is staked as a wildcat 660 feet from south and east lines, 4-2, T&N Survey, 13 miles southwest of Justinburg. Drilling depth is 8,300 feet.

Humble No. 3 Slaughter drilled in shale at 17,170 feet. The wildcat is C SE NW, 12-1, Hays Survey.

Operator continued to swab oil and water from Ellenburger perforations at the Shell No. 1-G Slaughter wildcat. During an eight-hour test Sunday, it produced 62 barrels of new oil and 195 barrels of water. The site is 660 from north and east lines, Section 3, Abstract 1162.

R. S. Anderson, Midland operator, has received a Railroad Commission permit to operate what is believed the first triple pumper in the oil industry, the Anderson No. 1-B Skelly-Stoker in the multiphase Rocker A area.

The well now is pumping from the San Andres through perforations at 2,458-2,502 feet and from the Clear Fork in open hole at 3,242-47 feet.

Anderson proposes to produce the Giorletta through perforations at 3,027-48 feet and at 3,072-91 feet.

Paul Dickey, chief geologist for Anderson, said the zones would be pumped through two-inch tubing, one-inch tubing and a string of hollow sucker rods, all of which will be run side by side in the 3 1/2 inch oil string.

Garza

Humble No. 1 McKaskle, C NE NE, 12-35-1n, T&P Survey, still lacked 1,190 barrels of load oil and recovering 191 barrels of load and 72 per cent basic sediment and water over the weekend.

Husky No. 1 Knox took a drill-test test in the Spraberry today while bottomed at 8,102 feet after it tested the same zone from 7,821-923 feet, 1001 open 1 1/4 hours, and recovered only 45 feet of mud with no oil shows. The wildcat is 6,507 from south and 3,813 from west lines, League 253, Ward CSL Survey.

Cities Service No. 1 Glass, C SE SE, 29-38-1n, T&P Survey, today made hole in lime at 5,340 feet.

Plymouth No. 1 Flynn progressed in shale at 10,315 feet. It is a wildcat 660 from north and west lines, Labor 9, League 320, Garza CSL Survey, and 13 miles west of Lenorah.

Christmas Party Slated Tonight At Legion Hall

The annual Christmas Party for the American Legion and Auxiliary will be held tonight at 7:30 p. m. at the Legion Home on the San Angelo highway.

Santa Claus will be on hand to distribute gifts for the children and the adults will exchange presents. Members of the Auxiliary have decorated a Christmas tree and the Legion has provided candy and fruit bags for all the youngsters.

Parents should label a gift for their children and bring an unlabeled gift for a man and woman. Guest members also will be welcomed.

Wholesale Grocery Firm Being Moved To Midland

The Radford-Big Spring Co. wholesale grocery warehouse here is being closed and distribution operations are being consolidated with the Kimbell-Midland Co. in Midland.

The Kimbell organization has owned Radford-Big Spring Co. since 1952. The consolidation is being undertaken for economy and to enable the company to better serve the Midland-Big Spring area, said H. A. McFarland, Fort Worth. McFarland was here today to supervise the transfer of stocks to

Midland where a large new warehouse has been completed. Local personnel also are being transferred to Midland. Radford-Big Spring was operated by the J. M. Radford Grocery Co. before being sold to the Kimbell company in 1952. The wholesale warehouse here has been in operation for nearly half a century.

McFarland said more merchandise and better service will be provided for area merchants as a result of the consolidation at Midland.

Picket Lines Continued Here And At Garland

Pickets resumed their patrols around the Safeway store here this morning while other Big Springers continued to picket the Big Safeway warehouse at Garland.

About 25 employees of the local store went on strike Saturday morning after negotiations for a union contract broke down Friday at Brownwood. Store operations are being continued by other local personnel and workers brought in from Abilene, Coleman and Snyder.

According to Safeway officials, contract negotiations ended when the company refused to agree to withhold union dues from employees' paychecks. Agreement had been reached on all other points of a proposed contract, including salary increases for the next two years, company officials said.

John Capell, Kansas City, International representative of the Retail, Wholesale and Department Store Union, was on the scene here this morning. He refused to issue any statement on the dispute from the union's viewpoint.

Local union members have hinted that pickets may be set up around Safeway warehouses throughout the Midwest.

Safeway officials said today the company is starting to hire replacements for union workers who refuse to cross the picket line at Garland. The Garland warehouse is the distribution center for 126 Safeway stores in the area between Big Spring and Texarkana.

The RWDSU was recognized as bargaining agent for Safeway workers in several West Texas towns as a result of elections during the summer. The Big Spring local is tentatively set up to include workers in San Angelo, Brownwood and Hamlin.

Parked Car Hit

Only one accident occurred in Big Spring Sunday, and it was a hit-and-run. A car belonging to Joseph Baker of Greenville, N. C., was parked in a public lot here when it was hit by another vehicle. Police said that the other machine was probably a pickup.

WEATHER

WEST TEXAS: Partly cloudy and mild through Tuesday.
NORTH CENTRAL TEXAS: Considerable cloudiness, partly warmer through Tuesday.

5-DAY FORECAST
WEST TEXAS: Partly to mostly cloudy about 5 degrees above normal. Normal minimum to 22 north and 22 to 30 south. Normal maximum 48 to 65. No important changes. Widely scattered showers about Thursday, otherwise little or no precipitation.

Tibe Gain

Asian Nations Take Increased Oil Role

NEW DELHI (AP)—The nations of Asia, whether rich or poor, are taking a steadily increasing part in development of their oil businesses. The expansion of government participation in the petroleum industries applies to both exploration and refining, says a report to the Economic Commission for Asia and the Far East (ECAFE), a United Nations body. The report, presented at a recent ECAFE oil symposium, said development of new refineries, or modernization of old ones, has been one of the most striking trends in the Asian oil picture.

The boycott ended when the government agreed with big oil companies to reopen the huge Abadan oil refinery and Iran's extensive oil fields, the richest in the ECAFE area. India plans to build two government refineries and is taking an increasingly larger share in oil exploration. It has given notice that this trend will continue. In Burma, the government entered the business in 1954, taking a one-third interest in a joint company which produces, refines and markets. Indonesia operates the former Shell Oil Co. concessions in North Sumatra. Except for this, private enterprise handles the oil business, the report said.

Renteria Rites Are Pending

Pedro Martinez Renteria, 62, died unexpectedly at his home, 707 NW 9th St., Sunday. Arrangements are pending.

Mr. Renteria was born June 29, 1896, in Monterrey, Mexico. His survivors, in addition to his wife, Josefa, of Big Spring, include eight daughters and three sons, along with a sister, 48 grandchildren and six great-grandchildren. The daughters are Fepeencia Renteria, Big Spring; Erida Villarreal, New Braunfels; Erlinda de LosSantos, Seminole; Manuela Guerra, Torres, Calif.; Julia Garcia, Wichita Falls; Maria Neilson, Waco; Hortensia Moreno, Big Spring; and Vickie Munoz, Big Spring. The sons are Fermín Renteria, Floydada; Joe Renteria, Big Spring; and Erasmo Renteria, Fort Benning, Ga. The surviving sister is Leonor Lampin, New Braunfels. The body is at Nalley-Pickle Funeral Home.

Tibet Resistance Gaining Strength

TAIPEI (AP)—The resistance movements in Tibet and neighboring Chinese provinces are gaining strength, Nationalist intelligence sources claimed today. In some areas, they asserted, rebels for a time occupied key positions and forced Communist troops to take temporary refuge in mountains. The sources said the situation became so serious that Marshal Peng Teh-hual, Red China's defense minister, went to Tsinshai, on Tibet's northeast border, in October to direct operations against the rebels. They claimed that Peng's trip coincided with the cease-fire he proclaimed in the Qamoy area Oct. 6. This lasted 15 out of 21 scheduled days. Refugees who reached India last month were quoted as saying that Nationalist flags were being flown openly in the border area between the provinces of Sikang and Tsinshai.

Reports from Nationalist underground agents were said to have included these details: A big anti-Communist demonstration was staged in Lhasa, capital of Tibet, in late April. A force of more than 6,000 rebels clashed with Communist troops northwest of Lhasa Aug. 30 and killed about 500. The rebels also had two engagements with Communist troops of battalion strength, one in September, the other in October. Attacks by rebels have forced the Reds to resort to strong armed escorts on the Tibet-India road. In April rebels attacked seven villages in Sikang. They ambushed and killed the chief Communist party official of Chiangta County in June. Rebels occupied Yushu County in southern Sikang June 8 and did not withdraw until heavy Red forces were thrown against them.

Mushroom Fire

Smoke billows upward from a \$75,000 fire that wrecked the storage plant of a bottle gas company in Richmond, Va. Three trucks loaded with cylinders of propane gas exploded. Firemen brought the blaze under control two hours after it was discovered.

Rites Today For Mishap Victims

Funeral services were scheduled today for the two men killed in a head-on automobile collision about half way between Garden City and Sterling City Saturday night. Rites for John Thomas Rannels, 71, of Sterling City were to be held at 2 p. m. today in Fairmount Cemetery, San Angelo. Services for George Washington Eliot Jr., 21, of Midland were to be held at 4 p. m. today at the First Methodist Church in Midland.

Soviets Plan Vast Program Of Spending

MOSCOW (AP)—The Soviet government today announced a vast new program of spending on scientific research, social welfare and expansion of the Soviet economy. Finance Minister Arseny Zverev outlined the program to a joint session of the Supreme Soviet, the parliament of the Soviet Union, which opened its annual meeting to approve the government budget for the coming year.

The biggest jump came in the projected government investments to expand the Soviet production facilities — a huge increase of 71,400,000,000 rubles — or nearly 18 billion dollars — over the amount spent in 1958. Zverev said the expansion fund would total 484,300,000,000 — \$121,075,000,000 — including direct government investments of 308,700,000,000 rubles, and 175,600,000,000 rubles of profits from government enterprises to be ploughed back. Investments will be particularly increased, he continued, in the iron and steel, chemical, oil and gas industries, and in engineering. He also announced an allocation of 30,300,000,000 rubles — \$7,575,000,000 — for the expansion of agriculture.

Zverev said 27,300,000,000 rubles — \$6,825,000,000 — would be appropriated for scientific research. He compared this to a previous appropriation of 23,900,000,000. He said 232 billion rubles, or 58 billion dollars, would be spent in 1959 on education, health, social insurance and maternity benefits for prolific mothers, an increase of nearly 20 billion rubles over 1958. This will include more than 94 billion rubles for education, 44 billion for the health program, over 58 billion for social insurance and 5 1/2 billion for mothers.

As compared with 1958, the national income will increase by 8 percent and will be 140 per cent greater than in 1950," Zverev said. The finance minister called for increased labor productivity and lower production costs in industry, transport services and agriculture. The labor force is to increase by 1,300,000 workers, but the workers obviously are expected to produce still more than in past years in the campaign to overtake the American economy. Zverev said the Soviet government expects its budget revenues to rise to 72,900,000,000 rubles, an increase of 9.3 per cent over 1958, and expenditures to go up 10.8 per cent to 707,200,000,000 rubles. By contrast with the big rise in expenditures for education and social benefits, a slight decrease was promised in the defense appropriation. This was put at 96,100,000,000 — \$24,025,000,000 — as compared with a 1958 defense appropriation of 96,300,000,000 rubles. The finance minister said the defense budget "reflects the peace policy of the Soviet Union, a policy of preserving peace in the whole world."

(The actual figure for Soviet defense spending is far greater than that given for the defense appropriation but cannot be estimated. This is because much of the Kremlin's military expenditure is concealed under other budget headings.)
Succeeds Kuharich
WASHINGTON (AP)—Mike Nixon, backfield coach of the Redskins of the National Football League, today was named head coach to succeed Joe Kuharich. Nixon's appointment was announced by George Preston, chairman, president of the Redskins, shortly after Kuharich's appointment as head football coach at Notre Dame.

BIG SPRING DAILY HERALD

SECTION B

BIG SPRING, TEXAS, MONDAY, DECEMBER 22, 1958

SECTION B

LOOKING 'EM OVER

By TOMMY HART

Clint Murchison, the Texas "wheeler-dealer" who owned a piece of a local bank at one time, may be negotiating to purchase the Washington Redskins of the National Football League.

If he does acquire the club, he reportedly will keep George Preston Marshall in charge.

Two local people who were popular for Pasadena over Wichita Falls in last weekend's Class AAAA championship football game were Mr. and Mrs. R. D. Urey of 520 Dallas Street.

John Urey, son of the couple, is B team coach at Pasadena and served as a scout for the team much of the season. He took notes on the Coyotes in the Wichita Falls-Abbott game a couple of weeks ago.

John, who was a stellar athlete when he attended high school here and went on to play football at Southwestern University, formerly was head coach at Hearne.

No one seems to be neutral when it comes to discussing Richard Nixon, vice president of the United States.

Mr. Nixon took part in Gene Brito Day activities in Washington, D. C., when the Washington Redskins star went into retirement—and got booed for his efforts.

Only one change has been made in the 1959 football schedule of the Midland Bulldogs.

The "Dogs have dropped Snyder in order to add District 2-AAAA's newest member, Odessa Permian, to their schedule.

Midland opens conference play against Permian in Odessa Oct. 24. The Bulldogs play non-conference games with Lamesa, Amarillo, Palo Duro, Galena Park, Lubbock, Monterey and Corpus Christi Miller.

Seven of the 12 Odessa Junior College basketball players Coach Larry McCulloch will bring here next week for the annual Howard College Tournament held from outside the state.

Our Town was made to look bad in the eyes of a visiting team here the other evening when a local junior high school basketball coach had to operate the clock for almost half a game, when he should have been sitting with his team on the bench.

Are our schools that hard up for help?

Jim Tatum, the fast-talking football coach at North Carolina University, said recently that when he was hired as the Oklahoma mentor the university's objectives were to beat Texas one year in every three and Oklahoma State two out of three.

Now, under Bud Wilkinson, if OU loses to Texas once every five years the Sooners lose face. How times have changed.

Tatum also revealed that when he took over at North Carolina, the school's sports budget was \$430,000 and the Tarheels were making only about \$180,000 out of football.

The annual football "take" at NCU is up to over \$307,000 in the two years that he has been there, he stated.

Jim says he coached at Maryland University seven years.

"Some people say I coached nine," he quipped, "but Dr. (Curly) Byrd (school president when he arrived) was gone the last two years."

Tatum never tried to conceal the fact that he and Byrd's successor, ex-Texas Wilson Elkins, feuded from the time Elkins took charge.

Bob Turley, the New York Yankee hurler, is a rare bird among big league personalities. He thanks the people who ask him for his autograph.

2-AAAA Teams Boast 48-11 Mark In Basketball Play

Johnny Malaise's Odessa High School Bronchos boast the only undefeated record among District 2-AAAA basketball teams but all five teams are playing better than .500 ball.

The Bronchos, favorites to cop the conference crown, have won all 12 of their starts and recently were crowned champions of the Andrews Tournament.

Big Spring has been the busiest of the league teams, having played 15 games. The defending 2-AAAA titlist has won ten of those starts.

Midland has also been a ten-game winner. The Bulldogs, regarded as chief contenders to the Bronchos this season, have lost only to Seminole.

A surprise team has been the San Angelo Bobcats, which has compiled a 9-2 record and last week wrapped up title honors in the Del Rio Tournament, defeating a cross-town rival, Lake View, in the finals. San Angelo has lost only to Pampa this year. The Harvesters beat the Bobcats twice.

Abilene has also shown unexpected strength in its starts to date. The Eagles won seven of ten assignments.

One of the bright spots of the

Coaches For North-South All-Stars

Coaches for the Shrine North-South College All-Star football game to be played in Miami's Orange Bowl December 27, meet to check over their plans. Darrell Royal, head coach of the University of Texas and head coach for the South team, tries to hide his notes from rivals, David Nelson, head coach of the University of Delaware, left, and Ara Parseghian, head coach at Northwestern University, right, who will coach the North team. (AP Wirephoto).

11 Hangmen Swing Issue Giants' Way

By JACK HAND
Associated Press Sports Writer

NEW YORK (AP)—Notre Dame had its Four Horsemen, Fordham its Seven Blocks of Granite. Now we have the 11 Hangmen of the New York football Giants.

The 11 Hangmen who form the defensive unit of the Giants, tightened the noose around the neck of Jimmy Brown Sunday afternoon and sprung the trap on Coach Paul Brown's Cleveland Browns.

Because of their inspired defensive play and the opportunistic offense of Chuck Conery, Frank Gifford, Alex Webster and Co., the Giants have won the Eastern Conference title of the National Football League.

The 10-0 shutout of Cleveland engineered by Conery's first touchdown on the season—on a lateral from a double reverse—and Pat Summerall's 13th field goal, sent the Giants into the championship game next Sunday with the Baltimore Colts.

The title game also will be played at Yankee Stadium, scene of the Giants' two exciting games with the Browns. It will be carried on network television NBC with New York and the Browns.

A NEW HONOR

Fields Is Named To 'Super' Team

Wayne Fields, Big Spring's fabulous tailback, has garnered a new honor.

The big senior Sunday was named to the "Super All-State" football team chosen by the Fort Worth Star Telegram. He is the second Big Spring player in history to be named to the elite team. The first was Jerry Graves, sensational center of the 1956 team.

Fields was the only District 2-AAAA player chosen to the club, which is made up of players from all classifications in the state.

No. 1A player was named this year, however. Outside of Fields, Class AAAA players honored were Leland Allred, Wichita Falls end; Carl Choate, Pasadena end; Mike Gieb, Garland tackle; David Duwe, Highland Park guard; Johnny Cole, Fort Worth Carter Riverside center; and Hix Green, San Antonio Jefferson back.

Green is the only junior on the club. The others, of course, are seniors.

Fields, despite the fact that he missed one game and hobbled in two others due to injuries, gained a net total of 901 yards rushing, 121 more than the next best runner in District 2-AAAA. He scored 60 points in those nine games, caught nine passes for 79 yards, hit five of ten passes for 37 yards and had a phenomenal punting average of 44.1 yards. The latter figure is all the more impressive, considering the fact that one of his boots was blocked.

The mythical team, chosen by scribe Johnny Morrison, averaged

196 points in the line and 178 pounds in the backfield.

The team:
Ends — Leland Allred, Wichita Falls; and Carl Choate, Pasadena.
Tackles — Charles Huddleston, Breckenridge; and Mike Gieb, Garland.

Guards — David Duwe, Highland Park; and Paul Knott, Cleburne.

Center — Johnny Cole, Fort Worth Carter-Riverside.

Backs — Don Campbell, Bonham; Hix Green, San Antonio Thomas Jefferson; Donald Davis, Stamford; and Wayne Fields, Big Spring.

Harry Wills Dies At 66

NEW YORK (AP) — The Old Brown Panther, who received \$50,000 for not stalking Jack Dempsey, is dead at 66.

Harry Wills, one of the heavyweights who lighted boxing's star-studded sky during the Roaring Twenties died Sunday night in Jewish Memorial Hospital from diabetes.

Wills, who earned the tag "Old Brown Panther" because of his smooth, lithe feinting and side-stepping motions in the ring, had more than 100 recorded fights. He was known long after he ended his ring career in 1932 for his gruelling, month-long diet sessions.

But the most famous bout for which he signed was the one with Jack Dempsey that never came off. The New Orleans-born Negro later claimed it was the racial issue that caused Dempsey's lawyers to forfeit the champ's \$50,000 purse.

The fight had been boomed for years, but Dempsey's camp managed to sidestep until Wills fought Luis Angel Firpo in September, 1924 in Jersey City. Earlier, Firpo had knocked Dempsey right out of the ring.

That Firpo fight brought Wills a \$150,000 purse, his largest pay day ever. Most ringside observers agreed that Wills had the best of Firpo.

Wills' career began in 1911 in New Orleans and spanned 21 years. Twenty-two of his fights were with Sam Langford, another of that generation's great heavies.

Side-by-side with his boxing game, came notoriety from his annual month-long fast. For 38 years, during and after his boxing career, Wills would avoid food for 30 days to "burn off the impurities."

Search To Resume

WACO, Tex. (AP)—The search for a new head football coach of Baylor University will be launched after the Christmas holidays.

TCU, A&M And Tech Favored In SWC Meet

By The Associated Press

Southwest Conference basketball teams play each other for the first time this week and will establish if the three that were top-rated before the season started—Texas Christian, Texas A&M and Texas Tech—will live up to their ratings.

Chances are that Southern Methodist will edge deeply in to the picture. The intersectional campaign that winds up with the exception of a few scattered games showed that SMU may be as strong as last season when the Methodists tied for the championship.

The family squabbles came in the annual pre-season tournament at Houston Friday, Saturday and Monday. They won't count for the Birmingham Classic but atoned for it by downing Wyoming 74-64 to win third place.

Texas A&M lost a game last week and it removed the last unbeaten team. The Aggies took a 66-62 trimming from Alabama in the Birmingham Classic but atoned for it by downing Wyoming 74-64 to win third place.

As the teams look toward the pre-season tournament Texas Christian and Texas A&M are tied for the lead with 5-1 records and Texas Tech and Southern Methodist are a half-pace back with 5-2.

Two of the lower division teams—Rice and Baylor—have intersectional games Monday night. Rice plays New Mexico at Albuquerque trying to make up for an unexpected 58-53 licking from New Mexico State Saturday night. Baylor engages Vanderbilt at Nashville.

The league failed to break even in intersectional strife last week, losing eight while winning seven, but stayed ahead for the season. The record now is 21 victories against 18 losses.

Southern Methodist was most impressive, beating Oklahoma 59-51 and Minnesota, a well-rated outfit in the Big Ten, 67-58. Texas Christian beat Loyola of New Orleans, 67-60, in the only game of the week had been beaten. Texas Tech, 62-57, Missouri had downed Rice 68-62.

Arkansas had a bad week, taking a 62-54 trimming from Bartlesville, Okla., and a 54-52 upset from Tulsa. Baylor lost to Tulane, 63-55. Rice's only bright spot was a 60-51 decision over the same Tulane.

Playing against the home folks, Baylor and Texas managed victories. The Bears beat Abilene Christian, 65-58, and Texas downed North Texas State, 76-54, in the tournament at Houston.

The opening round Friday sends Texas Christian against Baylor, Southern Methodist against Arkansas, Rice against Texas and Texas A&M against Texas Tech in the opening round. The Aggie-TCU contest looks like the most important game of the lot.

The alert deep defense of Lindon Crow (he intercepted two), Carl Kariavicz, Jim Patton and Earl Tunnell turned in an excellent job when Cleveland's badly rushed passers took to the air. Milt Plum, who was injured in the first half, and Jim Nowiski, completed 10 of 27.

But all the defense in the world wouldn't have helped the Giants if they hadn't been able to score. The only touchdown was a tricky thing on a frozen field, an 18-yard play late in the first period.

Conery took the ball from center and handed off to Webster coming around from right half back. Webster gave it to Gifford, reversing from his left half back spot. Gifford cut through the right side of the line to the 10 and then tossed a basketball-type lateral that carried about 15 or 20 yards to Conery, who went all the way.

"I don't know when I scored before," said Conery, the 37-year-old quarterback from Ole Miss who has thrown 144 touchdown passes.

"It was something new we put in this week," said Conery. "The lateral on the field was optional, I'm out there and he (Gifford) knows I'm there."

The Giants' other points came on Summerall's 26-yard field goal set up by a 35-yard pass from Conery to Bob Schnelker.

Jimmy Brown simply was defended right out of the ballpark, with Huff his particular tormentor.

"That's the end of Brown for this year and am I glad," said Huff as friends crowded around his locker.

In the other clubhouse, Jimmy had no excuses. "They just played even harder than last week, more determined," he said.

Coach Paul Brown, whose Browns were blanketed for the first time since 1950 and beaten three times by the same team for the first time in any one season, was generous with praise.

"You saw a fine team today, men," he said. "It was a tough, hard nosed game. We were just overpowered in the line. They had a full head of steam up. We had to pass and it had to be excellent. We weren't excellent."

Coach Jim Lee Howell, already "scared to death" about the title game with Baltimore, couldn't say enough in praise of Landry's work with the defensive unit.

"They played the best defensive ball I ever saw a club play against a real good team," said Howell.

KUHARICH WILL TAKE IRISH GRID POST

JOE KUCHARICH

SOUTH BEND, Ind. (AP)—Joe Kuharich, coach of the professional Washington Redskins, has been named to replace Terry Brennan as head coach of the Notre Dame football team. Athletic Director Edward (Moose) Krause announced today.

SOUTH BEND, Ind. (AP)—Terry Brennan, Notre Dame's sixth football coach since the death of Knute Rockne in 1931, was fired Sunday night after a five-year record of 32 victories and 18 defeats.

No definite reason was given for the dismissal other than the action had been recommended to Rev. Theodore M. Hesburgh, C.S.C., president of Notre Dame, by the

faculty board in control of athletics. Father Hesburgh, who said he accepted the board's recommendation "with great reluctance," gave no indication who would succeed Brennan.

Brennan, 30, who admitted having known of his dismissal for a couple of days, said he did not know whom his successor would be but added "I can only say it will not be someone at Notre Dame."

Brennan said he is not sure what his plans are but "I'd like to remain in coaching. It all happened so fast, I haven't had time to reflect. I'll think about it for a couple of days and decide after that."

Although he experienced only one losing season, Brennan's stay at Notre Dame was turbulent. After a successful tenure with Mt. Carmel High School in Chicago where his teams won an unprecedented three straight city championships, Brennan went to Notre Dame as freshman coach in 1953.

Early in 1954, he was named to succeed Leahy who quit with a record of 87-11-9—second only to Rockne's 105-12-5.

Because Brennan was only 25 then, there was some grumbling but this died out quickly when Notre Dame finished with a 9-1 record, losing only to Purdue. In 1955, Notre Dame had a respectable 8-2 record.

Breckenridge loses those great runners, Joe Ed Pesch and Jimmie Wilson, who started so brightly in the victory over Kingsville.

Stamford returns only one starting back, Charley Helmer; one end, Duane Lindsey; one guard, Bobby Gambin, and center Wendell Robinson. Those two fine backs, Donnie Davis and Fred Upshaw, are the big losses. Stamford had only fair reserves and doesn't appear now to be of 1958 caliber.

White Deer, coached by Otis Holladay, looks to be building a dynasty in the Panhandle. The Bucks lost all of the starting line except big guard Bryan Cody, and only Jackie Burns returns in the backfield. But the reserves were strong and the B team was terrific. Two freshman backs, Joe Grange (said to be a distant relative of Red Grange) and Don Carter, shone brightly when brought up to the varsity for the playoffs. Grange is a top passer and Carter is a strong runner.

White Deer was the only team in the state to finish undefeated. It was tied by Stinnett 6-6 in the second game of the season and Coach Holladay said this "made" the team. "They got rid of the assumption they were so mighty they didn't have to work to win," observed the coach.

It was the second time in the playoffs for White Deer, which was eliminated in the second round last year.

COYOTES HIT HARD

Breck To Return A Powerful Team

By The Associated Press

Two of the four Texas schoolboy football champions—Breckenridge and White Deer—should be as strong as usual next season but the others, Wichita Falls and Stamford, don't appear quite up to it.

All won smashing victories in the finals Saturday. Wichita Falls took the Class AAAA title for the fourth time with a 48-6 decision over Pasadena. Breckenridge swept up the Class AAA championship for the fourth time in eight years with a 42-14 strapping of Kingsville.

Stamford beat Angleton 23-0 for the Class AA crown and White Deer whipped Elgin 44-22 for the Class A title. It was Stamford's third state championship. White Deer was in the finals for the first time.

Wichita Falls loses all its starting line and two of its backs. Returning are hard-running Travis Reagan and Dickie Turner. Many boys got to play because of the big scores run up by the Coyotes in the drive to the finals so there'll be a fair nucleus of experience.

Breckenridge should be just as powerful with six regulars returning along with seven other lettermen. Starters back include quarterback Jerry Gibson, fullback Dickie Rogers, end W. H. Roberts, tackle Glenn Dixon, center Ronny Martin and guard Eddie Hyatt, Jimmy Wright,

another top quarterback, also will be on deck.

White Deer was the only team in the state to finish undefeated. It was tied by Stinnett 6-6 in the second game of the season and Coach Holladay said this "made" the team. "They got rid of the assumption they were so mighty they didn't have to work to win," observed the coach.

It was the second time in the playoffs for White Deer, which was eliminated in the second round last year.

Pitt-Irish Game Proved To Be The Top Thriller

By The Associated Press

For thrills and drama three games played on the same Saturday—Nov. 9—topped the 1958 college football season.

They were Pittsburgh's 29-26 conquest of Notre Dame, a 60-15 romp by Arkansas against Hardin-Simmons and Army's torrid 14-7 victory over Rice.

The season provided plenty of spectacular and exciting games and incidents for nearly 200 sports writers and broadcasters who named the season's highlights in response to the Associated Press post-season questionnaire. They mentioned about 35 or 40 different occurrences.

The Pitt-Notre Dame game, previously picked in the second spot among the season's most outstanding games, drew 18 assorted votes as the most spectacular of the year. The experts figured Ohio State and Iowa had put on a greater over-all performance but it didn't have as many thrills.

It was a beat-the-clock finish of a game that had been exciting from the start that made the struggle between Pitt's Panthers and Notre Dame's Irish so exciting. Pitt led 15-14 at half time after getting the first two touchdowns.

Notre Dame went ahead in the

third quarter, but Pitt came back to make it 22-20. In the final period George Izo fired a pass to Bill Mack, who was downed on the Pitt two, then Izo sneaked over to put the Irish ahead 26-22.

The end was near, but the Panthers had time to drive to a first down on the six. There Notre Dame held three times, but on fourth down Pitt's alternate quarterback, Bill Kaliden, went around end behind a screen of blockers and reached the end zone barely in bounds.

There were only 11 seconds left when Kaliden scored and Norton Seaman kicked the point. That was just enough time for Notre local fans to enjoy a final thrill for 55,000 fans. After the kickoff Izo fired another tremendous pass to Mack, who was pulled down 15 yards from the goal as the game ended.

Two players collaborated in a unique and spectacular performance for Arkansas. In a lopsided game, Jim Mooty took a Hardin-Simmons kickoff in the end zone and ran more than 100 yards for a touchdown. The next time Hardin-Simmons kicked off, Billy Kyrse contributed another 100-yard run.

Hopman Foresees Aussie Victory

BRISBANE, Australia (AP)—Harry Hopman, Australia's wily Davis Cup captain, saw the United States rout Italy in the interzone final over the weekend in Perth, but he was far from impressed.

Cookies—Always In Demand

Hurry And Bake Those Festive Cookies For Your Holiday Guests

Happy the guests, whoever they are, who visit a house with a full cookie jar!
You may not find time in the bustling days before Christmas to embroider that sentiment and tack it up on the kitchen wall, but it's a good motto to bake by. Whether your guests come by invitation or by surprise in twos and threes or by the dozen, they'll go home happy if they've had holiday cookies to nibble while they admired the tree.
These days there's a new and speedy way to bake holiday cookies that makes the full cookie jar no fuss, and all fun. The festive secret: use rolls of sliced bakers' cookies from the grocer's dairy case. There are four flavors to choose from, and any of them can be rolled out and shaped with cookie cutters, or sliced and arranged into trees and wreaths on baking sheets.
These bar cookie variations are sliced and layered in square pans with date or gum drop filling—or coconut-meringue topping. Here's how:
YUMMY GUM DROP SQUARES
Line 8x8x2-inch pan with alumi-

num foil, leaving edges long. Slice 1 roll of Pillsbury slice'n bake cookies 1/4-inch thick. Arrange about half of slices in pan, pressing out to cover with remaining cookies.
Bake in moderate oven (375) degrees 14 to 15 minutes. Sprinkle lightly with confectioners' sugar. Cool about 15 minutes. Lift out of pan; peel off foil. Cut into squares, dipping knife in water as necessary. Makes about 1 1/2 dozen.
DATE-FILLED BARS
1 Roll Pillsbury slice'n bake cookies
1 cup dates, cut in small pieces
1 teaspoon grated lemon rind
1 teaspoon lemon juice
1/4 cup firmly packed brown sugar
Confectioners' sugar
Slice cookies about 1/4-inch thick; arrange half of slices in bottom of greased 8x8x2-inch pan. Combine dates, lemon rind and juice and brown sugar; mix well. Spoon evenly over cookies in pan. Top with remaining cookie slices.
Bake in moderate oven (375) degrees 20 to 25 minutes. Cool slightly before cutting into bars. Sprinkle with confectioners' sugar.

Makes about 1 1/2 dozen.
COCONUT MERINGUE BARS
1 Roll Pillsbury slice'n bake cookies
1 unbeaten egg white
3 tablespoons sugar
1/4 cup coconut
Slice cookies about 1/4-inch thick; arrange in bottom of greased 8x8x2-inch pan. Bake in moderate oven (375) degrees 15 to 20 minutes.
Beat egg white until soft peaks form. Add sugar gradually, beating well after each addition. Continue beating until meringue stands in stiff peaks. Fold in coconut. Spread over hot baked cookies. Place 4 to 5 inches under broiling unit and broil until lightly browned, 2 to 3 minutes. Cool; cut into bars, dipping knife in water as necessary. Makes about 2 dozen.

Fruit Garnish Adds Beauty And Flavor

This is a recipe quick to prepare, pretty to look at, delicious to eat. What else could you ask of a fruit garnish for meat?
CRANBERRY PEAR GARNISH
Ingredients:
1 lb. cranberries
2 cups sugar
1 cup water
1 tsp. salt
1/4 tsp. ginger
1/4 tsp. cloves
1/2 tsp. cinnamon
Canned pear halves
Method:
Wash cranberries in cold water; drain. Place in a medium-sized kettle with sugar and water. Cover and cook until skins pop—about 5 minutes. Stir in salt, ginger, cloves and cinnamon; cool.
Chill until almost a soft jelly-like consistency. Makes almost 4 cups. Heat pear halves in a little of their syrup; drain. Fill center of pear halves with cranberry sauce.
Refrigerate remaining sauce and use as desired.

Salad Extra
If shallots are available in your market, try adding a small one (minced) to a green salad.

Cheese Gives Zing To Soup

Used alone or as a complement, cheese offers its own brand of magic in the realm of food.
To most of us, however, it is relatively new as an addition to soup. Its flavor adds zing to winter's old faithfuls and you will want to try it.
Here are two soup recipes, each makes four servings:
FRENCH ONION SOUP
1 tsp. butter
2 cups thinly sliced onions
2 cups water
4 bouillon cubes or
4 tsp. beef extract
Toasted French bread
Grated Parmesan and Romano cheese
Melt butter in large skillet or

heavy saucepan. Brown onions, stirring constantly. Add water, and bouillon cubes or beef extract. Cover and simmer 1 hour.
Ladle into soup bowls. Top each bowl with slice of toasted French bread and sprinkle with the grated cheese.
LUCIA'S CHICKEN BROTH
3 chicken bouillon cubes
3 cups boiling water
1 pkg. (10 oz.) fresh spinach or 1 pkg. frozen chopped spinach
1-3 cup grated Parmesan and Romano cheese
Cook spinach in broth for ten minutes. Add grated cheese. Stir until cheese is melted. Serve immediately.

Glazed Ham—Traditional Holiday Fare

Baked Ham Will Be Set On Many A Table This Merry Season

By CECILY BROWNSTONE
Associated Press Food Editor
Many a ham will be baked during the holidays. And many a cook will swear by her particular method of glazing the roast so it looks handsome and tempts tasters.
What do cooks take sides over? First off, there's the matter of scoring. Scoring a ham means to mark the fat with a sharp knife into a desired pattern—usually diamond shapes—making sure the cuts are no more than 1/4-inch deep.
Some kitchen experts say a ham takes a glaze best when it is left unscored during the baking because then "the tender fat tissues are not broken down." Others disagree; they say that the fat tissue breaks down anyway during the meat's own stay.
Then there's the glaze itself. What should go along with the su-

gar that's used as a covering for the meat? Some cooks like the old-fashioned way of mixing it with equal parts of fine bread crumbs; others like to add a little flour.
And there's a school of cookery that says dry mustard is a "must" in a ham glaze. What about the liquid that moistens the sugar concoction? When you get to this you have a variety of preferences. Most popular of all are the fruit but there are also devotees of ginger ale, cider and sherry.
When should the glaze be added? You'll find rules that direct you to plaster the sugar mixture onto a fully-cooked ham before it goes into a slow oven for heating. Other cooks like to heat the ham through in a slow oven, pour off the drippings, then add the sugar mixture and put the meat back in a hot oven for 15 to 30 minutes to glaze and brown.

Whatever method you prefer, here's a spiced sugar and fruit juice mixture that will give a 6-pound fully-cooked ham a beautifully roddy color. Be sure to use a roasting pan that's just big enough to hold the ham so the glaze runs down in a thick layer, and add extra fruit juice or water to the sugar mixture if it gets too dark.
SUGAR AND SPICE HAM GLAZE
Ingredients:
1 cup firmly-packed light brown sugar
3 tps. dry mustard
1 tsp. ground allspice
3 tps. pineapple juice
Method:
Make sure sugar is free of lumps. Mix all ingredients together and spread generously over fully-cooked ham. Use method desired for the oven-glazing.

Use Leftover Turkey In A Casserole

Here is a fitting finale for the big turkey, or what is left of it after the guests have enjoyed the bird through two meals on Christmas Day.
It calls for only two cups of leftover turkey and is made with packaged prepared stuffing that should be as handy as your pantry shelf. Incidentally, this recipe can be used also with cooked chicken, ham, veal, or fish.
TURKEY SUPREME
2 cups sliced or diced cooked turkey
1 pkg. frozen string beans, French-cut; cooked till almost tender
1/4 can sliced blanched almonds
1 can condensed cream of mushroom soup
1/2 cup milk
2 cups prepared packaged stuffing
2 tps. butter melted
1/4 cup hot water
In buttered shallow baking dish, distribute 2 3/4 cup of packaged prepared stuffing crumbs. Arrange beans in layer over crumbs; then scatter on almonds. Over this, put turkey.
Blend condensed soup with milk pour over casserole. Top with remaining 1/3 cup stuffing crumbs blended with 1/4 cup hot water and melted butter. Bake in hot oven (400 degrees) 25-30 minutes, or until nicely browned and bubbly.

Trace Santa In Cake Icing For Small Fry

If you want to make a big hit with the small fry among your holiday guests, dedicate one cake to them. You can frost it in white icing, tint part of the recipe and use it for painting a Santa Claus on top.
Should you serve it between meals, a cup of hot cocoa will be a perfect teammate and will be nourishing as well.
Fruit Filling
Sliced bananas, strawberries and oranges are all delicious served in orange juice. Nice for Sunday brunch.
Fried Sandwich
Ever make jam sandwiches and then dip them into an egg-and-milk mixture and fry in butter like french toast?
Blend condensed soup with milk pour over casserole. Top with remaining 1/3 cup stuffing crumbs blended with 1/4 cup hot water and melted butter. Bake in hot oven (400 degrees) 25-30 minutes, or until nicely browned and bubbly.

Here are the instructions for creating your St. Nick out of icing. He will be the star of the feast, as far as the children are concerned.
SANTA CAKE
Bake a chocolate cake, based on two cups of flour, in a roasting pan that is 15 by 10 by 2 1/4 inches and lined with waxed paper. Cool the cake in the pan; invert cake and remove paper.
Frost with seven-minute frosting made with two egg whites. Use about 1-3 of the frosting to spread over the top and sides of the cake; allow frosting to get firm.
Using a paper pattern, outline a Santa Claus on top of the cake with the point of a wooden skewer. Reserve 1/4 of the remaining frosting. Tint remaining frosting with red food coloring. Use the red frosting for Santa's coat, pants and cap; use reserved 1/4 cup frosting for face, beard and fur trim; use morsels of semi-sweet chocolate for buttons and buckle.
Melt 1/2 of a 6-ounce package (1/2 cup) semi-sweet chocolate pieces over hot (not boiling) water; use for Santa's sack and boots. Arrange hard candies for Santa's boys.

Dessert For The Tots

When dessert time comes Christmas Day, bring on a cake with Santa Claus traced in the icing and listen to the youngsters' cries of joy. It's easily done, with food coloring, chocolate morsels and hard candies.

Poultry Must Pass Inspection, Says Ruling

Have you noticed the little circular inspection mark showing up on ready-to-cook poultry packages these days? It reads, "Inspected for Wholesomeness by USDA."
Watch for it the next time you buy dressed chicken, turkey, goose or duck. It's important to the health of you and your family. It means that the poultry in the package was packed as clean, wholesome food, under the most sanitary conditions modern technology can provide.
Poultry processors have paid a lot of attention to details that make it possible for them to use the mark. Some even have remodelled their plants. All are using approved water, chemicals and methods.
After January 1, according to the Poultry Products Inspection Act, all processors who ship poultry across state lines will have to qualify for inspection. Consumers and processors asked for it in the interest of public health.
Here's how the program works.

USDA provides a veterinarian-inspector for each cooperating plant. He or his assistants inspect the live birds and the dressed product. All diseased birds or those otherwise unfit for human food will be condemned. The others, processed under most-rigid sanitation, become eligible for the "Wholesomeness" mark. It will be on the package you buy.
Inspection of poultry isn't really new. Some plants have been using USDA inspection for 30 years. After January 1, however, the program becomes compulsory, just as it has been for red meats for 50 years.

Last Minute Tips For Holiday Menus Given

By now you have your holiday menus well in mind. But we would like to pass along some little tricks that might help you round out the culinary offerings at this festive time of year.
Time's running out, so if you feel panicked about the supply of homemade candy, rest at ease. Some of the best you ever ate can be made in a matter of minutes. Simply melt a couple of

packages of marshmallows in a double boiler and add nuts, as many as you like. Remove the mixture to cool a bit, then pour the confection onto a bed of shredded coconut. Shape into a long roll and slice. If desired, tint the coconut red or green.
Planning to have a molded fruit salad? Top it with an elegant dressing made of a cup of dairy sour cream with 2 tsp. of the

syrup drained from the canned fruit used in the salad. A dash each of salt and confectioner's sugar will season it.
When preparing gravy from roast turkey drippings, add two or three drops of soy sauce just before removing the gravy from heat. The sauce imparts an exotic flavor.
When hosting a holiday buffet, never forget to provide something made with cheese. Wonderful appetizer! One way to do this is to make cheese balls of relish cheese spread; roll in 4 tsp. chopped parsley or chopped nut meats.
Celery can enter the picture, stuffed with any number of cheese spreads. If you choose to make your own filling, grate cheddar cheese, mix it with a bit of mayonnaise and finely chopped pimiento, and season with onion salt and a dash of Worcestershire sauce.

SPICE VOCABULARY

CHILI POWDER, a blend, offers a distinctive flavor and a bright coloring ranging from light to dark red.
Chili Powder is compatible with Mexican cookery, chili con carne, meat loaf, hamburgers, beef, pork, veal, stew; French dressing, cocktail sauces, vegetable relishes; fluffish creamed seafood; boiled and scrambled eggs; Spanish rice, gravies, peppercot soup.

Hearty Salad, Soup Make Easy Lunch

Pair soup with salad for an easy-to-get lunch. This blending of tuna with eggs will make a substantial meal.
TUNA-STUFFED EGG SALAD
Ingredients:
6 hard-cooked eggs
1 can (6 1/2 ounces) chunk-style tuna (drained)
3 tps. minced green pepper
2 tps. mayonnaise
1/4 tsp. Worcestershire
Paprika
Salad greens
Method:
Cut eggs in half lengthwise; remove egg yolks; reserve yolks. Mix tuna, green pepper, mayonnaise and Worcestershire sauce. Fill egg whites with tuna mixture; sprinkle with paprika.
Arrange salad greens on 4 plates; top each plate with 3 stuffed egg halves. Force egg yolks through fine sieve over eggs on each plate. Makes 4 servings.

Denver Eggs

Ever serve Denver scrambled eggs? Add sauteed onion, green pepper and diced ham to the eggs before scrambling. Good between slices of well-buttered toast with an accompaniment of chili sauce.

Kitchen Tools

If you bake a lot, you'll find it convenient to have both a 1-cup and a 4-cup flour sifter in your kitchen.

Hearty Dishes Are Welcome In Winter

At this time of year, hot food with hearty flavor is the combination folks are looking for.
Try your luck with these two recipes:
BAKED MACARONI WITH CHEESE SAUCE
2 cups (8 oz.) elbow macaroni
2 tps. butter or margarine
2 tps. flour
2 cups milk
1 tsp. salt
1/4 tsp. pepper
1/2 tsp. dry mustard
2 cups grated American cheese
1/4 cup corn flake crumbs
2 tps. butter or margarine, melted
Cook macaroni according to package directions only until tender. Drain, rinse and drain again. Melt butter; stir in flour. Add milk gradually, stirring constantly. Cook until thickened, stirring occasionally. Add seasonings and cheese; stir until cheese is melted.
Combine macaroni and cheese sauce; pour into greased 1 1/2-quart casserole. Mix corn flake crumbs and melted butter; sprinkle over macaroni. Bake in moderate oven (350 degrees) about 20 minutes. If desired, garnish with chopped parsley just before serving. Yield: 6-8 servings.
Variation: Combine 1 cup chopped cooked ham, tongue or corned beef with macaroni and cheese sauce before pouring into casserole.
CINNAMON APPLES WITH SAUSAGE
1 cup sugar
1/2 cup water
1-3 small red cinnamon candies
6 cored firm apples (peeling removed from top half)
18 little pork sausages
Heat oven to 350 degrees (moderate). Boil sugar, water, and cinnamon candies together five minutes. Place apples peeled-side-down in hot syrup and cook 5 minutes. Brown sausages in skillet.
Remove apples from syrup and place peeled-side-up in individual custard or muffin cups or in one large baking pan. Place three browned sausages in center of each

apple. Pour red cinnamon syrup over all.
Bake 30 minutes until tender. Serve hot in leafy green wreaths of watercress or lettuce, accompanied by fluffy rice with a hot cheese sauce. Six servings.

Salad Stars Colors Of The Season

For your holiday buffet, don't forget a salad which is not only savory but combines the beautiful colors associated with this festive season.
Here is one that answers the purpose.
HOLIDAY SALAD
Ingredients:
4 cucumbers (each 8 to 10 inches long)
1-3 cup cider vinegar
1 tsp. cold water
2 1/2 tps. salt
4 tps. sugar
1/2 to 3/4 cup minced parsley
2 drained canned pimientos
Method:
Pare 3 of the cucumbers with a swivel-blade vegetable peeler; pare remaining washed and dried cucumbers, leaving some of the dark green outer covering remaining so there is a lengthwise striped effect. Run the sharp thin times of a fork down cucumbers; slice very thin.
Stir together the vinegar, water, salt and sugar until sugar dissolves; mix with cucumbers. Cover and refrigerate for 3 to 6 hours, stirring a few times.
At serving time, thoroughly drain cucumbers; arrange in 1 or 2 flat serving dishes; sprinkle parsley around outer edge of cucumbers so there is a dark green border. Cut pimientos into tiny star shapes with a miniature cookie cutter; garnish some of the top cucumber slices with pimiento stars.
Makes 16 servings.

Skillet Cabbage Is Tasty With Franks

Next time you serve frankfurters, do try this recipe for Skillet Cabbage. They go together nicely.
SKILLET CABBAGE
Ingredients:
2 tps. butter or margarine
1-3 cup finely chopped onion
3 cups firmly-packed shredded green cabbage
1 large peeled apple (coarsely grated)
1 tsp. salt
2 tps. cider vinegar
1/4 cup water
Freshly-ground pepper
Method:
Melt butter in a 10-inch skillet over low heat; add onion; cook, stirring occasionally, until lightly browned. Add cabbage, apple, salt and vinegar; mix well. Add water. Cover and simmer until cabbage is as tender as desired. Season with pepper. Makes 4 servings.

Food Bags

Save the plastic bags in which so many food and clothing items are wrapped nowadays. They are handy for storing small items like parsley and radishes in the refrigerator; they also make good freezer bags.

Arrives In Hong Kong

Richard G. Corden, right, 31, smiles as he is escorted across the border from Red China into Hong Kong. Corden, from East Providence, R.I., was the ring leader of 21 American tarcoats of the Korean War. He told a news conference "there is more democracy in Communist China than in the U.S." He is the 10th of the tarcoats to return from Red China. He left there, he said, because he was homesick.

Labor Troubles Hit Holiday Air Travel

By The Associated Press

A thick fog of labor troubles hung over holiday air travel today. Strikes kept the giant fleets of American Airlines and Eastern Air Lines on the ground during the peak season of air travel. Tens of thousands of passengers continued to scramble for alternate accommodations as Christmas approached. Railroads and buses, already loaded with holiday travelers, reported a land office business. Long waiting lists formed at other airlines.

Piles of Christmas mail were diverted to other carriers. A pilots' walkout at midnight Friday grounded American, Eastern had been idled since Nov. 24 by a strike of mechanics and flight engineers.

A breakthrough in deadlocked contract negotiations does not appear likely soon. An American spokesman said no arrangements have been made for a resumption of talks between the company and the striking Air Lines Pilots Assn. A union spokesman and a federal mediator have predicted the strike will be a long one.

American notified 20,000 non-striking employees Sunday night they will be placed on emergency leave, without pay, after Jan. 4 if the strike goes beyond that date. Eastern's mechanics voted Friday night in Miami, Fla., on proposals offered by the company. They are withholding the results pending a company settlement with the engineers.

The pilots' strike at American drew criticism from two California officials.

Rep. H. Allen Smith (R-Calif.) and Los Angeles Mayor Norris Poulson both wired ALPA president Clarence Saven strongly protesting the calling of the strike just before the Christmas season.

The strikes disrupted travelers' plans for the second consecutive holiday. Pre-Thanksgiving air travel was choked by a strike at Trans World Airways as well as at Eastern. The TWA strike has since been settled. American operates chiefly on cross-country runs east and west with 195 planes it says represent the largest domestic fleet. They go in and out of 77 cities in 26 states. Eastern flies mostly north and

south in the eastern part of the country. Its 188 planes serve 123 cities in 25 states, plus the Canadian cities of Ottawa and Montreal, Mexico City, Bermuda and Puerto Rico.

Wages are the main issue in the American dispute. The pilots contend that the pay scale of other lines is higher than theirs, which ranges from \$400 to \$1,602 monthly. An American spokesman said \$2,234 would be the top pay under a company offer.

The company claimed that an hour before the strike deadline, the union renewed a demand for a 75-hour work month instead of 85 hours for pilots on jet planes. Eastern said its flight engineers went out because the company adopted the recommendation of a presidential board that the engineers should have pilot training for service on jets.

Explosives Seen In Mexico Blast

MEXICO CITY (AP)—A new wave of speculation was touched off here yesterday when government gas experts said they believed the blast at a swank bar which killed a Houston, Tex., girl was caused by high explosives.

The announcement contradicted the theory of the office of Gen. Luis Cuervo, chief of police, whose investigators said they believed Friday night explosion was caused by an electrical short circuit setting off gas accumulated under a solid concrete floor of the swank La Ronda Bar.

Miss Betty Arnold, 23, daughter of Mr. and Mrs. W. N. Arnold Jr. of Houston, was killed in the blast. She had arrived on vacation only a few hours earlier.

Richard Herring, formerly of Houston and escort of the attractive Texas blonde, was critically injured in the blast. Twenty-four other persons were also injured, four of them critically.

Rites Delayed

HOUSTON (AP)—Ceremonies marking the placing of the cornerstone of the new one-million-dollar First Christian Church were held up momentarily. Dr. John C. Knowles, pastor, said someone forgot to bring the cornerstone.

Paris 'Flea Market' To Be Cleared Away

By JOHN RODERICK

PARIS (AP)—The famed "Flea Market" of Paris, a jumbled repository of the left-overs from a bric-a-brac civilization, will soon undergo a major face-lifting.

Part of the 125 acres of old sheds, tottering booths, and flimsy stalls known to hundreds of thousands of tourists from many lands will be cleared away for a modern housing project.

But the market itself will not disappear. In place of the razed buildings, the municipality will erect new, permanent stalls nearby. They will be constructed on winding alleys to retain the charm and fascination of the old quarter.

No one knows when the market first came into existence. But it's fame burst on a startled world between the two wars when an art collector picked up, for 40 francs, a painting by Fragonard which had been sitting inconspicuously between a bidet and a mannequin's bust. It was worth many thousand dollars.

Since then, alert buyers have picked up Corots, Courbets, Chardins, Monets, a Cezanne watercolor, and later, Modiglianis, Utrillos and Vlamincks. A portrait by Renoir, picked up in 1934, has

become one of the most valuable in the art world.

The art bargains to be found in the "Flea Market" are few and far between these days, thanks to the self-education its second-hand dealers have acquired. But the legend continues.

But if Renoirs and Rembrandts are scarce, the market contains enough bric-a-brac, odds and ends and curios to satisfy the most ardent collector's heart.

Not one, but seven markets, "Le Marche aux Puces" stretches from Montmartre to the Porte de Clignancourt. It had a turnover in 1957 of some 14 million dollars, much of it in hard currency. It gives work to 10,000 Parisiens, many of them artisans who busily repair the bits and pieces of furniture, crockery, spare parts, and gew-gaws which pour in from all parts of France.

China-ware, musical instruments, plumbing, old phonograph records, locks, forged iron, perfumes, clothes, shoes, and old beds find their places in the orderly disarray.

The old beds, called "pucciers," or more literally "flea bags," gave the market its name. They were the first and most popular objects on sale in the early days.

DEAR ABBY ON THE RIGHT TRACK

By ABIGAIL VAN BUREN

DEAR ABBY: I am so ashamed of myself I could just die. I just sent my 10-year-old daughter to school without breakfast because she was slow getting dressed. I told her I didn't care if she ever came back. It all started when she didn't put her clothes out and couldn't find anything in the morning and was almost late for school. I said horrible things to her and pushed her out the door. When she left I sat down and cried like a baby. I am miserable. I've done this before and promised myself I wouldn't do it again, but here I am! Are there other mothers who act like that? What can I do to help myself, Abby?

SAD MOTHER DEAR SAD: If it is any comfort to you, you are not alone. I suggest you seek professional help. A good doctor could teach you how to relax, control your temper and live agreeably with your family.

DEAR ABBY: My husband and I have been married for 16 years if you can call this a marriage. He is a husband six days a week but on Saturdays he is not married at all. He goes off early in the morning with his shaving kit and I don't see him until church time Sunday morning. He puts 200 miles on his car and who knows where he went? He says marriage is a job and everybody gets one day off a week from his job and Saturday is his day off from his marriage. Am I crazy or is he?

SIX-DAY WIFE DEAR SIX: Marriage is a seven-day-a-week job and any man who can talk his wife out of a day off from his marriage could sell sand to the Arabs.

DEAR ABBY: When my husband retired six years ago our

three married daughters urged us to move to the city where they live. We have never been invited to any of their homes when they've had guests for cocktails, dinners or an evening. We evidently don't "fit in" with their friends. We are very much in demand however as "sitters" but it never occurs to them to invite us to their homes as "guests." This situation has hurt us both badly. DO NOT FIT DEAR DO: If you don't "fit" don't "sit."

DEAR ABBY: You hear from many men whose wives do not understand them, but I am one man who doesn't understand his wife. She attended summer school last year and became acquainted with a foreign student. She has invited him to make our home his home away from home, and I think things have gone too far. He calls my wife "Honey" and "Dear" and this is all covered up with a mother-son relationship. She is old enough to be his mother. I am not suggesting that anything out of line has taken place, but I want to be sure it doesn't. Should I bar him from our home? We've been wed 23 years. HUSBAND

DEAR HUSBAND: Your wife may be old enough to be his mother, but this lad is old enough to get along WITHOUT a mother. Ask your wife to introduce him to someone his own age and call the friendship to a halt.

CONFIDENTIAL TO "HEP-CATS": If mutual fidelity in marriage is "SO AHEAD" when you "tie the knot" I recommend the SQUARE KNOT.

For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

Afghanistan Moves Into The Air Age

By WAYNE W. PARRISH Editor and Publisher American Aviation Magazine Written for The AP

Afghanistan is jumping from the camel to the airplane. The mountainous Asiatic country—which hasn't a single mile of railroad track and less than 100 miles of paved streets and roads—is being boosted into the air age by two sharp rivals, the United States and the Soviet Union. So far the United States is on top, thanks to a handful of Americans trying to operate an airline and install facilities with limited funds and restricted authority. The Americans are aiding and managing the civil airline Ariana. They are installing air navigation and communications facilities and improving airports except at the capital, Kabul. The Russians are aiding and training the air force and are to improve the civil airport at the capital. It is the most mixed-up aviation deal the United States has ever gotten into. But it's working, even though the timetable has been missed by at least a year.

BOUGHT STOCK At the request of the Afghan government, Pan American Airways purchased 49 per cent of the stock of Ariana. PAA also agreed to provide management. The U.S. government, through International Cooperation Administration and other funds, has provided financial backing and about two million dollars of the finest sort of radio equipment. But the airline is Afghan, and the American goal is to aid and advise—not to attempt to do the whole job as an American enterprise.

By a strange bit of circumstance, the airline partly owned by Americans happens to be the sole general agent for Aeroflot, the Russian airline which operates to Kabul from Moscow and Central Asia. As agent, the local airline sells tickets and handles procedures for the Russian airline at Kabul. And, because of an artificial and very favorable rate of exchange between the Afghan and Russian currencies, it greatly undercuts the parent company, Pan American, whenever it sells tickets to European points via Russia. Passengers bound for European and North American points can save a substantial sum of money by traveling via Moscow instead of by PAA and other carriers via Karachi.

RUSSIAN FUEL Ariana also has to depend on Russia for most of its fuel. The Soviet gas is of poor quality, but there is none other available except some at Kandahar, 300 miles south of the capital. It has some of its aircraft engines overhauled in Copenhagen, and some other engines overhauled by Indians. It employs Indian pilots. Adapting Afghanistan to the air age has been pretty hectic. Not a single female Afghan secretary is available, because all women are veiled and kept out of sight—and certainly out of offices. So Ariana has had to import secretarial help from wherever it could get it. There is not a single paved runway in the entire country and the Civil Aeronautics Administration is behind in getting this work started, through no fault of the agency. The Russians are beginning to pave a military airport runway 20 miles north of Kabul, but have made no start on the runway at the civil airport at the capital. Meanwhile, the two million dollars' worth of airways and radio equipment sits in a compound at Kandahar, waiting for somebody to give a go-ahead for installation.

MAJOR AIRPORT Since Kabul is situated in a valley surrounded by rugged terrain, the country's major international airport is being constructed at Kandahar. It should be ready sometime during the first half of 1959 and will be capable of taking the largest types of jet transports. It will put the country on the world air map for the first time.

Afghans like to fly. Merchants, traders and businessmen are now able to reach the capital in a few hours. Caravans used to take weeks. Buses, wherever there are any, take many days. Meanwhile, the Russians keep offering and pressuring the Afghan government for permission to install a Soviet equipped and trained airline. It is quite apparent that the Russians dislike having any American aviation enterprise immediately adjacent to their own country. But the Afghans have remained firm that they want military assistance from Russia, and civil aviation assistance from America.

70 Mexicans Die In Bus Accident OAXACA, Mexico (AP) — A speeding bus plunged into a ravine here, killing 70 persons Sunday in one of Mexico's worst highway accidents. The only two survivors were critically injured. The bus was crammed with villagers returning to San Dionisio from Sunday market day at nearby Tlacolula. It had a legal capacity of 40, but people were riding on top and on the rear bumper and hanging from the doors. The driver apparently lost control on a curve and ran off the road.

A Devotional For Today

Jesus saith unto him (Thomas), I am the way, the truth, and the life: no man cometh unto the Father, but by me. (John 14:6.)

PRAYER: Loving Father, deliver us from the way that seems right unto man, but the end of which is death. Help us to find in Christ the way to Thee; to accept by faith Thy plan of redemption. In our Redeemer's name we ask these things. Amen.

No Time For Relaxing

We can take it for granted that the Russians, who always, under the Marxists as under the czars, are having their share of brilliant scientists, are leaving no stone unturned, no field unexplored, to match the West in the development of military hardware.

We were, as usual, slow to realize this. We have a history of having underrated the military potential of our possible and real enemies. Our success with the Atlas makes us liable again in this direction.

Russia shocked us out of our dreamy revery of superiority when she touched off her first atomic bomb. Maybe she did steal some of the secrets of how to make an A-bomb; at least it was comforting to our pride to attribute her success largely to theft.

But the point is she did have the bomb — and that simple fact changed, or should have changed, our whole concept of what we were up against. She not only has kept pace with us in nuclear development, but there is good reason to believe that she had the H-bomb before we got it.

She has matched us — and there is strong belief that she is ahead of us — in two other fields vital to our national security and to our hopes for peace: in the

development of guided missiles and supersonic bombers.

Now we are told, by the authoritative British Jane's All the World Aircraft, that Russia has an operational supersonic bomber capable of 1,400 m.p.h. We have one, too, but not yet operational in the sense that it has been added to our bombing fleet and assigned to regular duty, as Russia's newest 1,400 m.p.h. bomber reportedly has.

Only the other day U. S. Senator Hubert Humphrey, after an hour-long talk with Khrushchev, reported K.'s claim that Russia has a guided missile capable of traveling 8,000 miles, and that this missile is operational — that is, all set and rearing to go.

We can regard this as propaganda — and undoubtedly Khrushchev had a propaganda purpose in view when he released the information — but we can't afford to shrug it off. Our scientists in that field did not shrug it off. They say it is quite possible Russia has such a missile.

We should not allow ourselves to forget for a moment that at this time and for the foreseeable future we cannot afford the luxury of letting down our guard.

Christmas On The Move

The speed-up in our communications — on the ground and in the air — has gradually but remorselessly destroyed a pleasant old Christmas custom our forefathers put great store by.

That was the custom of spending Christmas at home, sitting around the fireplace, relaxed and at peace — fellowship among ourselves to our heart's content.

The advent of automobiles and the good roads to carry them has undermined this old custom to an alarming extent. Now everybody is on the move at Christmas-time, we Texans along with the rest. Indeed, we venture to say we Texans do more stirring around at Christmas than any other Americans, for to us a hurried trip to three to five hundred miles means nothing. We are accustomed to long drives on any and all occasions, or no occasion at all.

So away we go, hither and yon, instead of staying home at Christmas.

What used to be a ritual, a calm and peaceful interlude, has become a hullabaloo and a rat-race.

In the old days when communications were slow and difficult, Christmas was the one day of the year people stayed home. Nowadays it is a time when almost everybody feels he just hasn't had any

Christmas unless he can spend a great part of the time in travel, preferably at high speeds.

In the old days there was no place like home for Christmas. Kith and kin formed a close-knit community, and Christmas travel consisted mainly in little ceremonial calls to sample eggs, nog or exchange greetings. Every home had its Christmas tree — not the decorative, purely symbolic kind, but the real thing. There was feasting, carol singing in family groups, a bit of fireworks and great good cheer.

Nowadays the family is scattered to the four winds, some so far away that they don't have time to come home for Christmas even by air.

In the old days "going home for Christmas" was a matter of hitching up the buggy or saddling a mule for the short journey involved.

Today, travel by highway at Christmas-time is hazardous as well as arduous — the former under any circumstances, and the latter when the distance may run into hundreds of miles.

The oldtime Christmas seemed best. Those were the days when family life really meant something. Today, God forgive us, it isn't what it used to be.

Decision Against Alford Has No Weight

WASHINGTON — Some headlines and news dispatches in the last few days have given an erroneous impression of the way the House of Representatives deals with the seating of newly elected members. The report was widely published that a House committee had recommended that a recently elected member not be given his seat.

Actually, the House committee which made the "recommendation" has no jurisdiction over the case. Unlike the Senate, the House of Representatives is not now, and never has been, what is known as a "continuing body." The candidates elected last month for the Congress that meets in January are not passed upon by and do not have to submit their qualifications to any committee of the present House.

What was printed in the newspapers this week might better have been described as just a piece of politics engineered for publicity reasons by three members of the present House of Representatives, two of whom will not even be members of the House in January. Yet it was widely proclaimed that, by a vote of these three members, a newly elected member was about to be denied his seat in Congress.

Every House of Representatives at the end of two years ceases to exist and does not have any authority over the succeeding House. All bills pending in the House now and all committees thereof lose their official or legal status at the end of the two-year period, which happens in this instance to be on January 6, 1959, with the new Congress convening the next day.

The House committee which the other day took up the subject of the Arkansas election in which Rep. Brooks Hays, Democrat, was defeated by an independent,

Dr. Dale Alford, has no jurisdiction at all over admission of the members of the next Congress. The House appointed this committee to watch the congressional campaign while it was in progress, so that any evidence of irregularities could be collected. But the committee collected none with reference to the Arkansas election though it now has permitted a witness to file charges.

Any current committee of the House of Representatives — or any member, for that matter — can "recommend" or "suggest" or even "demand" that some member not be seated in the future. But this has about as much legal value as if it had been recommended in a newspaper editorial or in a radio broadcast by any private individual. It is, after all, merely a bit of controversial debate designed to influence public opinion.

When the House of Representatives meets in January, it will be confronted by an Arkansas man with a formal certificate issued by state of Arkansas declaring that he has been duly elected to Congress. If the House of Representatives wishes the new member to "stand aside" while an investigation is made by the House Elections Committee, it may do so. But such a step would be virtually unprecedented. It would mean that, solely on an unsubstantiated charge in the newspapers and without a single claim by the person or party most interested—the defeated candidate—a formal step would be taken to deprive an elected member of his vote on current legislation.

This means that the people of his district would be denied representation in Congress indefinitely.

Such a development could boomerang against those Republicans and Democrats who voted for a resolution asking the member to "stand aside." It could pave the way for halting the admission hereafter of new members of Congress just because someone in the districts affected didn't like the result of the election. If, in a real case of fraud were revealed, of course, the matter would be different. But the charges being made in the Arkansas case are like those often heard in election contests—somebody thinks there were improper ballots cast, or someone says the count wasn't accurate.

In this case, there has been some talk about the use of "write-in" ballots and whether they are permissible, but if the procedure itself has been invalid, it will require a state court decision to clarify the situation. About all the House finally could do would be to declare the seat vacant so that a new election might be held.

A member of Congress is presumed to have been legally elected until it is conclusively established otherwise.

With all these legal aspects involved, it was incorrect to give the impression to the American people that a committee of the present House has any right to pass upon the admission or rejection of a member elected to the Congress which convenes next month.

Ike's Letter (Maybe) To Santa

WASHINGTON (AP) — President Eisenhower's letter to Santa Claus — if he were to write to Santa Claus at 68 — could go like this, since it isn't hard to guess what he has on his mind:

Dear Mr. Claus:

I have been living at my present address the past six years. It's a big white house on Pennsylvania Avenue. It has nine chimneys. So you should have no trouble finding me.

Since I have been here, I've done my best not to say anything mean to anyone. I know I do sound awful mad sometimes — about every two years, around election time — at some of the neighbors.

They're the Democrats, a very big family. Every once in a while they pick on me, especially at election time. Then they're real mean to me. And I get mad back. It doesn't last long.

Most of the time we get along nicely, but I'd appreciate it if you could bring them a big dose of something — like soothing syrup — so they'd always be nice to me. That would be a real good Christmas present. I can tell you why.

I have to live here another two years before the lease is up. And in that time I would like to be as happy as possible with a minimum of trouble. I would love to have some peace and quiet, if you

have some to spare.

I know you're a very kind man but I just don't know how much influence you have. I sure wish you could use your influence on one person I have in mind.

He's a kind of roly-poly fat man with a bald head. He'd look like a white beard. To hear him talk, you'd think he was Santa Claus himself.

He's always promising to make things better for people. He's a real pushy type. He gets on my nerves. His name is Nikita Khrushchev.

Could you please put some sense in his head and get him to give up these crazy notions he has about communism being better than capitalism? I think things would get better right away. At least, I hope so.

I'd like some money, too, a lot of money. Not for myself, I'm getting along all right. But for the Treasury. We have a lot of expenses coming up next year and the Treasury needs money to pay for them.

I'm being called names — like Skippy — because I'm trying to cut down on expenses.

I know it doesn't make any difference to you whether a child is white or Negro. And it never seems to make any difference to children, either, whether you just went down a white chimney or Negro chimney, so long as you come down theirs.

I could use some help on this. For four years, ever since the Supreme Court said no more racial segregation in the public schools, I have been having trouble with white people in the South who won't obey the court.

I think I'm going to keep on having trouble for the rest of my two years here unless something unusual happens. And I can't think what that might be. Do you have an answer?

There is certainly one other thing I'd like for Christmas.

That's some kind of medicine to make my cousins, the Republicans big and strong again. They're beginning to look awful puny, no matter what I have tried to do for them.

They don't get along with the voters. The Democrats are forever picking on them. And they don't seem to know how to win elections any more.

Unless things get better fast we are going to be in bad shape when I leave here in 1961 and one of the cousins wants to take over the lease.

I hope I haven't asked for too much. But these are things that have me stumped. So all I am really asking is: do you have some stump removers?

Hal Boyle

Left The City For Success

NEW YORK (AP) — Ever tired of hearing about the guy who left a small town to make good in the big city?

Well, here's the story of a guy who got tired of the big city and left it to do better elsewhere.

Harry Singer, a self-made millionaire, is a stocky, dark personable man who probably could sell a wrist watch to a century plant.

He was born in New York only 37 years ago, the son of an Austrian immigrant who made a hard living in the handbag business. At 18 he quit college because he found it too hard both to eat and study on an \$8-a-week delivery boy's wage.

"I also felt dad couldn't go on working forever the way he had been," Harry recalled. "So we borrowed \$300 in 1939 and started our own handbag factory."

It prospered from the start, and the firm was doing a million-dollar-a-year business when Singer

wearied of the big city rat race, sold out, and went to Florida.

"I just got tired of New York City and everything about it," he said. "I got tired of working 12 hours a day. I got tired of spending two hours a day on commuter trains. I got tired of the climate."

Harry settled in the Miami area and went into the real estate field at the beginning of Florida's tremendous postwar building surge. Since then he has handled the brokerage on real estate deals totaling in the neighborhood of a 100 million dollars.

He also invested his own funds candidly. Today he owns the land under four hotels and motels. He is building in Miami the new Central Shopping Plaza, a 40-acre, 10-million-dollar project.

Next month he opens the seven-

million-dollar Montmartre, newest hotel along glittering Miami Beach. It is situated on the old Firestone estate just north of the swank Eden Roc and Fontainebleau. It took Singer six years of legal battling to break zoning restrictions barring hotels from that part of the beach.

Harry doesn't like to be classified as "a booster," but he does feel the growth future of Florida — and other areas outside New York City — are unlimited.

He has a modest success formula. "All it takes to get ahead," he said, "is a lot of imagination, a willingness to gamble, and 95 per cent luck."

"I've met a lot of smarter people than I who didn't make the grade simply for one reason—they didn't get the breaks."

"But I do think one thing more is important. You have to have a willingness to fight for what is worthwhile."

Being a millionaire at 37 isn't even Singer's idea of success.

"The successful man really is the one who is satisfied," he said. "I don't think I've found that kind of success at all. Peace of mind is very important, and I still pace back and forth in my head too much."

Asked what he misses most, from his old life in New York City, Harry, shivering in his tan polo coat, looked down at the icy pavement, up at the gaunt, wintry metropolitan skyline.

"Nothing," he said firmly. "It's a great place to visit, but I'd rather make my life somewhere else."

Here nobody really cares what you do. But in other places if you do something big or worthwhile, the community is proud of you

MR. BREGER

"Any trade-in allowance for last month's issue?"

Around The Rim

Gifts To Serve A Practical Purpose

Last minute Christmas gift suggestions, for people who intend to do better by their chores next year:

Yellow pages of the telephone book — For people who don't take kindly to "do it yourself" suggestions.

A lottery ticket — For the guy who needs some ready cash with which to pay his Christmas bills.

Ten story building — For the guy whose lottery ticket didn't come through and who still needs the money.

Hari-kari knife — For the guy who needs money with which to pay his Christmas bills but whose lottery ticket didn't pay off and who has a phobia about climbing the steps of tall buildings.

Phonograph record offering five minutes of silence — For the former rural dweller who has recently moved into town and can't stand the noise of grinding brakes and blaring auto horns.

Last year's Christmas tree — For the fellow who is allergic to green things in the living room.

Shoes made to fit the contour of hands — For the individual who gets tired of standing on his feet.

A bucket of rust — For the antique collectors.

Playing cards with spots on both sides — For the solitary player who doesn't

like to cheat but who can't make up his mind which card to play.

Ready made, built-in halos — To be worn during interviews with preachers, suspicious wives and Internal Revenue men.

Vauling poles — For pedestrians who can't wait for the traffic light to change.

Masks that make the wearer look wide awake and attentive — For people who like to sleep on the job.

Boxer's mouthpiece — For people who get so mad they grind their teeth into powder when they get their first-of-the-month bills.

Size 40 suits with size 34 plainly printed on them — For men who can't stand the thought of putting on weight.

Spinach that tastes like Baked Alaska — For people who have to leave the dessert alone.

Books on proper demeanor for people named Jones — Written for those who take seriously the saying "We've got to keep up with the..."

Comic books printed in Algebraic code — For students who like to goof off in class.

Special eye drops — To use before talking to people you suspect of being "block-heads" but about whom you can prove nothing.

—TOMMY HART

Inez Robb

How About Work And Study In Schools?

With the Soviets breathing down our necks, education has become one of the nation's most pressing and exasperating problems. It seems doubtful if there breathes a citizen with soul so dead that he hasn't a do-it-yourself solution for improving public education as one of the bulwarks of our freedom and our strength. We want desperately to make it work for the greater good of the greatest number.

President Eisenhower is the most recent citizen to come up with a pet solution for reinforcing and improving our public school system. He believes that in addition to the normal twelve-year span in grade and high school, the American boy and girl should be offered an additional two years of higher education, probably in an expanded system of free junior colleges.

As one of those Americans who believes that education, true education, can give a long way toward remaking man and his world, I'm in favor of as much higher education for every student as he is capable of absorbing. But it is one woman's opinion that the crucial need in free public education in this time of crisis is to strengthen the system in depth rather than in longitude.

First things first—we need better free public education in the United States before we need more of it in terms of years. It is my barbaric belief that students in both grade and high schools should be made to work instead of idling their time away on sand-box activities. The Education always has been and always should be an intellectual challenge. It shouldn't degenerate into group therapy via basket weaving or the vulgar exhibitionism of torso-tossing drum-majoring.

I'm being called names — like Skippy — because I'm trying to cut down on expenses.

I know it doesn't make any difference to you whether a child is white or Negro. And it never seems to make any difference to children, either, whether you just went down a white chimney or Negro chimney, so long as you come down theirs.

I could use some help on this. For four years, ever since the Supreme Court said no more racial segregation in the public schools, I have been having trouble with white people in the South who won't obey the court.

I think I'm going to keep on having trouble for the rest of my two years here unless something unusual happens. And I can't think what that might be. Do you have an answer?

There is certainly one other thing I'd like for Christmas.

That's some kind of medicine to make my cousins, the Republicans big and strong again. They're beginning to look awful puny, no matter what I have tried to do for them.

They don't get along with the voters. The Democrats are forever picking on them. And they don't seem to know how to win elections any more.

Unless things get better fast we are going to be in bad shape when I leave here in 1961 and one of the cousins wants to take over the lease.

I hope I haven't asked for too much. But these are things that have me stumped. So all I am really asking is: do you have some stump removers?

The Gallup Poll

Pay Teachers On Ability, Public Says

PRINCETON, N. J. — If the general public set the policy, America's school teachers would be given pay increases based on their teaching ability rather than on the length of their service.

Two out of every three adults, a poll of the nation finds, say teaching ability should be the criterion, while about one adult in every five, or 19 per cent, say pay raises should be based on the length of service.

Five per cent of the public think both factors should be taken into account.

The present policy of many school boards is to base pay raises for teachers on the amount of preparation and the length of service of each teacher. Salary reviews, as a rule, are held annually. The question asked of adults in today's survey:

"Should pay raises for teachers in the public school system be based on teaching ability or on the length of service?"

BASIS FOR TEACHER PAY RAISES?

Teaching ability	68
------------------	----

Length of service	15
-------------------	----

Both	19
------	----

No opinion	8
------------	---

One of the interesting aspects of the survey findings is that proportionately more people who themselves have attended college or high school hold the view that teacher pay raises should be based on teaching ability than do people who have attended only grade school.

Here is the vote of level of educational attainment of persons questioned in the survey:

Col.-High Grade	71
-----------------	----

lege Sch'l	71
------------	----

Per cent	61
----------	----

Teaching ability	15
------------------	----

Length of service	9
-------------------	---

Both	5
------	---

No opinion	7
------------	---

A Gallup Poll series on "What the Public Wants in a School Teacher," published in September, 1957, revealed that the No. 1 trait which the public thinks a successful school teacher should have is "patience and understanding."

The public, for some time now, has shown an awareness that low pay is one of the major problems of attracting people to the teaching profession—and a survey evidence indicates that the public would be willing to "dig down" into their own pockets to help out on this problem.

An October, 1955 Gallup Poll, for example, found an overwhelming majority of the public saying that higher salaries were the key factor in getting more sorely needed personnel into the teaching profession.

The same survey revealed that two out of every three adults were willing to pay more in taxes if the added revenue were

used to raise the salaries of school teachers.

Again, a Gallup Poll published in September, 1957, found that the public would boost the yearly pay of the average high school teacher to \$4,850. That was the median average amount cited by the public which a typical high school teacher, say, of English should be paid a year.

WHAT OTHERS SAY

Are public school teachers wrong in opposing merit pay proposals? Most of them do, in Texas and over the nation.

Some top educators are beginning to question that opposition. Latest noted were Dr. L. D. Haskew, dean of the College of Education of the University of Texas, and Dr. John J. Theobald, superintendent of New York City public schools. The approach of both was to urge teachers to review this issue against the best long-range interest of their profession.

Another public school teachers' pay raise is likely in the 56th Legislature. The Texas salary scale is now \$3,204 minimum and \$4,833 maximum. The Hale-Aikin committee proposes a \$3,800 minimum; the Texas State Teachers Association is asking \$4,000. Various recommendations on a new maximum range up to \$7,000.

There is no serious move in Texas, as yet, to change the base for teacher salary schedules, which is a combination of years of experience and degrees held. And those two factors probably will remain basic to the general pay scale.

The only realistic approach to the merit pay concept seems to be as a supplementary, or bonus, factor to be applied to the seniority-degrees schedule. It is only sensible that an exceptional teacher should be exceptionally compensated.

Such a teacher now can seek advancement only by leaving the public school classroom—for an administrative post, college-level teaching, or noneducational work.

Teachers generally oppose merit pay over the difficulty of devising a fair means for deciding who should get it. They fear discrimination, favoritism and undue power in the hands of supervisors. That is not an idle anxiety, though it is probably exaggerated. Boards of trustees and public opinion should be able to prevent serious abuses.

Merit pay—or rather merit additions to standard pay — should provide effective incentive for higher quality teaching, and the whole profession should benefit from the increased popular respect that would attend such concrete recognition. Admittedly, any merit system would have to be preceded by a thorough study toward suitable methods of administration. But isn't such a study overdue in Texas?

270,000 Studying Physics Over TV

By CHARLES MERCER
 NEW YORK (AP)—As best everyone can figure out there are now about 270,000 persons throughout the country tuning their TV sets at 6:30 a. m. (local time) five mornings a week to NBC-TV station for a course in physics.

"Continental Classroom" is the name of the Monday through Friday series whose co-partners are NBC, the American Assn. of Colleges for Teacher Education and the Fund for the Advancement of Education.

Dr. Harvey E. White, who is conducting the course, said the other day that besides about 5,000 students enrolled in the TV course for regular credits from 250 colleges and universities, mail about the series is pouring in from viewers who include teachers, technicians, advanced students, housewives "and just about everybody."

Dr. White, professor of physics at the University of California at Berkeley and consultant to the Atomic Energy Commission, said that "one of the most significant things to me is the large number of youngsters between the ages of

6 and 14 who regularly watch the program.

"Probably most of them can't work the problems which we pose. But in the long run this group of young viewers may be the most important contribution of 'Continental Classroom,' since it is influencing them to take an interest in scientific careers at an early age."

The variety of viewers is surprising. In Montclair, N. J., a high school class gathers at 6:30 a. m. each morning to take the course. Not long ago, when the lights were turned on after the program was over, teacher and students found an elderly couple sitting in the back of the room.

The man explained that they watched the program every morning and that their set had gone on the blink the night before. So in Dr. White's words, "this program shows that there is an appreciative audience for education on television."

Oil Demand Increase Seen

WASHINGTON (AP)—The Independent Petroleum Assn. of America today forecast an increase of nearly 4 per cent in total domestic and export petroleum demand for the first three months of 1959.

Exports were expected to average 260,000 barrels daily, or 3.8 per cent above the first quarter of 1958.

Domestic consumption during the period is expected to total 10,070,000 barrels a day—an increase of 382,000 or 3.9 per cent over the first three months of 1958.

In its monthly supply and demand outlook, the IPAA said that "due to the inability of the government to arrive at an oil import control program for the coming year," it was again unable to determine what share of the first quarter demand could be expected to be supplied by domestic crude oil producers.

New Orleans Park Racial Bars Down

NEW ORLEANS (AP)—New Orleans City Park, one of the largest municipal parks in the nation, is desegregated.

The board of directors of the 1,427-acre park Sunday bowed to a mandate of the U. S. Supreme Court after eight years of litigation.

"We have reached the end of the rope," said Ellis Laborde, general manager of the park. "We don't plan to have segregation anywhere in the park."

Miss America Marries

Marian McKnight, 22, South Carolina blonde who won the title of Miss America of 1957, and Army Pvt. Gareth Carmody, 23, are shown as they made plans for their wedding Sunday in Hollywood. They met at the University of California at Los Angeles, where the bride-to-be is still a student. Carmody, who sings, acts and writes music, recently played the monster in the film "I Was a Teenage Frankenstein." They are honeymooning in Palm Springs, Calif.

Cherokees Seeking Payment For Land

AUSTIN (AP)—The governor of Texas said yesterday he would be willing to meet with the chiefs of the Cherokee Nation to discuss their request for compensation for two million acres of East Texas land which their claim was taken from them by Republic of Texas armies in 1839.

Earl Boyd Pierce of Muskogee, Okla., the Cherokee tribal attorney, sent a 3-page petition to Texas Atty. Gen. Will Wilson Dec. 11 asking that the claim be submitted to a jury composed of Texas historian Dr. Walter Prescott Webb and Oklahoma historian Dr. T. L. Ballinger.

Wilson forwarded the Cherokee petition to the governor with this comment: "This is not yet a legal problem."

Gov. Price Daniel said yesterday: "I will be glad to meet with the Cherokee leaders. 'I haven't studied the claim sent by their tribal lawyer. Yet I imagine they don't have much of a case because of limitations and laches (undue delay in asserting a right)."

The attorney for the Cherokees said they don't hope to reclaim their former lands in Smith, Rusk, Cherokee and Van Zandt counties. But they are asking \$1.25 an acre compensation—the 1839 land price. Pierce said that the Cherokees

were given the lands in the 1820s by the Mexican governor of Coahuila and Texas and in 1827, their principal chiefs, The Bowl of John Bowles and Big Mush, were made lieutenant colonels in the Mexican army.

Gen. Sam Houston was empowered by the Republic of Texas provisional government early in 1836 to make a treaty promising the Cherokees they could keep their East Texas domain. And The Bowl and Big Mush kept the Indians neutral even though the Mexicans tried to get the Indians to turn on "Houston's scarecrows" before the Texans won their independence at the battle of San Jacinto in April, 1836.

Half an hour later, a youth kicked open the rear door of an Amarillo home and attacked a 26-year-old woman, who managed to break free and ran screaming into the yard. Neighbors chased the youth but he escaped.

Police said that two hours later, a young man broke into another home in the same neighborhood and forced the young mother of three children into bed and raped her.

Officers arrested the youth and two companions after the woman involved in the highway scuffle reported the license number of the car occupied by the youth.

Winter In The Valley

Pretty Lucy Moon of Raymondville absorbs her quota of sunshine on a beach near Hartlingen in the Rio Grande Valley. While some of the country has snow, it is almost like summer time deep in the Lone Star State.

Bergman Eludes Press, Weds Lars

LONDON (AP)—Ingrid Bergman eluded press and public Sunday to marry wealthy Swedish businessman Lars Schmidt in a quiet civil ceremony.

The Swedish actress, 42, and her third husband, 41, flew off to Paris and went into seclusion before the world found out they had been married in London's Caxton Hall registry office.

The couple apparently were honeymooning at Schmidt's country home 15 miles outside Paris.

In marrying again, Miss Bergman defied the Rome Court of Appeal which is considering a state prosecutor's contest of a lower Rome court's decree annulling her marriage to Italian film director Roberto Rossellini.

She had announced months ago that she would wed Schmidt when she was free from Rossellini. At a hearing last Friday in Rome her attorney was warned that re-marriage before the appeal court's decision "would be highly detrimental to her case." Another hearing is scheduled Feb. 3.

The actress' London attorney, Ambrose Appelbe, said the appeal against the annulment "is just a put-up job" and that her new marriage is legal in Sweden, Britain and France.

Under Italian law, the annulment is not legally effective until the appeal is decided. The state prosecutor said previously he would file bigamy charges if either Miss Bergman or Rossellini married before the case was settled.

Schmidt is the son of a retired Swedish army officer. He has been married, but was divorced six or seven years ago. He has been Miss Bergman's constant companion since she and Rossellini separated.

Miss Bergman came to London last Sunday, ostensibly to do some Christmas shopping.

Sunday morning she drove with Appelbe to Caxton Hall, near Westminster Abbey. Schmidt arrived with Swedish Baron and Baroness Goran van Essen. The registry office normally is closed Sunday.

The only other witnesses to the 15-minute ceremony were British TV magnate Sidney Bernstein and an unidentified American woman friend of Miss Bergman.

Bergman bit gal 2

The bride wore blue, with a grey mink stole and a close-fitting white feathered hat. Schmidt was in a dark gray suit with a light tie.

The wedding party drove from Caxton Hall to London's Swedish Church, where the vicar blessed the marriage. Then they went to a London hotel for a luncheon of salad, lobster, cheese and champagne toasts.

At the airport Miss Bergman and Schmidt smilingly parried questions of newsmen who had heard only rumors they would marry in a few days in Paris.

They carried Christmas-decorated packages, and one reporter asked them if they included a trousseau. "Christmas presents, of course," Miss Bergman replied laughingly.

Miss Bergman's first husband was Dr. Peter Lindstrom, whom she married before her Hollywood success and by whom she had a daughter, Jenny Ann, now 20.

In 1949, at the peak of her American movie career, the actress went to Italy to make

"Stromboli" for Rossellini. Their romance developed and she obtained a proxy divorce from Lindstrom Feb. 9, 1950, seven days after the birth of Roberto, her son by Rossellini.

Miss Bergman and Rossellini were married three months later, also by proxy in Mexico, and she has lived in Europe ever since. Six years ago they had twin daughters, Isabella and Isotta Ingrid. In early 1957 Rossellini went to India to make films for the Indian government and became involved with a Bengali script writer, Mrs. Sonali Da Gupta. That November Miss Bergman obtained a legal separation.

Rossellini asked for annulment of the marriage a year ago. Miss Bergman did not contest the suit. He contended that her Mexican divorce from Lindstrom was not legal and therefore neither was their own marriage. The state prosecutor, in challenging the annulment, contended that the Italian court had no jurisdiction over a Mexican marriage.

Under Italian law, the annulment is not legally effective until the appeal is decided. The state prosecutor said previously he would file bigamy charges if either Miss Bergman or Rossellini married before the case was settled.

Schmidt is the son of a retired Swedish army officer. He has been married, but was divorced six or seven years ago. He has been Miss Bergman's constant companion since she and Rossellini separated.

Miss Bergman came to London last Sunday, ostensibly to do some Christmas shopping.

6 Children Die In Fire

KAUKAUNA, Wis. (AP)—Six children sought refuge in a bathroom and died of burns and suffocation Saturday night after a fire broke out in a kitchen.

Firemen recovered the bodies of Lynn, 7; Douglas, 6; Margaret, 5; John, 3; Barbara, 2½, and Michael, 1½, children of Mr. and Mrs. Floyd Weyneberg.

The parents were attending an early mass four blocks away when the fire broke out, apparently in the living room.

Weyneberg broke from fire fighters and climbed a ladder to a second-story bedroom window in an effort to find the children.

His wife screamed, "I want to go in and die with my children." Spectators restrained her.

The couple have no other children. Two infant twins died of natural causes earlier this year.

Traffic Trails In Weekend Deaths

By The Associated Press
 Highway fatalities trailed as the violent death toll in Texas over the weekend rose to at least 28 persons.

Less than half—13—of the deaths were blamed on traffic accidents. Fires, shootings, asphyxiations and miscellaneous accidents accounted for most of the deaths.

9-Pound Boy Born To Jayne Mansfield

SANTA MONICA, Calif. (AP)—A nine-pound, 9½-ounce boy was born Sunday to actress Jayne Mansfield and her musician husband, Mickey Hargitay.

Hargitay danced around the corridor of St. John's Hospital after getting the good news. The boy will be named Miklos for his father.

Asthma Formula Prescribed Most By Doctors—Available Now Without Prescription

Stops Attacks in Minutes... Relief Lasts for Hours!

New York, N. Y. (Special)—The asthma formula prescribed more than any other by doctors for their private patients is now available to asthma sufferers without prescription.

Medical tests proved this formula stops asthma attacks in minutes and gives hours of freedom from recurrence of painful asthma spasms.

This formula is so effective that it is the physicians' leading asthma prescription—so safe that now it can be sold without prescription—in many tablets called **Primatene®**.

Primatene opens bronchial tubes, loosens mucous congestion, relieves taut nervous tension. All this without taking painful injections.

The secret is—Primatene combines 3 medicines (in full prescription strength) found most effective in combination for asthma distress. Each performs a special purpose.

So look forward to sleep at night and freedom from asthma spasms... get Primatene, at any drugstore. Only 98¢—money-back guarantee.
