Selection Of First U.S. Spaceman Begins

NEW YORK (AP)—Selection of America's first human space traveler is under way.

T. Keith Glennan, U.S. space chief, started a "staid" dinner meeting of the Institute of Aeronautical Sciences with this disclosure Tuesday night.

The new federal space agency, he said, has picked 110 rugged young Americans as candidates for the first manned satellite to orbit the earth.

They will assemble in Washington for further tests, Glennan said, and be asked to volunteer for space flight. Within three months, their ranks will be reduced to about a dozen.

"I suspect that the one who will make the flight will not know he is to do so until count-down day," he added.

He said he does not know whether this country will get a man into orbit before the Soviet Union.

"The Russians have been at it somewhat longer than we have, and it is wholly possible they will beat us into space," Glennan told newsmen later.

The 110 potential American space pioneers were not listed by name. Glennan gave these qualifications of the man who finally will be selected:

- 1. A university degree in physical science or engineering.
2. A graduate of an Air Force or Navy test-pilot training school with at least 1,500 flying hours.
3. Superb condition, with the physical and psychological attributes suited for space flight as determined by aero-medical scientists.
4. Younger than 40 and no taller than 5 feet 11. There are no weight restrictions.

On the last point, the stocky built Glennan smiled and told newsmen: "I'd like to qualify myself."

Candidates for manned space flight will be known as Mercury astronauts. The United States' manned satellite program is known as Project Mercury.

Glennan said the element of risk cannot be completely removed but it will be reduced to the point a pilot faces in testing a new plane.

"We are not going to cut any corners which would put the young man in jeopardy," he said.

He refused to predict when America's human space flight will

take place. The expectation is, however, that such a flight is about two years away.

The National Aeronautics and Space Administration which Glennan heads, announced two weeks ago the selection of McDonnell Aircraft Corp., St. Louis, to design, develop, and build the Project Mercury capsule.

It is to be capable of carrying a man into orbital flight around the earth and safely back to earth again. If anything goes wrong at launching or soon afterward, the pilot will escape via an emergency ejection system.

The 110 most likely candidates were chosen on the basis of re-

quirements set up by NASA's Aero-Medical Committee, headed by Dr. W. Randolph Loveless of Albuquerque, N.M. They will undergo a series of intensive physical and psychological tests, including studies of their ability to cope with space flight stresses.

The dozen top candidates will be assigned to the NASA Space Task Group at Langley Air Force Base, Va., for intensive training.

Additional training at the Johnsville, Pa., Naval Air Development Center; Cape Canaveral, Fla.; The Wright Air Development Center at Dayton, Ohio, and at other U.S. bio-medical centers will follow.

Everybody's Happy But Baby

Mr. and Mrs. Jose Tavares were all smiles after their baby was returned to them, but baby John seemed to resent all the excitement. The baby, abducted from the Tavares home in New York when 23 days old, was found by the FBI and local police in a nearby flat of Mrs. Assention Ortiz, mother of three. Mrs. Ortiz, who police said admitted taking the baby, was held on a kidnapping charge. At right, bareheaded, is James Leggett, chief of New York's detective division.

Jesse B. Ryan, City Pioneer, Dies At Age 93

Jesse B. Ryan, 93, who knew Big Spring in the days of boardwalks and a sandpile known as Front Street, died at 8:45 a.m. Wednesday.

Mr. Ryan became ill three months ago, and his condition gradually weakened. He has been in serious condition for the past week.

The funeral has been set for 3 p.m. Thursday at the First Methodist Church with Dr. Jordan Grooms, pastor, officiating, assisted by the Rev. Joe McCarty, pastor of the Park Methodist Church. Masses will be observed at the graveside. Arrangements are in charge of the River Funeral Home.

Born in Rushtown, Pa., on Aug. 24, 1865, Mr. Ryan moved to Big Spring on March 10, 1887, when relatives, who had come here soon after arrival of the railroad, wrote back concerning the opportunities.

His brother-in-law was the late L. T. Deats, second mayor of Big Spring. Mr. Ryan was the last surviving member of his family.

When he came, the town was nestled near the railroad track and the business district was dominated by saloons and rolling hills. His first job was with the Burton-Lin-

co Lumber Co., but in the autumn of 1887 he got on with the Texas & Pacific Railway Co. and became a locomotive fireman.

In 1905 he was married to Louise B. Welhausen, and the following year he decided to give up farming. He retired to a farm in the northeast of Big Spring, and he had continued to make his home there since that time.

He was one of the few men who could lay claim to the honor of being a real pioneer. His membership in the Masonic lodge here dated back more than three score years. Mr. Ryan also was a member of the Park Methodist Church.

For more than 60 years he had been a member of the Brotherhood of Locomotive Firemen.

Surviving him are one son, J. Alden Ryan, with whom he lived; four grandchildren and several nephews and nieces. His wife preceded him in death in 1938, and some 10 years prior to that other son, Melvin Ryan, had died here. He will be laid to rest beside their graves in the Masonic section of the City Cemetery.

U.S. No Hang Dog In Missile Contest

\$356,995 Suggs Bid Is Low On Alert Hangar

Suggs Construction Co. of Big Spring was apparent low-bidder Tuesday on construction of a 21,100-square-foot alert hangar at Webb AFB.

Suggs' bid on the project was \$356,995 some \$20,000 under the estimate for the project and the next best bid.

Proposals were opened Tuesday afternoon in the Corps of Engineers district offices in Fort Worth.

Bids were to be opened this afternoon on a maintenance hangar and pump station, Thursday afternoon, bids on construction of readiness crew and flight simulator buildings are to be considered.

No contracts will be awarded until the Corps of Engineers has time to evaluate all the proposals. That probably will require three or four days, officials said.

Second low bidder on the alert hangar was Ransdell Construction Co. of Dallas with an offer of \$378,998. Nine bids were received.

The Corps of Engineers had estimated the project at \$375,425. Contract, when awarded, will require start of work within five days after notice to proceed is given.

Time allowed for completion will be 360 calendar days.

Architects for the alert hangar, the maintenance hangar, pump station and readiness crew building are Puckett & French of Big Spring.

The new facilities are being provided for the 331st Fighter Interceptor Squadron which has been stationed at Webb since last August.

NOW, HERE'S REAL ECONOMY

WESTFIELD, N. J. (AP)—High school students here have built the last word in economy cars, a model with a \$50 price tag that doesn't require any gas at all.

The car, modeled after a 1903 Delton, was built by 50 students under the supervision of two industrial arts teachers. It has wire wheels, black upholstery and a glistening maroon finish. It has no engine, of course.

That's where the economy comes in. The students may get around to that detail next term.

Ike Assures Nation Making Good Progress

WASHINGTON (AP)—President Eisenhower said today the United States is making very remarkable progress in the ballistic missile field and has no cause for hang dog humiliation.

The President made the statement at a news conference in commenting on Soviet Premier Nikita Khrushchev's announcement Tuesday that the Soviet Union has intercontinental ballistic missiles in production.

In apparent reference to the question of whether Khrushchev was saying the Soviet Union has ICBMs in mass production, Eisenhower said he has no way of knowing just what was in Khrushchev's mind.

Somehow, the President added that we very prone to give 100 per cent credence to statements by the Soviets if they happen to deal with our own desires.

On the other hand, Eisenhower went on, we dismiss other Soviet statements as baldfaced lies.

Without ever saying whether this country has intercontinental missiles at the production stage Eisenhower said that the U. S. missile program is going forward as rapidly as possible under the direction of capable scientists.

Then he said very remarkable progress is being made and that the nation has no cause for any hang dog humiliation.

On the contrary, it should be a matter of pride, he said.

The President also dealt in the news conference with other matters:

POLITICS—Commenting on criticism of him at a Republican conference in Des Moines last week, Eisenhower expressed belief that most Republicans understand and support what he called his middle of the road program. He said he has been attacked from both sides so far as his moderate program is concerned. He called that natural and proper and remarked that you have to take it.

WARREN—Eisenhower said he knows of no rift between him and Chief Justice Earl Warren. With a show of irritation, he labeled as irresponsible reporting a story in the New York Herald Tribune today saying Eisenhower and Warren have drifted from once warm friendship to coolness as a result of the school integration controversy and other matters which have come before the Supreme Court.

CASTRO — He is certain, the President said, that all of the American people hope Cuba's new government, set up by the forces of Fidel Castro, will be truly representative of the Cuban people.

Tax Penalties Effective Feb. 1

Midnight Saturday is the deadline for paying 1958 ad valorem taxes with no penalty on interest, J. O. Hagood, school tax collector, reminded today.

Penalty of 1/2 per cent and interest will be added to tax bills which are unpaid Feb. 1, Hagood said. Payments postmarked prior to that time will escape the penalty, however.

Up to today, 86.8 per cent of the 1958 school tax roll has been collected, Hagood reported. Total collections are \$838,257.81. That includes \$24,948.02 in current taxes, \$13,182.29 in delinquent taxes and \$127.50 from miscellaneous sources.

Collections have been divided with \$646,101.05 going to maintenance and operations and \$155,465.34 earmarked for debt service. Discounts allowed for early tax payments totaled \$23,381.63.

City Will Enforce Regulation On Big Trash Containers

To protect its employees and to comply with insurance regulations, the city will stop collection of garbage where 55-gallon drums are used on March 1.

City Manager A. K. Steinheimer received full sanction of the City Commission in the venture Tuesday night. Steinheimer said that the city garbage crews now dumped garbage from the large drums, but several men have been hurt in the past by lifting the heavy containers.

He said also that the insurance policies carried by the city forbid lifting such containers. The city regulations set a maximum of 30-gallon cans for garbage collection.

The city in the past has not enforced it, but the new policy will become effective March 1. This time, said Steinheimer, will allow citizens and businesses to purchase and install the regulation containers.

C-City C-C To Celebrate 50th Year

Several Big Springers are expected to be on hand this evening when the Colorado City Chamber of Commerce celebrates its 50th anniversary.

The occasion will be the annual C-City Chamber banquet. Speaker will be the Rev. John E. Hines of Houston, bishop of the Episcopal Diocese of Texas.

Among the Big Springers attending will be Col. and Mrs. Kyle Riddle, Jack Y. Smith, and Mr. and Mrs. Bill Kimbly. J. H. Greene, former Chamber manager here and in Colorado City and the first president of what is now the Colorado City Chamber, and Mrs. Greene also are expected to attend.

During the program, Max Caddell will succeed Jeff E. Taylor as president of the organization. James M. Boyd and Paul Boyd Hunter will be installed as vice presidents. Other new officers to be installed will be Dr. Seth Cowan, secretary, and Harold Manias, treasurer. George Witten, Dr. Cowan, Wayne Shaw, and Phillip Berman will be added to the board of directors.

Mothers' March Raises \$1,500

The annual Mothers' March last night raised approximately \$1,500 for the Howard-Glasscock March of Dimes. Mrs. E. P. Driver, general chairman of the project, said this morning.

There is a chance contributions will exceed \$1,500 when the tabulation of gifts is completed, she reported.

Some 200 Big Spring women participated in the hour-long march. They represented the city's various P-TA units. Co-chairmen with Mrs. Driver were Mrs. J. H. Homan and Mrs. Clyde Thomas Jr.

"Response to our appeal was excellent," said Mrs. Driver. "We are highly pleased with the results."

The march netted some \$300 more than the 1958 effort.

POLL TAX SCORE

Table with 3 columns: JAN. 27, 1959, 1958, 1957. Rows: Poll Tax, Exemptions, Totals.

Committee To Pick Master Plan Firm

Thursday, the master planning committee is to get together and select a firm to make a master plan survey for Big Spring.

The committee, composed of two members each from the county, city, Big Spring School and HCJC governing boards, and the Chamber of Commerce, will meet at the City Hall at 5 p.m. to open proposals from seven firms and get down to the work of actual selection of the planning firm.

Each of the seven firms has been personally interviewed and has outlined the method of conducting the survey. The firms from which one will be selected include Homer Hunter of Dallas; Freese & Nichols of Fort Worth; S. B. Zisman of San Antonio; Fort & Cotton of Dallas; Vogt, Ivers & Seaman of Cincinnati, Ohio; Ken Esmond of Odessa; and Parkhill, Smith & Cooper of Lubbock.

The committee, after selecting one, can only recommend that the firm be hired. Each governmental body must then give sanction before the firm can sign a contract to undertake the work.

Dr. Lee O. Rogers, city commissioner, is chairman of the committee, and working with him

are Dr. Floyd Mays and Clyde McMahon of the Big Spring school board; Ralph White and Hudson Landers of the County Commissioners Court; Dr. P. W. Malone and John Askev Coffey from the HCJC board; George Zachariah, along with Dr. Rogers, from the City Commission, and Dr. J. E. Hogan and Dr. W. A. Hunt from the Chamber of Commerce.

State Bill Would Regulate Unions

AUSTIN (AP)—A bill designed to disclose the financial operations of labor unions became today the first major measure to be set for public hearing before the Legislature.

Sen. George Parkhouse, chairman of the Labor Committee, called a hearing for 9 a.m. next Wednesday on the bill he introduced yesterday. It would make each union local W. A. Hunt from the Chamber of Commerce.

Enrollment can be speeded if those applying for admission will bring their transcript of credits with them, said Keese.

More registrations for the evening courses are anticipated this evening.

Schedule for adult education (non-credit) courses will be announced later.

402 Register For Spring Term At Junior College

Howard County Junior College began its spring semester classes Wednesday with 402 persons registered for college credit.

Registrations were still being completed at the morning, said Registrar B. M. Keese. He urged others to register as soon as possible in order not to miss class sessions, although the deadline does not fall for another 10 days.

A breakdown on registrations is possible at this time, but Keese said there were a number of beginning freshmen in the group which had signed up. In addition, several had transferred from other colleges.

Enrollment can be speeded if those applying for admission will bring their transcript of credits with them, said Keese.

More registrations for the evening courses are anticipated this evening.

Schedule for adult education (non-credit) courses will be announced later.

Bond Issue May Be Required To Extend City Sewer Lines

Costs to provide the Mountain View Addition on the west side of town with sewage service will be much more than had first been thought, the City Commission informed residents today.

Hull said that the district highway engineer, Jake Roberts, had said it would be okay to leave the angle parking and the commission said it would get confirmation.

The city last summer authorized removal of angle parking at the store corner as well as in front of the city hall. These changes were made on the recommendation of the Citizens' Traffic Commission.

The commission said it could not legally remove the charges for use of the auditorium for a show sponsored by the Society for Crippled Children and Adults. Commissioner George Zachariah said if it were possible, the organization would like to have the \$25 fee dropped since it was a charitable group trying to raise money. Since a collection will be taken at the show, slated for March 23, the city cannot make the concession.

M. E. Burnett and Fred Crosland

The men said that they thought they could get their garbage hauled away cheaper than what the city charged, and the commission replied the private trucks used must comply with city sanitary regulations.

E. C. Smith submitted a proposal that he would pay the cost of paving Parkway Drive, just west of the City Golf Course, if the city would give 20 more feet of right of way and pay costs of curbs and gutters. Smith was proposing to increase the width of the street to 60 feet. The city would be paying the curb and gutter charges for 2,100 feet. The commission said it wanted to look over the property before making any decision.

Poll Tax Payments Pass '58

Poll tax payments for 1959 have passed the total for the same date in 1958 but there still are several thousand Howard County residents who have yet to qualify themselves to vote this year.

Total poll tax receipts at the opening of business on Wednesday morning was 3,850. Certificates of exemption issued stood at 1,477.

The Howard County Tax Collectors' office pointed out that the deadline for the purchase of poll tax receipts or to request exemption certificates expires at midnight Saturday.

It was announced that as a matter of convenience the office of the collector will be open all day Saturday and that deputies will be on duty until midnight that night.

However, the tax collector urged that every citizen who has not as yet acquired his 1959 poll tax receipt not wait until Saturday. Thursday and Friday would be better days, the office believes, for the taxpayer and would do much to lighten the burden that will be presented as the deadline approaches.

Ike Urges Congress To Enact Labor Bill To Eliminate Labor-Management Abuses

WASHINGTON (AP)—President Eisenhower today urged Congress to enact a 20-point program designed to eliminate labor-management abuses.

In a special message, Eisenhower called his program a complete and effective approach to the problem. He said it is not a piecemeal program.

He also declared it is "essential to assure the American public that true, responsible, collective bargaining can be carried on with full protection to the rights and freedoms of workers and with adequate guarantees of the public interest."

"These recommendations, when adopted, should do much to eliminate those abuses and improper practices, which, I am firmly convinced, the American public expects and believes will be corrected through legislative action," he said.

"Equally important, they will do so without imposing arbitrary

restrictions or punitive measures on the legitimate activities of honest labor and management officials."

Some of the changes Eisenhower proposed were asked by labor unions, others by employers.

Eisenhower's recommendations signaled the start of a congressional battle with sharp political overtones.

A bill already introduced by Sen. John F. Kennedy (D-Mass) was termed a half measure by the President Tuesday.

In his message, Eisenhower proposed tightening Taft-Hartley laws against certain forms of picketing and secondary boycotts—matters not included in Kennedy's bill.

Eisenhower's program: 1. A requirement that all unions file such detailed annual reports with the Labor Department—as well as with union members—covering their financial operations; open to public inspection.

2. Require all unions to file with the Labor Department, as public information, copies of their constitutions and bylaws and certain other information.

3. All unions would be required to keep proper records on the matters on which they must report.

4. Unions and their officers would have to keep proper records on any payments or investments which create conflicts of interests or which interfere with the statutory rights of union members.

5. Union officers would be accountable for administration of union funds and property. This duty would be enforceable in courts in accounting suits.

6. Minimum standards for the conduct of elections of union officers, or their recall, would also be required. Union funds could not be used to promote candidates for union offices.

7. Regulate union action in putting local unions under trusteeship.

8. Give the secretary of labor power to police the union fund accounting and require democratic procedure in union operation.

9. Provide criminal penalties for misuse of union funds, concealing or destroying records, and for improper payments between employers and union leaders.

10. Preserve for union members any present remedies, under state or federal laws, in addition to those recommended in the new administration program.

11. Tighten present secondary boycott laws of the Taft-Hartley law so as to prohibit coercion of employers as well as employees.

12. Prohibit picketing to compel an employer to give a union bargaining rights in cases where employees have indicated they don't want a union.

13. Authorize the National Labor Relations Board to refuse to take cases where the impact on commerce is relatively insubstantial, and transfer jurisdiction over

such cases to state courts or agencies.

14. Eliminate a present ban against strikers voting in an election to determine whether a union shall continue to represent a struck employer's workers. Eligibility of strikers to vote would be left to the discretion of the NLRB.

15. Permit the NLRB to grant construction trade unions bargaining rights before employees are hired, and without an election.

16. Authorize the NLRB to hold bargaining rights elections without prior hearing where there is no substantial objection.

17. Make employers, as well as union officials, file non-communist affidavits.

18. Prohibit any requirement to negotiate a change in a collective bargaining agreement during the life of a contract, unless by mutual consent.

19. Authorize the president to appoint an acting general counsel of the NLRB whenever a vacancy in that office occurs.

20. Require that the five-man NLRB be politically bipartisan with no more than three members from the same political party.

There is no such present requirement, and the board at present has three Republicans and two Democrats.

PAY YOUR POLL TAX NOW! LAST DAY - JANUARY 31

# Gift Of Ice Machine Inspires Foundation For Teacher Aid

SAN FRANCISCO (AP)—A gift of an ice machine to chill country club martinis inspired a community foundation that finances advanced study for public school teachers.

More than 500 school board members gave two hours of concentrated attention to a National School Boards Assn. section meeting Monday night to a how-to-do-it

explanation of the Columbus, Ind., foundation idea.

The idea was born with Dr. W. L. Wissman, Columbus physician and school board member.

"I heard that a man in our town gave a \$1,500 icemaking machine to the country club," Dr. Wissman explains.

"I figured if there were people

around with that kind of money to give away why couldn't we get some of it together to support summer study opportunities for our teachers."

The Columbus foundation collected and donated its first private money in 1956. In three years it has awarded grants to 56 Columbus teachers for summer

projects including a Spanish teacher's tour to Valencia, Spain.

Private gift support for faculty research work and advanced study is widespread in colleges and universities. The Columbus foundation apparently is a pioneer in doing this job for elementary and high school teachers.

"The effect on teacher morale has been notable," declared Clarence E. Robbins, school superintendent. "And we now find we have an important advantage in recruiting good new teachers."

Robbins said 60 per cent of the Columbus school system teachers hold master's degrees. No more than 10 per cent of the teachers

in an average school system will have master's degrees.

The foundation, has budgeted \$12,000 for summer study projects this year.

About \$10,000 was spent last summer on such "faculty enrichment" as mathematics study at New York University; gifted children workshop study at Stanford University, counselling study at Denver University, Shakespeare institute study at Yale University, advanced science and mathematics study at the University of Virginia and study at the Bread Loaf Writing Workshop in Vermont.

Said Superintendent Robbins: "we've been able to do something

for the people who have felt they must work at jobs on the outside—to maintain a standard of living they wanted for their families.

"People like this are usually the best people in teaching."

Up to now the Columbus foundation has been amply financed with a low pressure solicitation among industries, business firms and professional people. A city of 22,000, Columbus has three major local industries supporting the foundation.

The foundation board passes on study project ideas proposed by teachers. Strictly junket propositions don't get by, said Dr. Wissman.

Big Spring (Texas) Herald, Wed., Jan. 28, 1959 3-A

## Rubinstein Slaying Reward Canceled

NEW YORK (AP)—The \$25,000 reward offered for information leading to the conviction of the slayer or slayers of Serge Rubinstein was withdrawn today — the fourth anniversary of his death.

Attorneys for the estate of the playboy and international financier announced in newspaper advertisements the estate had withdrawn the reward offered Sept. 20, 1955.

Rubinstein, 46, was choked to

death in his bedroom in his Fifth Ave. mansion. The police department still lists the case as "open."

Stanley N. Zwaik, lawyer representing the estate, estimated the estate at 1½ million dollars.

Zwaik said the reward offer drew nothing but crackpot tips.

Keeps Her Figure

Debbie Reynolds feels that having children is no excuse for not having a youthful figure. She will next be seen in MGM's "The Mating Game."

**HOLLYWOOD BEAUTY**

**Debbie Exercises For A Trim Little Figure**

By LYDIA LANE  
**HOLLYWOOD** — In the early days of Hollywood very few glamorous queens had families for they were fearful of spoiling their figures. But today motherhood is quite in fashion and having children in no way disturbs the youthful line. Debbie Reynolds, who had her two babies only 10 months apart, still has a 22-inch waist. "A lot of it is in the mind," she told me as we sipped soft drinks at MGM where she has just finished "The Mating Game." "If you believe that you can have your same measurements, chances are you will."  
 Debbie is only five-foot-one. "After Carrie was born I was only two pounds overweight, but a pound or two makes quite a difference on me," she explained. "How soon did you start exercising?" I asked.  
 "The third day I did three little exercises in bed. Like raising my arms, spreading them out as far as I could and bringing them up and down several times. Then I bent my knees and rolled back and forth. When you have been carrying a child you need to be toned, and you feel even a little routine like this."  
 "And several times a day I did my breathing exercises — inhaling until my stomach was flat, holding this breath and then exhaling."  
 "I stayed in the hospital a week, which is longer than is generally required but our house burned and I really had no place to go. When I was released, the doctor gave me an exercise program and I followed it faithfully."  
 I looked at Debbie's trim little figure and asked if she would be generous enough to share her routine.  
 "First you lie on the floor, keeping your legs straight. Raise them to a 90-degree angle and lower them slowly — almost to the floor — and bring them up again and then down touching the floor. Do this exercise only five times at first and gradually work up to a count of 20."  
 "The second exercise is to lie flat with your hands folded over your chest and then sit up slowly. This gives a good pull to the abdominal muscles."  
 "For the hips, sit on the floor, knees up, hands back of the hips for balance and roll from side to side, slapping the knees to the floor and feeling the pressure on your bottom."  
 "A very personal thing with me," Debbie confided, "is my rib cage. I played the French horn for seven years and it developed me. I hated it because I like a narrow look along the waist, so I wore an elastic binder quite tightly and I reduced it an inch and a half."  
 Debbie believes that if we are determined we can remodel our figures with exercise.  
 "What one eats has a great influence on one's figure," I commented.  
 Debbie agreed. "I don't eat as well as I should. I don't like breakfast even though I know I should. But I love whole milk and I drink about two quarts a day. When I want to reduce, I drink skim milk and I give up bread and butter."  
 Debbie has been in pictures about 10 years, but despite her popularity she has remained quiet unspoiled.  
 "They say you have to like yourself before you can truly like others," I offered.  
 "Yes," she quickly agreed. Then changing the subject she asked: "Do you want to know a valuable beauty secret? It's having a magnifying mirror. It shows up any stray eyebrows, helps when applying make-up and if there are any clogged pores I can see them before they become obvious."  
 "Because I used make-up when I was so young, mother made a special effort to stress the importance of keeping my skin clean. And even if Carrie never has a theatrical career, I'm going to try to train her to realize that a clean skin usually means a 'lovely one,'" she said as we parted.  
**REGAINING YOUR FIGURE AFTER CHILD BIRTH**  
 If you are expecting a baby or have recently had one, you'll want this leaflet on post-natal exercising. "Regaining Your Girlish Figure After Childbirth" Leaflet M-9, is designed for those who truly want to get back to normal weight and measurements. For your copy of this vital leaflet, send only 10 cents and a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald.

**Spoudazio Fora Members Hear Discussion Of Landscaping**

Beauty in Landscaping was discussed by Mrs. Etta Cochran at a meeting of the Spoudazio Fora Tuesday evening in the home of Mrs. James C. Jones. Mrs. Charles Lusk was cohostess. Mrs. Cochran recommended the use of native plants and shrubs to cut the cost of planting as well as the time and expense of caring for the yard and garden. She told the group to plan the view from inside the house as well as from the outside in beginning the landscaping of the grounds, and she discussed ways in which the size of the home might be apparently changed by use of various plantings. Mrs. J. M. Hill, Mrs. Ladd Smith and Mrs. Jones were appointed as a nominating committee. Plans were discussed for the seated tea slated for Feb. 6, when

federated clubs of the town will honor Mrs. B. F. Seay of Andrews, district president. The group will have a Valentine party on Feb. 10 at the home of Mrs. Hill. It was announced. Members were reminded of the

coffee to be given for the March of Dimes Friday from 10:30 a.m. to 1:30 p.m. in the home of Mrs. E. C. Smith, 1701 Yale. Guests for the meeting included Mrs. C. A. Flynt, Mrs. Jimmy Dorland and Mrs. Kenneth Huff.

**Faculty Ma'ams Elect Slate**

A new slate of officers was elected Tuesday afternoon when the Faculty Ma'ams met at the home of Leslie Lewis. Mrs. B. M. Keese was named president and Mrs. Harold Davis, vice president. Secretarial duties will be handled by Mrs. W. L. Walker, while Mrs. Rudolph Brewster will be treasurer. Mrs. Ben Johnson is the reporter. Mrs. Keese announced chairman for the year. The social committee will be headed by Mrs. W. A. Hunt, and Mrs. George McAlister will be reception chairman. Remembrances will be arranged by Mrs. Johnson, Mrs. J. T. Clements, Mrs. Lewis, Mrs. Marvin Baker and Mrs. Harold Vail. The group informally discussed plans for the year and suggested program possibilities. Mrs. Marshall Box, retiring president, expressed her appreciation for the cooperation she had been given. Coffee and doughnuts were served to 15. Mrs. McAlister, South Birdwell East, will be hostess to the club at 4 p.m. Feb. 24.

**'World Matters' Is Club Program**

Flags of the world and an atlas decorated the head table at a dinner meeting of the B&PW Club Tuesday evening at the Settles Hotel. Other tables held small dolls dressed in native costumes of various countries. Guests found places marked by small maps of the world, with the program attached, which had been colored by pupils of the school for exceptional children.

Occasion for the dinner was the program based on international relations. The speaker was Mrs. Nancy Johnson of Lamesa, state chairman of the committee for that phase of the club work, who was assisted by Mrs. Jean Jenkins, also of Lamesa.

The two discussed current events on a worldwide basis and showed how the happenings will affect lives of all of us. They urged the group to keep well-informed on all matters and discussed ways in which women might work for peace. Patsy Potter sang several selections, accompanied at the piano by Mrs. Nell Frazier. Mrs. R. T. Newell is chairman of the committee responsible for the program.

**Bridal Pair On Trip To Mexico City**

LT. and Mrs. Donald J. Smith Jr. are on a wedding trip to Mexico City following their marriage Saturday evening in the local First Baptist Church.

**Dads Escort Their Daughters To Tri-Hi-Y Banquet**

Members of the Goliad Junior Tri-Hi-Y were escorted by their fathers to a banquet Tuesday evening at the Desert Sands Restaurant. S. A. Walker acted as master of ceremonies for the Dad-Daughter affair. Nancy Heston worded the invocation. The program was launched with Diane McEwen's revelation of What My Father Means To Me. R. R. McEwen Jr. responded with Whay My Daughter Means To Me, and Charlotte Shive recited "Fathers."

Parents of the bride are Mr. and Mrs. Joe Hill of Coahoma; Mrs. Alice Hooker of El Paso and D. J. Smith of Monrovia, Calif., are parents of the bridegroom.

Sue Alice Baird of Coahoma presented the nuptial music preceding the double ring ceremony read by the Rev. Darrell Robinson, pastor of the Gay Hill Baptist Church.

A light blue wool suit was chosen by the bride for her wedding; she was given in marriage by her father. With navy accessories, she carried a white gardenia on a white Bible. Brenda Hill was her sister's maid of honor, and best man was the bride's brother, Joe Hill Jr. Fifteen attended a supper served at Cokers Restaurant after the ceremony.

**Two Ackerly Women Plan Open House**

Open house will be held Thursday at the H-H Beauty Bar in Ackerly when the owners, Mrs. Tommy Horton and Mrs. Edwin Hall, show their new shop to the public.

Calling hours for the opening have been set for 1 to 10 p.m., with refreshments served during the time.

A pink and gray theme outside is carried indoors where fixtures and walls are of pink and gray with a floor covering of gray background with splatter pattern in pink, gold and black.

**Regional Art Show Will Include A Photo Division**

Las Artistas, in a meeting Tuesday evening at the Police Building, agreed to include a photography division in the forthcoming regional art show. Fred Whitaker was named chairman of this phase with John Findlater and Mrs. Richard L. Patterson acting as co-chairmen of the entire show. The group welcomed Mrs. T. J. Mitchell, Mrs. Donald Hale and Jim Collins as new members, and Mrs. Norman Furlong and Bob Smith as guests.

**Altar Society Will Sponsor Game Party**

St. Thomas Altar Society, meeting Tuesday evening at the Church Hall, finalized plans for a game party at 8 p.m. Sunday.

Mrs. J. E. Flynn outlined the program for the year and reported on benevolences at the close of 1958. Speaker for the evening was Mrs. B. P. Huchton, whose topic was "Examination of Conscience for a Catholic Mother." She showed slides of Catholic activities, and pictures of his trip to Mexico were also displayed by the Rev. Fr. Francis Beazley, OMI. He urged the women to form discussion groups and distributed a new study series "Love in Action," Rev. Leo J. Trese. Refreshments were served to 30 by Mrs. Huchton.

**Program Of Beauty Given Lees Club**

Tips on the care of the skin and hair were given by Mrs. D. Armstrong for members of the Lees Home Demonstration Club Tuesday afternoon at the club house. Mrs. Armstrong, who was hostess for the group, also gave the devotion. A donation of five dollars was voted for the March of Dimes. Seven were present at the meeting, during which it was announced that Mary Joe Barnes will be the hostess for the gathering on Feb. 10.

**Golden Circle Class Has Business Meet**

Mrs. D. R. Philleys was hostess to the Golden Circle Class of Phillips Memorial Baptist Church Tuesday evening, when the group met for a business session. Mrs. D. W. Powell brought the devotion. A discussion was held on making up a yearbook, and it was decided to assemble one. Fifteen were present.

**Rosebud Club Studies Planting Of Shrubs**

Shrubs and spring planting were subjects for discussion by members of the Rosebud Garden Club when they met at the home of Mrs. J. T. Anderson Tuesday morning. Mrs. Jess Thornton was co-hostess.

A March of Dimes coffee preceded the meeting. Members were served in the den from a white linen covered table. The compote of white ceramic held an arrangement of eucalyptus, acacia and miniature yellow cat tails. Mrs. Jack Cook told of the many types of shrubs and made suggestions as to the use of the various types of evergreens according to the foliage and the color of blossoms. Mrs. Fred Gebert distributed seed and garden catalogues and pointed out the many particular gardening tools and insecticides that are being offered this year. Mrs. Horace Reagan suggested that as a club project the group furnish money which would be used to buy pamphlets on mental illness to be distributed at the Big Spring State Hospital to patients' families. The club voted to furnish \$10. Members were told of an invitation to attend a lecture on the use of insecticides which will be given at the Lincoln Hotel in Odessa by Mrs. Dorothy Johnson at 2 p.m. March 19. Guests for the morning were Mrs. John Balch and Mrs. Dale Smith, chairmen for the March of Dimes coffee. The February meeting will be held in the home of Mrs. Omar Jones at which time Mrs. H. C. Stupp will be the guest speaker.

**Initiation Held**

Mrs. Lee Gist and Mrs. Larry Fisher were initiated into the Women of the Moose Monday evening at the Moose Hall. Mrs. Jim Camp introduced the program, which was made up of dances presented by pupils from the Farrar School of Dancing. About 20 were present.

**Birthday Party Given**

A party honored Shirley Ann Tranham on her 12th birthday Monday evening at the home of her parents, Mr. and Mrs. D. C. Tranham. Twenty-six guests attended the affair, during which games were played and punch was served with a cake decorated with Mary and her little lamb.

**Canton, LAMP**

An installation service will be conducted by the Canton and LAMP, Big Spring No. 23, in a special meeting at 7:30 p.m. Friday at the IOOF Hall, Ninth and San Antonio Sts.

**Rebekahs Add Four; To Host MOD Coffee**

Each of the two Rebekah Lodges elected two new members at their separate meetings Tuesday evening. One of the units announced a March of Dimes coffee, which will be open to the public Thursday. **BIG SPRING LODGE** Membership was voted to Mrs. Minnie Vaughn and Mrs. Leon Mitchell by the Big Spring Rebekah Lodge No. 284, when the group met at the IOOF Hall. The couple will be initiated next week. Mrs. J. E. Brown, 1806 Wood, will open her home for a March of Dimes coffee Thursday. The public is invited to call between 7:30 a.m. and 4 p.m. Members of the lodge will assist Mrs. Brown in the hospitality. Thirty-one attended the meeting for which Mrs. Tom McAdams, noble grand, presided. A highlight was the election of the Theta Rho board for the year. Mrs. McAdams, Mrs. J. R. Petty, Mrs. Bob West,

Mrs. Harvey Harris, Mrs. R. V. Foresyth and Mrs. Don Brashear comprise the board. An invitation to the installation ceremony to be held Friday night by the LAMP and Canton was extended the group by Mrs. Lonnie Griffith. **JOHN A. KEE LODGE** Two new members joined the John A. Kee Rebekah Lodge at the Tuesday evening meeting in Carpenters Hall. Mrs. Ollie Knight was welcomed and Mrs. Dale Jennings was received by transfer from the lodge at Grand Saline. Certificates of perfection were presented to Mrs. Leonard Robertson, financial secretary, and to Mrs. Garland Land for perfect work with the lodge's treasury. Mrs. Jones Lamar, team captain, supervised a practice session for the initiation, slated for Tuesday evening. An invitation was

**Toastmistress Club Inducts New Member**

Mrs. Donald M. Sackschewsky was inducted into the Tall Talkers Toastmistress Club Tuesday evening when the group gathered at the Officers' Club for a dinner session. The ritual was directed by Mrs. Leland A. Younklin, who also introduced Mrs. Kenneth Tucker as a guest. Table topics were distributed by Mrs. Betty Ray Clifton to nine, who recited a children's rhyme in various ways. Anger, humor and tragedy were expressed in the recitations. Mrs. Albert E. Haydel was toastmistress of the evening. She presented Mrs. Hollis Smith, who shared her views on social security. Litterbugs Anonymous was Mrs. Joe C. Eubank's topic. Mrs.

Thomas S. Simpson, who passed the boner award along to Mrs. Haydel, gave the reading "Two and One Are a Problem," by Ogden Nash. Critics were Mrs. Laurence Johnson, Mrs. Paul E. Wagner and Mrs. Caribel Laughlin. Mrs. Younklin kept the time, and Mrs. Andrew Terpening served as general evaluator. The women were reminded of the local speech contest Feb. 10, and of an invitation to join the Downtown Toastmasters for the Feb. 16 meeting. They also reviewed the party held recently at the Wm. J. Boudreaux home. Members of the retiring board hosted the affair in honor of Mrs. Smith, outgoing president, who received her past president's pin.

**Jeanette Wyatt Is Wed To Capt. Marcel A. Gayer.**

Wedding vows were exchanged Tuesday morning by Jeanette Lee Wyatt and Capt. Marcel A. Gayer at a nuptial mass in the chapel at Webb Air Force Base.

San Francisco, where the captain will leave for a tour of duty in Japan. Mrs. Gayer will continue her work at the base until she can join her husband.

Chaplain Eugene Clemens read the double ring ceremony. The bride is the daughter of Mrs. A. P. Taylor of Dallas; her grandparents, with whom she made her home for a number of years, are Mr. and Mrs. J. B. Yates of Paris, Texas. The bridegroom is the son of Mr. and Mrs. Wilfrid A. Gayer, North Attleboro, Mass. Beige imported silk formed the suit which Mrs. Gayer chose for her wedding attire, and she used brown accessories. She wore a white orchid corsage. Attending as matron of honor was Mrs. Bill Sheppard, whose blue suit combined with black accessories and a corsage of white carnations.

Best man was Capt. Phil White. An informal reception followed the wedding at the Officers Club, where the couple was assisted in greeting guests by Mrs. Sheppard and Capt. White. The bride is a graduate of Overton High School and is employed at Webb AFB.

**Mrs. Harris Is Speaker For WSCS**

Mrs. L. W. Harris spoke to the First Methodist WSCS of the various ways women might serve the church at a meeting of the group Tuesday morning at the church. Mrs. Mary Guillams opened with a devotion based on the 23rd Psalm in which she explained the different parts of the writing. Mrs. Clyde Johnston told of the work being done by the World Federation of Methodist Women.

During a business meeting, announcement was made of the district meeting to be held in Midland, Feb. 17-19. An invitation was read to a tea to be given Sunday from 3-5 p.m. at First Methodist Church. The next meeting of the group will be at the church on Tuesday at 9:30 a.m. when members meet for study. The fourth Tuesday in February is slated as the next general session; Mrs. Richard Deats will be the speaker.

**Regional Art Show Will Include A Photo Division**

Las Artistas, in a meeting Tuesday evening at the Police Building, agreed to include a photography division in the forthcoming regional art show. Fred Whitaker was named chairman of this phase with John Findlater and Mrs. Richard L. Patterson acting as co-chairmen of the entire show. The group welcomed Mrs. T. J. Mitchell, Mrs. Donald Hale and Jim Collins as new members, and Mrs. Norman Furlong and Bob Smith as guests.

In a business session, they decided to renew membership in the Texas Fine Arts Assn. Speaking on "Why Do We Paint?" Dr. Furlong showed slides which he had taken in galleries on a trip East last year.

Mrs. D. R. Philleys was hostess to the Golden Circle Class of Phillips Memorial Baptist Church Tuesday evening, when the group met for a business session. Mrs. D. W. Powell brought the devotion. A discussion was held on making up a yearbook, and it was decided to assemble one. Fifteen were present.

The Feb. 24 meeting will take place in the home of Mrs. Powell, 1108 East Sixth, it was announced.

A party honored Shirley Ann Tranham on her 12th birthday Monday evening at the home of her parents, Mr. and Mrs. D. C. Tranham. Twenty-six guests attended the affair, during which games were played and punch was served with a cake decorated with Mary and her little lamb.

# THE NEWSPAPER

...all things to  
all men...and  
by all taken for  
granted!

## PICTURE BIG SPRING WITHOUT A NEWSPAPER

Downright compulsive, isn't it, this consuming curiosity about what's going on around town?

No, you're not nosy — just curious. You believe that most of your public servants are honest . . . that your police and courts are free from corruption . . . that the politicians aren't plotting to steal the city hall.

And then you try to picture your town without a newspaper!

Dimly, you recall something that Thomas Jefferson once said: "Were it left to me to decide whether we should have a government without newspapers or newspapers without government, I should not hesitate to prefer the latter."

Nonsense! That was long ago. It's different now. This is the electronic age. What with split atoms, split stocks and split second jet-way-of-living, we now have all sorts of checker-uppers on our civic goings-on.

But have we? Let's take inventory.

Whatever wonders and wizardries communication offers today, one thing remains the same: **the heart of the free press is still the good reporter.** And the good newspaper — its printed words documenting human happenings — is still the initial instrument in the protection of rights and liberties throughout the land.

The fact is plain. And it's reiterated in the record: Almost every day some American newspaper — ranging in size from the mighty metropolitan daily to the small town weekly — is acclaimed for its constructive efforts in helping to build a better community . . . or for its vigilance in searching out and snuffing out corruption, tyranny and injustice.

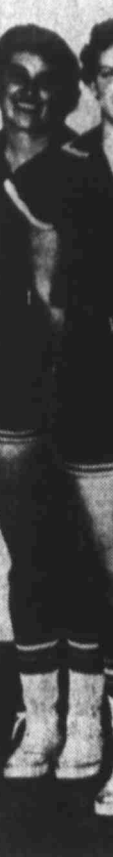

In this service, traditionally — yes, and inimitably — the newspaper is still supreme.

So, if you will, keep on taking your free press for granted. But — if you value your freedom — don't let anything or anybody take your newspaper away from you.

Queens In Local Appearance

The Wayland College Flying Queens (above), four times National Women's AAU basketball champions, come to Big Spring tomorrow night to play the Clarendon JC girls. Left to right, top row, they are Patsy Neal, Margaret Odom, Marsha Scoggin, Jan Wigginton, Carolyn Miller and Evelyn Searles. Middle row, Carla Lowry, Mona Poff, Nelda Smith, Betty Holford and Katherine Washington. Kneeling is Joyce Kite. The Queens have lost only one game this season and are favorites to win the AAU crown again.

# HAWKS INVADE LAIR OF PHILLIPS QUINT

The HCJC Jayhawks have their work cut out for them tonight and no one realizes it more than Coach Harold Davis. The local collegians, who have been idled in recent days by midterm examinations, visit Borger for a West Zone contest with Frank Phillips College. The Plainsmen are defending champions in the circuit and are now 3-1 within the conference. Their only loss was at the hands of Clarendon. That was a major surprise, since the game was played in Borger. The defeat may have cost the Borger team a chance to finish in first place but it has every intention of finishing as high as second and thereby insuring itself another trip to the state tournament. Following the loss to Clarendon, the Hawks rebounded by smashing Lubbock Christian College, 105-82. That was the same team which fought HCJC all the way to the wire before losing by six points. Frank Phillips' standout performer is Warren Tipton, who was an all-state cager for Borger High School last year. Tipton scored 35 points when the Plainsmen blasted Lubbock Christian College. Other Frank Phillips scoring threats are Frank Castleberry, who hit 14 points against LCC; and Willie Redden, who counted 13 points in that game. Bud Simpson is coach of the Plainsmen again. Bud led the Phillips gang to a co-championship within the zone in his first year at the helm last season. The Plainsmen now have an 8-3 won-lost overall record and have been averaging close to 90 points a game. HCJC will try to improve upon a 13-5 record overall. Within the Zone, they are 2-1, having beaten Lubbock Christian College and South Plains of Levelland while losing to Clarendon. Probably starters for HCJC are Bobby Davis and Gilbert Bell at the post positions and Benny Carver, Tommy Zinn and either Ray Clay, Harold Henson or Jimmy Evans out front. The Hawks are in better shape than they have been since the beginning of the season, thanks to the layoff. The contest is one of two the locals will play this week. On Friday night, the Hawks play a return game with Lubbock Christian College here. Frank Phillips and HCJC meet in the local gym again Monday night.

## LOOKING 'EM OVER

With Tommy Hart

The local Junior Chamber of Commerce had a chance to book the Harlem Globetrotters in here for a Sunday afternoon game next month but couldn't obtain the use of a local gym. The Trotters have added several new half-time acts to their show and are supposed to be more entertaining than ever.

Bill Borries, the former HCJC cager, quit the Austin College basketball team at mid-term. He's withdrawing from school, although he had two seasons of eligibility remaining.

Gary Robertson, the Midland cager who quit TCU his freshman year because he had trouble with his studies, was a scholastic casualty at Idaho State, one of six cagers who failed to make their fall term grades there. Robertson will be remembered here as a standout on the Odessa JC basketball club.

The HCJC basketball scoreboard has been repaired and will be ready when the Hawks play their next home game here Friday night against Lubbock Christian College.

They say Marshall Hughes lost out as the basketball coach at the University of Texas (he beat the officials there to the punch by submitting his resignation last week) because of his inability to meet the public.

Texas scouts had a hard time selling the recruits on the school, for that reason. If Slater Martin doesn't take the job, it may first be offered to freshman coach Jimmy Viramontes. Phil George, the San Angelo College coach, could be in line for it.

George passed up a chance to make an impression at an interview for the Texas A & M job several years ago, it is believed, because he wanted the Texas job. He's a Texas ex.

Take it from Coach Vernon Harton, Jay LeFevre is the most improved player on the Big Spring High School basketball team in the last three weeks.

The tall junior, whose twin brother, Zay, is a regular post man with the Steers, had shown a timidness around the boards during the early part of the season but someone has been feeding him raw meat of late.

Jay doesn't score often but he tried three hook shots against Abilene here the other night. Only one of them went through the hoop but it was the field goal that beat the Eagles.

The twins will be back next season and Coach Harton plans to use them as a double post combination. They could be salty.

Big Spring may not finish anywhere near the top spot in district basketball standings but, for the second year in a row, the Steers have the outstanding player in the conference.

Last year, it was Jan Loudermilk. This time, it's Bill Thompson. Abilene's Jim Bray has a deft scoring touch but he can't rebound. Mike Humphrey of Midland is great at fighting the boards but he can be defended.

Odessa's secret of success depends upon the ability of all five starters to hit from anywhere beyond center court — the Bronchos simply overwhelm the opposition. Don Brownlee and Jackie White are the ring leaders of the Red Hosess.

San Angelo has its Mack McCoulskey, Al Dodson and Ray Cole — fine hands all — but none can do as many things as can Thompson. Bill, with his multitude of talents, gives the local team the poise many thought would be lacking when Loudermilk graduated in May. Most everyone who has seen him play insists he's all-state material.

## Rotan Yellowhammers Flog Coahoma Bulldogs, 57-42

ROTAN (SC)—The Yellowhammers of Rotan, led by Todd Baugh's 22 points, handed Coahoma its third loss in district play, 57-42, last night.

Dock Reeves tossed in 11 and Don Cunningham 13 for Coahoma. Coahoma won the girls' game, 44-27. Joan Davis led the way with 21 points while Sadie Nixon

had 12. Glenda Heney nine and Jeff Gore two. Delores Lindlay, Annette Porter and Frances Earnest played fine defensive ball for Coahoma. The Coahoma ferns now have a 12-7 won-lost record and are 1-2 within the conference.

ROTAN (7)—Thompson 23-7; Christian 4-3-11; Hill 7-1-15; B. Baugh 11-0-22; Smith 1-0-2; Totals 57-42.

COAHOMA (4)—Reeves 5-1-11; Rich- ters 2-1-7; Cunningham 4-0-12; Nelson 1-1-3; Tyler 3-3-9; Totals 44-27.

## Lakeview Wins Pair Of Games

Lakeview teams shut down the boys and girls clubs from Plainview here last night, with the Rockets taking a 69-25 decision. The girls won with little trouble also, 45-33.

B. F. Newton banged in 17. Luther Brown shot for 14, and J. B. Wright added 10 for Lakeview. Lakeview led 18-6 by the end of the first eight minutes, had a 26-3 spread at intermission, and was coasting, 51-16, when the third period had shut down Z. L. Owens had 10 for Plainview.

The Big Spring girls were led by Betty Seag, who dumped 25 points through the goals. Mary Davis also had 13 for Lakeview, while Yancy Alexander pitched in 21 for the visitors.

The games were District 1-A contests. The boys own a 4-1 record in the loop, with a 15-6 standing for the year. The girls are 7-7 for the season. The teams host Vernon here Feb. 7.

Girls:  
LAKEVIEW (45)—Seag 15-1-25; Gilbert 2-2-7; Mary Davis 5-3-13; Totals 18-6-45.  
PLAINVIEW (33)—Alexander 9-3-21; Bryan 4-2-8; Wright 10-1-11; Perkins 1-0-2; Totals 15-3-33.

Boys:  
LAKEVIEW (69)—Newton 8-1-17; Baker 4-0-4; Brown 6-2-14; Wright 4-0-4; Evans 2-2-7; Wright 10-1-11; Barks 6-1-1; McInnis 2-3-4; Wright 10-1-11; Totals 51-17-69.  
PLAINVIEW (25)—Owens 4-2-10; Coker 3-0-6; Thompson 1-1-3; Pennell 1-2-4; McInnis 1-1-3; Totals 10-5-25.

Big Spring 18 26 31-69  
Plainview 4 8 18-25

## Forsan Wins Over Billies

FORSAN (SC)—Forsan and Knott swapped uprisings at Knott last night, but the Buffaloes were on top during the final moments and took a 54-41 district win. Forsan's girls lost, however, 39-25, in a game that helped break up a four-way tie in the district race. The boys jumped into a quick 15-10 first quarter lead over Knott, but lost composure and fell back 23-21 at halftime. Knott was tough, but not quite tough enough on its home court, and lost the lead in the third period. George White and Ken Dufferance rebounders for Forsan, sacked 14 each for Forsan, and Charles Skeen had 10. Dois Ray and Dave Fortune had 12 for Knott.

Forsan lost a first-place share in the girls race, by its loss. In another game in the district, Garden City dropped Sterling City, so that now the tie rests between Knott and Garden City.

Knott led 11-4, 26-12, and 33-16 at stopping points. Sherry Fletcher bagged 10 for the losers, and Sh Cline sank 21 for Knott.

The Buffs have an 18-3 record for the season, with a 3-1 standing behind Garden City in the district. Forsan boys and girls teams travel to Water Valley for the next district engagement Friday.

The Steers hit only 26 per cent of their shots in the second, and conference record unimpaired by trampling the visitors, 71-62, here Tuesday night.

The loss was the third in four starts for Big Spring while Odessa now has a 4-0 league record and a 24-0 overall mark.

The Red Hosess, although they weren't exceptionally warm, outscored the Steers in every quarter but the fourth. Overall, the Bronchos had a 40 per cent shooting average while the Steers had to settle for 35 per cent.

The Steers hit only 26 per cent of their shots but had 49 per cent of the last 16 minutes.

Big Spring was superior on the boards, capturing 31 rebounds to 27 for Odessa. Odessa managed to get only five balls off its own board but took down 11 off the Big Spring upright.

Jackie White was red-hot for Odessa. He scored 26 points. Bill Thompson experienced only two warm quarters, scoring wise, but led the Steers with 22 points. He managed only one free toss the first quarter, got 11 points the second, didn't score in the third but added ten in the last eight minutes.

Zay LeFevre and Benny McCray again showed great form in battling for the rebounds and McCray added 12 points to the Steer aggregate.

Don Brownlee, one of the Odessa stars, had a bad night. He sat out much of the game with four fouls and finally exited with his fifth infraction with five minutes left to play. He scored only seven points.

The defeat left Big Spring with an overall record of 17-9. White hit four of his nine field goals in the first half. The Steers return to action Friday night, meeting Midland in a conference game.

ODESSA (71)—Brownlee 23-7; White 12-2-24; Harris 4-0-8; Hudson 3-5-11; Winter 3-3-9; Totals 21-27-71.  
BIG SPRING (62)—Thompson 7-4-22; C. D. Turner 5-12; P. Hollis 3-3-9; Clendenin 1-0-2; Z. LeFevre 4-1-9; Evans 4-2-8; Totals 22-18-62.

## ACKERLY TEAMS SWEEP GAMES

KLONDIKE (SC)—Ackerly High School team swept a doubleheader from Klondike here Tuesday night. The Ackerly boys won, 46-37, for their 16th triumph in 22 starts while the girls prevailed, 61-48, for their 23rd victory in 27 assignments.

In District 8-B play, the Ackerly boys are now 3-2 while the girls are undefeated in five games. Royale Lewis and Benny Kunkel led the Eagles' victory, scoring 13 and 11 points, respectively. Quentin Airhart had 13 for Klondike.

In the girls' game, Dorothy Williams scored 27 points for Ackerly while Janice Bearden had 25. Glenda Airhart kept Klondike in contention with 16 points.

The Ackerly teams visit Flower Grove for games on Friday night. Boys' game:  
ACKERLY (46)—Busler Grigg 1-3-5; Jerry Igo 2-0-4; Walden 2-0-4; Paul Wasson 1-1-3; Royale Lewis 5-3-13; Don Gith 12-14; Benny Kunkel 5-1-11; Totals 10-10-46.  
Klondike (37)—Quentin Airhart 4-5-13; D. Williams 12-14; Parkman 2-0-4; L. Beaman 2-0-4; Evans 1-0-2; Totals 10-10-37.

JACK BREWER New Head Coach

HAYDEN FRY Moves To Baylor

## Fry Is Hired By Baylor U.

ODESSA (SC)—Hayden Fry resigned his job here as head coach at Odessa High School Tuesday to accept a post as backfield mentor at his alma mater, Baylor University.

Within a matter of hours, the Odessa school board unanimously named Jack Brewer, Broncho line coach, as a successor to Fry.

Fry returns to Baylor under John Bridges, the former Baltimore line mentor, who only recently accepted the position as head coach and athletic director. Fry quarterbacked the state championship team in Odessa in 1946, the only time the Red Hosess have ever won the title.

Hayden was Baylor's last four seasons letterman. He finished there in 1950. He has been coach at Odessa for three years, during which time his teams have won 17 and lost 13 games. He finished with a 6-4 record last season.

Brewer's assistants were not immediately named. Brewer said he wanted to give it some thought before making any selections.

Brewer was hired at Odessa last August after coaching two years at La Vega. Prior to that, he was on the Howard Payne staff. He is 31 years of age and married.

## IN 2-4A CONTEST

## Odessa Bronchos Nudge Longhorns

ODESSA (SC)—The Big Spring Steers gave it the good try but the Odessa Bronchos kept their season and conference record unimpaired by trampling the visitors, 71-62, here Tuesday night.

The loss was the third in four starts for Big Spring while Odessa now has a 4-0 league record and a 24-0 overall mark.

The Red Hosess, although they weren't exceptionally warm, outscored the Steers in every quarter but the fourth. Overall, the Bronchos had a 40 per cent shooting average while the Steers had to settle for 35 per cent.

The Steers hit only 26 per cent of their shots but had 49 per cent of the last 16 minutes.

Big Spring was superior on the boards, capturing 31 rebounds to 27 for Odessa. Odessa managed to get only five balls off its own board but took down 11 off the Big Spring upright.

Jackie White was red-hot for Odessa. He scored 26 points. Bill Thompson experienced only two warm quarters, scoring wise, but led the Steers with 22 points. He managed only one free toss the first quarter, got 11 points the second, didn't score in the third but added ten in the last eight minutes.

Zay LeFevre and Benny McCray again showed great form in battling for the rebounds and McCray added 12 points to the Steer aggregate.

Don Brownlee, one of the Odessa stars, had a bad night. He sat out much of the game with four fouls and finally exited with his fifth infraction with five minutes left to play. He scored only seven points.

The defeat left Big Spring with an overall record of 17-9. White hit four of his nine field goals in the first half. The Steers return to action Friday night, meeting Midland in a conference game.

## Four State Champs Guests At Dinner

WICHITA FALLS (AP)—Four state champion football teams will be guests of the Wichita Falls Boosters Club at a banquet of champions tonight.

The four—Wichita Falls, Breckenridge, Stamford and White Deer—boast combined won-lost records of 53-3-2.

## ARCH MOORE WANTING A CHANCE AT CROWN

By MURRAY ROSE Associated Press Sports Writer JAMESTOWN, N.Y. (AP)—Archie Moore is at an age when there could be no more tomorrows for him in the ring. Yet the old warrior is busily plotting a campaign to get one final fling at the heavyweight crown.

It may not come until 1960 or even 1961, which gives you an idea how long Archie intends to stick at his trade.

The light heavyweight champion has one sure fight on tap for 1959. That's the return bout with Canada's Yvon Durelle, the rugged fisherman who was knocked out in the 11th round of a memorable brawl in Montreal last Dec. 10.

"That's my bird in the hand," said Moore, here for a sports banquet. "But before I fight him I would like to fight Britisher Henry Cooper. He's been offered \$150,000 to fight me. I'll take a lot less—maybe \$50,000. But I'll beat him and then I'll be in position to fight the winner of the Floyd-Patterson-Ingemar Johansson heavyweight championship fight.

"The public will demand that. I've been bidding my time for the right moment. I said after I lost to Patterson in our fight for the title in 1956 that I would go back in line and wait for my chance. The time is getting ripe, for me."

How about middleweight champion Sugar Ray Robinson who has expressed a desire to meet him for the 175-pound crown?

"Ray should know it takes two to dance," replied Moore. "He's not going to get the whole pot fighting me. After all, it would be my title at stake. Then, too, if I fight Ray the purse would be so big I couldn't fight more than once this year."

Archie, who is either 42, 45 or 49, or there about, was knocked out in the fifth round by Patterson. How would he make out in return?

"Patterson is a good fighter and I'm not under estimating him, but I think I would knock him out early," said Archie.

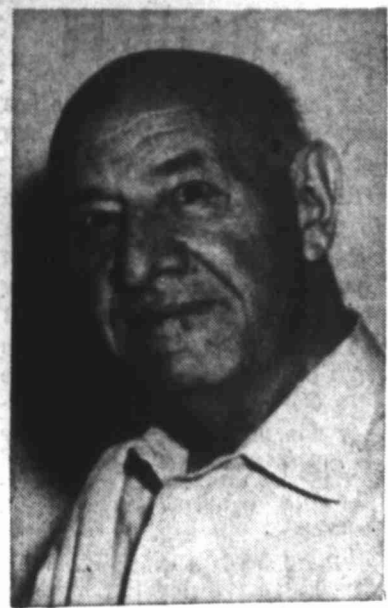

"I was overtrained and stale for the Patterson fight. I overdid things because my trainer felt I hadn't trained enough for Rocky Marciano (who knocked out Moore). Two and three days before the fight, I lost my pep and strength.

"Even then it was a shock punch that put me out. Patterson is not that good a puncher. He wouldn't hit me like that again, I assure you. The next time—and Archie is going to be a next time—old Archie is going to be the Heavyweight Champion."

SHINE PHILIPS

### Shine Philips Admitted To Warm Springs

GONZALES—Earl (Shine) Philips, 1304 Scurry St., Big Spring, has been admitted to the Texas Rehabilitation Center, Gonzales Warm Springs Foundation. He is receiving treatment for paralysis of the left side.

The Texas Rehabilitation Center is the Southwest's largest facility for comprehensive treatment of the physically handicapped. The center is a non-profit, non-sectarian hospital which assures needed care to disabled citizens.

With the incidence of polio reduced by the Salk vaccine, more than two-thirds of the Center's patients are handicapped from non-polio diseases and accidents such as spinal cord injuries, strokes, arthritis, cerebral palsy, muscular dystrophy, and arterio sclerosis. Shine's disability followed a stroke two years ago.

### House Science Report Sees Fantastic Gains

WASHINGTON (AP)—Fifty top scientists peered into space today and saw a man on the moon—perhaps by 1969.

Or man may set foot on the moon in 1965 and zoom on to Mars and Venus three years later. That is assuming space projects get very high priority and a billion dollars a year, says Herbert F. York, the Pentagon's research chief.

The views of York and other space experts, including five from other free world countries, were issued in a report by the House Space Committee on "The Next 10 Years in Space."

The report asked, "Where does fantasy end and reality begin?" In their answers to committee questionnaires, the scientists were dead serious, even if they varied widely on the timing of seemingly fantastic events. Their outside time limit on trips to the moon and beyond was generally 20 years.

For other ventures—like development of a possible death ray weapon able to shatter objects from hundreds of miles in space—the time was indefinite.

A number felt that 1969 may be too early to count on having a man on the moon. Among them was T. Keith Glennan, head of U.S. civilian space work.

But Glennan figured there is a good chance that Americans will circle the moon without landing in the next decade. Army missile man Werner von Braun foresaw a lunar landing a few years thereafter.

Some other predictions were enough to stagger the imagination.

**SPEED OF LIGHT**

Within 40 years, said Dr. Eugene Sanger, director of the Institute of Jet Propulsion Physics at the Technical University of Stuttgart, Germany, man may be traveling at 670 million miles an hour—almost the speed of light.

But long before the year 2000 rockets will deliver mail in minutes around the earth, forecast the founder of the Italian Rocket Assn. Dr. Glauco Paroli.

James M. Gavin, former Army research chief, likewise saw mail becoming almost as swift as the telephone, and rockets otherwise used commonly for what air transports now do.

Frederick C. Durant III, former head of the International Astronautical Federation, predicted the Soviets will send man into orbit will otherwise shock Americans by "pressing their current advantageous lead" in spacecraft.

Brig. Gen. H. A. Boushey, the Air Force's technology director, foresaw the building of a large space station piece by piece near the end of the next decade. This would be the refueling and jump-off point for trips further out.

Sanger spoke of a possible ultra violet searchlight in space which, using high-energy beams, could snoot a death ray "destroying flying objects up to a distance of several hundreds of miles in a fraction of a second."

Atomic Energy Commission Chairman John A. McCone expressed confidence in the development of a powerful nuclear rocket engine within the next 10 years plus small atomic units for making electricity aboard spaceships.

Dow Chemical Co. scientists foresaw within the next decade nuclear engines allowing continuous flight for up to a year, either in the earth's atmosphere or beyond.

Peaceful benefits foreseen included worldwide TV, communications, and weather observation from satellites.

# WHITE'S King-size 4 Room Group Sale!

**YOUR MONEY BACK**

if you can buy it anywhere else in the World for less!

KING-SIZE QUALITY AT KING-SIZE SAVINGS

WHITE'S OFFERS TWO GROUPS TO FIT ANYONE'S POCKETBOOK!!

**Pumping For Polio Funds**

James Howard Stephens supplies the air as this trio, representing the high school Hi-Y and Tri-Hi-Y, starts preparations for the sale of balloons to help the local March of Dimes. The balloon sale will be held Saturday morning. Holding the balloons after Stephens pumps them up are Shirley Terry, left, and Peggy Isaacs.

## Coahomans Will Honor Retiring Pastor Tonight

COAHOMA — The Presbyterian family gathers this evening to say farewell to a couple that has twice fixed its personality on the heart of Coahoma.

The family night dinner affair at 6:30 o'clock will be the last function at which the pastor, C. P. Owen, and his wife, will be with the church. Thursday morning they will live in retirement at 313 Lytle.

After a little rest, he will be available for supply or other assignments, but this time he probably won't get into any building or debt-lifting enterprises. All through his ministry God seemed to use him especially for adding to the church properties or shaking off the yoke of debt.

Manses were built during his ministry at Greenhill in Titus County, Bonham and Crockett. He was pastor where churches were built at Pittsburgh and LaGrange. At Sulphur Springs he led in adding a Sunday School annex, an educational wing at Coahoma, where in a previous pastorate he also led in a remodeling program. At Mercedes and Brownwood he helped lift the church debt. He helped develop Camp Gilmont when he was in administrative work for the Paris Presbytery, and for six months he was directing the first Texas synod concerted campaign for denominational building.

The Rev. Owen was marked for the Presbyterian ministry from the beginning. His great-grandfather, Dr. Hugh Wilson, organized the First Presbyterian Church in Texas at St. Augustine in 1838. He was born in Lee

**THE REV. C. P. OWEN**

County in the Presbyterian community of Tanglewood in 1889.

However, he didn't yield to the call to preach until his 30th year when he took up as a student preacher in 1919. The following year he was licensed and in 1921 ordained by the Paris Presbytery. After taking his bachelor of arts degree at Austin College in Sherman, he completed his bachelor of theology degree requirements at the Union Theological Seminary in Richmond, Va. Later he did graduate work at the University of Texas. Despite his educational background, he has preferred the small town where he has always managed to be a community pastor rather than just a Presbyterian pastor.

Besides serving as director of Christian education and church extension for the Paris Presbytery, he was director of church extension for the Central Texas Presbytery. At the outset of World War I he served as YMCA secretary at Fort Sam Houston before he joined the Army. For five years he was assistant director of Westminster camp and

its director for two years for the state synod's operation at Kerrville.

At Coahoma, where he served from 1942-45 and from 1956-59, he has been active in community affairs. He is a member of the Lions Club.

In his student days he met Alice McMurry, daughter of the Lions Club.

In his student days he met Alice McMurry, daughter of the patriarchal Stonewall Jackson McMurry, for 19 years the stated clerk of the synod of Texas and for many years the clerk for the old El Paso Presbytery. This ripened into marriage which has produced two Presbyterian pastors, the Rev. Jan Owen of the First Presbyterian Church in Charlottesville, Va., and the Rev. Joe Owen of St. Luke's in Houston. The eldest son, C. P. Owen Jr., is president of a manufacturing firm in San Diego, Calif., and the youngest, Jim Owen, is director of the NBC-TV outlet in Tucson, Ariz.

Women of the church had a little farewell party for Mrs. Owen the other day, and this evening the congregation bids them both Godspeed. No doubt there'll be a lot of folks from other churches on hand to tell them to come back to Coahoma a third time if they need to rest from their retirement.

## Annual Meeting Of UF Members Set Thursday

Annual membership meeting of the United Fund of Big Spring and Howard County will be held Thursday evening.

Meeting place is at the Chamber of Commerce offices and the time is 7:30.

Every person who made a gift to the United Fund is automatically a member, and all are invited to attend the annual meeting, said President Clyde McMahon.

Various reports pertaining to the year-end status of the organization will be given, and a new slate of trustees for the UF will be elected. The board of trustees includes about 90 people, a third of them elected each year for a three-year term.

Trustees are due to convene after the membership meeting, and elect officers to serve the fund-raising organization for 1959. With McMahon, officers for the past year have included Raymond River as vice president and John Currie as treasurer.

McMahon urged a large turnout for the Thursday night session.

## Polish Reds Break Up Church Service

DALLAS (AP)—A preacher of the Urbanside Church of Christ, R. J. Smith Jr., said last night he received information that Communist police broke up a Church of Christ service in Warsaw Jan. 11.

Smith said he protested to Sen. Lyndon Johnson and other congressmen who will ask the State Department to investigate.

## 72,000 Veterans' Pensions Adjusted

Approximately 72,000 compensation and pension cases, added to the rolls of the Veterans Administration after World War II, have required adjustment in the claims review now under way, according to Ray Boren, of the VA Contact Office at the VA Hospital, Big Spring.

The actual number of adjustments is 71,958 and is cumulative to Sept. 30, 1958. It involved 9.1 per cent of the 791,372 cases reviewed to that date.

Included were 7,638 instances of increases in monthly payments to reflect a worsening in degree of disability. Improvement in the degree of disability with accompanying decreases in monthly payments occurred in 27,179 cases. There were 37,141 terminations of payments.

Breaking down this last figure of 37,141 terminations Boren pointed out, 23,027 were ended primarily because an improvement in disability to a level no longer justifying monetary awards. The remaining 14,114, were terminated after VA found "clear and unmistakable error" in associating the disability with the period of military service.

## Mechanic Held In Fatal Shooting

ODESSA (AP)—Robert Angel, 24, an unemployed mechanic, was held today on a charge of murder in the fatal shooting of a man he apparently never had seen before.

Three witnesses identified Angel as the one who joined them uninvited at a lounge and went with them on a midnight ride during which Vernon Pittman, 28, was shot. Angel was arrested later at a hotel.

## Local Men Attend Bottlers' Meeting

Lewis Christian and Verlin Knous, of the Big Spring 7-Up Bottling Co., attended the 56th annual convention of the Texas State Bottlers' Assn. in Houston.

About 500 members of the association attended the three-day convention, accompanied by their

employees and families. A round of entertainment began with a buffet supper Sunday night. The meeting closed Tuesday with the annual banquet.

"Breakfast with the Experts" kicked off the business of the convention on Monday morning concluding with the election of officers on Tuesday when C. L. Mathews of Houston was elected president of TSBA and succeeded J. Conrad Dunagan of Monahan.

## OH, MY ACHING BACK

Now You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain — you want relief — want it fast! Another disturbance may be mild bladder irritation following wrong food and drink — often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief million have for over 60 years. New, large size saves money. Get Doan's Pills today!

# DID SOMEBODY MENTION GASOLINE MILEAGE?

Although we deliberately engineered improved gas mileage into the '59 Buicks, we have not made much point of it in previous advertising for THE Car. People's driving habits can get very different results even from the same car. So we are now happy to report that our plans for greater economy of operation have been very successful indeed... in everyday owner experience.

**Owners report excellent records**  
Most owners are naturally proud of their new cars, and may sometimes overstate a little. But even allowing for that, listen to these reports from owners! A Detroit man drove his Electra 9,000 miles around the country, and reports a little over 19 miles a gallon. A

Louisiana LeSabre, with Twin Turbine Transmission, after 4,000 miles is giving its owner 17.6 miles per gallon. A St. Paul man reports 18.1. From Atlanta comes 17.5. From Pittsfield, Mass., 20. Some are even higher. Some lower. But these are typical.

**Tests confirm new economy**  
Recently a very thorough set of tests was run, putting Buick LeSabre and another car of comparable size which is known for good economy, through identical tests under all sorts of driving conditions. The Buick came out best in every single test.

**How Buick mileage was improved**  
It took a combination of several steps. New,

more efficient Wildcat engines was one... compression up to 10.5, better carburetion. In the case of LeSabre there is also a new, twin-barrel economy carburetor as standard equipment. All this to get more power out of the fuel. In addition, new combinations of transmissions and rear axles put this power to work more efficiently.

**Owners also report QUALITY outstanding**  
"Best-performing Buick ever!"... "My sixth Buick and the best I ever owned!"... "Best operating car I've driven in thirty years".... "Much the best Buick yet!"... Learn for yourself why this year's Buick owners are so enthusiastic. Go to your Quality Buick Dealer and see why *The Car is The Buy*.

## BUICK '59: THE CAR IS THE BUY!

## TCU Exes Set Midland Dinner

Ex-students and friends of Texas Christian University who live in the Midland area are invited to attend a dinner meeting at 7 p.m. Feb. 3, to be held in the ballroom of Midland's Hotel Scharbauer.

TCU President M. E. Sadler will be guest speaker. The dinner is sponsored by the Midland Ex-Students Assn., headed by Robert O. Lynch.

Reservations for the dinner must be made by Feb. 2, with Jim Lucas, who is in charge of arrangements: phone OX 4-4713, Midland, or write to 306 Kessler St. there.

There are over 500 TCU ex-students and friends of the university in the area including areas from Big Spring, Odessa, Midland, Pecos, Kermit, Ft. Stockton, Colorado City, Monahan, Andrews, Crane, Rankin, McCamey, Vealmoor, Wink, Seminole, Lamesa, Coahoma, Snyder.

While in Midland, Dr. Sadler will speak at a private luncheon sponsored by A. A. (Jack) Bradford, to be held at noon, Feb. 2, in the Midland Petroleum Club.

## Eidson Rape Trial May End Today

DENVER (AP)—Rival attorneys were expected to complete their cases today in the Federal Court trial of Oma Roy Eidson, 42, of Tyler, Tex.

The dark-haired oil field worker is accused of kidnaping and raping Susan Dudek, 12, of Durango, Colo., July 18.

Susan testified last week that Eidson lured her into his car near her home, then drove off. She was released near Aztec, N.M., and a day later Eidson was arrested at Farmington, N.M.

FBI agents testified about items of clothing and a plaster cast of automobile tire tracks.

## A Devotional For Today

The Lord is right unto them that are of a broken heart; and saveth such as be of a contrite spirit. (Psalms 34: 18.)

**PRAYER:** Our Father, as the request of His disciples, Thy beloved Son taught them to pray. Teach us now, with new and deeper meaning, to pray again the familiar words, "Our Father who are in heaven . . . Amen."

## Future Market For Our Surpluses

A study in the current (February) Fortune Magazine indicates that population growth in the U. S. is beginning to slow down, may continue to decline somewhat from the high peaks of recent years, but by 1965 will hit a new stride that will carry our total population by 1970 to a whopping 210 million.

It notes that 1958 was the first year in the last eight that births did not set a new high. There were 4,250,000 births last year, a decline of 1 per cent. Since the year 1947 there have been 30 million births in this country, and if you think that was really something, you're right: that figure equals the nation's total population at the outbreak of the War Between the States almost a hundred years ago.

As for the current slowdown as indicated by the 1958 figures, Fortune's study forecasts total births in the 1970s "might well be 25 per cent higher than in the 1960s." A recent study indicates 2.5 children for the average woman between 45 and 49 by 1965. By 1970 the average will be around 2.8; and in the years beyond that the average should level out at 2.9.

"Women will continue to marry young, but probably not quite so young as five years ago; they will continue to have children early and to have more of them,"

the magazine thinks. "And finally, there may be a small addition to total population gains from some further reductions in the death rates—which are likely to be reduced most at the higher ages."

In connection with this last observation, it should be kept in mind that most of the lengthening of the lifespan in recent years has been due to reduction of infant mortality; more of the people who are born survive infancy and childhood to become adults. And with the advancement of medicine and kindred services, more adults are living into the higher age brackets—a fact that won't be fully reflected in the population statistics for a decade or longer.

Prospect for another boom in babies starting in the mid-1960s, aside from the mere human equations involved, is good news to many lines of American business and commerce.

And for school boards at all levels, from elementary to colleges and universities, it means more headaches, more scrambling for classrooms, dormitories and other appurtenances.

But it has its encouraging aspects for the nation's producers of foodstuffs and fibers. Measured against the prospects of a population of 210 million by 1970, our current surpluses seem far less menacing.

## Take The Lid Off

In his weekend address to fellow-Texasans, Sen. Lyndon Johnson notes that, according to administration figures, the country now has a commodity surplus of \$9 billion. This surplus was increased last year "because the farmers and ranchers had a good year." The Almighty anointed the earth with rain," to quote the senator.

Still quoting the administration, he notes that by July 1 next, "your government will be spending at a rate of one billion dollars a year to store this surplus," along with handling and interest charges.

"It is costly luxury, adding to the burdens of the taxpayer."

What to do? He and other senators have under study now a plan, Sen. Johnson goes on.

"This is what it would do: A farmer

would plant all he wants to. He would receive 100 per cent of parity for that portion of his crop sold in export markets in free trade. Surplus foods from this country should be exchanged for what we need from other countries. The goals are these: Remove restraints on the free enterprise of the farmer . . . lighten the load on the taxpayer . . . and help our friends and allies of the free world to help themselves."

And the majority leader in the Senate added:

"This, the Congress . . . I assure you . . . intends to do."

Canadian and Argentine wheat growers, Russian and Egyptian and Mexican cotton growers, and rice and sugar producers of the world should take note.

## J. A. Livingston

### Our Weapons To Overcome A Recession

Too bad the President's Economic Report to Congress didn't come out in time for Deputy Premier Anastas I. Mikoyan to take one back with him to the Soviet Union.

Last March in his native Armenia, Mikoyan told Soviet workers that an economic crisis was raging in the United States. He asked rhetorically, "What sort of liberties, what sort of rights, do the 5,000,000 unemployed Americans now have? They have lost their right to work . . . Capitalism's leading country has again been struck by a crisis of overproduction . . . deeper and apparently more long-lasting than the preceding crises of 1948 and 1954."

Mr. Mikoyan was chortling his darndest when the worst was about over. The Economic Report, a document essential to anyone interested in "The Anatomy of Recession and Recovery," notes: "By the end of March the decline was abating, and by May indications of a general improvement began to appear. . . . The recession may now be regarded as having ended in April."

Mikoyan suffered from a Marxian psychosis. Capitalism is a disease. Capitalism has chronic crises. Each crisis tends to be worse than the last. Only the "Hitlerite" war saved capitalism in the Great Depression. After World War II, Soviet leaders and economists waited patiently. The doom of capitalism was merely a matter of time.

When both the 1948-49 and '53-'54 recessions were brief, Soviet economists debated in learned journals and among themselves: Why was the American economy not conforming to Marx? Then the 1957-58 recession came. This was it!

Have you ever tried talking to a mind made up?

In December of 1957, I discussed with a Soviet Journalist the state of the American economy. He was here for an on-the-spot survey. He kept pointing to unemployment, then nearing 4,500,000.

I tried to tell him that we always had high unemployment in December, January, February because outdoor work on

farms and on construction projects always is cut back. I said, "This is temporary. We'll have less unemployment later in the year." I never got through. I could read in his eyes that I was a propagandist. His message, or somebody's similar message, obviously reached Mikoyan.

So Mikoyan included in his U. S. tour a visit to Detroit. He wanted to see for himself the plight of the U. S. worker. He was astonished. He expected breadlines, and found factories humming. I wonder if he wondered about the validity of Soviet reports on American business conditions.

Mikoyan and Soviet economists and journalists were not unique. Many U. S. businessmen, including Nelson A. Rockefeller, before he became Governor of New York; many politicians, including Sen. Paul H. Douglas; many economists, including Arthur F. Burns, former economic adviser to President Eisenhower, and John Kenneth Galbraith, author of "The Affluent Society," felt that emergency efforts were required to stop the decline and stimulate recovery.

President Eisenhower and Secretary of the Treasury Anderson were almost alone in insisting that measures already taken—to aid housing, accelerate public works, extend unemployment compensation, and increase defense spending—would be sufficient.

During depressions prior to World War II, severe cutbacks in manufacturing and reductions in expenditures on new plant, equipment, and commercial structures resulted in sharp declines in employment and payrolls. But this time, the Economic Report notes "relative stability of consumer incomes and purchases has provided a check on this potentially cumulative (downward) process."

We have learned to fight recessions with old-age pensions, unemployment compensation, easy money, accelerated public works, aids to homebuilding. Nevertheless, when a recession comes along, we become afflicted with "doom band wagonitis." Minds reflex back to 1929-33. Which is why it's well for economists and business men to read the Economic Report for a detailed description "The Anatomy of Recession and Recovery, 1957-58."

Controller Of The Panic Button

## James Marlow

### More Charity For An Old Murderer

WASHINGTON (AP) — The memory of Stalin is getting a favorable revival in the Soviet Union.

Three years ago at the Communist party's congress Nikita S. Khrushchev denounced the old dictator as a tyrant and murderer.

At the 21st party congress Tuesday Khrushchev reversed himself and paid tribute to Stalin for having made possible Soviet progress from a backward state to a great power.

Why? What's happened in the three years to justify the switch? It was expedient for Khrushchev to do what he did in 1956. Then he wanted to replace the scowling Stalin-image of the Soviet Union, which was the only one the world knew, with the image of a jolly, friendly land.

In three years, under Khrushchev's prodding, the Soviet Union has made a lot of progress in inch-

ing on neighboring countries, with economic help and other influences.

But something else has happened, too: the Soviets have made such evident progress in science and technology that they are proud for their progress and their power.

Khrushchev can afford now to be more charitable to the memory of the old tyrant whose bloody regime spanned not only the Soviet Union's most formative years but most of its existence from the 1917 revolution until now.

There's another point: historically Khrushchev would look a little ridiculous trying to make a hobby of downgrading Stalin for, no matter how the dictator was despised, it was he who made the Soviets present progress possible.

He did it at terrible cost in human lives: not only through his purges and his police terror but

by keeping the masses on an extremely low economic level while Soviet resources were pumped into industrial development.

At this price progress toward making the U.S.S.R. an industrial and scientific giant — was achieved. That much can never be taken away from Stalin. It would be foolish for Khrushchev or anyone else to deny Stalin's accomplishments.

But perhaps the most interesting thing that has developed out of the nation taken over by Khrushchev is that its achievements have been so dazzling the world has grown cautious about dismissing too lightly Soviet claims for the future.

For example, Khrushchev is launching the Soviet Union on a 7-year plan of economic development. There was a time, back in the 1930's, when Soviet plans did not seem particularly impressive, since the economy was on a low level.

But since the world's realization of Soviet development—particularly in missiles—there is bound to be a hesitancy about taking lightly Khrushchev's claims for the future.

He knows it, of course, and it's one reason why, perhaps, he can afford to look as relaxed and self-confident as he does.

## WHAT OTHERS SAY

One of the chief dangers in the Soviet solar shot is that it will give rise to just such a political outcry as followed the original launching of Sputnik, and that a concerted effort will be made to stampede the administration in Washington into a big burst of ill advised spending.

As we have frequently observed, it is not for lack of funds that scientific developments with military applications lagged for some years in this country. It was a low horizon on imagination, poor allocation of the hundreds of billions of dollars that have been dissipated in the name of "security" and a preoccupation with the methods of the past.

Our military leadership, schooled in the combat techniques of World War II, has been obsessed with outmoded theories about the preeminence of ground forces, piloted aircraft and oversized aircraft carriers.

## Ingrates

DAYTON, Ohio (AP) — Deciding that Puerto Rican nurses needed to improve their English, officials at Brown Hospital here agreed to repay for courses at the University of Dayton.

First homework for two taking an English composition course was to write a business letter applying for a job. Both turned in excellent letters, so good that the girls sent them to another hospital and got new jobs.

## Trail Blazer

INDIANAPOLIS (AP) — Puzzled authorities at the Indiana University Medical Center couldn't account for a freshly painted sign in a new dormitory, reading, "Women please confine visitation to the lounge." They solved the mystery by following a series of arrows until they came to the room of a hopeful student labeled "Lounge."

## Open Door Policy

INDIANAPOLIS (AP) — The courthouse staff of the county's Democratic sheriff breathed a sigh of relief when a fellow party member was elected county recorder. The new recorder promised to unlock the door of a rest room the Republican incumbent had refused to share with the Democrats.

## The Big Clue

TUCSON, Ariz. (AP) — Oscar L. Bueno told police someone stole his hat. Police don't think they'll have trouble recognizing the hat. It was part of Bueno's police uniform.

## Around The Rim

### Those Human Alarm Clocks

"I am," announced Dr. Howard Schwarzenbach, "unfortunately one of those guys who thinks he has a built-in alarm clock. When I have to get up early, I keep waking up all night to see if it's time."

Well sir, I was almost tempted to suggest that we form a lodge. I have (and I've learned many others also have) the same affliction.

For instance, the thing that had left Swatzy hollow-eyed was the same thing that had afflicted me — a simple 7 a.m. breakfast. Now that's no earlier than we're accustomed to being up and stirring, but it involved getting bathed, shaved, dressed and at the meeting place by that hour. Hence, something like half an hour earlier start was indicated.

What happens? Right off I make a mental note that I have to get up just a trifle earlier. I am sure I can do it, but upon reflection, I think I might better set the alarm just to be sure and relieve myself of this gnawing mental hazard. But I can't sleep with the alarm ticking, so I secretly set the alarm and leave the clock in the boys' room.

Perhaps this weighs heavily on my conscience, for I presently get to wondering what if one of them has discovered the alarm has been set for an early start, and has about it off.

No, I tell myself, this isn't likely. But what if — this nagging thought persists. Why don't I tiptoe in quietly and see for myself. No, where is my faith; where is my confidence?

Finally, I have wrestled over this great

issue until I fall asleep. Then in comes the No. 3 boy, nudging for a place in our bed. Up I jump, certain that the arising hour is near. I don't want to turn on the light and awaken the spouse so sneak off into No. 3's room and hastily snap on a small lamp. My wrist watch has turned around backward and all I can get is a reading on my watchband. Finally, I determine that it is only 1 a.m.

Back to bed I go, telling myself that I can now relax and still enjoy several hours of deep sleep. But presently my eyes pop open again. Failing to talk myself out of it, I once more trudge over to the lamp and sneak a quick look at my watch. Only 3 a.m., so back to bed.

At 4:30 a.m. I am again awake and wondering. Maybe it's getting light enough to see my watch, but no! Perhaps if it's getting late, there will be a light in Maude Waters' home across the street, or at the Wasson's down the way. No lights, so on goes the lamp.

That built-in alarm goes off again at 5:45 a.m. and once more I look out to see if Maude has turned on her light. No soap. I wonder if she's overslept. It's still too dark to see the dial of my watch. Reckon the alarm could be about ready to go off and wake up everybody in the house? Once more back over to the lamp. It's a quarter to six. Back to bed, but it's no use. Inwardly seething at my subconscious, I get up, ease my conscience by turning off the alarm. Tonight, I tell myself, I'll go to bed early.

—JOE PICKLE

### Observations On The Cocktail Party

It is the fate of some of us always to be lonely crusaders. My long and futile campaigns to get women out of slacks, lettuce out of sandwiches, catsup off French fries and gun oil of circulation would long since have daunted a less optimistic campaigner.

Neither has my rallying cry, "Stamp Out Cocktail Parties and Their Concomitant Evil, Canapes," brought a stampeding public to help me carry the torch.

And now, to further complicate the problem of cocktail parties, the scourge of civilization, comes — of all things — higher mathematics! Dr. William R. MacLean, professor of Electrical Engineering at the Polytechnic Institute of Brooklyn, has worked out a complicated equation that will tell a host or hostess "the safe number of well-mannered guests that can be invited to a quiet cocktail party."

Now, in one woman's opinion, there are two contradictions in terms in that one quote alone. In the first place, well-mannered persons simply do not go to cocktail parties. Oh, they may be well-mannered when they start out to such a party, but their manners inevitably undergo a subtle change en route to the bunge.

Mathings the professor has been cloistered too long. It is axiomatic that no well-mannered person could possibly survive at a cocktail party, where the law of the jungle has always prevailed. In such gatherings it's an eye for an eye, a claw for a claw, and a clout for a cocktail.

And, in the second place, has anyone ever attended a quiet cocktail party? If such a gathering doesn't sound like a boiler factory at high noon, it isn't a success. Even the police in New York recognize

that fact. There is the ancient story of the distraught couple who phoned the police to send an officer at once to quiet the raucous cocktail party going on in the apartment just overhead. The officer arrived at the party, but he only added new blood. The party grew decibel-er than ever.

Within the hour, the couple, still more harassed, called the police station once more and asked further help. "Sorry," said the desk sergeant, "but we can spare only one officer to a party."

Dr. MacLean's complicated equation to achieve a quiet cocktail party includes the dimensions of the room where the party is to be held, its sound-absorption coefficient, mean free-path of a sound ray in the room, the safe talking-to-noise ratio, the number of persons conversing in each group, and the distance the talkers are from the listeners.

This leads me to believe that Dr. MacLean's acquaintance with cocktails is as purely theoretical as is his equation. The only mean free-path that counts at a cocktail party is the path to the bar, always over an obstacle course. And conversation, Dr. MacLean? Listeners? There is no conversation at a cocktail party. Talkers, yes. Shouters, yes. But listeners? NO!

The listener is the missing feller who stayed home with a good book.

Dr. MacLean says his equation "contributes something new and positive to the knowledge of acoustical dynamics." Well, mebbe. But it does nothing to solve the problem of the cocktail party. If the lazy man's social method of paying people back, which it certainly does.

### Arabs Inspiring Hate Campaigns

WASHINGTON — Little by little evidence is coming to the surface to reveal the tie-up between certain foreign governments and the activities of "racist" and "hate" groups in America.

The finger of suspicion points strongly now to the Arabs, who are alleged to be assisting financially and otherwise in an anti-Jewish campaign. This is brought out in a series of five articles just published in New York's largest newspaper, the "Daily News." They were written by a staff reporter, David Burk, who, after months of painstaking investigation, writes:

"Since mid-October, in New York and other states, I have been seeking out the men and the groups tailored into the network of hate and violence, listening to their boasts and threats and admissions, reading their printed ravings, checking on their connections. I have compared my findings with the officials whose job it is to fit the confused jigsaw puzzle together . . .

"Nearly 90 dynamite blasts have echoed around the country in the last two years, aimed mainly at Jews, Negroes and sincere Christian citizens who have publicly backed these groups. FBI and Internal Security agents had long been on the bombers' trail, but when a \$100,000 gash was torn in the Jewish Temple at Atlanta, Georgia, last October, a grim and startling fact leaked out for the first time.

"Practically every operation fitted into a national pattern which, authorities believe, was etched by a loose-linked network of American neo-Fascist groups peppered around the country.

"This hate corps . . . today has emerged as a fifth column acting in behalf of President Nasser of the so-called United Arab Republic and his dreams of empire."

The "Fascists," of course, are often just a front today for Communists with whom they make common cause in trouble-making irrespective of outward differences in ideology. This was pointed out in a recent report on the House Committee on Un-American Activities, Mr. Burk adds:

"There is a mass of evidence of direct liaison between agents of the United Arab Republic and leaders of the American race groups held responsible by U. S. authorities for the (Atlanta) bombing . . .

"The race groups here, coordinated rather than organized and with a total following throughout the country that officials estimate at not more than a few thousand, are zealously following the party line.

"But what, you may ask, could Nas-

ser possibly want with a fifth column in the United States? The answer, as officials at the Department of Justice explained to me, is transparently simple.

"The Nasser-dominated segment of the Arab world, fed on an information diet prescribed by our native racists, frankly regards not only American Jewry but the U. S. administration, too, as the fountainhead of Israel's moral and financial help. Looked at in this light, Nasser must knock out Israel's backers in the United States before he can keep his pledge to his followers to knock out Israel itself."

Much of the "racist" literature written in America is reprinted in Egypt and broadcast over the Cairo radio, which the Communists are said to control. Certain Egyptian officials in and around New York are mentioned in the "Daily News" articles as fraternizing and conferring frequently with Americans active in the "racist" and "hate" campaigns against Jews. Considerable sums of money have been spent by Arabs in this country to foster the "hate" campaigns, and some estimates run into big figures. Here is an excerpt from a Washington dispatch to the "New York Daily News" published along with one of the Burk articles:

"Arab students at U. S. universities, organized and financed by their governments, are spreading propaganda, much of it anti-American, in an effort to mobilize opinion behind the Arab cause, Sen. Kenneth B. Keating (R-NY) told the 'News' exclusively today . . .

"Keating said: 'There is telling evidence that students from the Arab nations have engaged in the U. S. in hostile propaganda activities financed by their governments. They have engaged in co-ordinated efforts to mobilize opinion behind the Arab cause through the organization of Arab students, which has chapters on some 30 college and university campuses in the U. S.'"

Sen. Keating is also quoted as saying that, while anyone has a right to express his views, any organized attempt to influence public opinion "directed and financed by foreign governments" should be subjected to legal measures such as registration of agents and disclosure of the sources of funds.

Sen. Javits (R-NY) also was quoted as planning to discuss the New York "Daily News" articles with the Department of Justice to see what action can be taken under present law and what additional legislation might be needed to deal with what he calls "the vicious activities of racists."

(New York Herald Tribune Inc.)

## Smarter Than Us

NEW YORK (AP) — In the matter of diet, dogs outsmart many humans.

Researchers for Neutrena Mills, a dog food manufacturer, say they have found that just before reaching adulthood puppies suddenly begin eating less.

A cocker spaniel, for example, when almost full grown at 24 weeks, will drop in less than a week's time from 14 ounces of food each day to as little as 8 or 9 ounces. The reason for the adjustment, the specialists say, is that the dog's system simply doesn't require as much nourishment once the growing cycle is completed.

## Receives Hard Jar

OKLAHOMA CITY (AP) — Dorris Nichols swears this is how she got a black eye. She stepped out of a car carrying a purse, briefcase and jar of hand cream. She spied a friend and waved. The jar of hand cream flew out of her hand and hit her in the right eye.

"Oh, for Pete's sake—they've got ham filed under tuna fish!"

# Blue Lustre Makes Carpet Cleaning Easy

The cleaning of wall to wall carpeting and fine upholstery has always been of major concern to neat homemakers everywhere.

In the days of the kerosene lamp and the back yard pump, housewives relied on the old-fashioned carpet beater to literally attack carpet soil by trying to pound it out in clouds of dust.

Today, thanks to science and technical skill, many household chores have become simple tasks — and this is more than ever true with carpet and upholstery cleaning when Blue Lustre was developed.

Like so many other wonderful products on the market today, the magic of modern chemistry also created the efficient cleaning agent that has made Blue Lustre famous.

Blue Lustre, a very gentle and odorless liquid concentrate, was designed for the fine home cleaning of carpets and upholstery which produces professional results at great savings. It is available at Big Spring Hardware Co.

This marvelous concentrate is mixed with water, then agitated or stirred to create a billowy foam. This Blue Lustre foam is easily applied with a long handled brush or it can be used in any type of shampoo rug applicator.

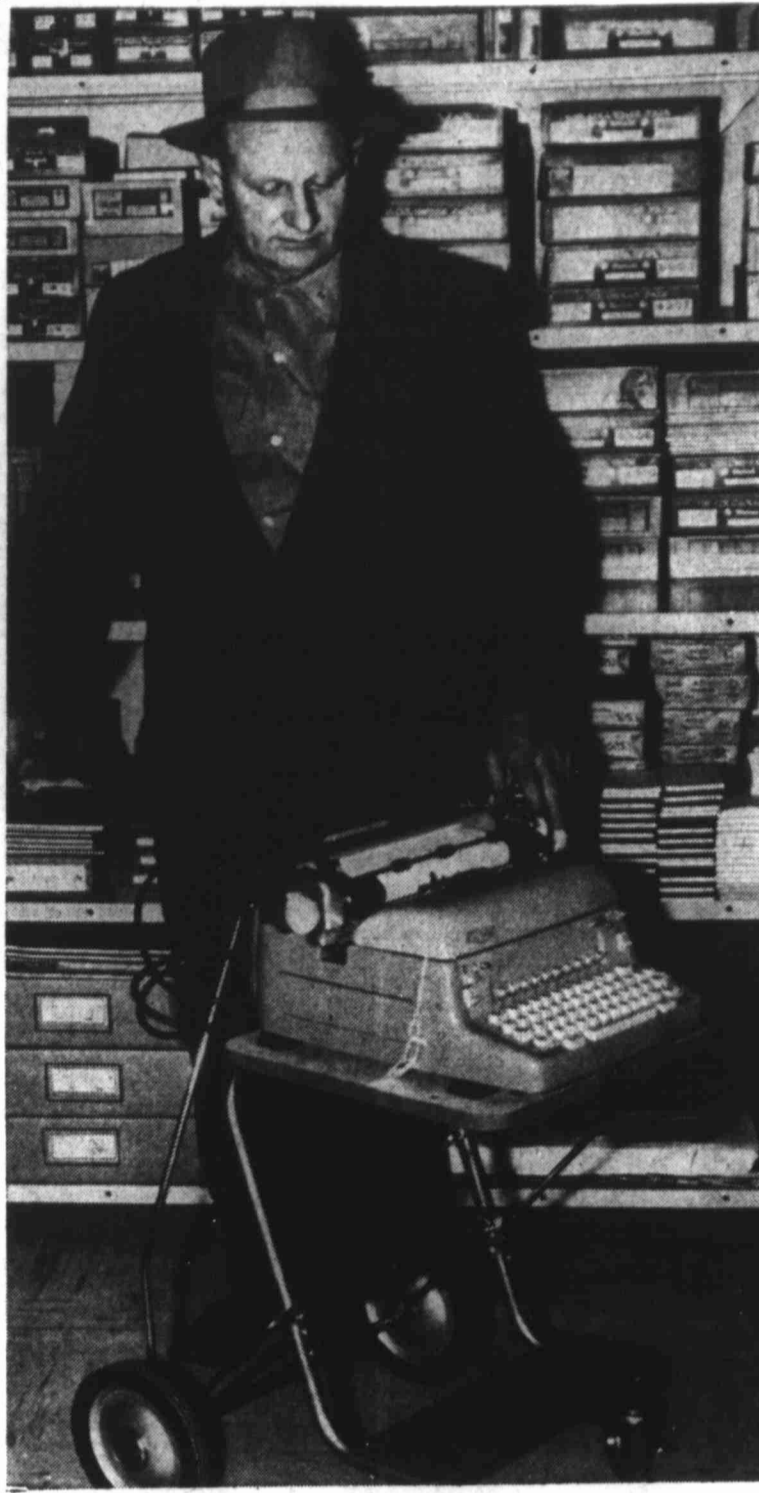

Housewives using Blue Lustre for the first time are always surprised how quickly old forgotten colors seem to spring back to life, revealing again the true beauty of their floor covering.

Blue Lustre foam penetrates instantly to the carpet soil and its unique action holds the dirt particles in suspension for easy removal by vacuuming. Since only foam is used, there is no soaking or matting of the fabric and it is soon dry and ready for use again with nap left open and lofty.

When vacuuming after the carpet is dry, all soil and cleaning agent is removed so there is no oily or gummy residue left in the carpet.

A wonderful advantage to the busy housewife who keeps Blue Lustre on hand is the convenience of quickly eliminating those soil-cleaning pathways on the carpet or cleaning any other small area without going over the entire carpet — keeping the floor covering new and fresh looking by removing spots dulled by soil as they appear.

At considerable savings in cost, housewives are turning more and more to Blue Lustre's modern home cleaning method for the care of fine carpeting and upholstery. Blue Lustre is so handy to keep around the house because it is odorless and non-flammable. It's economical to use — one-half gallon will clean three 9 x 12 rugs. It's also available in quarts and gallons.

## New Royal Electric On Its Way

Another Royal Electric typewriter, sold locally by the Thomas Typewriter and Office Supply, is shown being delivered to a local business concern. The typewriter is shown on a new Wheelmount, designed to simplify the task of transporting such machines. This particular Royal Electric typewriter has a ten-key Keyset tabulator and is built especially for auditors who must turn out work in a hurry.

## Philgas Is Handy Fuel

Let Philgas lend a helping hand in your home. Philgas is butane fuel. Local agent is the McGibbon Oil Co. main offices of which are located at 601 E. 1st Street.

A modern Philgas kitchen range gives the user perfect heat control for baking, roasting and top-of-the-range cooking. The speed and convenience of an up-to-date range using Philgas gives the user more free time away from the kitchen. Philgas provides clean, instant heat that's free of soot and fumes. And it's thrifty to use, too.

The housewife can save time and trouble on wash days with a Philgas Automatic Clothes Dryer. There's no more lugging a heavy, wet wash to the line, hanging it up and then waiting for it to dry. The user can dry most clothes in 20 minutes, or a full load of heavier clothes in just half an hour.

Versatile Philgas heats a home quickly and economically. Just turn the thermostat to the temperature you want and then forget it. No furnace to tend, no ashes to empty. Philgas keeps a home comfortably warm even in the coldest weather, automatically. And, since Philgas is so clean-burning, it keeps one's home neat.

One can have a limitless supply of hot water for all his household needs. A Philgas water heater gives him instant hot water for laundry, kitchen and bath, without waiting.

Philgas, the all-purpose fuel, is like an extra helping hand for everyday household tasks.

## Fine Furniture At Low Prices

Big Spring Hardware Furniture Department, just across the street from The Big Spring Hardware, has become headquarters for customers who want the best in fine furniture for their homes at the lowest possible prices.

In addition to quality and price, Big Spring Hardware Furniture also offers a wide selection of styles and patterns—which enables the shopper to find exactly what she needs for her home.

The Big Spring Furniture department is a relatively new enterprise but in the short time that it has been established, it has grown amazingly in favor with discriminating home owners.

It is more or less automatic with scores of homeowners to turn to Big Spring Hardware Furniture department for all of their household furnishing needs.

Right now the store is featuring a special bargain in sturdy ranch-type oak living room furniture. This handsome five-piece suite regularly sells for \$249.50 but the Big Spring Hardware price tag reads \$199.50 and your old living room suite.

The quality of this suite is the best and it offers a most attractive appearance. It is probably just what you are looking for and will fit ideally into your plans for your home.

It's also available in quarts and gallons.

## McMahon Concrete Plant Modern As Any In State

Ready-mix concrete and other high quality masonry building materials are provided for the Big Spring area from one of the most modern establishments of its kind anywhere in Texas.

Clyde McMahon Ready-Mix Concrete Co., with its main plant and headquarters located at 605 N. Benton, Big Spring, is equipped with the most efficient and up-to-date mixing machinery and delivery mixers available.

McMahon feels that his firm must follow a policy of using only the best equipment if it is to provide the type of service and quality products that contractors and other builders expect. As a result, all equipment is kept constantly up to date.

The firm recently opened a new headquarters building, housing offices, a plan room for the convenience of contractors, dispatching equipment, and allied facilities. The new building is located adjacent to the firm's main ready-mix plant, and is in constant communication by radio with the firm's four other concrete plants and fleet of 20 vehicles.

Clyde McMahon has been in the ready-mix concrete business here since Nov. 1, 1953, when he purchased the facilities of Pruitt Concrete Co. Previously, McMahon had been in the sand and gravel business here since the fall of 1950. He had been producing sand, gravel and other road materials throughout West Texas since 1947.

Last spring, McMahon sold his sand and gravel operations to the R. E. James Gravel Co. and since then has engaged exclusively in the ready-mix concrete business.

### Warm, Clear Texas Outlook

By The Associated Press. Slowly rising temperatures and clearing skies were the immediate weather outlook Wednesday as January faded toward February.

### Dual Completion Reported In Borden County U Lazy S Field

Southern Union Gas Co. has located a new venture in the multi-pay Red Loflin field of Garza County, and the Kerr-McGee No. 2 Slaughter in the U Lazy S field of Borden has been dually completed.

### Boy Discovered Hanged From Tree

RIALTO, Calif. (AP)—The body of a 12-year-old boy, naked from the waist down, was found hanging from a tree Tuesday night two hours after his parents had reported him missing.

### Services Set For Thursday

Wallace A. Pendergrass, 77, retired farmer, died in a hospital here Tuesday afternoon after a week's serious illness.

### Services Set For Thursday

Garret No. 1 Wright, C NE NE, 19-1, Pointeview Survey, was bottomed at 10,618 feet today and running logs. The site is eight miles southeast of O'Donnell.

### Services Set For Thursday

The Forest No. 1 Hutch, C NW SE, 2-3, D. L. Cunningham Survey, reamed core hole at 8,447 feet. It is a wildcat eight miles northwest of Lamesa.

### Services Set For Thursday

Palbearers will be Harry Cranfill, Howard Neil, Boone Cramer, Walter Barbee, Joe Pinkerton, G. W. King.

### Services Set For Thursday

The Kerr-McGee No. 1-A Slaughter is still plugged back to the Spabrerry, waiting on orders. It is a wildcat 3,520 from south and 540 from east lines, Section 4, Thompson Survey.

### Services Set For Thursday

Conoco No. 3 Thuet is a new site in the Threeway (Glorieta) field 2,440 from south and 363 from west lines, Section 3, Post Survey. Drilling depth at the project five miles northwest of Post is 4,250 feet.

### Services Set For Thursday

Anderson No. 1-B Connell made hole at 7,735 feet today after drilling test in the Straw from 7,702 to 7,705 feet with tool open 1 1/4 hours. Recovery included 100 feet of heavy oil and gas-cut drilling fluid (15 per cent water) and 50 feet of slightly oil and gas-cut drilling fluid. The wildcat is C SE NE, 11-5, GH&H Survey.

Youth Confesses City Burglaries

COLORADO CITY — Colorado City police solved a long series of burglaries when a 14-year-old Colorado City schoolboy confessed to several unsolved break-ins.

On Jan. 20, he was seen attempting to enter the Newby Pratt home, and police were able to pick him up from the description given.

County Judge Elmer Martin said that the boy's case would probably be heard the latter part of this week.

Bristow Heads Labor Committee

Rep. Obie Bristow of Big Spring has been appointed chairman of the Labor Committee for the Texas House of Representatives.

Rep. Wesley Roberts of Lamesa is chairman of the Oil, Gas and Mining Committee.

LEGAL NOTICE

Sealed bids will be received by the City of Big Spring, Texas, at the office of the purchasing agent until 5:15 P.M., C.S.T. February 19, 1959.

### No Sanity Hearings Planned In February

For the first time in months—in fact, no one around the courthouse remembers a previous similar instance—there will be no sanity hearings at Big Spring State Hospital in February.

There will be 12 cases for admission, however. In these cases, each patient has signed a voluntary commitment which obviates the need for a court hearing on his case.

This arrangement was made possible under the revised mental health code adopted by the last Legislature.

## CRITIQUE Of The Local Entertainment Scene

By Bob Smith

### Committees Set Theatre Reports

Reports from two committees are due tonight as the Civic Theatre seeks to revitalize itself.

One report will deal with policies by leading architectural schools by which students may take on actual designing projects, particularly of a public service nature, at little or no cost to the applicant. Theatre officials hope in this manner to come up with a complete set of plans for renovation of the Prairie Playhouse to present to local sponsors.

One prominent civic leader already has hinted broadly that he might pay for some or all the Playhouse work, but that he must first have in mind a reliable cost estimate.

The second report concerns whether the theatre should produce this year's Easter Pageant. The committee's recommendations will be based on such matters as cost, casting difficulties, the regular play schedule, audience interest and present financial condition of the group.

The issue arose at last week's meeting, at which some members questioned whether the theatre could again run the gauntlet of frayed nerves and other headaches that always come with a small group attempting a big production.

The question, apparently, will be resolved on the basis of whether a year's delay will altogether kill interest in the pageant, or will find the theatre in a more favorable position a year hence.

The Civic Theatre will meet at 8 p.m. in the home of Mrs. John L. Rudeseal Jr.

After looking over the structure and operation of community theatres as described by some of the nation's top critics of local theatre partisans, this suggestion:

Three board members elected from the membership itself, the board to choose one of their number as president. These make decisions on strictly theatrical issues; e.g. which plays to produce, and when, naming of directors, etc.

Four additional board members, appointed by the primary board from among the community's civic leaders, to have equal power with other board members on all non-theatrical issues, such as financial problems, community relations, fund drives, etc.

All other officers to be appointed by the president and approved by the full board; the president being empowered to offer more than one appointment to the board, which makes the final choice.

All officers, appointive and elective, to serve one full year.

Officer roster to include a legal

officer to decide questions of jurisdiction, constitutionality, etc.

One of the most important appointive posts would be the director. He would direct all plays, handle all casting problems, name his producer and other assistants.

In fact, would be a potentate with full powers, answerable only to the board. The president and the board would be invested with powers aimed at greater efficiency, without the present inefficient system of casting all problems for debate among the general membership.

As far as this critic is concerned, the system of checks, balances and delegated authority invented by Thomas Jefferson, et al, is still the best system for even the smallest organization.

### Writers Take Risk, Produce Musical For TV

By CHARLES MERCER  
NEW YORK (AP)—Why have original musicals generally suffered an unhappy fate on television?

A noted songwriting team suggested a theory new to this department a couple of days ago. They are Jay Livingston and Ray Evans, the only team to enjoy the honor of winning three Academy Awards—for "Buttons and Bows," "Mona Lisa" and "Que Sera, Sera."

They are trying something never before attempted on television: an original half-hour musical.

Their "No Man Can Tame Me," starring Giselle MacKenzie, John Hault and Eddie Foy, will be presented on "G. E. Theater" (CBS-TV) next Sunday (Feb. 1, 9 p.m., EST).

"The music and songs in an original television show naturally have to be as good as the music for a Broadway show or a movie," they said. "Possibly they have to be better."

"The biggest risk in a television musical original is that the audience doesn't hear the songs often enough. It's rarely that a person can be struck by a song with a single exposure. There's an old musical axiom that you have to hear a song three times before you like it."

"Hit songs on Broadway and in the movies are exploited in advance. People hear them on records and on the radio. They become familiar with them. But for some reason original TV musicals don't get that kind of promotion."

Livingston and Evans point out that there obviously is even less chance to repeat the themes of a song and so make it familiar on a half-hour show than on an hour or 90-minute spectacular.

Nevertheless, they found the half-hour format of "No Man Can Tame Me" technically challenging. Because of the relatively brief allotted time, the songsmiths said, they had to write songs that promote the story—one chiefly concerned with character, another with plot, a third with emotion.

If the experiment is successful, "G. E. Theater" is reported to be interested in presenting more half-hour original musicals. And Livingston and Evans say that they would like to write more—if the Sunday night show is successful.

### Solon Who Ousted Negro Girl Sends Congratulations

AUSTIN, Tex. (AP)—A state representative who protested when the University of Texas cast Barbara Louise Smith in a student opera today offered the Negro singer his congratulations.

Several East Texas representatives objected last year to Miss Smith playing the lead role opposite a white male in the opera "Dido and Aeneas." She was dropped from the cast. She left Monday for New York to further her studies in music and drama.

"I want to congratulate her on graduation," Rep. Joe Chapman of Sulphur Springs said. "I'm glad to hear she's got a scholarship. I wish her all the success in the world. She is a great artist."

The incident which cost her the student opera role attracted the attention of Negro singer Harry Belafonte. His foundation will partially finance her work in New York.

Miss Smith, 21, of Pittsburgh, Tex., sang a prayer solo Sunday at the University Baptist Church, where she has been a member of the choir since 1956.

The song was "Let Us Break Bread Together On Our Knees."

### Top TV Draws Not Always Best Medium For Sponsor

By JAMES BACON  
AP Movie-TV Writer  
HOLLYWOOD (AP)—Quick, now—Who sponsors Dinah Shore on television? "Have Gun, Will Travel?" "Gunsmoke?" "Lawrence Welk?" "Jack Benny?" Trendex, a rating service which makes weekly audience surveys, came up today with a new one-sponsor identification.

The results are surprising—the top rated shows by audience surveys often are the lowest in sponsor identification. This applies mostly to the TV Westerns.

Champion in the sponsor sweepstakes is Miss Shore with a whopping 87.3, meaning that nearly nine out of every ten people who see her show know what she sells. She has had the same sponsor all her eight years on TV.

The carmakers, who seem to stick with one star, came out best. Runners-up to Miss Shore are Lawrence Welk and Pat Boone at 80.8. Ernie Ford racked up a 74.4. "Gunsmoke," generally champion on all audience surveys, had a 45.6 rating in the Trendex sponsor survey.

## Disc Jockey Nears Medical Immortality In Sleepless Stand

NEW YORK (AP)—A young and comparatively unknown disc jockey stands today on the threshold of an unmatched medical achievement—200 sleepless hours under constant scientific watch.

Doctors and psychiatrists who have been watching him, and helping him fight off collapse, think Peter Tripp, 32, is a medical rarity. They also admire him for his driving determination. Without it, they say, nothing could have kept his eyes open so long.

Tripp's personality has changed what seemed like another publicity stunt into an interesting scientific experiment.

"There has never been such a study made before," says Dr. Louis Jolyon West, director of psychiatry for the University of Oklahoma Medical School. "This man has been under 24-hour psychiatric observation for over a week. Every utterance, every attitude during this great stress has been noted down. There is nothing we haven't measured. We know him through and through. And I'll tell you something, he's a man."

Tripp, who plays records nightly for three hours over radio station WJGM, started it all by saying he would stay awake 200 hours to draw attention to the March of Dimes campaign for funds. Furthermore, he would spend his time in a glass-enclosed recruiting booth in the heart of garish Times Square.

Doctors drew back when asked to supervise the stunt. West, who has studied the strange effects of sleep deprivation, was interested but wary. He came to New York and spent two days talking to Tripp before deciding the information he might gain would be worth the uncomfortable public spotlight.

West's endorsement brought in the Air Force's surgeon general, represented by a noted psychologist from Walter Reed Army Institute of Research, Maj. Harold Williams. The Cornell Medical School and the Albert Einstein Institute asked, and got permission, to make some tests too.

Tripp's 200 hours—8 1/2 days—will be up at 7:14 p.m. EST tonight. Even if he falls short of

this goal, West and Williams know of no one else who has gone as long as Tripp without sleep under minute-by-minute supervision.

What does it matter? What do you gain from watching a man stay awake?

"Medically, there is great interest in sleep deprivation," West says. "It induces a kind of mental

disturbance which can be reversed. Mental health research is handicapped by the difficulty of trying to produce the disease in a laboratory for study."

He said no doctor is willing to produce a real mental illness in a person so as to study the disease. Sleep loss, however, can imitate some effects of mental illness.

There are numerous other scientific aspects of the study, most of them having to do with the brain and the central nervous system. Williams presides over an instrument-packed room in the Hotel Astor to which Tripp is steered from his Times Square booth every few hours. A doctor and a psychiatric nurse are at his elbow night and day.

They've been roaming over what seems like half the county giving people quite a fright, messing up lawns and chewing up prize shrubbery.

Great posses of police and citizens have been after the critters day after day with cars, airplanes, helicopters, horses, walkie-talkies and tranquilized alfalfa hay.

Great posses of police and citizens have been after the critters day after day with cars, airplanes, helicopters, horses, walkie-talkies and tranquilized alfalfa hay.
