BIG SPRING, TEXAS, THURSDAY, MARCH 5, 1959

PRICE FIVE CENTS

TWENTY-FOUR PAGES TODAY

Agents Net \$1 Million In Bogus Bills

CHICAGO (AP)—Recovery of more than one million dollars in \$100 bogus bills and the seizure of 25 members of a nationwide counterfeiting ring were announced today by the U. S. Secret Service.

Paul J. Paterni, head of the Chicago Secret Service office, said the counterfeit notes were recovered in 22 states.

He said that 25 persons have been arrested since November as agents worked quietly to stamp out the counterfeiting network.

Paterni said the operation was finished off Wednesday night with the arrest of two Chicago men he termed the ringleaders.

Paterni said the gang passed about \$25,000 of spurious bills successfully, but added, "We have recovered all of the money passed through department stores and other merchants."

Much of the bogus money was purchased by undercover agents in an effort to stem the flood without outwardly efforts to round up the counterfeit gang.

Paterni said three agents purchased some \$700,000 in counterfeit bills at a cost of \$9 for \$100 bogus. In the windup of the investigation, \$726,000 in fake currency was seized by raiding agents.

5 May Have Died In Raging Hotel Blaze

HAZLETON, Pa. (AP)—Screaming in terror, guests shinned down cables or climbed or were borne down fire ladders early today as flames raged up an elevator shaft of the five-story Gary Hotel.

Authorities said there were 3 known dead, 2 other persons unaccounted for and 2 more critically hurt.

At least 24 persons were taken to hospitals for treatment of burns, cuts, smoke poisoning and shock.

The register of the 100-room, 75-year-old hotel in Hazleton's business district showed a listing of 61 persons.

Two of the dead were removed soon after the fire broke out. A third body was found later.

The entire front wall of the hotel collapsed into heaps of rubble. It was thought the two missing persons might be dead in this wreckage.

Victims fled from the flaming building, their night clothes ablaze. Others stood and sat dazed in the street as 100 firemen from four companies fought the raging fire for more than two hours.

Efforts to control the blaze were hampered by icy streets and ice coated hoses resulting from the biting 23 degree weather.

Flames shot from the windows and burst through the roof of the brick building as firemen arrived.

City Records Year's Third Traffic Death

Delores Carrillo, 39, became Howard County's fifth traffic fatality and the third in Big Spring this year when he died in a local hospital Wednesday night.

Mr. Carrillo had been injured in a two-car collision in the 600 block of NW 4th about 6:45 p.m. Tuesday. His death came just about 24 hours later.

Funeral services will be held at the Sacred Heart Catholic Church Friday at 3 p.m. with burial in City Cemetery, Nalley-Pickle Funeral Home is handling arrangements.

Mr. Carrillo was riding in a car driven by Ramon Franco, 26, of 202 NE 8th, and Franco's vehicle collided with a car driven by Fred Knight Jr., 626 NW 4th. No one except Mr. Carrillo was seriously hurt.

Mr. Carrillo has been released from county jail after posting \$1,000. At the time of arrest Tuesday night, he was suspected of being drunk while driving.

Mr. Carrillo was born in Shafter, Tex., on March 4, 1920, and he is a Navy aviator.

He is survived by his wife, three sons, Antonio, Jose, and Liberto Carrillo, all of Big Spring; four daughters, Pulcorpa, Delores, Martha, and Erlinda Carrillo, all of Big Spring; five brothers, Epifanio and Concepcion Carrillo, both of Big Spring, Liberto Carrillo of Chicago, Ill., Leo Carrillo of San Antonio, and Florencio Carrillo of Sugarland; and two sisters, Mrs. Margaret Ross and Mrs. David Mendoza, both of Big Spring.

The death is the first in Big Spring since Mrs. Reba Barber was killed in an auto collision at 8th and Circle on Jan. 16. The last deaths in Howard County, however, came on Feb. 15, when Mrs. Flora Larez and Joe Louis Larez were killed on the Andrews highway.

Church Census Slated Sunday

Nearly 1,000 church workers, representing virtually all denominations, will canvass Big Spring Sunday afternoon in the First City-wide church canvass since 1953.

The project is being sponsored by the Big Spring Pastors Assn., and information gathered in the census will be pooled for the benefit of all participating churches.

The city has been divided into 27 districts for the census, and each church has been assigned one district. Canvassers will start their work at 2 p.m., and leaders hope the census can be completed by 4 p.m.

Episcopal Diocesan Council Will Convene Here Friday

Delegates to the first annual Council of the Episcopal Diocese of Northwest Texas will begin arriving in Big Spring Friday.

Initial service of the council will be held at 8 p.m. Friday in St. Mary's Episcopal Church, the Rt. Rev. George H. Quartermann, bishop of the diocese, will be the speaker.

Two other high ranking church officials will be on hand for the meeting which will last through Sunday morning. They are Bishop Thomas E. Jones of the Diocese of Willochra, South Australia, and John W. Reinhardt, director of the Department of Promotion, National Council of the Episcopal Church.

Some 350 delegates and guests are expected for the first meeting of the diocese which was created less than a year ago. All general business sessions will be held Saturday at the Settles Hotel. Other gatherings will be held at the St. Mary's Church, at Howard County Junior College, the First Christian Church, St. Paul's Lutheran Church, and at the Howard House.

First group meeting will be the executive board of the House of Churchwomen at 4 p.m. Friday. Registration for the council will begin at 2 p.m. Friday at St. Mary's Church.

Pioneer IV Past 300,000-Mile Mark, Finds No Radiation Belt

WASHINGTON (AP)—Pioneer IV spun past the 300,000-mile level today still sending back clear accounts of space mysteries unswayed in its race into orbit around the sun.

The General Electric tracking station in Schenectady, N.Y., received the Pioneer's signal at 10:15 a.m., EST, when the moon probe was 305,000 miles from earth. GE said it expected to lose the signals at about 1:15 p.m.

The tracking station at Goldstone in the Mojave Desert of California picked up the radio voice of the gold-washed cone at 7:37 a.m. EST today from far out past the moon.

At that time the distance from earth, computed from telemetry signals described as strong and clear, was 303,000 miles. In line with advance calculation, speed away from the earth had dropped to 4,250 miles an hour.

The signals showed a temperature of 41 to 42 degrees centigrade (104 degrees Fahrenheit)—for the instrument payload of the space traveler. That was higher than the temperatures radiated back by the Pioneer III which went about a third of the way to the moon before it failed and fell back. It was well within the range of comfort for space travelers of the future.

Earlier reports from the American space traveler already had given another favorable indication for man's own ventures outside the earth's environs — no major radiation belt encountered above the two discovered by Explorer satellites.

The 13-pound cone sped past the moon, 37,000 miles to the side, at 5:24 p.m. Wednesday at a velocity of 4,525 miles an hour.

Before Goldstone picked up the signals this morning, the British station at Jodrell Bank had locked on its signals and followed them from 3 a.m. to about 8 a.m.

The multiple tracking provided new opportunity for precise new calculations on speed and distance.

Goldstone expected to lose the signal again about 4:20 p.m. as the Pioneer passes below the horizon.

By that time the cone, now a minor asteriod of the sun, would be another 35,000 miles out.

At 4:20 p.m. today Pioneer IV will have been followed by tracking stations for 64 hours. The Soviets claimed 65 hours for their Mecha space traveler which they say has been in a sun orbit for weeks.

Goldstone expected to get the signals again at 7:30 a.m. Friday, from a distance close to the estimated 400,000 mile outer range of Pioneer IV's radio. That would be longer than any other space probe has ever been tracked.

Officials were confident that ever thereafter Pioneer would sail on silently about the sun, traveling about 3,400 miles an hour faster than the earth.

Mostly its orbit will be between that of the Earth and the next outer planet, Mars. But sometimes it will be a little way—a million miles or so—inside the Earth's orbit, temporarily an "inner planet" like Venus and Mercury.

Presumably trailing close behind Pioneer IV in space is the hull of the final stage rocket—a hollow metal tube 3½ feet long and six inches in diameter. But the rocket shell has no radio voice and no means of being tracked.

The Earth whirls around the sun at about 66,000 miles an hour. This would make the speed of Pioneer IV around the sun some 69,400 miles an hour.

At that speed, Pioneer IV will require 392 days for one solar orbit—almost a month longer than the 365-day year it takes the Earth to move around the sun.

BULLETINS

INGLEWOOD, Calif. (AP)—Discoverer 1, whose fate has been a mystery since it was launched last Saturday, achieved its goal of becoming the first polar-orbiting satellite, the Air Force announced today.

ALGIERS (AP)—A French military headquarters spokesman said today two newsmen—one American and the other German—were slain by nationalist rebel machine-gun fire Wednesday night. Another American newsmen was wounded. The spokesman said the names would not be released until later tonight.

LEIPZIG, East Germany (AP)—Soviet Premier Nikita Khrushchev said today he is prepared to postpone the May 27 deadline on Berlin—provided fruitful East-West negotiations are under way then.

City Records Year's Third Traffic Death

Delores Carrillo, 39, became Howard County's fifth traffic fatality and the third in Big Spring this year when he died in a local hospital Wednesday night.

Mr. Carrillo had been injured in a two-car collision in the 600 block of NW 4th about 6:45 p.m. Tuesday. His death came just about 24 hours later.

Funeral services will be held at the Sacred Heart Catholic Church Friday at 3 p.m. with burial in City Cemetery, Nalley-Pickle Funeral Home is handling arrangements.

Mr. Carrillo was riding in a car driven by Ramon Franco, 26, of 202 NE 8th, and Franco's vehicle collided with a car driven by Fred Knight Jr., 626 NW 4th. No one except Mr. Carrillo was seriously hurt.

Mr. Carrillo has been released from county jail after posting \$1,000. At the time of arrest Tuesday night, he was suspected of being drunk while driving.

Mr. Carrillo was born in Shafter, Tex., on March 4, 1920, and he is a Navy aviator.

He is survived by his wife, three sons, Antonio, Jose, and Liberto Carrillo, all of Big Spring; four daughters, Pulcorpa, Delores, Martha, and Erlinda Carrillo, all of Big Spring; five brothers, Epifanio and Concepcion Carrillo, both of Big Spring, Liberto Carrillo of Chicago, Ill., Leo Carrillo of San Antonio, and Florencio Carrillo of Sugarland; and two sisters, Mrs. Margaret Ross and Mrs. David Mendoza, both of Big Spring.

The death is the first in Big Spring since Mrs. Reba Barber was killed in an auto collision at 8th and Circle on Jan. 16. The last deaths in Howard County, however, came on Feb. 15, when Mrs. Flora Larez and Joe Louis Larez were killed on the Andrews highway.

Major Storm Hits Midwest

A major storm spread whirling, blowing snow over much of the Midwest today.

The combination of high winds and heavy snow had a staggering impact on the hardest hit areas.

Hundreds of schools were closed in Nebraska where the snowfall ranged up to nine inches.

The snow spread eastward from Nebraska and Kansas to the Great Lakes region.

North winds attained velocities of 30 to 50 m.p.h. in parts of Nebraska and Kansas.

Heavy snow warnings were posted for sections of Kansas, Nebraska, Iowa, northwestern Illinois, southern and central Wisconsin and southeastern Minnesota.

Harrison moved to Howard County from Oklahoma 34 years ago with his parents, Mr. and Mrs. G. L. Harrison. He attended Coahoma schools.

He is a pipefitter at the Cosden refinery. He is a member of Local 826 of the International Union of Operating Engineers and is a steward in the maintenance division.

During World War II, Harrison served with the Army Medical Corps and was attached to the 81st Infantry Division during numerous campaigns in the Southwest Pacific.

Mr. and Mrs. Harrison are active in the First Assembly of God Church. He served as a Sunday school teacher until recently, and Mrs. Harrison still teaches a class. They have two sons, Richard Allen, a fourth grader in the Airport school, and Gerald Wayne, a ninth grader at Gould Junior High.

Harrison was the sixth candidate to file for a place on the Big Spring school board. Filing deadline was 5 p.m. today.

21 Little Rock Negro Boys Die In Dorm Fire

Tumbleweed Entanglement
Tumbleweeds—big, little and muddled—piled up against the front of the Harold Vall residence, 1725 Purdue, during Wednesday evening's windstorm. The weeds blocked entrance to the house and garage, after rolling up Purdue from the flats along east Highway 80. Several other homes received smaller accumulations of tumbleweeds.

Soviets Sharply Protest Navy Boarding Of Russian Vessel

LONDON (AP)—The Soviet Union today sharply protested the U.S. naval boarding of a Soviet trawler suspected of cutting a transatlantic cable off Newfoundland.

The note said the trawler "did not cause any damage to underwater telegraph or telephone transatlantic cables."

"Reports in the U.S. press on this question were a complete invention," it declared.

The U.S. State Department had notified Moscow immediately with an explanation that the boarding was carried out under terms of an 1894 treaty. This treaty—originally signed by the czarist regime but later subscribed to by the Soviet Communist government—permits inspection of documents of ships suspected of damaging oceanic cables willfully or through culpable negligence.

L. S. Sheely reported the Soviet crew offered no resistance to the inspection and that the trawler sailed away quietly when told to leave the area.

Adm. Jerauld Wright, commander of the U.S. Atlantic Fleet, had exonerated the Soviets earlier, deliberately cutting the cables after getting a report that the American search party found "no indications of intentions other than fishing."

Soviet newspapers and Moscow radio had described the boarding as unlawful but they gave factual reports on the incident.

Youth's Hand Caught In Saw

Ronnie Hammack, 18, Big Spring High School senior, suffered painful injuries to his left hand at 8:15 a.m. Thursday when he was caught in a rip saw he was using in the vocational training shops.

Hammack, son of R. L. Hammack, Webb Air Force Base, was ripping a board and reached out to remove a splinter which had separated from the main piece of lumber.

Although officials at the school said he was exercising all of the safety precautions taught students in use of power tools, somehow his hand came in contact with the blade.

He was taken to the Big Spring Hospital where he was still in surgery at noon. It was said he might lose at least one finger of his hand as result of the mishap.

Lester Patterson, instructor, took the youth to the hospital.

School officials said this is the first serious accident ever to occur in the years that this type of training has been carried on.

C. H. Harrison Is School Candidate

Clinton H. Harrison, 38, who resides just northeast of Big Spring on the Snyder Highway, Wednesday filed his candidacy for a place on the Big Spring school board.

Harrison, employe of Cosden Petroleum Corp. for 17 years, said he is interested in helping to provide as much education as possible for Big Spring children.

"I believe we owe it to our boys and girls to give them the best possible training. I think we have a good school organization, and I'd like to be a part of it if it is the will of the people," Harrison said.

Harrison moved to Howard County from Oklahoma 34 years ago with his parents, Mr. and Mrs. G. L. Harrison. He attended Coahoma schools.

He is a pipefitter at the Cosden refinery. He is a member of Local 826 of the International Union of Operating Engineers and is a steward in the maintenance division.

During World War II, Harrison served with the Army Medical Corps and was attached to the 81st Infantry Division during numerous campaigns in the Southwest Pacific.

Mr. and Mrs. Harrison are active in the First Assembly of God Church. He served as a Sunday school teacher until recently, and Mrs. Harrison still teaches a class. They have two sons, Richard Allen, a fourth grader in the Airport school, and Gerald Wayne, a ninth grader at Gould Junior High.

Harrison was the sixth candidate to file for a place on the Big Spring school board. Filing deadline was 5 p.m. today.

7 Candidates File At C-City

COLORADO CITY — Seven candidates had filed for places on Colorado City's schoolboard ballot by 5 p.m. Wednesday, the filing deadline.

Three openings are to be filled with only one of the incumbents in the race. Warren Costin, tractor dealer, filed for re-election; two others, Virgil Moser, produce dealer, and Willie Landau, owner of a men's clothing store, did not enter the race.

Other candidates are Jimmy Harrison, painting contractor; Perry Barber, attorney; Ocie Roberts, butane agent; Ray Noble, service station operator; Cummins Wood, barber; and Ocie Lambeth, Col-Tex refinery employe and former coach and teacher in the Colorado City school system.

Training School's Door Was Locked

LITTLE ROCK, Ark. (AP)—Fire roared through a locked dormitory at the State Training School for Delinquent Negro Boys at nearby Wrightsville early today.

At least 21 youths died, and fire officials said they feared others might have perished.

The blaze broke out before dawn and destroyed the brick and frame structure which housed 68 inmates.

Survivors escaped by kicking out windows which were covered with heavy-gauge, double screens designed to prevent escapes.

About 12 bodies were found piled up in one spot. Apparently they died trying to get out.

The 21 bodies which were recovered were burned beyond recognition.

Gov. Orval E. Faubus, who went to the scene as soon as he heard of the fire, said the doors should not have been barred and there should have been an adult in the building.

Faubus said an investigation would be made.

Origin of the blaze that destroyed the dormitory within an hour could not be determined immediately. Faubus said he had been told there was an electrical storm at the time.

The dazed survivors, ranging in age from 14 to 17, wandered about as firemen, sheriff's officers, and prisoners from a nearby penal farm tried to quench the smoldering ruins of the dormitory.

Fire Capt. Bill Deaton said he saw eight bodies in a pile and nine others had been taken from the charred remains of the 20-year-old building.

A vocational teacher who normally slept in the building was in the hospital at the time the fire broke out.

George Williamson, 16, a survivor, said: "I heard screaming and hollering. There was smoke all over. I couldn't see anything. I found a window and got out."

Faubus appeared grim as he surveyed the glowing rubble.

"I inspected this school a year ago and found it safe," the governor said. "It's the first time anything like this has happened at such an institution in Arkansas."

First reports said 21 boys were missing but the figure was revised after a roll call was taken.

Strong Winds Send Dust Up, Mercury Down

A rampaging cold front, swooping into Texas from the northwest, roared through Howard County in midafternoon Wednesday.

It drove the sun out of sight, scattered a few drops of rain on the countryside and then enveloped everything in a cloud of dust. It sent the temperature toppling. This nosedip continued until it touched 28 early this morning.

Winds gusts were up to 35 miles an hour.

Dust settled out to a considerable degree during the night but the wind continued at 20 miles an hour. Thursday dawned cloudless but drifting sand began to obscure the horizon again in midafternoon.

The temperature was still below 40 degrees at 11 a.m. The wind, from the north-northwest was sharp and uncomfortable.

High temperature Wednesday was a comfortable 70 degrees.

The front brought a wide assortment of weather conditions to the state ranging from snow in some sections to threats of tornadoes and rains in others. West Texas' share seemed to be largely restricted to roaring winds and sand storms. The few stragling drops of rain which fell in midafternoon were charitably rated by the U. S. Experiment Station as a "trace."

Speckled windshields on cars, dampened by the fleeting shower and then coated with dust, offered only physical evidence of the rain's shadowy appearance.

The same cold, unpleasant windy weather is on tap for the balance of today and will continue tonight, the Weather Bureau reported. Friday should be a little warmer.

Sarah Churchill Dragged Into Court

LIVERPOOL, England (AP)—Actress Sarah Churchill was carried into court by four policemen today and found guilty of being drunk and disorderly.

She was arrested after a quarrel with a taxicab driver.

Three More Boys Sign Up For '59 Soap Box Derby

Three more boys have signed up for the Soap Box Derby, bringing to 58 the number entered in this year's races.

Registration is being held open this week because of unusually high interest in the event. Boys who wish to sign up have until Saturday night to get their names on the list.

Lloyd Wooten is conducting the registration at Tidwell Chevrolet Co. He may be contacted there this afternoon, Friday or Saturday. Wooten said he expects several more boys to register. Youths who have cars left over from former Derbies may use the same racers in this year's event, making whatever improvements they wish, he said.

Latest to register were Michael Peters, 811 Runnels; Ronnie Jeter, 1814 Benton; and John Edwin Minnick Jr., 702 Bell.

Cage To Stay In Brazil Awhile

SAO PAULO, Brazil (AP)—Ben-Jack Cage, Texas insurance man under sentence for embezzlement back home, surrendered his U.S. passport today and said he is staying in Brazil for awhile.

The state department ordered his passport taken up and to be returned only for travel to the United States.

"I intend to keep living in Brazil," he told newsmen, "but I will return to the United States when I finish my business here. Of course, by now, I have much unfinished business here and I will stay in Sao Paulo for some time."

Offers Ike Her \$61
Kathy Hewitt, 11, of Miami, Fla., proudly waves a letter she received from the White House after she wrote President Eisenhower offering her savings of \$61 to help pay off the national debt. The reply declined Kathy's savings saying the national debt is the problem of grownups. Kathy has been saving the money to buy a horse.

... Shot An Arrow Into The Air ...

State Rep. W. T. Oliver of Port Neches, appropriately outfitted, expressed those sentiments as the Texas House of Representatives amended and then finally passed his bill to allow bow-and-arrow hunting during October. Originally a statewide bill, the measure was chopped down to apply to less than 100 of Texas' 254 counties and Oliver said "I felt like Gen. Custer. Where did all of those Indians come from?"

Mother Tells Of Love For Son At Trial For In-Law's Death

VENTURA, Calif. (AP) — The story of a mother's love — so strong she would do almost anything to keep her son by her side — is unfolding before a murder jury that includes eight women. "I just didn't want to lose Frankie," Elizabeth Duncan said. To keep that love, the sometimes weeping woman testified Wednesday, she tried to kill herself. She even plotted to kidnap her son and hold him by force. But, she insisted, she did not go so far as to plan the murder of her son's bride, Olga Kupczyk Duncan, 30, as the prosecution contends. Mrs. Duncan, 54, for the first time gave her side in the state's case accusing her of hiring two men to kill her daughter-in-law, Luis Maya, 20, and Augustine Baladonado, 26, had admitted beating and strangling the pregnant nurse. They buried her beside a mountain road. "All my life I've been afraid of being alone," the defendant said. She has married at least eight times, five of them since 1950.

The marriages, some to men young enough to be her sons, ended in annulments. She gave \$335 to Maya and Baladonado, she said. But it was extortion money, she contended — paid to keep them from killing her and her attorney son. Mrs. Duncan said the two men had a grudge against Frank Duncan because of a fee he once charged a friend of theirs.

Girls Locked Up At Inspiration Site Of National Anthem

BALTIMORE (AP) — By the twilight's dim light, the flag was still there. So were the tourists. Diane Torcivia, 21, Brooklyn, N.Y., and Rose McDonald, 22, the Bronx, N.Y., visited Ft. McHenry Wednesday after a social security training session at a downtown hotel. After touring the national shrine they found themselves locked in. The women finally attracted the attention of a passing motorist who called police. Sgt. Walter Barron couldn't find the caretaker. But the resourceful officer took Diane and Rose to a spot in the fence where the iron bars had been pried apart — and made the rescue.

Liquor Tax Plan Proposed

AUSTIN (AP) — If Texans could have bourbon with their beefsteak the state's pocketbook would benefit, says Rep. Peter J. Lavalle. Gov. Daniel disagreed. Lavalle, of Texas City, proposed yesterday allowing liquor to be sold in restaurants. The liquor would be packaged in two-ounce containers which the state would tax at five cents each. The plan, Lavalle said, is "a simple, sound and intelligent way to raise money." He lacked the liquor-by-the-drink amendment onto the liquor, auto and tobacco tax bill which he introduced for Daniel. Lavalle said Daniel did not know of the amendment. Daniel speedily said he was not aware of the amendment and felt it did not belong in the bill. "I hope it will not be adopted by the Legislature," the governor said. The bill and the amendment went to a House revenue and taxation subcommittee, as did three tax bills by Rep. Frates Seeligson of San Antonio. Lavalle said the mixed-drink amendment was his own idea, added to the bill without Daniel's knowledge. He said the plan had worked in other states, notably Alabama. The Daniel-backed portion of the measure would raise an estimated 29 million dollars per year by increasing the state liquor tax to \$2.50 per gallon, up the automobile tax from 1.1 to 1.8 per cent for all sales and levy taxes on cigars and smoking, chewing and pipe tobacco.

Studio Fight Gives Role To Lee Remick

HOLLYWOOD (AP) — An argument between actress Lana Turner and Director Otto Preminger has given Lee Remick her first starring role. She comes here this week from New York to replace Miss Turner in the film version of "Anatomy of a Murder." Preminger and Miss Turner argued over costumes. She said she withdrew because of an outburst of temper by the director.

Kidnap Baby Is Found Safe With Woman

ONTARIO, Calif. (AP) — A kidnaped infant was found safe Wednesday night in the arms of a chunky, 37-year-old woman who admitted taking him from his crib while she was babysitting five days ago. Betty Jean Yocom retreated to the bathroom of her darkened home 10 miles from Ontario when she heard FBI agents kicking in the door. Hugged to her bosom was 9-week-old Eric Leon Flores. In a bedroom the agents found a brand new bassinet and bottle, sterilizer and other indications that Mrs. Yocom had lavished a frustrated maternal love on another woman's child. The baby, ill with a cold when he was taken from beside his sleeping twin brother last Friday, appeared to have been well cared for, the FBI said. The baby was reunited with his mother, Ruth Flores, 35, widowed mother of six, at the Ontario police station. Mrs. Flores and the friendly woman she had allowed to sit with her children, faced each other tearfully. They had first met last Feb. 17 when Mrs. Yocom, calling herself Ann Williams and identifying herself as a social worker from a local church, called on Mrs. Flores to offer any help that might be needed. Mrs. Flores' husband, Joseph, was killed in a gas explosion last summer and the community of Ontario has contributed food, clothing and needed services to the family ever since. Mrs. Yocom, who is 5 feet 2 inches tall and weighs about 180 pounds, offered to take care of the Flores children. She telephoned the next day and repeated the offer. Last Friday she called at the house again and this time Mrs. Flores agreed to go out with a friend for a few hours, leaving Mrs. Yocom with the children, who range in age from 8 to the infant twins. When Mrs. Flores returned, one of the twins was gone. A widespread search was carried out for the baby and his kidnaper. Newspapers published the baby's formula and made front page appeals to the kidnaper to return him. Prayers were offered in churches. Mrs. Flores alternately prayed and wept. In the end it was the baby himself who led to the capture of Mrs. Yocom. His loud wails made a neighbor suspicious. The FBI was notified.

"I was scared to death of those men," she testified. The two laborers claim the money was part payment of their \$6,000 fee for killing Olga. The state has paraded numerous other witnesses to the stand who said Mrs. Duncan tried unsuccessfully to hire them to murder the wife of her son. She denied each of their accusations. "Goodness, no, I'd never say anything like that!" she said several times. Mrs. Duncan told also of plans to kill herself. Ironically, it was such an occasion—when she took an overdose of sleeping pills—which led to her son's marriage. While she was in the hospital, Duncan met the nurse he later married. She said she planned—and discarded—the kidnaping of her son. The plan was to give him sleeping pills, then tie him up and take him to Los Angeles out of Olga's reach. "I was just going to keep him and talk to him for a few days," she said.

Those who qualify may choose assignment with one of eight Army bands in Texas and Oklahoma. The bands are located at Fort Bliss, Fort Hood, and Fort Sam Houston, Texas, and at Fort Sill, Okla. In addition to the usual mental, physical and character qualifications for enlistment, applicants must be auditioned and found acceptable by a U. S. Army bandmaster. Further information may be obtained from M. Sgt. Martin at the Big Spring Post Office each Monday, Wednesday and Friday or call collect 3540 or 3683 Lamesa, Texas.

E. German Reds Urging Peace Pact

LEIPZIG, East Germany (AP) — East Germany's top Communists are believed urging Soviet Premier Nikita Khrushchev during his current visit to move more quickly in giving them a peace treaty and control over Allied routes to West Berlin. Within minutes after arriving in Leipzig Wednesday, Khrushchev declared the U.S.S.R. would sign a separate peace pact with East Germany unless the West comes to terms on an all-German settlement. Speaking after Khrushchev, East Germany's Communist leader Walter Ulbricht said: "Our people desire a peace treaty. Further delay can no longer be tolerated." The Soviet premier may not be moving fast enough for the impatient East German leaders. The Red army brought them out of Soviet exile at the end of World War II and put them in charge of East Germany. Ulbricht and his associates badly want the symbols of mastery in their own house.

Musicians May Enlist In Band

Musicians who can meet U. S. Army band qualifications may enlist for assignment to a specific band in the Fourth Army Area, M. Sgt. Robert L. Martin has announced. Those who qualify may choose assignment with one of eight Army bands in Texas and Oklahoma. The bands are located at Fort Bliss, Fort Hood, and Fort Sam Houston, Texas, and at Fort Sill, Okla. In addition to the usual mental, physical and character qualifications for enlistment, applicants must be auditioned and found acceptable by a U. S. Army bandmaster. Further information may be obtained from M. Sgt. Martin at the Big Spring Post Office each Monday, Wednesday and Friday or call collect 3540 or 3683 Lamesa, Texas.

They feel that the sooner they get them, the sooner other governments will recognize them as rulers of a real nation. The East German Communists have an uncomfortable feeling that Khrushchev considers them at least partly expendable in the global East-West diplomatic warfare. The Soviet leader undoubtedly regards Germany as only part—though an important part—of the whole world picture. He may feel he can gain concessions from the West by delaying, perhaps indefinitely, giving the East German satellite government the stronger powers it is seeking. Khrushchev's visit officially is being made to see the Leipzig Trade Fair, an annual showcase of the Communist world's industrial might. But East German officials made plain that they are more interested in the political aspects of his trip. Khrushchev's visit was given a terrific buildup by the East German government but his first appearance Wednesday failed to arouse much enthusiasm among the people. The official ADN news agency said 200,000 gathered in a downtown square to hear Khrushchev. Other observers estimated the crowd at between 50,000 and 100,000. Thousands left before the Soviet premier spoke, some looking bored, others to seek shelter from the spring drizzle. One big spontaneous roar came when Khrushchev shouted: "We want peace, peace, peace and once again peace." And another when he declared: "Only lunatics can seek solutions by war." A big rally had been planned at Leipzig's giant sports stadium but this was called off without explanation.

Those who qualify may choose assignment with one of eight Army bands in Texas and Oklahoma. The bands are located at Fort Bliss, Fort Hood, and Fort Sam Houston, Texas, and at Fort Sill, Okla. In addition to the usual mental, physical and character qualifications for enlistment, applicants must be auditioned and found acceptable by a U. S. Army bandmaster. Further information may be obtained from M. Sgt. Martin at the Big Spring Post Office each Monday, Wednesday and Friday or call collect 3540 or 3683 Lamesa, Texas.

ADVERTISER AT WORK!

Advertising can turn the coldest customer into a hot prospect. Throughout the pages of this newspaper you can find many examples of the warm appeal generated by advertising.

But you can't warm up to anything if you're not aware of it. Advertising works overtime to keep you posted on new products and remind you of established brands. It is part of the variety of news in your newspaper.

Advertising is a valuable asset to our economy because it provides the stimulant that makes people buy. As more goods are bought, more and more goods are made—and at lower cost to you. So, you see, advertising really benefits you!

Every day, all across this land of ours, advertising—like the advertising in this newspaper—is doing its part to bring you the good news of more and better products—products that are constantly improving our standard of living.

Advertising Publication of American Advertising Association of the West

BIG SPRING DAILY HERALD

Local Men Inspect New Model

W. P. Hollis (left) of Ferguson Steere Motor Co. and Henry King (second from left), manager of Sid Bolding Motors, both of Big Spring, measure the cab of the new White Motor Co.'s new 5,000-transport tractor. It is the industry's first fiberglass cab and measures 50 inches from bumper to back of cab. At right is Noah Gresham, vice president in charge of White-Auto Car division of the company. The picture was taken at Dallas where the new model was shown to more than 135 distributors.

Old Man Winter Returns To Texas

By The Associated Press
Old Man Winter, riding wild and damaging winds and strewing snow in his wake, galloped back into Texas Wednesday and Thursday. The cold-front which barged into Texas Wednesday had nearly covered the state Thursday. Only the Lower Rio Grande Valley escaped the cold air mass.
Children reported light snow Thursday and some showers fell along the coast.
Predawn temperatures Thursday ranged from 68 degrees at Brownsville to 26 at Dalhart.
Small craft warnings were displayed all along the Texas coast Thursday.
Thunderstorms hammered parts of North Central Texas Wednesday night as they rumbled eastward on winds of near hurricane force. Hard rains caused flash floodings in southern and eastern Dallas. Winds of up to 55 miles an hour caused scattered damage over Dallas.
Mesquite, a Dallas suburb, had 94 of an inch of rain in less than an hour. One Dallas reporting station showed 1.60 inches by 11 p.m.
Scattered minor wind or lightning damage also was reported in neighboring Farmers Branch, Wylie, at the Arlington Airport and at the Red Bird Airport in Dallas.
High winds in Fort Worth, clocked at up to 66 miles an hour, smashed plate glass windows, damaged roofs and trees.

Increase Seen In Western Defense Moves

WASHINGTON (AP) — An increase in U.S. and Allied defense measures is foreseen by officials who predict tensions will mount over the next few months between the Soviet Union and the western powers.
In spite of moves on both sides toward negotiation, Washington authorities are confident that Soviet Premier Nikita Khrushchev intends to put on much more pressure to get the Western powers out of Berlin.
They expect a period of extreme tension and war treaties in the late spring or early summer and say privately the Western Allies must be in position to handle that kind of situation.
One possible move reported under consideration at high levels of the government is a calling up of some military reserve units.
The range of measures which may be taken here and in Europe in preparation for a showdown is one of the subjects likely to be discussed this month by President Eisenhower and British Prime Minister Harold Macmillan. A variety of other subjects bearing on negotiations with the U.S.S.R. also will come up when Macmillan comes here in mid-March.
Indications of advance planning to meet the predicted emergency came from President Eisenhower at his news conference Wednesday.
At one point, he said that there probably will be a need for a stepped up air alert "if this situation develops along the lines that it appears to be going." This was a reference to the operation of the Strategic Air Command.
But Eisenhower said he considers satisfactory "for the present moment" the ground alert system now in effect. Under this system, planes and crews are kept in a state of readiness to take off in 15 minutes.
At another point Eisenhower spoke out strongly against any effort to keep the nation in a state of general mobilization. Such an effort would convert a democracy into a garrison state and divert resources from the normal operation of a free economy, he said.
"This is, to my mind, not only futile. This would be the most disastrous thing we could do," he added.

Bolivians Have No Sense Of Humor Over National Pride

LA PAZ, Bolivia, (AP) — How could a magazine article touch off violent anti-American demonstrations in Bolivia, traditionally friendly to the United States?
Bolivians violently objected to one paragraph of a two-column article in the Latin-American edition of Time magazine on the country's acutely serious economic situation.
The paragraph, not carried in the U.S. edition of the magazine, quoted a U.S. Embassy official as saying that "the only solution to Bolivia's problems is to abolish Bolivia. Let her neighbors divide up the country and the problems."
The article made it clear the official was wisecracking.
But it was not funny in a country which over the centuries has lost territory to its five neighbors — Chile, Peru, Brazil, Paraguay and Argentina.
Bolivia, with a population of four million, is beset by one of the worst cases of inflation in South America, and is up to its ears in critical economic troubles. As Time pointed out, U.S. aid has saved Bolivia from economic catastrophe.
But when Bolivians read Spanish translations in La Paz newspapers of the Time article, the reaction was explosive.
Two thousand marched on the U.S. Embassy Monday and hurled stones through the windows, set fire to U.S. automobiles and shouted anti-American slogans. The U.S. Information Service library was invaded, windows were broken, and books and magazines were destroyed.
Police, trying to control the mob, used tear gas and fired riot guns. In the melee student Isidro Condori Mendoza, 15, was killed.
In another riot the next day dentist Juan Maldonado Barrios, 32, was hit by a stray bullet. Almost 40 policemen were hurt. All government and business offices closed and thousands marched through the streets to protest the article.
No Americans were injured. They remained in their homes, protected by police. The embassy was closed. The embassy staff and some U.S. families moved in with friends in the suburbs. Some American businessmen carried on as usual.
The U.S. Embassy denied that any of its officials had made the remark that offended.
One embassy official told a reporter, "I am positive no one would have said a thing like that for quotation even if joking."
Time's editor in chief, Henry R. Luce, expressed regret at the results but didn't mention the quotation.
The Bolivian government was first informed Friday by its embassy in Lima that Time was carrying an article unfavorable to the country. When a shipment of

several hundred copies of the magazine reached La Paz, it was seized and taken to the Presidential Palace.
President Hernan Siles Zuazo met with Congress and his cabinet for seven hours.
After the session the government issued a communique which said in part: "The Cabinet met last night to consider the publication in Time (of that) which hurts our feelings and which we cannot accept."
Not until the Saturday morning papers came out did the general public hear of the article.
Presencia, an independent Catholic paper with a circulation of 6,000, and El Diario, also independent and with a circulation of 8,000, carried a translation of the article in full.
Interior Minister Walter Guevara meanwhile released the confiscated copies of the magazine. Immediately after the distributor picked them up they were seized from him by members of the youth organization of the government party, the Nationalist Revolutionary Movement.
Foreign Minister Victor Andrade told a news conference Saturday night he had instructed the Bolivian Embassy in Washington to demand an explanation from the State Department.
Sunday's editions of the government paper La Nacion carried a strong anti-American front-page editorial saying, "Bolivia is not a football field for Time and we are not going to let the United States sell us out." The demonstrations began the next day.

Swiss Rock Slide Moves Slightly
HERBRIGGEN, Switzerland (AP)—The million-ton rock slide threatening this nearby deserted Alpine village has moved 22 inches in two days. But the government says there is no immediate cause for alarm.
The lower part of the huge mass of rock, earth and ice is still 640 feet from the edge of the precipice above Herbrigen. The slide had been stationary for several weeks.

Good Place To Dine

This is an interior view of the Harris Cafe, one of Big Spring's most popular downtown dining places. The cafe is conveniently located at 208 Gregg St. Delicious food, prepared by experts and served by friendly, courteous waitresses, is the rule at the restaurant. Owners are Mr. and Mrs. T. L. Harris, who have been in the cafe business for many years here and at Lamesa.

Charles Campbell Expert In Concrete Building Field

If you are planning any type of concrete work around your home or place of business, chances are good that you can get a better piece of work and possibly save some money by contacting Charles Campbell, Big Spring concrete contractor.

Campbell will be happy to confer with anyone on any type of concrete construction project. He will make his many years of experience available in an advisory capacity, and will be happy to estimate the cost of any undertaking.

Campbell and his workmen are masters of the art of concrete construction, and durable, attractive examples of their work dot the city.

Driveways, curbing, fences, walls, retaining walls and many other such facilities are installed expertly by Campbell's concrete artisans. Floors, patios, walks and other yard and garden accessories are among the jobs for which Campbell is relied upon throughout the Big Spring area.

Of course, only the highest quality materials are used in projects undertaken by Campbell. These are combined with skilled workmanship to make every concrete installation a valuable, permanent addition to the property on which it is situated.

Not only is Campbell's work serviceable for many years. He and his workmen strive to make every structure they fashion an attractive improvement.

Floors, for example, are poured as near absolute level as human tolerances will allow. Finishes are honed to the proper texture to assure a good appearance as well as to meet the requirements of use.

Such things as walks, driveways, fences and walls also are given

finished surfaces which are both utilitarian and attractive.

Campbell also is backed by many years of experience in the field of renewing stucco and masonry exterior walls. Brick and masonry stone faces can be applied to practically all structures, giving them the appearance and serviceability of regular masonry finishes.

A call to Sam Peters, manager, will provide you with the amazing number of special features that are available to you at this modern hotel in the heart of Big Spring.

If you have a friend who is passing through Big Spring advise him to put up at the Settles. He will be grateful to you for your advice.

Settles Has Weekly Rates

Looking for a clean, comfortable place to stay? A place where you have all of the comforts and don't have to worry about keeping the place in order yourself?

Why not try the Settles Hotel—Big Spring's finest hostelry? The Settles has most attractive special rates for its comfortable, well furnished rooms for individuals who want such accommodations for a week or longer. It also has furnished apartments at weekly or monthly rates.

What could be handier than a home at the Settles?

You are in the very heart of town. You have year around comfort. The coffee shop is just an elevator ride downstairs. In no time at all you can be at any store or shop where you want to make a purchase.

You never have to go into any elaborate explanation if you are trying to tell someone how to reach your residence. Just tell him "I stay at the Settles." He'll know exactly where to reach you.

The Settles, a modern hotel in all detail, offers free rooms for civic and fraternal groups, and is prepared to cater to any sized group.

A call to Sam Peters, manager, will provide you with the amazing number of special features that are available to you at this modern hotel in the heart of Big Spring.

If you have a friend who is passing through Big Spring advise him to put up at the Settles. He will be grateful to you for your advice.

Time To Apply 66 Fertilizer

March and April are considered the two best months to apply fertilizer to your lawn, shade trees and shrubbery.

Get your lawn off to a healthy start by applying Phillips 66 Ammonium Sulfate within the next 30 days. The Phillips 66 product is distributed here by the McGibbon Oil Company of Big Spring.

Six to seven pounds should be distributed per 1,000 square feet, if you desire a heavy application. Lighter applications should consist of three to four pounds per 1,000 square feet, if adequately watered.

Unless showers occur within a day after application, you should sprinkle the lawn generously for best results. Even when the grass shows temporary browning or burning, it recovers quickly after thorough watering.

Phillips 66 Ammonium Sulfate, available at any local Phillips 66 service station, is a fertilizer rich in valuable nitrogen. Nitrogen speeds up early plant growth, boosts stem and leaf development, gives richer green color to growing plants.

Some warm climate grasses need only nitrogen fertilizer for the growth of healthy, heavy, deep green turf. Bermuda, Zoysia, St. Augustine and Centipede are good examples of those warm climate grasses.

Call On Western Ice For All Party, Picnic Needs

Whether we can understand it or not, spring is creeping in.

And with spring coming, there will be a great percentage of Big Springers with time off on weekends who will be heading for "the lake." These lake trips will be augmented by frequent picnics and cookouts, all of which necessitate ice to cook refreshments.

Usually, too, refrigerators cannot produce as much ice as is needed for parties, or it will melt before a weekend trip to the lake is completed.

This brings Western Ice Co. into the outdoor picture. Western Ice Co., located at the corner of 3rd and Owens, is ready to serve all your ice needs—day or night.

During the daytime, the ice dock on the east side of the structure is open to handle all needs, in either crushed ice or in blocks. At night, the same service is available via Western's coin-operated vending machines. Western

has these machines for either block or crushed ice which were installed solely for the convenience of its many customers.

This innovation has been welcomed by picnickers and sportsmen alike since its installation about two years ago. Thus sportsmen leaving early in the morning don't have to buy ice the night before and have it half melted before they leave. Nor do picnickers have any worries when a party is hatched on the "spur of the moment."

The management of Western Ice Co. urges Big Springers to again take advantage of the day-night service and to visit them often for ice. Also, by calling the firm, AM 4-4821, you can arrange home delivery if the order merits it.

DEAR ABBY

GET A JOB

By ABIGAIL VAN BUREN

DEAR ABBY: I receive help (financial) from a married man. He says he loves me and the only difference between our relationship and marriage is that he has to go home. I don't dare go out with anyone else because it might get back to him. I have no future with this man but what am I to do? Am I to be stuck with him forever because I have accepted his generosity? How does a woman get off a merry-go-round like this?

DEAR ABBY: I am 14 and my problem is kissing. I go with this boy who is also 14. He is polite and sweet and considerate but he always kisses me in public. I keep telling him, "Not in public," but he says he doesn't know the people and they don't know him. What can I do? Don't you think we are too young to kiss in public?

DEAR ABBY: What do you do when your best girl friend and her mother get into a family argument? This happens all the time and I feel like I would like to crawl into a hole. Should I just stand there like a dummy?

DEAR THIRD: Don't stand there

like a "dummy" . . . ask to be excused like a smart girl.

DEAR ABBY: My sister and husband visited us recently and when they got home they sent us a card congratulating us on our 50th wedding anniversary and there was a \$25 check enclosed. Now, Abby, my husband and I were married in 1914 which is not 50 years ago. How could a sister make such a mistake? I don't feel right keeping the money and I don't think it would be nice to send it back. What should we do?

DEAR FEELING: Write your sister and thank her. Tell her she made a boo-boo and ask her if she'd like you to hold the check until 1964.

DEAR ABBY: Good for MRS. JOHN DOE! I am another widow who was shocked and dismayed when sympathy cards (and other social mail) came addressed to me as MRS. JANE DOE. It was as though they felt I no longer had the right to use my dear departed husband's name. I don't know why so many people are ignorant of the proper etiquette in this matter. A divorcee might prefer to drop her husband's name, but a widow finds it hard to give up. Most widows want to continue to use their husband's name but are not sure if it's correct, and if they missed your column they still don't know.

ANOTHER MRS. JOHN DOE For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

Texas Farms Lead In U.S. Payments

WASHINGTON (AP)—The South Central Region topped all others last year in the amount of government payments made to farmers in 1958. The amount was \$357,985,000, out of total payments of \$1,089,000,000.

This region included Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma and Texas.

Texas led all states with a total of \$122,188,000. Missouri was second with \$61,141,000. Iowa third with \$59,429,000. Georgia fourth with \$48,413,000. Mississippi fifth with \$43,725,000. Alabama sixth with \$43,435,000. Minnesota seventh with \$41,720,000. Illinois eighth with \$41,342,000. Oklahoma ninth with \$38,605,000 and Indiana tenth with \$38,018,000.

The government paid farmers a total of 214 million dollars for carrying out conservation practices, \$44,429,000 for complying with the sugar program, \$14,275,000 as wool incentive payments, \$815,023,000 for retiring land under the soil bank program and \$1,304,000 under the Great Plains Conservation Program.

Starling Chaser To Cattle's Rescue

GREAT BEND, Kan. (AP)—Otto Standke, who chases starlings, will try to frighten the pesky birds away from a cattle herd with his secret method.

Standke has been hired by Earl Brookover, who operates an 80-acre feed yard that can handle 11,000 animals at Garden City, Kan.

Brookover says the starlings eat feed and roost on the cattle's backs, causing discomfort and loss of weight.

Standke has chased starlings

Hates Houston, Heads For Alaska

HOUSTON (AP)—James M. Brogan was on his way to Alaska today because of what he called Houston's "chug-hole d streets, lack of city water and sewer service, garbage cans in the front yard, parking meters, and taxes, taxes, taxes."

Brogan, 43, carried out a promise he made three years ago to go to Alaska if the city annexed an area including his home. Houston did and by mid-1958 beat down the last resistance in court.

"That's what is wrong with the country," said Brogan. "Everybody pays and almost nobody says a word. Here there's just no way for a little man to fight the big man. It may be the same in Alaska, but at least there maybe we can do something about it."

Brogan, a bachelor, sold his frame home and withdrew from a grocery store he operated with a brother.

Defendant Wins Suit On Contract

An instructed verdict for the defendant was entered in the trial of the suit brought by J. W. Phillips against J. V. Sanders Wednesday afternoon.

Phillips had sued Sanders alleging breach of contract. The case was opened Wednesday morning. A jury was selected and the plaintiff presented his evidence. The defense moved at that time for an instructed verdict for Sanders.

Judge Charlie Sullivan sustained the motion and so instructed the jury.

The case wound up the civil jury docket which opened in the court on last Monday. Several cases set for trial were announced as settled or had to be passed for this time.

The panel of jurors which has been serving the court was finally excused at 10 a. m. Wednesday.

Wins Award

Jackie Roden, son of Mr. and Mrs. Jack H. Roden of 1803 Woodcrest Dr. in Houston and grandson of Mr. and Mrs. C. L. (Jack) Roden, has won Scoutings two top awards—the Eagle and God and Country. He began his scouting career here in troop No. 4 and did much of his work toward the awards in Big Spring. He worked two summers here with several of the Lone Star District counselors.

School Sued As Catholic Institution

AUSTIN (AP) — Illegal use of state tax funds in a school where Catholic sisters clad in the robes of their order are teachers was alleged in an injunction suit filed here yesterday.

Officials of the Bremond School District quickly denied charges that the St. Mary's Elementary School is actually a Catholic parochial and not a public school.

The injunction, if granted, would forbid the school district to pay salaries to Catholic sisters or priests as public school teachers.

Big Question Is If Business Can Lend Much To Treasury

Editor's Note: There is increasing talk in Washington that the Treasury's current borrowing problems may be the prelude to more serious trouble.

By FRANK CORMIER WASHINGTON — Managing a record national debt is like walking a high wire without the consolation of a safety net.

The footing is treacherous because lenders have lost much of their enthusiasm for Treasury securities — Uncle Sam's IOU's.

Under present conditions, the government couldn't hope to borrow 129 billion dollars in a single year without inviting disaster.

History offers some encouragement. Conditions change. A year ago there was recession and ample change for long-term borrowing.

Perhaps more important, short-term loans have to be refinanced (that is, the money has to be borrowed again) almost before Uncle Sam can draw a breath.

More than 33 billion dollars of the loans obtained or renewed since last July will come due between now and Dec. 31.

Adding to the problem, about two billion dollars of loans obtained before last July also will come due. And the government will have to raise about 10 billion dollars in new cash—more if the budget for the fiscal year beginning July 1 is in the red.

What if the Treasury has to do all this 1959 borrowing on a short term basis?

At the end of 1958, the Treasury figured that 72 1/2 billion dollars of the national debt would come due within one year.

If, during the rest of 1959, the government could obtain no loans for a period longer than one year, this figure would mount to 82 1/2 billion dollars by next Dec. 31.

Under present conditions, the government couldn't hope to borrow 129 billion dollars in a single year without inviting disaster.

History offers some encouragement. Conditions change. A year ago there was recession and ample change for long-term borrowing.

Perhaps more important, short-term loans have to be refinanced (that is, the money has to be borrowed again) almost before Uncle Sam can draw a breath.

More than 33 billion dollars of the loans obtained or renewed since last July will come due between now and Dec. 31.

The Treasury's problems may ease sooner than most people expect.

Some observers, however, see yet another source of trouble ahead. They believe the government will strain the supply of money available for short-term loans in 1959. Here is their argument:

In 1958, the recession helped the Treasury borrow huge sums on a short term basis. Businessmen had reduced their inventories sharply and, with most firms operating below capacity, didn't spend money expanding their plants on a vast scale.

Corporations had idle cash which went into short-term Treasury securities. In effect, businessmen rescued the government from having to do most of its borrowing through inflationary bank loans.

This year, the argument goes, inventories will be rebuilt because of economic recovery and businessmen will spend more on their businesses. They won't be able to help out as they did last year.

The Treasury challenges this argument. Officials say that, for one thing, corporations traditionally buy more government securities when their profits rise—to take care of taxes.

These men predict corporations will buy more, rather than less, Treasury IOU's this year.

The nation can hope they're right.

Hands Off

After a week in a Battle Creek, Mich., hospital, Brian Keith Messenger, 2, still refuses to part with his hat. Any attempt to remove it—such as tried by Mrs. Rex. Mc Masters, director of nurses—has been met with tears and a determined hold on his headpiece. Brian has been hospitalized for a leg infection.

Royal Guards Rush To Defend Headgear

By DENNIS NEEDL
LONDON (AP) — Britain's famed Brigades of Guards today fought grimly for the honor of their bearskins.
The tall, furry hats guardsmen have worn on state occasions since before Waterloo were under fire. Ex-RAF man Peter Page, in a letter to the London Times, wrote that the bearskins on guardsmen outside Buckingham Palace were in disturbing variety.
"Some have fierce looking fringes and look magnificent," he wrote. "Some have no fringes at all and look curiously bald. Others have a slightly tattered, almost mangy, look about them."
He suggested some of the headpieces might even be veterans of the Napoleonic wars.
"Cannot money be found to provide new bearskins, at least for the men supplying the guard at

the palace?" he asked. "Most foreign visitors come to see the pageantry of Britain. It is rather letting the side down for it to have a slightly comic, moth-ridden appearance."
Well-trimmed mustaches bristled angrily in barracks throughout Britain. The Grenadiers, Coldstreams, Scots, Irish and Welsh Brigades instinctively closed ranks.
"Whenever a bearskin becomes unserviceable, it is replaced," reported the War Office curtly.
"Exaggerated," snapped Lt. Col. Michael O'Cook, brigade major of the Household Brigade which supplies the Queen's sentries.
But after a moment of reflection he added apologetically: "We are sorry to have to agree that some caps are a little scruffy."
"I am afraid they are not replaced often enough. Some are 50 years old. Worn ones are cut up and used to make new ones."
At the Ministry of Supply a spokesman admitted a shortage. The ministry is experimenting with nylon, he said.
Finally, a bearskin wearer, Regimental Sgt. Maj. Douglas Glisson, "Bearskins need a lot of lovin'. You've got to treasure them like your best girl."
Glisson ran his fingers affectionately down his own glossy model.
"She's a beauty," he said. "Believe me, if I saw a guardsman with a mangy bearskin, his feet wouldn't touch the ground on his way to the lockup."

Wilma Cole Makes Dean's List At TCU

FORT WORTH—Wilma F. Cole, Texas Christian University student from Big Spring, has been named on the fall Dean's List in the College of Arts and Sciences. She is one of 79 from the arts and science division.
To be named on the list, a student must rank academically in the top 5 per cent of his school or college. Miss Cole, a freshman French major at TCU, is the daughter of W. C. Cole, 700 Tulsa, Big Spring. She is a graduate of Big Spring High School.

Texan Learns What It's Like To Work From Federal Level

By TEX EASLEY
Associated Press Special Service

WASHINGTON (AP) — Rep. John Young of Corpus Christi now is learning what it's like to push for flood control measures from the Washington level.
Four years ago as county judge of Nueces County, he was a leader in a drive that raised \$90,000 for use by the Agriculture Department in a watershed survey in Nueces, Jim Wells, Kleberg and Duval counties.
Now he is a member of the House Public Works Committee, which recently approved two Texas projects stemming from that study—the largest considered to date under the four-year-old upper watershed flood control act. The projects:

1. Chilitipin-San Fernando creeks, covering 337 square miles. Estimated total cost of \$2,871,600 includes \$1,533,500 of federal funds, for nine run-off retarding check dams creating reservoirs with a

total capacity of 27,929 acre feet. (An acre foot of water is the amount needed to cover one acre to the depth of one foot.)

2. San Diego-Rosita creeks, covering 348 square miles. Estimated total cost of \$2,841,732 includes \$1,443,500 in federal funds, for 11 check dams creating lakes with 41,649 acre feet capacity.

After expected approval by the Senate Public Works Committee, the Agriculture Department will have a go-ahead to draw up final plans and advertise for construction bids. No further action by Congress is necessary.

Young hopes actual dirt turning will get under way this year. The work is to be done over a five-year period.

Around the Capital:
Susan Rogers, pretty 17-year-old daughter of Rep. and Mrs. Walter Rogers of Pampa, has been selected by the Texas State Society to be the Texas princess in Washington's annual Cherry Blossom Festival April 7-12. The queen of the festival will be chosen from among the 49 state princesses by a spin of a wheel.

Three San Antonio girls attending finishing schools here were among candidates considered in the choice of the Texas princess. They were Margi Peace, Barbara Elliott and Mary Tucker.

Martin Dies, now a Lufkin attorney, sent a letter to Texans with whom he served in Congress, addressing them as "Dear

Former Colleagues" and beginning:

"One of the most serious, if not the most serious, issue which faces our nation is inflation."
It was a plea for measures to fight inflation.

Speaking in Baltimore, Edward Woolley, director of the Bureau of Land Management, recalled some Texas history in discussing Alaskan land values.

"By an act of Congress in 1850," he said, "the United States made an offer to the state of Texas to purchase its northwestern lands. The state accepted, and the 79 million acres purchased became public lands of the United States. These lands are now within Kansas, Oklahoma, Colorado, and New Mexico. But within the diminished Texas itself, Texas and its citizens retained title to all of the lands and there has never been an acre of public domain in the present Texas."

Joe Bailey Swanner, for years a member of the staff of Rep. Clark Fisher of San Angelo, has taken a position in the office of the House File Clerk. Among other things, the office keeps expense account reports of congressional candidates and lobbyists.

Formerly of Brownwood, Swanner made an unsuccessful race for the Texas Senate in 1958. His wife, the former Regina Brooks of Brownwood, is a member of the staff of Rep. Frank Stubblefield (D-Ky.).

Firm To End Oil Suit Today

AUSTIN (AP)—Atlantic Refining Co. was expected to wind up its case today in a test suit involving a standard formula used by the Railroad Commission in fixing gas allowances.

The hearing in 88th District Court likely will spill into next week to hear the other side. Attorneys for Bright & Schiff, a Dallas oil company, and the attorney general's office, representing the commission, said they would need two or three days to present their side.

Technical information, studies, gas isopach and structure maps occupied the court yesterday. The maps detailed the Normanna Slick, Luling and First Massive sand fields in Bee County which are involved in the suit.

At stake is the commission formula for fixing a field's gas allowance based two-thirds on acreage and one-third on the number of wells in the field.

Bright & Schiff owns a small townlot in a proration unit owned largely by Atlantic and Tidewater Oil Co. Atlantic claims the Dallas company will be able to drain more than a million dollars worth of gas from their leases. It contends there actually is less than \$15,000 worth of gas in place beneath the 79 by 130 foot tract.

Farm Income Up

WASHINGTON (AP)—The Agriculture Department said today the annual farm income per person climbed to a new high of \$1,068. But this average was about 48 per cent less than the nonfarm average income.

URBAN RENEWAL

Stanton Wants To Divert Paving Funds To Sewer Lines

By JESS BLAIR
STANTON—This town's Urban Renewal Plan which may some-day give this place a complete face-lifting still seems in the distant future, according to Harvey White, city secretary.

he said, "and it has been tentatively approved by the federal government. But it may be quite awhile before any action is taken."
This first area zigs and zags with the streets, but is roughly in the north half of town. Preliminary plans call for putting down

\$110,000 worth of pavement by the city, with the Urban Renewal Commission to donate twice this amount.
The local committees, however, would like to spend only a part of the money on paving and use the rest for such needed projects as an enlarged sewer system. White says the present sewer lines were built for a population of 3,000 people, and are becoming overburdened. He says the city cannot sustain much more growth unless the system is revamped.

White does not know if the government will approve this amendment, though it is now being considered. Neither does anyone know just what streets and how many blocks will be paved. One contractor said that for an 82-foot width, street paving would cost approximately \$12 per linear foot.
"When we hear from the Urban Renewal Commission, we will publicize the answer," White said. "Then the people of Stanton can decide what they want to do."

Tax Renditions Due Prior To April 30

County taxpayers still have the better part of 60 days in which to render their real and personal taxes, it was pointed out by the tax assessor's office.

Deadline for state and county tax purposes is April 30.

Importance of this matter is in the need for homeowners to claim their homestead exemption if they want to benefit by the allowance granted in tax bills for such property.

The tax office pointed out that many persons whose taxes are paid through the company holding the mortgage on their home are erroneously of the impression their homestead rights are already protected.

The mortgage company can and does pay the taxes but it is not empowered to claim the homestead exemption for the occupant. This is something the individual must do for himself.

Further, the mortgage companies generally settle all tax bills on properties in which they have an interest early in the tax paying year. Too many homeowners, it is said, believe that they have been assured of their homestead exemption claims when in reality such is not the case.

"If you have a home and are entitled to the homestead exemption claim," said spokesmen for the tax collector, "you will save yourself money by coming to the office and rendering your property. You can then claim your exemption and be assured of its benefits."

Rendition of property for tax purposes is generally a simple matter. The applicant give his name and the address of his property. The tax form on that particu-

lar property is located and the owner signs his name on the back. It was pointed out that homestead exemption claims filed now are applicable on taxes which will be payable on or after October 1959. They do not apply to taxes already paid or being paid in the period from October 1958 through April of this year.

Scholarships Posted For Seniors By Texas AFL-CIO

AUSTIN—A total of \$3,225 in 18 scholarships ranging from \$50 to \$500 is being offered by the Texas State AFL-CIO and affiliated organizations in the fifth annual Texas Labor Scholarship Contest.

The scholarships will be awarded to the writers of the best essays on the subject: "Annual Salaries for Texas Legislators." Essay judges will be Davis A. Cheavens, chief of the capital bureau of the Associated Press; Tom Reavley, Austin attorney and former secretary of state, and Dr. J. G. Umstadt, professor of education at the University of Texas.

Any graduating senior of any public, private or parochial high school in Texas or any graduate of last year who has not yet entered college is eligible to enter the contest. Jerry Holleman, Texas State AFL-CIO president, announced. Contestants do not have to come from union families or have any connection with organized labor, he pointed out.

The cash awards to be made are divided into two classifications. Five awards, ranging from \$100 to \$500, will be made on a statewide basis, and the other 13

awards, ranging from \$50 to \$250, will be made in the nine areas in which local organizations are sponsoring the program. The nine areas are Austin, Dallas, El Paso, Fort Worth, Houston, Midland-Odessa, San Antonio, Texas City and Wichita Falls.

Deadline for submitting the essay of 500 to 1,000 words is April 5 with winners to be announced around May 15. Entries should be sent to Scholarship Contest, Texas State AFL-CIO, 402 W. 13th St., Austin 1, Texas. Awards will be made to the winners upon their registration in the college of their choice.

Discoverer 1 Is Still Missing

INGLEWOOD, Calif. (AP)—It has been five days since Discoverer 1 was blasted skyward from Vandenberg Air Force Base but the whereabouts of the 19-foot missile is still a mystery.

Radio signals were received for nine minutes after the Discoverer was launched, then only a smattering of unverifed reports.

Seminole Steer Gets Stock Honor

HOUSTON (AP)—Sparkplug, a 1,000-pound Aberdeen-Angus exhibited by Bill Holcomb, 17, of Seminole, was named champion of the Houston Fat Stock Show's junior fat steer division yesterday. Other reserve breed champions were shown by David Hall, Wharton, Brahman; Jane Holloway, Abilene, Hereford, and Jerry Duren, Goldthwaite, Aberdeen-Angus.

Switchman Dies

CHICAGO (AP)—Thomas Cecil Cashen 79, president of the Switchmen's Union of North America from 1921 to 1947, died Wednesday after a brief illness. He was a former member of the War Assets Administration.

Citizens Traffic Group To Hold Safety Essay Contest

A tentative date of March 30 has been set for beginning of the annual Citizens Traffic Commission essay contest, according to James Eubanks, CTC executive secretary.
Eubanks said that the dates are tentative since final details of the contest haven't been worked out with the schools. Should that date be correct, junior and senior high students will have from then until about April 3 to finish their essays.

Again this year, the contest will be open to all junior and senior high students in the county. The first contest, in 1957, was open only to Big Spring students, but it

was thrown open to all Howard County students last year.
Essays can be on any type of safety, Eubanks said. Rules governing the competition will be forwarded to all schools in the near future, he added.
Security State Bank is again donating trophies for the first and second-place winners in each category — junior and senior high schools. Also medals will be given for honorable mention.

Ask Sewage Aid

AUSTIN (AP)—The State Health Department urged cities without adequate sewage facilities to apply for federal aid to help cut pollution in Texas streams and rivers.

Happy Memories

Ever since she was a child, Mrs. Leland A. Younkin has made a hobby of keeping scrapbooks. This particular one which she and Leanne are perusing contains all sorts of greeting cards received by the family of three. Lt. Col. Younkin became a part of this photograph via his portrait which was completed last year.

Luscious Concoctions Are Part Of Mrs. Younkin's Bridge Parties

Bridge hostesses who want for refreshment ideas need look no farther than Mrs. Leland A. Younkin's recipe collection. She harbors an extensive repertoire of such delicacies because getting together bridge foursomes is one of her favored ways of entertaining and she likes nothing better than to stir up something rich and diet-defying.

In time for St. Patrick's Day is her formula for Mint Fluff; it merits attention not only for beauty and delectability but because it can be made a day or so in advance. Just as easy to concoct and just as good are Graham Cracker Squares.

Have you ever stirred up a cake in the baking pan itself? No mixing bowl mess to clean afterward. Have fun doing just this with her One-Pan Easy Chocolate Cake. This particular recipe came from her younger sister and her sorority, who pronounce it foolproof.

If you would go the salad route with your guests, there are a couple of such recipes which our featured cook passes along. Both may be made the day before. For the occasion that calls for an appetizer, Mrs. Younkin has a refreshing suggestion in her Cranberry Frost.

Besides cooking, she enjoys a variety of interests. Inasmuch as her husband, Lt. Col. Younkin is executive officer for the Pilot Training Group at Webb AFB, she is engrossed in activities at the base. She is active in the Officers Wives Club, being group chairman of Headquarters, PTC Wives. The charter member of the Tall Talkers Toastmistress Club is a past president of the unit and currently serves it as membership chairman.

She has a background in music, having majored in piano at Santa Monica City College and appeared in USO and Red Cross shows in the Hollywood-Los Angeles area.

Leanne, 5, is in her second year of kindergarten and is now "learning to be a ballerina." Absorbing entertainment for her as well as others is afforded by the scrapbooks which her mother has kept through the years. They contain photographs, newspaper clippings and other memorabilia which recall such events as their first USAF assignment in Texas — at Galveston, Colorado, Pennsylvania, Washington D. C., Alabama and Illinois have all had their turn with the Younkis. Their residence is at 1804 Owens.

Try Mrs. Younkin's delightful recipes:

GRAHAM CRACKER SQUARES
2 1/2 cups graham cracker crumbs
1 can condensed milk
1 pkg. chocolate bits
1 tsp. vanilla
1/2 cup chopped nuts
1/2 cup raisins, if desired
Combine the ingredients; mixture will be very thick. Spread out in greased pan, 1 inch deep, and bake for 30 minutes in 350 degree oven.

ONE-PAN EASY CHOCOLATE CAKE
Sift into cake pan:
1 1/2 cups flour
1 cup sugar
3 tbsps. cocoa
1 tsp. salt
1 tsp. soda
Then, dig a hole in the center and stir in:
5 tbsps. salad oil
1 tbsps. vinegar
1 tsp. vanilla
Pour 1 cup cold water over

top of mixture and stir in well with fork until smooth. Bake in 8 or 9 inch pan for 23-27 minutes at 350 degrees.

MINT FLUFF
1/2 lb. marshmallows
1 cup milk
1 cup whipping cream, whipped
1 tsp. peppermint flavoring
1/4 tsp. green food coloring

Melt and cool the marshmallows mixed in milk. Add the whipped cream and other ingredients; mix. Pour mixture on top of rolled chocolate wafers in a 9-inch square pan. Shave semi-sweet chocolate on top; place in refrigerator at least 24 hours before serving.

CRANBERRY HAM
3 slices ham 3/4 in. thick
2 cans whole cranberry sauce
1/2 cup honey
3 tbsps. horseradish
Juice of 1/2 lemon
Whole cloves

Slash edges of ham to prevent curling; put in cloves. Drain canned cranberries. Combine honey, horseradish and lemon juice.

Place 1 slice ham in baking dish; cover with 1/3 of cranberries and pour on 1/3 of honey mixture. Place second slice of ham on top, repeat process of honey and cranberries. Top with third slice and remainder of cranberry sauce and honey mixture. Makes eight servings.

Bake for 1 1/4 hours at 325 degrees, basting often, in uncovered pan.

CRANBERRY FROST APPETIZER
1 pt. cranberry juice
1 pt. lemon, lime, pineapple or raspberry sherbet
Place scoop of sherbet in bottom

of fruit punch glass. Fill with cranberry juice.

TUNA FISH SALAD

To 1 package of lemon gelatin add 1/2 cup boiling water and 1 cup mayonnaise. Mix and let cool. Shred 1 cup white tuna, 1 green pepper, 1/2 cup celery, 2 sweet pickles, 12 small olives. Stir in 1/2 cup chopped nuts, 2 hardboiled eggs, grated onion juice (1 tablespoon), juice of 2 large lemons. Mold in bread pan and serve on lettuce.

PINEAPPLE CHEESE SALAD

1-3 lb. marshmallows
3/4 cup pineapple juice
1 banana, crushed
1 cup crushed pineapple
Juice of 1/2 lemon
1 pt. cottage cheese
1/2 cup whipping cream, whipped
Place marshmallows and 2 teaspoons pineapple juice in saucepan. Heat, slowly folding marshmallows until half melted. Remove from heat. Continue folding until mixture is smooth. Cool slightly, add remaining pineapple juice and other ingredients.

Place in refrigerator freezing tray. After frozen, cut in squares and serve on lettuce.

Chocolate Pudding Is Easy Dessert

Everyone in the family will enjoy this double-chocolate pudding. But as a treat for the busy cook, it is a real find.

It is made the work-free way with packaged chocolate pudding mix, chocolate milk, some broken nuts and flavoring. No need to fuss with melting of chocolate, naturally, since chocolate milk eliminates that task.

All you do is follow cooking directions on the pudding package, substituting chocolate milk for plain milk. Before pudding sets, fold in nutmeats and a drop of peppermint flavoring.

Canned Fish Has Become A Staple

Deep in the heart of the Lenten season, housewives may be searching frantically through their recipe files for fresh menu suggestions.

We offer these recipes which call for canned fish to give them their basic appeal.

SALMON SOUFFLE
1 can (16 oz.) salmon
3 tbsps. butter or oleo
3 tbsps. flour
1 tsp. salt
Dash pepper
Dash nutmeg
1 cup salmon liquid and milk
3 egg yolks, beaten
3 egg whites, beaten
Drain salmon and save liquid. Flake. Melt butter; blend in flour and seasonings. Add salmon liquid gradually and cook until thick and

smooth, stirring constantly. Stir a little of the hot sauce into egg yolk; add to remaining sauce, stirring constantly. Add salmon. Fold into egg white.

Pour into a well greased 1 1/2 quart casserole. Bake in moderate oven, 350 degrees, for 45 minutes or until souffle is firm in the center. Serves six.

TUNA-STUFFED BAKED POTATOES
2 cans (7 oz. each) tuna
6 medium baking potatoes
1 tbsps. butter or oleo
1/2 tsp. salt
Dash pepper
1/4 tsp. grated onion
1/2 cup chopped parsley
1/4 to 1 cup hot milk
1/2 cup grated cheese
Drain tuna. Flake. Bake potatoes in a hot oven, 425 degrees, for 45 to 60 minutes or until soft. Cut a slice off the top of each potato; scoop out insides. Mash potatoes. Add butter, seasonings and hot milk; blend well. Mix in tuna. Stuff shells with the tuna-potato mixture. Sprinkle cheese over the top of each potato. Bake in a hot oven, 400 degrees, for 25 to 30 minutes. Serves six.

Cottage Cheese Dip
Cream style cottage cheese can be whipped smooth as whipped cream in an electric blender or mixer. For a flavoursome dunk, simply add a dash of salt, some scraped onion and a drop of soy sauce to the whipped cheese.

You'll Buy More Juice In Lemon

You can count on getting more juice from the lemons you buy after March 15.

That's because official standards are being changed on that date so minimum juice content will be 30 per cent of volume for regular shipments, instead of 25 per cent as before, reports the Agricultural Marketing Service.

This applies to all grades except those labeled "Green for Export," which now will have a minimum juice content of 25 per cent instead of 22 1/2 per cent.

Lemons are available throughout the year but the peak season is from May through September — just when hot weather calls for frequent servings of thirst-quenching lemonade.

But you don't have to wait until summer to use lemons. Lemon juice mixed with melted butter and parsley makes a simple, yet delightful sauce to serve with fish. This sauce also is good on cooked carrots.

Or, when you make your next omelet, hold up the "fluff" by adding a dash of lemon juice to egg whites after they are fairly well beaten. You'll find lemon flavor fits nicely in other dishes, too.

Last year's production of lemons was about 16.9 million boxes. This year's crop is estimated at 15 million boxes.

BROILED CHICKEN, LEMON HERB SAUCE

Chicken And Rice Blend In New Version

Here's a new way to serve that favorite pair, chicken and rice. As the chicken broils, it's basted with a special lemon herb sauce. The wondersauce and the chicken are served over rice made fancy with pimiento-stuffed green olives.

CHICKEN AND RICE

- 1 ready to cook young chicken
- 2 1/2 to 3 1/2 lbs., cut up
- 1/4 cup melted margarine or butter
- 1 small clove garlic, minced
- 2 1/2 tps. salt
- 1/2 tsp. thyme
- 1/4 tsp. black pepper
- 1/4 tsp. poultry seasoning

- 1/4 tsp. paprika
- 3 tps. lemon juice
- 1 cup uncooked white rice
- 2 cups water
- 1/4 to 1-3 cup sliced stuffed green olives

Cut the chicken into serving pieces. Rinse in cold water. Drain. Pre-heat broiler. Melt margarine or butter in a small saucepan. Add the garlic, 1 1/2 tps. salt, thyme, 1/4 tsp. black pepper, poultry seasoning, paprika and lemon juice.

Place the chicken (skin side down) in the broiler pan or other shallow pan. Use a pan from which it will be easy to pour the lemon sauce after the chicken broils. Spoon some of the sauce over the chicken. Broil. When brown on one side, turn so skin side is up. Baste with sauce. Allow 40 to 50 minutes for the chicken to cook.

About 25 minutes before the chicken is done, put the rice, water, 1 tsp. salt, 1/4 tsp. black pepper in a 2-quart saucepan. Bring to a vigorous boil. Turn the heat down low. Cover with a lid. Simmer 14 minutes. Remove the saucepan from the heat but leave the lid on at least 10 minutes. Fold in the olives.

To serve, place chicken over the rice, pour on lemon sauce or serve in a separate dish. This recipe makes 4 to 6 servings.

Ice Cream Rates Tops Year-Round

More ice cream is eaten in the United States than anywhere else in the world. Nearly 15 quarts per person are consumed annually. Although summer still is considered the major ice cream eating season, recent trends indicate that ice cream is rapidly becoming the most popular year-round dessert.

Pickle Popularity

Americans spend an average of 9 cents a week on pickles, according to a survey, with rural householders consuming larger quantities than urban dwellers.

Peanuts Lend Magic To Galaxy Of Treats

This is National Peanut Week and, in celebration, you might like to try a new assortment of recipes boasting the goodness of crisp, crunchily peanuts or smooth peanut butter.

From South America to Africa to the United States via slave ships — that is the route peanuts took to become an important cultivated crop in this country. Last year American farmers turned out 932 thousand tons of peanuts, reports the Agricultural Marketing Service. The crop has been estimated as worth \$200,000,000; this, coupled with milling, financing, shipping and other revenues, makes peanuts one of the great economic factors of the South.

Peanut butter was first made in Sanitariums as a food for invalids. People later began to make it at home and sell it from house to house. Factories sprang up to supply the demand.

The Chinese have peanuts too, thanks to an American missionary who gave a quart of seed to each of two converts in Shantung province. That was in 1929. He told the Chinese farmers to replant all of the yield for three years. One did that, his quart multiplied and spread through the

province; Shantung later became famous for its peanuts.

The other quart was planted the first year. The Chinese farmer tasted a single peanut and liked it so well he ate his entire first crop.

The delicious flavor of peanut butter has much to do with its wide acceptance. But peanuts are high in food nutrients. Thiamin, niacin and riboflavin are yielded by peanuts and provide extra energy. The energy value of one pound of peanuts is said to equal four pounds of beef steak, 21 pounds of cheese, 10 quarts of milk, or 33 eggs.

Peanut oil is a chief product. Its vegetable fat is superior to animal fat, and it is ideal for frying because it does not scorch easily; too, it does not absorb flavors and can be strained and used repeatedly.

Peanut butter is good in ground-food recipes. The creamy or crunchily type may be used in meat loaves, croquettes and fritters. Try adding chunk-style peanut butter to the batter of banana fritters, for example. Combine peanut butter with softened oleo or butter and spread into a thin frosting over ham loaves before baking.

Here are some clever ideas

which capitalize on the luscious peanut flavor:

CHOCOLATE PEANUT CLUSTERS

Melt eight squares or 1/4 lb. chocolate in top of double boiler. Add 1 1/2 cups salted (brush off some of the salt) red skin Spanish peanuts, stirring until nuts are well coated. Drop by teaspoons onto waxed paper and put in refrigerator until firm. Makes 2 1/2 dozen.

PEANUT CREAM MIX

Put 1/4 cup shelled fresh roasted peanuts through grinder. Mince 1/4 cup seeded olives; add combined olive and nut mixture to 1 lb. cream cheese. Spread on strips of toast or salty crackers.

PEANUT MARGUERITES

Beat egg white until stiff. Sweeten slightly with 1 tablespoon sugar. Fold in 1 cup chopped peanuts. Spread on saltine crackers and brown in hot oven.

CREAM OF PEANUT BUTTER SOUP

Heat 3/4 cups milk in top of double boiler with 2 slices onion. Blend 2 tablespoons flour with additional 1/2 cup milk. Add to hot milk, cook and stir until thickened. Mix 1/2 cup peanut butter with some of the cooked sauce and add to remainder in top of double boiler. Season to taste with salt and a few drops of Tabasco. Remove onion before serving and gently stir in 1-teaspoon chopped parsley.

PEANUT CRUNCH TOPPING

Fold 1/2 cup finely crushed peanut brittle into 1 cup whipping cream, whipped stiff. Makes three cups topping for cake or gingerbread.

PEANUT BUTTER BROILED FROSTING

Combine 2-3 cup brown sugar with 4 tablespoon softened butter, 4 tablespoons cream and 4 tablespoons peanut butter. Stir in 1 cup chopped peanuts. Spread on cold cake, place under broiler until topping bubbles and browns.

Foods Plentiful In March Are Listed

Plentiful foods for March have been listed by the U. S. Department of Agriculture.

Broilers and fryers, pork, turkeys, sardines, eggs are included. Vegetables in good supply will be cabbage, canned peas, celery and potatoes, while plentiful fruits and nuts comprise apples, peanuts and walnuts. Dairy products, honey and lard are also listed.

Tomato Soup Hint

When you make home-made tomato soup, first prepare a thin cream sauce and stir the tomato puree into the sauce. Homogenized milk that's thickened with a little flour helps prevent curdling. Heat the mixture through, but do not let it boil.

A complete garden-fresh salad in Borden's new Vegetable Salad Cottage Cheese

SPICE VOCABULARY

GARLIC POWDER, a vegetable seasoning, is result of dehydrating and grinding garlic. The white substance contains no salt. Granulated garlic is a similar product but more coarsely ground. The garlic powder is used wherever garlic is needed.

GARLIC SALT, also a vegetable seasoning, is similar to garlic powder but is much milder because of the addition of salt. It is desirable wherever slight garlic flavor is needed.

Dairying Is More Complicated Today

Hardy Vikings who roamed northern seas and settled in America in 999 to 1000 A.D. carried milk cows aboard ship wherever they went. They recognized the importance of milk in their diets. It helped them keep fit for rugged living.

Dairying in those days involved few problems. It was simply a matter of feeding the cows, drawing the milk and putting it on the table.

But it's different today. Behind that bottle of milk at your doorstep or the carton you buy at the store, there's the hand of the dairy farmer, the milk processor, the delivery man or grocer — and the invisible hand of Uncle Sam.

Your government enters the picture in efforts to insure a steady supply of milk throughout the year by administering milk marketing orders, at the request of

dairymen themselves. These orders cover 76 major milk-producing areas in which about half of our nation's non-farm population live.

Last year, the U. S. Department of Agriculture reports, about 37 billion pounds of milk were handled under the federal orders. That's the output of about 185,000 dairy farms and 2,200 milk dealers.

The orders do not regulate the price you pay for milk. But they do set a pattern for the price received by dairymen — higher prices in fall and winter when production costs are up; lower prices in spring and summer when green grass is plentiful.

Sanitation in milk handling is another contribution of the orders. The Grade A milk you buy, you can be sure, was produced under the strictest sanitary conditions.

Showgirl Says Las Vegas Evil Before, Not Behind, Footlights

By JAMES BACON
HOLLYWOOD — The only thing wrong with Las Vegas' bare bosomed showgirls is the way Americans, especially the men, behave while watching them, one of the imported beauties declared today.

"In Europe," declared 19-year-old Lilo Eichberg of Munich, "I was considered an artist and got the respect due an artist. I never once felt embarrassed or that there was anything wrong in what I did.

"Europeans think the body of a young woman is something beautiful, not something that you whistle at or chew gum by. My mother would never allow me to do anything wrong. And she is proud of my work."

Lilo, a combination of Zsa Zsa Gabor, Kim Novak and a little of Jayne Mansfield, is appearing in "La Nouvelle Eve," the Paris show that was recently imported intact to Las Vegas' El Rancho Vegas. The show revived the gambling resort's long-simmering battle of the nudes and even touched off a legislative bill which would ban bare bosoms in Nevada.

"I think the Nevada parliament should make a law that would make the audiences behave," said Lilo. "All of us in the show were shocked opening night. The men stamped their feet, whistled, screamed, winked at us, some times with their wives at the same table. And all the time chewing gum. Americans must chew lots of gum, no?"

As she talked, she puffed her cheeks into a hilarious caricature of gum chewers.

"If we were strip teasers or did anything suggestive," commented Lilo, "then our reception would be deserved. What we do is art, not what you call burlesque."

Lilo's blast is one of the first from the bosom brigade in the months-old battle of nudity. Surprisingly, she came to Hollywood

Lovely Import

Lilo Eichberg of Munich, a member of the "La Nouvelle Eve" show which has rekindled the "bare bosom" controversy in Las Vegas, demonstrates her talent as a dancer.

to make the remarks in an interview.

Besides civic and church groups, the battle has pitted hotel owner against hotel owner. Jack Entratter of the Sands and Ben Goffstein of the Riviera are leaders of the anti-nudity faction while Beldon Kattelman of El Rancho and owners of the Stardust and Dunes are pro-nude.

The Stardust imported Paris Lido show to touch off the controversy while the Dunes imported pure Minsky. Entratter and Goffstein believe that nudity and gambling don't mix and that the undressed girls will make the wives of high-rolling businessmen confine their gambling to Saturday night poker parties.

White Quarantines Grain In El Paso

EL PASO (AP)—State Agriculture Commissioner John White quarantined all grain-related products in El Paso County last night. While said a Khapra beetle infestation discovered here in February forced the quarantine.

Maybe Youngsters Like Commercials

KANSAS CITY, Mo. (AP)—Maybe 10-year-old youngsters like those commercials in the middle.

Fifth-grade pupils in a Kansas City school were asked to write their comments on a daily 30-minute educational television program.

The kids loved the TV, but they had this complaint: "Thirty minutes is too long to sit still."

A school official said the programs may be cut to 15 minutes next year.

Daniel Signs Several Bills

AUSTIN (AP)—Gov. Daniel signed these bills yesterday:

H.B. No. 208 (Smith of Hays)—Changing the name of Southwest Texas State Teachers College to Southwest Texas State College, effective Sept. 1.

H.B. No. 331 (Johnson)—Relating to certain independent school districts; providing for the numbering of positions or offices of trustees of such districts and their election. Immediate effect.

H.B. No. 44 (Smith)—Changing the name of Hockey County Junior College District to South Plains Junior College District. Immediate effect.

H.B. No. 67 (Smith)—Local highway maintenance law for Gaines County. Immediate effect.
