CONTRACTORS TALLY BIDS ON YMCA BUILDING Planning committee (background) studies proposals, too

J. D. Jones Submits Low Bid Of \$295,000 On 'Y' Building

J. D. Jones Construction Co. Wednesday submitted the low bid on construction of a new YMCA building and will be awarded contract next week if financing can be worked out.

Local Telephone Workers Get Big Pay Hike In New Contract

Local Bell Telephone employees are rather pleased with Wednesday night's developments between the union and the company; wages have been raised as much as \$9.50 per week.

Stanton's Cotton Classing Facility Is Given Approval

STANTON (SC) — Stanton's application for a regional cotton classing office has been approved, subject to the construction of a suitable building for the operation.

Commission Slashes Oil Allowable For April

Flow Based On 11-Day Pattern

AUSTIN (AP) — The Texas Railroad Commission today slashed the April statewide oil allowable by 107,214 barrels a day and ordered wells to produce on an 11-day pattern.

The statewide allowable figure will be 3,065,472 barrels a day. March production is based on a 12-day producing pattern.

The 11-day pattern was recommended by independents and was the middle-ground for the nominations by the major oil-buying companies.

Chief executives of 24 of the nation's largest oil companies testified to the oil regulatory agency that they anticipated an increase in United States domestic demand for petroleum this year of about 4 1/2 per cent.

The executives listed desirable levels of crude oil and petroleum products as of April 1 and as of Nov. 1. Their figures differed in almost every instance.

Gulf's president, W. K. Whiteford of New York, said "the present limitations on imports will make an ideal opportunity to clean up the over supply situation of crude oil and products."

Morgan Davis of Houston, president of Humble, said "it appears to us that East of the Rockies the inventory situation is about right with the exception of gasoline which is on the high side."

A year ago the average desirable level for crude oil was 265 million barrels. The replies to the

questionnaire today ranged around 250 million.

Nominations by companies for the April allowable included 9 days, Gulf, 10 days, Sinclair, Cities Service, Shell, Standard of Texas and Phillips; 11 days, Indiana Magnolia; Atlantic, Southern Minerals; 12 days, Texas, Humble and Sun.

Jake Hamon, Dallas oil independent, said "the nominations appear to be on the high side based on oil they could obtain from their connections. We urge the commission not to go over an 11-day pattern."

Similar recommendations were made by the North Texas and West Central Oil and Gas associations.

Absentee Voting Gets Slow Start

No one obtained a ballot for the City Commission election Wednesday, the first day of absentee voting.

Citizens have until April 3 to cast absentee ballots for the commission election which will be held on April 7 this year. The ballots may be obtained from the city secretary in the City Hall.

Persons wanting to vote absentee for the School Board election must go to the county clerk's office in the courthouse. Prior to last year, the school business office handled the absentee voting, but it has been turned over to the county clerk.

Outbreak Of Rabies Hits Coke County

A mass outbreak of rabies reported in Coke County and reports of possible rabies-infected cattle in Sterling County is creating growing alarm of the likelihood of the spread of the disease to this area.

Dr. George Martin, with the state veterinarian's office, was in Big Spring on Wednesday and told Dr. Akin Simpson, local veterinarian, there were at least 20 persons in Robert Lee who were taking treatment for possible rabies infection.

Dr. Martin said he had consulted with the Coke County Commissioners on Monday relative to the problem and that it was understood a mass immunization of dogs in the county is now under way.

In this immediate area, Dr. Simpson said he had examined a cow from Sterling County in days ago, which displayed signs of the symptoms of rabies. He destroyed the animal and dispatched the head to the state laboratory. Microscopic examination did not show rabies in this animal.

Dr. H. F. Schwarzenbach, another Big Spring veterinarian, said

Thursday that he had seen two cows from Sterling County recently, both of which had all of the characteristic symptoms of rabies. He said he had dispatched the brain of one of these animals to the laboratory today.

Lige Fox, city health department official, warned there is a grave possibility of an epidemic of rabies even if one lone animal in town should become infected with rabies. The large number of unvaccinated dogs and other pets in the city which run at large would quickly spread the disease, he said.

Reports from Robert Lee indicated that the disease is apparently stemming from wild animals—fox, skunk and opossum. There were stories heard of sick animals crawling into residential yards and on porches and dying of the disease.

Efforts to contact officials in Robert Lee on Thursday by telephone were unsuccessful. It was not known here whether the reported 20 persons undergoing treatment have been established as infected victims or were merely taking precautionary steps.

Ex-Con Will Trade Family's Lives For Foe

CHARLESTON, W. Va. (AP)—Police threw desperation resources into the search today for a crazed ex-convict who kidnaped a frantic mother and three children. He threatened to torture and kill them unless the governor released a personal enemy from the state penitentiary so he could kill him.

Gov. Cecil H. Underwood flew to Washington today, as previously planned, to meet with federal highway officials. He declined comment, saying the case was in good hands with the State Police in charge and that they had full authority to act.

"Only you have the power to save them from certain death, by granting my demands," read the note penned by the ex-convict. "I don't want money. I want vengeance."

Helicopters droned over creeks and valleys of southern West Virginia while 75 state troopers pressed a ground search for Richard Arlen Payne, 23, who forcibly took the four at gunpoint Wednesday night.

State Police called Payne an extremely dangerous mental case. In the rambling, five-page tirade addressed to Underwood, he named a convict, Burton Junior Post, better known as Junior Starcher, whom Payne knew when Payne was serving time for armed robbery.

The note said: "My purpose is to kill and to take the head of my worst enemy, who is now out of reach. He is in the W.Va. Penitentiary at Moundsville."

Payne proposed to use his captives as a wedge to force Starcher's release. "To save the children," the note read, "I demand only the FBI work on this case."

Payne entered the home of John H. Baldwin, 31, early Wednesday night on the pretense of wanting to use the telephone. Then he whipped out a pistol and threatened to kill the whole family, Baldwin told police.

The crazed ex-convict bound Baldwin, his wife Elma, 29, and their children, Susan, 5; Danny, 7; and Kenneth, 10. Methodically he gagged each one.

He ignored Mrs. Baldwin's mumbled pleas to release the gag, and composed his wild note addressed to Underwood.

Then he herded the mother and her three frightened children into Baldwin's 1955 model car. Baldwin was left tied up in the family's five-room house. He broke free and notified authorities.

"He said he would kill my wife and torture the children if I called police," Baldwin told authorities. State police Capt. W. R. Callahan said Payne was released from the State Penitentiary at Moundsville last week. He had served seven years for an armed robbery in which he shot and wounded a motel owner.

Twenty patrol cars were assigned by state police to highways in southern West Virginia to try to track down the abductor. Authorities in six nearby states also were alerted.

City Budget To Get Study

The City Commissioners will gather this afternoon for their official meeting this week — this time to study the budget.

City Manager A. K. Steinheimer has prepared the tentative budget for presentation to the commission. The meeting is set for 5:15 p.m.

The commission needs to approve the financial plan within the next few days so it can be presented at a public hearing next Tuesday. After the public hearing, it will become effective April 1.

Twice this week the commission has met but for a different reason. The commissioners met Monday evening and Tuesday evening to consider the master plan contract. This will be their first look at the proposed budget.

Flames Fatal GRANGER, Wash. (AP) — Flames raced through a frame house occupied by a Texas farm worker's family of 14 Wednesday night, killing four children.

Officers identified the victims as Maria Sandovol, 9, her sisters, Enedilia, 6, and Eva, 3, and a brother, Aleja, 4.

Legion To Observe 40th Anniversary

Howard County Legionnaires will celebrate the founding of the American Legion tonight when the 40th birthday of the organization is observed.

The date is two days past the March 15-17 caucus in Paris, France, in 1919. The delay was to fit the traveling schedule of Mrs. Charles Gunn, national president of the American Legion Auxiliary, who will be the honored guest and speaker.

The local post traditionally recognizes World War I veterans as the founders of the organization and a combined birthday celebration and reunion of this group has become customary. A free barbecue will be served at 7:30 p.m.

George T. Thomas, Big Spring attorney, will outline the Legion's 40 years of service and lead the post in tribute to the local founders. Raymond L. Andrews, commander of the Legion's 19th district, will welcome the members of out of town posts and units of the Auxiliary.

Accompanying Mrs. Gunn to Big Spring will be Mrs. Samuel Hardage, Sour Lake, department (state) president; Mrs. H. N. Lyle, department secretary, and Mrs. A. J. Breaux, distinguished chairman. The Auxiliary officers are to arrive in Big Spring following a luncheon meeting in Junction. Mrs. Gunn will conclude her Texas

as visits with the meeting here tonight. Today's activities at the Legion home on the San Angelo highway began at 7 a.m. when the fires were started to prepare an old-fashioned West Texas style beef barbecue for an expected overflow crowd. Serving on this detail are Don Karns, Jack Pearson, C. L. Foster, W. A. Bynum, Henry Stewart, Martin Binder, Alfred Goodson, W. A. McElrath and other volunteers.

Plans to greet the Auxiliary officers have been completed by Mrs. Joe Benefield, president of the Big Spring Unit. The 19th District will be represented by Mrs. Raymond Andrews, vice president. Auxiliary committees have completed the floor arrangement and will supervise the serving of the dinner.

According to R. L. (Poncho) Nall and Carl Stroh, attendance committee members, it has not been possible to compile a complete list of all the veterans of WWI so a general invitation urging their attendance is being made. All these veterans, whether a member of the Legion or not, are welcomed as well as their wives and the Gold Star Mothers.

Following the program and dinner the Legion Home will remain open for the visitation hour of the WWI veterans.

country should be proud they further contended that experiments of last September came under the rules of the International Geophysical Year, which called for sharing of data with world scientists.

The argument against disclosure was largely political, the newspaper said.

It added: "It was feared that the Russians would exploit the fact that the United States had secretly fired nuclear weapons in a region far from their shores and far from its known atomic proving grounds."

Soviet Union on halting all such testing. Deputy Secretary of Defense Donald Quarles and Dr. Herbert York, director of Pentagon research, gave some details of the test shots after newsmen inquired about a story appearing in the New York Times.

They said the explosions were of very low yield in radiation and would not disclose the altitude at which there was no radioactive fallout on the earth from the tests.

York said the main objective of the blasts was to test important theories about the trapping of electrons by the earth's magnetic field. He said the detonation of the bombs released electrons into space above the earth's atmosphere, and that the trapping of these by the earth's magnetic field created the great sheet that eventually circled the globe.

The nonmilitary part of the test, York said, was to find out more about the nature and origin of the Van Allen belt of radiation.

The Van Allen belt is a mysterious radiation band beginning at about 1,000 miles above the earth and extending, with some interruptions, up to at least 12,000 miles. It is named for its discoverer, Dr. James Van Allen, State University of Iowa physicist.

York said the phenomenon created above the earth's atmosphere by the September tests consisted of a sheet of electrons which was "an artificial version of the natural effect" from the Van Allen belt.

The electronic sheet created by the bombs, York said, extended around the whole world except for breaks over both the North and South poles—a pattern similar to the Van Allen belt.

York would not disclose the depth of the artificial sheet or say how long the phenomenon lasted. The Explorer IV satellite sent back some data on the tests. This information is to be released later.

Sources outside the Pentagon who had been informed of the tests said it was significant that about the time they were made there was a sudden reduction in the Nike-Zeus program to develop an antimissile missile. However, there was no clear indication as to whether this pointed to possible future development of a program aimed at producing a high altitude shield against missiles.

Quarles said results of the tests are being studied by many scientists. He termed the experiment

Macmillan Arrives In Canada

British Prime Minister Harold Macmillan, center, accompanied by Foreign Secretary Selwyn Lloyd, left, is greeted on arrival in Ottawa, by Canada's Prime Minister Diefenbaker. The British leader began his U.S. visit today.

BULLETIN

WASHINGTON (AP)—Britain's Prime Minister Harold Macmillan arrived here today for four days of strategy talks with President Eisenhower on the German situation.

Eisenhower and Macmillan will begin their talks Friday. It is expected that Macmillan will urge Eisenhower to join him in working out more flexible Western policies for forthcoming negotiations with Russia.

Crushed To Death ABILENE (AP)—Don Connell, 21, of Dudley was crushed to death yesterday when a 10-ton roller he was operating on a highway job overturned on him.

'CHAMPIONS' READY TO START BUILDING SOAP BOX RACERS
1959 contestants with Lions Club officials at luncheon Wednesday

GUESTS AT LUNCHEON

Lions Give Soap Box Derby Contestants A Big Send-Off

More than three-score youngsters—everyone of them a champion to begin with—got a big send-off Wednesday in their chance at the All American Soap Box Derby championship.

Everyone of the 69 boys who are entered in this year's derby, plus four of the five ex-champs, were guests of the Downtown Lions Club. President B. M. Keese welcomed them to the weekly meeting at the Settles and wished them the best of luck in building a winning racer.

R. W. Whipkey, publisher of the Big Spring Herald, which has joined with the Lions and with Tidwell Chevrolet, told the boys they couldn't lose if they buckled down and did a good job on their racers, that the experience would be worth every bit of effort they

put forth. He also told about the possibilities of going to the All American Derby in Akron, Ohio, where some lad will win a \$5,000 college scholarship and many others will take top awards.

Interest thus far is at a peak for the Derby in Big Spring, said Lloyd Wooten, who has been project manager for Tidwell. About 60 per cent of the boys already have called for their wheels and some have started to work. He announced a couple of workshops at Howard County Junior College early in April. Wooten also presented each of the boys to the Lions Club, and in the end the lads got a rousing round of applause.

Encouraging this year's entries, including some from Gay Hill and

Coahoma as well as Big Spring, were Lefty Morris, Henry Hendricks, David Spradling and Blake Talbot, former champions. Jerry Bill Hutchins, the second champion here, was unable to attend.

Pete Cook, general chairman, also spoke briefly as did Avery Faulkner, who has directed inspection services for the Derby. Joe Pickle was master of ceremonies.

Keese announced a 30th anniversary observance committee for the club. It will be headed by Joe Pond, chairman. Choc Jones, L. T. King, Pete Cook, Schley Riley, Joe Pickle, Fred Stutzell and Keese. Named to a Boy Scout Together project were Cook, James Tidwell, Jimmy Ray Smith, Wendell Clark, Elbert Bouillion Jr., and Jeff Brown.

Mental Exam For Young Slayer

MARSHALL, Tex. (AP)—A psychiatric examination was scheduled today for a husky 15-year-old who shot his grandmother and her maid to death yesterday.

Charges of murder with malice were filed against the boy, James Stevens Patterson.

The junior high school student was quoted as saying he didn't know why he killed his grandmother, Mrs. F. S. Riggs, 77, and Lola Mae Williams, 35, a Negro maid.

Mrs. Patterson, a home designer and daughter of Mrs. Riggs, was at work at the time.

Asst. Dist. Atty. R. P. Watson said the boy left for school after a minor argument, then returned. He quoted the boy as saying he stayed in the den for a time, then got his rifle and shot the women.

"She didn't have time to know what was happening until she was dead," Watson quoted the boy as saying of his grandmother.

Mrs. Riggs was a member of a prominent East Texas family.

Jury To Determine If Green Will Die

SAN JOSE, Calif. (AP)—A jury will determine Monday whether Texas Johnny Green will die in a gas chamber for strangling a Navy wife.

The jury convicted the Fort Worth man last night of slaying Mrs. Bernice Hajdukiewicz, 44, in her car east of San Francisco Bay Sept. 20.

Sen. Taft, Spurned In Hopes At Presidency, Is Now Honored

WASHINGTON (AP)—The late Sen. Robert A. Taft of Ohio, who wanted to be "Mr. President" but had to settle for "Mr. Republican," is now being honored as few men have.

An imposing new capital monument—a slim 100-foot pink marble bell tower—will be dedicated April 14 in his memory.

Taft's tower, with its 27-bell French carillon and a 10-foot bronze statue of the late senator, was built at a cost of about one million dollars donated by his friends and admirers.

Selections from his speeches are being cut into the marble.

By order of his Congress colleagues, the tower stands on Capitol grounds. In all the 131 acres that comprise Capitol Hill, there is but one other outdoor statue.

That is the seated figure of John Marshall, who served longer than any man as chief justice of the United States.

Not even Franklin D. Roosevelt, who served longer than any other president, has such a Capitol marker.

Marshall's statue was erected by fellow members of the bar and Congress in 1884—49 years after his death.

Taft's memorial was constructed within six years of his death from cancer, July 31, 1953 at the age of 63.

In all of the District of Columbia, where there are 94 outdoor statues, only five honor senators—and two of them became presidents, a National Capitol Parks spokesman reported.

President Eisenhower and former President Herbert Hoover are among those scheduled to participate in the tower's dedication next month.

The tall, slender fluted shaft—13 feet wide, 32 feet long and 99.6 feet high—is faced with a 900 cubic feet of Tennessee pink marble. It has a stainless steel roof, and an intricate lightning arrester system.

Forming a hedge around it are old English boxwoods collected by nurserymen from some historic Delaware, Virginia and North Carolina plantations.

Besides the tower itself and the two-ton bronze statue of Taft, a major feature of the memorial is a carillon, hung in an 18-foot chamber with seven openings front and back.

The carefully tuned bells, costing about \$70,000, were imported from the famous Paccard foundry in the Alpine Valley village of Anney, France.

The 27 bells, ranging from the six-ton "G" note to the 200-pound smallest size, will be ready to sound the hour, toll in memoriam or pour out a golden symphony of music. The carillon can be played electronically with pre-set

bronze tapes like a player piano, or at the touch of a 30-inch piano keyboard.

The tower, surrounded by boxwood and a fountain-filled moat, is to be floodlighted at night.

But even before its official dedication, Taft's tower was being eyed critically. Some say it detracts a bit from the grandeur of the 287-foot Capitol itself. And there were congressmen who said it might set a bad precedent, and lead to cluttering of Capitol Hill, of friends of other distinguished senators seek similar monuments in the future.

The Taft Tower is just one of a three-part memorial project planned by the Taft Memorial Foundation, headed by Rep. B. Carroll Reece (R-Tenn.).

The others are a fund for educational scholarships and an institute for government to supply lecturers, publish books and conduct research in bipartisan fashion consistent with Taft's ideals. Neither of these projects is yet under way.

Missile Unit Set For Move To Reich

WASHINGTON (AP)—The United States is sending a second Redstone missile unit to Germany to buttress North Atlantic Pact ground forces in Europe. It will leave next month.

Scholar Reveals Gospel Documents

NEW YORK (AP)—A document known as the "Gospel of St. Thomas," discovered in Egypt, contains 114 sayings attributed to Jesus—many of them previously unknown—a French scholar reports.

Existence of the document was disclosed Wednesday night by Dr. Oscar Cullman, professor of early Christianity at the Sorbonne in Paris, in a lecture at Union Theological Seminary.

The document, Cullman said, is "comparable in importance to the Dead Sea scrolls and of even greater significance to students of the New Testament."

He said the document was one of 44 treatises found in 1946 by Egyptian peasants in an old tomb on limestone cliffs about 60 miles from Luxor. Written in the Coptic language, the treatises were divided among 13 leather-bound, papyrus books.

Cullman, a visiting professor at the seminary this year, said many of the sayings found in the treatises could be traced word for word in the four Gospels of the New Testament—Matthew, Mark, Luke, and John.

One hitherto unknown saying quoted by Cullman was:

"Jesus said: If those who lead you say to you: behold, the kingdom is in heaven, then the birds of heaven will precede you; if they say to you that it is in the sea, then the fish will precede you. But the kingdom is within you and it is outside of you."

Contents of the document, Cullman said, were disclosed by Dr. Henry Charles Puech, professor of early Christianity at the College of France in Paris, who will publish them sometime this year.

Discovery of the treatises has been known, Cullman continued, but the contents of the document dealing with Jesus have not been previously disclosed.

Unlike the canon Gospels, he said, the "Gospel of Thomas"

does not give any personalized information about Jesus.

Cullman said he noted four kinds of sayings in the document:

1. Those which are word for word the same as in the canon Gospels.
2. Those which provide independent variants to the sayings in the canon Gospels.
3. Those not found in the canon Gospels in any form, but which were known from citations of the church fathers.
4. Those which were formerly completely unknown.

Cullman said the Jung Institute in Zurich purchased one manuscript, and the others are now in the Coptic Museum in Cairo.

"The Coptic manuscripts were written in the third or fourth century, but go back to Greek originals which are much older," Cullman said.

Clouds, Winds Comprise Weather

By The Associated Press

A few clouds scattered along the coast and some strong southerly winds in the northwest comprised the weather in Texas Thursday.

Temperatures otherwise were mild and skies clear. Predawn readings ranged from 36 degrees at Lufkin and Dalhart to 37 at Galveston.

Highs Wednesday ranged from 78 at Wichita Falls to 63 at Alpine and Galveston.

Some dust swirled over the Panhandle Wednesday.

Another weak cool front was expected in the Panhandle Friday. Brownsville was the only damp spot in Texas, reporting .08 of an inch of rain for the 24 hours ending at 6 p.m. Wednesday.

'New Look' Nose Cone Is Tested

CAPE CANAVERAL, Fla. (AP)—The Air Force has fired a "new look" Atlas ICBM on a flight to test a new nose cone—the same type that would shield a deadly

thermonuclear warhead in combat.

If all went well on Wednesday night's planned 4,500 m.p.h. flight the Air Force hoped to recover a complete Atlas warhead from the Atlantic depths for the first time.

It was not known whether the results would be announced because of the strict security wraps around the military launching.

Mexico Plans Rio Grande Dam Which May Aide U.S. Farmers

OJINAGA, Chihuahua, Mexico (AP)—Plans are going forward for two new dams in Mexico near the Texas border. One of them may be of great benefit to agriculture on the U. S. side of the Rio Grande.

One will be across the Canon Peguis, approximately 20 miles west of Ojinaga and Presidio.

The other will be on the Del Carmen near Villa Ahumada, a town 4 miles south of Ciudad Juarez, which is across from El Paso.

The combined appropriation is 33 million pesos, with 16 million allotted to the Peguis project.

The Peguis plan is for the dam only, and does not include the irrigation distribution system that will be spread out between Vado de Piedra on the Rio Grande north of Ojinaga, and El Mulato, down the Rio Grande about 18 miles from Ojinaga.

The dam will impound 300 million cubic meters or 192,000 acre feet of water. Mexican irrigation engineers estimated it will supply water for 37,500 acres of land on the Ojinaga side of the Rio Grande. In U. S. dollars the project will cost \$1,280,000.

Peguis Canyon is on the Rio Conchos that drains most of the State of Chihuahua and furnished the only water that flows permanently between Ojinaga and Presidio.

Peguis Canyon itself is a narrow gorge that cuts through a limestone mountain ridge 20 miles west of the junction of the Rio Conchos with the Rio Grande. Five sites have been surveyed during the past two years by the engineers of the Department of Hydraulic Resources.

When Sen. Teofilo Borunda ran for governor of Chihuahua more than two years ago, residents of Ojinaga presented a written document outlining the project and stating this was the most important economic project for the area.

Borunda was able to get the Federal Government to make the studies. Then, when President Lopez Mateos ran for office last summer, Gov. Borunda and the farm groups of northern Chihuahua passed on the recommendations for dams.

The Rio del Carmen rises a short distance northwest of Chihuahua and flows north into a salt lake near Villa Ahumada.

The proposed dam will store 100 million cubic meters, or 64,000 acre feet, of water.

Mayor Jesus Rotana of Ojinaga believes construction will start soon on the Peguis Dam, thereby giving employment to many farmers whose cotton crops were wiped out in September by the terrific floods from the Rio Conchos.

It is believed this dam will stabilize the flow of the Rio Conchos, eliminating the serious flooding, as well as provide irrigation.

Residents of Presidio County, Tex., do not know yet what effect the construction project will have on farming on the Texas side.

Enmett DeVolin, Marfa banker who has been working on the project, states that by international treaty, Texas is allotted one-third of the water from the Rio Conchos. In this case possibly 8,000 acres of land can be developed in Presidio County from the project.

Texas power companies are interested in the potential production of electrical energy on the Peguis project, as is the City of Chihuahua. Students of recreation in the Big Bend Country

Peguis Dam Site

This is the probable site for the Peguis Canyon Dam across the Rio Conchos near Ojinaga, Chihuahua, and Presidio, Texas. This aerial view shows the little Peguis in the foreground and the large Peguis in the background. Either are logical sites for the dam. Photo was taken during Presidio Flood in September that wiped out \$2,000,000 worth of cotton and did untold damage to the fields.

see another fine fishing lake in the making.

On the Mexican side, agricultural statisticians say the new project will mean an increase of at least 10,000 persons in the Ojinaga farming area.

Mullen Still Set For Record Flight

HOUSTON (AP)—Bill Mullen was still poised today for a flight he hopes will break at least one distance record for single-engined light planes.

Mullen hopes to fly at least 5,698 miles to Rome and break the record of 4,957 for Class III planes set in 1949 by the late Bill Odom.

If he reaches Rome in good shape, Mullen plans to go on to Athens or Cairo and break the 6,856-mile record for Class IV planes set last year by Pat Boling.

The planes are classed by weight with Class IV ships weighing more than Class III.

Mullen's Mooney Mark 20 was forced down near Bristol, Tenn., by icing in gas tank lines last week after taking off from Long Beach, Calif., for Rome.

Farmers, Ranchers Oppose Control Bill

DALLAS (AP)—Texas farmers and ranchers assailed yesterday regulations proposed by the Department of Labor to govern the use of domestic farm labor.

The proposed regulations are the same as those governing migrant labor, George Spence of El Paso said. He said they were a means by which organized labor hopes to control domestic farm labor.

Spence presided over the meeting of about 200 farmers and ranchers sponsored by the Texas Conference of Farm Agricultural Employers.

U. S. Planning New Space Test

WASHINGTON (AP)—The United States is planning something new in satellites—a three-in-one job. It will be part of the Vanguard series and will include a balloon to study friction in space.

Dr. John P. Hagen announced plans for it Tuesday and said it will be launched soon from Cape Canaveral, Fla.

In effect, Hagen said, the new Vanguard will provide three separate satellites:

1. The empty case of the launching vehicle's third-stage rocket, a metal tube weighing about 52 pounds.
 2. A 13-inch plastic sphere with an arm extending about two feet. There will be a magnetometer at the end of the arm to measure the earth's magnetic fields. This satellite will weigh about 22 pounds.
 3. A 30-inch expandable balloon weighing 1 1/2 to 2 pounds.
- Before launching, the balloon will be folded into a small tray at the base of the plastic sphere. When the nose of the launching vehicle separates from the final stage rocket, a gas cartridge will inflate the balloon—if all goes as planned.

Freight Train Hits Auto, 10 Are Dead

XENIA, Ohio (AP)—A freight train plowed into a car carrying 10 passengers in a tragic railroad crossing accident near here Wednesday. All 10—including eight Girl Scouts—were killed.

The car was dragged 50 feet along the tracks. The body of the driver, Mrs. Lucille White, 44, was found 75 feet beyond the car.

The daughters of Mrs. White and the other adult in the car, Mrs. Jeanette Randall, 39, were among the eight Girl Scouts who perished.

The girls were returning home from a library here where they had been studying for merit badges. They lived in Beaver-creek Twp., a rural, commuter-type suburb between Xenia and Dayton.

The accident happened about 3 1/2 miles west of Xenia.

Kenneth Ward, father of one Girl Scout, is an auxiliary fireman. He was helping gather up the bodies, unaware his daughter was a victim, when he recognized what was left of the car. Then he found the body of his daughter, Linda, 12.

The other girls were Sharon White, Cindy Moorman, Connie Laprise, Patricia Lapinski, Ann North, Paulnetta Randall and Anna Wilvert.

All were 12 years old except Anna who was 11.

Six were killed outright and three were dead on arrival at a hospital.

W. R. Murray of Columbus, engineer of the Pennsylvania Railroad's three-diesel express freight, said the car slowed down as it approached the crossing. He thought it was going to stop, but it kept coming, he said.

The speed limit for trains in that area is 50 m.p.h.

The crossing is unprotected by flasher signals and has only a crossbar railroad sign.

Vaughn Lewis, superintendent of Greene County schools, commented: "The biggest tragedy was that there was no flasher light there. That's a bad crossing and we (the school board) fought for flashers and didn't get it. This is inexcusable in a populated area."

Fraud Convictions

HOUSTON (AP)—A federal jury convicted three men of fraud yesterday in the resale of 25 automobiles belonging to the Texas National Bank.

Geologists Plan Oil-Hunting Trip

DALLAS (AP)—A group of 150 geologists were to leave here today for a weekend trip to examine the Ouachita Mountains in southeastern Oklahoma.

Geologists believe untapped oil fields lie beneath this area. The geologists, who have been attending the annual convention of the

American Assn. of Petroleum Geologists here, hope to solve some of the geological problems that will pave the way toward finding the fields.

Industrialist Dies

PHOENIX, Ariz. (AP)—Paul Weeks Litchfield, dean of the American rubber industry and honorary chairman of the board of Goodyear Tire and Rubber Co., died in a Phoenix hospital Wednesday night.

Center Of Attention

Second Lt. Bryce M. Herndon, outstanding graduate of Class 39-F, was the center of attraction after Wednesday night's graduation. Here his wife Kay pins on the hard-won silver wings while Rev. R. Gage Lloyd, guest speaker, holds the engraved silver trophy which the lieutenant received as top man in the large class.

Representatives Of Spain

Arriving at Webb yesterday to attend the graduation of eight members of the Spanish Air Force was Maj. Jacobo Pedrosa (back row, center), Spanish administrative officer from Lackland AFB, Pictured, left to right, front row, are: Sgt. Carlos C. Negron, Capt. Jose R. Travesi, Lt. Carlos Hidalgo and Lt. Guillermo L. Otero. Back row, left to right, are: Lt. Francisco J. Blasco, Lt. Juan A. Cervera, Maj. Pedrosa, Lt. Jose U. Murga and Lt. Antonio Arenas.

PILOT CLASS TOLD

Strength Of Nation Is In Character Of People

Webb AFB's growing list of future Spanish and American jet aces grew by 83 Wednesday evening as members of Class 39-F received their wings during ceremonies at the base chapel.

Guest speaker was Dr. R. Gage Lloyd, pastor of the First Presbyterian Church in Big Spring. The outstanding graduate of Class 39-F was 2nd Lt. Bryce M. Herndon, who received an engraved silver cup and a letter of commendation signed by Lt. Gen. Frederick H. Smith Jr., ATC commander. One other officer, 1st Lt. James F. Rentschler, also received a letter as a distinguished graduate.

The class had, among its graduates, eight members of the Spanish Air Force. They were Capt. Jose R. Travesi and 1st Lt. Jose U. Murga, Antonio Arenas, Francisco J. Blasco, Juan A. Cervera, Carlos C. Negron, Carlos Hidalgo and Guillermo L. Otero.

Col. Kyle L. Riddle, base commander, introduced the guest speaker and presented the awards to the honor students. Diplomats were given by Col. Charles H. Pierce, commander of the 3560th Pilot Training Group. Students received their wings from their flight instructors.

Chaplain (Maj.) Wilbur C. Hall gave the invocation and pronounced the benediction. "It is a privilege for me to have this opportunity to talk to you, the flower of American youth—you are the finest of what American schools have to offer," Dr. Lloyd told the graduates.

"What you have accomplished is a real achievement. I want to say 'thank you' from the people of Big Spring, who are proud of this base and what it stands for. And we of Big Spring hope that you have enjoyed your stay here."

"I want to talk about the strength of our country and where our real strength lies. It is in 'A' bombs, missiles, armies, navies, air forces? Where is it? Is it in military force?" he asked.

"Of course, we're proud of our military strength, but, my thesis is that our real strength lies in the character of the American people. Our country was founded on the character of the people. The pilgrims had strength of character; they sought out freedom and were willing to sacrifice their lives in order to obtain it."

Citing the honesty of the determined pioneers who settled West Texas, the speaker reiterated: "Our whole nation is built on character, not upon military strength. It is the thing that will make us strong and we must have it in order to survive."

"I'm not a student of history," Dr. Lloyd said, "but once people lose character, they lose their country. A nation is strong with character and without it, a nation is weak."

"You don't have to destroy a nation with force; you can destroy it by weakening the moral fiber of the people; once they have lost this, they are lost forever."

Emphasizing the necessity of a right relationship to God, whatever one's religion, the speaker summed up: "This right relationship can set persons on the right road of life. We depend upon you to have character, and thus give us the strength we need, and we must make life worthwhile so you will be willing to give your life to defend us."

"All of us must have such a character that we will always be on a straight course that leads to strength for our country. God bless you all."

Mrs. Dibilin, married for two years to Dibilin and mother of a 5-month-old boy, said she came to New York five years ago after running away from home in Fort Lauderdale, Fla.

First reports by police had indicated that the children participated in sex orgies, but the charge against Mrs. Dibilin said only that they were present at such parties. The names of the 10 children were not released. They were charged with being juvenile delinquents and were sent to youth homes.

Mrs. Moore was born April 22, 1870, in Erath County. She is survived by two sons, George Moore of Fort Worth and John Moore of Gail; one sister, Mrs. Polly Babers of Torrance, Calif.; one brother, Jake Faulkner of Dublin; 18 grandchildren and 14 great-grandchildren.

Death Penalty Foes Testify

AUSTIN (AP)—"I have never been able to imagine myself dead. I don't think anyone can. I question that it will frighten anyone unless he faces the electric chair as an immediate prospect."

Jerry Holleman Austin, president of the Texas AFL-CIO, presented this argument to a House committee in asking it recommend elimination of the death penalty.

Don Reid, Huntsville editor who has seen 157 persons die in the chair, said: "I believe the state can begin now by revamping its criminal code, making the punishment fit the crime and in that way eliminate capital punishment."

The bill by Rep. Ronald Bridges of Corpus Christi and 13 others went routinely to a subcommittee for further study. Also sent to the same subcommittee were similar measures, including one to substitute the use of a gas chamber in place of the electric chair.

Many committee members agreed with witnesses who said it was morally wrong to take life. Other lawmakers said they did not agree that the death penalty failed as a deterrent to crime. No one spoke against the bill.

Rep. Byron Tunnell of Tyler said "You can't make me believe that a 3-year sentence is more of a deterrent than the death penalty. I'll agree on moral principles that it's wrong."

Reid said he thought at least six or seven of those executed in Texas were not guilty.

Nation Buries Old Vet Today

GATE CITY, Va. (AP)—They lay John Salling to rest today in the earth of the southwest Virginia hill country he loved and called home for 112 years.

Funeral services for the old Confederate next-of-last Civil War veteran, will be held here and at the family cemetery near Salling's home at Slant, a dozen miles to the north.

Salling's death Monday of pneumonia left Walter Williams, 116, Houston, Tex., another of the boys in grey, the only surviving Civil War veteran.

Empire No. 1 Clayton & Johnson, a wildcat 13 miles north of Gail, has been plugged and abandoned at a depth of 8,945 feet. It is C NW NE, 14-31-6N, T&P Survey.

Texas Crude No. 1 Miller, eight miles west of Fluvanna, penetrated to 7,367 feet in lime and shale. The wildcat is C NE NE, 58-97, H&C Survey.

Humble No. 1 Long, C SE SE, 3-20-4N, T&P Survey, was at a depth of 3,454 feet and fishing today. It is six miles southeast of Gail.

A test of the Lower Strawn from 7,791-801 feet at the Midwest No. 2 Miller, in the 7-J field, produced only 20 feet of mud and 180 feet of salt water. The site is 2,367 from south and 660 from east lines, 476-97, H&C Survey.

Garzo Champlin No. 1 Shannon, a wildcat seven miles southwest of Justiceburg, has been plugged and abandoned at a depth of 2,800 feet. It was 330 from south and west lines, 91-5, H&G Survey.

Sierra No. 1-13 McCrary-Cannell is a new site in the OS Ranch (Glorieta) field 15 miles southeast of Post. The location is 330 from south and east lines, 59-5, GH&H Survey, and it will drill to 3,500 feet.

In the same field, the Blanco No. 9-A McCrary pumped 53.96 barrels of oil and 18 per cent water on final test. Gravity of the oil is 29 degrees. Total depth is 2,805 feet, top of the pay zone is 2,805 feet.

LAMESA — Mrs. Paulette Ann Moore, 88, a resident of Borden County for about 40 years, died this morning in a Lamesa hospital.

Funeral will be held at 3 p.m. Friday in the Gail Baptist Church. Higginbotham Funeral Home is in charge of arrangements and interment will be in Gail Cemetery.

Mrs. Moore was born April 22, 1870, in Erath County. She is survived by two sons, George Moore of Fort Worth and John Moore of Gail; one sister, Mrs. Polly Babers of Torrance, Calif.; one brother, Jake Faulkner of Dublin; 18 grandchildren and 14 great-grandchildren.

KRUM, Tex. (AP)—A slender blond man held up the Krum bank shortly before noon today and escaped in a pickup truck. The amount of his loot was not immediately determined.

State Highway patrolmen and sheriff's officers from Denton and surrounding areas immediately threw up road blocks in the North Texas area.

Coahoma Lions Hear Big Spring Speakers Four Big Spring men were speakers at the Coahoma Lions Club meeting today.

They were Bill Quimby, Chamber of Commerce manager; Jimmy Taylor, county farm agent; Joe Pickle, representative of local Lions; and Rob Rogers, American Business Club representative.

Taylor discussed next week's county-wide 4-H and FFA stock show, Pickle the 1959 Soap Box Derby, and Rogers the ABC Club Relays.

Theatre To Elect The Big Spring Civic Theatre will hold its annual election of officers and board members tonight at 8 p.m. in the Chamber of Commerce offices, Permian Building.

EASTER PARADE?

Business Good, But Merchants Puzzled

Business is good in Big Spring stores but the merchants, as a general rule, are puzzled over the true evaluation of what might be called the Easter parade.

Most of the stores reported no rush of Easter buying. A few said they had been selling dresses, suits, hats and shoes obviously for the holiday but the bulk of the establishments said that the shoppers who came to their places were "just buying."

Easter this year is just about as early in the spring as it possibly could be. Some merchants said that perhaps this element had its impact on trade. Others were of the opinion that in the week ahead of the day itself there might be a step-up in business traceable to the Easter custom.

Swartz, for example, said that its junior shop had been selling a considerable quantity of dresses,

hats and accessories to the younger women of the city which doubtless were being bought to adorn the Easter parade. In its other store, while business moved along at an even tenor (ahead of the same month a year ago), the buying was on standardized patterns.

Hempill-Wells observed that insofar as it could tell there was no Easter buying. "We're enjoying good trade but the purchases are not in the category which we generally associate with this season's habits," the store reported.

Melling's, which just opened its newly remodeled store, said that there was some demand for new suits and hats, but across the board it could not say that there was a boom of Easter buying.

"We've had a lot of traffic since we reopened," the store management reported, "and business is good. However, it doesn't have the characteristic usually associated with Easter buying."

The Men's Store reported that there has been a good demand for men's suits. The management is inclined to regard many of these purchases to be inspired by the nearness of the holiday.

Penney's and Anthony's on the other hand, have enjoyed a fair rush of holiday buying. Traffic in the millinery department, in the ladies' ready-to-wear and the shoe sections on Wednesday was good in the stores.

Some merchants attribute the rather persistent cold weather of the last few weeks as a possible deterrent of Easter buying enthusiasm.

There is a definite indication, most of the stores dealing in ladies' ready to wear feel, that what Easter purchases are being made in the lower price range rather than in the more expensive lines.

Borden Venture Produces Oil At Rate Of Barrel Per Minute

The Joseph O'Neill & F. W. Holbrook No. 1 Reeder produced 36 barrels of oil in 30 minutes during a drillstem test in the Pennsylvania early today. Test tool was being pulled on last report.

The venture is in the one-half 7-J field of Borden County about 18 miles northeast of Gail.

The O'Neill & Holbrook No. 1 Reeder tested from 7,990-8,012 feet, and gas surfaced in 10 minutes, oil in 39. It flowed 30 minutes and produced 39 barrels of oil. The project is 890 from north and 660 from west lines, 477-97, H&C Survey.

Empire No. 1 Clayton & Johnson, a wildcat 13 miles north of Gail, has been plugged and abandoned at a depth of 8,945 feet. It is C NW NE, 14-31-6N, T&P Survey.

Texas Crude No. 1 Miller, eight miles west of Fluvanna, penetrated to 7,367 feet in lime and shale. The wildcat is C NE NE, 58-97, H&C Survey.

Humble No. 1 Long, C SE SE, 3-20-4N, T&P Survey, was at a depth of 3,454 feet and fishing today. It is six miles southeast of Gail.

A test of the Lower Strawn from 7,791-801 feet at the Midwest No. 2 Miller, in the 7-J field, produced only 20 feet of mud and 180 feet of salt water. The site is 2,367 from south and 660 from east lines, 476-97, H&C Survey.

Garzo Champlin No. 1 Shannon, a wildcat seven miles southwest of Justiceburg, has been plugged and abandoned at a depth of 2,800 feet. It was 330 from south and west lines, 91-5, H&G Survey.

Sierra No. 1-13 McCrary-Cannell is a new site in the OS Ranch (Glorieta) field 15 miles southeast of Post. The location is 330 from south and east lines, 59-5, GH&H Survey, and it will drill to 3,500 feet.

In the same field, the Blanco No. 9-A McCrary pumped 53.96 barrels of oil and 18 per cent water on final test. Gravity of the oil is 29 degrees. Total depth is 2,805 feet, top of the pay zone is 2,805 feet.

LAMESA — Mrs. Paulette Ann Moore, 88, a resident of Borden County for about 40 years, died this morning in a Lamesa hospital.

Funeral will be held at 3 p.m. Friday in the Gail Baptist Church. Higginbotham Funeral Home is in charge of arrangements and interment will be in Gail Cemetery.

Mrs. Moore was born April 22, 1870, in Erath County. She is survived by two sons, George Moore of Fort Worth and John Moore of Gail; one sister, Mrs. Polly Babers of Torrance, Calif.; one brother, Jake Faulkner of Dublin; 18 grandchildren and 14 great-grandchildren.

KRUM, Tex. (AP)—A slender blond man held up the Krum bank shortly before noon today and escaped in a pickup truck. The amount of his loot was not immediately determined.

State Highway patrolmen and sheriff's officers from Denton and surrounding areas immediately threw up road blocks in the North Texas area.

Coahoma Lions Hear Big Spring Speakers Four Big Spring men were speakers at the Coahoma Lions Club meeting today.

They were Bill Quimby, Chamber of Commerce manager; Jimmy Taylor, county farm agent; Joe Pickle, representative of local Lions; and Rob Rogers, American Business Club representative.

Tribute To Sam Rayburn Was Unprecedented In U.S. Capital

By **TEX EASLEY**
Associated Press Staff Writer
WASHINGTON (AP)—The gathering in the historic old Supreme Court chamber in the Capitol March 12 was unprecedented—45 senators and a vice president paid tribute to a Texan, the only president member of Congress with whom all had served in the House. The guest of honor, of course was Speaker Sam Rayburn, the 77-year-old dean of the House who on March 4 began his 47th straight year as a member of Congress. Only one of those saluting him has served longer in Congress. Sen. Carl Hayden (D) came to the House in 1912 when Arizona

entered the Union and has been a senator from that state since 1927. All in the group except Hayden and Sens. Dennis Chavez of New Mexico and Lister Hill of Alabama were members of the House under the presiding gavel of Rayburn as speaker—a position he has held since 1940 except for four years of Republican control. The unusual affair, strictly bipartisan, was conceived and staged by Lyndon B. Johnson of Texas, whose father served in the Texas Legislature in 1911 when Rayburn was speaker of the Texas House. No hastily dreamed up affair, Johnson and his aides were busy

two months getting the signatures of the 45 senators and Vice President Nixon engraved on a silver tray for Mr. Sam, as many of his younger colleagues call him. Also displayed at the reception was an excerpt from Rayburn's first speech in the House, delivered May 6, 1913, and written in his own handwriting. In this speech, made nearly 46 years ago when he was 31, Rayburn said: "It is now my sole purpose here to help enact such wise and just laws that our common country will by virtue of these laws be a happier and a more prosperous country. "I have always dreamed of a

country which I believe this should and will be. And that is one in which the citizenship is an educated and patriotic people, not swayed by passion and prejudice, and a country that knows no East, no West, no North, no South, but is inhabited by a people, liberty loving, patriotic, happy and prosperous, with its lawmakers having no other purpose than to write such just laws as shall in the years to come be of service to human kind yet unborn." Twenty-eight Democratic senators at one time or another served in the House with Rayburn: Anderson (NM), Bartlett (Alaska), Robert Byrd (W Va), Carroll (Colo.), Chavez (NM), Dodd (Conn.), Engle (Calif.), Evers (Miss.), Fulbright (Ark.), Gore (Tenn.), Hayden (Ariz.), Henning (Mo.), Hill (Ala.), Jackson (Tenn.), Johnson (Tex.), Kefauver (Tenn.), Kennedy (Mass.), Magnuson (Wash.), Mansfield (Mont.), McCarthy (Minn.), McClellan (Ark.),

Monroney (Okla.), Randolph (WVa), Robertson (Va.), Smathers (Fla.), Sparkman (Ala.), Williams (NJ), Young (Ohio). And 17 Republican senators served in the House with Rayburn: Beall (Md.), Carlson (Kan.), Case (NJ), Case (SD), Cotton (NH), Curtis (Neb.), Dirksen (Ill.), Dworkshak (Idaho), Hruska (Neb.), Javits (NY), Keating (NY), Martin (Iowa), Morton (Ky), Mundt (SD), Prouty (Vt.), Scott (Pa.), Smith (Maine).

On March 4 several members of the House took the floor to point to Rayburn's long service. Among them was Rep. Joe Evers (D-Tenn) who said: "So far as is known, this record is also unprecedented in the history of the entire world. William Gladstone served in the Parliament of Great Britain for 60 years and Winston Churchill is serving his 54th year. But both of these great English statesmen were elected to Parliament for only a limited period and later appointed to the House of Lords in perpetuity."

Micromodule Display Shown
NEW YORK (AP)—The Army Signal Corps displayed publicly for the first time today a revolutionary new micromodule electronics concept, expected to play a key role in the space age of missiles. The micromodule program, now nearing its first anniversary, already has produced radios small as sugar lumps. It promises a 10-fold cut and more in the size and weight of military devices, such as rocket and satellite systems. Working models were unveiled today. Joint sponsors of the demonstration were the Signal Corps and Radio Corp. of America, the prime contractor, on behalf of 60 other subcontractors in the program. This system compresses transistors and other basic electronic components into tiny circuit-building blocks of uniform size and shape. Each of these building blocks is about three-tenths of an inch square. A cubic inch will hold 27 blocks. Stacked up, these blocks can function as complete circuits. They are rugged and reliable. Eventually micromodules will find their way into consumer products. Among other things, they will make possible a television set, hanging like a picture on the wall, with all its components in the rim of the picture frame, the sponsors said.

Theory Of Home Court Doesn't Faze Newell

By DON WEISS
Associated Press Sports Writer
LOUISVILLE, Ky. (AP)—Take a hot team like Louisville, blend in a heaping portion of home court advantage and you have the probable favorite in the NCAA basketball championships at Freedom Hall here Friday and Saturday.

of California's Pacific Coast Conference champions—for one—isn't buying the Louisville advantage. "In a tournament like this," Newell said today, "a home team doesn't have nearly the advantage it has for a regular season game. For one thing, the men officiating the games all are from different sections of the country. The rules sometimes are interpreted

differently and whatever advantage a team might have would tend to be minimized." "For another," Newell added, "with a tournament like this, the folks are here to see the championship decided—not to root solely for the home team." Newell's Golden Bears, who swept past Utah and St. Mary's in the Far West NCAA regional

last weekend while pushing their winning streak to 14, face Cincinnati and the great Oscar Robertson in the second game of Friday's semifinal program. Louisville, a surprise survivor after successive upsets of defending champ Kentucky and Big Ten king Michigan State in the Mid-East regional, meets West Virginia's Southern Conference champions in the opener at 8:30 p.m.

AP's Little All-America

These are the members of the 1959 Little All-America college basketball team as selected by The Associated Press based on recommendations of sportswriters and radio-television broadcasters. Left to right are: Paul Wilcox, Davis-Elkins; Charles Sharp, Southwest Texas; Hugh Ahlring, Evansville College; Chuck Curtis, Pacific Lutheran and Dick Barnett, Tennessee A&I State. (AP Wirephoto).

SW TEXAS CAGER IS ON LI'L AA QUINT

By TED MEIER
NEW YORK (AP)—Dick Barnett, of Tennessee A&I State, and Hugh Ahlring, of Evansville, who led their teams to the NAAIA and Small College NCAA championships were named on the 1959 Little All-America college basketball team today by the Associated Press. Picked on the first team, along with the two most valuable players in their respective tournaments, were Paul Wilcox of Davis-Elkins, W. Va., Chuck Curtis of Pacific Lutheran and Charles Sharp of Southwest Texas. Barnett, making the Little All-America for the second straight year, is a senior. So are Ahlring and Curtis. Wilcox and Sharp are juniors. The team was picked on the basis of recommendations from sportswriters and radio-TV broadcasters from every section of the country.

Jayhawks To Run At San Antonio

Coach Red Lewis and 15 members of the Howard County Junior College track and field team leave Friday for San Antonio, where the following day they compete in the second annual San Antonio Relays. The meet is for junior college teams only and the Jayhawks are firm favorites. The Big Spring team was edged out by Cisco JC in the battle for team honors a year ago. The Wranglers won by a mere 4-10ths of a point for the local collegians. Preliminaries will be held in the morning while the finals are scheduled to get under way at 1 p.m. Those scheduled to make the trip from here include Don Anderson, Millard Bennett, B. Baize, Ray Clay, Charley Dabbs, Darrell Froman, Harold Garrett, Jerry Hale, Royce Hall, Sammy Kruse, Bert Mansfield, Noel Orr, R. D. Ross, Delbert Shirey and Fred Thompson. Shirey and Thompson have been the Hawk leading point-getters in meets to date. Shirey pole vaults and high jumps while Thompson runs anything from 100 yards up to and including the quarter. In addition, he's a stellar broad jumper. Ross, the team's mile runner, didn't pace himself in last week's Southwestern Recreation Meet at Fort Worth. His coach said he ran too fast on the first two laps and didn't have the reserve left on the final two laps, although he finished the race. Lewis expects him to do much better this week. Darrell Froman may pick up a few points for HCJC, too, in the 800 and mile. Other collegians due to be represented at San Antonio, in addition to the host school, include Del Mar, Victoria, Schreiner, Wharton and Cisco.

No HC Cagers On First Team

Howard County Junior College failed to place a boy on the Region 5 all-star basketball team. Douglass Funk, San Angelo sophomore, rated the first quintet, along with Sammy Fountain, Arlington State; Jimmy Bevers, Amarillo College; Warren Tipton, Frank Phillips; and Roger McQuary, Tarleton State.

Anderson 'Goes For Broke' In Bout With J. Giambra

ODESSA (SC)—It's "Go For Broke" in the case of Andy "Candy" Anderson, the dusky midweight out of Indianapolis who takes on top ranked Joey Giambra in the spotlighted 10 rounder of Promoter Bob Callahan's boxing show at the Ector County Coliseum tonight. Anderson, who has met the best in the world, says this is it for him. It's his big chance—a win over Giambra could push him right into the middle of the 160 pound doings. His manager, the veteran Tom Leeper, predicts plenty of trouble for Giambra and a few surprises to boot. "Anderson can beat Giambra," said Leeper. The 10 rounder between Manuel Gonzales, the hot as a fire cracker welterweight from Odessa, and the highly touted Leon Rosano of Indianapolis is sure to be a great thriller from start to finish. Gonzales is raring to go, and with past wins over Gilberto Holguin and Davey Dupas he would like nothing better than to add the name of Leon Rosano to his list. A third 10 round battle finds rugged Ruben Munoz of Odessa tussling mitted bombs at the veteran and unpredictable Rufus Holliday another Indianapolis warrior. Holliday has fought Willie Pep, Baby Face Jones and many other topnotchers—so, Munoz is in for trouble. An eight round bout between middleweight Rip White of Odessa and Fletcher Lee of Parkin, Arkansas could be a show stealer. Lee is a one time spar mate of Archie Moore, and a former Mid South Golden Glove king. A four round opener matches Jack Ramsey of Odessa and Jack Carroll another Indianapolis bomber in a lightweight encounter.

100 Swimmers Due

DALLAS (AP)—One hundred swimmers are expected here for the regional woman's AAU championships Friday and Saturday with Houston's Dad's Club favored to defend its title.

Continues Surge

SAN ANTONIO (AP)—Trinity continued its surge over Southwest Conference schools in tennis yesterday, beating Texas A&M 6-0.

London Gets Shot At Title

By MURRAY ROSE
NEW YORK (AP)—World Heavyweight Champion Floyd Patterson today was made a prohibitive 1-6 favorite to whip Britain's burly Brian London in a "warm-up" title fight at Las Vegas, Tuesday, April 21. Broadway bookmakers set the odds shortly after Patterson's manager, Gus d'Amato and fledgling promoter Cecil Rhodes Jr., a Cranford, N.J., steel firm executive, announced the television (NBC) fight was set for the New Convention Hall in the Nevada resort city. D'Amato stressed that Patterson's June fight in New York (probably June 23 in Yankee Stadium) with Ingemar Johansson, Sweden's undefeated European champion, still was scheduled. "Patterson, if victorious — and I'm confident he will be — not only will fight London and Johansson, but probably will have other fights this year," said the manager.

Pinkie's Expands Lead In League

Using BSTT as a footstool, Pinkie stepped to a big 14½ game lead in the Classic bowling league this week. The circuit leaders mashed BSTT, now in third place, 3-1. Cosden maintained a second-place rating with a 4.0 stabber of Alexander. Neel's overran Carlos, 3-1, and Anthony topped 7-Up, 3-1. Pinkie's corralled an 847 high team game, while Cosden shacked a 2346 high series. Dot Hood of Knopp had a 203 high individual game, followed by Shirley Starne's 199 and top series of 527. Sugar Brown, Schaffer, collected a 522 series total. Splits were converted by Marie Irwin of Carlos, 5-10; Shirley Starne, Pinkie's, 4-10; Vivian McIntosh, 2-7, and Jean Williams, 2-7. Knopp's 5-7; Sugar Brown, Schaffer, 6-7; Beverly Tingley, Henderson, 3-10; P. Watson, 7-10; 2-7; Betty Keune, 2-7, and Betty Morris, 3-7-10, also of 7-Up.

Harry Heise Has 225 In Circuit

Lacy split with Cauble Garage, 2-2, but its Harry Heise walked off with top individual game of the evening, 225, in Monday Coupe's Classic bowling league this week.

Bristow Is Taken To Dallas Doctor

Gordon Bristow, Big Spring High School track athlete who was injured early this season in a hurdling accident, was to be taken to Dallas today to undergo treatment for a pulled Achilles tendon.

Young Bristow, son of Mr. and Mrs. J. Gordon (Obie) Bristow, has been inactive all season as a result of the mishap. He is a junior.

RAIN HAMPERS MEET GOLFERS

ST. PETERSBURG, Fla. (AP)—No clear favorite has emerged as 150 golfers begin play today in the first round of the \$15,000 St. Petersburg Open championship. They tee off on a course made soggy by four straight days of heavy rain. Most of the touring pros didn't even get in their accustomed practice rounds because of the weather. Some observers pick Arnold Palmer.

8-A Big Spring (Texas) Herald, Thurs., March 19, 1959

LOOKING 'EM OVER

No junior college track and field team in the state will be able to keep pace with the HCJC squad this spring. However, the Jayhawks will be handicapped in the Nationals by the fact that three members of the team — Charles Dabbs, Sammy Kruse and Darrell Froman — will not be able to compete. All are potential point winners.

Incidentally, HCJC will field a golf team only if candidates play a qualifying round and come in at or under a specified score. Coach Harold Davis will conduct the tryouts.

Bob Wortman, a champion of the Big Spring Invitational Golf tournament several years ago, recently quit a job in Odessa to become manager of a bowling center in Dallas.

Although he still has two years of football eligibility remaining at New Mexico State University, Big Spring's Charles Johnson has already been approached by three pro teams about continuing play. Johnson probably won't try in pro ball, since he is studying engineering and plans to make that his career.

However, a good offer might change his mind. Charley raised a lot of eyebrows with his fine play for the Aggies last fall and Coach Warren Woodson boosted his stock by insisting Johnson was better than any quarterback he coached during his tenure at Arizona University.

Rip White, who is committed to fight on the Joey Giambra-Candy Anderson fight program at Odessa tonight, is having trouble with John Law.

Wylie Brown, the tall senior from Big Spring, wound up scoring a total of 196 points for the ACC basketball team after an extremely slow start the past season. Brown grabbed off 156 rebounds. Only two boys on the Wildcat squad — Robert McLeod and Gene Denman — did better in that department.

Wylie got in only 22 of the Cats' 27 games and wound up with an 8.9 point scoring average.

Pepper Martin, the one-time Big Spring baseball impresario, is inviting all local keggers to take part in the ABC-sanctioned Handicap Singles Tournament at the Mickey Mantle Bowling Center in Dallas.

The meet starts March 21 and continues through May 17. Entry fee totals \$8.20 and that includes the price of bowling. First prize is a robust \$1,000 and there'll be six cash awards in all, ranging downward to \$50.

Martin, of course, is manager of Mantle's lanes. The center is located at 200 Exchange Park in Dallas.

Marion Pfleger, an entry in the Big Spring Invitational golf tournament several years ago, now serves as professional at the Brookhaven course in Dallas.

Pfleger has been so busy this spring he's had to take on an extra man.

Parts of this year's Master Golf Tournament at Augusta, Ga., (April 2-5) will be seen over local television.

Jack Smyth, the broad jumper who accompanies the University of Houston track team here next week, was named Canada's Outstanding Amateur Athlete of 1958. Smyth has cleared 24 feet 4½ inches in his career.

Moore Is New Feather King

By PATRICK MCNULTY
LOS ANGELES (AP)—New world featherweight champion Davey Moore said today his next encounter will not be the promised rematch with ex-champ Hogan (Kid) Bassey, but with a set of inflamed tonsils. "Those doggone tonsils almost cost me the chance at the title," said Moore who Wednesday night lifted the crown from the bloody but unbowed head of the well-muscled ex-champ from British Nigeria. "Davey had a sore throat and a 101-degree temperature last Sunday," said his manager, Willie Ketchum. "I almost called off the fight." But the sharpshooting Moore showed no signs of illness as he slashed Bassey's face into a grotesque, bloody mask before 10,129 wildly shouting fans in Olympic Auditorium. After the 13th round, Bassey's manager, George Biddies, shouted to referee Tommy Hart: "Stop the fight. My fighter has had it." "I couldn't see. I couldn't see," Bassey yelled above the din. "The blood was running in my eyes." Moore hopped gleefully across the ring, threw his arm about Bassey and shouted: "Well, it's like this, Hoag—you had that title and I wanted it, man." "Yes, Yes," said Bassey in his clipped British West African accent. "I could not continue. I could not do an impossibility." It was the third time Bassey had been stopped on cut eyes.

Solly Hemus Feels Cards Can Improve

By JOE REICHLER
Associated Press Sports Writer
ST. PETERSBURG, Fla. (AP)—Solly Hemus doesn't underestimate the task confronting him in his first season as a big league manager but he firmly believes he can lift the St. Louis Cardinals out of the second division. The major's youngest and newest pilot, is an optimist at heart. He thinks his club can go all the way if it can come up with a hard-hitting right fielder, and if two or three of the young pitchers carry their impressive exhibition work into the regular season.

"It's a pretty good ball club," he said, "better than most people realize." The scrappy little pilot singled out several youngsters who he believes will make a contender out of the Redbirds. "Barring a complete reversal of form," he said, "three of our young pitchers — Ernie Broglio, Gary Blaylock and Bob Ginson — have earned a place on the staff. Broglio will be a starter along with Sam Jones, Larry Jackson and Vinegar Bend Mizell.

8-B All-Stars Are Selected

LAMESA (SC)—First and second All-District 8-B boys' and girls' basketball teams were named during an executive meeting of conference officials held in the county superintendent's office here Tuesday evening. The championship girls team had two players named to the boys' first team while the girls' list, Ackerly, had three athletes honored.

Among the boys, Jerry Staggs of Gail, Royale Lewis of Ackerly and Joe Deatherage of Flower Grove were unanimous picks. Four of the girls—Dorothy Williams and Janice Bearden, both of Ackerly; and Linda Myers and Jo Barton, both of Klondike, were unanimous selections.

Boys: FIRST TEAM — Jerry Staggs, Gail; Royale Lewis, Ackerly; Joe Deatherage, Flower Grove; W. Johnstone, Loop; and Larry Doyle, Gail.

SECOND TEAM — D. Kelly, Dawson; N. Beam, Klondike; Stewart, Gail; D. Oates, Loop; Benny Kunkel, Ackerly.

HONORABLE MENTION — Airhart, Klondike; Webb, Flower Grove; Walton, Gail; Grigg, Ackerly; Menix, Ackerly; Kilgore, Flower Grove; and J. Kelly, Dawson.

Girls: FIRST TEAM — Dorothy Williams, Ackerly; Janice Bearden, Ackerly; and Linda Myers, Klondike, all forwards; and Jo Barton, Klondike; Joyce Franks, Ackerly; Sidney Reeder, Gail; and Margie Mitchell, Dawson, all guards.

SECOND TEAM — P. Butcher, Flower Grove; Hunt, Loop; and Burrus, Gail, all forwards; Adams, Ackerly; Shirley Williams, Ackerly; and Harp, Dawson, all guards.

HONORABLE MENTION — King, Loop; Howard, Dawson; and Rawlings, Gail, all forwards; and Hernandez, Gail; and Harrell, Gail, both guards.

In other action last night, the executive committee voted to hold both the girls' and boys' district volleyball tournament in Ackerly April 1, starting at 10 a.m.

"Chuck Essigian, whom we acquired from Philadelphia, is in line for a shot at the regular right field job although Bobby Gene Smith, Curt Flood, Gene Liver and Ellis Burton are still in the running."

The biggest surprise in camp, however, is Julio Gotay, a 19-year-old Puerto Rican, who had had only two years of professional experience and last year played with Winnipeg of the Class C Northern League. The unheralded youngster has made such a fine impression at shortstop that Hemus has tabbed him as the one to beat for the regular job.

"So far he's made all the plays," said Solly. "He has good power, a strong arm and he can run."

With the exception of right field and shortstop, Hemus has his opening lineup all set. He listed it as follows: Don Blasingame, 2b; Gino Cimoli, cf; Stan Musial, lf; Ken Boyer, 3b; Joe Cunningham, 1b; Gene Green, c; and possible Jones, p.

Scars Of Valley Floods Are Still Evident

PRESIDIO, Tex. (AP)—Scars of last September's floods on the middle Rio Grande and its tributaries still are evident. But farmers, along with the governments on each side of the river, are erasing them rapidly. It wasn't so much the destruction of crops that hurt—although some estimates of loss ranged as high as five million dollars. It was erosion and silting that caused the major damage. The governments of both countries are rendering practical assistance.

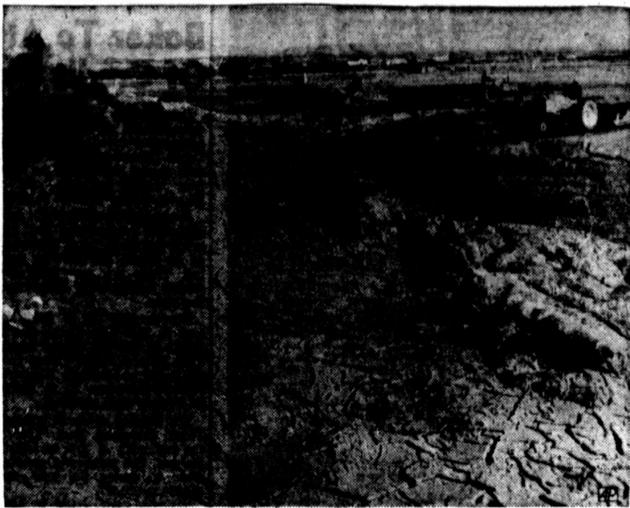

Mexico is providing aid and money, particularly on the Rio Conchos, which empties into the Rio Grande. Major diversion canals are being rebuilt from the mouth of the Peguis Canyon to El Mulato, opposite Redford, Tex. For the first time in several years, Boquillas Dam and other storage reservoirs up the Rio Conchos are practically full and have storage water for two years. Mexican construction projects will have a profound effect on the Texas side also—to the economy as well as flood control.

First in importance is the announcement Jan. 8 that the president of Mexico appropriated 15 million pesos for a dam across Peguis Canyon 20 miles west of Ojinaga and Presidio. When completed, it will impound 192,000 acre feet of water and make it possible to irrigate 25,000 acres in Chihuahua. It will regulate the flow of the Rio Conchos in both wet and dry years, and should curb major floods on the U. S. side as well.

The Presidio side of the Rio Grande valley is recovering. Land in Texas that has drained and did not sustain erosion damage has been plowed. A normal cotton crop for 1959 is predicted. Some larger farm operators, like the Texas Cotton Industries, are working overtime repairing levees along the Rio Grande and leveling the land where the river tried to cut new channels.

One of the most interesting flood developments is silling. Where farms received just a few inches, it is believed this will serve in lieu of expensive fertilizer for several seasons.

Some fields at lower levels received enough clay silt to form an impermeable layer on top of the rich valley soil, creating drainage and salting problems for the future.

Land Being Recovered

Shown here is work being done to repair erosion and levee damage on the Texas Cotton Industries Farm near Presidio. Field back of tractors has been plowed and will be planted to cotton this season. Rio Grande is a few feet to left of bushes. Santa Fe Depot and east Presidio are in the background.

80 Per Cent Of Landowners Participate In SCS Program

Four out of every five landowners in the Martin-Howard Soil Conservation District are participating in some phase of district services.

With the aid of the Great Plains Conservation Program, the district was able to develop 30 contracts covering 94,113 acres and obligating \$404,320 in cost-sharing practices. In addition, many more practices were developed on which the cost was not shared.

These are some of the highlights of the annual report by the Martin-Howard district supervisors covering activities in 1958. Members of the board are Jack Buchanan, chairman, Ollie Robertson, vice chairman; Bernard Houston, secretary-treasurer; Larry Shaw and J. D. Crawford.

There are approximately 1,987 landowners who have 1,753,285 acres in the district. Of these, 1,581 are district cooperators on 1,612,133 acres. In hopes of interesting the remaining 376 who are not yet cooperators, a district newsletter is mailed to all landowners each quarter.

Last year 465 farms applied one or more practices and 1,146 co-operators were serviced. The district made farm planning soil surveys on 62,974 acres and a physical condition survey on grassland on another 13,400 acres.

Studies revealed that range conditions in the area are still extremely serious but that with the sale of livestock, forced by prolonged drought, chances of good range conservation are enhanced. Approximately one-fifth of the range land will be rested this year.

Here are some of the statistics of the past year (with acreage now on the land by SCD co-operators shown in parentheses):

Conservation crop rotation 9,842 acres (10,200), contour farming 4,774 (933,771), cover cropping 18,637 (31,191), crop residue utilization 34,732 (691,215), rotating hay and pasture 20,131 (34,194), strip cropping 1,236 (5,814), stubble mulching 801 (1,708), brush control 13,649 (32,769), deferred grazing 176,028 (419,717), pasture planting 2,767 (4,196), proper land use 335,329 (678,580), range reseeding 9,164 (14,058) soil improving crops 11,680 (35,840).

There were numerous other practices applied with help of the district, including windbreak plantings, fish pond improvement, diversion construction, improved

water application and irrigation services.

Pitting all these acreages against what the district estimates needs to be done leaves a wide gap in most instances. For instance, supervisors estimated that only about 1-34th of the acreage needed in conservation crop rotation is actually being so planted. More than twice as much land as now contour farmed needs to be so treated. There should be at least three times as much cover crop and six times as much cover residue utilization, 35 times as much stubble mulching, 25 times as much brush control, 14 times as much pitting and pasture seeding, and twice as much land properly utilized.

Thus, for all its encouraging results of the past and previous years since 1941 when the first practices were developed, the district still has a wide-open field for conservation.

Cuba Firing Squads Raise Execution Toll

HAVANA (AP)—Firing squads today shot eight more Cubans convicted as war criminals by revolutionary tribunals. This brought to 434 the unofficial total of executions since the revolutionary regime came to power Jan. 1.

Four former policemen and a former military cadet were executed at Havana's La Cabana Fortress, and a former soldier and two others at Santiago.

Bachelor Guides Legislature In School Money Decisions

AUSTIN (AP)—The man helping guide the Legislature on how much money should be spent in 1960-61 to educate almost two million school children and about 80,000 collegians is a bachelor.

He is Rep. B. H. (for Brownrigg Heffron) Dewey Jr., of Bryan, 41, serving his fourth term on the powerful 21-member House Appropriations Committee as its most experienced member.

Dewey is chairman of the subcommittee which will recommend how much should be spent for education. He says it will be plenty but not as much as the educators want.

"Money, money, it's the big problem," said Dewey, who has served in the House since 1953 and who introduced his first tax bill last week. It would put the 10 per cent 7 per cent tax on natural gas. It would bring in an estimated 18 million dollars a year.

"Our recommendation on spending for education will be higher than the present appropriation bill

or the Legislative Budget Board's proposals," Dewey said. "It won't include a pay raise for the public school teacher, but it probably will have more money for college teachers."

Dewey first moved into political circles as secretary-treasurer of the County Democratic Executive Committee. He was twice defeated in efforts to be elected to the City Council but won over four opponents in his first race for the Legislature.

"Call me B.H., nobody knows about Heffron," he says. Some call him "Brownrigg," or "Browne."

Rep. Tony Fenoglio of Nocona recently tagged him "The Little Bull of the Brazos" after Dewey's verbal attack on John G. Tower, Wichita Falls Republican who criticized the all-Democratic Legislature for doing nothing.

Short (5-5) and weighing 155, Dewey squints through his glasses while talking. He is always ready to laugh, mostly when the criti-

cism is about him. He worries about what his home folk think but keeps them informed with a weekly newsletter. He works harder than the average legislator and is on the job every day at 7:30 a.m.

Dewey said the coming appropriations bill of more than two billion dollars "is the biggest hot potato ever. More people are watching it now. You know the bill actually is written in the House-Senate conference committee but we've got to pass something so we can bargain in that committee."

Opposed to a sales or income tax, Dewey said he feels the money needed can still be raised.

Highway Post

AUSTIN (AP)—Watson C. Arnold of Waco will be assistant attorney general in the Highway Division April 1. Atty. Gen. Will Wilson said yesterday.

Khrushy Calls On West For Summit Ideas

By HAROLD K. MILKS
MOSCOW (AP)—Soviet Premier Nikita Khrushchev challenged the West today to come up with concrete ideas for a summit conference to blunt the threat of war over Berlin and Germany. The Soviet Union is ready, he asserted. Khrushchev said the Soviet Union is willing to meet with the West on May 11 to discuss problems of West Berlin and a German peace treaty.

He again advanced the Soviet idea that a conference include all the 28 nations that fought Hitler in World War II. This proposal has been rejected by the Western powers.

Khrushchev issued a statement evidently designed as his response to President Eisenhower's address last Monday.

He stuck to his previous contention that the broad meeting he proposed consider a German peace treaty but added significantly that if the West has "any reasonable proposals we are willing to consider them along with our own."

He said the meeting should aim to conclude a peace treaty with Germany and "settle pressing problems."

He called attention to President Eisenhower's proposal Monday night that a summit conference might be held this summer if a foreign ministers meeting could start negotiations on the Berlin crisis.

"We appeal to the governments of all nations which took part in the war against Hitlerite Germany to sit down at the negotiation table and settle pressing problems, to conclude a peace treaty with Germany," Khrushchev told a special news conference in the Kremlin.

Khrushchev's tone seemed mild. Khrushchev made a similar proposal last January in a note to 27 other countries which fought Nazi Germany. The West rejected this, and in turn asked the Soviet Union to take part in a foreign ministers conference in Geneva or Vienna with both East and West Germans in attendance to prevent the German issues from touching off a new war.

Khrushchev this time seemed to have seized upon President Eisenhower's Monday remark as a starting point for a new attempt to make a summit conference a reality.

"We would like the Western governments, having cast aside the mad threats of their generals and admirals against our country, to sit down at the conference table with us," Khrushchev said. "If they have sensible proposals to make, we are ready to examine them, together with our own proposals."

He then added that if the West was "seriously ready" for talks, the Soviet Union would not hold up matters.

Signs Hawaii Bill

President Eisenhower affixes his signature to the Hawaii statehood bill in his office at the White House. Under the legislation Hawaii will become the nation's 50th state.

ANNUAL MEETING

Lamesa Cotton Growers Re-Elect Jack Broyles

LAMESA — Jack Broyles was re-elected president of the board of directors of the Lamesa Cotton Growers Assn which held its annual meeting Tuesday night at Lamar Forrest Community Center.

Also named to offices on the

board were A. E. Hale, vice president; G. C. Cliff Jr., second vice president, and Jeff Shipp, secretary-treasurer. All had held these offices during the past year.

Re-elected to the board were Bill Anderson and Jim Dunn of Precinct 1; Hale and P. P. King, Precinct 2; Arthur Moss and Broyles, Precinct 3; and Carson Echols and Cecil O'Brien, Precinct 4.

Pledges Fraternity

DENTON—Donald F. Lovelady of Big Spring has been selected to pledge Sigma Phi Epsilon, national social fraternity, at North Texas State College, Lovelady, grandson of Mrs. Frank Wilson, 1503 11th Place is a sophomore government major. He is a 1957 graduate of Big Spring High School.

HCJC Board Meets

Trustees of Howard County Junior College will have their regular monthly meeting today at 5:15 p.m. Horace Garrett, president of the board, announced the meeting will be in the conference room of the Dora Roberts Student Union Building.

Baker To Attend Meeting Of Credit Union League

Duke Baker, Big Spring credit union leader, will attend the 25th anniversary meeting of the Texas Credit Union League and the seventh annual meeting of the Members Mutual Insurance Co. in Houston Friday through Saturday.

Approximately 2,000 credit union delegates representing the 1,112 credit unions in Texas are expected to attend the Houston meeting. There are now more than 600,000 credit union members in the state.

Representing the 47 credit unions in the West Texas district, Baker of the Big Spring District T&P Federal Credit Union, is on the board of Members Mutual Insurance Company. R. C. Morgan El Paso is state president.

The number of credit unions in Texas increased from 1,037 at the beginning of 1958 to 1,091 at the end. The number of members went up during the year from 545,380 to 624,397.

Total shares (savings on deposits) rose from \$192,837,902 to \$239,568,543.

Total loans outstanding to members showed an increase from \$178,101,604 to \$215,344,924 and total assets increased from \$231,468,214 to \$268,376,424. Assets total \$268 million.

Credit unions are nonprofit, government chartered financial self-help groups whose members save their money together then make loans to each other at a very low rate of interest.

Terry Collins, 14, Wins Spelling Bee

LAMESA — Terry Collins, 14-year-old Lamesa Junior High School student, outlasted 10 other contestants here Tuesday night to win the annual Dawson County Spelling Bee.

Terry, an eighth grade student, is the grandson of Mr. and Mrs. C. A. Plaag of Route B, and was runner-up in last year's county contest. Olivia Beaman of Klondike won last year and won the regional bee, going on to Washington, D. C., for the national competition.

Another student at the junior high school, Carol Ann Leavelle, daughter of Mr. and Mrs. J. B. Leavelle of Lamesa, finished second in the contest. Six students from three Lamesa schools and five from the Union district participated in the contest which went through 58 rounds of spelling.

Terry spelled "sauce" correctly after Carol Ann missed out on "satisfactory." Approximately 200 people watched the annual bee in the little auditorium at the high school.

The winner will enter regional competition in Lubbock April 4.

LEGAL NOTICE

NOTICE OF PUBLIC HEARING
Notice is hereby given that the City of Big Spring, Texas, will hold a public hearing at the City Hall, Big Spring, Texas, on Tuesday, March 24, 1959, for the purpose of adopting a budget for the fiscal year beginning March 1, 1959. C. R. McLENNY
City Secretary

LEGAL NOTICE

The Howard County Commissioners' Court will hold a public hearing at the County Auditor's Office, Big Spring, Texas, at 10:00 a.m. on April 1, 1959, in connection with the proposed budget for the fiscal year beginning March 1, 1959. A copy of the proposed budget is on file at the office of the County Auditor and may be examined by any interested citizen prior to said public hearing.

LEE PORTER
County Auditor

LEGAL NOTICE

THE STATE OF TEXAS
COUNTY OF HOWARD
CITY OF BIG SPRING
NOTICE TO ALL BANKING CORPORATIONS, ASSOCIATIONS, OR INDIVIDUAL BANKERS DOING BUSINESS IN CITY OF BIG SPRING
The City Commission of the City of Big Spring, Texas, on the 24th day of March 1959, received sealed proposals from banking corporations, associations, or individual bankers who desire to act as depositories for the funds of the City for the fiscal year beginning April 1, 1959, and ending March 31, 1960, and any such banking corporation, association, or individual banker desiring to bid shall deliver to the City Secretary on or before the 24th day of March 1959, a written proposal, stating the rate per cent upon deposits, and the name of the association or individual banker desiring to act as depository for the funds of the City for the fiscal year beginning April 1, 1959, and ending March 31, 1960, and any such proposal shall be sealed and shall be directed to said City Commission as required by law.

The City Commission reserves the right to reject any and all bids and readvertise for new proposals.

Said meeting will be held at the City Hall in said City at 5:15 p.m. on the date above stated.

WITNESS MY hand at Big Spring, Texas, this 19th day of March, A.D. 1959.

C. R. McLENNY, City Secretary
City of Big Spring, Texas

Youths Held For Motorcycle Theft

Two juveniles were picked up by city police Wednesday and turned over to the juvenile officer in connection with the theft of a motorcycle.

About 12:10 Wednesday, Barry Watson, 902 Ayford, told the police that a motorcycle had been stolen from him. Less than 20 minutes later, the police arrested two boys with the motorcycle.

This morning, Gregg Phillip, 1201 Pickens, reported theft of four hub caps from a 1957 Ford. The theft occurred about midnight Wednesday while the car was parked at Carlos Restaurant on the North Side.

Square Dancers Set For Area Festival

The Western Square Dance Assn. is all set for an area festival here Saturday evening.

Delegations are expected from a score of cities and towns for the square dancing, which will start at 8 p.m. in the Dora Roberts Student Union Building at Howard County Junior College.

Callers from more than a dozen communities will officiate, and music will be furnished by Jim King and his band. Spectators will be welcomed.

Mrs. Acuff Suffers Injuries In Fall

Mrs. Helen Acuff, secretary in the office of the Howard County School superintendent, is recuperating at her home from injuries she received in a fall Wednesday morning.

Mrs. Acuff slipped and fell at the Hurt residence where she was visiting. She suffered no broken bones but was so painfully bruised as to be unable to return to her work on Thursday.

Grice Due Physical Checkup At Dallas

Walter Grice, justice of the peace, will probably go to a specialist in Dallas this weekend for a checkup on his health, Mrs. Grice said Thursday.

Grice has been ill for three or four weeks and was in the Cowper Hospital for the past several days. He returned home Tuesday but is to re-enter the hospital Friday.

SPECIAL NOTICE

Due to the terrific response the past week, several people are now proud new home owners. This has naturally limited your selection on some plans. However, we still have several outstanding homes to choose from.

IF
 You don't want to own your own Home—
STOP READING NOW
IF
 You can pay rent you can own your own Home
IF

YOU ARE STILL READING — HERE'S THE SCOOP
 Veterans eligible for G.I. HOMES be sure you don't lose your eligibility. Buy now before interest rates are increased. We are the only builders who have a wide choice of Homes under the G.I. Special Assistance Program. There may never be another Special Assistance Program after this one expires May 1, 1959.

IF
YOU VETERANS who have earned this benefit and have waited for the Last Notice — Wait No Longer!!

IF
YOU have used your G.I. eligibility, you are eligible for FHA and you will find many beautiful Homes to select from.

Postal Pied Piper

The musical mailman of Sierra Madre, Calif., 30-year-old Allen Bond, skates happily along his route with neighborhood children tagging at his heels. Bond, a dance band leader at night, makes his work a game. He carries a small radio in his belt and heralds his arrival with lively music. He usually arrives on skates, spreading cheer as he rolls along. His young friends are, Wallie Decker, left, and Eddie Vanderpool.

Midland Breaks Building Record, Reporter Claims

MIDLAND (AP) — Midland broke all former building permit records in 1958 and wrote them at the rate of \$1,000,000 per week for the first ten weeks of 1959. This was revealed this week in a story by Cope Routh in the twelfth annual Oil and Business Review of the Midland Reporter-Telegram, a 212-page newspaper. Routh said a record \$30,000,000 worth of building permits were written in 1958. He gave this glowing picture of progress in Midland: Two major office buildings near completion, three others under construction and plans for another almost completed. These buildings will bring Midland's office space to 2,000,000 square feet. Deposits in the city's banks at the beginning of 1959 were a record \$113,000,000—an average of almost \$2,000 for each of the city's estimated 58,000 residents. Three square miles of area add-

ed to the city and 16 miles of new streets paved in 1958. A new water supply adequate for a population of 750,000, expanded and diversified its industry. New families are moving into the city in a steady stream. The city claims more telephones per capita than any other city in the state. Midland also expanded its services for the health and recreation of its citizens. The Midland Memorial Hospital, operated by the nonprofit Midland Memorial Foundation, moved into a new \$800,000 wing that gave the city a 150-bed hospital. The new \$400,000 Midland Public Library, built with private, city and county funds, and one of the finest of its kind, opened. The city will soon open a new 18-hole golf course and a park especially designed for kids with the appropriate name of Dennis the Menace Park.

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, THURSDAY, MARCH 19, 1959 SEC. B

Big Spring Group To Attend YMCA Area Council Meeting

Five representatives from the Big Spring YMCA will be participating in the 22nd annual meeting of the Southwest area council of Young Men's Christian Assns. at Lake Murray Lodge near Ardmore, Okla. this week.

The conference opens Thursday evening and terminates Saturday. The local delegation includes R. H. Weaver, president, Arnold Marshall, Southwest Area World Services committee member, Dan M. Krause, vice president, Clyde McMahon, past president, and Bob Hardy, general secretary.

Keynote speaker at the area council meeting will be Dr. Willis Tate, president of Southern Methodist University, and president of the Metropolitan Dallas YMCA. J. Clinton Hawkins, manager of the Wheeling Corrugating Co., St. Louis, Mo., and president of the National Council of YMCA's, will be the Friday evening banquet speaker.

YMCA World Service Fraternal Secretary Marvin Ludwig of Addis Ababa, Ethiopia; Philip S. Hopkins, national executive for

YMCA field services, and John B. Borek, national director of YMCA extension services, will also be featured on the three-day program.

Theme of the Southwest Area YMCA Council meeting is "Strategy For Growth." In addition there will be a special workshop for YMCA presidents, vice presidents, and branch chairmen. Wendell Lay, president of the Houston YMCA, will speak at the workshop in addition to Dr. Tate and Hawkins.

Coahoma Gets 5 Per Cent Credit On Fire Insurance

COAHOMA — Coahoma's volunteer fire department has received notification that the city's fire insurance rate has received a 5 per cent credit, due to the record of light fire losses during the past three years and the improvement of fire fighting equipment and organization.

Fire insurance rates are fixed by the State Insurance Commission. Good fire prevention records result in credits on a community's rate; poor records receive rate penalties.

To further improve its operations, the Coahoma department is planning to purchase an additional

fire truck. One vehicle is now in service.

The department also will send three men to the state firemen's convention to be held in College Station next July.

Eight members of the department visited with Colorado City firemen Monday evening to look over their equipment and discuss common problems. The group also investigated the possibility of joining the Southwestern Fire Fighters Assn.

In the Colorado City delegation were Quinton Reid, Eldon Krause, Ronnie Mitchell, Truman Wilkerson, Lee Myers, Bill Best and Elvon DeVaney.

New Highway Patrolman Now On Duty Here

Jack White, whose home has been in El Paso, has joined the highway patrol staff in Howard County.

White, just graduated from the Department of Public Safety Patrol Academy, arrived Wednesday and immediately began his duties. He has been assigned to work with Patrolman Kellas Davis.

White, married and with one child, expects to establish his home here. He does not propose to move his family to Big Spring until the end of the school year, however.

The county has been promised still another patrolman and another patrol car. No definite date for the assignment of this fourth member of the patrol to the county has been set but it is understood it is slated for the near future.

The county has had only two patrolmen for over a year. Davis and Jimmy Parks, with two cars, have comprised the organization.

28 Contestants In Talent Show At Lamesa Tonight

LAMESA — Twenty-eight talent entries will be judged in three divisions of the annual Dawson County Farm Bureau talent show tonight at 7:30 p.m. in the Lamesa Junior High School auditorium.

With Scott Russell as master of ceremonies, 16 entries will be presented in the elementary division; nine in the junior division and three in the senior division. Three out-of-town judges will name first and second place winners in each of the divisions, according to Mrs. Louise Phillips, Farm Bureau secretary.

Entries have been received from O'Donnell, Klondike, Welch, Ackery and the Lamesa schools. Admission for the show is 50 cents for adults; 25 cents for students.

APPRECIATION

C-C Group To Plan Dinner For Mayor

A committee has been named to arrange an appreciation dinner for Mayor G. W. Dabney, and the group will meet next Monday to set the date and start work on other arrangements for the event.

Dabney, a member of the City Commission for 14 years and may-

or for 13 years, is retiring from office when his current term ends next month.

The appreciation dinner is a project of the Chamber of Commerce. George Zachariah, also a member of the City Commission, has been named chairman of the planning committee.

In addition to setting date for the dinner, the committee will decide on a location and start planning a program of recognition for the mayor. The meeting will be held at 5 p.m. Monday in the Chamber of Commerce offices.

Serving with Zachariah on the panel will be Ed Carpenter, Gil Jones, George Brooks, K. D. Heston, H. W. Wright, C. L. Rogers, A. K. Steinheimer, Dr. Lee Rogers, Clyde Nichols, Earl Wilson, R. V. Middleton, Robert Currie, R. W. Whipkey, Cliff Fisher, Larson Lloyd, Horace Garrett and Dan Krause.

To Visit Israel

BRUSSELS (AP)—Belgium's 82-year-old Queen Mother Elisabeth will visit Israel at the end of the month to inaugurate an archeology museum in Jerusalem named for her.

Uses Ballet Exercises

Lilliane Montevocchi believes that ballet exercises are the secret for keeping a youthful figure. She is a former dancer turned actress.

HOLLYWOOD BEAUTY

Even Brief Exercise Helps Your Muscles

By LYDIA LANE
HOLLYWOOD Lilliane Montevocchi is one of the most colorful imports to Hollywood. This dark-eyed beauty was born in Paris to an Italian father and a French mother. Lilliane started her career as a ballet dancer, and though she has not made a musical in Hollywood she has had many roles in motion pictures.

"I still work out daily at my ballet bar," Lilliane explained. "Once you're accustomed to being free and limber, you know when your body lacks exercise. There is nothing like ballet dancing to keep you in shape."

"I had a dance master who was over 70, but he had the slim, flat stomach and waistline of a student," she exclaimed.

"There is a law in nature that when muscles aren't used they become flabby and lose their firmness," Lilliane commented.

"I agree," Lilliane replied. "I've dated young men who get in and out of a car as if they were old men. And it's no wonder. They go along day after day—never exercising—using the same few muscles and neglecting others completely."

"People don't climb stairs any more," she observed. "And their knees get stiff from lack of exercise. You ask the average person over 30 to lift a leg straight out in front of him and he can't do it without bending his knee. I think if a person has only one minute a day for exercising he should use it for knee bends."

"Knee bends are good exercise when you hold onto the back of a chair with one hand while keeping your back straight as you go up or down. At first you won't be able to go very far, but little by little you'll make progress. These little minutes of exercise string together at the end of a few months can make a surprising difference in the way you walk and the use you have of your body."

Lilliane and I were lunching at

'ROUND TOWN

With Lucille Pickle

Round town for the next few weeks there will be many members of the local garden clubs offering tickets for sale. These won't be just "any ole tickets" though. These will be something the majority of Big Spring women have not been to before. It's a "tasting tea." Each member will stir up her favorite

Pork, Fowls Head Bargain Buy Lists

—By The Associated Press
Pork, chickens and turkeys continue to be the favorite meat buys of Texas housewives. Supplies are abundant and prices attractive, the Department of Agriculture reports.

Most egg prices are unchanged from last week. Apples, avocados, bananas, cabbage, celery, lettuce, sweet potatoes, fall potatoes and California navel oranges are plentiful and attractively priced.

Many Texas markets are featuring sweet potatoes at reduced prices. Also down from last week are cabbage, celery, both new and fall red potatoes and California navel oranges.

Yellow onions are still fairly high. Florida pole beans and cauliflower are a shade lower. Peppers are scarce and higher. Strawberry supplies are still light. First shipments of Mexican cantaloupes have appeared at several markets but prices are high.

Susan Balzer Given Party On Birthday

Susan Balzer, daughter of Mr. and Mrs. Clifford Balzer, was honored Wednesday afternoon with a party marking her fifth birthday anniversary.

Games were played by the 10 little guests, and favors were Easter eggs filled with candy. Gifts were presented to the honoree.

A birthday cake, served as part of the refreshments, was decorated with roses.

P-TA Postponed

A postponement has been announced for the P-TA at Goliad Junior High. The meeting will be held at 7:30 p.m. March 31 at the school. Speaker will be A. K. Steinhilber, city manager, who will explain the Master Plan for the city.

EASTER SEAL COFFEE WILL FEATURE CLEVER-DECOR

An unusual center decoration has been planned for the coffee scheduled for Friday morning in the S.U.B. at Howard County Junior College.

The affair, slated at hours to accommodate the working people of the town as well as homemakers, will be given from 10 a.m. to 1 p.m. with the hostess group the TAP Ladies Safety Council.

The party will be given as a benefit, and funds from the coffee will be donated to the Society for Crippled Children and Adults. Officers of the council, who will greet guests, include Mrs. J. E. Flynn, Mrs. J. W. Forrester, Mrs. J. C. Cravens, Mrs. R. F. Fallon and Mrs. A. J. Conrad.

Past presidents will pour coffee at the table decorated by Mrs. Conrad, Mrs. J. F. Skalicky and Mrs. Frank Wilson. The women have planned a cake in the shape of a rabbit in a nest of grass. Adding color to the setting will be the pastel miniature Easter baskets formed from eggshells and placed at random in the grass. The public is invited to attend the coffee.

nubby linen sheath trimmed with polka-dot cummerbund.

Judges for the entries were Mrs. J. H. Holman Jr., homemaking teacher and Mrs. Bob Wade, whose bachelor's degree is in homemaking.

The garments were selected for district competition on four points: versatility and appropriateness of design and style for occasion; becomingness to wearer; over-all effect of fashion; and workmanship. Other club members modeling fashions for judging were Mrs. Bob Woodrum, Mrs. Louis Davis, Mrs. Gwyn Liddell, Mrs. Willie Aiken, and Mrs. Art Johnson.

During a business meeting, coming bond issues for the city were discussed and material distributed for study. St. Patrick's Day decorations

Mrs. Flenniken Winner In Dressmaking Contest

LAMESA (Sp) — Mrs. Vernon Flenniken will represent the Lamesa Junior Woman's Study Club in the dressmaking contest to be held at the District 7 Convention of the Texas Federation of Women's Clubs to be held in Borger, April 2.

In judging held by the club at their meeting Tuesday night in the Study Club Building, Mrs. Flenniken wore a daytime suit of taupe linen fashioned with semi-fitted cropped jacket with bow loosely knotted at the neckline, and a pencil slim skirt with deep kick pleat for walking ease.

The alternate delegate is Mrs. John Foster, who modeled a beige

Talent Show Slated For Elbow School

A talent and variety show is planned for the Elbow Community Friday evening at 8 o'clock, with the sponsors being the Elbow P-TA.

Admission to the show, scheduled in the school auditorium, will be 40 cents for adults and 20 cents for children.

Preceding the show, a concession stand will be open to sell sandwiches, coffee, pie and bottled drinks. All proceeds will go into the fund for buying sound equipment for a movie projector at the school.

The public is invited to attend the supper and show.

Bakers Entertain Fort Worth Guest
COAHOMA — Visiting this week in the home of Mr. and Mrs. Rube Baker is her cousin, Preston Kinder of Fort Worth.
Mr. and Mrs. Fred Adams left Wednesday for Granbury where they attended the funeral of his sister, Mrs. Will Walters.
Mrs. Melvin Tindol Jr. visited here Tuesday with the Melvin Tindols Sr., and their two small granddaughters returned to their home in Hobbs, N. M. after spending the two past weeks visiting here with their grandparents.

dish or dishes and put it on the "board." Then everyone who buys an admission ticket has the privilege of tasting everything offered, and for 10 cents a copy she can buy the recipe. This is a golden opportunity for brides. Imagine starting off a cook book with the recipes all typed and ready for filing. It should be a most enjoyable affair. Such a wonderful opportunity for the women to have the entire afternoon to eat and talk and get all the recipes they want and not have to stop long enough to even attempt making a bid or listen to a program.

MR. AND MRS. R. D. ULREY left this morning for Byers, Colo., where they will attend a family gathering of Mrs. Ulrey's brothers and sisters. The big event will be the celebration of the golden wedding anniversary of Mrs. Ulrey's oldest sister and her husband, Mr. and Mrs. W. T. Day. They will have been married 50 years on March 20, and 25 members of the family are expected to be together for lunch. On Sunday an open house will honor the couple.

Friends here will have an opportunity to meet the new MRS. GEORGE R. CLARK when her mother-in-law and sister-in-law, Mrs. Ray C. Clark and Mrs. Donald Lester entertain in her honor on March 28. The affair will be held at the Cosden Country Club.

Members of the Big Spring Country Club will gather Sunday evening at the club to honor their incoming president, R. H. WEAVER, at reception from 8:30 to 10. Each member of the club will be allowed to bring a guest couple, so to extend your invitation soon. Also to be presented is MRS. WEAVER who is president of the Ladies Golf Assn. Directors and their wives will make up the house party as will officers of the club and the officers of the women's association.

Different things interest different people, depending on how one makes his or her bread and butter money. In the case of the LORD BRANONS, ranching is their business and in their business getting rid of rattlesnakes is a pretty important thing. This week the ranch hands located a den of rattlers on a rocky ledge and by applying drip gas, managed to rout 28 reptiles of various size and disposition—usually bad.

Ideal Gift

For a new arrival—dainty scalloped dress, slip and panty set that is fun to sew.

Send 35 cents in coins for this pattern to **IBIS LANE**, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Add 10 cents for each pattern for first-class mailing.

Send 50 cents now for your copy of Home Sewing for '59. Featured are sew-easy patterns, important dressmaking steps.

Mrs. Creagh Is Head Of Jaycee-Ettes

At a business meeting of the Jaycee-Ettes Wednesday evening, the group named Mrs. George Creagh president. The dinner session was held at the Wagon Wheel Restaurant.

Other officers elected include Mrs. John Rudeseal, who will serve as vice president, and Mrs. John Jones, secretary-treasurer.

Plans were made for the installation of the officers at the next meeting, which will be held at Carlos Restaurant on April 15.

Hostess Chairman Named By Auxiliary

Mrs. James Owen will serve as hostess chairman for the Downtown Lions Auxiliary for the next quarter according to plans made at a luncheon Wednesday.

Mrs. Dan Conley and Mrs. Choc Jones were cohostesses at the Conley home for the salad meal. Guests and members were served from the buffet and ate at snack tables. Invocation was given by Mrs. Joe Pond.

Eighteen members and two guests, Mrs. H. C. Petty and Mrs. Tommy Hubbard, were present. Contributions for the Crippled Children's fund were made. Mrs. Avery Faulkner will be a hostess for the April meeting.

The Seven Sacraments Studied By Hyperions

Plans for sending a delegate to the District 8 meeting in Pecos next week, and a program on World's Great Religions interested members of the 1965 Hyperion Club Wednesday at a meeting in the home of Mrs. Norman Read. Mrs. Read will attend the meeting in Pecos at which time she plans to present a petition that originated at the City Federation Council meeting concerning too numerous additional drives. The plan as stated in the petition is for the drives to be consolidated with a central drive such as the United Fund. The club endorsed the petition and members signed it. Mrs. Read, upon gaining consent of other local clubs, hoped to be able to issue an invitation for the 1960 spring meeting to be held in Big Spring.

Mrs. Clyde Angel explained the functions of the Tasting Tea to be held at the Dora Roberts Student Building on April 2.

G-City Groups To Stage Style Show

Models from the Garden City FHA and 4-H Club will display styles which they have made Friday evening at the school. To begin at 7:30, the fashion show is open to the public; there will be no admission charged.

Pre-school children will model Easter outfits and a musical program will be presented.

Fire Ma'ams Pack Food For Needy

Members of the Fire Ma'ams busied themselves with preparing a box of food for a needy family when a small group met in the home of Mrs. W. E. Anderson Wednesday afternoon.

The gift will be presented to a family prior to the Easter holidays.

is the author. It is the symbol of relationship between God and man. She explained that God understands that man forgets and the sacraments are to remind us of things we should remember.

The speaker discussed the sacraments of the different denominations and then listed them:

1. Baptism, which is the invitation into the Christian church and the Christian's first act of faith. All Christian churches that baptize do so with water.

2. Communion: All Christian churches recognize this act which commemorates Jesus' sacrifice for mankind.

3. Confirmation completes the work of baptism and permits individuals to take on greater responsibilities.

4. Marriage was compared by Jesus to His relationship with the church.

5. Penance is the sacrament in which the Christian confesses his sins and is granted forgiveness.

6. Unction is administered in the

case of severe illness or near death.

7. Ordination is the laying on of hands or other means of specifying a person for particular tasks in his church.

Mrs. Coffey said only two churches, the Roman Catholic and the Eastern Orthodox, observe all the sacraments. Other churches observe many of the sacraments but in some cases they are referred to as a rite or ceremony.

At the tea hour, Mrs. Shine Phillips presided at the service. The table was laid with a cloth of pineapple linen and the centerpiece was an arrangement of peach blossoms. On either side of the crystal and silver bowl which held the blossoms were two crystal and pink birds that looked up to the flowers.

A variety of spring flowers were in arrangements about the entertaining rooms. Sixteen were present, and announcement was made of the April 15 meeting for which Mrs. Loyd Branon will be hostess.

Use Of Ground Cover Can Be Help To Trees

Certain trees can take ground cover to improve their living conditions. This cover is a "living" mulch that acts as a combined cooling and heating system. It prevents soil over root areas from becoming dangerously hot in summer or dangerously cold in winter.

Homier L. Jacobs, research director of the Davey Tree Expert Co., says that such ground cover as pachysandara, periwinkle, euonymus and ivy have helpful versatility for much of the landscape, particularly for aging tree monarchs needing every assistance.

One of the important functions of ground cover is to prevent or discourage soil compacting. It does this in two ways: by permitting easy penetration of water, and by discouraging foot traffic over planted areas.

Ground cover is ideally decorative and helpful for trees in border or other areas not needed in grass and those landscape "deserts" where it is difficult or impossible to have lawn. The living mulch also has value as a soil

conditioner. It returns organic elements when its leaves fall and decay.

Perforation feeding with tree foods high in nitrogen content is invariably recommended for improving deeper soil layers. For most trees, however, the top few inches must continue to be the richest, best aerated and the most easily watered of the soil available for root growth.

Take White Of One Egg...

That's the beginning of the dressing which the Cunningham family prefers for tossed or vegetable salads. Quickly and easily made, the recipe was obtained in Austin and has been adapted to the taste of the group whose "chief cook" is featured on this page today, Mrs. Grover Cunningham Jr.

Spicy Dressing Offered For Vegetable Salads

If your family likes a touch of garlic in the dressing for vegetable salad, the one given today by Mrs. Grover Cunningham Jr. will probably hit the spot.

The dressing is one that struck the fancy of the Cunninghams when they lived in Austin during the years he attended the University of Texas and the family had meals at a certain little cafe. While the ingredients were finally wheeled from a waitress, the proportions have been worked out by Mrs. Cunningham to suit her family needs.

The family consists of the parents and two daughters, Carol, 15, and Cheryl who will be 13 in April. All the group is interested in bowling, and several trophies attest to the skill of their particular leagues. However, one trophy was given to the last place winners in the league, who were Mr. and Mrs. Cunningham.

Another good recipe that has been in the family of Mrs. Cunningham Sr. is one for a plain cake which originated with her mother, Mrs. W. R. Phillips. When the junior family forgets to count calories, Mrs. Cunningham adds a package of chocolate chips and covers it with just plain fudge frosting, Cunningham, who is a law partner of his father, has one contribution to cookery and that is a fine knack for making divinity which he wants without embellishment.

Here are today's good recipes:
ALAMO CHEF SALAD
White of one egg stiffly beaten
1/2 cup salad oil
Garlic powder or salt to taste
1/2 cup finely chopped dill pickle
Dash cayenne pepper and/or paprika

Pour salad oil gradually over stiffly beaten egg white and beat until oil is well blended. Add seasonings and pickle and pour over chopped lettuce, tomato and celery. Other fresh vegetables may be substituted. Makes one cup.

PLAIN CAKE
1 cup sugar
1 cup sweet milk
2 cups flour
2 tsp. baking powder
2 heaping tsp. shortening
2 eggs
Vanilla to taste

Cream sugar and shortening; add milk and eggs alternately with dry ingredients. This recipe also works well; beaten all at once in an electric mixer. When adding chocolate chips, this is better baked in a *seren* pan. For layers, bake 30 minutes in 325 degree oven. One hour is sufficient for the stem cake.

DIVINITY
2 1/2 cups sugar
1/2 cup white corn syrup
1/2 cup water
2 egg whites beaten until very stiff

Cook sugar, syrup and water until a soft ball forms in water. Pour 1/2 the mixture over stiffly beaten egg whites and return remainder to cook while beating

Serve Baked Fish As Spaniards Prepare It

By CECILY BROWNSTONE
Associated Press Food Editor

Recent requests for a fish dish elegant enough to serve to guests inspired the testing of the following recipe.

It calls for a whole fish to be stuffed with a savory mixture of bread crumbs, shrimp, olive oil, onion and other seasonings.

The fish looks sumptuous when arranged on a platter with a garnish of lemon and extra shrimp plus any suitable vegetables you have on hand — cucumber or carrot slices, water cress or parsley.

SPANISH DISH
Because this recipe is of Spanish origin, the stuffing calls for olive oil — an ingredient Spaniards use with a lavish hand. Then during baking the fish is brushed a few times with a mixture of the oil and lemon juice.

Spaniards usually eat their main meal in the middle of the day, and so this baked stuffed fish would probably appear at noon on one of their menus.

Serve it sometime for a Sunday one o'clock dinner as a change from the usual roast meat or poultry. Or serve it for supper during Lent or on a Friday any time of the year.

The recipe from which this one was adapted suggested sea bream as the fish. We used a beautiful striped bass; you may, of course, substitute any locally available fish suitable for baking. Just make sure it is fresh and firm.

And we beg you not to have the fish decapitated at the fish market; it looks most elegant — when it is brought to the table for carving — with both the head and the tail left on.

If you want a real Spanish way of presenting the baked fish on its platter, ignore our previous garnishing suggestion. Instead surround the two long sides of the fish with pale yellow-green escarole leaves; insert a feathery frond of dill or fennel into the baked fish's mouth so part of the spray shows; arrange strips of scarlet pimiento on top of the fish.

FISH MATADOR

Ingredients:
1 3/4 pound whole fish
1/2 cup olive oil
1 medium-sized onion (finely chopped)
1 1/2 cup finely chopped celery
1 clove garlic (minced)
1 cup fine dry bread crumbs

1/4 cup finely chopped green pepper
1/4 cup minced parsley
1/4 tsp. salt
1/4 tsp. pepper
1/4 tsp. dried crumbled thyme
1/4 tsp. nutmeg
Lemon juice
Extra olive oil
Garnishes

Method:
Have market clean fish and remove backbone and as many of the other bones as possible; have head and tail left on.

Cook shrimp, shell and devein. Dice shrimp fairly fine — there should be 1 cup lightly packed. Heat olive oil in 9- or 10-inch skillet over low heat; add shrimp, onion, celery and garlic; cook, stirring occasionally, until onion is transparent.

Stir in bread crumbs, green pepper, parsley, salt, pepper, thyme and nutmeg. (Taste and add more salt if necessary.)

Lay fish open flat. Spread stuffing over inside of fish; if there seems too much, stuff the head with some of it. With a large darning needle and heavy white thread (or ordinary white nylon thread) sew up fish. Line bottom and sides of a baking pan with foil; a medium-sized rectangular roasting pan is fine. Rub foil with olive oil.

Arrange fish on foil in pan. Mix a little lemon juice and olive oil together; brush fish with it. Bake in moderate (350 degrees) oven 40 minutes or until fish flakes easily. Drizzle with oil-lemon juice mixture occasionally. Foil may be used to help lift fish from pan to platter; remove foil; wipe platter clean.

Garnish with lemon slices or wedges, cucumber or carrot slices and cooked shrimp if desired. Makes 4 large servings; if a half-pound of cooked shrimp is used for the garnish, you can count on having enough fish for 6 servings.

Stuffed Mushrooms Will Surprise, Delight Guests

One way of making sure guests will thoroughly enjoy lunch or supper parties is to add something unexpected to menus.

You don't have to make this an elaborate surprise; simple additions do the trick.

Planning a supper around roast turkey. You may wish to offer sweet potatoes in some form. You may also want a green vegetable and a salad. But if you also add a platter of mushrooms stuffed with deviled ham, you'll find your menu will gain real interest and delight your guests.

These stuffed mushrooms may, of course, be served with other meats. They're delicious with roast veal; they also accompany plain baked fish extremely well.

Or they may be used as a first course. If you choose small mushrooms you can place each one on a small round of crunchy melba toast (to give texture contrast) to be eaten out of hand.

The story goes that deviled ham was first packed and preserved in this country in the 1860s. Meats other than ham had been packed in cans; when it came ham's turn to be preserved, interesting spices were added and the product has held eaters' interest to this day.

Another notion is that the American deviled ham product stems from the English potted ham that in turn came from the French

jambon en terrine. Mrs. Beeton, famous 19th Century English cookery writer, uses lean ham, fat, mace, nutmeg and cayenne in one formula; in another she specifies mace, allspice, nutmeg and pepper for the spicing.

These days it's convenient to have ready-prepared canned deviled ham on hand on pantry shelves.

Ingredients:
15 to 20 mushrooms (1 1/2 to 2 inch caps)
1 can (4 1/2 ounces) deviled ham
1 very small onion (peeled and very finely minced)
1/4 tsp. Worcestershire sauce
1/4 cup fine fresh bread crumbs
2 tbsps. (about) butter

Method:
Wipe mushrooms with a damp cloth; if necessary cut a thin slice from each stem end and discard; remove stems from caps.

Chop stems fine; mix with deviled ham, minced onion, Worcestershire sauce and crumbs. Melt butter in a large skillet until very hot; add mushroom caps, cavity side up, and roll around so outside of caps will be entirely covered with the butter.

Fill butter-dipped caps with stuffing, mounding as necessary. Broil slowly — about 15 minutes — until mushroom caps and filling are thoroughly hot and tops are lightly browned.

Teen-Agers, Family Will Like This

Try this perfect dessert for teen-agers — or any of your family.

APPLESAUCE CRISP

Ingredients:
1/2 cup butter or margarine
1 cup light brown sugar
1/2 cup flour
1/2 cup quick-cooking rolled oats
Salt
2 tbsps. flour
2 cups canned applesauce
1/2 tsp. grated lemon rind
1 tsp. lemon juice
1/4 tsp. nutmeg
1/2 cup chopped walnuts

Method:
Cream butter and 1/2 cup of the sugar; add 1/2 cup flour, rolled oats and a dash of salt. Mix until crumbly; press one half in a thin layer in bottom of buttered baking pan (11 by 7 by 1 1/2 inches). Bake in moderate (350 degrees) oven 15 minutes.

In a 1-quart saucepan stir together the remaining 1/2 cup sugar and the 2 tablespoons flour; mix in well the applesauce, lemon rind and lemon juice; cook and stir constantly until boiling and slightly thickened; cool. Spread evenly over hot baked mixture.

Into remaining 1/2 cup crumbs mix the nutmeg and walnuts; sprinkle over applesauce mixture. Bake in moderate (350 degrees) oven 20 to 30 minutes or until topping is lightly browned. Serve warm; cut in squares and remove with wide spatula or pancake turner. Makes 8 servings.

Top with whipped cream or vanilla-ice cream if desired.

For Glazed Yams

Count on using 2 tablespoons of sugar and 1 tablespoon of melted butter for every cooked sweet potato that is to be glazed.

Serve Vegetables With A Deliberate Flair

Does your family rebel at eating vegetables? If you, too, are convinced they are humdrum fare, open a bag of tricks and serve vegetables with a flair.

Here are three ways to remove vegetables from the commonplace:

BEETS WITH ORANGE SAUCE

Ingredients:
1 can (1 pound) sliced beets
1/2 cup strained orange juice
1 tsp. honey
1 tsp. butter or margarine
1 tsp. cornstarch
1 tsp. cold water
1 to 1 1/2 tps. grated orange rind.

Method:
Drain liquid from beets and refrigerate for some other use. Heat orange juice, honey and butter in a 1 1/2-quart saucepan. Mix cornstarch and cold water until smooth and add; cook and stir constantly until slightly thickened and clear.

Add sliced beets; gently reheat in sauce, turning over the beets a few times. Stir in grated orange rind. Makes four servings.

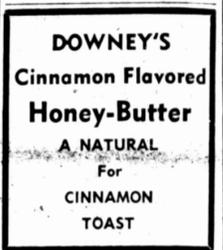

WESTERN GREEN BEANS

Ingredients:
1 can (1 pound) whole green beans
1 tsp. butter or margarine
1-3 cup finely chopped onion
1 tsp. flour

Method:
Fry French toast in bacon drippings, then serve with crisp bacon and maple syrup or honey.

Sear Meat For Color

Searing meat gives good appetizing color, but it does not "seal in" meat juices as was once thought.

In French, or any language... the coffee you'd drink if you owned all the coffee in the world

Maryland Club

This language is universal... the deep fragrance of the MARYLAND CLUB bouquet... the full, heavy-bodied richness of the MARYLAND CLUB flavor... here truly is a coffee like no other in all the world... so distinctively rich it is unfaillingly recognized as a gracious expression of good taste... MARYLAND CLUB... the world's richest flavor in coffee!

Beautiful imported coffee server, hand-crafted in France... one of a series to be given away by Maryland Club. See your grocer for details.

Death?

Twice-divorced Connie Nicholas shown in courtroom at Indianapolis, both hands in traction splints because of paralysis, said she'd rather go to the electric chair than to "a living death" in prison if she is convicted of slaying Forrest Teel.

Green-Haired Men Aren't Far In Future

By CYNTHIA LOWRY
NEW YORK (AP)—If you hurry, mister, you may be the first fellow on your block to sport green hair—or if you like it better, mauve or apricot. It is not only the latest mode, as evidenced by demonstrations at the International Beauty Show, but it is the living end of togetherness, for the new fine feathers fashion is being launched as "his" and "hers" hair rinses. Mother and father not only can turn out with the same colored hair, but they can change colors by a simple shampoo. After all, daddy might feel like tickled pink one day but more like green envy, merry apricot or—possibly—blue mood the next. Pioneers were three brave executives of the rinse company. One, Myron Gaffen, is a natural brunet who had to have his locks bleached before he could turn up for the show in red riot—a crimson, not henna shade. "I feel frisky," he insisted. Of special interest to the male is a new type of permanent wave roller, made on the bobbin principle, which eliminates the need for setting the hair after each washing. "It is wonderful for men," said its inventor, Mrs. Michael Anzalone, a Buffalo, N.Y., hairdresser. "They can take showers, go in swimming or anything else and their hair won't frizz. Before, men have been afraid of permanent waves because they made their hair too curly and too obvious. "And it is a great boon for men with sparse hair—a permanent makes it look more full—or short men, who can gain height with their curls." On the distaff side of the beauty business, the show, expected to attract some 25,000 professionals, has the usual exhibits of equipment, rinses, dyes, soaps, unguents, uniforms and comfortable work shoes. Hair stylists are introducing a series of 1959 coiffures, called "the radiant look," which generally involves hair piled high on the head and big, fat curls. "It is a change," declared Mr. William, a Staten Island stylist, "from the short masculine look of last year." There is a new lipstick out which is iridescent—glows in the dark. "It is wonderful for a night club," said maker Miriam Collins. "Under a black light all you can see are lips."

Seaman's Morals Term Probated
LITTLE ROCK, Ark. (AP)—A Fort Arthur, Tex., merchant seaman was put on probation for two years yesterday after pleading guilty to transporting a girl from Waco, Tex., to Little Rock for prostitution. Danny Hebert, 21, pleaded guilty before Federal Judge J.S. Henley. Hebert said he met the girl in a brothel at Port Arthur and that she suggested the trip. "It was more of a spree than anything else," he said. "I didn't realize what I was doing." FBI Agent Gilbert Strickland testified that Hebert and the girl, 18, traveled together from March 1 to June 17, 1958, living off her earnings. Strickland said the girl made about \$1,000 during that period.

8 Students Win Science Awards
AUSTIN (AP)—Eight students have been awarded National Science Foundation graduate fellowships for next year, the University of Texas said today. They include Blanche Joanne Monger of Beaumont, who will study mathematics; Alex Niebet, San Angelo, chemistry; and Hubert Heichelheim Jr., Victoria, chemical engineering.

DEAR ABBY

COME CLEAN

By ABIGAIL VAN BUREN

DEAR ABBY: This has been on my mind for seven months and I am determined to get it off. I have been taking money from the office where I work. I've done this for the past two years but I've always put it back before the end of the month. I am now so far behind I will never catch up. It would be difficult to catch me but that is not my problem. I would like to make a confession to my boss and make arrangements to pay it back if it takes me the rest of my life. I can't live like this any longer. I am half-loaded right now or I wouldn't have nerve enough to mail this. Please put a confidential in your column and tell me if you think I should take a chance on going to jail. My boss has been wonderful to me and I think he would understand.

GUILTY CONSCIENCE
DEAR ABBY: You'll have no peace of mind until you settle this matter. Talk to your boss before he talks to you.

DEAR ABBY: I love my family dearly but they get me terribly embarrassed. Especially my mother who uses improper grammar. She says "SHE DON'T" instead of "SHE DOESN'T" and "YOU WERE" instead of "YOU WEREN'T". Should I correct her or leave her say what she pleases?

RITA
DEAR ABBY: Correct her in private... but don't LEAVE her say what she pleases in public. LET her say what she pleases.

DEAR ABBY: I am a very well-to-do widow who is quite lonely and would like to meet some gentleman who isn't a gold-digger. My husband left me with three apartment buildings and six fourplex dwellings. I own one square block of commercial property in the center of town and have a 50-50 interest in a used car business. I have not touched my capital and don't intend to. How can I get a man?

LONESOME
DEAR LONESOME: Don't put the cheese out where the rats can smell it. What else have you got to offer?

DEAR ABBY: I am 17 and a senior in high school. I worked last summer and have a serious problem. I fell in love with my boss. He's single and lives with his mother. He is considerate and very sensible. He doesn't want to see me hurt so he never takes me out in public although he says he loves me. You see he is 34 (twice my age) and it's gotten so that I can't sleep nights thinking about the next time we'll see each other. We've been dating secretly. Nobody (but you) knows

about us. Is there any future in this for me? Please be honest.
LOVESICK
DEAR LOVESICK: Face the facts. He's too old for you, and if he were thoroughly decent he wouldn't be dating you secretly. Break off right now before you get into serious trouble. It only hurts for a little while.

"How can I get him to notice me?" Get ABBY'S booklet, "What Every Teen-ager Wants to Know." Send 25 cents and a large, self-addressed, stamped envelope to ABBY in care of The Big Spring Herald.

For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

Jury Hearings Tentatively Set

Wayne Burns, county attorney, said that he and County Judge Ed Carpenter had agreed to set a criminal jury county court docket for the week of April 6. The date is tentative and depends on whether or not there is a conflict with operations in district court.

A docket will be drawn and cases set as soon as it is ascertained definitely the date selected is open. Meantime, the reduction of the swollen county court civil docket continues. Judge Carpenter said that more than 200 old cases which had never been called for trial have been dismissed in the last few weeks. The cases, he said, were stricken when the attorneys had been consulted and agreed on such action.

Carpenter said he intends to continue the policy of removing deadwood from both the civil and criminal dockets. He said he would find an opening and set such civil cases as require jury trial for hearing as soon as possible.

Police Chief And Detective Will Attend Schools

The chief of police and the city detective will attend training schools next month, the chief said today.

Chief C. L. Rogers said that Leo Hull, the detective, will attend a homicide training course in Austin April 9-10. The school is conducted by the Department of Public Safety and the universities of Texas and Oklahoma.

Rogers plans to attend a police training and tactics school at Southern Methodist University in Dallas April 13-15. This school is sponsored by the Texas Law Enforcement Foundation.

Rogers also announced about 35-40 police chiefs and city marshals from surrounding cities will gather here April 22 for a meeting. To be discussed will be common problems of personnel and law enforcement.

Hush Puppies

There are dozens of variations for this oldtime Southern favorite—with or without onions and sugar; fried in deep fat or turned often in shallow supply, or made with hot water, omitting the egg and milk. Who's to say which method is best—the result from all recipes is delicious.

Mouth-Watering Hush Puppies Will Be Instant Hit Any Time

By CECILY BROWNSTONE
Associated Press Food Editor

Farmer Jones goes to town for BORDEN'S BUTTERMILK

FRESH-CHURNED COUNTRY FLAVOR

Even on nearby dairy farms you'll often find Borden's Buttermilk in the refrigerator. Why should Mrs. Farmer Jones churn her own buttermilk? Borden's Buttermilk is made from country-fresh milk and cream in a way that gives it that fresh-churned country flavor, plus a smoothness that the old-fashioned churn can't equal.

balls of corn meal batter bobbing around in our kettle of hot fat. Now they turn a mouth-watering golden brown. Flip them over and in another minute or two they're ready to be drained.

When we call "Hush puppies coming up!" everyone at our house hurries to come and get them. They're gobbled up as fast as we can fry them. Some eaters break them open and add the luxury of butter. Others bite straightaway into the crisp batter bread.

Hush puppies are a by-product of outdoor Southern fish fries. They came into being when some old-time cooks stirred up the corn-bread batter and dropped spoonfuls of it into the fat in which the fish had been fried.

But outdoors or in, with fish or some other dish, or just by themselves, in the South or the North, hush puppies are still mighty good eating.

The amount of corn meal in the fried bread varies. Some cooks

Ham, Cheese Make Tangy New Filling

Serve the popular ham and cheese combination this way.

RELISH SANDWICHES

Ingredients:
1 cup ground baked ham (firmly packed)
1 cup medium-fine grated cheddar cheese (lightly packed)
1/2 cup mayonnaise
1/4 cup sweet pickle relish
Buttered bread

Method:
Mix together well the ham, cheese, mayonnaise and pickle relish. Use as filling between slices of buttered bread. Makes about 2 cups spread.

Amount of spread needed for each sandwich will depend on how thick or thin bread is sliced.

Give The Family Its Full Quota Of Eggs Now

It's easy to schedule a healthy quota of eggs on the family menu, for they may be served so many ways at so many meals. March is egg month, so shoppers will find them plentiful and inexpensive.

Versatile eggs, by themselves, are most popular at breakfast—scrambled, fried, poached, soft or hard-cooked and in omelets. But eggs go into the making of many a main dish for other meals, some of them glamorous enough for company dinners.

Eggs make a hit in salads and dressings. They add color as well as flavor to garnishes and give a subtle but distinguished performance in desserts.

Good rules for the care of eggs are easy. Keep them clean, covered and cool. They should be placed

in the refrigerator as soon as possible and kept there until used. Use a covered container to keep moisture in and odors out.

To keep yolks, place them, unbroken, in a dish or cup and add just enough cold water to cover. Put egg whites in a jar or dish, cover tightly and be sure to keep them cold.

A good rule to follow in the feeding of eggs is: An egg per person per day, especially when eggs are plentiful. They make an excellent contribution to the family's nutritive needs, providing high-quality protein, as well as essential vitamins and minerals.

Cook them slowly with low to moderate, even heat. Like all protein foods, eggs cooked at too high a heat get tough and leathery.

Spicy Cake Delicious With Tea

A hearty spicy dessert tastes particularly delicious with hot, brisk cups of tea.

SPICY PUDDING CAKE

Ingredients:
1 cup sliced pitted dates
1/2 cup drained sliced preserved kumquats
1 cup broken walnuts
1 cup boiling water
1 cup dark brown sugar
1 egg
1 tsp. baking soda
2 cups sifted cake flour
1/2 tsp. salt
2 tbsps. cold water

Method:
Put dates, kumquats and walnuts in a mixing bowl; pour boiling water over.

Cream butter and sugar; beat in egg thoroughly. Stir baking soda into fruit and nut mixture. Stir flour and salt into creamed mixture alternately with fruit mixture in 4 additions, beginning and ending with flour; stir in cold water just until blended.

Turn into buttered 8-cup tube mold and bake in moderate (350 degrees) oven, about 1 hour, or until cake tester inserted in center comes out clean. Serve hot with a lemon sauce or whipped cream.

Leftovers may be cut into portions and reheated over boiling water.

Easter Dyes

Food coloring is fine for Easter egg dyeing; as it colors evenly. This is the formula to use: To a quart of boiling water, add one teaspoon of coloring and one teaspoon of vinegar. Twelve cups of dye will color 500 eggs.

Mashed Potato Fluting

Fluffy mashed potatoes, easily and quickly made up now in a matter of minutes thanks to a new product on the market, make a delicious decorating medium for casseroles.

Rice Industry Is Result Of Gesture Of Early Friendship

If it hadn't been for the warmth and friendliness of the early colonists of Charleston, S. C., we in America today might never have known the nutritive benefits of rice.

Back in 1694, Captain Smith, sailing his cargo vessel from Madagascar to England, took refuge in Charleston harbor seeking repairs for his storm-damaged ship. The helpfulness of the colonists, and their hospitality... so over, welcomed the captain that, before he sailed, he gave the colony's

governor a sack of "paddy" or rough rice... a token of appreciation.

The settlers experimented with the unfamiliar seeds... and planted them in various kinds of soil. In every instance, the results were so good that the first rice crop was large enough to supply almost everybody in South Carolina.

From this early beginning, rice-growing has spread to many parts of the United States. And, although most of the world's rice crop still is grown in the Orient, the varieties produced in this country rank among the best in the world.

Carrots, Celery Make Tasty Vegetable Dish

Celery lends a savory flavor to carrots.

CARROTS WITH CELERY

Ingredients:
3 cups, thinly sliced, carrot rounds
1 cup thin celery crescents
2 or 3 leafy celery tops
1/4 tsp. celery salt
1 cup boiling water
2 tbsps. butter or margarine
Salt and pepper

Method:
In a saucepan, bring carrots, celery, celery tops, celery salt and boiling water to a boil. Cover and cook rapidly until just tender; drain off any small amount of liquid.
Remove leafy celery tops. Mix in butter until melted; add salt and pepper to taste. Makes 4 servings.

A Devotional For Today

He is our peace, who has made us both one, and has broken down the dividing wall of hostility. (Ephesians 2:14. RSV.)

PRAYER: We bless Thee, O God, for making Thyself known in Jesus Christ. We thank Thee for His Church, which unites us with men and women of every land, and tongue who have found in Him the true meaning of life. In His blessed name we pray. Amen.

Our Students Excel

What some of our Big Spring High School students did over the weekend ought not go unnoticed.

At the Interscholastic League band contests, 10 individuals and seven ensembles captured first division honors. In addition, nine others rated second division in solos and four ensembles also merited a second division placement. First division means that the young musicians are in the very top bracket in their instrument or in their combinations, and second division is only a slight cut under this.

While this was going on, the members of the Vocational Industrial Club were at the state convention in Fort Worth and doing very well. For instance, they captured 18 ribbons, nine

of them for first place, seven for second place and three for third place. This was further remarkable inasmuch as only nine students participated in the contests from here.

All too often we give the headlines and recognition to those who can block and tackle the best, or run faster and further with a football, or hit the basket with a basketball, or throw the best curve or hit the hardest drive in baseball. And there's nothing wrong with any of these, for they represent skill and application.

But we ought also to salute young people like these who have demonstrated skill of the mind and hands. They have demonstrated a practical fruit of education and have brought honor to themselves and their school.

Commissioners Perform Helpful Act

The city commission acted wisely, we believe, in rescinding the clause in a contract which would have obligated the city to pay the master planner 1 1/2 per cent for engineering over a five-year period, whether the planner did the actual engineering or not.

There was a reciprocal side to the contract—the city would get 1 1/2 per cent credit up to \$15,000 prorated among the water, sewer and drainage projects. But linking the city to one firm or suffer a penalty if someone else were hired did not seem to us equitable or expedient.

Commissioners, who debated the issue some when the contract was first pre-

sented, reconsidered the matter and apparently were of the opinion that this clause ought to be eliminated. We regret we cannot say whether it was overwhelming or unanimous because apparently an informal off-the-record meeting was held to discuss it. We can hope there won't be an occasion for any more of this sort of meeting.

Meantime, we feel that by correcting this phase of the contract, the commission will have performed a real service for the city and will open the way for a unified front toward development of a master plan.

David Lawrence Money To Keep Us Out Of War

WASHINGTON—If the American people could express in a single sentence their most important wish today, it would be: "Keep us out of a national budget of 77 billion dollars, the President asks for \$3,930,000,000 to keep American boys from fighting abroad, and calls for a "mutual security program" to bolster our Allies, this is decided as a "foreign aid" program or a "give-away."

The label is wrong. It's really a "keep-us-out-of-war" program.

Few of the critics realize the explosive situation that exists in the world today or how interrelated America's fate is with the other free countries—or, if they do realize it, they fail to see how many billions more our defenses would cost if America had to do the job alone. That's why President Eisenhower's television address Monday night was so important to the country.

For the President had no sooner announced last week that he was asking Congress for \$3,930,000,000 when from Capitol Hill—mostly from Democrats—came predictions that the expenditure would be cut by a billion. Acting Secretary of State Herter promptly said that if any such reduction were made it would "service notice on the world that we are weakening in our determination."

Just why some of the legislators regard any money spent abroad as either a gift or a throw-away is hard to understand unless they think the American people really can be misled by such distortions. Certainly, as sometimes charged, there's waste in the spending of American funds in other countries because the United States cannot always control how other governments disburse the money they receive. But, conceding that there is some waste, it is a fact that in war itself there is even greater waste. The true test is whether, on the whole, war is prevented, and thus far the United States has managed with the help of strong Allies to keep us out of a third world war.

It sometimes isn't realized how much America's own allies have been spending since the close of World War II. Rather the impression is fostered by the critics that the United States is putting up all the money for international defense or mutual security. The President in his message a few days ago to Congress said:

Over the years of our combined effort, these allies and friends have spent on these forces some \$141 billion, more than six times the \$22 billion we have during calendar year 1958 they contributed \$19 billion of their own funds to the support of these forces.

Without the strength of our Allies our nation would be turned into an armed camp and our people subjected to a heavy

draft and an annual cost of many billions of dollars above our present military budget.

What perhaps isn't generally understood in America is that economic assistance plays a vital role in maintaining the stability of other nations. If there were no stable governments among our Allies America would not have strategic bases overseas. The President said on this point:

"Through the mutual security program our friends among the free world nations make available to us for the use of our forces some 250 bases in the most strategic locations, many of them of vital importance. They support ground forces totaling more than five million men stationed at points where danger of local aggression is most acute, based on their own soil and prepared to defend their own homes. They man air forces of about 30,000 aircraft of which nearly 14,000 are jets, 23 times the jet strength of 1950 when the program started. They also have naval forces totaling 2,500 combat vessels with some 1,700 in active fleets or their supporting activities."

Dissenting members of Congress often concede that the military program is logical but they claim the economic support abroad is questionable and this they would cut. In doing so they would strike a blow at the morale of the countries affected. For without economic stability, political chaos ensues, and then the Communists find fertile ground for exploitation or even overthrow of existing governments. The Communist intrusion in Iraq lately, for example, has unsettled the entire Middle East. The Communist tactics in Africa, Asia and Latin America have been supported by Soviet measures in the economic field.

So it's a dangerous international situation which calls for American expenditures to bolster here and abroad our defenses—politically, economically and militarily. From a strong alliance, moreover, comes firmness in a crisis as is the case today when Moscow is testing the West. The President says the West will not surrender. He can say this convincingly because the Western Alliance in the last 10 years has been built on a strong foundation. It is to maintain that strength that the "mutual security program," or what might better be called a "keep-us-out-of-war" program, is really directed.

Eagle Bridge Players

FONDA, Iowa (AP) — The five-slits bridge club here has nine women members. Their games have been going on for more than 25 years. Five suit decks of cards were introduced in the 1930s with limited success. Now such decks, the ladies say, are very hard to find.

They make their own, two at a time, by painting red suits green in a third deck and adding a green suit to each of the two playing decks. The extra suit is called eagles.

The Fondra players wonder if they are the last eagle players left in the country.

Knows Real Bargain

DERBY, Colo. (AP) — For once in his life, Joe Gallegos knew he was getting a good buy when a young man offered him a jacket for \$6.50 and a glass of beer.

It was Gallegos' jacket. He told police someone had broken into his car and stolen the jacket. Police arrested the young man and charged him with the theft.

Smart Chickens

SEAL COVE, N. B. (AP) — Chicken-keeper Bill Bagley claims that during a recent cold spell his chickens took turns sitting by the chicken-house window, melting the frost. He says they did it to let in more sunshine and also to learn when he was arriving with the feed.

Lady And The Tiger—Or Two Tigers?

James Marlow

Claiming Exemptions For Dependents

Editor's Note: Each dependent you can claim shrinks your taxable income by \$600. So it's important for you to know just whom you're entitled to list on your federal return. The following article, fourth of five stories on the income tax, gives you the ground rules.

WASHINGTON (AP)—In filing your 1958 income tax return, be sure you take a \$600 exemption for every dependent you can justly claim. For each it means \$600 off your income before what's left is taxed.

Who's a dependent? He could be your own child, a relative, or even a friend. But the rules are different for different kinds of dependents.

You can claim as a dependent your own child, adopted child or stepchild if he got more than half his support from you in 1958 and even if—provided he was under 19—he had \$600 or more income of his own.

If your under-19 child had that much income he would, of course, have to file his own return and claim his own \$600 exemption. But—

Since he was under 19 and got more than half his support from you, you could still claim him as a dependent on your return, take a \$600 exemption for him, and not even have to include his income in yours.

Further: That child wouldn't have had to live with you in 1958, so long as you provided more than half his support. For example, you may have been separated from your wife and the

child may have been living with her.

But if you had a child 19 years or older, you could not claim him as a dependent, even though you provided more than half his support, if he had \$600 or more income—unless he was a fulltime student.

If he was over 19, was a full-time student, and had \$600 or more income, he'd have to file his own return, claiming a \$600 exemption for himself. But if you provided more than half his support, you, too, could take a \$600 exemption for him on your return by claiming him as a dependent.

Note: If he had a regular or only a parttime job and went to night school or took a correspondence course he would not be considered a fulltime student.

No child—except the taxpayer's own—can be claimed as a dependent if he had \$600 income, regardless of his age or status as a student. And you can't claim for a dependent an extra \$600 exemption because he was blind or over 65.

(Note, this, too: If your child, stepchild or adopted child received a school scholarship, it is not considered in figuring whether you provided more than half his support.)

Support, in the case of a dependent, includes money spent on food, shelter, clothing, education, medical and dental care, entertainment, transportation and other necessities.

But some things you can't include as part of the cost of support for a dependent. For instance: Buying him an automobile or buying life insurance on him. Nor can you include as support money spent to pay a dependent's taxes.

As mentioned above: You can claim as a dependent a friend who lived in your house the entire year, who had no income of his own that amounted to \$600 or more, and who got more than half his support from you. But a paid servant in your house can't be claimed as a dependent.

As for relatives you want to claim as dependents: You can claim as a dependent a person related to you—the kind of relationship is given below—if he did not have \$600 or more income and got more than half his support from you. Such a dependent relative, unlike the dependent friend, would not have had to live in your house during the year.

For example: You may have provided more than half the support for your widowed mother who is living with your sister.

But note this: When anyone is trying to determine whether he had enough income to require his filing a tax return, there are certain kinds of nontaxable income which does not have to be reported or included. Example: Social Security benefits, life insurance proceeds, armed forces family allotments, and so on.

But when you as a taxpayer are trying to determine whether you provided more than half the support for a person you wish to claim as a dependent, you must balance it against the total support he got from all other sources.

That means: If your 66-year-old mother got \$100 from Social Security and \$50 for babysitting, you would have had to spend more than \$150 on her support in order to claim her as a dependent because in this case her Social Security benefit would have to be included. The Social Security would not have to be considered part of her support if she didn't use it for support but, for instance, saved it.

These are the relatives you can claim as dependents if the other requirements are met:

Your child or his child (a legally adopted child is considered your child; your stepchild but not his child; your brother; sister; half-sister; stepbrother; stepfather or stepmother; a brother or sister of your father or mother; a son or daughter of your brother or sister; your father-in-law; your mother-in-law; son-in-law; daughter-in-law; brother-in-law; or sister-in-law.

One thing more: You can claim as a dependent only a person who is a citizen or resident of this country or a resident of Canada, Mexico, the Canal Zone of the Republic of Panama.

And this: A parent cannot under any circumstances claim as an exemption a married child who filed a joint return with his or her spouse, even though you provided more than half that child's support.

You can claim a \$600 exemption for a dependent who was born or died during 1958—provided that the test for claiming such a dependent, as outlined above, was met during that part of the year in which he was alive.

Tomorrow: Figuring your deductions.

Parson Problem

MEMPHIS, Tenn. (AP) — A Memphis physician says his records show two-thirds of the ministers are 20 per cent overweight—but places the blame on the congregation.

"Too many (ministers) eat a lot to please the people who invite them into their homes," Dr. Otis Warr said.

Around The Rim

How Do You Quit Smoking?

Just how does a person go about quitting smoking?

I've made up my mind I should stop, but I can't quite find the stopping place.

Just one more, I tell myself when the subject comes up. Or, wouldn't it be just as well to quit next week? I ask. Since I'm quitting, I may as well enjoy one last fling before I do.

You know the rest of the story. I'm still on that final fling.

What really caused me to decide I should quit smoking were the tobacco people, no less.

Sure, I was impressed with all the medical reports about the parallels between smokers and cancer victims. Also, they've put out some pretty convincing evidence that cigarette smoke and heart disease go hand in hand.

Now, I said to myself, a person's crazy to go on smoking in the face of all that talk. How about my quitting?

So I said okay, but let's put it off until next week. I want to enjoy a few more smokes, in the full knowledge that they're going to be my last.

In a few days I decided this is it. If I'm going to quit, it's got to be now.

That night, I went home without any cigarettes. It wasn't bad at all, until after supertime. Then I felt that yearning for an after-meal smoke.

I got my paper and started reading. Soon, all thoughts of smoking vanished, and I was perfectly happy. Oh, occasionally I would feel a vague emptiness and

suddenly remember that it surely would be wonderful to have a cigarette.

Each time, though, I returned to reading furiously, and soon cleaned my mind of such silly thoughts. I actually was becoming proud of my will power.

Nothing to this business of quitting smoking, I said. All you have to do is keep reading, and not think about it.

By 10 p.m., I had read every word in the paper, including all the want ads and the patent medicine claims. I also had thumbed through all the magazines in the house, and was starting on the Sears catalog.

Suddenly, it occurred to me that the neighborhood store closes at 10:30 p.m. That's when I weakened. Boy, if you don't get 'em now, you're going to have to go all night without one, I said.

That prospect overwhelmed me. In a twinkling I was off and all those good resolutions were down the drain.

For a long time after that, I didn't even mention to myself the subject of quitting smoking. Then the cigarette makers came along, with all their ballyhoo about thinking people using only the new retractable filters with the millions of tiny fibers that trap all the tar and nicotine, letting only the clean, pure smoke through to the smoker's taste.

If the filters are that important, there must be something to these cancer and heart disease reports. I've made up my mind to quit—definitely, this time. Only thing, I just can't quite find the quitting place.

Keep The Hula And The Luau In Hawaii

There is scant literature about the life and times of a lady beachcomber (No, honey, Sadie Thompson was neither a lady nor a beachcomber.)

But now that Hawaii, beautiful, lovely, dreamy, hospitable Hawaii, is about to become, officially, the nation's fiftieth state, I must try to find out more about beachcombing as a career for my sex. Ever since I first visited Hawaii, I have been planning on becoming a beachcomber in my old age, and in Hawaii.

But why wait? Hawaii is the paradise where every schoolgirl wears orchids in her hair and every office boy sports one in his lapel.

And it is the paradise where the lavish beauty of nature and nature's God is uninhibited by billboards, which are forbidden in the archipelago. The ladies of the islands put up such a boycott against billboards years ago that they drove this nefarious institution into the sea.

I have only one serious reservation about the admission of Hawaii into the Union as a state, and it is a reservation that deals with self-protection for the islands and one of its most famous local products.

Sometime before Hawaii's star is sewed into the field of blue, either the U. S. Congress or the Hawaiian government should pass a hard and fast law, its violators to suffer capital punishment, that only native-born Hawaiians be permitted to do the hula-hula.

What I am aiming at is the suppression of stateside tourists, both male and female, who go to Hawaii, take six lessons from Mme. Lazonga, return home and for the next six months embarrass their friends and rejoice their foes with public seizures of the shakes.

These would-be hula-hipsters give the dance and the islands a bad name. For

the sake of future harmony with the new state, the visiting firemen ought to be confined to rock 'n' roll.

Another measure, in turn, to protect the mainland might not be a bad idea, either. The Hawaiians are partial to a native cook-out known as a luau. Unless this gustatory feast is confined to home base, millions of innocent citizens during the coming summer will have to eat a backyard version cooked by every barbecue-happy householder in the U.S.A.

The luau is a double cousin of the New England clam bake, only with island ingredients. (No one asked me, but it is my honest opinion that pol will never replace the Idaho baker on the mainland.) The first step in a luau is the digging of a sizable hole in the backyard. This is, in turn, lined with red-hot rocks and seaweed or wet leaves.

Now the various ingredients are piled in, layer upon layer, as in the New England version. Finally, the whole feast is topped off, not with lobsters as down east in Maine, but a whole, plump, full-grown pig.

After the pig is stretched across the top of all the other goodies, the whole thing is covered, as in New England, with a wet tarpaulin. Then the food slowly steams for hours.

I shall never forget, if I live to be a beachcomber, my first luau in Honolulu. It was given for a large group of visitors from the mainland. As we gathered around the barbecue pit, to hear Hawaiian chants, the silhouette of the long, plump pig was clearly outlined under the canvas.

One of the four guests, after a long look at the muffed pig, turned to the host and asked, in a loud, clear voice that emptied the patio, "Anyone we know?"

Dangers In The Military Cutback

WASHINGTON—Thanks to the Pentagon censor and the inevitable restraints imposed by the Berlin crisis, the current inquiry into our defenses is unlikely to bring into focus the real nature of the dispute over our preparedness or lack of it.

Put in the simplest possible terms the question posed is: Have our conventional forces been so cut back for reasons of economy that our capacity for limited war has been reduced dangerously close to zero and our entire reliance placed on nuclear retaliation? In other words, is the choice between suicide and surrender?

Gen. Maxwell Taylor, Chief of Staff of the Army, believes that the defense budget must be \$45 billion a year for five years if the Army is to overcome the grave deficiencies of recent years.

This is \$5 billion more than is in the President's defense budget for 1960. In General Taylor's view it would enable the Army to carry out a minimum modernization.

Some of this he spelled out in his testimony before the Johnson preparedness subcommittee. But the basic contention he put on the record in a speech last December. He said that 70 per cent of the equipment of the Army was of World War II or Korean War vintage or older.

As a result, he told an audience in Pasadena, Calif., the Army needs second-generation missiles, light atomic weapons, improved conventional weapons, many new types of air and ground vehicles, and improved and newly designed electronic communications equipment. It is vital also to plan the contingent use of air and sea lift for limited war. In short, the Army is equipped with the weapons of the last war to fight a new war on the ground. In contrast, the Russians have pushed modernization very far in their 175 ground divisions.

Of the four members of the Joint Chiefs of Staff, General Taylor is the only one due to retire, after two terms as Chief of Staff. The others, as continuing members of the Eisenhower team have a demand on their loyalty.

When he retires at the end of June General Taylor intends to take his case to the public. He will argue first in a series of magazine articles and then in a book that "massive retaliation" is a strategic trap into which the United

States has fallen. It is a death trap from which we must extricate ourselves if we are to continue to lead the Western coalition, he contends.

The odds would seem to be against his success. The power of the aircraft industry is very great and if the Eisenhower economy wall is to be breached, with or without the President's consent, it would seem likely the additional money would go into missiles or aircraft. How much interest the public is paying to the defense controversy is in any event questionable.

Yet, General Taylor's effort should not be entirely discounted. His predecessor as Chief of Staff, Gen. Matthew Ridgway, more than any single individual blocked those who were bent on an atomic strike when the French had dug themselves into the futile jungle post of Dienbienuh in the Indo-China war. The country's debt to him on this one score alone is great.

General Ridgway also made the case for a modernized Army of reasonable strength. While he was not reappointed to a second term as Chief of Staff he had had a wide and respectful hearing.

Before he retires, at the end of his second term, General Taylor will go to Europe for a lengthy meeting of NATO military planners. About mid-May he will be in Berlin. Ostensibly this will be for a formal farewell to the American troops stationed there.

In fact it will be a morale booster for the garrison. From 1949 to '51 General Taylor was commander of the American contingent in Berlin and he has a deep attachment to the city. When this spare, handsome soldier inspects the troops in battle formation with the deadline of May 27 only a few days away, it will be a moment of high emotion.

What is coming out of the current preparedness hearings should leave Moscow in no doubt—this country will not retreat from Berlin no matter how grim the choice. But a choice between suicide and a border province in Iran or the China offshore islands is something quite different.

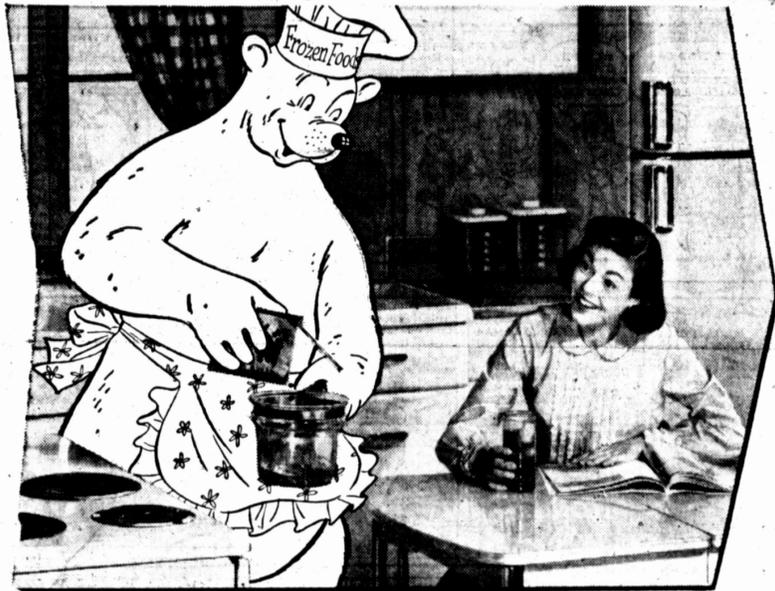

It is the case for readiness to meet the limited challenge that General Taylor wants to carry to the court of public opinion. (Copyright 1958, United Features Syndicate Inc.)

THE NEWSPAPER . . . ALL THINGS TO ALL MEN . . . AND BY ALL TAKEN FOR GRANTED

THINK OF RUNNING A HOME WITHOUT NEWSPAPERS

Take for example your own favorite newspaper. The index of its contents is an index of your interests . . . a listing of an and an answer to your wants. Help for you and your home!

Instead of struggling singlehandedly with scores of perplexities, the homemaker, thanks to your newspaper, has recourse to skilled experts galore, whose counsel and help is always at hand when needed. Food, health, child care . . . columns on these and many other home subjects are in your newspaper. Fashion, society, beauty, budgeting . . . the cavalcade of columns goes on. Included are entertainment, sports, stock market listings, the comics, everything from international commentaries to local obituaries. All this in addition to a bustling bundle of information about your community, your nation, your world, and the universe around you.

A modern realist has said: "One who drops a coin on the newsstand and picks up a paper buys a piece of himself every day." Look back a bit. Socrates stands in the first rank of philosophers, yet his ultimate advice to the world was "Know Thyself."

Today's great text book on self is your newspaper! Your taken-for-granted newspaper, is packed with living lessons on self . . . is the continuing study of man, his successes and failures, his glories and weaknesses, his inspirations and aspirations, his life and death . . . and yours, and ours! The daily record of our times, the lives of ourselves and our fellow men is found only in the print of our newspapers.

It's intensely interesting, this deepening drama of man and the world around him. Instructive too, because the truth in this newsprint text book are basic, and adaptable to every phase of our lives.

Newspapers help families live more intelligently, and help them to better enjoy living. They help them understand themselves, and their neighbors. They help them bear trouble and make money. And, because these printed text book truths are a record, not a recollection, they—more than any other daily expressions—find constant and repetaed use in the home.

DIARY OF THE WORLD . . . BOOKKEEPER OF ITS BUSINESS . . . DEFENDER OF ITS HUMAN LIBERTIES AND THE GREAT TEXT BOOK ON SELF! YOUR NEWSPAPER IS ALL OF THESE THINGS! THINK OF RUNNING YOUR HOME WITHOUT NEWSPAPERS!

'Hypnodrama' Show Slated
 The driving of a car by a blindfolded driver will be a pre-show feature of the "Hypnodrama" production scheduled for April 17. The event will take place in the downtown area.
 Sponsored locally by the Eagles lodge, a charity organization, the show will open at 8 p.m. in City Auditorium. Also preceding the show will be afternoon appearances in the public schools.
 The show will feature phenomena of hypnosis, including auto-suggestion, pain control, post-hypnotic suggestion, and age regression. These exhibitions of mental phenomena will be mixed with showmanship and a bit of humor.
 Since it is in an audience participation show, those selected to go onto the stage will be "taken" on a vacation to Florida, a trip to the movies, and will have a which, under hypnosis, enable the viewer to "see" through clothing.

Stereo Equipment Needs 'Ear' Test

By L. J. KRAMP
 Associated Press Staff Writer
 SUIT YOUR own ear and pocket-book, when shopping for a stereo pickup or loudspeakers. Although some are rated highest by the salesman, or by a consumer testing group, you may or may not agree with them. After all, it's you who will hear and pay for them. So shop around, and listen for yourself.
 This advice, old to monophonic hi-fi fans, has been repeated recently by the better dealers to newcomers buying stereo phonograph components in the wake of a consumer magazine's reports that only one stereo pickup and two full range loudspeakers were "acceptable."
 High fidelity experts say that choices such as these are entirely subjective, and no one can tell you which equipment sounds best, any more than he can tell you how much sugar to put in your coffee.
 This is not to say the highly rated items are not good. We have used two of them and found them deserving of high praise. The pickup, the Shure M3D, is a moving magnet type with very smooth response and tracking ability, and no objectionable features.
 However, we would say the same about the Fairchild 232, another magnetic pickup with moving coil, in the same price class. We also would have recommended it.
 One of the two top rated loudspeakers is the Acoustic Research AR-2, a low cost system of acoustic suspension design which our ears in a small room found very pleasing. At about \$100, it is a sealed cabinet 13½x24x11 inches weighing 30½ pounds and enclosing a woofer and two five-inch cone-type tweeters, with built-in crossover network. The AR-2 has proved a good second channel speaker. We particularly like its gutsy sound on highs, but you may not.
 A trade magazine recently put six hi-fi experts in the same room and separately played six concealed, different loudspeaker systems, including the "top rat-

Negro Actor Defends TV Religious Play

By CHARLES MERCER
 NEW YORK (AP)—To attempt to portray God as a human being in the theater is difficult and controversial.
 An intellectualized characterization of God currently is portrayed on Broadway in Archibald MacLeish's "J. B." Quite a different concept of God will be seen on television Monday March 23, when "Hallmark Hall of Fame" offers a repeat performance of Marc Connelly's "The Green Pastures" on NBC-TV.
 William Warfield, who portrays De Lawd in the production, said the other day "This is not an adult, intellectual portrait of God. It represents what a little girl in a small Sunday School in the South some time ago conceives to be God."
 Warfield, the noted baritone, played the same role in the 1958 "Hall of Fame" production of "The Green Pastures." Everyone in last year's all-Negro cast will appear again, except some of the Sunday School children who — as Warfield puts it, "just grew too big in one year."
 To appear on the TV program Warfield turned down an opportunity to play the lead in "Othello" at the Shakespeare Theater, Stratford-on-Avon, England.
 "But there's always a chance of playing 'Othello' again," he said, "and there's not always the chance to play 'The Green Pastures.' It's a wonderful play. Those who have qualms about it just don't understand it."
 He recalled that before last year's presentation the Negro press "took pot shots at the idea of doing 'The Green Pastures.' But after it received such universal critical and popular acclaim, nothing more was said. The criticism just died away."
 I asked him if he believed television would have produced the play if it had been written as an original.
 "I don't know," Warfield replied. "That's a pretty-generalized question and it's always hard to say what might happen to something under other circumstances. But I imagine that television might have been worried about the reaction of the Negro intelligentsia. There might have been fears that it presented the Negro as ignorant."
 "But to me it doesn't do that at all. It's child-like, but that's its charm. It's imaginative and beautiful."

Panel Snuffs Out Independents Bid

AUSTIN (AP)—A Senate committee apparently has snuffed out the bid by independent oil producers to require pipe line companies to make reasonable extensions of their gathering systems to unconnected wells.
 The near-certain kiss of death was plastered on legislation at midnight last night by the Senate Oil and Gas Committee after a 4½ hour battle between independents and major oil buying firms.

Rosy Future

AUSTIN (AP)—Independent oil producers see "increased domestic production, exploration and employment in the months ahead," as a result of the mandatory imports control program.

Singer Dies
 BIRMINGHAM, Mich. (AP)—H. Dean Yocum, 64, one of the two "Singing Sams" in radio's early days of popular programs, died Tuesday. Yocum and the late Harry Frankel, the original "Singing Sam" the "Barbasol Man," used to exchange the roles.
