Negro Rape Suspect Dragged Off By Mob

POPLARVILLE, Miss. (AP) - Gun-wielding terrorists - faces masked and hands gloved - dragged a screaming Negro who was charged with raping a white woman from his jail cell Saturday. They vanished into the dark and wooded hills of southern Mississippi.

"He did it," he said. The raiders dragged Parker from the building by his heels, his head bumping from steel tread to steel tread of the stairs. Blood flicked about marked progress of the party, a bloody handprint on the door step giving the last trace of Parker, who screamed and struggled as the getaway cars sped away.

Five terrified Negro prisoners watch the kidnaping under the harsh warning to "keep your mouth shut." The raiding party took the cell key from Sheriff Moody's empty office but needed directions from other prisoners to open Parker's cell.

Coahoma Votes \$695,000 Bonds For Schools

COAHOOMA - Patrons of the Coahoma Independent School District endorsed a \$695,000 bond issue for expansion of school facilities Saturday by a margin of nearly three to one.

Weakened Labor Controls Voted

Goldwater Is Lone Senate Dissenter

WASHINGTON (AP)—The Senate Saturday passed by an overwhelming 90-1 margin the Kennedy labor regulation bill aimed at routing racketeers and thugs from unions.

Not disturbed in the floor debate. The principal antiracketeering provisions would require unions to make detailed financial reports which would be open to public inspection; set up procedures for fair elections with secret ballots and a limitation on terms of officers; ban persons convicted of serious crimes from serving as union officials for prescribed periods; control trusteeships by international unions over locals and limit their duration; require employers to make public reports on their activities designed to influence labor disputes through middlemen and in other ways, and fix severe criminal penalties for false reporting and other violations of provisions of the bill.

White House Conferees

President Eisenhower and his new Secretary of State, Christian A. Herter, pose in Washington, D.C., at the White House. It was the first scheduled White House conference between the two since Herter was sworn in as head of the State Department. (AP Wirephoto.)

High Altitude Nuclear Ban Brushed Off By Khrushchev

MOSCOW (AP)—Premier Nikita Khrushchev says President Eisenhower's plan to halt nuclear tests at altitudes up to 30 miles "will not solve the problem." People would be justified in regarding such a ban, alone, "an unfair deal," he added.

pressed confidence that Macmillan would instruct the British representatives at the Geneva nuclear test ban conference to exert necessary efforts for a solution along the lines of the considerations set forth by the Prime Minister when he was in Moscow.

and in the air up to 30 miles. These are the tests that are easiest to detect and cause the most radioactive fallout. Under this Western plan, underground and space tests would be left for later negotiation.

Approximate figures announced by the board on improvements to be provided include \$170,000 for high school classrooms; \$50,000 for classrooms at M i d w a y school; \$150,000 for a gym; \$105,000 for an auditorium; \$50,000 for home economics and facilities; \$40,000 for vocational agriculture and shops; \$20,000 for land; \$30,000 to remodel junior high school; \$35,000 for furniture and equipment; and \$39,000 for contingency needs.

Mercury Zips To High Of 99

Friday's forecast of weather for Big Spring said it would be warmer on Saturday. It was. For the first time this season, the thermometer came dangerously near to the century mark. For three hours on Saturday afternoon, the temperature was 99 degrees. It was only after 5 p.m. that the heat began to yield reluctantly the grasp it had on the community.

T-H CHANGES

The measure passed Saturday makes the most extensive changes in the Taft-Hartley law since that act passed in 1947. Some of these changes are strongly desired by organized labor. The AFL-CIO had said it would fight the measure if the changes were not retained.

Herter Facing Test At First Conference

WASHINGTON (AP)—Christian A. Herter was reported resolved Saturday to push for a united Western front this week at his first international conference as secretary of state. At the same time, Herter and Sen. J. William Fulbright (D-Ark) chairman of the Senate Foreign Relations Committee, agreed there is no point now to including members of Congress in the U.S. delegation to the East-West Geneva meeting on the German crisis starting May 11.

abroad twice before during his two years as No. 2 man in the State Department and has had extensive international experience, the forthcoming negotiations promise to tax to the utmost the mettle of the successor to John Foster Dulles. The Paris conference, slated to start April 29, will bring together the foreign ministers of the United States, Britain, France and West Germany. The four powers are working on proposals to put to the Soviets at the Geneva parity.

LETTERS SENT

Khrushchev's letter replying to Eisenhower was handed to the State Department Friday and made public Saturday by the official Tass news agency. A similar message was sent to Prime Minister Harold Macmillan of Britain, who supported Eisenhower's stand. (A Radio Moscow broadcast heard in London quoted Tass as saying Khrushchev's message to Macmillan covered "much the same ground as the one to Eisenhower. It added, however, that Khrushchev was taking a "positive attitude" toward some Macmillan ideas on ending the deadlock over on-the-spot nuclear test ban inspection. It said Macmillan submitted these ideas during his recent visit to Moscow.

A bright burning sun, too powerful to be obscured by the wispy drifting clouds of the day, poured on its heat. The day got off to an early start—the official low on Friday night was a warm 65 degrees. Unofficially this was the hottest April 25 on record. Until yesterday's scorcher, the dubious distinction of being the hottest April 25 was held by 1943. The temperature on that date was 97 degrees.

Lung Surgery Viewed On TV

SAN FRANCISCO (AP)—An unidentified chauffeur who underwent an operation for lung cancer before the eyes of thousands of television viewers Friday night was reported doing fairly well Saturday.

Delaware Schools Ordered To Integrate First Grade

WILMINGTON, Del. (AP)—The State Board of Education has been ordered to integrate the races in Delaware's public schools one grade a year starting with the first grade in the fall.

LA Gets First Rain In Over 2 Months

LOS ANGELES (AP)—It rained in Los Angeles Saturday breaking a record spring dry spell of 62 days.

Tibetan Rebels Warned By Reds

TOKYO (AP)—Red China warned Tibetan rebels Saturday to surrender at once or be "wiped out, stock and barrel." Gen. Fu Chung, deputy chief of the Red army's political department, sounded the warning in a speech before the National People's Congress in Peking.

Unusual Hearing On Truck Limit

AUSTIN (AP)—Gov. Price Daniel said Saturday he would hold a public hearing Monday on the truck load limit bill. The governor's hearing was set for 8 a.m. The bill was sent to his desk after final passage in both the House and Senate. It increases the truck load limit to 72,000 pounds.

Big Spring Week

Another substantial contract for improvement at Webb AFB was assured of letting last week when it fell substantially under government estimates. The amount for runway and other improvements here and at the auxiliary field near Colorado City was \$1,234,632 on a proposal submitted by Peter Kiewit Sons Co. One of our constituents mails this long, long range weather forecast by a Cherokee chief. "Weather seems to be dry although we have five moons with three in the morning and two in the evening, and we will have 75 sandstorms this year with four already. Some will be mild and some will be rough. We might by accident have a little rain and maybe a little blustery spell." Sounds like the chief must have spent some time in West Texas. There is a popular misconception that homesteads in Texas are exempt from all legal action, including tax suits. Well, they're not sacrosanct when it comes to tax litigation as several scores found out last week when two waves of suits were filed for back taxes. Another round of suits is due to go into the hopper on Monday. The city's report on fire losses for the first quarter was good news. The insured losses stood at \$11,799 for the period, well under (THE WEEK, Page 6-A, Col. 4)

Arson Charged In Fire At Non-Union Coal Operation

HAZARD, Ky. (AP) - Fire, labeled as arson, knocked out a nonunion coal operation Saturday, while National Guard motorcades converged on the center of violence in eastern Kentucky's strike-bound coal fields. State police blamed the \$200,000 fire at the Ashle Coal Co. on arsonists. Some 24 hours earlier 450 pickets had threatened to take over the same plant - causing Gov. A. B. Chandler to send in the guardsmen. Only advance units of the four battalions moving in had arrived when the fire broke out. But vehicles carrying the rest of the 2,000 troops wound their way into the hill country during the day. Their arrival brought little apparent reaction. But a bystander here told Associated Press photographer H. B. Littell: "Look at the kids they're sending in here to handle a bunch of unhappy men. Somebody's going to get hurt before this thing is over." Maj. Gen. J. B. Williams, Kentucky adjutant general, said when told of the statement: "These kids can grow up mighty fast. They are trained to work as a unit. They will work in concert with older men, many of them veterans of World War II and the Korean War." After conferring with his staff and state police, Williams announced guardsmen would be concentrated here and near Whitesburg. He said state police would patrol the area and guardsmen would be moved in force wherever necessary to "maintain law and order and keep roads open." Williams asserted the guardsmen are not strikebreakers and will not be used as watchmen at individual coal operations. Two counties have produced much of the violence in the seven-week-old strike over United Mine Workers demands for a \$2 daily pay raise—to \$24.25—and a ban on union operators' processing coal from nonunion mines. A nonunion operator and a truck driver have been slain. UMW members were charged in both cases. Lamesa Child Is Struck By Car LAMESA - Elissa Landers, 4-year-old daughter of Mr. and Mrs. L. E. Landers, is in the Medical Arts Hospital as a result of being struck by an automobile at 10:05 a.m. Saturday. Her condition is not believed to be serious. The child raced into the street in front of her home between two parked cars. She was struck by a car driven by Harry Everheart, 16, Lamesa. The father and grandfather of the child witnessed the accident. No charges were filed against the driver.

Delaware Schools Ordered To Integrate First Grade

LA Gets First Rain In Over 2 Months LOS ANGELES (AP)—It rained in Los Angeles Saturday breaking a record spring dry spell of 62 days. By midafternoon, .03 of an inch had fallen at the Weather Bureau's downtown station. The last measurable rain fell in the city Feb. 21. Collision Kills 7 FOGGIA, Italy (AP) - Seven persons were killed and 27 others were injured when a bus and a heavy truck collided near here Saturday.

GIANT SYSTEM OPENED Ships Of Seven Seas Sail New St. Lawrence Seaway

MONTREAL (AP) - The St. Lawrence Seaway, a giant system of canals and locks that reaches to the Great Lakes and the heart of North America, was opened Saturday to ships from the seven seas. The 475-million-dollar project had been debated by the U. S. and Canadian governments for 50 years, then was completed by 15,000 workers in five years. The 5,678-ton Canadian icebreaker D'Iberville, a veteran of the Arctic, carrying officials, Canadian parliamentarians, U. S. senators and congressmen and newsmen, raised anchor shortly after 8 a. m. and moved into the seaway entrance at Montreal's Jacques Cartier Bridge. The D'Iberville was not needed to crack ice, for there wasn't enough to bother. She led at a stately pace a 33-mile-long queue of 55 ocean-going ships, flying the flags of many countries, and 23 canalers. Car horns honked, ships blew their whistles, and hundreds of onlookers waved as the D'Iberville inched into the St. Lambert dock, the first of seven that will lift the convoy a total of 224 feet to the level of Lake Ontario. At Ogdensburg, N. Y., at the western end of the Massena Locks another flotilla of 33 Canadian cargo ships started their east-bound passage of the seaway. There were no formal ceremonies to mark the opening of traffic to Great Lakes ports as far as 2,400 miles inland. The formal dedication will be June 26 when President Eisenhower and Queen Elizabeth II of Britain will participate. The old locks, some built 50 years ago, took the ships around a series of rapids in the St. Lawrence River. Now the deep, broad seaway, with its big canyon-like locks, will take ships up to 730 feet long carrying 25,000 tons of cargo. The old canals would take ships only up to 14-foot draft, and very few ocean-going vessels could pass.

Steer Cheering Section

These five girls will be the junior and senior class cheerleaders for Big Spring High School next year. Left to right are Shirley Terry, Celia Grant, Modesta Simpson, Kay McGibbon and Mary Read. Junior high schools will choose sophomore members of the corps.

Six In Family Perish In Fire

CALHOUN, Ga. (AP)—Six persons, including four children whose mother is seriously ill, burned to death near here today when fire destroyed the frame house in which they were sleeping.

Two little girls escaped from the inferno in the Hill City community west of Calhoun and about 40 miles southeast of Chattanooga, Tenn.

The dead: Mrs. Clemmie Ruth Simmons, 34; Betty Stone, 19; Peggie Waldrop, 10; Blanch Waldrop, 6; Bradley Waldrop, 4; Douglas Waldrop, 2.

The two who escaped were identified as Wandra Waldrop, 7, and Judy Ann Holt, 8, daughter of Mr. and Mrs. Cephus Holt of the nearby Sugar Valley community.

The Waldrops are children of Mr. and Mrs. F. F. Waldrop, who are in Atlanta where Mrs. Waldrop was undergoing serious surgery at St. Joseph's Hospital.

Mrs. Simmons was staying at the Waldrop home with the children as was Betty Stone, a half-sister of Waldrop.

Sgt. E. M. Whitfield of the Georgia Bureau of Investigation said preliminary evidence pointed to the explosion of a kerosene stove as the cause of the tragedy.

Seeking Settlement Of Airport Rights

Howard County Commissioners have hopes that a conference scheduled Monday may bring an end to the long negotiations over aviation rights at the Howard County airport.

The commissioners have invited the 15 property owners whose lands are adjacent to the airport and on whose property restrictions as to structures will be applied, to come to the county court house Monday at 10 a.m.

The court has drawn up an estimate of the dollar damage each property owner stands to suffer as a result of the building restrictions the aviation problem poses. The commissioners will submit these offers to the property owners and where agreements can be reached, settlement will be made and easements signed.

If a property owner refuses the county offer and an agreement cannot be reached Judge Ed Carpenter will have to appoint a special appraiser commission to determine the amount to be paid.

Such action would be by condemnation and if condemnation offers are issued, the property owner would be forced to either accept the appraisers figure or go to county court to seek a better adjustment. Under either course of action, the county would immediately obtain control of the land involved.

It is possible the county will buy a few additional acres of land at one end of the present airport. Engineers show that the owner, on this particular tract of land, if it is not acquired by the county, would be unable to build any structure higher than five feet.

On certain other pieces of property in the approach areas to the airport, the altitude of structures which could be erected ranges up to as much as 40 feet and more.

Civil Aeronautics Authority requires that the aviation easements halting any construction above specified elevations be obtained before the airport can be given final approval.

Prints Identify Amnesia Victim

Fingerprints of the amnesia victim who wandered into the sheriff's office on Wednesday afternoon have established that he is Milton Cook Stapp, apparently of Moran. Stapp is 50 years old and has a daughter, Sara Stapp, living in Moran.

He is now in the Big Spring State Hospital for treatment.

Miller Harris, sheriff, said that the prints sent to the State Department of Public Welfare quickly established identification of the man.

City Council Will Face Heavy Agenda

The City Commission will be in a vehicle-buying mood when it gathers Tuesday at 5:15 p.m. for its regular bi-weekly conference. During the meetings, bids will be received on three pickups and a car. The commission also will discuss employment of a firm to handle as assessment paving program, consider replacing about 400 old parking meters, and talk about naming men to the CRMWD and zoning boards.

Two of the three pickup trucks to be purchased will go to the fire department, and to be traded in is one car now in use by the department. One of the pickups is to replace the car for general use, while the other is for the new fire marshal, A. D. Meador.

The third pickup will be for the sanitation department to replace an old model, and the new car will go to the police department in exchange for a car now in use. The city's policy is to trade police cars when the vehicles cover 50,000 miles.

PAVING ENGINEERS

The commission has narrowed the choice of engineering firm for the paving job to Thompson, Benson & Nash, a local firm, and Forrest & Cotton of Dallas. Mayor Lee O. Rogers appointed commissioners John Taylor and Paul Kasch to study the firms fully and report to the commission this week.

The job will entail collection of paving petitions, preparation of plans and specifications, in addition to handling the legal documents to go along with the matter.

The city's last assessment paving program was carried out in 1953.

Terms of two members of the CRMWD board expire this spring, and the commission will discuss the matter. Terms of Hack Wright and Curtis Driver expire — Driver being named last year to the unexpired term of the late R. T. Piner.

Also a vacancy has developed on the city's zoning commission, with Truman Jones resigning.

REPLACE METERS?

The city manager, A. K. Steinheimer, plans to recommend that the city purchase 390 new manually operated parking meters to replace a like number of another type which give some mechanical trouble.

Steinheimer said that the complaints are legion on these old meters, and he feels that more revenue and good relations can come by replacing them.

Steinheimer will also submit to the commission a recommendation that an ordinance be passed prohibiting use of intoxicants in any city park. He said that a large part of the time of park maintenance men is needed to remove the alcoholic beverage containers from the park, and it mars the beauty of the parks.

The commission will also probably consider filling the city attorney post. Results of state bar exams have been released, and the city is now in a position to narrow its list of a dozen applicants to the three or four most promising. These men will then be brought out for personal interviews.

Radioactive Waste Disposal Plan Opposed

AUSTIN (AP) — Dangerous radioactive matter may be washed up on the Texas and Mexican shores if the Atomic Energy Commission dumps waste material in the Gulf.

This was the report given the State Game and Fish Commission last week. The group declared its opposition to any such plan of the AEC until proven safe.

"This could do away with 100 years of conservation work by this commission. An accumulation of this type of material would in a short time be hazardous to those who desire to use the beaches or swim in the water," said Houston attorney E. W. (Jack) Newman.

Newman is a director of Sportsmen's Clubs of Texas which intervened in a hearing on the matter earlier this year in Houston.

He told the commission: "Once you pollute a place with radioactive material it's entirely different from being polluted with oil and gas. If you stop the source you can remedy it and reactivate your area with marine life. But in the case of radioactive material, once you reach the point of contamination, you set up a contamination that exists from here on out."

He said fish absorb radioactive material many times greater than the radio of the substance in the water. Eating fish or other marine life which have been in such water "could kill you."

The industrial Waste Disposal Corp. of Houston applied to the AEC for a license authorizing it to receive, process and package waste by-product radio active material and dispose of it in the Gulf. A decision on application made at the Southern hearing will be made early in May.

"The AEC has polluted rivers and streams in the East, including the Ohio River, from radioactive jackets. They now are looking at Texas as a clean, open place to come and dump this material. Unless the citizens of this state get busy in a hurry they are going to do that very thing," Newman said.

Odd Question

COLUMBUS, Ohio (AP)—John Volz, a defendant on the losing end of a civil suit, had just one question for Municipal Court Judge Wilbur L. Shull after the judge ordered him to pay a gas station operator \$96.31. The question: Was he, Volz, entitled to trading stamps for the amount he had to pay? The answer: No.

Princess Meg's Rome Visit Takes On Aura Of Romance

ROME (AP)—Princess Margaret bade a private farewell to her Italian prince Saturday, then flew off to Paris in a pool. The story is that mama upbraided her for staying too long at the prince's villa.

papers said she was leaving her heart behind in custody of Prince Henry of Hesse, handsome and 31. One paper said you could expect an engagement announcement before too long.

The prince did not see Princess Margaret and Queen Mother Elizabeth off at the airport. The more romantic Roman newspapers said the prince, the 28-year-old British princess' almost constant companion on her gay, five-day holiday in Rome, might follow her to Paris. If he does he'll have to hurry. She leaves Paris Monday for London.

Feature Artists

Nationally recognized hair stylists, Grace Duran and Gerald Raisch, above, will be featured at the District II convention of the Texas Assn. of Beauty Culturists here next weekend. Miss Duran, Hollywood, Calif., is co-owner and director of the Corner & Duran Beauty Schools. She is an author and teacher and has lectured throughout this country and abroad. Raisch, Mason City, Iowa, has been a national coiffure creation competition winner and is platform artist and style director for the Iowa Hair Fashion Committee. The two will be on the program for two days of the local meeting. More than 600 hair stylists are expected, said Gordon Wheeler, president of the local unit.

Cashier For Finance Firm Named In Embezzling Case

SHERMAN (AP)—Mrs. William Don Huffman, 26, was free under \$1,000 bond Saturday on a charge of embezzling funds of Commercial Credit Corp. here, where she formerly was cashier.

Sampson said grand jurors took no action on two other complaints charging Mrs. Huffman with embezzling \$296.66 and \$1,791.89 between Oct. 1 and Jan. 8.

Officers arrested her Friday after she was indicted by the 15th District Court grand jury on a count of taking \$485.30. Assistant County Atty. Kellis Sampson said the finance firm reported an audit early this year disclosed an \$8,702.29 shortage.

In a letter to the grand jury, Mrs. Huffman said \$6,000 to \$8,400 was left overnight in her office desk last October. Next morning, she wrote, the money was missing.

29,000 In Crowd Hearing Graham

SYDNEY, Australia (AP)—Billy Graham preached Saturday night to 29,000 persons in the worst weather of his Sydney campaign. It was his second young people's night, but many of those present were bemuddled ex-servicemen who earlier had attended Anzac Day ceremonies commemorating the part played by Australian and New Zealand troops in the Dardanelles campaign in World War I. Among the crowd, 2,065 made decisions for Christ.

She said her reaction was one of frightened disbelief, and she decided to tell no one about the money's disappearance. "I know it was wrong to cover the loss that was no doing of mine," Mrs. Huffman's letter stated.

She and her husband have four children. Sampson said the probe disclosed a family expenditures exceeding the combined income of Mrs. Huffman and her husband, and there was no evidence of outside income.

Woman Injured

HURON, S. D. (AP)—Mrs. James B. Wooder of Seabrook, Tex., suffered injuries Saturday when four cars of a North Western Railroad passenger train derailed 15 miles west of here.

Mental Health Week Includes Hospital Tours

Five tours through the Big Spring State Hospital will be conducted this afternoon to mark the beginning of Mental Health Week. All over the state the mental hospitals are being opened to tours in what officials have dubbed Operation Friendship.

It is aimed at bringing to hospitals as many visitors as there are patients, and in Texas that would be 16,000. "Operation Friendship" is probably the largest joint national venture ever undertaken by health and welfare organizations in this country's history," said Dr. Paul Southern, president of the Texas Association for Mental Health.

Purpose of visiting the hospitals is two fold, said Dr. Southern. It demonstrates to the mentally ill that their relatives, neighbors and friends really do care. Then there is the opportunity to observe what goes on in a mental hospital and to learn of new and hopeful developments in treatment of mental illness which strikes more Texans than all other disease combined.

Open house will be observed from 1 p.m. to 3 p.m. today with tours at 30 minute intervals. Touring groups will be limited to 30. Midway in the tour, there will be a stop at the central kitchen-dining hall where "A Letter to Pat," a special Mental Hospital Development Association film, taken mostly at Big Spring State Hospital, will be shown.

During the week there will be one tour each afternoon at 2 p.m. but on Tuesday there will be several tours. All the tours will begin at ward No. 8 and there will be signs directing traffic to that point and where to park. Volunteers and staff members will assist in the tours.

Mexico Shook Up

MEXICO CITY (AP)—Mexico had the shakes during the International Geophysical Year. The Geophysics Institute of the University of Mexico reports 408,309 earth shocks were registered by delicate new instruments recording minute movements undetected previously.

Thomas Typewriter and Office Supply Has Royal Typewriters To Fit Any Color Scheme. Budget Priced

East Fourth St. Baptist Church's Building And Grounds Committee will receive bids at Church Secretary's office on one 3-room cabin building to be moved, which may be seen at Old Baptist Youth Camp near City Park. Gas range, butane tank, heater, piano, chairs and tables reserved. Bids to be opened Wednesday, April 29, 5:30 p.m., with rights to reject any and all bids. Lee Nuckels, Chmn.

Press Worker

Ruth Abat, journalism senior at Texas Woman's University and daughter of Mr. and Mrs. W. A. Abat of Big Spring, is shown as she worked as press room courier and assistant during the opening of the Southland Center in Dallas. She was one of three students designated at TWU for an "on-the-job" training project created by the Cain Organization, a public relations firm which handled the big opening event. Miss Abat is business manager of the Daily Lass-O, TWU student newspaper.

State Retail Sales Climb During March

AUSTIN (AP)—Earlier Easter shopping helped boost Texas' March sales, the Bureau of Business Research said Saturday. Retail sales totaled \$1,062,600,000—a 14 per cent increase from February and 9 per cent higher than March, 1958. Retail sales the first three months this year, \$12,937,000,000, were 7 per cent ahead of last year's \$12,238,000,000.

higher than the 1958 average month, and non-durable goods, 222, up one from February and 14 higher than the 1958 average month.

Both durable and nondurable good stores reported sales increases in March from February ranging from 2 to 57 per cent," the bureau said. "The exception was jewelry stores, reporting a 3 per cent decline." The highest increases were motor vehicle dealers, up 27 per cent, and building material dealers, up 20. So far this year, motor dealers up 19 per cent, and building materials dealers, up 20, also show the best increases over 1958.

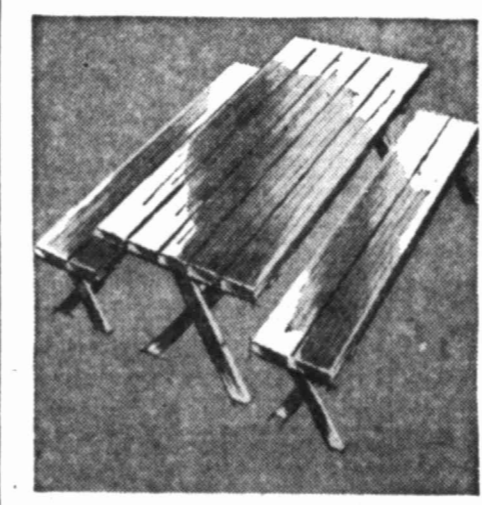

"March sales by Texas department and apparel stores were 30 per cent above February and 11 per cent ahead in the same month a year ago," the bureau said. "For the first three months of 1959, sales were 8 per cent above the same period last year." Retail sales in 24 of 25 cities were up last month over March, 1958.

Carburetor Saves Gas By "Jet-Ing"

Car owners who are wasting money and not getting proper gas mileage due to over-rich mixtures will be pleased to learn of a Wisconsin inventor who has developed a very clever unit that saves gasoline by "Jet-Ing and Vacuumating." It is automatic and operates on the supercharge principle. Easily installed in a few minutes. Fits cars, trucks and tractors. The manufacturers, the Vacuumatic Carburetor Co., 7617-839-A State St., Wauwatosa, Wis., are offering a Vacuumatic to anyone who will install it on his car and help introduce it to others. They will gladly send full free particulars if you write them or send your name and address on a post card today. (Adv.)

Mud and massive loads stop other trucks—but not this Chevy!

Chevrolet tandem slogs through deep mud to deliver huge load.

F. F. Kirchner, cement block manufacturer of St. Ann, Mo., has this to say about his Chevy 10703 tandem: "Fully loaded we're up over 40,000 lbs. GVW and at most excavation sites we have to move through soft sand and mud... My driver tells me he always gets through, too, even where other, bigger trucks can't make it!"

Statements like this are typical of Chevrolet truck owners across the country. Their enthusiasm for Chevrolet's "git-up-and-go" is well founded in fact—they've seen how Chevy tames their toughest jobs in record time.

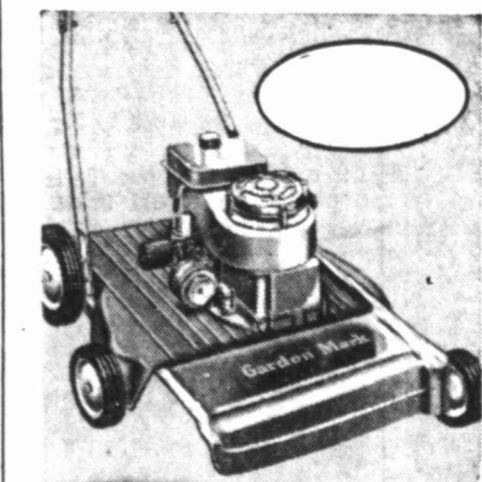

For the right truck and components to handle your tough job, contact your local Chevrolet dealer. He'll prescribe the correct cost-cutting Chevy combination that'll make your toughest job look easy.

No job's too tough for a Chevrolet truck!

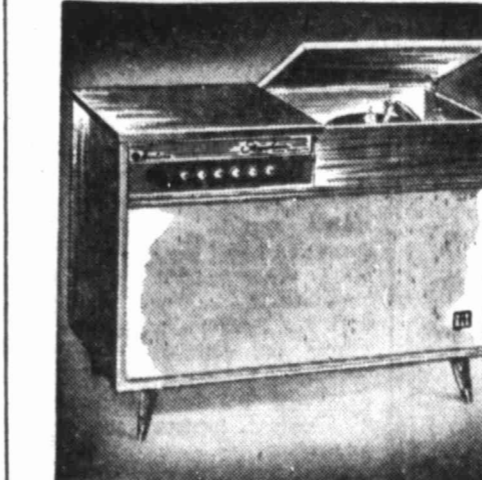

For a "Spring Sales Spectacular" deal see your local authorized Chevrolet dealer!

State's Tax Program Now Up To Senate

AUSTIN (AP)—The State Senate holds the key to Texas' official financing problem. It may or may not choose to use it quickly.

The House last week admitted it could not pass a workable tax bill. It was so closely split that desperate efforts by leaders failed even to win final approval of the inadequate measure. Backers were apologetic and opponents unyielding.

As a result, the Senate will not have a chance to go to work on

the finance puzzle until after Monday. That is when the House is scheduled to take final action on the remnants of a general tax bill HB727.

If the Legislature manages to pass a tax bill, it likely will be one that the Senate writes.

HB727 squeaked through second reading in the House, 73-72, after opponents undercut its foundation with 60 amendments.

If the bill gets the usual time-eating public-hearing treatment in the Senate, chances that the Legislature can finish its job by May 12 final adjournment are slim. The Senate could do a rush job if it wants to. This is unlikely.

Gov. Price Daniel clings to the hope the lawmakers will solve the financial problem before May 12.

"It is possible and every effort should be made in this direction," he said.

17 1/2 MILLION

The House tentatively approved last week a 17 1/2-million-dollar deficit-erasing bill backed by the governor. It also must be finally approved before it can go to the Senate.

Pending in the Senate is another of the governor's anti-deficit bills. This is a bookkeeping measure designed to help put the state on a cash basis.

While money matters are the most important on the calendar, the House faces many other vital decisions.

When it recessed Friday, it was debating a bill to set maximum working hours for firemen in cities over 10,000. A water safety measure and an advertise Texas bill were high on its floor agenda.

Many important bills were up for committee action.

A Senate-approved freedom of information bill (SB66) is set for Monday night in the House State Affairs Committee. It was written originally to guarantee open public meetings and records. As amended, it would close such meetings when they involve "public security" and "financial interests."

To Sing Here Today

The Abilene Christian College A Capella Chorus is to present a program at 2:30 p.m. today at the 14th & Main Church of Christ. Appearance of the choir here will be its first on a 10-day tour which will take the 50-voice unit through three states and over some 2,000 miles for 17 concerts. The choir, one of three major vocal organizations of the ACC department of music, is the second oldest college choir in Texas. From 1932 until last year when Vernon Moody took over, it was under the direction of Dr. Leonard Buford, its founder in 1922. Today's concert will be primarily in religious compositions. Moody is shown here working with part of his group.

SAFETY RULES LISTED

Law Violations Blamed For 80 Pct. Of Bicycle Accidents

CHICAGO—Most bike riders in accidents with motor vehicles are violating traffic laws.

"In four out of five accidents, the bicycle rider is violating a law," the National Safety Council asserts. The conclusion was obtained from a council study of the circumstances of bike accidents in the United States. Forty-two states took part in the study, and provided this information:

- 1) Between 400-500 bike riders are killed each year in accidents with motor vehicles. More than 25,000 bike riders suffer disabling injuries.
- 2) More than eight out of 10

victims are under 16 years of age.

- 3) Nearly nine out of 10 are males.
- When do bike accidents happen?
 - 1) Seven out of 10 occur during April-September.
 - 2) Seven out of 10 occur during daylight hours.
 - 3) They occur most often on Saturday, least often on Sunday.
- Strangely enough, the council pointed out, in one accident in three the bicyclist struck the motor vehicle.
- The 42 states taking part in the study rejected almost unanimously a proposal that bicyclists ride on the left side of the street facing traffic. The states surveyed favor bicyclists riding on the right side, and following all rules and regulations pertaining to other vehicles.

What suggestions does the council have to keep bike riders safe?

- 1) Obey traffic laws — traffic lights and signs are for bike riders, too.
- 2) Stay on the right. Ride with traffic.
3. Ride single file. Never zigzag.
- 4) Make sure your bike's in good condition.
- 5) When traffic is heavy at a corner, get off and push your bike across the street. Stay within the crosswalks.
- 6) Don't ride your bike at night unless you have to. And then, make sure your bike has a light and rear reflector. Wear clothing that is light colored or that shines in the dark so you can be seen easily by motorists.

Hubert Feeling Pulse Of West

LOS ANGELES (AP)—Sen. Hubert Humphrey (D-Minn) sniffed the political winds here Friday night, belaboring Republicans, praising Democrats and dodging questions about his presidential ambitions.

Before addressing a formal \$15-a-plate party dinner, he told newsmen: "I plan to take a good, searching look at the political situation before making any decision (about running for president)."

Humphrey said he had received a fine reception in the West but avoided making any estimates of his own strength.

Who was the leading Democratic candidate, excluding himself? "I think Adlai Stevenson tops the list," Humphrey replied. "I think Stevenson is the most respected, if he wants to be a candidate."

Who's No. 2? "I'm not very good at depth," he answered. "I'm better at looking at the top of the water."

Would he welcome Sens. Kennedy and Symington entering the Minnesota primary? "I'm fond of both Kennedy and Symington," Humphrey said. "I'm not against any Democrat."

Retiring? Here's How To Speed Up Social Security

Are you planning to retire and apply for your social security payments?

In figuring the monthly benefits payable to workers who apply in 1959, the social security office must take account of wages and self-employment income received by the worker up through the end of 1958. H. P. Thomas, manager of the Odessa social security office, said. Workers now applying for their retirement benefits can help speed the delivery of their first social security checks if they will bring with them their withholding slips (Form W-2) for 1958, when they call at the office to file their claims.

If a claimant for benefits is self-employed, he should bring with him a complete copy of his in-

come tax return for 1958, including Schedule C, which details his business income and expenses. He should also bring a cashier's receipt, cancelled check or other evidence showing that he has paid his 1958 income tax.

Thomas pointed out that earnings for years before 1958 have already been posted to the worker's individual social security account, but sufficient time hasn't elapsed for 1958 earnings to be credited. This is especially true of 1958 self-employment earnings.

He also suggested that the retiring worker bring to the office any available documents which show his age or date of birth. While a birth or baptismal certificate based on a record made at the time of birth is preferable, the agency accepts many types of evidence such as life insurance policies, naturalization certificates, union, hospital or lodge records, etc. Such a record should be several years old and show the date it was made as well as the worker's age or date of birth.

Workers who have reached retirement age, 62 for women or 65 for men, were invited by Thomas to call at the social security office to file their claims, or to discuss any social security problems they may have.

Convention Key

Chub Jones, Big Spring Jaycees' retiring president, receives the symbolic key to the city of Fort Worth from Jean Williams, Miss '59 State Jaycee Convention. Several Big Spring Jaycees plan to attend the convention which opens Wednesday in Fort Worth. Principal speaker will be Frank G. Clement, former governor of Tennessee.

Wasson Funeral Set For Monday

Funeral for J. W. Wasson, 84, has been set for 2 p.m. Monday at the Nalley-Nickle Funeral Chapel.

Mr. Wasson died here early Friday.

Rites will be conducted by the Rev. Mack Alexander and burial will be in Trinity Memorial Park.

Mr. Wasson came here around the turn of the century and then migrated to Montana in 1909. Returning to Big Spring in 1937 he has made his home here continuously since.

New Uses For Mohair Must Be Developed

AUSTIN (AP)—New uses for mohair must be found to increase its market value, the Bureau of Business Research said Saturday. Texas clipped 97 per cent of the nation's total last year.

"Future apparel styles predicated on fabrics resulting from experiments blending mohair with synthetics, wool or cotton would, of course, increase the market for mohair," the University of Texas bureau said.

"Otherwise, future market demands will likely expand or contract depending on how well mohair competes with synthetics without sacrificing price."

Blending mohair in new fabrics holds the most promising future, research assistant Walter Gray wrote.

Texas' more than 8,000 Angora goat raisers clipped a record 20,207,000 pounds last year. This was a 10 per cent increase over 1957.

Total value of the 1958 Texas mohair was \$13,741,000, down from the \$15,483,000 value of the 1957 clip. The 1957 average price was 84 cents, compared to 68 cents last year.

Mohair, classified as a specialty fiber by textile manufacturers, is limited in use, Gray said, adding: "Extensive use of less expensive fibers, chiefly nylon and rayon, and the changed styles which have resulted therefrom, have nearly eliminated mohair from its once primary markets — automobile and furniture upholstery."

Texas clipped 3,247,000 goats last year, compared to 3,062,000 in 1957. Long-range selective breeding also increased the fleece weight.

"It is noteworthy that Texas leads the nation in not only mohair production, but also in the output of cotton, wool and the material from which synthetic fibers are made—and each of these competes strongly with the others," the bureau said.

Surgeons Visit

SAN ANTONIO (AP)—Twenty-five foreign air force surgeons will visit here Thursday for tours of the Aviation Medicine School at Randolph AFB and the Air Force hospital at Lackland AFB. They will be led by Maj. Gen. O. K. Niess, U. S. Air Force surgeon general.

Stroller—Vintage 1890

This is National Baby Week and one of the displays in its observance is this 1890 baby carriage at the Kid's Shop, Ann Worthy, daughter of Mr. and Mrs. Jerry Worthy, 1610 Main, finds the vehicle equipped with adjustable umbrella, carpet, wheel lock and padded upholstery.

Dawson Sets Pace On U. S. Bond Sales

Dawson County set the pace for the entire El Paso area in United States Savings Bonds sales during the first quarter.

The \$61,743 for the three-month period was 54.2 per cent of quota, which not only led all of district No. 14, said Larson Lloyd, district chairman, but also topped the 49.2 per cent in Schleicher and the 46 per cent in Culberson County.

District sales of \$170,267 brought the year's total to \$468,142, or 23.9 per cent, said Lloyd. This compared with 24.8 per cent for the state as a whole. State sales in March stood at \$14,096,267, making the year's figure \$45,196,593.

March sales, with the cumulative total and percentage of quota for

district No. 14 follow:

Andrews \$3,061 and \$8,817 for 13.3; Dawson \$4,785 and \$61,743 for 54.2; Gaines \$24,133 and \$51,301 for 36.6; Howard \$85,981 and \$169,999 for 19.9; Martin \$853 and \$6,330 for 12.4; Mitchell \$26,286 and \$85,995 for 29.6; and Scurry \$25,164 and \$83,954 for 19.6.

Other West Texas counties include Ector \$37,672 and \$132,094 for 13.5; Midland \$42,965 and \$163,698 for 15.3; Coke \$7,170 and \$11,810 for 14; Reagan \$1,101 and \$3,973 for 11.3; Sterling \$530 and \$2,140 for 10.7; Tom Green \$88,366 and \$275,344 for 20.7.

Jury Commission To Work Monday In District Court

Jury commissioners for the 118th District Court have been notified to report to Judge Charlie Sullivan at 9 a. m. Monday. The new commissioners are to draw names of 20 persons for grand jury duty; 360 names of persons for petit jury duty.

The commissioners named by Judge Sullivan are Tommy Gage, Matt Harrington, Glenn Cantrell, Clifton V. Cook and Ed Fisher.

Judge Sullivan asked that six panels of 60 names each be chosen for petit jury duty for the June term which opens on the fourth Monday in that month and runs through July and August. This is one of the shorter terms of the court year. Judge Sullivan has scheduled four weeks of civil jury cases and two weeks of criminal cases for the term.

The new grand jury for the June term will be empanelled on June 29.

Dr. Elliott Will Be Baccalaureate Speaker At Tech

LUBBOCK — Dr. William M. Elliott Jr. pastor of the largest congregation in the Presbyterian Church (U. S.), will deliver the baccalaureate sermon for Texas Tech's 33rd annual spring commencement.

The widely-traveled minister of Highland Park Presbyterian Church, Dallas, will speak during services at 8 p. m. on May 31, in Jones Stadium on the Tech campus.

A former moderator of the Presbyterian (U. S.) General Assembly, Dr. Elliott has made two trips to the Far East for its World Missions Board, surveying missions in Japan, China, Korea and Taiwan.

Citizens Traffic Commission Seeks \$1200 For Year's Work

A campaign for wider public support of a stepped-up program of traffic safety is being launched by the Citizens Traffic Commission.

An intensive effort will be made to raise \$1,200 for the year's operations, on the basis of \$10 sustaining memberships.

First of these came in Friday noon at a luncheon meeting of the CTC, with Mayor Lee O. Rogers signing as a sustaining member. Said Rogers, who was first chairman of the CTC when it was organized here in 1953: "I am acutely aware of the need for a program to educate the public to drive safely. It is my hope that the CTC reaches its goal of \$1,200 so that its work can be more effective than ever. Actually, just a little help from many people will make

this campaign a success."

Rad Ware, new CTC chairman, said "Our organization is trying to bring about more safety in traffic and needs and deserves the public's support. It is a citizen organization composed of Big Spring people, and is an instrument of the public. It can accomplish only what the people want it to accomplish. We need all the help we can get, and the \$1,200 we are seeking this year will barely cover the essentials of an effective program."

Lewis Price is finance chairman directing the current subscription campaign. "We would like to have 120 firms and individuals to enroll at only \$10 per year," said Price. This is the minimum for a sustaining membership. Smaller subscriptions will be accepted, of course, but sustaining membership

cards will be issued only to the \$10 subscribers.

"We invite participation from everyone. Those who are not personally contacted are invited to call James Eubanks, executive secretary of the CTC at AM 4-2911, or to send a check to the Citizens Traffic Commission, Box 391."

Others attending the Friday session were Roy Reeder, Capt. L. R. Simpson, Larson Lloyd, Ted O. Groehl, Mrs. Obie Bristow, Mrs. Larson Lloyd, Tom South, B. T. Faulkner, C. O. Nalley, Walter Stroup, Randall Polk, Arnold Marshall.

Labor Dept. Pegs Cotton Picking Rate In Valley

DALLAS — The U. S. Department of Labor announced Saturday that \$2.30 cwt. would be the minimum acceptable opening wage rate under which Mexican National workers would be certified to pick cotton in Texas' Lower Rio Grande Valley.

Regional Director Ed McDonald of the department's bureau of employment security here made the announcement following department decisions relayed by BES Director Robert C. Goodwin in Washington.

The announced purpose was to assure compliance with the Department's piece-rate earnings policy of 50 cents an hour — commonly known as the "90-10" policy.

Established last year to avoid adversely affecting wages of domestic workers, the policy applied only to employers of Mexican Nationals engaged on a piece-rate basis. The rate was to have been enough to yield 50 cents an hour to contracted workers of normal competence who applied themselves diligently.

The Department ruled the policy had been met if 90 per cent of such workers averaged 50 cents an hour for each day period. During last year's cotton harvest, employers of Mexican Nationals were urged to comply voluntarily with the 90-10 policy.

But only a few did so, the Department reported. Payroll audits during and after the season showed that the customary \$2.05 cwt. for picking cotton produced wages well below 50 cents an hour. And investigations showed that no rate less than \$2.30 cwt. could be expected to meet the department's policy, department officials said.

McDonald pointed out that the decision means that employers must offer the \$2.30 rate to de-

domestic workers before Mexican Nationals can be authorized. Also, after the first full week of the cotton harvest, no offering to domestics may be less than that which meets the 90-10 policy for Mexican Nationals.

He said Goodwin's message contained three policy decisions: (1) those few employers who complied with the department's wage policy in 1958 may open at last year's rate, (2) for all others the opening rates will be \$2.30 cwt. with an addendum requiring compliance with the piece-rate earnings policy for each payroll period, and (3) these provisions apply only to 1959 with no commitments for 1960.

Church History Prof Heads Presbyterians

ATLANTA (AP)—A professor of church history, the Rev. Ernest T. Thompson of Richmond, Va., is the new head of the Presbyterian Church U. S. (South).

The 65-year-old native of Texarkana, Tex., was elected Thursday night as moderator of the court of the church, the 99th General Assembly, to succeed Philip Howerton of Charlotte, N.C.

The new leader of the denomination's 873,000 members in 19 states and the District of Columbia has taught at Union Theological Seminary in Richmond since 1925.

C-City JayCees Install Officers

COLORADO CITY—Lewis Timberlake, Stamford, state vice president, installed new Jaycee officers at Colorado City Thursday night following a banquet at the Civic House.

Wayne Worley, ASC employee, was installed as new president succeeding B. J. Williams, insurance man.

Other new officers were Don Benson, first vice president; Henry Lewis, second vice president; James Hull, secretary; Harold Oliver, treasurer, and Ernie Larmer, Civic House treasurer. Williams,

the outgoing president, will become the state director.

New directors of the organization are: Bob Riley, Drew Ballard, Cummins Wood, Seth Cowan and Lewis Williams. John Grubbs, an ex-president of the organization, was presented a special award for 12 years of outstanding service to the organization.

Damages Suit Filed

Hiram Reid and his wife have filed damage suit against Jack Mitchell Van and Storage Co. The suit asks that the Reids receive \$41,250 damages as result of injuries they say they suffered in a traffic accident at E. 2nd and Nolan last Dec. 28.

Pleasure Spot About Ready

The private swimming pool of the Richard M. Johnsons, 600 Dallas, will soon be completed. Construction has been under way for about four weeks and all that remains is the pouring of the concrete walls around it and the piping of gas to the heating system. It is one of the more than 50 private pools in Big Spring. Johnson is a vice president of Cosden Petroleum Corporation.

Private Swimming Pools Becoming Popular Here

By BOBBY HORTON

Backyard swimming holes have become a favorite luxury of Big Spring citizens in the past few years, says a local contractor. "I'd say there must be about 50 or 60 private pools in town," says B. T. Faulkner, Pioneer Builders Co. "And practically all of them have been built in about the past five years."

"The average pool with adequate equipment costs about \$3,000," he adds. Bigger pools with more extras may be \$7,000, and ultra-plush layouts run up to \$15,000. "Biggest problem in building a pool," says Faulkner, speaking for the home owner, "is finding a location."

The fact that pools can be constructed in assorted shapes helps.

More people, however, like a rectangular pool. An odd-shaped pool means more construction work and, consequently, more expense. Most popular shapes are the rectangle, L, jellybean, bent rectangle and fan. Various names are given those by the different companies.

There is a reason for avoiding 90-degree angles in building, says Faulkner—cracks are less likely to develop when there's a curve rather than a corner.

Average size is 30 by 40 feet, but a low-priced pool 12 by 24 feet is no rarity. It generally takes two to six weeks to complete work on a new swimming hole, depending on the individual location's problems.

Pools are made of steel web-

reinforced concrete. A water-proof plaster coats the surface.

"The whiter the coating is, the bluer the water will appear," Faulkner explains. Ceramic tile along the water line can affect the tint, also.

Optional equipment and size determines the cost. For example, heating may constitute an additional cost of \$800 to \$1,000.

The average pool will have a vacuum-operated cleaner, underwater lights, built-in surface skimmer, supply inlets, ceramic trim, safety rope, diving board, ladder and filtering unit.

The filter cleans out trash as the water circulates. It is one of the most expensive items, and as many as three must be used for the large pools. Owners can chlorinate their pools, too.

"Every pool should have a fence to keep small children from wandering in," cautions the builder.

There may be no particular public health restriction to abide by in building and maintaining a pool, but the filter and or chlorination will make the water safe.

Water may be chlorinated by hand, says Faulkner, or by installation of an automatic chlorinator that ties in with the pool filter unit. If by hand, crystals of tablets are used. A chlorination-testing kit is available for checking the water.

The average family pool's water should be rotated every 24 hours.

Faulkner, one of the few swimming pool builders in this city, constructs about "three to six per year." He now has construction under way on three pools, two here and one in Stanton.

Loan 'Racket' Probe Slated By The Senate

WASHINGTON (AP)—A new twist to an old confidence racket, by which small businessmen allegedly are being fleeced of 30 million dollars a year, is coming under Senate investigation.

The victims have been described as small business proprietors in dire need of loans.

The Senate Investigations subcommittee announced it will explore the story in public hearings Tuesday.

Donald F. O'Donnell, the subcommittee's acting chief counsel, told reporters the racket involves a new version of the old real estate advance fee confidence game which the subcommittee exposed in public hearings last year.

Swindlers unmasked in those hearings, he said, devised the new gimmick. He said it works this way:

merchant who has been denied a loan from legitimate lending institutions as a poor credit risk receives a visit from a stranger posing as a specialist in such problems. The stranger represents that he can obtain the loan at a reasonable rate of interest, but insists upon receiving an advance fee that may range from \$150 upward. He promises to refund the fee if the loan is not forthcoming.

O'Donnell said fees as high as \$11,500 have been collected. The promise is backed by a written guarantee, he said, but many uncautious victims learned after reading it too late that the guarantee was a cleverly phrased document which merely promised to apply for a loan and provided no recourse or return of the fee in the event the loan was denied.

Wilson Says New Law Can Chase Out All Loan Sharks

AUSTIN (AP)—Atty. Gen. Will Wilson said Saturday that Texas loan sharks will be put out of business if the Legislature authorizes proposed controls. Wilson said pending administrative regulation and licensing would prove more effective than his two-year police action. "Not only for better law enforcement, but it also will benefit companies," he said. "State examiners can correct violations on the spot and not through the battering process of trial. The Legislature can take a big step forward to solve this problem."

Rep. Don Kennard of Fort Worth said the House may debate Monday the bill (HB58) to license and regulate the small loan companies. A proposed constitutional amendment (HJR6) to let the Legislature set maximum interest and charges has tentative House and Senate approval.

Wilson said his office has filed 341 suits aimed at stopping 428 small loan companies from charging more than the legal 10 per cent interest.

"These suits convinced most everyone in the loan industry that the bootlegger's happy days are now to end," he said. "If they are going to operate, they know they must get some legal regulation. Most don't want it."

COUNCIL PRAISED "Another effect has been that some people who have borrowed money are breaking the chain to drop the load they've been carrying. Others are filing suit to recover their overpayments."

Wilson praised the work of the Legislative Council. It studied the loan problem and recommended that Legislature approve:

1. A constitutional amendment (HJR6) to allow the legislature to set interest rates and other charges on loans. Wilson said this proposal would not affect present operations of loan companies. "It just allows the Legislature to set up administrative controls and reasonable interest rates," Wilson said.

2. A bill (HB58) to make the amendment effective. The bill will require licensing of lenders and regulation by the State Banking Department, and set maximum interest rates and service charges. The House Banking Committee approved a measure that includes parts of three other bills. Kennard, Rep. Cris Cole of Houston and Rep. Reagan Huffman of Marshall sponsored the three.

"Even the bill most favorable to the loan sharks would be of great value," Wilson said. "It would cut present high rate charges by two-thirds."

He said the bill would allow a maximum interest and service charge of \$6.15 on a three-month \$50 loan.

"We've found many companies now charging \$17.50 to \$22," Wilson said.

Symbol Of Office

Philip Howerton, left, of Charlotte, N.C., holds the silver Celtic Cross symbolizing the office of moderator of the General Assembly of the Presbyterian Church U.S. (South). Howerton talks to Dr. Ernest T. Thompson, right, of Richmond, Va., who was elected moderator at Atlanta, Ga. Thompson, 65, is a professor of church history at Union Theological Seminary in Richmond. Hotel Greeters Nominate Officers At Session Here

Sam Peters, manager of the Settles and Crawford Hotels, was nominated for third vice president of the Hotel Greeters of America, Chapter 56, at the business meeting of the group here Saturday night.

Election of the officers for the ensuing year will be by mail ballot but nomination is tantamount to election, it was said.

E. B. Riesenber, Sweetwater, was nominated to succeed himself as president of the chapter. Nelson Burnett, Sweetwater, is first vice president nominee. C. S. Karkalis, Amarillo, was the nominee for second vice president.

Frances Danielson, Lubbock, was nominated as secretary. Directors nominated included Coby Briehn, Lubbock; William Clark, Pecos; Harold Flynn, Lubbock; J. B. McClelland, the nominee for sergeant-at-arms.

Approximately 50 hotel managers, clerks and their wives from communities ranging north to Amarillo, south to San Angelo and east and west from Fort Worth to El Paso attended the convention. Peters and the staffs of the Crawford and Settles were hosts to the meeting.

Speaking at a dinner which closed the one-day convention was Lee Slaughter, Temple, first vice president, Hotel Greeters International; Mrs. Esther Laster Josey, Dallas, international vice president, women's division; C. Harry Christopher, Denver, executive director of the international body; and Mrs. Jewel Record, Fort Worth, ambassador of good will for the international.

Retired Editor Dies In Dallas DALLAS (AP)—Funeral services will be held at 2 p.m. Monday at the First Methodist church for Harry C. Withers, retired executive editor of the Dallas Morning News.

Withers died Friday night at the age of 79 after suffering a heart attack April 14.

The services will be in the church where he was a life member of the board.

Withers retired Jan. 1. He joined the News as a reporter in 1904, and became sports editor, city editor and then executive editor.

He also was city editor and managing editor of the Dallas Journal, an afternoon newspaper formerly published by the News.

The soft-spoken editor was noted for his pungent speeches on current affairs.

At one time he was chairman of the Southern Methodist University development board. He was an originator of the Dallas Crime Commission.

Survivors are his widow and four sisters, Georgia Bonta of Dallas, Mrs. Robert Knox and Mrs. Ella Poekrus of Denton, and Mrs. Sue Price of Los Angeles.

Runaway Girl Is Quickly Caught A 14-year-old Latin American girl was quickly apprehended Saturday after running away from home here.

Shortly after the police learned the girl had left home, Juvenile Officer A. E. Long reported a girl fitting her description had boarded a bus here on a ticket to Denver, Colo.

Lamesa authorities were contacted, and she was taken off the bus there, less than 30 minutes after being reported missing.

Rapist Sought DALLAS (AP)—Officers hunted Saturday for one of three boys accused by a 17-year-old girl of raping her at knife point. She said the three offered to take her home at midnight after she finished work at a nice cream shop. Police arrested two youths, 19 and 21.

C-C Going After 350 New Members

A breakfast at the Settles Hotel Monday morning at 7 will kick off the Chamber of Commerce's new-member drive, and before Friday, the Chamber hopes to have 350 new members in the fold.

Rad Ware, chairman of the new-member drive, has 60 workers lined up for the campaign, 20 members each assigned to the three team captains, Randall Folk, Bobo Hardy and Bob McEwen.

The Chamber has a prospect list bearing 350 names, and Bill Quimby, chamber manager, said that it was the aim of the campaign to enlist every one of them.

The fulfillment of the goal will push the Chamber's membership over the 1,000 mark, he said.

Ware is calling for report meetings at 5 p.m. every day through Thursday, and hopes that the drive can be completed by that time.

On the Chamber's dues readmission campaign, Quimby said that the total was nearing \$2,000 at the end of the week. In addition, he said, there were still over 100 cards out which will probably swell the total.

Replies Coming On Stanton's Classing Office

Jimmy Taylor, county agent, said Saturday 125 reply cards in the resurvey on cotton classing office preference have already been returned.

These responses were extremely prompt—the letter containing the ballots did not get into the mail until Thursday.

Letters were sent 725 cotton farmers in Howard County asking them to vote whether they wanted their crops classified at the new Stanton classing office or to continue with the service from Abilene.

Taylor believes that the bulk of all of their replies will be in his office by Tuesday. Tabulation of the votes will be made and results announced later this week.

The resurvey was launched when it was disclosed that the newly created Stanton classing office sponsors proposed to assess each farmer a fee of 25 cents per bale to help finance the building and facilities for the office. Some dissatisfaction developed and it was decided to run a check on the sentiment of Howard County growers.

Cotton of this county has been classified for many years at Abilene. The Stanton office was authorized this year. It will begin to function for the first time with the harvest of the 1953 crop.

Taylor said that about 300 farmers, voting earlier in the year and before the special fee idea was broached, had indicated they would make use of the Stanton facilities.

Melba Burton Wins Place In Regional

Big Spring High School's Melba Burton placed fourth overall in the regional journalism competition in Odessa Saturday.

Miss Burton placed second in editorial writing and fourth in headline writing to rate the fourth place. Winner overall was Charles Smith of Abilene. First and second placers in the overall competition now advance to the state meet.

Stanton Student On A&M Team In Soil Judging

COLLEGE STATION — Five agronomy students of Texas A&M College competed in a soil judging contest at Louisiana State University, Baton Rouge, La., Saturday.

They were Boyd S. Proctor of Rt. 1, Dekalb; James C. Blue of Clifton; Larry Hausmann of Rt. 2, Go-liad; Bobby Carlile of Stanton; and Joseph Van Deaver of Deport.

Proctor and Blue are juniors and Hausmann, Carlile and Van Deaver are seniors.

The A&M team competed with teams from Oklahoma State University, University of Arkansas, Mississippi State University, Louisiana State University and New Mexico State University.

Assembly Of God Session This Week

Five hundred delegates, ministers and lay members of Assembly of God Churches of the West Texas District Council will convene in Big Spring Monday for a four-day convention.

First Assembly of God Church, 4th and Lancaster, will be host to the meeting. The Rev. S. E. Eldridge is pastor of this church.

The West Texas District Council of Assemblies of God Churches encompasses 124 churches located in communities in the Panhandle area, the South Plains, the Permian Basin west as far as El Paso.

All meetings of the organization are to be in City Auditorium. One hundred and 34 delegates, one from each of the churches, with the pastors of the churches, make up the official body. An additional 200 or 300 lay members of the churches are expected to be on hand for the convention.

Featured speaker of the four days' activity will be the Rev. A. Wilson, Kansas City, Mo. He is pastor of the Calvary Temple Assembly of God Church in that city.

Also appearing on the programs will be the Rev. J. A. Thomas, Lubbock, district superintendent.

Arrests Made In Hub Cap Thefts

A concerted drive by police officers netted four hub cap thieves in three days last week. More arrests will probably follow, the police department announced.

The fourth person, confessing to stealing hub caps and other auto accessories, was arrested by city police Saturday. In making the arrest, detective Jack Jones confiscated one hub cap and a rear-view mirror.

The arrest Saturday of the 16-year-old boy may lead to others, said Jones and Leo Hull. The police also got a tip on where more hub caps are hidden, and these may be hauled in today, Hull said. Other items including some batteries may be uncovered at the same time.

Assembly Of God Session This Week

Activities will begin Monday with registration of delegates and visitors but the first set program is slated for 7:45 p.m. that night. This will be the Youth Rally of the Council. Mr. Wilson will be speaker. The Rev. M. F. Hankins, Kermit, director of youth activities, will be in charge of the program.

This meeting, as are all of the sessions, will be open to the public. The council opens its sessions at 8:30 a.m. Tuesday. A special prayer service is planned and Supt. Thomas will preside.

At 9 a.m. the meeting of the ministers and companions will convene with Rev. Wilson as speaker. The District Superintendent will deliver his annual address at 11 a.m.

Tuesday afternoon will be devoted to business sessions, intermingled with devotional services.

Tuesday, starting at 7:45 p.m., a mammoth evangelistic service with Rev. Wilson as the speaker will be conducted. The general public is cordially invited to attend this service. Rev. Eldridge said.

Wednesday and Thursday will be devoted to council business sessions and devotionals.

THE WEEK

(Continued From Page One)

the \$26,618 for the comparable quarter last year. If we keep up this good record we can maintain our maximum credit standing on premiums.

Friends paid tribute to George W. Dabney (and Mrs. Dabney) for 14 years service as a city commissioner and most of it as mayor. He had a parting word, "I hope you people should make up your minds that if they want certain services they must pay for them. It's as simple as that."

Big Spring's Patricia McCormick, who blazed the trail for Amateur bullfighters, has earned a reputation for daring and courage. Last week in Caracas, Venezuela she captured the hearts of aficionados, but in responding to their cheers, she stood too close to her third bull. She got gored again, painfully but not seriously.

Police chiefs of several area cities met here last week and organized a West Texas chapter of the Texas Police Association. Chief C. L. Rogers, host for the meeting, was named the first president of the regional group which will meet quarterly to better correlate the work of police.

Do you know any physically handicapped youngsters who would enjoy a week or so of camping? The Evening and Downtown Lions Clubs are looking for them — so far unsuccessfully. The camp at Kerrville is free. L. A. Plowman or George Melear can furnish more information.

Having voted to consolidate their operations under the name of Sands, the Knott and Ackery school boards organized a new board last week with four from Knott and three from Ackery. R. N. Pierce, Ackery, was elected superintendent, and Weldon Snodgrass, Knott school chief, was retained at his current level on the staff. Decisions on calling a bond election may require several weeks or even months.

Howard County Cotton farmers were being rechecked by mail on their preference as to a cotton classing station. Previously they had favored a new one at Stanton. When it was reported that a voluntary contribution of 25 cents a bale would be asked to finance a new office, some producers wanted to vote again.

This is Mental Health Week, and you are invited to make tours today at the Big Spring State Hospital at 30 minute intervals starting at 1 p.m. and continuing through 3 p.m. People are becoming aware that you can be sick in your mental processes as well as in your stomach, and that you can be cured by proper treatment. You are urged to learn more about the subject. Likely it will affect either you or a member of your family.

If you have some funds you would like to invest in helping your unfortunate brothers, mail it to the Salvation Army or call this column to pick up the contribution. The SA is in the red from bleeding the heart rather than the budget when dealing with those in need. Contributions are urgently needed to take up the slack.

Webb and Reese AFBs were among the restricted flying areas announced last week by the Federal Aviation Agency. Thus, private and commercial fliers are forewarned of jet training operations in this area from 10,000 to 30,000 feet and more or less enter that air space at their own peril.

Local Youths Take Part In Hi-Y Roundup

Seventy-seven Big Spring Junior Hi-Y youngsters represented the city at the annual West Texas Hi-Y Roundup held in San Angelo Saturday.

During the day, Big Spring won second in the sports festival and Judy Jones was elected chaplain of the district.

Eighteen adults accompanied the group, and five of them served as discussion leaders on the program. They are Mrs. J. H. Hensley, Mrs. J. D. Jones, Mrs. Roxie Dobbins, Mrs. J. T. Thornton and Charles Hodges.

Robert Mahoney, Nancy Hedleston and Susan Gibbs were chairman of discussion groups.

In the sports events, Danny Coates finished third in the 75-yard dash, Kenny Crane was second in the shot, and Big Spring's 440-yard relay team of Coates, Mahoney, Donnie White and Jacky Winn finished second.

Former USCC President Dies SANTA BARBARA, Calif. (AP)—Harper Sibley, a member of the board of Western Union and a former U.S. Chamber of Commerce president, died Friday.

Sibley, 74, suffered a heart attack while he and his wife, Georgiana, were on a business and pleasure trip.

The Rochester, N.Y., businessman and agriculturist was the grandson of the founder of Western Union. He also was on the board of New York Life Insurance Co. and the Carnegie Foundation for International Peace. President Eisenhower recently appointed him head of Refugee Year activities for the United Nations.

Aged Men Die In Nursing Home Fire WACO (AP)—Two nursing home residents burned to death Saturday.

The fire broke out at the Denny Nursing Home, a large frame structure.

Authorities identified the victims as James Harris, 85, originally of Mart, and Walter Hudson, 67.

Two other elderly persons in the home escaped the flames. A third resident was away at work.

Billfold, Cash Lost A San Angelo resident lost his billfold here Saturday and it contained \$500. The police reported that Wayne Chandler lost his wallet in the vicinity of the bus station. It contained \$560 plus several credit cards.

Dawson County Farmer Dead LAMESA — Funeral services for Andy Hoyt Scitern, 62-year-old Klondike community farmer, will be at 9 a.m. Monday in Higginbotham Funeral Home Chapel. The Rev. Murray Kay, Klondike Baptist church, will officiate and burial will be in the Comanche Cemetery.

Mr. Scitern died suddenly on Friday night. He had suffered a stroke sometime ago but was not believed in a critical condition.

He had been a resident of Dawson County for 36 years and a member of the Baptist church for 35 years.

He was born March 17, 1897 in Comanche County.

Survivors include his wife, who lives in Lamesa; three daughters, Mrs. J. C. Houston, Lamesa; Mrs. C. G. Lovell, Big Spring; and Miss Delores Scitern, Lamesa; one son, Elwin Scitern, Lamesa; one sister, Mrs. Sally Spencer, Bakersfield, Calif.; and one brother, J. C. Scitern, Lubbock. There are 11 grandchildren.

WE CORDIALLY INVITE YOU TO ATTEND OUR MEETING

TEC Will Occupy New Home May 1

Texas Employment Commission will move into its new home on May 1 Leon Kinney, manager of the local TEC, said that operations of the agency will be changed to 406 Rannels effective that date. TEC has occupied quarters at 213 W. 3rd, since October, 1948. In its new quarters, TEC will have much additional room, will be provided with a complete outfit of "new" (refinished) furniture and fixtures. The changeover to the new address will be made in such a way as to not handicap operations of the office, Kinney said. He added that all regular clients have already been verbally advised of the change but that it was possible others would not be aware of the new address. TEC is to occupy the north half of a new concrete block building erected by C. H. (Hank) Mc-

Daniel. Final work on the building is now being pushed through. The change comes at a most appropriate time, Kinney added. He said that the month ending Saturday had been a near-record one with the office for placement of applicants in non-agricultural jobs. Not since last September, Kinney reported, has the TEC found jobs for so many individuals in work other than farm employment. Employment was provided for 322 persons in the month. Jobs found were in a wide variety of enterprises. He said that there is an extremely heavy demand for competent waitresses and stenographers. "We never seem to have enough applicants in these two categories," remarked Kinney sadly.

Elbow To Vote Saturday On School Bonds

Elbow School District voters will vote next Saturday on a new tax plan to better serve their schools. An election has been called for May 2 on the question of making it possible for the district to use all of the \$1.50 ad valorem levy for school operation and maintenance rather than divide it as is now the case, to absorb bonded indebtedness charges.

The election is in accordance with a special statute which enables school districts to follow such a plan. If the plan is adopted, it alleviates the need to restrict maintenance costs to whatever funds remain from tax money after bond charges are absorbed. Walter Bailey, county superintendent of schools, said that Big Spring Independent District adopted such a plan some time ago. If Elbow approves the proposal it will be the third Howard County school to do so.

Bitten By Snake
FORT WORTH (AP)—A rattlesnake bit Marty Wallace, 2, in the face at his home in Weatherford Friday night. He was in critical condition at a hospital here Saturday. His father, A. C. Wallace, said the snake bit the tot as he came onto the porch at dusk.

For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

MEN IN SERVICE

Army Pvt. Larry G. Lingo, son of Mr. and Mrs. William D. Lingo, 1111 S. 1st, Lamesa, is scheduled to complete advanced individual training May 4 with the 2nd Armored Division at Fort Hood.

Soon after completing this specialized training, Lingo is slated to depart for his new assignment with the 4th Armored Division in Germany. The 4th is a major unit of the NATO shield of defense in Europe. He entered the Army last November. The 17-year-old soldier attended Pecos High School.

Pvt. Joe Mize, son of Mr. and Mrs. Kelly Mize, 705 W. 5th, has been assigned to Ft. Chaffee, Ark., after being inducted in the Army. Mize, 23, has been working for the government at the White Sands Proving Grounds, N. M., since graduation at Texas Tech in the spring of 1958. He is a graduate of Big Spring High School.

Pfc. Ariel Hoisager, 20, son of Mr. and Mrs. L. E. Hoisager, 220 Wright St., Big Spring, was the outstanding graduate of a six week school for continuous wave radio operators in Korea recently. The training included transmission of the International Morse code.

Hoisager attended school here and worked for the Ned Estes Humble Service station in Midland before entering the Army May 15, 1958. He was a member of the local National Guard. His wife, Mrs. Martha Cobb Hol-

Fiesta Turns Into A Panic

SAN ANTONIO (AP)—Fiesta frivolity turned into a nightmare of bloodshed Friday night with a score of shootings.

A gay carnival crowd on Military Plaza became a milling, screaming mob when a man apparently went berserk, firing pistol shots in all directions. One of his bullets hit a man in the stomach.

Detective Preston Slocum, running to the scene, was jumped by three or four men, including the man who started the shooting.

Slocum shot one man in the leg, another in the stomach. In another shooting spree 30 minutes later, two children and one man were shot.

Receive Degrees

STANTON—Vernon Cox and Hubert Ivery received the first degree of Odd Fellowship Thursday night in a ceremony at the IOOF Hall. C. S. Bevers, noble grand presided during the business session.

DEAR ABBY KEEP TRUSTING

By ABIGAIL VAN BUREN

DEAR ABBY: My neighbor lady has upset me so bad I can hardly write. My husband has traveled for 14 years and he has always had a wide territory (five states) so he only gets home weekends and sometimes not even then. This friend and I were talking and she said to me, "You don't really think your husband has been 100 per cent true to you, do you?" I told her I sure did. She said I was kidding myself because no traveling man stays true to his wife. Now she set me to thinking. Do you think I have something to worry about? How can I convince her she's mistaken? Or am I mistaken?

who is almost 5. I want my husband to build a third bedroom for the girl but now I am afraid to. If we build the bedroom I am afraid my mother-in-law will move in on us for good. She loves to visit us, but so far she stays only two weeks at a time because she has to sleep on the sofa in the living room. I would never correct her but she is bossy, untidy and hard to get along with. Don't print my name or my husband will have a fit.

DEAR TRUSTING: Don't let your neighbor lady give you any ideas. If you've trusted your husband for 14 years, he must have earned that trust. Keep right on trusting him and tell your friend (this is a friend?) to go plant her weeds of doubt in somebody else's garden.

UNDECIDED: Why deprive your family of comforts you can afford because of your mother-in-law? Build the room for your daughter and make it plain that it is not a guest room, but your daughter's room.

DEAR ABBY: A good friend of mine met a young woman on his vacation. He raved over how beautiful, smart and terrific she was. She is here now (on her vacation) and I was never so disappointed in all my life. She is hard-looking, domineering and loud. Although there has been no official announcement, it looks pretty serious between them. I can't understand what he sees in her. He keeps asking me what I think of her but, Abby, I hesitate to tell him. I wish you'd tell me what to do in a case like this.

UNDECIDED: You are wise to hesitate. If it "looks serious between them" this girl could wind up being his wife. Reserve your opinion if you value his friendship.

DEAR ABBY: The other evening three couples, including my husband and me, went to a restaurant for dinner. The reservations were made in advance. When we got there we were told our table wasn't ready and we would have to wait a few minutes. My husband hates to wait for anything or anybody so he went out and sat in the car like a spoiled two-year-old. The other men went out to try to coax him back but he wouldn't come. He is 53 years old! What would you have done if you were I?

DISGUSTED: I would have let him sit. He has a lot of growing up to do.

DEAR ABBY: We are average, hard-working people and have two grade school boys and a little girl

LEGAL NOTICE
NOTICE TO BIDDERS
Sealed proposals addressed to Albert K. Steinheimer, City Manager of the City of Big Spring, Texas, will be received until 5:15 P.M., Tuesday, May 12, 1959 for one new truck chassis of not less than 25,000 No. G.V.W. with engine of not less than 450 cubic inches piston displacement, and at the time read aloud. Any bid received after closing time will be returned unopened. Specifications are on file in the office of the City Manager, City Hall, Big Spring, Texas. Copies may be obtained by contacting the City Manager or the Purchasing Agent, City Hall, Big Spring, Texas. In case of ambiguity or lack of clarity in stating prices in the bid, the City reserves the right to adopt the most advantageous construction thereof, or to reject the proposal. The City reserves the right to reject any or all bids.

LEGAL NOTICE
NOTICE TO BIDDERS
Sealed proposals addressed to Albert K. Steinheimer, City Manager of the City of Big Spring, Texas, for the construction and installation of certain fire apparatus, including a 750 gallon capacity booster tank, a 200 G.P.M. pump, truck chassis to be furnished by the City of Big Spring will be received until 5:15 P.M., Tuesday, May 26, and will be opened and read aloud at this time. The truck chassis to be furnished will be minimum 25,000 No. G.V.W. with engine of not less than 450 cubic inch piston displacement, cab forward type, wheel base of not less than 102 inches and C.A. of not less than 102 inches. Any bid received after closing time will be returned unopened. Specifications are on file in the office of the City Manager, City Hall, Big Spring, Texas. Copies may be obtained by writing the City Manager or the Purchasing Agent, City Hall, Big Spring, Texas. Each bid must be accompanied by a Certified or Cashier's check, drawn on a responsible bank, in the amount of five per cent of the total bid price for the guarantee that, if awarded the contract, the Bidder will promptly enter into a written contract with the City to supply the materials and complete the work as set out in the specifications. Men's Wear of Character

Driver Wins Citation For Aid At Wreck

Jim Thomas, 1902 Barnes, will become a Knight of the Road next Tuesday night.

The truck driver for Oil Transport Co. has been singled out to receive the coveted Hobbs Knight of the Road award for rendering courageous and outstanding assistance to fellow drivers in distress on the highways.

Capt. C. W. Bell, Texas Department of Public Safety, will make the presentation to Thomas at a dinner meeting at Phillips 66 Truck Stop at 7:30 p.m. April 28.

Also to receive a like citation and award will be Glen Rainer, Abilene assistant director of safety, Oil Transport Co.

Thomas will receive his award for assisting at the scene of a highway accident.

He said Thursday that the incident occurred on U. S. 80 west of Midland. It was last November, he recalls.

Thomas was making a return trip from McCamey when he came upon the scene of a two-car collision. Three men in the two cars were injured. One of the cars had caught on fire.

The citation says that Thomas extinguished the fire in the car, set out flares, directed traffic and rendered aid to the injured passengers. He also rendered important assistance to the investigating officers called to the scene.

Rainer will be cited for assistance he rendered to an injured man he encountered as he drove along U. S. 80 east of Abilene. He saw a man racing across the highway bleeding profusely from an arm injury. He stopped his car, applied a tourniquet and took the victim to the hospital. It was said his action saved the man's life.

Thomas has been a driver for Oil Transport for four and a half years.

The awards program is co-sponsored by Texas Safety Assn., the Texas Department of Public Safety and Hobbs Trailers, Fort Worth truck-trailer manufacturing concern.

Gift Of Two Classes

This terrazzo emblem in the floor of the foyer at Big Spring High School is the gift of two graduating classes. Last year's seniors left their class fund in the hands of this year's graduates to be supplemented for the project. The emblem, featuring a steers head and the big "B", cost about \$600. It was completed a few days ago.

Man Freed After Paying Court-Ordered Support

James Doe, jailed by Dist. Judge Charlie Sullivan for contempt of court on Friday, was released from custody on Friday afternoon.

He complied with the orders of the court—that he pay \$510 and court costs to his divorced wife for child support. The court had ordered him held until he made such payment.

Sollie Owens, another ex-husband jailed for a similar contempt charge, had not paid in his \$458 assessment on Saturday.

W. C. Couch, jailed on Thursday by the judge for the same problem, paid off on Friday and was released from jail.

In each of these cases, the men had been summoned before the court when their ex-wives

complained they had not been complying with the divorce decree in the matter of the payment of child support.

In each of the cases in which the men were ordered jailed for contempt, the individuals had appeared without counsel.

Judge Sullivan implied that he was becoming weary of the increasing number of divorced husbands who had been ordered to make payments on a monthly or weekly basis for the support of their children and who have been ignoring the order. In the past the court has been lenient in such cases. Only one or two other persons had been ordered to jail for contempt for this complaint in several years.

Three such commitments in two

days was regarded as indicative the court intends to deal more sternly with such cases in the future.

Two Local Spots Are Burglarized

Sheriff's deputies are seeking clues in two burglaries on Friday night.

Jet Drive in Theater was victim of one of the raids. Thieves forced a lock off a door, entered the office and broke open a cigarette vending machine. No accurate estimate of the money taken was available.

Moose Lodge on E. Hwy. 80 was burglarized by prowlers who climbed to the roof and dropped into the building through a ventilator. Here the cash register and a cigarette machine were looted. It was estimated around \$20 had been stolen.

Bike Being Held

A. E. Long, juvenile officer, said Saturday he is holding a small maroon colored Roadmaster bicycle waiting its owner to claim it. The little bike was found abandoned on Johnson Street. It is nearly new and is a very small size, Long reported. He asked that the owner of the wheel show up and retrieve his property.

BIG SPRING DAILY HERALD

SECTION B BIG SPRING, TEXAS, SUNDAY, APRIL 26, 1959 SECTION B

Souchak Builds Las Vegas Lead

LAS VEGAS, Nev. (AP)—Pace-setting Mike Souchak mastered par for the third straight round Saturday, shooting a 4-under-par 68 to strengthen his lead to 5 strokes in the \$46,620 Tournament of Champions.

The muscular ex-football player, with previous rounds of 66 and 70, had a total of 204 strokes for the 54 holes of play.

Mike goes into Sunday's final round with a commanding lead over his nearest challenger, slender Art Wall Jr.

Playing the 7,073-yard, par 36-36-72 Desert Inn Country Club course, Souchak made the tour in 33-55-68 despite another afternoon beset with gusty wind.

Wall, recent winner of the Masters Tournament, made a gallant bid to keep up with Souchak, but the best the stylish professional from Peconic Manor, Pa., could do was 34-35-69 for 202.

One by one, with the exception of Wall, the opposition faded and fell back.

Souchak started the round with a 4-stroke lead over Wall, Julius Boros, John McMullin and Ernie Vossler.

Boros, after shooting a 35 on the front nine, took a 40 for 75 and a total of 215. Vossler had a 74 for 214 and the 23-year-old McMullin shot a 76 for 216.

Tied at 214 were Stan Leonard, last year's winner, who had a 70 Saturday; 3-time winner Gene Littler, with a 71, and Vossler.

Souchak started the round with a 4-stroke lead over Wall, Julius Boros, John McMullin and Ernie Vossler.

Boros, after shooting a 35 on the front nine, took a 40 for 75 and a total of 215. Vossler had a 74 for 214 and the 23-year-old McMullin shot a 76 for 216.

Souchak started the round with a 4-stroke lead over Wall, Julius Boros, John McMullin and Ernie Vossler.

On Way To State

R. L. Lasater, a sophomore, will be Big Spring's lone entry in the State Meet this year. Lasater won the right to make the trip by placing first in the 100-yard dash of the Regional Meet at Odessa Saturday. He was clocked in 9.3.

Abilene First In Regional

ODESSA (SC)—Abilene won first place in the Regional (Class AAAA) track and field meet here Saturday, scoring 53 points.

Two other District 2-AAAA schools, Midland and San Angelo, wound up second and third, respectively. The Bulldogs counted 25 points and San Angelo 17.

Amarillo Tascosa was fourth, with 13; followed by Amarillo Palo Duro, 7½; Pampa and Amarillo High, seven each; Big Spring, 5; El Paso Tech, 4; Borger, 3; Plainview and Lubbock Monterey, two each; and El Paso Burgess, El Paso Austin, El Paso Bowie and El Paso Jefferson, one each.

R. L. Lasater scored all of Big Spring's points by winning the 100-yard dash in 9.3 seconds. Charles Starkey, San Angelo, was second; Larry Gould, Plainview, third; and John Meadow, Amarillo High, fourth.

All marks posted here today went into the books as records, since the meet was being held for the first time.

Abilene, the favorite, qualified in ten individual events, along with its mile relay team, which won in the time of 3:21.3. Midland won the sprint relay event in 42.9.

Andrews won the class AAA Regional crown, with 42 points, followed by Snyder, with 33½; Phillips, 16; Kermit, 13; Littlefield, 12; Brownfield, 9; Levelland, 6; Dumas and Lakeview of San Angelo, 5; Pecos, 4; Sweetwater, 3; Colorado City, 2½; and Lamesa, 2.

Wink won the Class B crown, with 33½ points.

Lasater qualified for the State Meet by winning the 100.

Senators Kayo Red Sox, 8-4

WASHINGTON (AP)—The Washington Senators got a 5-run jump in the first inning and coasted to an 8-4 victory Saturday over Boston behind the 9-11th pitching of Pedro Ramos.

The Senators sent 10 men to the plate in the first inning as they chased Boston's starting pitcher Herb Mofford.

Harmon Killebrew led the Senators' attack with a run-scoring single in the first and a two-run homer in the fifth, the latter at the expense of the second Boston pitcher, Frank Sullivan.

Abilene Beaten For Fourth Time

MIDLAND (SC)—Abilene slumped into a tie for the District 2-AAAAA cellar position by losing to Midland, 10-5, here Saturday afternoon.

Bill Easterwood was tagged for ten hits but he went all the way to get the win for the Bulldogs.

Bill Booser was the loser.

Nicklaus Winner

PINEHURST, N.C. (AP)—Young Jack Nicklaus scrambled for 36 holes Saturday then sank a 6-foot putt in the final green that gave him a 1-up victory over Gene Andrews and the North and South Amateur golf title.

Local Football Team Opens Spring Workouts Monday

The 1959 Big Spring Steers are poised to open 18 days of football training Monday afternoon.

The Longhorns, who won only two of ten games last season, will hit the ground running.

Coach Al Milch says the team will get acquainted with the Flying T attack, which incorporates the use of the famous "belly series."

Lettermen due back include Robert Carr, end; Gene Salazar, tackle; Bud Bridges, Alf Cobb and Roy Deel, guards; Mack Alexander, center; Tommy Whaley and Donnie Everet, quarterbacks;

JOHNNIE FRANKIE

Frankie Named Rice Mentor

HOUSTON (AP)—Rice Institute dipped into its alumni ranks today and named Johnny Frankie, 48, Wharton Junior College coach, to take over the basketball reigns for the Owls.

Frankie succeeds Don Suman who resigned several weeks ago after his charges skidded into a second-division finish in Southwest Conference competition.

"I think it's the greatest thing that's ever happened to me—greatest thing since the invention of the Ford," Frankie told newsmen by telephone from his home in Wharton.

"I don't believe I would have made a change to any other place in the United States," he said. "I was very happy here and I love the people in Wharton. They have been very helpful."

The new Owl mentor was reared in Los Fresnos, Tex., and is a 1937 graduate of Rice, where he captained the football team.

His teams at Wharton compiled a 215-win, 100-loss record over the last 10 seasons. They captured seven conference championships and one national junior college championship.

Frankie coached in Houston high schools from 1938-1945 and then transferred to Texas A&M College.

Married and with three children, Frankie will assume his duties at Rice Monday.

Morrow Loses Pair Of Races

DES MOINES (AP)—Glenn Davis, Ohio State's Olympic champion and 440-yard world record holder, Saturday smashed the Drake Relays special AAU quarter-mile mark with a :46.5 clocking.

Tied at 214 were Stan Leonard, last year's winner, who had a 70 Saturday; 3-time winner Gene Littler, with a 71, and Vossler.

Souchak started the round with a 4-stroke lead over Wall, Julius Boros, John McMullin and Ernie Vossler.

Boros, after shooting a 35 on the front nine, took a 40 for 75 and a total of 215. Vossler had a 74 for 214 and the 23-year-old McMullin shot a 76 for 216.

Redlegs Turn On Nemesis

CINCINNATI (AP)—The Cincinnati Reds overcame two jinxes at once Saturday as they knocked Warren Spahn out of the box and then held on for a 7-6 victory over the Milwaukee Braves.

The Braves threatened to pull the game out of the fire in the ninth when Eddie Mathews hit a two-run homer.

Rookie's Blast Opens Door For Oriole Win Over Yanks

NEW YORK (AP)—Rookie Willie Tasby doubled to open the 11th and scored on a single by pinch hitter Chico Carrasquel as the Baltimore Orioles edged the New York Yankees 2-1 Saturday and moved into second place in the American League.

Billy Loes, who pitched a scoreless tenth for his third straight runless relief job in a week, received credit for the victory, his first. Johnny Kucks, who pitched to only one batter, lost it for an 0-1 mark.

Kucks became the third Yankee pitcher at the start of the 11th and Tasby, only batter to face him, sliced a double into the right field corner. Left-hander Bobby Shantz came in and struck out Gene Woodling and walked Gus Triandos intentionally before Carrasquel delivered as a pinch batter for Billy Klaus.

Bob Boyd followed with a looping single that loaded the bases

Easy Spur Loses

LOUISVILLE, Ky. (AP)—Sword Dancer, second to Easy Spur in the Florida Derby, turned the tables on the Spring Hill farm gelding Saturday and won the Stepping Stone Purse, a Kentucky Derby elimination at Churchill Downs.

Wiffi Smith Leads

SPARTANBURG, S.C. (AP)—Wiffi Smith, playing some of the best golf in PGA history, fired his second subpar round in a row Saturday to grab a five-stroke lead over the field in the Betsy Rawls-Peach Blossom Golf Tournament.

She had a total of 139.

By BOBBY HORTON
Dan Dixon and Jim Powell, Webb AFB sprinters, were timed in a 9.8 hundred dash heat here yesterday afternoon in a triangular track meet between Dyess, Webb and Sheppard Air Force bases at Memorial Stadium.

Dyess scored 69½ points to Webb's 54½ and Sheppard's 31½. Dixon back to back to break his own record in the 220-yard dash with a 21.7 sprint. One official's watch clocked him in 21.5. The record set by Dixon last year, was 22.0.

Powell, a former University of Maryland athlete, also won the broad jump with a leap of 20 feet, 4 inches. Dixon tied for second.

Powell was two strides behind Dixon for second in the 220.

Raymond Potete, Webb weight man, flipped the discus, 112 feet, 11 inches to win that event. His 36-4 putt of the shot held second.

Sheppard of Wichita Falls broke the tape in 44.0 in the 440-yard relay with Webb finishing second in 44.3. Dixon, Hank Nottingham, John Jordan and Powell ran on the relay quartet for Webb.

James Dupree, Dyess' outstanding runner, won the 440 in 50.2 and the 880 in 2:07.2. He also anchored the winning sprint medley relay team with a 2:04.4 time. Curtis English, who collected firsts in the 180-yard and 120-yard hurdles, Clement Mahacek, and Roland Penn rounded out the relay team.

Dyess' Vernal Gjelhaug hopped-skipped-and-jumped 36 feet, 3¼ inches to win, and had best high jump, 5 feet, 10 inches. Webb's Potete was third with a 33-5½ effort.

Harry Williams cleared 5-9 for a Webb second place in the high jump. His teammate, Johnson, English, Dyess, 3. The Kelly, Sheppard, and Hicks, Dyess.

James Dupree, Dyess' outstanding runner, won the 440 in 50.2 and the 880 in 2:07.2. He also anchored the winning sprint medley relay team with a 2:04.4 time. Curtis English, who collected firsts in the 180-yard and 120-yard hurdles, Clement Mahacek, and Roland Penn rounded out the relay team.

Dyess' Vernal Gjelhaug hopped-skipped-and-jumped 36 feet, 3¼ inches to win, and had best high jump, 5 feet, 10 inches. Webb's Potete was third with a 33-5½ effort.

Harry Williams cleared 5-9 for a Webb second place in the high jump. His teammate, Johnson, English, Dyess, 3. The Kelly, Sheppard, and Hicks, Dyess.

Two Ackerly Boys Win Austin Trips

LUBBOCK (SC)—Bryan Adams of Ackerly won the Class B 880-yard run in the Regional track and field meet here Saturday, covering the distance in 2:02.4, his lowest clocking ever.

Royale Lewis of Ackerly also qualified to go to the State meet. He finished second to Joe Deatherage of Flower Grove in the discus. Deatherage's throw was 135-11 while Lewis' heave was 133-1.

BY PAMPANS Steerettes Upset In Regional Meet

ODESSA (SC)—Pampa upset Big Spring in the finals of the Regional 1-AA girls' volleyball tournament here Saturday, 12-10, 5-14, 14-9.

Despite the defeat, the second in 23 matches this season, the Steerettes get to go to the State Meet in Abilene next week. Big Spring is the defending state champion. Titlists and runners-up in each region are eligible for the State Meet game went overtime.

The first game went overtime. It was tied at 1-1, 8-8, 9-9 and finally 10-10. Pampa was ahead, 11-10, at the end of regulation play but quickly ended the proceedings when play was resumed.

Big Spring trailed, 12-5, with two minutes to go in the final game but staged a rally that threatened a while to pay off.

At one stage in the first game, Big Spring was ahead, 6-2, but Pampa tied the count at 8-8 with 1:15 minutes to go.

Darlene Williams, with Peggy Isaacs at the net, led Big Spring in scoring with 13 points.

Last team to defeat Big Spring in regional was Lamesa in 1955, at which time the present Steerettes coach, Bernice Waggoner, was the coach of the Tornado Queens.

Pecos won Class A and Imperial Class B honors here.

Anderson Pitches Cubs Past Giants

CHICAGO (AP)—The Chicago Cubs ran up an early three-run lead off San Francisco starter Sam Jones, then held on for a 5-3 victory Saturday.

Rookie Bob Anderson, making his first start after a two-week layoff because of flu, needed help from Don Elston in the eighth inning.

With runners on first and second and two out in the eighth, Elston struck out Orlando Cepeda to protect Anderson's second triumph against his losses.

CITY GOLF TOURNEY UNDER WAY AT MUNY

Shorty Gideon, manager of the Municipal Golf Course here, has announced entries are now being accepted for the annual City Tournament. The tournament was held in the fall last year but Gideon said the sentiment among golfers caused him to set a much earlier starting date. Linksters, and anyone living here is eligible to compete, have until Saturday, May 14, to post qualifying scores. Match play will formally get under way Monday, May 16. Entry fee is \$5. There'll be awards for the medalist, winners and consolation round winner in each flight. In 1958, a total of 80 players registered for the meet and Gideon indicated he expected even more to try this time. Bobby Wright is the defending titlist. In fact, Bobby has won the crown four successive years. He's a perennial contender, toughest when the chips are down. The entire course has been improved, thanks to hard work by Gideon and his crew. The fairways on Nos. Five, Seven, Eight, 11, 13 and 15 in particular are better. Gideon has had dirt hauled in on those fairways and has given each water in efforts to hide the rocks and grow grass on them.

LOOKING 'EM OVER

With Tommy Hart

BIRDWELL MCKINNEY Z. SMITH CASPER

Plans are in the making for Ruidoso, N.M., home of Ruidoso Downs, to become a year-around resort. An oil company is planning to build a ski range in the mountains there, which would bring on a building boom in lodges . . . The runs, and there would be three of them, would be 9,000 feet in length . . . The ski area would be complete with a lift, extending to the top of the mountain . . . The oil company has had a party keeping a close check on the snow fall in that area the past winter . . . The average snow fall is 70 feet a year but this year it slacked off to 27 feet . . . The potential is so great in Ruidoso as a year-around resort that it could outdo such places as Sun Valley, Idaho; Phoenix, Hot Springs and Aspen, Colo., as a tourist lure . . . Right now, most of the skiers in this area go to Santa Fe, N.M., for their favorite sport . . . At least 11 local men will have horses racing at Ruidoso this summer while another (Poss Simmons) plans to take his two animals to Raton, N.M., for that purpose . . . The local horsemen bound for Ruidoso and the number of horses they'll probably be running include Dalton White, one; Jess Wilbanks, two; Jerry Currie, three; the Grantham brothers, six; Bud Tucker, six; Doyle Vaughn, one; and Raymond River and R. L. McKinney, who jointly own a nine-year-old mare named Cash-And-Carry River bought off an Illinois man at Hot Springs some time ago . . . In 15 out of last year, Cash-And-Carry finished "in the money" on nine occasions . . . Clayton Tolliver, last year the leading trainer at Ruidoso, now has Cash-And-Carry in training . . . The six horses Tucker will send to Ruidoso are the ten-year-old Jolly Kay; Fleet Six, a five-year-old Albuquerque mare; Windy Puff, Maxesian, Donna's Trap and Boom Way . . . Tucker plans to ship about May 1 . . . Ruidoso, which has been busy all winter improving its facilities, opens its 49-day racing season May 29.

Low Jenkins To Visit Here In June

Low Jenkins, the former Lightweight boxing champion of the world, will visit here in June and will be available for fight referee jobs . . . Lew, who has put in 17 years service in the Army, is now stationed in California . . . Gateway Park in Anapra, N. M., a new \$2,000,000 race track located just across the Texas line from El Paso (about four miles from that city), plans to conduct its first program starting Oct. 9 . . . Barns are being built here to accommodate 818 horses . . . The grandstand will seat 10,000 while the track itself will be a mile in length . . . There'll be a lake on the track's infield . . . It's to be New Mexico's fourth race track . . . The others are at Ruidoso, Albuquerque and Raton . . . Carlsbad sought permission to build one but was turned down . . . Excursion trains from as far away as Fort Worth and Dallas may be run to the Anapra track, which must get \$125,000 in pari-mutuel betting daily in order to break even . . . Danny Birdwell and Wayne Fields, who may both

be playing on the same University of Houston football team in a couple of years, are planning to spend the summer working on off-shore drilling rigs on the Texas Gulf this summer . . . Such duties would call for them to spend 14 days on the job, after which they would have 14 days on their own . . . They'd be flown to and from their posts via helicopter . . . Football prospects are so good at Auburn University again that Coach Shug Jordan could not be pessimistic, if he tried horses . . . "We can't cover up—we're in good shape," he admits . . . He has two All-Americans returning in his line . . . One is guard Zeke Smith, who recently turned down a \$15,000 offer to turn pro . . . The other is Jackie Barnett, No. 1 draft choice of the Baltimore Colts the past season . . . That 3:20.7 clocking in the mile relay by Abilene in the District 2-AAAA track meet at Odessa last week wasn't the fastest in the nation this year . . . Byrd High of Shreveport La., beat that by a tenth of a second three weeks ago.

Banquet Will Become Annual Event

Gary Weisner, who accompanied the Baylor University track team here for the ABC Relays, is now running at second string left end on the Bear football team . . . Charley Krueger, the former Texas Aggie line great, now weighs 260 pounds . . . He's with the San Francisco 49ers and one of his coaches says he has a great pro career ahead of him . . . Incidentally, there are those in the sports mob who will bet you that Jim Myers will never get the job done as the Aggie coach . . . They maintain that the position is too big for him . . . The Evening Lions Club here has voted to make the basketball banquet (which honors both the high school and Howard County teams) an annual event . . . Speedy Moffett, the Snyder baseball coach, will tell you his boys had rather beat Abilene than any other team on their schedule . . . Bobby Horton, the Daily Herald sports writer, has a younger brother named Joe Bert who tied for first place in the pole vault in a district track and field meet the first time he ever tried the event in his life, then won the coin toss to see who represented the conference in the Regionals . . . Joe Bert attends Meadow High School . . . SMU is off to its slowest start in years in the recruiting wars but Coach Bill Meek says the Mustangs plan to bring in no more than 28 freshmen next fall, adding "we want the cream of the crop" . . . Otis Holladay, Colorado City's new football coach, is a man who obviously believes a good offense is

the best defense . . . His White Deer team scored 555 points in winning state Class A honors last fall . . . His record is 30 wins in the last 34 starts . . . When Otis was at Happy, his teams used to scrimmage the Lockney eleven, then coached by Curtis Kelley, now the varsity line coach here . . . Billy Maxwell gets his chance in that television golf match schedule on May 12 in Las Vegas, at which time he meets who ever has survived play up until that time . . . The matches open play May 5 in Eldorado, Calif., with Sam Snead opposing Gary Player . . . Bill Casper, Porky Oliver, Al Balding and Walter Burkemo all get their chances before Maxwell . . . If Billy should win, he'll play Paul Harney the succeeding week on the same course, then Bob Rosburg. The winner in each of those matches gets \$2,000, the loser \$1,000 . . . they're screened for the country's viewers at a later date. Borger Wins Golf Title In Region ODESSA (SC)—Borger won the Region 1-AAAA golf meet here Friday, beating Odessa by a stroke. Borger also furnished the medalist in Don Lackey, who put together rounds of 73 and 76 for a 149. Borger's aggregate score was 615. Midland was in third place with 618 and Amarillo fourth, at 648.

Phillips 66 Is League Champ

In the Webb AFB Rock & Rollers Bowling League last week, Roy Bruce Phillips 66 team took two from Jack's Grocery, while Mike Hammer also split, 2-2, with Christensen Boot Shop.

It enabled Bruce's team to take first place by 2½ games. That race made it an interesting and suspenseful finish, especially since the winner was not certain until the end of the last game. Cooley Shamrock downed Hamilton Flying Service 3-1, putting it far ahead in the third place it had already clinched.

High team game was rolled by Jack's Grocery No. 3, as well as high team series — 863-2440. Next was Bruce Phillips 66 with 862-2385, while Cooley Shamrock had 829-2351.

Many of the lady bowlers outdid themselves for the last night of the season. Doris Hamberg of Jack's Grocery earned high series honors with a 541 and a 189 game.

High game of the night was rolled by Toby Bumgarner, substiting for Jack's Grocery, a 210 with a 511 series. Second best series was 521 and 188 game, downed by Ginger Kobi of Jack's Grocery. Second high game of 189, with a 494 series, was topped by Ruby Batterson of Bruce Phillips 66.

Lavonia Center of Christensen Boot rolled 187-517 and Jean Combs of Bruce Phillips 66 earned 188-506.

Several other high games were rolled. These were: Cecil Ross, of Cooley Shamrock, a 192-494; Dot Kain, Bruce Phillips 66, a 188-490; Jeanette Hayden of Mike Hammer, a 180-440. Those topping 170 or better were: Ruth Glover, 175-491; Lue Best, 174-446; and Marie Irwin, 172-463, all teammates of Cooley Shamrock. Marie Raughley of Hamilton Flying downed 174-441, while Rose Overholt of Bruce Phillips 66 rolled 170-465.

The two free diners donated by Carlos Restaurant were won by Doris Homberg, when she rolled 363 pins over her average.

Splitting a match on Jack's Grocery, Ginger Kobi beat the 2-7 and 3-10 and Doris Homberg the 3-10; Marie Irwin, Cooley Shamrock, the 3-10; Audrey Pipper, Hamilton Flying, the 5-10; Lyn Myles, of Christensen Boot, the 3-10; and teammates on Mike Hammer, Lucie Garrison, the 5-6 and Shirley Johnson, the 5-7.

Bruce Phillips 66 team was the only team which did not convert any of its splits.

Standings: Phillips 66 75% 44%; Mike Hammer 73% 47%; Cooley Shamrock 66% 33%; Christensen Boot Shop 54% 65%; Jack's Grocery No. 3 50% 69%; Hamilton Flying Service 40% 80%.

Houston took a fling at the bowl business with its late Oct. Bowl. Born in World War II years, it folded in 1948 after suffering limited interest at the gate and inadequate facilities. Rice's stadium expansion was not completed until 1950.

The NCAA okayed the Bluebonnet Bowl idea in a Cincinnati meeting last January. The Southwest Conference also has given its blessing, Smith said.

The bowl group's agreement with Rice gives the school 15 per cent of the gross ticket sales, less taxes and parking fees, while the sponsors will pick up the proceeds from sale of programs and broadcasting fees.

Approval by the Southwest Conference, Smith said, indicates that league will allow its also-rans to take a crack at the Bluebonnet Bowl if they wish. The SWC champion gets a Cotton Bowl bid automatically.

"Now we've got to go to work and its going to take a lot of effort by all of us to put over this project," Smith told the group.

The GHBA board lists 23 Houston and business leaders.

The date for this year's bowl games falls on a Saturday, followed by the Monday opening of the Southwest Conference Basketball Tournament.

Seven Cagers Take Drills At HCJC

Seven athletes reported for basketball tryouts at Howard County Junior College Saturday under direction of Coach Harold Davis. A morning and afternoon session was held. This was the second tryout program this year and another will be scheduled in May.

Ray Clay, Tom Garrison and Harold Henson were HCJC cagers who rounded out the two teams in scrimmages.

Jordan On Prowl On Bigger Game After Akins' Victory

By JERRY LISKA ST. LOUIS (AP)—World welterweight champion Don Jordan, who one-handedly retained his title Friday night, is on the prowl for a match with abdicated welter king Carmen Basilio.

"I'm looking towards a nontitle June bout, probably in Madison Square Garden," said Jordan after his comparatively easy conquest of Virgil Akins despite a damaged right hand.

"But I like the big gate and Basilio could really bring the big gate," added the 24-year-old boxer dandy from Los Angeles.

Basilio is playing ring-around-the-rosy with Sugar Ray Robinson, who divedst him of the mid-dleweight title last year and has been avoiding him ever since.

In the war of nerves, Basilio could give up on Robinson and try for a fat pay check in a re-

Jayhawks Win Dual Meet At Roswell

ROSWELL, N.M. (SC)—Howard County Junior College of Big Spring, preparing for the Texas Junior College Conference meet next week, rolled to a 69-38 victory in a dual meet with New Mexico Military Institute of Roswell here Friday afternoon.

No mile relay race was held. An 880-yard relay was subbed in but no points were counted either in that event or the 440-yard relay.

The Jayhawks won first places in nine of the 14 events held. The Texans' only double winner was R. D. Ross, the bespectacled endurance runner from Lamesa, who won both the mile and two mile.

The meet's outstanding performer was Joe Hernandez of NMMI, who placed first in the 440-yard run, the winning 880-yard relay team, the broad jump, low hurdles, was third in the 220 and had a leg on

Run For Roses Real Scramble

By JOHN CHANDLER LOUISVILLE, Ky. (AP)—The 85th Kentucky Derby, America's most glamorous horse race scheduled for next Saturday at ancient Churchill Downs, is a wide-open scramble that could produce a miniature Charge of the Light Brigade.

With at least two dozen 3-year-olds from all sections of the country still listed as possible starters, a field approaching the record of 22 in 1928 is in prospect.

Old Derbytown has been humming for days. Louisville's hotels have been sold out since January.

Aside from Silver Spoon, C. V. Whitney's filly who beat the colts in the Santa Anita Derby to run up a 6-for-6 mark, this derby crop has been whipping each other with regular consistency.

Only one filly in derby history has come off with the big one—Regret in 1915.

It had been expected that the Wood Memorial at Jamaica last week would help clarify the atmosphere. But Manassa Mauler, a 63-1 outsider not even eligible for the derby, defeated First Landing, intentionally, Atoll and other highly regarded colts.

Previously Bayard Sharp's Troilus, the Flamingo winner, got his come uppance in the Florida Derby where Jim Norris' Easy Spur copped the orchids.

First Landing, owned by Christopher T. Cheney of Virginia and New York, was the champion 2-year-old of 1958. In the Wood, he cooled off Atoll and intentionally in a blazing early pace but couldn't hold off the Mauler in the final yards.

Fred Turner Jr.'s Tomy Lee, runner-up for 1958 2-year-old honors, showed he is ready for the big test when he won Thursday's \$32,550 Blue Grass Stakes at Keeneland with a 1-48 3/5 clocking for 1 1/4 miles. The derby is on-

SOFTBALL LOOP TO BE FORMED

A softball league for men who seek the exercise rather than the thrill of winning is being organized by the YMCA.

Five teams are now in sight for the circuit and Bobo Hardy, general secretary of the Y, is accepting applications.

Managers will meet to discuss the proposed circuit at 7 p.m. Tuesday at the Y. At that time, the league will discuss the appointment of game officials, the playing schedule and other matters. Anyone who desires can feel free to attend the session.

Sponsors of teams already lined up for the circuit include Newsom's Grocery, Foremost Dairy, Furr's Food Store, Hull and Phillips Grocery and the YMCA Aces Auto Club.

E. B. Dozier Has High Game, Series

Aided by a high team game and series of 899-2528, Fireball popped Pepsi-Cola, 3-1, last week in the Men's Major bowling league.

Thompson Furniture dispelled Miller the Killer, 4-0, Snac-A-Ritz shaped a 4-0 win over Tesco, 4-0, Sovoy's Fina split 2-2 with Wheat Furniture.

E. B. Dozier had high single game of 214 with a 549 series. Wade Bledsoe had 559 high series with a 202 game.

Snac-A-Ritz's 873-2451 was next-best team game and series.

Standings: Team Fireball 82 43; Snac-A-Ritz 77 47; Thompson 76 47 1/2; Sovoy's 66 37 1/2; Lee Hanson 64 60; Conden 59 64 1/2; Miller the Killer 57 67; Pepsi-Cola 44 76 1/2; Tesco 45 79; Wheat 45 79.

Army To Study Ban On Bowls

NEW YORK (AP)—Army's ban against postseason competitions, including the football bowls, is going to be reviewed by its athletic board.

This doesn't mean that the West Pointers are going to make any immediate about-face on their previous stand. But the fact that the five-man board is going to look into the subject appears significant.

Col. Francis J. Roberts, Army's director of athletics, said Friday the question of bowl play would be one of many things which will be taken up by the board appointed last week.

He said the group, which is made up of three professors all colonels, the commandant of cadets, and the athletic director also will discuss the possibility of Army's appearances in NCAA tournaments, such as basketball, and then make recommendations to Supt. Lt. Gen. Gar Davidson.

"The superintendent has the final say," said Col. Roberts. The no-bowl policy is believed to be one of the reasons behind the January resignation of Col. Earl (Red) Blaik as football coach and director of athletics.

The military academy is the only one of the three service schools playing major football that doesn't go bowl.

Army and the Air Force Academy will clash for the first time at Yankee Stadium this year on Oct. 31. Roberts announced the shift of this game from Michie Stadium. Also transferred from 27,000-seat Michie Stadium to 70,000-seat Yankee Stadium was the Army-Oklahoma contest for Nov. 18, 1961.

Yankee Stadium also is a possibility along with Philadelphia's Municipal Stadium for the Army-Notre Dame game of Oct. 1965, said Roberts in announcing resumption of the famed rivalry for 1965 and 1966. South Bend will get the '66 contest.

Drilling Hits 373, Slips 16 Projects

After reaching the third high point of the year last week, rotary drilling in the Permian Basin fell off some 16 rigs during the past week and ended with 373.

The 389 recorded by Reed Roller Bit Co. when it surveyed the Basin on April 17 showed 389 rigs, topped this year only by the 391 on Jan. 16 and 407 on Jan. 10.

The 373 is well above the same time of 1958, however. On April 25, 1958, there were 329 rigs turning in the Basin.

Lea County, N. M., lost two rigs during the week but it still retained the lead among individual areas, ending the week with 48. Andrews County was second with 42, one more than it reported on April 17.

Other counties reporting 20 or more rigs in action include Crane with 20, Ector with 29, and Winkler with 21.

Howard County lost two rigs during the seven-day period and counted 11 active rotaries on Friday. Borden was static with five for the last two surveys, while Dawson lost one from its five count of April 17.

Counties included in the Reed survey (with April 17 totals in parentheses) are Andrews 42 (41), Borden 10 (10), Brewster 1 (1), Cochran 5 (5), Chavez 5 (4), Crane 20 (21), Coke 2 (3), Crockett 3 (4), Crosby 0 (1), and Culbertson 4 (3).

Also Dawson 4 (5), Dickens 0

(1), Ector 29 (34), Eddy 14 (14), Fisher 4 (5), Gaines 19 (18), Garza 10 (11), Glasscock 0 (0), Hockley 4 (5), HOWARD 11 (13), Iron 1 (1), Kent 2 (3), Lamb 3 (2), Lea 48 (50), and Lubbock 1 (1).

Others on the survey include Lynn 0 (2), Martin 4 (4), Menard 1 (1), Midland 8 (14), Mitchell 1 (1), Nolan 2 (2), Pecos 16 (14), Reagan 3 (1), Roosevelt 3 (3), Reeves 3 (4), Runnels 3 (4), San Miguel 1 (2), Scurry 9 (8), and Schleicher 4 (4).

Snowball 3 (4), Sutton 2 (2), Terry 4 (1), Terrell 7 (8), Tom Green 1 (2), Upton 6 (8), Val Verde 2 (1), Ward 13 (10), Winkler 21 (20), Yoakum 10 (12), and Permian Basin totals 373 (389).

Natural Gas, Taxes In Fore At TIPRO Meet In Dallas

DALLAS (AP) — Imports, natural gas and taxes will be major topics the next three days as Texas independent oil operators meet here to formulate federal and state legislative policies.

The 13th annual convention of the Texas Independent Producers & Royalty Owners Assn. will be the first of two large spring meetings where small producers will exchange views on current problems. The Independent Petroleum Assn. of America meets May 4-5 in Phoenix, Ariz.

Control to limit oil imports and federal regulations of well-head natural gas prices again will dominate TIPRO proceedings.

TIPRO's executive committee has commended the federal government's new mandatory controls but said it has misgivings whether the program goes far enough. The independents long have advocated an equalization tax as the most effective means of preventing low-cost foreign oil from injuring the domestic industry. Before the convention ends Tuesday, TIPRO's imports committee is expected to recommend whether there is need for legislation to supplement the mandatory controls established by President Eisenhower.

Another committee is to recommend whether a new drive should be launched in behalf of the con-

traversial Harris Natural Gas bill or other congressional proposals should be supported.

The Harris bill has made no progress in Congress this year, and many independents believe it to be much weaker than bills vetoed by Presidents Truman and Eisenhower. The vetoed bills would have removed from Federal Power Commission regulatory authority over wellhead prices for gas sold by a producer to an interstate pipeline.

Undersecretary of Commerce Frederick H. Mueller, who had an active role in development of the mandatory imports program, is to speak Monday. Sen. Joseph C. O'Mahoney (D-Wyo.) speaks Tuesday. O'Mahoney has an anti-imports bill pending in the Senate.

Another controversial issue to be considered is a wider well spacing proposal that would mean drilling a few wells under current acreage limitations. Texas Atty. Gen. Will Wilson and E. B. Miller Jr., a vice president of Tidewater Oil Co., will join the independents in a Monday panel discussion.

A number of independent and major operators formed the Oil Conservation Forum, a group that considers wider spacing an effective means of conserving oil and cutting costs.

The Texas Legislature will be debating tax bills while the independents meet in Dallas. Suggested means for erasing a state deficit include boosting the gas production tax from 7 to 10 per cent and a graduated oil tax on 17 companies producing more than 700,000 barrels of crude a month.

The Texas House this week amended a tax bill to include a 15-cent per barrel tax on foreign oil brought into the state. The big tax bill later ran into strong opposition, however, on other issues.

While the House was debating taxes, the largest tanker ever to enter Port Houston moved up the Houston Ship Channel and began unloading 265,112 barrels of Middle East oil at the Eastern States Petroleum & Chemical Corp. refinery.

While the House was debating taxes, the largest tanker ever to enter Port Houston moved up the Houston Ship Channel and began unloading 265,112 barrels of Middle East oil at the Eastern States Petroleum & Chemical Corp. refinery.

Oil Experts Worried By Red Petroleum Offensive

NEW YORK (AP) — U. S. oil executives are worrying more than they care to admit about a rising flow of Soviet oil imports.

While the din and strife of Arab oil politics snare the headlines, the specter of a Russian oil offensive looms silently.

Many U. S. oil company officials regard the coming Russian oil onslaught as a far graver threat than the noisy clamor for revision of oil concession agreements heard at this week's Arab oil conference in Cairo.

Actually, Soviet oil exports are disrupting established marketing patterns in many parts of the world right now.

"The determined and relentless drive of Communist Russia toward world domination has taken the form of increasing pressure against the international oil companies," David S. Searls, general counsel of Gulf Oil Corp., declares.

"Russia is selling crude oil and products in free world markets and it is apparent she has definitely determined to undersell the market."

"This policy more and more appears to be a new phase in the Cold War intended to divorce the

American oil companies from the European and other markets, as well as to deprive the free world of crude supplies in the Middle East. These objectives have been spelled out already in Iraq."

Gulf derives the lion's share of its income from oil produced in Kuwait, in the Middle East. A good part of this oil goes to Europe.

Volume of oil being shipped out of the Soviet Union and its satellites is still relatively small. But the Russians use hit-run tactics, pin-pointing their trade offensive at sensitive spots. Likely markets for Soviet crude are countries that haven't too many dollars available to buy oil through normal channels. The Russians will trade oil for machinery, textiles, lemons or rice.

Russia's exports to Europe, the richest and most vulnerable market, averaged only 240,000 barrels a day last year and are not expected to go much above 300,000 barrels a day in 1959.

But U. S. oil men say by 1970 the Russians will be flooding Europe with more than three times that much.

LUTHER POOL Operator To DST At Howard Well

Operator prepared to run a drill-stem test in the Fusselman zone at the Ralph Lowe No. 1 Ryan in Howard County at the end of the week.

The project is a south extension to the Luther Southeast (Fusselman) field about 12 miles northeast of Big Spring.

The well is bottomed at 9,870 feet for the first DST in the zone. The site is 1,900 feet from south and 660 feet from east lines, 34-32-2N, T&P Survey. It is a south offset to the Ralph Lowe No. 1 T&P-Ryan which was finished in the field last month for 204 barrels of oil.

About four miles east of Big Spring, the Cosden Petroleum No. 1 Whitmore drilled Saturday at 5,505 feet. It is located C NE NE, 37-32-in. T&P Survey, and is a 9,850-foot exploration seeking a Fusselman production.

C. D. Turner has completed its No. 8 M. Edwards in the Snyder field for a daily pumping potential of 51 barrels of 29-degree oil and two per cent water. The well was finished after being fraced with 10,000 gallons of frac fluid.

Site is seven miles southeast of Coahoma, 1,650 from north and 2,310 from east lines, 32-30-1S, T&P Survey.

Total depth is 2,645 feet, and top of the pay zone is reached at 2,545. It produced from open hole.

The D. L. Dorland No. 3-A Clay, in the Howard - Glasscock field, was bottomed at 1,808 feet this weekend. The site is 1,650 feet from south and 2,310 from east lines, 139-29, and four miles east of Forsan, C. D. Turner has drilling contract on it.

JACK Y. SMITH

CAROL E. BELTON

Cosden Officials To Speak At WPRO Meet This Week

Two Cosden employees will appear on the program at the Southwest Regional meeting of the Western Petroleum Refiners Assn. in El Paso this week. Taking part in the conferences are Jack Y. Smith and Carol Belton.

More than 150 refiners from Texas, Colorado, New Mexico, and Oklahoma are expected to attend the meeting which will be held Wednesday and Thursday.

Smith, director of industrial relations at Cosden, will preside at the industrial relations session on Wednesday. Participating on the same program is Tom Hurley, Shell Oil Co. representative from Midland.

Belton, manager of the coordination and economics department at Cosden, will be one of the featured speakers at the technical session on Thursday. He will discuss "Utilization of Natural Gasoline."

The largest organization of its type in the refining industry, the WPRO is a national organization of petroleum refiners, whose membership is composed of both small and large refiners. R. L. Tollett, Cosden president, is a former president of the WPRO, having served in 1951 and 1952. He is now a member of the association's executive committee, the membership committee and a life member of the board of directors.

In addition Smith and Belton, other speakers on the program are from Dallas, New York, East Chicago, Ill. and Tulsa.

Stock Market Soars To New Highs In Week

NEW YORK (AP) — The stock market soared to still higher record peaks this week, broke on profit-taking, then launched a new upward swell as the week ended.

Thanks to a sharp recovery Friday, the market posted a small gain on average for the week. The Friday advance followed two days of decline after the popular averages climbed to historic highs on Monday and Tuesday.

Electronics and other space age issues spurred again. Blue chips, which paced last week's march to record highs, were not so prominent.

The Associated Press average of 60 stocks rose 40 cents to \$227.90. The last record of \$228.70 was set Tuesday.

Prices were supplied with plenty of incentive for a renewed climb. There was a flood of highly favorable first-quarter earnings reports and prospects of more to come next week. Stock splits of many issues were nearing their effective dates, thus bringing the day closer when broader public trading in those stocks could be expected. In addition, many issues boosted to big prices by the bull market were being talked about in Wall Street as likely candidates for stock splits.

Of significance was that the two makers of small cars, American Motors and Studebaker - Packard, were the week's top trading favorites. The week's trading in American Motors topped half a million shares. A quarter of a million shares of this stock were traded Thursday after news of a big increase in earnings and of its first cash dividend since the company was formed by a merger in 1954. A dividend was anticipated but it was higher than Wall Street guessed.

LP Gas Imports To Be Expected In Five Years

WASHINGTON (AP) — A new chapter in the fueling of many population centers and a new branch of the petroleum industry are envisioned by a member of the Federal Power Commission.

Tanker transportation of liquid gas will bring them about, in the opinion of commissioner William R. Connole.

"It could change the use pattern of energy throughout the entire world," he said.

Connole predicted methane gas — gas of organic origin, now going to waste in vast quantities — will be coming into the United States in liquid form within five years.

Barring unexpected developments, he said he believed a large volume of gas for Eastern seaboard and West Coast population centers will come from outside continental North America by 1970.

"If this prediction is even remotely accurate, and I believe it is, it behooves us now to begin thinking about it and it behooves the Congress to begin doing something about it," Connole said.

Connole said that when the tanker *Meyhane Pioneer* docked at an oil company's jetty on Canvey Island in the Thames estuary in England last February, something of immensely greater significance arrived than another tanker.

"This was the first successful effort to transport natural gas in liquid form in an ocean going tanker and the first time hydrocarbon fuel, other than coal or liquid petroleum, had been brought to Western Europe from another continent."

NOTICE

We Have Had Numerous Inquiries About The G.I. Special Assistance Program. This program has no effect on G.I. Eligibility for home loans, but is an aid to the builder in making mortgage money more readily available.

The G.I. Eligibility for World War II Veterans expires July, 1960, unless another extension is granted.

The Korean War Veterans G.I. Bill is in effect indefinitely.

The Interest Rate Is 4 3/4% On Our Special Assistance Homes - The Interest Rate Will Probably Go Up May 1st.

FOR BEST RESULTS USE HERALD CLASSIFIEDS

Directors, Prexy Renamed By Pioneer Stockholders

Re-election of the corporation's eight directors and a review of current and past year operations were highlights of Pioneer Natural Gas Company's 1959 annual stockholders' meeting held Tuesday in Amarillo.

In reviewing the company's past

and current operations, President C. I. (Stoney) Wall emphasized the past growth of the area served by Pioneer, pointing to an income of \$1,000,000 during 1958. In addition to those formerly served by Empire Southern Gas Co.

Pioneer acquired the properties of Empire Southern in a stock exchange in March of 1958.

Wall noted that building permits in the areas served by Pioneer are sharply on the increase.

Directors voted a 35 cents per share dividend on common stock, payable June 5 to stockholders of record at close of business on May 22.

Wall was re-elected president, and other officers were B. P. Smith, vice president and treasurer; H. R. Budke, A. F. Cox, R. M. Curry, James A. Davis, H. N. Odham and T. S. Whitt, vice presidents; K. B. Watson, secretary, and J. L. Prarr, assistant treasurer and comptroller. Directors include G. W. Dupree, Lubbock, W. E. Walker and Maurice E. Purnell, Dallas, Ross D. Rogers, A. F. Cox, James A. Davis, B. P. Smith, C. I. Wall, Amarillo.

Cosden Sites NM Wildcat

Cosden Petroleum Corp. is to drill a rank wildcat in New Mexico and may carry it as deep as the Ellenburger.

It will be Cosden No. 1-A Federal in Chavez County, about midway between Tatum and Roswell. This puts it approximately 43 miles from nearest production. Contract depth is to 10,000 feet.

In other tests in New Mexico, Cosden made progress in three ventures. In the Allison pool, Cosden No. 1-C State, in Roosevelt County, drilled to 9,023 and Cosden No. 1 Mills in Lea County, penetrated to 8,778. Cosden No. 1-B State in the Saunders pool was drilling ahead below 8,449. These tests are looking for the pay zone around 9,600 feet.

Two Special Weeks

Today marks the start of two nationally-observed "weeks." They are National Baby Week and National Photography Week. So what would be the natural result? Why, shutter-bugs taking pictures of babies, naturally. And in recognition of these special weeks, The Herald today presents some baby photos, made not by the newspaper photographer, but by proud parents and other kinfolk who have a hobby with cameras. This is the way they pursue their hobby and get cherished photos of little ones, all at the same time.

WAIT FOR TILDY

Shown with her dog, Tildy (short for Matilda), is Mary Catherine Allen, 2½, daughter of Dr. and Mrs. Glenn Allen, 2101 Morrison. Dr. Allen was the proud photographer.

'GOOD NEWS TONIGHT'

Probably one of the youngest of The Herald's "readers" is Lee Bradshaw, 11-month son of Lt. and Mrs. R. G. Bradshaw, 403 E. 8th. Photographed by his father, the baby is shown with one of his favorite amusements—paper.

LIFE IS TOIL

Johnny Shortes tried out his camera skill on his nephew, 18-month-old Gary Lee Riddle, son of Mr. and Mrs. Leon Riddle of Knott. At the time Gary Lee was busy with his Spring gardening.

AWAY WE GO

John Mark Shortes, 2, son of Mr. and Mrs. Johnny Shortes, 611 Linda Lane, poses in readiness for the take off. His father was at the camera.

HOLD IT, TEDDY

Six-months-old John Allen inspects a toy teddy bear as his father, Dr. Glenn Allen, snapped the shutter at their home on 2101 Morrison.

BETTER STAY AWAY

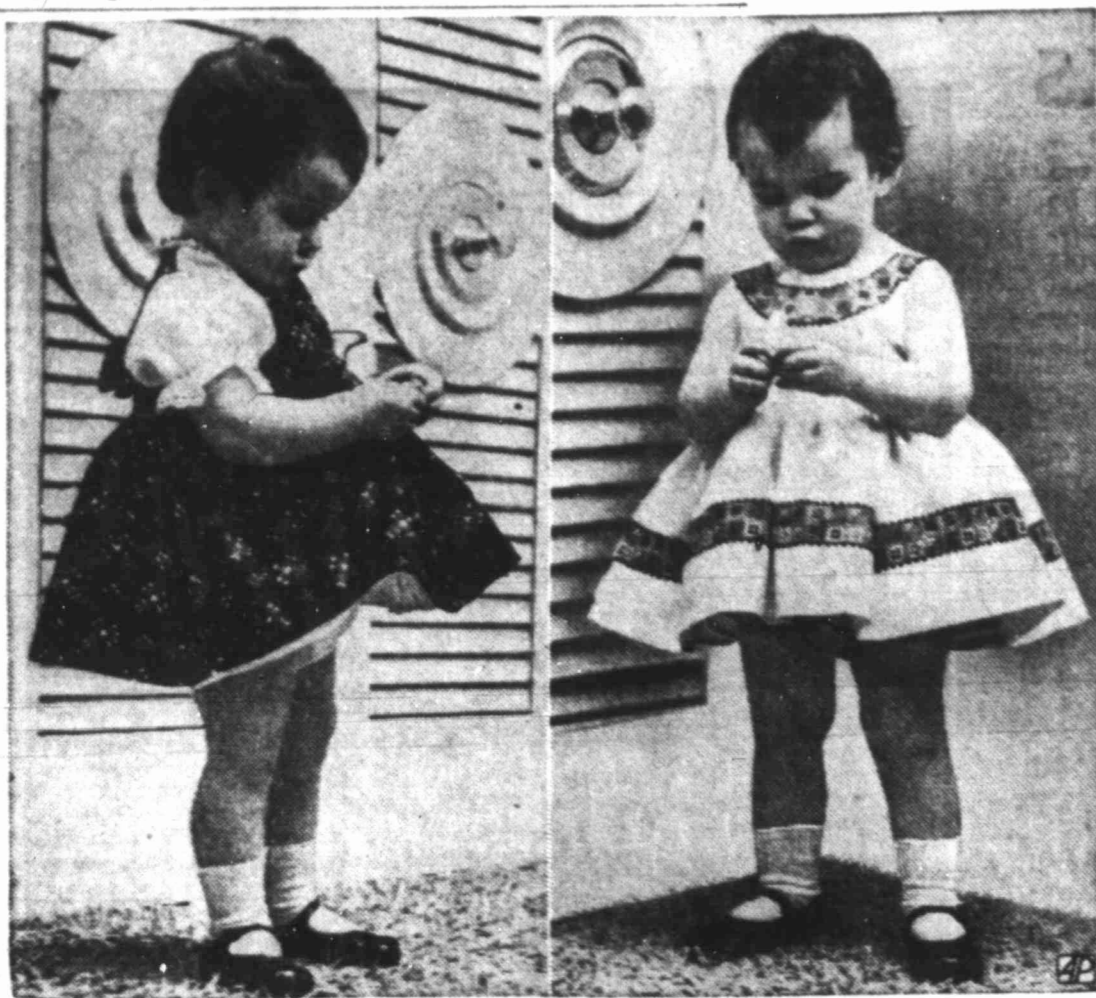

Caught in a warning mood is Randy Jones, 13 months old, great-grandson of Mrs. Louise Bain, 501 E. 15th, who made this picture. Randy is the son of Mr. and Mrs. Ronald Jones, who make their home both in Big Spring and Midland.

READY FOR THE BALL

Found in her favorite spot is Terri Roman, 13 months old, who models her mother's shoes for the benefit of the camera of her father, Odell Roman. The Romans live at 1701 Morrison.

WOMEN
The
Big Spring Herald
BIG SPRING, TEXAS, SUNDAY, APRIL 26, 1959

High Style For Toddlers

These two beguiling dresses for young ladies of fashion, age one, were designed by Helen Lee and are available in sizes up to 14. At left is a provincial print jumped with laced shepherdess bodice and dainty white blouse; at right, white waffle pique is used for a sundress trimmed with calico on skirt and yoke.

Pint-Size Swank

This fashion-conscious young charmer wears Helen Lee's creation for the younger set—a pale green cotton broadcloth with crisp white organdy pinafore and lace trim. It will delight glamour babies as well as their mommies.

'ROUND TOWN

With Lucille Pickle

A nice affair for nice people was the dinner to honor G. W. DABNEY Thursday evening. What a feeling of fulfillment a person must have to be honored by his townspeople for doing his job well but most of all because in doing it, he made friends who have been steadfast through the years, and he is still making new ones.

The HCJC choir was in fine voice — I have never been disappointed in a performance of this group even though it is small. We met some newcomers to Big Spring at the dinner who have already been introduced as new citizens through the Herald. They are MR. AND MRS. ARLEN FRAMPTON, who came here from Lubbock where they had lived four years.

MAJ. AND MRS. WARREN LOCKHART are spending the week with his parents, Mr. and Mrs. S. L. Lockhart, 603 W. 18th. Maj. Lockhart is stationed by the Air Force at Arlington, Va.

MR. AND MRS. W. W. PENDLETON were here over the weekend visiting friends made when they lived here ten years ago. He was a Herald linotype operator. Their son, Buddy, is a freshman at SMU.

Bostonians MR. AND MRS. PETE PETERSON and their three children were guests of Mr. and Mrs. Freddie Carr and Mr. and Mrs. Harvey Tindol at Coahoma during the past week. The Petersons are living in Colorado City where he is superintendent of construction for the Missouri Valley Construction Co. on work being done at Lake Colorado City.

MRS. RAYMOND EADS had as guests this weekend two aunts, Mrs. Ruth Airhart and Mrs. Mable Groves of Colorado City.

MRS. LOUIS SULLIVAN is im-

Fly-Up Ceremony Given In Troop 340

A fly-up ceremony was held for Barbara Burklow at the home of Mrs. Wayne Parsons Friday afternoon when Girl Scout Troop 340 met.

Miss Burklow was unable to be present at the ritual when the troop went from Brownies to Girl Scouts.

Routine business was carried on by the group of 11 little girls.

proved after suffering facial bruises when she fell last Sunday at her home.

MRS. LEE O. ROGERS and MRS. CLYDE THOMAS JR., are expected to return this evening from Austin where they attended a meeting of the Youth in Government board held Saturday.

BILL TAYLOR of Sulphur Springs visited his sister and her family, Mr. and Mrs. Omar Jones, Larry and Jon, Thursday. He returned home Friday.

MRS. ERNEST HUGHES has been a patient at Cowper Hospital.

MRS. ARCH YATES of Abilene is visiting in the home of Mr. and Mrs. Wayland Yates.

DR. AND MRS. MARSHALL CAULEY, Richard and Lynn spent Saturday in Andrews with Dr. and Mrs. D. D. Sanders, former Big Spring residents.

Settles WMS Circle Is Organized

A team of leaders from First Baptist WMS met Thursday evening with eight women from the Settles Baptist Mission to assist them in organizing a WMS circle.

Mrs. Horace Reagan, vice president, Mrs. F. W. Bettie, Jubilee chairman, and Mrs. W. F. Taylor, prayer chairman, were guest speakers from First Church. They told of the procedure in organizing a circle and previewed for them the programs to be studied and the weeks of prayer to be observed. A question and answer period brought out other important facts.

The opening prayer was by Mrs. Haskell Beck, wife of the Settles pastor, who was appointed as temporary chairman. She named Mrs. J. T. Grantham, Mrs. R. L. Hughey and Mrs. W. C. Turner as the nominating committee.

Following the devotion by Mrs. Bettie and the benediction by Mrs. William Ward, the eight women from Settles served coffee and cake.

Wiener Roast Set For Forsan Group

FORSAN — Announced for Friday evening is a wiener roast for the Junior Department of First Baptist Church. The social will be in the Big Spring City Park, with arrangements under the supervision of Mrs. C. L. Goode, Mrs. H. G. Green, Mrs. J. H. Cardwell and Ronnie Gandy.

The B. R. Wilsons have been visiting in Tahoka during the week.

Mr. and Mrs. M. H. Davis were recent guests in the home of Mr. and Mrs. M. M. Fairchild.

Here as a guest of the Charlie Alton is her aunt, Mrs. Evelyn Oldham of Salinas, Calif.

A guest in the home of the Frank Swigers has been C. A. Buzzard of Winston, Penn.

Mrs. Leo Parker received the special prize at a recent demonstration party, given in the home of Mrs. Don Murphy; 13 guests were present.

Fruit With Sauce

Place a quart of mixed soft fresh fruit in season in a casserole. Add vanilla extract to taste to 1 cup hot sugar syrup. Pour over all. Cover at once. Let stand until cool; then chill until serving time. Serves six.

Forum Studies Mental Health

Food for thought was given members of the Modern Woman's Forum as a program by that name was presented Friday afternoon in the home of Mrs. Fred Whittaker. Mrs. J. P. Dodge was cohostess.

Mrs. T. G. Adams discussed the changes which have been brought about in the last 20 years in medicine and science. She mentioned various drugs and vaccines and spoke of the increase of longevity.

This in itself is a problem, Mrs. Adams told the group, since longer life increases the possibility of chronic diseases and the decline of mental alertness. One solution of the problem, she said, is the rehabilitation of individuals in which volunteer workers are invaluable.

Mrs. Harwood Keith, taking a

positive rather than negative view of the subject, stated that there should be an effort to increase the "mental wellness" of the public, since such a condition is an indication of the growth toward maturity in social and economic matters.

The speaker brought out the fact that there is no distinct line between mental illness and wellness in the individual.

Refreshments were served to 15 members and three guests, Mrs. J. C. Douglass of Ruidoso, N. M., Mrs. M. R. Harris, Austin and Mrs. J. A. Forrest.

It was announced that the next meeting date has been changed and will be revealed at a later time, along with the name of the hostess.

LAMESANS ANNOUNCE BETROTHAL

LAMESA (Special) — Mr. and Mrs. C. O. Weltmer have announced the engagement and approaching marriage of their daughter, Sandra Lee, to A/3C Pershing Hicks Jr., son of Mr. and Mrs. Pershing Hicks of Oil Field Route, Big Lake.

Both Miss Weltmer and Hicks are graduates of Reagan County High School, Big Lake. She is attending Draughon's Business College, Lubbock. He is serving with the Air Force in the Marshall Islands.

No wedding date has been set.

Forsan Cafeteria Announces Menus

FORSAN — The school cafeteria at Forsan will offer these menus for next week:

Monday: Hamburger - noodle skillet, green beans, sliced tomatoes, grapefruit.

Tuesday: Pinto beans, stewed tomatoes, cheese cubes, celery sticks, cornbread.

Wednesday: Hamburgers, onions, lettuce, tomatoes, fritos, fruit cookies.

Thursday: Roast and gravy, creamed potatoes, sweet peas, congealed salad.

Friday: Sandwiches, potato chips, tomato slices, banana pudding.

Accord
designed by Merton L. Gershun

Accord was deliberately designed to bring good contemporary design and high quality to the reasonable-price bracket... and this new starter set makes it more desirable than ever. Come in and see the rich walnut with its soft, oil type finish... the inlaid bandings, cane panels and the dull gleam of four-leaf metal inlays. We've pictured only a few of the pieces, the complete collection includes dozens of different bedroom and dining room pieces and a selection of particularly beautiful occasional tables. Accord looks expensive, but it really isn't. Come in soon and see for yourself.

'Hello, Big Spring'

Those smiles are the badges of three friendly young women who graduated from the University of Texas at mid-term and chose Big Spring as the starting point of their careers. Sally Sandlin, at left, is a homemaking teacher at BSHS. Ann Ratliff, center, is a Cosden employe. Sara Keys is a dental assistant at the State Hospital.

Attractive Ex-Coeds Have Fun 'Being On Their Own' Together

The saga of three winsome misses, recently graduated from college and having the time of their lives in their new-found independence, is being spun in Big Spring by Sally Sandlin, Ann Ratliff and Sara Keys.

In late January, Texas Univer-

Quick Chocolate Cake Adds Flavors Of Banana, Orange

Need a dessert in a hurry? May we suggest a Zombie Cake, made with a devil's food mix, a bit of orange rind and mashed banana. Whipped cream is the crowning touch.

ZOMBIE CAKE

Ingredients: 1 package (1 pound and 4 ounces) chocolate devil's food cake mix
1 medium ripe banana (mashed fine)
2 tps. grated orange rind
1 cup heavy cream
4 tps. fine granulated sugar

Method: Grease the bottoms of two round layer-cake pans (8 by 1 1/4 or 9 by 1 1/2 inches); line bottoms with waxed paper; grease paper.

Make up cake mix according to package directions, using amounts of water and eggs called for. With last addition of water beat in mashed banana (there should be a generous 1-3 cup) and 1 tsp. grated orange rind. Turn into prepared pans; bake according to package directions.

Turn out; invert again to tops of cake layers are uppermost; cool.

Beat cream until almost thick; gradually beat in sugar, then remaining 1 tsp. grated orange rind. Put layers together with half the whipped cream; cover top with remaining cream. Refrigerate until served.

sity diplomas in hand, the trio headed here fortified with a sense of adventure, spunk and camaraderie in ample portions. Favorable reports about the town and a curiosity about fabled West Texas had their effect in making them choose this community; but the really strong drawing card was the fact that Sally had already accepted a job as a homemaking teacher in Big Spring High School. The strong bonds of friendship between the three sorority (Zeta Tau Alpha) sisters sealed their pledge to start out together.

Within a week after their arrival, Ann had found a job with Cosden Petroleum Corp. in the sales accounting department, and Sara was employed at State Hospital as a dental assistant and laboratory worker. Finding a place to live proved more difficult.

At last they settled in an ap-

Save The Coat

If a small child has outgrown a good winter coat in length, buy some contrasting cloth of equal quality and put a band around the bottom of the coat and cuffs on the sleeves. You could make her a hat or cap of the new material, also a draw string bag. Brown and white checked material makes a nice contrast to a solid brown coat, for instance.

stairs apartment at the rear of 1308 Scurry. This was the cue for Sara, a native of Austin whose college work was in liberal arts, to exercise her interest in art and interior decoration. She even extended it to the yard, where she sowed a few flower seed and some tomato plants, none too successfully she fears.

Sally, having been a home economics major, is perhaps the foremost cook, although they take turns preparing the meals; when one cooks, the other two do the dishes and straighten the rooms. Full scale cleaning comes only when company is expected, they gleefully confess.

Home for Ann is Ozona. Reading is a pleasant pastime for this graduate in English, but she shares with her apartment mates a zest for water sports. Listening to records, which range from blues and show tunes to classics, is an almost continuous occupation.

Right now, shopping sprees for three hope chests offer the most fun. Sally's already pledged, and planning an August wedding. The Mount Pleasant girl is to repeat vows with an Eldorado boy who is studying civil engineering at the University and will graduate in January. Meanwhile, there's plenty of time for three vivacious and charming misses to have lots of excitement together.

Appetizing Meals In School Plans

Interesting luncheons have been planned for the pupils who take their noon meal at the local school cafeterias. Here's what is in store for them:

MONDAY: Cheeseburgers, potato salad, sliced tomatoes, pear half, cookie, chocolate milk, milk.

TUESDAY: Porcupine balls, mashed potatoes, carrot, raisin salad, apple rolls, chocolate milk, milk.

WEDNESDAY: Italian spaghetti, green beans, head lettuce with French dressing, cornbread, cherry cobbler, chocolate milk, milk.

THURSDAY: Fried chicken, buttered potatoes, English peas, hot rolls, purple plums, chocolate milk, milk.

FRIDAY: Barbecued ham, Pinto beans, apple and cabbage salad, cornbread, jello with grapefruit sections, chocolate milk, milk.

Blouses Come Into Their Own With Suits Of Season

It's a suit spring, and a blouse bonanza.

Now that fashion is flirtatious once more, gay blouses add the seasoning to suit fashions and can change the mood of a tailored costume as quick as you can say presto-change-o.

The favorite suit silhouette of the season is the simple, understated line with brief box jacket, often worn open. This shows off the blouse to great advantage and makes it possible for a girl to vary her outfit with a wardrobe of blouses.

The white blouse is, of course, a must, and it comes in a variety of styles and fabrics, from the crisp pique vest to the dainty sheer cotton with lace frosting. Many of the new blouses also come in synthetic fabrics which may be dunked in the wash bowl at night and worn next day without ironing.

Next in importance is the costume blouse, which teams with a skirt to make a coordinated outfit. This may be a jacket blouse in one of many fabrics, such as hopsacking, raw silk, linen, sharkskin or pique. It may match or contrast with the skirt color, and proves one of the most useful items of the feminine wardrobe.

Flower prints and high colors also form an important chapter of the blouse story this spring. Haberdashery details such as winged collars, short cuffed sleeves, shirttails and monograms add interest to the picture.

Popular Salvage

NEW YORK (AP) — Old newspapers top the list of the most collected items in the annual spring salvage drive of the volunteers of America, national social welfare organization.

Women's shoes are the footwear items most often contributed.

Weds In South Carolina

Mrs. James C. Harris is the former Lana Ussery, daughter of Mr. and Mrs. A. E. Ussery, Highway 80, East. Her marriage to Pfc. Harris took place Tuesday in the First Baptist Church of Ellington, S. C., with an Army chaplain reading the vows. The bridegroom, son of Maj. and Mrs. C. F. Harris, 1304 Main, is stationed with the Army in South Carolina. Maj. Harris and his daughter, Shirley, and Mrs. Ussery attended the ceremony.

Make A Jumper

If a child has a pretty woolen jacket that is too short, remodel it into a jumper. Material from the sleeves may be used to make a yoke and this will lengthen the garment. Little girls love jumpers.

Make attractive mittens, caps and bags from old woolen garments. A matching set of these may be secured from an old skirt.

Marie Garner, Expert hair stylist, is now with the **BON-ETTE BEAUTY SHOP**

Forsaners Attend FHA State Meet

FORSAN — Mrs. James Childress, Janet Gooch and Joyce Shoultz left Thursday for Dallas where they attended the state meeting of the Future Homemakers of America, which was held on Friday and Saturday.

The Forsan Home Demonstration Club met this past week in the home economics room of the school. Mrs. B. F. Mabe of Big Spring assisted members with knitting and also reported on the THDA meeting held in Plainview recently. She was a delegate to the convention.

Plans for the coming Home Demonstration Week were discussed by the group, and the next meeting was announced for Tuesday with Mrs. John Kubecka as hostess. The club will meet at the school.

Oregon Visitor Is Honored At Coffee Given In Stanton

STANTON — Mrs. Clayton Burman entertained Friday morning with a coffee in honor of Mrs. Iris Palm of Salem, Ore.

Mrs. Palm has been visiting her sister, Mrs. Flora Morris. An arrangement of red verbenas and greenery decorated the table which was laid with a white cut-work cloth. Nine attended.

Ronnie Henson was honored recently on his first birthday with a party at the home of his parents, Mr. and Mrs. Jimmy Henson. Cake and ice cream were served to 10.

Mr. and Mrs. Roy Linney, Mr. and Mrs. Leroy Linney and family left Friday for a fishing trip. The Leroy Linneys will return Sunday while the Roy Linneys will remain longer.

Shirley Graves has returned from a Big Spring hospital. Henry Bridges of Denver City visited Thursday in the home of his parents, Mr. and Mrs. G. A. Bridges.

La Rue Adkins has been in a Big Spring hospital for several days. She is reported as improved.

Eager Beavers Meet

Six members of the Eager Beaver Sewing Club met Friday afternoon with Mrs. Ben Jernigan to sew and chat. They were told that Mrs. D. D. Johnston will host next Friday's session.

Betrothed

June 29 is the date selected for their wedding by Linda Russell and Billy Bob Lewallen, son of Mr. and Mrs. E. E. Hall of Odessa. This is the announcement being made by Mrs. Opal Russell, 704 Bell, mother of the bride-elect. Place for the ceremony has not been announced.

Spadea's American Designer Pattern

Brigance 1332

BARGAIN BUY Three Skirt Patterns Given For One Price

Brigance, frequent award winner for his clever sportswear, offers three skirts; each for a different purpose, each important as wardrobe stretchers to wear with your favorite tops.

STYLE I: A complete wrap-around with double buttoning on the front panel and welted pockets.

STYLE II: Smooth over the hips. Brigance gives ease with a deep inverted pleat both front and back. The big patch pockets are smack on the side.

STYLE III: There's plenty of

Mrs. Shoultz Marks Her 78th Birthday

FORSAN—Mrs. Mattie Shoultz observed her 78th birthday Wednesday evening as guest of honor at a dinner in the home of her daughter and family, the H. M. McCluskeys. About 25 children and grandchildren were present, including Mr. and Mrs. T. C. Bryant, Mr. and Mrs. George Weincoff of Midland, and Mr. and Mrs. Jimmy Shoultz of Post. Mrs. Shoultz has made her home with the McCluskeys for several weeks. Guests of Mr. and Mrs. Jay Toops and children have been Mr. and Mrs. Jake Wake, Mr. and Mrs. J. A. Toops of Andrews, and Mr. and Mrs. Floyd Baker of Hobbs, N. M. Mrs. O. C. Mason and family were recent guests of relatives in Cross Plains.

Braid It

If a line shows where you have let out the hem of a child's dress, hide the line by stitching it with a row of braid over the line.

MR. AND MRS. LON LIGHT

Open House Today For Lamesans

LAMESA (Sp)—In observance of their Golden Wedding anniversary, Mr. and Mrs. Lon Light will hold open house at their home on the Big Spring highway from 2 to 5 p.m. today.

Married at the home of the bride's parents in Mitchell County, on April 25, 1909, the couple first resided in the Pyron community of Fisher County, moving to Rosecoe in 1920. In 1924 they moved to Lynn County where they lived in the New Moore community until 1953 when they moved to Seagraves.

Light retired from active farming in 1958, and the couple moved to Lamesa five months ago.

Mrs. Light is the former Gracie Mae Zorn, daughter of the late J. F. Zorn and Mrs. Zorn of Beckville. Light is the son of the late Mr. and Mrs. G. F. Light.

Open house will be hosted by their daughters, Mrs. Jesse Murphy of Plains; Mrs. H. B. Crutcher, Lamesa; Mrs. J. F. Rogers Jr. and Mrs. Myrtle Webber of Brownfield, and Mrs. Garland Doyle of O'Donnell.

Faculty Ma'ams

Faculty Ma'ams will meet at 7:30 p.m. Monday in the HCJC Student Union Building parlor for a brief business session. At 8 p.m. they will see a style show to be staged by "graduates" of the charm school which has been conducted by two of their members, Mrs. Harold L. Davis and Mrs. Jack Hendrix.

Born to Mr. and Mrs. Castuelo Bilano, Vincent, a son, Ray M., at 2:01 p.m. April 21, weighing 7 pounds, 4 1/2 ounces.

Born to Mr. and Mrs. Alvin Moore, Route 1, a son, Kenneth Joe, at 9:51 a.m. April 21, weighing 7 pounds, 3 1/2 ounces.

Latsons Will Be Honored This Evening

This evening, friends of Mr. and Mrs. Arthur Latson will gather at a reception in honor of the couple's Silver Wedding anniversary. Following worship services at the Main Street Church of Christ, the party will be held in the parlor, with a group of hostesses assisting in receiving.

Extending the hospitality will be Mrs. Avery Falkner, Mrs. Carl Nunley, Mrs. Volley Sorrells, Mrs. O. B. Kirby, Mrs. C. D. Maxwell, Mrs. R. C. LeFevre, Mrs. E. H. Gotcher, Mrs. J. C. McPherson and Mrs. Bob Cook.

White linen will cover the tea table, which will hold a money tree of silver dollars, a gift to the honored couple. Silver holders will support white candles.

Mrs. Latson is the former Frances Brown, daughter of Mr. and Mrs. W. E. Brown of Patricia. The couple repeated wedding vows on April 27, 1934, in O'Donnell and now live at 1108 E. 13th.

Lamesa's Woman Of Year Will Be Honored At Thursday Party

LAMESA (Sp)—Lamesa's Club Woman of the Year will be honored at a tea from 7 to 9 Thursday night at the Woman's Study Club Building.

The outstanding worker in her club and her community will be revealed and presented the silver loving cup signifying her achievement.

The tea is sponsored annually by the Junior Woman's Study Club. The 1958-59 Club Woman of the Year will be one of four nominees, it is announced. Qualifications and letters of achievement and recommendation have been submitted to the Phebe K. Warner Study Club in Tahoka for judging.

Mrs. Bruce Moore's nomination was made for her work as chairman of the Dawson County Garden Club's city-wide plant exchange, and for her work as Arbor Day chairman. The project includes the beautification of some public place; this year Mrs. Moore

chose the V. Z. Rogers school where she supervised the planting of trees on the grounds and landscaping at the Home for the Aged.

The nominee of the Dawson County HD Clubs, Mrs. J. R. Corbin, has served as chairman of the Dawson County Home Demonstration council for the past two years. In 1958, she helped start the Sparenberg HD Club.

She was named Honorary 4-H Club Mother of 1958, having assisted in all 4-H projects in the county the past year. The 4-H achievement banquet was a climax to her influence and work in the program this year. Mrs. Corbin has also helped stage workshops on custom tailoring techniques and upholstering for the women of Dawson County.

The Woman's Study Club of Lamesa submitted the name of Mrs. Earnest Moody, nominated for her leadership in the District II Vogue dress contest.

Through her efforts, more than 100 women entered the contest in

the district and the 18 finalists appeared at the April convention. A member of the study club since 1947, she has held many major offices in the club, and this year she was chairman for the community birthday calendar project. Proceeds, which amount to approximately \$1,000 annually, go to help retire the indebtedness of the clubhouse.

GARDENER
Mrs. Roy Bearden, the nominee of Green Thumb Garden Club, is a charter member of the club and a past president; this year she is its projects chairman.

One of her outstanding accomplishments is the organization of a junior garden club which has 36 members. She is also serving as president of the Dawson County Garden Club and is first vice governor of District One, Texas Garden Clubs, Inc. and is historian for the Southern Zone.

Mrs. Bearden is a state and national flower show judge, and is a member of the district judges

committee. One of her main projects, recently completed, was the landscaping of a portion of the grounds at the Girl Scout Hut.

Young Builder

This wooden speedboat on its trailer hitches up to a one-piece sports car with a removable driver. For added fun, large pieces of the boat come apart and stack together in various ways.

Science Brings Magic To Modern-Day Toys

His majesty, the baby gets full benefit of recent developments of science, in a wide range of playthings employing the latest discoveries in psychology, chemistry and health.

Development of new light-weight pliable plastics has opened up a new field of toys for the youngest set, reports the Toy Guidance Council. Study of child psychology has provided new insight into the most useful toys for each age group, and health studies have pointed the way to toys that develop baby's muscles and dexterity as well as providing safeguards against possible harmful features in playthings.

The telephone, for instance, always has fascinated small fry, and now comes in a soft plastic version which clamps to a high-chair tray with a suction cup. The baby can't break it off or knock it off. This new prestige toy selection has a pleasant scent and squeaks when squeezed, thus catering to baby's sense of touch, smell, sound and dexterity.

As soon as baby can sit up, his world of experience is likely to be widened by exposure to TV and motor travel. This also is reflected in toyland. New plastic versions of the rocking horse take inspiration from westerns, and the playpen crowd now has miniature sports cars and speed boats, modeled after the latest grown-up styles.

Soft vinyl faces give new cuddle appeal to stuffed animals, now available in most of the species of Noah's Ark, and preferred in king-size versions. Plastics also have improved baby's biting opportunities, with large plastic beads that are both colorful and chewable, but too big to swallow.

New featherweight blocks are made of fiberboard, easy for the toddler to push around and pile, strong enough for him to sit on.

Most babies follow an orderly pattern of development from sound to sight, touch to taste to lively action, reports Dr. Emma Sheehy, professor of Child Development at Teachers College, Columbia University, and chairman of the council's advisory committee. She says:

"Hearing apparatus appears to be complete at birth, and it isn't long before you can watch a ba-

by's head try to turn toward the sound of a rattle or a bell. The infant's first motor control, however, is over his eyes. Bright objects which he can follow with his eyes, such as toys hung in the crib or carriage or floating toys in the bath, hold great appeal.

"Control of baby's eye movements is followed by motor control of head and neck muscles, and gradually by control over the muscles of the rest of the body. By the time the baby is three or four months old, he tries to sit up, grasp and hold toys.

"When he is five or six months old he will enjoy handling a soft doll or animal, and will reach out to grasp or tug at hanging toys. He will want objects he can watch, bang, bite, drop, push, shake and hear."

Woman Will Head Apache Indian Tribe On N. M. Reservation

MESCALERO, N. M. — For the first time in the known history of the Mescalero Apaches, a woman has become tribal sachem.

Amiable Mrs. Virginia Klinekole this year became the first woman president of the Apache Tribe of the Mescalero Reservation.

Mrs. Klinekole, serving a one-year term, is a native of the reservation and has lived on it all her life with the exception of years spent away at school at Haskell Institute in Lawrence, Kan. Her husband is a rancher in Three Rivers village and they have three children.

"I was surprised upon being elected president," said Mrs. Klinekole. "I am greatly honored that my people hold me worthy of this position."

Mrs. Klinekole is not what most people think of as an "Indian chief." Among most New Mexican Indians, the "chief" was a leader whose power came from his skill in war. There is no modern counterpart.

The Mescalero tribe consists of about 800 Mescaleros, about 400 Chirachahuas and a few Lipans. The majority speak and read English but all can speak the native Apache tongue.

Elray Scudday is a patient in the VA Hospital.

Mr. and Mrs. Arthur Gooch and children of Andrews visited here recently with her parents, Mr. and Mrs. Leland Camp.

D. M. Bardwell was in charge of the final meeting of the year Thursday evening for the Forsan Service Club. Seventeen members and a guest, Danny Wash, attended. Sessions will resume Sept. 10.

Ellie Beth Story is visiting her sister, Nancy, at NTSC in Denton this weekend.

COSDEN CHATTER

Employes Have Trips

Barbara Warren is in San Antonio to visit her brother this weekend.

Dot Hood is on vacation this week.

Mr. and Mrs. Joe Roberts are visiting his sister, Mrs. R. W. McKinley in San Angelo.

Ann Ratliff spent the weekend in Mason where she was in the houseparty of a wedding for Miss Anna Schmidt.

Charlotte Sheedy went to Fort Worth this weekend to visit her brother, Don Williams and family.

Here Are Tips For Better Phone Service

Many people do not get the most out of their phone company investment.

If there is a new baby in the house, ask your phone man about the built-in devices with which you can control the volume of the telephone ring.

On the desk set is a rotating wheel on the bottom of the instrument. On the wall phone, a popular kitchen item, you may find the lever at the base of the phone. It may be moved from side to side to make the ring louder or softer.

The wall phone has a raised lip at either side of the top of the phone so you can place the receiver on it while calling someone to the phone.

There are telephones with built-in night lights. When the receiver is lifted, the light brightens so you can dial in the dark.

There are loud ringing bells that may be placed outside of the house to tell you the phone is ringing inside.

There are outside plug-in jacks too, so that a portable phone may be used on patio or porch when the family is outdoors.

Larger homes may require intercommunication service so that calls may be made from room to room.

Crafts Are Interest Of City HD Club

At an all-day meeting of the City Home Demonstration Club, members worked on crafts, with a salad luncheon served at noon.

As part of the program, they viewed a film dealing with safety—a courtesy extended by the Southwestern Bell Telephone Company.

In a white elephant sale, the club's treasury was increased by \$17. Eighteen members and a guest, Mrs. A. J. Conrad, were present for the meeting.

Mrs. Ross Callihan, Silver Heels Addition, will entertain the group on May 8, it was announced.

Fruit Compote

Sections of fresh grapefruit and oranges are delightful when mixed with frozen melon balls for a fruit compote.

Cluwomen Asked For Questions On Children, Youth

Texas clubwomen have been invited to submit questions or statements of opinions relating to the greatest areas of concern about children and youth, including health, education, juvenile crime or delinquency, safety, working values and similar subjects, to be discussed at the local and state meetings of the Governor's Committee.

This is in preparation for the 1960 White House Conference on Children and Youth. The request was made in a letter to Mrs. Ben W. Boyd, state president, Texas Federation of Women's Clubs, Denton, from the organization coordinator, Mrs. Leon S. Price, of 308 Culberland St., Dallas.

These suggestions will be taken up in the local committee meetings which will be announced later; and then the selected subjects will be included in the state meeting before being sent on to Washington.

Listings are to be sent direct to Mrs. Price, at the above address, not later than Friday.

Bride-Elect

Mrs. Bonell Lindsey of Lamesa has announced the engagement and approaching marriage of her daughter, Patsy Carol, to Roy Dean Wood, son of Mr. and Mrs. H. L. Wood, also of Lamesa. The wedding will be an event of June 12 in the bride's home.

GS Troop Sees Demonstration

Rules of good posture were read and demonstrated for Girl Scouts of Troop 34 at their meeting Friday afternoon in the home of Mrs. F. C. Perry.

Jane Wolford was in charge of the program. Under her direction, Bible verses were read and explained by a group of four members, Rita Saunders, Sandra Ivie, Nancy McEvers and Henry Ann Perry.

A report on weekly good deeds was given by the troop.

Origin Of Name

WIDOWVILLE, Ohio — Historians say this Ashland County community is so named because a number of Civil War widows once lived in it. The population is now 20.

Reception At Ackerly Honors Mrs. Reese

ACKERLY — Mrs. Roger Kinzie Reese, the former Karen Childers, was guest of honor at a gift reception Friday afternoon at the home of Mrs. Elmer Dyer.

During the party hours, songs and piano selections were given by Kay Dyer, Sylvia Smith, Judy Brown, Rheba Bodine and Dana Horton.

Two of the hostesses, Mrs. Lester Brown and Mrs. Bob Hunt, served refreshments from a table adorned with an arrangement of bluebonnets. Mrs. James Wornack and Mrs. Frank Hope, also of the entertaining group, presided at the register and greeted guests.

Joining in as hostesses were Mrs. Darrell Smith, Mrs. Cecil

Allred, Mrs. Sue Fowler, Mrs. Darrell Shortes, Mrs. Lonnie Kemp, Mrs. James Wells, Also, Mrs. J. C. Niblett, Mrs. Jack Grigg, Mrs. Cliff Prather, Mrs. Mike Davidson, Mrs. Floyd Shortes and Mrs. Dyer.

Among the guests were Mrs. John M. Hale and Marilyn of Colorado City, and Mrs. Rowen Rayburn, San Antonio.

Tasty Treats

Wash raisins and spread out in flat pan. Cover, heat slowly in moderate oven until they puff and wrinkles come out. You will find this the easiest way ever to plump raisins.

A Variety Girl

Anne Francis prefers variety to one type and tells how she runs the gamut from teen-ager to sophisticate. She has been chosen to star in the new "Claudia" TV series.

HOLLYWOOD BEAUTY This Star Avoided The 'Glamour' Routine

By LYDIA LANE
HOLLYWOOD — Anne Francis began her career as a child model, became a pioneer in TV and was the first girl from this medium to receive a movie contract.

When I saw the pilot for Anne's new "Claudia" TV series, I felt that this lovely girl and fine actress would at last receive the recognition that is long overdue her. "She has never given a bad performance," a top director once told me, "but she never looks the same in any part so that the public doesn't associate her from one role to another." As Anne and I were driving to visit a paralyzed-veterans hospital we discussed this.

"I suppose I do look different," she said, "because often people I know very well don't recognize me. I rather like to change my type and I hope the series will not restrict me too much."

"How do you change your appearance?" I asked.

"Mainly by hair and make-up," Anne replied. "I don't start the day with the idea I'm going to look different, but sometimes I feel like wearing a sweater and skirt and my hair in a pony tail, and another time I like a tailored suit and my hair in a French twist."

For the veterans she looked very sexy with a loose bob and navy blue sheath that showed her figure to advantage.

"Every person is capable of exhibiting a new personality, presenting it in a career, social or business life," Anne observed. "Lots of people, I think, long for a change but they're afraid."

The sun streamed through the car window highlighting Anne's hair.

"You really are a natural blonde!"

Anne laughed. "There aren't many of us. I'm fortunate I don't have to worry about bleaches. I do my hair myself about once

a week. Every so often I have a mild permanent wave."

"Appearance is a great giveaway," Anne continued. "It is important as a communicator, and if you don't let it represent what you are, you are creating a false impression and are headed for some sort of frustration."

"As young as I was when I came to Hollywood, I never allowed myself to get caught up in..." Anne stopped to search for the right word. "I suppose you'd call it extra glamour."

"Have you any beauty problems?" I asked.

"I did have," Anne said brightly. "I had trouble with my complexion. It was the most baffling thing! Every time I worked my skin broke out. The natural conclusion was that I had some reaction to the heavy make-up. But even with non-allergic formulas I still got pimples."

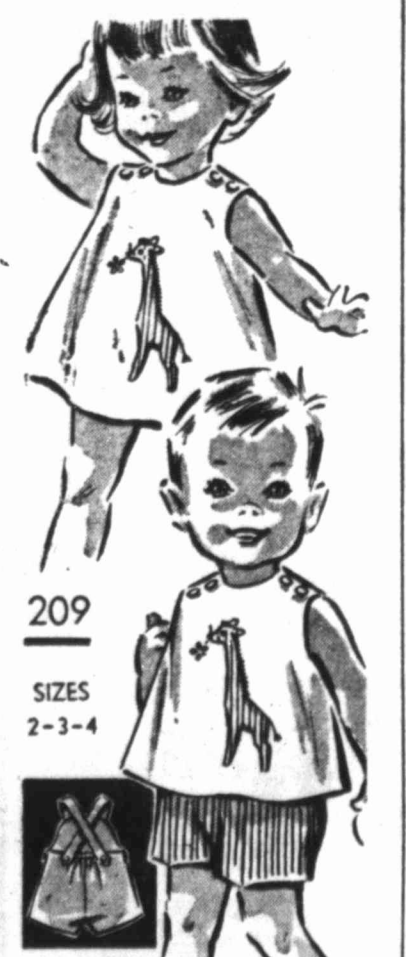

"When I work I don't like to eat much at one time, so I'd bring raw vegetables and hard-boiled eggs with me to nibble on during the day. And just recently I discovered that the eggs were making me break out. But I can eat eggs fixed any other way without reaction."

"Are you as relaxed as you seem to be?"

"I've worked at it," Anne confided. "When I'm on the set all day I'm constantly releasing tensions. Between takes I flex my fingers, rotate each foot, roll my head in circles and get the kinks out of my shoulders by clasping my hands behind my back and pulling down and stretching upward."

"I have another exercise I learned from the dancers at the studio," Anne said as we drove onto the hospital grounds. "It is great for relaxing my back. With a bent knee I raise my right leg waist high and swing it as far as I can to the left, twisting my torso and shoulders as far as I can to the right at the same time. Then I repeat with the left leg. When this is done correctly several times, it gives a most effective release."

CORRECT FIGURE FAULTS
It takes time to break old habits, but with Leaflet M-8, "Exercises to Correct Figure Faults," before you as a constant reminder you'll have added incentive to exercise. Dividing the body into three strategic sections you have: (1) The bust, shoulder and arm area. (2) The mid-section, consisting of the abdomen, diaphragm and rib case. (3) The hips, buttocks and thighs. You will be able to fill in the hollows in the neck area, enlarge or decrease the bustline, lose inches from the abdomen, hips, buttocks and thighs or build up these areas by faithfully following the routines on this leaflet. If you are fortunate enough to have a good figure, keep it with daily exercise. For your copy of this vital leaflet, send only 10 cents and a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald. Be sure to ask for M-8.

Cute, Cool
Treat the youngster to this cool, comfortable outfit — a sunsuit plus button-shoulder top with giraffe applique. Please state size. No. 209 has tissue — size 2, 3 or 4; applique and sewing instructions.

Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Add 10 cents for each pattern for first-class mailing.

Seniors Banquet
LAMESA (Spl)—Dr. Bruce Meiver, pastor of the Wilshire Baptist Church, Dallas, was the principal speaker for the 1959 Senior Class of Lamesa High School at the annual banquet given recently in their honor by the WMU of First Baptist Church. More than 100 members of the graduating class, their sponsors and other faculty members attended. Theme for the banquet was A Rosy Future.

Mrs. Griffin Is Worthy Matron

LAMESA (Spl) — Mrs. Al Griffin was elected worthy matron and Herman Bartlett, worthy patron, for the Lamesa Chapter 363, Order of Easter Star, at their meeting Thursday night.

Other officers elected were Mrs. Forrest Faulkenberry, associate worthy matron, Forrest Faulkenberry, associate worthy patron; Mrs. Travis Kidd, secretary; Mrs. Fred Johnson Jr., treasurer; Mrs. Nancy Johnson, conductress; Mrs. Jeff Shipp, associate conductress.

It was voted that the officer in-

stallation to be held in June, will be an open meeting; appointive officers will be announced at the May 14 meeting of the chapter.

After the close of chapter, a program "Our Garden of Love" was staged to honor star point officers.

A special poem was dedicated to Mrs. Justice Walls who has filled each of the five star points. Refreshments were served in the foyer to 30 members by Mrs. James B. Taylor and Mrs. John Middleton, hostesses.

Pioneer Club Has Guests At Meeting

FORSAN — Mrs. John Kubecka was hostess for the Pioneer Sewing Club recently, with eight members and two guests attending. Visitors were Mrs. Maggie Pittman of Midland and Mrs. S. C. Cowley. The next meeting was announced for May 8.

Members of the high school student council were entertained at a wiener roast recently at the Boy Scout Camp a few miles east of Forsan. Accompanying them was the sponsor, W. M. Romans.

Mrs. W. J. White was in Spraberry and Midland recently with her mother, Mrs. Maggie Pittman, who returned home with her. This weekend they are visiting relatives in Dublin.

The Roy Walravens have had as their guests Mr. and Mrs. Jack Garber of Iraan.

The S. C. Cowleys have returned from Pecos after a visit there with relatives.

Kenneth Cowley, with A. J. Copeland of Big Spring, has been fishing on the Llano River.

Baptists In Lamesa Schedule Workshop

LAMESA (Spl)—Marcie Creech, elementary Sunday school and Training Union worker of the First Baptist Church, Midland, will conduct a one-day workshop clinic in the First Baptist Church Thursday.

The clinic will be divided into three separate periods, the first from 9:30 a.m. to 12 noon. Lunch will be served in the church dining room, and the second period will be from 1:30 to 5 p.m.; the evening session from 7 to 9:30 p.m.

Miss Creech is a recognized authority and leader in the field of religious education.

HOWCO Club Has Evening Of Bowling

An evening of bowling was enjoyed by the HOWCO Club, Thursday at the Clover Bowl. Mrs. Jimmy Harper and Mrs. E. J.

Alford's Return Home

Mr. and Mrs. James H. Alford have returned from a trip to Alabama where they were called by the serious illness of his mother and brother. While in the East they visited Mrs. Alford's relatives in Tennessee and a son in St. Louis, Mo.

Helmets Tell Story

The all-time high of 171 entries in this year's All-American Soap Box Derby is depicted here by the numerals formed from the racing helmets the local champions will wear at Akron in the race on August 16. Two of them held by Bruce G. Overby, Derby general manager, carry the official 1959 design which will be painted on all. The list of 171 locally sponsored Derby races is 11 above the previous high of 160 in 1958.

Poor Work, Marriage Account For Most School Withdrawals

"Drop-outs" apparently are continuing in Big Spring High School at about the same rate as last year.

While no study has been made of the problem this year, high school enrollment has declined by 78 since the early part of the school year. There were 925 in high school last Sept. 12. Now there are 847 enrolled.

Some of the decline may be due to transfer of students to other schools.

However, the decline in high school enrollment between Sept. 9, 1957 and April 15, 1958, exactly equalled the number of pupils who dropped out of school last year. The total was 69.

The 1958-59 term apparently is deviating from the pattern of the past few years, though.

There was a decrease of 57 in system-wide enrollment between Sept. 12, 1958, and April 10, 1959. Peak this year was 6,390. Last year, the system showed

an over-all gain of 173 between Sept. 9 and April 15.

When the study of high school drop-outs was made last year, failures and poor work in general accounted for nearly half of the withdrawals.

Thirty-four students dropped out because of poor work, the study showed. Second most influential cause of withdrawals was marriage, blamed in 10 cases.

Seven withdrew because of illness, six pulled out to enter the armed forces, three because of disciplinary problems, and two were forced to quit school because of financial difficulties. All other causes accounted for seven withdrawals to make the total of 69.

There is little to keep a student in high school outside of his own desire to attend and the encouragement of relatives and friends.

Compulsory school attendance regulations require schooling only through the ninth grade or until the student becomes 16 years of age. Pupils seven to 16 years of age and under the ninth grade are required to attend at least 120 days of school each year unless they are provisionally hindered.

The group consists of 45 musicians, director Dwight Tomb and eight sponsors.

The band will play in Amarillo, and Denver and on Monday at Canyon it will play before Dr. Ted Creager, head of the West Texas State College music department, who will conduct a band clinic for the Colorado City youngsters.

Record Number Of Champions In Lineup For Soap Box Derby

DETROIT — A record smashing lineup of 171 boy champions from the United States and overseas will be matched in the 22nd annual renewal of the All-American Soap Box Derby at Akron's Derby Downs Aug. 16.

The all-time high number of entries for the world famed amateur racing event for boys was announced by W. G. Power, executive director of the All-American and advertising manager for Chevrolet, national sponsor of the activity.

Previous high was the field of 160 last year. The 171 locations where official Soap Box Derby races will be held this Summer include 25 newcomers.

Champions from the local races in nearly every state, including Alaska, two Canadian provinces, the Philippines, West Germany

and Venezuela will compete in the All-American race at Akron in the greatest spectacle in the history of the coasting car event.

"The record-breaking list of official local Derby races and, especially, the extremely large number of 146 holdover cities from 1958, are ample evidence of the tremendous momentum of Derby growth and popularity in our country as well as overseas," Power declared.

The Soap Box Derby, open to boys 11 through 15 years of age, inclusive, is co-sponsored locally with Chevrolet by leading newspapers, radio and television stations, civic, service and fraternal organizations.

Five college scholarships, valued at \$15,000, an array of valuable merchandise awards and other special prizes will go to All-American winners at Akron.

Specially designed silver championship racing wheels will be given to the champions when they arrive in Akron for the 22nd All-American in August, according to Bruce G. Overby, Derby general manager. The wheels will be mounted on the cars for test run and the big race, he said.

Big Spring Also Has Biggest Field

Big Spring is right in step with the All-American Soap Box Derby — the city also has a record number of Derby contestants this year.

There are 67 boys building racers for competition in the Big Spring Derby. All of the youngsters are from Howard County.

Soap box cars are under construction in scores of back yards and garages throughout the city, and Loyd Wooten, general manager of the local Derby, said most of the boys are making rapid progress.

The big race is just two months away. It will be held at 8 p.m. Thursday, June 25.

Elbert Boullion, chief inspector, and his aides are keeping in close touch with Derby entrants as they work on their cars. Goal of that group is to see that few corrections need to be made after the racers receive their preliminary inspections.

Wooten said the preliminary checks probably will be scheduled for Saturday, June 13, about 10 days prior to the Derby. If any corrections or adjustments are needed, the boys can make them in advance of the final inspection on race day.

Several special activities — such as ice cream parties, etc. — will be scheduled for the Derby boys, starting in the next few days, said Wooten.

Sponsors are being signed up now, and will be assigned to the boys soon, Wooten reported.

Rabbit Hunters Wind Up Adopting Two Infant Bunnies

LAMESA — Jerry Delaney, 14-year-old son of Mr. and Mrs. Frank Delaney, was doing his part last weekend in the extermination of those "pesky" rabbits and ended up playing nurse to a couple of cute bunnies.

Jerry and a friend, Buddy Barron, had killed two rabbits when they noticed that one was much heavier than the other. They performed surgery to find the cause, and much to their surprise, there were two babies.

Since the rabbits were not breathing the boys gave them artificial respiration. The rabbits look over from there. They have a new home with the Delaneys and are being fed from a small bottle. They are growing rapidly.

Lamesa Lions Club Names New Officers

LAMESA — H. M. Bruner has been elected president of the Evening Lions Club.

Other new officers are Jimmy Edwards, first vice president; Billy Corbin, second vice president; Charles King, third vice president; David Williams, secretary; J. W. Lowrey, treasurer; Art Ayres, Lion tamer, Earl Goen, tail twister, and Ray Braswell and Leroy Goolsby, directors.

J. D. McAmis is the outgoing president of the Lamesa club.

Boy Confesses C-City Burglary

COLORADO CITY — A Colorado City boy, 16, has confessed the burglary of Burrus Drive-In Grocery, according to County Atty. Frank Ginzler.

About \$30 in cash and a pistol were taken from the grocery store, and the pistol was used in another attempted break-in at the Sports Shop in downtown Colorado City a week ago. The youth admitted firing several shots into the back door at the Sports Shop in an attempt to break the lock. He failed to gain entrance to the building, however.

Colorado City police broke the case when they jotted down the

number of a car parked a half block away from the Sports Shop late Friday night. When the attempted break-in and the robbery at Burrus Grocery were reported, police questioned the owner of the car—the boy's father—and the boy admitted the burglary.

A Devotional For Today

God be merciful to me a sinner. (Luke 18:13.)

PRAYER: Our Father, we would seek a closer walk with Thee by asking that our sins be forgiven and forgotten. Teach us and strengthen us to walk in the steps of our Master, who taught us to pray, "Our Father who art in heaven . . . Amen."

Timely Flower Of Praise

Big Spring — and West Texas — paid fitting tribute Thursday evening to George Washington Dabney, who served Big Spring 14 years as a city commissioner and most of that time as mayor.

Speaker after speaker had, as might be expected, kind words for the genial "Mayor," who has now retired from official public service. It is a tribute that they could do this without seeming full-measure.

Mr. Dabney is, as his minister pointed out, a good man and out of this solidness of character he issued his desire to serve others. What other possible reason could impel a man to offer himself for seven consecutive terms in an office that returned only the most nominal monetary consideration?

He was fond of the opportunity to serve

and he made no bones about wanting to hold office. This was no evidence of immodesty, for his humility was as great at the end of 14 years as at the beginning. It was the mark of guileless honesty.

The truth of the matter is that George Dabney simply loves people and the therefore has the common touch. He has consideration for opinions and feelings of others and therefore can disagree without being disagreeable. He has commanded respect of men from chief executives of some of the state's leading businesses to an unlettered laborer.

Such a record deserves recognition. We're happy our community lifted the flower of praise while George Dabney could enjoy its fragrance.

Season For A General Cleanup

Within a fortnight we will be emerging from the blustery season into late spring and then summer.

Thus, the time is at hand for a general housecleaning for our town.

Of course it is always well to clean up and stay clean and tidy, but so long as high winds bring in a new wave of trash, efforts can't produce discernable long range results.

However, we are now coming out of that season into a time of more stable weather conditions. We are coming to the time when we need to clear out the accumulation of the autumn and winter,

to remove hazards around the house and yard, to do away with things which would work against the health of our community.

We are coming to the time when people will be moving about more and more, and hence the time when we need to dress up and paint up.

Gradually our city is becoming more attractive, and although some rugged and older areas may present their own peculiar problems, we can add to that attractiveness. All it takes is a little planning, a little promotion — and a little civic pride and elbow grease.

Marquis Childs

More Military For Hungry Countries?

WASHINGTON — In the House of Representatives, which often suffers from a sense of neglect at attention centers on the Senate, Rep. Chester Bowles of Connecticut is demonstrating that you do not have to surrender your identity in that large and closely disciplined body.

He has made a series of speeches dealing with the principal problems of the day that have been full of constructive criticism and even some ideas on how to approach those problems. His latest — on foreign aid — takes the responsible view that Democrats must support the President's full request for \$3.9 billion. But they also have an obligation to try to bring about some major changes in that program.

Above all, what Bowles said about the need to examine the military side of the aid program comes at a moment when there are growing doubts of the wisdom of so much stress on military help. Too often when military hardware — much of it obsolete — is sent to underdeveloped countries it puts an intolerable burden on the economy of the country and entrenches a military caste eager to get more tanks and planes.

The simple answer of the American military to this criticism is that these countries demand squadrons of jets for prestige value. If the United States does not provide them, someone else will. That answer begs the question that Bowles and others put as to the added burden imposed on countries barely staggering along under a load of poverty, disease and ignorance.

This applies with particular force to Latin America where the "prestige value" of planes and tanks is carried on the back of a peasantry that is often hungry. Dictators and their rivals are inspired to all kinds of intrigue by these same prestige symbols.

The International Bank has figures showing the extent to which military spending absorbs public revenue in countries south of the border where poverty is a constant invitation to revolt and communist subversion. An ever-larger share of the national budget goes to sustain a military apparatus that gladdens the hearts of the colonels but has little or no real worth in the age of nuclear war.

Nearly 20 per cent of Haiti's budget goes to the military, including the island-wide police force. The percentage of Brazil is 29, for Chile 24, for Paraguay 28, for Peru 20, for Columbia 21, for Honduras 18. In some instances the cost of a constabulary is included.

A recent visitor to Haiti called on President Francois Duvalier to discuss the urgency of Haiti's problems as inflation and hunger stalk the land. The visitor was astonished to have Duvalier say that one of his urgent needs was for more modern fighter planes. This seemed to an outside observer the very last thing that would contribute to economic recovery and political stability.

The problem in Haiti, as in other areas

The Framework

J. A. Livingston

Secretary Anderson Has Real Money Troubles

As you go to work, read your newspaper, watch television, or take a weekend trolley to the country to see spring, you're not likely to identify yourself with Secretary of the Treasury Robert B. Anderson, who sits at a large desk in a high-ceilinged room in the 120-year-old Treasury Building in Washington. It doesn't pop into your mind that he's your check-book man. But he is. Boy, do you have troubles!

In early January, Secretary of the Treasury Anderson, acting in behalf of you and me, decided to raise a little money. He had bills to pay. He sold \$24,000,000 of 4 per cent bonds due in 1960 at 90 cents on the dollar and \$2,738,000 of 3 1/2 per cent notes due in 1960 at 99 3/4 cents on the dollar.

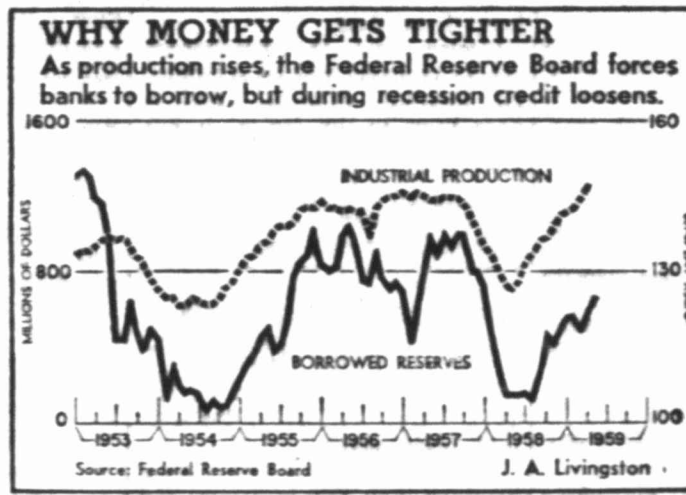

The bonds and notes hardly got out of his hands and into the hands of purchasers when they fell below the offering prices. Then, a bit later, he offered some 4 per cent bonds due in 1969, this time at 100 cents on the dollar, and, again, the bonds had hardly reached the sale deposit boxes of purchasers when, plopp! they fell below the selling price.

The investors who bought those bonds feel the way you'd feel if you went into a store and bought a suit of clothes on Tuesday and then discovered the price had been cut on Friday. It wouldn't make any difference if you were the financial vice president of an insurance company or the investment officer of a bank or the treasurer of a large corporation, you'd look upon Treasury securities doubtfully.

Why buy them, you'd say to yourself, if as soon as I get them they go down? I'll look pretty silly trying to explain to my board of directors why I persisted in putting money on an inclined plane.

That's Secretary Anderson's problem. That's your problem, and my problem. We're in debt, our government is spending more money than it's collecting in taxes. So we're going further into debt. By the end of this month, Secretary Anderson must make up his mind how to raise another \$4,550,000,000, which comes due next month. And that may not be the worst.

Back in July, 1957, Secretary Anderson was in a similar financial fix. To attract buyers, he offered his now well-known "two by fours," a 4 per cent four-year U. S. note, which could be redeemed at the option of the holder in two years. Now some of those two by

fours are coming due. Holders can say on May 1 whether they want to turn them back to the Treasury for cash on August 1. Since \$2,600,000,000 are outstanding, undoubtedly some notes will be turned in. That, on top of \$13,500,000,000 of 1 per cent certificates which come due in August.

In between, Anderson must raise \$4,200,000,000 in June and \$2,000,000,000 in July. That's called rolling over the debt. Most persons with Anderson's problem would just want to roll over . . .

People suggest, "The Treasury will just have to pay more for money!" Or, "Congress will just have to change the law and let the Treasury pay more than 4 1/2 per cent." That, however, is wish-thinking. Once people get the notion that Treasury securities will go down in price, they won't buy them no matter what the interest rate is.

As one shrewd government bond man put it, "The Treasury's got to become its own best customer," meaning that it has to have a surplus and start retiring debt. If it buys its own securities, they'll be less plentiful.

Some people argue, Well, if the Treasury's in trouble, William McCleskey Martin Jr., chairman of the Federal Reserve System, can always come to Anderson's rescue. Martin can make money easy, even buy Anderson's securities if necessary. But that would turn the Federal Reserve into a handmaid of the Treasury and an engine of inflation. Martin would oblige, so would Anderson.

Since the end of the war, Reserve policy has been properly perverse. In good times, it would attempt to slow down the use of credit so as to prolong prosperity. In recessions, it would make credit

Around The Rim

Leave That Dumkoph Oscar Out Of It

Have you made a will? Don't let me scare you, but no matter the state of your health, it's good business to see that what you may have accumulated is distributed, after your demise, according to your wishes. After all, you made the filthy lucre, and ought to be able to say where it's going.

One needs to take such safeguards as seeing that a worthless brother-in-law doesn't cadge into the deal, or seeing that a shyster doesn't come along and victimize your poor widow.

This subject comes to light because friends have handed me a clipping from the Waco newspaper which reproduces an actual will that was filed down in Anderson County. Lawyers might not endorse its style, but you can't say this old boy didn't have his estate well wrapped up:

"I am writing of my will myself that des lawyer hand he should have to much money he ask to many questions about the family. First think I want don't want by brother Oscar got a dam thing. I got he is a mummer he done me out of four dollars fourteen years since."

"I want it that Hilda my sister she gets the north sixtie akers of at where I am homing it now I bet she dont get that loofer husband of hers to brake twenty akers next plowing. She cant have it if she lets Oscar live on it I want it should have it back if she does."

"Tell mama that six hundred dollars she has been looking for ten years is berried from the bak-house about ten feet

down. She better let little Fredrick do the digging an count it when he comes up. "Pastor Licknitz can have three hundred dollars if he kisses the book he wont preach no more dumbhead talks about politiks. He should a roof on the meeting house with and the elders should the bills look at."

"Mama should the rest get, but I want it so Adolph should tell her what she should do so no more Irishers her vaken cleaner, they noise like hell and a broom dont cost so much."

"I want it that mine brother Adolph be my executor and I want it that the judge should please make Adolph plenty bond put up and watch him like hell. Adolph is a good busness man but only a dumkoph would trust him with a beated pennig."

"I want dam sure that Schleimial Os. car done nothing get tell Adolph he can have a hundred dollars if he prove to Judge Oscar get nothing; that dam sure fix Oscar."

As I say, attorneys could put this all in fancier phraseology, but it shouldn't take a Solomon on the beach to know that this thrifty old fellow down in Anderson County has a few things in mind:

(1) Adolph had better be kept an eye on, but he is shrewd enough to look after business for mama; (2) brooms will do the same thing as vacuum cleaners; (3) the church should have a new roof yet; and (4) Oscar ain't to get a dam thing.

There's a little more in the estate, too, because we had saved a lawyer's fee yet. —BOB WHIPKEY

Norman Vincent Peale

A Seven-Day Mental Diet

An interesting and dynamic friend of mine amusingly calls himself "a former miserable friend." I suppose a "miserable friend" is a person who makes everybody around him miserable because he is miserable himself. I very well recall that in the case of this particular man, others would come into his presence in more or less jaunty and optimistic frames of mind. But he was a jauntiness-extractor. He threw cold water on optimism. In no time at all he could take all the jauntiness out of everyone and drain off the optimism as well.

Strangely enough, he thought of himself as a religious man, but he was super-critical of everyone. He would say of someone, "I try not to say critical things about anybody, but . . ." There was always a "but." Then the old knife would go in and twist around.

No subject of a positive nature could be broached without his taking a negative position. His natural approach to any question was a negative one. Yet, in a way, this man was a good fellow and you couldn't help but feel that he had real possibilities.

In the course of events he moved to another part of the country and I didn't see him for three or four years. And when I did see him again he was a different man, almost as though he had been reborn.

I asked him how he had achieved this amazing change. "I went on a seven-day mental diet," he replied. Then he explained that someone had given him a little pamphlet called "The Seven-Day Mental Diet" by the late Emmet Fox. In this pamphlet Dr. Fox observed that Americans are diet-conscious from a physical point of view — and that it is even more important that we place equal emphasis

on the type of thoughts we feed into our minds. And he advocated the following "Seven-Day Mental Diet":

Resolve that from a given moment — and minute you select — you will for seven days thereafter watch your every word and, for those seven days, you will not make a single negative or mean or dishonest statement. You will not make an off-color remark for seven days. You will not voice a depressing concept.

Now, of course, that is a big order! A food diet is easy by comparison.

"I tried it one day and failed," my friend continued. "I tried it again and went for two days before I slipped. It was really hard going. It's difficult to try thinking differently. I tried again another week and made a poor start. Then I became annoyed and determined that I would stubbornly keep at it because I knew I had to change myself or real happiness was out for me."

"Finally, I succeeded for one whole week! Not once did I fail. I was so worn out with the effort that I thought I would ease off and slump back a bit into easier ways. But, do you know, actually I couldn't do that. I had achieved a change in myself. I had brought myself up to a higher level. At first I was pretty nervous living on this upper-level basis, but the more I kept at it the more adjusted I became to the new status. Since then life has been altogether different." That he was indeed different could not be denied.

Such mental dieting surely offers great possibilities for self-improvement. It is a fact that we are what we think. A mental diet can make a person strong, happy, effective through the simple expedient of changing one's thought pattern.

Herter Passes With Flying Colors

WASHINGTON — Secretary of State Herter passed, with flying colors his first examination. He handled with tact and skill the discussion of current problems with members of the Senate Foreign Relations Committee. He revealed, moreover, that he has learned well the complex issues of foreign policy as they relate to national defense. For he reflected accurately the decisions of the National Security Council and particularly stressed the same points that have recently been made to Congress by Defense Secretary McElroy.

Anyone reading the transcript of the hearing before the Senate Foreign Relations Committee that preceded the unanimous vote of the Senate itself, confirming the nomination of Mr. Herter to be secretary of state, must have been impressed with his agility as well as frankness in answering questions and, above all, with his basic knowledge of American foreign policy as developed in recent years by Secretary Dulles with the support of President Eisenhower.

First there was the question of how a war might break out, Sen. Morse, Democrat, of Oregon asked:

"Let's assume that in the Berlin crisis, with the Russians buzzing American airplanes above the 10,000-foot level, that some trigger-happy Russian, either by orders or disobedience of orders or conceivably by accident, shot down one of those planes, would you consider that an act of war on the part of Russia against the United States?"

"Not necessarily, senator," was the reply. "I think that there is always a factor of the accidental or incidental event that can take place through miscalculation, misjudgment on one side or another."

Secretary Herter added that he felt sure "the Russians are realistic enough" not to want nuclear war any more than we do.

Sen. Morse said, however, he prays the Russians are realistic, too, but "sometimes we get a little discouraged when we realize that their leaders apparently don't pray, and in the absence of that kind of moral basis for their philosophy, sometimes I wonder whether we can rely upon their not following a warlike course of action under such circumstances."

Secretary Herter declared, in answer to another question, that, if the Russians did deliberately shoot down our planes,

he would consider it "an overt act of war," and the facts would be in due course be laid before the Congress for a discussion of whether or not a declaration of war should issue.

"The only reservation," he added, "that I would put on that would be if on the other side we had actually seen in the scopes (radar screen) attacking planes or missiles that would require instant retaliatory power on our part."

"We all agree," said Sen. Morse, "that that would go to the commander-in-chief, who has that power to exercise."

Secretary Herter, in response to another inquiry, stated that the President would be authorized to order the military forces to proceed with a nuclear war "if it were essential to our defense." He explained why the President couldn't consult Congress beforehand:

"It is only a matter of the time element where today we are dealing with literally seconds from the point of view of our defenses . . . I can't conceive of the President of the United States involving us in all-out nuclear war unless the facts showed clearly that we are in danger of devastation ourselves or that actual moves have been made towards devastating ourselves."

This is the clearest statement yet made of the American point of view toward what has been called "pre-emptive war" — that is, prompt resistance to any massive movement of a hostile nature aimed at our territory or the territory of our 14 Allies in the North Atlantic Treaty Organization.

Mr. Herter exhibited also a detailed knowledge of what led up to the current crisis over Berlin and showed sympathy for the idea of letting the United Nations take up the problem if the forthcoming foreign ministers' conference does not reach tangible results and if some good proposals through the efforts of the secretary-general of the U.N.

Altogether, it was a creditable performance for Secretary Herter and one that won the confidence of the members of Congress, where he is personally known to many senators because he served in the House with them for several years. They all joined in tributes to him, and it does look as if the new secretary will get along well with congressional committees.

Bible Words for Today

ROMANS 8:37 — "Nay, in all these things we are more than conquerors through Him that loved us." (KJV)

There is something tremendous about that statement. There is something there which gives us hope and lifts up sagging spirits. Every one wants to be a victor. No one wants to be defeated.

The phrase "more than conquerors" has its peculiar fascination. It suggests three things: not a conqueror, barely a conqueror, more than a conqueror. It is this fact of being "more than a conqueror" which grips us and intrigues us, for it means winning an overwhelming victory. It means coming through with flying colors.

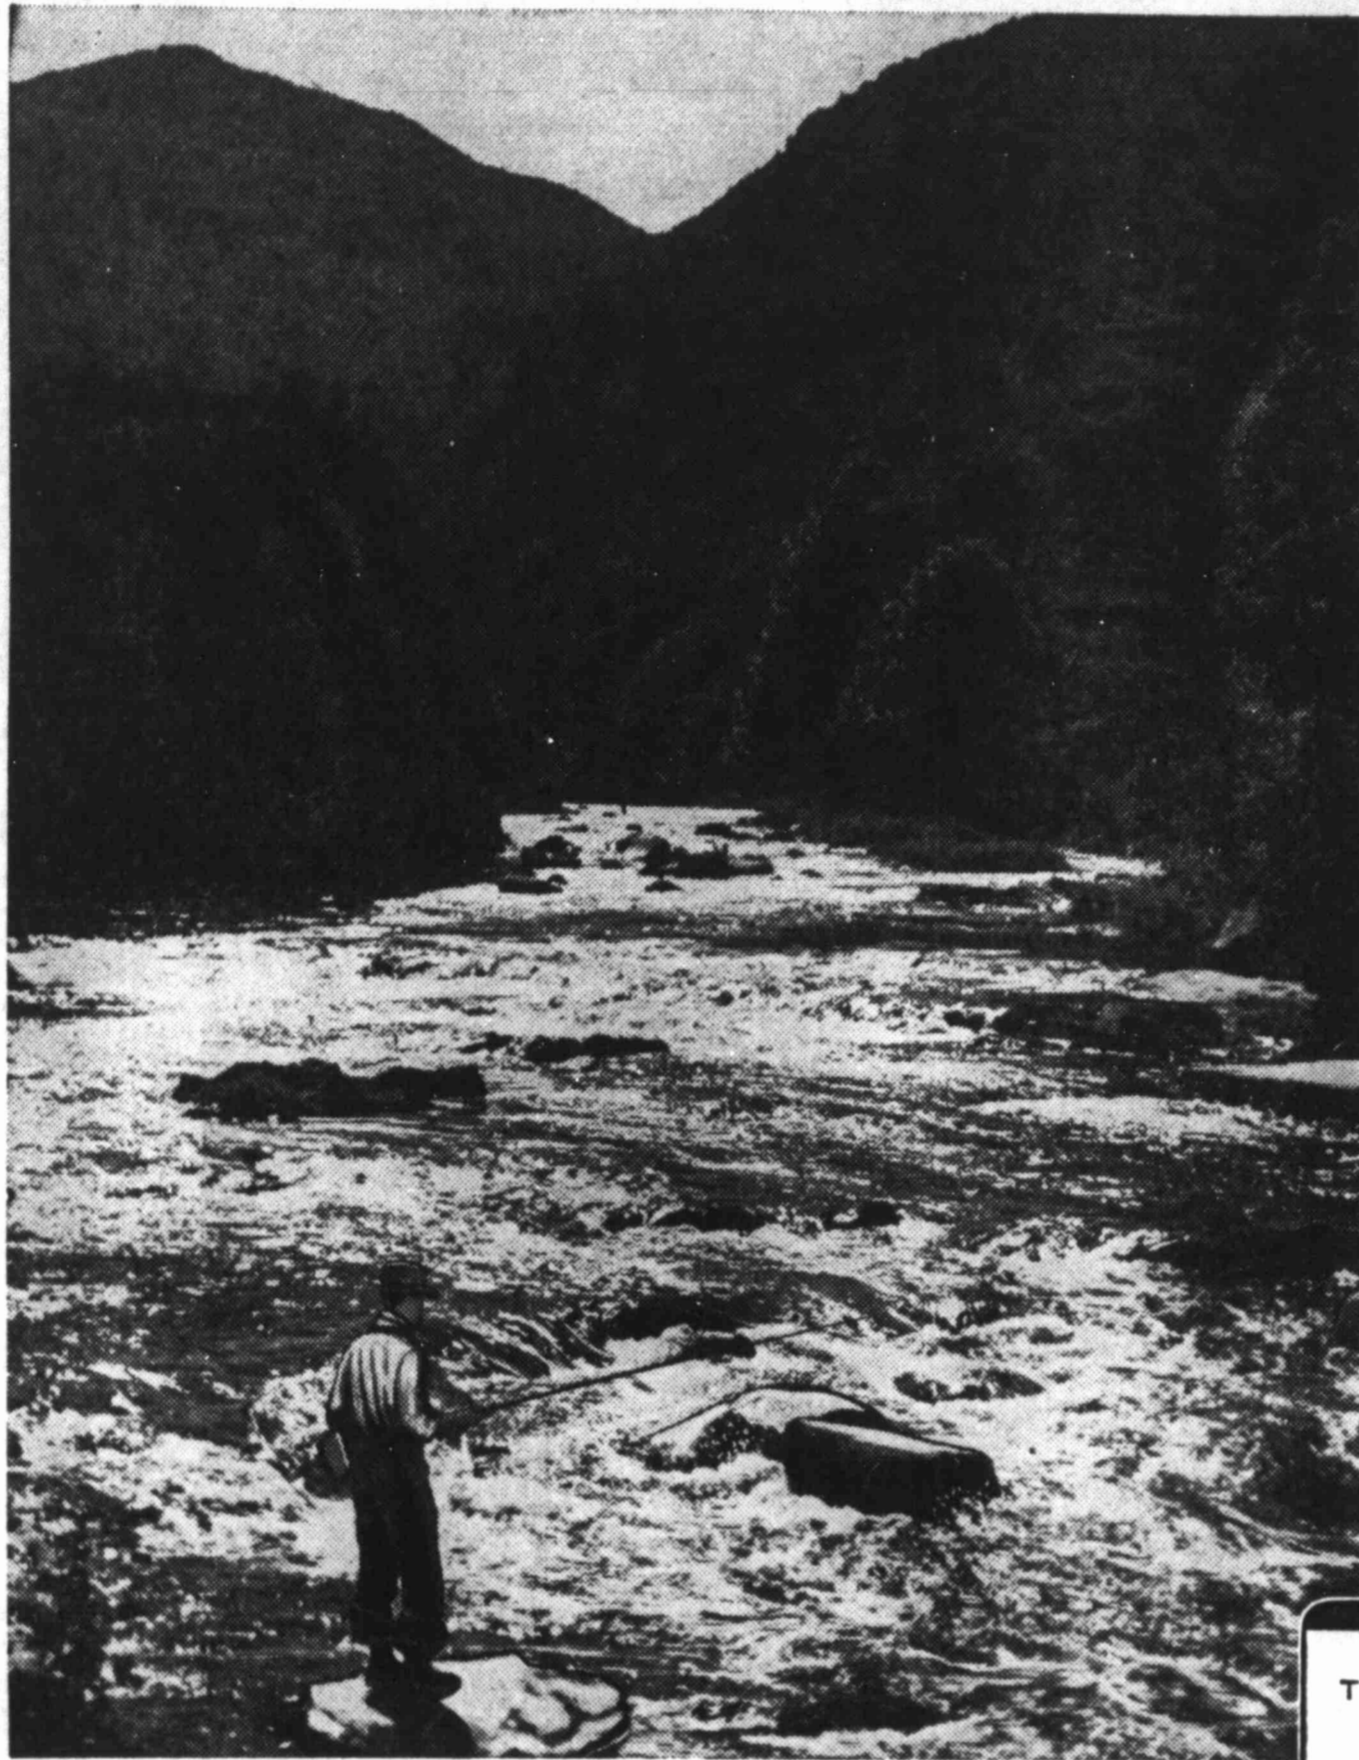

Of course, the burning question is, "How can we be more than a conqueror?" Paul gives the answer: "Through Him that loved us." The secret of a conquering life is a vital faith in the Lord of Life. There was a man who once exclaimed, "I have gotten me Christ and Christ hath gotten me the victory."

With Christ every day can be a victory day! S. Evans Brown, First Presbyterian Church, Midland, Tex.

May, June, July

TULSA, Okla. (AP) — Apparently the months of the year appeal to one Tulsa family. Mr. and Mrs. July Tulsa named one of their daughters June. Mrs. Tulsa's maiden name is May.

Give God A Chance—God Will Open Doors For You!

In His IMAGE

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Genesis	1	1-25
Monday	Genesis	1	26-31
Tuesday	Psalms	8	1-9
Wednesday	Psalms	1	1-6
Thursday	Ephesians	4	1-24
Friday	Colossians	3	1-17
Saturday	Jeremiah	31	31-34

How small man seems, compared to a mountain or even a tree. And yet, how great is his potential! Man can fashion a tree into a chair, a boat, or a house. And he can, if he wants, tunnel through a mountain.

Man has been created in God's own image; he has been given dominion over the earth and over all other creatures on the earth. Among the many gifts which God has given to man are intelligence, initiative and will power. But the use of these gifts must be motivated by the love of God if man is to be rewarded with peace and happiness.

Down through the ages, the Church has been teaching man that the misuse of intelligence and power brings on sin and self-destruction, while love-motivated use of God's gifts brings joy, peace of mind and salvation.

Church attendance, prayer and worship will help anyone understand the proper relationship between God and man.

RUNNELS REPORT

Spring Formal Is Week's Highlight

By DIANE MAKER

Friday night the biggest dance of the year — the annual Spring Formal — was held at the Cosden Country Club. Theme of the hall was "Star Dust," and decorations were glittered stars suspended from the ceiling and blue crepe

paper streamers. An arch of real flowers served as an entranceway. Music was by the Rock-a-Fellers of Odessa. Punch and cookies were served. Added attraction was the yearbook reporters taking pictures of couples. Many students attended

the dance and had an enjoyable evening.

The final calendar of school activities has been published, and here it is:

April 27 — Petitions begin for 1959-60 student council representatives and cheerleaders.

April 30 — Petitions end for student council representatives and cheerleaders.

May 4-5 — Student council political assembly and election; try-outs and election of cheerleaders.

May 6-7 — Seventh and eighth grade pre-registration.
May 8 — Spring chorus concert 8 p.m. in Runnels auditorium.
May 11 — Ninth grade pre-reg-

istration at senior high; sixth grade orientation at Runnels.

May 21 — Special awards assembly.

May 22 — Ninth grade picnic at City Park.

May 25-26 — Review for final exams.

May 26 — Sixth period finals.
May 27 — First and fourth period finals.
May 28 — Second and fifth period finals.

May 29 — Third period finals; school will dismiss at noon for all students and faculty luncheon at noon in Goliad cafeteria; 1 p.m. to 4 p.m. teachers will be at their respective buildings to

complete records and reports.

June 1 — Students report to school at 9 a.m.; make full schedule and get reports; dismissed at 11 a.m. for the summer.

Monday and Tuesday all ninth graders were busy taking the Iowa tests of educational development. The tests covered math, history, language arts and reading ability. These tests will be used next year by the senior high counselor. On Wednesday ninth graders took an IQ test.

Linda Sudberry and Judy Pate left Thursday to attend the state FHA meeting in Dallas. They were accompanied by Mrs. Florence Lennox, Runnels FHA teacher,

Student Leaders At BSHS

Members of this group will head the student council of Big Spring High next year. Left to right are Kay Crownover, second vice president; Gordon Dickinson, first vice president; Carol Phillips, recording secretary; Sherry Lurting, one of the nominees in the run-off for vice president; Gloria Coker, corresponding secretary; and Charles Dunagan, president.

HI TALK

Campaigns, Elections Stir Interest Of BSHS Students

By PAT ROGERS

Chewing gum, suckers, balloons, posters on every wall, and campaign cards pinned to everyone. This was the environment BSHS'ers were surrounded by this past week. Never before has senior high become so alive with campaigning for student council officers and cheerleaders.

Tears and smiles brought the Latin Club banquet to an impressive end. Mrs. Rita Wegg, Latin instructor, hugged many of the seniors while tears filled her eyes. The club members were dressed in Latin attire with sheets as cloaks as in the Roman days. Much to the distress of Danny Anderson, a junior, someone was

sitting on part of his sheet, and when he started to get up, the sheet made a rather resounding noise as it tore.

A "bloody" battle came near to occurring Wednesday when the juniors posted a sign saying: "Seniors! Don't itch for something you can't scratch for." The seniors promptly posted a sign with read, "To (censored) with the juniors!" This misunderstanding cropped out because the juniors are having to break the tradition this year by not giving the seniors a banquet. The tension could be eased if both classes would calm down and take a look at both sides of the question.

Like every year in the past, Zale's jewelers are giving the sen-

iors a senior key. They also gave the senior girls a party Wednesday night. Mary Camp, a senior from Coahoma, won the \$75 watch which was given as a special prize.

Next Thursday night the National Honor Society will install five new members. Their names will be kept a secret until the day before the meeting.

Texas history students have been studying the Battle of San Jacinto and the winning of Texas Independence. In the library there was a group of these students studying for a test. One of them was asked the question: "What was the Battle of San Jacinto?" He replied: "That was where the Texans tried to give Texas back to Mexico, and the Mexicans really put up a battle because they didn't want it back!" Hmm!

The shorthand girls had a new experience Thursday; they counted votes. They had to take an oath to the effect that they would be honest, etc. In fact, it was the same oath that one must take in counting the votes after a city or county election.

Beware friends of graduating seniors! They received their invitations Thursday and these will be appearing in the mail boxes soon. The group picture of the senior class also came in.

A large delegation of FHA girls attended the annual convention of Future Homemakers of America held in Dallas this weekend. Beverly Alexander, Janie Phillips and Bobbie Newman were to receive their state degrees in homemaking at this convention along with other girls all over the state of Texas.

The student council met last Tuesday and discussed plans for a big end-of-the-year party to be held at Katie Thomas' house. Benny McCrary announced that senior class wanted to sponsor a May Day dance and elect a May Day queen. The council agreed to it; now if administrators agree, BSHS'ers will be able to have another dance.

The junior and sophomore boys who plan to play football for the Steers next fall have a treat in store for them — spring training. Once more black eyes, scratches, and sprained ankles will be roaming the halls. Good luck, boys!

Band members are already packing their bags. Next Wednesday they will be leaving for Enid, Okla. Of course, as anyone would expect, they are the envy of the entire student body.

GOLIAD NEWS

9th Graders Take Achievement Tests

By PAT ARMSTRONG

This week at Goliad the ninth graders were given standardized achievement tests consisting of the ITEA and TEA series. These tests were given to determine the present level of learning of the students in the ninth grade. The series of tests started Tuesday morning and lasted through Thursday morning.

The Freshmen Tri-Hi-Y Club met Wednesday afternoon at the Y. The program consisted of a panel, which was formed by Mr. Stevens, Mr. Rice, Mr. Stumberg, and Mr. Marcus, who talked on "What I Like in a Student." The devotional was led by Donna Jo Percy. Next week the club will meet with the Runnels group to elect officers.

Sharon Gary and Alice Long attended the State FHA meeting at Dallas this week. They left Thursday morning and returned Sunday.

Racquets are swinging around Goliad lately. Led by the "old pro" Lynn Wood, the following girls have been brushing up on tennis strokes: Winnie Greenlees, Telie Grooms, Martha Hardy, Dorothy Lyon, Rene Metcalf, Dorothy Bryant, Diana McEwen, Sharon Tally, and Marilyn Huchton. Among those enrolled for beginning tennis lessons are: Carolyn Lewis, Kay

Carter, Marilyn Doelp, Linda Cunningham, Judy Bradberry, Deane Terrazas, Sandra Crawford, Carol Campbell, Kathy Smith, Delores Henry, Charlotte Shive, Darla Parker, and Alice Stewart. If the girls make enough progress, an intramural tournament will be held.

The "dummy" for the school annual came in this week and was checked for mistakes and sent back by the annual staff. If all goes well the yearbook should be in by the eighth of May.

Several students had dates with a boy or girl from Runnels to attend the Runnels Spring Formal Friday night. Next Friday is our own Spring Formal and we hope everyone is making plans to attend.

Headed For Trouble

ALBUQUERQUE, N. M. (AP) — Attorney Don Moses was asking prospective jurors their occupation.

A woman, was asked: "You're a housewife? You don't work?"

When the laughter had died down Moses said: "I guess I better not go home tonight if my wife hears about that question."

100 To Get Awards At 'Honors Day' Assembly

By BOBBY HORTON

Wednesday is the day for the Honors and Awards assembly when about 100 HCJC students are cited for contributions to the school year.

It was erroneously reported here a week prematurely.

The ceremonies will be highlighted by an address from San Angelo College president Dr. R. M. Cavness.

Academic citations will be given in addition to athletic jackets and two special awards from Dibrell's and the American Legion. Most recipients will have been announced Monday in the college publication, El Nido, but the special awards will be unknown until Wednesday.

Among departments and groups giving awards are the Student Government Ass., boys basketball, speech department, Phi Theta Kappa, class offices, college publications, and women's athletics department.

Citations go also to class favorites, college favorites, yell leaders and Who's Who nominations from the yearbook. Students on the Dean's List, already released, will be recognized.

The assembly will be at the reg-

ular activity period, 9:45 to 10:30 a.m.

It's getting nearer "that time" again.

The program listing the final examination schedule for HCJC students is now available at the Dean's office.

Time allotted for completing the tests has been increased from last year's two hours to three hours.

The schedule has been arranged so as to prevent most students from having more than two tests per day. On Friday, May 22, there will be a group of tests given from 8 a.m. until 11 a.m. and from 1 p.m. to 4 p.m.

May 26 and 27 have similar schedules. Only on Monday, May 25, are there three testing periods (8 a.m.-11 a.m., 12 noon-3 p.m. and 3 p.m.-6 p.m.), and even then very few students will face three examinations.

Night class exams are of two-hour duration, and there are two groups of tests given nightly.

First tests are Wednesday, May 20, and Thursday. After the weekend will be Monday and Tuesday night tests. Periods are 6:30 p.m. to 8:30 p.m. and 8:30 p.m. to 10:30 p.m.

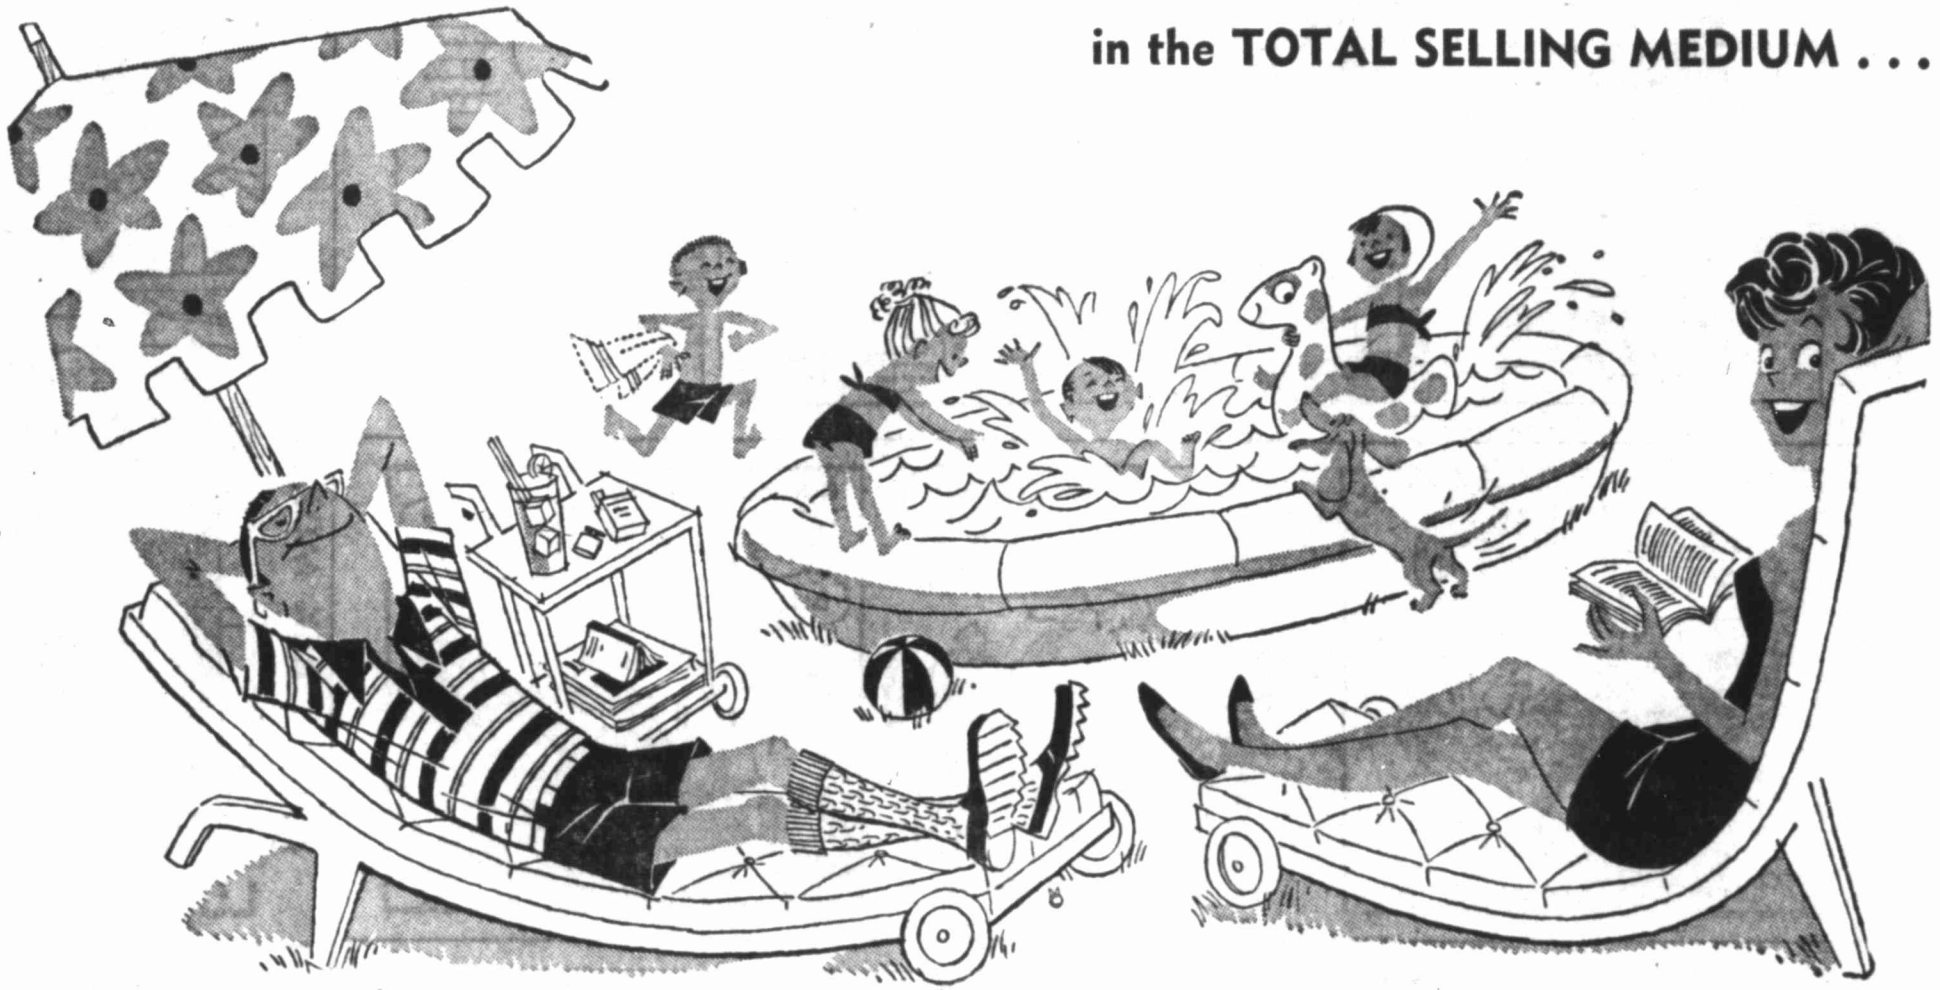

Registration for the summer ses-

sions begins June 1 and first classes take up the next day. The second six-weeks term begins July 13.

A complete faculty, most of whom will be instructors in the regular session, will be selected for the summer session. Besides day classes, there will be evening classes for courses having sufficient demand.

Besides math, science and education courses offered will be introduction to economics, masterpieces of literature, U. S. history, speech, government, typing, child growth and development.

Three Phi Theta Kappa members and their sponsor, Miss Ina Mae McCollom, are expected back from Coeur D'Alene, Idaho, on Monday. Students Ronald Leatherman, Mrs. Mary Breckenridge and Malcolm Roberts have been to the national honor society convention. HCJC athletes, among them Gilbert Bell, Bobby Davis and Benny Carver are looking into colleges for next season. Several coaches have talked to the boys here. The last of spring basketball tryouts for high school seniors will be held in the college gymnasium May 2. Two others were held in April.

SUMMER FUN DAYS

MAY 1 AND 2

creates a huge new market for advertisers

in the TOTAL SELLING MEDIUM...

Today more people are interested in OUTDOOR LIVING than ever before. For many, outdoor living begins right in their own backyards. People are gearing their grounds for everything from active sports (like swimming) to dining and sun-basking. All with a view to putting a bit of "vacation fun" into everyday living! Result; a large responsive market for "what it takes" to give the backyard it's NEW look and NEW usefulness: Patios, terraces, barbecues, swimming pools, outdoor furniture, outdoor lighting and a long list of accessories. People are actively looking for ideas on what to buy and WHERE to buy it. Most of them will do most of their looking in the pages of this newspaper!

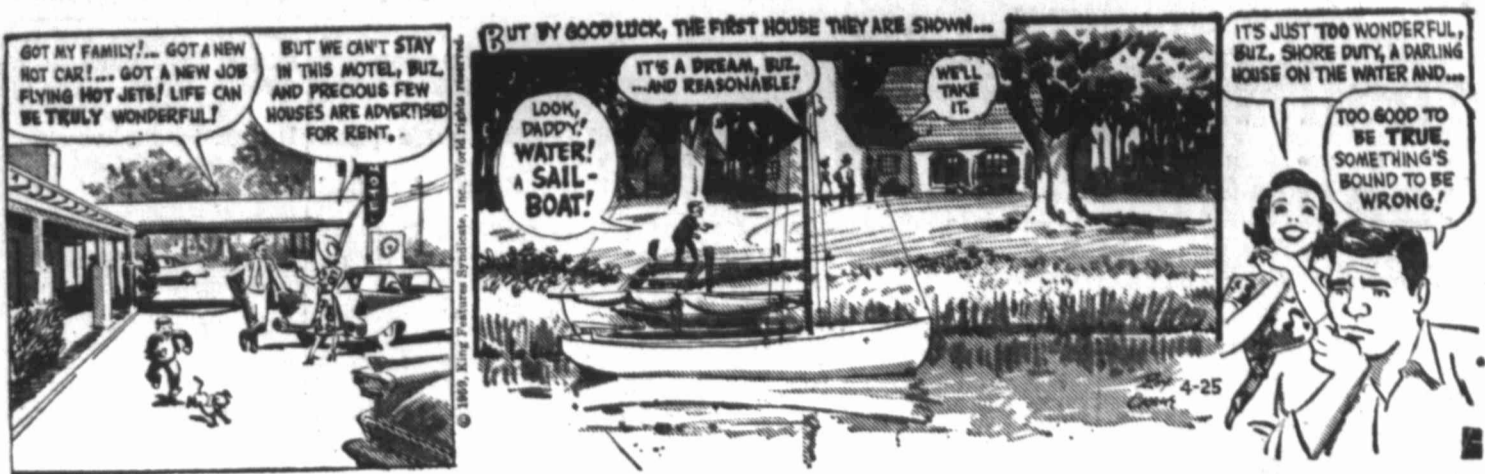

Many business firms will have special exhibits around the court house square all day Friday and Saturday. These booths will feature everything you need for a more relaxing summer in the sun. Most business firms will have special attractions in their windows, throughout the stores. Some will be offering special bargains. Be sure to read every ad in The Herald's SUMMER FUN DAYS paper Thursday, April 30.

Civic Theatre Starts Season With New Slate Of Officers

The Civic Theatre begins the year with a new slate of officers. They were elevated last week at an opportune moment to flex their muscles — the three-play summer season, with an autumn musical in the offing, and another season of plays after that to be climaxed by the annual Easter pageant.

New president is John Austin, a floral designer for Estab's Flowers. Austin has had formal dramatic training plus experience in professional work, including the night club circuit of the Midwest, before coming to Big Spring. He is a native of Kentucky. Austin served last year as vice president of the theatre group, and has directed for the Civic Theatre. He has also given of his time and talent to aid the college theatre. Austin is director for the summer season's productions.

Bill Sandefur, a captain in the Air Force and a dentist, also hails from Kentucky. He has had experience in community theatre work, but has been a member of the local group for only a few months. His elevation to the office of vice president is evidence of the work he has done for the Civic Theatre in that short time. His main accomplishment has been as ticket sales chairman for the summer season, a project he has pushed with unheard-of (for Big Spring) success.

The re-elections of Hugh Butler McCauley and Dick Bailey as secretary and treasurer (respectively) was a foregone conclusion. They are both old hands at their jobs, and are so thoroughly steeped in the procedures of their offices that little thought was given by the general membership during the election to putting anyone else into these offices.

McCauley is an airman, and came to this country from Coleraine, Ireland. He has helped in several productions, but his main contribution has been at his regular post.

Bailey is a civilian accountant at Webb, and is thus particularly suited to his office. Although his finance work has been his main contribution to the theatre art locally, he has helped in several productions.

Mary Archer, a Cosden secretary, is a hold-over from last year's board of governors, and was a charter member of the Civic Theatre. She has been active in all phases of backstage work since the group's inception, and has taken several stage roles.

Mrs. C. W. (Helein) Mahoney is a new board member, having come into the Civic Theatre last year. She has had no formal theatrical experience, but for four years conducted stage productions as a part of her church work.

Jerry McMillen hails from California, and is a lieutenant in the Air Force. He has a good background in theatre work, and has been a boon both to the Civic Theatre and the College Players, mostly in backstage operations. He worked with a professional company in San Francisco, three community theatres in Alaska, and with other community groups over the U. S.

The election went fast and smoothly, thanks mainly to retiring president Allen Robertson.

Sandra Found Greater Wealth As Child Star

By JAMES BACON
AP Motion Picture Writer

HOLLYWOOD (AP) — At 14, Sandra Dee was relatively unknown. But she earned \$78,000 a year.

Now 17, she is famous but, says she, earns about one-fourth as much.

Sandra's big money came when she was a teen-age model in New York City. Someone saw her face and brought her out to Hollywood.

Among teen-agers, there is no busier actress in Hollywood.

She has starred in such pictures as "The Reluctant Debutante," "Imitation of Life," "Gidget!" and the upcoming "Summer Place." In the latter, she gets married and pregnant.

It's not uncommon for high-salaried models to take a big cut in salary to become actresses. The stardom comes, the money goes into six figures.

Sandra spend most of her time working or studying. Every spare moment away from the cameras, she and her tutor are huddled in studies. Sandra is a straight A student and will get her high school diploma this June.

Typically 13-year-old in talk and manner, she has one regret—there is little or no time for dates. Occasionally, she dates Lindsay Crosby but as Lindsay says: "Sandra is so busy working that I spend most of the dates playing cards with her mother."

HOLLYWOOD (AP)—Producer-director Nunnally Johnson says it's about time that Hollywood goes back to the handsome leading men like Valentino and Ty Power.

He was discussing Cesare Danova, who co-stars with Leslie Caron and Henry Fonda in "The Man Who Understood Women."

The handsome Italian, under contract to MGM, has been in this country for nearly three years but hasn't been used by his studio. Johnson borrowed him for the 20th Century-Fox movie.

A native Texan and a public relations officer for the Air Force, Capt. Robertson served at the helm of the theatre during a year best described as the doldrums. It was his personality and leadership that played the larger part in keeping the group alive during this time.

The main accomplishment of his administration was in forming and overseeing plans for renovation of the Prairie Playhouse into a theatre building.

Robertson, because of the press of official duties, handed in his resignation from the theatre group, and it was accepted, with regret.

The Playhouse once was "the old museum building." It was largely through the efforts of former president Dewey Magee that the building was obtained from the city, and first stages of the renovation were accomplished under his direction.

Magee, although he could have been elected, chose not to run for the board of governors, so as to apply his full efforts to the Playhouse project. Austin, in his first official action, urged the board to give Magee a free hand and a green light in his work, and the board immediately agreed.

In other actions at the meeting, Austin reported "The Seven-Year Itch," first of the summer productions, was in rehearsal and that things seemed to be coming along nicely.

Sandefur reported that ticket sales will be held open through the first play. He indicated a report on ticket sales progress would be made early this week.

HCJC's music department will inaugurate National Music Week with a musicale May 3.

The event will be on a Sunday afternoon (4 p.m.) at the auditorium, and is co-sponsored by the Music Study Club.

It will be the HCJC Choir's home concert, rounding off a successful year. The singers attended the State Fair last October and sang at the Texas Junior College Assn. convention in Fort Worth, besides numerous trips to area cities. They were heard locally in quite a few places.

But their crowded schedule isn't filled yet. May 17, they'll join with the First Methodist Church Choir to present Schubert's "Mass in C," and will sing for the college baccalaureate exercises May 24.

The May 3 musicale will feature piano and vocal students of Jack Hendrix, music department head and instructor in keyboard instruments and theory, and Ira Schantz, choir director and voice instructor. The choir also will present several numbers.

The program looks to this critic to be of interest. It may well turn out to be the musical event of the year.

—BOB SMITH

JOHN AUSTIN

BILL SANDEFUR

DICK BAILEY

Comedy, Drama, Spectacle Featured In Week's Playbill

THE ROOTS OF HEAVEN, starring Trevor Howard. Produced by Darryl F. Zanuck. Directed by John Huston. Screenplay by Roman Gary and Patrick Leigh, from the novel by Gary, Wednesday and Thursday at the Ritz.

The ads said it was great, and it is. The story takes its name from the hero's belief that the African elephants are the last roots of Heaven, a thought spurred by his bitter experiences in a prison camp during World War II.

Trevor Howard gives one of the finest performances of the year as the hard-headed idealist who conducts a one-man campaign to save the big beasts from extinction. It is axiomatic that he must be completely unsuccessful.

Howard starts with a petition, but discovers his peaceful method doesn't work. So, he turns to padlocking the bottoms of the big game hunters. This, of course, raises Old Ned from a political standpoint.

This unlikely but highly engrossing yarn follows Howard as he enlists a motley crew of human wreckage for a safari into elephant country with an eye to protecting the beasts. It is there that the ironic ending comes.

The final scene is a little deep for most movie-goers; it is aimed at showing the futility of fighting against human nature, yet not without some ray of hope for a better world—someday.

There are a few moments of humor—the situation itself could not be without some amusing moments, such as when one of Howard's agents spansks the bare bottom of a lady white hunter.

And there are moments of pathos—perhaps the most moving scene is that of the mother elephant trying to save her baby from a stockade.

The story (length: two hours, 10 minutes) drags in spots, but the wonderful photography more than makes up for it. The movie was filmed in French Equatorial Africa—certainly one of the most uncomfortable location spots Producer Darryl F. Zanuck could have picked, yet abounding in natural beauty.

The woolly story, the seamy characters, and the bright, steaming jungle game Director John Huston plenty of material to work with, and his direction is nothing short of brilliant.

Included in the top supporting cast are Juliette Greco, a woman with a past who learns great respect for the fanatic Howard; Errol Flynn, the wino, who seeks to regain his courage; Eddie Albert, a former war photographer who has developed an advanced case of lenseitis; Orson Welles, the

pompous TV magnate whose lesson in humility turns him to Howard's side; Paul Lukas, the government agent sent out to stop the pro-elephant campaign; Herbert Lom, the ivory hunter whose wife is the most ruthless elephant hunter ever known; and Edric Connor as the French Equatorial version of the Mau Mau.

THE TEMPEST, starring Van Heflin. Produced by Dino De Laurentis. Directed by Alberto Lattuada. Screenplay by Lattuada, from two stories by Alexander Pushkin.

The background to this story is a Russian revolution, but not the latest one. It concerns the 18th Century Cossack revolt against Catherine the Great, and sympathies are with the rebels.

Director-scriptwriter Alberto Lattuada did a good job in combining two stories by Alexander Pushkin, about the love affair of a Siberian-exiled Army officer and his commander's daughter. A nice balance is struck between spectacle and romance, and the fine hand of Producer Dino De Laurentis is evident.

There isn't much character development (too many actors) but there is a wealth of color; exuberant folk dances, a sparkling court ball, clashes of massed armies.

The battle scenes are on the grand scale, and are forceful and fast-paced.

Geoffrey Horne (from "The Bridge on the River Kwai") and Silvana Mangano are the two principles in the romantic department, but it is Van Heflin, as the rebel chief, who dominates the cast.

Yes, it's a shaggy dog story, and it's not funny. No, not funny—it's excruciating. You'll be lucky (or inhuman) to come away without sore ribs.

"The Shaggy Dog" is Walt Disney's improbable, even highly impossible yarn about a boy who finds a magic ring, reads off the words inscribed thereon, and immediately changes into a sheepdog. It's a recurring phenomenon, and it happens sometimes at inopportune moments.

Fred MacMurray is fine as the dog-hating pappy, Tommy Kirk is talented as the boy-dog-boy-etc. Also a standout is Kevin Corcoran as little brother, who just loves dogs, especially the shaggy kind.

The humor comes not only from the absolutely impossible situation and its inevitable consequences, but also from the fact that the shaggy dog still thinks, acts and talks like a human being. Such as the cop who's highly amused by what he knows must be an expert trick of ventriloquism.

It's purely academic to ask whether the boy or the dog is the best actor, since they keep interchanging.

You shouldn't miss "The Shaggy Dog." Pardon the pun, but it's a howl, man.

"Ah, Wilderness!" is now in stage musical form... George Stevens should put some realism into his "Diary of Anne Frank," since he was at Dachau just after the war... Tony Randall plans to produce his own picture... "The Man Who Swam the Ocean" —BOB SMITH

"Melodies for Money"

On

KBST

Here's How You Win:

Ten melodies a day will be played over KBST, between 8 in the morning and 6 in the evening. Every time you hear one of these melodies, which will be identified by KBST's Music Men, jot down its title. When you get the titles of all ten of the day's special melodies, write them on a post card and mail to KBST. Entries must be postmarked by 8 a.m. each day following the contest day in order to be eligible. In event of duplicate post-

marks, money will be divided between correct entries. If there are no winners, the "jackpot" will increase — at the rate of \$10 each day, up to a total of \$200! From then on, melodies will be played until the jackpot is won. This is open to all KBST listeners except employes of any advertising medium and members of their families. Just listen for "Melodies for Money," enjoy yourself while you win cash.

In more ways than one, it pays to listen to "the best sound in town"

LOOKS AT BOOKS

By Sam Blackburn

ENDURANCE: Shackleton's Incredible Voyage. By Alfred Lansing. Book of the Month Club Selection for May. Published by McGraw-Hill.

In these days when atomic-powered submarines are making journeys under the ice at the North Pole and when airplanes roar over the wastelands of both the Arctic and Antarctic, a great deal of interest is focussed on these remote parts of the world.

This new book, which details the harrowing experiences and suffering of an Antarctic expedition back in 1914-17, should have wide appeal.

Alfred Lansing, the author of this new Book of the Month Club Selection for May, first ran into the story of Sir Ernest Shackleton's ill-starred expedition in an anthology of sea stories.

Intrigued by the account (since proved to have been ghost written in the explorer's name), Lansing never forgot the thrill he received from the story.

And no wonder, for Shackleton's saga is one of the classic adventure yarns of all time. What the famous explorer failed to do—cross the Antarctic continent overland from west to east—was finally achieved by another British expedition led by Dr. Vivian Fuchs in 1958. But even Fuchs, with modern equipment, including heated and tracked vehicles and the support of reconnaissance planes, was almost forced to give up. Shackleton made his attempt in

an age when radio transmission was in its infancy, when air transport was a rickety novelty, when Great Britain was in the throes of World War I and thus had little time to be concerned about the fate of a remote Antarctic expedition she had sent on its way the very day war was declared. Shackleton faced disaster almost as soon as he reached Antarctica, for his ship, the Endurance, was crushed and broken by ice deep in the Weddell Sea. Yet his story has become one of the great epics of polar exploration.

For Shackleton succeeded in leading his men hundreds of miles over the most desolate and dangerous seas on the face of the globe back to civilization and safety. And not a man was lost, in spite of blizzards, killer whales, monstrous storms, inhuman cold, crushing ice floes, near-starvation and deadly fatigue.

One of those to whom Lansing mentioned this story of amazing fortitude was an American magazine editor. Two years later, the editor happened to mention it to Edward Kuhn, of the McGraw-Hill Book Co. Kuhn at once contacted Lansing, and two years after that Endurance: Shackleton's Incredible Voyage was ready for publication. It is the Book-of-the-Month Club's May Selection.

Acting on a hunch that if he could find one man on the expedition he would be led to the others, Lansing took his problem to the British Information Center in New York. There all relevant in-

dexes, records and directories were put at his disposal. Fortunately, many of the members of the expedition had become men of prominence after their miraculous return to civilization, and before long Lansing was on his way to Britain to keep appointments in London, Cambridge and Aberdeen, where three of the survivors lived

—the first and third are doctors, the second Master of St. John's College. In the end, he was able to account for all 28 of the men, and talked with all but two of the 11 who were still alive.

Even more helpful were the astonishing number of log books and diaries which had been kept by members of the expedition and

were made available to him. In all, he obtained eight, yellowed and wrinkled from exposure to the elements but amazingly detailed.

Then Lansing sat down to write. For almost a year he and his wife and infant son lived holed up with Shackleton and his crew, so to speak, hardly ever leaving their

house on the cliffs of Long Island's North Shore. Lansing and his typewriter shared a tiny room with the washing machine, working nine or 10 hours a day.

Though Lansing has never seen an iceberg himself, he knows the sea, having spent five years with the Navy in World War II.

Casey Tibbs Takes Saddle Bronc Lead

DENVER—Casey Tibbs, Nemo, S. D., won the toughest bronc riding of the spring rodeo season at the Red Bluff Round-Up Sunday to move into the lead for the world's saddle bronc championship he has already won more often than any man in history.

Tibbs, five-time champion bronc rider, won the last two out of three go-rounds at Red Bluff to win a total of \$653, enough to put him into the lead for the 1959 championship.

The Red Bluff bronc lovers got their money's worth this year. War Paint, bucking horse of the year the past three seasons, took a hand in the finals of the contest and started another string of buck-offs with an impressive victory.

Danny Daniels, Checotah, Okla., threw his two steers in a total time of 13.4 seconds to win top

bulldogging money of \$721 at Red Bluff and moved into first place. Following were Harry Charters, Melba, Idaho, and Tom Nesmith, Bethel, Okla.

Jim Hawkins, Twain Harte, Calif., with \$5,578, was well ahead of Jack Buscborn, Cassville, Wis., in bareback bronc riding. Harry Tompkins, Dublin, had \$4,896 to set the bullring pace, followed by Wayne Lewis, Dell City, with \$4,054 and Jim Shoulders, Henryetta, Okla., with \$4,045.

Jim Bob Altizer, Del Rio, was well out in front on calf roping with \$8,636, trailed by Sonny Davis, Kenna, N. M., with \$7,507, and Glen Franklin, House, N. M., with \$6,962.

Sonny Davis was ahead in all-around cowboy with \$7,770 and Tom Nesmith followed with \$7,485, well ahead of Harry Tompkins with \$6,613.
