NO QUOTAS, ALLOTMENTS LASTS RITES CONDUCTED

The War Food administration has announced that acreage allot-ments will not be proclaimed and quotas will not be in effect for wheat to be harvested in 1945, ac-cording to George Slaughter, chairman of the Texas State AAA Com-

lief that domestic, military and export requirements will continue at sufficiently high levels to preclude ents will continue at

any necessity for adjusted acreages and marketing control.

The official action of the War Food Administration, taken in accordance with the Agricultural Adjustment Act of 1988, states that there will be no National, State, County or farm acreage al-lotments on wheat for the 1945 crop, and that wheat marketing quotas will not be in effect for the marketing year starting July 1, 1945. Under the law quotas must be proclaimed whenever crop esti-mates indicate that wheat production will exceed domestic and export requirements by more than 35 per cent. Wheat growers ballot on the issue in a referendum, with a two-thirds majority required to make marketing quotas effective. Farmers have twice voted for wheat marketing quotas with substantial majorities, first in 1941 and again in 1942.

The 1945 crop is not expected to assume "surplus" proportions, even though the 68.5 million acre national wheat goal approved by the States and announced by WFA is about 2 million acres higher than last year. WFA has cautioned farm ers not to exceed the goal, however, as much excess producton may be-come burdensome. Wheat prices are supported at near-parity levels through government loans.

FARMERS URGED TO STORE GRAIN SORGHUMS

Pointing out that most co cial grain storage space is already filled to capacity and unable to ful-ly accommodate this year's estimated bumper crop of grain sorghums, Lloyd, and Richard of Whittier, Mr. Frank Axe, Chairman of the Castro County Agricultural Conservation Committee, today urged and Dalpha Rippy Lane of Modesfarmers to store their three back of the control of the con bumper crop of grain sorghums, Mr. Frank Axe, Chairman of the farmers to store their threshed sorghums on their own farms and take advantage of government loans.

Wooden bins can be shipped into able to farmers at prices not exceeding \$185.00 for a 1600 bushel capacity and \$285.00 for a 3000 bu. capacity. Money saved by storing loan rate would help pay for the bins, Mr. Axe explained. The loan rate (farm storage basis) is 95 cents per bushel for No. 2 or better which amounts to about \$1.70 per hundredweight. If local market prices are below the loan, produc-ers can well afford to get a loan on

ers can well afford to get a loan on their eligible grain sorghums. Ap-plications for loans may be made at the office of the county agricul-tural conservation association be-tween now and February 28, 1945. This year's production of grain sorghums, according to the Sept-ember 1st estimate, will be almost 150 million bushels, or about 47 million bushels more than in 1943 and about 85 million bushels more than the 10-year average, 1983-42. in the western areas of Kansas, Okna and Texas.

Mr. Axe estimates that ercent of the crop will be harvested during October, 45 percent dur-ing November and the remaining 30 percent during December. Due to the lack of storage space

and of transportation facilities for preading supplies throughout the nation, most of the grain sorghum propaill either have to be stored or utilized in or near areas of production, Mr. Axe stated. Farmers should let their crops dry in the fields before cutting so that the grain may be stored properly, and are urged to feed as much of the grain as possible to their own live-stock. Grain Sorghums are one of the most nutritious and economical feeds and rank between 95 to 97 percent of the overall feed value

of corn for all classes of livestock.

Further details on obtaining bins and other information pertaining to the crop may be obtained at the County AAA office, Mr. Axe said.

The first general assembly was held in the auditorium of the Nazareth High School on Thursday morning, October 5. The Seniors were in charge of the program which consisted wholly of the initiation of the Freshmen. There was a hair-do contest won by Robert Bowers, a jitterbug contest won by Hildagard Huseman and Gene Kern, a narrative play in which Charles Acker starred, a leg contest won by Gene Kern, music by the Freshman orchestra, and refreshments arranged to fit the occasion. The high school student body enjoyed the whole program very much. The initiation has been granded ever the whole week of

#### There's a Shortage of **Copies of The Dallas Morning News—But NOT** of Oar Desire to Serve!

The crucial shortage of newsprint paper has forced a curtailment of the supply of copies of The Dallas Morning News to our dealers in this county. Only a small part of regular shipments is possible until we are permitted by Government Authority to increase our consumption of newsprint.

Distribution for the present will be made from drug stores and newsstands, unless your agent can arrange otherwise.

We realize, with deep regret, that some of our old-time readers are not able to get copies of The News. We trust they will understand and bear with us while we're making every effort to restore service.

In the meantime, although many patrons will not have The News delivered to them temporarily, their names are still on The Dallas News' Big Book and un look forward to serving them again.
