WRECKAGE OF DEATH CAR
 Shattered pickup in which Willie E. Lawson died

Willie E. Lawson Becomes 8th Traffic Fatality For County

Willie E. Lawson, 60-year-old Martin County resident, was killed almost instantly in a truck-pickup collision on the Andrews highway about 2 p.m. Tuesday.

Funeral services for Mr. Lawson will be held at 2:30 p.m. Thursday in the Nalley-Pickle Chapel, with burial in City Cemetery, Rev. Charles Carter of Abilene will officiate.

Mr. Lawson was driving a 1949 International pickup and driving west on the Andrews highway when it hit a part of the equipment being carried on a trailer truck driven by Perry S. Farley of Odessa. Neither Farley nor a

Latin American riding with Lawson, Manuel M. Subia, was seriously hurt.

Subia was treated at Big Spring Hospital after being brought in by a Nalley-Pickle ambulance, but is reported in good condition.

The truck is owned by the Shorty Hall Rig Co. Inc. of Odessa. It was hauling the lower section of a jack-knifed derrick from near Andrews.

The accident occurred on the bridge across Buzzard Creek 11.8 miles west of Big Spring and only about two miles from the Martin County line.

With the wide load being car-

ried by the big truck, there was no room for the pickup to cross without being hit, highway patrol officers said. The extension of the equipment hit the top of the pickup and crushed it in. The load extended out on either side of the truck, according to the patrol.

Lawson's body was pinned in the pickup. It could not be removed until a wrecker was called and the top of the pickup removed. The pickup came to rest around 100 yards from the bridge as it hit a fence beside the road.

Subia was thrown from the pickup at the edge of the bridge.

Width of the equipment on the truck was slightly over 18 feet, but highway patrolmen investigating said the truck had a permit to carry a load with a maximum width of 20 feet.

The fatality is the eighth in the county this year and the accident occurred in almost the same spot where Mrs. Flora Larez, 62, and Joe L. Larez, 18, were killed on Feb. 15.

Mr. Lawson is survived by his wife, Mary Jane Lawson, three sons, Lawrence Lawson of Big Spring and Edwin and Willard Lawson of Stanton; two daughters, Mrs. Willie D. Null of Big Spring and Mrs. Mary Sue Overby of Lenora; two brothers, Clyde and Elbert Lawson of Big Spring, four sisters, Mrs. Jim Reeves and Mrs. Bitha Cunningham, both of Big Spring, Mrs. J. M. Kendrick of Denver City and Mrs. S. W. Tickle of Colorado City, and five grandchildren.

Palbearers will be Billy Fryar, Terry Guerin, Miller Burchett, Hubert Keaton, Claude Russell, Johnny Spears, J. C. Greenhaw, and Bob Flowers.

Ike Hints Special Session Of Congress Over Aid Issue

President Urges No Steel Walkout

WASHINGTON (AP) — President Eisenhower today called on management and workers in the steel wage talks to act for the good of the country and try hard to avoid a strike.

Eisenhower told a news conference that both sides should keep on negotiating just as long as is necessary for agreement on a new contract.

The Steelworkers Union has agreed to hold off on any strike until next Tuesday midnight, but the union president, David J. McDonald, said Tuesday there would be no further extension of the strike deadline.

Eisenhower, in response to a question, said he plans no government intervention.

The President recalled that on June 27 he urged both sides to continue contract talks, without interruption of production, until a new contract had been negotiated.

The union then agreed to extend its July 1 strike deadline until July 14.

Eisenhower noted that he did not suggest simply a two weeks extension, but continuance of the talks until an agreement was reached.

Today, the President said it is a pity that all of us can't proceed on the basic concept of what is good for the country—and not have a strike at all.

He repeated that the union and management should continue negotiations until agreement is reached.

The President also dealt with these other matters in his news conference:

SEGREGATION — Responding to a question, Eisenhower said he believes racial segregation is morally wrong when it interferes with equal opportunity in political and economic fields.

It was the first time since he took office that the President has expressed this specific view on the issue.

In bringing up the matter, a reporter asked whether—apart from the legalistic aspects—the President had any opinion on whether racial segregation is morally wrong.

Eisenhower said he assumed the newsmen was talking about segregation under local law. Then he went on to say that where such segregation interferes with equal opportunity in economic and political fields, it is—in his opinion—morally wrong.

KHRUSHCHEV — Eisenhower said he does not regard a visit to this country by Soviet Premier Nikita Khrushchev as beyond the realm of possibility.

He spoke, however, of the difficulties he said such a visit would present if the purpose were talks regarding international problems.

If, on the other hand, such a visit were simply ceremonial, then the matter of what kind of reception Khrushchev would get in this country would be the only factor, he said.

HARRIMAN — The President hit indirectly at Khrushchev in expressing amazement—if not disbelief—regarding remarks attributed to the Soviet Premier by former Gov. W. Averell Harriman of New York.

A reporter said that Harriman, in an article in Life magazine about his recent talk with Khrushchev, quoted the Soviet leader as saying that if the United States wants war, "you can have it."

Asked what he thinks about that kind of talk, Eisenhower replied that he believes responsible people should not indulge in any sort of talk which could be regarded as amounting to an ultimatum or threat.

DE GAULLE — As for the U.S. announcement today that this country is pulling three fighter-bomber wings out of France, Eisenhower said he and French President Charles de Gaulle have long agreed that when they can get together they will talk over all differences between the two countries.

The wings are being moved from French bases because De Gaulle will not agree to storing U.S. atomic weapons on French soil.

AND SHE'LL PROBABLY HAVE ONE

COLORADO SPRINGS, Colo. (AP) — Delegates to the Girl Scout Senior Roundup here were asked, "What kind of a career do you want?"

In the questionnaire's appropriate space, Eileen Lucier, 16, of Stoughton, Mass., answered: "A successful one."

Ave Describes Khrushy Talks As 'Terrifying'

NEW YORK (AP) — W. Averell Harriman describes his recent talks with Soviet Premier Nikita Khrushchev as "terrifying, shocking, worse than Stalin."

His account is carried in the current issue of Life magazine. The quotation, according to Life, was contained in Harriman's report to Washington.

Harriman is a former New York governor and a former ambassador to Moscow.

In his signed article in the magazine, Harriman says Khrushchev told him, in "blunt and brutal language" that:

"Your generals talk of maintaining your position in Berlin with force. That is bluff. If you send in tanks, they will burn, and make no mistake about it. If you want war, you can have it, but remember it will be your war. Our rockets will fly automatically."

Life also reported that Harriman told Washington that Khrushchev said the Soviet Union has shipped numerous rockets to Red China. These have been planted behind the coastline, according to the report, but have the range to blast the Nationalist fortress of Formosa.

If Red China decides to try to take Formosa, it can count on Soviet help, including direct military intervention — even if it means war—according to this report. Khrushchev also was said to have added that Communist strength is sufficient to destroy the U.S. 7th Fleet, now patrolling the Formosa Strait area.

Harriman said Soviet Foreign Minister Andrei Gromyko will be just as stubborn and inflexible when the Geneva talks resume July 13 as he was before the talks adjourned.

Harriman declared he is convinced that there should be a summit conference, and that the West should seize every opportunity to deal directly with Khrushchev, "since he alone determines Soviet foreign policy."

The State Department said the Soviet leader recently had made a number of tough statements, and denied any alarm.

Harriman saw Khrushchev at the Kremlin June 23 and later visited with him at his country home outside Moscow, while on a tour.

Lyndon Urges No Further Cuts

WASHINGTON (AP) — President Eisenhower hinted broadly today he might call a special session of Congress if he is denied the authority he wants for foreign aid spending.

Eisenhower was asked at his news conference for comment on the Senate's action in voting to cut his mutual assistance request by 383½ million dollars.

The President said he is going to use all of his persuasive powers in attempting to convince members of Congress they will be ignoring the security of the nation and the vital interests of the free world if they reduce foreign aid too sharply.

In many instances, Eisenhower said, it is possible to get sufficient appropriations later if Congress fails originally to provide enough funds to carry on the program.

The Senate is working on a bill to authorize the expenditure of funds which are to be provided later. This bill in effect sets a ceiling on foreign aid appropriations.

Senate Democratic Leader Lyndon B. Johnson of Texas earlier had spoken out in an effort to head off further Senate cuts in the aid bill.

Eisenhower said if the authorization is reduced to the point where he can't go back to Congress next year for what he considers sufficient funds to carry out the program, he will have only one other recourse. He said that would be to call a special session.

Eisenhower said vigorously he is never going to give up the fight for the foreign aid program.

Johnson appealed to senators of both parties to stop additional cuts.

The Democratic leader told his colleagues they should not gamble with the nation's security, and should refuse to make any more cuts in the big measure. It was trimmed by 383½ million dollars Tuesday night.

Johnson asked the Republicans to "rally their troops as a body" and expressed hope that there would be many Democrats who felt as he did and would join in defeating further cuts.

The President was rebuffed twice Tuesday as the Senate

voted cuts in the amounts Eisenhower had asked both for military aid and for economic help to arms pact allies which supply large numbers of armed forces.

Sen. Wayne Morse (D-Ore.) said he would seek roll call votes on other amendments to cut funds in the program.

Johnson said he hoped to get final passage of the whittled-down measure during the day.

The Senate voted 52-41 to cut 300 million dollars from the \$1,600,000,000 Eisenhower asked for arms aid to America's free world allies.

Then it adopted by a vote of 49-43 a second amendment slashing 83½ millions from the \$35 million Eisenhower said was essential for economic defense supports for armed allies this year.

But Eisenhower won a possible victory for the future on a 56-37 vote to provide permanent authorization for future military aid funds instead of the year-to-year action now required. The actual money requests then would go to congressional appropriations committees.

Under this plan, military aid would become a permanent part of the Department of Defense budget.

Eisenhower had asked such a change. The Senate approved a similar provision two years ago, but the House rejected it. House acceptance would be needed if the change is made this year.

As the Senate resumed work on the measure today, it carried \$3,543,320,000 against the \$3,909,400,000 Eisenhower asked and the \$3,542,600,000 voted by the House.

Sen. Hubert H. Humphrey (D-Minn.) won acceptance of an amendment to authorize the President to spend up to two million dollars for international health projects.

Forty Democrats joined with 12 Republicans to cut military aid by 30 million dollars, with only 19 Democrats joining 22 Republicans in opposing it.

Forty-one Democrats joined eight Republicans in voting the \$3 million dollar cut in defense supports with 18 Democrats and 25 Republicans backing the President.

Court Puts Hungry Cattle Over Weather Modifiers

AUSTIN (AP) — The State Supreme Court held today that hungry cattle have priority over weather modifiers trying to stop crop damaging hail storms.

The court affirmed the El Paso Court of Civil Appeals' decision in upholding an injunction issued several Jeff Davis County ranchers against the Southwest Weather Research Inc.

The "weather modification" firm was hired by a group of cotton farmers in the Fort Stockton area to break up hail producing clouds over the Davis Mountains by spraying them with chemicals. The ranchers claimed that the hail suppression program destroyed potential rain clouds over pastures badly in need of moisture.

"So, with the advance of science we find another point of cleavage and conflict in the long struggle between the ranchman and the farmer," the Supreme Court's opinion said. It was written by Associate Justice James R. Norvell.

The opinion said the Supreme Court had the sole job of deciding whether the trial court's injunction

against the weather modifiers was "a clear abuse of discretion."

"It is sufficient to point out that artificial weather control is an activity which is in its infancy," the opinion said.

"These causes involve complicated scientific problems, as well as the legal determination of the property rights of both the landowners on one hand and those engaged in a business enterprise on the other. Admittedly the case is not fully developed. It has not been tried upon the merits and the sole purpose of the temporary injunctions is to preserve the status quo until these complicated scientific problems and attendant legal questions can be fully considered and a final judgment rendered delineating and determining the rights of litigating parties."

Addison Bag Held Checks

DALLAS (AP) — A leather bag said to contain funds belonging to uranium promoter John Milton Addison of San Antonio turned out to contain \$146,625 in checks and money orders, attorneys said yesterday.

The bag, allegedly left on a plane in Austin June 12, has been the center of one of the legal controversies surrounding the 31-year-old man.

The Bexar County Grand Jury in San Antonio has returned a series of indictments charging theft over \$50 against Addison and Dan Nance, Denver, in connection with funds secured by the pair for development of a "Benson Upgrader" uranium purifying machine.

Addison claims the machine recovers uranium ore capable of producing cheap atomic power for every community in the nation.

U.S. Dist. Judge T. Whitfield Davidson granted permission yesterday for Lester May of Dallas to examine the bag, which had been subpoenaed as evidence in several court actions.

May joined John Ford of the SEC and William Yelderman of Austin, another attorney for Addison, in examining the bag in the presence of a reporter.

The trio said most of the \$146,625 was in checks and money orders made out to Addison. Some were made out to Pat C. Addison, whom the attorneys did not identify.

Satchmo Cancels Concert Date

LAMBERTVILLE, N.J. (AP) — Louis Satchmo Armstrong canceled a special appearance here on doctor's orders Tuesday night.

Armstrong, who fell ill with pneumonia last month, had been scheduled to attend a testimonial concert for him. But his doctors decided that it would be too early for Armstrong to attempt to play the trumpet again.

More Water Used

Water consumption in Big Spring Tuesday jumped over the total used last year in the city. Tuesday, the total water consumed was 6,414,000 gallons as compared with only 5,388,000 gallons in 1958.

Bathyscaph Tests Tell Navy Of Value Of Vehicle

SAN DIEGO, Calif. (AP) — Navy officials said today that preliminary dives of the bathyscaph Trieste have convinced them that it is the forerunner of undersea devices that will carry explorers to the earth's last great unknown frontier.

Eight preliminary dives by the Trieste in this area, the deepest 4,000 feet, have started a program that is aimed at giving man direct information about the three-fourths of the earth's surface covered by the oceans.

Capt. John M. Phelps, commanding officer and director of the Naval Electronics Laboratory, said the program was so vast that it would take much time and money to carry it through.

But he and Dr. Andreas B. Rechznitzner, oceanographer in charge of the Trieste operations, ex-

U. S. Air Force To Move 3 Wings Off French Soil

PARIS (AP) — Three fighter-bomber wings of the U.S. Air Force will soon be moved from French bases to fields in Britain and West Germany, the United States announced today.

U.S. Ambassador to NATO W. Randolph Burgess made the decision known at a meeting of the North Atlantic Council.

The move had been generally expected because President Charles de Gaulle will not agree to storing U.S. atomic arms on French soil.

The transfer will involve 200 jet fighter-bombers which have been assigned atomic missions in case of war. The move is to be started immediately and will be completed before the end of the summer. The jets are based along the French-German frontier.

In the American view the French refusal to allow atomic

Stockpiles Made Impossible For Planes To Fulfill Mission From French Bases

The shift to bases where atomic stockpiles would be close at hand was therefore the only logical military procedure, officials said.

The French have refused to commit their air force to an integrated NATO air defense in Europe, except for planes assigned to tactical NATO support in Germany.

The French declined official comment on the announcement.

The decision was the first concrete American reaction to De Gaulle's increasingly independent attitude toward NATO.

De Gaulle has refused to admit U.S. atomic stockpiles unless France is given control of their use. U.S. law requires that American officers retain control of the nuclear warheads for weapons, although foreign governments control the weapons themselves.

stockpiles had made it impossible for the planes to fulfill their mission from French bases.

Joint Legislation Panel Still Behind Closed Doors

AUSTIN (AP) — Tax talk remained behind closed doors today as 10 Senators and Representatives looked for more money.

The joint conference committee said it remained optimistic a 172 million dollar tax bill can be written for debate by the House and Senate. No major legislation was up for discussion in either house today.

Informed sources said 16 to 30 million dollars more must be found before the tax measure is ready.

The revenue-raising measure faces another obstacle—the 150 House and 31 Senate members. No one is willing to predict the conference committee's solution will be acceptable.

Gov. Price Daniel remained quiet after making his recommendations, then adding it would

"be a shame if the gas pipelines go scot free."

Neither House nor Senate tax bill included Daniel's recommended 3 per cent severance beneficiary tax aimed at natural gas pipelines. Railroad Commission figures show 55 per cent of the tax would come from out of state.

An afternoon tax committee meeting yesterday flopped when Sen. Dorsey Hardeeman, San Angelo, failed to show.

Senators approved 15-14 yesterday a bill to increase student activity fees to \$30 a semester at 19 state-supported colleges and universities. Most activity fees now are voluntary. The measure went to the House where a similar proposal is in a subcommittee.

Youths Escape Reformatory, Abduct Girl Before Capture

NEW MARTINSVILLE, W. VA. (AP) — Three teen-age reformatory inmates, charged with kidnaping a young secretary and threatening to kill her if she resisted, got preliminary hearings today.

The trio took Sandra Lynne McKee, 18, for an 80-mile ride Tuesday but were captured less than five hours after their escape, as they tried to get food and money for a trip to Florida. Miss McKee was not harmed.

Larry Anthony Rector and Roger Lee Moore, both 16, and Patrick Jarrell, 17, were charged with kidnaping and grand larceny. The reformatory superintendent, Richard L. Young, said they would be given preliminary hearings before Magistrate W. C. Lawson.

The trio escaped from the State Industrial School for Boys at Pruntytown, near Grafton in north-central West Virginia. They were captured 10 miles south of this Ohio River town by Sheriff Shannon W. Western and other officers because Westernman thought to go to Rector's old neighborhood, where his mother still lives.

Miss McKee is a plain-looking girl with straight blonde hair and glasses. Young and law officers

returned from the lunch-hour drive.

Rector and Jarrell were taken at a shack near the home of Rector's mother, as they tried to obtain food and money from her. Young said the mother prevented Rector from getting a rifle — "wrestled with him and cried" as he tried to take the weapon.

The third fugitive, Moore, had left the others to go on foot through the woods and was captured in an adjoining county.

Authorities learned the general direction the fugitives were taking because someone saw the car going through the town of Bridgeport.

"We were mighty, mighty lucky to catch them," said Young. "The boys were in a desperate state of mind."

All three were serving terms for auto theft or breaking and entering. Rector and Moore were serving second sentences.

The girl's mother, Mrs. Albert McKee, refused to let newsmen talk to her daughter, saying she was too upset.

"I can't get too much out of her," the mother said. "She's been crying so much. It's hard to make sense out of it."

Skeeter War Moves Into Night Phase

In the battle on the mosquito front, the city is pressing the fogging machine into use during the night. City Manager A. K. Steinheimer said this morning that the machine would be used an additional shift, until 10 p.m., in an effort to gain ground against the insects.

The city is also working with the City - Health Unit in spraying breeding places of mosquitoes. Steinheimer pointed out that the city has over 200 miles of streets and alleys to cover with the fogging machine.

Manhunt Spreads

LAS VEGAS, Nev. (AP) — A vast manhunt spread across two states today for a man whose bloody fingerprints were found beside the raped and knife-slashed body of 6-year-old Dolores Stafford.

Her nude body was found Tuesday in the attic of Robert K. Ervin's Las Vegas home. She had been stabbed in the stomach and her throat had been cut.

Rescued
 Lt. Rudolph B. Maley, one of the three guards among 39 hostages held 13 hours by four Washington State Reformatory convicts, administration building at Monroe after all were freed in a tear gas attack. Blood on Maley's shirt is from the rebels he helped subdue.

Here?

Queen Elizabeth, in satin evening dress and emerald and diamond tiara, gestures as she awaits signals as to seating arrangements from Chicago's Mayor Richard Daley. It was the mayor's banquet which wound up her stay in Chicago. At the right is Chicago's First Lady, Mrs. Daley.

Ontario Town Atingle Over Royal Stopover

SAULT STE. MARIE, Ont. (AP)—This Canadian steel center and river port was atingle today over its first visit from a reigning monarch of the United Kingdom.

Elizabeth II of England and Prince Philip, the most prominent tourists in North America this summer, were scheduled to spend about four hours here en route to Fort Arthur, Ont.

It was their first stop after a rousing welcome Monday at Chicago.

The visit brought them to another point of close United States-Canadian ties. Sault Ste. Marie's twin-named U.S. city lies across the St. Mary's River in Michigan.

The busy river is a highway for Great Lakes vessels carried by locks between Lake Superior and Lake Huron.

To Mayor Walter Harry this was a "red letter day."

It was not a business holiday in this city of about 41,000 persons, but the city requested all businesses to allow employees at least three or four hours off to see the royal couple.

Chief Constable Irvin L. Robertson, city police chief, mobilized extra manpower.

Robertson expected at least double the area's population on hand to see the visitors.

From the American side a rainbow of license plates denoted tourists from numerous states.

The royal schedule covered an eight-mile route. First was a stop at Bellevue Park for an assembly of schoolchildren, then luncheon at the Windsor Hotel, and finally a visit to Algoma steel mills.

The closest Queen Elizabeth and her party came to American soil was the docking of the royal yacht Britannia at MacArthur lock pier in the U.S. roadstead of the St. Mary's River. The yacht is too wide to traverse the Canadian locks.

Church Unity Not Always Apparent

OBERLIN, Ohio (AP)—Some things about the United Church of Christ occasionally seem a bit intangible to its representatives meeting here today.

They say their newly merged denomination has an abundance of spirit, but they sometimes are haunted by the temporary lack of complete organization substance.

"It's becoming increasingly difficult to say we're united when technically we're not," said the Rev. William C. Nelson of Akron, Ohio, Tuesday in urging early action on a constitution.

About 750 delegates, rejecting a proposal to stretch out the constitution-framing process into a four-year period, authorized a special procedure to permit getting the task completed in two years.

"I'm beginning to feel very much like I'm involved in a common-law marriage," said the Rev. William C. Blair, of Newport, N.H., in urging expeditious action. "What we need is a nuptial contract."

The union of the Evangelical and Reformed Church and the Congregational Christian General Council was declared formally in being two years ago, but much of the merging mechanics still awaits a constitution.

Although agencies of the two bodies already work together in many ways, it is on a tentative basis, and they still must maintain separate corporate identities and administrations.

When the church's five-day general synod began here Sunday, the expectation was that it would act on a constitution, then give local units two years to ratify it before putting it in force at the next biennial meeting.

However, the executive council Tuesday recommended that action on the document be delayed two years to give local churches more time to study it and air their

Woman Helps Keep Order At Synod Of Church Organization

By GEORGE W. CORNELL
AP Religion Writer
OBERLIN, Ohio (AP)—The spirited, auburn-haired woman said "You are out of order."

The man on the floor blinked and sat down.

That's part of the picture at the General Synod of the United Church of Christ where a woman helps keep reins on the mostly masculine organization.

Miss Frances Kapitzy, a warm-mannered but crisply efficient banker from Strasburg, Ohio, is sharing the task of co-moderator with the Rev. Dr. Ray Phillips of St. Louis, a crusty, portly veteran of foreign mission fields.

"She's doing a wonderful job," commented the Rev. Jessie H. Dollar, of Newport News, Va. "She is most gracious and charming in every way. She also knows how to get things done."

As the first woman moderator ever named in the Evangelical and Reformed Church, she assumed the joint presiding task in the United Church with Dr. Phillips, moderator of the Congregational Christian Churches.

The two merging communions are holding their first full-scale combined meeting.

Dr. Phillips, a missionary for 40 years in South Africa, is a ruddy, straight-talking gentleman of the old school, whose patriarchal rule from the chair contrasts colorfully with that of Miss Kapitzy.

They take turns handling the gavel at alternate sessions.

"I think the men are a little more reserved when they take issue with my rulings," Miss Kapitzy said. She said she hadn't sensed any strain in keeping matters in hand.

"It's like a board of directors

meeting, only much bigger," she said. She keeps the feminine niceties in mind with a different dress practically every day.

A bright-eyed, vivacious woman with a ready smile, Miss Kapitzy, 57, is president of the Citizen's State Bank, the only one in her hometown of 1,500.

A dedicated churchwoman, she has held numerous offices in her denomination.

Dr. Phillips, 69, a 5-foot-7 man with a fringe of white hair around his bald head, was involved during his long missionary career in

Johannesburg with the keen interracial tensions there.

He said America comparatively is making much more progress on the problem.

"By and large we're moving quickly along the way in solving the race problem," he said. "South Africa is facing backwards and locking doors."

Now retired from missionary work, he is filling in for a pastor on leave from St. Louis' integrated Pilgrim Church. He said Christianity's biggest obstacle at home and abroad is its divisions.

"We practice a tribalism in the church," he said. "But this is changing."

Miss Kapitzy, an avid baseball fan—Cleveland Indians—and a serious backyard gardener of vegetables and flowers, said the union of the two American denominations is a great stride ahead.

"We are both learning and profiting from each other," she said. "We're building a much stronger church with a much firmer and nobler witness to Christ."

50 Years Overdue
SAN ANTONIO, Tex. (AP)—About five months before Admiral Peary reached the North Pole in 1909, someone checked the book "Castle Blair" out of the Carnegie Public Library.

It was returned Tuesday, more than 50 years overdue. It was placed in a collection chute at a branch library.

Library officials said the book, overdue since Jan. 4, 1909, would have carried a \$472.50 fine.

Valley Cotton Maturing Rapidly
WESLACO (AP)—Cotton is maturing rapidly in the western part of the Lower Rio Grande Valley but more insect control work is needed to protect bolls, an agricultural official said here yesterday.

Associate County Agent James Deer said a few pink bollworms are being found but the outlook is good.

OH, MY ACHING BACK

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

Don's Pills work fast in 2 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 1 1/2 miles of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for over 50 years. New, large size saves money. Get Don's Pills today!

Ex-Beauty Queen Gets Jail Term

LITTLETON, Colo. (AP)—A former beauty queen who admitted she held up a drug store must serve an indefinite term in the Denver County jail.

She is Dixie Ann Gottfried, 19. Both the defense and prosecuting attorneys had asked that Mrs. Gottfried, Miss Colorado Jaycee

last summer, be given probation. But Dist. Judge H. H. Harrison denied probation, saying Mrs. Gottfried had "chosen to associate with police characters and partake in a serious crime."

Back To Work

DALLAS (AP)—Plumbers were due to return to their jobs today after accepting a new contract last night.

By ABIGAIL VAN BUREN

DEAR ABBY: Please tell me, if you can (or maybe someone else can if you dare to print this) what is "God's will"? My husband and I have been married for sixteen years and have had nothing but trouble. Our son was taken to Juvenile Court when he was 14 because he never had a father's training or guidance.

My husband says, "It's God's will." We are about to lose our land because my husband doesn't want to work. He never watched his money when times were good. He says, "It's God's will." Frankly, I am confused although I have been to Church every Sunday since I was five.

DEAR ABBY: "God's will" is that which is beyond the power of man to control. It's all right to get down on your knees and pray for something, but there is a time when man must get off his knees and work for it.

DEAR ABBY: I am a housewife and the mother of four children. My problem is a friend who calls me 4 and 5 times a day and holds the conversation for 15 and 20 minutes at a time. I want to keep her friendship but I can't stay on the phone that long. I have used the following excuses and wonder if you can add any? 1. Baby into something. 2. Water running. 3. Taking a bath. 4. Expecting an important call. 5. Have company.

DEAR ABBY: We have a 12-year-old child who will be the death of me yet. He absolutely refuses to eat any food that is "mixed" with other food. Like if I have meat and potatoes and I get a little gravy from the potatoes on the meat, he won't eat it. If I have creamed corn and potato salad, if the corn runs into the potato salad he won't eat the corn OR the potato salad. I have to put everything on separate dishes. I try to tell him the food all gets mixed up in his stomach anyway but he says, "Please, Ma, you are turning my stomach to talk about it." Do you think he will outgrow it or can this last a lifetime?

DEAR ABBY: Don't worry about it. Serve his food on separate dishes and don't make an issue of it. He'll probably outgrow it. If he doesn't, you can give his wife your condolences right along with your congratulations.

DEAR ABBY: Nature, in her infinite wisdom designed us so that we cannot kick ourselves, but I am sure your sister-in-law would be glad to accommodate you. Apologize and forget it.

For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

Predicted Toll Reached Estimate

AUSTIN (AP)—The Department of Public Safety reported with regret today that its predicted traffic death toll of 26 in the July 4 holiday period reached 26.

It may go higher, if several persons critically injured in the three-day period should die.

A late-reported death, that of a pedestrian in El Paso July 3, brought the total to 26 today. The El Paso death was that of Victor Ruiz, 10.

There were 23 fatal non-traffic accidents such as drownings.

Total violent deaths for the holiday period including homicides and suicides was 61.

520 Deaths In Traffic

CHICAGO (AP)— Accident deaths over the Independence Day weekend totaled 520, including 276 in traffic mishaps and 179 drownings, a final count showed. Sixty-five other persons were killed in miscellaneous type accidents from 6 p.m. Friday to midnight Sunday.

The traffic toll was 74 lower than the pre-holiday estimate of 350 by the National Safety Council. It compared with 310 deaths on the highways during the Memorial Day weekend.

The only recent comparable Fourth of July two-day holiday was in 1953 when the count was 282 traffic deaths, 121 drownings and 51 miscellaneous accident deaths, a total of 454.

An Associated Press survey for a recent 54-hour non-holiday weekend showed 240 traffic deaths, 70 drownings and 47 miscellaneous accident deaths, a total of 357.

Texas Senators Split On Aid Bill

WASHINGTON (AP)—Sen. Ralph Yarborough (D-Tex.) voted with the majority yesterday when the Senate adopted 49-43 an amendment reducing foreign aid defense support by 10 per cent.

Senator Lyndon Johnson (D-Tex.) voted against the amendment.

If your diet causes CONSTIPATION

When you're on a diet and eat less, you may find yourself bothered with constipation due to lack of bulk.

Fortunately, if this happens, there's a way to get back on schedule naturally—without going off your diet. It's the Kellogg's All-Bran way.

You see, just a half-cup of Kellogg's All-Bran (only 95 calories) provides all of the good bulk you need each day for consistent regularity.

So, if you'd like to stay regular, try Kellogg's All-Bran with milk for just 10 days. See if it doesn't work for you as it does for millions.

That Inevitable Cup Of Tea

A proper cup of tea was one concern of Mrs. Patricia Nural this morning. Jim Smiley, left, and Alec Nural help her explain that tea-bags are unknown in England. The Nuralis are natives of England and Smiley is from Queensland, Australia. They are visiting with retired Major and Mrs. Edward Brown, 1104 Pennsylvania.

WAR TIME FRIENDS

Visitors From Abroad Find Texas 'Charming'

Old friends of three nations were reunited Saturday when a trio of visitors arrived at the home of Major and Mrs. Edward Brown, 1104 Pennsylvania. Mr. and Mrs. Alec Nural of England and Jim Smiley, of Australia have been visiting with the Browns and plan to leave today on a continuing tour of the United States.

to his home except that they raise sheep rather than cattle there. The visitors are on a nine week trip through the southwestern and western parts of the United States. The Nuralis praised the people of Texas as "charming." However, they suggest that wives are spoiled by their husbands. Mrs. Nural said the excellent treatment of American wives is delightful, but not good for her. The group has already toured most of Canada. They plan to return to England eventually and explode the myths that Americans are all wealthy and live in "Hollywood" style.

Trailer Tax Warnings Are Being Issued

A city inspector continued work this morning, notifying owners of trailer houses of the new ordinance requiring they pay an annual fee. A. K. Steinheimer, city manager, said the trailer owners were being given copies of the ordinance in some instances.

Balky Refugee Taken To Medic

MEXICO CITY (AP)—A Polish-American who caused a scene at the airport when the government tried to deport him is being put in the hands of a psychiatrist, officials said today.

Officials say he poses a peculiar problem because no transportation system will take him out of the country. The man is Eloma Eck, of Philadelphia. He entered Mexico illegally and when detained nearly Huehuetoca he had what was described as a mental breakdown.

When he was taken to the airport by officials last weekend, he shouted that he was being kidnapped, fought officers, and caused so much trouble the airline pilot refused to take him aboard for fear he would upset other passengers.

Dope Case Is Terminated In Mistrial Rule

A mistrial was ordered in the narcotics case concerning Joe Florez this morning. The case was being handled in 118th District Court.

The order came while the case was recessed over legal problems of a different nature. George Thomas, defense attorney, filed the motion for a mistrial during the examination of the jury panel. John Dibrell, one of the panel, was asked by Dist. Atty. Gil Jones if he knew Florez and he indicated he did. No further questions were asked him, and Thomas moved to quash the panel. This was overruled.

Later Dibrell volunteered the statement that he was Florez's probation officer, Thomas said. The defense asked for a mistrial. Dibrell was not selected as a juror, however.

No action was taken at that time, but later, during testimony by Fern Cox, deputy sheriff, a recess was called, and after a conference, the motion originally raised over Dibrell's answer was upheld by Judge Charlie Sullivan, Thomas related.

The recess developed after Cox testified he found four cigarettes, supposed to be marijuana, in a pair of trousers that Florez asked to take to a prisoner, Andres Marquez, who was in the county jail. This occurred on May 14.

Named to the jury were Dee Foster, Jr., Jerry Worley, Jack F. Johnson, Jack Hatch, Duval Wiley, W. E. Pounds, R. P. Kountz, Abe Bailey, Elmo Martin, C. C. Ryan Jr., L. F. Anderson, and E. B. McCormick.

Cuban Refugee Comes To U.S.

MIAMI, Fla. (AP)—Immigration Director Edward P. Ahrens today announced Maj. Pedro Luis Diaz Lanz, resigned commander of the Cuban Air Force, has been admitted to the United States as a resident alien.

Ahrens issued this statement: "Major Diaz Lanz, accompanied by his wife, applied for admission to the United States on July 1, 1959, at Miami, Fla., at which port they had arrived directly from Cuba aboard a small private boat.

Following examinations yesterday, he has been admitted as a resident alien and she has been paroled. He has requested that his whereabouts not be revealed at this time."

Ahrens would make no further comment. He declined to give any hint as to Diaz' whereabouts.

The former Cuban military leader has been accused by his successor, Maj. Juan Almeida, of desertion, treason, robbery and dealing with members of ex-dictator Fulgencio Batista's regime.

The fact that Diaz was admitted as a resident alien could mean either that he holds a U.S. passport or that this requirement was waived in his case.

His June 30 resignation came in a letter to Cuban President Manuel Urrutia and was accompanied by a charge that Communists had armed forces.

He was nowhere to be found after his resignation.

The West German population outnumbers 2 1/2 the East Germans, Khrushchev said. Soviet attempts to catch up with U.S. production "won't be depriving you of anything" — that increased Soviet production won't decrease American output.

"I have heard some complaints about our attempts to catch up with the United States," he continued. "We do want to catch up. You want to eat a lot only for yourselves, and that is a selfish approach."

"You have a rich, big strong country, and we want to be like you in that respect."

Borden Wildcat Showing Oil; Zone Believed To Be Woodford

Shows of oil have been located in a zone tentatively identified as the Woodford at a wildcat in the northwestern part of Borden County.

At the Cameron No. 1 Johnson wildcat, a drillstem test from 9,839-85 feet returned 50 feet of oil, 100 feet of slightly mud-cut oil, and 634 feet of heavily mud and gas-cut mud. No water was reported.

The project is about 10 miles northwest of Gall. In Garza, the Southern Minerals No. 1 Slaughter flowed oil this morning from the Strawn after operator completed a straddle-packer drillstem test.

Santiago No. 1 Clayton & Johnson, C SE NE, 13-30-5n, T&P Survey, made hole at 6,870 feet in lime. The site is 6 1/2 miles north-east of Gall.

The Cameron No. 1 Johnson drilled below 9,907 feet in shale after testing the Woodford from 9,839-85 feet for 30 minutes. Recovery was 50 feet of oil, 100 feet

of slightly mud-cut oil and 634 feet of heavily mud and gas-cut mud. Shutin pressure for 30 minutes hit 4,175 pounds.

The site is C NE SE, 4-32-5n, T&P Survey, 10 miles northwest of Gall.

Texaco No. 1 Johnson, a wildcat one mile southwest of Gall, drilled at 3,542 feet in lime. It is C SW SE, 38-31-5n, T&P Survey.

Southern Minerals No. 1 Slaughter flowed by head today after testing the Strawn from 7,796-846 feet using straddle packers. Gas surfaced in four minutes, and oil came in 1 1/2 hours. It flowed an estimated 14 barrels hourly for 14 minutes and then died. Prior to that, operator drillstem tested from 8,188-275 feet for 77 minutes and recovered 125 feet of very slightly oil and gas-cut mud in drill pipe. The site is 600 from south end 550 from east lines, 6-2, T&N Survey.

Esmer No. 1 Proctor, a wildcat six miles south of Justicburg,

drilled at 5,467 feet in shale today. The site is 1,980 from south and 660 from east lines, 685-97, H&T Survey.

Williamson & Barnes No. 1 Walker, in the Big Spring field, made hole at 4,890 feet in lime and shale. It is 1,980 from south and 660 from east lines, 24-32-1n, T&P Survey, and on the south edge of the field.

Husky No. 1 Carter, 6 1/2 miles southwest of Patricia, drilled at 9,234 feet in lime and shale. The wildcat project is 660 from north and west lines, Labor 24, League 263, Kent CSL Survey.

Williamson No. 1 Ray, 14 miles west of Sterling City, penetrated to 8,410 feet in lime and shale today. It is a 10,000-foot explorer 660 from south and 1,000 from east lines, 2-31-5n, T&P Survey.

Khrushy Tells U. S. Governors Friendship Is Key To Peace

MOSCOW (AP)—Premier Nikita Khrushchev told seven American governors Tuesday that friendship between the United States and the Soviet Union is the key to world peace.

Khrushchev said the Soviet Union "wants peace with all nations, but above all with the biggest and strongest — the United States of America."

"If there is friendship between us, there can never be war," the Soviet Premier declared in a 3-hour and 45-minute talk in the Kremlin with the U.S. state executives touring the Soviet Union.

Khrushchev said if another nation started a war, the Soviet Union and the United States together could halt it.

"But if the United States and the Soviet Union are ever in a conflict," he continued, "the result would be terrible calamity, because if we fight, no force on earth could ever halt us."

Later in the talk, Khrushchev stood fast on Soviet demands for Germany and Berlin which the Western Allies have repeatedly rejected. He said both West and East Germany should be recognized and normal relations established and that West Berlin should be made a free city guaranteed by all countries and the United Nations.

Asked by Gov. Stephen McNichols of Colorado why he did not allow the German people to decide their future in a free, all-German election, Khrushchev said the East Germans don't want to see an end to their achievements and neither do the West Germans. He added that the East Germans won't give up their constitution.

The West German population outnumbers 2 1/2 the East Germans, Khrushchev said. Soviet attempts to catch up with U.S. production "won't be depriving you of anything" — that increased Soviet production won't decrease American output.

"I have heard some complaints about our attempts to catch up with the United States," he continued. "We do want to catch up. You want to eat a lot only for yourselves, and that is a selfish approach."

"You have a rich, big strong country, and we want to be like you in that respect."

Valley C-C Hits Water Bill

WESLACO (AP)—The executive vice president of the Lower Rio Grande Valley Chamber of Commerce said yesterday a bill in Congress authorizing construction of Diablo Dam subordinates industrial use of Rio Grande water.

Jake Drake said the bill leaves unanswered the question of who will pay for the conservation portion of the dam.

The bill, by Rep. O. C. Fisher of San Angelo, would authorize the State Department to agree with Mexico on details of the multi-million dollar dam to be constructed below the Pecos and Devils Rivers about 12 miles north of Del Rio.

The bill also would authorize appropriations to pay the cost of the dam, which is to be larger than Falcon Dam, the only reservoir now on the international river.

Drake quoted the bill as saying "The dam's operation for conservation and release of United States water shall be integrated with other United States water conservation activities on the Rio Grande below Fort Quitman, Tex., in such manner that water allocated to the United States and now available for use below Falcon Dam shall not be impaired or diminished."

ELMIRA, N.Y. (AP)—Dick Johnson of Arlington, Tex., is the national soaring distance flight champion.

Johnson landed his sailplane on a beach in Rhode Island last night to win the contest. It was a 283-mile flight.

Referring to an exchange during which Khrushchev berated Americans for chasing the dollar, Gov. LeRoy Collins of Florida said: "While Americans do like to make money, there are other things closer to them — love of family, love of home, freedom and liberty. They love these far beyond the dollar."

Khrushchev was silent for a moment and then answered in a very low voice: "Perhaps we do not have enough understanding of each other. I don't claim full knowledge of American traditions and desires any more than you know of our traditions and desires. Let us respect each other and our respective traditions."

When Gov. Robert B. Meyner of New Jersey reminded Khrushchev that Soviet debts for U.S. lend-lease aid during World War II were still unsettled, Khrushchev charged that the United States discriminated against the Soviet Union, as compared to England, even though the Soviet Union suf-

fered more than all the other Allies put together.

Khrushchev said any settlement of lend-lease would be "just a fraction of the money spent in armaments against us." He then resumed his appeal for more East-West trade.

Collins complained that he has been unable to keep up with the baseball scores during his trip because he could not find American newspapers in the Soviet Union.

Khrushchev told the Florida governor to give his touring address to his hometown newspaper and he would see that copies of it are delivered. He said the reason U.S. newspapers are not freely circulated in the Soviet Union is that they do not have the right tone.

After the meeting, the governors expressed their reactions: McNichols — "One of the most adroit men I have ever met. He has the complete ability to draw on an immense fund of information without any help. He is able to deal with you at any level — at the highest or in street fighting. Back home we would say he is a good alley fighter. He has an advantage over us in that he could pile up point after point while speaking alone. We would have to wait with our comments and we never got a full opportunity to go back and straighten out the record."

Gov. Luther H. Hodges of North Carolina — "He is as smart as the dickens. He is a worthy opponent and dangerous. One second he could be ruthless and the next second he would have a fine sense of humor that would get him over the rocky places."

The County-wide 4-H Club meeting will be held in the district court room Thursday night, said Jimmy Taylor, county agent, with the program to be devoted to plans for the annual 4-H rodeo.

The junior rodeo will be held here Aug. 6, 7, and 8. Taylor said the meeting Thursday will begin at 8 p.m.

The county agent also said that he had received more inquiries about the rodeo this year than at the same time last year, indicating larger participation than in 1958. At the last rodeo, there were 125 performers, but Taylor is looking for over 150 this year.

Rash Of Break Ins Keeps Police Busy

Five burglaries and a theft during the night were being investigated this morning by sheriff's deputies and police department detectives.

The Big M Drive-in, Chub's Drive-in, and the Tip Top Drive-in were all hit by yeggs during the night. Entry was made in a similar manner at each of the cafes, by forcing a door or window. Juice boxes were vandalized at the Big M and Tip Top and the cigarette machine was hit at Chub's.

The burglaries were discovered between 4 and 5 a.m. today. No estimate of the losses is available.

Roselyn Duke, 1110 Runnels, reported a burglary about 2 p.m. Tuesday. She told officers that 38 silver dollars, a two dollar bill, several old coins, rings, and

watches were missing from a metal box.

The J. L. Grocery at Tarzan was hit Monday night by burglars. About \$100, some cigarettes, and six or eight tires were reported missing.

Wayne Gaudin reported to police that two bottles of drugs were taken from the porch at 604 Lancaster Tuesday. One of the bottles contained phenobarbital.

Dona Romine, 1406 E. 6th, reported she left her billfold at Bell's Washateria Tuesday. It contained about \$20 and valuable papers, she said.

Police have in their possession a sack of laundry. It was found in the alley near the First National Bank Tuesday. The owners can pick it up by claiming it, officers said.

Careless Hunters Are Warned To Obey Rules

Sheriff Miller Harris has issued a warning to hunters about shooting from roadways at night. The warning came after several ranchers complained of having cattle killed.

Harris said that the practice of shooting from road and also at night is contrary to state regulations and his deputies are being instructed to keep a closer watch for violations.

The sheriff asked everyone to cooperate either by not hunting in these ways or by reporting anyone who is found violating the regulations.

Two County Court Fines Are Levied

In county court Tuesday, John J. Miles of San Saba pleaded guilty to defrauding with worthless check and was fined \$75 and costs. He was returned to Big Spring from Travis County where he had been arrested on the local complaint.

The worthless check case was filed in July of last year. Also Tuesday, John L. Timms, 28, of Abilene, pleaded guilty to a liquor law violation and was fined \$100 and costs. He had been arrested Monday by Liquor Control Board officers.

Loan Bill Hits A Snag

AUSTIN (AP)—State regulation of the small loan business in Texas hit a legislative snag yesterday.

Members of the House Banking Committee sent a bill making lenders of \$100 to \$3,000 get a license and renew it each year to a subcommittee. No time limit was set for a subcommittee report.

"That takes care of it this session," Rep. Cris Cole, Houston, the author, said.

"The bill's dead," said Rep. Don Kennard, Fort Worth, who tried to get the bill recommended for floor debate. He failed 13-2.

Cole's bill also failed to get floor debate in both the regular and first special sessions.

He said yesterday his latest effort differs from previous measures in exempting pawn brokers from regulation by the state banking department. Also exempt are banks, building and loan corporations, credit unions, agricultural cooperatives, mutual loan corporations, real estate loans, and insurance companies.

Cole and Kennard said yesterday failure to pass the licensing act will result in the failure of the proposed constitutional amendment at the polls this fall. The amendment, approved at an early session, allows the Legislature to set interest rates on small loans.

Drivers Get 147 Traffic Rule Tickets

The Big Spring police department's new traffic division has issued 147 traffic tickets during its first seven days of existence.

Sgt. Stanley Bogard, who heads the division, said only 37 of the tickets were issued as a result of the radar equipment handled by his men.

Most of the tickets, 26, were issued for traffic light violations. There were 16 issued for speeding. No operator's license and failure to yield the right of way accounted for most of the remainder of the citations.

His June 30 resignation came in a letter to Cuban President Manuel Urrutia and was accompanied by a charge that Communists had armed forces.

He was nowhere to be found after his resignation.

The West German population outnumbers 2 1/2 the East Germans, Khrushchev said. Soviet attempts to catch up with U.S. production "won't be depriving you of anything" — that increased Soviet production won't decrease American output.

"I have heard some complaints about our attempts to catch up with the United States," he continued. "We do want to catch up. You want to eat a lot only for yourselves, and that is a selfish approach."

"You have a rich, big strong country, and we want to be like you in that respect."

Douglas Hits Demo Strategy

WASHINGTON (AP)—Sen. Paul H. Douglas (D-Ill.) said today President Eisenhower's veto of the housing bill showed that Democrats had adopted the wrong strategy in cutting the measure down.

"It was supposed to be veto-proof when we sent it to him, but the proofing didn't work very well," Douglas told a reporter.

"We would have done better to send him a stronger bill, to make the issue clear."

The \$1.375,000,000 bill Eisenhower rejected Tuesday was cut down from larger programs passed separately by the House and Senate. But most of the cut was accomplished by limiting it to two years, leaving the annual spending rate much higher than Eisenhower asked.

Six Convicts Taken To Pen

Sheriff's deputies left here this morning with six men recently sentenced to prison terms.

Taken to Huntsville today were Raymond Chavez, Johnny White, Joseph Couette, Leroy Heard, William Billie Belton, and Jessie Young.

While the others face sentences of five years or less, Heard is under a life imprisonment. Heard is the only one of the group not pleading guilty.

Heard reversed his decision of Tuesday and asked to be sentenced to 10 years. District Judge Charlie Sullivan pronounced judgment on him after his trial Tuesday morning, but Heard said then he wanted to wait 10 days before he was sentenced.

Drivers Get 147 Traffic Rule Tickets

The Big Spring police department's new traffic division has issued 147 traffic tickets during its first seven days of existence.

Sgt. Stanley Bogard, who heads the division, said only 37 of the tickets were issued as a result of the radar equipment handled by his men.

Most of the tickets, 26, were issued for traffic light violations. There were 16 issued for speeding. No operator's license and failure to yield the right of way accounted for most of the remainder of the citations.

His June 30 resignation came in a letter to Cuban President Manuel Urrutia and was accompanied by a charge that Communists had armed forces.

He was nowhere to be found after his resignation.

The West German population outnumbers 2 1/2 the East Germans, Khrushchev said. Soviet attempts to catch up with U.S. production "won't be depriving you of anything" — that increased Soviet production won't decrease American output.

"I have heard some complaints about our attempts to catch up with the United States," he continued. "We do want to catch up. You want to eat a lot only for yourselves, and that is a selfish approach."

"You have a rich, big strong country, and we want to be like you in that respect."

Douglas Hits Demo Strategy

WASHINGTON (AP)—Sen. Paul H. Douglas (D-Ill.) said today President Eisenhower's veto of the housing bill showed that Democrats had adopted the wrong strategy in cutting the measure down.

"It was supposed to be veto-proof when we sent it to him, but the proofing didn't work very well," Douglas told a reporter.

"We would have done better to send him a stronger bill, to make the issue clear."

The \$1.375,000,000 bill Eisenhower rejected Tuesday was cut down from larger programs passed separately by the House and Senate. But most of the cut was accomplished by limiting it to two years, leaving the annual spending rate much higher than Eisenhower asked.

MEN IN SERVICE

Lt. Robert Bales, Assistant Wing Flying Safety Officer at Webb AFB, has just completed the only college class of its kind in the world—a course in aircraft accident prevention at the University of Southern California.

Lt. Bales was one of 25 USAF officers specially selected for the eight-week program. His class will be followed by other groups of officers engaged in the Air Force's campaign to reduce loss of life and aircraft.

All the officers in the class were pilots and many were veterans of World War II. Several were in combat in Korea. The fighter, bomber, and transport pilots came to USC from bases all over the nation.

Lt. Bales attended concentrated daily lectures in aeronautical engineering, aviation physiology for the jet age, education, and psychology.

'Payoff' On That \$25,000 Check Story

A missing \$25,000 check was found Tuesday when Shirley Bailey attempted to cash it at the First National Bank. Police officers L. A. Hiltbruner and Lindy Oldfield made the apprehension. And the whole affair was uncovered as part of the publicity for the Big Spring Civic Theater's current production of "The Night of January 16th." The drama begins Thursday night at the Howard County Junior College auditorium. The \$25,000 check is merely a prop in the play and is used as an exhibit during the trial. The check is made out to Lawrence Regan and signed by John Graham Whitfield, both of whom are characters in the play. Shirley Bailey has a part as a witness in the production and volunteered to be "caught" with the check.

Kozlov Queries Ford

Russia's First Deputy Premier Frol Kozlov, right, in animated conversation with Henry Ford, queries the auto manufacturer on production. Ford told Kozlov that production was way ahead of last year. Kozlov was conducted on a tour of the Detroit plant by Ford.

Governor Takes Measure Of Kozlov

DETROIT (AP) — Michigan's Gov. G. Mennen Williams says Soviet First Deputy Premier Frol R. Kozlov is shrewd and tough and it will take a Yankee trader to beat him.

Williams made the appraisal Tuesday night after what he called a "knock down and drag out" verbal fight with Kozlov.

The six-term Democratic governor, who has the backing of his state party for the presidential nomination in 1960, appeared to feel he had the better of his sparring with Kozlov as he described it to a news conference.

Kozlov left today for a three-day visit in Chicago.

For an hour Williams and Kozlov had a private conference in a Detroit hotel room following Kozlov's tour of industrial Detroit.

Williams said he fired a series of written questions at the deputy premier. Then he said they argued through their own interpreters and at one point Soviet Ambassador Mikhail Menshikov got worried and intervened.

Williams said Kozlov flared up at a question of self-determination and free elections for the Soviet Union's European satellites.

Williams said Kozlov argued that the people of East Germany and other Soviet satellites had made their choice and that anything to the contrary was propaganda.

The governor said he told Kozlov that Soviet tanks ruthlessly put down a revolt in East Germany six years ago.

"I pointed out that Poland, one of the most Catholic countries in the world, had been deprived of freedom of religion," Williams said.

"I told him that in Hungary the Soviets agreed to withdraw and did, but came back with Soviet tanks and troops and imposed their will on the people. I told him the Romanian people certainly did not feel the regime represented them."

"He told me that all I heard was a lot of propaganda. I told him the American people would not believe a single word he said."

The governor said that on the matter of the East German uprising Ambassador Menshikov put in that he, Williams, was "all wrong."

Williams said he raised a question whether failure to agree on disarmament was due not so much to the unreadiness of the Soviet Union to disarm but because Moscow feared effective systems of inspection could be used for subversive or espionage purposes.

"Instead of answering," Williams said, "he replied that the two countries are now fairly close to working out an agreement, but the Soviet Union was waiting for a reply from the United States on certain proposals."

"He certainly discovered that the Soviet Union had a few questions to answer if we are able to deal with them in mutual confidence."

Describing Kozlov, the governor said: "He is very urbane, gracious person that I am sure you could have a pleasant and happy time with. But he is shrewd, he is tough, in full control of himself at all times and I think it will take a Yankee trader to beat him."

At a civic dinner in his honor

Williams said agreement between the U.S. and the Soviet Union is the most important requisite for peace.

He made no mention of the earlier exchange with the governor.

Following the dinner, aides said Kozlov didn't realize the interview with Williams was to be made public.

For the most part, Kozlov was greeted warmly on his tour of Detroit industrial plants. Only a few scattered boos were heard on the streets as a 20-car caravan sped through the city.

Peaceful pickets appeared outside the Hotel Fort Shelby during the civic dinner.

Steelworkers Appeal To Nixon For Help In Contract Talks

NEW YORK (AP)—The Steelworkers Union has appealed to Vice President Richard M. Nixon for help in getting a wage boost and other contract benefits from the industry.

Union President David J. McDonald presented the plea personally to Nixon, an avowed foe of inflation.

McDonald said he went to Pittsburgh and sought out Nixon to complain that the steel companies were "provoking a shutdown" by balking at offering any contract gains.

The union chief declined to tell newsmen what Nixon's reaction was. He said on that he supposed Nixon reported to President Eisenhower on the conference.

Negotiations between four-man teams representing the union and the 12 biggest steel companies continues here today.

McDonald's announcement Tues-

day that he had been in Pittsburgh conferring with Nixon dispelled a two-day mystery about his absence from the stalemated contract talks here.

The union chief said he told Nixon the steel bargaining has gotten nowhere and that, as things stood, there was no chance of a new contract extension.

Present agreements expire at midnight July 14. That's when a two-week extension inspired by Eisenhower runs out.

McDonald said that unless contract talks develop considerably he will recommend a strike to the union's wage-policy committee.

R. Conrad Cooper, chief industry negotiator, was obviously piqued at McDonald's journey to see Nixon, who was in Pittsburgh to attend the All-Star baseball game.

"With respect to Mr. McDonald's wanderlust," Cooper told newsmen here, "I have only to say that we think this is the place to do our collective bargaining and settle our differences. He has wasted precious time."

"None of these tactics can ob-

Unkissed Beauty Here For Contest

LOS ANGELES (AP) — Hyun Choo Oh, a hazel-eyed beauty from Korea, is in town for the Miss Universe contest in nearby Long Beach. She had these bright words for interviewers:

On romance: "No, I've never been kissed. Well, just once, a few days ago in Honolulu, by an American general. I gave him some flowers. He kissed me on the cheek—but I didn't feel anything."

On boys: "I've never had a date with a boy. They just don't do things like that in Korea."

Miss Oh is 19 and a student at Ewha University in Seoul. After the contest she plans to go London to study ballet. She is here for the July 19-24 contest with her mother, Chum Chul Park, and a chaperone, Nora Noh.

"My job," said Miss Noh, "is to say no to the boys."

Normal Increases, Texas Allowables Cut Oil Average

TULSA (AP) — Normal end of the month decreases in Oklahoma and Kansas and lower Texas allowable dropped U.S. production of crude oil and condensate last week, the Oil and Gas Journal reported Monday.

Daily average output for the week ended July 4 was 6,907,335 barrels, 107,820 per day below the previous week.

Texas allowables were reduced because of high product inventories. The Lone Star State's daily average output was 2,579,675 barrels, off 66,950 barrels per day from the preceding seven days.

Oklahoma was down 21,600 barrels daily to an average of 519,700 barrels and Kansas was off 20,370 barrels to an average of 306,175.

Total U.S. daily production for the week was 6,907,335 barrels compared with 7,015,155 for the same week in 1958.

Arkansas was up 50 to 81,300; Louisiana up 600 to 972,825; Mississippi up 225 to 131,050.

States reporting decreases: Colorado down 2,400 daily to 124,000; New Mexico down 1,075 to 282,225.

Pug Nose For X15

EDWARDS AIR FORCE BASE, Calif. (AP)—When the X15 rocket plane blasts off toward the fringes of space it will have a pug, not a needle nose.

A round ball that replaces the lance-like nose of the swept-wing experimental ship was turned over to this test facility Tuesday.

The new nose is instrumented so the pilot can determine immediately any pitching or side-slipping that could create intense

friction and burn up the ship as it tries to enter the earth's atmosphere.

The X15 will retain its needle nose throughout the lower atmosphere tests. The ball nose will be installed when the plane is turned over to the National Aeronautics and Space Administration for high altitude flights later this year.

Put Nerves To Sleep—Stop Pain Of Swollen Piles In Minutes!

DOES MORE THAN JUST "SHRINK" PILE TISSUES! NO SURGERY NEEDED! **Stainless Pazo** combines the most effective ingredients known for piles. Thus works 3 ways at once: (1) stops pain, itching in minutes; (2) shrinks tissue swelling, constricts inflamed tissues, constricts inflamed tissues too—all without surgery! Preparations that just act to "shrink" piles can't offer complete symptomatic relief. For real comfort, fast, you need this more complete medication. In doctors' tests, patients had immediate relief. That's because **Stainless Pazo** Suppositories or Ointment at drugists. Get relief without surgery or money back!

Please Look At Some FACTS On Public Housing

Here Is The True Nature Of Public Housing:

1. Government apartments would be rented at a loss.
2. The losses would be made up by the taxpayers through subsidies of three types: (a) money from the federal treasury; (b) exemption of the project from all local taxes though the City must supply full services such as schooling, fire and police protection, and garbage collections; (c) federal tax losses on bonds issued to build public housing. Income from these bonds would be exempt from federal income tax.
3. The local Housing Authority set up for these projects in most cases is a separate corporation armed with eminent domain and other special powers. Power to pick sites usually is held by the Authority subject only to Washington. Members usually are about five in number appointed by the City Commission, and they choose a paid executive director. The acts of the Housing Authority, except to contract for money with the Federal sources, are not generally subject to approval by the city government.
4. Preliminary loans and frequently construction capital are supplied by the federal government, although the Authority is allowed to issue tax exempt bonds guaranteed by federal money from investment channels.
5. FINAL CONTROL OF THE PROJECT TO ALL INTENTS AND PURPOSES RESTS IN WASHINGTON. For example, Section 301 on Page 11 of the 1949 Act (Public Law 171—81st Congress) states that the "local" housing authority is to fix minimum income limits for admission and continued occupancy in public housing. But the law goes on to say that "such maximum income limits and all revisions thereof SHALL be subject to PRIOR approval of the authority (PHA)", and these limits must be changed if the Washington authority so requires.
6. No dollar income limits for tenants are set in federal law. The law states that "net family" income for admission may be five times the rent, including utilities, with an exemption of \$100 for each minor member of the family. For remaining in the project all earnings of minor members could be exempt from "net" income. No rents are set in the law.
7. The housing authorities are not required by law to clear any slums.
8. No dollar limits on total construction costs are set in the law. Room cost can go as high as \$2500 per room, PLUS land and other outlays. This makes costs of these units come very dear—dearer than many a local taxpayer can afford in his own living accommodations.

Be SURE That Public Housing Helps Those Who Need Help! Be SURE such a project will be built at fair costs! Be SURE you're not burdening yourself with a program that might be a failure in a few years! If you're not SURE,

Vote **AGAINST** Public Housing Next Saturday!

36th Inspection Scheduled Today

NORTH FT. HOOD (AP)—The 36th Infantry Division's field training was to be inspected today by high ranking Army officials.

Inspectors include Gen. Bruce Clarke, commander of the Continental Army Command; Brig. Gen. S. L. A. Marshall, author of "Pork Chop Hill" and "Men Under Fire"; and Maj. Gen. D. W. McGowan, chief of the National Guard Bureau.

With machinegun bullets whizzing a few inches over their heads, National Guardsmen yesterday sweated and crawled through the infiltration course. The exercise is part of the battle indoctrination training guardsmen must undergo during their annual 2-weeks summer camp here.

Check Scheduled
CAPE CANAVERAL, Fla. (AP)—The nuclear powered submarine Swordfish arrives today to check facilities for undersea firing of the Navy's Polaris missile.

A Few Of 200 Carpet Samples

The Carpet Store, 811 E. 3rd, specializes in wall-to-wall carpet and guarantees to save the customer money. Bill Jay, owner of the Carpet Store, shown above with some of the more than 200 patterns the store offers, says he guarantees complete satisfaction to the buyer. "Carpeting," he says, "is our exclusive business and we are experts." The store also handles all size rugs including the braided varieties. A new feature is wall-to-wall bathroom carpeting which comes in a "do-it-yourself" package. It bears the guarantee of Good Housekeeping. Fine carpeting, — always first quality — fair prices and good service, Jay says, is the theme of the Carpet Store.

Adair's Has Famous Line Of Baldwins

Nothing equals the piano as a contributor to gracious living in a home.

Somehow the very sight of a piano in a living room creates a sense of permanence and culture. The role that music plays in the home cannot be over-emphasized. More and more families recognize this fact and provide pianos as a part of their home furnishings.

Adair Music Co., 1708 Gregg, is the place most Big Springers turn when they want the best in pianos. Long experience has shown them that it is a fine instrument at a proper price needed, Adair's is the place to look. A wide selection of fine instruments — new or used — is available at Adair's. If a new piano is wanted, the firm is representative for the famous Baldwin. Baldwin is unquestionably the greatest name in the world of pianos. It is the choice of the masters of the instrument and is equally proper for the home.

For beauty of appearance and excellence of tone there is no piano equal to the Baldwin. If you are in the market for a piano you can't do better than select a Baldwin. And you can't do better than to go to Adair's in your quest. Adair's will be happy to show you its wide selection of Baldwins.

Properly Mixed Concrete Prime Need In Building

Do-it-yourself concrete mixing in a wooden trough with a hoe may sound like an inexpensive way to build a walk, driveway, or even the bigger project of a house foundation. But it requires a lot of time, money and plain hard work.

Big Springers have a much easier way to get their cement needs. A call to Clyde McMahon Concrete Co., 605 N. Benton, and a modern mixing truck will bring the required amount to the spot, ready to pour into your forms. There's more to good concrete than a dash of water, gravel and cement. Proportions should be exact and the mixing should be thorough. McMahon's concrete never has those "rotten" pockets or accumulations of heavy aggregate. Every batch is just right.

McMahon is equipped to follow the builder's specifications or deliver the standard formula. The staff of experts can deliver any quantity of any formula and it is concrete that you can depend on. Any building site in the area is within reach of McMahon's fleet of huge mixing trucks, all equipped with two-way radio. This enables your order to be delivered

with all possible haste and no aggravating delays. For that next building job, no matter what size, call Clyde McMahon Concrete Co. for quality material and speedy delivery. The phone number is AM 3-2132.

Expert Moving Is Boast Of Byron's

"Moving with care everywhere," with Byron's for a time, its motto is a motto Byron's Storage and Transfer tries to live up to.

The concern, a long time Big Spring business concern, maintains five vans for local and long distance moving and thus is prepared to move you across town or across the country.

Byron's is affiliated with United Van Lines, which means it can accept orders for vaning anywhere in this country.

For short or long distant hauling, the first place to call is Byron's Storage and Transfer, telephone number AM 4-4351.

Is this just another sale? Before you make up your mind please consider:

1. We have only two sales a year.
2. The purpose of our sale is to clean up our stock (and by having two sales a year you never get old merchandise).
3. All regular tags are left on all items.
4. Our integrity is involved in every transaction we make. Sale or otherwise.

For well over twenty years we have been in Big Spring serving your furniture needs to the best of our ability. We have grown with the town thanks to you. We would appreciate your coming in and shopping for any home furnishing item you may need or want.

Sincerely,
DAVID ELROD

MEET ON SATURDAY

Old Settlers To Stage Big Picnic

Plans for the annual Old Settlers Reunion and Picnic will be formulated at a meeting of sponsors in the Howard County Court room on Saturday at 2 p.m.

J. H. Choate, president of the Old Settlers Assn., has asked all interested persons to join him and other officers of the organization at that hour.

The picnic, in accordance with time-honored custom, will be on the last Friday in July—July 31. The place, as has been the practice for a large number of years, will be at the City Park.

A barbecue dinner will be served. The entire day will be devoted to the celebration.

Pioneers from all parts of the county and adjacent counties will gather at the park for a day of "visiting" and eating. A program will be presented during the afternoon.

The events draw capacity throngs each year. The scene will be the pavilions on the park site.

Officers of the association who will be in charge of the arrangements are Choate, as president; B. J. Petty, vice president; and Mrs. Morgan Martin, secretary-treasurer.

Record Sales And Earnings Shown By Zale Jewelry

DALLAS —Record sales and earnings were reported by Zale Jewelry Company for the fiscal year ended March 31, according to the annual report released by Ben A. Lipsky, president.

Total sales for March 31 fiscal year were \$41,644,677, highest in the company's 35-year history, and an increase of 12.46 per cent or \$4,614,751 over the \$37,029,926 reported for the year ended March 31, 1958.

Net income after taxes also the highest in the company's history amounted to \$2,597,440, equal to \$1.69 a share on the 1,535,507 combined outstanding common and Class B Shares. This compared with net income after taxes of \$2,233,832, equal to \$1.52 a share on the 1,473,908 combined common and Class B shares outstanding on March 31, 1958.

Lipsky in his statement to stockholders disclosed that between April 1, 1958, and March 31, 1959, 33 new stores were added bringing the total to 119 and making the year one of unprecedented growth. He added that since the close of the fiscal year, 11 additional stores have been opened increasing the total to 130, representing a gain of 54 per cent in the past 15 months.

Deadline Set On Land Needs

County Judge Ed Carpenter said Tuesday that the commissioners court has authorized him to begin condemnation proceedings on all aviation easements not obtained by July 15.

Carpenter said there were five tracts where owners have not settled for the easements. The commission felt that it is time to dispose of the matter, and for this reason, the condemnation order was made, Carpenter said.

Six Pleas Of Guilty In Court Tuesday

Six persons paraded before Judge Charlie Sullivan in 118th District Court Tuesday and pleaded guilty to charges against them. All received sentences of five years or under.

Raymond Chavez was charged with possession of narcotics (marijuana) on May 28, and the judge sentenced him to five years in prison. Tom Traylor Jr., who was charged with possession of marijuana in the same incident which involved Chavez pleaded guilty and received a three-year probation sentence.

Johnny White received three-year sentences for burglary and forgery with the terms to run concurrently after he entered his guilty plea.

William Billie Belton and Jessie Young were charged with burglary of Ray's Grocery in May and they drew sentences of two years each. They were charged with the burglary that involved Leroy Heard and brought his life imprisonment as a habitual criminal Tuesday morning.

Alexander Couette, 19, was indicted in January for burglary and the judge Tuesday gave him a two-year sentence.

Brother Of City Woman Succumbs

C. T. Oliver, a brother of Mrs. D. P. Pyle, 601 Bell, died in a Lubbock hospital Tuesday night, but funeral arrangements have not been announced. Mr. Oliver was a resident of Tahoka. Mrs. Pyle, along with Mrs. Rona Cravens, has gone to Tahoka.

Therapy Sessions Offer Free Rides To Enrollees

Sponsors were disappointed in the small number of crippled children who showed up at the Westward Ho Motel swimming pool on Tuesday for the initial session of this annual summer event.

Only three youngsters were present. Eight swimmers were on hand to help handicapped boys and girls benefit from the facilities of the swimming pool. The pool is made available to the sponsors of the water therapy program by the owners and operators of the Westward Ho Motel.

Sessions are to be held each Tuesday and Friday morning. The hours are from 9 to 11 a.m.

It was felt that confusion over transportation may have contributed to the small turnout on the opening day. The committee has announced that transportation is to be provided for all boys and girls who wish to participate in the therapy program.

The Howard County Society for Crippled Children is providing transportation facilities.

Crippled children and adults

who need ways to get to the pool for these sessions need only to call Mrs. W. C. Teague, AM 3-3573. A car will come for the applicant and he will be returned at the end of the session to his home.

In the past an average of 15 have been on hand for the therapy sessions.

Cooperation Of Motorists Is Requested

Ben R. Wilkerson, supervising resident engineer of the Texas Highway Department, Big Spring Area, emphasized again today the importance of extreme caution in the area of FM 700 while that road is closed for surfacing.

Announcement was made Tuesday the entire segment of highway from U. S. 80 east to U. S. 87 south of Big Spring, will be barred to through traffic while Cage Bros. contractors are paving it. Wilkerson said that traffic will be routed around the road but that designated crossings will be kept open.

He emphasized that special care should be exercised at the junction of FM 700 and U. S. 87 during the construction time. Heavy road building machinery will be using the road extensively.

The shut down will probably go into effect on July 20. The road will remain closed to through traffic until Oct. 15. Barricades and warning signals are to be erected to mark the closed route.

Cooperation of the motoring public is urged by Wilkerson in connection with the project.

Heads Shriners

Shorn Hermit In Hospital

LOS ANGELES (AP)—The Hermit of Griffith Park, shorn of his six-year-growth of hair and beard, was in a Veterans Administration hospital today undergoing psychiatric treatment.

Dennis Farrell, 33, was taken kicking and screaming to the hospital Tuesday after doctors testified that the Purple Heart combat veteran is a schizophrenic and needs hospitalization.

Farrell roamed the 4,200-acre park for six years, living on berries and picnic scraps. Tattered and bearded, he came out of hiding last week.

He was calm during the brief Superior Court hearing. But when attendants tried to lead him to an ambulance he became violent.

It's Dry Again

OKLAHOMA CITY (AP)—Members of the Oklahoma Alcoholic Beverage Control Board couldn't find a drink anywhere when they moved into their new offices Tuesday.

The water fountains had not been turned on.

Up a steep mud-choked wash—Positraction pays off!

Through a mountain stream—deep in Avintaquin Canyon.

NO MOUNTAIN CAT, MISTER...

That's a Chevy with Positraction!

That 3134 Fleetside has the sure-footed ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where piñon won't even grow. But that's all routine for this Chevy, equipped with Positraction* rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the

district officer who drives it would bet his badge the tie rods won't even need replacing!

Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off—in spades—when the going gets especially mean and dirty.

Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped 1/2-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of.

*Optional at extra cost

No job's too tough for a Chevrolet truck!

See your local authorized Chevrolet dealer!

John A. Kee Rebekah Officers Are Installed At Formal Ritual

Taking as her motto "Love balances the scales of justice," Mrs. Grace Grandstaff was installed as noble grand of John A. Kee Rebekah Lodge, Tuesday evening at the new hall on West Hwy. 80.

MRS. GRACE GRANDSTAFF

Her official colors of red, white and gold were carried out in decor for the candlelight ceremony, which also saw the installation of Mrs. Letha Massie as vice grand. Taking office, too, were Mrs. H. F. Jarrett and Mrs. Alma George, right and left supports to NG; Mrs. Grace Martin and Mrs. Irene Dempsey, supports to the VG; Mrs. W. O. Wason, warden; Mrs. C. L. Lumpkins, conductor; Mrs. Charlie Boland, chaplain, with her supports, Mrs. Joe Hull and Mrs. Charles Lee; Mrs. Morgan Martin, musician.

California Guests Reported In Ackerly

ACKERLY —Guests of the Curtis Whites have been her brother, Mr. and Mrs. Ronald Bowling and daughter of El Cajon, Calif.; Mr. and Mrs. Willie Carroll and Jerry and Barbara Suman, all of San Diego, Calif.

Miss Brewer Is Honoree

COAHOMA — Letha Brewer, whose marriage to Grady Brewer will take place Saturday in Houston, was honored at a bridal coffee Tuesday morning in the home of Mrs. Edd Carpenter.

Swim, Picnic Are Enjoyed By Group Of Coahoma FHA

COAHOMA —The Future Homemakers Club of Coahoma High School spent Monday afternoon swimming and picnicking at Moss Creek Lake. The 16 girls were accompanied by their sponsor, Mrs. Paul Allen, with Mrs. E. Echols and Mrs. R. E. Haney.

Fairview HD Hears About Accessories

"The happiest person is the person who thinks the most interesting thoughts." With this thought for the day, Fairview HD Club members opened their meeting Tuesday afternoon at the home of Mrs. J. F. Sellers.

The devotion from 2 Peter was given by the hostess, Mrs. O. D. Engle brought the program on Accessories Around the Clock. In her remarks, she stressed that the sparkling jewelry be worn after 5 p.m., with more tailored styles suitable for daytime wear. Handbags can be large and commodious except at night, when clutches are more appropriate. Perfumes of heavier fragrance are best used in the evening, while colognes are delightful during the day.

Mrs. Frank Wilson, Mrs. H. S. Hanson and Mrs. Jim Smith were appointed as the nominating committee for 1960 officers.

Guests Gather At Williams Home For Weekend Visiting

ACKERLY —Several guests were entertained by the Covie Williams during the weekend. They included their daughter, Mr. and Mrs. Neil Buckalew and daughter of Lamesa; the hostess's sisters, Mr. and Mrs. Jack Harold and family of Hamlin; Mr. and Mrs. Hubert Jones of Odessa, and their mother, Mrs. E. M. Cave of Flower Grove. Also joining the group were the Arlen Simpsons and the E. G. Hales, all of Lamesa.

Swim, Picnic Are Enjoyed By Group Of Coahoma FHA

COAHOMA —The Future Homemakers Club of Coahoma High School spent Monday afternoon swimming and picnicking at Moss Creek Lake. The 16 girls were accompanied by their sponsor, Mrs. Paul Allen, with Mrs. E. Echols and Mrs. R. E. Haney.

Mr. and Mrs. Bill Tinner and Mr. and Mrs. Jim Shelburne and children Joe Dell and Dan spent Sunday attending a reunion of the Stewart family held at the City Park in Sweetwater. Seventy-four people were present for the occasion.

Coahomans Have Guests From Uvalde

COAHOMA—Mr. and Mrs. Harvey Echols of Uvalde are visiting here this week with his brothers and their families, the Leroy Echols and the Elbert Echols. They all visited with an aunt in Miles on Sunday.

Reunion Is Held By Long Family

Included in a family reunion at the home of Mr. and Mrs. Eugene Long were all their children, who gathered for the weekend.

Altrusa Dinner Set

Mrs. A. C. Bass, 106 Washington, will be hostess for a salad supper at 7 p.m. Thursday at her home, when members of the Altrusa Club will be guests.

Ex-Residents Visit

Crutches Are Help For Weeds Winning Battle

By ANNE LEFEVER
Well, the weeds in my yard will have themselves a ball for a short time, I suppose!

Due to a bad ankle, I am inching around on crutches—the same not being conducive to weed-pulling or any other kind of gardening activities. I might add—not much activity of any kind!

Just as I thought I had the annual battle of the weeds going my way, too, here comes this setback for me and a boon for my enemy.

Not only is it a bother to see the joyousness with which they are growing, the tedium of having to remember to grab those crutches each time I want to cross the room is an added irksome detail.

And getting dressed! First, there is the scramble to get my clothing into the bathroom, trying

to hold it and the crutches. Then gingerly stepping into the tub and balancing on one foot. (My right foot will be a size larger by the time this is over!)

In order not to soak the taping on my ankle, I wrap it in a plastic sack—those things are slippery when wet, so probably the next

thing I'll have is a broken back—then the left foot perches on the side of the tub while I shower.

It's quite a feat of acrobatics (no pun intended), but it certainly will break one from singing in the shower if that has been a habit. About the only compensation I have found for my dilemma is that I will probably get in some of the reading which I have longed to do—but never seem to find the time for.

Another thing, and one which will make my creditors happy, is that I have had time to write the checks for this month's bills—which I probably wouldn't have done, if I could have pulled weeds!

Jr. Garden Club Ends Project

The Litterbug project of the Junior Garden Club has been completed, it was announced at a meeting of the group Tuesday morning in the home of Mrs. Obie Bristow, sponsor of the club.

The work consisted of selling 2500 litterbug bags for distribution to motorists; proceeds have been added to the club treasury.

Continuing the study of flower arranging, the 11 members present heard a discussion of a crescent arrangement given by Janet Jones. Miss Jones gave directions for making such a grouping of flowers and showed an example which she had made.

Scheduled for the next meeting is a description and directions for making a fan arrangement; this is to be given by Pam Lutting. Following the program and business meeting, the members had a swim in the Bristow pool.

Surprise Party Is Given In Coahoma

COAHOMA — Mrs. W. O. Barton was surprised Tuesday morning when 25 women of the Church of Christ called at her home, loaded with love gifts and refreshments for a party. Hostesses for the affair were Mrs. C. E. Kiser and Mrs. Nelson Branchmiller.

Mr. and Mrs. Ed Carpenter had as company in their home this week their children, and their families from Pecos, the Eddie Carpenters, the Alfred Cates and the Willis Winters, also Mr. and Mrs. Tommy Passmore of Pecos, and their nephew, James Carpenter from Abilene. Elaine Carpenter has returned from a two week vacation spent in the state of Washington. She accompanied the Willis Winters.

Mrs. Layton Walker and children of Fort Worth have been visiting here in the home of her sister and family, Mr. and Mrs. Ruben Baker.

Mr. and Mrs. J. R. Bales and family, accompanied by Joan Davis, are at home following a week's vacation spent camping and fishing near Gunnison, Colo.

Mr. and Mrs. Travis Greenfield and family have been visiting this week with relatives in Dallas. Billy Gunn of Dallas is visiting his grandfather, Noble Read, and his uncles, Charles and Hezzie Read.

December Program Is Planned By WMS Circles

An invitation to Mrs. Evan Holmes of Brownwood was planned by the WMS of the Baptist Temple at the general meeting held Tuesday morning at the church.

Mrs. Holmes is the wife of a missionary to Chile, for whom one of the WMS circles is named, and the two are on leave from their duties.

The circles will invite Mrs. Holmes to speak to the group during the Lottie Moon Week of Prayer in December, and a love offering for the couple is planned.

Mrs. D. C. Boren opened the session with a prayer, and Mrs. A. R. Posey read the missionary calendar, offering a prayer for those listed.

Tear-Gassed Guard

Weeping from tear gas, guard Hugh DeWalt is helped by two other officers as he leaves a hostage room at Washington State Reformatory after rebel convicts were subdued. DeWalt was among those held prisoner for more than 13 hours.

Astronauts Watch Glowing Capsule

LANGLEY RESEARCH CENTER, Va. (AP) — The nation's seven Mercury astronauts, sampling what lies ahead for them, watched a miniature space capsule glow white hot in thousands of degrees of roaring heat today.

It was part of a demonstration for visiting newsmen of the man-in-space program which the National Aeronautics and Space Administration is pressing "with utmost urgency" at its laboratories here.

The capsule was a model of those in which the astronauts are to ride into space orbit in 1961. The heating effect of air friction is only one of the problems being studied here in an effort to assure their safe return. That problem apparently has been solved.

The astronauts have watched this and similar space flight experiments for weeks as they prepare themselves for their first space excursions. They now know intimately all the problems — the 11,000 degrees of heat on the outside skin of their vehicles as they come flashing back into the earth's atmosphere, the devices intended to save them if something goes wrong, the mighty compressive "G" force of gravity from acceleration and deceleration.

OTHER DISCLOSURES During this first full-scale demonstration and briefing for newsmen, officials also disclosed that: 1. Troubles encountered in recent tests of the final combat version of the Air Force's Atlas intercontinental ballistic missile may delay NASA's Mercury manned-satellite program. The Defense Department disclosed last week that its Atlas ICBM testing has been suspended while trouble is being corrected. Re-entry heat tests, using the Atlas booster had been scheduled for this summer, but now will be slowed. However, NASA officials still claim that the 1961 goal of putting man up in a satellite will be met.

2. NASA apparently is getting ready to drop the Army's Jupiter intermediate range ballistic missile from its present list of four launchers to be used in connection with testing. Robert Gilruth, director of the Mercury project, said elimination of the Jupiter booster "is under consideration," and that plans for further use had been ordered "stopped pending decision." The Army's smaller Redstone rocket still will be used in the Mercury project, for preliminary testing of capsules and other equipment.

3. Under a change of plans, the first attempt to send a man aloft in a capsule will be intended to put him into orbit, using the Atlas booster. Until now, the plan was to send man first in a comparatively short trip of 1,500 miles down the missile range from Cape Canaveral, Fla., recovering the nose cone capsule in the ocean. As the test program now stands, NASA scientists will begin experimenting late this summer with the "Little Joe" rocket launcher

— a squat cluster of solid fuel rockets designed for measuring the reliability of equipment, with test firings from Wallops Island, Va. Following this will come capsule re-entry experiments using the Army Redstone rocket, then moving into tests in which chimpanzees ride in the capsules. When the chimpanzees have "test flown" the capsule, the astronauts will be ready for manned flight—some time in 1961.

Gilruth told reporters that in Project Mercury "We do not need any new scientific breakthrough" to accomplish the objective of sending man into orbital flight. But NASA does have ahead of it "formidable engineering problems" to perfect the equipment needed, he said.

ALIVE, UNHURT The aim of NASA is to bring its astronauts back from space alive and unhurt.

What are the chances? Some NASA scientists figure it this way: The astronaut has a better survival chance in his excursion into space than Charles Lindbergh had when he flew the Atlantic solo in a small, single-engine plane.

Into the already intricate machine for getting man up into space and back is being designed an equally elaborate safety system. The space engineers apparently have the problem of heat licked. They displayed several different methods for insulating or draining away the enormous heat generated by air friction as the capsule plunges back into the thick atmosphere of earth. One of the tricks is to use the heat itself. They call it "ablation"—the process in which an outer layer of metal or ceramic is converted by heat into gas, which siphons the heat away from the inner surface of the capsule.

Scientists showed samples of materials which they said would keep the interior of a full-scale capsule at livable temperature during the time when reverse rockets are slowing the falling capsule to a mere hundred or so miles per hour. A parachute then takes over, lowers the capsule into the water, where ships and planes locate and recover it.

What if something goes wrong after the man is in the rocket and it explodes or burns on the launching pad, or if it fails to attain an orbit after launching, or has trouble after attaining orbit? NASA technicians have come up with these ideas, some of them already translated into actual equipment:

1. A sensing device which will warn of trouble in the launcher before the final button is pushed. 2. An escape rocket, mounted on a tower-like structure above the nose of the missile and capsule. If fire or explosion occurs on the ground, the escape rocket is fired, snatches the capsule away from the booster, carries it up 2,000 feet in the air. At that point, the astronaut is ejected automatically from the capsule, and a parachute lowers him to the surface. 3. If trouble develops after the capsule is aloft, the pilot can fire reverse rockets to slow his speed for return. If possible, he would aim for designated impact and recovery points at which ships were waiting.

Magic Number

ANGOLA, N.Y. (AP) — Lola Susan Sutterby, the 7th child of Mr. and Mrs. Francis W. Sutterby, was 7 years old Tuesday, the 7th day of the 7th month and the anniversary of her birth in a Seventh Day Adventist Hospital where she was born at 7 p.m. and weighed in a 7 pounds.

C. Of C. Sends Delegates To Midland Meet

Clyde McMahon and Coy Nalley will represent the Big Spring membership in the West Texas Chamber of Commerce at a meeting Thursday morning in Midland. Object of the meeting is to nominate directors for the WTCC for the ensuing year. The meeting is at 9:30 a.m. in the Scarbauer Hotel. The Big Spring delegates are specifically instructed to nominate the two directors on the WTCC board to represent Big Spring. The present directors are Champ Rainwater and G. H. Hayward.

Boosters To Be Here From Martin County

Sixty residents of Stanton and Martin County will be in Big Spring at 4 p.m. Thursday on a visit to publicize their forthcoming county celebration.

The Martin County boosters were here last week but their visit was handicapped by a deluge of rain. They are making a second round in behalf of their big show which opens on next Monday.

Heading the delegation this time will be H. M. McReynolds, Stanton Chamber of Commerce manager. The 12 to 15 carloads of Stanton visitors will halt their caravan on the east side of the Howard County Court House.

Fight Against Boredom

POINT PLEASANT, N. J. (AP)—Air forces of the New Jersey coast and New York harbor are among the activities of the Old Guard Chapter here, one of 14 in the state.

The 430-member club also holds beach hikes, horseshoe tournaments, bowling parties and theater trips. The men have plenty of time on their hands and they joined together to fight boredom. The chapter is for retired men, the youngest 53 and the oldest 88.

LEGAL NOTICE

The Commissioners' Court of Howard County will receive bids at 10:00 A.M. on July 20, 1959, in the Commissioners' Courtroom of Howard County Courthouse, Big Spring, Texas, for supplying of Gasoline, Diesel Fuel and Oil for the Road Department of Howard County for the next year starting August 1, 1959. Specifications are available in the office of the County Engineer in Courthouse. The Court reserves the right to reject any or all bids.

Ex-Policy Maker In Far East Dies

NEWPORT, R.I. (AP)—Adm. Harry E. Yarnell, U.S.N. (ret.), 83, who helped form the United States' firm policy in the Far East immediately before World War II, died Tuesday at the Newport Naval Hospital.

He had been hospitalized for two weeks. The cause of death was not announced.

Adm. Yarnell was commander of the Asiatic fleet when the Japanese sank the U.S. gunboat Panay on the Yangtze River in China in 1937. He was instrumental in bringing about the Japanese payment of \$2,000,000 indemnity for the incident.

He served for many years in the Far East and was given a free hand in meeting diplomatic problems on the spot. He said "no" to the Japanese for three years prior to Pearl Harbor and the United States' stand during the turbulent years of the undeclared Sino-Japanese war came to be known as the "Yarnell policy."

Yarnell served in every shooting war involving the United States from the time of his graduation from the U.S. Naval Academy in 1897 until his retirement in 1937. Those four decades included service in the Spanish-American

War, the Philippine insurrection, the China relief expedition during the 1900 Boxer rebellion, the occupation of Vera Cruz in 1914 and World War I.

He adhered rigidly to the policy he stated in his rejection of a Japanese warning that American nationals and warships be evacuated from the harbor at Swatow, South China, in 1939.

"The paramount duty of United States naval vessels is the protection of American citizens and they will go wherever it is necessary at any time to carry out that mission."

It was for this and other actions that he was awarded the Distinguished Service Medal by President Franklin D. Roosevelt. He also held the Navy Cross.

He was recalled from retirement during World War II to serve in a special capacity for the Navy in Washington. He retired as a rear admiral, but was elevated to a full admiral in 1942.

He was head of the Navy summer school at Culver Military Academy from 1944 until 1949. Since then he had lived quietly in retirement at Newport.

The widow, a son, and four grandsons survive.

Shirley's Wed, But Must Wait A Bit For Home Life

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—I know people don't understand it. I don't understand it myself. But we're making it work, and I know we'll get what we want."

This was Shirley Maclaine explaining about her strange marriage to Steve Parker. She has seen him only a few weeks a year since 1956—she won't say how few for fear people will be shocked.

Their careers keep them apart. Shirley is the hottest female star in movies today. Steve has discovered a rich field as producer for films and shows in Japan.

Last year, he brought over the Japanese troupe that made a hit on Dinah Shore's TV show. Now he is importing an extravaganza to play the New Frontier in Las Vegas, and he and Shirley are together for one of their infrequent reunions.

How did they get into such a situation?

"It just happened," she said. "Steve had lived in Japan when he was a boy—he went to all parts

of the world with his father. But he liked Japan best. He went back there after the war and found a terrific field. Now he's branching out."

Contractual matters keep her here. She was plucked out of "Pajama Game" for a movie deal with Hal Wallis. All of the films she has made between "Around the World in 80 Days" and the upcoming "Can Can" were under salary. So she hasn't been able to cash in on her current popularity.

"I've got pictures lined up steadily into the spring of 1961," she said. "Then we'll be able to resume our marriage. I'll be independent and able to make my own deals, and Steve will have his situation consolidated. I don't think it's too much for us to be apart for another two years—as long as we can achieve everything we both want by that time."

But she admitted that her friends can't understand how she and Steve live.

"Sure, I'm lonely," she said. "But work helps me to forget about it. The way I've been working, I wouldn't be able to have much of a marriage, anyway."

Most Of State May Get Rain

By The Associated Press

Clouds along the Gulf Coast and over South Central Texas promised scattered showers Wednesday, and the Weather Bureau said most of Texas ran look for rain before the week is up.

Wednesday's forecasts called for generally milder weather, however, than the state had Tuesday, when a tornado was reported over the Gulf Coast and thundershowers soaked much of South and East Texas.

The funnel cloud was spotted over Bay City, southwest of Houston, but the cloud disappeared and Bay City reported nothing more serious than a half inch of rain. College Station's one-inch rainfall was the largest moisture total for the 24 hours ending at 6 p.m. Tuesday.

Galveston had 47 inch. Houston 35 and Beaumont .05 inch.

The 5-day forecast for the period through July 12 warns of moderate to heavy rain, most of it from scattered thundershowers, for East and Central Texas.

Locally heavy rain in scattered thundershowers is forecast for West Texas.

Tuesday's high temperatures ranged from 88 at Galveston to 103 at Presidio. Cotulla's 102, Laredo's 101 and El Paso's 100 degrees were among the highest on the list.

Chessman Due New Death Date

SAN FRANCISCO (AP)—Caryl Chessman returns soon to Los Angeles to hear his new date with death.

The appointment for his seventh execution date was set up Tuesday when the California Supreme Court upheld two death sentences imposed on the convict-author 11 years ago.

The court unanimously rejected the 32-year-old San Quentin prisoner's contention the transcript of his Los Angeles trial in May 1946, was faulty.

Chessman, author of two well-publicized books while in death row, was convicted of kidnaping and assaulting two young women in Los Angeles. He has been fending off execution in legal actions, prepared for the most part by himself.

All-Girl Posse Contest Popular

WESLACO (AP)—The Valley Chamber of Commerce said yesterday it has received dozens of entries in the contest to select a name for its all-girl posse.

Members of the posse, who will greet celebrities and promote the lower Rio Grande Valley, will judge the contest.

CRITIQUE

By Bob Smith

The set for "Night of January 16th" is up and working.

But it wasn't always so. The cast until the last few days had to improvise.

The courtroom drama will be staged by the Civic Theatre Thursday at 8:29 p.m. in HJCC Auditorium.

Here are some odd notes taken during rehearsals, and uncovered in the bottom drawer this morning:

Jack Boyd takes the stand, is asked to identify the revolver, ostensibly the murder weapon. The props crew hasn't yet provided a gun. So Boyd is handed a metal gizmo that not even engineer members of the theatre have been able to identify.

Mike Maney and Jim Tom Baker, as opposing attorneys, grow better in acting ability as they get the feel of the courtroom. They paint a picture of a troubled defense counsel and a thoughtful, shrewd prosecutor in their more subtle moments; and almost reach the slugging stage during violent disagreements before the bench.

Theatre folks are highly pleased with Shirley Bailey. The pretty redhead copped third place in the Miss Big Spring contest. Her stage compatriots are saying, wait till next year.

A big spotted dog visits the set, takes a shine to Doyle Phillips. When Phillips takes the stand, the dog does too. (oughta be a good ad lib in this one.)

Martha Conway's Swedish accent is improved, thanks to coaching by the Reserves.

Judge Dalton Conway has been using a folding chair and a speaker's podium, set atop a riser. Dewey Magee, working on props, brings in two wood panels (legal-size), puts them in front of the judge. Leaves nothing but a judicial pate showing.

The court reporter playing "Chopsticks" on the stenotype machine.

Maney and Chuck Worley struggling with the "railing" (a leaning wall-prop) in front of the witness stand, while battling around questions and answers.

"The Box," Robert Walker's brainwashed drama, will be presented to ROTC personnel at Webb, Thursday morning at 10:30. Walker and members of the cast are all members of the Civic Theatre.

The drama provides important insights into Communist brainwashing techniques, and has been adopted for use in orientation programs at several Air Force bases.

Col. Romanofsky, the chief brainwasher, is played by T-Sgt. Dewey Magee; Capt. Peter Lynch, the brainwash victim, by Lt. Jack Boyd; Dr. Lee, a medical officer taken prisoner, by Capt. Bill Sandefur; guards by Airman A.I.C. Tom Hardee and another airman not chosen at this writing. Walker narrates.

Walker has copyrighted his script, and has sold a couple hundred copies throughout the Air Force. There is no profit, however, since the scripts were sold for printing costs.

Ward Kin Dies

CHICAGO (AP)—Majorie Montgomery Ward Baker, a daughter of the late A. Montgomery Ward, company, died Monday of a heart attack. Mrs. Baker, whose husband Robert R. Baker, is a retired coal merchant, was in her 70s.

Things Looking Up For Tenant Family

SOUTHPORT, N.C. (AP)—Things are looking up for tenant

farmer Nathan Miller and his family. They'll be on the way to greener pastures next week.

Miller, 55, said recently after his 35-year-old wife gave birth to triplet girls that they might have

to offer the babies for adoption because of money problems. Miller made only \$25 a week.

Tuesday, Miller accepted a \$200-a-month job on an egg farm near Charlotte, N.C.
