

Seawall Construction

Work progresses on the steel and concrete extension of the sea wall on Galveston Island designed to protect the Gulf Coast resort city from attrition by the Gulf of Mexico. The current extension will be for a distance of 16,300 feet beyond the southwest tip of the existing wall and will cost an estimated \$11,080,000.

Galveston Sea Wall Growing Around Isle

By JAMES W. ALTGENS
GALVESTON — A mighty fortress of steel, concrete and earthen fill is gradually replacing the barren beach on the Gulf side of Galveston Island.

The U. S. Engineers are again extending the Sea Wall around Galveston Island in a project designed eventually to seal off Galveston Island from the attrition of the Gulf of Mexico and to increase island safety during storms.

The current extension of the Sea Wall will be for a distance of 16,300 feet beyond the southwest tip of the existing Sea Wall. With this addition, the Sea Wall will extend from the Houston Ship Channel, on the northeast edge of the island, to approximately a mile and a half below the old Fort Crockett area.

The cost for this addition is estimated at \$11,080,000.

Also, in October this year, the Engineers will start work on still another extension of the seawall. Long timber pilings are driven into the beach at regularly spaced intervals to form a base for the seawall. Excess water is pumped out and loose sand lifted from around the pilings by a claw lift, leaving a clean area several feet deep to be covered with concrete.

The pilings, when completely covered with concrete, provide support and prevent sinking.

Once the Sea Wall has been poured and set, the Sea Wall Boulevard is extended.

The Wall takes shape right out on the beach, leaving a narrow strip of sand in front of the Wall and a wider strip behind it.

7 Texans Given Honorary Posts With Lincoln Panel

By TEX EASLEY
WASHINGTON (AP)—Seven Texans have been made honorary members of the Lincoln Sesquicentennial Commission — a distinction accorded only some 75 individuals throughout the entire nation.

Headed by Sen. John Sherman Cooper (R-Ky), the commission elected their honorary colleagues in recognition of their standing as authors, students and collectors of items pertaining to the assassination of 16th President, Even Illinois, the Land of Lincoln, has only eight honorary members.

One of the Texans is a woman — Mrs. Fancher Archer of Austin, who is distantly related to the Great Emancipator. Dr. J. J. Crum, retired Amarillo physician and another of the seven, is a third cousin of Lincoln.

The remaining five are Buck Hood, managing editor of the Austin American Statesman; Judge E. H. Swaim, Eden, John Rosenfield, Dallas; Ralph W. Steen, Nacogdoches, and Lincoln Borglum of Beeville, whose father did the great head sculpture of Lincoln which has been in the Capitol Rotunda for 50 years.

All of the Texans were nominated by Sen. Ralph Yarborough (D-Tex) who is one of the regular members of the Commission and a long-time Lincoln scholar himself.

Two of the group attended the

dinner held at Washington's Cosmos Club — an exclusive organization of engineers and scientists, — for formal designation as honorary members of the commission. They were Editor Hood, who was reared in Fort Worth, and Judge Swaim.

The Lincoln Sesquicentennial commission, with headquarters in the National Archives Building, was created by Congress to promote and aid in the promotion of observances of the birth of Lincoln 150 years ago.

While he was in Washington, Hood also conferred with Secretary of the Treasury Robert B. Anderson and Senate Democratic Leader Lyndon Johnson, and other fellow Texans. At one time he had helped the Treasury in the sale of war bonds, handling promotion of drives.

The Austin newspaperman also discussed the exhibitions to be held in Texas later this year of the art and literary works of the famous World War I and II Marine Col. John Thomas.

The Texas Heritage Foundation is sponsoring the exhibitions of Thomas, who was born in Huntsville, Tex., in 1893. He died in 1944 at a Marine base in Coronado, Calif., after returning from active duty in the Pacific. Thomas' books on the Civil War period included "Gone to Texas" and "Lone Star Preacher."

Texas' Presidential Politics Getting Legislature Preview

AUSTIN (AP)—Texas' presidential politics in 1960 is getting a preview in the Legislature.

The liberal versus conservative fight, going on since 1942 still smolders and breaks into open flame very often. It will intensify as 1960 nears.

The House heard yesterday some of the old arguments as it voted overwhelmingly to stand by Sen. Lyndon B. Johnson (D-Tex) in his current battle with National Democratic Chairman Paul Butler.

The vote on a resolution backing Senate Majority Leader Johnson's and House Speaker Sam Rayburn's Congressional leadership was 111-15. The resolution by Rep. Bill Shaw, Forney, supported "Democrats who have requested the immediate resignation" of Butler.

Butler, lined up with the northern, western and eastern democratic liberals, has been taking pot-shots at the current Democratic leadership in Congress. That means Johnson and Rayburn.

National political observers say it is a warm-up for a showdown fight over control of the 1960 Democratic convention. Rayburn and Johnson have held top policy-making posts in recent conventions and Johnson is a contender for the presidential nomination.

The liberal branch of the national party doesn't think Johnson and Rayburn are liberal enough. The same is true of the Texas liberals. Last week in Houston one liberal group organized what they believe to be the first Adlai Stevenson for President club.

One of its leaders is Rep. Bill Kilgarrin, Houston who opposed the Shaw resolution yesterday.

"I appreciate the interest shown

here by so many who have voted against the Democratic party so long," Kilgarrin cracked. "I suggest those who haven't been voting for the Democratic candidates not vote on this."

The barb was apparently aimed at some active party people now who supported Eisenhower in 1952 and 1956.

Most of the former Democrats-for-Eisenhower, such as Gov. Price Daniel, now classify themselves as "moderate Democrats." Daniel backed Eisenhower in 1952, the national Democratic ticket in 1956.

The present Legislature has gone along with Johnson politically.

If peace were sold in stores we'd all be regular customers

No kidding — it's true, isn't it?

If peace could be bought from a store, we'd all order a lifetime supply!

But since it's not that simple, millions of us cross our fingers and hope that peace will work itself out.

But wishing won't make it so, either. Peace takes planning. Peace takes perpetual care. And peace costs money.

Money for the industrial and military strength to keep the peace. Money for science and education to make it lasting. And money saved by individuals to make themselves financially secure — and to keep our nation's economy strong and flourishing.

Peace has to have power behind it — and every U.S. Savings Bond you buy strengthens America's Peace Power. It's like money in the bank for you, too. Remember: if peace could be bought in a store, we'd all be regular customers!

HELP STRENGTHEN AMERICA'S PEACE POWER!

Big Spring Herald

What About People Who Depend Upon Rents For A Living?

Remember a short time ago, when all citizens were called upon in Big Spring to create more rental units because of big demand? There was a great response, and not a few of the property owners who developed apartments and small homes are those of modest income themselves, who must depend upon rental income to supplement their own pensions. Now, a great many of these units in Big Spring are vacant—and many of them available at low rates—probably more than there have been in many years. How practical is it to see these property owners hurt, to see their property deteriorate and decline in value because of vacancy, while we spend public money to build more rental units, for which the rent is subsidized?

WHO MOVES INTO PUBLIC HOUSING?

Remember, there are income levels to be established under the Public Housing program. There is a "floor" as well as a "ceiling." And the Public Housing program GIVES PRIORITY to veterans and elderly persons. We do not indicate that these groups should not have good housing, but we think housing is available to them; and we repeat that the real destitute families are not the ones served by Public Housing. Their problem will still be with us.

CAN YOU AFFORD TO PAY SOMEBODY ELSE'S RENT?

That's what Public Housing amounts to. A federal subsidy takes up the loss that the Housing project accumulates. It does this for years. The city and the schools get no taxes, but must depend upon certain terms of a side payment that is limited in amount. Don't be misled about costs and benefits. You'll actually help pay somebody else's rent.

Vote AGAINST Public Housing Saturday

To the Editor: During the days while socialism was in its heyday I was a strong exponent of some of its tenets. But I left the party when I came to realize that about 100 per cent of both socialists and communists had infiltrated the ranks of segregation.

WILLIAM N. BLANSITT

Hopes Dimming For Averting A Steel Strike

NEW YORK (AP)—Hopes dimmed today for averting a nationwide steel strike at midnight Tuesday.

The Steelworkers union turned down a plea by President Eisenhower for an indefinite extension of the two-week strike...

David J. McDonald, the union's president, said he could not believe Eisenhower intended that "we negotiate forever" and stressed the midnight July 14 walkout deadline will stand.

In Washington, Sen. Hubert H. Humphrey (D-Minn.) told the Senate that Eisenhower's appeal for an indefinite extension of steel negotiations without deadline or strike date is "the grossest kind of intervention in collective bargaining."

Humphrey said that although Eisenhower disclaimed taking sides in the crucial steel dispute, the President has "placed himself squarely on the side of the steel companies."

"While professing a hands-off attitude," Humphrey said, "the President told the Steelworkers union that it should capitulate completely to the steel industry."

Negotiations have picked up a bit. Technical experts have been called in for discussions on complicated problems such as incentive pay rates. But there is no word that the industry has made any money offer.

The nation's top dozen steel firms, led by U.S. Steel Corp., have taken a position that any higher wage costs would spur a new round of inflation. They have spurned union argument that industry profits can finance a new pay hike and other contract changes.

Steelworkers now average \$3.10 hourly earnings. Eisenhower renewed at his Washington news conference Wednesday a plea first made June 27 that both sides continue negotiations indefinitely without any strike until a new contract agreement is reached.

The President said he had not called for the two-week truce, in which the union and companies extended contracts from July 1

through July 14, but wanted an indefinite extension.

McDonald said all labor negotiations must have a terminal point, and the one agreed upon by the industry and union is July 14.

McDonald last Tuesday carried an appeal to Vice President Richard M. Nixon for help in obtaining some sort of industry settlement offer. The union chief said he told Nixon a strike appeared inevitable otherwise.

Van Cliburn, Sam Rayburn Are Honorary Elite Club Members

DALLAS (AP)—"All you can eat for a thousand dollars." That's the good-humored slogan at Dallas' Cipango Club, an institution dedicated to the care and feeding of millionaires.

Owner-Manager E. E. Zimmerman describes the Cipango as "a conservative executive's exclusive private club, where nothing is a matter of chance."

The club is in a converted mansion, tucked away on a hill among trees on the edge of downtown Dallas. The appointments in the softly-lighted interior are luxurious and the cuisine is the best. Movie stars and top politicians make the club their hangout when they are in Dallas.

Membership is limited to 1,000 persons, and half of these are out of towners. An applicant must have a financial rating of \$100,000 or better to receive consideration.

"The member must be able to afford our prices," Zimmerman said. "We fly our food in from all over the country. Everything we serve is select. Our members include such people as the Rockefellers, the Fords, the Clint Murchisons and the Leo Corrigan. They demand the best and they don't mind the tab."

One night a member asked spinach for himself and his guests. The club was just out of spinach. "Get it—I don't care what it costs," the member said. The spinach was obtained and served—at ten dollars a dish.

The Cipango has a quiet orchestra and occasional girl singer, but members have made it clear to Zimmerman that they do not want the usual number of night club acts. Many transact business during the evening. The bar is a favorite place where a singer-pianist name Majorie Moore has

been playing and singing very quietly, for years. Waiters receive intensive training. You have to hide in a corner their special favorites.

As patrons come in, she plays

to light your own cigarette. "We train our waiters to give the best service without hovering," said Zimmerman.

A former major in the Air Force, the tall, smiling Zimmerman is an expert golfer, target shooter and fisherman, despite the handicap of a transplanted aorta which has slowed him down somewhat.

Zimmerman is on the job every night. "There's hardly a night," he explained "that I don't tremble at the responsibility I have undertaken."

Lad's Remains Are Found In Ravine

ALLENSPARK, Colo. (AP)—Authorities say the remains of 10-year-old Bobby Bizup, who last August wandered away from a Catholic boys camp, had been found in a mountain ravine.

The Rev. Richard Heister, director of the camp, said Wednesday three counselors found the remains last Friday in a ravine just below timberline.

The boy wandered away from Camp St. Malo, south of Estes Park. Father Heister said Bobby apparently died in the ravine's heavy underbrush three miles from the camp.

Bobby, partially deaf, was the son of M. Sgt. and Mrs. Joseph Bizup of Denver.

Big Spring (Texas) Herald, Thursday, July 9, 1959 5-A

Soviet Tour Begins To Run Out Of Steam, Enthusiasm

CHICAGO (AP)—The current Soviet traveling salesman tour in the United States appeared today to be running out of steam and enthusiasm.

As he did elsewhere, First Deputy Premier Frol R. Kozlov got along famously with some of the capitalists.

But the proletariat—the people the Communists invariably call the "toiling masses"—continued to greet his presence with a tremendous surge of apathy. This lack of public interest has marked Kozlov's entire cross-country barnstorming journey.

A count of noses Wednesday night at the Drake Hotel disclosed that there were exactly 49 persons waiting to see the departure for dinner of the man who some say may succeed Premier Nikita Khrushchev. None of the spectators looked like members of a toiling proletariat. Some were there only because a police line impeded their progress. Nobody was excited.

This is beginning to make the Soviet propagandists on the tour appear a bit desperate. Time is running out and the toiling proletariat has yet to make its appearance to cheer—or even look at—the representative of a movement sworn to "liberate" them.

If a Soviet documentary film shows Moscow audiences crowds of lining the route of Kozlov's motorcade into Chicago, it will be because the arrival coincided with

the evening homeward bound rush hour.

The crowds waited to cross streets through thick traffic. Two Soviet newsreel men, riding in an open convertible, trained their cameras on the street corners and tried, each by waving his free hand furiously, to persuade some in the crowd to wave back. This could provide at least a semblance of cheering masses for a documentary on the trip to be shown back home in the U.S.S.R.

But nobody waved back. They just looked. A few waved the other way in gestures indicating the Soviets ought to go home.

The film chroniclers of the Kozlov tour had other troubles, too. In order to get any crowds at all, they had to take in the endless bumper-to-bumper traffic, most of it shiny new cars owned by members of the toiling masses.

There's Community Good In PUBLIC HOUSING

IT'S ESTABLISHED GOVERNMENT POLICY

Public Housing has been the law of the land for many years, created by far-thinking leaders who saw that only through a measure of help can the less fortunate people be housed, in accommodations that are clean, sanitary, and conducive to wholesome living. Hundreds and hundreds of these projects have been erected, and are serving

important areas. Our own citizens have checked Housing projects in such places as Sweetwater, Brownwood and Cisco, and have had favorable reports on them. These towns are better off for having their projects. You can't find that it has cost their citizens a lot of money.

IT IMPOSES NO TAX BURDEN

As a federally-sponsored corporation, the local Housing Authority is exempt from local taxes. But there IS definite provision for payments to city and school to make up for this exemption. Our local agencies WILL receive money from the authority. Our school system is providing admirably for all youngsters in the city. The municipality

is extending utility services and cooperating in paving and such programs to all who call upon it. What's the big difference in serving these people in one unit, or scattered about town? And, speaking of taxes, you can be sure that the type of slums being occupied in Big Spring today is no big revenue producer for our city and schools!

IT CAN HELP OUR PEOPLE

You have only to tour certain sections of Big Spring to see pictures of squalor that exist here now, to get reports from our health officials, our law enforcement officials, our medical leaders, to know that standard housing is a very important answer to the uplift of our community. Public Housing has practical provisions to scale rents according to income, and according to size of family. Certainly if

a man's income grows, he is able to establish his own residence. What about this man and his family who are now reduced to the most miserable type of living quarters. Aren't these good people entitled to the "break" that some of the rest of us have. Give them a chance, for clean and sanitary living, and you have made better citizens.

IT CAN HELP OUR COMMUNITY

No conscientious citizen is going to question the fact that some areas, some living units in Big Spring are a blight on the community. Everybody wants them cleared up. You have to start somewhere. The place to start is with availability low-rent housing, so that underprivileged families can escape their ugly, unhealthy surroundings, and have an opportunity, amid normal surroundings, to

improve themselves. When you improve the lot of these people, the whole community is improved. And Public Housing can be the start of elimination of these undesirable places. This is a big program for Big Spring. Let's look at it in the long-range view. Public Housing is the starting point.

Big Spring Baton Experts To Compete In National Contests

Mike and Patty Bishop, whose skill as twirlers has won them many honors, leave Friday to seek new laurels. They are to take part in nine competitions including the national event in Milwaukee. Both Mike and Patty are enthusiastic baton twirlers.

They recently returned from Cloudercroft, N.M., where they won honors in competition with some of the most skillful youngsters in the business. The medals they wear are indicative of the high opinion judges have held of their ability with the baton.

SEE NEW HONORS

Busy Summer For Young Batoneers

The Rex Bishop family leaves Friday morning on a tour of the Midwest where Mike and Patty will get on the baton twirling circuit.

Before they return the brother and sister twirling team will have made nine contests, including the national contests at Milwaukee. Then Mr. and Mrs. Bishop will return home and Mike and Patty will join the Irish Guards Corps for a tour down the East Coast.

The youngsters will be competing in meets sanctioned by the National Baton Twirling Association, the oldest and largest of the baton twirling units in the world. Both have won numerous titles and Mike, who is the twirler for the Big Spring High School band, has captured many crowns in the Southwest region.

First stop for a meet will be at Delmar, Iowa, on July 13, then on to Charlotte, Iowa, the following day and then to Morrison, Ill., on July 15-16. From there they go to Mt. Carroll, Ill., and on to Sterling, Ill., on July 18.

July 20 will find them in Dells, Wis., for the national open college scholarship contests. On July 24 they will join the Irish Guards, a Texas unit, for the national corps contests. The guards, who are the Texas champions, ranked second in the nation last year.

The boys national contest, open only to those who placed in the state eliminations, will find Mike an entry on July 25. The following day, they go to Kenosha, Wis., for a final contest before swinging down the East Coast with the Guards.

50 People Die On Danish Excursion Boat

HADERSLEV, Denmark (AP)—At least 50 persons perished in panic Wednesday aboard a crowded excursion lake boat racked by explosion and fire here in south Denmark. Police said the toll might go higher.

Another 44 persons—some mothers with babies in arms—saved their lives by jumping overboard while the injured captain raced the flaming 45-foot wooden boat toward shore and grounded it.

Fourteen of the survivors were hospitalized with burns. Some, including Capt. Hans Riistofte, were in critical condition.

Survivors said Capt. Riistofte tried vainly to calm the passengers and reach the lifebelts. While flames shot out of the engine room the panicky crowd beat him back, and he returned to the wheel.

Some foreign tourists were among the passengers. But there was no indication that any Americans were among the passengers.

Police said there may have been more than 90 persons aboard. They appealed to all survivors who had not reported in to do so.

Riistofte and a ticket collector were believed the only crew of the small boat, which carried picnic parties along the wooded shores of Haderslev Park Lake in this quiet South Jutland resort 30 miles north of the German border.

It was Denmark's second maritime disaster within six months and the second disastrous fire in Scandinavia in three weeks.

In January the Danish passenger-cargo liner Hans Hedtoft hit an iceberg south of Greenland and vanished without a trace. Ninety-five persons perished.

On June 23 fire swept a tourist hotel in Stalheim, Norway, killing 25 persons.

Thousands of sunbathers along the shore of Haderslev Park Lake saw the picnic boat explode and catch fire within seconds. The screams of the passengers, many

of them women and children, could be heard.

Some jumped overboard with their clothes afire.

Rowboats and other pleasure craft in the lake raced to the scene. One 62-year-old man saved 15 persons in several trips.

One rowboat capsized when

about 20 desperate, screaming men, women and children tried to climb aboard.

Some survivors said that just before the explosion a makeshift gas line had been put in operation to replace a line that had become blocked. But there was no immediate official explanation of the explosion in the engine room.

Meg Truman Gets Bid For Musical

NEW YORK (AP)—Margaret Truman has been invited to make her Broadway debut next fall in a Rodgers and Hammerstein musical.

Richard Halliday, one of four producers of the show, said Wednesday Miss Truman had been asked to appear in "The Sound of Music." Miss Truman said she had not yet made up her mind.

Miss Truman, a concert singer who also has appeared on television and in summer stock, would appear in the show with Mary Martin, the star. Halliday said Miss Truman was asked to play the singing-acting part of a nun.

Daughter of former President Harry S. Truman, she is married to Clifton Daniel, an assistant to the managing editor of The New York Times. They have two children.

Halliday, Leland Hayward, Richard Rodgers and Oscar Hammerstein II are producing the musical. Howard Lindsay and Russel Crouse are authors of the story.

Near-Record Interest Rate Points Up U.S. Contention

WASHINGTON (AP)—A near-record interest rate on government borrowing pointed up today the Eisenhower administration's contention it must be permitted to offer more for long term bonds.

The Treasury announced Wednesday night it will pay nearly 4 1/2 per cent—the highest rate in 28 years—to borrow two billion dollars for a year. The rate was determined by bids.

The announcement came a few hours after the House Ways and Means Committee approved a compromise plan permitting President Eisenhower to set aside the 4 1/2 per cent interest limit which the law puts on bonds issued for five years or longer. The authority was limited to two years.

There was no direct relation between the committee's action and the Treasury announcement.

There is no legal limit on the interest rates for securities to be repaid in less than five years.

Short-term interest rates normally are lower than those for longer borrowings. But Wednesday's bids put the short-term rate nearly one-half per cent above the present legal maximum for bonds.

The actual rate of 4.728 per cent compared with 4.05 paid in May for the last one-year offering. It is the highest since a 5 per cent rate was paid on a six-month borrowing in 1921, and the largest for a one-year issue since June 15, 1920, when the Treasury paid 6 per cent.

The House committee gave Eisenhower less than he had asked, but it nevertheless opened the way for criticism from many who contend that an increase in government interest rates would touch off a spiral of higher interest costs

for individual and business borrowers.

Eisenhower had asked Congress to remove entirely the 4 1/2 per cent ceiling in effect since 1918. Instead the committee voted 17-7 to give the President authority to exceed the ceiling in the next two years if he feels it is for the good of the country.

Both the House and the Senate have yet to act on the plan, which Secretary of the Treasury Robert B. Anderson accepted reluctantly. He said it accomplishes "for the most part the objectives we sought."

Testimony Due On Train Accident

SAVANNAH, Ga. (AP)—With the death toll now at 23, the Interstate Commerce Commission prepared today to hear testimony on what might have caused the rail disaster June 28 at Meldrim.

The hearing seeks an explanation of what caused the derailment of 17 Seaboard Air Line freight cars on a trestle over the Ogeechee River near a crowded recreation area.

Included in the crackup were two tank cars loaded with butane. Seventeen persons died on the spot when the gas exploded. Six others died later.

There was no direct relation between the committee's action and the Treasury announcement.

There is no legal limit on the interest rates for securities to be repaid in less than five years.

Short-term interest rates normally are lower than those for longer borrowings. But Wednesday's bids put the short-term rate nearly one-half per cent above the present legal maximum for bonds.

The actual rate of 4.728 per cent compared with 4.05 paid in May for the last one-year offering. It is the highest since a 5 per cent rate was paid on a six-month borrowing in 1921, and the largest for a one-year issue since June 15, 1920, when the Treasury paid 6 per cent.

The House committee gave Eisenhower less than he had asked, but it nevertheless opened the way for criticism from many who contend that an increase in government interest rates would touch off a spiral of higher interest costs

Could You Get By If You Had To Pay CASH?

How many people could enjoy the pleasure and convenience of an automobile, piano or refrigerator if they had to pay cash?

Fortunately for most of us, we don't have to pay cash for everything we buy. We take advantage of the liberal, flexible system of personal credit which enables us to buy and enjoy the things we want, when we want them, and to pay for them later.

And the only way to maintain a good credit record is to buy only what you know you can pay for—and pay for it on the date it is due.

It is this integrity in meeting an obligation that makes it mighty convenient for you to say

"Charge It, Please"

Stanton Seeks New Watchman

STANTON —Stanton wants to hire a night policeman. Applications are being received by the city council for a night patrolman. Any man interested in the job is invited to contact Mayor S. W. Wheeler at the city hall or to see M. H. White, city secretary. Mail applications can be sent to Box 687, Stanton.

June Reports Made By Co-Op

STANTON —Cap Rock Electric Cooperative, Inc., has released statistics on its operations for May and June. A drop in kilowatt hours used is reflected in the report. The additional miles of line were energized during the month. Total now stands at 2,059.

Cotton Hoeing Wages Are Set

Leon Kinney, manager of the Big Spring Texas Employment Commission office, said Thursday wage rates for cotton hoeing in Carter County have been fixed at 50 cents an hour.

Boys Rob Grave For Horror Show
JERSEY CITY, N.J. (AP)—Police nabbed seven boys—ranging in age from 6 to 12—and said they had looted a graveyard of a human skull to hold their own version of a television horror session.
They were released in custody of their parents pending juvenile action.

Neighbor Denies Molesting Girl, Admits Slaying
LAS VEGAS, Nev. (AP)—"I thought she was my wife." A sobbing slightly built restaurant worker gave that explanation to police today for his slaying of a 6-year-old neighbor girl.
But Robert Ervin insisted he did not sexually molest the youngster, Dolores Stafford.
Ervin, 20, signed a statement admitting he choked and stabbed

the little girl when she wandered into his apartment as she had done many times before to see his wife.
Her nude body was found in the attic above the apartment Tuesday. Authorities said she had been raped.
Ervin's wife, Kathy, 18, left him last weekend after he tried to strangle her, then urged her to leave lest he harm her.
Officers were waiting for Ervin when his train pulled into Las Vegas from Los Angeles Wednesday. They discovered he was on the Union Pacific's City of Las Vegas when a ticket seller recognized his picture in a newspaper.

Red Terrorist Assault Kills 2 Americans
SAIGON, Viet Nam (AP)—A Communist terrorist slipped into an American military billet 20 miles north of Saigon Wednesday night during a movie and exploded a bomb, killing two U.S. military advisers, himself and three South Vietnamese.
Another American officer was wounded, and two others escaped injury.
The wounded American was flown to Clark Field at Manila for treatment. A communiqué from the South Viet Nam government and the U.S. Embassy said his condition was not serious.
Following the bomb attack, other members of the terrorist band opened fire from outside the billet with small arms and automatic weapons, the communiqué said.
Vietnamese army guards returned the fire, "forcing the terrorists to flee to the nearby river from which direction they had come," the communiqué reported.
The names of the American casualties were withheld until relatives were notified.
The attack occurred at the South Viet Nam army's training center at Bienhoa. The five U.S. officers were members of the U.S. Military Assistance Advisory Group (MAAG) stationed in South Viet Nam to train President Ngo Dinh Diem's anti-Communist forces in the use of American weapons.
The attack was the first on Americans in South Viet Nam since Oct. 22, 1957, when terrorists bombed the U.S. Information Agency library, an American military bus and a U.S. hostel, all in Saigon. Thirteen American servicemen and five Asians were wounded. None of the Americans were hurt seriously.
The war between France and the Communist Viet Minh ended in July 1954 with the signing of an armistice at Geneva partitioning Viet Nam. Since then there have been sporadic terrorist attacks in South Viet Nam by small bands of supporters of Communist President Ho Chi Minh's North Viet Nam regime.

Senate OKs Foreign Aid
WASHINGTON (AP)—The Senate has passed a foreign aid bill with a \$3,543,320,000 price tag. That's about 10 per cent less than President Eisenhower asked.
The authorization measure merely sets the ceiling for foreign aid spending. The actual amount to be spent will be determined in a later appropriation bill.
Efforts to make further slashes in the amount asked by Eisenhower failed Wednesday in the final day of debate. All of the 383½ million dollars in cuts had been voted Tuesday.
Final action came after Eisenhower indicated at a news conference he might call Congress back into a special session later this year if his request was sliced too deeply. Senate Democratic Leader Lyndon B. Johnson of Texas joined Republicans in helping to fend off further reductions during the final debate.
The Senate measure allows \$1,300,000,000 for military aid to Allies and 751½ millions in defense economic supports to help Allies maintain their troops. The rest is for various forms of economic aid.
The military provision is 300 million dollars less than the President request. The economic aid is 83½ million under what he asked.
The Senate total is only \$720,000 above that voted by the House. Senate and House conferees plan to meet next week to settle the differences on where to apply the cuts.
The measure passed the Senate Wednesday night by a vote of 65-26 with the support of 39 Democrats and 26 Republicans. Eighteen Democrats and eight Republican senators voted against final passage.

Princess Pulls Fashion Faux Pas
LONDON (AP)—Stylish Princess Margaret and her lady in waiting appeared in practically identical dresses Wednesday night, and at the opening of an exhibition of new fabric designs held at a fashion house.
"What a faux pas," said Iris Peake, the lady in waiting, "but it was a genuinely unfortunate coincidence."
Arriving in London after launching a ship in Belfast, Margaret slipped into a turquoise blue cocktail dress.
Downstairs waited Miss Peake in an almost identical dress. It was too late for either to change.
They entered the show side by side. The big room buzzed with whispers from the fashion experts, some of them clawingly catty.

Legs are Different

Here is a cartoon that actually appeared in 1932 newspapers following the introduction of Belle-Sharmer leg-size stockings.

It seems mighty obvious to us today that one size stocking can't possibly fit all sizes of legs. But back in 1932, when Belle-Sharmer decided to make stockings in different leg-sizes to fit all different sizes and shapes of legs, it was considered a positively revolutionary ideal.

Now, leg-wise women all over America choose Leg-Size Belle-Sharmer Stockings because they've learned that Belle-Sharmer's, which are proportioned to fit every inch and every curve of their legs, all the way from toe to thigh, give them the utmost in leg-flattery . . . and longer wear.

Belle-Sharmer's are not just Leg-Length Stockings . . . Belle-Sharmer's are Leg-Sized Stockings knitted to fit different size ankles, calves and thighs.

And in Belle-Sharmer Leg-Size Stockings the length between heel and calf and the length between calf and thigh is varied to conform exactly to the proportions of individual legs.

Belle-Sharmer

LEG-SIZE STOCKINGS

Prove this to yourself. Come in and let us show you that your legs will look lovelier, you'll be more comfortable . . . and even your sheerest stockings will wear longer when they're Belle-Sharmer.

Belle-Sharmer Seamless, 1.50 and 1.65
Belle-Sharmer Full-fashioned stockings 1.35 to 1.95.

**MONEY IS NO. 1
School Problems
Aired For Lions**

Big Spring City Schools face many challenging problems as the town continues to grow and expand but the biggest issue of all is the matter of money, Floyd Parsons, superintendent of the Big Spring Independent School System told the Big Spring's Downtown Lions Club Thursday.

"It costs \$260 per student for the nine months school year," he said. "Last year we had an increase in enrollment of 600 students. This meant the budget had to be increased \$156,000. School operations therefore cost \$186,000 more in the 1958-1959 year than they did in the 1957-58 year."

Parsons said that there would be at least 500 more students this year than last year; therefore, the budget will have to be increased again this year.

Attendance lines has created another problem for the Big Spring school system. Parsons said the new Marcy Elementary School as an example. He said that parents who bought houses in the Douglass Addition assumed that their children would attend Marcy. He said this is not a fact. Marcy was constructed for Capehart children and the school was constructed entirely from federal grants. No Big Spring money was used for this school.

He said "However, if there is room for 40 or 50 more students after the Capehart children have

enrolled at Marcy, then Douglass Addition children will be permitted to attend Marcy. If there is not enough class rooms for them, the Douglass Addition children will attend Park Hill School." Parsons explained that attendance lines are moved from time to time to take care of demands.

A survey will be made this summer to determine how many Douglass Addition children will be able to attend the Marcy School.

Other problems discussed by Parsons included the need of personnel, balancing the school curriculum, purchasing school sites for the future. He said that Big Spring School system should buy five or six school sites now while property could be purchased at a smaller price than when they would have to be bought by necessity in the future. He explained that funds, however, were not available to make such purchases at this moment.

Parsons stressed the need for the citizens of Big Spring and school personnel to work together to provide the best educational facilities possible for Big Spring children.

Dr. Phillip Deza was inducted as a member of The Downtown Lions Club by International Counselor Joe Pond.

R. H. "Shorty" Snyder reported on his trip to Lions International Convention in New York.

**26 Area Students Attend
McMurtry School For Band**

Twenty-six Big Spring area students will attend the annual McMurtry College Summer Band School, scheduled for July 12-25 at Abilene.

Tommy Fry, band director for Goliad Junior High School and assistant director at the high school, will be the Dean of Boys and teach bass, baritone and theory. His wife, Thelma Fry, will hold classes in twirling and ballet.

Climax of the annual school will be a concert July 24. There are 21 music students attending from Big Spring and five from Coahoma.

The Big Springers are John Fish, Freddie Coleman, Wayne Deats, Beverly Horn, Joyce Horn,

Howard Morrell, Carolyn Lewis, Ray Baskin, Don Baskin, Mike Gorman, A. J. Pirkle, Rex Jones, Paula Faubion, Tommy Ramey, Carol Hughes, Ronny Jones, Mike Baggett, Johnny Lawson, Claudine Terrazas, Eric Brewster and Randy Cahoon.

From Coahoma, the entries are Johnny Wayland, Yvonne Knouse, Marianna Malstrom, Phyllis Anderson and Patsy Greenfield.

**Hospital Fund
Is Near Goal,
Greene Reports**

Campaign to provide air conditioning for the geriatrics quarters at the Big Spring State Hospital is within \$99 of achievement, according to Jimmy Greene, who has spearheaded the drive.

Greene said Wednesday that he figures if he can get \$89 additional money, evaporative air conditioning units can be placed in all of the sleeping quarters for the older patients at the State Hospital and some equipment provided for dining areas and kitchens.

He said that cooperation has been excellent on the part of the citizens and he believes that the additional money will be forthcoming within a short time.

He pointed out that the present hot weather makes the need for the air conditioning equipment of great urgency. He asked anyone interested in aiding the cause to contact him at once.

He suggested that any check to the fund be made to the Big Spring State Hospital and mailed to him - Jimmy Greene, 427 Dallas.

He said that as soon as the needed money is on hand the work can be pushed ahead.

He related that officials at the hospital explained the summer heat is particularly hard on the older patients at the hospital. There are a large number of such patients in the institution. The state does not provide funds for air conditioning and if the facilities are to be available it will be up to the public to provide them.

Greene said he had met with excellent interest and fine generosity in the campaign he has been waging to raise enough funds for the installation.

**3 People Dead
After Shooting**

HOBBBS, N.M. (AP)—An apparent murder-suicide pact Wednesday resulted in the death of a mother and daughter and a man who lived a few blocks away.

Dead as the result of 22 caliber bullet wounds in the head were Elmer Pichlope, 38, an oil-field worker; Annie Jo Brixie, 32; and her daughter, Beverly Carol Brixie, 7.

Police said the shooting happened in the home of Mrs. Brixie's husband, Albert, who with the Brixie's 15-year-old son, Melton, was on a visit to Monticello, Ark. The husband and son were due back late today or Friday.

Undersheriff Bruce McCallum said a note was found addressed "to whom concerned" and signed "Elmer and Annie." McCallum said the note announced suicide plans.

Pichlope was not married and police said he had known Mrs. Brixie in Monticello, Ark.

**Skunk Shown
To Be Rabid**

A positive report was made on the head of a skunk killed on the W. E. Hughes place south of Big Spring recently. The report was received by Dr. H. F. Schwarzenbach, veterinarian.

He said the skunk had bitten a dog belonging to the Hughes' family and the dog has been kept penned up ever since. The family decided to have the animal put to sleep after the positive report.

**Sen. Rogers Is
Head Of State**

AUSTIN (AP)—Slow-talking Andy Rogers of Childress became Texas' acting governor today.

The tall senator from the Plains took the state's executive post when Gov. Price Daniel and Lt. Gov. Ben Ramsey were reportedly out of the state. The Senate president pro tem is third in line for the post.

Rogers became the third senator to hold the chief executive post this year. Sens. George Parkhouse, Dallas, and Jarrard Secrest, Temple, were acting governors in the regular and first special sessions.

With his wife and family, Rogers met friends in the governor's reception room and signed proclamations.

A new event for the acting governor was the presence of Texas beauties here for Agricultural Appreciation Week. They include: Miss Rice-Patty Ella Camp, Bay City; Miss Dairy Princess-Roselind Priesmeyer, Hutto; Miss Dairy-Marilyn Carpenter, San Antonio; Miss Rural Electrification-Lovonne Hall, Comanche; Miss Wool-Miriam Lacour, Raywood; Miss Wheatheart-Carolyn Cooper, Plainview; Miss Cotton Week Queen-Carol Ann Crockett, Harlingen; FFA Sweetheart-Janet Wallace, Austin; and Jan Parson, Matador, 4-H Club co-chairman of Texas.

**Lubbock Man Dies
In Auto Accident**

JOPLIN, Mo. (AP)—Lloyd Lee Watson, 37, Lubbock, died in a one-car accident on U.S. Highway 166 about 1 1/2 miles east of here early today.

Maurice Coih, Carthage, Mo., was injured.

Officials said the car apparently went out of control, swerved across the highway and struck a bridge abutment. Watson was found under the bridge, lying face down in about two feet of water.

It was not known who was driving the vehicle.

WHITE'S
THE HOME OF GREATER VALUES

Just Before Naptime

A rocking chair is almost a necessity for mothers of young babies. Mrs. Samuel J. Arrington spends lots of time rocking Kim Lanell, who became three months old July 2. The slow, steady motion has its effect on Kim Lanell, who stayed awake barely long enough for the photographer to get his picture.

Bride Of A Year 'Loves' To Cook

They say the way to a man's heart is through his stomach. There may be a grain of truth to the statement Mrs. Samuel J. Arrington, 801 East 13th, doesn't deny it. Arrington had had numerous opportunities to taste her cooking prior to their marriage in June of last year. Indeed, he was a frequent guest at her parents' home.

Her cooking talent didn't just materialize. As a child, Dorothy liked to watch her mother, Mrs. B. F. Mabe, prepare good things in the kitchen. And her father, who enjoys a certain amount of culinary success himself, was the one who taught her to make Pineapple Upside Down Cake, a dessert which remains an all-time favorite. It's no wonder because it is moist, delectable and pretty. Dorothy likes to arrange various patterns with the pineapple, and shares the recipe with The Herald readers today.

Three years of homemaking in high school developed her zest for cooking still further. When 5 a.m. is home for dinner, she goes all out to provide a big meal. But when he is away—and that is likely to be often now that he is a T&P brakeman, having received

his discharge from the USAF a month ago—she either goes next door to have dinner with her parents, or enjoys salads such as the gelatin one she outlines here.

Monopolizing all her time now is pretty Kim Lanell, their three-month-old baby. As the only grandchild, she is the absolute center of attraction.

Baptist Temple is where Dorothy and Sam met and where they are remaining active. She is in the Training Circle of the W.M.S. Here are two of the recipes Mrs. Arrington has found helpful during her first year of real homemaking:

PINEAPPLE UPSIDE DOWN CAKE

- 1/2 cup butter
 - 1 cup brown sugar
 - 1 can sliced pineapple
 - 1 cup cake flour
 - 1 tsp. baking powder
 - 1/2 tsp. salt
 - 3 eggs
 - 1 cup white sugar
- Melt butter in pan (cast iron skillet works nicely), spread brown sugar over it, then arrange pineapple slices as desired. Sift flour, baking powder and salt together. Beat the eggs and white sugar to-

gether. Alternate the flour mixture with the pineapple juice in stirring it into the egg and sugar blend. Pour batter over pineapple.

Bake at 325 degrees for 40 minutes, or until cake springs back when touched.

GELATIN SALAD
1 pkg. lime gelatin
1 carton cottage cheese, drained

1 small can crushed pineapple
Prepare the gelatin as directed on package. When almost congealed, mix into it the cottage cheese and drained pineapple. Chill and serve.

Barbecuing Tip

For outdoor barbecuing, start the fire about 20 to 30 minutes before you plan to use it. Be sure coals are glowing and show white ash. There should be no obvious flame. As you add more charcoal to the fire, push the glowing coals to the center and add new briquets around the edges.

Interesting Rice

Silvers of green celery and orange peel (the white part removed) make a bowl of rice interesting. Serve with chicken, duck, ham or fresh roast pork.

Use Promptly

Use fresh snap beans a day or two after you bring them home from your market if you want them to taste their best.

Sweet Bread Adds Interest To Meals

A sweet bread served occasionally during the hot months acts as a real pick-up. Make sandwiches of it with cream cheese or butter and preserves; or serve it heated and smothered with butter.

Here are two recipes:

MICHIGAN COFFEE CAKE

- 1 cup sifted flour
- 2 tsps. double-acting baking powder
- 1/2 tsp. salt
- 1/4 cup butter or margarine
- 1-3 cup sugar
- 1 egg
- 2 tsps. grated orange rind
- 1/2 cup ready-to-eat bran
- 1/4 cup orange juice
- 1/4 cup milk
- 1-3 cup chopped walnuts
- 1-3 cup seedless raisins (rinsed in hot water and drained)

Topping: Sift together the flour, baking powder and salt. Cream butter and sugar; beat in egg and orange rind. Stir in bran, orange juice, milk and sifted flour mixture just until dry ingredients are moistened; fold in walnuts and raisins.

Turn into buttered 8 by 8 by 2-inch baking pan; sprinkle with Topping. Bake in moderate (375 degrees) oven until cake tester in-

serted in center comes out clean—about 25 minutes. Cut in squares in pan and serve hot.

Topping: Sift together 1-3 cup sifted flour and 1-3 cup light brown sugar; with a fork mix in until crumbly 1 tablespoon melted butter and 1 tablespoon grated orange rind.

ORANGE PRUNE BREAD

- 1 egg
- 2-3 cup milk
- 1 pkg. (10 ounces) oatmeal bread mix
- 2-3 cup sliced pitted cooked prunes
- 2 tsps. sugar
- Grated rind of 1 orange
- 1/4 cup finely chopped nuts

Beat egg enough to combine yolk and white; add milk and beat to combine. Add oatmeal bread mix; stir just until combined. Fold in prunes; turn into pan that comes with mix; do not grease pan. Mix together the sugar, grated orange and nuts; sprinkle over top of loaf.

Bake in moderate (375 degrees) oven 45 minutes or until cake tester inserted in center comes out clean. Remove bread according to package directions.

Variations Are Many When Cooking Chicken

Fried chicken is a national favorite. It's the most popular way to serve the tender, young broilers that are so plentiful today. Broiling and barbecuing chicken are close popularity contenders.

There are other ways, too. In fact, a vast repertoire of recipes is available so you can serve something different each time you decide on chicken. Broilers respond nicely to the "personal" touch. Variations may be achieved by using different marinades, sauteing before frying or steam-

ing, using herbs and spices, serving with sauces and altering the amount of fat used in frying.

Sauteing means to brown in a minimum of hot shortening, to which seasonings and diced vegetables are frequently added.

Pan-frying is cooking until tender in about 1 inch of fat.

French-frying is the complete immersion of the chicken in hot fat until tender.

Broiling is cooking by indirect heat, turning the parts frequently until tender and browned. Sauces are used frequently to enhance the flavor and keep the parts tender, yet crisp.

Barbecuing generally means cooking outside on an open fire with food on a spit or grill, a peppery hot barbecue sauce being basted over the birds at frequent intervals. Sometimes it is simply the addition of a hot sauce to foods already prepared.

Marinades are usually oil and acid solutions used to flavor foods. It is customary to marinate meats before cooking. The length of time a food is marinated depends on the degree of flavoring desired.

It may be as short as one hour or as long as 24 hours. Foods should be kept refrigerated and turned frequently if marinated for longer than three hours. Marinades are used frequently as a basting sauce for broiled or barbecued foods; some are served as a sauce over the cooked foods.

Here are some tasty marinades you may wish to try: Steep red pepper pods in vinegar for about 10 minutes, cool and

pour over disjointed chicken. Turn chicken often so all sides will be equally seasoned. Marinate at least three hours for slightly acid fare; overnight for a zesty flavor.

Remove chicken from marinade and wipe off excess moisture. Pan-fry to tenderness in hot fat. Or broil in the oven or barbecue outside, using the marinade as basting sauce; but first remove hot peppers.

Or, you may wish to marinate in tart, spicy juices of peach, watermelon pickles. Pour remaining marinade over cooked chicken just before serving, and serve chicken with spiced whole pea garnish.

Retail prices of broilers have been running lower than a year ago, reports the Agricultural Marketing Service. Supplies were readily for June markets at 9 to 10 per cent more than 1958.

Perfect Frosting

Add a couple of tablespoons of orange juice and some grated orange rind to currant jelly and use as a filling between white cake layers.

Ten Items Make July Plentiful Foods List

Flavor, zest, nutrition and spirited freshness are combined in the 10 items listed as plentiful foods for July by the U. S. Department of Agriculture.

Together, they blend their individual qualities into a symphony of timely warm-weather eating. Their frequent use will enhance summer menus, barbecues and picnics.

You can expect an abundance of juicy fresh plums in July. It looks now like there will be 72 per cent more plums than a year ago; 30 per cent more than average.

Small turkeys join plums as featured items on the July list for the Southwest. Farm prices on turkeys are running about 5 cents a pound less than a year ago at this time.

Abundant supplies of ice cream and peaches are in view throughout the month. Lemons and limes, both fresh and processed, are on the list, too—just in time to ease the pace of a hot day. They are refreshing thirst quenchers. The nation's egg basket continues to overflow with this versatile and nutritious fare. Prices have not been lower since 1941. So homemakers will find it to their advantage to serve eggs often. A wide variety of summer vegetables also belong on the list. Choices are many but may vary from week to week.

SPICE VOCABULARY

BLACK PEPPER, a spice, is dark brown in color when whole; in ground form, the color varies from cream to black. Distinctive in flavor, it has a pleasant spicy bouquet with palate-tingling flavor and after-taste.

BLACK PEPPER is compatible with almost all foods, except these with sweet flavors. In preparing a non-sweet dish that "needs something", try a little pepper first; it is used universally to add sparkle to foods, including pickles, soups; poultry, meats, fish, game; sauces, gravies, marinades; salads, vegetables; eggs, cheese spreads; spiced vinegar.

Easy Way

When you are unmolding summer aspics, always run the tip of a knife or spatula around the mold before dipping in hot water.

For Emergencies

A dampened brown paper may be used successfully as a substitute for a pressing cloth.

Automatic Spray

A new automatic device dispenses insecticide spray automatically to keep the home free of flies, mosquitoes and gnats. The non-toxic insecticide is said to be harmless to adults, children and pets, and is sprayed into the air at regular 15-minute intervals.

One Hundred Years Ago . . .

This Was NEWS

That Shaped Today's World

One hundred years ago (August 27, 1859) Edwin L. Drake completed the drilling of the first commercial oil well near Titusville, Pa. Thus was born an industry without which the way of living that we enjoy today could hardly have been possible. Today nothing moves on land or in the air, on or under the sea, or into outer space but that oil helps to move it. Nothing is made but that oil helps to make it or improve it. Drake's well was "just a news item" in the paper a century ago. Today it is history of world-shaping importance . . . history that is still being made as the oil industry continues to move forward to new achievements.

All of which simply serves to dramatize the importance of reading your newspaper regularly and thoroughly . . . ever alert to the kind of news that can reshape . . . even completely change . . . the world you will live in tomorrow. Only by so doing can you properly evaluate the future and purposefully plan to take your own place in it.

Your Herald dedicates itself to fast, clear, accurate reporting in all the areas of interest and importance that can affect you and your family . . . today, tomorrow, next year, and as far into the future as you can project your imagination!

Advertising Is News That Shapes Your World, Too. Read All Herald Ads Regularly

Guilty Or Not Guilty?

"Mr. Foreman, have you reached a verdict?" The voice is intoned across the courtroom, and the defendant, Lida Fiveash, rises expectantly to her feet. She's rather numb at the moment, like who wouldn't be, what with the state trying to sit you down in the electric chair, and the jury just now ready to decide your future. At left is an exhausted Mike Maney, hard-fighting defense counsel, and waiting expectantly at right is Kay Loveland, secretary. The picture is a scene from "Night of January 16th," courtroom drama playing Thursday, Friday and Saturday at HCJC Auditorium.

Courtroom Drama At HCJC Tonight

A body is pushed off the tall-est building in New York. It is mashed beyond recognition, but is nevertheless identified as that of John Faulkner, financial dictator who has been revealed as a shady operator.

His former fiancée is charged with his murder.

Thus begins the plot that gives dramatic charge to the three-act play, "Night of January 16th," opening tonight at HCJC Auditorium. Curtain time for the courtroom drama is 8:29 p.m.

"Night of January 16th" will be the second of three plays during the Civic Theatre's summer season. The drama will run through Saturday.

Cast as opposing counsel are Jim Tom Baker as the prosecutor, Mike Maney as defense attorney. These two actors carry the main load throughout the play, which takes place entirely in a New York district courtroom.

The stage is a mockup of an average court, complete with various officials, and a jury which is empaneled from the audience. The script is written so that the jury may bring in an actual verdict of its own.

Lida Fiveash has the female lead as the defendant. Another important role is that of Shirley Bailey as the widow of the murdered man. These two women upset the court's routine several times as a result of their feud.

Witnesses are strategically placed among the audience, which faces the court with the same vantage point as spectators at an actual trial.

Among the witnesses are: Fred Short as the medical examiner.

Cassie Smith as the maid who saw some suspicious goings-on the night of the murder.

Doyle Phillips as the private eye hired by the widow to shadow her husband.

Jack Boyd as a rather dense but loyal policeman who first answered the emergency call.

Chuck Worley as the wealthy and powerful father-in-law of the murdered man who discovers his virtuous standing with the community endangered by revelations at the trial.

Martina Conway as a straight-laced Swedish maid with a narrow mind which is already made up.

Mary Magee as a ballistics expert.

Gordon Wheeler as the underworld kingpin whose connection with the case threatens the state's chances for conviction.

John Findlater as a blindly loyal Swede who helps the prosecution more than he knows.

Majorie Havins as a sassy, sexy "exotic" dancer whose night club-owner husband was knocked over in what may have been a suspicious connection with the Faulkner murder.

The judge is played by Dalton Conway, who has a shocking surprise ready for the jury.

Lesser roles are taken by Jim Williams as the clerk, Dick Bailey as the bailiff, Bob Smith as the court reporter, Kay Loveland as secretary to defense counsel, Rita Gale as secretary to the prosecutor, and Mojie Henson as the jail matron.

Director is John Austin.

Others on the production crew include:

Wheeler, assistant director; Williams and Phillips, co-producers; Bailey and Hugh McCauley, business managers; Mary Archer, props; Howard Brown, lights; Findlater, program cover, poster and set design; Dr. Bill Sandefur and Wilma Rudeseal, program; Carole Ackerson and Joanne Forrest, publicity.

Others are Matt Bertalini, Marjorie Brown, Mr. and Mrs. Conway, Dewey Magee, Phillips, Roy Rosene, Sydney Rosene, set crew; Wheeler, Gayle Johnson, Virginia Austin, Mrs. Rosene, make-up;

Pilot Unhurt

BEEVILLE (AP) —Naval Aviation Cadet Patrick Heely IV, 23, Washington, D. C., landed his disabled F9F jet trainer in a pasture and escaped uninjured yesterday. The plane developed trouble on takeoff from Chase Field here.

Man Hurls Fire Bomb Into Bar, Jumps Into Bay

CORPUS CHRISTI (AP) —A man who said he was "damned mad at the whole human race" hurled a bottle of flaming gasoline into a bar here yesterday. Two persons were injured slightly. Irvin Warren Stieckels, 35, Higginsville, Mo., admitted throwing the makeshift bomb, then jumping into nearby Corpus Christi Bay.

Police fished him out of the bay about three blocks from the scene of the explosion and took him to Memorial Hospital here pending action to commit him to a mental hospital.

Roger South, 63, owner of the Wonder Bar, suffered burns on his leg and a wrenched shoulder and William Piepmeier, 42, Aransas Pass, Tex., was cut on the head. Neither was hospitalized.

South's sister-in-law, Mrs. Agnes South, escaped injury.

The bar and floor were scorched by flames which burst from the bottle after it struck Piepmeier on the head and shattered on the floor. South extinguished the fire with a portable extinguisher before firemen arrived.

Stieckels—who said he has been

treated twice at Veterans Administration hospitals for "an anxiety complex"—smiled, sobbed and cursed as he told officers and newsmen of the incident. Stieckels said he picked the bar at random.

... want to travel comfortably with your family? ...

Then be sure to stay at the Adolphus. You can drive right in, register at the motor lobby and be whisked to your rooms in a private elevator... no chasing youngsters around a big lobby. Spacious rooms, specially planned meals for youngsters, and a playground with wading pool, playground equipment and toys... make The Adolphus ideal for family trips. Shops, museums, parks and other sightseeing specials are easily accessible. Plan to stay... at The Adolphus... on your next family outing.
