

BIG SPRING AND VICINITY: Fair, nights and mornings; partly cloudy afternoons and evenings through Monday. Widely scattered afternoon and nighttime thundershowers in the vicinity. High today 95. Low tonight 65. High tomorrow 95.

Table with 4 columns: Page, Round Town, Sports, TV Log, Want Ads, Women's News, Sec. C

The Winner And The Finalists

These are the final 15 in the Miss Universe contest at Long Beach, Calif. The title was won by Akiko Kojima, model from Japan. Left to right, back row: Helene Savigny, Belgium; Vera Ribeiro, Brazil; Olga Pumarino, Colombia; Pamela Searle, England; Françoise Saint-Laurent, France. Center row—Carmela Kanel, Germany; Zoe Koryokle, Greece; Sigridur Thorvaldsdottir, Iceland; Rina Issacov, Israel; Miss Kojima (Miss Universe). Front row—Hyeon Choo Oh, Korea; Jorunn Kristiansen, Norway; Suzanna Cembrowska, Poland; Marie Louise Ekstrom, Sweden, and Terry Lynn Huntington, U. S. A. (AP Wirephoto).

Cuban Farmers Roam Havana In Celebration

HAVANA (AP)—The capture of one of Fidel Castro's most wanted enemies was announced Saturday night as thousands of young Cuban farmers, waving banners and brandishing sharp sugarcane knives roamed this capital. They were in a mood for a celebration—or trouble.

Police said Rafael del Pino, leader of the "White Rose" organization, who has been operating from Miami, Fla., was wounded and captured 20 miles east of here while apparently trying to fly a group of Cubans out of the country.

The "White Rose" leader apparently flew a chartered, single-engine plane from Florida and landed on a paved highway for a dawn rendezvous with his associates here.

Heavily armed police, led by Chief Egegnio Amteiras, machine-gunned the plane as it landed, setting it afire and wounding the pilot. A carload of would-be passengers escaped after exchanging shots with the police. Police said they dragged Del Pino from the plane and that he was in a grave condition—with burns—in a military hospital.

Earlier police announced the arrest of four other White Rose members and the seizure of documents and ammunition of the 26th of July movement which overthrew the dictatorship of Fulgencio Batista last January.

Del Pino, 32, complained on May 30 he had been attacked at Miami Beach by a gang that he called "Fidel Castro Police."

He was charged in 1951 by U.S. authorities with trying to smuggle arms to anti-Batista forces from the United States. Castro's regime, which he charges is influenced by Communists, has recently urged Cuba to drop anti-Castro leaflets. He became a U.S. citizen 12 years ago while serving in the U.S. armed forces.

Despite the gay bunting and flags that were everywhere there was an unmistakable undertone of dangerous tension. Fears that anti-Castro elements might create an incident obviously were behind precautionary moves by the government.

The sale of alcoholic drink has been banned until 6 a.m. Monday. Authorities have been quietly rounding up suspected "counter revolutionaries." There are unconfirmed reports that as many as 1,500 may be behind bars.

Votes Listed On Tax Bill

AUSTIN (AP)—Here's how representatives voted Friday to adopt the House tax committee substitute bill, 73-63.

For: Albert Anderson, Atwell, Ballman, Bartram, Bass, Bell, Blaine, Brashear, Bristow, Buchanan, Burgess, Burkett, Butler, Conley, Connell, Cook, Cory, Cowen, Day, de la Garza, Duff, Duncan, Ehrle, Foreman, Glusing, Green, Guiley, Healy, Hooks, Huebner, Hughes of Dallas, Hutchins, James, Jarvis, Johnson, Jones of Dallas, Jones of Galveston, Koliba, Latimer, La Valle, Lewis, McDonald, McKay, Martin, Matthew, Mays, Murray, Oliver, Osborn, Parsons, Pipkin, Ramsey, Roberts, Rosson, Russell, Sadlier, Shannon, Shaw, Slack, Smith, Spillman, Strickland, Thurman, Thurmond, Townsend, Vallance, Wells, Wilson of Amarillo, Winston, Woods, Woolsey.

Against: Adams, Bates, Boyesen, Bridges, Bullock, Cannon, Carriger, Chapman, Clements, Cloud, Cole, Coley, Collins, Cotten, Cox, Crosthwait, Daily, Dewey, Eckhart, Fenoglio, Gladden, Glass, Hale, Harrington, Hinson, Howell, Huffman, Hughes of Sherman, Isaacs, Jackson, Jamison, Jones of Austin, Kennard, Kilpatrick, Koriath, Laurel, Leaverton, McCoppin, McGregor of El Paso, McIlhenny, Miller, Mullen, Myatt, Paris, Percy, Pieratt, Preston, Rosas, Schmid, Schram, Smith of Beaumont, Spears, Stewart, Strickman, Terrell, Turman, Watson, Wheeler, Whitfield, Wilson of Newcastle, Winfree and Zbrank.

Pairs: Kilgarlin present who voted against the bill paired with Richardson who would vote for the bill; Bishop yes and Sudderth no; Dugan yes and Yezaq no; Springer no and Blanchard yes.

On pleas to get 100 votes to put the tax bill into immediate effect and save 12 million dollars, House members switched their votes until speaker Waggoner Carr announced the vote as 100-38.

British Saucer Crosses Channel

DOVER, England (AP)—Britain's revolutionary "flying saucer" that skims on a self-made air cushion over land and sea made a successful crossing of the English Channel Saturday.

The four-ton craft is powered with a 450-horsepower engine which drives a single mahogany fan. This provides air pressure which is blown through ducts beneath the fuselage and cushions the craft as it flits above the waves.

Hurricane Brings Flood Prospects

Even Hardest Storm Leaves Room For Fun

KEMAH, Tex. (AP)—"They named her right. My mother-in-law is named Debra. She's a lot of wind and just all wet most of the time."

The mechanic at a service station here wouldn't give his name. It was early morning and the knee-deep water floated half-gallon oil containers as it swirled in and out.

National guardsmen stood by, awaiting orders but none came. Few evacuees were at this little seacoast town, 34 miles southeast of Houston.

Kemah felt much of Hurricane Debra's punch. She ripped shingles from roofs, shredded leaves, cracked tree limbs, uprooted trees, knocked out electric power and telephones.

"I don't like it at all," said Linda Morrow, 11.

Her stringy and wet blonde hair covered her sleepless eyes. "We left Bayciff at 10 last night," her father, John Morrow, said. "We were vacationing." He said they planned to return to their home at Crockett.

Asst. Fire Chief J. A. Foster of Kemah said no major damage occurred. "Just regular wind and water troubles."

Throughout Debra's path, the storm seemed the same.

At League City, a big live oak split and crashed 10 feet from E. G. Mueller's home.

At Pearland, H. L. Dawkins kept his service station operating. Across the street, there was no power for competitors. A single engine plane was swept into a ditch.

Many farm-to-market roads were closed by high water. So were state highways and important roads such as one leading to Houston's municipal airport.

Gusts of wind with falling rain made driving hazardous. But it provided these laughs through various advertising signs—all submerged in water.

A new development area "Home for finer living."

A cleaning plant's boast—"We do excellent dry cleaning."

A contractor—"We build swimming pools."

And a real estate salesman—"Waterfront lots for sale."

Wasn't Good Life; Papa's Too Untamed

MEXICO CITY (AP)—Police discovered a wife and six children who had not been permitted to leave their small home for 21 years. The husband was arrested.

Police said the family had been forced to work day and night producing insecticides the father sold.

The children are Untamed, 17; Liberty, 15; Sovereign, 14; Conqueror, 12; Good Life, 10; and a recently born girl named Evolution and Free Thought.

Latin Reds Grow

MONTEVIDEO, Uruguay (AP)—Latin America's Communist parties had a total of 230,000 registered members at the end of last year, an increase of 7 per cent over 1957, the economic review Letter Commentary estimates. The English language weekly said 38 new Communist or fellow-traveling newspapers or magazines appeared in Latin America, boosting the total to 316.

WIDE EYES OR BIG CATS?

STILLWATER, Okla. (AP)—Patrolman Don Prickett and Bob Sharp thought they had spotted two cougars in a tree. Armed with a shotgun and a rifle, they stalked the quarry. Two huge housecats jumped from the tree and fled through the morning mist.

Coast Road Conditions

AUSTIN (AP)—U. S. Highway 75 into Galveston had one foot of water over it in spots, but traffic was moving, the State Highway Department said Saturday.

All roads were open in the Beaumont district and water was receding from U. S. 90 in the Orange area, the department said.

State Highway 6 was still closed at noon south of Hitchcock and Farm Road 528 was closed from Webster to Seabrook.

The department hoped to resume ferry service between Galveston and Bolivar Peninsula by late Saturday.

Legates To Appear At Aid Hearing

SAIGON (AP)—U. S. Ambassador Elbridge Durbrow and Arthur Z. Gardiner, director of the American aid program here, plan to leave Sunday for Washington to meet a Senate committee scheduled to open an inquiry into the American aid program in South Viet Nam.

The U. S. Information Service said both reaffirmed their full confidence in Viet Nam as "a free world partner."

SHIRLEY TERRY—QUEEN

1,000 On Hand To See Y's Annual Swim Meet Feature

An estimated 1,000 Big Springers turned out for the Ninth Annual YMCA Swim Meet and Water Carnival held at the City Park swimming pool Friday night.

Shirley Terry was crowned the 1959 Aqua Queen by the 1958 Queen, Lana Lewis. Last year's queen made a dedicatory swim in the new queen's honor.

Billy Bog Satterwhite swept the senior boy's division with no competition while setting new records in the backstroke and freestyle events. He set the new backstroke record at 41.8 seconds, just under the old mark of 42.1 seconds. His freestyle record is 34 seconds, a full second less than the old mark of 35.

Joyce Talbot set three records for future swimmers of the senior girl's division. She had no opponents. She finished the backstroke in 30 seconds and no previous mark had been set. In the breaststroke, she took nearly 10 seconds off the record with a 31.8 time against the old record of 41.4. In the freestyle, she finished in 26.1 seconds. The old mark was 29.3.

Ellen Smith won all three events in the junior girls division competition to win the trophy. She was first in the freestyle, backstroke and breaststroke events. Pattie Fisher placed second in all three swims and Martha Glickman was third in the freestyle and backstroke events. Sharen Sage was third in the breaststroke trial.

The standings in the division had Ellen Smith on top with 15 points, Pattie Fisher second with nine points, Martha Glickman third with four points, and Sharen Sage fourth with two points.

Charles Roach won the junior boy's division with 11 points, just a point above Jerry Morgan's second place finish of 10 points. Norman Smith, Jerry Richburg, and Neal Mayberry were tied for third place, each having five points. Jimmy Collins and Larry Sage were fourth with two points each.

Smith won the breaststroke with Mayberry taking second and Sage placing third. Morgan was first in the freestyle event, followed by Roach, then Collins. In the backstroke, Roach was first followed by Richburg, then Mayberry.

DIVING EVENTS Morgan took the diving honors with 39.4 points. Roach was a close second with 37.4 points and

Heavy Rains Seen Up To 15 Inches

GALVESTON (AP)—Continuing downpours, on the heels of rains up to 15 inches, raised a specter of floods Saturday night in the wake of hurricane Debra.

Losses estimated placed damage in the millions from the tropical blow, which started breaking up late in the day after smacking into the Texas coast with winds as high as 105 m.p.h.

Forecasters warned against further heavy rains and squalls spreading northward into East Texas and extreme western Louisiana. A Weather Bureau advisory said local amounts of 10 to 15 inches were likely tonight and tomorrow.

"All interests in that area should watch for possible flood warnings from local Weather Bureau offices," the advisory cautioned.

Debra, little more than a day and a half old, lost hurricane force by midafternoon. Contradicting earlier predictions she would wane fast after hitting the mainland, the season's fourth tropical storm nevertheless maintained winds of hurricane strength for nearly 100 miles inland.

At Orange, in the center of a multi-million-dollar industrial complex near the southeast corner of Texas, more than 10 inches of rain flooded streets and low areas.

Houston, immediately north of Galveston, received 7.85 inches in two days.

Steady rains fell throughout the southeast quarter of Texas. Showers spread northward in the state past Waco, more than 200 miles from the Gulf of Mexico.

At nightfall the Weather Bureau reported light rainfall was general over Southeast Texas, and nearly every section of the state had received at least a few scattered showers.

As Debra ran out of steam, the Weather Bureau predicted winds and tides along the upper Texas coast would diminish gradually tonight. It still warned small craft to remain in port along the upper Texas and Western Louisiana coasts until the seas calmed.

By mid-afternoon when the center of the storm reached Cleveland, north of Houston, the highest winds dropped to 65 miles an hour, rain was falling in the "eye," and the U.S. Weather Bureau said Debra could no longer be considered a hurricane.

The hurricane winds, torrential downpours and six-foot tides accompanying Debra sent thousands of residents scurrying from homes along the coast to schools, court-houses and other public buildings.

Coast Guardsmen and sheriff's officers in Brazoria County sought seven persons reported missing in the storm - swept area.

They said there had been no further word from four members of a Sweeney, Tex., family since they left Chocolate Bayou, in Brazoria County, for Galveston Island in a cabin cruiser Thursday. In the party were Mr. and Mrs. Dale Loyacano, their son Ray and his wife.

Another search was in progress at Green's Lake, south of Hitchcock, for two Houston men identified only by the surnames of Ellender and Wheeler. Officers said the two were last seen aboard an outboard rig early yesterday.

Also reported missing was a man identified as Arthur Gillam, home town undetermined, from a fishing camp on Chocolate Bayou.

There was no word of any deaths in the storm. A fishing boat captain was injured at Freeport when 15-foot waves smashed his craft against a rock jetty.

Nixon Friendship Drive In High Gear

MOSCOW (AP)—Richard M. Nixon got his friendship mission into gear Saturday after two hectic days of acid Soviet criticism. The vice president was loudly applauded by 5,000 Soviets when he arrived for a hand-shaking tour of the Soviet agricultural and industrial exhibition.

Nixon easily turned aside the heckling of one tone Soviet. He traded friendship toasts with Agriculture Minister Vladimir Matkevich. He answered the Nations' grumbling about Captive Nations Week, observed in the United States for nations dominated by communism. This is the issue that got Nixon's mission off to a shaky start on his arrival Thursday.

In a busy day, Nixon called on First Deputy Premier Frol Kozlov and Anastas Mikoyan and then held his fifth meeting with his opponent in Friday's noisy public debate, Premier Nikita Khrushchev. The two will get down to secret talks in the Premier's villa outside Moscow Sunday.

Nixon also announced he will begin a two-day visit to Poland Aug. 2. This decision was reached in part because the Soviet Union refused to let him end his 11-day tour by flying out over eastern

Siberia. That region is studded with secret installations, air fields and naval bases.

Despite his public differences with Khrushchev, which were getting a general airing in the Soviet press, there was no show of public resentment when Nixon turned up at the Soviet exhibition. This show has been set up as a rival attraction to the U.S. exhibition in Moscow.

Nixon-K. Fuss Will Be Televised

NEW YORK (AP)—The video tape recording of the sizzling exchange between Vice President Richard M. Nixon and Soviet Premier Nikita Khrushchev was released Saturday night.

A snarl of confusion that reached halfway around the world and apparently involved State Department efforts not to offend the Russians had first threatened to delay indefinitely the first American showing.

Just exactly how it was all straightened out was not clear even yet, but the three major networks promptly scheduled the dramatic face-to-face wrangle on their 11 p.m. news shows. NBC will also show the tape in color Sunday at 6 p.m. EST.

They called wire services to announce they had received a go-ahead.

4 Radium Needles Stolen In Abilene

ABILENE, Tex. (AP)—Four radium needles which a doctor called "dangerous as an atomic explosion" were reported stolen from a doctor's office here Friday.

The needles emit gamma rays which can burn, sterilize, or kill a human being.

Police said they feared the burglars will discard the needles where they could be picked up by children.

Chief Rabbi Dies

JERUSALEM (AP)—Dr. Isaac Halevy Hertzog, 71, chief rabbi of Israel, died this morning after a long illness. Hertzog's son, Jacob, is now minister and charge d'affaires at the Israel Embassy in Washington.

Democratic Leaders List Coming Bills

WASHINGTON (AP)—Democratic leaders have put labor, housing, highway and civil rights legislation on the program for a stretch drive that could keep Congress running until Labor Day.

Also, if a satisfactory compromise can be worked out, Senate Democratic Leader Lyndon B. Johnson of Texas and Speaker of the House Sam Rayburn (D-Tex.) probably will agree to passage of a bill lifting the interest ceiling on long term government bonds.

But the two party leaders are satisfied to let the Eisenhower administration stew in the juice of the President's vetoes of wheat and tobacco bills.

If there is any wheat legislation—and Senate Republican Leader Everett M. Dirksen of Illinois said he thinks there may be—the impetus for it will have to come from President Eisenhower or Secretary of Agriculture Ezra Taft Benson.

What the House does with a labor anti-racketeering bill, which the Senate previously has passed, may have a great deal to do with the length of the congressional session.

Willow Jap Model Is New Miss Universe

LONG BEACH, Calif. (AP)—A willow Japanese fashion model first to give the Orient the Miss Universe title—Saturday began her reign "floating on a cloud and living a dream."

"I had to pinch myself to be sure it was not a dream," 22-year-old Akiko Kojima of Tokyo beamed upon awakening after her wildly acclaimed midnight selection.

She had snatched a few hours sleep with her four-foot Miss Universe trophy at the foot of her bed.

The 5-foot 6-inch beauty, with 37-23-38 measurements, cried "Oh, my gosh!" when she was announced the winner among the five finalists.

"I am, oh, so very happy," she said, tears shining in her eyes as 4,200 spectators rose and cheered.

Miss Kojima narrowly edged out Miss Norway, Jorunn Kristiansen, 18, for the title, which means \$10,000 in cash prizes, other awards and a year of touring the world.

Miss United States, Terry Lynn Huntington, 19, was third; Miss England, Pamela Anne Searle, 21, fourth, and Miss Brazil, Vera Ribeiro, 19, fifth.

Miss Kojima awakened on her first day as Miss Universe to find a crowd of reporters and photographers at her hotel room door.

Her reaction to winning? "Mainly disbelief," she said through an interpreter.

"When it came down to five finalists, I eliminated myself and considered it a toss-up among the others."

Dressed in a delicate white negligee and smoking a cigarette, Miss Kojima answered questions while her hairdresser worked on her shimmering dark hair.

Miss Kojima disclosed that she has received movie offers.

"I plan to make tests next week at Warner Bros. and 20th Century-Fox," she said.

"I would like to make a movie or two if I am asked, and then return to Japan for a visit."

But she said she would like to make the United States her home eventually, marry and raise a family. She said her true ambition is to be "a lovely wife."

Democratic Leaders List Coming Bills

The Democratic leaders agreed that some action must be taken on housing. Democrats on a Senate banking subcommittee are now holding hearings in an effort to discredit Eisenhower's veto of a housing measure he called extravagant and inflationary.

If the response is judged sufficient, an effort may be made to override the veto. This requires two-thirds approval of those voting in House and Senate. If support for the President's position seems solid, a bob-tailed housing bill may result.

A compromise measure to continue the interstate highway program, perhaps at a slower than anticipated pace, appears to be in the making. Eisenhower probably will get only part of the 1 1/2 cents a gallon gasoline tax increase he requested to help pay for the road-building.

Action on civil rights legislation still is up in the air in both houses. Johnson has been plugging for the Senate Judiciary Committee to clear a bill but Southern Democrats apparently intend to stall there until they see what the House does.

Reviewing The Big Spring Week

With Joe Pickle

Folks attached to the military have one thing in addition to the rest of us—besides draft and taxes, they are also certain that eventually they will be moved. Such is the case with Col. Kyle Riddle, wing commander at Webb AFB for the past two years. The popular CO has been tapped out for a command in Laon, France.

When the wheat marketing quota referendum was held on Thursday, heavy voting produced a total of five ballots (all favoring). This led wags to ask if there were any late returns.

Cosden put its enlarged polybutene plant, with doubled capacity, back on stream Friday and announced it was licensing its process to another manufacturer with almost unlimited raw materials supply. Incidentally Cosden's polybutene, marketed as Polyvis, has coined the circle of million dollar products—its sales now exceed a million dollars per year.

What's the matter with us? We've gone an entire week without rain. However, part of the county did get a brisk shower Thursday afternoon. Meanwhile, we've been getting more resort weather during the nights and early morning with temperatures setting new records in reaching a low of 55.

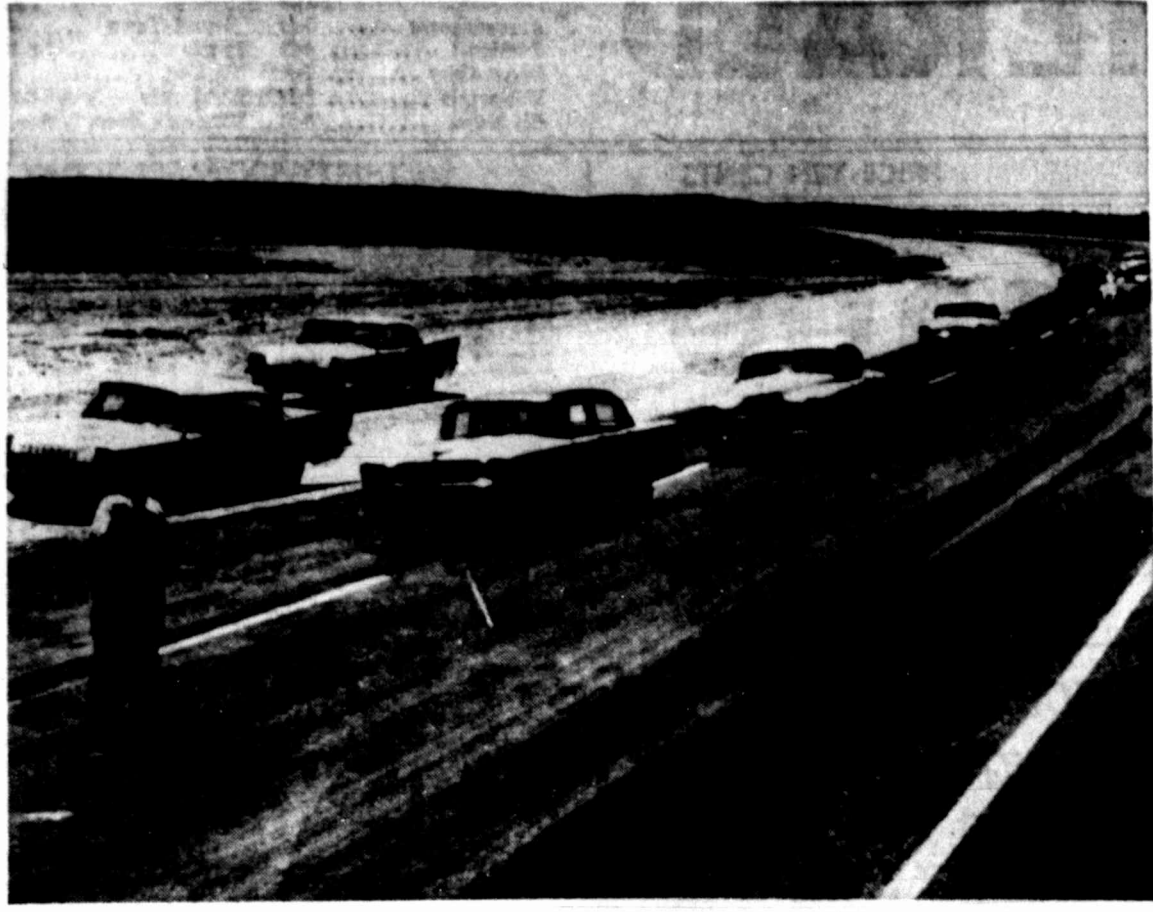

Gasoline prices eased off a cent to two cents during the week as majors moved to meet postings by two new retailers in the market area. Instead of breaking into a price war at this point, the new level seems to be stabilizing.

Contracts announced by the State Highway Department last week included \$145,515 for 8.5 miles of structures and paving on FM 2183 in Howard and Mitchell County. So far we haven't been able to find No. 2183 on our maps.

Andres Marquez, whose cold gunning wounded one man and killed another, drew his second 99-year sentence last week. This means in effect that he will not (See THE WEEK, Pg. 6-A, Col. 4)

Shirley Terry, the YMCA's 1959 Aquatic Queen, hands Billy Bob Satterwhite his trophy for winning the senior boy's division of the Ninth Annual YMCA Swim Meet. The other division winners are, from left, Ellen Smith, junior girl's winner; Satterwhite, Queen Shirley; Charles Roach, junior boy's winner; Joyce Talbot, senior girl's winner, and Brick Johnson, YMCA aquatics director.

Cosden Asphalt Used On Famous Test Track

Goodyear's specially designed track at Fort Stockton where life and ruggedness of tires are tried is paved with asphalt produced especially for such work by Cosden Petroleum Corp. It is a new blend of rubber and asphalt which could put the Big Spring corporation in the paving business in a new way.

Cosden Playing New Role In Tire And Pavement Experiment

Cosden is having a hand in the development of tires and possibly of new pavements.

Cosden Asphalt was used for paving of the Goodyear test track northeast of San Angelo, and Coltex — a member of the Cosden family — supplied the asphalt for

Firestone's track near Fort Stockton.

A third major track, advertised as the world's largest, is under construction at Uvalde, and even in this Coltex will have a part. A special flux oil for preparing the rock asphalt, which occurs in natural state in the Uvalde region, is supplied by Col-Tex to facilitate

mixing the material for highway purposes.

The San Angelo track is a perfect circle and is so engineered that, unless diverted by a gust of wind, an automobile can hold without steering to the center lane at 110 miles per hour. The track is 1.6 miles in diameter and five miles around, accommodating speeds up to 140 miles per hour. Firestone's Fort Stockton track is 8 miles in length and is of oval design, with long straightways. Having seen heavy duty, it is due for asphaltic concrete resurfacing in the near future.

In addition to providing tire tests, the Goodyear track, also is a means of evaluating rubber-asphalt blends for highway purposes.

A small per cent of rubber blended with asphalt has such beneficial results. For instance a thread of asphalt at freezing can be increased 13 times with addition of a small portion of rubber. The company also is planning to use a rubber blend in a 20-mile turnpike it plans to open soon. Since synthetic rubber is petroleum based as is asphalt, the experimentation has economic promise for this area.

Last year 13.3 per cent of Cosden's income came from asphalt sales, which ranked second in the company's dollar volume. About 35 per cent of the asphalt sales in Texas during the past year were made by Cosden.

Other Metals May Join In Steel Walkout

WASHINGTON (AP) — Government officials are worried that aluminum and copper industry strikes may soon develop as a companion to the 11-day steel strike — shutting down virtually all U.S. metal production.

Walkouts in aluminum or copper, or both, might cause President Eisenhower to reconsider invoking the Taft-Hartley law's national emergency provisions leading to court injunctions to suspend the strikes.

So far Eisenhower has steered clear of utilizing the law's 90-day strike-stopping powers. The White House apparently feels such a respite would merely postpone the labor-management showdown that must eventually and inevitably be faced. The theory is the same problems likely would exist after the 90 days ran out.

It is not lack of metal for defense and civilian industry that worries officials. There are no hard comfortable supplies of aluminum and copper, as there are of steel.

It is the collateral effect on the nation's economy that has officials most concerned. Already an estimated 78,000 workers in railroads, coal and allied industries have been idled by the steel strike. Without a steel labor settlement, and none now seems in prospect, the layoffs will grow.

If the approximately 120,000 aluminum and copper workers go out on strike, joining the 500,000 already-idled steelworkers, the job displacement figure could mushroom quickly to a million or more.

This would have its effects on purchasing power and dent the over-all national prosperity. Aluminum industry contracts run out next Friday midnight. Several unions including the steelworkers, already on strike against steel producers, are threatening a walkout. Union settlement proposals have been rejected in New York negotiations.

Major copper industry contracts expired June 30. The Mine, Mill and Smelter Workers Union, an independent, has been continuing work on a day-to-day basis.

Hit-Run Steamer

TAIPEI (AP) — The owner of a motorized fishing boat has complained to police that a hit-run steamer sank it off the northwest coast of Formosa. He said the crew of 10 would have drowned if they had not been rescued by other fishermen.

State Senate Can Solve Tax Issue, But May Take Its Time

By DAVE CHEAVENS
AUSTIN (AP)—If the State Senate wants to it can unravel the Texas tax tangle in short order next week. It probably doesn't want to, yet.

Some of the old knots that baffled solution in previous efforts to balance the budget with a big-enough revenue measure remain in the bill approved this week by the House.

The major question remains: will the Senate accept any form of natural gas pipeline tax?

The House wrote a token pipeline item into its bill with conservative members agreeing and liberals objecting that it was not enough. But they finally voted together in an action that showed real evidence of a spirit of compromise.

Will the same spirit hold in the Senate?

Up to this point the senators have balked at any sort of pipeline tax. A majority objects to the House bill provisions easing up on sulphur taxes and on a gasoline tax rebate for city buses.

It almost certainly will go along with the House on the numerous sales tax items approved in the measure voted Friday.

House Speaker Waggoner Carr made a statewide appeal for compromise as the special session ended its second week.

Carr, who has been an open foe of a natural gas pipeline tax, voted with the House majority when it gave 102-38 final passage to the revenue bill variously estimated at being worth 168 to 180 million dollars for the two-year fiscal period.

The House recessed until Tuesday. Its part of the new effort to solve the crisis was disposed of for the time.

The Senate returns Monday and the tax measure will be waiting. If some unexpected, immediate meeting of the minds takes place, it could join the House to passing the bill by a two-thirds majority to give it quick effect.

The House two-thirds vote was actually an effort to show that while its membership is not that close together on many specific items in the bill, it could join in hurrying up the process. Included was the hope that the Senate would, also.

YMCA Seeks More Entrants For Net Tournney Monday

Entries are still needed for the YMCA woman's tennis tournament scheduled to start Monday at the City Park.

There will be a division for senior girls (16 years and over) and another for junior girls (through 15). Only entry fee is a can of tennis balls.

A trophy will be given to the winner of the senior division singles, and a medal will go to the runner-up. Medals also will go to the winner of the junior singles division and to the champs in both junior and senior doubles. The entry list will be held open through Monday morning at the YMCA.

Biggest Rocket Stand Planned

AZUSA, Calif. (AP) — The free world's biggest rocket test stand — an eight-story tower capable of holding a cluster of rockets generating six million pounds of thrust — will be built at Edwards Air Force Base starting late this year.

Aerojet-General Corp. Saturday announced it had been given a contract to design the structure.

Initial plans call for a test stand that can handle two 1 1/4 million pound thrust liquid-rocket engines, now under development for the National Aeronautics and Space Administration. Later the stand will be expanded to support four of these engines.

The concrete and steel stand, perched on the side of a rocky cliff at the desert test center 100 miles north of Los Angeles, will have a 60-foot square opening for the rockets' exhaust.

MONEYLESS CAMPAIGN

YMCA To Enlist Volunteer Leaders

A campaign in which no money will be sought has its beginning Monday morning.

It is the YMCA Fishers of Men project in which volunteer leadership will be sought in connection with numerous special group activities at the Y.

The Kickoff is 7 a.m. Monday at Coker's, and workers, under half a dozen captains, will be on hand to receive material for their

four-day drive to enlist adults willing to help young people.

Organized along the lines of a conventional campaign, the effort is first for the Y as a means of obtaining adequate volunteer leadership.

Captains are George Oldham and Wayne Basden for one team, Mrs. Clyde Thomas Jr., Mrs. James Duncan, Mrs. J. D. Caudle, Ell McComb and Wade Choate. General chairman is Joe Peckle.

Report meetings are scheduled for Monday, Wednesday at 5:15 p.m., and the victory dinner is set up for Thursday evening at the First Presbyterian Church.

Stanton Needs Three Teachers

STANTON—Stanton schools are scheduled to open for the 1959-60 school year on Aug. 31.

Three teachers are needed to complete the faculty for the new school year. L. M. Hays, superintendent, said this week.

Hays said a junior high physical education instructor is needed as well as a fifth grade teacher and a combination first and second grade teacher.

Three new teachers have been employed for the new school year. They include Mrs. Hazel Pruitt of Midland, who will teach commercial subjects in high school. She is formerly of Ballinger, Melburn Wright Jr. has been employed as the vocational agriculture instructor. He came to Stanton from Miles and is a graduate of Texas Tech, Lubbock. Another high school English teacher has also been employed.

Other teachers who are to return are Jimmy Bickley, High school principal; Jim Read, science; Mrs. Bertha Schwabe, math and Spanish; Harold Dauphin, coach; John Bailey, assistant coach; Peggy Edgar, physical education; Mrs. Florene King, homemaking; Jack Gray, bands; Jimmy Smith, science and higher math; Mrs. Corrine Cagle, English. Elementary teachers who are scheduled to teach again are J. M. Yater, principal; Mrs. Maude Echols, Jack Scannell, Mr. and Mrs. Floyd Sorley, Mrs. John Wood, Mrs. J. C. Epley, Mrs. Evelyn Lankford, Mrs. Bethany Barbee, Geneva Middleton, Mrs. Phil Berry, Mrs. Obera Gray, Mrs. H. H. Deck, Shirley Hopewell and Mrs. L. M. Hays.

Newspapers Grow

FORT WORTH (AP) — Texas newspapers are pouring more than \$10,000,000 into new and expanded plants and machinery in 1959, to handle their biggest year's business and prepare for a still larger year in 1960.

This was reported today by Phil North, president of the Texas Daily Newspaper Assn. as the TDNA prepared to hold its annual summer convention in Fort Worth Aug. 2-4.

Common Tongue

MONTREUX, Switzerland. (AP)—Two rulers from opposite sides of the Arab world chatted in ancient Koranic Arabic at a tea party here this week. Morocco's King Mohammed V, the host, and Sheik Abdullah Thani of Qatar found it was their only common tongue.

Could Be Handy Sometime

Jimmy Parks, shown above, is by occupation a state highway patrolman stationed in Howard County. For a short time each year, he is Acting Sgt. Jimmy Parks, U. S. Marine Corps, reserve. That's what he is right now and he is in San Diego, Calif., for summer training. While there, Jimmy has chalked up the distinction of being the best M-1 rifle shot in the entire 91st Infantry. In the photograph, he is shown as he scored another bulls-eye—the kind of shooting that brought him a score of 232 out of a possible 250. Parks is not likely to lose using a M-1 rifle as a patrolman but it is a very acceptable talent for a peace officer to be so expert with firearms.

COLORFUL CAREER

Veteran Army Man Will Make His Home In City

After a long and colorful career in the Army, Edward G. Gaffney is settling down in Big Spring.

He and his wife, Suzanne Marie, are at home at 1420 Tucson Road.

At a formal retreat, Col. Karl L. Scherer, commanding officer of the Boston Army Base, presented Gaffney with a certificate of commendation as he stepped out as a master sergeant and general supply specialist. He also holds a reserve rank as captain.

This completes an Army career that started for Gaffney when he enlisted Sept. 25, 1923 with Company C, 124th Infantry, Illinois National Guard. He joined the regular Army first in June 1927, and served with Co. C, 21st Infantry at Schofield Barracks, Hawaii, where he remained for two years.

After rejoining the National Guard in Illinois, he remained with them until they were federalized in 1941. The following June he was commissioned a second lieutenant, infantry, A. U. S. at Officers' Candidate School, Ft. Benning, Ga., and was assigned duty as Bn. S-4 with the 918th Air Base Security Bn., Camp Swift, Tex.

BECOMES CAPTAIN

His overseas duty during World War II took him to Europe by way of England and then France, where he was eventually promoted to captain. As post engineer officer, Chartres, France, he supervised the construction of a POW inclosure to house and feed 45,000 German prisoners. In August 1945 he turned the inclosure over to the French government and moved to Ophem, Belgium, where he set up a Disciplinary Training Center for U. S. prisoners.

He returned to the U. S. A. March 1946 for 45 days temporary duty and returned to Wurzburg, Germany, as his training center had been moved by air when he was in the States. The center was disbanded in June 1947 and the remaining prisoners were turned over to the Military Prison at Mannheim, Germany. Gaffney was then assigned as officer in charge of all military and civilian clubs in the Wurzburg military post.

In October 1947 he was returned again to the U. S. A. and was assigned as company commander of a training company in the 3rd Armored Division, Ft. Knox, Ky.

He was separated from active duty as an officer on March 25, 1950, and re-enlisted as a master sergeant, holding the reserve commission of a captain. He returned overseas March 1953 to Korea as battalion supply sergeant, 140th Tank Co., 40th Infantry Division. Once more he returned to U. S. A. June 1954 and was assigned to Battery A, 881st FA Bn., Ft. Dix, N. J. In October 1955 he was re-assigned to his present and final assignment of a long and colorful career.

WOUNDED IN KOREA

He was wounded in Korea June 7, 1953, for which he received the Purple Heart and was also awarded the Bronze Star for Meritorious Service in March 1954.

EDWARD G. GAFFNEY

In addition he has been awarded the following decorations: Good Conduct, American Defense, American Theater, European Theater, WW II Victory, WW II Occupation, National Defense Service, Korean Theater, and the United Nations Service Medals.

He is a graduate of Columbus School, Ottawa, Ill., and attended Brown's Business School there. He completed courses from International Correspondence School and passed the College Level Test through the GED Testing System. While stationed at Boston Army Base he attended the Museum of Fine Arts School, where he studied painting and drawing at Boston, Mass.

Latest Model Duster Plane Is In Service

LAMESA—One of the first five production models of a newly designed crop dusting plane made its debut in Lamesa Friday. The plane, owned by Howard Chapman and Bill Spires is a "Piper Pawnee."

Dub Briley, who will pilot the plane, stated that it is designed especially for crop dusting and spraying and has many safety features not found in other airplanes.

Briley pointed out the reinforced cockpit, a "wire cutter" and the placement of the hopper over the center of gravity. The "wire cutter" is a small cable which runs from the cockpit to the tip of the rudder and allows the plane to be flown under utility wires without becoming entangled. The placement of the hopper makes the plane more stable with or without the payload.

The plane, which is powered by a 150 horsepower Lycoming engine, is one of five which were flown to Lubbock from the Piper factory in Lockhaven, Pa., Thursday.

MEN IN SERVICE

Pvt. Gary D. Rhea, son of Mr. and Mrs. George H. Rhea of Ackery, recently completed the food service course at Ft. Ord, Calif. Rhea received training in cooking, baking, meat cutting, and operating a field kitchen. He has been in the Army since last December and is a graduate of Ackery High School.

Pvt. Leonard Farmer, son of Mr. and Mrs. Leonard L. Farmer of Lamesa, has completed eight weeks of advanced individual armor training under the Reserve Forces Act at Ft. Knox, Ky. During this phase of training, Farmer qualified as a driver of the Army's medium tank, passed proficiency tests with 30 and .50 caliber machine guns and qualified as a gunner with the 90 mm tank gun.

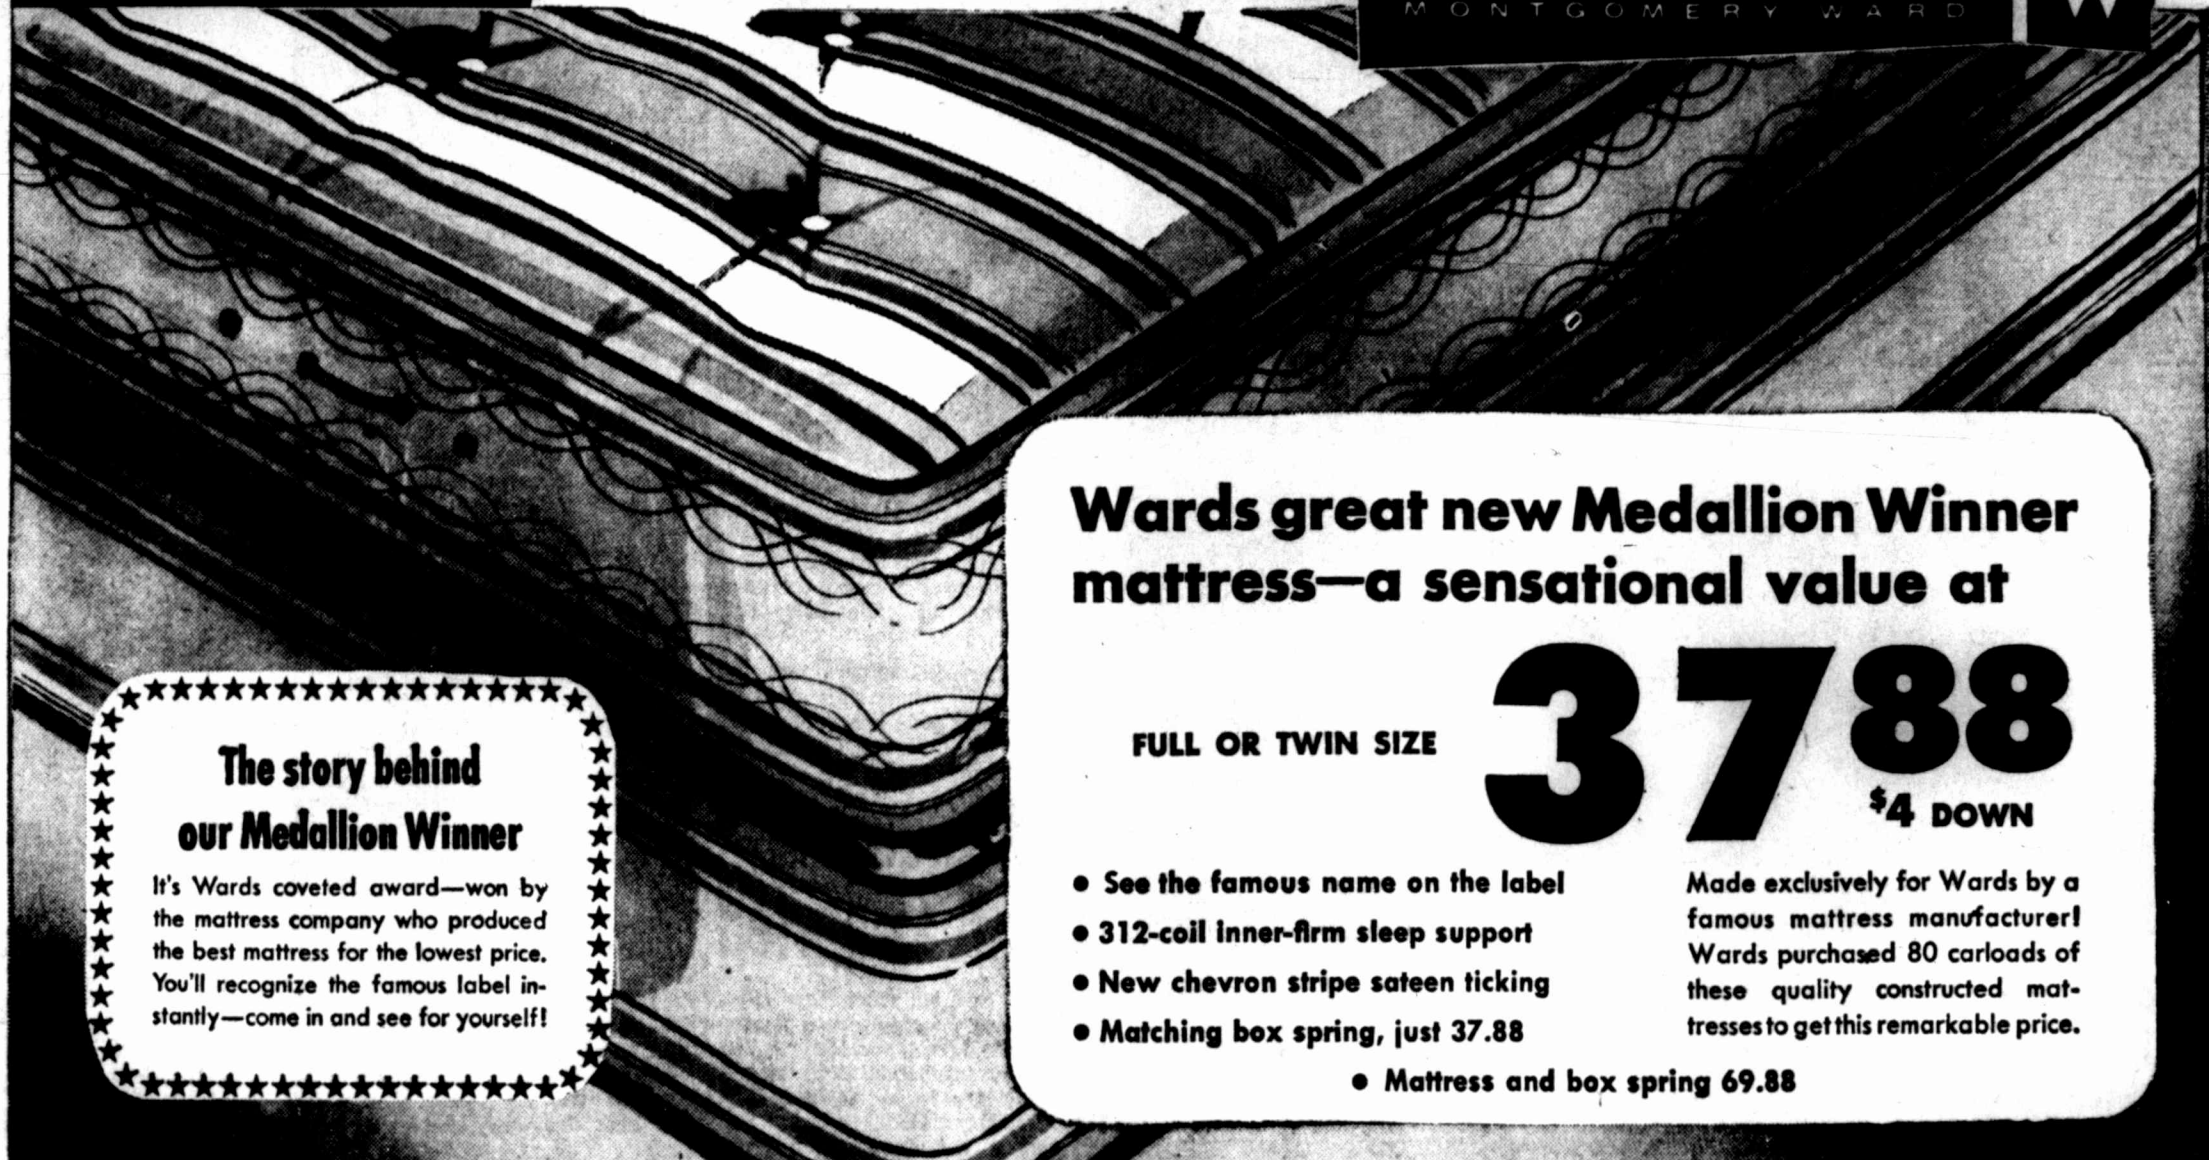

2nd Lt. Sherrod D. Dunn, son of Mr. and Mrs. William R. Dunn of Lamesa, has completed the Army officer basic course at the Engineer School at Ft. Belvoir, Va. He is a 1954 graduate of Lamesa High School and a '59 graduate of Texas A&M. Lt. Dunn received training in logistics, administration, building and airfield construction, and combat tactics and techniques.

Pvt. Donald R. Cole has completed eight weeks of military police training at Ft. Gordon, Ga. He is the son of Mrs. Lela Malone of Lamesa. During his training, Cole received instruction in traffic control, civil and military law, map reading, and self defense.

Mechanical Dragon Breathes Fire And Weeds Perish

Texas & Pacific Railroad's version of a flame thrower attracted attention as it crawled along the tracks in the Big Spring yards. It left in its wake seared and weedless ground. In other years, when rains were less abundant and growth of modest proportions, the services of this fire-spewing mechanical monster were in little demand. Now it stays on the job with regularity.

DECISION AUG. 11

4 Additional Classrooms At Marcy School Being Studied

Three important matters are to be decided by the Big Spring Independent School district board at its next regular meeting on Aug. 11. The board will consider the 1959-60 budget and approve the final draft. It will select a successor on the board to replace Omar Jones, who recently resigned. It will study whether an alternate bid by J. D. Jones Construction Co., by which four additional classrooms can be added to Marcy Elementary School be reactivated. The board was to have met on July 30 but it was decided not to

meet again until the regular meeting date which will be Aug. 11. The budget will be ready for the board's action at that time. At the same meeting, the board will schedule public hearings on the budget for the night of Aug. 13. Several persons are being considered for the vacancy on the school board left by Jones' resignation. No decision has as yet been reached. The proposal to take advantage of the alternate bid on Marcy school building, which would provide four additional classrooms, is impelled by the growing problem of available school facilities for the many families who now make their

homes within a short distance of this new school. Marcy is being built with federal funds to provide school facilities for the children of Air Force personnel who live in the Capehart Addition. As a result of this specific designation, the children in the Douglas Addition and adjacent subdivisions which have been built up in the area will have to go either to Park Hill or to College Heights elementary schools. Jones, in his alternate bid at the time he was awarded contract for the school, now being constructed, offered to build the four additional classrooms for \$38,700. The four classrooms if built would have to be paid for out of city school funds—no federal money could be used for the addition. They would accommodate approximately 120 pupils. Marcy school is being pushed for completion as soon as possible to serve the Capehart families who are already established in the airport housing area.

DA To Discuss Law On Libel At Press Meeting

One of the extra worries of the Fourth Estate will be aired at the West Texas Press Association convention here Aug. 6-7-8.

E. C. Grindstaff, district attorney of the 11th Judicial District including Tom Green, Runnels, Coleman and Concho Counties, will lead a panel on libel. The topic: "Is It Libelous? Why? Why Not?" Several newsmen also will appear on the panel.

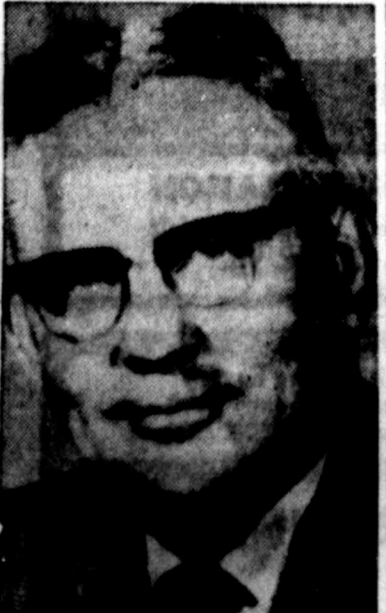

Problems dealing with news coverage, employe relations, public affairs, etc. will be on the convention program prepared by Francis Perry, Ballinger, first vice president.

Grindstaff began his career as a rural school teacher in Runnels County. In 1935 he was elected county school superintendent and served in that office for six years. He became county judge of Runnels County in 1941 and served in that office until November 1951 when he was appointed district attorney, which he is still serving.

In addition to his political career, he has been extremely active in the Baptist Church, teaching a Sunday School class and a prominent lay speaker at numerous church programs and conventions.

He is a member of the Ballinger Lions Club and in 1946 was elected to serve District 2A as governor for one year. He has held many other places of importance in his club.

He has been active in Boy Scout

LIFE ON THE PLAINS

Lamesa Pioneer's Book Recalls High Adventure

LAMESA — Vivid memoirs of an old-time plainsman and cowboy, S. R. Simpson are related in his recently completed book, "Llano Estacado", or the Plains of West Texas, published by Naylor and Company, San Antonio. Mr. Simpson, a native Texan who has retired and lives in Lamesa, ranching, rodeo and roped all over West Texas in what was "undoubtedly the good old days." Because of his desire to leave some kind of written record of the things that occurred during the 63 years he spent in this area, he became a lost history. Simpson compiled his book, valuable for its history and its entertainment facets.

THIN VOLUME

The fact that Simpson's book is a small one, only 38 pages long, does not mean it is thin in content. It is filled with reminiscences of the many men who have crossed his path. There are Indians, rustlings, gun fights, hold-ups and murders to furnish all the salty ingredients of early days in West Texas.

On the humorous side is the story of a young lady who had a rifle with a bent barrel and thought, therefore, it would shoot around the corner. There is the tale of the handsome and brave dog of doubtful ancestry who became adept at bulldozing buffalo.

The Lamesa author was on "first name" terms with many of the men who gave the Plains their true and inimitable character, and

was himself, one of the important men who endowed West Texas with its peculiar, lasting and fascinating qualities.

Ross Simpson came to West Texas in June, 1893, with his father, G. W. Simpson, who settled on what is known as Tobacco Creek about 25 miles southeast of Lamesa when he was six years old.

He tells that the nearest post office and shopping facilities were at Gall, county seat of Borden County. It was the only post office between Big Spring and Lubbock, and Snyder on the east and Carlsbad, N. M., on the west, then known as Eddy.

At that time Gall was larger than Lubbock; the 1890 census showed Borden County with a population of 222, and Lubbock County, 33.

In March, 1905, Dawson County was organized. Simpson's father wanted to move his family once more, so they settled in Lamesa where "Simpson" remains a familiar name.

VISITS DICK WARE

During the year of 1899, Mr. Simpson accompanied his father to visit R. C. (Dick) Ware at his ranch in Borden County. During the conversation, the subject of Ware's participation in the gunfight at Round Rock where he killed Sam Bass was introduced and Ware showed the .45 Colt pistol with which he killed Bass to the Simpsons. Ware was a Texas Ranger for many years, and later was sheriff at Colorado City.

Simpson relates his work on ranches on the Plains until February, 1913 when he went to Dallas and obtained the first agency for Ford automobiles in Dawson, Borden and Gaines Counties. The "touring car" he drove back was equipped with carbide lights, 30x3 inch tires in front and 30x3 1/2 inch in rear, and no spare tires. There were no paved roads between Dallas and Lamesa, and part of the route consisted of winding roads through pastures. It took about three days to make the trip, but that was the fastest Simpson had ever traveled except on a train.

It was 11 years later that the Lamesa car dealer went into ranching and then into oil. The Simpsons have four children; Mrs. George Hoy and Mrs. Sam Joliffe Jr. of Midland, Mrs. Milton Brady, Crystal City, and Harold Simpson of Houston.

The original painting for the jacket and the book cover were done by his niece, Mrs. George Hart of Lamesa.

Ex-Resident's Death Reported

Bryan Barnett, 63, former Howard County resident, died Thursday in the Livermore (Calif.) Veterans Administration Hospital.

Rites were to be conducted at the Military Cemetery in San Francisco, but other details of arrangements were not known here. Mr. Barnett had been hospitalized for the past seven years. Just prior to entering the hospital, he worked for an ammonia company and was on the verge of retiring. He was a member of a pioneer Howard County family and his family lived in the vicinity of the twin mountains in southeastern Howard County for approximately three decades. Mr. Barnett left here approximately 20 years ago. He was born in August of 1896 and was a veteran of World War I.

Soviet Exhibition Books Glimpsed In

NEW YORK (AP)—Books on display at the Soviet exhibition here have been encased in glass on the ground that excessive thumbing through them by visitors is wearing them out.

This developed at about the time the Soviets in Moscow obtained the removal from the U.S. exhibition there of books containing ideas unpalatable to them. There was no indication that U.S. officials had requested removal of any books from the Soviet exhibit.

A spokesman for the Soviet exhibition said the books shown here were not intended for reading by visitors but simply were displayed as samples of what the Soviets are producing.

A Pat on the Back

For Mr. And Mrs. Heine Roger

If patients and staff members at the Big Spring State Hospital were to enumerate their favorite people, high on the list would be the Henry Roger family.

For three years now Mr. and Mrs. Roger and their sons — as Heine's Band — have been playing music for the hospital functions and dances, all because they love music and love people. Before that, Heine played in other bands entertaining the patients.

This gratuitous service is only part of their endeavors, for most have found time to be busy in other community services. For instance, Mrs. Roger has been active in such things as P-TA units, the Big Spring Rebekah Lodge for which she is financial secretary.

Heine Roger is a native of Germany and studied music for 12 years, including the Brunswick Conservatory, before coming to the United States in 1922 as a music teacher in Montana. He played with the L. G. Bond Circus band and numerous orchestras until he landed in San Angelo. There he met Miss Evelyn Thomas, and they eloped Aug. 18, 1931, to Lovington, N.M., and were married. They came to Big Spring not long afterwards. For 15 years he has been associated with the Thorp Paint and Paper Store.

In the family band, Heine plays the violin and trumpet (and can play any instrument for that matter). Mrs. Roger is the pianist. Bill, now in the Air Force, plays trombone and the drums; Tommy, the saxophone and clarinet; Jim, the trumpet; and Bob, only five years old, has worn out his first set of drums. Although not in the band, Mrs. Billy Scott, their eldest daughter, is pianist for the North Side Baptist Church, and the three other girls, Mrs. Don Brashears, Mary and Becky Roger, of Big Spring, can all play the piano.

Mr. and Mrs. Roger are members of the St. Paul Lutheran Church and are always big hearted enough to help other folks, especially like those at the state hospital.

We always have time for you!

Mr. And Mrs. Heine Roger Have Time To Serve Their Community We Always Have Time To Serve You.

Shopping Food Ads Helps You Feed The Family Better

Smart lady. She knows she can feed her family better yet spend less on the grocery budget when she studies food store advertising thoroughly before starting her shopping trip. Local super markets know, too, the best way to reach more families is through regular advertising in The Herald. Over 10,000 copies daily, delivered into the home to be read at leisure. The cost is less, you can reach the 10,000 area homes for about 1 1/2c each. Call The Herald now, plan to interest the family food shopper in your store with low cost, result producing Herald advertising.

Read The Food Ads Regularly In **BIG SPRING DAILY HERALD**

Modern Electronic Way To Learn Foreign Language

Big Spring High School, in cooperation with the National Defense Education Act, is to install a "language laboratory" to broaden opportunities of students to learn French and Spanish. Shown in the photo is a typical laboratory such as will be provided here. Lower photo shows the master controls where the instructor sits and by which he can communicate with any student without interrupting the studies of the others. The laboratory will be a part of a broadened program for math, science and modern languages the schools are to install with the financial help of the NDEA.

MASS OF NEW MATERIAL

Big Spring Schools Broaden Math, Science, Modern Language Courses

By SAM BLACKBURN
Orders for \$29,000 worth of science and math instructional and laboratory materials to supplement existing facilities for these courses in the Big Spring City Schools have been dispatched to manufacturers and distributors. This is the first of a series of orders for extra material and equipment to broaden educational opportunities in science, math and modern foreign languages in the city schools. Additional purchases will be made throughout the remainder of this year and next year. Ultimately \$100,000 will be expended in the work. The orders sent last week were in accordance with authority established by the administration officials by the school board at its last meeting. At that meeting the board voted to broaden the participation of the schools with the National Defense Education Act immediately. As a result, the funds available for immediate expenditure were increased by \$20,000 and \$15,000 was added to the 1959-60 budget. A \$15,000 budget item for this purpose was already in the current budget.

PROMPT ACTION
It was urgent that the schools take prompt action if they desired to benefit from NDEA cooperation this coming year, it was explained. In order to qualify for NDEA participation at this time, orders for materials had to be placed before Aug. 31.

Under NDEA schools which set about improving their facilities for teaching math, science and modern languages are entitled to receive financial assistance from the federal agency on the basis of \$1 for \$1. Thus the \$50,000 which has been set up in the school budget for this year and next will actually buy \$100,000 worth of equipment, facilities and material for expanding the teaching opportunities in the three categories named. The board earmarked \$20,000 immediately available for this purpose. The school officials have already ordered \$29,000 worth of equipment for science and math — half of which will be paid for by NDEA.

LANGUAGE LABORATORY
No steps have been taken as yet toward the improvement of the modern foreign language department, but Parsons said orders will be placed before Aug. 31 for the material and equipment needed for this enterprise. He explained that

the program, as now contemplated, involved only a choice of French or Spanish and will not be extended to the first six grades of school. Later these grades may be brought into the picture. Typical of the highly interesting approach the NDEA offers to the problem of better teaching of foreign languages will be the establishment of a language laboratory at senior high. Such a laboratory would feature 15 "listening" booths—individual areas in which a student would sit. Tape recorders, record players and kindred audio equipment would reproduce lessons and grammatical rules in the specific language—both in that language and translated into English. It will also be possible for a student in one booth to communicate with fellow students in other booths in the language being studied to speed up vocal comprehension and pronunciation.

There is no reason, it was pointed out, why the same equipment (even though NDEA might not participate in such a program) could not be employed in the teaching of Latin, German or any other language for which there may be a logical and essential demand.

Such a laboratory for modern foreign language will cost approximately \$6,000 and half of the cost will be borne by NDEA.

Actually \$8,000 is set up (NDEA and local) for this part of the program. An allocation of \$1,000 is earmarked for similar facilities in the grades 1 through 6 but for the present time, no plans are made to activate this feature.

FUNDS NOW AVAILABLE

At the present time, Parsons said that funds earmarked under the NDEA program call for expenditure of \$11,832 for elementary science, (grades 1 to 6); \$12,307 for junior high science (grades 7-9); biology, chemistry and physics (high school) \$20,519; math (grades 1 to 6) \$4,305; math (grades 7-12) \$1,719; modern foreign language, (1-6) \$1,000 (not activated); modern foreign languages grades (7-12) \$8,000.

These are not all of the projects being planned in cooperation with the NDEA. Provision is made in the legislation for financial basis on a dollar for dollar basis for remodeling school plants to better serve the needs of an expanded program in the three subjects listed.

The Big Spring schools will ask for funds to remodel the elementary science departments of the schools—such changes as addition of essential storage rooms, installation of sinks and provision of supply cabinets. This job is set up

\$237,000 REA Loan Is Made To Tulia Coop

MOHOLE — IV

Core Operators Have Their Troubles In Ocean Searches

By LEONARD ENGEL
Copyright, 1959.
By The Associated Press

ABOARD RESEARCH VESSEL VEMA (AP)—The most inaccessible region on earth is the bottom of the ocean.

Submarines have gone as deep as 1,000 feet. The bathyscap—a special vehicle for deepwater diving—has been down to 13,000 feet. Vast reaches of the ocean are 18,000 feet deep or more. In the Marianas Trench west of Guam, British and Soviet research ships have sounded the almost unbelievable depth of 36,000 feet—deep enough to bury Mt. Everest, with a mile and a quarter to spare. In spite of its inaccessibility, the ocean floor is being made to reveal its secrets. Submarine mountains more massive than any on land; canyons dwarfing the Grand Canyon of the Colorado; plains that stretch for hundreds of miles without a rise of as much as a foot; delicate starfish and other forms of life marvelously adapted to the dark, near-freezing waters and thousands of pounds per square inch pressures of the ocean floor.

Oceanographers visit this strange, hidden world with the eyes, ears and hands of science—instruments that can go places and do things impossible to man himself. While I was aboard the Columbia University research ship Vema, one or another device for exploring the ocean bottom was constantly in operation.

Vema and three other ocean research craft were trying to find a good drilling site as the first step toward a historic sea-exploration project: the bold Mohole scheme for drilling a hole through the earth's crust beneath the sea. "We won't know for some months whether a good place for the Mohole has been found," declares Dr. Arthur Maxwell of the Office of Naval Research, co-sponsor, with the National Science Foundation, of the Mohole survey. "By the time the data collected is analyzed, however, no area of the ocean will be better known than the survey area of the Atlantic north of Puerto Rico."

A key bottom-exploration pool is the echo depth finder, an ear that hears the depth of the water.

Another device, the thermograd, can be put down to the bottom to feel and record temperatures within the ocean floor, and tell, for instance, whether volcanic activity is taking place near by. An eye for viewing the ocean floor is furnished by the bottom camera.

But the most striking tool for probing the bottom is a 40-foot piece of steel pipe surmounted by a finned weight shaped like a foreshortened rocket. This is the piston corer. Gravity and an ingenious piston arrangement drive it up to 80 feet into the ocean floor and punch out rod-shaped samples of the layers of mud and sediment forming the sea bottom.

Cores brought back by the 1½-ton machine reveal not only the nature of the ocean floor but hidden chapters from earth's book of history.

During the Mohole survey, Vema averaged a score every other day. Analyzing the core samples will take several months. Tension al-

ways mounted, aboard the ship when the three-man coring gang turned on the powerful diesel motor of the winch that pays out the miles-long heavy steel cable carrying the corer.

The corer often comes up badly bent from its jarring encounter with the ocean bottom. Moreover, there is the ever-present possibility of the cable breaking—an accident that at least means loss of the corer and thousands of feet of snarled cable, and can send the cable whipping across the deck like a lethal snake. (End of a series)

"PHYSICIANS TRUST ENTIRELY TO THE DRUGGISTS"

(Author's Name Below)

About fifty years after the birth of Christ, Pliny, the elder, warned of the danger of obtaining medicines from unreliable sources or people whose only interest in their sale was the profit to be made. He explained that physicians trust druggists who have a professional reputation to cherish and preserve.

There have always been some thoughtless or money-hungry people attempting to sell medicines, even though they have no knowledge of the problems involved. The simplest medicine requires proper cautions against possible dangerous misuse. We pharmacists have the knowledge to protect you.

YOUR PHYSICIAN CAN PHONE 905 Johnson AM 4-2506 WHEN YOU NEED A MEDICINE

Pick up your prescription if shopping near us, or let us deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

people who are at home with quality...choose GAS air conditioning!

Whether the day is blistering hot or cold and blustery, pass through a doorway that promises gracious living and you're likely to find an atmosphere made miraculously fresh and comfortable through the marvel of Arko-Serve GAS all-year air conditioning. Never before has there been an air conditioning system so technically simple, yet so compactly efficient. From the same space-saving unit, it heats and cools with a single fuel... a tiny Gas flame provides the energy for both winter heating and summer cooling. Because it operates on the absorption principle of refrigeration, there are no moving parts, your assurance of unrivaled quiet and years of trouble-free operation. And here's the Bonus Advantage of superior GAS air conditioning... operating costs are far below those of comparable units using other types of energy! All this with a five-year guarantee, too! Contact Pioneer Natural Gas Company tomorrow for all the facts on remarkable GAS air conditioning. It offers exciting proof that "where the finest is truly appreciated, Gas belongs!"

DEAR ABBY

NUMB OR DUMB

By ABIGAIL VAN BUREN

DEAR ABBY: I would appreciate some advice from you or any of your readers who have had my kind of trouble. My husband hit me last night. My eye is swollen shut and half my face is black and blue. I don't dare go home to my parents now because they would pressure me into filing for divorce.

We have been married for two years and have a baby a year old. My husband apologized.

I want to know if any other wife whose husband hit her was able to straighten out her marriage enough to make a success of it.

DEAR WAITING: Common sense dictates that when a marriage is at stake, it is always wise to give your mate a second chance. But if a woman sticks around after having been hit twice — she's either numb or dumb.

DEAR ABBY: I married when I was 18 and I now have two children. The oldest is 14 months old and the baby is four months. I just found out I am pregnant again. The last thing on earth I want right now is another baby. I am so worn out from having them so close together I am ready for a nervous breakdown. My husband isn't working steady and his people and mine live too far away to help me. The church I was raised in doesn't allow birth control. Can you help me?

SALLY: DEAR SALLY: You have to help yourself. If your church doesn't allow BIRTH CONTROL you will have to rely on SELF-CONTROL.

DEAR ABBY: After seven years of a childless marriage and running to doctors, my husband and I are giving up hope of ever having our own baby. I have tried to talk him into trying to adopt one. My husband says he doesn't want to run the risk of getting a child who might grow up to be abnormal.

We have friends who have had wonderful luck with adopted children. But my husband thinks we won't be that lucky. How can I convince him to put our names in for adoption?

WANTING A FAMILY: DEAR WANTING: Your husband surely is aware that parents have no guarantee that their own child will grow up to be "normal." Thousands of couples have known more happiness from their adopted children than parents who have had their own.

Yes, and there are even folks who have intentionally adopted a handicapped child. That is the noblest act of all.

DEAR ABBY: Our 17-year-old daughter has accepted a friendship ring from a boy of whom we approve. But Abby, she wears this ring on her engagement finger and she is telling everyone that she is "engaged."

It was not our intention to allow her to become engaged. She has four years of college ahead of her and the boy has college and the Army ahead of him. Should a friendship ring be worn on the engagement finger? We are proper people.

MRS. K.: DEAR MRS. K.: A friendship ring should be worn either on a chain around the neck, or on any finger other than the "engagement" finger. Don't be disturbed because your daughter is telling

people she is "engaged." The official announcement (among proper people) must come from the parents.

For a personal reply, write to ABBY in care of The Big Spring Herald. Enclose a self-addressed, stamped envelope.

Savings Bond Sales Average

Through June, District No. 14 of the El Paso area had achieved 44.4 per cent of its U. S. Savings Bonds quota for the year. Sales of \$133,881 in June brought the year's total to \$71,011. State sales for the period were \$12,562,917 and \$81,960,464, or 44.9 per cent of quota.

Sales in the district during June, the cumulative total and percent-

ages were: Andrews \$5,447 and \$28,064 for 42.5; Dawson \$5,594 and \$110,672 for 97.1; Gaines \$6,041 and \$76,475 for 54.6; Howard \$91,790 and \$346,333 for 40.6; Martin \$2,763 and \$11,180 for 29.8; Mitchell \$11,500 and \$11,553 for 49.8; and Scurry \$10,652 and \$149,372 for 34.9.

Other area counties outside the district included Sterling \$522 and \$5,819 for 29.1; Midland \$40,068 and \$265,875 for 24.9; Ector \$35,816 and \$254,739 for 24; Tom Green \$45,042 and \$440,233 for 33.1 per cent.

Still More Money Needed For Old Settlers Picnic

More contributions were received Saturday as preparations for the annual Old Settlers reunion began to take final shape.

Harold Choate, president, said that so far as he could tell arrangements were well in hand. The big bean picking party is scheduled for Wednesday night at the home of Melvin Choate. Meat has

been ordered for the traditional barbecue.

The Old Settlers dance this year will be held at the Stampedede, a mile and a half out on the Snyder highway, and Hoyle Nix and his West Texas Cowboys, long a favorite with the group, will furnish the music. The affair, of course, is open to the public. The program will consist pri-

marily of old friends visiting with each other and reliving the incidents of long, long ago. More help is still needed in financing the undertaking, and donors may mail them to Choate at Box 1387, or hand them to T. S. Currie Jr., at the State National Bank or to Melvin Choate.

Latest donors include Rupert P. Ricker, \$25; Casey Bros. \$15; E. T. O'Daniel, Pinkie's, Anonymous and Ed Fisher, \$10; A. L. Cooper, Walker Bailey, J. L. Balch, G. H. Hayward, Kent Carpenter, S. M. Smith, Mellinger's, Jack Tibbs, and Mr. and Mrs. Lois Madison, \$5;

Eugene Long, Jackie McKinney, Dr. T. M. Collins, \$3; John Kilpatrick, \$2; Gordon Montgomery, \$1.50.

Hammins Have Son

Mr. and Mrs. Gene Hammin, 2207 Johnson, are the parents of a son, Bobby Gene, born at 12:15 p.m. Friday at Cowper Hospital. The infant weighed 7 pounds, 14 ounces. Grandparents are Mr. and Mrs. Brodie Cain, Big Spring. The baby has a sister, Linda, 12, and a brother, Charles, 9.

Two Cases On Civil Docket

Only two cases remained on the docket for this week's session of civil trials in 118th District Court.

Eleven cases were originally scheduled, but all but the two have been passed or settled.

First case scheduled, Truman Rogers versus Standard Accident Insurance Co., is a compensation suit arising from an accident occurring in 1958. The other case, John H. Benefield versus Tarbox-Gosssett, is a damage case.

Rogers, in his petition, claimed he was injured while working for Newsom's Super Market No. 2 on June 20, 1958. He claimed he was carrying a quarter of beef when he slipped and fell, hurting his back. He is asking \$51 per week for 401 weeks.

In the other case docketed, Benefield said he owned a 1958 Thunderbird and that R. L. Collins at Tarbox-Gosssett was to sell it for him. However, the suit claimed that a Jack Jones was driving the car on Oct. 11, 1958, and was in a collision.

Benefield claimed the car was worth \$5,000 before the accident but only worth \$2,500 afterwards. He is asking \$2,500 in damages.

W. Texas Firms Land Contracts

West Texas firms shared in the \$54,388,394 federal contracts awarded during the second quarter of 1959, according to Regional Director William J. Rogers of the U. S. Department of Labor's wage-hour division in Dallas.

Included were Texas Calgary Company of Abilene for Navy jet fuel in the amount of \$107,400 for delivery in September of 1959; Codden Petroleum Corporation, Big Spring, for delivery of \$1,966,850 jet fuel to the Navy in September; Pioneer Natural Gas, Lubbock, gas to the Air Force in the amount of \$46,756; and Southwestern Public Service, Lubbock, Air Force electrical system in the amount of \$55,081.

New Officers For Ham Club

Weldon Low, K5POK, is the new president of the Big Spring Amateur Radio Club. Paul Odor, W5XEB, is the vice president, and Bob Sanderson, K5SWB, secretary.

They were elected at the meeting of the club on Friday night at the city police building.

Next meeting will be on Aug. 1, when a newly organized Big Spring net on 3935KC, will be given a test operation. George Shipley, K5QBB, will be net control officer. This net will be employed in any emergency in the area.

The club will meet on every

other Friday at 6 p.m. Meetings hereafter will be in the MARS building at Webb unless other arrangements have to be made.

Instruction classes in code and theory to assist budding hams in acquiring their license were considered and will be worked out at later meetings. Fifteen hams were at the Friday night meeting. Any person interested in amateur radio activities is cordially invited to affiliate with the club. A call to either Low, at AM 4-2500 or Sanderson at AM 4-4373 will provide any needed information.

Retail Sales Up

AUSTIN (AP)—Retail sales in Texas continue to show a 7 percent increase over last year, the Bureau of Business Research said Saturday.

Mexicans Confess Machete Killings

TAPACHULA, Mex. (AP)—Police said Saturday five men have confessed they killed an elderly farmer, his young wife and their four children by cutting off their heads with machetes.

The slayings occurred Sunday. Police said farmer Alberto Citalan sold a hog that day for 300 pesos (\$29). The money was not in his pocket when his body was found.

They started looking for someone spending more money than usual and arrested the farmer's nephew, Salvador Mejia, 24. Mejia confessed they said, and named brothers Marciano, Mateo, Juan and Hilario Hernandez as accomplices.

Stamps In The News

By SYD KRONISH
AP Newsfeatures

Collectors who are sports enthusiasts or those who save stamps with sports themes are in luck these days. Many nations, including the United States, have issued or plan to issue sports stamps. And, with the Olympics scheduled for next year, a flock more are in store.

Austria has just issued two special sports stamps. The 1.50-schilling blue green depicts a sprinter and a 1-schilling red violet shows a soccer player in action. Also issued by Austria was a new 2.40-schilling blue green ad-

ring symbol and the inscription "Rome-1960."

The design for the Hawaii Statehood commemorative stamp, according to the United States Post Office Department, will feature an Hawaiian warrior, a map of the islands and a large star.

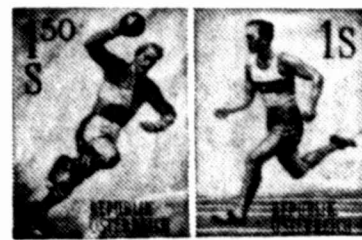

The stamp will be in the 7-cent denomination for use as air mail. The actual issuance date has not been announced.

However, the Post Office Department urges collectors who desire first day cancellations of this stamp to send their requests to the Postmaster, Honolulu, Hawaii, immediately. A remittance to cover the cost of the stamps to be affixed should be placed in each envelope. The outside envelope to the Postmaster should be endorsed "First Day Covers Hawaii Statehood Stamp."

Fiji has just issued a new stamp featuring a Kandavu parrot in color. A portrait of Queen Elizabeth and the St. Edward's Crown also appear.

The Kandavu parrot has a scarlet head and breast with a bright band of azure blue at the nape of the neck. Its back, wings and tail are a brilliant green.

STAMP NOTES. . . Western Germany has issued a 20-pfennig stamp honoring the 1,000th anniversary of the city of Buxtehude. . . Greece has issued a colorful set of seven values for the ancient Greek Theatre. . . The Netherlands Antilles has issued a special stamp to mark the official opening of the Hotel Aruba Caribbean on the island of Aruba.

hesive commemorating the inauguration of its radio relay system. The design on this one pictures the antenna of the relay station at Zugspitze.

Speaking of sports, Italy has just issued its 1960 Olympics set of five stamps. The 15-lire orange and brown shows a statue. The 25-lire blue and brown depicts the Tower of Campidoglio. The 35-lire brown and yellow pictures old ruins. The 60-lire lilac and brown illustrates the Arch of Constantine. The 110-lire brown and yellow shows another view of old ruins. Each stamp also bears the five-

Granite Shoals Peninsula Opening To Holiday Estates

A 388-acre, wooded peninsula jutting into the waters of Lake Granite Shoals is being transformed into a modern "Shangri La" by a group of Houston and Marble Falls businessmen.

Named Blue Lake Holiday Estates, the peninsula will eventually have more than 500 homesites. Of these, 141 are in the first section which has just been opened to the public.

Lake Granite Shoals is a constant-level lake 22 miles long and up to four miles wide. It has long been the choice of sportsmen for boating, skiing, skin-diving and, especially, fishing. Its waters abound in black bass, white bass, catfish, perch and bream. But actually, homeowners in Blue Lake Holiday Estates will have the entire Highland Lakes area as a playground. Bill Canfield, president of the developing company, pointed out. Granite Shoals is midway in the 150-mile stairway of lakes which includes Buchanan, Inks, Marble Falls, Travis and Austin.

Blue Lakes Estates' oversized homesites range from 80 x 135 feet to 150 x 200 feet. Two of the large-

lake sites include small offshore islands.

Because it is on a peninsula, the development offers an unusually high percentage of waterfront lots. Homeowners without lake frontage, however, will have full access to the water through two big recreation parks.

One park is built around a sheltered cove which has been dredged to handle heavy boat traffic. Here, each off-the-water homeowner will have a private boat dock. Here, also, will be modern boat-launching facilities available to all residents. Other areas of the two parks will be developed and maintained for swimming, tennis, barbecuing, horseback riding and other outdoor recreations.

A park lodge to house dressing rooms and a large hall or playroom for dances, parties and meetings is also nearing completion.

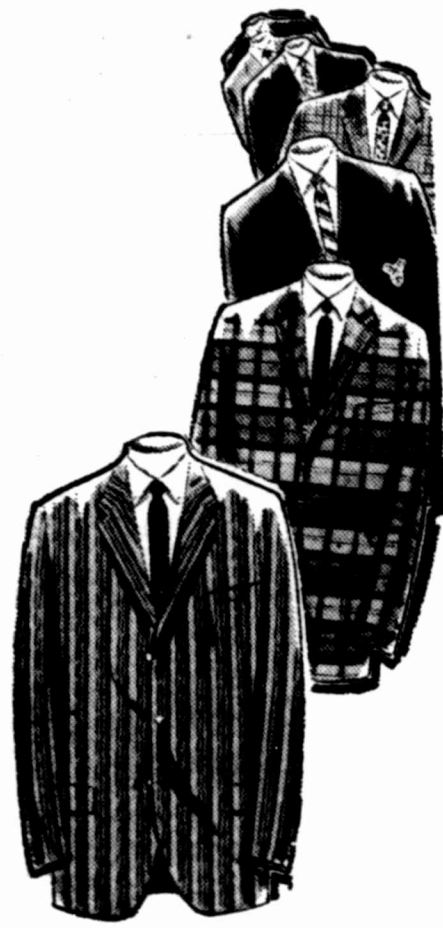

Located off Highway 71 between Llano and Marble Falls, Blue Lake Holiday Estates is served by hard-surfaced, all-weather roads. The subdivision itself has wide, all-weather streets. Water, electricity and telephone services are available to every homesite.

Union Leader Gets New Post

AUSTIN — Leslie G. Burnett, Beaumont, an active union member since 1936 and presently a labor representative of the Texas Employment Commission, has been named director of educa-

tion and research for the Texas State AFL-CIO.

Burnett will take over his new duties Sept. 1, succeeding H. S. (Hank) Brown of San Antonio, who resigned to become the elected business manager of Plumbers and Fitters Local 142 in San Antonio.

The new director for the state labor organization has been with the TEC since 1950 as labor relations representative for the eastern section of Texas. He grew

up in Beaumont, was an honor graduate of South Park High School in that city, attended Lamar College, and taught apprentice classes at Lamar. He is 42 years old, is married and has two sons. His family will move to Austin this fall. Burnett's union career started in Corpus Christi in 1936 when he joined the United Brotherhood of Carpenters and Joiners of America in that city.

Wards, Foremost Win Friday, Meet In Y Softball Finals

Montgomery Ward boomed into the finals of the YMCA Industrial Softball League Playoffs Friday night, with an 11-0 win over Tarbox-Gossett.

The Ward team will meet the Foremost Dairymen in the Tuesday night final at 8 p.m. Foremost gained the championship game with a 10-9 squeaker over the Aces Auto nine. Both semifinal contests were staged Friday night.

Johnson Follows Pre-Set Plan To 10-Round Victory

LOUISVILLE, Ky. (AP) — Willie Pastrano, his right hand dunked in a bucket of ice water, wants another crack at Alonzo Johnson, a former Braddock, Pa., barber, untesashed a punishing body attack Friday night to earn a unanimous 10-round heavy-weight decision over the nimble Pastrano.

Johnson and Manager Mike Bazzone said they followed a preflight plan calculated to slow down the fleet Willie.

eight in the second. The final tally came in the third. Jim Newsom hurled the shutout for the Wardsmen, allowing only three hits, one each in the second, third and fourth frames. Meanwhile, he and his teammates were combing the Tarbox pitching for 14 hits.

BOWLING JOB TO SFA COACH

Harold Fisher, head football coach and athletic director at Stephen F. Austin College in Nacogoches, has been named manager of Bobby Layne's Bowlerama, the new kegling emporium which is now under construction a mile east of the Big Spring city limits.

Tigers Play Two This Afternoon

The Big Spring Tigers, itching for wins 17 and 18, go after the Odessa All-Stars in a pair of local contests this afternoon at 1:30 p.m.

The Tigers have three hurlers, Chubby Moser, Danny Valdes, and Joe Cadenhead, ready for mound duty, while the Odessans will counter with Frank Marin and Frank Martinez.

The contests will be staged in Steer Park with 50 cents being the admission charge. The Tigers are waiting to play to a packed house.

About 850 turned out last Sunday to see the Tigers split a double header with Ojinaga, Mexico, dropping the first one, 1-0, and then taking the final, 1-2. Moser lost the first while Cadenhead picked up the win.

'Bright Eyes Stakes' On Tap At Ruidoso Downs

"The Bright Eyes Stakes" a 400-yard allowance for fillies and mares, three-year-olds and up, is the stellar starring attraction at the "Downs" today.

Miss Louton, representing Marion Seward of Wray, Colo., seems headed for leading filly laurels this year. She has done about everything asked of her and although high weighted should be able to turn back this field.

Remaining contestants: Blonde Joan, Blue Bars, Flying Beebe, Lena's Bar and Lady Gates. Co-featured is a 550-yard Quarter Horse Allowance with Brandyblaze, carrying the colors of the Quincy Farm (Ed Hodson) of Denver, Colo.

Remaining challengers: Old Handsome, El Chiquito, Hy Leonidas, Cactus Comet, Irish Day, Chick Fleet, Spotted Marna, Hopeful Lady and Be Bold.

How to deal with your tensions and live happier

Do little things upset you? Do you worry too much? Do you "blow up" when you shouldn't? Then don't fail to read this message! It's the best way you can possibly spend the next 47 seconds.

Today, 1 out of every 10 of our fellow Americans has a serious mental problem. But millions more of us are suffering from minor emotional problems. These problems can take a lot of the joy out of living, both for us and for the people around us.

Somehow each of us must learn how to deal with our own emotional tensions... how to keep these tensions from upsetting us and making us unhappy.

Here's a good way to start. Send today for the new free booklet, "How To Deal With Your Tensions". Write: Box 2500, New York 1, New York.

ENGLISH CHANNEL NEXT? Two Youths Enjoy Lake For Distance Swimming

By BOBBY HORTON It was an interesting week at Lake Thomas, to say the least. Prodigious catches of channel catfish were made at several points, and a number of good-sized black bass turned up.

Two Seagraves teen-agers, however, left the fishing to their elders and made sport in a different fashion. Tommy Garrard, 15, and his 13-year-old brother, Cleve, swam from Lem's Bathhouse (north side) at an angle to the south side, a distance of 1 to 1 1/4 miles.

P. J. Collins, left, and Raymond House, both of Snyder, hooked one of the big fellows while fishing early last week in Lake Thomas. They hold the 18-pound yellow catfish which struck at perch on a trotline. Collins' granddaughter peers cautiously at the large fish. (Photo courtesy Browne's Lakeside Grocery).

person catching the most or biggest of the fighting fish.

S & L GROCERY — Tommy Arnold, Snyder, caught a 6-pound channel cat and 20 others weighing two pounds each. The Big Spring man and three others used big shiner minnows.

Channel cat were biting well, says owner L. P. Dent. LAKE THOMAS LODGE — J. W. Wims, Seminole, got four channel cat ranging from 3/4 to 1 pound, using Charley's catfish bait and liver.

Big Spring Pair Lose In Finals Of Net Tournery

Betty Ellison and Bobbie Collins lost to a Lubbock duo in the finals of the Sweetwater tennis tournament doubles Friday.

Jill Philbrick and Ilene Clayton dropped Miss Ellison and Miss Collins, 6-2 and 6-2, for the championship.

In singles play Betty won over Miss Clayton, 7-5 and 6-0, but was defeated by Lubbock's Ginger Conally, 1-6, 6-3 and 7-5. Miss Conally proceeded to defeat Miss Philbrick, 6-3 and 6-1, for the crown.

Ft. Worth-Dallas In Majors Soon?

DALLAS (AP) — J. W. Bateson, owner of the Dallas baseball club in the American Association, returned from New York Saturday with an optimistic outlook on Dallas-Fort Worth getting into a major league.

Bateson was in New York with Lamar Hunt, Dallas oilman, to attend an "exploratory meeting" with Bill Shea, the man spearheading the drive for the third big league.

Also attending were representatives from Houston, Toronto, Denver, Minneapolis-St. Paul and New York.

Strike-Out King

MEXICO CITY (AP) — Diomedes Olivo is the strike-out king of the Mexican League.

Pitching for Poza Rica, the left-hander has fanned 153 in 166 innings.

He is 82 behind the league record of 235 strikeouts in a season set by Lono Donoso of Veracruz in 1952.

Course Being Prepared For Sand Greens Tournery

STANTON — The five-year-old Stanton Golf Course, where the West Texas Sand Greens Championship is held annually, has been proclaimed in top shape for the four flight tournament Aug. 8-9.

A number of the best area linksters will participate in the competition, including past winners: 1958 champ, H. D. Gibson of Goldsmith, 1956 winner, Y. G. Winslow of Stanton, '57 titlist, Jack Arrington of Stanton and 1958 winner H. D. Gibson.

Entry fee for the tournament is \$7.50 and prizes will be awarded to winners in all flights. More than four flights may materialize if enough golfers enter.

A Healthy Catch

P. J. Collins, left, and Raymond House, both of Snyder, hooked one of the big fellows while fishing early last week in Lake Thomas.

field, found four channel cat and their minnow-baited trotline. Catfishing has dropped off somewhat from the pace fish were being caught while the lake was on the rise.

Indians Slam Nats 8-1 Behind McLish

CLEVELAND (AP) — Cal McLish chalked up his eighth straight victory Saturday, an easy 8-1 decision over the Washington Senators as the Cleveland Indians won their third straight.

McLish became the winningest pitcher in the American League (13-3) by limiting the Senators to seven hits. He lost his bid for a shutout when Jim Lemon cracked his 22nd home run in the seventh inning.

Wait Till Spring For Fight—Ingo

GOTEBERG, Sweden (AP) — There appeared Saturday a marked difference of opinion between world heavyweight champion Ingemar Johansson and promoter Bill Rosenzohn concerning the site and date of a return title match between Johansson and Floyd Patterson.

asking that the bout be delayed. I have heard people from both California and Florida say they think the time is not ripe as early as September for a return match. They feel that public interest cannot be turned up again so soon."

Rosenzohn says Sept. 22 is a logical date and Yankee Stadium in New York City the logical site. Johansson said he hoped the bout would be set back until the spring of 1960, and said he realized if his request was granted the site probably would be Los Angeles for climatic reasons.

Johansson won the world title by knocking out Patterson in a sensational three-round bout in New York's Yankee Stadium on June 26.

Wright-Newby Duo Ousted From Meet

AMARILLO (SC) — The team of Harold Sexton and Bill Eschenbrenner knocked Big Spring's Bobby Wright and Jack Newby out of the eighth annual Amarillo Invitation Partnership Golf Tourney here Friday.

LL Minors Begin Playoffs Monday

The drive for the championship of the Little League farm system goes on the line Monday night, with two games on the schedule.

Wright-Newby Duo Ousted From Meet

AMARILLO (SC) — The team of Harold Sexton and Bill Eschenbrenner knocked Big Spring's Bobby Wright and Jack Newby out of the eighth annual Amarillo Invitation Partnership Golf Tourney here Friday.

A neutral park will be used for the title clash Tuesday night at 7:30 p.m.

Looking 'Em Over

With Tommy Hart

Five Big Spring High School coaches will leave next weekend for a full week of athletics lecturing and demonstrations at the Texas High School Coaches' Assn. clinic in Fort Worth.

Phils Score 6-3 Win Over Cincy

CINCINNATI (AP) — Fifteen Philadelphia Phils went down on strikes Saturday and they still came up with the timely hitting, including three important doubles, that brought them a 6-3 victory over the Cincinnati Reds.

Head football coach Al Milch, assistants Curtis Kelly, Mitchell Malouf, Chop Van Pelt and basketball coach Vernon Hartin will leave this weekend for Fort Worth.

Teen-Age Meet Scheduled Here Beginning Aug. 3

Seven district winners compete here in the District 7 Teen-Age baseball tournament which begins Monday, Aug. 3. One game will be played nightly in the competition to determine the representative to the Brownwood State Teen-Age meet later.

They'll hear Paul Dietzel of LSU, Abe Martin of TCU, Tonto Coleman of Georgia Tech and Jim Myers of Texas A&M lecture on football. Buster Brannon, TCU, and Bob Rogers of A&M will handle track and field and Elmer Brown of TCU will guide training studies.

Shrimpers Asked To Delay Fishing

AUSTIN (AP) — The State Game and Fish Commission Saturday urged commercial shrimpers to wait 15 days before harvesting in coastal bay waters to help next year's crop.

Wayne Flies, outstanding back for the North All-Stars in the North-South football game Friday night in TCU stadium.

Berra's Homer In 9th Keeps Yanks From Giving Game Away

DETROIT (AP) — Yogi Berra walloped a two-run home run in the ninth inning that gave the jittery New York Yankees a 9-8 decision over the Detroit Tigers Saturday in a frantic baseball contest witnessed by 26,530.

in this wild exhibition before gaining the decision. The Yankees handed the Tigers five unearned runs and committed five errors, three of them by third baseman Hector Lopez. A two-out bobble by Lopez gave Detroit two runs in the seventh and another two-out fumble let in an eighth inning run.

Mickey Mantle, who could not get the ball past the pitcher's mound in four previous at bats, set the stage for Berra's climactic smash by beating out a bouncer to third base by an eyelash.

Lopez also threw away Coot Veal's boulder leading off in the ninth, but the Detroit shortstop was out trying to reach second base. On that play, Veal crashed into first baseman Bill Skowron, who was making his first appearance in the New York lineup since July 11.

Berra then cracked one of R.G. Smith's deliveries into the upper right field seats for his 12th home run.

Skowron, who has been out with an ailing back, suffered a bone dislocation in his left wrist. He was taken to a hospital for X-rays.

New Records Notched In First Day Of Swim Meet

OSAKA, Japan (AP) — One world record was bettered and two American marks were surpassed as the American squad took an 18-17 lead over Japan at the end of the first day of their swimming competition Saturday.

Frank McKinney of Indianapolis, bettered the world mark in winning the 200-meter backstroke in 2 minutes, 17.8 seconds. He set the old mark of 2:17.9 in the American championships at Los Alamos earlier this month.

Italians Leading Davis Cup Matches

MILAN, Italy (AP) — Italy won both singles today and took a 2-0 lead over Spain in the rain-interrupted European Zone Davis Cup final. The Italians are the European Zone defending champions.

Alan Somers, also of Indianapolis, defeated Australian Murray Rose, and Japan's Tsuyoshi Yamana in winning the grueling 1.500-meter race in 17:44.4. In finishing third behind Rose and Yamana in a meet earlier in the week in Tokyo, Somers was timed in 17:48.9, an American record. Rose won at Tokyo in 17:46.5.

Hurricane Damage High On Gulf Coast

HOUSTON (AP)—The boxcars on damage to cities along the middle Texas Gulf Coast from hurricane Debra:

Freeport, Police estimate damage at more than one million dollars. Winds peeled roofs from homes and shattered windows. Two shrimp boats were missing offshore. Power off for a time. Beach houses smashed and trees uprooted. Big Dow Chemical plant apparently escaped damage. Several thousand evacuated.

Galveston: About 800 persons moved out of homes to spend night in public buildings. Plate glass windows and power knocked

out. Wall of church smashed and two motorists blown off the road. Houston: Utility lines down, tree limbs torn away but no major damage.

LaPorte: Power failure and water and gasoline shortage. Water four feet deep in lobby of dance pavilion at Sylvan Beach recreation area with damage estimated at possibly \$50,000.

Texas City: One business building demolished, 19 others damaged. Numerous residences damaged. Preliminary estimates put damages in hundreds of thousands of dollars. City without power. One man missing.

Orange: More than 10 inches of rain flooded streets. National Guardsmen stood by to evacuate families from low areas.

Angleton: Approximately 1,100 persons spent night in Brazoria County courthouse. Damage to Brazoria County crops estimated in hundreds of thousands of dollars.

Port Arthur: Pumps pressed in to service to drain streets after more than 4 inches of rain. About 35 shrimp boats tied up waiting for the storm.

Pasadena: Glass windows smashed. Rain total of more than 5 inches.

Alvin: Power lines out. One person injured in traffic crash blamed on driving rain. Several windows broken and drive-in theater damaged.

Seabrook: Flood conditions in several areas. Guests at camp for children evacuated to Community Center.

Beauty Titlist Didn't Think She Could Win

By AKIKO KOJIMA

Editors Note: The following was told to the Associated Press through an interpreter.

LONG BEACH, Calif. (AP)—When they tapped me on the shoulder and I knew that I had won the Miss Universe contest, my first words to my hostess, Kay Matsumoto, were "Oh my gosh."

I am timid about speaking English because I have not had much time to practice it, and these words are learned from the American girls during my stay with them in this wonderful contest.

I didn't really think I could win. The other girls were so pretty, but many of them told me they were confident that the crown would be mine.

If anyone had told me a year ago that I would be here today in Long Beach, honored so wonderfully and receiving calls from movie studios, I certainly would not have believed them. What was I doing then?

For the past three years, I have been a fashion model in Tokyo. I earned good money and was averaging between 300 and 700 American dollars a month. I modeled everything from kimonos and other Japanese clothes to the most beautiful gowns imported from Paris and Rome.

I was born in Tokyo, but during the terrible fire bomb raids of World War II my mother moved with two sisters, my brother, and me to the small village of Kochi. There I went to high school and spent the war years.

My father, Tatsuo, was a major in the army and was away most of the time. I remember seeing him when I was a little girl and he was on leave—he was so handsome in his uniform. My father was tall for a Japanese. And it is from him, I believe, that I inherit my height.

After the war, my father came home, but he was not well and soon died.

My family was not wealthy, and I was very happy when I began modeling so I could contribute some money. My married sister, Kazuko, 29, and I help support my sister Takayo, 17, a high school girl in Tokyo; my brother Takao, 20, who has just finished school and lives with me in Tokyo; and my mother, Toshiko, who still lives in Kochi.

My future?

I cannot really say. All these honors and all this excitement—it is all so confusing.

Yes, I have had some movie offers already. I plan to make a test next week at Warner Bros. and 20th Century Fox in Hollywood. I do not know how they will turn out or what my future will be, but I will never forget that my roommate in the Miss Universe contest (Miss Illinois, Arlene Kaye) told me during the contest when I had little hope of winning.

"Smile, and thank you are the best—and everyone else will, too," she said.

Parents Night Tuesday At 'Y'

Parents night, climaxing the special classes during the recreational program, will be observed at 8 p.m. Tuesday at the YMCA.

The special classes consist of girls tumbling, tap, modern dance and boys judo, tumbling as well as both boys and girls trampolines. There will be a special display of Indian crafts and model building.

Parents of all children enrolled in any of these special interest groups are urged to attend the meeting.

Hoffa Talks Of A Libel Action

WASHINGTON (AP)—A spokesman for James R. Hoffa, says the Teamster Union president plans libel action against Robert F. Kennedy for remarks the Senate racketeering committee counsel made about Hoffa on television.

Kennedy made several charges against Hoffa Wednesday night when he appeared on the NBC Jack Paar show.

The spokesman said Hoffa had instructed his attorney to prepare libel action against the network. Paar had others who sponsored or were associated with the show.

Cosden Stockholders Get Annual Report

Cosden Petroleum Co. stockholders received their annual reports from management last week, and they learned what they already knew—that elements of the petroleum industry tightened their belts in 1958.

The Cosden picture was far from gloomy, and in many areas Cosden fared better than the industry average.

Gross operating income was \$83,077,000, down from the \$86,774,000 of the previous fiscal year and net income was down 13 per cent, or \$4,517,000 as compared with \$5,193,000.

On the other hand, cash flow of \$10,986,000 was up from \$9,996,365 the previous year. Dividends amounted to \$2,756,000 as against \$2,594,000 a year before. Gross investment in properties stood at \$66,695,000, well above the \$64,240,000 of a year ago.

Instead of making certain capi-

tal expenditures, Cosden reduced long-term notes by \$1,906,000 and increased working capital by \$2,104,000.

The number of outstanding shares increased from 2,584,005 to 2,748,645 at the end of the fiscal year April 30, 1959, mostly due to property acquisitions. There was another 3 per cent stock distribution and the year end equity of shareholders in Cosden was \$40,945,796 as compared with \$35,160,944 the previous year. Only 10 short years ago the shareholder equity in Cosden was a mere \$8,625,000.

At the end of the fiscal year Cosden's funded debt was \$12,685,000, down nearly two million dollars as mentioned above.

Because of the dulled product demand in most areas, Cosden cut back in its processing, putting through 14,500,000 barrels or 1,166,343 less than the previous year.

Because of its integrated operations, Cosden was able to be more selective and exercise restraint on yields where profits were thin.

Average daily crude oil production increased from 5,122 to 5,542 barrels and would have been substantially greater had not the number of allowable producing days in Texas dropped from 146 to 128. Cosden came up with the equivalent of 25 1/2 new producers and 3 1/2 dry holes, a remarkable success ratio of 87 per cent. Cosden had 525 net wells with a crude reserve of 24,269,119 barrels, plus 36,953 million cubic feet of gas.

Among highlights of the year were:

Purchase of the Tri-Service Drilling Co. properties for 15,000 shares of stock; acquisition of the Pratt-Hewitt Oil Corp. for 171,000 shares; purchase of the marketing properties of Cities Service Oil Co. in North and West Texas and Eastern New Mexico, which brought the spending for marketing property and equipment to \$1,472,779 for the year.

Extinguishment of Col-Tex as a separate corporate entity; getting the polystyrene (plastic) plant on stream and shepherding it to a currently profitable operation; expending of \$215,237 on the crude oil pipeline system; extension of the River Pipeline system by 46.5 miles from Wichita Falls to Duncan, Okla., making trunk connections with the Midwest and East carriers.

Investment of \$1,073,794 in plant improvements and replacements at Big Spring and Colorado City; realization of 85 cents a barrel margin on a daily import quota of 4,080 barrels.

Because Trust Pipeline, owned by the employees pension trust, was making good yields as a Cosden carrier, the company was able to reduce by \$140,429 its contribution to the trust fund. There was no reduction in support of the Col-Tex plan, which includes contributions from the employees in contrast to the Cosden non-contributory setup. The Cosden pension assets stood at \$3,965,399, an increase of \$1,611,203 for the year. At the end of the fiscal year, Cosden had 1,059 employees, a new record by 93 workers. Salaries and wages paid, including a 5 per cent increase during the year, amounted to \$6,495,848, about \$360,000 more than for the previous year.

Basin Drilling Drops Slightly During Week

Drilling activity in the Permian Basin eased off last week after having shown a gain the week before.

There were 361 rigs turning at the end of the week as compared with 370 a week ago, 360 on July 10 and 369 on July 3.

Greatest changes were in Chaves (N.M.) with a loss of seven rigs, Lea, (N.M.) and Ector with a loss of five each.

By counties, with the previous week's totals shown in parentheses, the survey by Reed Roller Bit Co. showed:

Andrews 39 (39), Borden 11 (14), Chaves 5 (12), Cochran 2 (4), Coke 2 (3), Crane 15 (13), Crockett 2 (2), Culberson 4 (2), Crosby 1 (0), Dawson 7 (5), Dickens 2 (0), Ector 26 (31), Eddy 16 (14), Fisher 2 (2), Gaines 16 (17), Garza 13 (12).

Glasscock 5 (4), Hale 1 (1), Hockley 5 (5), HOWARD 8 (9), Irion 1 (1), Kent 2 (2), Lamb 1 (1), Lea 38 (43), Loving 5 (1), Lubbock 0 (1), Lynn 4 (4), Martin 0 (1), Midland 7 (7), Mitchell 0 (0), Nolan 4 (3), Pecos 17 (17), Reagan 1 (1), Reeves 8 (10), Rnels 3 (4), Roosevelt 4 (4), Schleicher 5 (5), Scurry 6 (8), Stonewall 3 (4), Sterling 2 (2), Sutton 2 (2), Tom Green 3 (3), Tarr 2 (1), Terrell 3 (3), Upton 3 (6), Val Verde 0 (1), Ward 13 (14), Winkler 22 (23), Yoakum 14 (12); totals 361 (370).

POLITICAL CHART

Industry Ponders Public Program

By MAX B. SKELTON

HOUSTON (AP)—The new non-partisan political program adopted by Gulf Oil Corp. is being studied by oil executives.

Unique features of the program include possible leaves of absence for employees elected to public office.

Details remain to be worked out. But a Gulf spokesman said an employee desiring to run for Congress probably would receive the equivalent of a normal military leave. Full status with the company would be restored once the employee has completed his tenure in public office.

Executives of other companies say such an arrangement would be unusual, particularly for a nationwide corporation.

company by a letter signed by Archie D. Gray, senior vice president.

It was Gray who announced the plans in September with a statement aimed primarily at the political strength of organized labor.

At that time Gray said similar political action programs have enabled labor leaders to achieve dominance over Congress.

He added:

"If our free competitive institutions are to be preserved from destruction by the unholy combination of predatory gangsterism and crackpot socialism that is thriving and expanding under labor's congressional benevolence, then business has no choice. It must do likewise, or throw in the towel."

Gray said the September statement caused hundreds of executives of other companies to propose various kinds of cooperative action.

GO IT ALONE

"In deciding to go it alone, at least in the initial stages, Gulf's management does not wish to be understood as rejecting these many offers of friendly helpfulness," he said. "Rather, it must be understood as the simple, but all too frequently overlooked, realization that in our political system any political program can be effective only to the degree it reaches down to the roots of all our politics—to the people who vote and who urge others to do likewise."

Gray said industry generally, and the oil industry in particular, has been a victim of creeping governmental encroachment. He said industry has been subjected to increasing attack while increasingly being denied a fair hearing.

Gulf operates in 38 states. It plans to carry its political campaign into each area of operation, regardless of size. The program will insist that all Gulf employees involved work with local political leaders and elected representatives.

Emphasis will be at the local level. But a registered lobbyist will head a Washington office. Dossiers will be prepared on all congressmen from states in which Gulf has an interest. The dossiers will include voting records and "everything that will assist Gulf's people in obtaining a more complete understanding of their elected representatives."

LARGER INTEREST

Gulf announced last September it would take an increasingly active interest in practical politics and encourage all its employees to do so. Details of the program were distributed last week to employees and stockholders.

The program outline was ac-

companied by a letter signed by Archie D. Gray, senior vice president.

It was Gray who announced the plans in September with a statement aimed primarily at the political strength of organized labor.

At that time Gray said similar political action programs have enabled labor leaders to achieve dominance over Congress.

He added:

"If our free competitive institutions are to be preserved from destruction by the unholy combination of predatory gangsterism and crackpot socialism that is thriving and expanding under labor's congressional benevolence, then business has no choice. It must do likewise, or throw in the towel."

Gray said the September statement caused hundreds of executives of other companies to propose various kinds of cooperative action.

GO IT ALONE

"In deciding to go it alone, at least in the initial stages, Gulf's management does not wish to be understood as rejecting these many offers of friendly helpfulness," he said. "Rather, it must be understood as the simple, but all too frequently overlooked, realization that in our political system any political program can be effective only to the degree it reaches down to the roots of all our politics—to the people who vote and who urge others to do likewise."

Gray said industry generally, and the oil industry in particular, has been a victim of creeping governmental encroachment. He said industry has been subjected to increasing attack while increasingly being denied a fair hearing.

Area Wildcats Reported Making Routine Progress

Several area wildcats were making progress Saturday.

In Dawson County, Rodman and Noel No. 1 Turnbow, 3 1/2 miles southwest of Patricia, and in the southwest corner of the county, drilled at 11,721 in lime and shale. It is located in the C NW NW labor

14. League 262, Borden CSL, and is projected to 13,000.

General Crude No. 1 Lott, Garza explorer eight miles south of Post, had progressed to 4,295 in lime and shale on a 8,800-foot contract. It is 2,337 from the south and 660 from the east lines of Section 21-1, Hays Survey.

Wider Spacing May Be Studied

DALLAS (AP)—A tentative agreement to call a national meeting in the fall to consider wider well spacing was announced by the Oil Industry Conservation Forum Steering Committee Thursday.

The 22-member committee, headed by Jake L. Hamon, Dallas, agreed tentatively to hold the meeting in Dallas or Houston.

Sunray No. 1 McEntire, projected to 9,200 feet some 13 miles northwest of Sterling City, had drilled past 2,069 in anhydrite and shale. It is located 660 from the south and east lines of Section 8-23, H&TC.

Monsanto No. 1 Jere, C SE SE, 22-32-4n, T&P, was past 9,485 in lime and shale. It is projected to 10,000 feet.

In Lea County, N. M., Cosden Petroleum Corp. No. 1 Maxwell was making hole Saturday below 10,890 in lime.

Sunray Purchases Suntime Control

TULSA (AP)—Acquisition by Sunray Mid-Continent Oil Co. of enough shares of Suntime Refining Co., Corpus Christi, to own 90 per cent of the Texas firm's outstanding stock was announced Thursday.

Suntime is expected to operate as a subsidiary of Sunray Mid-Continent with no change in management.

Explorer Trio Is Announced

Hockley, Upton and Coke counties shared in wildcat locations announced Saturday.

The Coke venture will be Fred A. Davis No. 1-B Guin H. Tucker, 3,451 from the north and 660 from the west lines of Section 2, Henry Franks Survey, Abstract No. 155. This puts it seven miles southwest of Robert Lee on an 80-acre lease. The venture will go to 6,500 with rotary.

R. L. Corley Jr. of Lubbock No. 1 Flora Crenshaw, 660 from the north and 510 from the west lines of labor 24-74, Haskell CSL, is projected to 4,900 feet. It will be located two miles east of Pettit on a 197-acre lease.

In Upton County, Ray Morris Drilling Co. will sink No. 1-B G. R. Davis as a 5,000 rotary wildcat venture. It will be located 330 from the north and west lines of section 46-42-4s, T&P, 13 miles north of Crane.

Union Acquires Paul Moss Land

LOS ANGELES (AP)—Union Oil Co. of California said Thursday it has bought 29,000 acres of oil lands in Texas and New Mexico.

The acreage was purchased from Paul Moss of Odessa for an undisclosed price.

A better way to build

The Garrett Home

(Story On Page 2-C)

BIG ENOUGH FOR THREE is the plush pouf of red velvet placed invitingly in front of the living-room fireplace in the home of Mr. and Mrs. Horace Garrett, 715 Edwards Blvd. Ann, who is nine years old, and Sue, two, join their mother in the beautifully executed room, with its carpet of sauterne forming

a background for furnishings of deep turquoise and peacock with accents of red. Visible is the wall of Travertine marble adjoining the mural in an oriental mood, showing a pheasant in the bare branches of a tree.

HER OWN CHOICE IN DECOR is responsible for the lovely yellow in the room of nine-year-old Ann Garrett, where a highlight is the mural showing various escapades of Pierrot and Pierrette. Ann, who holds a well-loved and well-worn Peter Rabbit, tells of slumber party guests who preferred to sleep on the floor—so soft is the carpet—rather than dividing into groups for beds in different rooms. (Peter Rabbit is also well-traveled, having been Ann's constant companion at home and on trips since she was old enough to play with a toy.)

A REAL HOBBY HORSE from a merry-go-round, or carousel, gives a gay touch to the fireside wall of the family room where Sue and Ann Garrett leaf through a book with their grandmother, Mrs. C. M. Dublin. The opening at left was originally intended for the

television set, Mrs. Garrett remarked, but Sue has so much fun playing house in it, that the TV set has to wait to be placed. After all, though, isn't that what a home is for—fun?

TRIPLE MIRRORS make doors for closets in the dressing room for the master bedroom of the Horace Garretts. Reflected in one of the doors, opened to show it, is the dressing table with an arrangement for holding costume jewelry in neat array. (It's decorative, too.) Sliding panels opposite the mirrors give a view of the garden. Jade, the color used in the bedroom, is continued into the smaller room's furnishings.

GRILLWORK OF WALNUT (pictured left) separates the formal dining room and the living room in the home of Mr. and Mrs. Horace Garrett. Carpet in sauterne tint makes a pleasing foil for the shades of peacock, turquoise and jade with varying reds used in the furnishings and accessories. Note the lovely chandelier of crystal.

Photos by Keith McMillin

A HAVEN FROM THE SUMMER HEAT is the outdoor living room shown at right, where Anna Mae Anderson has joined the two Garrett daughters, Ann and Sue. Anna Mae started working for the family on the day that Ann was born and has become one of the group. A fountain cools the atmosphere in the enclosed garden, where tables and chairs invite loungers, game players or snackers, and flowers add color. Those panels on each side of the fountain are of plastic to admit the soft glow of light in the evening.

WOMEN'S NEWS

The Big Spring Herald

SECTION C — BIG SPRING, TEXAS, SUNDAY, JULY 26, 1959

Ranch Home Is Setting For Dunn-Porter Rite

In an intimate ceremony before members of their families and a few close friends, wedding vows of Patsy Jean Dunn and J. Patton (Pat) Porter were solemnized Saturday evening.

The bride is the daughter of Mr. and Mrs. Denver Dunn, 512 East 15th. The bridegroom is the son of Mr. and Mrs. Clarence (Skeet) Porter of Vealmoor, and the grandson of Mr. and Mrs. T. J. Good, in whose ranch home the ceremony took place.

Ivy entwined upon the improvised altar before which the couple knelt on a satin prie dieu as the Rev. Frank Pollard, assistant pastor of First Baptist Church, performed the double ring rite.

Traditional nuptial music was played by Mrs. Wm. T. McRee, pianist. She also accompanied Patsy Porter, soprano, in the benedictory selection, the Wedding Prayer.

Dunn gave his daughter in marriage. Her streetlength dress of white silk chiffon, sleeveless, was designed with scoop neckline and gently flaring skirt. The empire influence was noted in a satin band at the waist, ending in a flat bow at the back. Lace mitts and a waistlength mantilla of white lace completed her wedding ensemble. She carried a bouquet of gardenias.

In fulfilling bridal custom, she had a blue garter given her by her Texas Tech roommate, Patsy Huffman of Snyder; to it was attached the wedding ring of her late maternal grandmother. Her dress was the something new, and she had borrowed a handkerchief from the maid of honor, Patsy LaNell Potter.

Miss Potter and bridesmaid Clarajane Porter, sister of the bridegroom, were dressed identically. Their full-skirted frocks, in light green organza, were styled with scalloped neckline. Face veils extended from white velvet bows. Garlands of English ivy fashioned their bouquets.

Kenneth Dodd served as best man, and Wesley Hildreth was usher.

After the ceremony, the couple cut the first slice of the two-tiered square cake, its white icing paved with green rosebuds. Ivy trailed on the miniature arch at the center of the table, which held a white lace cloth purchased in Venice by Mrs. Good. Appoint-

MRS. J. PATTON PORTER

ments included spoons from her collection gathered abroad.

Miss Porter was in charge of the register.

When the newlyweds left for a weeklong trip to points in Texas, the bride was attired in a plaid dress blending pale green and grey. The puff sleeves of the fitted bodice were balanced by a skirt made full with unpressed pleats. White accessories and a corsage

of gardenias completed her costume.

The Porters will reside in the Lockhart Addition. The bride is a graduate of BSHS and Howard County Junior College, and received her degree from Texas Tech this summer. Her husband, a graduate of Borden County High, attended HCJC and Tarleton State College. He is employed by Mead's Auto Supply.

Tied Scores Add Interest In Bridge

Tied scores were the order of the afternoon in the games of duplicate bridge played Friday at Cosden Country Club.

Sponsored by the Ladies Golf Association of the Big Spring Country Club, the games were transferred to the Cosden Club after fire destroyed the former clubhouse. This is a courtesy extended by Cosden to its neighbor.

Tying for the first and second places in north-south position were Mrs. Hudson Landers and Mrs. Morris Patterson, with Mrs. Elmo Wasson and Mrs. E. L. Powell. In third and fourth ties, Mrs. Riley Foster and Mrs. J. J. Havins were grouped with Mrs. James Underwood and Mrs. Charles Tompkins.

East-west winners were Mrs. Tom South and Mrs. Fred Lurting, who tied with Mrs. Harroll Jones and Mrs. Don Newsom. Third place honors went to Mrs. Obie Bristow and Mrs. Ova Mae Edwards, and fourth to Mrs. Bill French and Mrs. Fred Kasch. Nine tables were filled for Friday's session.

New Awning

awnings are now available in a do-it-yourself kit. The awnings are of woven dacron between layers of vinyl with weather resistant qualities, protection from heat and light. The awnings come in three sizes and widths with hardware rods, rope and easy-to-follow directions. All exposed edges of the covering area are sewn and bound with laminated tape.

Conceal It

Use white pepper in a white sauce, salad dressing (mayonnaise type) and other foods where black pepper would "show."

Mid-Morning Ceremony Is Read In Wade Home

Double ring vows were repeated by Mrs. Mae Jenkins and Morgan Coates in a mid-morning ceremony Friday in the home of the bride's mother, Mrs. Martha Wade, 1405 Runnels.

Dahlia decorated the mantel as the couple stood before Doyle Robinson, minister of the Bethel Baptist Church, for the nuptial rite.

Mrs. Lula Daniel of Lubbock, sister-in-law of the bride, played a prelude of piano selections, which included Always and Indian Love Call.

For her wedding the bride chose a frock of satin and lace in Dior blue, with hat and pumps in the same shade. She carried a white orchid on a Bible, with white ribbon streamers.

Following a reception, when cake and punch were served to the small group of friends and relatives, the couple left for a trip to an undisclosed destination. Mrs. Coates was attired in a blue and white cotton suit for traveling.

Upon their return, the Coateses will be at home on the bridegroom's ranch in Borden County.

Subtle Lemon Hint Flavors Cookies

Pleasantly sweet and tasting of lemon are these easy cookies which are handy to serve with either iced tea or lemonade. They may be made in advance, and kept refrigerated until prepared for baking.

EASY LEMON COOKIES
2 1/2 cups sifted flour
1/2 tsp. baking powder
1/2 pound butter or margarine
3/4 cup sugar
2 egg yolks
2 tps. grated lemon rind
1 tsp. lemon juice
1 egg white
1/4 cup finely grated walnuts

Sift together the flour and baking powder. Cream butter and sugar; beat in the egg yolks, 1 teaspoon of the lemon rind and the lemon juice. Stir in sifted dry ingredients until combined.

On waxed paper make into three rolls, each 2 inches in diameter and about 4 inches high; wrap rolls tightly and refrigerate overnight. Slice 1/4-inch thick.

Beat egg white until frothy; mix remaining 1 teaspoon lemon rind with walnuts. Brush egg white over cookies; sprinkle with nut mixture. Bake, about 1 inch apart, on ungreased cookie sheets in moderate (350 degrees) oven 12 to 15 minutes. Makes about 4 dozen cookies.

Upon their return, the Coateses will be at home on the bridegroom's ranch in Borden County.

Purse Gadget, Too

As pretty to pull out of your summer handbag as a gem-studded pill box is a new pastel-colored lipstick case. In a choice of frosted white, party pink, cool blue or a gay orange as ripe in color as the fruit, this conceit with a golden rococo design to give it a jeweler's touch is a pastel version of the oval mirror case, containing lipstick, which, a year ago, revolutionized the lipstick carrier.

Old-Fashioned?

If you iron the old-fashioned stand up ironing board way, the exhaustion you feel is not your imagination. According to time and motion studies reported by a laundry manufacturer, hand ironing requires 12 times as much effort as using an ironer, and takes three times as long.

Betrothal Announced

Mrs. Julia Bonifield, 608 West 18, is announcing the engagement and approaching marriage of her daughter, Kay, to Curtis Barnfield. He is the son of Mr. and Mrs. C. M. Barnfield, 303 Lortilla. The couple will exchange wedding vows in the First Presbyterian Church on Sept. 7. (Photo by Barr)

They Thought Of Everything In The Home Of The Garretts

By ANNE LAFEVER

A visit in the home of Mr. and Mrs. Horace Garrett, 715 Edwards Blvd., will convince you that everything for the comfort, convenience and fun for the family has been included in the fabulous place!

There's a whole closet, lined with tarnish-proof fabric, in which to store silver. It's effective, too, according to Mrs. Garrett. Placed at various spots in the house, inconspicuously, are narrow drinking fountains, blending into the surroundings so well that they are hardly noticeable — unless you're thirsty.

Looking ahead to the time when their two daughters, Ann, who is nine, and Sue, 2, are a little older, the Garretts planned exceedingly well. Tile floors, suitable for dancing, were laid in a card room and the adjoining family room; the two rooms may either be closed off or thrown together to make a spacious area for fun.

A convenient closet holds a cabinet with a sink and shelves for glasses or dishes to be used for refreshments of various types. Fireplaces in both rooms have been made of the Tennessee Crab Orchard stone which is so attractive on the exterior of the home.

Unusual wall covering in the card room, where a table and chairs are set up for games at all times, is the cork on metallic paper. Here a carved cabinet holds the collection of lovely cut glass which has been gathered by the man of the house.

Colors throughout the house are restful, with carpet in such luscious hues that it seems a shame to set foot on it.

CHOICES DECOR

So soft and fleecy is the yellow carpet in the bedroom of Ann that it has doubled for a bed during the hours of slumber parties staged by the young hostess. She selected the color scheme and the decor of her room, and a very good selection it was.

Bringing out Ann's lovely brunette coloring are the yellows used in the surroundings with the mural of Pierrot and Pierrette, and just a touch of turquoise for highlights in the room and its adjoining bath.

A mural of storybook characters decorates a wall of the blue and white bedroom occupied by two-year-old Sue, who proudly leads visitors to her bathroom to show off the miniature "potty," just high enough for the convenience of small fry. Ruffled white curtains and white shutters form a wall of this room—the shutters to close out light and insure a longer nap time during the day.

In the master bedroom, two walls are luxuriously covered in jade silk while the third is of glass through which occupants look upon an enclosed garden. White draw draperies close out the sun's rays or a dreary day. On the fourth wall is a Chinese scene of The Bird Market—in jade with accents of Chinese red.

Jade carpet and a matching divan and bench are in direct contrast to an easy chair in the oriental red; jade is the color brought

into the adjoining dressing room, which leads into a bathroom with tub and enclosed shower. (In this corner arrangement, there are seven shower heads! Count 'em!) Blue green, ranging from aqua to peacock to dark turquoise, is to be found in the house as accents for the range of reds which go from a bright Chinese hue to an orange red tone.

ACCENT COLORS

The featured shades combine in the formal living room, where a wall of Travertine marble holds a fireplace, with a large pouf placed invitingly before it. A lamp of Chinese red highlights the mural of a pheasant in a bare tree, and white draw draperies repeat the tracings of the bare limbs.

Quite a conversation piece is the north end of the living room, which is of glass and rounds out to a semi-circle. Family and friends compare it to a stage or a bandstand. Mrs. Garrett remarked, but all admit its attractiveness.

Separating the living room and dining room, where color is introduced against the sauterne carpet by a tall chest of peacock blue, is a grillwork of walnut. A handsome chandelier of crystal teardrops returns a soft light on the diners.

At the west end of the house is the guest room, furnished in the same restful style and colors, with its matching bath. A room set aside strictly for an office holds in spacious closets, hunting and sports equipment along with exercise apparatus.

For informal meals, the junior dining room, which joins the kitchen of turquoise, stainless steel and tile, looks out upon the garden and

outdoor living room, where a fountain plays into a bowl and color is added by petunias, caladiums and other blossoms, as well as the gaily colored cushions of the wrought-iron furniture.

Covered and sheltered from the north wind, the spot will be a pleasure for lounging or entertaining through most of the year. For evening beauty, plastic panels hold lights, and a central fixture is a huge ball hanging from the beams.

The new house, built on the site of an earlier home, began as a "little bit of remodeling"; before the project was over, the original structure was torn down and everything started "from scratch."

Snellings Entertain Out-Of-Town Folk

FORSAN — Guests in the Jim Snelling home have been Mrs. A. P. Morris of Snyder, Mrs. Audrey May of San Antonio, and M. Sgt. and Mrs. James B. Snelling of West Palm Beach, Fla., who were en route to their new post at Tinker Field, Okla.

Sue Seward of Pecos has visited here with Mrs. Bettye Anderson and in the John B. Anderson home.

Mr. and Mrs. H. A. Sanders, with his sister, Mrs. Ruth Newsom and Russell of Midland, are with his mother in Aransas Pass for a few days.

Mrs. Gilbert Turner was recently dismissed from Medical Arts Hospital and is recuperating at the home of her parents, the J. J. Overtons, at Lees.

Fashion Your Figure To Your Heart's Desire With The Famous Niblack Home Pony

Fashion and refashion your figure as you wish, when you wish, easily, quietly, in complete privacy.

One simple machine reduces any part of your body, waistline, upper arms, forearms, hips, thighs, tummy, calves and ankles.

The "Home Pony" will enable you to keep your figure for LIFE.

The man in your life will also see its possibilities for his own girth control... Drop by for Free Demonstration.

'It's The Best, Honey!'

Mrs. Tom Fryar, pharmacist at Cunningham & Phillips, might consider that a pretty 'fresh' statement coming from a salesman. But this one happens to be her husband, who is a medical sales representative and himself a graduate pharmacist. Big Spring is his headquarters.

Newcomer Couple Shares Common Interest In Field Of Pharmacy

Husband and wife careerists who can talk the same language are Mr. and Mrs. Tom Fryar, newcomers from Abilene. Both are graduate pharmacists.

As of mid-July, however, they approach the subject from different angles. Fryar is a medical sales representative for Eli Lilly Co., while his wife Pat is a pharmacist at Cunningham & Phillips. But the tongue-twisting vocabulary that is uniquely the pharmacist's remains the same.

A drug store has been a well-liked and familiar setting to Mrs. Fryar since she started jerking sodas as a 14-year-old in Fairview, Okla. Her employer's dedication to his calling influenced her decision to study for the pharmacy.

As a sophomore at Southwestern State College in Weatherford, Okla., she met Fryar, a junior from Palestine, Tex. He, too was preparing for the pharmacy after having received his BS degree in business administration from East Texas State College and embarked upon pre-law studies; it was a summer's work in a drug store that had stirred him to re-chart his course. The couple married in her senior year.

This summer he gave up what is affectionately known as 'pulling to go on the road as a salesman; his territory includes Big Spring, Snyder, Sweetwater, Post, Lamesa, Colorado City, Stanton and Andrews.

The Fryars have bought a new house at 3607 Hamilton in the Douglass Addition. They had never been to Big Spring before moving here, but already they feel at home. She used to play tennis, but is now content to cook instead. Canasta is a choice diversion for the pair in the evenings.

COSDEN CHATTER

New Mexico Attracts Cosdenites

Harry Lain is vacationing in Santa Fe, N. M.; he is employed in the geological department.

Mr. and Mrs. Kenneth Williams are in Ruidoso, N. M., this weekend.

The girls in the credit department hosted a farewell patio party for Dot Lancaster at the home of Marion Cox recently.

Mr. and Mrs. Calvin Davis are going to Oklahoma to visit his parents.

The Arvin Henrys are with her parents, Mr. and Mrs. Eddy Hoffman of Fort Eustis, Va., in Portales, N. M., for the weekend. They plan to visit Mrs. Hoffman's sister, Mrs. George Brown.

Student employes working the second half of the summer session are: Kaye Chadd, Betty Guthrie, Virginia Cain, Beverly Alexander, and Wilma Cole.

Mr. and Mrs. Nelson Phillips Jr. sailed Friday for a South American cruise aboard the S. S. Del Sud.

Jerry Jenkins and family left Thursday for Houston where they will attend her father's 30th anniversary celebration with Humble.

Refinery employes on vacation are: Jo Roberts, H. A. Rogess, Gene Long, Ott Flynt, George Hudson, Olan Wilkerson, R. L. Andrews, Vernon Baird, J. H. Cain, Wm. R. Banks, E. W. McCarty, Jack Owens, A. C. James, and Pedro Diaz.

Lester Beauvois, polystyrene engineer, is a new employe in the engineering department. He and his family recently moved from Midland, Mich.

Conny Wade and family will return Monday from vacationing in Kansas.

Furlongs Enjoy Michigan Vacation

Dr. and Mrs. Norman B. Furlong returned Thursday from a 2½-week vacation in Grand Rapids, Mich. They were the guests of their daughter and family, the J. B. Cooks. A friend, Mrs. J. A. Brough of Dallas, joined them for the motor trip.

High points of the trip included a reunion with friends from their former home in Ohio, and with an aunt who lives in Florida. Dr. Furlong enjoyed three days in an art school at Saginaw.

Junior Campers Back From Christian Meet

Expected home Friday from Lake Brownwood were Nancy McEvers, Carol Hutchins, Mary Elaine Hall, Ricky Reynolds, Dennis Scott, with Karen Yates of Stanton.

The group, from the First Christian Church, has spent the week at the Christian Retreat for Junior campers.

Civic Theatre Offers Women Opportunities For Work, Fun

By KAY LOVELAND

"The Civic Theatre can use women in all phases of work, from actresses to secretaries to hostesses. Their support is essential to our progress," stated Mrs. Dewey Magee, Civic Theatre member since the birth of the organization in Big Spring in 1954.

Mrs. Magee, who held the post of secretary for the group during its early years, said that the need for women in the theatre is growing every day, and the organization can use several able women to perform the various jobs of an efficient secretary. Cards are to be mailed to the membership announcing meeting dates; letters have to be written to obtain scripts; legal matters have to be attended to and letters of thanks must be written.

Research staffs are also needed to check into customs, hairstyles, etc. or the various eras that the plays deal with. "For the Four Poster, which we're presenting next week," said Mrs. Magee, "we certainly needed some people to do research for us."

There are also many jobs a woman can fill in regard to actual production of a play. Makeup, costumes and prompting are among the major projects of women. "Although some men can work and like to work on makeup, the task is more adapted to a woman's touch, since she does it every day to some extent. The same goes for costumes—many of which must be made or altered."

They Seek Answers To Delinquency

LOS ANGELES (AP) — "Austria places its juvenile delinquents in good homes. In this country we place them in institutions. Why?"

The answer to this question, voiced by Henry Reining Jr., director of the Youth Studies Center at the University of Southern California, is one of many being sought during a five-year study sponsored by the university and the Ford Foundation.

"The Austrian approach looks like a good one," Reining says. "But when we asked Austrian officials why they used foster homes, they told us? 'It's the only thing we can do. We don't have the money to build institutions.'"

"In America it seems to be easier to build institutions than to find good homes for delinquents. At the moment it is not clear which is the better way. We intend to find out."

The study, begun in July 1958, is financed largely by a \$700,000 grant from the Ford Foundation. Reining and his associates have spent most of the first year in paper work, selecting experts in various fields and determining what problems should come first.

"Millions of dollars are spent every year in every major city to control and institutionalize juvenile offenders," Reining says. "If we could reduce this expenditure by only 10 per cent, think of the savings in tax money alone."

"But more important is youth itself. We want to know what makes them go bad, and how best to handle them after they do."

Cold Cocoa-Coffee

Next time you make hot cocoa for the children's breakfast, prepare some extra and chill. Add an equal part of ice-cold coffee and top with whipped cream.

Plans Wedding In August

Mr. and Mrs. A. K. Turner of Coahoma have announced the engagement and approaching marriage of their daughter, Mary Jo, to David Stoker, son of Mr. and Mrs. Aaron Stoker, also of Coahoma. The nuptials will take place on Aug. 20 in the First Methodist Church of Coahoma.

MRS. DEWEY MAGEE

Because a woman's voice is not so harsh as that of a man, she makes a better prompter. Besides, while she's doing those jobs, a man can be doing the heavy work like putting up sets which women can't do," she stated.

PROPS

The props department is another field for a woman. In the theatre, every piece of furniture has its purpose. Even ashtrays are put in a certain spot for a special reason. Women can see that everything is in its place.

There are many things people would never think about being a part of the theatre which can be done to aid in making a fine play. She can provide refreshments for the set crews and cast during rehearsals. Women are needed to act as hostesses, too—to see new people and get them interested in theatre work.

Even housewives, who have little time to devote to the group, can do their part. Work on a telephone committee will activate the lax members or enlist new ones. They can get props or costumes together, buy paint or other materials on their shopping trips or do a little research.

For those women who have a bit of ham in them or who want to try their wings, acting is a major part of theatre. Women are always needed and wanted for roles in plays. At this time, there are so few women in the group that it creates a double burden on those who are active. Often a woman will have to carry a role on stage and work on a crew backstage at the same time.

Automatically the question comes up, what is there in it for a woman besides hard work? In the words of Mrs. Magee, "There is no monetary reward for your work, but the rewards in self-satisfaction, in knowing you are doing something creative and constructive for your community instead of sitting back twiddling your thumbs is sufficient return. It makes a woman feel a part of something, as if she belongs when she is active in theatre work. You get paid in pleasure rather than money."

MAKE FRIENDS

The advantages of belonging to the theatre are many. It gives a person something constructive to

do with his spare time and it serves as a meeting place in which new friends are made. "The people one meets in the theatre," remarked Mrs. Magee, "are some of the most interesting to be found anywhere. They come from all walks of life and range from the highly educated to those who are self-educated."

Belonging to the theatre group gives couples and families something to do together. Mary and her husband, Sgt. Magee, are only one of several couples who work together and enjoy the Civic Theatre.

"Another way in which women spectators can help the theatre aside from attending plays is through donations," Mrs. Magee said. "Most women belong to a club or two that could donate a little money. Very little profit is made off plays after the costs of productions are paid. If the Civic Theatre is ever to have a theatre of its own, the money will have to come from donations as well as other sources."

No matter how small a woman's task may be, whether it is that of behind-the-scenes worker, actress, or a spectator, she will be assured of one thing. It will afford her the pleasure of knowing that she is aiding in the cultural improvement of her community.

'ROUND TOWN

With Lucille Pickle

Guest in the home of MR. AND MRS. ERNEST DODSON is ANN BONNAR of Glendale, Calif., who plans to be here for a month.

MR. AND MRS. EARL WILLIAMSON and their family are visiting in the home of MR. AND MRS. J. C. PYE. The family is on the way home to Sundown after a vacation in East Texas points.

MR. AND MRS. DON PICKLE and little daughter, Kay Lynn, have returned to Lubbock after spending several days here with Mrs. L. A. Pickle and other relatives.

DR. HARDIN WOOD III was headed for his post at the naval hospital on Formosa when he left here early in July but when he checked in, his stay was short and he now is assigned to the American Embassy at Saigon. His parents and sister, Dr. and Mrs. G. H. Wood and Lynn, had accompanied him to San Francisco. They returned here last week.

MRS. A. C. BASS, one of Big Spring's most enthusiastic travelers, is expected to return here today or Monday from Chicago where she has attended a national Altrusa convention as the delegate from the local club. When she arrived in Chicago, she was a little perturbed to find that although she changed trains at St. Louis, her luggage didn't. It finally caught up with her and her trip was a pleasant one. She had planned to go with a group to the Don McNeill show on Wednesday.

MR. AND MRS. B. J. CARR, Barbara, Ben and Bradley, are here visiting her parents, Mr. and Mrs. A. J. Cain, and his father, until August 1. They have been making their home in Albuquerque, N. M., and have now been transferred to Colorado Springs.

Today the family of MRS. MARY CALDWELL of Graham will gather in the home of MR. AND MRS. BILL CALDWELL and have a belated birthday celebration for Mrs. Caldwell. The family members who are visiting in the local homes of Mrs. Thelma Blackwell and Mr. and Mrs. Ben Caldwell as well as today's hosts, include Mr. and Mrs. Carl Cald-

Look, No Scratch

Newer household cleaners are available that will make abrasive effects less drastic on porcelain, enamel, china, metal and plastics. These incorporate ozone so that bleaching of stains may take place without irritating hands or materials. Action is derived from oxygen rather than chlorine.

well of McGregor and Mr. and Mrs. Joe Mayfield and children of Aransas Pass.

ROY MORAN, 911 W. 3rd, is convalescing in the Big Spring Hospital after undergoing surgery to his left eye on Thursday. Apparently, he's getting along fine.

DR. AND MRS. R. GAGE LLOYD will be leaving Monday for Tennessee to spend a couple of weeks with their daughter and son-in-law, Mr. and Mrs. W. W. Harrell Jr., and family.

Make-Up Aid Cool, Frosty

Never did a summertime gal have better beauty friends than the lightening, whitening, coolly iridescent and frosty make-up aids. They can mock a steaming or perspiring look as eloquently as an air-conditioned room, says the creator of many of these new hot-weather boons to beauty.

You can avoid the sheen finish to your complexion, which in the summertime fogs as though your brow, nose and chin were glowing with perspiration, by puffs from your creamy make-up base and powder all-in-one. The matte finish which results will make you look as though you just stepped out of a cool handbox.

If the look of coolness is what you want—as who doesn't, when skin steams and make-up melts?—choose the frostiness of blue or green iridescent eyeshadow, and iridescent magic lipsticks, as welcome as ice cubes to look at.

Or use a new white lipstick over a hot lipstick color to cool it down. (You can reduce the look of heat of redded lips fully 20-degrees by this method, it is said.)

Able to aid you in applying the world's coolest looking make-up is a fluid make-up foundation. To make it feel as cool as it looks, 77; splash it among soda bottles in your refrigerator until ready to use. Keep lipsticks in these icy confines, too. They'll help to keep your lips looking cool and collected, your eyelids unmeltingly clean on any day when the thermometer tries to blow its top.

Save Old Bread

Good Italian cooks save dry pieces of Italian or French bread and grind, then sift. Makes wonderful crumbs of two sorts—coarse and fine.

WINNERS IN 4-H DRESS REVUE
... both in Knott Club

Neva Jackson Winner In 4-H Dress Revue

A sparse crowd saw Neva Jackson named first place winner in the senior division of the Howard County 4-H Dress Revue at HJCC Auditorium Friday afternoon.

Miss Jackson, daughter of Mr. and Mrs. W. A. Jackson, is a member of the Knott 4-H Club. She has been active in 4-H for eight years and has entered a dress in revue every year.

For the past four years Miss Jackson has gone to district competition and placed twice, once as second alternate and once as first alternate.

She will journey to Lubbock next weekend for the District II finals on July 31. If she should win there, she will enter competition at the state level during the last week of the State Fair in October.

Miss Jackson's winning entry, which she modeled herself, was a black tulle and cotton double-breasted dress with pleated skirt and wide white collar. She accessorized it with white gloves, black kid shoes and bag and black sailor hat.

The 17-year-old student has also gone to district in dairy contests and was Gold Star Girl in 1956. She will be a senior in Sands High School next year.

Runner-up in the senior division

was 16-year-old Jeanette Ray, also of the Knott 4-H Club. Daughter of Mr. and Mrs. D. M. Ray, she will be a junior in Sands High School.

She has been a member of 4-H for seven years and has entered the dress revue for five years. She also will journey to Lubbock to model a special number for the district meet.

Her entry was a tweed suit worn with black gloves and black patent shoes and bag.

Although she has never been to district in dress competition, she has gone as a participant in dairy food contests.

Both Miss Jackson and Miss Ray plan to attend college and major in home economics.

Martha Robinson, also of the Knott Club and daughter of Mr. and Mrs. Tim Robinson, took first place in the junior division and will be the first Howard County girl to be entered in the junior contest at district level. Competition in the junior division goes no farther than the district meet.

Miss Robinson, 12, has been in 4-H for four years and has entered dress competition for three. This will be her first try at district.

Her entry was a red and gray print dress with gray ric-rac trim and a gray pleated scarf at the throat.

Runner-up was Lawanda Zant of the Vealmoor Club in a pink and white checked cotton dress.

Seven entries in the two divisions combined five in the junior and two in the senior. Receiving blue ribbons in the junior division beside Miss Robinson and Zant was Pennie Frazier. Red ribbons were given to Kathy Shaw and Marjorie Newman. Neva Jackson received a blue ribbon, and Jeanette Ray was awarded a red one in the senior competition.

Ribbons were given on a point system rather than on a first, second or third place basis.

Mrs. Jimmie Dee Jones, Howard County HD agent, presented the girls, gave the commentary and awarded the ribbons. Mrs. William Sims and Mrs. Ross Callihan were judges.

Better Shrimp

Cook shrimp in lightly salted water with a celery rib, a sliced carrot and about half a teaspoon of mixed pickling spice; shell and devein the shrimp, then use the strained shrimp liquid in a white sauce in which to heat the shrimp.

Try Chutney

Using frozen prepared fried chicken for a quick meal? Serve chutney with it; add a bowl of rice seasoned with curry and butter or margarine and you'll have a "different" main course.

To Wed

August 15 is the wedding date set by Mrs. Eunice Clark, daughter of Mr. and Mrs. G. C. Griffice Jr., 1208 Lloyd, and John M. (Sonny) Chgate. The prospective bridegroom is the son of Mr. and Mrs. Melvin Choate, 2303 Gollad, in whose home the event will take place.

Open House Will Mark Anniversary

Thursday will mark the 50th anniversary of their wedding for Mr. and Mrs. A. L. McCormick, and friends are expected to call between the hours of 5 and 7 p.m. at their home, 401 NE 10th, for an open house.

Mrs. McCormick, who is the former Cora Renfro, and her husband were married on July 30, 1909, "on a little country road" just out of McKinney. Two friends accompanied the couple on their elopement, which was done the usual conveyance of that day—a buggy.

Mrs. McCormick's parents were Mr. and Mrs. J. N. Renfro of McKinney, where the couple grew up together and were school mates. After the wedding, they remained in their home town until 1918, when Big Spring became the center for their farming operations. Until a few years ago, both worked for the Big Spring State Hospital after retirement from the farm.

Three of their five children are living, with two being Big Spring residents. Weldon McCormick lives on the Gail Route, and Mrs. Virgil E. Long lives at 1800 Dixie. Gerald McCormick now lives in El Monte, Calif.

On hand to help their parents celebrate will be the two local couples, but it is uncertain whether or not the Californian will be able to come for the party.

THE A. L. McCORMICKS
... married 50 years ago

Mark Birthdays

In celebration of their July birthdays Debbie, 3, and Sheryl, 2, daughters of Mr. and Mrs. Roy

Frale, were entertained with an outdoor party Thursday morning at their home. Balloon favors were given to the 16, who enjoyed refreshments of cake, ice cream and punch.

Pre-Nuptial Fete Has Clever Decor

Decorative notes apropos to the careers of the honoree and her fiancée were utilized at the wedding shower Friday evening for Sue White, bride-elect of Lloyd Robinson.

A group of hostesses arranged the compliment at the home of Mrs. A. L. Cooper, where the couple will repeat vows August 1. Their parents are Mr. and Mrs. Floyd White, 106 Circle Drive, and Mr. and Mrs. T. M. Robinson, Knott.

The engaged pair have become known throughout the country for the prize-winning cattle they have exhibited in livestock shows. Taking note of this, the hostess centered the refreshment table with a coral scene in copper tones, from which spread a royal blue streamer imprinted "Changing the brand August 1 from W to R." Behind it stood royal blue tapers in a silver candelabrum, one of the pair's trophies.

Mrs. Bill Sims, Mrs. Walker

Bailey, Mrs. Jimmy Taylor and Mrs. H. P. Wooten alternated at serving while another hostess, Mrs. Neil Norred, was at the register. Mrs. M. A. Boatler and Mrs. Richard Patterson also joined in the courtesy.

Guests were greeted by Mrs. Cooper and presented to the honoree, Mrs. White and Mrs. Robinson.

Miss White, dressed in a white frock of sheer cotton, had a corsage of white carnations.

About 100 were included on the guest list.

MRS. CARL E. FRANKLIN

(Photo by Barr)

Edith Freeman, Carl Franklin Are Wed In Chapel Ceremony

Snow queen gladioli and white mums radiated in sunburst pattern from the altar of the First Methodist Chapel, where Edith LaDorse Freeman and Carl E. Franklin exchanged nuptial vows Friday evening.

Seven-branched candelabra backed the setting; family pews were marked with white satin bows.

Guy David Caskey of Fort Worth, a ministerial student, read the double ring ceremony. Parents of the pair are Mr. and Mrs. John E. Freeman, 2110 Johnson, and Mr. and Mrs. Raymond Franklin, Sweetwater.

Jerrilyn McPherson, organist, played the prelude and accompanied Glenda Greenwood as she sang "Whither Thou Goest and Because." Gowned in a model of imported white Chantilly lace over satin, which had been worn by her sister, Mrs. Lee Chisholm, the bride was given in marriage by her father. The long dress featured elegant simplicity in its princess lines, with V neckline front and back. Seed pearls brushed the front panel of the gown, and the long sleeves tapered into points at the wrists.

A crown edged in seed pearls held in place her fingertip veil of silk illusion; it was designated as the something new in her attire. As something old, she had the wedding band of her grandmother, Mrs. Alvin Vieregge. A six-pence in her shoe and a blue garter completed tradition. The bride is the first of 17 girls who will include the garter in their wedding ensemble.

Agapanthus clustered around a white orchid as the bridal bouquet, which she held on a white Bible.

ATTENDANTS

Shirley Patterson attended her as maid of honor, while Toni Thomas and Jo Ann Ebling were bridesmaids. Dressed identically, they had frocks of baby blue batiste. The empire style was suggested in a cummerbund effect of satin which tied in a loose knot at front. Each girl carried a cascade arrangement of soft yellow Fuji mums tied with satin and tulle.

Tommy Bridges stood with the bridegroom as best man. Guests were seated by Dwayne Walker, Kent Cornoli, Charles Boley, and Jerry Franklin, the groom's brother. Bascom Waggoner of Sweetwater and Frank Harvell of Oklahoma City served as groomsmen. Tapers were lighted by Helen Boyd and the bride's brother, Johnny Freeman.

Retiring to the church parlor after the ceremony, guests were received by the newlyweds and their parents. La Verne Carter presided at the register.

Carol Ann Phillips, Charlene

Campbell, Darlene Williams and Mary Jane Weaver served from a table laid with a white cutwork linen cloth enhanced with blue. The feminine attendants wreathed their bouquets around the three-tiered cake, which was embossed with blue flowers and crowned with a bridal pair.

The nuptial event drew several guests from out of town; among them were O. B. Freeman Sr. of Sweetwater, Charles Curry and Mr. and Mrs. O. B. Freeman Jr. of Fort Worth, and Mr. and Mrs. Marshall Curry, Dallas.

For traveling to New Mexico, the bride selected a blue sheath dress of raw silk, styled with large collar and topped with a box jacket. The coat lining and

a belt in blue polka dots furnished the accents, with white accessories. On the lapel was the orchid from her bouquet.

Mr. and Mrs. Franklin will make their home at 407 West Colorado in Sweetwater, where he is employed by United States Gypsum Company.

The bride is a graduate of Big Spring High; she was a member of the Tri-Hi-Y, Future Homemakers of America, the annual staff and the volleyball team. Her husband graduated from Sweetwater High School and has completed his first year at Texas A&M; he was a member of the freshman tennis team.

BRIDESMAIDS LUNCHEON

Mrs. Ray Ebling and her daughter Jo Ann were hostesses for the bridesmaids luncheon Friday at the Couden Country Club. Miss Freeman took the opportunity to present gifts to her attendants.

Eleven found their places at a table decorated with blue and white flowers, in keeping with the honoree's color scheme.

REHEARSAL DINNER

Coker's was the scene of the rehearsal dinner Thursday evening. Mr. and Mrs. Raymond Franklin hosted the affair.

Corcorans Surprised With Party

A surprise housewarming was given Friday evening in the new home of Mr. and Mrs. Steve Corcoran, when friends gathered with gifts for the couple.

Located on Hilltop Road, north of town, the house was constructed by the Corcorans.

About 55 registered in the white and silver guest book.

Gifts were displayed and refreshments were served by the hostess group, which included Mrs. Walter Reuckart, Mrs. Homer Petty, Mrs. E. E. Musick, Mrs. D. M. Long, Margaret Barnfield, Mrs. C. J. Sullivan, Mrs. C. C. Hendricks and Mrs. Sophie Corcoran.

Visitors Make The News In Westbrook

WESTBROOK — Guests of Mrs. Jewel Brewer this week have been her nephew and family, Mr. and Mrs. Alfred Odle and Linda of Houston. Also in the home were Mr. and Mrs. H. V. McDonald of Kermit, who also visited his sister, Mrs. Frank Oglesby, and Mr. and Mrs. George Hunter and sons of Fort Worth.

The Rev. David Crow of Melrose, N. M., a former pastor of the Baptist Church here, visited the Altis Clemmers and the W. A. Bells, Tuesday. He had been in Abilene on business.

David Harding of Levelland is spending the week with his aunt and uncle, Mr. and Mrs. C. R. Hutchins.

Mr. and Mrs. E. A. Oden and children were guests of Mr. and Mrs. "Bear" Williams of Snyder.

Mrs. Williams is a surgical patient in the hospital there.

Cover-Up Enticing

By DOROTHY ROE
NEW YORK (AP) — Sometimes a girl can look more enticing in a high-necked dress than in one slashed for maximum exposure, says Oleg Cassini, reviewing his fall collection for members of the national fashion press.

without tails — is his dramatic black velvet evening sheath, long tight and devastating, with white satin bow tie worn in a new position — at the bosom.

A highlight of his collection is a snugly fitted gray wool sheath with black turtleneck dickey and an asymetric neckline below. This one he calls "Scotch and Soda."

Ben Zuckerman, known for upper-bracket suits and coats, shows severely man-tailored suits with easy fit, and sparks them with fur "gimmicks" — his word for small ascots, of mink, leopard or ermine. The suits are shown with mannish derbies or fedoras, usually in colors to match the suits.

Zuckerman also brings back the fitted Chesterfield coat in popcorn tweed, complete with black mink "gimmick."

John Moore, young designer for

the house of Talmack, shows a youthful and wearable collection of day and evening fashions, with particular attention to glamor for the cocktail hour, in the form of brilliant metallic brocades, austere cut.

Nice Spread

A tube of anchovy paste on hand? Add it to cream cheese (just enough for flavor) along with a little lemon and onion juice, nice as a spread for crackers.

Change With Time

Spanish Omelet is an old-fashioned dish that includes a homemade tomato sauce. Nowadays you can use a good meatless tomato sauce to accompany the omelet.

Demand For Water For City As It Grew Brought Problems

Far Cry From Old Days

Instead of a once mighty spring, pumps like this help course the water to local users. Roy Hester looks over the largest of a battery of five. Turned by a 600-hp motor, this pump boosts water at 5,000 gallons per minute. Other pumps on the high pressure side include a 60-hp unit delivering 700 gallons per minute and a 150-hp pump boosting 1,400 gallons per minute. These three push water to reservoirs located west of the VA Hospital. Two low pressure pumps with 400-hp motors, deliver 2,500 gallons per minute to the City Park, Lancaster street, and north Side elevated reservoirs.

By GLENN COOTES
Big Spring water demands, from the time of its founding, have grown from the exclusive use of a free-flowing spring to a complex filter plant that can process up to 14,500,000 gallons of water a day.
The city was founded at this site because of the availability of water from the historic spring. But the demand soon outdistanced this supply and the city turned to wells dug south of the city.
(This is one of two articles)
Roy Hester, now superintendent of the city's filter plant, recalls that probably 300 wells have been dug by the city in search of an adequate water supply. Hester was first employed by the city 31 years ago in 1928 as a pumper.
It was his job to move the pump jacks from well to well in order to keep an adequate supply of water flowing through the city water lines. The city had 42 pump jacks and five turbines to serve the many wells in those days.
WELLS UNTIL 1940
Big Spring used the water wells until 1940 when a filter plant was used to purify the water from the newly built lakes, Powell and Moss Creek. Hester was in charge of this novel plant, having been promoted to superintendent when "Uncle" Ben Lovelace died in 1938.
However, the new lakes and filter plant did not serve the city long before more water was needed. Many of the old city wells were called on once again and the city extended a line into northern Glasscock County to develop a new field. Then the Colorado Municipal Water District came into being, and for a time Big Spring got part of its water from Martin County wells before Lake J. B. Thomas was impounded. The city enlarged its filter plant twice and today all the water comes from Lake Thomas.
But, the old water wells are not out of the picture. During dry summers, they are called on occasionally to help meet the demands of peak periods. This year, water de-

This Was How It Was In 1932

Big Springers in 1932 received all their water from sources similar to this pump, which was located on the Morgan Ranch in Section 33. Roy Hester, left, now superintendent of the filter plant, had been working for the city four years when this picture was taken. "Uncle" Ben Lovelace, center, was superintendent of the city's water wells until his death in 1938 when Hester succeeded him. N. L. Reagan, right, was a pumper on this job.

Minear Talks To ABC Group

Roy Minear of Midland appeared before members of the American Business Club at their regular luncheon meet at the Settles Hotel Friday. He spoke at length in defense of the depletion allowance granted by the government within the oil industry.
He said many tax payers, among them members of the governing bodies of the United States, did not understand the reasons for the allowance, adding that it was especially vital to Texas economy to see that the depletion clause was retained.
A documentary film entitled "It Never Rains Oil" followed Minear's talk.
Minear is a past district governor of the Lions.

Birds Navigate By Stars, Scientist Says Tests Show

LUBBOCK—Scientists are beginning to uncover some of the strange powers whereby birds are able to migrate thousands of miles with unerring accuracy, a Texas Tech lecturer reports.
Evidence has been compiled that indicates certain species of migratory fowl take "readings" on the sun or the stars and navigate in much the same way humans do, said Dr. Franz Sauer of the University of Freiburg, Germany. He is a visiting faculty member this week (July 20-25) at Texas Tech's summer institute for high school teachers of biology.
Dr. Sauer has done special research on migratory methods of Old World Warblers and five other similar species.
By placing tiny Warblers—nocturnal migrants—under artificial skies of a planetarium, Dr. Sauer and his associates have been able to determine that the tiny birds are able to calculate the changing patterns of the stars and adjust their flight accordingly. Daytime migrant fowl are thought to use the sun for their "navigation."

Gun Blast Fatal

PARIS (AP)—The sister-in-law of novelist Francois Sagan, Mrs. Jacques Quirez, was found dead in her apartment Friday night from a shotgun blast. Police said a letter was found by the body, but declined to disclose the contents.

Nixon To Poland

LONDON (AP)—Vice President Richard M. Nixon will pay an official visit to Poland starting Aug. 2, the official Polish news agency reported today. Nixon now is in Moscow.

Enjoy modern AUTOMATIC yard lighting with the

ELECTRIC READY-LITE

This ELECTRIC EYE turns the light ON at dusk... OFF at dawn... automatically

READY-LITE makes yard lighting completely automatic... gives you light for nighttime beauty and convenience with no waste from needless daytime operation. Start enjoying these READY-LITE advantages now:

READY-LITE IS CONVENIENT. A photo-electric cell, the Electric Eye, turns the light on at dusk, off at dawn. And there is an electric convenience outlet in the base for your electric yard tools and for other uses.

READY-LITE IS ECONOMICAL... because it's never on when it isn't needed, it saves you money.

READY-LITE IS CLEAN... it's electric and maintains its brilliance. Anyone can clean an electric yard light.

READY-LITE IS ATTRACTIVE. There are many beautiful styles from which to choose; a style to harmonize with any type of home. You can enjoy attractive colored lighting effects by replacing the standard white bulb with the color you prefer.

JUST PUT YOUR READY-LITE ON YOUR ELECTRIC SERVICE BILL
Your authorized Ready-Lite dealer can arrange it.
Up to 24 months to pay.

Burglary Prevention Week Emphasized By Police Chief

Burglary Prevention Week starts today in Big Spring, according to Police Chief C. L. Rogers. He made the announcement expressing concern over the abnormal number of burglaries that have occurred in the city during the past few weeks.

During Burglary Prevention Week, the Police Department hopes to emphasize ways residents can help protect their property, Rogers said.

"We don't have enough patrolmen to watch every home in Big Spring every minute of the day and night, but we can cut down on the number of burglaries with assistance from homeowners," the chief declared.

STATE-WIDE EVENT

This is not just another "week," Rogers said. It is being held in conjunction with a state-wide program by the Texas Police Assn. to educate the public on how they can help reduce burglary losses. He added, "burglary losses are big business for some people. During 1958, 650,000 burglary offenses were reported across the country, or about 75 burglaries committed every hour, every day of the year. The disturbing thought about burglaries is that most could be prevented if the public would exercise a little more care and interest in their property, the chief said. People too often leave their homes for an evening, weekend, or vacation without a thought to the precautions recommended by the police department. Definite ear-marks are left that tell a burglar, "this place is a push-over."

Rogers listed 13 ways residents can help prevent burglary losses. He recommended these precautions be taken by everyone when leaving his home or apartment.

13 GOOD RULES

1. Close and lock all windows and doors, including basement, porch and garage. Use pin tumbler cylinder locks on all outside doors.
2. Leave a lamp or two connected to an automatic timer to turn lights on and off regularly each evening. This makes the home look "lived-in" and is a good protective measure.
3. If you are going away for a weekend or for a vacation notify the police department as to the date you are leaving and the date on which you will return.
4. Have the Post Office Department stop mail deliveries to your home while away and make certain that no store deliveries will arrive during your absence.
5. Cancel milk and newspaper deliveries. An accumulation of milk bottles and newspapers is a sure sign that you're not home.
6. If you are on vacation, have your lawn mowed and your sidewalk swept by a neighbor at least once a week.
7. Have your phone disconnected, if you're going away. Burglars will sometimes call to see if anyone is home.
8. Tell one neighbor at least when you are leaving. Have him notify the police department if he sees anyone prowling around.
9. Do not close shades or blinds completely. Leave them as you

normally would when you are home.

10. Never advertise your departure with an item in the paper, or broadcast the news to your neighborhood at large.
11. Never leave ladders and tools where outsiders can get at them. To do so is equivalent to giving a thief a key to the front door.
12. Close your garage doors. An empty garage with the door open is a good sign that no one's home.
13. Do not tell friends, neighbors

or associates of the valuable possessions you have around the house. In fact, the chief added, never leave valuables lying around the house. Place them in a safety deposit box.

Start practicing these rules during Burglary Prevention Week and make them a life-long habit, Rogers asked. It is the goal of his department to have a burglary-free observance in Big Spring this week.

Dallas Speaker To Be In City For Two Local Talks

Big Spring Rotary Club, joined by the Big Spring Kiwanis Club, will hear an address on Tuesday noon by Louie E. Throgmorton, Dallas banker and widely known humorous speaker. He will also speak to the Men's Club of First Presbyterian Church at 6:45 p.m. Tuesday.

Throgmorton is well known in Big Spring and highly regarded as an after-dinner speaker.

He is vice president and director of public services of the Republic National Life Insurance Co. of Dallas.

He has been engaged in life insurance for over 30 years. Prior to his connection with Republic National Life, he was general agent for Aetna Life Insurance Co. at Shreveport, La. During his residence there he was active in professional circles.

Throgmorton was born in Arkansas and educated in the Jonesboro and Little Rock schools. He is on the Board of Advisers of McKendree College, Lebanon, Ill.

LOUIE E. THROGMORTON

He is much in demand as a speaker before civic and business organizations, delivering over three hundred addresses a year throughout the United States.

He is assistant teacher of the John G. Slayter Bible Class and on the board of the East Dallas Christian Church.

Throgmorton is vice president of the South and East Dallas Chamber of Commerce and is also a member of the American Institute of Management. He is a member of the Dallas Sales Executives Club and a past president of the Shreveport Club. He is a member of the Dallas Downtown Kiwanis Club and a past president of the Shreveport Kiwanis Club.

Mr. Throgmorton is on the board of Trustees of the Washington Pilgrimage, Inc., Washington, D. C. He is listed in "Who's Who in the South and Southwest," "Who's Who in Arkansas," "Who's Who in Insurance," and "Who's Who in Commerce and Industry."

First Yule Card

DALLAS, Tex. (AP)—The dead letter section of the Dallas post office got its first Christmas card of the year Friday—and with only 153 shopping days left. The card, written in an illegible hand that looked like that of a child, had no return address.

DEMAND

(Continued from Page 1, Sec. D) Demand has been far behind 1958 due to the frequent and heavy rains. Mid-way through July, Hester said water usage is about 61,000,000 gallons behind the same period last year.

But he has been out to the old wells on occasion and got them ready to pump. They are considered stand-by supplies.

DEMAND GROWS

Hester estimates there were about 2,500 water meters in Big Spring 31 years ago. There are approximately 8,000 now.

Hester said the work at the filter plant is not as difficult as it was when all the wells had to be attended each day. He said there were four men in the department then and that was before the eight hour day was a commonplace. Now, there are six men in the filter plant during the summer months and they work three eight-hour shifts to keep the plant operating 24 hours a day. Four men are employed in the winter and they work two shifts to operate the plant 12 to 14 hours a day. The plant is attended seven days a week.

Operation of the filter plant today is primarily one of operating levers and taking tests rather than wrestling huge pumps off and on various wells.

(Monday: How pure water is insured for your home.)

Noted Columnist Suffers Attack

RANDOLPH, Vt. (AP)—Dorothy Thompson, 65, noted columnist, author and lecturer, is in Gifford Memorial Hospital after suffering a heart attack Thursday at her summer home in Barnard.

Dr. Elizabeth Berry said she spent a fairly comfortable night and that basically her condition is fairly good.

Beacon Tower Now In Its Place At County Airport

Howard County's Airport, which will not be formally dedicated before Oct. 6, is already a moderately busy place.

Recently workmen completed erection of the beacon tower—a structure which adds a definite aviatational appearance to the site.

The airport is "operating" in the sense that planes land and take off from it regularly. Cosden Petroleum Corp., which has a huge hangar on the site, carries on all its flights from the field. The "T" hangars built by the county are all tenanted by other Howard County plane owners.

Workmen at the port say there is some transient trade—airplanes on cross country hops lands at the field for refueling from time to time.

Officially, the Federal Aeronautics Authority has not given the port the green light. Inofficially, the place is in business—even

though business is at present limited to day time only. Although all lights are in place, the master control board is not completed so activities have to be restricted to day time.

Howard County Commissioners court is considering plans for a combination hangar—operations building and Puckett & French, Big Spring architects, are preparing data.

It is believed advertisements for bids for the hangar-administration building will be published within two weeks.

THE CASE OF A VERY PARTICULAR PERSON Who Wanted Dependable Professional Eye Care at Reasonable Cost

1. "My eyes were giving me trouble... I needed professional advice and care."

2. "Nothing but the very best care would do for my eyes... but this would be expensive, I thought."

3. "Several friends recommended Texas State Optical... They were completely satisfied with TSO eye care and glasses."

4. "My eye problems were eliminated. At TSO, my eyes were carefully examined... finest quality glasses were prescribed and fitted... and ALL AT REASONABLE COST!"

Like this TSO patient, thousands of people throughout Texas depend upon TSO for careful, scientific eye examinations, professional analysis of the condition of their eyes, and, if needed, finest quality glasses prescribed and fitted for clear, comfortable vision. You, too, can be particular about your eyes... and be sure of reasonable cost, too... Go to TSO!

OPEN ALL DAY SATURDAY

Twenty miles out of Tucson on a high-desert run... Chevy shows how a real pro handles the hot ones!

You'll find four 10708 heavyweights working out of Tucson for Construction Materials, Inc. They tote big, bruising ready-mix loads up and down mountain grades and through the furnace heat of Arizona desert country. According to Mr. H. K. Creswell, a company executive, "You couldn't ask for more run out of a truck. They handle every run we put them on... and

cost less to buy and maintain than any make we've had."

Big-tonnage operators don't become Chevy believers overnight. If you're used to big oversized rigs, you might question Chevy's lean-muscled modern design. Once you get one in action though, all the questioning stops.

Then you see how pure efficiency stacks up against excess pounds.

It's Chevrolet's advanced engineering and quality control that make the difference. Its soundly constructed chassis and sheet metal. Its slick-shifting 5-speed box mated to high-torque Workmaster V8 performance. Its precise steering and handling ease. That's why so many heavy-duty owners are being converted to the Chevy. Your Chevrolet dealer's the man to see.

No job's too tough for a Chevrolet truck!

See your local authorized Chevrolet dealer!

Line Forms In Next Block, Kids; 'Sleeping Beauty' Coming To Ritz

The master magician has done it again. Walt Disney, this time, comes up with not one but two of his most beautiful masterpieces.

Although not really better than "Snow White," Disney's new "Sleeping Beauty" has its own brand of magic that makes it just as good. And that's saying a lot. The story is nearly the same as that of Snow White — a beautiful princess spelled by an evil witch, and a kiss that awakens her from a sleeping death.

The animation is vastly improved, although the characterizations are as stereotyped as ever (but who cares).

That special Disney magic is in the whimsy and horror of the evil witch and her minions, the three good fairies and the forest creatures; as well as the art work, animation, and the story telling in general.

"Sleeping Beauty" is no cartoon — it was beautifully painted in the Vermeer style.

Disney has charmed millions and his "Sleeping Beauty" is perfectly within the tradition. It is guaranteed to please all the young at heart.

The story was adapted (rather freely) from the same old classic from which Tchaikovsky wrote his ballet. And, Disney makes use of Mr. T's ballet music in his movie.

The second feature (30 minutes) is a prize-winner about the Grand Canyon.

Here, there is no narrator, praise be! "Grand Canyon" is purely and simply a photographic essay set to music, and in its simplicity the grandeur of the greatest Artist of all is made as awe-inspiring and overwhelming as sight of the real thing.

Disney uses the music of Ferde Grafe's "Grand Canyon Suite" instead of dialogue, or narration.

SLEEPING BEAUTY AWAITS A RESUSCITATING KISS
Disney fantasy showing at Ritz Thursday through Saturday

The effect is certainly deserving of an Academy Award. The photography was done mostly by Ernest A. Heiniger, one of the best, and Disney's film editors did a fine editing job in fitting the photographs to the music.

All five movements of the Grand Canyon Suite are included — Sunrise, Painted Desert, Sunset, Cloudburst, and the rollicking On The Trail (surprise — no burro!).

"The Big Circus" rounds out its last two days with as much fun as the "greatest show on earth." The plot line is good enough, but the film's real drawing power is in the excellent scenes depicting real-life circus folk going through their

paces. As the late Mr. Barnum used to say, it's great for "children of all ages."

"The Man in the Net" stars Alan Ladd in the kind of role that made him famous in the first place, and in which he is still at his best.

He is an adman seriously giving his all to art. But he has trouble with an alcoholic wife, played by Carolyn Jones.

She disappears, and evidence begins cropping up to indicate that Ladd's done her in. He gets in pretty deep.

In most mysteries, the culprit is pretty well defined before the climax. But in "The Man in the

Net," the villain is kept obscured by a devious kind of muddling.

The Japanese have earned a good reputation for their science fiction films, several of which have won international awards for their mystifyingly realistic special effects.

Whether "The Mysterians" may be one of these this critic can't say, not having seen nor heard of the film at the present writing. Advance indications are that its special effects may be pretty startling, although not to compare with aforementioned prize winners.

The plot is a mixture of credible and not-so-credible science: the

Mysterians inhabit asteroids, the pieces of what was once a 10th planet, which the Mysterians' ancestors blew up with their nuclear experiments.

(There is scientific opinion that a planet once existed between Mars and Jupiter, in what is now the asteroid belt, but it is believed Jupiter's intense gravitation pulled it apart.)

The Mysterians make a base on the other side of the moon, the side we never see. (The logical staging area for any invasion of Earth.)

The aliens make use, not of their own people, but of robots in their Earth-side visit. (Earth scientists already know that most human space exploration will be done by hordes of robots, guided by select crews of humans.)

The Mysterians need Earth women for breeding of a hybrid race, since our world is unsuited to the aliens as they are now biological.

constituted. (Chances of such a biological accident are so great as to be impossible. Burros and horses are exceedingly close relatives, but their hybrid offspring, the mule, is incapable of reproduction.)

This part of the plot was an obvious attempt to work sex into the yarn.

"The Mysterians" probably is no work of art, but looks to be entertaining to science fiction fans.

CRITIQUE

By BOB SMITH

Five vacancies—for no academic credit—remain in the Texas Tech-sponsored American Theater Tour of the Midwest, Canada, the East Coast and the South.

The tour begins Aug. 1 and will end Aug. 19 when the group returns to Lubbock. Some 20 plays are on their itinerary.

A fee of \$225 includes transportation, lodging, theater tickets and regular college enrollment fees.

First on the itinerary is a visit to the State Fair Musicals in Dallas for a rehearsal of "High Button Shoes" and a performance of "An Evening with Maurice Chevalier."

Other plays that they will attend include: "The Shepherd of the Hills" in Branson, Mo.; "Carmen" in St. Louis, Mo.; "Once More with Feeling" in Chicago, Ill.; "Othello" in Stratford, Ont., at Canada's Shakespearean Festival; "Time Remembered" in Malden Bridge, N. Y.; and "Romeo and Juliet" in Stratford, Conn., at the United States Shakespearean Festival.

In New York City, the group will see "J. B.," "A Raisin in the Sun," "La Plume de Ma Tante," "Sweet Bird of Youth," "Julius Caesar," "Once Upon a Mattress" and "Shaw Festival."

On the way home they will see "The Common Glory" in Williamsburg, Va.; "The Stephen Foster Story" in Bardonia, Ky.; and "Call Me Madam" in Memphis, Tenn.

Fred Short, HCJC drama instructor, is planning to make the tour.

Returning and recommended: "Auntie Mame," Rosalind Russell in the role that she made famous on the stage; a blithe, heady woman who believes in living a full life. The kind you just don't see no more.

"The Buccaneer," the late Cecil B. DeMille's last major production, the story of pirate Jean Lafitte and the battle of New Orleans as seen through the eyes of studio historians. Yul Brynner makes a dashing, poetic buccaneer, and Charlton Heston an accident-prone but honest Andrew Jackson.

"Camp on Blood Island." Based on an incident of the last days of World War II. A group of British POWs find themselves facing death at the hands of a fanatic butcher, commandant of the prison camp. This British import is raw, brutal and bloody.

—BOB SMITH

Well, There's Always Hope

LONDON (AP) — Bob Hope sleepily signed a blank check held out by an autograph seeker as he waited for a plane to Brussels. "The boy dashed off with the check, calling back that he wanted to have some fun with his friends," the American comedian told a reporter at London Airport. "I hope he doesn't have too much fun."

"However, I didn't use my bank signature, and if the check should be presented, my bank wouldn't honor it—I hope."

Hope was en route to the Belgian capital to keep a golfing date with King Baudouin, whom he met during the King's recent tour of America.

Magic Of 'Sleeping Beauty' Is A Top Disney Achievement

"Sleeping Beauty," Walt Disney's \$6,000,000 spectacular film presentation of the beloved old fairy-tale, took 6 years and 300 artists to complete.

For this prodigious task Walt and his corps of veteran artists had at their command new and challenging implements of fantasy. These mechanisms included the big Technirama screen, revised color techniques, the fidelities of improved sound for the Tchaikovsky Sleeping Beauty Ballet music.

But the entertainment quality of the 75-minute feature rises more from the treatment of the medieval tale than from its splendors. Walt has packed into "Sleeping Beauty" all the know-how acquired from previous production of classic fairytales, from the days of "Snow White and the Seven Dwarfs" through the making of "Peter Pan."

The origin of the old legend of the sleeping beauty is dim in European mythology. The Disney romantic miracle play follows the rather thin original only in its main outline, the story adaptation having been made from Charles Perrault's version. Enormous research provided the authentic background and dressing.

The courtship of young Princess Aurora, who believes herself a peasant maid, by the valiant Prince Phillip brings a boy-and-girl quality to the picture.

Princess Aurora becomes the loveliest of all the fair ladies of legend. And Prince Phillip—he who gives the restoring kiss to lift the dreadful curse—is a most gallant hero.

Other characters are Maleficent, the witch-queen of Evil, and her brood of sub-human oracles; the three Good Fairies, Flora, Fauna and Merryweather, whose guard-

ianship of the young princess and awkward magical antics enrich the dark and bright enchantments with laughter; the two kings who seek to thwart true love with royal meddling, and the friendly birds and animals of the forest.

"Sleeping Beauty" sometimes rises to great moving scenes and emotional pitch in the clash of good and evil and in the final shattering battle between the prince and the gigantic dragon into which Maleficent has transformed herself.

Of it, Disney himself says: "The enchanting fable as we envisaged it for the theatre screen posed many formidable new problems. But there were exciting challenges too. The problems involved both the artistry and the mechanics of our biggest undertaking."

"But our artists rose to the occasion. They evolved new styles, new designs, new concepts for the animation of this timeless fairy-tale."

"They have now developed the process of animation to the point where it can truly be called 'The Art of Enlivened, Moving Paintings,' and a way of story telling impossible in any other medium."

The expressive score of Tchaikovsky's Sleeping Beauty Ballet runs its musical rhythms through the romantic, the ludicrous and the violent course of the tale. The score has not been used in full as written. George Bruns had the difficult job of adapting and re-composing some of the themes to lyrics sung by Mary Costa, as the voice of Princess Aurora, and by others.

The color pageantry finds splendid scope on the big Technirama screen. The Technicolor magnificence is composed from a whole new scheme of pigments.

The tremendous job, organized to make the finished product look like the artistry of one man, is, as Disney constantly emphasizes, a team job.

Distribution of the Technicolor-Technirama production is by Buena Vista.

Murrow Requests Navy Commission

NEW YORK (AP) — Television commentator Edward R. Murrow has applied for a commission in the U.S. Naval Reserve.

The Navy said last week that Murrow applied to serve in the public information field. It was reported that if the commission is granted Murrow would have the rank of commander.

Murrow, 51, said he has no radio or television programs in mind now that are related to the Navy. He is on a year's leave of absence from the Columbia Broadcasting System, although he plans to do two TV documentaries next year and continue to appear on the Small World program.

French Curious About Mexico

MEXICO CITY (AP)—Maurice Escande of the Comedie Francaise company said last week French actors would like to know something about Mexican theater.

He said Mexican movies are shown in France but little is known about this country's theater.

PREVIEW OF FALL FASHION ATTRACTIONS

Fashions are reviving Classic silhouettes... flattering feminine styles which have universal appeal... the lines again glorify the female form... It is the colors and fabrics, and the manner in which they are manipulated and combined that imparts newness to the fashions... shown here are examples of the new trends—

- necklines... large collars are prominent on coats and outer wear. Modified, small notched and rolled collars are prevalent on suits. Day dresses have necklines ranging from jewel and high bateau types to wide middy openings frequently filled in with straight topped dickies. Cowl and softly draped necklines share honors with widened square, round and sweetheart decolletage on softer afternoon and late day numbers.
- sleeves... the feeling of width is important... vastly scaled down leg-of-mutton and Gibson Girl sleeves are part of this trend.
- waistlines... at the natural place is the only focal point for waistlines... may be accented by belts of all widths.
- Skirts and hemlines... straight, bias cut flared and box pleated skirts are used on all types. Hem lengths are just as short (or even shorter)
- the tunic suit has returned with a touch of fur at collar and hem or just plain and simple as you choose... a flurry of fur is a fashion must this season.

• fashion runs the gamut this fall—from classic and tailored during the day to lush elegance in the evening... a truly exciting fashion season lies ahead.

You'll love it!
