Landfill Demonstration

A landfill operation was part of the program in Big Spring Wednesday for almost 50 representatives of cities throughout the area. The city was selected as one of eight across the state to co-sponsor a refuse collection and disposal equipment demonstration program. This picture was taken at the disposal plant located east of the city on Farm Road 706. John Taylor, mayor pro-tem, made the welcoming address earlier in the day and Jimmie Dickens, State Health Department, and Jack Broad, Brownwood city manager, gave talks prior to the field demonstration.

ENTIRE BUSINESS AREA

Yule Decorations On Broad Scale Favored By Merchants

Even if it costs a little more to go first class, merchants appeared to favor something outstanding in the way of Christmas decorations. The Retail Committee of the Chamber of Commerce, headed by Randall Polk, recommended a three year program to provide a canopy type street decoration for the downtown and three outlying shopping districts. Added to the present program of Christmas business promotion, this would represent an outlay of about \$7,000 annually.

Directors of the Chamber of Commerce will be asked to pass upon the recommendation at the next meeting. About \$3,500 has been raised annually to support a program built largely around the fairly elaborate courthouse square decorations. This program would be maintained along with the extensive overhead items. F. J. Byrnes, Dallas, representing Lone Star Decorating Company, made a price of \$15,000 to be prorated over a three-year period for the canopy type street decorations. They have large and colorful garlands, well lighted and of durable construction, he said. His offer included installation, maintenance, dismantling, storing in Lone Star's warehouse, and repair. The decorations are guaranteed for a period of three years, he said. The price also included erection, dismantling and maintenance of the regular courthouse decorations.

School Enrollment Continues To Gain

Despite corrections in two schools, enrollment in the Big Spring Independent School District system inched forward through Wednesday. Reports from the elementary and secondary levels showed 6,579 on the roll, said S. M. Anderson, assistant superintendent (instruct-

tion). Corrected reports from Lakeview elementary school showed 215 registered, a loss of 11 from the previous report, and 110 in the junior and senior high school, a loss of 13. However, a transposition in tabulations which had erroneously shown Bauer with 415 pupils was corrected, more than offsetting the loss. Meanwhile elementary schools picked up 23 net gain.

Graham Sees Big City Racism

ASHEVILLE, N.C. (AP)— If the recent juvenile violence in New York had occurred in a Southern city, "there would have been an outcry for federal troops," says evangelist Billy Graham. Graham said Wednesday in an interview he is convinced that "racial tension in many Northern cities is far greater than anywhere in the South."

CASE OF SNAKE IN BATHROOM THRILL FILLED

The children had been put to bed and Douglas Clemens had buried himself in a good murder mystery. Suddenly a scream pierced the air at 3223 Cornell. The script had conditioned Clemens for this sort of thing, nevertheless he found himself dashing in the direction of the scream. Undoubtedly it was Mrs. Clemens who was making this assault upon high C. A snake was loose in the bathroom, she warned. And right she was, for Clemens dispatched the 2-foot serpent with the heel of a shoe. It must have been a garden variety of snake, but then a snake is a snake, especially in the bathroom at bedtime.

Bomb Call Holds Plane On Ground

SAN ANTONIO (AP)—A telephone call that "the next airplane out" would have a bomb aboard prompted a postponement of the takeoff of a Braniff Airways plane today. Braniff spokesmen said the man who called the airport office did not specify the plane or airline but that a Braniff plane happened to be the next scheduled to leave. The plane, scheduled to fly to Austin and Dallas, was held on the ground and carefully searched.

Laotian Troops Throw Up Line Against Reds

Tornadoes May Hit Northeast Texas Today

BULLETIN
MILLSAP, Tex. (AP)— A severe windstorm tore off the roof of the high school today. Action by school officials just as the windstorm broke was credited with saving students and teachers from possible injury.

By The Associated Press
 The Weather Bureau forecast possible tornadoes for a segment of northeast Texas Thursday as a severe squall line swept through the state. The turbulent weather caused three quarters of a million dollars damage overnight in the Rowena area west of Ballinger. It caused storm warnings for much of North Texas, southeastern Oklahoma and west central Arkansas. The squall line dumped heavy rains in Wichita Falls which sent water over curbs in the downtown section.

The tornado forecast was for an area bounded by Sherman, south-east to Quitman, northeast to DeKalb, and then north to the Red River. The forecast area extended into Oklahoma and Arkansas. The warning area included such cities as Paris, Botham and Sulphur Springs, with Sherman, Denison and Mt. Pleasant on the fringes.

The forecast said "Some large hail, widely scattered damaging surface winds and the possibility of one or two tornadoes" are expected in the area from 10:30 a.m. to 4:30 p.m.

The downpour, which hit Wichita Falls at 8:30 a.m., fell as thunderstorms were reported in the Lubbock area and the eastern half of the Panhandle.

A funnel cloud was observed touching ground northeast of Purcell, Okla., apparently a part of the squall line. Ardmore, in southern Oklahoma had a torrential rain at 8 a.m.

Hail the size of golf balls hit the upper Texas Panhandle town of Sunray. The cool front dropped temperatures and provoked a damage-dealing hailstorm as it moved through West Texas Tuesday night and Wednesday.

Damage in the Rowena area west of Ballinger was estimated at \$750,000 by Rowena bank president Henry Popcock, after hail, rain and high wind battered crops and buildings in a 60-square-mile section.

Petitions of interest in a parking garage were issued for circulation in a 20-block downtown area. These will be returned to the chamber by Saturday and will be used as a gauge of possible downtown support of such an operation. There have been some preliminary talks with at least one potential builder.

Interest Raise On Bonds Ok'd

WASHINGTON (AP)— The House Ways and Means Committee today approved a bill raising interest on E and H savings bonds.

But the committee again refused by a 14-11 vote to grant President Eisenhower's request to repeal the 4% per cent interest ceiling on government securities maturing in five years or more.

The savings bonds bill, which goes to the House floor for debate Friday, would permit the Treasury to raise interest on the small denomination savings bonds from 3 1/2 to 3% per cent.

House Democrats have balked at taking the interest ceiling off all bonds on grounds it would benefit only bankers and money lenders, and raise the cost of servicing the record 290-billion-dollar public debt.

Administration officials say the present interest situation is inflationary and costly because the government cannot compete with other borrowers for long-term money and must finance its needs through short-term borrowings. There is no rate ceiling on government obligations of less than five years maturity.

Dead Of Injuries

GALVESTON (AP)— Ralph Hutchinson, 23, of Nacogdoches died in a Galveston hospital today of injuries suffered in a traffic accident near Nacogdoches Aug. 23.

Recipe Deadline Friday

Two more days—today and tomorrow—that's all the time remaining before deadline in the Herald's big recipe contest. Your favorite recipes postmarked before midnight Friday will be entered along with others in consideration in a \$100 grand prize award and seven \$10 prizes.

But best of all, you have a chance to obtain a cookbook of wonderful kitchen-tested West Texas favorite recipes. Each copy of the Sept. 20 Herald will contain all these tasty food formulae. You probably will want extra copies for yourself and your friends. So order them now at only 35 cents an extra copy.

Rev. W. D. Boyd To Leave City Church

The Rev. William D. Boyd, rector of St. Mary's Episcopal Church for the past nine years, has resigned to become rector of T. Thomas' parish in Orange, Va. He also will be chaplain to students of the Woodberry Forest School, a college preparatory school at Orange. Sunday will be his last day at St. Mary's.

REV. WILLIAM D. BOYD

Coming to St. Mary's Church from serving churches in Holdenville and Seminole, Oklahoma, the Rev. Mr. Boyd has led the parish in its development that has seen it grow from 97 communicants in 1950 to its present status of 313 communicants. During the tenure of his rectorship 152 persons have been baptized and 213 have been presented for confirmation.

Active in the community affairs of Big Spring, Mr. Boyd has served on the board of directors of the Chamber of Commerce two years; on the board of directors of the Big Spring Rotary Club; as a director of the American Cancer Society Chapter; as president of the Volunteer Advisory Council of the Big Spring State Hospital; as vice president of the Big Spring Pastors Association, and as chaplain of the Texas Elks State association for four years.

Foremost in the accomplishments of his rectorship is the new St. Mary's Church which was opened in February 1956 and was the scene of the first Diocesan Council of the newly created Diocese of Northwest Texas. In addition to his duties in Big Spring, Boyd has been active in Diocesan Affairs, having served five years as the chairman of the Council of Advice; as secretary of the Examining Chaplains Board; as a trustee of the University of the South, Sewanee, Tenn. With the formation of the diocese he was elected president of the Standing Committee, the second highest office in the Diocese. He was also the alternate clerical deputy to the General Convention of the Episcopal

Church that met in Miami Beach, Fla., last October. Mr. Boyd has also assisted the bishop of the Diocese in the development of two Mission Churches, St. John's Church, Snyder, and St. John's Church, Lamesa. The latter congregation has just completed a new building which Mr. Boyd will have the privilege of reading the service for the opening of the new church Sunday afternoon.

Mrs. Boyd has also been active in the community life, having served as president of the Big Spring chapter of the American Association of University Women; as a director of the American Cancer Society; a member of the Volunteer Council of the Big Spring State Hospital; and as a member of the 1948 Hyperison Club.

The Rev. and Mrs. Boyd and their four children, William, John, Harold and Mary Elizabeth, will leave Big Spring next Tuesday to take up residence in Orange. His last services at St. Mary's Church will be held this Sunday.

Ike Peace Formula: Firm Principles, Flexible Tactics

PARIS (AP)—President Eisenhower today gave the West a blueprint for peace: Refuse to retreat one inch from principle and stay flexible tactically. "Then there will be no war. There will be peace," the President told the North Atlantic Council during a surprise visit.

The President sandwiched the quick visit to NATO headquarters into a tight schedule of talks with Western leaders and French President Charles de Gaulle. Arising fresh and apparently relaxed after a late white-tie state dinner with De Gaulle, Eisenhower pitched vigorously into the last day of his European tour.

His appearance at the council was designed to calm the fears of the smaller powers that his coming meetings with Soviet Premier Nikita Khrushchev spelled a lessening of their roles in NATO.

"NATO is a matter of spirit, of determination to work as partners and to preserve the ideals we all cherish," the 68-year-old President said. "If we are firm among ourselves, if we refuse to retreat one inch from principle, if we remain flexible so far as tactics are involved, if we give NATO the same patriotic, deep devotion we give to each of our own nations, then there will be no war. There will be peace."

De Gaulle and Eisenhower continued their discussions at a lunch Eisenhower gave at the U.S. Embassy residence. From all outward appearances they are getting on famously. Eisenhower's day began when NATO Secretary General Paul-Henry Spaak and NATO Council President Joseph Luns arrived. After private talks with them, Eisenhower drove the few blocks to

Citizens Armed, Paratroops Out

By DAVID LANCASTER
SAM NEUA, Laos (AP)— The army today threw a handful of paratroopers into the shaky defense perimeter around this rebel-threatened city and handed out guns to citizens.

Brig. Gen. Amkha Soukhavong, defending this royal army military headquarters for northern Laos, said Communist units "are probing our lines only 18 miles away."

The general said the main force of Laos rebels, supported by regulars from neighboring Communist North Viet Nam, is grouping in the mountainous jungles 27 miles north of Sam Neua.

Red forces since Sunday have overrun lightly manned outposts. Advance units were reported within 12 to 18 miles of Sam Neua in what shaped up as a major offensive.

"It's classic warfare, not guerrilla tactics," Defense Secretary Phoumi Nosavan told newsmen. He charged that the attackers included at least one battalion of regular North Viet Nam troops, from Laos' Communist-ruled neighbor to the east.

"We intend to hold Sam Neua at all costs," Phoumi declared. "To let it go would be a convincing argument to the world that the Pathet Lao were re-established in their old domain."

The rebels of the Pathet Lao movement, who want to set up a Communist regime in the little Indochinese kingdom, took over the two north Laotian provinces of Phong Saly and Sam Neua during the last years of the Indochinese war. Two years ago the rebel movement reached a truce with the royal government and agreed to disband. The rebels resumed activity this summer, and the government charges they are being trained and supplied by North Viet Nam's Communist government.

Earlier rebel activity this year had been confined to infiltration by bands of varying size which seized isolated government posts. Officials said the Reds launched a concerted attack Sunday morning along the Nam Ma River, 10 miles from the North Viet Nam border, and captured 80 Laotian villages. Government troops, mostly irregulars, retreated along a 35-mile front in face of the mass assault, which the defense secretary said was supported by a bombardment of 105mm howitzers supplied by North Viet Nam. Official reports said several government soldiers, including a captain, were killed and about 30 were missing.

Brig. Gen. Ouane Rithkhoune, commander of the royal armed forces, estimated the total rebel strength of the government forces in the Sam Neua area is a military secret. They reportedly number six battalions and units of another.

Regular air traffic to the town of Sam Neua was suspended but planes are reported dropping supplies to the defenders. Small groups of refugees, some wounded, are arriving at Vientiane airport.

Vientiane, the nation's administrative capital 200 miles from the front, remained outwardly calm. All government offices, including the Ministry of Defense and military headquarters were closed for the Buddhist festival of the dead. There were unconfirmed reports that the staffs of the American Embassy and U. S. agencies in Vientiane have been warned to guard against possible hand-grenade or bomb attacks by terrorists. The Communists have accused the United States of instigating the trouble in Laos to create an excuse for American military forces and the Southeast Asia Treaty Organization to move in. Red Star, the Soviet army newspaper, repeated the charge today.

Mayor John Yager proclaimed the observance to honor the man who created the first bottle-making machine. Owens also perfected a device that brought automation to the flat glass industry. Before Mike's accomplishments, one glass blower and four assistants could make only 216 bottles a day. Now bottles can be produced by machinery at the rate of hundreds of thousands a day. And flat glass no longer is made from huge blown bubbles that have to be flattened by hand. A machine draws glass out of the furnaces in sheet form.

The date marks the 56th anniversary of the founding of the Owens Bottle Machine Co., which was formed to market his first big invention, as well as the 100th anniversary of Owens' birth.

Owens-Illinois Glass Co. is hanging glass plaques at its plants in 50 cities in observance of the occasion. It is one of three major glass producers centered here, that includes the inventor's name. The others are the Libbey-Owens-Ford Glass Co. and Owens-Corning Fiberglas Corp.

A native of West Virginia, Owens got his first job at the age of 10, stoking a furnace in a glasshouse at Wheeling. At 15 he was a blower and at 20 a leader in the American Flint Glass Workers' Union.

He led a strike at the New England Glass Co., Cambridge, Mass., so successfully that it halted operations there. The owner, Edward Drummond Libbey, moved to Toledo. Owens followed six months later and eventually became a production manager for Libbey.

By 1903, with the help of an engineer, Owens had invented a machine that gained the name "bicycle pump." It pulled a measured gob of hot glass from the furnace, plopped it into a steel mold and puffed air into it to form a bottle. Finally several "pumps" were fastened to a rotating steel framework, making the process continuous. With modern refinements, a 50-ton bottle machine can turn out 400,000 bottles a day.

Spence Named To Committee

E. V. Spence, general manager of the Colorado River Municipal Water District, has been named to the important resolutions committee for the Texas Water Conservation Association. He will be at the annual meeting in Dallas Oct. 18-19. The panel which will screen all proposed pronouncements on water policies will be headed by R. J. Fields and will have its first meeting at 2 p.m. Oct. 18 at the Adolphus Hotel.

Killed In Crash

BELTON, Tex. (AP)—A Negro woman believed to have been a school teacher at nearby Temple was killed today in a car-truck collision 18 miles south of here. She was identified as Eva Jordan Clark of Rosburg. Officers said her car and a truck loaded with hogs collided on U.S. Highway 81 about a mile north of Jarrrell.

Thundershower Creates Waterfall

It looks like a budding Niagara Falls as water pours from E. 18 Ave. down to the Garden State parkway in Irvington, N. J. The unlucky motorist fled the stranded auto. Police managed to direct most motorists off the toll road into marginal highways.

Ike Faces First Really Tough Problem In An Uneasy France

PARIS (AP)—President Eisenhower's new crusade in Europe for Western unity appears to be a big success so far on just about every count. But the real test faces him in France.

Europe's future could be vitally affected by Eisenhower's meeting with French President Charles de Gaulle.

The two old soldiers have known each other from the days of World War II, along the rough road to victory and the rocky road to peace. Now new problems beset them.

On his visits to West Germany and Britain, Eisenhower faced no major disagreements or misunderstandings. In Paris, however, the questions at issue are delicate and far-reaching.

He includes: (1) U. S. support for France in the Algerian war; (2) France's part in shaping Western global policy and her role in NATO; (3) France's ambition to become an atomic power; (4) French uneasiness over Eisenhower's meeting with Soviet Premier Nikita Khrushchev.

Failure to ease these problems could leave France isolated from her Allies, a dangerous situation for both France and the Allies.

The Algerian war is of the greatest importance to France. De Gaulle thus far has been unable to end the rebellion against French rule, now in its fifth year.

The President should order studies to determine if a merger would be the best course of action.

The committee did not call for incorporation of the Navy into one big military service, but it said this might be done "ultimately, if weapon logic dictates."

Rivalry for weapons systems has cost the country a great deal of money, the committee said.

There would be great savings under a merger, the committee said, because:

1. "The bitter defense controversy over air defense mission" would be eliminated.

2. Overhead would be cut, and 3. Technical talents of the two services would be combined and teamed with a diversified missile industry to produce future weapons efficiently at lower cost.

The report was based on several weeks of hearings and studies by the Military Operations subcommittee, headed by Rep. Chet Hoffield (D-Calif.).

Nation's Crime Rate Increases 9.3 Per Cent

WASHINGTON (AP)—Crime in the United States increased 9.3 per cent in 1958 over 1957.

The year's crime clock indicated: A murder every 64.2 minutes. A forcible rape every 96.1 minutes. A robbery every 7.9 minutes. A car stolen every 1.9 minutes. A burglary every 46.4 seconds.

Atty. Gen. William P. Rogers and FBI Director J. Edgar Hoover jointly reported today there were an estimated 1,533,922 crimes classified as very serious offenses last year compared with 1,442,285 in 1957.

There were increases in all of the individual classifications as follows: murder, 8,182 in 1958 and 8,027 in 1957, an increase of 1.9 per cent; forcible rape, 14,561 and 12,898, 13 per cent; robbery, 73,247 and 66,943, 12.7 per cent; aggravated assault, 115,530 and 110,672, 2.6 per cent; burglary, 679,787 and 603,707, 12.6 per cent; larceny over \$50, 391,550 and 354,972, 10.3 per cent; auto theft, 270,965 and 265,178, 2.2 per cent.

A crime covered in the index was committed every 20.3 seconds last year.

Youths under 18 represented only 12.1 per cent of all persons arrested. They accounted, however, for 64.1 per cent of all arrests for

auto theft, 49.9 per cent of those for burglary, 48.5 per cent of those for larceny, 39.9 per cent of those for receiving or possessing stolen property and 22.8 per cent of those for robbery.

Crime increased more than five times as fast as the population. There were 896.9 serious crimes committed for every 100,000 population, or one such crime for every 111 citizens.

For every 100 persons formally charged and held for prosecution, 67 were convicted.

While crimes of all types occurred throughout the year, the report said there were some rather definite seasonal patterns. Aggravated assaults, for example, occurred with greater frequency during the warmer months of the year. The same was true of forcible rapes, which are mostly traffic deaths, tended to rise during the last quarter of the year.

SAN ANTONIO (AP)—Stanley Alan Durza, 15, died Wednesday from head injuries suffered when his motorcoter overturned at an intersection.

There were increases in all of the individual classifications as follows: murder, 8,182 in 1958 and 8,027 in 1957, an increase of 1.9 per cent; forcible rape, 14,561 and 12,898, 13 per cent; robbery, 73,247 and 66,943, 12.7 per cent; aggravated assault, 115,530 and 110,672, 2.6 per cent; burglary, 679,787 and 603,707, 12.6 per cent; larceny over \$50, 391,550 and 354,972, 10.3 per cent; auto theft, 270,965 and 265,178, 2.2 per cent.

A crime covered in the index was committed every 20.3 seconds last year.

Youths under 18 represented only 12.1 per cent of all persons arrested. They accounted, however, for 64.1 per cent of all arrests for

The same was true of forcible rapes, which are mostly traffic deaths, tended to rise during the last quarter of the year.

SAN ANTONIO (AP)—Stanley Alan Durza, 15, died Wednesday from head injuries suffered when his motorcoter overturned at an intersection.

There were increases in all of the individual classifications as follows: murder, 8,182 in 1958 and 8,027 in 1957, an increase of 1.9 per cent; forcible rape, 14,561 and 12,898, 13 per cent; robbery, 73,247 and 66,943, 12.7 per cent; aggravated assault, 115,530 and 110,672, 2.6 per cent; burglary, 679,787 and 603,707, 12.6 per cent; larceny over \$50, 391,550 and 354,972, 10.3 per cent; auto theft, 270,965 and 265,178, 2.2 per cent.

A crime covered in the index was committed every 20.3 seconds last year.

Youths under 18 represented only 12.1 per cent of all persons arrested. They accounted, however, for 64.1 per cent of all arrests for

auto theft, 49.9 per cent of those for burglary, 48.5 per cent of those for larceny, 39.9 per cent of those for receiving or possessing stolen property and 22.8 per cent of those for robbery.

Crime increased more than five times as fast as the population. There were 896.9 serious crimes committed for every 100,000 population, or one such crime for every 111 citizens.

For every 100 persons formally charged and held for prosecution, 67 were convicted.

While crimes of all types occurred throughout the year, the report said there were some rather definite seasonal patterns. Aggravated assaults, for example, occurred with greater frequency during the warmer months of the year. The same was true of forcible rapes, which are mostly traffic deaths, tended to rise during the last quarter of the year.

Coexistence, War Niki's Alternatives

NEW YORK (AP)—Nikita Khrushchev says the West must fall in with the Soviet policy of peaceful coexistence of communism and capitalism or face "the most destructive war in history."

"There is no third choice," the Soviet Premier said in an article appearing in the current issue of Foreign Affairs, quarterly review of the Council on Foreign Relations, a private organization of prominent Americans.

Khrushchev said that if relations between the West and the Communist bloc are to improve, "all barriers in international trade must be removed" to let international life develop normally.

The Soviet Premier confidently predicted that the Communist system eventually will win out in what he called peaceful competition.

House Ready To OK Ike Bill

WASHINGTON (AP)—Falling by one vote to override a veto of a bigger bill, the House was reluctantly ready today to bow to President Eisenhower's wishes and pass a scaled-down public works measure.

Scheduled for passage Friday or Monday was a bill appropriating \$1,162,967,266 to finance several hundred river and harbor and flood control projects in almost every state. Left out were 67 projects in 32 states involving an initial outlay of \$51,510,600 and an estimated over-all cost of \$604,528,600.

It was inclusion of these projects in an earlier bill that caused Eisenhower to veto it because they were not provided for in his budget program.

The House Appropriations Committee meets today to whip the compromise bill into shape. Wednesday the House fell one vote short of the two thirds needed to override the veto of the \$1,162,967,266 measure. The vote was 294-138, with 265 Democrats and 11 Republicans opposing the President's position and 6 Democrats and 132 Republicans upholding it.

It was the 14th bill vetoed by the President since he took office. None of them have been overridden.

The decision to tone down the bill to meet the President's objections stemmed from a feeling on the part of most House leaders that it would be better to settle for half a loaf than for nothing at all.

No Time For Study

FOWLER, Kan. (AP)—Odes Sapp, superintendent of Fowler schools, has mailed a form letter to parents saying:

"I would like to ask for your help. With our modern gadgets, we are getting too much competition. "Could we set aside a few minutes each night for studies? If the children miss Maverick, Cheyenne or Colt 45 (on television) it still can be picked up next week. This is a little convenient to work the next year. How about arranging for a study hour."

Sealed Rodents Aid Spacemen

DALLAS, Tex. (AP)—Two tiny white mice now living in a sealed glass jar at a Chance Vought aircraft laboratory may show man how he can breathe and eat when he makes long voyages in space or explores distant planets.

The mice, named Yoko and Zebra, and four quarts of life-giving algae and water make up the experiment which Chance Vought's space medicine scientists hope will show them how to build a sealed chamber capable of producing vital oxygen food and water for space travelers.

The mice have been in the sealed jar for 17 days and Dr. Russel O. Bowman of the research team conducting the experiment says they are thriving.

In an earlier experiment Yoko lived in the jar for 292 hours. Troubled with patchy fur when he entered the jar, he now is in excellent condition, Dr. Bowman said.

To the jar containing the mice Bowman has attached by a system of pumps and tubing—a narrow, 4-foot-high, fluorescent-lighted, double-walled plastic tank holding the algae and water.

The algae provide oxygen for the mice and the mice supply carbon dioxide for the algae.

Currently the mice are being fed laboratory food in pellets. Later they will be fed algae to which certain salts and nitrogen-yielding urea are added.

Jobless Pay

AUSTIN (AP)—The Texas Employment Commission said Wednesday 42,268 persons drew unemployment compensation last week compared with 43,097 the previous week and 61,741 a year ago.

DEAR ABBY

DON'T TAKE CHANCES

By ABIGAIL VAN BUREN

DEAR ABBY: Every morning when I take my garbage out, I find my trashcan filled to the brim with empty beer cans. This burns me up!

Someone in this neighborhood (and I'm pretty sure I know who the guilty party is) drinks about a case of beer a night. She is ashamed to have her garbage man see them, so she puts the empties in my trash can.

Should I have it out with this neighbor, or should I haul the empties back to her trashcan?

NO BEER DRINKER
DEAR NO: Don't take any chances. You might haul the "empties" to the wrong neighbor. Talk to the party you suspect and

Why Johnny Can't Read—Not Time Yet

SOUTH BEND, Ind. (AP)—Earl Michael Jenkins, 5, laid the blame on inadequate education after he disappeared for several hours on his way home from his first day at school.

He got off the school bus at the wrong stop. A state trooper finally found him near Niles, Mich., more than five miles from home. Earl complained to his mother, Mrs. Earl M. Jenkins, that after a full day in school, "I still couldn't read those signs along the road."

Negro Says Niki Should See Dixie

PHILADELPHIA (AP)—A Negro bishop says Nikita Khrushchev should visit a Southern city to see for himself that Communist propaganda is wrong: American Negroes are not downtrodden. Sherman L. Greene, senior bishop of the African Methodist Episcopal Church, criticized the State Department Wednesday for not including such a visit in the Soviet Premier's itinerary. Bishop Green said he has suggested in a letter to President Eisenhower, that Khrushchev visit his home city, Atlanta, Ga.

June Is Losing Out As Wedding Month

By FRANK CAREY

AG Science Reporter
UNIVERSITY PARK, Pa. (AP)—Take it from the florists—June is losing out as the favorite month of brides, a flowery bit of scientific research disclosed today.

August is looming as a strong threat, and even September and November are coming up fast, though these latter are still below the average of other months excluding midwinter.

Midwinter weddings still appear to be unpopular both as to incidence and the money spent upon flowers when they do occur.

These and other facts came to bloom today in a report made to a horticultural session of the annual meeting of the American In-

Perils Of Driving

RAWLINS, Wyo. (AP)—Careful driver Don Ethridge of Salem, Ore., approached an intersection and thrust out his arm to indicate a stop. A boxer dog bounded alongside, eyed Ethridge's dangling fingers and bit him on the hand.

stitute of Biological Sciences on the campus of Pennsylvania State University.

Researcher Earl H. New and several colleagues of Michigan State University's horticulture department described results of a study they made of retail flower sales variations both seasonally and by "occasions." The occasions included weddings, funerals, birthdays, holidays and so on. The survey covered 12 selected florist shops in Michigan and included sales made during a period of a year.

New told a reporter that neither he, the colleagues nor the florists could say with any certainty why the brides are swinging away from June.

He said there was a time when August ranked away down in the marriage date sweepstakes.

"Maybe it's just a tendency to get away from doing things according to tradition," he said. "Although it has been suggested in circles outside the scope of our research that maybe youngsters who might sentimentally want to be married in June put it off until August so as to defer for a couple of months the first payments on the future."

Noisy Mistake

CHARLTON, Mass. (AP)—Aaron Burlingame got tired of having youths blow auto horns outside his house to attract his daughters. So Sunday when he heard a horn he rushed out with a shotgun. Seeing nothing, he fired a blast into the air.

hidden in a tree. Police said he had been blowing a duck call as a practical joke.

Kuehl was given hospital treatment. In Webster District Court Burlingame pleaded guilty to assault with a dangerous weapon. He was given a suspended six-month jail sentence.

A Devotional For Today

"Therefore do not be anxious about tomorrow, for tomorrow will be anxious for itself. Let the day's own trouble be sufficient for the day." (Matthew 6:34.RSV.)
 PRAYER: O God, grant us grace to put our whole trust in Thee. Help us to learn from the lilies of the field and the birds of the air the Saviour's lesson in faith. In His blessed name we pray. Amen.
 (From The 'Upper Room')

Watch Out For The Youngsters

Officials have issued a warning to motorists against whizzing by school buses which have come to a full stop.
 The law requires that you come to a stop, too.
 Prudence demands it, for too often some youngster is badly hurt or killed as he or she emerges from behind the bus into the path of an on-rushing car. There is just one safe thing to do—and that is to stop.
 And while on this subject, the same appeal to commonsense driving applies around school grounds.
 The only thing you can be sure about in

the case of elementary grade children is that they will do exactly what you don't expect them to do. They may head automobiles 29 days in a row and on the 30th dart out from between two cars into the automobile traffic lane. You may not be able to see them and you may be within your rights—but that won't change the picture.
 Around schools, the best practice is to drive at least twice as carefully as you do anywhere else. And if you see anyone driving recklessly, get the number and turn it into the police. This is not a case of snitching—it's a case of perhaps saving a life—maybe your own youngster's life.

The Shadows Of 20 Years Ago

Twenty years ago these early days of September World War II was born with Hitler's orders sending his troops into Poland.
 Memories of the start of America's portion of World War II, the Japanese attack on Pearl Harbor, are sharp and clear. There's hardly an adult who cannot recall precisely where he was and what he was doing when he heard that awful news.
 Memories of Sept. 1, 2 and 3 of 1939 may not be quite so distinct because a great many people didn't realize at first the full fact that another world conflict was beginning.
 Hitler's storm troopers earlier had marched into Rhineland, Austria and Czechoslovakia, and had got by with it. Britain and France had kept on trying for "peace in our times." But they had set a deadline of sorts. They had promised to fight for Poland.
 Hitler's strike at Poland, however, didn't bring automatic responses from Britain and France. Still they tried to negotiate around war. About 48 hours after the initial attack, the hopes for peace died and war was declared.
 Still, full-scale war was slow in coming. The Germans mopped up Poland in short order. A German sub sank the passenger ship Athenia and Russians, then confederates of the Nazis, moved into parts of Eastern Poland. There were skirmishes here and there but no major war and be-

liefs grew that British and French entry had been enough to "contain" the Germans. It was to be a "phony" war.
 But, those who so believed underestimated Hitler. The Nazis took over Norway and Denmark in short order, and eight months after Poland, the panzers roared across the Low Countries and France. Italy declared war against helpless France and, less than two years later, Japan made it worldwide with its attack on the United States.
 The war that started so slowly in August 1939 spread its tragedy into households around the world.
 Fifteen million men died in battle. More than that died in air raids, retaliatory executions and pogroms.
 All that is behind us now and we have a new type world situation with its new type devices of death and its new power hungry dictators.
 Here, in September 20 years after Poland, leaders of the world are talking peace, seeking to find some means for settling differences short of war, short of the mushroom cloud.
 Still, the world is irritated by "little" wars. First the Russians and more lately the Red Chinese have been nibbling away at the free world. Even as the leaders of Russia and the United States plan their historic conferences, eruptions threaten in Asia.
 Twenty years after Poland, few are brave enough to say it can't happen again.

David Lawrence

More Important Than Khrushchev Meeting

WASHINGTON — Although President Eisenhower and British Prime Minister Macmillan gave an impression of unity of purpose in their joint television-radio broadcast from London Monday night, there were plainly apparent some substantial differences between the two best tacticians in use in dealing with Soviet Premier Khrushchev.

Quite clearly the political undercurrents in Britain require a prime minister to favor summit meetings and personal negotiations with the Soviet premier irrespective of the ultimate consequences, whereas Mr. Eisenhower seems to feel that even a summit meeting should be preceded by some show of progress toward peace with the Moscow government.
 These positions are not new. London and Washington have made them plain before. But it was nevertheless significant that in this impromptu conversation between the two leaders of the West the same skepticism and doubts about Soviet policy that hitherto have been expressed by the United States government are accompanied by the same words of confidence uttered by the British that somehow by continuous talk with Khrushchev solutions will be found, even if it takes a dozen meetings of the top leaders of both sides.

Mr. Eisenhower, on the other hand, is troubled by the impression of weakness which a marathon of talks could produce. He was careful to point out that talk is all right in its place as a means of exploration or search for a solution but that principles cannot be abandoned.
 Mr. Macmillan agreed broadly with this approach, but he left some doubt as to whether he believes principle is worth standing on indefinitely, when he said that "we have got to be flexible about the new conditions that arise and how to deal with each situation." The President graciously translated this into flexibility of tactics, rather than retreat on the principle itself.
 He said: "In other words, you are saying strategic principle stays immutable — tactics change according to armed weapons and the different changes."
 Mr. Eisenhower then, as an example,

At Times, Ike Gets Rayburn's Goat

WASHINGTON (AP) — Speaker Sam Rayburn is the shepherd of the House Democrats. But every once in a while President Eisenhower gets his goat.
 Seven times in a year—144 times since taking office in 1953—Eisenhower has used his veto to kill a measure passed by Congress. Never yet has Rayburn been able to round up enough votes to override him.
 He tried twice this year and failed. This must be galling to the 77-year-old Texan who has the greatest Democratic streak since early New Deal days. It's the strays who ruin him.
 Most of the strays on vetoes have been Southern Democrats.
 Passing a bill needs only a simple majority vote of House and Senate. But passing a bill into law over a presidential veto requires approval of two-thirds of those present at voting time in both houses.
 In the Senate there are 100 members—65 Democrats, 35 Republicans — and a full two-thirds would be 67; in the House there are now 436 members—284 Demo-

crats, 153 Republicans—and a full two-thirds would be 291.
 Thus, despite their huge numbers, the Democrats would lack a two-thirds vote on any veto—by a handful—even if the full membership of both parties was voting. And they couldn't get the two-thirds unless the Democrats voted solidly together and a few Republicans joined them. But the full membership of the two parties almost never votes at any one time.
 And Democrats almost never vote solidly. So, when less than the full membership is voting on overriding a veto, the outcome is tight and ticklish, particularly if some Democrats wander over to the Republican side.
 And that's what happens.
 For example, this year Congress passed a \$1,218,000,000 flood control bill to pay for reclamation and other water projects all over the United States. This kind of something-for-the-folks-at-home bill is called a "pork barrel."
 Eisenhower vetoed it Aug. 28.

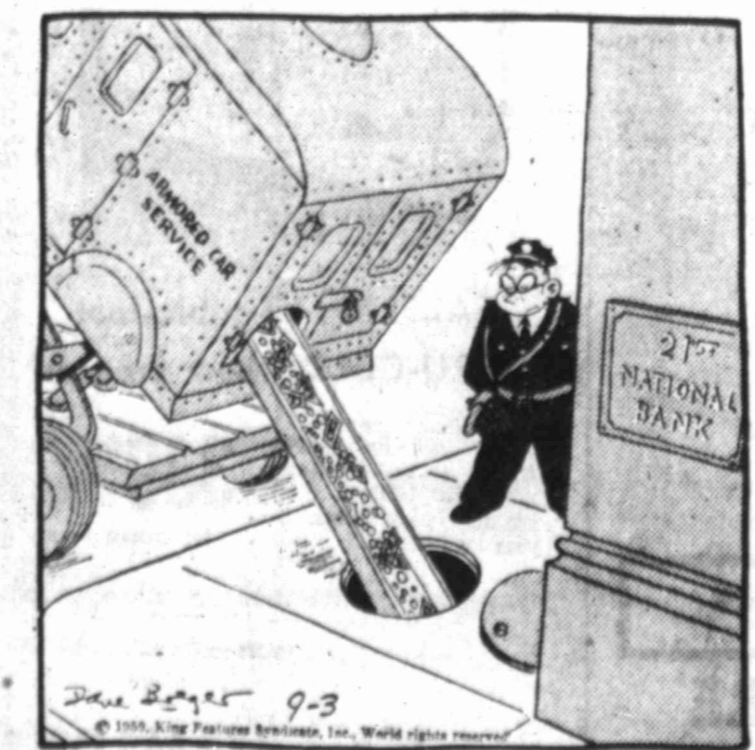

He thought there was too much pork. In Congress the cries of rage sounded like cries of pain. Rayburn led the march to override the veto. The vote came Wednesday.
 The total vote was 412, of which two-thirds would have been 275. But the vote was 274 for overriding (one short of the needed 275) to 138 for upholding Eisenhower's veto.
 Eleven Republicans teamed up with 263 Democrats against the President. But six Democrats joined 132 Republicans in backing him up. One of the six Democrats had voted with his party. Eisenhower would have lost. Five of the six were Southern Democrats.
 Earlier this year Eisenhower vetoed a bill which would have stripped Agriculture Secretary Ezra Taft Benson of authority to refuse loans by the Rural Electrification Administration.
 Rayburn's House Democrats failed by four votes to override that one. Four Democrats strayed.
 On this REA bill the Senate did vote to override—64 to 29—with two more votes than were needed to make up the two-thirds (62) of the total 93 votes cast. Sen. Frank J. Lausche was the only Democrat against overriding.
 The Senate tried but failed to override Eisenhower's veto last July of the \$1,375,000,000 housing bill. Rayburn's protégé and fellow Texan, Sen. Lyndon Johnson, Senate majority leader, reportedly wasn't keen for trying on this one because he could foresee the result. The vote was nine short of the needed two-thirds. Ten Democrats were on Eisenhower's side.
 The other vetoes this year were on wheat and tobacco bills, both important to farmers, and two minor bills. After counting heads, the Democrats in the House and Senate didn't even try to override.

Hal Boyle

The Citizen's Architect

NEW YORK (AP) — Architect Morris Lapidus today is America's leading designer of resort hotels.
 Some years ago architect Frank Lloyd Wright was shown a lavish 15-million-dollar hotel in Miami Beach.
 Asked what he thought of it, he snapped: "It's an anthill!"
 To which Lapidus, designer of the hotel, replied: "I'm flattered. An anthill is one of the greatest abodes nature ever perfected."
 Lapidus, who has designed everything from stores to skyscrapers, is best known for some 75 million dollars worth of ornate tourist hotels that stud Florida and the Caribbean.
 His hostilities often have a stunning impact on the public, sometimes an annoying one on fellow architects.
 "Some members of my profession say, 'You're too corny — you're pandering to the public,'" he said. "Yes, I am. My critic is the masses. I design for them."
 "Let's stop trying to educate the human race. Let's just make them happy."
 The big quarrel between Lapidus and his critics is over adornment. He thinks much of modern architecture is becoming too bare and stern.
 "The love of adornment fills a basic need in people, a need as basic as food or sex. Much architecture today ignores this human desire," he says.
 "I'm not a Hollywood character who merely tries to shock people. I don't do things just to be sensational."
 "But hotels and restaurants are not like factories or schools. They are places where people go to get a lift—to get out of their humdrum life."
 "What I try to do is to create buildings which give people a sense of exhilaration and enjoyment. Some architects feel we have reached a point where we are sophisticated enough to admit pure structure and pure form."
 "That may be true of a minority. But the majority still get an emotional bang out of adornment. Rich colors, beautiful materials and handsome decorations satisfy their emotional need for adornment."
 Lapidus, brought here from Russia before he was a year old, studied copper-smithing, his father's craft, as a boy. Later he acted and studied stage designing.
 In a way, he designs his hotels as if they were vast stage sets.
 His creed: "Even a doghouse, or a birdhouse, should have adornment."

MR. BREGER

Altar Still In Use
 MEQUON, Wis. — Everything is new at the recently-opened School Sisters of Notre Dame motherhouse here, except for the altar in the chapel.
 The altar, a single heavy slab of Italian marble resting on pillars of Mexican onyx, was moved here from the old motherhouse in Milwaukee. At least two sisters had prayed at the altar at all times, day and night, since 1890.
 Playing It Safe
 PEPPER PIKE, Ohio — Mrs. Paul I. Schultz and her daughter Paula drive to work together each day — to Orange School, a little over a hundred yards from their home. The two teachers explain that "We're not crazy, but it's difficult to cross the road on foot because of traffic."
 Out For Fire
 HIGH POINT, N. C. — The High Point fire department had a fire in its station while the crew was out having its truck's motor tuned.
 The fire was quickly extinguished by a member of the county volunteer fire department who was driving by and saw smoke.
 Bell Ringer
 MONTCLAIR, N. J. — Debbie Rae plays classical music or rock 'n' roll with equal zest on her collection of 45 belts. She's the youngest member of the American Bell Assn., a group of collectors. Debbie is 8 years old — and she's blind.
 Well Named
 COLUMBUS, Ohio — Among Ohio's veterinarians are doctors named Bear, Bird and Beavers.

Around The Rim

Hazards Of Just Trying To Stay Alive

Occasionally I read in the pages of the Herald where some millionaire way up north suddenly disappeared. With no forewarning and without making a whole lot of preparation, some guy apparently vanishes, leaving behind a large family, a good job, three new cars, and a small fortune in the bank. The question is raised: Why did he leave all that behind?
 Just recently a well-known man and wife disappeared from El Paso where they operated a successful business and apparently, they took nothing with them. Why?
 I have a theory and I believe it is an original one. I think these folks who choose to disappear may have read one of these bulletins from the National Safety Council that explains the dangers and hazards of living at home. And these people, not as daring as the rest of us, decided to chuck the whole thing and escape while the getting out is good.
 For instance, I have a bulletin here that says seven out of 10 home accidents occur to men and that males are killed more often than women in accidents involving cars, fires, drownings, firearms, railroads, poison gases and poisons.
 It's enough to make a fellow stop and think. But that isn't all. The council furnishes these figures: Every year, home falls kill 12,000, fires and burns kill 5,500, and accidental poisoning gets another 1,000. A total of 27,000 persons die in their homes each year and another four million are injured.
 Most of us sweat out the possibility of cancer, polio or a heart ailment. But the hazard of these dreaded diseases is relatively minor when compared with home accidents. The number one killer of all persons between the ages of 1-24 is accidents around the house.
 And, according to the council, most of

us have introduced into our intimate family circle a strange beast that is beginning to take its toll of fingers and toes. That's the power mower, found lurking in the garage or tool shed.
 There were some 15 million of these power mowers in existence in 1958. And the number of accidents with the mowers has increased in direct proportion with their popularity. Amazingly enough, it isn't the mower itself that does all the damage. Three out of every 10 persons injured in power mower accidents are hurt by something thrown by the mower and one in seven accidents leave a permanent disability.
 For more statistics on your chances around the house, the council states that 15,000 persons over 65 will die in home accidents. The statistics say 11,500 of these are victims of falls.
 You don't suppose some of our weaker hearted citizens read these statistics and leave home do you?
 It would appear natural that people would read these figures, and set about to remedy the causes of accidents around the house. But apparently this is not the case. Practically everyone is familiar with the dangers of discarded refrigerators and cabinets left where children can crawl into them. Yet, the council estimates that there are 50 million of them available to children today and about a million each year is added to the total.
 And the accuracy of the council in naming the number who will die in traffic accidents on a given date is well known. All of us know the figures and know the odds. But it has done very little toward making us drive more carefully and help prevent them.
 Just leaving the home doesn't appear to be the answer to preventing home accidents. But removing the causes of them from the home does.

Inez Robb

Malarky About Elsie Dingblatt

An American scientist working on U. S. manned satellites has seriously suggested before an international space-flight symposium in London that the ideal companions for a two-to-three-year journey through the wild blue void be two men and a woman.
 This suggestion of Prof. R. V. Helvey, formerly of Kansas University, is undoubtedly a well-meant attempt to relieve the monotony of space travel. As the professor so eloquently points out, "the terrible feeling of remoteness and loneliness" will be the greatest problem facing the crew of a space ship.
 "These and other biophysical conditions must be taken into account today," is Professor Helvey's delicate explanation of his mixed threesome. And very well put, too.
 But if there were ever a proposal designed to sabotage the current U. S. plans for a manned satellite, it is the innocent professor's. If Uncle Sam adopts his cozy plan, the seven splendid American astronauts now in training for space travel are, in one woman's opinion, as good as scratched. Remember, they are all married men. And there isn't a wife alive who is going to wave her husband off into space with another woman, and never mind that second man.
 I can just imagine the scene when an astronaut comes home with the glad news that he will not be alone in space.
 "Bill and I are not going to get it alone in that satellite," he says, edging into the subject. "The government has decided that there ought to be three of us. You remember Elsie Dingblatt in the laboratory—the girl with the buck teeth and pince-nez and the wen on her chin?"
 "Never mind all that malarky about the buck teeth and the pince-nez and the wen," replies the little woman, beginning

to smell a missile mouse. "What has Miss Dingblatt got to do with all this?"
 "Well," says the astronaut, beginning to wilt at the seams, "the government has decided there ought to be laboratory technician on the trip and they have chosen Elsie, Miss Dingblatt, that is. She is going along purely in the interests of science and—"
 That noise you have just heard is the roof blowing off.
 And the next thing it knows, the government is fresh out of astronauts, married ones, anyway. Uncle Sam has to start all over with bachelors, whom he rejected in the first place in favor of married men since "marriage and stability have a very high correlation."
 Or, Uncle Sam can go a step beyond Professor Helvey and recruit married couples. Just why the professor chose a triangle as his ideal candidates for space travel is hard to fathom, unless he felt it would keep all three in fighting trim.
 But if a satellite is large enough for three, there is no reason it can't be enlarged a teeny bit more to accommodate a second woman. Take two married couples along and you may not have quite so much qui vive, but—on the other hand—you have a bridge game. Who could then say that a space ship is not a home?
 However, if Professor Helvey prevails and a trio is shot aloft, I would like, for the sake of the woman aboard, to repeat the answer of Madeleine Carroll, the movie beauty, to a reporter who once asked her to name the man with whom she would most like to be shipwrecked on a desert island.
 Miss Carroll, with a Frenchwoman's realistic approach to the problem, replied in two words: "An obstetrician."

Sweeping Problems Under The Carpet

LONDON — This exercise in goodwill has been so carefully stage-managed that it has all but obscured the sharp differences dividing American and British policy in important areas of the earth. They have been swept under the royal red carpet of welcome extended for every step of President Eisenhower's visit.
 In the glow of harmony they seem trivial enough, but these differences may be serious.
 The trouble in Laos is a case in point. Because Britain accepted responsibility for the Indo-China truce when the United States in 1954 simply walked away and would have none of the compromise that carved out separate Communist and non-Communist countries, the British today have a special role in the area. As co-chairman with the Russians in presiding over the terms of the truce they are distinctly uncomfortable in the present situation.
 They would like to have the United Nations intervene, through Secretary General Dag Hammarskjold, to prevent a nasty little war from becoming a nasty big war. But the Russians will have none of this. Instead they are insisting that the neutral truce commission be reactivated to play policeman.
 From the American view this would be an affront to Laos. It would imply that Laos is not a sovereign power capable, with the help of its allies, of managing its own affairs.
 While no British official would admit it publicly and certainly not at this moment when the theme is hands across the sea, there is a feeling that American zeal for a military buildup in Southeast Asia has made Laos vulnerable. In supplying arms and military advisers to Laos, the United States has stayed within the terms of the truce which permits armed forces to be raised to a certain level of capability with outside assistance.
 But the effect, as the British see it, has been to draw Laos into the orbit of the Southeast Asia Treaty Organization and, therefore, to violate the spirit at least of the truce. The British have always taken a rather dim view of SEATO, which was one of the creations of the late John Foster Dulles.
 Separating truth from fiction in the snatches of information reported from the

conflict in what is a new and highly unstable country is all but impossible. This reporter has talked with high officials of both the British and French Governments during the past week. They agree that there is no evidence at this time of Communist intervention from outside Laos.
 Communication between the capital, Vientiane, and the remote jungle areas where the conflict is going on is virtually nonexistent. Rebel bands with a strong Communist orientation have long operated in the border regions that are for the most part trackless wilderness.
 Undoubtedly the Communist objective is to subvert the government of Laos and bring it down. But whether this subversion can be stopped with the new American arms being flown in to be put in the hands of an additional force of 5,000 Laotians is questionable, and here British policy and American policy tend to diverge.
 That any of this will come about is most unlikely in the current atmosphere. The Eisenhower smiles and the Macmillan smiles are all pervasive.
 The Macmillan smile is that of a shrewd and confident politician who scents victory in the air in the election that is just ahead. The polls show something like a landslide for the Conservatives, who lead Labor by five to seven points. The Prime Minister's appearances with "Uncle Ike," as the headline writers have begun to call him, have surely done him no harm.
 Who would want to spoil this by raising unpleasant and controversial issues? Important sectors of British public opinion, and not just alone in the Labor party, were offended by the President's action in inviting the Spanish Foreign Minister, Fernando Maria de Castiella, to come to London to see him. Despite the official denials, this was done without prior consultation with the government here. De Castiella's record as a close ally of the Nazis and the Fascisti and an enemy of the democracies was so well known that the British refused after the war to accept him as an ambassador.
 But if the Americans want to bring Spain into the NATO alliance the Prime Minister will not make an issue of it at this moment. As with Laos, it is being swept under the rug.

India Crisis

Map locates India border areas involved in the current crisis. Chinese Communist troops are reported in the states of Bhutan and Sikkim (1). A dispatch from Assam said Communists are concentrating troops near the Siang and Lohit sectors of the northeast frontier area. (2). Chinese troops are also said to be in the Ladakh area of Kashmir (3).

Ike Setting Record As Tough On Vetoes

WASHINGTON (AP) — President Eisenhower's unbroken record of never having had a veto overridden is establishing him as one of the toughest chief executives with which any Congress has dealt.

The one-vote margin by which 132 House Republicans and 6 Democrats sustained Eisenhower's veto of a \$1,216,000,000 public works bill Wednesday left the dominant Democratic majority mired in new political frustration.

As it had 143 times previously, Congress bowed to Eisenhower's rejection of a measure that a majority of both houses had supported previously. In comparison, 12 of Harry S. Truman's 250 vetoes and 9 of Franklin D. Roosevelt's 631 vetoes were overridden.

Beyond his veto record, however, Eisenhower is demonstrating that a president who stands his ground can come close to getting what he wants out of a Congress overwhelmingly controlled by the opposition party.

This is no mean political accomplishment and politicians of both parties recognize it is likely to have some deep-seated effect on the outcome of next year's presidential and congressional elections.

Some leading Democrats admit privately that Eisenhower has grabbed the ball away from them and is making a lot of political yardage with his budget-balancing and anti-inflation maneuvers.

His vetoes have all but destroyed the bold, imaginative programs Democratic leaders were talking about in January. Time after time they have had to tailor their production to fit the pattern laid down by the President, as they seem likely to do in a new public works bill.

The general effect on this has been to draw a sharper line between the parties on the highly important economic issue. In the public mind, Eisenhower appears to have become to many the symbol of the "savers," battling the Democratic "spenders."

Join In Search

VIDOR (AP) — An estimated 400 persons joined in the search Wednesday night for Johnny Molazzo, 25, Lakeview, Tex., who disappeared while swimming in the Neches River.

Word Of Fortune

Felie Naccarelli embraces his wife as they discuss the telegram they are holding at their Pittsburgh, Pa., home. Mrs. Naccarelli said she received word that she is sole heir to a two million dollar fortune left by an uncle in Scotland. But she says doctors have given her only about a year to live because she is suffering from cancer. "I want to live," she said. "It makes me so sad to think I'm going to die."

Radio Amateurs Open Ham-Fest

McALLEN (AP) — Magic Valley Radio Amateurs open a three-day ham-fest Saturday expected to draw 250 persons including 36 from Mexico.

Featured speakers include Grady Payne, Houston, Gulf Coast director of the American Radio Relay League; Gen. Alberto Najera, Mexico City, president of the Mexican Radio Amateurs; and Col. A. A. Cooper, Refugio, chief of communications for the state guard.

Mayor To Add To N.Y. Police To Fight Crime

NEW YORK (AP) — Mayor Robert F. Wagner says he will add 1,000 policemen to help stamp out juvenile violence, which has resulted in four murders since Aug. 23.

After police arrested two teenage Puerto Ricans Wednesday for killing two youths in a public playground last Sunday, Wagner said the Police Department would be brought to its fully authorized strength of 24,500 men.

The mayor directed City Budget Director Abraham D. Bearne to report today on what "sacrifices" may be necessary in other city programs to bolster the police force.

In addition to Wagner's city hall meeting, Gov. Nelson A. Rockefeller holds an emergency conference today to discuss with state officials a "more effective coordination" of all agencies in reducing youthful crime.

There has been official talk of a curfew for youth on New York streets. In Washington, Sen. Jacob K. Javits (R-NY) urged consideration of such a measure.

Rockefeller invited FBI Director J. Edgar Hoover to attend a meeting of city and state officials next Tuesday. Hoover said a previous commitment would make it impossible for him to be here.

Booked on homicide charges in the playground murders were "Cape Man" Salvatore Agron, 16, and "Umbrella Man" Antonio Luis Hernandez, 17.

Agron has admitted wielding a knife during the senseless slayings of Robert Young and Anthony Krzesinski, both 18, but he would not admit to police responsibility for any deaths.

Hernandez, whom police say carries an umbrella and uses it as a weapon, had admitted nothing. Six youths have now been formally charged with homicide in the case.

Police seized Hernandez and the cocky Agron, who wore a nurse-type cape and called himself Dracula, early Wednesday as they were rummaging through garbage cans.

Agron, leader of the Vampire gang, was quoted as saying: "We went there (to the playground) to get the Irish and Italians. We heard Puerto Ricans were being pushed around in the neighborhood."

Agron, still arrogant when taken to a station house to be booked, Wednesday, she was the first woman in Colorado to be named a presidential elector. She served in 1912, voting for Woodrow Wilson.

Big Spring (Texas) Herald, Thurs., Sept. 3, 1959 5-A

Two Puerto Ricans held on first-degree murder charges in two other slayings—were brought before General Sessions Judge Gerald P. Cullin. They were John Cruz, 18, and Miguel Castro, 17, arrested in the lower East Side gang slaying of Theresa Gee, 15, and Julio Rosario, 14.

Cruz entered a plea of innocent. Castro was sent to Bellevue Hospital for psychiatric tests.

Former Woman Elector Dies

GREELEY, Colo. (AP) — Mrs. Gertrude Adams Lee, 89, pioneer woman leader in politics, died Wednesday. She was the first woman in Colorado to be named a presidential elector. She served in 1912, voting for Woodrow Wilson.

Nimitz Sending Back War Souvenirs

SAN FRANCISCO (AP) — Adm. Chester W. Nimitz, who brought two valuable swords home from Japan as souvenirs of World War II, is sending them back.

The wartime commander in the Pacific gave the treasures to Junzo Sato, who came to the United States seeking historic swords taken at war's end.

Sato, who represents the Japanese Sword Preservation Assn., left for Tokyo Wednesday.

Racing Plant Foaled

This is the latest aerial view of the new Sunland Park racing complex just six miles west of downtown El Paso in New Mexico. The infield lake nearly is full; stables for 817 horses need only roofs on 17 buildings to be ready for first influx of thoroughbreds Sept. 15; the grandstand lacks only roof; parking lot to accommodate 4,000 cars is complete. Opening day is Oct. 9.

That spilled Pittsburgh five games behind San Francisco's first-place Giants, who defeated the Chicago Cubs 4-3 on Jackie Brandt's ninth-inning homer. Second-place Los Angeles stayed within 1 1/2 games of the lead by beating St. Louis 9-6 after trailing by four runs. Philadelphia again beat Milwaukee, 11-5.

BILL RODEN TO PASS UP LOCAL TOURNEY

Bill (Red) Roden of Odessa will miss his first Big Spring Invitational Golf tournament this year for the first time since 1936, with the exception of the "war years." Roden has been called to New York on business, he informed tournament director Gil Jones earlier this week.

LOOKING 'EM OVER

With Tommy Hart

ABC-TV blazed the trail in filming professional golf on a sustaining basis for viewers. Now NBC is plunging into the business. The item is mentioned here because you'll be able to get it from your local screen—from Midland and Lubbock. ABC has no outlet hereabouts.

Buddy Travis, the HCJC cage mentor here, came reasonably close to losing his tall freshman hope, Charley Knotts, to another school recently. However, Buddy made a special trip to see Knotts and sold the Kennedee youth on the local school. Charley took into himself a bride recently and the couple is now living here. The young athlete is working for the local college until school gets under way.

John Dibrell's printed schedules are now being made available to local football fans. The 1959 schedules of nine West Texas schools are printed on the billfold-size cards.

Since Shug Jordan took over as head football coach at Auburn six years ago, the Tigers have won 45 games. Auburn needed 13 seasons to accomplish as many victories prior to Jordan's arrival.

Wille McCovey, the first base sensation of the San Francisco Giants must be held spellbound by the "big city." Of his adopted city, Willie says: "Ah likes it up here because Ah can take in three movies a day and not run out by Wednesday, like in Phoenix."

Sunland Honors Cities In Area

EL PASO (SC) — Las Cruces, El Paso, Fort Bliss and Juarez will be honored in the six feature races run during the first two weekends of Sunland Park's inaugural meeting beginning Oct. 9.

Wood Erwin, director of racing at the new \$2.8 million oval being completed in New Mexico just six miles west of downtown El Paso, said the \$3,000 Inaugural Handicap would top the opening day card. Here are the others: Oct. 10, Dona Ana Handicap; Oct. 11, El Paso Handicap; Oct. 17, Fort Bliss Handicap; Oct. 17, Las Cruces Handicap; Oct. 17, Juarez Invitational Handicap.

Purses for the opening weekend will range between \$2,500 and \$5,000 minimums for the three feature races. Thereafter, they will run between \$2,000 and \$3,500. Minimum purse for all races at Sunland Park will be \$1,200.

Erwin said names of other races during the 45-day meeting would honor businesses and personalities.

Roden's departure means that Frank Mackey, captain of the visiting team in the Hall and Bennett Trophy matches, has turned up two men short on the eve of play.

Mackey probably will not fill out the team until he arrives here tomorrow. The matches begin at 1 p.m. and will continue over 18 holes. Most of the players will grasp the opportunity to qualify during the Hall and Bennett play.

Qualifying will take place through tomorrow while match play gets under way on Saturday, with two matches daily on tap in the championship flight until Monday, Labor Day, when the 36-hole finals are carded.

W. O. (Junior) Maxwell, manager and golf pro of the Webb AFB course, will serve as starter at the Country Club. Jack Starnes will serve in that capacity at the Muni, where players in the lower flights play their earlier matches starting Saturday.

Jones said the tournament committee had decided to try two things never attempted before in a tournament here.

Linkers will use the short tees on eight and nine of their first rounds, in order to speed play. Foursomes will also be assigned to spots on each of eight tees, in order to permit the committee to get the tournament off to a "flying start." In that way, Jones stated, an estimated two hours and 15 minutes may be saved.

Jones was still holding to his prediction that a field in excess of 175 would enter the four-day meet here. Entry fee is \$15.

Corsairs Stub Toe In Nat'l Flag Race

By ED WILKS Associated Press Sports Writer Pittsburgh's Pirates finally have stumbled in that National League pennant race, stubbing their toes on a club they've walked all over this season.

The Cincinnati Reds, who had won only 5 of 16 from Pittsburgh, jolted the fourth-place Pirates twice with a 6-3 and 3-1 sweep in a two-night double-header Wednesday night.

A three-run homer by Willie Jones won the opener, ending the Pirates' latest winning string at five. Then Don Newcombe outdueled Bob Friend in the second game.

That spilled Pittsburgh five games behind San Francisco's first-place Giants, who defeated the Chicago Cubs 4-3 on Jackie Brandt's ninth-inning homer. Second-place Los Angeles stayed within 1 1/2 games of the lead by beating St. Louis 9-6 after trailing by four runs.

Philadelphia again beat Milwaukee, 11-5. Vern Law (15-8) was the first game loser for the Pirates, giving up singles by Gus Bell and Frank Robinson before Jones rapped his tie-breaking homer in the eighth against unbeaten reliever Elroy Face.

Vada Pinson and Robinson also homered for the Reds. A triple by Johnny Temple and Pinson's double broke a 1-1 tie in the nightcap eighth for Cincinnati against Friend (8-16).

Brandt's 12th homer, off losing reliever Don Elston (6-7), handed Sam Jones his 18th victory for the Giants, tying teammate Johnny Antonelli and Milwaukee's Lew Burdette for the major league lead.

Felipe Alou, counting the first run with a sacrifice fly, and rookie Willie McCovey also homered for the Giants.

The Dodgers blew a 1-0 lead when the Cardinals scored five unearned runs in the third inning, three on Curt Flood's homer. They finally put it away against reliever Bob DuBia (0-1) with two runs in the sixth on Gil Hodges' single and a double by Charlie Neal. Chuck Churn (1-0) was the

winner in relief as the Dodgers set a major league pitching record with 899 strikeouts for the season. The old mark was 896, set by Detroit in 1946.

Carl Sawatski drove in four runs for the Phils, chasing Burdette (18-14) with a three-run homer for a 6-2 lead in the sixth inning. Robin Roberts (12-15), won it.

Members of the Big Spring Quarterback Club set a table for members of the Big Spring High School football team and their coaches at 7 o'clock in the amphitheatre of the City Park.

It's the annual barbecue, which sort of serves to make the football season official each fall. The public is invited to attend and meet the players and their mentors, whether or not they belong to the sports booster organization. Tickets for the barbecue alone sell for \$1.50 adult and 75 cents for children under 12.

Newsum's Catering Service is preparing the meal while a committee appointed by John Currie, co-captain of the QBC, will serve it. Currie said Wednesday the club

was making plans to serve between 900 and 1,000 people. Mike Brumelow, former TCU football standout and later head coach and athletic director at Texas Western College in El Paso, will deliver the principal address.

Brumelow is noted for his homespun humor and says he's a country boy at heart. A few years ago, Brumelow took the Texas Western club to the Sun Bowl game and the El Paso fans felt so good about it they purchased him a home.

Mike now is employed in an executive capacity by the El Paso Natural Gas Co. He had to cancel an engagement in Monahans in order to fill the local date. The Rev. Ward Jackson of the First Church of God will deliver the invocation this evening. Dates of the players will also be guests at the party tonight.

TOLEDO, Ohio (AP)—The Philadelphia Eagles today traded veteran defensive halfback Jerry Norton to the Chicago Cardinals for guard Bob Konovsky and tackle Jerry Wilson.

Norton, 27-year-old Southern Methodist University star, was in his sixth season with the Eagles.

Representatives Discuss Series

CHICAGO (AP) — Representatives of contending National and American League baseball clubs met today with league officials to lay World Series plans.

American League pennant hopefuls invited to attend included Chicago, Cleveland, New York, Baltimore and Detroit.

Milwaukee, San Francisco, Los Angeles and Pittsburgh were invited from the senior circuit.

Lufkin Decisions Illinois Troupe

SPRINGFIELD, Ill. (AP)—Lufkin, Tex., remains in the Pony Grad World Series today after defeating Springfield 4-0 Wednesday behind Mike Pasierb's two-hit pitching.

Each now has a 4-1 series record. The teams play again tonight. Billy Berry's triple with one on in the second scored Lufkin's first run. The Texans added two more in the third and one in the fifth.

DONOVAN, KLUSZEWSKI FILL BILL FOR SOX

By ED WILKS
Associated Press Sports Writer

Dick Donovan definitely is back, Ted Kluszewski has delivered his first RBI and Chicago's White Sox have a 5½-game lead in the run for their first American League pennant in 40 years. They regained that bulge by sweeping Detroit 7-2 and 11-4 in a two-night double-header Wednesday night. Donovan, the right-hander who's had shoulder trouble, followed up last Saturday's clutch shutout against Cleveland with a four-hitter in the opener. And Klu then singled to keep things rolling in an 11-run fifth inning that nailed the second game. Cleveland's second-place Indians ended their skid at four games by beating Kansas City 6-3, although southpaw Herb Score failed again. New York skipped past Detroit into third place with a 4-3 victory over Washington, and Baltimore defeated Boston 4-0 behind the seven-hit pitching of Billy O'Dell.

New Coach Looks 'Em Over

New Rice backfield coach Nick Lanza watches Robert Johnson, sophomore end from Pine Bluff, Ark., hit blocking dummy held by Dickie Woods. Soph tackle from Sweetwater, Tex., as the Southwest Conference open fall drills. Lanza, new to Rice staff at Houston, Tex., served formerly at Del Mar Jr. College. (AP Wirephoto).

HURTS PLAGUE TEAMS

Glynn Gregory Is Still In Sickbay

By The Associated Press

Injuries and ailments plagued some Southwest Conference teams on the second day of workouts Wednesday, but if the Arkansas Porkers had anything wrong they weren't talking about it. Coach Frank Broyles ran his Razorbacks through a full scrimmage and said, "We learned a lot about our passing game and what it lacks." Broyles had first team quarterback James Monroe and second-teamer George McKinney, both from Texarkana, doing most of the aerial work.

Glynn Gregory, the ailing SMU halfback, became something of a mystery. After an announcement that the former Abilene high school star was all right and probably would join the team Thursday, it was discovered Wednesday night that he still was in a Dallas hospital.

A nurse said she was not allowed to reveal the nature of Gregory's illness but that he "seemed improved." Gregory collapsed Tuesday complaining of pains in the region of his heart. A doctor said tests showed no heart or lung ailment.

Otherwise, SMU Coach Bill Meek seemed pleased with the second day workouts for the Ponies. Rice came out in full battle gear at Houston but Coach Jess Neely excused the Owls from contact work. Neely is trying to find ends to replace Gene Jones and All-America Buddy Dial of the 1958 eleven.

At Austin, Coach Darrell Royal said he wasn't pleased with the Texas Longhorns' condition. Minor injuries are hitting the Steers, Royal said.

Baylor, where injuries are nothing new, had plenty. A senior guard, 185-pound David Speers, was told by the team physician to give up football after suffering a minor concussion. Speers has split 14 helmets during his seven years of football and has suffered several concussions in the past.

Texas A&M and TCU duplicated the hard work of the Razorbacks. The Aggies had two brisk workouts with no new injuries occurring. Varsity prospects sidelined at College Station are backs Jon Few and Randy Sims and tackle Richard Love. All have pulled muscles.

TCU's Frogs jumped into heavy duty football with a 45-minute scrimmage to conclude the day's second practice session. Fullbacks dominated the scrimmage as Jack Spikes, Merlin Priddy and Max Pierce ran hard.

Texans Downed

LONG BEACH, Calif. (AP)—Culver City, Calif., defeated Arlington, Tex., 4-0 here Wednesday night in the International Softball Tournament.

Gold Sox Cuff C. Berringer

By The Associated Press

Regular-season champion Victoria plays San Antonio at San Antonio and Austin meets Tulsa in Tulsa Friday night to begin the first-round playoffs of the Texas League.

Victoria, which clinched the pennant last week, coasted in as fifth-place Amarillo lambasted their pitching for a 12-8 victory Wednesday night at Amarillo.

San Antonio, threatened in the final days by Amarillo, took a doubleheader from third-place Tulsa 2-1 and 5-4 to ease into the playoffs. Austin, with second place clinched, nosed Corpus Christi 2-1 in ten innings to end the season's regular play.

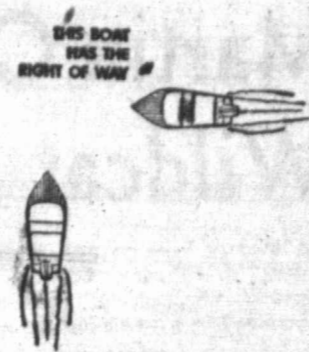

Racing Season Nearing End

RUIDOSO, N. M. (SC) — Ruidoso Downs swings into its semi-fall weekend of racing with a well-balanced, well-planned four day program.

Friday's card is high-lighted by the 5½ furlong "Budweiser Allowance" with Final Stitch, carrying the colors of Texas rancher Leroy Spires, appearing to be in a like-ly spot. He ran a good third in "The Governor's Handicap" his only local out and off of his West Coast form should be able to handle this field.

Hana Chief ran a creditable race here only start after arriving from Ohio — if she should improve any, could upset the top one, Live-it-up, a winner, must be conceded a chance on his best effort.

Remaining eligibles: Saygo — been threatening. Make Up Clouds, Dream Mint, Double Scandal and Eternal Beau.

Time Of Freshman Game Is Changed

LUBBOCK (SC) — The Hardin-Simmons-Texas Tech freshman football game in Abilene has been changed from night until afternoon Oct. 15, according to Tech Athletic Director DeWitt Weaver. The Picadors will also meet North Texas State here Oct. 8, Arkansas here Oct. 31, West Texas State here Nov. 5, and Air Force Academy at Colorado Springs Nov. 20. Air Force will be played in the afternoon, the others at night.

You're Lucky If You Pick Winner In SW

By HAROLD V. RATLIFF

DALLAS (AP)—Establishing a favorite in Southwest Conference football is tantamount to shooting fish in a barrel—it's just luck if you score a hit. Coach Bill Meek of Southern Methodist, showing uncommon concern for the reputations of the critics, thinks it would be fool-hardy for them to pick his team to win the championship. Meek does admit that it should be the best team he's had in his coaching career and he further admits that Southern Methodist should be one of the favorites but he thinks Texas Christian and Texas should be ranked right along with him.

Yanks Own 45 Gold Medals Won In Pan-Am Contests

By JERRY LISKA

CHICAGO (AP)—It was all over except for loud huzzahing in track and field competition, but the United States continued its merry gold medal-winning way in the third Pan-American Games today with the emphasis on swimming and basketball.

Now owning a staggering total of 45 gold medals for the Western Hemisphere athletic carnival which opened last Friday, Uncle Sam's power-laden forces also had a chance at four boxing championships tonight.

The U.S. track and field contingent, flexing strong muscles in a tuneup for the 1960 Olympic Games in Rome, wound up competition in Soldier Field Wednesday with 18 of 22 gold medals in the men's division and 8 of 10 in women's activity.

Coach Chick Werner's track squad accounted for 15 of 17 new Pan-Am records, while the women of coach Edward Temple produced 5 of 6 new meet marks.

The only Latin Americans to crack the U.S. monopoly were Argentina's Oswaldo Suarez in the 10,000-meter run; the West Indies' George Kerr, a Big Ten champion from Illinois, who won the 400-meter run; the "Windies" 1,600-meter relay team, anchored by Kerr; and defending champion Adhemar da Silva of Brazil in the hop, step and jump.

Wednesday's closing session produced four gold medals in men's track and one in women's competition, a new Pan-Am record resulting in each case.

This country's first marathon victory in Olympic or Pan-Am effort since 1908 was fashioned by 125-pound John Kelley, Grotton, Conn., English teacher, in the excellent time of 2:27:54.2. The 1,500-meter title went to Dryol Burleson, Cottage Grove, Ore., as he paced a 1-2-3 U.S.

Two BS Horses Win At Raton
RATON, N. M. (SC) — Two horses owned by Big Spring men won races at the La Mesa race track here last weekend.

Spankie V, a thoroughbred owned by J. T. Dillard, came in first in the 4½ furlong sixth race Friday, winning in 54.8.

The two-year-old filly paid her backers \$4.70, \$3.50 and \$2.80. Chic Polly, a thoroughbred owned by John Ray Dillard and J. O. McCrary, winged home in front of the pack in the five-furlong seventh race Saturday, winning in 58.8.

Chic Polly paid her backers \$3.20, \$2.40 and \$2.40. The Raton season extends through Sept. 20. Twelve races are scheduled Friday.

U.S. Fems Sail Merrily Along

CHICAGO (AP) — The undefeated United States Women's basketball team, studied heavily with players from the Plainview Flying Queens of Wayland College, sailed merrily along Wednesday night.

The United States defeated Brazil 64-48 in the Pan American Basketball Tournament—a part of the Pan-American Games.

Brazil's Maria de Campos led scorers with 16 points. Joan Crawford of the United States hit 15 and Carolyn Miller of the United States girls won handily.

The halftime score was 27-23 for the United States.

Millers Clinch Playoff Berth

By The Associated Press

Minneapolis clinched a playoff berth Wednesday night, but the Millers are a long way from posing a serious threat to Louisville in the race for the American Association's Eastern Division pennant.

The Millers trail Louisville by four games, each team having nine games left to play. The Cardinals need six victories or six Minneapolis losses to assure a flag in the Western Division, Omaha's magic number is seven to win, and only one to nail down a spot in the post-season playoffs. The Cardinals lead Fort Worth by three games.

Minneapolis clinched no worse than a second place finish by splitting with Denver, losing 2-1 in eight innings and winning 2-1 in 13, while third place Indianapolis lost to Houston 7-2.

Big Klu Gets A Following

By JERRY UDWIN

CHICAGO (AP)—White Sox fans love their newest and hottest hitter — all 245 pounds of him. They love him when he blasts a base hit, which is often, and when he strikes out, which usually is punctuated with a fearsome swing.

In their eyes, National League castoff Ted Kluszewski can do little wrong.

Possibly, they feel this mountain of muscle from Argo, Ill., can, if necessary, hoist the entire Chicago White Sox ball club upon his broad shoulders and carry the team across the finish line to the American League pennant.

BOVINES' SCRIMMAGE FAILS TO MATERIALIZE

That scheduled scrimmage Wednesday between high school football teams representing Big Spring and Monahans didn't come off.

Coach Al Milch of the Steers couldn't confirm the arrangement by telephone, so he kept his boys here for an afternoon of toil. He did the right thing, it turned out, because Coach Ray Pope of Monahans took his club to Odessa High for a scrimmage (and reportedly watched in satisfaction as his boys got all the better of it).

The Steers engaged in about 40 minutes of passing and punting drills then went to work on the spread punt. It appears now that the team's

punting will be done by a sophomore and four boys are candidates to handle the chore. They are Jack Irons, Jimmy Madry, Johnny Freeman and Dexter Pate.

Coach Milch said the team's passing was shaping up none too well but he added the Steers were primarily a running team. The boys will work out about an hour and 40 minutes this afternoon before taking off to get ready for the Quarterback Club's barbecue.

They'll scrimmage with dummies and review some of the plays they'll use against San Antonio Edison in their season's opening game a week from tomorrow night.

Presidential Acknowledgement

President Eisenhower bows as he acknowledges a speech of greeting by French President Charles De Gaulle on his arrival at Le Bourget near Paris. Between the presidents is Ludovic Chancel, French chief of protocol. Others are not identified.

MARQUEZ CHANGES MIND

6 Defendants Enter Pleas Of Guilty To Indictments

Richard Marquez, 22, under indictment for burglary, changed his mind in 118th District Court today. Wednesday, he had informed Gil Jones, district attorney, he intended to enter a plea of guilty. Thursday morning, he announced he was pleading not guilty. Marquez, who has already served one term in state prison for a felony, is a brother of Andres Marquez, youthful bandit-killer, recently sent to the state penitentiary for murder. He is indicted for burglarizing the Beece Service station on Aug. 16. He was apprehended by officers while still in the station. Jones said that he would make a special point of trying Marquez at the next jury criminal docket in the court. It was said that Jones had planned to recommend a 7-

year sentence for Marquez had gone ahead with his announced plan to plead guilty. Another defendant, Doyle Denton, under indictment for car theft, also backed up his plan to plead guilty when his case was first called. However, Denton gave the matter some thought while the hearings were under way in the court. He then asked that he again be given a chance to plead, which request was granted. He was assessed seven years in state penitentiary for stealing a car from the Crawford Hotel storage garage last July 31. Denton was later arrested in Roby in possession of the car. Five other persons indicted by the recent grand jury did enter pleas of guilty before Judge Char-

Assailant In Shooting Case Being Sought

Big Spring police officers were investigating an assault with a deadly weapon report this morning. Rosendo Rodriguez told officers someone shot at him through the bathroom window at the Acapulco Cafe, 304 N. Gregg, about midnight. Rodriguez and Octaviano Ramirez were involved in an affray at the cafe earlier Wednesday and both had been arrested, then released on bond.

AF Gives Up Its Search For 'Ghost' Bomber

WIESBADEN, Germany (AP)—The U.S. Air Force has given up its search for the remains of nine crewmen of a World War II "ghost bomber."

The American fliers parachuted into the Libyan desert from their B24 bomber 16 years ago after blasting Naples, Italy. Their plane was found last spring by a team of geologists. It had apparently made a pitiless belly-landing on the hard-packed sand 440 miles southeast of the Libyan port city of Benghazi. The bomber bore no combat scars. Logbook, instruments and radio was untouched. Water jugs were full and flight gear was hanging from racks inside the plane.

Termination of the combined ground search leaves one of the great mysteries of World War II unsolved. The search, which began July 5, covered more than 6,000 miles and no new traces of the missing crewmen were found, the Air Force said. The first search by an investigating team uncovered a trail of markers left by the airmen—strips of parachute weighted by stones and flight boots. Searchers said this indicated that the majority of the men got together after being bailed out and headed north toward the sea. The expanded search in July used helicopters and vehicles. The only new discovery was another parachute. This, according to the ninth crew member but it added nothing to clues since it was located nearest the wrecked aircraft indicating that it belonged to the pilot—the last to jump. The eight other parachutes marked the previously discovered trail.

Martin County Gets Second Wildcat Location In Week

A wildcat location was reported from east lines, labor 20 league 267, Moore CSL survey.

Neville G. Penrose Inc. of Fort Worth and Midland will investigate the San Andres prospects at 4,600 feet about seven miles northwest of Stanton. There is no producer from this formation near the drillsite. Amerada No. 1 Moore, Dawson County wildcat, is drilling deeper after two drillsite tests in the San Andres recovered mud and no shows of oil or gas. Sunray No. 1 McEntire, Sterling County test, cored the Fusselman and 21 feet of a 42 foot section had fractures and a slight oil smell. Operator is reaming out the hole for more tests. Magnolia Petroleum has finished the No. 4-B Douthit as a Howard-Glasscock field well with a daily pumping potential of 103.32 barrels of 30.1 gravity oil.

Borden Bakke No. 1 Williams, wildcat try for the Pennsylvanian, is drilling ahead in lime from 6,352 feet. This prospect is C NW NW of section 232-97-H&TC survey. It is nine miles east of Gail.

Texas No. 1 Johnson, wildcat about a mile southwest of Gail, is plugged back to 9,122 feet and operator is drilling the cement at 9,015 feet. This prospect is C SW SE of section 38-31-5n, T&P survey.

Amerada No. 1 Moore is drilling deeper. A drillsite test in the San Andres between 4-504-79 feet had tool open 67 minutes and operator recovered 18 feet of mud. Another test between 4-579-613 feet had tool open four hours and operator reported a recovery of 70 feet of mud and 360 feet of black sulphur water. This wildcat is 660 feet from south and 1,000 from west lines, section 14-36-5n, T&P survey. It is 2 1/2 miles southwest of Lamesa. Forest No. 4 Harris is making hole in lime below 11,321 feet. This Patricia (Fusselman) field location is 3,053 from south and 3,300 from west lines.

Howard Magnolia Petroleum Corp. has finished the No. 4-B Douthit as a Howard Glasscock field well with a daily pumping potential of 103.32 barrels of 30.1 gravity oil per day. The gas oil ratio is 300-1. The total depth is 3,010 and it is plugged back to 2,991 feet. The top of the pay is 2,131 feet, the 5 1/2-inch casing goes to 2,814 feet, perforated between 2,131-281 feet. Drillsite is 330 from south and east lines, of section 123-29-W&NW survey.

Ralph Lowe No. 2 Ryan is digging through lime at 6,102 feet. This Luther SE field location is 1,900 from south and east lines, of section 34-32-2n, T&P survey. It is 12 miles northeast of Big Spring. Martin Neville G. Penrose of Ft. Worth and Midland has spotted the No. 1 McKinney as a rank wildcat location about seven miles northwest of Stanton. Operator will try the San Andres formation at 4,600 feet. Drillsite is 600 from south and east lines, of section 37, block 37, township 1n, T&P survey. Pan American No. 1 Turnbow, Breedlove test about 15 miles southwest of Lamesa, is nearing the testing zone. Operator reports digging in shale at 11,950 feet. The Devonian is expected between 12,000 and 12,200 feet. This project is 950 from north 1,300 from west lines, labor 10, survey.

Panel Sinks Vetted Bill WASHINGTON (AP)—The House Appropriations Committee refused today to approve a new public works bill stripped of projects which caused President Eisenhower to veto an earlier measure. Instead it voted 23-19 to give a subcommittee the job of drafting an entirely new measure to replace the vetoed bill.

Edgar T. Jones Case On Trial Evidence was being presented at noon in the trial of Edgar T. Jones, accused of DWI. Jones is on trial in Howard County court. Jones was selected at 10 a.m. to hear the case. Jones was arrested on June 18 and charged with operating a motor vehicle while under influence of intoxicating liquor. Wayne Burns, county attorney, was relying heavily on testimony by a state expert on the alcoholic content of a blood sample taken from the defendant at the time of his arrest. Wayne Basden is the defense attorney. The case is the fourth to be called at this week's jury docket in the Howard County Court. Judge Ed Carpenter is presiding.

Lloyd Cline To Head Up Lamesa C Of C Campaign LAMESA—Lloyd Cline was elected foreman of the Round-Up Club, membership organization of the Lamesa Chamber of Commerce, at its regular monthly meeting held in the Caprock Room of Turner's Cafe Wednesday morning. Elected to serve with Cline were Walter Buckel, head wrangler; Paul Gentry, head cowpoke. The club has two teams which contest on an attendance and membership drive basis. The Rev. Earnest Stewart, pastor, will officiate. Burial will be in the Parker County Memorial Cemetery at Weatherford at 5 p.m. River Funeral Home is in charge of arrangements. Mrs. Barnett died of a heart attack last Saturday evening at their home in Hollywood, Calif., a day after their return from visiting their parents in Big Spring. She was born in Weatherford and was reared in Big Spring. Besides her husband, survivors include a son, Gilbert Barnett, Hollywood, Calif., and her parents, Mr. and Mrs. G. C. Ragsdale, Big Spring. Mr. Ragsdale, Big Spring, is an uncle.

Mrs. Barnett Rites Set Here Saturday Funeral for Evelyn Easter Barnett, 41, wife of Wilbur E. Barnett, will be held at 10 a.m. Saturday in the East Fourth Baptist Church. The Rev. Earnest Stewart, pastor, will officiate. Burial will be in the Parker County Memorial Cemetery at Weatherford at 5 p.m. River Funeral Home is in charge of arrangements. Mrs. Barnett died of a heart attack last Saturday evening at their home in Hollywood, Calif., a day after their return from visiting their parents in Big Spring. She was born in Weatherford and was reared in Big Spring. Besides her husband, survivors include a son, Gilbert Barnett, Hollywood, Calif., and her parents, Mr. and Mrs. G. C. Ragsdale, Big Spring. Mr. Ragsdale, Big Spring, is an uncle.

Reluctant House Expected To Approve Gas Tax Hike WASHINGTON (AP)—The House, despite obvious reluctance, was expected today to vote a temporary penny increase in the federal gasoline tax to keep the interstate highway building program going. The bill was sent to the floor on a take-it-or-leave-it basis, with no opportunity for revision. For car owners, the bill would add another \$1,650,000,000 to motor taxes for the next 21 or 22 months until July 1, 1961, by raising the gasoline tax from 3 to 4 cents a gallon. Its enactment was called necessary to avert a construction stoppage on the 41,000-mile network of superhighways planned to link the nation's principal cities by 1972. The states bear 10 per cent of construction costs, the federal government 90 per cent. The highway building emergency stems from a construction speedup ordered by Congress last year as an anticreoson move. This drew \$1,600,000,000 from highway construction funds without additional revenues to offset the larger spending. President Eisenhower asked Congress to raise the gas tax 1 1/2 cents a gallon for the next five years to keep the program on a pay-as-you-go basis. House leaders balked at first, but eventually compromised at a 1-cent boost in motor fuel taxes until July 1, 1961. For another three years after expiration of the tax increase, an additional 2 1/2 billion dollars would be diverted to highway construction from the general operating funds of the government.

Compromise Labor Regulation Bill Comes Up Today For Vote in the seventh and final title. But Sen. John F. Kennedy (D-Mass.) and the other Senate Democratic conferees succeeded in getting into the measure limitations on the new Taft-Hartley provisions aimed at protecting legitimate union rights. On the first six titles dealing with internal union procedures, the compromise follows the framework of the Senate measure originally worked out by Kennedy last year. But some House changes were written into these sections. The compromise won almost unanimous praise from Congress members on both sides of the dispute over the bill. But there were reservations by those most sympathetic to labor's position. The bill was almost sure to be disappointing to labor. The AFL-CIO had criticized the measure in the form it passed the Senate, and strongly assailed the Landrum-Griffin version. Secretary of Labor James P. Mitchell said he was "extremely pleased" with the bill and added: "No honest trade union or employer has cause to fear this legislation."

City Employees Get Holiday Most Big Spring city offices will be closed Monday to observe Labor Day. The City Commissioners authorized the closing of the city offices at a recent regular meeting, according to City Manager A. K. Steinheimer. The police department, fire department, garbage department, and other divisions of the Department of Public Works, which operate on schedules and shifts, will remain open.

Dracula And Umbrella Man Sal Agnon, left, who police say identified himself as the cape-clad "Dracula" who led the attack in which two teenagers were stabbed to death in a Manhattan playground in New York City, is shown in police station where he was being questioned. With him is Tony Luis Hernandez, said by police to have been the "umbrella man," as named because he used an umbrella as a club in the fighting. Agnon and Hernandez both are 17.

HCJC Trustees Name Instructor

Last minute resignations were accepted by the Howard County Junior College board of trustees Wednesday, and replacements were approved. Dr. C. A. Welborn, Paris, who had been elected as a social science instructor but who had not signed his contract, submitted his resignation to accept a post in Oklahoma. In accepting the resignation, the board approved the election of James Day, who holds his master of arts degree from the University of Texas and who is nearing completion of his Ph.D. requirements. Bob Trout resigned as chief of the custodial force and was replaced by Hayden Murphy. Another member is to be added to the staff. Trustees pegged the beginning salary for faculty members at \$5,000 for instructors with no previous experience. A contract with Gene Nabors for installation of automatic washing and drying machines for the dormitories was also approved. This calls for a 30 per cent of gross take by the college with allowances for power and water. Dr. W. A. Hunt, president of the college, was authorized to borrow up to \$30,000 from the Security State Bank on a short time loan (not to exceed 90 days) pending receipt of state and local tax funds. In routine action, the closing of accounts at the First National Bank, depository for the past two years, was approved. Harry Hurt was re-named treasurer of the college district. Dr. Hunt said that the girls dormitory is about ready and the men's dormitory is due for occupancy by Sept. 15.

Retail Credit Group To Meet Retail Credit Executives will have their regular luncheon meeting Friday noon at Coker's, it was announced Thursday. Speaker for the meeting will be Russell Huckaby, Midland, president of the West Texas region of the Retail Credit Executives Association and a past president of the Midland organization. The association now has 52 members representing 34 firms in Big Spring.

Steel Union Continues Strike Talks

NEW YORK (AP)—The striking steel union—bolstered by a grant of a million dollars from the AFL-CIO—continues contract negotiations with the industry today. The strike of a half-million members of the United Steelworkers of America is 51 days old. No progress toward settlement was reported after Wednesday's negotiating session, which followed a five-day recess. Joseph P. Finnegan, director of the Federal Mediation and Conciliation Service who is sitting in on the talks, told newsmen: "Views were exchanged by the negotiating teams, based upon their study during the adjournment."

Officials Consider Padre Island Area WASHINGTON (AP)—Secretary of the Interior Fred A. Seaton and chairman James E. Murray (D-Mont) of the Senate Interior Committee considered today requests for establishment of a national shoreline area on Texas' Padre Island. Letters went to the two Wednesday from Sens. Lyndon B. Johnson and Ralph Yarborough and Reps. Joe M. Kilgore and John Young, Texas Democrats.

Bullfights Set For Villa Acuna Two Mexican bullfighters will compete for the cheers of the crowd at the Macarena arena in Villa Acuna, across the river from Del Rio, Sunday afternoon at 4:30 p.m. Rafael Guzman and Cecilio Vasquez will meet two bulls each in the 5,000 capacity bull ring. Acuna is the closest bull fight city to Big Spring. Advance reservations are available, but usually not necessary to get the better seats at ringside.

Baptists Asked For Niki Prayers

DALLAS, Tex. (AP) — Texas Baptists are being asked to offer "personal individual prayers" for

Soviet Premier Nikita Khrushchev while he visits the United States. The appeal from Woodrow Fuller, associate executive secretary of the Baptist General Convention of Texas, appeared Wednesday in the Baptist Standard, published by the church.

Fuller also urged prayers at church services for guidance toward peace.

Abilene Crash Kills 2 Civilians

ABILENE (AP) — A civilian C-46 cargo plane under contract to the Air Force crashed Wednesday night in attempting an emergency landing and killed its two passengers.

Killed in the crash at Dyess AFB were William J. Bogus and Ercell Maher, both of San Antonio. Dyess officials said the plane, owned by a firm with headquarters at Wright-Patterson AFB, Dayton, Ohio, landed here after a flight from Kelly AFB and unloaded parts of its cargo.

The plane took off for Carswell AFB Fort Worth, developed aileron trouble and returned. When the pilot attempted to land the plane bounced three or four times before plunging to a runway nose first. Cargo behind the fliers crushed them.

Lovable Robber
LOS ANGELES (AP) — Steve Otero, 34, was arrested for allegedly holding up the same market four times. "I kept going back there because the owner was so nice," he told police.

Invitation From The Boss

Soviet Premier Nikita Khrushchev, right, stands with Mikhail Sholokhov during a visit with the Russian novelist at the village of Veshenskaya. Khrushchev announced he has invited Sholokhov, author of "And Quiet Flows the Don," to accompany him on his visit to the United States. The premier was on his way back to Moscow after a three-week vacation on the Black Sea coast.

Child Actors' Stand-In Grows With Charges

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—Luz Potter is a mere 48 inches tall, but for 20 years she has been growing up with movie children. Luz is a movie stand-in and she has seen her counterparts come and go. Says she: "When I start standing in for a child actor, I wear flat shoes, then I graduate to high heels. As the child keeps growing, I stand on blocks of wood, then a two-step riser. That's as high as I can go, and I start all over again with another actor."

She started all this in 1939. With vaudeville dead, she gave up a dancing career to try the movies. She found out the studios needed her. "They like to have adults stand in for the children," she remarked. "We little people can take the hot lights better than children. And we can work an eight-hour day, while children have to go to school for three hours."

So she has seen a parade of performing tots — Margaret O'Brien, Gigli Ferraro, then her sister Jeanine, Natalie Wood, Sherry Jackson. Her best break came with the "Father Knows Best" series. She had five years of standing in for Elinor Donahue and Lauren Chapin until both outgrew her.

Now she's starting what might be another long-range assignment. She's stand-in for Jay North, the cute tyke who plays "Dennis the Menace" in the new Screen Gems TV series. What does she think of her young counterparts? "I've always had good luck with them. I haven't seen any of the movie brats you hear about. They've been nice children, perhaps a bit brighter than most. It always amazes me how they come out of a big scene with lots of dialogue and go right to work studying their school work."

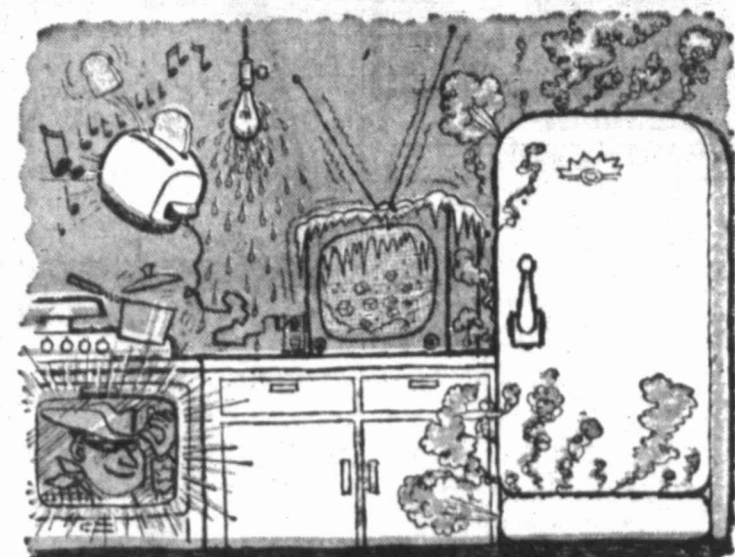

Luz is dark-haired and nice-looking, the wife of a missile calculator a head taller than she. She used to do stunts in films, but does little since an accident in "The Rains of Ranchipur." She suffered serious leg injuries while doubling for a child who was supposed to be swept away in a dam break.

Good Reason
LARAMIE, Wyo. (AP)—Seven-year-old Ted Jensen was called to the blackboard by his teacher on the first day of school. He didn't move. Mrs. Julia Hladick, second grade teacher, investigated. It took police and fire rescue workers 15 minutes to free Ted's little finger from a hole in his desk.

Protest 'Kidnaping'

MEXICO CITY (AP)—The Mexican Assn. of Newspapers protested Wednesday the virtual kidnaping of 35 reporters and photographers at the National Palace. Newsmen said they went to the palace Tuesday to report the arrival of President Adolfo Lopez Mateos and his departure to deliver his state of the union message to Congress. Members of the group said they were herded by soldiers into the palace press office before the president arrived and held there under guard until after he left.

Don't Get Your Wires Crossed!

Here are the facts...

1. The Electric Cooperatives of Texas are a tax paying — business managed — partnership.
2. The money to build the cooperatives was a loan and the interest and the principal are being paid back.
3. For every \$1.00 spent on Co-Op lines an estimated \$6.00 has been spent by members for electrical appliances, thus the Cooperatives have created and are still creating a multi-billion dollar market for the merchants of Texas and the nation.
4. The Electric Cooperatives of Texas are owned and operated by the people they serve... free enterprise in its purest form.

Don't get your wires crossed. If it had not been for the Electric Cooperatives of Texas, many farms and ranches would still be dark. They transformed the rural community. They must continue to serve those areas they helped to develop.

A McLendon Radio Pictures Release

Refugee Discovers Sister Still Alive

WEIMAR (AP) — Last April refugee Edmund Streich got word by an international grapevine that his sister, believed dead for 12 years, was alive in a Russian concentration camp. Proof came recently in a letter to the Weimar mechanic from Mrs. Klara Rosenfeld.

It told of a broken home and long years in prison. But Mrs. Rosenfeld said her children and husband are with her once more. He was imprisoned 10 years in another camp.

FCC Announces Station Actions
WASHINGTON (AP)—The Federal Communications Commission Wednesday authorized E. W. Mahone Jr., operating KMHY at Marshall, to take control of KLTJ at Longview for a \$10,500 consideration. The FCC approved a proposal for Tom E. and Billie J. Perryman to acquire a half interest in KGRI at Henderson for \$25,000. Top Broadcasters, Inc., won approval of an application to operate a San Antonio station at 1490 kilocycles, 500 watts, daytime. The commission received these other applications: Snyder—KSNY, daytime power increase from 250 watts to 1 kilowatt. Pasadena—KRCT, acquisition of positive control by LeRoy J. Gloger.

The woman said she is working in a brick factory. Streich, now 35, saw the Russians shoot his father when he was a child of 7 in the Ukraine. He told J. R. Yoder, writing for the Houston Chronicle, he lived on a diet of acorns for two years. He had two brothers and two sisters. One brother, taken by Soviet authorities at the age of 17, has not been heard from since 1932. Another, a doctor, hid out from the Russians for 11 years and joined the German Army in 1942. He was killed in 1943. Streich's mother died in 1942, a short time before he last saw his sisters. He was drafted into the German Army in 1941 when it invaded the Ukraine and was released in 1945. Later he worked on a farm in Austria and then joined the United States Army for two three-year hitchs. Streich married in 1947 and brought his family to this country in 1952. A church organization got him his job in a Weimar garage. Six years ago the German Red Cross advised him his sisters were dead. But last spring a secret organization got word to him that Mrs. Rosenfeld was alive in a Black Sea concentration camp. Her letter followed. Streich says he wishes he could finance trips to Russia for Communist sympathizers. "In a very short time," he said, "they would be glad to come back and return my money."

Just Built, Now Have Sleek Craft

HEREFORD (AP) — Three brothers who started building a boat three years ago to have a little luxury in their fishing are now putting finishing touches on a craft that wouldn't be out of place on the Mississippi River. The builders are Dean, T. L. and K. C. Bryant. It was their first venture in boat building. They just started building... and adding to. Now they have a sleek craft 46 feet long, 15 feet wide and 16 feet high. It weighs 25,000 pounds and will be propelled by two 25-horsepower outboard motors. "We just started building from scratch, and it just kept getting bigger and bigger," Dean Bryant said in describing how the project got started. He said it is the largest houseboat he has seen in this area of the Texas Panhandle. He explained

that they worked on the craft during their spare time. The boat can house eight persons with all the comforts of home. It is about 80 per cent wood and 50 per cent metal. An opening in the floor permits fishing in the comfort of the living room... air conditioned in the summer and heated in the winter. The brothers did not work from plans. They simply started at the bottom and worked up, and appeared somewhat surprised at the size their craft reached. The heavy craft has solid flotation through the bottom, including twenty 110-gallon barrels and a 15-gauge strip of flotation running the length of the boat. "We don't know any laws of physics," said one of the brothers, "but we think a battleship should be able to float on all that."

BIG SPRING DAILY HERALD

SEC. B BIG SPRING, TEXAS, THURSDAY, SEPT. 3, 1959 SEC. B

30,240 Bale Estimate Is Fixed For Howard County

Cotton crop in Howard County for 1959 has been estimated at 30,240 bales. Condition of the crop is rated "good." Five per cent of the crop is now open.

The figures quoted are from the Farm Labor Bulletin of the Texas Employment Commission and they are based on the situation as it prevailed on Aug. 31.

No harvesting is credited as yet to the county, although four bales, the TEC reports, have been ginned. Only one crew of immigrant workers are on hand in the county. Estimate on men needed as of Sept. 7 is 200. Pay for picking cotton is \$2.05 per hundred and \$1.55 for pulling.

Other reports from area counties:

Glasscock County — Crop good; production estimate 10,860 bales;

bales ginned 3; workers needed 50; pay scale same as Howard.

Martin County — Crop good; estimated production 73,900 bales; bales ginned 10; workers needed 500; pay scale same as Howard.

Midland County — Crop good; estimated production 16,500 bales; bales ginned 1; workers needed 90; pay scale same as Howard.

Mitchell County — Crop good; estimated production 24,000 bales; bales ginned 21; workers needed 400; pay scale picking not fixed; pulling \$1.75.

Scurry County — Crop very good; estimated production 28,000 bales; bales ginned 9; workers needed 500; pay scale for picking not fixed; for pulling \$1.55.

Texas Employment Commission also reported that its Big Spring office has an opening for two

ranch hands at salaries of \$110-\$125 per month; five farmhands (general) at 50 to 60 cents an hour and for three tractor drivers at 60 cents an hour.

Lamesa needs 28 farm hands (general), at 50 to 60 cents an hour and 50 cents for tractor driving are wanted in Midland.

August Rainfall Total Is 1.91; Year Now 17.18

Although August was not as wet as the previous three months, it still was close to the 50 year average in Big Spring.

The Big Spring Experiment Farm reported 1.91 inches fell here during the month. It boosted the year's total to 17.18 inches, almost five inches more than last year at the same time. The 1.91 August total was exactly the same as the August figure in 1958. The years total in 1958 for this date was 13.10 inches.

The 50 year average for August here is 2.04 inches.

The first four months of this year appeared to be the beginning of a drought with only 2.04 inches falling. But starting with

May, the city has had an additional 15.14 inches of moisture in four months.

In August, 1953, an identical 1.91 inches fell.

House Burglary Case Reported

Jack Barber, 108 S. Goliad, reported a burglary to police officers Wednesday. He said three pairs of trousers and a shirt was taken.

E. G. Galavez, 301 NE 7th, told officers a camera, he had reported stolen, had been located.

Plaintiff Is Victor In Suit

Dave Nelson, who sued for compensation against the American Fidelity and Casualty Co. in 118th District Court, won a partial victory Wednesday afternoon.

A jury awarded him 50 per cent of what he asked in his petition. He had sued for 401 weeks compensation at \$25 a week.

The case dragged through the better part of three days in the court. Arguments by attorneys absorbed Wednesday morning and the jury received the case for consideration around noon.

The Nelson litigation is the only case slated to be tried at this week's jury docket in the court. The panel called for the week has been excused from further service.

Firemen Provided With Resuscitator Devices

The Big Spring Fire Department was given five sets of the new mouth-to-mouth resuscitator recently by Wayne Gound, Gound Pharmacy.

Fire Chief H. V. Crocker said a set had been placed in each of the four fire houses and the other one is kept in his car. Each of the sets includes an adult and a child's size resuscitator for use in the case of near drownings or when victims are overcome by smoke or shock.

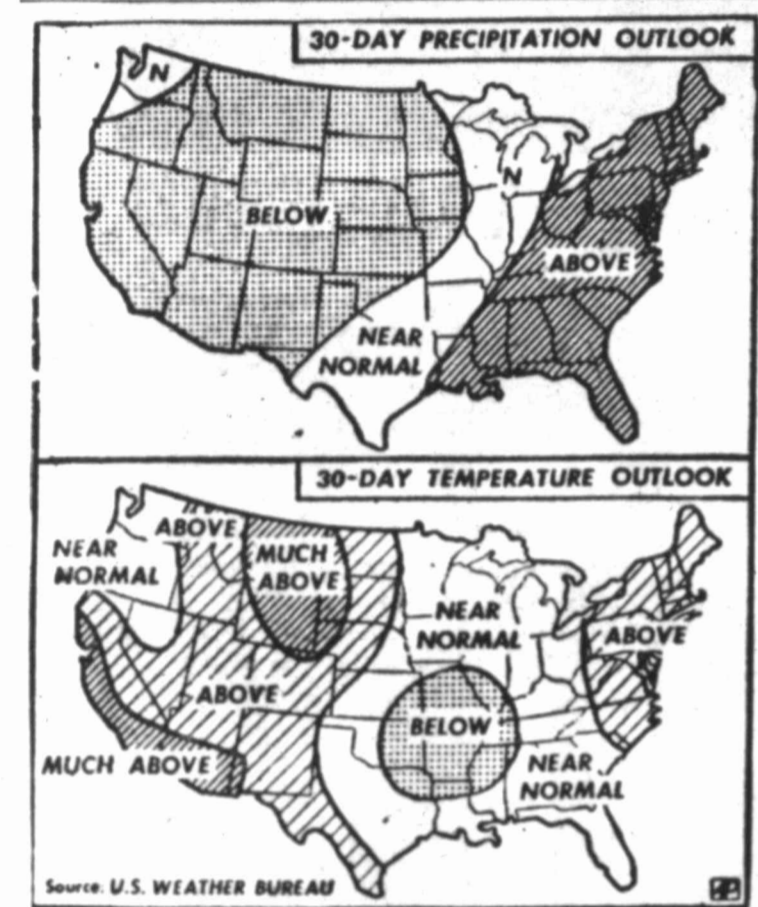

The tubes make it possible for the mouth-to-mouth method of artificial respiration without the mouths of the two persons coming in contact.

CARD OF THANKS

We wish to thank our friends and neighbors for the many acts of kindness during our recent bereavement of the loss of our wife and mother, for the flowers and the beautiful services rendered from the Park Methodist and Trinity Baptist churches. May God Bless each of you.

Non-Stop Service

HOUSTON (AP)—Non-stop service between here and Chicago will begin Oct. 1, Braniff Airways said. R. H. Burch Jr., Dallas, general traffic and sales manager, said Lockheed Electras will be used for the flights.

September Weather Outlook

Precipitation in this part of West Texas should be "near normal" and temperatures "above normal," according to the 30-day forecast on weather issued by the U.S. Weather Bureau. We are just on the edge of the "below normal" rain area and nearly in the heart of the above normal heat belt.

MEN IN SERVICE

Pvt. Laurence Arcuri Jr., known more familiarly to friends here as Larry (Dino) McNeil, is in training with Company A of the 10th Battle Group, 3rd Brigade at Fort Ord, Calif. His mother lived at 1608 Main and his stepfather, Capt. James C. McNeil, has been in Korea. Larry graduated from Big Spring High School in 1957 and was in the Demolays and served as state treasurer of the Vocational Industrial Clubs. Prior to entering the Army, he was with the Eagle Transport Company.

Army Pfc. Travis L. Bowden, son of Mr. and Mrs. Thomas Bowden, 705 Lancaster, Big Spring, recently qualified as expert in firing the M-1 rifle while assigned to the 101st Airborne Division at Fort Campbell, Ky.

A gunner in Troop B of the division's 17th Cavalry, Pfc. Bowden entered the Army in January 1958, and completed basic training at Fort Carson, Colo. The 24-year-old soldier is a 1953 graduate of Big Spring High School and was employed by the R. L. Jones Jr. Drilling Company in Seminole before entering the Army.

Two Howard County youths have enlisted in the Navy, and are now in San Diego, Calif., where they are undergoing Navy Recruit Training.

Jesse Gilbert, son of Mr. and

Mrs. J. C. Gilbert of Big Spring, was sworn in at Albuquerque, N. M., on July 31, and was sent from there to the U. S. Naval Training Center, San Diego, Calif.

Royce Gould, son of Mrs. Ruby Dillon, also of Big Spring, was sworn in on July 27 in Albuquerque. Royce is also in San Diego.

Both men will have nine weeks of Recruit Training, and then will be granted a 14-day recruit leave before reporting to their first duty assignment.

For the month of September, there are several choice openings for high school graduates. If you qualify as a high school graduate, and are between 17 and 31, see your local Navy recruiter for all details of Naval service.

Army Pvt. James A. Luker, son of Mr. and Mrs. Remert S. Luker, 1112 N. 3rd, Lamesa, is scheduled to complete eight weeks of advanced individual missile training Sept. 26 at the Artillery and Missile Center, Fort Sill, Okla.

Luker is being trained in the duties of an Honest John rocket crewman.

The 21-year-old soldier entered the Army last May and completed basic combat training at Fort Leonard Wood, Mo.

He is a 1956 graduate of Lamesa High School.

CINNAMON COLOGNE BREADS
... the people's choice.

Everyone Likes Cinnamon Spiced Breakfast Breads

Of all the sugar-n-spice that's nice, cinnamon must surely be the very nicest because it's the most popular among sweet baking spices. Most kaffee klatsch goodies are fragrant with cinnamon: Coffee cake, cinnamon buns, doughnuts dusted with sugar and cinnamon, spice cake, etc. This cinnamon-scented baker's dozen is the best friend a cup of coffee ever had!

Cinnamomum cassia, known in the spice trade merely as "cassia," is the bark most commonly sold in this country as cinnamon. It has been growing for thousands of years in China, Indo-China and Indonesia and may well have been the first spice used by man. Today we get our cassia from Indonesia and South Viet-Nam (non-Communist), Indo-China.

Long after cassia came into wide usage, another member of the cinnamom family—cinnamomum zeylanicum was found growing wild in the jungles of Ceylon. This mild, buff-colored variety is popular in other countries, particularly in Mexico.

Cinnamon is harvested by stripping the bark from young trees. The cinnamon tree, incidentally, is related to the laurel. Once the bark's been stripped from the trees it is rolled into quills—the trade name for cinnamon sticks—to make it more resistant to breakage, easier to ship. Broken quills are sold as "chips" and are usually ground or find their way into mixed pickling spices.

Cinnamon roll, anybody? Or a slice of buttered Cinnamon Yeast Loaf?

CINNAMON YEAST LOAF

1 1/2 oz. pkg. yeast roll mix
2 tbsps. butter or margarine
1/4 cup sugar
1/2 tsp. ground cinnamon

Make yeast dough according to directions on package. Roll dough 1/4-inch thick in a 9 x 14-inch rectangle. Brush with melted butter or margarine. Combine sugar and cinnamon and sprinkle over the top. Roll up in jelly-roll fashion, starting at the long side (14-inch side) of dough. Place in a greased 9 x 5 x 3-inch loaf pan. Brush top with melted butter or margarine. Cover and let rise in a warm place (80 to 85 degrees F.) until double in size. Bake in a preheated moderate oven (375 degrees F.) 40 minutes.

Yield: One 9-inch loaf.
Quick Cinnamon Rolls

Roll the above dough 1/4-inch thick on a lightly floured board. Brush with 3 tablespoons melted butter or margarine. Mix 1/4 cup sugar with 1/2 teaspoon ground cinnamon and sprinkle over the top. Roll up dough in jelly-roll fashion. Cut into slices 1/2-inch thick. Place on baking sheet and bake as directed on the package.

Yield: 20 rolls.

CINNAMON COFFEE RING

1 1/2 oz. pkg. yeast-roll mix
2 tbsps. butter or margarine, melted
1/4 cup sugar
1/2 tsp. ground cinnamon
1/4 cup diced glace fruit or raisins

Make yeast dough according to recipe on the package. Roll dough 1/4-inch thick in an 8 x 18-inch rectangle. Spread surface with melted butter or margarine.

Combine sugar and cinnamon and sprinkle over the top with 1/2-inch of the edges, over which sprinkle with glace fruit or raisins. Roll up in jelly-roll fashion, starting at the long side (18-inch side) of dough. Place in a greased 9-inch ring mold, pinching ends together. Let rise in a warm place (80 to 85 degrees F.) until double in size. Bake in a preheated moderate oven (375 degrees F.) 35 minutes or until done. If desired, brush top with melted butter or margarine and sprinkle with additional diced mixed glace fruit.

Yield: One 9-inch ring.

CINNAMON BISCUIT COFFEE RING

2 pkgs. unbacked biscuit
1-1/2 cup butter or margarine, melted
1-1/2 cup sugar
1 tsp. ground cinnamon

Dip each unbacked biscuit in melted butter or margarine and then into the sugar mixed with cinnamon. Stand up in a well-buttered 8-inch ring mold until mold is filled. Bake in a preheated hot oven (400 degrees F.).

Yield: One 8-inch ring.

Cinnamon Clover Leaf Biscuit

Roll each unbacked biscuit into a ball. Dip in melted butter or margarine and then into cinnamon-sugar. Place three in each buttered cup cake pan. Bake in a preheated hot oven (425 degrees F.) 15 minutes or until browned.

Cinnamon Doughnuts

Roll baked doughnuts in melted butter or margarine and then into cinnamon sugar, using 1-3 cup sugar to 1 teaspoon ground cinnamon.

Parmesan, Turkey Dish

PARMESAN TURKEY AND BROCCOLI

Ingredients:
2 pkgs. (10 ozs. each) broccoli spears
Boiling water
Salt
4 tbsps. butter or margarine
4 tbsps. flour
1 cup fat-free chicken broth
1 cup light cream
1/2 cup grated Parmesan cheese
Thin white cooked turkey slices (about 12),
Paprika

Method:
Cook broccoli according to package directions using the amount of salt called for. Drain; arrange in bottom of 4 individual shallow casseroles (each holding about 1 1/2 cups). Melt butter in 1-quart saucepan over low heat; stir in flour, then broth and cream. Cook and stir constantly until thickened and bubbly. Remove from heat; stir in with fork or whisk in 1/2 cup of the cheese. Arrange turkey slices over broccoli so vegetable is covered. Pour over the sauce; about 1/2 cup for each casserole. Sprinkle with remaining cheese and dust with paprika. Broil moderately slowly until hot through and top is browned — about 10 minutes. Makes 4 generous portions.

Herbs And Spices Add To Fish Dish

FRENCH FISH FILLETS

Ingredients:
2 lbs. fish filets
1/4 cup butter or margarine
1/4 cup lemon juice
1 large bay leaf (broken into 4 pieces)
1-16 tsp. ground dried thyme
2 tbsps. finely grated onion (pulp and juice)
Salt
White pepper
Paprika
Mined parsley

Method:
Arrange filets on broiling pan; if there is skin on them, place skin side down. In a small saucepan over low heat, heat the butter, lemon juice, bay leaf, thyme and onion until butter melts; pour over filets. Broil about 2 inches from high heat until fish flakes easily with a fork and is opaque through. Do not turn but baste once during broiling. Sprinkle with salt, pepper, paprika and parsley. Makes 4 to 6 servings.

Spice Vocabulary

Rosemary is a whole herb with a green color that resembles a pine needle and has a distinctive, delicate and sweetish flavor. It is best used for seasoning roast and broiled lamb, beef, pork, veal, game, poultry, salmon, deviled eggs; cheese sauces; sautéed mushrooms, boiled potatoes, green peas, squash, creamed seafood; chicken soup and split pea soup.

Lunches For School Must Be Interesting

Nearly every Texas mother has to cope, at least occasionally, with a school lunch. Even in the state's many thousands of schools which provide excellent lunchroom facilities, children occasionally find taking a lunch box a well-worn change. But the lunch which a child views as a "picnic" can be a problem to the mother who prepares it, the Texas Beef Council has found.

Food tucked into a lunch box must be of a quality which will not spoil during several hours out of refrigeration, must be of a texture which is not utterly ruined by careless banging both on the way to school and in the locker, and must be "different." The same child who will go through the lunchroom line and order the same meal day after day wants a "different" lunch when he brings it from home.

The Beef Council recommends a lunch containing at least one sandwich (for boys, two sandwiches are protection against death by

starvation before school is out), a beverage, salad or vegetable, and a dessert.

Sandwiches offer not only the bulk of the food value of the lunch, but possibly the widest latitude in choice of fillings and breads to produce an interesting meal. Probably the favorite beef sandwich filling is the classic recipe: left-over roast beef ground with sweet pickles and moistened with mayonnaise. This combination is equally delicious on plain white, whole wheat or rye bread — but may be most popular of all combined with hamburger buns.

Corned or dried beef sandwiches are also nourishing school lunches. This recipe makes 6 sandwiches:

1 4-ounce can corned beef or dried beef
1/4 cup American cheese, grated
2 tbsps. mayonnaise
1/4 cup sweet-sour pickle relish
1 tbsps. grated onion
Salt, if needed, and paprika
Mix all ingredients thoroughly.

If desired, add a dash of curry powder, mustard or Worcestershire sauce. For an at-home lunch, this mixture is delicious spread on bread slices and toasted. For a lunch-box, spread the bread lightly with mayonnaise or soft butter, and top the sandwich filling with lettuce and a thin slice of tomato.

Garlic Adds Much To Flavor Of Spinach

ITALIAN SPINACH
1 pkg. (10 ozs.) frozen leaf spinach
Boiling water
Salt
4 tbsps. olive oil
1 tiny clove garlic (crushed)
Freshly-ground pepper

Cook spinach according to package directions using the amount of boiling water and salt called for. Drain. Heat olive oil and crushed garlic in saucepan; add spinach; mix with a fork and reheat. Add more salt if desired and pepper to taste. Makes 3 servings.

Fruit Cup Is Good Starter

The combination of delicately flavored fruits make a delightful fruit cup for a ladies luncheon.

MANDARIN FRUIT CUP

Ingredients:
1 can (11 ounces) whole segments of Mandarin oranges in light syrup
1 cup cultivated blueberries
2 ripe peaches
2 tbsps. (or more) orange-flavored liqueur (cognac type)

Method:
Turn the oranges and their syrup into a serving bowl and add the blueberries. Dip peaches into boiling water; pare, halve, pit and slice thin; add to other fruit with liqueur. Chill. Makes 6 servings.

Note: The cognac type of orange-flavored liqueur is available in miniature bottles.

Protein Is Important In Feeding Fat Child

Glandular disorders, the most frequently suspected cause of excessive weight in children, are seldom the real cause, according to leading child psychologists.

Research by the Texas Beef Council indicates that children's bodies are shaped by the same factors which shape their lives: Heredity, environment, temperament, appetite and happiness.

Environment is a leading cause of obesity when an overweight mother consistently prepares and serves rich meals for her family. The child who is unable to cope with emotional problems will frequently compensate by overeating, just as adults often do. Food habits and preferences established by the age of six usually continue into adulthood.

Obesity may become a vicious circle, no matter which factor caused it in the beginning, the Beef Council learned. The fatter the child, the harder it is for him to enjoy exercise and games, and as he sits on the sidelines his body has more fat to store. The original problem of overweight acquires psychological overtones as the child becomes different from his playmates. When he can't comfortably enter into games, he becomes an outsider and the subject of possible ridicule. He acts more to compensate for his lack of popularity.

Dieting the overweight child, preferably while he is still just "plump" is, of course, the ideal answer—but, as many an adult can testify, this is easier said than done.

Children's almost universal love of beef in its various forms can be a tremendous help in keeping calories down, the Beef Council has found. Children need about three times as much protein per body weight as adults. For example: A child weighing 50 pounds will require as much protein as an adult weighing 150 pounds — 50 to 60 grams of protein every day. Six ounces of beef chuck roast provide 26 grams of protein, and add only 309 calories. Six ounces of chocolate fudge contain more than 700 calories—and less than three grams of required protein.

The child who, for one reason or another, has become overweight, needs to have his food tastes trained, as quickly as possible, to a protein diet which gives him a preponderance of nourishing foods which build muscle rather than fat.

The high protein diet, based on lean meat, renews his energy while cutting down calories. As soon as he "feels good" and joins his playmates in their physically active games, solution of his weight problem is well on the way.

Many mothers, with one eye on a rapidly growing child and the other on a constantly increasing food bill, are convinced that children have hollow legs, but the truth is that children's appetites can be satisfied if their diet includes sufficient protein elements—and the economical forequarter cuts of beef will go a long way toward balancing an over-extended food budget, too.

Demand For Popcorn Is Increasing Annually

Do you know what makes popcorn pop? It's the moisture in the kernel. When heat is applied, the moisture is converted to steam and the sudden release of steam pressure forces the kernel to burst.

For this reason, it's important to store popcorn so that it will hold the proper amount of moisture. This means keeping the corn in a tightly covered container, thus insuring good popping.

If the pressure of the yearly popcorn explosion in this country could be collected, it would probably be enough to drive a steam engine a considerable distance.

This hypothetical distance is growing every year, too, as more

High Season For Chicken

If there's any chicken left, it will taste good for lunch.

SEASONED SKILLET CHICKEN

1 broiler-fryer (about 2 1/2 lbs. ready-to-cook weight)
4 tbsps. flour
1 tsp. salt
1 tsp. paprika
1/4 tsp. dry mustard
1/4 tsp. celery salt
1/4 tsp. garlic powder
1/4 tsp. onion powder
1/4 cup butter

Have chicken cut in 10 pieces. Wash and drain lightly. Mix flour with seasonings. Dip chicken pieces in seasoned mixture, coating well. Melt butter in 10-inch skillet until very hot; fry chicken slowly until golden and lightly browned on both sides—about 15 minutes. Add 2 tablespoons water to skillet; cover tightly; cook until tender—10 to 15 minutes. Remove cover to re-crisp chicken—about 5 minutes. Remove chicken. Add 1/4 cup water to skillet; stir over low heat with wooden spoon to get up drippings. Strain the small amount of gravy and serve with chicken. Makes 3 servings.

Mushrooms, Onions Add To Snap Beans

A flavorful way with green beans is easy.

GREEN BEANS FRANCES

1 lb. snap beans
1/4 cup boiling water
1/4 tsp. salt
2 tbsps. butter or margarine
1 medium-sized onion (quartered and cut into thin strips)
1 can (6 ozs.) sliced mushrooms
Pepper

Cut tips from beans; scrub in cold water; drain. Cut in half crosswise and lengthwise.

Cook rapidly in 2-quart saucepan with boiling water and salt, covered, until just tender—crisp—about 12 minutes. Lift cover and turn over beans a few times while cooking; drain.

Meanwhile brown onion in butter in 8-inch skillet; add drained mushrooms and heat; mix with drained beans. Add freshly-ground pepper to taste. Reheat if necessary. Makes 6 servings.

Parmesan Cheese Is Good In Snap Beans

PARMESAN SNAP BEANS

1 lb. snap beans
1 cup boiling water
Salt
1 clove garlic
2 tbsps. olive oil
1/4 cup grated Parmesan cheese

Cut ends from beans; scrub in cold water; drain. Cut in slanted 1 1/2-inch crosswise pieces. Put in medium-sized saucepan with boiling water and 1/4 teaspoon salt; cover and cook rapidly until tender, 10 to 15 minutes; lift cover a few times to help keep beans green. Drain.

Smash garlic a few times with the handle of a heavy knife; heat garlic slowly in saucepan with oil; remove garlic. Mix drained beans with oil; reheat. Remove from heat and mix in cheese at once. Add more salt if necessary and pepper to taste. Makes 6 servings.

Shrimp, Vegetable Aspic Is Zesty

For beauty in serving a buffet meal and a real taste treat try this different shrimp and vegetable aspic.

SHRIMP AND VEGETABLE ASPIC

Ingredients:
2 envelopes unflavored gelatin
1/4 cup cold water
2 cups shrimp and vegetable stock
1/4 cup fino-type sherry
Salt
1 lb. medium-sized shrimp (cooked and deveined and sliced in half lengthwise)
2 tbsps. sugar
1/4 cup mayonnaise
12 cooked asparagus spears
1 large carrot (cooked and thinly sliced)
Salad greens

Method:
Soften gelatin in water. Heat stock and sherry; add salt to taste. Dissolve softened gelatin in stock-sherry. Arrange a layer of shrimp and asparagus buds in bottom of 4 to 5 cup ring mold; cover with a film of the clear gelatin mixture; chill until firm. Beat together until smooth the remaining gelatin mixture; and mayonnaise. Arrange sliced remaining asparagus and carrot slices over shrimp; cover with some of the gelatin-mayonnaise mixture; chill until firm. Add remaining shrimp; fill mold with gelatin-mayonnaise mixture; any leftover may be molded in a small container. Chill until firm. Unmold and garnish with salad greens. Makes 8 servings.

Here's A Recipe For An Old-Fashioned Dressing

The reason so many of the salads of the modern day don't taste just like the ones grandmother used to make is due most of the time to the fact that the dressings are not made like grandmother used to make them. Here is a real recipe for old-fashioned boiled dressing and a way to use it.

OLD-FASHIONED BOILED DRESSING

2 tbsps. flour
1/2 tsp. salt
2 tbsps. sugar
1/2 tsp. dry mustard
1 egg
1/4 cup milk

Compote A La Mode

A perfect ending for company dinner is fruit compote a la mode. Poach sliced fresh fruit (apples, pears, peaches or plums) in sugar syrup. Add pure vanilla extract to taste. Chill and serve in sherbet glasses, topped with vanilla ice cream or your favorite fruit ice or sherbet.

Plum Good Pie

Fresh Italian plums are in season now. Let's make the most of it! Give your family a treat by making them a plum pie. Use your peach pie recipe, replacing peaches with sliced plums and add 1/2 teaspoon pure vanilla extract.

1/4 cup cider vinegar
3 tbsps. butter or margarine

In the top of a double boiler, stir together thoroughly the flour, salt, sugar and mustard. Beat eggs slightly; add milk and beat enough to combine. Gradually stir into flour mixture, smoothing out after each addition so there are no lumps. Slowly stir in vinegar. Cook and stir constantly over very hot (just below boiling point) water until thickened and smooth; do not allow water to boil. Remove from heat; at once stir in butter. Cover and place over cold water until cool. Store in tightly covered jar in refrigerator. Makes about 1 1/4 cups.

CUCUMBER SANDWICHES

Make sandwiches of fresh white thin buttered bread and thinly sliced pared cucumber, sprinkling with salt and pepper and spreading with Old-Fashioned Boiled Dressing.

New Tint, New Self

Victoria Shaw believes that changing one's hair is the most obvious change a woman can make in herself. She will soon be seen in "The Crimson Kimona" for Columbia.

HOLLYWOOD BEAUTY

Have Professional Do Tinting Of Hair

By LYDIA LANE
HOLLYWOOD—When I went to the wedding of Victoria Shaw and Roger Smith about four years ago, everyone predicted big things for this handsome couple. Now, Roger has a TV series, but Victoria took time out from her career to have two children.
I visited Victoria recently and discovered she had resumed her career with a picture for Columbia. I was surprised to see she had tinted her hair a Technicolor pink.
"It's such a drastic change," she admitted. "When I looked in the mirror after it was bleached and tinted, I hardly recognized myself; I looked like a complete stranger."
We chatted about taking the dye-

Bauer P-TA Board Has First Meeting

At a meeting of the Bauer P-TA executive board Wednesday afternoon at the school, it was announced that the first regular meeting will be held Tuesday at 3:30 p.m. It will be a tea in honor of the teachers.
The group made the budget for the year and accepted two projects. One is to assist in building the school library; the other to add to the landscaping of the grounds.
Elected secretary was Mrs. J. J. Willingham; Mrs. J. C. Williams was named to fill the office of treasurer.

Miss Bowers Is Honored

LAMESA — Woman's Study Club Building was the scene of a gift tea Tuesday to compliment Nancy Bowers, bride-elect of Eddy Peterson.
Sixty-three guests were received by the honoree, her mother, Mrs. T. C. Bowers, and her future mother-in-law, Mrs. C. C. Peterson.
A pink and white color theme was accented at the serving table where Linda McPhaul and Bobbie Wright served. Piano selections were played during the evening by Mrs. Bob Boardman, Tahita Niemeyer and Marilyn Cox.
Hostesses for the tea were Mrs. C. W. Castner, Mrs. T. C. Glaze, Mrs. L. T. Prather, Mrs. H. H. Wright, Mrs. Jack Miles, Mrs. Grady Acuff, Mrs. C. V. Ball, Mrs. Marvin Gresham, Mrs. Don Byrd, Mrs. Lee Hancock and Mrs. Holmes Rowan.

Students Leaving For Abilene School

A group of students will leave soon for Abilene, where they will attend Abilene Christian College. Included are Kay Coleman, daughter of Mr. and Mrs. Carl Coleman, 2001 Monticello; Melvin Fryar, son of Mr. and Mrs. R. V. Fryar, Gail Route; Dan McPherson, son of Mr. and Mrs. C. J. McPherson, 603 Holbert.
Also Pat Bradford, daughter of Mr. and Mrs. S. A. Bradford, 1216 Wood; Peggy Francis, daughter of Mr. and Mrs. Marvin Francis of Coshoma, and Avery Falkner Jr., son of Mr. and Mrs. Avery Falkner, 708 West 17th.

There's A Difference

When a beverage is labeled chocolate-flavored milk, it is made from whole milk and cocoa; labeled a chocolate-flavored drink, it is made from skim milk and cocoa.

Cozy Set For Baby

Charlene Shuff, R. Ragan Are Wed In Sweetwater

In the chapel of the First Presbyterian Church, Sweetwater, Charlene Shuff became the bride of Robert Ragan Wednesday in an early morning ceremony.
Mrs. Dorothy Ragan, 600 Bell, is the mother of the bridegroom; parents of the bride are Mr. and Mrs. Charles Shuff of Sweetwater. Double ring rites were read by the Rev. Wayne Reed, associate pastor of the First Methodist Church, Sweetwater, before an altar setting of bronze chrysanthe-mums and ferns.
Heard during the ceremony were recordings of such wedding music as "Because, Ah, Sweet Mystery of Life, I Love You Truly and Lebestraum."
Given in marriage by her father, the bride chose for her wedding a street length frock of beige silk organza. It was fashioned with full skirt topped with a moss green velvet sash and she wore beige shoes with golden decoration and gloves of gold beige. Her tiny hat held a brief veil of illusion.
Cymbidium orchids were carried on a white Bible, which had been borrowed from Mrs. Jerry Fowler; diamond earrings of her mother were named as something old; she wore a blue garter, a gift

Fall Theme Used For Rogers Party

An autumn theme was used for a Coke party Wednesday afternoon which was a complimentary gesture to Pat Rogers, who will be married to Jimmy Anderson Saturday evening.
Mrs. Don Griffin and Mary Oliphant were hostesses in the Griffin home. They decorated the refreshment table with an arrangement of marigolds and fall leaves with miniature Cokes scattered through the foliage.
An attraction of the serving table was the "bush" of cream puffs stacked and drizzled with icing which was served with drinks.
Nine friends of the bride-elect were present.

Baptist Temple WMS Hears Mrs. Gafford

Mrs. Monroe Gafford brought the lesson for circle members of the Baptist Temple WMS when they met at the church Tuesday morning for Bible study and business.
Mrs. Gafford's subject was love and she related A Great Story of Love and Forgiveness. Mrs. Robert Heinze led in prayer.
During the business, Mrs. Otto Couch led the discussion and read a letter from Mrs. Evan Holmes who will be unable to appear here during the December week of Prayer. Members planned to secure a special speaker for the week.
New chairmen were accepted by the group and time was set from 9 a.m. to 10 a.m. for the State week of Mission meetings which will be held from Sept. 14-18. The time will be set for that week only with other meetings set from 9:30 a.m. Members voted to set a special goal for the week.
Mrs. A. R. Posey read Psalms 105:2 as a devotion; she read the names on the missionary prayer calendar and offered prayer for them.
Fourteen members were present.

Officers Elected By Baptist GA

Officers were elected Tuesday afternoon by the Baptist Temple Girls Auxiliary in a meeting at the church.
Heading the group will be Jean Cox, who was elected president; Marian Gilbert will serve as vice president, and Arlene Nixon as secretary-treasurer.
Promotion certificates were presented to Miss Cox and Miss Nixon. Joining the Junior GA, the girls heard a program based on the missionary work being done among the Indians.
It was announced that the auxiliary will observe State Mission Week at the next meeting, which will be held at the church at 5 p.m. Tuesday.

Suggestions Made By Gardeners For Improvement Of Big Spring

At a meeting of the Big Spring Garden Club Wednesday morning in the home of Mrs. Leroy Tidwell, members engaged in a general discussion of the various improvements needed in Big Spring.
A much-needed change is the clean-up of the downtown section, it was stated, with more paving on the north side. Also in the clean-up should be included the vacant lots of the town, the group agreed, and blind corners should be eliminated.
Planting of trees would be an improvement, members decided, and the suggestion was made that the city buy a compost grinder with the idea of selling compost to gardeners.
Yearbooks were distributed; Mrs. J. D. Elliott made a report on the summer meetings of the Council of Big Spring Garden Clubs, bringing two dates to the club.
The Fall Flower Show is slated for Oct. 29 in the gymnasium at Howard County Junior College. Mrs. Elliott announced. Another council-sponsored affair is the demonstration of Christmas decorations and arrangements set for Nov. 12, to be given by Mrs. Joe Arrington of Lubbock. Tickets for the demonstration, to be held in the H.C.J.C. auditorium, are priced at 50 cents per person.
Mrs. J. E. Hogan showed pictures taken on her recent trip to Europe and discussed gardens in the various countries. She displayed scenes from the International Flower Show, which she attended in Paris during her tour, and brought out differences between the landscaping of European homes and those in the United States.
The next meeting is planned for Oct. 7 in the home of Mrs. Elliott, 201 East Sixth.

New Secretary Is Named By WSCS

Members of the Wesley Methodist WSCS combined business with a luncheon and study meeting Tuesday when they met at the church.
The executive board, meeting previous to the luncheon, appointed Mrs. Bill Patterson as secretary to fill a vacated office.
Following the luncheon, the society voted to assist in organizing an evening circle for working women who desire to take part in the missionary program. The organizational meeting is to be held at 7:30 this evening at the church.
Mrs. Raymond Hamby, study leader, brought the yearbook study that introduced the year's theme which is the study of Africa. Mrs. E. R. Cawthron and Mrs. J. T. Gilmore gave the parts of mission-aries working in the African field.
Closing prayer was worded by Mrs. Clifford Hale.
Eighteen members and two guests were present.

Observe Anniversary

LAMESA — Mr. and Mrs. George Patterson observed their golden wedding anniversary Sunday when all of their children were present for the day. They came from as far as North Carolina and Oklahoma, Fort Worth, San Antonio, Corpus Christi, Odessa, Abilene and Plainview. This is the first time the 12 children and four generations have been together in 19 years. There were 22 grandchildren and four great-grandchildren present to the day.

DAUGHTER BORN TO NICHOLSES

Friends here have received an announcement of the birth of Laura Lorraine Nichols, who was born to Rev. and Mrs. Clyde Nichols in Borger. Rev. Nichols was for several years pastor of the First Christian Church and only recently moved to Borger.

'ROUND TOWN
With Lucille Pickle

Personally, if the weather stays this hot very much longer, I, for one will be very happy to sing my "September Song." As the old hill country boy said, "It's hotter than I've ever known it to be" this time of year. Pity the poor teachers and their charges. They can't even stay home where the air conditioners are.
MRS. BERT BRANCH, the former Barbara Hon, daughter of Capt. and Mrs. H. C. Hon, 22 Ent. has earned a degree as medical technician from the University of Tampa. Her husband is stationed at McDill AFB, Florida.
MRS. FRITZ WEHNER and her children, Linda and Rick, expected to arrive here Saturday from Colorado Springs for a weekend visit with Mr. and Mrs. Harvy Williamson.
In Ruidoso, N. M., for the weekend are MRS. TRAVIS READ and MRS. OVA MAE EDWARDS who left several days ago. They will be joined today by MRS. HARMON MORRISON and FERN WELLS. Mrs. Edwards' brother, Frank Williamson, whose home is in Corpus Christi, will be in Ruidoso during the weekend and will be a guest of Mr. and Mrs. Sunny Edwards.
There's almost a steady stream of golfers pulling their golf carts behind their cars on the way to the 28th Annual Big Spring Invitational Golf Tournament which promises to be one of the biggest.
MR. AND MRS. BILL CRAIG are coming over from Colorado City for him to take part in the Hall-Bennett Trophy matches. They will be the guests of DR. AND MRS. H. F. SCHWARZENBACH.
MR. AND MRS. KENT MORGAN will entertain her sister, Mrs. Boyce Mahaney, and Mr. Mahaney and Mr. Morgan's sister and her husband, Mr. and Mrs. T. F. Vaughan, all of Lamesa. The men plan to play in the golf tournament.
MR. AND MRS. WALLY HORN-IBROOK and daughters, Tina and Lisa, are expected today by the K. H. McGibbons for a short visit enroute to their new home in Phoenix, Ariz. The Hornbrooks have been making their home in

Stratford, Pa. He is the other member of the piano duo with Charles Webb, both of whom delighted friends here last winter with selections from their tour.
Other guests who plan to be with the McGibbons over the Labor Day weekend are Mr. and Mrs. Foster Pool Jr. and Mr. and Mrs. Haiz Webb of Dallas.
SHINE PHILIPS is coming home today to spend the weekend here with Mrs. Philips. He is a patient at the Baptist Memorial Hospital in San Angelo.
First of the clubs to bring in a yearbook for 1959-60 is the Big Spring Garden Club which has something in it we have not seen before — besides the program, of course. Calendars of 1959 and 1960 have been included in the back of the book. This club is using as its theme Beauty on a Budget, and the committee has listed several worthwhile projects and activities for civic improvement. Don't forget when your club's yearbook is completed, the women's department of The Herald would like to have one.
MRS. S. V. JORDAN left Wednesday morning for Coral Gables, Fla., to be with her daughter, Mrs. John R. Mitchell, who is to undergo surgery soon. En route to Florida, Mrs. Jordan planned to stop in Shreveport, La., for a visit with another daughter and her husband, Mr. and Mrs. Bill Martin.
CAPT. AND MRS. RICHARD PRINDIVILLE, stationed for the past three years in England, are in Big Spring for a three weeks visit with her mother, Mrs. Hazel McCormick, 208 Creighton. Mrs. Prindiville is the former Marilyn McCormick.

Baked Ham Glaze

You can use crushed pineapple for a baked-ham glaze, if you like.

HURRY! CONTEST CLOSES FRIDAY!
What is your favorite recipe?
It could win you as much as \$100 in The Daily Herald's "A Guide To Better Meals" to be published Sunday, Sept. 20
Here is your chance to win cash prizes for your original, favorite recipes. There are seven divisions in the contest, each with a cash prize of \$10 and you may enter every division. Just be sure to follow the simple rules and mail your recipes promptly. You will enjoy participating in a wonderful contest that points up the fact that "Better Meals Build Better Families."
JUST FOLLOW THESE SIMPLE RULES:
1. Contestants may submit as many recipes as they desire. They must be original recipes, or special favorites that have been in a family.
2. Employees, agents and other representatives of The Herald and affiliated companies are not eligible.
3. Prizes will be awarded on the basis of originality, simplicity of preparation and neatness of entry. Competent food experts will do the judging, and their decisions will be final.
4. Each entry must be typewritten or hand-printed, following the example below. Measurements and instructions must be complete and accurate.
5. All entries become the property of "A Guide to Better Meals" and none will be returned.
6. All entries must be postmarked prior to 12:00 midnight, Friday, September 4, 1959.
You Must Submit Your Recipe According To This Example:
DIVISION BEING ENTERED (Main Dishes, Salads, etc.)
NAME OF DISH
LIST OF INGREDIENTS, IN ORDER THEY ARE TO BE USED (Be specific on measurements)
COMPLETE COOKING INSTRUCTIONS, INCLUDING TEMPERATURES, TIMES AND SIZE OF DISHES WHERE BAKING IS REQUIRED
FULL NAME, COMPLETE ADDRESS
TYPE OR PRINT YOUR RECIPES
SEND ALL ENTRIES TO: **"Better Meals," Big Spring Herald** AND START TODAY!
REMEMBER! MAIL RECIPES TODAY! DEADLINE MIDNIGHT FRIDAY!

Keep baby warm on those chilly days ahead with this lovely five-piece set in easy-crochet. No. 297 has full crochet directions for five pieces shown.
Send 25 cents in coins for this pattern to MARTHA MADISON, Big Spring Herald, Box 438, Midtown Station, New York 18, N. Y. Add 10 cents for each pattern for first-class mailing.

SAFEWAY GIVES THOSE VALUABLE SCOTTIE STAMPS

Eisenhower Confers With Spaniard

President Eisenhower received the Spanish foreign minister, Fernando Castiella, at Winfield House, the U.S. ambassador's residence in London, for a 25-minute conference during which Spain asked increased military and economic aid. Shown at the meeting are, left to right: John Lodge, U.S. ambassador to Spain; U.S. Secretary of State Christian Herter, Eisenhower and Castiella.

August Hangs Up All-Time High For Water Consumption

Water consumption in August broke all records for the Colorado River Municipal Water District. For the first time this year deliveries topped a billion gallons for a single month in reaching 1,171,424,000 gallons. This was substantially more than the 1,138,200,000 gallons sold by CRMWD to its customers in July of 1957. Water sales in August were up 17.6 per cent over the same month last year. Sales through the first eight months, said O. H. Ivie, production engineer, amounted to 6,336,678,000 gallons, half a billion gallons above the 5,860,490,000 gallons for the same period last year. The gain was 8.64 per cent. In August, Odessa consumed 581,502,000 gallons of water, or 153,000,000 more than in August of 1958. Big Spring required 288,978,000 gallons or 23,000,000 more than a year ago. Snyder had one of the greatest percentage gains in reaching 96,573,000 gallons, or 20,000,000 more than for August a year ago. Other August figures included: SACROC 130,516,000, Sharon Ridge 41,931,000, Lion Oil 29,501,000, and Texas Gulf Producing 2,418,000 gallons.

Warsaw Lived Under A Cloud Of Optimism Before End Came

By LLOYD LEHRBAS
Written for The Associated Press

At 5:30 on a misty and cloudy morning—Sept. 1, 1939—World War II started in our backyard in Warsaw. A screaming siren lifted Elmer Peterson—Associated Press bureau chief in Warsaw—and me out of our beds. Then a terrific explosion rocked our office-apartment, the tocsin that Hitler had triggered a war that would change the life of the whole world. The Nazi bombs were aimed at a bridge over the nearby Vistula, but landed on the race course less than a block away. We were shocked, somewhat jittery, but not surprised. For two or three days, as Polish and German troops mobilized and moved closer to the frontier, all signs had pointed to war. Blackouts had been ordered in Warsaw the night before.

Peterson and I began hammering out the first of a flow of stories as we got scraps of information from the War Office, the U. S. Embassy, and Polish newspaper friends. Days later we found many of our urgent messages still spiked in the cable and radio offices, and a basketful in a censor's office.

In the first few days Warsaw had scattered air raids, and there was only sporadic anti-aircraft fire. We saw not more than four or five Polish planes take to the air against the bombers, and only a half dozen attackers shot down. In Warsaw the Poles were brimming over with optimism. Their troops were "fighting like lions" and would soon invade Germany. They had guns that would make it impossible for any Nazi planes to fly over Warsaw.

The Poles were fighting courageously at the front. A crack cavalry unit actually did invade Germany, but it never came back. No one in Poland seemed to know that the Poles, gallant and brave as they were, did not have the firepower, equipment, tanks, planes to stand up to Hitler's forces. By comparison with the Nazis they were naked. Soon after that first bomb fell the Polish radio became the air alarm system. "Warsaw Concerto" was played over and over around the clock, interrupted only by major war news or air raid alarms.

The terrible confusion caused by the alarms and attacks and the ever-growing number of persons who were leaving Warsaw for safer country areas made it extremely difficult to move about the barricaded streets, check on bomb damage, or get to see and talk to anyone who knew anything. Then from somewhat haphazard bombing, the Germans began to tighten up their raiding pattern and the Heinkel bombers swooped closer and closer.

After one tour of bombed areas I went back to our second-floor office and began typing a story when I heard planes. More than 50 big German bombers roared over the Vistula River a block away and bombs began to rain down. Windows shattered, the

floor shook, my typewriter began to dance.

But I had a grandstand seat for the spectacle over the river, and I was fascinated by the diving, wheeling, screaming planes, the thundering of bombs, the sudden giant spurts of debris from hits and water spouts from misses.

In the midst of the commotion the telephone rang—and I heard the welcome voice of Bob Parker at The Associated Press office in Budapest, Hungary. Since we could rarely get an outgoing call through, we had asked Budapest to telephone us every hour so we could get any news we had to New York.

As the bombers made a turn for another run I gave Parker a quick fill-in. "Here they come again," I yelled. Pulling the phone

to the end of the cord so he could hear the whines, screeches, and explosions, I gave him a running story as the Nazi bombers repeated their deadly antics.

When the Poles learned late on Sunday that Great Britain and France had declared war on Germany they went wild with joy, assuming that it meant a quick, sure victory. By the hundreds they danced and yelled and sang down our street to the French Embassy until long past midnight.

Almost as their cheers died away the Germans launched six spearhead attacks along Poland's borders, pushing toward Warsaw. The Poles did not know, nor dream, that Poland would be prostrate long before any help came and never would be the same again.

Iowa Farmer, Ex-Guest, Says Mrs. K. Nice

DETROIT, Mich. (AP)—The second of the Big Three's new economy cars went into production today as Ford Started building Falcons at Lorain, Ohio. Chevrolet has been assembling Corvairs at nearby Willow Run since mid-July. Chrysler's Valiant will roll off Detroit assembly lines within another month.

The three cars represent a sharp reversal in thinking by Detroit automakers who have been on a longer, lower, more expensive trend throughout the postwar period.

The Corvair will be the first of the new ones into the marketplace, making its public bow about Oct. 2. The Falcon will go on sale Oct. 8. The Valiant probably will be along about Nov. 14. Vital statistics have been released only on the Falcon. These came Wednesday in a 21-city closed circuit telecast for newsmen.

The Falcon is 15 feet, 1 inch long, against 17-4 for a 1959 Ford; 4 feet 6 1/2 inches high against 4 feet 8 inches and 5 feet 10 inches wide against 6 feet 4 inches. It weighs 2,366 pounds, compared with 3,570 pounds for the lightest 1959 Ford model.

The Corvair will offer America's first rear-engine models, using a flat six-cylinder aluminum power plant. Registration weight on test cars in Michigan has been 2,400 pounds.

The six-cylinder Falcon engine, of cast iron, is rated at 90 horsepower. The Corvair probably will be rated slightly more, as will the Valiant. The Valiant, like the Falcon, is using a cast iron six-cylinder engine mounted in front.

No prices have been announced. One report this week said the cheapest stripped Corvair will list as just over \$1,900. The Falcon and Valiant will be in the same range. But it will cost the best part of \$2,000 to get delivery on any one of them by the time taxes, delivery charges and a minimum number of accessories are included.

All three will offer automatic transmissions as well as straight stick models. But almost none of the other power options, such as power steering and brakes, will be available, at least in the beginning. The Falcon will have air conditioning available early in 1960.

Ford claims 30 miles per gallon performance for the Falcon with standard transmission and at least 50 per cent better gas mileage than any current American car with any transmission.

Does Mrs. K. keep her own garden like Mrs. Garst? "Oh no. She doesn't do her own. They are way out of our class," said Garst, reputed to be a millionaire.

He described Mrs. K. as about 5 feet 2 inches tall and farm-fed healthy—actually not unlike Mrs. Garst.

"Mrs. Garst never got to meet Mrs. Khrushchev. When we were there last year Mrs. Khrushchev was away with her daughter who was having a baby, I think the younger one."

Does Mrs. Khrushchev talk and joke with her strongman husband? "Well she didn't talk as much as she probably would have liked. When men who like to talk as well as myself and Mr. Khrushchev get going, nobody else has a chance."

Mrs. Khrushchev is a sparkling conversationalist and now speaks English, he said. Garst said he and his wife would like to show some Midwest hospitality for the whole Khrushchev family and are particularly counting on Mrs. K.

U. S. Small Cars In Production Stage
