'AIR IS GETTING SCARCER AND SCARCER . . .'  
 Congressman George Mahon Dedicates Howard County's New Airport

## PROJECT DEDICATED

# Mahon Praises County For Its County Airport Action

Some 2,000 persons listened beneath a beaming sun as Congressman George Mahon dedicated Howard County's new \$850,000 airport facility yesterday afternoon.

The Lubbock representative said this is "a turbulent age for aviation . . . with air getting scarcer and scarcer."

He said "we must find a better answer to the problem of utilization of the air."

Rep. Mahon predicted the new Federal Aviation Agency, which succeeded Civil Aeronautics Administration, will find that answer in its stepped up program, and that the air would be made "more and more secure."

### IMPORTANT ACTION

Congratulating Big Spring and Howard County for its effort in securing the new airport, he said "you've hit a home run for progress. You couldn't possibly claim for yourself a position in the air picture without a city-county airport such as this."

Noting that Big Spring has de-

clined as an air center, he urged the city and county to "fight for your place in the sun, or in the air. You have certainly done yourself well with the dedication of this airport."

Air Force planes including 16 T-33s, four F-96s, four F-100s and a B-47 flew in formations over the field after Mahon's dedication.

The ceremonies also included the invocation by the Rev. Ward Jackson, president of Big Spring Pastor's Assn., history of Howard County Airport by R. H. Weaver, attorney and former county judge, and a concert by the Amarillo Air Force Band. Jack Cook, chairman of the Chamber of Commerce aviation committee, was master of ceremonies.

The public got inside views of such Air Force planes as the T-33, T-28, T-37, C-123, T-34 and C-47, witnessed a San Angelo U. S. Marine Corps reserve unit exhibit of small arms, and saw a scale model of a "cracking" unit at Cosden Petroleum Co.'s hangar.

Some 75 persons in 45 airplanes

from the All-Texas Air Tour arrived at the new airport before the dedication, and were special guests at the ceremonies and a barbecue supper which followed.

### WAFB PARTICIPATES

Lt. Col. Donald Pendergrast of Webb AFB served under Webb commander Col. Donald W. Eisenhart as project officer for Webb's participation in the event.

Chamber of Commerce manager Bill Quimby said the chamber was "real pleased" with the dedication ceremonies and the crowd which turned out.

He expressed thanks to Webb and the Webb Aero Club, other military units and "the countless groups and individuals who made the program a success."

On the reviewing platform with Rep. Mahon were the Rev. Mr. Jackson, Cook, Weaver, Col. Eisenhart, Webb AFB commander, Clyde McMahon, Big Spring Chamber of Commerce president, County Judge Ed Carpenter, County

## Lunik Shoots Beyond Moon, Will Fall Back

**BULLETIN**  
 MOSCOW (AP) — Russia's Lunik soared 78,750 miles beyond the moon today and is expected to keep going three more days before starting its return toward earth, Tass reported tonight.

MOSCOW (AP)—Lunik III, the Soviet Union's newest space traveler, apparently was continuing on its planned orbit today after rounding the moon, but the Soviets so far have not said what it found on the other side.

Word of what the Tlying Laboratory observed on the face of the moon never seen by man may come after Lunik's next transmission of data, scheduled from 9 to 10 a.m. Eastern Standard Time today.

A Soviet announcement Tuesday night said the cosmic rocket reached a point 7,000 kilometers — 4,349.6 miles — from the moon at 9:16 a.m. Eastern Standard Time Tuesday and then "kept its movement turning around the moon."

By noon, the announcement continued, the rocket was 15,000 kilometers — 9,320.5 miles — from the moon's surface and continuing "on its predetermined orbit."

This was supposed to take it on around the moon and into a long oval orbit around the earth at the other end.

At that time, the Soviets said, the Lunik was 230,925 miles from the earth, over the Atlantic Ocean.

The Soviet announcement said preliminary processing of data from the satellite showed the temperature aboard ranges from 25 to 30 degrees centigrade — a comfortable 77 to 80 degrees Fahrenheit — and that a predetermined pressure of 1,001 millimeters of mercury is being maintained.

The apparatus of the solar batteries and the chemical sources for supplying energy are functioning normally, the announcement added.

British scientists listening in on the satellite during its long journey were mystified Tuesday when Lunik's steady beep suddenly changed to a rhythmic fading and swelling. This occurred about the time it was scheduled to pass behind the moon.

The change in signal patterns was picked up quickly at Jodrell Bank, England, by the world's largest radio telescope.

"At one period the signals were received for 15 seconds and then disappeared for 15 seconds and continued this way for about half an hour," reported Dr. John Davie, in charge of the Jodrell Bank operations.

He would not pretend to have any idea what they meant," he added. Soviet scientists kept check on the moon prober with an intricate system of radio listening posts and computing centers.

## Valley Fruit Shipments On

McALLEN, Tex. (AP) — A fair volume of citrus shipments from the Lower Rio Grande Valley is under way. But officials said Tuesday it will be another 10 days before all sheds are operating at near normal capacity.

The official shipping season began Sept. 14 under an order by the state agriculture commissioner John C. White. However, until late last week less than half of the Valley's 27 packing sheds were moving fruit and that on a part-time basis.

Slow maturing of the grapefruit was given as the reason. But more fruit was reported to be passing maturity tests.

The supervisor of the State Department of Agriculture regional office at Pharr, J. C. Walling, said oranges of the early variety have been passing the maturity tests. He said the oranges were running "very good" with plenty of sugar content but that only about 40 per cent of the grapefruit was being okayed.

Walling said he believed it will be about Oct. 20 before a high percentage of the Texas grapefruit market Citrus men say this condition exists each fall.

Prospects for a good season are extremely bright, reported John Kimbriel, president of the Texas Citrus and Vegetable Growers and Shippers Assn.

## HE'S JUST THE KIDDING KIND

MILWAUKEE (AP) — Sheep raiser Will McKerrow received considerable attention at the Wisconsin State Fair with an Oxford ram lamb billed as an "Early American Sheep." The animal sported a Mohican haircut—sheared except for a six-inch strip running down its back—and a feather over one ear.

McKerrow, who last year entered a lamb painted to resemble a colorful tartan, says he likes to kid the "city slickers."

## Seaman Gets Formal Notice Of Indictment

BOSTON (AP) — An indictment charging Willem van Rie, 30, with murder of Lynn Kauffman, 23, Chicago divorcee, was served today on the handsome Dutch wireless operator in his Boston jail cell.

The formality was required under Massachusetts law as a preliminary to his arraignment in Superior Criminal Court this afternoon.

The 150 spectators jammed into a courtroom were disappointed. They had expected to see him arraigned at the opening of the court sessions today.

Van Rie, himself married, was arrested in New York after investigation of the drowning death of Miss Kauffman in Boston Harbor Sept. 19. Bruises found on her half nude body, which washed ashore on an island, led a medical examiner to a conclusion that she had been beaten.

Van Rie, employed on the S.S. Utrecht, told police that he had been the shipboard paramour of the vivacious brunette during a 44-day voyage from Singapore. But while admitting clandestine intimacies, he denied that he had killed her.

The steamship touched at Boston before proceeding to New York.

Massachusetts law requires a plea of innocence in a capital case. A murder defendant can be adjudged guilty only after trial.

## Klan Again Aims At School Libraries

MONTGOMERY, Ala. (AP) — The Alabama Ku Klux Klan says it will try to rid school libraries of another children's book that is "a lot worse than 'The Rabbits' Wedding.'"

State Grand Dragon Bobby Shelton said "Two Is a Team," a story that illustrates white and Negro children playing together, is one of about a dozen books the Klan will campaign against as prointegration literature.

"The Rabbits' Wedding" was removed from general circulation after a bitter legislative fight recently. It is a story about the marriage of a black rabbit and a white rabbit.

"Two Is a Team," an illustrated tale by Lorraine and Jerrald Beim, tells of a Negro boy and a white boy who are playmates. It pictures them visiting each other's homes and playing with other children of both races.

## Could Pave Way For Taft-Hartley

WASHINGTON (AP) — President Eisenhower's emergency fact-finding board completed a fact-finding hearing today on the strike of East and Gulf Coast stevedores with an appeal to the parties to resume bargaining at once and hammer out a solution.

Chairman Guy Farmer told newsmen he expects that "barring something we cannot foresee, we will file a report tomorrow."

This could — if Eisenhower chooses — set in motion the procedures under the Taft-Hartley Labor Act which would lead to a federal court order enjoining the seven-day-old strike for 80 days of cooling off and bargaining.

The hearing was finished in one hour and 45 minutes.

As it ended, Farmer reminded spokesmen of the striking International Longshoremen's Assn. and the waterfront employers that Taft-Hartley "will not bring about any solution of this dispute."

He urged the parties to "make every effort to get together to bring about a peaceful settlement."

**LITTLE PROMISE**  
 Spokesmen for both sides agreed — but their positions, as outlined in sharp and hostile terms to the three-man panel, gave little promise of early agreement.

In presenting their case to the panel the stevedores contended employer demands would result in "wholesale" elimination of jobs.

Management came back with an accusation that the walkout is an "irresponsible and illegal" violation of an agreement to extend for 15 days the contract which expired Sept. 30.

Louis Waldman, attorney for the International Longshoremen's Association got in first with the argument about job elimination.

He told the panel in a statement that the employers wanted a free hand in automation of cargo handling methods. In the last three years, Waldman said, automation has "threatened to deprive ILA members of substantial numbers of jobs."

Following Waldman, Alexander P. Chopin, chairman of the New York Shipping Assn. Inc., told the fact-finders his organization and the ILA agreed to the contract extension last Wednesday. Within two or three hours thereafter, he said, New York Local 791 voted to defy the extension pact.

**SUPPORT LOCALS**  
 He quoted William V. Bradley, ILA president, as stating that the strike was in support of Gulf port locals which had no such extension agreement.

The waterfront employers originally withheld any wage offer but finally came up with proposals for a three-year contract with money increases of 20 cents an hour in the first year, 5 cents in the second year, and 5 cents in the third year. The union was to allocate the sum among higher wages, pension and welfare contributions, holidays and vacations.

But the offer was conditioned, Waldman said, on union agreement to a cut in the size of longshore working gangs, below the present 20-man figure, and agreement that the employers could institute any new operations they desired.

The union's demands, Waldman said, include a 40 cent wage increase; a guarantee of more work

vention should be the Taft-Hartley procedure.

Under Taft-Hartley a board of inquiry would be confined to making a factual report on the situation and would be barred from making any settlement proposals.

Dispersal of the union's 170-man Wage Policy Committee underlined the union's disbelief in a negotiated strike solution. Neither was there any ray of optimism on the industry side.

Six top industry executives, led by Chairman Roger M. Blough of U.S. Steel Corp., met with McDonald in a fruitless session Tuesday night.

The union leader dismissed the decision-making wage policy group after a 25-minute session in which he reported on his "summit" meeting Tuesday night with six top executives of the steel industry.

The committee must act on all contract matters and usually is kept on call only as long as there is some hope of a settlement. The meeting resulted in no progress.

## Mario Lanza, Noted Singer, Heart Victim

ROME (AP) — American tenor Mario Lanza died today in a Rome hospital.

Lanza had been in the hospital for about a week, reportedly for treatment of a minor illness.

A friend said he had suffered a heart attack and died shortly after noon. He was 38.

Two years ago he undertook a new movie career in Europe after several years of controversial activity in the United States.

A Philadelphia boy, Lanza vaulted to fame with the film "The Great Caruso." He earned \$1,100,000 in one year, more than half of it in phonograph records. In 1952 he was about the hottest thing in U.S. show business.

Two years later he was in debt to the United States government and having a hard time finding bookings. One of the reasons was that he got too fat for romantic parts.

"He was a sick man," his friend Irving Aronson said of the period in which Lanza ballooned in size, failed to fill a Las Vegas engagement and was accused of breaking a Hollywood movie contract.

Lanza was born in the Little Italy section of Philadelphia. His real name was Alfredo Arnold Cocozza. He later adopted his mother's name of Lanza for professional use.

## BULLETIN

CAIRO (AP) — Premier Abdel Karim Kassem, Iraq's strongman Premier, was shot in the shoulder today, Baghdad Radio reported.

## Girl Scout Training Aims At Building Citizenship

The aims and objectives of the Girl Scouts are not unlike those for Boy Scouts, except that activities are geared for girls and involve the homemaking arts.

By living up to the oath and law, and by progressing through the ranks and earning badges by reason of newly acquired skills, girls emerge better equipped to fulfill their obligations of citizenship and of motherhood. They not only develop the responsibilities of independence, but they acquire the obligations of service.

In Howard County, this agency of the United Fund has 710 registered girls and adults in the Girl Scout program. New troops are constantly in the process of organization.

Last year 241 attended day camp and 27 took part in the council camp at Boothe Oakes seven miles south of Sweetwater where the West Texas Girl Scout Council served 347. The local dis-

## Two Are Hurt In Wreck

Mrs. Fay Newman, 1809 Mittel and her 10-year-old daughter, Margie, were hospitalized early Tuesday after being involved in a wreck at 13th and Benton. They were riding in the car shown above which was in collision with an automobile driven by Ronald Howard, 903 E. 16th. The injured were taken to Big Spring Hospital in a Nalley-Piekle ambulance. Attendants said this morning they both had multiple abrasions and contusions, but were not in serious condition. Mrs. Newman was hurled from the car by the impact and pinned under the wreck. Sgt. Stanley Bogard took the picture before the cars had been moved.

# Dried Arrangements Discussed For Fairview HD Members

John Austin was the speaker at a meeting of the Fairview Home Demonstration Club Tuesday afternoon in the home of Mrs. F. O. Sorrells.

Taking as his topic the making of dried arrangements, Austin displayed examples of using fruits, flowers and leaves as well as grasses to make attractive arrangements.

Members were advised to keep in mind the occasion for which a bouquet is assembled, the time of day as well as the season in which it is to be displayed. Containers also should be suitable for the materials they hold, the speaker said.

# College Baptist Women Elect Circle Officers

College Baptist WMS circle elected officers in the meetings held Tuesday morning.

The Melvina Roberts Circle, that met in the home of Mrs. Ben Caldwell, elected Mrs. Caldwell as chairman, Mrs. Charles Wash as co-chairman; Mrs. Bill Draper, secretary; Mrs. R. L. Chambers, mission study chairman; Mrs. L. B. Thomas, prayer chairman; Mrs. John Nobles, community missions chairman.

Bill Blalack, Mrs. Garner Thixton will be stewardship chairman; Mrs. Phil Grozier, social chairman, and Mrs. Fred Potts, visitation chairman.

Mrs. Bob Zellars presented the devotion for the service. A joint meeting of the two circles will be held next Tuesday at the church at 9:30 a.m.

# Club Tours Refinery

Members of the Forsan Study Club met Tuesday afternoon at the school for a trip to Cosden Refinery, which they toured. Ten took part in the activity. The next meeting is slated for Oct. 15, when the group will entertain their husbands with a dinner at the school. Time is set for 7:30 p.m.

# Coahoma P-TA

There will be a meeting of the Coahoma P-TA Thursday afternoon at 3:45 at the school. Free nursery service will be provided and refreshments will be served.

# Baptists Set All-Day Meeting

An all-day meeting is slated for members of the Baptist Temple WMS when they will complete the study of a book on foreign missions. Date for the meeting is set for Nov. 10 at 9:30 a.m., with a covered dish luncheon to be served at noon.

# Need Of Polio Shots Is Stressed By Bo Bowen

The importance of polio shots for everyone, adults as well as children, was stressed at a meeting of the City P-TA Council Tuesday morning at the Goliad Junior High School.

# NCO Wives Select Two Projects

In a business session Tuesday evening members of the NCO Wives Club decided on the projects for the month. This will be to assist with the school for special education and to promote the youth work on the base.

MRS. MELVIN E. DUKE

# Hyperions Study Events

Mrs. John W. Browning and Mrs. Garner McAdams were co-hostesses to the 1955 Hyperion Club Tuesday afternoon. Sixteen members were present and one guest, Mrs. Flora Egle, Mrs. McAdams' sister from Sacramento, Calif.

Mrs. R. M. Heine gave the state hospital report and urged all members to cooperate in any way possible. The group voted to continue the Hyperion Council luncheon, making it the opening meeting of the season. All Hyperion groups have been asked to decide whether they want the annual luncheon to continue.

# Dallas Woman Is Visitor In Knott

KNOTT — Mrs. Lilly Bryant of Dallas is visiting her sister, Mrs. Edgar Aihart. Aihart is a patient in Malone-Hogan Hospital in Big Spring.

# Two Join Junior Group Of Gardeners

Two new members were added to the roster of the Junior Garden Club Tuesday when the regular meeting was held in the home of Mrs. Obie Bristow, sponsor.

# Garden City 4-H'ers Elect Their Officers

GARDEN CITY — The Garden City Junior 4-H Club met recently in the grade school auditorium. Officers for the following year include president, Dianna Thompson; vice president, Judy Hirt; secretary-treasurer, Frances Cyper and reporter, Sarah Oakes.

# Lamesa Party Fetes Mrs. Ed Wittner

LAMESA — Mrs. Ed Wittner, outgoing nursery coordinator for the First Baptist Church was honored at a harvest luncheon Tuesday at the church, when the group met for business. A session of the executive board was held preceding the larger gathering.

# Cracker Broil

Ever wrap small rectangular crackers with bacon and broil.

# Mrs. Willburn To Head Baptist WMU Of Lamesa Church

LAMESA — Mrs. Ewell Willburn was elected president of the WMU of Second Baptist Church in a business session which preceded a covered dish luncheon and Royal Service program Tuesday.

# Circle Studies United Nations

Mary Zinn Circle of the First Methodist Church met in the home of Mrs. C. Y. Clinkscales Tuesday. Mrs. Clyde Thomas Sr. opened the meeting with prayer.

# Mrs. Bettie Guest Of Settles WMS

Mrs. F. W. Bettie, of the First Baptist Church, was a guest of the Settles Baptist WMS Tuesday. In the future Mrs. Bettie will bring discussions from the book, Consider Thy Stewardship, by Mrs. T. C. Jester.

# Westbrook P-TA Board Makes Plans For Halloween Fete

WESTBROOK — The executive members of the Westbrook P-TA met recently in the school cafeteria. Plans were discussed for a Halloween carnival and queen contest to be presented to the regular meeting Thursday night.

Deep Sea Diver

Submarine engineer Jean Mallard stands at the hatch of the mechanical sea turtle that will explore the Continental Shelf under the Caribbean Sea. Famed underwater explorer Capt. Jacques-Yves Cousteau is at right.

## Mechanical Turtle To Explore Caribbean's Continental Shelf

WASHINGTON (AP)—A weird-looking mechanical sea turtle with buglike eyes for cameras will soon begin exploring the mysteries of the Western Hemisphere's continental shelf at the bottom of the Caribbean Sea.

The craft arrived at the Naval Weapons Plant here recently en route to the French West Indies. The two-man turtle, propelled by water jets, will probe the dark and silent submerged continent off Guadalupe Island, in the Leeward Islands.

Capt. Jacques-Yves Cousteau, noted Marine explorer, brought the newly developed turtle from France aboard the French research ship Calypso.

**CHEAPER THAN BATHYSCAPH**  
The turtle, cheaper and smaller than a deep-sea bathyscaph, is the only craft of its kind in the world. Cousteau, commander of the Calypso and co-inventor of the aqualung, says the turtle "fills the gap between the maximum distance divers can go down about 200 feet, and the much greater depths on which bathyscaphs are used."

The turtle can carry two persons—a pilot and a scientist to a depth of about 1,000 feet. Lying

on their stomachs on a rubber mattress, they can peer out through two portholes. Eyelike apertures are also provided for taking motion pictures.

The steel-hulled craft is 6½ feet in diameter and 5 feet high. It can move up, down and sideways with its jet power, and has a range of about six miles. It depends on its battery-powered jets to resurface, and can remain on the bottom about 24 hours.

**SHELF IS UNEXPLORED**  
After being dropped overboard from the mother ship by a crane, the turtle's only contact with the upper world is a yellow plastic ball attached to the craft by a nylon line. The ball floats on the surface so that the Calypso can keep track of its movements.

Cousteau says the continental shelf—a submarine plain which stretches out from the mainland toward the ocean depths—is largely unexplored and is the most interesting section of the sea bottom.

"I think we may be able to learn a lot just by turning off the engine and sitting for 24 hours on the ocean floor watching what goes on," he says.

He is particularly interested in exploring the shelf, he says, "because it holds many of the answers to the mystery of how the

underwater mountains and valleys were formed.

"Since the shelf is a continuation of the continent itself, there is no reason why it should not have the same natural resources, such as oil and coal."

The expedition, sponsored by the National Geographic Society, plans to return to France around the end of the year.

## French Air Chief Predicts U.S. Forces Will Return

OMAHA (AP)—The French air force chief of staff predicts U.S. Air Force planes with their nuclear weapons will be permitted to return to their former bases in France.

Gen. Edmond Jouhaud, arriving at Strategic Air Command headquarters Tuesday night, hinted a compromise is being worked out

between his government and the United States.

Last spring French President Charles de Gaulle told the United States it could no longer store nuclear weapons in France unless American nuclear secrets were shared with his government. The Air Force withdrew some 250 aircraft from France.

But negotiations are now in progress between the two governments and the dispute "most certainly will be resolved," said Gen. Jouhaud.

## Herter Thinks Niki Failed To Woo China Reds To Peace

WASHINGTON (AP)—Soviet Premier Nikita Khrushchev apparently has run into trouble in his campaign to get Communist China to join in Red East-West tensions.

Secretary of State Christian A. Herter, summing up his impression of Khrushchev's visit to Peiping following his Camp David talks, told newsmen: "I would say that I can see no visible easing of tensions as between Chinese Communists and ourselves."

Herter also suggested the possibility of a split in the foreign policy lines of the Soviet and Red Chinese governments. He noted that Khrushchev had "talked quite eloquently" during his Chinese trip about solving international problems by peaceful means and that Chinese Communist leader Mao Tse-tung "never made any statement at all."

This striking contrast of behavior coupled with the Chinese Reds' continued denunciation of the United States as "imperialist" and "aggressive" seemed to indicate that Khrushchev and the Soviet government "are, taking a rather different line," Herter said, "from that of the Communist Chinese."

Khrushchev went to Peiping after touring the United States. He is believed to have given the Chinese Reds a full account of his talks with President Eisenhower during which Eisenhower and he agreed that "all outstanding in-

ternational questions" should be settled by peaceful negotiations.

Herter in his first news conference here since early July, said he thought the Khrushchev trip to the United States had resulted in some easing of tensions between the United States and the Soviet Union.

As to the long-range value of the visit, Herter said "time will tell, but I would like to be optimistic."

The Eisenhower-Khrushchev agreement on Berlin—providing that future negotiations may run on indefinitely—has had the effect of lifting the Soviet threat to try to force the Western Allies to give up West Berlin, Herter said in response to a question. But there was no agreement, he added, on

### Carr, Will Seek Atty. Gen. Office

EL PASO, Tex. (AP)—Texas House Speaker Waggoner Carr says he will be a candidate for state attorney general.

Rep. Carr Tuesday told the El Paso Junior Chamber of Commerce that he will not seek reelection to the Legislature. Later he said he will run for attorney general in the 1960 Democratic primary. He twice was speaker of the Texas House and is serving his fifth consecutive term in the Legislature.

any new plan for settling the Berlin dispute.

As to a summit conference Herter would say only that whether the new negotiations on Berlin will be conducted by heads of government or foreign ministers, and when and where the next big East-West conference should be held are matters for consultation among the Allies.

Throughout the news conference Herter seemed to be speaking on the assumption that Khrushchev seriously wants a major improvement in Soviet-Western relationships.

He credited the Soviet Premier with "a degree of real sincerity" in proposing complete, world-wide disarmament.

Similarly, Herter evidently assumed that the Soviet leader was seriously trying in his private talks with the Chinese Communist rulers to get them onto a more peaceful foreign policy line.

## Khrushy En Route

MOSCOW (AP)—Premier Nikita S. Khrushchev flew to Irkutsk in central Siberia today en route home from his visit to Peiping.

The Soviet news agency Tass said the Premier made an important speech Tuesday to a mass meeting of workers in the Siberian port city of Vladivostok. Tass said the speech will be made public in a few days.

COMFORT AND BEAUTY COMBINED

... Mrs. LaVerne Rogers of Big Spring Hardware Furniture department shows off lovely divan.

**BIG SPRING HARDWARE**

**Best In Furniture Waits Your Choice At This Store**

It doesn't matter if you need one small piece of furniture or furnishings for an entire house—Big Spring Hardware Furniture department, 110 Main, is the place you should go.

At Big Spring Hardware Furniture department you can furnish your house from kitchen to attic with every thing that you need. In addition, you will find a bigger and wider selection of high quality merchandise from which to make your choice.

Big Spring Hardware Furniture Department is eager to talk over your house furnishings needs with you. If you want to pay for the furniture on a monthly or weekly basis—it is easily arranged. Convenient terms to suit your budget will be worked out.

Big Spring Hardware Furniture department in the relatively short time it has been in existence has become widely known in Big Spring and the Howard County area. It features the products of the nation's finest manufacturers. Its prices are reasonable.

A cordial invitation is extended to all residents of the Big Spring area to come to the store and "browse around." You don't have to be in the market; just come in and feast your eyes on the array of beautiful and well-made pieces of furniture.

Right across the street you'll find the Big Spring Hardware Furniture department—where there's one of the most complete stocks in West Texas.

**Free Space To Park At Bank**

There is ample free parking away from the crowded traffic conditions of downtown at the modern new Security State Bank, 1411 Gregg St.

There are two convenient drive-in windows for motorists with bank business on their minds, and at both inside and outside stations complete banking service is featured.

A member of Federal Deposit Insurance Corp., which insures deposits up to \$10,000, bank officials endeavor to satisfy the individual needs of every customer. Stop in at the revolving temperature and time sign on Gregg St., or call today for any banking problem you have at Amherst 4-3555.

**Laundry And Dry Cleaning At One Place**

There are days when you just feel you can't do the work that's stacked up to be done. And when you realize that the family washing and ironing is in the stack—well, sometimes it's just more than you can face.

Why face it? There's an easy solution to that washing and ironing bugbear. It's as simple as picking up the telephone. Just dial the Ideal or the City Laundry. In no time at all, one of their pickup trucks will be at your door to take your laundry. And in a little while, back comes the truck—delivering your family wash as bright and gay as the day it was bought.

And in the fall and winter, there are often days when the weather isn't fit to do the laundry. Usually these days fall when the job simply has to be done. The thing to do when this comes your way is to call either the Ideal or City Laundry. The phone number at 401 Runnels, is AM 4-6231. The City Laundry is at 121 West First. The phone is AM 4-6801.

They also do dry cleaning of the highest quality. So when you send the laundry, send along the dry cleaning you need. Both will be returned to you. And the finished product will be exactly the way you wanted it.

If you haven't tried the service of the Ideal and City Laundries, why not start tomorrow? You'll be glad that you did.

**Bequests To Kin**

FORT WORTH (AP)—Sid W. Richardson, Fort Worth oil man who died last week, willed 13 million dollars worth of property and trust funds to relatives, executors of the estate said today.

The bulk of the estate of one of the world's richest men will go to the Sid W. Richardson Foundation.

**Here's Some Good Hints On Electricity And Its Uses**

Here are a few do's and don'ts that Otten Graves of the Texas Electric Service Co. suggests for your electric wiring.

Don't greet your guests with an inhospitable and poorly-lighted entrance when the house number is hard to find.

Do install an illuminated number and lighting fixture outside your front door to give plenty of light and permit visitors to find your abode easily.

Don't think that in your bathroom one lighting fixture placed directly over the bathroom mirror is sufficient. Such an arrangement will cast shadows on the neck and chin, making shaving and makeup chores difficult.

Do install two fluorescent or incandescent fixtures—one on each side of the mirror. For shadowless, glare-free light, center the lamps at 5 feet, 2 inches height from the floor, and cover them with translucent shades.

Don't put up with the annoyance of dark closets.

Do have your electrical contractor install lights in all your closets, controlled by automatic door switches or by wall switches placed near the lock side of closet doors.

Don't let ugly, makeshift electrical extensions spoil the looks of a newly-decorated room. They are not only unsightly, but unsafe. Furthermore, when this arrangement is used, it is often necessary to disconnect one lamp or electrical appliance, in order to plug in another.

Do have your electrical contractor provide enough convenient outlets for all your lamps and appliances. He will space them every 12 feet along the wall, and place them in smaller areas of three feet or more.

**Ex-Odessa Editor Earns Promotion**

NASHVILLE, Tenn. (AP)—The Nashville Banner appointed James H. Scott associate editor of the afternoon newspaper today.

Scott has been a member of the news staff since April, 1956, and came here from Odessa, Tex., where he was managing editor of the Odessa American for several years. He is a native of Tulsa, Okla., and formerly was on the news staff of the San Antonio Evening News.

New Nose Cone

An Atlas Missile, a brand new nose cone perched on its top, roars off on a start of a 5,500-mile test flight from Cape Canaveral, Fla. The Air Force calls this a second generation cone and plans eventually to use it on all its big missiles. Standing nearly 12 feet tall, the cone is designed for more rapid re-entry through the earth's atmosphere. It also can carry a bigger nuclear payload. The Atlas is 80 feet tall without the nose cone.

### Texans Among High Scoring Students

CHICAGO (AP) — Hundreds of Texans are among the 10,000 high school students which the National Merit Scholarship Corp. reports made the highest grades in scholarship tests last spring. The 10,000 topped a field of 550,000 who took the scholarship tests last spring. The leaders will take a similar test Dec. 5 to confirm their grades. About 95 per cent of them are expected to become finalists. The results were announced Tuesday. The students who become finalists will be eligible for scholarship awards sponsored by about 100 business and industrial organizations, professional societies, foundations, individuals and the corporation itself. The exact number of scholarships will be determined later. The list of finalists will be sent to colleges and universities which will single out the students as being eligible for other awards. Each merit scholarship averages about \$750 per year for four years. The scholarships are tailored to the individual's needs. The Texas finalists included: James C. Calhoun and Raymond L. Johnson, Alice; James H. Hinderer, Tom Lee Hutcheson, Jimmy R. Kittles and Alan R. Tarrant, Athens; Jan A. Beathe, William R. Edwards and Mary Lee, Baytown; Jerry D. Foster, Breckenridge; David Gumm Brovler, Judy Foster, Barbara L. Gibbs, George H. Inglehart, Tim E. Lane, Mavis D. Smith, all of Bryan; Sidney A. Cook, Corsicana; Tommy D. Cauthorn and Byron W. Hodge, Del Rio; Robert S. Beckham, Denison; Patricia C. Hopson, Rosser B. Melton and Paula V. Young, Denton; Howard Raelarn Test, Edinburg; Roy A. Jacoby Jr., Fredericksburg; Dennis E. Benson and Sandra Sue Lindsey, Odessa Ector; Gerald W. Beazley, Carole J. Gorham, Michael P. McKinney and Marilee C. Summer, Odessa Senior; Arthur Fryar Calhoun, Plainview; Marjorie L. Woodall, Port Arthur; Allen R. Stockslager, John M. Williamson and Joe N. Woodall, Sherman; David R. Head, Texas City; Peggy Ann Ziegler, Weatherford.

### BCD Members Are Named By Lamesa Board

LAMESA — The Lamesa City Council named four new members to the Board of City Development in their meeting Monday night in the offices of City Manager C. A. Taylor. They are Charles Bruton, Walter Buckel, Hal Fees and Will Morris. These four replace Dr. C. B. Bucy, C. T. Beckham, Richard Crawley and Bill David, whose terms expire this fall. Holdover members of the board are J. B. Claiborne, Jake Lippard and Carroll Tunc, who will serve until next September.

The council also authorized the installation of approximately 30 street lights for specific locations in the city, and also authorized the signing of an agreement between the Red Cross Chapter and the local civil defense organization in an effort to solidify a disaster preparedness plan here. The agreement, which gives the Red Cross full authority in event of local disaster outlines clearly the functions of the two groups which will effect harmonious disaster operations when required. Edgar Taylor of Snyder was retained by the council to act as a delinquent tax collector and will take over his duties immediately. The group approved the preliminary plat of Blackstock Heights in southwest Lamesa and authorized the installation of water and sewer utilities for the addition at an estimated cost of \$8,206. The council also authorized a call for bids on removal of excess water from sewer lagoons and passed an ordinance on first reading which would provide supplemental benefits for disabled city employees.

### Halloween To Be Celebrated With Carnival

Plans for the Halloween Carnival were made by the Student Council at its meeting this week. The carnival is to be from 6:30 to 8 p.m. Oct. 31 with a social following from 9 to 12 p.m. One queen nominee from each class will be selected and the Queen of Halloween will be crowned at the social at 10 p.m. Publicity committee for the carnival will be headed by Carolyn Sewell. Assisting her will be Carol Phillips, Doylene Wadkins, Jamie Harrington, Mary Lock Crossland and Luan Phillips. Class meetings will be called next week to elect class queens and discuss plans for the year's activities. The Lions Club will present the school assembly program Monday. Announcement was made that the majority of the student council members plan to attend the district council meeting in Snyder on Nov. 7.

### Flood Victims Await Return

TULSA (AP) — Northeast Oklahoma flood victims looked hopefully today at prospects of returning to homes as streams began returning to their banks. Downstream the tiny town of Moffett stood in the path of rising Arkansas River floodwaters. Already 20 families have left low lands on the edge of the community of 350 persons, and water continued to rise. Civil Defense head Marshall Gilliam said floodwaters Tuesday night still had not reached Moffett, but an anticipated Arkansas River stage today of about 33 feet would force more evacuation. At Tulsa, the Arkansas River fell rapidly and was expected to drop below 18 feet this morning, a foot below flood stage. The river had climbed as high as 22.04 feet, highest in 36 years, and forced some 200 families to flee. Tulsa Civil Defense Director Elmo Morrison said "It's possible" some Tulsa evacuees may return home today.

### Hospital Board Okays Denton Plan

AUSTIN (AP) — The State Hospital Board has approved plans for a 500-bed nursing home addition to the new institution for mentally retarded at Denton. Work is under way now on a 500-bed cottage-type institution. The board's action Tuesday in effect will double its capacity. The Masterplayers go from here to Wichita Falls, thence through the Midwest and on to the Atlantic states. They have just finished a tour of Latin America, where sev-

### Orchestra Opens Concert Season

The Masterplayers of Lugano are rightly named. Although some in the audience would disagree, the world-traveling orchestra lived up to its name. Their performance was a fitting beginning to the Concert Assn. series. A small ensemble of no more than 21 members, the Masterplayers are somewhat midway between a full orchestra and a chamber group. As a result of their in-between size, they are unable to attain the decibels of a full size orchestra, so they chose compositions that are better played softly. A number of people in the capacity audience were almost lulled. The bowing technique of the Masterplayers was excellent, and the horn players were outstanding. Local audiences are improving in one respect—only once did they break into the middle of a composition with applause; otherwise, they waited until the end of each piece. The orchestra's best rendition was of Handel's "Rodrigo," and was indicative of the fact that the acid test for any musical group is the ability to play softly. Any- one can play loud. The soloists, like the orchestra, were not of the stature of Heifetz, Cliburn or the New York Philharmonic, but they were more than adequate for the occasion. The Masterplayers go from here to Wichita Falls, thence through the Midwest and on to the Atlantic states. They have just finished a tour of Latin America, where sev-

eral additional members were recruited. The group takes the "Lugano" in its name from the fact that it began in that Swiss city, and its conductor is a Lugano man. Actually, the Masterplayers group contains members from many nations. Most of them speak little or no English, and it is their first trip to the U. S. The language barrier was no difficulty to members of the Concert Assn., who entertained the musicians after the concert with a buffet at the Sands.

### Texas Dries Out Following Storms

By The Associated Press Bright clear skies Wednesday helped to dry out Texas, battered and soaked by torrential downpours and damaging floods over the weekend. Except for a few scattered clouds around El Paso and Austin and ground fog at Brownsville and Texarkana, the weather was clear and crisp early Wednesday. Early morning readings ranged from 51 degrees at Dalhart to 70 at Corpus Christi and Brownsville. Clear skies Tuesday lessened further flood damage although streams and rivers at many points were still over their banks. Rains up to 18 inches sent many streams on the rampage over the weekend as cloudbursts and tornadoes struck the state. The Department of Public Safety estimated damage from floods and tornadoes at 2½ million dollars.

### Goodson Wins Union Election

Alfred G. Goodson, 1904 Eleventh Place, has been re-elected president of the Petroleum Allied Industries Division of the International Union of Operating Engineers. In being renamed at the head of the petroleum division, he became the first man ever to be elected to the presidency unanimously. He was elected originally last year in a closely contested election. Goodson was one of four delegates from Local 826 to the petroleum division meeting at El Paso last weekend. Some 50 delegates gave reports on their locals, their problems and achievements. Other delegates from here were Frank Parker, local business agent, Roy Watkins from Big Spring and Roy Sweat, Colorado City.

### U.S. Reveals Peanut Acreage

WASHINGTON (AP) — A 1960 national peanut acreage allotment of 1,619,000 acres — the minimum allowed by law — was announced Tuesday by the Agriculture Department. The department also said that peanut growers will vote in a referendum no later than Dec. 15 on whether they will accept marketing quotas for the peanut crops of 1960, 1961 and 1962. The 1960 acreage allotments by states and the comparable 1959 allotments include: Texas 356,022 and 356,022; New Mexico 4,996 and 4,922; and Oklahoma 138,058 and 137,964. Approval of marketing quotas would require a two-thirds vote of those balloting. It approved, those peanuts farmers who comply with acreage allotments would be eligible for price supports of not less than 75 per cent of parity. If rejected, the price supports would be at 50 per cent of parity for those who comply. Parity is a formula determined by law to provide a fair return to growers on the basis of costs of goods they purchase. Whether or not marketing quotas are approved in the referendum, the 1960 crop peanut acreage allotments will remain in effect as a means of determining eligibility for price support. The law provides that marketing quotas must be equal to the average quantity of peanuts harvested for nuts during the previous five years. However, the quota must be sufficient to provide a national acreage allotment of at least 1,610,000 acres.

# PRESENTING FOR 1960... BUICK'S ALL-TIME BEST

## THE TURBINE DRIVE BUICK '60

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today. A solid, substantial car • A car of superb comfort, quiet, reliability • A car you should drive soon

**New comfort, quietness, and quality** Doors that open wider — easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in America due to Buick's high use of insulation and torque-tube drive. Buick's quality control program comes to a peak in the Turbine Drive Buick '60.

**New interior decor and convenience** An entirely new "Mirromagic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety option—the Twilight Sentinel\*—that turns headlights on automatically at sunset... off automatically at sunrise. All-new colors and fabrics. \*At slight extra cost.

**Outstanding performance with economy** 1. Buick's Exclusive Turbine Drive Transmission\* is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion. 2. Buick's Exclusive Air-Flo Aluminum Drum Brakes—found on no other American car. Fin-cooled drums front and rear for faster cooling. Fast cooling means safer stops, longer brake

life. Slotted wheels pass a current of air from under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 1/3 more tire life.) 3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (An optional new LeSabre Engine is designed to give Buick performance on regular grade fuel.) \*Optional on Invicta and Electra.

## AT BUICK DEALERS NOW... BUICK ESABRE THE LOWEST-PRICED BUICK BUICK INVICTA THE HIGH-PERFORMANCE BUICK BUICK ELECTRA THE FINEST BUICK OF ALL

History Of County Airport Reviewed

R. H. Weaver, who was county judge at the time the Howard County airport was initiated, spoke at the formal dedication exercises Tuesday at the field. He reviewed the history of all of the steps that have gone into the project since its inception.

WILD-EYED SPENDING

Mahon Warns Fiscal Policy Must Be Restored To Sanity

"This government ought not spend more than it collects in taxes."

Rep. George Mahon laid this down as his fiscal thesis in warning that the nation is facing a financial crisis.

next session if the government is going to be able to borrow."

He scored back-door financing, the type of spending where Congress simply says that money shall be taken from the public Treasury but makes no provision where the money will come from.

Congress actually cut under the President's budget estimate, but not by the two billion plus which was claimed. This is because some of the savings is represented

in 2-year appropriation when the President requested four years and it wouldn't be fair to claim all this as a savings, said Mahon.

If it takes another raise in postal rates to balance the Post Office Department, Mahon said he was in favor of it, but he wanted the increase to go on "junk mail."

He suggested that back-door spending could be choked off and sanity restored to the federal fiscal policy by requiring that every item of expense must go through the appropriations committee and that matching revenues be provided before appropriations are made.

"I hope that the American people will use a yardstick for the effectiveness of their representatives they stand on and how they deal with financial solvency in government," said Mahon. This problem is outranked only by moral decay and softness as a national peril, he said.

Unless it is met and solved, inflation will rob every individual in the country.

In charge are Bob Bright, Bill Draper and James Tidwell.

The schedule calls for assembly at the westernmost campsite on the north side of Moss Creek lake at 2 p.m. Saturday from 3 p.m. to 4 p.m. the Blackhawk Tribe will sponsor a fishing contest with feathery for little braves who catch a fish.

At 4 p.m. a big brave in full Indian regalia will tell a story. An hour later tribes will take hikes.

After the 6 p.m. supper there will be a council fire at 7 p.m. with those on the program in Indian regalia, doing dances, conducting fire lighting ceremonies, distributing honor feathers. Each tribe will present a stunt.

Sunday breakfast at 6:30 a.m. will be followed at 7:30 by an early morning worship. The group will disperse at 8 a.m. so boys and their fathers may attend Sun-School and Church.

Tommy Cole, deputy sheriff, is en route to Brenham, to take custody of Willie Nichols, 18, of that city. Nichols is wanted in Big Spring to answer felony theft charges which have been filed against him.

He proposed new schedule would be for \$10.50 per month for business phones and \$5.50 per month for straight line residential phones. The council received the request, but took no action.

Two minor accidents were reported in the city during the last 24 hours.

Billie Cadzow, and Evelyn Cook, 503 Vine, were in collision at Sycamore and Circle Dr. Gary Wiggins, 1501 Chickasaw, and Clyde E. Thomas Sr., 1603 Gregg, ran together in the 1700 block of Gregg.

No major damage or injuries were reported.

With the strike of 3,500 longshoremen closing down the Baltimore, Md., waterfront, these fifty or more ships lying in anchorage are likely to remain there for some time.

In normal periods, ships move in and out of the idle fleet as their steamship owners assign the vessels to handle any increase in shipping which might occur.

Mrs. Bradshaw, Pioneer, Dies

Mrs. Lizzie D. Bradshaw, 87, longtime resident of Big Spring and TXL Oil Corp. No. 1 TXL, Glasscock County wildcat, this morning, died here March 11, 1953.

She had been in ill health for the past two years and in care of a rest home. Her husband, Mr. L. M. Bradshaw, died here March 11, 1953.

Arrangements are pending at River Funeral Home.

Mrs. Bradshaw was born in East Texas on May 16, 1872 and she and Mr. Bradshaw came to Big Spring first in 1907 and lived here for many years. Later they moved to Midland where he was engaged as a builder, returning here in 1951 after his retirement.

Mrs. Bradshaw was a member, and an active one so long as health permitted, of the First Christian Church.

Surviving here are two sons, M. C. Bradshaw, Darby, Pa., and W. B. Bradshaw, Odessa; six daughters, Mrs. W. B. Sullivan and Fyrlie Bradshaw, both of Big Spring; Mrs. S. A. Waits, Roswell, N. M.; Mrs. H. J. Iron, Hobbs, N. M.; and Mrs. C. T. Bond, Eunice, N. M.; and Mrs. Al Strawn, Lovington, N. M.

She also leaves 13 grandchildren and six great-grandchildren; two brothers, Lee Dean, Mart, and Herman Dean, Riesel; one sister, Mrs. Richard Faulkner, Waco. Two daughters are deceased.

Glasscock Wildcat Showing Oil; Operator Is Swabbing

Operator reported swabbing and flowing new oil at the U. S. Smelting and TXL Oil Corp. No. 1 TXL, Glasscock County wildcat, this morning. The project flowed and swabbed 101 barrels of fluid in 11 hours. Eighty-three barrels were new oil.

In Howard County, Sabre No. 1 Quinn is preparing to drill out, perforate, treat and test. This wildcat location is bottomed in either the Grayburg or San Andres where operator will try to complete. The depth is 3,310 feet.

An outpost to the Post (Glorieta) field was staked this morning in Garza County. It will be drilled by

Sierra Corp. and is No. 1 S. M. Swinson, about 12 miles east of Post. Operator will try the formation at 3,050 feet.

Pan American No. 1 Snell, Martin County explorer in the Breedlove field, is drilling ahead. Two cores had no oil shows but lime bleeding gas was reported in the 33 foot section taken below 10,821 feet.

Westwater No. 1 Hughes is moving off the rig. The hole is bottomed at 8,376 feet. This wildcat is four miles south of Fluvanna and is C SW SW SE of section 408-97 H&TC survey.

Texaco No. 1 Johnson in the Breedlove field, is drilling ahead. Two cores had no oil shows but lime bleeding gas was reported in the 33 foot section taken below 10,821 feet.

Stallworth No. 1 Barkhurst is testing on the pump with no gauges. This Carter field location is 330 from south and east lines of section 7-33-3s, T&P survey.

Driver License Cases Pushed

Highway patrol officers arrested five drivers over the night for operating motor vehicles without proper licenses.

Each was fined \$1 and costs for the offense, which brought the per capita total to \$19.50.

One was also fined for having defective brakes on the car he was operating. This made his bill before the justice of peace \$41.

Another was fined \$1 and costs for not having the new safety flaps required by recently enacted laws on his vehicle.

Services were held at 11 a.m. today for Joseph Yanez, stillborn infant of Mr. and Mrs. Victor O. Yanez, of 309 NE. 10th St. The child was born last night.

Graveside rites were held at City Catholic Cemetery by Father Patrick Casey under direction of Nalley-Pickle Funeral Home.

Other survivors include five brothers, Margarito, Victor, Adam, Abraham and David; two sisters, Georgia and Yolanda; paternal grandmother, Mrs. Teresa Yanez; and maternal grandfather, Manuel O'zgue, all of Big Spring.

# SOX COMPEL ADDED RESPECT IN WIN

By ED WILKS

CHICAGO (AP)—It took three games, but the American League pennant winners—the Chicago White Sox everyone knows—finally showed up for the World Series at the Coliseum. And now that they're free of the snake pit that passed for a ballyard in Los Angeles, they're sure they can sweep the final two games in their own park and win the series.

Skiing Is Believing

It's still hard to believe that this sport and thoroughbred racing have joined forces for the benefit of spectators at Sunland Park, the nation's newest race track opening Friday just six miles from downtown El Paso in New Mexico. The water skiing will be done by Sharon Swift and Ray Esperson Jr., shown in this photo, plus their talented colleagues in the water ski troupe. The water show on Sunland Park's 80-acre infield lake will be center front before and between races at the \$3 million oval.

## LOOKING 'EM OVER

With Tommy Hart

Although he was named to Look Magazine's All-American baseball team (published in the most recent edition of that periodical), Cleveland's Minnie Mino is almost certain to be traded away by the Indians.

Architects for the new Country Club club house (Gary and Hohertz) say the price of the building is going to run closer to \$150,000 than \$120,000, the figure mentioned here previously.

That, apparently, would include the cost of kitchen equipment, air conditioning and heating.

Some of the operators in the Sophomore Baseball league have just about made up their minds that their people don't want pro baseball.

For that reason, the league is in some danger of folding, although Alpine and Odessa reportedly are ready to function again.

Hal Sayles, former president of the Longhorn League, has proposed to the Abilene school board that it build a park, then rent it out to the backers of a pro team there. The Midland franchise is up for the asking and obviously would be moved to Abilene.

Sayles says a park could be built adjacent to the new football stadium in Abilene for \$27,600, if the school made use of some of the seats in the old Fair Park stadium, which served as home of the Abilene Eagles for years.

Observers in the Corpus Christi area are referring to the present Corpus Ray football team as the greatest in the history of that school. That's the club which walloped San Angelo, 33-0, earlier this season and which plays Odessa Permian in Odessa this weekend.

The Snyder team which lost to Permian, 6-0, last week played under two handicaps it wasn't forced to endure against Big Spring a week earlier.

For one thing, it rained. Yes, it rained on Permian, too, but a fast team like Snyder can be hurt more by a wet field than one like Permian.

For another, the Bengals were performing without the services of John Weaver, who underwent surgery for a shoulder bone separation last week. Weaver scored two touchdowns against Big Spring.

The Nebraska Cornhuskers added insult to injury when they plastered a 22-12 football defeat on Minnesota recently.

When they returned home following the game, they took one of the top freshman players at Minnesota with them. The boy reportedly was unhappy at Minnesota.

A total of 3,963 paying customers turned out for the Big Spring-San Antonio Edison game here last month. When the Steers visited Snyder, they played before 4,558 who paid their way into the park.

Howard Westmoreland, a big back, Big Spring must stop Friday night if it hopes to win. He averaged 39.2 yards punting in six tries against Brownfield last week, although one boot netted only 13 yards because it rolled into the end zone.

Big Spring's punting against Sweetwater last weekend was much better than it was in the Longhorns' preceding games.

## Barbecued Chicken To Be Served To Forsan Alumni

FORSAN (SC) — Four girls are competing for the role of Football Sweetheart at Forsan High School.

The winner will be announced and crowned at half time of the Forsan - Water Valley game here Saturday night.

The four are Ella Beth Storey, Linda Camp, Cleta Newsom and Janet Gooch.

Mr. Buffalo, a player who most

## Sands Colts Play Dawson Thursday

ACKERLY (SC) — The Sand Consolidated School's junior high school gridder seek their second win in three starts here at 6 p.m. Thursday, at which time they host

In a makeup contest played Monday, the Colts — coached by Marlin Dodds — maulled Klondike at Ackerly, 48-0. The Sands team lost its opening game to Gail, 20-0.

Jesse Franklin, a seventh grader, scored on runs of 55, 20 and 12 yards against Klondike while Bobby Gaskins counted on dashes of 45, 25 and ten.

Franklin, Gaskins and quarterback Jerry Mabrey counted four extra points each for the Colts. Mabrey is also a seventh grader. Dodds had 13 players suited out for the game and all of them got into the contest.

## Sooners Choice To Trip Texas In A Big One

By HAROLD CLAASSEN

NEW YORK (AP)—There is no World Series in college football—just a serious world for alumni, players and coaches. But never for forecasters. They live in a world that is go-go-go.

Last week's efforts resulted in an average of .741. This week's offerings:

Louisiana State over Miami: Although the Bayou Tigers have held three opponents to a total of 3 points, the team hasn't yet displayed the smoothness expected of it. The home fans and the Chinese Bandits should pull LSU to victory over the revived Miami.

Northwestern over Minnesota: The Wildcats are due for a let-down after successive victories over Oklahoma and Iowa but half-back Ron Burton gives them the edge.

Tennessee over Georgia Tech: Two unbeaten Southern giants, Billy Majors and Bunny Orr to prevail over Maxie Baughan, ace of Tech's grudging line.

Oklahoma over Texas: The Sooners get revenge for the 15-14 setback of last year.

Mississippi over Vanderbilt: The Rebels haven't been scored on this year and Vandy still is hunting its first triumph.

Wisconsin over Purdue: Dale Hackbart to keep the Badgers on the Rose Bowl track.

Iowa over Michigan State: It is the Hawkeyes' homecoming.

South Carolina over North Carolina: The men of Warren Grease have been welded into a strong unbeaten defensive club.

Syracuse over Navy: They meet in the season's first bowl game, the Oyster Bowl at Norfolk, Va. Syracuse has everything, including a strong bench.

Auburn over Kentucky: Too much defense.

Southern Methodist over Missouri: It's about time for Don Meredith to bust loose with some more scoring passes.

Elsewhere: Penn State over Army, Florida over Rice, Air Force over Idaho, Arkansas over Baylor, Notre Dame over California.

Friday West Virginia over Boston University; The Citadel over Wofford, Wichita over George Washington, Oregon over San Jose State, Tulane over Detroit, Utah over Brigham Young.

Saturday East: Boston College over Villanova, Dartmouth over Brown, Franklin & Marshall over Washington & Lee, Harvard over Cornell, Holy Cross over Dayton, Pittsburgh over Duke, Pennsylvania over Princeton, Rutgers over Colgate, Yale over Columbia.

South: Alabama over Chattanooga, Clemson over North Carolina State, Georgia over Hardin-Simmons, Maryland over Wake Forest, Mississippi State over Arkansas State, Richmond over Davidson, Virginia Tech over Florida State, Virginia Military over Virginia, William & Mary over Furman.

Midwest: North Texas over Cincinnati, Indiana over Marquette, Colorado over Kansas State, Michigan over Oregon State, Nebraska over Kansas, Ohio State over Illinois, Oklahoma State over Tulsa, Iowa State over South Dakota.

Southwest: Texas A & M over Houston, Texas Christian over Texas Tech, Texas Western over West Texas State.

# TCU Seeks To Break A Scoring Drought

FORT WORTH (SC) — Where is the goal-line?

That's the problem facing TCU Coach Abe Martin and his Horned Frogs after the Purple suffered a second-straight shutout in the 3-0 loss to Arkansas in the Southwest Conference opener last Saturday at Fayetteville.

After opening the season with a 14-7 victory over Kansas, LSU dropped the Purples, 10-0, and then Arkansas shut the door on the Frogs. It was the first time since Martin took over the head coaching job in 1953 that one of his teams have not scored in two consecutive games.

"I really don't know what's wrong," said Martin. "But I don't think there is anything wrong with our offense. Little things here and there are keeping us from the touchdowns. We are going to find ourselves before long and when we do, I know everything will be all right."

Martin fired back at the critics who have put the "unimpressive" tag once again on the defending champions.

"We're running the same offense as most of the other teams," he reminded. "We're just not breaking, that's all. Our blocking needs to be a little sharper, and we still have to improve on our passing game. As for defense, this team is about as good a one here as we've had. I don't believe anyone is going to push our kids around."

Martin also felt his quarterbacks were showing some improvement with each game.

"We've been shooting for a balanced attack," he continued. "And Saturday against Arkansas, we ran our halfbacks 14 times each, our fullbacks 12 times and passed 12 times. I would say that's pretty balanced. Our ball handling beat us at Fayetteville. When you lose the ball eight times, and lose it four times at critical points, then you are going to lose. Arkansas got that long run (23-yard punt by Halback Darrell Williams) to set up the field goal."

"Arkansas has a fine team, and they hit us tough from the start. I left our kids though they could win with a strong last-half effort. They did roar back and fought hard, but we just couldn't seem to make it."

With the Parker game as history, Martin and staff began pointing towards meeting a third-straight unbeaten opponent—Texas Tech at Lubbock.

## Tough Trinity To Oppose NM State This Weekend

UNIVERSITY PARK, N. M. (SC)—The New Mexico State Aggies, winners of three of four games this season, turned their attention this week to the Saturday night clash in San Antonio, Tex., against a tough Trinity University eleven.

Coach Warren B. Woodson's charges came through better than expected last week as they downed McMurry College 43-11. The Aggies suffered no serious injuries and were expected to be a full strength against Trinity.

The Tigers, meanwhile, gave a fine account of themselves last week, losing to the nationally ranked Air Force Academy by a credible 27-6.

Woodson's offense this week will once again be spearheaded by its formidable twosome—Quarterback Charley Johnson, All-American nominee, and Pervis Atkins.

Against McMurry, Johnson threw three touchdown passes and Atkins scored three, two on runs and one on a pass from Johnson. End Bob Kelly and Wingback Doug Veazy were on the receiving end of the other Johnson TD aeriels.

Trinity will field the biggest line the Aggies have faced thus far. The Tiger forward wall averages well over 200 pounds per man.

It was not known if Bob Gathers, Aggie tailback who injured his ankle almost three weeks ago in the University of New Mexico game, would see action against the Tigers. Coach Woodson said he was holding the 205-pound, 5-10 speed merchant out of action pur-

## Chick Trout Wins San Antonio Duel

SAN ANTONIO (AP) — Chick Trout of Lubbock, the 1950 State Senior Golf champion, beat medalist Jim Hibberd of San Antonio, 1 up in 19 holes, in the opening round of the Texas State Senior Championship Tuesday.

Four former champions and last year's runner up advanced safely. Ed Tyr, Houston, whipped M. W. Reynolds, Dallas, 4 and 3, in a replay of the 1957 final, also won by Tyr.

K. D. Harrison, the 1945 winner from San Antonio, ousted A. T. Remington, Fort Worth, 3 and 2. Col. W. R. Stickman, San Antonio, the 1953 titleist, defeated Roy Cooper, Lubbock, 4 and 3.

H. R. Pipkin, Fort Worth, last year's runnerup, started off with a 4 and 3 conquest of L. R. Stone, Beaumont.

The defending champion, M. C. Kelly, Baytown, is not entered.

## Houston Golfers In Tucker Meet

HOUSTON, Tex. (AP)—University of Houston defending national collegiate golf champion, opens another season today. The Cougars will be in Albuquerque playing in the annual Tucker Intercollegiate Tournament.

Houston will be after its eighth consecutive victory.

The NCAA champions for the fourth straight year lose one member of the 1959 team. He is Bob Pratt, who was the NCAA medalist. Defending national champion Dick Crawford returns.

## Forsan Juniors Host Sterling

FORSAN (SC) — Junior high school football teams representing Forsan and Sterling City clash at 4 p.m. here Thursday.

In a previous meeting with Sterling, Forsan won in a most convincing manner, 46-0.

Probable starters for the Junior Buffs are Lester Duffer, center; Bobby Huestis, left guard; Mac Henderson, right guard; Dean Woodard, left end; Don Gooch, right end; Ken Soles, quarterback; Harry King, right half-back; and David Robertson, left half.

Among subs sure to see action for the Forsan team are Bruce Long and Walter Taylor.

The Junior Buffs visit Garden City the afternoon of Oct. 12 and meet Garden City in a return game in Forsan at 4 p.m. Oct. 22.

## Tenkiller Extends Ban On Fishing

OKLAHOMA CITY (AP)—There will be no commercial fishing on Lake Tenkiller for another year, the Oklahoma Wildlife Conservation Commission ruled Tuesday.

The commission continued for one year a ban on fishing with nets, seines and traps. The ban would have expired Oct. 13.

## Women's Traveling League Meets Here

The Women's West Texas Traveling Bowling League will use Bobby Layne's Bowlerama lanes Sunday for its regular monthly matches. Action starts at 1 p.m.

Competing teams are San Angelo, Midland, Lamesa, Abilene, Sweetwater and two local contingents — Bowlerama and Clover Bowl.

In action at Abilene last month, Clover Bowl won three games while dropping five. Bowlerama finished with a 2-6 record.

**Bike Ride For Blind Boy**

Dr. Frank E. Dudley of Westmont, N.J., an atomic scientist, met little ten-year-old Timothy Sundelius, a blind boy, at a carnival. He wanted to do something for the boy and learned the youngster loved to ride a bicycle but always had to have someone guide him. Dr. Dudley designed this bike ride, made up of a center post with long radial rods holding six bikes. Here Timothy, in center foreground, rides with five neighborhood youngsters.

## Lyndon Says U.S. Can Outdo Soviets

BONHAM, Tex. (AP) — Sen. Lyndon B. Johnson (D-Tex.) said today the United States can out-produce and outsell the Soviet Union and must "win for the sake of humanity."

"Nikita Khrushchev has taught us — if we needed the lesson — that the Communists are vigorous, able and dedicated to our destruction," Johnson told a joint service clubs meeting here.

"In the days that lie ahead, we must be equally vigorous, equally able and much more dedicated to the preservation of freedom."

The Senate majority leader visited here with fellow — Texan

Speaker Sam Rayburn. He praised Rayburn as "a real tower of strength" during the recent Congress.

Johnson talked at length about what he called "the challenge of our times," saying:

"We can outproduce the Soviets. We can outsell the Soviets. We can outdo them in all the field which freedom has staked out for its own — including the maintenance of our world position. This is the challenge that faces Americans in the decade that lies ahead."

Johnson called Soviet Premier Khrushchev "a remarkable visitor" who "is surrounded by men who are hard and ruthless — but they are not second-raters... it is clear that Khrushchev is not relying just upon aggression and subversion. He has introduced the concept of total war between freedom and Communism — war that involves every element of our society and of his."

The senior Texas senator urged the U. S. to start using human and psychological resources at their full potential, adding:

"We have yet to devise ways and means of opening up the gates of opportunity to all men and women who have something to contribute... we can mobilize our resources in the traditional American way — by consent and through cooperation. And there is no reason why we should be second to the Communists in any respect."

## Lyndon To Decide On Presidential Aims, Report Says

DALLAS (AP) — Sen. Lyndon Johnson (D-Tex.) will make up his mind within two weeks whether to seek the Democratic presidential nomination, the Dallas News said in a copyrighted story today.

The newspaper said Johnson will seek the nomination if a real "moderate movement" develops in the party.

Johnson believes he can go to the convention, if he should be a candidate for nomination, with more votes than any other contender, the News said.

"But he will have to be convinced that the people of his state and moderates of other states really want to battle the liberal element in the Democratic party."

Johnson has said numerous times he is not a candidate for president and does not intend to be one.

Speaker Sam Rayburn. He praised Rayburn as "a real tower of strength" during the recent Congress.

Johnson talked at length about what he called "the challenge of our times," saying:

"We can outproduce the Soviets. We can outsell the Soviets. We can outdo them in all the field which freedom has staked out for its own — including the maintenance of our world position. This is the challenge that faces Americans in the decade that lies ahead."

Johnson called Soviet Premier Khrushchev "a remarkable visitor" who "is surrounded by men who are hard and ruthless — but they are not second-raters... it is clear that Khrushchev is not relying just upon aggression and subversion. He has introduced the concept of total war between freedom and Communism — war that involves every element of our society and of his."

The senior Texas senator urged the U. S. to start using human and psychological resources at their full potential, adding:

"We have yet to devise ways and means of opening up the gates of opportunity to all men and women who have something to contribute... we can mobilize our resources in the traditional American way — by consent and through cooperation. And there is no reason why we should be second to the Communists in any respect."

## Moon War Is Possible

LOS ANGELES (AP)—A moon war is within the realm of possibility, says an aircraft engineer.

It could be touched off by rivalry between the United States and the Soviet Union in establishing nuclear missile bases on the moon. R. L. Johnson told the Society of Automotive Engineers Tuesday.

"But at least," he added, "the nuclear blasts would be on our satellite—not on earth."

Johnson directs missiles and space systems programs at Douglas Aircraft Co.

## Inquiry Near End

VIENTIANE, Laos (AP)—The U. N. fact-finding mission flew today to the royal capital of Luang Prabang to wind up its inquiry into Laotian charges that Communist North Viet Nam is aiding the Pathet Lao rebels.

## Ike Near End Of Vacation, Slates Return

PALM SPRINGS, Calif. (AP)—President Eisenhower, his vacation to spend a cold nearing an end, shakes his last full day in the Southern California sunshine today.

Early Thursday morning the President will head back to Washington by jet plane. He is scheduled to arrive in the capital in late afternoon.

Barring a sudden settlement of the 85-day-old steel strike, or definite evidence of progress toward a union-management agreement, Eisenhower may invoke the Taft-Hartley Act in that dispute shortly after his return.

In Los Angeles a group of striking steel workers announced plans to drive to the President's vacation retreat today to protest what they term "threatened use of the slave-labor Taft-Hartley injunction" provisions for a back-to-work court order.

Manuel Sierras, president of United Steelworkers Local 2058, said he would lead a motorcade of members and their families to Eisenhower's headquarters at nearby La Quinta, Calif.

Before leaving Washington a week ago today the President implied he would wait at least nine days—until his return—before deciding whether to seek an 80-day back-to-work court order under the Taft-Hartley national emergency provisions.

## Mexican Chief Brings Unusual News: No Aid, Friendly To U. S.

MEXICO CITY (AP) — President Adolfo Lopez Mateos is flying to Washington this week with unusual news — of a Latin-American nation economically sound and friendly to the United States.

The handsome 49-year-old Mexican chief executive is due in Washington Friday to return President Eisenhower's visit to Acapulco.

Although an experienced politician, a gifted speaker, a man with a charming personality and a ready smile, Lopez Mateos is shy. He won't try to match Soviet Premier Nikita Khrushchev's showmanship.

He will be able to talk of Mexico's improving business, its sound peso, and the internal quiet and peace of the nation.

Lopez Mateos took office last December. Since then, he has shaken up the government and Mexican living — drastically.

Some joke that a recent earthquake in the Isthmus of Tehuantepec was one of his jolts.

The President's father was a dental surgeon who died when Adolfo was less than a year old. His mother struggled to raise five children on a small insurance policy and help from relatives.

He was a scholarship student in a French school in Mexico City and at a high school in Toluca, capital of Mexico state. He played soccer and boxed and at one time was Mexico's feather-weight champion.

While attending college in Toluca, he sometimes walked 35 miles over 12,000-foot mountains to visit his mother in Mexico City on weekends.

He first got into politics on the campus with a Socialist group. He took his law degree and joined a prominent firm in the capital. He married a pretty teacher, Eva Samano, in 1940. Her grandfather was British.

He returned to his alma mater briefly in 1943 as director, or president.

His entry into politics came in 1945 when an old friend, Miguel Aleman, was nominated for the presidency and asked Lopez Mateos to be one of his top campaigners. Aleman was elected, and saw to it his friend was elected a senator.

During Aleman's regime Lopez Mateos represented Mexico at many international conferences. He became friendly with another fast-rising politician named Adolfo Ruiz Cortines and was his campaign manager in 1951. Elected president, Ruiz Cortines named Lopez Mateos secretary of labor.

He handled almost 63,000 labor

disputes and in six years solved all except 13, which developed into short strikes.

He lived quietly, drove his own car, had no guards at his home as did other Cabinet members. So when he was nominated by the dominant Party of Revolutionary Institutions — PRI — in 1958, he was not well known over the country.

He made up for this with an intensive campaign. It really wasn't necessary as the PRI has never lost a presidential election. But he wanted to let the people know him.

His election was a landslide. He reshaped the Cabinet, creating several new posts. He began his war on corruption in government. He slapped at monopolies. He began to enforce laws long ignored in the business field.

He selected men with qualifications for important offices instead of close friends.

When Guatemala strafed Mexican boats and killed three fishermen, he broke relations. Relations have been restored — on Mexican terms.

Communists incited a nationwide railway strike. When he saw the strike was wrecking the economy, he stepped in and broke it up.

Airline pilots struck, and he seized the airlines temporarily. He fired an unpopular state political leader, a powerful figure in the PRI.

He encourages foreign investments, but insists that Mexican capital participate 51 per cent in all major projects. He has taken steps to halt a once-dangerous inflation. Salaries are climbing. Living standards are improving.

## Farm Bureau Still Opposes Sheepmen's Deduction Plan

WASHINGTON (AP) — Sheepmen have voted to continue the program whereby deductions are made in their wool payments to pay for promotional work. But the American Farm Bureau Federation says it will intensify its opposition to the plan.

The Agriculture Department said wool and lamb producers voted by a wide margin to continue the plan under which they themselves finance advertising and other promotions for wool and lambs.

Although the results were preliminary figures from a referendum conducted by mail in September, it is expected there will be little change in the final tally to be announced late this month.

Preliminary figures showed that producers owning 16,744,406 sheep voted for and those owning 3,927,785 sheep voted against continuing the program. This was a favorable ratio of 81 per cent to 19 per cent.

On the basis of individual producer voting, it showed 70,272 producers voting for and 31,721 against, or a favorable ratio of 68.9 per cent to 31.1 per cent.

Approval requires a favorable vote by producers owning at least two-thirds of the sheep and lambs represented by votes in the referendum.

Charles B. Shuman, president of the Farm Bureau, said the vote by sheepmen to continue the deductions from incentive payments "marks not the end, but a new beginning in farm bureau's continuing struggle against competition in American agriculture."

"As a result of the vote it is expected Secretary of Agriculture Ezra Taft Benson will sign an agreement with the American Sheep Producers Council to continue the advertising and promotional work for another three years.

The agreement would continue deductions from wool payments made under the National Wool Act of 1954 for the 1959, 1960 and 1961 marketing years. Under the wool act, wool producers are given incentive payments from the government for the difference between the market price and the support price.

Shuman said the Farm Bureau pledges all its resources to a voluntary program to build markets and incomes for sheep and wool producers.

## Monsoon-Like Weather Ending

By The Associated Press

The monsoon-like weather that gripped the mid-continent the last several days appeared, for the most part, to have ended early today.

Some rain, however, fell from the lower Great Lakes eastward through Ohio and Pennsylvania into the New England states and along the western slopes of the Appalachians southward to the Gulf Coast area.

Some rain and snow fell in the Rockies.

Occasional rain will fall from the northern Great Lakes eastward to the North Atlantic Coast, from Florida up the East Coast and over the Pacific Northwest. Elsewhere, it will be mostly fair.

## Frail Youth Admits Killing Cat / Expert

HOUSTON (AP)—Gene Dixon, 19, frail and freckled, told police Tuesday night he killed Price Cross, 62, Dallas cat fancier.

Cross, a bachelor and federal employee, was president of the American Cat Fanciers Assn.

Cross' nude body was found in his Dallas home Monday, dead 24 to 36 hours.

Dixon was arrested in a theater. Dixon said he was acquainted with Cross. He said he beat and stabbed Cross to death, took a \$10 bill and a handful of change and drove back to Houston in Cross' car.

## GOP Ponders Squeeze Play

WASHINGTON (AP) — Republicans wondered today whether a political squeeze play is developing in New Hampshire that could affect the 1960 GOP presidential nomination contest.

Gov. Wesley Powell said Tuesday he is prepared to support Sen. Styles Bridges (R-NH) as a favorite son candidate. That came as a chilling news for supporters who have been trying to get New York Gov. Nelson A. Rockefeller into the state's presidential primary next March.

There is speculation that if the senator were to let his name go into the primary, there would be little room left for either Rockefeller or Vice President Richard M. Nixon to enter the contest.

Since Bridges is tabbed as an out-and-out Nixon supporter, a favorite son delegation could be expected to throw its support to the vice president at the July party convention.

On the other hand, Nixon's friends were obviously disappointed by Powell's fresh declaration at a news conference that he is maintaining neutrality between Nixon and Rockefeller.

Asked to evaluate their qualifications for the presidential nomination the governor said he regards them so far as equal.

Because Powell is a former protégé of and administrative assistant to Bridges, Nixon's backers had hoped the governor would be on their side.

But Powell may face a stiff fight for renomination and reelection next year. Some New Hampshire politicians thought his comment about Bridges might be a means of sidestepping a direct presidential stand now to await further developments.

# Here Tomorrow! A WONDERFUL NEW WORLD OF FORDS FOR 1960

In 1960, for the first time in history, your Ford Dealer presents not one, not two, but three new lines of Ford cars...

1. The 1960 Fords—The Finest Fords of a Lifetime, beautiful from any Point of View, worth more from every Point of Value!
2. The 1960 Falcon—The New-size Ford, the world's most experienced new car and the easiest car in the world to own!
3. The 1960 Thunderbird... The World's Most Wanted Car!

Introducing the New-Size Ford... the 1960 Ford *Falcon*

Meet the New-size Ford—the Falcon! Here's a car with plenty of room for six big adults and all their luggage. It's sized to handle and park like a "small" car... powered to pass and climb like a "big" car... and built like no other car for savings!

It gives you up to 30 miles per gallon on regular gas. Aluminized mufflers normally last twice as long as ordinary kinds. A Full-Flow oil filter lets you go 4,000 miles between oil changes. Even insurance can cost you less! And this Falcon is the world's most experienced new car. It was driven over every mile of numbered Federal Highway in EXPERIENCE RUN, U.S.A.—a grueling demonstration climaxing Ford's 5 years of development and testing.

The Falcon has the features that American car buyers expect. Its gearshift is on the steering column—not on the floor. Its engine is located up front for greater stability and safety. Best news of all is the Falcon's low, low price. See it at your Ford Dealer's... and see the difference!

# 300 Scouters Will Visit Scout Camp

Plans are complete for entertaining 300 members of the Buffalo Trail Boy Scout Council on Saturday at the Scout Ranch in the Davis Mountains.

The occasion is the annual council meeting for election of officers and the 12th annual fellowship barbecue. Officers to be elected are president, four vice presidents, treasurer, assistant treasurer and commissioner.

The nominating committee is composed of Dr. W. A. Hunt, Big Spring; G. E. Thompson, Kermit, and Emmett Beauchamp, Pecos.

Barbecue will be served from 5:00 p.m. to 6:30 p.m. The election and business session will be at 7 p.m. followed by a brief campfire program featuring a ceremony "The Clock and the Boy."

In addition to council members,

all interested Scouters and their families are invited.

## Life Under Glass Plan Of Architect

UNIVERSITY PARK, Pa. (AP)—Life under glass is being designed by Architect A. William Hajjar.

He proposes putting transparent glass shells all around office buildings, apartments or homes whose own walls would be made mainly of glass.

The separate glass shell is a logical step offering striking advantages in design and house-keeping, says Hajjar, a professor of architecture at the Pennsylvania State University.

A. WILLIAM HAJJAR  
Glass is becoming a main building material for offices, and even a few homes, going beyond large picture windows.

"But these glass buildings now have to have shields and eyebrows and various projections hung on the outside to cut down glare or provide shade. These destroy the clean line—the very effect you wanted from using all that glass," Hajjar explains.

"The outside glass shell would

## Ex-Students Of Tech Plan Annual Dinner

Thursday noon is the deadline for obtaining reservations for the Texas Tech Ex-Students Assn. annual dinner, to be held at the Sands Restaurant, 7 p.m., Thursday. Ducats are \$2 per person, according to President Ralph McLaughlin.

McLaughlin is handling reservations and he said persons who have not made reservations may do so by calling AM 4-5159 or AM 4-4606. Speaker for the annual dinner will be Jim Lindsey, editor of the Midland newspaper. He will be introduced by Douglas Orme.

## Civic Theater Has Workshop Meeting

The first meeting of the workshop group within the Big Spring Civic Theatre will meet Thursday in the Prairie Playhouse at 7:30 p.m. Mary Archer, who has been appointed to plan the workshop program, called the meeting this morning.

About 15 signed up for the program at the last regular meeting of the BSCT. Other interested persons are invited to attend the meeting.

## MEN IN SERVICE

PVT. THOMAS E. ROBERTS

Pvt. Thomas E. Roberts recently returned home after completing basic training at Ford Ord, Calif. With his wife, the former Frances Lee Earp of Big Spring, he left Monday for Ft. Belvoir, Va., to attend the oxygen-acetylene plant operations course. He is a graduate of Big Spring High School (in 1956) and attended Howard County Junior College where he was a laboratory supervisor. At evenings he worked at the Westward Ho Motel. He also attended the University of Texas and the University of New Mexico before entering service. He is the son of Mr. and Mrs. L. P. Kuykendall.

## Voters Place OK On Park Proposal

DALLAS (AP)—A 94 million dollar revenue bond issue for the construction of a major league baseball stadium in the Dallas-Fort Worth area was approved by a 2 to 1 margin by Dallas and Tarrant County voters Tuesday.

Incomplete returns from the 337 boxes in the bi-county area showed 15,088 voters favoring the proposal and 8,250 opposed.

Dallas County voted 6,625 to 3,232 in favor of the measure while in Tarrant County the issue carried 8,363 to 4,978.

The 45,000-seat stadium to be located in the Arlington-Grand Prairie area would not be started unless a major league franchise is obtained. The bonds would be repaid from revenues from the stadium.

## Tour State Hospital

Big Spring State Hospital's chaplain supervisor, the Rev. Marvin A. Berkeland, center, shows two important visitors the facilities during a Monday visit. Left is the Rev. Armen Jojorian, chairman of the Southwest Regional Accreditation Committee for the Council on Clinical Training Inc., and right is the Rev. Gerald Walcutt, regional representative of the council.

## AT STATE HOSPITAL

# Clinical Training For Pastors Is Stepped Up

Big Spring is stepping up its program to provide clinical training for ministers.

Eight ministers have received training here in two three-month sessions this year under the Rev. Marvin A. Berkeland, chaplain supervisor.

Full accreditation was expected for the program soon, following a visit yesterday by the Rev. Gerald Walcutt, chaplain supervisor at San Antonio State Hospital and a

regional supervisor of the Council for Clinical Training, Inc., New York City; and the Rev. Armen Jojorian, chairman of the southwest regional accreditation committee of the council.

After accreditation by the council some five ministers in every class are expected to train for a year at the hospital.

There are only 60 institutions accredited by the council in the country.

Most ministers take the training following graduation and ordination, said the Rev. Mr. Jojorian.

He and Dr. Preston Harrison, hospital superintendent, said the ministers become part of the clinical team treating patients.

Dr. Harrison said that many times the pastors could "reach" patients when scientific attempts failed.

Both spoke of the need for representation by religion in guiding patients toward a complete life.

The Rev. Mr. Jojorian also said the presence of ministers often influenced others working with patients to take a more kindly outlook, and to be more sensitive to the patients' needs.

## Rev. Wayne Perry At Coahoma Church

The Rev. Wayne Perry is the new pastor at the Coahoma Baptist Church, taking over his new duties this week. He came to Coahoma from Sudan where he has been minister of the First Baptist Church for several years.

The Rev. and Mrs. Perry have one son, Charles, who is a graduate of Hardin-Simmons University and is now residing at Lubbock. Mrs. Perry is the former Jewel Bartlett of Lubbock.

The Rev. Perry received his degree from Wayland College and completed seminary work at H-SU. Prior to his service at Sudan, he held pastorates at Fieldton, Whitherral, Lawn and other small churches near Lubbock.

REV. WAYNE PERRY

## New Law About Trailers Calls For Action At Once

Mrs. Viola Robinson, county tax assessor-collector predicts that there will be a lot of frustrated trailer owners next February and March when re-registration of motor vehicles is due. By the terms of a new law, trailers over 4,000 pounds will have to have certificates of title for the first time. Titles can be

obtained now while there is still time to meet certain requirements regarding proof of ownership and serial numbers. February and March will be a very poor time for handling this new requirement.

## Life Savings Gone

MEXICO CITY (AP)—Josefa Morales Moreno, 70, told police all her life's savings of 9,700 pesos (\$776) were stolen by a young nephew while she left her house to make some purchases. She returned to find a closet where she had hidden the money in disorder and the cash gone.

## Three WAFB Employees Get New Diplomas

Three civilian employees at Webb earned diplomas from the Air University recently, all having completed specialized courses of study through the USAF Extension Institute, Montgomery, Ala.

They were Luther B. McDaniel, who took the budget officer course; and Mrs. Geraldine F. Daniels and Dene Sheppard, who both finished the basic clerical course.

McDaniel is assigned as a position classifier in the civilian personnel office. He served a hitch with the Army, and before coming to Webb four years ago worked for 18 months at the VA Hospital in Big Spring.

A lifelong native of Big Spring, McDaniel lives at 1503 Cherokee. He studied at Howard County Junior College before earning his BA degree at North Texas State College in Denton.

Mrs. Daniels has been working at the petroleum section of the maintenance and supply group for the past two years. She came to Webb last April and was with the group technical order section before taking over her present job. A graduate of Lamesa High School, Mrs. Daniels attended Howard County Junior College. Her home is at 1105 Mesa Ave.

Secretary of the commander of air base group, Mrs. Sheppard began her civil service career four years ago at Webb. She has been living at Big Spring for eight years. Her husband, Billy, works with the Cosden Petroleum Corporation.

## Courtesy Visit

MEXICO CITY (AP)—Foreign Minister Ignacio Luis Arcaaya of Venezuela arrived Tuesday night on a courtesy visit during which he will renew an invitation for President Adolfo Lopez Mateos to visit his country.

## Train Jumps Track

LIVINGSTON, Tex. (AP)—Part of a Southern Pacific freight train jumped the track and a gasoline tank car caught fire today.

Ten to 12 cars went off the rails in the pileup 5 miles south of here in East Texas. No injuries were reported.

Highway patrolmen stood by to keep spectators at a safe distance in event of an explosion. Officers said a second car of gasoline and one containing naphtha also were derailed.

PITTSBURGH (AP)—The Rev. Howard Fenstermaker's new church was nearing completion and the pastor was helping workers or the chimney Tuesday night. Suddenly, a thunderstorm struck the area. As pastor Fenstermaker was climbing down from the chimney, a bolt of lightning hit him. He was dead on arrival at a hospital.

### Good-Food Way to Fight Constipation!

Perhaps it has never occurred to you that a wholesome cereal food can be more effective than habit-forming drugs in dealing with the problem of irregularity caused by lack of bulk in your daily diet.

You can correct this condition simply by eating a small amount of Kellogg's All-Bran every day. Bran is nature's best bulk-forming food and just a half-cup of Kellogg's All-Bran with milk gives you the bulk needed for safe, natural regularity.

Millions stay on schedule this appetizing good-food way. Try Kellogg's All-Bran for 10 days and see if it doesn't work for you, too.

## Laughing At The World, He Spends Time Smiling, Smelling

MERIDIAN, Calif. (AP)—John Greenleaf lives under an abandoned bridge here smiling at his flowers and laughing at taxes.

His only possessions are his cabin which he built of materials from a nearby dump, a garden with 60 varieties of flowers, 40 albums of phonograph records and a radio-phonograph.

He sits there, admiring a bouquet of sunflowers, munching wild mulberries and laughing at the radio commentators talking about the high cost of living.

In 1940, after touring the country as a farm laborer, he couldn't find a job so he built his cabin. He lived mostly on wild nuts, pears, berries, figs and fish until World War II brought plentiful part-time jobs.

He saved his money, and now at 60 years of age has retired. Besides flowers and music, he spends his time watching visiting beaver, fox, deer and skunks.

Worry-Free

John Greenleaf spends his time smelling his flowers and laughing at other people's high cost of living.

## Woman Feels Relieved After Holdup Arrest

CLEVELAND (AP)—"Thank God it's over. I'm so tired of waiting."

That summed up the feeling of Alma Helen Stevens, 26, object of a nationwide search as the woman accomplice of a man who killed himself in a bizarre but futile bank holdup here two weeks ago.

She was arrested by two patrolmen Tuesday night in an East Side rooming house on a tip that a man and a woman were having a loud argument and disturbing other occupants.

Mrs. Stevens told detectives she was forced to remain in Cleveland since the day of the robbery attempt because she was broke. The first two days she slept under a bridge, not more than a mile from where the getaway car was abandoned near East 105th St. and Euclid Ave. Mrs. Stevens said she lived in the rooming house with a 39-year-old man since the third day of her flight.

"I saw my picture on TV once and I was afraid to go out of the house," she told detectives.

Mrs. Stevens had sped from a Cleveland Trust Co. branch on Lorain Ave. Sept. 23 in a getaway car. She had been waiting for William Ansley, 30, formerly of Indianapolis, who was trapped inside the bank by 200 law enforcement officers who poured tear gas into the building through windows. Ansley killed himself during the one-hour siege.

Ansley and Mrs. Stevens had driven to the bank after an early morning stop at the home of the bank manager, Herbert Fox. There they tied up Fox's wife and two daughters. A phony bomb was left ticking in the house. The family was able to escape from their bonds and alert police.

## British Politicians Speed Up Efforts As Election Day Nears

By DENNIS NEED LONDON (AP)—Britain's political parties made lightning election-day canvasses today in a final desperate effort to carry the country's huge bloc of uncommitted voters.

### Warm Audience Welcomes Graham

INDIANAPOLIS (AP)—A non-capacity but warm audience welcomed evangelist Billy Graham to Indiana Tuesday night and he said he was satisfied with the reception.

About 2,000 of the 12,000 seats were empty in the Indiana State Fairgrounds Coliseum but Graham said the turnout compared favorably with that in London five years ago—the only other time he started his crusade in midweek.

An estimated 175 persons made "decisions for Christ" at the close of the service and walked to the altar while a 2,000-voice choir sang "Just As I Am."

### Birth Control Gets Church Okay

GENEVA (AP)—Planned parenthood got a boost Tuesday as a committee of the World Council of Churches strongly endorsed all methods of birth control to stem the worldwide population explosion.

The recommendation by the 22-member committee of churchmen, doctors and sociologists was in direct contradiction to the teaching of the Roman Catholic Church.

## Pilot Of Doomed Airliner Had Radioed About Trouble

FORT WORTH, Tex. (AP)—The pilot of a Braniff airliner radioed that his craft was having "mechanical difficulty" only four minutes before the plane exploded and crashed near Buffalo Sept. 29, killing 34 persons.

The Fort Worth Star-Telegram said Tuesday the possible distress call was not reported earlier, because the pilot reported the difficulty to Braniff Airways in Dallas over a company radio frequency instead of those for messages between the Federal Aviation Administration communications stations and planes.

Shortly after the accident Braniff officials said the pilot of the plane made "a routine report" minutes before the explosion but they did not indicate that any mechanical trouble was involved.

The FAA tape records all messages between planes in the air and its ground communications stations but does not monitor broadcasts between airline and airliner offices.

The Civil Aeronautics Board impounded Braniff's records immediately after the crash.

John E. Cyrocki, CAB crash investigation chief, said the impounded Braniff records will not be made public until a public hearing is held Oct. 21 in Buffalo to determine the cause of the crash.

## HERE NOW ARE SIXTY'S SIZZLERS 16 SUPERLATIVE NEW CHEVROLETS FOR 1960!

Nearest to perfection a low-priced car ever came!

**4 IMPALAS**—Nowhere else in the low-price field will you find luxury like this. These fresh, fashionable Impalas—most elegant of all the superlative '60 Chevrolets—are all the car you ever yearned for. Each embodies distinctive treatment inside and out, with triple-unit rear lights, fingertip door releases and safety-reflector armrests. Besides the Impala sport sedan above, there are a convertible, sport coupe and 4-door sedan.

**4 BEL AIRS**—Sumptuous as these Bel Airs are to behold, they're priced just above Chevy's thriftiest models. And, like all Chevis, they give you a choice of two of the thriftiest engines going as standard equipment—the famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while giving you more "git" at normal speeds. Besides the 4-door Bel Air sedan above, there are a 2-door sedan, sport sedan and sport coupe.

**3 BISCAYNES**—These (though you'd never know to look at them) are the lowest priced of the superlative '60 Chevrolets. They bring you the same basic beauty and relaxing roominess as the other models. And, like all Chevis, they ride on cradle-soft Full Coil suspension, isolate from road shock and noise by thicker, newly designed body mounts. Along with the 4-door Biscayne sedan above, you have your choice of a 2-door and a utility sedan.

**5 STATION WAGONS**—These Chevy wagons are stunningly styled to carry you away. And they've got the kind of cargo space (over 10 ft. from the back of the front seat to the tip of the tailgate) to carry away most anything you want to take with you. Besides that thrifty 2-door Brookwood above, you have your choice of a 4-door Brookwood, 4-door Parkwood, 9-passenger Kingswood and the nifty Nomad.

Top entertainment—The Dinah Shore Chevy Show—Sundays NBC-TV—Pat Boone Chevy Showroom—Weekly ABC-TV—Red Skelton Chevy Special Friday, October 9, CBS-TV.

Toss It Out!

Don't let piles of junk accumulate in attics or basements. An accidentally dropped cigarette or electrical short nearby could ignite the papers, clothing and paint, and the fire could be out of control before it was noticed.

## Don't Gamble With Fire; You'll Lose

AP Newsfeatures  
"Clean that attic  
And the yard  
Stopping fires  
Isn't hard."  
This simple rhyme written by a fifth grader in a fire prevention contest shows his awareness of the causes and dangers of fires. Unfortunately, too few Americans take his lead. Last year fires killed more than 11,000 persons in the United States

INVITING TROUBLE  
Heater near drapery

ELECTRICAL HAZARD  
An overloaded outlet

—one every 47 minutes — and caused more than one billion dollars property damage. Ninety per cent of the fires could have been prevented.

Fire Prevention Week (Oct. 4-10) is an ideal time to school yourself on ways to avert fire.

Be alert to the causes of fire and inspect your home regularly.

**LIGHTNING CAUSES**  
One-fourth of all fires are started by careless use of matches or smoking; 15 per cent by the misuse of electricity. Nature's greatest fire starter—lightning — accounts for 9 per cent.

During the winter season your home is more vulnerable than usual for fire. Defective heating units cause 8 per cent of home fires and overheated chimneys and flues account for another 4 per cent. Have them checked before they're put in use.

Never overwork a heater or furnace that's giving insufficient heat. Keep a metal screen in front of a burning fireplace and use care in handling hot ashes. Always deposit ashes in a metal container with cover. Keep wood, coal and flammable liquids away from the furnace, and the furnace room free of trash. Dispose of all trash regularly.

**HEATERS DANGEROUS**

Great care should be taken in using portable heaters—they can be very dangerous. They should always be level and in a spot where there is no danger of tripping over them. Be cautious in filling oil or kerosene heaters and wipe off any spillage immediately. Never fill a heater when it is hot or in use.

Gas heaters should be vented to the outdoors unless specifically approved for unvented use. Oil and gas heaters use up oxygen when they burn, so the room should always be ventilated when one is in use. Don't use an electric heater in the bathroom where water increases the shock hazard.

Keep all heaters a safe distance from bedding, clothing, furniture and other combustibles. Be careful in wearing robes or

dresses with flowing sleeves—they are a hazard, especially for elderly people. Painful, often fatal, burns sometimes occur when a person wearing such sleeves reaches across an open burner.

**DON'T INVITE TROUBLE**  
Don't invite trouble by overloading electrical circuits.

Be certain fuses are of the right amperage—a proper fuse is a "safety valve."

When you need to repair or extend wiring, call a competent electrician. Buy only electric appliances and cords listed by Underwriters' Laboratories, Inc. Don't run wires under rugs, over hooks, or in a place where they may be subject to wear or mechanical damage.

Consult an electrician when you replace a large appliance—it may require more current than your present wiring can carry.

**TIPS FOR CHRISTMAS**  
At Christmas time, keep the tree

outdoors until ready to set it up. While it is outdoors, occasionally throw water over it to keep it moist and fresh.

When you bring the tree into the house cut the bottom of the trunk diagonally and put water with sugar in it into the hollow part of the stand that holds the tree.

Never place a tree near the fireplace, stove, television set, radiator or electric bulbs. Use non-flammable decorations of glass or metal and "fireproof" snow in decorating the Christmas tree.

**Sickness Watched**

ALBANY, N. Y. (AP)—State police are watching highways along New York's borders to prevent entry of horses with sleeping sickness. Shippers must present health certificates from states of origin. An outbreak of sleeping sickness in New Jersey has resulted in deaths of 19 persons.

### If Fire Strikes

More than one-third of 11,000 persons killed by fire last year were children under 14 years of age. Many would have been saved had they been taught what to do in case of fire.

Here are four simple rules to teach your children, and heed yourself if fire ever strikes:

- Get out of the house.
- Call the fire department.
- Never try to put out a fire yourself, unless it's your own clothing.
- Never go back into a burning building for any reason.

### Seaton Urges Helium Saving

CHICAGO (AP)—Secretary of Interior Fred Seaton said today the United States must conserve its limited supplies of helium, the gas found only in relatively sparse quantities.

No important new sources of helium have been discovered since 1953, Seaton said, although the demand for it in the atomic energy and missile program has been climbing rapidly.

He told the convention of the American Gas Assn. that most of the nation's helium now goes to market with commercial produced natural gas and is lost in the atmosphere.

The helium conservation program which the Eisenhower ad-

ministration has proposed to Congress to remedy this situation calls for construction of up to 12 new extraction plants to be located on helium bearing pipelines," Seaton said. "After extraction, the helium would be stored underground in the government-owned cliffside gas field near Amarillo."

"Under the proposed legislation, private industry would be given an opportunity to participate in the program by financing, building and operating the plants."

### 5,000th Ship

MASSENA, N. Y. (AP)—The 5,000th ship was passed through the St. Lawrence Seaway, which opened April 25. It was the Seaway Queen, which headed through for Sept 12, Que., Tuesday.

DEAR ABBY

# DON'T BE FOOLED

By ABIGAIL VAN BUREN

DEAR ABBY: I am going with a man who has been rooming with an old maid for 8 or 9 years. There has been quite a lot of gossip about Joe and her. When I ask Joe about her, he gets red in the face and very angry. Then he says she is ten years older than him and there is nothing between them.

I called him once and this old maid cross-examined me like I was on the witness stand. Then she told me not to call him any more. When I asked Joe about this she said, "Don't pay any attention to her — she's crazy!" I'd like Joe for myself. Do you think there is anything between them?

DEAR SUSPICIOUS: If there is nothing between them there ought to be. A wall! Unless Joe was kidnapped, he is rooming with this woman by choice. Don't let him bamboozle you.

DEAR ABBY: After being married for 32 years, my husband still has ME trouble. Everything is MINE and ME and never OURS.

He says, "I am going to put me in a dishwasher."

I asked if he expected to start doing the dishes. And he said, "No, you are!" So how come, I would like to know, does he figure it is HIS dishwasher?

He says, "My car, MY house and MY business." I drive the car, I keep the house and help in the business. I get so mad at him I could explode. I have stomach trouble and the doctor says I should stay calm. So how can I stay calm? Is there a

cure for him, or should I put up with it? **READY TO EXPLODE**

DEAR READY: A person who must take full credit for everything is suffering from an inferiority complex. Let him have his Me's and Mine's, because if you continue to aggravate yourself, it will be YOUR ulcer.

DEAR ABBY: My sister-in-law is a wonderful seamstress. She told me to get some material and she would make me some dresses. I went out and got the material. I would hate to tell you how long ago it was. Every time I go over to her house she has another excuse for not getting to it. If I didn't think it would cause hard feelings I would ask her for my material back. How can I get her to start on my dresses or give me back my material already?

**BURNED UP**  
DEAR BURNED: Tell her that you want the dresses for a special occasion on a certain date. Then go to her house and offer to help her with her housework while she sews. Do her ironing (or some other helpful chore) while she sews for you.

**CONFIDENTIAL** TO "ETHICAL PHYSICIAN": Doctor, collect my fee while the patient aeths, for then thou art a god. If he recovers, thou art a thief. If he dies, thou art a murderer. (anonymous.)

To get ABBY's pamphlet, "What Every Teen-ager Wants to Know," send 25 cents and a large, self-addressed, stamped envelope to the Big Spring Herald.

## Capital Tongues Floor Tourists

By EDMOND LE BRETON  
WASHINGTON (AP)—"I sure shook those tourists up this morning," said the handsome young policeman across the street from the White House.

Washington police treat tourists fine, so explanations were in order.

These tourists, it seems, were Japanese.

"They were really interested and asked a long question, but their accent was so heavy I only got the general meaning," the policeman went on.

Well, how did he shake them up?

"I answered in Japanese."

A Japanese-speaking policeman in Washington — this one learned the language in the Army — isn't really much more of a curiosity than, say, a baby-delivering policeman elsewhere. After all, the Washington downtown scene normally includes strollers clad in kimonos, saris, turbans or a variety of resplendent uniforms.

A French visitor who wanted to

see an exhibit in one of the government buildings was stopped by the Negro guard, who explained the department was closed on Saturday afternoons. The visitor went away, remarking audibly in his own language that something was lacking in American hospitality.

But he turned quickly when he heard, in flawless Parisian French, "Perhaps, monsieur, an exception could be made."

It was the guard. He made the exception with a flourish and a conducted tour — in French.

Washington's various police and guard forces — Metropolitan, Capitol, White House, Park and others — are federal agencies which recruit from all parts of the country. The system brings in not only an occasional linguist, but all the regional accents and, besides, a real friendliness toward people from the hinterlands.

## Daily Average Oil Production Drops

TULSA (AP)—Sizeable declines in Oklahoma and Texas helped drop daily average oil production by 21,340 barrels to 6,852,000 barrels last week, the Oil and Gas Journal said today.

The usual end-of-the-month drop in Oklahoma was 32,800 barrels to 485,200 barrels. Reflecting an October production schedule slightly lower than the previous month, Texas' output fell 14,200 barrels to 2,485,600 barrels.

Louisiana's 21,700-barrel increase to 1,019,450 barrels was the week's best gain.

The Journal estimated 1959 production at 1,948,028,270 barrels compared to 1,823,049,440 barrels a year ago.

Advances were in New Mexico, 1,590 to 222,400, and Arkansas, 1,200 to 47,700.

## Film Man Opposes 'Adults Only' Tag

HOLLYWOOD (AP)—Eric Johnston, president of the Motion Picture Assn. of America, says he is opposed to classifying films for adults only. If it involves censorship, he's against it, he said.

The question arose, he said, because of the trend toward "more mature" plots.

"But believe me," he told a news conference, "the change in subject matter is not confined to motion pictures. Plays and books have also experienced a trend toward more adult subjects."

## Transactions Up

MEXICO CITY (AP)—Stock market officials report after a period of scarce activity, transactions last week ran to 99 million pesos (\$7,920,000).

**SAN ANTONIO, Tex. (AP)** — The commanding general of the 46th Armored Division, Maj. Gen. Clayton P. Kerr of Dallas, has been appointed assistant chief of the National Guard Bureau. Army Secretary Wilber M. Brucker announced the appointment at a National Guard Assn. luncheon here.

## 'Finest Hour' Was Nearly Correct

**By CYNTHIA LOWRY**  
AP Movie-TV Writer

NEW YORK (AP)—The full and official name of NBC's series of Tuesday night specials is "Star-time-TV's Finest Hour." And the first show Tuesday night, "The Wonderful World of Entertainment," came close to making good that boast.

A lot of talented people produced an ambitious, fast-moving and obviously expensive musical show. The general idea was to take a quick look at Broadway, Hollywood, radio and TV from 1927 to the present. It provided a good hook on which to hang pleasant and familiar music, a little satire, a lot of comedy, and even a series bit from the play, "Picnic."

Rosalind Russell was the energetic hostess, and wore some fabulous clothes. She participated in a funny burlesque of her own old movies—the ones in which she played the high-collared lady executive who in the final clinch threw away her career for love.

Ernie Kovacs was positively great as the lover.

In the song department there were Kate Smith and Polly Bergen roving happily among the hits of three decades, from "Why Was I Born?" to "God Bless America." Maurice Chevalier, singing, dancing, and waxing sentimental, made his own special contribution while Jack Paar turned up again as a comedian—a good one, too—instead of a television host.

The dancing was interesting, particularly one good-humored ballet that told the stirring story of the cowpoke who cleaned up Laredo, turned in his sheriff's badge and swore off killing. This came during a bow to the 1920 movie cowboys, Tom Mix, Hoot Gibson and William S. Hart, but it would have been even more apt when TV was getting its share of the show's attention.

There was more, much more, and all of it bright, tasteful entertainment. It was a fine beginning for the series and seemed a positive tour de force amid this season's claptrap.

If the rest of these "Star-time" specials are as good as the first one, it bodes ill for ABC's "Philip Marlow" series, which premiered Tuesday night at the same time. I had a preview of the first show and found it a well-paced, entertaining half-hour show, infinitely superior to most of the soggy, overlong crime shows cluttering up prime viewing time.

Philip Carey fits neatly the fiction character made famous by Raymond Chandler and there was actually a plot, complete with puzzle.

Ed Sullivan sure fields the hot ones: He has signed Larry Byden, who drew raves in "What Makes Sammy Run?" for two appearances on his show, the first next Sunday night. The survey people not only want to know what you're looking at on TV, but what you're chewing while viewing. Chances are, according to a 50-state check, it's potato chips. After that comes candy, fruit, cookies, nuts and cereals. Not me, surveyists, I'm chewing my nails.

### Smaller Spirits

**SAN FRANCISCO (AP)** — High costs soon will lead to Americans buying their hard liquor in 6ths, 12ths and 20ths instead of 5ths, pints and half pints, says Lewis S. Rosenstiel, president of Schenley Industries, Inc. He told interviewers that smaller containers are the only answer to increased taxes and rising costs.

## This Year's 'Pollyanna' Good Kid, Not Sickening

**By BOB THOMAS**  
AP Movie-TV Writer

**HOLLYWOOD (AP)**—Is the 1959 Pollyanna a quiet, mousey little girl who is too good to be true? No, she is a pleasant teen-ager who is so normal she likes Elvis Presley.

I learned this upon getting acquainted with Hayley Mills, 13, talented daughter of British star John Mills and authoress Mary Hayley-Bell. The girl has the best star-making role for a youngster since the Shirley Temple heyday. Hayley plays "Pollyanna" in the

new Walt Disney version of the Eleanor H. Porter classic. But she isn't the same Pollyanna as portrayed by Mary Pickford a prior generation.

"Oh, no," said pretty young Hayley. "Our Pollyanna isn't the same as in the book. She was too sickeningly sweet. If you met any girl like that today, you'd want to kick her in the pants."

"This girl sees the nicer side of life, but she's a real girl, too. She can stick out her tongue when she is angry. She is much more believable."

Hayley is a real girl, too.

Though barely in her teens and attending ballet school in England, she showed a knowing interest in rock 'n' roll.

"I'm very fond of Elvis Presley," she commented. "I like Kookie, too, and I'm crazy about Fabian."

Her beginning in films was strictly an accident. A British director came to the Mills farm in Surrey to sell Hayley's father on a role in "Tiger Bay." He met the girl and decided she was perfect to play the role of an orphan who witnesses a murder.

Both Millses did the film and Hayley earned an award from the Berlin Film Festival for her performance. Though she played a lying mix in the film, she caught the eye of Disney as the girl he needed for Pollyanna.

## Noted Art Expert Dies

**FLORENCE, Italy (AP)** — Bernard Berenson, 94, the world's leading authority on Italian Renaissance art, died today.

An American and a graduate of Harvard University, he left Boston shortly after graduation and had lived in Italy for 73 years.

Later in life he said he still considered Boston his home. He will-d his beautiful 40-room Villa I Tatti, just outside Florence, and its superb collection of art treasures, to Harvard for use as a center for scholars abroad.

Some of America's greatest art

collections are monuments to Berenson's scholarship and taste. He began his career as art buyer for Mrs. Jack Gardner of Boston, assembling the nucleus of the Fenway Court collections she left as a museum.

But his biggest influence came as chief adviser to the late Lord Duveen, the dealer who assembled most, big private American collections before World War II. In the process Berenson amassed a comfortable fortune for himself.

Berenson also produced a succession of books on Renaissance art which are considered classics in the field. Among the most famous are his first, "Venetian Painters of the Renaissance," published in 1894, and "Drawings of the Florentine Painters."
