Narrow Escape

State Trooper Gene Meier, who witnessed the avalanche that thundered down the mountainside near Franconia Notch, N.H., looks for his patrol car trapped in debris from a washout. Meier escaped the avalanche, then the road collapsed under his car and he barely climbed out to safety.

Reds Say Moon Photos Herald Planet Pictures

MOSCOW (AP) — The Soviet Union boasted today that Lunik III's history-making transmission of pictures of the hidden side of the moon heralds photographic surveys of the planets beyond. Tass, the official Soviet news agency, said the successful operation of the space vehicle and its picture-taking apparatus "opens up broad prospects for studying the planets beyond."

ing visible features. They called a 180-mile wide depression north of the lunar equator "The Sea of Moscow." A bay in the southern part of the depression was named "The Bay of Astronauts." A team of Soviet scientists also tagged six other landmarks. Scientists from many countries participated in naming the so-called seas, mountains and craters located on the moon's side facing the earth.

venient way and to obtain information from any section of the orbit within the limits of radio visibility from the observation posts on earth. To carry out this photographic assignment, the flying laboratory was equipped "with a system of orientation and photo television apparatus with special equipment for automatically processing the film."

Seven Annexations Due Hearing Today

Seven annexation proposals will be before the Big Spring City Commission, meeting in regular session today at City Hall. Bruce Dunn, director of public works, prepared the agenda which includes the various annexation tracts.

Lockhart Addition and Wason Place No. 2, along the Old San Angelo Highway; the Cedar Ridge Addition, south of FM 700 and west of Birdwell Lane; a section of College Park Estates, along East Highway 80; and the area south of FM 700, west of U. S. 87 and east of the Country Club. The commission will call public hearings on each of the annexation proposals.

Demo Dinner May Steer Solid South

LITTLE ROCK, Ark. (AP)—A Democratic party dinner here Friday could bring bids of Southern support for Missouri's Sen. Stuart Symington or Sen. Lyndon Johnson of Texas for the party's presidential nomination.

Johnson won't attend, but speaker Sam Rayburn, an avowed Johnson backer, will share the speaker's platform with Symington. Joining them will be Gov. Orval Faubus of Arkansas, often mentioned as a prospective third party candidate.

Industrialist Freed In Unionist's Death

NEWBURGH, N. Y. (AP)—An Orange County court jury today acquitted Malcolm R. White, 49, an industrialist, accused of first-degree murder in shooting a union organizer.

The jury of seven men and five women had received the case Monday. Unable to reach a verdict after nine hours of deliberation, the jury was locked up overnight.

Flynn Protege Brings Up A New Will

NEW YORK (AP)—An unsigned, unwitnessed document proclaiming Beverly Aadland, 17-year-old protegee of the late Errol Flynn, "one-third owner" of the actor's estate in Jamaica has turned up.

The document, which Miss Aadland says was written by her and dictated by Flynn 10 months ago in Havana, was filed Monday in surrogate court by Justin Golenbock, Flynn's attorney and executor.

Golenbock last week filed a will signed by Flynn in 1954, long before he knew the blonde teen-ager, leaving the bulk of his estate to his widow, actress Patrice Wymore, with bequests to his parents and his children.

The swashbuckling movie star's estate is valued at more than \$100,000 and estimated as high as a million dollars, including a 60,000-acre copra plantation in Jamaica.

The latest document, written on stationery of the Hotel Nacional, Havana, also provides for any child that Miss Aadland might have by Flynn.

Golenbock's law partner, Donald S. Shack, said the document was filed for information only and had no real bearing on the actor's will.

Informed in Inglewood, Calif., that the paper was unsigned, Miss Aadland snapped, "That's ridiculous. I saw Errol sign it."

Her attorney, Melvin Bell, said in San Francisco that the document is a valid will.

Miss Aadland, who was with Flynn when he died of a heart attack Oct. 14 in Vancouver, B.C., said: "Errol dictated that document to me the day before he left to join Castro. Errol told me what to write and I wrote it. He signed his signature, as I remember it, in the middle of the page."

Court Sets Ruling On T-H Injunction

COSTS GOING UP? Strike-Ending Kaiser Pact Leaves Question Of Prices

By G. MILTON KELLY WASHINGTON (AP) — The strike-ending pact signed by the Kaiser Steel Corp. and the United Steelworkers Union left uncertain today whether steel price increases by the company may follow later.

Dramatically breaking the steel industry's united front, Kaiser made its own lone wolf peace with the union Monday, the 104th day of the walkout. The signing could prove to be the big break in the costly industry-wide strike.

Kaiser hopes to be producing steel again at its Fontana, Calif., plant in about five days. Some 500 of its workers were called back to their jobs Monday night and nearly 1,200 others were due back today.

The Kaiser firm—ninth largest in the industry—and the union called the settlement noninflammatory. They said the agreement was "designed to work for the best interests of management, the employees and the public."

Neither the company nor the union gave an overall dollar estimate on what the settlement would cost Kaiser. But some sources said privately it probably would amount to 3 1/2 million dollars over the life of the new contract which will be in effect for 20 months—until June 30, 1961.

The pact provides new fringe benefits amounting to 10 cents an hour per worker starting Nov. 1. These include more liberal insurance, pension and supplemental unemployment benefits. Work rule changes will be settled later.

In the second year, there will be a 7 cents an hour pay raise wrapped into benefits guessed at 1 1/2 cents an hour for the company's 7,500 to 8,500 workers.

Steel companies in the past have used increased labor costs as an argument for boosting steel prices.

Edgar F. Kaiser, board chairman of Kaiser Steel, was asked by newsmen about possible price increases after he signed the new agreement with David J. McDonald, the union's president.

Kaiser refrained from any flat statement that his company would not increase its prices to help pay for the workers' increased benefits.

"I wouldn't say anything would be done in the near future," he said. Asked to elaborate, he added the agreement "could be made to work without a price boost if everybody does his part."

Sen. Estes Kefauver (D-Tenn.), chairman of the Senate Antitrust and Consumer Affairs subcommittee, said Monday night he will talk with Kaiser whether to start a probe of the steel industry.

Kefauver had said last week he was trying to learn whether the facts warranted a probe into reports that the Kaiser firm had been subjected to pressure not to break the solid negotiating front of the 12 big steel producers involved in the strike.

"What happens in the next two days," Kefauver said, "will determine whether I call the committee together for an investigation."

TO COMMITTEE The Kaiser-USA negotiators passed to a company-union-public committee the thorny problem of considering work rule changes which had been probably the major issue in the strike.

Kaiser officials declined to say what Kaiser workers made before the strike began. The industry-wide average was \$3.11 an hour.

Union committees resumed talks in Pittsburgh this morning with 12 steel companies. Similar meetings with other firms also were scheduled again in various parts of the country.

Companies participating in the Pittsburgh sessions were U.S. Steel, Bethlehem Steel, Republic Steel & Laughlin, Inland, Youngstown Sheet & Tube, Armco, Allegheny Ludlum, Great Lakes, Colorado Fuel & Iron, Wheeling and Pittsburgh Steel.

Top-level talks between the union and the industry's regular four-man bargaining team have been recessed. R. Conrad Cooper, chief industry negotiator and vice president of U.S. Steel Corp., said no further meetings are scheduled.

Called Off Top-level talks had been scheduled Monday in Pittsburgh but were called off after Steelworkers president David J. McDonald went to Washington to meet with Kaiser officials.

No matter what the three-judge panel rules today, the union or the government is expected to appeal to the Supreme Court. This could bring another delay in execution of the injunction.

In 16 previous cases the government has been able to stop strikes by using injunctions but the constitutionality of the injunction provision never has gone before the Supreme Court.

The Steelworkers appeal against the injunction marks only the second time the constitutionality of the law has been challenged. The union unsuccessfully appealed an injunction in January 1953, enjoining its members from striking at the American Locomotive Co. plant in Dunkirk, N.Y.

Steel Front Broken By Kaiser Pact

PHILADELPHIA (AP)—The record 105-day steel strike, its obstinateness cracked slightly by a Kaiser Steel Corp. agreement with the United Steelworkers, headed for another showdown today in federal court.

The U.S. 3rd Circuit Court of appeals will announce at 4 p. m. whether the 500,000 striking steelworkers must return to work for 80 days under a Taft-Hartley injunction or may continue their strike.

The ruling, however, will not be released until about 4:45 p. m. because appellate courts here usually wait until after the country's stock markets close to hand down decisions which affect stock prices.

Meanwhile, 7,500 Kaiser employees returned to work at plants in California under a new agreement which will be in force until June 30, 1961.

Kaiser, the nation's ninth biggest producer, pierced the industry's solid front Monday night by signing a separate peace with the union after nearly five hours of behind-the-scenes negotiations in Washington.

But the other 11 big companies said Kaiser's defection would not affect their determination to resist what they termed an inflationary settlement.

The new contract calls for an added 10 cents in fringe benefits for the first year and 1 1/2 cents more the second year, including a 7-cents-an-hour pay boost. Company officials declined to say what Kaiser workers made before the strike began. The industry-wide average was \$3.11 an hour.

Union committees resumed talks in Pittsburgh this morning with 12 steel companies. Similar meetings with other firms also were scheduled again in various parts of the country.

No Indictment In Fatal Knife Case

A Howard County Grand Jury Monday declined to return an indictment against Alexander Cevallos, charged with murder in the death of knife wounds after an altercation on last Sept. 27.

The grand jurors, who wound up their work in one fast day's effort, did return 15 other indictments, however. They reported to Judge Charlie Sullivan late Monday afternoon, clearing up their assignment in record time.

Hovey Moore and Don Wallace, charged jointly in a forgery complaint, were indicted. They allegedly forged a check for \$42.50 and attempted to cash it at a local store.

Junior Morris Fowler, accused of stealing a Buick from Paul Price on June 23, was billed for theft over \$50.

Harry B. Johnson, accused of forgery and passing, was indicted for forging a check for \$25 which he passed at the Piggy Wiggy store.

Freighter Stranded Aground

The 7,229-ton Liberty ship Lipari is aground on a sandbar along the Washington coast some 15 miles south of the entrance to Grays Harbor near Grayland, Wash. Spectators and cars are on the beach. Some people have waded within about 25 feet of the vessel.

BODY OF GERMAN RELIGIOUS FANATIC FOUND 'CRUCIFIED'

FRANKFURT, Germany (AP)—George Krausert wanted to die like Christ. He didn't, but friends made it appear that he did. The body of the slight, 64-year-old shoemaker was discovered Monday by two women customers, nailed to a wall of his suburban shop by a hand and feet. His right hand was nailed to the wall above his head and his feet nailed to a board on the floor, said one of the women, Mrs. H. Fleischmann. "There was a lot of blood and foam around his mouth."

Suspect Admits Fleeing Charge

NORTH ADAMS, Mass. (AP)—Rodney Austin, 44-year-old ex-convict, pleaded guilty to a fugitive from justice charge today, waived extradition and started back to Maine to face charges of abduction and rape of a 14-year-old baby sitter. Needing a haircut, but clean shaven, Austin wore the same clothes as when he was captured Monday on the Mohawk Trail in the town of Florida. Maine authorities charge him with abducting and raping Sharon Simmons who was baby-sitting in a Damariscotta, Maine, home Oct. 17.

STRIKE BREAKING

The union has appealed on the basis that "the extraordinary power of an injunction is being used in this instance to break a legal strike." It claims that there are enough steel plants operating to provide output for defense, health and safety purposes.

McDonald has said that his union would abide by court decisions. If the court orders the steelworkers back to their jobs, there are strong indications that they would strike again after the 80-day period.

Leaves Prison

Paul N. Dwyer, right, walks to freedom from the Maine State Prison at Thomaston, Maine. Dwyer entered prison Dec. 3, 1937 as an 18-year-old, convicted of the murder of Dr. James G. Littlefield. Holding door is Harlan Sylvester, a prison guard, and behind Dwyer is John J. Shea, a parole officer who was to drive Dwyer to Norway, Maine.

U.S. Steel Slates Its Earnings Report

NEW YORK (AP)—The nation's biggest steel maker, United States Steel Corp., today tells the world how much money it is losing as a result of the steel strike. Several other companies, completely shut down by the strike, have reported huge losses. Some smaller companies, not shut down by the strike, have reaped sharply higher profits.

This is the regular date for U.S. Steel directors to meet and issue the third quarter earnings report. It will be announced shortly after the New York Stock Exchange closes.

For all but two weeks in the third quarter, the company's steel plants were completely shut down. It is remotely possible, but highly unlikely, that the loss on steel was made up by income from cement operations or investments.

Salaries, taxes, depreciation, all sorts of costs go on even when steel plants aren't operating. The results in the third quarter this year will contract with a net income of \$74,922,924 in the same period last year.

The last time U.S. Steel had a net loss during a three-month period was in the third quarter of 1938. Its loss in that recession period was \$5,547,790.

The largest loss for any quarter came in the great depression. It was \$20,871,709 in the third quarter of 1932.

Despite the dismal third quarter, the company should show a profit for the first nine months. It enjoyed the best initial six months in its history prior to the steel strike, partly because consumers were building up steel inventories.

Net income for the six months ended June 30 amounted to \$254,948,496, equal to \$4.50 a share. Earnings represented a return of 10 per cent on sales of \$2,526,311,390.

Third quarter results reported by some other steel companies graphically illustrate the strike effects. Companies completely shut down were hit by big losses, those partly shut down had earnings

Congress Seeks Asian Aid Data

WASHINGTON (AP)—A Senate Foreign Relations subcommittee is trying to force the administration to give it confidential reports on foreign aid to South Viet Nam. The subcommittee has a new law, passed by the last session of Congress, to back up its demand.

Congress wrote this into the foreign aid money bill. It provides that money for economic aid would be shut off within 35 days for any country or project on which the International Cooperation Administration withholds information from Congress, unless the President personally forbids the disclosure.

In that case, the President would have to certify that he had forbidden disclosure and give his reasons.

Sen. Mike Mansfield (D-Mont.), who heads the subcommittee that has been looking into foreign aid operations in the Asian country, confirmed Monday night that he has invoked the new law.

Mansfield said that two weeks ago he wrote Leonard J. Saccio, acting director of ICA, asking again for ICA's own evaluation of the work in South Viet Nam.

Mansfield said Saccio replied a week later that he would give the request further consideration. If Saccio refuses to give the subcommittee this information, Mansfield said, it would be up to President Eisenhower to act to prevent the halting of funds to South Viet Nam—or explain why the information was withheld.

The subcommittee's hearings on South Viet Nam grew out of a series of Scripps-Howard newspaper articles that said the foreign aid program in that country amounted to a scandal.

Storm Warning

MEXICO CITY (AP)—The Weather Bureau issued a warning Monday for shipping along the coasts of the Western states and Nayarit and Colima to take precautions. A storm in that area was about 125 miles southeast of Manzanillo.

Paralyzed Man Executed For Cop's Murder

WETHERSFIELD, Conn. (AP)—The violent life of Frank Wojciewicz came to an end Monday night as he sat paralyzed, an invalid, in the electric chair.

For seven years he had lain in state prison, awaiting execution for the slaying of two men in a robbery in which he himself was shot in the spine. His appeals failed.

He was pushed into the death chamber in a wheelchair. Four guards lifted his wasted body and strapped him to the death chair which had been specially modified because his legs could not bend.

Electricity coursed through Wojciewicz for about two minutes. Then his body was taken away.

Thus ended the life of a 41-year-old man who was a juvenile delinquent at 10 and later a robber, thief, bootlegger, attempted rapist—and killer.

The crime that brought his execution was the slaying of Police Sgt. Walter Grabeck and a bystander, William Otipka, in a New Britain packing house robbery in 1951.

A police bullet injured his spine. He never recovered. He was convicted in 1952 as he lay in court on a hospital cot.

He based several appeals on the ground that his injury had left him in such a mental condition that he was not equipped to cooperate with counsel and get a fair trial. He said he had not received adequate medical care.

The state countered by saying his condition was of his own making and the crime was not committed while he was ill.

He argued his own case in the State Supreme Court of Errors. His appearances were marked by sharp outbursts.

But he said nothing as he entered the death chamber.

He had made no requests for a special last meal. He did not invite witnesses to the execution, as was his right. He saw his mother, a brother and a sister a few hours before his death.

Three years ago his wife, who gave birth a week after he was shot, filed and won a suit for divorce. She received custody of their two children, a boy and girl now 13 and 8 years of age, respectively.

U.S. To Continue Wool Promotion

WASHINGTON (AP)—The Agriculture Department said Monday it will continue a wool and lamb promotion campaign financed by checkoff deductions from government payments to sheep producers.

The campaign, started in 1955, was reapproved by producers in a recent mail referendum by 68.91 per cent of those voting.

Payments are made to producers under an incentive production program.

Policy Continues For Mexican Peons

TOLUCA, Mex. (AP)—President Adolfo Lopez Mateos promised the nation's peasants Monday his administration will continue obtaining land for them by expropriating big estates.

The chief executive spoke at the inauguration of the National Agrarian Congress to 400 delegates and thousands of rural people crowding the local stadium.

Lopez Mateos said there will be no slowdown in the agrarian policy.

Grand Jury Hears Motherwell Case

DOWNIEVILLE, Calif. (AP)—Sierra County's grand jury is to decide today whether Larry Lord Motherwell should stand trial for the death of his elderly and well-to-do traveling companion, Pearl Putney.

Only four minor witnesses remain to be called before the 12 men and 6 women hearing Dist. Atty. Gordon I. Smith's plea for a murder indictment.

Monday 16 persons told the jury in closed hearing what they knew of Motherwell's associations with the 72-year-old Washington, D.C., matron and of their cross-country trip.

Her remains were found 18 miles east of here in forested county last Aug. 16. The last time she was seen alive was Aug. 15, 1958, in Marysville, south of here, where she and Motherwell, 43, registered in a motel as Dr. and Mrs. Motherwell.

The husky, jut-jawed, itinerant construction worker was invited to testify but declined. He denies any responsibility for Mrs. Putney's death.

Smith called relatives of Mrs. Putney, state special agents, county officials, a bank teller from Florida and a postal inspector from Las Vegas, Nev., before the jury.

But first he and Motherwell drove 35 miles to Sieraville where a preliminary hearing was continued until next Monday.

Smith even held an impromptu

lineup in the sheriff's office so a witness, Western Union employe Janis Hampton, could try to identify Motherwell.

Smith said Mrs. Hampton picked Motherwell out of a group that also included three other prisoners and Sidney Jones, a state special agent who was also a witness.

In earlier investigations, Mrs. Hampton said Motherwell gave her a telegram on Aug. 16, 1958, at the San Francisco Airport. It was addressed to Mrs. Putney's half-brother, Castro M. Dabrohua. The wire said Mrs. Putney was going to Mexico to be married.

Dabrohua, a Chicago advertising executive, and his wife, Norrie, also testified.

Smith said Jones interrogated Motherwell last January in Las Vegas and that Motherwell three times changed his story of leaving Mrs. Putney.

Another state agent, Kev Horton, related that Motherwell, on Aug. 19, 1958, deposited \$2,000 in a Washington bank and paid off \$2,000 he owed on an automobile, Smith said.

The prosecutor said Thomas H. Healt, Sarasota, Fla., told the jury the dead woman withdrew \$13,000 from the Palmer First National Bank there in July 1958. She left on her motor trip with Motherwell from Washington, D.C., on June 30, 1958, reportedly owning securities and bank accounts worth \$50,000.

Ex-Chief Pleads Guilty To Charge

McKINNEY (AP)—Former McKinney police chief Jack Pike pleaded guilty Monday to taking less than \$50 in confiscated liquor while police chief. The district court dismissed four cases of felony theft against him.

Pike was to appear before County Judge Don Davis today to pay a \$200 fine. He had been indicted on two counts of tire and tube theft and two counts of illegally appropriating confiscated liquor.

To End Marriage

SANTA MONICA, Calif. (AP)—Joan Perry Cohn Karl, widow of Columbia Pictures president Harry Cohn, wants to end her brief marriage to shoe chain owner Harry Karl.

Karl was twice married to actress Marie (The Body) McDonald. He married Mrs. Cohn Sept. 1 in Chicago. They separated 23 days later.

Her divorce suit, filed Monday, charged extreme cruelty and alleged Karl caused her grievous mental suffering. Each is 45.

Texas Gets First Chill

By The Associated Press
Near-freezing temperatures nipped the Texas Panhandle early Tuesday. It was as much as 40 degrees warmer on the Texas coast.

A dry norther bustled southward across the state Monday, reaching the Gulf of Mexico before daybreak Tuesday.

Temperatures varied from a brisk 33 degrees at Dalhart to 73 at Brownsville before the sun rose.

A few showers lingered on the lower Texas coast and skies were cloudy throughout the state's coastal plains early Tuesday. Clouds diminished to the north and it was clear throughout North and West Texas.

Forecasts promised continued cool weather Tuesday in Northwest and Southwest Texas, and somewhat chillier temperatures Tuesday night in other sections of the state with readings from 45 to 50.

DEAR ABBY

BODY AND SOUL

By ABIGAIL VAN BUREN

DEAR ABBY: I got myself a husband who is the greatest Commandment breaker since Judas. Name the Commandment and he's broke it. He lies all the time. If he told me the house was on fire, I wouldn't move until I saw the flame.

Now here is the part that you will never believe. Where do you think he spends all his time? In church!

This has been going on for a long time. How long is it supposed to take before the preacher's message starts to show results?

DEAR ABBY: You can't complain too much about a husband who spends all his spare time in church. A person who lies continually could be mentally ill. He appears to be doing all he can for his soul. Why don't you get him to a physician and have his physical and mental condition checked?

DEAR ABBY: I hope you will find this worthy enough to print in your column. It is meant for every woman who is trying to forgive an unfaithful husband.

I lived with an unfaithful husband. I had to do without many things because of his expenses. Words cannot describe the tears I've shed over him. I was young then, and I thought I would die because I couldn't bear the pain. But you can bear it. For I am writing these words 22 years later. I kept my home together and raised my children who are all grown and married and highly respected in their own communities. I thank God I didn't drag my trouble through the divorce court. This hurts children and solves nothing.

This took plenty of understanding, patience and prayer. So let me tell you women who are fighting this kind of battle, keep your eye on the future and live right. Lavish love on your home and children. Be kind and patient with

your husband. And one day they will rise up and call you blessed. And you will be happy because in your heart you will know that you did the right thing.

STOOD THE TEST DEAR ABBY: I have nothing but problems. My husband is the kind who lets everybody walk all over him. Especially his relatives. They borrow money from him and forget to pay it back. Whenever they need an extra pair of hands they call him and he runs to help them.

Our son is also a big fool. He lets his wife's family run him. They take so much advantage of him it isn't even funny. But he never complains. He has a sweet smile for everybody. He's crazy. Just like his father.

I worry so much about my poor husband and my son. I wish I knew some way to help them.

FULL OF PROBLEMS DEAR FULL: I have some wonderful news for you! YOU have no problems. If your husband doesn't mind helping his relatives without thanks, appreciation or repayment, don't let it worry you.

If your son is happy, you should be happy, too. Some people enjoy being walked over, stepped on and used. Don't take the pleasure out of it for them.

CONFIDENTIAL TO "CHOIR BOY": You'll never win her telling ME how wonderful she is. Sing it in her ear, boy!

What's your problem? For a personal reply write to ABBY, care of The Big Spring Herald. Enclosed a stamped, self-addressed envelope.

2 U. S. Moons Fall Into Earth Air, Burn Up

WASHINGTON (AP)—Two U.S. satellites, Explorer IV and Discoverer VI, disappeared from the skies last week. Tracking scientists said both artificial moons burned up upon re-entering the earth's atmosphere.

Explorer IV had been aloft for a year and three months, Discoverer VI for two months. Their demise left in orbit six U. S. satellites, three of them actively broadcasting information to the earth, and two Soviet voyagers, both still transmitting.

In addition, two artificial planets, the Soviet Lunik I and the U.S. Pioneer IV, launched early this year are still in orbit around the sun.

The loss of the two satellites became known Monday when reports from the tracking agencies reached headquarters. Their ends had been predicted at about this time.

Explorer IV, a tube 80 inches long and weighing 38.43 pounds, was launched from Cape Canaveral, Fla., July 26, 1958. It confirmed the existence of deadly radiation bands first discovered by Explorer III. It fell from the low point of its orbit, 178 miles above the earth, last Thursday.

Discoverer VI, weighing 700 pounds, was launched from Vandenberg Air Force Base, Calif., Aug. 19. It was designed to eject a 300-pound capsule more than 24 hours after launching for recovery by airplanes waiting to catch it as parachutes lowered it toward the Pacific. However, the capsule was ejected at the wrong time and there was no recovery.

McGee Escapes Death, Gets Commutation After 11 Years

AUSTIN (AP)—Richard W. McGee, 35, sentenced to die for killing a Lubbock businessman, has received a commutation to life in prison.

Gov. Price Daniel and the State Pardons Board acted Monday at a special hearing before the board Oct. 15, the family urged commutation on grounds McGee is insane.

Daniel and the board decided that a convicted murderer who may be medically insane but legally sane should not be executed.

Board Chairman Jack Ross told the family at the hearing that if the sentence was commuted, McGee would be eligible for parole after earning credit for 15 years, in prison. He could accomplish this under special circumstances in 7 1/2 years, Ross said.

McGee's mother, Mrs. H. S. Stull, said "he has always been insane and always will be." Other relatives said they never wanted him released.

McGee was scheduled to die Oct. 29 for the fatal shooting of R. L. Allison July 7, 1948. Allison was shot at the back door of his home after an argument over McGee's determination to marry Allison's teen-age daughter, Betty Jane.

The daughter, now Mrs. Donald Cox of Amarillo, and the widow, Mrs. J. B. Mulky, said in letters to the board they feared McGee would carry out death threats he made against them if he should ever be paroled.

McGee's death sentence was approved by the Court of Criminal Appeals, which later ordered a special sanity hearing for him. The hearing started in Midland but was declared a mistrial when a juror became ill.

An El Paso jury found him insane Nov. 22, 1951, and he was sent to the state mental hospital at Rusk. After eight years of treatment, officials early this year said McGee was well enough to leave the hospital.

A Lubbock jury found him sane last month and the pending death penalty was invoked.

The board said its decision was based on testimony of medical authorities reflecting that McGee had been mentally ill for many years prior to the murder and is still considered medically insane.

Asst. Warden Joe Byrd and a chaplain told McGee, now graying, of the commutation at the state prison in Huntsville.

"At first I was startled," McGee said. "I am extremely jubilant and am grateful to the board for delivering me."

"I feel the commutation of sentence is more just than if the state had permitted me to die in the electric chair."

Prison authorities moved McGee from death row to the east cell block of the main prison unit. They said a series of classification tests will decide his work assignment.

"When all this happened in the beginning," McGee said, "I was a very sick man, and I was not responsible for what I was doing. It took me six and one-half years to realize I was mentally ill. Now I believe I am mentally well."

More Witnesses In Drowning Case

ABILENE (AP)—More witnesses were called today in the trial of Mrs. Yvonne Crocker, 22, charged with drowning her 19-month-old son in a bathtub Sept. 2.

Mrs. Crocker pleaded guilty to murder without malice but innocent to a charge of murder with malice.

Dist. Atty. Wiley Caffey waived the death penalty.

The state read a statement by Mrs. Crocker in which she said: "I took both their heads and held them under water until they stopped kicking."

Neighbors revived Merle Lynn Redding, 4, but were unable to save the baby, James Cliff Crocker.

Officers previously quoted Mrs. Crocker as saying the drowning followed quarrels with her estranged husband over the children.

Granted Loan WASHINGTON (AP)—Lyntegar Electric Cooperative of Taboka, Tex., has been granted a \$1,382,000 loan by the Rural Electrification Administration to expand its rural power system to serve 1,373 new customers.

Water Storage

MEXICO CITY (AP)—Orange growers of Nuevo Leon have asked the government to build a water storage dam they say will quadruple present production. The Water Resources Ministry said today the growers have offered to help pay for the dam on the Pilon River. The state's orange crop is worth about 22 million dollars a year.

17 Escape As Liner Crashes

SANTA MARIA, Calif. (AP)—An airliner with one engine aflame crashed moments after taking off from Santa Maria Airport Monday night. The co-pilot was killed but 17 passengers escaped serious injury.

The twin-engine plane skirted oil derricks as it lost altitude over oil fields and farm lands. It crashed through a high tension line and broke in two on a road near a farm house.

The wreck, miraculously, didn't burn. The worst injury among the passengers was a fractured collarbone.

Co-pilot Joseph Flanagan, 31, of Mountain View, Calif., was thrown 80 feet from the wreck, still strapped in his seat.

Pilot Charles W. Craig, 42, of San Mateo, Calif., suffered serious head injuries. Purser Donald Robesky, 31, San Mateo, was hurt slightly.

A passenger, Philip French, of Paso Robles, Calif., said the left engine burst into flames shortly after the plane lifted from the runway.

"The pilot did a superb job of avoiding hitting the oil derricks," said French.

The Pacific Air Lines plane was on a flight from Los Angeles to San Francisco via several smaller California cities.

Flames Are Fatal

SAN ANTONIO (AP)—Mrs. Fay Dean, 35, died today in flames sweeping her garage apartment on San Antonio's south side before dawn.

Daily Average Oil Production Rises TULSA, Okla. (AP)— National daily average production of crude oil and condensate increased 19,450 barrels to 6,889,620 barrels in the week ended Oct. 24, an Oil & Gas Journal survey showed today. The output represented a gain of 57,530 barrels over the average early in October. Oklahoma production rose 17,500 barrels to 534,200 and Kansas gained 9,500 to 332,500. Texas output was unchanged at 2,485,600 barrels.

Tearful Reunion

Brothers Robert Storie, 16, left, and Kenneth, 13, both wept when Kenneth was found after spending the night in the wild Tillamook Burn area near Timber, Ore. Kenneth was cold but unharmed by the ordeal. More than 100 persons joined in the search for the boy, who became lost while deer hunting with his father.

Kennedy Pals Urge Gauntlet To Gov. Brown

WASHINGTON (AP) — Some friends reportedly are urging Sen. John F. Kennedy (D-Mass.) to challenge Gov. Edmund G. Brown in the California primary in an effort to nail down the 1960 Democratic presidential nomination. Brown has told all of the party's presidential hopefuls in unmistakable language to stay out of California's June 7 presidential primary. He has said he wants to head a unified delegation as a favorite son.

California law would bind the 81-vote delegation to the primary winner until two-thirds of the state delegates decided to change. Brown has left open his own availability for top place on the ticket.

There is a growing belief among Kennedy's friends that Brown feels that if his party wants a Roman Catholic as its No. 1 nominee it ought to take a look at him as well as at the Massachusetts senator.

Among Kennedy's friends in California there is also the feeling that Brown would not be invincible if the senator should decide to make an all-out campaign in the primary.

Some of these supporters believe Kennedy may be faced with the necessity of making some such bold move if he is to go into the July convention in Los Angeles with a lead which would make it difficult for opponents to put together a stop-Kennedy movement.

Kennedy already is studying the possibility of challenging Gov. Michael V. DeSalle's favorite son, even if he won primaries in states like New Hampshire, Ohio, Wisconsin, Nebraska and Oregon he wouldn't have the 756 votes needed for the nomination.

Their theory is that he needs to crack open the big state lineup that could be formed against him if California, Pennsylvania and New York all held out and the South stayed largely with Sen. Lyndon B. Johnson (D-Tex.).

He is engaged in selling his capital assets on an installment basis," he said. "There is a tendency to regard depletion only as a tax deduction not available to others, rather than a tax recognition of a special problem not faced by others."

Ask Report MEXICO CITY (AP)—The Foreign Office said Monday it has asked Mexico's consul general in Guatemala, Raul Michel, to send a report on the capture of three Mexican fishing boats by that country. The Navy Ministry ordered the port captain at Salina Cruz to investigate.

Pope Ends First Year, Faces Complexity Of Church Council

VATICAN CITY (AP) — Pope John XXIII, completing the first year of his pontificate Wednesday, faces the complex details of the Ecumenical Council he has called. Dedicated to unity of the world's Christian forces, the council could prove to be the outstanding event of the Pope's reign.

At least another year will be required to prepare for the council, the first in nearly 100 years. More than anything else the pontiff has done in the past year, announcement of the congress brought into sharp focus the great task the former cardinal patriarch of Venice shouldered as the 262nd supreme ruler of the Roman Catholic Church.

The council will bring to Rome delegates of the church from all parts of the world. Because of the church's growth in the past century, the meeting possibly will be the biggest ever held in the church's 2,000 years of history.

The pontiff's announcement of the event finally set aside the notion of some observers here that the reign of Pius XII's successor would be a "mark time" affair.

The 77-year-old Pope acted quickly against that notion. Less than a day after his election on Oct. 28, he used radio to give his blessing to the world and to indicate that his reign would be dynamic.

Less than 60 days passed before he named 23 new cardinal princes of the church to bring membership of the sacred college to 74, the highest number in history.

To underline the importance of the council, Pope John made his announcement on Jan. 25, anniversary of the conversion of St. Paul who, from a persecutor of Christians, became the early church's far-ranging apostle.

The last Ecumenical Council, called in 1869, was interrupted when Italian troops occupied Rome to make it the capital of modern Italy. The Eternal City until then had been under papal authority.

Pope John's council will be the 21st in church history. A brief communique issued by the Vatican press office at the time of the original announcement said that "in the thought of the Holy Father, the council aims not only to serve as an invitation to the communities separated (from the Roman Catholic Church) to seek unity, to which so many souls aspire in all parts of the world."

Decisions of past councils have been historic. The first, in 325, set the date for Easter; the third, in 431, declared that the Virgin Mary was the mother of God; the ninth, in 1123, dealt with the recovery of the Holy Land by the crusaders; the 16th, also known as the Council of Constance—between 1414 and 1418—resolved the great schism when false claimants to the papacy challenged the authority of the Pope.

One of the greatest—the 19th, or Council of Trent—lasted 18 years, from 1545 to 1563. It examined and condemned the beliefs of Martin Luther and tightened the flagging discipline of the Catholic Church itself.

There have been no guesses on what may be the results of Pope John's council. Reaction to the original announcement was widespread. Much of it was favorable. Some from non-Catholic sources indicated a cautious interest.

During the first year of his reign, Pope John has with charm and humor established himself as one of the most gracious of the pontiffs of the Roman Catholic Church. The Ecumenical Council may establish him as one of the great ones.

He addressed the 52nd annual Conference on Taxation of the National Tax Assn. The meeting ends Thursday.

Thanhouse said placing the entire road-building cost on the motorist is discriminatory and could have dire consequences. He opposed any increase in the present federal tax on motor fuels and said the new one-cent levy should be allowed to lapse.

He also urged that the federal highway program be stretched out if necessary. A few years' delay, he said, would be preferable to inflation, "otherwise known as national bankruptcy."

"The conclusion is inescapable that our highway system is the concern and responsibility of every last soul in this country. We are all beneficiaries of good highways, and it stands to reason that we should all contribute equitably to their cost," Thanhouse said.

U.S. Rep. Jim Wright of Fort Worth told the group the federal government is not getting any benefit from its nine-billion-dollar annual interest cost on the nation's 256-billion-dollar debt.

Wright said interest is the second biggest item in the national budget, exceeded only by defense. He urged support of a bill he is co-sponsoring aimed at reducing the national debt by at least one per cent a year.

She pleaded guilty to disturbing the peace. The court let her off with a year's probation and a stern warning to restrict her sprinkling to the lawn.

Admits Slaying Laughing Youth

MEXICO CITY (AP) — Police said a man arrested Monday confessed he killed a youth just because the youth was laughing. "That day," they quoted the prisoner as saying, "I had been drinking. I went to the small cafe and ordered some sandwiches but they didn't hear me. Then I heard the young man laughing and thought he was making fun of me. I drew my pistol and, without thinking, fired."

The killing occurred here two years ago. Police said the man fled to Western Mexico but returned here recently.

Purchase Okayed

WASHINGTON (AP) — Southern Bell Telephone Co. has been authorized by the Communications Commission to buy the Kenney (Tex.) Telephone Co. facilities for \$6,000.

More Comfort Wearing FALSE TEETH

Oil Expert Warns In Depletion Fight

DALLAS (AP) — An oil economist said today reduction of the industry's depletion tax allowance would force a wave of liquidations by oil and gas operators.

Lowell Stanley of Beverly Hills, Calif., said cutting the 27 1/2 per cent rate also would cause waste of vital human resources for exploration and development.

Stanley told the concluding session of the 30th annual meeting of the Independent Petroleum Assn. of America the current tax allowance takes a middle ground between economic value and historic cost.

"And the depletion recognized is substantially below the depletion sustained," he said. "This is why today almost all oil properties are worth more in the hands of anyone else than the original discoverer and developer."

The House Ways and Means Committee next month is to begin a comprehensive study of opportunities for constructive reform of the federal income tax system.

Included will be hearings on percentage depletion and exploration and development costs.

"In view of the debates on depletion in the last session of Congress and the determined efforts of some opponents, this will take on very special importance," Stanley said.

Stanley was among the depletion tax experts appearing as panelists in a 1955 study of federal tax policy conducted by the Joint Economic Committee of Congress.

IPAA a year ago appointed a special committee for analyzing and developing facts and material for use in explaining the industry's case for continuation of the 27 1/2 per cent allowance.

The committee reported today it has prepared several "Depletion Facts" booklets and distributed more than 500,000 copies throughout the country.

"All in all, your committee feels

the need for and merits of percentage depletion are better known today than they were a year ago," the committee said.

Senate proposals to cut the current depletion rate have been defeated in the last two sessions of Congress. Oilmen fear even stronger efforts will be made next year.

Stanley said the opponents of the 27 1/2 per cent allowance will have little new to place before the House committee.

He said the opponents do not claim the oil industry is making too much money, just spending too much.

"They propose the reduction and final elimination of percentage depletion to make us use our capital in other ways," he said. "A reduction in depletion will mean less exploration, less development, less oil, higher prices."

Stanley said an operator, on completion of a well, begins to deplete his property by production.

"He is engaged in selling his capital assets on an installment basis," he said. "There is a tendency to regard depletion only as a tax deduction not available to others, rather than a tax recognition of a special problem not faced by others."

Get Ready for the Freezin' Season!

PHILIPS 66

Your Phillips 66 Dealer has all the things you need to help your car perform at its best during the cold season. That includes Sixty-Six and Flite-Fuel gasolines Winter-Blended for fast starting, anti-stalling and long mileage.

Get Freezin' Season Service AT YOUR PHILLIPS 66 STATION

Guaranteed anti-freeze service! Tell your Phillips 66 Dealer the temperature protection you want (even down to 40 below) and he'll put in the right amount of Phillips 66 permanent type Anti-Freeze. Then if at any time this winter you need more anti-freeze to maintain this level of protection, he'll put it in at no additional expense.

Winter driving, especially start-and-stop driving, requires a very special oil to resist contamination and sludge. A Devotional For Today

Whoever will save his life shall lose it; but whosoever will lose his life for my sake, the same shall save it. (Luke 9:24.)

PRAYER: Make our hearts to burn, O Father, in such manner that in doing Thy will we may learn to find the supreme happiness in life. By walking in the steps of the Master, may we find fulfillment for our longings and our hopes. In Christ's name we pray. Amen.

(From The Upper Room)

Former Resident To Wed

Mr. and Mrs. M. G. Moore of Iowa Park, former residents of Big Spring, announce the engagement of their daughter, Mildred Elaine, to Boyt H. Smith Jr., son of Mr. and Mrs. Boyt H. Smith Sr. of Iowa Park. The wedding will be an event of early November in the Westover Baptist Church, Big Spring. The Rev. Ray Myers will perform the ceremony.

'ROUND TOWN

With Lucille Pickle

The dip in temperature this morning made it a good day for scrapple eating and also a good time for pork prices to come down. It won't be long now before the trees start dropping their leaves, making the yards about town look shiny on top and heavy at the bottom. A time when the youngsters in the family hate for Saturday to come because they know from experience they are going to have to rake leaves before they can do anything for fun.

Where the blossoming flowers have left off, the colorful pyracantha berries are taking over. Most yards in the city have an abundance of the pretty but thorny bushes. A graceful note is added with the pampas grass, that soft-appearing but unpleasant to touch plant.

Our willow trees are still bravely holding onto their covering but now, instead of blowing to the north, the trend is all to the south. When that happens, it's not long before the leaves come tumbling down. The fig bush that has been so carefully watched for several years, and at one time despaired of, has jumped straight up and is covered with little figs—too late, too late. But there's always next year.

While her husband, S. V. JORDAN, is on the T&P 40-year veterans trip to New Orleans this week, Mrs. Jordan will be in Roswell, N. M., visiting her daughter and her family, MR. AND MRS. DWITE GILLILAND. Mr. Jordan took her to Roswell Monday and returned here for the trip which starts today.

MRS. LEONARD M. OERLINE who was here for the funeral services for her grandmother, Mrs. Nettie House, has returned to her home in Del Rio. While here, she was with her parents, Mr. and Mrs. D. C. Duncan.

Members of the TRACY SMITH family gathered here over the weekend. MR. AND MRS. FRITZ SMITH came from San Antonio and MR. AND MRS. GEORGE E. RAGSDALE and their three children were here from Los Alamos. Mr. Smith joined Mrs. Smith for the trip back to Norman, Okla., where they will make their home. The other son, Robert, is a junior in high school in Norman.

It has been a long time between calls for MR. AND MRS. J. M. SIMMONS, 110 N. Nolan, and their son Melvin Eugene. The young man who has been in Boston, Mass., for the past four years tells for the session, after which, refreshments were served from a table covered in a yellow cloth and holding a Halloween cake as a decoration.

The Nov. 9 meeting will be held in the home of Mrs. Walter Eubanks on the Gail Road.

The Youth Beauty Shop 1705 Seury Announces Kittie Brooks, an expert hair stylist, has joined their staff, and invites you to call AM 4-4431 now for an appointment.

Episcopal Guild To Host Meet

Slated for Nov. 2 is a meeting of Region Four of the Episcopal Diocese of Northwest Texas, when women of St. Mary's Guild will serve as hostesses.

The sessions will open with Corporate Communion at 11 a.m., with the Rev. Kenneth G. Eade, Trinity Church, Midland, as the celebrant.

Business meetings will be held in the afternoon, after a luncheon served at the First Christian Church. Speaker for the gathering will be Mrs. John H. Foster of San Antonio, who is a member-at-large of the general division of women's work of the National Council and chairman of the finance committee.

Mrs. D. C. Sivals of San Antonio will preside over the meeting. The luncheon will be served at 12:15 p.m. and reservations must be made by Thursday Mrs. Lee Hanson, AM 4-4274, is in charge of reservations.

First Baptist WMS Hears Plan Reports

At the Monday meeting of the WMS of the First Baptist Church, Wayne Nance sang I Know A Name, accompanied by Wanda Ford.

The devotional program on Prayer was given by Mrs. J. E. Hardesty.

Chairmen of various committees gave their reports, outlining their plan of work for the coming year. Those reporting were, for the YWA, Mrs. Dean Dixon; GA, Mrs. J. C. Pickle; Sunbeams, Mrs. E. E. Bryant; enlistment, Mrs. Horace Reagan; program, study, Mrs. C. O. Hitt; social, Mrs. P. D. O'Brien; jubilee, Mrs. F. W. Bette, and publicity, Mrs. T. K. Price.

It was announced at this meeting that boxes of used clothing had been sent to Hong Kong as a result of last month's program. Mrs. T. K. Price dismissed the meeting with prayer.

All-Day Bridge Planned By OWC

All-day bridge will be featured by the Officers Wives Club Thursday. The affair will begin at 10 a.m. in the main lounge of the Officers Club. Everyone is to bring her own partner. A fee of 50 cents will be charged.

A bridge expert has volunteered to teach the Italian method to members of the club and their husbands. Those interested should contact Mrs. Gail Medley at AM 4-5759.

FLOWER SHOW CORRECTION

There has been a correction made in the program of the Council of Big Spring Garden Clubs' flower show, it has been announced.

In the Horticulture Division, under the title Dried Specimens, in class 5B and 60, only one horticulture specimen per 12 x 15-inch cardboard may be entered. Exhibitors may enter more than one specimen under each subdivision.

No Strenuous Diets

Jane Powell has one of the most beautiful figures in Hollywood. In today's Hollywood Beauty she tells how she keeps slim without going on strenuous reducing diets.

HOLLYWOOD BEAUTY

Grooming Should Be An Important Habit

By LYDIA LANE
HOLLYWOOD — Jane Powell and I shop in the same market, and no matter when I see her, whether it's early in the morning or late in the evening, she is always fresh and attractive. This doesn't imply she wears a lot of make-up but rather a neat coiffure and perfectly applied lipstick and mascara.

There are four children in her family. She has a nurse, but no cook, and I wondered how Jane manages to be so glamorous at all times.

"It is a matter of training and discipline," Jane told me, when I mentioned this to her. "I was 14 when I was signed by MGM, and I felt I should look my best every time I went to the studio. Once I learned to be conscious of my appearance, grooming became a habit. There is only one way I know to do it."

"If you want to accomplish things," she went on, "you have to have a plan and organize your time."

"What is the first thing you do when you get up in the morning?" I asked.

"I exercise for 15 minutes, have a cup of tea and put up my hair on big rollers. I don't like to do this at night, but I wait until Pat (her husband is Pat Nerney) has gone to work in the morning. If my coiffure is not neat, it affects the way I feel."

"Then I shower and put on my make-up. I don't use a make-up base but only a tiny bit of eye shadow and paint my mouth, which I try to make look as natural as possible. I like a light pink lipstick and I usually wear blue, green or silver eye shadow."

Jane is 5-foot-one and has an almost perfect figure. I asked her to tell the exercises she does to keep so slim.

"It is so easy to keep in shape. Just a few minutes a day will do it, but if you let yourself go, you'll really have to work to feel the places to watch are underarms, thighs, hips, chin and waist."

"I'm not trying to reduce," Jane explained, "but I know that my body will become flabby if I don't use it. So often people will feel that they don't need to exercise if they have a good figure, but I think it is definitely necessary in order to stay firm."

"Just the other day my husband pointed out that a friend of ours, who is still quite young, was getting a double chin. As soon as I heard him say this, I started doing chin exercises."

"Are you a calorie counter?" I asked.

"From way back," she admitted. "But I never have to diet. I just automatically eliminate foods with high calories. Fortunately I never have cared much for sweets, but I am very fond of fruit which is full of natural sugar."

"One fattening thing I'm very fond of is ice cream," Jane confessed, "and I usually have some once a day. But I save my calories for this."

"I find if I keep my calories down to 300 during the day," Jane replied, "I can have anything I want for dinner without gaining."

THRIFTY ELECTRIC COOKING

When you cook electrically, you'll appreciate the many economy features of your electric range. Electric surface cooking units put heat into utensils by direct metal-to-metal contact for best cooking efficiency and least heat loss. The fully insulated electric oven keeps heat where it belongs, inside the oven and out of the kitchen. And, once the oven reaches the temperature you select, the oven heating elements operate less than half of the cooking time.

In addition, an electric range provides you accurate heat control that assures uniformly excellent results. And, with clean electric heat, your kitchen stays bright and new-looking with a minimum of cleaning and redecorating expense. See your electric range dealer soon.

ANSWER TO RUG AND CARPET CLEANING
... Blue Lustre does the job the way you want it done

Blue Lustre Best Way To Clean Carpet

Summer is gone and winter is coming on—with more indoor living—more cleaning care for the busy housewife. Thanks to Blue Lustre, her biggest task is now the easiest one.

It used to be that cleaning rugs and carpets was either a back-breaking job or an expensive one—sometimes both—but that's not true anymore since women have discovered Blue Lustre Carpet and Upholstery Cleaner.

Blue Lustre is a premium quality liquid concentrate which when mixed with water creates a billowy foam. The cleaning action of this foam when brushed into carpets or upholstery instantly brightens colors dulled by soil, separating the dirt particles from the fabric to allow easy removal by vacuuming. Since all the carpet soil is actually removed, housewives have found that carpets and upholstery stay cleaner longer because there is no oily or gummy residue to cause rapid resoiling.

Since Blue Lustre can be applied with a long handled brush or used in any type of shampoo rug applicator, it has become first choice among women who want to give their floor coverings the finest cleaning care and appreciate the very small cost involved with the professional like results they obtain.

There is no other piece of home furnishing that covers such a large area as carpets and rugs and is subject to so many soil hazards. With Blue Lustre, however, it is possible to go over only those soiled pathways on the carpet when they appear without the necessity of cleaning the entire carpet again. That's why so many housewives keep Blue Lustre on hand always for little cleaning emergencies.

Cleaning carpets with Blue Lustre costs very little because it is so economical to use. One half gallon of concentrate is sufficient to clean three 9 x 12 rugs. It is also available in other convenient sizes, quarts and gallons. Since Blue Lustre is non-flammable, odorless, it is safe to keep around the house for ever ready convenience. It's available at Big Spring Hardware.

Scooter Stock At Wards Best In City

The ever popular motor scooter is always in great demand and majority of buyers automatically turn to Wards when they want one of these exciting little devices. J. W. Holt, left and G. W. Holt, right, manager of the department, are shown astride two of the latest model scooters at Wards. The Hols invite you to visit their department and inspect their selection of motor scooters. They believe they have exactly the kind you have in mind. They also point out that in the Wards big store at the corner of Gregg and 3rd, you can find nearly any item for your home. Wards is now in the process of remodeling its store to make it even more attractive and better able to serve its customers. There are always bargains in quality merchandise for the wise shopper at Wards.

SERVICE AND INTEGRITY

Nalley-Pickle Has High Reputation

The National Selected Morticians, of which the Nalley-Pickle Funeral Home of Big Spring is a member, is an organization a lot of people hear about, perhaps, but with which few are familiar.

The organization is an international association of funeral directors of high ideals, ethical practices and business integrity.

Its membership consists of funeral directors located in every principal center of population in the United States and Canada as well as in other countries.

Before a firm can become a member, it must meet rigid standards. Qualifications for membership are: A complete, modern fu-

neral establishment, good moral character, a reputation for honesty, fair dealing, prices within the range of all, financial responsibility, proper technical and professional training, as well as adequate equipment to serve the needs of the community.

The men who compose NSM, as it is commonly known, are devoting their time and energy that a funeral service profession may hold a high place in public esteem.

As an association, NSM is constantly striving to raise the standards of funeral service not only among its own members but throughout the entire funeral service industry.

Harland's Station Eager To Check Your Automobile

Need to convince yourself that you have enough anti-freeze in the radiator of your automobile for the winter months? Need a fresh supply for protection against the cold weather?

In either instance, stop in at Harland's Magnolia Service Station, located at 1000 Lamesa Highway, and let that concern's employees check your anti-freeze for you.

If your car's radiator needs flushing out and a new supply of anti-freeze put in, the personnel at Harland's station will do that for you.

If you need only an extra quart

or two, the station is prepared to supply that too.

Harland's, of course, specializes in complete servicing of automobiles, from the changing of crankcase oil to washing and greasing. When cars are cleaned at Harland's, they are vacuumed inside as well as washed on the outside.

Grady Harland, owner and manager of the concern bearing his name, is in a position to offer excellent deals on new tires. The establishment extends liberal terms for trade-ins. Don't deal with anyone else before consulting with Harland relative to a tire deal. The terms he offers should surprise you.

No Flood Danger

MEXICO CITY (AP)—The Ministry of Water Resources said Monday the danger of new floods in North Central Tabasco State have passed. An estimated 2,000 families were made homeless last week.

Solved - Carpet Cleaning Problem

Science finally has the answer to carpet cleaning. Blue Lustre, a new development, is mixed with water and brushed into carpet or upholstery. It's amazing the way forgotten colors spring out. The nap is left open and lofty. It's easy to apply. One-half gallon of Blue Lustre cleans three 9x12 rugs. Available at Big Spring Hardware, 115 Main St.

Actor's Widow Weds Producer

LAS VEGAS, Nev. (AP) — Tyrone Power's widow, Deborah Miranda Power, was married Monday to film producer Arthur Loew Jr.

It was the third marriage for Mrs. Power, 27, and the first for Loew, 33, often termed Hollywood's most eligible bachelor.

Power died of a heart attack in Spain Nov. 15, 1958. A son was born to his widow two months later.

The new Mrs. Loew said she had known Power six months and that they became engaged last August. Few Hollywood friends knew of the romance.

The couple plans to honeymoon at a resort hotel here for several days, return briefly to Los Angeles, and then move to New York to make their permanent home.

The ceremony was performed by a justice of the peace at the El Rancho Hotel, with owner Beldon Katerman as best man.

Met Opens Its 75th Season With Opera 'Il Trovatore'

By HENRIETTA LEITH
NEW YORK (AP) — The 75th season of the Metropolitan Opera is under way after an opening night at which the Met offered up an exciting new star and a new production of an old, old favorite.

As usual the season's opening at the old opera house offered another show—the audience—with its own stars and all the glamor and glitter any one could want.

The opera was "Il Trovatore," and most real opera lovers went to hear and see Italy's famed Giuletta Simonato make her Metropolitan debut as the gypsy Azucena. They were not disappointed.

Neither were the opera patrons who went mainly to see the celebrated opening night audience.

They saw Green Garson, in shimmering white, wrapped in white mink, her pink-blond hair piled regally high in what seems to be the coiffure this season.

They saw Rosalind Russell, in a low-cut black gown, wrapped in yards of chinchilla, with a hat that was a tall cylinder of black tulle and stayed upright by sheer ledgermain.

If that weren't enough, they could gawk at boyish pianist Van Cliburn, escorting a pretty opera singer, Rosalind Elias, or onetime baseball stars Hank Greenberg and Bob Feller, or slim, blonde Hope Hampton, who charmed their grandfathers on the stage.

It was a fashion parade—heavy brocades and glittering satins, electric greens, bold yellows and reds against stark white, gleaming gold and silver; swaths of mink, ermine or chinchilla, a huge lame rose.

The Met took in an estimated \$86,000 for the opening night of a season that will be the longest in its history, running for 25 weeks. For the first time in years, Italian-born singers dominated the leading roles, with Antonietta Stella and Carlo Bergomi sharing the limelight with Miss Simonato.

The show onstage was as successful as that in the lounges and lobbies.

Associated Press arts editor W. G. Rogers called it "a show with a lot of drive," though hampered by new sets in "funereal gray and black."

He found Simonato "a new and commanding singer" with an appealing voice, stage presence and magnetism.

Dance Sketch
This is designer Elizabeth Montgomery's sketch for the gypsy ballet in Act II of "Il Trovatore," with which the Metropolitan Opera opened its 1959-60 season.

Manila Mayor Makes History

MANILA (AP) — For the first time in 400 years a Manila mayor performed a wedding ceremony—and the mayor was more jittery than the groom.

"I wasn't nervous at all, but I think the mayor was," the bridegroom, Oral Parks, 26, of Buffalo Gap, Tex., said Monday.

Mayor Arseno Laocson agreed

that he "was very nervous, especially about prospects of my turn to kiss the bride." He explained: "I don't know what my wife will say to me now. I believe as performer of the ceremony I was not ordinarily entitled to a kiss."

The bride was Helen Bybee, 21, formerly of Kilgore, Tex., and a senior at Michigan State University, where she met Parks last winter.

No Manila mayor had ever performed a wedding ceremony because no one had asked to be married in a civil ceremony. Virtually all Filipinos are Roman Catholics

Dies In Mishap

FREDERICK, Okla. (AP) — Mrs. Etta Cook, 79, of Booker, Tex., died Monday when a car rammed a freight train at the south edge of Frederick. Her husband, Bony Cook, 81, was driving. He was hospitalized with serious injuries.

'Winterset' On TV Has An Old Plot, But Ends Differently

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — Maxwell Anderson's "Winterset," a morality play in blank verse and modern dress, was given an elaborate and painstaking presentation on NBC Monday night.

Anderson put a lot of messages in this violent drama — about guilt and innocence, life and death, love and hate. He surrounded them, however, by what is now a pretty routine TV plot — a boy seeking to clear his dead father's name; the guilty gangster and a frightened weakling.

Unlike the ordinary TV plot, in the end it is the hero and his sweetheart who lie dead, and the guilty who continue unpunished.

Don Murray was Mio, the boy. Piper Laurie played Miriamne, the girl in the case. Charles Bickford was the tortured judge, and George C. Scott, a very sinister gangster. All were extremely competent.

The settings were spectacular, particularly those scenes under the Brooklyn Bridge.

In spite of all this excellence, the play moved slowly and the language often seemed, instead of soaring, merely high flown.

"The Movies Learn to Talk," first new fall show on CBS' Twentieth Century series last Sunday leaned more towards technical developments than nostalgia.

Thus, those of us who expected lavish samplings of old talkies were disappointed to see merely a flash of Garbo, John Gilbert and John Barrymore.

There's nothing variety show producers like better than a ready-made theme. Thus, by the time Halloween rolls around next Saturday, we'll all be a bit sick of witches and pumpkins.

"Laramie," a new NBC Western, apparently is catching on. More sponsors are climbing aboard, a sure sign. Dick Clark's "American Bandstand" (ABC) is running a contest called "Why I would like to have dinner with

Fabian." Winner's reward: a two day visit to Philadelphia, attending the opening of Fabian's new movie, and dinner with the singer and Clark.

Sam Levenson is now working as a panel member on "Masquerade Party." In case you missed the show's premiere Monday night in the old "Name That Tune" spot, Tom Tully—Inspector Matt Greb — will be back for a guest appearance on "The Lineup" (CBS) on Nov. 4.

Recording Brings Back Twain; Bach Sonatas Out

By HUGH MULLIGAN
AP Newfeatures Writer

Anyone who saw Hal Holbrook's extraordinary Mark Twain show on Broadway last season could reasonably wonder how the same effects could be reproduced on a record album.

Holbrook, a talented actor still in his early 30s, recreated the 71-year-old Twain as a platform lecturer right down to the faintly palsied hand, the white planter's suit, the gently waving cigar that lent dramatic emphasis to the points in his witty, meandering monologue.

It was more than just a dramatic reading; Holbrook's virtuoso performance, bolstered by makeup that took two hours each night to do, gave audiences the impression that they were actually watching America's greatest humorist in the flesh.

A little lady who saw Mark Twain receive an honorary degree at Oxford more than a half century ago came backstage one night and told Holbrook: "That's just the way he looked and talked, I couldn't believe my eyes and ears. You were Mark Twain and I'll never forget either of you."

Record fans who buy Columbia's "Mark Twain Tonight" will have to depend on their ears for an appreciation of Holbrook's achievement, but they will not be disappointed. Even without the masterly stage mannerisms, the make-up and the authentic costume, Mark Twain emerges vividly from Holbrook's one-man cast album.

Selections include Twain's remarks on smoking, his famous encounter with an interviewer, Huckleberry Finn's battle with his conscience and advice on "How to be Seventy," a subject that both Twain and Holbrook know from experience.

To get into the mood of his character and heighten the ef-

Acts More Like Mule Than Deer

SANTA FE, N.M. (AP) — A mule deer fawn came to town Monday, turned up in a store, looked at some furniture and kicked over a window display.

The fawn, about four to six months old, was found nuzzling a furniture display.

Chuck Atwell, manager of the store a block north of the state capitol, caught the fawn at the front window.

The deer broke a lantern "and knocked all the trimmings in the window around a little," he said.

State game department officials took charge of the deer and released it, apparently unharmed, in the forest near Hyde State Park.

Dope Charges

LAREDO, Tex. (AP) — Two New Yorkers were charged in federal court Monday with illegal possession of 18 pounds of marijuana found in the spare tire of their car. They are Martin Moses Jacobs, 23, and William Marvin Siegel, 30. Their bonds were set at \$1,500.

Hurricane Fells 500,000 Trees

COLUMBIA, S. C. (AP) — South Carolina may be feeling the effects of Hurricane Gracie for years to come.

The State Forestry Commission said Monday the storm that hit the state Sept. 29 felled an estimated 500,000 trees, representing a potential loss of 16 million dollars to timber and pulpwood interests. Thousands of pecan trees also were blown over.

The commission said herds of insects that have moved into the damaged trees pose a greater threat than the storm damage itself if they are allowed to attack healthy trees next spring.
