Big Bow For A Big Rush

Mrs. Mike Hull ties a big bow in what is symbolic of an impending big Christmas shopping season for local merchants. In the background are countless spools of gay colored ribbons, boxes and an enormous store of decorative paper. All over town stores are laying in supplies of wrapping material in anticipation of the big season which starts officially a week from today. However, many people aren't waiting for Mrs. Hull reports having helped wrap 177 packages Saturday. (Keith McMillin Photo)

# Boy Relates Slaying In Sign Language

OLATHE, Kan. (AP)—Thirteen-year-old George Martens, a deaf boy, used sign language and his untrained voice Sunday to tell how he killed an 8-year-old playmate. Steven Moscoe pleaded for mercy before he died under a rain of knife blows Saturday afternoon, George said.

Steven into a clump of timber on the pretext of showing him a dead rabbit, and killed him to get revenge. Steven, he said, had run into George's bike repeatedly and damaged it. Steven was the son of Marine Staff Sgt. Lawrence Moscoe of Newburgh, N.Y., who is assigned to Olathe Naval Air Station. The Moscoes have two younger children. George's father, Henry Martens,

is an Olathe building contractor. Olathe is on the southwestern fringe of Kansas City's metropolitan area. Steven left home Saturday afternoon on his bike to play at a schoolground two blocks away. A search was started when he didn't return, and his body was found early Sunday about 300 yards from the nearest house. Bicycle tracks in the field led officers to question young Martens.

# Street Name For FM700 Pondered

F. M. 700 may get an official street name during the regular meeting of the Big Spring City Commission Tuesday at 5:15 p.m. Amid the more serious consideration of third readings for six annexation ordinances, the commis-

sion will consider the comparatively lighter topic of a street name for the newly completed by-pass. If all current annexation ordinances become law, almost all of F.M. 700 will be within the city limits. All of the section west from U. S. 87 to U. S. 80 will be in the city.

The section of the newest paving will be a city street from the Gollad intersection to the 11th Pl. intersection. At the scene of the slaying, George demonstrated with up and down motions of his hand how he repeatedly stabbed the Moscoe boy.

# 4 Persons Missing In 2nd Hotel Fire

PEORIA, Ill. (AP)—Four persons were missing today in a second hotel fire within 24 hours in a racially mixed neighborhood near Peoria's downtown district. While authorities searched the debris of today's fire for the missing persons, the state began a hearing into Sunday's fire.

Two sections of the road will still be outside the city, from Gollad west to U. S. 87 and from 11th Pl. north to U. S. 80. Other business of the commission includes consideration of State Highway Department recommendations for speed regulations on FM 700, U. S. 87 and U. S. 80.

Although young Martens has a voice, his words are unintelligible to the average person. An interpreter relayed officers' questions in sign language, and told officers that the boy was saying, Young Martens was turned over to juvenile authorities. Children 16 and under can't be prosecuted for murder in Kansas. But if the boy is ruled delinquent he can be confined to reform school until he is 21.

# Ike Seems Certain To Order An Extension Of Ban On Atomic Tests

By JOHN M. HIGHTOWER WASHINGTON (AP) — President Eisenhower now seems certain to order an extension of the U.S. ban on nuclear weapons tests — but for a few weeks only. Further extensions could follow. Administration leaders are prepared to go along with a United Nations resolution, adopted Saturday, opposing any resumption of nuclear tests during negotiations for a permanent, policed test ban. But the negotiations themselves are expected to come to a climax at Geneva in the first half of 1960 and a breakdown of the conference, now more than a year old, would bring a quick resumption of underground nuclear test explosions by the United States. Eisenhower already has extended for two months — until Dec. 31 — the one-year U.S. respite he originally put into effect at the end of October 1958. He thus has more than a month during which he can act to keep the ban in effect. One tactical objective of the administration at the present time is to try to maintain the pressure on the Soviet government to keep the Geneva negotiations moving along. The latest word on administra-

tion thinking came Sunday night from Chairman John A. McCone of the Atomic Energy Commission in a television interview (NBC-Meet the Press). Opposing any prolonged extension on the present test ban, he said any such action should be taken on a week-to-week basis. McCone also told his questioners that he thought a Soviet suggestion for joint U.S.-Soviet construction and operation of a gigantic atom smasher for nuclear research was "well worth studying." Other countries might want to join in such a cooperative enterprise, he said, agreeing, as a Soviet atomic leader suggested last week, that there is need for only one super atom smasher. The United States and the Soviet Union announced a new two-year cultural, technical, scientific and educational exchange agreement in Moscow Saturday. They pledged themselves to study the possibility of cooperative enterprises in the peaceful uses of atomic energy, and they projected immediate joint efforts in the conquest of disease. McCone said he was opposed to

an indefinite ban on nuclear weapons testing in the absence of an international agreement among the United States, Britain, and the Soviet Union providing for an inspection system. But he said that the present suspension could be continued for short periods. The U.N. General Assembly in New York voted 60-1 Saturday for a resolution asking all countries to refrain from atomic test explosions during the three-power talks at Geneva. McCone said he thought the United States was bound by this resolution to refrain from testing while the talks continued, but he added that the talks should reach a make-or-break point early next year. He implied that if it became apparent that the Soviets were not willing to conclude an international test prohibition with inspections the United States would seek to break off the Geneva conference and to resume underground testing. When properly controlled, underground tests create no fallout hazard. State Department officials privately have been taking the same line — saying that the United States

# Slides Delay Train, Cause Highway Death

SEATTLE, Wash. (AP)—Massive rain-caused slides blocked major rail and highway routes across the Cascade Mountains today and trapped 90 passengers for 10 hours in a stalled train until they got out by bus on a one-way road.

Flooding rivers forced evacuation of scores of farm families in northwest Washington valleys. Three railroads diverted traffic over a combined route south of the trouble zone. The Milwaukee Road's nine-car Olympian - Hiawatha passenger train was caught between slides Sunday afternoon near Hyak, 60 miles east of Seattle. Buses from Ellensburg, Wash., east of the Cascades, reached the stalled train early today and took the passengers to Spokane for transfer to a makeup train for Chicago.

The buses got through on U.S. Highway 10, restricted to one-way traffic near the slide area where the train was caught. The Milwaukee, Great Northern and Northern Pacific railroads all halted trains on regular routes across the Cascades. They combined to divert traffic on a southern route by way of Pasco and Vancouver, Wash. Highway traffic piled up on both sides of the Cascades as the major cross-state passageway — Snoqualmie, Stevens, White and Blewett — all were closed by slides.

Hazel K. Caddell, 64, of Leavenworth, Wash., was killed on Stevens Pass when her automobile crashed into a truck in a slide area. Several days of heavy rain followed by a warm chinook wind in the snow-covered mountains caused the flooding. Water from melting snow poured down streams, ditches and ravines in the Cascades.

# Officer Hurt Seriously In Lamesa Wreck

LAMESA — Thrown from an up-ended patrol car during pursuit of a speeder Saturday night, City Policeman Homer Deese, 32, was injured seriously. The two officers had spotted a speeder on Main Street, and being unable to get the number, gave pursuit. At the intersection of South Houston and the Stanton Highway, the patrol car hit the gravel just as it was closing in on the fleeing speeder.

Mrs. Ragdad, summoned to the hospital, parked her car in the parking lot only to find it stolen when she returned later. The car was recovered Sunday in Odessa. River is in charge of the campaign headquarters in the Robbins Building all this week, and all workers who have not yet reported in are asked to do so at the earliest time.

# Weak Cool Front Hits

By The Associated Press A weak cool front dipped deep into Texas Monday, bringing slightly lower temperatures, fog and light rain. At daybreak a light rain was falling at San Antonio and fog was reported at Tyler, Lufkin, Galveston and Houston. The front lay on a line from near Texarkana southwestward through San Antonio. To the west and north of the front, skies were generally clear. Along the front and ahead of it skies were mostly cloudy.

# Minister, Family Vanish, Hunt Begins

SWEET HOME, Ore. (AP) — A minister, his wife and their son have vanished from their home in this western Oregon town. Police have followed their only clue to Tombstone Summit in the Cascade Mountains in their search for the Rev. Laurence Loftus and his family. They think the family may have met with an accident on a backwoods mountain road. The Rev. Mr. Loftus, 28; his wife, Ruth, 27; and their son James, who will be 2 years old next month, disappeared Friday. Parishioners called in police Sunday when the minister didn't appear for services. The search of the Tombstone Summit began after bus driver Harry Monical reported he saw a man and a woman at the entrance of a logging road in the area Friday. Monical said the man apparently was putting chains on a small foreign car. The car resembled one owned by the Loftus. Last Dec. 7, another Oregon family disappeared in the area. Ken Martin of Portland, his wife and three young daughters set out on a trip to the mountains and never returned. Bodies of two of the children were found last spring in the Columbia River, but there's been no trace of the others. The Rev. Mr. Loftus became pastor of the Sweet Home church last June. He came to this town of 3,000 from Tualatin, Ore. His mother, Lulu Loftus of Sweet Home, said her son and his family lived at Madison, N. J., until two years ago. The pastor's wife is the daughter of Mr. and Mrs. John Bolman of Chatham, N. J.

# Payola Axe Falls As Stations Act

## Trinity Water Studies Again Under Probe

AUSTIN (AP) — Water studies made by a consulting engineer on the Trinity River were examined again today as the State Water Board resumed its hearings on the feasibility of building two dams on the lower river. H. R. Norman, engineer for Brown and Root of Houston, was cross-examined by Alex Pope, representing the San Jacinto River Authority.

## AF Wife Keeping Check Until Teller Is Re-Hired

HOLYOKE, Mass. (AP) — Mrs. James Walsh says she'll gladly give \$4,000,002.75 to a certain bank if it will rehire a fired teller. The teller, Miss Ann Halliwell, reportedly was fired because she mistakenly gave a bank check for that amount to Mrs. Walsh.

## All-Out UF Clean-Up Is On Docket

Raymond River, president, called a meeting of the United Fund executive committee today to consider plans for an all-out clean-up effort of the United Fund. Receipts, unofficial and un-audited, placed the receipts to date barely past the \$89,000 mark, or just under 92 per cent of the \$96,800 goal which will be necessary for operation of the 12 agencies depending on the United Fund.

## Cuban Labor Group Spurns Reds, Elects Castro Men

HAVANA (AP) — The Cuban Confederation of Labor today elected an executive committee made up entirely of members of Fidel Castro's revolutionary party and rejected a Communist party bid for posts on the labor high command. Despite the rebuff to the organized Reds, informed sources said the 13-man group elected early today by the 10th National Labor Congress included several former Communists and some Communist sympathizers.

26 SHOPPING DAYS LEFT HELP FIGHT TB WITH CHRISTMAS SEALS

## DJ Alan Freed Relieved Of Job

NEW YORK (AP)—Disc Jockey Alan Freed, a pioneer in the rock 'n' roll craze who has been fired by a New York radio station, meets today with officials of a television station here to talk about payola.

While congressional investigators probed payola—under-the-table payments by record companies to disc jockeys for plugging certain records on their programs—some stations took quick action. In Detroit, radio station WJBK Sunday fired disc jockey Thomas Clay who admitted taking payola. Dale Young, master of ceremonies on WJBK-TV's Detroit Bandstand, resigned. Young did not comment.

Bill Michaels, WJBK-TV manager who announced Young's resignation, said the Storer Broadcasting Corp. is investigating payola at all its TV and radio stations in Detroit, Cleveland, Toledo, Milwaukee, Atlanta, Los Angeles, Philadelphia, Miami, and Wheeling, W. Va. In Philadelphia, John C. Moler, managing director of the Storer Radio station WIBC, announced that disc jockey Joe Niagara has resigned. Moler declined to elaborate on the reason for resignation.

In New York, radio station WABC fired Fred Saturday after he refused to answer questions put to the station's record spinners. Fred insisted he was honest and it was an insult to ask him. Officials of WNEW-TV here, which carries a Freed show, asked the disc jockey to meet with them today. "We want to know what the situation is," said WNEW-TV general manager Bennett Korn. "We don't believe in prejudging a man. On the other hand, we don't intend to be soft or ostrich-like in our decision." Freed was not available for comment.

The payola probe drew comment from Federal Communications Commission Commissioner Robert E. Lee, who spoke at a breakfast here Sunday. Lee said payola disc jockeys might cause their stations to lose their licenses. "Irrespective of the license having knowledge of the same, the violation exists and, depending on the circumstances attendant on each case, jeopardizes the license in question," Lee said. He again called for a law to protect the public from TV frauds. Meanwhile, top officials of the National Broadcasting Co. and Time, Inc., collided over the TV quiz show fiasco.

A Time magazine article Nov. 16 accused the networks of ignoring a story in a 1957 issue of Time which hinted some quiz shows were rigged. NBC Board Chairman Robert W. Sarnoff Sunday retorted that several Time-owned stations also ignored the article. Weston C. Pullen Jr., vice president for broadcasting of Time, Inc., promptly conceded that Time, Inc., should have dropped the quiz shows from its stations. "I regret that we did not," said Pullen. "Like Mr. Sarnoff and others, we learned a lesson."

Time, Inc., owns four television stations—KLTZ-TV, Denver, a Columbia Broadcasting System affiliate; WCTN-TV, Minneapolis, an American Broadcasting Co. affiliate; WFBR-TV, Indianapolis, an NBC affiliate; and WOOD, Grand Rapids, Mich., affiliated with both NBC and ABC.

## Negro Killed In Car Wreck

LAMESA — Body of a Negro man, about 35 years of age, is being held in the Higginbotham Funeral Home here, pending identification. The man was killed at 3:15 a.m. today in a one car automobile accident, on SH 349. The accident occurred 12 miles south of Patricia in Martin County. The matter was investigated by George Winstead, highway patrol officer out of Midland, who could not be contacted this morning for additional details. The victim was dead on arrival at Lamesa. Other than for a scrap of paper found in his clothing, no clues as to his identity were available.

## Toys For Tots . . .

City firemen are ready to get toys in readiness for Christmas delivery to needy children who otherwise are denied such delights. They want toys to work on—right now. Won't you please check your place and see if you have discarded or outgrown—but repairable—toys. All you have to do is pick up the telephone and someone will come get the toys.

Dial AM 4-6083

# W. A. (Bill) French Of Abilene Dies

W. A. (Bill) French, 68, former district engineer for the State Highway Department and father of Bill French of Big Spring, died Sunday at 1:30 p.m. of heart attack.

He was stricken at his home at 722 Davis Drive in Abilene and was pronounced dead on arrival at the Hendrick Memorial Hospital.

The funeral is to be held at 10 a.m. Tuesday in the Kiker-Warren Chapel with Dr. John Donoho, pastor of the St. Paul Methodist Church, officiating.

Surviving are his widow; two sons, W. A. French Jr., Big Spring, and Leslie French, Decatur; one daughter, Mrs. W. B. Wood, Brownsville; and six grandchildren.

Mr. French was born Aug. 5, 1891 in Kaufmann and was graduated from Kaufmann High School and Texas A&M College in 1913.

During World War I he served as a lieutenant in the field artillery. For 2 1/2 years he served as division engineer for the State Highway Department in Amarillo, then moved to Abilene in 1925 as the district engineer.

He resigned from the department to form French Engineering Company. In 1951 he moved to Fort Worth to serve as engineer at Carswell AFB, then the following year went to San Antonio in a similar capacity at Kelly AFB.

Retired in 1958, he returned to Abilene. He was a member of the St. Paul's Church.

A week ago Mr. French spent several days here visiting friends and inspecting the new plant of Puckett & French, in which his son is a partner.

LORAINES ADDS NEW TRUCK TO ITS FIRE FIGHTING FORCE Community points to protections as another advantage to residents

# Older Citizens Welcomed As New Loraine Residents

LORAINES (SC) — This eastern Mitchell County town is making an unique bid for new residents by appealing to retired couples.

As one evidence that the community looks after the security of property, the city recently planked down \$10,000 cash for a new fire truck. With two other fire trucks, this boosts to around 1,500 gallons the water carrying capacity of the trucks serving not only Loraine but surrounding area.

Loraine is one of the few small towns so well equipped to fight fires. A volunteer fire department staffed by 24 young men of the community is well trained in latest methods of combatting fires.

Loraine also is one of the few towns which have no outstanding general obligation indebtedness. The only bonds still due are revenue bonds on the water and sewer systems, consequently property values are low for tax purposes.

Boosters of Loraine are also pointing to other community facilities, such as a newspaper (The Mitchell County News), proximity to lakes and the big Texas Electric Service Generating plant, an abundance of good water, good land and some irrigation which has produced up to two bales of cotton per acre.

Mr. and Mrs. Gilbert Pierce and family, Plains; Mrs. Pansy Jane Hill and children, Zed Ervin, Mr. and Mrs. Quinton Graham, Harold Criswell, Forrest Criswell, Lubbock; Mr. and Mrs. Corby Kruse, Ira; Mr. and Mrs. Marion Criswell, Dallas; Mr. and Mrs. Skippy Higgins and sons, Saragosa; Mrs. Grace Joyner, Corpus Christi; Mr. and Mrs. J. A. Reeves, Midland; Mr. and Mrs. O. F. Ray Jr., Post; Mrs. Dean Blankenship, Snyder.

Mr. and Mrs. Oscar Glickman, son of Mr. and Mrs. Glickman, of a dinner to be served in the corridor of the third floor of the building honoring Charlie Sullivan, district judge.

The party is being arranged by a committee of county officers. It is a tribute to the veteran jurist who is retiring from his post effective Jan. 1.

The dinner will be served buffet style and J. L. Jones, district attorney, is to be the master of ceremonies. A gift is to be presented the guest of honor.

The violent death toll in Texas rose to at least 27 persons over the weekend as a result of traffic mishaps, according to 12 of the fatalities.

Eight deaths were blamed on gunfire. The count covered the period from 6 p.m. Friday to midnight Sunday.

Late West Texas deaths included: Dewey Hearn, 14, of Boys Ranch of West Texas, near Tangle, was killed and six other boys from the ranch were injured Sunday when they raised an irrigation pipe to shake out a rabbit and the pipe touched a high voltage electric line. Hearn was from Wichita Falls.

The bullet-riddled body of Mrs. Barbara Miller, 25, was found in Amarillo Sunday morning by her three young children. Amarillo police questioned a 25-year-old man who was arrested on a driving while intoxicated charge a few hours before the body was discovered.

Reporters Charge N.Y. Bribe Attempt NEW YORK (AP)—City officials today launched an inquiry into statements by two newspaper reporters that they were offered bribes to quit probing the city's slum-clearance program.

The reporters said on a television program Sunday night that the bribe offer came from a high city official.

Engagement Told TEHRAN, Iran (AP)—The Shah of Iran today announced his engagement to 21-year-old Farah Diba and set Dec. 21 as their wedding date.

Miss Diba will be the third wife of the 40-year-old ruler. He divorced his other two because neither gave him a son. Only males can inherit the throne of Moslem Iran.

Rash Of Car Mishaps Here One motorist struck a utility pole and another hit a stone fence in automobile accidents during the weekend.

J. G. Stephens, 309 NE 2nd, was the driver in collision with the pole. The mishap occurred at 15th and Owens.

Herbert Daniel Stanley, 304 E. 5th, was in collision with Henry Garcia Resa, Stanton, on the West Viaduct.

Whitmore S. Goodlett, 1902 G. Glad, and Joyce W. Wetzel, 1609 Owens, ran together at 18th and Gregg.

Ronnie Edwin Burks, 500 Owens, and Larry K. Gist, 1601 E. 5th, were involved in a crash in the 200 block of Main.

# Fugitive Held In Stanton For Robbery Charge

STANTON — Joe D. Williams, 22, Midland Negro, sought by Martin County officials since Oct. 31 in connection with an abortive attempt to rob a bracoero crew, is in the Martin County jail. He was arrested over the weekend by Deputy Fred Church and Constable Marshall Yates in Midland.

Sheriff Don Saunders said that the Negro has made a statement admitting his part in the attempted holdup. Several shots were fired during the episode. Of \$60 to \$70 taken, all but \$12 was recovered.

The bracoero, 30 strong, angered by the holdup attempt overpowered the gang of Midland Negroes and three of the group were arrested immediately. They were forced to abandon their car and Williams managed to escape on foot.

Already charged in the case are Dixie Perkins Jr., 27, Arcella States, 19, and Rita Brown, 26.

Saunders said that Williams was taken before the grand jury for action by that body.

The holdup attempt was in the Raymond Kingsfield farm, 10 miles south of Patricia.

# Chief To Attend Odessa Workshop

Police Chief C. L. Rogers will attend the one day workshop for police chiefs at Odessa Wednesday.

The program is sponsored by the West Texas chapter of the Texas Police Chiefs Assn. Speakers will be W. E. Routh, Odessa city manager, and Francis E. Crosby, FBI agent.

# Troop Sponsors To Be Sought At Meet

Representatives from a number of institutions will meet at 7 p.m. today in the Dora Roberts Student Union Building for the Together We Organize dinner of the Lone Star Boy Scout district.

The Scouting program (whether Cubs, Scouts or Explorers) will be explained together with steps for organizing units under institutional sponsorship.

Joe A. Moss, the Together chairman, will be in charge of the meeting. Moss expressed the hope that several new troops, posts and Cub packs could be set into operation as the eventual result of today's meeting.

Among institutions indicating an interest are First Methodist, College Baptist, St. Paul's Lutheran, Park Methodist, Salvation Army, Mt. Bethel Baptist, International Union of Operating Engineers (Local No. 828), Sacred Heart Catholic Church, Moose Lodge, Church of God, and Stanton Lions Club.

Representatives from any other institution interested in potential sponsorship of a Scouting unit is invited to be guest of the district at this evening's dinner, said Moss.

He emphasized that the units, if and when organized, would be the property of and under the direct control of the sponsoring institutions. What Scouting has is a boys' program proven and refined over half a century of operation and which may be fitted within the policies of the sponsoring institution.

# Service Station Looted By Yeggs

A burglary and three thefts were investigated by police officers during the weekend.

The D. G. Harris service station, 1600 Gregg, was entered Saturday night, by breaking a window. Officers said a floor safe was opened by using the key which was on the premises. About \$85 was taken, and \$25 in change was left in the cash box.

Gilford Lange, 406 Goliad, reported the theft of a 270 calibre rifle. The TV Lab, 603 E. 3rd, told officers a television set was stolen.

Charles Ripard, Sand Springs, reported two hub caps taken from his car on the Ritz parking lot. Officers questioned four suspects in the area.

# Streets To Get Winter Treatment

City streets crew began a street maintenance program today to prepare thoroughfares for the ravages of winter.

Sleet forecasts, street superintendent, said crews began on 11th Place about noon, filling cracks in the streets. The program is to continue throughout the city.

# Sees Protection

CHICAGO (AP)—Secretary of Labor James Mitchell says that one day the migrant farm worker may be protected by a minimum wage law.

# Lamesa Grocer Dies Sunday

LAMESA — William Washington Powell, 81, retired grocery store operator, died at 11:30 a.m. Sunday at his home on Route C, Bora, in Alabama Aug. 12, 1878.

Services were set for 3 p.m. Monday at the Higginbotham Funeral Chapel with the Rev. Giles Hanks, pastor of the North Side Baptist Church, officiating. Burial was to be in the Lamesa Memorial Park.

Surviving Mr. Powell are his wife, Mrs. Ruby Powell; a daughter, Norene; and a sister, Mrs. Joe Smith, all of Lamesa.

# State Hospital To Be Host For Medical Group

Dr. C. J. Rullman, Austin, director of mental health and hospitals in the Texas State Hospitals and Special Schools, is to address the meeting of the Periman Basin Medical Society Tuesday evening.

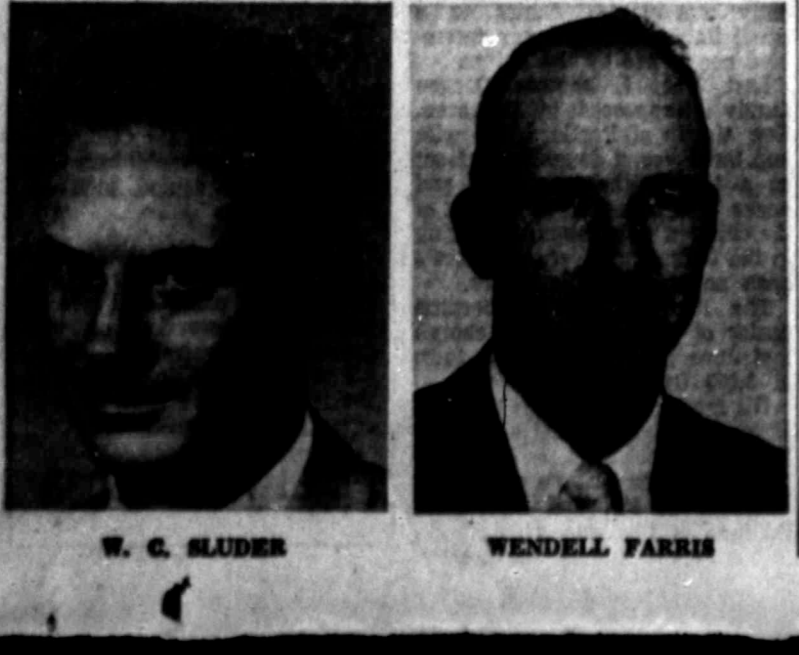

Big Spring State Hospital will be the host to the meeting at 7:30 p.m. as it is once each year.

Dr. Rullman will have charge of the scientific meeting, which traditionally follows the dinner.

Dr. George Peacock, president of the society, will be in charge of the business session, and Dr. Preston Harrison, superintendent of the hospital, will introduce guests at the luncheon.

All doctors, together with their wives, on the staffs of Webb AFB Hospital and the Veterans Administration Hospital are especially invited to take part in the meeting, said Dr. Harrison.

A program of music furnished by patients at the hospital will be presented. These will include a rhythm band and a chorus under the direction of Mrs. Anna Belle Fields, Chaplain Marvin Berkeley will ask the invocation.

W. C. SLUDER WENDELL FARRIS

# Good Oil Shows Reported In Cabot's Borden Wildcat

Cabot Carbon Co. No. 1 Clayton and Johnson, located as an Ellenburger discovery below 9,445 feet this morning after three tests in the formation yielded good oil shows.

The best show was from the 9,460-500 foot section where operator recovered 2,434 feet of free oil with 540 feet of slightly salty sulphur water. The 30 minute shutin pressure was 4,910 pounds, the flow pressure was 3,905 pounds and the flow pressure was 275-1,016 pounds.

This Borden County explorer is nine miles northwest of Gall. New oil, but accompanied with large amounts of water, were reported at two area prospectors during the weekend.

Currie and Hamilton No. 1-22 Reynolds, Glasscock project, has swabbed 36 barrels of oil and 121 barrels of salt water from the Queen sand.

Amerada No. 1 Moore, Dawson County project, swabbed 39 barrels of oil and 133 barrels of water from the Fusselman section.

Rowan No. 1 Price has finished in the Ellenburger for a 24 hour potential of nine barrels of 41 gravity oil. This Borden County wildcat, is a dual discovery well with a potential in the Strawn for 532 barrels of 40.9 gravity oil.

Rowan No. 1 Price, six miles northwest of Gall, has completed in the Ellenburger for a 24 hour potential of nine barrels of 41 gravity oil with 3 per cent basic sediment. This is based on a 15 hour flow of 5 1/2 barrels of new oil. The gas oil ratio is 96-1 and there is half-inch choke. The Ellenburger section is between 8,527-36 feet. The site is 660 from south and 760 from east lines of section 39-30-J. H. Gibson survey.

Cabot No. 1 Clayton and Johnson is bottomed at 9,500 feet and preparing to run logs. It is nine miles northwest of Gall and is 510 from south and 1,830 from east lines of section 29-31-6n, T&P survey. Operator took the Ellenburger at 9,445 feet. A drillstem test between 9,445-55 feet had tool opened two hours. Operator recovered 2,113 feet of gas in the drillpipe, six feet of oil, and 60 feet of heavy oil and gas cut mud. The flow pressure was zero and the final shutin pressure was 3,715 pounds.

A drillstem test between 9,457-70 feet had tool open an hour and recovery was five feet of drilling mud with no pressures.

A third test between 9,460-500 feet was open four hours, 15 minutes. Gas surfaced in an hour and recovery was 2,434 feet of free oil and 540 feet of slightly salty sulphur water. The 30 minute shutin pressure was 4,910 pounds, the flow pressure was 3,905 pounds and the flow pressure was 275-1,016 pounds.

The 30 minute shutin pressure was 4,910 pounds, the flow pressure was 3,905 pounds and the flow pressure was 275-1,016 pounds.

sand between 1,883-91 feet, traced with 5,000 gallons and 18,000 pounds of sand. Operator recovered the load at noon Saturday. Since then, he has swabbed 3 1/2 hours per day making 36 barrels of oil and 121 barrels of salt water. He is still swabbing. Drilling is 1,960 from north and 960 from west lines of section 32-33-4s, T&P survey.

McNamara No. 1 Wade has been plugged and abandoned at the total depth, 6,453 feet. This wildcat was a C SE SE of section 20-31-1a, T&P survey.

Tennessee No. 1-Adams is digging in lime and shale at 5,773 feet. It is C SW SW of section 31-33-3n, T&P survey.

Great Western No. 1 Allen is digging in lime and shale at 9,530 feet. This wildcat is C SW SE of section 41-37-1n, T&P survey.

Pan American No. 2 Snell has been completed for a 24 hour potential of 402 barrels of 41 gravity oil with 100 barrels of water. This Breedlove field production is from Devonian perforations between 12,112-116 feet. There is a 15-64 inch choke and the tubing pressure is 100 pounds. The site is C SE SW of labor 2, league 239, Borden CSL survey.

Texas American Oil Co. and McGrath and Smith No. 1 L. C. Clark is a new Clark (San Andres) field well with a 24 hour potential of 44 barrels of 28.4 gravity oil and a trace of water. Production is from perforations between 1,206-12 feet and open hole section 1,205-68 feet. Operator completed naturally. The well is 10 miles east of Water Valley and is 2,333 from west and 1,982 from west lines of section 23-13-SPRR survey. The well is 23-13-SPRR survey. The well is 23-13-SPRR survey.

Black No. 1-A Humble is drilling through anhydrite at 860 feet. This wildcat is 1,819 from north and 1,290 from west lines of section 21-11-SPRR survey.

# Florida Artist Gives Lecture

FORSAN — Guest speaker for the Forsan Study Club Friday was Olin Hitchcock. Hitchcock, an artist and lecturer from Miami, Fla., told a group of 35 people from Forsan, Midland, and Big Spring of his experiences and travels studying the migration habits of animal life. The artist demonstrated his nature subject through painting a picture. The painting, which was completed in about 30 minutes, was presented to Ina Deason. Mr. and Mrs. Hitchcock are guests in the home of Mr. and Mrs. W. F. Shannon. The Hitchcocks are returning to Florida from a seven month tour of the West and Southwest. The Shannons and Hitchcocks recently visited Midland where they attended the Romance of Oil Art Show, which is sponsored by the Midland Art Club. Mrs. Shannon and another Forsanite, Mrs. Howard Peacock, are showing paintings.

## Hollywood Draws A Blank In Hunt For Asian Girls

HONOLULU (AP) — A search for actresses of Asian ancestry needed for two Hollywood pictures has fizzled out.

Universal-International pictures recently asked the University of Hawaii's department of drama and theatre to scout Hawaii for girls of Asian descent needed in the pictures.

One role is the female lead in "The Ugly American," opposite Marlon Brando. The other is the female lead in a picture as yet unnamed, set in the Pacific during World War II.

Professor Joel Trapido says he is sending the studio some photos of six girls who applied. He doesn't think any of them meet the studio's requirements.

# HOLLYWOOD BEAUTY She Swaps Broadway For The West Coast

By LYDIA LANE  
HOLLYWOOD — Diana Spencer was brought to Hollywood to play Jerry Lewis' wife in "Don't Give Up the Ship" and she liked the West Coast so much she didn't go back to Broadway.

"But one thing I notice," Diana told me as we were driving to Long Beach to visit a veterans' hospital, "is that no one here walks; when I lived in New York I used to get my exercise that way."

"What do you do to keep your figure?" I asked.

"I clean house," she replied. Diana explained that you can give yourself a good work out with the proper attitude.

"It is so important to keep a good posture and I always walk conscious of my shoulders being up and my head high," she explained. "And I never reach for anything without feeling a good long stretch. When I have to pick up something, I bend my knees, trying to keep my back straight, or I make a waist bend keeping my knees straight. But the best work of all for me is scrubbing floors."

Diana carries herself well. When I mentioned this to her, she said, "I took fencing when I went to school in Mexico, City. It gives you a wonderful control of your whole body. I don't think there is anything else quite like it."

We talked about hairstyles and Diana mentioned her problem of too curly hair.

"I'd love to wear mine some other way, but it is so uncontrollable that I have to let it do what it wants to do rather than what I want. People think I'm lucky to have curly hair but it is much more of a problem than straight hair."

"Your hair looks straight now," I remarked.

"When I was at Paramount they taught me how to use an electric iron. Instead of putting a wave in it, you take it out and this is a big help to me," she added.

As we drove into the hospital grounds I asked, "What's the most helpful advice you've ever been given?"

"In getting along with people, I've found it very helpful to practice what a wise old man told me: 'Keep your eyes and ears open and your mouth shut.'"

## Teachers Meet For Brunch

Brunch was but one of the activities of the Beta Kappa chapter of Delta Kappa Gamma, the international honor society of teachers, when they met Saturday at Coker's Restaurant.

The 39 members present were led in group singing of chapter songs by Mrs. E. A. White.

Mrs. Bill Griese presented Agnes Currie who gave a discussion on policies and reviewed articles from bulletins.

A panel discussion was held by Mrs. Paul Vagt, Mrs. Cecil Hamilton, Mrs. Clifford Hale, and Betty Joyce Gray. Their topic, Evaluation of Our Professional Product, was accompanied by several movies on this theme.

Miss Currie briefed the group on the organization's goal of presenting 56 scholarships of \$2,500 this year to fellow teachers planning graduate study above the master's degree level.

The chapter voted to contribute the required amount to make one scholarship possible, and to contribute to the state scholarship program.

Importance of participation in community service was stressed by Mrs. Roscoe Newell, and the group decided to donate to the Christmas fund of the State Hospital.

The teachers were reminded of the Delta Kappa Gamma luncheon to be held in San Antonio during the Texas State Teachers Association's meeting at Thanksgiving.

## Tea Honors New Pastor's Wife

Mrs. Clair Wiederholt, wife of the new pastor of St. Paul Lutheran Church, was given a tea Sunday afternoon by the women of the congregation.

Alternating in receiving at the door were Mrs. Moran Oppgard, Mrs. Ray Catlin, and Mrs. Frank Long. Mrs. Theo Pachall, Mrs. James Weber, and Mrs. Hollis Smith served at the event held in the home of Mrs. Jack Watkins.

The refreshment table, which served hot spiced tea and tiny cakes, was covered with a brown table cloth. Gold and crystal hurricane lamps with yellow candles flanked an arrangement of bronze chrysanthemums in a crystal bowl. Yellow napkins were used.

Mrs. Wiederholt was presented with a mum corsage.

## Edgy Nerves? Try Some Tea Of Skullcap

BEATTYVILLE, Ky. (AP) — People don't know much about herb doctoring anymore and it's a shame, Mrs. Melvin Kincaid — Aunt Cinda — says.

Aunt Cinda has been using herbs most of her 75 years. She dosed all her own children with catnip tea. It's good for croup and colds, she says. "And it makes a baby sleep so good."

Skullcap and boneset yield a bitter tea which will "settle the nerves" and break up cold and fevers, Aunt Cinda says.

A salve made from Balm of Gilead buds, elder and bitterweet bark, mixed with tallow, reputedly heals sores, cuts and bruises.

The U. S. Department of Agriculture seems to agree. It lists over 250 different species of roots, herbs and bark which are of great value in the manufacture of drugs.

Housework As Exercise

Diana Spencer recommends house work as the best form of keeping a slim body if you exercise with a technique. Her current picture is "Don't Give Up the Ship," for Paramount.

Advertisement for Maryland Club Coffee featuring a woman drinking coffee and the text 'There's no other like it... anywhere' and 'Mr. John creates exclusively for MARYLAND CLUB... a luxuriously wrapped scarf hat in pale coffee velour... encircling the face and dramatically folding deep into the collar of the coat.'

## If you like better things MARYLAND CLUB COFFEE is created for you

Here is a new richness in coffee... rare coffees from the Cordillera peaks of South America... full-bodied Medellin, vigorous Armenian, winery Antiguas, robust Manizales... incomparably blended to create a coffee that is full and heavy in body, yet delicate in bouquet as a fine imported wine... and so incredibly rich you can use far less per serving. This is MARYLAND CLUB... the classic coffee for every occasion.

The coffee you'd drink if you owned all the coffee in the world.

## Jane Guin, J. Thomas Are Wed

In a home ceremony Friday evening, Jane Guin and Jackie Thomas recited wedding vows before the Rev. W. C. Guin of Del Rio. Uncle of the bride, he is the pastor of the First Presbyterian Church in Del Rio.

The ritual was read in the home of Mr. and Mrs. H. G. Jones, 416 Edwards, grandparents of the bride.

Parents of the couple are Mr. and Mrs. Tom Guin, 1602 Indian Hills, and Mr. and Mrs. L. W. Hare, 1607 Virginia.

The bride's father gave her in marriage. Attendants were Judy Foster and Chubby Moser.

After a wedding trip to New Mexico, the couple will be at home in Big Spring.

The bride is a junior in Big Spring High School; her husband, a student in Howard County Junior College, is employed by U.I.I. and Phillips.

An informal reception was held by the members of the families following the ceremony.

Stuff Steak When stuffing flank steak be sure to roll up the meat parallel with the grain.

Split Pea Soup Next time you make split pea soup substitute stewed tomatoes for 1/4 of the required water.

## Dessert Bridge Given Mrs. Malott

A dessert bridge was held in honor of Mrs. C. L. Malott Friday afternoon at the Officers Club.

Mrs. Malott, who is leaving Big Spring to join her husband in the Philippines, was presented with a piece of luggage by the eight hostesses.

Forty guests played bridge, with Mrs. H. L. Weber taking first place, Mrs. Robert Bell, second prize, and Mrs. Samuel Munch, low.

A dark green cloth was centered by an arrangement of maroon chrysanthemums in a white milk glass bowl on the refreshment table.

## Mincemeat Is Base For Unusual Taste

For an unusual, delectable pie, try this white-bottomed bit of rich goodness that blends mincemeat, rum, gelatin and whipped cream into a refrigerator cook's dream.

CREAMINCE PIE (Makes 9-inch pie) 1 baked 9-inch pastry shell 1 envelope (1 tsp.) unflavored gelatin

1/2 cup cold water 1 (15-oz.) can sweetened condensed milk 1 egg, separated 1 (9-oz.) package mince meat 1/4 cup light rum 1/2 pint (1 cup) heavy cream 1 tsp. confectioners' sugar 1-3 cup chopped maraschino cherries, well drained

Whole maraschino cherries, optional Shaved chocolate, optional Soften gelatin in cold water in top of double boiler. Let stand 5 minutes. Stir over hot water until dissolved. Add sweetened condensed milk and beaten egg yolk. Stir over ice water about two min-

utes until mixture thickens slightly. Beat egg white until it forms soft peaks; fold into chilled mixture. Pour into pie shell. Chill 15 minutes.

Break mincemeat in small pieces in a saucepan; add rum. Cook, stirring constantly, until mixture comes to a boil. Cool slightly. Spread on pie filling. Chill.

Whip cream with confectioners' sugar; fold in chopped cherries. Pile on top of pie. If desired, garnish with whipped cream, whole cherries and shaved chocolate.

Carrot Advice Carrots with deep green shoulders around the leaf end sometimes prove to be bitter.

Quick Pick-Up English muffins slathered with your favorite pizza topping and heated through in the oven are fast serve-ups for a light soup meal.

CORNISH HENS AND CINNAMON APPLES ... fit for a king

## Cornish Hens Royal Meal

Cornish hens will make a holiday meal fit for a king. The tenderness of these roasted birds makes them an outstanding treat.

In this recipe for preparing the poultry, rice and cinnamon'd apples are combined to provide the basis of one of the meals your family will remember for a long time to come.

HEN AND CINNAMON'D APPLES 1 dozen medium-sized apples 2 (1 1/2 oz.) pkgs. cinnamon candies 1 cup water 1 cup sugar

6 Cornish Game Hens Salt 1/2 cup melted butter 3/4 cups white, brown or wild rice 3 cups boiling water 1 tsp. salt 1 tsp. thyme 1 cup fresh mushrooms (or 2 4-oz. cans)

Peel and core apples. Combine sugar, water, cinnamon candies, boiling until candies are dissolved, and mixture is syrupy. Gently simmer apples, three or four at a time, in syrup until Christmas-red. Drain on waxed paper or foil-covered rack.

Defrost game hens 3 hours at room temperature or overnight in refrigerator. Remove giblets from cavity and simmer them in boiling salted water with bay leaf, celery tops and parsley until tender—about 25 minutes. Set aside. Salt birds inside and out and tie legs together so they'll hold shape. Place on rack in roasting pan and brush with melted butter. Roast in moderate oven (350 F) about 1 hour, basting frequently with butter, or until golden brown. (Note: we've not stuffed these birds, but you may do so, using your favorite stuffing, if you wish.) Wash wild rice in three or four waters, and soak at least 4 hours (you'll get fluffier rice, hence more of it). Strain and measure stock from giblets; add water to make 3 cups. Bring to boil, then add rice, salt and thyme. Simmer, covered, until tender, about 25 to 30 minutes. Clean and cook mushrooms in butter. Chop giblets, combine with and add mushrooms to rice. Cook 5 or 10 minutes longer; add more salt and a little water if needed. Mound rice in center of platter; place roasted birds around it. Ring with the cinnamon'd apples and border with green leaves, using holly, laurel or curly kale. Makes 6 servings. (You may use the white or brown rice in place of wild rice, following the same procedure.)

### Where Prescription Filling Is A Fine Art

Bennett Brooks, owner of the Edwards Heights Pharmacy, prides himself on the excellence of the prescription department the store boasts. Edwards Heights Pharmacy has a wide reputation in Big Spring for the quality of its prescription work, for the efficiency with which prescriptions are filled. Only the best drugs are used and the

prescription has to match up to exactly what the doctor ordered. Edwards Heights Pharmacy is located at 1909 Gregg. There's always plenty of parking at Edwards Heights Pharmacy. And the store is a complete drug store — anything you want you can most likely find at this popular business establishment.

## Wagon Wheel Restaurant Famous With City Diners

Recommended by Duncan Hines and the American Automobile Assn., the Wagon Wheel Restaurant is a landmark for pleasant dining in Big Spring.

Long a meeting place for Big Springers, the Wagon Wheel has established a reputation for good food, a pleasant atmosphere, and courteous service.

It is an excellent choice for that occasional meal out for the family. Or, as a regular eating habit,

the Wagon Wheel is a favorite spot for many Big Springers. The restaurant located at 803 E. 3rd was the first Wagon Wheel location. Particularly at this time of year, it is usually the choice.

The first drive-in was opened several years ago at East 4th and Birdwell Lane. When you are in a hurry, it is a perfect spot for that after the ball game snack.

Recently, the third location was opened at 2011 Gregg. Another drive-in, it is on the way home from the movies or other family outings.

who strive to prepare your meal exactly as you order it. Only the best of meats, fruits and vegetables are used in your order. Courteous waitresses attend to your every request and insure an enjoyable occasion for your family. Whether for an afternoon cup of coffee or a complete meal, try the Wagon Wheel.

### FURNISH YOUR HOME FROM ONE ESTABLISHMENT

FOR BEST RESULTS USE HERALD CLASSIFIEDS

## Blue Lustre Easy Way Clean Carpet

Home for Christmas — is an all American custom. Getting the house spic and span for holiday guests has always been of prime importance to housewives everywhere.

Blue Lustre Carpet and Upholstery Cleaner provides the answer for a quick and easy method of cleaning rugs and upholstery without a lot of trouble and inconvenience. It is no longer necessary to send out your room furnishings to a commercial cleaner when it can be done with professional like results at home with the marvelous foam cleaner known as Blue Lustre.

This amazing product is a premium quality liquid concentrate which when mixed with water creates a billowy foam. The cleaning action of this foam instantly restores forgotten colors dulled by soil and separates the dirt particles from the fabric to allow easy removal by vacuuming. It can be applied to the carpet or rug with a long handled brush or it can also be used in any type of rug shampoo applicator. Since Blue Lustre is a special formula that contains absolutely no soap, it is never necessary to rinse and no oily or gummy residue remains to cause rapid resoiling.

It is an excellent cleaner for upholstered pieces and has become first choice among housewives to keep their room furnishings in spic and span condition at all times.

More and more homemakers have discovered the wonderful advantage of using Blue Lustre to clean soiled spots or traffic pathways as they appear without the necessity of going over the entire carpet again.

Blue Lustre is a gentle cleaner, safe for the finest oriental rugs and because it is odorless, there is no lingering scent after cleaning is done. Blue Lustre is safe to keep around the home and comes in convenient sizes — quarts, half gallons and gallons. With Blue Lustre, rugs and upholstery can be kept clean with very little cost for one half gallon of Blue Lustre concentrate is sufficient to clean three 9x12 rugs. It's available at Big Spring Hardware.

## Timely Gift Ideas Offered

Looking for a gift for someone which is both beautiful and useful? How about a modern typewriter?

In these days, typewriters are a "must" for everyone. Students can find use for one every day; housewives need them for correspondence. And of course, Dad has to use one in his office and at home. A portable is a handy sort of a typewriter around any home. It's practical for general use; it's easy to take along when on a trip. And the modern portables, beautifully designed, are eye-catchers wherever they are placed.

Thomas Typewriter and Supply Co., 107 Main, would be happy to show you its wonderful assortment of typewriters. There's one in Thomas' stock to fit exactly the need you have in mind. There are many other items in Thomas' stock which are ideal as Christmas gifts and which offer both beauty and utility in one happy combination.

Why don't you drop by Thomas and look over what is offered? Or, if you wish, telephone the store at 4-6021 and find out what the well-trained employees of the store can suggest in solving your Christmas shopping problem?

## Butane Heating System Has Many Fine Features

Dissatisfied with the present heating system in your home? Isn't it warming every part of the house? Is it too expensive?

Perhaps you'd find a change to butane ideal. Butane is fast becoming recognized as one of the most popular, safest and economical fuels used in the country.

A local agent for butane and propane gas is S. M. Smith, who operates a business in his own name in Big Spring. He maintains his office on the Lamesa Highway, just inside the north city limits.

No matter what size house you have, Smith can install for you a system that will provide radiant

heat for every part of it. Smith's butane systems come in all sizes and he and his employees see to it that such systems are kept supplied with plenty of fuel.

Butane is especially popular in rural areas, where the gas serves many duties. Tractors and other farm implements can be operated with it. It can be used to provide heat for chicks kept in incubators. And it can heat the dish water for the woman of the house.

Equipment is built especially for the use of butane, as Smith can show you if you call for a demonstration.

## Bright Lights And Yule Time Work Together

Christmas is a season which is traditionally allied with brilliant light.

Make your home light and gay at Christmas. Check out your electric service. Make sure all the lights are operating at top efficiency. Consult with the Texas Electric Service Co. on any special lighting idea you have associated with the Christmas season.

Highest Leap In History

Air Force Capt. Joseph W. Kittinger Jr. is shown in this photograph by a fixed camera as he stepped over the side for a delayed parachute jump from 76,400 feet over New Mexico. He fell for almost three minutes at speeds up to 450 m.p.h. until his parachute automatically opened at 12,000 feet. He made the jump from a balloon.

## Police Study Paid Death Plot Story

HOUSTON (AP)—Police today studied a woman's statement outlining terms of a murder contract in which the killer was to put up land as collateral toward a cash advance.

The signed statement by Mrs. Maggie Morgan, 45, came in the investigation of the gun slaying of Mrs. Joseph Selby, 48. The victim's husband, 51, told police he hired her slayer at a "bargain price."

Police charged him with murder and conspiracy to commit murder and jailed him without bond. No charges were filed against Mrs. Morgan, in whose home officers found a .45 caliber submachine gun Saturday.

The Negro woman told officers Selby read her the murder pact over the telephone the week before Mrs. Selby was killed. The slaying took place last Monday night in Selby's fashionable suburban home.

Police have not located the murder weapon.

Mrs. Morgan said the contract provided for a "Lizzie Lee" to find someone to kill Mrs. Selby in return for an unspecified amount of money. The money, she said, was to be returned if the slaying was not committed.

Cash advanced for the act was to be secured by land owned by Lizzie Lee, Mrs. Morgan said. Police said they were unable to locate anyone by that name.

Selby gave Mrs. Morgan \$1,000 to finance the killing, he said. Mrs. Morgan agreed she received it but said she later returned it and did not carry out the arrangements.

Patra Mae Bounds, 31, a massage parlor maid, said she referred Selby to Mrs. Morgan after he asked her to find someone to "get rid of somebody."

Selby said, "Pat had told her what I wanted done, and she said it would cost me \$3,000. But even that was a bargain price, but since I was a friend of Pat and Pat was a friend of hers, she (Mrs. Morgan) agreed to \$1,500."

The neatly dressed accountant, partner in an accounting firm, brushed off questions of newsmen as he entered the jail. "I don't want to talk. Please, no talking now," he said.

Selby said his marriage had

turned into a torment of haggling and nagging. He said he had Mrs. Selby killed because he feared she was arranging to do away with his life.

Selby's statement did not mention the contract Mrs. Morgan claimed he read to her.

## Union Leader Calls For Fund

McKEESPORT, Pa. (AP)—Donald C. Rarick, who in the past has found fault with United Steelworkers' leadership, said today the AFL-CIO should set up a fund to assist steelworkers if they strike again.

Rarick gained prominence in 1957 when he unsuccessfully opposed USW President David J. McDonald's bid for re-election. He also headed a dues protest committee that fought against an increase in the USW membership dues.

Rarick, now president of the USW local at U.S. Steel Corp.'s Irvin Works in McKeesport, said he plans to write to George Meany, president of the AFL-CIO, and recommend that a strike fund be formed immediately.

"McDonald has my full support in the USW effort to win a new labor contract with the steel industry," Rarick said, referring to a 116-day strike that was halted Nov. 7 by a Taft-Hartley injunction.

"As conditions now stand there seems no other course but to renew the strike when the injunction expires Jan. 26," he added. "But the AFL-CIO should bear some of the burden and aid the steelworkers if the strike is renewed."

Rarick said he plans to ask Meany to make plans for establishment of a strike fund which would guarantee steelworkers some weekly income if the strike is renewed.

"I think each international union should contribute a lump sum to the fund and then assess members certain amount each month," he said.

DEAR ABBY

## MIXED EMOTIONS

By ABIGAIL VAN BUREN

DEAR ABBY: I agree with your statement that Peeping Toms (and others guilty of moral offenses) should be reported. But I don't think they should be reported to the police. They should be reported to their wives and families so they can get the psychiatric treatment they need instead of the shame and disgrace they get when reported to the police. You wouldn't report him to the police if he had cancer, would you?

S. W. DEAR S. W.: Peeping is a symptom of a mental illness which often results in rape, murder and violence to small children and unsuspecting women. Police records show that almost every sex offender has had an early record of peeping.

While peeping itself may not be a serious crime, it is only fair to society to let the police know who these offenders are. Wives and families cannot always be depended upon to get the sick person to the psychiatrist in time.

DEAR ABBY: The Peeping Tom letter brought back memories of an experience I had years ago. I spent many nights home alone as my husband traveled. One night I heard noises in the bushes outside my window. When I looked, I saw the figure of a man crouching there. I called the police, but by the time they arrived he was gone.

Later that summer I heard a strange noise at my back door. I crept quietly into the kitchen in time to see a man's hand cutting my screen door. I quickly connected my flat iron which was standing handy, and just as he was about to unlock the screen

door, I pressed hot iron to his hand. He fled.

The next morning, my neighbor told me that her husband had burned his hand badly while trying to fix their heater. He was one of the most respected family men in town.

GOOD MEMORY DEAR ABBY: I was tickled to death to see that item in your column about PEEPING TOMS. I was a police reporter for 22 years and I know from experience that a guy who hangs around windows trying to get a thrill is a dangerous character. Sooner or later he gets himself worked up to a pitch where somebody gets hurt. You should run that letter again, Abby, and have it set in sixty-point type so nobody will miss it.

"COOP" (Cicero, Ill.) DEAR ABBY: I think your answer to that Peeping Tom business was all wrong. What's so bad about looking in a window and watching a lady undress if her shades are up?

I think if you are going to report the man who is looking, you should also report the lady who gives him something to look at.

## Laos Expected To Withdraw Anti-Red Charge

UNITED NATIONS, N.Y. (AP)—Laos is reported planning to withdraw her complaint to the U.N. against North Viet Nam in an effort to ease her relations with that Communist country and Red China.

Authoritative diplomatic sources said both India and U.N. Secretary General Dag Hammarskjold had urged the Laotian government to withdraw its charges that the North Vietnamese committed aggression by their aid to Communist, Laotian rebels.

The informants said Laos could send Hammarskjold a letter within two weeks saying conditions no longer were as they were on Sept. 4, when Laotian Foreign Minister Khamsouan Panva cabled Hammarskjold that his country faced "flagrant aggression" from North Viet Nam.

This would enable the Security Council to strike the Laotian case from its standing agenda.

Hammarskjold took all practical purposes took the matter off recently when he made a flying inspection trip to Vietiane, the Laotian capital.

NO TROOPS The council, acting on the Laotian complaint, sent a fact-finding subcommittee to Laos. The group reported evidence that North Viet Nam had supplied arms to Laotian rebels but said it did not find that North Vietnamese troops had come into Laos. This failure to support the key Laotian allegation made any further council action unlikely.

Laotian officials still insisted North Vietnamese troops had crossed their border but they said the troops pulled out after the council met, and rebel raids slackened off.

The Laotian government asked Hammarskjold to come to Vietiane and to station a personal representative there, saying this would keep things quiet. During his visit he summoned Sakari Tuomioja of Finland, executive secretary of the U.N. Economic Commission for Europe.

Hammarskjold instructed Tuomioja to report in New York within four weeks on Laos' economic situation and need for U.N. economic and technical aid—meaning to give him information required for a judgment regarding other assistance the U.N. might give.

Indications are that the secretary general is working for strict neutrality for Laos, which is protected by but not a member of the Western-sponsored Southeast Asia Treaty Organization (SEATO). At a dinner in Vietiane, Hammarskjold commended Premier Phoui Sananikone for a public statement that Laos was following the path of neutrality and relying on the U.N. to defend her.

Garner Widow Portrait Gift Solemn Moment

UVALDE, Tex. (AP)—Former Vice President John Nance Garner—the once crusty but now mellow Cactus Jack—marked his 91st birthday here Sunday with a huge cake and a quiet party given by old friends.

There was one solemn moment at the informal party during which Garner waxed sentimental or humorous as he swapped jokes and political yarn-spinning with his neighbors.

It came when his son, Tully Garner, formally presented him with a portrait of the late Mrs. Garner, who was the former vice president's chief administrative aid and advisor in his long political life. "The portrait was painted by Garner's only grandchild, Mrs. John Currie.

Obviously moved, Garner said, "I know you men have wonderful wives but not one of you has a wife as good as mine was."

Garner, who retired from politics in 1940 after a historic break with Franklin D. Roosevelt over the third term and the Supreme Court issues, said only that he wants to live to be 92 so that he can square off his years of public and private life. Garner spent 46 years in public service.

After the early-morning birthday party, there was a quieter family get-together later in the day. It included Garner's great-grandsons, John Garner Currie, 15, and Tully Robert Currie, 12.

The birthday cake was an 18 by 36 inch pastry and candy replica of the log cabin where Garner was born in Red River County.

"That log house did me more good in politics than anything I ever said," Garner commented. "It was real. It is a fact that I lived there for seven years and I remember it well."

Today Garner resumes his routine of picking out pecan meats as gifts for his friends, feeding his bantam chickens, reading, and watching television.

"That's all I have to do these days," Garner said.

17 Railroad Cars Fall Into Trestle

CARROLLTON, Tex. (AP)—Seventeen cars of an eastbound Santa Fe freight train plunged through a high trestle two miles west of here Saturday night. No one was injured.

Railroad officials said a faulty wheel flange on one car of the 30-car train ripped up a rail, the following cars piled up and collapsed the trestle.

They said the tracks probably would not be cleared until Tuesday. Trains were being rerouted.

## Teen-Agers Start Fund To Aid Youth Paralyzed In Auto Crash

SAN MATEO, Calif. (AP)—It started as simply as this: Let's do something for Ron.

It mushroomed until boys and girls in two high schools hope to raise several thousand dollars for Ron Arrillaga.

Ron, 17, suffered a Roy Campanella type spinal injury in an automobile accident Nov. 10. Doctors doubt he ever will regain use of the lower portion of his body.

## Palm Beach Or Bust

PALM BEACH, Fla. (AP)—If the axes don't bust and the injuns stay friendly, the covered wagon honeymooners ought to fetch Palm Beach by sundown today.

Robbie Robinson, 36, a Clewiston cowpoke, and his 25-year-old bride, Claire Jennings, have a stake in a speedy voyage aboard their authentic prairie schooner.

A Clewiston barbecue stand where she worked as a waitress offered the couple a free honeymoon in a Miami Beach hotel if they can make the 150-mile trip there in four days. Their two-horsepower rig made better than 25 miles before dark their wedding day.

Cowboy friends of Robinson gave the couple a whooping send-off after a peace justice married them at the barbecue stand Sunday afternoon.

The couple made its first overnight stop near Belle Glade. En route, they unhitched their horses to help an automobile out of a ditch, and amazed a good many other motorists.

perhaps \$100,000, most of it not covered by insurance.

Ron, a senior, was widely known among his school mates, but so quiet and mild mannered you never heard about him. Not husky, he nevertheless made the track team as a shot putter.

Why the spontaneous outpouring of teen-age aid?

"He's a real nice kid; everyone liked him tremendously," said Principal Allee.

Roy Campanella, former Brooklyn Dodger catcher who suffered an injury similar to Ron's a few years ago, has fought doggedly to partially regain use of his limbs, informed by The Associated Press of Ron's condition, he sent this word:

"Keep your chin up, Ron. Have lots of faith and The Good Lord will help you."

Ron has kept his chin up.

"If I can just use my arms. If I can feed myself and not have to be waited on, I guess I can learn to get along without my legs."

Hillsdale's music department is giving its annual Christmas concert for Ron. Principal Roy Allee hopes the Dec. 16 and 17 musicals will gross \$2,000.

There are other money raising plans.

Ron's mother estimates his hospitalization and treatment will cost \$100.

Hillsdale's music department is giving its annual Christmas concert for Ron. Principal Roy Allee hopes the Dec. 16 and 17 musicals will gross \$2,000.

## AF Ends Hunt For Capsule

VANDEMBERG AIR FORCE BASE, Calif. (AP)—The Air Force Sunday night ended the search for the missing capsule of the Discoverer VIII satellite. What happened to it is still a mystery.

It separated from the orbiting rocket over Hawaiian waters Saturday and dropped toward the ocean. Air Force planes had hoped to snare it as it parachuted down, but the chute may not have opened.

The planes missed it, and so did a search vessel—although both planes and the ship received radio signals from the capsule's transmitter.

The recovery project is described as an important step in learning how to send a man into space in a satellite—and then bring him back safely to earth. Four previous recovery tries also failed.

The Discoverer VIII rocket will orbit perhaps two more months, spokesmen said, it was launched here Friday.

# LOOKING 'EM OVER

By TOMMY HART

School officials at Forsan and Gall were pleased as punch over the turnout for their bi-district eight-man football game here last week and said they planned to explore the possibility of arranging future playoff games in this city.

The contests drew 1,300 paid admissions and a gross gate of \$908. Most of that is profit, since the sponsoring organizations here, the Chamber of Commerce and the Quarterback Club, underwrote most of the expenses of the contest.

Kenny Washington Jr. is now playing freshman football at the University of Southern California.

His father was a famed back for UCLA in the '30's but his son chose to forgo his dad's old school because he is eyeing a career in pro baseball. Jackie Robinson was a sophomore at UCLA when Kenny played his senior year there and went on to baseball stardom in the big leagues. However, USC is considered a real giant on the baseball diamond and Kenny Jr. reasons he has a better chance to jump to the majors from there.

Radio station KBST Big Spring will broadcast some of the state high school playoff games again this fall.

It's one of 26 stations throughout Texas which have been authorized to carry the play-by-play accounts.

Ed McKeever, the former Texas Tech griddler and Notre Dame coach who has been nominated for Sports Illustrated magazine's Silver Anniversary All-American roster, is the fellow who had so much static with West Coast writers a few years ago.

McKeever played at Tech along about the time that Speedy McFetti, the former Big Spring coadjutor, was the star quarterback there.

For about the past 10 years, McKeever has served as executive secretary for the Association of General Contractors at Baton Rouge, La.

The Pecos Kingdom Association organization dedicated to better fishing, will hold their annual meeting and banquet in Breckenridge at 7:30 p.m. Tuesday, Dec. 8.

Principal speaker for the occasion will be Cecil (Cy) Reid, executive secretary of the Sportswoman's Club of Texas and a one-time star miller and basketball player for Big Spring High School.

Bob White, an All-American football back for Ohio State University last season, failed to score a touchdown for the Bucks this year.

Don't be surprised if Eddie Erdelatz, the former Naval Academy coach, succeeds Sid Gillman as coach of the Los Angeles Rams before next spring.

In eight years of high school and college football, John Crow, the former Texas A&M great, played with teams which lost only eight times.

In two years with the Chicago Cardinals, however, he's learned how to lose. He and his mates have dropped 15 decisions during that time.

Young Jack Eisenhart, son of the Webb AFB commander here, is considered a real athletic comer by Goliad Junior High coaches.

## Molla Mallory Dies

NEW YORK (AP) — Molla Bjurstedt Mallory, 67, who ruled the women's tennis world before and after World War I, died Sunday in Stockholm, Sweden, after a long illness. Her stepson, Stanford C. Mallory said she had gone to Sweden in July to visit a sister. She was born in Norway and came to this country in 1914.

## LSU Star Drafted By Houston Entry

By JIM KLOBUCHAR  
MINNEAPOLIS, Minn. (AP)—A tempest over the pro football future of Minneapolis-St. Paul got the American Football League off on a bewildering start today in its struggle of go into action by 1960.

An 11th hour attempt to swing the Twin Cities into the National Football League failed, for the time being at least, to dislodge the Minneapolis-St. Paul entry from its membership in the new league.

Armed with a pledge by the cities' principal backers that they will stick with the AFL and field a team next year, league organizers went ahead with plans for a player draft begun Sunday night.

The American League sounded its challenge to the durable and successful NFL by drafting some of the most renowned names in college football in the opening round of its selections.

All undoubtedly will be drafted by the NFL also, raising the signal for an inevitable bidding fight to sign them to contracts.

The first player selected by the AFL was Southern Methodist's star quarterback Don Meredith, picked by Dallas.

Houston drew All-America halfback Billy Cannon of Louisiana State and Buffalo drafted quarterback Richie Lucas of Penn State. Quarterback George Izo of Notre Dame was picked off by the New

Young Man In A Hurry

Ronnie Clanton (above) looks for running room as he starts a touchdown run against Odessa Permian for Big Spring. The action occurred in last Friday night's District 2-AAAA game, won by Permian, 38-27. Clanton, a junior, scored three touchdowns for Big Spring.

# SUNDOWN A PERENNIAL POWER IN PLAYOFFS

Sundown, which meets Menard in the Class A Regional playoffs here Friday afternoon, has been in the title round six of the last seven years.

Plains broke the monopoly of the Roughnecks last year and then beat Odessa of District 6-A here before eventually losing to White Deer, the ultimate champion of that division.

Some observers say Sundown will go "all the way" in this year's race. Only Denver City has beaten the Roughies this season and Denver City is one of the powers in Class AA ball.

Sundown ran up 373 yards rushing and 104 passing against Roscoe in winning last week's bi-district game at Lamesa, 36-0.

Sundown, coached by Ray Hopkins, is a comparatively light team. Its line averages out to only 153.9 pounds per man.

Two years ago, Sundown battled their way to the Class A semifinals before losing on penetrations. The Roughies, however, averaged 41.1 points a game this season in 11 starts, while holding the opposition to an average of 10.9 points a start.

Haskell Davis, who is only a sophomore, leads the Roughnecks in scoring this season with a total of 136 points. He raced 90 yards for a TD against Roscoe last week on Sundown's first place from scrimmage.

Fullback Lewis Sessums, a converted tackle and the only boy on the Sundown starting lineup to weigh more than 200 pounds, counted two touchdowns for Sundown against the Plowboys on runs of 12 and 27 yards.

Bill Bates got another on a pass from Robert Foster while David McInturff crowded into the end zone after taking a pass from Foster.

Against Roscoe, Davis led the Sundown ball carriers with 140 yards picked up in seven carries. Sessums added 136 in 15.

Tickets for the game will sell for \$1.50 adult and 50 cents for students.

## Bud Tucker Loses Horse On A Claim

Fleet Sis, belonging to E. C. (Bud) Tucker of Big Spring, finished first in the second race at Sunland Park in Anapra, N. M., Saturday, covering the six furlongs in 1:11.1. Her rider was C. Deteige.

Tucker lost the speedy filly on a claim, however. E. L. Wood and H. T. Gambelin placed a claim on her for \$1,500.

Fleet Sis paid \$9.70, \$6.00 and \$3.70 across the board and earned her owner \$700.

Burning Muse was second and Madero Dream third in the race. The estimated attendance Saturday was 5,500 while the pari-mutuel handle amounted to \$155,475.

There was the night he won the heavyweight crown in a wild scramble with Primo Carnera. Time after time Baer's smashing right sent Carnera to the canvas. In the tenth round a Baer swing not only dropped Primo but sent Maxie tumbling to the canvas on top of him.

# Puzzles Remain In College Ball As End Nearing

By HUGH FULLERTON JR.  
Associated Press Sports Writer

The 1959 college football season, an unpredictable and confusing thing from the start, heads into its final stages with almost as many unanswered questions as a soap opera's last act.

Will Louisiana State and Penn State decide today to accept the bowl invitations that already have been proffered?

Can Syracuse, after an extra week of viewing with alarm, survive the really potent threat of UCLA and finish the season as the only unbeaten and untied major team?

So far, only one of the two major bowl games is set with its terms. Three others have firm acceptances from one team and one, the Gator Bowl, has a conditional acceptance.

Washington earned the right to represent the West in the Rose Bowl by thumping Washington State 20-0 last Saturday. Wisconsin, surviving an 11-7 squeaker against Minnesota while Northwestern was taking a 28-0 thumping from Illinois, became the first two-time loser ever to win the Big Ten title.

The Badgers were selected Sunday, though not unanimously, as their conference's representative.

Syracuse had accepted a Cotton Bowl bid even before its ninth straight victory, a 46-0 breeze against Boston University. Syracuse is idle this week before meeting UCLA, which knocked Southern California from the unbeaten list 10-3.

Missouri earned a place in the Orange Bowl by beating Kansas 12-9 to take second place in the big eight behind Oklahoma, which won its 12th straight title. Texas Christian accepted a bid to play in the Dec. 19 Blue-Bonnet Bowl at Houston after whipping Rice 35-6.

Arkansas, discounting its chances for an undisputed Southwest Conference title and an automatic bid to play Syracuse in the Cotton Bowl, already has committed itself conditionally to the Gator Bowl Jan. 2.

Texas can tie Arkansas in the conference by beating Texas A&M Thursday and TCU can tie it by whipping Methodist Saturday.

In the event of a tie, Texas has the bowl call.

Penn State, despite its surprising 22-7 loss to Pitt, still is first choice for the Dec. 19 Liberty Bowl in Philadelphia and Louisiana State is No. 1 on the list for the Sugar Bowl, which is contemplating a replay of the LSU-Mississippi game. LSU players are slated to vote on the matter this evening.

Clas AA and A will be playing second round games with this schedule:

Thursday — Odessa vs. Denver City at Littlefield; Friday—Stamford vs. Clisco at Abilene (night), Olney vs. Bonham at Denton

## Officer Slate Filled By Club

The Gordon Marchant home here was the scene Saturday evening of the monthly meeting of the Big Spring Nock and Feather Archery Club.

The officers' slate was filled out with the addition of Jerry Schoenfeld as vice president and handicapper chairman; Dale Marchant, secretary-treasurer; Cliff Wright, tournament chairman; and Florence DeMott, publicity.

Gordon Marchant had previously been elected president, along with Delton DeMott, field captain; and Bob Brown, assistant field captain.

Haley Haynes, secretary of the Western Sportsman Club, was a guest of the club and answered questions in regard to the archery club's affiliation with and responsibilities to the Western Sportsman Club.

The club will have an informal gathering at 1808 Alabama Street at 7:30 p.m. Tuesday, Nov. 24, for a target making session. Those who would like to take up archery have an open invitation to attend.

Monthly shoot dates have been changed to the second and fourth Sundays to comply with Texas Field Archery Association rules. Monthly meetings are to be held on the Saturday following the second Sunday in each month.

On Dec. 13, club members will shoot at 25 field targets, with first, second and third place medals in the offering for men, women and intermediates. This will be a handicap tournament.

An animal target shoot is scheduled for Dec. 27. Attractive, life-like targets will be used.

# Giant-Colt Return Title Match Looms

By MIKE RATHET  
Associated Press Sports Writer

Charley Conerly and Johnny Unitas are steering their teams toward a replay of last year's sudden death struggle for the National Football League championship.

The 28-year-old Conerly, a veteran of 12 pro football campaigns, fired a New York second half rally with two touchdown passes Sunday as the Giants whipped Chicago's Cardinals 30-20 and took over sole possession of first place in the Eastern Conference.

Still hobbled by the ankle injury that had sidelined him for two games, Conerly pitched 33 yards to Frank Gifford and one TD and arched a 45-yarder to Bob Schmecker for another score to erase a 14-13 Cardinal lead.

Equally adept at the quarterback post, the 26-year-old Unitas led Baltimore to a 45-14 thumping of San Francisco. The triumph enabled the defending champion Colts to deadlock the 49ers for the Western Conference's top spot.

The Giants now lead the Eastern Conference pack by one game over Cleveland and Philadelphia, who are tied for the runner-up position with 6-3 records.

The Browns were kayoed by the Pittsburgh Steelers 21-20. The Eagles edged Los Angeles 23-20.

The Colts and 49ers, both 6-3, are a game up on Chicago's fast-rising Bears, 24-14 conquerors of Detroit. Green Bay held fourth with a 21-0 blanking of Washington.

Conerly had to share star billing with field goal specialist Pat Summerall, who turned into the entire Giant offense while Conerly rode the bench. Summerall kicked against the Cards (2-7), making it 16 for the season—seven short of Lou Groza's record.

The 49ers suffered a blow late in the game when quarterback Y. A. Tittle suffered a calf injury. He'll be lost for next week's game with Cleveland.

The Steelers (4-1) pulled it out against the Browns just as they had against the Giants last week. With 40 seconds left before the day's largest crowd of 68,563, Bobby Layne passed 17 yards to Gene Nagler to tie it up. Layne then kicked the winning conversion.

Paige Cothren's third field goal for the Eagles, a 14-yarder with 20 seconds remaining, beat the Rams (2-7). The Rams had pulled into a tie about a minute and a half before led-footed kicker Lou Michael booted a 38-yard three-pointer.

The Bears (5-4), ably guided by Ed Brown, turned three recovered fumbles and an interception into a 24-0 lead. The Lions (2-4-1) scored after a roughing penalty which resulted in Charles Sumner's expulsion had placed the ball on the 1.

Bart Starr connected for two touchdown passes as the Packers broke a five-game losing streak with their fourth win. The shutout was Green Bay's first since 1949 and No. 1 for the Redskins in a rivalry dating back to 1935. Washington (3-6) played without quarterback Eddie LeBaron who has a cracked rib.

## SUNLAND PARK RACE RESULTS

FOR SUNDAY, NOV. 23  
FIRST RACE — Three year olds and up — six furlongs. Route Two 8:55, 2:30; Sunland 9:00, 2:30; Pecos 9:15, 2:30; Lyle 9:30, 2:30.  
SECOND RACE — Three year olds and up — six and one-half furlongs. Jones 8:30, 3:00, 3:30; Dixie Wizard 5:70, 4:30; Alma Hunter 4:50, 5:10; 1:10 2:5.  
THIRD RACE — Three year olds and up — quarterhorse — 400 yards. Shady 3:30, 3:40, 4:00, 4:20; Spanish Charge 3:30, 3:40; Buster's Chick 3:30; time 2:3.  
FOURTH RACE — Three year olds and up — one mile and one sixteenth. Seaman 4:50, 5:20, 5:70; Trial Warrior 15:00, 5:30; Hank and Hal 4:30; time 1:46.  
FIFTH RACE — Three year olds and up — quarterhorse — 400 yards. Irish Day 16:70, 1:20, 3:30; Kayyuu 2:40, 4:40; L'l Chilla 1:20; time 2:15.  
SIXTH RACE — Three year olds and up — one mile and one sixteenth. Will 5:40, 5:40, 5:40, 2:30; Charlie J 2:30, 2:30; Danmore 1:50; time 1:43 1/2.  
SEVENTH RACE — Three year olds and up — "The Gallant Man" six furlongs. State Face 14:40, 5:50, 3:20; Little Thunder 5:10, 3:30; Jimo 2:30; time 1:31 3/4.  
EIGHTH RACE — Three year olds and up — "The Cristo Rey Airport" six and one-half furlongs. Steady Betty 6:20, 1:20, 3:30; Just-A-Dream 2:30; Gold Trust 2:30; time 1:17 3/4.  
NINTH RACE — Three year olds and up — "The Shoemaker Purse" five and one-half furlongs. Steady Model 8:30, 4:30, 3:40; Blue Flash 5:70, 4:30; Will Mearns 5:40; time 1:24 3/4.  
TENTH RACE — Three year olds and up — one mile. Sport Arrive 14:00, 6:00, 1:40; Gill 1:50, 4:30; Rowdy Joe 8:30; time 1:28 3/4.  
Daily Double paid \$24.10. Quintupla paid \$22.10. Total handle \$28,712. Estimated attendance 10,620.

## Sands Girls Win Eighth In Row

ACKERLY (SC) — Basketball teams representing Sands Consolidated School and Klondike broke even in Homecoming games played here Saturday night.

The Sands girls won their eighth straight game, 58-29. Brenda Woods scored 25 points for Sands. Janice Bearden had 20 and Jeanette Ray 13.

Joan Robison had 13 for Klondike. Glenda Alhartz seven and Jen Adams four.

Klondike's boys finished on the long end of a 43-35 score. Neel Beem had 14 points for Klondike. Legall Garrett 11 and Charles Farham ten.

Weldon Meix tossed in 13 for Sands. David Bearden had ten and Ike Wasson six.

The Sands boys and the girls B teams go to Stanton tomorrow night for games while the Sands girls' A team and freshmen visit Coahoma.

## Soergel Honored

WICHITA, Kan. (AP) — Oklahoma State's Dick Soergel was named "Rookie of the Year" today for non-pro baseball.

**Owners Of Art Find**

Alfonso Folio, a television repairman who came here from Italy three years ago, and his sister, Mrs. Maria Hataburda, talk with newsmen at Folio's Pasadena, Calif., home about 10 paintings they own. An art expert believes they are old world masterpieces and estimates their value at 5 to 10 million dollars. Folio said his sister brought the paintings to the United States 15 years ago. They said their family had owned the paintings for generations but never realized they may have great value.

**Shirley Jones Finally Makes Total Circuit**

By JAMES BACON  
AP Movie - TV Writer

HOLLYWOOD (AP) — Once typed as a sweet, old-fashioned girl, Shirley Jones is making the jump from fluffy crinolines to sexy slips in her current movie role.

For a little girl who used to sing in the Methodist choir in Smithton, Pa., and made her movie debut as the pure heroine in "Oklahoma!", Shirley is going about as far as she can go in "Elmer Gantry." This is the controversial Sinclair Lewis novel about evangelists that Hollywood held off filming until the current trend toward treating seamy themes.

"I play a minister's daughter who becomes a prostitute and my purpose in life is to bring the minister (played by Burt Lancaster) down to my level," Shirley says.

Shirley, a regular churchgoer, realizes the religious storm that the picture — and especially her role — may bring.

"I hope that people will realize that it's just a role, an isolated instance," she says. But, she admits, she asked for it.

Five years ago, Shirley became a star overnight as Laurey in "Oklahoma!" Next came an even rarer part as the heroine in "Carousel."

"I have no regrets about being cast as sweet and pure in my first pictures," she remarks. "I wouldn't even be in the business if it weren't for those two parts."

The movies made money but did little long range good for Shirley. In the silent days, a sweet and pure heroine could go on for years of top stardom. But nowadays, moviemakers want even their heroines a little on the bad side.

About three or four years ago, Shirley embarked on a campaign to make herself noticed as a sexy actress instead of a perpetual ingenue.

First she dieted off the cute baby fat to become a svelte 113 pounds. Her curves remained. She wore her hair in short sophisticated styles. Form-fitting black dresses became an important part of her social wardrobe.

**Eli Whitney Gin Gets Passing Notice**

By CYNTHIA LOWRY  
AP Movie - TV Writer

NEW YORK (AP)—Some of us who have always associated the name of Eli Whitney with the cotton gin were expecting Sunday night's "Our American Heritage" drama to be full of plantation scenes and spirituals. The NBC biographical drama, however, was briskly concerned with a man who invented mass production and was a market maker.

Except for passing mention that growers were "waiting about green seeds plugging their cotton," and a glimpse of a box the size of a small suitcase, there wasn't much about Whitney's famous gin. He didn't make a cent out of it although it revolutionized the South, and he invented it in a couple of days during a southern visit.

The play was concerned with his life after he returned home to New Haven, bitter because Southern courts had not upheld his patent rights. Within minutes, however, he was inventing the production line—as soon as he saw Peggy Ann Garner cracking walnuts under the rocker of her chair. Don't ask me how the walnuts inspired that reaction. The problem was that the 1797 federal government needed 10,000 muskets fast. Whitney figured he could stamp them out by using machines manned by unskilled labor.

Burgess Meredith played Whitney as a brusque preoccupied man so passionately concentrated on his inventions he had little time for anything else, including a pretty girl played by Miss Garner, who proposed to him three times.

This type of historical drama invariably has a principal character that is so involved in important world changing events that — in an hour show — there isn't time to do much about developing character and small human touches. Thus the play is not as gripping as it might be.

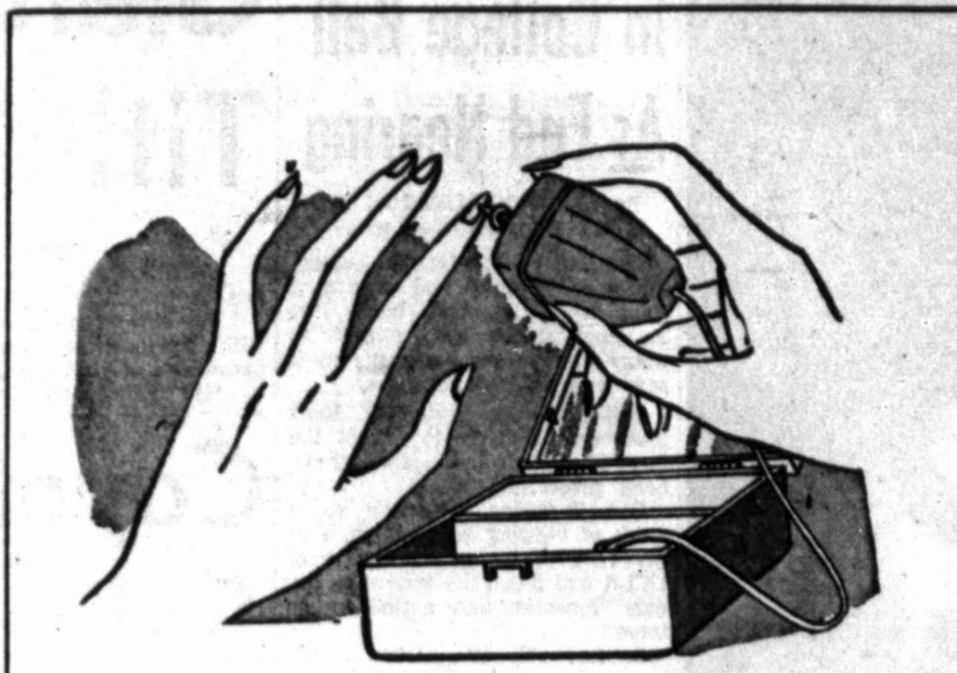

It was a great weekend for the music and dance lovers.

On Friday night, of course, there was the tasteful NBC Telephone Hour, this time playing Gertrude, the music, of course, was great, and the performers were, too—Polly Bergen, Vic Damone, Ella Fitzgerald and the engaging Marge and Gower Champion.

Gene Kelly arrived on Saturday night with more dancing and songs. The NBC show lacked the polish and the imagination of the recent Fred Astaire special, but had taste and verve. Kelly had Carol Lawrence and Donald O'Connor as talented helpers.

Then Leonard Bernstein and the New York Philharmonic played Mozart Sunday night on CBS. The film was taken in Venice during the orchestra's recent European tour and was enlivened by Bernstein's talks about the music and the composer.

"Small World" on CBS was a

**Electric Manicuring Set**

Amazing electric Lady Manicure gives manicures and pedicures at push of button. Runs on long-lasting batteries. Just touch Lady Manicure to fingernails. Delicate fast-spinning wheel safely files, trims, shapes nails. Vibrating action stimulates nail growth while at same time gives long, lovely, tapered nails. Ideal for the whole family . . . 5.40.

**AN IMPORTANT MESSAGE TO PRIVATE CAR OWNERS FROM THE BIG SPRING ASSN. OF INSURANCE AGENTS**

Because of public demand, the State Board of Insurance has adopted the TEXAS SAFE DRIVERS INSURANCE PLAN effective January 1, 1960. The Plan provides for reduction in automobile insurance premiums for careful drivers who have had no accidents or moving traffic violations for a period of three years, this period being the three years ending 90 days prior to date of your insurance policy. Drivers with a record of accidents and traffic violations will be penalized by paying higher premiums.

All policies dated after January 1, 1960, will be issued only upon a written application completely filled out and signed by the applicant for insurance. Your INDEPENDENT INSURANCE AGENTS, listed below, members of the Big Spring Association of Insurance Agents, will assist and cooperate with you in the preparation of these applications.

The State Board of Insurance has ruled that any discounts under this plan cannot apply to policies dated prior to January 1, 1960. Because of the complex nature of this new program, the Big Spring Association of Insurance Agents are contacting their automobile policyholders with detailed information concerning the new plan approximately two months prior to their renewal date and will be happy to discuss this plan with any other interested party.

This PLAN is mandatory and all Insurance Companies and their Agents doing business in Texas must adhere to the rules and rates as adopted by the State Board of Insurance including the securing of the SIGNED APPLICATION.

## A Devotional For Today

When the brethren heard of us, they came to meet us as far as Appii forum, and the three taverns: whom when Paul saw, he thanked God, and took courage. (Acts 28:15.)

PRAYER: Our Father, this day we offer thanks to Thee for all the benefits of life. We realize what Thou hast done for us in the past. We know that Thy grace will ever be sufficient. Strengthen us as we push forward in the power of the Holy Spirit. In Christ's name we pray. Amen.

(From The 'Upper Room')

## Maybe We're Not Too Different

The Communist government of Poland last week gave the old lie to the New York Times' correspondent in Warsaw not on the usual totalitarian ground of "falsifying" or "exaggerating," but because he had been too thorough in his reporting and had covered items the Polish government did not want mentioned at all.

The accuracy and truthfulness of his reports were not questioned. He was told bluntly and flatly that any news in Poland wasn't news, but mere rumor, unless and until the Polish government gave the signal that it could be printed.

This was something new in Communist countries, the first time any totalitarian government had come right out and said it sat squarely on the news lid until it saw fit to get up, if ever. Red dictators have always boasted that theirs was "the freest press in the world."

That engaged our attention only momentarily; after all, we had known all along that the Communist news sources were carefully watched and guarded, and any reporter inside or outside the Soviet zone who dared tell the truth was certain to be punished.

But what knocked our eyebrows up to here was an item of U. S. origin. It told of the month-long investigation of news suppression in official circles in Washington and elsewhere in this country by a com-

mittee representing Sigma Delta Chi, the journalism fraternity, headed by V. M. Newton Jr., managing editor of the Tampa (Fla.) Tribune.

Mr. Newton said his committee's studies had shown that the news lid in Washington is on tighter now than at any time in the history of the American government, and that the coverage extended all the way down from President Eisenhower to minor officials.

What he means, we surmise, is that when the Washington press corps gets wind of an item of possible interest and concern to the American citizens and taxpayers, and starts out to develop the details, it finds some functionary of high or low degree has "classified" the pertinent information on some excuse or other. "Classified" has become a euphemism for suppression, either temporarily or permanently.

Our press is, of course, free; it can print any news it gets its hands on so long as it is not libelous or obscene, or doesn't endanger the national safety. But if the sources are closed to the press because some bureaucrat thinks its publication might embarrass him or his department or his coterie—and he can generally find an excuse to "classify" it—there is no story in Washington so much different from Warsaw or Moscow in this regard after all!

PLUCKING PETALS

## James Marlow Nixon's OK, But Rocky Can Do It Better

WASHINGTON (AP)—Cut through the smiles, handshakes and careful speeches—and New York's Gov. Nelson A. Rockefeller seems to be saying of his rival, Vice President Richard M. Nixon: "He could do it well but I could do it better."

In short, so far Rockefeller has been making a personality contest of his search for the Republican presidential nomination. He may have to keep on doing it or else try the high-minded approach.

For him the in-between tactic—political slant-bang—seems out. The odds against him—unless there is a change in events at home and abroad—are more than just the vice president's head-start toward the nomination.

It's no wonder that Nixon, an ambitious young man with two terms as vice president, has lined

up so many Republican pros on his side. He has worked hard for them, for the party, for himself, and in his job.

Nixon, of necessity, almost has to be tongue-tied in these next few months as he tries to sew up the nomination.

Since he has been closely identified with the Eisenhower programs, policies, and performances he can't do much more than promise a continuation of them.

That seems to make good political sense right now when the country is highly prosperous and the world looks a little nearer peace than it has in years.

Nixon faces one big handicap. He'll be in the role of defender. He is hardest hitting when he can be aggressive—as he was against the Truman administration—and not on the defensive.

But if Nixon, an important figure in the administration, is inhibited from criticizing it or suggesting switches, the same limitation would seem to apply to Rockefeller.

As a faithful Republican, needing Republican support to get the nomination at next summer's convention, he can't afford to be very critical of the administration, if at all, without splitting the party.

If he wants to appeal to the independent vote, Rockefeller may even feel restrained about criticizing Democrats since he has to hope for every vote he can grab off.

Nor is Rockefeller in a good position to tee off on Nixon. Rockefeller's tearing him down, to get the nomination, would be a wrecking job made to order for the Democrats if Nixon later was the one nominated.

But if Rockefeller can't bang the Eisenhower administration, avoids knocking Democrats, and lays off Nixon, what claim can he have on the Republican nomination?

Through personality alone he might try to convince the Republican press to pick him if they think Nixon couldn't win against a Democrat.

Or, he could offer new and constructive ideas to set him apart a bit from Eisenhower and Nixon but not so far that he will lose his Republican identity. That would be the high-minded, non-critical approach.

That might attract the independents, boost his standing in the polls, influence the pros. He's in a tough and delicate spot, although he has a big staff to help him get off it.

## Hal Boyle Shed Your Sins And Sleep

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

If you want to live longer, get more sleep. Many doctors now believe that if you don't sleep regularly a minimum of eight hours each night, you reduce your life expectancy.

Incidentally, the famous physician, Sir William Osler, gave this tip to his patients: "Undress your soul at night by shedding, as you do your garments, the daily sins, whether of omission or commission."

The first known helicopter was a model built in 1490 by Leonardo da Vinci. But the funniest remark ever made about the helicopter was delivered by an anonymous genius who observed, "It looks like something designed by a committee."

Motto for teen-agers: "If you want to be successful, be like the postage stamp. It sticks to one objective until it reaches it."

Our quotable notables: "Man's capacity for justice makes democracy possible," says Reinhold Niebuhr, "but man's inclination to injustice makes democracy necessary."

If you really want to lose weight, here are some interesting diet items to pep up your menu: One portion of rattlesnake meat contains 200 calories, five fried grasshoppers, 25 calories, 10 chocolate-covered ants, 250 calories, one serving of barracuda, 158 calories, and one small glass of skimmed hippopotamus milk, 80 calories.

Seven out of 10 adult Americans can drive an automobile, or, anyway, they claim they can.

Burial insurance dates back to Roman times. Since the average person then didn't live to be 20, they really needed it.

Where did the Germans get their name? In ancient times these warlike tribesmen hollered as they entered battle, so the Gauls called them "Germani," from a Celtic word meaning "to shout."

Laws peril: One of America's best-loved trees, the elm, already hard hit by Dutch blight, now faces a new menace in the form of a virus disease known as elm scorch. It takes four to six years to kill a tree, and there is no known cure.

Fashions in girls' names change once or twice a generation. But if you think the most common boy's name in the English-speaking world is still John Smith, you're absolutely right.

Man-in-the-street: "The only time a pedestrian has the right of way," says Robert Q. Lewis, "is when he's in an ambulance on the way to the hospital!"

How times do change! In medieval days the lending of money for interest was regarded as a sin. But today bankers are among the most respected members of the community.

Do you know who probably has the oldest army in the world? It is Pope John XXIII, whose 83-man Swiss Vatican Guard was founded around 1400.

It is said that in some parts of India it's okay to take a man's wife as long as you leave one in return. We've heard the same custom is now occasionally practiced at some parties in America's wild, wild suburbs. Somehow we never get invited to that kind of party.

## MR. BREGER

"I'm sorry, but you'll all have to be passed by the membership committee first . . ."

## Around The Rim Getting Hep To What 1960 Offers

What does the calendar year 1960 hold for us?

The economists say it will be a prosperous year, unless the cold war is called off. The astrologists say we will do all right, if we don't square Mars and Venus. The statisticians insist the odds are pretty much against us that we won't develop lumbago, get hit by a descending Sputnik or develop a craving for caviar sometime during the year.

The rural almanacs, who have the history of climate on their side, point out that it is apt to be a cold winter and a hot summer — which shouldn't be surprising. It's been getting cold in the winter and hot in the summer as long as I can remember.

With rains in April and May, perhaps, winds in March and utter calm in October, the ozone disturbed only by the partisan yells of football fans.

There'll only be one Friday the 13th during the year and that in May, whereas 1959 had three and two of those fell in succession — in February and March.

The bachelors can stand alerted. The first year of the new decade is it the last year of the old one? Will be Leap Year — which means La Femme Pelite can declare open season on the male animal any time after Auld Lang Syne is rendered the night of Dec. 31.

The new year will start on a Friday, which means a three-day holiday is as-

sured for the pleasure seekers, and the traffic experts are bound to be in good luck, reminding the citizenry that the death toll invariably goes up when the holidays are sandwiched around a weekend.

Baer's Agricultural Almanac says many areas can expect a severe cold wave Jan. 8-11, lots of snow Jan. 11-12 and still more snow Jan. 24-27.

The publication also states that more storms will occur Feb. 8-11, followed by skidding temperatures. Watch out for the period from Feb. 20-23 — a blue norther is apt to hit you in the face along about that time. The storm flags will also go up on March 4-7, March 9-11, March 16-17 and March 24-27. So says the trusty almanac.

West Texas snows, as rare as they occur, invariably cause more comment among the people than those which fall in other areas and just as invariably inspire more grumblings on the part of the residents if the after effects linger. People out here can't get used to (1) their cars not starting and (2) slipping on sidewalks.

Christmas Day next year will fall on a Sunday and some hard-hearted bosses might not be inclined to let their employees off the following day.

Incidentally, the year 1960 will have the same combination of dates and days.

Most of us hope we're around to see it.

—TOMMY HART

## Inez Robb

### No Wonder Kids Have Anxieties

It does not surprise me at all to read that American adolescents are haunted by worry, 22-carat anxieties and fe-flo-fum fear, as reported to the U. S. Office of Education by some 1,300 educators across the nation.

Never before in the history of the world have so many been psychod so constantly by such a large assortment of experts and buffets as have been American teenagers. The kids are being killed with analysis, both Freudian and admodian. It is a truism of any lab that you can only prod a butterfly on a pin just so much before it disintegrates.

But the above is only a small part of the burden of worry and anxiety that is making kids old before their time and their brows corrugated as with care.

KIDS HAVE PROBLEMS, all right, and no wonder! Right next door to the anxiety article is juxtaposed a companion piece explaining that the nation's adolescents are conservatively estimated to possess a spending budget of \$9.3 billion annually. WOW!

How can young people, with this much swag in their jeans, possibly be happy and carefree? They are probably up to their ears in the Dow Jones theory, Standard and Poor's statistics, and Barron's. Hostages to fortune, indeed!

Remember Laughing Electra of "The Children's Hour"? ("Between the dark and the daylight, when the night is beginning to lower, comes a pause in the day's occupation. That is known as the Children's Hour.")

Well, sir, if little Electra is laughing her head off today, it is probably because she has just made 10 points in one of these juicy, gyrating electronic stocks. And she's sick, sick, sick!

SO KIDS DON'T RESPECT their parents as they did in the good, old days? How can you expect a lad who has put his spare cash in A.T.&T. to look up to

his old man who lost his shirt three years ago in those penny uranium stocks?

Kids want SECURITY, this article points out, and adds, "They have thought long and hard about such subjects as financial stability, mortgages and the need to 'save.'" (It used to be the need to shove.)

Oh, don't peg me as one of those old fuddy-duddy who thinks modern youth is rude and off its rocker. My sympathies are with it. When I was an adolescent, my financial worries consisted of a dime every Saturday afternoon, after the dusting was finished. This sum enabled me to enjoy the matinee at the Bijou and either swoon over Blanche Sweet or scream over Harold Lloyd.

I WAS NOT FORCED to select and buy my own clothes, either, as I read in the custom from kindergarten on. I was relieved of this pressing anxiety by Mam, Grandmama and aunts who made my clothes. I don't ever remember having a store-bought garment until I was old enough to have a full-time job. (I must have been a retarded sad sack, since I didn't know any better than to be happy and well-adjusted.)

None of my boy cousins was neurotic over jalopies. They may have been a trifle nuts over bicycles, as I was over roller skates. But they were not bowed down by responsibility for or anxiety over an auto. They didn't have to worry about where their next 10 gallons of gas were coming from.

These modern adolescents with \$9.3 billion to spend annually earn one-third of that sum, or in excess of \$3 billion, which is more than J. P. Morgan made in a lifetime. Kids who have to scrounge up this much pay are already executive suite cases, jumpy as a yo-yo. And on top of all this, the wretched strain of going steady!

EXP wonder this is the Aspirin Age. J. Copyright 1959, United Features Syndicate Inc.

## J. A. Livingston Allen Dulles Qualifies As A Diplomat

Allen W. Dulles, director of the Central Intelligence Agency, is a skilled, shrewd, forthright, and serenely persuasive witness.

No member of Congress could have been angered, vexed or dissatisfied by his testimony before a subcommittee of the Joint Economic Committee examining the relative economic progress of the Soviet Union and the United States.

A Congressman who wanted to view with alarm, anxiety, and anguish the strides of the Soviet Union in unleashing Sputniks, building steel mills, and achieving great percentage gains would have found in Dulles' observations verification of his own views.

A Congressman prone to glorify the high American standard of living and to look down on the relative wretchedness of life in the Soviet Union would, also, have gleaned supporting evidence.

Dulles noted that the total output of goods and services of the Soviet Union is only about 45 per cent of ours. (See how big and strong we are!)

THE SOVIET MILITARY EFFORT is "roughly comparable to ours—a little less in terms of hardware, but substantially more in terms of manpower under arms." (See what power of concentration they have!)

Soviet output of all goods and services will grow at a rate of 8 per cent per annum through 1965. Assuming U. S. growth is 3.5 per cent to 4 per cent, "our best postwar rate"—the Soviet economy will be 50 per cent of ours by 1965 and 85 per cent by 1970. (We're bigger, but they're getting bigger faster!)

Industrially, the U.S.S.R. grows at an 8 per cent to 9 per cent rate per year. By 1970, U.S.S.R. industrial output will be 60 per cent of ours. Nevertheless, Premier Khrushchev's boast that the Soviet population will have the world's highest standard of living by 1970 is a "gross exaggeration."

Concluded Dulles: Unless we maintain a high rate of growth in the years ahead, "the gap between our two economies by 1970 will be dangerously narrowed."

See Jacob K. Javits (Rep. N. Y.) wanted to know if Dulles "would not agree that this calls for a special application of concentration, of austerity, of resources, of combination with our allies in the world?"

DULLES TOOK A FEW deliberate puffs on his pipe, answered: "Yes. But it is not

for us in the CIA to direct policy, or even to recommend policy. But I could not differ, I think, from your general conclusion on this point."

Rep. Thomas B. Curtis (Rep. Mo.) wondered if the Soviet rate of growth wasn't likely to level off. After all, he suggested, sooner or later, the Soviet leaders would have to increase their railroad facilities and their power plants as well as supply more consumer goods.

"We do think it will level off—slightly," replied Dulles, "but still with the program they have we see no reason for leveling off or going down very much."

So, Dulles' facts, figures, and forecasts offered comfort or frustration—depending on your predilection.

The Soviet Union is such a vast country and has so many problems that you can fasten on the difficulties Khrushchev will encounter.

Or, because the Soviet Union has succeeded in boosting production and building Sputniks, you can fret about our slow achievements and Lucullan consumption.

You'd be right—on any count. That's our trouble.

OUR DILEMMA IS NOT, How fast is the Soviet Union growing? Or, How slowly is the U. S. growing? But what can and do we want to do about it?

Rep. Richard Bolling (Dem. Mo.), chairman of the subcommittee, concluded the session on this note: "I gather from your statement, Mr. Dulles, that the Soviet Union in past years has had an increasing capability to pursue policy of its own choosing . . . and if this kind of trend were to continue, for X number of years, we could find ourselves in a dangerous situation."

The "amen" was recently said by Secretary of State Herter: "We have, of late, been too much absorbed in the mere enjoyment of prosperity. . . . We must realize that the faithful competition with communism has placed a first claim on the energy and interests of us all. . . . That means using our economy less for the things that do not matter, and more for the things that do—for the uses that would train and inform our minds, promote the health of our society, and keep our country free."

Purposelessness is our problem, not growth.

## David Lawrence Need Extension, Not Abridgement

WASHINGTON — Leading universities and colleges have every legal right to refuse to participate in a government-loan program requiring student beneficiaries to sign loyalty affidavits, but it may be questioned whether the executives of these educational institutions realize the extent to which they are striking a blow against their own government's efforts to thwart Communist espionage and subversion inside the United States.

When the Congress set up the program for loans to college students, it included the requirement that any student getting a loan, in addition to taking the oath of allegiance, shall file with the U. S. Commissioner of Education an affidavit declaring that the student "does not believe in, and is not a member of and does not support any organization that believes in or teaches, the overthrow of the United States government by force or violence or by any illegal or unconstitutional methods."

THE COLLEGE PRESIDENTS who are objecting the feel generally, as one of their number said in a public statement, that the affidavit requirement is an affront to students. It is further argued that it would "present no barrier to those it is designed to catch," as such persons would lie anyhow.

But that's precisely the reason for the oath itself. It is difficult to prosecute a Communist or Communist stooge in this country today because of technicalities raised in various court decisions, and about the only way to ferret them out sometimes is by means of perjury indictments. Thus, Alger Hiss operated for a considerable time in behalf of the Communists while he was working in the Department of State, but he wasn't caught till years afterward when he lied in testimony before a congressional committee and went to jail on a perjury conviction. It is unfortunate, therefore, that the college presidents who have decided to

deprive needy students of government loans, rather than let them sign a loyalty oath, are not willing to co-operate with Congress in the difficult problem of breaking down the Communist apparatus. It is well known that the Communists operate on the campuses of many colleges. They do so in Latin America and in Europe and Asia. Many of the propaganda efforts of the Communists are dependent on student demonstrations, timed carefully to exploit certain controversial issues.

TO SELECT ONE GROUP and not others for the loyalty oath requirement is, of course, discrimination, and Congress has been slow to make it a general requirement covering all government benefits or privileges. Nevertheless, today every person who works for the federal government, whether appointed or elected, must take the loyalty oath. This includes hundreds of thousands of people. Just why the colleges should feel so disturbed over requiring students to do something every official or clerk in the government must do is a little hard to understand.

The federal government, of course, has every constitutional right to impose a loyalty oath or any other condition as a basis for granting a contract or a privilege. Today newspapers cannot get second class mail privileges without submitting to certain conditions laid down by the government. The same is true of radio and television stations in getting licenses. If a loyalty oath were prescribed for all such licenses, the government would have every constitutional right to make that a requirement.

There is a big campaign on nowadays to get federal aid to education all along the line. But one thing seems certain — those who want such benefits will have to conform to the conditions laid down by the federal government. It is strange that when other requirements that interfere with freedom of association are imposed by the federal government — as, for instance, in connection with employment practices — there is not much protest from the heads of colleges or from the inveterate champions of freedom of association.

Thus, it isn't even a law of Congress but an executive order under which companies that have government contracts may have them revoked if the President's committee on government contracts finds that discrimination is practiced in hiring because of race, creed or color.

IN THE CASE OF LABOR unions, Congress has gone even further and imposed criminal penalties to meet the Communist menace. The labor-reform bill adopted at the last session prohibits any person who has been a member of the Communist party in the previous five years from being on the staff, in any except a clerical capacity, of a labor union or of an association of employers dealing with any labor organization.

Congress either has to repeal all restrictions placed on the extension of government grants or privileges or be in the position of favoring one class of beneficiaries of government money as against another. What is needed is an extension, rather than an abridgement, of the loyalty oath program.

# Variety Is The Cranberry Spice

By CECILY BROWNSTONE  
AP Newsletters Food Editor

Neither new-fangled notion nor short-cut modern menu shall keep the bright red cranberry from its appointed task.

This small tart fruit, a legacy from America's earliest days, will appear with turkey as usual on our holiday and everyday cool-weather tables.

Clipper ships out of Gloucester, New Bedford and other ports once carried supplies of fresh cranberries to help keep their crews fit. These centuries later we know that the little cranberry supplied sailors with vitamin C. Modern health-conscious cooks might note that there's more of this nutrient (ascorbic acid is its other name) in unstrained than in strained homemade cranberry sauce.

Way back in the 16th Century Indians pounded them along with dried deer meat into a pulp, then shaped the mixture into cakes and dried them in the sun. Interested in how far the berries have come? Then make up a batch of plain whole-cranberry sauce and see how many of these suggestions fit into your scheme of good things to serve and eat.

1. Drain and heat canned peach or pear halves, send them to the table with a spoonful of cranberry sauce in each cavity. Offer with roast turkey or chicken.

2. Stir some of the cranberry

sauce into freshly-made apple-sauce to serve with roast pork.

3. Dry drained canned pineapple slices on paper toweling, then lightly brown the pineapple in hot butter in a skillet. (The drying helps along the browning.) Ring a ham loaf with the pineapple slices and spoon some cranberry sauce into each cutout center.

4. Save orange halves when you prepare fresh orange juice. With a kitchen scissors clip out the membranes from inside the orange halves; zigzag or scallop the edges to make pretty cups. Add chunks of fresh orange to cranberry sauce and spoon into the orange halves. Serve with roast duck when company's coming.

5. Halve canned sweet potatoes and turn them into a baking dish that is attractive enough to come to the table. Heat them in the oven with an orange or other simple sauce; about five minutes before you are ready to serve, spoon a layer of cranberry sauce over the potatoes and return to heat the berries but not long enough to change their pretty color.

And last, a nice conceit: add a bowl of spiced cranberries to a relish tray of celery, carrot sticks, cottage cheese, cucumber slices. Pass with soft rolls and butter for eaters to munch while Dad carves a bird or Mother slices a ham or beef loaf.

## A Regal Pie That Is Fit For Your Royalty

Fit for the king of your family is this Regal Cranberry Raisin Pie. Cinnamon, allspice and shredded orange peel add flavor lustre to the filling. The tart red berries and plump sweet raisins peek out like gems in a tender, flaky lattice setting.

### REGAL CRANBERRY-RAISIN PIE

**PASTRY**  
1/2 cup lard  
2 cups sifted flour  
1 tsp. salt  
4 to 5 tbsps. water

Cut lard into flour and salt with a pastry blender until mixture is the consistency of corn meal.

Sprinkle water over mixture and blend lightly with a fork. Turn onto waxed paper. Fold paper over dough and knead 3 to 4 times. Let stand about 15 minutes. Divide in half. Shape 1/2 of dough into a ball and place on a lightly floured pastry cloth. Roll out a circle of dough that will be 1 inch larger than the pie pan. Fit crust into pie pan. Fill.

Roll out second half of dough in the same manner as above. With a pastry wheel or a knife, cut lattice strips 1/2 inch wide.

To make lattice top, lay pastry strips about 1-inch apart over filling. Turn every other strip back. Place a strip diagonally

across the center. Return folded strips to first position. Turn back alternate strips that were flat as first diagonal strip was placed. Lay second strip diagonally. Return folded strips to flat position. Continue this process to the edge. Then work from the center to the opposite edge in the same manner. Trim strips so they are even with the edge of the pie pan. Fold bottom crust over lattice at edges and flute. Bake in a hot oven (400 degrees) about 35 minutes or until crust is a golden brown. Remove and serve warm with hard sauce, if desired. Yield: One 9 inch pie.

**FILLING**  
1 lb. (4 cups) fresh cranberries  
3 cups sugar  
1/4 cup cornstarch  
1 tsp. ground cinnamon  
1/2 tsp. allspice  
2 tbsps. shredded orange peel  
1/4 cup water  
1 1/2 cups raisins

Wash cranberries and remove stems. Combine sugar, cornstarch, cinnamon, and allspice in a saucepan. Add cranberries, orange peel, and water. Cover and heat to boiling. Continue to heat for another 2 minutes until berries are soft. Remove from heat and add raisins. Fill pie crust with the fruit mixture.

## Tropical Taste Added To Holiday Fruit Pie

A fresh way to prepare pie is to combine two favorites, mince-meat and pineapple chunks with a bit of lemon. Pineapple lends tropical tang; mince-meat makes the pie old-timey good. This pie is fancy enough for a holiday dinner, simple enough for family meals. The fruit blend gives a lushly full pie.

### HOLIDAY SURPRISE PIE

1 pkg. (9 ounces) mince-meat  
1 can (13 1/2 ounces) pineapple chunks  
1 1/2 cups liquid (juice from pineapple and water)  
1 tsp. lemon juice and a little grated peel (optional)  
Combine mince-meat and liquid.

Cook as package directs, stirring constantly. Cool slightly, add pineapple chunks and lemon. Bake at 425 degrees for 25 to 30 minutes.

### FLAKY PIE CRUST

(Double Crust)  
2 cups sifted all-purpose flour  
1 tsp. salt  
2-3 cup shortening  
1-3 cup milk or cold water

Blend flour, salt and shortening with a pastry blender or knives until mixture is consistency of coarse meal. Stir 1/2 cup of flour mixture into milk, then add it to rest of flour mixture. Stir to form dough. If possible, chill dough before rolling it. Divide dough in half. Roll on lightly floured board or pastry cloth. Roll dough to about 1/4-inch thickness. Fit dough into 9-inch pie pan. Add filling. Roll top crust. If desired, cut design with fancy cookie cutter or just cut steam vents. Seal and flute edges. For a sparkling topping, sprinkle crust with granulated sugar.

## Let Children Try With Their Recipe

Here's a perfect cookie for small fry to help make.

### CHILD-PROOF COOKIES

1/4 lb. (1/2 cup) butter or margarine  
2 cups sugar-honey wheat germ  
1/2 cup sugar  
1 egg  
1/2 cup nuts (chopped)  
1 tsp. vanilla

Put all the ingredients in a mixing bowl; mix well with fingers; shape into balls, each about the size of a walnut.

Place on ungreased cookie sheets a couple of inches apart; flatten slightly with hands or the bottom of a glass moistened in cold water.

Bake in moderate (350 degrees) oven for 10 minutes. Allow to cool on cookie sheet before removing with wide spatula. Cool on wire racks. Makes about 2 1/2 dozen.

Note: Clean hands and "no finger-licking" should be the rule when small fry make these!

### Vegetable Relish

One way of keeping up with the changing taste of children in eating raw vegetables is to offer an assortment along with the family meal; the children will have fun arranging the plate attractively and are sure to find one or more of the relishes to their taste.

### Mince Parsley

The best way to mince parsley is to fold over the top leaves of a small bouquet and cut fine with a scissors; also try on chives and fresh herbs.

### Pan Liners

Heavy waxed paper cut to fit the bottom of the pan is a good liner for most baking uses; grease the pan lightly and press the paper smoothly against the pan.

## Salad Blends Ruby Red Cranberries, Gelatin

Ruby red cranberries combine with gelatin to make sparkling, delicious salads this holiday season. Here are several recipes that you will want to try:

**CRANBERRY WINE MOLDS**  
1 cup hot, cooked strained cranberries, sweetened to taste  
1 pkg. cherry gelatin  
½ cup red wine  
Orange and grapefruit sections  
Cook and strain cranberries. Sweeten to taste. Dissolve gelatin in hot strained sauce. Add wine. Pour into rinsed individual molds. Chill until firm. Unmold salads on beds of watercress or lettuce. Fill centers with orange and grapefruit sections.

**CRANBERRY FLUFF SALAD**  
1 pkg. cherry gelatin  
1 cup hot water  
1 can (1 lb.) whole cranberry sauce  
¼ cup diced celery  
¼ cup chopped walnuts  
1 cup commercial sour cream  
Dissolve gelatin in hot water. Let chill until slightly thickened. Beat cranberry sauce with beater until saucy. Stir into gelatin with celery and walnuts. Fold in sour cream. Pour into 1-quart mold and chill until firm. Makes 4 to 6 servings.

**CRANBERRY GARDEN SALAD**  
1 pkg. raspberry gelatin  
1 cup hot water  
1 lb. can whole cranberry sauce  
¼ cup diced celery  
¼ small cucumber, diced  
¼ cup diced green pepper  
1 tsp. lemon juice  
Dissolve gelatin in hot water. Chill until partially set. Mix remaining ingredients. Fold into partially set gelatin. Pour into a 1 quart mold or individual molds and chill until firm. Unmold on lettuce. Makes 4 to 6 servings.

**CRANBERRY GRAPE SALAD**  
1 pkg. raspberry gelatin  
1½ cups water  
1 lb. can jellied cranberry sauce  
1 cup seedless grapes  
Dissolve raspberry gelatin according to directions on the package. Chill until mixture begins to thicken. Beat cranberry sauce with beater. Fold sauce and grapes into gelatin. Pour into mold. Chill until firm. Serve in crisp lettuce cups.

**CRANBERRY WALDORF SALAD**  
1 pt. cranberry juice cocktail  
1 pkg. lemon gelatin  
¼ tsp. salt  
1 cup chopped apple  
¼ cup chopped celery  
¼ cup broken walnut meats  
Heat 1 cup cranberry juice to boiling. Remove from heat and stir in gelatin until dissolved. Add remaining cranberry juice and salt. Chill until partially set. Stir in apple, celery, and nuts. Pour into six individual molds or 1 large mold. Chill until firm. Makes 6 servings.

**CRANBERRY JEWEL SALAD**  
1 pkg. strawberry gelatin  
1 cup hot water  
½ cup cold water  
1 orange  
1 lb. can whole or jellied cranberry sauce  
Dissolve gelatin in hot water. Add cold water. Chill until mixture begins to thicken. If whole sauce is used, drain. If jellied sauce is used, beat until saucy with beater. Put orange through food chopper. Fold cranberry sauce and ground orange into the gelatin. Pour into mold. Chill until firm. Serve in crisp lettuce cups.

## Experts Advise On How To Cook Frozen Turkey

Ever wonder how to cook a frozen turkey? Here are the suggestions of experts that you will find helpful in getting that Thanksgiving bird done to a turn:

**Thawing:**  
Thaw turkey in refrigerator. Allow 1 to 2 days for an 8 to 12 pound turkey, 2 to 3 days for a 12 to 20 pound turkey and 3 to 4 days for a 20 to 24 pound turkey. For quicker thawing, place under running cold water.

**Preparation for Roasting:**  
Free legs and tail from tucked position. Remove neck from main cavity. Rinse turkey inside and out with cold water.  
Season body and neck cavities with salt. Fill lightly with stuffing, allowing about ¼ cup stuffing per pound purchased weight. To shape bird, return legs and tail to tucked position. Fold neck skin to the back.  
There are two ways to roast this turkey. Use an uncovered pan for an attractive turkey to be carved at the table. Use a covered pan to shorten the roasting time. The bird may be less attractive if cooked by this method.

The approximate roasting times given below were determined using dark enameled roasters. If a shiny light-colored pan is used it may be necessary to increase time as much as one hour.

**How to Roast in an Uncovered Pan:**  
Place turkey breast side up on a rack in an open pan. Use no water nor cover. Spoon melted fat over turkey. Cover turkey lightly with aluminum foil or several thicknesses of cheesecloth.  
Roast in a slow oven (325 degrees). Use chart as a guide to the length of roasting time. See tests for doneness.

Weight	Roasting Time
8 to 11 lbs.	4½ to 5½ hrs.
11 to 14 lbs.	5½ to 6½ hrs.
14 to 18 lbs.	6½ to 7½ hrs.
18 to 24 lbs.	7½ to 9 hrs.

**How to Roast in a Covered Pan:**  
Place turkey breast side up on a rack in the bottom of a roaster. Use no water. Cover with top of roaster. Roast in a moderate oven (350 degrees). Use chart as a guide to the length of roasting time. See tests for doneness.  
If bird is not sufficiently brown at the end of roasting time, remove cover and continue roasting 15 minutes or until brown.

Weight	Roasting Time
8 to 11 lbs.	3½ to 4½ hrs.
11 to 14 lbs.	4½ to 5½ hrs.
14 to 18 lbs.	5½ to 6½ hrs.
18 to 24 lbs.	6½ to 8 hrs.

**Tests for Doneness:**  
1. Protect thumb and forefinger with paper or cloth. Pinch thickest portion of drumstick. Meat should feel very soft.  
2. Insert roasting thermometer into center of stuffing. Temperature should be a minimum of 190 degrees.  
**To Slice:** When the turkey has been roasted, serve within ¼ hour. After service, remove the remaining stuffing and store the stuffing and the turkey separately in the refrigerator.  
**To Cook Neck and Giblets:** Simmer neck and giblets in salted water until tender, about ½ hour for the liver and 2 to 2½ hours for the neck, heart and gizzard.

## Stewed Tomatoes Do Double-Duty

This combination of vegetables does double-duty — it can be a sauce for a meat loaf.

**STEWED TOMATOES WITH PEAS AND CELERY**  
1 can (1 lb.) stewed tomatoes  
1 tsp. cornstarch  
1 tsp. instant minced onion  
1 can (8 ounces) tiny green peas  
¼ tsp. salt  
White pepper  
Basil (if desired)  
Put a little of the liquid from the stewed tomatoes into a 1-quart saucepan; add cornstarch and stir until smooth. Add tomatoes, including all their liquid and onion.  
Cook and stir constantly until thickened and smooth.  
Drain peas and add with onion, salt, pepper to taste and dried or minced fresh basil (if used). Reheat. Makes 6 servings.

**Roast Beef Bone At Its Tasty Best**  
Treat yourself to this snack when you've had roast beef.

**DEVILED BEEF BONES**  
Leftover bones from 7-inch cut 2-rib oven-ready beef roast  
Garlic clove  
Bahama-type mustard  
¼ cup (about) fine dry bread crumbs  
Leave a little meat on bones when they are cut away from roast. Smash garlic clove with heavy wide-blade knife; rub garlic over bones.  
Spread bones with mustard; cover with bread crumbs. Broil until hot and crumbs are lightly browned. Gobble on and enjoy!

## Sturdy Diamond Will Satisfy All

Here's a sturdy satisfying cookie that is not overly rich or sweet.

**COCONUT DIAMONDS**  
1 cup butter or margarine  
¼ cup sugar  
1 large egg  
3 cups sifted flour  
Salt  
1 can (3½ ounces) flaked coconut.  
Cream butter and sugar; beat in egg just enough to combine. Add flour, a dash of salt and coconut; mix well with a spoon; dough will be stiff.  
On prepared pastry cloth with lightly floured stocknet covered rolling pin, roll out one-half of the dough at a time a little less than ¼-inch thick.  
Cut with sharp diamond-shaped cookie cutter (about 3 by 2 inches), bearing down so coconut ends will be cut clean at cookies' edges. With sharp lines of a fork, prick surface of cookie dough in desired pattern.  
Bake in ungreased cookie sheet, about ¼-inch apart in moderate (375 degrees) oven about 15 minutes or until edges of cookies are lightly browned. Cool on wire racks. Store in tightly-covered container. Makes about 4 dozen.

## Cabbage Economy

Our friend, the cabbage, is on the market the year around, but remember that it is at its price peak during the first months of the year.

FANCY FIXIN'S FOR YOUR

# Thanksgiving Table

**OLEO**  
GOLDEN MIST, LB.  
2 For 19¢

If you haven't caught that turkey by now, you'd better hurry. Just a few more days and "festive fixings" time is here. Instead of chasing through the woods looking for a turkey to shoot, though, you can just visit your neighborhood Piggly Wiggly supermarket and select the one you want, plus all the other good things that you like for your Thanksgiving meal. And speaking of "good things," Piggly Wiggly hopes your year has been filled with them.

WE WILL BE
