AP WIRE SERVICE

BIG SPRING, TEXAS, SUNDAY, JANUARY 17, 1960

PRICE TEN CENTS

FIFTY-TWO PAGES TODAY

What A Change 10 Years Has Brought!

Mayor Lee O. Rogers holds a new signboard on which is listed the present population of Big Spring. At his feet is a sign erected in 1950 when the last U.S. Census was completed. The population, according to local surveys, is double what it was 10 years ago. The population increase has

munity. Today's issue of The Big Spring Daily Herald features a summation of most of the major developments that the decade has brought to Big Spring.

Reviewing The

Big Spring Week

old bon mot about Cosden employes saying Grace. It all came 17, 1955, will ever forget the thrills breath-taking feats of the atomic-(which had been selling around historic message: \$20) provided 51 per cent of the stock is obtained. Some observers believe that even if Grace should fall short of 50 per cent of the stock, it will go on and make the purchases. Even if it lacked control it would certainly have a strong voice.

Continental Air Lines, having announced previously that it intended to move to the new Howard County Airport, was picked off base by the Federal Aviation Agency last week when approach regulations excluded commercial carriers. CAL rallied, however, and at the end of the week was pressing once again for permission to make the transfer.

The Chamber of Commerce owes a vote of thanks to the YMCA. When the 800 tickets to the YMCA banquet, featuring Art Linkletter as a speaker, were gobbled up in record time, those who had been dilly-dallying about tickets to the chamber banquet where Paul Harvey is to be the speaker, began to take notice. As a result sales there jumped from 300 to well over

Part Of Russian **Summit Tactics**

WASHINGTON (AP) - Soviet | and disarmament and to brandish Premier Nikita Khrushchev is his nuclear rocket power. mounting a new pressure campaign aimed at forcing President Eisenhower and other Western leaders to abandon their protection of West Berlin.

His maneuver could break down the one solid agreement on a major issue which was reached by Eisenhower and Khrushchev in heir meeting last September at Camp David, Md.

This accord provided that Khrushchev would drop his threats to deal with the Berlin problem by independent action. In return, Eisenhower would specify that he realized negotiations for a Berlin settlement could not be dragged on indefinitely.

This cleared the way for agree ment on May 16. Berlin will be one of the main issues disputed, but it is now becoming clear that Khrushchev does not intend that the discussions will be free of Soviet pressures.

> December, in a rambling New Year's Eve talk with diplomats at the Kremlin, and most importantly in his speech to the Supreme Soviet last Thursday, Khrushchev has hammered the theme that he wants a settlement on Berlin and the signing of a German peace treaty.

He has implied he does not intend to wait long beyond May's summit meeting to get these re-

All this seems to indicate that Khrushchev's tactic of backslapping cordiality and avoidance of Vernon. threats, which he practiced so assiduously last fall, is now giving held Mickey in high regard and considered it a privilege to be as- fell in Colorade City late Saturday. S.I.C. is moving from its present location at 410 East Fourth to a new building at Forth and Goliad. The new building will provide about 65 per cent more room, The firm, which handles a lot of automobile business in area, came to Big Spring in the late 1940's and has had a continuous growth ever since. It now has 12 employes.

End of the year bank deposits reached an all-time high in West Texas. As might be expected, Midland banks were out front, with one of them having around 73 million dollars on deposit. Another Midland bank had 37 million.

The main industry in Midland seems to be millionaires. Last time was over there, a furniture dealer said the city had 146 million-

"And that count was made two

Negro Executed For Robbery

Several used car dealers have said that sales were below those of January 1959. Ordinarily it is a good month; thus far it hasn't

changed a lot in recent years," said one dealer. "We once sold cars to cotton pickers from South Texas, but the child labor laws stopped them from coming.

"Now the bracero picks cotton and buys almost everything from a guitar to a walking-talking doll. he doesn't buy a car because of the high import duty. So we have lost this fall cotton-picking market."

Most dealers are still optimistic Bill Tune, who operates a used car lot on East Fourth, says pickups are in good demand. Many people who buy a second car prefer a pickup, so it can be used for light hauling and utility work. Also there is not much deprecia

and carrying charges continue to mount. He says some people will buy an older car and not take out any insurance on it.

One reason for the slow move-

ment of used cars is the down payment required. A buyer can pay \$300.00 and drive a new car home. In buying a 1954 or '55 model, he would be required to make the same amount of down payment, mostly because loan companies don't want to finance used cars.

ucts Company is putting in a new service station on the 2100 block of South Gregg, and expects to complete it sometime in March. The company moved into Big Spring in January of 1959, accord ing to Bill Leach, local jobber new station will be the fourth for the company, Leach says, and will be patterned somewhat like the one on East Fourth, but with

al Horace Garrett announced retirement as a vice president, and Harry Hurt and R. V. Middleton became senior vice presidents and Jack I. Davis a vice president. Carlton Chapman, agriculture specialist, was named assistant vice president at State National, and Mark McLaughlin, Snyder, joined the Security State board.

Howard County Junior College won its first zone basketball game, though not without trouble. Big Spring High dropped a game to Midland, as expected, but bounced back to administer a drubbing to Permian of Odessa.

It is possible that before the week is out a successor to Al Milch as high school football coach will be named. The board has narrowed the list to about seven prime prospects. Probably the sooner a choice is made, the better because of the time element in organizing a new program un-der a new man.

The annual meeting of the West Texas Girl Scout Council had a Big Spring flavor. Elizabeth Hayworth, daughter of Mr. and Mrs. L. D. Hayworth, was presented with a statuette from the national organization for her part in saving a baby's life. Larson Lloyd, retir-ing as council president, received the coveted "Thank You" badge after 15 years of service.

The Salvation Army closed out another busy and successful year, too, with Robert Stripling succeeding Elmer Tarbox as chairman of the advisory board. Hit hard by excessive relief demands, the local SA corps is beginning to get its head back above water.

Colorado River Municipal Water District directors were alerted to an old problem last week-that of along with special awards and fea- overcoming salt intrusion in the armers of America.

Shop session got under way.

Printers Will Hold Meeting

Printers from Midland, Odessa and Big Spring will meet Tuesday at 7:30 p.m. in the Scharbauer Ho-tel in Midland to celebrate International Printing Week.

The banquet will highlight Printing Week, Jan. 17-23, in this area. Members of the newly organized Permian Basin Club of Printing House Craftsmen are gathering to honor the birth of the patron saint of printers, Benjamin Franklin, During this International Printing Week, printers around the world are stressing the founding

Knowledge. Mark Carouthers, treasurer of the International Assn. of Printing House Craftsmen, will speak on "Why A Craftsman." Carouthers in Dallas. He has been a craftsman for many years.

The Craftsmen Clubs are combindery men, supervisors, owners and managers sit together-all on equal terms and discuss printing problems that have arisen in their own plants and exchange ideas on how to eliminate these problems. The organization is made up of 114 clubs in the United States, Can-

KILLER?

no information exists concerning

The body is to be removed to Willow, Okla. Funeral services will be conducted there at 3:30 p.m.

The victim was found about 1:00 p.m. Friday. The scene of the slaying is 14 miles west of Sterling City and near the Glasscock Coun-

VICTIM BEATEN Green said the man had been

subjected to a merciless beating about the head with some sort of blunt instrument. A tire tool, it was said, would have inflicted wounds such as were found on the victim's head. He was barefoot and his shoes were not found in the vicinity. His right pants pocket was turned wrong side out but his jacket pocket contained eleven Some 60 feet from where the

body was sprawled, officers found

the scene of what had obviously been a violent struggle. They speculated that the victim had been beaten to death at this spot. Why his slayer chose to drag the body - the marks showing where it had been dragged were visible - from the spot to the roadside ditch is The battered body was removed

to San Angelo for examination by a pathologist.

geles took the lead in the \$20,000 Barber, 43, a former regular on the tournament circuit but now,

With Tommy Hart

When Big Spring's Zay LeFevre scorched the nets for 30 points against Midland there the other night and limited his tree-top tall opponent, Mike Humphrey, to 14, he was playing against the orders of the team physician . . Zay was battling tonsilitis and the doctor told coach Vernon Harton that, under no circumstances, should the boy be allowed to play . . . From all indications, dissension is ripping the Clarendon Junior College basketball team apart ... The Bulldogs have excellent material, probably the

finest in the history of the school, yet have compiled only a so-so record . . . The game here last week between Clarendon and HCJC was loosely officiated and, principal ly for that reason, almost broke into open warfare Billy Maxwell, the former Big Springer, blew to a 77 in the final round of the Los Angeles Open Golf Tournament last week, which is the reason he finished out of the

Billy wound up with a 72-hole score of 298, which means he finished six strokes out of the money and 18 McCarver Returns strokes off the pace of the winner, Dow Finsterwald . Jackie Burke, Mike Souchak, Jerry Barber and Ed Oliver were among others who failed to get any prize money at Los Angeles . . . Last year, Maxwell wound up third in the LA meet . . . Finsterwald, incidentally, became a golfer against the wishes of his father, Russ, who wanted his son to study law . . . The elder best known graduates of Howard

is the only school which never has won a District 2-AAAA athletic director of development. championship of any kind but that shortcoming will, no doubt, be Dr. Guy D. Newman, president remedied this year, when the Bulldogs steam-roller to the cage crown of the Baptist school, said Mc-Arlan (Goose) Wesley, line coach at Plainview High School since Carver will direct a science build-1956, recently resigned that position and plans to sell insurance in ing campaign and subsequently Lubbock . . . Pancho Gonzales, the pro tennis great, says he's turn- drives for other projects in Howing down an \$80,000 contract offer from Jack Kramer because he's quitting tennis . . . He's planning to marry soon and will sell real track star and coached at the

2-AAA Teams Have Fine Records

When they began conference play the past week, District 2-AAAA basketball teams had compiled a 91-27 won-lost record against reasonably tough competition . . Oddly enough, the club which won it all last year, Odessa, had the poorest record . . . Warren Cantrell, who is designing the new golf course for the Big Spring Country Club and who recently was named pro of the Amarillo Country Club, is also serving as architect for a course in Grants, N. M. . . . The Amarillo course, by the way, has a new million dollar clubhouse and is planning to rebuild its course . . . A Seattle University basketball player jumped from a 12-point performer to a 21-point leader after a team physician hypnotized him, according to a Dr. Huber Grimm of Seattle. The same physician said he had learned that Ingemar Johansson had received a similar hypnotic bracer before knocking out Floyd Patterson for the heavyweight boxing championship of the world last

June . . . Lou Cordileone, the

great Clemson University tackle, is sometimes called "Big Momma" by his team mates and coaches . . . He's been referred to as the best pro prospect in the Atlantic Coast Conference, so he could be playing against the famed Big Daddy Lipscomb of the Baltimore Colts . . . Bobby Jack Gross, the former Big Spring High School discus thrower and shot putter who made good at Texas A&M, is now a doctor of veterinary medicine, with offices in Odessa . . . Russell Coffee, the former coaching aide at Lamesa who is now the head coach at Weatherford High School, will probably get the head coaching job at Breckenridge . . Coffee is one of the best of the state's young coaches . . . James R. Parrish, head of the Office of College Information at Stephen F. Austin College in Nacogdoches, is a former Lamesa sports writer . . . Parrish prepared the brochure for the recent Nacogdoches tournament, in which the Big Spring Steers took part.

Steers Should Be Strong In Sprints

Firming Up Shore Line

Cincinnati Falls From The Unbeaten

PEORIA, Ill. (AP) —Bradley's scored 28 points, Saunders 22 and Braves rallied in the second half to edge previously undefeated Cincinnati 91-90 Saturday night despite Oscar Robertson's recorddespite Oscar Robertson's recordbreaking 46 points.

Cincinnati, the nation's No. 1 team, led 47-44 at halftime before Alpha Saunders, Bobby Joe Mason and Chet Walker turned the tide for the Braves in the second half. Late in the game Cincinnati led 88-87 when Walker drove in for a layup to score and make it 89-88 for Bradley with 38 seconds left. Robertson, who set a Robertson Fieldhouse record, had the ball and was pivoting for a shot when

he stepped out of bounds. Bradley took over and with 13 seconds left Carl Bouldin fouled Mike Owens who dropped in a pair of free throws to clinch the

Bradley thus avenged its only defeat, this season, an 86-71 loss at Cincinnati. Bradley, ranked four years and its 15th decision ourth nationally, has a -12-1 record and Cincinnati is 13-1. Bradley's trio of Walker, Saund-

Ponies, A&M Pick Up Wins In SWC Play

Southern Methodist and Texas

A&M were perched on the top rung of the Southwest Conference standings Saturday with the Texas Longhorns. Southern Methodist made it with

an overtime victory 73-71 over Baylor's fast-improving Bears Friday night while the Aggies were entertaining Texas and beating them 72-61 before a happy, recordbreaking crowd in College Station. The night's results left all three tied at three conference victories with one loss each.

Texas A&M's poised sophomore Carroll Broussard, filled the hearts of Aggieland with joy Friday night as he shot the Cadets back to the top of the conference standings. Broussard scored 29 points to give the Longhorns their first

league setback ad 8,500 delirious fans cheered and whooped. The Longhorns were paced by Donnie Lasiter's 16 points. Southern Methodist, conquerors of the eighth-ranked Aggies in their last game, had to go into overtime to whip the determined

2 Musicians Locally Known To Play Here

Two young artists who will be satured on the next of the Big Spring Concert Association series 29 are both known hereand one is accounted a citizen.

He is Charles Webb who, as a seutenant in the United States Air Force, founded the famous Webb Choraleers and otherwise played a eadings role in the city's music life. He is a son-in-law of Mr. and Mrs. K. H. McGibbon and naturally visits here as often as his schedule will allow. At the present time he is completing work on his doctorate in music at the University of Indiana.

His partner in musical fun is Wallace Hornibrook who has visited here on occasions. At present he is in Phoenix, Ariz. where he is director of music for the Cross Roads Methodist Church, Webb and Hornibrook first per-

formed together as accompanists for the Fred Waring Summer Music Workshops in 1952. They have been permanent Waring staff members since that time. Their two-piano work began as a diver-sion to the workshop, and since 1953 the team has presented weekly rectals for workshop members. They both appeared as soloists on the Waring summer TV series in 1967 from Shawnee-on-the-Delaware. Concert tours in 1958 and 1959 carried them all over the

Although they include works of Brahms, Mozart, Bach, Rachmani-off, Saint-Saens, Busoni, Milhaud and others, they much prefer to organize their concert fare as they go along. They have a keen ear for audience reaction as well as for music.

Officers Think **Bones Not Of** Missing Coed

DENTON (AP)—Denton officers said Saturday they think the fe-male bones found in East Texas have no connection with the disappearance here of Miss Virginia Carpenter 11 years ago.

The bones were found in a small wooden box several months ago. The bones were sent to Austin for analysis by state police. The size of the bones were reported to fit the height and weight of Miss Carpenter when the Texarkana girl disappeared June 1, 1948, from Texas Woman's University campus.

Denton Police Chief Andy An derson, who went to the farm near Jefferson with Texas Ranger Lewis Rigler Friday said he thinks the bones probably came from a cemetery near the aban-doned farm.

"The cemetery is almost straight across the highway from the farm," Anderson said. "The people who used to live at the farm have a son who studied bi-ology. We think the bones were either washed from a grave, or

Anderson did not name the people who once lived on the farm but did say they moved to another farm near Jefferson. The town is 50 miles west of Texar-

Anderson said people in the area told him they had heard boy's mother say several times she wished her son would "get rid of those old bones."

Anderson said the boy obviously could have had nothing to do with the disappearance of Miss Carpenter. He was only 9 at the time she vanished.

Garden City Schools Honor 2 Students

Frank L. Murphy, left, was recently selected as the best all around boy in the Garden City High School, and Miss Betho Jackson, right, was named as the best all around girl of the student body. Murphy is the son of Mr. and Mrs. B. L. Murphy and is a senior. He is active in football, basketball, FFA and track. Miss Jackson is the daughter of the Rev. T. C. Jackson. She is also a senior and active in basketball, FHA, Pep Squad and volley ball.

Soap Box Derby Runs Again In 1960

amateur racing event in the world again be held. for boys-will be along again this

It will be the seventh straight year for Big Spring to participate in this international program. The Derby will be sponsored again by The Herald, Tidwell Chevrolet, and the Downtown Lions Club.

Lions voted enthusiastically few weeks ago to go along with sponsorship, and Elbert H. Boulioun Jr., has been named Anderson said he didn't think club's chairmen of the event. He Jones, Tidwell representative. Tentative plans are for the local race to be run again in June, although definite announcement will

Also, dates very shortly will be fixed for boys to sign up for Derby participation. Rule books are here now, and can be had free of charge at either the Tidwell firm

The Herald.

A special color film s how in g what the Derby is, how boys get fun and education out of trying fun and education "We or at The Herald. Miss Carpenter, an attractive for its rich prizes, will be shown good just to know you have so brunette, was last seen leaving through the school system shortly. many friends who care.

The Soap Box Derby-biggest in major construction details, will Full details on all developments

of the 1960 Derby will be appearing regularly in The Herald, and boys may keep informed thereby. The Soap Box Derby is open to any boy in this area between the ages of 11 and 15 (as of next August 1), who are willing to devote time and talent to building a speedy coaster. Boys who finish their cars (special wheels are required) and enter the race, will receive assistance from sponsors. Winner of the local race wins an expense-paid trip to Akron, Ohio, where in August, is held the All-American Soap Box Derby, sponsored by Chevrolet Motor Co. The winner there hauls down a

group of fine local prizes, too.

Mr. and Mrs. Joe Flock

Inspection Of Guard Is Held

The National Guard unit at Big Spring, a portion of Battery A, 3rd Rocket Howitzer Battalion, 132nd Field Artillery, underwend its annual inspection Friday night Its rating will not be known for approximately two weeks.

In charge of the complete in spection was Col. A. J. McCon-nell of Fort Sam Houston. Fiftyfive men were on hand for the of ficial check. Thursday night the other portion of the battery a Colorado City had undergone its inspection,

With Col. McConnell were Lt Col. Ralph Trolinger, San Angelo, divisional artillery commander, and his staff, together with the battalion commander, Maj. Otto Schertz, San Angelo, and his staff. Lt. Col. Morris Kelly, San Angelo, representing the fourth Army advisory team, was also here for TV-RADIO Aiding Capt. Elten Wallace, bat-

tery commander, are 1st Lt. Rob-ert Harris and 1st Lt. Johnny Hooper of Big Spring and 1st Lt. Mike McKay and 1st Lt. Edwin Carlock of Colorado City.

an aggressor,

Political Calendar

Ohio, where in August, is held the call-American Soap Box Derby, ponsored by Chevrolet Motor Co. The winner there hauls down a 5,000 c o l l e g e scholarship, plus ther awards. There will be a group of fine local prizes, too.

AUTOMOBILES Frankly speaking M-8 1952 GLIDER, 33 FOOT. 2 bedroom, mod-ern trailer house. \$1200 total price. AM 3-2063. we're Enthusiastic!

With good reason, too . . . At first glance a SIMCA seems a wee bit too fancy to be an economy car, with those reclining seats, ash trays and four doors. But then Sports Cars Illustrated did say that SIMCA "will outperform anything else in its price class." And Mechanix Illustrated did pick SIMCA as your "Best Import Bup." And SIMCA does hold 14 world's performance records, including the all-time endurance crown.

SIMCA has a 4-speed transmission, with the 3 top gears synchromesh. Throws are short, quick and positive.

Standard equipment on all Super Deluxe models includes heater, defroster, reclining seets, 12-volt ignition and Uniguard body.

Fred Short, HCJC drama in-The word "histrionic" refers to the theatre arts, and talented troopers from Army bases in the Southwest will join talented troupers from junior colleges in Texas, Short Friday received a letter

\$17°5

ficial asking permission for Army theatrical groups to join the stage fiesta on a non-competitive basis, The letter was signed by Dr. Wil-S. Naylor, staff entertainment director, office of the chief of special services, U. S. Army, at Ft. Sam Houston

Short indicated the GIs would be more than welcome on a non-competitive basis, and he has started making arrangements for Army participation.

He indicated it would be the first time in Texas history that the Army had entered a one-act play contest, perhaps a first in U. S.

Junior colleges, besides the host school, which have filed entries for the contest, include Lon Mor-ris of Jacksonville, Tex., Wharton, Temple, Texarkana and San An-

Short expects "quite a few" more institutions, possibly includ-ing some senior college drama departments, to enter the contest before the deadline.

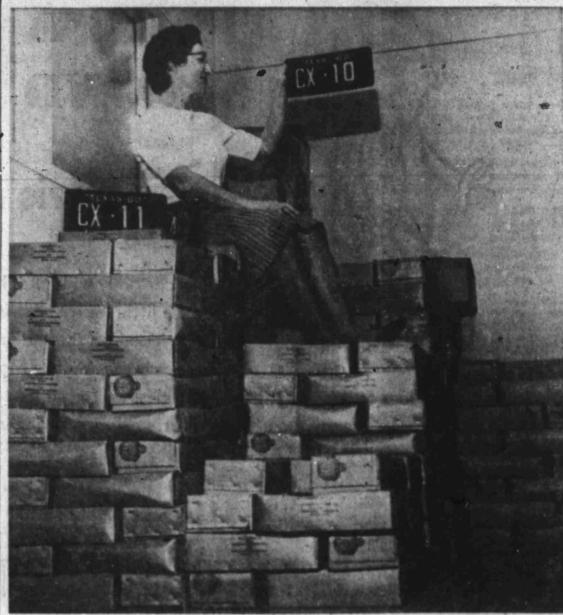

Author Believes Germans Still Filled With Hate

LOS ANGELES (AP) -Author Pierre Van Paassen says the Nazi party is living on hate—for the Jews and the Americans who helped defeat Germany twice in

Just back from West Germany, the Dutch-born Van Passen told newsmen Thursday he believes this accounts for the recent rash of swastika painting and Jew-bait-

"Don't think they like us over there," he said, "There are many persons thirsting for revenge. They are in no position to take it out on the Americans. So they pick on their traditional enemy, the Jews."

Skinner, star on the current Broadway comedy, "The Pleasure of His Company," is following in the footsteps of her father. He claimed for his performance "The Honor of the Family" 1908, and revived it with equal success in 1919. His most famed performance, however, was later in the role of Hajj in "Kismet."

COW POKES

By Ace Reid

"I know it's gotta be done, but jist how many chicken house cleaners are gonna git in the COWBOY HALL OF FAME?"

Steve Allen Tries Thought

HOLLYWOOD (AP)-Can viewers of a prime-time TV variety show stand to think?

Steve Allen believes so, At least he's willing to test the theory on his Monday night clambake. Starting Feb. 1, he is instituting a 20-minute segment called "Meeting of Minds." Don't look for Don Knotts to pull his twitch or Louis Nye to crash through a wall. The

"In our first one, we'll have Aristotle, Montaigne, Hegel, Dos-toevski, Freud and Clarence Darrow," Allen reported. "We had no trouble signing them because the price was right."

The idea is that these great minds take part in a round table discussion on a matter each has

session based on actual writings. "It wouldn't be right to interpret their words on matters that happened after they lived, so we'll stick to broad, general subjects,"

Allen added. Allen admitted that introduction of serious material in a comedy show is not calculated to improve

his rating.

"I would guess that when we first try 'Meeting of Minds,' we might pick up a few viewers through curiosity," he observed.

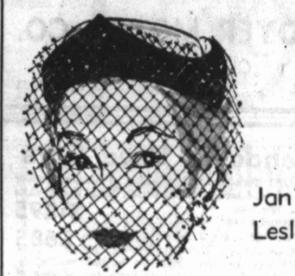

"But I would suppose that we might lose a point or two when we do it again.

we do it again. "That doesn't bother me. This Allen gang won't participate in this sketch.

"In our first one, we'll have Aristotle, Montaigne, Hegel, Dos-

NO FAIR TELING WHO'S WHO IN THE PICTURE, but the group is one of many who meet at the YMCA as part of the activities for adults. This is a Trim and Fit Class, in which women learn exercises for reducing or developing their bodies, at the same time having lots of fun. Mrs. Gene Eads, left on front row, is the instructor for the classes which meet for a six weeks period from 9 to 11

o'clock a.m. five days a week.

GRAB YOUR PARTNER AND GIVE HER A WHIRL sounds throughout the YMCA on Thursday evenings as square dancers gather to go through the patterns—simple or intricate—of this old form of dancing, becoming popular again. Above is one of the groups of adults who are taking adventarge of the facilities at the Y to be with friends, make new ones and have fun. Other activities are planned for grown-ups through the year, with a prospect of an even wider range of attractions upon the completion of the new building.

Adults, Kids Have Fun At The Y

Fun for all ages is promised Monday evening at the YMCA, when the Hi-Y Carnival wil start the observance of National YMCA Week.

Slated for 6:30 to 9 p. m., the affair promises such entertainment as fortune tellers, rifle shoot, food, cold drinks, beat-nik house, wet sponge throw, dart throw and fun house.

The entire family is invited to attend this get-together, it has been announced.

Tuesday evening the Knights of Gra-Y will hold a tournament and induction at the Y ates:30. Chariot races, lance contests, shield judging and a wand spin will be included in the evening's fun.

The whole family is invited to the Y-Indian Guide Tepee Tournout, which has been set for Thursday evening from 7 to 8:30. You'll see Indian dancing, gather around a council fire and witness a dancing contest.

Not to be outdone, one of the adult groups has scheduled an example of the fun which can be had by grown-ups at the Y. From 8 to 10:30 Friday square dancers are invited to join in the festivities. Spectators are welcome to attend, it was stated.

Climax of the week will be the annual YMCA dinner slated for Saturday evening at 7 o'clock at Goliad Junior High School. Guest speaker will be Art Linkletter, radio and television star and an avid worker for the YMCA.

The youngsters are not the only interest of the Y, since various activities are planned to attract adults to the center.

Scheduled to begin soon are classes of trim and fit exercises, which meet for a period of six weeks, five days a week at 9:30 a. m.

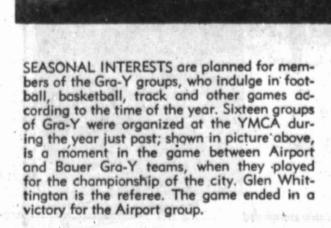

Bridge sessions are slated for those wishing to learn the game or to brush up on the play. Bible classes have been taught as have language classes.

With the completion of the building now being constructed, a wider range of diversions and interests will be followed with a probable increase of memberships.

FUN FOR GROWN-UP BOYS AS WELL AS GROWING-UP BOYS, the Y-Indian Guides were formed as part of the YMCA activities for both adults and youngsters. Meetings of the tribes are held every two weeks in the homes of members, and Indian names add spice to the rituals. Here in a typical gathering, Walking Horse (Jimmy Jones) and his

son, Running Horse (Sammy Jones) engage in an Indian "rassle". Watching, from left to right are Big Owl (Bill Draper), with Little Owl (David Draper) in front of him; Swift Panther (E. A. Williams); Setting Sun (Gus Heckler); Big Eagle (F. J. Collins). On the floor at right are Rising Sun (Kyle Heckler) and Little Eagle (Larry Collins).

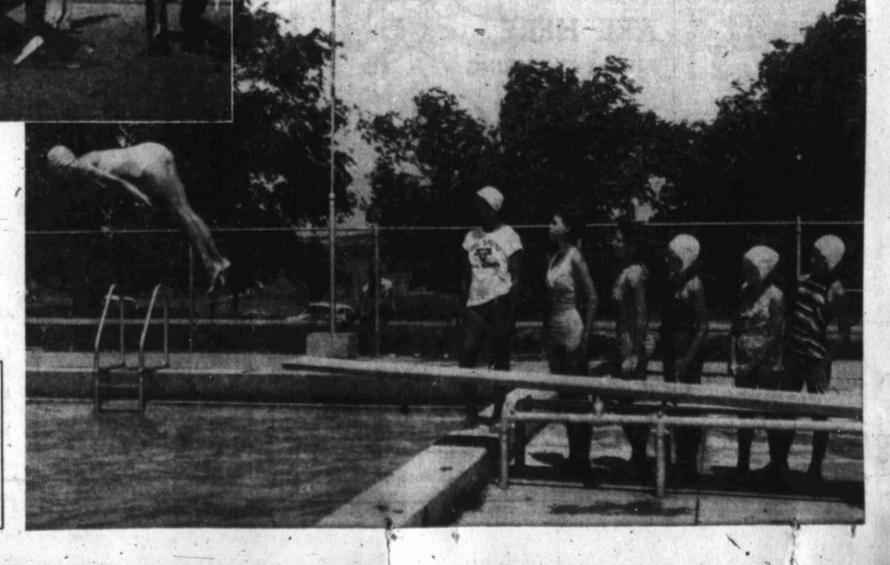

THIS MAY MAKE YOUR TEETH CHATTER TODAY, but wait until July and August; then it will seem quite refreshing. At right is a glimpse of one of the swimming and diving classes which the YMCA conducts each year as part of its summer recreation program. Sammie Sue McComb is the instructor, who watches as one of her young charges prepares the cleave the water. Not identified are the other would-be mermaids.

Miss Porter Is Bride Of Leland Ray Calvert

Roswell, N.M., Saturday evening, mited in marriage Lynn Porter and Leland Ray Calvert. Vows were taken in the manse of the Presbyterian Church before the pastor, the Rev. Homer Tegler.

The bride, who, is employed in Roswell, is the daughter of Mr. and Mrs. A. A. Porter, 710 E. 14th, Big Spring. Mrs. Thelma Cal-vert of Spur is the mother of the

Porter gave his daughter in marriage. She wore an ivory slipper satin shirtwaist frock with matching accessories. Her only jewelry was a strand of pearls, a gift from the bridegroom, and she wore an orchid corsage.

For tradition, Mrs. C. L. Wasson had given the bride a blue garter; she carried a sixpence in her slipper and held a handkerchief, which had belonged to her great-grandmother. From the maid of honor, Betty Joyce Gray, she had borrowed a white Bible.

Miss Gray chose a two-piece suit in beige and used matching accessories. Her corsage was of gar-

A Family Treasure

Mrs. H. J. Price, who observed her 90th birthday with a party Thursday afternoon, is shown with her oldest great grandchild, Martha Elizabeth

observance of her 90th birthday.

Mrs. H. J. Price planned to spen her birthday, Friday, with men bers of her family who came to

Lamesa from their respective

Born Mattie Wristen in Fannin County, she married Henry J.

Price July 17, 1890 at Montague,

and in 1896 came to Borden County

with her husband. Price bought

land 10 miles south of Gail and and here the family lived in a dugout while he freighted from Colorado City to various Borden

With her husband gone days at a time, Mrs. Price was left with the children, and very little other

company. The country was full of

snakes, coyotes and cats; Mrs.

Price was afraid for the children

to get out of the dugout lest they

SNAKE DANGER Shortly after moving to Borden County the two-year-old son was

standing in the doorway when he turned and told his mother:
"Something is going sou-sou."
Mrs. Price looked and saw a big

rattler right at the boy's feet; she "raked" the child out of the way

with a sweep of a hoe and killed

The Prices had three sons, Cleveland, Ed and Earl, all deceased; their daughters are Mrs. Lizzie Alsobrook, Lamesa; Mrs. Maude

Harrison, Lubbock and Mrs. Cyn-thia Brantley, Fort Worth.

The turn of the century found

the Price family in Howard County. Mr. Price was a freighter and

farmer, not a cowboy like her family, the Wristens. In the early

days it seemed that as soon as there was a church and a school built where they lived, the family

They came to Lamesa in 1908 after going as far west as Floyd, N. Mex., near Portales. The Prices bought a half-section of land from

John Joyner six miles south of La-mesa, and after a dugout the shack

they lived in was really high class. Mrs. Price said. The pioneer fami-

ly had also lived in a tent and had traveled all over the country in a wagon. One of the children, Mrs. Alsobrook, much preferred to

ride horseback when the family was on the move, and she recalls that she rode from Howard County

to New Mexico on a horse rather than ride with the rest of the

DAWSON PIONEERS

Three years before the Prices

settled down six miles south of La-

mesa in Dawson County, Mrs. Price's parents, Mr. and Mrs. A.

C. Wristen and her brothers, John, Will and Bert, moved to Dawson County from Montague. They settled on several sections of ranch land bought in 1904.

Mrs. Price's father was one of the men instrumental in organizing Dawson County and making La-

mesa the county seat. He was a

prominent figure in the feud between the communities of Lamesa

and Chicago, vieing for the court-

After Mr. and Mrs. Wristen died in the early '20's their children traded a quarter section of land

for the family monument which still stands in the Lamesa Ceme-tery. Although the trade was made

with a Lubbock monument firm,

this land, as well as the Wristen

home place, is now part of the Kellam family property.

Price died in 1942. He served as a deputy sheriff in the early days of the county and was one

of the early county commissioners, a member of the Lamesa City Council after its organization

and in later years was a director of the First National Bank.

Since Mrs. Price suffered a fractured hip in a fall 12 years ago, she has been an invalid, and al-

though she retains a home in La-

mesa, she spends most of her time with her three daughters. She is living with Mrs. Alsobrook now, and the birthday festivities were

Wildcat Tests In 1959

36.7 45 bbls 36.5 pope

Texas American No. 1 Woodul jed in potential from 4.15 barrels 219.43 barrels of 45.5 gravity oil per day from the Glorieta to 218.33 with 1 per cent water in the Pennsylvanian at 8,600 feet and 121.44 barrels of 39.4 gravity oil in the burger.

Borden County had two of the Spraberry at 7,800 feet.

A Fusselman completion was the deepest discovery project of the year. It was Forest No. 1 Harris which made 455.83 barrels of 38.9 gravity oil at the 12,000 foot level. One other strike was reported during the year and it was in the

Eleven strikes were reported 218.62 barrels of 43 gravity oil with during the year in five zones. The no water from the Strawn at Strawn was found three times, the

3031-90

San Andres

Clear Fork

San Angelo Clear Fork Upper Perm

The Spraberry was pegged between 5,000 and 7,700 feet and the Glorieta between 3,200 and 4,000 feet. The San Andres ranged from 2,000 to 3,000 feet and the Strawn between 7,600 and 8,000 feet. Southern Union Gas Co. No. 1-A Koonsman was the only new well to go above 200 barrels on potential. It made 210 barrels of 39

GLASSCOCK The Spraberry at 6,500 feet and the Queen Sand at 1,883 feet yielded both discoveries during the

gravity per day in the Strawn.

An offset to Currie No. 1-22 Reybolds, the Queen discovery, failed. An offset to TXL No. 1-41 TXL, the other new oiler, is staked and preparing to begin operations.

HOWARD Basin Oil Co. No. 1 Cates had the largest potential for new wells during the year. Operator found the Spraberry at 7,600 feet and made 181 barrels of 38 gravity oil with 10 per cent water on potential

Cosden Petroleum Corp. No. 1 Whitmire potentialed for 142 barrels of 42 gravity oil with 19 barrels of water on potential test in the Fusselman at 9,500 feet. Williamson No. 1 King also found the Fusselman productive at 9,300 feet and made 33 barrels of 46 gravity oil with 10 per cent water. Sabre No. 1 Quinn was the other producer making 68.31 barrels of 31 gravity oil with 5 per cent wa-ter from the San Andres at 3,300

Pan American No. 2 Turnbow proved the Breedlove field had wo pay sections with completion in the Strawn of 448.17 barrels of 44 gravity oil on potential test. The section is at 10,800 feet.

Two projects made successful completion in the Wolfcamp and another found the Strawn fruitful at 10,500 feet. MITCHELL Two projects were listed as dis-

coveries, both in the Clear Fork. One completed from open hole at

2.500 feet and the other from perforations at 2,900 feet. The potentials were 70.25 and 88 barrels per day respectively. STERLING The San Angelo, Clear Fork and upper Permian were formations

yielding discovery potential. Potential was low, 48.80 barrels per day combined, and only the Clear Fork project was perforated. All three holes were less than 2,000

Decade Adds 4,987 Wells To Vicinity

The Big Spring area had almost | éd over the area and wells were 5,000 oil wells completed during | finaled in 65 proven oil fields. the 1950s for initial 24 hour poten tials of nearly a million barrels o

The exact figures fc" the dec ade was 4,987 new wells, which includes wildcats, and daily flowing or pumping potential of 923, 088.26 barrels of oil.

In the same period, oilmen sun 1,131 holes that were plugged and

Generally, drilling activity wa on the increase in the latter hal of the period, but potentials, or the average, were lower. In the first three years, about 1,000 well were completed for over 350,00 barrels of oil. In the last thre years, over 1,500 wells finaled for about 210,000 barrels of oil daily.

With the exception of 1959, the number of abandoned holes hov ered around 100 per year. But las year, 157 were counted in the eight-county area.

These figures include Borden Dawson, Glasscock, Howard, Mar tin. Mitchell and Sterling for th first eight years. Garza is include ed through most of 1958 and all

During 1959, 560 wells were completed, the most new wells since 1956 when 671 finaled.

Daily potentials for the year reached 75,152.87 barrels. Borde led the area in total oil with combined potential of 29,651.88 bar rels. Howard led in new wells with 168 end Garza had the most dry holes, plugging 47.

Thirty-six wildcats were complet-

R. E. Cowden Dies In San Antonio

SA NANTONIO (AP) - Rorie Emmett Cowden, 62, an oilman formerly of Midland, died Friday after a long illness.

Cowden, born in Midland, was as ranching family.

Race Law

KANSAS CITY, Mo. (AP)-The City Council passed an ordinance Friday making it unlawful for restaurants or hotels to refuse service because of race or color,

Completions Run Off 1959 Pace AUSTIN (#) - The Railroad Commission reported Saturday a total of 200 oil well completions for the week, making a total of 455 for the year, A total of 501 is on record for the period in There were \$1 gas well comple tions and 119 dry holes. Three oil wildcats and one gas wildcat were drilled The 217 wells plugged included 87 oil and 9 gas wells. Average calendar day allowable was 2,927,523 barrels, com-pared to 2,918,038 Jan, 9.

To Run Tests

Champlin No. 1-A Miller, seeking Ellenburger and Strawn pay in the Romac field in Borden County, was bottomed Saturday at 8,487 and preparing to take tests. It is located C NE NE 66-30, J. H. Gibson Survey.

ALFRED GOODSON

Goodson Takes LaMarque Post

Alfred G. (Tuney) Goodson, for many years a member of the Cosden refinery staff, has accepted an assignment with local No. 347 of the Operating Engineers in

Texas City. Goodson was an electrician at the refinery and later served as business agent for the local here. Last year he was re-elected without opposition to the presidency

Goodson is a native of Howard County and a graduate of Big Spring and also served as a member of the Big Spring city com-

Mr. and Mrs. Goodson and their two sons are now at home in La-Marque with their two sons, Mike and Danny. Both their parents, Mr. and Mrs. W. J. Goodson, 605 Douglas, and Mr. and Mrs. H. L. Shrley, 911 Lancaster, reside in

Cosden Has 2 Locations

Cosden Petroleum Corporation has staked location for two Queen sand tests in Andrews County. Both will go to approximately 5,-200 feet and will be located about seven miles northeast of Andrews.

Cosden No. 2-T University will be 660 from the north and 1,986 from the west lines of 26-4, Univensity, and No. 1-S University will be located 660 from the north and 3,310 from the west lines of section 26-4. Cosden No. 2-B State, in Lea

County, N. M., is being completed at a total depth of 9,980 feet. Cosden No. 3-4 University, in the Penwell field of Ector County, was drilling below 3,200: Cosden No. 1 Baggett, a re-entry

of a test previously abandoned by Magnolia in Crockett County, was testing at 9,590 feet in the Strawn. Cosden No. 2 Waddell, Crane County set surface string at 454 and waited on cement to set.

FPC Grants Raise

WASHINGTON (AP)-A recommendation to allow Union Oil and Gas Corp. of Louisiana, which has headquarters in Houston, a \$2,800,-000 annual natural gas rate in-crease was made Friday by a Federal Power Commission exam-The rotary rig count in the Permian Basin continued easing off

Union had sought \$5,100,000. The last week with a total of 273 units decision becomes final if no review is initiated within 30 days.

Here is the finest reason for

RADIO FREE EUROPE to remain on the air-a truly moving letter from a woman in Poland: "My late son and I wrote to you twice before." Letters the Reds stopped from reaching RFE: "To us, disinherited from freedom, your broadcasts gave us many a moment of joy and faith in a better future. I remember how my son would listen to your broadcasts hour after hourhow happy they made him. . . . Then he returned from the Urals with a wounded head-a ghost, not a man. He had to lie in bed for 8 months before the wound healed, and all that time he listened to your broadcasts on the radio. Before he died, on a Sunday evening at 8 o'clock, and even though he was in terrible pain, he asked that the radio be brought to him. Then he heard the Holy Mass for the last time over RADIO FREE EUROPE May God bless you for all the happy moments you gave this poor man who suffered so much. and may the Lord let you continue."

Cabot Experiences Record '59 Sales

duction, the Big Spring plant of in bulk form. And about 56 per Cabot Carbon Co. fell back on storage to meet the high sales of 1959. W. S. Dixon, production superintendent of Texas, said production of carbon black was over 80,000, 000 pounds, making a new record. Sales for the period were more than 90,000,000 pounds, forcing the company to rely on stored re-

In most respects, the plant operation was the same as in previous years, but a construction program was started toward the end of the year that will result in production increase capability of 50 per cent.

New construction will not add to the production units but will increase the throughput and efficiency of present ones, Dixon said. This work is to be completed this month. Carbon black sales went almost

entirely to domestic rubber factories for compounding in tires. About 60 per cent of this moves to the central and eastern parts of the nation, Dixon said. However, 15 per cent of the production went for export purposes, including the Far East and South

Eighty per cent of the shipments moved by rail and the rest on motor freight lines. More than ,000 cars of black were shipped by rail. Over 700 rail shipments

Martin Well Has Devonian Oil

Great Western No. 1 Allen, Martin County wildcat which has shown production possibilities in several zones, gave good promise of Devonian production Saturday, Operator swabbed opposite Fusselman perforations at 11,752-57, recovering 56 barrels of load water and 36 barrels of pew oil. Operator is still swabbing to cleanout. Location is 660 from south and 1,980 from east lines of sec-

Despite a record year of pro- were in special tank cars loaded cent of the total shipments, tonage-wise, uses this method, Dixon

Additional loading tanks for these tank cars were also in-

stalled during 1959. An increase in employes was reported for the year as the payroll zoomed to \$650,000. There were about 80 employes at the end of 1958 and about 95 at the end of 1959. In addition, about 15 to 20. men were working, used in construction work.

The carbon black is produced from a special oil produced by Cosden Petroleum Corp. Average consumption was about 55,000 gallons per day. This is being increased, due to the construction changes being made, Dixon ex-

In addition to oil, Cabot Carbon Co. purchased over a billion cubic feet of gas from Pioneer Natural Gas Co, and 90 million gallons of raw water from the city. The water goes directly to the plant from Lake J. B. Thomas

East Texas Oil Fire Extinguished

ALVORD, Tex. (AP)-Fire in a well being completed by the Pan-Tex Drilling Co. of Kilgore burned during most of Friday and was extinguished late in the afternoon when a flow of gas was shut

Heat of the flames, fed by gas flowing at the rate of eight million cubic feet a day, melted the base of the derrick and it toppled over. There were no injuries Damage was estimated at \$125,

The well, a mile northwest of here, is the 1 Steph-Shaunty, in the R. H. Sanders Survey, A-767, Claude Johnson, drilling superintendent, said the fire started while the drilling crew was fishtion 41-33-In, T&P, eight miles ing for a stuck drill pipe at 5,840 northwest of Stanton.

EVERY DAY IS LADIES' DAY

IN THE BIG SPRING DAILY HERALD

Being a family newspaper your Home Town Herald places great emphasis on the news and features that interest women. Every day throughout the year, you'll find the women's pages contain news and helpful advice on just about everything that's dear to a woman's heart. Fashion, club activities, social events, child care hints, beauty tips, solutions to family problems, food preparation and many, many other features crowd the women's pages daily.

So . . . whether you are a career woman or a homemaker, your Home Town Herald has something of interest for you. It's a wonderful place to look for ideas and help in making life more pleasant . . . more enjoyable!

Big Spring Daily Herald

TOTAL SELLING MEDIUM IS THE DAILY NEWSPAPER

Next to the Bible, your daily newspaper has the greatest family appeal. It is read and reread . . . clipped, saved and referred to over and over as a complete and accurate source of information. There is something to appeal to every member of the family: Mother likes the women's pages; Dad enjoys the news, finance and sports pages; daughter dotes on the fashions; children clamor for the comics and games.

Whatever you want to know about — news, sports, drama or comedy . . . your newspaper can inform you best — FIRST!

In Band Competition

we are twenty senior high school band members who entered band competition in Odessa. From left to right they are: front row, Dorene Kennedy, Lillian Burnett, Lynn Clawson, Carolyn Thompson, Sally Adair, Mary Jane Engstrom, Carolyn Lewis, Pat Bishop and Kathlene Soldan; middle row, Edward Loveless, Wayne Griffith (all-state band member), Mike Bishop, Larry Latson, Wayne Williams and Mack Green; back row, Herman Hodges (all-state band), Don Mitchell, Joe Reed, Charles Dunagan and

The electricity bill of last week in the homes of high school students is really going to be high. Dead week is certainly an appropriate name for exam week — nothing is done but students. In Lubbock with other students to determine who will go to Austin. They were Mary Jane Engstrom. Kathleen Soldan, and Edward Loveless. Congratulations! Student Council members got up

their last exam in high school on faculty breakfast. Forty-two teachcollege ranging everywhere from HCJC to Indiana. The graduates receiving their diplomas are also cooks Perdue, Charles Smith, Kay Mc-Gibbon, Judy McCrary, Jerry Hutchins, Mary Ella Bain, Judy Burns, Sam Copelin, Patrich Ferguson, Becky Gebert, Ted Groebl, After slaving of Barbara Lunsford, Sue Pope, Lyn long-time rival O Cannon, Gloria Sosa, Jimmy Tuck-er, Carolyn Stanaland, Paul Peter-

BAND WINNERS Some of our band members have really put us on the map! Herman Hodges and Wayne map! Herman Hodges and Wayne
Griffith have won places in the
all-state band in Austin January
9, a group of about, 37 members
competed in the regional contest.

Other form Big Series contest. Others from Big Spring competed | See you in church!

Twenty-one of the seniors took morning. The reason? The annual Friday. The mid-term graduates ers were present for the affair which was almost 100 per cent.

The rafters in the Steer gym vibrated from the mighty Long-Judy McCrary, Jerry Mary Ella Bain, Judy Warren Boyd, Lewis high-spirited Longhorns chartered

After slaving over exams, the After staving over exams, the Steers again competed with the long-time rival Odessa Permian. Many of the student body journeyed there to back our team. So there won't be a much confusion, gang, be sure to go to your second semester classes on Monday. The second semester means a clean state for every.

By KAY LOVELAND

And so the plague has come updreaded of all college diseases, got off to a flying start Friday morning at 8 a.m., and they'll continue to fly until 4 p.m. Thursday afternoon for many students. But once they're over, just think of the few days of relaxation between semesters. Hope all of you have an exam schedule so you'll be sure to make all your tests.

Registration for the spring sem-ester will be held Jan. 25 and 26, beginning at 9 a.m. Some freshmen students have already preregistered, but you better get there early if you want to avoid

PLAY CHOSEN

Fred Short, speech and drama instructor, has chosen the next college production. It will be "The Petrified Forest," the 1935 Pulitzer Price-winning play by Rob-ert Sherwood. The play centers around three major characters, a gangster, a writer and a young woman, with several secondary roles. Readings for the play will begin shortly after the semester begins; be watching for a definite time. There is a big male cast, so ya'll males come on out. Mr. Short plans to take a 40-minute cutting from the play to enter in the state one-act play contest.

The play contest is expected to be one of the major activites on Members of the Gayhill P-TA the HCJC campus this year with heard a talk by Mrs. Terry Patmore than 20 junior colleges invited to the meet on March 10 and

A new element may be added paintings done by herself and her this year. Groups from Army and students. Air Force installations in nearby the affair and compete against gram, and refreshments were cal, or if you prefer, spiritual, meeting human life at the point of its greatest need."

ma director at Austin College, will be the contest judge.

By ROSALIE DeVANEY Whew! What a relief to know that those awful mid-term tests are over. I know quite a few students that feel as if they can at last take a breath now that one semester is finished-but don't relax too much, kids, there's another just as rough ahead.

There was something good this week, in spite of the tests. Our baskethall teams played O'Donnell, Tuesday night and won both games. The boys won 47-38 with Dewayne Richters as high-point The girls' victory score was 61-28. Joan Davis was high point girl with 24 points. Both teams yed conference games with Rotan Friday night.

The boys also went to the Big Lake Tournament last weekend. They left Thursday afternoon and returned Friday night after defeating Menard 70-53, and McCamey 50-37, but they lost to Stanton by nine points. The boys stayed in the homes of Big Lake families, Thursday night. Keep up the good work, teams, and let's win dis-

The Student Council had a meeting Monday during the activity period and made further plans for "Beatnik Day" which will be Thursday. A Beatnik Queen and King will be chosen by unknown judges on the campus. Those not participating as Beatniks must buy an "I'm a Square" card for seeing Education in Action, which was the Show; 1:30-2, Grand Champion Lamb show; 2:2:15, Heifer Show: Frank Shannon gave a talk on the aspects of art in each individual's life. 25 cents. This card must be worn around the "square's " neck and displayed at all times. The Beatnik day rules are posted on the bulletin board, so all you "cats" get ready!

Phi Theta Kappa members have been making plans for the Pajama Dance that will be held April 1. Get out your best page everyone.

Goliac Two Teachers Are Added To Faculty

Big Spring (Texas) Herald, Sun., Jan. 17, 1960

By DE MASON The tests are over and a look of relief is expressed on almost every student's face.

Goliad is adding two more new teachers to their faculty. They are Mrs. Romola Fritz, who is to take charge of Mr. Frank Farar's math classes, and Mrs. Elizabeth Trimpe, who will take Mrs. Joy Corvin's reading classes. A hearty welcome to both of them.

The homemaking girls are finishing up their sewing and cooking for this term. After the semester, the girls will change; those cooking this semester will sew next semester and vice versa. BAND OROWING

When Goliad was first opened in 1958, the band consisted of 49 pieces. This year the school boasts a 99-piece band, and next year 114 pieces are expected. We would like to see 120 pieces before the year is over, so if you want to join our band, we would certainly like to have you. If, you are in-terested, come by the band halland speak to Mr. Fry. New classes will begin next week. There are openings in the flute, cornet, clarinet and trombone sections.

Thursday afternoon a pep rally was held. Yells were received enthusiastically. De an Terrazas, majorette, presented Mr. Walker. our principal, with a recently won trophy from the band. The band trophies are certainly adding to our growing collection.

Thursday evening our three basketball teams played Snyder, The 7th grade lost 19-14 and the 9th grade also lost 29-25. The 8th grade was our victorious team, coming out with a 25-16 victory. Friday at 2 p.m. Goliad's 9th grade participated in a tourna-ment held in the gym. Edison Junior High of San Angelo was their opponent. Have a nice Sunday, and just think, report cards come out

City's New Nursery Started

Johnny Johansen, Big Spring park and recreation superintendent, left, instructs workers in planting the first trees in the city's new nursery area near the sewage disposal plant. Bruce Dunn, director of public works, said 910 young trees were recently purchased at a cost of \$47. These trees will be transplanted at a later date to park and other municipal areas throughout the city.

This first planting includes 10 varieties of trees. There are 100 each of American Elm. Green Ash, Thorny Honey Locust, Red Bud, Mimosa, Pin Oak, Willow Oak, American Holly, and Mountain Laurel. Dunn pointed out the nursery is an inexpensive way the city can plan for the future beauty of the city.

Continental May Move To New Airport Soon

CAL made the announcement of intentions as far back as October of 1959, but the projected change at the first of this year was delayed pending FAA rulings.

But when these regulations were announced a week ago, one sentence threw plans into a cocked hat. It stated that the regulations on approach facilities did not include commercial carriers.

out speedily. H. B. Osborne, manager of services for CAL notified Wayne Jordan, FFA safety in spector, on Jan. 13 of plans to change the seat of operations to the new Howard County Airport.

Bill Cheek, local CAL manager, other survivors are his widow; a daughter, Mrs. J. Alfred Tom to find that the move would be made relatively soon. A new hangar, with an office annex which could serve as a terminal building, is nearing completion at the first of this country in 1882 and lived with his family in Dallas before combining to Stephens Country as a rancher.

Other survivors are his widow; a daughter, Mrs. J. Alfred Tom of Midland; two other sons, Dr. O. W. Orson of Midland and W. N. Orson of Seminole, 10 grand-children and two great-grandchildren and two great-grandchi clude commercial carriers. Continental, however, has re- the new port.

changes that we will probably see

during the next ten years are as

SIZE OF FARMS The average size farm in Texas has increased from 405 acres in 1950, to over 500 acres today; yet, the number of farms have decreased thirty per cent. It is probable that this same pattern will prevail during the 1960's. We will see fewer farmers farming more acres and producing more farm products from these acres. The more land, spending more money, and producing more crops and than ever before. His cost of operation will be higher. Land prices in the United States at the end of 1959 were at an all time high. It is expected that the next decade will see a general stabilizing of prices for farm land.

Although farmers are operating

on a larger scale than ever before, their net income at the close of 1959 had turned downward from preceding years. Higher cost of equipment and supplies will cause farmers during the next ten years to cut every corner possible There is little doubt but what more and more machinery will take the place of human labor in order to maintain efficiency of the modern farm. During the last half of the 1950's, a gradual increase in the number of mechanical pickers and strippers has been evidenced throughout this area. It is entirely possible that the next ten years will completely eliminate ber by about \$6,000. The constituhand labor in the harvesting of

The day of the uneducated farmer has past. Our farm owners and Quimby, 1959's manager. operators today are well educated businessmen following a rapidly ered successful as a large attendthem to spend more hours reading and studying latest methods of production, insect control, disease control, marketing practices, etc.

The two main crops in Howard County are cotton and grain sor-There is every reason to believe that the next ten years will produce new and improved varieties of both these crops that Plan idea for the city saw birth sa, and Midland. will make the varieties now planted obsolete, Hybrid grain sorghums made an appearance during the last half of the 1950's with a resulting thirty to sixty ber cent increase in yields per acre. Hyready being produced on our experiment stations and the next few years should see these varieties available with approximately the same increased production. One primary advantage that corn has had over grain sorghum as a feed for livestock in the past has been ts yellow color and accompanying Vitamin A content. Our grain sorghum breeders now have a yellow indosperm grain sorghum that eliminates this Vitamin A deficien-

cy and puts grain sorghum on an

equal basis with corn. LIVESTOCK OUTLOOK Nearly two-thirds of Howard County is devoted to beef cattle and sheep. Although the numbers were drastically cut during the 1950's because of drought and de-teriorating ranges, the numbers are gradually building back and good years during the 1960's will see a steadily increasing number livestock in this county. Although feedlot operations have not been of too much importance during the past ten years, it is expected that we will see more of this type operation in the future. Farm operators know that marketing feed crops through levestock over a period of years will tend to increase net profit. Feeding ef-ficiency will improve daily, and the 1960's will see even higher feed conversion ratios. In the be-ginning of the last decade, feeders felt like they were doing a good job when they could produce a hundred pounds of grain, and improved feeding methods during the 1960's will narrow this ratio even more Any story reflecting agriculture

Milch Picks Special Day **Resign Post**

Al Milch picked the Monday after football season ended to announce his resignation as head football coach at Big Spring High

He thus ended three seasons as mentor at the local school, during which time his teams won four, ost 25 and tied one. None of the

four wins came in conference play.

Milch had come to Big Spring
from Sul Ross College at Alpine. where he was also head coach. He did not immediately announce his plans for the future but indicated he would get out of the coaching game.

use of a subsidy program. The farm people are the object of much criticism because of these subsidies, yet it has been shown time and again that other phases of our economy are subsidized just as much or maybe more than farmers. We must remember that food, clothing, and shelter are the basic necessities of life. It is much easier to build ill-feeling and hate among people who are undernourished, poorly housed, and poorly clothed. Many wars in the world have been started because large numbers of people were without sufficient quantities of these items. In the United States we have more food, more clothing, more good housing, and more luxury items than any other nation in the world. A primary reason for this is that the people of our agricultural industry assure our grow-ing population larger quantities of agricultural products at a reasonable price. When a family spends practically all of its income for food and clothing, there is little farm subsidies. As was stated left for luxury items such as earlier, farm surpluses brought on automobiles, TV sets, radios, air partially by farm subsidies, will be conditioners, etc. In order that a major problem during the 1960's. | we maintain the standard of living The farm people as a group do which we have become accustomnot want farm subsidies! however, ed, it is probable that we will

Parking Meters Are Profitable In 1959

Receipts from Big Spring park-ing meters climbed to almost a half million dollars during the last

A few new locations were spot-10 years, peaking in the middle

Although the receipts were up in 1959, to \$42,171.06, it was the first increase in four years. Starting at \$38,472.81 in 1950, re-

ceipts increased annually, except for 1951, to a peak of \$48,011.24 in continued downhill until 1959 when

an increase of about \$1,100 was reported over the previous year. The total receipts collected for the decade was \$414,740.09. August beat out the traditionally high December for parking meter

collections during 1959. Records in City Secretary C. R. McClenny's office have August collections at \$5,440.51 and December collections tipped the counter

at \$5,004.30. The low month was July when only \$1,906.38 was collected. Big Spring has 742 parking meters on city streets, according to Roy Anderson, assistant city manager. An additional 52 meters are

on the city parking lot. Anderson said 400 new meters ship and the Country Club crown were purchased during the year.

State Hospital Proud Of Open-Ward Project

It was a year of development and growth for the Big Spring State Hospital in practically all de-

Perhaps the greatest achievement of the year was the one hospital director Dr. Preston Harrison has cherished most - that of making the local institution a fully open-ward hospital.

This was achieved in 1959, and all wards are now open, except for a couple of admittance wards, where new patients must of necessity be kept under close scru-

OPEN WARDS

Dr. Harrison's philosophy has been that the presence of bars and locked doors makes a hospital feel like a prison to its patients, and much good therapy; whereas, with open wards, the patient feels that he is in a general 'medical) hospital. This is among the best of therapies, Harrison stated. Tranquilizers helped somewhat in

making open wards possible. Other chemical advances are watched and taken advantage of by staff

There were 1,114 total new admissions during the year, of which 554 were voluntary, 560 involuntary. Total discharges were 1,557 against a total gain of 1,557, in cluding re-admissions and returns. The November figures, which

are about average for the year, showed population divided by 160 Latin and 708 Anglo patients. Comparison of previous figures shows the hospital admitted more

Two new departments were added during the year. Mrs. Marian Ludwig heads the music therapy the hospital for minister, chaplain department, and Carl Mangum and student training. Five student

Changes In Pastors Is Noted In '59

Church news in 1959 included the comings and goings of several of the Big Spring pastors.

The Rev. Jack Ware, pastor of St. Paul Presbyterian Church, assumed the pastorate of the First Church in Pecos, He was re-placed by the Rev. Al Seddon. In September the Rev. W. D. Boyd, who served for nine years as the rector of St Mary's Episco-pal Church, left to become the pastor of St. Thomas' Parish in Orange, Va. He was succeeded in December by the Rev. Donald N. Hungerford.

'Village' To Tokyo

NEW YORK UM - In New York's Greenwich Village is a theater called the Phoenix, in which producer Norris Houghton has presented a number of good plays with talented players. The productions there are less expensive to do than if presented on the main stem of Broadway.

Now, some Japanese theatrical producers in Tokyo are trying the same experiment and they have borrowed the name of Phoenix for the name of their playhouse. And they are producing mostly American plays, particularly Eugene
O'Neill dramas.

Growing With Big Spring For 33 Years

WE GIVE AND REDEEM SCOTTIE STAMPS

We are proud of our record of growth and progress in Big Spring during the past 33 years. From a humble beginning, we have enjoyed steady growth until today, we are the largest men's and boys' wear store in our city. To our many friends who have made this success possible, we say a grateful thank you. We know we can continue to grow only by continuing to offer you the finest values and the newest fashions. This is our pledge to you for 1960. We invite you to drop into Prager's often, whether to buy, to shop or just to visit. You are always welcome.

Serving A Growing **Big Spring** For 74 Years

As we look back over our 74 years of service in Big Spring, we are indeed proud of our part in building our city into one of the most progressive in the state. We are sure the coming years will see Big Spring continue to grow and prosper. Burton-Lingo, Big Spring's first lumber yard and almost Its oldest citizen, stands ready to share in the civic responsibilities necessary to this progress.

Water Supply For **Future Is Urgent**

Gen'T Mgr. Colo. River Munie, Water Dist, 1960 decade looms as a cru-

During this period West Texasand I use the term to designate he area west of the 98th Meridian-must try to develop the surface and other water supplies definite action in this direction by 1965, it may be too late to take

of the state's drainage area and only 25 per cent of its runoff, much of it nonpotable. Yet West Texas has vast mineral and other resources, and its development is dependent upon a water supply that will support the necessary people and industries. EARMARK FOR WEST TEXAS

Therefore, it would be a wise and far-reaching state policy to earmark for West Texas use a sufficient supply of the water availexploitation of the community's able in the streams in West Texas for future use, otherwise it will be appropriated by others downstream in areas having a greater average rainfall. It also would be sound state policy to acquire reservoir sites and construct dams west of the 98th Meridian to store water fect our youth. Among these are for future beneficial use where an increased emphasis upon edu- rainfall is limited and need is

> We (the Colorado River Municipal Water District) already are pumping water 85 miles uphill to deliver water where it is being used for beneficial purposes. What will a few more miles matter in getting the needed supplies of potable water?

In the decade ahead, the measstate's available surface water more and more will be what an acre foot of water can produce for human benefits. We will see increasing adherence to the priorities in water use as set up in the Wagstaff Act, providing first for domestic and municipal uses, then for manufacture (including to find acceptance and feel a electric), irrigation, mining and recovery of minerals, hydro-electric power, navigation, and recreation. The time will come when potable water for lower uses will fare will come first. POLLUTION PROBLEM

to overcome both natural or arti- come.

ground waters, a condition which has become a serious problem.

We will need to press research in practical desaltation processes, During the decade we will find ways to reduce salinity to the als will permit "practical use of the water for some industrial purposes. Hence, we will need to pinpoint our surface and ground salt water resources for future use. We must make far greater utilization of sewage effluent as a source of beneficial water for industrial uses.

We need to support and even accelerate studies in evaporation control, which already can conserve stock pond and open surface storage water yield by as much as 25 per cent, and which conceivably someday could be used uring stick for allocation of the effectively on larger bodies of wa-

Welfare Costs In 1959 Are 11 Times Greater Than 1950

Back in 1930, the cost of maintaining the Howard County Welfare Department was \$2,397.07. Some talk, from time to the help — grocery orders, medicine, commissioners court of the multiple of

county for welfare than 1958. That year, with \$25,167.03 expended for the relief of the indigent of the county, was an all time high.

State law specifies that it is the responsibility of the counties to care for the indigent persons in their boundaries. As a result of this law, it is up to the county commissioners to allocate sufficient funds from county money to car-

COUNTY RESPONSIBILITY Mary Cantrell, who has served as county welfare officer for many years, said that the demand for help from the indigent mounts to 530 persons in 1959 as compared to 642 the preceding year. 1959 (630) this is the number of persons (x)—No records kept

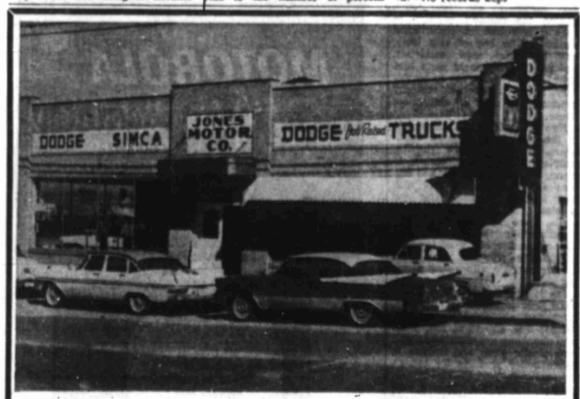

Ten years later, cost of maintaining that same department is eleven times as much—\$22,836.31.

Chiminstalics Court of the county assisted a consibility. It has been pointed out
that the bulk of those who come to And despite this high total, 1959 Miss Cantrell in search of help are tures for this purpose much reresidents of the city. However,

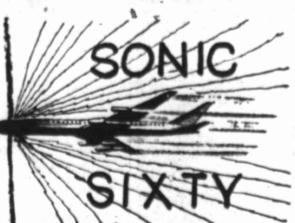

any of the burden to the cities, ber has increased from 406 in that it is up to the county to carry on. Aft agreement worked out with months ago has contributed to the decrease in dollars spent in 1959 Cantrell. Hospitalization for indigents in 1959 was approximately \$4,000 under the sum spent for such services in 1958, Miss Cantrell said her office rendered assistance

of such persons is a county re-sponsibility and does not allocate ber of persons helped. This num-

1960 -A YEAR OF CONTINUED **PROGRESS**

We expect 1960 to bring continued progress to our city and we plan to be part of that progress. To make '60 your greatest motoring year, we invite you to come in and drive the 1960 Dodge, Dart and Simca. You'll find three of the most wonderful cars you've ever dreamed of and just in your price class. We would like for you to get acquainted with our cars, our service and our personnel. We feel sure you'll agree you always get a better deal here.

JONES MOTOR CO.

City Water Consumption Is Double That 10 Years Ago

Big Springers finished out the decade in 1959 using 2,111,026,000 gallons of water and it all came from Lake J. B. Thomas.

This figure represented more than twice the amount used in 1950, the opening year of the decade when only 961,389,000 gallons were used.

In 1956, the city used over two billion gallons for the first time. Consumption dropped off in 1957 and 1958, then climbed to the new record in 1959. Big Springers picked August 6 as the banner day during the

year to use more than 10,000,000 gallons of water for the first time.

It was the only day during the year that consumption reached the 10 million gallon mark. Out of the total water used, al-most a half billion gallons went to Cosden Petroleum Corp. and Cabot Carbon Co. The exact figure was 446,174,000 gallons. The remainder of the total, 1,664,852,000 gallons was treated at the Big Spring filter plant and piped to Big Spring homes.

Maximum consumption month was August when 288,978,000 gallons were used. The high month

572,000 gallons.

Big Spring water consumption doubled during the decade just ended and 1959 set a new all-time record for water usage.

The low month for the year was February when only 121,190,000 for the last year of the decade was 5,783,600 gallons. In 1958, this tion in 1958, only the total was 92, lone.

ARE YOU GETTING THE MOST OUT OF YOUR TELEPHONE?

Mary Louise Radzom, busy mother of 3, tells how her phones lighten the load, make life more fun

Are you using the telephone in every way you can . . . to save valuable time and thousands of steps . . . to allow you to do more of the things you want to do?

If not, you might ask yourself, "Why not?" After all, that's what a telephone is for . . . to use.

Mrs. Mary Louise Radzom—one of a group of telephone customers who kept a diary of calls made and received in a week-believes in using her telephones to accomplish many jobs and keep in touch with relatives and friends.

Mrs. Radzom places many of her calls on an extension telephone she received as a birthday present. "One of the nicest gifts I ever received," she says.

Looking over her diary of calls, Mrs. Radzom smiles. "Hard to believe, but it shows I couldn't run the house and keep up with my outside activities, too, without my telephones."

As the record shows, the Radzom family is getting the most from its telephones. Are you?

MRS. MARY LOUISE RADZOM

10:50 a.m. "Called department store to order a coat that my daughter Pamela, 10, tried on the other day."

4:10 p.m. "Pamela invited a friend to

our house to see new puppies (French

poodles). The kids just love them."

12:30 p.m. "Neighbor called to ask me if I'd help her with a dress pattern. I'm no expert but I told her 'Sure.' "

1:15 p.m. "Husband Paul told me he'd be working overtime and to eat supper without him. Must be one of those days.

10:10 a.m. "Asked cleaners to pick up

2:20 p.m. "A friend called. Just pleasant chitchat. Said she felt like taking a break for a little while. Me, too."

4:30 p.m. "Called the pharmacy to have them fill a prescription for my daughter Patricia, who is five."

County Court Has Big Year Howard County Criminal Court continued its usual busy pace in

1959. The chief difference, perhaps, in the picture this past year and 1958 was in the number of cases which were disposed of during the year by the court. Wayne Burns, county attorney, said that 441 cases of all kinds were filed in the court during the year. Worthless check offends ers probably accounted for the lion's hare of the offenses handled by the court. There were 106 worthless check cases still pending when the year ended. Driving while intoxicated, first

offense, piled up 92 cases during the year. Fifty-three of the defendants in these cases entered pleas of guilty. Eight were dis-missed and 21 are still on the docket as the new year opens. The juries acquitted five and convicted four. Fines collected for DWI convictions totalled \$4,384. During 1959, Burns' office col-lected hot checks written by 279 individuals. Collections ran \$4,-

As the year came to an end, there were still 21 DWI cases; 106 worthless check complaints and 38 other cases covering miscellaneous other misdemeanor complaints handled by the court, still

Burns dismissed a large num ber of old cases which had been on the docket for along time. In these cases, hope of bringing the matters to trial was faint; the whereabouts of many of the defendants was unknown. Witnesses were no longer available.

Several jury dockets were conpart of the program established by himself and County Judge Ed Carpenter at the beginning of 1959. County Judge Carpenter said he proposed to continue with the jury dockets at frequent intervals as a part of this year's operations in 1000), Other practices are water the county court.

Wes Tex Phone Co-Op Expands At Fast Pace

Wes-Tex Telephone Cooperative completed its fifth full year of operation in 1959. During the year 244 miles of new lines were built and 288 new telephones installed. This brings the members connected to 939 and the miles of lines to 813. All prospective homeowners will Value of the system increased

Is All Ready For New Year The Veterans Hospital saw another year of continued gradual expansion during 1959, and the institution was in good shape for

There is now no waiting list of patients, said Dr. J. H. Frieddirector, although every bed in the hospital is filled. Thus, entry into the new year finds an exact balance between supply and demand in the veterans medical

VA Hospital

The authorized patient load, set by Washington, again was increased. Last year, the number was 224, this year 226. The staff is stable, and the hospital is well staffed with nurses despite the shortage in that profession. TO COMPLETE STAFF

Dr. Friedlander expects to select a new physician soon, with two more to be named next year at which time the staff will be complete. He said his list of applicants was more than the hos pital could use, which gives Friedlander a better field of selection. The hospital chief singled out the 366 volunteer workers for spe cial praise, noting that an average of 170 visited and worked wards each month. These volunteers are not restricted to Big Spring - they come from all over the West Texas and southeastern New Mexico region served

The volunteers leave no stones unturned, helping in therapy, special services, entertainment, or just plain visiting.

The VA Hospital has worked out a seven-day program for the older and long-term patients, those whose stay is longer than usual or permanent. There is no haitus over the weekend, no spells of boredom and inactivity. This helps keep the longterm patients active

Statistically, 2,448 patients were admitted during 1959. Patients treated totaled 2,684, with 2,476

Among admittances were 1,079 rean War. 94 other veterans (Spanish-American) and 21 peacetime veterans and other persons.

The average daily patient load was 2240 with a percentage of oc-Ocupancy of 89.6, Approximately 20 per seent of the nationt load is classified as chronic (hospitalized 60 days or longer).

Total number of employes at year's end was 274; five were retired, four for disability. New equipment was added to the operating room, and the library and

R. L. TOLLETT SAYS

Despite Handicaps, Oil **Is Still Good Business**

Exploration for and development of domestic crude oil and gas reserves is still a good busi-ness. Limitation on production extends the period required for return of capital investments, but still not to an unreasonable degree. So there will be modest increases in domestic production during 1960 to meet expansion in demand which will require approximately 3 per cent increase in

Expansion of gas transmission lines will be continued but no increase is in prospect for expanding of pipelines for transportation of crude oil and products.

The year 1960 is sure to be remembered for lower refiner's margins on processing and marketing. The existence of excess domestic refining capacity will be contin-ued through 1960 and perhaps un-til 1961. Normal increases in demand, coupled with unavoidable solescence of refining processing equipment, will surely elimithe end of two years. Moves to re- oil processed. strain ambitious sales programs and limit refinery runs will be anmed from time to time, but until domestic demand catches up with present refining capacity, product prices will remain de-

ressed.

Refiners and marketers are beginning to retain a greater pro-portion of their margins through reduction in processing costs and selling expenses.

Domestic crude oil prices are

now and will continue to be reasonably firm at present price levels. Oil industry managements this year will be principally concerned with reducing the cost of acquiring crude oil reserves as well as improving efficiency of rewell as improving efficiency of re-

Thompson Is Star Athlete

The big news in local basketball perhaps wasn't the fact that both Howard County Junior College and Big Spring High School enjoyed successful seasons but that Bill Thompson of the high school con-tingent broke the District 2-AAAA scoring record.

Thompson scored a total of 171 points in the two games to beat out Jan Loudermilk's year-old record by three points. The feat enabled him to get

unanimous vote in bidding for spot on the all-district team, For the season, Thompson-who enrolled at Rice Institute in September — wound up scoring 572 points in 30 games, for an average of 19.1 per game.

Only one other player in Big Spring High School history, Jan Loudermilk of the 1957-58 Steer team, had accounted for more points in one season than Thomp-

The Steers wound up winning 19 of 30 games. Odessa finished with an undefeated conference record. In fact, the Bronchos won 29 straight games before they yielded to Pampa, the ultimate state titlist,

in the regional playoff.

HCJC finished in a tie for second place in the West Zone race, back of Clarendon College. Clarendon's only regular season loss was

by two points (54-52) to HCJC in a game played here. Frank Phillips of Borger deadlocked the Hawks for the runnerup spot in the playoffs but the HCJC beat the Plainsmen decisively in a playoff to earn the trip to the Texas Junior College Conference tournament, which was held

In the state meet, the Hawks won their opener, 55-46, over Decatur Baptist College but wound up in fourth place, losing successive

games to South Texas, 66-61; and Clarendon, 56-55. The Hawks' won-lost record also earned them a spot in the Region

tournament They surged to the finals in the Amarillo show, losing to San Angelo, 83-82, in a real thriller. San ingelo thus earned the trip to the

GROWING WITH (Inthon

BIG SPRING and the GREAT SOUTHWEST

Just as it is generally known throughout the Southwest that Big Spring is the leading area in industrial development, it has become widely accepted throughout West Texas that Big Spring is also the ideal place to buy family needs for everybody. Greater selection, leading fashions, desirable values, convenience of shopping and friendly service.

It has been our privilege to grow with Big Spring and West Texas for the past years.

Construction in Big Spring reached \$38,314,942 during the decade just ended with 1952 being the high year for new building.

Annual construction during the decade went over five million dol-

A total of 3,681 new homes were built during the ten year period with most of them going up during the first few years, Only 127 were built in 1959 and building permits were issued for 815 in 1950 and

During the last year, 1959, construction was valued at \$3,512,012, according to figures kept by Tom Newton, Big Spring building in-

Of the total, \$1,234,600 went for residential construction and \$1,-702,999 was used in commercial construction. The remainder of the construction was for remodeling, moving and additions,

The biggest month during the year for building was January when permits issued were valued at \$747,901. Two large constructions were planned that month when the Big Spring Independent School District took out permits for \$342,800 and the Fourth Street for \$342,800 and the Fourth Street lice department. Baptist Church obtained a permit

tained two more building permits, resulted in the accidents of both one for \$78,000 and another for

In June, the YMCA building permit was issued for \$294,000. The school district took out another permit in October for \$38,700.

A total of 753 permits for all purposes was issued during 1959. On a month-to-month basis, January had 39 permits, February 42. March 76, April 79, May 68, fic Commission and the Jaycees June 63, July 62, August 87, Sep- of the driver improvement school tember 85, October 61, November 50, and December 41.

In residential construction, the big month for the year was April an alternate to fines, was July 9. when construction was started on Since that meeting, 67 Big Spring-

tickets issued during the year, bound traffic at First and Gregg. Other recommendations of the ed the No U Turn sign at First CTC have been the installation of and Main.

The city counted 838 accidents or \$200,000.

In May, the school district obtain 1958. Only three fatalities

> In 1959, 68 of the accidents re-sulted in injuries and 50 were classified as hit and run. In 1958, there were 64 injury accidents and 60 in the hit-and-run category. Trafficavise, the biggest gain in the city was the creation of a traffic division within the police department and the formation, in cooperation with the Citizens Traf-Sgt. Stanley Bogard was named

to head the division. The first meeting of the school, 22 homes valued at \$203,500. Residential construction slacked off toward the end of the year.

> rolled at the close of 1959. James Eubanks, executive sec-retary of the CTC, said the school has had an average of 17 persons for each of the 25 meetings. The traffic division of the police department was an original recom-mendation of the CTC, It was initiated with six men, including

> parking ticket collection has in-creased by a third.

The division operated the radar unit 34½ hours during the year and these resulted in 573 tickets

To City's List In Decade

The system today consists of 16 school plants: the senior high education; the Lakeview high school and elementary school. The seven schools built during the 1950 decade were:

The senior high school on a 37acre site (inclusive of the old Steer Stadium and baseball field), cost of \$359,000. This gives a to-235,000. In addition to the 52 classrooms, the high school has a gymnasium, cafeteria and kitchen, auditorium, library, shop, plus office space for administration and counselor.

NEW BUILDINGS Lakeview High School, situated on 8-acres, was built in 1955 with classrooms costing \$197,367. In addition to the 6 classrooms, the building is equipped with a gym, library, shop and office space. Goliad Junior High School, consisting of 20.6 acres, was comin 1957 with 30 classrooms at a total cost of \$812,000. Besides

brary, shop and band room.

In the last decade the Big \$136,000. In 1955 six additional cy also has a cafeteria, kitchen classrooms were constructed at a cost of \$60,000. This gives a total of 18 classrooms with a total school, two junior high schools, 10 cost of \$196,000. In addition to elementary schools, one special the classrooms, the school has a dergone additions. Bauer Elemulti - purpose room and office mentary School, originally built in

Park Hill Elementary School, comprising 1.0 acre, was originally constructed in 1951 with six classrooms at a cost of \$127,000; but in 1959 six more classrooms \$876,000. In 1959 another 20 were added, costing \$81,900 and classrooms were constructed at a giving a total of 12 classrooms at a cost of \$208,900. Park Hill has tal of 52 classrooms costing \$1,- a multipurpose room, cafeteria and office space.

Washington Elementary School, consisting of 10 acres, was built in 1951 with 12 classrooms at a cost of \$174,000. In 1954 and again in 1955, six classrooms were added, bringing a total of 24 classrooms and a total cost of \$286,-000. In addition to the 24 classrooms, the school has a multipurpose room, cafeteria and of-

More Hospital Facilities -Bady Needed In Big Spring

for Big Spring during the next 10 years, we must consider what we have, what the needs will be, and some manner of reaching

Big Spring now has four small hospitals, with total bed space of about 160 beds. All these hospitals have been developed by private investments of the doctors. By good hospital standards, none of these hospitals can be classed as a first-class hospital according to facilities and services rendered. The general over-all results obtained by the medical services, however, are on a par and even better than in many similar communities. As the population grows and new medical facilities are developed, we are fast falling behind the average city in a lot of services that must be provided.

Big Spring is now about 75 needed to supply enough beds for the people who look to Big Spring to supply their hospital needs. Acto expected population growth, we will need a total of 1. County hospital; 2. hospital 150 to 400 beds by 1970.

Big Spring is considered a Medical Center by West Texans, More than 200 patients a day come to the various clinics from the area I do not favor a county operated outside of Howard County, making hospital. I think that medicine a total of 60,000 individual visits a should not be a political issue, year. This is a drawing power that Through special legislation, a hoshas to be seriously considered by all businesses. Unless we can maintain adequate hospitalization, these out of county people will be-gin going to other cities. During the last decade, Odessa, Midland, Lamesa, and Snyder have changed from the multiple small private. hospitals to central hospitals that are able to give a much wider

World's largest privately-financed research program in <u>controlled fusion</u> underway at General Atomic

The power of the sun, the stars and the hydrogen bomb-this is nuclear fusion. If scientists can learn to harness this enormous energy for peaceful purposes, the world's exploding population may forever enjoy an abundance of power.

The world's first and largest privately-financed program of controlled fusion research is the \$10,000,000 program being conducted jointly by General Dynamics Corporation's General Atomic Division and the Texas Atomic Energy Research Foundation. The Foundation is composed of eleven investor-owned electric utility companies operating

This theoretical and experimental program is directed toward a more complete understanding of plasma physics to point the way toward controlling and sustaining a fusion reaction. Experimental work

is focused on the basic problems of raising the temperature of ionized gases (plasmas) to a range from 100-million to one-billion degrees and keeping them suspended in a magnetic field so they will not touch the walls of the container.

One of the major experimental devices used in this program is a large doughnut-shaped instrument called a torus. Here, scientists are attempting to achieve the tremendous temperatures necessary for a fusion reaction through the use of a storage condenser bank capable of delivering over 50 million kilowatts of instantaneous power for experi- laboratory.

ments. Supporting the torus experiments are two linear pinch assemblies and a shock wave and plasma projection facility.

Restated simply, the central problem facing fusion scientists is this: how to hold a material while it is heated to a temperature several times that of the center of the sun, and to continue to hold it while it reacts. When this can be done without excessive radiation losses, then heavy hydrogen atoms will fuse together to create energy, and the first controlled fusion chain reaction will have been achieved in a

GENERAL DYNAMICS GENERAL ATOMIC DIVISION

The Texas Atomic Energy Research Foundation, through research, hopes to devise methods and procedures looking toward the eventual economical generation of electric power from controlled nuclear fusion for the benefit of the people of Texas. Texas Electric Service Company is one of 11 power companies operating in Texas which are members of the Foundation.

The cost of generating electricity from atomic power is not competitive at this time with the cost of generating electricity with such conventional fuels as natural gas which is the principal fuel for electric power generation in Texas.

While Texas is endowed with great quantities of natural gas, the demands for it in other areas of the country, plus mounting taxes on natural gas, have resulted in steadily increasing costs to users of the fuel in Texas.

As natural gas becomes more expensive, the utility companies of Texas plan to be ready to begin the use of atomic energy whenever that method becomes a better way to serve

seek His guidance

We of the First Baptist Church Thank HIM For Guiding Our Steady Progress:

OUR BEGINNING-

The First Baptist Church of Big Spring, Texas,

extends greetings to all who acknowledge Jesus

Christ as the virgin born Son of God and Saviour of the world. As pastor, we extend greetings to follow-

and forevermore.

pastors of Big Spring territory, and wish for you and

your congregations the most fruitful year of all dur-

ing 1960. May grace and peace be your portion, now,

P. D. O'Brien

This is the story of the First Baptist Church. It appears here because it is a story of PROGRESS. It is a never ending story. In 1886 eight people met to worship, and that was the beginning of our progress. At first services were held once a month, conducted by a circuit-riding minister. Our people worshipped outdoors, in the schoolhouse, the court house, and in the old opera house.

PROGRESS DESPITE SETBACKS

It was four years later in 1890 when church members built their first building at great personal sacrifice. In 1897 it was destroyed by cyclone. It was rebuilt only to be destroyed by fire eleven years later. Another was erected, but burned in 1928. Before the thirties, the church had another building, a full-time pastor, and had sent out two missionaries. Eighteen years ago, on the historic day of Pearl Harbor, Dr. P. D. O'Brien was called as pastor, and still serves us today.

THE CHURCH TODAY

The church has its place in the life of Big Spring today. Its doors are open to all who wish to enter for worship. It helps individuals whose lives have been touched by personal loss. It helps small churches to get started. Its people are people like you. Because of them, the church has something to offer you, and every member of your family.

It offers the message of hope, strength through fellowship, and training for your children. The church sings, because it has something to sing about. It channels the energetic talent of voung people into a melodious youth choir. Learning processes for its children begin at age two.

TOMORROW'S PROGRESS

Within the past year the First Baptist Church has averaged a thousand dollars per week ABOVE anything we have done in our past stewardship. This is because we are looking forward to a greatly expanded program of spiritual service to our members and to the Kingdom in general. More than \$25,000 was given to missions last year and we hope to enlarge it this year. We are now engaged in an intensive stewardship education and enlistment campaign, looking forward to the day when we can erect a completely new plant in the Country Club addition where we have secured more than eight acres of land. We believe the spiritual growth of a community should go just a little ahead of every other area of progress.

If you seek Spiritual Guidance, The First Baptist Church welcomes you to share in it's Progress Story!

AND WHAT CAN WE DO FOR YOU?

Whatever you need in the way of banking, you can depend on the First National to supply it . . . promptly, efficiently and courteously. For we not only offer complete services . . . and the latest in modern banking facilities . . . we have a friendly interest in the people we serve that makes banking easier and more pleasant for everybody. Check our complete bank services, they are available to you right now.

ways have time for your

Since 1890 this bank has grown by serving Big Spring. We are naturally pleased with our own record of growth during the past 70 years but it gives us great satisfaction to know our services have played a vital role in the progress of our city.

Nor are we content with our record of past progress. We are continually planning to offer more and better services and facilities. New, modern banking machinery is currently being installed and in the future, our own new building will be erected that we may continue to serve you well and be a permanent part of Big Spring's amazing progress.

PRAYER: O God, help us to realize the glorious possibilities of the best we have — though it may be small - when dedicated to Thee. Teach us that a life lived in simple love, simple trust, and unfaltering faith in Thee may greatly influence for good another life. In the Master's name. Amen.

(From The 'Upper Room')

The Real Test Of The Fifties

We have just come through a decade which has been marked by significant and even amazing developments. In almost every area of activity new records have been established.

Yet for all this, the period has been broadly one of a plateau with a decidedly upward tilt. We went through periods of uncertainty and timidity influenced by drought and by the national economy. We experienced accelerations of development with spasmodic bril-

But never in all this did we suffer a loss of the upward trend; nor did we experience an outright and unlimited boom. Perhaps part of this was in keeping with the character of our economystability and steadiness. Perhaps part of it was in taking up the gaps created by past reticence and short-sightedness.

AT ANY RATE, DURING THE decade of 1950, we have laid some firm foundations. We face the 1960's in a pivotal position. For all our brave and bright talk, we are bound up closely with the national economic picture; we contribute to it and are caught up by it. Still, if the wave is as bouyant as observers predict, there are many things that we do to help us ride its crest.

One of them is now well on its way toward realization-the important business of master planning. The plan itself will cost a pretty piece of change, but if we follow the blueprints, we may as well know that some heavy and perhaps breath - taking expenditures lie ahead. Most of the gains that the city registered during the past decade, they were accomplished with an unbelievably small amount of bond funds. The arterial grids of water and sewer lines, water and sewage treatment units, the streets, the other physical facilities basic for development will require money in amounts far greater than we have thought of before. However, if we do go ahead, our planning will save us perhaps more than

WHILE OUR SCHOOL DISTRICT has

from our follies of the 30s and 40s when we starved the system, we will have to wrestle with the problem of providing more classrooms and special educational apparatus as well as that of obtaining and keeping trained staff in sufficient numbers. Our college, given impetus at the right time, can become the dominant influence in the educational and cultural affairs of our immediate area.

In one way or another we will have to come to grips during this decade with the question of adequate medical facilities and service. Growth and technical advance will impose such demands that we cannot indefinitely extend our windfall of good fortune generated by pri-vate sources nearly two decades ago.

THESE ARE IMPORTANT in connection with our continuing effort to encourage industrial development and to create a climate which will encourage management to regard us as a good home for new or larger plants.

As for highways, we have been moving in the right direction. Some roads such as the Gail, the Garden City, and the Andrews routes need to be beefed up One major new highway needs to be opened — one going southeast past the projected new Colorado River lake in southern Mitchell and on to Robert Lee. This will serve a tremendous volume of lake traffic and afford a direct route to Central Texas.

WE NEED TO FURTHER secure our position as a favored spot in West Texas for the all-important resource element of water. To do this we will have to forego immediate cost benefits for the benefit of long range gains if we are able to finance an undertaking of the magnitude

If we are able to come up with sober aggressive action on these fronts, we will be on our way to our period of greatest and most orderly development. will take a new generation with greater courage to build. Thus, the real test of the 50s will be whether we can come accomplished an astonishing recovery up with such a generation in the 60s.

David Lawrence Defense Is No Partisan Matter

er at his press conference Wednesday brought into focus a question that has been worrying many people-just why some politicians are becoming so anxious to prove the alleged inadequacy of

The President rightly declares this is not a partisan matter at all.

"I don't have to be partisan," he said "and I want to tell you this: I've spent my life in this, and I know more about it than almost anybody, I think, that is in the country, because I have given my life to it, and on a basis of doing what is good for the government and for the country.

"I believe that the matter of defense has been handled well and efficiently in the proposals that will be before the Congress within a matter of a day or so. And I think those people that are trying to make defense a partisan matter are doing a disservice to the United States."

THESE WORDS HAVE BEEN long overdue. For many months the politicians have been spreading alarms to the effect that "Russia is ahead of us." The implication is that the United States is inferior in a military sense. Indeed one of the newsmen at the President's press conference said that "some critics of the administration's defense program" were saying that, in future talks with Nikita Khrushchev, Mr. Eisenhower "would be at a disadvantage because of the prospect that the United States will be second best in the missile field."

Time and again the President and high. officials of the government have given public assurance that the United States may be ahead in some weapons and behind in others but that, from an overall standpoint, this country is not inferior in a military sense to any country in the world. The President said:

"I believe in the United States' power, and I believe it is there, not to be used, but to make certain that the other fellow doesn't use his; and I am not in the slightest degree disturbed by such a possibility as you speak of."

THE UNITED STATES HAS ample deterrent power. It can destroy an enemy. The degree of its destructive power is

other country. But Mr. Eisenhower is a loyal American with a military background. If he thought for one moment that, by the expenditure of larger and larger sums, America's defenses would be materially better than they are today, he would not hesitate to urge such spending. He knows the military problems of a world war. He has commanded the biggest armed forces ever assembled. He knows strategy.

Yet President Eisenhower's attitude toward defense is questioned by partisans who wish to make political capital out of it. Likewise, his judgment is questioned by many who have a particular weapon or service viewpoint to advance Few people know all sides of the defense problem, and certainly only a man inside the government with access to the confidential reports of the free world's intelligence agencies can size up the meaning of all the claims as to whether Russia is ahead and by how much and what it would mean if there were a war today or five years from

THE PRESSURE FOR military spending is perennial. It has gone on for decades. There was a time when a lobbyist for a metals company actually did his best to sabotage an international conference on nava! disarmament. Special interests, often with the best of motives, see a problem solely from their own viewpoint. Likewise, defense contractors sometimes feel they must have the help of senators and representatives to get certain projects adopted. They enlist the aid of members of Congress when the abandonment of a contract means a loss of employment to a particular state or district. But the President represents all the people. He has

full responsibility to the whole people. The nation is fortunate, indeed, to have in the White House today a military man with experience and judgment in handling military budgets.

SOMEONE HAS TO determine priorities. Which is more important, and what will be more important five years hence? Mistakes will be made, but not in matters that really are likely to affect the future safety of this country. Many minds in the government work at our defense problem, and the President does not try to deal singlehandedly with the complex issues that are presented. To muddy the waters with partisan speeches, as some of the ambitious politicians do from time to time, is, indeed, in the words of the President, likely to do a "disservice to the United States." (Copyright, 1960, New York Herald Tribune Inc.)

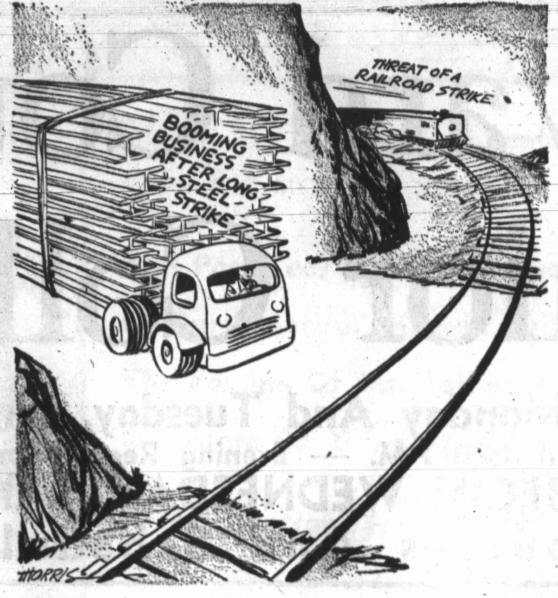

Smart To Be Smart

HIRAM, Ohio (P)-Gradually it's becoming the smart thing to be smart, says Paul F. Sharp, president of Hiram College,

"There are modest but encouraging signs that our fellow countrymen are slowly outgrowing their crude anti-intellectualism," he said in a speech.

Well Titled

NEW HAVEN, Conn. &-Police say two 12-year-old boys hollowed out a 400-page book with a razor blade and went on a shoplifting spree in downtown stores. They stuffed small items into the hollow book, which was entitled "Crowded

Seeing Only The Bright Imperils Prosperity President Eisenhower. THE DISSENTING RAILROADS

counts on prosperity. He has forecast that the total output of goods and services will be \$510,000,000,000 in 1960, a 6 per cent gain over 1959

He has projected a four-billiondollar budget surplus for the fiscal year ending June 30, 1961. He bases this on the higher revenues which will be derived from the alltime high in business.

The President makes it unanimous. Business men and economists have vied with one another in lavish predictions of high production, employment, retail sales. The outlook is almost too good. And that's the theme of this col-

Sohrab had his Rustum, Hamil--interrupted by three short, shallow recessions. It has been a rich diet, and perhaps we've grown complacent. Now, while the boom is on, all-or nearly all -is eu-

WE NOTE A FEW debits. Housing starts may drop-because of tight money.

Farm prices are still declining, and therefore farmers will not do as well as in 1959, and certainly not as well as in 1958.

Foreign competition is increasing - Europe, having recovered from its wartime dislocations, has facilities technologically competitive with ours, and wage rates are lower. So, we've had to struggle to maintain exports and even to hold domestic markets, and we Such debits in the 1960 balance

sheet we bury under massive cred-

THE STEEL STRIKE HAS left a backlog of demand of all types. Automobile production is beginning to soar again. Business men are bound to expand plant and buy new equipment. Consumers have plenty of money; retail sales will rise. Defense outlays are going to be high. State and local governments are still expanding, and the cluster of social wants - schools hospitals, highways, recreational

> been the forerunner of economic change. They were the tipoff on the 1957-58 recession, and again they gave advance notice of the 1958 rebound. "I always get nervous when I

see stocks selling so high that the yields are much lower than the yields on high-grade bonds," Prof. Lester V. Chandler of Princeton, told a conference of the Girard Trust Corn Exchange Bank, in Philadelphia. "I get nervous when large increases in dividends are required to raise yields on stocks to the level of bonds."

That's well said. Stock prices are where they are today because all of us, from the President down, are optimistic. We're betting on large increases in corporate earnings and dividends. But dividends will have to rise 67 per cent to compete with the return available on new U. S. Treasury issues.

THE INTERNAL structure of the market suggests some misgiving. Although industrial stocks have curled around from the August-October dip to approach new peaks, railroad shares have Fun Bockfires been, bounceless since the middle of the year (see chart).

Sorry, I Didn't Get The Name

If I can get out and sell enough magazine subscriptions, I know exactly what I'm going to buy. It's an enrollment in a Personal Successs Program, just offered

by mail. What the card says is that a part of Personal Success is "How To Remember Names And Faces," and for just a paltry sum I can order a special practice kit that will have me alert to any name or any face in a matter of weeks.

Whatever became of Addison Sims of Seattle? I at least remember the ads about him, and I suppose he helped a lot of whiz-bang salesmen in their Personal Success Program.

I used to envy this fellow who apparently remembered every human being with whom he had ever come in slightest contact. I am at the other end of the totern pole, and nothing could be used by me to more advantage than a course on how to remember names and faces. The story is that Babe Ruth, whatever

his other strengths or weaknesses, simply could not remember anybody's name; and that he played on the same team for years with a number of Yankees whom he would just call "Keed." My defense mechanisms have consoled me with the thought that if a figure as mighty as the Babe couldn't remember names, then why should lesser mortals be worried? This is no reference to the occasion when

a prosperous, well-dressed, dignified figure of middle age strides into the office and says, "You don't remember me, do The temptation always is to say, "No, and I'm not going to try very hard."
Turns out he is old Stuffy Stubblebeam,

who sat across the aisle and two seats back, when we were in the fourth grade, who usually had holes in his black ribbed stockings and always had a runny nose. Since I had not seen, much less thought of, Stuffy since the fourth grade, how could I know that he had gotten rich and would breeze through here one day and acci-

dentally learn of my own whereabouts. I'm not talking about the Stuffys. The breed of human who poses that "Bet you don't remember me" business ought to be tarred and feathered, and who wants remember them?

I am talking about more serious lapses of memory and identification. Like having to call close business associates or old pals by the name of "Er." You know-'Er . . . how are you this morning?"

Or like on the mornings I look in the mirror and can't remember who that is facing me. Looks familiar, but the forehead is higher than I had remembered, the pouches under the eyes are a bit pouchier and the midriff seems to be somewhat midriffier. While wondering about this character, I cut myself with the razor and all of a sudden I realize this

At our marriage ceremony, the name of my bride just nearly escaped me, and it took some jogging by the preacher and the best man to bring me around. Of course, I knew who she was all the time, and she knew me. So well that she hasn't spoken to me since. And this was something over 26 years ago. What a Memory Program could do for me!

Norman Vincent Peale

How To Get Rid Of Your Inner Devil

One of the season's Broadway dramatic success is a play called "The Tenth Man" in which a demon is exorcised from a young man by an Orthodox Jewish religious ceremony. The idea of people being possessed by demons is not, af course, confined to Orthodox Jews.

Recently I visited Galilee and saw the excavations at Capernaum where Jesus spent so much time. It was a great thrill to walk on ground which He had trod and to look at the hills and lake so dear to Him. St. Mark graphically describes how Jesus went through the towns and villages around about Capernaum, healing disease and driving devils out of the unhappy peo-

What were those devils? Were they evil, displaced spirits that somehow got into people? That, of course, is what people in those times believed.

TODAY WE KNOW more about such real one. I was talking to a psychiatrist not long ago who actually expressed the conviction that some people today are possessed by demons. Most of these are not as clearly defined as demons requiring the services of an exorcist to dispossess them, but they are real problems just the same. What better way to describe fear than demon? When you harbor fear in your mind, you well know you have a devil in you and it can cause you to live in your own hell. This devil and this hell is very real to the unfortunate person who is haunted by fear.

And there is the demon hate. Look deeply into the eyes of one who hates and you will see the misery which his personal demon causes him.

THERE ARE MANY OTHER kinds devils: lack of confidence, inadequacy,

said he had been astonished to learn there was any such statement as that in the Bible. He looked it up for himself and it gave him the first hope that he could solve his inner conflicts. He realized then that his trouble was that he had been hounded by a devil for years. So he de-

inferiority, shyness, sense of defeat. And

sadly enough many of us are possessed

of one or more of these at the same time.

But fortunately these demons can be cast

I once preached a sermon on that strik-

ing text from St. Luke (9:1) in which Jesus

gave his disciples "power and authority

over all devils." My sermons are printed

and mailed monthly to over 300,000 people

and after this particular sermon was is-

sued, I received a letter from a man who

out. We can get free of them.

cided to act on that text. HE DELIBERATELY put it into practice. He told me what he did. He stood phenomena, but the problem is still a up as tall as he could and in a loud, of God I take authority over this devil and I drive it out in His name." He continued to do this daily. And, he wrote me that the particular devil which had been hounding him all those years "grew weak-

> You may protest it is much too much to suggest that there is any such thing as a devil in you. Well, you might try taking a long look in a mirror. Or more realistically a searching look into your soul. Down deep where you live with yourself alone see whether you can honestly tell yourself this is true. Most of us have our personal devils. But, in the name of God. we can drive them out. No person need stay as he is.

> er and finally left" after persistent treat-

ments of this nature.

Demo Primaries Of Little Significance WASHINGTON - The Kennedy organi-

zation extending into virtually every state. in the union is now being geared up for the final push to get the Democratic presidential nomination for the youthful looking senator from Massachusetts. The announcement by Gov. Michael

DiSalle that he would swing the Ohio delegation to Kennedy was a tremendous spur. It means that Kennedy is almost certain to have Ohio's 64 votes on the first ballot. Needless to say it hardly came as a surprise to the Kennedy camp The same pressures that were applied

to DiSalle are currently being exerted on Gov. Edmund G. (Pat) Brown of California. The Kennedy organization in California is one of the largest and most effective in the country.

BY DECLARING THAT he expects to run as a favorite son candidate Brown had hoped to prevent his state with its June primary from becoming a battleground. He would lead an uncommitted delegation, with 81 votes, to the Los Angeles convention and thereby be in a position of great power in determining the But in Kennedy headquarters there is

a growing conviction that it will turn out rather differently. One rumor is that before the primary Brown will invite Kennedy to come in, which will be a bid to turn the organization loose for a blitz campaign. That is not likely to happen, however, and the Kennedy strategy is based on insuring that on the first ballot at the convention, or at the latest the second, the bulk of California's delegates will swing to the senator from Massa-

BROWN HAS BEEN LISTED as one of the Democratic governors who, as Catholics, have been concerned lest the religious issue be brought into the campaign with the candidacy of Kennedy, a Catholic. But DiSalle, in the same category, broke the ice. A third governor in this classification is David Lawrence of Pennsylvania who will head a delegation

If the whole picture of the Kennedy organization in all its details could be put together, and for a variety of reasons this will probably never be done, it would be a fascinating study in po-litical power and influence. It is the cause of envious muttering from the other candidates.

On "Meet the Press" Sen, Kennedy

said that his family's wealth did not help his candidacy since there were limits on how much a candidate could spend for his nomination. He was challenged by Sen. Hubert Humphrey who pointed out that there are no legal limits on how much can be spent for the nomination nor even, strictly speaking, on how much can be contributed to a candidate. Congress, for all the pious outcry over big political spending in the recent past, has done nothing to curb it.

HUMPHREY HAS SEVERAL times spoken plaintively of how he is handicapped by a lack of money. It means he must do it the hard way without benefit of chartered planes and the other appurtenances that smooth what is in any event a rough course.

Following the formal announcement of his candidacy, according to one of Humphrey's aides, he received 4,500 letters. most of them containing contributions of \$1 to \$10. These widow's mites added up to \$8,000. But in terms of a national campaign that is chicken feed.

Kennedy has challenged the other candidates to go into the presidential primaries, saying in effect that only by meeting this test will they merit the nomination. But whether Humphrey and Kennedy actually fight it out in any primary is still a question.

WITH NEW ENGLAND SAKELY his, Kennedy is entered in the New Hampshire primary. He might try to best Humphrey in his own territory, Wisconsin. There are perils for Kennedy in Wisconsin, however, and the present inclination is to stay out,

California is blocked by Gov. Brown. The Oregon primary is confused by the entry of Oregon's own Sea, Wayne Morse, Nebraska could be a testing ground. But as a Republican state over the years, with rare exceptions, it would hardly offer conclusive evidence of Democratic sentiment.

This indicates how little significance the primaries will have this year. They, have been decisive in the past-Harold Stassen knocked himself out in Oregon in 1948 after he had a running start on the nomination. The Democrats in their dilemma with a basket full of candidates cannot look to voter choice in key states for the ultimate answer.

O'Brien Looks Back On City Churches Growth

Eighteen years ago as of January second instant, we preached our first sermon as pastor of the First Baptist Church in Big Spring. The call was of the indefinite type and we did not know whether the tenure would be one year or a score. For these 18 years we have tried to let God call the plays one day at a time.

In this period of a dozen and a half years we have gone through two wars and a devastating drought, many pioneer citizens have gone to their reward, chil-dren born since we came here are finishing school, getting married, entering business or professions and taking their places as active citizens in the world.

We have seen the city triple in population, many new businesses established, hundreds of residences erected, the public school system greatly increased and the city limits repeatedly moved out. As a member of the Chamber of Commerce from the beginning of our residence, also of one of the leading service clubs and two of its fraternal organizations, along with continuous membership in the local Pastor's Association, I have been close to the heartbeat of the community.
PROGRESS EVERYWHERE

As a participant in many drives, patriotic, benevolent, recreational and cultural-I have had opportunity to live and work intimately with the people of the city and county and it has enriched my life immensely. I have seen the Junior College grow from the grass roots into one of the leading junior colleges of the nation. I have seen the old chugging, shrieking locomotive replaced by the sleek diesel, and the automobile evolve from the last of the model A's to the modern automatic gear shift, during 1959, as well as a new diair-conditioned, comfortably heated, 300-horsepower monsters of our greatly improved highways systems, I have seen the State Hospital develop into a great beneficent institution, and the Veteran's Hospital take its place among the best in the nation. I have watched Webb Air Force Base develop into world-wide influence and Cosden refinery double and

Without a single exeption these men have been my ach of them an inspiration and were destroyed. The city had one 12 inch water supply lines. The

buildings and programs of spirit- most successful year of their enual service to the congregations tire ministries.

and community have been con-stantly expanded.

The future for the religious life of Big Spring and Howard County looks bright. New church buildings are in immediate prospect, new missions stations are being pro-moted with a hope they will de-velop into full-time, self-supporting churches. Pastors families are living in better homes, receiving more adequate support and, we believe, giving the highest type of spiritual service to the community. The Big Spring Pastor's Association is a vigorous organiza-tion, enjoying splendid fellowship among its members and looking forward to a glorious future for the kingdom's interests in this section. We are grateful to the genpublic for their support of Bible teaching program if Easter and Thanksgiving, and the encouragement you give us in our work. We do not expect to be passatisfied with our progress, we tor here another 18 years, but we know that much more could have do expect the spiritual growth of been accomplished and we seethe the community to continue as long as the world stands. The value of with ambition to make the future the church to the community caneven more fruitful. Several new not be overestimated and any supcongregations have been created and many new church buildings the overall progress of the whole. have been erected Improvements I salute my brethren in the minishave been made to all church try and wish for each of them the

PROGRESS

The sky is no longer the limit. The boundless energy and determination of our people, nurtured by free institutions, have unlocked new vistas in science and industry, business and education. In the past decade we took bold strides forward! We know now that we haven't even started yet. We also know that once again a free people will lead the way to even greater achievements!

We know that the spirit of the Big Spring people will forge our community ahead as it has through the past years . . .

And we at Security State will keep abreast of these modern times by continuing to improve our banking services for you, our customers and friends.

NATURAL GAS IS SETTING THE PACE FOR PROGRESS

On the plains of West Texas there's a mighty work horse harnessed to the whirring wheels of progress. It is Natural Gas, nature's fabulous energy . . . plentiful, economical and versatile. As a familiar fuel, Gas cooks and preserves our food, heats and cools our homes. Quickly and efficiently, it likewise heats water, dries our clothes, consumes our trash and garbage . . . even provides illumination for our sidewalks and patios. Agriculturally, Gas is much in demand for irrigation purposes, providing low-cost energy for a majority of the

deep-well turbine pumps in our area. Industrially, few manufacturing firms could exist today without the intense heat which natural gas produces for the processing of metals, · chemicals, dyes and hundreds of other raw materials. These are the facets of Gas which are common knowledge. But versatile Gas has another side to its personality . . . a side overlooked by many folks. For literally thousands of the items used in our daily lives are Natural Gas in origin. Vinyl plastics, synthetic rubber, cosmetics, ink, cleaning fluids, explosives, anesthetics,

these are but a few of a long list of products made from the hydrocarbons of Natural Gas. Is it any wonder, then, why such natural riches, in the forward-looking Texans, shouldn't make our area one of the fastest growing in the ation? Progress is energy in action . . . and in West Texas that energy is Natural Gast

fuel for a growing empire Pioneer Natural Gas Company

CRMWD Could Reach Goal Of foncy This 10 Billion Gallons In '60

The Colorado River Municipal of 553,000 acre feet. This would 65 feet deep at this point. The Neither had ever mentioned to dam would back water 12 miles up the other that she knew anyone

per cent over 1958. Odessa took 3,660,398,000 gallons gain of 16.77 per cent; Big Spring 2,111,026,000 or up by 8.0 per cent; Snyder 645,857,000 gallons or up by 8.88 per cent. The three member cities together required 6,417,271,000 gallons.

The oil companies took another 2,516,408,000 gallons, including 1,630,927,000 by SACROC (down 12.27 per cent), Sharon Ridge 545,-760,000 (up 33.36 per cent), and Lion Oil 339,721,000 (up 15.86 per cent), Texas Gulf, a small indus-trial user, required 33,600,000 (a

decrease of 8.8 per cent),
The CRMWD will be in a good
position to deliver 10 billion gallons in 1960, O. H. Ivie, assistant general manager of production, pointed out. The 33-mile extension of 33-inch diameter pipeline from Odessa to the well field is complete, and pumping equipment (two 3,500 gallon per minute pumps) is on the job and will be ready for use by February.

This \$4,600,000 addition to the system will permit pumping of lake water through the new line to Odessa while the existing 27-inch line may be used for supplemental well water. The use of the larger line (due to less friction) will result in lower pumping costs for that sec-

tor of operations. During 1959, the district began use of a second 80,000,000-gallon surface storage reservoir at Odessa, giving that city 160,000,000 galons of terminal storage as insurance against temporary supply interruptions. A 420,000-gallon surface storage was installed at the Martin County station.

Automation began to come into the district's operations, too, for at Snyder a motor-operated gate valve located opposite the Snyder reservoir in the 21-inch supply line was installed. This is radio-controlled and can be operated from the Snyder filter plant, enabling the operator there to control the amount and time of water delivery to the plant, Similarly, the Mc-Whorter booster station on the eastern Martin County line was setup with automatic equipment which may be controlled from other sta-

Directors of the district took another historic step in applying for a water permit to impound another large lake on the upper Colorado River in southern Mitchell County.
