Plane Crash Principals

Robert V. Spears, left, a Dallas naturopath, and William Allen Taylor of Tampa—mystery men of an airline crash in the Gulf of Mexico two months ago—are shown in this snapshot reproduction with an unidentified woman, believed as one of the victims, was located in Phoenix by the FBI. Taylor has been missing since the

day of the flight. His ex-wife, Mrs. Alice Steele Taylor, believes he took Spears' place on the plane. She found this snapshot in Taylor's belongings and made it available to the Associated Press. She believes the picture was taken about three years ago.

Couple Found Dead In Residence Here

Bodies of two Big Spring Negroes, dead since sometime Friday, were found at 10 a.m. today in their small residence at 201 NE 9th.

Death was due to carbon monoxide poisoning, according to the findings of Walter Grice, peace justice, who held an inquest over the bodies.

Dead are Zeffer Anglin, 35, an employe of a local service station, and his wife, Martha Washington Anglin, 27, who works in a cafe.

The bodies were found by Mrs. Annie Mae Huey, sister of Anglin, who had gone to the house to find out why the couple had not reported to her jobs.

She had to break in a rear door to get into the house. She found her brother crumpled up in the small bathroom and her sister-in-law on the bed. The stoves in the three-room building were burning at top level.

The two victims were last seen alive on Friday afternoon when they visited Mrs. Huey.

The bodies were removed to Valley-Pickle Funeral home where funeral arrangements are pending.

Leo Hull and Jack Jones, city detectives, investigated the case for the city police department.

Mutinuous Crew To Be Deported

MEXICO CITY (AP)—The German crew of a British freighter who mutinied over the death of one of its members reportedly will be deported shortly.

Reports from Coatzacoalcas, where the freighter "William M. Curie" is tied up, said the 28 Germans will be flown to Hamburg in a special plane.

The crew mutinied Jan. 15, claiming that Karl Heinz Benze, 32, died due to lack of medical attention.

Pope Invokes Sainly Aid As Roman Synod Begins

VATICAN CITY (AP)—Pope John XXIII today invoked the spiritual guidance of St. Peter and St. Paul as Rome's First Diocesan Synod began deliberations to meet the challenges of modern times.

White and yellow papal banners fluttered from Vatican buildings for the event—the first since the great apostles, according to Catholic tradition, made Rome the center of Christian faith.

The Pope formally opened the synod—an ecclesiastical gathering—Sunday at the Basilica of St. John Lateran, his episcopal see as Bishop of Rome.

The week-long deliberations, which will consider 770 proposed articles covering many aspects of conduct both for Roman Catholic clergy and laymen, began today in the Vatican's Hall of Benedictions. A year's preparation pre-

ceded the formal opening of the synod.

Synod sessions are secret. Vatican sources said, however, the articles deal with many aspects of modern life, including television, radio, smoking, the use of automobiles by priests and other clergymen, and the appearance of priests and other members of religious orders in public places.

Some of these articles may not be published officially for a year, some Vatican sources said.

Then, seated at his throne, the 78-year-old supreme ruler of the Roman Catholic Church delivered the first of several addresses he will make before the synod. He spoke in Latin. His address was devoted primarily to the priest and his mission.

"The person of the priest," he said, "is sacred, his life must be holy."

As for the administration's controversial foreign aid program, the President noted that it often is criticized as a give-away plan.

"Nothing is more indicative of abysmal ignorance," Eisenhower said.

If the United States abandons the people of free nations which need help, Eisenhower said, "we are going to have to pay the bill" in currency costing much more than dollars.

He added that such people are "completely uninterested, particularly if registering or taking part in political action interferes with their golf or their shooting or any other recreation."

That remark from Eisenhower, who both golfs and hunts, drew a laugh.

Ike Hits Aid Criticism As 'Ignorance'

WASHINGTON (AP)—President Eisenhower said today that criticism of the administration's foreign aid program as a give-away plan indicates abysmal ignorance.

In an informal talk at a breakfast meeting of the National Assn. of Real Estate Boards, the President also spoke out in defense of his plans for a balanced budget in the fiscal year starting July 1.

Eisenhower told his audience of about 1,000 at a downtown hotel they have an obligation to familiarize themselves with the issues which face the United States.

He spoke of the need to curb inflation and avoid debasement of the dollar.

Some individuals, the President went on, are "going along in a sort of cloud believing that one (political) party or another party has all the virtues and the others none."

He added that such people are "completely uninterested, particularly if registering or taking part in political action interferes with their golf or their shooting or any other recreation."

French Rightists Hole Up In Algiers Revolt

Sunday-Best Crowd Caught In Algiers Riot

By ANDREW BOROWIEC ALGIERS (AP)—The broad Boulevard Laferriere was jammed by crowds shouting slogans when the first shots were fired.

A cry of panic went up. Men and women screamed, fleeing blindly from a barricade flying a tattered tricolor, away from armed men who threatened to march on the government buildings.

Someone fired a tommygun toward steel-helmeted gendarmes. Someone shouted "Forward, forward."

Others screamed, "Take cover, they're shooting."

Besides men with tricolor armbands and uniformed National Guardsmen summoned by their leaders for the rising, many of those in the crowd were Sunday strollers.

They came to watch the show. To them it was another political demonstration, a popular picnic. They had seen many.

There were girls in high heels with their young men and mothers with children.

There were people in their Sunday best who joked while heated appeals came from loudspeakers.

Within minutes after the shooting the crowd dispersed. Heavy army trucks began arriving on nearby streets. Ambulances whizzed by with sirens screaming.

Sporadic shooting continued for 10 minutes.

The crowd lingered on the sidewalks away from the bloody square—waiting.

An hysterical woman screamed that it was an infamous day, that she never thought Frenchmen would shoot at Frenchmen in Algiers.

Dusk fell on the city.

De Gaulle Calls For Peace

PARIS (AP)—The embattled city of Algiers was cut off from the outside world today and speculation rose that French forces were clearing the streets of barricaded right-wing diehards.

The censorship blackout was clamped on Algiers as President Charles de Gaulle, acting to stop the riots, called on the insurgents to lay down their arms.

"I will do my duty," he said in a terse, 200-word broadcast.

Wool Growers President Sees Threat In Imports

SAN ANTONIO (AP)—Imports of woolen materials and lamb and mutton are a threat to the American sheep industry, Harold Josendal of Casper, Wyo., asserted today.

Josendal, president of the National Wool Growers Assn., spoke to the annual convention. Between 500 and 600 delegates from 13 states are expected.

Josendal's annual report to the membership, as well as the report of Edwin Marsh of Salt Lake City, secretary-treasurer, highlighted the opening session.

"There has been a terrific reduction in the number of wool mills in the last 10 years (in this country) resulting in a concentration of the textile industry," Josendal said.

"A major contributing factor to the disappearance of woolen and worsted mills has been the increase of imported goods."

In 1954, he continued, "We im-

Largest Ship Balloon Launched

ABOARD USS VALLEY FORGE (AP)—The Navy today launched the largest balloon ever sent aloft from a ship.

This carrier released a sheer, thin skinned plastic bag buoyant with helium, at 5:32 a.m. EST.

The balloon, inflated to two million cubic feet, stood more than 300 feet tall and had an inflated diameter of 173 feet.

It was an awesome sight as the balloon rose grandly, silently, smoothly, straight upward into a placid blue sky.

Ship's personnel jammed catwalks and other safe deck spaces to watch the launching over a warm Atlantic 2,000 miles east of Puerto Rico.

Impressive as it was, the launching was only a preliminary test run for the main show, possibly Tuesday. Then two balloons five times as big—10 million cubic feet—will be sent up to 22 miles.

They will carry 2,500 pounds each, the heaviest scientific payload ever carried so high.

In the payoff launchings Tuesday, scientists hope one or more of the identical unmanned balloons will carry loads of photographic film to about 120,000 feet to record primary cosmic ray impacts over the Atlantic.

A tracer balloon 130 feet high was sent up Sunday to get information on winds at 120,000 feet above the test area.

Physicists and technicians hope the balloon or balloons launched Tuesday will stay at altitudes of 22 miles for 48 hours or more with their suitcase-size packs of film.

Their goal is to get the first detailed tracking record of extremely powerful primary cosmic rays. These cannot be photographed from the earth because they diffuse upon striking the atmosphere.

The waterproof gondolas will be picked up by destroyers and sent to the University of Chicago laboratories.

AF To Put Airmen Afloat

DUNKIRK, N.Y. (AP)—The Air Force will put an airmen afloat for 72 hours on ice-rimmed Lake Erie beginning Tuesday.

He'll be enclosed in an experimental capsule, designed to protect crew members forced to eject from high-speed aircraft. The capsule is planned for the super-sonic B-58 Hustler.

Fighting Leaves 21 Dead, 153 Hurt

ALGIERS (AP)—Armed diehard French rightists held out today behind makeshift barricades in the heart of Algiers.

Dawn found the capital quiet but tense in the wake of Sunday night's fighting and panic that left 21 persons dead, including 10 policemen, and 153 wounded.

The army seemed firmly in control, except for two pockets where about 1,000 insurgents were held up.

The uprising against President Charles de Gaulle's self-determination policy pitted Frenchman against Frenchman in Algeria, already bleeding from a five-year revolt of nationalists.

A stiff military censorship was imposed on outgoing news dispatches, but there was no objection to calling Sunday's rising a fight to keep Algeria French.

Trucks of paratroopers lined Avenue Pasteur along the western flank of the barricaded areas. The holdouts showed signs of their all-night watch as they silently stared at passers-by who hurried along in the bleak dawn.

Despite a military order banning assembly of more than three persons, groups gathered around the barricaded area and stared grimly at the insurgents who had hoisted tattered French tricolors.

Here and there merchants who shuttered their windows when the rioting broke out Sunday night began to open their stores.

The three Algiers morning daily newspapers, all censored, sold quickly. They printed dispatches reporting minor demonstrations of sympathy in Oran and Constantine.

LA MARSEILLAISE Inside the barricaded area rebellious groups sang a rousing Marseillaise.

The Government Building on Forum Hill, scene of Sunday night's clash, looked like an armed camp. Steel-helmeted police and riot squads spread out army rations in the lobbies and corridors.

The Echo d'Alger said in a front page editorial that "French blood has been spilled climaxing the disillusionment of which we are drinking the bitter chalice for so many years."

Alain de Serigny, publisher of the newspaper, took part in Sunday's demonstration.

The army said that among the victims were 8 policemen killed and 80 wounded.

Leaders of the rebellious Frenchmen, who had counted on army sympathy and support, admitted they were fighting a losing battle. The supreme commander of the French forces in Algeria stood stoutly behind De Gaulle and warned "the mutiny will not win."

HOLDOUTS A band of several hundred insurgents held out on the grounds of Algiers University in the center of the capital and in the adjacent Rue Michelet for a last-ditch stand after police and troops broke up mobs of demonstrators that swelled to 20,000.

The diehards defied an appeal wave to the plane. Then he turned back with the others anxiously watching the waves lapping over the listing ship's port side.

The freighter, the 6,125-ton Santa Alicia, showed not a sign of life above decks. Twenty of the crew had been taken off because of the risk of fire.

But men were still at work down below. Soon after the ships came apart the Santa Alicia's crew started churning to help the tugs avoid the dangerous shallows.

A tug called the Flying Kestrel took the Santa Alicia in charge, towing her stern first to keep seawater out of her gaping forward hold.

The tanker, heavily laden and much the larger ship, had two tugs. One was ahead and the other alongside.

As slowly they moved up channel toward Southampton, fire floats cruised with them. Two destroyers and a frigate kept guard to clear other shipping from their path.

The Santa Alicia, owned by Grace Lines of New York, was sailing out of Southampton for New York when she collided head-on with the Gorm, out of Oslo, in pre-dawn darkness.

The ships were doing about six knots in a choppy sea. There was no fog. There were no casualties from the collision.

Reporter Views Ocean Tug Of War

By COLIN FROST ABOARD A PLANE OVER THE ENGLISH COAST (AP)—On the crinkled waters of the Spithead Channel today six ships played tug-of-war—with life or death as the prize.

Four of the ships were British tugs. Their task was to pull apart an American freighter and a Norwegian tanker locked together after a shattering collision.

The American ship's nose was firmly fixed if the tanker's port bow was gradually the two drifted toward the shallows.

Fire was the biggest danger. The tanker's cargo was highly inflammable oil. Yet another peril was a big fort planted in the channel to blast off mine-laying planes in World War II.

The tugs won their battle—and just in time. Soon the two ships were under tow and on their way to safety.

This correspondent watched the last stages of the drama from a low-circling plane. A big gap showed in the tanker's side, like a slice from a gigantic cake. The American ship's bow was shattered. As the plane swooped low, you could see right into the freighter's forward hold, littered with crumpled packing cases, and see waves on the other side.

Three men stood on the foredeck of the tanker, the 11,000-ton Gorm of Loro. One looked up briefly to

126 Membership Workers Launch YMCA's Big Drive

Campaigners for the YMCA membership drive held their kick-off breakfast early this morning, and Y director Bob Hardy reported the 126 present signified the biggest such meeting yet.

The breakfast was held in the fellowship hall of the First Methodist Church. Teams of volunteer workers selected their prospects

cards, and spread out over the city. Final goal is 750 adult members for \$14,000.

R. H. Weaver's division B received a football for having the largest division attendance at the breakfast, signifying his team is "carrying the ball for the Y."

Booby prize, a rooster named Yimca Red, went to the Bob Mo-

Major Karubah "Kar" Carnahan (right), Operations Officer of the 331st, admits the certificate of "Expert" pilot rating just presented by his commander, Lt. Col. Dick M. Crowell. The rating of "expert" pilot is the highest award in the Air Defense Command. To win it, Major Carnahan had to meet the following requirements: be combat ready in air defense interceptors for two years; have a minimum of 700 hours jet fighter time; accumulated 1,900 hours total pilot flying time; complete 29 low approaches when the ceiling was less than 1,000 feet; performed rigidly controlled profile missions; and have his flying proficiency and knowledge checked out by an Air Defense Command "Tac Eval" team. Prior to joining the fighting 331st in June 1959, Carnahan served four years as Air Force Advisor to the California Air National Guard with the 162nd Fighter (AD), Ontario, Calif.

Tiny Rocket Has Big Role In Space

It works by shooting out electrified atoms and electrons at speeds of 22,000 miles an hour. This produces thrust, just as does the exhaust of chemical fuels to thrust up rockets. DEAR ABBY: Tell that man who thinks his bowed legs are ruining his life to forget about his legs, develop his personality and find himself a nice knock-kneed girl. I married one and offer this little poem for encouragement: "My knees are knocked, his legs are bowed, and to this fact much bliss is owed. And of our marriage, this I say, when we're together we spell O.K."

DEAR ABBY: I am 21 years old and accepted an engagement ring from a man of 26. I suppose this will sound crazy to you but here goes: I have a baby born out of wedlock and I want a father for her so badly that I think I would marry anyone who loved her although I didn't love the man. What I am trying to say, Abby, is that I do not love this man I am engaged to. But he loves my baby and I'm afraid if I don't marry him I might never get another chance to marry someone who will accept my child. I am nice looking and come from a nice family, but I know that not many men will marry an unwed mother.

AF Chief Says Russ Have No Big Missile Gap

WASHINGTON (AP) — Will the Soviet Union have more ready-to-go missiles than the United States in any period through 1965?

"They might. I think it is doubtful, but they might. But in no way will we have an over-all deterrent gap," said Secretary of the Air Force Dudley C. Sharp. Over-all deterrent strength is the important point, Sharp said Sunday in a television interview. "It isn't whether they have a few more missiles than we have. The important thing is that our total over-all posture is such that they wouldn't dare attack without receiving such a formidable attack themselves that they would never want to do it," he added. How big might the missile gap be? If there is one, Sharp said, it will be smaller than the 3-1 superiority which former Secretary of Defense Neil McElroy said a year ago the Soviets might move to in long-range missile superiority. Sharp declined to give a more specific estimate.

Shoot-'Em-Up Fans Empty Handed With 'Showcase'

By CYNTHIA LOWRY AP Television-Radio Writer

NEW YORK (AP) — If anyone tuned into "Destiny, West," Sunday night's NBC Sunday Showcase, expecting a shoot-'em-up, came away disappointed. In spite of advance notice that the American Heritage series would try its hand on a historian-approved Western, complete with wagon trains, horses, guns and Indians, the play was primarily set in 1849 Washington and was concerned largely with talk about opening up the West.

We followed John Charles Fremont's love affair with and marriage to a senator's daughter, but an announcer filled us in about his adventuring and map-making out West. However, we joined him for the last portion of the show—when he was looking for the Sacramento River Valley—and then there were some studio shots of men freezing and starving in the High Sierra that reminded me of "The Alaskans" series. Jeffrey Hunter in a Gen. Grant beard played Fremont—rather unsympathetically I thought—and Susan Strasberg was his wife, James Duggan, playing Kit Carson, made himself up to look like Gabby Hayes. I never saw a horse or a revolver and at the chilly end I was longing for the familiar show-down on that hot dusty street outside the saloon.

Restrain That Refrain, Man

EL PASO, Tex. (AP) — They're really jumping along the border these days. Hopping mad would best describe how the Juarez, Mexico Chamber of Commerce feels. "Seems that someone called Dorsey Burnette recorded a song called "Juarez Town"—a satire on the popular cowboy ballad "El Paso." After gunning down a Juarez lass during a bad night at the card table, the saddle tramp walls from his cell at the Juarez jail (not to be confused with the "Tijuana Jail") to "stay out of Juarez town, don't stop, go right on through." The chamber's pride was hurt and last week it complained to U. S. Consul General William Wright. Wright asked all the area radio stations to restrain the refrain.

Texas U. Gets Research Unit

AUSTIN (AP)—A 15 million dollar Science Research Institute, designed to put Texas in "a front-running position" in scientific research, was authorized Saturday by University regents.

The institute, to be developed over a period of several years, will use equipment designed to allow scientists to take the atom apart and see what it is made of and how it works. Plans call for the facilities to complement those at Texas A&M, where a nuclear reactor is in operation. H. R. Ransom, university vice president, said the institute will incorporate research in biological, physical and engineering sciences. It will be financed by the University Available Fund and grants from business and industry and national research agencies, Ransom said. The available fund is made up of receipts from royalties on mineral interests owned by the school. A particle accelerator, to be used by nuclear physicists, will be the first installation in the center. The 3 million dollar machine is expected to be completed in two years. The 15 million dollar cost estimate includes outlays for equipment, buildings, research materials and salaries for research personnel.

**Jules Verne
Most Popular
Film Author**

By BOB THOMAS
AP Movie - TV Writer

HOLLYWOOD (AP) — Want
to know the most popular author in
the movies today? It's not Ten-
nessee Williams or Grace Metal-
ious, but a long-dead Frenchman,
Jules Verne.

And no wonder. According to
Variety's latest figures, Verne's
"Around the World in 80 Days"
has grossed 22 million dollars in
the United States and Canada
alone. His "20,000 Leagues Under
the Sea" has accounted for a mil-
lion domestically. Currently,
"Journey to the Center of the
Earth" is a big money-maker for
20th Century Fox ending a box
office drought for that company.

The Verne popularity is shown
by the fact that four different
producers have announced plans
to film one of his books published
variously as "The Castaways,"
"In Search of the Castaways,"
and "Capt. Grant's Children."
Walt Disney claims victory.

"We have registered all three
titles with the Johnston office,"
he declared. "We also own the
rights to worldwide release, hav-
ing bought them from the Verne
estate after four years of negotia-
tion. The book is in public domain
in this country, but it's protected
abroad."

Disney's admiration for Verne
goes back to his youthful days as
a reader. As a producer he had
long sought the rights to "20,000
Leagues."

"MGM claimed some right to it
from having made a picture at one
time," he recalled. "They
wouldn't let go of it. Later, I
found out that Sid Rogell had
bought the rights. I got them from
him. I never even opened the box
of scripts we bought; I wanted to
start fresh."

**Navy Plans
HCJC Visit**

Lt. Commander M. F. (Mike)
Wirth, USN, will head a party of
men from the Dallas Naval Air
Station to be on the campus of
Howard County Junior College on
Feb. 19. The purpose of the visit
is to present information to HCJC
students on the Navy's pilot train-
ing program.

Interviews will be conducted in
the Student Union Building and
aptitude tests conducted to select
qualified men for this training.
According to LCDR Wirth, a
veteran Navy pilot, the Navy cur-
rently offers two programs of
flight training, both leading to
commissioned rank and designa-
tion as a Navy pilot. One, the
NAVCAD, (Naval Aviation Cadet)
program, is open to men who
have completed 60 semester hours
or 90 quarter hours of collegiate
work. Men selected for this pro-
gram will receive their commis-
sions and Navy "Wings of Gold"
upon completion of 18 months of
intensive flight training. The sec-
ond program, the AOC, (Aviation
Officer Candidate) program is
restricted to men who have com-
pleted four years of college
(120 semester or 180 quarter
hours) and attained a baccalaure-
ate degree. The AOC will be com-
missioned after only 18 weeks of
flight training and will complete
the remaining 14 months of train-
ing with the rank of ensign and
will receive his wings at the con-
clusion of this training.

As with all military pilot
training, a period of active duty
is required after completion of the
course. Pay and allowances during
the training period is commensu-
rate with rank or rate. Automatic
promotion to the rank of lieutenant
junior grade occurs 18 months af-
ter the date of commissioning.

**Actress Uses
Bad Word At
Awards Event**

By JAMES BACON
AP Movie - TV Writer

HOLLYWOOD (AP)—Eva Marie
Saint, the screen's favorite nice
girl, Sunday night shocked the
movie colony with her use of a

four-letter word before a house
full of the biggest names in the
industry.

The occasion was the annual
Screen Producers Guild dinner,
one of the year's fanciest turn-
outs. The men who make the mov-
ies were there to honor Jack L.
Warner, boss of Warner Bros.,
who was to receive the annual
Milestone Award of the Guild.
Jack Benny was the master of
ceremonies and Miss Saint was
the first person he introduced. She
was to present the Jesse L. Lasky
inter-collegiate film award.

Benny explained: "This girl is
so ethereal, so nice, that I could
not do justice to presenting her.

So I asked my friend, George Jes-
sel, to write me an introduction
for Miss Saint."

Benny then preceded with a
flowery introduction, occasionally
interrupting to say it was Jessel
talking, not him.
When Miss Saint came to the
podium to acknowledge the flow-
ery introduction, she could only
mutter: "Aw...."

It brought a gasp from the star-
studded audience. As Benny com-
mented later, "George Burns at a
stag Frior's testimonial never said
anything like this."

Awards given at the dinner in-
cluded: "Ben-Hur," for the best-
produced motion picture of the

year; "Twilight Zone," for the
best-produced filmed television se-
ries of the year, and "The End
of Summer," for the best college-
produced film.

The collegiate award was ac-
cepted by Ralph S. Hirschorn of
Yale University, maker of the
film.

Main purpose of the dinner was
to present the Guild's Milestone
award to Warner.
"But how could anyone follow
the sweet young girl who uses
such language?" Warner told a
reporter later.

**Minister Loses
Job For Denying
Deity Of Jesus**

HAVERSTRAW, N.Y. (AP)—A
Presbyterian minister has been
removed from the church for de-
nying the deity of Jesus Christ
and the divine authorship of the
Bible.

The Rev. Harold J. Quigley, 47,
pastor of the Central Presbyterian
Church, said he was removed
by the Hudson Valley Presbytery

Big Spring (Texas) Herald, Mon., Jan. 25, 1960 3-A

of the United Presbyterian Church
in the U.S.A.

A Presbytery spokesman con-
firmed the dismissal. "Perhaps
I will join the Unitarian Church."
The spokesman said the church's
local ruling body, comprised of
lay and church leaders, voted 46-7
for Quigley's removal, effective
immediately.

Quigley said he had no imme-
diate plans but added, "Perhaps
I will join the Unitarian Church."
Quigley, married and the fa-
ther of five children, came to the
Rockland County church in 1952.
Quigley was graduated from
Maryville College, Tenn., in 1936,
and from the Presbyterian semi-

nary in Chicago in 1939. He served
as pastor in Presbyterian church-
es in Roushdale, Ind., Wheeling,
Ill., and Troy, N.Y. In 1950-51 he
was director of special events for
the Protestant Radio Commission
in New York City.

Road Promised To Petitioners

Twenty residents of the Canyon View, Worth Peeler No. 1, and Edgemore Additions and one resident from Cam Addition, all located south and east of the present city limits, presented a petition today to the Howard County Commissioners asking that a paved road be provided their district.

The petition asked that one mile of paving beginning at the south end of Birdwell Lane and extending east be provided by the county during 1960.

Ralph White, in whose commission's district the additions are located, informed the committee that he had already earmarked this particular road for the current year.

He explained that it was the program of the court to allocate five miles paving on county roads in each commissioners district annually. He explained that the plans did not always work out perfectly but that the particular road the petitioners requested was one that he had set up for 1960 completion in his district.

Five Theft Cases Checked By Police

Five minor thefts, all but one of them involving cars, were checked out by police officers during the weekend.

Alvah Memick, 1107 Mulberry, reported the theft of a tire and wheel.

L. A. Jerry Goodenough, 101 E. 15th, said two mirrors were taken from his car near Carlos' restaurant.

Grand Jurors To Check 40 Felony Cases

Howard County grand jury for the January term was organized at 10 a.m. today and immediately began work on some 40 matters to be considered by it.

Sixteen of the grand jury panel reported for duty when Judge Ralph Caton opened the new court term.

The grand jurors were told by Judge Caton that Dist. Atty. Gil Jones estimated that perhaps two and a half days time would be required to clear away the 40 cases on the docket.

There are two murder cases on the list. Jones said the bulk of the matters he intends to present to the jurors are routine.

Grand jurors selected are Robert J. Cook, foreman; Rufus N. Davidson, Floyd McIntire, A. C. McClendon, R. W. River, Boone A. Cramer, H. C. Tidwell, W. J. Barnes, Clifton N. Bellamy, Rogaming Abreo, Mrs. Roy Rogaming, and W. E. Buckner.

The third floor corridor of the courthouse was crowded with witnesses and defendants waiting their turn to appear before the grand jury.

Seeks State Seat

GALVESTON (AP)—Jack Callahan, 38, former city judge and assistant district attorney, said today he will seek the seat now held by state Rep. Jerome Jones of Galveston.

Jones lost in the special election earlier this month to fill the unexpired term of state Sen. Jimmy Phillips of Angleton.

The governor, also a Democratic national committeeman, reportedly favors either Sen. Stuart Symington (Mo.) or Adlai Stevenson.

Florida May Begin Its Long-Awaited Thaw Tonite

MIAMI (AP)—Florida's hard-hit winter vegetable belt is expected to be free of freezing weather tonight for the first time since Wednesday. The forecast calls for readings of 24-30 again in north Florida.

Vegetable growers spent the day appraising damage from the worst cold snap since February, 1953, and making plans for replanting.

Estimates of the crop loss in the lush lower East Coast and Everglades farming districts run into the millions of dollars. Some farmers saw entire fields of tender vegetables wiped out.

In Dade County south of Miami, where the vegetable industry expected bumper harvests, losses ran as high as 100 per cent on bunch beans, cucumbers and squash and 70 per cent on tomatoes.

Citrus in the central Florida belt apparently came through with only spotty damage which was confined to fruit in historically cold spots and to new growth.

The Frost Warning Service forecast a warming trend which would push temperatures well above the danger point for all but low ground locations in central Florida and southern sections.

Fairbanks, near a Gainesville, again was the state's coldest spot. Temperatures dipped to 19 there shortly before dawn. The range generally ran 32-40 in the citrus belt and Everglades and 34-40 along the lower East Coast. Homestead, south of Miami, had 34 and light frost.

Dr. Spears is being held by FBI at Phoenix, Ariz.

Pennsylvania Dems Pick Slate Today

HARRISBURG, Pa. (AP)—Pennsylvania's Democratic party picks the nation's first large block of presidential convention delegates today. They most likely will be uncommitted.

The 42 delegates-at-large elected by the Democratic State Committee will have half a vote each at the July convention in Los Angeles.

The public will choose 120 district delegates—each with half a vote—at the April 28 primary election, thus completing a third state's 81-vote delegation, three largest in the nation.

Only Alaska has chosen its convention delegates. Gov. David L. Lawrence, one of the country's most powerful Democrats, was certain to get the chairmanship of the delegation.

The 70-year-old governor was expected to tell the delegates not to commit themselves. His aides have said he wants the delegation free to maneuver at the convention.

Only one man in line for a delegate-at-large post has come out publicly for a presidential hopeful. House Speaker H. G. Andrews is for Sen. John F. Kennedy (Mass.).

The governor, also a Democratic national committeeman, reportedly favors either Sen. Stuart Symington (Mo.) or Adlai Stevenson.

Lawrence Will Meet Saturday With Symington and Former President Harry S. Truman in Springfield, Mo. He Will Address a \$100-a-plate Democratic dinner

He has met with supporters of Kennedy and Sen. Hubert Humphrey (Minn.). By report, he refused to back either man.

The Republican State Committee will choose its delegates-at-large in March.

There will be two special elections at the April primary to fill the unexpired terms of Republican congressmen who have died.

The Democrats were expected to endorse Robert M. Meyers, a Lewisville borough councilman, today as party candidate for the seat of Rep. Richard M. Simpson. Simpson, who died Jan. 7 after a brain operation, had been chairman of the GOP Congressional Campaign Committee.

The state's Republicans meet tonight to endorse their candidate for Simpson's midstate 18th District seat, long a Republican stronghold.

Moose Benefit Dance Planned

The Moose Lodge will hold a benefit dance and men's style show Saturday in the Moose Lodge Hall at Third and Birdwell Lane.

All proceeds from the program will be given to the current March of Dimes campaign. Manuel Puga's band will provide the music.

There will be a one dollar per couple charge to attend the show and all attending will be able to make a further contribution to the MOD campaigning.

The dance is scheduled for 9 p.m. and the style show is set to get started at 10 p.m.

Plane Widow Has Miscarriage

CHARLESTON, S.C. (AP)—Mrs. Julian A. Frank, beautiful widow of a lawyer killed in a puzzling airplane crash, is recuperating after surgery for a miscarriage.

"She is doing marvelously well," William S. Hope, attorney for Baker Memorial Hospital, reported Sunday night.

Mrs. Frank, 32, former model, was brought here Friday after suffering the miscarriage aboard a southbound New York Florida train. She underwent surgery Saturday.

Federal authorities are investigating a theory that her husband, insured for nearly a million dollars, may have taken a suicide bomb aboard a National Airlines DC6B which crashed near Bolivia, N.C., Jan. 6. All 34 persons aboard were killed.

Hope said Mrs. Frank, whose two small children are with relatives in Florida, apparently underwent great strain in her Westport, Conn., home after the death of her 32-year-old lawyer-husband.

Doctors Watch A Mock Court

FORT WORTH (AP)—More than 100 Texas doctors watched a mock court staged by the Tarrant County Bar Assn. Sunday showing the doctor's role in court cases involving alleged malpractice.

The doctors were here for a conference of the Texas State Society of the American College of General Practitioners in Osteopathic Medicine and Surgery.

Purpose of the conference was to show doctors their roles in courtroom and how they can benefit from a better understanding of their role.

Martin Wildcat Fails To Produce From Strawn Sand

Great Western No. 1 Allen, Martin County wildcat, has given up on another formation where the operator originally held hope for production.

The Strawn section failed to develop commercial production and operator has plugged back for tests in the Spraberry, a section that had good shows going down.

Gulf No. 2 Singleton, Breedlove field project, reported completion test in the Devonian. Operator made 124 flowing barrels of oil on 24 hour test.

Pan American No. 2 Offutt, another Martin County project in the Breedlove field, made 466 barrels of oil and five barrels of water in 37 hours. This test is in the Devonian formation.

Graham Takes Word To Africa

ACCRA, Ghana (AP)—Billy Graham carries the word of the Bible to more of Ghana's people today after a triumphal opening before 14,000 in Accra Stadium.

Graham, who arrived from Liberia Sunday for the second leg of his crusade in Africa, will remain in Ghana until Tuesday when he has his first meeting with Prime Minister Kwame Nkrumah.

At his opening address, Graham said his colorfully garbed audience, he is not a politician but a preacher of the gospel. Jesus Christ, he said, belonged as much to Africa as to any other continent.

Graham asked all who wished to repent to come forward. When it looked as though the whole audience would respond, he reconsidered and asked all who had not received Christ before to rise.

Ft. Worth Man Held; Suspect Girl Held Captive

FORT WORTH (AP)—A man, 57, faced charges of contributing to the delinquency of a minor today after police crashed into his apartment Sunday to try to rescue a teen-age girl believed held captive.

The girl, 17, was not in the apartment. She had not been located early today.

An earlier visit to the man's apartment Sunday night was climaxed when the man offered a shotgun at juvenile officer Chester Shaw through a door. Norman Burns, juvenile officer, was watching the action through a window and waved Shaw away from the door.

A large squad of police returned to the house about an hour later and evacuated four families. Burns and Shaw burst through the apartment door and grabbed the man.

Shaw said the girl's mother told him Saturday that her daughter phoned and said the man was holding her against her will.

The man remained in city jail today.

LOOKING 'EM OVER

With Tommy Hart

The Texas Junior College Athletic Conference, of which HCJC is a member, is toughening up scholastic requirements — and it may be going too far.

It henceforth will require athletes to pass 12 hours of work in a semester, whereas formerly they needed to pass only nine. In addition, a student athlete will need to get at least three C's on his report card.

A spokesman said similar requirements are made of athletes in Southwest Conference schools, but that is not true. SWC athletes are required to pass only ten hours of work.

It is quite obvious there's an element in some schools which is trying to kill off competitive athletics entirely.

This story may offend some school administrators. It isn't meant to offend, however, but rather to focus attention on the fact that athletics and particularly competitive athletics fulfill a desperate need in any school's curriculum.

Some time ago, a school administrator of a West Texas high school called his head coach into his office for a discussion on athletics. During the course of the conversation, the administrator mentioned that a sub-altern was, if anything, hostile toward athletics and had expressed the opinion that they should be de-emphasized.

The coach, a plain-spoken sort, must have thought his bread and butter were being threatened, for he retorted:

"Listen, you know I hit the beaches at Iwo Jima. And, you know, I looked up and down the shore at the height of the bombardment. Most of the men I saw were athletes, coaches or men in some sort of physical training work. I never saw one person in his line of work."

As long as Big Daddy Lipscomb, the huge lineman for the Baltimore Colts, wrestles in the Bay Area in California, he will be paid \$1,000 a week for his efforts.

The basketball-playing LeFevre twins, Zay and Jay, of Big Spring High School have every intention of attending college together.

Willie Mays of the San Francisco Giants will probably be baseball's highest paid player this season.

Ole Miss and Auburn will probably be added to the Baylor University football schedule within the next few years.

Keeping fit is easier, than you think. So says the National Council of the YMCA. The agency points out there are many ways to "work out" right in your own office. The trick is to learn to make the most of them.

Hopes To Stay

One of the rookies given a good chance to stick with the Milwaukee Braves this season Al Spangier (above), an outfielder who hit .297 for Louisville in the American Association last year. He's 24. He got in six weeks for Milwaukee at the end of last season and hit .417.

Cards Better, Says Hemus

By SOLLY HEMUS
HOUSTON, Tex. (AP) — Four winter trades have made the St. Louis Cardinals a better and more interesting club for 1960. We have added power and helped our pitching.

Our pennant chances depend largely upon our young pitchers and upon the new players we have added in trades with the Giants, Phillies, Pirates and Orioles.

We helped our power from the right-handed side of the plate when we added Daryl Spencer and Bob Nieman. We added left-handed power by obtaining Carl Sawatski and Leon Wagner. We certainly improved our pitching by acquiring Ronnie Kline for our starting staff.

I do feel, however, we have hurt ourselves a little bit defensively by giving up Don Blasingame, whom I consider one of the top second basemen in the league, and Gino Cimoli, who is a fine outfielder and got a lot of big hits for us. However, I feel that Curt Flood, with a chance to play regularly in center field, will more than make up for Cimoli's loss and Alex Grammas will do an acceptable job at second base. Young Wally Shannon could figure in that position, too. Our plan is to put Spencer back at shortstop, his original position.

Rickey Makes Vow

MILWAUKEE (AP) — Branch Rickey, still willing to try and crack baseball barriers at the age of 78, says a third major league is a must — and he vows to get the Continental League off the ground.

of cities in my league or I will demand your expulsion from baseball," American Assn. President Ed Doherty wired Rickey's personal representative Saturday night.

The envoy, owner Allen Russell of the Austin club of the Texas League, replied in effect that Doherty was no one to call the kettle black.

Buff directors met today in what was believed a session to place a price tag on the Triple A club. President Marty Marion earlier claimed the club was worth \$492,500 in investments and commitments. Russell said the franchise brought only \$100,000 when purchased a year ago.

Craig Cullman Jr., leader of the Houston Sports Assn., which owns the Continental franchise, dismissed the figure as "utterly ridiculous."

"I regret terribly the possible loss of Houston," Rickey wired Cullman. Rickey seeks to gain territorial rights from the Buffs in order that work on a new public stadium may get under way.

"It is now a prospective choice between Houston and Montreal," he added. "I do not believe you should permit anyone to hold you blamable if the vacated franchise is granted elsewhere. I am not going to hold that baby in my lap either."

Russell, who brought peace between Dallas and Fort Worth, said Doherty's telegram stated: "By what right do you label yourself a mediator for Rickey? I am reporting your conduct to (Texas League President) Dick Butler and George Trautman (President of the Minor Leagues)."

The Texas League owner said he replied he didn't care "what threats you make. I just wish you had stayed out of the Texas League in 1958 and previous years."

The American Assn. drafted Houston, Dallas and Fort Worth from the Texas League before the 1959 season, reducing that circuit from an eight to a six-team league.

Trautman, reached by telephone, said the only way any group could acquire territorial rights would be to deal with both the Buffs and the American Assn.

"Mr. Rickey can authorize anyone he wants to to represent him," the minor leagues' chieftain said.

GAMBLE BENEDICT

Heiress Back Home, Into Family Fight

NEW YORK (AP)—Dr. James Douglass Sharpe says he will take legal action if necessary to see his daughter, Gamble Benedict, 19, the heiress who has been returned here after running away with a married chauffeur.

Sharpe, a Brattleboro, Vt., psychiatrist, was turned away twice Sunday from the East Side mansion of Miss Benedict's grandmother, Katherine Gedes Benedict.

"This is typical," Sharpe commented. Miss Benedict's brother, Douglas, 21, and Mrs. Benedict's attorney, Robert Hoffman, returned the debutante to her grandmother's home Saturday night. They flew her home from Paris on a court order from French authorities.

The Romanian-born chauffeur, Andre Porumbescu, 35, with whom Miss Benedict sailed on a freighter for an escape in Paris, remained there in mournful seclusion. He and the girl had said they wanted to marry after he could get a divorce.

The New York Daily News said in a copyrighted story that he talked Sunday by phone with Miss Benedict.

Sharpe, who gave custody of the girl and her brother to Mrs. Benedict after the 1948 suicide of the children's mother, Josephine Benedict Sharpe, insisted that he has "every right" to see his daughter.

NOT WANTED
After he and his present wife, Marilyn, were turned away at the door of the Benedict mansion, his son told newsmen: "My sister does not want to talk to my father. She told me that as emphatically as possible. She doesn't want any help from her father—his help is not wanted. He does not deserve that privilege."

Mrs. Sharpe took an overdose of sleeping pills after a quarrel with Sharpe. Following her death, the psychiatrist waived his one-third interest, estimated at \$300,000, in her estate. Later, however, Sharpe changed his mind and sought to get his share. But he lost to Mrs. Benedict, and the children changed their names to Benedict.

Told of young Benedict's statement, Sharpe said: "But I saw her at the airport and she seemed very happy to see me." He went to the home of his lawyer, David Du Vivier, to discuss legal means of seeing his daughter.

Miss Benedict was weeping at Idlewild Airport Saturday night as she was whisked through a crowd of reporters and spectators. She was hurried to the home of Mrs. Benedict, heiress to the Remington typewriter fortune.

Asked how his sister felt about being home, young Benedict said: "She came home because I asked her to. She is home and she is here of her own volition. She is truly sorry for what she has done. She made a mistake, but anybody can make a mistake."

The News quoted Porumbescu as saying Miss Benedict called him by transatlantic phone Sunday "to tell me she loves me and will wait for me."

Avoid A Rut

Nancy Gales warns against the danger of getting into a domestic rut. She appears frequently on CBS-TV.

American Home Is Theme Of Modern Woman's Forum

Subject of the Modern Woman's Forum Friday, when they met in the home of Mrs. H. H. Tanner, was the American Home.

Better Living Through Gardening was Mrs. J. P. Dodge's topic. She told the 16 members present that gardening enhanced the home's surrounding, and pointed out that it preserved health through exercise and by having time to think as you work. Cooperation is developed in a family through family gardening, and may be a possible way to divert juvenile problems.

The Home of Tomorrow was the subject of Mrs. A. C. Bass. She compared the home of today with its push buttons to the home of grandmother's day. The speaker related many of the advancements in the field of electronics and told the women they had a great deal to look forward to in the next 20 years in home improvements.

Plans were made for the Friday night party the group will sponsor at the Westside recreation center.

Mrs. Bass announced that a March of Dimes Tea will be held in her home, 106 Washington Place, Sunday from 3 to 6 p.m. The public is invited to attend.

Mrs. C. B. South was welcomed as a new member into the group that was co-hosted by Mrs. R. L. Warren.

Italians Accent Waistline

FLORENCE, Italy (AP) — Features of Italian fashions for the coming spring and summer are tunics, accentuated waistlines, plenty of pleats and all kinds of prints.

As the mannequins remove their false eyelashes and greasepaint and the buyers go off to Paris, these are the highlights of the collections shown by 30 major Italian fashion houses the past 10 days in Rome and Florence.

Skirts remain short despite the attempt of some designers to drop them an inch or two. Designers and buyers continue to think short skirts look young.

Waistlines are there—but definitely. Most often they are widely belted, enclosed in seamed borders and indicated with waist-point bows.

If the Italians have their way you'll see the tunic look everywhere—in jackets, coats, daytime and evening dresses. They will also be known as coosacks, chilons, long basques, three-quarters, seven-eighths and nine-tenths coats, and belted shifts.

Underskirts will often be pleated, and so at times will be the tunics.

Beaches and resorts this summer will resemble a Turkish harem if the Italian fashions catch on. Tunics worn over long fitted silk or shantung pants come in fabulous Middle Eastern-inspired prints.

Haneys Hold Open House Anniversary

Mr. and Mrs. W. H. Haney marked 60 years of married life with an open house hosted by their 12 children Sunday.

Sixty-five friends and relatives called during the afternoon, and the couple received many cards, letters and telephone calls wishing them well. A granddaughter, Glenda Ruth Haney, presided at the guest register.

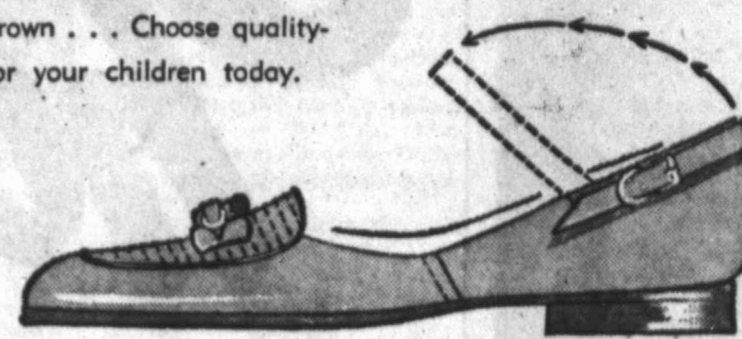

Daughters-in-law served refreshments from a cutwork linen covered table centered by an arrangement of pink carnations, a wedding ring and bell. The one-tiered cake was centered with a diamond. Serving were Mrs. Sam Haney, Lamesa; Mrs. Edward Haney, Carlsbad, N. M.; Mrs. Myrtle Haney, Mrs. J. O. Haney, and Mrs. R. E. Haney of Big Spring.

The children are Mrs. J. R. Summers of Bangs; Mrs. V. G. Doyle of San Angelo; Mrs. M. O. Cook of Balmorhea; Mrs. Carl Peterson of Vealmore; Edward of Carlsbad, N. M.; Sam of Lamesa; Mrs. Glen Barber, Anna, Vio, Myrtle, J. O. and R. E. Haney of Big Spring.

HOLLYWOOD BEAUTY
Keep Interested And You'll Be Interesting

HOLLYWOOD — "One of the biggest mistakes a housewife can make is allowing herself to become so involved in domesticity that she gets into a rut," Nancy Gales observed. "You have to have outside interests or you'll become a bore to your family."
Nancy has two children, a devoted husband and a career. We were chatting in the "Men in Space" TV studio, where Nancy was weirdly dressed as the first woman to make this perilous voyage.
"I became so wrapped up in settling into our new home, so busy furnishing the house that I told my agent to give me a vacation. But after a month of this I heard my young son asking his father, 'When's mother going back to work? I think we're getting on her nerves.'"
Nancy laughed and said, "You know, I hadn't realized it, but I was feeling pressures and my family noticed my irritability. I love my work and it does me a great deal of good. But I don't think you have to work away from home for diversion. It doesn't matter what your outside interest is if it offers a fresh experience — something you can discuss with your family."
Some cameramen near us were talking about the smog we were having and I asked Nancy if she

was bothered by eye irritation. "Yes, it makes my eyes water and burn. If my eyes hurt I feel terrible all over," Nancy went on. "But I discovered something that has really helped me. It is a jar of mentholated eye-pads, and they seem to draw the sting and puffiness out of my eyes. When my eyes are bloodshot I use special eye drops. It is amazing how quickly my eyes clear."
A man with a snack cart came on the set and we passed up the delicacies for black coffee. "Do you still have to struggle to keep thin?" I asked. "No, I've licked that problem by not eating between meals," Nancy revealed. "If you can just learn to give up snacks you don't have to give up the things you like at mealtime."
"I have never been athletic until recently. Now, I play golf, tennis and go to the gym or have a workout at home."
"Do you find you have a bigger appetite when you exercise?" I asked. "Not at all," Nancy said firmly. "My mind is on other things and I don't think about food."

Miss Christopher Became Bride In Sunday Nuptial

LAMESA — At 2:30 p.m. Sunday, Emma Jane Christopher became the bride of Johnny Wade Mahaney in a ceremony read by Leon Savage at the South Side Church of Christ, Lubbock.

Mr. and Mrs. E. A. Christopher, Ropesville, are the parents of the bride; Mr. and Mrs. E. C. Mahaney of Route A, Lamesa, are the bridegroom's parents.

Sprays of greenery, baskets of white gladioli and tapers in pedestaled candelabra formed the setting for the exchange of vows and wedding rings. Large white bows marked the pews along the bridal aisle.

A wedding chorus from the church presented the program of music, and soloist was Martha Burleson of Tucson, Ariz.

The bride, given in marriage by her father, wore a traditional gown designed and made by her mother. It was fashioned with portrait neckline outlined with appliques of scalloped Chantilly lace sprinkled with seed pearls and long tapering sleeves; from the softly fitted lace bodice stemmed a floor length skirt of lace and chiffon ruffles with an overskirt of lace parting in center front to reveal tiers of ruffles.

Her lace-edge illusion veil was attached to an upstanding band of starched lace scallops encrusted with seed pearls.
She carried a white Bible, gift of the bridesmaids, under a white orchid nestled in a spray of white carnations.

Mrs. George Igo was matron of honor; bridesmaids were Glynda Alsobrook and Deanna Floyd. They wore dresses of blue peau de soie with white fur trim and white fur hats. Their white fur muffs were decorated with fern and carnations.

The bridegroom's brother, Ross Mahaney of Lamesa, was best man. Ushers were Jerry Stanley, Carlsbad, N. M., Jay Sherraud, Andrews, and L. T. Davis.

Christi Christopher, niece of the bride, and Carolyn Mahaney of Lamesa, the bridegroom's niece, were flower girls. The bride's nephew, Randy Mahaney of Lamesa, was ringbearer.

Guests attended a wedding reception in Fellowship Hall of the church following the ceremony.
For traveling the bride selected

a sapphire blue wool suit with white fur accents. She is a graduate of Ropes High School and is a student at Lubbock Christian College, where she is president of Metah Moes social club.

Mahaney, a graduate of the Lamesa schools is also an LCC student, and is affiliated with Alpha Chi Delta social club. He recently completed four years with the U. S. Navy and is employed by West Texas Wholesale Supply Co.

Upon their return from a wedding trip to New Mexico, the couple will reside at 4502 19th St., Lubbock.

Spring Fashions Highlight Shows In French Salons

By NADEANE WALKER

PARIS (AP) — The fashion showings for spring 1960 started today when a model—in a black dress, with a flared skirt just covering the knee, nipped in waist and big white cape collar—walked out in the Jacques Griffe salon.

The show went on with straight sheath dresses that seemed to flatten the figure. Some were in silk prints. A loosely floating, slightly gathered skirt panel hung down the front and back of a few.

Deep bathing sleeves on coats and jackets and many flat-pleated skirts highlighted the first spring collection. Orange and rose hues vied with sober navy, beige, and greige or gray-beige, with flashes of black and white.

Griffe belted most waistlines about an inch below normal, with cloth or patent leather belts that slipped through side slots and dipped sharply in the back.

A few of these were breathlessly tight for a real wasp waistline, but most were semislack, as were his unbelted suit jackets.

Collared necklines stood off from the throat and dipped in a deep V front. But many sleeveless sheaths were collarless, with draped bodices cut either square or high or rounded widely at the neck. Some of these were buttoned all the way down the front or back.

According to preopening hints, others may be tired of big collars, but Griffe is still giving them a ride.

Lightweight wool crepes and both floral and abstract printed silks make most of his day collection.

Hoods attached to afternoon dresses can be dropped for a draped collar effect, or worn up with matching silk print sheath coat.

There are some reversible wool tweed coats over dresses matching one side of the coat.

WSCS Speaker
The Rev. H. Clyde Smith will be the guest speaker Tuesday morning at 9:30 when the morning circles of the First Methodist WSCS meet for the second study of "The Church's Mission in Town and Country." Also on the program are Mrs. L. A. Zant and Mrs. G. T. Hall.

Just Dip, Fry
All you have to do to eggplant before deep-fat frying it, is to dip it into seasoned flour or corn meal.

Garnish
You can give baked or broiled tomatoes (cut into halves) a pizza-style topping by garnishing with grated cheese and anchovies.

COL. CARL C. HINKLE

Speaker Famed In Football And As USAF Pilot

The military exploits and athletic activities of Col. Carl C. Hinkle Jr., guest speaker for the graduation of jet Class 60-E, both outstanding, have combined in the past to form a notable career. The graduation exercises are set for Thursday night.

A nation Tennesseean, the present chief of personnel services division (directorate of military personnel), headquarters USAF, attended Vanderbilt University, Nashville, receiving his B. A. degree in 1938. While there, he was selected as center on the 1937 All-American football team.

He was one of a select group of athletes who recently traveled to New York to receive a long series of honors — capped by the inscription of his name in the Football Hall of Fame.

STARTED IN 1938.

Col. Hinkle entered the United States Military Academy in 1938 and graduated four years later with a B. S. degree and commission as second lieutenant of infantry. Shortly thereafter, he attended flying schools in Florida, Mississippi, and Illinois, receiving his wings and transfer to the Army Air Corps in 1942.

After combat crew training in B-17's Col. Hinkle saw duty in England with bombardment groups — as operations officer and commander. He flew 33 combat missions, winning the Distinguished Flying Cross with two oak leaf clusters, the Air Medal with three clusters, the Croix de Guerre, and the Presidential Unit Citation with cluster.

Returning to the U. S., he was named assistant football coach at West Point. After completion of the football season in 1945 he again became a tactical officer until 1949. Joining the atomic training staff at Sandia Base, N. M., in 1949, he served as deputy training group commander until 1953, when he was named commandant of the electronics training school at Keesler AFB, Miss.

SERVES AT SHAPE

In 1955 he was transferred to SHAPE Headquarters, Paris, France, where he served as chief of the policy branch until returning to the U. S. to attend War College.

Col. Hinkle attended various atomic energy courses between 1949 and 1953. He completed Command and Staff College in 1950, manpower management school in Washington in 1954, and war college in 1959.

Upon his graduation from the last-named school, he was selected by Air University as one of 12 outstanding Air Force officers to tour and speak to civilian and military audiences all over the U. S. Six of each year's speakers bureau are recent graduates of the air war college and six are just out of command and staff school.

Theme of this year's program is "USAF — Today and Tomorrow."

Graduates of Class 60-E are as follows:

356TH PILOT TRAINING SQUADRON

First Lt. Jackson W. Demorest, Robert M. Keagy, Harry E. Rice Jr. and Donald B. Williams.

Second Lt. Dennis L. Anderson, William A. Blackburn, Edward M. Boothe, Vaynus, D. Bradley, Bobby L. Campbell, Donald K. Cook, David F. Dennis, Louis N. Ferguson, John E. Gressard Jr., Harry C. Green, Robert L. Hoover Jr., John O. Johnson, David A. Krebs.

A Devotional For Today

Nevertheless I am continually with thee; thou dost hold my right hand. Thou dost guide me with counsel, and afterward thou wilt receive me to glory. (Psalms 73:23, 24. RSV.)
PRAYER: Our Father, save us from our shortcomings. Relieve us of the depression when we see evil round about us. Help us this day to live and labor with the assurance that in the midst of life Thou are always near to comfort, sustain, and help us. Through Christ our Lord. In His name we pray, Amen.

Open Season And The Poll Tax

Three New Yorkers — Sen. Jacob K. Javits and Sen. Kenneth B. Keating, both Republicans, and Rep. Emanuel Celler, a Democrat — engaged in activities this week as much harbingers of an election year as robins are of spring.
Sen. Javits announced that 24 senators have joined hands to sponsor an anti-poll tax bill, a hardy perennial.
Rep. Celler "publicly dared" Vice President Nixon to help force the House to vote on civil rights legislation now log-jammed in the House Rules Committee. Of course Nixon has no power or authority over the House, but Celler is a Democrat and Nixon a Republican and Celler's brave action will make an impression in Harlem.
Sen. Keating's contribution to these voting-getting moves was to suggest that the bill to provide for federal bureaucrats to serve as registrars in Southern states where voting rights have been interfered with, or suspected of having been interfered with, be made the linchpin of broad new civil rights legislation.
As for the poll tax bill, Sen. Spencer Holland (D-Fla.) has introduced a resolution proposing to abolish the poll tax by constitutional amendment.
This is the sensible, orderly way to go about it, and no doubt it will find wide

support among Southern Democrats. What they don't like about a federal anti-poll tax statute is having something shoved down their throats by direct interference in what they consider the peculiar province of the states. The Holland resolution would take a little longer, but be far more effective; but it wouldn't make any votes in New York this year for Senators Javits and Keating and Rep. Celler. In short, they are trying to make political hay out of an issue that can be settled once and for all time by a constitutional amendment.

The anti-lynch law falls in this same category — another popular gimmick for big-city Northern politicians.

Thanks to unremitting efforts in the Southern states, lynching has all but disappeared; only now and then some disgraceful episode like that in Mississippi last year blacksens the good name of the South and provides a talking-point for the professional civil-righters among the politicians. To put it bluntly federal anti-lynching law probably would worsen a condition that has grown progressively better, since it might foster a tendency among Southern law-enforcement officers to pass the buck to the federalists instead of going after the guilty themselves.

HIGH FINANCE

James Marlow

Civil Rights Bill Can Be Predicted

WASHINGTON (AP)—Will Congress pass a civil rights bill this year? Most likely. What kind? A moderate one. Why moderate? Several reasons, all political.
For instance: The Democrats control Congress. If the Northern Democrats tried to ram through a tough bill, it would probably cause a party-splitting filibuster by Southern Democrats. In this election year the Democrats don't want splits.
Civil rights legislation is still a stinging issue, made so by the South's resistance to public school integration and its treatment of Negroes.

There is pressure for action — from organized labor, Negroes, and Northern liberals. The push in Congress for action is mainly from those in the liberal group and most of them are from industrial centers where Negro votes count.

Last year President Eisenhower proposed a seven-point program. No action. This year he still talks of wanting action. But he has been vague so far, has shown no

signs of real fight on the issue. Republicans are playing quiet now, letting Democrats fight among themselves.
But when the showdown comes, Republicans, if they have any hope of denting Democratic control of Congress, will have to make some showing of lining up on the side of civil rights if they hope for any of that Northern Negro vote.

Then there are those Democrats considered presidential possibilities. Of necessity they must be self-conscious about the problem. None of them illustrates this more than Sen. Lyndon Johnson of Texas, leader of the Senate Democrats.

This week he confidently predicted a civil rights bill would be passed in 1960. As a man credited with big hopes for the presidency, Johnson can't afford to alienate his fellow Southern Democrats. He'll need their support going into the convention.

But the Southerners alone couldn't nominate him. He would need acceptance by the Northern-

ers, particularly Northern liberals. And he is far from being the liberals' darling.

He would have a better claim on their attention if he could get a civil rights bill through. But it would be politically unwise for him to try to force a tough bill on the South.

The chances, therefore, are that he will steer through a bill, not too harsh for the Southerners to digest, even though they preferred none at all, and although not strong enough to delight the liberals, at least some kind of bill which they could consider better than nothing.

If anybody could get through a bill at all, Johnson seems the one to do it. First, because of his control in the Senate; second, because he's a compromiser; third, because he did it once before.

In 1957, he engineered the first civil rights bill to clear Congress in 82 years. It was far less than Negro leaders wanted, far more than Southerners liked. But at least it broke the ice of almost a century.

Dangerous Plaything?

JACKSONVILLE, Fla. (AP)—The cannonball bore the date 1863, and it seemed harmless enough to two boys rolling the 95-pound ball down their drive.

The rolling game continued until someone got the idea it might be dangerous.

The Jacksonville Naval Air Station found the ball contained 2 1/2 pounds of explosive powder. Mrs. M. D. Moody, whose sons were playing with it, said the ball was among relics collected by her father.

Smell A While

ENID, Okla. (AP)—Sheriff's deputies C. O. Porter and Floyd Schultz were almost boycotted by fellow workers after answering a woman's call for help to get a skunk from under her house. She assured them the animal was deodorized. It wasn't.

Anyone Qualify?

BALTIMORE (AP)—A sign on the lawn of the Episcopal Church of the Redeemer says: "You are welcome to park on the grass at the Church of the Redeemer only if you drive your car across your own lawn once a week."

To Your Good Health

Toilet Training Requires Patience

By JOSEPH G. MOLNER, M.D.

Dear Dr. Molner: I have a little boy a year and seven months old. Could you give me any good suggestions on trying to break him of wetting his diapers?—Mrs. T. A.

This is mostly a matter of time, patience and casual encouragement.

Mothers are quite likely to be worried over the first baby, wondering if he or she is supposed to be able to do this or that. Then they find out.

And when the second baby comes along, they know what to expect. Only sometimes the second decides on a schedule all his own! By the time you've had several youngsters, about all you know for sure is that they come out fine if you give 'em half a chance—and hardly ever are two of them very much alike.

As a general thing, however, stool control is usually pretty well achieved by the 12th month; bladder control is quite another matter.

During the day, generally speaking, bladder and bowel control will pretty much run parallel, and be complete by, say, 14 months.

take longer, and may not be mastered until the age of 2 or 2 1/2 years.

Some children will, quite early, begin to dislike being wet in bed. Others, for a much longer time, may not seem to mind being wet, either day or night. But sooner or later all make up their minds—no necessarily as soon as parents think they ought to.

The well-adjusted child will stay dry when he is ready to do so, and that's that.

How to keep children well-adjusted? Love 'em, take care of them, don't put too much pressure on them, keep them comfortable in training, so they won't dislike or be afraid of the bathroom and its equipment.

Bowel training can start when a baby is about nine months old. Make sure the seat is comfortable, and place him there when his movement is likely to occur. The pattern develops early.

If, because the stool material is hard or packed and the child hence has difficulty a small glycerin suppository may be used, or a small amount of olive oil or mineral oil injected with a syringe. But don't overdo it. Just use when it's clearly indicated.

Encourage the child casually.

That is, don't make too big a thing of it. Tense nerves and "tryin' too hard" don't help anyone, and this advice includes babies. Just play things calm and easy.

And as the child learns, he'll quickly sense his mother's pride when he achieves control.

"Dear Dr. Molner: Why should a child (now 7) have abnormally dry skin from birth? No 'outside' treatment helps. He is quite small for his age. Could it be a thyroid condition?—H. G."

One possibility could be a condition called ichthyosis, which can appear shortly after birth. The cause is not known, and treatment not too successful. The condition improves in summer and worsens in winter. It seems doubtful that thyroid would be at fault in this case—your doctor should be the judge. Have you consulted a skin specialist?

Dr. Molner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Around The Rim

Another Era Of Bearded Men?

The hat manufacturers are still trying to figure how to influence more of the males to cover their heads.

In short, they've had it better and, from all indications, the trend to go bareheaded is spreading.

The people who manufacture razor blades, if the truth were known, would just as soon abolish all this thought and literature about beards, too.

The appearance in the papers of such noteworthy gentlemen as Fidel Castro and his Cuban revolutionaries, along with the beatniks, is apt to plant dangerous thoughts in the minds of a lot of people. So reason the manufacturers of the razor and the razor blade.

The trend toward cultivating chin foliage seems to break out about every hundred years or so.

THE BEARD WAS NEVER more popular than it was immediately prior to and during the War Between The States, when President Abraham Lincoln set the example and most of his generals took the hint.

One of the men in Lincoln's military braintrust, did so well at developing a beard that his name has been applied to that style ever since, either as burnside or sideburns. He was Ambrose E. Burnside, who succeeded Gen. McClellan in command of the Army of the Potomac.

From Biblical times onward, bearded eras have spanned more years than the clean shaven centuries in western civilization.

A RARE EXCEPTION to the rule was Alexander The Great, who insisted that his soldiers shave. It was his theory that it was fairly easy for an opponent to

grab a man's beard and slit his throat with one easy motion.

Another group of fierce warriors, the Spartans, didn't care for the beards, either.

As a symbol of manhood and virility, beards held an all but sacred role in early society. In the 18th century shaved Spaniards in the 18th century shaved because their monarch, Phillip V, could not grow a beard and the Russians of that same era were taxed if they sprouted chin shrubbery because their ruler wanted to emulate the smooth cheeked European of the west.

Modern men takes the trouble to shave every day because (1) it is the general custom and (2) he reasons it would be too much trouble to cultivate a beard.

NATURE, HOWEVER, IS on the side of the beard grower. Facial hair obviously was meant to grow and not to be struck off daily. Hairs on the face are heavier and tougher than scalp hair. They're up to four times as thick. There are more of them per square inch than on the head and they sprout at any angle.

Here's another argument the beard growers give: Men who shave spend too much time at the endeavor. The man who shaves daily, they point out, spends an average of 36 1/2 hours yearly before the mirror, running his razor over a half square mile of stubble.

The bearded population in America is numbered at 200,000 and is said to be growing.

Every morning before I approach the mirror, I weigh the idea of developing a beard. Once I eye the stubble which has grown there over a period of 24 hours, I can hardly wait to rid myself of it.

Don't Hope For The Unlikely

As it shapes up now President Eisenhower will visit the Soviet Union for ten days starting June 10 as a follow-up to Premier Nikita Khrushchev's extensive tour of the United States from coast to coast last September.
The President will visit Moscow first, later other principal Soviet cities. On his way home he will visit in Japan.
Immediate purpose of his June visit is, to use an AP phrase, to apply more thawing heat to the cold war ice.
The Soviet excursion will come about three weeks after the Paris East-West summit conference. Some observers think this will have a beneficial influence on the Khrushchev temper, on the theory that K. wouldn't let bitter melt in his mouth on the eve of a visit from the American chief of state.
Then what happens if Khrushchev turns out to be his old self at Paris, refusing every form of cooperation, and repeating all his threadbare demands, levied on the West in all previous summit conferences?
Does Mr. Eisenhower still pay his call on the Kremlin in June, choosing to ignore his opposite number's intransigence at

Paris? Can K. be influenced at Paris out of consideration for his impending visitor to the Kremlin?

At first blush it would seem that the Moscow visit of our head of state might have been scheduled with some such thought in mind — that is, to soften up Khrushchev by holding out a carrot instead of a stick.

We have to see it to believe it. But that notion seems a bit on the naive side. We cannot believe Mr. Eisenhower hopes to exert his charm on K. to an extent great enough to affect his long-term aims in the slightest degree. Mr. Eisenhower's charm is famous, to be sure, but so is Khrushchev's hard-headed realism.

Over the weekend, J. Edgar Hoover, director of the Federal Bureau of Investigation, noted that there had been a decline in the determination of a great many people in the U. S. and elsewhere in the Western nations to fight communism as a result of Khrushchev's visit here last fall. The only good result accrued to the Soviet Union. We do not believe Mr. Eisenhower's call on the Kremlin will change matters.

Anti-Semitism Work Of Communists

WASHINGTON—The Communists have put over a gigantic hoax. They have almost persuaded a gullible world to believe that the West German people are responsible for the outbreaks of anti-Semitism in recent weeks. Actually, proof now has been obtained that the whole thing is a Communist plot.
The Soviet government maintains an active apparatus of agents in all countries, including the United States. The same technique that was employed in West Germany was used throughout the world. It is one of the boldest pieces of propaganda that the Communists have ever tried. Will they continue to get away with it?

Already they have been assisted by the persons who, posing as Communist espionage and artificial provocations. Yet no such coordinated activity as the world has been witnessing could possibly be just the work of hoodlums or persons bent on playing pranks. Some individuals doubtless can be found who engaged in it without inspiration, but the facts now coming to light show that the Communists, acting through their apparatus in East Germany, started it all in West Germany as a political maneuver to discredit the Adenauer government.

A UNITED PRESS International dispatch from Bonn on January 30 says: Communists are behind many recent anti-Semitic incidents. An official spokesman said after a full-scale cabinet meeting that the ministers discussed at length the question of Communist inspiration of the rash of anti-Jewish activities. He said that the Interior Ministry, in cooperation with the state governments, will publish

a white paper on the subject at some future date still to be determined.

"Even today," he added, "it can be said that Communist action can be proven in three different areas, or in three different roles. These are: (1) as instigators, (2) as perpetrators, and (3) in making full propaganda use of the incidents to defame the Federal Republic as a glance at the (East German) Soviet zone press shows."

Some of the evidence comes in the form of a confession by Bernhard Schlottmann, 22, treasurer of the neo-Nazi National Students' Federation, that he was under East German secret orders to stir up neo-Nazi activity in West Berlin.

Another youngster, Wolfgang Solandt, who illegally crossed the border into West Berlin last year, has just been arrested as a Communist agent. He had become a member of the National Youth of Germany, a "rightist" organization which was banned last week, and boasted that he could get weapons from the Soviet zone.

THE WEST GERMAN Defense Ministry has issued a paper based on reports of its Intelligence Service. It says that, at a special meeting on January 23 last year, the central committee of the Communist party in the Soviet zone laid plans to develop anti-Semitic incidents as a means of damaging the reputation of the Bonn government. The committee's propaganda section was instructed to start a campaign to indicate that anti-Semitism was being revived.

The report further says that the East German Communist authorities planned the organization of "action commandos" to desecrate Jewish monuments, while the Communist underground in West Germany was given orders to cooperate in any activities that could create unrest in the Federal Republic. Students in an East Berlin university, according to the report, were advised that anti-Semitic demonstrations would be staged in West Berlin and that they should take part not only in these but in any rally, whether it was for or against the Jews.

IN DECEMBER, the Defense Ministry says, an order was issued by the East German authorities that incidents were to be created in due time prior to the "Summit" meeting in May.

What could be more natural than for a propaganda chief sitting in Moscow to order Communist agents everywhere, including those in the United States, to stir up antagonism against the West German government on the theory that this would weaken Chancellor Adenauer's influence with the other governments of the free world and bring about the withdrawal of the Allies from West Berlin?

The game is plain to see, and from now on more and more evidence can be expected to be revealed showing how the Communists engineered the anti-Semitic disturbances for political purposes.

WHEN THE DOCTOR ASKED ME TO STAY ON AS YOUR NURSE FOR YOUR FIRST WEEK AT HOME I INTENDED TO REFUSE, BUT THEN I GOT TO THINKING ABOUT IT.

THIS WILL GIVE YOU A CHANCE TO SEE HOW IMPOSSIBLE IT WOULD BE TO HAVE BOTH YOUR SISTER AND MYSELF LIVING IN THE SAME HOUSE—NOT TO MENTION MY TEEN-AGE DAUGHTER AND LITTLE ANNIE.

I COULD STAKE MARIE TO AN APARTMENT OF HER OWN.

NO, MY FRIEND—YOU CAN'T HAVE MARIE ANOUCHET—WE COULDN'T BUILD OUR HAPPINESS UPON THAT.

YOU'RE KIND—THINKING OF OTHERS—I LOVE YOU!

AN AH—NO MORE OF THAT!—THEY'LL BE HERE TO GET US IN A MOMENT.

SNUFFY SMITH

JOSHUA!—WHEN EVERYBODY GOES TO TH' BODACIOUS WEDDIN' TOMORRY, LET'S ME AN' YOU GO FISHIN'.

NO, SIREE—I'M GOIN' TO TH' WEDDIN', JAMEY.

WHAT FER? YE LIKE TO HEAR ALL THEM FEMALE WIMMEN BAWLIN' AN' SQUAWLIN'?

I'LL BE LAFFIN' MY FOOL HEAD OFF.

LAFFIN' AT WHAT?

ME AN' LUCIFER WILL FIGGER OUT SOMETHIN'.
