Crop Duster Pilot Killed Near Lamesa

LAMESA — Richard Woodward, 38, crop-duster pilot, was instantly killed at 10 a.m. today when his Piper 150 crashed on the J. E. Nix Ranch. Woodward, who moved to Lamesa from Odessa on April 15, was an employee of Chapman-Sprays Inc., Lamesa crop dusting organization. The body is at Higginbotham Funeral Home. Arrangements are pending. He made his home in a trailer house at the Lamesa airport and is survived by his wife. The tragedy occurred 20 miles southwest of Lamesa and .1 mile over the Gaines County line.

Record Crowd Tours New Bank

This scene greeted more than 1,600 visitors attending the two-day open house of the City National Bank at Colorado City Saturday and Sunday. Bank officials listed the attendance at 1,664 persons for the grand opening. The new facility cost \$300,000.

Tuesday Deadline On Absentee Votes

Absentee voting closes Tuesday at 5 p.m. Monday morning, 120 absentee votes had been cast at the office of Pauline Petty, Howard County clerk.

Seven Apply For City Post

Seven applications have been received for the job of secretary in the city inspection department.

Bruce Dunn, director of public works, currently in Lubbock attending a public works clinic, will interview applicants for the appointment probably sometime this week. He returns to Big Spring Tuesday, according to City Manager A. K. Steinheimer.

The new employee, allowed by the City Commission in this year's budget, will give Tom Newton, building inspector, and Homer Ward, electrical inspector, more time on various construction jobs throughout the city.

Mrs. Petty warned that any voter who expects to ballot by this method must do so before 5 p.m. Tuesday or lose his opportunity to vote.

Meantime, all ballot boxes and election material have been assembled and is ready for the judges. Some of the precinct officials have already taken charge of their voting boxes.

Mrs. Petty asks that all of the judges in the 16 voting boxes make certain they pick up their boxes and supplies not later than Friday.

Candidates, who have opposition, were pushing their last opportunity to contact voters Monday. They expressed concern over what they regard as a lack of interest on the part of the voters.

Estimates on the possible vote on Saturday vary widely. In general, most observers do not look for an exceptionally large vote.

Some are inclined to believe the change in the primary date—it was moved up under the new law—may be responsible for the lack of election enthusiasm.

1,600 Visitors Attend C-City Bank Opening

COLORADO CITY — More than 1,600 visitors walked through the new \$300,000 City National Bank building during the open house held Saturday and Sunday. The new building was opened for business at the first of the week.

The open house Saturday was principally for visiting bankers and members of news media. Sunday, the celebration was for the general public in the Mitchell County area and 1,539 visitors were counted at the door.

Wayne Shawn, vice president and cashier, said that the crowd had lined up for half a block before the doors opened at 2 p.m. Sunday. The bank gave five bonds totaling \$225 as prizes for persons registering. Winners were Patsy Howard, E. M. Owen, and Mrs. Bill Oyler, all of Colorado City, and E. W. Olson of Silver and Price Hall of Lorraine.

Guests were conducted on guided tours of the bank by bank employees and officials and punch and coffee were served in an upstairs room.

WRONG PHONE NUMBER KILLED LAST HOPE

SAN FRANCISCO (AP) — Caryl Chessman missed another stay of execution by minutes because of a wrong telephone number.

U. S. Dist. Judge Louis E. Goodman said he telephoned San Quentin Prison to order a 30-minute stay of execution today to hear arguments on a new petition to delay the convict-author's death.

But by the time he reached the warden's office the deadly pellets had already been dropped in the gas chamber, he said.

The petition for a stay of execution was filed with Judge Goodman at 9:55, as fast as attorneys George T. Davis and Rosalie Asher could get to the judge's chambers from the California Supreme Court, seven blocks away, where a similar plea was denied five minutes earlier.

It took several minutes for the attorneys to explain the purpose of the petition and what had happened earlier in the day.

The judge then told his secretary to get the warden on the phone, but the first time she dialed she did not have one digit in the telephone number.

Chessman Dies In Gas Chamber

Loses 12-Year Fight For Life

SAN QUENTIN, Calif. (AP) — Caryl Chessman went to his death in the San Quentin Prison gas chamber today with a smile on his lips.

The condemned sex terrorist who had staved off execution for 12 years died a few moments before a federal judge was preparing to give a 30-minute stay to hear a final appeal from his attorney, and just after the United States and California Supreme courts had rejected appeals.

The potassium cyanide pellets dropped into the acid in the apple-green death chamber at 10:03:45 a.m. Pacific Daylight.

Time — 12:03:45 EST. — and Chessman was pronounced dead at 10:12.

Just as the fatal fumes rose, the 38-year-old Chessman managed a laugh, almost a chuckle.

No one could hear him through the soundproof walls of the hermetically sealed chamber, but he spent his final moments mouthing words directed toward Mrs. Eleanor Black, Los Angeles reporter, who had interviewed him many times.

Chessman, condemned on two counts of kidnaping with bodily harm in Los Angeles lovers' lanes in 1948, took a deep breath as the fumes rose.

Then his head went half-way back and stayed tilted back for several seconds, with the mouth wide open.

His black hair was neatly combed and he wore a white shirt, open at the throat. Drops of saliva trickled from his open mouth.

At 10:09 a.m., a little over 5 minutes after the pellets had dropped, his shoulders quivered slightly.

He had entered the chamber at 10:04 a.m., preceded by one guard and followed by three others.

ALL IS SILENCE The 60 witnesses jammed in front of the thick windows of the death chamber were silent. Hardly a breath stirred.

Associate Warden Walter D. Achuff announced the official time of death.

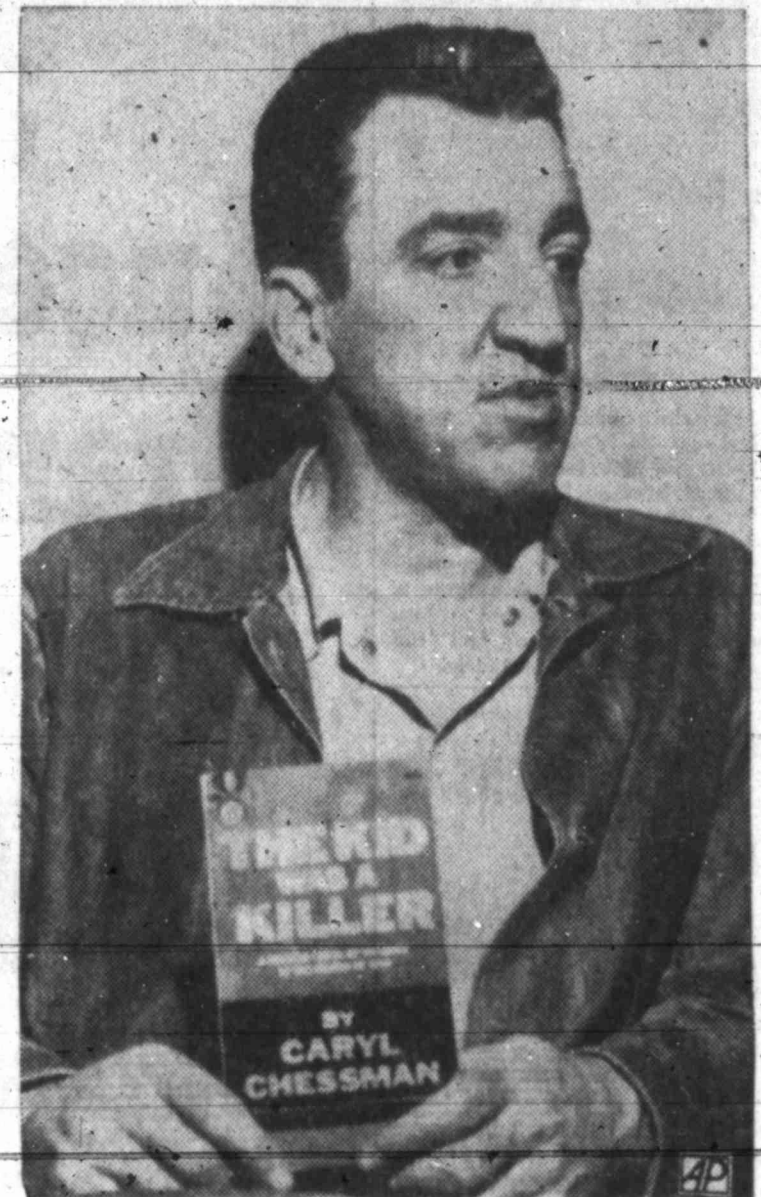

The venetian blind behind which Warden Fred R. Dickson stands a little distance from the chamber was partly open. Usually it is shut during an execution.

Chessman's 12-year court fight to escape the gas chamber ended with a series of three denials—all within 45 minutes of the execution hour—and an intended 30-minute stay of execution that came too late.

The California Supreme Court denied a series of petitions filed Saturday and Sunday after an unprecedented special session in chambers in San Francisco this morning. They met again to deny a new petition for a stay filed 45 minutes before the death row. Denial was at 9:50.

In Washington, Associate Justice William O. Douglas of the U.S. Supreme Court refused to grant a stay only minutes before the death row.

TRIED, FAILED But U.S. Dist. Judge Louis E. Goodman said he tried to grant a 30-minute stay, but the deadly pellets already had been dropped. The petition was filed with Goodman at 9:55 a.m. He said he (See CHESSMAN, Pg. 4-A, Col. 3)

End Of The Trail

Convict-author Caryl Chessman tells at his final news conference at San Quentin prison, that he was prepared to prove his innocence of the crimes for which he was executed this morning. The book the 38-year-old Chessman holds, "The Kid Was a Killer," was written in his cell on death row, where he had been held for 12 years. He had eight reprieves.

Doomed Man's Last Words Denial Of Red Light Crime

SAN QUENTIN, Calif. (AP) — Caryl Chessman's last audible words before his death in the gas chamber today were a denial that he was the red light bandit who terrorized women in Los Angeles lovers' lanes 12 years ago.

The San Quentin Prison warden, Fred R. Dickson, told a news conference immediately after the execution that this was Chessman's final statement to him just before entering the death row.

Chessman, 38, was convicted of forcing two women victims to perform perverted sex acts at gunpoint in January 1948. For this he drew two death sentences on charges of kidnaping for robbery with bodily harm.

He consistently denied these crimes, although conceding that he was an habitual criminal.

Warden Dickson said Chessman gave him seven personal letters and asked that they be mailed. Dickson declined to identify the addressees.

"I have had arguments with you and some of the (prison) staff," Chessman told the warden, "but I hold no bitterness to you or your staff."

The warden sat up with the doomed man until 11:30 Sunday night in the special waiting cell next to the gas chamber. Dickson said they talked about Chessman's last will.

The prison chaplains, Catholic F. Edward Dingbert and Protestant Rev. Byron Eshelman also called on Chessman Sunday night.

The warden said Chessman did not ask for any religious solace nor for any religious funeral services.

Petition Requests Two-Mile Paving

A petition signed by nearly 50 persons was filed with the Howard County Commissioners Court on Monday asking that two-miles of the East Howard Field Road be paved.

Ralph White, in whose district the road is located, said he had it listed on projects to be pushed at the earliest opportunity.

He said the road begins about five miles east of Coahoma on U. S. 80 and extends southward for two miles.

CD Alert Will Halt Activities

Normal activity throughout the city will come to a standstill at noon Tuesday as Big Spring participates in a nationwide air raid alert.

During the 30-minute period between 12:00-12:30 p.m., traffic will be halted, school lunch periods will be delayed and certain offices will be evacuated to outlying areas.

"We hope to help Big Spring residents become self sufficient as a result of this alert period," W. D. Berry, Civil Defense coordinator, said.

The first siren warning will come at 11:30 a.m. Berry explained, which will be the "yellow alert." It is a five minute blast of siren and whistle. Residents should find cover immediately. At 12:00 a.m., the "red

helping motorists find cover. All radio stations and the television station will be off the air, except for the Conelrad station at 1490 kilocycles. Berry said all announcements to residents will be made over this station.

All Federal offices in Big Spring will be evacuated to the National Guard armory near scenic Mountain. State offices will be escorted to the IUOE building near Cosden's refinery. Liquor Control Board agents will escort the evacuating parties.

The schools will be cooperating completely with the test period, according to Floyd Parsons, superintendent of schools. He said all lunch periods, except at College Heights, will be postponed until after the all clear signal is sounded at 12:30 p.m. He explained that College Heights students would have lunch prior to the red alert.

Students will be moved to basements in buildings housing them, he said. Where the school has no basement, protection will be sought in corridors.

In other activity, the National Guardsmen will take up positions around banks, the post office and in the shopping centers.

In what promises to be the most ambitious undertaking, more than 700 children in the Coahoma schools will be evacuated from the school buildings to Moss Creek Lake. Roy Black is heading up this activity, and townspeople will join with school bus operators to transport the children approximately 15 miles to the evacuation point. Ambulances and mobile units will accompany the groups as the move gets under way about 11:25 a.m.

Students, Troops Clash In Istanbul

ISTANBUL, Turkey (AP) — Thousands of youths clashed with Turkish troops in Istanbul today as foreign ministers of the Atlantic Alliance assembled for a last look at the West's strategy for the summit conference.

Shouting "Freedom! Freedom!" the crowd strained against a line of soldiers guarding the broad plaza within sight of the Istanbul City Hall, where members of the NATO Council of Foreign Ministers were gathering for their meeting.

The soldiers pushed the demonstrators back with the butts of their rifles. Suddenly the crowd broke and scattered into several small side streets. Officials and newsmen on hand for the NATO session watched the class from the windows of the City Hall.

There was no shooting, although Premier Adnan Menderes had warned Sunday that more anti-government demonstrations would not be tolerated, and a government announcement said the army had been ordered to fire on demonstrators if necessary to disperse them.

Neither Menderes nor President Celal Bayar were on hand at the opening NATO session to welcome the ministers, presumably because they were busy with the local crisis.

Already under martial law after student demonstrations against Menderes last week, Istanbul was a virtual ghost town Sunday with imposition of a 24-hour May Day curfew. Only NATO conferees and newsmen were free to move about with special passes.

Menderes accused the opposition Republicans' People's party of adopting a "policy of rebellion" out of jealousy for the achievements of his regime.

The 61-year-old premier told the nation in a radio broadcast Sunday night: "Their chances of winning a new election are nil so they embarked on a nefarious policy of inciting some 3,000 to 4,000 students, taken to the streets at a time when a major international conference was about to take place in Istanbul."

Spokesmen for the Republicans, outnumbered more than 3 to 1 in Parliament, denied instigating the demonstrations.

The party, led by former President Ismet Inonu, has been beaten in three national elections since 1950 by Menderes' Democratic party.

Calm was reported throughout the country after last week's demonstrations and riots in Istanbul, Ankara and the NATO port of Izmir.

Menderes, whose strong-arm rule brought the protests, warned he would be just as tough in preventing further outbursts.

"I will put an end to situations in which unrest, riots and street scenes are staged in this country," he declared over the government radio.

The military commander of Istanbul announced he had given orders to all units under his command "to resist most severely against the smallest gatherings and to use arms when necessary."

Can You Bear This?

Motorists in Big Spring had an opportunity this morning to pick up two hitch-hikers, one of them a 720-pound bear. Kelly, the bear, became the partner of R. W. Barnes when he was seven months old. He is now 6 1/2 years old. Barnes bought the bear when its owner died in Dayton, Ohio. They have traveled together ever since. Barnes said the pair would be in Big Spring until they can get a ride east. Meanwhile, the bear climbs in almost every car that stops, to the dismay of a few motorists.

New VA Manager Welcomed

Cliff Fisher, president of the Big Spring Chamber of Commerce, welcomes V. J. Belda, new manager of the Veterans Administration Hospital. Bill Quiby, chamber manager, joins in greeting the new Big Spring citizen, Belda.

who arrived here Sunday, succeeds Dr. Jackson Friedlander, who went to Phoenix, Ariz. Belda's family will remain in San Francisco, Calif. until school is out in June.

See Suit

Marjorie Currie's new white bathing suit seemed perfect until she got into the water—then it became transparent and "you could even see her freckles through it" she said in Miami, Fla. The 26-year-old Washington, D.C., secretary, is suing because the store failed to warn her against the characteristics of the fabric.

Week Opens With Slew Of Primaries

By The Associated Press
A weekend flurry of heavy politicking has ushered in a week crammed with primaries.

Voters in the District of Columbia, Ohio, Indiana, Alabama and Florida will ballot in primaries Tuesday. Texas will have a primary Saturday.

To set the stage, presidential candidates and their supporters roamed various parts of the country, meeting voters, attacking each other, and praising or condemning the Eisenhower administration.

In Chicago Sunday, Vice President Richard M. Nixon said he had no intention of divorcing himself from the record of the administration. But he talked of a new farm program.

"We must break away from what we have," Nixon told a news conference. "Everyone agrees it's wrong."

Nixon was replying to a prediction made at a Democratic rally in Washington Saturday night. There, House Speaker Sam Rayburn of Texas said Nixon would disavow the administration record when he became the Republican nominee.

"But he won't get away with it," Rayburn said.

Another prominent Republican, Gov. Nelson A. Rockefeller of New York, was in Chicago Sunday. Reporters fired questions at him. Would he accept a draft at the Republican convention?

"The possibility is so remote, it is not worth speculating about," Rockefeller said.

Whom would he like to see as the next president?

Rockefeller, who has not endorsed Nixon, grinned and remained silent.

The West Virginia primary attracted attention again as the state Teamsters Union endorsed Sen. Hubert H. Humphrey of Minnesota on the Democratic ballot.

Humphrey, opposed by Sen. John F. Kennedy of Massachusetts in the May 10 primary, said "I am always pleased when I get the help of honest working people."

But Kennedy said, "I'm sure that the people of West Virginia are not going to let Jimmy Hoffa determine who should be the Democratic nominee for president."

Hoffa, a foe of Kennedy, is president of the national Teamsters Union, which says it has not endorsed any one in the primary.

Another Democratic candidate, Sen. Stuart Symington of Missouri, completed a two-day tour of Arizona Sunday night.

Symington, who has not entered any primaries, told a Tucson forum that the administration was overlooking the interrelationship among tariffs, foreign aid and foreign investments.

Skiff Swamps, 5 Youths Drown

PANAMA CITY, Fla. (AP) — Swamping of a skiff drowned five of eight youths aboard a 12-foot craft on a pond.

The victims were Donald Ray Sullivan, 11; James Brown, 20; his brother, Cecil, 16, and their nephews, Ronnie Brown, 8, and Larry Steven Brown, 5, all of the Lynn Haven community.

Relatives on shore swam 100 yards and rescued the other three. They were Larfar Brown, 9, a brother of James and Cecil; Terry Lee Brown, 6, brother of Larry and Ronnie; and Danny Brown, 4, not related to the others.

Light Rains Dot Coast, S. Texas

By The Associated Press
Light rains dotted South Texas and the coastal area Monday while in the western part of the state skies were bright and clear.
Beaumont, Brownsville, Corpus Christi and Austin reported rain at daybreak as cloudy weather prevailed along the coast and in the eastern half of the state.
The forecast called for continued scattered showers in the eastern part of the state with diminishing cloudiness Tuesday.
Early morning temperatures ran from 35 degrees at Lubbock to 61 at Brownsville and Corpus Christi.
Light, widely scattered showers spotted the state Sunday. Temperatures were mild with maximums ranging from 58 degrees at Big Spring and Lubbock to 83 at Presidio.

Service Dropped

WASHINGTON (AP)—The Interstate Commerce Commission authorized the Santa Fe Railway today to drop two daily passenger trains between Kansas City and Houston, effective May 7.

Stamps In The News

By SYD KRONISH
AP Newsfeatures

"The American woman" will be honored on a new 4-cent U. S. stamp to be issued June 8 in the nation's capital. It will be released in conjunction with a conference on national and international topics under the sponsorship of the Women's Bureau, Department of Labor.

Says Postmaster General Arthur E. Summerfield: "This stamp will, through design and purpose, pay great tribute to American women who give so much to the social, economic and spiritual life of our nation as wives and mothers and in the business and professional world."

The main design of the stamp will be a sketch of a mother and a young girl with an open book in front of them. Across the top are the words "The American Woman."

Collectors desiring first day cancellations may send their addressed envelopes together with remittance to cover the cost of the stamps to be affixed to the Postmaster, Washington, D. C., prior to June 8. The outside envelope to the Postmaster should be endorsed "First Day Covers 4-Cent American Woman Stamp."

Ceylon has issued a special stamp to commemorate the institution of Pirivena Universities in Ceylon. The stamp depicts Viduyaya Pirivena and Vidyalankara Pirivena, plus the two founders of the universities inset above each building. University status was conferred on these two institutions Jan. 1, 1959.

The Department of the Army announces that on May 22 a 3-cent blue, red and green stamp will be issued by the Ryukyus Islands. The new stamp will commemorate the 10th anniversary of the University of the Ryukyus. It will bear a basic design featuring the University Badge.

'Perry Mason' TV People Honored

LOS ANGELES (AP)—The producer and the star of the Perry Mason television series were honored Sunday by the National Assn. of Women Lawyers.

Lawton Student Talked Off High Perch On Hotel Roof

LAWTON, Okla. (AP)—A nervous high school student stood atop a ten-story hotel here for three hours and threatened to jump. A Salvation Army officer and a teenage friend talked him out of it early today.
Police said Stephen Fisher, 16, a high school junior, was sighted by a police squad car atop the Lawtonian Hotel Sunday night.
Officers rushed to the top of the hotel while firemen spread life nets at the base of the hotel in hopes of catching Fisher if he jumped.
Fisher ran when police reached the rooftop, said police Sgt. Eugene Gale, and refused to talk

with them except to say he was going to leap.
Beneath his discarded coat officers found a note which read, "I have quit."
Salvation Army Major Luther Smith and several unidentified pastors went to the rooftop in an effort to talk Fisher down.
"He was arguing with the pastors over which is the smartest man—Albert Einstein or Jesus Christ," said policeman Grady Crabtree. "Fisher was saying Einstein was the smartest."
Gale said Smith and Dennis Jones, 18, Fisher's high school buddy, talked with Fisher until he agreed to come down.

MIND YOUR MIND Habituals Are The Neurotics

(Second in a Mental Health series.—Ed.)
Since there is no fine line of demarcation between good and poor mental health, it follows that mental illness rarely appears suddenly. Usually there are early signs which experts can recognize long before the actual breakdown.
The actual breakdown is what we call psychosis, the medical term for serious mental illness. A person suffering from a psychosis lives in an imaginary world of his own. Perhaps he realizes something of what is going on, but mainly he is out of touch with reality.
Most of the time, however, before an individual enters into a psychotic state, or he or she suffers a neurosis, there is a less severe type of mental illness and is the twilight zone between bad mental attitudes and actual psychosis.

failure, and punishment, the neurotic person may choose escape or withdrawal as the way out. He may become uncommonly shy, a lone wolf, unsocial, an excessive day-dreamer, excessive TV-watcher, or an excessive drinker.

ATTACK

Attack: As an alternate to running away, a neurotic person may 'stand and fight' when other reasonable behavior might be better. He thinks people do not like him, when it is really he that does not like himself. He carries a chip on his shoulder, is ready to quarrel, argue or even do battle. Any just criticism toward him is taken as an attack on him. Everyone becomes a target for his hostility.

SYMPTOMS

As mentioned, some of the symptoms are extreme, persistent anxiety about health, family, job, marriage, etc.; depression such as being continually down in the dumps to the point of moodiness, anguish or irritability; compulsion, such as having to say special prayers for routine activities, washing the hands incessantly, returning two or three times to see if you put out the cigarette, or keeping things in a meticulous, set arrangement that must not be altered; phobias such as those of high places, open spaces, closed spaces, against dogs, mice, etc.; amnesia, a device where a painful experience has been "wiped out" of the mind by convenient forgetting.

ANXIETY AND TENSION

Again it is well to repeat that all of us have these feelings some of the time, but with the neurotic person they are more frequent and more tenacious.

SOME SIGNS

The person with a severe inferiority complex may be a neurotic; so may the "angry man" who is criticizing; or the tense jumpy-kicked up person who flies apart under pressure; the chronic worrier; the hypochondriac; the shiftless person who seems to care little about what happens to himself or his family; the helpless person who always needs assistance from others; the greedy, selfish person; the perfectionist. Even crime or juvenile delinquency may stem sometime from neurosis.

Ike Inspection

140,000 Watch Gulf 'Splash Day'

GALVESTON (AP)—An estimated crowd of 140,000 lined the streets Sunday to watch the "Splash Day" parade opening the beaches for the 1960 season.

Leslie Ann Oakley, 17, a junior at Texas City High School, was crowned "Miss Splash Day" from a field of 40 candidates.

Top honors in the parade went to the Gladewater High School band, the Arlington State College drill team and a float entered by the Galveston Water Ski Club.

NATO Endorses Summit Proposals

ISTANBUL, Turkey (AP)—Foreign ministers of the North Atlantic Treaty Organization, meeting within the confines of a city under martial law, today endorsed Western proposals on disarmament to be put to the Soviet Union at the summit.

As the ministers convened, thousands of Turks, most of them university students, clashed with soldiers within sight of the conference building. Istanbul's modernistic City Hall, in a new demonstration against Premier Adnan Menderes' government.

There were apparently only minor casualties. Soldiers used rifle butts to herd the students back and some bared bayonets. The demonstrators were scattered into side streets.

U.S. Secretary of State Christian A. Herter read to the conference a special message from President Eisenhower warning that the Western Big Three meeting with Soviet Premier Nikita Khrushchev, opening in Paris May 16, probably will not produce any quick or spectacular results.

Eisenhower cautioned against hoping for too much. He said the Paris meeting is only one more "in what may prove a long succession of diplomatic exchanges dealing with some of the most difficult problems of our era."

Circus Plans About Ready

Boy Scout circus committee members will hold a wrap-up meeting Tuesday at 7:30 p.m. in the conference room at the Couden refinery, to finish details for the Boy Scout Circus.

Circus officials, event directors, committeemen and all connected with the circus, which will be held Friday and Saturday nights, are requested to be at the meeting. The circus will be held at the old high school stadium on State street, beginning at 7:30 p.m.

About 15 shows will headline the card each evening and scouts are selling tickets for 25 cents each. Tickets are also obtainable at the Roy Bruce service station. Bruce is the chairman of ticket sales.

Carl E. Campbell is chairman of the circus committee and Fred Beckham is chairman of the circus directors.

The boy scout district committee meeting will be held Thursday at 7:30 p.m. at the Couden Country Club.

Milton T. Vest, itinerant ex-convict, who confessed voluntarily to California officers that he killed man in Howard County sometime last January, is a victim of mental disease, according to a report made by Dr. Donald F. Patterson, psychiatrist.

Miller Harris, sheriff, received a copy of Dr. Patterson's official report on Vest. In it, the psychiatrist said that from his interrogation of the man, he is convinced that his story of the killing and of other acts of violence are purely delusional.

Harris said that insofar as his office is concerned the matter has been dropped. He said that his deputies have walked out the entire area where Vest alleged the killing occurred and found no evidence at all of any such episode.

He said he understood the California authorities have released Vest. He had been picked up on a vagrancy complaint at the time he made his "confession."

Ground Broken For Catholic Church

The Rev. Fr. Frances Beazley leads in the groundbreaking ceremony Sunday afternoon to symbolize start of work on a new building project for St. Thomas Catholic Church. The facility will include an eight-classroom parochial school as well as a new sanctuary to accommodate 425 worshippers. Contracts in the amount of \$244,000 have been awarded. The new buildings, replacing the one erected here in 1918, are located on U.S. 87 south of the City Park.

CHESSMAN

(Continued From Page 1)

would have granted the delay to hear arguments on the petition. Word that the petition had been dropped was flashed first from the office of Gov. Edmund G. Brown in Sacramento.

Witnesses agreed that Chessman had lived up to his declaration that he intended to die with dignity.

As Chessman was strapped in the chair, Mrs. Black, a reporter for the Los Angeles Examiner, attracted his attention with hand motions.

Chessman started talking to her. Nothing could be heard but Mrs. Black said she read his lips to say, "tell Rosalie I said good-by."

Whatever else she said she did not decipher, but she said, "he seemed to be trying to buck me up and tell me that everything was all right."

Mrs. Black had covered his case and had interviewed him many times.

Castro Talk Draws Fewer Than Expected

HAVANA (AP)— Fidel Castro celebrated May Day with another blast at the United States, but the widely heralded demonstration in support of his revolution drew a far smaller crowd than expected.

Between 250,000 and 500,000 Cubans assembled in Havana's vast Civic Plaza Sunday. A million and a half had been predicted. The turnout was one of the smallest of the public endorsements of the Castro forces have mustered.

The fiery, bearded prime minister himself was not up to his best form. Hoarse and disheveled, he harangued the audience for 3 1/2 hours, rehashing old charges against the United States.

He now is charging the United States with "aggression against Cuba through Guatemala." Previously Castro has accused the United States of conspiring with the Dominican Republic against Cuba.

This Cat Had 9 Lives

SAN QUENTIN, Calif. (AP)—Caryl Chessman's nine dates with death:

- 1. June 28, 1952, stayed Feb. 29.
- 2. June 27, 1952, stayed June 23.
- 3. May 14, 1954, stayed May 13, 16 hours before execution.
- 4. July 30, 1954, stayed July 29.
- 5. Jan. 14, 1955, stayed Jan. 11.
- 6. July 15, 1955, stayed July 6.
- 7. Oct. 23, 1959, stayed Oct. 21.
- 8. Feb. 19, 1960, sixty-day reprieve by governor 10 hours before execution.
- 9. May 2, 1960.

Officials Discuss Insurance Law

Enactment of legislation to amend the safe driver insurance law was spotlighted at the Texas Traffic Conference held during the weekend at Austin.

City Attorney John Burgess and Corporation Court Judge Grover Cunningham returned to Big Spring Saturday after attending the two-day conference.

Burgess said that conference sessions centered around the newly enacted safe driver insurance laws and how it affects corporations.

Through ticketed driver's efforts to keep his records clean, a great number of traffic cases are appealed and the driver eventually found not guilty. This true in nearly 50 per cent of the cases at present, Burgess said.

In Houston, a backlog of traffic cases numbers around 100,000 and is increasing rapidly despite the fact that five courts are kept in action through the week.

That some amendment to the state law is needed, was the general consensus of the traffic conference, Burgess said. Action must start in the county with representatives taking it to the state government.

Burgess said the conference was well attended. Judges from the criminal Court of Appeals acted as moderators.

Local Delegates Attend Meeting

Delegates from the Big Spring congregation of Jehovah's Witnesses have returned home from attending the semi-annual three-day training program which ended Sunday in Monahan.

"Finding Peace in This Troubled World" was the title of the feature Bible discourse delivered by district supervisor, R. L. Anderson. Jack O'Shields, presiding minister of the local congregation, said that 767 heard Anderson state, "Since Adam broke the peace with God, sinful man has tried to regain that lost treasure of peace by every human means. Peace can only come to those who do God's will and not to the wicked." He said then Isaiah's prophecy will come true: "Of the increase of His government and peace there shall be no end." (Isa. 9:7)

Candidate Rally At Flower Grove

There will be a candidate rally at Flower Grove School at 8 p.m. Tuesday.

All county, district and state office candidates in the area are invited to attend the affair, under the sponsorship of the Senior Class. There will be a pie supper in connection with the rally.

Shell Finals Deep Project; Hammond Finds Queen Pay

Shell Oil Company has a completion in the Teas 8100 Pennsylvania field in southwest Garza County.

It is the No. 7-C Slaughter. Initial flowing potential in 215 barrels of oil per day through a 12-64 inch choke. Hole is bottomed at 170 feet.

Couden No. 1-B Featherstone-Federal in Roosevelt County, N. M., is plugged back to 6,600 feet and operator is preparing to take a "drillstem test" between 6,555-6,605 feet after running logs. Bottom is at 9,880 feet.

The re-entry is the No. 1-A-43 Koonsman. The original project was No. 1-43 Koonsman and was junked at an unreported depth. It is eight miles southwest of Justiceburg.

Duncan Drilling Company of Big Spring No. 1-A Frusser has been finished as a gas well in the Anderson (multiphase) field in Runnels County.

A re-entry project, it completed for a calculated, absolute open flow potential of 5,900 cubic feet of gas per day, from open hole section at 4,388-4,390 feet.

Originally drilled by J. B. Stodard as No. 1 George Krasser, Jr., the well is 1,530 feet from north and 467 feet from east lines of section 65, CTRR survey.

Couden No. 1-B Baggett in Crockett County is making hole in lime and shale below 6,751 feet.

Hammond No. 1 Scott in Martin County recovered 4,375 feet of Queen oil with 1,000 feet of water blanket on a drillstem test between 11,978-12,010 feet. Test was open four hours with a weak blow throughout. Operator is waiting on orders.

General American Oil Company has started a new operation at an 8,300 foot wildcat in southwest Garza County.

The re-entry is the No. 1-A-43 Koonsman. The original project was No. 1-43 Koonsman and was junked at an unreported depth. It is eight miles southwest of Justiceburg.

Sheriff Closes 'Murder' Case

Milton T. Vest, itinerant ex-convict, who confessed voluntarily to California officers that he killed man in Howard County sometime last January, is a victim of mental disease, according to a report made by Dr. Donald F. Patterson, psychiatrist.

Miller Harris, sheriff, received a copy of Dr. Patterson's official report on Vest. In it, the psychiatrist said that from his interrogation of the man, he is convinced that his story of the killing and of other acts of violence are purely delusional.

Harris said that insofar as his office is concerned the matter has been dropped. He said that his deputies have walked out the entire area where Vest alleged the killing occurred and found no evidence at all of any such episode.

He said he understood the California authorities have released Vest. He had been picked up on a vagrancy complaint at the time he made his "confession."

Injured Boy In Good Condition

COLORADO CITY — Cleve Moore, 14-year-old Colorado City youngster, hospitalized Saturday as the result of an automobile accident, was reported in good condition by his physician this morning.

Moore has some broken facial bones, is severely bruised all over and may have some broken ribs, his doctor said.

Moore was trapped under a car for about 45 minutes. The car, driven by David Lewis, 15, overturned about three miles west of Colorado City, according to State Highway Patrolman E. M. Rogers. Car jacks and a wrecker were used to free the youth, who was pinned in the wreck by the crushed top.

Moore is the son of Mr. and Mrs. Sherman Moore. Lewis, who was uninjured, is the son of Mr. and Mrs. Henry Lewis, of Colorado City.

The accident occurred about 12:20 p.m. on a dirt road leading from Lake Colorado City to Interstate 20.

Webb Planes Sent To Virginia For Special Use

Three T-33 aircraft left Webb AFB this weekend for Langley AFB, Va., as part of Air Training Command's Joint Civilian Orientation Conference. The conference is an extension of the Air Safety and Air Traffic Orientation rides given to local civic leaders.

The Webb aircraft were assembled at the Virginia base with 25 other T-33s from other ATC bases. The message requesting Webb's assistance asked for highly qualified instructor pilots and experienced maintenance technicians to accompany each aircraft.

Captains William L. Fornes, Roland G. Bradley and Sidney L. Davis and 1st Lt. Robert E. Magnuson, an alternate, were the men chosen for the task of flying the aircraft. The technicians chosen were S.Sgt. William M. Baldwin, S.Sgt. R. Carson Jr., and A.I.C. William C. Burgess, with A.I.C. William M. Hall, alternate.

The alternate aircraft flew approximately half the distance to Virginia and waited to serve if needed.

The program was originally designed to acquaint the public, through their leaders, with the problems of crowded air space and what the Air Force does to make flying safe for everybody.

Air Conditioning Clinic Scheduled

LUBBOCK — How to plan new homes with more built-in "climate control" will be emphasized at the Texas Tech Residential Air Conditioning Conference in Lubbock Municipal Auditorium Thursday.

Sponsored by Tech's School of Home Economics, the conference is designed for architects, realtors, contractors and home demonstration agents, said Miss Billie Wolfe, assistant professor of home management and conference director.

Topics up for discussion at the day-long meeting range from electric and gas air conditioning to humidifying home equipment and landscaping to aid in cooling homes.

Registration will begin at 8:15 a.m. Thursday and the first session will begin at 8:45 a.m. The registration fee is \$1.

Wreck Victims Make Progress

Two men injured in an auto mishap Saturday were making satisfactory progress this morning, according to Veterans Administration Hospital attendants.

Torothy Royce-Davidson, 26, and Glenn Henry Koonce, 32, both of Snyder, were thrown from their vehicle and suffered severe lacerations and bruises, hospital officials said. The pair is still undergoing examination, however, for possible other injuries.

The accident occurred when a rear tire blew out as Davidson was rounding the curve one mile north of the city on SH-350.

Police Check Two Accidents

Police held two minor traffic accidents to check Sunday.

John Amio, Sorrels, Webb AFB, was involved in a collision in the 2300 block of West Highway 90 with H. L. McKendree, 1807 E. Third St.

Roger Miller, 1706 Settles, and Mille Laso Smithick, San Angelo, collided in the 1300 block on Gregg Street.

Judge Sends 4 To County Jail

Mrs. Billie Brown, charged with writing a worthless check, pleaded guilty before County Judge Ed Carpenter, in County Court, Monday. She was sentenced to serve 15 days in the county jail and pay the court costs.

Fred Lopez, who confessed to stealing a \$2.50 blouse from a city store, drew a 30 day jail term. A like sentence was meted out to Earl Frazier, charged with writing a worthless check.

Daniel Simpson, charged with DWI, was fined \$75 and ordered to serve three days in jail.

Mrs. Seward Receives \$100 Incentive Award At Webb

Mrs. Dannie L. Seward, a civil service employe at Webb, received a \$100 incentive award Friday for maintaining a "sustained superior performance rating" during the period April, 1959, to February, 1960. She lives at 1400 Virginia.

Assigned to the Wing Accounting and Finance Office as a pay clerk, Mrs. Seward gave evidence of superior accomplishment when the base earned successive top ratings from the AF Accounting and Finance Center in Denver, Colo., last year. She shared credit within the section as two "superior" audits evoked favorable comments from the offices of the ATC commander and the Wing commanding officer.

In her job as military pay clerk, Mrs. Seward maintains more than 1,000 pay records (450 is considered an average workload in the Air Force), and encounters problems that are unique, Capt. C. E. Wiswall, Accounting and Finance Officer, said. She is also credited with taking over added responsibilities at times, such as training newly assigned personnel.

Mrs. Seward has nine years civil service experience, six of which have been spent at this base. Her husband, Delton, is also in civil service. He is assigned to headquarters, Maintenance & Supply Group.

\$100 Worth Of Incentive

Mrs. Dannie L. Seward, Webb AFB civilian employe, received an award from T. Sgt. Robert G. Johnson, chief of the military pay section. The check was \$100 for maintaining a superior performance rating.

Escapes

Cheryl Crane, 16-year-old daughter of actress Lana Turner, escaped from a county-operated home at Sylmar, Calif., where she had been confined since last March. Authorities said Cheryl and two other inmates scaled a 10-foot chain-link fence and disappeared.

Negro College Cracks Down On Protesters

A predominantly Negro college cracked down on student demonstrations at the start of the fourth month of sit-downs aimed primarily at segregated seating facilities in Southern eating places. Kentucky State College at Frankfort Sunday dismissed two teachers and expelled 12 students, all Negroes, for fomenting student opposition to school regulations. Dr. R. B. Atwood, college president, said investigation convinced him the teachers furnished leadership for the boycotting of the campus snack bar and cafeteria last week and that the students participated.

But Asst. Prof. Arthur Norman, 31, of Philadelphia, said he, the other teachers and the 12 students had taken no part in the demonstrations. He said all are members of the local chapter of the Congress-of-Racial-Equality, an organization that has staged numerous sit-ins. At Durham, N.C., a white man and two teen-age Negroes face trial on assault and battery charges in connection with a racial free-for-all at a drug store lunch counter Saturday involving about 20 persons. Willie Burt, 17, a Negro, suffered a brain concussion before police broke up the melee. His condition was reported satisfactory at a hospital. Jackie Robinson, pioneer Negro player in major league baseball, said at Raleigh, N.C., that Negroes were shying away from the presidential bid of Sen. John F. Kennedy (D-Mass).

Robinson told newsmen the Massachusetts senator would have to "repudiate confidence in Gov. John Patterson of Alabama" to appeal to Negro voters. He expected H. Humphrey (D-Minn) among presidential hopefuls. The former ballplayer, now an executive of a New York restaurant chain, criticized President Eisenhower's record on civil rights, saying "the President is more interested in golf than he is in civil rights." At Louisville, Ky., the Rev. James M. Lawson of Nashville, Tenn., told a state NAACP conference Negroes are seeking to raise a moral issue and speed the change toward a better social system by lunch counter sit-ins. "At some point, American has got to stop running and face its responsibility," he said. Lawson was expelled from the Vanderbilt University Divinity School for his part in Nashville demonstrations.

Violent Death Takes 19 Texans

The weekend violent death toll in Texas reached 19 with traffic taking 7 lives. Drownings, fires, shootings and stabbings caused most of the other deaths. H. C. Hankle, 36, brother-in-law of Lieut. Gov. Ben Ramsey, died in a two-car head-on collision Sunday night, 7 miles east of San Augustine. The driver of the other car was injured. Robert Gardner, 38, publisher of the Merkel Mail, was killed Sunday when his station wagon overturned on a curve 12 miles east of Anson, northwest of Abilene.

Seeks Checkup

NAIROBI, Kenya (AP) — Dr. Thomas Dooley, the cancer-stricken American physician who organizes hospitals in underdeveloped nations, left today for the United States and another medical checkup.

Leaves On Visit

MEXICO CITY (AP) — President Adolfo Lopez Mateos left today for a visit to the Territory of Lower California.

Good Carpet Right In Your Home

Bill Jay, who owns and operates the Carpet Store here, is not only equipped to put good carpet in your home, he can let you see how it will be before it is ever laid. By a system of large portable samples, which he can put against your wall and woodwork color schemes, of compare them with your drapes, Jay can help you make a choice that will be an increasingly happy one. Because the store concentrates on one business—that of top quality carpet at attractive prices—the carpet store can offer a great range in colors, patterns and types.

New Product Works Like Magic In Carpet Cleaning

Many, many years ago the and the patience of long research removed, there is no residue of grime and dirt from winter, snows and springtime rains lay dormant in Grandma's rugs and carpets until early summer when some of it was removed in clouds of dust by the old fashioned method of carpet beating. Like so many other wonderful things that science has developed to make housework more pleasant and easy, the magic of chemistry has made available to the busy housewife the modern means of carpet care in the new product Blue Lustre. Blue Lustre, a very gentle and odorless concentrate, was designed for the fine home-cleaning of carpets and upholstery which produces professional results at great savings. This concentrate is mixed with water then agitated or stirred to create a billowy foam. This Blue Lustre foam is easily applied with a long handled brush and a back and forth brushing into the carpet brings out forgotten colors like sunshine through the clouds. Again the rug or carpet has that sparkling new look that reveals its true beauty. Blue Lustre concentrate can also be used in any type of rug shampoo applicator. The quality and excellence of Blue Lustre has convinced more and more housewives of this city that it is the superior shampoo for their fine carpeting and upholstery. Blue Lustre foam penetrates instantly to the carpet soil and its unique action holds the dirt particles in suspension for easy removal by vacuuming. Since all carpet soil and cleaning agent is removed, there is no residue of any kind left in the carpet to cause rapid resoiling—consequently, rugs and carpets stay cleaner longer. Blue Lustre is so handy to keep around the house, odorless, non-flammable, its economical, too—one half gallon will clean three 9x12 rugs—it's also available in quarts and gallons. For fine cleaning of good carpets, use Blue Lustre. It is available at Big Spring Hardware.

How About Your Cooler?

It's not really summer yet but don't be fooled by the cool nights and chilly mornings. One of these days in the very near future, you'll discover that Old Man Sun has taken over with a vengeance. And if you are like a lot of folk, you will have forgotten that an evaporative cooler, to perform at its peak of efficiency, should be overhauled and put in good shape ahead of each season. Ward's, 221 W. 3rd, is headquarters for evaporative coolers of all sizes and to fit all needs. Right at the present time, Ward's is featuring a special spring servicing plan for coolers. For only \$3.95, Ward's will clean your air conditioner, check the pump and motor; oil all moving parts, look the belt over and make certain it is in good repair and replace the pads. The only additional cost is for the parts which may be needed. Why not pick up the phone now and call 4-6261? Tell the person who answers where you live and get your air conditioner in shape to keep you really comfortable this summer. You'll be happy that you did come a few more weeks.

It's Moving

Things are really moving at Wooten Transfers, and no wonder, for Harvey P. Wooten specializes in moving all types of goods, particularly household furnishings. He is equipped to handle packing and crating, and with his Lyon Van association, transfers are made quickly to any part of the nation or world. Wooten also provides warehouse and storage service.

Mothball Those Heating Systems

It's getting late and the rush is beginning to hit for folks who want to properly fix their heaters and heating systems for the inactivity of the summer months. Fiveash plumbing Company at 821 E. 3rd, advises for quick, convenient service to the heating systems; Big Springers should not delay in getting such matters attended.

At the same time one might be prudent in getting the air-conditioning systems going for it looks as if the warm weather is here to stay. The best part of having air-conditioning is the comfort it gives during the first few hot spells. If the coolers are not soon adapted, their biggest affect is lost.

Fiveash boasts capable installers and servicemen who can conveniently and economically ready your appliances for the coming season. Fiveash also carries a complete stock of glass-lined water heaters with a ten-year guarantee. And E. A. Fiveash says that he is giving liberal trade-ins for good used water heaters. And for those of you who are

HEY, MOM! I'M HOME!
(and heaven help the water heater!)

DEAR ABBY

IT'S THE THOUGHT

By Abigail Van Buren

DEAR ABBY: I am tired of hearing mothers complain about how "commercialized" Mother's Day has become. Some mothers are so ungracious as to tell their children, "Don't give me any presents—I don't need anything!" If mothers used their heads, they would realize that their children WANT to honor them with a special gift on this day. Please say something to those thoughtless mothers who discourage their children from buying them a gift on Mother's Day.

LIKES PRESENTS DEAR LIKES: When a mother says "I don't need" any presents, she does not mean to be "ungracious." She doesn't want her child to deprive himself of anything to buy her a gift.

An original poem or letter costs nothing and is cherished most. When I was a child, I heard these words from my own dear mother. I wrote her little poems and "essays" on Mother's Day telling her how much I appreciated her. Only after she passed away did I realize how much they had meant to her. She had kept them all.

DEAR ABBY: I am 10 and I can't figure this out. How come there is a Mother's Day and everybody buys gifts and makes a big fuss over mothers and the same thing happens to fathers on Father's Day, but there isn't any Children's Day? WONDERING

DEAR WONDERING: Children's Day is the longest celebration of the year. It begins January 1st and ends December 31st.

This was written on Mother's Day in tribute to his Mother by a young prisoner who was awaiting execution in San Quentin prison:

"A crime was committed and there was an arrest, and a boy was thrown into a cell. The crime was great, the boy was young and the cell was dark. Life seemed at an end and hell became a living thing.

"Then one day as the boy sat weeping in his cell, he looked up to see his mother. She was smiling. She opened her arms and said, 'My boy, did you think I would not come to you? And suddenly the boy forgot his terror and found comfort in the 'magic' circle of his mother's arms.

"Through the dark that shrouded

ed the hill of Calvary, a voice cried, 'Son, behold thy mother.' And Mary kneeled at the foot of the cross. That was a cross of glory, but had it been one of shame, Mary would have been there.

"For every son who crucifies himself on pillars of hate, weakness and greed, there at the foot of the cross you will find his mother, a Your mother and mine. God bless them, here and beyond. They have known so much pain."

"What's your problem?" Write to Abby in care of The Big Spring Herald. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's pamphlet, "What Teen-agers Want to Know," send 25 cents and a large self-addressed, stamped envelope in care of The Herald.

Rocket Solid Fuel Controlled

MCGREGOR, Tex. (AP)—Rocket engineers claim to have developed a method to control the amount of thrust delivered by a solid propellant rocket motor.

The development was announced Sunday by Rocketdyne, a division of North American Inc. of Van Nuys, Calif., which tests solid fuels here.

Previously solid fuel rockets worked like July 4 skyrockets, burning at a constant rate until their propellant is exhausted. Rocketdyne scientists worked out a nozzle which proved capable of varying the thrust of a solid fuel rocket up to 70 per cent.

T. E. Myers, vice president of Rocketdyne's solid propulsion operations, said "the variable-area nozzle...should have specific applications in battlefield missiles, sled boosters, aerial target drones and air-to-ground missiles."

He said the rocket nozzle employs a mechanical device for increasing or decreasing the nozzle throat area "on demand," thereby varying the thrust of the rocket motor.

Wilson, Carr In Loan Shark Battle

By RAYMOND HOLBROOK Associated Press Writer

Atty. Gen. Will Wilson and his opponent, Waggoner Carr, argued sharply over the effectiveness of an anti-loan shark program Sunday while the Democratic state chairman was warning the Republicans to attend their own precinct conventions.

The Wilson-Carr debate over a San Antonio radio town meeting was the only major encounter Sunday but candidates in all the major races were scheduled to resume full-scale campaigning Monday.

With only five campaigning days left until Saturday's Democratic primaries, all aspirants have mapped busy schedules that will take them over much of Texas.

Carr campaigned in Dallas Monday while Wilson had morning campaigning in Waco, a luncheon address at Austin and afternoon handshaking in Corpus Christi and Harlingen.

Gov. Price Daniel has set a televised news conference over 21 TV stations at 6:30 p.m. Monday and is slated for a speech in Austin later in the evening. He was meeting with San Antonio campaigners during the day.

His opponent, Jack Cox, had Kingsville, Alice, Beeville, Kenedy and San Antonio on his schedule Monday.

State Democratic Chairman J. E. Connally warned Texas Republicans that Saturday's primary is open to Democrats only and that poll tax receipts of those participating will be stamped "Democrat."

Republicans who take part in Republican precinct conventions May 7, will have their poll tax or exemption certificate stamped "Republican."

The State Democratic Executive Committee has had many inquiries from people who want to vote in the Democratic Party's primary on May 7, and then take part in Republican conventions, Connally said. "This can't be done under our new laws. A person affiliates himself as either a Democrat or a Republican on May 7. He can't be both."

Wilson, speaking first over the Sunday radio program, said when he took office there were about 1,500 persons and firms charging more than 10 per cent interest authorized by the Constitution.

He said the number "has" been cut to about 800, with lawsuits pending against 300 to 44 of those.

He promised the campaign will continue. Carr said he "cannot understand" why his opponent has been unable to put the other 800 loan sharks out of business in four years. He did not mention Wilson by name.

Carr said if he is elected, "I will not have anything to do with the dismissal of land fraud cases." He showed the audience what he said was a photostatic copy of an order dismissing a case growing out of alleged fraud in the state's veterans land program.

Carr said the district attorney who sent him the copy told him the case was dismissed because local authorities were unable to secure cooperation of the attorney general's office. Carr did not name the district attorney.

When asked why he did not take action in the Amarillo area against alleged gambling and other vice outlined by a House Investigating Committee Wilson said the situation "could be, should be and is being handled by local law enforcement officers."

Nehru Scores S. African Policies

LONDON (AP)—Prime Minister Nehru of India today said South Africa's racial segregation policies represent a threat to world peace.

Nehru, in London to attend a conference of Commonwealth prime ministers, told newsmen he felt the racial segregation program of South Africa's ruling Nationalist party is in conflict with the United Nations Charter as well as "the normal civilized conception of human conduct."

Wilson, speaking first over the Sunday radio program, said when he took office there were about 1,500 persons and firms charging more than 10 per cent interest authorized by the Constitution.

He said the number "has" been cut to about 800, with lawsuits pending against 300 to 44 of those.

Farr, Growing Up In Area, Never Dreamed Of Stardom

"Why, when I was a kid, I used to go see Tom Mix, Buck Rogers and cowboys like that, never dreaming that someday I'd be a motion picture cowboy myself."

KARL FARR POSES AT FESTIVAL. One of the original Sons of Pioneers

That's how Karl Farr, guitarist and original member of the Sons of the Pioneers, explains his early childhood in West Texas. Farr spent most of his early life around Lamesa and Big Spring, but he went to school in San Angelo, Breckenridge and San Antonio.

When Farr was just a youngster at 13, he played drums in Chet Miller's Band in Big Spring. "I could play the banjo and guitar too," admits Farr, "but no one else was available to play drums, so I rarely picked up the guitar."

musicians ever to appear in Carnegie Hall. The present members of the group have been together for seven years. Besides Farr, Brady and Perryman, the Pioneers also include Tommy Doss and Dale Warren.

Young Killer Goes On Trial For His Life

WEST PALM BEACH, Fla. (AP)—Dennis Whitney, 17-year-old Californian—whose frontier-pistol snuffed out seven lives in a casual coast-to-coast robbery spree, began a court battle today to save himself from death in Florida's electric chair.

The red-haired youth went on trial on a first-degree murder charge in the killing of Virginia Selby, 62, a Hialeah, Fla., grandmother whose body was found March 4 in bushes near Jupiter, 80 miles north of Miami.

Whitney confessed he shot Mrs. Selby with a long-barreled .22 caliber pistol when she hit him in the face with a hammer after he had commandeered her car in Miami. He admitted he also killed three men in Arizona, two in

Florida and one in California. The hope of an insanity plea for Whitney was squashed Sunday night by a psychiatrist's report that the sullen teen-ager was sane when he killed Mrs. Selby, and is sane now.

State Atty. Phil O'Connell will demand the death penalty. Charles A. Nugent, court-appointed defender of Whitney, said he hoped to prove that the slaying of Mrs. Selby was a case of second or third-degree murder.

If Whitney gets any sentence but death, Dade County (Miami) authorities want to try him for the killing of two service station attendants.

A dragnet was tightening around Whitney for the Miami killings when he stalked into a department store parking lot and climbed into Mrs. Selby's car the night of March 3. One of three service station attendants he admitted shooting had survived to describe Whitney to police.

An artist's conception of Whitney had been printed in a Miami newspaper and it was such a close likeness the jittery youth knew he had to get out of there, he said.

He hadn't minded much about shooting the others, he told police, in his robberies, which netted a

total of \$500, he said he killed for no particular reason. But he didn't want to shoot Mrs. Selby, he said. He ordered her to get out of the car. Stubbornly, she refused and rode with him to her death on a lonely road.

A posse tracked Whitney across marshy land from Mrs. Selby's body and cornered him on a canal bank where he surrendered.

8 Die In Traffic

MEXICO CITY (AP)—An unprecedented number of auto accidents killed eight persons over the week-end.

Dies In Crash

TEXICO, N.M. (AP)—Raymond Patterson, 25, of Friona, Tex., died Sunday when his car hit a tree.

CLYDE E. THOMAS, Attorney At-Law, Phone AM 4-4621, AM 4-4622, First Nat'l Bank Building, Big Spring, Texas

School Bus Bill Okayed

ALBANY, N.Y. (AP)—The controversial school-bus bill, increasing the distance that New York public schools must transport pupils of both public and private schools, was law today.

But cities will be exempted from its provisions. This will represent a major change in the legislation.

isolation, subject of strong religious pressures. Gov. Nelson A. Rockefeller said he signed the legislation with the understanding it would be amended to exclude cities before it took effect Sept. 1, 1961. The law will apply essentially to districts that now provide transportation. These must offer it equally to public and private schools. Most of the latter are Roman Catholic parochial schools. The districts will be required to transport pupils up to 10 miles each way. The present maximum is 3 miles.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N.Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made

astounding statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your druggist. Money back guarantee. Reg. U. S. Pat. Off.

Anti-U.S. Blasts Are Heard Around World On May Day

By The Associated Press The United States was blasted in both hemispheres as millions of workers celebrated and Communists paraded their armed might on May Day.

Cuba's Prime Minister Fidel Castro proclaimed "our country or death" in an angry 3 1/2 hour harangue to between 250,000 and 500,000 shouting cubans who turned a May Day rally into an anti-United States demonstration. The crowd was far below the 1 1/2 million the Castro regime had hoped to bring out.

Tokyo demonstrators hanged President Eisenhower and Prime Minister Nobusuke Kishi in effigy and blanketed the capital with placards denouncing ratification of the new U.S.-Japan security treaty.

On both sides of the Iron Curtain, parades, rallies and speeches marked the worker's holiday established 61 years ago by the International Socialist Congress. The United States celebrates on the first Monday in September.

Marching troops, guns and rockets were the center attraction in a parade in Moscow, where Premier Nikita Khrushchev and other Soviet leaders reviewed the mammoth parade. Thousands of Muscovites applauded the display, but it contained none of the terrifying new weapons Khrushchev talked about in a speech to the Supreme Soviet last January.

Communist East Germany's 110,000-man army marched through East Berlin in a parade branded by the Western Big three as "a threat to public order." Communist chief Walter Ulbricht and other East German leaders looked on in front of a huge sign proclaiming "West Berlin will be a free demilitarized city."

Across the city line, Mayor Willy Brandt of West Berlin defied the Soviet threat to the city in a speech before 700,000 cheer-

ing followers and called on the Western Allies to remain until Germany is reunited.

CHINESE FETE About three million Chinese jammed Peking for a giant May Day carnival that Radio Peking hailed as the liveliest in the city's history.

More than 400,000 Hungarians marched through Budapest in a parade featuring red flags, white doves and enormous balloons. Some 100,000 Polish workers in Warsaw heard Communist party leader Wladyslaw Gomulka promise that living standards would be raised.

Czechs staged a five-hour parade in Prague. President Antonin Novotny broadcast a pledge that Czechoslovakia would continue to fight alongside the Soviet Union against West German "militarism and policy of revenge."

Pope John XXIII broadcast from the Vatican a sharp rebuke of atheistic communism and called on workers to emulate St. Joseph, the carpenter of Nazareth. The pontiff did not mention communism by name, but he spoke of "mistaken ideologies that on one hand exalt uncurbed liberties and on the other suppression of personality."

Norwegian workers paraded in Oslo and protested against South Africa's racial policies and called for a reprieve from the gas chamber for California kidnaper-rapist Cary Chessman.

On Malta about 25,000 supporters of ex-premier Dom Mintoff, labor leader, marched through Valetta denouncing the British. About 100,000 Venezuelan labor unionists marched through Caracas. Communist groups cheered the Cuban revolution and denounced the United States. Thousands of British trade chesster, Birmingham and other industrial cities.

POWERFUL NEW PLUNGER CLEARS CLOGGED TOILETS in a jiffy!

NEVER AGAIN that sick feeling when your toilet overflows

TOILAFLEX Toilet ALL-ANGLE Plunger

Ordinary plungers don't seat properly, forcing air and water to splash back. Thus you have a mess and you lose the very pressure needed to clear the clogging mass.

With "Toilaflex", designed for toilets, no air or water can escape. The patented, tapered tail fits an air-tight fit; the full pressure plows through the obstruction and swishes it down. Can't miss!

- DOUBLE-SIZE CUP, DOUBLE-PRESSURE
DESIGNED TO FLEX AT ANY ANGLE
CENTERS ITSELF, CAN'T SKID AROUND

\$2.65 fully guaranteed AT MOST HARDWARE STORES

Weather Slows Antique Cars

Bad weather slowed down the plans of the members of the Antique Automobile Club of America. Its scheduled gathering here Sunday was an hour later than planned. Attendance, too, was diminished. However, local members were well pleased, they said, with the success of the event.

Dr. William Kelly of Midland, who made the trip in his 1928 Buick, had carburetor trouble. As a result, the bulk of the veteran cars were delayed on their trip to Big Spring. The Buick didn't make the trip back nor did two Model T's with no tops. They were left in storage here—the Buick to have its ailments cured and the Model T's until fair skies return.

Next meeting will be in Midland, June 5. Big event of the season will be the trip to Nacogdoches scheduled for the middle of June.

Advertisement for Blue Cross and Blue Shield. Features the headline "TODAY'S BEST BUY IN HEALTH EXPENSE PROTECTION!" and "BLUE CROSS AND BLUE SHIELD". It includes several "PROOF!" callouts and a large illustration of a nurse attending to a patient in a hospital bed. The ad lists various benefits such as unique hospital care, easy admission, broad surgical-medical benefits, top value per dollar, and nationwide dependability. It concludes with a coupon to request a free booklet "BUYER'S GUIDE TO HEALTH CARE PROTECTION".

MRS. OLIN LEON RANDOLPH

Randolph-Gebert Vows Are Exchanged Sunday

In a mid-afternoon wedding ceremony Sunday, Cynthia Ann Gebert became the bride of Olin Leon Randolph in St. Mary's Episcopal Church.

Parents of the couple are Mr. and Mrs. F. O. Gebert, 1601 Sycamore, and Mr. and Mrs. O. W. Randolph of Odessa.

As the pair knelt on white satin pillows, the Rev. Donald Hungerford, rector of the church, read the double ring vows. Altar vases held white stock, while branched candelabra supported devotion lights and sunbursts of white carnations and emerald foliage completed the setting.

A prelude of nuptial music, played by Elsie Willis, organist, included "Jesu, Joy of Man's Desiring," "Jesus, Priceless Treasure," "Be Thou Near," "Devotion" and "Benediction Nuptiale."

Miss Willis accompanied Mrs. Les Bouvais as she sang "The Lord's Prayer," and then played the traditional wedding marches.

White Chantilly lace and organza were used in the gown of the bride, who was given in marriage by her father. A lace jacket with long pointed sleeves covered the fitted bodice, which joined a ballerina-length skirt fashioned in tiers of pleated organza at the back.

The veil of tulle, held by a small crown of seed pearls, was edged with embroidery and floated to half the length of the skirt. On a white prayer book, the bride carried a white cattleya orchid accented with pink sweetheart roses and white carnations; showered with fantasy and picnic streamers, the grouping was tied with rings of seed pearls.

ANTIQUE BROOCH
In bridal tradition, something old was a 100-year-old brooch, which is the property of Mrs. A. M. Ripps, 1509 Main; pearls worn by the bride for something new, were a gift from the bridegroom. The wedding gown had been borrowed from Mrs. Jim Marcus, and a blue garter completed the completed ensemble.

Mrs. Jimmie Hayworth attended her sister as matron of honor; Dorothy Arnold was maid of honor; Vicki and Becky Gebert attended their sister as bridesmaids. All attendants carried wicker baskets of spring flowers tied with

ribbons in rainbow hues. Dressed identically, they were attired in white embroidered taffetas with white satin belts; headresses were of white tulle topped with white blossoms.

B. J. Reynolds served as best man, while ushers were Jimmy Hayworth, Jimmy Tucker, and Don Judd.

Tapers were lighted by Gary Gebert, a brother of the bride, and another brother, Kurt Gebert, carried the rings.

At the reception, which was held in the parish house, the couple, with their parents and the

feminine attendants greeted guests, who were registered by Mrs. Marcus.

Flounced organza covered the table, which was scattered with white bows and wedding bells. The baskets of flowers, which had been carried by Mrs. Hayworth and Miss Arnold, were interlocked to form the centerpiece for the table. A white three-tiered cake was topped with wedding bells of white.

Mrs. Don Yates and Mrs. Dee Arnold served punch; the cake was served by Helen Smith. Assisting in the house party were Mr. and Mrs. Charles Sweeney, Mrs. Lucille Burke and Mr. and Mrs. B. B. Johnson.

GUESTS
Coming from out of town were Jack Cather of Oklahoma City, Okla.; Mr. and Mrs. H. W. Randolph of Pampa; Mr. and Mrs. E. B. Upton of Kermit.

When the newlyweds left for a trip to Dallas, the bride was wearing a blue and white striped frock with blue cummerbund; her slippers, hat and gloves were white, and she used the orchid from her bridal bouquet as a corsage.

Upon their return to Big Spring, the Randolphs will make a home at 1500-B Sycamore; both are employees of Corden Petroleum Corporation.

The bride is a graduate of Albuquerque, N. M., High School and attended Howard County Junior College and a business college.

A graduate of Texas Tech, the bridegroom is a member of the American Institute of Chemical Engineers and the Texas Society of Professional Engineers.

Saturday evening a barbecue was held on the patio at the Gebert home preceding the rehearsal for the wedding. Members of the families and the bridal party were guests.

Installation By Mrs. McDonald

Mrs. Chesley McDonald, president of the 16th District of Parent-Teacher Associations will be the installing officer for the unit's new official group at the meeting of the Park Hill P-TA Tuesday evening at 7:30 according to an announcement made by the president, Mrs. Akin Simpson.

Program for the evening will be brought by the first grade students of Mrs. Rogers Herley.

Bright Omelet

Add strips of onion, green pepper and ham to a plain omelet and you have the filling for a western sandwich. Brown the vegetables and meat slightly before adding to the eggs. Serve the sandwich with chili sauce or catchup.

Coffee Is Event For Hyperions

Climaxing a year of study, members of the 1959 Hyperion Club and their friends gathered for a coffee Saturday morning in the home of Mrs. E. L. Powell.

Cohostesses, Mrs. Powell and Mrs. Terry Towell, were joined by the hospitality committee in entertaining. Included in the committee were Mrs. Elmo Wasson, Mrs. R. W. Thompson, Mrs. Ed Cherry, Mrs. Bob Middleton and Mrs. Herbert Keaton.

On a polished table, purple chrysanthemums combined with heather in a silver bowl; alternating at the coffee service were Mrs. Tidwell and Mrs. Keaton.

About 65 called during the specified hours; among them were two out of town guests, Mrs. Aris Raliff and Mrs. Glen Riley, both of Garden City.

Mrs. McMullen Is Given Award

Mrs. Roy McMullen, vice president of the Alpha Chi chapter of Epsilon Sigma Alpha, was named Girl of the Year at the Founder's Day tea Sunday afternoon in the Wesley Methodist Church.

The award was presented by Bo Bowen, president, before a group of 45 members and guests who were present for the sorority's candlelight ceremony. Candelighters were Mrs. McMullen, Mrs. Bert Smith, Mrs. Ross Ready, Mrs. Hanson Labon, Mrs. Richard Sparks and Mrs. G. E. Speaks.

Prayer was offered by Mrs. Robert Hamilton and music for the occasion was presented by Mrs. Tolford Durham.

At the tea hour Mrs. Earl Lotringer and Barbara Ann Eye served from the table which was

appropriately covered with the sorority cloth of yellow and blue with a spray design of jonquils. A centerpiece was arranged for the sorority by Mrs. Obie Bristow who combined yellow jonquils and blue iris. Blue candles were placed at either side of the floral arrangement.

Guests present for the affair were Mrs. Charles Carter who is to affiliate with the Alpha Chi chapter in Fort Worth; Mrs. J. C. Lucas of San Angelo; Mrs. H. C. Spivey; Mrs. W. E. Simmons and Mrs. Maynard Glasscock.

Forsan People Visit Relatives In San Angelo

FORSAN — Tales of the San Angelo hail storm were told by Forsan relatives and friends over the weekend.

Mr. and Mrs. J. P. Kubecka were guests of her brother and his wife, Mr. and Mrs. H. B. Dunn, in San Angelo over the weekend. The Duns' place is in the area pelted by the hail Tuesday.

Mr. and Mrs. Sam Porter of San Angelo and Mr. and Mrs. Cliff McDonald and Lela Dale of Abilene have been the guests of Mr. and Mrs. Sammy Porter and their family.

Mr. and Mrs. Burl Griffith and sons were week visitors in Hobbs, N. M.

The Harold Sanderses and Mrs. Laura Petty have returned from a visit to the Big Bend area.

Robert Lee guests of Mrs. Vera Harris and Mrs. J. M. Craig have been Mrs. James Craig and her children.

Cecil Klahr of Big Lake visited recently with his father, F. J. Klahr, and Jennie.

In Graham for the weekend were Mr. and Mrs. Sam Moreland, Sammie and Judy.

Creamed Beef

You'll need two cups of medium white sauce for half a pound of dried beef. Nice over crisp buttered toast for brunch or lunch. Garnish with minced parsley.

How to Judge the Value of Your Newspaper

Have you ever judged the value of your newspaper? What it actually means to you and your family? Then, let's pause a second and analyze its true value.

Right from the very first page to the last, your newspaper is packed with all the latest news about your community, your state, your nation and the whole world. Also, there's market and financial news and sports coverage. For mother, there are features that appeal to her whether it's fashion . . . social events . . . homemaking or a dozen other feminine interests. Too, both young and old always find the comics entertaining. In all these and many other fields, you'll find this a complete family newspaper . . . a newspaper that becomes a family affair the minute it arrives.

A Devotional For Today

Fathers, do not provoke your children to anger, but bring them up in the discipline and instruction of the Lord. (Ephesians 6:4, RSV.)
PRAYER: O God, teach us to humble ourselves before Thee, to seek Thy guidance and wisdom. Guide us in all our teaching and in all our learning. Grant us the spark that can brighten each life and all of life. In the Master's name we pray. Amen.
(From The 'Upper Room')

Is This Where Sodom Lies?

With discovery of a broken levee and other significant earthworks in the shallow waters of the Dead Sea, an American Baptist missionary-explorer, Dr. Ralph E. Baney of Kansas City, Mo., with three diggers and excavators, believes he has discovered the site of Sodom and Gomorrah, among the five wicked cities of the plains spoken of in Genesis as having been destroyed by "fire and brimstone" around four thousand years ago.

The exact site of Sodom and Gomorrah never has been established, but various identifications have been made—none of them wholly acceptable—unless Dr. Baney's discovery proves to be the final answer. And his conclusion is highly persuasive.

An Encyclopedia Britannica article on the mysterious disappearance of Sodom and Gomorrah concludes: "A scientific explanation of the catastrophe is not excluded." Perhaps Dr. Baney has stumbled on that "scientific explanation." He says the site was buried under the Dead Sea when a levee designed to keep the salt sea water out was broken, possibly by an earthquake. The Bible relates, only Lot, his wife and two daughters among the inhabitants survived. Lot's wife's curiosity

got the better of her; she turned to look at the scene of destruction and was turned to a pillar of salt.

Thus a possible new substantiation of biblical geography seems likely to have been added to those uncovered by the Dead Sea scrolls a few years ago, not to mention many other confirmatory bits and pieces throughout the Holy Land.

Somewhat along the same line of thought were the remarks of Dr. Werner von Braun before the Bureau of Advertising of the American Newspaper Publishers Association on the same day that Dr. Baney made his announcement. The space scientist used these words:

"There is good reason to assume, on purely scientific grounds and on evidence adduced by observation, that life of some kind exists elsewhere in the universe. I cannot believe that the Power which created life and order confined all sensible organisms to this comparatively tiny planet."

"Our sun is one of 100 billion stars in our galaxy. Our galaxy is one of billions of galaxies populating the universe. It would be the height of presumption to think that we are the only living things in that enormous immensity."

Voluntary Course

The Methodist Church, most numerous Protestant body in the country, will leave the question of racial integration on a voluntary basis at least until 1964, its quadrennial conference at Denver decided last Friday.

It was a victory for the 70-member commission headed by a New York lawyer, Charles C. Perrin, which made its recommendations after a four-year study based on hearings in many cities throughout the country. After a two-day debate, sometimes bitter, the conference approved the report, "overwhelmingly" with practically no changes in the substance of the commission's report. The details are unimportant; the substance adds up to "voluntary gradualism."

In the debate, Chairman Perrin said repeatedly: "Let's keep this thing voluntary; let's not push people around." Anyone who has given the question any profound thought, free of emotionalism, should be able to see some practical aspects of the problem that should not be ignored.

The two principal bodies of Negro Methodists are called the African Methodist Episcopal Church, established in 1816, with a membership of more than 1 million, and with more than 8,000 congregations; and the African Methodist Episcopal Church Zion, formed in 1796 and credited with 781,000 members. They have

their own seminaries; they have each produced some outstanding leaders, and in general have been a credit to their race and their country.

What becomes of all this fine leadership, this superb record of achievement, if the white Methodist Church, eight times their numbers, takes them over, absorbs them, integrates them? Will their ministers be welcomed into the pastorate of overwhelmingly white congregations? Will their trained workers find full employment in integrated churches? What becomes of their schools and colleges?

The situation would be analogous to that existing where public schools have been integrated. Thousands of well-trained, qualified and dedicated colored teachers of both sexes have already begun to feel the pinch, and as integration progresses their plight may become worse.

In pursuit of an abstract principle, highly charged with emotionalism, some unhappy and unjust concrete results sometimes flow.

It is possible some of the "let's do it now at once!" white advocates of church integration have not considered the possibility that many responsible Negro leaders might prefer to keep their identity and their independence. Be it said to their credit they have their own pride of race.

David Lawrence Nixon Assignment Stirs Opposition

WASHINGTON — Are the Democrats getting more and more scared of being defeated by Vice President Nixon in the next election?

Fifty-five Democrats in the House of Representatives were so sensitive about the favorable publicity that the vice president might receive if he attended the "summit" conference at Paris during a possible absence of a public protest. They called on Mr. Eisenhower to "explain why during this election year he has suddenly decided to relinquish his job, as President to the candidate he has endorsed as his successor." They added: "By this obvious and transparent partisan move, the Republican administration has subordinated the hopes of Americans and free men everywhere for peace in the world to the political ambitions of Vice President Nixon."

SUCH A STATEMENT seems incredible. Without bothering to look into the facts and circumstances surrounding the President's decision, the 55 Democrats jumped to the conclusion that it was all just a brazen political move. What probably happened is that some publicity man in the Democratic camp prepared the statement and rushed to get signatures on Capitol Hill.

What, however, are the facts about the President's decision? They could easily have been obtained. Mr. Eisenhower said to his press conference:

"Congress is in session and there are a number of bills that are important before the Congress. If they should come at an awkward time for me, and I felt that they should be vetoed—now, I have quite a tough time schedule because any veto requires a veto, not only requires the most, the deepest study in the departments concerned, but it demands

daily consultation with me because I am the one that has got to be convinced that this is a bad bill or a good bill and therefore you cannot do this—these bills are important—from a distance.

"NOW, THE ONLY reason that I happen to have said this in this particular case is that we don't know how long this 'summit' meeting is going to be. In 1955 we had a rather, a pretty good understanding of the number of days. Everybody agreed that this time it should go as long as it was felt necessary. So, since I am leaving on the 14th and had to fix a date for my visit to Portugal on Sunday, I took the 23rd to the 24th. This is getting along at a rather long period. So I said if domestic requirements did bring me back, I would have to ask Mr. Nixon to serve for me as the head of the delegation. This doesn't mean that I expect him to be there but I was simply put the warning."

The key to the President's purpose may be read between the lines. The Soviets want a long conference. Mr. Eisenhower doesn't want to spend several weeks in Paris. In the 1955 conference at the "Summit" in Geneva, a time limit was placed on the whole thing. This has not been done for the coming Paris conference.

"SURELY THE PRESIDENT of the United States ought to be free from petty sniping as he prepares for a 'summit' conference on which hope for peace and disarmament is being based throughout the world. Surely there must be ample time between June and November of this year for the snipers and the smearers to carry on the partisan attacks against Mr. Nixon. Surely mere attendance for a couple of days or even a week at the 'summit' conference by Vice President Nixon, as he sits in for the President till Mr. Eisenhower can return to Paris or until the conference adjourns, is not something so catastrophic to the Democratic party's hopes for victory in 1960 as to cause so many of its members in the House, as well as some in the Senate, to lose perspective."

FORMER PRESIDENT Truman, by his statement approving President Eisenhower's plan to substitute the vice president at some Paris sessions, disassociated himself from the critics. It has also been suggested on Capitol Hill that Secretary Herter should have been designated to head the delegation in the President's absence. But those who made the suggestion don't know "protocol." When heads of state meet, a foreign secretary cannot serve as a substitute. A vice president of the United States is considered the No. 2 man, just as is a vice chairman of the Soviet Union.

PACKING JUST THE ESSENTIALS

James Marlow Wallace Better Set Than Nixon

WASHINGTON (AP) — President Eisenhower can get an argument on his idea that no vice president in history had such careful preparation as Richard M. Nixon for carrying out the duties of the presidency.

What about Henry Wallace? President Roosevelt made a lot of use of the tall lowan when he was vice president from 1941 to 1945. Wallace's total experience in government was probably broader than Nixon's.

In the 1956 campaign, when Eisenhower and Nixon were running for reelection, the President had a Republican picnic at Gettysburg. "There's no man in the history of America who has had such a careful preparation as has Vice President Nixon for carrying out the duties of the presidency, if

those duties should ever fall upon him."

LAST WEEK DEMOCRATS jumped on Eisenhower for saying he may let Nixon sit in for him at the summit meeting this month if it runs too long. They interpreted this as an effort to build up Nixon for this year's presidential campaign.

But looking back—particularly upon the four years since that statement in Gettysburg in 1956—the wonder is not so much about the use Eisenhower has made of Nixon but that he has not used him far more.

Nixon served in the House and Senate, thus getting insights into the legislative branch of government. Wallace was never in Congress.

But from 1933 until 1941 Wallace as secretary of agriculture under Roosevelt, headed one of the most important and controversial agencies of the executive branch.

THAT'S A KIND OF experience Nixon never had. He sits in on meetings of the Cabinet and the National Security Council. But Wallace was in Roosevelt's Cabinet, too.

Eisenhower has used Nixon as a goodwill ambassador and personal representative to foreign countries—he has visited 55.

Roosevelt used Wallace as a "messenger" to use his own phrase, and goodwill ambassador, too. He sent Wallace to the Soviet Union, China, India, and Latin America.

Although Nixon served on a couple of minor committees appointed by Eisenhower, Roosevelt used Wallace in far more important jobs while Wallace was vice president before and after we got into the war.

Wallace became a member of the Commission on Inter-American Affairs. He was chairman of the Economic Defense Board and head of the Board of Economic Warfare.

But there is one big difference between the vice presidencies of Nixon and Wallace. Nixon is a politician; Wallace never was. The Republican pros are in Nixon's corner, all set to nominate him for president.

In 1944 the Democratic pros teamed up against Wallace. This was when Roosevelt sought a fourth term, his health was failing, and it seemed possible his vice president might become president through Roosevelt's death.

Southern Democrats and the Democrats' big-city bosses blocked Wallace from running for the vice presidency again. Roosevelt did not fight for him and Harry S. Truman got the nomination. Eisenhower already has given Nixon his heart endorsement for the presidency.

Thief Strikes Again

PHOENIX, Ariz. (AP)—Annoyed by a thief who twice broke into a coin box on a mechanical rocking horse, employees of a hardware store emptied the money from the box one night and left this note: "Fooled you, didn't we?"

The same night, the thief again broke into the coin box and stole the note.

To Your Good Health Factor Determining Childless Marriages

By JOSEPH G. MOLNER, M.D.

"Dear Dr. Molner: My son and his wife are unable to have children. His wife went to a doctor and was apparently all right. Then he was examined and found to have a low sperm count."

"One doctor said the condition was hopeless. Another said he could help, and the sperm count increased, but they still have not been successful. Now he won't go to this second doctor—MRS. R.C."

Either reduced fertility or sterility occurs in approximately one marriage in 10. It used to be that wives automatically inherited all the blame, and I refer you to history for documentation of the attitude of certain monarchs of the past.

More recently, however, facts began to filter through: Perhaps it wasn't always the fault of the wife! Still, for quite some time the old notion prevailed, and women went to the doctor, had defects corrected (if there were any) and sometimes found that they still remained childless.

Finally husbands were given some attention, and it was found that they were at fault in something like 50 per cent of the childless marriages.

generally considered that 20 million is necessary for fertility. Actually, of course, a single sperm cell, theoretically, is sufficient. Some medical investigators believe that a count lower than 20 million is sufficient—but the point is that a low count likewise seems to mean that the individual cells will not be up to par in structure and vigor of motion. So the importance of the sperm count is not wholly a matter of sheer numbers, although it is a fair index.

Troubles the wife may have—erosion of the cervix and the common trichomonas infection—are principal causes that need correction. It is also important for both partners to attain as good health as possible. Thyroid extract has been found to be quite effective in improving the calibre of the sperm. Correction of other defects in the male may also be required.

I realize that many husbands consider it a reflection on their masculinity to imply that they need medical attention. Well, it is a reflection, but it is sometimes necessary.

A couple like the one we are discussing today should make some further attempts to solve the problem. Remarkable strides are now being made in overcom-

ing infertility.

"Dear Dr. Molner: I have diabetes and have gone to a laboratory for tests. Is 92 normal for blood sugar? The doctor told me I should lose weight—S.N."

A reading of 92 is normal—I presume it is a test taken before breakfast. Up to 120 is normal before breakfast; 90 minutes after breakfast a reading of 150 or less is normal. Many diabetics who are overweight can get back to normal blood sugar if they reduce (as you evidently have) and can live normal lives without either insulin or the relatively new "diabetes pills." But you must keep your weight normal.

"Dear Dr. Molner: Please give your opinion on contact lenses—Mrs. M.M."

Contact lenses have a definite place in the world of eye correction. Your eye doctor can tell whether they will suit your particular case.

Dr. Molner welcomes all reader mail, but regrets that, due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible. (Copyright, 1960, Field Enterprises, Inc.)

Around The Rim Some Thoughts Worth Pondering

Quotable quotes:

CHARLES COOLEY:

Nearly all the books on social questions which have a large immediate circulation owe their vogue to a partisan element. They appeal to property-holders, to underdogs, to the impecunious intelligentsia, to the sexually repressed, to Nordics, Negroes, Fundamentalists. Their fitness is to an emotional rather than to an intellectual interest. Books written for the latter must be content with a small although possibly lasting acceptance."

PEARL BUCK, the novelist:

"We send missionaries to China so the Chinese can get to heaven, but we won't let them into our own country."

SYDNEY J. HARRIS, columnist:

"More citizens might enter politics if they could be given a contract assuring them that they would be excused from all banquets, cornerstone-laying and flag-raising ceremonies for the duration of office."

DON HEROLD, writer:

"Women give us solace, but if it were not for women we should rarely need solace."

JOHN CHURTON COLLINS:

"There is often less danger in the

things we fear and in the things we desire."

MRS. EDITH G. NEISSER, author:

"Bribery is committed almost every day in too many American homes. Parents are 'paying off' their children to be good. You can't teach social responsibility by paying a child to help you with the dishes. He'll grow up thinking that everything in this world can be measured in dollars and cents. Don't fine him for being naughty. He may think it was worth it."

DR. RENE DUBOS in his book, "Mirage of Health":

"Boredom is a major modern disease. It is not easy to define or to recognize, and its onset is insidious. Boredom often masquerades in the passive forms of entertainment, in the dreary hours of aimless driving, in anonymous holidays which have lost their meaning because they are no longer holy, as well as in the attitude of the people who 'couldn't care less' about the events of the world around them. The chief manifestations of boredom go from the various forms of escapism—such as addiction to drugs or alcohol—to suicide, which relieves the victim of the need to care about anything."

Inez Robb

Political Versions Of Vegetable Soup

The political pot is boiling overtime these days and has lighted a sympathetic fire under the old soup pot. Or, maybe, I should say "pots," since one is Republican and "other" is Democratic.

When I read recently that Mrs. Hubert H. Humphrey is campaigning for her husband, who hopes to be hit by Democratic lightning on a vegetable-beef soup ticket, it stirred memories of the G.O.P.'s most distinguished chef, President D. D. Eisenhower. One of his most famous dishes is the Eisenhower vegetable soup.

NOW IN A POLITICAL season in which the parties fight with everything, including soup, I thought it would be interesting to compare the G.O.P. and the Democratic versions of this favorite American soup into which anything goes except Mr. Murphy's overalls.

I wrote the White House for the Presidential recipe, and discovered it is so popular that it has been mimeographed to satisfy public demand. I am glad that, for the Eisenhower recipe is so long that I have space for only a skeletal outline. For the unabridged version, please, write the White House.

PRESIDENT EISENHOWER says, "The best thing to make vegetable soup is a day after you have had fried chicken out of which you have saved, uncooked, the necks, ribs and backs. Procure from the meat market a good beef bone (hope this is easier for Mr. Eisenhower than for me!) and split down the middle to expose the marrow. In addition, buy a couple of pounds of soup meat, either beef or mutton, or both.

"Put all the meat, early in the morning, in a big kettle, with bony parts of chicken. Cover with water, about five quarts. Add a teaspoon of salt, a bit of black pepper and a touch of garlic, or onion, if you prefer.

"BOIL ALL THIS slowly all day long until the whole thing has practically disintegrated. Now pour into another large kettle through a colander. Save a few of the better pieces of meat to cut up and return to soup after it is done. Let soup cool and remove about half of fat."

To this stock the President adds 1 quart can of tomatoes, 1/2 cup of green peas or green beans cut very small, 2 average-size potatoes diced into half-inch cubes, 3 carrots diced likewise, 2 or 3 branches of celery, 1 good-sized onion sliced, 1 turnip diced like potatoes, 1/2 can of corn, a handful of raw cabbage cut in small pieces and, at the last minute, 1-3 cup of barley that has been cooked separately. Also, those meat bits.

"As a final touch," says the President, "in the springtime when nasturtiums are green and tender, you can take a few nasturtium stems, cut them up in small pieces, boil them separately as you did the barley, and add them to your soup. (About one tablespoon, after cooking.) A little exotic, it seems to me, for a conservative Republican.

BUT, TO DO JUSTICE to this recipe, you must get the original from the White House.

Mrs. Humphrey's recipe, by comparison, is short and simple, as becomes the politician's candidate. "Cover one and a half pounds of stewing or chuck beef and one soup bone with cold water in a heavy 'three-quart sauce pan,' says Mrs. Humphrey. "Add salt, pepper and two bay leaves. Heat to bubbly stage.

"Turn heat low and add one-half cup chopped onion, one cup each of chopped celery and cabbage, four or five medium-size carrots, sliced, and a pinch of oregano. Simmer at least two and a half hours or until meat is very tender. Remove bone and bay leaves and cut meat into bite-size pieces.

"NOW, ADD CONTENTS of a No. 1 can of Italian-style tomatoes, one tablespoon of Worcestershire sauce and one beef bouillon cube. Simmer for one-half hour and serve."

Democratic Presidential hopeful Humphrey says this brew "keeps me peppy"—a powerful recommendation.

Well, here are the two recipes. Both sound good, as a political soup should. Mrs. Humphrey's entry may not be as exotic as the Republican entry, but it's simpler. Fall to, friends, and may the best brew win. Who can tell? This election may really be in the soup.

"I'D HAVE TO HAVE the help of one of these machines to understand that I have seen a great many applications of this type of equipment. It can do a great deal of work where the procedure is defined ahead of time. But we have never been able to find an application of these machines where an irregularity has to be taken into account. When it comes to the selection, training, and following the development of personnel, I can't imagine a machine to do that, and if I saw it, I wouldn't believe it."

Dr. Simon uses an analogy. Who could have figured in the early 1950's that the automobile would replace the horse and buggy and change the United States into a suburban network of supermarket shopping centers? Within ten years, he says, a machine will be able to defeat any human in chess.

HAUSER ARGUES that a machine can store information on the day a man was born, the college he went to, the courses he took, the honors he won, and his I.Q. and aptitudes. But it won't be able to evaluate his smile, react to his infection, or "take him in" in his infancy.

Dr. Simon concedes men will have to manage men, but they'll also have to manage machines. And the more they manage machines the more the machines will be able to do for men.

Hence, this bothersome question: Can the machine return more than its put into it? Can it make associations or analogies or jump to intuitive conclusions unless these associations or analogies or conclusions were in the program in the first place.

DR. SIMON RESPONDS that the machine is moving in on decisions made by middle-managers—the men who notice whether inventory bins are too low, or that production exceeds shipments, or that temperatures are too high. These decisions, we say are quantitative—interrelating inventories with orders and the speed of production; adjusting temperatures in a chemical process. But, Dr. Simon thinks they can be qualitative too.

BUDGET MAGIC FOR... DOLLAR DAY

Out Of This World

Three entrants in the Miss Universe Contest are attempting to get in the mood of the contest as they pose in the observatory at Sam Houston State Teachers College at Huntsville. This year's regional contest is scheduled for May 12 in Bryan. The three representing the college are, left to right, Peggy Smith, Bellville; Mary Frances Gates, Huntsville; and Peggy Wilson of Pasadena.

Western Stars In Sailor Suits?

By CYNTHIA LOWRY
AP Television-Radio Writer
NEW YORK (AP) — Television came up with something really new this weekend: Roy Rogers in a yachting cap and Dale Evans in a middy blouse.
But, frankly, a full hour of skin divers grappling with sharks 27 feet down in a pool and skin divers riding on the backs of turtles and whales is more fascinating entertainment for the young crowd than the adults. I doubt that denizens of the deep will ever really replace the horse.
Roy and Dale did their smiling best, including a little singing—all very nautical—to enliven this NBC Aquarodeo but this viewer soon moved to another channel.
Over on CBS there was in progress a broad and not too amusing

comedy treatment of the princess and the pea story. It's not that this can't be funny, there is a Broadway hit based on the same folk tale currently doing very well. But this adaptation called "The Ugly Duckling," with Joanna Barnes as the plain princess and Oscar Homolka as the worried king, was neither witty nor high spirited.
Earlier, on NBC, a musical variety show occupied the Sunday Showcase spot. Frances Langford was hostess-star and she is a singer with a nice way with a song. The special was notable for a revival of one of those old Bickerson sketches she and Don Ameche used to do on radio. Miss Langford and Ameche, snarled glibly back and forth. But hurling poison tipped barbs has become such routine television that the Bickersons just sounded ill-tempered and rude.
There were also the Three Stooges, a team which has been recently discovered by the younger viewers. They happily clouted one another over the head, clowned in ballerina costumes and ran around in outside Dr. Denton suits. It was sort of old-fashioned and innocent comedy.
Johnny Mathis sang a couple of numbers in great style and soprano Mary Costa supplied a bit of long-haired singing.
But it was, all in all, a pretty good hour of entertainment.
Alfred Hitchcock on CBS came up with a suspense drama which was extremely well done and what we used to think of as typical Hitchcock. It was called "The Hero," and involved an English tycoon, on an ocean voyage, meeting a man he thought he had murdered years before.

Canada's Pay TV Off To Good Start, Too Early For Results

TORONTO (AP) — Canada's pay TV experiment seems off to a good start.
It's too early to tell whether the project will prove successful, but several customers and the sponsors say they are happy.
The operation began two months ago with installations in 1,000 homes in Etobicoke, a Toronto suburb. The system now includes 2,500 homes, with about 300 more each week. The aim is 10,000-12,000 by the end of the year.
The project, called Trans Canada Telemeter, has overcome many of the difficulties which beset other pay TV plans.
Installation is simple. The customer pays \$5 to connect to the service. Then he drops coins in the slots whenever he wants to watch a first-run film, a hockey game or some other program.
Henry Griffing, U.S. theater owner who experimented with pay TV in Bartlesville, Okla., in 1957, calls the Etobicoke system the greatest innovation since talking pictures.
"I am convinced," he said, "that Telemeter completely solves all the problems I encountered in Bartlesville."
This system was developed by Paramount Pictures in experiments going back to 1951. Trans Canada Telemeter is owned by a Paramount subsidiary, Famous Players Canadian Corp., Canada's biggest distributor of movies.
Eugene E. Fitzgibbons, director of TV activities for Famous Play-

ers, says: "We are delighted with the way things have gone so far, but it may take a year of study before we know the full results."
The main unanswered question is whether customers will pay enough to make the project yield a profit.
Telemeter officials say the intake must amount to about \$2 a week for each participant. This is needed to pay for the initial investment of the company in the intricate coin boxes, the trunk cables and the operations center as well as day-to-day operating costs.
Fitzgibbons says he can't draw any conclusions until they get installations in 5,000 or 6,000 homes and pick up the coin boxes at least two or three times.
This correspondent checked at a number of homes. In every case the subscriber said he was satisfied and that he probably will spend \$2 a week on a telemeter.
W. E. Foster, with telemeter for four weeks, had seen three or four movies and four hockey games.
"It's good if you use it within reason," he said.
Mrs. J. C. Dennison said she watched films every weekend and had seen all four hockey games carried by Telemeter.
Mrs. W. Croft said: "We like to go to the movies, but it's difficult to get out when you have two school age kids and there's always the cost of a baby-sitter."
Telemeter's operations chief, William Crampton, cites two main reasons for picking Etobi-

coke as a pilot area. "Almost everybody in the upper middle class suburb has a TV set and can afford to pay for television viewing if it is made attractive enough. Second, it is a good testing area since viewers have the widest choice of free TV in Canada—three Buffalo, N.Y., stations carrying U.S. networks, a Toronto station of Canadian Broadcasting Corp. and a privately owned station in Hamilton, Ont.
It is only a 10-minute operation to hook up the coin box and outside wire at a home. The one wire offers three channels in addition to those already available on free TV. Two of the pay channels are devoted to first-run movies and operate only in the evening. The cost of seeing a movie is \$1, though some children's weekend matinees cost 25 cents.
The third channel is available for sports, including hockey, fights baseball and other events not shown on free TV. It also is used for showing "adult" films late at night. Telemeter officials hope to make available other pay programs on this channel, including Broadway plays and concerts. The channel now operates free during the day, carrying mainly music and public service programs, such as panel discussions, neighborhood events and religious services.

Handy Statue On Beale Street

MEMPHIS, Tenn. (AP) — The newest thing on Beale Street is a statue to an oldtime habitue—William Christopher Handy—who went away and made it famous.
Friends and family unveiled a bronze statue to the famed composer of the "St. Louis Blues," "Beale Street Blues" and other sad-sweet songs who drew his inspiration for the blues from Negro life on Memphis' Beale Street.
Handy's son, Bill, and his widow, Louise, both of New York, where Handy died two years ago, pulled a cord to undrape the monument.
Some 2,000 spectators jammed in and around tiny Handy Park, a plot of grass, trees and benches in the midst of city traffic. They heard singers honor him in song, politicians eulogize him and friends recall good times.
