First Directories Out

Cliff Fisher, manager of Southwestern Bell Telephone Co., delivers the first 1960 telephone directories to William Wharton, public accountant. Wharton, secretary of the United Fund, received the advance copies for use in revising the United Fund lists. Townspeople are scheduled to start receiving their directories Friday.

Niki Gets Cool Reception As He Begins Visit To Austria

VIENNA, Austria (AP)—Soviet Premier Nikita Khrushchev arrived in neutral Austria for a nine-day state visit today and got a cool reception. Except for a small contingent of Communists, the response was apathetic. About 6,000 persons were at the Soviet War Memorial as Khrushchev's motorcade swept into the center of the city from the airport. Most of the crowd just stood and stared. A knot of about 200 Austrian Communists sent up a thin cheer but Khrushchev may not have heard or seen them. They were lined up on the far side of the street as he sped by in a closed car. Some customers at sidewalk tables of nearby coffee houses didn't bother to look up from their newspapers as the motorcade pulled up in front of the Imperial Hotel, where Khrushchev is staying. In general the average citizen appeared bored.

ternak's novel "Dr. Zhivago," banned in the Soviet Union. It was a passage of stern praise for the individualist who held out despite being "surrounded by pharisees." NO ATTACKS Government leaders said they had been given informal assurances that Khrushchev would not embarrass Austria's neutral position—made mandatory by the postwar independence treaty—by attacking the West during his visit. But the Soviet Premier is expected to push his "peaceful co-existence" line by emphasizing how nice the Soviet Union can be to all countries that do not tolerate American military bases. Leaving Moscow this morning, he said: "Although Austria and the Soviet Union have differing social and political systems, this does not prevent our people from living in peace and friendship." Only one public speech has been set up for him—before the Austrian-Soviet Society on Saturday. Traveling with the Soviet leader were his wife, Nina, daughter Yelena, 22-year-old Moscow University law student, and the top-ranking woman Communist official, Culture Minister Ekaterina Furtseva. OTHERS ALONG Government leaders said they had been given informal assurances that Khrushchev would not embarrass Austria's neutral position—made mandatory by the postwar independence treaty—by attacking the West during his visit. But the Soviet Premier is expected to push his "peaceful co-existence" line by emphasizing how nice the Soviet Union can be to all countries that do not tolerate American military bases. Leaving Moscow this morning, he said: "Although Austria and the Soviet Union have differing social and political systems, this does not prevent our people from living in peace and friendship." Only one public speech has been set up for him—before the Austrian-Soviet Society on Saturday. Traveling with the Soviet leader were his wife, Nina, daughter Yelena, 22-year-old Moscow University law student, and the top-ranking woman Communist official, Culture Minister Ekaterina Furtseva.

Water Show Set For CC Lake

COLORADO CITY — Colorado City's Jaycees will sponsor a Boat and Ski show at the City Park on Lake Colorado City July 4th. A two hour event will feature water skiers from Lubbock in a series of acrobatics and high speed water activities. Admission for the show will be one dollar for adults and 50 cents for students, according to Drew Ballard, Jaycee publicity chairman. "The show will start at 1:30," Ballard said, "and will take place in front of the Lake Park parking area." The Jaycee ski show is the principal entertainment to be offered to Colorado Citizens on the Fourth, according to Chamber of Commerce officials. The bank, city hall, courthouse, government offices and the majority of downtown stores will be closed all day.

Annual ROTC Feast Slated

The annual ROTC barbecue sponsored by the businessmen in Big Spring has been set for July 11 at the Cosden Country Club. Local businessmen will host the approximately 200 college students here for summer encampment at Webb Air Force Base with a swim party and barbecue, beginning at 5 p.m. Ike Robb, chairman of the Base Community Division of the Chamber of Commerce, and R. W. Whitley, chairman of the Military Affairs sub-committee, are in charge of arrangements.

Castro Shakeup Omen Of Property Seizure

HAVANA (AP)—Fidel Castro's regime early today replaced its communications minister in a move apparently signaling further harassment and possibly seizure of the Cuban Electric Co., the largest remaining American investment in Cuba. With a marathon cabinet session still in progress after 13 hours, President Osvaldo Dorticos announced the resignation of Communications Minister Enrique Oltuski and his replacement by Raul Curbelo Morales, a virtual unknown. Oltuski at a news conference two weeks ago accused the electric company—which comes under his ministry's jurisdiction—of sabotaging the revolution because it refused to carry out an expansion program after the Castro government cut its rates a third. But informed sources said the regime felt Oltuski had not been aggressive enough in his application of revolutionary policies. Valued at 300 million dollars,

the electric company is half owned by the American and Foreign Power Co. Oltuski's replacement also could be a preliminary to formal confiscation of the 125-million-dollar Cuban Telephone Co., in which the U.S. International Telephone and Telegraph Co. owns 65 per cent of the stock. But Castro representatives have been in complete control of the telephone company since March 4, 1959, and the last U.S. executive was ousted last February. Retaliating for the pending U.S. congressional bill to trim Cuba's quota of sugar sales to the United States, the Castro regime stepped up its campaign against American investments by taking over all operations Wednesday of the American-owned Texaco Oil Company, including its 26-million-dollar refinery at Santiago. The oil company indicated its claims for the properties seized may total 50 million dollars. Texaco, along with Esso Stand-

Phone Company Lets Contract On New Plant

The Southwestern Bell Telephone Co. has awarded a \$285,000 contract to expand the offices and facilities of its plant in Big Spring. Cliff Fisher, manager of the local office, said Hawkins and Westbrook, Abilene building contractors, won the contract, and will begin work on the construction early in July. Completion of the work is scheduled in 1961. Addition to the building at 8th and Rannels will cost \$165,000. Fisher said, and the remaining \$120,000 will be spent on new telephone equipment. A one story addition and basement will be added to the present building. Fisher said it would be constructed of a reinforced concrete frame with solid masonry walls. The exterior will be face brick with stone trim. Size of the addition is 81 by 51 feet, making the overall structure 81 by 114 feet. The manager explained that the basement will house a test and assignment center, test center foreman's office, a cable vault extension, additional air-conditioning, equipment storage, space women's lounge, janitor's closet, and other storage space. The first floor addition will contain space for additional switch-plant; plant work, plant storage, club and locker room.

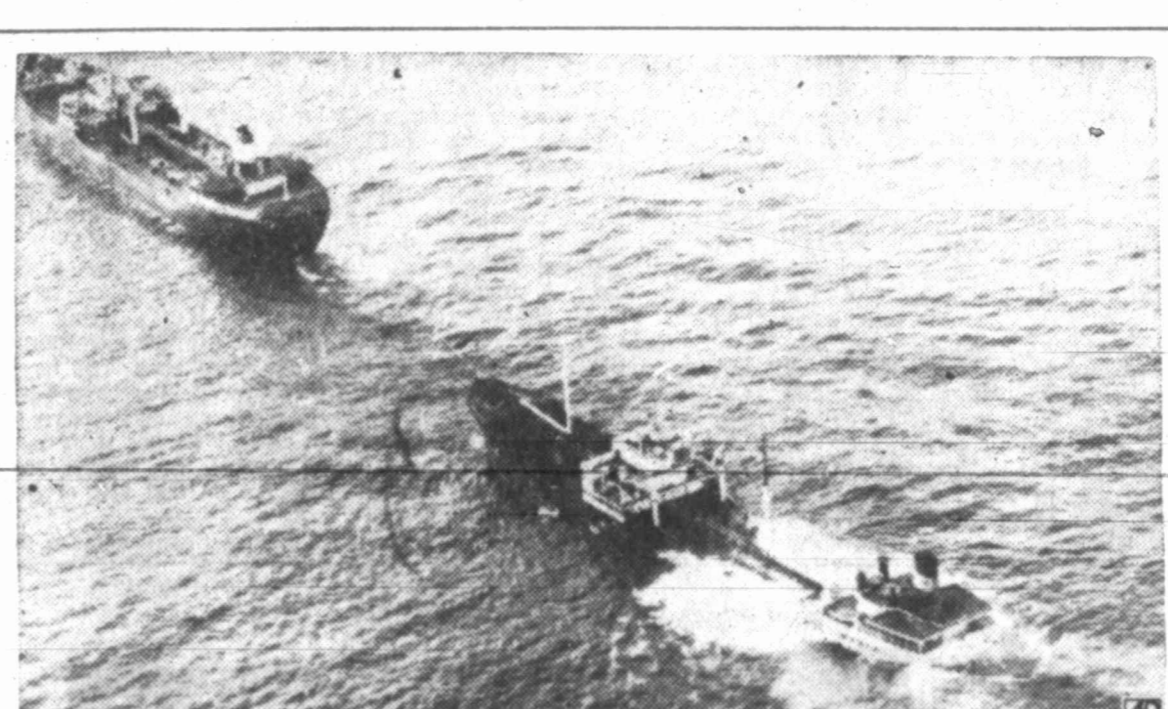

Burglar Takes Safe, \$366.35

An apparent strongman burglar entered the Budweiser warehouse Wednesday night, successfully peeled the company safe and made off with \$366.35 in cash. The safe weighs about 500 pounds and was found this morning in a weed lot about a block from the warehouse which is in the 100 block of Lancaster. A hand truck, used by the truckers to make their beer deliveries, was used to haul the safe from the building to the site where it was opened. A professional stamp was put on the job. Police said the peeling was obviously the work of "someone who knew what he was doing." In addition, police theorized that no amateur could have handled the safe out of the warehouse, gotten it off the rear loading dock and carried it on the hand truck 300 yards to the weed lot. A check with other authorities showed that similar modes of operation had turned up in safe burglaries near Hobbs, N. M. and Seagraves.

City Offices Close

Offices at City Hall will be closed Monday in observance of the Fourth of July, according to City Manager A. K. Steinheimer. Only employees directly connected with operations at City Hall will have Monday off, however. Police and fire department activity will continue as usual.

GOP Opposes Recess For The Conventions

Crippled Tanker Before Sinking. The tanker S.S. George MacDonald, with decks awash, is towed through calm seas off the coast of Savannah, Ga., by sister ship, the S.S. J. E. Dyer. Later the tow line snapped and the MacDonald sank ending the battle to save ship and cargo.

Republicans, Dixiecrats Seek To Scale Down Wage Measure

WASHINGTON (AP)—House Republicans and Southern Democrats battled today to scale down a minimum wage bill regarded by Democrats as a key election year measure. They sought to reduce both the \$1.25-an-hour proposed minimum, and the number of additional workers who would be affected. The bill is one of three major pieces of legislation to be considered in the House before it recesses Saturday for the national political conventions. A bill authorizing the President to cut Cuba's sugar quota and an attempt to pass a federal pay raise over an expected presidential veto are the other major items to be disposed of this week. Congressional leaders abandoned hope Wednesday that they could complete their legislative program before the conventions, and announced plans to return Aug. 8 to renew the session.

By Rep. James Roosevelt (D-Calif.) and approved by the House Labor Committee. It would raise the present \$1 an hour minimum to \$1.25 in three steps and extend coverage to 3,509,000 more workers. For the newly covered workers the wage would start at \$1, rising to \$1.25 in four steps. The GOP-Southern Democrat coalition has a substitute bill that would limit the increase to \$1.15 and widen the coverage by only 1,400,000. Opponents of the bill are mak-

ing their major stand on the issue of expanding coverage. The proposed bill marks the first attempt to increase coverage since the Wage-House Act was passed in 1938. Roosevelt's bill would bring in employees of retail organizations, hotels, laundries, transit firms and small telephone exchanges doing more than one million dollars a year business. The conservative-backed alternate would limit new coverage to retail chain stores with at least five establishments in two states.

Ike Vetoes Bill To Raise Pay Of Federal Employees

WASHINGTON (AP)—President Eisenhower today vetoed a bill to raise the pay of 1 1/2 million federal employees by 7 1/2 per cent. He called the measure "undesirable by any light." However, Eisenhower left the door open for a smaller hike—what he termed "a modest increase reasonably commensurate with the percentage rise" in the cost of living since the last general pay increase. Democratic leaders in Congress are planning, however, an attempt to override the President's veto of the 7 1/2 per cent measure. The House is expected to vote on an overriding attempt Friday. In his veto message, Eisenhower said: "This hastily-drawn bill violates every concept of fairness, every rule of reason and logic. Were this measure to become law, the already conspicuous unfairness and discrimination in our antiquated federal pay system would be greatly intensified."

"Instead of making progress — by improving the federal pay structure—we would actually be taking a long step backward." It takes a two-thirds margin of members voting in both the House and Senate to override a veto. The measure passed in both the House and Senate by more than that margin. Eisenhower's statement that he would be willing to approve a smaller pay hike, in new legislation, appeared to be a move to rally votes to sustain his veto. Besides granting approximate 7 1/2 per cent raises to civil service employees, postal workers and Congressional employees, the vetoed bill would have made permanent a 2 1/2 per cent temporary salary hike granted to postal field service employees two years ago. That increase now is scheduled to expire in January. Eisenhower urged the Democratic controlled Congress to enact new legislation to make that increase permanent.

NO SENATORS? He asked whether opponents of a recess are suggesting Butler "and his little group proceed without the senators?" Butler professedly is neutral in the battle for the Democratic presidential nomination but Johnson backers consider that he has given aid to Sen. John F. Kennedy's bid for it. On the House side, Rayburn expressed surprise at the stand taken by the Republicans but declared their opposition would be unclouded back. Rayburn said he was surprised because House GOP Leader Charles A. Halleck of Indiana had agreed there was no choice but to come back after the conventions. "It doesn't make any difference," he added, "We're going to recess." He said the House vote on the recess resolution would probably be taken Saturday. Republican senators also talked over the recess plan at a caucus but took no stand as a group.

Demo Gains 700-Vote Margin In N. Dakota

FARGO, N.D. (AP)—Democratic Rep. Quentin Burdick hung on to his lead today with only a few precincts remaining to be counted in the special North Dakota senatorial election. With just 10 precincts still out, virtually all of them in sparsely populated western areas, Burdick held a 762-vote lead over Republican Gov. John Davis, who led for nearly 24 hours in the vote counting. Burdick with 104,161 and Davis 103,399. But the contest, no matter how it turned out in the unofficial counting, appeared almost certain to wind up with the state canvassing board for a verdict. It was an election scrutinized closely by both parties as a possible indicator of Midwest farm sentiment in a presidential election year. It wasn't until late Wednesday, almost 24 hours after the polls closed, that Burdick forged into a slim lead—a margin that narrowed slightly as the vote-counting

ended for the night. Davis had led in the early counting by as much as 8,000 votes. FLIES BACK Burdick, 52, a freshman congressman who became North Dakota's first Democratic representative in 1958, flew back to Washington Wednesday night. He said he would vote today to override the President's veto of the pay increase bill for postal workers. "I'm not very sure of this one," Burdick said of the state election. "I want to see all the figures." The State Canvassing Board must meet within 20 days of the election to compile final figures audited by county canvassing boards. Until then, neither man can ask for a recount. Burdick said he hasn't even thought about a recount; Davis said "it will depend upon any irregularities we might hear about in the counties. So far we haven't heard of any, but some might turn up." Most of the absentee ballots have been counted, although late ones will be delivered to county canvassing boards to include when they meet on or before next Tuesday.

Davis said he wished local election officials had reported the missing precincts to make the unofficial count complete. BIG DEAL "You'd think they'd want to be in on something this big," he said. Today, Davis said, "I'll just go back to being governor." He is 47. Burdick said he felt he ran very well in the traditionally Republican city precincts, where GOP leaders felt Davis would have to show his greatest strength. The run for the Senate was the high point in the political careers of both men. Davis was a small-town banker and state senator when he was tapped for the GOP gubernatorial nomination in 1956 and won a resounding victory. Burdick's congressional victory in 1958 was the result of a sometimes shaky alliance between Democrats and the Nonpartisan League. The league, commonly referred to as the NPL, deserted the Republican column in 1956 after 40 years.

Soviet Brotherly Love Business Goes Sour

Editor's Note — To hear the Communists tell it, the Soviet Union is a happy land where every man is your brother. But William L. Ryan, on a return visit to Moscow, found the theme of equality going sour in some places. This is the fourth of five articles.

By **WILLIAM L. RYAN**
Associated Press News Analyst

Moscow University today is training the young people who will guide Soviet destinies a generation hence. And it is producing what, to many Westerners, appear to be a generation of snobs. This applies to the students of Great Russian nationality, from the huge central Soviet state whose Russians dominate the many other nationalities making up the 15-republic Soviet Union.

Often, say foreign graduate students studying in Moscow under exchange arrangements, there is more than a little racial arrogance in the Russian student's makeup. Frequently a foreign visitor notes his Russian colleague ridiculing a Mongol or some other dark-complexioned student from Soviet Central Asia. Gossip about one incident involving a student from Africa has assumed proportions of a scandal.

The incident occurred some months ago at a university dance. Foreign students tell it this way: The Negro wanted to dance with a white Russian girl. She refused him. Later he tried to cut in while she danced with a Russian stu-

dent. The Russian challenged the Negro to meet him outside. There the Negro was waylaid by a group of Russian students. The beating landed him in a hospital.

HURT SCHOOL

The incident may have been more of a student brawl than actual racial antagonism. But it had an effect upon other foreign students. Indeed, it affected their attitude toward the new "People's Friendship University" announced by Soviet Premier Nikita Khrushchev.

This school, scheduled to open in the fall, is to be for African, Asian and Latin American students up to the age of 35. It will offer free tuition and dormitories, living allowances and free travel to and from Moscow. Plans are to open with an enrollment of 500, to be expanded to 5,000 in three years.

This school will be entirely separate from Moscow University's student body, with separate facilities and separate faculties. And it is arousing some resentment among foreign students who say they feel it will be a means of isolating them from the Russian students. Already some are calling it "Apartheid University."

About 1,500 foreign students are studying in Moscow. The great majority are from Asia and the Middle East, about 120 from black

Africa. The Soviet student body numbers 14,000, including 5,000 at the university's downtown branch.

PRIVILEGED CLASS

The Russian students seem to consider themselves a privileged class. They must be financially privileged to afford this state-run university. The living allowance for a Russian student in the first year is only 250 rubles monthly (\$25 at the tourist rate). A student cannot live on that. Since the institution of working one's way through school is virtually unknown, he must get money from home.

The system appears to have produced a social group dedicated to the status quo—keeping things as they are. There seems to be little political restlessness among university students. Lives and activities are fairly well controlled by units of the Komsomol (Young Communist League).

The attitudes of Russian students have produced adverse reaction from many a student from countries in the underdeveloped world, where communism is most anxious to make an impression. One graduate American student observed that Moscow University will be sending back to that area many a confirmed young anti-Communist.

NARROW MINDS
An Egyptian reports his dismay

at the straitjacketed minds of the Russians. He looks on the students as young people wearing blinders, unwilling to look at outside ideas and satisfied to surrender individuality to the state.

Students from Asia, coming from families accustomed to high living standards, express shock at the low level they have noted in the U.S.S.R. Some resent Russian attempts to use them for political purposes, such as endorsements for this or that slogan or propaganda circus. Others resent what they see as the obvious aim of the "People's Friendship University"—indoctrination of young people from underdeveloped areas.

Western students in Moscow say it is practically impossible to penetrate the minds of most of the Russian students. They have been indoctrinated in Soviet dogma since birth and are accustomed to the rigid disciplines of life in a Communist society.

There are some indications that educated young Russians resent the more obvious crudities of Premier Khrushchev on the world stage. Like many an average Russian, the students, too, pin their hopes for a prosperous future to better relations with the United States. Khrushchev's blasts at President Eisenhower have had little discernible effect upon the friendly attitude of the students toward Americans.

The students display a lively interest in one phase of life abroad: the West's living standards. They express eagerness for the day when they will be able to travel independently and see it for themselves. And it seems highly likely they harbor some resentment against the regime for its restrictions on that sort of travel.

NEXT: The Changes Since Stalin

Texas' Present Poet Laureate Is Busy, Gets A Kick Seeing His Name In Print

KINGSVILLE — The Poet Laureate of Texas is a retired dentist who gets just as much of a kick out of seeing his poems in a country newspaper as in a slick magazine.

Most Texas Poets Laureate are retiring persons and seldom heard from. Not so in the case of the reigning chief poet, Van Chandler of Kingsville.

It's not only that Chandler figures the art of poetry is advanced by getting the word around that Texas has a Poet Laureate. He frankly doesn't mind seeing his name in print.

"Any writer who says he doesn't get a thrill out of it just isn't being honest," Chandler says.

Chandler is a good public speaker. He accepts invitations at the drop of a hat, and varies his speech according to whether he is speaking to high schoolers, college students, a service club or other writers.

He has traveled thousands of miles carrying on the "business" of his office. He made a personal appearance at a Dallas banquet, on National Poetry Day as a guest of the Composers, Authors, Artists

Guild at Houston, before the Legislature in Austin, the Victoria Kiwanis Club, and as far south as Harlingen.

Busy as he is, Chandler keeps on writing poems. One recently won the Cinquain Contest of the California Poets Haven. He has two books in print—"Night Alone" and "Petals Fall."

Chandler wouldn't pretend to anyone that writing poetry makes him a living or finances his travels as Poet Laureate of Texas. He did well in dentistry and also acquired some rental property here.

Both Employment, Unemployment Up In Texas Over Last Year, Records Show

AUSTIN (AP) — There were more people without jobs and more people working last month in Texas than in May 1959. The Texas Employment Commission said Wednesday employment in May was 38,100 over the same month a year ago and 20,300 over April 1960. The unemployed increased 8,600 over May 1959 but was down 4,100 from April. Some 3,447,100 were employed in Texas as of May 15 while the jobless total was 163,900. The labor force rose by 48,300 during the past year. The commission attributed the April-May decline in nonfarm employment largely to the release by mid-May of some 4,500 of the 7,600 census takers added in April.

Police, Fire Officials Urge Safe, Sane Weekend

By JACK RADER
Emphasis this weekend will be on having a good time, but residents are warned not to let their enthusiasm get out of hand—some might wind up in a hospital bed, or a coffin. Holidays tend to bring a care-free attitude on the part of many, and this extends to driving. The National Safety Council pleads not to be too carefree.

"Don't get carried away with feelings of independence on Independence Day. Traffic laws are for your protection," the council said. The Big Spring police department will be working doubly hard to keep local traffic under control and lessen the tendency of motorists to involve themselves in accidents.

RADAR PREPARED
Lt. Stanley Bogard, head of the traffic division, said that radar would be in constant use during the period from Friday evening through Monday, July 4th. In addition, every officer in the division will be working extra hours. "We don't want a fatal accident or even a serious one to mar the weekend," he said.

The department will be working closely with state and county law enforcement officers, according to Chief E. J. Banks. "We will do everything possible to minimize the number of accidents," the chief said. The Texas fatality prediction for the holiday period is 27. "We hope

that figure does not include anyone from Big Spring," Bogard said. "We also hope that 27 is a high prediction and is never reached."

Traffic accidents, while a major threat to the residents during the holiday, are not the only way to end up in a hospital or on the undertaker's table.

OTHER ACCIDENTS
Fires, accidents in the home or at a picnic site, or the ever present Fourth of July hazard, the firecracker, all can cause injury, and sometimes death.

Fire Marshal A. D. Meador said that caution with firecrackers could not be given enough stress. "As dry as it is now, the danger of fires starting from fireworks becomes a real threat."

"So far this month our fire loss has been exceptionally low, less than \$500, and we don't want to spoil it at the end," Meador said.

Youngsters and adults were reminded that a city ordinance prohibits shooting fireworks inside the city limits. If you must shoot fireworks, be careful — not only fires, but also personal injury can result from mishandling.

Of course, "careful" should be if an accident does happen, help is as close as the nearest telephone.

A call to any police agency is enough to summon an ambulance

Beauty For Patients

ENGLEWOOD, N. J. — Englewood hospital, working on the theory that women feel better when they look their best, has instituted a "bloom closet" for dispensing beauty service.

Women patients receive the beauty treatments either at the hospital's modern salon or at their beds by means of a "glamor wagon."

The project is sponsored by the hospital's auxiliary.

Compares Ears

LITTLE ROCK, Ark. — County Judge Arch Campbell decides paternity suits by comparing ears of male children with ears of purported fathers.

Campbell says that during his 10 years on the bench he has determined 17 characteristics of the ear that may be inherited by sons from their fathers, and mainly relies on these in deciding such cases.

Campbell adds that the test does not apply for fathers and daughters.

U.S. Might Resume Atom Weapon Tests

By JOHN M. HIGHTOWER
WASHINGTON (AP) — U. S. officials are beginning to talk about a possible resumption of nuclear weapons tests if Nikita Khrushchev wrecks the nuclear test ban negotiations at Geneva.

The Soviet Premier's action in pulling Communist bloc delegates out of the disarmament conference, also at Geneva, has led to speculation that he may also upset the test ban talks.

Such action by Khrushchev would at least force President Eisenhower to take a serious look at the U.S. moratorium on weapons testing which has been in force since October 1958.

The United States, Britain and the Soviet Union are negotiating at Geneva for a treaty which would impose a ban on tests under a system of international inspection. Under the U.S.-British proposal, the ban would apply to all experimental explosions of nuclear weapons except small underground blasts. Eisenhower has stated his readiness to maintain a moratorium even on those, pending development of a detection system which would justify covering them also in the treaty.

NOT CERTAIN
Washington officials said today the Soviet walkout from the disarmament conference could be duplicated in the nuclear test talks but they were by no means certain that it would.

Unless Khrushchev has discarded all caution, they said, he must consider the price he would have to pay in an indignant world opinion.

The price relates particularly to the possible resumption of actual testing of new nuclear weapons. By ending the negotiations at Geneva, Khrushchev would destroy the basis upon which all three nuclear powers have refrained from testing explosions and would therefore put himself in the position of forcing Eisenhower to consider starting a new test series.

In fact, the President may have to deal with the issue anyway by this fall. High officials in the Defense Department and Atomic Energy Commission have long been worried about the effect of an unpoliced test moratorium on this country's over-all military position in relation to the Soviet Union.

TESTING NEEDED
They say testing is needed for nuclear weapons development and contend this country should not be denied the advantages of testing for a very long period without the protection of an inspection system.

Gives Them The Bees-Ness

LABELLE, Fla. — A new version of the game "chicken" in which schoolboys tested their bravery by turning over beehives — has been squelched by authorities.

Police said that, on a dare, a boy would sneak up to a hive, flip it over, then flee with the bees swarming in pursuit. Some were painfully stung.

County Judge R. M. Harris promised punishment worse than bee stings if they persisted.

All agreed to give up the game and some probably were glad to have the opportunity.

Teens Reward

STUEBENVILLE, Ohio — Students at Jefferson Union High School offered their help and money to track down vandals who damaged their school bus and chopped down trees in front of the high school.

Principal K. W. Christopher says high school clubs posted a \$100 reward for the apprehension and conviction of the vandals.

to make sure that the Soviets are not secretly engaged in underground tests.

These pressures on the President are well known and have been widely reported in the past. The State Department authorities have appeared confident, however, that the President would very likely continue the moratorium to the end of his term provided the negotiations at Geneva continued to make some slow progress toward agreement on a treaty.

If Khrushchev put an end to all prospects for progress he would undercut the basis for the moratorium. Then those in the government who favor continuing the test suspension would have little argument left except perhaps that in resuming tests, the U.S. also would risk offending large elements of world public opinion.

In neutralist countries and even in Allied nations where the fear of nuclear war is strong the opposition to any more tests, even underground, is powerful.

U. S. officials believe Soviet strategy probably does not call for the development of new nuclear bombs and warheads beyond those they already possess. But the Soviets, it is believed here, want to prevent the United States from perfecting new weapons for its own arsenal.

Queen Contestant

Wanda Boatler, daughter of Mr. and Mrs. M. H. Boatler of Big Spring, leaves Friday to attend the West of the Pecos Rodeo and Miss Boatler will be a queen candidate in the rodeo, held July 1-4, and is sponsored by the Big Spring Mounted Patrol. She will ride her horse, Sweetheart.

VET PENSIONS

Sliding Scale, Based On Need

(This is the last in a series of stories on the new veteran pension law which becomes effective July 1.)

A sliding scale of pension payments based on need is one of the most significant changes in the new pension law for World War I, World War II and Korean veterans.

At present, any World War I, II or Korean conflict veteran, if he is single and drawing a pension, receives \$66.15 a month unless he is 65 years of age or older, or has been on the pension rolls 10 years, in which event he draws \$78.75. Those who become blind, or so helpless as to require the regular aid and attendance of another person, receive \$135.45 per month.

The new system is planned to relate the amount of pension paid to the need of the pensioner. Thus a veteran without dependents may receive a pension of \$85 a month

if his annual income is not more than \$600; \$70 a month if his income is above \$600 but not more than \$1,200; and \$40 a month if his income is more than \$1,200 but not more than \$1,800. If his annual income is more than \$1,800 he receives nothing.

ONLY DIFFERENCE

A veteran with dependents at present receives the same amount of pension as the single veteran receives. His only advantage is that he may continue to draw the pension if he has an annual income as high as \$2,700 whereas the single veteran cannot draw a pension if his annual income exceeds \$1,400.

Under the new system a veteran with one dependent may receive \$90 a month if his annual income is not more than \$1,000; \$75 a month if his annual income is more than \$1,000 but not more than \$2,000; and \$45 a month if his annual income is more than \$2,000 but less than \$3,000. If his annual income is more than \$3,000, he receives nothing.

A veteran with two dependents may receive monthly pension payments of \$95, \$75 and \$45 in the same three income ranges noted above. A veteran with three or more dependents may receive monthly payments of \$100, \$75 and \$45 in those income ranges.

Under the law, all pensions will be increased \$70 a month for veterans who require regular aid and attendance.

Leonard Bartel Attends NMSU Science Course

Leonard C. Bartel, mathematics and science teacher at Big Spring High School, is among 94 teachers from 29 states attending a special summer institute at New Mexico State University.

Co-sponsored by the National Science Foundation, which was awarded a \$116,000 grant for the institute, and New Mexico State University, the institute is designed for high school teachers of mathematics and science.

It is an intensive, eight-week program in mathematics, chemistry, physics and biology. Its course material is designed to bring high school teachers up to date on new developments in the rapidly changing science and mathematics fields.

Bartel is taking courses in mathematics and chemistry.

New Mexico State University in southern New Mexico is an institution with about 3,000 on-campus students. It operates four undergraduate schools in engineering, education, agriculture and home economics, and arts and sciences, plus a Graduate School.

First Bale Gets Lowest Price

HARLINGEN, Tex. (AP)—The first bale of 1960 cotton sold for \$1.10 a pound at Austin Wednesday. It was the lowest price in the history of the annual auction sponsored by the Harlingen Chamber of Commerce.

The 457-pound bale brought \$502.70. However, Ray Barnick of Mission, the grower, will receive \$1,000, the auction price guaranteed by the chamber plus \$1,500 in cash prizes.

Fred Paschall, Harlingen clothing store owner, was the buyer. First bales have sold as high as \$6.25 per pound in previous auctions.

Oil Operator Dies In Abilene

ABILENE, Tex. (AP)—The body of Warren Fitch Pilcher Jr., 42, was found in his car Wednesday in northwest Abilene. Officers said he had been dead since Monday or Tuesday.

A justice of the peace withheld a verdict pending further investigation.

Pilcher, an independent oil operator, formerly lived in San Angelo.

House Approves Bracero Bill

WASHINGTON (AP) — The House approved Wednesday a 2-year extension of the program

under which Mexicans are brought to this country to work on farms. It defeated an amendment offered by urban and Eastern Democrats to guarantee that no Mexican labor could be used if American migrant workers were available. The bill, which now goes to the Senate, would continue through

June 30, 1963, the program first inaugurated in 1951 to help Southwestern fruit and vegetable growers harvest crops. Critics argued that 60 per cent of the Mexicans are now used to pick cotton instead of food crops and that others drive trucks and tractors, work in canneries and do other jobs that should go to Americans.

Here's The Secret of Greener Grass

One—fill the Scotts Spreader with clean, odorless TURF BUILDER®. Two—set the dial to 6. Three—walk! As you go, the Scotts Spreader distributes TURF BUILDER evenly over the whole lawn. No need to water in. How's that for an easy way to feed grass the beauty-building diet it needs?

More and more folks are coming to us for advice on improving their lawns through an easy-to-follow Scotts Program. Come in anytime. We'll be glad to prescribe the correct Program for your lawn.

Save \$5! Scotts Spreader (16.95) plus Turf Builder (4.75) both only 16.70!

Plenty Post Office Boxes—All Rented

This is a view of the lock boxes at the post office not seen by the general public. It is the "working" side and Orbin Dally, one of the post office staff, demonstrates how the box mail is distributed. Despite the number of lock boxes, there is always a waiting list of applicants for the service. The post office says there is no way to augment the supply.

Box Rental Due At Post Office

By SAM BLACKBURN
Quarterly rental on lock boxes at the Big Spring Post Office is due Friday.

If you are one of the small army of Big Spring residents who would like to have a post office box—don't let the rental due date fool you.

The 1,102 patrons of the Big Spring post office who have such boxes have no intention whatever of letting their "rent" go unpaid. And there will be no boxes available after July 1—just as there are no mail boxes available now. Nor, for that matter, have any mail boxes been available for a long, long time.

NO SOLUTION
Elmer Boatler, postmaster, and his associates in the post office

have pondered the problem a long time—trying to figure out just how additional lock boxes might be added to the supply. No workable solution has developed.

So when residents inquire hopefully if there are any boxes available, the best the staff can do is reply:

"We have none but we will put your name on the list."

That list is long. More than 50 names are on it now. Some have been on it a long, long time.

About the only time a box becomes available is when some resident who has one moves to another town. When this happens, the post office staff notifies the man whose name is at the top of the list and, of course, everyone edges up a notch.

The lock boxes at the post office are in three sizes. The quarterly rental runs from \$1.70 for the small boxes to \$4.50 for the king-sized ones.

ANNUAL RENT
Majority of the box patrons pay their rent by the year. Inside the post office working area, the boxes are identified by the names of the renters. The color of the slip bearing the name is the clue to whether the rent is paid quarterly or annually. Pink name slips indicate annual rental payments and these pink slips are much in evidence.

All available space for boxes is utilized. It has been suggested that the west wall of the lobby be redesigned in a series of short halls. Such a plan would enable the office to install a large number of additional boxes but it would have the disadvantage of taking up most of the lobby. The lobby is not too large even as things are now.

A suggestion has also been made that the service windows at the north end be closed out and all operations shifted to the southeast section. A hundred or so boxes could be installed in the area where the windows are now located.

1,102 BOXES
So far, however, none of the suggestions advanced has been held workable. And the number of boxes remains static—1,102.

Unless the long unrealized dream of a new post office building becomes a reality, the probability remains there will always be a shortage of mail boxes available for rent in Big Spring.

Texas Weather Leaves Tokens Of Wet Days

By The Associated Press
Fair weather covered Texas Thursday but snakes in Houston and a flooded park in Victoria were reminders of the tremendous rains that started to fall on the state just one week ago.
The days and days of heavy showers in coastal sections caused millions of dollars of property damage and claimed many lives. Water from the Guadalupe Riv-

er, six inches above flood stage, flooded a section of the city park in Victoria Wednesday. Early Thursday 600 yards of the road through the park was under water and closed to traffic. Flood stage on the river is 28 feet and Police Dispatcher Alton Oliver said Thursday the river was at 28 1/2 feet and expected to crest at 29 feet during the day.
He said no persons had been evacuated from their homes. But civil defense officials at Victoria said that if the river reaches 29 feet additional flooding will take place in low lying areas along the river where an estimated 50 to 60 persons live.
Houston and north Harris County residents were warned to be alert for snakes as floodwaters in that city receded.
"The snakes have been stirred up by the floods and certainly we can assume there are a number of

copperheads and water moccasins loose," said Conrad Hinshaw, assistant director of county flood control engineers.
The Harris County sheriff's office reported all county highways had been reopened. But State Highway 35 between West Columbia and Blessing remained closed Wednesday.
Seven farm roads and State 111 were closed in the Port Lavaca area because of the floods. The heavy rains and flood waters hit hardest at Port Lavaca.
Temperatures early Thursday ranged from 71 degrees at Dalhart to 82 at El Paso. No rain fell early in the day and none fell Wednesday.
The temperature soared to 111 at Presidio Wednesday and the low maximum was 87 at Corpus Christi. El Paso had 108, San Angelo and Van Horn 103, Wichita Falls 102 and Wink and Dalhart 100.

Board Orders Token Integration

MIAMI, Fla. (AP) — The Dade County School Board, by unanimous vote, has ordered token integration of two schools in North Miami Beach.
The board Wednesday voted 4-0 to admit a Negro girl to Fulford Elementary School and her sister to North Miami Beach Junior High. The girls are Barbara and Rosetta Pearson, who live in the area.
Fulford will become the third elementary school in Florida to be integrated, all in Dade County. North Miami Beach Junior High will be the first white secondary school in Florida to admit a Negro.
The board denied requests of 12 other Negro pupils seeking admission to white schools. No reasons were given.

Navy Wife Has Only 3

MEMPHIS, Tenn. (AP) — An enlisted man's wife jolted the Navy by giving birth to triplets instead of the expected quadruplets.
Mrs. Thomas A. Box, wife of a chief aviation technician, Wednesday night went into labor prematurely. The first of the triplets—two boys and a girl—was born about midnight.
The Memphis Naval Hospital's jackpot expectations were chilled earlier by an X-ray taken when the early labor started.
"A film was made to determine the exact position of the babies," said Capt. Fitz J. Weddell. "This

film revealed only three fetal skulls."
Weddell said the previous X-ray had shown what was interpreted to be four infants—which would have been a one in a million case.
Weddell said additional X-rays were not made earlier "so as to avoid unnecessary exposure of unborn babies to excess radiation."
Mrs. Box, 38, and her husband who is 40, already were the parents of four children, ranging in age from 20 years to 20 months.
The Navy said Mrs. Box and the three additions to the family were apparently doing well.
Odessan Killed
ODESSA, Tex. (AP) — James Leighton, 35, of Odessa, died today in a one-car accident just east of Odessa on Highway 80.

New Wagon Wheel Drive-In

Wagon Wheel Drive-In No. 3, located at 2105 West Third Street, opens for business Friday. The new establishment will offer the same service as the other two drive-ins have in the past; but one

additional feature will be an open barbecue pit, and the drive-in's specialty will be barbecue, according to Mr. and Mrs. H. M. Rainbolt.

**Rainbolts Open 3rd
Wagon Wheel Drive-In**

Free lemonade, valuable wooden nickels, and a specialty of the house, are the features being sparked for the grand opening Friday of the third Wagon Wheel Drive-In Restaurant in Big Spring. Mr. and Mrs. H. M. Rainbolt report the new drive-in will continue the same good service and well prepared food that has marked their other restaurant operations in the city.

The new drive-in is located on the west side of the city, where 3rd and 4th Streets join. The address is 2105 West 3rd. Although it has been open since Monday, the official opening is slated Friday.

Al Bagwell, manager of the Wagon Wheel Drive-ins, said all customers Friday will receive free lemonade. Some lucky customers will find wooden nickels left on their trays, which will be worth five cents toward paying the bill at any Wagon Wheel Drive-in in Big Spring.

Bagwell pointed out that the new Drive-In, No. 3, will feature barbecue as a specialty. "We have an open barbecue pit and will have

plenty of that West Texas favorite," he said.

The manager explained that 15 employees are on hand to serve curbside customers. Besides the added feature of barbecue plus the usual friendly service, customers may order cokes, coffee, malts, shakes, hamburgers, sandwiches and full dinners of various kinds.

The opening of the third drive-

Dog Loses Pal

OGDEN, Utah (AP) — Man's best friend lost one Tuesday.

J. Seth Wright, 21, was minding his business in his back yard when his father called out that a dog was floating down a nearby canal.

Seth ran to a bridge and reached down to help the dog. Man's old buddy bit Seth on the neck and chin. Seth's doctor patched things up.

in comes a little less than five years after the opening of the first. Wagon Wheel Drive-In No. 1 was opened for business on Sept. 20, 1955 on the east edge of the city.

Wagon Wheel No. 2 was taken over in March, of 1958, on the south side of the city.

Friend Was A Snake In The Grass

DENVER (AP) — There was a look of disbelief in his eyes as Daniel Alarid eyed his pet, Junior. "I can't understand it," he said. "We've been the best of friends."

Junior, a rattlesnake Alarid found in the desert, struck the 22-year-old laborer in the hand as Alarid posed with his pet for a reporter and photographer for the Rocky Mountain News.

Carhop Now Wary Of Hungry Folk

INDIANAPOLIS (AP) — A carhop at an Indianapolis restaurant promises to cast a wary eye at the next customer who orders 50 hamburgers.

Jerry B. Mills, 18, said he took the king-size order to three men in a car at the White Castle restaurant Tuesday. He told police the driver pushed him away and sped off.

Lyndon Supporters Urge HST To Change Mind On Meeting

WASHINGTON (AP) — Supporters of Sen. Lyndon B. Johnson hoped today Harry S. Truman would change his mind about boycotting the Democratic National Convention and would publicly announce his support of the Texan.

They were known to be trying to persuade the former president to reconsider his decision, announced Wednesday, to withdraw as a convention delegate from Missouri and to stay away from the Los Angeles sessions.

Truman himself gave no immediate explanation. Sen. Stuart Symington of Missouri, who has had Truman's active support, insisted Truman still is backing him and he is "running hard as a candidate."

But supporters of Sen. John F. Kennedy of Massachusetts read into Truman's announcement a possible collapse of Symington's candidacy and a big boost for their hopes of a first-ballot nomination for Kennedy.

SPECULATION

Short of a clarification of his motives by Truman himself at a news conference he has called for Saturday in Independence, Mo., speculation among the politicians was rife.

But it boiled down to this: 1. That Truman has decided Symington can't make the grade, and doesn't want to go to Los Angeles and fight a losing battle. 2. That Truman suspects a "deal" between Symington and Kennedy and wants to be no part of it.

The possible deal, suggested by a strong backer of Symington, would give Symington a place in the Cabinet if Kennedy becomes president. Presumably, the Missouri senator would be named secretary of defense, a position to which he has aspired since his service as secretary of the Air Force.

3. That Truman has personal reasons for not wanting to go to Los Angeles. This theory was discounted by Truman's decision to hold a news conference. He hardly would summon newsmen from far and wide for a personal announcement, but might for a major political statement.

BLAST AT BUTLER

4. That Truman is dissatisfied with the manner in which Democratic National Chairman Paul M. Butler has organized the convention and wants to disassociate himself from it. His Saturday press conference may be a blast at Butler. Butler himself said, "I don't know anything about it at all," and added his last word was that Truman was planning to attend the convention.

Republican National Chairman Thurston B. Morton came up with his own idea which was promptly challenged.

Morton charged in a statement that "a deal has been made for a Kennedy-Johnson ticket" at the convention. He contended this was supported by Wednesday's agreement to recess Congress because, he said, "if Sen. Johnson were going to Los Angeles as a presidential candidate he would not leave the major work of Congress undone—as it now is."

SILLY SEASON

Johnson quickly replied that "the silly season is on and I am sorry that it is affecting people who otherwise talk some sense."

Truman made his surprise announcement in the form of a telegram to Missouri Gov. James T. Blair Jr., which said simply: "I have decided not to go to the Democratic convention. I am resigning as a delegate. I am sorry I cannot be there with you."

Blair, attending the national governors' conference at Glacier National Park, Mont., said Truman had talked with him before sending the telegram but had declined to explain his decision.

Blair said later he understood the action was based on personal reasons involving the illness of Truman's brother-in-law, Frank Wallace.

Newsman had asked the former President whether there might be a health reason, to which he replied: "I feel fine. Mrs. Truman feels fine. There is no health reason."

He declined to say more except to promise an explanation at a Saturday news conference.

Mother Difficult Subject For TV

By CYNTHIA LOWRY AP Television-Movie Writer

NEW YORK (AP) — Mother— young and middle-aged, slim and comfortably rounded—is the most frequent figure in TV commercials, a research firm has concluded. But in commercials as in real life, women must be handled with care.

For instance, says the current bulletin of Scherwin Research Corp., "commercials that depict mother confronted by mountains of dirty clothes and skyscrapers of unwashed dishes have usually failed—and often boomeranged."

Not only do homemakers dislike commercial stress on the drudgery involved in daily routine, but they don't like ones that depict mother as an incompetent before she bought the product.

Researchers also found that commercials depicting mother as a "super-efficient jill-of-all-trades" failed to do well (that means that they failed to sell the product, of course) because they were not believed by the ladies but disliked by their viewing husbands who shrink from the idea of dominating wives.

What does go down well with the women in the TV audience is the "maternal mood commercial"—mother and child in a peaceful, romantic setting with mood music, says Scherwin. Another successful approach to mother's pocketbook is the sort of commercial which shows—for instance—a listless child restored to normal happy energy. But this can be overdone: A commercial which definitely was not effective, showed a once-tired child restored to such bursting energy he was dragging mom into a set of table tennis.

Radiation-Limits Space Voyages

LOS ANGELES (AP) — Space travelers in the immediate future will have to limit their trips to 130 days, a meeting of scientists was told Wednesday.

David Reitz, advanced design engineer for the Martin Co., told the Institute of the Aeronautical Sciences that 130 days is long enough for a visit to the moon—but too short for exploration of Mars and Venus.

Reason for the limit, he said, is radiation. He said that for trips of more than 130 days a space cabin measuring four by five feet in volume would require 40,000 pounds of shielding—more than rocket boosters can presently carry into space.

Carbon Black Plant

HOUSTON (AP)—Plans to build a million dollar carbon black plant on the upper Texas Gulf Coast at a site between Freeport and Orange were announced Wednesday by Columbian Carbon Co. The plant would have a capacity of eight million pounds of carbon black a year.

Police Chief Points To Growing Problem

By JACK RADER
Lack of adequate teen-age recreation centers was cited by Police Chief E. J. Banks as a principal cause for a seemingly growing rate of juvenile delinquency in Big Spring.

Chief Banks pointed out that gathering places for youngsters also draw young toughs. "If we had an organized center where the good ones could have their dances and parties, the trouble makers would stay away."

"As it is, the bad ones congregate in the same places as the ones who don't give us any trouble and that's when we have a problem on our hands."

The chief, on the job two weeks here, said he has detected a much greater volume of juvenile delinquency and minor offenses than any "organized gang-type criminal activity."

"I spent the better part of one day this week talking with three sets of parents whose boys were involved in delinquency," the chief said.

ON VACATION
The county juvenile officer, A. E. (Shorty) Long is currently away on vacation and the police department is bearing the load of the juvenile problem. "But really there is little we can do with them," Banks said.

The juveniles who break the law constitute a continual thorn for policemen.

"There is little punishment because they are protected by law according to their age—and they know it," the chief said.

A juvenile officer, trained for the job and with the time to spend with these offenders, is one answer to the problem, and a good answer, Banks said.

In addition to the great number of youthful law-breakers in Big Spring, Chief Banks said he

had noticed that the rate of minor offenses seemed very high.

"The reports coming across my desk show a lot of arrests for

Byrnes Needles Court Setup

HOUSTON (AP)—The U.S. Supreme Court this year has leaned more to the conservative side but the close 5-4 decisions "give a lot of power to one man," James F. Byrnes said Wednesday.

The 78-year-old Byrnes, a former Supreme Court justice, secretary of state and South Carolina governor, will be the principal speaker Thursday at the 78th annual convention of the State Bar of Texas.

Byrnes told a press conference "There used to be a lot written about the 5-4 decisions being on the liberal side. Now they are more on the conservative side. This gives a lot of power to one man, don't you think?"

Other speakers at today's session of the convention include A. J. Foley, state bar president from Amarillo; W. St. John Gardwood of Austin, former associate justice of the Texas Supreme Court; and Chief Justice John E. Hickman of the Texas Supreme Court.

An internationally famous civil rights attorney said Wednesday a new fight to save Howard B. Stickney from death in the electric chair will be made.

O. John Rogge of New York City made the announcement while speaking before the Criminal Law Institute of the convention.

Among the attorneys in his audience was Dist. Judge Miron Love, who presided over the trial in which Stickney was convicted for the 1958 murder of Shirley Elaine Barnes.

Two days ago Love formally sentenced Stickney, now 21, to die August 12 at the State Prison at Huntsville. The Supreme Court turned down an appeal two weeks ago.

drunkenness, vagrancy, petty thefts, minor break-ins, fights and disturbances."

NO MAJOR CRIME
Major crimes do not seem too much of a problem here, however, Banks said, alluding to such things as safe burglaries and armed robberies. "Most of these, when committed here, are the work of a transient element rather than any local organized gang."

While the number of hardened criminals operating in Big Spring seems to be zero, the constant activity of "punks" gives the police plenty to do.

Chief Banks said he particularly noticed what seemed to him an increase in the amount of this petty activity during the past week.

"I don't know whether or not this past week has just been an exceptionally busy one, but I do know we have had our hands full with juveniles and minor offenses."

Against Kennedy

James R. Hoffa, president of the Teamsters Union, tells newsmen in Washington, that if Sen. John F. Kennedy (D-Mass.) and Vice President Richard Nixon, Republican, are rival nominees for the presidency, he would urge the teamsters political organization to back Nixon. Hoffa's antagonism to Kennedy stems from Kennedy's participation in the Senate labor racketeering investigations and in bringing about a compromise on the labor law.

Bus Drivers Order Picketing

NEW YORK (AP)—Insurgent drivers ordered mass picketing today in an attempt to widen their wildcat strike into a total shutdown of the city's biggest private bus company.

Attempts to do it by picketing bus garages failed Wednesday. The 1,500 strikers rallied their forces Wednesday night for stronger maneuvers today.

The strike has caused an almost complete shutdown of the 21 lines of the omnibus division of the Fifth Avenue Coach Lines Inc.

The division's 733 buses carry a half million passengers on a normal day.

Passengers turned to other means of transportation—private bus lines, city-owned buses, city subways, taxicabs or walking. There was no transportation crisis.

The Transit Workers Union, to which the drivers belong, has declared the strike unauthorized and unnecessary and has ordered the men back to work. The strike started in spotty fashion Monday night. It quickly spread and by late Tuesday had crippled the omnibus division.

Barber Shop, Post Office Have Part In Couple's Anniversary

By ANNE LOFEVER
In 1909, the proximity of a certain barber shop to the post office in Cross Plains made it very convenient for the owner of the shop to check on the incoming mail each day as well as have a short visit with the assistant postmistress, an attractive young lady.

THE J. M. WARRENS ... to note anniversary

Sunday, the two will observe their 50th wedding anniversary. Mr. and Mrs. J. M. Warren will have a family reunion at their home, 409 W. 8th, to celebrate the occasion. No formal observance is planned, but friends are invited to call during the day.

Mrs. Warren is the former Callie Martin, whose father was at one time a rancher near Big Spring. She remembers that at the time, there was only one house between Lubbock and Big Spring—a house on the Slaughter ranch. Antelope were plentiful at the time the Martin family lived on the small ranch, and Mrs. Warren recalls the town of Big Spring as a site of board walks, saloons on many corners and pigs in the streets.

It is with pleasure that she speaks of the all-night dances given on various ranches, when guests would drive 40 miles for the occasion. Barbecue would be prepared along with a huge washpot of coffee, and nobody wanted to sleep while the music lasted.

Mrs. Martin's grandfather was one of the first known white men to visit the spring from which the town derived its name; he was a lad of 16 and had come to West Texas on the trail of Indians who had stolen horses in Fort Worth. For several days the group had been on scarce water rations when they discovered the spring.

Warren's family came to Texas from Alabama and settled in Callahan County near the present site of Abilene. So pleased were they with the surroundings that letters to the folks back home brought many settlers from Alabama to that part of the country, Warren said.

One of his memories is of a trip through Big Spring in 1902, when the stage was pulled by six small mules; the team was changed

about twice between Big Spring and Lamesa, he recalls. About a year of his courtship of Miss Martin (whom he considered "too serious-minded") the couple was married at the home of a Rev. Mr. Austin. In a buggy, they sat under a huge oak tree, which is famous in that part of the state for the hundreds of couples who have exchanged vows in its shade.

A few years ago, when the Warrens had returned to Cross Plains for a homecoming, a check was made to see if the tree still stood; it did, now by the side of a paved highway on what at one time was a sandy road.

Warren, who owned a barber shop in Big Spring after they moved here in 1915, retired about 15 years ago. Gathering at the home Sunday will be the two sons and their families, Mr. and Mrs. Paul Warren and Dr. and Mrs. Lorin Warren, both of whom live in Big Spring.

Also present for the celebration will be three grandchildren—all boys. Take Heater On Vacation To Cool Spot

If you're planning a vacation in the mountains or the north country, here's a bit of advice Take along a portable electric heater. It may mean the difference between fun and discomfort.

Vacation areas in these locales are noted for their crisp, cold nights this time of the year. While many may advertise that heated accommodations are available, the heating systems referred to are not always the most efficient.

That's when a portable electric heater comes in handy. Just plug it into a wall outlet, and within minutes, the temperature in your cabin or cottage will have climbed into the comfort zone.

Experts at a major producer of such heaters, recommend units equipped with fans. A fan-equipped heater will distribute warm air throughout a room much faster than one that operates only by radiation. Also, the warm air flow can be directed through doorways, enabling the vacationer to warm two or more rooms at the same time.

Mr. and Mrs. William Woodard, Mr. and Mrs. Clyde Smith of Lubbock were guests of Mrs. Smith's mother, Mrs. Willie Byrd, over the weekend. Twenty-four attended the Youth Rally at First Baptist Church in Snyder Monday night. Mrs. Lyle of Haskell has been visiting her daughter, Mrs. Kenneth Andress, and family.

Three Are Honored By Club

Two showers were included in the party for members of the Three-Six Club when they met in the home of Mrs. Edward Miller Tuesday evening.

Baby gifts were presented to Mrs. William McHugh, whose mother, Mrs. Carl Schultz of Park Forest, Ill., was a guest. Farewell gifts went to Mrs. Thomas Glover and Mrs. Paul Drake, who will be leaving soon for new home towns. Mrs. Glover will go to Wichita Falls; Mrs. Drake to Everez, France.

Winners in the bunco games which were the diversion, were Mrs. John Homberg, first; Mrs. Vincent Best, second; Mrs. Glover, third; Mrs. Elbert Ross, consolation, and Mrs. Doyle Irwin, a guest, low.

Mrs. Harry Heise will be hostess on Aug. 9 in the home of Mrs. Miller, 201-A Hunter.

Open House Will Honor Lamesans

LAMESA — Mr. and Mrs. W. W. Brown are to be honored at an open house from 2 to 5 p.m. Sunday at their home, 1108 S. 12th St. in honor of their 61st wedding anniversary.

Friends are invited to call and visit with them and their four children and their families who will be present for the weekend. The children are S. E. Brown, Route A, Lamesa; Jim Brown National Bank, and the retired minister recalls that sand was piled high around the frame courthouse.

The pair lived in Lamesa from 1923 to 1925; they moved back to Dawson County from Abilene to make their home here in 1958. Rev. Brown had been a minister for 38 years before his retirement. Both are 80 years of age; they have eight grandchildren and four great-grandsons.

Candlelit Center Used In Worship Of Thomas Circle

Candles representing four types of Christians were a part of the worship center for members of the Reba Thomas Circle of First Methodist Church.

The circle met in the home of Mrs. Edward Moren, where Mrs. Charlie Staggs brought the lesson from the book, "Luke's Portrait of Christ." Mrs. John Knox lighted candles as Mrs. Staggs spoke.

Others participating were Mrs. Anne Ratliff, Mrs. Roy Roseme and Mrs. Lige Fox. Mrs. O. G. Hughes will complete the term of Mrs. E. H. Nichols, who resigned from the office of treasurer.

Bride-Elect
Mr. and Mrs. Mike Davidson, of Ackerly, have announced the engagement and forthcoming marriage of their daughter, Barbara, to L. B. Hudgins. The prospective bridegroom is the son of Mr. and Mrs. Buster Hudgins of Lamesa. The pair plans to be married the latter part of July.

Rogerses Hear Of Granddaughter
Morris Lyn is the name given the daughter born to Mrs. Morris F. Rogers, Pensacola, Fla., and the late Lt. Rogers, June 27.

The baby, who weighed 6 pounds 12 ounces, is the granddaughter of Mr. and Mrs. H. J. Rogers, 1502 Tucson, and Mr. and Mrs. Moreno Mathis of Pensacola. She has a 14-month-old sister, Kathy Rudelle. Lt. Rogers, a jet student pilot, was killed in a plane crash near Beville, May 19.

Springfield Family Gathers For Reunion
ACKERLY—A reunion was held at the B. O. Springfield family home Sunday with children and grandchildren present.

Children attending included Mr. and Mrs. Happy Phillips and son of Dallas; Mr. and Mrs. L. A. Springfield and children of Kermit; grandchildren were from Orland, Calif.; Lubbock; Jal, N. M.; Snyder, Big Spring and San Diego, Calif.

Mrs. Springfield and Dawn, Mrs. Myrtle Sikes and Marcia Rhea accompanied Darrell Springfield back to his home in San Diego Monday.

New WSCS Organized

A new Women's Society of Christian Service has been organized at the newly-organized Methodist Church, corner of 10th and Main.

Mrs. Raymond Hamby was elected president by the 12 who attended the Wednesday evening service.

Vice president is Mrs. Clifford Hale, Mrs. C. W. Parmenter is secretary and Mrs. C. C. Miller is treasurer. Mrs. Ruth Cobb was selected to attend the school of missions in Lubbock.

The new WSCS will meet every second and fourth Wednesday at 7 p.m.

Picnickers Will Find Good Buys In Local Markets
By The Associated Press
Plenty of watermelons, ice cream and lemons are ready for those July 4 picnics. All are on the list of plentiful foods and are available in abundance this week.

Texas food markets also are well supplied with bananas and cantaloupes this week. Increased shipments of fresh peaches are evident as another huge crop moves in volume from Texas, Louisiana, Arkansas and California.

Vegetables on the good-buy list include cabbage, carrots, corn, lettuce, onions and green onions, peas, potatoes, tomatoes and okra. Peppers, onions, watermelons and cantaloupes are priced a shade lower this week than last, the Agricultural Marketing Service says.

Carrying higher price tags are avocados, celery, cucumbers, lettuce, potatoes, squash and tomatoes. Most other fresh items are steady.

Mangoes from Florida and Mexico are appearing in limited supply in some areas. You may find more fresh apricots than normal in Texas markets as a result of difficulties in California processing plants. First New Jersey blueberries arrived in Texas this week.

All kinds of dairy products, eggs, pork and beef remain in good supply. You'll find more turkey available all this month.

Twice As Much
Cornstarch and flour do not have equivalent thickening power. If you are substituting flour for cornstarch in a sauce, you'll have to add twice the amount.

WAVES To Hold Dallas Reunion

Stella Mae Lanham, 1412 Ainslee St., Midland, has been named area chairman for the National WAVES Reunion by Commander Aileen Griffin, USNR, national chairman for the 18th reunion of the so-called "Peticoat Navy."

The reunion, to be held in Dallas, July 29-31 will feature Texas style entertainment ranging from a fashion show at Neiman Marcus to a western rodeo honoring the WAVES.

Mainbocher, who designed the WAVES' uniform, will be honored at the Friday night awards dinner. Rear Admiral F. B. Warder,

commandant of the Eighth Naval District, will open the reunion. Rear Admiral William F. Raborn Jr., director of special projects (including the Polaris missile program) is expected to be the speaker for the Saturday birthday luncheon.

All former WAVES are especially invited to attend and bring their husbands and children. More than 30,000 women served in the WAVES during World War II, and over 5,000 are currently on active duty from Alaska to Africa, as well as in continental United States.

Those interested in attending the WAVES reunion are requested to get in touch with Miss Lanham.

French Cuisine
From the French: brown a tablespoon of butter and stir in a teaspoon of vinegar; pour over a couple of fried eggs. Call the eggs au beurre noir.

Weddings Make News In Westbrook Circles

WESTBROOK — Travis Livingston, student at Hardin-Simmons University, Abilene, was in Westbrook over the weekend to visit friends and perform the marriage ceremony for Linda McMahan and Glenn Wallace Sunday afternoon at the Baptist Church.

Mr. and Mrs. Rex McKenney and Joyce were accompanied by Mr. and Mrs. Marvin Dorn to Lubbock to attend the wedding of Mr. and Mrs. Dorn's granddaughter, Sandra Frankline Conway, to Bill Bevins of Tulsa, Frankline is the daughter of Mr. and Mrs. Frank Sterns Conway of Corpus Christi. Both the bride and bridegroom were students at Texas Tech.

Janella Williamson is in Midland this week as a guest of her cousin, Mary Morris. Guests in the Keith Williamson home were Mr. and Mrs. Lowell Williamson

of Inglewood, Calif., and Mrs. J. W. Williamson of Starr. Doyle Langford of Westbrook and Keith Rutledge of Ackerly have been visiting Mr. and Mrs. Myles of Dove Creek, Colo. They plan to return home Wednesday.

Mr. and Mrs. Herman Parsons and Melanie have returned home from Abilene, where Parsons underwent major surgery at Hendricks Memorial Hospital.

Donna Sue Henderson accompanied Mr. and Mrs. O. C. Palmer and Ann of Colorado City to George West for a visit with Mr. and Mrs. William Woodard.

Mr. and Mrs. Clyde Smith of Lubbock were guests of Mrs. Smith's mother, Mrs. Willie Byrd, over the weekend.

Twenty-four attended the Youth Rally at First Baptist Church in Snyder Monday night. Mrs. Lyle of Haskell has been visiting her daughter, Mrs. Kenneth Andress, and family.

ALMOST everything has CHANGED

... but a free press is still
the indispensable safeguard
of all our freedoms!

Shown here: Front page of one of the leading revolutionary newspapers, reporting the signing of the Declaration of Independence. Despite its austere appearance, it had aggressive politics.

NEWS THAT SHAPED OUR DESTINY

No headlines – no pictures, yet this newspaper packed a wallop as it relentlessly urged our forefathers to fight for liberty.

We've come a long way since then. Now the miracle of electronics communication brings us the news as it happens; photography, modern typography and art reproduction graphically illustrate and punctuate ideas.

But no matter how the world changes,

But in the last analysis, American newspapers remain, as they were in the pioneer days of John Peter Zenger and Benjamin Franklin – champions of the people and undaunted voices of liberty.

our American heritage can only be upheld through a free press.

Through the printed page the citizens can examine the issues, go over them point by point among themselves and make their wishes known at the polls.

Of course, today's newspapers have expanded to meet other public needs. They offer entertainment, advertising, illustrated and helpful articles, as well as a wider variety of news.

GARY TIDWELL

Gary Tidwell Wins Degree

Gary Tidwell, son of Mr. and Mrs. Roy Tidwell, 1510 Main, is a June graduate at the University of Texas. He received a bachelor of fine arts degree with a major in radio television.

Tidwell is a graduate of Big Spring High School, where he was vice-president of the student body, on the year book staff, a cheerleader, and active in DeMolays, Hi-Y, and Key Club.

He attended Austin College in Sherman before entering the University. He was recognized as an honor roll student this year, and was nominated for four awards: outstanding director, producer and person of KUT-FM, the university radio station; and for most valuable student at radio house.

He was also a member of a television play during this school year, and was employed as program director for the station and also by KVET radio station in Austin, where he was a member of the news staff.

In August, Tidwell married his high school sweetheart, the former Helen Faye Boyd, daughter of Mr. and Mrs. Douglas Boyd, 1303 Runnels. She is a 1959 graduate of Big Spring high school where she was engaged in many activities. She graduated from a beauty school in Midland that year.

Upon graduation, Tidwell and his wife moved to Beaumont where he will be news director of radio station KRIC.

Both Tidwell and his wife are Methodists and attend the Trinity Methodist Church.

Killed By Car

LUFKIN (AP)—Dennis Berry, 16, a Negro, died when he fell from his bicycle Tuesday into the path of a car.

Active Webb AFB Captain Leaves For France July 20

Another Webb oldtimer leaves for overseas next week as Capt. Neyland F. Allen Jr., adjutant of the 3560th Pilot Training Squadron, goes to Evreux AB, France. He will be deputy administrative services officer of the 322nd Air Division.

A native of Fort Worth, Capt. Allen has been a real "organization man" at Webb, helping organize and lead many of the base's more active clubs and societies. He served as chairman of the Credit Union's credit committee, vice president of the Tumbleweed Toastmasters Club, coach of the Webb AFB Rifle Team, and treasurer of the base's Sportsmen's Club; he has also been active in Masonic affairs and in National Sojourners activities.

His wife, the former Earnestine Woodward of San Angelo, has been active in Officers' Club programs, has served as a Red Cross Grey Lady, and has taught Sunday School at St. Mary's Episcopal Church in Big Spring.

Capt. and Mrs. Allen have a daughter, Amy Chapman Allen, 18 mos. The couple will visit the Captain's parents, Mr. & Mrs. Neyland F. Allen, in Tyler, from July 2 until he goes overseas, on July 20. Mrs. Allen will then visit her parents, Mr. and Mrs. E. G. Woodward in San Angelo, until she receives her port call to join her husband.

A graduate of Arlington Heights High School, Fort Worth, and The University of Texas, Capt. Allen

IN LAKE THOMAS

Commission Seeks Signs Of Blue Catfish, Roughs

By JAMES WILCOX
Texas Game and Fish Commission
Personnel of the Texas Game and Fish Commission's staff of aquatic biologists have recently sampled the fish population of Lake J. B. Thomas in order to determine the extent of infestation of rough or undesirable fish and the condition of game fish.

This survey is made every year by biologists so current data can be maintained from which management and stocking recommendations can be made.

ABUNDANT

The representative sample of fish taken in the nets set by the staff indicates that rough fish (carp, suckers and shad) are very abundant in Lake Thomas but have not increased in number as much this year as they did last year and the year before. Although the commission is experimenting with ways and means of controlling undesirable fish, no practical method has been found to eliminate all types of rough fish without also effecting game fish.

However, since rough fish have not multiplied as steadily this year as they have in past years the game fish have not been further crowded and the outlook for fishermen is not bad.

A great many young channel catfish were found and white bass were also abundant in the nets. Flathead or "yellow" catfish were plentiful.

CRAPPIE TAKEN

A lot of crappie were taken in the sample, but most of these were small. The samplings indicated there are still quite a few largemouth bass in the lake but the larger bass are hard for the fisherman to catch because there is so much natural food (shad and other forage fishes) the bass had rather have than the fisherman's bait.

Largemouth bass are stocked in Lake Thomas every year by the state fish hatcheries.

Last fall, 4,500 small blue catfish were stocked in Lake Thomas by the commission in order to provide another species of fish for the angler. It was also an effort to help control the rough fish population by acting as a predator on undesirable species.

None of these fish were recaptured by the biologists so it is not known how much they have grown or if they are going to reproduce in the lake. It does not mean they are not still there, however, because catching any of 4,500 fish with as many fish as Lake Thomas has, is difficult.

HOW TO TELL

Any fisherman, who catches a

Copter Trip Follows Stations

RICHMOND, Va. (AP)—Lt. Lowell W. Roberts and Sgt. Henry Sours of the Virginia National Guard volunteered to bring a surplus Army light reconnaissance helicopter from Tucson, Ariz.

It took six days instead of the estimated three. They had to follow highways on the watch for filling stations because of the small gas tank.

After averaging 20 miles an hour against headwinds at one point they bought two five-gallon cans, filled them with gasoline and tied them to the copter.

4-H Clubbers Attend Camp

Howard County 4-H clubs are sending eight delegates to the 4-H Club Leadership Camp for District 2 at Lubbock July 6, 7 and 8. There are 20 counties in District 2, and each county is entitled to send four girls and four boys.

The delegates selected from the 4-H clubs of this county are: Donald White, Bobby Adkins, Glenn Holley, Lanny Proctor, Nancy Norman, Teresa Foster,

Martha Robinson and Karen Jackson. They will leave for Lubbock on July 5. Jimmie Dee Jones, home demonstration agent; Jimmy Taylor, county farm agent; and Lovell Kuykendall, assistant county agent, will accompany the county delegation to the meeting.

Braggart

TUCSON, Ariz. (AP)—Tucson police said they had to admire the honesty of a man stopped for drunk driving. "How many drinks have you had?" a patrolman asked. "I'm not going to lie," the man said. "I had six bottles of beer and four glasses of vodka."

IN LAKE THOMAS

Commission Seeks Signs Of Blue Catfish, Roughs

By JAMES WILCOX
Texas Game and Fish Commission

Personnel of the Texas Game and Fish Commission's staff of aquatic biologists have recently sampled the fish population of Lake J. B. Thomas in order to determine the extent of infestation of rough or undesirable fish and the condition of game fish.

This survey is made every year by biologists so current data can be maintained from which management and stocking recommendations can be made.

ABUNDANT

The representative sample of fish taken in the nets set by the staff indicates that rough fish (carp, suckers and shad) are very abundant in Lake Thomas but have not increased in number as much this year as they did last year and the year before. Although the commission is experimenting with ways and means of controlling undesirable fish, no practical method has been found to eliminate all types of rough fish without also effecting game fish.

However, since rough fish have not multiplied as steadily this year as they have in past years—the game fish have not been further crowded and the outlook for fishermen is not bad.

A great many young channel catfish were found and white bass were also abundant in the nets. Flathead or "yellow" catfish were plentiful.

CRAPPIE TAKEN

A lot of crappie were taken in the sample, but most of these were small. The samplings indicated there are still quite a few largemouth bass in the lake but the larger bass are hard for the fisherman to catch because there is so much natural food (shad and other forage fishes) the bass had rather have than the fisherman's bait.

Largemouth bass are stocked in Lake Thomas every year by the state fish hatcheries.

Last fall, 4,500 small blue catfish were stocked in Lake Thomas by the commission in order to provide another species of fish for the angler. It was also an effort to help control the rough fish population by acting as a predator on undesirable species.

None of these fish were recaptured by the biologists so it is not known how much they have grown or if they are going to reproduce in the lake. It does not mean they are not still there, however, because catching any of 4,500 fish with as many fish as Lake Thomas has, is difficult.

HOW TO TELL

Any fisherman who catches a

fish which he thinks might be a blue catfish, is urged to show it to one of the lake patrolmen so data on it can be recorded. The only reliable method of determining a blue catfish is by counting the number of rays or soft spines in the anal fin (the fin on the under side of the tail). If there are 30 or more of these spines in this fin, the fish is a blue catfish. If there are less than 30 rays, it is a channel catfish.

DEAR ABBY

FOR DOGS

By Abigail Van Buren

DEAR ABBY: How come there are all kinds of laws to protect smelly, rotten things as dogs? It looks to me like dogs have more rights than people. Just let me do all the things dogs do and I'll be in jail.

find nothing immoral in our relationship, but the questions put to me were humiliating and insulting. I'll never get over it. My firm "suggested" I resign, which I did gladly, as I couldn't face my co-workers after all that nasty publicity.

Maybe printing this letter will put the brakes on some unsuspecting girl who dates married business acquaintances. I wish I had had such a warning.

SILLY SALLY

CONFIDENTIAL TO "WAITING TO GET EVEN": Revenge is like biting a dog back because the dog bit you. And it makes about as much sense. Forget it.

"What's your problem?" Write to Abby in care of this paper. For personal reply, enclose a stamped, self-addressed envelope.

Abby's best-selling book, "Dear Teen-ager" is on sale at all bookstores.

DOG HATER

DEAR DOG HATER: Whoever heard of a skunk, a wolf or a fox saving a life? Or leading the blind? Or protecting a child? Or guarding a home? Or bringing comfort, affection and companionship to a master? Better leave your gun where it is, my friend.

DEAR ABBY: I've been married for three months to a man who can do everything I can do—but he can do it better, and in half the time. He's a much better cook than I am. He loves to wash and iron. And his baking could take a prize. He was the eldest of 12 children and his mother was a widowed invalid, which accounts for it.

I hate housework, but I love business. I had six girls and two men in my department before I quit my job to get married. (My husband was one of the men in my department, my salary almost doubled his.)

Abby, would people think we were out of our minds if I went back to work and my husband quit his job to keep house? My boss keeps calling me. My husband says he would like the arrangement if it weren't for what people would say. We'd like your opinion.

MARY AND MOREY

DEAR M. and M.: All a marriage needs to succeed is two people whose common objective is making each other happy. Don't worry about what "people say". Do as you please.

DEAR ABBY: I was employed by a well-known firm for 21 years. I achieved a fine position and excellent pay. Being a single woman I was frequently invited to dinners and theatres by some traveling business associates. Everything was aboveboard, and I never saw the inside of a hotel room.

Imagine my horror when I was called as a witness in a divorce case! I had had about 12 dates with this married man over a period of two years. They could

CAP Commander

DALLAS (AP)—Lt. Col. Marcus Barnes Jr. of Kilgore has been appointed commander of the Texas Wing of the Civil Air Patrol, Col. James Camp, commander of the CAP Southwest Region, said today.

Bryan Was Wrong One

BRYAN (AP)—The Bryan-College Station Chamber of Commerce has turned down an offer to acquire a statue of William Jennings Bryan, "The Great Commoner." Wrong man.

Retired Brig. Gen. John F. Davis of Washington, a 1971 graduate of A&M, learned that a statue of Bryan had been removed to make room for a new bridge, and was gathering dust in a government warehouse. So he wrote the Bryan chamber that the statue might be available.

The chamber regretfully turned down the idea. Bryan, Tex., was named for William Joel Bryan, a nephew of Stephen F. Austin and an ancestor of Travis Bryan Jr., now president of the Bryan-College Station Chamber. This Bryan rode into his namesake town on the cowcatcher of a Houston & Texas Central railroad (now T&NO) locomotive in 1866 when the railhead reached here.

The Democratic orator and frequent presidential candidate did appear in Bryan once, lecturing at the Carnegie Library.

Hollywood Greats Tell How To Solve Movie Problems

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—How can Hollywood retain the crown it has held for 50 years as the film capital of the world?

The men to ask are the real creators of the movie business. Three such are Walt Disney, George Stevens ("A Place in the Sun," "Shane," "Giant") and Mark Robson ("Champion," "My Foolish Heart," "Peyton Place"). All three have recently returned from trips abroad with new insight to the industry's problems.

How do they view Hollywood's plight? Disney: "We're going through a rough period now, but we've had times of panic before. The thing to do is try to figure how to get out of it."

Robson: "There's no doubt that the picture business is in a terrible state. But it's also true that certain pictures can earn more than ever before."

Stevens: "The picture business is certainly not the same as it was in the days when the big studios ran the town. It never will be the same, either."

What can be done to improve the situation? Stevens: "I think more time must be taken in making pictures. Too many of them are hastily prepared, shot in a hurry and edited just before the producer has to grab a jet to New York. Writers are expensive, so they're

hired for 10 weeks only, then get laid off."

Disney: "We've got to make it more comfortable for people to go to the theater, as well as give them good pictures. Many theaters still have the same seats they had when I started in the business. Many of them have no air conditioning. They've got to get to the jet age."

Robson: "I would like to see no censorship of films. We're in the same position as the theater; we've got to deal with contemporary matters frankly. I would leave it up to the American public what should be shown."

What can be done about encouraging talent?

Stevens: "This business has always been inhibited about developing new talent. We desperately need new stars, new writers, new directors, plus the men who can make deals and provide enthusiasm—call them producers. Perhaps TV can provide them."

Robson: "The big studios must move into the position where they will make film creators actual partners, not just employees."

Disney: "Producers too often are afraid to take a chance on new people because they want the insurance of recognized names. We've got to gamble more."
