Beauty Winners

Victors in the first round of judging in the first annual International Beauty Congress pose in Long Beach, Calif. Left to right: Stella Marquez of Colombia, who won the evening gown competition; Gladys Ascano, of Venezuela; who won an earlier speaking and costume division; and Siry Geirsdottir of Iceland, winner in the play suit division. The first round winners will not necessarily be in the semi-finals because it is possible for a girl to win in one division but be eliminated for poor marks in the other divisions.

Cool Cutie From Iceland Putting Freeze On Rivals

LONG BEACH, Calif. (AP)—A cool cutie from Iceland is stealing the show at the midway point of the International Beauty Congress. Blonde, blue-eyed Sigridur Geirsdottir, 22, has walked off with three honors in preliminary judging of the 52 beauties from all over the world. Her latest triumph was winning the speech honors Wednesday night with a monologue ending, "God Bless America."

Thrills For All When Riders, Stock Meet At Rodeo Tonight

Rodeo time is here again. The contestants are ready and able, the stock is unwilling but just as able, and when they get together tonight at 8 p.m., there will be thrills for all. A downtown parade at 4:30 p.m. today was to serve as a prelude to the rodeo. Cowboys and cowgirls filled the streets, and "cars" gave way to horses again as the hands-of-time turned back to give Big Spring just a breath of the old west again.

When registration of entries closed Wednesday, 119 cowboys and cowgirls had signed up to take their chances in winning a share of some \$3,000 in prize money, trophy buckles for winners in each of the 10 events and a saddle for the all-around cowboy of the show. LOCAL DONORS The buckles are donated by local merchants. Hoyle and Ben Nix donated the calf roping buckle; Loy Acuff, barrel race; D&M Salvage, ribbon roping; Security State Bank, pole bending buckle; State National Bank, goat roping; Wards Boot and Saddle Shop, bull riding; and the First National Bank, bareback bronc buckle. The saddle will be given by the 4-H Club.

The Fifteenth Annual Big Spring Junior Rodeo is sponsored by the 4-H Club and is sanctioned by the American Junior Rodeo Association. All points earned here will be accepted toward national championship awards in the association.

Directors of the event this year are Rodney Brooks, Tommy Newman, Jay Creighton, Wanda Boatman, and "Skipper" Driver. Another director, Jimmy Engle was killed in an auto accident last Thursday.

Events featured in this year's show are bareback bronc riding, bull riding, ribbon roping, barrel racing, pole bending, goat roping, a wild calf race, boot scrambling and goat sacking.

Stock for the show is being furnished by the 4-H Club and Donald Lay of Coahoma. Roland Reid of Fort Worth is furnishing the bucking stock.

The stock is pretty wild stuff. When used here last year, only 11 riders managed to stay aboard long enough to make a qualifying ride.

"It is the same stock used in amateur shows where adults compete," County Agent Jimmy Taylor said.

Contestants in the rodeo are all 19-years-old or under. Many of them have already made a name for themselves in the junior rodeo field and will move into professional competition when they are no longer eligible for the junior rodeo circuit.

Rodeo announcer is Dub Bryant of Big Spring. Toots Mansfield will do the judging chores on the "field" and "the arena" for the show is "arena" style. The show also worked last year's event. Riding judges will be elected by the contestants just before the first show.

Riders drew for stock Wednesday after registration closed. This is important to the cowboys because their rides are judged on both the rider and the animal's performance.

There will be only one go-round in bull and bronc riding due to the large number of entries. In calf roping, ribbon roping, goat hair pulling, barrel racing and pole bending, there will be two go-rounds. Contestants will compete each night in the wild calf race, goat sacking and the boot scramble.

Admission to the rodeo, which will close Saturday, is one dollar for adults and 50 cents for children. A good advance sale of tickets was reported by Taylor.

Looking At The Stock

Freddie White, president of the 4-H Club and Skipper Driver, one of the directors of this year's 15th Annual Big Spring Junior Rodeo look over some of the bad bulls that will be participating in the rodeo starting today and continuing through Saturday.

Jack Pushes Wage Bill, Claims Like Dragging Feet

22 ACCUSED Junior Crime School Broken

NEW YORK (AP) — A "Junior Apalachin" crime school directed by top mobsters and operating from the haunts of the old Murder Inc. gang has been smashed by Brooklyn police.

At least one teen-ager was slain in gangland style by the youthful syndicate as an object lesson to informers, detectives say.

Police swooped down on homes in Brooklyn and Queens in pre-dawn raids Wednesday. They arrested 22 persons, accused of belonging to the crime-school gang and charged them with a series of burglaries that netted a half-million dollars over a two-year period.

Students in the "school" took lessons from established mobsters in murder as well as theft, police said.

Deputy Chief Inspector Raymond V. Martin added: "This was a junior Apalachin group, being groomed for future activities in the crime syndicate."

He said the investigation is continuing and should turn up "some very big names in the following weeks."

The reference to "Apalachin" recalled the gangland meeting in Apalachin, N. Y., on Nov. 14, 1957. Of the 60-odd men attending the meeting, 20 were found guilty in federal court of conspiracy to obstruct justice in not divulging why they were at the conference.

Some are in jail, pending appeal and others are free on bail.

Murder Inc., a murder-for-profit mob with headquarters in Brooklyn, was smashed almost 20 years ago.

Detectives said the "Junior Apalachin" gang apprentices ranged from New York City's five boroughs and even into suburban White Plains, N. Y. They broke into supermarkets, television repair shops and clothing stores.

The burglaries brought the students \$500 or more for a single job. The receivers, also in the ring, passed the stolen goods to higher crime echelons, where the value went to \$10,000 or more.

Martin said he was not prepared to identify the mobsters responsible for the burglary ring and crime school, but would name them later.

The crime school gang was uncovered during the investigation of the gangland murder of a 17-year-old Brooklyn boy June 3.

The victim, Vincent Graffeo, was thrown from a car, beaten and shot five times. His body was found in a gutter in the Bath Beach section of Brooklyn, where the old Murder Inc. mob operated. The area has been the scene of many gangland-style slayings.

Police believed that Graffeo had aroused the suspicions of other members of the gang who were afraid he would talk. He was slain only a few hours before he was to go into court on a charge of possessing burglary tools.

All those arrested were said to have police records. Nineteen were described as members of the burglary ring and three—in the older group—were accused of operating as receivers of stolen goods.

Spotted showers danced across the area Wednesday, deluging some localities while passing up others.

Snyder received 2.62 in a blinding rain that fell within an hour and 40 minutes Wednesday morning. Odessa received .86 of an inch and Midland reported 1.14.

At Lake J. B. Thomas there was a heavy shower at the dam, but at the Big Spring intake some three miles up stream, there was hardly a sprinkle. The lake level was 2,252.47, an increase of .03, principally from the effects of a shower measuring .8 at the bridge on the western end of the lake.

Texas Electric Service Company, in addition to the Snyder report, showed 22 at Sweetwater, .04 at Morgan Creek (southwest of Colorado City), .50 of an inch at Laguna and .53 at Eskola, east of Sweetwater. The Lake Colorado City level was 2,060.50. Colorado City reported .06.

West Scurry County got about 1.50 inches of rain and in the Hobbs community of western Fisher County 2.40 inches were measured.

Odessa To Vote On Bond Issue

ODESSA—This city is scheduled to vote Oct. 4 on bond issues totalling \$4,158,000 for city improvements.

The proposals, scheduled for inauguration within 12 and 18 months will be submitted in nine proposals.

They are: \$1,100,000 in revenue bonds for water filtration plant; \$470,000 for water main improvements and extensions; \$591,000 in revenue bonds for sewer system extensions and improvements; \$310,000 for an open lined and fence drainage channel from San Jacinto Park to the west side of the drainage ditch at W. 16th; \$700,000 in tax bonds for construction of a multi-story city hall; \$300,000 to acquire a site for the new city hall; \$311,000 as the city's share of a \$741,000 underpass on Grant Avenue under the T&P railroad; \$165,000 for street improvements; \$11,000 for a police building elevator.

Humble To Drill Georgia's Deepest

HOUSTON (AP) — Officials of Humble Oil & Refining Co. said Wednesday they had received a permit to drill a 10,000-foot wildcat oil test well, miles north of Gardi, Wayne County, Ga.

The test was said to be the deepest ever drilled in Georgia. It is expected to cost \$250,000. Drilling will begin about Oct. 1.

2 Candidates Let Bosses Have Spotlight

WASHINGTON (AP) — Vice President Richard M. Nixon and Sen. John F. Kennedy apparently are having difficulty shaking out some old political habits.

In a week in which Washington has blazed with partisan fireworks the two presidential nominees have shown such deference to their old bosses that they have been edged temporarily out of the command limelight.

Nixon, the Republican standard-bearer, has waved aside suggestions that he strike out on his own and will follow President Eisenhower's leadership during the campaign.

Kennedy has kept hands off to let his running mate, Majority Leader Lyndon B. Johnson of Texas, manage the Democratic show in a Senate where politics seems to take precedence over almost everything else.

During the debate, Kennedy said the Eisenhower administration took a stand last year against any increase in the minimum wage and only later agreed to accept an increase of \$1.15.

"They were dragged to it," he said, adding this was typical of the way in which the administration has acted with respect to medical care for the aged, federal aid to education, housing, and area redevelopment legislation.

The original position of the administration was in opposition to any action on such legislation, Kennedy said, adding it was only when it appeared that the Democrats were going to act anyhow that the administration offered to compromise.

Barry Goldwater (R-Ariz.) replied that the administration had opposed any increase in the minimum wage last year because at the time "it honestly believed it would be inflationary."

"I don't think the President was dragged or pushed into this at all," Goldwater said of the changed administration position.

But Sen. John A. Carroll (D-Colo.), backing up Kennedy, said the administration has "had to be hauled and pulled step by step into programs good for the American family."

But Sen. John A. Carroll (D-Colo.), backing up Kennedy, said the administration has "had to be hauled and pulled step by step into programs good for the American family."

It is the Democrats who have had to blaze the trail, Carroll added.

Kennedy and his vice presidential running mate, Sen. Lyndon B. Johnson of Texas, have listed the minimum wage bill as one of the major pieces of legislation to be passed at the present session of Congress.

Area Gets Some Rain

Spotted showers danced across the area Wednesday, deluging some localities while passing up others.

Snyder received 2.62 in a blinding rain that fell within an hour and 40 minutes Wednesday morning. Odessa received .86 of an inch and Midland reported 1.14.

At Lake J. B. Thomas there was a heavy shower at the dam, but at the Big Spring intake some three miles up stream, there was hardly a sprinkle. The lake level was 2,252.47, an increase of .03, principally from the effects of a shower measuring .8 at the bridge on the western end of the lake.

Texas Electric Service Company, in addition to the Snyder report, showed 22 at Sweetwater, .04 at Morgan Creek (southwest of Colorado City), .50 of an inch at Laguna and .53 at Eskola, east of Sweetwater. The Lake Colorado City level was 2,060.50. Colorado City reported .06.

West Scurry County got about 1.50 inches of rain and in the Hobbs community of western Fisher County 2.40 inches were measured.

Odessa To Vote On Bond Issue

ODESSA—This city is scheduled to vote Oct. 4 on bond issues totalling \$4,158,000 for city improvements.

The proposals, scheduled for inauguration within 12 and 18 months will be submitted in nine proposals.

They are: \$1,100,000 in revenue bonds for water filtration plant; \$470,000 for water main improvements and extensions; \$591,000 in revenue bonds for sewer system extensions and improvements; \$310,000 for an open lined and fence drainage channel from San Jacinto Park to the west side of the drainage ditch at W. 16th; \$700,000 in tax bonds for construction of a multi-story city hall; \$300,000 to acquire a site for the new city hall; \$311,000 as the city's share of a \$741,000 underpass on Grant Avenue under the T&P railroad; \$165,000 for street improvements; \$11,000 for a police building elevator.

Humble To Drill Georgia's Deepest

HOUSTON (AP) — Officials of Humble Oil & Refining Co. said Wednesday they had received a permit to drill a 10,000-foot wildcat oil test well, miles north of Gardi, Wayne County, Ga.

The test was said to be the deepest ever drilled in Georgia. It is expected to cost \$250,000. Drilling will begin about Oct. 1.

Thinks President Will Sign Measure

WASHINGTON (AP) — Sen. John F. Kennedy, accusing the administration of dragging its feet on welfare measures, said today he is going to try to get his minimum wage bill passed without major change.

And the Massachusetts senator, the Democratic presidential nominee, replied "oh, yes" when asked by a reporter if he thought President Eisenhower would sign the bill.

Senate debate on the controversial measure got under way Wednesday night, bringing Kennedy to the forefront in the swirling, politically charged battles of the post-convention session for the first time since his nomination.

The bill would increase the present \$1-an-hour minimum wage to \$1.25 in three steps and extend the protection of the wages and hours act to five million additional employees.

During the debate, Kennedy said the Eisenhower administration took a stand last year against any increase in the minimum wage and only later agreed to accept an increase of \$1.15.

"They were dragged to it," he said, adding this was typical of the way in which the administration has acted with respect to medical care for the aged, federal aid to education, housing, and area redevelopment legislation.

The original position of the administration was in opposition to any action on such legislation, Kennedy said, adding it was only when it appeared that the Democrats were going to act anyhow that the administration offered to compromise.

Barry Goldwater (R-Ariz.) replied that the administration had opposed any increase in the minimum wage last year because at the time "it honestly believed it would be inflationary."

"I don't think the President was dragged or pushed into this at all," Goldwater said of the changed administration position.

But Sen. John A. Carroll (D-Colo.), backing up Kennedy, said the administration has "had to be hauled and pulled step by step into programs good for the American family."

Kennedy and his vice presidential running mate, Sen. Lyndon B. Johnson of Texas, have listed the minimum wage bill as one of the major pieces of legislation to be passed at the present session of Congress.

Back To School For Bad Drivers?

Drivers found guilty of moving traffic violations in the city may be going to school, rather than paying a fine, if a recommendation of the Big Spring Traffic Commission for a driver education school is approved.

Members of the commission voted Wednesday night to recommend the program to the Big Spring Commission for official action. The traffic commission also voted to recommend establishing a 15 mile per hour speed zone and use "Safety Sally" signs around schools, and to discontinue participation in the National Safety Council.

The driver education school as approved Wednesday is similar to that which operated under the old Citizens Traffic Commission.

At the discretion of the corporation court judge, the guilty driver has a choice of paying a fine or attending a five-session traffic school. The commission agreed that second offenses, however, should draw both the fine and school.

The course, which the commission hopes to begin in September, is conducted by off-duty police officers, as well as outside instructors, with lectures on accidents, driving laws and general safety information. Tests are given throughout the course.

It is recommended that policemen should be paid their regular wages for time spent in class and that outside instructors be paid at the police scale.

OPPOSITION The 15 miles per hour speed limit around schools was approved with opposition. Commission member Jack Y. Smith voted against the proposal, maintaining that 20 miles per hour is much more realistic with modern cars. The speed limit is presently 20 miles per hour.

Other members present were in accord with the recommendations of Bruce Dunn, executive secretary, for the lower speed limit. Voting for the recommendation were Emmett McKinzie, Jerry Worthy, George Oldham and Coy Nalley. Glenn Coates presided during the meeting.

As proposed in the recommendation, "Safety Sally" signs, metal caution signs, will be placed at intersections. New crosswalks will also be painted at street corners.

Dunn met previously with school officials who approved the use of signs, crosswalks and a low speed limit. C. W. Tanner, appointed by Supt. Floyd Parsons as school safety coordinator, was present at the commission meeting. School boy patrols, also approved by the schools, were recommended as a possibility in the future.

The commission recommended no longer subscribing to the National Safety Council program on the grounds that the city receives little benefit from it.

It costs the city \$50 a year to belong to the council, according to Dunn. In return, the Council sends monthly publications and safety campaign material to the city.

The police department traffic division spends one day each month filing out a report for the Council for use in compiling national traffic statistics. The Council also rates the city at the end of the year, comparing it with other cities of comparable size in the nation.

A plan for designating loading zones for areas downtown was turned over to the committee on downtown area and parking for study.

Mike Gets Royal Buss On Arrival In Akron

By SAM BLACKBURN AKRON, Ohio — Young Mike Smith, Big Spring's hope for the 1960 Soap Box Derby championship, was given a royal welcome here today.

When he checked in at 10 a.m. Mike was kissed by two pretty girls while camerae clicked and television crews pictured him.

Shortly before noon he was whisked off to Derbytown (a YMCA camp turned over to Derby contestants), but not before his cargo of 200 horned loads created a big sensation. Mike had a big problem keeping them for contestants because Akronites wanted them. One person offered to buy a bunch of the rugged critters, but Mike stood firm.

Ike At Mike

President Eisenhower speaks at his first Washington news conference since July 6. The President said it is a little bit silly for Democrats to contend it would take many weeks to enact the legislative program he has proposed.

Cosmic Rays White Hair

SAN ANTONIO (AP)—Cosmic rays will turn America's space pioneers prematurely and permanently grey but won't harm them otherwise, a top Air Force space medicine scientist believes.

Lt. Col. David G. Simons of the School of Aviation Medicine at Brooks AFB here is confident he knows what he's talking about—it's already happened to him.

Simons, who holds the world record for manned balloon flight, said the hair on his arms turned grey after he soared to 101,000 feet in 1957.

Black mice sent aloft by rocket last year turned grey within two months after their return to earth and scientists believe that another group of rodents sent up last month will develop grey streaks due to destruction of coloring material in the follicles from which their fur grows.

Aside from that, Simons and his associates believe radiation detected by the latest series of balloon flights isn't dense enough to harm astronauts.

Radiation at an altitude of about 25 miles is almost the same as what America's first spacemen will encounter during their 4½-hour flights 150 to 200 miles above the earth, Simons said.

A man making one of the balloon flights would have survived the radiation easily, Simons said.

Dr. George Crawford, nuclear research officer at the school said detecting devices indicate that the 14-hour flight exposed the mice to less radiation than a man would receive from a medical chest X-ray.

Elaborate entertainment has been planned not only for the boys, but also for the parents and for visiting reporters. Akron is gaily decked in flags and the weather is clear, hot and humid.

Celebrities are due to arrive Saturday morning and will spend considerable time with the boys at Derbytown.

In all, there are 168 racers on hand from 28 states and ready for the big moment Sunday afternoon. Mike is one of the youngest contestants, but not the smallest. That distinction goes to one 12-year-old lad who weighs only 73 pounds.

Bobby Grives, Odessa, representing Midland, is among the 10 Texas contestants here.

**Return For Tour**

Mr. and Mrs. J. W. Klahs (left) and children, Joe and Linda, toured Webb AFB recently, conducted by Capt. Allen R. Robertson, information officer. First stop on the tour was the Base Chapel, which has replaced the wartime structure in which the Klahs were married in 1943.

**Missouri Couple Returns For Visit At Webb AFB**

An easy-day air alumnus revisited Big Spring and Webb AFB this week for the first time since World War II. He discovered that there have been plenty of changes made.

Joseph W. Klahs and wife, Audrey, of St. Louis, Mo., expressed amazement at the development which has taken place at Webb and in Big Spring since the sergeant's tour here from November, 1942, to April, 1943. They, and children Joe, 13, and Linda, 11, were taken on a tour of Webb by Information Office personnel.

This return trip to West Texas was a sentimental journey for the Klahs, for Klahs married Audrey Schwake in the air field chapel on July 17, 1943. They had written to Chamber of Commerce and base officials recently, inquiring as to the possibility of visiting the base again.

It was still the "Army Air Corps" and "Big Spring Army Air Corps Bombardier School" when Klahs went to work in the Armament Section on the line. The local field was really his only Stateside duty station, for he spent only a few weeks at Jefferson Barracks and other temporary stop-over bases during the war.

By wartime travel restrictions and duty schedules and by the fact that the sergeant was catching weekend rides home with cross-country bombardier students whenever possible.

The Klahs said that the impression of southern hospitality which they obtained during wartime days was being deepened on this trip. The ex-sergeant noted that Webb AFB is considerably greener than he remembered Big Spring Army

Air Field to be. He saw a few buildings which still stand to recall the earlier era, and on the flight line he saw another still active reminder of War II days—the "Gooney Bird", the Air Force's perennial workhorse C-47 transport plane.

The Klahs left Big Spring for Del Rio, San Antonio, points in Louisiana and, eventually, home again in St. Louis.

MAJ. H. B. WILHOIT

**Wilhoit Named Safety Officer**

Maj. Harris B. Wilhoit has been appointed Wing Flying Safety Officer, replacing Capt. Stanley E. Corvin, who leaves Aug. 17 for permanent assignment at Randolph AFB, San Antonio.

Maj. Wilhoit is a command pilot with a total of 5,673 flying hours to his credit—1,660 of which is jet time. He has flown C-47, C-45, T-28, T-6, P-47, B-25, T-33, F-80 and F-86 aircraft.

The major's combat experience covers 432 flying hours in 174 missions during World War II and the Korean conflict. He flew P-47 Thunderbolts with the 371st Fighter Group in Europe and was credited with destroying one FW-190 and three Me-109s over France and Germany. In the early stages of the Korean Conflict he chalked up 110 missions, with the 49th Fighter Group.

Maj. Wilhoit scored a "big double" very recently when he made a perfect score in three months' studies at Craig AFB's Basic Instructor School, Ala., and returned here to coach the first student who soloed in Webb's current Class 61-D.

Born at Hartford, Ky., he now makes his home at Owensboro, Ky.

**331st Airmen Enter AF Safety Program**

The 331st FIS at Webb AFB is starting its second month of the Air Defense Command's lifesaver campaign. The purpose of the nation-wide program, which began on July 1 and ends on Dec. 31, is to make all ADC personnel safety-conscious and to decrease the number of ground accidents.

A similar campaign was held by ADC in 1959 and resulted in an overall reduction in ground accidents by 25 per cent. With this

profitable result, it was decided to make the campaign a yearly function.

The campaign is open to all ADC personnel who have not had an accident or moving traffic violation in the past year and keep their records clear during the campaign's six month period. All eligible personnel must also fill out the official entry card available within the squadron.

By offering incentive prizes of three 1960 automobiles, color and stereo photographs, camera-projector sets, and automobile seat belts—a high pitch. The prizes were donated by business firms.

To keep up the interest, one of the prize drawings will be held half-way through the contest in October.

Project officer for the campaign is Lt. Robert I. Pettit, 331st FIS Ground Safety Officer.

**NORAD Has Special Series**

A new North American Air Defense Command transcribed radio series entitled Face to the Future will begin in Big Spring Saturday.

The thirteen quarter-hour presentations broadcast the voices of civilian, military, and professional world leaders who will speak about 13 influences on our future as we progress toward the year 2000.

The 13 subjects in the series are: birth rate, political science, communications, theology, sustenance, gravity, law, medicine, vehicle engineering, security, superposition, machined mentality, and primordial power.

A few of the contributors in the series include Scott Crossfield, the X-15 pilot; Arnold Toynbee, British historian; Dr. Max Nussbaum, Rabbi of Temple Israel in Hollywood; Dr. Hubertus Strughold, research adviser, Aerospace Medical Center; General Laurence S. Kuter, commander-in-chief, North American Air Defense Command; Mr. and Mrs. Robert Kardell, a couple mated by a machine; Lt. Cmdr. Alan B. Shepard Jr., one of the seven astronauts; and Dr. Oscar Schachter, General Counsel of the United Nations.

This series was produced by the North American Air Defense Command in cooperation with many scientists, engineers, political and military leaders. The 331st FIS at Webb AFB is an interceptor squadron in this NORAD organization. The program will be heard on KBST.

**Easterling To Get M.A. Degree**

Billy J. Easterling, Big Spring will be one of 12 students to receive master of education degrees at McMurry College's summer graduation.

The commencement speaker is Dr. Poe Williams, pastor of McFarlin Memorial Methodist Church at Norman, Okla. Dr. Williams moved to Norman in July from Oklahoma City where he had been pastor of the First Methodist Church.

Two honorary doctor's degrees will be conferred on the Rev. Tilden Bennett Armstrong, pastor at Andrews, and on the Rev. John Lucian Carpenter, pastor of St. John's Methodist Church in Santa Fe, N.M.

**Honor Degrees**

ABILENE (AP)—Hardin-Simmons University will confer honorary doctorates Aug. 19 on T. C. Bateson, Dallas contractor; and Dr. R. H. Cagle of Colorado Springs, a general missionary of the Colorado Baptist General Convention. The degrees are in recognition of service to the Baptist denomination and to Christian education.

**Siberian Sendoff**

MOSCOW (AP)—One thousand demobilized Soviet soldiers were given a sendoff Wednesday for Siberia and new jobs on state farms.

Before boarding their train they got rousing pep talks from officials and flowers and kisses from their girl friends. A band furnished the musical background at a suburban Moscow station.

It was the second time this summer that Western newsmen have been invited to attend a demobilization ceremony, part of Premier Nikita Khrushchev's announced plan to demobilize 1,200,000 members of the armed forces.

**Germans Seek Modern Arms**

BONN, Germany (AP)—The official publication of Chancellor Konrad Adenauer's government urges that West German naval units be equipped with the most modern weapons capable of firing conventional and nuclear rockets.

The government bulletin said Wednesday that NATO naval forces in the Baltic Sea lack the minimum defensive power to keep the Soviets from breaking out into the Atlantic in case of war.

**Jury Indicts Priest For Rape**

EDINBURG, Tex. (AP)—A Hidalgo County grand jury Wednesday indicted a Roman Catholic priest, the Rev. John B. Feit, 27, on a charge of assault with intent to rape.

Dist. Atty. R. L. Lattimore filed a charge naming Father Feit last week on a complaint signed by Miss Maria America Guerran, 20, a student at Pan American College.

The district attorney said the girl told him a man seized her

March 23 as she knelt in prayer in Sacred Heart Catholic Church. She bit his finger as they struggled, she said, and the man fled. Sheriff's officers have been unable to find Father Feit. Fred Seaman, told Lattimore he was representing the priest and would deliver him to authorities in "about three weeks."

**Seminar Slated**

The Abilene Junior Chamber of Commerce is to sponsor a seminar against communism Saturday at the V.F.W. Hall in Abilene. William F. Strube Jr., secretary of the Anti-Communist Christian Crusade will conduct the lecture series. Registration is at 8:45 a.m. with seminar sessions at 9 a.m., 2 p.m. and 7 p.m.

DEAR ABBY

# WHAT, NO TIPS?

By Abigail Van Buren

DEAR ABBY: I can't speak for all beauty operators or "cosmetologists", as I prefer to be called—but for myself, NO TIPS. PLEASE!

I studied hard and long for my diploma and consider myself a professional woman, and a "tip" is an insult to me and to my profession. All I ask is that you make some lady happy and that she return again and again and again.

Very truly yours,  
"PROUD"

DEAR "PROUD": Yours is a very noble sentiment. You must be independently broke.

DEAR ABBY: We have a nice home in a nice section of town and have lived here for several years. About a year ago a new family moved next door. A man, his wife and three children, ages ranging from 8 to 15. They seem to be very nice and we see them going to church regularly. They're courteous and friendly but we have never been in their home and they have never been in ours.

Last Sunday afternoon I got up on our roof to put a new lead on our TV antenna and to my amazement I saw the whole family sitting on the patio in the nude! There is a six-foot fence around their yard so unless a person was on the roof or a ladder he couldn't see this. Is such a practice legal? We hate to cause any trouble, but suppose a child were to climb the fence and see such a sight??

SHOCKED

DEAR SHOCKED: A lawyer can tell you what's "legal". What people do quietly in the privacy of their own homes (whether you approve or not) is their own business.

DEAR ABBY: I have a problem which I hope you won't think is

silly. I asked my mother about it and she laughed at me.

I hate to eat with my father. When he swallows he makes a big, gulping noise that goes through me like chalk scraping on a blackboard or somebody pinching a balloon. I want to hit somebody when I hear it. Do you understand what I mean, Abby?

I make up excuses to get out of eating with him. Like saying I have to eat early because I am getting a hunger headache. Or say I'm not hungry at mealtime and will eat later.

Don't tell me to see a psychiatrist because I am not crazy. I am 16.

NOT CRAZY  
DEAR NOT CRAZY: Many people have reactions they don't understand, and you apparently are one of them. You don't have to be "crazy" to consult a psychiatrist. Many who have sought to understand their fears, frustrations, and perplexing reactions have gained that insight with professional help. But first, talk to your mother again. It's no laughing matter.

CONFIDENTIAL TO "OLLIE": Put your cards on the table and quit trying to drink yourself under it.

If you want a personal reply from Abby, write to her in care of the Big Spring Herald and enclose a stamped, self-addressed envelope. She answers ALL letters.

## History Lesson

BERLIN (AP)—A student accused of trying to revive nazism has been ordered to take a special one-year course in history and pass a strict test on it before he can continue his studies at West Berlin's Technical University.

## Showers Fall On South Texas

By The Associated Press

A band of scattered showers fell on portions of southeastern and South Central Texas early Thursday as a weak frontal zone continued to drift slowly southward.

Early Thursday the zone was across southeastern Texas westward into the Del Rio-Eagle Pass area.

The effect of the cooler air to the north of the front and the gradual clearing brought a pleasant night to most portions of Texas.

An area of scattered thunderstorms Thursday was bounded by Marlin, Temple, Lampasas, Goldthwaite, Fort Hood and Moody.

Rain helped firemen control a grass fire Wednesday about 16 miles north of Stephenville. Heavy rains fell in much of the state during the day.

A storm interrupted electrical service Wednesday night at Giddings in Central Texas. A bank of transformers behind a building occupied by The Giddings Star was hit by lightning causing a delay in publication of the paper.

Rainfall for the 24 hours ending at 6 p.m. included Junction 2.83 inches, Sherman 1.67, Wink 1.56, Amarillo 1.36, Midland 1.14, Galveston .99, Abilene .92, Laredo .80, Dallas .70, Fort Worth .57, Dalhart, El Paso and San Angelo .30 and smaller amounts at many other points.

Temperatures early Thursday ranged from 57 at Lubbock to 78 at Corpus Christi.

## The Right Name

ANKARA, Turkey (AP)—Lightning killed four Turkish villagers Wednesday. One victim was named Yildirim, which means bolt of lightning.

## Dallas Teachers Get Salary Hikes

DALLAS (AP)—The Dallas School Board Wednesday night approved salary increases for most of the system's personnel ranging up to \$150 a year for teachers

and \$250 for principals.

The school district's 4,400 teachers will receive about \$600,000 more in the budget for the coming school year as a result of the pay raise. Salaries make up the major portion of the school budget, expected to be more than 45 million dollars.

## Segregation Down

WASHINGTON (AP)—Racial segregation has ended at lunch counters of major variety store chains in 69 Southern communities, executives of the firms have told Atty. Gen. William P. Rogers.

Big Spring (Texas) Herald, Thurs., August 11, 1960 3-A

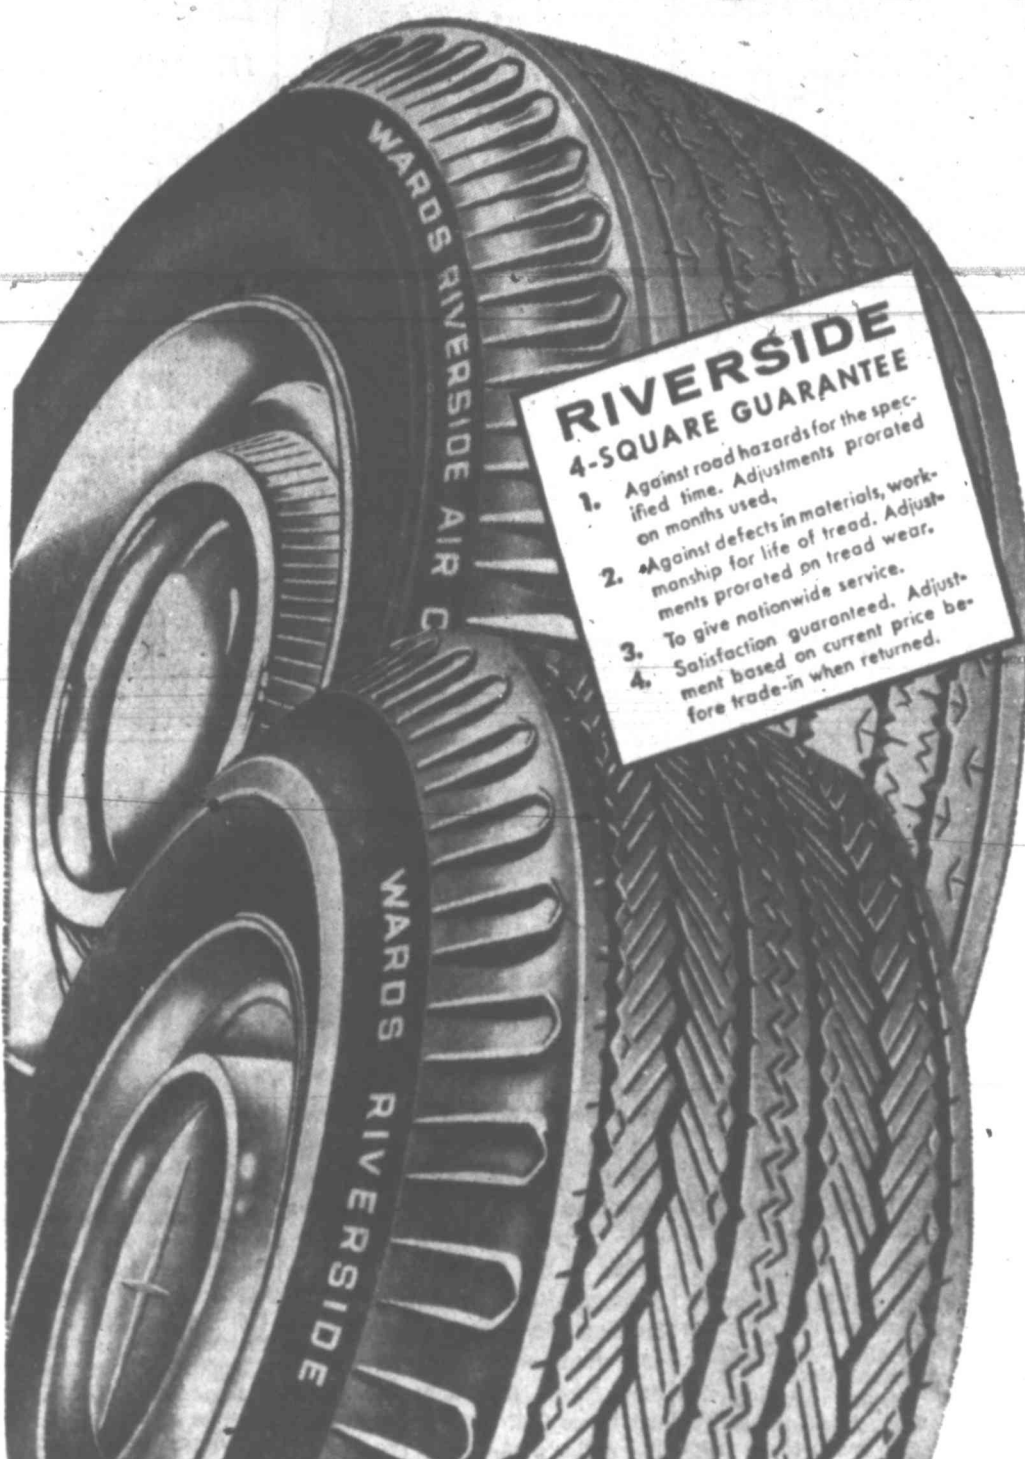

## Andrews Youth Killed By Car

ODESSA (AP)—A 19-year-old Andrews resident died just north

of Odessa this morning when struck by a hit-and-run driver. The victim was Larry Henry who officers said was hitch-hiking to Andrews, 36 miles north of Odessa.

**Likes Exercise**

Diane Hartman feels that it only takes a few minutes a day to be in good physical condition. In today's column, she tells how to firm overly developed muscles. She is soon to be seen on Jack Benny's TV show.

**HOLLYWOOD BEAUTY**

**Exercise And Diet Correct Figure Fault**

By LYDIA LANE  
HOLLYWOOD — "I've been told that actresses become more attractive after living in Hollywood," Diane Hartman declared, "and I certainly have worked to improve my appearance. The standards of beauty are so high, it made me take stock of myself. I looked at some photographs I had taken before I come to the coast and I must confess I have learned a great deal."  
We were chatting at CBS-TV where Diane was taping a Jack Benny show for next season.  
"I have been a dancer since I was four and my muscles are firm, but around my hips and thighs they were overly developed. I had wonderful massages while I was dieting and I lost all my bulges."  
"So often a person will lose weight and still not have a good figure because of being too flabby. They could overcome this by the right exercises."  
"Everyone knows that a muscle that isn't used loses its tone. And even with dancing there are some muscles that aren't used."  
"One of these is in the upper part of the arm, on the under side. I have an exercise I do

every day and I have noticed that it has also helped firm my bustline as well as my arms. And this is what to do.  
"Sit or stand erect. Stretch your arms out to the side, shoulder height. Make your hands into fists with knuckles pointing to the ceiling. Tense your arms and pull down slowly as if you were pushing against a heavy weight. Rotate your fists as you go down. This should be done firmly with your muscles working against each other."  
"You must breathe deeply and concentrate on tension. Check your arms so that you are sure that the muscles you want to firm are getting the work-out. I really didn't perfect this until after several weeks," she revealed.  
Diane has a lovely complexion and I asked if she had a special routine.  
"For the past six months, I have been steaming my face with hot cloths when I wash it. Then I always splash my face with ice water for about 20 minutes to close the pores. I have never known a girl who was careless about removing make-up at night that sooner or later did not have a bad complexion."

**Delegates Return From Colored Women's Meet**

Mrs. Charlie Merritt has returned from the National Association of Colored Women's Clubs, Inc. which was held in New York City, July 30-Aug. 3.  
Included in the group of 21 from Texas were Mrs. N. W. Stokes of San Antonio, state president of the colored women's federation; Mrs. C. H. Penny, a teacher in the local schools; and Mrs. Hertha Webb of San Antonio. Mrs. Merritt is district president.  
Theme of the 64th anniversary session was "New Frontiers for Women and Youth." Meetings were held in the Park Sheraton Hotel. Represented at the convention were 42 states, including Alaska, which became a new member this year.  
Preceding the official opening, the group was taken for a tour of the estate of the late W. C. Handy, composer of "St. Louis Blues."

At the welcoming dinner, Mrs. Nelson Rockefeller was the speaker; the dinner was followed by a reception for the national president of the association, Dr. Rosa L. Gragg.  
Panel discussions made up the program for the second day of the meeting, with an oratorical contest for girls in the evening.  
Youth Day was the theme of the Wednesday session, and a pageant was presented, depicting the history of the organization during 64 years. This was titled "From Victory Into Victory."  
Life memberships were presented at a special awards banquet at which Mrs. Eleanor Roosevelt was speaker; the women also heard an address by the wife of Premier Lumumba. Also present for the meeting was Althea Gibson, tennis champion.  
Tours of the city included various points of interest; the delegation from Texas attended church in a body at the Abyssinian Baptist Church in the heart of Harlem. Pastor of the church is Adam Clayton Powell.  
On the return trip home, Mrs. Merritt visited her mother in Dallas. The Merritts will leave Friday for San Diego, Calif., to bring their daughter back to Big Spring.

**Know Code Numbers In Buying Fertilizer**

Chemical fertilizer bags are marked with three code numbers—for example, "5-10-5." You should know what these are to avoid spending money on inadequate mixtures.  
The first number represents nitrogen, the second phosphorus, and the third potash; the numbers tell the amount of each element in the fertilizer. For example, a 100-lb bag marked "4-14-4" would contain 4 pounds of nitrogen, 14 of phosphorus, and 4 of potash. A 12-5-4 mixture would be good for lawn use because it is heavy on nitrogen.

**Just Legend**  
Nutritionists say that there is no truth in the legend that warns against eating ice cream after lobster.

**Miss Tally Is Shower Honoree**

Sandra Tally was honored guest for a bridal shower Tuesday evening in the home of Mrs. L. W. Huistetter, who was joined in the ceremony by Greta Woods and Mrs. L. W. Gorman.  
Miss Tally is to be married to Ernest Donald Sawyer Jr., Sept. 3. Parents of the couple are Mr. and Mrs. R. B. Tally, 1301 Pennsylvania; Mrs. E. D. Sawyer of Franklin, Mass. and the late Mr. Sawyer.  
Green and white were emphasized in the appointments for the tea, with a white crocheted cloth over an underlay of green.  
Mrs. Jan Tally was at the refreshment table, and Sharon Tally at the bride's book, where about 50 were registered.

**Mrs. Ciarfeo Is Honoree**

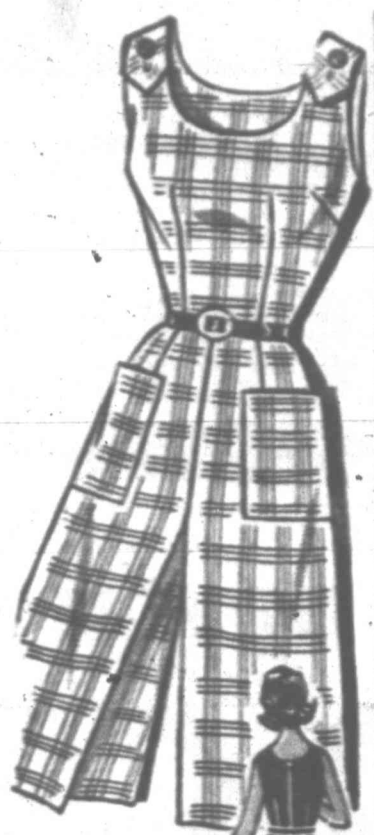

A farewell coffee Thursday morning honored Mrs. Glenn G. Ciarfeo. Thirty friends called.  
Capt. and Mrs. Ciarfeo have been assigned to Okinawa and will be leaving Big Spring next week.  
Hostesses for the affair were Mrs. Richard Hickenbottom and Mrs. Joe Lyon. The serving table was covered with a white linen cloth and centered with a bouquet of white and yellow daisies. A silver service and crystal appointments were used.  
The hostesses presented Mrs. Ciarfeo with a farewell gift.

**East Fourth Baptist Circles Meet For Study, Welfare Plan**

Circles of East-Fourth Baptist Church met at the church Tuesday for study, with gifts assembled for overseas shipments.  
Members of the morning group heard a devotion given by Nan Rankin and the opening prayer offered by Mrs. Charles Wester. Mrs. Rayford Dunagan dismissed the circle of nine members and two guests, Miss Rankin and Mrs. Jerome Palmer.

**Detergent Helps Cull Seawater Metals**

An American industrial firm has patented a new system of extracting uranium, aluminum, gold and copper from the sea.  
A South African scientist discovered that by piping air and a detergent into seawater, scum forms which yields 600 tons of aluminum in a day. Smaller quantities of the other substances could be produced in the same way, according to this scientist.

**Good News For Gourmets**

By ALTON BLAKESLEE  
Associated Press Science Writer  
TALLAHASSEE, Fla. (AP) — Coming for your dinner table—more clams on the half shell, from the Gulf of Mexico.  
This is the promise in new experiments in mariculture, or sea-farming. For it appears that northern hard clams can be seeded and grown profitably in warm, nutritious Gulf waters, augmenting the nation's supply of clams.  
The experiments are described by Dr. R. W. Menzel of the Florida State University Oceanographic Institute, along with some lore about clams.  
For one thing, most clams start life as males, but many change to female, and the sexes conveniently wind up about 50-50 when they are adult.  
"Many oysters, he adds, do the same kind of sex switch. One species, in fact, alternates from female to male and back to female."  
If you order Cherrystone or Little Neck clams, you're getting the same thing—the only difference is size—and locality where they grew. For all these clams belong to the same species, Mercenaria mercenaria.  
Dr. Menzel is interested in sea farming as one method ultimately of meeting an expanding population's need for more food. Seacoasts offer millions of acres of additional land suitable for mariculture.  
From Dr. V. L. Loosanoff, director of the U.S. Fish and Wildlife Service Laboratory, Milford, Conn., he obtained 800,000 tiny young clams, ranging up to one-fifth of an inch in size. Dr. Loosanoff has perfected a technique of spawning and rearing baby clams.

**Mrs. Bass Is Hostess For Dinner**

Mrs. A. C. Bass entertained Altrusa Club members with a patio supper at her home Wednesday evening.  
A variety of salads was served to the group on the patio at the Bass home, with about 20 attending the affair.  
During a business session, members discussed a ways and means project; appointed as a committee to follow up plans for the work were Mrs. Loyd Wooten, Mrs. Bass and Mrs. M. J. Stratton.  
A gift of \$50 was voted for the Crippled Children's Center, which is in the process of buying furniture and equipment for the newly-constructed building.  
The next meeting of the club is slated for Aug. 25 with the location to be announced.

**Lamesans Are Wed In Sunday Rite**

LAMESA—Shelby Jane Thomson became the bride of Gordon Lord in a ceremony read by the Rev. Giles Hankins, pastor of the North Side Baptist Church, in the parsonage at 4 p.m. Sunday.  
The bride is the daughter of Mr. and Mrs. Gordon Thomson and Mrs. Preston Lord.  
After the wedding a reception was held at the bride's home.  
Mr. and Mrs. Lord, who attended the Lamesa schools, will make their home here.

**Glitter Goes Low**

Sparkling legs will be high fashion this fall. Silver sparkle, gold, bronze and barely black shades in sparkling nylon are being introduced in a new fall line of seamless stockings.

**'ROUND TOWN**

What happened to summer all of a sudden? Wherever the super-hot days went we hope they stay. The delightful coolness of the early morning and evening air is a real bracer. As long as school is going to start very soon all of us are ready for temperatures to learn by to steal a phrase of the record album designers.  
Never has a vacation period gone so rapidly... and school has been out the full three months. All the things I was going to accomplish are still unaccomplished. The rocks are in the yard; the closets still not rearranged; the entertaining of friends still not done. We've given up a financial budget; just can't make it work, but a time budget might pan out. One thing we know: There will be a great allowance for "miscellaneous" if and when we get around to setting up such a budget.

night for a visit in the home of MR. and MRS. ROBERT CURRIE. The two were returning home after a tour of Carlsbad Caverns. Mrs. Hanks is a former Big Spring resident.  
MR. and MRS. CHARLES PETERSON, their son, Randy, and SALLY BABER are expected to return here Saturday after a weeks' vacation in points in New Mexico and Colorado.  
After waiting most of the summer to take their vacation because of the Little League position of their son, Steve, MR. and MRS. ALFRED BETTLEY of Austin are expected over the weekend to visit her mother, MRS. HUGH COMPTON. Steve, 10, made the All-Star team his first year in the league. The family plans to be here a week.

**Japan Is Theme Of WSCS Service**

A surprise visit from MRS. RAYMOND HANKS of Corpus Christi delighted us Wednesday afternoon. Mrs. Hanks and her daughter, Nancy, were here over.

**Planters Club Meets For Lunch In Dickens Home**

A salad luncheon was served to members of the Planters Garden Club Wednesday in the home of Mrs. J. W. Dickens.  
Eleven were present to hear a report of the session held by the annual of Big Spring Garden Club; this dealt with the plans for the Fall Flower Show, which will be presented in October.  
After the buffet luncheon, the group played a game of distinguishing leaves of various plants. The next meeting is slated for Sept. 14 in the home of Mrs. Ennis Cochran, 603 E. 13th.

**Birthday Noted By BPO Doe Member**

A surprise birthday celebration greeted Mrs. L. D. Jenkins Wednesday evening following the business meeting of the BPO Dues at the Elks Club.  
The birthday song was sung and a cake, appropriately decorated, was served during the tea hour.  
The attendance prize was won by Mrs. Leland Graves. A report from the recent salad supper and bingo games told of the addition of \$30 to the group's fund.  
Apparently, he reports, two-inch clams for half-shell consumption can be grown at a concentration of 50 per square foot. This would mean over 2,500 bushels per acre over a two-year period, and one man could probably farm the entire lot.  
A big problem, though, is predators, especially blue crabs which pick on small clams.  
As he waded around the clam farm, Dr. Menzel found some clams faced still another hazard — he ate them.

**Luncheon Given Julie Rainwater, To Be Wed Soon**

A luncheon, given Wednesday at Morales Restaurant, was a pre-nuptial courtesy for Julie Rainwater, daughter of Mr. and Mrs. Champ Rainwater, 716 Hillside.  
Miss Rainwater is to be married Aug. 27 to Delbert Neal Shirrey, son of Mr. and Mrs. C. O. Shirrey of Midland.  
Members of the bridal party and school friends of the honoree were entertained at the affair, planned by Mrs. Lloyd Wasson; due to her illness, her daughter, Mrs. Kimball Guthrie and Kim were hostesses for the 10 attending.  
Yellow daisies were used to decorate the luncheon table, and a hostess gift was presented to Miss Rainwater.

### A New Policeman, Droopy

Eager to pick up the scent and start tracking, Droopy, the latest addition to the police department, strains at the leash held by Warrant Officer J. H. Hall. The six-year-old bloodhound was obtained from A. G. Mitchell, civil deputy in the sheriff's office here, for use by both city and county officers. Police Chief Jay Banks said he expects to use the dog to help catch prowlers and burglars who attempt to elude officers on foot.

Texas Rangers and other officers at Midland have been using the dog for the past two years, Mitchell said. Well-trained by Deputy Sheriff Fern Cox, according to Mitchell, the bloodhound is quite gentle and may aid in finding lost children. Quarters for the dog have been established at the city pound with the approval of City Manager A. K. Steinhelmer.

### Streetcar Line Heads For Scrap

EL PASO, Tex. (AP)—The last international streetcar line in North America appears headed for the scrap heap. El Paso City Lines Co. has received permission to replace the

streetcars Wednesday, provided and Juarez, Mexico, with trolley buses or buses.

The Juarez City Planning Commission approved the removal of streetcars Wednesday, provided the company's route along 16th of September Avenue in downtown Juarez be abandoned. No date was set for abandonment.

### Vote For Bill

WASHINGTON (AP) — Sens. Lyndon Johnson and Ralph Yarborough of Texas were among Democrats voting with the majority Wednesday in a 66-21 Senate ballot ratifying the Antarctic treaty.

### H-SU To Award Honorary Degrees

ABILENE — Hardin-Simmons University will award two honorary degrees at its summer commencement exercises Aug. 19, Dr. Evan A. Reiff, University president, has announced. Receiving the degrees will be T. C. Bateson, Dallas construction contractor, and Dr. R. H. Cagle of Colorado Springs, Colo., one of the five area missionaries for the Colorado Baptist General Conven-

tion. Both men will be honored for their service to the Baptist denomination and to Christian education, Dr. Reiff said.

In further recognition of the Baptist westward missions program, the Rev. John Baker of Colorado Springs has been invited to deliver the summer commencement address. Dr. Reiff pointed out. The Rev. Baker is pastor of the Skyway Baptist Church in Colorado Springs. Dr. Warren C. Hultgren, pastor of the First Baptist Church of Tulsa, Okla., will be the baccalaureate speaker on Aug. 17.

# IN DISTRICT COURT Jury Decision Favors Gentry

The jury delivered a verdict for the plaintiff Wednesday in the damage suit between Gentry Construction Co. and A. P. Kasch and Sons. It was tried in 118th District Court.

Members of the jury received the case shortly before noon Wednesday and deliberated until late afternoon when they brought in a verdict favoring Gentry.

The case opened Monday with the plaintiff asking \$4,148.68 in payment of a bill by the Kasch Co., plus \$1,250 attorney's fees and 6 per cent interest per annum. Gentry charged that the defendant had entered into an agreement in August, 1958, to pay \$2,565 for work done in filling a junior high school football field in Snyder with dirt.

charges for paving part of the area, that the plaintiff asked in the suit.

The jury found that the plaintiff did the work as agreed in the original contract according to the specifications and received payment of \$2,565 for it. It further found that the plaintiff provided excess dirt in the amount of 3,689 cubic yards to cover the area applied and that the defendant agreed to payment of 70 cents per cubic yard of excess dirt.

Damages were awarded to the plaintiff in the amount of \$2,562.30 for payment of excess dirt and \$199.60 for extra labor, material and equipment used in paving part of the area. Attorney's fees were set at \$1,000.

**OTHER FINDING**

In further action, the jury found that the plaintiff, Gentry, owed the defendant, Kasch, \$506.91 on an open account and that this amount should be paid by the plaintiff.

Attorney for the defense was John A. Coffey and Pat M. Baskin acted in behalf of the plaintiff. Judge Ralph Caton presided.

The second week of the civil docket will open Monday, and another panel of jurors will be selected. Sixteen cases are listed for trial on the docket, but District Clerk Wade Choate said many of them probably will be settled out of court or continued.

## Tiny Tot Swim Classes Slated

The Tiny Tot Learn to Swim classes will begin Monday in the YMCA and last through Aug. 26. Some 60 pre-school age children have been enrolled in the classes. The children will be divided into four classes and the classes will be divided into five different groups of three children each. Each group will have an instructor and there will be at least six accredited instructors present at the pool at all times.

Each class will receive 45 minutes of instruction. Classes will be conducted from 9 a.m. until noon.

Children must be accompanied by either a parent or an older brother or sister. The classes will be conducted under the guidance of 25 volunteer instructors.

Group leaders are Alice Coker, Sally Pachall, Karen Kee, and Martha Glickman. Each leader will have two assistants.

Registration for the classes has been closed.

## Scouters Meet Today At HCJC

Lone Star District Scouters are urged to attend the regular monthly leaders' roundtable slated today for 7:30 p.m. in the Howard County Junior College auditorium.

The meeting will kick-off the annual autumn roundup. Unit leaders were urged to pick up their programs and program notebooks during the meeting, which outlines fall activities.

Joe Moss will preside over the meeting, explaining the program and what is to be done this fall.

Then the meeting will divide into sections for further talks and planning.

Gene Campbell will have charge of the Cub Scout section; Harvey Hooser will lead the Boy Scout section in the absence of Bill Quimby, and George Foster will head up the Explorer section.

## Olsak Named Drive Chairman

LAMESA — Leroy Olsak, manager of Texas Electric Service Co., has been named president of the Dawson County Community Chest for 1960.

C. T. Beckham, who spearheaded the 1959 drive, was named as the vice president and Bill Beeson was chosen as treasurer in an executive session of the group recently.

New directors include Walter Buchel, Ray Remmer, Mrs. Gerald Nix, Mrs. Ed Hatch, Lloyd Cline and Bill Anderson.

## Dawson County Residents Plan \$115,000 Library

LAMESA — Another step in securing a new county library building in Lamesa was made today as petitions calling for a bond election started circulating in the county.

The decision to circulate the petitions was made recently as the Chamber of Commerce library committee, the library board and friends of the library met jointly to discuss the problem.

Will Morris, chairman of the CC library group, made the report at the regular meeting of the Chamber directors here Tuesday.

The project had been presented to the county commissioner's court and they felt that no available funds could be used for the building and favored the bond issue. Further, the court asked their

## Questioned In Slaying

Mrs. Margery Furlong, accompanied by her son, leave their River Oaks home in Houston, for police headquarters where she was questioned in the shooting of her third husband, William H. Furlong III. Mrs. Furlong told police she shot her husband as he crashed through the glass door of her home. She had filed a restraining order in district court to keep her husband from communicating with or bothering her.

## OIL NEWS

**Roden Abandons Howard Wildcat**

Two Snyder pool completions have been reported by Fleming Oil Co. at No. 44-B Snyder and No. 45-B Snyder in Howard County. No. 45-B Snyder pumped 57 barrels.

Bill Roden's wildcat venture at No. 1 Bigony, in Howard County, has been plugged and abandoned at 10,262 feet.

A new location in the Billington (Spraberry) field has been posted in Martin County at McGarr and G. T. Trussler No. 1 Wilkerson and Yates. The project is to drill to 3,200 feet about one mile north of Stanton.

**Dawson**

Husky No. 2-X Purrell is making hole at 9,863 feet in lime. It is 1,980 feet from south and 2,030 feet from west lines of section 40-M-EL&RR survey.

Texas National No. 1 Jackson pumped 52.44 barrels of oil, plus 65 per cent salt water, in 24 hours from Spraberry perforations between 7,610-7 feet. Site is C. N.E. of section 7-34-5N, T&P survey.

Forest No. 1 Broyles is drilling in lime and chert below 9,490 feet. Location is 2,229 feet from north and 534 feet from east lines of labor 4-4-Taylor CSL survey.

Santiago No. 1 Bowlin had a drillstem test between 9,490-550 feet in the Pennsylvanian reef. Tool was open 38 minutes, mud to surface in 15 minutes, mud to surface in 35 minutes. Project flowed an estimated 20 barrels of oil per hour through a half-inch choke. Operator reversed out a full column of oil and gas, and recovered 120 feet of mud and 240 feet of salt water below the operating sub. Flow pressure was 3,250 pounds and shut-in pressure was 3,675 pounds. Drilling is 660 feet from north and 1,900 feet from west lines of section 3-34-3N, T&P survey.

**Martin**

Hammond, Amertex Oil Corp. and Pan American No. 1 Yates is still testing after swabbing the Wolfcamp and Devonian sections. Operator swabbed the Wolfcamp between 10,074-84 feet, recovering 38.5 barrels of oil. Operator then pulled swabbing tool and left the hole open. After two hours the project kicked off and flowed three barrels of oil per hour. Operator swabbed the Devonian open hole section between 11,948-12,012 feet, recovering 62 barrels of oil in three hours. It is 650 feet from south and east lines of labor 21-263-Kent CSL survey.

Hunt No. 1 Griffin is drilling in lime and shale below 9,490 feet. Drilling is 1,190 feet from north and 1,320 feet from west lines of section 138-M. Curtis survey.

McGarr and G. T. Trussler No. 1 Wilkerson and Yates is a new location to test the Billington (Spraberry) field. It is to drill to 3,200 feet at site 1,320 feet from south and east lines of section 10-36-1N, T&P survey, about one mile north of Stanton.

**Mitchell**

El Cinco No. 1 Thornton is waiting on cement after setting 13 1/2 inch casing at 639 feet and the 10 1/2 inch casing at 609 feet. It is 660 feet from south and 1,980 feet from west lines of section 8-28-1N, T&P survey.

**Williams Is New Lamesa Director**

LAMESA — Jim Williams, band director at Big Lake, has accepted the position of director of Lamesa High School, it was announced here by School Superintendent C. W. Tarter.

The 26-year-old director has had charge of the Reagan County High School Band the past three years. Prior to that time, he served as junior high director in Brownfield two years.

Williams is a graduate of Texas Tech where he received his bachelor's degree in music. He is working on his master's degree at Tech.

The new director replaces Edward Burt who resigned at the close of the 1959-60 school term.

**Petty Thefts On Police Books**

Thefts of three hubcaps and a wallet containing between \$15 and \$19 were reported to police for investigation during the past 24 hours.

Burt Wallace, 1512 W. 17th, told police the hubcaps were taken from his car Wednesday night while it was parked at the Bowl-A-Rama bowling alley on East U.S. 80.

Ernest Andrew Jock, Elm Courts, reported the theft of his wallet.

**Minor Wreck**

One minor traffic accident was investigated by police during the past 24 hours. This morning, Milton Ray Bluhm, 107 E. 18th, and Cecil Elvin Milam, 1714 Purdue, were in collision in the 600 block of State. There were no injuries.

# Dag Leads U. N. Force Into Troubled Katanga

UNITED NATIONS, N.Y. (AP)—Secretary General Dag Hammarskjold raced to the Congo today to personally lead a U.N. task force of Swedish troops into secessionist Katanga Province.

The secretary general had assurance from Katanga's chief of state, Moise Tshombe, that his force of 300 soldiers and two generals would be "received in an orderly manner" when they come Friday.

Tshombe dropped his threat to wage war on U.N. troops entering Katanga to replace Belgian forces after the U.N. Security Council pledged they would be used only for police duties and keep hands off his row with the central Congo government of Premier Patrice Lumumba. The Katanga premier tried to put conditions on the U.N. action but Hammarskjold rejected these and Tshombe acceded.

Hammarskjold's mission is to speed the withdrawal of the 7,500 Belgian troops who are now patrolling the mineral-rich province. The Belgians said they would remove their soldiers when they could be sure the U.N. forces could protect the 12,000 Belgian civilians still in Katanga.

The secretary general took off for Leopoldville at 12:55 a.m. in a special Boeing 707 jet put at his disposal by President Eisenhower when commercial transport was not readily available. Refueling stops were scheduled in the Azores and at Accra, Ghana, and the plane was due in Leopoldville tonight.

Traveling with Hammarskjold were two U.N. political officers, Heinrich A. Wischoff of the United States and Ian E. Berenson of New Zealand.

He planned to fly from Leopoldville to Elisabethville, the Katanga capital 950 miles to the southeast, with two Swedish companies, the deputy commander of the U. N. force, Gen. Ben Hammoou Kattani of Morocco, Gen. I. J. Rikhye of India, Hammarskjold's military adviser for operations in the Congo, and civilian advisers.

Hammarskjold told Tshombe he was flying to Elisabethville to make arrangements for the speedy deployment of U.N. troops in the province. But it was obvious that the 300 Swedish soldiers were going to replace Belgian troops and not as an escort for the secretary general.

Some Belgian residents, who play an important part in the economic life of Katanga, were reported getting ready to leave. But there was no indication of a mass flight being sparked by Tshombe's decision to admit U.N. forces into the province.

Hammarskjold had delayed his takeoff 24 hours for urgent negotiations with Belgian Foreign Minister Pierre Wigny and a Congo delegation headed by Vice Premier Antoine Gizenga.

The secretary general viewed "complete harmony of views" with the five Congo ministers, who left for home ahead of him last night. Earlier Lumumba had threatened to invade Katanga with his own army, but he backed down Wednesday.

## Congo Premier Makes Plea For National Unity After Riot

LEOPOLDVILLE, the Congo (AP)—Premier Patrice Lumumba today appealed for national unity in the wake of anti-government rioting in the Congo capital's native quarter.

"Let us stop the quarrels; let us abandon the destructive spirit," Lumumba said in a radio appeal repeatedly broadcast by the national network.

"All disorder—must stop," Lumumba said. "Let us preserve our independence. The whole world is watching us."

As Lumumba's appeal in French and the local Lingala dialect was broadcast, steel-helmeted Congolese police marched in close formation through the sprawling native city.

They held rifles and tommy-guns at the ready while long-billy-club dangled from their hips.

Congolese soldiers barred access to the Abako office where Wednesday night's rioting flared up. Around the Place De La Victoire, in the heart of the quarter, crowds of silent Congolese tensely watched the marching police and trucks loaded with soldiers.

During the rioting Wednesday rocks were thrown at the young premier's car, but he was not hurt. Some Congolese policemen said a stone narrowly missed him.

The government announced that a number of the rioters have been arrested and served notice that other arrests would be made.

Congolese police fired over the heads of the mobs surging about the Place De La Victoire. A show of fixed bayonets finally brought the rioters under control, and police and troops threw a cordon around the area.

"No one was killed, and peace was restored," the government announced.

Newsmen trying to reach the area were threatened by screaming Congolese soldiers. On the way they saw trucks and jeeps full of Congolese police and soldiers, but none of the U.N. troops sent here last month to restore order after the army went on a rampage following Belgium's grant of independence June 30.

Information Minister Anicet Kasshamura blamed the riot on members of the Abako party, a powerful political group centered in the Leopoldville area and headed by Congo President Joseph Kasavubu. Some Abako leaders advocate more control for local government than Lumumba envisions for the Congo.

Kashamura said Abako members attacked passersby and police fired into the air to disperse the mob.

Another report said Abako members fired on police.

A Belgian radio correspondent said the mob was aroused because police broke into the home of Senator President Joseph Ileo, a moderate member of Lumumba's opposition, while Ileo was holding a news conference.

City Manager A. K. Steinheimer and Bruce Dunn, director of public works, will go to Abilene to confer with Jake Roberts, district highway engineer, hoping to get re-design and state financing for the project.

The present design calls for culverts under 4th (U.S. 80) to carry water from Birdwell north to 3rd through drainage ditches to another culvert.

Owner of property on Birdwell between 3rd and 4th had indicated a desire for curb and gutter, however, which would mean the filling of the ditches intended to carry water, Steinheimer said.

The city manager said he hopes the highway department will agree to lower the 4th and Birdwell intersection so that Birdwell from that point north can be constructed as an inverted crown. Water would then flow down the center of the street to the creek, doing away with the need for culverts.

Steinheimer said cost of the culverts is estimated at about \$75,000.

## City Officials Seek Re-Design

Re-design of the intersection at 4th and Birdwell in connection with the assessment paving program will be sought from the state highway department at Abilene Friday.

City Manager A. K. Steinheimer and Bruce Dunn, director of public works, will go to Abilene to confer with Jake Roberts, district highway engineer, hoping to get re-design and state financing for the project.

The present design calls for culverts under 4th (U.S. 80) to carry water from Birdwell north to 3rd through drainage ditches to another culvert.

Owner of property on Birdwell between 3rd and 4th had indicated a desire for curb and gutter, however, which would mean the filling of the ditches intended to carry water, Steinheimer said.

The city manager said he hopes the highway department will agree to lower the 4th and Birdwell intersection so that Birdwell from that point north can be constructed as an inverted crown. Water would then flow down the center of the street to the creek, doing away with the need for culverts.

Steinheimer said cost of the culverts is estimated at about \$75,000.

## Senate Okays Polar Treaty

WASHINGTON (AP)—The Senate has ratified a treaty with the Soviet Union and 10 other nations designating the icy vastness of Antarctica as a field for scientific exploration.

The vote margin was eight above the two-thirds needed for treaty ratification.

His wife, Ida Ford Powers, American U2 pilot, departed aboard a Moscow trial on espionage charges.

Newsmen at Idlewild Airport asked the father, Oliver W. Powers, of Pound, Va., whether he felt optimistic about the trial which starts Wednesday.

"Not a bit," he said.

His wife, Ida Ford Powers, when asked the same question, replied: "I can't say." She expressed hope she and her husband could see their son before the trial.

Mrs. Powers, a cardiac sufferer, was pale. She was accompanied by Dr. Lewis K. Ingram, when she was taken to a question whether she felt well enough to make the trip, she said: "I think I can make it. I'll try."

She wore a blue-print dress and a black shawl.

## Buddy's Condition Still Declining

Little Buddy Becker, 2-year-old son of Mr. and Mrs. Jack Becker, reached his 31st day in the hospital today and his condition is steadily worsening.

The baby has leukemia. Through help of friends and the county, the Beckers took him to Houston in May for a confirmation of the diagnosis. He was given treatment there and returned home, but in early July he was returned to the hospital.

Mr. and Mrs. Becker, and a daughter, make their home with her parents, Mr. and Mrs. H. McClusky at 1007 Nolan. He has been unable to work regularly due to the baby's serious condition.

## Rare Blood Brought Here For Child

A supply of rare A-positive blood was flown here Wednesday in a Brooke Army Hospital plane to aid in the treatment of Leslie Ruff, the son of M. Sgt. Eugene Ruff who left Brooke for assignment in Germany in April.

Young Ruff suffered head and chest injuries in an auto accident near Sterling City Monday. A younger sister was killed and his mother and brother seriously injured in the wreck.

Leslie and another victim, Maurice Bradford, are in the Cowper Clinic and Hospital here. The lad's condition is reported somewhat improved this morning.

## Man Treated For Head Laceration

Leroy James, resident of the Russell Courts on W. 3rd, was said to be in good condition this morning after receiving treatment for a head laceration. He was to be released today.

James was taken to the Howard County Hospital Foundation about 2 a.m. in a River ambulance after he was discovered lying bleeding on the floor of his cabin at the court.

Police were unable to learn from James how he received the cut. Officers said it appeared that James was struck on the head.

### 3 In Family Die In Crash Near Odessa

ODESSA (AP)—Three members of a Houston family en route to Odessa to attend a funeral died today in a two-car accident that took five lives.

The accident occurred about 12:30 a.m. 12 miles south of here at an intersection of Highway 385.

Officials of Medical Center Hospital identified the dead as Grover Jerry Gerard Sr. of Houston, his daughter, Sonny Lenette Gerard, 23, and a son, Billy Jack Gerard, 16.

Another son, Grover Jerry Gerard Jr., 22, was taken to the hospital with undetermined injuries. He told a newsman he did not know how the accident happened. The only member of the Gerard family who was not in the car was Mrs. Gerard, wife of the senior Gerard and the mother of the other victims. She remained at the family home.

The Gerards were en route to Odessa to attend the funeral today of Frank Gerard, a brother of the elder Gerard.

Killed in the second car were Willie Williams and Charline Robinson, 26, both Odessa Negroes.

Officers said one car was driven by Williams and the other by Gerard Junior.

Nine persons died in a highway accident on the northwestern outskirts of Odessa July 28. In the past 14 days 17 persons have died in highway accidents in Ector County and the total for the year is 26. In 1959 a total of 12 persons died in the county on the highway.

### LETTERS

#### Kind Words For Officers

To the Editor:

I sometimes wonder if the people here in Big Spring ever stop to consider and be thankful for the wonderful group of men they have on the police force. In all the months I have been here I haven't met a nicer, more courteous, considerate group of real gentlemen than those who make up our police force. They always try to be pleasant and helpful in every way at any time I have had occasion to call on them about any problem. I have received the utmost consideration and help in solving that problem. I appreciate these men very much as does my son who, at the age of 13, considers the police as his best friends. They have proved true friends in every way. Big Spring has much to be thankful for. Our best wishes and sincere appreciation to the police force here.

MR. AND MRS. G. E. PATTON  
AND JOE PATTON

To the Editor:

I see quite a few ministers are ranting about Kennedy's Catholicism. How come? Don't we all recall that not long ago the same ministers were advising us all not to discriminate, which included religion, sex, race or creed. What a paradox.

Now to me this is a thorough demonstration that we do not always practice just what we have preached. We usually preach the things which we think will compensate us the most. It is my sincere opinion that if Kennedy is chosen the standardbearer of us all that his religion will not prove as detrimental as the race-mixing advocated by both parties. I thank you.

### GARDEN TALK

#### Premature Shedding May Be Due To Red Spiders

Mrs. Woddard Hardy who lives up on Runnels St. called my attention to her ash trees. They are affected by something that is turning the leaves yellow, then brown, and then some are falling off. She was worried that it would kill them.

In the laboratory at the college I looked closely at some of the leaves and found the trouble to be the red spider. This is a common pest in our area. The red spider is really a tiny mite, *Tetranychus telarius*. This is one of the arachnids, or of the spider family.

Control is relatively simple because the mites are quite small and delicate. They may be killed naturally by a cooling summer shower, or by a rainy spell when the humidity comes up, or by a cool snap. All these failing to kill them, they may be controlled with DDT, or benzene hexachloride, or even with common dusting sulphur. I prefer to use a good cotton dust like 3-5-40 or perhaps a 2-10-40.

These dusts contain the three insecticides I mentioned and are not very expensive. They do an excellent control job on red spider, too.

There are several ways to get the dust on the insects. You can dust with a dust gun and there are several of these on the market. Some are large enough to reach 20 feet or more in all directions. A crop dusting plane can make one pass over a residence and do a very good job in the country or on ranch residences.

If you don't happen to have any of these readily available, a good spraying with a high pressure nozzle on the garden hose does fairly well. It is not a complete control of course, but it will give some relief to affected plants. The spray may kill some, but the humidity seems to do more damage to these mites than anything else. Repeated spraying of the leaves may give temporary control until a change in the weather or some other natural force completely eradicates them.

If you have garden questions write to Bruce Frazier in care of the Big Spring Herald.

### Fidel Links Christ To His Revolution

By RICHARD VALERIANI  
HAVANA (AP)—Fidel Castro today rejected criticism of his government by the Roman Catholic Church, asserting that those who condemned his revolution would be capable of crucifying Christ himself again because Christ preached what we are doing.

In a boiling rage, the bearded Prime Minister charged that traitorous clergymen directed by the U.S. Embassy were provoking his revolution with church demonstrations. He also accused the United States of getting Spanish Generalissimo Franco to pressure Spanish priests in Cuba into attacking his regime.

"If you don't happen to have any of these readily available, a good spraying with a high pressure nozzle on the garden hose does fairly well. It is not a complete control of course, but it will give some relief to affected plants. The spray may kill some, but the humidity seems to do more damage to these mites than anything else. Repeated spraying of the leaves may give temporary control until a change in the weather or some other natural force completely eradicates them.

### Russia Ousts Another 'Spy'

MOSCOW (AP)—The Soviet Union told the U. S. Embassy today that an American tourist identified only as Robert Christner has been expelled from the Soviet Union as a spy.

The embassy said it knew nothing about Christner and first heard of him in the note delivered from the Soviet Foreign Ministry this morning.

The note charged he had been sent to the Soviet Union in July to collect industrial and military intelligence. The note did not say when the expulsion took place.

Tass, the official Soviet news agency, said the Foreign Ministry had warned the embassy against "exploiting tourists for intelligence purposes."

It was the fifth case of American spying charged by the Soviets since the downing of Francis Gary Powers' U2 plane May 1, and the second expulsion of an American citizen to be announced in as many days.

Col. Edwin M. Kirton, the U.S. Air Attache in Moscow, was ordered to leave the Soviet Union Wednesday. He was accused of organizing a spy apparatus and of photographing military installations. His assistant, Capt. Irving T. McDonald Jr. of Provincetown, Mass., was accused of similar activities but was not ordered out of the country. U.S. Charge D'Affaires Edward L. Freers rejected the charges.

Batista, the scribes who were photographed with the tyrant — baptizing the children of the tyrant."

(Some of the church's highest ranking prelates baptized Batista's children, but at least one leading Catholic prelate, the Most Rev. Enrique Perez Serantes, archbishop of Santiago, once intervened to save Castro's life from a Batista firing squad.)

Castro said that his government has been "generous up to the maximum" in allowing the church to continue to operate its own schools and has respected all freedoms.

"I would like to see a pastoral letter where the crimes and murders of Batista are condemned," he shouted. He demanded the church to condemn "the crimes of imperialism, the horrors of imperialism, the plans of invasion, of imperialism."

**Arch-Enemy Of The Hay Fever Victims**

Here's how the Western Ragweed (*Ambrosia psilostachya*) looks. It causes more tears to allergic persons than any other pollen producer.

## Big Spring Is Best For Harassed Sneezers

By SAM BLACKBURN  
Big Spring is within a sneeze of being the ideal place for the hayfever victim.  
In fact, Big Spring is just about the best place a harassed sneezer can find in the big state of Texas. It has an index rating of five. In case that's puzzling, be advised that Dallas is the worst of all possible places for hayfever folk. It has an index rating of 115.  
In a recently issued booklet entitled "Hay Fever Holiday" a report is made on the presence of ragweed pollen found in 800 North American cities. A number of strategically placed Texas cities are included. Big Spring is one of these and it happens to have the lowest ragweed pollen rating of any of the Lone Star representatives.  
The booklet rates communities as to their sneezability by index

figures. No hayfeverite should expect to be comfortable, it says, in any community where the index is above 5. If he finds a place where the index is 5 or below he should run, not walk, in that direction.  
Texas towns and their respective ratings:  
Dallas, 115; Amarillo, 41; Brownsville, 24; Corpus Christi, 30; El Paso, 15; Fort Worth, 71; Galveston, 36; Houston, 68; San Antonio, 24 and Big Spring, 5.  
Ragweed, grows in somewhat limited fashion in the Big Spring area and is the big threat to the allergy sufferers. The pollen season for the ragweed hits late in August. It hangs on until near the end of October. Hayfever victims know painfully just when it starts and when it ends. They weep sadly throughout the interval, wiping their noses and sneezing emphatically.  
The booklet is written to provide the hayfever victims—their number is as the sands of the sea—with information on the places where they can spend sneeze-free (or reasonably sneeze-free) holidays. It is compiled by Oren C. Durham, secretary of the pollen survey committee of the American Academy of Allergy, and chief botanist for Abbott Laboratories.  
The index figures are determined by three factors: (1) length of the ragweed season; (2) maximum concentration of pollen in the air and (3) total pollen catch on test slides throughout the season. The booklet says that any com-

munity which can show an index figure of 5 or less is a good spot for the allergy sufferers to visit. Big Spring seems to have an almost unique place in Texas towns since it has just the right figure.  
It's nothing to sneeze at. Ask any hayfever sufferer.

### Maybe They've Got Inside Info

MIAMI, Fla. (AP)—The Cuban political situation has affected a real estate transaction here.  
Two Cuban couples, seeking to lease a house, refused a lease beyond Jan. 1.  
They told the realtor they would return to a "Castro-less" Cuba by then.

## New Y Leaders Attend School Aug. 22-26

The new YMCA program leaders, recruited in the Fishers of Men Campaign, will attend orientation classes Aug. 22-26.  
Classes will be held in the history and philosophy of the YMCA, Christian education, records and resources of the YMCA, understanding youngsters and discipline.  
The Fishers of Men, who set out to obtain 48 qualified, mature, Christian persons as program leaders for the coming year, attained 100 per cent of the recruitment goal.  
R. H. Weaver was chairman of the group and Mrs. James Duncan, Weaver, Bill Quimby and C. R. Koger were team captains.  
The new leaders include Dorothy Duncan, S. A. Walker, Glenn Hancock, Pete Cook, Margaret Johnson, Artie Nell Ross, Ralph Ross, Coy Mitchell, Tommy Hammond, Rip Patterson, Johnny Johansen, Tony Carrillo, Jodie Sabato.  
And Paul Liner, Don Farley, Charles Peterson, Johnny Johnson, Arthur Jones, Ike Robb, Charles Lusk, Joe Compton, Miss Alice Coker, Tommy Scoggins, Don Crockett, Batch-Vaughn, Bill Hill, Bob Chambers, J. B. Apple, Frank Hardesty.  
And Sue Guthrie, Dorothy Stripling, Mrs. Sammie Davis, Rev. Sammie Davis, Sam Dawson, Jesse Evans, Douglas Beams, Lindsay Marchbanks, Terry Patterson, Jerry Spence, William Burnett, James Calmes, Kandy Hensley, Carolyn Sewell, Marilyn Bigham and Paul Schaffer.

## Diane Varsi Back In California

SAN MATEO, Calif. (AP)—One-time movie starlet Diane Varsi returned to California today from Vermont. She wouldn't say whether she is going back to Hollywood. The 22-year-old actress, who had a top role in "Peyton Place," for-

sook the glamor of movieland a year ago for a life of meditation in New England. She left with her son, Shawn, now 3½, saying she wanted to become a recluse. She and Shawn arrived in San Mateo Wednesday for a visit with her grandfather Joseph Varsi. "I have nothing to say, sir," she replied when asked if she was heading for Hollywood.

## Destructive Fans

BOSTON (AP)—A bill which would fix penalties of \$50 to \$200 for unauthorized removal of football goal posts was passed Wednesday by the Massachusetts Senate.  
A Foxboro schoolgirl was killed by a falling goal post last fall.

## A Devotional For Today

Speaking to yourselves in psalm and hymns and spiritual songs, singing and making melody in your heart to the Lord. (Ephesians 5:19.)

PRAYER: Our heavenly Father, we thank Thee for the opportunities we have to witness for Thee. May each song we sing, each deed we do, each word we say be used for Thy glory. In Jesus' name we pray, and for His sake. Amen.

(From The 'Upper Room')

## Minor Point Of Larger Issue

Hearings are scheduled to open today before a Senate Commerce subcommittee on communications on a subject very much in the public prints a year ago—broadcast payola.

This committee is headed by Sen. John O. Pastore (D-RI) and payola is only one of the subjects to be aired in the hearings—and, in final effect, in a minor issue compared to some of the others at stake.

One of the big questions is, How much power to give the Federal Communications Commission over broadcasting stations and networks? A bill pending in the House would authorize the FCC to suspend station licenses or fine the owners for neglect or intentional violations of FCC regulations. The commission under existing law has only one recourse: it can order total revocation of license, an action it never has been willing to take. The pending bill would add flexibility to its authority.

But the House bill has its enemies, who apply such terms as "tyrannical" and "oppressive" to its provisions. Others would add more to the bill by authorizing regulation of the networks themselves, without licensing them. Rep. John B. Bennett (R-Mich) asserts that without regulation of networks, where most program-

ming originates, the House bill is "mere window-dressing, a sop to the public for all the big scandal headlines."

Meantime FCC shows signs of stepping out on its own, not waiting for formal legislation, but acting on authority supposedly inherent in itself. Some of these steps touch pretty close to the most controversial issue at stake—censorship. Any way the commission recently put radio and television stations on notice that it may not renew their licenses if regular programs are too frequently interrupted for advertising messages, if local talent is ignored or community issues or politics are brushed aside, or if a station fails to carry enough religious, educational and children's programs. What effect this may have on congressional action remains to be seen.

The electronic communications industry—that is, radio and television particularly—has always tried to claim for itself the same status as newspapers and the press generally. So long as it is licensed, this status is unlikely.

Meantime they live in constant dread of censorship in some form—and continue daringly to defy it. It is badly in need of a house-keeping, preferably self-administered, but forcibly if that is the only way.

## Women In Politics

When the ailing Senator Joseph C. O'Mahoney (D-Wyo) decided not to seek reelection, it left the way open for anyone wishing to get their feet wet; and as it turns out a lady, Miss Velma Linford, now state superintendent of schools, was one of the first to announce. According to reports from Wyoming, Miss Linford is favored over her two opponents for the post.

But she has formidable opposition in the persons of two Republicans. One is former Senator Frank E. Barrett, who was defeated in 1950 by young Gale McGee, a Democrat, and the other is Rep. Keith Thompson, holder of Wyoming's lone seat in the House. Barrett is expected to get the GOP nomination.

If picked by the Democrats, Miss Linford would be the second woman seeking

a Senate seat this fall. The other is Maurine B. Neuberger, widow of Sen. Richard B. Neuberger (D-Ore). Mrs. Neuberger won a 5-way race for the Democratic nomination in May, and will be opposed by Ex-Gov. Elmo Smith, Republican, in November.

It is worthy of note, perhaps, that only two of the nine women who have served in the U. S. Senate have been elected for full six-year terms—Mrs. Margaret Chase Smith (R-Me) and Mrs. Hattie Caraway (D-Ark). The others were carried to fill out unexpired terms.

Incidentally, Wyoming pioneered in giving the franchise to women—90 years ago. And in the 1924 election it elected the first woman governor, Nellie Tayloe Ross, an ex-Texan.

## Marquis Childs Caught In The Middle Again

WASHINGTON — America's position in the mounting tragedy in the Congo can be roughly described as: Caught in the middle again. In an era of revolutionary change, this may be inevitable, but it is nonetheless highly difficult and often embarrassing.

Within the State Department, there are no illusions about what the Belgians privately think of American policy. They are furious that the United States, as the leader of the North Atlantic Alliance, has not supported them in the Congo on the issue of independence for the province of Katanga. At the same time, the newly-independent African nations, as well as the confused and uncertain leaders in Leopoldville, are watching every move that Washington makes to be sure this country is not siding with the "colonial" and "imperialist" powers.

SO FAR, it has been possible to walk this narrow line without being pushed too far to one side or the other. But whether this will be the real nature of the independence of Katanga and whether the regime of Moise Tshombe has a popular base or is, as the Soviets charge, merely a puppet operation of the Belgians to hang onto the Congo by far the richest region in the world.

With the Communists waiting for collapse and catastrophe so that they can move in, the stakes are truly hair-raising. If the United Nations through the efforts of Dag Hammarskjöld—Secretary General, Ralph B. Bunche and his deputy, Ralph J. Bunche—can find a solution, then the threat is not only to Africa but to the future of the U.N. itself as a force for peace above the cold war.

IN THE IMMEDIATE aftermath of World War II, the United States was faced with a similar situation when the Indonesians began to fight for their independence from the Dutch after long years of colonial rule. American policy-makers realized at that time that short of a prolonged and fearfully destructive war, alienating all Asians, the Dutch could not hold their

former rich province. So behind the scenes the United States worked for a settlement with independence.

Yet Holland was a friend and ally. The then Netherlands ambassador, Elco Van Kleffens, told Secretary of State Dean Acheson: "We will never forgive you for what you have done in forcing us to surrender to a people who were not ready for independence."

SOMETHING NEW, seldom reported here, is watching every move that Washington makes to be sure this country is not siding with the "colonial" and "imperialist" powers.

Somebody knew, seldom reported here, is watching every move that Washington makes to be sure this country is not siding with the "colonial" and "imperialist" powers.

IF THE ALGERIAN peace talks initiated some months ago by President Charles de Gaulle continue to drag out in apparent fruitlessness, the Red Chinese may get the opportunity they are seeking. The opening wedge would be for military technicians to give advice and help to the FLN. Out of their long struggle against Chiang Kai-shek and his armies, the Communists acquired an unrivaled experience in guerrilla warfare.

With unlimited manpower, Chinese "volunteers" could also turn up in any war that breaks out in the Congo. Since Red China has been kept out of the U.N., largely through the efforts of the United States, even this restraint would be lacking.

THE MORE PESSIMISTIC observers, both in and out of government, see China's increasing activity in Africa as the beginning of a vast flanking movement to turn all peoples of color against the white minority so long dominant in the world. While this may attribute too much of design and calculated long-term planning to the ruthless men who have gained control over the Chinese giant, it is a potential that cannot be ignored.

## India Unemployment

NEW DELHI (AP) — India will have between 7,500,000 and eight million persons unemployed at the end of her second five year plan next April.

The government estimate compares with 5,300,000 unemployed at the beginning of the plan. The figures, based on a population now estimated at 420 million, do not include extensive under-employment.

Efforts are being made to find work in the third five year plan, from 1961 to 1966, for about 14,500,000 new job-seekers.

HOPE THE SAFETY VALVE HOLDS

### Nixon's Line Is Coolly Deliberate

WASHINGTON (AP) — Vice President Richard M. Nixon's presidential campaign is following a coolly deliberate line he worked out for himself months ago.

It can be summed up like this: He's going to play up Nixon, not the Republican party.

As long ago as last April acquaintances — meaning people he talked to — said he would try to run as an individual if he got the Republican nomination.

He got it. So what did he do? A number of newsmen who made the trip to Hawaii with him last week, watching him campaign and talking with him, reported:

THE REPUBLICANS who trooped along with him wherever he went paraded the Republican banner.

He himself didn't talk about being a Republican. He will try to sell himself rather than the Republican brand of government or even the Eisenhower brand.

Incidentally, that's just how Republican Nelson A. Rockefeller won the governorship of New York in 1958. He didn't tie himself very tightly to the Eisenhower label.

Last April those who talked with him said Nixon figured he couldn't win on the Republican vote alone because Democrats would outnumber Republicans and that this was what he felt was necessary.

For his margin of victory he'd have to dip into that 20 per cent or so of voters who are called neither Democrats nor Republicans.

THE HAWAIIAN TRIP spokesman reported his thinking on this:

1. While the winning votes must come from the independents, only a handful of them are thinking voters who study the man and the issues and cast their ballots on the basis of intellectual convictions.

2. The great majority are people who seldom vote and who have no deep convictions or continuing interest in government.

3. This majority is generally influenced by the candidate who talks last and loudest.

4. This is why President Truman is playing up his own style because he knows the issues will be a personality duel. The same time these voters don't match Sen. John F. Kennedy as a "natural smile."

If Nixon is wrong, he may wind

### Wind At The Smart

NEW YORK (AP) — Remarks that a supermarket clerk got tired of hearing:

"Do you have a health food department for dogs? The doctor has put our pooch on a salt-free diet."

"Hey, Jack, I wheeled all the way to the beer cooler and back in 47 seconds and from a standing start. Is that a track record?"

"The boss and his wife were supposed to come for dinner last night but they didn't show. Can you take back this 12-pound rib roast?"

"Why is it? I eat meat that expensive ourselves."

"Why is it your hamburger always looks red on top but not at the bottom?"

"You seem to stock everything except B-grade movies. When are you going to put them in?"

"I want that woman arrested. Just because I beat her to the last jar of pickled relish, she deliberately ran me down with her shopping cart."

"Hey, Jack, I just saw a head on a crash over by the stack of canned peaches. Better call an ambulance."

"Twenty-three dollars and 46 cents? Your machine must be broke. I figured it at my head at \$23.44. You better add 'em up again."

"Yeah, get the buns and baked beans here, Mabel, and we'll get the frankfurters at that new supermarket 10 miles down the road. They're a penny a pound cheaper there."

"We just got back from our

Looking back at a two-week vacation:

The most traveled tourist highways are crowded with scalpers; to be sure, but there are some nice folks willing to lend a hand here and there. And at reasonable prices. We had one repair job done that was priced at less than the same job would have cost here. And it occurred in a boom town where everything is high.

Our national parks are gradually being taken over by the purveyor of geogags and gadgets and genuine Navajo artifacts with "made in Japan" labels cranking them.

The literature put out by the Department of Interior explains that the service is protecting our parks for posterity. And certainly the government is making many facilities available at less than cost, a real bargain for the vacationer.

But at many parks, the private concessionaire is hanging out scalper prices and he often has the tourist helpless in his clutches. This is true in Mesa Verde National Park and the Carlsbad Caverns.

Who has not rebelled at the so-called lunch in the caverns? Or seen pieces of cavern rock selling for high prices when the Rangers warn the tourist not to pick up a single pebble on his walk through

the cave?

In Mesa Verde, the nearest store is 50 miles away so the concessionaire has a protected market. He has a group of tourists who must rely on his facilities in order to enjoy the historic wonder of the park.

Although some improvements have been planned to further aid the tourist and hold his expenses down, this has been blocked, I was told, in order not to be competitive.

And such practices are apparently part of most of our National Parks. Despite what the Department of Interior says, someone should decide who the parks are maintained for, the citizens or the concessionaires.

Colorado is a beautiful state, but the tourist is warned to have good brakes and a good radiator. Our car for the most part, had either a smoking radiator or smoking brakes the entire time we were in the state.

The radiator boiled and smoked going up the hills and the brakes in each wheel slid and smoked all the way back down. But it held together until we could get home. And it was fun.

### Interviewing Firpo With Chaperone

It was with real regret that I read of the death of Luis Angel Firpo, the "Wild Bull of the Pampas," at his home in Buenos Aires where, just 14 years before, I had talked and had tea with him. I remember him as a big man, full of charm, instinctive kindness and gentle manners, presiding — inconspicuously enough — behind a massive silver service.

But what I shall always remember best about him, and many of my confidants will never let me forget, was the strange condition he imposed when he granted my request for an interview.

WHEN I WENT to Buenos Aires in the summer of '46, I carried with me a letter and a swatch of neckties for Firpo from Damon Runyon, who had initially nicknamed him the "Wild Bull of the Pampas." In those days when I traveled, I was always happily laden with neckties from Lord Beaverbrook to ambassadors.

Firpo was devoted to Damon; any friend of the latter was a friend of the Angel. His casa was my casa. Only, he called the Buenos Aires office of my employer and requested that when I came to interview him, I be accompanied by a chaperone! It was too good to keep even at cable rates. Buenos Aires wired New York the condition. It was the best joke in the factory for months.

THE LONG and the short of it is that I went to see Firpo well chaperoned by an Argentine girl, a duenna, with the office in hysterics and predicting that it would be the first time a chaperone ever turned up on an expense account. (It was.) We went to Firpo's substantial town house, in a fashionable residential area, and there he apologized that his wife was absent, visiting friends and relatives in Uruguay.

A servant staggered in under the weight

of the tea service—Firpo presided and poured as if he were blood brother to Mrs. Vanderbilt. Here was no stumbling or broken-down sparring partner, but a rich and substantial citizen owning a handsome town house and four big estates, or cattle ranches, where he raised both beef cattle and brooded "boobs."

FOR AN ARGENTINE prize fighter to move up into the proud estancia class was comparable to Gene Tunney's espousal of Shakespeare and a Standard Oil heiress. Firpo said 90 per cent of the money that had enabled him to become a substantial landowner and cattle raiser was earned in the United States. No wonder he loved Uncle Sam, and he did.

He had a fantastic memory for New York places and persons. But the two men about whom he asked the most questions were his favorite Americans and good friends, Damon and Jack Dempsey. He and Jack corresponded. He repeatedly promised to come to New York to visit the man whom he had knocked out of the ring in one of prize-fighting's most dramatic moments 37 years ago.

I NEVER SAW Firpo except that one afternoon; and I thought him delightful. If I had met him under different circumstances, I would instantly have classified him as an upstart wind-burned Texas rancher. He was a tremendous man, standing six feet four inches. He then weighed 248 pounds, 30 more than his average ring weight when he fought in this country. But he did not look fat and there was no sign of paunch or bay window.

Firpo was far more interested in beef cattle than the current state of prize fighting. In 1946, he had not seen a fight in three years.

### Let Congress Stay On The Job

WASHINGTON—There's no good reason why Congress shouldn't stay in session now until the middle of October.

President Eisenhower has just called attention to the unfinished business. The President says that only six of the twenty-seven measures he cited last May "have been enacted into law."

THE ONLY PRACTICAL obstacle to a continuous session is the traditional belief that the time between now and November 3 must be spent in campaigning. Yet in Great Britain and other free countries, campaigns require only about three weeks' time.

What better way can the Democratic party, which is in control of both houses of Congress, justify its claim to a continuation in power than by enacting necessary legislation? Doing things is better than merely promising things.

IF CONGRESS concentrated on the unfinished business and decided to postpone adjournment until the middle of October, there would be an opportunity to make some real progress on pending issues. The platforms of both parties would take on new meaning. They would be translated into concrete actions by the members of each of the two major parties.

But the tendency today is the other way — to waste time by political maneuvering and speeches, and to try to fix the blame on the other side. This writer was talking over the weekend to a Negro driving a taxicab and asked him what he thought of the speeches he said he had heard at the two political conventions. His reply is worth repeating here: "I got tired hearing about what the other fellow did or didn't do. I want to know what each candidate plans to do—and what he is really going to do."

MAYBE THE AMERICAN people are fed up with the usual sort of campaigning and want action and specific statements on concrete issues from the candidates. Maybe the electorate isn't as dumb as the politicians seem to think it is, judging by the kind of demagoguery and distortion they practice in their speech-making.

The time for action on many current problems is at hand. President Eisenhower has outlived a comprehensive program. It is of little consequence now whether he has been as insistent in the past as he might have been. Thus, Senator Lyndon Johnson, Democratic majority leader, is quoted as having said, in commenting on various recommendations in the President's message, that many of the provisions could have been passed if the President had "exercised the lead-

ership over the past seven years."

SO FAR AS THE American people are concerned, they know the Democratic party has been in control of Congress since 1951, and the responsibility for the nation's legislative still belongs to the party in power in both houses of the legislative branch of the government.

Senator Kennedy also would transfer the blame to the opposite side. He says with reference to the President's message:

"If (the President) can now assure us that a responsible program to meet those needs will start receiving the support of at least one-half of the Republican members of Congress, Senator Johnson and I can assure him that those needs will be met in every possible way that time permits."

BUT WHY DOESN'T time permit? And why should the party in power wait on the minority party? If any number of Republicans do not go along with the President's program, it would be a master stroke politically to put them on record so that the country would know who is blocking the enactment of necessary legislation. The recording of every legislator's vote on vital issues is a better way to appraise the worth of candidates for reelection than by trying to evaluate all campaign speeches, with their glowing promises, that might be made this autumn.

The most wholesome development that could occur at this critical time in American history would be for both parties to give up the campaign carnivals and shows and keep Congress in session until Mid-October, and then go to the country with a concentrated three weeks of campaigning that would really be far less of a bore to the public than three months of campaigning of the customary kind.

## Loses More Than Gignity

PRESCOTT, Ariz. (AP) — Gov. Paul Fannin lost dignity and part of his pants during the Prescott rodeo.

The governor rode in the rodeo parade, then dismounted and started on foot for the grandstands.

He crawled under a fence and heard a rip in the rear. The seat of his pants was missing. He attempted to hide his mishap by sliding along the fence. Then he met a lady who wanted to talk as he walked along.

"I just backed up against a car, the governor says, "and had to tell her what the situation was." Finally, a friend arrived with a pair of pants and guided the governor to a spot where he could change.

Why do advertisers show such confidence in the power of newspaper advertising?

They know that advertising is a two-way street . . . that readers are constantly looking for a myriad of goods, services, bargains and ideas.

Experience has shown them that newspaper readers are enthusiastic prospects who know what they want and that the place to find it is in their daily newspaper. Advertisers know that their daily newspaper reaches more prospective customers effectively and economically than any other medium.

**BIG SPRING DAILY HERALD**

# Drills At Forsan Begin Monday

**FORSAN (SC)** — Eight lettermen will greet Coaches James Blake and Tom Spell when they arrive at Forsan Monday morning. Forsan plays night-man ball.

Included among the returning veterans are two all-district players, linebacker-halfback Dewey Howard, a 160-pound senior; and Bill Conger, a senior end, who weighs between 170 and 175. Other lettermen returning include Johnny Bob Asbury, 175

pounds; and Rodney Allison, 160, both senior guards; Larry Stroud, 170-pound junior guard who plays play to move into the backfield; Jay Creighton, 140-pound senior end; Walter Fields, 160-pound junior quarterback; and a 135-pound junior back named Rodney Alexander.

# Bill Barker New Kat Cage Mentor

**GARDEN CITY (SC)**—Bill Barker, 30, has been named head basketball coach at Garden City High School. He will also assist the football mentor, Bill Richardson.

**BILL BARKER**

A native of Olive Hill, Ky., Barker starred in basketball for San Angelo College during the 1953-54 season. He was also a regular at Stephen F. Austin College in Nacogdoches, where he played under John O. Stephens.

Barker, along with his wife, Mary Jean, comes here from Elvira, Ohio, where he was not in school work. Prior to moving to Ohio, however, he was head coach at Maria High School for three years, where his teams won 65 and lost 22 games.

# Dressen Is Singing Blues About Club

**MILWAUKEE (AP)** — Charley Dressen, manager of the Milwaukee Braves, apparently is changing his tune. Up to now he has contended Braves would overhaul the first place Pittsburgh Pirates but after Wednesday's 3-2 defeat by Los Angeles the frustrated Milwaukee boss commented: "There's no pennant outlook for us if we don't start getting those timely hits."

# Alley Annies Will Hold A Conclave

An organizational meeting of the Alley Annies Daytime Bowling League will be held at 2 p.m. Monday at the residence of Jean Workman, 221-B Langley Drive, Webb Village.

**LOOKING 'EM OVER**  
With TOMMY HART

Richard Atkins, upon whose shoulders much of the Big Spring grid fortunes depends this fall, is the football-playing son of a father who was most adept in the sport.

**ECKHARDT**

Pop Jasper played high school ball at Canyon High and put, in a season at West Texas State before turning to the business world.

Incidentally, in 1923 — the year Eckhardt starred at Texas — SMU won the Southwest Conference championship but the Mustangs didn't meet the Longhorns on the football greenward.

At West Texas State, where Jasper worked for 40 cents an hour to help pay his way through school, the elder Atkins played under Oscar (Ox) Eckhardt, a University of Texas athletic immortal who even today is regarded as perhaps the greatest minor league baseball hitter who ever lived.

# West Texas Fans Await Pro Game

**ABILENE (SC)** — The first professional football game ever to be played in Abilene looms nearer for the barnstorming Dallas/Texas and the New York Titans who move in here next week for their Saturday, Aug. 20 game in the West Texas Shrine Bowl.

The two teams are currently on the road preparing for another game this weekend, which will wind up their activities before moving into Abilene Monday or Tuesday. The Texans are scheduled to meet the Boston Patriots in Boston Sunday afternoon in an attempt to increase their exhibition record to 3-0. The Titans opened with a loss to Los Angeles last week and they meet Oakland's Raiders at Sacramento Sunday.

The Texans and the Titans will be playing each other for the first time when they meet here next Saturday in Public Schools Stadium. Game time is 8 p.m. Tickets are on sale at Eagle Gym and in 31 area cities, including Big Spring. All seats are reserved and admission is \$5.00.

West Texas football fans will not only see some of the nation's former college greats, but they will be treated to an outstanding half-time show in the 15,042-capacity stadium east of the city. The half-time entertainment includes the Dallas Texans' TexAnns, the Hardin-Simmons University Cowboy Band and the Midland Suez Patrol.

# Wish U Well Is Favored

**RUIDOSO, N. M. (SC)**—Thirteen races, five quarter horse and eight thoroughbred, have been carded for Friday at Ruidoso Downs, with the Budweiser Allowance offered as the featured race of the day.

The twelfth race, a six-panel thoroughbred sprint, for three-year-olds and upward, which have not won other than maiden or claiming in 1960, has attracted a total of seven of the better horses at the meeting.

With an impost of only 115 lbs the favorite's role, no doubt, will go to the hard-hitting Wish U Well, which belongs to Raymond River of Big Spring. One of the leading riders of the meeting, Emil Armstrong, is named to the riding assignment.

Wish U Well appears as the one to beat. One of the strong contenders here seems to be Sassy Sissy, the four-year-old daughter of Spotted Bull—Saucy Sissy, from the stable of Joe Welch.

Always close in every outing and asked to carry only 110, she must draw strong consideration. Another strong contender could be Late Evening from the stable of W. H. Hodges. While the calibre is limited to only seven, the calibre of the horses will more than overcome the scarcity of the entries.

An interesting event will be the tenth race on the card, sending Grade A quarter horses the unusual distance of 500 yards, while

# Shantz In Command As Yanks Rip Sox

**By WHITNEY MARTIN Associated Press Sports Writer**  
Everything was normal with Bobby Shantz at the start of the 1960 major league baseball season. He had a sore arm.

Unfortunately for rival teams, wee Bobby has the faculty of returning to good health at the most inopportune times for them. This year is no exception.

It seems the little man has been starting seasons with a sore arm ever since 1953, the year after he was voted the American League's most valuable player award by winning 24 games for the then Philadelphia Athletics. In 1952 he was different. He finished with a sore arm—a broken arm, in fact.

to third place behind the winning Baltimore Orioles.  
The Orioles beat Detroit 4-2, Boston defeated Cleveland 6-1 and Kansas City stomped on Washington 13-1 in other American League games.

# Harvey Foster New Racing Secretary at Sun. Park

**ANAPRA, N. M. (SC)** — One of the countries most experienced racing officials, Harvey Foster, will serve as Racing Secretary for Sunland Park's second season of racing which begins September 30 for 45 days through January 8.

Herb Score was great for seven innings, with Bill Skowron's home run the only blot on his performance. He faded in the eighth for two runs and three hits.

He will also serve as Racing Secretary at the State Fair in Albuquerque.  
Foster's father was an owner-trainer and he was literally raised on the race track. He galloped horses as a youth and was a successful trainer while working his way up to several important posts during his many years on the track.

He was General Manager and Racing Secretary at Playfair and served as patrol judge at Del Mar's inaugural meeting. Among other tracks with whom he has been associated include Caliente, and Longacres.

# Pirates Host Red-Hot Cards

**PITTSBURGH (AP)** — The sizzling St. Louis Cards, just five games off the National League pace, clash with the front-running Pittsburgh Pirates tonight in the first of a five-game series.

The Cards have won 12 of their last 14 outings and are considered by some as the main threat to Pittsburgh's bid for its first pennant since 1927. The Pirates, meanwhile, are riding high on a seven-game winning streak and have copped eight of their last nine contests.

"As I've said before and I'll say always, we're just going to play one at a time," said the cautious Danny Murtaugh, manager of the Pirates.

Murtaugh was referring to his big 3 — Vernon Law (16-5), Vinegar Bend Mizell (9-5) and Friend (12-8). Both Law and Mizell have won their last five outings. Mizell has an 8-2 chart since coming to Pittsburgh from the Cards earlier this year.

Meanwhile, the Cards will be throwing their best at the Pirates with Ernie Broglio (13-5) climbing the hill tonight.

# Sox Ace Gets 513th Homer

CLEVELAND (AP) — Ted Williams has won his race with age to claim a baseball bonus — home runs No. 512 and 513 for third place in the major league rankings.

Just a few days away from his 42nd birthday, the Boston Red Sox slugger passed the late Red Ott's 511 total Wednesday night with a two homer salute to an almost

incredible story of stamina and conditioning. Are baseball's keenest eyes now focused on runnerup Jimmy Fox's 534 in the home run derby? Williams says no. He has not waived from his statement, made after hitting his 500th here earlier this season, that 1960 marks the end of his playing days.

Ted cannot get the 22 homers needed to tie Fox's by the end of the current campaign. Number nine has indicated to intimate friends he goes through agony to get in shape and stay there.

Two service hitches plus injuries have prevented Williams from having a chance at the lifetime mark of 714 homers hung up by Babe Ruth. No one is more aware of the fact than Williams who—because of his oft-interrupted career—never set a home run goal for himself beyond the 500th.

It was a tired Williams—complaining of a return of the neck pains which dogged him last season and this spring—who said before Wednesday night's game "I better hurry up and get the 512th before I collapse."

As the Sox beat Cleveland 6-1 Williams bagged No. 412—with the bases empty in the fifth inning off loser Barry Latman. He tagged Johnny Killebrew for another in the ninth with a mate aboard.

Redlegs Stressing Youth Movement

After years of going with veteran pitching staffs, the Cincinnati Reds suddenly have switched to youth. Left to right are: Jay Hook, 23; Jim Maloney, 20; Claude Osteen, 21; and Jim O'Toole, 23. (AP Wirephoto).

## Pachall Winner Over Newsom

Richard Pachall won his second round match in the City Golf tournament Wednesday, beating Jimmy Newsom by a score of 3 and 2. Pachall now awaits the winner in the Paul Mosley-Bill Cheek match, which has yet to be played. A victory there would send Pachall into the finals.

Quarterfinal matches in the upper bracket have yet to be played. Fact is, the first round duel between John Pipes and Bobby Wright hasn't been completed.

Donald Lovelady, first round winner over Pat Patterson, challenges the survivor in the Pipes-Bobby Wright test in the second round.

In championship consolation Wednesday, Dan Lewis won over last year's tournament champion R. S. (Red) McCullah, 4 and 3. Lewis had lost his first match to Charles Bailey while McCullah was ousted by Bernard Rains.

No second round matches have been completed in the first flight. However, in first flight consolation matches, John Ed Brown sidelined Avery Falkner, 6 and 4.

In the second flight, E. B. Martin advanced to the semi-finals with a victory over V. E. Jones, 2 up. Martin now opposes the winner of the Loy Carroll-Buck Buchanan test in the semi-finals.

In second flight consolation, Claude Ramsey won over Jim Lewis by a score of 2 up.

In the third flight, Ad Lindsey turned back John Day, 3 and 2; and Gerald Lackey outstayed Nolan Young, 6 and 4, in second round competition. They now play each other in the semi-finals.

In the fourth flight, Bill McRee decisioned Gene Carpenter, 2 up, while Wes Griffin sidelined Farris Hammond, 1 up 21 holes, in the second round.

McRee and Griffin now clash in the semi-finals. In fourth flight consolation, T. J. Compton turned back Neil Hatch, 2 and 1, while Jimmy Foresyth decisioned Frank Maberry, 1 up.

## Cards Beat A New Page

By WHITNEY MARTIN Associated Press Sports Writer. The St. Louis Cardinals are yapping at the heels of the arch-rivaling Pittsburgh Pirates in the National League, and a tall, rawboned relief pitcher has a lot to do with it.

His name is Lindy McDaniel, and he's rapidly becoming the Joe Page of the circuit. Joe Page was a New York Yankee reliever who made the bull pen practically a parlor a dozen years ago, bringing the erstwhile unsung denizens into the public eye.

McDaniel who came up from Hollis, Okla., wasn't an immediate success, and two years ago he was optioned to Omaha in the American Assn. for 12th game. He came back later in the season, finishing with a 14-12 record.

This year he is just like money in the bank for the pennant-contending St. Louis club. Wednesday he won his 10th game in 13 decisions, pitching the 8th and 9th innings in the Cards' 6-5 victory over the Phillies in 10 innings. He was lifted for a pinch-hitter in the 10th when the Cards were winning 5-3.

In other National League games Los Angeles defeated Milwaukee, 3-2; Pittsburgh beat Chicago 3-1 and Cincinnati downed San Francisco 5-3.

Losing pitcher Dick Farrell walked in the winning run as the Cardinals won their 12th game of their last 14. Bill White's three-run home run in the four-run fourth inning was the big blow. The Phillies loaded the bases in the 10th, but couldn't squeeze in a run.

The Pirates, with Vernon Newsum pitching a neat four-hitter for his 16th decision, defeated the Cubs, 3-1.

Chicago (AP)—President Bill Veeck of the Chicago White Sox has shouldered the full blame for Wednesday's costly 6-0 loss to the New York Yankees, which dropped his club into third place.

Veeck said he had failed to produce bench strength in the catching department. Regular catcher Sherm Lollar missed the three-game series with the Yankees because of a knee injury, leaving the entire catching burden on Joe Ginsberg.

In the seventh inning, Manager Al Lopez was unable to lift Ginsberg for a pinch hitter against lefty Bobby Shantz. The bases were filled when Shantz replaced Eli Grba and faced left-handed hitting Ginsberg. Ginsberg struck out.

"It never would have happened if I had provided Lopez with another catcher," said Veeck.

Palmer May Earn \$100,000 In '60 DUNEDIN, Fla. (AP) — Less than \$600 today stands between Arnold Palmer and the all-time record for golf earnings.

Palmer's \$3,300 first place money at the Insurance Open at Whetherfield, Conn., last week-end placed his total winnings so far this year at \$72,300, figures released by the Professional Golfers' Association headquarters disclosed.

The record is held by Ted Kroll of Sarasota, Fla., who won \$72,833 in 1956.

If the Ligonier, Pa., golfer continues his average of a little more than \$3,400 per tournament, he stands to win more than \$100,000 this year.

Second in winnings this year is Dow Finsterwald of Tequesta, Fla., with \$28,840. Third is Ken Venturi, Palo Alto, Calif., with \$26,900 and fourth is Mike Soucha, Durham, N.C., with \$22,100.

Joey Lopes TKO'd By Eddie Perkins CHICAGO (AP)—Eddie Perkins, 23-year-old Chicago product, hopes he is a step closer to a shot at Joe Brown's lightweight title.

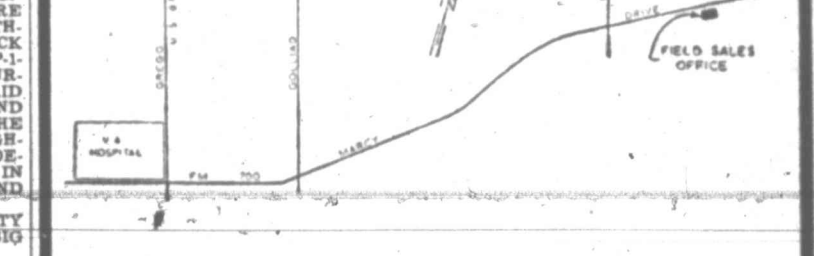

Perkins scored an impressive seventh-round technical knockout over Joey Lopes of Sacramento, Calif., Wednesday night to fortify his National Boxing Assn. ranking as the No. 4 contender.

## Inconsistent Officiating Expected in Rome Games

MORGANTOWN, W. Va., (AP) — U. S. Coach Pete Newell is preparing his team for the worst in basketball officiating at the Olympic Games later this month in Rome.

"It's not that there won't be good officials there," Newell said. "It's just that they will be from different countries and in some cases won't speak the English language."

Newell said he even has been calling fouls "backwards" in practice sessions at West Point, N. Y.

"We want our players to get used to any kind of call so it won't upset their game," Newell said.

"After all, there's no use arguing with the referees. Some of them won't be able to understand you anyway, and others won't even understand one another."

Newell said his Olympic team still is not in playing condition. He doubts they will be before the invasion of Rome for the games starting Aug. 25.

Newell was handed what has been regarded as an enviable assignment.

Among the super-stars on the team are All-Americans Jerry West of West Virginia, Darrall Imhoff of his own California team, Oscar

## Ottawa Is Scene Of Links Tests

OTTAWA, Canada (AP)—Three youngsters—Jack Nicklaus of Columbus, Ohio, Deane Beman of Silver Springs, Md., and John Koneck of Buffalo, N.Y.—along with four veterans carry the hopes of the United States in the Americas Cup International Golf Matches that open today.

The quartet of U.S. veterans in this team competition of amateur golfers from the United States, Canada and Mexico is Captain Bill Hyndman of Philadelphia, Charlie Coe of Oklahoma City, Don Cherry of Wichita Falls, Tex. and Dr. Frank (Bud) Taylor of Pomona, Calif.

Robertson of Cincinnati and Jerry Lucas of Ohio State's national champions. But this assignment isn't as easy as it looks, Newell said.

"Everyone of these players were stars in their college days. Basketball is a game of habit. All are used to taking charge and handling the ball most of the time. It's hard to get this group to learn to play as a team. It takes time and we don't have much of that."

## Zero Hour Nears For Chicago Tilt

By JERRY LISKA CHICAGO (AP)—Today was the quiet before the football storm in Soldier Field where the College All-Stars meet the heavily favored Baltimore Colts Friday night.

The champion Colts of the National Football League are rated three touchdowns favorites over some of the nation's top college seniors in 1959.

All-Star Coach Otto Graham, trying for his second victory in three years at the collegiate helm, pronounced his squad in good shape. However, lost earlier because of injuries were such standouts as halfbacks Jim Mooty of Arkansas and Don Perkins of New Mexico and guard Roger Davis of Syracuse.

If the All-Star defensive platoon can somehow slow down the Johnny Unitas-keyed Colt attack, the collegians conceivably could spring an upset such as they did against the Detroit Lions in Graham's All-Star debut in 1958.

The All-Star game, sponsored by Chicago Tribune Charities, Inc., will be televised and broadcast nationally by ABC.

The pros lead in the All-Star series with 16 victories, against 8 collegiate triumphs and 2 ties.

## Addison Probers Call His 'Faith' Story Fantastic

DALLAS (AP)—Texas legislative probers called the "story fantastic and incredible."

"Whole families were uprooted, selling all their worldly goods to provide money for 'the cause.' Children disappeared, sister turned against sister, followers lived in communes, daughter turned against mother, the faithful lived for weeks on deer meat and cabbage, and a weird regimentation became a way of life," said their report.

The 1,500-word report issued Wednesday covered the operations of John Milton Addison, a 36-year-old promoter who has told of borrowing more than \$1,250,000 from persons in 38 states to develop his mining interests.

The Texas House General Investigating Committee recommended that provisions of the Texas Securities Act be amended to increase the penalty for violators to a maximum of 10 years in prison.

Addison is presently charged in a 24-count federal criminal indictment with fraud and conspiracy, and he faces two state charges of theft and securities violations. He has also been adjudged bankrupt.

The report was released by Rep. Tom James of Dallas, a committee member, and committee counsel David Witts of Dallas.

"From the witness chair came statements about the 'world's largest uranium mine,' the 'world's richest nickel deposit,' the 'Ben-son upgrader' which somehow mesmerized low grade ore into a daily net profit of \$86,000, 'timber resources so valuable they would earn a million dollars a year forever,' 'the Dolly O Hotel' (a projected resort near Denver, Colo.), with its underground nuclear reactors and golf courses to be dedicated by President Eisenhower," the report stated.

A witness told the committee of communal living in a Denver dwelling with 26 persons, including four families.

"Children were forbidden spending money and were required to take their lunch, being forbidden to eat in the school cafeteria."

All this was done for "the cause" which a witness said was to "get rich and retire early."

## THE FRONT ROW

By Bob Smith

You've heard of Tennessee Williams, but who ever heard of Thomas L. Williams? Our research department reports that these are the same man. "Tennessee" is a nickname.

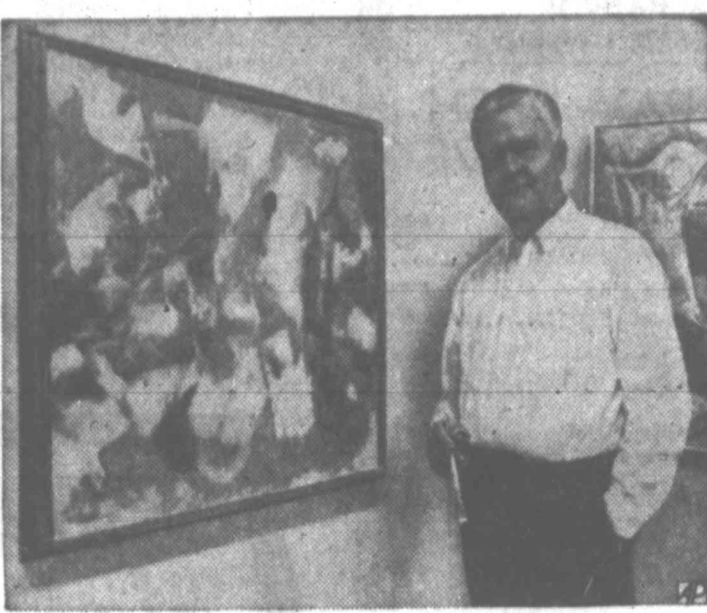

Al Capp's Dogpatch is brought to life at Fort Worth's Casa Manana in the musical comedy—"L'il Abner"—Aug. 8-20.

Blanche Thebom, mezzo-soprano star of the Metropolitan Opera Co., San Francisco Opera, London's Covent Garden and international concerts, will join the Dallas Civic Opera Co. in November to create the leading mezzo role of Ruggiero in Handel's "Alicina."

I haven't seen anything to equal this in Big Spring—a 15-year-old girl so well trained in dance that she could walk right into most any chorus job.

But that's the advantage of big city culture, and of having been born into a music-loving family. Diane Mulloy is a Miami girl and she was here with her parents to visit with her sister, Mrs. Al Short.

The Short, Webb-based, head of a small combo called the Tri-Tones, and there was some not-too-serious talk for awhile of Diane living

Space To Art

Roy W. Johnson, longtime head of this nation's space program, has turned to the more leisurely pursuit of art. Here he is shown in his Stamford, Conn., studio.

## Ex-Space Chief Tries Hand At Art

By WILLIAM BENDER

STAMFORD, Conn. (AP)—Space is big, but it doesn't hold enough for Roy W. Johnson. His dream lies in the world of art.

Johnson, the nation's first space chief, has given up rockets and government red tape for a paint brush and an easel. At the age of 54, he wants to paint.

"It's an urge I've had for a long time," the gray-haired businessman says.

This urge has led Johnson to begin an intensive program of study at the Silvermine Guild School of Art in nearby New Canaan. He is brushing up on what has been a hobby heretofore, and seeking new meanings of expression.

"I'm going to give this thing a try for two years," he says. "Then I'll know whether I have any talent or not."

He spends five mornings a week in class. At home, he works in a front sitting room converted into a studio.

A simple, peaceful life dedicated to the muse? It might be if Johnson were a less complex character.

But the likable, outward-going six-footer is a man of many drives and interests. Johnson likes life in the garret, but he also likes to come down and mix it.

This is how he mixes it: He is chairman of the board of the American Council to Improve Our Neighborhoods, a national urban renewal organization. These duties take him to New York City three afternoons a week.

He is chairman of the development board of the Silvermine school, and as such is guiding an expansion program the school hopes will culminate in the establishment of a New England center for the performing arts at Silvermine.

He is a deacon at St. John's Lutheran Church here.

He is on the board of directors of Stamford Hospital, and is an official of the Community Chest.

He is a provider for his wife, Ellen, and 13-year-old daughter, Kristine, who live with him in an 11-room ranch-style house built on a slope in North Stamford.

Johnson regards all these works fondly, but he doesn't force them upon a visitor. He has given several away to friends who asked for them.

He discusses art intently with obvious knowledge and relish. But he often has to be drawn out on the subject, seeming to prefer talking about space, the Silvermine expansion or the nation's cities.

His decision for art has stirred many imaginations.

"I've gotten mail from a surprising number of people," he says. "Some of them can afford to do what I've done, but they don't have the courage."

"You know, there's a bugaboo in our society. If you don't work and you don't produce, you don't fit in. Scare literature motivates against early retirement."

He is just as anxious to talk about national defense as art. Johnson spent 18 months as director of the Defense Department's Advanced Research Projects Agency. The job involved setting up a basic research operation to deal with space problems in the next 20 years.

RETIRED IN 1958

That wasn't his first crack at Washington. He interrupted his career with the General Electric Co. in World War II to head the facilities bureau of the War Production Board for three years.

He retired in 1958—before going to Washington—as a GE vice president. He had been with the company since 1930.

None of the positions he now holds is salaried, and his paintings don't bring in any earnings, either—yet. But they don't have to. He says he can maintain his comfortable mode of living for the rest of his life without working.

"GE was very good to me," he says.

Johnson's eventual aim in art is still undetermined. He is experimenting in a variety of styles, and he is going to let the future decide which is best for him.

Since commencing his studies last November, he has turned out hundreds of paintings, water colors, drawings, sketches and other experiments.

Johnson regards all these works fondly, but he doesn't force them upon a visitor. He has given several away to friends who asked for them.

## THIS DAY IN TEXAS

By CURTIS BISHOP

On this day in 1849 the United States Army called upon Governor George T. Wood for three companies of Texas Rangers. Border conditions had become so bad that the regular troopers could not keep out raiders.

H. Clay Davis of Rio Grande City had reported several hundred families driven into Mexico and offered a reward of \$50,000 for their return. Over 1,000 head of horses had been stolen in Nueces and San Patricio Counties and 36 people killed or wounded.

Five companies of Rangers were eventually recruited. Commanders were John S. Ford, Big Foot Wallace, J. B. McGown, Henry McCulloch, and R. E. Sutton.

One Ranger detail went into business on its own, crossing the border and recovering a cargo in return for a payment of \$2,000 by Camargo merchants. Thirty-seven Mexican soldiers tried to stop them but the Rangers brought back not only the merchandise but also the pants, shirts and guns of the Mexican troopers.

This incident caused temporary embarrassment when the United States protested to Governor Wood. Two years later the Army abandoned the practice of using Texas Ranger details and from then on, the state enforcement officers were under control of the Texas government.

## Sues For Kick By Dancing Girl

LOS ANGELES (AP)—Benjamin Fatz, a furniture dealer, who claims he was forced into a Las Vegas chorus line and then kicked by a dancing girl, has sued for \$253,600 damages.

Fatz, 54, charged Wednesday he was plucked from his ringside table at the Hotel Flamingo a year ago and involuntarily pulled onto the stage.

The suit claimed he was kicked in the leg and the injury caused an infection which has prevented him from taking part in his business.

Defendants named were the Hotel Flamingo Inc. and three John Does.

## Chessman Estate

SAN RAFAEL, Calif. (AP) — Convict-author Caryl Chessman, executed last May at San Quentin prison after an 11-year fight to escape death, left unpublished manuscripts of a book, four short stories and a series of articles on "The People vs. Chessman."

The inventory of his estate showed Chessman had \$1,096.80 in cash plus the manuscripts, his attorney, Rosalie Asher, executrix of the estate announced Wednesday.

## Chinese Depart

TOKYO (AP)—A 15-man Communist Chinese delegation left for home today after two weeks in Japan attending meetings of the Sohyo Labor Federation and the Sixth World Conference Against Atomic and Hydrogen Bombs.

## State Deficit

AUSTIN (AP)—With claims on the General Revenue Fund paid up to May 9, the state deficit is \$43,698,970, State Treasurer Jesse James said Wednesday.

Dear Mary:  
I don't dare tell my family what I've done and the trouble I'm in, that's why I'm writing you. I have never tried to hide the fact that I'm colored, although most people don't know because of my fair skin.

When I met Rick my whole life changed. He was white, handsome, from a socially prominent family... and we fell madly in love. When he asked me to marry him, I was afraid to tell the truth, so I passed for white!

Now the fear that's haunted every night of my marriage has come true... I'm going to have a baby! The question keeps pounding at me, "what will my baby be?" Should I confess to my husband what I really am? Will the truth make him hate me, or will he still love me?

Please tell me what I should do!

Sincerely,  
Lila

# Put Summer's Goodness On Your Winter Pantry Shelves

Put away this summer's tasty goodness for winter! Get out your canner and go to work when the seasonal vegetables come on the markets. There are a lot of good buys now in the vegetable sections of the markets.

## TOMATOES

**COLD PACK**  
Use fresh, firm, red-ripe tomatoes which are free of decayed spots and cracks. Wash tomatoes clean before scalding. Scald a few at a time to loosen skins, then dip in cool water. Cut out all core and green spots. Skin, core and cut tomatoes in quarters or leave whole, drop in hot jars. Cover with hot juice or press tomatoes until spaces fill with juice.

Leave 1/2-inch head space in jar.

Add 1 tsp. salt to each quart. Run knife between tomatoes and jars to remove air. Wipe top and threads of jar. Screw band tight. Put jars in canner and process pints 35 minutes and quarts 45 minutes in boiling-water bath.

## HOT PACK

Prepare tomatoes according to directions for cold pack tomatoes, while boiling. Pour, hot, into hot jars. Process 10 minutes in boiling water bath.

**BEANS**

**GREEN, SNAP OR WAX BEANS**  
Wash, drain, string, break or cut freshly gathered beans into 2-inch pieces. Boil 3 minutes. Pack, hot, into hot jars. Add 1 tsp. salt to each quart. Cover with boiling water. Process pints 20 minutes, quarts 25 minutes, at 10 pounds pressure, or process in boiling-water bath 3 hours.

## LIMA AND BUTTER BEANS

Wash, drain and shell beans. Rinse. Boil 3 minutes. Pack, hot, into hot jars. Add 1 tsp. salt to each quart. Cover with boiling water. Process pints 40 minutes, quarts 50, at 10 pounds pressure. If beans are large, process 10 minutes longer, or process in boiling-water bath for 3 1/2 hours.

## CORN

**CREAM STYLE**  
Cut tip ends from kernels. Scrape out pulp. Measure. Add 1 tsp. salt and 2 1/2 cups boiling water to each quart of corn. Boil 3 minutes, then pour, boiling hot, into hot jars. Process pints 95 minutes at 10 pounds pressure. Do not use quart jars for cream style corn.

**WHOLE KERNEL**  
Cut corn from cob. Do not scrape. Measure. Add 1 tsp. salt and 2 cups boiling water to each quart of corn. Boil 3 minutes. Pour, boiling hot, into hot jars. Process pints 55 minutes, quarts 85 minutes at 10 pounds pressure, or process for 3 1/2 hours in boiling-water bath.

## APPLESAUCE

Wash and drain fresh, sound apples. Remove stem and blossom ends. Slice and cook apples until soft. It is all right to add just enough water if needed, to start cooking. Press apples through sieve or food mill to remove skins and seeds. Sweeten sauce to taste. Reheat to boiling. Pour boiling hot sauce into hot fruit jars. Stir to remove air bubbles. Put dome lid on jar; screw band tight. Process pints 15 minutes, 1 1/2 pints and quarts 20 minutes in boiling-water bath.

## PEACHES

**COLD PACK**  
Wash, rinse, drain and sort firm-ripe fruit. Put peaches in wire basket or cheese cloth. Dip fruit into boiling water to loosen skins, then into cold water. Drain. Cut peaches into halves, pit and peel. Drop fruit into salt-vinegar water (2 tbsps. each to 1 gallon water). Rinse.  
**HOT PACK**  
Pack peaches into hot jars, layers overlapping cavity side down. Leave 1/2 inch head space.  
Cover peaches with boiling syrup (3 cups of sugar to 1 quart water). Run knife between fruit and jar to remove air bubbles. Add more syrup, if needed, to cover fruit. Wipe threads and sealing shoulder of jar. Screw cap tight, then loosen about 1/4 inch. Process pints and quarts 25-30 minutes in a boiling-water bath.

**BLACK EYE PEAS**  
Shell and rinse green peas. Boil 3 minutes. Pour, hot, into hot jars. Add 1 tsp. salt to each quart. Add boiling water, if needed, to cover. Process pints 35 minutes, quarts 40 minutes, at 10 pounds pressure.

**Meat Salad**  
Leftover roast pork is delicious added to a Waldorf salad—apples, celery and walnuts—but use French dressing instead of the traditional mayonnaise.

# Teen-Agers Are BIG SPRING HERALD Her Specialty

Sec. C Big Spring Herald, Thurs., Aug. 11, 1960 Sec. C

By SHERI WEBBER  
"I like teen-agers," relates Mrs. Colbert Frazier.

And this age group has been a field of ministry for the active church worker who has taught a Sunday school class ever since she has been 'old enough.' "I'm concerned with the problems that face teen-agers," says Mrs. Frazier, "and after coming through my own teen-age years and my son's, and now being in the middle of my daughter's, I feel that I have a little knowledge of their feelings and thoughts."  
Mr. and Mrs. Frazier have two children, Ted is now working on his master's degree at Central Bible Institute in Springfield, Mo., and making plans to go to the Philippines in mission work for the Assemblies of God. Nancy is a blue-eyed blonde who will be a senior in high school this year.  
The Fraziers are joined in their home on Dixon by Mary Frazier's mother, Mrs. Frances Bridges.  
And the family is completed by Bo and Bobo. Bo is a half-breed whose lineage of half toy Manchester and half Chihuahua made him unprofitable for a relative to sell—so he wound up in the Frazier home. Bobo is a brightly colored parakeet.

Both animals reflect the religious training of the home for when Bo is asked to say his prayers he promptly sits up and puts both little front paws together. Bobo is learning to recite the 23rd Psalm.

Mary and Colbert Frazier are natives of Oklahoma. They first met while attending Kings College, High School and Academy in Kingfisher, Okla.  
In the strict atmosphere of this school where the boys and girls were not allowed to speak to each other without special permission—the two high school students conducted a romance through Colbert's 9-year-old sister. The little girl would talk to her brother, whose family lived in the town of Kingfisher, then give Mary his messages.

Young Miss Bridges' home was in Oklahoma City, and every other weekend she would make the trip. By some strange coincidence, Colbert Frazier would just happen to visit the state's capital—every other weekend, too!  
The Fraziers moved to Big Spring at the beginning of the year when Colbert was transferred by Continental Oil Company where he is a dispatcher. Brownette, Mrs. Frazier is a clinic insurance clerk at Malone and Hogan Foundation Hospital.

"I hadn't intended to follow the medical field," comments Mrs. Frazier. She worked in a hospital in Kansas City and a clinic in Okmulgee, Okla., and now finds this a fascinating area of employment.

Cooking for two growing youngsters, Mrs. Frazier has picked up some excellent dessert ideas. Hot homemade bread and rolls are also a favorite with the family. So why not try these recipes:

**HOT ROLLS**  
1 cake yeast  
2 cups lukewarm water  
1/2 cup sugar  
1 1/2 tsp. salt  
2 eggs, well beaten  
4 tbsps. melted shortening  
7 cups flour  
Dissolve yeast in lukewarm water. Add sugar, salt and well-beaten egg. To this mixture add melted shortening, alternating with flour. Let rise until double in bulk, then knead. This dough may be stored in a covered container in the refrigerator. It will last up to 10 days.

## APPLESAUCE-NUT BREAD

2 cups flour  
3/4 cups sugar  
3 tbsps. baking powder  
1 tsp. salt  
1/2 tsp. soda  
1/2 tsp. cinnamon  
1 cup unbleached  
1 egg, unbeaten  
1 cup applesauce  
1 cup raisins  
2 tbsps. melted shortening  
Sift together dry ingredients; add nuts. In a mixing bowl, beat egg. Add applesauce and shorten-

ing. Mix in dry ingredients. Stir just enough to blend. Pour into a greased loaf pan and bake 1 hour at 350 degrees.

**ANGEL'S DELIGHT DESSERT**  
1 pkg. lemon gelatin  
1 cup hot water  
2-3 cup honey  
1-3 cup lemon juice  
1 can evaporated milk, chilled and whipped  
Vanilla wafers  
Mix gelatin with hot water, honey and lemon juice. Let cool until slightly congealed.  
Whip gelatin with rotary beater and mix with whipped evaporated milk. Whip together until well mixed.  
Roll vanilla wafers and place a thin layer of crumbs in oval or oblong glass dish. Pour in gelatin mixture and top with vanilla wafers crumbs. Cut into squares when ready to serve.

**RANGER COOKIES**  
1 cup shortening  
1 cup granulated sugar  
1 cup brown sugar  
2 eggs, well beaten  
1 tsp. vanilla  
Mix ingredients together, then add:

2 cups flour sifted with:  
1 tsp. soda  
1/2 tsp. baking powder  
1 tsp. salt  
1 tsp. cinnamon  
1/4 tsp. nutmeg  
Add to this mixture:  
2 cups quick-cooking oatmeal  
2 cups corn flakes  
1 cup nuts  
Form mixture into rolls, put in waxed paper and chill in refrigerator. When ready to use, bake at 375 degrees for 10 minutes.

## Crispy Waffles Are A Snap! And Good

Bring the waffle iron to the table!  
**CRISPY WAFFLES**  
2 cups sifted all-purpose flour  
3 tbsps. double-acting baking powder  
1 tsp. baking soda  
1 tsp. salt  
2 eggs  
2 cups buttermilk  
1 cup butter or margarine, melted and cooled slightly.  
Sift together the flour, baking powder, baking soda and salt; put back in sifter.  
In a medium-sized mixing bowl beat eggs with rotary beater, hand or electric, until thick and ivory colored. Add buttermilk. Sift and fold in dry ingredients in 4 additions; fold in melted butter with the last addition. Do not beat smooth.  
Bake in waffle iron. Batter is thick so you may have to spread it with a spatula almost to edge. Makes about eight 7-inch waffles.

What's Good For The Cook . . . Mrs. Colbert Frazier prepares to eat some of her own good cooking as she entertains guests.

**Egg Shelling Easy**  
What makes some hard cooked eggs so difficult to shell? Home economists say the chief reason is improper cooking. They recommend covering the eggs in a saucepan filled with cold water. When the water comes to a fast boil, turn off the heat and let the pan remain on the burner, covered for 30 minutes. Drain off the hot water; cool the eggs quickly with cold water. They will peel easily and there will be no dark rings around the yolk.

**Pretty Salad**  
Alternate green pepper or avocado rings with round slices of orange on a bed of crisp greens. Serve with French dressing.

## BEFORE YOU LEAVE ON VACATION . . .

Be Sure And Order Your HERALD VACATION PAC!

Just call The Herald Circulation Department and tell them when you are leaving and when you'll return. A copy of each day's Herald will be placed in this pack and delivered when you come home, at no additional charge.

Enjoy Your Vacation . . . But Don't Try This!

It's so easy to not miss anything that happened at home while you're gone . . . Order your Vacation Pac and leisurely read all the news of your town and friends.

Don't Forget! Before You Leave Call The Herald Circulation Dept. DIAL AM 4-4331

# Man-Sized Sandwiches Please All Who Eat 'em

Heroes are made at home. All you need are crusty loaves of bread, a variety of meats and cheeses and some savory goulashes and you can have the biggest easy-to-prepare snacks of the season.

Modern ways have helped along these sandwiches. Originally they were concocted from loaves of crusty Italian or French bread that had to be bought in special bakery shops. Now this type of bread is found in many large markets, and it is also widely available in brown-and-serve form.

Take your choice of meat for the Hero sandwich. Ham is present in the best of them—either plain boiled or leftover baked ham. The Italian-style ham called prosciutto is a great addition. Of delicate flavor, it's extremely lean and aged in spices. Usually it is cut lengthwise, but it's perfectly okay to cut it across the grain. Just one "must" about prosciutto—it must be sliced paper-thin.

Do you know your dry sausages? They make good eating in a Hero sandwich. These are sometimes called Summer Sausage because when they were first made, long ago, there was no refrigeration and their formulas were worked out with summer-time storage in mind.

Among the dry sausages are all sorts of salami and cervelat. Italian salami, made of coarsely chopped pork and finely chopped lean beef, is particularly suitable for Hero sandwiches. Cervelat comes in coarse medium or fine texture.

Another good choice, among dry sausages, is Capocola. It's on the large fat side and resembles Canadian bacon. Made of pork butt, it has a mild flavor. Similar to Capocola but hotter in flavor is Coppa.

For Hero sandwiches choose Italian, Swiss or cheddar-type cheese. Classic toppings include peppers, pickles, tomatoes, onion (red preferably) and olive oil. For an especially distinctive accompaniment, serve a homemade mustard.

An easy way to have a picnic is to take along the makings of Hero sandwiches and then let guests put together their own snacks. If you want to serve iced tea, tote it in a picnic jug. An easy way to make 2 quarts of the tea is to bring 3 cups of water to a boil in a saucepan. Add 1-3 cup loose tea (off heat) and allow to brew for 3 to 5 minutes, then stir it up and strain it, adding 5 cups of cold water.

Some day try this buttermilk batter for chicken. A note added to our onion-ring recipe gives explicit direction for making this change-over.

**FRENCH-FRIED ONION RINGS**  
2 pounds onions (8 to 10 medium-sized)  
1 cup sifted flour  
1/2 tsp. baking soda  
1/2 tsp. salt  
1 egg, (slightly beaten)  
1 cup buttermilk  
1/2 cup oil for frying

Peel and slice onions into 1/4-inch thick rounds; separate into rings. Soak in ice water 1 hour; drain and dry.  
Sift flour, baking soda and salt. Combine egg and buttermilk; add to flour mixture; beat until smooth.

Put enough corn oil into a kettle to make 1-3 full, or into electric skillet to make 1 inch deep; heat to 375 degrees.  
Add a small number of onion rings to batter at one time; drain off extra batter; fry without crowding until golden brown, turning once—about 2 minutes. Drain on absorbent paper. Makes 8 to 12 servings.

NOTE: This amount of batter may be used to coat 2 small broiler-fryers each cut in 10 pieces. Hold with tongs to drain off extra batter. Fry as directed for onion rings—meat should be tender and coating golden-brown in 7 to 10 minutes.

Picture James Beard goes all out for the way we French-fry onion rings.  
Munching them at a party at our house, he asked for the recipe and put it in his and Helen Evans Brown's "The Complete Book of Outdoor Cookery."

At that particular party we fried the rings in an electric fryer but as Jim says, there's nothing wrong with using "a fine old-fashioned black iron pot."

What's different about these onion rings?  
Their coating! We use our favorite fried chicken buttermilk batter for dipping the onions. When the rings are ready, they're sweet-tasting, light as a feather, crisp and golden.

If you want the onion rings extra crunchy—the way we served them to Jim and a quality he particularly liked—keep them warm in the oven. We didn't set out to achieve this effect. It just happened in an effort to keep one step ahead of our company's appetites.

One caution at frying time. Drain the rings after dipping them by holding a half a dozen or so of them with a long-handled fork so extra batter can drip down. If you get too much batter into the hot oil it will bubble furiously and may boil over.

We like to serve these onion rings as a party hors d'oeuvre. But they're perfect on a dinner menu with steak, baked potatoes and a green salad—a menu that is popular in restaurants that specialize in serving steak in New York and other parts of the country.

**Double-Duty Batter**  
This batter gives both french fried onion rings and chicken a golden-brown, tender and crisp coating. For informal eating, this is ideal!
