TWENTY-FOUR PAGES TODAY

HCJC Classes Begin; Rolls Are Past 500

Classes began Thursday morning at Howard County Junior College with an enrollment already exceeding 500.

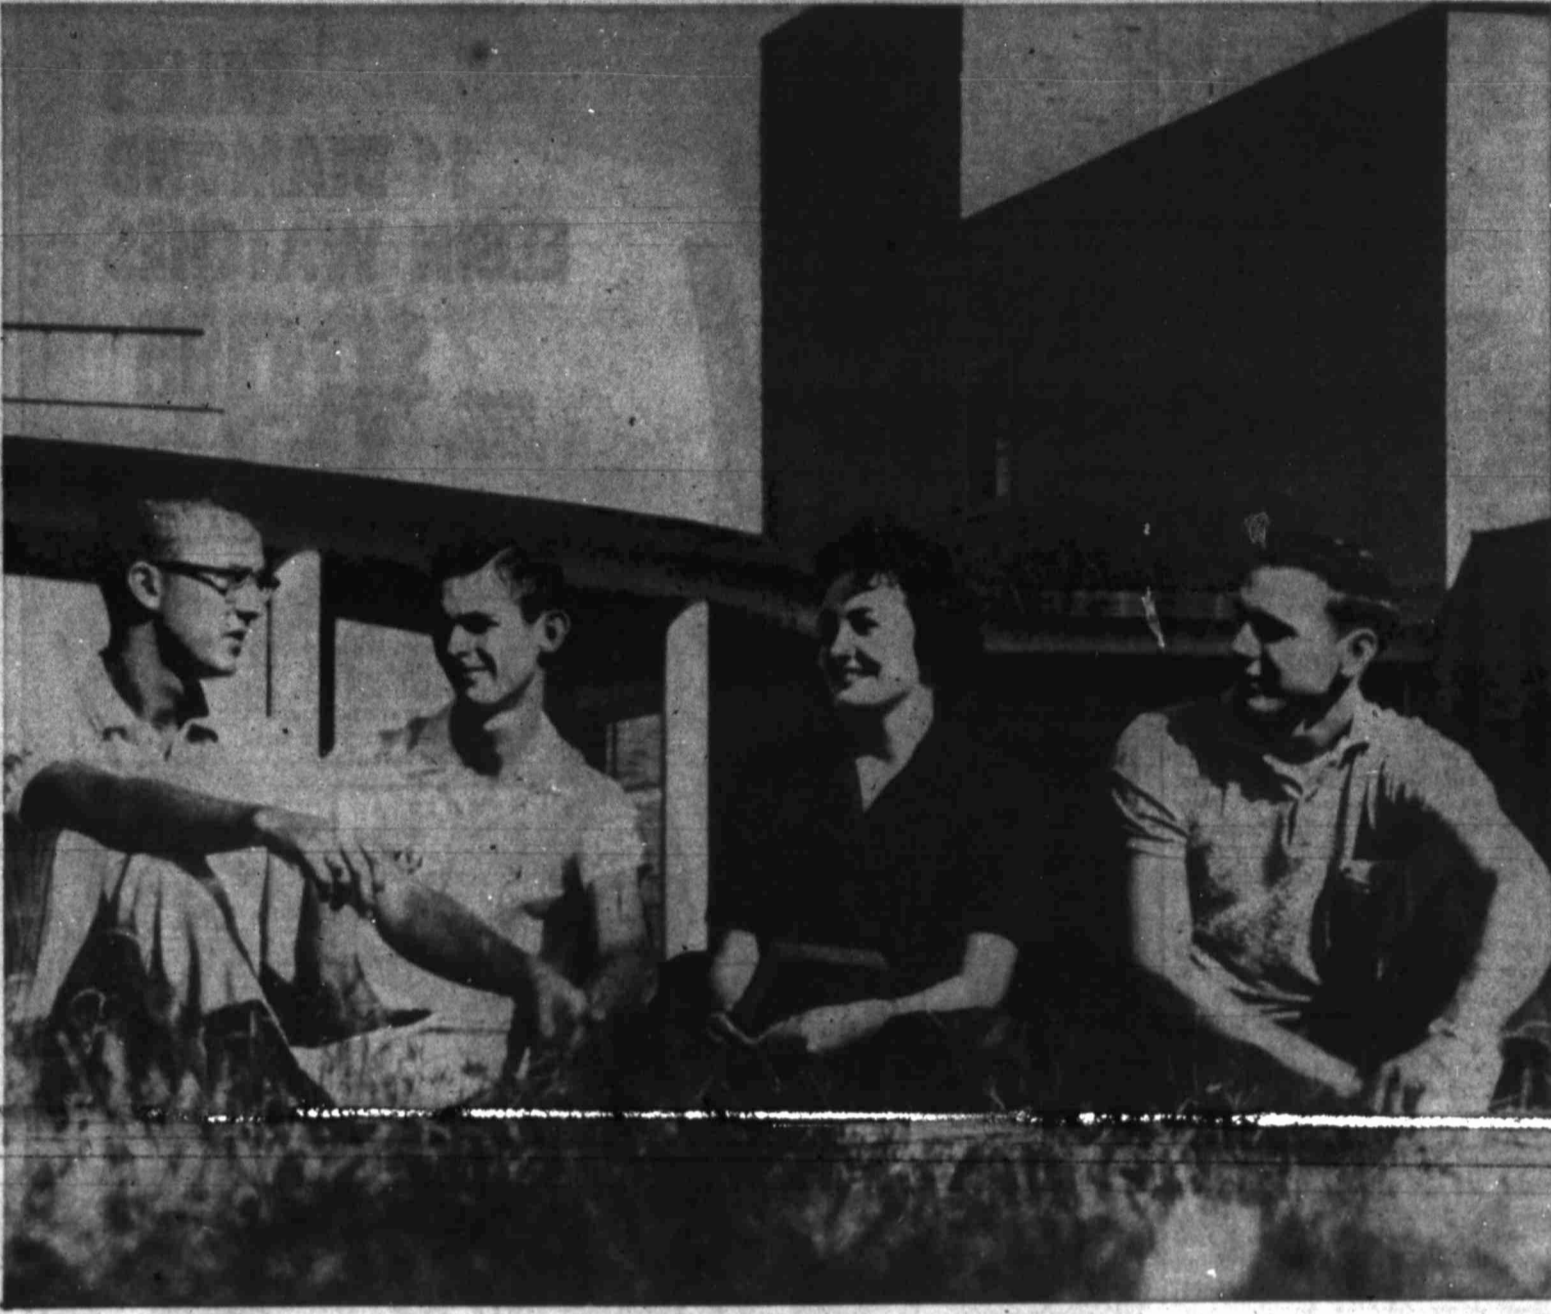

Dr. W. A. Hunt, president, said that he anticipated a substantial increase over the present figures. Indications are that there will be a gain in the number enrolled for the fall semester, and that the course load definitely will be heavier.

The first day of registration brought 243 and Wednesday 203 more cleared the business office. Of the latter number, 90 signed up Wednesday evening. In addition to these 446, another 100 students from Webb AFB were in sight, possibly more, giving a total of 546.

Dr. Hunt estimated that final figures would show 300 or more full time students (those taking 15 hours or more work). Already 271 have cleared the business office and there were about 25 pre-registrations which had not been completed. Dr. Hunt said that he figured that at least 20 of these would materialize.

Some of those who had reserved dormitory space have not yet reported, and Dr. Hunt did not know how to figure on these.

Registration will continue all this week, both days and this evening. Students may also register post week and as late as Sept. 24, but Dr. Hunt advised prospective students that it would be advisable to begin classes as soon as possible.

Classes Begin

Just taking it easy on the campus grounds for the first day of classes at Howard County Junior College are: (left to right) John Brown, sophomore; Joe Henderson, freshman; Jo Ann Horton, freshman; and Bill Argo, sophomore. All of the students are from Big Spring except Argo who is from Dallas.

NOVEMBER BILLING

New Water Rate Goes Into Effect

The new water rate increase, connected to the capital improvements program approved by voters Tuesday, will go into effect with September usage, with first billing in November.

City commissioners formally approved the increase in special session Wednesday night, at the same time authorizing the issuing of the \$4,300,000 general obligation anti water revenue bonds.

The new water rate will effect

customers both inside and outside the city limits, although minimum charges in both instances were not changed.

The new schedule for those living inside the city limits is \$3 for the first 3,000 gallons used; 50 cents per 1,000 gallons additional, up to 30,000 gallons; 45 cents per 1,000 up to 100,000 gallons, and 40 cents per 1,000 over 100,000 gallons.

For the few customers outside the city limits the minimum is \$4 for 3,000 gallons; 70 cents per 1,000 gallons up to 30,000 gallons; 65 cents per 1,000 gallons up to 100,000 gallons, and 60 cents per 1,000 gallons over 100,000 gallons.

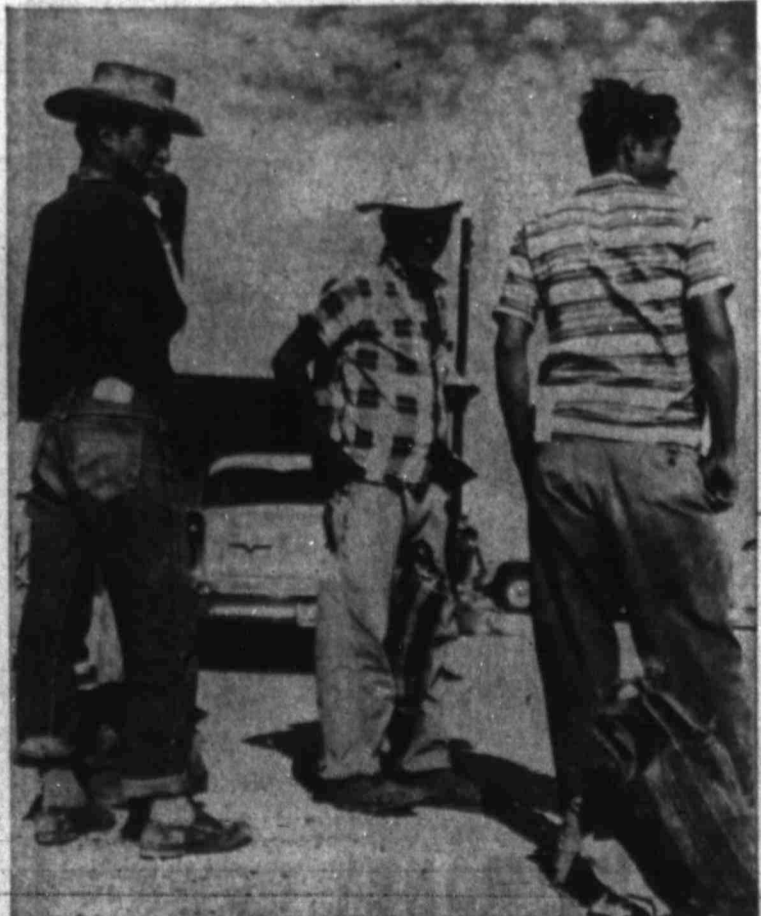

Soldiers Nearly Lynch Lumumba

LEOPOLDVILLE, the Congo (AP)—Congolese soldiers tried to lynch Patrice Lumumba today.

They broke into a U.N. troop building and tried to seize the disputed premier. Ghana troops of the U.N. Command succeeded in pushing the Congolese troops from the building.

The unruly Congo soldiers were roused to fever pitch by reports of numerous casualties among their families in Kasai Province, where troops loyal to Lumumba have been fighting against Baluba tribesmen. The United Nations announced a truce last Saturday in the bloody civil war.

Many of the Congolese soldiers in Camp Leopold II here are Balubas.

Waiting To Work

Looking just a bit apprehensive about the whole thing, these three braceros are waiting for some one to claim them. They are the last of 153 brought into Big Spring Wednesday. There are 1,100 Mexican nationals now working in Howard County. A peak of 16,000 is expected in the Martin, Glascock, Sterling and Howard county area by the middle of October.

Airliner Hits Dallas Hangar, One Man Killed

DALLAS (AP)—A huge airliner swerved out of control at Love Field Wednesday and smashed into a hangar killing one of seven men aboard.

A steel girder protruding from the building sliced through the nose of the plane as far back as the cockpit.

The four-engine Braniff International Airways DC7 burst into flames as it tore into the three-story Braniff Hangar. The flames were quickly extinguished and no one in the building was hurt.

Elmer R. Tiffany, 43, a Braniff inspector who had worked for the company 20 years, died shortly after arriving at a hospital. The other men suffered injuries, none critical.

It took rescue workers nearly two hours to free five of the men. The plane, undergoing maintenance, was being taxied to a ramp to test engines when it swerved sharply and hit the building.

Observers said one engine might have run wild, or the brakes of the plane might have failed. "There was one big whoosh, glass flew everywhere and everything busted up," said R. W. Brackett, 29, a line mechanic who was in the hangar.

James E. Jordan, 38, of Irving, Tex., was the only one aboard who escaped from the plane under his own power.

Jordan said he sensed something was wrong when the engines revved up. "I got up and tried to get to the cockpit, but I was pinned between two seats. I never did see what we hit," he said.

Fifty firemen ripped open a part of the plane and freed the others. At one point a huge crane was used to peel back a portion of the plane's roof—just like a can opener rips open a can.

Injured besides Jordan were Robert Fitzpatrick, 30, B. W. Clark, 23, R. R. Rogers, 29, and David M. Fellows, 29, all Braniff employees. W. A. Grunberg, an inspector, was not hurt.

Standard Takes Deputy's Post

Aubrey N. Standard, former Big Spring police captain, will become warrant deputy on the staff of Sheriff Miller Harris on Oct. 1.

Harris said that Standard will fill the vacancy on his force caused by the recent death of E. W. York. Standard is now working with the Snyder police department. However, he has never moved his residence from Big Spring to Snyder.

Standard served for 10 years as member of the Big Spring police department. He was released from that post in a departmental shake-up in the early part of this year.

Harris expressed satisfaction at being able to obtain Standard as a member of his force. He feels, he said, that Standard's long experience on the police department will make him a valuable man for the sheriff's office.

Firm Selected For Water Plan

Engineering, design and specifications, on the three top phases of the water system improvements program under the \$4,300,000 capital improvements program, approved at the polls Tuesday—will be done by Freese and Nichols, Ft. Worth engineering firm.

The work was outlined by the city commission for the Ft. Worth company at a special meeting Wednesday and amounts to \$1,116,000.

Marvin Nichols, partner in the firm, appeared before the commission and offered to do the engineering on the project for a fee of five per cent of the total construction cost.

Included in the work outline are the clear-well storage and additional filters at the filter plant for 1961, the elevated storage for the business area in 1962, and the sedimentation and flocculation basins and additional clear-well storage at the filter plant in 1965.

Commissioners informally agreed to allow Freese and Nichols, Dallas consulting engineers, to perform the engineering on the 1962 sewage treatment plant and the 964 sewage collection system. This work amounts to \$1,100,000.

It was also indicated that the Dallas firm would design water and sewer distribution mains for East 3rd and 4th, West 3rd and 4th, and the business area, all in 1961.

Local engineering firms will be considered to design water and sewer distribution mains remaining in the first year program, including Wright Airport, Settles and Clanton additions, Jones Valley, Kennebeck Hts., Lockhart, Cedar Ridge, Lincoln and Sunset, addition, 16th and the Settles area, Main at FM 700 and the North Side.

The commissioners agreed that, on the water filter plant projects and the sewage treatment projects, better integration of work would result if one firm handles the complete program.

BALANCED SYSTEM It was felt that in the case of the water filter plant the design of the 1961 phase will have a bearing on the one planned in 1965 and the same engineer designing both would balance the system.

The firm of Freese and Nichols has had experience with the Big Spring water filter plant, having designed facilities there, and commissioners agreed that its engineers were well qualified to design the proposed improvements.

Forrest and Cotton, which made the studies and recommendations

in the master plan, pointed out to the commission that its engineers are familiar with the design of the proposed improvements. Carl Shimek and Karl Hoelke, representing the firm, were present at the meeting.

Both firms indicated they would allow the city credit for the preliminary studies and planning already done—that contained in the master plan—and Nichols said his firm would allow 15 per cent of the 5 per cent fee for this. Forrest and Cotton would allow credit on a pro rata basis.

Nichols said that plans could be prepared within three to five months but hesitated to set an exact date. City Manager A. K. Steinheimer said bids for construction must be let by February to allow work to begin by March and be completed by Aug. 31, target date for completion of the first year's program.

The commission will meet Tuesday at 7 p.m. in another special session to consider officially approving an engineer for the sewage treatment improvements and to consider local engineers on various phases of the program.

Strike Postponed

A possible strike of switchmen on the T&P, set originally for Saturday, has been postponed indefinitely.

Reliable sources Thursday said that the issues involving work rules had been set up for continued negotiations and that the threat of a walkout had been eased.

Most railway operating unions had settled contractual matters earlier with the carriers, but this package did not include the switchmen. Some are represented by a switchman's union and some by the Brotherhood of Railway Trainmen. Most of the Texas and Pacific switchmen are under BRT jurisdiction.

Another Congo Coup Is Downed

LEOPOLDVILLE, the Congo (AP)—A spokesman for Premier Patrice Lumumba said today Col. Joseph Mobutu was arrested on Lumumba's orders 12 hours after the colonel announced the army was taking over power.

Allowable Is Reduced For September

FORMER WEBB MAN

Happy Pilots End Stay In Capsule

SAN ANTONIO (AP)—Two Air Force pilots, Argentine and happy, today completed a record-breaking 30-day simulated flight to the moon and back.

Capt. William D. Habluetzel of Ingleside, Tex., and 1st Lt. John W. Hargreaves Jr., of Castle Air Force Base, Calif., stepped from their 8 by 12 foot pressurized steel tank at 6:30 a.m.

Capt. Habluetzel formerly was stationed at Webb AFB.

Habluetzel, 36, and Hargreaves, 30, were locked in the space cabin simulator at the School of Aviation Medicine here Aug. 15.

"I feel fine, just a little wobbly in the knees," said Habluetzel. "I'm okay, except maybe I lost 15 pounds," said Hargreaves.

Both said the first things they noted upon leaving the cabin was the bright lights in the room and the lightness in their heads caused by loss of weight.

NO HEADACHES Habluetzel said he did not experience headaches as previous space cabin test pilots have reported.

Both wore their light blue-green hospital pajamas that had been their uniform throughout the test. Habluetzel said he thought they

felt as good as they did because they kept regular sleeping hours and did exercises every day.

"We did a lot of thinking, too. We had a lot of time for it. We thought about what people will go through when they actually fly a space ship. And we thought a lot about memories of the past," Habluetzel said.

Habluetzel's petite, blonde wife was waiting when her husband emerged. She stood back until the first rush of reporters and photographers left, then stepped forward.

BIG HUG "Hi, honey," Habluetzel greeted her with a big hug. She said the couple hoped to get away next week for a long vacation—visiting kinsmen and fishing at Bull Shoals Lake in Arkansas.

"It was real lonely without him, but I'm glad he did it," she said. Air Force officials said Habluetzel and Hargreaves would be given a convalescence leave although in apparent good physical shape. Such a leave will not take away their regular vacation time.

Dr. Billy E. Welch, space scientist in charge of the experiment. "We ended the experiment of our own volition. We expect a great deal of valuable information from the run on the human factors in space flight."

Today's hatch-opening ceremony completed the Air Force's third major test designed to show the human body is capable of withstanding space frontier hardships.

CLOSED CYCLE The cabin contains everything necessary to sustain life, including provisions for breathing, eating, drinking and personal hygiene. For the first time in the space cabin tests, the make-believe astronauts used machines enabling them to drink and re-drink the same water and breathe and re-breathe the same air.

This is the first 30-day test anywhere of man's reaction to a space-like environment. On Aug. 29 the two pilots surpassed the 13-day, 20-hour and 40-minute mark set in February in the same space cabin by Technical Sgts. Hobart Craft, 36, Wedowee, Ala., and William Henderson, 30, of Alice, Tex. The sergeant crawled out of the tank complaining of wobbly knees and occasional headaches.

The first simulated space pioneer was Airman Donald Farrell who attracted national fame in 1956 by spending seven days in a 3 by 5 foot cabin. He urged other space travelers not to travel alone because of the loneliness.

MAIL IS LATE But Gets There Residents of Alabama Street and the general area adjacent to that street were puzzled about an 8 p.m. delivery of their mail Wednesday. Normally, the mail reaches the district much earlier.

Postmaster Elmer Bostler said the reason for the delayed arrival was because B. P. Hitt, the regular carrier on the route, suddenly became ill as he was making his rounds. He still lacked mail delivery to a small area at the time.

By the time a substitute could be found and the route delivery resumed it was late in the day. Hitt was not believed seriously ill.

State Keeps 8-Day Oil Flow Pattern

AUSTIN (AP)—The Texas Railroad Commission today set the October oil allowable at 2,530,578 barrels daily, a cut of 47,644 from September.

Production will be permitted for eight days. This was a continuation of the September pattern. However, the difference in calendar days for the two months accounts for the reduction in permissive flow of Texas crude in October.

Nominating for the eight days ordered were Indiana Oil Purchasing, Atlantic, Sinclair, Gulf, Phillips, Shell and Continental.

Requesting nine days were Mobil, Texaco, Cities Service and Sun.

Standard Oil Co. of Texas proposed ten producing days. Humble, the largest Texas purchaser, made no specific recommendation as to days, but asked for 419,015 barrels per day.

BELOW LEVEL Charles Shaver, attorney for Humble, told the Texas oil regulatory body: "Our stocks of crude oil have been below adequate working levels for several months and have been getting progressively lower."

Shaver added: "In particular, we are short of Texas crude. Because of this low inventory situation and the continued short supply we have been unable in September to meet the demand for Texas crude for our own refinery requirements and we have also had to cancel commitments to our crude customers."

"The demand we have been unable to supply from Texas crude amounts to about 400,000 barrels to our refineries and about one million barrels to our customers."

"We don't think we can buy any crude on either an eight or a nine day pattern because we have already requested eight purchasing companies to advise us how much Texas oil they would sell us on a nine or ten day producing pattern for October, and none of them would commit any crude to us based on either of such producing patterns."

"Humble's nominations filed for the month of October total 419,015 barrels per day of which \$2 per barrel will be purchased from others."

E. L. Wilson, spokesman for a group of Dallas independents, told the commission:

TWO MORE WEEKS To Finish Road Walter Parks, county engineer, estimated today that two more weeks work will be needed to complete the special road being built by the county to serve construction needs of the proposed new Sid Richardson carbon black plant near Coalen Refinery.

He said that fills are being made and final grading completed on the road which will begin at the T&P tracks and extend northward to the site of the proposed plant. He said the T&P railroad had installed a temporary crossing over the seven tracks which must be crossed where the road leads into the area.

SATELLITE TIMETABLE

The Echo satellite will pass over the Big Spring area twice today. Passages are expected at 6:49 p.m., with the artificial moon heading SE; and at 8:37 p.m., with a southeasterly direction.

Price Of Marrying Goes Up, But Still Cheap At \$5

Add to costs of living: Marriage licenses are going to cost more. Effective Oct. 1, Mrs. Pauline Petty, county clerk, has announced that fees for issuing a marriage license are to be increased in her office from \$3 to \$5.

This is the second boost in the cost of licenses to wed in the last four years.

Mrs. Petty said that the bargain price of \$3 will continue through Sept. 30. On Oct. 1, the fee goes up \$2.

She would not speculate whether the announced increase would create a sort of late September boost in marriage licenses.

The new increase, she explained, was authorized by a law enacted by the legislature. However the law was ambiguous and most county clerks were a little uncertain on just what it provided.

Environment Study In Cancer Predicted

By ALTON BLAKESLEE
Associated Press Science Writer

MINNEAPOLIS (AP) — Our ways of life hold keys to saving many thousands of humans from cancer, a prominent scientist predicts.

Cancer tolls might well be cut 10 to 15 per cent within 10 years by finding these keys, says Dr. John R. Heller, president of Memorial-Sloan Kettering Cancer Center, New York.

Dr. Heller listed five major fields for study of possible cancer-causing agents in the American environment:

Unnecessary exposure to radiation, smoking, air pollution, some of the chemicals added to foodstuffs, and some chemicals handled in industry and manufacturing.

It is generally considered that only one per cent of cancers can be blamed upon environmental causes, he said in an interview at the fourth National Cancer Conference sponsored by the National Cancer Institute and American Cancer Society.

But, admitting it could be "a wild guess," Dr. Heller said he

thinks perhaps 15 to 20 per cent of cancers might be traced to agents in our environment.

He foresees big gains from research to find and then eliminate such causes, or finding ways of protecting humans against them.

Such research admittedly is difficult, he said.

Vaccines against cancer do not appear right now to be just around the corner, he said, but he has hopes they may be found.

Vaccines depend upon finding specific causes, such as viruses, which can be used to stimulate protective antibodies.

Dr. Heller said that within his own lifetime there could come one to three drugs which bring about permanent arrest of some few kinds of human cancers.

The problem of determining whether chemicals added to foodstuffs carry risk of causing cancer poses "a genuine dilemma," he added. This is particularly true for chemicals which produce cancers only occasionally in some species of animals, and under certain conditions.

For then the question arises whether they are safe for humans when put in tiny amounts into foods to improve taste, color, texture or other qualities.

If all such chemicals were banned entirely from foodstuffs, "we would have a very limited and unpalatable diet," he remarked.

DEAR ABBY BEST FOOT . . .

By Abigail Van Buren

DEAR ABBY: This isn't a love problem. It's more like a hate problem the way my husband has been crabbing. I am 48 and he is 57. We've been married 31 years. We are both large people. I am 5 ft. 10 and weigh 138 pounds, but

More Weather Satellites Due

WASHINGTON (AP) — Two more Tiros weather satellites will be sent aloft to take television pictures of the earth and its cloud cover.

The National Aeronautics and Space Administration says that Tiros II will be sent into orbit before the end of the year, and Tiros III will be launched next year.

Dr. Morris Pepper, NASA chief of meteorological satellites, told an Institute of the Aeronautical Sciences dinner meeting Tuesday night that attempts will be made to analyze data from Tiros II so swiftly that the information may be used immediately for actual weather observational purposes.

This would help especially in tracking such major storms as Hurricane Donna.

Tiros I, launched April 1, took close pictures before its mission failed at the end of June, but its pictures were of no operational use to weathermen.

New Police Chief
MISSION, Tex. (AP)—A Corpus Christi man, Robert Forche, 37, will succeed J. M. Rameriz as chief of police here. Forche previously worked as a criminal investigator in the Corpus Christi area.

Lawmen Arrive
AUSTIN (AP)—County, district and criminal district attorneys, and county judges, arrive here today for the attorney general's 16th annual Law Enforcement Conference. Atty. Gen. Will Wilson will address the session Friday.

Russia Would Smash U.S. If She Could

WASHINGTON (AP) — Soviet leaders would not hesitate to launch a surprise nuclear attack on the United States if they thought this nation could be smashed with one stroke, a former Soviet naval officer says.

Capt. Nikolai Fedorovich Artamonov testified Wednesday that Soviet military strategy has been based on the doctrine of a surprise nuclear attack since February 1955.

Artamonov, 32, who was commander of a Soviet destroyer in the Baltic fleet, defected to the United States in June 1959 while stationed at Gdynia, Poland.

His appearance before the House Committee on Un-American Activities, however, provided the first public disclosure of his presence in this country.

The slim, bespectacled Soviet with a heavy black moustache, spent most of his time telling of his Soviet-style education and of a gradual disillusionment with Soviet leaders.

He said he had been in the United States since shortly after he fled to the West, working with U. S. agencies he did not name.

He said he lives now in New York City at an undisclosed address, without guards or any form of protection from Communist retaliation.

Despite premier Nikita Khrushchev's repeated pronouncements favoring disarmament, Artamonov said, the Soviet doctrine of a surprise attack has been official since February 1955. He said it was spelled out in a Soviet military publication available only to high-ranking officers.

He said he had not himself seen any directives ordering preparation for such a surprise assault on this nation.

But he added: "I know of general broad statements which tended to prepare the Soviet officer corps for the possibility of being ordered to make a surprise attack."

He said "no senior Soviet officer believes that the United States would attack first."

Under questioning, Artamonov confirmed Western suspicions that the Soviet fishing trawlers frequently seen near U. S. waters are spying, not fishing. He said the vessels always are operated and manned by agents of Soviet naval intelligence.

AF Fails To Nab Space Capsule

VANDENBERG AIR FORCE BASE, Calif. (AP) — The Air Force failed Wednesday to catch a parachuting space capsule on the fly but reported late Wednesday night that the space package was sighted in the sea.

The Air Force said the capsule, parachuted from the orbiting Discovery XV satellite, was sighted by plane about 200 miles northwest of Christmas Island and 800 to 1,000 miles southwest of the Hawaiian Islands.

It's A Wide World

... And soon the names on that globe will come alive for Wade Simpson, left, and Terry Stanley as they begin a trek around the 25,000 mile circuit.

Local Youths To Begin Around The World Trek

By KAY LOVELAND

They're not getting forth in a balloon, and it will take them longer than 80 days, but Wade Simpson and Terry Stanley are going around the world. The two local youths intend to begin their journey Thursday.

"We may hitch-hike to San Francisco if we don't drive Wade's car out there," Stanley said.

Once they reach the West Coast, the boys, Simpson, 22, and Stanley, 20, plan to get jobs on a ship—freighter or luxury liner. It makes no difference—pursuing Hawaii. During the interim, after they reach the Coast and before they sail, they want to try their luck on some quiz shows.

"Tom McNeil, Don McNeil's son whom I knew in Dallas, is trying to help us arrange it so we can compete on a few of those shows," Simpson explained. "They're always giving trips away, as well as money."

LITTLE MONEY

They plan to take very little money with them. "We'll live on what we earn along the way. And we're taking no suitcases, just what we can carry in our packs. When our clothes wear out, we'll throw them away and buy some new ones."

Neither of them have worked on a ship before, but they hope to be able to get jobs as life guards or gymnasium teachers on their cruise to Hawaii. "We'll do anything, though," they smilingly said.

After a stay in Hawaii, working where they can, they will set their sights on the South Sea Isles, mainly Tahiti, New Zealand, Australia, the Philippines, Japan, China, India and other parts of Southeast Asia will follow in succession. In the Philippines, they already have construction jobs lined up.

MAY VISIT RUSSIA

Traveling by ship, car, horse, or whatever, they will continue their journey into Greece, the Middle East, North Africa, South Africa perhaps, and Europe. Their friends have warned them to stay out of Russia, but they have visas, and whether they go or not depends on the conditions at the time, they say.

"We expect the trip to last 11 or 12 months approximately, and we've made as many connections with people in the countries we plan to visit as we possibly can. Ruth McMahon, who has been on several tours of the world, has helped us a great deal and given us information about customs and things to see while we're in certain countries," Simpson said.

They want to stay in the homes of people as much as possible in order to learn more about them and let them learn more about Americans.

They plan to take a picture record of their travels with 35 mm color slides.

The voyagers will try to overcome the language barrier by mixing English and sign language, except in Spanish-speaking countries, where Simpson will be at

Anthem Considered Difficult To Sing

By ROB MARION

Way back yonder, even before the "good old days," the English had a drinking song titled, "To Anacreon in Heaven."

Today, 146 years later, the song has gained respectability and is known as "The Star Spangled Banner."

The words have changed, but kids and oldsters alike are still fighting the tune.

Anacreon was a Greek poet who lived when the English had the drinking song. He was either a sinful old man or an interesting fellow, depending on the point of view.

His friends, possibly somewhat envious, said he worshipped three things—the Muses, wine and love—although possibly not in that order.

HIGH TUNE

To get back to the drinking song, it had a high tune and was considered difficult to sing. Presumably the higher the tune got, the higher Anacreon went in heaven or something like that.

Along came 1814 and the United States and Britain were slugging it out to settle a few differences. During this time, Francis Scott Key wrote the poem, "The Star Spangled Banner," while on board a British warship to arrange the release of some civilians. At the time, the English were happily bombarding Ft. Mifflin and that served as subject matter for the poem.

Sometime later, the music and the poem got together and the result was the American national anthem.

Foreign nations attributed the song to America for years, but Congress didn't get around to making it legitimate until March 3, 1931.

Many Americans preferred "My Country, 'Tis of Thee," "The Battle Hymn of the Republic," and so on. The south held out for "Dixie."

ISSUE SETTLED

However, patriotic organizations settled the issue by developing public opinion—but it still isn't the most popular patriotic song because of the difficulty in singing it.

The song is used to open various public functions. Usually it is placed on an organ and nobody attempts to sing. It is found in the schools, but a brief survey through the Big Spring school system shows a split in opinion, although all or most teachers agree it is hard to sing.

One teacher showed a preference to "America," or "God Bless America," saying these songs are much easier to sing.

"In large gatherings, there is usually an ear-splitting tenor who can finish it out," the teacher said.

"But even there, if it isn't pitched just right, it's hopeless."

There have been in gatherings where they could tell it was hopeless before they ever got to the high point. You could see them bracing for it, taking deep breaths and straining. Some made it. Most didn't.

USED MORE

Another teacher handled it more gently saying it was used more in the school than "America."

"It is hard to sing, I'll admit, but I feel it way outdistances the other," she said.

"It is history to the children and I think we're keeping it alive in the schools."

"I don't sing it too well myself, but the kids will try anything and do the very best they can at it," she concluded.

Still another teacher said it was hard to sing, but that it should be sung and children should be required to know at least the first verse. It isn't used as much as when she was in school, she added.

At an elementary school a teacher thought the song was thrilling to the children, but that "America" was more popular because the words in the "Star Spangled Banner" were too hard for the young ones.

"Maybe a national anthem touching on more phases of American life would be more in keeping—one that could be sung by the young, the old and those who don't sing so well," she said.

KNOW VERSES

"Too few of the teen-agers have been taught the verses," a junior high school teacher complained saying that since it is the national anthem, it should at least be learned.

"It is very difficult to sing, but

SAC Bomb Contest Ends

AUSTIN (AP)—A stream of 26 bombers and tankers landed at Bergstrom Air Force Base here this morning, concluding the closing round of the Strategic Air Command bombing competition.

The crews took off on surprise alerts Wednesday night and flew simulated bombing missions against American cities.

Crews were scored on fast-reaction take-offs, radar strikes against targets, high and low level navigation legs, refueling and use of electronic countermeasures against simulated defense radar.

Final results are expected this afternoon. Awards will be given winning crews and units at a ceremony Friday morning.

In tabulations released Wednesday, a B52 crew from Altus AFB, Okla., won top honors in the bombing competition with 612 out of a possible 800 points. Its commander, Lt. Col. Duard Jackson, 33, piloted the simulated mission against his home town, Atlanta, Ga.

TRADING STAMPS DISCONTINUED

By All
DRY CLEANING FIRMS
In Big Spring
AT THE END OF THIS WEEK (SAT. SEPT. 17)

The distribution of trading stamps is a part of the cost of doing business, and represents a sizable percentage in the case of service businesses, like dry cleaning.

As all costs have risen, we have been faced with the decision of perhaps a general overall advancing of prices. This we are unwilling to do at this time. On the other hand we feel that we can drop the costly "bonus" system of trading stamps, and continue to give our customers the best possible service at fair prices.

We have therefore agreed to abandon the policy of offering trading stamps, at the close of business Saturday, Sept. 17. We are confident that our good friends and customers will recognize the sound economics in this decision.

Gardeners Begin Year Of Study Wednesday

Garden Clubs assembled Wednesday in the homes of members for the first meetings of the autumn season. Study was along various lines of gardening, and future plans were made for the groups.

OASIS CLUB
As the initial gathering of the fall season for the Oasis Garden Club, breakfast was served Wednesday morning in the home of Mrs. J. D. Leonard.

Fall Festival Plans Are Completed

Final plans for the Fall Festival were made by members of St. Thomas Altar Society at their meeting Tuesday evening at the church.

Time for the festival is set for 4 p.m. Saturday at the church, with serving of a barbecue supper to begin at 6 p.m. Various booths will be set up for the entertainment of all attending.

The group discussed the Diocesan Council of Catholic Women, scheduled for Odessa, Nov. 15-16. Next meeting of the society is slated for Sept. 27; the session will be a social, it was announced.

Elected to replace Mrs. Wood as vice president was Mrs. R. L. Beale. Mrs. Beale was also speaker for the morning, and she discussed spring blossoming bulbs, corns and rhizomes, telling the group how to distinguish between the various ones.

Mrs. Beale explained that the foliage of bulb plants is important to the life of the plant since that is the source of strength and nourishment for next year's growth. The speaker recommended pinning the foliage to the ground in case it becomes heavy, and unsightly, rather than removing it before it dries.

Good bulbs should be purchased, Mrs. Beale said, and she warned against the buying of bargain bulbs, since they might be diseased or immature.

The next meeting is slated for Oct. 12.

PLANTERS CLUB
An explanation of the schedule for the Fall Flower Show was heard by members of the Planters Garden Club at a meeting in the home of Mrs. Ennis Cochran Wednesday afternoon.

Mrs. Kyle Cauble, a member of the Spaders Garden Club and chairman of the flower show, made the explanation. The show will be presented in the Howard County Junior-College gymnasium, Oct. 29.

Announced was the meeting of the Southern Zone slated for Midland, Oct. 30. Several members plan to attend the all-day session.

Eleven members were present with the guest, Mrs. Cauble, Mrs. W. C. Martin, and Caylor, will be hostesses for the next meeting, Oct. 12.

FOUR O'CLOCK CLUB
Mrs. Cauble also appeared before the members of the Four O'Clock Garden Club to explain the flower show schedule. The group met in the home of Mrs. Weldon Lowe.

The club discussed the five-year project, which is the park on Elgin Street. It was decided to sow ryegrass to hold the soil and to plant iris along the bank of the park. Members will meet at various hours Saturday to plant the rhizomes.

Fund-raising activities were planned, with the first to be a rummage sale. Date for the sale is to be announced.

Mrs. Bruce Frazier discussed dried materials, telling the club the methods of preparing different types. She displayed some of the dried materials which she had worked up.

Nine members were present.

Baptists Continue Prayer Week Study

A look at the conditions in Texas was taken by members of the First Baptist WMS when they presented the program for the Week of Prayer observance Wednesday morning at the church.

The Mary Hatch Circle presented the discussions, directed by Mrs. Charles Sweeney. Participating in the study were Mrs. B. T. Faulkner, Mrs. R. D. Olney, Mrs. Ben Johnson, Mrs. P. D. O'Brien, Mrs. W. B. Younger, Mrs. T. K. Price and Mrs. Raymond Moore.

An offering was taken from the 32 members and a guest, Mrs. Kenneth Prater.

Family To Leave For Florida Visit

Mr. and Mrs. Huey J. Rogers and son James are leaving today for Florida. In Pensacola they will visit their daughter-in-law, Mrs. Morris L. Rogers and daughters, Kathy and Morris Lynn. This will be their first glimpse of Morris Lynn. They also plan to go to Panama City, Florida, where they will visit their son and family, Capt. and Mrs. Huey D. Rogers and Mary Ruth.

The Rogerses plan to return home in about 10 days.

Officers Listed For Knott HD Club Year

Mrs. Joe Myers was hostess to the Knott Home Demonstration Club Wednesday afternoon.

Officers for the coming year were elected. They are Mrs. J. L. Metcalf, president; Mrs. Jack Myers, vice president; Mrs. Mathis, secretary and treasurer; Mrs. Gaskins, council delegate; Mrs. Emmett Grantham, reporter and Mrs. Joe Myers, assistant reporter.

Mrs. Myers gave the devotion and led the group in prayer. Games were under the direction of Mrs. Louie Mathis.

Mrs. Billy Gaskins, council delegate gave her council report.

BSP Chapter Has Discussion Of Plans For Future

Projects for the coming year were discussed by members of the Xi Delta Epsilon Chapter, Beta Sigma Phi, Wednesday evening when they met in the home of Mrs. Pete Cook.

Seven attended the first regular meeting of the fall season and heard reports on the fund-raising project, the sale of cook books. Announcement was made of the West Texas Area Council meeting, slated for Odessa, Oct. 7-9.

The next meeting will be held in the home of Mrs. Billy Casey, 1811 Nolan, Sept. 27.

Members answered the roll call with answers to "What Does the Democratic and Republican Party Mean to You?"

The program for the afternoon was presented by the County HD agent, on house plants adapted to our climate.

Members of the club will meet Saturday morning at the school to assist the 4-H members in painting signs for the community.

Mrs. J. L. Metcalf will be hostess, Sept. 27 at 2 o'clock.

Mrs. Cole Will Head Elbow P-TA

Mrs. Kenneth Cole was elected to head the Elbow P-TA Tuesday evening at the school, when 45 attended the session.

Thirty-six of the group registered as members of the association. Russell Howle, principal of the school, introduced Mrs. Louis Alexander, a new teacher, and Joe T. Holladay, superintendent.

Elected as delegates to the Howard County P-TA Council were Mrs. C. O. Jones, Mrs. R. L. Rister and Mrs. F. M. Fulbright.

Delegates to the fall workshop slated for Ballinger in October are Mrs. Ray McKinnon and Mrs. Bill Stovall.

A social period followed the meeting.

Special Study Held By Baptist Ga's

Members of the Intermediate and Junior GA's of Phillips Memorial Baptist Church met for a review of parliamentary procedure and forward steps Tuesday afternoon.

The study was led by Judy Greenwald. Plans for a presentation service to be held Oct. 5 were discussed.

Wauneta Palmer read the birthday list of the missionaries and led a special prayer for them. Refreshments were served to 13 members.

P-TA Leaders Model Hats Indicating Office

Chairmen of two local P-TA groups modeled hats indicative of their office at meetings Tuesday in their respective schools.

WASHINGTON PLACE P-TA
Meeting at Washington Place School, the P-TA members heard Mrs. John A. Coffee as commentator for the fashion show of hats.

Introduced was Mrs. E. C. Smith, program chairman, who wore a straw hat decorated with fountain pens, idea cards and flowers. Mrs. Zack Gray's hat held a small gavel with streamers, and Mrs. Odell Womack modeled a headpiece made of membership envelopes.

The finance chairman, Mrs. S. James Johnson decorated her hat with a small bag of gold, while Mrs. R. P. Nicholson's hat bore pencils, memo pads, carbon paper and other essentials of the office of secretary.

Deposit slips and checks marked the hat of Mrs. Bob Dyer; newspaper fringes and a carnation made of newspaper formed a hat for Mrs. Dick Collier, who will serve as reporter for the coming year.

Roberts' Rules of Order was an appropriate topper for Mrs. Tip Anderson, who is parliamentary; Mrs. R. L. Reeves, room mother chairman, used a variety of party ideas for holiday entertainment in rooms.

A coffee pot, purse, tablecloth and pencils combined with flowers on the hat of Mrs. Ladd Smith, auditor, and the hat of Mrs. J. T. Baird portrayed the union of home, school and church; she is chairman of the devotions committee.

The association voted to sponsor a cub pack again this year and to provide first aid articles for all the rooms.

Likes Natural Look
Joan Weldon prefers a natural look. Her hair is natural in color, and she wears subtle make-up. She is currently touring nationally with "The Music Man."

HOLLYWOOD BEAUTY

Has Good Ideas On Easy Traveling

By LYDIA LANE
HOLLYWOOD — "Since I've been on the road with a show for two years," Joan Weldon told me backstage after a performance of "The Music Man," "I've learned to live out of suitcases."

"You must have learned it well for when you were in Chicago, your name appeared on a best-dressed list, and that's quite an accomplishment," I remarked.

Joan smiled. "There are two fundamental rules for traveling. First I anticipate what I will need and then I have to know where everything is to be packed so I can find them when needed."

"I plan very carefully and limit by basic colors to black for winter and white for summer. I try to include as many fast-drying fabrics as possible."

"I save those plastic bags in which sweaters return from the cleaners. I use these for stockings, gloves, lingerie and so forth; I can see where everything is and keep it neat and in place."

When I am traveling, I often arrive late and have to dress quickly for dinner or lunch and I don't have time to search for something to wear."

Joan told me that the only make-up she uses off stage is eyeliner and lipstick.

"I have an oily skin and I try to be in the sun as much as I can," she revealed. "Once I had acne which I cleared by washing with soap and water, sunning and keeping fats and sweets out of my diet. I don't have trouble with my skin any more, but I always keep a bottle of calomine lotion with me just in case, for I find it quickly cures a blemish."

"And another thing which is very important is keeping your hands away from your face when you have pimples. This can't be emphasized enough. If you have a blemish, picking it may spread infection and leave a scar."

I asked Joan if she had any special formula for success and she replied:

"I've found that you have to love your work to succeed. And don't push too hard. Trying too hard to get ahead usually leads to failure."

Officers Listed

Officers were elected at the meeting Tuesday afternoon of the Glasscock County Junior 4-H Club. They are president, Paula Hardy; vice president, Lanelle Etchinson; secretary and treasurer, Sarah Oakes; reporter, Gaylene Etchinson.

The group planned a meeting for their mothers Sept. 19, at 3 p.m.

Ten girls and Mrs. Mildred Eiland, HD agent, were present for the meeting.

GS Troop Meets

Barbara Burklow was elected president of Girl Scout Troop 340 at a meeting Tuesday evening in the scout hut. Betty Jordan is to be vice president; Kandice Long, secretary-treasurer. Nancy McEvers will be reporter. The study will be first aid in preparation for the first badge.

The P-TA presented each new teacher with a corsage.

During the business meeting the budget and new projects for the year were discussed.

The second grade, under the direction of Mrs. Warren, won the room count.

Refreshments were served to approximately 35 people.

The group will meet the second Tuesday of each month at 3:30 p.m. at the school.

Bunco Club Adds New Members

Three new members were welcomed into the Three-Six Club at the Wednesday evening meeting in the home of Mrs. John Hornburg.

Mrs. D. H. Friedrichs, a new member, won first prize in the games of bunco; Mrs. Robert Wells, another new member, won low score, and Mrs. W. E. Wadsworth completed the trio.

In second place was Mrs. Edward Miller; Mrs. Vincent Best was third. Mrs. Albert Roes was awarded the consolation prize, and Mrs. Harry Heise stopped the floating prize.

Mrs. William McHugh assisted the hostess in serving refreshments; Mrs. Best, 146-A Dow, was announced as the next hostess.

Child Study Club Has First Meet

Mrs. Bill Johnson and Mrs. Josh Burnett were hostesses for the initial meeting of the Child Study Club in the home of Mrs. Johnson Wednesday afternoon.

Speaker for the occasion was Mrs. Richard Patterson, who told the group how to determine whether or not a child has a talent for art. She stated that a child's self-confidence is increased if he is able to express himself in some creative way.

Parents should expose their children to the fine arts early in life, Mrs. Patterson expounded and in that way start their creative activities.

The next meeting is slated for Oct. 12 in the home of Mrs. Bill Pool, 1513 Stadium.

Citrus Market Feels Effects Of Passage Of Hurricane Donna

By The Associated Press
Hurricane Donna did extensive damage to Florida citrus and made inroads into Texas fresh produce markets this week, the U.S. Agricultural Marketing Service reported.

Exact long-range effects of the storm to total citrus supplies are yet to be determined. But the immediate result of the big wind was to make oranges and grapefruit more dear.

Texas food shoppers continue to have generous supplies of other fresh fruits and vegetables available, though. Bananas and grapes, especially Thompson seedless, claim best-buy honors among fruits.

And substantial shipments of many fresh vegetables arrived. Cabbage, potatoes and onions are abundant at popular prices. The same is true with celery, lettuce, okra, peas, squash and tomatoes. Watch for especially good buys on round-red potatoes, yellow crook-neck squash and yellow onions.

Lower wholesale prices were reported this week on snap beans, carrots, celery, cucumbers, onions, peppers and Tokay grapes. Sweet potatoes are becoming more abundant and prices are lower. Apples, too, are becoming lower priced as supplies increase.

Texas shoppers will have to pay more this week for avocados, cantaloupes, peaches, plums, nectarines and high-quality potatoes. The watermelon season is in its last stages.

Beef and lamb are features as supplies increase. Broilers and turkeys continue to be readily available at nominal cost. Live hog prices increased some but pork is still reasonable.

Mu Kappa Of ESA Makes Future Plans

The Mu Kappa of ESA held its meeting Monday evening with 10 members present. Plans were made for the rush season and committees were appointed. Plans for a Christmas bazaar were also made.

A jewel pin ceremony was held for Mrs. J. C. Armistead Jr. Hostesses for the evening were Mrs. E. W. Kennedy and Mrs. Hanson Lawhon.

State President Is Music Club Speaker

Mrs. Raymond Marshall, was guest speaker of the Music Study Club at the meeting Wednesday afternoon in the home of Mrs. H. M. Jarratt.

Mrs. Marshall is state president of the Texas federated music clubs. Mrs. Jim Line introduced the speaker to the group.

Special guests were Mrs. Jimmie Yates, state corresponding secretary and Mrs. S. W. Brunson, president of the seventh District and Mrs. Marshall all from Lubbock.

Mrs. J. R. Hensley presented a vocal number "The Song of Thanksgiving."

Yearbooks were presented by the program committee.

Hostesses for the afternoon were Mrs. Jarratt, Mrs. Douglas Wiebe, and Mrs. Jake Douglas.

Marie Hall was elected a new member.

STANTON FHA Sees Review Of Work Of The Year

STANTON (SC) — Carolyn Manning presided at the first FHA meeting held recently. For entertainment, a review of the work which was done last year was presented in a skit by Mona Epley.

Mrs. and Mrs. Walter Graves spent the weekend in Stamford visiting in the home of Mr. and Mrs. Albert Baugh and Patsy. En route they visited Mr. and Mrs. Granville Graves, Terri and Craig, of Coahoma.

Mrs. Mary Bridges of Big Spring visited recently in Stanton, with Mr. and Mrs. G. A. Bridges.

Members of the Stanton annual staff plan to go to Midland Thursday to work on the school year-book.

Special guests were Mrs. Jimmie Yates, state corresponding secretary and Mrs. S. W. Brunson, president of the seventh District and Mrs. Marshall all from Lubbock.

Mrs. J. R. Hensley presented a vocal number "The Song of Thanksgiving."

Yearbooks were presented by the program committee.

Hostesses for the afternoon were Mrs. Jarratt, Mrs. Douglas Wiebe, and Mrs. Jake Douglas.

Marie Hall was elected a new member.

In Second Home Contest

The Sandusky Mustangs, (above), who converted to 11-man football this fall, meet the Sinton Junior Varsity in their second home game Friday night. Above, left to right, seated, they are David Sordani, Glen Hanks, Johnny Merrick, Jimmy Schuelke, Jesse

Franklin, Dean Newsum, Bill Metcalf, Billy Rasberry and Ike Wasson. Back row, Coach Marlin Dadds, Weldon Moxie, Charles Free, Doyle Lewis, Eugene Taylor, Eugene Coleman, Larry Hall, Dan Shorter, Pat Fortune and Assistant Coach Van Koonin.

Orioles, Yanks In Virtual Tie

By ED WILKS
Associated Press Sports Writer

The New York Yankees and the Baltimore Orioles are in a virtual tie for the American League lead today as they take a breather before Friday night's opener of a four-game showdown at Yankee Stadium.

And all because the Yankees'...

...kissin' cousins, the last place Kansas City Athletics, bussed 'em right on the kisser.

The A's, after winning only five of 29 decisions with New York, swept the final two games of the season series with a 2-1, ninth-inning shocker Wednesday night on a tie-breaking home run by ex-Yank Andy Carey.

That shaved the Yankees' lead to one percentage point over the Orioles, who beat Detroit 11-10 in an afternoon game. Chicago's third place White Sox remained two games behind with a 6-1 setback by Washington that ended their winning streak at six.

Cleveland whipped Boston 11-7 in the other AL night game.

Carey's 12th home run led off the ninth for the A's and beat Art Ditmar (14-9).

Ray Herbert (11-15) was the winner, leaving 12 runners stranded and shutting out the Yankees on five singles after they scored in the third inning on two walks and a single by Roger Maris.

The Orioles blew 5-0 and 3-4 leads at Detroit, then nailed it with three runs in the ninth on Brooks Robinson's two-run wrap-up triple, Ron Hansen's two-out single and Steve Barber's neat relief. Chuck Estrada (17-9), the Orioles' top pitcher, was the fifth of eight pitchers used by Manager Paul Richards. The two-team total of 12 pitchers tied an AL record. Hank Aguirre (4-3) was the loser.

The White Sox were beaten by ex-teammate Early Batters, who walloped a two-run homer in the second inning off loser Herb Score (4-10).

A seven-run third inning triggered by a leadoff homer by Mike de la Hoz and capped by Vic Power's three-run homer, bagged it for the Indians. Barry Lutzman (6-16) was the loser.

Dodgers Slow Buc Express

By ED WILKS
Associated Press Sports Writer

These world champion Los Angeles Dodgers may be lost, but they're not forgotten—not when they keep hobbling up to harass the leaders in what still could become a race for the National League pennant.

After taking two of three from third-place Milwaukee last weekend, the Dodgers tagged the first-place Pittsburgh with a second straight loss, 5-2, Wednesday night, trimming the Pirates' lead to 5½ games by beating Vern Law for the first time this season.

The second-place St. Louis Cardinals gained on the Bucs with their eighth victory in 10 games, beating Cincinnati 6-4. The Braves walloped the Chicago Cubs 10-2 and now trail by 6½ games.

The Orioles blew 5-0 and 3-4 leads at Detroit, then nailed it with three runs in the ninth on Brooks Robinson's two-run wrap-up triple, Ron Hansen's two-out single and Steve Barber's neat relief. Chuck Estrada (17-9), the Orioles' top pitcher, was the fifth of eight pitchers used by Manager Paul Richards. The two-team total of 12 pitchers tied an AL record. Hank Aguirre (4-3) was the loser.

The White Sox were beaten by ex-teammate Early Batters, who walloped a two-run homer in the second inning off loser Herb Score (4-10).

A seven-run third inning triggered by a leadoff homer by Mike de la Hoz and capped by Vic Power's three-run homer, bagged it for the Indians. Barry Lutzman (6-16) was the loser.

All Six Junior High Teams Play

Three local junior high school football contingents—Goliad's Seventh Graders, Goliad's Eighth Graders and Runnels Ninth Graders—will be seen in action in the old football stadium here this evening.

Goliad's Seventh plays the opening game, taking the field at 4 p.m. against Lamesa.

Goliad's Eighth opposes Lamesa at 6 p.m. while at 8 o'clock Runnels' Ninth tangles with Snyder Lamar.

The other three junior high contingents all play on the road. Runnels' Seventh visits Snyder for a game with Lamar. Runnels' Eighth takes on a team from the same school while Goliad Ninth goes to Lamesa.

In four games last week, local teams failed to come up with a win.

Last week's results: Sweetwater 25 Runnels' Ninth 0; Snyder Lamar 44 Goliad Ninth 0; Sweetwater 14 Runnels Eighth 0; Snyder Lamar 30 Goliad Eighth 0.

UT Chancellor Lauds Athletics

AUSTIN (AP) — Dr. Logan Wilson, chancellor of the University of Texas system, says athletics and scholarship can peacefully coexist.

Writing in the September "Alcade," the university alumni magazine, Wilson says:

"During my past seven years at the University of Texas, I can honestly say that I have experienced no organized pressures regarding athletics which seemed to me to run counter to the educational purposes of this institution.

"Despite the noises which can always be expected from some dissidents, I find strong support for what I like to think of as a balanced perspective."

Grid Teams Fight Over Jim Harris

DALLAS (AP)—The Dallas Cowboys and the Dallas Texans continued today their legal battle over Jimmy Harris, the former University of Oklahoma quarterback haunted by the controversial option clause.

Meek And Broyles Laud Grid Elevens

There were mixed emotions in the Southwest Conference football training camps Wednesday as the majority of the teams prepared for their respective openers Saturday.

Coach Bill Meek and his staff agreed that the day's workout was the best of the season for Southern Methodist, which opens Saturday against Missouri.

Coach Frank Broyles of Arkansas said also that Wednesday's workout was the best of the fall for his Razorbacks. He said the Porkers "had more zip" and executed assignments well.

He stressed punt coverage and punt returns and had his charges run their offense against Oklahoma State—Saturday's opponent—plays.

At College Station, Coach Jim Myers said his Texas Aggies were dull and listless in their workout. The Aggies meet Louisiana State Saturday.

Texas Tech Coach DeWitt Weaver said the Red Raiders looked better in their work inside the 20-yard line. The Raiders emphasized kicking—punting and extra points—as they sharpened up for Saturday's session with West Texas State.

The Rice Owls, still nine days away from their opener against Georgia Tech, spent through one of their toughest workouts.

Texas University's top quarterback, Mike Cotten, rejoined the squad after missing several days of work with a pulled muscle. He did no contact work.

Texas Coach Darrell Royal plans a workout under the lights Thursday night to acclimate the Steers to their Saturday night game against Nebraska.

Donny Smith and Jerry Jack Terrell, both sophomores, moved into Texas Christian's starting lineup as Coach Abe Martin sought to bolster his No. 1 unit speed.

Texas Christian drilled on both offense and defense in preparation for their opener Saturday against Kansas.

There was more bad news in the Baylor University camp. Sophomore quarterback Gerald Erwin injured a shoulder and will be lost for awhile. The day before, veteran signal caller Ronnie Stanley was sidelined by an ankle injury.

The Bears stage their annual Green and White game Thursday night. On Sept. 24 they open the campaign against Colorado.

Brown In Fight

HOUSTON (AP) — Lightweight champion Joe Brown Wednesday signed to meet Mexico's Raymundo (Batling) Torres in a non-title fight Oct. 6.

Nicklaus Is Am Victim

By CHARLES CHAMBERLAIN
 ST. LOUIS, Mo., (AP) — Four brass teenagers, with Chuck Lewis, son of an old English golfing family, the ringleader, today try to keep the accent on youth in the National Amateur.

Stalwart

All Cobb (above), a 165-pound senior, is a bulwark in the Big Spring High School football line. The Steers play in Pecos Friday night. Cobb has already won two varsity letters.

Johnny Longden Due At Sunland

ANAPRA, N. M.—Jockey Johnny Longden, severely bruised and shaken in a spectacular spill at Del Mar Monday, told Sunland's Doug Atkins from his La Jolla hospital bed that he plans to complete his convalescence at Sunland Park and hoped to play a round of golf while at Sunland, but expressed doubt that he will be able to ride again for several months.

An Early Warning

LONDON (AP)—The assistant coach of the U.S. track and field team warned today that America must begin building immediately for the 1964 games or face decline to a second-rate athletic power.

Joining Lewis, conqueror of defending champion Jack Nicklaus in Wednesday's fourth round, are: Phil Brownlee, Ontario, Canada, junior champion; Steve Spray of Indiana, Iowa, 1959 western junior title; and Harry Root of Tampa, Fla., sophomore member of the University of Florida golf team. All are 19 years old.

The match-play marathon over the hilly, timbered 6,616-yard St. Louis Country Club course, has fifth and sixth round action today. This will trim the field to the four semifinalists who will joust over the 36-hole route Friday. The winners meet in a double round Saturday for the prestige-packed championship of the 60th tournament.

Charles Francis Lewis III, whose grandfather was a golf pro 51 years in Devonshire, England, and various cities in the United States, beat Nicklaus 5 and 3. His father is pro at the Little Rock, Ark. Country Club. Just before going out against Lewis, Nicklaus had been a tiger-like killer in mauling Marine Phil Rodgers of La Jolla, Calif., 6 and 9. Lewis' fifth round opponent will be Carl Lohren of Norbeck, Md., 23, current Mid-Atlantic champion making his fourth try in the National. Brownlee takes on John Guenther of Hershey, the 1960 Pennsylvania open title. Root squares off against Bob Gardner of New York, who won the California Amateur crown in 1947 and 1950 and the New York Metropolitan in 1958 and 1960. Spray draws Bert Burdick, 21, Baton Rouge, La., amateur king and a member of the LSU golf team. Other pairings include: John Garrett of Houston, 24, former Southwest Conference title; from Rice, vs. John Farquhar of Amarillo, 24, who also won the Southwest Conference crown, at Texas Tech, in 1959. Harvie Ward of San Francisco, 34, the 1955 and 1956 National king, vs. Claude Wild, 37, of Bethesda, 1957 Maryland champion. Fred Paine of Oakmont, Pa., 34 Pennsylvania state title; vs. Deane Berman, Bethesda, 22, the 1959 British amateur champion and 1960 Trans-Miss winner. Bill Hyndman, Abington, Pa., 44 finalist in the British Amateur last year, vs. Gene Andrews, Whittier, Calif., 47, semifinalist in the 1959 National and 1954 Public Links champion.

152 Are Poised For Tacoma Meet

TACOMA, Wash. (AP)—Early morning fog and dew set a damp stage as the first of 152 contestants teed off today in the 72-hole, \$25,000 Tacoma Open Golf Tournament.

The early risers got away at 7:15 a.m. and the last trio was not due off the Fircrest golf course's first tee until 2:02 p.m. (PST).

Fan interest is centering on Arnold Palmer of Ligonier, Pa., who is only a local victory away from setting an all-time off-season money winning record. His winnings for the year total \$70,316.19 and the record, set in 1956 by Ted Kroll, is \$72,335.83.

First place in the Tacoma Open will be worth \$3,500. A second-place finish, paying \$2,300, would leave Palmer slightly short.

Steers Skip Heavy Workout

The Big Spring Steers, in final preparation for their Friday night game in Pecos, will get off today with a chalk talk and an assignment test.

The gridders wound up their hard work Wednesday and, from all indications, are in good shape both mentally and physically for the joust with the Class AAA school.

Back Jimmy Madry is complaining of misery in the neck and back Ronnie Clanton has a slight charley horse but both will probably play against the Eagles.

Porters. Very few local fans were able to watch the Steers against Pampa last week, due to the distance between the two towns.

Pecos should pose quite a problem for the Longhorns and Coach Emmett McKenzie has discouraged all talk that the Longhorns will have an easy time of it.

The Eagles were picked near the cellar in their own conference but last weekend they knocked off Carlsbad, one of the highest rated teams in New Mexico high school football, 20-6.

Those who saw the game say Pecos was in charge at all times and Steer scouts who viewed the proceedings came back with tales of Pecos' willingness to mix it with the opposition.

Pecos' fans will be getting their first look at their hopefuls, since the Carlsbad game was in New Mexico. For that reason, a large turnout of fans is anticipated.

Tickets for the contest will remain on sale at the School Business Office here through Friday morning. They are priced at \$1.50 each and represent choice locations on the east side of the field.

Kuchta Trimmed From Pro Squad

By The Associated Press
 The Dallas Cowboys Wednesday trimmed center Frank Kuchta of Notre Dame from the squad. That left the National Football League club with 11 excess players that will have to go before the Monday deadline.

Rusty Russell Plans To Quit

VICTORIA (AP)—H. N. (Rusty) Russell, who crowded many thrilling and colorful moments into 38 years of coaching, is calling it a day.

The man who created the celebrated Mighty Mites of Masonic Home, piloted Southern Methodist to victory over Notre Dame and Ohio State and brought to football its most dazzling offense, will step out as coach of Victoria Junior College after the current football season.

RUSTY RUSSELL

"If I don't I may just go fishing and stay there," he grinned. He started his coaching career in 1922 with Granger, then was at Temple four years, two as head coach. He became head coach of Masonic Home in 1927 and there he created the legend of the Mighty Mites—the little fellows who beat the greatest in Texas schoolboy football although they seldom averaged 150 pounds to the man and had only two substitutes. In a 4-year period—1930 to 1933—his Masonic Home teams lost only one game and that was to a junior college. He went to Highland Park as coach in 1942 but also coached Masonic Home until it could find a successor. His Highland Park team won the district championship and Masonic Home tied for its district title. It appeared for a time that Russell might be coaching two teams in the state playoff but Masonic Home failed to get district representation when it lost the flip of a coin to decide the district tie. His Highland Park team of 1942 went to the quarter-finals, the 1943 team to the semi-finals and the 1944 team to the finals. He became assistant coach at Southern Methodist in 1945 and was elevated to head coach in 1950. He was head coach three years. He went to Schreiner Institute for a year and then became head coach of Victoria. In six years here he had a record of 35-23-1. His all-time record for 33 years as a head coach is 234 victories, 81 losses and 18 ties. This season still is to be added, "I'll have a pretty good team," Russell said. "I doubt if I win too many games though."

Smith Gets Draw With Henry Hank

CHICAGO (AP)—Hammering Henry Hank, Detroit slugger who has been angling for a crack at the middleweight crown, had a new ambition today—a rematch with hitherto unknown Jesse Smith of Chicago.

Smith, unranked among the middleweights, mixed a blistering attack with skillful defense Wednesday night and held Hank to a draw in a 10-round nationally televised bout at the Chicago Stadium.

Smith, unawed by Hank's impressive knockout record, would have scored a big upset if he hadn't been tagged with a whistling left uppercut midway in the final round that dropped him for the nine count.

He struggled to his feet, and stuck out his tongue at Hank in a show of heroics, but a chopping overhead right had him sliding along the ropes when the final bell sounded.

 THE HOME OF GREATER VALUES

Services For Mrs. Blagrave To Be Friday

Funeral services for Mrs. Martha Ann Blagrave, 79, of Route 1, Ackerly, are to be at 2:30 p.m. Friday in River Funeral Home chapel. The Rev. Claude Holt, Assembly of God Church, will officiate. Burial is to be in Trinity Memorial Park and River is in charge of arrangements.

Mrs. Blagrave died at 4 p.m. Wednesday in a local hospital. She had been in ill health for several years.

Mrs. Blagrave, who came to Howard County and settled in the Ackerly community in 1914, was born in Leon County on March 10, 1881. On Dec. 15, 1900, she married J. T. Blagrave, who survives her.

She was a member of the Assembly of God Church.

Survivors include her husband, two sons, Arthur and Floyd, both of Ackerly; three daughters, Mrs. Bertha Froman, Ackerly, Mrs. Sarah Choates, Tarzan, and Miss Velma Blagrave, Ackerly; four half-brothers, Sam Goolsby, Stanton, Ben, Ted and Frank Goolsby, all of Lamesa; one sister, Mrs. Ofa Stevens, Houston; two half-sisters, Mrs. Fannie Walton, Ackerly, and Mrs. Mattie Payne, both of Lamesa. There are eight grandchildren and one great-grandchild.

8-A Big Spring (Texas) Herald, Thurs., Sept. 15, 1960

Shoes Damaged

Entire shelves of shoes were badly damaged this morning when arson lighting blew out and ignited a fire in the rear of the Famous Name Shoes store, 190 1/2 Gregg. Firemen said the blaze was relatively small, but intense heat developed and smoke contributed to make the damage extensive. Fire Marshall A. D. Meador inspects the damage before making his report. The shoe store is one of four stores occupying the building at 190 1/2 Gregg. The other stores, although not hit by flames, reported some smoke damage.

Special Football Bus To Make Trip To Pecos Game

A bus may be chartered to carry football fans to Pecos.

At the Quarterback Club meeting Tuesday evening, it was announced that a fourth of the required 40 fares had been assured at that time. Others interested may make reservations at the Humble Station at 12th and Gregg Street.

The fire apparently started in the rear of the Famous Name Shoe store and although the blaze was small, damage was said to be heavy. Fire Chief H. V. Crocker said the apparent cause of the fire was a short in the neon lighting system. The fire started about 4:45 a.m.

Smoke damage was heavy in the other stores occupying the same building, including Alice's.

Upward of 100 turned out for the club meeting in the high school cafeteria and saw films of the Big Spring-Pampa game. Dr. Bob Johnson, president, urged members to recruit others as members to help stimulate more support for school athletics and to finance the program. The memberships are \$2 and may be obtained from Dr. Johnson, or from Milton Carver at Carver Pharmacy, or from any of the QB Club members.

Heavy Damage From Fire, Smoke In Store Building

Children Shop, Gordon's Hair Styling, and the B and B stamp redemption store.

Two other fires occurred Wednesday, including a car fire and a cotton burl fire.

Wednesday afternoon cotton burl ignited outside the Cooperativa Gin No. 1, S11 NE 2nd. The cause was unknown and damage was negligible, firemen said.

Wednesday night, a car owned by Gale Potter caught fire in the 500 block of W. 4th. The fire was apparently caused by a leak in the fuel pump. Damage was minor.

OIL NEWS

Midwest Plugs No. 1 Haney

Midwest Oil Corp. has termed its wildest venture in Howard County, No. 1 Haney, a failure and plugged and abandoned the project at 9,998 feet.

The probe was seeking pay from the Pennsylvanian section about 16 miles north of Big Spring. Operator had taken drillstem tests of the Fusselemian section but encountered no prospects.

A new Welch (San Andres) field project has been staked in Dawson County at Davidson and Penbrook No. 2-4-A. A. Johnson, a 5,000 rotary search.

Midwest Oil Corp. states No. 1 T. L. Wallace as a search for pay from the Northwest Ackerly (Canyon) field in Dawson County. The new venture is to drill to 9,600 feet and is a north offset to Santiago No. 1, Bowlin, field discovery well.

Coden No. 1-C Federal in Rosevelt County is bottomed at 9,960 feet waiting on cement. Operator has run logs.

Borden

Gulf No. 1 Welton is recovering. Log shows 14,863 feet and acidized with 500 gallons of mud acid. The project flowed 170 barrels of load oil, plus 66 barrels of water in 12 hours, on a 15-64 inch choke. Recovery was from the Ellinger section at 3,468-74 feet. It is 660 feet from north and 900 feet from east lines of section 23-30-34, T&P survey.

Humble No. 1-B Conrad is making hole in shale at 6,910 feet. It is 660 feet from south and west lines of section 71-29-Lavaca Navigation Co. survey.

Dawson

Gulf No. 1 T. L. Wallace is a new location to test the Northwest Ackerly (Canyon) field. Site is 330 feet from south and 1,980 feet from west lines of section 26-34-4n, T&P of Ackerly. It is to drill to 9,600 feet and is a north offset to the field discoverer, Santiago No. 1, Bowlin.

Gulf No. 2 Wright is running logs. Operator cored between 10,366-410 feet. Recovery was 43 feet of lime and shale from the Montoya section but there were no shows. It is 2,180 feet from north and 660 feet from west lines of section 71-1-6n, J. Polivent survey.

Garza

Conoco No. 5 Thurst is still fishing. It is 138 feet from north and 825 feet from east lines of the southwest quarter of survey 3, scrap file 8,270.

Conoco No. 1 Justice is drilling below 2,933 feet in lime. It is 660 feet from south and 1,980 feet from west lines of section 687-97-H&TC survey.

Glasscock

Anderson No. 1 Clark is drilling

Funeral For T. H. Gaskins Set Friday

Funeral for T. H. Gaskins, 81, former Big Spring resident and prominent Knott farmer, will be held at 4 p.m. Friday at the Nalley-Pickle Funeral Chapel.

Rites will be in charge of the Rev. Cecil Rhodes, pastor of the West Side Baptist Church, and burial will be in the Trinity Memorial Park. Mr. Gaskins died at his home in Lubbock at 2:30 p.m. Wednesday following a long illness. Arrangements in Lubbock were in charge of Rix Funeral Home.

Mr. Gaskins came to Howard County in 1906 and for more than two score years operated a farm in the Knott community. Since 1953 he had made his home in Lubbock.

Surviving him are his wife; one son, John Doyle Gaskins, Big Spring; two step-sons, Everett Click and Robert Clark of Dallas; two step-daughters, Mrs. M. C. Pinkston, Lubbock, and Mrs. Alvin Boatman, San Jon, N.M.; three brothers, John Gaskins, Melton Gaskins and Oscar Gaskins, all of Knott; two sisters, Miss Lula Gaskins and Mrs. Effie Turner, San Antonio. He also leaves 15 grandchildren and one great-grandchild.

Jury Considers Seabolt Case

A jury in 118th District Court was to begin consideration Thursday afternoon of its verdict in the compensation suit brought by Joe B. Seabolt against the Travelers Insurance Co.

The case has been in progress since Wednesday morning.

It was delayed Wednesday afternoon due to the absence of a doctor needed as a witness and was recessed until Thursday morning. At that time, remainder of the testimony was laid before the jury. A recess was taken at 10:30 a.m. to enable the court to prepare the charge.

Seabolt alleges in his petition that he was formerly employed by Roy J. McDaniel Co., in Howard County, on Oct. 6, 1959, he says he was injured in an accident. He is suing for \$25 per week compensation for 401 weeks.

Judge Ralph Caton of 118th District Court said that another compensation case is docketed to be started Thursday afternoon as soon as the Seabolt matter is in the hands of the jury.

Wiley Trial To Be In Cleburne

Big Spring witnesses in the case of the state against Roosevelt Wiley, 28, Odessa Negro charged with murder, have been informed that the defendant will go to trial in Cleburne tentatively on Nov. 14.

A recent attempt to try Wiley for the second time for the knife death of L. B. (Shorty) Canada, San Angelo, in Lubbock terminated in a mistrial when the court ruled a jury could not be obtained.

At an earlier Lubbock trial, Wiley had been found guilty and his punishment fixed at death in the electric chair. The verdict was set aside by the appeals court.

Wiley and a young companion, now serving a life sentence in the State, were arrested in Big Spring on Oct. 1958. A few hours later, the slain body of Canada, a milk truck driver, was found on the roadside in Coke County south of Sterling City.

Maj. Ivey Takes Committee Lead

The Protestant men of the Chapel appointed Maj. Ford A. Ivey as steering committee chairman during a meeting at Webb AFB this week.

Purpose of the new organization is to gain support of the men in chapel activities, routine duties being those of ushers, choristers, and Sunday School teachers.

Maj. Ivey's committee will make plans for future meetings of the group. Guest speakers will be programmed, he said, and plans are to have members leading in things such as hours of fellowship and meditation periods.

Next meeting is set for Sept. 21 at 7:30 p.m. in the Chapel Annex.

Lt. Coote Goes To Italy Post

Lt. William A. Coote, assistant operations and training officer at PT Group headquarters, left Webb AFB this week for assignment in Italy. His wife will travel with him.

A native of Waterville, N.Y., Lt. Coote joined the Air Force in 1955 and was an airman for a few months before entering cadet training. He received primary training at Spence AB, Ga., and earned his wings at Bryan AFB, in September, 1956.

Lt. Coote came to Webb in January, 1958, and served as an instructor pilot for two years before going to Group O&T section.

Webb Chaplain

Maj. Benjamin F. Meacham is Webb's new Wing Staff Chaplain. He transferred here from Naha AB, Okinawa, where he was stationed for two years. Chaplain Meacham holds B.A. and B.D. degrees from Duke University and is also a graduate of Harvard University's (1942) Chaplain's School. He played two years' high school football and baseball; a year of football at Duke; and boxed two years in college. Now in his 13th year of active military service, the chaplain did WWII duties in the China-Burma-India theater, 1944-45. He was stationed at Ladd, AFB, Alaska, 1952-54.

National Symphony Rated By Critics As One Of Best

When the National Symphony Orchestra comes here this season as part of the Big Spring Concert Association series, music lovers will have an opportunity to hear one of the world's greatest musical organizations.

Some critics make bold to rate it as one of the top half dozen orchestras. All are agreed that it is one of the handful of truly great orchestras.

Other offerings on this year's series include Carlos Montoya, unattached as a master of the Flamenco guitar, an "orchestra all by himself," the National Ballet Guild of Toronto, Canada; and "Pops Americana," starring the humorist Herb Shriner, famous orchestra leader Gustav Haenschen, and baritone George Alexander.

Attendance is by membership only and memberships (\$8 and \$3.50) are now on sale by directors of the association. They may also be obtained by calling Joe Pickle at the Herald, or at Henson's and Zack's downtown.

The National Symphony was founded in 1931 by Hans Kninder, noted Dutch cellist, culminating three decades of effort to root a quality orchestra in the nation's capital. Despite the depression, Kninder assembled a corps of accomplished musicians, and the popularity of the orchestra mounted steadily. A year after he got the orchestra together, he brought in a young cellist, Howard Mitchell, and this young man not only became a virtuoso at his chair, but in 1941 he conducted some of the "pops" concerts. From that instant, he was branded as a talented prospect, and when Kninder retired in 1949, Mitchell succeeded him.

In its last season, the National Symphony played to more than half a million people, including music lovers in 19 Latin American countries which were included on the itinerary sponsored by President Eisenhower.

Because of its excellence, the National Symphony is used on numerous state occasions in Washington. The organization in Washington is hailed for its performances of

HOWARD MITCHELL

McKenzie Talks To Lions Club

The fun in football is in trying to win, and it's more fun for the boys when they realize that the town is backing them, Coach Emmett McKenzie told the Downtown Lions Club Wednesday.

Although the pattern for performance in a game is set on the practice field, practice isn't altogether fun.

McKenzie said he was encouraged by the showing of his Big Spring High School Steers last week in defeating Pampa in the opener, but he said the game in Pecos Friday could be a real challenge. All games are tough, and some are just tougher than others, he added, and the Steers are considering each game as a season within itself.

The coach said that he believed the team realized the value of 100 per cent effort all of the time, and that the team had to establish a consistency of performance to

Rosary Friday For Mr. Corder

The rosary will be said Friday at 7 p.m. and mass will be at 8 a.m. Saturday, at St. Thomas Catholic Church for Earl Corder, 68, of 1306 Nolae.

Mr. Corder, a former grocery store operator here and a resident of Big Spring for 23 years, died at 2 a.m. today in a local hospital. He had been in ill health for a year.

He was removed from his residence and taken to the hospital Thursday evening.

Mr. Corder was born June 25, 1892 in Columbus. He married Lillian Canning, Dec. 29, 1923, in Houston. From Houston they came to Big Spring where Mr. Corder was salesman for the Admiration Coffee Co. for many years.

Some 12 years ago, he opened a grocery store in the city which he operated until failing health forced his retirement a year ago.

He was a member of the St. Thomas Catholic Church.

Survivors, in addition to Mrs. Corder, are three sisters, Mrs. Lou Henderson, El Campo; Mrs. Cora Henderson, Wharton; Mrs. Mary Steel, San Angelo; and one brother, H. D. Corder, Houston.

Bones Called Clues To Missing Coors

DENVER, Colo. (AP)—The discovery of the bones of a six-foot man and the clothing of Adolph Coors III provided the FBI today with a possible key to the disappearance of the millionaire brewer seven months ago.

The grisly find was made at a trash dump in the Rocky Mountain foothills 12 miles west of Castle Rock, south of Denver.

It was 25 miles from the rural bridge where Coors' abandoned truck was found last Feb. 9. He had left his mountain home that morning, en route to work at the Adolph Coors Co. plant at Golden.

Agents and sheriff's officers are continuing the search for the skull and other bones they said are required for identification. A biologist has said the bones already found are those of an adult male about six feet tall.

A truck driver on a target shooting outing, Edward Green, 39, of Englewood, found the clothing and the clothing of Adolph Coors III provided the FBI today with a possible key to the disappearance of the millionaire brewer seven months ago.

Green returned to the Denver area and advised a policeman friend, who called the FBI.

The FBI did not disclose the information until Wednesday.

Coors' wife and four children have been in seclusion since his disappearance.

His parents and brother, Joseph Coors, are vacationing at Nantucket, Mass.

Officers Make Arrests, Find Marijuana Cache

Two Latin-Americans, who were arrested Wednesday night on suspicion of possessing marijuana, have been released from custody after posting \$2,500 appearance bonds.

Although the warrant for their arrest was issued, no charges had been officially filed by noon. Gil Jones, district attorney, said that no charge has been filed by his office.

The pair, both 33-years-old, were taken into custody at Sam's Lounge, NW 3rd and Lancaster, shortly before midnight. Police and sheriff's officers were on hand to make the arrest.

Officers also arrested six women at the establishment and charged them with vagrancy. All six were released after posting \$50 bonds.

Police Chief Jay Banks said that the arrest of the men was made as a follow-up on information the department had received that marijuana was being circulated.

One of the men told officers that both men sometimes live in an apartment located on the second floor of the building occupied by the lounge.

Chief Banks said that one of them was called outside and asked if the apartment could be searched. Consent was given, the chief said. A small quantity of "manufactured" marijuana was found in a match box hidden in the refrigerator of the apartment.

The chief said he searched one of the men and found a large quantity of lawn photographs. He said that further searching of the apartment turned up more of the photographs and a quantity of barbiturates.

One of the men was released from Del Rio last week after posting bond on a marijuana charge. Chief Banks said that the suspect was charged with possession of seven pounds of marijuana by authorities in Del Rio.

WAS ONE OF THOSE DAYS

Wednesday was one of those days when County Judge Ed Carpenter should have stood in bed.

It started off when he went to get a cup of coffee. As he left the cafe, he found someone had traded hats with him. The hat left was somewhat like his but it had had a long and useful life. The Judge's topiece was only recently blocked and cleaned.

An hour later as he stepped out of the courthouse, his foot turned and he fell. He was not hurt, but the fall tipped the knee out of his trousers ruining a good suit.

After a little contemplation of things in general the judge put on the hat that wasn't his, pulled the torn edges of his damaged trousers together and went home.

There didn't seem much else to do.

the masters of the old world, but Mitchell has made it a leader of musical life in the new world. It has contributed generously to the creation and vitality of contemporary American music. The featured performance of good native music has become a tradition of the symphony.

Mitchell is regarded as a master programmer. The great variety of works included under his direction have been blended into programs praised for balance, vitality and musicality. The orchestra consistently produces a rich, lustrous, wholly unforced sound. Tone of the strings is said to be warm and vibrant; the whole ensemble brilliant and sensitive.

County Demos Meet Tonight

Machinery for Howard County Democrats is due to be called at a meeting set for 7:30 p.m. today in the county courtroom.

Frank Hardesty, chairman of the county Democratic executive committee, said that a number of matters would be talked at the meeting.

Among them will be the firming of the number of delegates to the state convention in Dallas on Sept. 19. He has reservations at the Baker Hotel for the Howard County group but needs to know how many will be definitely needed.

An effort will be made to ascertain the number planning on going to the Abilene rally Saturday when Sen. Lyndon Johnson will be the speaker. Also to be discussed are plans for the general election and for backing the Kennedy-Johnson ticket.

Hardesty said that later the Dollars for Democrat appeal would be scheduled. He invited all interested voters to the meeting and particularly urged the county delegates and all Democratic office nominees to be on hand.

Charged DWI

Marie Young, 46, who gave the Howard House as her address, has been released from custody at the county jail on \$500 bond. She was charged with DWI.

LEGAL NOTICE

AN ORDINANCE AMENDING AN ORDINANCE ENTITLED "AN ORDINANCE PROVIDING FOR ZONING" PASSED AND APPROVED ON THE 27th DAY OF JULY, 1957, BY CHANGING THE FOLLOWING DESCRIBED AREA FROM AN "A" RESIDENTIAL DISTRICT TO A "P" COMMERCIAL DISTRICT WHICH IS A TRACT OF LAND BEGINNING AT POINT IN THE WEST LINE OF SECTION 23 FROM WHICH THE S.W. CORNER THEREOF BEARS SOUTH 14 DEGREES 27 MINUTES EAST 107 FEET TO THE POINT OF BEGINNING; SAID POINT ALSO BEING WHERE PRESENT CITY LIMITS LINE INTERSECTS WEST LINE OF SECTION 23; THENCE NORTH 41 DEGREES 14 MINUTES EAST 416 FEET ALONG CITY LIMITS LINE TO A POINT IN SOUTH LINE OF ROAD FOR CORNER; THENCE SOUTH 81 DEGREES 35 MINUTES EAST 68 FEET ALONG SOUTH LINE OF ROAD TO A POINT FOR CORNER; SAID POINT ALSO BEING IN THE NORTH R.O.W. LINE OF U.S. HIGHWAY 80; THENCE IN A SOUTHWESTERLY DIRECTION ALONG A CURVE TO THE LEFT 1/4 PIET TO A POINT OF TANGENCY; THENCE SOUTH 14 DEGREES 27 MINUTES WEST 107 FEET ALONG NORTH R.O.W. LINE OF U.S. HIGHWAY 80 TO PLACE OF BEGINNING; CONTAINING 4.5 ACRES MORE OR LESS SAID AREA BEING DESCRIBED METES AND BOUNDS IN THE BODY OF THIS ORDINANCE.

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BIG SPRING, TEXAS:

THAT the following described tract of land in the City of Big Spring, Texas, be hereby changed from an "A" residential district to a "P" commercial district; with such uses and regulations as provided in the zoning ordinance of the City of Big Spring, Texas, which was finally passed and approved on the 8th day of July, 1947, said tract being described by metes and bounds as follows:

BEING out of and a part of Section 23, Block 23, T-4-S and Section 23 Block 23, T-4-S.

BEGINNING at a point from whence the Northwest corner of said Section 23 and the Northeast corner of said Section 13 bears North 15 degrees 09 minutes 13 seconds East 1379.5 feet.

West R.O.W. line of Watson Drive 407 ft. to the West R.O.W. line of Watson Drive 1379.5 feet.

THENCE North 14 degrees 27 minutes West 107 feet along West line of said Section 23 to a point for corner; said point also being where present City Limits line intersects West line of Section 23.

THENCE North 41 degrees 14 minutes East 416 feet along City Limits line to a point in South line of road for corner; THENCE South 14 degrees 27 minutes East 107 feet along South line of road to a

JOURNEY TO SHANGHAI—II

Brother's Visit Great Consolation

Editor's Note—The greatest human consolation he ever received—his brother's visit to him in prison, described the visit of his brother, former Maryland Attorney General William C. Walsh. This is the second of three articles on Walsh's journey to Shanghai.

By WILLIAM C. WALSH
Written for The Associated Press Copyright, 1960, By The Associated Press

The day after my arrival in Shanghai, I visited my brother, Bishop James Edward Walsh, for the first time. He was being held in Shanghai jail, serving a 20-year sentence on charges of espionage. Mr. Li, an official of the Communist Chinese Red Cross, and Mr. Shen, an interpreter, called at my hotel and took me by car to the walled prison.

I went in, accompanied by the Chinese Red Cross representative, and entered a room in the prison building where a white-coated guard was seated at a table. I was asked to fill out an application, in duplicate—giving my name, relationship to the prisoner, listing any articles I wanted to give him, and certain other information including my telephone number. I gave them my residence phone number at Cumberland, Md.

ANOTHER ROOM
It was also required to turn over any articles for the prisoner. After complying with these formalities, I was taken to another room where I met the prison official who was to preside over the interview. With him was an interpreter. The guard who had taken my application also accompanied me into the room, and in the back sat a photographer.

Seated at an oblong table with the prison official and interpreter on the other side, I was then read the regulations governing visits to the prison.

Among other things, these stated that no written message could be given the prisoner, no notes, cameras or recording devices could be taken to the interview; there could be no discussion of the charges against the prisoner or his trial; that all letters and gifts were subject to approval by prison authorities, and that he could be given necessities only; that the interview was limited to 30 minutes and would be ended instantly if improper matters were discussed.

SEES BROTHER
Shortly after the regulations were read to me and I had agreed to abide by them, my brother entered the room with a guard.

We shook hands. Some of the Maryknoll Fathers whom I had met in Hong Kong who had been in China with my brother asked me particularly to remember them to him. When I started to mention their names, I was told this was improper and that I should confine the discussion to family matters.

My brother and I then talked about various members of the family. A little later I asked him if he wished any efforts made to obtain his release from prison. I asked because some three or four years ago he had been authorized by the Chinese authorities to leave China but had refused on the grounds that he wanted to remain with the Chinese people, among whom he had worked most of his life.

NOT UNHAPPY
The interpreter began talking to the prison official about this question, but before it was ruled out of order, my brother said:

"While no one likes to be confined, I am not unhappy here, and I leave the future entirely in hands of God."

The interpreter told me the subject could not be pursued. My brother appeared to be well. He did not seem dejected, but on the contrary in good spirits. He told me that my visit was the greatest human consolation he had ever received.

He said he was in the prison's hospital section, not because of any illness but because of his age—69. He seemed somewhat thin, but then he never was very robust, and he told me he weighed 135 pounds, his customary weight. My brother also told me he had a bed to sleep on; received three meals a day which, though plain, were sufficient; that he was allowed to exercise outside twice daily; that he had a cellmate who was apparently Chinese but who could speak English.

CLEAN CELL
The only work he had to do, he said, was to clean his cell. The cell was free of insects. He had no outside books but got an occasional Chinese newspaper and certain magazines or periodicals produced in China but printed in English.

He doesn't have his breviary or any other religious books, nor does he have a rosary. As a present representing the 50th anniversary of our graduation, the authorities of Mount St. Mary's College had provided a gold rosary for the surviving members of the class of 1910.

I asked permission to give this rosary to him, explaining it was an anniversary gift. It was turned back to me with the comment that it was not necessary for him to have it and that prisoners were allowed only necessities.

NOTE REFUSED
I also asked permission to give him a note from Mr. W. Wallace McKaig of Cumberland, an old family friend, which only said, "Dear James: Best wishes." This was on a card containing Mr. McKaig's name and address. He had enclosed it in an envelope addressed to Bishop Walsh.

This was returned to me with the observation that prisoners could not receive any written messages—and with the added comment that there was no Bishop Walsh in prison.

I was allowed to give my brother a box of cigars, some cookies and candy, a fountain pen, some stationery, some clothing and two pictures of my grandchildren.

He told me he was receiving the customary two Red Cross packages each month and that he had an ample supply of cigarettes. Apparently, he is allowed to smoke only three or four a day.

PRAYER BOOK
On my final visit I also left with the prison authorities my own prayer book, a small one, asking that it be returned to me if my brother did not receive it.

I was told the book would have to be inspected, and while I tried to find out about it before I left, I was told it was still under inspection. So I don't know whether or not he got it.

At my first interview with my brother, a photographer was taking pictures. I asked the prison official whether one could be taken of my brother and me together, and this was done in the prison yard. A few days later a Chinese Red Cross representative brought me a print of this picture and also of one taken inside.

I was allowed to visit my brother on Aug. 4, Aug. 8 and Aug. 11. After the first interview of 30 minutes, I told the Chinese Red Cross representative that I had traveled a great distance and would like to have more than half an hour with my brother.

AN HOUR EACH
As a result, I was allowed an hour each on my second and third meetings. I was not told in advance just how many times I could see him, but on Saturday, Aug. 6, I was told I could see him next Monday, and on Thursday, Aug. 11, I was told I could see him that afternoon. It was then indicated that this would be the last visit.

I have tried to give an accurate account of the interviews with my brother. I am not complaining about either the length or their numbers. I appreciate very much having been allowed to see him, and I am very grateful to the Red Cross Society of China for obtaining the permission for me, and to the Chinese authorities who granted them.

Shortly before the end of the last visit, we discussed the possibility of our seeing each other again.

LAST TIME?
We agreed that because of our respective ages and the distance between us, we might not see each other anymore. My brother indicated I should not attempt to make a second trip, saying the recollection of this one would carry him along for some years.

I told him that if I could not get back we would not see each other again unless he got out, and he said, "We will meet in heaven."

I was somewhat upset. I remembered from the time our picture was taken in the prison yard that I could see him from the window in the room, walking across the yard to a passageway between two buildings.

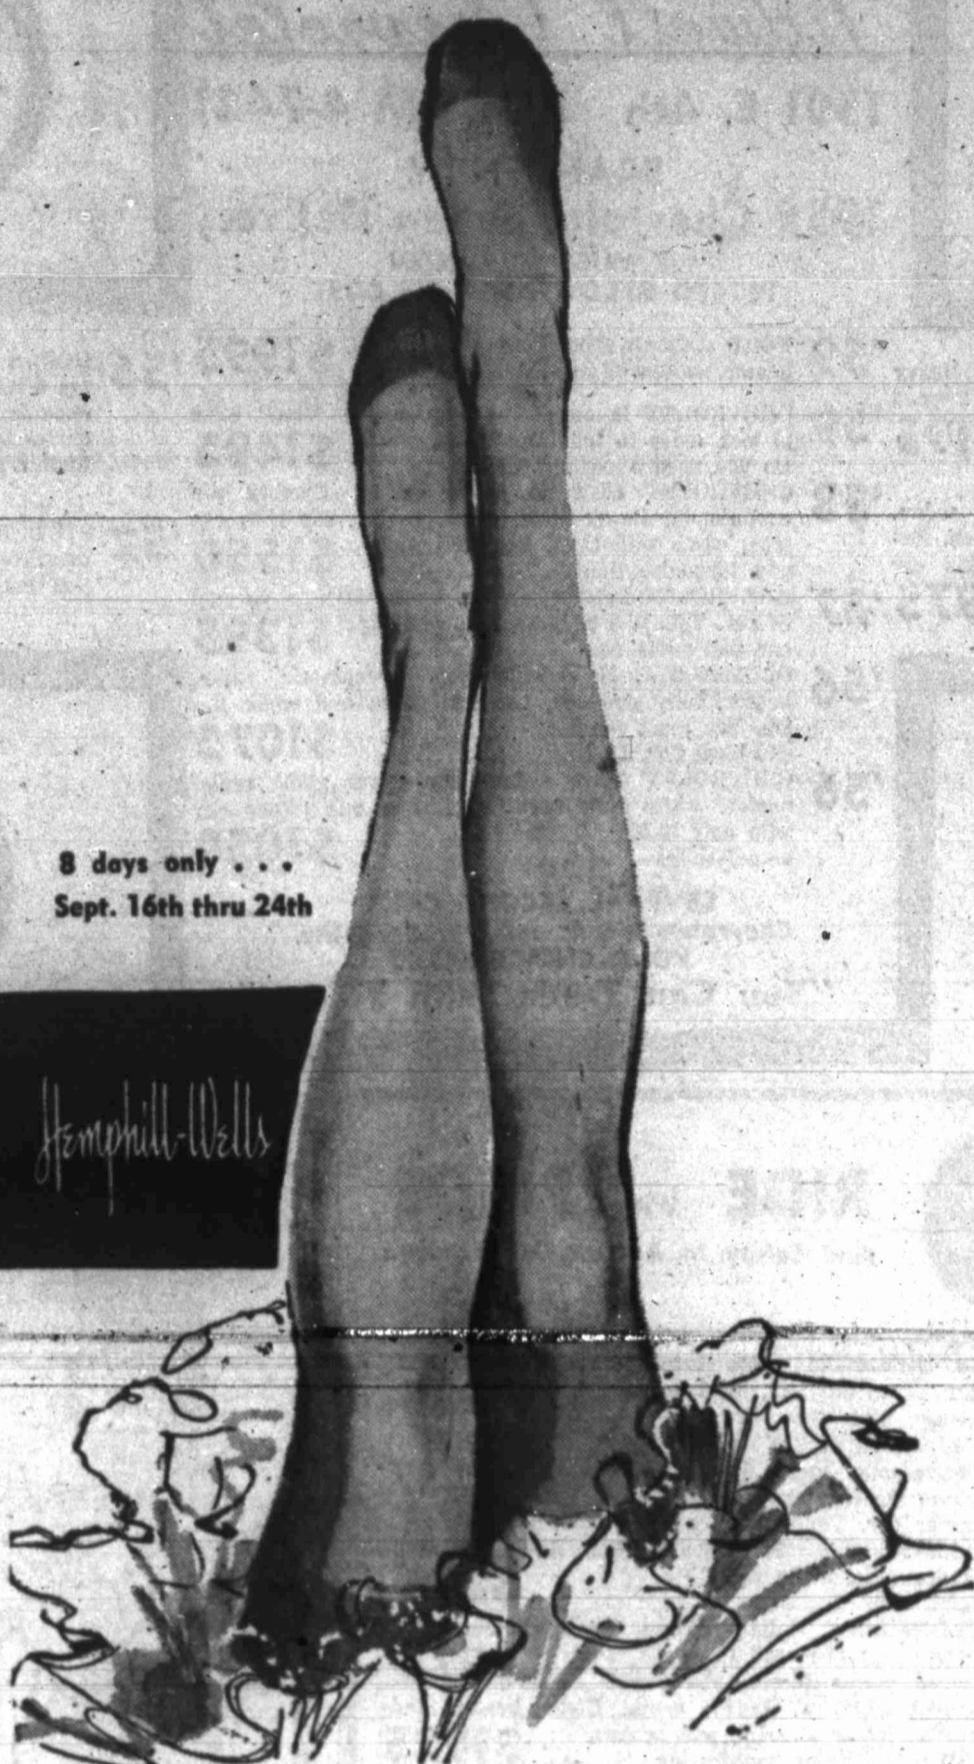

I went to the window and pulled aside the curtain but as the lower part of the window was painted, I could not see through. However, the interpreter helped me to open the window. When it was opened my brother was perhaps 10 or 12 feet from the passageway.

I called to him. He turned towards the window. We waved to each other and I said, "So long, James," and then he disappeared in the passageway.

Cancer Fund

AUSTIN (AP)—Texans have contributed more than one million dollars to fight cancer, the chairman of the Texas division of the American Cancer Society's annual drive says. Olin Culbertson Wednesday said more than 57,000 workers in 206 counties raised \$1,002,092.

Ex-Funeral Home Director, Wife Indicted For Assault

PAY MINETTE, Ala. (AP)—An ex-funeral home director and his wife have been indicted in the alleged rape of a 16-year-old girl who was babysitting for them.

Prosecutor James Hendrix said Douglas Walker, 40, and his wife,

Elizabeth, were released from the county jail under bonds of \$5,000 after their indictment Wednesday. Both are charged with rape. Hendrix said they are accused of "administering" some form of drink to the girl, which rendered her defenseless.

White Line Settles 'Segregation' Fuss

PORT-LEVEQUE, France (AP)—The mayor, the priest, the school teachers and the parents of this little Normandy town have been bickering for two months over whether boys and girls should attend school together.

After many bitter attacks, protests, debates and votes, it was decided the children could attend lectures in the same classrooms. But on the playground, a white line will separate the boys from the girls.

Johnson Asks Johnson's Help

RALEIGH, N.C. (AP)—Samuel Johnson, a Raleigh attorney running for president of the State Young Democratic clubs, has dispatched a special request to Sen. Lyndon Johnson, D-Tex.

The North Carolina Johnson wants to know if the Texas Johnson has any old signs left from his unsuccessful bid for the presidency in Los Angeles in July. Says Sam: The wording would be just right for his YDC campaign, "Johnson for President."

BIG SPRING, TEXAS, THURSDAY, SEPTEMBER 15, 1960

SEC. B

Cole's Memory Is Longer Than Life Of Warrant

Deputy Sheriff Tommy Cole's memory is longer than the life of a Midland County warrant.

In 1955, Deputy Cole was handed a photo of a man wanted in Midland to answer a forgery complaint. Cole was asked to keep an eye out for the individual.

Tuesday morning, the city police transferred a prisoner, arrested on a charge of theft over \$50, from the city jail to the county jail.

Cole was assigned to fingerprint the prisoner and put him in jail. The man's face nagged at Cole's memory; likewise the name Roy Kelley.

Finally the officer went to an old file and fished around until he found the somewhat faded photo handed him by the Midland authorities in 1955.

The prisoner had changed appearance in five years but the resemblance was still sharp.

"This your picture?" Cole asked Kelley.

The man said it was. Cole told him there was a warrant for him in Midland County.

"Not any more," said the prisoner. "It's dead."

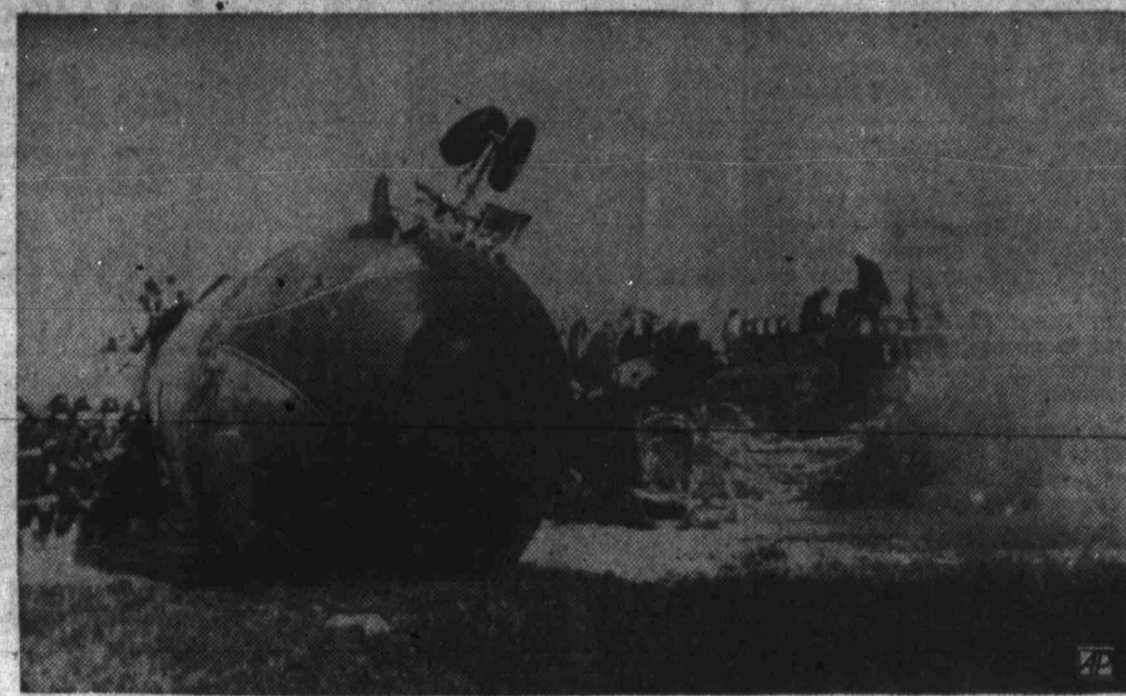

"We'll see," said Cole.

He called Midland and sure enough the Midland authorities had dismissed the warrant two or three years ago but had never informed Cole that Kelley was no longer wanted.

"I knew I had seen that fellow some place," mused Cole.

Ramsey Dinner Scheduled Tonight

HOUSTON (AP)—Twenty-five of the 31 members of the Texas Senate are expected to attend a dinner tonight honoring Texas Lt. Gov. Ber Ramsey. The dinner is sponsored by the Houston Chamber of Commerce.

Airliner Burns

Firemen attempt to put out a fire that broke out after this airliner flipped on its back during a landing at LaGuardia Airport, New York. The plane, an American Airlines Electra turboprop,

flipped over after hitting a dike at end of the landing runway. Several passengers on the plane, arriving from Boston, were hospitalized.

Hayworth Posts Bond, Released

Dennis W. Hayworth, charged with burglary, has been released from custody after posting \$500 bond.

Bond in the case of Roy E. Kelley, charged with theft over \$50, has been set at \$2,000. He has not been able to post bail. Leonard H. Roquemore, charged with forgery, is also being held in county jail in lieu of \$2,000 bond.

Wrong Explanation

GOLDSBORO, N.C. (AP)—Policeman Herman A. McDaniel walked up to a car a man was trying to start.

The man, under questioning, explained he had left his registration certificate at home.

Officer McDaniel arrested the man. It was McDaniel's car.

Summer Has Only 1 More Week To Reign Over Area

By SAM BLACKBURN

If there's a bit of nip in the early morning air, even though the days may be as hot as Tophet, there's a reason.

It's just one week until fall.

Autumn, 1960, officially begins Thursday Sept. 22 at 7 p.m. Summer, which opened its engagement at 3:43 p.m. June 21 (and performed ably, indeed) relinquishes the spotlight on that date.

Meteorologically speaking, Sept. 22 marks the autumnal equinox. At 7 p.m. the earth in its endless journeying around the sun reaches a point where it appears that Old Sol is crossing the equator.

Equinox means equal night—an occasion when daytime and night time are about on a parity. There are two such occasions each year—

the vernal equinox which ushers in the spring; autumnal equinox which welcomes the fall.

Autumn will hold away in these parts until 2:27 a. m. on Dec. 21. Then, as summer will do on Thursday, it must give up its post to winter.

However, winter doesn't come in with an equinox—it's a solstice.

The difference is that at a solstice, the sun is at its greatest distance from our equator. There are two such occasions—one when winter begins and a second when summer replaces spring.

Anyway, all this adds up to the high probability that near-100 degree days are soon to pass and coat-wearing weather takes over the scene.

Tiny Calorie Counter Is Scrupulous Machine

Most of us are diet liars. Struggles with weight are based largely, according to doctors, on lies people tell themselves — and tell their physicians — about the number of calories they consume daily.

A recent survey indicated that 95 percent of persistently overweight women tended to underestimate their daily calorie intake, while 80 percent of overweight men rationalize their calorie quotas.

On this basis a new diet aid was invented by doctors to make calorie counting accurate and cheating-difficult-for dieters.

For example: Are you a lover of raw onions? Eat one medium-sized breath catcher and you've consumed 50 calories. You want a few noodles in your soup? Score 110 calories for that measly addition to the broth. Did you nibble only six fried clams from someone else's helping? That impulse added 400 calories to your daily total, and probably on your hips.

Figures don't lie is the theory. So the new dieter calorie counter is a purse-size, automatic adding machine. Encased in cream, washable, high-impact plastic, this cheating-preventer totals calorie consumption meal by meal, snack by snack, for an accurate daily total. At home or in the office, it will stand on a shelf or the desk. No genius is needed to keep score — just the flick of con-

science and a dial. The counter shows additions (or subtractions) in tens, hundreds, and thousand digits.

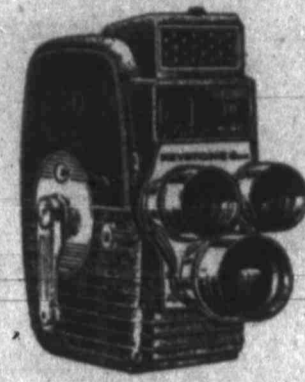

Under a magnifier (you can't plead eyestrain) and built into this swirl-a-weigh counter (so you can't misplace it) is a calorie guide to more than 300 different foods. The size of servings is extraordinarily precise, ranging from bacon (3 strips, 150 calories) to anchovies (6 canned, 50 calories) to yogurt (3 oz., 210 calories).

Encompassed are vegetables (corn, 1 five-inch ear, 80 calories); beverages (coffee, unsweetened, zero calories); breads (1 five-inch diameter waffle, 230); soups (bouillon, 10; 1 cube of broth, 20); sea foods (herrings, one-half, smoked, 200); plus salads; sandwiches; crackers; cookies; desserts dairy products and cheese; fruit; meats; and poultry.

To cap it, there's a secret compartment with safety slide cover that holds almost a month's supply of saccharin. And in the hope that you'll diet sensibly, a diet information booklet comes with this modern calorie counter. It tells how to get weight down (and keep it down); what are balanced daily food requirements; why you gain weight; plus suggestions for intelligent weight loss, including a medically approved 10-day "crash" diet for a 10 pound weight loss.

Substitute Potatoes croquettes for lunch or supper? For a change, try adding mashed potatoes instead of bread crumbs to the flaked salmon and egg. Season with lemon as well as salt and pepper.

New Piano High Spot Of Interest At Hull Home

Lifetime resident Mrs. Ted Hull, 1302 Mt. Vernon, is a busy mother and homemaker. Mrs. Hull, the former Hazel Ruth Phillips, is the mother of two sons, Dickie who is nine years old and a third grade student at Washington Place School, and three and a half year old Danny.

Ted and Hazel who are both fond of piano music have started Dickie in piano lessons this year, and hope to have Danny follow through.

Hazel who lists her hobbies as water skiing and bowling, says the whole family enjoys water skiing. Ted is especially fond of golf and attempted recently to give Hazel a few lessons, but she ended up chasing balls and Ted considered her an exceptionally good caddy.

The Hulls are members of the First Baptist Church, where they take part in many church activities.

Their parents are Mr. and Mrs. Earl Phillips of Big Spring and Mr. and Mrs. Earl Hull of Coahoma.

The boys activities take a lot of the Hulls' time. Ted and the boys attend father and son night at the Y and the whole family attends family night there.

Before the arrival of Dickie, Hazel was employed by the telephone company here for 10 years.

Hazel, who was born and raised in Big Spring, has lived here all her life except for a short time when Ted was in the service and they lived in California.

Here are three of the Hulls' favorite recipes:
FRUIT COCKTAIL CAKE
2 well beaten eggs

2 cups sugar
2 cups flour
1 tsp. soda
No. 303 can of fruit cocktail
1 cup pecans
1 cup brown sugar
Cream sugar and eggs; add fruit cocktail, flour, soda and pecans. Pour mixture in 9 in. by 13 in.

Odd Combination May Not Sound Good, But It is

This salad will go perfectly with a meal of roast duck.

ORANGE ONION RING SALAD

2 tablespoons olive oil
2 tablespoons white wine vinegar
1/4 teaspoon salt
1/4 teaspoon sugar
2 1/2 medium - small (preferably red) onions cut into paper-thin slices and separated into rings
1 quart romaine (bite - size pieces)
2 medium oranges (pared membrane - free and cut into thin rounds)

In a small container, with a fork, beat together the oil, vinegar, salt and sugar; add onions; cover and marinate in refrigerator for a few hours.

At serving time turn romaine into salad bowl; place orange slices over greens; turn onion rings and their marinade over oranges and greens.

Toss well adding salt and freshly - ground pepper to taste. Makes 6 servings.

greased pan and crumble 1 cup brown sugar over top.
Bake at 375 degrees for 30 minutes. Let cool; then top with whipping cream.

CONGEALED SALAD

2 cups sugar
No. 2 can crushed pineapple
8 ounce package Philadelphia Cream Cheese
2 packages unflavored gelatin
1 cup pecans
1/2 pint whipping cream

Boil sugar and pineapple for 2 minutes. Add cream cheese and milk. Dissolve gelatin in 1/4 cup warm water and add to pineapple mixture. Add pecans and whipping cream. Serve on lettuce leaf.

SALMON LOAF

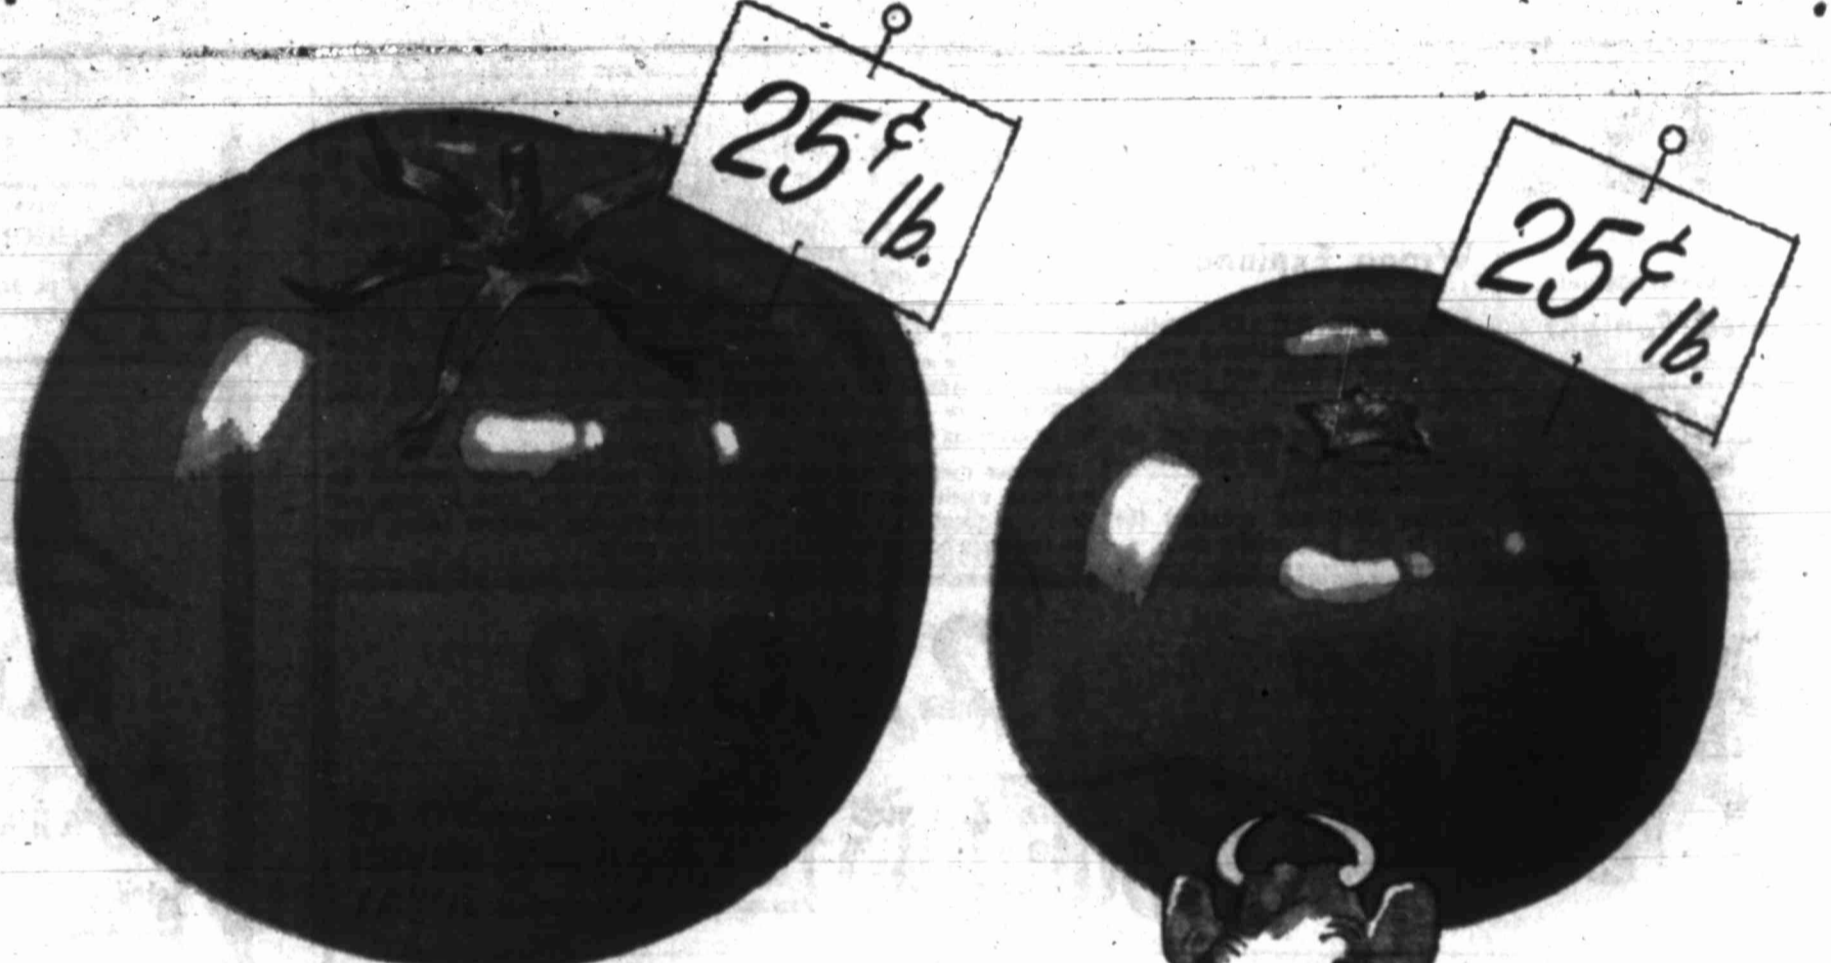

1 lb. can of salmon
1/4 cup milk
1 1/2 cups of soft bread crumbs
4 tsp. melted butter
3 egg yolks slightly beaten
Juice of 1/2 lemon
2 tsp. minced green pepper
1/4 tsp. salt
1/4 tsp. pepper

Reserve liquid from salmon. Flake salmon in bowl. Scald milk and then add bread crumbs and butter. Let stand five minutes. Add reserved salmon liquid and beat until smooth.

Combine with salmon, egg yolks, lemon juice, onions, green pepper, salt and pepper.

Fold in beaten egg whites. Line bottom of loaf pan with foil. Butter sides well. Turn mixture in pan and bake in 350 degree oven for 35 minutes.

Serve hot with tomato or mushroom sauce or cold with green salad. Serves 4 people. Do not overcook.

WHEN YOU PAY FOR THE BEST... BE SURE YOU GET IT! (Buy Borden's)

There's no difference in the price of the tomatoes, but there's a difference in quality which you can easily see. Naturally, you pick the best ones. You can't see this difference in milk, but it's there for you to taste and enjoy. There's a big difference in flavor... in the amount of cream... and in all the extra steps taken to assure highest quality. The price is the same so buy the brand you know to be the best... buy Borden's.

Stuffed Celery is Busy-Day Appetizer

Stuffed celery is a modern-day appetizer. Try it with cottage cheese in various flavors.

For stuffed celery, select crisp stalks. Remove green tops from larger stalks and use tops in tossed green salads, or chop finely for scattering over hot consommé and cream soups.

Separate larger stalks from smaller ones. Plan to serve the smaller stalks stuffed, whole with tops on. The larger ones may be cut into small pieces. Dry inside of celery stalks before adding fillings.

Large curd, small curd, dry (ricotta), or whipped cottage cheese may be used in dips. If you use dry cottage cheese, add skim milk and whip until dip consistency is reached. Whipped cottage cheese is ready to have additional flavorings added.

After whipping the cottage cheese to a smooth, slightly moist consistency, add any of the following, being sure to chop all fruits, vegetables and meats very fine: Deviled ham, prepared mustard and hot pepper sauce.

Equal amounts of chopped ripe olives, pimiento and sweet gher-

kins with a suggestion of freshly grated horseradish.

Minced clams, chopped chives and hot pepper sauce.

Chopped pecans.

Crushed pineapple

Chopped dry apricots.

Spicy apple sauce—for an unusual effect, swirl pinkish-hued cinnamon flavored apple sauce into cheese.

Chopped cooked chicken—and sweet pickles.

Blue cheese.

Crushed garlic.

Chopped chives and pimiento.

Fillings may be pressed into washed and dried celery with a spoon, or fluted from a large-holed pastry tube.

Use Mix For Cobbler Of Fresh Fruit

Biscuit mix makes an easy dough for a delightful fresh-fruit cobbler.

FRESH APRICOT COBBLER

1 cup biscuit mix

1 tsp. sugar

1 egg

1-3 cup heavy cream

1/2 cup sugar

1/2 cup orange juice

1 pound, about 12 large apricots.

In a small mixing bowl stir together the biscuit mix and sugar.

Beat egg until thick and lemon-colored; add cream and beat to combine.

Add dry ingredients; stir with a fork just moistened; do not beat smooth.

In a medium-sized skillet, (8 or 9 inches) over low heat stir together the sugar and orange juice until sugar dissolves and syrup is very hot. Add apricots, cavity sides down.

Cover and simmer a few minutes. Uncover and bring almost to a boil.

Turn fruit, cavity sides up, into a deep heat-resistant pie dish, 9 1/2 by 11 1/2 inches; at once drop spoonfuls of biscuit mixture over hot apricots, leaving some spaces.

Bake in very hot 450 degrees oven 20 minutes or until topping is brown. Serve at once with pour cream.

Makes 4 large or 6 small servings.

Try Acorn Squash Prepared This Way

This is an easy-to-prepare vegetable that will brighten up that Sunday dinner.

EASY ACORN SQUASH

4 small acorn squash

2 tbsps. (or more) butter

2 tbsps. (or more) maple syrup.

Salt.

Wash squash in cold water; cut into halves. Scoop out seeds and stringy portion.

Place squash halves, flesh side down, in a roasting pan (about 13 by 9 by 2 inches). Pour 1/2 cup boiling water into pan. Bake in hot (400 degrees) oven 30 minutes or until squash is tender; water will probably evaporate.

Turn squash flesh side up; put butter and maple syrup in each cavity; sprinkle lightly with salt.

Makes 4 servings — 2 small halves per portion.

Fish Pastries

Turn left - over fish into crisp pastries for party appetizers this easy way. Make pastry with your favorite recipe or pie crust mix.

roll out, cut into squares. Add a generous amount of Spanish olive oil to flaked, boned, cooked fish, along with salt, pepper and instant minced onion. Place a heaping teaspoon of fish mixture in each square of pastry, fold over, seal and bake in hot oven until pastry is golden and crisp.

Defrost

It is best to defrost thin steaks and chops before cooking. Meat which has been defrosted should be cooked as soon as possible.

Dutch Float Is Treat For Small Fry

A festive occasion calls for something special in the drinks department. Here's a party treat called Dutch Strawberry Float that youngsters will really go for because it's a combination of two flavor favorites, chocolate and strawberry, poured over a scoop of vanilla ice cream.

Dutch Strawberry Float is made with frozen strawberries and an instant mix that blends quickly and easily with hot or cold milk. Rich, and chocolaty in flavor, the mix is also rich in the vitamins and iron that growing children need.

Serve the float with fancy cookies or, if it's a birthday, with your youngster's favorite cake.

DUTCH STRAWBERRY FLOAT

Makes 4 servings

1 cup instant Dutch chocolate mix

2 cups milk

1/2 cup frozen strawberries

2 cups gingerale

Fresh strawberries, if available.

Combine the ingredients in electric blender for 1/2 to 1 minute or beat with rotary beater. Divide mixture into four equal portions.

Pour each portion over a scoop of vanilla ice cream in a 10 ounce glass. Garnish with fresh strawberries, if available. Serve at once.

Stuff Lamb For Variety In Cuisine

Here's a delightful dinner for the fall days ahead.

LAMB SHOULDER WITH BREAD STUFFING

1 square-cut lamb shoulder (with bones removed to make a pocket)

1 cup soft bread crumbs

1/2 cup minced onion (1 small)

1 cup finely diced pared apple (1 large)

1/2 cup finely diced celery (1 rib)

2 tps. salt

1/2 tsp. white pepper

Wipe meat with a damp cloth. Mix together the crumbs, onion, apple, celery, 1 teaspoon of the salt and 1/2 tsp. of the pepper.

Stuff mixture into lamb pocket; sew or skewer together, but not tightly. Sprinkle meat with remaining salt and pepper.

Place on rack in shallow pan in slow (325 degrees) oven about 2 1/2 hours for well-done meat.

Basic Rule

The basic rule of meat cookery is: Always cook meat at low or moderate temperature. This rule applies whether meat is cooked by dry heat—roasting, broiling or panbroiling—or moisture heat—braising or in liquid.

Glazed Ring Good For Breakfast

Doctors all endorse a good breakfast to start the day and it should be easy to accomplish such a meal if Pineapple Glazed Breakfast Ring is included. Try this recipe sometime during September, which has been designated as Better Breakfast Month:

PINEAPPLE GLAZED BREAKFAST RING

1/4 cup butter or margarine
1/4 cup sugar
1/2 cup pineapple juice
1 cup bran
2/3 cup pineapple juice
1 egg
1/4 cup soft shortening
1 cup sifted flour
2 tps. baking powder
1/4 tsp. baking soda
1/2 tsp. salt
1/4 cup sugar

Combine butter, sugar and pineapple juice. Cook over low heat, stirring constantly until sugar has dissolved and mixture has boiled about two minutes. Spoon into bottom of greased 8 1/4-inch ring mold. Combine bran and pineapple juice; let stand until most of moisture is taken up. Add egg and shortening; beat well. Sift together flour, baking powder, soda, salt and sugar. Add to bran mixture, stirring only until combined. Spread evenly over pineapple glaze. Bake in moderately hot oven (400 degrees F.) about 25 minutes. Turn upside down on warm serving plate. Let stand a few minutes before removing pan. Serve at once. Yield: 6-8 servings.

Fresh Bread Will Make Hit

Homemade bread makes a hit anytime, and this whole wheat recipe won't be an exception.

WHOLE WHEAT BREAD

1 cup flour
2 teaspoons double-acting baking powder
1/2 tsp. salt
1/4 cup sugar
1 cup stone-ground whole wheat flour
1/2 cup coarsely broken walnuts
1 cup milk
1/2 tsp. soft butter or margarine

Into a medium-sized mixing bowl sift together the flour, baking powder, salt and sugar. Stir in the whole wheat flour and the walnuts. Add milk; stir to mix thoroughly. Turn into buttered small loaf pan (7 1/2 by 3 1/2 by 2 inches); allow to stand 5 minutes. Bake in a moderate (350 degrees) oven 30 minutes; spread top with butter; continue baking 15 minutes—cake tester inserted in center should come out without any particles adhering but it may be a bit sticky. Turn out on wire rack; turn right side up; cool. Loaf will have slight cracks at sides; it may be cut about 1/2-inch thick when cool, thinner if tightly covered and stored overnight.

Frosted Bars Are Yummy!

Delightful frosted cookies:

LEMON BARS
1-3 cup butter or margarine
1 cup sifted flour
1 cup firmly-packed light brown sugar

1 egg
1/2 tsp. vanilla
1 tps. flour
1/4 tsp. baking powder
1/4 tsp. salt
1/4 cup chopped walnuts
1/4 cup flaked coconut

Mix together the butter, 1 cup flour and 1/2 cup of the brown sugar; pat firmly over bottom of a buttered cake pan (7 by 11 by 1 1/4 inches). Bake in slow (325 degrees) oven about 20 minutes; do not brown. Beat egg until it begins to get thick; gradually beat in remaining 1/4 cup brown sugar and vanilla. Stir 1 tablespoon flour, baking powder and salt together; beat into egg mixture. Fold in walnuts and coconut. As soon as bottom layer is baked, spread this filling over it. Return to slow oven until toast color, about 25 minutes. Cool; cover top with lemon glaze. Cut into bars.

LEMON GLAZE: Mix 1 tablespoon soft butter or margarine with 1/4 cup sifted confectioners sugar, 1/4 teaspoon grated lemon rind and 2 tablespoons lemon juice.

Add To Meat With Salad

A delicious go-along for meat...

OLD-TIME SALAD

1 1/2 lbs. small new potatoes, cooked in their jackets and peeled and diced in about 1/2-inch pieces
1/4 cup boiled dressing
1/4 cup finely diced scallions, green tops included
1 cup finely diced celery
Salt
White pepper

Mix the hot diced potatoes lightly with 1/2 cup of the dressing and allow to stand until cool. Add scallions and celery to remaining 1/4 cup dressing; mix lightly with potatoes and salt and pepper to taste. Makes 6 servings.

NOTE: Cook unpeeled potatoes in 1 quart boiling water with 1 teaspoon salt just until tender; if long white potatoes are used, you will find they hold their shape well in the salad.

Simple Addition Adds To Spinach

A simple addition does wonders in toning down tangy spinach!

SPINACH WITH CELERY

1 pkg. (10 ozs.) frozen chopped spinach
1 1/4 cups thin celery crescents
1/4 cup boiling water
1/4 tsp. salt
2 tps. butter or margarine
Pepper

Boil spinach and celery in water with salt, separating spinach block with a fork, until vegetables are tender—about 5 minutes. Drain lightly; mix in butter and pepper to taste. Makes 4 servings.

A Devotional For Today

The effectual fervent prayer of a righteous man availeth much. (James 5:16.)
PRAYER: Dear Father, help us to rid ourselves of doubt and have more faith. Teach us to pray and to believe that Thou wilt surely answer as Thou seest fit. In the name of Thy beloved Son, Amen.
(From The 'Upper Room')

Sobering Responsibility

The results of Tuesday's election approving all of the eight bond proposals by margins of about 3-1 is an endorsement of an idea.

While the outcome is a tribute to the clarity with which the program was explained, the frankness of the presentation, and the thoroughness of organization, the ultimate result was an expression of the public in favor of orderly progression. In essence, the public concurred in the idea that the philosophy of a master plan is fundamentally sound, that it offers the most logical approach to growth, that it promises the most for the money over the long run.

The outcome of the election also is an expression of confidence by a majority in

the city's opportunity for growth, and it is heartening to note such an expression by such a margin.

But affairs of the city are not administered for a majority, but for all of the people. The one in four who did not agree with the issues, for one reason or another, are entitled to respect for their position. The challenge is for the detailed development of the various units of work and the administration of the program in such an efficient and judicious manner that the wisdom of the majority will be sustained. The expenditure of \$4,300,000 over a 5-year period is a sobering matter and, even in elements of great urgency, should be undertaken with due deliberation.

Treat Him Objectively

No one seems to know quite what to do about our imminent unwelcome guest from Russia.

Mr. Nikita Khrushchev, the Soviet premier, is coming to the United Nations next week, and the consensus is that he will use this as a podium for another round of propaganda. Some have proposed that he be given the silent treatment, that little or nothing of what he does or says be reported. This hardly will stand serious examination, for what the head of the Soviet government does or says is, whether he likes it or not, news to varying degrees here and around the globe.

Moreover, the world will be free to obtain full reports on his actions, whatever

they are, and it would be pretty silly for the nation with the freest press in the world to exercise some sort of censorship on him.

Perhaps the best thing that could happen in this case is a good grade of objective reporting. Sometimes we tend to sensationalize Khrushchev too much, sometimes to blow up and re-echo the superficial points he lays out as diversions. We end up as a sounding board.

To go down the line on him as factually and objectively as is possible will come as near as anything to helping the public to recognize his words and deeds for what they are. The American people are fully capable of comparing deeds with words, and with reaching sound conclusions.

Holmes Alexander

We've Already Had The New Deal

WASHINGTON—Sen. Kennedy was telling us back in April that \$12 million Americans go hungry to bed. To his credit, Kennedy backed away from it when Secretary Benson reminded him that nobody need be hungry in view of the amount of free food being dispersed.

Well, on Labor Day the Democratic candidate reached for another number, and this time it's \$7,000. "Each family of four would have received, on the average, an additional \$1,300 every year between 1953-59—a total of more than \$7,000." If only Democratic growthmanship had been practiced in the Eisenhower Era.

OH, JACK! You had a couple of us beginning to believe in you. I went around to your research office on L Street and asked them where you got that figure. Oh, they said, it was just a matter of "arithmetic." If you like the growth rate from um-um-um-um per cent to blah-blah per cent, you automatically lift the Gross National Product by ug-ug-ug per cent and it comes out to about \$7,000 per four-member family.

Just like that! It must have been a long time since a Socialist collectivist, using "social engineering" and "planned economy," ever made the formula come out so pat.

THIS IS THE SAME speech where Kennedy said "we can help our nation grow by unlocking the riches of our natural resources. From our forests must come the timber..." But, Jack, don't you know the problem now is reforestation and tree farming? "From our rivers must come water and power..." But haven't you heard we don't have any more water sites, compared to the Tennessee, and Columbia Rivers? "From our mines must come the fuels and metals..." Holy smoke, have you looked at the size of our national stockpile?

IT DOESN'T SEEM possible that Kennedy has forgotten we live in an "affluent" society. Surplus is what's wrong and unmanageable, not scarcity. The labor movement people, whom the candidate addressed in Cadillac Square on Labor Day, were a long way from being pinched for \$1,300 a year. For an historian to get his dates mixed up is pretty disconcerting. Hey, Jack, this isn't 1932. We have already had the New Deal—remember?

SHORTLY BEFORE Labor Day, on September 1st, a Democratic colleague of Kennedy said what Kennedy might much better have said. Sen. Bill Fulbright asked the American Bar Association to look "more deeply beneath the chrome-plated surface of American life." Beneath the shiny tall fins, beyond the new model automobile bought on some of the loose credit which Kennedy would make still

We're Still Dancing To K's Tune

WASHINGTON (AP)—Once again the Russians are making the United States dance. Repeatedly this country's actions have been reactions to Communist actions. It happens again.

President Eisenhower has finally decided he'd better try to address the United Nations General Assembly next week before Premier Nikita Khrushchev has a chance.

There was no indication Eisenhower had any intention of going before the U.N. until it was learned Khrushchev and the Communist chiefs of the Iron Curtain countries were coming to the Assembly meeting which opens in New York Sept. 20.

AND EVEN THEN the administration played the idea of avoiding a direct meeting—even if it meant only being in the same assembly hall together—between Eisenhower and Khrushchev.

At first it seemed the administration had no plans for counter-

ing any anti-American propaganda Khrushchev and his satellite friends might turn loose at the United Nations.

Then it was decided that Secretary of State Christian A. Herter should go there and speak before it was Khrushchev's turn.

This seemed to be the administration's plan, although Eisenhower had talked vaguely on Sept. 7 of going to the United Nations.

Meanwhile, the State Department slapped restrictions on Khrushchev by saying that, for security reasons, the Russian would not be allowed to leave Manhattan Island when he got here.

THE RUSSIANS BEGAN to denounce this. So did Khrushchev from aboard the ship bringing him here.

Then the administration finally seemed to realize that if Herter spoke first but Eisenhower waited weeks—or until after Khrushchev had departed—before talking to

the international group the Russian damage might be complete.

So Wednesday the administration did a switch and said Eisenhower would take Herter's place in addressing the General Assembly next week, probably before Khrushchev speaks.

It was only a year ago that Khrushchev blackjacked the West and Eisenhower into agreeing to a summit meeting by his threats of shutting off West Berlin unless there was a meeting to discuss a settlement of some kind.

There was no doubt that Eisenhower even invited Khrushchev here last September to try to cool him off on Berlin before there was a summit conference.

Eisenhower surely knows that his going to the United Nations is a pretty ticklish journey since no one can guess what Khrushchev might pull off to embarrass him again in the eyes of the world.

Still, Eisenhower could hardly afford, with the whole world watching, to let Khrushchev dominate the U.N. meeting and perhaps denounce the United States from inside America without any effort to punch back.

Hal Boyle

In The Eye Of The Storm

NEW YORK (AP)—The many seasons of our lives often go by like soldiers on parade, dressed so alike we hardly note them individually.

But now and then a season comes along that lives in your mind forever.

The summer of 1960 has been like that.

How will historians catalogue the summer of 1960?

They will mention it as a time of great political storm in almost all quarters of the world, of riots and spy trials and a summit meeting that failed.

They will write of the business boom that seemed stuck in mid-career.

They may even find reason to dwell at length on an unusual storm—a religious storm raised during the U.S. presidential campaign.

But for millions of us the various storms of this period will be less memorable than the calm we knew. For millions of us lived quietly in the very eye of each passing hurricane in this troubled summer, and will remember it

kindly for the small untroubled pleasures it brought.

Here's one man's list of blessings:

Here in Manhattan the temperature never hit 90 degrees.

Many worried over the global population explosion, but in our house we still felt glad because our 7-year-old daughter grew an inch or so in height and five pounds in weight. We were sure a crowded world wouldn't begrudge her this added space.

Summer always has its casualties, but the toll in our family was small. This is the box score:

Blitten by mosquitoes: Man of house, 15 times; lady of house, 12 times.

Stepped on live bee: One daughter—once.

Afflicted with poison ivy: None.

Attacked by sharks: None.

"It's been such a nice summer I hate to see it go," many people are saying. And that is what they will remember, in the years when names like Khrushchev and Castro and Lumumba fade from the mind.

Won't you, too?

Turnabout

FLAGSTAFF, Ariz. (AP)—Albert Bartrum of Flagstaff went into court as the complaining witness in a grand theft case—and left with a 10-day jail sentence.

Bartrum had signed a complaint accusing Burt Stubber, also of Flagstaff, of stealing a hunting dog. Justice of the Peace Jim Brierly dismissed the case.

When the decision was announced, Bartrum dashed across the court and slugged Stubber. Judge Brierly ordered Bartrum to serve 10 days in jail for contempt of court.

Southern Courtesy

LEXINGTON, Va. (AP)—A group of students at Washington and Lee University where Gen. Robert E. Lee was once president, decided they would celebrate the birthday of Gen. U. S. Grant.

A cake with 138 candles was served in front of the Lee Chapel. Roger W. Payne, III, of Arlington, said the students just thought it would "be nice" since the school has a holiday on Lee's birthday.

To Your Good Health

Funnel Chest The Opposite Of Pigeon Chest

By JOSEPH G. MOLNER, M.D.
"Dear Dr. Molner: My three-year-old boy has a sunken place in his chest at the base of the breast bone. It is large enough to hold a lemon when he inhales deeply.

I have taken him to three doctors but am not satisfied. One said the condition was probably inherited and of no great concern; another said he thought it could be corrected through exercise or some sort of brace but that this was out of his field; still another said it could be corrected only through surgery but that this was not necessary unless it started to affect his breathing. Could you explain this condition in terms I can understand? And is there a chance of his growing out of it?—Mrs. C. C."

This is a defect in the development of the breast bone. There is some question as to the cause or causes. One persuasive explanation is that a fibrous band attached to the spin or diaphragm pulls the breast bone inward. I am not at all convinced that this is the whole story. Another more likely cause is the pressure from bent legs or arms of the fetus against the breast bone before birth.

In any event, this is called a "funnel chest," and there is an

opposite condition, in which the breast bone protrudes too much, which is called "pigeon breast."

What to do about it? There are varying degrees of this "funnel" effect (just as there are of "pigeon breast") and mild ones require no attention at all. A more pronounced "funnel" effect may crowd the organs in the chest and hence require treatment. The condition may become worse as the child grows. On the other hand, while the youngster is not to be expected to "grow out of it," the condition may not be great enough to cause him any trouble, either now or later.

The answer, if it becomes apparent that something needs to be done, is to correct the defect by surgery, which these days is being performed with gratifying success.

However, there is no rush to do it at the age of three. It is usually done before puberty, so you should not be worried if the doctor suggests waiting for a few years. In the meantime, the condition should have no harmful effects on his breathing.

"Dr. Molner: My two-year-old son walks on one toe and puts his other foot flat on the floor. My friends say one leg is shorter than the other. Should I see our

doctor about it?—Mrs. L. E."

Absolutely, yes. It may not turn out that one leg is shorter, but there may be a defect in the foot, or hip, or possibly elsewhere, which can be corrected. I suppose it might be merely a habit, formed because of a sore place on the foot, but I rather doubt it.

Oddities of this nature should be corrected as early as possible—whether it's a habit, or whether there is some physical defect.

"Dear Dr. Molner: Do you think my 12-year-old daughter will eventually outgrow a fissure? I took her to a specialist, and he said it was all right then, but every once in a while she is bothered and has a little blood in the stool.—Mrs. R. F."

A rectal fissure is a break in the membrane or skin. It tends to heal by itself—unless the basic cause of it persists, this usually being chronic constipation. Or unless infection sets in.

I bridged your letter, but it is apparent that your doctor had advised a diet that is designed to correct faults in her bowel habits. I'd most certainly follow his advice. You obviously have confidence in him, so do as he says. If he thought surgical correction was necessary or advisable, he would say so.

KHRUSHCHEV EVIDENTLY thought that a mobilization at the United Na-

Around The Rim

Maybe We've Been A Little Slack

Somewhere in the shuffle, we've missed getting a new building, or at least a new location, for the Big Spring-Howard County Health Unit. We even missed getting a desperately needed nurse for the health unit.

Few persons are unaware that another nurse is needed to assist Bo Bowen, present city-county nurse. The load is more than one person can carry, but Miss Bowen is doing a fine job. Still, another nurse is needed.

THE CITY commission approved its half of the health unit budget, adding "keep up the good work." But the county commissioners did not. So the health unit, presumably, still will be one nurse short.

Prospects for a new health unit building or a new location are also apparently high and dry. The present site has long been outgrown.

Reports are that the toilet facilities are hopelessly inadequate. And this in a building that is sponsoring good health.

EVEN WORSE, the building has no back

door. Suppose, for instance, that one of the huge gas trucks that pass this way should explode at the front door. All persons inside, professional employes or patients, would be trapped.

Any fire in the front of the building would entrap everyone inside. If this should happen at a time when the facilities are packed, who could estimate the loss of life?

These are only two reasons why another site should be considered. There are probably others.

IN THE FIELD of public health and sanitation, Big Spring and Howard County are ably represented by their professional workers in the health unit. We have dedicated people attempting to do a good job.

But perhaps the rest of us have been a little slack.

Our health unit needs adequate personnel, an adequate work place and adequate support from the rest of us.

Fun And Fur Flew With Mrs. Pinchot

The late Mrs. Gifford Pinchot was a colorful woman and rugged individualist, as her obituaries pointed out last week. The wife of the late governor of Pennsylvania was vivacious, confident and not one to be inhibited by rules, rank or royalty.

Wherever she went fun, and sometimes fur, flew. Her tart observations as a delegate to the United Nations Scientific Conference on Conservation and Utilization of Resources a decade ago may have dazed her conferees, but it kept them on their toes and in the news.

BUT AMONG all the sprightly anecdotes printed about this sprightly lady, there was no mention of one of her most spectacular feats, her brilliant performance at the garden party given at the British Embassy in 1959 for the late King George VI and Queen Elizabeth, now the Queen Mother.

If there has ever been another social function in this country that resulted in so much civil strife and commotion, I have yet to hear of it. The garden of the British Embassy holds a goodly crowd, but not one one-hundredth of the persons who felt that, thanks to official, financial, diplomatic, social or political prominence, they were entitled to attend this function. And with their sisters and their cousins and their aunts, also.

THE GIFFORD PINCHOTS were on the A-1 list and above the battle, so to speak. In a way, I was, too. My editor turned over the office ticket to me and said "Go" and, so I went. And never shall I forget that day, June 8, the hottest I have ever endured in Washington.

To spare Their Majesties, unaccustomed to the blistering heat, a complete tour of the garden and the guests, the British Ambassador, Sir Ronald Lindsay, toured one section of the garden with the King, Lady Lindsay toured the other half with the Queen.

EVEN SO, Their Majesties could only be expected to shake hands with a few

guests, not the panting multitude. Mrs. Pinchot happened to be in the section where the King and the Ambassador made their appearance, and, naturally, she was one of those chosen to be presented to His Majesty.

Scarcely had the King walked on until Mrs. Pinchot melted into the mob and executed the nearest end-run in social history. On a day that would have felled Paavo Nurmi, she raced to the section of the garden where Her Majesty, red as a lobster under the unaccustomed Washington sun, was walking with Lady Lindsay.

SOMEHOW, Mrs. Pinchot infiltrated the front lines, and within minutes had been presented to the Queen, likewise and also. She was the only person at the garden party, except specially invited guests, who could go home supreme in the knowledge that she had met both royal guests. It brightened the day for all of us sweltering reporters. We loved Mrs. Pinchot for giving us something to write about over and above the menu and the clothes.

I REMEMBER with the same warm affection Jimmy Sav's incomparable mime and comic who died in Italy last week, after a brave struggle with a long illness.

He was a small, rather shy man. I once remember going to a dinner party where he faded from a knot of other guests. He was discovered 30 minutes later in the dining room, juggling the hostess's Royal Doulton service plates. He was, fortunately, a master juggler.

ROYAL DOULTON flew in clouds through the air, with Jimmy fielding every plate with the greatest of ease, even those he let come within four inches of the floor before deftly reaching out and plucking it from disaster. The hostess had heart failure, but Jimmy and the rest of the guests had a ball.

Deflating Khrushchev's Propaganda

WASHINGTON—What to do about Nikita Khrushchev's visit to New York is getting to be a bigger question mark for the moment than who is going to win the presidential election in November.

Two opposite views are prevalent. Harry Truman, for instance, expresses the opinion that Khrushchev should be ignored by the press because he has insulted our President, while Mrs. Franklin D. Roosevelt says it's "silly" to restrict Khrushchev's movements to Manhattan Island as the Department of State has ordered.

THE ISSUE between those who would embrace Khrushchev, or at least treat him just as if he were a sane and civilized diplomat, and those who would snub him spectacularly is not one that is said to be settled by public opinion. If the American people had their way, they would prefer to have the Soviet dictator shipwrecked on a desert island—without vodka—during his voyage across the Atlantic this week. But the game which he is planning to play at the United Nations meeting is one that has to be countered skillfully by the American government.

The Soviet dictator's speeches undoubtedly will add to the insults he flung at this country during the Paris "summit" conference last May. There will have to be forceful responses this time from the American representatives.

AS FOR THE restrictions placed on Khrushchev's movements, this step was taken for two reasons. First, the problem of affording protection to the Soviet dictator and his party might get beyond control as passions rise. Second, the American government did not invite the Soviet dictator to tour the United States. It will be recalled that he himself withdrew an invitation previously extended to President Eisenhower to visit Russia. One reason given for the cancellation was that the political climate in Russia had altered and that the people there were in an antagonistic mood toward the United States. So it works both ways.

IF THE SOVIET dictator thinks that, because the Eisenhower administration is winding up its term, the people here no longer care how many insults are flung at their President, he can be adequately informed of his mistake only by demonstrations of displeasure at his coming such as he will doubtless encounter next week. Certainly the Hungarian refugees in the United States are not happy to see the Communist puppet who heads the Hungarian government coming here arm-in-arm with the Soviet dictator. The combination awakens bitter memories of the bloodshed of their Hungarian kinsmen—the brutality of tanks riding roughshod over the bodies of men, women and children in Budapest in 1956.

KHRUSHCHEV EVIDENTLY thought that a mobilization at the United Na-

tions of officials of the Communist bloc, including foreign ministers and premiers under his thumb, would impress the American people. One is surprised to see Nasser of Egypt falling for the Khrushchev line and attaching himself to the group led by the Communist chieftain, but it will be recalled that the Egyptian dictator has been getting vast sums of money from Moscow for the Aswan dam, and he must show some sense of reciprocity. A visit to the U.N. to please Khrushchev is a cheap price to pay.

THIS, HOWEVER, is hardly the "neutrality" which so many of the newborn countries now claim to be their policy. About all it proves is that the movement against "colonialism" was largely exploited by the Communists as a means of substituting their own brand of colonialism in the Middle East and Southeast Asia and now in Africa.

The attitude of the American people is unmistakably clear. If they had their way, they would prefer that the newspapers did not print a line about Khrushchev's visit or give space to his speeches. But the press, on the other hand, has learned from experience that suppression plays the game of the criminal and that exposure of the guilty is the best policy at all times.

CERTAINLY, IN THE propaganda battle American officials are not to be passive. There are plenty of charges that can be aired during the Khrushchev visit to the U.N. For one thing, his regime can be charged formally with treason against the U.N. during the last few weeks in the Congo. Likewise, American speakers can demand that true independence be given to the countries now behind the Iron Curtain. For of what avail is it that Khrushchev should be crying out for independence for the black men of Africa, when millions of white men, yellow men and brown men in Europe and Asia are being held under the yoke of Communism?

There is lots to be said to Nikita Khrushchev during his coming visit, and it is to be hoped that the American government will make some interesting news that will deflate Khrushchev's propaganda campaign.

TV Debate Dates Set

NEW YORK (AP)—Dates and times for the "great debate" between Vice President Richard M. Nixon and Sen. John F. Kennedy have been announced by television and radio networks.

The first debate will be in Chicago on Monday, Sept. 28, 9:30-10:30 p. m., Eastern Daylight Time, on domestic policy.

On Friday, Oct. 7, 7:30-9:30 p. m. EDT, they will appear on the first of two programs of a news-panel format. The program will originate in New York if both candidates can be here. Otherwise the networks will follow them and use a split screen.

The second news panel program will be Thursday, Oct. 13, 7:30-8:30 p. m., EDT, using the split screen. Nixon will be in Los Angeles, Kennedy in New York.

On Friday, Oct. 21, 10-11 p. m., EDT, they will discuss foreign policy from New York.

Networks participating are the Columbia Broadcasting System, National Broadcasting Co., and the American Broadcasting Co.

The programs will be carried on both radio and TV.

S. Korea Thanks Allies For Help

SEOUL, South Korea (AP)—On the Tenth anniversary of the historic Inchon landing of U.N. forces South Korea today expressed thanks to her allies who helped defend the republic from Communist aggression.

Premier John M. Chang said in a statement: "I am filled with deep emotion on this occasion that reminds me of the hardships and sacrifices suffered by the men and officers of the U.N. forces and the Republic of Korea armed forces."

Actress Not One To Fuss Over Her Age

By BOB THOMAS
AP Movie - TV Writer

HOLLYWOOD (AP)—Barbara Stanwyck is the kind of woman who cheats about her age—the wrong way.

Ask her how old she is and you get a quick answer: "I'm 53." Ask her next January and she'll say 54. But her birthday isn't until July 16.

"I think people should be aged like race horses," she reasons. "At the beginning of each year, everyone should assume the age they are going to be that year."

"Or we should do as the Chinese do. When a baby is born over there, his age is 1, because he has had his first birthday."

I doubt if Miss Stanwyck will find widespread acceptance of her idea, especially in Hollywood. She admitted that age can be an obsession with her fellow players.

"I get a kick out of some of them," she laughed. "I know two stars who were five years older than me when we played on Broadway together. Now they say they're five years younger."

"Age has never bothered me. I always remember what Walter Huston told me: 'Baby, it's only a number.'"

Stanwyck looks good at any age. Her hair is graying—she has never tried to camouflage it—but her face is unlined. She has a rugged schedule: a new NBC TV series in which she appears in almost every episode. Does she really want to work that hard?

"Her answer was typically frank: 'I've got nothing else to do.'"

When you ask her why she doesn't make movies, she replies with equal frankness: "Nobody has asked me."

"In the past three years, I haven't been sent any scripts, period," she declared. "Oh, I know stars who say they can't find anything they want to do in films, but I wouldn't lie about it. I just haven't had any offers."

Clerk Faces Plastic Bag Death Charge

TAMPA, Fla. (AP)—A department store mail clerk faces first degree murder charges after being indicted for the "plastic bag" killing of a sleeping Negro man.

James L. Webb, 21, was indicted Wednesday in the slaying of Jewell Leraim, 33.

Police said Webb signed a confession but gave no explanation of his actions. Leraim was killed early Aug. 13 while sleeping in the seat of his car. His hands had been tied to his waist and a plastic bag taped around his neck.

Ho Hum! Another Super Hero Type

By CYNTHIA LOWRY
AP Television - Radio Writer

NEW YORK (AP)—"The Aquanauts" splashed and bubbled its way into the CBS channels Wednesday night and this is an action series.

During the 60 minutes of the first program, we had a bride trapped almost without air in an undersea cave, divers parachuting from planes into the ocean, divers trapped 100 feet down in a shark cage and, of course, the problem of man-eating sharks.

Keith Larsen is apparently the No. 1 hero of the new series and you can tell him because he wears white stripes on his diving suit and a white helmet. His sidekick, who didn't have much to do Wednesday night, is played by Jeremy Slate.

The presidential candidates, it seems obvious, have decided against alienating the football-watchers vote by one of their joint, all-network broadcasts. The second in the series, once tentatively scheduled for Saturday, Oct. 8 (and tentatively because ABC expected to have a West Coast football game in progress but was willing to interrupt) has now been moved forward to Friday, Oct. 7.

Of course now the candidates are running the danger of alienating fans of "Rawhide," "Dan Raven," "Harrigan and Son" and "Mattie's Fundy Funnies."

NBC's new hour-long "Thriller" series started off with a well acted, well produced and thoroughly unbelievable drama of suspense.

The Tuesday night episode relied on the independent operations of two sick, sick, sick souls for excitement. And the young businessman who was affected could have—and in real life would have—snipped the whole situation in the bud.

In spite of the excellence of performances by Leslie Nielsen, Natalie Trundy and George Grizzard, and in spite of the high gloss on the production, the first "Thriller" was a disappointment.

Driver Education Plan Is Studied

DALLAS (AP)—A proposal to finance driver education in Texas public schools through cooperative state and local funds is under study.

The program was explained by Brad H. Smith, director of the Governor's Highway Safety Commission, in an address Wednesday to the Southwestern Legal Foundation's Institute on Traffic Safety.

Ike Extends Bracero Law

WASHINGTON (AP)—The law under which Mexican workers are brought into the United States to work in seasonal farm jobs was extended for six months Wednesday by President Eisenhower.

Under the old law the program would have expired June 30, 1961, but Wednesday's action extended it until Dec. 31, 1961. The Senate Agricultural Committee had recommended the law be extended to include all of 1961 so that farmers could make plans to use Mexican workers in harvesting 1961 crops.
