

**GREETINGS FROM FRANCE**—The Dimmitt Lions Club received a courtesy banner from the Lions Club of Drome, France, at its meeting last week. Presenting the banner to Boss Lion Chet Braafladt is Erick Faure of Drome, Lions International exchange student who is living with the Tom Adairs of Springlake this summer. The Lions banners must be presented personally by an emissary of the donor club. The Dimmitt Lions now have such banners from several clubs in other countries.

**Letter to the Editor**

**Yearbook editor submits letter which was deleted from 'Bobcat'**

Dear Editor:  
This is a copy of the letter which was to appear on page 123 of Bobcat '71, the high school yearbook. "They" (whoever this consists of) decided that the letter should not be exposed to the public, so I decided that we should see if the public agrees. The following is the letter in its entirety:

To whom it may concern,  
Have you ever watched the morning bloom? It is a beginning. The dark, mystifying and compelling night is marred by a subtle hint of lightness. Then gradually, superbly, the night undergoes a metamorphosis. The light increases to a faint, golden hue. Slowly, more colors emerge. Gold, blue and black, all combine in a heart-warming illusion of deception. The black-and-white world of silhouettes slowly melts into realistic color. Then it happens, the virgin horizon is deluged by a star, the sun. The beauty ends. One can see the cracks in the earth.

Life is like a sunrise. Life begins with hope of success, but it invariably ends in frustration, despair, hopelessness and defeat. Why does the beauty cease? Why do we fail? Where does the decline originate?

PERHAPS it is good that one can, on a superficial inspection of Dimmitt High School, see

beauty. There are many pleasant and encouraging qualities. But after scrutiny, the cracks are obvious. Why do the cracks appear?

Perhaps it is the world. Ah yes, the world. How could a perfect school exist in this world? Race versus race. Nationality versus nationality. War versus peace. Turmoil versus tranquility. Socialism versus democracy. Gentle versus Jew. Hatred versus love. And even death versus life. But does this affect Dimmitt High School?

Perhaps it is our own country. For we love our country so, it is often difficult to see the cracks. But please, for your own sake, realize them and try to change them.

We have a political system of elected (and self-appointed) omnipotent leaders directing our country in crucial times toward insecurity. This is a place filled with dissatisfied, monetary conscious non-committists who live from one prestige to another, dollar to dollar, seeing nothing, understanding less. This is a country destroying its resources, compensating for nothing, annihilating its atmosphere and disfiguring its beauty. How could a perfect Dimmitt High School exist in this?

HOW COULD a perfect DHS exist in this country in this world? Simply. Create a community concerned with its offspring's welfare. Have a school board of dedicated and involved people. Choose administrators who are unbiased and compassionate. Have a faculty that can give to its fullest potential. Have a student body that is responsive, interested and active. And bind all these with a strong bond... love. Love of one's self; love of one another; and love of a cause, education.

This may all seem rather abstract and impossible. Rather than say that I am dreaming an unrealistic dream. But I know Dimmitt High School is a good school; however, it could be so much better. After all, suppose the morning bloomed and it revealed no cracks?

Signed with love and concern,

**Aoudad-Barbary seasons are set**  
The hunting season for aoudad or Barbary sheep in the Panhandle will open Nov. 13 and close Nov. 19, according to the Texas Parks and Wildlife Department.  
THE ALOUDADS, weighing from 110 to 250 pounds, were first released in the rough, craggy Palo Duro Canyon area in 1957 when the Texas Parks and Wildlife Dept. brought 44 of the African exotics from the McKnight Ranch in New Mexico. The animals prospered, extended their range, and today number 600 or more rams and ewes. The largest aoudad officially weighed since the season first opened in 1963 was bagged in 1964, one of 13 brought out that year. It edged the scales over to 270 pounds, field dressed. Several weighing more than 200 pounds have since been brought out by hunters.

# PCG uses cautious eye, sees bigger cotton crop

The joint estimate of Plains Cotton Growers, Inc. and the Lubbock Cotton Exchange projects 1971 cotton production from 25 High Plains counties at 1,801,000 bales, slightly above last year's final total of 1,762,350 bales.

BUT OFFICIALS of both organizations point out a number of factors that may require revisions in the estimate as the season progresses, "and the revisions could go in either direction," they say.

According to Donald Johnson, executive vice-president of PCG, one of the most perplexing problems in compiling the August estimate is the absence of any firm criteria on which to base standing acreage figures. In past years farmers were restricted to planting acreage within fixed allotments, but beginning this year they are free to plant as many acres as they please.

This program change, Johnson says, "changes the estimate of cotton acres from an estimate to a 'guesstimate,'" and leaves much more room for error.

ON THE PLUS side for cotton production in the area this year is a considerable, but untabulated increase in cotton planted to "skip-row" patterns. Current law requires producers to "set aside" an acreage equivalent to 20 percent of their base allotment, and this can be accomplished by leaving two or more blank rows between rows of cotton. Thus more producers than normal have "skip-rowed" their cotton, and other things being equal this can often increase production per planted acre by 30 percent or more.

Good indications of a strong market this fall is another factor which could influence per-acre yields this year. Farmers over the area, generally, are trying harder to make maximum yields, with better weed and insect control, additional fertilizers and irrigation water.

As usual, however, weather conditions from now through harvest will have by far the biggest influence on Plains production. The crop is from two to three weeks later than "normal" this year, which makes the size of crop dependent on warm temperatures from now until harvest, a dry September and a frost date no earlier than the first week of November and preferably later.

JOHNSON SAID the 1.8 million bale estimate is not based on seldom-seen "optimum" weather conditions, leaving room for some improvement in total production prospects.

"But by the same token, if cool temperatures, a wet fall and an early freeze should all work against us our production could drop well below the current estimate," he added.

Should the estimate of production prove essentially correct, value of the crop to High

Plains farmers would come to around \$370 million, including lint, seed and federal support payments.

Jerry Boothe, chairman of the Lubbock Cotton Exchange Committee on Statistics, agrees there is room for error in the estimate and a likelihood that changes will be necessary as better acreage figures and weather effects become known. But he said, "Based on the information now available and assuming reasonably average weather, we think the estimate is quite realistic."

VEGETABLES make good snacks. They score low on calories and high on nutrients. Extension foods and nutrition specialists suggest trying cucumber slivers, carrot curls, celery sticks, cauliflowerets, cabbage or tomato wedges.

## Amarillo College expands program

The fall semester at Amarillo College will be marked by the expansion of the electronics department.

FOUR DEGREE programs—biomedical electronics technology, electronics technology, electronics engineering technology and electronics computer technology—will be offered. The associate in applied science degree will be awarded for the successful completion of any of these four electronics programs.

While the primary objective of each program is to prepare the student for immediate employment in the electronics industry, these programs may be transferred into a bachelor's degree curriculum at a number

of colleges and universities.

These electronics programs at Amarillo College allow a student with no previous training or experience in electronics to complete the first semester of his training before deciding upon the degree program he wishes to continue. The core subjects taught during the first semester apply toward the completion requirements of all four programs.

FOR THOSE interested in obtaining an FCC commercial radiotelephone license, a special sequence of electronic communications courses will be offered for preparation for the FCC examination.

Both day and evening classes will be offered and all programs are approved by the Veterans Administration for GI training. Job placement service is provided for the student for both parttime work during training and for fulltime employment in the electronics industry upon graduation.

Registration for the fall semester begins Aug. 25. Further information about the electronics programs may be obtained by calling or writing Dr. A. F. Adkins, Department of Electronics, P. O. Box 447, Amarillo College, Amarillo, 79105.

DON'T LET monotony creep into those lunch boxes you pack. Vary the kind of bread, spread and filling, suggest Extension foods and nutrition specialists. Interchange buns, rolls, wheat rye and white breads.

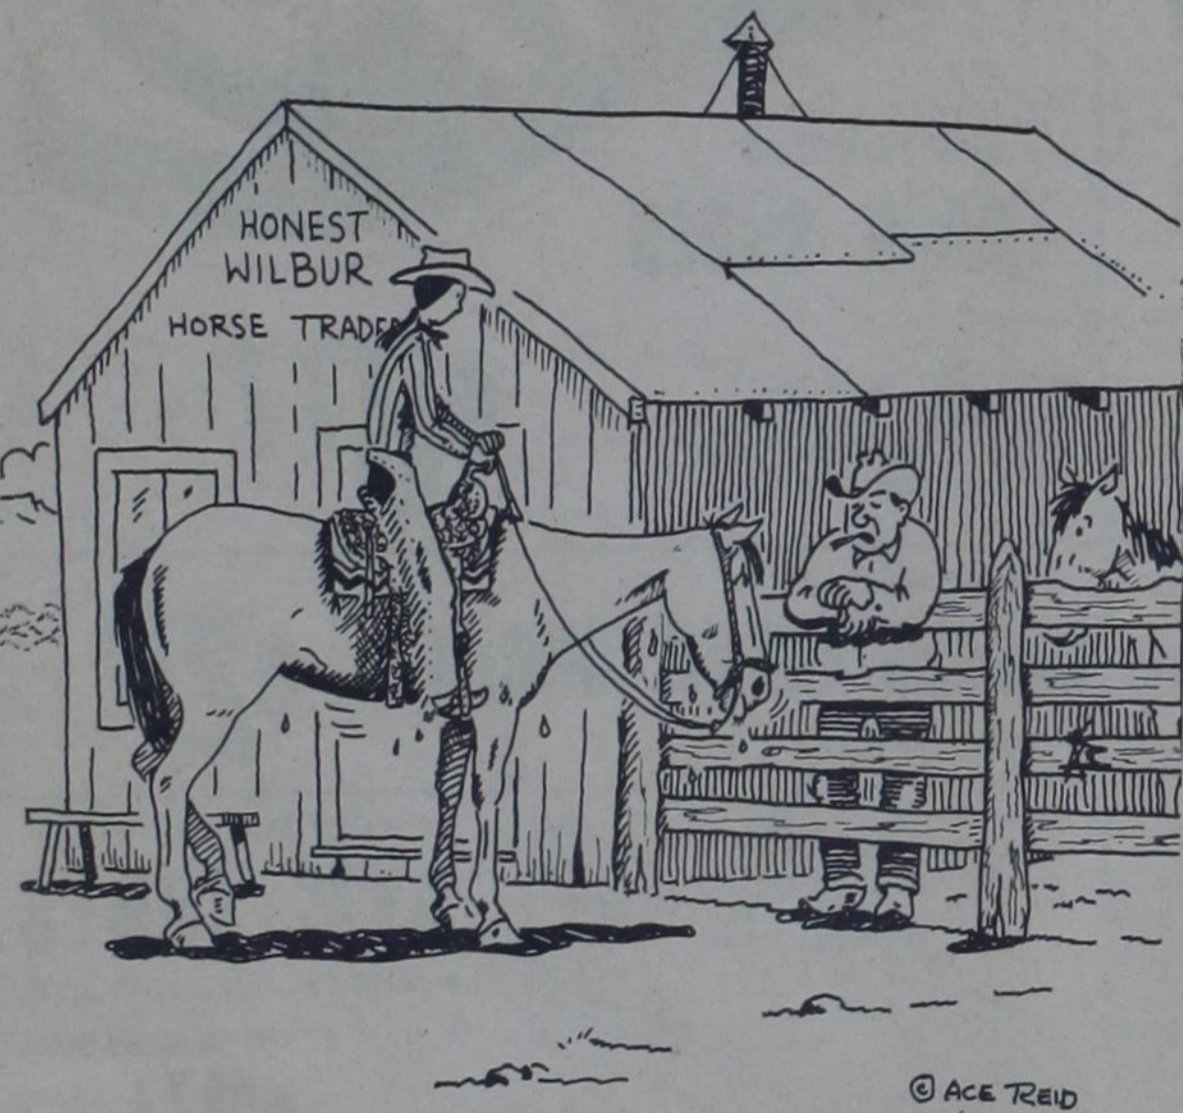

IN ADDITION to convenience, foods should also be chosen for their nutritive value, remind Extension home economists. Foods represented in the four food groups become the basis for well-balanced meals and the foundation for good health.

### Accident victim out of hospital

Jerry Frazier of Dimmitt was dismissed from Methodist Hospital in Lubbock last Thursday, and is now recuperating at home.

FRAZIER was hospitalized with skull fractures and a severe concussion Aug. 5 after a freak accident on US 385 near the Dimmitt Airport. Frazier and his employer, Geylon Keeling of Lubbock, were discussing ways to bury a new cable under the highway when a passing truck snagged a sagging overhead cable and snapped a nearby pole. Keeling was killed and Frazier injured by flying sections of the sheared telephone pole and cable.

Frazier received emergency treatment at Plains Memorial Hospital, then was transferred to Methodist Hospital in Lubbock, where he was admitted to the intensive care unit in serious condition. However, he made a rapid recovery and was dismissed last Thursday.

### Boys Ranch Rodeo to start Sept. 5

Approximately 10,000 people are expected to visit Cal Farley's Boys Ranch over the Labor Day weekend to watch the boys put on their 27th annual Boys Ranch Rodeo.

IT IS THE only rodeo of its kind in the nation in which all of the contestants are boys riding calves, steers, Brahma bulls and bucking broncs. The older boys compete on professional rodeo stock and all of the judging is under RCA rules.

All of the 375 boys now at the Ranch have a part in the rodeo, either as contestants or working in the many behind-the-scenes activities.

Each rodeo performance will begin at 2:30 ooth Sunday and Monday afternoon, and big barbecued beef sandwiches will be prepared and sold by the boys for \$1 each.

THE RODEO is also a traditional homecoming for the more than 2,500 boys who have lived at the Ranch since it was founded by Cal Farley in 1939.

IT LOOKS as though farmers can expect their fertilizer bill to go up this year. US Department of Agriculture officials are predicting a 10 percent increase in fertilizer prices over those in 1970. The reasons—rising wages, costs of raw materials, and transportation charges. Fertilizer prices started to inch their way upward last year after reaching near-record lows in 1969.

ADMIRING THE CENTERPIECE and refreshments prepared by the students at the Satellite school party for teen volunteers last Wednesday are (front row, from left) Mrs. Russel Moran, serving, Angela Spinhirne, Debra Dove, Cindy King and Santos Gonzales; (back row) Philomino Anderle,

Monica Anderle, Sylvia Perez, Mrs. Jacque Sava, coordinator, and Bell Silva. Also honored at the party but not pictured was Rachel Salinas. The Satellite school students made the tree centerpiece, which even had a small monkey swinging in the limbs, and placed other wild animals under the tree.

## Satellite School party honors teen volunteers

The Dimmitt Satellite School's teenage volunteer workers and their mothers were treated to an appreciation party last Thursday in the First State Bank community room.

IT WAS a public "thank you" from the school's teacher, Mrs. Norma Conard, her adult aides and the advisory board to the teenagers who have donated 66½ hours to helping the school's mentally retarded children during the past two summers.

Among the 30 guests attending were Ruth Kerley of Amarillo, volunteer service coordinator of the Amarillo State Center for Human Development (the local school's parent agency), and her guest, Lillian Steele.

Students of the Satellite School made the centerpiece for the serving table themselves. It was a "tree" covered with leaves and flowers and surrounded by an assortment of animals on parade. The centerpiece also provided the basis for a game played by all those attending.

GUESTS WERE served cookies and punch.

Mrs. Bill Sava acknowledged this year's summer volunteers—Monica Anderle, Tonya Brown, Greg Calvert, Debra Dove, Janice Fore, Lisa Forrester, Donna Gilreath, Rachael Salinas, Ronda Welch, Santos Gonzales, Becky Huseman, Cindy King, Jane Ann Mooney, Janet Lee Norris, Sylvia Perez, Angela Spinhirne, Sharon Welch, Sue Young, Teresa Steffens, Bell Silva, Jackie Guggemos and Debra Hasley.

Recognized for their service to the school during previous summers were Philomina Anderle, Pam Barker, Jan Giles, Gayla Gilliland, Patti Jackson, Susie Mooney, Liz Murphy,

Jackie Schaeffer, Rebecca Stanford and Ronda Tidwell. CERTIFICATES were awarded to 23 of these young volunteers who have served 10 or more hours each.

Mrs. Russel Moran closed the program with the reading of a poem, "Heaven's Special Gift—the Handicapped Child."

MRS. WILLIAM ROBERT CRICK  
... The former Deborah Leigh Shirley of Dallas  
HEIMAN-MARCUS PORTRAIT BY GITTINGS

## Student newlyweds at home in Canyon

Mr. and Mrs. William Robert Crick are now at home in Canyon following their Aug. 16 wedding in the Park Cities Baptist Church of Dallas.

**THE BRIDE** is the former Deborah Leigh Shirley, daughter of Mr. and Mrs. John L. Shirley of Dallas. Crick is the son of Mr. and Mrs. Verle Crick of Hart.

The newlyweds are both students at West Texas State University; he is a senior and she is a sophomore.

Their double-ring wedding was conducted by Dr. Herbert Howard, pastor of the Park Cities Baptist Church. The sanctuary was decorated with arrangements of white daisies, greenery and candles.

**SERVING** as matron of honor was Mrs. Donna Mathews. Bridesmaids were Marty, Becky and Janie Shirley, the bride's sisters, and Mrs. Verletta Griffin, sister of the groom.

Verle Crick, the groom's father, served as best man. Groomsmen were Jimmy Brazile of Amarillo, Rex Wells of Friona, Jimmy Kendrick of Hart and Steve Sharp of Hart. Ushers were Charles Summers of Dimmitt, Bill Glidewell of Canyon, Glen Goggans of Friona

and Gary Taylor of Amarillo.

**GIVEN IN** marriage by her father, the bride wore a Neiman-Marcus gown of imported ivory silk peau de soie and pale pink organza. The moulded Empire bodice of pleated pink organza, veiled with hand-run Alencon lace traced with tiny seed pearls and crystal beads, was fashioned with a high Victorian neckline and puff sleeves. A wide fold of the peau de soie marked the Empire waistline, accented by a bow and floor length streamers in back. The slim A-line skirt was enhanced at the hemline by a wide flounce of the pleated organza, accented by the jewelled lace, and swept to a chape-length train.

Her veil of imported ivory silk illusion descended to her waistline from a bandeau of matching pink organza, enhanced by shirred Alencon lace traced with seed pearls and crystal beads.

**THE BRIDE'S** attendants wore gowns of pale pink dotted swiss with softly gathered floor length skirts. The moulded Empire bodice of each was fashioned with a wide bateau neckline and short puff sleeves. They wore open crown pale pink picture hats and carried white wicker baskets containing white daisies and pink roses.

After a reception at the Fairmont Hotel in Dallas, the couple left for a wedding trip to New Orleans.

**Diverse Divers**  
Deepsea divers, operating hundreds of miles from the nearest sea, were important to the success of a mining operation in northern Manitoba. The divers plunged into 60 feet of swampy water to help sink a mine shaft for International Nickel.

## Mental stability program planned

By IRENE KEATING

By now I'm sure you're adjusted to the school routine. I hope all of you are satisfied with your child's teachers, class schedules, etc.

**THERE IS** so much talk now about pollution of air, water, etc. We even are aware of the noise levels and the effects of noise on our hearing, etc. Of course our young people really enjoy loud music and perhaps some of you parents suffer from high noise levels when your teenagers are at home.

In September we will have a very interesting and informative program on mental stability. Jane Fleisher, family life education specialist with Texas A&M University, will present the program. It will cover these topics: tension, what is mental stability, stress and strain, help available for mental disturbances.

Jane is a very dynamic girl and I'm sure you will want to hear her on Sept. 27. The time and place will be announced later, but mark your calendar now. She'll be glad to answer questions, so bring them.

**THE COUNTY** Youth Fair is scheduled for Sept. 11. It is open to all 4-H, FHA and FFA members in the county. Youth can enter items in field crops, garden, canning, baking, clothing and linens. If you want lists of times to enter please let me know. I hope we have several FHA girls entered again this year.

September also means the Tri-State Fair in Amarillo. I want to encourage all you adults and girls to enter items. We

Since the Texas State Library has approved Part I of the formal application for state funds to help build the new library here, it is time now for me to start on my part in this project. I received some literature concerning the correspondence course I am required to take for the state to give me a temporary library certificate—so it's back to school for me!

**SINCE THE** reading program is over, if you read at least 12 books you are entitled to a certificate if you signed up for this program. If you did not attend the party at the First State Bank and have not received your certificate, please come by the Castro County Library and pick up your Texas State Library certificate.

We have a few of the Best Sellers in the library. Some of these are:

## Mrs. Rawson is shower honoree

A gift shower honoring Mrs. Rod Rawson of Friona was held Saturday afternoon in the community room of the Farmers State Bank of Hart.

**MRS. ED BENNETT** received the guests and Sharon Brooks presided at the guest register. Jeton Jones served from a table that was centered with a white wedding candle surrounded by greenery.

The honoree was presented a corsage of pink carnations, an iron, ironing board and cover, and an electric skillet by the hostesses.

Special guests were the honoree's mother, Mrs. Aven; her grandmother, Mrs. Buster Aven; and her great grandmother, Mrs. Mabel Aven.

Assisting with hostess duties were Meses. W. A. Hawkins, Sr., Robbie Hawkins, Joe Bailey, Bill Bell, Ed Bennett, Glen Reed, George Bennett, Worth Jones, Robert Brooks, Ray Bennett, Jack Dyer, Newlon Rowland and Paul Brooks, and Misses Jeton Jones and Sharon Brooks.

**ENGAGED**—Mr. and Mrs. Albert Venhaus of Nazareth announce the approaching marriage of their daughter, Joyce, to Herbert Wethington, son of Mrs. Thelma Wethington, also of Nazareth. Vows will be exchanged at 3 p.m. Sept. 18 in the Holy Family Church of Nazareth.

## Do you have a food-finicky teenager? Offer her a sandwich for breakfast!

Do you have a normally active teenage girl in your home—one who doesn't like to eat a conventional breakfast?

**SHE COULD** choose to eat a sandwich for breakfast, according to Frances Reasonover, Extension foods and nutrition specialist at Texas A&M University.

Why not? Miss Reasonover says the important point is that you eat as you like, as long as the foods you choose for the entire day include specified amounts from the basic four food groups, and as long as you meet calorie needs.

She explains that a day's eating might start like this: a cheese sandwich for breakfast along with a banana and a glass of milk. If that doesn't appeal you may want to begin the day with spaghetti, chili, baked beans or deviled eggs.

**FOR A NORMALLY** active girl of average height—5 feet 3 inches—weighing 117 pounds, multipl 117 by 20 calories and you find that she needs approxi-

mately 2,300 to 2,400 calories each day.

Her food intake should include four cups of milk or the equivalent; four servings of fruits and vegetables, making sure to include those rich in vitamins A and C; four or more servings from the bread-cereal group; and two servings from the meat group.

The guide is flexible. The specific foods chosen from each group and the time when eaten, either as meals or snacks, is largely a matter of food preferences and family meal routine, she says.

But, the specialist adds, remember to choose right and maintain a desirable weight.

"LET US never forget that the cultivation of the earth is the most important labor of man. Unstable is the future of that country which has lost its taste for agriculture. If there is one reason in history which is unmistakable it is that national strength lies very near the soil." —Daniel Webster.

They were presented books, "Apples of Gold." Mr. Wilson was also present. He joined the church within two months. Carl Wimberley was recognized as one of the seven candidates for baptism the day the church was organized. He and his wife, who was also present, are the only charter members of the church of Dawn. Mrs. Virgil Lemons and Sonny Lemons of Plainview, wife and son of the first pastor were present for the afternoon. Carl Bradley had charge of the recognition service. 160 registered for the day. Mrs. Roy Phelan registered the guests. Mrs. R. J. Lefevre wrote the script for the hour long drama of the progress of the church the last 50 years. Scenes were acted out on stage, pages of a giant history book were turned and the buildings were drawn to scale, the miniatures assembled, and as the pageant progressed by two narrators, Gale Sadler and Janelle Haydon, these buildings were placed on a large table representing the two acres of church property. These buildings were constructed and decorated by Mr. and Mrs. Gale Sadler and Mr. and Mrs. Cliff Brown.

Mrs. Sadler was at the organ and Mrs. Brown turned the pages of the history book. Mrs. Brown and Mrs. Bennie Ross did the art work in the book. Mrs. L. B. Bowden made the reports. Mrs. Lefevre directed the drama with the aid of Mrs. L. B. Bowden and Mrs. Mack Turner.
