Texas Deaths Hit 66

By The Associated Press
Texas counted 66 violent deaths Wednesday for the long July 4 holiday, 33 of them in traffic. Numbered among the dead since dusk Friday to midnight Tuesday were 11 who drowned. The others died in homicides and miscellaneous accidents. Circumstances of the latest deaths were these: Primitivo Alvarez, 70, of Raymondville was killed when a car driven by his son, Roberto, overturned on Texas 186 three miles east of Raymondville. Robert Howard Jr., 5, of Houston was killed in a two-car crash on U.S. 75 three miles south of Conroe early Tuesday night. His mother, Mrs. Mary Louise Howard, 22, was one of three persons critically injured. Five others suffered less serious injuries. John Gustafson, 52, Beaumont tavern owner, was found shot to death late Tuesday in his tavern. A rifle rested across his chest. Mrs. Gustafson was on the floor nearby, shot three times. A barmaid, Virginia Bingham, said she began running when the shooting began. Troy Allen, 4, drowned in Lake Worth Tuesday. The body was found at Casino Beach in four feet of water by a passerby. Lisa Neubauer, 6, was killed by a car in San Antonio Tuesday. Juan Trevino, 23, of Uvalde, drowned Tuesday in the Nueces River 9 miles north of La Pryor. Gary Gilbert was shot to death in a gun fight at Houston Tuesday. Melvin Perry, 43, a Negro, was stabbed to death at his own birthday party in Houston in an argument over how much barbecue should be put on his guests' plates. A woman was arrested. C. D. Taplett, 35, a Dallas Negro, was killed by a shotgun blast in the chest when an argument flared in a Dallas tavern where the holiday was being celebrated. Police sought seven suspects. W. H. Carothers, 50, of Davidson, Okla., died Tuesday when his car crashed into a trailer truck 2 miles west of Iowa Park on U. S. 287. Robert Butler, 35, of Stillwell, Okla., died of a gunshot wound at a crop dusting company office at La Villa, Tex., in the Rio Grande Valley Monday. A pistol was found near the body. John Guy Cox, 12, of Killean slipped on a muddy bank and fell 100 feet to his death from Gorman's Bluff Monday night. The site is at the headwaters of Lake Buchanan. He was on an outing with his mother and a youngster brother. The body of Veri Worth, 51, was found in a parked car in Dallas Tuesday. He had been shot with a rifle which was near the body. A man believed to be Charlie Kimbo, 40, a veteran on leave from the VA Hospital in Waco, plunged from Mansfield Dam into Lake Travis Monday at Austin and did not come to the surface. Teller Walker, 58, of Carthage died Tuesday night when struck by a car while crossing U.S. 77 20 miles south of Waxahachie.

Students Told Of Iran's Needs

TEHRAN (AP) — The Shah of Iran Tuesday told 207 Iranian students studying in the United States and now on a home visit that Iran needs trained experts to implement development projects. He urged the students to return home after graduation to take over technical jobs from foreign experts now engaged in development works in Iran. In recent years, many Iranian students have stayed on in the United States after graduation.

U.S. Fatalities Set New Record For Holiday Period

By The Associated Press
Traffic deaths climbed to record heights for a summer holiday during the long Independence Day weekend. The tally today also showed that the over-all accident toll, including a heavy loss of life on water, reached an all-time mark for any holiday period. Late reports boosted the motor vehicle fatality total beyond the 500 mark. It passed the previous high of 491 set during a four-day observance of Independence Day in 1950. That had been the top mark for any summer holiday period. And it went far beyond

2nd Youth May Be Involved In Death Of Church Worker

Lad Is Taking 'All The Blame'

CISCO (AP) — Mayor John H. Webb hinted today that a second youth may be involved in the stabbing and beating death of Mrs. Florence Hussey, dedicated church secretary slain a week ago. Officers held Nathan Curry, a neat, serious-looking teen-ager in jail. Mayor Webb said Curry admitted the killing. "I hope to God no other boy is implicated," said Webb.

U.S. OFFICIALS CONVINCED Another Dispute Breaks Out Between China, Russia

By JOHN M. HIGHTOWER
WASHINGTON (AP)—Top U.S. officials were reported convinced today that a serious dispute has broken out again between the leaders of the two greatest Communist powers, Russia and Red China. The argument could have a profound impact on Soviet handling of East-West crisis issues, particularly Berlin and Laos. Western authorities are trying to get at the real facts of the controversy and thus establish a basis for judging what its effect on future Sino-Soviet policies may be. The most authentic evidence of the quarrel known to U.S. State Department experts is the fact that the Soviet leadership sent a high-level delegation to Ulan Bator, last week to represent Moscow at the 14th anniversary of the Mongolian Communist party. But Soviet Premier Khrushchev, at the same time, virtually ignored the far more important 40th anniversary of the Chinese Communist party. This snub, U.S. experts say, is unmistakable proof of very severe differences between Moscow and Peiping. The cause of the current argument is not known, but it is assumed to be along the familiar lines of recent years—the Red

Store Reports \$1,500 Missing

Newsom's Food Store, 1910 Gregg, reported to the sheriff's office at noon Tuesday that \$1,500 in \$20 bills had vanished from the store. The money disappeared from the store safe sometime between Monday and 11:30 p.m. Tuesday. Don Newsom, proprietor, reported the loss and Fern Cox, chief deputy sheriff, began an investigation into the case. No clues had developed at noon today. Officers were questioning possible witnesses. Nothing was taken from the store, apparently, other than the \$1,500. There was other money on hand but it was not bothered. The safe had not been forced open.

Driver's Ed Course Slated

ACKERLY — The drivers education course will start here Monday, and Supt. R. N. Pierce urged prompt registration. Students from other schools in the area will be welcomed to register for the course. The fee is \$10 per student. Enrollment may be accomplished by contacting either Pierce or Joe Youngblood.

Highway Bandit Shoots 2, Kidnaps Teen-Age Girl

MOAB, Utah (AP)—A swarthy bandit flagged down a car of tourists from Rockville, Conn., on a desert road Tuesday night, shot, robbed and left two people for dead and fled with a teen-age girl. Charles Boothroyd, 65, survived. He was reported in serious condition with two bullet wounds in the face. Jeanette Sullivan, 40, was killed. Boothroyd told a doctor that the gunman forced Mrs. Sullivan's daughter, Denise, 14, into his car and sped away. Officers set up road blocks in southeastern Utah and southwestern Colorado, and began a systematic search of roads in the isolated region. Sheriff's officers pieced together this story: The bandit, described as stocky and dark, had stopped on a little used jeep road near Dead Horse Point State Park, about 28 miles southwest of Moab. Boothroyd and the Sullivan's came along and pulled to a stop when the man flagged them. Boothroyd got out of his car and walked back. The man asked for money and Boothroyd refused. The man reached into his car, pulled out a rifle, and began shooting. Boothroyd was hit in the face. He threw up his hands and was shot again. The assailant then shot Mrs. Sullivan in the back of the head

Bear Gnaws Way Into Zoo

SAN PEDRO, Calif. (AP) — A friend gave John Fitch an orphaned male bear cub the other day. Fitch, 37, who had been hunting for bear all week with nary a sight of one, was delighted. He brought the cub home in a box. The 30-pound animal took over the garage and the backyard, stripped Fitch's apricot tree, tried to climb the fig tree but gave up because it was too slippery and harassed the family's dog and pet turtle. When he didn't have anything else to do, the cub, named Bigfoot by the Fitches, nibbled daintily on flowers. That was too much for Fitch. Today the cub is nibbling bars at the San Diego zoo, and Fitch is repairing his backyard.

Crosses Spell Out Death Toll

PARIS, Ky. (AP)—Small, white crosses by the hundreds dotted roads leading into Paris, a reminder of the nation's highway toll. Boy Scouts throughout the long Fourth of July weekend marked each traffic death nationally by putting up two crosses. As the toll surged upward late Tuesday, the scouts made an extra 150 crosses and prepared to assemble others to keep an accurate count on highway deaths. For comparative purposes, The Associated Press made a survey of 102 hours, from 4 p.m. Friday June 16 to midnight Tuesday June 20. The count showed: 362 traffic; 33 boating; 80 drownings; 99 miscellaneous, a total of 574.

Gulf Seamen Back To Work

CORPUS CHRISTI (AP)—About 150 seamen idled here by the maritime strike were on their way back to jobs today following issuance of a Taft-Hartley injunction. Three tankers were due in port. The Gulf Tiger and Texaco's Virginia and Kansas were to arrive today, and the Gulf Pride will be here Thursday. Ray Grandy, field patrolman for the National Maritime Union, said most of the seamen who had jobs and were idled by the work stoppage were en route to ships and "the rest are awaiting word." In the meantime the International Oil, Chemical and Atomic Workers Local 484 maintained picket lines at the Sinclair Refining Co. plant. The union has been on strike against Sinclair since June 26. There was a possibility the union would picket Sinclair ships coming here, and Grandy said the NMU would honor such lines. No Sinclair vessels are due for several days. The freighter Del Rio, tied up by the striking seafarers international union since June 17 sailed Tuesday for Freeport with a cargo of soda ash.

Dominican Exiles Return

CIUDAD TRUJILLO, Dominican Republic (AP) — Three Dominican exiles arrived today from Puerto Rico and said they returned to "contribute to the birth and consolidation of democracy in the Dominican Republic." They came to test President Joaquin Balaguer's promise that political opposition will be welcome in this country for the first time in 30 years and were met on arrival by a presidential representative who assured them they have the full freedom of the country. The three, who fled the Dominican Republic during the rule of Generalissimo Rafael L. Trujillo, are Angel Mielan, Nicolas Silva and Ramon A. Castillo of the Dominican Revolutionary party. Despite skepticism among other exiles living here, the three said they received a seven-point guarantee of safety while they attempt to organize opposition in the republic to the dominant Dominican party. The guarantee, they said, included amnesty of 90-year prison terms hanging over their heads, freedom of speech and movement and the right to communicate with their party president, Juan Bosch, who lives in Costa Rica.

Ridiculous

WIRRAL, England (AP) — A reader wrote the local librarian complaining that a book he borrowed had been stamped by error for return on the same day. "Admittedly," he wrote, "the book is entitled 'How To Speed Up Your Reading' but this is ridiculous."

WATCHED

Webb said young Curry "had been watching her several nights" through her windows. The mayor said the youth's father had purchased a vacant house next door to the victim's rented cottage. He said young Curry moved into the vacant house. "He even moved his clothes in." The mayor said that on warm nights Curry slept outside, between the two houses. "He fixed the lock on the back door (of Mrs. Hussey's home) so he could get in," said Webb. Webb added: "He told his mother, 'When I faced her, something happened to me.' But his mother told newsmen, 'He didn't do it,' adding, 'all I want is the truth'."

KNOWS SOMETHING

She said she believed her son knows something about the slaying and might be trying to shield someone. Mrs. Curry said the family physician was with her son all during the interrogation Tuesday. "Dr. Wheeler, a lie detector expert from Fort Worth, said officers started a lie detector test but failed to complete it. He would not elaborate. Fort Worth officers took charcoal and a bloody towel from an area near the youth's room today. They also took bed clothing and several knives from young Curry's room at Fort Worth. As to the reason for the slaying, Webb, manager of an auto appliance store, said, "If you've ever been in a fight, you know what I mean. Thirty minutes after the fight you're sorry for what you thought." Also, said the mayor, "he is a headstrong little rascal. He was telling the detectives what to do and what not to do. He is no weakling mentally."

MISSING CLUE

County Attorney Carl Conner said the arrested youth led officers to a bronze flowerpot, a missing clue in the bizarre case. The pot was used to crush Mrs. Hussey's head. The youth's mother, Mrs. F. P. Curry, said her son told her Tuesday about the slaying. "I couldn't help it," she quoted him. Mrs. Curry spent most of Tuesday at the police station with her son. The youth's father is a grocer. She said young Curry had been suffering from migraine headaches and was in what she called a "groggy" condition. She said she had found no blood on her son's clothes. Curry was taken from this town of 4,500 in West Texas to the county seat, Eastland. Webb

Delaware Safety Streak Broken

LEWES, Del. (AP)—Thomas E. Fowler, 25, of Baltimore, died Tuesday night shortly after being struck by an auto near Rehoboth Beach. It was the first July 4th traffic fatality in the state of Delaware since 1955. Over the Memorial Day weekend, no fatal accidents of any type were reported in Delaware. The last holiday weekend accidental death reported in Delaware was during last Christmas. It, too, was a traffic fatality.

5 Boys Killed In Crash

GONZALES, Tex. (AP)—Five youths died early today when a heavy truck smashed into a parked panel truck in which they sat as their driver helped a motorist change a tire. Two other youths were injured. All were from this South Central Texas town. The crash occurred on fog-shrouded U.S. Highway 187 3/4 miles south of here shortly before dawn. Two of the youths died instantly. Three others died later in a Gonzales hospital. Marcos Sifuentes, 17, and Julian Aguierra, 16, died as the trailer truck plowed into their parked vehicle. The other dead were Gilbert Martinez, Joe Navarro and Val Cutillo. The injured are David Camarillo and Sito Gonzales. The youths were on their way to work on a nearby poultry farm. The driver of the panel truck Tommy Wilson, escaped unhurt. State police said the panel truck was parked along the highway while Wilson helped a motorist change a tire. The motorist, whose name was not learned, and the driver of the trailer truck, Tommy Cantu Trevino of Austin, also escaped unhurt.

Employment Hike Expected

WASHINGTON (AP)—The government was expected to report today a jump in unemployment of at least a half million due largely to a record surge of teen-agers into the labor force. The flood of job-hunting youngsters, including an unprecedented number of high school and college graduates seeking permanent work, was due to send soaring both the employment and unemployment totals for June. Officials previously had said that "if only seasonal factors were operating the May idle total of 4,768,000 would rise to about 5.5 million in June with accompanying large increases both in the total labor force and in the number working at jobs."

Stolen Shoes Lead To Arrest

HOUSTON (AP) — A suspected burglar was in jail today after a former Houston policeman caught him wearing his stolen shoes. James Hankes Jr., 46, the ex-officer, said he noticed the 23-year-old man wearing black and white shoes in a cafe Tuesday. Hankes questioned the man. A tussle ensued and a billfold fell from the man's pocket. The billfold turned out to be Hank's too—complete with identification cards. Hankes said the items were stolen from his home Sunday. The suspect denied the burglary. He said he bought the clothing, including suits and coats—from a man named "Joe" for \$150.

Police Officers Earn Vacation

NASHVILLE, Tenn. (AP) — Mayor Ben West has given five-day paid vacations to two police officers who captured alleged bank robbers minutes after two holdups Monday. Referring to a number of disciplinary suspensions given other policemen recently, West said, "If we give them five days without pay for bad work why don't we give these men five days with pay for good work?" The vacations went to motorcycle officer Frank Hancock and detective C. O. Robinson.

Local Weather Fine For 4th

If the plans called for bright sunshine and definite warmth, Big Springers had exactly the kind of July 4 on Tuesday they desired. High temperature for the day was 90. Big fluffy clouds dominated the sky for most of the day but their presence in no way deterred from the heat nor did they hamper the activities of the sun to any major degree. The wind was almost nonexistent. In every way it was the kind of a picnic day that fits ideally into the traditionally perfect July 4. It was not as hot by 14 degrees as Big Spring's warmest Independence Day. That was back in 1916 when it was 104. It was 29 degrees warmer than that chilly July 4 recorded in 1940. The temperature was 61. The absence of rain kept it from competing with July 4, 1915, it rained .35 inch on that holiday. Enjoy yourself on your vacation, secure in the knowledge that when you get home, you can "catch up" on all the local news (on DENNIS, too) This can be done if you'll call The Herald and ask for VACATION PAC. Your papers saved for you, delivered in order in a usable plastic bag. At no extra charge.

12 Are Killed In Algerian General Strike

ALGIERS (AP)—Moslem demonstrators and riot forces clashed across Algeria today and at least 12 persons were killed as Moslem workers staged a 24-hour general strike.

The strikers were demonstrating loyalty to the regime of rebel Premier Ferhat Abbas and protesting President Charles de Gaulle's threat to partition the North African territory.

As the demonstrations swelled, it appeared certain the death toll would rise to 20, the prospect of negotiations between the rebels and the French, which a French spokesman said had been tentatively scheduled to resume next Monday.

Two thousand Moslems clashed with police at Telegma, in eastern Algeria, site of the biggest French air base in Algeria. At Miliana, in the central part of the country, some 300 young men, women and children, led by rebel guerrillas in uniform, rushed riot forces who opened fire on them. Five persons, including a French policeman, were reported killed in the two clashes.

One Moslem was reported killed at Castiglione, about 30 miles west of Algiers, when several hundred armed with clubs and knives tried to charge riot police and troops.

Shortly before noon the Algiers casbah, which had been ominously silent throughout the morning, began to boil with unrest. The twisting alleys rang with cries of "Vive Ferhat Abbas" and the high-pitched "yu-yu-yu" cry of Moslem women urging their men on.

Troops and police in Algiers charged a Moslem mob at the fringes of the Bab-el-Oued worker district where some 300 demonstrators massed, waving green and white rebel flags. Police used their clubs and the Moslems fought back with fists and stones.

Major cities were all but paralyzed economically by the Moslem walkout.

In Algiers, docks were idle, Moslem businesses were shuttered and public transport barely limped with only European crews and armed guards. But tough French Zouave troops roamed the city, forcing Moslem merchants to open their shops and prying up the steel shutters with crowbars.

Auto Strike Possible But Both Sides Foresee Peace

DETROIT (AP)—Will there be a strike in the auto industry this year?

Probably not for a straight cent-per-hour wage increase. But very possibly if the United Auto Workers Union becomes convinced it can make existing jobs more secure and get back to work thousands of its laid-off members by hitting the bricks.

These are conclusions drawn from frank, personal off-the-record discussions with the top negotiators of General Motors, Ford and Chrysler and their counterparts in the United Auto Workers' hierarchy.

Neither side gives the appearance it is spoiling for a light, peaceful settlement. Hopes were expressed by everybody on both sides as bargainers sat down last week to begin negotiating new pacts to replace current three-year ones expiring Aug. 31. Talks resume Thursday.

Inventories are high, unemployment widespread. General Motors had 32,249 un-

employed workers laid off June 1 and drawing supplemental unemployment benefits (SUB). Ford had 9,233 idle at the same time, and on June 20 Chrysler had 24,484 unemployed. Unsold new cars in dealers' hands July 1 were estimated at 920,000.

Top UAW men said their rank and file members are particularly unhappy when the auto companies schedule overtime work for a reduced force, rather than recalling laid-off employees or creating new jobs.

Overtime normally is the heaviest in the early weeks of new model production, when employment also is highest. But some plants work considerable overtime throughout the year.

The union's GM committee seemed most concerned about the overtime issue.

Both Henry Ford II, chairman of the Ford Motor Co., and Walter P. Reuther, UAW president, have agreed as members of the President's Committee on Labor-Management Policies that un-

employment approximating seven per cent of the nation's labor force is "intolerable."

But neither one has come up with a specific cure for the situation. L. L. Colbert, Chrysler president, and other industry spokesmen have insisted the only sure way to increase automotive jobs is through increased sales; that jobs aren't created around the bargaining table.

Secretary of Labor Arthur Goldberg, put both the auto industry and union on notice in a Detroit speech May 29 that the government would view a strike this year as "intolerable." He added that one would be "the height of economic folly" with the country struggling to overcome effects of a recession and increase its gross production.

Depending on the point of view, Goldberg's remarks have been taken two ways. Some took them as an invitation to the union to appeal for Washington intervention to help it win what it might

not otherwise gain. Still others expressed the opinion they undercut the union's strength at the bargaining table, blunting in advance a strike threat.

Goldberg insisted he didn't undercut either side and, in the first place, he didn't anticipate a strike. He pointed out there hadn't been a truly major walkout since the UAW struck Chrysler for 104 days in 1950-51 to gain trust fund guaranteed pensions.

Reuther said on the first day of 1961 bargaining: "We hope and will do everything possible to reach agreement at the bargaining table without assistance or interference from Washington. We always hope to reach agreement without a strike."

Malcolm L. Denise, Ford vice president for labor relations, however, expressed concern a day later for those he called detractors who hold that "the only way to avoid costly strikes and inflationary settlements is for the government to set the terms."

Train Derails After Collision

VAN WERT, Ohio (AP)—The Pennsylvania Railroad's General Trailblazer, bound from New York to Chicago, hit a stalled truck and was derailed today in the village of Convo. Seven persons were hurt, none seriously.

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. FASTEETH, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firm so they feel more comfortable. Avoid embarrassment caused by loose plates. Get FASTEETH at any drug counter.

WHY WE BELIEVE

By T. H. Tarbet, preacher, Church of Christ, West Highway 26, P.O. Box 1383.

Space will permit us to list only one reason why we believe the Bible. Other reasons will be given in articles which follow.

We believe the Bible because of the good effect it has had, and is having on men and nations.

Surely all will admit that the following Bible statement is true: "Righteousness exalteth a nation; but sin is a reproach to any people" (Prov. 14:34).

The Bible has always exalted men and nations. Where it has gone, civilization has followed in its wake. An outstanding example is found in the way womankind's lot has been made better by the

influence of the Scriptures. It has lifted her from the heathen condition of servitude.

The FBI has often pointed out that the boy or girl who attends Sunday Bible school, seldom goes delinquent.

If a tree is to be judged by its fruits, honesty compels us to believe the Bible. It must be what it claims to be: The word of God!

Plan to attend our mid-week preaching service tomorrow evening at 7:30. —Adv.

Found Guilty

Mickey Cohen, heavily manacled, leaves the federal building in Los Angeles after he was found guilty on eight counts of income tax evasion. The jury acquitted him of five other counts in the indictment.

Legion To Elect New Post Officers

Officers for the 1961-1962 term will be nominated at the Thursday night meeting of the American Legion, Commander Joe Penleton has announced. Balloting will be held on July 13. The Post accepts nominations on both nights, so that every member may have an opportunity to suggest new officials. Both meetings will begin at 8 p.m.

In preparation to closing out the fiscal year, Membership Chairman Roscoe Cone has closed the active phase of recruiting but urges those members working on 15-year cards to mail in dues to maintain their record. The Post has reached 367, seven above the 1960 figure and the highest total since post WWII days.

The building committee is completing the addition to the Legion Home and has erected the flag pole. Outside painting and grading for additional parking is to be finished for the new year.

Mac Says War Isn't Practical

MANILA (AP)—General of the Army Douglas MacArthur told the Philippine Congress today scientific advancement in the development of military weapons "has destroyed the possibility of war being a medium for the practical settlement of international differences."

"Global war has become a Frankenstein to destroy both sides," said the 81-year-old leader of World War II and the Korean War.

"No longer is it a weapon of adventure—the short cut to international power. If you lose, you are annihilated. If you win, you stand only to lose."

"No longer does it possess even the chance of the winner of a duel—it contains now only the germs of double suicide."

MacArthur's appearance before the Congress was the high spot of the third day of return to the Philippines after 15 years. Filipino enthusiasm for

their World War II liberator continued without letup.

The old soldier once more in effect criticized former President Harry Truman and other political leaders during the Korean War for not letting him carry the United Nations offensive to Red China territory.

"With victory in our grasp," said MacArthur, "and without the use of the atom bomb—which we needed no more than against Japan — we failed to see it through."

"Had we done so we would have destroyed Red China's capability of waging modern war for generations to come. Our failure to win that war was a major disaster for the free world."

"Its fatal consequences are now increasingly being felt in the military rise of Red China into a mighty colossus which threatens all of Asia and bids fair to emerge as the balance of military power in the world. This would jeopardize freedom on all continents."

DEAR ABBY

Close Eyes, Mouth, Too

DEAR ABBY: My mother-in-law must have a hundred pictures in her living room. She has them perched on every table, on top of the television, and her walls are covered with them. They are all pictures of her children when they were babies. All her children are married now, and she hasn't room for any of the recent pictures we give her because her house is cluttered with this ancient collection. Do you think I should tell her that no one cares to see a baby picture of her 36-year-old son (my husband) naked on a fur rug? She has another one of him on a red pony, and he looks like a moron. Don't tell me not to visit her because my husband is one of those devoted sons who always drags me there with him. Any suggestions?

CITY GIRL

Showers Sprinkle U. S.

By The Associated Press

Showers sprinkled sections from the Plateau states to the northern Virginias today and cool air chilled most areas from the northern Midwest into the Northeast.

Rains in most places were comparatively light but some spots were doused with locally heavy showers. About 1 1/2 inches of rain fell in a six-hour period in El Paso, Tex., and Daytona Beach, Fla., reported a fall of 1.23 inches.

Showers which covered the northern half of the Plateau states spread along the Rockies while thundershowers hit areas from eastern South Dakota southeastward to the Ohio Valley and eastward to the northern Virginias. A few isolated thundershowers also were reported in the southern Atlantic Coast region and along the eastern Gulf Coast.

Mostly fair to occasionally partly cloudy weather was reported in other sections of the country. Temperatures in the 40s were reported again this morning along the Canadian border from the northeastern upper Great Lakes to the upper St. Lawrence Valley. It was 42 at Bradford, Pa., and 43 at Pellston and Traverse City, Mich.

Arab League Envoy Sees Peace Hopes

KUWAIT (AP) — Arab League Secretary-General Abdel Khalek Hassouna conferred with Kuwait's ruler today about Iraq's claim to the oil-rich little sheikdom and said he thought a peaceful solution could be found to the crisis.

Hassouna, who came to Kuwait after talks with Iraqi leaders in Baghdad, said Iraq would "definitely not" attack Kuwait. But British forces kept a round-the-clock watch on the border.

Hundreds of Kuwaitis cheered Hassouna as he drove Tuesday night to the palace of Sheik Abdullah as-Salim as-Sabah, who requested British help after Premier Abdel Karim Kassem claimed Kuwait and its vast oil reserves as Iraqi territory.

The 10-nation Arab League, meeting in Cairo, decided to postpone until July 12 consideration of Kuwait's request for admission to the league. Nine of the states agreed while Saudi Arabia—Kuwait's chief backer in the league—abstained. Iraq has said it will oppose Kuwait's admission.

The British here feel that if the league fails to solve the Kuwait crisis, they may have to hand over the sheikdom's defense to the United Nations. The British defense force has been welcomed in Kuwait, but there are fears a prolonged stay would allow Iraq to whip up anti-British feeling throughout the Middle East.

British Air Marshal Sir Charles Elworthy now has about 10,000 British regulars under his command here plus 10,000 Kuwait regulars, desert tribesmen and Saudi-Arabian volunteers.

Historic Ship Now A Monument

BALTIMORE (AP) — The U.S. frigate Constellation, described by Undersecretary of the Navy Paul B. Fay Jr. as "older than the Navy itself," was dedicated as a permanent monument.

The ship, bedecked with flags, launched here in 1797 as the first ship commissioned by the U.S. Navy, was returned to its home port for the last time in 1952.

The Constellation has been rebuilt, renovated and repaired many times since its launching. "One thing we have to have is the spirit that drove this ship," Fay told a crowd of several thousand which turned out at a downtown pier to see the Constellation and two modern destroyers and a submarine.

Bids To Be Taken

AUSTIN (AP)—Bids expected to total about \$20.5 million on 210 miles of road work will be taken July 18 and 19, the Highway Department announced.

The mileage includes 150 miles of national and state highways and 60 miles on farm roads.

Given Plaque

Creighton Tire Co., 601 Gregg, Big Spring, has received an anniversary plaque from Seiberling Rubber Co., Akron, Ohio. The plaque, marking Creighton's 39th year as an independent Seiberling tire dealer, was presented to owner C. W. Creighton.

Body Identified

NORTH LITTLE ROCK Ark. (AP)—A body found in a lake near here last week has been identified as that of Thomas Howard Watson, 22, of Dallas. The body, a bullet hole in the back of the head, was found in Hill's Lake by a fisherman.

No Joy For Many

MEXICO CITY (AP)—A special police unit charged with guarding against the sale of liquor during Sunday's election, confiscated almost 1,500 gallons of pulque, a beverage made from a cactus plant.

ANOTHER BIG REASON BEHIND THE BIG BOOM IN FORD SALES

No other wagon can match Ford's features (or popularity!)

There's a whole wagonload of reasons why more people are buying Ford wagons than any other make.

First, there's more room. Ford's extended load deck is the longest and widest in its field. The tailgate opening is seven inches wider than last year, too.

There's more convenience. You can have an electrically controlled roll-down rear window in any Ford wagon... it's standard in all Country Squires and 9-Passenger Country Sedans. In their field, only Ford wagons

have all seats facing forward.

There's more distinction. The Country Squire (shown above) is the one and only wagon in its field with body panels that look like mahogany, wear like steel.

There are more savings, too. Ford's Ranch Wagon is America's lowest-priced,* full-size wagon. And like all Fords, every Ford wagon is built to be more service-free: goes 30,000 miles between chassis lubrications, 4,000 miles between oil changes, brakes ad-

just automatically, mufflers are made to last three times as long as ordinary mufflers, and the finish never needs waxing.

STOP putting off that station wagon you've always wanted. SWAP for a '61 Ford wagon now while your Ford Dealer's celebrating record-breaking sales. SAVE with the wagon America loves most... made by FORD... America's station wagon specialists for 32 years!

FORD DIVISION, Ford Motor Company.

Today is the day to STOP...SWAP...SAVE

Popping Keeps Police Hopping

Police were kept on the jump during the July 4th holiday with calls about fireworks, and with dog calls, in addition to routine work and a few minor accidents.

Eleven calls about persons shooting fireworks in the city limits in violation of the city ordinance were answered. Leo Hill, assistant chief, said there were doubtless many shooting fireworks in the city where no complaints were made.

From seven to 15 dog calls are coming in to the police every 24 hours, actively sheets show, and at least one man was charged for violation of the dog ordinance Tuesday.

One woman was arrested Tuesday afternoon for rudely displaying firearms at a Northside Cafe.

Three accidents were investigated, with no injuries reported. Locations, and drivers of cars involved were: 511 Ayford, J. D. Hayden, 907 Abrams, and Joyce Tatum Smith, Lubbock; US 87 and Mary Drive, Ray Nelson Prater, 3215 Eleventh place, and Curtis D. Westphal, 104A Gunter Circle, Webb AFB; Tip-Top Drive-In, a automobile struck a building.

City Officials Plan Vacations

Vacations for some city employees, with offices in the municipal building, will begin July 8 when Bruce Dunn, director of public works leaves for nine days. He will be back in his office July 17.

City Manager A. K. Steinheimer will leave July 15 and return to his office July 24 and City Secretary C. R. McCleary will be away from July 22 to July 31.

Other employees will divide vacation times so that offices will not be closed. Roy Anderson, assistant city manager, will be on the job while Steinheimer is gone, and Dunn will be in his office at the same time.

Baseball Outdraws

NEW YORK (AP) - Baseball in New York outdrew horse racing—both flats and trot—on the Fourth of July holiday.

MRS. KEL DAVIS

Mrs. Kel Davis Takes Position In Traffic Office

Mrs. Kel Davis, 1104 Blackmon, began work as clerk in the traffic division office at the police department Monday, replacing Mrs. Carolyn Davis who is moving with her husband to Oklahoma City.

Mrs. Davis, whose husband is a highway patrolman, has lived in Big Spring over four years. She was formerly employed in the Texas Electric Service Co. office in Lamesa, and has had clerical experience. She is the mother of two daughters, Kay, 5, and Karoly, 2.

Applicants for the vacancy were screened by the Texas Employment Commission.

Health Checks Are Being Made

City officials, including Sanitarian Lige Fox and Webb AFB officials, were making routine inspections of trailer courts, eating establishments, and other places, to see if all were complying with health regulations Wednesday.

A. K. Steinheimer, city manager, accompanied the men during the inspecting, to get a first hand view of places visited.

"There has been some complaint that two or three places are not meeting standards," he said, "and there is a possibility that they may be made off limits to Webb AFB personnel, or closed unless they meet requirements."

Film Stars Are Wed

HOLLYWOOD (AP)—Thwarted by legal red tape in previous attempts to wed, actor Jason Robards and actress Lauren Bacall, widow of Humphrey Bogart, are man and wife today.

They were wed in a civil ceremony Tuesday in the Mexican coastal town of Ensenada.

But the newlyweds couldn't enjoy a honeymoon—because Robards had to appear for work at a studio today. Instead they motored back to Hollywood.

Robards, a New York stage actor, and Miss Bacall first tried to marry last month in Vienna but were unable to provide legal proof of Robards' eligibility.

Another attempt was frustrated in Las Vegas, Nev., last Saturday night. The marriage bureau said the refusal of a license was related to the Mexican divorce of Robards' second wife, Rachel, obtained May 22 in Juarez, Mexico.

Nevada honors such, but not all, Mexican divorces.

Robards listed his age as 38, Miss Bacall 36.

Carry Back Has An Infection

NEWARK, N.J. (AP)—Carry Back, who failed to win racing's triple crown last month when he was beaten in the Belmont Stakes, is ailing with an infection that sent the colt's temperature to 103.3 degrees, Joe Dietz, sports editor of the Newark Star-Ledger, says in an article in today's paper.

Dietz said Carry Back's owner-trainer, Jack Price, told him that the winner of the Kentucky Derby and the Preakness, quartered at Monmouth Park, was suffering from an infection of the elbow on his left foreleg.

Price said he expected the wound to clear up in a day or so, Dietz wrote, and the 3-year-old colt would be entered in the Choice Stakes at Monmouth Aug. 2.

Stephenson Wins

COLORADO SPRINGS, Colo. (AP)—Only one Texan survived Tuesday's first rounds in the 19th annual Colorado Springs women's invitational golf tournament.

Ruth Stephenson of San Antonio defeated Kate Chandler of Colorado Springs, 5 and 4.

Interviews Planned For Caretaker Post

Interviews for the caretaker job at Moss Creek Lake will begin Thursday afternoon in the city conference room in City Hall, according to A. K. Steinheimer, city manager.

The vacancy was caused by the death Sunday of Frank Weldon Covert, superintendent of city lakes for 22 years. He became lake superintendent of Moss Creek Lake in 1939.

Caretaker work and operation of the concession stand is being done by temporary personnel at present.

"Interested persons should fill out an application blank and return it in advance of the interview," Steinheimer said. "When it is returned, the time for the interview can be arranged."

A four-man board will conduct the interviews and make the selection, he said. Probable members of the board are R. V. Forsyth, assistant director of public works; Roy Anderson, assistant city manager; Roy Hester, superintendent of the water plant; and Bruce Dunn, director of public works.

"We want to interview all persons interested in the job," Steinheimer said. "Advance notice and appointments for interviews can save waiting time."

The job is for a man and wife and both should be present for the interview. Applicants should be between 45-55 years old and should have completed high school.

The custodian is expected to work seven days a week and as many hours as necessary to properly service and maintain lake facilities at Powell Lake and Moss Creek Lake. During the summer, this can average 14-16 hours a day, but during winter months and

Mrs. Tucker Dies Tuesday

Mrs. John A. Tucker, 64, of 1608 Lancaster, a native of B I g Spring, died at 11:40 p.m. Tuesday in a local hospital. She had been ill for some years with a heart involvement.

She was born in Big Spring on Feb. 18, 1897.

Funeral services are to be at 10 a.m. Thursday in the Nalley-Pickle Chapel with the Rev. DeWitt Seago, First Methodist Church, officiating. He will be assisted by the Rev. Richard Tucker, pastor of the North Side Baptist Church. Mr. Tucker is a nephew of Mrs. Tucker.

Burial will be in the City Cemetery with Nalley-Pickle Funeral Home in charge of arrangements.

Mrs. Tucker was married in Big Spring on Christmas Day, 1912, to John A. Tucker, who survives her. He operated a plumbing shop here for many years but is now retired.

She was a member of the First Methodist Church and also affiliated with the Laura B. Hart Chapter of the Order of the Eastern Star, the Rebekah Lodge and the Pythian Sisters.

Survivors, in addition to her husband, are one son, E. C. (Bud) Tucker, Big Spring; four daughters, Mrs. Helen Wood, Mrs. Frances Andrea, Mrs. Bill Davis, all of Big Spring, and Charlene Tucker, Columbus, Ohio; one brother, O. S. Kent, Wrench, Wash.; and one sister, Mrs. Renie Gray, Houston. There are six grandchildren.

Pallbearers are to be: J. C. Douglass Jr., John Puckett, H. M. Rainbolt, L. D. Chryne, L. E. Crenshaw, Robert N. Hill, Freddie White and W. L. Thompson.

DEPENDABILITY DELINQUENCY

We read so much about juvenile "delinquency" that we sometimes fail to observe an outstanding example of juvenile "dependability" that passes our door every day—the Little Merchant Newspaperboy.

He starts out as an average American youngster. But within a short time most Newspaperboys develop a sense of dependability much beyond average.

Under the skilled guidance of men interested in and trained to work with boys, the Newspaperboy actually goes into business for himself.

These experiences—offered only through Newspaper Route Management—help produce the kind of juvenile dependability that makes thousands of parents say with pride: "My son is a Newspaperboy."

To him service becomes something to give, rather than receive. Money becomes much more than a weekly allowance. Courtesy becomes an essential. And salesmanship becomes both challenging and rewarding.

Getting a newspaper route is becoming more difficult because so many parents want their sons to have this kind of experience.

If you have a son that you think might be interested now—or a year from now—phone our Circulation Department

AM 4-4331

or, if more convenient, mail coupon below.

Underwood Annexes Club Championship

By JOHN PIPES
James Lee Underwood is the new golf champion of the Big Spring Country Club.

Underwood, a former two-time winner of the event, upped Col. Jack Holt by a score of 2 and 1 in the final round Tuesday afternoon.

The games of the finalists were not as sharp as they had been in their previous rounds and putting proved to be the difference in the match witnessed by about 80 golf fans. Poor putting was the colonel's downfall as time and again he missed putts of from three to five feet, although he holed several of a longer variety.

Underwood drew first blood when he won the second hole with a par but Holt evened it up by taking the fourth with a par. Holt's balky putter cost him holes six and seven where he missed putts of about four feet and gave Underwood a lead he never relinquished.

Underwood's margin was narrowed to one hole when Holt won the ninth by holding a 14-foot putt for the only birdie of the round by either contestant.

GOES TWO UP
Underwood again went two up when Holt missed three putts on number ten, and increased his lead to three holes by winning the 14th with another par.

Col. Holt rallied briefly on the 15th which he won with a par but he halved the next two holes and the match was over. Holt missed a five foot putt on the 17th that would have kept the match alive for him.

Underwood defeated W. E. Ramsey, last year's champion, 2 and 1 in the morning semi-final round. Holt, who was competing for the first time in the tournament, won the right to face Underwood in the finals by squeezing by dogged R. H. Weaver, 1 up 20 holes.

Their cards:
Far: 443 454 354-36
Holt: 453 455 453-38
Underwood: 443 554 354-37
Par: 454 344 340
Holt: 555 454 35X
Underwood: 455 445 35X

Barnard Rains won the first flight and J. R. Farmer sacked up the second.

Results by the various flights were:
CHAMPIONSHIP FLIGHT
Underwood over W. E. Ramsey 2-1
Holt over R. H. Weaver 1-19
FIRST - Barnard Rains over Jack

JAMES LEE UNDERWOOD
Applied pressure early and kept it on

Detroit Clings To Junior Loop Lead

By ED WILKS
Associated Press Sports Writer
The Detroit Tigers are running on their own and have things running their way in that American League race, coming out of the July 4th firing with a one-game lead by surprising even Manager Bob Scheffing with a steal of home and a squeeze bunt against the second place New York Yankees.

After slipping to second place when they blew the opener of a showdown doubleheader at New York, losing 6-2, as sawnup Whitey Ford won his 15th for the Yankees, the Tigers bounced back

on top with a 4-3, 10-inning decision in the nightcap. And Scheffing admitted he "was as surprised as anyone," when pinch runner Chico Fernandez stole home in the ninth, for a 3-2 lead, and winning right-hander Frank Lary then clinched it with a two-out, two-strike squeeze bunt in the 10th.

That put Detroit in first place on July 4th for the first time since 1950. And it also gave the Tigers a 6-5 lead in the season series as they kissed the Yankees goodbye until Sept. 1.

In the other AL games, Baltimore moved within 1 1/2 games of

third place Cleveland by clubbing the Indians 5-1; Washington belted Boston 7-3; Minnesota beat the Chicago White Sox twice, 6-4 and 4-2, and the Los Angeles Angels

led the cellar with a 12-5 and 7-5 sweep over Kansas City that plunked the A's into 10th place.

Lary's perfect bunt came with two on against Bill Stafford (6-4), the loser in relief. Then relievers Hank Aguirre and Terry Fox saved it for Lary (12-4), with Fox getting Bill Skowron on a fly for the final out with the tying run on third base.

Lary, now 25-9 lifetime against New York, 3-1 this season, had a three-hit shutout until the eighth inning, when Roger Maris tied it 2-2 with his 31st home run and moved 17 games ahead of Babe Ruth's record-60 pace of 1927.

After Fernandez' steal of home against rookie Roland Sheldon, the Yanks tied it in their ninth off a pinch single by Hector Lopez.

The crowd of 74,246—largest in 14 years at Yankee Stadium, biggest of the year in the majors and 8,000 more than the entire NL drew—saw what came to be seen when Ford (15-2) won his ninth in a row in the opener. The little lefty gave up five hits, one a home run by Dick Brown, walked but one and fanned 11, upping his AL-leading strikeout total to 119. The Yanks beat Don Mossi (9-2) with six runs in the fifth, five of them unearned. Elston Howard's three-run triple was the big blow.

Other Texas winners were Miss Rinehart 17th in 100 yard dash and 6th in 55 yard dash; Mary Rose, Lubbock, second in 50 yard hurdles and second in 440-yard dash; Cel Rutledge, Austin fourth in javelin and 5th in shotput. A Chicago team won the meet and Tennessee Southern, Miss Ruppel's team, was second.

By CHARLES MAHER
Associated Press Sports Writer
LOS ANGELES (AP)—The Detroit Tigers and New York Yankees probably haven't the courage to face it, but the Los Angeles Angels are making their move.

The Angels started the season with an infield combination that looked as though it was playing under water and pitching staff that figured to take more punishment than the Indians in a John Wayne movie.

But today, several dozen lineup changes later, the Angels are only 19 games out of the American League lead, and their principal source of comic relief, Rocky Bridges, is only 30 games or so behind Babe Ruth's record home run pace.

The Angels escaped from 10th place Tuesday by hitting five home runs and beating Kansas City twice, 12-5 and 7-5. The second victory was the fourth in a row for the Angels and their seventh in eight games. The A's took their last game.

Bridges, who plays second base occasionally and second fiddle the rest of the time, brought the Angels from behind in the seventh inning of the second game with a three-run homer—his first home run in two years.

"I know I'm still behind Ruth," Rocky said later, "but I've been sick. Anyway, you can't hit many homers where I've been sitting."

Today the Angels take to the road, where they so far have been something less than an unalloyed success. The first stop will be Minneapolis. In their first 39 road games, the Angels lost 30 times.

Other entertainment includes a Friday night barbecue and a dance, with band, Saturday night at 9 p.m.

Mexican Clubs Hold Laurels In Texas Loop

By The Associated Press
The Texas League sailed forth in full force before the Rio Grande Tuesday night for the first time in the American Association encounter of the season but when the evening was over the laurels were in the hands of the Mexican League.

Four of the six games were won by Mexican League teams. Only Victoria and Tulsa managed victories.

Tulsa scored three runs in the first two innings and then held off the Mexico City Reds for a 3-2 victory. Victoria and Veracruz battled through five scoreless innings before the Giants could muster two runs for its 2-0 victory.

Pozza Rica edged San Antonio 1-0, the Mexico City Tigers needed 10 innings to get past Austin 4-3, and Monterrey took a decisive 6-3 victory over Amarillo. The defeat of Ardmore was more humiliating. The Rosebuds, cellar team of the Texas League, got only one hit and two men on base in absorbing an 8-0 licking from Puebla.

The scoring was skimpy but crowds that turned out in the Mexican cities for the international series totaled 44,200. The crowds ranged from 6,200 at Monterrey to 8,700 for the Mexico City Red-Tulsa game.

The Tulsa victory Tuesday night enabled the Oilers to move up one full game on the league-leading Amarillo Gold Sox. The Oilers are now only 3 1/2 games behind.

All teams will resume play at the same stands in Mexico Wednesday night.

Lamesa Batters Tigers In Two Costly Frames

Lamesa continued its policy of concentrating its explosive power here Tuesday, and in two major blasts completely clobbered the Big Spring Tigers, 15-2.

The visitors scored five in the fifth and six in the seventh. The Tigers were pecking away with four runs in the last three frames, but it was too late.

The loss left the Tigers with a record of 11-9 for the season. They hope to fatten it some here Sunday when they begin a doubleheader at Steer Park against Pecons.

Tuesday the visitors picked up a pair in the first and third to hold a 4-1 lead through the fourth. Then suddenly they found the range on Ronnie Dutchover, who started for the Tigers. He departed, having yielded 6 runs and six hits. Jimmy Cadenhead, who replaced him, finally got the Lamesans out after three more runs

came in. He retired them scoreless in the sixth, but before Danny Valdes, who has had an ailing finger could be hustled in, five more runs had crossed the plate. Valdes was effective, yielding only one run and two hits in the 2-3 innings he pitched.

Afield the Tigers looked more like a soccer team, making eight bobbles, four of them by Jimmy Fierro. He made some amends at bat by getting three hits, two of them doubles. Gamboa, Martinez and Weatherall each got a pair of safeties for the Tigers.

C. Sanchez was the big gun for Lamesa, blasting four hits, two of them triples. E. Valarde got three hits and W. Tegerina, M. Torres and C. Gonzalez each got two hits.

MOSLEY GOING TO PUBLINX FINALS, FUNDS ARE NEEDED

Paul Mosley, Big Spring's representative in the National Public Links Championship, is scheduled to leave Thursday night for Detroit where this year's tournament is to be played. Mosley will be joined by nine other golfers that qualified from the Lone Star State. Three from Dallas, two from Houston and four from the McAllen section, plus Mosley will give Texas 10 contestants in the field of 150 that will tee off Monday at the Rackham Golf Course, Detroit.

Additional funds are urgently needed to help defray Mosley's expenses to the tournament as permitted by USGA rules. Persons interested in contributing may contact local USGA Committee man John M. Pipes at AM 4-5866 immediately. Any amount will be gratefully received.

McKinley, Laver Meet In Finals

WIMBLEDON (AP)—Take an Indian, an Australian, a Brit and an all-American boy from St. Louis: Shuffle well and it's anyone's guess who'll be marching off with the Wimbledon men's tennis crown on Friday.

The shuffling is on in the All England Club's famed center court today, when Ramanathan Krishnan of India meets Aussie Rod Laver, runner-up the past

two years, and Chuck McKinley, the 5-8 bundle of energy from St. Louis, meets Mike Sangster, the tough and brawny Briton.

Whether he gets to the final or not, Chuck has served notice that

WIMBLEDON, England (AP)—Charles (Chuck) McKinley of St. Louis smashed Mike Sangster of England 6-4, 6-4, 8-6 today and gained the final round of the Wimbledon lawn tennis championship. He will meet Rod Laver of Australia for the title Friday.

Laver, runner-up the last two years, bowled over Ramanathan Krishnan of India 6-2, 8-6, 6-2. The left-handed Australian was seeded No. 2. McKinley No. 8.

Australia still has Neale Fraser, Laver and Roy Emerson, veterans of so many Davis Cup clashes. But Fraser, the ousted champion, has hinted he may be retiring soon, and Laver may land in Jack Kramer's pro net if he wins this year.

But if the future looks bright for the U.S. men, it has a gloomy look where the girls are concerned. For the second year in succession, no American girl has reached the semifinals here.

Karen Hantze, the teen-ager from Chula Vista, Calif., was the only U.S. seed this year, and she lost to Rene Schuurman, the unseeded, bouncy brunette from Durban, South Africa, in an upset in the quarter-finals Tuesday.

That gave the girls' semifinals Thursday a British-South African look. In one, Rene tests Britain's No. 1 player, towering Christine Truman, who reached the last four for the second year running by beating second-seeded Margaret Smith of Australia.

In the other, top-seeded Sandra Reynolds, of South Africa, last year's runner-up, plays Angela Mortimer of Britain. Sandra lost the first set but then recovered to beat the first set, Yola Ramirez of Mexico in the quarter-finals. Angela, also a former runner-up, won a two-set victory from the baseline against Vera Sukova, the Czech girl who has been playing Wimbledon for the past five years but never got to the last eight before.

Pigs Blast Double Win

The Pigs blasted their way to a double win over the Jets in an American League game Tuesday evening, winning the first 10-0 and then coming back to take the second 10-8.

Thomas got credit for the first win, holding the Jets to a pair of hits. R. Walling was gagged with the loss after four innings. The Pigs got two runs in the third and then hammered out four more in the fourth to win easily.

In the second game the Jets jumped to a 5-run lead in the second by reason of a single and a flock of walks. However, the Pigs roared with a vengeance in the fourth, exploding for seven runs. Steve Ross got credit for the win, going the last five innings for the Pigs. Bill Davis, the loser, was tabbed for 8 hits, and gave way to James Newman who gave up only two safeties.

The box scores:
JETS AB R H Pitches AB R H Pitches
Pigs 20 10 0 20 100-0
Jets 10 0 0 10 100-0

SECOND GAME
JETS AB R H Pitches AB R H Pitches
Pigs 10 8 0 10 100-8

Palmer, Player Off To England

ST. ANDREWS, Scotland (AP)—Arnold Palmer and Gary Player were en route to Southport, England, today to prepare for the British Open Golf Championship at Birkdale starting July 10, and Palmer's pockets were jingling.

The American was \$10,000 in defeating Player by five strokes at St. Andrews Tuesday in the first of a series of head-to-head matches, carding a two-under-par 70 to 75 for the stocky South African, who won the Masters Championship this year by a stroke from Palmer.

The match turned into a nine-hour marathon as it was taped by the American Broadcasting Company for a later showing in the United States.

To Bogota Net Meet
MEXICO CITY (AP)—Mexico will send Juan Antonio Estrada and Mauricio Urdaneta, members of the American Cup team, to a golf tournament in Bogota, Colombia, to compete against entries from Brazil, Argentina, Uruguay, Peru and Colombia Aug. 4-7.

Talons Clip Sabres, 3-1

Gary Irwin pitched one-hit ball for the Sabres in the International League Tuesday evening, but he lost to the Talons, 3-1.

While he was stingy with his hits, he was equally generous with his walks. Gary struck out nine and gave up the same number of bases on balls.

Billy Peterson, the winning pitcher, was more effective although he allowed three scattered hits. He struck out 12 but only walked two.

This evening the T Birds meet the Comets.

The box score:
TALONS AB R H Pitches AB R H Pitches
Sabres 10 1 0 10 100-1
Talons 20 3 1 20 100-3

Shirley Walker On Relay Team That Won Fourth

The Texas contingent returned from the national women's track meet with sixth place. Van Kounitz, Ackerly, reported on his return Tuesday.

Shirley Walker, Ackerly's fine sprinter, ran into some of the nation's best in the Michigan meet, including Wilma Rudolph, the Olympic dash champ, while she didn't place in the sprints. Miss Walker was a member of the 440-yard relay team which won fourth place. Others on the team were Janice Rinehart, Snyder, Pat Ellison and Jeanette Ellison, Abilene.

Other Texas winners were Miss Rinehart 17th in 100 yard dash and 6th in 55 yard dash; Mary Rose, Lubbock, second in 50 yard hurdles and second in 440-yard dash; Cel Rutledge, Austin fourth in javelin and 5th in shotput. A Chicago team won the meet and Tennessee Southern, Miss Ruppel's team, was second.

Qualifying Opens At Colorado City

COLORADO CITY—Qualifying in Colorado City's Invitational Golf tournament opens Friday morning, according to Bill Craig and Ray Mize, tournament co-chairmen. Tournament play will begin Saturday, with final and semi-final matches scheduled for Sunday.

Craig and Mize expect a large field of the area's top golfers, but last year's champion—Frank Freer—of Lamesa is not expected, to play.

Other entertainment includes a Friday night barbecue and a dance, with band, Saturday night at 9 p.m.

Cards Outhit But Win 4-2

Cardinal pitchers scattered hits well to defeat the Yankees 4-2 in a National League game of the Little League Tuesday evening. Jimmy O'Neil, who was tagged with the loss, held the winners to a pair of hits while he was striking out 5 and walking 4. Johnny McCullough got credit for the win in pitching the first three innings. He allowed four hits, struck out 5 and gave up two bases on balls. Gilstrap, who relieved him, also struck out 5, allowed two walks and held the Yanks to two hits.

The cards took a lead in the second on successive errors and a single by Gilstrap. They piled on three more in the fourth by using three walks and two errors. A single and two errors gave the Yanks their first run and two singles and a fielder's choice their other.

The box score:
YANKS AB R H Pitches AB R H Pitches
Yankees 2 0 0 2 100-0
Cards 10 4 2 10 100-4

Doubleheader Due On Park Diamond

U.S. Shipping Perks Up As Holiday Ends

NEW YORK (AP)—Shipping operations began to perk up today after a slow holiday start in compliance with a federal court order halting the 18-day national maritime strike.

Waterfront activity increased in many ports on the Atlantic, Pacific and Gulf coasts.

Officers and crewmen worked to ready passenger ships, freighters and tankers for sailing.

Chandlery, fuel oil and food suppliers, customs inspectors, longshoremen, truckmen, tugboat operators and immigration officers also pitched in to bring the dead ships back to life.

The manual labor and the paper work began shortly after the court order was issued here Monday night under the Taft-Hartley Act.

There was no sign of defiance of the court by any of the five striking maritime unions.

The order was directed also at other unions, whose members were not on strike but nevertheless were not working, and at several employer associations.

Deck officers, radio officers and unlicensed deck and engine room crewmen were ready Tuesday to sail many ships on the East Coast. But the ships generally lacked engineer officers, who are members of the Marine Engineers' Beneficial Association (MEBA).

MEBA spokesmen said the union did not have a sufficient office staff available on the Independence Day holiday to alert the engineers who were scattered over a wide area.

Members of the American Merchant Marine Institute, a large shipowner group which has not yet reached contract terms with the engineers, said they believed the MEBA was deliberately engaging in "delaying tactics." They said the union wants as few uncontracted ships as possible to sail before the court order comes up again for argument in further Taft-Hartley proceedings on Friday.

The MEBA and two other unions plan to have their lawyers appear here Friday before U.S. Dist. Judge Sylvester J. Ryan, who issued the temporary restraint against the strike, and argue against issuance of a permanent injunction.

The delay in resumption of work here hit the liner America of the United States Lines, which had been hastily scheduled to sail late today with 600 passengers for Europe. The sailing was postponed to Thursday.

The United States Lines' United States, queen of the American passenger fleet, is scheduled to sail Friday. The big liner Independence of the American Export Lines is to sail Thursday.

One More For Siberia

LONDON (AP)—Moscow radio today broadcast four 10-month-old news items, including a report of Soviet Premier Khrushchev's arrival in Finland.

While Khrushchev slept in his Moscow bed, an early morning newscast told of his welcome to Finland by President Urho Kekkonen. The visit was last September.

The newscast included three other September news items: U.N. Secretary-General Dag Hammarskjold welcoming news that Khrushchev would attend the General Assembly; the arrest of Congolese political leader Jean Bolikango; and the winning of gold medals by Soviet athletes at the Rome Olympics.

"It looks as though someone picked up an old file tape by mistake," said an official at the British Broadcasting Corporation's monitoring station. "I understand it has happened once before."

Korea's Rulers Push Anti-Communist Charge

SEOUL, South Korea (AP)—South Korea's military rulers pressed their anti-Communist campaign with new vigor today, charging a former law school dean, his wife and three others with being Communist spies.

The military junta leveled the spy charges, which carry a maximum penalty of death, after ac-

cusing John M. Chang, former premier ousted in the May 16 coup, and 11 of his associates, of collaborating with the Communists. All are being held.

The junta also ordered stiff new penalties for sympathizing or trafficking with the Communists.

The stepped-up campaign was considered a smokescreen to divert attention from Monday's shakedown in which Maj. Gen. Pak Chung-hi took over as chairman of the ruling junta and named Song Yo-chan, a retired lieutenant general, as his premier. Pak thus pushed Lt. Gen. Chang Do-young from both key posts, contending South Korea needed more aggressive leadership.

Accused of spying for the Reds were Chin Sung-nok, former dean of Seoul University Law School and a chairman of the Civil Service Commission under ex-President Syngman Rhee; his wife, Kong Myung-kill; her brother, Kong Kyu-min, and two others.

A junta spokesman said the five were under arrest and would be tried by court-martial.

The junta claimed Chin was

kidnaped by North Korean Communists in 1950, taken to Pyongyang and converted to communism and then pretended to flee back to Seoul. The spokesman said the educator had contact with Red spies a half dozen times and protected them in his home.

The Communist sympathizers' law was virtually identical to one John Chang supported. The National Assembly failed to approve it after strong opposition from students who declared it would turn South Korea into a police state.

Pak, who as chairman of the junta is the moving force behind the anti-Red campaign, was himself once tagged with the Communist label.

5,000 Expected At Bar Meeting

FORT WORTH (AP)—A four-day convention of the State Bar of Texas opened today with about 5,000 lawyers and wives expected.

Vice President Lyndon Johnson will speak on "The Challenge of Our Day" on Friday.

Sen. John McClellan, D-Ark., chairman of the Senate committee investigating racketeering in the labor-management field, will speak Thursday morning at the first general assembly.

Officials To Visit Webb

Five officials representing institutions which send AFROTC cadets to Webb AFB for training, were to arrive at the base today at 6 p.m. for a two-day visit.

There are 36 such institutions participating in the program.

Visiting officials are Dr. Gerald T. Hudson, Dean, College of Agriculture, University of Arkansas; Dr. E. Glynn Abel, Dean, University of Southwestern Louisiana; Dr. Martin O. Juel, Dean of Students, Southwest Texas State College; Dr. Monroe S. Carroll, Provost, Baylor University; Dr. Cecil L. Moffitt, Associate Dean of Admissions, TCU.

The group will start with a briefing in the wing conference room Thursday and have lunch with the cadets. A three-hour tour of Webb is planned and the group will meet at the officers club for cocktail hour and dinner.

The five visitors will leave Webb Friday at 3 p.m. They will tour the cadet area and classes and go for a jet orientation ride.

Officers Probe Finding Of Body

BRECKENRIDGE, Tex. (AP)—Stephens County officers today investigated the finding of the body of a young man on a farm road near here.

They identified the man from papers as Raymond Lewis Sizemore, 23, believed to be from New Mexico. They said the man apparently died from a head wound inflicted by a heavy instrument and his body dumped from a car.

A motorist found the body about 5.15 this morning on a rural road 11 miles south of Graham, a mile inside Stephens County.

Friends Stand By Accused Killer

PHILADELPHIA (AP)—He was on the FBI's most wanted list, for a cruel murder. But to Mr. and Mrs. Jack Bloom the fugitive captured in their home "was just like one of the family. Trusted like a brother."

Still shocked that the odd-jobs man they took to their hearts was not the person he represented himself to be, the Blooms nevertheless promised Tuesday to aid him.

The man they knew as Bryan Breton was, in fact, Kenneth Hollock Sharp, 29, sought since 1952 on a charge that he shot and killed a 73-year-old service station attendant during a holdup in Chicago.

When the FBI took Sharp into custody Monday, Bloom said, he

was babysitting for the three Bloom children, boys aged 2, 4 and 8. He was just like one of the family. The kids miss him already.

The FBI said Sharp, considered possibly deranged, had been in Philadelphia for five years. He worked for three years as a pin-boy in a bowling alley Bloom manages.

Laid off when the alley was converted to automatic pinsetters, Sharp went to work in a service station Bloom operated. "I trusted him like a brother," Bloom said. "Some weekends I would have \$400 at the station. We never missed a thing."

The station closed six months ago and Sharp moved in with the Blooms while working at odd jobs.

"The kids loved him immediately. He would take them swimming on hot days. He would go with us to the shore," and, said Mrs. Bloom, he "would do the Friday shopping for me."

Bloom said agents came to the bowling alley Monday and asked him to accompany them to the home.

"They asked who he was and he asked 'Who am I supposed to be?' The agents looked at his arm and 'Sharp' was tattooed on it. I couldn't stand it any more," Bloom recounted.

"We are going to Chicago as witnesses. I'm ready to sell my house if it will do him any good," Bloom said.

Castro Claims U.S. Trying Hunger Drive

HAVANA (AP)—Fidel Castro claims the United States is trying to force Cubans to go hungry by embargoing food exports to Cuba.

In a nationwide television-radio address Tuesday night, the prime minister accused the United States again of economic aggression and said the Soviet Union had offered Cuba 10,000 tons of lard to make up for a U.S. shipment of 12 carloads that was stopped last week.

(Castro did not explain the circumstances of the embargo on the lard shipment. A Florida court ordered the shipment seized to help satisfy a \$429,000 bill the Cuban government tourist agency owes a Miami advertising agency.)

Castro called the lard seizure the latest act of "imperialist aggression" and announced Cubans would have to cut down on fats until production can replace U.S. imports. Cuba has depended on the United States for most of its lard, but Castro said Cuba would buy no more U.S. lard, imports of which, he said, had run to \$20 million a year.

The prime minister announced that Cubans, who normally consume about 40 1/4 pounds of fats per person annually, would be rationed one pound of oil and one pound of lard a month.

Castro also complained about the seizure of a Cuban twin-engine passenger airplane in Miami Monday. The plane, hijacked in flight by some of its passengers, was seized when it landed to be applied toward the Miami advertising firm's judgment. Three Cuban crop-dusting planes that landed in the Florida Keys also were seized for the same reason.

Castro termed Adlai Stevenson's recent tour of South America as President Kennedy's special envoy a vain effort to build up an aggressive anti-Cuban front.

Parliament Snags In Congo

LEOPOLDVILLE, the Congo (AP)—The drive to reconvene the Congolese Parliament was bogged down today in feuds and second thoughts despite insistent U.N. attempts to restore democratic government in the year-old republic.

Maneuvering for influence and position among Leopoldville politicians threatened to kill the momentum built up last month when President Joseph Kasavubu announced the reopening of the national legislature after over nine months of non-parliamentary government.

Kasavubu, Premier Joseph Ileo and his ministers were plagued by growing fears that voting in the Parliament might go against them.

Ileo has never received a parliamentary vote of confidence. Diplomatic observers give him little chance to survive once the legislature reconvenes.

Kasavubu himself was reported fearful of being ousted by someone more acceptable to the leftist Stanleyville regime of Antoine Gizenga.

The Leopoldville army chief, Gen. Joseph Mobutu, and his close political ally, Foreign Minister Justin Bomboko, are also key figures in the jockeying. Their close and friendly association with Kasanga President Moise Tshombe after he was released from custody has local politicians and U.N. officials worried that the army chief is thinking about making a grab for power.

Another obstacle to the reconvening of Parliament came Tuesday from the Katanga capital of Elisabethville, where the provincial assembly refused to ratify Tshombe's pledge that Katanga deputies would participate in the Leopoldville assembly.

The Katanga legislature rejected all the agreements Tshombe signed providing for closer cooperation between his secessionist state and the central government.

The developments were a blow to U.N. negotiators who have worked intensively for weeks to get Parliament back into session to elect a government representing all factions.

Bus Hits Bridge
MEXICO CITY (AP)—A bus carrying 15 persons rammed the center section of a bridge near here Tuesday, killing the driver and two passengers. Five persons were seriously injured. The bus was on its way here from Guadalupe.

49th Division Heads For Hills

NORTH FT. HOOD (AP)—Following a hot steamy July 4th, the 49th Armored Division went into the hills today for the first of two movements to imaginary battle areas.

After two days of "fighting," the division will return to base camp Friday to honor its sweetheart, Miss Deloris Del Foley of Mineral Wells, and to prepare for the governor's day review Saturday.

A Devotional for Today

"Which of these three, do you think proved neighbor to the man who fell among the robbers?" He, the lawyer, said, "The one who showed mercy on him." And Jesus said to him, "Go and do likewise." (Luke 10:36. RSV.)

PRAYER: Eternal God, may we so see the truth in Jesus Christ that we may be set free from everything which would pull us away from Thee. Help us to express our freedom by serving others in His name. Amen.

(From The Upper Room)

Driving Will Cost You More

The Texas Insurance Board, as was predicted, Monday increased automobile insurance rates. There is probably no such thing as the "average driver" except statistically, but the average cost may be from \$5 to \$37 more a year.

One reason cited by the board was that the number of "safe" drivers under the rating plan had been grossly underestimated, thus reducing premium revenue as much as 15 per cent under what companies had anticipated. At the same time, costs of repair work, both labor and materials had mounted sharply. Finally, the awards made by juries or given in settlements for bodily injury, liability etc. were far in excess of reasonable expectancy.

As for the number of persons qualifying for a 20 per cent discount in rates, by reason of having no traffic offenses or accidents, it is difficult to conceive how

the commission could miss the number as much as 40 per cent. Granted it had no previous experience, it did have the record of accidents and major driving offenses. It did have resources for some sort of pilot study, survey or poll. To miss calculations on the number of "safe" drivers so badly is to raise a question about the underlying approach to the problem.

The disposition to soak the insurance companies, whether in mounting costs or unreasonable awards, is sheer folly, for the companies cannot stay in business unless they make a profit. The only way they can is to pass higher costs on to the policy holders.

Compulsory systems contain in themselves the seeds of abuse which, if left unchecked, ultimately will be the seeds of destruction.

Equal Treatment

Mechanical difficulties, limitations of time and other factors may have prevented the fogging machine from having spread insecticides in your area, at least as frequently as you would like.

One of those factors could be a preferential assignment of the fogger. There is reason to believe that on occasion it

has been dispatched to specific neighborhoods for private convenience.

We won't argue that those thus blessed didn't have a need for this service, but we will argue that such equipment is for all the city and every resident is entitled on a fixed schedule. Everyone foots the bill and everyone is entitled to its services.

Holmes Alexander

Can We Expect Improvement?

WASHINGTON—All religions preach repentance and regeneration, but the Kennedy Administration record in the first half-year of 1961 raises the question of whether this remorse-and-salvation theme carries over into politics.

It's fair to say that I got this idea after a talk with Senator Jack Miller (R., Iowa), a new man on Capitol Hill, perhaps better able than we old boulevardiers to see things with the unclouded eye. Miller, 44, a legislator and tax lawyer back home, was expressing his shock at the air of public amorality which surrounded Mr. Kennedy's nomination of Frank Reeves to be a Commissioner of the District of Columbia.

REEVES, a Negro lawyer and Democratic national committeeman, displayed to the committee on D. C. Affairs a righteous unwillingness to give up his party job in order to accept a Federal one. He seemed to think it immaterial to the post of District Commissioner that he was a tax delinquent—as if any government can live without revenue.

To the new Senator, serving on this minor committee where many freshmen break in, it was a jolting experience to have before him this sort of a nominee from the sort of President who has expounded such lofty principles and high standards of public office.

BUT DOES NOT this glaring and repellent contrast between words and deeds tell us that the Kennedy Administration is incorrigible? We'd all better hope not, and yet who can "hope" the spots off a leopard? Practical politics, not statecraft, appears to be the nature of the case, and in politics (as the word is spoken among professionals), you play things just this way. The appointment of Reeves, who comes out of the official household as a White House aide, seems to me to be a normal extension of the nepotism which the President has practiced first and last.

FROM TIME immemorial, nepotism has been an incurable canker, and it is illogical to believe that we will cease to have offices filled with brothers, in-laws, college chums and cronies-of-convenience until the Administration is terminated.

On the very day that Reeves withdrew his name from consideration, another evidence of irreclaimability showed up in the House-Senate conference report on the Administration housing bill. A few weeks ago Democratic Senator Albert Gore tried to insert a down-payment clause and to reduce 40-year mortgages to something less. His amendment passed the Senate, but White House re-enforcements galloped up the Hill and the amendment was rubbed out on another vote.

WELL, WHEN the bill returned from conference with these and other extravaganzas still in it, a reproachful piece was spoken by Senator John Sherman Cooper. As a liberal Republican, Cooper

James Marlow

The Passing Of A Great Writer

WASHINGTON (AP)—Ernest Hemingway's people confronted death as something not to be postponed, as Hector in Homer's Iliad did when he stopped running to face Achilles, armed but without hope.

Hemingway said 26 years ago, long before illness overtook him, "I must write because if I do not write a certain amount I do not enjoy the rest of my life."

It is a reasonable guess the prospect of years of invalidism, or at least marginal vitality, took the joy out of life for him.

This may be too simple for

future analysts seeking the meaning of the shotgun blast which killed him last Sunday. You can almost read them now:

THAT HIS CONCERN with death, which dominated all he wrote, meant he was obsessed with fear of it and that he sought to buy time through the swears by marching character after character to inevitable doom as a substitute for himself.

The literary pigeon-fanciers who like cooling off a message mailed him. But he was no sooth-sayer, he used words like rocks,

and, in the beginning, he had no message.

Maxwell Geismar once wrote that Hemingway's people "act as if thought is unthinkable." This was true. He was an artist, writing about the muscles of the heart, not the capillaries of the brain. The muscles got tired as he grew older. His best work was his early work: the short stories, "The Sun Also Rises," "A Farewell to Arms," some parts of "Death in the Afternoon," some parts of "To Have and Have Not."

IT WAS DOWNHILL after that—although for him it was up on the mountain for him as he saw them, temporarily—as if he had listened too much to the critics who wanted a message, who said he had no social consciousness.

In those early days he showed none of it. Why should he have? He was an artist writing about people in trouble as he saw them, without moral judgments. He had one measuring rod: to write "truly." It was his own word.

He knew what happened to writers who listened to critics. He talked about them in "Green Hills in Africa"—"if they believe the critics when they say they are great then they must believe them when they say they are rotten and they lose confidence."

He began to have a message in "To Have and Have Not." It spoiled a brilliant book. Before then he could have written about the sudden, brutal switch of Henry Morgan to murder because someone flim-flammed him.

NOW HE MADE Morgan an example of the class struggle, a grotesque distortion. Hemingway put a moral tone into "For Whom the Bell Tolls" and then turned it altogether by making his people talk as people never talked.

He began to have a message in "The Old Man and the Sea" was simply an allegory about man's wretched struggle against the uncaring universe.

But no one can ever really understand—perhaps feel a better word—what Hemingway's real message to American literature unless he was alive and young in those middle 1920s when Hemingway's work began.

The woods were full of literary frauds and second-raters who played it cute and safe, and sometimes itch so I can barely stand it. Is there any relief for it?—Mrs. A. F.

The use of a lanolin ointment or cold cream preparation should help the skin of your legs. As another thought, do not neglect the possibility that your skin may be hypersensitive (allergic) to something in the elastic stockings. Your doctor can help you with this.

"Dear Dr. Molner: Please write about tumors in the mouth. Do they grow up to the eyes or ears?—Mrs. B. S."

I presume you refer to a bony tumor at the root of the tongue. These are not malignant, and do not affect eyes or ears. They do create a problem if full upper dentures are needed. Ordinarily no treatment is required.

Are you bothered with ringing in the ears? If so, write to Dr. Molner in care of the Big Spring Herald, for his booklet, "Ear Noises—Their Causes and Cures," enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers questions are incorporated in his column whenever possible.

Hal Boyle

Beauties And Beasts

NEW YORK (AP)—Nothing stirs the average office out of its usual summer doldrums more than the hiring of a new stenographer.

This is particularly so if the girl is pretty, and engineered like an adolescent's dream. Her arrival creates more excitement than anything since management surrendered unconditionally to the coffee break.

For a time she is more popular than the water cooler. The career wolves and the seasonal bachelors converge on her desk from all corners. Everybody suddenly needs to borrow a pencil, some paper clips, an extra typewriter ribbon—any excuse to get acquainted.

The fact the new girl can type only 25 words a minute under full steam worries nobody but the boss.

Here is the impact she has on some of the office characters:

The office boy—He comes in 15 minutes early so he can slip unnoticed on her desk a rose he has stolen from a neighbor's bush and wrapped in a poem he spent half the night writing. "The quality of his verse is so poor the new girl suspects the boss himself wrote it."

The hypochondriac—His idea of courtship is to lend her some of his medicines. "Try my new miracle pill," he urges. "It came out only last week, and it made me feel wonderful."

The junior executive—He hasn't

dictated a letter in months, but now he suddenly develops a heavy correspondence. He even writes letters to strangers in the phone book, just so he can spend more time with the new girl.

The fatherly bookkeeper—"A young girl like you has to be pretty careful these days," he murmurs, clutching her hands in his. "You can't believe a word some of these jokers tell you, but you can trust me."

The boss's spinster secretary—"Everybody talks about how young she is," she tells her cronies spitefully. "But she isn't all that young."

But the romantic ardor that erupts in the office dies down as abruptly as it arose. For after three months the new girl announces she is leaving to marry the boy back home. Everyone has to dig down to buy her some farewell gifts—which include a bottle of tranquilizers from the hypochondriac, his last words: "Honey, you can be so tense."

All then wait expectantly to see what the next new girl will look like. She turns out to have a shape like the Pentagon, a face like Harpo Marx. But she can type 75 words a minute blindfolded— which, after all, is how she looks best.

"Now," growls the boss, "maybe we'll get some work done around this place!"

Maybe.

To Your Good Health

Orthodontist Can Help Buck Teeth

By JOSEPH G. MOLNER, M.D.

"Dear Dr. Molner: I have buck teeth which protrude greatly. They also have small spaces between them. Would braces help both things? If so, approximately how much would they cost, and how long would I have to wear them?—J.S."

The teeth are not as rigidly fixed in place as some other parts of the body. Under steady pressure, they can be forced to "drift," or slowly change position.

Sometimes an orthodontist (a dentist who specializes in correcting such defects) may use special rubber bands, or he may use metal "braces," or he may use both. (If a jaw is too crowded, a tooth or two may be removed, and the other teeth gradually made to drift so they fill in the space left after extraction.)

This is not a quick procedure. It requires months, and sometimes a couple of years or so. The only way to estimate the time and cost is to have an orthodontist examine the case in question. However, the cost usually can be spread, since the treatment usually takes a good bit of time.

"Dear Dr. Molner: What causes cold sores? I get two or three every three or four weeks and they last about five days. I use camphor ice. Is this good?—Mrs. A.J."

Cold sores are usually due to a

superficial virus infection. Some women get them around the menstrual cycle—which the timing, in your case, suggests. Camphor ice may give temporary relief. There is little else other than improving general health—good diet, adequate rest, sufficient exercise, etc.

"Dear Dr. Molner: Is there any chance of a four-year-old out-growing diabetes when kept on a proper diet?—Mrs. C. L."

I might say the chance is remote. I think I'd do better to say the answer is no. Older people who develop diabetes many times can control the disease by diet alone. (Many of them—but not all!)

But when diabetes develops in childhood, the use of insulin is required from the beginning.

It is true that occasionally children may have sugar in the urine, yet not have elevated blood sugar—and such cases are not diabetes. In short, there are "suspicious cases" which aren't true diabetes, and can be corrected. However, if it's real diabetes, don't expect it to be cured. But on the other hand, with proper care, children with diabetes live essentially normal lives. They have to use insulin all their lives, but they live—happily and long.

"Dear Dr. Molner: I wear elastic hose from the time I arise until retiring. My legs are dry, flaky,

Around The Rim

The Real Shakes

Black outlines billowed in the north, and frequent flashes of lightning gave clouds an angry look. It was in the wrong direction to give concern, but the display was enough to turn the talk to tornadoes.

Most everyone had been in proximity to a twister, and a few had actually gone through one. Thus, nearly everyone in the discussion, even me with boyhood recollections of how a real killer had been spawned down in northern Glasscock County to move south of the hills here and on Colorado City with death for more than a score of people. Jerry Worthy could top that one about the tornado which suddenly roared through downtown Waco back in 1953 and killed more than 100 people in the twinkling of an eye.

THE CONVERSATION drifted to another force of nature which can be more terrifying than the tornado. You can duck into a cellar or crouch in a low place with reasonable safety when a tornado threatens, or you may even get into your car and race away from it.

But in an earthquake, it was admitted, there is simply no place to go. From his years at San Francisco, perhaps V. J. Belda qualified as the "expert" on this, for he recalled his first experience with a tremor. When he suddenly realized what was happening, his first reaction was to dash out-of-doors. Luckily, nothing had been jarred loose to fall on his head as he emerged.

THEREAFTER he learned to sweat

out the shakes inside the relative safety of a modern building. Anyhow, he found out how futile it was to try to move in a real quake.

"It feels like trying to walk on jelly," he said.

Maj. W. J. Mason, in his various assignments, had experienced some pretty formidable tremors. The most sobering, however, was in underground quarters where he wondered about the percentage of being buried alive.

Some of the other fellows had beheld awesome quakes, including one in Japan when tall buildings seemed to sway weirdly like reeds in a wind.

BACK ABOUT THE summer of 1931, we had a mild tremor here, and some of the folks who were staying in the upper stories of the Settles confirmed that swaying feeling even on a structure no taller than that. Our former publisher, Joe Galbraith, was accused by his roommates of tramping even the fittest underfoot as he burned up the stairwell to the ground floor.

At Acapulco, another of the brethren had a different reaction. He was getting into his bathing suit when the realization broke over him that the mounting rattle and quivering was an earthquake. He froze, with one leg in the suit, as the violent shaking continued. At this precise moment, the maid threw open the door and inquired urgently: "Are you all right?" That shook him worse than the quake.

—JOE PICKLE.

Inez Robb

It's All For The Little Woman

Would that Mr. Dooley were still alive to cast his X-ray eyes on the netarious goings on in Washington! It is a terrible thing, a terrible thing indeed, but the New Frontier is mixing a clever and diabolical plan to destroy Togetherness.

This insidious attack on the very foundation of the American home is laid bare in one of the many two-bit weekly "newsletters" that now flood the United States mail.

LA. IT TAKES the kind of Boston Blackie brain behind most of these newsletters to warn us Americans of the awful booby traps lurking behind innocent legislation.

Who would think that the Administration attempts to crack down on expense-account living, to curb what seems like— to dopey characters like you and me— excessive high jinks on the corporate cuff, are really and truly attacks on the foundation of our nation, the American home!

BUT THAT'S the nefarious pitch, and don't forget it. It is the wife, the little woman behind every successful man, who would pay and pay and pay, right through her pretty little nose, if the Administration succeeds in enacting some curbs on expense-account living.

The corporate wife—and who has not heard of this dynamo in business storm-and-strike—would no longer be able to travel with her husband when he goes on business trips or attends conventions. And she would have to pay for the hard-hatted government, knows that the corporate wife must always be handy to advance her husband's career and take advantage of all business openings or opportunities. It is imperative that she be present to slip the hemlock in her rival's tea.

BUT THIS POOR little girl, hemlock and all, will not be able to accompany

her husband on business trips if the nasty government tightens up on loose expense accounts. He won't be able to take her along unless he digs—oh! unthinkable indignity!—down into his own pocket and pays for both the hemlock and her freight.

The terrible, cruel part of the whole business is that the mean old government has accustomed junior executives and their ilk (including wives) to regard expense-account largesse as an integral part of a man's salary, as his by right and custom. That includes writing off home entertaining, social club dues, theatre tickets and night-clubbing on the corporate cuff. All the goodies, really.

AND NOW—dear me, it is so fantastically petty and hard-hearted that I can scarcely bring myself to write about it—the wife of a junior executive or his counterpart will have to dig down into the family sock for such expenditures just like other people. That is, she will have to dig into the piggy bank if the new administration passes this heartless legislation.

Just think! The bill proposes that there shall be no entertaining even to build good will, much less a swimming pool or another bedroom on the east wing of the house. In heaven's name I ask you: How will people live?

SCANT WONDER this newsletter speaks of the legislation's "prospective victims." means about the return of business meetings and conventions to "stag" affairs without the refining touch of the little woman, and calls upon heaven to witness this premeditated destruction of that most-sacred American institution, Togetherness.

Let us forget equitable taxation for all. Now is the time for the government to show mercy to the privileged few. Let us go forward, united, to save Togetherness and the whooping crane.

World Troubled Over Nuclear Testing

WASHINGTON—The only nuclear tests subject to detection during the past two and a half years were those set off by the French in their proving ground in the Sahara. Each of the four French shots was greeted with cries of anguish and indignation by the African nations to the south of the Sahara.

ANY POLLUTION of the atmosphere by these primitive tests was negligible. Its menace to human life, either present or future, could hardly be subject to proof. Yet the very word "fallout" has taken on such dire and fearsome connotations that it sets off a wave of protest and that is particularly true in the underdeveloped and uncommitted countries.

It is a reality which cannot be ignored by policy-makers in the West even though weapons tend to brush it aside in their zeal to get on with the job of perfecting ever newer weapons series. The image of mass death, of whole populations dying in agony, the helplessness of peoples who are innocent bystanders in the menacing nuclear duel between East and West, this is the coloration of public opinion in large parts of the globe.

WORLD OPINION is an important factor in weighing all the elements that must go into the decision on whether to resume weapons tests. The Soviet Union means, if possible, to place the blame for a new round on the United States. Intangible as it is, this is a propaganda point that can be measured against the potency of new weapons which might come out of further testing.

A long-time, objective of Soviet propaganda has been to identify the United States with nuclear armament and the indiscriminate use of mass death. That was particularly true before the Soviet arsenal included these weapons. But even since then one goal is plainly to try to neutralize the massive deterrence of the West and swing the balance back to manpower under arms in which the Communist bloc far exceeds the West.

THIS IS difficult to combat if only because the United States is the only nation ever to have used a nuclear weapon. Moreover, the bombs dropped on Hiroshima and Nagasaki were used against Asians. Propaganda to one side, that has had an impact among peoples of color impossible to exaggerate.

Would you have used it against Germany if you had had the bomb before VE day, is a question repeatedly asked. Was not the war against Japan already virtually ended when you decided to try out the weapon into which you put such

a vast expenditure of effort and money? These are doubts and fears deeply rooted in Asian minds.

THE CREW of the Japanese fishing boat, the Lucky Dragon, suffering from radiation as a result of sailing into a restricted test area following one of the Chinese explosions helped to dramatize such fears. Left-wing and anti-American propagandists were only too happy to make use of the incident. In the French film, "Hiroshima Mon Amour," newsreel shots taken immediately after the bomb exploded showed the full horror to the theaters in many countries.

THE CONSCIENCE of the world is deeply troubled. A new round of tests, even though they should all be conducted underground with no contamination of the atmosphere, will have an incalculable effect. It can be counted on to increase the trend toward neutralism in England and the Scandinavian countries as well as in Asia and Africa. Reports to the State Department indicate that important segments of opinion in Britain would be alienated if it could be clearly shown that the United States initiated a new test series.

ADD TO THIS the fact that disarmament negotiation has all but been abandoned as a consequence of, first, the Soviet insistence on every negotiation on the three-headed monster—the built-in veto—that would prevent any effective control and inspection. Secondly, in the preliminary talks in Washington between John J. McCloy, the President's disarmament negotiator, and Soviet delegate Valerian Zorin the latter has insisted on trying to get McCloy to talk substance rather than the framework for discussion which that was to have begun among several nations at the end of next month. It seems evident that Zorin wants to make a case which he will take before the United Nations General Assembly in the fall charging the United States with refusing to discuss disarmament. It is a sad commentary that this comes just as the Administration has moved to create a disarmament agency—the agency for peace that President Kennedy talked about in his campaign.

HOPE DEFERRED maketh the heart sick. That injunction from the Book of Proverbs has a special meaning for our time. The nuclear test talks had seemed to offer a way out of a long dark passage. To close the door with an order to resume the tests will have the look of an irrevocable test backward.

High Goals Set By Tall Businesswoman

By M. A. RAISER
Associated Press Staff Writer

Dolly Dahle is a 6-foot businesswoman who wants to achieve a million dollar gross income within four years.

"I would like to be eligible to join the Young Presidents Club, whose members have to gross a million dollars a year through their own efforts—before they are 40."

Chances are that Dolly Dahle (pronounced Dale), a green-eyed, blonde former showgirl, might make it—if the space race goes on.

She's president of a Los Angeles publishing company that now does more than \$250,000 business annually. The firm produces manuals, government contract proposals, highly classified reports. It turns out technical typing and reproduction by mimeo or other means, or prepares copy for the printer.

Much of the work requires special technical skills, and clients include the country's top aircraft corporations.

Business soared after the Russians set up Sputnik I.

ADVISED WORK FOR SELF
Dolly was born in 1925 at Erie, Pa., lived in an orphanage during the depression, later studied nights and worked days in a Detroit auto factory. She once was a show girl for Billy Rose.

After an unsuccessful marriage, she got employment in the publications field in California.

Her mother, Mrs. Helen Bauer, now secretary of Dolly's company, offered sage advice.

"She always told me that the only way to make money is to be in business for yourself," Dolly says.

"I decided that my main goal was to have money, which I had lacked all my life, and the only way to have it was to make it myself."

In 1955 Dolly boldly set up her own typing business with a \$600 loan. She had a typewriter, a desk, a telephone—"and me."

"I called up everyone I had worked with and said 'Here I am. Give me your business.' The first year I grossed \$1,200. The first year and netted \$18."

"I found that being a woman can be a detriment rather than a help in selling."

"For example, one person thought I was trying to sell sex. But since then my company has become his sole vendor for reproduction typing."

She says her company (Publishing Production Service, Inc.) has 15 special typewriters worth \$12,000, or \$800 each, 40 skilled em-

DOLLY DAHLE

ployees, and many highly skilled temporary workers for emergency jobs.

"Most of the girls I hire are Japanese," she says. "They seem to be very well suited because their work is so exacting and neat."

"I really treasure my little Japanese. They are able to go to college by working for me. They also are willing to work around the clock."

Dolly's company has a piece work system.

"I once set a production schedule of 20 pages of typing in an 8-hour day. Then I became worried that I might have expected too much from the girls. So I went to work at a typewriter and

turned out 44 pages in 10 hours."

HAS SUNKEN TUB
Dolly lives high on a hill at Silver Lake in east Hollywood.

"My Roman-style house has a single bedroom and no wall between the kitchen and living room. I have sort of terrazzo floors and a view of the whole city. And a beautiful sunken bath tub."

Romance?
"Some day I may marry again," she says, blushing slightly. "But I have no prospects at present."

Her exact height?
"I'm really not 6 feet tall. I'm exactly 5 feet, 11 and 15-16th inches. I was too short to become a member of the Tip Toppers, who refused to waive that 16th of an inch."

HAS WEIGHT PROBLEM
Her shoes are size 11½ and she wears long spiked heels, despite her height.

"I have a weight problem. I'm 160 pounds. Normal for my height is 158."

"I do five minutes of exercises—ups and downs—each morning. I have to watch my waistline, which is 28 inches."

Other measurements were not volunteered.

Freezer Sauce Proves Popular

This usually delicious sauce recipe is repeated by request.

FREEZER SAUCE
1 small head celery (with leaves off)

¼ cup parsley sprigs

1 lb. mushrooms

1 large onion

2 cloves garlic

1 slice bacon

¼ cup butter or margarine

¼ cup olive oil

1 lb. ground lean beef

1 can (16 oz.) tomato paste

2 cans (1 lb., 12 oz. each) tomato puree

1 tsp. salt

1 tsp. pepper

¼ tsp. each oregano and all-spice

With fine blade of food chopper, chop first 6 ingredients. In a large heavy kettle heat butter and oil; add chopped ingredients and meats; brown meat lightly stirring often.

Add remaining ingredients. Simmer, covered, about 1½ hours, stirring often. Makes about 2½ quarts.

Refrigerate portion of sauce to be used overnight to develop flavor; store remainder in freezer.

Macaroni Is Dish That's Economical

In economy the order of the week? This satisfying main dish isn't hard on the budget.

BACON-CHEESE MACARONI
8 oz. (3 cups) medium-size seashell macaroni

2 tbsps. each butter and flour

¼ tsp. salt

¼ tsp. white pepper

2½ cups milk

1½ cups grated sharp cheddar cheese

9 slices bacon (cooked until half crisp)

Cook macaroni according to package directions; drain. Make a white sauce of the butter, flour, salt, pepper and milk; remove from heat and stir 1 cup of the cheese into the sauce.

Mix drained cooked macaroni and cheese sauce in a 2-quart casserole; sprinkle with remaining ½ cup cheese; top with bacon.

Bake in moderate (375 degrees) oven until piping hot through and bacon finishes browning—about 25 minutes. Makes 6 servings.

NOTE: There should be about 4½ cups cooked seashells for use

Big Spring (Texas) Herald, Wednesday, July 5, 1961 3-B

FOR BLACK, WHITE By Martini Diminutive

N-1341

From SPADEA'S American Designer Series

The trans-season talents of black and white are heralded in this versatile costume. The spectacularly simple late day sheath takes cover in a jaunty little jump jacket with open sides and easy sewing features.

Make the dress in plain or printed silk or rayon with the jacket in faille, bengaline or sheer wool; embroidered linen with the jacket of solid linen in the same shade; novelty printed cotton with pique; sheer wool or jersey with silk linen or faille. From these corresponding body measurements select the one size best for you.

Size	Bust	Waist	Hips	Length
10	34	24	36	36 1/2 inches
12	36	26	38	37 1/2 "
14	38 1/2	28 1/2	40 1/2	38 1/2 "
16	40 1/2	30 1/2	42 1/2	39 1/2 "
18	42 1/2	32 1/2	44 1/2	40 1/2 "

*From Nape of Neck to Waist.

Size 12 requires 2½ yards of 36-inch fabric for dress; 1½ yards of 36-inch fabric for jacket.

To order Pattern No. N-1341, state size, send \$1.00. Add 25c for first class postage and special handling. For Pattern Books No. 17 and No. 18, send \$1.00 for each.

Address SPADEA, Box 535, G.P.O., Dept. B-3, New York 1, N.Y.

WMS To Serve At Conference

Women of the WMS will assist with refreshments for the workers' conference slated to meet at the First Baptist Church, July 10. This was planned at a meeting of the WMS Monday evening at the church.

The group met for Royal Service, with the program presented by members of the Christine Coffee Circle on the theme, "To Millions Dying in Their Sins."

Mrs. George S. Thomas brought a devotion, interspersing her discussion with appropriate songs; others participating in the program were Mrs. C. T. Clay, Mrs. W. B. Younger, Mrs. T. B. Atkins, Mrs. J. P. Dodge and Mrs. M. F. Ray. Mrs. T. K. Price directed the presentation.

Mrs. B. T. Faulkner offered the prayer for missionaries listed on the birthday calendar. Introduced as a new member was Mrs. Lloyd Harp. Mrs. Bill Taylor of Abilene was present as a guest.

Dismissal prayer was by Mrs. Clyde Angel.

Debbie Wagnon Is A Talent Winner

A song and dance routine Tuesday evening in Muleshoe won fifth place for Debbie Wagnon, who presented a song, "Beatnik Cats," with a tap dance.

Debbie, seven-year-old daughter of Mr. and Mrs. J. Pat Wagnon 2305 Marshall Drive, was sponsored by the Muleshoe Study Club.

The award brought a prize of \$25 to the youngster, who was competing with 39 other contestants. The Wagnons are former residents of Muleshoe.

Lomax HD Club Sponsors Picnic

About 18 families attended the community picnic Tuesday evening at the Lomax Community Center, which was sponsored by the Lomax Home Demonstration Club.

Basket lunches were served, and games and fireworks entertained the youngsters. Games of 42 were the evening diversion for adults.

The group discussed the possibility of an ice cream supper for the community to be scheduled before the beginning of school. Plans for the event will be completed later.

Miss O'Neill Is Beauty Chaperone

ATLANTIC CITY, N. J. (AP)—Peggy O'Neill is a tiny, lively, fortyish blonde who practices an almost-vanished profession. She's a chaperone.

Her charge for each of the past six years has been a talented young beauty who is one of the best-known girls in the world—Miss America.

But the job of chaperoning, like almost everything else, has changed since the days of long ago.

"For one thing, Mrs. O'Neill finds no need to spend her time fending off would-be Casanovas along the 100,000-mile route she and Miss America travel annually.

"Of course, the girls have a lot to do with that," she says. "But I think, too, that there is great respect for the Miss America Pageant throughout the nation. It's just a problem that never seems to come up."

"Sometimes it's harder to arrange for an escort than it would be otherwise, if anything," interjects the 1961 Miss America, Nancy Anne Fleming of Montague, Mich., with a rueful smile.

The official term isn't chaperone nowadays—it's public relations representative of the Miss America Pageant and traveling companion to Miss America. But it still translates "chaperone."

Mrs. O'Neill and Miss America are together almost every minute of every day for 11 months of each year. The only exception is February, when Mrs. O'Neill takes a month's vacation. Miss America goes on a fashion tour then, ac-

companied by a representative of a sponsoring textile firm.

Don't two women spending so much time together get on each other's nerves, especially with the exhausting schedule followed by Miss America?

Mrs. O'Neill, who has traveled with every Miss America since Sharon Kay Ritchie won the title in 1955, insists the answer is "no." The 1961 Miss America agrees.

"Both of us have many of the same interests," Mrs. O'Neill says. She points to a plastic bag full of needles, pins and thread.

"For instance, Nancy and I are always sewing."

"And when we really feel the need to be alone for a while, we find we can isolate ourselves just by sitting in different corners of the room," Nancy adds.

No-Run Nylons? Not Soon The Makers Say

NEW YORK (AP)—Bless a bare-legged summertime for stretching your clothing budget, for the high cost of keeping your legs in sheer nylons will be with you for some time.

Although it would surely be a

hit, a no-run sheer seamless stocking is no where in sight, says Jack Townsend, market representative for the world's largest producer of nylon fibers.

His company makes threads that shed soil, water, wrinkles, even radiation; stretch and insulate; imitate sheep and silk worms; and remember to stay creased, wrinkled and pleated after washing.

Yet the closest that the fiber researchers, or the hosiery industry as a whole, can come to a perfect no-run nylon is a 30 denier, mesh, full fashion. And this fails to score. The majority of women (78 per cent) are fashion slaves to 15 denier, seamless.

SHEER CONSCIOUS

"These are twice as sheer as those scarce nylons that women like to brag about having worn for months during World War II," Townsend says. "Today they resist buying any hosiery that even looks heavy in the box, like mesh, although it may appear to be very sheer on the leg."

Mesh is knit into a variety of tiny patterns, that in a heavier weave may develop holes but does not run.

Full fashioned stockings are knit flat and shaped to fit the leg. The seam reinforces. The contour eliminates sag at the ankles, which cuts down on snags, claims the nylon representative.

Choosing the proper length and foot fit; avoiding snags from rings, nails, toenails, shoe linings and furniture; and guarding against cigarette ashes are the best

Sauce For Lamb

To make a delicious sauce for roast lamb, combine equal parts of water and distilled white vinegar; heat. Add sugar and chopped mint leaves to taste and allow to stand about half an hour so the mint flavor will develop.

For Dessert

Mold fruit-flavored gelatin in a ring mold; turn out when chilled and set. Fill center with a combination of diced fresh fruit. Serve with whipped cream (sweetened and flavored with vanilla) for a delicious dessert. Weight-watchers can enjoy without the cream!

Club To Meet

The Eveready Civic and Arts Club will meet this evening in the home of Mrs. Edith Grider, 308 NW 7th, at 8 o'clock.

Chaperones Miss America

Hoffa To Test Dues Hike Plans

MIAMI BEACH, Fla. (AP) — James R. Hoffa faced a Teamsters convention showdown today on a dues hike proposal, distasteful to many delegates and considered possibly illegal by some of his own attorneys.

The dues issue is regarded as the toughest to ram through the special convention out of a batch of proposals that range from a fat salary boost for Hoffa to a broad extension of his already substantial union control.

Hoffa wants a convention vote to require every Teamsters local to boost member dues, no matter what they may be now, by \$1 a month. Sixty cents of that amount would go to Hoffa's headquarters, boosting the national union's annual revenue to about \$20 million from about \$8 million now.

The difficulty, as pointed out privately by some of Hoffa's own legal experts, is that the Landrum-Griffin law—passed by Congress two years ago after labor racket scandals—requires that locals must hold secret ballot elections to get rank and file member approval before raising dues.

This may leave a loophole letting national union conventions raise local union dues, as Hoffa is "trying to do."

By way of being prepared, however, for any court challenge, the dues hike proposal provides that the increase will not go into effect in event it "cannot be effectuated." Locals threatened with legal protests reportedly will be encouraged to conduct ratifying votes.

Hoffa's tight rein over the 2,000 delegates seemed sure to win approval for his entire program. By way of insurance, he proposed and obtained speedy approval Tuesday for a new pension program for local union officials and staff employees, many of whom are accredited delegates.

Hoffa told newsmen he considered his proposed pay raise from \$50,000 to \$75,000 a year is justified. He said many corporation executives get more, plus stock options and bonuses, without half so much work to do.

Milton J. Liss, Hoffa's only announced opponent for the Teamsters presidency, meanwhile proposed a secret ballot election among the union's 1.7 million members next December instead of an open recall vote now among convention delegates.

Hoffa said Liss' plan would be put up to the delegates but indicated it would not get far.

Modern Fad Splits Seams

LEXINGTON, Ky. (AP)—Night after night some of the boys at Kentucky Village asked their supervisor for needle and thread.

The supervisor was puzzled why so many boys had rips in the leg seams of their blue jeans. Then he learned the reason: The jeans simply were not tight enough to conform to teen-age standards of proper dress.

Now the boys have lost interest in mending. Officials at the home for delinquents have ordered the jeans sent to the girls' sewing class for modernizing alterations.

EARL GUNN

C-City Lodge Installs Officers

COLORADO CITY — Earl Gunn was installed as Worshipful Master of Mitchell County Lodge 563 in an open ceremony last week at Colorado City.

Gunn has been in Colorado City for 10 years and served on the police force for about five years. He is 33, married, and has six children.

Other elected officials installed were: B. D. Mason, senior warden; E. A. Landry, junior warden; Gus D. Chesney, treasurer; E. J. Moeser, secretary; and Tom Terry, tiler.

Appointive officials installed were: Guy C. Burson, senior deacon; Finis May, junior deacon; Rev. C. E. Cogswell, chaplain; Ben Elliott, senior steward; and Wayland Webb, junior steward.

Ad Man Dies In Gun Fight With Police

WESTPORT, Conn. (AP) — A young advertising agency employee walked into police headquarters Tuesday and started a gun battle with police a short time after his father was shot to death. He was injured critically by police bullets.

The gun play between Brendan McLaughlin, 26, an ex-Marine and former art student, and the police took place a short distance from the house where McLaughlin's father, 70, lay dead with five bullet wounds.

"Brendan just lost his mind," Mrs. Eugene McLaughlin said later of her son.

Police said McLaughlin began firing at two officers in the station, wounding patrolman Donald Bennette, 26, in the hip.

He then aimed his .45 pistol at desk officer Andrew Chapo, 35, who said "Don't be a fool. Put that gun down," making sure that his words carried over the police radio transmitter.

McLaughlin turned and fled with Chapo and the wounded Bennette in pursuit. McLaughlin was trapped outside in the police parking lot as cruisers, alerted by Chapo's words over the radio, converged on the station.

In the gunfight which followed, McLaughlin was felled by bullets in the stomach and chest. Chapo was hit in the hip.

The body of Eugene McLaughlin, a retired industrial engineer, was found by a police officer checking neighbors' reports of gun-fire coming from the house. The neighbors told police they saw the younger McLaughlin running from the house shortly after they heard the shots.

Eichmann Claims Credit For Trucks-For-Lives Plan

JERUSALEM (AP) — Adolf Eichmann made the startling claim on the witness stand today that he—and not Heinrich Himmler—devised the macabre plan to trade the lives of a million Jews for trucks badly needed by the Nazi armies in 1944.

The former Gestapo lieutenant colonel said he conceived the idea in Budapest and chose Jewish leader Yoel Brand to fly to Palestine to try to get the Jewish Agency to negotiate with the Western Allies.

But Eichmann denied he ever told Brand he would "still the death mills of Auschwitz" or would start them up again if the bargain collapsed, as Brand testified earlier in Eichmann's trial.

"I never made such a remark. To still the mills of death or to start them up was beyond the realm of my jurisdiction," the defendant declared.

Eichmann today told his own story of his role in Hungary, where he is charged with personally supervising the deportation of 600,000 Jews to their doom. He is indicted by Israel as the main-spring of the whole mass slaughter of European Jewry in his wartime job as last of the "Jewish affairs" in the Gestapo.

Defense counsel Robert Servatius gave Eichmann full rein to describe his Hungarian experience—the chapter of the extermination story that forms a key-stone of Israel's case. Eichmann responded with fervor, his hands shaking in excitement. Repeatedly the court had to admonish him to stop so the interpreters could catch up.

The defendant's own view of his job in Hungary was in direct contrast to the evidence submitted by

Israel. He did admit "helping" to draw up "travel charts and timetables" for mass-deportations ordered by Himmler but contended the main responsibility lay with Nazi Ambassador Edmund Veesenmayer and SS Police Chief Otto Winkelmann.

Aside from that, Eichmann said he was still an "emigration" officer, even though emigration had been totally banned by that time.

He said he had so little to do when he first got to Budapest in March 1944 that he couldn't even keep his typists busy. With an embarrassed grin, he said his kommando consisted "only" of 15 to 20 persons.

Then he laced into a former colleague, SS Col. Kurt Becher, accusing him of negotiating emigration of Jews in exchange for money and equipment in violation of all of Himmler's directives.

President's Return Expected To Speed Berlin Defense Plan

WASHINGTON (AP) — President Kennedy's return to Washington today was expected to bring a speed-up in U.S. planning of new moves to counter Soviet threats against West Berlin.

Possible steps include sending one or more Army divisions to reinforce the five divisions of U.S. troops already serving with NATO forces in Germany. Some sea and air forces may be deployed. A wide range of other actions is under consideration.

Development of detailed plans was ordered by the President last week before he left for his July 4 holiday at Hyannis Port, Mass. One of the tasks awaiting him on his return to the capital was the review of the progress of this work. Some plans are expected to be ready for consideration by the National Security Council.

Officials said that the United States probably will send a note to Moscow by the end of the week reasserting allied rights to maintain a military garrison in West Berlin and to keep open supply routes to the city across East German territory. France, Britain and West Germany are due to send similar messages.

The Western notes, informants said, will add up to a new round of warnings to Soviet Premier Khrushchev against underestimating allied determination to defend West Berlin and its access routes.

U.S. officials are uncertain whether the developing conflict over Berlin will lead later this year to a serious danger of nuclear war. The more widely held view appears to be that Khrushchev would prefer to negotiate

rather than to force a military showdown.

The Soviet premier wants the United States, Britain and France to pull out of West Berlin and permit it to become a "free city" under some kind of international guarantee. The Western Powers repeatedly have rejected his proposals on the ground that any change in the status of Berlin would be a step in the direction of eventual Communist domination.

Khrushchev has declared he will sign a separate peace treaty with Communist East Germany near the end of the year. In his view the treaty would give East Germany control of the Berlin supply lines.

Despite the tension which has been growing over this issue since Kennedy and Khrushchev stated their conflicting positions to each other at Vienna a month ago, the two men so far have maintained a relatively cordial tone in their relationships.

The latest instance of their mutual politeness came in connection with the Fourth of July celebration. Khrushchev sent Kennedy a message congratulating the United States on its independence anniversary and expressing hope for "joint efforts aimed at a speedy solution of long outstanding problems."

Khrushchev also said that the two great powers carry "an enormous share of the responsibility for the preservation of peace, for the future of humanity."

Kennedy thanked Khrushchev for his greeting and agreed that "a special responsibility at this time rests upon the Soviet Union and the United States."

Senator Urges U.N. Monitor Nuclear Tests

WASHINGTON (AP)—The United Nations should be invited to monitor and inspect a limited program of U.S. underground nuclear tests for peaceful purposes, Sen. Hubert H. Humphrey, D-Minn., suggested today.

He also proposed turning over to the United Nations the data and results of such tests.

Humphrey, assistant Senate Democratic leader and chairman of the Senate Disarmament subcommittee, said in a statement that U.N. inspection of the tests would give the Soviet Union "a clear alternative to the impasse which now exists in the test ban negotiations."

"Its delegates may vote to join this project of testing for peaceful purposes or face the censure of world opinion by voting against our resolution," Humphrey said.

Humphrey stressed he was not suggesting a resumption of military nuclear tests.

He urged President Kennedy to direct the U.S. delegation to sponsor a resolution in the coming session of the General Assembly advocating establishment of a U.N. control system for the American testing program.

"There can be no workable treaty for a test ban until we have developed effective methods to detect underground nuclear explosions. Such methods can be perfected only through a responsible, research program which includes underground nuclear testing," Humphrey said.

He described the Geneva test ban negotiations as "hopelessly bogged down."

The Geneva impasse stems from Soviet insistence that a three-man executive board run any test ban inspection machinery. The Western Powers have not agreed, since the proposed directorate would give the Soviets a veto over the whole policing system.

Several congressional leaders have expressed fears that the Soviets might be conducting sneak tests.

Rep. Chet Holifield, D-Calif., said Tuesday in a taped interview that there have been no major improvements recently in the equipment used to detect atomic explosions.

Holifield, chairman of the Senate-Atomic Energy Committee, urged Kennedy to take steps to make the public acutely aware that "we do not have a defense against atomic attack at this time."

Webb Reports Safe Holiday

Not even so much as a sunburn was reported Tuesday at Webb as the base marked a holiday period outstanding for its safety record.

Wing Commander Donald W. Eisenhart noted with pleasure that the base safety campaign paid off with an accident-free holiday and "all personnel observed safety practices and made our campaign a success."

An estimated 5,000 were on hand for the fireworks display Tuesday evening. This hour-long show was put on by T. Sgt. George H. Schweikard and S. Sgt. Warren Hannadass, of the Explosive Ordnance Disposal Section.

All holiday activities at the base had good participation with capacity crowds. Dances were docked at the Officer's Club, NCO Club, and the Youth Center.

At the close of the day, the base hospital reported no injuries treated, even of a minor nature, including sunburns.

FOR BEST RESULTS USE HERALD WANT-ADS

Business sits for its portrait

An advertisement, or a series of advertisements, is more than anything else a picture of the business that signs it. From its very tone, you know what kind of people will back . . . or back away from . . . its claims.

The personality of the advertiser peers through the lines of his "copy," and from experience you learn to trust such advertisers. They lead you to values instead of leading you astray. They want your business, of course, but they want your confidence and friendship, without which your business is like something written on ice and set in the sun.

Advertising, reduced to its simplest terms, is a means of mass communication, bringing you information you should have before opening an account or even a checkbook. It is a beacon for buyers to keep them off the shoals of the shoddy. It is something to be read, heard, and believed!

Film Director To Defy Censors

By BOB THOMAS
AP Movie-TV Writer

LONDON (AP) — Director Leo McCarey, in a censor-defying mood, says he's going to be "the Catholic Otto Preminger."

You'll recall that Preminger did battle with the censors on such films as "The Moon Is Blue," "Man With the Golden Arm" and "Anatomy of a Murder."

McCarey, the man who gave you "Father O'Malley," is the least likely to emulate Preminger. But his Irish is up, and when that happens—watch out.

McCarey is here to film "Satan Never Sleeps," the story of two contending priests — older and younger. Sound familiar? But this one is different from his classic "Going My Way."

The difference is what ran him afoul of the Johnson office, which censors American films no matter where they are made. McCarey explained: "I have a scene in the picture in which a young Red Chinese army officer rapes France Nuyen in front of the priest, played by William Holden. The young Chinese does it to taunt the priest, whose spirit he can't break. The scene isn't played for sensation; the rape is never seen."

"I showed it to Catholic authorities, both in the United States and here. Both approved it. But those jerks in the Johnson office wouldn't allow it."

What is he going to do about it?

"I'm going to shoot the scene as it was written," he said defiantly. "Why should Preminger have a monopoly?"

The theme of "Satan Never Sleeps" is a touchy one. Holden and Clifton Webb play missionaries caught in the Red Chinese sweep. One of the refugees in their charge is France Nuyen, who falls in love with Holden.

Hemingway's Funeral Awaits Arrival Of Son

KETCHUM Idaho (AP) — The family of author Ernest Hemingway today awaited the arrival of his son Patrick from Africa before holding simple graveside services at the public cemetery here.

The family said Patrick had telegraphed he expected to arrive sometime today. On that basis the funeral was tentatively set for 10:30 a.m. Thursday.

The Rev. Robert J. Waldmann, who will officiate at the service, said Hemingway was entitled to burial rites of the Catholic Church although he was not as good a member as some others.

Hemingway was converted to the Catholic faith after his second marriage.

"As far as I know, he did not leave or reject the church officially," Father Waldmann said. The priest said the church did not intend to pass judgment on Hemingway's membership. He said the simple rites were "due to the family's request which we are following."

The priest also said the church accepted the ruling of authorities that Hemingway died Sunday of a "self-inflicted gunshot wound in the head." Officials made no determination of whether the shooting was accidental or otherwise.

Agency Of Depression Era Kept Artists Working

By MILES A. SMITH
Associated Press Arts Editor

NEW YORK (AP) — Twenty-six years ago a good many ditch diggers, artists and other people were unemployed in America. And despite a few cries of "let 'em dig ditches," the artists were given a project of their own to get them out of the depression.

It was called, in case you've forgotten, the Federal Art project. It was part of the WPA—Works Progress Administration — and when it ended in 1948 it had produced nearly 1,000 murals for public buildings, hundreds of sculptures and thousands of easel paintings for tax supported institutions, and many thousands of prints.

It got a subsistence wage to a good many artists who otherwise might have starved. A few of them have become famous and now command prices of several thousand dollars for a canvas, and others have been successful in a less spectacular way. Some have dropped out of sight in other occupations.

Not the least of the Federal Art Project's accomplishments was the establishment of 103 community art centers and the compilation of the Index of American Design.

These echoes of depression days are recalled in an exhibit this summer at the Smolin Gallery. There had been a New York City unit of the FAP, and for nearly two decades thousands of its prints—each stamped "WPA"—had lain in storage and were almost forgotten. Last year they were facing destruction because a building was torn down. Leonard Smolin acquired them.

The New York project's roster —mostly the unemployed, but including a few in staff positions— included such names as Adolf Dehn, Mahonri Young, Joan Sloan, Will Barnet, George Constant, Louis Lozowick and many others. About 130 signatures were on the prints that Smolin acquired, and in many cases there was no answer to the question, "What- ever became of So-and-so?" Many were known to have remained in art work. Of those traced to other occupations, one had become a psychiatrist.

Dehn was in Paris when the exhibit opened, and could not attend. But Barnet was on hand. He is both a painter and a teacher, connected with the Art Students League. Leonard Pytlak also is teaching, as well as creating his own works.

Augustus Peck now is directing the art school at the Brooklyn Museum of Art, and George Miller is teaching there.

Fritz Eichenberg is head of the Pratt Graphic Arts Institute here. Jacob Kainen is curator of prints at the Smithsonian Institution, Washington, and Arthur Heizelman recently retired as curator of prints at the Boston Museum of Fine Arts.

The list could go on. This one unit of the project has a good many substantial "alumni." And across the country there were other units whose prints must have been stashed away somewhere in dusty boxes.

Employment Up In June

There were 13.31 per cent fewer applicants for unemployment compensation in June at the Texas Employment Commission office here than there were in May.

Statistics show there were 833 applicants for such assistance in June as compared with 961 in May.

There were 22 less job placements made by the office this past month than in May. The office found work for 217 persons, which was 22 less than in May.

In the entire 38 county district of which the Big Spring office is a unit, the jobless benefit claims dropped to a new low for the year.

C. A. Shoemaker, San Angelo, director of the district, said that claims for unemployment insurance at the end of June stood at 12,248 which is 17.7 per cent under the figure for May. At the same time, he said that job placements in agriculture boosted the district's total from 3,436 to 3,604.

Leathercraft Classes Slated

Beginning this weekend, classes in leathercraft will be conducted at the Webb AFB Youth Center on Saturdays and Sundays from 3 to 5 p.m.

Children over 10 years of age will be eligible to enroll. Instructor will be W. E. Travis of Howard County Junior College.

U.S. Claims Aid For Angolans

LISBON, Portugal (AP) — The American Embassy said Tuesday the U.S. government has given \$335,000 worth of aid to victims of the rebellion in Portugal's West African territory of Angola.

The statement followed a Portuguese denial in Luanda, Angola, that the U.S. government had given such aid.

The charity organization Caritas in Luanda said the U.S. government "had given nothing and had nothing to do with the gift. It came from the American Caritas," the organization said.

The embassy said the U.S. government had supplied the aid sent to Angola and that Caritas had merely handled distribution.
