Dag Killed In African Plane Crash
On Way To Truce Talks In Katanga

Secretary-General's Death
Is Major Blow To The U.N.

DAG HAMMARSKJOLD
He found a final peace

NDOLA, Northern Rhodesia (AP) — Rhodesian officials reported that Dag Hammarskjold died today in the crash of a plane carrying the U.N. Secretary-General on a mission to seek peace in the Congo.
The slight, sandy-haired Secretary-General of the United Nations, 56, was flying from Leopoldville for truce talks at this Northern Rhodesian copper mining center with President Moïse Tshombe of secessionist Katanga.
Rhodesian authorities said the wreckage of his plane — a DC6B shot up by Katanga rebels Friday, but subsequently repaired — was found in the bush country at the Congo-Rhodesian border. They said his body was definitely identified.
There were nine other persons aboard the plane, including five crewmen. No sign of survivors was reported here.
The plane was the object of a widespread search by U.N., British, American and Rhodesian aircraft for more than 15 hours. At midnight it checked in over the Ndola Airport for a landing and then mysteriously vanished. It had been given clearance to land, then radio contact was lost.
This was the most tragic blow of its kind to the U.N.
This was the most tragic executive staff since Count Folke Bernadotte, Palestine truce commissioner, was shot dead on a Jerusalem street 13 years ago — Sept. 17, 1948.
Bernadotte, like Hammarskjold, was Swedish.
The plane crashed between Ndola and Mululira, a copper mining and smelting center near the Katanga frontier 40 miles northwest of Ndola. This suggested that Hammarskjold's Swedish pilot, a captain Hallonquist, had for some reason circled back.
Reports from the scene said the plane plowed up trees in the line of its fatal descent.
Hammarskjold's plane got landing clearance at Ndola at 12:12 a.m. (6:12 p.m. EST Sunday), then vanished.
Dense bush country around this copper mining center on Katanga's border was combed for clues to the reason. The weather was good.
U.N. headquarters in Leopoldville mobilized U.N. planes and two Air Congo craft for the search. Rhodesians sent a jet Canberra and a light trainer aloft. British Royal Air Force planes were alerted to fly in from East Africa. Three long range U.S. planes helped out.
The search area covered dense forest and bushland, with large patches of swamp which dry out at this time of year. In daylight these dried swamps would make an ideal forced landing ground, airmen said, but they added that any such landing would be virtually impossible at night.
Shortly before noon Tshombe and three African advisers left Ndola in a motor convoy heading north to the Katanga border. Tshombe conferred here with British and Rhodesian officials and apparently gave up the projected meeting with Hammarskjold.
WRONG REPORT
Erroneous reports Sunday said Hammarskjold had in fact arrived and met with Tshombe at the police-guarded Ndola control tower to open cease-fire talks. But it developed hours later that the only conferees were Tshombe and British and Rhodesian officials.
The arrival of a plane from Leopoldville that was the basis for these reports, it developed, carried not the secretary general but Lord Lansdowne, British undersecretary of state for foreign affairs.
Hammarskjold's plane was the unarmed Albatross used by Lt. Gen. Sean McKewen, Irish commander of U.N. troops in the Congo. (See DAG, Page 2-A, Col. 5)

LOSES IRON GRIP ON W. GERMANY

Adenauer Rejects Socialist Coalition

BONN, Germany (AP) — Chancellor Konrad Adenauer, deprived by Sunday's parliamentary elections of the majority which permitted him to rule Germany with an iron hand for 12 years, rejected today any thought of coalition with the powerful Socialists.
The 55-year-old chancellor, his commanding authority now in doubt, told a news conference it is essential that his foreign policy be continued in the light of the current deep world crisis over Berlin, regardless of the structure of the new government.
Adenauer left open the question of who would be the next chancellor. But, asked whether his Christian Democrats would work in coalition with the free Democrats, now holding the balance of power, the aged chancellor replied "we have worked together with the Free Democratic party before."
Both West Berlin Mayor Willy Brandt's Socialists and the Free Democrats oppose Adenauer re-

maining as chancellor, and say they will reject a coalition until the chancellor retires. That can mean his successor will be popular Ludwig Erhard, an economic expert whose free enterprise policies helped West Germany become a powerful industrial nation.
Adenauer's Christian Democrats lost 5 per cent of their popular support and about 40 seats in the new 497-member Parliament (Bundstag) which holds its first meeting Oct. 17. Adenauer remains in office until then. The next chancellor will be chosen by majority vote of the new parliament.
West Germany remains firmly in the western camp. At most the election result could mean minor differences in outlook on the approach to the cold war struggle.
Adenauer was embittered and angered by his election setback. He blamed much of it on the role of radio and television in the campaign.
If the Christian Democrats and Free Democrats join in forming a new government, there could be some minor changes in foreign policy, but little change do-

mestically.
The Free Democrats see West Germany as caught between East and West. They believe the country should remain bound to the Western alliance, but at the same time favor feelers toward the Communist world.
In any case, the new government will have to make quick decisions in foreign policy. Critical Western decisions have been held up by the uncertainty of the outcome of the election.
It has been no secret that the United States, Britain and France did not wish to do anything about Germany's future that would jeopardize Adenauer's chances.
Anxiety about the Berlin situation—and perhaps some lack of confidence in Adenauer himself—may have accounted for the popular switch from the Christian Democrats.
Brandt won many friends by his strong stand when the Soviets ran a wall through Berlin Aug. 13. The Free Democrats also may have won votes from Germans who feel negotiating with the Soviets is the only way to avoid nuclear war. Brandt said the losers of

the election were the right-wing splinter parties, the neutralist German Peace Union and the Christian Democratic Union.
If a coalition does not come about, Brandt said he would continue to serve as mayor of West Berlin.
Adenauer's party will likely wind up in the new Parliament with 241 seats, compared to 281 they held in the outgoing assembly. Preliminary officials result from the complicated election procedure indicated that the Socialists would have 190 compared to 168 in the old legislature.
The Free Democrats were expected to get 66 seats, compared to 43 before. Five seats formerly held by independents and splinter parties were absorbed by the three major parties.

STORM AID GIFTS MOUNT

Gifts to the American Red Cross for its work in aiding victims of Hurricane Carla mounted to \$310 today. In addition to those already acknowledged, checks were received from:
Agnes Currie \$10, Elsie Willis \$20, Frank W. Miller \$25, L. David A. Hettinger \$10, and Emma L. Baker \$15.
Those who wish to help in this gigantic undertaking of restoring the coastal area devastated by the storm may send checks made to the Red Cross — either to Box 626, or to The Herald for prompt acknowledgment. The money will go directly to the storm relief activity.

Lion Plans Bright Prowl

Blinky the Lion is going on the prowl here this evening. Blinky is the symbol for the Downtown Lions annual light bulb sale through which the club hopes to brighten the life of the blind and those with visual difficulties, and to spread cheer to crippled children.
Proceeds from the sale go to these causes plus other welfare and community improvement projects.
More than four score Lions are expected to begin knocking on doors shortly after 5 p.m. and will continue working until about 8:30 p.m.
The sales program will continue Tuesday and Wednesday as members press to place all 1,300 sacks of the bulbs.
The assortment of bulbs, offered by the Lions to sell at \$2 a bag, are in sizes found to be most adaptable for the average family.
Wesley Deutz, general chairman of the project, urged Lions to call at the Cloverbowl building on US 87 south for their supplies. He also urged residents to welcome the salesmen and be as liberal as possible in their purchases.

Panel Hears FM Requests

AUSTIN (AP) — The Highway Commission today heard a Pecos County request for a new farm to market road from U. S. 290 west of Fort Stockton to Belding, 8.9 miles.
The road would begin seven miles west of Fort Stockton. Estimated cost is \$268,000, including a new 250-foot bridge. County Commissioner R. L. Moody said farmers in the area have volunteered the right of way.
"We feel like we are not asking for the moon," Moody said. "We are asking for something we need." He pointed out that in an area that used to be "just mesquite trees and rattle snakes" large cotton farms now flourish.
Highway Commissioner Herb Peery of Carizsa Springs said the Pecos County Commissioners Court should adopt a resolution "as the best proof that cooperation has materialized" regarding the road.
The commission also held a hearing on unspecified highway matters in Smith County (Tyler).
The hearing docket said the Smith County commissioners have authorized issuance of \$2.5 million in time warrants to secure necessary right of way and for rural road improvement.
"It is the desire of the court to urge the Highway Commission to join with the court in appropriating and matching funds for the purchase of right of way. It is understood that they will discuss this as well as other highway matters in the county," the docket said.
Johnson County requested extension of Farm to Market road 918, 3.5 miles, at an estimated cost of \$158,000. The road would run from the present end of Farm 916, southwest to Klondike.

76 More Enrolled

Seventy-six students were added to enrollment in the Big Spring Independent School District last week bringing the figure to an all-time high of 7,076 Friday, according to Sam M. Anderson, superintendent.
There were 7,000 pupils registered Sept. 8, compared to 6,900 on the comparable school day a year ago. Friday the figure was 112 above 1960.
Taking a jump which was not anticipated was Cedar Crest Elementary where 27 pupils registered for a total of 227. Other schools showing a gain were Bauer, up nine to 476, and the Senior High School, up nine to 1,046 students.
Elementary schools had a total of 4,201 students, secondary schools had 2,749 and special education had 126 enrolled.

End Of The Trail

Konrad Adenauer, left, who sought re-election as West German chancellor, and his opponent, Willy Brandt, Socialist mayor of West Berlin, are shown at separate news conferences in Bonn as they ended their campaigns.

British Troops To Leave Kuwait

BAHRAIN (AP) — British military headquarters here announced the first British troops will leave Kuwait Tuesday — and the remainder will be withdrawn progressively in agreement with the Kuwait authorities.
The British troops were sent to Kuwait when Iraq laid claim to the sheikdom and its oil riches. Various Arab states are now sending troops to Kuwait to replace the British and guard the little nation from aggression.

Tollett In 22nd Term As Cosden Stockholders Elect

Cosden Petroleum Corporation's stockholders today elected the management slate of directors, who in turn named Raymond L. Tollett to his 22nd term as president of the company.
A depressed gasoline market has dampened prospects for the immediate future, Tollett told stockholders in an informal chat following the formal business session.
Since the beginning of the fiscal year, when the outlook generally was good, gasoline prices have skidded nearly 20 per cent. Although Cosden enjoys considerable volume through diversification in petrochemicals, it is still geared primarily to fuels. Hence, until there is more stability in the gasoline market, the prospect for fair return is dimmed, Tollett explained.
BRIGHT SPOTS
He did see some bright spots, however. The recession is confined largely to the petroleum industry and Tollett predicted that it will be relatively short-lived. In time, he believed, the surplus of gasoline stocks will be bled off. Cosden's production of petro-

chemicals fortunately is somewhat offsetting the depressed gasoline market. Here again, Cosden is heavily committed to polystyrene, which currently enjoys a strong market. In fact, some other major suppliers of polystyrene recently raised prices one cent a pound.
Reporting for the proxy committee, Merle J. Stewart and Clyde Hollingsworth of Big Spring reported 2,624,584 shares, or 93.67 per cent of the outstanding shares, represented. Lyle Spores, Fort Worth, who traditionally performs this function, moved the election of the director slate, which was unanimously accomplished.
INCLUDED
Included are George W. Blackwood, president of Dewey and Almy Chemical division of W. R. Grace & Company; William F. Gage, president of the research division of W. R. Grace & Company; D. Walter Robbins Jr., vice president of W. R. Grace & Company; Raymond L. Tollett and Marvin M. Miller, Big Spring; and Nelson Phillips Jr., Dallas. W. R. Grace & Co. owns approximately

53 per cent of Cosden's common stock.
In the organization meeting by the board, officers re-elected included Tollett as president; Marvin M. Miller, senior vice president, producing division; Dan M. Krause, senior vice president, refining and chemical division; E. K. Dodson, vice president, exploration and assistant secretary; L. M. Thompson, vice president-production; R. W. Thompson, vice president-pipeline and supplies; Richard M. Johnson, vice president-sales; Douglas L. Orme, vice president-traffic; Nelson Phillips Jr., vice president and general counsel; Joe A. Moss, secretary and assistant general counsel; L. T. King, treasurer; V. A. Whittington, assistant secretary and assistant treasurer; R. O. Satterwhite, assistant treasurer; Alma C. Gollnick, assistant secretary; Helen D. Green, assistant secretary.
Commenting on Cosden operations, Tollett observed that the company is now an important supplier of petrochemicals, not only in the intermediates but in

the moulding compounds. Petrochemicals will become more important, he predicted. Cosden has developed some "unique and almost singular processes" which not only have lowered costs but which have returned something like \$375,000 to the company in licenses. Ultimately returns from the patented processes will touch the million dollar level, Tollett predicted.
Exploration has been looking up, he said, noting that since the beginning of the fiscal year Cosden has added something over two million dollars worth of reserves. He wryly observed that this end of the business is influenced by luck, "which, alas, can be had as well as good."
He paused to pay tribute to the people who make up the Cosden family and spoke of good relations with local No. 828 of the International Union of Operating Engineers.
"We have good workers," he said, "and all our foremen, who have come up from our own ranks, have an understanding feeling for our workers."

BIBLE FUND NEARLY FULL

A weekend surge of support for the Bible Fund pushed the total to within reach of success Monday.
Contributions brought in \$282, one of the better days of the campaign, and brought to \$3,191.19 the amount so far raised. The goal is \$3,500, and if you can help push the fund over the top, please send your gift to the Herald. The Elizabeth McDowell Class of the First Presbyterian Church sent in a second gift. Mr. and Mrs. Charlie Lawrence, Weatherford, remembered their home town generously.
Latest donors include:
Elizabeth McDowell Class, \$16.00
Friendship Class, 10.00
Leach-Oldham Oil Co., 10.00
First Assembly of God, CA's, 10.00
1st Sgt. and Mrs. John R. Kay, 10.00
Questas Class, First Methodist, 25.00
Bykota Class, First Baptist, 35.00
Anonymous, 5.00
Sig Rogers Family, 10.00
Mr. and Mrs. Charles Lawrence, 100.00
Emma L. Baber, 10.00
Anonymous, 5.00
Mike and Sue Bearden, 5.00
Loyalty Class, Baptist Temple, 10.00
Pioneer Bible Class, Nazarene Church, 20.00
Pre. acknowledged, \$2,911.19
TOTAL, \$3,191.19

Scenic Mountain Wreck Hurts Man

Kenneth Ray Dossey, 26, Lamesa, was slightly injured and his 1958 car was demolished early Sunday morning when he lost control of the vehicle and it left the road on Scenic Mountain.
Jimmy Parks, highway patrol officer, said the accident occurred a mile from the entrance of the park at the first turn on the south side of the mountain. The car left the road and crashed into two huge boulders.
It turned over and flipped Dossey out. He landed in a patch of prickly pear. He was taken to the Copper Hospital.

WOUNDED IN KATANGA FIGHTING
A Red Cross driver is carried to a car after he was shot in Elisabethville

Herb Helbig Is New County Agent

William H. (Herb) Helbig, assistant county agent at Littlefield, will succeed Jimmy Taylor, as Howard County farm agent, effective soon after Oct. 1.
Ed Carpenter, county judge, announced the appointment of the Littlefield man Monday morning. Helbig has resigned as county agent to become associated with the First National Bank as farm and ranch representative. He has asked to be relieved of his duties by Oct. 1.
Helbig, accompanied by W. H. Jones, district extension agent, Lubbock, is in Big Spring today. They met with the county commissioners court and conferred with Taylor.
Helbig is a native of Uvalde County. He spent his boyhood on a farm, later enrolling in Texas A&M College where he received a degree in animal husbandry in 1954.
He served as assistant agent in

Coleman County for 36 months, leaving that post to enter the armed forces where he remained for two years. On his discharge, he took the post in Littlefield where he will have served four years in December.
He is married and he and Mrs. Taylor have a 4-year-old son. They are expecting another child soon and the arrival of this addition to the family will determine to a considerable degree just when the Helbigs will come to Big Spring.
"I will definitely be on the job sometime between Oct. 1 and Oct. 15," he said.
Helbig will locate a house here and plans on buying a home when he and his family have time to look around.
Jones said that Helbig has an exceptionally fine record with the extension department and his experience in ranching and West Texas farming qualifies him for work in this county.

NEWS BRIEFS

LEOPOLDVILLE, The Congo (AP)—Owners of the plane which carried Dag Hammarskjold said today they are trying to find out whether the DC6B may have been shot down by a jet fighter from Katanga.
WASHINGTON (AP)—Radio activity attributed to Russia's nuclear testing in the atmosphere has reached levels in 13 states which would comprise a health hazard if maintained over a long period of time, Secretary of Welfare Abraham Ribicoff said today.
WASHINGTON (AP)—The House passed and sent to President Kennedy today a bill extending two school aid programs for two years. It was the merest token of the ambitious school program Kennedy had sought.
WASHINGTON (AP)—The Russians fired another nuclear blast today, the 13th in the current Soviet series, the Atomic Energy Commission announced.
CHICAGO (AP)—An airliner crash here took the lives of 37 people. All who were aboard the craft died. (See full text on page 2-A).
MIAMI, Fla. (AP)—Severe Hurricane Esther continued west-northwest in the Atlantic today and forecasters said the Atlantic seaboard should keep very close watch on future advisories.
TOKYO (AP)—Typhoon Nancy was blowing itself out in the North Pacific today after cutting a swath of death and destruction across Japan.
The human toll rose to 175 dead, 18 missing, 3,186 injured and more than 600,000 homeless. Crop damage was estimated at \$130 million and property loss at another \$100 million.
The storm struck a blow at the Japanese economy and the price of fish in Tokyo, which escaped the brunt of the wind, rose 20 per cent.

JFK Must Decide On U.N. Address

WASHINGTON (AP) — President Kennedy returned to the White House today after another weekend at his Hyannis Port, Mass., summer home. Mrs. Kennedy, who had spent several weeks at the Cape Cod home, accompanied him.

Facing the Chief Executive was a decision on whether he will address the United Nations General Assembly on the critical world situation. He may make the decision later today.

A hint came Sunday from India's Prime Minister Nehru that Kennedy will lay a plan for complete disarmament before the United Nations, sessions open in New York today.

Kennedy revealed Friday that the United States has in the final drafting stage "a comprehensive plan for general and complete disarmament." This shortly can be presented publicly, he said.

It could not be learned immediately from White House officials who accompanied the President on a weekend visit with his family at Cape Cod home whether Kennedy proposed to make the United Nations the forum for un-

Two Fender Benders

Only two fender bendings were investigated by police from midnight Saturday through Monday at 10:30 a.m. Locations and drivers involved were: Twelfth and Austin, Mark T. Hollis III, 509 E. 18th, and Thomas Willard Neel, 1007 E. 12th; 1708 Purdue, Cheryl Gay Cunningham, 1732 Purdue, and Norman R. Holcombe, owner of parked car.

OIL REPORT

Deep Explorer Staked in Dawson

A deep wildcat was staked in Dawson County and Mitchell County gained a completion in the Westbrook field.

Texaco, Inc. No. 1 F. P. McDougal was projected to 12,500 feet to test the Ellenburger 11 miles south of Lamessa. It is 7 1/2 miles east, southeast of the Patricia (Fusselman) field.

The venture is about 1 1/2 miles southeast of Magnolia No. 1 Foster, a dry hole plugged and abandoned at 11,916 feet Aug. 13, 1961.

In the Westbrook (Clear Fork) field in Mitchell County, Great Expectations Oil Corp. No. 4-A E. T. Strain pumped 67.07 barrels of oil on initial potential. It is 15 miles north of Westbrook.

Gulf No. 1 Turbeville, a Garza County Ellenburger test, recovered sulfur water on drillstem tests of two sections of the Ellenburger. No shows were reported.

A Martin County Silurian prospector, Sunray No. 1 Henson, ran drillstem tests of the Devonian after coring. It recovered only drilling mud. There is no report of what the operator is doing at this time.

Borden

Blair No. 1 Koonsman is perforating the Pennsylvanian between 7,897-905 feet and 8,210-18 feet. It has bottomed at 8,600 feet.

WEATHER

Table with weather forecasts for North Central and Northeast Texas, including temperature ranges and precipitation chances.

Table with temperature records for Big Spring, Chicago, Denver, Fort Worth, New York, St. Louis, and Sun.

RAMUEL MOORE RAIN passed away Saturday at Big Spring. Funeral services Monday at 10 a.m. at Nalley-Pickle Chapel.

J. R. KIRBY, 72, Passed away Sunday. Funeral service Tuesday afternoon at 4 p.m. in Nalley-Pickle chapel.

Advertisement for NALLEY PICKLE Funeral Home, 906 Gregg, Dial AM 4-6331.

Waits For Furniture To Dry. A housewife stands on the front porch of her house at Port O'Connor and surveys her storm damaged furniture and appliances and waits for them to dry out. This fishing town on the Texas Gulf coast bore the brunt of Hurricane Carla.

CHICAGO AIRLINER CRASHES; 37 DIE

CHICAGO (AP)—"No control." These frantic last words from a plunging Northwest Airlines Electra provided a major clue for investigators seeking the cause of a crash Sunday that took 37 lives.

Thirty-two passengers—including a mother and her four young children—and the crew of five died as the Florida-bound flight ended in a muddy field southwest of O'Hare International Airport within a minute after takeoff. There were no survivors.

The Electra crash was the second major air disaster in the Chicago area this month. On Sept. 1 a Trans World Airlines Constellation crashed near suburban Clarendon Hills minutes after its departure from Midway Airport. Seventy-eight persons died in that accident.

The final words from the Northwest plane—"no control"—as it spun to earth from a height estimated variously at 200 to 300 feet were recorded at the O'Hare control tower. Other words from the pilot or copilot of the doomed plane were lost in an overlap from another pilot calling the control tower.

Attempts will be made to separate the messages on the record. "We are going to have the tape examined by the finest analysts in the country," said Najeb Halaby, Federal Aviation Agency administrator, who flew from Washington to direct the investigation.

Allan S. Boyd, chairman of the Civil Aeronautics Board, said that "so far as we know, there were no malfunctions" in the Electra before it crashed. Halaby said: "There is no reason to believe there was any explosion within the aircraft that would be the result of a bomb or sabotage."

The Northwest Airlines flight originated in Milwaukee, Wis. It was bound for Tampa, Fort Lauderdale and Miami, Fla., with a stop at Chicago where it took on 24 passengers. Eight had boarded the plane in Milwaukee.

At 8:56 a.m. EST the big ship took off in perfect weather. A minute later it had crashed, disintegrated and burned.

Alfred M. Coutu, 35, a disabled Korean War veteran and factory worker from Waukegan, Ill., saw go. It had a crew of five and five passengers.

It was given clearance to land 12 minutes after midnight. But then—said a statement issued by Lord Alport, British high commissioner for the Central African Federation—"this plane, on which it was understood Mr. Hammarskjöld was a passenger, passed overhead. Almost immediately afterwards contact ceased. After a normal interval, overdue procedure was put into operation by Ndola Airport authorities."

NO ATTEMPT. Airport officials said Hammarskjöld's plane made no attempt to land although the weather was good and the plane's pilot said nothing to indicate that anything might be wrong.

The pilot reported he was overhead, was given clearance to land, and then seemed to refuse to answer any more questions," one official said.

Tombone arrived here Sunday in a plane escorted by Rhodesian air force planes after the United Nations announced that he had made an approach for truce talks. Forces loyal to the Katanga leader for five days have been fighting U.N. troops attempting to bring the mineral-rich secessionist province under control of the central Congo government in Leopoldville.

Even as the cease-fire talks were scheduled, conflicting reports came of a change in the fighting in the Congo.

The Irish government reported it had received word the besieged 150-man Irish garrison holding out in Jadoville had been overwhelmed by "vastly superior forces" of Katangans.

SUDDEN FLAREUP. McKeown's message Dublin that the Katangans attacked in a sudden flareup of fighting after a temporary truce had been arranged on the Jadoville front.

The Irish had been waging an uphill fight at Jadoville, 60 miles north of the Katanga capital of Elisabethville, against 500 attacking Katangans, including tribal warriors led by white officers.

the tragic crash which killed his wife and four children. Coutu escorted his wife Joyce, 29, and their children, three boys and a girl, all under five, aboard the plane for a flight to Tampa to visit Mrs. Coutu's parents.

Federal aviation officials after a cursory examination of wreckage and witness accounts said the plane probably did not crash because of engine failure, an obvious structural fault or sabotage.

Witnesses said the prop-jet Electra reached an altitude of several hundred feet, then faltered and appeared to lose power. Its right wing dipped almost vertically as it made a right turn, plunging toward the ground. The plane cut through high tension wires, hit a 35-foot high railroad embankment, bounced into the air, then crashed into a pumpkin field just west of the airport.

Of the 32 passengers, 14 were women, 5 children and 13 men. The crew included a pilot, copilot, flight engineer and two stewards.

Directors of Cosden Petroleum Corporation were honored at a dinner party given Sunday evening at the Cosden Country Club by Mr. and Mrs. Raymond Tollett. Occasion was the eve of the company's annual stockholder meeting, and subsequent meeting of the board.

Out of town directors here were William P. Gage, D. Walter Robbins Jr. and Robert P. Russell, all of New York; George W. Blackwood, Cambridge, Mass.; and Nelson Phillips of Dallas. Other directors are Tollett and Marvin M. Miller.

Several score Big Spring people were included in the guest list. A number of out-of-town visitors also were present.

Dr. and Mrs. David A. Woods and John Boles of San Angelo; Mr. and Mrs. Joe Burrell of Midland; Tommy Sheridan, New York City; Emory Kay, Tulsa; Lyle H. Spores, Fort Worth; Mr. and Mrs. R. O. Wilson, Dallas; Bill Roden, Odessa; and R. C. Mann and A. G. Schlossstein, Dallas.

Other guests were Mr. and Mrs. Hans Haberland of West Berlin, Germany, whose son, Dieter, has been a guest of the Cecil Guthries in Big Spring this past summer.

The elder Mr. Haberland is an oil operator in Germany, and he and his wife have been here for several days. They and the son will leave here Tuesday.

(In New York, a U.N. spokesman said McKeown had made no mention of the attack in his report Sunday night but said "it is not impossible that the attack could have occurred." The U.N. spokesman said a relief column battling toward Jadoville had been attacked during the day and there was a possibility of some confusion in the reports).

A 500-man garrison of Irish and Swedish troops also was under heavy pressure at Kamina, the main U.N. military base in the province.

Chemistry Society Plans Meet Here

The Permian Basin section of the American Chemical Society will hold its first fall meeting in Big Spring Thursday.

The dinner will be served at 7:30 p.m. at the Cosden Country Club, where Dr. Joe Dennis, head of the chemistry department of Texas Tech will speak. His subject will be "A Present Day Approach to the Teaching of Organic Chemistry."

Chemistry students from Texas Tech and Sul Ross State College will be represented, and awards will be made to outstanding chemistry students from Sul Ross by Cosden Petroleum Corp., and Phillips Petroleum Corp.

Lyndon Starts 'Copter Tour Of Storm Areas

HOUSTON (AP) — Vice President Lyndon Johnson arrived in Houston today for a first hand air view of the hurricane-damaged Texas coast.

Johnson, along with several Texas congressmen, was met at the Houston airport by Gov. Price Daniel at 8 a.m. and then started a helicopter trip over the stricken area.

Daniel said the group would first see the ship channel area of Houston, fly over the flood damaged towns of Kemah and Seabrook, and then view Texas City and stop briefly at Galveston.

The group then was to fly down the Texas coast over Freeport and stop at Bay City for a meeting of Johnson, Daniel, several state officials and some federal agency officials to discuss federal disaster aid.

At Galveston Johnson was to see the path the hurricane - spawned tornado took across the width of the island, killing six persons. He had a meeting scheduled with Mayor Eddie Schreiber.

Johnson next was to see Texas City, one of the area's hardest hit by the floodwaters. Thousands of homes and businesses were damaged in Texas City.

Nearby, along the shore across area of Galveston Bay, Johnson and the group were to visit the remains of the yacht fleet at the Kemah, Clear Lake, Houston and Lakewood Yacht Clubs.

When the three 12-passenger helicopters land in Bay City, damage - broken telephone poles, smashed billboards, unroofed houses - will still be visible.

From Bay City the group's schedule is to send them along the lower coast to Corpus Christi. Damaged crops, destroyed farm buildings and stricken cattle herds can be seen all along the coast.

The Congressmen on the trip were to include Jim Wright of Fort Worth, Clark Thompson of Galveston, John Young of Corpus Christi, and Albert Thomas and Bob Casey of Houston.

Several federal agency officials and Gen. Alfred Gruenther, head of the American Red Cross were to accompany them.

Johnson's plans call for him to return to Washington from Corpus Christi tonight.

Short Moved To Houston

Maj. Robert L. Short, commander of the Big Spring Salvation Army Post, is in Houston assisting with relief work as victims try to salvage what is left in the aftermath of Hurricane Carla. He worked in Victoria last week and then was transferred to Houston.

The second van of donations left the Salvation Army this morning and a third vehicle, from Mitchell Van and Storage, will leave this afternoon for San Antonio.

"Twenty-five van loads have been received in the Houston area already and I think that is about all needed here," Maj. Short told Mrs. Short in a telephone conversation.

The Salvation Army is now working in 25 cities which were hit by the hurricane and is providing food for 50,000 persons daily. About \$250,000 in food, clothing and other items has already been distributed. Most of this was from donations. Another \$50,000 is expected to be spent on food and other necessities.

At present \$297 has been received by the local post relief fund, according to Mrs. Short.

Davidson Back From Michigan

Carroll Davidson, manager of the Big Spring Chamber of Commerce, has returned from East Lansing, Mich., after attending an advanced course in management at Michigan State University.

"It was an excellent course of study," Davidson said. "We even had work sessions at night in addition to attending classes from 8 a.m. to 4 p.m. each day."

Among subjects taken were management in society, mass communications, great economic issues, psychology in society and contemporary civilization.

Davidson was the only man from Texas attending the United States Chamber of Commerce sponsored affair. He took entrance examinations to qualify in January while he lived in Odessa. There were 28 persons from all over the United States present.

Coahoma Cub Pack To Be Organized

COAHOMA — A Cub Pack organizational meeting is scheduled for 7:30 p.m. Tuesday in the Coahoma elementary school library.

Hershel Fowler, Cushman, and Mrs. Larry Ferrigo, president of the P.T.A., sponsor, invite all boys, 8-10 years old who wish to become Cub Scouts, to be present. Parents are also urged to be present to become acquainted with their parts in the Cub program.

Plans are being made to organize two new dens. One den is already organized and functioning well, Bill McFee, Scout executive, said.

Coahoma boys, from 11 years up, are invited to attend a meeting with Scoutmaster Charles Parrish, at 7 p.m. Monday at the Scout Hut, where new Scouts will be enlisted.

Convention Opens

DALLAS (AP) — Veterans of World War I opened their 9th national convention in Dallas Saturday by voting \$1,000 for the relief of victims of hurricane Carla on the Texas and Louisiana coasts.

Thefts, Vandalism Give Police A Good Workout

Frank Morris, representing Cortese & Milch Const. Co., reported to police that approximately one-fourth of a load of brick, delivered to a site at 2008 Merrill Saturday, had been stolen during the night. No estimate of the exact number of bricks had been made.

Mrs. R. D. Phillips, 2002 W. 3rd, told police that when she returned from a washateria about 10:45 p.m. Saturday she found a Latin-American male in the hallway of her home with her Boxer dog holding him by the pants leg. When she entered the dog turned the man loose and he ran out the back door. She said nothing was missing as the man had apparently just entered the house through the back door. She said this was the second break-in in the past month.

A window was reported broken out of the Cedar Crest school at noon Sunday and the caller said it was possible that a typewriter from the teacher's desk had been taken. The teacher was contacted later and said the typewriter was not missing.

The Martin County Sheriff's office reported that a car, supposed to be headed for Big Spring, had "torn up nearly all the signs in Stanton." A car fitting the description was stopped at the West City limits, but police said it was not the right car.

Mrs. Jesse Coker, 1710 Morrison, reported that the dance hall at 901 Ayford had been entered. She said all drawers in the building had been ransacked.

Dick Shorter, Rt. 1, Ackerly, told police that some one had broken the windshield out of his car Saturday night while it was at a service station on Gregg.

Two places on the north side were closed by police Sunday night. A club was closed for permitting dancing without a permit, another place was closed for permitting loitering.

Tuesday Rites For J. R. Kirby

Funeral will be held at 4 p.m. Tuesday for Joseph Russell Kirby, who died at 2:10 a.m. Sunday in a local hospital. He was 73.

Mr. Kirby, who has been ill about a month, retired from a civilian post at Webb AFB about two months ago. He made his home at 504 Ayford. In 1945, he moved to Big Spring from Wood County.

Services will be held in the Nalley-Pickle Funeral Home chapel with Capt. James Jay, Salvation Army, officiating and assisted by the Rev. Jack Strickland. Interment will be in city cemetery.

Pallbearers will be John Knowles, L. Z. Roberts, R. W. Orr, C. Rick Owens, Sgt. Marion C. Rice, Burrell Dennis, Denver Yates, and J. C. Woodard.

Mr. Kirby is survived by his widow; five sons, Verdean Kirby, Big Spring, M. L. Kirby, Big Spring, Joe Kirby, Wimbrow, Marvin Kirby, Vista, Calif., Jimmy Kirby, Midland; two stepsons, William McNew and Norman McNew, both of Big Spring; two step-daughters, Beverly and Sue McNew, both of Big Spring; one sister, Mrs. Essie Bland, Haskell; 12 grandchildren and one great-grandchild.

Careful Of Make-Up

Despite being in the "Gunsmoke" series for almost seven years, Amanda Blake has kept her complexion in good condition; today, she tells readers of The Herald how she does it.

HOLLYWOOD BEAUTY

'Miss Kitty' Solves Make-Up Problem

By LYDIA LANE

HOLLYWOOD — Sometimes an actress will complain about being trapped in a long-running TV series, but "Gunsmoke's" Kitty, in the person of Amanda Blake, is very happy about starting the seventh year with an hour show. I first met Amanda when she was on the contract list of a major studio because of her startling resemblance to Greer Garson. "Those were unhappy years," Amanda confessed. "No one wanted to be a carbon copy of someone else. I had always hated my red hair because of the freckles, and now I hated it for another reason. Amanda's hands are dotted with "kisses from the sun," but you see none on her face. "That's because I've found the perfect make-up," she told me. "It looks natural on and gives me coverage, but it is not at all drying." Amanda admitted it was a struggle at the end of a day's work to be sure all of her make-up was off. "I never remove

make-up with paper," she revealed. "I find a clean, dry wash cloth is much more dependable. "My skin is good, and I owe it to a wonderful cleanser. It's a pure lotion — there is no scent or fancy bottle — that really cuts the make-up. "After my face has passed the clean-wash-cloth test, I make doubly sure there is nothing left behind by washing with a special formula soap and then finishing with a special formula lotion that keeps my skin from drying. "I have strong lights and a good magnifying mirror here in my dressing room and at home," she pointed out, "and I am determined to be clean. No matter how late it is or how tired I may be, I never give myself a careless cleansing."

MAKE-UP

You can use make-up to enhance your good facial features and play down your faults — as an uneven lip line, too long nose or deep-set eyes. If you would like a copy of "Make-Up and the Illusion of Beauty," Leaflet M-16, send 10 cents and a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, Big Spring Herald.

MRS. T. L. WIGINGTON

Wigingtons To Make Home Here

In a double ring ceremony read in the home of the Rev. Charles Allen Friday evening, Freeda Lee Eudy became the bride of Tommy Lewis Wigington.

Parents of the couple are Mr. and Mrs. J. C. Eudy of this city and Mr. and Mrs. W. E. Wigington, Rt. 5, Canton, Ga.

The couple was attended by Patricia Fannin and Larry Lawrence.

The bride wore a white sheath with satin embroidery and the attire was completed with matching satin pumps and hat. She carried a white bridal bouquet of chrysanthemums tied with white satin streamers.

Mrs. Wigington is a 1961 graduate of Big Spring High School and her husband is stationed at Webb Air Force Base. They are at home at 608 Runnels.

3227 2-34

Pinafores

This is designed especially for the very young—a princess with a pretty pinnie. No. 3227 comes in sizes 2, 3, 4. In size 4 the dress takes 2 yards of 35-inch fabric; the pinafore, 1 1/2 yards of 35-inch. Send 35 cents in coins for this pattern to IRIS LANE, Big Spring Herald, Box 1490, New York 1, N. Y. Add 10 cents for each pattern for first-class mailing. For the new Fall-Winter Pattern Book presenting the latest pattern designs and featuring comprehensive lessons in dress-making send 50 cents.

Party Is Held For Kitchings

The Joe B. Kitching family was honored by members of the Wesley Methodist Church Sunday evening with a farewell party held at the church after services.

The family will be making a home in Corpus Christi in the near future; Mr. Kitching has gone to the coast city and is employed there.

Hostesses for the evening were members of the Wesleyan Service Guild of which Mrs. Kitching was a past president.

Gifts were presented from various classes and departments in which all members of the family took active parts.

Refreshments were served to the group.

Garden Is Toured By Junior Club

A tour of the garden at the home of Mrs. Obie Bristow was made Saturday morning by members of the Junior Garden Club; purpose of the trip was to identify various flowers and shrubs.

The group held a discussion of the display to be arranged for the fall flower show which will be given by the Council of Big Spring Garden Clubs, Oct. 28, at Howard County Junior College. Planned is an identification grouping of weeds, seed pods, leaves and similar items.

A change was made in the meeting date of the club, which will gather at the Bristow home at 4:15 p.m. the first Monday of each month.

Annette Fitzhugh presided in the absence of the president and vice president, and Mrs. John Balch assisted with the meeting.

Club Organized, Officers Named

Thursday night at the home of Mrs. Robert Wegner, the 20-30 Canasta Club was organized. Officers elected by the group are Mrs. Gerald Cox, president; Mrs. Ronnie McCuiston, vice president and reporter; Mrs. Wegner, secretary; and Mrs. Bob Howell, treasurer.

Plans were made to meet on the third Thursday of each month and a drive is under way to secure new members.

Bobby Roger Is Honored Saturday

A baseball diamond with miniature players made the center of attraction at a birthday party Saturday evening for Bobby Roger.

To celebrate his seventh anniversary, Mr. and Mrs. Henry Roger honored the son with a party to which 18 friends were invited. The cake was made in the shape of a baseball field and was served to the little guests by Bobby's sister, Mrs. Billy Scott and Mrs. Don Brashears.

Marshmallow Fudge

Cut large marshmallows into small pieces and add to chocolate fudge just before pouring the candy into the pan; small fry and teen-agers go for this.

Add Caraway

Ever add caraway seed to a mayonnaise dip for carrots and celery sticks and small raw cauliflower?

December Date Set

Announcement of the forthcoming marriage of Gay Ellen Bownds to Douglas Gerald Young on Dec. 28, has been made by her parents, Mr. and Mrs. J. C. Bownds of Beaumont, former residents of Big Spring. Parents of the prospective bridegroom are Mr. and Mrs. M. M. Young of Laramie, Wyo. The wedding will take place at the Westside Church of Christ in Beaumont.

Methodist Women Have Conference

A coaching conference for the Big Spring District of the Methodist Wesleyan Guild was held Sunday at Colorado City.

Those attending the conference from Big Spring were Mrs. S. Gorman, Guild president, Mrs. W. L. Vaughn, Edith Gay, Mrs. Bert Afflick, Mrs. Ruby Martin, Mrs. Irene Dempsey, Mrs. Annie Thompson, Mrs. LaVelle Hill, Mrs. H. M. Rowe, Mrs. Gladys Burnham, and Mrs. Miller Harris. Nelda Garrett, district secretary, presided.

Mrs. Afflick gave the spiritual life report and Mrs. Martin reported for Mrs. Merle Stewart, treasurer, who was unable to attend.

Vary Seasoning By Soup Flavor

A one dish meal with the opportunity for variation by adding soups of different flavor is one that is easy and also delicious.

ONE DISH MEAL
1 cup uncooked rice
1 can tuna
1 can cream soup, undiluted (use mushroom, tomato, asparagus or celery)
Cook rice following easy directions on the package. When the rice is cooked, add tuna fish and soup, mix together and heat through.

For a more highly seasoned dish, add chopped onions, or garlic, plus sliced hard-boiled eggs and mushrooms to taste. Have the fun of serving a sparkling new and exciting dish by varying the seasoning each time.

Mrs. Prescott Is Honored At Party

FORSAN (SC) — Mrs. E. B. Prescott was honored Saturday morning with a coffee in the home of Mrs. S. C. Cowley. Mrs. Prescott who with her husband has lived in Forsan since his retirement from SunRay Oil Company at Midkiff, now resides in Sand Springs. Guests were 12 longtime friends of the honoree.

Mrs. Charles Spurgin was hostess to a demonstration party Friday afternoon.

Elmer Patton entered a Big Spring hospital Sunday night and underwent surgery Monday morning. His parents, Mr. and Mrs. E. G. Patton are here with the family for a week's visit.

Mr. and Mrs. A. D. Barton, their son, Van, and Mr. Barton's mother, Mrs. A. D. Barton, Sr., who is visiting here from Georgetown, have been to San Angelo where they visited relatives. Recent guests of the Bartons were Mr. and Mrs. Maurice Beckham of Austin.

Mr. and Mrs. B. R. Wilson have planned to leave Monday for a few weeks visit with relatives in Fort Worth, Denton and Lewisville.

Mr. and Mrs. W. F. Swiger were in Cross Plains Sunday, visiting with Mr. and Mrs. E. J. Maxwell.

Fine Flavor

Dry mustard rubbed over beef that is to be roasted gives fine flavor. Try this if your family doesn't like garlic with beef!

NEW FLOOR CARE FOR ALL FLOORS

It's a liquid floor finish for vinyl, and all hard surface floors. It contains "Acrylic" that's also being used in new auto finishes to eliminate waxing. Known as Seal Gloss it ends weekly waxing, beautifies, prevents water spotting and is easy to apply.

Dear Parents of Kindergarten Children:

In place of a formal advertisement, I am using this method in order to give a little more information and to better acquaint you with the New "Jack and Jill Kindergarten School and Child Care Center," which I opened three weeks ago at 21st and Main St.

Our enrollment has now reached 53. This week we put on a full time playground director which gives us five ladies on our staff, and enables us to have ample room for 20 more children in our classes.

Pre-school kindergarten instruction is given, which includes reading readiness, number concepts, manuscript writing, and simple spelling, as well as art, singing, nature study, vocabulary enrichment, opportunity for self-expression, and guidance in self-reliance, self-discipline, and courtesy. In addition to this, we give a Bible story each day, placing simple emphasis on principles of Christian living.

In setting up this new school, I hope I can offer a worthwhile service to the people of Big Spring who have been so kind to me during my long tenure of teaching here in the public schools and in Howard County Junior College.

I have in mind not only to serve the needs of the pre-school child, but also to serve families of which both parents work. Our doors open at 7:30 a.m. and remain open until 6:00 p.m. Children from two years of age up to school age are accepted, and given attention and consideration according to their age level.

Fees are \$16.00 per month for half a day (morning or afternoon) and \$25.00 per month for all day. Transportation is available.

Children are given a snack and rest period at mid-morning and mid-afternoon. A good nourishing meal is served at lunch.

We have ample inside play area for bad weather, and well-equipped, fenced playground for good weather.

The child is at no time without supervision. He is safe and in good hands. He also is learning to get along with others and to make satisfactory adjustment to social environment.

The school is under my personal guidance and supervision. In the near future we will make a movie of the children in the various activities. This will be shown on Parents' Night.

If we can serve you by teaching your kindergarten child, or by offering Child Care Service for the day, please call me at AM 4-9411 or AM 4-2582.

Sincerely,
Arah Phillips, Principal

Making 'Pals'

Friendship costs a child only a nickel when he's making "Pals" in Tyler. That outlay pays for one clothespin, two paper clips, and three pieces of electrical wiring in short, long and medium lengths. Here young Brian Boudreaux, six-year-old son of Mr. and Mrs. Malcolm Boudreaux of Tyler, is so engrossed in putting his oftbeat canine together that he seems unaware of his pretty arts and crafts teacher, Miss Kay Tomlin.

Tempo Of Atom Tests Steps Up

WASHINGTON (AP)—The United States has fired the second nuclear blast of its renewed underground tests, while the Soviets pushed the total in their current series to 12 with two more blasts in the atmosphere.

U.S. space scientists also had a busy weekend:

The Air Force shot another Discoverer satellite—the 31st in the series—into orbit from the Vandenberg Air Force Base, Calif. It will attempt within four days to recover it in midair over the Pacific. A key experiment is the placing of human cells in the capsule for testing after orbit for the effect of exposure to outer space radiation.

The National Aeronautics and Space Administration lighted up the sky along the middle Atlantic Coast Saturday night and early Sunday with fiery clouds of chemical vapor in a study of upper atmosphere wind conditions. Nike-Asp rockets carried the test materials aloft from Wallops Island, Virginia.

PREDICTION

Announcement of the two Soviet nuclear tests came after Sen. Hubert H. Humphrey, D-Minn., predicted the Soviet Union would wind up its present series before the United Nations meets Tuesday and then offer to accept a test ban.

Humphrey, assistant Senate Democratic leader, urged in an interview that the United States beat the Soviets to the punch by offering its own proposal to halt nuclear tests at a fixed date.

The U.S. blast Saturday took place underground at the Atomic Energy Commission's test site in Nevada. It was described as a

low-yield device — equivalent to the force of 20,000 tons of TNT or less—that produced no fallout. The Soviet test Saturday was in the atmosphere at Novaya Zemlya, an island in the Arctic Ocean. The AEC said it was in the order of a megaton, equivalent to a million tons of TNT. The Soviet blast Sunday, also in the atmosphere, took place in the vicinity of Semi-Palatinsk in central Asia. The AEC said it was of intermediate strength, defined as ranging from the equivalent of 20,000 tons of TNT to less than a megaton.

Soviet explosions have come almost daily since the Soviet Union on Sept. 1 ended the three-year moratorium on nuclear tests. Four tests have been in the megaton class. Both blasts since the United States resumed testing last Friday have been low-yield devices. The United States now has tested 155 nuclear devices and the Soviet 77. Britain has conducted 21 tests and France 4.

As the great powers banged away with nuclear tests, thousands of Britons demonstrated their opposition to use of nuclear weapons.

ARRESTED

Nearly 900 persons, including notables of the entertainment world, were arrested by London police, who threw in mounted patrols Sunday to beat back a march on the houses of Parliament. The demonstrations continued through the night.

Soviet nuclear testing produced a sharp jump Sunday in the level of radioactivity in three states. Officials said a change in high-altitude wind direction probably caused the increase.

In each case, the high level still was far below any danger point. Connecticut reported a jump from a normal high of 1.08 microcuries to nearly 66 per cubic meter of air. This was the highest increase ever reported in the state.

Michigan reported 28.7 microcuries, compared with a 1.8 reading Sept. 7.

New York State listed 33 microcuries per cubic meter of air, a jump of more than 30 within 24 hours.

Airliner Lands

FORT WORTH (AP)—A Delta Airlines DC-8 jet airliner with 128 persons aboard made an emergency landing at Carswell Air Force Base Sunday night after the pilot reported a malfunction of the hydraulic system.

Maris Slams 58th, Needs Two To Tie

By JACK HAND
Associated Press Sports Writer

Roger Maris has 58 home runs and needs only two more in three decisions to tie Babe Ruth's all-time record of 60 set in 1927.

Maris slammed No. 58 Sunday with Tony Kubek on base in the 12th inning at Detroit for a 6-4 New York Yankee victory over the Tigers. The Yanks, leading by 10 1/2 games, can clinch the American League pennant with any combination of victories or Detroit defeats adding up to two.

As commissioner Ford Frick has decreed that Ruth's record must be tied or broken within 154 decisions—a tie game is not a decision and both the 1961 Yanks and the 1927 Yanks played one tie-time runs out on Maris in Baltimore Wednesday night.

Maris and Mickey Mantle, the other half of the M & M combination who has been stalled at 53 since last Sunday, are idle today. The Yanks play a twilight-night doubleheader in Baltimore Tuesday and a night game Wednesday.

The Yanks now have played 151 decisions (152 games) and will have completed 154 by Wednesday night, barring interference by the weather man. Of course, they are playing a 162-game schedule this season, and have plenty of time to put over the clincher. If Maris or Mantle hit 60 or more homers after the 154th decision, their feat will go into the record book, marked by an asterisk to indicate it was done in a 162-game season.

Maris had two extra chances when the game went into extra innings. He walked twice and struck out once before he tripled in the seventh, a blow that missed being a homer by a foot. After Moose Skowron's wild throw helped Detroit to the score in the eighth, Maris flied out in the 10th and then hit the 400-foot homer on a 2-1 pitch by relief man Terry Fox.

It left him one game ahead of Ruth's pace.

Bill Mombouquette of Boston held Baltimore to three singles and won 1-0 on Jim Pagliarini's double in the fourth. Lew Krause, Kansas City's \$125,000 rookie, won his first game since June 16 with a five-hitter against Washington 3-2.

Minnesota took a pair from Cleveland 5-0 and 5-3 on Camilo Pascual's seventh shutout and the

Mrs. Dillon Sets Record

Mrs. G. F. (Billie) Dillon established a new record for women playing the Country Club course on Saturday.

Firing three birdies in the process, Mrs. Dillon was out in 38 and home in 37 for 75, only one over woman's par.

She dropped a birdie 4 on the 406-yard No. 6, a birdie 4 on the 400-yard No. 15 and another birdie 4 on the long 473-yard 17th.

NATIONAL LEAGUE

Pair Of Holdovers Put New Life In Pennant Race

By JACK HAND
Associated Press Sports Writer

Duke Snider and Gil Hodges, a couple of holdovers from the Dodgers' old salad days, are breathing new life into the National League race.

Snider's ninth-inning single enabled Los Angeles to tie the score against Milwaukee and his 11th-inning single won the game 4-3 after Hodges, playing his 2,000th major league game, beat out a bunt single.

The Dodgers' victory, coupled with Cincinnati's 4-0 defeat at the hands of their Philadelphia cousins, cut the Reds' lead to 3 1/2 games. Los Angeles is only two back in the all important loss column. It was the Phils' third victory over the Reds in 22 games.

Cincinnati has nine games to play to the Dodgers' 12. The Reds are idle Monday while Los Angeles hopes to fatten up against the Chicago Cubs.

Stan Musial celebrated his 20th anniversary in the major leagues, all with St. Louis, by hitting his 14th home run while Larry Jackson shut out Pittsburgh 3-0 with five hits.

Felipe Alou went on a tear against Chicago with four hits, including his 12th homer and four runs batted in, as San Francisco rolled to an 8-2 decision over the Cubs.

Milwaukee rode along with a 2-0 lead behind Carl Willey going to the eighth when the Dodgers got their first run on Willey's wild pitch with the bases loaded. North Larker's double and Snider's single tied it in the ninth. Norm Sherry opened the 11th with a single and all hands were safe when relief pitcher Don McMahon muffed Bob Aspromonte's high bounce for an error. Hodges beat out a bunt and Snider broke it up with a bouncing single down the right field line.

Sandy Koufax, fourth Dodger pitcher, won his 17th, McMahon lost his second game in two days. Art Mahaffey of the Phils

combined pitching of Al Schroll and Ray Moore. Joe Altobelli, who homered off Jim Perry, drove in three runs in the opener and one in the second.

Chicago swept two from the Los Angeles Angels 8-1 and 4-3 in 10 innings. Al Smith's grand slammer and Frank Baumann's five-hitter won the opener. Billy Goodman's pinch single broke up the second.

Take Down One Of Those Fingers

Mrs. Roger Maris, holding the couple's youngest child, held up four fingers Saturday to show how many home runs New York Yankee husband needed to break Babe Ruth's record. She had just heard that he had hit his 57th homer. She might have anticipated Sunday and used only three fingers, for Maris got another Sunday. Randy, about 4-weeks-old, wasn't impressed with the news. (AP Wirephoto).

Sluggers May Ask For Some Time Off

BALTIMORE (AP)—In a statement as startling as the 58th home run he hit Sunday, Roger Maris said today he is thinking of asking manager Ralph Houk to give him a day off during the three-game series with Baltimore starting Tuesday.

Needing three more home runs in the next three games to break Babe Ruth's record of 60 in a 154-game season, such a request by the New York Yankee slugger sounds ridiculous. But the serious minded slugger said it with a straight face.

"I'm bushed," Maris repeated a remark he has made a number of times in the past two weeks.

"Record or not, I'm thinking of asking Ralph for a day off whichever game Barber (Baltimore left-

hander Steve Barber) pitches. He's rough on me. And I can sure use the rest."

Houk has no intention of giving Maris a day off, not until the pennant is clinched, anyway. The Yanks need only two more victories, or two Detroit defeats, to clinch the flag.

MARIS-MANTLE VS. THE BABE

By THE ASSOCIATED PRESS	
The following table shows how Roger Maris and Mickey Mantle compare with the record pace of Babe Ruth in 1927.	
Player	Home Runs
Maris	58
Mantle	53
Ruth	60

Amateur Eyes Big Tournaments

By JACK STEVENSON
Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP)—Champion Jack Nicklaus, blending power with finesse, provides amateur golf with someone who could beat the pros at their own game, and he wants to do it in their two biggest tournaments.

After outclassing the world's best amateurs over the exacting and treacherous Pebble Beach course to win his second United States amateur title Saturday, the 205-pound colt declared: "I've always wanted to win the Open and the Masters."

Next year he also plans to play in the Bing Crosby tournament here and the British Open.

Nicklaus, 21, who first won the Amateur championship in 1959 and currently is collegiate king representing Ohio State, beat Dudley Wyszog of McKinney, Texas, 8 and 6 in the 36-hole final despite wind and rain.

Jack fired 59-under-par golf as he led from the second hole. For 136 holes in seven matches, he wound up 20 under par. Wyszog ended 20 over for 143 holes.

Eddie Duino of the San Jose, Calif. Country Club, the PGA's Club Pro of the Year in 1960, com-

LOOKING EM' OVER

By TOMMY HART

The paid attendance at the Big Spring-Plainview football game here recently was 4,404—nearly 200 more than was estimated by school officials previously.

The gross income from the gate came to \$4,265. Of the tickets sold, Plainview accounted for only \$30.60 of the aggregate.

It's not hard to understand why it was a partisan crowd.

After expenses, each school was paid \$1,961.65. The expenses included payment of officials plus \$250 held out (by pre-arrangement) for such items as lights, field employees, etc.

Final inventory on season tickets here showed only 359 sold, as compared to 690 last year. However, if the fans continue to show the interest in the local team that they have, school officials will have no cause for concern over the income and outgo of athletic funds.

Lamesa High disposed of 312 season football tickets this year, the exact number distributed last year.

The 1955 season saw Lamesa sell 387 season pasteboards, a record for the school.

Football interest continues high at Snyder and the crowd at this weekend's game between Big Spring and Snyder there, granted that local fans will go over in large numbers, should exceed 5,000 easily. A total of 850 season tickets have been sold at Snyder, nearly 300 more than were purchased here.

That eighth grade football team at Rannels Junior High here bears watching—seven wins without a loss in two years. Could it be a team of destiny?

Some of the team's athletes have problems at home, however, and could stand a pat on the back by the friends of the school and of football, from time to time.

Some need football just as football and the Rannels team in particular need them.

That \$5,000 golf tournament at Amarillo is being called for Tascosa Country Club Closed-Pro event and is scheduled for Sept. 22-23-24.

Big Spring's Wendy Green, along with more than 50 other pros, are committed to play in it.

It's a tournament in which a professional team with a Tascosa Country Club member for 54 holes of medal play.

Tommy Bolt is the defending champion up there but he won't be able to defend his laurels, due to other commitments.

Fred Hawkins of El Paso may enter, if he can be released by the PGA from the Seattle tournament.

Dave Hill, who recently won the Denver Open, shares the Tascosa course record, along with amateur Bill Garrett of Amarillo. Each had a 63.

Albert Fierro, the young sophomore performing with the Big Spring High School who has hands like hams, could emerge as the finest piker ever to come down the pike here.

Albert throws the ball like it was a baseball—so far that his receivers had much rather let the righties ricochet off their chests than try to handle them with their hands.

If Fierro is going to enjoy much success as a passer this fall, his receivers must learn to keep going at full speed. His bullet tosses don't bend very much in flight.

Farmers Top Special Play

Mr. and Mrs. J. R. Farmer copped the Mr. and Mrs. tournament Sunday at the Big Spring Country Club, shading Mr. and Mrs. Gil Jones by two strokes.

Twenty couples entered the special event. Mr. and Mrs. Farmer had combined score of 171 while Mr. and Mrs. Jones came in with 173.

The perseverance prize went to Mr. and Mrs. Tommy Gage with Mr. and Mrs. Morris Patterson the runners up.

Dr. and Mrs. H. F. Schwarzenbach and Mr. and Mrs. Eli McCormb were the blind bogie winners.

A couples invitational tournament is being planned at the club on Oct. 8. This will be a handicap affair, and players may choose their partners. Invitations will be extended to players in clubs of surrounding cities as well as to those here.

Sleeping Giants Begin To Stir

By The Associated Press

The sleeping giants of college football begin to stir next Saturday when five teams in the running for national honors open operations.

Alabama, Louisiana State, Penn State, Mississippi and Syracuse, all rated in the top 10 of the Associated Press pre-season poll, start their seasons.

Alabama, No. 3 behind Iowa and Ohio State, plays Georgia in a Southeastern Conference game.

Louisiana State, No. 5, is at Rice and Mississippi, No. 9 plays Arkansas at Jackson, Miss.

Penn State, No. 7 and virtually conceded Eastern honors before a whistle is blown, has no easy task in its opener—against Navy, Syracuse, No. 8, goes against Oregon State at Portland.

A sprinkling of teams got into action last Saturday with Pitt defeating Miami 10-7 in the first of the weekly NCAA television games. The Orange Bowl was a quagmire late in the fourth period

when Fred Cox skipped around left end for 20 yards, then lateraled to Paul Martha who splashed 60 more yards for the winning touchdown.

New Mexico State, which currently holds the longest winning streak of 16 among major teams, whipped Arizona State College of Flagstaff 56-6.

The Southern Conference also got underway with Richmond defeating West Virginia for the first time, 33-26, and Virginia Tech blasting William and Mary 20-6.

Wyoming blanketed Montana, 29-0, and Utah downed Colorado State U., 40-0, in Skyline Conference openers. Wichita, the defending Missouri Valley champion, was hard-pressed to get past Toledo, 12-7, while Iowa State of the Big Eight whitewashed Drake, 21-0.

In other games, Florida State outlasted George Washington, 15-7, and Villanova polished off Miami of Ohio 33-0.

GONE AWRY

By JACK CLARY

Something has gone awry. The Cleveland Browns are the unanimous choice to win the National Football League's Eastern Conference crown. The defending champion Philadelphia Eagles are dead without their great quarterback Norm Van Brocklin. So are the St. Louis Cardinals without their great running duo of John David Crow and Joe Childress, and with quarterback Sam Etcheverry's probable won't win a game and the Dallas Cowboys may be lucky to get just one.

That was the word as late as noon Sunday before the league opened its 42nd season. Today, the tune has changed.

The Philadelphia Eagles, with Van Brocklin now coaching the new Minnesota entry, broke Cleveland's bubble the first time ever, 27-30. The Cards found that even with a half an arm and a couple

of adequate runners in Frank Mestnik and Mal Hammack, they had enough to upset the New York Giants 21-10.

The Vikings made the Chicago Bears look like the new team with a 37-13 victory in their first start, while sophomore Dallas won its first game in 14 tries in the NFL, 27-24 over Pittsburgh.

In still another mild surprise, the Detroit Lions upended Green Bay defending Western Conference champs 17-13, while Baltimore had to scrape to down Los Angeles 27-24 and San Francisco rolled over Washington 35-3.

The Eagles applied the crusher early on the Browns, springing Tim Brown on a 105-yard touchdown run with the opening kickoff. Sonny Jurgensen, Van Brocklin's successor, then tossed TD passes of 18 and six yards to Bobby Walston and Tom McDonold, respectively, the former putting Philly ahead to stay in the second period.

San Diego, Houston Face Early Showdown In AFL

By HAROLD V. RATLIFF

San Diego and Houston, leaders in the respective divisions of the American Football League, clash next Sunday in an early showdown.

It only required a couple of weekends to establish the pacers. One of them, San Diego, is undefeated for the entire season, including the exhibitions.

San Diego took over the undisputed lead in the Western Division Sunday with a smashing 44-0 triumph over Oakland. The Chargers got help from Boston, which walloped Denver 45-17. Denver had been tied with San Diego for the lead in the western division.

Houston became the Eastern Division leader without throwing a pass or kicking a field goal. While the Oilers were idle Buffalo upset New York, 41-31, to leave Houston high and dry in first place.

Four games are scheduled next weekend with Boston at Buffalo Saturday night. The Sunday afternoon card has Houston at San Diego, Dallas at Oakland and Denver at New York.

An old pappy guy led Boston out of the dumps in its conquest of Denver. He was Butch Sargin, 37, who had been playing second fiddle to Babe Parilli. He went in and threw four scoring passes, which not only put the Patriots ahead but gave them a top-heavy victory.

Buffalo's triumph over New York was an offensive show featured by Richie Lucas, who got his chance because all the other Buffalo quarterbacks were injured. He passed for two touchdowns and shook Elbert Dubenion loose on a 73-yard scamper with a great block.

San Diego had little trouble with Oakland, which had taken a 55-0 licking from Houston a week earlier. The Chargers charged to a 30-0 lead in the first half and coasted in Pat Lowry, Bo Robertson and Charley Flowers ran for the touchdowns. Flowers and Robertson scoring two apiece.

San Diego had little trouble with Oakland, which had taken a 55-0 licking from Houston a week earlier. The Chargers charged to a 30-0 lead in the first half and coasted in Pat Lowry, Bo Robertson and Charley Flowers ran for the touchdowns. Flowers and Robertson scoring two apiece.

TICKETS READY WEDNESDAY

Tickets for the Big Spring-Snyder football game in Snyder Friday evening will go on sale Wednesday at the school business office.

Don Crueckert, assistant business manager, said 750 tickets had been allotted to Big Spring fans. The adult duets are \$1.50, and student are 25¢. Sales start at 9 a.m. Wednesday and will continue to noon Friday, when the tickets will have to be returned to Snyder.

ON THE LANES

U.N. Session May Be Its Most Crucial

UNITED NATIONS, N.Y. (AP)—The U.N. General assembly convenes Tuesday for what diplomats expect will be the most crucial session of its 16-year history. Some say its future as a peace-making organization is at stake. Already on its crowded list of issues to be debated are such questions as Communist China's admission, testing nuclear weapons, disarmament, and the strife-torn Congo.

New Zealand, with the support of the United States, took the initiative on the Red China issue by proposing Sunday that the General Assembly debate the question of Chinese representation.

LACKED VOTES

The United States, while still resisting any effort to oust Nationalist China, dropped its 10-year-old strategy of getting the assembly to postpone the Red China question. It was felt the United States lacked the votes to keep the question off the agenda this year.

The United States or one of its supporters is expected to seek a delay on the decision by creating a study committee on Chinese seating which would report back next year.

The Soviet Union could raise the Communist China issue on the opening day by challenging the credentials of the delegation from Nationalist China.

The Soviets have been trying to persuade delegates outside the Soviet bloc countries to propose admission of Communist China as a separate issue for assembly debate.

In any event the United States will counter with a proposal for a full-scale study of the Chinese representation issue and related subjects, such as expansion of the U.N. Security Council.

ATOM TEST BAN

The United States will also support moves for priority to a debate on the need for a treaty on banning of nuclear weapons tests under effective international control.

Attempts to negotiate such a treaty at Geneva collapsed when the Soviet Union resumed testing in the atmosphere. The United States resumed testing underground, but President Kennedy made clear his country's willingness to negotiate a treaty "of the widest possible scope."

On disarmament, the United States and the Soviet Union have failed to reach agreement even on the makeup of a negotiating body, let alone the substance of the issue. Under present East-West tensions diplomats see virtually no prospect of the United Nations getting any place with the question.

Adding to the gloomy picture is the situation in the Congo, where the fighting in Katanga has dampened hopes for uniting that country on a peaceful basis.

BITTER BLOW

This is no doubt a bitter blow to Secretary-General Dag Hammarskjöld, who has directed the long and costly peace-making efforts to bring peace to that chaotic African nation.

The cost of maintaining the Congo operation is threatening the United Nations with bankruptcy, and methods of raising money to remove that threat must be solved at the current assembly. The Soviet bloc countries and France refuse to pay anything toward Congo costs.

Other controversial issues include such perennial ones as Algeria, unification of Korea, Chinese Communist suppression of human rights in Tibet, and the racial segregation policies of South Africa.

Mongi Slim, Tunisian diplomat, is regarded as a shoo-in as president of the 16th assembly, to be elected on the opening day.

Complete Calm After Uprisings

MEXICO CITY (AP)—Officials say "a complete calm" has been restored throughout Mexico after army and police forces quelled scattered uprisings along the Gulf coasts of Veracruz and in the rugged mountains of Puebla.

An estimated 40 persons died in short-lived but fiery political clashes over the independence day weekend.

Strict silence is still kept by the government as to what caused the trouble. The origin and names behind the whole plot remain a matter of speculation.

Reports received from Puebla Sunday night said three army battalions under command of Brig. Gen. Enrique Camargo, who were sent to comb the rugged Sierra De Puebla for a reported band of rebels, entered the villages of Pan-tepec and Vista Hermosa without opposition.

The army group of rebels, the report said, disbanded as army forces approached.

Six persons were arrested at Vista Hermosa.

No Commitment

RANGOON, Burma (AP)—U.S. Roving Ambassador W. Averell Harriman said today the United States has made no commitment to support neutralist leader Prince Souvanna Phouma for the premiership of a coalition government in Laos.

He Really Swings

Marvin Monk of Bryan, relaxes in his bed which swings from three hooks in the ceiling in his unusual room. "The original purpose was to get my bed off the floor, simply because my aunt lives downstairs right under me, and to keep the bed noises—the squeaks and squeaks of an old metal bedstead—from going through the floor," he said. Monk, 38, is an English teacher in the high school division of Allen Academy in Bryan.

Sees Too Many Words

PHILADELPHIA (AP) — Billy Graham says there have been too many words and not enough action in America's fight against Communism.

"The whole world is watching us, not listening to us," the evangelist told an estimated 83,000 persons Sunday in Philadelphia Stadium as he concluded his four-week greater Philadelphia crusade.

The crowd, the largest single gathering during his crusade, exceeded the 60,000 persons who attended the Eagles-Browns National Football League game here and brought the total crusade attendance to an estimated 700,000 for the four weeks.

"We have sent too many protest notes during the past 15 years," Dr. Graham said. "The world wants deeds, not words."

"Are we going to give moral leadership to the world?" Recalling the recent conference of uncommitted nations at Belgrade, Dr. Graham said, "they condemned us and said very little about Communism. Why? Because they are afraid America is too weak to keep her commitments to the free world."

The United States, he said, needs to gird itself against the "most barbaric onslaught in history."

GM Seeks End To Strike Tieups

DETROIT (AP) — General Motors Corp. is counting on getting its strikebound plants back in full production by the end of this week if all goes well in contract negotiations with the United Auto Workers Union today and Tuesday.

The union has set Wednesday as a new deadline for ending strikes which started at most of GM's 129 U.S. plants one week ago today and halted production of 1962 model cars.

The UAW Executive Board voted Saturday night to have the union's 280-member GM Council meet here at 2 p.m. Wednesday to review the progress of negotiations and decide what action to take. The council can approve or reject contract proposals.

If it approves, a back to work movement among GM's 350,000 hourly workers could get under way Thursday. At the peak of the strike last week more than 250,000 were idled.

The main stumbling block to a settlement has been failure of local unions and plant managers to reach agreements on working conditions.

National-level bargaining teams already have agreed upon the essentials of a wage and benefit package described as very liberal by UAW President Walter P. Reuther.

Reuther and GM Vice President Louis G. Seaton and their bargaining teams spent the weekend trying to hasten local settlements.

By late Sunday, settlements had been made at 75 plants where workers are represented by the UAW and at four plants represented by the International Union of Electrical Workers. This left 50 plants to go, but negotiators hoped to have most of them lined up by Wednesday.

Over the weekend Reuther called in leaders of union locals from 36 key GM plants and urged them to speed up settlements on such issues as seniority, transfers, job upgrading and shift preferential.

UAW Vice President Leonard P. Woodcock, head of the union's GM department, denied reports the local leaders were given a dressing down. Some reportedly had been dragging their feet in

whipsaw tactics to get better settlements than others.

Asked whether all local issues could be settled by the time the GM Council meets Woodcock replied he hoped so, "but you can't guarantee it."

Reuther when asked about prospects of a complete settlement by Wednesday replied "things are moving." He said he could answer the question better Wednesday.

GM officials appeared cautiously optimistic there would be a settlement soon.

Commenting on the Union's decision to call the GM Council into session Wednesday, Seaton said "it's 10 days late." By the time of the new deadline, he said, "our employees will have lost 10 days pay because of a needless strike."

A Devotional for Today

Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven. (Matthew 5:16.)
PRAYER: Dear heavenly Father, help us to let our lights shine as we cross the waters of life. May the rocks of temptation not cause us to sink into darkness. Direct our course to Thy blessed shore. For Jesus' sake. Amen.

(From The "Upper Room")

GOP Eyes The House

Other national Republican leaders are subscribing fully to former Vice President Nixon's thesis that the 1964 GOP presidential nomination may not be worth much unless the party can make substantial gains in the 1962 congressional and state elections. With those campaigns only a year away, Republican preparations are now getting under way.

Republican National Chairman William E. Miller and other party officials have revealed a strategy that aims mainly at about a hundred House seats believed to be in the doubtful category. Four regional conferences are planned this fall to stir interest, afford partisan platforms, and launch a drive to recruit young, aggressive and attractive candidates for those House seats.

The emphasis on the House elections is obvious. With all House seats open to contest next year, as against roughly a third of those in the Senate, the Republicans stand their best chance there for impressive gains. They also offer the best opportunity to introduce new party blood into the national political scene.

More important, perhaps, tradition in

recent years has been reversed to make the House a more conservative chamber than the Senate. Those major parts of President Kennedy's legislative program which have bogged down this session mostly have died in the House after relatively easy Senate passage. With a few more seats to bolster the Republican-Southern conservative Democratic coalition still operative in the House, the opposition party would have a formidable political power base from which to generate national issues for the 1964 presidential campaign.

With this situation developing, President Kennedy is likely to have a tougher time with Congress next session, especially in economic-growth and social-welfare programs. As congressional elections turn more on domestic than foreign-affairs issues, it is hoped that the stepped-up partisanship in the coming session will not bring a degree of disunity crippling to the United States' struggle to resist Communist expansion and maintain the precarious peace.

An Interesting Study

For something like 60 years, teachers, school administrators and citizens generally have been talking about "merit" pay for teachers. With few exceptions the talk continues and nothing is done.

In practically every case the argument has foundered on this question asked by teachers: "What standards are to be used and who will apply them?" This expresses a legitimate fear among teachers that merit pay could become a political weapon wielded by school superintendents.

A refreshing new approach to the question is being made in Kentucky in a study sponsored by Wendell P. Butler, state superintendent of public instruction. The question was turned around: "What

is the end purpose of merit pay? It is to improve the quality of education. Let us, therefore, define the factors in quality education. When that is done, perhaps we can translate those factors into an acceptable pattern of merit pay."

Even the most articulate opponents of merit pay recognize the validity of arguments for it. For it is difficult to meet the argument that if superior performance can be recognized in every other profession, then it can be singled out in the teaching profession, too. The difficulty of formulating an acceptable program remains. The Kentucky study may shed some helpful light on the subject.

Holmes Alexander GOP Leader Sees Party Victory

Holmes Alexander has left on a brief European vacation. During his absence a number of prominent and interesting guests will contribute columns.

By REP. BOB WILSON, Calif.
(Chairman, Republican Congressional Committee.)

WASHINGTON — Much has been written and said in recent weeks about the chances for a Republican victory in the 1962 Congressional races. The outcome, if one were to believe the pundits, will hinge on little more than reapportionment, or "gerrymandering," and perhaps retirements. I must confess that although I have discussed this subject as much as anyone, I hope I am not guilty of such oversimplification.

CERTAINLY, these factors will contribute to the eventual election results, but the party which ignores the other ingredients of victory may well go down to such calamitous defeat as to make recovery impossible in the ensuing few years.

I have stated — and today I am more convinced than ever — that the Republican Party will recapture control of the House of Representatives and make substantial gains in every other electoral level — the Senate, governorships, State legislatures, county and municipal posts. Certainly gerrymandering and the other considerations mentioned will affect our chances, but we should view regardless of them because of two other factors — candidates and issues.

DURING THE 1960 Congressional campaign, the Republican Party selected attractive, straightforward and principled candidates. We gained 21 seats because of this and the issues, and we intend to build on this victory in 1962. Without exception, the newly-elected GOP members are building stature as statesmen and are proving to the Nation that they are best qualified to do the job for which they have been elected. There can be little doubt that nearly all of them will be re-elected.

On the other hand, a wide variety of Democratic office holders face re-election troubles.

Democratic vacillation and politicking, usually at the expense of their constituents' interests; the willingness of Democratic Congressmen to knuckle under to every patronage threat thrown at them by the Administration, and recklessness

THE ARTFUL DODGERS

James Marlow

Background Of The China Battle

WASHINGTON (AP) — For 10 years straight the United States was not only able to keep Red China from getting a U.N. seat but even to prevent debate on whether she was entitled to it.

Now the United States has lost half its battle. In the U.N. session opening Tuesday this country will vote for debate and then concentrate on trying to stall seating of the Chinese Communists.

The United States could line up enough votes to block debate in previous years, but with increasingly narrow margins, when the United Nations was smaller.

American power to do this evaporated as more and more new African and Asian nations joined the world organization,

which now has 99 members—48 more than the original 51 when it was created in 1945.

IN THAT YEAR there were only five big powers: the United States, Great Britain, France, Russia and China. All were among the U.N. founding members. China then was run by Chiang Kai-shek's Nationalist government.

Chiang received enormous American help in trying to solve his postwar problems which multiplied as the Communists took over more of China.

He handled them so badly that by the summer of 1949 President Truman's administration washed its hands of the Chiang regime,

called it a failure and said the Reds could take over at will.

The administration bluntly blamed Chiang and other Nationalist leaders for the disaster which reached a climax in December 1949, when the Reds drove Chiang and the remnants of his government off the mainland.

They fled to Formosa, 100 miles from shore, set up a government there, and tried to argue they were still the government of all China. This didn't impress Truman.

IN JANUARY 1950 the President read at a news conference a statement saying this country would not intervene to save Formosa from the Red Chinese, either with arms or military advice. He did say he would continue economic aid.

Yet, within six months Chiang, who had lost all his importance for the United States, suddenly became very important through no doing of his own. With the beginning of the Korean War in June 1950, the United States decided to defend Formosa to protect its flank in the Pacific.

The United States has been tied to Chiang since. It seems safe to say that if there had been no Korean War—in which the Reds directly fought American and U.N. troops—this country would not have objected to:

Hal Boyle 1,000 Yen For A Hostess

TOKYO (AP)—So, having enjoyed the company of a charming nightclub hostess for an hour or so, you wave for the bill.

It looks all right until you get to an item that says: Hostess charge—1,000 yen.

"What!," you might exclaim, outraged at being made to hand over the equivalent of \$2.77 for the pleasure of 60 minutes of her company.

Sure you danced with her, bought her a couple of drinks. And she probably turned on the charm—the more charming because of the broken English—to inflate your masculine ego.

Besides, it didn't seem like 60 minutes. It seemed like 10.

That's the whole point. If that's the way you felt, she did her job well.

At 1,000 yen an hour, the charge at the top clubs, a good hostess averages 5,000 yen an evening, which with days off comes to 130,000 yen—\$361 a month. This in turn is about 10 times more than what she'd earn in a daytime office job.

By U.S. standards, a secretary drawing \$3,600 a year could expect \$36,000 as a nightclub hostess.

Though the profession is one that invites prejudice, more and more girls, emancipated from pre-

war restrictions, are finding hostess jobs in nightclubs and cabarets throughout Japan.

Some do it for the quick money—though the temptation for high living keeps only a few from saving enough to quit and open up that dream of bar or coffee shop.

Some become hostesses for fun and adventure—though disillusionment usually sets in quickly.

But most take on the profession from the simple need to make a living. That fearful line about having to support an invalid mother, or pay for a brother's education, isn't always bunk.

"No experience necessary," proclaims the newspaper ads for hostesses. But any seasoned gal will tell you it's a tough job that calls for an infinite supply of charm, politeness—and quick thinking.

So six months later you'll go back to the same nightclub, and out of the milling humanity a happy voice will sing out:

"Hello! long time no see!"

Maybe you don't remember, but she does. Her job depends on it. It's the same girl responsible for that outraged comment you've now forgotten about.

Anyway, what's another thousand yen or two?

—By KENNETH ISHII, for Hal Boyle, who is ill

Around The Rim The Sickness Of Vandalism

When I arrive at the gates of St. Peter, I wonder if I'll find the pillars there carved up by those faceless Killoys who have a compelling urge to whittle and deface.

Marring public buildings, recreational areas and statues by carving or writing names thereon perhaps is one of the lesser sins of the vandals, who seem to get bolder and more vicious each year.

THERE ARE giants who still walk this earth. There are others of us, less talented but content to bask in reflected glory, and there are those who seek to befoul the contributions of anyone making a worthwhile contribution by debunking and, far worse, destroying.

The vandals are a peculiar breed. Youth absorbs most of the blame for rampant vandalism but the sickness is not confined to any age group.

VANDALISM comes in many forms. Ride through any public park and you're sure to see signs of it.

A prime example is the Moss Creek Lake near Big Spring. The city went to a great deal of trouble and some expense to install garbage cans in claps planted in concrete — solely for the benefit of picnickers and those who wanted to dispose of litter.

Within a matter of days, the miscreants,

obviously working under cover of darkness, had torn the concrete bases from their foundation and dragged them free.

REST ROOMS built around the lake were damaged severely, sometimes beyond repair.

So many reports of heavy damage inflicted by vandals flood the offices of authorities that reading about them gets downright monotonous at times!

Picnic tables broken apart. Concessions booths burned to the ground. Broken beer bottles strewn along beaches and public thoroughfares. Signs defaced and uprooted. Windows in schools broken. Ugly signs painted on the sides of public buildings. Any such act is a crime against society.

PERHAPS THERE is no hope of entirely eliminating such taints. The most we can hope for is to devise more effective ways of controlling them and we can do that only through increased vigilance and by meting out sterner punishment to the guilty.

The vandalism will continue and, I fear, increase as long as society remains tolerant of such behavior and the guilty know they can escape with a lecture and perhaps a slap on the wrists.

—TOMMY HART

Inez Robb

Needed: Air-Conditioned Suit

Hell hath no fury like a woman scorned or terrors for the bulldog breed that has lived through the summer and the early autumn in New York.

This ordeal by sustained heat and humidity has revealed a surprising void in this gadget — happy nation that has even taken the strain out of serving the roast through the invention of an electric carving knife.

ON A UTILITARIAN par with the electric toothbrush, the electric carving knife clearly points to a not-far-distant day when all the flat silver will be electrified and man sits passively at table while he is automatically fed, even as Elijah by the ravens.

But all this side-bar stuff isn't pinpointing the "surprising void" in American life. That void is a small, portable air-conditioning unit or suit for the individual. There is a fortune to be made in such a contraption when the heat and humidity are contriving to drive the citizenry loco.

NOW WHEN Alan Shepard and Gus Grissom climbed into the capsules that took them on their sub-orbital flights, I distinctly remember the teevee commentator, on both occasions, pointing out that each man carried with him a small, portable air-conditioning unit for his flight suit.

Surely it can only be a step from air-conditioning a flight suit to perfecting an air-conditioner suitable for a sack suit or a house dress. I have great faith in transistors and American ingenuity. All I ask is that the latter get going.

PEOPLE CAN'T stay cooped up in an air-conditioned room indefinitely. Sometimes we have to venture out in the burning streets and sometimes we even have to suffer in non-air-conditioned environs. I have been thinking steadily about persons-

(1) Letting the Chinese Communists take over Formosa and (2) letting them into the United Nations as the government of China instead of Chiang's government.

But there was the war. And today, after 12 years of being unable to get closer to the mainland than his fortress on Formosa, Chiang still perpetuates the myth he's the rightful boss of all China.

As a result of the war, and some events afterward, this country has solid reasons for being sore at Red China. But some of the United States' own friends think its resistance to a U.N. seat for Red China is on thin ground.

For example, the United States points to Red China's aggression in Korea. But by that reasoning, it can be argued, Russia should be thrown out for the way it marched into Hungary to smash the 1956 uprising, and so should Britain and France for their attack on Egypt the same year.

alized, or His and Her, air-conditioners ever since I went to the non-air-conditioned Metropolitan Opera the other evening from Leningrad, imported by impresario S. Hurok.

It was at the end of a day when the thermometer had hit 90, and was still hitting it in the old auditorium. Never before had I seen an orchestra play in its shirt sleeves in the old Met or the men in the audience shuck their coats.

NOR HAVE I ever seen performers as dripping wet as the members of this brilliant Kirov company. I kept wondering if the Odette-Odile of "Swan Lake," Inna Zuhovskaya, could go the course in the sweltering heat. (She did.) and then I began to wonder if I could. (I did.)

Finally, in the third act, when the Princess and the Evil Magician (probably a nasty old capitalist — imperialist) sat on a dual stage throne and chatted during all the pyrotechnic dancing in that act, my husband, our guests and I couldn't help but wonder what they were discussing.

IT WAS MY hunch that the Princess was expressing a moist hope that the next auditorium they played would be air-conditioned.

One of our guests thought the magician was probably complaining that the awful heat was a capitalist trick to kill the ballet.

Another guest surmised that the princess was advising the magician, if he could get away from the political commissar, to get a load of Macy's.

But my husband insisted, despite the heat and the still to be invented individual air-conditioners, that the magician was saying wistfully, "If I defect, do you think Hurok can get me steady work?"

U. S. Scores With Space Flight

WASHINGTON—Whether Gagarin and Titov, the Soviet spacemen, actually circled the earth or whether they merely parachuted to earth from a previously fixed location after a satellite had gone around the globe has not been conclusively proved as yet. But high officials here say that the American project where-by a "simulated astronaut" traveled around the earth in orbit last week proves that it is theoretically possible that the Soviets didn't actually put a man on the two satellites as claimed.

OFFICIALLY the course of the government here is not to express any doubts on the subject. This is a wise bit of diplomacy. But it is conceded privately that proof of the alleged flights by Gagarin and Titov is still lacking. As one space expert put it: "They may have had a man in their satellites and he may never have been ejected, or it may have crashed and someone else could have parachuted from a fixed location and claimed to have gone around the world himself."

The artificial astronaut was constructed so it could breathe, sweat and talk just like a human being, and, except for two minor defects, it did just that.

GROUND STATIONS throughout the world monitored the flight of the American capsule and kept a close check on its progress. The artificial astronaut was a small, grey box of instruments three feet high, two feet wide, and one foot thick. It was laced with hoses, pipes and wires designed to put the same load on the capsule's environmental control system as a man would. In fact, three main purposes were fulfilled:

1. Oxygen was inhaled and carbon dioxide was exhaled, and this filled the cabin with heat and moisture, creating conditions comparable to a man breathing.

2. A MAN'S BODY heat was simulated by an electrical heating element which indicated the capsule temperature a map might endure.

3. Pre-recorded messages were played back from two tape recorders designed to permit an evaluation of the whole communications system.

The messages were similar to those an astronaut himself might make in flight. The voice was that of Assistant Flight Director Howard Kyle. He used the same sort of words as astronauts would employ in actual flight to test the space-ground radio.

ALL AROUND the world the tracking stations listened. One minute after the

launching the signals began to come in loud and clear. A station in Australia was the last to have "contact" with the voice tapes, as there developed a technical difficulty which can be remedied. There was also a slight leak in the oxygen system.

Other radio instruments on board did send back information on vibration, acceleration and temperature in the capsule. This, of course, wasn't pre-recorded but was provided simultaneously by scientific instruments.

A SPECIAL color-movie camera, automatically operated, was placed in one of the portholes to photograph the view. Another camera was pointed through a periscope, and a third snapped shots of readings on the instrument panels.

In addition, there were some devices aboard which can be operated either automatically or by a human astronaut. Thus, the spacecraft turned itself into the proper position in orbit when it first reached outer space. Also, the on-board timing mechanism was geared to trigger the retro-rockets which slowed the capsule after completing its orbit and sent it into a planned target area in the Atlantic Ocean near Bermuda. The capsule, with all the scientific instruments in it intact, was recovered.

JUST BEFORE the flight, the information chief at Cape Canaveral said: "It's supposed to do everything a man could do." Apparently the artificial astronaut did just that.

What does it all prove? It demonstrates that manned and unmanned flights around the world are feasible. But there is still no proof that either Gagarin or Titov did it. Indeed, there is a suspicion that they were trained to come down in a parachute at a given spot and that neither one really had circled the earth.

Enthusiasm?

MIAMI, Fla. — The Miami City Commission decided a while ago it should have a municipal beautification committee. Twenty-five members seemed like a good number.

But word got around and it seemed that everyone wanted to belong. Request after request was granted and finally 131 citizens were appointed.

Then the committee had a meeting. Nineteen members showed up.

To Your Good Health Endometriosis Can Cause Infertility

By JOSEPH G. MOLNER, M.D.
"Dear Dr. Molner: I have endometriosis. How does this prevent pregnancy? Does it affect a baby when one is pregnant?—Mrs. S. M."

Let's start with a basic fact. The lining of the uterus is called the endometrium.

Normally this lining first thickens then sloughs off as a woman goes through the menstrual cycle. It then thickens again.

However, sometimes this curious tissue appears elsewhere in the abdominal area. It may attach to the ovaries, bladder, inner abdominal wall, bowel. How it does so is not understood. But it happens often enough so it is a fairly common condition.

Anyway, after this tissue becomes "transplanted," it still obeys the cyclic changes, thickening, sloughing off, thickening again in response to the normal changes in ovarian hormones.

Endometriosis is mainly found in women in their 30's or older, and not in young girls. You'll see soon why I stress this.

This "transplanted" tissue may to some degree block the route by which the ovum reaches the uterus. Therefore it can prevent pregnancy or else make it difficult.

However, if pregnancy does occur, endometriosis has no effect on the baby at all.

In general, endometriosis is fea-

tured by increasingly painful menstrual periods—and that is why I pointed out that this condition does not occur in young girls. They sometimes have some moderate painfulness, perhaps strongly influenced by the nervous tension of the beginning of a new phase of their lives. This, however, usually soon passes away into normal activity. But since, understandably, girls (or very young women) are concerned about such things, I want to make it clear that endometriosis is one thing they can completely forget about. It occurs (if ever) only after a fair number of years of the menstrual cycle.

Treatment varies widely, depending on the severity and extent of the trouble. In many cases administration of certain hormones is an adequate solution.

In extreme cases, removal of the ovaries is advisable. This, of course, puts an end to any possibility of pregnancy, so it is not a step to be adopted lightly.

One important reason for careful observation and treatment is that this disease is one of the causes of infertility in women, even if there is apparently no blockage of the route by which the ovum travels.

"Dear Dr. Molner: Is Parkinson's Disease curable?—A.P.H."

It can be controlled. I prefer not

to say "cured."

"Dear Dr. Molner: I am a girl, 16, and have been dieting spasmodically. I have noticed that recently I have a tendency to bruise very easily. Could it be due to some vitamin or mineral deficiency?—B.B."

You haven't given me much to go on—but I have noticed for many years that "dieting" often includes avoidance of milk. Milk contains calcium—which is necessary in rapid healing of bruises. So don't omit milk. Make it skim milk if you choose; that's fine. Skim milk contains the necessary calcium but has been shorn of its fat. Be sure you include citrus fruits or juices daily.

Are you bothered with ringing in the ears? If so, write to Dr. Molner in care of the Big Spring Herald for his booklet, "Ear Noises—Their Causes and Cures," enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Duchess

Miss Jean Houston Daniel, daughter of Governor and Mrs. Price Daniel, will be the Duchess of Texas in the Texas Rose Festival in Tyler, Oct. 19-22. Miss Daniel is a University of Texas coed majoring in education.

First Yankee Moon Object 'Talking Ball'

NEWPORT BEACH, Calif. (AP) — The first object the United States lands on the moon will be a white "talking ball" 25 inches in diameter capable of telling us whether the moon ever gets the shakes.

When will this happen? Sometime next year—if we're lucky. The part luck will play was told last week by James D. Burke, manager of Project Ranger, which is the U.S. space agency's first effort to send a rocket to the moon.

"If we're lucky enough to get one of the first three moon-bound Rangers to its destination we'll be happy," Burke said at the first public showing of the moon capsule.

That, he said, is why the first three lunar-aimed Ranger vehicles includes nine space vehicles. The first, launched last Aug. 23 to see how its hardware functioned in space, was not aimed at the moon. It was only partially successful—some of the hardware didn't work.

Ranger No. 2—to be launched by year-end, will be a duplicate of No. 1. Rangers 3, 4, and 5 are designed to land "talking balls" on the moon's surface. The final four Rangers will try to take television pictures of the moon up to the point of impact.

Burke displayed for the first time a full-scale model of the capsule, made at the Ford Aeronautics plant here.

Here's how it will work, Burke hopes: After being blasted into space by an Atlas-Agena B rocket the Ranger-vehicle will streak for the moon under its own propulsion.

Sixty-six hours after lift-off, as the skeletonized vehicle is 70,000 feet above the surface of the moon, the white ball will separate from the vehicle and plunge downward at 6,500 miles an hour.

At 50,000 feet a retrorocket will fire, slowing the ball so it hits the moon at a speed of 70 miles an hour.

Burke said the Ranger series would provide four different kinds of information men will need before they land on the moon.

1. Cameras will tell what the surface of the moon is like.

2. A radar altimeter will show the hardness of the moon's surface.

3. A spectrometer to analyze radiations from the moon will tell what chemicals and metals are in its crust.

4. The seismometer, a shock measuring device, will count how frequently the moon is hit by large meteorites.

Welch Defines 'Democracy'

CHICAGO (AP) — Robert W. Welch, founder of the conservative John Birch Society, Sunday described democracy as "mob rule," and "the worst form of government there is."

He made the statements in an address to the seventh annual Constitution Day convention of We, The People, a conservative political action and anti-Communist group.

Welch told his audience of 500: "Our founding fathers knew what democracy was and they didn't want it."

He contended that this country had been governed by a Republican form of government until the administration of Woodrow Wilson, when it shifted to a democracy. "A republic," he said, "is rule by law; a democracy is rule by the mob."

Three top officers were re-elected at the convention's closing session. They are Dr. Billy James Hargis of Tulsa, Okla., president; Thomas O'Connor of Chicago, treasurer; and Harry T. Eversham of Chicago, executive vice president and general secretary.

Schools To Open

BRAZOSPORT, Tex. (AP) — The Brazosport public schools, which closed down because of hurricane Carla, will be reopened Wednesday.

No More Spittoons?

DALLAS (AP) — Dallas attorneys are going to have to show more courtroom decorum beginning today — no more putting their feet on tables and no eating of candy bars when court is in session.

The new edicts are contained in a Dallas Bar Association booklet outlining new procedures and behavior standards.

Other new rules: Everyone in

the court will stand when the bailiff opens and closes court each day. Lawyers will wear coats and stand when addressing the judge. Lawyers are not to lean on the bench or converse with the judge in a confidential manner. No eating or drinking or reading of magazines or newspapers.

Big Spring (Texas) Herald, Monday, Sept. 18, 1961 3-B

Reaction among attorneys was mixed. One said he thought it would be a change for the good because "some of the courts are run like a circus."

"Hilarious," was one response. "Why, it is like telling a sophisticated lady not to eat peas with a

knife." "Basically things in Texas are a little more lax — even in the courts," an assistant district attorney said. "As far as I am concerned that formal stuff can stay in the East."

Congress In What May Be Session's Last Week

WASHINGTON (AP) — Congress starts today what may be the last week of its present session with the Senate tangled in a dispute over a proposed change in rules to make it easier to smash filibusters.

A day of maneuvering and talking lay ahead for the senators before they reach a key vote Tuesday on whether to clamp a time limit on the debate over the rules issue.

The House, hitting a faster pace, planned to take up a bill already passed by the Senate to create a new agency, as urged by President Kennedy, devoted to seeking ways to bring about disarmament.

House leaders also hoped for action on a Senate-passed bill extending impacted areas school aid and the National Defense Education Act for two years and another measure permitting France to use U.S. atomic weapons in the North Atlantic Treaty Organization defense framework.

Another measure the House may consider would ease the tax burden on Du Pont Co. stockholders who receive General Motors

shares as the result of a successful government antitrust suit.

The rules fight got under way in the Senate Saturday when Democratic Leader Mike Mansfield, D-Mont., moved to take up a measure that would permit filibusters to be halted by three-fifths of the senators voting instead of two-thirds, as now required.

With the support of Republican Leader Everett M. Dirksen of Illinois, Mansfield filed a petition signed by 21 senators to limit debate on this motion.

A two-thirds majority will be necessary for its adoption.

Under the rules, the vote has to be taken one hour after the Senate meets Tuesday.

Tower To Speak At Dawson Meet

LAMESA (SC) — Sen. John Tower will be the guest speaker in Lamesa Dec. 15 in a fund-raising dinner sponsored by the Dawson County Republican party, it was announced by Gene Dean, county GOP chairman.

The announcement was made at a called meeting of the Republican group and conservative independents Saturday in the Lamesa Chamber of Commerce building.

The session was for the purpose of discussing and considering candidates for the next election.

The December dinner will be held in the Lamesa High School cafeteria at 7:30 p.m. Jack Cox, Breckenridge, candidate for governor in the last election, was also invited to speak, but he said he would be unable to attend.

Directors Meet

The board of directors of the YMCA will meet Tuesday at 4 p.m. Francis Flint, general secretary, said the meeting has been moved forward an hour as several matters of importance will be presented to the board. The Y's new youth director, Curtis Chatham, will be on hand.

Police Help Storm Victims

Big Spring Police contributed several hundred pounds of clothing, food, and household items to secretary Adeline Smythe, put items on the pick-up truck at the police station.

Rusk To Seek Answer On Berlin Compromise

UNITED NATIONS, N.Y. (AP) — Secretary of State Dean Rusk will try to find out from Foreign Minister Andrei Gromyko here this week whether the Soviet Union is ready to negotiate on a compromise settlement of the Berlin crisis or intends to press its demands at increasing risk of war.

High Western diplomats said the fateful issue of war or peace has seldom been more starkly presented in modern diplomacy than it will be in the impending United States-Soviet talks.

Rusk came to New York from Washington Sunday night, following a three-day policy conference with the foreign ministers of Britain, France and West Germany. He said he wants to know from Gromyko whether there is "a ba-

sis for serious negotiations on the questions raised by the Soviet Union in the past months."

On leaving Washington he had expressed cautious optimism about the outcome of his mission, saying "I think it is important to be optimistic until things prove otherwise."

Gromyko, who reached New York by plane Saturday night, would not say whether he was optimistic or pessimistic. He commented: "We'll see each other, we'll meet, and we'll talk."

Both men are here to attend the U.N. General Assembly session opening Tuesday. Rusk said they would "probably be seeing each other" at that time.

Rusk is expected to tell Gromyko that the United States and its allies will not tolerate interference with aircraft flying in the corridors to West Berlin across East German territory. There were several instances last week of Soviet fighter craft buzzing civilian airliners.

He also plans to advise Gromyko that the Western powers will not negotiate with the Soviet Union on peace treaties with a divided Germany or on the terms of a separate peace treaty with East Germany. At the conference in Washington last week the Western foreign ministers decided that any negotiations must be on much broader terms than those proposed by Premier Khrushchev.

Khrushchev has proposed separate peace settlements with East and West Germany, as opposed to the long-standing Western insistence on German unification. Khrushchev has said he will make a separate peace treaty with East Germany which, he claims, would give the German Red regime control of all Western supply lines to Berlin.

Western diplomats said that if Gromyko sticks inflexibly to the Khrushchev line, the Western powers will not negotiate and the danger of a military showdown, especially over use of the air corridors, will increase.

If Gromyko is prepared to agree to a broad negotiation on the problems of Berlin and Germany and related issues of European security, informants said, an East-West foreign ministers conference in late October or early November, probably at Geneva, seems certain.

The policies which the Western powers would follow in such a conference—the concessions they might be willing to make to the Soviet Union—have yet to be worked out. In their meeting in Washington they discussed, without agreement, an unprecedented range of possibilities, including some kind of limited recognition of East Germany, the introduction of United Nations agencies into West Berlin, and the creation of a neutralized zone or a zone of limited armaments in central Europe.

At the same time they reported in a final statement that they had also discussed a number of military, political and economic measures which they are undertaking to counter Soviet pressures on their Berlin position.

Gov. Price Daniel named Ramsey on Aug. 17 to fill the vacancy on the regulatory agency created by the death of commissioner Olin Culberson June 22.

About 300 spectators crowded the Senate chamber and gallery as Ramsey took the oath of office from Robert Calvert, chief justice of the Texas Supreme Court.

The Senate employees presented the new commissioner with a silver bowl.

Ramsey, who was serving his sixth elective term as lieutenant governor, was one of at least half a dozen candidates considered for the job.

Ramsey, 57, was the only man in Texas history to serve six elective terms as lieutenant governor. He also served four years in the House of Representatives and eight years as a state senator from San Augustine.

A protest note Sunday was directed at the West Germans. It did not make clear whether the threat applied to U.S., British and French military planes which might wander off course from the three air corridors linking West Germany with Berlin, 110 miles inside Communist East Germany.

The Soviet note was delivered to the three Allied occupying powers and West Germany.

It said: "In similar cases in the future any violating military fighting aircraft which refused to obey the demand to land in the indicated place will be destroyed by the use of all means, including rockets."

The West German government has blamed mechanical failure for the flight of two F4U jet fighters last Thursday that ended at Tegel Airport in the French sector of Berlin. The Bonn government apologized to the occupying powers — including the Soviet Union.

Rejecting the West German apology, the Soviet note charged the flight was "a prearranged provocation — to exacerbate the atmosphere in the world to the breaking point and nip in the bud any opportunity of agreement being reached on urgent international problems."

Taking the Western Big Three to task, Moscow said in rearming West Germany they "often boast of the fact that they are allegedly in control of the situation."

"While living in a world of such illusions, the Western powers may one day, against their own will, find themselves involved in a destructive war," the note added.

The Soviet note declared the incident undermined the importance of concluding a German peace treaty "and the normalization on its basis of the situation in West Berlin, so as to protect the calm and security of nations."

U.S. Political Temper Has Solons Guessing

WASHINGTON (AP) — The nation's political temper has members of Congress guessing as they prepare to wind up their legislative work and go back to check up with the home folks.

Those who listen to party leaders could decide that the Democrats—or the Republicans—have achieved significant gains in the first session under President Kennedy.

Democratic Chairman John M. Bailey is out with the claim that "vigorous, constructive and progressive leadership from the White House and in Congress has indeed put American on the move again."

Republican Chairman William E. Miller has downgraded Congress' accomplishments.

House Republican Leader Charles A. Halleck of Indiana has predicted that with "the spending back in office" a \$50-billion budget is on its way and inflation will be the order of the day.

The truth seems to be that neither Democrats nor Republicans can gauge at this time just what the country's reaction is to the record of a Congress that has given Kennedy some victories and some upsetting defeats.

It put on the law books some measures the Democrats think will help them in next year's campaign. These include a minimum wage increase, improved Social Security benefits, housing and depressed areas legislation.

The Republicans think they have a big political thing going in the rise in civilian spending, which—added to higher defense outlays—threatens to bring about a \$6-billion deficit next June 30.

Ramsey Joins RR Commission

AUSTIN (AP) — An era in Texas politics ended today as Ben Ramsey stepped from the lieutenant governor's post to the Texas Railroad Commission.

About 300 spectators crowded the Senate chamber and gallery as Ramsey took the oath of office from Robert Calvert, chief justice of the Texas Supreme Court.

Gov. Price Daniel named Ramsey on Aug. 17 to fill the vacancy on the regulatory agency created by the death of commissioner Olin Culberson June 22.

Just prior to the swearing in ceremony, 15 to 20 state senators met with Ramsey in his apartment adjoining the Senate chamber and presented him with a silver tray and silver cups. Sen. Dorsey Hardeman of San Angelo said the tray will be inscribed with all the senators' names.

The Senate employees presented the new commissioner with a silver bowl.

Ramsey, who was serving his sixth elective term as lieutenant governor, was one of at least half a dozen candidates considered for the job.

Ramsey, 57, was the only man in Texas history to serve six elective terms as lieutenant governor. He also served four years in the House of Representatives and eight years as a state senator from San Augustine.

Dawson County Ships Assistance

LAMESA (SC) — The Dawson County area shipment to Hurricane Carla victims in South Texas left Saturday for Corpus Christi where it will be delivered by members of the South Side Lions Club to needy families.

A van load of clothing, household necessities and staple foods was collected by the Lamesa Evening Lions Club and its Lionesse organization. Lending a hand was the O'Donnell Lions Club and the Ackery and Welch clubs.

The local chapter of the American Red Cross also helped.

Bill Corbin, president of the Lamesa Lions, said the van was donated by Lamesa Piggy Wiggly stores. Cash donations, including a \$50 gift from the local Kiwanis Club, were used to purchase staple grocery items.

Adult Volunteer Orientation Set

An orientation for adult volunteers has been scheduled for 7:30 p.m. today at the Big Spring Veterans' Administration Hospital, according to V. J. Belda, director.

All new volunteers are invited as well as former volunteers who wish to take the indoctrination to refresh themselves on volunteer work before starting out anew, according to Mrs. Ara S. Cunningham, director of voluntary service.

Chiefs of the various services which use voluntary workers will take guests about their work and how the volunteer can assist with the multiple services to benefit the patient.

Among services in which volunteers work are registrar, radiology, dietetics, laboratory, social work and nursing services.

Heading the list of speakers for the evening will be Belda and Dr. H. C. Ernsting, chief of staffs.

Berliners Must Get New Jobs

BERLIN (AP) — Communist authorities today told East Berliners who used to work in West Berlin to take new jobs in Red industry or face deportation to the provinces.

An estimated 80,000 residents of East Berlin and its suburbs used to work in West Berlin. They had to quit when the Communists threw up their barrier between the two parts of the city on Aug. 13.

Today the government of East Berlin published a notice that former commuters could take new jobs only with the consent of the official labor office. Those who do not have jobs yet were ordered to report to local branches of the labor office or be subject to the latest decree.

Three persons were arrested at 3 a.m. Sunday and charged in Justice of the Peace Jess Slaughter's court with destroying private property. Mrs. Juana Mendoza told police that some one had broken the glass from the back of her car and had slashed the seats and upholstery.

Gus Ochoteros, Francisco Alcantar, and Sofia Alcantar were arrested at 407 NW 9th, charged with the slashing, and placed in the city jail. They were later transferred to the county jail, and were released on \$500 bond each.

Three Charged In Destruction

Two members of his cabinet preceded him to the gallows Saturday, former Foreign Minister Fatih Rusta Zorlu and former Finance Minister Hassan Polatkan.

The court had sentenced ex-President Celal Bayar and several other high officials to death, but their sentences were commuted to life imprisonment by the military regime that overthrew Menderes' pro-Western government in May 1960.

Menderes' execution was delayed after he took an overdose of sleeping pills in an attempt at suicide.

Two members of his cabinet preceded him to the gallows Saturday, former Foreign Minister Fatih Rusta Zorlu and former Finance Minister Hassan Polatkan.

Menderes' execution was delayed after he took an overdose of sleeping pills in an attempt at suicide.

Two members of his cabinet preceded him to the gallows Saturday, former Foreign Minister Fatih Rusta Zorlu and former Finance Minister Hassan Polatkan.

The court had sentenced ex-President Celal Bayar and several other high officials to death, but their sentences were commuted to life imprisonment by the military regime that overthrew Menderes' pro-Western government in May 1960.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery. This substance is now available in suppository or ointment form under the name Pilement 178. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Pilement 178. At all drug counters.

Soviet Union Threatens To Down Planes MOSCOW (AP) — The Soviet Union says two West German fighter-bombers that strayed across East German territory to Berlin were sent deliberately. It threatened to shoot down "any violating military fighting aircraft" in the future. A protest note Sunday was directed at the West Germans. It did not make clear whether the threat applied to U.S., British and French military planes which might wander off course from the three air corridors linking West Germany with Berlin, 110 miles inside Communist East Germany. The Soviet note was delivered to the three Allied occupying powers and West Germany. It said: "In similar cases in the future any violating military fighting aircraft which refused to obey the demand to land in the indicated place will be destroyed by the use of all means, including rockets." The West German government has blamed mechanical failure for the flight of two F4U jet fighters last Thursday that ended at Tegel Airport in the French sector of Berlin. The Bonn government apologized to the occupying powers — including the Soviet Union. Rejecting the West German apology, the Soviet note charged the flight was "a prearranged provocation — to exacerbate the atmosphere in the world to the breaking point and nip in the bud any opportunity of agreement being reached on urgent international problems." Taking the Western Big Three to task, Moscow said in rearming West Germany they "often boast of the fact that they are allegedly in control of the situation." "While living in a world of such illusions, the Western powers may one day, against their own will, find themselves involved in a destructive war," the note added. The Soviet note declared the incident undermined the importance of concluding a German peace treaty "and the normalization on its basis of the situation in West Berlin, so as to protect the calm and security of nations."

CLERICS DEPORTED HAVANA (AP) — In a blow to Roman Catholic Church influence in Cuba, the government Sunday deported Bishop Eduardo Boza Masvidal and 135 priests and the Spanish ship Covadonga.

Another Wierd Beckett Play

By WILLIAM GLOVER
Associated Press Drama Critic

NEW YORK (AP) — Samuel Beckett provides theater fans with another wierd and baffling experience in his new play "Happy Days."

The two-act, two-player piece of muted action had its world premier in Greenwich Village's Cherry Lane Playhouse. The spectators accorded it polite rather than enthusiastic applause. All probably were trying to figure out precisely what was meant.

France's Irish-born author concocts a surrealistic series of images out of classical allusions, poetic contrivance, sardonic humor and eccentric creative spirit.

Deliberately — as in "Waiting for Godot" and "Endgame" — he avoids the surface answer. The symbols are there for you to figure out.

The locale of "Happy Days" is a sterile plain beneath a "hellish sun." (Beckett sometimes suggests this is all taking place in some post-atomic era.) The main performer is a forlorn female, immobilized within an earth mound, waist-high in act I and chin-high in act II.

Miss Ruth White, who injects a surprising amount of physical animation as well as vocal art into her circumscribed condition, carries the brunt of an 85-minute discourse which shifts and flutters with lyric abandon and off-beat imagery.

She gets a breather occasionally from John C. Becher, who emits assorted grunts, brief phrases and senile laughter from semi-concealment behind a hill-ock.

Director Alan Schneider, Beckett's prime interpreter on this side of the ocean, solves the problems of minimal action and elusive dialogue with success attested by the audience's hushed attention.

Skies Clear Over Texas

By The Associated Press
Skies were clear over Texas Monday and temperatures were mild.

A few light scattered showers dotted the state Sunday but Brownsville, with only .01 inches, was the only point reporting measurable precipitation.

Maximum temperatures Sunday ranged from 77 at Galveston to 94 Presidio. Early morning readings Monday ranged from 55 at Junction to 66 at Brownsville.

The forecasts called for continued fair and mild weather with no major changes in temperatures. The only rain forecast was in the form of widely scattered showers in extreme Southwest Texas.

8-B Big Spring (Texas) Herald, Monday, Sept. 18, 1961

DEAR ABBY

Good Words For Whistlers

DEAR ABBY: I think I am the woman whose neighbors wrote you to criticize her for whistling for her five children instead of calling them by name. Thank heaven my neighbors don't have anything worse than that on me. Imagine the fun they could have if I were caught secretly nipping at the bottle, or jolly around with the meter man!

I want to explain: Several years ago I had an operation on my vocal chords, and I was warned never to strain my voice. So that's

why I whistle for my children. Thanks for letting me defend myself.

MRS. T. M. D.

DEAR ABBY: What's wrong with whistling for the kids? When I whistle for mine, all six of them plus two collies answer me. I have taught my youngsters to whistle because it is a great help if we should get separated from one another at fair, on crowded beaches, in department stores or at football games. Thanks to our family whistle we have never lost a child.

WHISTLING PARENT

DEAR ABBY: Your item about the "family" whistle brought back memories. We had a special family whistle to call each other. If it hadn't been for that my two sons never would have found each other behind the lines in Okinawa during World War II.

PROUD MOM

DEAR ABBY: I have an 83-year-old grandmother on my mail route who can produce the shrillest whistle by sticking two fingers in her mouth and blowing. She has caught me many times when I was already a quarter of a mile down the road. I think being able to whistle like that is a big help.

MAIL CARRIER

DEAR ABBY: My pop took the curse off whistling for us kids this way: He whistled the first four notes of "SWEET ADELIN." And to let him know we heard him, he responded by whistling the next four. Thank you.

THE WHISTLING KID

DEAR ABBY: I'm writing about the "neighbors" who objected to calling children by whistling. We have whistled for ours ever since they were old enough to holler "What?" from several houses away. When we whistled for them they knew they had better head for home and find out "WHAT!"

GENEVA STREET

DEAR ABBY: I am 47, and our "family whistle" is now in use for the third generation. Three notes. One long and two shorts, started when my beloved parents, in their best years, summoned us children home from play.

Years later, lonely, blue, discouraged and almost desolate, I trod the busy streets of a strange eastern city. Like a miracle, above the traffic noises I heard three notes. True and clear! One long and two shorts. Stopped in my tracks, I waited breathlessly. Then-again! Much nearer. Suddenly I located the source. In the cross-walk, striding as fast as his long legs would carry him, was my big country cousin from our home town. Our tears mingled as he folded me tightly in his sheltering arms. Good food, talk of home and loved ones, rekindled energies to successfully complete my mission.

That's just one of dozens of cherished memories of our "family whistle."

ALABAMA

Gas Processors Set Fall Meeting

The fall meeting of the Permian Basin Chapter of the Natural Gas Processors Association will be held at the Sands Motel in Midland Tuesday at 6:30 p.m., according to J. W. Cole Jr., chairman.

A social hour will begin at 6:30 p.m. and dinner will follow at 7 p.m. Speakers following the dinner will be Warren Rhoades, Cooper-Bessemer Corp., and Joseph E. Rench, vice president of NAPCO Corp.

All NGPA members and prospective members are invited, according to Cole.

Weekend Death Toll Is 27; 12 Die In Traffic

By The Associated Press

A mother and infant died when a car crashed into their home and four persons drowned in a boating accident as weekend violent deaths claimed at least 27 lives in Texas.

Twelve of the deaths were blamed on traffic mishaps in the Associated Press tabulation which covered the period from 6 p.m. Friday to midnight Sunday.

The four drownings occurred on a ranch lake in Grimes County. Victims were Robert E. Massey, 56, and Joe Solis, 5, Carmel Solis,

7, and Felix Solis Jr., 10, all of Route 2, Iola.

Killed when a car hit her home in Eden in Concho county were Mrs. Delores Robles, 18, and her 20-month-old son, Salome Robles, Jr.

A cattle buyer from Rising Star, Eugene H. Gresham, was found shot to death near Midland Sunday. Sheriff's Deputy William Taylor said Gresham was hunting rabbits at the time.

Michael Doyle, 12, of San Angelo, drowned in the Concho River in that city Sunday when he fell and struck his head. He drowned in one foot of water.

People 50 to 80
