THE BOOK OF ME MORE THAT I WE SEE THAT

Schools Closed In Northeast Section

By The Associated Press

One of the worst snow and ice storms to hit Texas in recent years grew in fury Monday, practically isolating many cities and communities in East Texas.

Snow continued to swirl down hard over a wide belt, already covered with a blanket ranging up to five inches. Marshall, near the Texas-Louisiana line, was buried inder more than five inches. All schools were ordered closed. Prospects were conditions would grow worse as the snow continued without a let-up shortly before noon.

Kilgore also reported five inches and still snowing, and Gladewater had nearly four inches, the heaviest fall in a number of years:

A serious ice storm enveloped sections of Central

No. 18 in a series of articles published in the public interest to explain and illusstrate the practice of Chiropractic.

WHAT IS CHIROPRACTIC?

The Chiropractor teaches that the brain and nervous system are the root of health. From the brain, nerve energy is distributed through the nervous system to control all parts of the body. When this nerve energy is shut off even slightly between brain and body (by bone displacement in the spine), one or more body functions are interfered with and ill health results. By X-ray analysis and spinal adjustment the Chiropractor is able to relieve nerve interference and re-store normalcy to the affected part. No drugs. No surgery. Nature is the healer.

CASE HISTORY No. 34-This patient had suffered almost continually since 1918 with stomach pains and gases, and had turned from one method to another seeking relief, without result. Eventually the condition became so chronic that he was at times, unable to sleep or eat. On the Chiropractor was consulted. Xment of a segment of the spine which had shut off nerve supply to the digestive organs. A series of adjustments restored the bone to normal position and within a short time the gastric condition

Palmer Graduate

CASE HISTORY No. 98-A typical case of Sciatica. Patient unable to move without suffering great pain. Condition gradually became worse until finally Chiropractic aid was sought. Within one week following adjustments recommendation of a friend, a of the spine, he could move around quite freely and in less ray analysis revealed displace- than two weeks the patient was able to resume an active life.

COMFY CHAIR MAY ENCOURAGE SLUMP

By ALICIA HART NEA Staff Writer

The most cruel advertisement of a woman's age is a sitting position which suggests that she has stopped caring how she looks.

All too familiar is that halfreclining, sitting position in a low-slung, comfy chair. Sitting in such a chair takes the sternest self-discipline to keep a skirt from hiking up, abdomen and bust from looming prominently.

If a woman can't discipline her posture while sitting in this type Congratulations Jo: of chair, she should pass it up. The Opera Study Group of the To resist the temptation to slump in it, she needs to keep her lower back firmly braced against the back of the chair, to extend her legs at a right angle with her spine, to put feet squarely down on the floor and keep ankles to-

Welcome, Oil Men

Midland is host Monday and Tuesday to officers and members of the Executive Committee of the Independent Petroleum Association of America, their first session in the Permian Basin area, and citizens of this important oil center join in bidding them welcome and in wishing for them a pleasant and profitable meeting here.

The IPAA represents the independent segment of the oil industry and is one of the most responsible and most powerful organizations of the petroleum world. Through it the independents have a strong voice in the conduct of the nation's oil industry.

Many problems of significance today confront the independent oil operators. Their leaders, meeting in Midland, will attempt to iron out some of the difficulties facing the group. Legislative proposals also will be discussed and acted upon. It will be a busy session and a most important one. Oil leaders from over a wide area are in Midland to attend the conference.

Busy business sessions will occupy most of the time of the delegates while here, but it is hoped the visitors will take time out to see Midland—its commercial, industrial and residential areas-viewing the rapid growth and expansion which has been brought about largely by increased activity in the oil industry.

Midland is proud to be host to this group of oil industry leaders, and Midland citizens wish to be of every possible assistance to them while here.

A warm West Texas welcome to Midland is extended members of the IPAA.

The Audience Awaits

Though the Big Four foreign ministers have changed the setting of their peace conferences to London, the same old controversies have arisen that deadlocked them in-Paris and Moscow.

An arxious world audience would doubtless appreciate a few less changes of scenery, and a few more changes in the script.

Freedom Of Dress

Civil liberties have triumphed in the village of Camden, N. Y., where the school board gave in, after a threeweek stand, and allowed a 14-year-old girl to come to

We hail this triumph over a discrimination which says | Permanent Three-Man Board that a garb that is all right for mother is wrong for daughter. We rejoice in the defeat of the idea that non-conformity in dress is a punishable sin. And since Camden Winters are cold, we appland the good sense and good taste of this young lady's parents, who apparen'ly decided that slacks are just as warm and a darned sight more attractive than long underwear.

Some educators say fairy tales are harmful to children. Petter not let yours read political statements.

In more ways than one you are better off with health than wealth. Nobody tries to borrow it.

No matter her old you feel you are never as old as you are going to be.

The wise political candidate is the fellow who stands for what the voters fall for.

NOW: 12,800 obsolescent World War II aircraft. 1952. Maintained at present figure; will require 8100 aircraft to keep up.

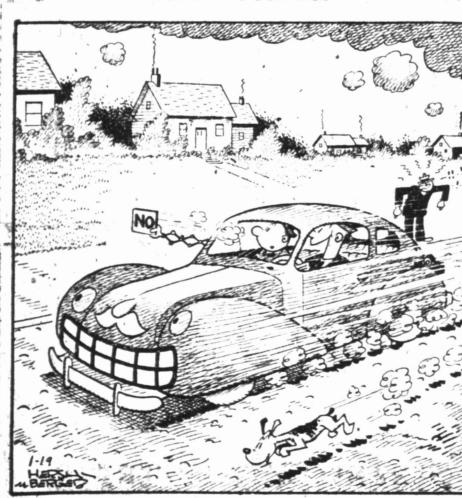

Warning that relative security for the U.S. can only be had by arming so strongly that (1) other nations will hesitate to attack our vital national interests and (2) that if we are attacked, we will be able to smash the assault, the President's Air Policy Commission has recommended that the present Air Force be increased as shown in pictochart above. The committee declares emphatically that the program must start at once and be completed before Jan. 1, 1953, designated as "A-Day," when we must be ready to deal with a possible atomic attack.

) IDLAND, TEXAS! Successor to J. P. Hinsley

From Tailorfine:

That white dew sorta' keeps the air a little on the cool side . . . doesn't put one in a frame of mind to get enthusiastic about the Spring woolens I expect to have in a few days.

The joint is full of workmen today . . . practically all of the building trades are represented . . . and they are really making lots of progress.

All of the new woolens will be available for Ladies' Tailored Apparel . . . as well as for men. Have had quite a few inquiries . . . and we do make Ladies' suits ... slacks ... topcoats ... etc.

Not many days left before the 31st . . . deadline for payment of Poll Tax . . .

Back tomorrow with more poop . . .

Action On Rent Controls Faces Three-Week Wait

WASHINGTON-(AP)-Rent control expires six weeks from Monday. but the nation's landlords and tenants are unlikely to know for another three weeks what kind of an extension to expect from Con-

Senator Cain (R-Wash), chairman of a banking subcommittee holding general hearings on the subject, told reporters he looks for the hearings to run until the

Then, he said, he hopes to lay a compromise bill before the full committee by February 5. Action by that committee will be required before the issue can be sent to the chase floor for debate.

Rent hearings have not yet taken on the other side of the capitol, but Cain said he and Chairman Wolcott (R-Mich) of the House Banking Committee will discuss the subject this week. e al bre seals Offered

Congress already has received a number of individual proposals for extending rent cellings beyond February 29. Senators Ives (R-NY) and Bald-

win (R-Conn) announced plans to introduce a bill Monday to extend current controls to June 30, 1949, and at the same time, restore price lids to residential hotel ac-

The two Republicans said in statement they don't like controls -a view shared by Cain-but in view of the severe housing shortage and the threat of inflation, "it es necessary to prevent unbridled bidding for needed and limited liv-

ing quarters." The Administration has asked that controls be extended until

Oil & Gas Log-

Pennsylvanian, three and one half miles south and west of the one well Petersburg field, and six and one half miles northeast of Abernathy, was swabbing at last re-

This project had re-treated with 5,000 gallons of acid in the open hole at 7,908-87 feet. After the load was lifted the well kicked off and length of time of that flow was not reported. However, it is understood that the period was of about three and one half hours.

Apparently the flow died at the end of that time and the swabbing was resumed. No results of the swab activity have been received.
