

Truman Maps Four-Point Farm Program

GOP Political Foes Challenged To Get Action In Congress

By DOUGLAS E. CORNELL
OMAHA—(AP)—President Truman offered his four-point farm program to a farm belt crowd Saturday night and challenged Republican political foes to get action in Congress where he failed.

"We need action, and action now," he said, "to make sure that our farmers hold the gains they have made since 1932 x x x."

Truman's farm speech represented a shift from the sentimental to the strictly serious.

During the day he joined gayly in a reunion with World War I buddies of the 35th Division. The one-time field artillery captain stepped jauntily along beside his Kansas City barber in a business district parade.

Record Heat Wave Broils West Texas

By The Associated Press
Summertime heat broiled Texas Saturday. Hot South-west winds blew out of Mexico and season temperature records toppled over the state. Sunday will be another broiler—stay in the shade with the lemonade.

Presidio, in West Texas, was Saturday's hot spot—107 degrees. Also done to a turn were Abilene and Crystal City (Southwest Texas) with 106 degrees. Wichita Falls and Mineral Wells sweltered as the mercury bubbled to 104; Dallas, Brady and Wink registered 103 and Del Rio, Fredericksburg, Lubbock, Denison and Fort Worth reported 102. San Antonio, Big Spring, Rock Springs, Laredo and Midland had 101 degrees and even 100's were turned in by San Angelo, Waco, and Junction.

Why Cowboys Get Homesick

Like other contestants and spectators who have seen the critters, Johnny Reynolds of Melrose, Mont., agrees that the bulldozing steers in the Midland Rodeo are the fastest and toughest on earth. Here, he is shown desperately trying to throw his steer to the ground, while the steer merely dazes him to twist another round. Johnny was already sore when this picture was taken; he'd absorbed plenty of punishment in the saddle bronc riding, the bareback bronc riding and the wild bull riding. This picture was taken Thursday night. Friday night, Johnny got thrown from his bareback bronc; his wild bull unloaded him, too; and in the steer wrestling he got another bad fall. It's luck like this that makes a cowboy wish he was back home.

Vandenberg Heads Drive To Restore Aid Fund Cuts

WASHINGTON—(AP)—Senator Vandenberg (R-Mich) took personal command Saturday of the fight to restore foreign aid funds. Indications were that the Senate may restore slashes voted by the House.

Five Die When Giant Flying Wing Crashes

MUROO AIR BASE, CALIF.—(AP)—A great Northrop Flying Wing bomber crashed and burned near this testing field Saturday, killing its five-man Air Force crew outright.

State Politics Boils As Filing Deadline Nears

By The Associated Press
Who will oppose whom in the Summer's political races was just about settled Saturday.

Rodeo Attendance Record Practically Assured Saturday

The attendance record for the 14th Annual World Championship Rodeo was practically assured Saturday night when another near capacity crowd thronged the spacious plant of Midland Fair, Inc.

Midland Woman Dies At Home Saturday Night

Mrs. E. A. Woody, 78, died at 10:30 p. m. Saturday at her home at 600 South Dallas Street here.

Packinghouse Workers Call Off Wilson Strike

CHICAGO—(AP)—The CIO United Packinghouse Workers Saturday night ended its strike against Wilson and Company—the terms were the same as in a settlement three weeks ago with the other three major packers.

BUDAPEST, HUNGARY—(AP)—Angered over state plans to nationalize church-sponsored schools, 500 villagers in Pocspetri attacked the police station and killed one policeman, the Ministry of Interior said Saturday.

Rodeo Thrills Record Crowd

By STANLEY FRANK
For the third night in a row, Midland's record-breaking World Championship Rodeo drew a capacity crowd Saturday night. It was a standing-room-only crowd, one which was generous with applause for the top cowhands and dangerous livestock appearing in the 14th annual show.

Ford Hikes Prices For 1949 Cars

DETROIT—(AP)—Henry Ford II boosted prices on his 1949 model Fords nearly nine per cent Saturday, possibly pacing the auto industry on another upward spiral.

Rodeo Schedule

Sunday—"All-West Texas Day," 2 p. m.—Fourth performance in the rodeo arena.
9 p. m.—Fifth and final performance of the 14th Annual World Championship Midland Rodeo. Presentation of prizes to champion cowboys and cowgirls.

Pension Arguments Pop Up Again In Soft Coat Dispute

WASHINGTON—(AP)—The battle over coal miners' pensions flared again Saturday as the United Mine Workers and the soft coal operators prepared to renew their contract negotiations Monday.

Jewish Command Claims Egyptian Units Trapped

CAIRO—(AP)—The Jewish command said Saturday Israeli troops trapped a "considerable" Egyptian force driving up the Palestine coast and threw back the Egyptian spearhead within 14 miles of Tel Aviv, the capital of Israel.

Housing Bill Stays In Banking Committee

WASHINGTON—(AP)—An effort to pry the Taft-Eliender-Wagner long range housing bill out of the House Banking Committee failed Saturday.

WEATHER

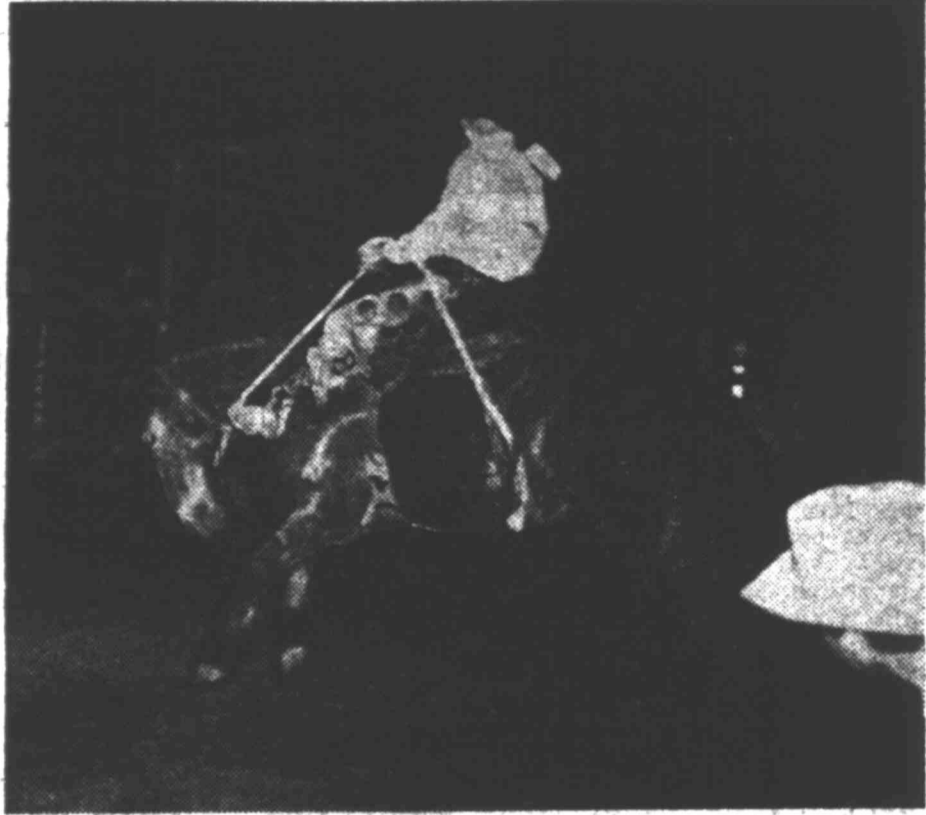

Partly cloudy Sunday and Monday. No important temperature changes.

SOLDIER SUICIDE IS IDENTIFIED AS TEXAN

HONOLULU—(AP)—The Air Force Saturday identified the corporal who committed suicide Thursday while on guard duty as Calvin C. Stephens, Port Arthur, Texas. No reason for the act was given.

FORM CUSTOMS UNION QUITO, ECUADOR—(AP)—A Ecuadorian union of Colombian, Ecuadorian, Panamanian and Venezuelan was voted Friday night by delegates of the four countries to an economic conference.

Action At Midland Rodeo

As Midland's 14th Annual World Championship Rodeo opened Thursday night, many whirlwind action scenes like the two above thrilled a capacity crowd. At top, Bill Ward of Angel Camp, Texas, is shown fitting a first-money ride on a pony called Steptoe. Below, an unidentified rider is about to lay a loop on one of Everett Colborn's hard-bucking calves. Friday and Saturday nights the rodeo was even faster than Thursday night, and Sunday's concluding performances promise still greater thrills for spectators.

TEXAS OIL ROUND-UP—

Nation Begins To Reap Benefits Of Texas Gas Production Boost

By MAX B. SKELTON
Associated Press Staff

Texas boosted its gas production 157 per cent between 1939 and 1947 and today the nation is beginning to reap the benefits.

A recent report of the Texas Railroad Commission lists at least 17 major pipe lines have been completed, are under construction or have been proposed for carrying gas from Texas to the East Coast, the Middle West, the Rocky Mountains and the West Coast.

A recent Federal Power Commission report lists 80 per cent of the nation's gas production currently goes to industries but noted a trend toward gas fuel for homes.

Petroleum industry officials are watching the rapid growth of gas transmission lines with interest, particularly in view of the continued close battle for balance of supply and demand for petroleum and petroleum products.

Ernest O. Thompson, chairman of the Texas Railroad Commission, places the state's gas well production last year at 2,241,897,204,000 cubic feet as compared with only 872,268,000,000 for 1939.

Continued increases in Texas production will continue to increase and reach 4,750,000,000,000 cubic feet during 1950.

A Railroad Commission map shows pipe lines currently carrying Texas natural gas to West Virginia, Newark, N. J., Louisiana and Mississippi, Oklahoma, Kansas City, St. Paul, Chicago, Detroit, Denver and Monterey, Mex.

Most of these projects have lateral lines feeding other areas. Proposed lines or lines under construction in March would serve such areas as New York, Pittsburgh, Ohio, Iowa, Michigan and California.

Rapid-fire natural gas pipe line developments last week saw:

1. The Federal Power Commission approved construction of a \$151,000,000 line by Transcontinental Gas Pipe Line Company over a 1,940-mile route from South Texas to the New York-Philadelphia area.

2. FPC approval for Texas Eastern Transmission Corporation, owner of the government built Big and Little Inch pipe lines, of three new gathering lines to Texas and Louisiana fields. The lines will boost the company's capacity to 500,000,000 cubic feet daily by the end of the year.

3. A federal court of appeals in Washington upheld a 1946 FPC ruling authorizing the Michigan Wisconsin Pipe Line Company to construct a line from the Texas Panhandle to Michigan, with a branch line from a point in Illinois into Wisconsin. The order had been disputed by Panhandle Eastern Pipe Line Company which supplies some parts of Michigan as well as other Middle West states.

Meanwhile, the Oil and Gas Regulatory Commissions of Texas and Arkansas took action to halt wasteful flaring of casinghead gas.

The Arkansas Commission ordered wells of the McKame field, Lafayette County, shutdown effective at 7 a. m., June 1, while the Texas Commission ordered operators of the Flour Bluff field, Nueces County, to appear June 15 to show cause why flaring of gas produced along with oil should not cease.

CRUDE AND GAS PRODUCTION STILL RUNS AT RECORD HIGH
Three oil industry records fell during the week ended May 29, with crude production and runs to stills and gasoline production establishing all-time highs.

The American Petroleum Institute placed crude production at a daily average of 5,451,850 barrels, 11,426 barrels higher than a similar record estimate made by the Oil and Gas Journal and 12,450 higher than API's previous record mark set for the week ended May 22.

The Bureau of Mines placed May's crude oil demand estimate at 5,483,000 barrels and last week announced a June estimate of 5,560,000 barrels daily.

With the three-day Memorial holiday boosting demands, refiners increased gasoline production to its second consecutive weekly record, output totaling 17,827,000 barrels or 579,000 greater than the previous week.

Runs To Stills
Runs to stills jumped to a 5,715,000 daily average, 128,000 barrels over the previous week and 75,000 higher than the previous mark.

Other statistical developments:
Total exports of crude oil and refined products for the first quarter of 1944 were placed at 29,067,000 barrels by the Bureau of Mines, a decrease of 9,827,000 barrels of 25.9 per cent from the first quarter of last year. Refined products were

Nears Ninety

King Gustav V of Sweden, the world's oldest monarch, will celebrate his 90th birthday on June 6. He became king in 1907. This is a new portrait of the Scandinavian ruler.

Blind H-SU Student Declines Operation To Restore Eyesight

DALHART, TEXAS.—(P)—Blind Alfred Johnson decided Saturday "to leave well enough alone" and not seek 100-1 odds on the success of an operation to transplant the corneas of another's eyes to his own.

Joseph Lee Sautler, condemned to die in the electric chair June 9, offered his eyes to the Hardin-Simmons University student, who lost his eyesight ten years ago in an air-gun accident.

"My idea now," said Johnson, "is to drop the whole thing and leave well enough alone."

Johnson, who is at the home of his parents here, said doctors tell him there is only one chance in a hundred for success and that even then he would be able to see only well enough to get around.

In Houston last Wednesday to consult a specialist a second time in regard to the operation, he was advised that preliminary operations would be necessary before the transplanting operation could take place.

Johnson said he would not have time to submit to the preliminary operations before the scheduled execution of Sautler.

Furnished House Is Complete With Money

BURBANK, CALIF.—(P)—When bank teller Gifford Hunter, 33, rented a furnished house, he didn't figure on it being quite so completely furnished.

Opening a dresser drawer Saturday, he found \$22,000—\$10,000 in cash, the rest in war bonds. He turned it over to the owner's attorney. The house had been standing vacant three months.

Oil Treaty To Be Returned To Committee

HOUSTON.—(P)—The president of the Texas Independent Producers and Royalty Owners Association said he was advised Saturday by Senator Arthur Vandenberg (R-Mich) that the Anglo-American oil treaty will be returned to a Senate committee in January.

H. J. (Jack) Porter, Houston, said Vandenberg advised him the current session of Congress will take no further action on the agreement.

Vandenberg's message was received after the association had forwarded to the Republican leader a resolution advocating that the agreement be returned to the Foreign Relations Committee for new hearings.

DIES AT GALVESTON

GALVESTON.—Mrs. Rachel Sukirk Pabst, 69, native of Galveston and a former state director of the Daughters of the Texas Republic, died at her home here Saturday.

Magnolia Prospector In West-Central Eddy County Might Be In Ellenburger

HOBBES, N. M.—Magnolia Petroleum Company No. 1-W State, deep prospector in West-Central Eddy County, 27 miles west of Carlsbad, and 690 feet from south and 1,900 feet from east lines of section 16-21a-22a, had reached 10,882 feet in Ellenburger dolomite, and was continuing.

So far as has been reported, this project has not logged any signs of oil or gas, since entering the current formation.

An unofficial, tentative top on the Ellenburger has been picked at 10,690 feet. That has not been officially verified.

It is understood that the venture will continue to make hole until it finds oil, gas or water, in the Ellenburger, or enters granite.

Other Ventures Drilling
DeKalb Agricultural Association, Inc., No. 1 S. angle, slated 7,000-foot wildcat in North-Central Eddy County, seven miles north of Artesia, and 1,900 feet from south and 690 feet from east lines of section 15-18a-20a, had progressed below 9,144 feet in dry shale and lime, and was making more hole.

W. H. Black Drilling Company No. 1 Shilidneck, in Southwest Chaves County, 12 miles northwest of Hope, and 3,001 feet from south and 690 feet from west lines of section 24-16a-20a, had progressed below 5,787 feet in dry lime and shale, and was drilling ahead. It is contracted to about 6,500 feet.

Chaves Project To Case
Alpha Exploration Company No. 2 Litchford, wildcat in Northeast Chaves County, in the vicinity of Elkins and 1,900 feet from north and west lines of section 24-17a-20a, was bottomed at 2,534 feet in lime, and was preparing to run a string of 7-inch casing so production tests can be made of a section above the current total depth.

That zone had shown some slight indications of oil.

Richfield Oil Corporation No. 3 Comanche unit, in East-Central Chaves County, and 1,900 feet from north and 690 feet from east lines of section 24-11a-20a, was on total depth of 6,976 feet in Pennsylvania lime and shale, and at the end of the week was fishing for bit cones.

When that obstruction is removed from the hole drilling will be resumed.

To Make Production Tests
Richfield No. 3-2 White, 1,900 feet from south and 570 feet from west lines of section 6-12a-20a, and also in East-Central Chaves County, had progressed to 2,480 feet in San Andres-Permian lime and was making production tests on a zone above that point which is logged some slight indications of petroleum.

Richfield No. 4-1 White, 690 feet from south and 1,900 feet from west lines of section 31-9a-20a, was still bottomed at 2,126 feet, and was waiting for a cable tool unit to drill the plug on a string of casing which had been set on the current bottom, and then drill ahead.

Barnsdal Oil Company No. 1-A State, slated 7,000-foot prospector in East-Central Chaves County panhandle, and 690 feet from north and east lines of section 22-28a-22a, was making hole below 4,453 feet in lime.

Found Slight Shows
This wildcat had some slight indications of possible production at 4,290-4,330 feet in the San Andres-Permian lime.

It ran a four hour drillstem test on that zone. Recovery was 150 feet of slightly oil and gas cut drilling mud. There was no free oil, and no water in that interval.

The venture drilled on down to 4,432 feet and took another test at 4,330-4,432 feet. The tester was open three and one half hours. Recovery was 180 feet of drilling mud and 270 feet of slightly sulphur water. There were no shows of oil or gas.

Interested observers had thought when the petroleum shows were developed in the upper section that operator might run a production test on those indications.

However, that expectation was blasted when the test of the lower formation showed only sulphur water. The exploration is to continue to about 7,000 feet to explore the Drinkard horizon of the lower Permian.

Deep Venture Continues
Skelly Oil Company No. 7 Sims, scheduled 11,000-foot wildcat in the old shallow Penrose-Skelly field of East-Central Lea County, and 2,200 feet from south and west lines of section 8-23a-37a, had reached 7,270 feet in an unidentified dolomite, and was making more hole.

Stelly No. 1 U. D. Sawyer, the first seepout from the discovery for flowing production from the Devonian to open the Crossroads field, in extreme Northeast Lea County, and 690 feet from north and east lines of section 33-9a-36a, to start

Well Completions Run Ahead Of 1947

AUSTIN.—(P)—The Railroad Commission of Texas Saturday reported 149 oil well and 15 gas well completions for the last week in Texas.

The completions raised the year's total to 8,000 and 298 respectively. Last year to date, there had been 2,265 oil well and 244 gas well completions.

During the week there were one oil and one gas wildcat drilled to put oil wildcats for the year at 151, ahead of last year's figure by 27, and gas wildcat for the year at 27, one less than a year ago.

Monahans Has Summer Recreation Program

MONAHANS—Kids, Inc., a summer recreation program, will be started here June 14 when all Monahans youngsters are requested to meet at the high school at 9 a. m.

Supervisors of the program are Harley Sledge and Francis Apple, both members of the Monahans school faculty.

Camels can travel three or four days in the desert without suffering hunger or thirst.

Advertise or be forgotten

Senate Candidate

Maurice T. Bobbitt of El Paso, a candidate for state senator from the 29th Texas Senatorial District, will speak over KCRB, Midland, at 8 p. m. Monday. He was in Midland recently to arrange for the broadcast and to visit with voters of this area.

Soviet Agent Zorin Reported In Prague

PRAGUE, CZECHOSLOVAKIA.—(P)—A rumor circulated Saturday that Soviet Vice Foreign Minister M. A. Zorin was back in Prague. He was here last February at the time the Communists seized power in Czechoslovakia.

The rumor was accompanied by a second one to the effect that President Eduard Benes would resign next week. Neither rumor could be confirmed. The foreign office said: "Nothing is known of Mr. Zorin being here."

Camels can travel three or four days in the desert without suffering hunger or thirst.

Reuther Says Ford Must Fall In Line With Chrysler, GM

DETROIT.—(P)—To Walter Reuther, the recent General Motors wage settlement "broke a log jam" of major disputes which, he says, threatened "economic paralysis" of the nation this summer.

Reuther, recuperating from gun wounds inflicted by an unknown assailant April 26, expressed himself at a press conference at his home.

Wearing a heavy body cast, khaki shorts and shoes and wincing with pain from his shattered arm, Reuther gave these other views on economic and political subjects:

1. The Ford Motor Company, which has proposed wage cuts in forthcoming bargaining with the UAW, "can't escape" following either the GM cost-of-living agreement or the flat 18-cent hourly increase given by Chrysler Corporation to settle a 17-day strike.

2. The union hopes that price reductions within a year will prove the Chrysler settlement more beneficial to the worker than GM's new agreement.

3. A big armament program, combined with the European Recovery Program and industry's "itching for still higher profits," will push prices ever higher and postpone a depression for several years at least.

4. The Republican Party "must accept full responsibility" for Congress' failure to control prices and must enact housing and fair employment practice legislation and expand social security.

5. President Truman's "heart is in the right place but he is just not adequate to meet the challenge."

6. Third Party leader Henry Wallace "daily makes more of a captive of the Communists—not consciously, but it is a political fact."

On the Lone Prair-e-e—In Palestine

Missing College Girl Is Object Of Search

DENTON, TEXAS.—(P)—A 21-year-old college girl, missing since Tuesday, was the object of a statewide search Saturday.

She is Virginia Carpenter of Texarkana, who came here Tuesday to register as a junior student for the Summer session of the Texas State College for Women.

Police Chief Jack Shepherd said dormitory officials told him she did not register at the hall. Her mother, Mrs. Hazel Carpenter of Texarkana, discovered the girl was missing when she attempted to telephone her.

Third Worker Dies Of Blast Injuries

BORGER.—(P)—Tom C. Goodner, 18, of Clarendon, Texas, died here Saturday of burns and other injuries suffered here Thursday in an explosion that claimed two other victims at the Phillips Petroleum Company.

The accident occurred when a salt water tank at the Alamo Refinery exploded. The others killed in the mishap were Earl O. Linn, 19, Oklahoma City, and Herbert Haun, 26, Meeker, Oklahoma.

The backswimmer is an insect that makes a boat of its overturned body, and rows with its legs.

Humble Finds New Devonian Oil Field in C-SW Andrews

Humble Oil & Refining Company is taking potential test gauge and will complete the No. 1 J. E. Parker, Central Southwest Andrews County wildcat as an oil well and a new discovery for flowing petroleum from the Devonian.

This development is 600 feet from south and west lines of section 2, block A-4, 4th survey, and about 25 miles southwest of the town of Andrews.

It treated the section in the top of the Devonian at 8,390-8,430 feet, with 3,000 gallons of acid. The well kicked off after swabbing and flowed to the pit for a time to clean, and was then turned to tanks.

In the first hour it gaged 12 1/2 barrels of fluid, through a three-quarter inch tubing choke, with a shut-in of 20 percent sediment and acid water. In the next three and one-half hours it flowed through three 1/8 inch chokes and made 59.2 barrels of fluid, with a shut-in of 12 per cent sediment and acid water.

In a 30 minute flow through a one-quarter inch choke the wildcat made 18.8 barrels of fluid, with a shut-in of six per cent sediment and water.

The remainder of the fluid was new 24 gravity oil. Gas-oil ratio was 1,080.

Operator killed the well with water, installed a Christmas tree and then started taking the potential test to complete the new field opener.

This discovery is three miles north of the Three Bar field, the nearest proven area for Devonian production, and it is three and one-half miles west of the multi-pay Martin field.

No. 12 Parker drilled to total depth of 10,358 feet in the Ellenburger and had no oil in that formation. That zone developed considerable salty, sulphur water.

5,500-FOOT WILDCAT STAKED IN NORTH PECOS TERRITORY
Pan American Production Company and Taylor Refining Company have filed an application with the Railroad Commission of Texas, requesting a permit to start drilling at once on their No. 1 McDer Company well, to be a 5,500-foot wildcat in North Pecos County, to explore into the Ellenburger.

It will be 600 feet from north and 1,800 feet from west lines of section 26, block 14, T&STL survey, and 13 miles southwest of Grivin. Rotary tests will be used.

TEXACO GETS SHALLOW OIL SHOWS IN E-C CRANE TEST
The Texas Company No. 1 King, in East-Central Crane County, five miles northwest of the town of Crane, and 1,900 feet from north and east lines of section 27, block X, COB&RGNG survey, ran a four-hour and four minute drillstem test on an upper Permian lime zone at 2,370-7 feet.

Gas showed at the surface in two hours and 19 minutes. Recovery was 216 feet of oil and gas out drilling mud.

A Lane Wells survey and a Schlumberger survey were taken and operator is now reaming the hole.

SUN HAS A LITTLE MORE SIGN IN S-C MITCHELL
Sun Oil Company No. 1 Ellwood estate, 17 1/2 miles south of Colorado City, in South-Central Mitchell County, and 1,800 feet from northeast and 600 feet from southeast lines of section 26, block 16, SPRR survey, cored at 7,537-46 feet in the Mississippian. Recovery was four feet of dolomite and shale.

The material was hard and tight. It had a fair oil odor and some traces of oil stains. The project is coring ahead.

Sun No. 1 Schattell, in Southwest Scurry County, through seven and one-half miles southwest of Snyder, and 1,900 feet from south and west lines of section 18, block 97, H&TC survey, cut a core at 5,341-49 feet in shale, and was coming out with that specimen. Up to now this project has not found any possibilities of commercial production of petroleum.

SHAMROCK TO COMPLETE SE COKE DISCOVERY
Shamrock Oil and Gas Corporation No. 1 Warden, Southeast Cokes County discovery from the Ellenburger, seven miles southeast of Robert Lee, and 4,850 feet from south and 2,970 feet from east lines of Jose Antonio Gutierrez survey No. 22, flowed 199 barrels of oil in 24 hours through a 20/64th inch tubing choke, from pay at 6-238-50 feet, which had been treated with 1,000 gallons of acid. No water was developed during that period.

Operator is now taking potential test gauge to complete the opener of a new producing area for the deep pay. It is two miles northwest of the Seaboard Oil Company of Delaware and Southern Minerals Corporation No. 1 M. G. Reed, discovery for Ellenburger production in Southeast Cokes County.

That well flowed 130 barrels of oil and 120 barrels of salt water in the latest 24 hour test reported, using a 24/64th inch tubing choke. That section had been acidized before the well was completed.

GUIBERSON PROSPECT SHRUTIN FOR STORAGE
Allen Guiberson, et al., No. 1 Jack Lester, in North-Central Cokes County, three miles northwest of Sano, and three and one-half miles southwest of the discovery for flowing production from the Marble Falls lime at Sun Oil Company No. 1 Arledge, to open the Arledge field, was shuttin waiting for storage.

This project had flowed some salt water, with slight signs of oil, from open hole at 6,485-6,525 feet in the Marble Falls. It is in southeast quarter of section 308, block 1-A, H&TC survey.

A Schlumberger survey had indicated that there was a possibility

of a new producing area for the deep pay. It is two miles northwest of the Seaboard Oil Company of Delaware and Southern Minerals Corporation No. 1 M. G. Reed, discovery for Ellenburger production in Southeast Cokes County.

That well flowed 130 barrels of oil and 120 barrels of salt water in the latest 24 hour test reported, using a 24/64th inch tubing choke. That section had been acidized before the well was completed.

Oil Editor

That the water is coming from the bottom four feet of the hole. That zone may be plugged off, when testing is resumed. Up to now this venture has not shown that it could be completed as an oil well.

STANOTEX DRILLS AHEAD AT NW BUNNELS DEEP VENTURE
Standard Oil Company of Texas No. 1 Lilly, in Northwest Bunnel County, one mile north of Norton, and 300 feet from north and 2,120 feet from west lines of the Lilly tract in the Burnett County School Lands No. 271, had reached 5,280 feet, in dry Ellenburger dolomite, which had been entered at about 5,150 feet. It has not found any signs of oil or gas in that formation.

This project is making more hole and will probably continue until it gets the water in the Ellenburger.

CENTRAL HOCKLEY WILDCAT TO RE-ACIDIZE AND TEST
Brown and Wheeler No. 1 Devitt, Central Hockley County prospect, two miles south of Leveland, and 440 feet from south and west lines of labor 6, league 29, Rusak County School Lands, is preparing to treat the section in the San Andres-Permian dolomite, and the plugged back total depth of 4,871 feet, with 6,000 gallons of acid.

That zone had swabbed at the estimated rate of about 25 barrels of oil per day. An initial injection of 4,000 gallons of acid.

After making that showing the project drilled on down and encountered considerable water at 4,937-39 feet. Operator then plugged back to 4,871 feet.

The hole swabbed dry with a casing swab. It showed ten gallons of acid water, with no oil and gas during one hour of the swabbing. Operators are hopeful that the 6,000 gallons of acid will wash off the face of the formation and bring back the oil which was indicated by the swabbing before the venture drilled into water.

GULF CONTINUES DRILLING AT MIDLAND PROSPECTOR
Gulf Oil Corporation No. 1-E Wilson Bryant, 14 miles south of Midland, in Central Midland County, and 600 feet from north and 1,900 feet from west lines of section 36, block 39, TP survey, T-3-S, had reached 10,008 feet in lime and shale, and was making more hole.

BOTH SE CROCKETT VENTURES ARE "STILL PREPARING"
The Texas Company No. 1 Victor L. Pierce, 21 1/2 miles southwest of Ozona, in Southwest Crockett County, and 988 feet from north and 1,980 feet from east lines of section 5, block O, C. W. Brown survey, was still preparing at 11,839 feet in Ellenburger dolomite and was rigging up to start running a diamond core barrel.

Texaco No. 1 Tom Smith, 600 feet from south and 686 feet from east lines of the west half of section 5, block O, C. W. Brown survey, had bottomed at 9,440 feet in a sand and shale, section, and was conditioning the drilling mud before undertaking a drillstem test on a section which had threatened to blow out a few days ago.

The same to be investigated is thought possibly to be in the Simpson, middle Ordovician.

AMERIDA PLUGS SW ECTOR EXPLORATION TO DEEP ZONE
Amerida Petroleum Corporation No. 1-A Connell, stepout from Ellenburger in the Jordan, field near Penwell in Southwest Ector County, and 658 feet from north and 1,987 feet from west lines of section 25, block B-16, pal survey, has been plugged and abandoned at a total depth of 7,887 feet in dry chert.

This venture did not report having logged any signs of oil or gas. The project is understood to have been checked rather low, structurally.

SE STERLING WILDCAT IS WAITING FOR ORDERS
L. G. Yarborough & Son, et al., No. 1-Rufus W. Foster, Southeast Sterling County wildcat, about eight and one-half miles southwest of Sterling City, and 600 feet from north and east lines of section 10, block 13, SPRR survey, had drilled to 5,300 feet in shale, and was shut down for orders.

This project logged some slight signs of oil in thin streaks between 5,500 feet, and the current bottom, and operators were considering the advisability of running a string of pipe to allow testing those shows. The bottom of the hole is said to be in the Wolfcamp, lower Permian.

This project did not encounter any signs of possible production in the Wichita-Albany zone of the Permian, which is the pay section about three miles to the east in the Anderson-Prichard Oil Corporation and The Vickers Petroleum Co., Inc., No. 1 Marvin Frances Foster, discovery of the Marvin field.

SW STEP-OUT TO BENEDUM DISCOVERY IN DEVONIAN
Slick-Urschel Oil Company and Plymouth Oil Company No. 1 Standefer, et al., southwest stepout to the discovery for Ellenburger production in the Benedum field in East-Central Upton County, had reached 10,151 feet in Devonian lime and was making more hole.

Some geologists picked the top of the Devonian at 10,135 feet, others called that mark at 10,155 feet. Elevation is 2,881 feet.

The prospector is 600 feet from north and 1,900 feet from east lines of lot 3, section 40 1/2, P. B. Scott survey.

Slick-Urschel and Shell Oil Company, Inc., No. 1 Gordon, northwest flanker to the Benedum field discovery, had reached 8,448 feet in lime and shale, and was drilling ahead.

Plymouth and Slick-Urschel No. 1 Taylor, north of the No. 1 Alford, and 300 feet from north and 2,120 feet from west lines of the Lilly tract in the Burnett County School Lands No. 271, had progressed past 8,709 feet in lime, and shale, and was continuing.

UPTON WILDCATS ARE MAKING MORE HOLE
Oil Carries, Inc. No. 1 Max Pray-State of Texas, three miles northwest of the Benedum field, had reached 10,005 feet in dry Devonian lime, and was going ahead.

Humble No. 1 Barnett, about three miles north of the No. 1 Alford, had drilled under 10,201 feet in lime and chert, and was making more hole.

Republic Natural Gas Company No. 1-E-A Barnett, two and three quarter miles northwest of the initial producer in the Benedum district was making hole under 8,395 feet, in lime and shale.

Wilshire Oil Company No. 1 McElroy, in West-Central Upton County, five miles east of the McElroy field, and in the northeast corner of the southwest quarter of section 148, block E, COB&RGNG survey, had reached 11,622 feet in lime and shale, and was making more hole.

Magnolia Petroleum Company No. 1-A TXL, in North-Central Upton County, just south of the south line of Midland County, and 600 feet from north and west lines of section 31, block 40, TP survey, T-4-S, had drilled past 6,849 feet in dry, hard shale, and lime, and was drilling ahead.

Richardson and Bass No. 1 Neal, in Central-East Upton County, five miles east of Upland, and in northeast quarter of section 9, block Y, GC&SP survey, had reached 6,747 feet in lime and shale, and was drilling ahead.

NEW MAGNOLIA PIPE LINE TO MIDDLEWEST IS OPERATING

A new pipe line to carry oil from the Permian Basin, and from other oil fields in Texas, to the middle-west started operations last week, when the Magnolia Pipe Line Company began delivery of crude through its new 650 mile, 20-inch line from Corsicana, Texas, to Patoka, Ill.

The line delivered its first oil at its northern terminus on Wednesday. It will handle approximately 100,000 barrels of petroleum each 24 hours.

The oil will go to refineries at East St. Louis, Ill., East Chicago, Ind., Trenton, Mich., and Buffalo, N. Y.

The line started operations exactly 365 days after the first joint of pipe was laid. It is the longest big-inch crude oil pipe line constructed, and finished since the war.

This new means of moving oil will increase the demand for petroleum from the Permian Basin. Oil from this area is carried from the Magnolia's Midland tank farm through that concern's pipe lines to a connection with the Corman, Patoka trunk, and then goes north.

ATTENDANCE OF 200 PERSONS DUE AT SAFETY CONFERENCE
An attendance of about 200 persons is expected for the one-day Permian Basin Foreman's Safety Conference in Midland, on June 11. The sessions will be at the Hotel Scharbauer.

The affair is sponsored by the Texas Safety Association and the oil companies and other industrial concerns of this territory are co-operating.

The conference will include both morning and afternoon business sessions, and a banquet at night. Companies and individuals desiring to make advance reservations for the banquet may do so at the Midland Chamber of Commerce.

COATS HAS ORGANIZED NEW DRILLING COMPANY
Raleigh P. Coats, of Lubbock, 1-A TXL, in North-Central Upton County, just south of the south line of Midland County, and 600 feet from north and west lines of section 31, block 40, TP survey, T-4-S, had drilled past 6,849 feet in dry, hard shale, and lime, and was drilling ahead.

Richardson and Bass No. 1 Neal, in Central-East Upton County, five miles east of Upland, and in northeast quarter of section 9, block Y, GC&SP survey, had reached 6,747 feet in lime and shale, and was drilling ahead.

Each of the Upton County projects listed above is slated to go to between 12,000 feet and 13,000 feet, to try to find and test the Ellenburger.

Gamedan Oil Corporation No. 1 Neal, one-half mile northeast of Rankin, in Southeast Upton County, is still bottomed at 6,715 feet in lime and is waiting for orders. It has a string of 9 5/8-inch casing cemented on bottom. It is expected that this project will resume making hole in the near future.

KRIBBS TO QUIT BANKLINE AFTER 16 YEARS SERVICE
George R. Kribbs, who has been manager of the Permian Basin operations of Bankline Oil Company since that concern came into this territory in October 1943, has resigned, effective as of July 11.

George says when that day arrives he is going to take off for New Mexico, to visit his family several weeks. When he has had all the rest he can take he will return to Midland and be associated with J. C. Williamson and Alvin L. Atwater, consulting geologists and independent oil operators.

The agreement to set up an office in the Wilkinson-Poster building, as soon as that structure is completed. They are now located in the Wilkinson building.

Kribbs has been with Bankline 16 years. He came here from the concern's headquarters at Los Angeles.

L. E. Kanne recently came to Midland from Los Angeles, and is in the Bankline's office in this city. He probably will move his family here in the near future.

JOHN E. MILES TO SPEAK TO API MEETING AT HOBBBS
John E. Miles, of Santa Fe, N. M., land commissioner of New Mexico, and a former governor of the state, will be the featured speaker for the meeting of the Permian Basin Chapter of the American Petroleum Institute, to be held at the Hobbs, (N. M.) Country Club, on June 12. The session will start at 6:30 p. m.

Fred (Chris) Christanelli, of Bartlesville, Oklahoma, and his concertina, will headline the entertainment program. A barbecue dinner will be served after the session.

A golf tournament for members of the chapter will be held during the day on the Hobbs Country Club. The matches will start at 9 a. m. Entries must be made in advance with Frank R. Lovering, at Shell Oil Company, Inc., in Hobbs.

SPECIAL AIR FLIGHT TO SANTA FE SCHEDULED
G. J. (Doc) Sevier, district landman in Midland for The Pure Oil Company is undertaking to render a service to the operators of this area who plan to attend the upcoming auction sale of oil and gas leases on New Mexico state lands, to be held in Santa Fe on June 10.

Sevier has a commitment from Continental Air Lines that a special airplane will be provided to make the trip from the Midland Air Terminal, to Santa Fe and return on June 10-11-12 passengers for the round trip can be secured.

The fare will be slightly over \$50.00 per person for the round trip. The plane will leave Midland early on the morning of June 10 and arrive in Santa Fe in plenty of time for the sale, which is to start at 10 a. m. It will return to Midland the same afternoon, after the close of the sale.

Persons interested in making the

trip on the special should contact Sevier at the Pure offices in Midland, or Continental Air Lines at Midland Air Terminal.

MORE BASIN OIL TO START MOVING NORTH AND EAST
Around July 15, approximately 70,000 barrels of Permian Basin crude oil per day will start moving out of Wichita Falls, to refineries in the middle-west in tank cars.

The oil will be carried from this region through the new Basin Pipe Line System's line to Wichita Falls, and there loaded into the tank cars, by The Texas Pipe Line Company and by Shell Oil Company, Inc., at loading racks now being constructed by the Missouri-Kansas-Texas Railway.

The line from Jal. N. M., by the way of Wink, and Midland, is due to be ready to start delivering oil at Wichita Falls, by the time the loading racks are finished.

It is expected that the remainder of the new pipe line, from Wichita Falls, on to Cushing, Okla., and from there to Wood River, and Salem, Ill. will be completed, and ready to use by May 1, 1949. When that segment of the big line is finished the tank car shipments from Wichita Falls will be discontinued.

Discussions of the Intervening Formations

Registration for the trip will be made at the regular meeting of the society in the Wooten Hotel in Abilene, Thursday night, June 10, at which time John M. Hills of Midland, will present a paper on the paleogeography of the northern part of the Permian Basin of West Texas and Southeast New Mexico.

Friday night, following a day in the field, E. C. Moore, state geologist of Kansas, will talk on rocks of Permian age in the Colorado River valley of Texas, and Professor M. L. Thompson of the University of Wisconsin, will talk on the evolution and stratigraphic use of Permian fusulines.

A sub-committee of the association is working out details for the route of the trip, which on the first day will be in the Brazos valley in the vicinity of Albany, Breckenridge and Eastland, and on the second day will be along the Colorado valley in Coleman County.

Several inquiries from members of other Texas geological societies have already been received concerning the trip, and visitors are expected from San Angelo, Midland, Fort Worth, Wichita Falls, and other points.

SKELLY PROMOTES HUNT TO TULSA HEADQUARTERS
A. A. (Red) Hunt, of Monahans, who has been superintendent of the production department of Skelly Oil Company in West Texas, for 12 years, has been promoted to the office of general superintendent of production for the company, and has moved to Tulsa, the Skelly general headquarters.

Perry Nunley, who has been stationed at Penwell, in the Skelly production organization, has been elevated to the place at Monahans, formerly held by Hunt.

MULDROW BASE MAP HAS BEEN REVISED; PLANT IMPROVED
A revision of the Muldrow base map of West Texas and Southeast New Mexico, showing all completed and drilling wells, up to the present date, has been finished, and copies of it are now available to former purchasers of the map, for the cost of reproduction.

The map is on a scale of one inch to 8,000 feet, and covers approximately 75,000 square miles.

The map is issued by Muldrow Aerial Surveys, Inc., of Midland.

That concern has enlarged and improved its reproduction department. O. L. Kennedy, formerly with J. J. Johnson Company, of Dallas, is manager of that section of the Muldrow organization.

Officials of the concern reveal that in recent weeks there has been a considerable increase in the demand for the base maps and also for aerial maps of both the Permian Basin and the Rocky Mountain regions. The company's plant has added some new equipment and increased its personnel in order to handle the orders.

The Reporter-Telegram, Midland, Texas, June 6, 1949

'Pretty Definitely' Martin Dies Bows Out Of Senate Race

LUFKIN, TEXAS.—(AP)—Martin Dies, candidate for the U. S. Senate, said here Saturday he was "pretty definitely" out of the race.

He said in a statement to the Lufkin Daily News that "as much as I would like to be senator, I had rather be a one-galium farmer on a wind-swept clay hill in East Texas with nothing to eat but gobbers and chittin' than to be a law-breaking Charley McCarthy for any money hog on earth."

The former congressman and candidate of the Committee on Un-American Activities demanded earlier that candidates in the race be made to keep their campaign expenses within the \$10,000 legal limit.

His statement said that "once again the high office of senator will be put on the auction block and sold to the highest bidder."

He told The Associated Press he was "pretty definitely" out of the race. Asked if that meant he was definitely out, he replied: "I guess that's right."

Among those still in the race are Houston Attorney George Peedy, Congressman Lyndon Johnson and former Governor Coke Stevenson.

to 8,000 feet, and covers approximately 75,000 square miles.

The map is issued by Muldrow Aerial Surveys, Inc., of Midland.

Officials of the concern reveal that in recent weeks there has been a considerable increase in the demand for the base maps and also for aerial maps of both the Permian Basin and the Rocky Mountain regions. The company's plant has added some new equipment and increased its personnel in order to handle the orders.

Life Underwriters Elect New Officers At Midland Meeting

Committee nominations for new officers of the Permian Basin Life Underwriters Association were unanimously approved at a meeting of the association Saturday noon in the Private Dining Room of the Scharbauer Hotel. Association members from Midland, Odessa and Big Spring were present.

O. A. Hickman of Big Spring was named president for the coming year, succeeding Roy McKee of Midland. R. J. Graham of Midland was made vice president, and Herman McNab of Big Spring, secretary.

W. W. Barker of Midland was elected director for a one-year term, and Pierce Wely of Odessa, W. B. Hartrider of Midland, and Miss Julia Boyce of Big Spring were made directors for two-year terms. Roy McKee was elected national committeeman.

Installation of officers will be held in Big Spring July 10. McNab, Graham, Joe C. Clark of Colorado City, and John T. Agee of Lamesa were announced as winners of "quality awards" for having sold \$150,000 or more in life insurance with 90 per cent persistency.

The guest speaker of the day was L. T. Miller, Jr., C. P. A., Midland, who discussed the relationship between accounting, law and life insurance and the importance of the relationship to clients, especially members of partnerships and corporations.

EISENHOWER TO ASSUME COLUMBIA POSITION MONDAY

NEW YORK.—(AP)—Without fuss or feathers, Gen. Dwight D. Eisenhower will become president of Columbia University Monday.

He takes charge of the 194-year-old institution just four years and a day after he sent the mighty Allied Expeditionary Force across the English channel in the invasion of Normandy.

Faults Are Emphasized

The Senate War Investigating Committee's probe of Howard Hughes was a good deal like a Fourth of July rocket. Everyone stood around with jaws agape when it started off with a roar and a shower of sparks.

Well, for the record, the fast fragment of the Hughes investigation has landed in the form of a minority report by the committee's Democratic members.

This report called Hughes' flying boat an "unwise and unjustifiable expense as a wartime project." It branded his photo reconnaissance planes "a failure as a war project."

The Democratic members point out that the government has accepted delivery of both the flying boat and the reconnaissance planes. They point out that these and 61 other types of planes never saw combat.

The minority report recalls that, in a 1943 report of this same committee, Senators Brewster and Ferguson subscribed to a recommendation that experimental work on this same flying boat be continued.

The main point of the minority report, however, is one which has been raised before by outsiders about congressional committee procedure. We do not suggest that both parties have not employed this procedure.

There may be political motives behind this minority criticism, as there may be behind the Hughes probe. But the fact remains that damnation by innuendo is a too-frequent practice of congressional investigators.

We agree with the minority report's conclusion: "Recognizing the great value of congressional investigations to our system of government and the necessity for continuing of broad powers in the committees of Congress, nonetheless we believe the protection of citizens requires that they should know their rights, duties and immunities in such proceedings."

You never know whether to take some politicians at their face or two-faced value.

Making A Clown Of Us

WASHINGTON COLUMN

'Voice Of Washington' Needs Overhaul Rather Than Probe

NEA Washington Correspondent By PETER EDSON

WASHINGTON — (NEA) — It's a good thing there isn't a "Voice of Congress" program, or a "Voice of the White House." If there were, and if they were broadcast to the world, there's no telling what the furriers might think of America.

The entire White House record on handling the Palestine issue seems to have been governed by emotion rather than reason.

State Department handling of a diplomatic exchange with Moscow backfired, throwing the Administration for a bad propaganda loss.

Admirals, generals and fly boys are still feuding, despite armed services unification and orders to get together.

In Congress the recent record of jitters is unbelievable: Trying to tack civil rights or race segregation riders onto military appropriation bills.

Authorizing a bigger air force than the secretary of defense says is necessary, but blocking the draft and UMT.

Quibbling over appropriations for European recovery through peaceful means, for reasons of economy. Wanting to wreck the United Nations by premature charter changes.

Approving \$200,000,000 worth of pork barrel flood control, but denying \$4,000,000 for TVA expansion.

Hamstringing the reciprocal trade agreements program which is now a basis of American foreign policy.

Cutting Bureau of Labor Statistics appropriations when its cost-of-living index is being made a keystone in the auto wage agreement.

Whooping through so-called anti-Communist legislation of unclear meaning and doubtful constitutionality.

Hounding government officials like Army Secretary Kenneth Royall, Col. Hamilton Robinson of State Department's security branch, and John C. Virden of Commerce, because their relatives or in-laws are reported to be fellow travelers.

Summoning Gen. Douglas MacArthur from Tokyo just to testify before a Senate Appropriations Committee, like some two-bit bureaucrat. What kind of a hero's reward is that?

How can you explain all this excitement over a few corny Voice of America broadcasts to Latin America? All the stuff on those broadcasts was driven, and maybe the government owes the Latinos an apology for an insult to their intelligence.

Canada Protects Last American Wild Buffalo Herd

OTTAWA, ONT.—The last truly wild herd of American buffalo is on the increase, and the Dominion Wild Life Service figures the breed is pretty safe at last from dying out like the dodo.

That's assuming, of course, that something unforeseen doesn't happen. The buffalo, or bison, despite its rugged appearance, is a sucker for a tuberculosis germ or liver fluke.

Canada's wild herd lives in Wood Buffalo Park, a 17,000 square mile unfenced area near Great Slave Lake in Northwest Canada. The best estimate of the Wild Life Service is that it now numbers more than 9,500. In small groups, the animals roam their preserve—about twice the size of the state of Massachusetts—under aboriginal conditions, except for being protected.

The bison live mostly on natural grasses, for the area has a relatively light snowfall.

An Audubon Society naturalist who saw the herd from an airplane reported: "In the whitest and sedge along the north shore of Lake Claire we saw several thousand bison."

"The prairie marsh stretched away for miles, marked by wallows and deeply trodden trails, with here and there an old bull standing guard, his hoofs digging at the soft earth, his tail standing straight out and arched at the tip to warn of his suspicion and anger. There were prairie chickens, too, and ducks, but not as many ducks as buffalo!"

These bison are of a variety slightly different from the plains bison which used to inhabit the west by the millions. They are larger and darker than the plains bison. And, instead of vast, open prairies, they prefer a territory broken by woods and the popular bluffs common in the Great Slave Lake region.

Wild Life Service experts say the Wood Buffalo herd lives as far north as it is possible for bison to exist. This saved it from slaughter by Indians and commercial hunters.

Canada kills off a limited number each year to provide meat for isolated missions and buffalo coats for the Royal Canadian Mounted Police. To make a coat for a Mountie takes one and a half to two buffalo hides.

Nation's Public Enemy No. 1 Is Common Rat

AP Newsfeatures Writer Forget the wolf at the door, for a moment, and consider the rat under the floor.

Government experts regard the rat as a No. 1 enemy. They've got a drive on now to get him more nearly under control.

He costs you \$2,000,000,000 a year. He carries 10 kinds of disease. He's blamed for some of the worst scourges in history.

What sort of a beast is he? Like you, he has immigrant ancestors.

Unlike you, perhaps, his ancestors did not come over on the Mayflower.

The brown rat presumably were common ship rats, from which few ships were free in those days. Ship rats reached Europe from the Orient in the eleventh century and probably landed here with the first explorers.

The master race of rats in this country today is the brown rat. Also an Oriental out of Europe, he didn't get here until Revolutionary War times. He is a better (or worse) rat than the smaller ship rat, and soon took over the country.

As Many Rats As People The experts say the United States has as many rats as people. Big cities have slashed their rat populations in recent years through rat-proof construction, extermination, the disappearance of the horse and other factors.

On farms especially rats still abound. In one Texas county some years ago 153,730 rat tails were turned in during a six-week rat-killing contest.

The brown rat may be known also as barn rat, wharf rat, sewer rat, gray rat, Norway rat. He may be brown or gray or black. The white tame rat is an albino variation.

It takes a bushel of grain to support a rat for a year in the style to which it is accustomed. In a single night, rats may destroy hundreds of bushels of grain.

Rats can eat anything that humans eat and live most any place humans live. But they have a fatal weakness. They cannot throw up what they have eaten. That lays them wide open to destruction by poison. If they swallow even a mild dose it may be fatal.

Even a catch. When it comes to swallowing poison, rats are choosy. They'd rather live, the rats.

77-Year-Old Woman Makes Ocean Flights

LONDON — (AP) — A 77-year-old great-grandmother, Mrs. Caroline Gibson of Los Angeles, left by plane Saturday night for Johannesburg to visit her sister.

She flew to England two weeks ago to see her oldest son, James Gibson of Leicester, whom she had not seen for 22 years.

"Too old to fly? Nonsense," she said. "I don't acknowledge the word old. When I get home I'll have something to tell my 15 grandchildren and two great-grandchildren."

In the Union of South Africa she will see her sister, Mrs. James Beattie, for the first time in 43 years.

Lettuce was raised as a salad crop in the days of ancient Rome.

Bored by It All

The annual Basket Fair is a big day in Shanghai, but this lad seems bored by the festivities. The Fair commemorates the legendary birthday of Buddha. As the number of worshippers grew, the amount and variety of merchandise for sale grew proportionately. This boy's stall contains wooden basins. (Photo by NEA-Acme staff correspondent Warren Lee.)

60 New Polio Cases Reported For Week Ties Previous Record

AUSTIN — (AP) — Incidence of poliomyelitis in Texas this week bounced back to the all-time record high set two weeks ago—60 new cases in a seven-day span.

State Health Officer George W. Cox reported that the new cases brought the state's total this year to 294, leading all previous years in the comparable period.

Cox warned that incidence of the disease is gradually spreading northward. He urged cities to redouble their efforts in removing trash and garbage and in their campaigns against rats, flies and mosquitoes.

During the week there were 18 new cases of the disease reported from Harris County, 11 from Cameron County, 6 from Nueces County, 5 in Hidalgo County, 3 in Willy County.

Controversies, Tax Problems, Student Strikes, Trustee Rows Feature School Difficulties In Beaumont Area

By J. CULLEN BROWNING

ORANGE, TEXAS—(P)—Down in the extreme southeast corner of Texas in a triangular district roughly 25 miles on each side and cornered by the cities of Beaumont, Port Arthur and Orange and industrial empire is being created.

From a prewar start as the nation's biggest oil refining center, the area has become through conversion of war plants and the addition of new industries ranging in size from one-man hole-in-the-wall shops to multi-million dollar chemical plants, one of the brightest spots on the nation's industrial map.

This mushroom growth has created problems aplenty but none come close to matching in magnitude or severity that of the area's public schools. There has developed in the district a continuing series of school controversies, tax problems, student strikes and trustee rows so widespread as to be termed by one of its editors in a recent radio commentary "an arse-wide disease with its roots deep in the social structure."

He suggested the organization of an arse-wide committee of interested parents, taxpayers and educators, to study these problems on a regional basis and work out an overall solution.

Incidents Cited

Behind the editor's suggestion lay these incidents over a period of a few months, all originating in a radius of 25 miles.

1. A student strike at the Bancroft School in suburban Orange which began April 22 and continued until the term ended May 14. This walkout apparently set a new record for longevity for a situation of its kind and was termed by the principal, Miss Inez Wallace, as really a strike of parents. It is slated to wind up in the courts during the summer months.

2. An intra-community controversy in the Bridge City School district, eight miles south of Orange, which came up in the district court here May 14 with a hearing on an injunction suit seeking to restrain the board of trustees from holding an election May 22 on the question of restoring the district to independent status.

The injunction petition, filed by John O. Young, Orange attorney on behalf of a citizens committee at Bridge City, contends that the election would not be legal because it comes within one year from another March 20, 1948, at which the voters decided to revert from independent to common school status.

Political Rights

District Judge F. W. Hustmyre declined to enjoin the election, saying it was a "political right not to be denied by injunction." Young gave notice of appeal.

3. A controversy in the Port Neches independent district, 20 miles southwest of Orange, which wound up with an unique public hearing conducted in Austin by State Supt. L. A. Woods. This arose when members of a previous board of trustees terminated its contract with Supt. C. L. Yarbrough two years in advance of its expiration date. A short student strike ensued.

Following several days of testimony at the Austin hearing, Woods ordered Port Neches trustees and Yarbrough to resign and the superintendent paid off for the remainder of his contract. A new board was to be elected. If it re-hired Yarbrough he was to return the money paid for the unused portion of his contract, otherwise the superintendent was to keep about \$10,000 paid him on his resignation.

The new trustees re-employed Yarbrough, the money was paid back and outwardly the district has returned to normal.

4. An overcrowded situation in the Port Arthur independent district, 18 miles south of Orange, which is complicated by an intra-faculty squabble recently aired in a public hearing. This district late last year voted a \$3,500,000 bond issue for expansion of its schools. During the campaign there was some controversy as to locations which still boils up now and then.

The faculty row started several

weeks ago when the board of trustees honored a request by Supt. Z. T. Fortson, who had the backing of a group of patrons, not to renew the contract of John Tomlin, athletic director and football coach. Tomlin asked for a public hearing, gathered around him his supporters, and the two groups spent several hours one night airing the pros and cons of the difficulty.

In the end the board reversed itself and renewed Tomlin's contract with a raise in pay.

5. The passage recently with some opposition of a \$3,000,000 school improvement bond issue in the city of Beaumont, 25 miles west of Orange. This campaign was featured by full-page ads made up mostly of promises of fallen plaster on teachers' desks, outmoded plumbing and electrical installations and tumbledown buildings, all headed "These Are Our Schools."

Consolidation Proposed

Now a movement is afoot for consolidation of the French and possibly South Park independent districts in suburban Beaumont with the city system. An election on the latter is being planned for June 30 and indications are either proposal will meet with opposition, particularly those in the smaller districts who fear they are about to be swallowed up.

6. Another controversy at Vidor, 15 miles west of Orange, where an attempt is being made to convert the district from its position as a run high school area, largest of its kind in Texas, to independent status. This squabble threatened to reach the courts last January following an election on the question in the district. The election was held in a snow storm and the officials at one polling place failed to open the voting box because of the cold.

The proposition to convert Vidor to independent status was defeated by a margin of 14 votes and its backers protested the election because the box failed to open. Both sides got together, however, and appointed a Vidor resident, O. Woodrow Wilson, young assistant Orange County attorney, to arbitrate the dispute. He worked out a compromise whereunder a new election would be held.

7. A rough-and-tumble intra-community battle over taxable valuations in the Orange independent school district where, because of its huge holdings in real property, the federal government this year contributed one-third of the \$750,000 cost of operating the schools.

New Valuations

This controversy arose several months ago when the school board, following a survey conducted by a Fort Worth appraisal firm, published new valuations reducing some taxes but upping most and creating an overall increase of about one-third the previous total.

Along with the new valuations the

Russian Radio Bombards Japs With Propaganda

TOKYO—(P)—Powerful Russian broadcasting stations are bombarding Japanese radio listeners with the Soviet version of Nipponese events and news of the world.

The broadcasts from Moscow are relayed through stations at Khabarovsk or Komsomolsk. More and more Japanese daily are tuning in the Russian broadcasts, which may be picked up by any ordinary radio.

The Kremlin's strident views are voiced by both men and women who speak excellent colloquial Japanese to the Japanese who prefer their news and comments in English. The Russians provide a half hour summary in that language.

The Russian version of the day's events in Japan sometimes varies with the American view and the facts. But the broadcasts contain a surprising amount of information which indicates Soviet communications with Japan are excellent.

MacArthur Draws Fire

Every move by General MacArthur draws a Russian reaction. His view that America should help Japan has been dubbed by Moscow as the "MacArthur plan." Russia says it is aimed at making Japan an American colony and "reducing the Japanese workers to the status of industrial slaves of American capitalists."

The Moscow radio avers that Americans are trying to tie the Japanese to the United States with "dollar chains."

The broadcasts occasionally indicate the Russians are nettled. One announcer recently berated Japanese and Americans for stories coming from Japan about Nipponese war prisoners still held by the Russians. Some 761,000 of them still are unaccounted for. The announcer quoted various Japanese prisoners of war who literally gurgled their "gratefulness to the people of the Soviet Union" for treatment accorded them during more than two years in prison camps.

Japs Seen Desperate

The Russian broadcasters insist that Japan is in desperate straits, with militarists and reactionaries—helped by American capitalists—preparing to return to power.

What Japan needs, Moscow counsels, is a "peoples' democratic government" of a type advocated by the Japanese Communist leader, Sanzo Nogata.

Peron's Envoy

Jeronimo Remorino, newly-appointed Argentine Ambassador to the United States, will fly to Washington in mid-June to assume his post. Remorino succeeds Dr. Oscar Ivanissevich, recalled some time ago to assume a cabinet assignment.

RCA Annually Picks Leading Performers

Members of the Rodeo Cowboys Association swear by the organization, not at it.

In fact, the annual high point winners in the RCA award system are considered the top hands by most followers in this section.

Here are the 1947 final winners of the RCA point award system:

CATTLE ROFING	
Troy Fort	18,482
Toots Mansfield	15,585
Zeno Farris	11,733
Buck Sorrells	8,787
Jess Goodspeed	8,626

BAREBACK RIDING	
Larry Finley	7,415
Bud Linderman	7,393
Bill Linderman	6,918
Sonny Tureman	6,445
Wallace Brooks	5,585

BULL RIDING	
Wag Blessing	8,156
Todd Whitley	7,643
Ken Roberts	6,706
Gerald Roberts	5,281
Glenn Tyler	5,176

SADDLE BRONC RIDING	
Carl Olson	8,765
Bill Linderman	8,250
Jerry Ambler	7,822
Buster Ivory	6,929
Casey Tibbs	6,565

STEER WRESTLING	
Todd Whitley	10,999
Homer Pettigrew	8,959
Howard McCrory	7,091
Ken Boen	7,026
Charley Colbert	7,013

STEER ROFING	
Ike Rude	4,389
Carl Arnold	3,800
Buck Goodspeed	3,702
Jim Snively	2,968
Buddy Neal	2,202

Winner of the all-around cowboy award under the RCA point system, for 1947, was Todd Whitley, Bethel, Okla.

Money was first milled (stamped with raised borders and fluted or grooved edges) to prevent the fraudulent removal of metal and to protect coins from wear.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JUNE 6, 1948-7

My Love, 100 To 9 Shot, Wins 169th Epsom Derby

EPSOM, ENGLAND —(AP)— My Love, French-bred colt, burst into the lead 200 yards from home Saturday to win the 169th running of the Epsom Derby by a length and a half. The king and the royal family were among the spectators, whose number was estimated up to a million.

The winner paid 100 to 9 and was followed across the finish by Royal Drake. Noor was third, another four lengths in back. Thus the top three purses in this richest of all derbies went to two men.

Less than a month ago the Aga Khan paid Leon Volterra, Paris movie magnate, \$50,000 for a half interest in My Love.

In addition to sharing the first prize of \$40,736, Volterra also is the owner of the second-place Royal Drake and Noor is the personal property of the Aga Khan.

Favorites Finish Fourth
My Babu, the 4 to 1 favorite, was fourth and Black Tarquin, owned by New York's William Woodward, was a struggling eighth after making a bid three furlongs from the wire. Woodward's second colt, Senator II, finished far back.

My Love whipped the largest derbies in 88 years—there were 32 starters, by doing the mile and a half on the uphill-downhill, rain-soaked racing trip in two minutes and 40 seconds. It was the slowest time since 1892.

Straight Play grabbed fifth place and Djeddid, whose price was beaten down 8 to 1 in the final minutes of betting, was sixth. Solar Slipper, heavily backed by the Irish contingent, was scratched an hour before the race because of lameness.

Women Bet On Winner
Royal Drake went off at 25 to 1 and Noor was rated at 21 to 1. The Aga Khan's El Agdal also won the race following the derby and on Thursday his Masaka won the Oaks Stakes, the mile and a half filly race.

Bookmakers said the race cost them heavily. William Hill, a London bookie, said he would pay out \$960,000.

Although My Babu was the general favorite, virtually every woman—from grandmothers to yesterday's bride—placed a small wager on My Love.

Better Self Wins Yankee Handicap

BOSTON —(AP)— The King Ranch's three-year-old Better Self, taking over at the quarter-pole, won the \$10,000-added Yankee Handicap by three lengths from William G. Helis' Salmagundi on a sloppy track Saturday before an estimated 23,000 crowd at Suffolk Downs.

As Better Self turned the mile and a quarter in 2:05 3/5, the Honeywell Farm's Dole gained the show in the six-horse field.

The early leader, the Brookmeade Stable's Dart, coupled with Splash, wound up fourth and C. V. Whitney's Quarter Pole was last.

Rated as the top muddler in the small field, Better Self closed as the favorite and, while accounting for the \$42,500 winner's share, paid \$4.50 and \$3.00. Salmagundi paid \$4.20 for place. There was no show betting.

The British mint struck 17,000,000 coins from foreign countries during 1933, but only four bronze British pennies were made.

Down SPORTS Lane

with TANNER LAINE

Somebody once asked Hank Greenberg if he had any superstitions. "Sure," replied Hank. "When I hit a home run I touch every base."

Not all ball players and other athletes share Greenberg's whimsical view on the subject. Lots and lots of them have pet superstitions.

Charley Dressen, Yankee coach, always picks up the nearest glove and kicks the hot-corner hassock before he enters the third base coaching spot.

Andy Seminick, Philly catcher, always puts on his baseball cap the moment he enters the clubhouse.

Superstition gripped Dixie Walker when he was with the Brooklyn Dodgers. The "people's choice" smoked a long-stem pipe before every game. He once got four hits in four trips after doing that and so—presto, he kept it up.

Adolph Kiefer, great swimmer, broke 14 records in a meet once and was awarded a watch. He still carries it although it doesn't keep good time.

Bowling champ Joe Willman can't roll a lick without a wad of gum. Ageless Willie Hoppe, billiard phenom, has been using the same cue butt for the last 42 years.

Net star Ted Schroeder carries a fourleaf clover in his shorts. Auto racer Peter de Paolo tied a pair of baby booties to his steering wheel. He once misplaced them and posted a \$5,000 reward for the return of same.

Ray Morrison, football coach, wears a 15-year-old battered hat to games. Frank Leahy of Notre Dame omits his own club when making predictions in his column.

At Navy, the Midshipmen toss pennies at the statue of Ol' Teacup-seh to lure lady luck to their grid-dera.

Next time you see a player make an error, fumble in football, miss in basketball, dub in golf, be sympathetic. Maybe the poor fellow forgot his superstition rite.

Things "is" grim for Cub's Charley: A friend of Charley Grimm called the manager recently and excitedly explained that he had just seen a great pitching prospect.

"This kid pitched a no-hitter. He struck out all the batters in the game. Why, only one foul ball was hit off him," reported the friend.

"Listen, what we need are hitters," replied Grimm. "Send me the name of the kid who hit that foul."

Gestures of good friendship showered down on the Midland Indians. Banker M. C. Ulmer called Harold Webb and said he had tickets to the rodeo Saturday night for Webb and all the Indians and their families.

However Midland Fair, Inc., had addressed the Indians and Webb with invitations for a free entry to the rodeo plus the Del Rio opponents of the home club at present.

One minute editorial: It takes acts like these to assure the Indians we are for them, proud of them, and like them.

Golfers say the Colonial National Invitation will become the nation's No. 1 tournament if it isn't that already. This includes the masters at Augusta, Ga.; the National Open and the National PGA.

All their expenses are paid, even club house. They are treated just like actors in a show.

They are the main attractions and everything is geared to their

Americans in Tennis Finals At Brussels
BRUSSELS, BELGIUM —(AP)— It won't be an all-American windup in the Brussels International Tennis Championships Sunday—but it will be close to it.

The victory of Hungarian Mrs. Sausy Kormoczy over Doris Hart of Miami, Fla., 4-6, 6-3, 6-3, Saturday will make the women's singles final an American-European competition.

The only other European opportunity exists in men's doubles, but it appeared slim. Frankie Parker and Budge Patty of Los Angeles held a 6-1, 7-5, 4-5 advantage over Frenchmen Robert Abbesse and Jean Thomas when rain interrupted their semi-final match Saturday.

The Americans were considered the most likely to play the Italian pair of Marcello Del Bello and Gianni Cuculli in the finals. Mrs. Kormoczy will play Mrs. Pat Todd of La Jolla, Calif., in Sunday's women's singles final.

The mineral staurolite forms in twinned crystals, often producing a symmetrical cross.

Tiny, But Terrific
Undisturbed by the presence of 2,000 people and more mature bathing beauties, Deborah Benson calmly scratches herself on the beach at Avalon, Santa Catalina Island, Calif. Two-year-old Debby turned some heads from the more adult charms of Helen Sutton, right.

Mix sliced cucumbers with finely-cut onion and green pepper; add a dash of sugar, tarragon vinegar and some sour cream. Serve on salad greens with cold meat or broiled fish.

HERE FROM HOUSTON
George Harris of Houston, an official of Pioneer Air Lines, was a Midland visitor Saturday.

There is no rum in bay rum.

Monahans Runnerup In Softball Loop

Ralph Earhart of Bluebonnet is leading the Texas Softball League for the third straight week with a .408 average. One outstanding feature of the batting in the league is the steady hitting of the pitchers.

Of the men at bat fifteen or more times, five of the top seven are pitchers. A. J. Goller of Bluebonnet has the highest average with .448 but he has been at bat only eleven times.

Jackie Neel added his seventh straight win of the season last week. He is now being hard pressed by Warren Pope of Odessa for the lead in strikeouts. Neel has 92 against Pope's 90.

Last week's results saw Baldrige and Ragdale split two; Crane and Odessa also divided a pair. Bluebonnet swept two from Nathans while Monahans and Coeden battled to a 1 to 1 tie in 10 innings before rain stopped the game.

The standings:

Team	W.	L.	Pct.
Bluebonnet (Lubbock)	13	1	.928
Monahans	6	4	.600
Crane	7	5	.586
Ragdale (San Angelo)	6	6	.500
Odessa	6	6	.500
Baldrige (Lubbock)	5	7	.417
Coeden (Forsan)	3	6	.333
Nathan (San Angelo)	4	9	.308
Stamford	3	9	.250

Tribe Untangles AL Standings By Beating A's 7-3

PHILADELPHIA —(AP)— Cleveland's Indians untangled the snarl in the American League standings Saturday by bombarding Joe Coleman and the Philadelphia Athletics for a 7-3 victory.

A paid crowd of 10,568, augmented by the numerous ladies' day customers, saw the Indians move a half game ahead of the A's and increase their percentage margin over the Athletics.

The Tribe which waited until the 15th inning to explode five runs against Washington Friday night, tagged Coleman with his first defeat after six straight victories and went right to work with a three-run first inning.

Four singles and a walk gave rookie Gene Bearden a working lead and the freshman sensation set down the Athletics without a hit for five and one-third innings. Meanwhile, the Indians stilled Coleman from the mound with a four-run uprising in the fifth.

FHA Announces All-Time Record In New Dwellings

WASHINGTON (AP)—An all-time record of new dwelling units started in any one month under FHA inspection was established in April with a total of 35,555 units, Federal Housing Commissioner Franklin D. Richards announced. This exceeds the March volume of 30,122 units by 18 per cent, and the previous high record of 30,386 started last October by 17 per cent. Also, it represents about 46 per cent of all non-farm dwelling units started during April, as reported by the Bureau of Labor Statistics.

The volume of new residential construction started under FHA inspection for the first four months of 1948 was 104,996 units, considerably more than twice the 42,023 units started during the same period of 1947.

Richards said eight out of nine dwelling units started under FHA inspection so far during this year are being financed and built under the veterans emergency housing provisions of the National Housing Act (Title VI). More than 34,000 of the new units are located in rental projects while a considerable proportion of the other units are being built for rent.

City Building Hits \$1,946,035

Building permits for the week ending Saturday totaled \$36,750 to bring the 1948 figure to \$1,946,035. Permits issued included: B. C. Girdley, Jr., \$9,000, Austin stone and frame residence at 1901 West Louisiana Street, 46 by 37 feet; Bob Owens, \$4,500, frame residence at 1110 West Washington Street, 20 by 30 feet; Cecil Roberts, \$4,500, frame residence at 808 South Colorado Street, 24 by 22 feet; Elder Chevrolet Company, \$4,000 brick and steel office structure at 103 North A Street, 30 by 23 feet; C. R. Ervin, \$4,000, frame residence at 2204 West Kentucky Street, 32 by 40 feet.

Johnson Phillips, \$2,500, alter frame garage at 701 West Outhbert Street, 20 by 26 feet; R. L. Richardson, \$2,500, frame office structure at 215 East Texas Street, 22 by 26 feet; Isaac Johnson, \$2,000, frame residence at 2301 West College Street, 26 by 32 feet; R. W. Outhbert, \$1,800, frame structure at 404 South Baird Street, 28 by 30 feet; J. D. Martin, \$1,200, alter frame residence at 109 Club Drive, 16 by 28 feet; Frank Thompson, \$500, frame storage room at 2101 West Indiana Street, 8 by 18 feet; S. L. McPadden, \$250, frame structure at 1704 South Pratt Street, 16 by 19 feet.

Dirt, Squirt and Quirt

— FARM, DAIRY AND RANCH NEWS —

Among gents who know the rodeo business from the front gate to the back corral where wild horses and equally wild cowboys await their cues at every performance, Fred Alvord of Fort Worth has to be considered.

He was a contestant at a rodeo in Midland in 1918. He was regarded as a "professional" which he was, so he wasn't allowed to enter the bronc riding. And he was penalized 10 seconds in the calf roping, even though some of the world's best ropers, cowhands in this section, were in the contest. W. W. Brunson was arena director of that show, Fred remembers.

Alvord is secretary for the rodeos where Colborn-Autry stock is used. He has kept books on cowboy events at the annual Madison Square Garden Rodeo in New York for 18 consecutive years.

Speaking of early-day Midland rodeos, Ott Dozier, Garden City ranchman, also remembers one that took place before many contestants in the present rodeo were born. It was held south of the city. One of the principal contestants, Ott remembers, was none other than John Dublin. The latter was riding a top cowpony in the show and, in a moment of exuberance, he rode up close to the grandstand and thumbed the pony in the neck. Immediately followed the best exhibition of bronc riding in the whole show, Ott says.

Hawley Van Court, Crane ranchman, recently was pleased with the arrival of a new baby boy and a good rain on the same day, it was reported here last week.

Price Stell, Snyder ranchman, says some parts of his country have received good rains recently and are greening up right along, while other spots are still dry.

Tulbert Bell, who manages the Diamond Ranch Company near Van Horn, reported a 2 1/2-inch rain Tuesday night. It was the first time water had run off his roof in about 13 months. He has one milk cow on the ranch, which comprises some 40 sections, and he predicted if he got one more rain like this the country would improve so much he would have to start milking her again.

If you know anybody who likes a good rodeo better than Charley Cox of Garden City and his son-in-law and daughter, Buck and Carlynn Harris of Fort Stockton, please point 'em out.

Buck and Carlynn and Charley took in the opening rodeo here Thursday night, of course. Then they went to Charley's ranch at Garden City, arriving around midnight. At 3 a. m. Friday they were up and going, doing some sleep work that couldn't be postponed. They were here for the show again Friday night and back at the ranch for another hard day beginning at 3 a. m. Saturday.

In other words, they worked sheep all day and rodeoed all night—or practically all night.

John M. Hale of Ackerly, visiting here last week, reported he had planted 700 acres of his farm when a three-inch rain hit it May 29; his fields were just getting dry enough last Friday for him to start planting the land over again.

Everybody around the judges' stand at the Midland Rodeo was glad when Mr. and Mrs. Harry Cowden of Crane showed up. Mrs. Cowden, formerly Charlene Taylor, used to work for the Midland Production Credit Association and also made herself mighty useful when it came to keeping books at the annual rodeo here. It was feared that, after going into the ranch business with Harry on a 50-50 partnership basis, she wouldn't

have time to help at the rodeo, but sure enough, Thursday night, she was on hand to help with the statistics.

Otto Jones, here for the rodeo, says the Spade Ranch near Colorado City is like a lot of other ranches in West Texas—it has received some rain, but needs more to assure good pastures.

Several prospectors for yearling swes were through Midland last week. Report has it that the few ranchmen who have any for sale are taking \$16 to \$30 per head for them, although no definite deals have been announced.

Some of the sheep country just north of Rankin which was especially hard hit by this year's drought has been helped by some especially good rains recently, and ranchmen down that way say ranges are showing some fair sheep feed now. Most have stopped feeding, but more rain is needed to put pastures back in as good shape as they were at this time last year.

Sheriff Buck Jackson of Pecos was here Thursday night to see the opening performance of Midland's 14th Annual World Championship Rodeo and do a little plugging for the Pecos show, July 2, 3 and 4. It's Pecos's 19th Annual West of the Pecos Rodeo.

Buck says he has received some rain recently on some of his country; with land in three counties and two states (Texas and New Mexico), he is almost sure to get a little rain if anybody West of the Pecos does, he figures.

Norman Dawson, farmer just north of Midland, has been exceedingly lucky for the last year or so in getting rain on his cotton. But a week ago he came in for some luck that couldn't be called good. He had about 700 acres of cotton up and looking good when a hail storm knocked about 500 acres of it down.

At the Midland Livestock Auction Thursday approximately 800 cattle comprised some of the ring on a market that was steady on all classes. Most of the receipts were stockers.

Fat calves and yearlings brought \$26 to \$29.50, with medium ones around \$22 to \$24. No fat, cowboys showed up, but some in medium flesh sold at 18 to \$20. Canners and cutters brought \$13 to \$18, fat bulls \$22 to \$24, and medium bulls \$20 to \$22. Stocker steer calves and yearlings went at \$25.50 to \$27.50, with comparable heifers at \$23 to \$24.50. Cows and calves showing quality, and youthful enough for a reasonably long future, went easily at \$200 or better.

Among the "buff" cowhands taking in the Midland Rodeo this year was Hugh Crouch of Garden City. He not only has been watching good cowboys in action a long time, but has done his own share of saddle work—and then some.

Aldredge Estes and C. C. Thomas are timekeepers at the Midland Rodeo this year. At the first show Thursday night they weren't notified when the first bareback bronc rider came out of the chute, and so didn't have their watches started in time. Consequently, they had to guess when to blow the horn signaling the end of the ride. In the case of eight seconds, the rider had about 14 seconds to go. However, the timekeepers explained how it all came about so the cowboy could be given a re-ride or otherwise compensated for having had to ride too long. And he asked to be notified clearly before the other riders were turned out.

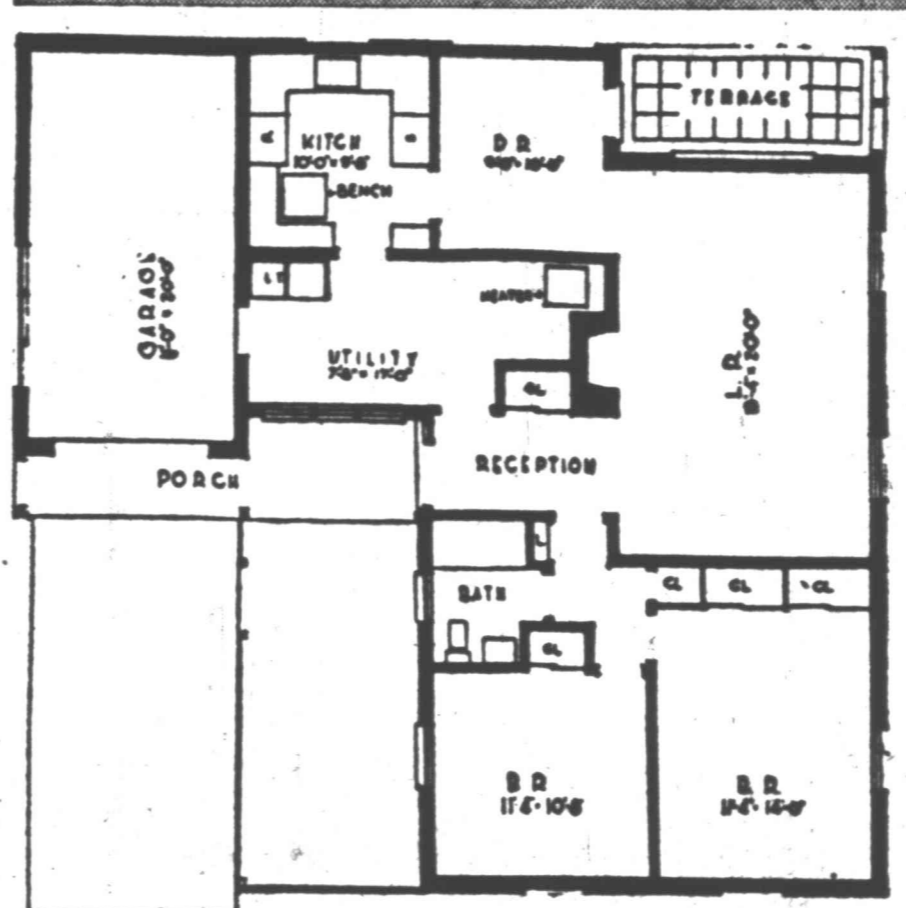

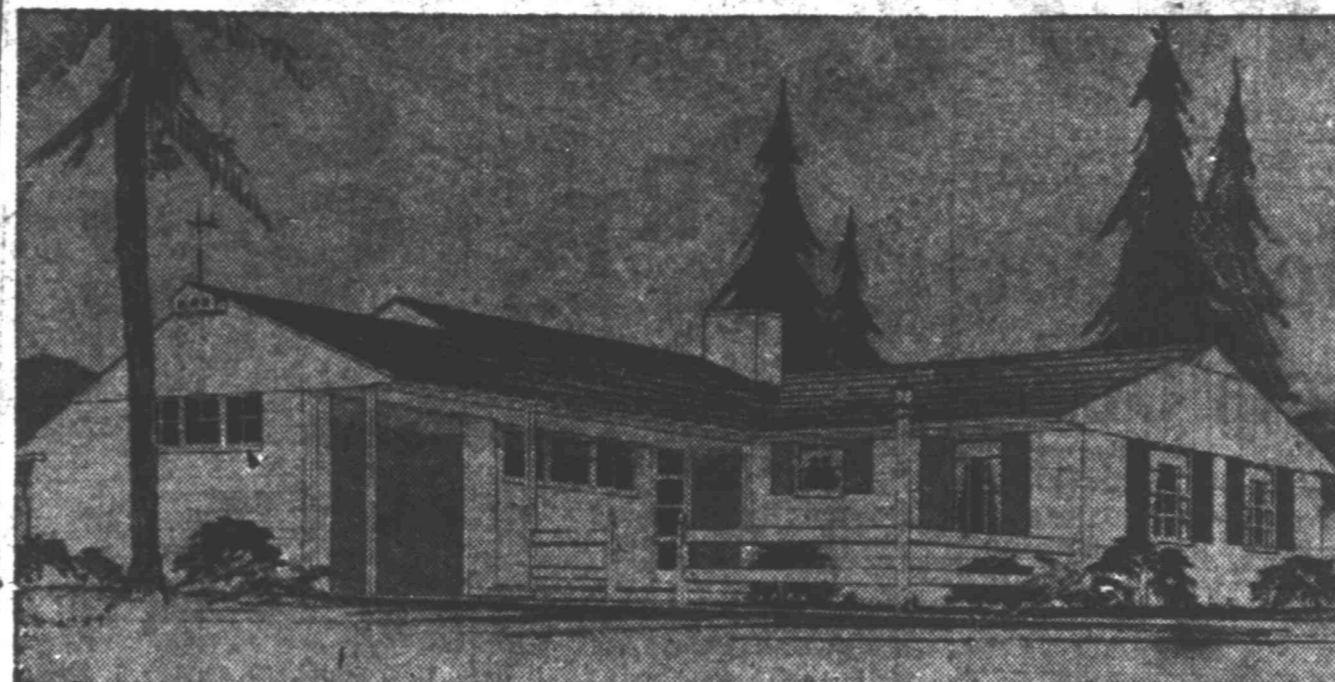

Estes said he had been an official at the Midland show ever since it started, 14 years ago, and had never before seen anything like this happen here.

Ranch House Is Urban-Rural Favorite

Its likable informality and its good looks have made the modern ranch-style home a favorite for both rural and urban living. This example was designed by Walter T. Anick, 517 South Forest St., Ann Arbor, Mich. Planned to fit on a 50-foot city lot as easily as on a large country acreage, the house is 46 feet wide. It contains 1,185 square feet, ample for the comfort and convenience of the average family.

The architect recommends white siding with roof shingles of a contrasting color.

The terrace in the rear and the porch in front provide facilities for outdoor living. The terrace, living room and adjacent dining room combine to make one integrated unit. A built-in breakfast corner is part of the kitchen. Both bedrooms have cross ventilation. Interior doorways are located so that any room is easily accessible from any part of the house.

Summer Home Comfort Goes Hand In Hand With Saving In Fuel Costs

American householders have two important jobs ahead of them this Summer if they are to attain maximum comfort in their homes.

The first is to prepare for another fuel shortage next Winter, which government officials say will be fully as severe as last Winter's, the second to make the house as cool as possible during the coming Summer months.

Both these goals can be attained at the same time and by the same means—thermal insulation—it was declared by the Construction Research Bureau of New York, clearing house for building information. Fuel Saving Shows

Application of four inches of mineral wool between the top floor ceiling and the roof will reduce interior temperatures this Summer by as much as 15 degrees, as shown by numerous tests; and this same insulation will save at least 17 1/2 per cent of next Winter's fuel, according to the National Bureau of Standards. An additional 17 1/2 per cent fuel saving is possible if the walls of the house are insulated, the Bureau of Standards reports.

The reason such protection is required is that in Summer, roof air cells in each cubic inch of mineral wool, however, slows down this heat passage enormously. In Winter, the insulation works in reverse, preventing the escape of costly heat. It will be more important than

ever to conserve fuel next Winter, both from the economic and comfort standpoint, government experts say. The demand for fuel of all kinds is far ahead of production. "Since the cost of insulation is usually paid for within three years," Construction Research Bureau Engineers say, "it is decidedly poor economy for a home to go without this protection so important to comfort both Summer and Winter."

HOME OWNERS' QUESTION BOX

Q—How often should I water my lawn?
A—Once or twice a week is sufficient if the soil is no drier than average. The ground should be moistened to a depth of about six inches. Light sprinklings help weeds more than grass.

Q—What makes paint blister?
A—Paint blisters or peels off woodwork when there is an excessive amount of moisture in the wood. When blisters are opened, they are sometimes found to contain water.

Q—Is fire-resistant roofing worth the additional expense?
A—It would be, but it definitely is not necessary to pay more. Fire-resistant asphalt shingles actually are among the least expensive kinds, both in first cost and in maintenance.

Q—What causes creaks to rise higher in the center than at the sides?
A—Too much baking powder, too much flour, too much mixing or too hot an oven.

Woman Bulldogs Horse In English Store

HAYES, ENGLAND (AP)—A horse romped into a bargain basement here recently.

Mrs. Elsie Chard, housewife, sized up the situation quickly. She placed an armlock around the horse's neck, threw it to the floor and held it until the owner claimed it. The ladies went back to their bargain shopping.

ON AGAIN, OFF AGAIN
ATHENS, GREECE (AP)—A palace spokesman said Saturday that former King Mihai of Romania and Princess Anne of Bourbon-Francia are expected in Athens Monday but a wedding date has not yet been set.

Socialist Puerto Rico Shifts To Free Enterprise; Lures Industry To A New And Taxless Frontier

Part of a project to make Puerto Rico independent of Venezuelan oil, up to now a major source of electricity, is this new \$10,000,000 Caenillas dam and reservoir. It will create a lake 230 feet deep, boost island power production up to 400,000,000 kilowatt-hours a year.

By S. BURTON HEATH
SAN JUAN, P. R.—(NEA)—Puerto Rico's "Little New Deal" has turned from socialization to free enterprise. The creation of government-owned, government-operated industries has been stopped. Those already in existence are for sale. The insular government is going all-out to bring private capital here. Every device known to the capitalist chamber of commerce to encourage and assist new industries, is being utilized by the Popular Democratic regime headed by Luis Muñoz Marín, who used to be considered a dangerous radical. He has opened up a small—and probably the last—frontier where a man can carve a fortune without giving most of it back to the tax collector. Long-term tax exemption, ready-to-step-into factories, low-cost labor supply, training for the unskilled—these are some of the baits that the Puerto Rico Industrial Development Company, a sort of governmental chamber of commerce, is using to lure new businesses here from the mainland. On the surface this looks like a complete change of face. For practical purposes, it is. But most of the change is not in Muñoz and the party that follows his philosophy: it is in La Fortaleza—the governor's residence. Never Radical. "We never were radical," Muñoz told me over morning coffee on the porch of his modest home beyond Río Piedras. "Neither were we conservative. We tried to be realistic. Actually, the legislature passed these bills, to encourage and help new private enterprises, every year beginning with 1941, along with

bills to permit government plants where private capital could not or would not do anything. "Governor Tugwell (Rexford G. Tugwell, most leftist of the original Roosevelt-brain trusters) signed the bills but vetoed those for helping private business. We kept passing them until Governor (Jesus T.) Piñero, who agreed with us, was appointed. Now we're rolling with the program we had in mind all the time." One project that caused the Muñoz regime to be called socialistic was that for breaking up huge sugar estates and distributing them, and their incomes, among the workers. This has not been abandoned. It is going ahead. During the fiscal year 1946-47 the Land Authority made the biggest purchase of any year—more than 28,000 cuerdas (27,425 acres). Since the program began in 1942, the Authority has bought up almost 90,000 acres. Quarter Acre Out of this, homesteads ranging from a quarter acre to three acres have been provided for 18,223 poor farmers—Puerto Rico's peasants. Family-sized farms, averaging almost 18 acres, have been sold to 164 farmers, who have up to 40 years to pay. The rest is being used on the "proportionate benefit" plan, under which profits are shared through the farms as operated as units. Through the Development Company, the insular government operates a glass plant, a fiber-board mill, a cement plant, a building materials and sanitary ware factory and a shoe-making plant. But these are for sale. Any concern that can give evidence of competency,

Puerto Rico's Little Pittsburgh is this growing industrial section across the harbor from San Juan. The government's glass, cement, and pulp and paper plants are located here.

and will contract to keep the industries going in Puerto Rico, will be welcomed as a bidder. Muñoz wants it understood that the big sugar estates, in his opinion, are a special problem, and that no industry that moves to the island need fear a future program of nationalization so long as Muñoz is in power. Taxes Waived "How could we encourage and help them with one hand," he asks, "while we expropriated them with the other?" Certainly there are few encouraging gestures that Muñoz's government has missed. Any new industry that looks sound and will provide employment can get all corporation taxes waived for 12 years, and not until the 16th year will it begin paying at full rates. More than that, a new law waives personal income taxes on dividends from such tax-exempt corporations. For a dozen and a half new industries, small and big, local and mainland, the Development Company has built and equipped factories, which are leased to the private operator, with option to buy. Now that a substantial movement of industries to the island has begun, and the Development Company's capital is getting tied up, the Company's proportionate contribution is being cut down. The latest corner, a textile concern that is considered the largest of its kind in the U. S., has agreed to put up half the cost of its \$1,800,000 plant. No Credit Worry But Esteban A. Bird vice president of the big Credito y Ahorro Poncena, assures that no sound new business need worry about getting credit from the island's private banks. A Water Resources Authority has tied 18 plants into a "Junior TVA," and when the huge new Caenillas Dam fills up, expects to produce 400,000,000 kilowatt hours a year. Already \$40,000,000 has been spent on power development. Another \$40,000,000 is to be spent to provide pure water and sewage disposal facilities, throughout the island.

The insular government and the Veterans Administration are cooperating to establish a school at which 88 trades will be taught to 3,500 men and women at a time. If enough teachers can be found, two shifts will be run to handle 7,000 students. This is designed to assure both trained foremen and skilled workers for the industries that the Development Company is bringing in.

ECA Authorizations Proceed On Schedule Despite House Action

WASHINGTON—(AP)—A \$33,682,370 authorization of new food and commodity shipments was announced Saturday by the Economic Cooperation Administration. It thus maintained its steady flow of recovery goods to Europe despite a House-voted cut in foreign aid funds. British-American zones in Germany and the free city of Trieste showed up on the list of receiving countries for the first time. Bismarck, Germany will get \$2,000,000 worth of fruits and vegetables from Italy, paid for by their country. Trieste will receive wheat flour and other goods valued at \$1,844,457, mostly from the United States. The other new allocations go to Norway, Italy, Austria, Greece, Denmark, France and The Netherlands. Approvals last week hit the full spending rate which would use up in 12 months the \$6,333,710,288 which the Truman administration asked. ECA spokesmen had no comment on the effect of Friday night's House vote to slash that amount to \$5,990,710,288 and spread it over 15 months. They said they would wait on the Senate's action.

AEC Plans To Build 12,000,000-Volt Unit

WASHINGTON—(AP)—The Atomic Energy Commission is going to build a \$2,000,000 machine to make 12,000,000 volts as part of its research on nuclear physics. Officially the device is known as an electrostatic accelerator "designed to yield positive ions with energies up to 12,000,000 electron volts." It is expected to be the largest and most powerful machine of its type in the world, the commission said. Requiring two years to construct, it will be built at the University of California Scientific Laboratory at Los Alamos, N. M. The commission said the accelerator will enable scientists to obtain more precise data on the properties of light and complex nuclei.

Safety Series To Be Held Soon In Kermit

KERMIT—G. E. Thompson, superintendent of Kermit schools, has announced a series of conferences on accident prevention through better supervision will start here June 14, with the first session continuing through June 18. The second starts June 21 and continues through June 25. Classes will be held each morning from 10 to 12 o'clock and each night from 7 to 9 o'clock. Drillers, tool pushers and supervisory personnel are eligible to attend the conferences. William H. Herndon, training specialist for the University of Texas, will be the instructor.

NEW MAGNOLIA LINE DELIVERS FIRST CRUDE

DALLAS—(AP)—The Magnolia Pipe Line Company announced Saturday the first delivery of crude oil has been made through its new 650-mile, 20-inch line from Corsicana, Texas, to Patoka, Ill. J. L. Letimer, president of the company, said the crude oil reached its destination June 2, 365 days after the first joint of pipe was laid on the line.

New Czech Envoy

Dr. Vladimir Outrata is the new Czechoslovakian ambassador to the United States, representing the Communist-dominated government of Premier Klement Gottwald.

NEGOTIATIONS BREAK BETWEEN CIO, GOODRICH

PHILADELPHIA—(AP)—The President of the CIO United Rubber Workers Union said wage talks between his union and the B. F. Goodrich Rubber Company, broke down Saturday. L. S. Buckmaster said a strike "is possible around July 11" but added that he believes "we'll be back in negotiations before any strike can come off."

Ecuadoreans Vote In Presidential Election

QUITO, ECUADOR—(AP)—Ecuadoreans vote Sunday in a presidential election for the first time since 1940 after a series of revolutions which gave them five different chief executives. The National electoral tribunal Saturday night estimated about 500,000 were eligible to vote. The candidates are: Galo Plaza Lasso, 42, American-educated former ambassador to the United States who is supported by the National Democratic Civic Movement. Gen. Alberto Enriquez Gallo, 52, the nation's head in 1937-38, who is backed by a coalition of Liberals and Socialists. Dr. Manuel Elieco Fior Torres, 54, conservative jurist.

Kermit Band Members Scheduled For Clinics

KERMIT—Twenty-five Kermit High School band members will attend Summer band schools, instructor G. Gilligan announced today. Attending Texas Technological Band School at Lubbock will be: Ramsey Brown, Don K. Brown, Margaret Barton, Marjorie Barton, Don Frasure, Baby Jett, Tommy Hixson, David Bradford, Ann Charlton, Jerry Cole, Cyle Atwood, C. L. Fields, Oliver Satchell, Howard Coulter, Ouida Rasura, Idalia Crutcher, Evelyn Briggs, Laurence Boedeker and Leslie Morria. The school will be held June 8 through July 17. Students to attend the Midbury College Band School at Abilene from July 19 through August 14 will be: Ann Williams, Lolita Waddell, Reta Daniels, Norma Fields and Don Hanlin. Tommy Aylesworth will attend Summer band school in Plainview.

Buoyant answer to Back Road and Boulevard

White sidewall tires, as illustrated, available at extra cost.

REMEMBER that rough patch of road up yonder where the ruts and ridges make a washboard seem smooth?

Recall the tiring tenseness brought on by the drum and hum of road noise and tremor even over smooth concrete highways?

Well, clock away the miles in this stunningly styled Buick — and meet up with the sweetest answer to such matters this side of cloud cruising.

"It's a ride that's soft and smooth as velvet," folks tell us. And we tell them it comes from a host of things.

It comes from the ample road-weight of a two-ton car built low and wide — and so beautifully balanced it handles light as a baton. It comes from the leveling buoyancy of Buick's all-coil springing which puts a pillow of deeply coiled steel at each wheel to soak up the bumps and ripples.

It comes from the softness of bigger, lower-pressure tires that cushion away road tremors and roughness — from the sure-footed, swerve-free steadiness of Buick's extra wide Safety-Ride rims, widest in the industry.

And it comes in special measure from a brand-new engineering gem we call Vibra-Shielding which banishes vibration build-up.

Here for the first time you're freed from the motoring fatigue brought on by tiny tremors piling up into bigger ones. Here your miles are made mose-smooth and quiet — long journeys become mere jaunts.

So why delay knowing the most buoyant answer to any road you ever traveled?

Come visit us now. Know at first hand the distinctive styling, the flashing action, the velvety ride over highway and byway that are Buick's and Buick's alone.

Widely Hailed Movie Triumph Will Open Sunday At Yucca

The phenomenon of a motion picture entertainment evoking a response far and beyond the scope encompassed by a general run of films has aroused the excitement and interest of the movie-going public to a degree and in a manner a rare few pictures have succeeded in doing.

The film is Darryl F. Zanuck's production of "Gentleman's Agreement," which opens Sunday at the Yucca Theater in Midland. It will continue through Tuesday.

The precedent-shattering, official and public acclaim, and the extraordinary attention tendered it in the press and on the air waves testify to its importance in bringing a new dimension to screen entertainment.

The basic elements that went into the making of "Gentleman's Agreement" were in themselves an assurance of top success. The film stars Gregory Peck, Dorothy McGuire and John Garfield, three of the screen's truly top performers; the exciting story is based on Laura Z. Hobson's sensational best-seller, and was adapted for the screen by the celebrated playwright, Moss Hart, with Ellis Kazan, famed for his handling of "Boomerang" and "A Tree Grows in Brooklyn," responsible for its direction.

As Darryl F. Zanuck's sole personally supervised production of the year, "Gentleman's Agreement" was bound to be invested with the sure and distinctive entertainment touch that only one of the finest craftsmen of the motion picture art could provide.

Livestock Roundup

FORT WORTH—(P)—Receipts of cattle, calves and hogs declined slightly at Fort Worth last week, and sheep arrivals were about the same as a week earlier. Top medium, good and choice slaughter and stocker steers, yearlings and calves ruled strong to unevenly higher, low medium and lower grades weak to lower, cows 80 cents, spots \$1 up, bulls about unchanged.

Hogs 50 cents lower, sows steady, pigs strong to 50 cents higher. Spring lambs steady to \$1 higher, short lambs and yearlings and aged sheep steady to 50 cents or more lower, feeders steady.

Slaughter steers and yearlings sold from 16.00-22.00; slaughter cows 12.00-25.00; bulls 16.00-23.00; slaughter calves 16.00-30.00; stocker steers and yearlings 18.00-28.50; stocker calves 29.00 down; stocker cows 15.00-20.00.

Closing hog top 23.50, sows 18.00 down, pigs 22.50 down. Spring lambs 10.00-27.50, short lambs 12.00-23.50; ewes 7.50-11.50; 0 1 1 bucks 8.00-9.50, stocker lambs 12.00-19.00.

Antiaircraft Outfit Stops Here Enroute Home To Fort Bliss

Enroute home after extensive maneuvers in Kentucky and Tennessee, the 384th Antiaircraft Artillery Gun Battalion from Fort Bliss stopped overnight at Midland Air Terminal Saturday.

The battalion, comprising more than 500 men, is returning to Fort Bliss from Camp Campbell, Ky., where it participated in Third Army maneuvers. The unit made an overnight stop at the former Midland Army Air Field on the way to the maneuvers May 4. Lt. Col. W. Craig Boyce is commanding officer of the battalion.

Stock Market Holds To Downward Trend

NEW YORK—(P)—The stock market turned in a losing score last week for the third week running.

The Associated Press average of 80 stocks ended Friday at 70.4, which equaled the lowest level to which prices have dropped since 69.1 was registered May 13. A week ago the average ended at 70.7.

Activity contracted sharply from the preceding week although each session topped 1,000,000 shares.

Concern over the possibility that the soft coal miners might walk out when their contract ends this month loomed larger each day as a factor in the market.

TANKER STRIKE SETTLED

CHICAGO—(P)—A 23-day-old strike of 110 CIO seamen which tied up five tankers of the Standard Oil Company (Ind) was settled Saturday with a two-year agreement granting a five per cent wage increase.

INVESTIGATIONS DEMANDED BY VANPORT COMMITTEE

PORTLAND, ORE.—(P)—A demand for a grand jury and congressional investigation of the Vanport disaster came Saturday from a citizens' committee here.

The committee, organized by the Vanport Tenants' League, also criticized the Federal Housing Authority "for failure to evacuate or properly warn residents."

Car Overtakes When Driver Falls Asleep

Naomi Kates, of Decatur, Texas was brought to the Western Clinic Hospital for treatment of minor injuries Saturday morning after her car overturned on Highway 80 seven miles East of Midland.

She was reported to have fallen asleep. She was enroute to Odessa. She was dismissed from the hospital shortly after having been brought there by an Ellis Funeral Home ambulance.

Betrothal Announced

Mr. and Mrs. W. T. Cantrell of Crane have announced the engagement of their daughter, Catherine, to Paul Davidson. The announcement was made at a party following the recent commencement exercises of the senior class of Crane High School of which Miss Cantrell was a member. She was class valedictorian. The marriage will be held this fall.

Some people add rings of onion and uncooked prunes to pork chops during cooking. Add water for liquid.

Seventeen Attend Recent YWA Meeting

Norman Middlebrook and Ruth Melton entertained the YWA of the First Baptist Church Thursday evening in their home, 1308 Holloway Street.

The meeting opened with group singing, followed by a prayer given by Faye Shelburne.

La Moyne Tabor, Ross Dee Spears, Frances Phillips and Miss Shelburne were initiated.

Plans were discussed for a community missions project. Miss Melton was appointed chairman of the committee with Dixie Wilson and Miss Shelburne assisting.

Dorothy Raines, leader, Annis Joyce Streeter, Nellivee Clark and Miss Tabor presented the program.

The meeting closed with Joyce Jones singing, "I Heard the Voice of Jesus Say" and a prayer by Mrs. J. S. Griffith.

Refreshments were served to Clarabelle Johnston, Veria Lee Oolins, Alta Sparks, Lola Farnsworth, Miss Shelburne, Miss Tabor, Miss Spears, Miss Phillips, Miss Wilson, Miss Raines, Miss Streeter, Miss Clark, Miss Jones, Mrs. Griffith and Mrs. Ray Jones.

TO PENNSYLVANIA

Midlanders To Attend Convention Of Texas Women Voters League

Mrs. William Y. Penn, president of the Midland League of Women Voters, and elected delegates and members of the chapter here will attend the annual convention of the League of Women Voters of Texas in Fort Worth this week.

Mrs. Penn will leave Sunday to attend the pre-convention sessions of the State Board of which she is a member. She also will preside at the Wednesday noon luncheon, when State Rep. W. O. Reed will be the guest speaker.

Other Midland representatives who plan to leave Monday to attend the convention include Mrs. Joe Beakey and Mrs. George Putnam, delegates, and Mrs. W. Harvey Sloan and Mrs. Alfred Tom. The session will end Wednesday night.

Camille McGee Kelley, judge of the juvenile court at Memphis, Tenn., and a nationally-known authority on juvenile matters, will address the convention Tuesday night. She is a life-time member of the P-T-A, an honorary member of the Pilot Club, and is on the executive staff of the B&FW Clubs of America. She is the first woman south of the Mason and Dixon Line to hold the position of juvenile court judge.

Judge Kelley also is an author, her latest book being "Delinquent Angels." She holds an honorary degree, doctor of civil law, from Southwestern University.

The juice of one lemon is often equal to about three tablespoons. A large orange will give about one-half cup of juice.

Phone 2105 806 S. Pecos

Miss Willie Jo Lucas, daughter of Mr. and Mrs. J. T. Lucas, became the bride of Eugene Burrow in a ceremony performed Tuesday night in the home of the bride's parents. Burrow is the son of Mr. and Mrs. W. T. Burrow.

The double-ring rites were read by the Rev. Lee Bailey, pastor of the Greenwood Baptist Church before relatives and close friends.

Given in marriage by her father, the bride wore a white crepe dress with eyelet trim and white accessories. Her street-length dress was accented with a blue necklace-earring set, gift from the bridegroom.

Miss Peggy Lucas served as her sister's maid of honor. Dan Branham was the best man.

Immediately following the ceremony a reception was held in the Lucas home. Mrs. J. B. Branham cut the three-tiered cake while Mrs. C. W. Branham, both aunts of the bride, presided at the punch service. Following the reception the couple left on a brief wedding trip. They will make their home in Midland.

Coke Party Given By Mrs. Campbell

Complimenting Mrs. Juanita Battenfield, who is representing the state of New Mexico in the Midland Rodeo, with a coke party Saturday morning was Mrs. Wayne Campbell, 206 West Louisiana Street.

The rodeo theme was used throughout the decorations with a bright yellow and brown checked cloth on the serving table. Brown paper silhouettes of 10-gallon hats, spurs, horses, lassos, accented the edge of the cloth.

An arrangement of cactus leaves formed the centerpiece. Pottery baskets held the refreshments. Cokes, placed in a wooden corral, were tied with bananas.

"Diamond W." Mrs. Battenfield's ranch brand, was stamped on the guest register.

Dressed as cowgirls, Juanda Bradshaw and Gwendolynn Campbell assisted Mrs. Campbell.

The honoree, who is the house guest of Mrs. Campbell, was presented with a gift.

About 35 guests attended the party.

Recent Additions To Library's Technical Sections Announced

Mrs. J. W. Carroll, librarian, announces that the following volumes have been added to the technical section of the Midland County Library:

Hydrodynamics (Lamb), A Treatise on the Mathematical Theory of Elasticity (Love), The Flow of Homogeneous Fluids Through Porous Media (Muskat), Introduction to Theoretical Physics (Page), Treatise on Thermodynamics (Planck), Fluid Mechanics for Hydraulic Engineers (Rouse), Strength of Materials, Parts I and II (Timoshenko) and A Treatise on the Analytical Dynamics of Particles and Rigid Bodies (Whittaker).

These volumes were donated by the Permian Basin Section of the American Institute of Mining and Metallurgical Engineers. Geological Volumes

W. A. Waldschmidt has presented a copy of "Structure of Typical American Oil Fields, Vol. III, published by The American Association of Petroleum Geologists to the West Texas Geological Society's Library. Copies of Vol. I and II of this series already are listed in the library.

The chapter on Texas in Vol. III contains information on the APOO Field of Pecos County, Quitman Oil Field of Wood County and Talco Oil Field of Franklin and Titus Counties.

The WTC's Library is located in the basement of the Midland County Courthouse.

Recent Bride

Mrs. Raymond E. Patton was the former Viola Hadlock Anderson, daughter of Mr. and Mrs. W. G. Hadlock of El Paso, before her recent marriage in El Paso to the son of Mr. and Mrs. Elmer Patton of Midland.

Viola Hadlock Anderson Marries Raymond E. Patton In El Paso Rites

The marriage of Viola Hadlock Anderson to Raymond E. Patton was solemnized May 29 in the Easter Chapel of St. Elements' Episcopal Church in El Paso.

Mrs. Patton is the daughter of Mr. and Mrs. W. G. Hadlock, El Paso. Patton is the son of Mr. and Mrs. Elmer Patton.

Spain-Turpin Rites Read In McCamey

McCAMEY—In a double ring, candlelight ceremony in the First Christian Church here Thursday night, Erna Spain became the bride of R. E. (Bob) Turpin, with the Rev. Chester Gregory reading the marriage vows.

The bride, given in marriage by her father, Tom Edwards, wore a white linen suit with blue and white accessories, and carried a white Bible with blue carnations. John Thomas West of Wink served as best man, and Marie Edwards, sister of the bride, served as maid of honor.

The families of the bride and bridegroom and a few guests, with Elizabeth Muerer at the piano, heard renditions by Ann Hawkins of "Because" and "Till the End of Time."

Immediately after the ceremony, the couple left for Ruidosa for a short honeymoon, and will return to make their home in McCamey. Turpin is employed by the Shell Oil Company, and the bride at Gordon Russell Motors.

Good News For Folks Who Suffer From

- ✓ STOMACH GAS
- ✓ SOUR FOOD TASTE
- ✓ ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that 888 Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the 888 Tonic formula which contains special and potent activating ingredients.

Also, 888 Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis which counteract gas and bloating when what you digest food for body strength and repair. Don't wait! Join the host of happy people 888 Tonic has helped. Millions of bottles sold. Get a bottle of 888 Tonic from your drug store today. 888 Tonic helps build sturdy health.

Eubanks-

(Continued from page 1) dress of blue butcher linen trimmed in gold with black accessories. She carried a white Bible topped with a white orchid.

Reception Held
Mrs. Morris Ballard, sister of the bride and matron of honor, wore a gray street-length dress with gray accessories and a white carnation corsage.

Ronald Cross was best man. Mrs. Paul Jones played the wedding marches.

The ceremony was followed by a reception in the dining room of the parsonage. A two-tiered wedding cake topped with miniature bride and groom and punch were served from a lace-covered table by Jane Mints and Mrs. Hawkins.

Following a short wedding trip, the couple will reside in Stanton.

Out-of-town guests attending the wedding were Mrs. V. A. Masters of Big Spring, grandmother of the bride, Mr. and Mrs. Melvin Newland and son and Mrs. Earl Newland of Lubbock.

Fall Fashions Show Longer Skirts, Deeper Colors And Simpler Designs

By MARTHA COLE
Associated Press Staff
Skirts are still longer, colors are deeper and the design is simpler. Other than that, there's not much difference in this Fall's advance fashions from last year's. What's more, there is very little evidence of fashion's latest wrinkles—petticoats peeking out from skirts.

No startling innovation appeared in the Fall showing of the American Fashion Association for South-west buyer Dallas in May. Some 4,000 buyers from 18 states, most of them from Texas cities, picked and bought from the offerings of 680 manufacturing lines displayed in hotel rooms.

The fashion revolution that stirred "hold the hemline clubs" to a counter-revolt last Summer was undisturbed winner of the season.

"The new look flitters are over," one salesman explained. "The women have by now either worn out their

shorter styles, lengthened them or bought new clothes."

Fuller And Longer Skirts Reign Supreme
Not that everybody likes it. "I thought we were through with these full circular skirts," one salesman remarked, holding up a black faille number, "but the women asked for it."

As for the hemline, it's still going down and it's a "terrific shame," another said. "We're making our skirts so on the average they're 11 inches from the floor," said Emmet Fryer. "Furthermore—this is something new—we're making the junior misses just as long as the regular sizes. The high school girls are demanding long skirts, too."

Dress, coat and suit designs—all were much simpler than last year's. All the little furbelows were missing. The dresses had full skirts but not extremely full. Back interest was

emphasized with unpressed pleats and flaring poplins.

Little Black Dresses
The basic little black dress was still there, still just as basic, embellished sometimes with a full back or a portrait neckline.

Back-to-school cottons were of dark calico print—like the women who crossed the plains in a covered wagon wore.

The only apparent change in suits was at the collar—the sailor collar, the button-under-the-chin collar and the big rounded romantic collar.

Very few of the manufacturers showed a single fitted coat. All of them were full with a swing back. The box coat was a dead duck.

If the women already have lengthened last year's dresses, all they have to do now is take off a few frills and give them a darker color to be in style. Spruce green, forest green, corals, blue, sable brown, grapey wine, charcoal grey—that's the color of Fall.

A bird's food is swallowed without chewing, and ground by gravel in the gizzard.

Midland Bride-Elect Is Breakfast Honoree

Mrs. Carl Barnhart, 907 West Illinois Street, honored Peggy Bissell, bride-elect of Paul Anderson, with a Friday morning breakfast.

Entertaining rooms were decorated with arrangements of white and yellow daisies. The dining table held a cluster of white asters, which were individual corsages for the guests.

Invited guests included Mrs. C. E. Bissell, Miss Bissell's mother, Mrs. W. D. Anderson, the bridegroom-to-be's mother, Mrs. R. S. Anderson, Mrs. T. W. Anderson, Mrs. Sarah Wycoff, Mrs. Mary Ellen Connor, Mrs. Jack Nolan, Jr., Mrs. Paul Jordan, Mrs. Hap Arnold, Mrs. Tom Cole, Joan Kistnerbocker, Shirley Culberson, Joan Steinberger, Mary Fern Bray, Otello Fynt, Frances Hill and the honoree.

Potatoes are natives of Peru and the Peruvian Indians called them "papas."

There Were Twins All Over The Place

CONNERSVILLE, IND.—(AP)—No one was surprised when Mrs. Wayne Murray gave birth to twin boys here.

Mrs. Murray is a twin and her mother is a twin.

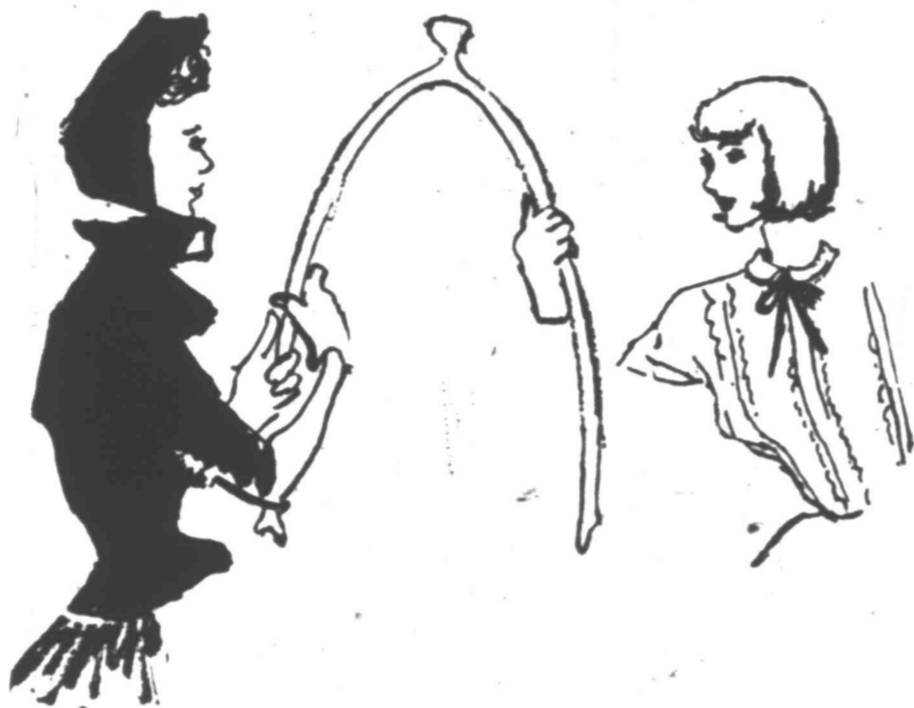

But, it was a coincidence that each of two nurses caring for the babies is a twin.

A party dish may be made from crabmeat mixed with almonds, hard-cooked eggs and a rich cream sauce. Serve in patty shells. If desired, mushrooms may also be added.

Boone Class Donates Gifts For Mrs. Heap's Family In Oregon

Mrs. Alton Brown, 1000 North Big Spring Street, was hostess to a "Coke" party for the Boone Bible Class of the First Methodist Church Friday morning. At the party gifts and donations of clothes, house furnishings and linens were presented to Mrs. H. H. Heap for her relatives whose homes were demolished in the recent Vanport, Oregon, flood. Garden flowers were placed in the entertaining rooms and on the serving table. Attending the party were Mrs. D. A. Pass, Mrs. W. V. Stafford, Mrs. J. H. Collins, Mrs. Ray Seifert, Mrs. C. P. Cummings, Mrs. W. C. Chapman, Mrs. DeLo Douglas, Mrs. J. C. Chauncey, Mrs. Jack Doran, Mrs. J. A. Jorgensen, Mrs. L. O. McCormick, Mrs. Norman Hoffman, Mrs. J. L. DeWees, Mrs. O. S. Barnard, Mrs. Bob Gray, Mrs. Tim Radd, Mrs. W. C. Tatum, Mrs. T. C. Watkins, Mrs. DeWitt C. Haskins and Mrs. Kenneth Slack. The Niagara Falls are receding about five feet a year.

Barbara Conkling To Receive Tech Degree

Barbara Conkling, daughter of Mr. and Mrs. W. H. Conkling, 1908 West Missouri Street, Monday will receive a Bachelor of Science Degree from Texas Technological College in Lubbock. Her major is in Vocational Home Economics. Miss Conkling attended TCU in Fort Worth her first two years in

college. There she was vice president of the sophomore class, and a member of the Student Council. She also was active in the "Y" and other campus organizations. She transferred to Tech in the Fall of 1946. During her junior year, she became a member of Phi Upsilon Omicron, national honorary home economics fraternity. In her senior year, she was a member of the Forum, a service organization composed of 15 outstanding senior women. Miss Conkling maintained a high "B" average during her four years of college work.

NO NUTS AND BOLTS Ostriches are herbivorous, and on farms are pastured on alfalfa in summer and are fed alfalfa hay, wheat, bran, barley, oats, and other grains in winter. Advertise or be forgotten.

Honolulu City Limits Stretch 960 Miles To Sea

HONOLULU (AP) — Inflation? Housing shortage? Nothing like that plagues residents of this city's most outlying suburb. That's the report of a commuter who made a 1,000-mile trip down-town recently. One touring, Jr., spanned a mighty broad stretch of the Pacific when he flew in from Palmyra atoll to go shopping. But the jaunt was actually from one part of town to another for Honolulu's "city limits" are 960 nautical miles to the southwest—just beyond Palmyra.

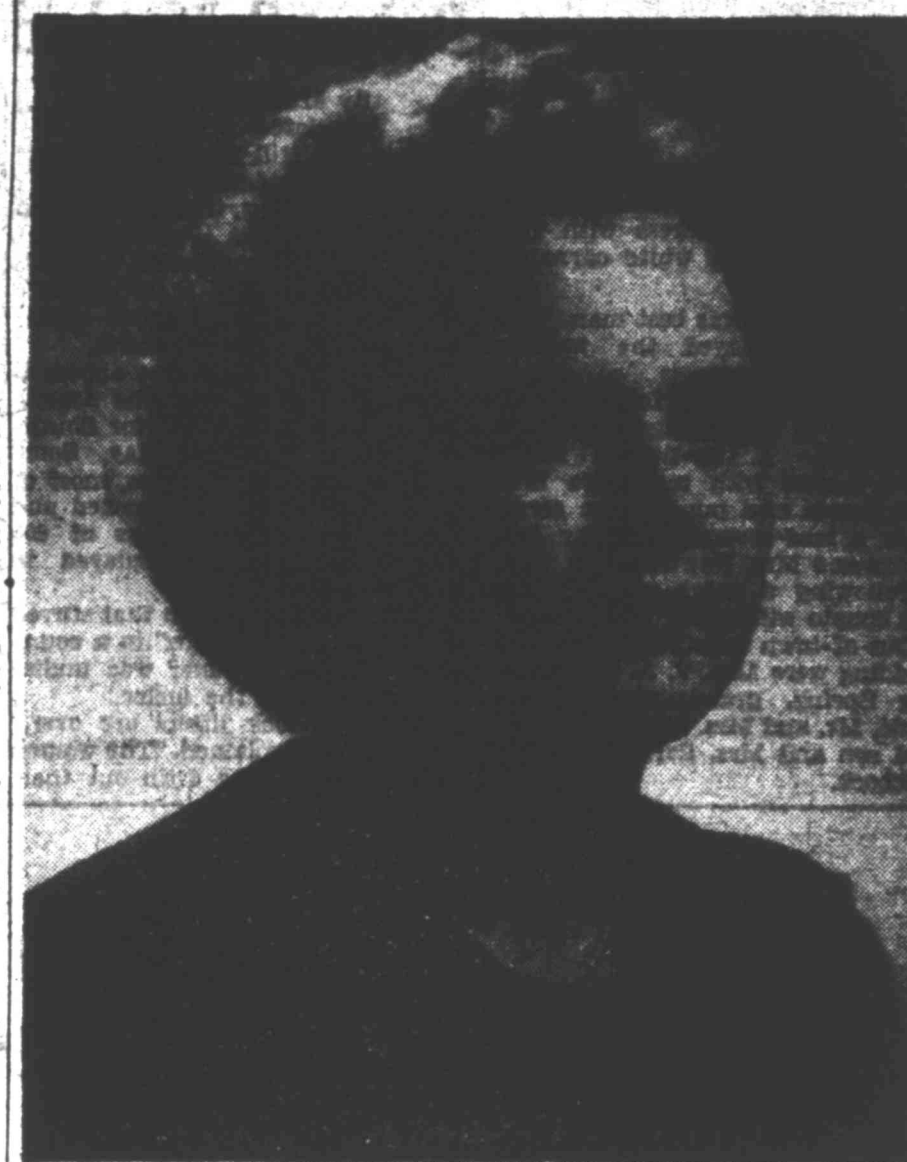

The 57 Americans living out there regard themselves as the forgotten people of the territory," Bourne said. Open A Naval Base Once a booming naval base, the atoll does now in the backwash of Pacific activity. It is populated by 32 men, 14 women and 11 children who hold down a small weather station and emergency air strip for the Civil Aeronautics Administration. Just a string of 48 damp islets, Palmyra boasts no post office, school or night club. There is no dentist and no doctor. There are no office holidays except official "deputy high sheriff" who serves without pay. Palmyra hasn't always basked in peace and quiet. A Japanese cruiser shelled its military installations in 1942, and a wild storm sent high tides over most of its land a year ago. Since the captain of the ship Palmyra discovered the island group for the United States in 1892, the kingdoms of Hawaii and Great Britain decided they owned Palmyra. American rights were finally settled, but actual title to Palmyra was confused up to last May.

Lost Battle Then the U. S. Navy lost a battle of litigation it had been fighting for years with Leslie Pullard-Lee of Honolulu who said Palmyra was his private atoll. The U. S. Supreme Court agreed with Pullard-Lee. That was seven years after the Navy sailed in with dynamite, bulldozers and an estimated \$22,000,000 to turn the atoll into an immense airbase. Since the Navy steamed away last Spring, tropical foliage has tangled itself over abandoned highways, messhalls and barracks.

GET IN CONDITION FOR VACATION FUN BY ALICIA HART NEA Staff Writer Want to know how to have more fun on your vacation? Plan a month's pre-vacation beauty regimen designed to start you off well-rested and looking your prettiest instead of tired and disheveled from hectic last-minute preparations. You should plan, during this month, to get at least eight hours of sleep a night. Weigh yourself and size up your figure as it will appear in bathing suit or sports togs. The few extra pounds you may have gained during the winter can be whittled off in this month's time by keeping slight restriction on diet. Add morning sit-ups to your routine if you intend to go in for tennis games or horseback rides. With this pre-conditioning, muscles will be less likely to stiffen up after strenuous sports. Another point in your program should be hair care. If you plan to have a permanent, plan to have it at least three weeks before you leave. Hair will look softer and be easier to manage if you allow curls time to loosen up. Concentrate your complexion care on efforts to counteract the drying effects of winter. Butter up with lubricating creams so that skin will be soft and smooth for sun-tanning. If you want to experiment with new pink-toned makeups, perfect a technique of subtle application before you take off for your vacation, not after you've arrived at your destination. First impressions of good grooming gained by new acquaintances are sometimes lasting ones.

FLUORESCENT LIGHTS ARE COOL, GLARELESS If you are debating whether or not to buy the latest lighting fixtures for your home, here are facts from lighting engineers which may help you to make up your mind. Advantages of fluorescent light, say the engineers, is its cool, bright, glareless and evenly distributed illumination. This is widely used for general room illumination, as light placed over covers or valances, as spot illumination for kitchen work surfaces, bathroom and dressing-table mirrors. Fluorescent illumination can be used in the same room with incandescent light without the need for special wiring. Such a combination is not likely to be taxing to the eyes. Fluorescent bulbs are obtainable in color tones which range from daylight blues to warm tones that approximate the glow of filament bulbs. The initial costs of a fluorescent fixture and subsequent replacement of bulbs are apt to be higher than that of incandescent fixtures and bulbs. However, this cost factor is offset by the fact that a fluorescent bulb sheds, according to engineers questioned, more than three times as much light as an incandescent bulb of comparable wattage and that it lasts about five times longer. It is considered advisable to have an electrical contractor install a permanent fluorescent fixture to make sure that it is properly hung. To make the most efficient use of household voltage, fluorescent lamps are designed to light up about a second after they are switched on. Instant starting fixtures may be obtained but these require special auxiliary equipment to step up the voltage. If lamps flicker after they are lighted, this usually indicates that the bulb or the starter mechanism is wearing out. Either fixture is easily replaceable. Madeira wine is named for an island in Portugal. In Portuguese it literally means "timber."

Engagement Told

Mr. and Mrs. O. L. Stultz, 423 South Fort Worth Street, announce the engagement and approaching marriage of their daughter, Irene, to Weldon R. Rotan, son of Mr. and Mrs. J. O. Rotan. The couple will be married at 8 p. m. June 12 in the First Assembly of God Church.

Midland SPCA Will Sponsor Review Of 'The Bishop's Mantle' June 14

Mrs. Herbert Emery of Dallas, popular and well-known book reviewer, will review "The Bishop's Mantle," by Agnes Fligh Turball, at 10 a. m. Monday, June 14, in the Tower Theater here.

The review of the book, said to be one of the most popular of 1948, is sponsored by the Midland Chapter of the Society for the Prevention of Cruelty to Animals, with proceeds going to the organization's Midland Animal Shelter Fund. The new shelter is located at the old booster station in Southeast Midland. Some of the funds also will be used in the society's campaign to vaccinate every dog against rabies. Sponsors said the project is one of the most important ever staged here. They urge the cooperation of all citizens. Public invited The public is invited to attend the book review. Mrs. Emery is well known in Midland, having reviewed several books here. Her appearance here is through the courtesy of Sanger Brothers in Dallas. Tickets may be obtained from members of the SPCA or at The Book Stall and Carl's. They also will be on sale at the box office. The admission price is \$1, including tax. J. Howard Hedge, owner-manager of Midland Theaters, has donated the use of the Tower for the occasion.

Coming Events

- MONDAY The Board of Stewards of the First Methodist Church will meet at 7 p. m. Circle Bible leaders of the First Presbyterian Church will meet at 2 p. m. followed by the Executive Board meeting at 2:30. Past Matrons and Past Patrons of the Order of Eastern Star will meet with Mrs. M. A. Floyd, 599 North Colorado Street, at 8 p. m. The meeting of the Girl Scout Council has been postponed until June 21. Active members and alumni of Kappa Alpha Theta Sorority will meet in the home of Mrs. Reese Cleveland, 301 North F Street, at 8 p. m. TUESDAY The morning circle of the First Presbyterian Church will meet with Mrs. Robert M. Payne, 714 West Kansas Street, at 9:45 a. m. The Evening Circle of the First Presbyterian Church will meet at 7:30 p. m. in the home of Mrs. P. W. Morrison, 102 Ridgela Drive. WEDNESDAY Recent Graduates of AAUW will meet with Eleanor Simpson, 806 North Colorado Street, at 7:30 p. m. THURSDAY The West Side Home Demonstration Club will meet at 2:30 p. m. with Mrs. R. C. Spivey, 507 West Cuthbert Street. Presbyterian Men of Midland will meet for their monthly dinner meeting at 6:30 p. m. Cowboy Story Is Told During Children's Hour In relation to the rodeo, a cowboy story was featured at the Children's Story Hour in the County Library Saturday morning. The children heard "Kickapoo, the Fighting Bronco" and the sixth installment of "The Wizard of Oz." Mrs. K. C. Heald, Jr. read to the following children: Margie Jo Crisman, Holliday McCutchen, Betty McCutchen, Linda Marie Jackson, Levartha Hiett, Davis Harris, W. A. Scott, Robert Lee Williams, R. W. Hamlin, Wayne Cooper, James Upham, Mike Atkinson, Sandy Kubic, Ted Kubic and Judy Eric. Advertise or be forgotten

Maybe this is the job for you! Is getting a job your big problem right now? Maybe we can help. Have you ever thought about being a telephone operator? It's a girl's job—and a good one too! No experience? Doesn't matter—you learn (and earn, of course) as you go along. And telephone work has always held a fascination that's hard to describe. Why not see whether you can qualify? The chief operator at the telephone office will be glad to talk it over with you. SOUTHWESTERN BELL TELEPHONE CO.

Presbyterian Church Bible School Closes

The vacation Bible school of the First Presbyterian Church closed Friday morning when parents attended the final classes.

Church members on the beginner's faculty included Mrs. Sol Bunnell, leader of Group I, Mrs. H. G. Eastham, Mrs. Jay Bousell, Mrs. C. E. Fritchard, Mrs. F. R. Schenck, Mrs. Charles Lineham, Sarah Link, Mrs. Gilbert Tompson, Mrs. Donald Johnson, leader of Group II, Mrs. Charles Sullivan, and Frances Puetz.

Primary faculty included Mrs. M. O. Gibson, leader, Mrs. R. F. Peters, Jeanne DeWenzel, Miss Ruth Murray, and Wanda Hankla.

Junior instructors were Mrs. John M. Hill, leader, Mrs. T. P. Tarwater and Mrs. Ralph Oberholzer.

Mrs. Tom Sealy, Mrs. H. E. Bahr and Louanna Roush were on the Bible School Committee.

Robert Deweys Entertain With Informal Dinner

Mr. and Mrs. Robert S. Dewey, 1218 West College Street, honored Peggy Bissell, Paul Anderson and several out-of-town guests with an informal supper party Friday night.

The party was held on the Dewey's lawn.

Among the 18 guests were Mr. and Mrs. C. E. Bissell and Mr. and Mrs. W. D. Anderson, the betrothed couple's parents.

AMAZED AT QUICK ACTION OF MERTOX

"For the past ten years I have been troubled with severe gas pains which seemed to press against my heart and made it difficult to breathe. I had a pain under my heart that was almost unbearable at times," writes Mrs. Helen Louise Leslie.

"My food would not digest and soiled on my stomach. I had had other spells and when these attacks occurred I felt all puffed up. My appetite has greatly improved and I can now eat lots of things that I couldn't eat before taking MERTOX medicine."

"When taking MERTOX I feel like a different person. I certainly is wonderful to get up in the morning and do a day's work, without that tired, worn-out feeling. I certainly was amazed at the quick action of this medicine."

You can get MERTOX from any Texas drugist at the new REDUCED price.

Helen Louise Leslie

Helen Louise Leslie Becomes Bride Of Arlie Ennis In Church Ceremony

Before an altar of gladiolus and maroon daisies Miss Helen Louise Leslie became the bride of Arlie Ennis, San Diego, Calif., Sunday morning, May 23, in the First Methodist Church with the Rev. H. H. Hollowell officiating. Close friends and relatives attended the ceremony.

Mrs. Ennis is the daughter of Mr. and Mrs. J. C. Noles, and the bridegroom is the son of Mr. and Mrs. Orr Louis Ennis.

Mr. Noles gave his daughter in marriage. She chose a costume of white pique designed with a peplum jacket and short sleeves. The skirt was full and flared. Her hat was also of white pique trimmed with brown ribbons. White gardenias made the bride's bouquet.

Serving as the maid of honor was Neva Jo Lee. She was dressed in a white pique suit with brown and white accessories, with a corsage of pink carnations.

Clinton Morgan acted as best man.

Traditional Music
Preceding the ritual, Mrs. J. Holt Jowell played traditional organ wedding music.

Immediately following the ceremony a reception was held at the Noles' home, 1110 West Missouri Street. Mrs. Mary Jane Crum cut the wedding cake while Miss Lee served coffee.

Later a dinner was given in honor of the bride and bridegroom at the Ranch House with families and friends attending.

The young couple left for a wedding trip to El Paso and then to California. They plan to establish their home on the West Coast.

Both Mr. and Mrs. Ennis were graduated from Midland High School this Spring.

The U. S. Government Printing Office is generally recognized as the largest and most complete printing plant in the world.

CIRCUS CELEBRATES SEVENTH BIRTHDAY OF PRISCILLA NICHOLS

Mrs. Karl Nichols, 1306 West Michigan Street, entertained her daughter, Priscilla, on her seventh birthday with a circus party Friday afternoon.

Dozens of clown hats were presented to the guests upon their arrival. The party table supported a miniature three-ring circus, complete with tight-rope walkers, prancing horses, animals and a tent. The cake featured animals parading around the outermost edge.

One of the games following refreshments was pinning a big nose on a paper clown.

Assisting Mrs. Nichols was her eldest daughter, Diana, and Mrs. Alton Spier.

Children attending were Shirley Watts, Sharon Watts, Joan Noe, Mary Jane Banks, Mary Jane Aldridge, Gerry Howard, Linda Jackson, Richard Metz, Kannie Mauck, Sandy Mauck, Hilton Kaderil, Jr., and John Ehlers.

PLASTIC MATTRESSES

New air mattresses of plastic are touted to afford greater comfort than the conventional designs. Holes in the center of each tuft permit it to breathe. A tube container is fastened to a valve in the mattress and is inflated in a few minutes.

Books Abraham Lincoln studied included Dilworth's Speller, Murray's English reader, Pilgrim's Progress, Aesop's Fables, Weem's Washington, Scott's Lessons, and the Kentucky Preceptor.

Cosmetic Picture-Frame Package Doubles As Holder For Snapshots

Victorian-styled white plastic picture frames which are used as a package for nail enamel and lipstick double as decorative holders for snapshots.

By ALICIA HART
NEA Staff Writer

The cosmetic which also includes a useful package is an economy idea which should be welcomed by women in this day of the added luxury tax.

There have been many such products which have given the cosmetic user a plus-value in a utility package. Newest product, calculated to click with women who are as interested in the pretty appeal of their dressing tables as in their own good

looks is a picture-frame package for nail polish and lipstick. The manufacturer's claim for the lipstick, whose color matches the nail polish, is that it is double processed to cling closer to the lips.

When these cosmetics are removed, a useful two-oval picture frame, supported by an easel, is ready to take on small photos or snapshots for dresser-top decoration. This picture frame is a lacy white plastic reproduction of Victorian milk glass.

Post Office To Have Stamp Vending Machine

A stamp-vending machine will be installed in the Midland Post Office lobby soon, Postmaster N. G. Oates said Saturday.

The machine has been ordered by the Post Office Department and will be shipped here from the factory in the near future. It will sell three kinds of stamps—five one-cent stamps for a nickel, two small stamps for a dime, and five three-cent stamps for a dime and a nickel. Thus, purchasers must buy more than one stamp, but they won't lose money by patronizing the machine.

Midlanders will find the machine convenient especially when the post office is closed, Oates observed.

Ottom was first grown in China for ornament purposes, but was put to practical use about 1800 A. D.

Telephone Office In Downtown Location

Business offices of the Southwestern Bell Telephone Company this weekend are being moved to 123 South Lorain Street, Don Gaither, manager, said Saturday. The offices will open for business in the new location Monday.

The office of H. F. Fox, district manager, also will be at the new location.

Bills will be payable at the new downtown office, Gaither said.

The old telephone building is being remodeled and enlarged for the installation of additional telephone equipment.

Half a million ton. of water fall over Niagara Falls every minute.

Reserve Officer Goes On Active Duty Tour

Capt. Glen Grady, Signal Corps Reserve, has been ordered to 15 days' active duty with the regular Army, beginning Sunday to attend the reserve officers' orientation course at Fort Bliss, Lt. Col. Ray L. Inzer, instructor for the Organized Reserve unit here, announced Saturday.

Captain Grady is an engineer with the Texas-New Mexico Pipe Line Company. He served with the Signal Corps during World War II in Algiers, Algeria and Caserta, Italy. His reserve assignment is with the First Logistical Division, commanded by Col. H. W. Mathews, with headquarters at Midland Airport.

EAT PLENTY AND TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy—no trouble at all and costs little. Just go to your drugist and ask for a can of liquid Barcostrite. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the results, you may be too bulky fat and help regain slender, more graceful curves; if noticeable pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Lost 47 Pounds

"When I commenced to take Barcostrite, I weighed 215 pounds. I now weigh 168. I lost 55 pounds on the first two bottles. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barcostrite."—Mrs. George George, Gladness Court 4, Apt. 1, Austin, Texas.

Lost 20 Pounds

"I lost 20 pounds taking four bottles of Barcostrite and I feel fine."—H. M. Gates, 912 25th Street, Corpus Christi, Texas.

HAVE SOME FUN GET OUT IN THE SUN

it's play time for teen agers, too!

Teen agers going away to summer camp . . . vacationing . . . or just taking it easy around town this summer . . . will enjoy their holiday fun much more if they're "properly clothed." And that, nowadays, means jeans 'n shirts, shorts, slacks and such. A shopping trip to Grammer-Murphey can supply all that's desired.

Unusual Pear Salad Will Provide Color, Taste To Dinners

Whether you have been friend hubby's "chief cook" for five months, or five times five years, you mustn't plead guilty to the offense of having served garden or fruit salads, those and no others, at all meals.

Surprise him next Sunday with a delightful pear salad.

Melt in a double boiler one small package of red-hot's diluted with one-half cup of water for every two persons to be served. (This won't take long, but it does require rather close attention—the candy will burn soon after it is melted if not removed from fire.)

Pour this syrup over a can of pear halves and place in refrigerator for a couple of hours.

Combine to taste a mixture of cream cheese, heavy cream and mayonnaise, seasoned with dashes of herbs, celery salt and nutmeg.

After the pears are chilled, stuff them with the cheese (either one or two halves may be used for each serving). A clove of onion and a sprig of parsley at the other, placed on a lettuce leaf—and there you have an apple!

New Idea In Bread Adds To Dull Dinners

Bread is the staff of life. But sometimes even hot rolls become uninteresting.

Next time you feel that you could not possibly serve bread again (and housewives are frequently faced with that in the summer time) try heated French bread.

By rubbing the baking dish with a couple of pieces of garlic and buttering the bread lightly on both sides a savory taste results.

Stack the slices of bread in a dish and allow to heat in the oven for about 15 minutes.

New Deal Inspired Initials Remain In U. S. Language

WASHINGTON—(P)—When the New Deal took over the federal government in 1933, designation of government agencies by initials spread rapidly. Alphabetical tendencies prompted much ribbing.

Today, the alphabet is still with us, not only in the federal government but in the United Nations (UN) and in state and private groups.

Here are some that still function:

AEC—Atomic Energy Commission.
AMG—American Military Government.
ARA—Agricultural Research Administration.
BAE—Bureau of Agricultural Economics.
BLS—Bureau of Labor Statistics.
CAA—Civil Aeronautics Administration.
CAB—Civil Aeronautics Board.
CCC—Commodity Credit Corporation.
CSC—Civil Service Commission.
COA—Economic Cooperation Administration (Formerly ERP).
EIB—Export-Import Bank.
FAO—Food and Agriculture Organization (UN).
FBI TO HOLC
FBI—Federal Bureau of Investigation.
FCA—Farm Credit Association.
FCC—Federal Communications Commission.
FCIC—Federal Crop Insurance Corporation.
FCMS—Federal Conciliation and Mediation Service.
FDA—Food and Drug Administration.
FDIC—Federal Deposit Insurance Corporation.
FFC—Foreign Funds Control.
FHA—Federal Housing Administration.
FHBA—Federal Home Loan Bank Administration.
FPC—Federal Power Commission.
FNMA—Federal National Mortgage Association.
FPIA—Federal Public Housing Authority.
FSA—Federal Security Agency.
FTC—Federal Trade Commission.
FWA—Federal Works Agency.
GAO—General Accounting Office.
GPO—Government Printing Office.
HHFA—Housing and Home Finance Agency.
HOLA—Home Owners' Loan Corporation.
IBRD TO FMA
IBRD—International Bank for Reconstruction and Development.
ICC—Interstate Commerce Commission.
ILO—International Labor Organization.
IMF—International Monetary Fund.
MBCO—Migratory Bird Conservation Commission.
NACA—National Advisory Committee for Aeronautics.
NHA—National Housing Agency.
NLRB—National Labor Relations Board.
NME—National Military Establishment.
NRC—National Research Council.
NSC—National Security Council.
NSRB—National Security Resources Board.
ODT—Office of Defense Transportation.
OEM—Office for Emergency Management.
OHE—Office of Housing Expediter.
PAU—Pan American Union.
PBA—Public Building Administration.
PMA—Production and Marketing Administration.
RDB TO WDC
RDB—Research and Development Board (Formerly JRDB).
REA—Rural Electrification Administration.
RFC—Reconstruction Finance Corporation.
RRB—Railroad Retirement Board.
SEC—Securities and Exchange Commission.
SCS—Soil Conservation Service.
SSA—Social Security Administration.
TVA—Tennessee Valley Authority.
UNESCO—United Nations Educational, Scientific and Cultural Organization.
UN—United Nations.
UNRRA—United Nations Relief and Rehabilitation Administration.
USES—United States Employment Service.
USCC—United States Commercial Company.
USTC—United States Tariff Commission.
VA—Veterans Administration.
WAA—War Assets Administration.
WDC—War Damage Corporation.

President Truman makes his first stop in Pittsburgh, Pa., on his current tour of the United States. (NEA Telephone)

Barons And Burglars Hail Debreit 'Peerage'

LONDON—(P)—Debreit's Peerage, beloved handbook of barons and burglars, is out in the 1948 edition. Officially styled "Debreit's Peerage, Baronage, Knightage and Companionage," it is 3,000 pages long.

As in 145 previous editions, Debreit's seeks to furnish the vital facts of record on persons bearing hereditary or courtesy titles, privy councillors, knights, companions of the various honorary orders and people with the same ancestors as peers and barons.

The 1948 version still sells for the swag five guineas, or \$21, but because of the paper shortage it is hard to get at any price.

Yet, it is a "must" for the libraries of baronial castles because the barons are in it. Burglars are said to cite on Debreit's because it is such a ready list of likely prospects, complete with addresses.

Even people with neither titles nor larceny in their hearts seem to yearn for it. Several Americans were so anxious for a copy that they sent along the paper to print it on. They were turned down.

Back To Adam

One unnamed U. S. admiral wanted the editors to certify a family tree tracing his ancestry back to Adam through Methuselah and Noah. He enclosed a photographic copy.

The editors drily commented in their introduction:

"We should, however, have been even more interested had our correspondent supplied us with the parentage of Adam."

The editors showed a wry pride in their book's reputation as a reference work for house prowlers. They related that one peeress wrote "imploping us to omit her address as her home had been broken into twice by burglars and she feared further visits."

An old edition at Bedford prison, said the editors, is one of the most-thumbed volumes in the prisoners' library.

Child And Youth Week Observance Starts In Texas

Proclaiming the week of June 6 as Child and Youth Week in Texas, Gov. Beauford H. Jester Saturday called upon all citizens and particularly agencies and organizations concerned with the welfare of children and youth to greater mobilization for better child and youth welfare in Texas, and urged that all persons engaged in organized effort in behalf of children and youth to use utmost diligence and maximum effort in their behalf.

He termed the children and youth of Texas as the state's most precious resource, and said the strength of tomorrow lies in the spiritual, physical, social, mental and emotional health of Texas' children and youth of today. The governor said in his proclamation, "It is of vital importance to the welfare of this state and nation to conserve and preserve this most precious resource—our children and youth."

Youth Institutes

He also invited all persons and groups to attend or to be represented at the Child and Youth Week Institutes, sponsored by the State Board of Public Welfare, Tuesday through Thursday in Dallas. The institutes will be under the leadership of some of the nation's experts in the field of protective work with children, in the field of institutional care as well as in strengthening family life.

Among the institute speakers will be Mrs. Henrietta Gordon of New York, secretary of the Child Welfare League of America; Donald Howard of New York, director of the Department of Social Work of the Russell Sage Foundation; and Miss Jane Hoey of Washington, D. C., Bureau of Public Assistance.

Mrs. Willie Harding, superintendent of the Midland County Child Welfare Board, will attend the Dallas institutes.

Dunlap Buys Big Pecos Store

PECOS—Retha R. Martin, manager of The Dunlap Company, Saturday announced his concern has purchased Sisk's Department Store at Pecos.

The Pecos store is one of the oldest in this section of the Southwest and originally was known as the Pecos Mercantile Company. It was established about 1900. The consideration was approximately \$150,000.

The Dunlap Company operates large stores in Midland, Odessa, Lubbock and other West Texas cities.

A one-pound package of frozen fruit will thaw in the refrigerator in about 6 hours; at room temperature in about 3 hours.

Expecting a Baby?

Mother's Friend massaging preparation helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisite prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy... it helps keep the skin soft and pliable... thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin... for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use. Highly praised by users, many doctors and nurses. Millions of bottles sold. Just ask any druggist for Mother's Friend—the skin emollient and lubricant. Do try it.

Mother's Friend

Plain Spoken Pete

QUOTE ME AS SAYING, THE BEST MAN WILL NEED A LOT OF VOTES TO WIN — AND IF HE DOESN'T GET ENOUGH, HE ISN'T THE BEST MAN.

Now is the time to buy the things you will need to keep that lawn and flower bed in the pink of condition during the summer. As usual you will find we are ready with a complete stock of lawn mowers, power mowers, hoses, etc. We also have a nice selection of both metal and canvas chairs for lawn and porch. Come in Monday and choose the things you will require. It will be a pleasure to us to help you make selections.

UNDERGROUND TREE

A Brazilian tree, the Andira Laurifolia, has its trunk underground. What appears to be surface roots really are the branches of the tree.

The first U. S. census, taken in 1790, listed 3,893,636 persons.

Alaska has a population about one-half that of Omaha, Neb.

Stuffed Bell Peppers Are Easy And Good For Summer Meals

Summer days needn't mean there is a Summer daze about your meals. No one wants to labor long in a kitchen when there is an inviting atmosphere outside hinting a sun bath, or in later afternoons the grass and weeds start begging to be plucked from the flower beds.

So have you served to your family recently quick, easy and oh, so yummy stuffed bell peppers.

While the rice is boiling in salted water, fry cubed, left-over ham or beef. Add seasonings—salt, pepper, paprika, onion and celery pieces.

Mix the rice in the skillet with meat and seasonings. In a baking dish then stuff the peppers and pile remaining rice around peppers and cover with water. Let bake for about 30 minutes.

Your family will ask for more!

SHOE ARTISTS

The shoe-making trade is so highly regarded in America that children, from the age of five, are taught the craft by special artists.

One and a half dozen lemons will make enough lemonade to serve twenty-five people.

NEW YORK—(NEA)—Cotton dresses which swap last year's shoulder straps for this year's scarves and capes gain in glamor by this exchange. Proving the point are the two fashions shown. Both dresses feature long, full skirts and bare-topped bodices corseted to stay up and to belittle a waistline. The Frances Sider-designed plaidingham dress, left, owes its drama to a matching scarf as extravagantly fringed as a Spanish dancer's. The ensemble, right, of maize-colored chambray is a two-in-one fashion designed by Nardis of Dallas. The bow-tied ruffled cape and ruffled skirt strip down to give a girl another wardrobe item—a bare-topped sun suit with sculptured neckline and a boned bodice.

—EFSIE KINARD, NEA Fashion Editor.

Present Headlines Are 100 Years Old

By SHERRY BOWEN Associated Press Staff

Many of today's headlines would have seemed familiar to newspaper readers 100 years ago. Here are samples: Pope Pius Deplores War, Asks Liberals to Rally; Germans Seek United Nation; French Elections Watched; Marxism Called Menace; Russian Troops Occupy Hungary; Czech Independence Hoped; U. S. Occupation Troops Moved; Leaders Sent to Prison Camps; Population Weakened by Hunger; Displaced Persons Seek Homes. The year of revolution, 1848, saw riots in the streets throughout Europe. It saw new ideas born and new hopes crushed. Pope Pius of that year was the ninth of that name. He stirred fear among kings and those who backed them by making votes mean something in the papal states. He set up a parliament, freed political prisoners from the jails, set up a free press. When the pope's agent, Count Pellegrino Rossi was killed by anarchists, Nov. 15, 1848, he had plans for a more reform. World Net Ge A Leap. But Pius XI would not go along when urged to make war on Austria to back hopes for a unified Italy. And when Joseph Massini, Joseph Garibaldi and their "Young Italy" troops set up shop in Rome, even the pope was alarmed. He fled in disguise. The German drive for unity got well started. With the aid of King Frederick William IV of Prussia, a parliament met. It might have united Germany, but the king, in fear of new democratic ideas, turned down a crown based on limited power. The king was a kind man, who called a halt to troop moves against men at the street barricades and thereby lost control of the city. But in those days a king was a king and the thought that a voice might limit his power was a new and fearful thing for him. All Europe watched France. The revolt moves started in Paris early in the year. King Louis Philippe fled. The French gained the right to vote which they still have. But a change back to old ways was well started by the end of the year. Louis Napoleon got 5,500,000 votes of 7,500,000 in the election Nov. 15, 1848. The mere idea of a vote for Napoleon showed the French were on their way back to the king idea. It was not long before Napoleon set up as emperor. Fears of the vote were not eased by Karl Marx. His "Communist Manifesto" was issued early in 1848. Many of the things he asked for have since been made law in wide areas. But they were fought bitterly at that time. Chief among those who fought them was Russia. She backed authoritarian kings wherever she found them. Today Russia hails Marx, but her plan is called "authoritarianism." When, in 1848, trouble in Hungary got out of hand, Russian troops moved to take over the country in 1849. The Czech hopes for free rule were crushed in June 1848 when Austrian troops shelled Prague. Took West Land. It was the United States which took vast lands in war. Her occupation troops did not leave Mexico until June, 1848. It was England which had had revolt leaders sent to prison colonies. Irish moves had more behind them than the vague hopes that stirred most of the rest of Europe. Hunger had hold of the country. The great famine of 1846 had left gaunt wrecks among the people. Most were still hungry in 1848. The Irish "revolt" was even less successful than were those in other parts of Europe. But her "displaced" people turned to the United States. A quarter million left in 1848. And the flow across the sea kept on for years. Others also turned to America. Swedes went to the midwest in 1848. In June of this year, Swedes and Americans will join to honor those pioneers. The "workers" to whom Marx spoke in his "Manifesto," were beaten in 1848. The United States took slight part in their moves except to give first recognition to the temporary French Republic. But U. S. democracy was the ideal of many men of 1848 who fought authoritarianism. Today, some of the debates on the European Recovery Program have stressed the idea that America, this time, will seek to be more active. This time it will fight the authoritarianism of Communism.

SIMPLE HAIR-DO SHOWS OFF SHEEN

For this youthful styled coiffure, shingly clean hair is drawn back smoothly to the nape of the neck and dressed chignon-fashion with a flower-sprigged hair bow.

By ALICIA HART NEA Staff Writer

Give clean, brush-burnished hair a chance to catch sunlight and shine this Summer by dressing it simply.

This fresh-from-the-laundry look of hair can't be faked. During warm weather hair needs to be shampooed often and given several latherings and as many rinsings as you want it to advertise clean shimmer. To help you coax out brighter glints, there is a liquid conditioning shampoo which when used also makes hair better-behaved after it is washed. As important as any special shampoo are the brush strokes applied to whip up gleam. So, if you want to display a showier mop, don't spare the brush. After basic needs are taken care of, wear a hair-do which is calculated to rivet glances on shiny locks. A smartly simple style for the young miss makes use of ribbon and flowers to enhance youthful appeal.

The way to dress hair for these pretty gimmicks is first to comb it back from the brow and gather ends together at the back of the neck with a rubber band. Now, over this cluster of ends—hair can even be short for this chignon style—tuck a ribbon bow, centered with a small sprig of fresh or artificial flowers.

Martin Girls Elected 4-H Club Camp Officers

STANTON—Betty Bennett of Stanton was elected a commissioner to serve during the recent 4-H Club encampment near Fort Stockton. Billie Jean Carlisle, another Martin County 4-H member, was elected song leader. Other Martin County members attending were Jo Ann Jones, Georgian Glase, Sarah Louder, Doris Wood, Berry Hulsey, Harriet Higgins, Earline Haslewood and sponsors Miss Cannon, E. Eiland, Mrs. James Jones and Mrs. Henry Louder.

When butter cakes are taken from the oven they should be allowed to stand for about 5 minutes before they are turned out on to a cake rack to cool.

+ Rankin News +

RANKIN—Mrs. D. S. Anderson resented word Thursday that her sister, Miss Helen Wright, who formerly taught in Rankin High School, has been elected assistant professor of Home Economics at Texas Technological College for the coming year. Miss Wright was a member of the Rankin school faculty several years.

A revival meeting will be held at the First Baptist Church in Rankin commencing Sunday, June 13. Services will be conducted by the Rev. O. H. Holliday, pastor of the First Baptist Church, Bryan. The meeting will feature special music.

W. E. Stephenson, who has been unable to be about since breaking his hip more than a year ago, was taken to a San Angelo hospital last Monday. His condition is reported "improved." Mrs. Stephenson and their daughter, Sara Lee, of Odessa, are in San Angelo with him.

Mr. and Mrs. W. J. Pollard left Saturday for a two weeks' vacation trip to Tennessee and other Eastern states. The Pollards' son Jimmy will visit his paternal grandparents in Mineral Wells for the two weeks.

The Men's Bible Class will meet Sunday morning in the First Theatre Building at 9:45 for their Bible class. This class is sponsored by the Baptist and Methodist churches of Rankin, and all are welcome.

Mr. and Mrs. Doc Adams entertained the Young Adults Sunday School Class of the Methodist Church in their new home here Thursday night. "42" at five tables provided diversion for the evening, and refreshments of ice cream and cake were served to Mr. and Mrs. W. J. Pollard, Mr. and Mrs. Jack Walcher, Mr. and Mrs. O. E. Adams, Mr. and Mrs. Otho Brunt, Mr. and Mrs. D. S. Anderson, Mr. and Mrs. Walton Harrel, Mr. and Mrs. R. O. White, Mr. and Mrs. Lewis

Social Situation

SITUATION: When you are entering a public building a strange man, seeing a woman behind him, holds the door open for you. WRONG WAY: Peel that since the man is a stranger you should not say "Thank you," but accept the courtesy without a glance in his direction. RIGHT WAY: Smile and say "Thank you."

ISLAND VS. CONTINENT Every continent is an island, but every island is not a continent. The western end of Asia is given the status of a separate continent, under the name of Europe; and the British Isles are a part of the continent of Europe.

Stanton News

STANTON—Mr. and Mrs. Billiard of Lomax have returned from a visit with their daughter, Mrs. A. D. Sims, and family in Louisiana. Mr. and Mrs. Sims were in Stanton to attend the marriage of her sister to Neil Fryer and the Billiards returned home with them.

Vivian Lomax is in a Big Spring hospital. Visiting Mr. and Mrs. Raymond Louder recently were her sister, Mrs. H. E. Butler, and family of Dallas, their son, Marshall Louder, and family of Tarzan and a niece.

Mrs. J. E. Fall, daughter of Mr. and Mrs. W. W. Eiland, and Mrs. M. T. Alexander, both of Lubbock, were recent Stanton visitors.

Mr. and Mrs. Bill Epley of Leonora have moved to Stanton. Otis Davison is in a Dallas hospital.

Mr. and Mrs. George Cornelius have moved to the north side of town. The Methodist Vacation Bible School reported good attendance.

Mrs. Ledbetter, county home demonstration agent, has returned from a Big Spring hospital. Mrs. Laura Wheat and the mother of Mrs. Ford Pierce were recent Stanton visitors. Four generations were gathered in the Pierce home.

Mrs. Frank Roquemore and her daughter, Mrs. Paul O'Dell, have returned from San Angelo where Mrs. O'Dell has been attending school. She will remain in Stanton and attend Big Spring Junior College this Summer.

Other junior college students from Stanton are Glenn Green and Frances Kennedy.

White flour to be used in baking should always be sifted first. After it is sifted it should be piled lightly into a measuring cup with a spoon and leveled off with one stroke, using the edge of a spatula. If desired the flour may be sifted right into the measuring cup, thus eliminating an extra step.

Farmers in the New England colonies distributed their farms equally into pasturage, woodlot, and tillage.

FUR STORAGE IS SOUND INVESTMENT

One of the soundest investments you can make, if you have a good fur coat, is to spend the moderate price charged by a reliable house to store it for you during the summer months.

From your small investments the large returns you get are insurance against loss and damage and the promise of longer wear. When kept in a storage vault, the natural oils in the skins of a fur coat are better preserved, which explains value received in longer wear.

A fur coat put into storage also relieves you of the responsibility of fighting off one of its worst enemies—the destructive moth.

When you turn your coat over to a reliable storage concern you can expect to receive a type of contract which governs acknowledgment and a description and valuation of the garment.

If repairs need to be made on your coat—new lining, replacement of skins or restyling—the time to have these attended to is while your fur is taking its summer vacation.

The flow of water over Niagara Falls has never stopped entirely, so far as is known.

Giant Telescope

Over 800 invited guests attended the official dedication of the 300-inch Hale Telescope at Mount Palomar, Calif. The telescope was named for its founder, George Ellery Hale, who 30 years ago envisioned this dream which is now the world's largest.

IMPULSE TO DISCUSS AGE SHOULD BE STIFLED, WOMEN TOLD

By ALICIA HART
NEA Staff Writer

The woman who feels a compulsion to talk about "growing old" should curb the impulse for her own sake and for the sake of her friends.

First of all, she is being unfair to herself when she airs this subject. Her talk of age simply advertises her years. Secondly, such talk can be very annoying to feminine contemporaries who aren't so anxious to admit their years.

Talk of growing old can also be embarrassing to other people who are put in the position of having to make tactful denials to the woman with this irritating age complex. People who are required to say, "Of course, you're not getting old" or "No one can be induced to believe that you are a day over 30," usually resent having to defend a woman against her own verbal attacks.

Perhaps the reason any woman goes in for this sort of thing is that she wants to be reassured that she is still young. If that's what she wants, the best way to accomplish her purpose is to feel young and to talk and act that way.

Captain's Welcome

(NEA Telephone)
Capt. Henry T. (Hank) Meyer, former presidential pilot, gets a double reception from American Airlines stewardesses as he boards his DC-6 at Fort Worth, Texas, for his first commercial flight since his discharge from the Army. At left is Miss Kay Avery, Milwaukee, Wis., and at right is Miss Wilma Morgan, Italy, Texas.

Burt Gets Two Years For Burglary, Theft

George Burt was sentenced to two years in the penitentiary Friday after he had pleaded guilty to burglary and theft charges in 70th District Court here.

He had been indicted for burglary of the C. M. Ledebur home here Feb. 23, 1948.

TONS OF DUST
Several surveys by city engineers show that in metropolitan areas from 15 to 1,800 tons of dust fall on each square mile of territory every year.

The rate of heartbeat varies with the age, sex, mental and physical condition of the individual.

Convention Delegates May Skimp By On \$36 Per Day

By DOUGLAS LARSEN
PHILADELPHIA — (NEA) — Bring your pocketbook but leave your wife at home.

That's the official advice for anyone planning to attend the Republican and Democratic national conventions.

Delegates are being urged by the arrangements committees of both parties to leave their wives at home and plan to double up on rooms. Between 30,000 and 45,000 persons are expected to swarm into the City of Brotherly Love for each meeting. And there are only 5,000 hotel rooms to go around.

Commandeered private homes, apartments and fraternity houses in the city and in nearby communities won't quite make up the difference. Thousands are expected to commute daily to the sessions from nearby Washington and New York.

The airlines are pooling their facilities for this commuter service and the railroads are expected to add extra cars and sections to their regular runs between these cities.

Veterans On The Job

Two charming, capable women and veterans on the job are in charge of the housing. They are Mrs. Marian Phelps for the Republicans and Mrs. Dorothy Vredenburg for the Democrats. They agree it is the toughest assignment they've ever had. They have been working on it for months.

Hotel rooms will range from \$3 a day for singles without bath in the most modest hotels to \$300 a day for some suites in the best apartments. Private apartments are being sacrificed for the period by Philadelphians for \$300 to \$1,500 a week. The top prices asked — but not taken — was \$3,000 for a private mansion complete with servants. The fraternity houses on the campus of the University of Pennsylvania, which is just across the street from the convention hall, have gone for \$1,000 to \$3,000 a week.

The Philadelphia Chamber of Commerce has helped by urging Philadelphians to take their vacations during convention times and rent their homes.

It is estimated that the minimum cost for a delegate will be \$30 a day. That doesn't include shopping or the transportation to and from his home town. The average hotel room will cost \$12, meals will run about \$10, entertainment—two visits to a bar or one visit to a nightclub—will cost \$7 and with the hall several miles from town, transportation will cost delegate about \$3 a day.

That's the estimated minimum a delegate could get by on without straining. The sky is the limit for the big spenders. The town is loaded with fancy night clubs, saloons, restaurants and fine stores. And there will be no shortage of liquor, food or entertainment.

Most of the big entertainment spots are importing special talent for the festivities, including band leaders, Paul Whiteman, Ted Lewis, Tony Pastor, and their orchestras, as well as other big names.

The owner of a chain of the biggest night clubs in the city says it has always been his policy to charge nothing to cover for minimum price and that he doesn't plan to change for the convention. He is also installing television screens in all his spots.

Clem O. Schmidt, the man in charge of food for the Bellevue-Stratford Hotel, the downtown convention headquarters, says:

"Food prices are already as high as they can go in this town. We couldn't raise them if we wanted to."

Nobody Loves Forever

By Margaret Brucker

THE FRONT! Jessica sits herself again. She is happy to sit with him but feels a sudden surge of fear. David to sure everything will turn out all right. Jessica can't seem to get her mind clear.

Lucy was different. She would come home from work and make a listless effort to eat her supper, help with the dishes as usual, and sit down with a book or her sewing. But her thoughts were not upon the book. She would drop the sewing in her lap and stare vacantly across the room at nothing in particular.

Her gray-blue eyes mirrored alarm when Jessica asked her one evening, "What's wrong with you, Lucy?"

"Wrong?" She tried to speak briefly, picked up her sewing, a dress she was making for Betty, and began to work with almost feverish activity. "What could be wrong?" she demanded.

Mrs. Blake came in from the kitchen and sat down near them. She said, "She's worn out waiting on Betty. It isn't her place to take so much responsibility. When I had children—"

Lucy spoke mildly but firmly. "When you had children the situation was entirely different. Mother, you had a husband in the home who could help you."

Mrs. Blake paid no attention to her daughter but went on to eulogize Genevieve instead. How capable, such a good girl and so helpful. "I really don't know how I could have managed this past year without her," she observed; and, although she did not look up, Jessica felt her mother-in-law's hard eyes fastened accusingly upon her.

Finally, Mrs. Blake, receiving no response from Lucy, and no evidence that her bawling would bring a return from Jessica, got up and returned to the kitchen.

Lucy dropped her sewing as the kitchen door closed behind her

wonders for you. Buy some new clothes—remember you're young—find a boss who isn't a slave driver like Hugh Linton."

LUCY dabbed at her eyes, bit her lips. "I don't know why I went to pieces like that," she said apologetically. "Things haven't gone so smoothly at the office lately. I've been nervous and Hugh has been impatient with me—"

"Please don't tell Mother, will you?" "Of course not," said Jessica. "But you work too hard. No man should expect his secretary to spend her evenings bent over a typewriter."

Shortly afterward Mrs. Blake returned, flashing a suspicious glance at Lucy. "Would you like to walk over to Genevieve's, Lucy," she asked, "and see if she can help me tomorrow evening with my jelly? I've never seen a girl so capable as Genevieve."

She rambled on, but Jessica rose and said: "Want me to go with you, Lu?" "Will you?" "When we were outside together walking down the street, Jessica took Lucy's arm. She said, "I want to tell you something. Something which may upset you, but I think you should know."

Lucy said, "It's about David Gregory, isn't it?" "He is in your office?" "Yes. Of course, I seldom see him, for I'm in another office. But he has frequent conferences with Mr. Linton."

Lucy knew a David Jessica had never seen. Jessica thought of how little she knew of David except their meetings. She felt a stab of uneasiness. Once before she had been tricked by ardor and infatuation. Was she weak and starved for affection and consequently vulnerable when she had met David Gregory?

(To Be Continued)

McKenney on Bridge

By WILLIAM E. MCKENNEY
America's Card Authority

For the first time since 1929, the Summer session of the national championships tournament of the American Contract Bridge League will be held in Chicago, Ill. The time: July 31 to Aug. 6. The place: Hotel Stevens.

William McGhee of Chicago was appointed chairman of the tournament. He and Joseph J. Stedem, president of the Chicago Contract Bridge Association, say advance entries already indicate that every

the ace of hearts and then go back over to dummy and take a heart finesse. When this lost, he would be ruffed again and the contract defeated.

However, South followed the correct technique. He cashed the ace and king of hearts, and the ace and king of diamonds, then he gave up a diamond. West won and led the queen of clubs, ruffing and declaring down. But then all South had to do was to continue to lead diamonds and let West make his two trumps. Thus he held his losses to two trumps and a diamond.

Opening—♣K 5

event will break an attendance record. The Chicago players are predicting, as I do, that most of the titles will be won by midwesterners.

Certainly the midwest players will more than hold their own. I recall the hand shown today, which was played in a rubber bridge game at the Chicago Athletic Club on my last trip to that city.

The opening lead of the king of clubs was won in dummy and declarator took inventory. He saw that he could afford to lose one diamond trick and two heart tricks. The average player might cash

VOLCANIC FURY

The volcanic Mount Pelee, on Martinique, after 51 years of inactivity, on May 8, 1902, gave vent to its pent-up fury in a blast that sent a stifling cloud 13,000 feet into the air. As this steaming mass reached St. Pierre, people died like flies.

CANDLE CLOCK
A candle clock, consisting of candles marked off in inch sections, was devised by Alfred the Great, of England. Each candle burned four hours.

Watchdogs

Daddy's big feet corral 10-month-old Diane Kline, of Ravenna, Ohio, and keep her from wandering into danger on a New York pier. She and her dad were waiting to greet her grandparents, arriving from England.

FUNNY BUSINESS

GRADUATE SHOULD WRITE 'THANKS' NOTE FOR GIFTS RECEIVED

By ALICIA HART
NEA Staff Writer

Gifts sent to the sweet girl graduate deserve "thank-you" notes written promptly by the young recipient.

In the whirl of the end-of-school festivities, there may be a temptation to delay writing your "thank-you" notes or to ask Mom to include your "thanks" in her letter to grandmother or Aunt Helen.

Good manners, however, require that you express your pleasure in a personal note. A good rule of the thumb to follow if you want to impress donors that you know your etiquette is to write within 24 hours after receiving a present. You'll be less likely to delay writing if you keep a supply of notepaper, envelopes, stamps and a pen on your study table. Clipping the return addresses from packages as you open them and spiking them on a spindle near your writing folio will also help to encourage a prompt reply.

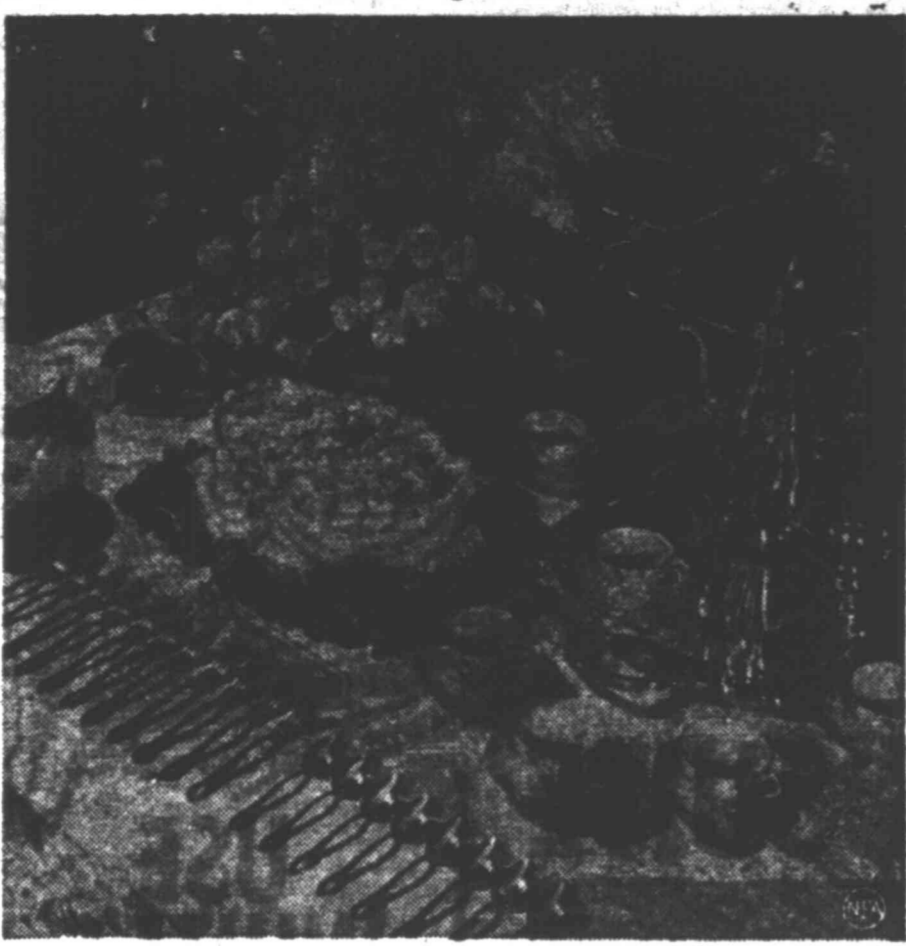

Gifts sent by persons living in your city should be as promptly acknowledged either by note or by a telephone call as gifts received from out of town. Don't wait until you meet donors on the street to thank them for their gifts.

INTRODUCED IT

George Washington introduced the ring-necked pheasant to America when he imported a few for his estate in 1790. However, the bird actually got its start as a game bird in the United States when some were brought from the Orient and released in Oregon in 1880.

Eels usually burrow during the day and feed principally at night.

Reception

White tulips, white lilies and green lemon leaves on gleaming white Irish linen damask—a worthy setting for the bridal cake.

By GAYNOR MADDOX
NEA Staff Writer

More June brides than ever will plan to hold their wedding receptions at home this year. Home, as a symbol of security, surrounds life's important occasions with special values. And, on the practical side, entertaining at hotels has become so expensive that the outlay for a reception might well be used for something of more lasting significance.

A home wedding reception can be as lovely in every way as one which is arranged by a professional caterer if it is kept simple and within the scope of the family's woman-power. Relatives are always eager to help and can very well take over the responsibility of arranging the wedding cake table.

The first step, of course, is the selection of the tablecloth. For richness and elegance, an Irish linen damask is traditionally first choice. It may be the cloth that the family uses for such special occasions as Thanksgiving and Christmas — beautifully laundered and ironed to a brilliant lustre. Or it may be a cloth from the bride's own trousseau chest which will be initiated now and used on each anniversary till her golden wedding — and even longer.

The best step is the arrangement of the flowers. It's a good idea to plan to place them at the corner of the table. In this way, they can be higher, more dramatic, more pictorial. Even fairly short-stemmed flowers may be arranged with height if a fruit branch or flowering shrub is used for the foundation. Test tubes can be wired to the branch and filled with flowers.

Then, as a final touch, the wedding cake itself! This may be the traditional three-tiered cake topped with a miniature bride and groom. Or it may be baked in the shape of a heart, or of two hearts joined together. Another attractive idea is to bake the cake in a ring mold and fill the center with an old-fashioned bouquet of fresh flowers.

TRANSPORTATION PROVIDED

In Korea, royal funeral processions, which wind their way more than 30 miles between Seoul and Kimokri, are accompanied by several wooden horses. These are taken along to furnish the departing soul with a means of transportation into the next world.

Chopped fresh cucumbers and radishes added to mayonnaise make a delicious salad dressing.

TEKANS IN WASHINGTON—

Tall Peak In Big Bend National Park May Be Named Toll Mountain

By TEX EASLEY

WASHINGTON —(AP)—The Interior Department announced recently that one of the tallest peaks in Texas may be named Toll Mountain.

The designation, which is expected to be approved June 10 when the department's "board of geographic names" meets, would honor Roster W. Toll.

Although he was not a Texan and known to but a few people in the state, Toll had a role in the establishment of the Big Bend National Park. The 7,420-foot flat top peak is located in the Big Bend's Chisos Mountains in Brewster County.

For many years while in the National Park Service, Toll made a study of the Big Bend country and was so impressed by its potentialities that he strongly recommended the federal government actively aid and encourage Texans who were promoting the idea.

He had just completed a thorough first hand investigation of the rugged West Texas territory along the Rio Grande and was enroute by automobile to Arizona when he was killed in an accident near Deming, N. M.

Noted Mountaineer

Toll was born in Denver, Colo., Oct. 17, 1889, and after studying civil engineering at Denver and Columbia Universities, became chief engineer for the Denver Tramway Company. Shortly after World War One he entered the National Park Service, and at the time of his death was superintendent of Yellowstone National Park. Noted as a mountaineer, he had previously been in charge of Rocky Mountain and Mount Rainier National Parks.

The head of the Board of Geographic Names is Dr. Meredith Burrill, who said the National Park Service had recommended the Texas mountain be named after Toll.

All mountains and rivers of importance, said Dr. Burrill, are named after deceased persons. Names usually are selected of well known figures in the locality involved or of individuals associated with the area in some manner. There are some exceptions where through common usage a mountain or river has become well known by the name of a living person.

The board is set up under and responsible only to the Secretary of the Interior. It is the body which determines what names shall be officially recognized by the government on maps and documents, numerous foreign towns and cities as well as rivers and mountains are known by two or more names. For example, the Rio Grande on most Mexican maps is called Rio Bravo.

Periodically, the board issues a list of names which it proposes to apply to various places on the globe. Then, a month or so later, final approval is given if there has been no serious protest to the idea.

Around The Capital:

Texans had a hand in getting the Civil Air Patrol set up on a firm footing.

A bill the President has just signed recognizes it as an auxiliary of the regular military establishment.

Former Dallas Congressman Hatton W. Summers who holds the rank of lieutenant colonel in the Texas wing of the CAP, acts as counsel for the national organization and drew the tentative drafts of the legislation. Incumbent members of congress, of course, had to introduce it in the House and Senate.

There are 122,000 officers and men in 900 communities who are lined up in the CAP. They serve fire and help out in such emergencies as floods, forest fires and plane crash searches. Under the new law, the government provides them gas

LIGHT PERFUME IS BETTER FOR SUMMER

Tiny leak-proof perfume flacon has a gold applicator for stroking fragrance directly on skin.

By ALICIA HART
NEA Staff Writer

The perfume you wear and the way you wear it can do much to heighten the illusion of fresh, immaculate grooming when the mercury climbs. In general, the perfume calculated to underscore freshness is a delicate bouquet or single-flower fragrance rather than a heavier or more sultry scent.

When you apply lightly-scented perfume, however, don't make the mistake of using twice as much because the fragrance is less pronounced. Remember, warm skin will explode the full fragrance of perfumes dabbed on it. Used with a lavish hand, perfume can be overpowering on a hot day.

A better plan for maintaining the subtle fragrance you seek is to apply your perfume in the morning with a light hand and replenish it during the day. Tuck into your purse a tiny flacon filled with your favorite scent and give your wrists, elbows and ears a perfume touch-up.

New leak-proof perfume - sized containers are a wise investment if you want to protect your handbag and to conserve volatile fragrances. One new crystal flacon, for example, which is no larger than a lipstick, has a cleverly designed gold-tipped applicator to release perfume when pressed against the skin. With this device, perfume is literally stroked on in the exact amount that you want to use.

Home Demonstration Council Plans Annual Cloverdale Camping

Plans for the annual Home Demonstration Club and 4-H Club encampment at Cloverdale Park were discussed at a Home Demonstration Council meeting Friday afternoon in the assembly room of the courthouse.

Present were Mrs. Jim Baker, Mrs. M. G. McConal, Mrs. I. J. Howard, Mrs. D. McNulty, Mrs. O. J. Miffin, Mrs. J. C. Stevens, Mrs. W. L. Parker, and Mrs. Joe Chastain.

Mrs. McConal, president, appointed Mrs. Howard and Mrs. Stevens to a food committee, Mrs. Baker and Mrs. S. E. North to a recreation committee, Mrs. McNulty to a handicraft committee, and Mrs. Miff and Mrs. H. O. Allen to a program committee.

CONDITION IMPROVED

Mr. and Mrs. Aubrey Gill have advised friends here that the condition of their young son, ill in a Dallas hospital, is "much improved."

FINED FOR SWINDLING

A Midland man was fined \$15 and costs in county court here Friday on charges of swindling with worthless check.

The Canadian Niagara or Horse-shoe Falls are about 155 feet high.

"FISHING CAT"

The fishing cat of India is one of the little known animals of the world. This feline crouches nightly near the edges of rivers and scoops fish out of the water with its paws.

A vacuum bottle used for Summer picnics should be thoroughly cleaned and aired each time it is used. To clean, scald it with boiling water to which a little baking soda has been added.

Congratulations To:

Mr. and Mrs. F. H. Huff, Grandfalls, on the birth, Saturday, of a son, whose name has not yet been announced, weighing five pounds.

SHORT-LIVED

The average life of a single human hair is two years. It falls at the end of that time and a new one grows in. If the new one fails to grow, baldness results.

One tablespoon of cornstarch has the thickening power of 3 tablespoons of all-purpose flour.

ZONED ROADS

The roads of the federal-aid highway system are chosen in such a way that if a one 10-mile-wide were marked off on each side of them, these zones would include the homes of 90 per cent of the population, according to the Encyclopedia Britannica.

DON'T LET YOUR CHILD HAVE DIPHTHERIA

Despite the fact that a way to prevent diphtheria was discovered many years ago, thousands of children have diphtheria every year. Much of this is due to the indifference of parents. They know that their children should be immunized, but they just don't get around to it. Make a resolution now to have your children treated. The treatment is simple and safe. Ask your doctor about it at the first opportunity.
