Texas Official Indicted By Federal Grand Jury

J. E. McDonald Is Named As Violator Of Lobbying Laws

WASHINGTON (AP)—A federal grand jury Wednesday indicted the agricultural commissioners of Texas and Georgia, two farm organizations and two other persons on charges of violating the lobbying law.

Attorney General Clark, who announced the grand jury action, said they are accused of conspiracy to lobby for higher commodity prices without registering with Congress. He said they had a personal interest in higher prices because of trading on commodity markets.

Those indicted: J. E. McDonald, Texas commissioner of agriculture; Tom Linder, Georgia commissioner of agriculture; Ralph W. Moore of Granger, Texas, who maintains headquarters in Washington as secretary of the National Farm Committee; Robert M. Harris, senior partner in the cotton brokerage firm of Harris and Vose, New York City; The National Farm Committee, a Texas corporation headed by Linder; The Farm Commissioners' Council, which has headquarters here.

Reds Reject Six-Power Agreement

LONDON (AP)—A Soviet Embassy spokesman said Wednesday Russia has informed Britain she cannot accept the six-power London agreement to set up a separate West German government.

The spokesman said Soviet Ambassador Georgi N. Zarubin told Sir William Strang, chairman of the Six-Power Conference, on June 14 that Russia regards the agreement as a violation of the Potsdam pact.

He said Zarubin announced the Russian view a few hours after receiving the text of the accord, sent to the Russians before it was released for publication.

Even during the negotiations which produced the agreement, Moscow would not accept the Russian government's so-called "four big powers" formula.

Violations of the Lobbying Registration Act carry penalties as high as two years imprisonment or \$10,000 fine or both, plus a prohibition against any lobbying activity or testimony before any congressional committee for a period of three years.

The Justice Department statement said: "The conspiracy count charges that the individual defendants had personally maintained commodity accounts and that it was to their financial interest to see to it that high commodity prices were maintained in order to support their various transactions in the commodity markets."

The grand jury also found that a part of the conspiracy was that Moore would not register as the law required because his registration would obviously reveal their respective personal financial interests and therefore injure the weight of their testimony before congressional committees.

The defendants, McDonald and Linder, are officials of their respective states of Texas and Georgia respectively. The grand jury charged that these two defendants, while appearing on the surface to act in their official capacities and in behalf of the people of their respective states,

Child Of Tragedy

Betty Austin, a nurse at a Pueblo, Colo., hospital, holds the 10-day-old baby of Mr. and Mrs. Sam Clingen who appears to be the worst for his experience in which his mother, father, and an 18-month-old child of the family died in a flash flood near Pueblo, Colo., last week. The tragedy was not discovered until cowboys found the whimpering baby after it had survived without food for three days in a cold night.

House Draft Vote Faces Now Delays

WASHINGTON (AP)—House draft foes rallied hopefully Wednesday around a plan to keep the issue on ice until next January.

The idea was trotted out late Tuesday by Representative Shafer (R-Mich.). It drew quick support from several members opposing a return to selective service and a tentative endorsement from Representative Short (R-Mo.), who is leading the floor fight against the bill.

House leaders said a final vote on the draft may not come until Thursday, although they still hoped to finish it Wednesday. Chairman Andrews (R-NY) of the House Armed Services Committee predicted passage by a wide margin and without the delayed-action Shafer proposal.

Among other amendments which Andrews said he thought would be rejected was one by Representative Gavin (R-Pa.) to allow the armed services to enlist up to 100,000 aliens for three-year terms. They then would be eligible for American citizenship.

The Senate-passed bill contains a similar proposal. But the number of aliens was put at 25,000 and their terms at five years.

The Shafer plan would hold off registration, as well as inductions until next January 31. The law would go into operation then only if the President proclaimed, and Congress agreed by formal resolution, that voluntary enlistments had not produced enough men for the armed forces.

In the meantime, the services would have to conduct an intensive recruiting drive by:

1. Increasing the pay for all enlisted men 25 per cent.
2. Lowering the passing grade of the Army's aptitude test from 80 to 70 points.
3. Accepting two-year enlistments with the same privileges as enlistments for longer periods.

(Ind) said he would decide during the day whether to order a night session to try to dispose of the manpower measure.

Two performances of the "Theater of Atoms" were held before capacity crowds in the auditorium, with Raymond R. Schiff, research scientist of the Westinghouse Laboratories, conducting the lectures and demonstrations. Eleven different pieces of apparatus are used to demonstrate nuclear energy, atom smashing and many other interesting features pertaining to the Atomic Age. The lectures and demonstrations are held in the gymnasium and in a tent on the school grounds. Movies also are shown on the school's tennis courts.

The Walton and O'Rourke puppet show, starring Reddy Kilowatt, drew rounds of applause from hundreds of persons who crowded around the special stage in the gymnasium. It is the best and most entertaining puppet show ever seen in West Texas. Shows are scheduled at 7, 8, 9 and 10 o'clock each night. Between shows, Reddy visits with the children in the gymnasium.

More than 50 makes of well-known electric appliances are on display in the gymnasium and in the farm and ranch tent on the school grounds. The appliances are the latest models available and Tuesday afternoon lectures and demonstrations attracted much attention. Midland students and members of the public are operating in displaying the equipment and representatives of the various firms are on hand to demonstrate the units. The gym has been converted into a colorful and glamorous display room.

The show will be open from 6 to 11 p. m. Wednesday and Thursday nights.

Water reminders: Midland's water situation remains acute, and citizens are urged to conserve water in every way possible to prevent rationing. Residents are requested to water lawns and gardens from 6 p. m. to 11 p. m. only.

Republican Pit Strength Against Truman's Vetoes

WASHINGTON (AP)—Republicans in Congress, awaiting President Truman's next move in their tariff-cutting fight, prepared Wednesday to pit their strength against two presidential vetoes.

Congress Tuesday sent Truman a one-year extension of the Reciprocal Trade Act, with some restrictions on the President's power to cut import duties.

There was speculation that he might veto the measure and insist instead on a three-year extension without restrictions.

By the end of the day, Congress will have come to grips with its third presidential veto in a week. President Truman Tuesday passed back a money bill calling for almost a billion dollars for the Federal Security Agency and the Labor Department. It was the first appropriations bill veto since 1934.

The reason an amendment aimed at transferring the United States Employment Service from the Labor Department to the Federal Security Agency.

Republicans leaders in both houses said they expected trouble getting the two-thirds majority needed to override.

The Senate, meanwhile, scheduled a vote on another vetoed bill, this one aimed at letting railroads agree on rates without fear of anti-trust action, provided the Interstate Commerce Commission approved.

Increased Aid Bill Faces House Wrath

WASHINGTON (AP)—The Senate's \$6,125,710,228 global aid bill headed Wednesday for a stormy reception in the economy-minded House which last week voted many millions less.

The Senate okayed the unprecedented sum by a 60 to 9 vote shortly after Tuesday midnight. If rejected by the House—as it undoubtedly will be—the bill will be sent to a joint conference committee for agreement before Saturday adjournment.

The Senate action added well over a billion dollars to the House-approved bill. It did this chiefly by restoring the world-wide assistance program to a 12-month spending basis instead of the 15 months demanded by the House. In actual cash, the Senate bill upped the House amount by only \$145,000,000 and was still \$408,000,000 short of the amount President Truman asked.

Opponent Servet Notice: Chairman Bridges (R-NY) of the Senate Appropriations Committee estimated the increase to be "in excess" of \$1,100,000,000. His House counterpart, Rep. Taber (R-NY), already has served notice that he will vigorously oppose the Senate bill.

Before its vote on the foreign spending bill, the Senate took still another step bearing importantly on American foreign policy. By a voice vote it approved a \$3,686,733,350 appropriation for the Navy. This measure also goes back to the House for action on a Senate boost of more than \$125,000,000.

Sensor Connelly voted for the foreign aid bill while Senator O'Daniel voted against it.

LONDON (AP)—The Air Ministry announced that 21 Czechoslovak refugees, including women and children, arrived by plane at a Royal Air Force station in Kent Wednesday.

BRUSSELS, BELGIUM (AP)—About 250,000 steel and metal workers struck throughout Belgium Wednesday for pay increases.

WASHINGTON (AP)—The House Wednesday passed over President Truman's veto a \$975,914,700 appropriation bill shifting the U. S. Employment Service from the Labor Department to the Federal Security Agency.

Record Crowd Attends Texas Electric Show

A record opening night crowd of 2,733 persons visited the Texas Electric Show of '45 at the Midland High School Tuesday night, and officials predicted even larger crowds Wednesday and Thursday nights.

In addition to the show, the largest of its kind ever staged in the Southwest, is free, and the public is invited and urged to attend.

Visitors attending the Tuesday night attraction were high in their praises of the stellar entertainment and of the attractive and well-arranged displays of the latest electric appliances and equipment. Continuous entertainment for every member of the family is underway in the high school auditorium and gymnasium and in a huge tent on the school grounds. Movies also are shown on the school's tennis courts.

Reddy Kilowatt greets visitors as they enter the show grounds and is very much in evidence throughout the display and entertainment rooms.

Theater of Atoms: R. L. Miller, district manager of the Texas Electric Service Company, was well pleased with the Tuesday night attendance and urged all residents of Midland to attend the show during its stay here.

Two performances of the "Theater of Atoms" were held before capacity crowds in the auditorium, with Raymond R. Supporters Hint Stassen Swing To Vandenberg

By JACK BELL

WASHINGTON (AP)—Reports came out of the Harold E. Stassen camp Wednesday that if the Minnesota falls to win the Republican presidential nomination he might lead a convention move to draft Senator Arthur Vandenberg.

Stassen's friends here contend the last week has shown an upward trend in the former governor's political standing from the low point reached after his defeat by Gov. Thomas E. Dewey in the May 31 Oregon primary.

These supporters claim Stassen still has a good chance to get the nomination. Stassen had posted his own victory on the ninth ballot of the party convention opening Monday in Philadelphia.

The enigma of Vandenberg's non-candidacy continued to hold top interest as delegates began heading for Philadelphia from all over the country.

Dewey Tops List: It produced a prediction Tuesday by Senator Gurney (R-SD) that the Michigan senator would accept the nomination if it were offered.

With 863 of the 1,094 convention votes pledged, 56 favorite sons on the first count, there were increasing signs that it may be difficult for any of the major candidates to top the 300 mark on the first ballot. It takes 548 to win nomination.

Gov. Thomas E. Dewey tops the list of pledged and undisputed delegates with 148. Stassen has 99 and Senator Robert Taft, 81. Vandenberg has Michigan's 41 favorite son votes.

Prominent Rancher Dies in Auto Crash

OLNEY, TEXAS (AP)—A prominent Texas rancher was dead and two persons in serious condition Wednesday following an automobile collision Tuesday night on the Olney-Throckmorton highway.

Sam Bird, 66, Young and Throckmorton county rancher and former Young County commissioner, was killed. Mr. and Mrs. Trus Jennings, members of another Throckmorton ranch family, were seriously injured.

Cars driven by Bird and Jennings collided head on, Bird, who also had ranching interests in Colorado, resided in Olney.

Reddy Kilowatt Packs 'Em In

A capacity crowd jammed the Midland High School Gymnasium Tuesday night to witness the famous Walton and O'Rourke puppet show, which is a feature attraction of the Texas Electric Show of '45. Performances of the puppet show, termed by spectators as the best ever seen here, are staged at 7, 8, 9 and 10 o'clock. Reddy Kilowatt is the star. The electric show will continue through Thursday night. Huge crowds also attended the spectacular "Theater of Atoms" in the high school auditorium, and inspected the scores of electric appliances and equipment on display in the gymnasium and in a tent on the school grounds. The show is open from 6 to 11 p. m., and admission is free.

'Bishop's Mantle' Is Reviewed By Mrs. Emery Here

A large and attentive audience heard Mrs. Herbert Emery Monday review "The Bishop's Mantle" at the Tower Theater here.

Appearing under the sponsorship of the Midland Chapter of the Society for the Prevention of Cruelty to Animals, Mrs. Emery was introduced by Carl Jerns, president, who gave a short outline of the aims, objectives and accomplishments of the SPCA.

Very smart in a print crepe dress with a green background, white straw sailor hat with white feather pom-poms, and green accessories, Mrs. Emery held the close attention of her audience as she reviewed the book with humor and imagination.

"The Bishop's Mantle," one of the year's best-known books, concerns the struggles of a young Episcopalian rector, Hilary Laurence, and the title of the story is derived from the fact that the rector's grandfather was a bishop, and his example and inspiration is a spiritual mantle which has fallen upon Laurence's shoulders.

The novel relates the disappointments and triumphs of Laurence's life as rector of a large church, which retains its fashionable clientele although it is now in the slums.

Symbol of Ministry

Mrs. Emery pointed out that Hilary Laurence is really a symbol of any Protestant minister, and the story is not only the representation of the life any young clergyman in a large city might lead.

The climax of the story is an attempt to smear the rector with malicious and unfounded gossip.

The disaster at Pearl Harbor occurs at the end of the novel, and Laurence, after much soul-searching, decides to join the armed forces as a chaplain.

While here, Mrs. Emery was a guest of Mr. and Mrs. A. S. Donnelly. She appeared through the courtesy of Sanger Brothers of Dallas.

As a mode of greeting, Israelites of old bowed to the ground seven times.

Talk, Talk, Talk Stalls Action On Peacetime Draft

WASHINGTON—(AP)—Time is short, but the human impulse to say a few thousand well-chosen words is strong.

The House is debating the draft bill; nobody doubts the outcome. The House will pass it, just as the Senate did. We'll have a draft law.

The mind of every House member already must be made up on how he'll vote. Speechmaking at this point won't change his mind.

The draft problem has been kicking around Congress for months. Every member has had a chance to look into it carefully and think about it.

Less Talk, More Work

He's had a chance to read all sides of the argument. He's talked with other congressmen. And he's been drowned in mail from the folks back home.

So it would be quick and easy if the House just voted and got the draft out of the way, except maybe for trying to make a few changes in the bill.

Everybody knows the less speechmaking, the more work can be done. But this doesn't stop a congressman from getting up and cutting loose.

So in relay congressmen parade up to the microphone and tee off. Each congressman gets four or five minutes. He waves his arms, pounds the table, puts his chin, shouts.

Most of the speakers wander up, say their say, and wander back to their seats without applause from their fellows waiting for a chance to do the same thing.

Maybe Three Reasons

Why the House put up the shutters for the day Tuesday, this writer called one of the congressmen who had been listening all day.

"Do you think anyone's mind was changed by all the speechmaking?" "Not one," he said.

Why then bother to talk? Maybe three reasons:

1. Some congressmen feel so strongly about the draft, one way or the other, that they have to say something.
2. Some probably just like to hear themselves talk.
3. And some want to get on record so they can mail a copy of their speech to the voters back home.

Evans Opens Campaign For Governorship With Blast At Jester

WEST TEXAS—(AP)—Roger Q. Evans' campaign for governor was formally underway Wednesday after a colorful inaugural during which he blasted Gov. Beauford Jester and promised help for veterans, teachers and farmers.

The 56-year-old veteran state legislator from Denton fired his opening guns here Tuesday night. A crowd estimated at 2,500 by Sheriff C. G. Alexander gathered on the City Hall lawn. The address was carried over a Texas radio network.

The former Texas Veterans of Foreign Wars commander:

1. Again demanded a veterans' bonus and rapped Jester's opposition to a bonus as "Un-Texan."
2. Pledged the nation's best soil conservation program for Texas, and the nation's best pay for its teachers.
3. Predicted his campaign will be "a tough fight all the way... but we are going to win."
4. Charged Jester is leading Texas as over "deadly quicksands" of corporate interests. He said: "Your state government is thoroughly dominated by big corporate interests... Wall Street interests... Big money boys."

Evans explained he chose this predominantly Czech farm community to launch his campaign because 100 citizens and veterans of West started the ball rolling for him. They filed petitions to place his name on the ballot.

Evans referred to Jester's "people's path" as "mythical, fabulous fiction."

Temple Men Indicted For Conspiracy To Violate Housing Laws

AUSTIN—(AP)—Gordon Duncan and E. M. Newton of Temple were indicted Tuesday on charges of conspiracy to violate the federal veterans housing law.

They were taken to Waco to post \$5,000 bond each.

Duncan, president of Duncan Homes, Inc., and Newton, secretary of the First Federal Savings and Loan Association of Temple, were indicted by a federal grand jury here Monday.

Their arrest was reported here by U. S. District Attorney Henry W. Mourund, who was accused last Sunday by Radio Commentator Drew Pearson of being "lackadaisical" in enforcement of veterans housing laws.

The indictment also charged the two men with causing veterans to make false statements on home loan applications. A further charge alleges they caused false statements to be made in connection with appraisal reports submitted to the Veterans Administration in connection with home loans.

LOCAL PEOPLE SAY INNER-AID IS WONDERFUL

Hundreds Here Turn To New Medicine Which Clears Away Bowel and Stomach Acid and Puts Quick Stop to Indigestion, Gas, Headaches, Sleepless Nights and Constipation. Costs Only Few Cents a Day.

Many Midland people are now turning to INNER-AID. The New Medicinal Compound, now being introduced in this city at leading drug stores. Although Inner-Aid was announced here only a few days ago—in connection with a Nation-Wide fight being started against Bowel and Stomach Acid—already hundreds of local men and women are taking—and praising—this Great Liquid Preparation.

ALWAYS CONSTIPATED
—Bowel and Stomach Acid—scarcely know what is wrong with them. They can't digest food properly, swell with gas after meals, spit up hot, stinging, acid liquids, have skin eruptions, coated tongue, thick, bad taste, foul breath, can't sleep right, are headachy, worn out and—ALWAYS CONSTIPATED. They appear to have all the symptoms of common "bowel and stomach disorder." Yet, "doctors" for "bowel and stomach disorder" seldom bring benefit, because ordinary bowel and stomach medicine do not reach the acid root of this trouble. So these discouraged, forlorn people continue to suffer—wondering why all medicines fail them—why they have to be sick all the time—why they can't feel strong and well like normal men and women.

WORKS WITH FOOD
Such suffering people will now find—in INNER-AID—a REAL measure of RELIEF. This medicine is taken shortly before meals, thus it works with your food and neutralizes acids. At once there is an easier feeling in the stomach and chest. Within 10 minutes the gas starts leaving you. Distressing bloating and painful gas swelling are relieved.

This benefit comes quick, usually from one dose! A course of the medicine—three to seven weeks—has an amazing effect upon the stomach organs. If you are a victim of indigestion, gas, swelling, bloating, stomach, spitting up of food and liquids, etc., you should by all means try this medicine.

A GREAT LAXATIVE
INNER-AID also is a laxative. It contains a combination of cleansing ingredients not often found even in high-priced Special Bowel Compounds. The laxative power of this new medicine alone is worth TEN TIMES ITS COST. They cleanse the bowels REALLY CLEAN, bringing out old, black, acidous substances that may have been the real cause of all your suffering. Then headaches, skin eruptions, worn out feeling and sleepless nights due to acidous congestion—come to quick end.

COST IS SMALL
SUFFERERS! Don't go on feeling worn out, headachy, miserable. Get Inner-Aid—TODAY! Cost of this medicine is small—only a few cents a day for a FULL COURSE!

Sold in this city, by all leading drug stores.

Key To Peace In Holy Land

Foreign Secretary Bevin has told the House of Commons that the British government will give "the utmost assistance" to Count Folke Bernadotte in his efforts to settle the Palestine problem peaceably. And it has made a start by finally shutting off the supply of arms to the Arab nations.
 Probably Britain can do a great deal more. And a likely way in which to be helpful would be for the Atlee government to have a little talk with Trans-Jordan's King Abdullah on the facts of political life.
 There are three reasons for going to work on Abdullah. He and his kingdom are Britain's babies. He and his kingdom have the most to gain by insisting on an Arab government for all Palestine. And his army, which was organized, trained, financed and, at least until recently, commanded by the British, is the best on the Arab side.

It is easy to understand Abdullah's desperate interest in Palestine, without sympathizing with him or excusing his aggression. Trans-Jordan would be a pretty sick baby without its British nursemaid.
 Great Britain gave Trans-Jordan its independence two years ago, but the country has remained under the British wing. With this support Abdullah recently dared to defy the United Nations, announcing, "I shall do as I please."
 But now world opinion seems to be forcing the British government to back away from its unconcealed pro-Arabism. To save its face it must put its commitments to the UN ahead of those to the Arab states. So Abdullah has gone to work on his own.

It is plain why Abdullah would like to incorporate the Jews into an enlarged kingdom of Trans-Jordan and Palestine—which is undoubtedly what he has in the back of his mind. The Israelis are educated, resourceful and hardworking. In time they could probably take the lead in raising the Arab's living standards and starting them on the road to progress.
 This situation may hold the key to a solution of the present crisis. If the Arab League can be brought to agreement, the incorporation of Arab Palestine into Trans-Jordan would surely meet little objection from the Arab and Jewish population of the Holy Land. An arrangement for close economic co-operation between Israel and Abdullah's larger kingdom would be of great benefit to the latter, and should not be impossible to achieve.
 Once Israel's independence was assured and Abdullah satisfied, there probably would not be any great trouble with the rest of the Arab governments. Such an accomplishment would officially be Count Bernadotte's. But practically, we should imagine, a few words from the British government, backed by American support, might do much to pave the way for a solution.

A Canadian law clerk suggested that shorter speeches would result in Parliament if members were allowed to talk only while standing on one leg. What if the speech doesn't give them a leg to stand on?

UN Food Mission Brings Frank Report Through Iron Curtain

By PETER EDSON
 NEA Washington Correspondent
 WASHINGTON—(NEA)—One of the frankest reports on conditions behind the Iron Curtain has just been made public by FAO—the Food and Agriculture Organization of the United Nations—after a special mission survey on the farm situation in Poland.
 The report indicates that Polish agriculture is in a pretty deplorable state.

There is insufficient grain production to give the Poles an adequate diet. Though the Polish government has been trying to export grain to Western Europe in exchange for consumers' goods which are also needed, Poland should really be importing grain. The yield of grain from Polish land is decreasing, due to lack of fertilizer. The Polish diet is also inadequate in proteins, fruits and vegetables. Food spoilage and waste through improper canning and handling methods is tremendous. Cattle and milk distribution is unsatisfactory. Eighty per cent of the children showed a positive reaction to tuberculin tests. Thirty per cent, or about 3,000,000 children, particularly the war orphans, are undernourished, rickety, underdeveloped, or deformed. Too large a percentage of the population is said to be tied to the farms. Too many women who should be employed in housework, looking after their families, are forced to do farm field work.
 Housing is still inadequate. Many of the privately-owned farms are too small to support one family and so cannot produce surplus food for sale. Big estates confiscated by the Communist government and operated as collective farms are poorly run, with the tenants or farm laborers ill-housed.
 Private Enterprise Is Penalized
 The government is trying to operate these collective farms side by side with privately-owned small farms. The privately-owned farms are overtaxed. The rate is based on a theoretical yield of rye at an assumed price. Part of the tax must be paid in grain. The lower the yield in bad crop years, the harder the farmer is hit. Many farmers were in arrears on the past year's taxes.
 The government has frequently complained because its collections of grains from the farms have been below expectations.
 Farm workers are not represented in the government. Though the report does not say so, this is apparently due to liquidation of the pre-war peasant parties by the Communists. At any rate, the farmers have no means of remedying their plight.
 All this and more is topped by a vicious double-wage scale and two-price system that has disrupted the economy. Government workers and employees of the government-owned, communized industries, are paid low wage scales. But they have ration cards which permit them to buy food at low prices in government stores. About 42 per cent of the people have these ration cards. Everybody else must scramble for

food at high prices in the free market.
 The FAO mission report of 150 pages is stuffed with more than that many black-type recommendations of what ought to be done to remedy these and other bad conditions. For instance:
 —Install a uniform rationing system with a single free-market price. Use more fertilizer to make up the manure shortages resulting from reduction of livestock numbers. Grow more green and leafy vegetables and change the Polish diet to a higher protein content. Boil the milk until it can be pasteurized. Increase the land-holding and land-use system. Divorce agricultural schools from political control. Reform the tax system. Expand the salt-water fishing industry in the Baltic. Allot gardens to factory and office workers. Double the timber cut to build more houses. And so on.
 How much attention will be paid to the recommendations is unknown. The 10-man mission of farm experts which made the survey was under the leadership of Noble Clark, FAO deputy director, former associate director of the Wisconsin Agricultural Experiment Station.
 The FAO mission had to operate under peculiar conditions. All 10 of the western experts came from non-Communist countries. They had to divorce themselves from considerations that might be wrong with the country politically. Their job was simply to find out and tell what might be done to increase food production.
 Their report is considered important in that it indicates there is still some contact across the Iron Curtain and that at least one branch of the UN is doing something constructive, not just talking.

Present Fighters Have No Stamina, Says Lou Stillman

By HAL BOYLE
 NEW YORK—(AP)—Lou Stillman runs the best known sweat shop in America, but it isn't producing as much sweat as it used to.
 "That's one reason boxing isn't the game it was—the boys just won't train hard enough," says Lou, who is the Elizabeth Arden of the jab and jolt set.
 For thirty-one years Lou has operated Stillman's Gym, an international indoor spa where professional boxers beat each other into shape for their next fight. It is also a kind of fistic stock exchange where sharp-faced managers arrange bouts.
 In this dusty garden of the cauliflower ear, Lou, with mottled cheeks and the thud of worn leather on worn flesh, redolent of winter-green oil and old sweat, Stillman has watched more rounds of boxing than any man in history. Perhaps 1,200,000 or more.
 Seven days a week, five hours a day, for more than three decades Lou has sat on a stool under the timing gong, watching muscles strain and gloved fists whack into people's faces.
 "I figure 95 per cent of the boxers train here," he said. "I've had all the champions—from Dempsey to Joe Louis."
 About 75 fighters a day work out on the bags or keep the three rings busy. The boxing in the chips here sparring partners. The old ones going down and the young ones coming up train by boxing each other—saves money.
 Stillman provides only the gong, rings, the punching bags, and the showers. And maybe a bandage here and there. He doesn't charge by the bruise. The boxers pay \$6 a month for a small locker, \$10 a month for a room. Spectators fork out four-bits.
Good-Shared Fortune
 His life as tycoon of the open pore and nabob of the expanding bleep has conferred upon Lou a good-sized fortune, a dual personality, and the weary eye of a philosophic shark. His vocabulary has a double faucet like a shower—it runs pleasant warm or murderously cold.
 Lou says modern boxers are more intelligent and better educated than the flat-chested heroes of yesterday, but lack their stamina.
 "The oldtimers—fighters like Dempsey and Benny Leonard—really worked to get into condition. The kids today want to train with one foot in the gym and the other in the street."

TSTA Survey Shows Shortage Of Teachers And School Classrooms
 AUSTIN—(AP)—Nearly half the children of Texas are getting inadequate educations because of a shortage of teachers and buildings, a Texas State Teachers Association survey reported Tuesday.
 The exact percentage affected by these shortages is 46.7 of the school children, said Joe Humphrey of Abilene, vice president of the TSTA.
 The survey found a need for 2,500 more teachers and "thousands" of additional classrooms to relieve the heavy congestion in public schools, Humphrey said.
 Classes with as many as 65 pupils were found in the survey of Texas schools. Thirty pupils is the maximum classroom load for efficient teaching recognized by the National Education Association and other organizations.
 The need for additional space and teachers is more keenly felt by elementary schools than by junior and senior high schools, the survey indicated. The study was conducted by Willie Mas Floyd of Abilene, Texas representative of the NEA Advisory Committee on Tax Education and School Financing.
 Results of the survey and Humphrey's statements were released by the TSTA's Department of Public Relations in Austin.

The DOCTOR Says Relation Of Injury To Disease Is Hard Problem For Doctors

By EDWIN F. JORDAN, M. D.
 Written for NEA Service
 Either a single big injury or repeated, small injuries can cause trouble to the human body. However, the relation of injury to disease is complicated.
 It is quite easy to blame a fracture or tear of the flesh on some single injury. A puncture of the skin by a tool which has dangerous germs on it and is followed by septicemia can also be assigned to the injury.
 In other cases, however, the relation between the injury and what followed is hard either to prove or to deny.
Few Cases Cited
 Only a few of the conditions which may be associated with sudden or repeated injury can be mentioned here. The bones, muscles, and ligaments are perhaps particularly susceptible to injury. The finger can be pointed at the injury causing trouble in these tissues quite easily in most instances. In the case of the spine, the problem is particularly difficult, however, since symptoms of spinal trouble following injury can occur without any definite sign which can be identified by physical examination or by X-ray.
 The heart, the lungs, the stomach and intestines and the urinary tract are all susceptible to damage from injury. Whether in an individual case there is a relationship between disorders of these organs and injuries, however, is often highly debatable and cannot be completely settled.
 All in all the relationship between disease and injury is so complicated and yet so important, especially in industry, that State Workmen's Compensation laws provide methods for trying to solve individual cases.

QUESTIONS AND ANSWERS
QUESTION: What can be done for boils which keep coming back?
ANSWER: A thorough physical examination should be made to determine the presence or absence of such diseases as diabetes which may increase the likelihood of boils. If nothing is found to account for them the treatment is often difficult and not too successful. Several measures may have to be tried.
 In a way which will be fair to all concerned.

With a Side Dish of Psychiatry

When you order spaghetti at Phil Guarino's Italian restaurant in Washington, D. C., you're liable to be psychoanalyzed on the side. Guarino, 41-year-old ex-psychology professor, opened the restaurant when he needed money, but still hopes to re-enter the teaching field. Customers unwittingly act as clinical material for a psychological study he is making.

Treasury Promises More-Simplified Income Tax Forms

WASHINGTON—(P)—Secretary John W. Snyder said recently the Treasury plans to make even more simple its simplified income tax form for wage earners.

About 25,000,000 persons—nearly one half of those making federal tax returns—use the simplified form.

Snyder said four years of experience "has proved that the use of Form W-2 as a tax return has caused much confusion."

Form W-2 is the tax withholding statement furnished by employers to employees. It can be used by some employees for tax returns on which the Revenue Bureau figures the amount of tax due.

The plan now is to create a new form, 1040-A, for use as a tax return. Withholding statements will have to be attached to this new form, and will no longer serve alone as an income tax return.

On the new form, Snyder said, "every effort will be made to simplify language and minimize the number of questions. Collector's offices will continue to compute the tax for these taxpayers."

Immigration: Stumbling Block to Truce

Perhaps the chief stumbling block facing Count Folke Bernadotte of Sweden, the UN's mediator in Palestine, is Jewish immigration into the new state of Israel. This scene on board an immigration ship taking refugees, detained by the British, from Cyprus to Palestine, is typical of the cramped quarters aboard the vessels. Proposed solution to the problem is to allow immigration, but have the Truce Commission supervise it and not permit immigrants to enter the Israeli army.

Life Expectancy Grows Longer For Americans

NEW YORK—(P)—The average length of life of the American people very likely will exceed the Biblical three score and ten within a generation, the Metropolitan Life Insurance Company says.

The company said Tuesday the present expectancy of life at birth is 67 years and its statisticians have figured that the length of life will increase at least four years by 1975.

Lightning Strikes Man Twice In 10 Minutes

MONTROSE, COLO.—(P)—Austin Baca, 30, thought the elements were out to get him when he was injured by lightning twice in less than ten minutes.

The first bolt killed a team of horses he was driving and knocked him out.

He was just getting to his feet after regaining consciousness when another bolt struck a boulder beside him and a flying piece of rock gashed his head.

Who Hit Me? Asks Sign At Street Intersection

ROSCOE, CAL.—(P)—Night after night Jack Foster, 38, sits astride his parked motorcycle at an intersection here holding a sign which reads:

"Who hit me?"

Foster, an aircraft plant worker, was involved in a collision with a truck at the same intersection last May 10. He was hospitalized for many days and still has an injured right leg.

He says that in order to become eligible for compensation because of the accident he must identify the truck in the accident and find a witness.

Foster's nightly vigil has been going on for weeks without results. He says he'll keep trying.

DOWN SPORTS LANE

with TANNER LAINE

Babe Ruth and Leo Durocher once had a fight.

It occurred after one of several "spats" between Ruth, baseball's idol, and Durocher, his "bad boy." It occurred in 1935.

Ruth came out of retirement to coach the Brooklyn Dodgers and Durocher was captain of the team. Durocher was manager.

During a game, Durocher and Harry Lavagetto worked a private hit-and-run play to score the winning run. A reporter asked if Ruth had flashed the hit-and-run signal. Durocher said no. The writer then wrote that Ruth was about as useful as a wooden Indian as a coach. Ruth got mad about that.

Next day, Ruth and Durocher got together. The scuffle was soon over but Ruth received a mark under his eye.

The whole thing was soon forgotten.

Or was it? Both boys later wrote books.

—SL—

There isn't much heckling of Rudy Gamblin, baseball coach of Amarillo High School, because he's getting the job done. If there is any it's generally lost on Rudy because he is deaf and almost speechless.

Rudy sometimes goes out on the diamond and writes short indignant notes to umpires. But this doesn't happen often.

Rudy became baseball coach this Spring and proceeded to take his team to a district championship and a place in the state tournament at Dallas. But championship athletic teams are nothing new for Rudy. While he was coach of all sports at the Texas School for the Deaf at Austin, he turned out a national championship football team and several undefeated baseball squads.

ROUNDUP UP THE STRAYS

Sam Van Hoozer, new Midland pitcher, has hurled 32 1/3 innings and only two runs have been scored against him... He has allowed only 20 hits and walked very few... Midland did have a routine section at San Angelo thriller—Rusty Gifford, Sid Sabbath and Don Eysa were it, along with Rusty's daughter and her friend... Webb's comment after the 19-inning game: "I love everybody"... Bill Lacy, Del Rio owner, has been out to the West Coast on a scouting hunt... Umpires on the Longhorn League get their assignments two weeks ahead by mail... The U. S. Navy insisted on the original Harahaney (Del Rio manager) although big league scribes had for years used Harahaney... The original Gene Gregston, Odessa sportswriter, pointed out to Odessa and the Oilers that a recent SPORTSLANE at Midland urged the Indians to beat Odessa and endear themselves to the great bowlers in West Texas... We knew him at Texas Tech when we both were students... The Sweetwater Sports have released Robert Hemple, outfielder... When Jimmy Baker, San Angelo Colt hurler, pitched such a great game against Midland, his parents were in the stands to see it... Roswell's offer to get in the Longhorn League was oh so attractive... Roswell promised Bill Moore of Ballinger to move his stands, lock, stock and barrel to Roswell without cost... To give him land free rent for 10 years... To pay all utilities for three years... To sell 150 box seats... To guarantee enough attendance the first year... Baseball provides good recreation for many of the oil fraternity in Midland and consequently many of the black gold gentry are kicking in nicely on "Jim Prince Night"...

Jersey Joe Walcott is one of two fighters never knocked down by Joe Louis since the Detroit dusky became champion... The other fighter holding such distinction is England's Tommy Farr... Oklahoma City sportswriter John Cronley says Oklahoma City's Texas League franchise will be sold to George Schepps for \$300,000... Schepps and a partner sold the Dallas club for \$664,000... This forecast by Cronley will be of interest to the Midland Indians and Harold Webb... The Rev. Vernon Yearby is giving Jim Prince a nice leather Bible and written in is: "To Jim Prince from Vernon Yearby, The Championship Rule Book"... A pair of Americans, Frank Parker of Los Angeles and Mrs. Margaret Osborne Dupont of Wilmington, Del., are seeded number one in singles divisions of the Wimbledon tennis championship, which tourney begins Monday... Freddie Wells, Lincoln, Neb., pitcher, was fined \$10 recently for sticking out his tongue at an umpire... 30 for strays, pullin' leathers.

The pinnacles in Sand Creek valley, Oregon, are the result of years of erosion.

Mangrum Favored To Win Chicago Victory Tourney

By CHARLES CHAMBERLAIN

CHICAGO—(AP)—Slender Caryl Mangrum rates the favorite in the \$15,000 Chicago Victory Golf Tournament opening Thursday, and if he wins he regains the money-earning lead from Ben Hogan.

Mangrum's target will be a \$2,000 first prize in the 72-hole, four-day medal meet over the rolling acres of the swank Midlothian Country Club. If the 1946 National Open champion hits, he will boost his swing for the season to \$17,944. This would put him nearly \$400 ahead of Beltin' Ben, who has totaled \$17,597 for the leadership with his successive triumphs in the National PGA and Open.

Ben is making a movie short in Hollywood instead of coming to Chicago to defend the Victory crown he won last year.

Other Money Winners
In third place behind Mangrum on the current financial list is Jimmy Demaret with \$15,518, followed by Bobby Locke with \$13,218 and Skip Alexander, the affable Southerner from Lexington, N. C., with \$11,752.

Demaret also will by-pass the Chicago tourney, whose proceeds provide recreational facilities at veterans' hospitals.

But Locke and Alexander will be around to contend with Mangrum and other high-classed pros. Others include Johnny Revolta, Cary Middlecoff, Vic Ghezzi, Dutch Harrison, Ed Furgol, Dick Metz, Ellsworth Vines, Johnny Bulla, Jim Turnesa, Jim Ferrier and Clayton Heatter.

Neither of the leaders in the Longhorn League could win Tuesday night and remained just five percentage points apart.

Top-running Midland lost to Del Rio 1-0 and second-place Big Spring took it on the chin 6-1 from San Angelo.

Vernon edged Sweetwater 4-3 and Ballinger whipped Odessa 5-3 in other games.

Colt Franchise Offered To Fans

SAN ANGELO—The fate of the San Angelo installation in the Longhorn League is in the hands of the fans of this city.

The Colt franchise was taken over by the league Monday in a meeting here. The league will operate the franchise until 6 p. m. Thursday, at which time San Angelo sportsmen will report if they want the franchise.

If the fans can't make the grade then the league agreed San Angelo and Del Rio should drop from the circuit.

The club, park, franchise and equipment were offered for sale at a price of \$25,000, or \$26,500 with concessions. The league agreed \$10,000 could be made as a down payment and the rest be paid in 45 days.

Claude McAdam of Big Spring is acting business manager of the San Angelo setup for the league. Roy Worley of Ballinger is assistant.

The seven other Longhorn installations loaned San Angelo \$450 to operate temporarily.

MAJOR LEAGUES—

Newhouser Hurls Two-Hitter To Usher In Detroit Night Play

By JOE REICHERL
Associated Press Sports Writer

The inauguration of night baseball in Detroit proved a smashing success—thanks to the strong left arm of Hal Newhouser.

The star Tiger southpaw, pitching the first home night game in Detroit history, gave added proof Tuesday night he still was the best left-hander in the American League when he twirled a two-hit 4-1 triumph over the Philadelphia Athletics.

It was the seventh successive victory for Newhouser and the fifth in a row for the Tigers. A near-capacity crowd of 34,480 came to view the new \$400,000 lighting plant.

It was Detroit's fifth success in six night engagements, the best record of any club in the majors. It also narrowed the third place New York Yankees' lead to only two games. The Yankees were beaten by the White Sox 9-8 in an 11-inning thriller in Chicago. Sox win in eleven.

The Yankees overcame a seven-run third inning by the White Sox to deadlock their game 8-8 in the eighth, but the Sox came back with a run in the last of the 11th to win. A single by Taft Wright, a two-base wild throw by catcher Yogi Berra in an attempt to nip

the stealing Wright, and pitcher Earl Caldwell's deep fly accounted for the winning run. It was Berra who forced the game into overtime with a three-run homer in the eighth.

The Boston Red Sox spoiled Cleveland's homecoming by handing the Indians a 7-3 setback in a night game in Cleveland. The American League leaders, however, retained their three-game bulge over the runner-up A's.

Southpaw rookie Mel Parnell gained his second victory of the season with a neat seven-hitter in outpitching Bob Lemon. Braves Take Driver's Seat

Johnny Sain pitched the Boston Braves into undisturbed possession of the National League lead by defeating the Chicago Cubs in a night game in Boston 6-3. Sain allowed only six hits in chalking up his seventh victory.

Boston's win, coupled with Pittsburgh's 2-0 victory over the Giants in New York, enabled the Braves to break their first-place deadlock with the Giants. The Polo Grounders fell into a second place tie with Pittsburgh.

The fourth-place St. Louis Cardinals remained a game and a half off the pace by edging out the Phillies 2-1 in a night game in Philadelphia. The sixth-place Dodgers nipped the Cincinnati Reds 5-4 in Brooklyn.

The scheduled night game between the Washington Senators and the Browns in St. Louis was postponed because of rain and wet grounds.

Texas League—
Three Teams In Red-Hot Tussle For Loop Lead

By The Associated Press
The Texas League fathers couldn't ask for a better race than the one that's going on now.

Three teams are slugging it out for first place with only a slip here and there necessary to change the order. The other five clubs are putting on a free-for-all for fourth.

In other words, every team still is hot in the fight for spots in the play-offs.

Tuesday night the top three clubs all won, so there was no change in the one and one-half games between first-place Houston and second-place Fort Worth and the same margin between Fort Worth and third-place Tulsa.

Houston clubbed Dallas 7-4 behind nine-hit pitching by Cloyd Boyer. The game was out to eight innings because the two clubs had to catch trains for their next stands.

Fort Worth edged San Antonio 1-0 in a great pitching duel. Eddie Chandler of the Cats and Procopio Herrera of San Antonio each gave up only six hits. Fort Worth managed to bunch three singles in the third for the lone run.

Tulsa licked Shreveport 3-1 as Jim Avrea turned in a five-hit hurling job and Walt Wrons did the work with the stick. Wrons doubled in the second to drive in two runs.

Beaumont also won its game 3-1, beating Oklahoma City. Kent Sterling scattered seven Oklahoma City hits.

A chip on the shoulder usually indicates that there is wood higher up.

West Texans Win Pro-Amateur Event

EL PASO—(AP)—A pro team best-ball tournament and a clinic by Byron Nelson, the semi-retired golf great, made up the program of the Texas PGA Wednesday with firing in the open tourney's 72-hole medal play to start Thursday.

C. L. Spence, Alvin, Texas, professional, teamed with amateurs Paul Hammond of El Paso and Billy Maxwell of Abilene Tuesday to win the annual pro-amateur with a best ball of 61.

Maxwell, 18-year-old Texas high school champion, Texas junior title and winner of the West Texas Golf Association crown last weekend, carded a three-under-par 60. Spence had a 70. Hammond, with a seven-stroke handicap, parred every hole on which the handicap counted.

The trio had a best ball 30 on the front nine, of El Paso Country Club, with seven birdies and a 31 on the back nine, with four more birds. Tied for second place with 62 were two other threesomes: Milton Demaree of Houston, playing with H. T. Horvath and Howard Tracy, both of El Paso, and Jimmy Adams, Paris, playing with Dick Martin, of Dallas and Sam Dunham, El Paso.

Low medal honors for the day were shared by pro Sam Schneider, Houston, and Dick Martin. Each carded a five-under-par 57.

H. T. Horvath of Odessa was elected president of the PGA at the annual business meeting Tuesday night. Ralph Morgan of Tyler was named vice president and Warren Cantrell of Midland succeeded Morgan as secretary-treasurer.

District vice presidents named were: Tony Butler, Harlingen, Valley; Milton Demaree, Houston, South Texas; Ray Hill, Shreveport, East Texas; Raymond Gafford, Fort Worth, North Texas; Ray Garrett, Wichita Falls, West Texas.

Byron Nelson of Roanoke, Texas, was made vice president for life.

WT-NM League— Race Tightens Up As Amarillo Moves Closer To Leader

By The Associated Press
The West Texas-New Mexico League race tightened up like a new wrunch Wednesday.

Paupa's Officers, who had been running high, wide and handsome, took an 8-3 licking from Albuquerque Tuesday night while Amarillo moved within a game of the leaders by whipping Lubbock 12-6.

Albuquerque hammered 12 hits, featured by Les Mulcahy's two-run homer. Von Driggers, Paupa pitcher who had won nine games, absorbed the loss.

The Amarillo Gold Sox made Bobby Layne's second attempt a failure by blasting the University of Texas star, just turned pro, for eight hits in the fourth inning when the Sox got five runs.

Lamasas beat Berger 8-5 behind the six-hit pitching of Leon Hayes and Abilen stretched its victory streak to eight by lambasting Clovis 16-4 as rookie southpaw John Kelly won his third mound victory with a nine-hitter.

Black Indians To Play Jal Gassers

The Midland Black Indians will play the Jal, K. M. Gassers at 8:30 p. m. Wednesday in Indian Park.

The Jal am is composed of white men and pitching for the Gassers will be Bobby Walker of Midland, former Texas University baseball star.

Fans are urged to see this one.

Colombia To Be Rid Of Barefoot Boy—And Men

BOGOTA, COLOMBIA—(AP)—The government has acted to force shoes on barefoot workers.

It decreed that employers must give a free pair of shoes every six months to permanent workers getting less than eighty pesos (\$46.40) a month.

The decree does not permit the employer to give money instead of shoes. Fines of fifty to 1,000 pesos (\$20 to \$500) were fixed for employees failing to wear the shoes.

Search For Cause Of Cancer Probes Private Life Of Cells

Even the lovely marigold is not immune to cancer, and science finds it similar enough to animal cancer to be worthy of the endless laboratory search for cancer's cause. Plant tissues have grown from a few cells to form the cancerous masses in the beaker above in six weeks.

By PAT McGRADY
NEW YORK (NEA)—The private life of the body cell isn't private any more.

In all parts of the country, scores of scientists are prying into it. They want to know what makes a cell become cancerous. The American Cancer Society is financing their work.

The mighty eye of the electron microscope has been turned on the tiny cell, magnifying it 100,000 or more times and transforming it into a vast new world for scientific exploration.

At Tulane University, Philadelphia, the cell's nucleus is removed and sometimes others are implanted.

At Michael Reese Hospital, Chicago, foods are added and others are taken away to test the cell's reaction to dietary factors.

Egg cells are fertilized in test tubes at Harvard, and animals life meant to develop in the darkness of the womb starts in the bright light of the laboratory.

At Tulane, electric current is passed through the cell in solution and by the speed of its movement to the positive or negative pole it discloses its chemical identity.

The minute energy it stores up and expends is measured by delicate instruments at Princeton.

By shades and colors of the cell in solution, scientists in Oklahoma City determine the amount of starch in it.

In Denver the cell's nervous stimulation is shut off; in Galveston, it is being started; in Washington, D. C., it is tested against molds; in Oakland, Calif., strange substances are used to test in addition to the normal test tube diet of a witch's brew of embryo juice, chicken blood and placental serum; and at nearby Berkeley it is treated with viruses and bacteria.

The cell is being fractionated at the University of Minnesota to isolate the minute but mighty mass in mouse's milk which causes cancer.

Several frequencies of ultra-violet and visible light are played upon it at Washington University, St. Louis, to detect the chemical compounds which constantly are being formed and reformed within the cell.

Movies are made of the cell—at the University of Virginia of its inner life, at Stanford of its migrations.

Stand Of GOP Prospects On Major Questions

By The Associated Press

UNIVERSAL MILITARY TRAINING AND DRAFT

Dewey—Has favored UMT and a limited selective service.

Stassen—Proposes a manpower program in which young men would register with Congress deciding how many should be called each year.

Taft—Opposes UMT but says temporary selective service may be necessary.

Warren—For UMT "because it is a democratic process which calls upon rich and poor alike to serve equally in the country's defense."

Vandenberg—Has taken no position on this question. (His office says he's been too busy guiding Republican participation in a bi-partisan foreign policy to become involved in domestic issues.)

Martin—Has opposed UMT but will follow Republican Party line on limited draft.

MacArthur—Has taken no position on various issues.

FOREIGN POLICY

Dewey—Has urged a "United States of Europe as a strong third power devoted to the cause of peace." For firm policy toward Russia.

Stassen—Would abolish veto power in United Nations. Favors U. S. military alliance with countries of Western Europe.

Taft—Has urged United Nations charter be rewritten with legal teeth in it. Wants United Nations to lay down rules of international conduct according to Art. 101 of the constitution, with or without Russia.

Warren—Says United Nations "should be put to test of dealing with aggression."

Vandenberg—Leader of Republican participation in bi-partisan foreign policy . . . pledged to finance European Recovery Program through Senate . . . favors "strong stand for peace which includes justice and honor."

Martin—Has said "America must help Europe and the Orient but not as United Nations."

TAFT-HARTLEY LABOR ACT

Dewey—It's a good law. But I'm sure it has some faults. My party will be more ready to repair those defects than the Democrats have been with their labor legislation.

Stassen—Would amend law to allow United Nations to pass political candidates, ease restrictions on union shops, and require union officials to sign non-Communist affidavits only if they are accused of Communism.

Taft—Says "the country and labor union alike are interested in the fact that the law is working because it is based on justice and equality while protecting every basic right which labor leaders have fought for."

Warren—Says "the law should be examined with no hesitation in amending it to correct deficiencies demonstrated by experience."

Vandenberg—No comment on it . . . voted for passage of law, also voted to over-ride Truman veto.

Martin—Was a leading supporter of bill in House.

INFLATION

Dewey—Has favored tax reduction, less government spending, and public debt reduction as check on inflation.

Stassen—Has advocated limiting consumer credit, a check on extreme speculation, and legislation "to ban excessive inventories that result in unbridled hoarding and profiteering."

Martin—Opposes price and rationing controls.

Taft—Favored tax reduction and cut in non-defense spending. Against government price and rationing controls.

Warren—Says "if voluntary measures prove ineffectual to check inflation, we must resort to legal measures—export and credit controls, or price ceilings, and so on."

Vandenberg—Has taken no position on inflation but voted for tax reduction.

Martin—Outspoken advocate of Republican tax-cutting measure. Has said "We can bring down prices by stopping up production-cutting government spending."

Stassen—Opposes price and rationing controls, saying "competition is better regulator than government bureaus."

PALESTINE PARTITION

Dewey—Favors it.

Stassen—For partition. Has urged United Nations police force, with American troops participating.

Taft—Favors it.

Warren—Has taken no position on Palestine but has expressed hope that United Nations would bring about a just decision.

Vandenberg—Has taken no position but said President Truman's recognition of Jewish state was a "logical move."

Martin—Has favored partition.

COMMUNIST PARTY IN U. S.

Dewey—Opposes outlawing party because it would drive Reds underground.

Stassen—Favors outlawing Communist Party.

Taft—Opposes outlawing party.

Vandenberg—Has taken no position but has said "we shall not surrender to Communist conspiracies in the United States."

Martin—Has taken no position.

We never did learn whether Kilroy settled down, or Richard got the door open.

Summer Is A-Coming In

Among the first and nicest signs of summer are blue skies, warm sun, and pretty girls in bathing suits. This beach, on the shores of Lake Coeur d'Alene in northern Idaho, has its share of the latter. Red-haired Marion Mason relaxes while Patty Swank rubs suntan lotion on her, with Donna Janz overseeing the operation.

'On Borrowed Time' Apple Tree Presents Problem To Workers

Engineers, housewives, geologists and stenographers have been at work the last four weeks, making an apple tree for the Community Theater's coming production of the popular comedy, "On Borrowed Time."

June 24-26 are the dates for the seventeenth theater play, and the apple tree will be complete even to leaves and fruit by that time, according to Art Cole, director.

This is no ordinary tree, even as stage trees go, for in the lingo of the stage it has to be "practical."

This means that it must be strong enough to be climbed and real enough that fruit may be picked from its branches.

So a great deal of labor, lumber, engineering and ingenuity is called for its construction.

Nor is this apple tree to be of the type one sees in this part of the country. It will look more like one which might have been planted by Johnny Applesed himself and has grown up without pruning or horticulture, weathering freezes and thaws, winds and lightning.

Workers Listed

Francis Kingdon constructed the wooden structure for the tree, over which was stretched chicken wire covered by layers of cheesecloth and feed sacks dipped in glue.

Others who have helped cover the tree and manufacture the leaves include V. W. Rogers, Wanda Conway, Grace Waldschmidt, Juanita Gallup, June Kingon, Mary Williams, Nadyne Griffin, Jim Tidmore, Louise Showalter, Claire Rogers, E. J. Elliot, Gloria Pullen, Polly Pullen and Joe Koepler.

An effort will be made to complete the entire stage setting for "On Borrowed Time" by Thursday night. A large group of volunteer workers will be required to accomplish this, however, and Cole urges anyone interested in helping to join the other volunteers.

Tickets will go on sale at the Tallorine store next Wednesday and the reserved seat board will open there at the same time, Mrs. R. L. Gates, chairman, said.

TO FATHER'S BEDSIDE

Dan Carter left his Tuesday for Tolat, Texas, after being advised that his father, T. E. Carter, I, was critically ill at his home there. The elder Carter's condition Wednesday was reported "somewhat improved."

Rankin News

RANKIN—Mr. and Mrs. Bill Forey are here from Michigan visiting in the J. C. Barfield home for several weeks. Mrs. Forey is the former Dorothy Barfield.

Jimmy Oeturs of San Angelo visited friends in Rankin Sunday.

Gay Harris, former Rankin resident, died Sunday in Fort Worth. He had recently made his home there with a daughter, Mrs. Joel Starnes.

Mrs. S. M. Owens left Monday for Wilcox, Arizona, where she will join relatives for a trip to the Grand Canyon, Salt Lake City, Denver and other points. She expects to be gone several weeks.

Mrs. Maude Frasier left Monday by bus for Seattle, Wash., for a visit with Mr. and Mrs. Pettit Frasier and their twin sons.

Mr. and Mrs. J. Bert Kincaid and Mr. and Mrs. Bud Barfield attended funeral services in Coona Sunday afternoon for P. E. Childress, 35, who died Saturday in a San Angelo hospital.

Sam Goodner, toolpusher for the Trebol Oil Company, was taken to a San Angelo hospital Sunday night.

A revival meeting is in progress at the First Baptist Church here with the Rev. Otis Holliday of Iran conducting the services. Mr. and Mrs. Lewis Jordan of Fort Worth are leading the singing.

55,218,000 BUSHEL TEXAS WHEAT CROP SEEN

AUSTIN (AP)—A Texas wheat crop of 55,278,000 bushels was forecast Wednesday by the United States Department of Agriculture, which used its prediction on conditions as of June 1.

This production, though far below last year's all-time record of 124,270,000 bushels would be considerably above the 10-year (1937-46) average of 45,686,000 bushels.

BEES' SIGHT

Bees probably see red, yellow and green as a single color, according to the Encyclopedia Britannica. On the other hand, bees apparently can see ultraviolet light that is imperceptible to the human eye, as well as blue-green, blue, and violet.

NOW! STRAN-STEEL FRAMING FOR INDUSTRIAL AND COMMERCIAL CONSTRUCTION

Your new industrial or commercial building can now be framed with nailable Stran-Steel. We are fully equipped to engineer and fabricate this precision steel-framing material according to your architectural plans.

The patented nailing groove in Stran-Steel studs, joists and purlins provides complete flexibility in the application of inside or outside materials by customary carpenter methods. Accuracy of dimensions, plus sub-assembly of framing sections by shop labor, speeds final assembly on the site . . . assures lowest "in place" cost.

Let's talk over your building requirements today.

No other framing material can match these advantages: Strength • Modularity • Uniformity • Fire-Resistance • Fast Erection • Durability • Accurate Dimensions • Top-proof • Rot-proof • Warp-proof • Termit-proof

Truman's Remarks Could Renew Question Of Meet With Stalin

By JAMES D. WHITE
AP Foreign Affairs Analyst
Whether he intends it, or not, President Truman's remarks last week about "Old Joe Stalin" could reopen the question of a meeting with that particular Joe.

This has been in abeyance since the Potsdam meeting three years ago, which left much to be desired from many standpoints.

Since then, President Truman has said he has asked Premier Stalin to come to see him in Washington, and Stalin has stayed away.

Last week when Truman was talking about Stalin he tossed in a remark that the latter is a prisoner of the Politburo in Moscow.

Checking on this at the State Department, reporters found an air of surprise and a prevailing impression that Stalin is the Politburo's boss, not its prisoner.

Now Truman said absolutely nothing about seeing Stalin, but let us look into what his friendly reference could mean — bearing in mind that the next day at Berkeley he listed Soviet breaches of faith in detail and declared once more this country's peaceful intentions.

In doing so, he made the statement that America is not waging cold war.

What Stalin thinks of all this may not be too important, especially if it is true that he forms his policy toward America by balancing America's own policy against her ability and willingness to back it up. What Stalin thinks may not be the point.

The point may be what the American people think, this being an election year.

In Roosevelt's footsteps Truman, long pledged to carry on in the footsteps of his predecessor, the late Franklin D. Roosevelt, may be following in his master's footsteps. In FDR's own words, he used to return, at such times as this, to apolitical position "just a little left of center."

Let us proceed on the assumption that Truman figures the country would not take kindly to better relations with Russia.

If this is so, a meeting with Stalin is conceivable, and such a meeting is easier because of what the President said last week. If it is the Politburo and not Stalin who is behind all the things Russia does, Stalin stands somewhat exonerated of these same things.

How such a meeting would be switched into an election campaign is for those interested to figure out.

Canyon, basal Pennsylvania, and was due to run a drilstem test.

This venture is contracted to go to about 4,800 feet, unless it gets commercial oil production at a higher point.

NO CHANGE IN STATUS OF MIDLAND WILDCAT
Gulf Oil Corporation No. 1-E Bryant, Central Midland County deep wildcat, 14 miles south of Midland, and 600 feet from north and 1,900 feet from west lines of section 36, block 39, TP survey, T-3-S, had reached 10,900 feet in dry shale and lime, and was making more hole.

STANOTEX TO RUN CASING AT SW CRANE DEVELOPMENT
Standard Oil Company of Texas No. 1 Mrs. Hattie Reynolds, Southwest Crane County wildcat, which flowed 52 barrels of clean oil in one hour in a drilstem test at 5,852-60 feet, has taken electric log surveys, and is running a gamma ray survey.

Operator will then run pipe and complete a well, which producer from the Waddell section of the Simpson. It had previously been reported that the pay section was the McKee. That was an error.

The well is 600 feet from northeast and southeast lines of section 22, block 21, H&TCo. survey. It is one half mile from a well owned by the same company which is making considerable gas and some oil from the same formation, on the Tucker lands.

It is three and one half miles northwest of the Abel field in North Pecos County, where there is production from a similar formation.

were in fact acting largely for their own personal financial interests in sponsoring or asking for the defeat of certain legislation.

Moore told reporters he was "surprised" by the indictment, but "I'm not disturbed."

"I've got nothing to hide," he said. "I believe in America and I believe we'll get a fair trial and hear the thing. It is all political and a misunderstanding. Clinton Anderson is back of it."

A hearing on the complaint was set for July 7. Subsequently, however, Moore was given until August 2 to file his answer, and no new date was set for the hearing.

Truman Pictures Self As People's Champ In Fight On 'Interests'

ABOARD TRUMAN TRAIN ENROUTE TO KANSAS CITY, MO.—(AP)—President Truman pictured himself Wednesday as a champion of the people in their struggle against "special privilege."

In platform talks delivered in a neighborhood over the back-fence tone, Truman carried on his appeal for votes as his homebound campaign train moved eastward.

"The issue in this country is between special privilege and the people," he told a train-side crowd at Albuquerque, N. M., Tuesday night.

"I think I represent the people, and I am trying to tell the people just how I represent them."

This is one of the themes at which he has hammered during nearly 60 talks since he left Washington June 3 on a cross-country pre-convention tour.

The President also repeated that he has been "pouring it on" Congress.

"And they've got the litters back there," he told an Albuquerque crowd. "They have gone to work."

The President will visit his home in Jackson County, Missouri, Wednesday.

Arabs Reject UN Proposals On Jerusalem

CAIRO—(AP)—The Arabs Wednesday rejected a proposal of the United Nations mediator to declare Jerusalem an open city.

Fawzi Mukli Pasha, foreign minister of Trans-Jordan, told newsmen the Arab League replied to Count Folke Bernadotte that if Jerusalem was declared an open city, Arab troops would be asked to evacuate positions they conquered there last month. He said this would be in contradiction of the cease fire terms.

An Arab League source also reported the league's political committee rejected an invitation to sit at a conference table with the Jews in negotiations for a permanent Palestine peace.

Abdel Rahman Assam Pasha, secretary general of the Arab League, repeated the Arab position that the Arab states will listen to no proposal for peace which is based upon a Jewish state or partition.

Egypt accused Jews of inching forward their lines since the truce began and threatened to use force unless the front is restored. The Jews countered with accusations of their own.

The Arab charge was in a note the Egyptian government handed to Bernadotte.

In Tel Aviv, an Israeli spokesman said the British plan to give the Arabs a military camp in Jewish territory, near Haifa. He contended this would violate the truce, because it would give the Arabs a military position they did not hold before the cease fire.

Jewish leaders are conferring in Jerusalem with the UN Consular Truce Commission on the problem of getting food and water through Arab-held terrain to Jerusalem's Jewish population. The cease fire has not alleviated the supply situation in the city.

Cops Solve Case Of Mysterious Sneezes

CHICAGO—(AP)—Police Sgt. Dave Petacque picked up the phone several times and heard "kerchoo" each time.

He thought it a joke at first but then several other sneezes called. So he sent a squad to investigate.

The squad found that a West Side meat sauce firm was responsible. The firm nightly processes a half ton of black pepper. Usually, the dry residue of the pepper is wasted to sludge and then hauled away.

However, the watering process had faltered and the pepper poured out of the windows in a light, dry cloud.

The squad, between sneezes, ordered the pepper processing stopped until the filter trouble could be repaired.

Water Association Barbecue, Meeting Draws Big Attendance

Midland water department personnel were hosts Tuesday night to an estimated 200 members and guests of the Periman Basin Water Works Association at a barbecue and monthly business meeting at Cloverdale Park.

Barbecue, prepared under direction of A. B. Cole, Midland water production superintendent, was served at 8 p. m. Walker O. Byrd of Lamesa, president of the association, and E. L. Killingsworth, Big Spring, secretary, said attendance of the barbecue and meeting here was unusually large compared to that of monthly meetings held in other cities of the area.

The principal speaker was C. H. Billings, with the State Health Department, Austin, who discussed recent developments in treatment of municipal water and sewage. The business session was featured by the discussion of the proposed formation of a statewide water works association.

Visitors from Lubbock, Lamesa, Big Spring, Brownfield, Stanton, Denver City, Kermit, Odessa, McCamey, Seminole, Post, Roscoe, and Colorado City were present, as well as city officials and other guests from Midland.

The next monthly meeting of the association will be at Kermit July 20, and following that, at Lamesa August 17.

Chinese Red Gunmen Kill British Planters

SINGAPORE—(AP)—Malayan dispatches said Chinese gunmen killed three British planters Wednesday in a renewal of Communist terrorism along the Malay peninsula. The dispatches said the bandits—allegedly Communists—attacked rubber estates in the Sungai Siput area 20 miles from Ipoh, killed the three planters and took their valuables.

The planters were identified as J. E. Walker, J. M. Allison and C. H. Christian.

The government ordered immediate evacuation of all European women and children from Sungai Siput and was expected Wednesday afternoon to grant police special emergency powers.
