# Luce Wit Overshot Congress

Ideally, politics should be the climax of an American's career in public life. Sometimes it is. There are plenty of examples, past and present, of high-minded men and women who have served in Congress or in the cabinet or at some other high post at a considerable sacrifice of time, money and comfort.

This not only helps offset the fact that every Congress has its share of members who couldn't hope to make \$15,-000 a year doing anything else. It also gives proof that political idealism is not entirely in vain.

In spite of this, however, we were rather glad to learn that Mrs. Clare Boothe Luce is retiring from politics. Mrs. Luce was a welcome ornament to our political

life. She lent beauty, grace and wit to the Congress in which she served. She lent the same to a couple of Republican conventions. And we can't think of any two institutions of American life more in need of a little glamor.

But we often suspected that Mrs. Luce was playing over the heads of her audience. To see what we mean one need only recall that the gentlewoman from Connecticut in the 79th Congress was also the author of three excellent plays, a witty and satirical piece called "The Women," a delightfully hilarious successor called "Kiss the Boys Goodboye," and a more serious number titled "Margin for Error."

Then one may recall those ponderous witticisms by out legislators which, according to the Congressional Record, provoke a parenthesized (Laughter). The inescapable conclusion is that Mrs. Luce, a AAA wit, farmed herself out to a Class D league when she got elected to Con-

We need good minds in Washington, heaven knows, minds with agility as well as depth, minds whose deep purposes are spiked with a leaven of humor. But there are minds which cannot make up in what they contribute to Washington for what they subtract from our national

A distinguished career in government demands a certain mental brilliance. But the brilliance does not necessarily call for a high polish. So we cannot be too sorry that Mrs. Luce has turned her back on politics and on Congress where, for all the great things accomplished there, the wit is as old-fashioned as the snuff boxes in the Senate chamber.

But a public career, once sought and embraced, cannot be dismissed without a second thought. When one has asked and received his fellow citizens' confidence and Skeleton Of Marine Monster vote, a small debt of reponsibility remains. So we should like to suggest that ex-Congresswoman Luce owes the American electorate one thing—a play about politics.

We hope that she has one in her system, and that it is was in bloom a sea monster died far enough along for an early Winter production. # The DOCTOR Says Improper Balance Of Salt In Body Causes Varied Ills

By EDWIN P. JORDAN. M. D. Written for NEA Service

Table salt is essential in the metabolism—the normal functioning of the human body. Nature keeps the salt in a constant proportion in the blood and tissues, and the amount of salt present in food or added in pooking or on the table is normally just about enough to maintain the necessary balance.

In certain diseases, however, the amount of sodium chloride (salt) taken into the body has to be restricted. Excessive salt has either a bad effect on the diseased organs or cole slaw is made about an hour or holds an excessive amount of water so before it is to be served; it should in the tissues of the body, thus caus- be chilled in the refrigerator. ing the accumulation of fluid in the legs or abdomen. This is called

The excess salt is not eliminated normally but stays in the tissues; in order to maintain a constant balance between the sodium chloride and water in the tissues, excess water is also retained. For this reason the physician may reduce the salt in the diet of persons with certain kinds of hears disease, kidney disease or diseases of the blood vessels. There are some other conditions, like Addison's disease, in which the use of sodium chloride is also disturbed so that the intake has to be strictly regulated.

More body sodium chloride is lost than is taken in when there is heavy perspiration for a prolonged period of time. Salt tablets or the addition of small amounts of sodium chloride to the drinking water may be used to replace excessive loss of sodium chloride of this type. In some plants workers are encouraged to take a salt tablet with each drink of water.

If the sodium chloride deficiency becomes acute and is unremedied there may be muscular cramps, excessive fatigue and upsets of the gastrointestinal tract, such as nausea and diarrhea.

# Electric Koasters ARE KEYED TO BETTER LIVING

There's an easy, cool way to prepare a complete meal for the whole family - in an automatic electric roaster. Even if you plan to spend the afternoon out, you can still have a complete, piping-hot meal ready at any pre-determined time by simply putting what you want cooked in the roaster and setting the time and temperature controls. The roaster does the rest and your meal is cooked perfectly every time.

When the national championthere will be a large delegation, of Cincinnati, Ohio. Last year just as good as these two boys, but the champions will be a hard pair to beat in the coming tournament.

Harvey is popular, but his opponents should not allow his little OUR BOARDING HOUSE smile to deceive them, because he is always on his toes. Here is a

defensive play that I saw him make on today's hand.

Opening—♥7

Declarer was in a three notrump contract, and he won the opening lead of the heart seven with the ace when Harvey (East) went up with the queen. Now South led the seven of clubs and finessed dummy's nine - spot. A careless East player might win this trick with the jack, then lead the king of hearts and another heart, clearing 'he heart suit. "forceful measures" means. It doesbe several days before they can n't necessarily mean strong arm acget a message back to their Moose tion. It presumably does mean Lake base. They plan to establish economic or political sanctions (or both) which would be calculated to put a fierce squeeze on the Muscovites.

War Talk Breeds Wars I emphasize this point because rather a lot of talk about "measures country's first dollar-a-year woman of force" is being bandled about. In its essence that is war talk. Such talk doesn't win wars, but it can breed 'em. We've already seen one She went to Washington when sharp reaction in the heavy slump World War I began, recruiting gov- on the stock market.

But supposing the UN should find it impossible to handle this crisis-What then? Well, the Democratic bloc could get together and apply the sanctions outside the UN. They are the ones who would have to make the sanctions effective anyway, even if the peace organization ordered them. The Russians and their slave-states certainly wouldn't cut their own throats.

Such sanctions might mean not only a severance of diplomatic relations with Russia and her satellites Notice is hereby given that Letters but the stoppage of all trade with the Communist bloc. That would be terrific punishment.

# Democracies Plan | Construction Worker's Trial Results In Hung Jury In County Court

The trial in county court Monday of Wiley Powell, charged with aggravated assault, resulted in a hung jury late Monday night. Courthouse officials said it was the first jury trial, except for insanity hearings, in county court here in several years.

Powell, a construction worker was charged with having assaulted S. E. McGuire, a contractor, in an altercation at the McClintic Building May 14, 1948. Specifically, he was charged with striking McGuire with a section of steel rod. County Attorney Joe H. Mims handled prosecution, and T. D. Kimbrough was defense counsel. Judge Clifford C. Keith reset the case for trial in the September term of court, and the jury was released until Thursday. Jurors were Witzel Whitmire.

#### TEXAS DRAFT BOARDS WILL BE READY TO GO

AUSTIN -(AP)- Texas plans to start of draft registration, Morris Swartz, state Selective Service deputy director, said Tuesday.

Swartz said all but one or two counties are ready to go on short notice. Those are expected to be complete well before August 30. He estimated that registration in Texas would total between 500,000 and 600,000.

# Folders Sent To Poll Tax Holders

'Voters Guide'

More than 5,000 "Voters Guide" folders were mailed Monday by the Midland League of Women Voters to citizens listed on the county's poll tax roll. The project is a public service feature of the League's chapter here.

The folders are a compilation of answers to questionnaires sent to all candidates for state, district, county and precinct offices. Educational background, qualifications, experience and platforms of the various candidates are listed in the folder. Candidates for state offices also were asked to express their views on certain vital issues. State Folder

Included in the State League's Voters Service is a guide compiled from answers to questionnaires sent to candidates for U.S. Senator and all state offices from governor to superintendent of public instruction. This information has been placed on bulletin boards located in the First National Bank, Midland National Bank, Hotel Scharbauer, Midland Tower, Country Club and the Ranch House.

League officials urge citizens to read and study the "Voters Guide" that they may be better informed before going to the polls Saturday. The purpose of the League, officials said, is to promote political education through informed and active participation of citizens in government. The League is a non-partisan organization.

Thus the Soviet announcement was a double barrelled attack on he Western Powers. Not only did he Russians claim they could feed all Berliners, but their announcement sought to discredit Westernsponsored currency as worthless for the primary function of buying food In Frankfurt, Gen. Lucius D. Clay, American military governor, showed skepticism of the Russian offer.

Berliners Are Cynical "The proof is in the performance, not in the statement," said the U. S. commander, whose planes have been flying nearly 1,500 tons of food and coal a day over the Russian land

The first reaction of Western Berners to the Russian food announcement was somewhat cynical. Some said they would attempt to obtain the Soviet-offered food but one native Berliner employed in an American office remarked:

"So now the Russians offer us ood when they have shut it off from Western Germany. They say it is grain sent from the Soviet Union. But what about the low rations 16,000,000 Germans in the Russian occupation zone have endured? What about the millions of tons of food the Russians have taken out of their zone and shipped to and it has a string of 7-inch cas-Russia?"

Official German newspapers of both the American and British military governments repeatedly have FLOWS OIL FROM CANYON stated that the Russians have been taking food out of the Soviet zone of Germany while the U.S. and Britain have been pouring hundreds of millions of dollars worth into Western Germany and Berlin to support the civilian ration.
