of persons interviewed said the man was best qualified who has been a district attorney, district judge, assistant attorney general and a judge on the Texas Supreme Court.

The Only Candidate for Place 2 With This Experience Is James P. Hart!

Anxiety Causes Soviet To Take Desperate Risks

By DEWITT MACKENZIE AP Foreign Affairs Analyst

The greatest danger of war between Russia and the Democracies lies in the fact that Russia's European conquest has bogged down and she is taking risks in desperate efforts to get the Red machine rolling again.

The inhuman food blockade of Western Berlin is one of those risks. The blockade must be broken by the Allies-but the consensus is that this isn't the time to use force, as some rather impetuous folk are advocating. It is encouraging to hear general Lucius D. Clay, U. S. military governor in Germany, deny published reports that his headquarters had recommended the blockade.

Such Allied action surely would result in armed conflict. Obviously there is danger of war. but as things stand there seem to be ways of dealing with the situation without resorting to arms. Concerted action by the Democracies in clamping politico-economic sanctions on Russia should turn the

The strategy of the Western Allies seems to be developing along the line of applying sanctions and then holding firmly on the front which the Bolshevists have reached through Central Europe.

The Soviet Union has great resources, but a global politico-economic blockade by the Democracies would hit her so hard she wouldn't be able to contemplate making world war. Moreover such a blockade would give time for development of the disaffection which long has been at work among the Red slave-states of Eastern Europe.

What the Muscovites are aiming at now is to drive the Democracies out of Germany and Austria and make these important countries part of the Red Empire. Since Germany in normal time is the economic keystone of continental Europe, her inclusion among the Soviet satellites would lend vast strength

Certainly there is no place at all for appeasement. And if it comes to Flees Alabama Prison a show-down where the use of force is necessary, the Democracies will

Children Should Be Seen and Not Hurt

This picture should be worth a thousand words of warning to children and their elders. The little friends of three-year-old Jo Ann Sandbloom, of Cleveland, Ohio, are playing outdoors, going on picnics and generally having swell vacations. But Jo Ann is spending the summer strapped in a hospital bed, her legs hauled up in casts. That's because she forgot for a moment that children shouldn't play in driveways and because a grown-up, backing a car out, forgot for a moment that children often DO play in driveways. Jo Ann's friends send her lots of "get well" cards and many, like 18-year-old Lois Westgren, drop in to cheer her up. But Jo Ann would sladly trade it all to be able to romp on the grass again,

Records Justify Reelection

Two men who should receive nominations for reelection in Saturday's Democratic primary because of the outstanding jobs they have done in their respective positions are Col. Ernest O. Thompson and William J. (Bill) Murray, members of the Texas Railroad Commission.

Both, of course, are making their own individual races -Thompson for reelection to a regular term on the commission, and Murray to an unexpired term. They are not running for the same commissionership.

Thompson and Murray are well-known throughout West Texas and among members of the oil fraternity, and both are respected for their fine and conscientious work on the Railroad Commission—one of the most important divisions of government in Texas.

Thompson is a veteran member of the commission and is one of the nation's best-posted men on matters concerning the petroleum industry. He knows the Texas oil business and is thoroughly familiar with its limitations and

Murray has been a commissioner less than two years, but during that short time he has demonstrated his outstanding ability to cope with the varied problems of his office. He has proved his capability to handle the job. He is a practical engineer—young in years but old in experience—and is the only graduate petroleum engineer ever to serve on the Railroad Commission which regulates the state's oil business.

Both men are qualified to serve on the commission which not only deals with the oil and natural resources, but which regulates the important transportation and communications industries of Texas.

Experience and ability are needed on the Railroad Commission, and Ernest O. Thompson and Bill Murray can fill the bill. The public interest will be best served by giving these two Texans a vote of confidence in Saturday's election. Their fine records justify their reelection.

Repeat Performance

Once again, this time in New York, a congressional subcommittee has been asking witnesses if they were Communists. Once again the witnesses have refused to answer, and have been evicted from the hearings with threats of contempt proceedings.

However one may feel about these investigations, it must be admitted that they prove nothing. Witnesses have been tried and sentenced, and yet the issue remains in doubt. Isn't it about time that we had a definitive court ruling as to whether Communist Party membership is politics or treason, and whether any party membership is an inviolate secret or public property? It would save a lot of needless expense, confusion and turmoil if the issue was settled.

Been And Gone

Well, there was at least one tangible result from the Ike-for-President movement. It gave the country that boom and bust which some persons have been predicting

Greetings From Shaw to Shaw

As he looked forward to celebrating his 92nd birthday on July 26, George Bernard Shaw, famous Irish playwright and author, received greetings and good wishes from a stranger with whom he has much in common—his name. The stranger was George Bernard Shaw, an RAF veteran. In the exclusive photo above, the two GBS's are shown chatting at the playwright's home at Ayot St. Lawrence, England. The younger Shaw said he decided to drop in and see his famous namesake "just for fun."

Tito Defends Yugoslav Stand

BELGRADE, YUGOSLAVIA-(AP) -Premier Marshal Tito told 2,000 wildly cheering Yugoslav Communists Wednesday their party had become the "strongest and most successful Marxist-Leninist movement' in the nation's history.

This apparently was his answer to charges from the Soviet Union and the Cominform that Tito and other Yugoslav Communist leaders had deviated from the Marxist line and were pursuing an anti-Russian

Tito, addressing the Yugoslav Ph 2533 party's Congress in a Belgrade suburb, was expected to speak all of eight hours in a massive exposition of the history of the Communist movement in his country. He was delivering it in sections of two hours or more.

> The Congress was expected to pledge him unanimous support. This will stamp it as a renegade from the Cominform, the Moscowdirected Communist Information Bureau, an association of nations

in the Soviet orbit. The Yugoslav people have never been told that all other Communist parties have declined invitations to attend the Congress.
