An Urgent Appeal

Midland's City Council is to be congratulated and commended upon its determined effort to reduce traffic accidents on city streets and state highways, and it is hoped the citizens will cooperate whole-heartedly in the

It is a campaign for the welfare and safety of each and every citizen, all of whom must recognize their responsibilities in the program if it is to meet with success.

Realizing that without public support, traffic laws and regulations are of little value, the council members have issued a public appeal for the full support and cooperation of men, women and youths in curbing traffic accidents. It will take that kind of cooperation to bring about the desired results.

Interested individuals first must pave the way for the success of the safety movement by driving carefully at all times. Then they must sell the program to others, who in turn will interest still other drivers in being careful and courteous when behind the steering wheels of cars, buses and trucks.

Such a cooperative movement, once underway in the community, will snowball until hundreds of citizens are driving more carefully than ever before. Persons driving safely and talking safety at every opportunity doubtless will have its effect in making more and more citizens conscious of their driving habits.

It is up to the individual to get the safety ball rolling, and there is no time like the present. The observing of all traffic regulations, including speed, traffic lights, stop signs and hand signals, is the best way to start.

The city also acted wisely in inviting the Schools, County, Chamber of Commerce and other civic and service groups to join in sponsoring the program. We believe all will cooperate to the fullest extent. There is hardly a more worthwhile project to be sponsored here.

If service club members alone would pledge themselves to careful and courteous driving at all times, it would be a far-reaching step in the safety promotion drive. There are several hundred service club members in Mid- the President of the United States. land, enough to get the campaign off to an excellent start. not threaten traffic violators—but rather they appealed to ident. When one of them got caught each and every citizen to do his or her part in reducing exceeding the speed limit on Concostly and tragic traffic accidents in Midland. The success of the campaign depends upon whether

Play For Keeps In Loop's Final Game

Pennant Awaits Winner Wednesday Night Tilt; Tribe Wins Tuesday 3-2

Midland and Vernon will play the seventh and deciding game of their Longhorn League Shaughnessy playoff series at 8:15 p. m. Wednesday in Indian Park. And it goes without saying, everybody will be there.

The winner of the game becomes the league champion. The game will climax a great season of baseball here and will end one of the hottest series ever waged in the Longhorn loop. Midland won the first two games of the series played here. Ver-

non took the next three tilts at Vernon. Then Midland copped a thriller here Tuesday night to pull up with Vernon at three games So it's importance riding on every pitch out there Wednesday night. The championship of the Longhorn League is waiting for the winner and the pennant will fly from the park of the winning team.

The Indians will put their hopes in the pitching of Leland Crissman. Vernon will hurl Jacome, Duster ace, with Gerald Fahr ready for relief. Nelson would be called in should Crissman need help. A great game is in store when "play ball" is called Wednesday

When the opening lead of the ace of hearts was trumped, neither North nor South felt so happy about the hand. Grau immediately led a trump which South won and shifted to a diamond. North won this trick with the ace and attempted to cash the king of clubs, It is quite unusual to find a hand but Grau ruffed this and spread in which there was a fourth-hand the hand for five-odd, making an

"I'm going to fight for this program with all I've got. Can I count on you?"

Then, when the applause had died down, he asserted: "A vote for the Republicans stops the program." Trumen returned to the attack Tuesday night, singling out for particular criticism Chairman Taber (R-NY) of the House Appropriations Committee—though not by name.

He said Taber's committee slashed nearly \$90,000,000 off his request, for reclamation appropriations in 1947 and started a "great storm of protest" over the West. "The West," he quoted Taber as

At the close of the court Tuesday, the grey-haired Davidson was asked in an interview how long he thought the suit for a permanent injunction would continue.

"It all depends," he replied, "on the evidence to be presented." This was considered an indication that Stevenson's attorneys will be allowed to parade their witnesses. During the arguments Dan Moody, former Texas governor and Stevenson attorney, declared he was "prepared to present testimony that in one Jim Wells County precinct a ballot box was stuffed and additional votes added.

"I am prepared to offer affidavits and witnesses." But John Crooker of Houston,

speaking for Johnson, retorted: "Do they want purity of the ballot? Over in Dallas a blood cousin of Coke Stevenson made five separate returns, all of them favoring Mr. Stevenson. This was Arthur Stevenson (Dallas County Democratic chairman) and he is a blood cousin of Mr. Stevenson there."
