Buy A Poppy-- Aid A Veteran

Immortalized by Col. John McRae, a Canadian officer who was killed in World War I, the poppy has long been designated a memorial flower for American war dead.

Traditionally, poppies are sold immediately preceding Memorial Day, which is May 30. This year, poppies will be sold by members of the American Legion Auxiliary on Saturday, May 19.

Mrs. Earl Drake said sales will be held in Friona on that day and asks that everyone purchase a poppy to wear during the special observance.

Col. McRae's famous poem began "In Flander's Field the poppies blow...." More than 50 years later, the poppy is still the symbolic flower which pays tribute to those who lost their lives in wars.

The American Legion Auxil-

ary notes that the poppy has also become a source of hope and aid for disabled veterans who make the poppy as part of their therapy and to aid their rehabilitation. Funds from Poppy Day are not only utilized by veterans but also used as assistance to veterans and their families in times of distress.

Mrs. Drake called attention to the fact that each poppy tells its own story. She commented that no two poppies are fashioned alike, although they all have red petals with green and black centers.

Poppies are a voluntary project, with contributions of any amount accepted for the right to wear a poppy as a reminder of not only the American war dead, but as a living memorial that aid has been offered disabled American veterans and their families, concluded Mrs. Drake.

Lions Ladies' To Be Honored

Friona's Noon and Evening Lions Clubs will combine forces Friday, May 11, at 8 p.m. in the Friona High School Cafeteria, to honor the Lions' Ladies at the annual Ladies Night Banquet.

Providing entertainment will be the high school stage band.

Gas Shortage Felt Here By Local Wholesalers

Bicycles and foot power may be coming back into fashion in increasing demands for gasoline that just may not be available' according to four local wholesalers contacted this week.

A 'very critical' condition exists, not only nationwide, but the effects are definitely being felt in Friona, said Buddy Lloyd, manager of Consumers Co-op.

SHORT SUPPLIES

Lloyd commented, "Our supply is very, very short and we expect it to get much worse.

We have been notified that we are going on an allotment basis this week, and some dealers have had their allotment cut up to 40 percent.

"The demand for diesel has lessened here somewhat, as most farmers have their heavy work behind them, but we have been out of diesel several times recently."

He added, "We are not allowed to take any new customers, but we are trying to keep enough supplies for the customers we have now, and we expect more and more

trouble in trying to get gasoline to cover the demand. Our March sales were up 7,000 gallons over the same time last year and it sure is getting serious."

HIGHER PRICES

Dale Houlette, operator of the Mobil Wholesale in Friona said they are on the same quota as last year, and have not been completely out of supplies as yet, although they have gotten 'awfully close.'

He feels that higher prices will be noted soon and the independent service station operators will be hardest hit but the shortage as they are dependent on buying from the major operators. Houlette said they have not had a surplus of supplies since December and see little chance in the near future to be able to have adequate supplies of diesel and gasoline to furnish existing customers with what they need.

"We were warned last July that diesel was going to be hard to get and that there was a gasoline shortage coming. I haven't taken on a new customer since last fall, although I haven't had to cut off any of my customers I already have."

Diesel is all but non-existent in the Dallas and Lubbock areas, he added, and truck customers are either being turned away or they are rationed to 30-40 gallons instead of the 150-200 they normally purchase for the large diesel tanks at one time.

STATIONS CLOSING

He estimates that at least one-third of the existing service stations at this time will be forced to close and cited that approximately 300-400 major stations have already closed nationwide, along with hundreds of independent stations across the country.

SHOP AT HOME

The Texaco Wholesaler in Friona, Grady Dodd, said he

It was pointed out that property owners living on the streets in question will be given the opportunity to pay into an escrow fund to pay for the paving.

Residents living on the streets scheduled for paving are encouraged to pay their escrow money to Friona State Bank no later than June 1.

Previously approved last month by the council for the paving project were a block on 10th Street, between Grand and Green avenues; two blocks on Virginia, between 8th and 10th; three blocks on Walnut between 11th and 14th, and a block on Prospect, between Fifth and Sixth.

A second ordinance was passed, confirming the five per cent increase in telephone rates within the city, approved by the council at its last meeting. The increase is expected to be reflected in the June telephone bills for Friona.

A third ordinance, which would have provided that new developers participate in the cost of existing utilities was tabled.

The council heard an interim report from Dale Cary, chairman of the Board of City Development, concerning the proposed plans for the Friona BCD, established earlier by the council, and given a budget for 1973 in the amount of \$2,000.

Cary told the group that it was the board's preliminary plans to work toward retail promotions, rather than the tourist angle. "We feel we need to develop what we have in Friona," was Cary's statement.

Dr. Lee Spring was re-appointed to the position as City Health Officer for a new two-year period.

The council, on the recommendation of City Manager Jake Outland, voted to mark off \$979.90 in old uncollectable taxes which had accumulated over the past seven years. Many of these were the results of errors in assessments, Outland said.

Outland reported on the progress of the city's new water well, which has been

CHESTER SELLING

Chester has managed the co-op gin at Sudan for 12 years. He had worked in cotton gins at Spade and Whitharral since 1929.

Born in Louisiana, the Chester, lived in the Vernon area prior to moving to this part of the country. Chester has served on the Friona Chamber of Commerce and as a member of the Friona Lions Club while in business in Friona. Both are active members of the First Baptist Church.

Chester served on school boards at Spade and Whitharral prior to moving to Friona.

Byars, a native of the Enochs-Maple area, worked at the co-op gin at Enochs for six years prior to coming as Friona manager in August of last year.

"We wish to thank our many friends and customers for their loyal patronage while we have been in business. I hope to continue to see my old customers, along with new ones and wholeheartedly recommend the co-op people to all of my former customers," Chester stated.

Mrs. Chester has been actively involved in the gin business, but does not plan to continue to work at the gin.

Youngster Gets Credit, Saving Father's Life

Happy Birthday, Terry!!

Terry Jesko probably received a good birthday gift last Friday in advance when he was able to save the life of his severely injured father.

He is nine years old today [Thursday] and almost a week ago, the eight-year old youngster was in a field with his father when the accident occurred.

His father, Lee Jesko, 34, of the Lazbuddie community, said there is no doubt in his mind that Terry's immediate action saved his life.

Hospitalized in satisfactory condition at Parmer County Community Hospital in Friona, Jesko related the tale of the events leading up to his accident.

He said he was planting cotton and had gotten off the tractor to check the seed in the drill. Terry was driving the tractor at the time and it was moving slowly. He said he started to get back on the tractor when he missed the step and a wheel caught his foot and pulled him under the tractor. Both the tractor wheel and rod weeder ran over him.

Terry managed to stop the tractor and raise the plow before running to the end of the field and driving the family pickup approximately one and one-half miles to the family home to seek help. The family lives approximately 2 1/2 miles northwest of Clay's Corner.

It was sometime between 8:30 and 9 p.m. at the time and his mother, the former Brenda Collier, of Friona, had left the

TERRY JESKO

house at 8 p.m. for a meeting, so no one was at home.

Terry told his grandmother Mrs. Pug Collier later, "I couldn't think of a number to call, so I just dialed. In a little bit, a lady's voice said 'operator.'"

"I couldn't think of the right directions, so I told them to call Pete Jesko, [a cousin of Lee] who lived close by."

The operator called for an ambulance out of Muleshoe and notified Pete Jesko who picked up Terry and met the ambulance at Clay's Corner and took the drivers to the accident site.

On arriving at the hospital in Friona, Terry asked that his grandfather, Pug Collier, be called to the hospital.

Jesko is being treated for multiple fractures, lacerations and internal injuries, but is listed as improving and in satisfactory condition.

Earl Chester Sells To Friona Co-op

Earl Chester has sold Chester Gin Company of Friona to the Friona Farmers Co-op Gin, according to a joint announcement this week by the two parties. Formal announcements by the two appear on pages six and seven of this issue.

Chester, who has been in the ginning business in Friona for the past 15 years, states that he will continue to be associated with the new owners as a field representative.

The Co-op Gin will operate at Chester's former location. The cooperative has sold its gin located two miles south of Friona, and this gin will be moved out of state, it was announced.

Tom Byars, manager of the Co-op Gin for the past season, will continue as manager at the gin's new location.

Earl and Stella Chester came to Friona in 1957 from Sudan. He became a partner with the late Woody Fleming, and was the managing partner in Chester & Fleming Gin until 1964, when Chester bought out his partner's interests in the gin and became sole owner.

Prior to coming to Friona,

Chester had managed the co-op gin at Sudan for 12 years. He had worked in cotton gins at Spade and Whitharral since 1929.

Born in Louisiana, the Chester, lived in the Vernon area prior to moving to this part of the country. Chester has served on the Friona Chamber of Commerce and as a member of the Friona Lions Club while in business in Friona. Both are active members of the First Baptist Church.

Mrs. Chester has been actively involved in the gin business, but does not plan to continue to work at the gin.

MARK OF PROGRESS FOR FRIONA...Construction is well under way at this time on West Highway 60 on the new Piggly Wiggly building. Larger facilities and a huge parking lot are expected to make the store more convenient for Friona shoppers, according to store operator, Kenneth Moore. The new grocery store is expected to be completed and ready to open in the near future. [Star Photo]

CYCLE INJURIES

Hospitalized with a head injury at Parmer County Community Hospital is Leland Hutson, owner-operator of White's Auto Store Inc. in Friona.

He was injured in a motorcycle accident Sunday afternoon on the Sloan Osborn farm northwest of Friona. Also injured on a separate motorcycle was Troy Young. Young was treated at the Friona hospital and released.

The two men were reportedly topping a small hill on the farm when their cycles hit a depression at the rim and threw the men from their motorcycles.

35 YEARS AGO—MAY 13, 1938

Friona people who are lovers of aeronautics will be given an opportunity to gratify their desire for this form of sports out at the L.F. Beckner farm northeast of town Sunday, when Floyd Daniels, pilot and Johnney Holden, parachute jumper, arrive here with their airplane for a full day of pleasure flights and a parachute jump.

30 YEARS AGO—MAY 14, 1943

Only 12 seniors will be in the graduating class this year and this is the smallest number the school has had for several years. The class consists of three boys and nine girls, whose names are as follows—

June Maurer, valedictorian; Elsie Messenger, Fern Cunningham, Vera Leach, Velma Schueler, Eva Dean Hyde, Margie Mars, Mary Lou Barker, Benthall Southall, Howard Loveless, Walter Johnson and Billy Baxter.

25 YEARS AGO—MAY 14, 1948

Another little thing that we do not wish to omit is the fact that Friona has, what seems to be the most popular square-dance club in the Panhandle. Yes, we mean just that. Members of this social club include many of the most popular and most highly respected people of the Friona community. They have not only received an abundance of pure recreation for themselves, but are frequently invited to visit other towns and communities to help the people of these places to execute the square dance in the form of the reel, the cotillon and the folk dance, and include a polka and schottische occasionally. All these dances produce or create courtly or stately bearing or posture and graceful movements.

20 YEARS AGO—MAY 14, 1953

Allen's Jewelry is marking its Fifth Anniversary in Friona this week. We send congratulations to this firm that is growing with the area it serves, and we especially comment its owner, Mr. Allen Stewart for his active community interest.

DID YOU EVER HEAR SO MUCH OF ANYTHING that you soon became so distressed over it all that you didn't want to ever hear about it again? Yeah, well I got those feelings all the time.

Now my mentioning these as examples doesn't tell you where I stand in relation to them, other than that I'm kinda tired of it all.

What is my first example? Right! The Watergate Affair. I'm so sick of all of that I don't know what to do. There has been the old saying about "how much water goes under the bridge" but I didn't know there was this much in the whole world. I even think it has affected the amount of my water intake—I'm slowing down.

Now I like meat and beef I sure do, but I'm beginning to be "turned off" by the number of radio advertisements about the CowBelles. I know what the purpose is and why it is being done so don't you CowBelles jump me—it's just that 6 to 8 times an hour is enough to excite my adrenalin—

OF COURSE, I'M NOT IMMUNE to the fact that I'm sure there are things that I do and say which cut others off, too. In my business that probably comes with some real regularity—

There is an old favorite Lindleyism which goes like this—"He who toots his horn too often, is liable to get short-circuited." (I'll bet Confucius was glad he didn't toot that one...)

Well, one little thought for the week I just can't help but wonder what God thinks when we keep pitching Him our little tooting excuses again, and again and again—

To Him I'll bet the Watergate Affair is just a drop in the barrel as far as how often he hears some things. You think so?

However often I might hear from one source, I have learned to be content and never turn her off...you boys better say something nice about your wife, too.

Give mom a ringing sensation.

Now is the time to give mom a little of what she's always given you. An easier life. For years she's been running the house. Literally, that is. Running to toddling toddlers and to ringing phones. For Mother's Day you can solve one of her moving problems with a gift extension. She can have it located conveniently so that when it rings, it'll be a pleasure to her ears and a relief to her feet.

So again from the bottom of my heart thank you very much.

Chamber To Boost Shopping At Home

Water, or rather the projected lack of water in this area, occupied members of the board of directors of the Friona Chamber of Commerce and Agriculture during the regular monthly meeting Tuesday morning.

Floyd Reeve, who attended the water meeting in Lubbock last month, reported on events discussed during the fruitless meeting, during which time it was announced that a water importation plan seemed to be economically infeasible at this time.

He said it was expected to cost \$20 billion to construct the canal, pumps to get the water to this area, and added that 326,000 people would be affected directly with an

additional 20 million plus to be indirectly aided by such a plan.

According to Reeve, an alternate discussed was weather modification, which is expected to play an increasing role to replace water importation in the future. Weather modification, including seeding clouds to produce moisture, was said to be the best possible alternate at this time to replenish diminishing water supplies.

It was voted by the directors to adopt a letter to send to Water, Inc., indicating an appreciation of the effort put forth by the organization to solve the water problem.

Also discussed was a plan to encourage the Riata CowBelles to assist the local area by possibly representing area agriculture in Austin, to, in effect, become lobbyists for agriculture and assist with needed agriculturally related bills pending in legislature.

"Stir what you got," was a comment made by a director, when a decision was asked by Robert Needley of the BCD on how to use available funds to boost economy in the area. With the funds presently budgeted, it was decided to

help develop present businesses in the area and further encourage Frionans to 'shop at home.' A management-training session is now a possibility, following the session Tuesday morning, to help store managers and operators more effectively stock needed and

wanted items locally, and keep shoppers at home.

A proposal was also made to write motor companies in an attempt to speed up acquisition of new vehicles and tractors instead of having to wait up to four months in order to obtain the vehicles when it may be desired and needed. Director M.C. Osborn volunteered to talk to local companies to see what steps should be taken to contact the motor companies in an effort to alleviate the situation.

A surplus car for the airport came under discussion, with a committee chosen to go to Farwell and talk to County Judge Tarter who would have to sign the papers in order to make the purchase.

Also discussed was the application for a bond to have fireworks during the Fourth of July celebration; that Clovis Sign Co. had been contacted and agreed to repair the church billboard and Percy Parsons was approved as purchaser of the typewriter from the Chamber of Commerce office which has been replaced by a new typewriter.

Virgil Young Funeral Held

Funeral services for Virgil Young, 64, who had resided in the Hub Community for the past three years, were conducted from Friona Methodist Church, at 1:30 p.m. Tuesday with Rev. Albert Lindley, pastor, officiating.

It was reported that Young, who was planting treated cotton, became ill after loading the planter and inhaling fumes from the chemically treated cotton. He was hospitalized last Tuesday shortly after returning to his home from the field and died Sunday afternoon in the hospital.

A native of Hale County, Mr. Young was a farmer.

Survivors include his wife, Edna Lucille; one son, Jerry Virgil Young of Plainview; three sisters, Mrs. John Smith, Mrs. Leady Maxey and Mrs. Joel Culp, all of Plainview; two brothers, S.J. Young, Plainview and Marvin J. Young, Lubbock; and two grandchildren.

Honorary pallbearers were John Blackburn, Jimmy Sumpster, Elton Wilson, Gene Brito, Billy John Thorn, Beal Broyles, Eugene Ellis and John Hand.

Clyde Woodard, Charles Bills, Leo Ruzicka, J.D. Terry, John Malouf and John Barker were active pallbearers.

Burial was in Plainview Memorial Park under direction of Parsons-Ellis Funeral Home.

ONE OF THE MOST PRIZED possessions of a homeowner is a healthy shade tree. But a tree needs special care if it is to remain beautiful and disease-free.

Trees are subject to various disease-causing organisms such as viruses, bacteria, fungi and nematodes. Furthermore, trees are affected by drought, root system damage, nutrient deficiencies, misuse of pesticides and storm damage.

Any of these factors can injure a tree, often seriously enough to kill it. Drought damage is especially a common problem. And by the time a homeowner can tell that a tree is suffering from water shortage, it's usually too late.

Construction injury is a common ailment around and near new homes, buildings or paved areas. Such injury is first indicated by a dieback of twigs and too early a shedding of leaves in late summer and early fall.

Chlorosis is another common symptom in trees and often is the result of insufficient iron. Light green or yellow leaves signal this condition. Iron chelate or iron sulfate can be applied as a spray on smaller trees or like a fertilizer on larger ones to correct iron deficiency.

Homeowners should be careful with weed killers and other pesticides. Indiscriminate use of such materials in the general area where trees are growing can be costly. Trees have a vast network of feeder roots that can easily absorb such chemicals, killing a part or the entire tree.

DURING THE LAST HALF of May, some 24,000 Texas farmers will receive a crop acreage questionnaire from Charles E. Caudill, Agricultural Statistician-in-charge of the Texas Crop and Livestock Reporting Service, Austin, Texas.

This information will be the basis for determining the planted acreage for the State of Texas and for each county. There are 254 counties in Texas, and reports are needed from many farmers so that each county will be well represented. Accurate estimates are of great importance to farmers in planning production and marketings and in providing an unbiased picture of Texas agriculture.

The Texas Legislature has provided a program of estimates for each county. Texas covers such a wide area that State totals alone do not provide adequate information on Texas' most basic industry-agriculture. This is a cooperative effort of USDA's Statistical Reporting Service and the Texas Department of Agriculture.

Booster Project To Buy New Equipment

The Friona Booster Club has scheduled "Work Days" involving local athletes in a fund-raising project for two consecutive Saturdays, May 12 and 19.

The Boosters have called a meeting for Thursday night, 8 p.m. at the High School Cafeteria to further organize the project.

Purpose of the fund drive is to raise money for a new projector and camera to use in filming the school's athletic events. Plans are to buy equipment whereby the various game films can be made in color.

Also, the Boosters have adopted a project of buying

new scoreboards for the high school gymnasium.

Residents having yard work or odd jobs they would like for the athletes to do are requested to call 247-3862. The youngsters can also be scheduled to work other days than the two Saturdays, if need be, according to a spokesman for the club.

The Boosters are asking a minimum donation of \$10.00 in order to help the fund drive. The camera equipment is expected to cost around \$500.00, and new scoreboards, one for each end of the gym, will cost about \$1200.

The Work Days were chosen to replace the "slave auction," which has been held in recent years.

MOM MIGHT LIKE A GIFT of time this Mother's Day-time for joining family fun and enjoying life more.

Portable kitchen appliances—from toaster/ovens to fondue sets—can cut time spent in the kitchen.

Some guidelines concerning selection of such appliances are—Choose a toaster/oven with convenient controls, signal light which indicates the unit is on, automatic shut-off, and crumb tray for easy cleaning. This handy appliance toasts, bakes and broils.

An electric skillet, on the other hand, fries, bakes, fondues and just about anything else desired.

Many models feature detachable controls and handles for dishwasher use and tilt legs for

simplified draining or basting. A dome lid allows enough room for roasts.

A third kitchen helper is the blender—which chops, grates, crumbs and mixes. Although many speeds are available, only a few are actually used. Blender containers should have easy-to-read graduations, easy-pour spout and handle. Other popular features include detachable blades, removable cover insert for adding ingredients, and various attachments.

Look for electric knives with off-on switches and safety locks. Used in slicing bread, cake, meat and other foods, many have releasable blades for easy cleaning and storing. Some stainless steel blades feature serrated edges.

Portable mixers should be lightweight with comfortable handles—they're great for whipping, beating and blending. Fingertip controls, chrom-plated beaters without center shafts, stable heel rests and permanently lubricated motors also are desirable.

The final group of appliances discussed consists of special-purpose items generally for entertaining—fondue sets, electric woks and slow cookers.

Choose fondue sets which are safe and stable to prevent tipping—and possible burns. Select a set with readable temperature controls, immersible pot, non-stick interior, and fuel container large enough to last an entire meal. Refueling a hot fondue set is dangerous.

Woks—popular in oriental cooking and for preparing certain foods—should utilize the same safety features as fondues. In addition, they need a wide-range temperature control.

Slow cookers, on the other hand, stew or simmer foods for long periods of time—all day or night. Made of either crockery or metal, they're ideal for stews, soups or pot roasts. For convenience, consider immersible cookers.

Any of these gifts should please Mom on her special day—and give lasting pleasure throughout the year.

Select the gift with care—and it will serve for many years.

Building Permits Top April Report

Friona's growth continues on a steady pace with a total of \$49,700 in building permits being issued during the month of April. This represented a permit for a new residence in the amount of \$32,000, an addition of \$10,500 to an existing residence and two additions for a total of \$7,200.

With the addition of another water tap, the total active taps in the city was brought to 1,301 and new water well number nine was completed, with casing set and testing pending at the end of the month. According to figures it is expected to be a 450 gallon per minute well.

With no sewage taps being made during April, the total of active taps remained at 1,268. However, an average of 221,340 gallons of effluent were processed per day for a total of 6,640,174 gallons being treated and processed at the plant

during the month.

Friona streets came in for a general patching following winter damage with intermittent rainfall hampering street department workmen in their efforts.

The sealcoating of twelve blocks which received some of the heaviest damage was completed late in April, along with paving in Staley #3 Addition and a block in Jones Addition.

Local Youths Second In Road Rally Test

It was, or at least started out to be a beautiful day for a race, but the wind and blowing checkpoint number four dropped driver Kyle Shelton and navigator Bobby Lewellen from first to second place in Sunday's Safe Driving Road Rally.

Kyle, son of Mr. and Mrs. Ralph Shelton and Bobby, son of Mr. and Mrs. Joe Lewellen, were in one of the ten cars entered in the race which left the location of I-40 and FM 1912 at Amarillo Sunday.

Driving his own car in the Explorer Grand National Safe Driving Road Rally, Kyle and Bobby made a lunch stop at the Lake Meredith Marina, along with the other drivers. From there they took a 'roundabout' route back to the Amarillo Speedbowl to conclude the race.

Kyle commented laughingly, "The last instruction on the bottom of our rule sheet said, 'look for the dead end.'"

"Time was important," he added, "we had six checkpoints and we were ahead of the number one car for five of the six checkpoints."

"But, we got messed up on the fourth checkpoint, right out of Lake Meredith, and that cost us first place," he concluded.

The Explorers worked with the Panhandle Foreign Sports Car Club to coordinate the rally instruction school preceding the race in April. The rally school was held at the National Guard Armory in Amarillo.

According to Kyle, the race covered 127 total miles across country, with vehicle inspections and the safety-check-points.

Two trophies were presented Kyle and Bobby for their secondplace win in the Road Rally.

COLORFUL TRIP DESCRIBED

Local Students, Teachers Spend Easter In Mexico

Fertile farmland, colorful canyons, vibrant market-places and the culture of another world greeted eleven Frionans during the Easter holidays, when the students and sponsors of the Foreign Language Club made a long awaited trip to interior Mexico.

The students told of their journey, here are his words to describe some of the scenery and legend of the Mexico trip. Kyle Shelton said, "During the first part of the Mexican journey, between Ojinaga and Chihuahua, the land is mostly flat with a few hills.

"It is some of the richest farming land in the North American continent, but it is hard to get anything to grow because of the lack of moisture."
"This land is very dusty and hot because of low humidity and no water. If the people of the land want to survive and grow any kind of vegetation, they have to live by a river. There is no irrigation and no wells anywhere in this area. Even the improved roads are just dirt and very scarce," he added.

He said that as they neared Chihuahua the land began to break up a little more and vegetation appeared to be more proficient. In Chihuahua, the group stayed at the Fremont Hotel which is located near the National Bank and a large, beautiful cathedral.

"In early morning, the sun has a fabulous golden effect on the front of the cathedral during service," commented Kyle.

Leaving Chihuahua, the group watched a river as the train trailed along beside it for a long way. Along the route by the river, they saw many cattle, goats and horses. Soon the train entered mountainous country with tall pine trees and evergreens. They said an occasional waterfall can be seen by a watchful eye. In the mountains of Mexico, the air was said to be cool and refreshing. The train route took the group through tunnels and over bridges. Rugged land made it hard for the students to

imagine being able to live like the native Mexicans and Tarahumara Indians, added Kyle.

"These Indians are very colorful in their dress and especially in the Easter week when they put on masks and dance around the streets in their beads and pods which rattle and are noisy," commented Kyle.

Along the way, the train stopped at Copper Canyon to allow interested people to take pictures and buy handmade baskets, beads, dolls or other items offered by the natives.

Kyle added, "The canyon is so immense that it takes several photographs to get the

complete overall view in its entirety. As in the Grand Canyon, there is a small river which looks very small down in the bottom of the canyon."

In the town of Los Mochis, every alley is a maze of flea markets, according to the touring students, where every kind of curios and clothes can be found, along with grocery stores. They said these alleys are the busiest places in town until siesta time, when everything just sort of dies for awhile.

The group made a 12 mile trip to Topolobampo Bay by bus and said it took an hour to get

there on the bad roads and no pavement.

They dined at the Yacht Club overlooking the bay, then went swimming in the cool, clear water. Also available at the bay are boat rides, they added.

Porpoises were seen playing in the water, and an occasional pelican was seen. They started back to Los Mochis as the sun began to set.

The group was unanimous in adding that the people of Mexico are friendly everywhere they went and always seemed ready to assist them at any time.

For two years preceding the

trip, the Foreign Language Club had worked and saved money to make the special trip to Mexico. They were accompanied on the trip by Miss Joy Morton and Mrs. Joyce Johnson. Students who made the trip to Mexico included Mark Shackelford, Gary Mingus, Kyle Shelton, Carl Evans, Donna Harper, Cindy Barnett, Kay Cochran, Glenda Morris and Darlene Harper.

The group concluded their story with, "All in all, the trip was enjoyable for all of us involved and is recommended by us for a pleasurable and lovely vacation."

The Truth Will Make You Free

Terry Brown, Minister Sixth Street Church of Christ

In Mark 13:31 Jesus said—"Heaven and earth will pass away, but my words will not pass away." Here Jesus makes two claims. First, He claims that His words are divine; the world will pass away but His words will not; therefore, His words are not from the world. Second, because His words are divine, Jesus claims that His words will stand forever.

Today, almost 2000 years since Jesus spoke these words, we have a book called the Bible. Christians believe that the Bible contains the words of Jesus which give life. Paul wrote—"All Scripture is inspired by God and profitable for teaching, for reproof, for correction, and for training in righteousness, that the man of God may be complete, equipped for every good work (II Timothy 4:16-17).

This article will trace the history of the Bible for the next few weeks. The growth of the Bible to its present stage is an interesting study. Since Christians base their faith on the writings contained within the Bible, it is helpful to know how we got the Bible in its present form.

If the Bible really contains God's message for the world, we should listen to its message. This would eliminate the need for creeds or statements of doctrine. All men could simply go to the Bible for their doctrinal practices.

Kiwanians Honor Merit

Named at the Thursday morning meeting of the Friona Kiwanis Club as Kiwanian of the Month for April was Jackie Morgan.

Established last fall as a civic club, the Friona Kiwanis Club meets every Thursday at 8:30 a.m. at the Parmer House. Byron Hardgrove, Friona High School teacher, is president of the Kiwanis.

The Kiwanian of the Month is chosen on the basis of merits accumulated throughout the month. Kiwanians chosen this year include Kenneth Baker, January; Frankie Allen, February; and Lee Whitten, March.

New Jaycee officers were elected last Thursday night for the coming year. Named were Don Gatlin, president; Don Dennis, first vice president; J.D. Spencer, external vice president; Fidel Madrid, secretary; James Anthony, treasurer and Les Fithen, Paul Galyon and Gary Elam as directors.

The Friona Jaycees said they would like to express their appreciation to everyone in the Friona area who attended the circus they sponsored last week. According to the final tally of funds received, the Jaycees realized almost \$400 from the sale of circus tickets, and attributed the amount to "a tremendous pre-sale on tickets."

Stevens To State Office

Glen Stevens, Albert Cupell, Paul Galyon and Les Fithen will leave late this week for the Jaycee State Convention in Austin, during which time Stevens will be installed as State Vice President for Region 104.

Communion Is The Christian Expression Of Love

Read I Corinthians 11:23-29

This do...in remembrance of me. For as often as ye eat this bread, and drink the cup, ye proclaim the Lord's death till he come. (I Corinthians 11:25-26, ASV)

Maundy Thursday is significant in the life of the Christian as a part of Holy Week because of the tradition that tells us that this was the day on which our Lord instituted the service of Communion.

We sometimes call the Communion a sacrament, which comes from the word, sacramentum, meaning an oath of allegiance. Communion, therefore, should be a time we pledge anew our love and devotion to the Christ of the cross and the Christ of Communion. When we do this we are expressing our love for Him and pledging our love to one another.

Each time we come to the Communion experience we need to recall this original meaning in remembrance of Christ and for His glory and good of the church.

PRAYER--Lord, we pray that You will make Yourself known to us in the breaking of the bread and renew our lives by the power of the Holy Spirit working in us. Amen.

THOUGHT FOR THE DAY--Communion brings us together in remembrance of Christ and as a community of believers.

MARGARET DUGGINS

Second Grade Teacher Selected For Honors

Mrs. Margaret Duggins, a second grade teacher, has been selected for Teacher of the Week. She is a native of Griggs, Oklahoma and attended Panhandle A&M at Goodwell, Oklahoma, Oklahoma University and West Texas State University.

She holds a bachelor of arts degree in business and a master's degree in elementary education. She also is a speech minor.

Mrs. Duggins began teaching in the local school system in the 1955-56 school year and taught five years. Then at the beginning of the 1965-66 school year she returned and has been a regular classroom teacher since that time.

She and her husband, Baker, who is Friona High School's counselor, and two children, Phillip, 16, and Sharla, 11, live at 1304 West Seventh Street, and attend Friona United Methodist Church.

Mrs. Duggins enjoys sewing, reading and playing the piano.

Annette Reznik Named State FHA President

Annette Reznik, daughter of Mr. and Mrs. A.L. Reznik and a junior in Friona High School, was elected president of the Texas Association of Future Homemakers of America, at the state convention, which was held in San Antonio Convention Center last weekend.

Miss Reznik has been active in Future Homemakers of America since her freshman year in high school and has held several offices in the organization. She was recently elected president for the coming year, but has resigned since her election to the state president's office.

She and Mrs. Osborn plan to attend the National Future Homemakers of America convention, which will be held in Dallas in July.

Five members of the local chapter sang in the state choir, which participated in several programs during the convention. They were Pam Lindley, Susan Garner, Lisa Taylor, Dorothy Johnston and Vicky Pryor.

Others attending were Mrs. Ernest Osborn and Mrs. Dale Gober, chapter sponsors, Cathy Cunningham, who was high point girl for the year and the

Friona Woman's Club Has Fine Arts Program

"When love and skill work together, expect a masterpiece," was the quotation used to set the theme for the Wednesday afternoon Fine Arts program of Friona Woman's Club at Federated Club House.

The meeting was opened with repetition of the club collect in union with Mrs. R.W. Parr leading. Roll call was answered with "My hobby."

Tammi Shelton, who was a special guest, presented piano selections including "Table Aux Tour," "Enfants," and "Jean."

Mrs. Tommy Tatum, who was also a special guest, displayed an assortment of articles she had made and explained different methods of creating objects of art.

This was followed by an art display by Mrs. Ellis Tatum. She demonstrated miniatures and oils.

Then Mrs. Bessie Boatman showed a variety of handcrafts and outlined procedures for making each one.

Plans were made for next week's program, which will be a visit and presentation of program at King's Manor and Westgate Hospital in Hereford.

Mrs. E.S. White Sr., Mrs. W.O. Brown, Mrs. Ethel Bengner and Mrs. Della Daniel will be hostesses for this meeting.

WATER HEATER

In Town That You Can Install Anywhere

An electric water heater can be installed anywhere you need hot water... in the utility room... in the kitchen... in the bathroom. No flue or vent is required. Water pipes and an electrical outlet are all you need. Electric water heaters are insulated on all sides, so they're efficient. And, best of all, they give you all the hot water you need when you want it! That's why we say—we've got the only water heater you can install anywhere!
