"But more important than that, the nation is to face an even more crucial test. In my humble opinion America is entering the most important political decade in a hundred years. We are confronted with some shocking developments,

"There are three principal opposition candidates for President. One has been wholly captured by the Communist Party. A second is the nominee of a party which historically is anti-South. And the third, alas, has abandoned both Southern and American tradition to embrace the police state idea and Joe Stalin's 'all races law.'

### UN Could Help Build Unity

There probably were understones of domestic politics in South Africa's half-threat to resign from the United Nations. White South Africans generally seem to resent UN "interference" in their treatment of the country's Indian minority, which they hold to be an internal problem. Also the present South African government is strongly isolationist, and may be trying to underline its complete break with former Premier Smuts' attitude and policy.

Nevertheless , Delegate Louw's speech must have received some sympathetic attention. He said that the last two years' record did not give grounds for optimism toward the UN's future. He criticized the continual dissension and mutual distrust in the Security Council. He spoke of the UN's "uninspiring performances," and described what he feels is the world's attitude toward the organization with such words as disillusionment, frustration and exasperation.

Nor were Louw's the only critical words that the World Bankers Begin Capital General Assembly heard on the day that he spoke. A representative of Burma referred to the UN as the "disunited Party Season With Big Bang nations." A Turkish delegate said the last year's record was far from satisfactory. Daddy Ringtail, famed for his granted aid by the Atomic Energy ability to entertain with tales of

ning Wednesday. "Daddy Ringtail" is a daily short story written by Wesley Davis of Dallas. He has received thousands of letters about Daddy Ringtail and other members of the family, in-University of Texas, Austin, Dr. cluding Mother Ringtail, Sammy Jack Myers, biological accumulation and Bobby, from youngsters, telling him how much they enjoy his daily stories.

The Ringtails are a monkey family who live in a house in the top of a tree in a big forest. The stories also include the adventures of other such lovable characters as Mr. Hick-Hick, the giraffe with hiccups: Dr. Shoobug; Huffen Puffen, the friendly braggart wolf; Mugwump, the monkey boy who gets into lots and lots of trouble,

While some of the characters are villains, none is essentially bad. The problems which Daddy Ringtail, his family and friends face in their daily adventures are realistic, and the solutions are intended to be helpful.

The stories, despite their apparent realism, are deep in fantasy which Davis weaves into them in a manner which warms the heart and inspires the mind of young and old alike.

Davis says, "These Daddy Ringtail stories originally were inspired by my own personal need for clean entertainment for my sons, Sammy and Bobby, who have the same names as the two Ringtail children." Most of the other characters in the stories are inspired by friends and neighbors of the Davis

"Daddy Ringtail" will appear daily on the comic page of The Reporter-Telegram.

"Really," she squinted in Hilde-garde fashion, "I've always been afraid to play Los Angeles. That's why I've never been out here be-fore. Los Angeles is full of movie stars, and movie stars are cynical and cold-hearted—and I was wor-ried that they wouldn't like me." But Hildegarde (Exclamation Point) doesn't have to worry any more. They like her in Los Angeles. They're squeezing people into the Grove with shoehorns every night and even the monkeys in the trees are giving her a hand.

Hildegarde squinted again and gave her smile and said: "Oh, those lovely, lovely, lovely people who imitate me. I adore all of them."
