Atlantic Will Build New Pipe Line

Construction Of 382-Mile Carrier To Start In 1949

The Atlantic Refining Company will start construction of a new \$10,000,000 crude oil pipe line from the Permian Basin to some point in the vicinity of Corpus Christi early in 1949.

The line will be a 10-inch trunk carrier and will be 382 miles long. Present plans call for it to start at the Atlantic's pump station and tank farm at Crane, in East-Central Crane County.

Announcement of the new line was made at the Atlantic headquarters in Dallas by John H. Wood, vice president of The Atlantic Pipe Line Company.

It is understood the new carrier will move only sweet crude. Atlantic has a large production of that type petroleum in the Block 31 field in Crane County, from the Devonian, the Simpson and the Ellenburger. Buys Sweet Crude

The company also buys considerable sweet crude, and it is estimated that there will be enough sweet oil available to give the new carrier a good load by the time it is completed about the middle of next year.

The new line could be set up to have a capacity of up to 60,000 barrels of oil per day, by the installation of enough pump stations to handle that throughput.

The line will be connected to The Atlantic Pipe Line Company's central tank terminal at Midland by an eight-inch line installed about a year ago.

This line now brings Block 31 crude to Midland, and it is moved out of here through the Atlantic's existing 10-inch line to Atros, near Fort Arthur, in batches.

Atlantic now is shipping approximately 22,000 barrels of crude oil per day to the east, and to Gulf Coast points by railroad tank cars from its loading rack in Midland. That amount of oil fills about 190 tank cars each day.

"When the new line is in use it is probable that a large part of the rail movement of oil out of this area will be suspended."

65 Injured In Santa Fe Train Wreck

GARDEN CITY, KAN.—(AP)—At least 65 persons were injured Thursday morning when the Santa Fe's east-bound California Limited was derailed three miles east of Mansfield Junction.

No deaths were reported. Ten of the twelve car train left the rails.

The baggage car was split open like a ripe melon and mail sacks were thrown over a nearby field. Ambulances sped injured from the wreck to St. Catherine's Hospital here. About 15 were reported seriously injured.

Engineer W. R. Henry, Pueblo, who was not injured, said he felt a bump and then the emergency went on and the diesel power off. The big diesel ripped up several hundred yards of rails but did not leave the road bed.

Brakeman Earl Century of La Junta reported finding a broken rail which is believed to have caused the wreck.

Conductor Ed Marshall said about 130 passengers were aboard.

PORTLAND, ORE., WOMAN HEADS LEGION AUXILIARY
MIAMI, FLA.—(AP)—Mrs. Hubert A. Goodie of Portland, Ore., was named national president of the American Legion Auxiliary Thursday.

Her only opponent, Mrs. Archie W. Miller of New Cumberland, Pa., withdrew as a candidate.

WASHINGTON—(AP)—The Supreme Court Thursday refused to order Illinois to give Henry Wallace's Progressive Party a place on the November 2 election ballot.

MANAGUA, NICARAGUA.—(AP)—A strong earthquake was felt here late Wednesday night. It caused countryside alarm, but there had been no reports of serious damage or casualties up to noon Thursday.

Honest Joe

(NEA Telephone)

Joseph P. Earley, Cleveland, Ohio, holds some of 34 envelopes sent him by the government, containing allotment checks for \$50 each. Joe had a \$50 allotment sent to his wife when he was in the service, but after his discharge in 1945 the checks kept coming to him at his home. He finally opened one of the envelopes and, finding a return address, has mailed them back to Washington.

38 Die In Plane Disaster

PRESTWICK, SCOTLAND.—(AP)—A flaming Royal Dutch Airlines (KLM) Constellation crashed in a cow pasture near here Thursday, killing 38 of the 40 persons aboard. Nine of the dead were Americans. None of the victims was from the Southwest.

The two survivors were Dutch. One American died of her injuries several hours after the crash.

The huge four-engine plane, enroute from Amsterdam, burst into flames after it struck a high-tension wire while groping for fog-shrouded Prestwick Airport. It crashed near Tarbolton, a few miles outside of Prestwick.

The pilot radioed the control tower at the field: "I have hit something. I am going on fire. Attempting to climb x i x."

Burned Beyond Recognition
Nothing more was heard from the plane.

Identification of the victims, some burned beyond recognition, had not been completed by mid-morning. Only six persons got out of the flaming wreck alive and four of them died a few hours later of burns and other injuries. The survivors were reported seriously injured.

Two of the 40 persons aboard apparently jumped out seconds before the plane plunged into the pasture. One body was found a mile from the plane.

French Coal Mines Fired, Flooded As Strikes Grow Worse

PARIS.—(AP)—Ten French coal mines have been flooded and one set afire by the neglect of strikers, Interior Ministry charged Thursday.

There were reports of new clashes between police and pickets as the police used tear gas in clearing the way to pitsheads. Violence was said to have flared up again at the Combes mine near St. Etienne and at La Grandcombe in South Central France. More troops rushed to trouble spots in that section.

The strike began October 4. Violence there was when Communist union leaders ordered maintenance crews to abandon mine pumps and ventilators.

The flooded mines are in the Central and South Central France. In the North, where two-thirds of the country's coal is found, the mines are dry. But there the neglect of mine security services has created the danger of coal-damp explosions.

Soldiers Dispatched
Sixty to 80 truckloads of soldiers have been dispatched to the St. Etienne sector, where 50 persons were injured Wednesday in a clash between strikers, troops and police.

Strikers dug in behind barbed wire and put them to flight after a fight.

Near Namwon the insurgent force split. Its strength was estimated at 4,000 after the original rioters were arrested and some civilians—some of the rebels, carrying red flags, reportedly took to the hills near Namwon and another segment headed toward Kwangju, capital of South Cholla Province.

Prime Minister Lee Sun Suk said 400 soldiers and policemen had been killed and that several women were raped by the insurgents.

Jews Occupy Beersheba, Arab Race's Mother City

TEL AVIV, ISRAEL.—(AP)—Beersheba, mother city of the Arab race, was occupied Thursday by Israeli forces after a bitter battle, a Jewish Army spokesman announced.

The battle raged even as the Jewish Cabinet notified the United Nations its troops would quit the fighting in the Negev Desert area of Southern Palestine 19 hours after it was assumed by the United Nations the Egyptians also would cease fire.

The fighting will continue meanwhile, a spokesman said. He indicated Gaza, capital of the Palestine government proclaimed by the Arabs, was among the goals of the Israeli Southern offensive.

Beersheba, in South Palestine, was the southernmost extremity of the Holy Land of Bible days. Abraham and Isaac, as recorded in Genesis, Abraham called the father of the Semitic race.

Beersheba was one of the first cities occupied by the Egyptians in their invasion of the Holy Land, and had been reported by the Cairo press at the time as "captured."

Ready For Battle

(NEA Telephone)
Hugh D. Scott, left, and J. Howard McGrath, chairmen, respectively, of the GOP and Democratic National Committees, engage in a heated debate during the American Forum of the Air program in New York City. The subject: "Devey vs Truman."

Area Clinic For Crippled Children Held In Midland

Some 50 crippled youngsters from eight counties had registered before noon Thursday for a free diagnostic clinic being conducted at the Midland-Ector-Howard Clinic Health Unit.

The clinic, held under auspices of the State Health Department in co-operation with the three-county health unit, the Six-County Medical Association, and the Midland Children's Service League provides free examination and diagnosis of handicapped children by outstanding specialists.

Dr. Frank Hodges, orthopedic surgeon of Abilene, Dr. Louis Brock, orthopedic surgeon of El Paso, and Dr. Willard W. Schuessler, plastic surgeon of El Paso, are here for the one-day clinic.

Also here are Miss Alma Rollins, assistant director of public health nursing, Miss Imogene Smith, orthopedic nursing consultant, and B. E. Glimmer, of the Crippled Children's Division, all from State Health Department headquarters in Austin; and Seth Mumm of the vocational rehabilitation office in San Angelo.

Movies Shown
Children and parents registered in the City-County Auditorium, which became a huge waiting room. Movies were shown there, and the Midland Children's Service League provided a free lunch for the waiting patients and parents.

During the morning, children from Midland, Ector, Andrews, Ward, Winkler, Howard and Martin counties registered for the Clinic. Children who already had been under the program of the Crippled Children's Division of the State Health Department were given additional "check-ups," and others were examined to determine what treatment they should receive.

Investigator Sent To Austin To Check Senate Vote Returns

WASHINGTON.—(AP)—A Senate election investigator has been sent to Texas to check returns by which Rep. Lyndon Johnson defeated Coke Stevenson for the Democratic nomination for U. S. senator.

Stevenson asked formally Wednesday for a Senate committee investigation of Texas' runoff primary election. The investigator was ordered to Austin, the state capital, to make a preliminary investigation.

In his request, the former governor renewed charges he had made in federal courts that runoff election returns from three Texas counties—Duvall, Jim Wells and Zapata—were false.

Stevenson asked for the investigation in a letter to Senator Brooks (R-IL), chairman of the Rules Committee. He said the committee should act promptly because Texas law allows ballots to be destroyed 60 days after the runoff. That will be October 27.

Prober Dies Thursday
Brooks turned the letter over to Nelson B. Dorenhan, chief counsel of the Rules Subcommittee on Elections.

Dorenhan told a reporter he got in touch last Wednesday with an investigator in Oklahoma City and told him to go promptly to Austin.

He would not identify the investigator. He said the man should reach Austin Thursday and was supposed to report to Washington by telephone as soon as he finished a preliminary investigation.

Dorenhan said he will study the investigator's hurried report before deciding whether to go to Austin himself.

Coke's Attorney Wait

AUSTIN.—(AP)—Attorneys for Coke Stevenson Thursday awaited arrival of a Senate election investigator reported enroute here to check the runoff primary in which Lyndon B. Johnson won the Democratic senatorial nomination.

One of them, former Governor Dan Moody, said he had not heard from the investigator, nor had he been notified when he would arrive here.

Stevenson was at his ranch in Kimble County.

Actress-Novelist Dies Of Cancer

KINGSTON, N. Y.—(AP)—Elissa Landi, Italian-born actress and novelist, died of cancer Thursday at the age of 43.

Miss Landi, reportedly the granddaughter of Empress Elisabeth of Austria, died in Kingston Hospital. She was born in Venice, Italy, the daughter of an Austrian Count and Countess Zanardi-Landi.

Neutral Proposals In Berlin Stalemate Raise Peace Hopes

PARIS.—(AP)—The five big powers declared themselves Thursday in favor of settling their differences peacefully.

While the Security Council's six neutrals polished their new formula for settling the Berlin crisis, the "Big Five" announced support of a Mexican resolution appealing to them to settle their differences.

John Foster Dulles of the United States, in his first speech at this UN session, pledged "renewed efforts" to reach agreement with the other big powers.

Dulles agreed with the Mexican proposal that the great powers had a special responsibility to the world as a result of their strength and importance.

The Political Committee wound up debate on the Mexican proposal in a rare atmosphere of friendship and conciliation. Everybody agreed on the Mexican resolution and it was sent to a drafting subcommittee for preparation of a final text.

Informed sources agreed meanwhile that the neutral formula for solving the Berlin crisis had at least a slim chance of success.

An official American spokesman told a news conference the new compromise was "acceptable" and "satisfactory."

If added a warning, however, against too much optimism until the Russian attitude became known.

The plan was submitted to the Big Four powers Wednesday night (Continued on Page 11)

Cooler Weather Is Friday Forecast

By The Associated Press
Cooler air was forecast for the northwest end of Texas Thursday night and Friday following Thursday's showery weather.

The Weather Bureau said the cooler weather would not have the snap of last week's—"It'll just be cooler than all."

Light rain fell Wednesday afternoon and night in the area from the Panhandle south to San Angelo and running east and west from Salt Flat to Dallas.

The rest of the state was cloudy. Rainfall in the last 24 hours included 43 inch at San Angelo, 20 at Wichita Falls, 12 at Big Spring, 07 at Abilene and 04 at Lubbock.

Highest temperature in the state Wednesday was 83 at Presidio and Brownsville. The lowest maximum was 58 at Big Spring, where cloudy, showery weather cooled the air.

Lufkin was the coolest spot, early Thursday morning with a low of 43.

Food Price Declines Hold Unbroken In Second Week

By The Associated Press
The consumer is getting a break on food prices for the second consecutive week.

Hall Projects Pecos Test To 6,000 Feet

Kills A. Hall, of Abilene, has filed an application with the Railroad Commission of Texas requesting a permit to start operations at once on his No. 1 Esther Abell, as a 6,000-foot wildcat in North Pecos County.

Sterling Prospector Gets Sulphur Water

Ray A. Albaugh and Progress Petroleum Company No. 1 Mrs. Nellie Cannon Parramore, Northwest Sterling County prospector, 17 miles northwest of Sterling City, is to be plugged and abandoned as a dry hole on a total depth of 9,216 feet in the Ellenburger.

A drillstem test at 9,166-9,216 feet had a recovery of 2,760 feet of sulphur water, and no signs of oil or gas during the one hour and 15 minutes the tool was open.

There was a blow of air throughout the period. Open flowing bottom hole pressure was 1,000 pounds. Shut-in bottom hole pressure was 1,350 pounds.

This project topped the Ellenburger at 9,138 feet, on an elevation of 2,800 feet. The top section of the horizon showed a little gas, but no free oil.

The venture was located 690 feet from north and west lines of section 203, block 29, W&NW survey.

Midland Test Drilling Through Ellenburger

Gulf Oil Corporation No. 1-E Wilson Bryan, Central Midland County wildcat, 14 miles south of the city of Midland, and 660 feet from north and 1,980 feet from west lines of section 36, block 39, TP survey, T-3-S, had reached 13,595 feet in Ellenburger lime, and was drilling ahead.

Gulf Stakes Venture To Crane Ellenburger

Gulf Oil Corporation No. 1-E-HH Texas Consolidated (University) is a new Ellenburger prospector for the University - Waddell - Ellenburger field in Central Crane County.

It will be 11 miles northwest of the town of Crane, and 660 feet from west and 677 feet from south lines of the east half of section 3, block 31, University survey.

Drilling to about 10,900 feet, to test the Ellenburger will start by October 23. Rotary tools will be used.

Texaco Taking DST In Possible Silurian

The Texas Company No. 1 Scharbauer, West Midland County wildcat, one mile south of Midland Air Terminal, and 660 feet from south and west lines of section 80, block 40, TP survey, T-2-S, was bottomed at 12,560 feet in an unidentified soft lime, and was taking a drillstem test.

The project cut almost 70 feet of hole in the last 24 hours, which would indicate that the section had softened considerably.

The venture has been drilling through dry Devonian lime and chert. Some observers think there is a possibility that it has now entered the Silurian.

Seaboard Fails Again On DST At 1 Hinson

Seaboard Oil Company of Delaware No. 1 E. M. Hinson, Northeast Terry County wildcat, 10 miles northeast of Brownfield, and 660 feet from north and west lines of section 91, block 4-X, psl survey, was coring from 11,441 feet in an unidentified lime.

Operator tried a drillstem test at 11,436-441 feet. The packer failed and there was no test. A Schlumberger log was taken, and the coring was then started.

Informed observers reveal that the project has not yet reached the Ellenburger. Some interested operators expect it to find that formation at any time.

Possible Discovery Has More Oil Signs

Committees Work On Conference Plans For BPW District

In addition to the district director and the conference chairman, committee members in seven groups are making the Midland Business and Professional Women's Club's arrangements for the annual conference of District Eight which opens here Saturday.

Iva Noyes, Eighth District director; Nella Stovall, local conference chairman, and Colysta Christian, club president, are supervising arrangements.

Many On Committees
Committees from the Midland club include: Invitation, Flossie Vaughn and Lillie Rose Meisner; registration, Ernestine Hough, Jack Harrison and Glenyth Herring; finance, Bertie Boone, T. K. White and Caroline Keating.

Hospitality, Fannie Beas Taylor, Pauline Crow, Frances Carter and all Midland club officers; table decorations, Mac Fromhold and Sue Simms; publicity, Thelma Gardner and Martha Greene.

Fun and frolic, Cordelia Taylor, Ruth Baden, Audra Bel Churchill, Berry Cowden, Kittil Davenport, Ann Graham, Grace Wallace, Susie Noble, Gail Watson, Gustava Eastley, Hazel Lyles, Evelyn Melear, Lucille Pearce, Vera Story and Peggie Woodie.

Dinner Opens Program
Conference registration will start at 4 p. m. Saturday on the mezzanine of the Scharbauer Hotel. The program opens formally with a dinner at 7:30. Charley Ward of Houston, state president, will be the speaker, and Grace Brown of El Paso, state vice president, will respond to the welcome.

After informal breakfasts Sunday morning, one for club presidents and another for members, an hour will be spent in workshops for discussion of club committee work. At the luncheon which will close the convention, the program feature will be a panel discussion on international relations by a group from the Midland club, led by Hollye Friberg.

Two-Piece Style

By SUE BURNETT

A charming two piece for your busy schedule with lines that are smooth and flattering. The off center closing and flared pleum are fashion-right, the graceful skirt can be made in no time.

Pattern No. 8385 comes in sizes 12, 14, 16, 18, 20, 40 and 42. Size 14 jacket, 2 7/8 yards of 35-inch skirt, 2 3/4 yards.

For this pattern, send 25 cents in COINS, your name, address, size desired, and the PATTERN NUMBER to Sue Burnett, The Reporter-Telegram, 530 South Wells Street, Chicago 7, Ill.

It's ready for you now—the new Fall and Winter FASHION contains 80 pages of style, color, special features—plus a free doll pattern printed inside the book. Send 25 cents today.

Book of Texas Lore Is Gift To Library

A piece of Texiana recently added to the Midland County Library's collection is a book which is a gift of P. D. Moore. It is "A Chronological History of Singers of German Songs in Texas."

The author is Oscar Haas of New Braunfels. The book gives considerable detail about singers among the numerous Texas residents of German descent.

Mrs. John Spurgers is ill in a San Angelo hospital.

Little classified ads sell big and little things. Call 3000 for ad-taker.

PTA Membership Is Reported At Meeting

Membership in North Elementary Parent-Teacher Association totals 460, Mrs. E. D. Williams, membership chairman, announced at the meeting Tuesday afternoon. A membership contest among classrooms at the school was won by Mrs. Woodrow Wickman's fifth grade, which was rewarded by a trip to a movie.

Mrs. Stanley Erskine, president, was authorized to appoint the North Elementary delegates to the Texas Parent-Teacher Congress in El Paso November 17-19. Other members were urged to attend. A special bus is scheduled for the trip and information about it may be obtained from Mrs. O. L. Stalcup, chairman of the Midland P-T-A Council.

Mrs. Charles Shaw and Mrs. John McKinney were thanked for serving in the P-T-A booth at the recent Midland County Fair.

Mrs. Robert Payne, program chairman for Midland Girl Scouts, introduced leaders of North Elementary Brownie troops and announced that Girl Scout Week will begin October 31.

Miss Lila Robbins' first grade room and Mrs. Wickman's room won the attendance awards.

The program featured a talk by Mrs. L. O. Byerley, on the Texas Congress birthday. She said that the state organization passed its 39th anniversary on October 19 and reviewed briefly some of its accomplishments in helping children.

Mrs. Edmond Hilschook played a violin solo, "Melody" by Tschalkowski, with Mrs. Sam E. Geffen as accompanist. A film on polio was shown by Principal W. D. Ladd.

Jane Marie Johnson Elected Delegate

Beta Delta Chapter of Beta Sigma Phi elected Jane Marie Johnson as its delegate to a state convention, scheduled November 30 and 31 in Houston, at a meeting Tuesday night in the home of Elizabeth Knox. Mrs. J. L. Crittenden was named alternate.

Members planned their first party of this year for pledges, a Halloween costume party next Tuesday.

The program continued the chapter's study course on "Beauty" with the emphasis on personal beauty. Mrs. J. W. Thomas' subject was correct application of make-up, and Madeline Roberts of the Xi Theta Chapter spoke on hair styling. Both illustrated their talks.

Also present were Mrs. W. I. Pratt, Mrs. Marion Taylor, Norma Jean Sipe, Ruth Simmons, Mrs. Charles E. Reeder, Mrs. Wayne Moore, Lee Ida Pinkston, Margaret Mims, Joyce Melancon, Mrs. Travis M. Lary, Mrs. Gerald Keeler, Mrs. J. S. Hullum, Mrs. Noel D. Cason, Mrs. Leroy Butler, Reta Belghis, Ruth Baden and Mrs. Raymond Aytes.

Nominees for the international Beta Sigma Phi Valentine girl were selected from the chapter. They are Reta Belghis, Joyce Melancon, Mrs. Noel Cason, Mrs. J. L. Crittenden and Ruth Simmons.

SOCIETY

3—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 21, 1948

District Conference Will Start Friday Morning For Council Of Church Women

Women from churches of the Eleventh District, Texas Council of Church Women, will meet for their annual conference Friday in the First Methodist Church here, with registration starting at 9:30 a. m. and the program scheduled from 10:30 a. m. to 3:30 p. m.

The Midland Council of Church Women, of which Mrs. L. O. Byerley is president, will be the hostess group. A luncheon will be served at 10:30 a. m.

Women from churches of the Scharbauer Educational Building.

Theme of the conference is "We Give Ourselves in Service to Others." Reports will be made on the three departments of work of the Texas council, work among migrants, among lepers, and church world service.

Mrs. Byerley, a member of the state committee on church world service, will make that report and will stress observance of World Community Day, November 8. Posters calling attention to that day, made by John M. Cowden Junior High students in a contest sponsored by the Midland council, will be judged and awards made.

The Midland council will have its formal observance of the day at its regular November 28 meeting, with contributions of kits for displaced persons in Europe, but kits which are dry are prepared will be dedicated as a part of the conference program.

Mrs. F. O. Shuttles of Odessa, district president, will be in charge of business and will respond to the address of welcome by Mrs. L. A. Roby, vice president of the Midland council.

The Rev. R. Matthew Lynn, pastor of the First Presbyterian Church, will give the main address in the afternoon session. His subject is "Cooperative Effort." Ministers of other Midland churches are to assist on the program. Music will be provided by Mrs. Charles Reeder and Homer Meek, organists, Mrs. DeLo Douglas, Mrs. Van Camp, Ronald Thomas and Linda Davis.

The next meeting will be held November 2 with Mrs. Bradley, and officers for 1949 will be elected at that time.

Mrs. Leeper Reviews Book In Study Group

Mrs. Alan Leeper reviewed Eleanor Lothrop's book, "Turn Me a Bone," a humorous account of the life of an archeologist's wife, for the Contemporary Literature Group of the American Association of University Women Tuesday night.

The meeting was in the home of Mrs. James Marberry. Mrs. R. V. Hollingsworth and Mrs. R. F. Carroll presented the study of current literature, which is part of each group meeting.

Mrs. E. H. Hayes will be hostess at the next meeting on November 2 in her home at 1008 North Lorraine.

Others present were Mrs. Frank Paup, Mrs. Lee B. Park, Mrs. W. H. Thomas, Mrs. H. W. Puckett, Mrs. J. W. Carroll, Mrs. Hassen Woods, Mrs. C. L. Davenport, Mrs. H. Meehling, Mrs. Earl A. Johnson, Mrs. Rex Russell and Mrs. A. Craig Evans.

BOONE CLASS TO HOLD BENEFIT CAKE SALE
A cake sale is scheduled to start at 8 a. m. Saturday in the Furr Food Market as a benefit project of the Boone Bible Class of the First Methodist Church. Mrs. C. W. Matthews is sale chairman, with Mrs. R. L. McCormick and Mrs. Ray Godfrey as assistants.

The sale is one of a series of activities sponsored by the class to raise funds for its main project of the year, decorating the guest room in the new First Methodist parsonage.

MIDLAND HIGH BAND, DRILL SQUAD TO ABILENE
Charles F. Mathews, Midland High School principal, announced Thursday that the Midland High Band and Gold Jackets will attend the Midland-Abilene football game in Abilene Friday night. The group will leave at 2 p. m. in school buses.

Abilene Pastor Is Speaker At Banquet In Baptist Church

The Rev. Sterling Price, pastor of the University Baptist Church at Abilene, was the speaker at the annual leadership banquet in the First Baptist Church Tuesday night. Dinner was served to 220 persons in the church dining room. Leaders from the various departments of the church were introduced and spoke briefly of their work. The banquet was sponsored by the Sunday School, and guests were seated in groups by Sunday School departments.

Each group had decorated its own table, all in a Western theme, and many of the guests wore cowboy costumes. Entertainment included two songs by the Harmony Choir directed by the Rev. Raymond Hall. They sang "My Hero" and "Harvest Roundup Special," the latter with words written for the event by Mr. Hall.

SUSIE APPLETON—

Of the comedy skits, perhaps the most appreciated was "Everyone's a Millionaire in Midland, It Says Here on Page 53," which kids some recent too-enthusiastic magazine publicity the city has received. Elizabeth

How To Relieve Bronchitis
Cremulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Cremulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Fast-Paced Comedy And Music In Revue And Minstrel Entertain Large Crowd

Skits and songs keyed to current happenings in Midland, plus a timely general theme, rapid movement and some effective staging, made good entertainment of "Runnin' High," the minstrel-revue staged by the Kiwanis Club and the Community Theater for a crowd that filled the City-County Auditorium on opening night Wednesday.

The production will be repeated each night through Saturday at 8:30 p. m.

The first-night audience Wednesday found plenty of comedy for continued laughs and also applauded the music and dancing. Heartiest applause in the revue was for the rural comedy dance by Nadyne Griffin and Art Cole, and in the minstrel for Lee Flood's blackface rendition of "The Preacher and the Bear."

Stage lighting helped keep up the rapid pace of the show and added to some of the scenes, notably a group of songs by Mary and Jeff Williams. Especially effective stage settings were a Chinese background for the revue finale and a shadow-window effect for a brief style pas-muraille that accompanied Duke Jimeron's singing of "The Too, Too Look."

Satire On Magazine
Of the comedy skits, perhaps the most appreciated was "Everyone's a Millionaire in Midland, It Says Here on Page 53," which kids some recent too-enthusiastic magazine publicity the city has received. Elizabeth

Terminal PTA Hears Program And Plans Membership Drive

Fifty-two members of the Terminal Parent-Teacher Association, meeting in the school building Wednesday afternoon, heard a program presented by Girl Scouts and Brownies of Midland troops.

In addition to the girls, who gave a skit on Girl Scout work, members of the Midland Girl Scout Association spoke. Mrs. Stanley Bratton, organization chairman, discussed formation of new troops. Mrs. I. A. Searles, volunteer trainer, told of some benefit of Scouting. Mrs. C. E. Bissell, president, expressed the hope that troops can be organized soon for girls at Terminal.

Mrs. S. Webber, pianist, accompanied group singing which opened her program.

In the business meeting with Mrs. W. C. Daniels presiding, plans were made for a membership drive and it was voted to offer a prize to the schoolroom which recruits the most P-T-A members. The room attendance award for Wednesday's meeting went to Mrs. T. J. Wright's first grade.

A meeting of room mothers was announced for Thursday night in Mrs. Daniels' home.

The next meeting, on November 8, will begin at 7:30 p. m. so fathers as well as mothers may attend.

Junior Wednesday Club Meets With Mrs. A. Flaherty

Mrs. Alan Flaherty was hostess to the Junior Woman's Wednesday Club in her home Wednesday afternoon. The program featured a feature by Mrs. Fred Kotzka on the subject, "Cross Sections in Geology."

Members present were Mrs. W. P. Z. German, Jr., Mrs. Louis Thomas, Mrs. E. L. Stroughan, Jr., Mrs. J. W. Starr, Mrs. J. G. Ruffin, Jr., Mrs. Donald Oliver, Mrs. John McKinley, Mrs. Charles Edwards, Jr., Mrs. Irbly Dyer, Mrs. Oliver Haag and Mrs. Wright Cowden.

Kidneys Must Remove Excess Acids

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause aching backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness

under the eyes, headaches and dizziness. Frequent or scanty passages with smearing and burning sometimes shows there is something wrong with your kidneys. Kidneys may need help the same as bowel, so ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help get 15 miles of kidney tubes flush out poisonous wastes from your blood. Get Doan's Pills.

Thickening Political Fog

On the day when he virtually conceded the 1948 presidential election to someone else, Henry Wallace said to his campaign manager, C. B. Baldwin, "We've got to build a party, Beanie, we've got to build a party."

It is also an obvious bid for the labor vote, whose leaders have stayed away from Wallace as pointedly as the rest of the big-name New Dealers and millions of others who supported Franklin D. Roosevelt.

In choosing the candidates that it would support, the third party used the CIO yardstick for determining the liberality of congressional incumbents from their voting record.

So if voters were puzzled about what the third party stood for before, outside of a blanket apology for everything done by the Kremlin, they must be doubly puzzled now.

Rushing through your work at least gives you time to do it over again.

A lot of lies are told because the plain truth sounds like a poor excuse.

A good dance orchestra costs almost as much for the evening as the rouse, hairdos and linament.

Questions and Answers

- Q—Who coined the phrase "The victor belongs the spoils"? A—William Learned Marcy, an American statesman, in a speech to the Senate, used the phrase to defend a political appointment by President Van Buren.

So they say

- I'm supporting President Truman for election because he is a piano player. —James C. Petrille, president, American Federation of Musicians.

The Loves of Carmen

By SOPHIE KERR. Copyright, 1948, NEA Service, Inc. THE STORY: Don Jose, young officer in a fashionable Spanish regiment, falls victim to the charms of the beautiful Carmen. He kills his commanding officer in a sword-fight and is sentenced to death. Carmen saves him and is forced to flee to a mountain hide-out, where he joins the band of gypsies who are on an expedition. Carmen is to pick up a victim in town and lure him to a deserted house, where she and Carmen change her mind, decide to have a ring of her own. She meets and flirts with Escamillo, the matador, but she tells him to be robbed. When she returns to Don Jose, she tells her it is driving him mad to know she is married to another man. "I wouldn't be married to another man if you had used your head yesterday," she replies.

Missing Galveston Teacher Is Located

SAN ANTONIO—(P)—Jane Stevens, 31-year-old Galveston teacher, who became the object of a nationwide search when she disappeared more than a week ago, was located here Wednesday.

From where I sit... by Joe Marsh

I'm Glad We're "Different!" There's a lot of difference of opinion in our county on the best kind of pasture. Some say alfalfa mixed with brome grass—others say mixed with oats or barley. But all agree that a mixture's better than a single crop.

U. S. Commandant Accuses Russians Of Blocking Elections

BERLIN—(AP)—Col. Frank L. Howley, U. S. commandant of Berlin, accused his Russian counterpart Thursday of blocking citywide elections to "save the Communists from overwhelming defeat and condemnation."
Prospects for an all-city Berlin election scheduled for December 5, faded with an announcement by the Soviet commandant of conditions which must be met before he will agree to citywide voting.

The Soviet commandant, Maj. Gen. Alexander Kotikov, laid down the conditions in a letter to Berlin's acting mayor, who had asked approval of election procedures similar to that already extended by the western powers.
"In the light of what he and the German Communists already have said, this is just his way of saying 'No,'" Howley commented.

"Kotikov has always opposed elections until, as he once said in the Allied Kommandatura 'I'm sure the reactionaries won't win.' However, we got elections for Berlin in October, 1946, when the Western Powers took the issue all the way up to the Allied Control Council for Germany and there—over Kotikov's head—got the Russians to agree. The result was that the people of Berlin rejected the Communists. If elections were held today the Communists would be lucky to get three or four per cent of the vote."

"The communists don't dare submit to an election and take the overwhelming condemnation the people of Berlin would give them. They would prefer rather to hire a few people to go down to city hall and riot and beat up elected representatives of the people."
Broad and demanding conditions were broad and demanding. Acting Mayor Ferdinand Friedensburg asserted:
"In my opinion elections can be held in the three Western sectors with the possibility Soviet sector residents will be invited to come over and cast their ballots."

Kotikov's demands indicated he not only wanted the withdrawal of Western-sponsored currency from Berlin, but that he wanted non-Communist leaders erased from the ballot. His reply also indicated he wanted a purge of the anti-Communist press and anti-Communist labor unions.
The military governors of the three Western sectors already have approved their plans for the city elections. The Russians forced a postponement from the original date by banning the printing of election announcements in the various districts of the Soviet sector. Later the Berlin City Council rescinded the voting for December 5.

Legionnaires Turn To Election Of New National Commander

MIAMI, FLA.—(AP)—The American Legion elects a new national commander Thursday and concludes its 30th annual national convention.
55-year-old Beaumont businessman and a 33-year-old Omaha attorney are the leading aspirants to succeed James F. O'Neil as commander.
S. Perry Brown of Beaumont, Texas, has the backing of the old guard and his forces claim enough support to elect him on the first ballot. He served in both world wars.
James F. Green of Omaha, Neb., is the choice of most World War II delegates and four other former candidates have swung their support to him.

A third candidate, 39-year-old George Craig of Brazil, Ind., is rated only an outside chance of election in Thursday afternoon's voting.
The legion took a strong stand against Communism in America in a resolution adopted Wednesday.
Warren Root, U. S. House member, urged Congress "to enact legislation toward outlawing the Communist Party in the United States in order to stamp out this Kremlin-controlled menace."
Continued loyalty checks of government employees and expulsion of Communists and their sympathizers were also advocated.
The convention heard Gov. Earl Warren of California urge adoption of universal military training.
"Until we do have universal military training there will be a weakness in the armor of America, regardless of the strength of the Armed Forces," the Republican vice presidential nominee declared.
Harold E. Stassen, a Republican spokesman and former Minnesota governor, told delegates: "You can never win peace by coddling Communism at home or abroad."

Dewey Refuses Isolationist Tag

NEW YORK—(AP)—Gov. Thomas E. Dewey says the United States has learned "once and for all that there can be no isolation for America."
This has been taught to the American people, the Republican presidential candidate said Wednesday night, by the "bitter sacrifice of two world wars and the anxieties of a peace that is not peace."
Governor Dewey discussed the subject of isolationism after hearing a Democratic Party leader, speaking for President Truman, charge that "a handful of isolationists in high places" of the Republican-controlled Congress "came dangerously close to sabotaging the European Recovery effort."
Senator J. Howard McGrath, Democratic national chairman, added that "the continuing threat of isolationism is the greatest single obstacle to be overcome."
Dewey and McGrath appeared as speakers at the New York Herald Tribune's seventeenth annual forum. Dewey spoke after McGrath had discussed the subject of "foreign policy in the campaign."

USDA Announced No Cotton Quotas

J. A. Boyd, secretary of the Midland County Agricultural Conservation Administration, said Thursday the Department of Agriculture has announced there will be no cotton marketing quotas for 1949.
"For marketing quotas to be in effect, the total supply of running bales of cotton must exceed the normal supply by seven per cent. At this time the normal supply would be 18,200,000 running bales and the total supply is only 18,161,000 running bales. Seven per cent of the normal would be 18,474,000 running bales, the department release stated."

COLLISION REPORTED
Police reported a collision Wednesday on South Main Street between car of Mrs. Velma Heath and William Pringle.

Anthropologists believe Heidelberg man lived at the second inter-glacial period, probably 250,000 years ago.

European Service Open To Eligibles

The Midland Army and Air Force recruiting station third floor of the courthouse, has received authority to enlist men with prior service in the Air Force, or with certain MOS numbers, to assignment in Europe.
To be eligible, a man must enlist for a period of three, four, five or six years and hold one of the following MOS numbers: 747, 694A, 750C, 760, 754, 2748, 2750, 060, 405, 945, 953, 905, 114 and 555.
No married men will be accepted unless he is eligible to enlist in one of the first three grades.

Cotton
NEW YORK—(AP)—Thursday noon cotton prices were ten to 20 cents a bale lower than the previous close. December \$1.46, March \$1.50 and May \$1.56.

Clay Defends Action In Commutation Of Ise Koch Sentence

WASHINGTON—(AP)—Gen. Lucius Clay said Thursday he cut the life sentence of Ise Koch to four years imprisonment because "the trial record did not warrant a life sentence. He said the cut was not an act of clemency or generosity."
"My judgment may be wrong but it is in accordance with my conscience," Clay said.
Clay, American commandant in Germany, dismissed the case at a news conference.

He said his examination of the trial record and reports from his lawyers showed the charges against the widow of a former Nazi concentration camp commander were based on "hearsay and not on actual evidence."
Ise Koch was reputed to have

Air Force Spreads Wings Into Africa

WASHINGTON—(AP)—The United States' global Air Force, already operating in Europe and the Far East, is adding another continent to its training ground—Africa.

B-29 Superfortresses taking off from American-used bases in England and Germany now are winging down to Accra, a British colony on the Gold Coast of Africa.
The new training operation began about a week ago. Its aim is to familiarize present-day air crews with conditions in a part of the world proved by World War II to be vital to the United States.

had lamp shades and other novelties made from the tattooed skin of slain inmates of Buchenwald Camp. She was tried as a war criminal. While she was in jail, awaiting trial, she bore a child whose father has never been established.

Shreveport Gas Well Holds Fire Hazards

SHREVEPORT, LA.—(AP)—A danger of fire still remains in Shreveport, where workmen are trying to cap a blown natural gas well.

Workers momentarily expect to get a new valve in place atop the well, but natural gas from the well already has filled an area of about four square blocks. Firemen remain on the alert.
The well, which at one time produced 500 barrels of oil a day, had played out and operators were pulling casing when the structure erupted Monday with a mixture of oil gas and saltwater spray.

THORSEN RITES SET
HOUSTON—(AP)—Funeral services for Ray T. Thorsen, 42, assistant chief clerk for Humble Oil and Refining Company, will be held here Friday. Thorsen died late Tuesday.

FBI Agents Arrest Air Terminal Widow

Mrs. Emma Louise Wilson, widow of mother of four small children, was arrested at her residence at Midland Air Terminal Wednesday afternoon by Midland FBI agents on charges of embezzling \$2,181.87 from the Trinity State Bank of Fort Worth.

Mrs. Wilson was charged with taking the money between August 12, 1947 and March 4, 1948, while she was a central teller at the bank. She was arraigned before Justice of the Peace B. C. Girdley, who set her bond at \$500. However, it was brought out in the arraignment proceedings that she had made arrangements for full restitution of the funds and she was released on her personal recognizance to care for the children, Girdley said.

The wolverine is the largest and fiercest of the weasel tribe. Adult males weigh about 30 pounds.

Kermit-Seminole Clash To Feature Homecoming Event

KERMIT — The football spotlight of District 5-A will be turned on Kermit Saturday night when Kermit and Seminole, both undefeated in district play, clash on Walton Field. The game will be of double interest to local fans, since it is the homecoming game for ex-students of Kermit High School, and Kermit is a football crazy town after the Yellow Jackets' surprising but decisive 20-0 win last week over a strong Andrews eleven.

Seminole, defending district champion of last year, holds a few more odds in its favor. The Indians have gone through the season without a lost game. The Yellow Jackets, under their first year of coaching by Darrell Mayer, started a sluggish season but turned on the fireworks against Andrews. The Jackets only lost a non-conference game with El Paso's Austin High 20-0. Kermit's conference record, to date, reads: 6-8 tie in the opener with Denver City, 6-0 against Fort Stockton, 13-8 against Pecos and the 20-0 Andrews game.

Regardless of Saturday night's winner, both Kermit and Seminole still have to face a special section of the grandstand, according to Supt. C. E. Thompson, and former students, with their wives, husbands and friends, will attend an informal dance in the Legion Hall after the ball game.

Down SPORSTLANE

—With Tanner Laine

It has been wisely said of football: "They still pay off for touchdowns." In these days of so many vital statistics it often would appear the "winner" took a beating. But there is not a coach in the business who wouldn't trade you all the yardage in the world for touchdowns just enough to win.

You have seen games when one team pushed another all over the greenward but the team being pushed was able to win by the simple process of making more points. A lot of ball clubs function smoothly in the middle and rank up the first downs between the 30-yard lines. But let them get into score-threatening territory and they lose. Such clubs are the also rans.

Many football teams claim they out-played such-and-so opponents because they out-gained them in first downs and yardage, out-kicked them, out-passed them. This may be all well and good but when one team makes one more point than another—who wins? When they put games down in the records they do not include who almost won.

The fundamental, then, of a winning football team is to outscore the other team. To be satisfied with a number of yardage and a string of first downs when the other team scores the points—is dangerous complacency.

You don't lose a thing when you win a football game. TCU has been outgained in total offense in four of its five games this season but the Horned Frogs have won four of those five. In the Kansas tilt, the Frogs gained 216 yards while Kansas racked up 223, TCU won 14-13; in the Oklahoma A&M game, the Frogs gained 289 yards, the Aggies amassed 308 yards, TCU won 21-14; in the Texas A&M game, the Frogs got 198 yards, Texas A&M got 258, but TCU won 27-14.

It looks as if Midland got a future football player and a future squad leader the same day, making the news mediums very happy—newspaper and radio. Babies, a son to the C. S. Jacksons, a daughter to the David Coles, both were born Wednesday. Jackson handed out cigars at The Reporter-Telegram. Cole distributed them at KCRS.

Here are some things baseball men say will happen in the future: Marty Marion, peerless shortstop, will get a front office job when his playing days are over, says Bob Hannagan, St. Louis Cardinal president. Marion is great with youngsters.

Bill Nicholson's shift from the Chicago Cubs will help the Philadelphia Phillies, says Jeff Heath. Nick will be nearer his Chestertown, Md., home and figures to hit better.

Larry Doby, Cleveland center fielder, will be one of the best American League outfielders. Here can hit that long ball, run and has a great arm.

The Boston Braves will be the team to beat in the National League next year but the Brooklyn Dodgers may be joint choice to win the flag. When Barney Shotton steps down as Brooklyn manager, Clay Hooper of Montreal is his logical successor. Bucky Harris, deposed Yankee manager, may wind up in Detroit in some capacity.

The Boston Red Sox will have the best rookies in Spring training. Among them are first baseman Walter Droppo and outfielder George Wilson of Birmingham and outfielder Jim Piersall, 18, of Waterbury, Conn., and pitcher Willard Nixon of Lindsde, Ga., who played for Scranton in the Eastern League. Bob Feller is in for a salary slash. He has yet to win the "big game." In 1940 when he won 27 games he lost an important one 2-0 to Floyd Giebel of the Tigers, he missed out against Hal Newhouse on the final day this year and dropped both his World Series starts. He's baseball's "hard luck" pitcher.

ROUNDUP UP THE STRAYS . . . Four former District 3-AA all-conference performers are doing well with Southwest Conference frosh teams . . . Jim Dobbyn of Abilene at Texas A&M . . . Gordon Headlee of Odessa and Ike Robb of Big Spring at SMU . . . And Brute Timmons of Sweetwater at Rice . . . Wup, make that five, Santeo Townsend at Texas. The major leagues draft meeting is set November 10 . . . The last place team of the National League gets first

draw this year and then the draws are alternated between leagues in the reverse order of the final standings . . . The American League last-place team got first draw last year . . . In 21 games played between Texas A&M and Arkansas, the Aggies have conquered 16 times, the Hogs nine times, two were ties. The first two passes Bobby Gott of the Aggies tried this season were good for touchdowns—one against Texas Tech, one against TCU . . . After Texas beat Arkansas last Saturday, Negro-worshipping kids from the Austin knot-hole gang ignored the winners and swarmed around Smackover Scott of Arkansas . . . Maybe it will work for Midland as it did for Big Spring: last week the Big Spring Steers took out two linesmen and made them back and won over Brownfield—a procedure which Midland will try Friday against Abilene . . . Big Spring, incidently, has a star quarterback, one Jimmy Jennings, who weighs 119 pounds . . . Wesley Edwards called us up to find out what was wagered against Pike's Peak that time Rice beat Colorado—it was the state capitol building . . . You could say Oklahoma had a breeze against Kansas State in more ways than one: the wind blew so strongly it once wafted a punt into the stands and another time it carried an official's dropped flag half the distance of the field . . . In 1946, Abilene was favored to slaughter Midland by 20 or 25 points . . . Result: Midland 26, Abilene 13, and Midland dropped one touchdown pass over the goal-line and lost two more by bad breaks . . . John Sevogin, 200-pound Midlander, decided to play football that night and tore up one whole side of Abilene's line . . . Oh history, please repeat thyself . . . Bob Cooke, formerly of the Sweetwater paper, now is acting sports editor of Abilene's Reporter-News . . . Roy Scudday, former sports ed at Odessa, is with a Houston paper and is sending best wishes to Sweetwater in its game with Odessa November 5 but you see, Roy went to Sweetwater (High) . . . Sonny Ross, Lamesa punter, has averaged 37 yards per kick this season . . . Big Spring is gunning openly for Midland because the Steers say they see in the Bulldogs their only chance to win another game this season, and a conference one at that . . . We will see what happens come November 12 . . . Experts say it is balance which is making Baylor click . . . Balance and no stars . . . The barefoot ball at North Carolina football games this year is Mike Rubish . . . The Tarheel end takes off his shoes each time he kicks off . . . Right now he is debating whether to take off his stockings, too . . . 30 for stray, "all the way" means good luck to a bronc rider as he starts his mount.

NTAC President To Be Inaugurated
ARLINGTON, TEXAS. — (AP) — Formal inauguration ceremonies for Dr. E. H. Hereford, recently named president of North Texas Agricultural College, will be held on the College Quadrangle at 11 a.m. Thursday, October 26. Two hundred invitations have been mailed to adjacent colleges, high schools, and industries, and professional institutions of the North Texas area. Chancellor Gibb Gilchrist will install Hereford as the school's first president following a brief address by Tyree Bell of Dallas, member of the Board of Directors of the A&M College System.

Hawaii Hopes To Catch Fruit Fly
HONOLULU. — (AP) — Government insect experts trying to control the destructive Molayan fruit fly hope to catch the pest napping. Entomologists now are searching in South Africa and Malaya for enemies of the fruit fly. They want to find insects that will attack the fly during the pupa, or "sleeping," stage of its development. During the demobilization in the Pacific in 1946 when traffic was moving freely in and out of Hawaiian ports, the Molayan fly found its way to the islands. Now it is doing thousands of dollars worth of damage to Hawaii's fruit crops.

At Bat With Casey
Casey Stengel, right, new manager of the New York Yankees, tells Jim Turner that he, too, is a Yankee now. Turner, who managed Portland in the Pacific Coast League, was named by Stengel to be one of his coaches. Scene is at Yankee Stadium.

Sport

—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 21, 1948

Crippled Bulldogs Hope To Clip Favored Eagles

The Abilene Eagles expect a "breather" Friday night in their Fair Park Stadium when they meet the Bulldogs of Midland in a District 3-AA battle.

The Bulldogs may surprise the Warbirds. Midland has worked to that purpose in hard drills this week. Wednesday the Purple timed its offensive but did not neglect to work some on the defense.

Rambling Wreck Of Georgia Tech Takes Top Defense Honors

NEW YORK. — (AP) — By holding Auburn to a net gain of 65 yards last Saturday, unbeaten Georgia Tech became the defensive stand-out among the nation's collegiate gridiron powers, the National Collegiate Athletic Bureau announced Thursday.

The Yellowjackets, who yielded 66 yards through the air but threw Auburn for a loss of four yards on the ground, moved up from third place in the Bureau's defensive rankings as North Carolina State dropped from first to fourth while losing to North Carolina.

Vanderbilt, Tulane, Washington, and Lee and Auburn have hurried a total of 213 plays against the Rambling Wreck, which has yielded a total of 169 yards on 155 running plays and 321 yards on 78 aerials. That's an average yield of 42.3 yards per game on the ground and an overall average of 12.5.

Still, defenses continued to crumble all across the country's collegiate gridirons with unprecedented regularity. Such teams as North Carolina, Ohio State and Minnesota, for instance, were able to vault into the top ten despite yields of 100, 112 and 140 yards to their respective foes.

Penn State, which finished the season with the best defensive record in the nation last year, tumbled completely out of the bureau's total defense listings when West Virginia amassed 285 yards in losing to the Nittany Lions, 157 of them by air.

Freshman Team At San Angelo

The "C" Bulldogs of Midland were scheduled to play the "C" Bobcats of San Angelo Thursday afternoon in San Angelo. Game time was booked at 2:30 p. m.

The "C" Bulldogs' eleven is composed of freshman footballers. This team of Midlanders recently lost its initial game to Odessa 23-6.

And Baby's Only Two

Jack is plenty dog, yet the 265-pound St. Bernard is only 2 years old. Ron Nichols, his master, says the canine monster does the work of a complete dog team by himself. Jack and Ron are shown at a Hudson Bay outpost near Waidhof, Ontario, Canada.

Nemi, Linesman Of Week, Has Yen To Rack Up Touchdowns

PULLMAN, WASH. — (AP) — The "Lineman of the Week" wants to be a fullback.

Laurie Nemi, 240-pound tackle for Washington State College, was thrilled Thursday to be named the country's top lineman for the week in an Associated Press football poll.

But it would be a greater thrill for him to make a touchdown. "That's been my ambition," he said. "In college and all through high school I wanted to play in the backfield."

You'd never think he was dissatisfied with his job if you had watched him Saturday rearing up out of the line like a freight elevator to bat down University of Washington backs.

You wouldn't expect discontent in a lad described by Coach Phil Sarboe as "the inspiration and sparkplug of our team."

But Nemi wants to make a touchdown. He tried out for the backfield once at Clarkston, Wash., High School. "But I was too big and clumsy," Nemi said.

West Texas Open Skeet Event Begins

Underway in Midland Thursday was the West Texas Open Skeet Shoot. Attracted were shooters from a wide area. It was the second big annual event sponsored by the Midland Gun Club. The shoot continues through Sunday at the MGC's skeet setup at Midland Airpark.

On schedule Thursday, the opening day, were the sub small gauge and small gauge events. These were 100-target events with trophies for the winners, runner-up, third and fourth place takers. Firing began at 9 a. m. Thursday.

Scheduled Friday are the 20 gauge (100 targets) and the beginning of the All Bore, 12 gauge (250 targets) events. Fifty targets of the 12 gauge event will be fired Friday if time permits, a quail shoot (not registered) will be held Friday.

The shoot offers \$1,500 in added money and many trophies. Sub-junior and junior events are offered and also a women's shoot.

Food and drinks are being served by the Garden Clubs of Midland at the clubhouse.

The event is registered with the National Skeet Association.

Durable Doak Plays Less But Does More For SMU This Year

By HAROLD V. RATLIFF
DALLAS—(AP)—About the only thing Doak Walker hasn't done with a football is blow it up. Some of these days they may call on him for that and what'll you bet he can't do it?
Right now he's busily engaged in setting a new scoring record in the Southwest Conference. The Southern Methodist all-American has made 53 points in four games and has six to go. The record is 125 set by Joel Hunt at Texas A & M in 1927. At Doak's present pace he will have more than 130 when the season ends.
If ever there was a more versatile football player, they don't remember him in the Southwest.
Walker is a runner (he's gained 191 yards on 42 carries) passer (he's completed eight out of 14 for 79 yards and two touchdowns, punt returner (he's taken four back for 106 yards), pass receiver (he has caught seven for 228 yards and three touchdowns), and he's the best at this on the Southern Methodist squad, punter (he leads the Southwest Conference with an average of 37.2 yards on nine punts).
Not Working Much
Can you think of anything else? Doak isn't working as much this season as last or he would have more impressive figures. He hasn't had to. The Mustangs have been far ahead more times than last season, so little man could rest up.
Last year he averaged 55 minutes per game, this year he's averaging only 48. The only time he's gone over 45 minutes was against Missouri. He played 48 in that one because SMU needed him all the time trying to keep from being defeated.
There's really nothing much new can be said about Walker, the nation's magazine pick-up boy, Lester Jordan, publicity man at SMU, was asked for an angle.
"It's worse than trying to find an angle to a straight line," quoth Jordan. "I can't think of any and if you do please let me know."
But regardless of whether there's anything new, it does seem that some kind of story ought to be written on a football player like that.

Midlander Heads Colt Club At H-SU

ABILENE — Barbara Brown, junior student from Midland, has been elected president of the Colt Club, Hardin-Simmons University.
Seventy-five daughters and sons of ex-students, including three sets of twins, attended the club meeting. One of the largest organizations on the campus, the Colt's purpose is to stimulate school spirit and help with all reunions, homecoming, or other activities in which ex-students participate.

Spare Tree In Middle Of Street

CHARLESTON, S. C.—(AP)—Woodman, spare that tree, Charlestonians are pleading. It was their cry 10 years ago when the county grand jury wanted to chop down a 300-year-old oak in the center of a principal avenue. The plea worked and the tree was spared.
Now the 1948 grand jury is at it again, arguing that the tree is potentially "a serious hazard to person and property."

GOOD TRAVELER

LEXINGTON, S. C.—(AP)—The Lexington Confederate Monument apparently is none the worse for wear despite two moves since 1866. In the most recent move the tall stone shaft was broken into 11 pieces and moved to the grounds of a new county court house.

Big-Time Rhubarb

Coach Bill McKechnie, left, and Lou Boudreau climbed all over Bill Stewart when the umpire called the Indians' shortstopping manager out at third base as he attempted to stretch a double into a triple in the first inning of the fourth World Series game.

sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 21, 1948-7

Port Arthur-Reagan Tilt Tops 54-Game Schoolboy Program

By HAROLD V. RATLIFF
Associated Press Sports Editor
Mighty Port Arthur meets undefeated, untied John Reagan of Houston in the standout game of a crowded Texas schoolboy football schedule this week.

It's another test between the best of Class AA and the City Conference, and it overshadows the most important array of conference games on a weekend this campaign.

Port Arthur, rated No. 1 from the start of the season, already has turned back the Brackenridge (San Antonio) powerhouse, and now moves against a top club of the Houston district in the City Conference, where there are three unbeaten teams.

Two more undefeated clubs also get together, both in District 14 of Class AA, where they will be battling for the top rung. They are Alice, unbeaten and untied, and San Benito, undefeated but tied by Weslaco of Class A.

There are 54 games on the weekend card with conference tilts in 17 of the 18 districts in the City Conference and Class AA.

Most important conference contests are the Alice-San Benito battle; Odessa and San Angelo in District 2, Brackenridge-Stephenville in District 7 and Gladewater-Textarkana in District 6 of Class AA and Brackenridge-Alamo Heights in District 4 of the City Conference.

At least two teams will fall from the state's unbeaten list. The Reagan-Port Arthur tilt will remove one undefeated, untied outfit—or both; the Alice-San Benito will take out either one undefeated, untied team or an undefeated, once-tied eleven.

The week's schedule by districts (conference games except where indicated otherwise):
City Conference:
1—Thursday: Crozier Tech (Dallas) vs Adamson (Dallas); Friday: North Dallas vs Sunset (Dallas); Saturday: Forest (Dallas) vs Woodrow Wilson (Dallas).

2—Thursday: Port Worth Tech vs North Side Port Worth; Friday: Arlington Heights (Port Worth) vs Poly (Port Worth).

3—Thursday: San Jacinto (Houston) vs Milby (Houston); Friday: Reagan (Houston) at Port Arthur, Austin (Houston) vs Jeff Davis (Houston); Saturday: Lamar (Houston) vs Sam Houston (Houston).

4—Thursday: Jefferson (San Antonio) vs Harlandale (San Antonio); Friday: Brackenridge (San Antonio) vs Alamo Heights (San Antonio); Saturday: Lanier San Antonio vs San Antonio Tech.

Class AA
1—Friday: Brownfield at Amarillo, Bartlesville, Okla., at Borger (non-conference), Plainview at Pampa.

2—Friday: Bonham at Childress (non-conference), Quanah at Hollis, Okla. (non-conference), Electra at Graham.

3—Friday: Midland at Abilene, Odessa at San Angelo, Sweetwater at Dalhart (non-conference).

4—Friday: Yaleta at Clovis, N. M., (non-conference), Carlsbad, N. M., at Bowie (El Paso) (non-conference); Saturday: Phoenix, Ariz., at El Paso High (non-conference).

5—Friday: Gainesville at Sherman, Paris at Denison.

6—Thursday: Jesuit (Dallas) at McKinney (non-conference); Friday: Sulphur Springs at Denton, Wichita Falls at Highland Park (Dallas) (non-conference).

7—Friday: Mineral Wells at Brownwood at Cisco at Waberford, Brackenridge at Stephenville.

8—Friday: Henderson at Tyler, Longview at Kilgore, Gladewater at Textarkana.

9—Friday: Cleburne at Hillsboro, Ennis at Waco, Greenville at Waxahachie (non-conference).

10—Friday: Nacogdoches at Jacksonsville, Lufkin at Conroe, Bryan at Palestine.

11—Friday: Saint Anthony's (Beaumont) vs South Park (Beaumont) (non-conference); Reagan (Houston) at Port Arthur (non-conference), Fort Neches at Orange.

12—Friday: Texas City at Baytown, Galena Park at Galveston, Freeport at Pasadena.

13—Friday: Laredo at Kerrville, Corpus Christi at Victoria, Temple at Austin (non-conference).

14—Friday: Brownsville at Robstown, Kingsville at Edinburg, Harlingen at McAllen, Alice at San Benito.

Little Professor and the Bride

Ground rules were necessary at Wellesley, Mass., when Dom DiMaggio, the Little Professor who plays so much center field for Boston Red Sox, took as his bride, the former Emily Alberta Frederick.

Hot Dog Vendor Sells Real Dog

PORTO ALEGRE, BRAZIL—(AP)—Alexander Lau, a carpenter, was arrested here under charge of selling "hot dogs" with real dog meat.

Lau told the police "I used to kill dogs to meet the shortage of meat and feed my family." He explained that he got the idea when he saw a man on the street advertising "hot dogs." He thought it would be a good business and started it with real dog meat.

The police released Lau as there is no law in Brazil to punish such cases.

South Texas Forms New Class D Loop

LAREDO — (AP) — A Class D South Texas Baseball League of six teams was formed here Wednesday night.
Franchises went to Laredo, Corpus Christi, Kerrville, Del Rio, Victoria and Brownsville.
Bill Lacy of Del Rio was named league president; Antrey Walker of Del Rio, Treasurer, and Tim Driver of Laredo, publicity director and statistician.

Sand Blaster At Work

Shown in action is a Helbert and Helbert sand blasting apparatus cleaning old paint from the front of a stucco building. This is a particularly efficient method of cleaning stucco, concrete, brick and steel structures of dirt or paint. Other featured services of Helbert and Helbert are concrete, air compressor and pavement breaking work. Helbert and Helbert is located at 1800 South Colorado and the telephone numbers are 2530 and 2066-J.

Mid-West Lumber Company Features Fine Materials

Mid-West Lumber Company at 1302 West North Front Street is a relatively new firm in Midland, but it's a fine, modern establishment with brand new stock.

Manager J. B. Wright reports the firm already has built up a sizeable quantity of high-quality building materials. While the stock is not yet so complete as he intends it will be in the near future, Midlanders are likely to find exactly what they need at this firm right now.

Mid-West Lumber Company features a general line of building materials—lumber, roofings of various kinds, wallboards, windows and doors.

Builders' hardware Builders' hardware, too, is sold here. Hinges, doorknobs, screens and other metal materials necessary to the modern residential or commercial structure are available at Mid-West.

Manager Wright advises that cement and sheetrock still are the most critical items on the builder's "want list." However, Mid-West Lumber Company strives unceasingly to keep these products in stock, and it's always a good idea to try here first when you need them.

The company does building con-

tracting. Whether you're planning a home or a commercial structure, you can get an estimate on a complete job, well done with best materials, at Mid-West Lumber Company in Midland.

Private Gain Behind Iron Curtain

PRAGUE (AP)—A government tobacco monopoly scheme to push the sale of Moravka cigarettes, a medium price brand, resulted in at least a temporary setback. It was announced that a number of packages would be distributed containing a gold strip. Any such package would entitle the buyer to a light-weight Czech motorbike.

In the first week one man came up with a prize but the newspapers were filled with letters from irate Czechoslovaks complaining that the cigarette dealers were carefully opening every package of the brand to search themselves for the gold strips.

Electric Firm Has Big Stock

Permian Electric Company is a Midland concern you'll enjoy visiting on any shopping tour involving electrical appliances or fixtures.

The store, owned jointly by G. D. Johnson and Jack Childress, was opened more than a year ago. It's located at 508-A South Main Street.

As indicated above, a general line of light fixtures and electrical appliances is stocked at the store. Among choice items now in stock are Sunbeam waffle makers, which recently have been exceedingly difficult to find on the market. Also, White Frost waffle makers, General Electric irons, Doremay electric mixers, Nutone and Edwards door chimes, electric irons and a long list of similar products are sold here.

Electric Heaters

Now that winter definitely warns it is not far away, you'll probably find there's a small room, a corner or hall in your home or office that needs a bit of extra heating. Electric heaters ideal for such purposes are at Permian Electric Company—they are economical, dependable and attractive. Ranch style light fixtures, both ceiling and wall types, are available at this store in a variety of charming sizes and designs.

Permian Electric Company does electrical contracting and is prepared to install any amount or type of wiring and fixtures in residential or commercial buildings.

MIDLANDER ENROLLED AT MONTICELLO COLLEGE

ALTON ILL.—Susan Ann Hemphill, daughter of Mr. and Mrs. H. A. Hemphill, 1207 West Indiana Street, Midland, Texas, is enrolled at Monticello College here.

It's A Sad, Sad Story With A Glad Ending

Do you ever go home of an evening, flop down in your favorite easy chair, and relax, just letting your mind dwell on whatever pleasant dream it happens to come across? Okay, suppose at this time you slump back and imagine yourself in the following situation:

You're driving that wonderful car of yours from home to the office some morning, in a hurry to get

down there and make some fast progress toward accumulating that vital first million, which everybody knows is the hardest. Just as you whip around the corner on the last lap of your daily journey, some character driving an unusually durable-looking vehicle of some kind or other simply plows into the side of your nice, new car.

Call Pringle

This naturally stirs you up. Moreover, it discourages you, because new cars are so hard to get nowadays. You notice the side of your car is all bashed in, the front fender's bent back toward the cigar lighter, and the radiator is making like a shower bath.

At first you're tempted to conclude there's no use going on living. Then, all at once, you remember: Pringle Body Shop. You call the shop to come get your car, and soon it's looking fully as new and shiny as it ever did. New radiator, new fender, new paint job—all is happiness and sunshine and pride of ownership.

Day or night, wrecker service is available at Pringle Body Shop—call No. 2419 in Midland for superlative repair work.

Former Kluxer Turns To Religion

Dr. Alton Milford Young, 61, of Jersey City, N. J., national chaplain of the Ku Klux Klan and for a time grand klaniff of the New Jersey klan, has announced his conversion, four months ago, to the Catholic Church. At right, Dr. Young, a former Baptist minister, is pictured addressing a joint meeting of the klan and German-American Bund at Andover, N. J., on Aug. 18, 1940.

Barkley Predicts Democratic Victory

WASHINGTON—(AP)—Back from a 20-day airborne campaign trip through 18 states, Senator Aiken W. Barkley Thursday predicted "an overwhelming victory for the Democratic Party."
The Democratic vice presidential nominee planned to leave Washington at noon for four speeches Thursday afternoon and night in New York City, including a major address at a CIO rally.
"Not only will we regain control of the Senate," Barkley told reporters upon his arrival, "but we are going to win the House of Representatives and reelect President Truman. And I am going to be the new vice president."

Proposed Amendments Discussed At Meet

The eight proposed amendments to the state Constitution which face voters in the November 2 general election were discussed at a meeting of the Men's Club of Trinity Episcopal Church at its meeting Wednesday night in the Parish House. James N. Allison conducted the discussion.
Judge C. C. Keith, president of the club, presided at the dinner-meeting. Announcements concerning Episcopal activities here were made by the Rev. R. J. Snell, rector of the church.

'Lover Boy' Can't Keep Own Wife

Ellsworth (Sonny) Wisecarver, 19, of Las Vegas, Nev., started making headlines at age 14 by eloping with older, married woman, but he can't seem to keep his bride of 18 months happy. Betty Zoe Wisecarver, pictured above with her husband in happier times, has gone home to her mother because Sonny can't settle down to a steady job. Four years ago Sonny started California juvenile authorities by eloping with a 21-year-old mother of two children. Two years later he ran away, married a 25-year-old mother of two.

THE DOCTOR SAYS
Lead Poisoning Is Not Menace To Workers That It Once Was

By EDWIN F. JORDAN, M. D.
Written for NEA Service

If lead is absorbed by the human body, the results are serious. Lead poisoning was formerly more common than it is now. Workers in lead industries, painters, and plumbers were frequently afflicted with poisoning from this metal.
Lead can be absorbed through the lungs, skin, or the digestive organs. Although the body takes lead into the system easily, it does not get rid of it so well.
One form of lead poisoning begins suddenly. In such cases a large amount of lead is absorbed rapidly, usually through the stomach. Pain in the abdomen, vomiting, and collapse are symptoms of this acute form. Severe colicky pains and rapidly developing anemia with a typical white waxy color of the skin is frequent. Examination of the blood in such cases shows a peculiar appearance to the red cells.
Paralysis Common
A blue line around the gums is also an important symptom in many cases of lead poisoning, but it is not always present. The most important symptoms of the slow or chronic poisoning are paralysis, usually of the arms, colicky pains in the bowels, and disturbances of the brain. Headache is common and patients are frequently either depressed or excited.
Lead poisoning used to be a rather common and serious problem. It

THE DOCTOR ANSWERS

By EDWIN F. JORDAN, M. D.
QUESTION: My husband has an infected scalp and has had several scalp treatments and home remedies tried to no avail. Can you recommend a skin specialist?
ANSWER: Try to get the name of one or more good skin specialists from your own local county medical society.

has gradually become less serious because of the measures which have been taken in industry to protect workers with lead, and because of the increased understanding these workers have of the dangers involved. Lead poisoning of either the acute or chronic varieties is most unpleasant, and consequently great care in prevention, including careful cleaning of the hands and fingernails particularly before eating, should be insisted upon for all those who are exposed to absorbable forms of lead.

WRIGHT'S ADDRESS WILL BE BROADCAST

HOUSTON — Gov. Fielding Wright of Mississippi, vice presidential candidate of the States Rights Party, will make his first Texas speech at 8 p.m. Thursday, speaking at a five-county rally at Columbus. The address will be broadcast over a statewide hookup of 28 stations, including KCRS, Midland.

Pioneer Has New Assistant Manager

The appointment of Nathan L. Brown as assistant manager of Pioneer Air Lines here was announced Thursday by George K. Harris, company operations manager.
Brown, who joined Pioneer as a transportation agent June 6, 1947, has been assigned to the San Angelo station the last year.
A native of Oakville, W. Va., he attended the University of Arkansas. During World War II, Brown was a pilot at the San Angelo Army Air Forces Bomber School.

RANCHER MISSES WITH GUN, HITS WITH LARIAT

LARAMIE, WYO. —(AP)—J. H. Starr, a rancher, missed a deer when he shot at it Wednesday so he lassoed it.
Starr missed the five-point buck from 75 yards. Discarding his gun, he got on his horse, uncoiled a lariat and roped the deer.

AMAZING RESULTS WITH MERTOXTONIC

Mrs. Ben Grossman of Houston writes as follows:
"For a long time I have had occasional bilious spells. My head would hurt and I would vomit my food. My last spell was very severe and I just thought I would die. My appetite was poor and I couldn't sleep at night. I was so troubled with my limbs stiffening just before I would have a spell of gas and flat. I would be dizzy and I would have a severe headache. My food seemed to just seem as if everything was wrong with me. To anyone suffering like I was, I recommend Mertoxtonic highly."
This splendid medicine, containing 25 ingredients, works fast to eliminate poisonous matter from your system. Helps to build rich, red blood. Relieves constipation within a few hours and helps to create a more rhythmic bowel action. Get Mertoxtonic today from any Texas druggist at the new REDUCED price.

Movie Moguls Pass The Word: Banish Those Crying Towels

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD—Ah, yes, there's good news in Hollywood tonight. An agreement has been reached in the upper circles of cinema magnates to put away the crying towels for Hollywood. Seems there has been so much popping off about panic in the motion picture industry that the word has spread to the public. People are beginning to feel that nothing much good can come out of an industry which is so uncertain of its own future and this keeps the lines away from the boxoffice.
So the word it out—smile, smile, smile.

John Wayne is suffering from a painful ear infection—the result of all those underwater scenes for "Wake of the Red Witch".... Paramount is talking to singer

Swiss Vote For UNESCO Membership

BERN —(AP)—The upper chamber of the Swiss Parliament decided at a recent session to apply for the admission of Switzerland to the United Nations Educational, Scientific and Cultural Organization.
A recommendation to this effect from the parliament foreign affairs commission was approved by 22 votes to one. Despite the "almost unanimous vote, several deputies expressed a fear that Swiss membership in UNESCO might eventually compromise Switzerland's traditional neutrality. Similar fears have hitherto excluded Swiss membership of the United Nations itself.

Social Situations

SITUATION: You have friends who are always dropping by without telephoning first to see if it is convenient, and you wish they would telephone first.
WRONG WAY: Do the same when you go to see them.
RIGHT WAY: Make a point of telephoning them before you call on them, and chances are they will in time see that you prefer it that way.

School Land Bids Asked December 7

AUSTIN—(AP)—The State School Land board will receive bids on some 125,000 acres of upland and submerged lands December 7, Bascom Giles, commissioner of the General Land Office and board chairman, said Thursday.
Offering will include surveyed tracts in 14 inland counties and submerged and river bed tracts in seven coastal counties. None of the submerged tracts are in the Gulf proper, Giles said.

HOUSING SHORTAGE CRAMPS JAP MINISTER

TOKYO —(AP)—Shuji Masutani, Japan's new construction minister, wants restrictions eased so more houses can be built.
Masutani himself lives in a rented room seven and a half feet square in a three-room temporary structure.

Clark Dennis about a film contract.

Betty Grable is the most avid reader on the Fox lot. In fact, every time you see her, she's behind a racing form. . . . Columbia's prexy, Harry Cohn, is sinking a fortune into the advertising campaign of "Loves of Carmen." He thinks it will be Rita Hayworth's biggest moneymaker.

All Tied Up
Eddie Bracken has a funny idea for a baseball picture he's trying to sell to Warner Brothers. It's about eight ball clubs which wind up the season in a tie for first place. They have a playoff for the pennant which also ends in a tie. (How could they ever finish the picture?)

Success in show business isn't always the result of a long struggle. Less than a year ago, Sandy Adler gave Kay Thompson her first job at his El Rancho Vegas Hotel in Las Vegas. Now he wants her back for the opening of his new Cal-Neva club in Reno, but if he is able to make the deal with the Kirkeby Hotels, which have Kay under contract, her fee will be five times the amount Adler first paid her.

Whenever football men gather and talk about great games and great players, Johnny Mack Brown's name always is mentioned. His exploits in the Rose Bowl when he played with Alabama will never be forgotten. But lately Johnny is suffering the pangs of mortification. His son, Lechlan, holds the lowly position of water boy on the Beverly Hills high school football team.

Greta Garbo came out of seclusion and went to the movies. The picture she went to see was "Ninotchka." One thing about Greta is that she can always be depended upon to see things her way.

One of those lah-de-dah glamor dolls was introduced to composer Richard Rodgers at a Hollywood party. The doll said:
"Oh, Mr. Rodgers, I just loved 'Oklahoma.' I especially liked 'Oh, How I Hate to Get Up in the Morning.'"

Betty Hutton is still talking about the highlight of her engagement at the London Palladium—an unannounced backstage visit of Princess Elizabeth and Margaret Rose. Both were enthusiastic in their praises of Betty, particularly Margaret Rose, who is an avid collector of American jazz records and is what Betty describes as "hep."

Extension Of Greek Military Aid Now Believed Necessary WASHINGTON-(AP)—Officials said Thursday the Greek Military Aid Program almost certainly will have to be extended another year. That would mean asking Congress for new funds to finance a second Greek Army offensive next Spring against the country's Communist-led guerrillas. State Department and military authorities are engaged in a survey of the whole Greek situation. Recent Washington and Athens reports have said variously that the American-supported effort to secure Greece against Communist expansion so far has been a "conspicuous success" and has not proven entirely satisfactory. One fact which persons of both viewpoints here appear to agree upon is that the task first outlined by President Truman to Congress early last year is not completed and more money, barring some unexpected break, will have to be asked of Congress at the next session. Continued reports from Athens and other sources are not yet ready, but some informants said a "wild guess" is that the Greeks may need about the same amount of help next year as they are getting this year. For the 12 months which began July 1 they are receiving between \$150,000,000 and \$175,000,000 out of the \$225,000,000 fund which Congress appropriated for military aid to both Greece and Turkey. The conflict in reports on the Greek situation began early this month when President Truman reported to Congress on the results of the aid program up to last June 30. While he said much hard fighting remained, Truman's letter dated October 4 said the program had proved a "conspicuous success" in meeting the military and economic crisis of the strategic Eastern Mediterranean country. About the same time press dispatches from Athens said there were more guerrillas operating in Greece than were believed to have been there when the Greek Army started its bid to retake the Grammos Mountain area last April.

Police on stairway entrance to a mine in Noeux-les-Mines, France, fight off strikers who are trying to seize the mine. Strikers succeeded, however, in capturing and stripping a police captain, whom they marched naked through the streets.

Proposed State Amendments Are Explained By Kerr Attorney William L. Kerr, in an address to Midland Republicans at their meeting Thursday noon in the Scharbauer Hotel, explained the eight proposed constitutional amendments which face voters in the November 2 General Election. Kerr discussed each of the proposals in detail and urged Midlanders to study them and to vote. He related the history of Texas' Constitution and asserted it had not been rewritten since 1876. Guy Breneman and Malcolm Breneman will be Rotary hosts for the week. James T. Smith, president, presided at the meeting and Bob Payne of the program committee introduced Kerr.

DDT Fails To Kill 1948 Crop Of Flies By ROBERT E. GEIGER WASHINGTON-(AP)—That super fly killer, DDT, is having trouble killing flies, flies apparently are building up a resistance to it. Dr. P. N. Annand, chief of the Bureau of Entomology and Plant Quarantine of the U. S. Department of Agriculture, says reports have come from several parts of the country that DDT isn't killing the 1948 crop of flies. This is what the fly experts have feared. Apparently the flies are giving a good demonstration of the old unbreakable law of the survival of the fittest. But the fly experts have several ace up their sleeves. Doctor Annand says this is the situation: Flies are killed by coming in contact with DDT, sprayed on surfaces. It works through their nervous system. Apparently a fly gets a "hot foot" after he alights in an area sprinkled with DDT. Some flies already have received a killing dose of the poison by the time their feet begin to tingle. Some other flies apparently can take more DDT and live to tell their grandchildren about it. After escaping they breed. And they pass on to their offspring this ability to take a dose of DDT that would be a knockout punch to another fly. Possibly their feet are more sensitive to DDT, too. So it turns out the weak flies, or ones with insensitive feet, are killed. Other flies, with sensitive feet, or of strong physique, survive to breed a super fly.

Stanolind Claims Oil Show In Gulf DALLAS-(AP)—Possibility of the first oil discovery offshore from Texas in the Gulf of Mexico, 14 miles east of Galveston and about the same distance from land was reported here Thursday. The well is Stanolind Oil and Gas Company's State No. 2, section 144. In 45 feet of water, it has a total depth of 1,663 feet, 2 1/2-inch casing set at 1,658 feet, 34-well cores from 1,556-1,605 feet carried sand with a good oil show, an oilman told the Dallas Times Herald.

Membership Continued From Page 1 Wednesday night to select the programs to be presented here this season. The selections are Vienna Boys Choir, on its first American tour in 10 years; Francine Falkon, contralto, formerly with the All-Girl Orchestra; Gold-Fidale, duo piano team, and David Erik, noted French violinist. Dates for the concerts will be announced later. Don Hopkins, a representative of the Civic Music Service of Chicago, who assisted in organizing the membership drive here, lauded the officers and campaign workers on exceeding their goal in a day and a half. He particularly commended Mrs. Beatty and Mrs. Kelley on their work. Hopkins said he has been with the organization six years and never before has he witnessed such remarkable success in such a short time. He also commended Midland and its citizens upon the manner in which they responded to the cooperative effort of bringing outstanding musical attractions to the city.

Plane To Attempt Oil & Gas Log- To Drop Provisions To Marooned Party SAN ANTONIO-(AP)—A second attempt was to be made Thursday to drop provisions from a plane to eight San Antonians who have been stranded since Sunday by high waters on a ranch southeast of Encinal. The initial attempt Wednesday by Frank Peille and Abe San Miguel of San Antonio failed due to low clouds and rain. Surrounded by mud and high water in the Arroyo Del Pato on the Santiago Benavides ranch 29 miles south of Encinal, are Ceyetano Lozano, his son, Humberto, 10; Jacobo Bice, Charles Wilburn, Manuel Torres, Benny Villarsal and Justo Sandoval of San Antonio and Arturo Sillar of Pearsall. The men were part of a group of 11 who went to the ranch Saturday to set up a hunting camp. A downburst Sunday sent the creek and its tributaries on the rise. The project has indicated on preliminary tests that it will make an oil well. A Lane Wells survey was then to be acidized, tested, and efforts to complete will be undertaken.

Women Gain In Finnish Politics HELSINKI-(AP)—Finland's women have acquired increased influence in the parliament and in politics in general since the war. In the general elections this Summer women won 24 out of 200 seats in the Finnish parliament and a woman, Mrs. Liisa Leivo-Larsson, was instituted as vice minister of social affairs in the new cabinet. In 1945, 17 seats were won by women and in 1938, 19 parliamentary seats were occupied by women.

Plane Crash- Continued From Page 1 The wreckage of the plane was smoldering hours after the crash. An eyewitness said one dead woman clutched the body of a child. Both were burned almost beyond recognition. Most of the dead were trapped in the wreckage. Others were thrown as far as 50 yards from the flaming remains of the plane. John Adams, a miner who was one of the first of the rescuers to reach the scene, said the flames and heat prevented rescuers from reaching the trapped passengers.

Co-Ed Cuts Rate On Grasshopper Eating MACON, GA.—(AP)—A psychology class at Mercer University was discussing things people would do under certain circumstances. Deah Richard Burt explained that a man might eat a grasshopper for \$5.00. Pretty co-ed Ann Miller stood up and said she'd eat a grasshopper for \$2. Two students dashed out and trapped a grasshopper on the campus. The other students raised \$7. Ann gulped down the grasshopper and said it tasted "kind of crisp." She kept \$2, gave \$5 to the Community Chest. The grasshopper didn't make Ann sick, but some of the other members of the class weren't feeling too good.

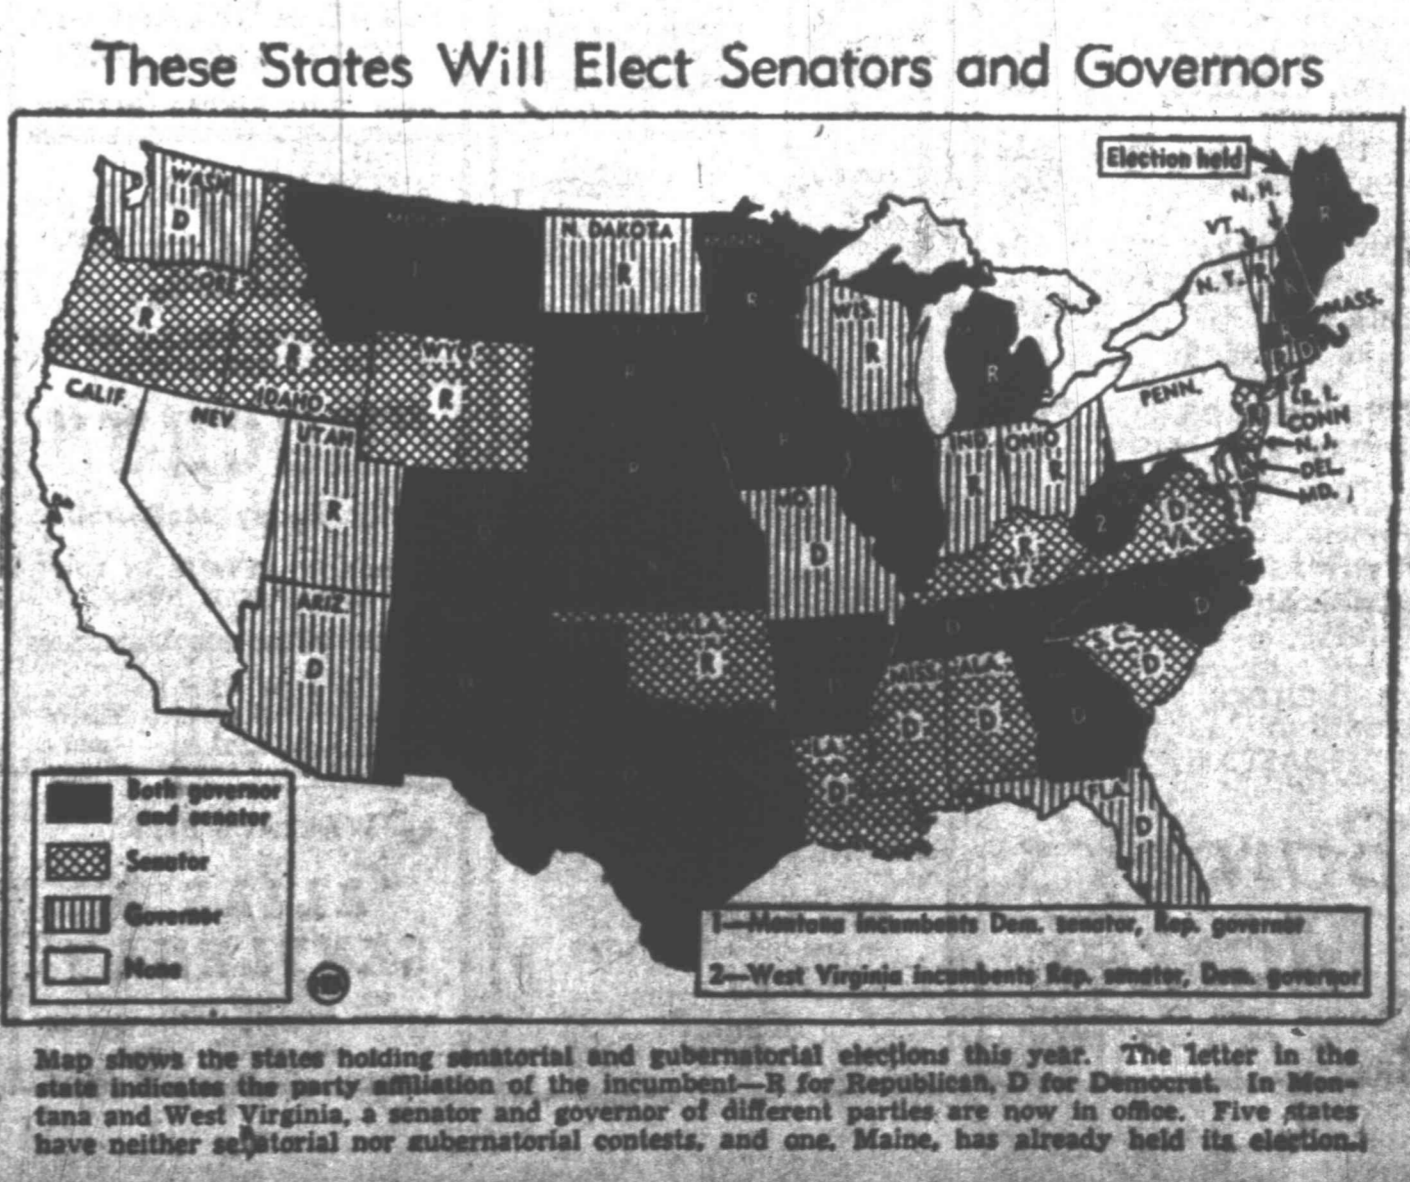

Poland Requires Political Teachers WARSAW-(AP)—Poland is building up a new corps of school teachers. A cardinal requirement is that they must be "politically active." That's the program laid down by Stanislaw Skrzyszewski, minister of education, and an important figure in the Communist Workers party of Poland. Skrzyszewski says he's out to "democratize" the educational system in Poland. Simultaneously, the Communist Workers party, as a whole, is trying to get as many teachers as possible into the organization.

Mechanical Trouble Delays Warren Trip FORT WORTH-(AP)—Mechanical troubles developing 100 miles out of Miami, Fla., forced Governor Earl Warren and his party of 25 to turn back after their regular 7:15 departure schedule Thursday morning. The party departed at 9:47 in another American Airlines flagship, due to arrive at 3:30 Thursday afternoon at Governor Warren still will make a speech here and radio time is being arranged.

Formed Citizen Here RALPH GOOLY OF SAN FRANCISCO, Calif., formerly of Midland, was a visitor here Thursday. SELMAN J. LONES UNDERGOES SURGERY Selman J. Lones Wednesday underwent an appendectomy in Western Clinic-Hospital here. His condition Thursday was termed by hospital attendants as "satisfactory."

Explosion Burns Two COLUMBUS, OHIO.—(AP)—Two men were burned Thursday in a spectacular fire and explosion at the Sun Oil Company bulk gasoline plant here.

These States Will Elect Senators and Governors

Map shows the states holding senatorial and gubernatorial elections this year. The letter in the circle indicates the party affiliation of the incumbent - R for Republican, D for Democrat. In Montana and West Virginia, a senator and governor of different parties are now in office. Five states have neither senatorial nor gubernatorial contests, and one, Maine, has already held its election.

Hal's Dreams Definitely Are Getting Better

By HAL BOYLE
NEW YORK (AP)—This morning I was sleeping peacefully, and all of a sudden I started dreaming. I dreamt I was swimming again in the sapphire seas of the South Pacific. A light breeze dimpled the waves and the sun shone warm and faint.

A dim shape moved up through the waters before me and broke the surface. It was a mermaid... a beautiful mermaid with tan cheeks and blue eyes. She had long wet golden hair, and there were crimson popples tangled in it.

"Hello, big boy," she said, laughing. "Have you got a pocket comb I can borrow?"

I reached for my comb and then felt embarrassed. For some reason you know how silly dreams are—I didn't have any pockets along.

"I must've left my comb on the beach," I mumbled.

"How annoying," said my lovely companion. "You show people sure are useless."

We swam along together for a while, and then she said:

"Did you ever kiss a mermaid?"

"No."

"Wouldn't you like to, big boy?" she asked, brushing against me softly. Her scales felt smooth as silk.

I thought it over as I switched from a sidestroke to an Australian crawl. Why not? Who would ever know the difference?

"Sure I would."

"Well," she said. "Let's play tag. You catch me, you can have a kiss."

Race Begins

She tossed her golden head and gave a flip of her shining tail. The race was on. The blue waters churned to white foam. I flailed the waves. I was gaining... gaining... gaining...

All at once the sky darkened and hid the sun. The gulls flew away with shrill calls of terror. A freezing wind sprang up. The sea grew icy cold.

The mermaid sank below the surface. I dived and swam after her. But I had no breath left and I was strangling... strangling...

Then I woke up. My face was wet and my arms were tangled in the bed clothing. Frances, my wife, was standing over me, holding a glass of water.

Pigeon Gets the Point

This pigeon at Cleveland Municipal Airport is a bit flustered by the pronged device which keeps him from roosting atop the fog landing light. That's what engineers of the Westinghouse Electric Corporation had in mind when they designed the gadget to keep birds from obscuring the face of the lamps and creating a hazard for incoming planes.

Pearly Bread

One of London's "pearly" brings his loaf of bread offering to the Costermongers Harvest Festival service at St. Mary Magdalene Church. The costermongers—fruit and vegetable hawkers—identify themselves with pearl buttons sewed on their clothes.

Farm Economists See Six More Years Of U. S. Prosperity

WASHINGTON (AP)—Good times for the next six years are foreseen by Agriculture Department economists.

Even if a moderate recession should come, they regard living standards as sure to remain far above the 1935-39 prewar level.

The economists have set forth their views in an unofficial report prepared for field workers and state agricultural extension workers in advising farmers on future crop operations.

This document—based on the assumption of a relatively stable peace—says full employment during some and perhaps all years between now and 1955 is a distinct possibility, notwithstanding the likelihood of additional postwar adjustments.

"If the adjustment is relatively mild, centering in prices with little interruption to production, the chances for an extended period of full employment are good," said the report.

High Spending Power

Under such conditions, it added, employment would be maintained close to 1948 levels and might even increase slightly in line with population increases.

The economists figure that under conditions of high employment, spending power would be as high as in 1948. But with a prospect of lower prices, this amount of money actually might buy 10 per cent more goods and services than this year and .6 per cent more than in the prewar period.

In the case of a recession—with 10 per cent fewer jobs and incomes down 25 per cent—total purchasing power would be down only about five per cent, they say. This is because prices might drop as much as 20 per cent.

However, the per capita buying power still would be about one-third higher than in 1935-39, when unemployment was of comparable size.

Dick Dunkel's COLLEGE FOOTBALL POWER INDEX

EXPLANATION—The Power Index provides a direct comparison of the relative strength of any two teams for this season to date. Then, a 50.0 team has been 10 scoring points stronger than a 40.0 team on their comparative records, in which scoring strength has been weighed against possession.

This does not necessarily mean that a 50.0 team should defeat a 40.0 team by exactly 10 points in the future. Teams rarely follow past performance that closely. The Dunkel system correlates records of all college teams and was started in 1929.

Nationalist Forces Expect To Recoccupy Chihnsien At Once

PEIPING (AP)—Pro-government reports said Thursday that Changchun, Manchurian capital, was in the hands of Communist troops but that Gen. Tu Li Ming's Nationalist forces expected to recoccupy Chihnsien momentarily.

Changchun, long useless to the government because of a Red siege, fell in fighting Monday through Wednesday, the dispatches said.

Capture of Changchun, the Peiping Times said, followed the surrender last Sunday of the 60th Army outside of the city. The Army had been ordered to fight its way southward to Mukden, where the new Manchurian commander, General Tu, makes his headquarters. The Communist radio earlier had broadcast the 60th Army rebelled.

The official Central News Agency said the vanguard of General Tu's forces, under heavy air protection, had entered Chihnsien's limits on Tuesday.

TOJO PEACEFUL

TOKYO (AP)—Japan's wartime Premier Hideki Tojo has become "most peaceful" through Buddhist teachings, his wife said Thursday after visiting him in prison for the first time in eight months.

About 13,000 companies in the United States produce oil.

Poland Is Drafting Youths 16 To 18

WARSAW (AP)—Poland is rapidly mobilizing her full reservoir of youthful manpower for military training and work on national reconstruction projects.

An order just issued calls for the conscription of all youths aged 16 to 18. These youths, with several hundred thousand already enrolled, will serve in the organization known as "In Service to Poland."

They are assigned to the building of highways, railway lines, bridges, communications system and housing.

All of them in addition receive a minimum of 16 hours of military training monthly. Instruction by regular militia and Polish army officers is based principally upon infantry warfare.

Enlistments are expected to top 1,500,000 by the end of January. The youth organization is to be gradually expanded to 5,000,000.

Girls from 16 to 21 are to be recruited in 1949.

Greek Army Claims Advances On Rebels

ATHENS (AP)—The Greek Army Thursday claimed capture of Mount Plati in the Vitsi triangle, extending recent gains north of the main Vitsi summit.

The communists said Greek forces took Plati after a stubborn battle with Communist-led guerrillas.

Rebel forces counterattacked at Koula, capture of which was announced Wednesday, but were driven off, a war bulletin said.

Carolina To Vote On Divorces, Pardons

COLUMBIA, S. C.—(AP)—Divorces and pardons will be before the people of South Carolina in the November 2 general election for the first time since the 1895 state constitution was adopted. That constitution flatly bans divorces, gives the state's governors unlimited pardoning and parole powers. Constitutional amendments up for a vote would permit divorces for desertion, physical cruelty, habitual drunkenness and adultery, and would strip governors of all pardoning powers but preserves and commutations in death sentences.

Basketmaking Gains Ground In Britain

LONDON (AP)—British basket weavers, whose trade on the banks of the Thames goes back before the birth of Christ, are regaining prosperity after a between-the-wars slump.

After World War I the 9,000 acres of willow beds dwindled to 2,000 acres. Floods of cheap imported baskets drove many basket makers out of business.

Aerial warfare during World War II brought them back in business. Thousands of willow baskets were used for "air drops" of supplies.

Now to conserve funds Britain is using its own baskets instead of importing them. The present labor force of about 7,000 is expected to rise to 25,000 because of government training programs for the blind and partially disabled persons.

Malik Charges U. S. Has 'Atomic Curtain'

PARIS (AP)—Soviet Delegate Jacob Malik charged Thursday the United States is surrounded by an "atomic curtain."

The delegate told a United Nations Assembly subcommittee on armaments that conditions put up by the Western Powers for reduction of arms were "as logical as to propose an expedition to Mars to ascertain whether the Martians are preparing war against the earth."

The committee is studying Russia's proposal for reduction of armaments by a third within a year and a ban on atomic bombs.

IRISH DOCKERS STRIKE FOR WITHHOLDING TAX

BELFAST, NORTHERN IRELAND (AP)—Fifteen hundred dockers struck Thursday because the government won't let them pay their income tax through weekly payroll deductions.

Paying once a year, leaders of the unofficial one-day demonstration said, leaves most workers flat around income tax time.

DISORDERS IN HAVANA

HAVANA, CUBA (AP)—Police banned street gatherings in Havana Thursday after one person was killed and 12 were injured Wednesday in disorders over increased bus fares.

Five muskrats were introduced into Europe from North America in 1867. Today there are more than 100,000,000 on the continent.

Weekly Locations Feature Five New Pecos Wildcats

Applications for five new wildcat oil ventures in Pecos County were filed during the past seven days with the Midland district office of the oil and gas division of the Railroad Commission. This number is one more than the total for the whole Midland area recorded for the previous seven-day period.

In addition, Kent County is slated for a new wildcat, and a semi-venture has been staked in Scurry County.

Explorations have shown a slight decrease for the past seven days with a total of 48 as compared with the previous weeks 55. Andrews County was a big leader with ten new projects, while Ector and Hockley Counties each had half that amount.

Amended applications totaled five and were distributed two to Andrews, two to Pecos and one to Winkler.

The remainder of the explorations was divided over 12 counties. Winkler County had four; Crane, Cochran, Gaines, Mitchell, Scurry, and Ward had three each; Pecos and Reeves obtained two for each county. Floyd and Hale Counties received one each.

ANDREWS COUNTY

Wetbacks Cross Rio Grande

These Mexican workers are wading the Rio Grande at El Paso, entering the United States from Juarez, Mexico. The U. S. Immigration Service abandoned efforts to halt illegal entry of Mexican farm workers and instead opened the border wide to thousands of the "braceros," who were turned over to American farm employers.

Indians Protest Government Luxury

By STEVEN DAVID

NEW DELHI—The paradox of one of India's simplest and most austere men, a devoted friend and disciple of Gandhi, living today in a palace that was the symbol of the grandeur of the British Raj is beginning to worry the country's leaders.

Questions are being asked in Parliament and in the press.

Is it proper that Governor-General Chakravarti Rajagopalachari should occupy a 340-room mansion, former residence of the British Viceroy, "where his foreign predecessors luxuriated," and draw more than 100,000 rupees (about \$33,000) monthly in salary and allowances?

Indians expected a new way of life at Government House when the slight, quiet 70-year-old Rajagopalachari (called "C. R." for short) moved in last June as the first Indian Governor-General. A man who dresses always in homespun cotton, a vegetarian, a non-smoker, and a teetotaler, C. R.'s preference for the simple life was well known.

While bids were sent in to clear the famous viceregal wine cellar, C. R. substituted simple Indian vegetarian meals for lavish banquets. He ignored most of the spacious apartments of Government House and, with a widowed daughter, a widowed daughter-in-law and four grandchildren, set up housekeeping in one corner of the palace.

But there has been no real reduction in the size of the governor-general's establishment. Approximately 5,000 persons live on the estate. These include servants, guards, the governor-general's office staff and their families. The mansion alone, excluding its 330 acres of ground and famed mogul gardens, require 400 servants to keep it in order.

C. R., who as premier of Madras cut his own salary down to 500 rupees (about \$150) per month, now draws more in salary and expenses than either the President of the United States or the governor-general of Canada.

The \$4,000,000 viceregal mansion contains the magnificent Durbar Hall (Throne Room), more than a mile of corridors and ceiling paintings in the mogul manner. Gandhi once suggested it would be better for India if the great red and white sandstone pile were transformed into a hospital.

It probably would suit C. R. fine if the government accepted that suggestion now.

Don't Look Now, Reds Tell Finns

HELSINKI—Soviet authorities of Porkkala are irritated, because passengers on Finnish trains keep trying to peep at them through doors and shutters.

Porkkala is an area about six miles out of Helsinki which was leased to the Russians for 50 years under the terms of the 1944 Armistice. After long negotiations the Finnish government obtained permission to transit trains through the area, which cuts the main line from Helsinki to Turku, on the condition that all cars must be locked and completely blacked out during the passage.

The Russian railway authorities recently complained that passengers, instead of obeying the rules, do their best to catch a glimpse of the forbidden area.

The Finnish authorities have appealed to all travellers through Porkkala not to endanger the continuation of the transit traffic by disobeying the Russian regulations.

City Council Of Parents And Teachers Coordinates Efforts Of Individual Units

With its membership embracing the Parent-Teacher units of five Midland schools and the Air Terminal school, the Midland City Council of Parents and Teachers has as its purpose coordination of the ideas, projects and personalities of the six groups.

The council is an organization dates back to 1939, when it was formed in January as a clearing house for the four Parent-Teacher Associations then functioning in the city. These associations were the High School, Junior High, North Elementary and South Elementary.

Each of these four units had at that time a history dating back several years and a record of various service projects with emphasis on educational progress and child welfare.

Mrs. L. G. Byerley, who was elected as the council's first president, in an early message to members made it clear that the council was not to duplicate the work of the individual units, but had as its object the stimulation of interest, assistance to the local unit in studying its own needs, promotion of education in general and "helping the organizations to do in the very best way possible the things they are trying to do anyway."

Other Officers

Officers who served with Mrs. Byerley that first year were Mrs. Paul Schlosser, vice president; Mrs. H. R. Brazier, secretary; Mrs. D. G. Stooker, treasurer.

The first major project was a clothing exchange, in which more than 400 garments were distributed among school children most in need. The council centralized the plans of the units for entertaining its annual conference of District Six, Texas Congress of Parents and Teachers, in Midland that Spring.

Mrs. Ernest Sidwell succeeded Mrs. Byerley as president and served until 1942, when Mrs. D. E. Carter assumed the office and was followed by Mrs. Glenn Brunson, who served two terms starting in 1944.

Minutes Lost

Minutes of the council for several years have been lost, but members recall that it worked out in a swimming pool for the city, joined other civic organizations in a move to start a Youth Center, and established an honor roll for boys and girls in service during World War II, for display in the high school.

In 1946 the council sponsored a city-wide meeting to replace the district conference, which was cancelled because of wartime travel restrictions, and brought Dr. Ezer-

SWISS TRY HELICOPTERS FOR MAIL

ZURICH—Swiss postal authorities are experimenting with helicopters as a means of speeding up air mail from principal post offices to airports.

Tests already have been made in Zurich and further experiments are planned in Lausanne and Bern. In Bern, flights will be made from the roof of one of the postoffice buildings to Thun and Biel.

FLOURING NOT NECESSARY

It is not necessary to flour a roast, but it may be rubbed with a cut clove of garlic or a little dry mustard for a good flavor.

This fillet of fish do not need to be turned during broiling. They may be topped with a cheese-and-parley flavored cream sauce just before serving.

FAB with SUPER-WETTING ACTION

washes everything
FASTER, CLEANER, WHITER, BRIGHTER
than any soap...in hardest water!

FABULOUS SUDS, even in hardest water. Two washing machines were filled with hot water. One cup of FAB was added to each. The water in the FAB machine was so sudsy it overflowed. One cup of soap made almost no suds!

Fabulous, new washday discovery from the Colgate-Palmolive-Peet laboratories gets even extra-dirty wash extra-clean!

It's fabulous the way women are switching to FAB with Super-Wetting Action because it gets all family wash cleaner faster!

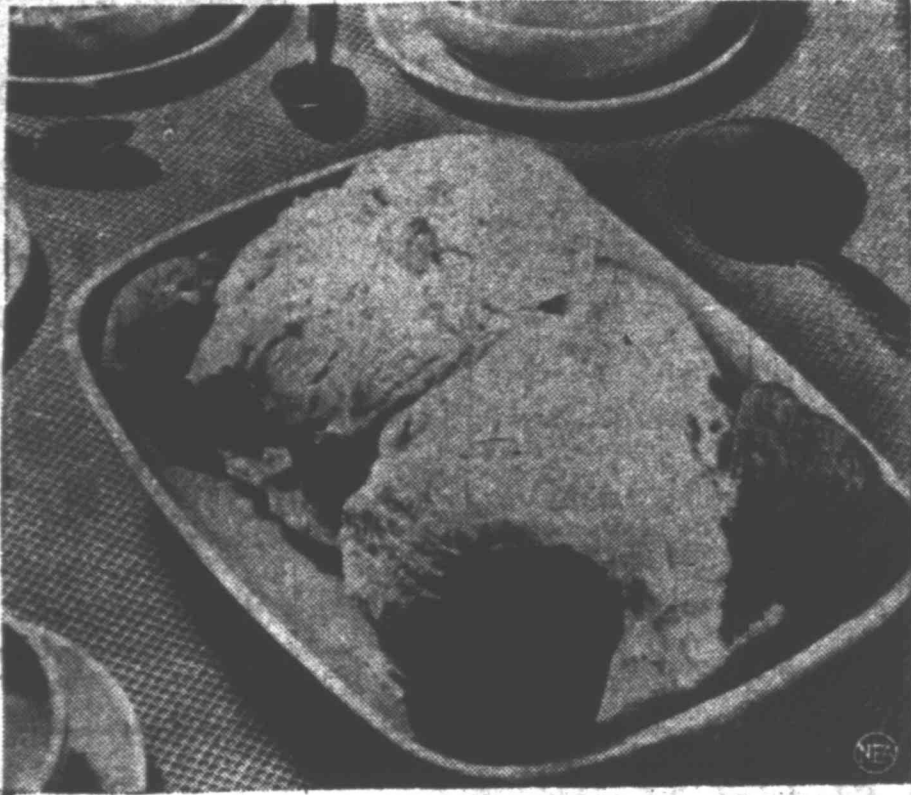

Super-Wetting Action, a new, scientific washing principle. When you wash, FAB penetrates materials faster and more thoroughly than soap...pushes dirt out!

Rich suds...no soap suds...in hardest water! Yes, rich suds to get clothes extra-clean...and no "graying" soap suds. Wash gets whiter, cleaner with FAB.

Even grimeiest overalls, work and play clothes get cleaner faster with FAB with Super-Wetting Action!

Faster And Better
For all family wash and dishes!

Everybody Welcomes Ice Cream

Bulk ice cream supplies delight and nourishment for family meals.

By GAYNOR MADDOX
NEA Staff Writer

Ice cream is the all-American dessert. Some menu makers may forget that it is also a nutritious food, containing valuable protein, minerals, vitamin A and butter fat. Nevertheless, it is not high in calories, as there are only about 200 calories in each serving (one-sixth of a quart).

Bulk ice cream is good just as it comes from the store, but if you want to dress it up, there are countless ways to do it. Store in freezing compartment of refrigerator until ready to serve (set control at freezing).

Mocha Parfait
One quart bulk vanilla or coffee ice cream, 3 squares unsweetened chocolate, 1 tablespoon instant coffee, 1/2 cup melted ice cream (taken from the quart), 2 tablespoons sugar, 1/4 cup chopped toasted almonds, 1/2 cup heavy cream, whipped.

Take out a heaping tablespoon of ice cream and put the rest in the freezing compartment of the refrigerator until ready to serve. Melt the chocolate over hot water, add the 1/2 cup (approximately) of ice cream that was removed from the quart, the sugar and the coffee. Stir constantly until blended and very smooth. Remove from the fire and cool. When ready to serve place layers of ice cream covered with spoonful of the sauce in parfait glasses. Drizzle a little sauce over the top and garnish with a swirl of whipped, slightly sweetened cream and chopped almonds.

Here are some other equally delicious suggestions for bulk ice cream with a definitely professional air: Pecan or chocolate waffles with vanilla ice cream and maple syrup—for a very hearty ending to a slim

meal. Or alone as a light nourishing meal at noontime or for Sunday night supper.

Chocolate ice cream on rounds of sponge cake, covered with pineapple mint sauce or ginger sauce.
Home-made sundaes with fruits, butterscotch, chocolate or fudge sauce. Very good sauces may be bought ready to serve, too, or crushed fresh or canned fruit may be used instead of prepared sauces.
Home-made banana splits with ice cream on the split banana covered with raspberry sauce, whipped cream and chopped nuts.

Wages Lost In West Coast Strike Total Millions Per Month

SAN FRANCISCO—(AP)—The Pacific Coast maritime strike, now in its 49th day, has nearly dried up a \$4,000,000-a-day waterborne commerce but has spurred on a huge commercial airlift.

All dry cargo sailings have stopped, save a few ships which carry supplies for the Army. Oil tankers are not affected by the strike.

While paralysis set into shipping, the strike forced resort to the airlift. Pan American Airways reported Wednesday perishable food shipments to Alaska have increased about 100 per cent and to Hawaii about 55 per cent. The air shipment of food to Alaska now is at the rate of a million pounds a month and still growing.

Of the 375 dry cargo ships operated by West Coast American Steamship Companies, 222 were tied up as of October 15. They lay idle in various ports from Seattle to San Diego, from Mobile to New York. The largest number in any one port was 61 in San Francisco.

What has been the cost to labor in wages lost?
An exact statement cannot be made. But—the 222 ships now idle have an average crew of 45 men who draw a total of about \$129,000 a day.

Business Effects Widespread
West Coast CIO longshoremen, clerks, carloaders and related dock workers were paid \$57,000,000 in wages last year. At that rate they have lost about \$3,000,000 in wages so far.

The effect on business is less easily figured. Here are some things that have happened as result of the strike:
The California-Hawaii Sugar Company has laid off 800 employees, representing a payroll of \$400,000 a month.
The Eldorado Oil Company dismissed 125 men. The payroll was not disclosed.

Some West Coast lumber mills, unable to move their product, have reduced operations.
And there appears to be no immediate prospect of ending the strike. There have been no negotiations since September 1.

SEEKS RADIO PERMIT
WASHINGTON—(AP)—Leonard R. Lyon has applied to the Communications Commission for a new standard radio station at Big Spring, Texas, to operate on 1400 kilocycles, 100 watts, unlimited time.

Cruel Thing—Gave Her \$1,000 Checks

LOS ANGELES—(AP)—Cruelty was the charge made by Mrs. Solomon W. Laykin and she got the divorce from her husband, wealthy Beverly Hills jeweler.

Laykin liked to impress friends by giving her expensive jewelry or an occasional \$1,000 check at dinner parties, she testified recently. "What's cruel about that?" asked the court.

"As soon as our guests were gone," replied Mrs. Laykin, "my husband would take the jewelry back and destroy the checks."

THIEF LEAVES DISHES IN SINK

MACON, GA.—(AP)—Mr. and Mrs. James E. Sutton told police a prowler entered their apartment recently, fried a dozen eggs, used a quarter pound of butter on toast and left dirty dishes in the sink.

Potato Picker Packs Powerful Punch

Pity the poor potato picker, pushed into penniless poverty by this paraphernalia for picking potatoes by power. Anyhow, this new mechanical potato harvester is being tested in England. It was built by a London firm in five weeks, from Swedish plans. It's supposed to work four acres a day.

HIGH PRICES? We hate them too!

For a very selfish reason we are just as interested as you are in bringing prices down. When you can't buy, we can't sell. So your problem with the high cost of living is our problem too. May we point out some of the ways we can help?

By cutting out expensive "fills" we make many savings. These savings allow us to price everything low, every day.

But that's not all. Our advertising can help you too. It tells about the foods which are in season—those which are the best buys right now.

On meats too. You get more value in every pound when you buy our trimmed-before-weighing kind. Because we price fruits and vegetables by the pound, you can buy exactly the amounts you need. You cut waste and save again. A money-back guarantee on everything we sell protects you against loss on any purchase.

We believe shopping regularly at Safeway will help reduce your cost of eating. Will you try it?

France Wrestles With Mine Strike Problem

While the French Government wrestles with the problem of widespread strikes in coal mines, striking miners in northern France wrestle to kill time. Other strikers watch from the barricaded mine entrance in Carvin Ostreourt. (Photo by NEA-Acme staff correspondent Rene Henry.)

+ Crane News +

CRANE — Baby Adalin Francine Brown is at home this week after initiating the nursery at the Crane County Memorial Hospital. She and her mother, Mrs. R. S. Brown, Jr., made the transfer by ambulance Sunday. The baby was born last October 13, and was honored as the first born at the new hospital.

Mrs. and Mrs. Lee Turner, and daughter expect to leave Thursday a visit to relatives at Dallas, attend the Dallas Fair and see the SMU-Santa Clara football game. They will return Sunday.

Dinner guests of the W. R. Crowners Monday evening included Mr. and Mrs. Whity Lawson, Mr. and Mrs. F. B. Hale, Betty Johnson and George and James Glynn and Dan Saunders from Midland.

George "Slim" Glynn's Western String Band played to large audiences Monday in two appearances at the high school auditorium and for a dance at the Community Hall following the evening performance. The high school seniors sponsored their coming here as one means of adding to their funds for the annual senior trip.

None of the 17 backfield men on the football roster of the University of South Carolina weigh over 200 pounds.

Buenos Aires Chides City Purists

BUENOS AIRES —(AP)—The city's "pure Spanish" campaign has a backfire.

Just after the city hall decreed that ungrammatical posters would be torn down, a newspaper pointed out that the city's own subway signs referred to "paths" instead of "sidewalks."

Also the monument to the founders of the city speaks of "the anniversary of its foundation" rather than the correct Spanish form "anniversary of the foundation." This mistake is cut into stone and can't be changed.

SCALD MILK CAREFULLY

When milk needs to be scalded for cream sauce or a custard or pudding desert heat it carefully; if placed over too high heat it scorchs easily.

Catawba Indians To Get New Homes

ROCK HILL, S. C.—(AP)—Brighter days are ahead for a once-powerful, now almost defunct Indian tribe, the Catawbas. Tribe members are moving from their weather-beaten huts on 600 acres of worthless land along the banks of the Catawba river into brand new cottages on 3,000 acres of fertile land near here.

The change came with transfer of the Indians two years ago from state to federal government supervision. State supervision was a hangover from a peace treaty between the state and the tribe made almost 150 years ago. The Catawba nation lists 300 surviving members who are being moved as they apply for land in the new federally-supervised area.

Fifty-seven of the tribe's 92 known families have made application for tracts of land ranging from one to 50 acres, and others are planning to apply. Many already have moved. The land is free and tax exempt, but the new homes must be paid for by the families taking them.

Only 25 of the Catawbas are classified by the federal Indian service as full-blooded. And only four, including retired Chief Sam Blue, still speak the Catawba language. Most of the adults have jobs in textile mills nearby, while their children attend white schools here and in other school districts.

Elm trees originated in the days of the dinosaurs.

District Chairman Visits Crane Lions

CRANE — District Chairman Fred Farmer of Iran was guest of the Crane Lions at noon Tuesday and introduced the Rev. J. P. Lancaster, Iran Methodist minister, as the principal speaker.

Eugene J. Wasson was elected assistant secretary-treasurer. Other guests introduced were Fred Wright of Fort Worth and R. E. Thorp.

DELICIOUS WITH FISH DISH

A delicious salad to serve with a fish dish is one made of pickled beets, onion rings and shredded lettuce or romaine; pour a tangy French dressing over the salad when the fish dish is ready.

You Can't Swim the Mississippi with a Million Head of Cattle

The Mississippi River always has been the "continental divide" in the geography of the livestock-meat industry. In the old days the great herds of longhorns trailing north from Texas had many rivers to cross. The Red, The Canadian, The Big Blue, The Platte... but there was never a trail that ended east of the Father of Waters. The Mississippi was, and is, one river you couldn't swim with a million head of cattle.

It's a staggering job to get the nation's meat from producer to consumer. Two-thirds of the meat animals are produced west of the Mississippi... two-thirds of the meat is eaten east of it. On the average, meat has to be transported more than 1,000 miles. It's a big job—a huge job. Just consider: in 1947 alone, this job of getting the nation's meat from the farm and to the cooking range involved 32,158,000 head animals, 24,044,000 sheep and lambs, 82,579,000 hogs!

Harvesting any national crop—from wheat to meat—is a big job. Big machines are needed. Who uses binders when combines are more efficient? Similarly, in the processing and nationwide distribution of meat it takes large-scale, efficient "machinery." There's a need for all of us—producers and meat packers; shippers and marketing people; transportation lines; wholesalers and retailers. We all play a part—whether we are individuals or companies, whether we operate locally or on a nationwide basis.

All That Glitters Isn't Profit

Government reports tell of farm and ranch income from livestock that totals more than 17 billion dollars. Many folks read those reports and say—"No wonder meat is so high. Livestock producers must be coining money."

That is a thoughtless comment, based on misunderstanding. That 17 billion dollars is not profit—it is gross income. Many expenses must come out of your gross livestock income before you can make any profit on it. There's the cost of breeding-stock and feeding-stock... of your hired labor... of feed, machinery, equipment. All these costs are at all-time high levels. Out of your gross income also must come property and income taxes, interest; insurance premiums; repairs; new buildings; fences; death losses, etc. After you've paid all those necessary business expenses, you're lucky if you end up with 10 or 15 per cent profit.

A lot of people are just as wrong about Swift's profit as they are about yours. They look at our total sales of 2 1/2 billion dollars last year and say—"That's a barrel of money. No wonder meat is high!" But the fact is that competition in both buying and selling is so keen that from those 2 1/2 billion sales dollars an average of 75¢ went to pay you for your livestock, 10¢ for pay to our employees, 6 1/2¢ for supplies and other necessary business costs, 3¢ for taxes and transportation. All we had left as earnings was 1 1/2¢.

Yes, in our business, as in yours, there's a big difference between gross income and net profit!

The price we can pay for your livestock today is governed by people who live far away.

With money in hand, they create a demand for roasts, steaks and chops throughout the whole land.

And the price at wholesale—Tenderloin or oxtail—is affected by numbers of cattle for sale.

This rhyme has been planned so you'll all understand that prices result from supply and demand.

OUR CITY COUSIN

Worms City Cousin, "Don't you dost. He gobbles best who gobbles last!"

the story of grass

Now ready—Booklet D of our Elementary Science Series. We call it "The Story of Grass." A picture-story booklet for kids and grown-ups. It follows the other popular stories on soil, plants and meat animals. And, like the others, it's FREE! Do you know what the meat you eat is made of? Why do the cowboys live in the West? Ever hear of people eating and drinking grass? Ever hear of meat factories that "run" on grass? They're all in "The Story of Grass." Send a postcard asking for your free copy today. Address: Agricultural Research Dept., Swift & Company, Chicago 9, Illinois.

Over the years, we at Swift have worked to perfect our nationwide system of marketing. We, and 26,000 other commercial slaughterers, provide a competitive cash market for your livestock. We buy your animals and dress them. We process and refrigerate them. Then, we distribute the meat to retail store men everywhere. (Our earnings for all these essential services are only a fraction of a cent a pound.) Because this big job is done efficiently, you producers are assured of markets... consumers everywhere are assured of meat. We at Swift & Company are proud of our part in building the "1,000-mile bridge"; the "bridge" which carries meat from the point of surplus production to the point of consumption. So long as all America wants meat it will take efficient nationwide organizations to bridge that 1,000-mile gap.

Soda Bill Sex? Time counts unless you're counting time. Some people will do almost anything for money—except work for it. Generally it's better to have PUSH than PULL.

Tally and Cull "Newcomers" in Breeding Eve Flocks

by Clair E. Terrill

United States Department of Agriculture

As you swing the cut gate, you can increase total saleable lamb weight—your margin of profit. For here you can cull ewes that are barren in their first lambing season. You can also cut out those unable to raise singles in their first lambing year. These ewes often get by on their appearance alone. For frequently they are heavily woolled and in better condition than nursing ewes. But they do not always pay their way.

Recent research has proved that subsequent market lamb production from such dry ewes may not justify keeping them in efficient commercial breeding bands. Experiments with Columbia range ewes at the U. S. Sheep Experiment Station, Dubois, Idaho, established this fact. There is a definite relationship between the total weaning weight of lambs produced in the first year and in the three following years of lambing.

All ewes that twinned the first year, regardless of whether the lambs were raised, weaned 19 pounds more lamb weight in the three years of study than ewes that failed to lamb—five pounds more than ewes which did not rear their first single lamb. Ewes that dropped and raised singles had 16 pounds greater annual lamb yield than those ewes which did not lamb. And ewes that did not rear their first lamb later produced 14 pounds more lamb weight yearly than ewes which were barren their first lambing season.

So, to increase efficiency in market lamb production, tally "newcomers" in ewe herds at breeding time. Then mark barren low-producing ewes for culling after the lambing season.

Air Force To Test World's Brightest Light On Nation's Soupiest Air Field

Pilot's-eye-view of the dazzling new krypton approach lights shows mile long at New York's International Airport. They dig 1000 feet them in action in their first commercial installation—two-thirds of a into fog.

CLEVELAND (NEA)—The big C-54 transport with engine trouble floundered through the thick fog over Cleveland's Municipal Airport. Visibility was near zero and the setting over the airport was only 300 feet. After three unsuccessful attempts to find the field, the Air Force crew of seven prepared for the worst.

Making another desperate run, the pilot, Capt. D. R. Rose of Boise, Idaho, found the instrument landing system "glide path" that leads to a point near the end of the runway. Then, a thousand feet from the landing strip, Captain Rose could see brilliant lights flashing like streaks of lightning through the murky clouds. That was all he needed. He brought the big ship in and set it down with all hands safe.

"We never, would have made it without the lights," Captain Rose told ground observers.

These lights, the world's brightest, have flashed so brilliantly in a year of tests that veteran all-weather flyers are taking notice, and now the U. S. Air Force is set to give them their biggest trial.

Called "krypton flash units," with 3,000,000,000 peak candlepower in each small bulb, they were developed by Westinghouse Electric for the job of stabbing through "zero-zero" fog for at least 1,000 feet. Their mission is to reach out a guiding hand from "souped in" airports, and thus help lick one of the greatest hazards to all-weather flying—the deadly gap between the end of the landing system's "radio beam" and good solid airport runway.

The krypton flash lamp, heart of the unit, is about the size of a cigarette. The four-inch, slender quartz tubes, are filled with krypton, one of nature's rarest gases. When a surge of electricity is discharged through the gas, the lamp flashes with a brilliance of 10,000,000 candlepower per square inch—10 times greater than that of the sun.

50,000,000 Bulbs

The reflector and optical system magnifies this flash to its peak 3,000,000,000 beam candlepower. You can get the same brilliance in a flash using 60-watt household bulbs—but it would take 50,000,000 of them flashing in unison to do the trick.

A system of six krypton lamps has been tested at Cleveland Airport for the past year. Its brilliant flashes were the ones which guided Captain Rose's big transport to a safe landing in the fog last March.

Now the Air Force has picked its toughest training spot to test the krypton system. This is the Landing Aids Experiment Station at Arcata, Calif. Arcata drew the assignment because it is plagued with the worst fogs of any airfield in the country.

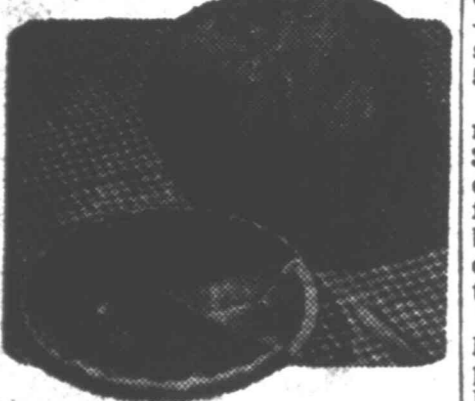

Flashes Of Lightning

At Arcata the Air Force is installing a system of 36 krypton flash units alternated with 36 neon blaze lights of lesser brilliance, making a row of 72 lights two-thirds of a mile long. The krypton lights will flash 40 times a minute, one after another in the wink of an eye, and will appear to pilots through the fog as great flashes of lightning.

Meanwhile, the first commercial installation of a full krypton approach system has recently been made at New York City's new International Airport. Commercial airlines have good reason to make early tests of systems such as the krypton. Total airline losses to bad weather during 1947 were calculated at \$40,000,000. This is partly because commercial airlines can never afford to take the risks taken by military flyers. When the ceiling drops below 500 feet and visibility is less than a mile, commercial airlines cancel flights, and direct incoming planes to clearer fields. And flying away with them go the profits.

Engineers already are convinced by the Cleveland tests that krypton is the key to safe all-weather flying. Various instrument landing systems have eliminated much of the hazard.

THIS PUMPKIN PIE SAYS "SECONDS, PLEASE"

WHEN MADE WITH IMPERIAL SUGAR

There's only one way to make Pumpkin Pie so rich, so smooth and so delicious that it calls for second servings regularly. Expert cooks know you can't get Pumpkin Pie so good without pure cane sugar. So insist on pure cane, and for the finest in pure cane, demand Imperial. Imperial is Pure Cane, Real Cane... and quick-dissolving.

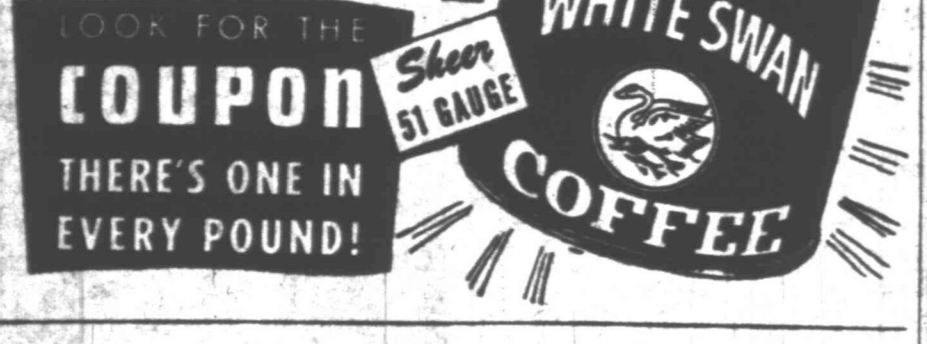

PIONEER PUMPKIN PIE

- 1 cup stored pumpkin
- 1/2 cup Imperial Pure Cane Sugar
- 1/2 teaspoon salt
- 1/2 cup vegetable oil
- 1/2 teaspoon ginger
- 1/2 teaspoon cinnamon
- 1/4 cup milk
- 2 eggs

Set dry ingredients into pumpkin. Add vegetable oil, slightly beaten eggs and milk. Bake in one crust in very moderate oven.

Jewish State In Palestine There To Stay, Says Bunche

By DEWITT MACKENZIE
AF Foreign Affairs Analyst
The Palestine problem presents many grave difficulties but there is one well-defined point from which the United Nations can start to figure.

remember is that the Jewish national home has come to stay.
The task of the UN revolves about the acceptance of a determination which will not be denied. Naturally it involves not only the establishment of boundaries for Israel but for a new Arab state, since the Arabs also are entitled to their place in the Palestine sun, and their rights must be safeguarded.

TOAST FOR 'ELCH RABBIT

Use the broiler of your oven when you want to make a good many slices of toast at one time to serve as the base for Welch Rabbit; season the Rabbit with dry mustard, paprika Worcester sauce and, if you like, a dash of sugar.

Daddy Ringtail

Daddy Ringtail And His Monkey Boys

By WESLEY DAVIS

"Be careful not to get lost," Daddy Ringtail said. He said it to Sammy and Bobby Ringtail, his monkey boys, one day when they were all together in their monkey house—the monkey house that's up in the top of the very tall tree, there in the middle of the Great Forest.

Sammy and Bobby said they would be careful not to get lost all right, all right, and they then climbed down to the ground and walked away through the forest. At first, they walked and ran along by the creek. For a while they stopped to throw rocks in the water. "Kerpunk!" the rocks said when they hit the water. Then the monkey boys saw a hummingbird. They chased the little hummingbird, but they knew they could not catch it. The hummingbird knew it, too, and he enjoyed the fun just as much as they did. Then the hummingbird flew away to see about whatever it is that hummingbirds fly away to see about.

Congress May Face Television Cameras In Distant Future

By JAMES MARLOW
WASHINGTON — (AP)—Should Congress at work be shown on television?
Some of these days, Congress will have to say, yes or no.
When that time comes, there'll probably be intense public pressure for a "Yes" answer.
Congress doesn't have to think much about it now because:
1. A countrywide network still is at least a couple of years away.
2. At this time, only about 600,000 television receiving sets are in American homes.
Congress has always refused to let its doings on the House and Senate floors—the debates—be broadcast over the radio.
With no radio around, a congressman can jump up, say whatever pops into his mind and still feel pretty relaxed.
The only ones who hear him are the other congressmen, many of whom do the same thing, and a handful of people in the galleries.
Different With Mike
It wouldn't be like that with a radio microphone staring him in the face.
Then he'd have to keep a tighter rein on himself and his tongue, knowing millions of people were judging him.
And an error of fact or a mistake in grammar? Millions of listeners would spot it.
Such mistakes now can be corrected by the congressman himself, or the official stenographer, before it gets in print in the congressional record.
But since Congress has refused to let its doings go out over the radio, why should it ever change its mind about television?

Plan Specials For Hallowe'en

Cardboard golem perched on bottle openers at Hallowe'en buffet party.

By GAYNOR MADDOX
NEA Staff Writer

Kids love Hallowe'en parties. So do most grownups. Better plan to bake some jack-o'-lantern cookies for the spooky night prowlers and some lemon coconut cream for the hungry young spoofs.
Jack-o'-Lantern Cookies (Makes About 4 Dozen Small Cookies)

Cookies

Two squares chocolate (2 ounces), 1/2 cup shortening, 1 1/4 cups granulated sugar, 2 eggs, 1 teaspoon vanilla extract, 3 cups sifted flour, 1 teaspoon baking powder, 1 teaspoon salt, 1/2 cup milk.

Melt chocolate. Cream shortening until fluffy. Gradually beat granulated sugar into shortening. Add eggs and beat well. Stir in melted chocolate. Add vanilla extract. Sift together flour, baking powder and salt; add alternately with milk. Mix well after each addition. Drop cookie dough from teaspoon on well-greased two-quart heat-resistant glass utility dish. Bake in moderate oven 350 degrees F. for about 16 minutes. Cool cookies before decorating with frosting.

Frosting
One tablespoon melted butter or fortified margarine, 1 cup sifted confectioners' sugar, 1 tablespoon top milk, a few drops orange food coloring.

Mix together melted butter or margarine, confectioners' sugar and top milk until mixture is smooth and creamy. Stir in few drops of orange food coloring. Decorate cookies with this frosting to resemble jack-o'-lantern faces.

Lemon Coconut Cream (8 Servings)
Two egg yolks, 1/2 cup sugar, 1/4 teaspoon salt, 3 tablespoons lemon juice, 1 tablespoon grated lemon rind, 1/2 cup grated coconut, 2 egg whites, 1 cup evaporated milk, chilled.

Mix together egg yolks, sugar, salt and lemon juice. Pour into top of double boiler and cook over boiling water until mixture is smooth and thick. Stir frequently. Remove from heat and cool. Stir grated lemon rind and coconut into egg mixture. Beat egg whites until stiff but not dry; fold into lemon mixture. Whip chilled evaporated milk until thick like whipped cream; fold into lemon mixture. Pour mixture into eight 8 1/2-ounce heat-resistant

American Collectors Of American Jazz Are Relatively Few

WASHINGTON — (AP)—American jazz is returning to America.

For years, Europeans have been so much more interested than Americans in this peculiarly American music that there still are many jazz records which can be found only overseas.

Since the war, the number of jazz collectors in this country has increased by thousands. But there still are so few that unless you are a collector, or know one, you may not know what jazz—"hot" jazz—is.

Paul Whiteman, once known as "The King of Jazz," gets scarcely a tumble from the true jazz collector. Whiteman's large orchestra played arranged music. Jazz is not arranged.

Irving Berlin, often called a jazz composer, fares no better with the collector. Jazz isn't written. It's played.

What's more, it's played by small groups of musicians who pride themselves on their ability to play with restraint.

No Written Music
They use no written music. Instead, they memorize melodies—frequently popular melodies—then use them as a starting point for creations of their own. Until a few seconds before each note is played, no one, including the musician, knows what it's going to be.

A jazz band usually—not always—is made up of just seven or eight instruments: a trumpet (sometimes two), a trombone, clarinet, piano, guitar or banjo, bull fiddle or tuba, and drums. Sometimes a saxophone is added. Sometimes one of the others is omitted.

Hot jazz generally is played this way: the trumpet plays the melody through, just as it was written, while the others make up a suitable background. Then most of the instruments fade out and let a single member improvise a solo. Finally, all seven or eight improvise at once, the trumpet leading the way.

For years jazz was played by negro musicians in New Orleans—and no place else. Then traveling jazz bands—negro and white—began drifting into Chicago, where they first made records on a fairly large scale.

It was these records which caught the ear of European musicians and music lovers. But strangely, no one paid much attention to them in this country until years later.

Hot jazz is played in a freer, less compartmented refrigerator for about two hours or until frozen. Serve in the custard cups in which it is frozen.

Red Spy Story Goes 'Under Cover'

Mrs. Anselma S. Poore, of New Orleans and Charlotte, N. C., editor for the House Un-American Activities Committee, knows what "a large volume of testimony" means. She's looking over 1300 pages of transcribed testimony just released by the committee. They include the story of two Communist underground networks that allegedly operated in the State Department before the war.

Suspect Keeps Mustache Shaved Off

NORFOLK, VA.—(AP)—The man at the police clerk's desk wanted some help in serving a warrant. "What does the man look like?" queried Clerk O. T. Smith. The visitor's description was vague. "Does he have a mustache?" Smith pursued. "I just don't know," was the answer. "If he does, he keeps it shaved off."

SUNDAY DESSERT

For a Sunday dessert try heating maple or maple-flavored syrup and serve with pecan nut meats over vanilla ice cream.

At their height, the Indians of the United States and Canada used 200 different languages.
