

UN Chiefs Appeal To Big Four Powers

Reds Shoot Works For Showdown In Conflict At Suchow

By FRED HAMPSON
Associated Press Chief of Bureau for China
SHANGHAI—(AP)—Scanting a chance to win the civil war quickly, the Communists appear to be shooting the works in the great battle around Suchow.

If the Reds win the battle, it seems that the Chiang Kai-Shek government must either fall or flee. If they fail and the fighting bogs down, the two enemies may slog around that North-Central region all winter inconclusively. This would give Chiang a chance to get his wobbly government back on its feet.

The fog of war is so thick only one forecast now is safe: The immediate fate of the nation rides on the outcome at Suchow.

There, where the Honan and Kiangsu Plains are transected by the Peking Railway and the Grand Canal, three top Communist generals are making their bid.

Both sides have claimed big successes, with huge casualties inflicted on the enemy. Nobody accepts either as face value, but the burden is on the Communists. While they retain the initiative, they need a clear-cut victory to avoid a winter stalemate.

Reporters, as usual, are prevented from reaching the battle scene. Neither side wants or will permit impartial onlookers. There is nothing to do but wait and see.

Harold K. Mills, Associated Press correspondent in Nanking, reports that Chiang Kai-Shek alone is holding the National government together by his forceful insistence on continuing the fight in the face of repeated military and economic disasters.

Chiang is supported in this by a handful of "water-skiers" with the majority of his officials believing the time has come to try to negotiate for peace, Mills reports.

There is continuing talk of possible flight by the government to Canton or some other Southern city. Some foreign diplomats, however, share a belief that some of Chiang's officials might choose not to follow him in such a move.

Nationalist Withdrawal Is Reported

NANKING—(AP)—Reliable sources said early Sunday the government plans to withdraw its army headquarters from Suchow, the big base around which eddies a decisive battle for China.

Official quarters were silent on this report but it was acknowledged that encircling Communist forces were shelling the airfield five miles east of Suchow.

The field is the one remaining link between Suchow and Nanking, 200 miles to the Southeast, now that the railway has been cut.

Informants said the government headquarters would be moved 100 miles south to Pengze, the railway city of Pengze is 108 miles by rail northwest of Nanking.

Claims Red Line Broken
Government planes continued their all-day missions from Nanking in obvious efforts to destroy the harassing Communist artillery. The unconfirmed reports of the shelling did not say, however, whether the Suchow field still was in use.

Late Saturday night dispatches to pro-government papers and to the official Central News Agency said the Nationalists had broken the Communist line at Chanchuan Village, near the Grand Canal some 40 miles east of Suchow, and had recovered two other villages.

Pro-government estimates of Communist casualties in the four days of heavy fighting around Suchow were raised to 30,000.

Raising some doubts of the government claims of more than holding its own against the Communist onslaught, one press report told of an unidentified village changing hands three times on Saturday alone.

25 Lose Lives By Violence

By The Associated Press
Twenty-five persons died by violence in Texas during a period from Thursday night through Saturday. Three were children who burned to death in an auto on a farm near Lubbock.

The four-year-old Puente twins—Paulina and Pablo, Jr., and their brother Benjamin, two, apparently had crawled into their parents' car to play. The accident occurred Saturday, Pablo Puente, the father, and two other men were working some distance away when they saw flames shooting up over the automobile.

During the Thursday night-Saturday period 11 persons died in traffic accidents; three in plane crashes. One was electrocuted. One fell to his death between two trains. One died of carbon monoxide, one was suffocated in a fire, and three were shot to death. A justice of the peace said a man at Dallas died from an overdose of sleeping pills.

The Puente family had lived at Lubbock three years. The auto fire occurred on the E. G. Hession farm, seven and a half miles southwest of Lubbock.

Body Found In Ditch
At Houston the body of Searcy M. Lampkin, 24, of Houston, was found in a ditch Saturday, a stab wound in the neck. Justice of the Peace W. C. Ragan was withholding a verdict until an investigation is finished. If Lampkin's death was by violence the toll will be 28.

Freston G. Choate, 33, Harris County holdmaker, received fatal wounds Saturday while hunting near Sheldon, Texas.

Justice of the Peace W. E. Richburn returned a verdict that James Frank Shaker, formerly a merchant, died Friday from an overdose of sleeping pills.

Cecil Forbes, about 40, of McCamey, was electrocuted Saturday. The auto fire occurred on the E. G. Hession farm, seven and a half miles southwest of Lubbock.

Blueprint For Civil Defense Is Outlined

WASHINGTON—(AP)—The Civil Defense Planning Office presented Saturday night a minutely detailed blueprint for what it called the "missing link" in national defense—a system of protection for the population at home if an enemy attack comes.

The proposed program for a permanent system of civil defense is the product of a nine-month study by a group of 43 civilians, representative of various segments of national life, assisted by military advisers. The planning group, headed by Russell J. Hopley of Omaha, was created by order of Defense Secretary Forrestal.

Weighting heavily in the report is the possibility that United States cities which since the war of 1812 never have been beset by a foreign military power, might be subjected to atomic war or other new weapons.

The general purposes of the planning group are these:
1. A National Office of Civil Defense, with a staff of perhaps no more than 200 persons, to furnish guidance for states and municipalities and to help train civil defense workers. Emphasis would be on creation of nucleus structures, capable of quick expansion in event of war.

The estimate is that in wartime as high as 15,000,000 persons might be involved in civil defense throughout the states, cities and federal government.

Mutual Assistance
2. Mutual assistance systems under which one city or group of cities would aid another city if the burden of civilian defense became too great. Mobile units which could be shifted quickly to stricken areas are recommended.

3. Maximum use of volunteers and of existing agencies, such as police departments.
4. Well-organized and trained units in communities throughout the United States, its territories and possessions, prepared and equipped to meet the problems of enemy attack, and to be ready against any weapon that an enemy may use.

5. Intensive planning to meet the potential hazards of atomic or nuclear war.

Direct Notes Ask Solution Of Berlin Rift

By FRANCIS W. CARPENTER
PARIS—(AP)—Two top United Nations chieftains appealed directly and urgently to the chief executives of the four big powers over the heads of their UN delegations Saturday to settle the Berlin dispute for world peace.

The unprecedented action was taken by Dr. Herbert V. Evatt of Australia, president of the General Assembly, and Trygve Lie, UN secretary-general, in the midst of a bitter East-West clash over arms reductions.

The new fight took place in the Assembly's 58-member political committee, where Deputy Soviet Foreign Minister Andrei Y. Vishinsky shook his pen at the U. S. delegate, Frederick H. Osborn, and shouted:
"You are preparing a Pearl Harbor for the Soviet Union, aren't you?"

The Political Committee rejected Russia's proposal for a one-third slash in the air, land and sea forces of the big powers within a year and prohibition of the atom bomb. The vote was six for to 36 against, with seven abstentions.

Direct To Leaders
The committee then approved 40 to six a Belgian proposal calling upon the Security Council's Commission for Conventional Armaments to continue work on the general question of arms reductions.

In another major UN development, the Security Council approved a plan submitted by the acting Foreign Minister, Dr. Ralph Bunche, to repair the broken truce on the Negro front. The plan apparently would demilitarize and place under UN control most of the disputed Southern desert region.

The Lie-Evatt appeal was transmitted to President Truman, Prime Minister Attlee and Premier Queuille in the form of a joint letter handed to the UN secretary-general by British, American, French, Soviet, and Chinese representatives here.

It was known by many that Lie and Evatt were in consultation, but few expected them to deliver an appeal above the level of the delegates' own proposals.

Lie and Evatt said:
"Every day that the deadlock over... (Continued on page 10)

Chest Drive Underway In Full Force

The General Solicitation Division of the annual Midland Community Chest finance campaign will launch its county-wide drive Tuesday following a breakfast for volunteer workers at 7:30 a. m. in Hotel Scharbauer, Beese Cleveland, general chairman, announced.

Approximately 300 workers, representing the various civic and service organizations of Midland, will be engaged in the campaign. All workers are invited and urged to attend the "kick-off" breakfast when campaign information will be given and prospect cards distributed.

An effort will be made to solicit all residents for Community Chest gifts before the end of the week.

The Chest's 1948-49 drive is almost \$12,000 more than last year's quota. The figure corresponds with the combined budgets of the six youth and welfare organizations sharing in the Chest funds.

Ban On Rail Freight Extended To Major Ports On East Coast

NEW YORK—(AP)—The rail embargo on export freight was extended Saturday to all major East Coast ports as the dock workers' strike immobilized almost 300 ships.

The Association of American Railroads placed a ban on nearly all goods destined for overseas shipment out of Philadelphia, Baltimore, Wilmington, Del., and Hampton Roads, Va.

This was an extension of the embargo clamped Friday on freight moving to New York and Boston.

The ordinary weekend lull minimized the effects of the strike of some 85,000 longshoremen on its first official day.

But the usually teeming waterfronts were expected to be deserted Monday. Marshall Plan shipments as well as ordinary commercial maritime business will be hit drastically if the walkout is a long one.

South's Ports Stay Open
A survey indicated these ships were tied up by the strike: Baltimore 95, New York 52, Philadelphia 22, Boston eight and Hampton Roads three.

Joseph P. Ryan, president of the AFL International Longshoremen's Association, who called the strike for Friday midnight, said he expected no developments until Monday, when two union meetings are scheduled.

Originally it had been indicated the strike would be extended to South Atlantic and Gulf Coast ports but union leaders said the men would stay at work there for the present.

Midland Carpenter Dies Of Heart Attack
Andy Lofton, 63, Midland carpenter died about 4 p.m. Friday while enroute to a hospital following a heart attack which occurred while he was working on a construction job several miles south of here.

Small Fortune In Drugs Captured On U.S.-Mexico Border

MEXICO CITY—(AP)—Capture of 3,000,000 pesos (\$435,000) worth of drugs at Ciudad Juarez on the U. S. border, was reported Saturday by the federal attorney-general's office.

The drugs, including opium, cocaine and marijuana, apparently were part of a stock stolen several months ago from a Ciudad Juarez hospital. The official report said.

Federal judicial police are holding two men on narcotics charges.

McCamey Man Is Electrocuted In Mishap Near Crane

CRANE—(AP)—Cecil Forbes, about 40, of McCamey, was electrocuted Saturday at an oil well location about three miles Southeast of Crane.

Forbes had finished swabbing a well and was placing a gin pole on his truck when it struck a high-voltage line. The metal pole was used in the swabbing operation.

The well was the No. 215 J. T. McElroy. Forbes was employed by the McCamey Well Servicing Company. The accident occurred about 3 p.m.

He is survived by his wife, a son, and a daughter, all of McCamey. Funeral arrangements had not been completed Saturday.

He is survived by his wife, a son, and a daughter, all of McCamey. Funeral arrangements had not been completed Saturday.

Kidnaped

Francis L. McShane, 43-year-old construction official for a New York firm, has been kidnaped by armed Greek guerrillas while building roads in the Peloponnese under the American Aid Program. A former professional football player and sports editor for the Newburgh News, McShane had worked for the New York State Highway Department.

At Houston the body of Searcy M. Lampkin, 24, of Houston, was found in a ditch Saturday, a stab wound in the neck. Justice of the Peace W. C. Ragan was withholding a verdict until an investigation is finished. If Lampkin's death was by violence the toll will be 28.

Three Killed, Five Hurt In Two Road Mishaps Near Ozona

OZONA, TEXAS—(AP)—Three persons were killed and five injured in two single-car accidents near here Saturday afternoon.

The dead: Mrs. Dee Shaw Saunders, 26, wife of M.-Sgt. Harold C. Saunders, Jr., of Sonora; their five-month-old daughter, Cynthia Ann, and Robert Shaheen, 28, Compton, Calif.

Both accidents were caused by skidding on wet pavement and happened within 30 minutes.

Sergeant Saunders, who is stationed at Williams Field, Ariz., was injured when his car went out of control and struck a bridge 13 miles west of here. He was flown to San Angelo in an Air Force plane. His condition was declared "satisfactory" at the Goodfellow Field Hospital.

Shaheen, driving nine miles east of here, was injured fatally when his car went out of control and overturned. Mrs. Shaheen, Mr. and Mrs. John Cora of Southgate, Calif., and the Cora's five-year-old son, John Anthony, were injured.

The blaze was checked in about an hour. The Los Angeles was on her maiden voyage. Her first port of call on the West Coast was to have been the city from which she took her name but the maritime strike prompted her diversion here. For two weeks she had been loading 7,000 tons of general cargo for Scandinavia and was to have sailed Sunday.

The 9,000-ton vessel, delivered to the owners August 12, had luxury accommodations for 12 passengers.

S. H. MORRIS, 30 DIES AT BIG SPRING

Blast Wrecks New Swedish Motor Vessel

TACOMA, WASH.—(AP)—An unexplained explosion, followed by fire, killed two men and injured at least six others Saturday as the fast new Swedish motorship "Los Angeles" prepared to sail for Europe.

The body of one man, identified only as Mr. Olson, guaranty engineer for the builders, was taken from the engine room after the fire. A refrigeration engineer, Rolph de Flier, died at Tacoma General Hospital. Their home addresses were not available.

Ambulances and every available piece of Tacoma fire equipment rushed to Port Tacoma Pier No. 2 when the alarm came in. Bluish smoke poured from the diesel-driven luxury ship, queen craft of the Swedish Johnson Line and termed by her owners the fastest cargo vessels in the world with a speed of 23.6 knots.

The Oil Pusher

Anti-Flaring Order Is Not Due To Stop All Production

By JAMES C. WATSON
Oil Editor
Speculation is rife regarding what actually will happen when the Texas Railroad Commission issues its order early this week on the closing in of oil fields where gas is being flared.

Oil operators and oil company executives are not willing to be quoted directly on their ideas. However, there seems to be a general feeling that regardless of the sort of an order the commission may issue, all the wells in all the fields where the commission says there is wasteful flaring of gas will not be shut in.

In the first place, many wells in the fields concerned now are connected with gasoline plants, and none of the gas from such wells is being flared. Therefore, those wells are not due to be shut in.

In the second place, other wells in each of the fields in West Texas due to be included in the shut in order are pumping wells, and are not making appreciable amounts of gas.

Fields Involved
Fields in West Texas scheduled for the shutdown are North Cowden, Foster, Fullerton, Goldsmith, Levelland, McElroy, Seminole, Slaughter and Wasson.

Plans are now being worked out for the building of gasoline plants in each of the fields which will provide for processing all gas now being flared in those areas.

Some fields now are under construction. Completion of others has been delayed on account of the shortage of needed equipment.

It is possible that as soon as the actual order shutting in the offending fields is available, oil attorneys will file applications for injunctions halting the shutdown requirement.

Plans for such injunctions might be based on the fact that the shutting in of the wells might damage them in various ways to a greater extent than the present flaring of the gas is damaging the public good.

Industry Willing
A large majority of the oil companies and individual oil operators are just as anxious to save all gas possible as are members of the Texas Railroad Commission.

The companies and the independents are cooperating, where the laws will allow such cooperation, to conserve the gas.

Evidence of that effort probably can be presented to the courts which in all probability will bring delays in the actual blanket-enforcement of the shut in order long enough to permit plans for eliminating gas flaring to be made operative.

In cases of flagrant flaring of gas in any West Texas fields, where no efforts have been, or are being made to remedy the situation, it is possible that these wells will not be able to avoid the shut in.

However, an immediate wholesale and complete stoppage of the production of oil and gas in any of the West Texas fields which are on the Railroad Commission list of "bad actors" is not expected.

Area Engineers To Meet Here Tuesday

A regular meeting of the Permian Basin Chapter of the Texas Society of Professional Engineers will be held at 7:30 p. m. Tuesday in the conference room of the Humble Oil and Refining Company, second floor, Midland Tower Building, H. E. Bahr, secretary-treasurer, said Saturday.

J. W. Hammond, Houston industrial hygienist, will be the guest speaker. A motion picture, "Birth of an Oil Field," will be shown through the courtesy of the Shell Oil Company.

Chapter officers and directors are requested to meet in Room 301, Midland Tower, 30 minutes before the regular meeting.

On Jan. 1, 1947, there were exactly 41,750 post offices throughout the United States and possessions.

On Jan. 1, 1947, there were exactly 41,750 post offices throughout the United States and possessions.

Midlanders To Speak At Dallas Conference

Several Midlanders are expected to attend a regional conference to be held by the Dallas Geological Society, at the Baker Hotel, in Dallas, on November 18 and 19.

A feature of the two-day affair will be a symposium on the Pennsylvanian reef formations. E. Russell Lloyd, Midland consulting geologist will give a paper on "Reefs in General." W. H. (Henry) Conkling, district geologist in Midland for Sun Oil Company, will discuss the Jameson field in Coke County.

Robert F. Imbt, of Fort Worth, and a former resident of Midland, will lead a discussion of the Todd field in Crockett County. A representative of Seaboard Oil Company of Delaware will give a paper on the Vealmoor field, in North Howard County.

Decline In Market Demand For Texas Crude Is Predicted

AUSTIN —(AP)—The U. S. Bureau of Mines Saturday estimated market demand for Texas crude oil would show a drop of 50,000 barrels daily in December under the November estimate.

Railroad Commissioner Ernest O. Thompson announced the bureau's estimate is 2,450,000 barrels daily. This is 75,500 barrels less than the current estimated production in Texas of 2,523,850 barrels daily, Thompson said.

These figures were announced in advance of Monday's statewide oil prororation hearing here. Allowable production for December will be based on evidence produced at the hearing.

Thompson said the week ended November 6 was the fifth consecutive week which set an all-time high in U. S. oil production.

Texas also reached an all-time peak in production for that week. It drove 780,421 miles without a chargeable auto accident.

The De Gaulleists and Communists may never reach that bloody stage, but events seem to be moving rapidly toward some kind of fateful climax.

De Gaulle just won a big election victory. His party — Rally of the French People (RPF) — last Sunday won 40 per cent of the seats in the upper house of Parliament, the Council of the Republic.

Two Main Planks
The Communists criticize the electoral college system of choosing the upper house, which is selected by 100,011 electors. Flormond Bonte, a Communist spokesman, has castigated the indirect method of voting for the council as "anti-democratic."

De Gaulle's party has two main planks:
1. Change the constitution in order to give the executive stronger powers.
2. Oppose Communism.

De Gaulle quit as head of the French government in disgust at political bickering in January, 1946, and began preparing his own comeback on his own terms.

Meanwhile, the Communists went ahead winning the backing of 5,000,000 voters and as the largest single party in the lower house of Parliament, the National Assembly.

The Communists are not powerful in the Assembly, despite their numerical strength, because other parties gang up on them.

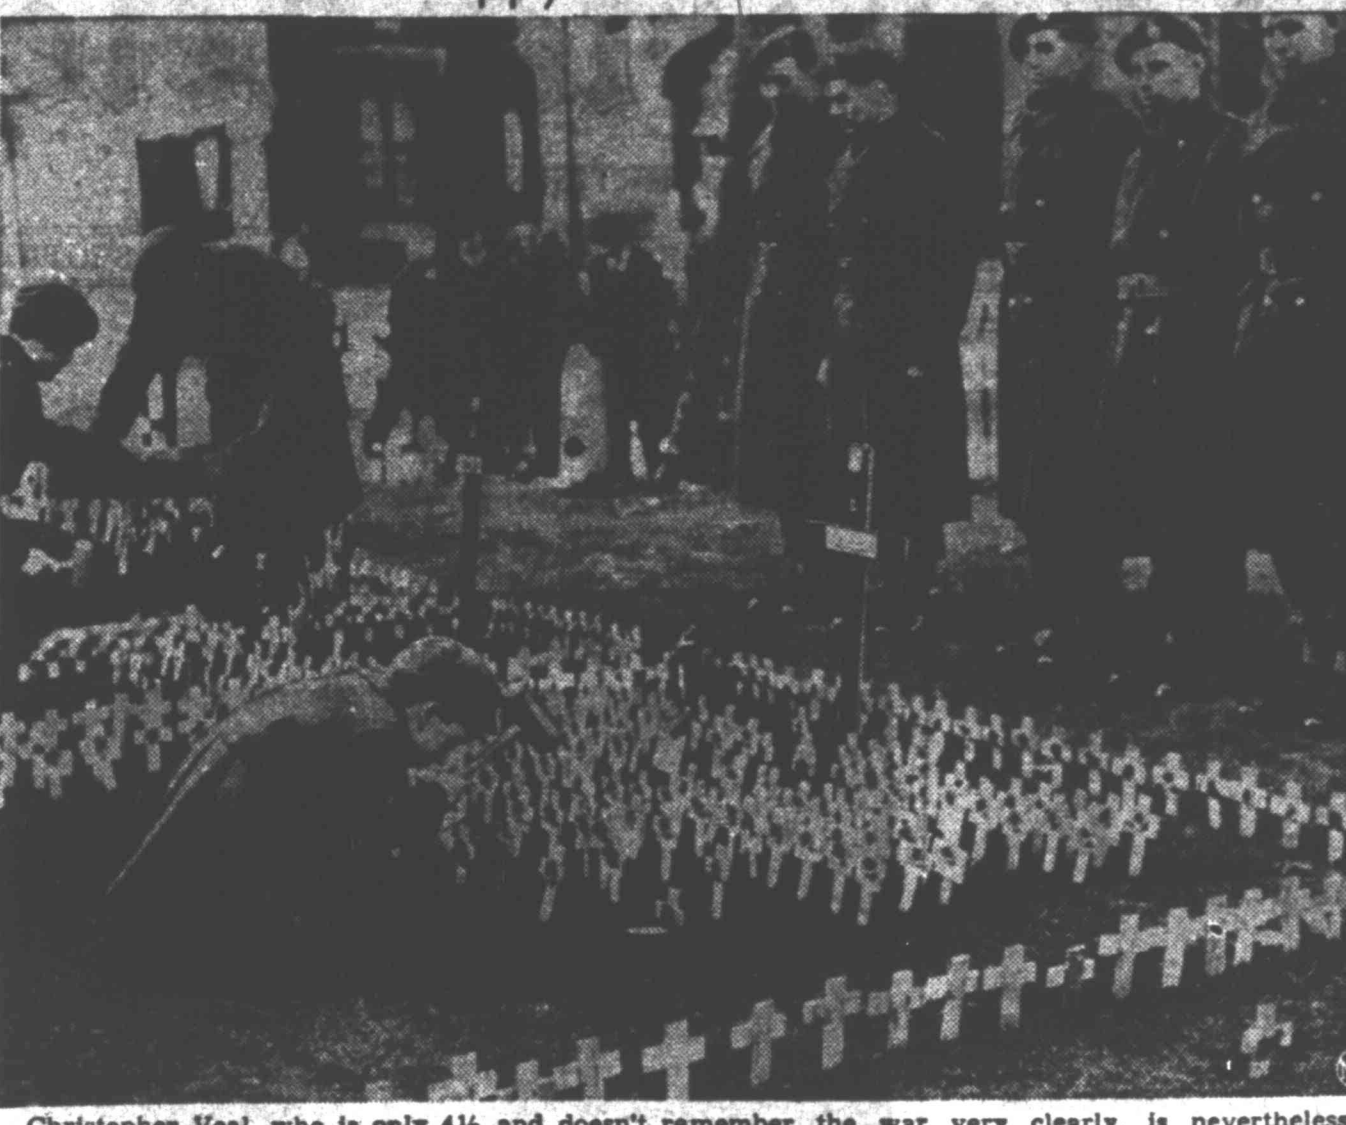

Frenchmen dread it. Nonetheless, the two houses now dramatize the fact France is slowly but surely splitting into two camps.

Frenchmen dread this as much as they shudder at a world divided between the East and West.

Caught in the middle is the present coalition government of Premier Henri Queuille, made up of the Radical Socialist (Conservative) Party, the Socialists and the Catholic Popular Republican Movement (MRP).

But this and similar situations are normal in France which historically is a country of many parties.

Poppy for Remembrance

Christopher Veal, who is only 4½ and doesn't remember the war very clearly, is nevertheless solemn and serious as he hammers his memorial poppy into the ground. The ceremony took place at the Field of Remembrance outside London's Westminster Abbey.

API Basin Chapter Plans Elaborate Annual Meet November 20 At Odessa

Elaborate plans are being made for the annual meeting of the Permian Basin Chapter of the American Petroleum Institute, in Odessa on November 20, to be the "biggest and best" gathering ever staged by the organization.

An attendance of approximately 1,500 persons is expected. The feature of the affair will be a professionally presented musical show.

The talent offered for the show has been booked through the Music Corporation of America. Included will be Bert Mader's orchestra; the Bobby Trio, trio singers and dancers; Diane Ross, exotic dancer; Bobby Winters, comedy juggler; Princess Labonia, specialty dancer; and the Molly O'Day line of dancing girls.

The only business to be transacted at the meeting will be the election of officers for the chapter for 1949.

The entertainment and business program will be held in the auditorium at the Ector County park. A barbecue dinner will be served in the county barn prior to the program.

Admission By Tickets
Admission to the barbecue and program will be by ticket only. The charge is \$1.50 per person. Executives of the organization say that all who attend will be invited to pay their 1949 dues, of \$1.00, at the time they secure their tickets.

Current officers of the chapter are R. B. Saxe, of Odessa, with Gulf Oil Corporation, chairman; Frank R. Lovering, of Hobbs, N. M., with Shell Oil Company, Inc., first vice chairman; J. N. Dunlavy, of Hobbs, with Ekely Oil Company, second vice chairman; Alden S. Donnelly, of Midland, with Honolulu Oil Corporation, third vice chairman; and Jay Boxell, of Midland, with Phillips Petroleum Company, secretary-treasurer.

Congratulations To:
Dr. and Mrs. L. W. Leggett on the birth of a daughter, Lynn, weighing eight pounds, eight ounces.

Mr. and Mrs. N. H. Haag on the birth Friday of a daughter, not yet named, weighing six pounds.

Mr. and Mrs. B. M. Crotty on the birth Friday of a son, not yet named, weighing six pounds, ten ounces.

20 Persons Hurt In Police-Communist Fighting In France

PARIS —(AP)—More than 20 persons were injured Saturday when fighting between police and Communists broke out in three widely-scattered parts of France.

One of those injured was Arthur Ramette, who is considered one of the top six Communists in the country. He is a member of the French National Assembly.

Ramette was hurt by a tear-gas grenade near Douai, in the northern coal fields, when police broke up a forbidden public meeting.

The bloodiest clash was at Putaux, a western suburb of Paris, where 20 were injured in a battle between stone-throwing Communist demonstrators and police. The police fired pistols. Three demonstrators were reported to have been struck by bullets.

In south central France workers kidnapped three police officers and lowered them into a mine shaft with a supply of provisions.

Vatican City, with a population of 1,025 and an area of 108.7 acres, is the world's smallest state.

NW Lea Gets Deep Wildcat; Clower Finishes Discovery

HOBBS, N. M. —Amerada Petroleum Corporation is starting drilling at once on a 12,000-foot wildcat, to test at least into the Devonian in Northwest Lea County, in the region between Tatum and Caprock.

The prospector will be Amerada's No. 1-EFA State. It is located 1,980 feet from south and east lines of section 2-12-33e.

A new discovery from the upper Permian lime has been completed by J. C. Clower at his No. 1 State, in Central-South Lea County, two and one-quarter miles west of the West Eunice field.

The development, located 1,980 feet from south and east lines of section 16-21a-34e, made a 24-hour natural flowing potential of 218 barrels of 29-gravity oil, from pay at 3,945-48 feet. There was no water.

Clower has staked an offset to the new discovery, to be his No. 2 State. It will be 1,980 feet from south and 660 feet from east lines of section 16-21a-34e. Drilling is to start immediately.

Emporer Oil Company No. 1-14 State is to be a 4,000-foot venture into the Permian lime in Central-South Lea County, on the southwest side of the Lynch field.

It is 660 feet from south and 1,980 feet from west lines of section 14-21a-33e. It is contracted to 4,000 feet, and is to begin operations immediately.

Wildcats Making Hole
Continental Oil Company No. 1-29 Warren unit, slated deep venture in East-Central Lea County, six miles north of Eunice, and 1,980 feet from south and east lines of section 29-20e-32e, had penetrated below 7,579 feet in lower Permian lime, and was boring ahead.

Stanolind Oil & Gas Company and C. L. Norsworthy, Jr., No. 1-U State, six and one-half miles south of Hobbs, and four and one-half miles south of the south side of the shallow Hobbs field, had reached 8,845 feet in an unidentified dolomite, and was continuing. It is scheduled to go to around 12,000 feet to try to find and test the Ellenburger.

Phillips Petroleum Company No. 1 Shippl, in Central-East Lea County, three miles west of the northwest side of the Hobbs field, and projected to at least 9,000 feet, and possibly deeper, had drilled to 7,290 feet in lime, and was waiting on a cement plug to cure which had been set to squeeze off a cavity in which circulation had been lost.

Operator will drill out the plug and try to drill ahead in a few days. This development is 660 feet from north and 1,980 feet from east line of section 20-18-37e.

Amerada No. 1 Hamilton, 12,000-foot prospector in East-Central Lea County, 10 miles east of the Lovington field, and 1,980 feet from south and west lines of section 25-16e-38e, had progressed under 5,490 feet in Permian lime, and was making more hole.

Magnolia Petroleum Company No. 1 Federal-Cox, in extreme northeast Lea County, six miles north and slightly east of the initial producer from the Devonian, in the Crossroads field, and 660 feet from south and west lines of section 1-9e-36e, had penetrated under 5,038 feet in Permian lime, and was drilling ahead. It is contracted to at least 12,000 feet, to explore into the Devonian.

In Crossroads Area
Each of the four outposts to the lone producer in the Crossroads field, of Northeast Lea, were drilling ahead, with no shows of production having been developed in any of them up to now.

Magnolia No. 1-C Santa Fe-Pacific, 660 feet from south and west lines of section 26-9e-36e, had reached 11,232 feet in lime and was making more hole.

Skelly Oil Company No. 1 Sawyer, 660 feet from north and east lines of section 33-9e-36e, had progressed past 11,329 feet in an unidentified dolomite, and was continuing.

Mid-Continent Petroleum Corporation No. 1-E U. D. Sawyer, on location south of the Crossroads opener, and 660 feet from north and 1,980 feet from west lines of sec-

Seaboard Personnel Honor Guests At Vealmoor Oil Party

Executives and employees of Seaboard Oil Company of Delaware in Midland, Big Spring, and Dallas, were honor guests for a celebration at Vealmoor in North Howard County on November 11.

The affair was held to recognize the development of the Vealmoor oil field, 15 miles north of Big Spring, and which adjoins the Vealmoor rural community.

Citizens of that area, and the Big Spring Chamber of Commerce were joint hosts. A barbecue supper was served.

The Vealmoor field has five completed oil producers from the Pennsylvanian lime, about 8,000 feet. There are now three drilling wells in the area. One of them is a wildcat to the Ellenburger. The other two are outposts to the Pennsylvanian production. Up to now all development in that region has been on leases owned by Seaboard.

Drilling contractors and their employees, who have participated in operations in the field were also included among the honorees at the Vealmoor party.

Halliburton Exhibits New Unit Tuesday

An exhibition of Halliburton Oil Well Cementing Company's new field calibrating unit is to be presented in Midland Tuesday, R. G. Kelly, division superintendent of that concern has announced.

The unit consists of a Spartan Main Traileroch equipped with a 10,000 p.s.i. dead weight tester, a 50 degrees Fahrenheit to 250 degrees Fahrenheit controlled temperature bath, and other equipment necessary to clean and inspect the HOWOCO "B.T." pressure recording device. This gauge is used in connection with HOWOCO formation drill-stem testing.

The unit will be parked in front of the Petroleum Building from 8 a.m. until 6 p.m. for public examination. It is to be exhibited in Odessa the following Wednesday.

C. C. Olsen, of Duncan, Okla., from Halliburton headquarters, is to be in charge of the exhibition.

Maxwell, Henderson Join Staff Of SPOC

W. S. Maxwell and Foster Henderson are new men in the Midland office of Stanolind Oil Purchasing Company, which is under the supervision of Glenn Shoemaker.

Maxwell, who recently came here from Tyler, is a crude oil scout, and Henderson is listed as a clerk.

The offices are in the new Stanolind Building. The Stanolind Oil Purchasing Company's organization in Midland handles the business of that concern for all of the Permian Basin. The office formerly maintained in Lubbock has been closed and combined with the Midland office.

1948's Woman

Dr. Lillian M. Ginnore, of Montclair, N. J., has been named "Woman of the Year" by the American Woman's Association. Mother of 11 children and grandmother of 19, she has a successful career as a management engineer at the age of 70.

Arctic Clothing Issue 'Inadequate'

Navy doctors, observing the largest war games since the war, called the Arctic clothing issue worn by Marines hitting the beach at Argentina, Newfoundland, "inadequate." They said many men who got wet in landing would have quickly frozen to death had the temperature actually been 40 below, as simulated for messenger purposes. This 80-mm. mortar team wears the criticized outfit, which include rubber boots and rubberized garments, fur-lined parkas and hoods. (Photo by NEA-Acme staff correspondent Charles Seewood.)

Sun Tests Possible New Pay In Schattell Area Of Scurry

A drillstem test was being run at Sun Oil Company No. 3 Emil Schattell, Southwest Scurry County wildcat, on an unidentified lime, shale and chert horizon at 1,910-30 feet. That zone had logged some scattered signs of oil and gas. This venture is 600 feet from north and west lines of section 186, block 97, H&TC survey. That makes it a northwest outpost to the same company's No. 1 Schattell, discovery well flowing production from the Canyon lime.

No. 2 Schattell failed to produce from the Canyon, and has been drilled deeper to try to find another pay.

Sun No. 4 Schattell Has Water On DST

Sun No. 4 Schattell, another flanker to the Schattell Canyon discovery, and 1,980 feet from south and 2,000 feet from east lines of section 186, block 97, H&TC survey, ran a drillstem test in a Pennsylvanian lime at 7,005-25 feet. The tester was open one hour. There was fair to good flow of air throughout the period. Recovery was the 1,000-foot water cushion, 150 feet of gas cut drilling mud, and 1,800 feet of salt water, with a strong odor of sulphur. There were no signs of oil.

The venture is drilling ahead below 7,000 feet in lime. Development of the water considerably dampens the possibilities of this project being a producer from the Canyon.

Shell Recovers Salt Water At 1 Hawkins

Shell Oil Company No. 1 Hawkins, South-Central Gaines County discovery for heavy, natural production from the Devonian lime and chert about 10,500 feet, took a 30-minute drillstem test in the lower horizon of that formation at 10,597-675 feet. Recovery was in excess of 150 barrels of salt water, and there were no shows of oil or gas. The prospect is drilling ahead, and so far as has been reported it will continue to its original objective of going to about 12,500 feet to try to find and test the Ellenburger.

The exploration is 15 miles south and slightly west of Seminole, two and one-half miles southwest of the Robertson field, where the production is from the Permian, above 7,500 feet. The drilite of No. 1 Hawkins is 1,985 feet from north and 605 feet from east lines of section 8, block A-23, psl survey.

Sinclair Again Tests Andrews Discovery

Sinclair Prairie Oil Company No. 2-154 University, discovery for commercial amounts of oil from the Devonian, in the Shafter Lake area of North-Central Andrews County, was bottomed at 11,776 feet, and was taking a drillstem test from 11,746 feet to the current total depth. This project had a recovery of 95 barrels of clean oil during a three hour drillstem test in the top of the Ellenburger at 11,695-746 feet.

This is the first Ellenburger oil to be developed in the multi-pay Shafter Lake field. The Sinclair exploration is 1,980 feet from north and 600 feet from east lines of section 24, block 13, University survey. It has already shown production from the Wolfcamp of the Permian, and from the Devonian.

Texas Pacific Gets More Signs Of Oil

Texas Pacific Coal & Oil Company No. 1-F University, on the northeast side of the Shafter Lake region of North-Central Andrews County, and which has already shown production from the Wolfcamp of the Permian, and from the Devonian, took a three hour and 15 minute drillstem test on the Devonian interval at 9,700-75 feet. Some gas showed at the surface after 90 minutes. There was no fluid at the surface during the investigation.

Recovery was 430 feet of heavily oil and gas cut drilling mud. There were no signs of formation water. The prospect is making hole, and had reached 9,825 feet in lime and chert at last report. It is 600 feet from south and 1,980 feet from east lines of section 13, block 13, University survey.

Magnolia No. 1 Hicks Continues To Deepen

Magnolia Petroleum Company No. 1 Hicks, Southeast Gaines County Ellenburger, exploration, 600 feet from north and west lines of tract 16, league 273, Loving County School Lands survey, had reached 9,123 feet in sand and lime, and was drilling ahead. It is due to go to 12,500 feet, if necessary, to explore the Ellenburger. Up to now it has not reported any shows of production.

Seaboard Runs DST At Dawson Wildcat

Seaboard Oil Company of Delaware No. 2 Lee, deep prospect in Southeast Dawson County, 15 miles southwest of Lamesa, and 460 feet from north and east lines of section 47, block 34, TP survey, T-5-N, ran a 33 minute drillstem test at 10,333 feet in sand and lime, and was drilling ahead. It is due to go to 12,500 feet, if necessary, to explore the Ellenburger. Up to now it has not reported any shows of production.

Permian Basin OIL & GAS LOG
James C. Watson
Oil Editor

Southern Minerals Drilling On In Coke

Southern Minerals Corporation No. 1 McCabe, Southwest Coke County wildcat to test into the Ellenburger, and which is located 1,980 feet from south and 600 feet from east lines of section 25, block 2, D&SW survey, had reached 7,295 feet in an unidentified lime and was making more hole. It has not reported having encountered any signs of possible production up to now.

It is 20 miles northeast of Snyder, and 600 feet from south and west lines of section 636, block 97, H&TC survey.

No indications of oil or gas in any sort of commercial quantities have been reported from this venture.

Ellenburger Test In Scurry Bores Ahead

Sun Oil Company and The Ohio Oil Company No. 1 Sallie Helms, Northeast Scurry County exploration to a possible bottom of 8,000 feet to test into the Ellenburger had reached 5,701 feet in sand and shale, and was drilling ahead. It is 20 miles northeast of Snyder, and 600 feet from south and west lines of section 636, block 97, H&TC survey.

No indications of oil or gas in any sort of commercial quantities have been reported from this venture.

Stanolind To Offset Shafter Lake Field

A north outpost to the Shafter Lake field of Northwest Andrews County has been spotted by Stanolind Oil & Gas Company. It is to be that concern's No. 1-BH University of Texas, 600 feet from west and south lines of the northeast quarter of section 14, block 14, University survey. That puts it about 11 miles northwest of the town of Andrews.

Projected depth is 10,000 feet, with a string of rotary tools. That is scheduled to take it into the Devonian, one of the five pays in the pool. The Shafter Lake field also is proven for production from the Wolfcamp, Pennsylvanian, horizon, and recently from the Ellenburger.

Spudding operations are slated to start November 16.

Humble Makes New Hole In NE Ward

Humble Oil & Refining Company No. 7 Yarbrough & Allen, deep prospect in Northeast Ward County, about seven miles northeast of the town of Monahans, was boring ahead under 10,455 feet in an unidentified lime section picked by observers as possibly Ellenburger.

It is 1,980 feet from south and 600 feet from west lines of section 17, block B-13, psl survey.

Seaboard Deepens At Trio In Vealmoor Area

In the area surrounding the Vealmoor field of extreme North Howard County, Seaboard Oil Company of Delaware was continuing to make hole at three projects.

The No. 2 Tora Campbell, Ellenburger wildcat in the region, 600 feet from south and east lines of section 29, block 32, T-3-N, TP survey, was beyond 9,254 feet, penetrating lime and shale.

Seaboard No. 2 W. C. Campbell, offset to proven production from the Pennsylvanian lime above 8,000 feet in the Vealmoor field, was boring on shale, 650 feet from south and east lines of section 29, block 32, T-3-N, TP survey.

It is located 1,980 feet from south and 600 feet from east lines of section 29, block 32, T-3-N, TP survey.

Mitchell Prospector Is Making New Hole

Drilling was continuing at Seaboard No. 1 Charles C. Thompson, deep wildcat in Central Mitchell County, eight miles southwest of Coltrane City. Last report had it making hole beyond 7,000 feet in an unidentified shale and chert formation.

Location is at the center of the northwest quarter of the northwest quarter of section 76, block B-27, psl survey.

Test In Tom Green Develops No Shows

A drilite test was taken in the Ellenburger, at J. Perkins and Sun No. 1 C. Lindholm, West-Central Tom Green prospect, five miles west of the city of San Angelo, and 600 feet from south and west lines of section 1, AB&M survey.

The examination was at 6,430-43 feet, with the tool open 30 minutes. Recovery was 30 feet of drilling mud, with no shows. Top of the

Tex Harvey Resumes Deepening At 1 Floyd

After being held up a short period with minor repairs, Tex Harvey Oil Company was continuing toward the East Midland County Ellenburger with its No. 1 Floyd, 2,000 feet from north and 600 feet from east lines of section 15, block 37, T-3-S, TP survey.

Last report had it below 11,456 feet in lime and chert. No indications of petroleum have been logged. The drilite is about 13 miles southeast of the city of Midland.

North Upton Venture Deepens In Montoya

Approximately 30 miles south of Midland, and across the line into North Upton County, Magnolia Petroleum Company No. 1-A TXL, possible discovery from the Pennsylvanian, was making new hole 12,000 feet in a lime formation unofficially identified as the Montoya, upper Ordovician.

This prospect is to go ahead for a test into the Ellenburger.

It is 600 feet from north and west lines of section 39, block Y, TORR survey.

Sun Spots Wildcat In West Crockett

Sun Oil Company has staked location for a 2,300-foot, cable tool wildcat in West Crockett County, as its No. 1 Half-Bivins estate. The drilite is 330 feet from the south and 3,675.8 feet from east lines of section 52, block 1, T&GN survey, about 4 1/2 miles west of the Clara Couch field. It is on a 2,640-acre lease.

Ground elevation is 2,440 feet. Operations are scheduled to begin November 17.

Texas 1 Scharbauer Shutin For Repairs

The Texas Company No. 1 Scharbauer, wildcat slated to test into the Ellenburger in West Midland County, was shut down on 13,088 feet for repairs. Current formation is a sandy lime thought by some observers to be Simpson.

No possibilities of production have been encountered in any horizons penetrated. The Ellenburger is expected somewhere above 13,500 feet.

It is one mile south of the Midland Air Terminal, and 600 feet from south and west lines of section 20, block 40, T-2-S, TP survey.

Borden Wildcat Gets Slight Petroleum Signs

Slight indications of production were encountered by H. L. Hunt at his No. 1 Clayton & Johnson, South-Central Borden County prospector, on a core from 4,964-74 feet.

Recovery was 10 feet, with a breakdown of two feet of black shale, one foot of brown lime with a slight odor and trace of fluorescence, and the last seven feet was black shale.

The venture was drilling ahead. Contract depth is 8,000 feet. Location is 600 feet from south and west lines of the north half of section 24, block 31, T-4-N, TP survey, five and one-half miles south of the town of Gall.

Humble 1 Wardlaw Tests Ellenburger

Another drillstem test in the Ellenburger was taken at Humble Oil & Refining Company No. 1 Wardlaw, deep wildcat in West Tom Green County, 600 feet from the southwest corner and 1,320 feet from west line of section 863, A. Speder survey, 12 miles west of San Angelo.

The tool was open 32 minutes at 7,865-7,118 feet. A weak blow of air held at the surface for part of the period. Recovery was 60 feet of mud, with no shows of oil, gas or water.

Last report had the project making hole below 7,120 feet in lime and chert.

West Abandons Deep Failure In Presidio

In Presidio County, four miles southeast of the town of Presidio, Wesley W. West has plugged and abandoned his No. 1 Presidio Trust on 8,008 feet in lime. No possibilities of production were encountered.

The dry hole is 1,800 feet from east and 973 feet from south lines of section 1, block 1, D&P survey. As this wildcat was drilled tight, no information on its progress was available.

Amerada Petroleum Corporation drilledstem tested its No. 1 Carrie McDonald, South-Central Sterling County prospector from 8,462 feet to 8,510 feet in an unidentified lime. The tool was open one hour. Recovery was 200 feet of drilling mud. There was no oil, gas or water. More hole was being made. Location is 600 feet from south

Texas, New Mexico Near Settlement Of Pecos Water Dispute

AUSTIN—(AP)—Settlement of a 24-year-old dispute between Texas and New Mexico over division of Pecos River waters appeared certain Saturday.

Representatives of the states on the Pecos River Compact Commission agreed to nine principles which will form the basis of a compact. A committee will meet November 28 at Denver, Colo., to begin drafting the compact.

Heart of the agreement is a provision that New Mexico will do nothing that would cause Texas to receive a smaller proportion of the water supply than is being received under present conditions.

The accord was reached Saturday after a week-long series of commission meetings and private conferences.

Members of the commission are John Bliss of Santa Fe, representing New Mexico; Charles H. Miller, of Barstow, representing Texas, and Chairman Berkeley Johnson of Santa Fe, federal representative.

and 900 feet from west lines of section 3, block T, TP survey. That puts it about six miles north and one mile west of the discovery well for the MARV pool.

No. 1 Neal Prepares To Test Fusselman

Preparations for a drillstem test were being made at Richardson & Bass No. 1 Neal, deep prospect in Northeast Upton County, seven miles north of the Benedum field.

Plugged-back total depth was 11,900 feet in a formation identified by unofficial observers as probably Fusselman lower Silurian.

Previously, the venture had drilled to 12,543 feet in the Ellenburger, developed salt water, and plugged back to make this test.

It is located 600 feet from north and 1,980 feet from east lines of section 9, block Y, GC&SP survey.

Projects Dig Toward Ellenburger In Upton

In East-Central Upton County, five projects, flanking the flowing Ellenburger, are continuing to drill toward their projected depths and Ellenburger tests.

Plymouth Oil Company No. 1-47 Gordon was, when last reported, under 10,408 feet in lime and shale. Location of the venture is 600 feet from south and east lines of section 47, block Y, TORR survey.

Slick-Urschel Oil Company No. 1 Dixon, south outpost to the Benedum pool, had reached 9,895 feet and was continuing to deepen through lime and shale.

This project is located 600 feet out of the northwest corner of the west half of section 3, C. Bendle survey.

Projects Dig Toward Ellenburger In Upton

The No. 1-B Gordon, Slick-Urschel's northwest flanker to the new field, was penetrating lime and shale below 9,881 feet. It is 600 feet from south and east lines of section 47, block Y, TORR survey.

Slick-Urschel No. 1 Elliott, located 600 feet from south and east lines of the west half of section 10, C. D. Moseley survey, was under 8,578 feet and drilling ahead through lime.

The No. 1-B Gordon, Slick-Urschel's northwest flanker to the new field, was penetrating lime and shale below 9,881 feet. It is 600 feet from south and east lines of section 47, block Y, TORR survey.

Slick-Urschel No. 1 Elliott, located 600 feet from south and east lines of the west half of section 10, C. D. Moseley survey, was under 8,578 feet and drilling ahead through lime.

Reagan Prospector Is Drilling In Fish

A whipstock was set by Plymouth at its No. 1-46 Elliott, West-Central Reagan County wildcat, and the venture was drilling by fish lost in the hole above 10,818 feet, total depth. Last report had it at 6,848 feet in the side-tracked hole.

Location is a mile and a quarter northeast of the Benedum field, and 600 feet from south and east lines of section 46, block Y, MK&T survey.

In the same area, Plymouth was drilling ahead on its No. 1-2 Dixon, scheduled Ellenburger prospector, 600 feet from north and 2,526 feet from west lines of section 2, Peter Beach survey No. 2. It was below 10,700 feet in Devonian lime and chert.

Stanolind, Humble Deepen Reagan Tests

In Reagan County seven miles north of the Barnhart field, Humble No. 1-E Sawyer Cattle Company has reached 9,362 feet and is drilling ahead through lime and shale. The British lease wildcat is 600 feet from south and 1,980 feet from east lines of section 142, block 1, TP survey.

Three and one-half miles northwest of the Barnhart pool, Stanolind No. 1 E. P. Miller, was deepening under 7,762 feet in lime. It is located in the southeast quarter of the northwest quarter of section 226, block 1, TP survey.

Pecos Wildcat Finds More Oil Indications

More indications of possible production from the Yates sandy lime in North Pecos County were shown at Hawacha Oil & Gas Company No. 1 J. C. Traylor, scheduled Ellenburger wildcat, 600 feet from north and 330 feet from east lines of northwest quarter of section 90, block 3, H&GN survey, about seven miles southwest of Grandfield.

A core was cut from 2,018 feet to 2,025 feet. Recovery was seven feet and three inches, described as three feet and two inches of sand, which was bleeding oil, and four feet of dolomite.

The venture is now drilling ahead toward the deep zone.

CYPRESS GOVERNOR QUILTS

LONDON—(AP)—Lord Winster has resigned as Governor of Cyprus, the British island, which is 600 miles from the Eastern Mediterranean. The Colonial Office announced Saturday.

(NEA Telephone) A grand jury in Washington, D. C., has indicted Helen Campbell with Rep. J. Parnell Thomas, Republican of New Jersey, on charges of conspiracy to defraud the government by taking salary "kickbacks" from Thomas' congressional employees. Miss Campbell is a former secretary to Thomas.

Farm Union Decries Mexican 'Invasion'

CINCINNATI—(AP)—The AFL National Farm Labor Union Saturday asked for prosecution of the "officials or others responsible for the entry of the United States." The union, in annual convention here, adopted a resolution on the matter after hearing its education directors report that thousands of such workers "are illegally held in virtual slavery in the United States."

The union's resolution declared: "This premeditated invasion by Mexican workers was carried out in violation of our laws, for the purpose of flooding the farm labor market with low-paid workers who are subject to living and working conditions bordering on penance."

These Puppies Cost Her Plenty

REDWOOD CITY, CALIF.—(AP)—Sophie, a French poodle, is a distraught mother after nine years of happy, trusting spinsterness, complains her owner in a \$1,600 suit filed here.

The damages were demanded of Dr. P. H. Hand, Millbore Pet Shop proprietor, by Miss Dorr Bothwell, San Francisco textile designer.

She said that while Sophie was in Doctor Hand's care, he failed to fend off the advances of a black Cocker Spaniel. The suit alleged Sophie's whelping of nine pups impaired her show dog value by \$500 and took 40 hours of Miss Bothwell's \$25-an-hour designing time for puppy sitting.

Doctor Hand replied Sophie was neutric and having puppies did her good.

TEXAS OIL ROUNDUP—Axe To Fall On Wasteful Oil Production In 17 Texas Fields

By MAX B. SKELTON
HOUSTON—(AP)—The axe is expected to fall Monday on Texas crude oil production.

This is the day the State Railroad Commission has indicated orders will be signed shutting down 17 fields producing approximately 400,000 barrels of crude daily.

The conservation-minded commission last Wednesday authorized preparation of the orders. The shutdown to remain effective until wasteful flaring of oil well gas is halted.

The shutdown would drop the nation's daily crude production from an all-time high of 4,625,700 barrels (as of the week ending November 6) to approximately 5,235,000, a figure about 15,000 barrels less than the daily average a year ago.

Texas production would fall to around 4,125,000 barrels daily, the state currently producing about 44 per cent of the nation's crude.

In Texas, it long has been the practice to flare, or burn in the open field, gas produced in solution with oil. This is the gas that supplies energy to force oil to the ground's surface.

Wants Gas Processed
The commission wants the gas processed or returned to the ground. Previous shutdown orders designed to force such conservation have been upheld by the State Supreme Court.

Operators in many of the state's fields have complied through building recycling plants to process the gas and permit it to be sold to gas companies.

The commission maintains it is a different story with the 17 fields involved in the pending orders.

"This shutdown will be purely a conservation measure," Chairman Ernest O. Thompson said. "For three years the commission has been warning the operators to conserve flare gas or have their wells shut down."

Just how will the closing of the fields affect the nation's consumers of petroleum and petroleum products?

The commission apparently is confident the industry's supply-demand situation is in excellent condition, despite the coming winter demands for heating fuels.

All-Time High
Several speakers at the American Petroleum Institute convention, which concluded Thursday in Chicago, released industry statistics which probably were available to the commission before its course of action was set.

Fred Van Coven, institute statistician, said an all-time high of above-ground stocks for all oils on October 31 totaled 582,000,000 barrels, compared with 514,241,000 barrels a year earlier.

He said crude production has increased 750,000 barrels daily since the war, and that between 22,500 and 28,000 wells will be drilled this year as compared with 21,172 last year and 23,911 in 1920, the previous record.

William R. Boyd, Jr., New York City, institute president, said the supply-demand situation is "most optimistic."

John W. Boatwright, general manager of the Distribution Economics Department, Standard Oil Company of Indiana, said supply of residual fuel oil is outstripping demand and that only in the field of kerosene and distillates does the industry face a challenge.

Upper Range
The head of API's committee on long-term petroleum availability, L. F. McCollum president of Continental Oil Company, said: "By 1953 the availability of natural petroleum produced in the United States is estimated to reach an upper range of 7,300,000 barrels a day. That figure would be 2,900,000 barrels a day more than actual production in the peak war year of 1945."

The industry also received a bit of encouragement last week from Washington.

A Senate commerce subcommittee dropped plans for an inquiry this fall into oil supplies.

Senator Brian McMahon (D-Conn.), acting chairman of the group, said the action results from reports there will be sufficient heating oil and gasoline to meet winter demands.

He said industry and government officials "seem to be practically unanimous in the opinion fuel supplies will be adequate to see home owners through the winter."

Community Chest—A Must

The annual finance campaign of the Midland Community Chest is underway and citizens are being called upon to give liberally to the organization through which the operations of six youth and welfare organizations are financed.

The Chest goal this year is \$33,923, an increase of more than \$11,000 over the 1947 quota, and citizens must increase their 1948 gifts in like proportion if the drive for funds is successful.

The Chest truly is community-wide in scope and every man, woman and child should consider it his or her duty to contribute. How much to give? The answer to that question rests with the individual, but needless to say, individuals and organizations must give more liberally than ever before if the \$33,923 goal is reached.

Members of the Big Gifts and Special Gifts divisions have been working hard the last week, and the general solicitation will get underway early this week.

More than 200 busy citizens will be engaged in the campaign, giving liberally of their time as well as their means in the worthwhile program.

The six worthwhile organizations, with the amounts of their individual budgets for 1949, are as follows: Boy Scouts, \$12,000; Girl Scouts, \$9,435; Youth Center, \$8,930; Goodfellows, \$600; Salvation Army, \$1,500, and U. S. O., \$785.

That each of the above mentioned organizations is most worthwhile goes without saying. There is little need in again citing the goals, accomplishments and benefits of the various agencies.

The Community Chest must be filled if the participating organizations are to do the jobs expected of them. It is the duty of each and every citizen of Midland to see that the Chest is filled promptly.

Give liberally to the Community Chest NOW.

Toned-Down Picnics

It will be tough on future freshmen picnics at one West Texas city. The council of this particular Permian Basin city recently adopted an ordinance prohibiting drinking at school socials... dances, games or other functions.

On the Air Waves

Answer to Previous Puzzle. A crossword puzzle grid with clues listed on the left and right sides.

Look, No Victory

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

WASHINGTON — Now that the election hubbub is passing its term, we have to face the cold and unpleasant fact that the Berlin airlift is in danger of buckling.

Chagrined and burdened with a paper losing \$6,500 a week, the Turker forces are now seeking a buyer to take over the headcase of being the third Republican paper in Democratic surroundings.

Note—Anna Boettiger should know that her accounting department, at the time she was in need of funds, had "lost" \$25,000 cash, which the new owners found in a bank but not on the books.

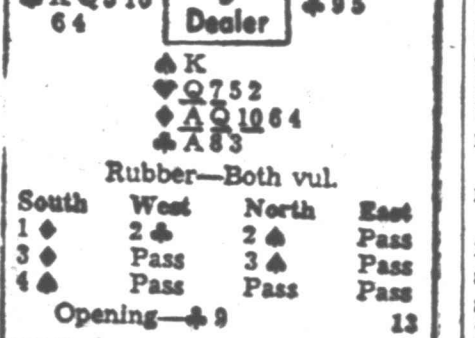

Hoover Discovers Dewey. Herbert Hoover was talking to friends in New York just before the election, and got off some pungent paragraphs about the Republican candidate for president.

Reece, it will be recalled, was Taft's appointee as chairman of the Republican national committee and, as such, worked against Dewey's nomination. Revercomb or Reece, continued Hoover, referring to the Republican candidates for the Senate in West Virginia and Tennessee.

McKenney on Bridge

By WILLIAM E. MCKENNEY, America's Card Authority, Written for NEA Service

One of the New York star players who will be on hand for the national tournament at the Roney Plaza Hotel in Miami Beach, Fla., the first week in December is Samuel Stayman.

could cash the king of spades, chuck two clubs on the spades, and then start cross-ruffing. But Sam got into four spades and made it.

He won the opening lead of the nine clubs in dummy with the ace, then cashed the king of spades. The deuce of hearts was led, West won, cashed the king of clubs and continued with the queen.

Sam suddenly realized that West probably had held the singleton ace of hearts. He knew that the queen of clubs would be over-ruffed, and if he allowed East to over-ruff it, West would get a ruff in hearts.

Plans Completed For Firemen's Ball

Final arrangements will be made this week to handle the largest crowd in the history of the event at the Annual Firemen's Benefit Ball. The ball will be held in the American Legion Hall Saturday night.

WASHINGTON COLUMN

Bureaucrats' Silly Season Has Air Force Flying In Circles

By PETER EDSON, NEA Washington Correspondent. WASHINGTON — In their spare time, government employes have a lot of fun kidding their superiors. Let some big bureaucrat or brass announce a policy that doesn't make sense, and sure enough, the civil servants will start writing confidential, satirical memos to each other, making fun of the boss in goofy gobbledygook.

One such memo that has been going the rounds in the Pentagon Building where Army, Navy and Air Force have their headquarters, is a fake transcript of an imaginary press conference with an aviation general. It is carefully stamped "Top Secret." Understand, it never took place. But here are its highlights:

Question—General, what are your plans for the next war? Answer—There won't be any next war. When all the other nations hear our plans, they won't dare to start a war.

Q—Well, what are the plans? A—First of all, we will restrict our offensive to the air. By fabricating an overwhelming offense, we can ignore the defense. This can be achieved by readnaughts of the air. We refer to these as "air-naughts."

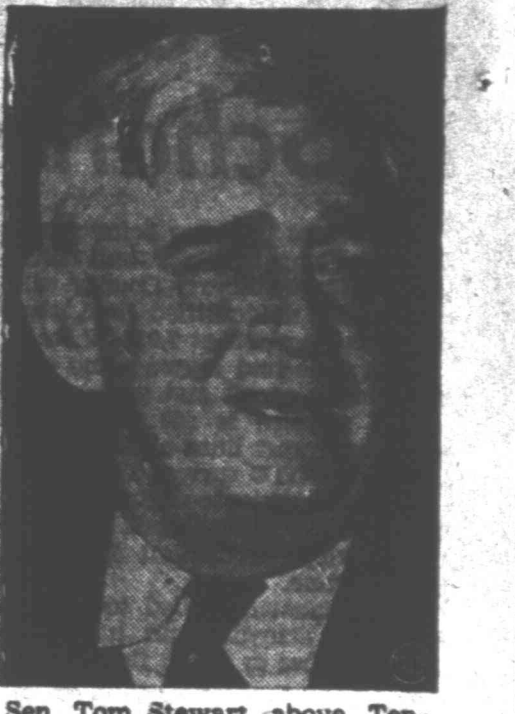

Q—What will the airnaught be like? A—It will operate on the closed chaotic principle. This is the procedure whereby an aircraft can bomb a target and keep going, returning to its starting point without turning around.

Q—How much fuel? A—Well, a plane standing on the ground is traveling about 1,000 miles an hour because the earth rotates 24,000 miles in 24 hours. We should be able to add another 1,000 miles an hour to that, and thus get around the world in 12 hours with optimum velocity.

Q—Will the airnaught carry any payload? A—Definitely. Every member of the crew will draw flight pay. Q—Does this mean you will have any trouble getting enough fuel? A—None at all. We are working on a fuel-recovery system by which each plane recovers the exhaust gases of the plane ahead, and thus manufactures its own fuel.

Q—But, general, how will the first plane get its fuel? A—There won't be any first plane. There will be a continuous ring of planes so that each one will have a plane ahead of it. This constitutes a sort of endless bomb belt. No bases needed. Q—Does this mean that planes would be refueled in the air? A—We would go much farther than that. We expect to reserve the plane in all respects and exchange flight crews even while airborne. Thus we can dispense with bases when the program is ultimately started.

May Get Post

Sen. Tom Stewart, above, Tennessee Democrat who lost to Rep. Estes Kefauver in the primaries, is believed in line for the job of Senate sergeant-at-arms. Kefauver went on to win Stewart's Senate seat.

Building Climbs To \$5,337,580; Week Is \$98,050

Construction in Midland was steady during the week ending Saturday with \$98,050 in permits for building issued to bring the 1948 total figure to \$5,337,580.

J. B. Farris received five permits for five frame residences, total \$24,000. The residences will be located at 908 and 910 North Weatherford Street and 911, 913 and 915 North Edwards Street. Costs range from \$4,000 to \$5,500 and sizes range from 28 to 30 to 30 by 48 feet.

Floyd Pace was issued a \$12,000 permit to build a brick veneer residence with garage attached at 2024 West Indiana Street, 36 by 60 feet. A permit for \$8,000 was taken by H. O. Davy for a concrete and tile frame residence at 1310 North Big Spring Street, 30 by 46 feet.

F. W. Stonebocker took a permit for \$8,000 to build a frame duplex at 407 North Baird Street, 32 by 44 feet. H. H. Hamlin was issued an \$8,000 permit to build a pumice tile residence with attached garage at 2215 West Louisiana Street, 34 by 48 feet.

Fowler and Stanley firm received a permit for \$8,000 to build a brick, tile and concrete residence with attached garage at 1808 West Louisiana Street, 28 by 48 feet. Other permits listed include two rooms, 30 by 20 feet; William Crenshaw, \$2,000, alter frame residence at 946 North Baird Street, adding two rooms, 14 by 15 feet; Lester Short, repair brick and tile business structure at 109 North Main Street, size 25 by 100 feet; Laura Washington, \$850, frame residence at 312 South Lee Street, 28 by 24 feet; C. T. Adams, \$500, frame residence at 704 Bay Street, 12 by 24 feet.

The Christian Science Society was issued a permit for \$3,500 to build a pumice stone church at 411 North O Street, 28 by 40 feet.

Water into Darkness

Bulldogs Brand Big Spring Steers 37 To 0

Show Power With Decisive Victory

By TANNER LAINE

The Midland Bulldogs branded the Big Spring Steers 37-0 in Memorial Stadium here Friday night for the most decisive Purple victory within District 3-AA in years and years.

It was all Midland from the start and the Bulldogs threw crunching blocks and ran hard in a manner pleasing to their supporters, many of whom had been waiting a long time for such a night.

Give credit to all the Midland Bulldogs Coach Barnes Milam cleared the bench and not a one of the youngsters failed to produce his part in the victory.

It was more than a victory. It presented a Midland ball club which has found itself and having tasted the sweet of winning would like some more. Midland is no longer anybody's pushover in District 3-AA.

Midland bewildered Big Spring, which had expected to give the Purple a battle and maybe an upset. The hungry Bulldogs absolutely devastated the Steers with such hard playing it looked easy.

When you block and run as the Bulldogs did Friday night, you win ball games.

Minutes Old, When—The game was only minutes old when Midland tallied, the first time the Purple got the ball. Big Spring received and could not go, so punted out of bounds on the Midland 22. Taking over there, the Bulldogs went for a TD. Cecil Steinhilber and Bill Little alternated in carrying the ball to the Big Spring 42-yard line. Robert (Moe) Price took a handoff, broke into the open and dashed 42 yards for the hitting score with Big Springers reading his jersey number all the way. Larry Buckingham's extra point kick was no good. It was Midland 6, Big Spring 0.

Still in the first quarter, Big Spring tried to get again and could not. The Steers punted out of bounds on the Midland 17. Midland was gone again. Stephens ripped to the Midland 37, a 20 yard pickup. Little romped to the 45, Stephens swept to the Big Spring 43. Buckingham took a handoff and went to the Steer 37. Little bumped to the 32. A Bulldog pass went incomplete. Price broke open and away to the 11-yard line of Big Spring. Little fairly exploded over his own right tackle and went over standing up for the second TD. Donald Deel's place kick for point was blocked. It was Midland 12, Big Spring 0.

Early in the second quarter, Midland had a touchdown called back and drew a 15-yard penalty. The Bulldogs had taken the ball over on a punt on their own 46-yard line. Little bruised to the 45. Then Stephens broke into the open and outran the panting Steers 52 yards across the goal-line. But there was a flag and Midland drew a penalty for holding.

Cedlar's Parcelase—The Purple punted after failing to go this time. Big Spring still couldn't percolate and punted out-of-bounds on the Midland 45. Little charged to the 50. Buckingham took a handoff and ran to the Big Spring 29. Two passes by Midland went incomplete. Wow! Here he went again, this boy Price slipped over tackle, cut back sharply to his left and angled to a touchdown just inside the double-stripe flag. Buckingham missed another extra point try. It was Midland 18, Big Spring 0.

Big Spring followers took heart at a pass play which carried 43 yards over the goal-line late in the second quarter. It was an illegal pass reception, handled by two Big Spring players, one of which lost possession of the ball and another gobbled it up without Midland touching and romped to what looked like a Big Spring TD. The ball was brought back and planted down on the Big Spring 43, where the play started. Big Spring punted. Midland took over on its own 21-yard line. A couple of ground stabs and a pass from Frank Roberson to Larry Buckingham carried up to

lost six yards at the Big Spring 40 as the gun sounded.

Two AA Districts May Be Realigned

LUBBOCK—(P)—A realignment of at least two West Texas Class AA interscholastic League football districts has been ordered, according to information received by Lubbock High School officials Saturday night.

According to a letter from University of Texas Interscholastic League officials, a new lineup in District 3-AA in West Texas will place Lubbock, Odessa, Lamesa, Midland and Brownfield in the same district.

Lubbock has been a member of District 1-AA for more than 20 years, Brownfield joining the district several years ago.

Frank Monroe, Midland superintendent and a member of the 3-AA executive committee, said Saturday Midland had received a "feeler" on the realignment but nothing had been ordered nor had any poll vote been taken.

Best in the Business

Jack Mitchell is good enough to run from the tailback position, and southwest coaches and critics say Oklahoma's quarterback is the best college player in the country at making the split-T work.

ACC Spoils Austin College Homecoming Tarheels Return To Bowl Picture In 49-20 Victory

SHERMAN, TEXAS—(P)—Abilene Christian College beat Austin College 45 to 6 here Saturday for its second Texas Conference win.

It was homecoming day at Austin College.

The Abilene College Wildcats scored once in the first, twice in the second, got 14 points in the third and tossed in 13 more in the final period.

The Kangaroos drove 77 yards in six plays with Tommy Hestand going over from the 23 in the third for their only tally.

From then until the last minute when Maryland scored twice, it was a tie.

The state of Pennsylvania's motto is "Virtue, Liberty, and Independence." Rhode Island's is "Hope." South Dakota's is "Under God The People Rule."

Sports

Texas Bruises Way To Win Over Frogs

FORT WORTH—(P)—Texas' bruising power paid off with two quick touchdowns in the third quarter and the Longhorns plugged their leaky pass defense enough to dump Texas Christian University 14-7 here Saturday.

The pin-point passing of Lindy Berry sent Texas Christian into a second-quarter lead but big Ray Borne-man and Randall Clay tore the middle of the Horned Frog line to bits in the second half.

On the third play of the third quarter, Borne-man broke through the center of Texas Christian's line and squirmed and twisted his way sixty yards to a touchdown.

Within six minutes the Steers struck again. Byron Gilroy climaxed a 64-yard drive with a wide end sweep that ate up the needed two yards for the touchdown that beat the Frogs. It was the Frogs' fourth straight defeat in their home stadium this year.

Berry engineered a 53-yard drive that paid off for Texas Christian in the second period and big Pete Stout finished it up with a nine-yard taunt.

Clay kicked both extra points for Texas and Homer Ludtke made good on the only opportunity the Horned Frogs had.

Passing Bewilders Steers—A fearsome display of passing completely bewildered Texas in the first half. Berry missed on his first aerial but connected on the next nine attempts.

Texas held for downs on its 16-yard line and again on its 27-yard line in the first quarter. It staged its first big offensive march of the game immediately after the Horned Frogs' touchdown.

Texas held for downs on its 16-yard line and again on its 27-yard line in the first quarter. It staged its first big offensive march of the game immediately after the Horned Frogs' touchdown.

Paul Campbell mixed in two passes with ten running plays, mostly by Borne-man, as the Longhorns moved eighty yards to the Texas Christian one-yard line. The Horned Frog line held this time but couldn't keep up the race.

Berry completed 15 of 29 attempted passes to account for 189 of the 204 yards the Horned Frogs gained in the air.

Texas stuck to the ground for 215 yards, attempting only ten passes and completing four for 74 yards.

Odessa Game Tickets On Sale Tuesday

Tickets for the Midland-Odessa Thanksgiving Day football game will go on sale Tuesday morning at the Chamber of Commerce office here.

School officials announce it is first come, first served and Midlanders are urged to get their tickets early. A sell-out crowd is predicted for the annual classic to be played in Memorial Stadium.

An allotment of tickets has been sent to Odessa and will go on sale in that city at the same time Tuesday.

LOOKING UP

This Cub Scout is looking up—and growing up to good citizenship practicing Boy Scout ideals of clean living and straight thinking. When you pledge through the Community Chest, give enough for the Boy Scouts and all Red Feather services—enough for a full year.

Jumps Into the Picture

The first six-week period of play in the Automotive League is completed and the teams are leveling off and taking their places.

R. E. (Dead Leg) Boothe of Murray-Young Motors is carrying high individual average of 100 with Ernie Critch of Curtis Pontiac runner-up with 184.

Curtis Pontiac team has a five-game lead, enhancing this with a three-game sweep over King's Conoco in matches last week. May Motors slipped out of the top places by taking three games from Hoover's Body team which previously was at a very high place. Murray-Young Motors has tied Hoover for second spot. Elder Chevrolet took two games from Murray-Young in last week's rolling. Mackey Motors may be in the cellar but it took two games from Team Eight.

Curtis Pontiac rolled high team series of the week with a 2,617 with four of the five team members keeping over 500 for series. Here is how they kept: Masburn 558, Thompson 544, O. C. King 536 and Curtis 504. Other 500 series were rolled by Ernie Nelson of Elder with 527, Joe Clark and Bob Boothe of Murray-Young with 521 and 540 respectively and Casey Jones, anchor man of Mackey, with 513.

The standings:

Team	Wen	West
Curtis Pontiac	14	4
Hoover Body Shop	9	9
Murray-Young Motors	9	9
Elder Chevrolet	9	9
May Motors	9	10
Team Eight	8	10
King's Conoco	7	11
Mackey Motors	7	11

Ole Miss Humbles Tennessee's Vols
MEMPHIS, TENN. — (P) — Mississippi's feet-running backs, sparked by big sophomore John Dostley, spotted Tennessee six points and then went on to win 18-13 before some 31,000 fans here Saturday.

It was a dogged battle all the way, and Bobby Oswalt's trained toe provided the margin for the Rebels. Oswalt kicked his 21st and 22nd extra points of the season, out of 28 tries. A safety added Ole Miss's two other points.

J. R. Proctor, the tailback the Vols had counted on to trip Ole Miss, passed for one touchdown but on the whole was held in check by a smashing Mississippi line.

George Senesky of the professional Philadelphia Warriors jumps high in the second period to take a rebound from the board and make a difficult shot over his defender as basketball hops back into the picture at the Philadelphia Arena. The home team walked off the Boston Celtics by the astronomical score of 94-73. The others are, left to right, the Celtics' Dutch Garfinkel, the Warriors' Jerry Fishman and the Celtics' Mel Riebe. The visitors' Chuck Halbert's arm is showing.

Stanton Buffaloes Find Power, Beat Monahans B Lobos By 13 To 0 Margin

By CLEDDIE SHELBERNE
STANTON — The Stanton High School Buffaloes found the defensive power they have lacked all season and handed a tough Monahans Lobo "B" squad a 13 to 0 defeat in a rowdy non-conference tilt played in Buffalo Stadium Friday night. The long lost defensive power showed up in the persons of big Glynn Cook, right tackle, and Francis Kennedy, left end.

More than a dozen times during the contest when a sparkling Monahans ground offensive threatened to pay off, the Buffalo forward wall, led by Cook and Kennedy, turned to stone and kept the Stanton goal line untouched.

Although slightly overshadowed by stout defensive play, the Stanton running and passing attack had its bright spots. The brilliant break-away jaunts of quarterback Bill Lindsay and Halfback Bill Hamm coupled with the power-play gains of Fullback Gene Douglas and R. S. Higgins kept the Buffaloes out in front all the way.

The first Stanton touchdown was set up early in the second quarter when Lindsay sprinted 31 yards on a quick opening play to put the ball in the end zone.

McMurry Indians Ruin Howard Payne Homecoming 32-20
BROWNWOOD — (P) — The McMurry College Indians defeated Howard Payne College 32-20 here Saturday afternoon to dampen Howard Payne's homecoming day. It was a Texas Conference game played before 4,000.

The score was tied, 14-14 at the half. Howard Payne scored first, Brooks Dostier taking a screen pass from Al Langford for 48 yards. Charlie Olson kicked the point.

McMurry took the following kick-off and marched 73 yards with Royce Smith going the final yards to score. Then he kicked the point.

In the second frame Langford passed to Frank Barnett for 13 yards and a Howard Payne tally. Olson kicked the point.

Brad Rowland passed to quarterback Vernon Townsend for 28 yards and another McMurry tally. Smith again kicked point to knot the game.

PERMIAN BASIN ROUNDUP—

Denver City Upsets Tribe Of Seminole; Kermit Wins

Two upsets shattered the peace and calm of Permian Basin football Friday. Denver City edged Seminole 20-28. Scrapy Fort Stockton whipped Pecos in another close one 19-13.

Kermit rolled over Wink 33-12. Crane racked Robert Lee 19-0. Iraan blanked Sanderson 37-0.

Other scores around the Basin and in West Texas: Big Lake 27, Eldorado 13; Littlefield 7, Levelland 8; Merkel 33, Colorado City 21; Del Rio 12, Crystal City 0; Coahoma 27, Bronite 14; Winters 34, Lake View 19.

In a six-man battle, Water Valley dumped Courtney 12-6.

Pecos Edged By Fort Stockton
PECOS—The Pecos High School Eagles were upset here Friday night by a lightweight bunch of scrappy Panthers from Fort Stockton in a District 5-A football game by the score of 19 to 13.

Bill Basben of Pecos scored midway in the first quarter, plunging over from the two-yard line. The Eagles marched 50 yards in 10 plays just prior to the start of the second period.

On the second play of the second period, Fort Stockton gained possession of the ball on downs on the Pecos 25. Four plays carried to the Pecos five where Left Half Walter Cassidy went across for a touchdown.

A few moments later a Pecos fumble was recovered by Fort Stockton on the Pecos 40. Six line plays carried to the Pecos five and from there Fullback Clayton Williams scored. Williams then ran the ball over for the extra point.

Early in the third, the Panthers advanced the ball deep in Pecos territory but the Eagles held on their own four. After a kickoff, the visitors with the aid of a long pass from Scuddy to Left End Ray Howard, were soon back in touch-down territory. Scuddy carried over from the two. A Scuddy to Howard pass failed to click for the extra point.

Late in the fourth, Pecos passes began to click. Left End Bryan took one from Quarterback Buddy Card for about 17 yards and four plays later Mickey Buchanan, substitute halfback, crashed over from the five. Card passed to Fairley for the extra point.

Pecos was threatening to score again when the game ended.

Crane Rolls Over Robert Lee 19-0
ROBERT LEE — Crane defeated Robert Lee 19-0 in a non-conference game here Friday night. Three long drives, one each in the first, second and third quarters, netted a touchdown each for Crane.

The first score came at the end of a 77-yard march, when Teague went over from the one-foot line. Try for point was no good.

The second touchdown came in the second stanza, when Garret pushed over from the one-yard line. In the third quarter, Teague again bucked over the line for a counter. The try for point was good.

Robert Lee threatened in the final quarter, when Tinkler intercepted a pass on his own 32 and raced to the Crane 38. Several plays put the ball on the Crane five, where the game ended.

Iraan Takes 27-7 Win At Sanderson
SANDERSON—The Iraan Braves, champs of their football district, defeated the Sanderson Eagles 27 to 7 here Friday night in non-district play.

Sammy Cox and Royce Whitefield each scored two of the Iraan touchdowns.

Rice Owls Grind A&M Into Ninth Straight Defeat

COLLEGE STATION — (P) — The Rice Owls ground Texas A&M into its ninth straight defeat of the season Saturday, cashing in on three fumbles and an intercepted pass for a 28-6 mud-caked triumph.

The vicious Rice ground game swept up a 21-0 margin in the first half and the Aggies never could get their offense to clicking consistently, although having the better of it in the final periods.

Despite intermittent rain that turned the field into hog wallows, a crowd of 25,000 watched the blue-clad Rice legions hammer virtually at will through the Aggie line and throtle a Cadet passing attack that almost beat Southwest Conference-leading Southern Methodist last week.

The loss was the twelfth straight for the hapless Aggies. They dropped their last three in the 1947 season.

The Owl ground attack gashed the Aggie line for 211 yards while A&M could get only 66 through the bruising Rice wall. In the air A&M led with six completions out of 17 attempts for 81 yards. Rice got 40 yards on two connections in six.

Rice jumped out to a two-touchdown lead in the first period. The initial counter came after Bob Goode, who was the "goat" for A&M, fumbled on the Aggie 38 on the opening play from scrimmage.

In flight plays Rice had the touchdown as John Kelly, Huey Keeney and Bobby Lantrip battered to the five and on fourth down Keeney shot through right tackle for the score. Jim (Froggie) Williams converted.

The ensuing Rice kick-off hit Marion Settegrast and bounded off to the Aggie 47-yard line, where Keeney fell on the ball.

Kelly, Lantrip and Keeney methodically battered to the Aggie 25 where a five-yard backfield in motion penalty halted the drive only

Mustangs Score In Last Play Of Game To Nip Razorbacks

FAYETTEVILLE, ARK. —(AP)—Southern Methodist University's Mustangs scored on the last play of the game to defeat the Arkansas Razorbacks 14 to 12 here Saturday.

An Arkansas homecoming crowd of 22,000 watched halfback Paul Page snag a 16-yard pass from Gilbert Johnson and fall into the end zone as the final gun sounded to turn a seemingly certain defeat into victory.

The win was the Mustangs' fourth against no losses in their bid for a second straight Southeastern Conference title.

An expected duel between SMU's Doak Walker and Arkansas' Clyde Scott failed to materialize. Scott was carried from the field with a knee injury in the first quarter.

Walker carried the ball seven times but wound up with a net ten yards lost. His two place kicks, however, produced the points that spelled the difference.

Hogs Score First

Scott netted 31 yards on the five times he carried before leaving the game. Arkansas was hurt seriously by 14 penalties for 131 yards.

The Razorbacks scored in the first period when fullback Leon Campbell, piled over from the SMU one-yard line, culminating a 60-yard drive that started with a 19-yard punt return by Scott.

They made it 12-0 in the third quarter as Campbell broke through the left side and ran 63 yards for a touchdown. Campbell cleared his last obstacle by stiff-arming Walker or out of the way on the Mustangs 20.

The usually reliable Jim Reichert was wide on his first try for point and his second kick was blocked.

SMU marched back 90 yards for its first tally. Frank Payne, Gene Roberts and Dick McKissack accounted for most of the yardage and Kyle Rote dived over from a yard away.

Fantasy Is Pay-Off

After stopping a Razorback drive on the SMU 11, in the waning minutes, the Mustangs started rolling from their own 16. Rote's 35-yard dash and passes from Johnson to Rote, Walker and Payne carried the points to the Arkansas 21.

An offside penalty gave the Razorbacks the ball on the 18 and nullified a pass interception by Arkansas' Alvin Duke. Johnson passed to Zohn Millam, but the big end caught the ball out of the end zone. Then, with good protection, Johnson led the SMU 11, in the waning minutes, the Mustangs started rolling from their own 16. Rote's 35-yard dash and passes from Johnson to Rote, Walker and Payne carried the points to the Arkansas 21.

South Carolina Taps Hapless Tulsa 27-7

TULSA, OKLA. —(AP)—With Freshman Steve Wadkins scoring two of four first-half touchdowns, the South Carolina Gamecocks snapped a four-game losing streak Saturday at the expense of hapless Tulsa 27-7.

Tulsa stiffened in the second half to hold the visitors scoreless and cross the Gamecock goal line once but the solution for stopping Wadkins, Bayard Pickett and Bishop Strickland came too late.

The Tajikistan Soviet Socialist Republic, in the extreme south of Central Asia, is a land of high mountains traversed by narrow valleys. Its principal crops are grain.

MEN GET PEP

Do you want to feel young again? Why not? Enjoy youthful pleasure again. If added years have slowed down your vim and vitality, just go to your druggist and ask for Orlon stimulating tablets. Many men are obtaining remarkable results with amazing formula.

DON'T FENCE THEM IN

If Fate should take you from your family tomorrow, would your loved ones find themselves without immediate funds, fenced in by a multitude of debts? Or will they have the cash to pay off all bills, plus a definite income to help tide them over the trying period?

With the Jefferson Standard Readjustment Income Plan your family will have the necessary time to adjust itself gradually to changed circumstances—the severe shock of sudden change can be avoided. Ask for complete details today, at no cost to you.

Pups Tip Yearlings

Midland's eighth grade Bullpups whipped the Big Spring Yearlings 12 to 0 Friday afternoon in a game played on the Big Spring gridiron.

The Bullpups displayed plenty of power both defensively and offensively as they rolled to an easy victory.

Halfback Roy Kinsey showed the way to the first Midland score when he heaved a long pass into the waiting arms of Gus W. Booth in the end zone. The try for point was wide.

It took two trips to pay dirt to make the other touchdown stick. Halfback Charles Patterson scooted over on an end sweep the first time, but an off-side penalty against Midland nullified the score. Larry Friday carried it over two plays later and this time it was for keeps. The try for point failed again.

Every man on the Bullpup squad except those on the injured list saw action in the game.

The starting line-up for Midland: ends, Kestling and Booth; tackles, Lockamp and Bunte; guards, Taber and Leonard; center, Cast; backs, Dorman, Patterson, Kinsey, and Friday.

Notre Dame Noses Out Northwestern To Keep Slate Clean

SOUTH BEND, IND. —(AP)—Two unheralded substitutes, William Gay and John Landry, brought Notre Dame from behind to defeat Northwestern 12 to 7 Saturday in a bruising battle of football titans.

Their heroic last-quarter touchdown march came after Art Murakowski put Northwestern ahead 7-6 on a 90-yard run when he intercepted Francis Tripucka's pass. This was Notre Dame's 20th consecutive victory and it put Coach Frank Leahy's name in the records alongside that of the great Knute Rockne.

Notre Dame scored first on a 91-yard march in the first period, with John Panelli carrying it over from the two-yard line. Until near the end of the third period it looked like this would be all that either team could do. But then, with Notre Dame on the march, Murakowski jumped high into the air to take Tripucka's pass and dart down the sidelines. Jim Farrar's conversion put Northwestern ahead, and it almost seemed the year's biggest football upset was in the making.

But the 170-pound Gay and the 180-pound Landry came driving down the field, starting from Notre Dame's 37-yard line. Gay carried it over from the one-foot mark to keep Notre Dame's record untarnished.

Hornets To Play Amarillo Tigers

The Carver Hornets of Amarillo will play the Tigers of Amarillo in a negro high school football game in Memorial Stadium Friday night.

The Midland team is fresh from a 23-0 win over Odessa recently. The Hornets have won one, tied three and lost two this season.

Golden Bears Crush Washington State

BERKELEY, CALIF. —(AP)—California's Bears, generating the same tremendous power that has kept them unbeaten and united, scored a crushing 44-14 victory over the Washington State Cougars Saturday.

It was California's ninth win of the season. The Bears made an impressive showing to remain neck and neck with Oregon in their race to the Rose Bowl.

Band, 'Jackets Perform At Game

The Midland High band and girls' drill squad, the Gold Jackets performed colorfully at the halftime intermission of the Midland-Big Spring game Friday night.

The groups formed a map of Texas with a plane T in the middle, then the band played "The Eyes of Texas."

Army Strikes Late To Down Penn 26-20

PHILADELPHIA, PA. —(AP)—Only 30 seconds away from defeat at the hands of an amazing University of Pennsylvania eleven, Army struck 15 yards through the air for a touchdown and 26 to 20 victory Saturday.

Overwhelming favorites seeking their eighth-straight triumph, the Cadets were forced to fight from behind three times and needed a dazzling 103-yard runback of a kickoff by Bobby Jack Stuart to subdue the battling Quakers. It was a thriller all the way.

The big clock showed exactly a half-minute to go when Arnold Galiffa, Army quarterback, fell back and fired a strike into the arms of John Trent, an end, beyond Penn's goal line to settle the issue. Only moments before Ray Doocey, Penn's stocky, 200-pound fullback, had blasted through Army's line and legged it 42 yards for the score that put the Quakers in front 20-19.

Pups Lose At Lamesa 14-0

Midland's seventh grade Bullpups from John M. Cowden Junior High, went down 14-0 under the Lamesa Juniors at Lamesa Saturday afternoon.

Fames spelled defeat for Midland. Lamesa could not dent the Pup line but tossed aerials for victory.

Dr. L. C. Zee Bags Big 10-Point Buck

Dr. L. C. Zee of Midland got his deer. Hunting on the Charley Norton ranch Northeast of El Paso, the Midlander bagged a 10-point buck. Zee had the experience of getting lost and staying one night out in the mountains, cold and hungry.

\$10,000 In Jewelry Lands Man In Jail

LAREDO, TEXAS —(AP)—Immigration officers said Saturday a man, 25, is in jail here while they are trying to find out how he came into possession of \$10,000 in American jewelry.

The man, a resident of Mexico, told them they found the jewelry in a package while he was in New York.

No charges are against him in connection with the jewelry.

However, the Immigration Patrol said the man was arrested here October 31 near the Missouri Pacific railroad station. He was accused of entering the U. S. illegally and was handed a suspended sentence.

DOWN SPORTS LANE

—With Tanner Laine

Your assistance is respectfully solicited in helping Midland High School find out the names of all its former students who gave their lives in World Wars I and II.

The names of these will be put on a plaque, which will be placed permanently at Midland Memorial Stadium.

The stadium was dedicated in honor of former students who died in the wars, and the athletic plant will bear the name "Memorial Stadium" to do them honor.

If you know of former students of MHS who gave their lives, please notify the high school superintendent. Please do so as soon as possible.

The school does not wish to miss a name. Your help will be appreciated.

—SL—

Irishmen take their fishing seriously.

So seriously that the Dublin high court was asked to decide if eighty Donegal fishermen had the right to wet their lines in a three-mile tributary of the Lough Foyle, the river which runs through northern Ireland and here.

The Irish Society, founded 335 years ago by King James I to administer crown estates in Ulster, claimed it owned the fishing rights under royal charters received in 1613 and 1623. Hundreds of documents, many dating from the 18th century, were introduced.

For 48 days the court hearing dragged on. Costs were estimated at 200,000 pounds (\$800,000).

Justice Gavin Duffy gave his decision recently. The 80 Donegal fishermen won the right to fish the river. Any charters granting the rights to the Irish Society were contrary to the Magna Carta, Justice Duffy held.

—SL—

Odessa plans a Periman Bowl game in its fine, spacious stadium and would make the event an annual affair.

We have some suggestions for prospective opponents in that bowl game. Some of these are: 1. Midland and Odessa; 2. Texas Tech and Hardin-Simmons freshmen teams; 3. All-stars of Tech and Simmons; 4. A good class AA team against a good class A team (those not involved in state title playoffs); 5. Ex-service men of Midland and Odessa; 6. The military base championship of Texas, picking the best two service teams; 7. In the case of this year, Sul Ross vs. some out-of-state opponent; 8. All-stars of District 3-AA vs. 1-AA or 4-AA; 9. The consolation championship of Texas between teams which lost out in the state race; 10. All-stars of 3-AA vs. all-stars of 7-A, truly a Permian Basin all-star game.

It is of interest to all citizens in the Permian Basin that the Permian Bowl goes over big and becomes an attractive New Year's event. We are sure the Odessa sponsors will choose wisely and will present a jam-up entertainment. And we are sure many Midlanders will go over to see it as will the citizens of other fine cities in the PB.

—SL—

If Midland beats Odessa, Chief Jack Ellington has promised to push a wheelbarrow from Odessa to Midland.

Melvin Haney (300 pounds soaking wet) will ride in the wheelbarrow.

Now comes Ruby Summerford, who runs the Steak House, and she promises to serve hot coffee and food to Haney and Ellington every two miles enroute to Odessa.

—SL—

ROUNDUP UP THE STRAYS

They are planning a big "hoss" race down Big Springs way Sunday.

Pan, three-year-old winner of 23 out of 36 races, will go against eight-year-old Red Bird, the Lamesa sprinter. . . . The go is for 440 yards and begins at 2 p. m. on the Big Spring Sheriff's Fosse Track West of that city. . . . Carl Knox, Midland coach, attended a homecoming event at TCU this weekend. . . . The famous kicking Knox was at the old Frogs banquet Saturday night at the Worth Hotel. . . . Collier Parris, who used to tub thump at Lubbock, is a new staffer in the sports department of the Abilene Reporter-News. . . . One fan tells us Odessa's will-to-win is like the D in John D. Rockefeller's name. . . . Few know what it stands for but nevertheless it's there. . . . incidently we looked up the D and it stands for Davison. . . . Now all we have to do is find out where Odessa's will-to-win comes from and dampen it. Thanksgivng. . . . Maybe it's M for Mobley or is it B for Broncho or Joe for

Tulane Crushes Baylor 35 To 13

NEW ORLEANS —(AP)—Tulane's Green Wave stayed in the bowl picture and just about knocked Baylor out of it here Saturday by thoroughly trouncing the Bears 35-13.

About 45,000 persons saw Tulane run up its highest score of the season and that against one of the finest defensive clubs in the Southwest.

All Baylor had was the passing of Quarterback Adrian Burk, which engineered the Bear touchdowns but backfired on two interceptions which set up Tulane scores.

The Wave line completely outplayed the Texans, opening huge holes for Fullback Ed Price and Halfbacks George Kinek and Bill Svoboda.

Meanwhile, quarterback Joe Ernest passed on about even terms with Burk.

Price's hard running paced Tulane on a 71-yard drive to its first touchdown. He circled left end for the last 11 yards.

Baylor came right back for a 54-yard scoring march on Burk's passing. He threw five yards to Harold Riley for the touchdown.

The wave surged 6 yards to Ernest's 21-yard pass to Kinek on fourth down with 15 seconds remaining in the half.

A third-period punt exchange worked the ball to the Baylor 34,

where Ernest sparked another score. Svoboda crashed right guard for the final foot.

Again Baylor brought the kickoff back for a scoring march on Burk's passing, this time 73 yards.

Jasper Flanakin took a toss from Burk and slipped away from Tulane tacklers to go the last 27.

Tulane intercepted three Burk passes in the final period and turned two of them into touchdowns.

Price went one yard around right end for the first six points, and his brother-in-law, Ray Fraiz, six in the same direction for the next.

Dick Sheffield kicked five perfect placements for Tulane. Henry Dickerson made one and missed one for Baylor.

The net rushing yardage, 292 for Tulane and 39 for Baylor, about expresses the superiority of the Wave's line play. Tulane completed nine passes in 14 attempts for 102 yards, and Baylor made 14 out of 24 good for 129.

Alabama Turns Tech Errors Into Victory

ATLANTA —(AP)—The Alabama Crimson Tide turned a Tech fumble and a pass interception into a 14-13 victory over Georgia Tech Saturday to all but end the once-high hopes of the Yellowjackets for a bowl bid.

The thrice-beaten Tide was a two-to-three-touchdown underdog. The Southeastern Conference game, played before a sellout crowd of 38,000, was a major shocker and a near duplicate of Tennessee's upset last week, which was the Yellowjackets' first loss of the season.

Two Alabama substitute centers—Doug Lockridge and Elliott Speed—were spot men when Tech erred. Lockridge recovered a Tech fumble on the Jackets' four and on the next play Alabama scored. Speed intercepted a Tech pass and ran 67 yards for the Tide's second touchdown.

Missouri Tigers Take Colorado 27-13

COLUMBIA, MO. —(AP)—Missouri's Tigers, trailing at the halfway mark, came to life in the last half of their Big Seven Conference football game with Colorado Saturday for a 27-to-13 victory.

Don Faurot's Missourians scored two of their touchdowns by air and the other two by ground.

Missouri was handicapped by injuries suffered in its humiliating defeat by Oklahoma last week.

How To Fight Russia Without Shooting

Donovan Suggests Closing Canals, Ports To Red Bloc

By WILLIAM J. DONOVAN
Written for NEA Service

It is time for the United States to take the initiative away from the Soviet Union, into our own hands, and to impose our initiative on Russia.

Up to now, Russia has held the strategic offensive. We have confined ourselves to a tactical defensive. Soviet tactics have kept us so busy bickering that we have been unable to set up our own strategic objective, which is peace in the world.

I think it is criminal to imagine that the only alternative to Russia is to plunge into a shooting war. We are inclined to think war means atom bombs, guided missiles, ships, shooting. But, after all, the purpose of war is to break an enemy's will to resist. There are other ways than killing to do that.

For several years Russia has been fighting a bloodless but an effective war against us through subversion, psychology, sanctions. I suggest that we start our own counter-program, using economic sanctions and psychological measures to take advantage of the political fissures between Russia and the satellite countries she controls, through minorities, against the wills of majorities.

How About Canals?
For example:
How about inquiring whether we could deny to Russia and her satellites the use of port facilities controlled by Great Britain, France and this country?
How about considering whether the Suez and Panama canals, the Kiel canal, the Dardanelles, should be closed to the Soviet bloc na-

tions?
How about looking into the entire position of strategic materials upon which Russia depends?

What are we doing about the 100,000 tons of crude rubber going to Russia every year from Singapore by way of Holland?

I do not have enough information to know the effect if we should close canals and ports to the Russians. That would require study, to see how much they use those facilities, and how.

I consider it worth studying because I am convinced that Brit-

William J. Donovan: "Wild Bill" thinks he can tame Russia.

ain's failure to close the Suez Canal to Italy—which I suggested after several months in Ethiopia during the Italian invasion in 1935-36—was responsible for Italy's victory. That, in turn, encouraged Hitler to carry on a flirtation with Mussolini, to go into the Rhineland with an empty pistol, and ultimately to start World War II.

We ought to check Russian use of the canals. We ought to go behind the flags flying on ships to

see whose cargo they actually are carrying.

Europe's Fears Abandonment
The Russians concede frankly that one of their major aims is to destroy the effectiveness of the Economic Co-operation Administration program. The ECA is only one weapon against Soviet subversion. It needs to be buttressed with others. But we can't let the Russians destroy that weapon. To do so would play right into the principal aim of the cold war against us.

Throughout Europe is the fear that we will abandon them when it serves our purpose. Soviet propaganda aims at selling that idea, at discrediting our motives, at convincing Europe that ECA will be ineffective.

Russia says to them: "You're playing with America now. But keep in mind that we're going to drive the Americans out of here." That's the whole purpose of the Berlin operation. "And when we do, you'll have to deal with us, and we'll remember what you're doing now."

They have Europe worried. Each nation has its own special problems, but behind the shoulder of every non-Communist government hover uncertainty, fear that we'll pull out and leave them at Russia's mercy.

Need Assurance
Those countries need assurance that we will stand by them—not by putting a big army in Europe, but by putting into their hands the tools, arms and equipment they need for self-rehabilitation and self-defense.

In the last two wars we went to Europe to help Europe. I say those two wars demonstrated that Europe was our outer bastion, and we had to go there in self-defense.

It is time for us to decide whether western and northern Europe are as vital to us today as we considered South America 125 years ago. If it is, then we should apply to it the same principles that underlie the Monroe Doctrine.

There's nothing of the Lady Bountiful about such an idea. It is a very practical measure to defend ourselves, because the closer we permit Russia to get to us, the farther we let her move us from Russia.

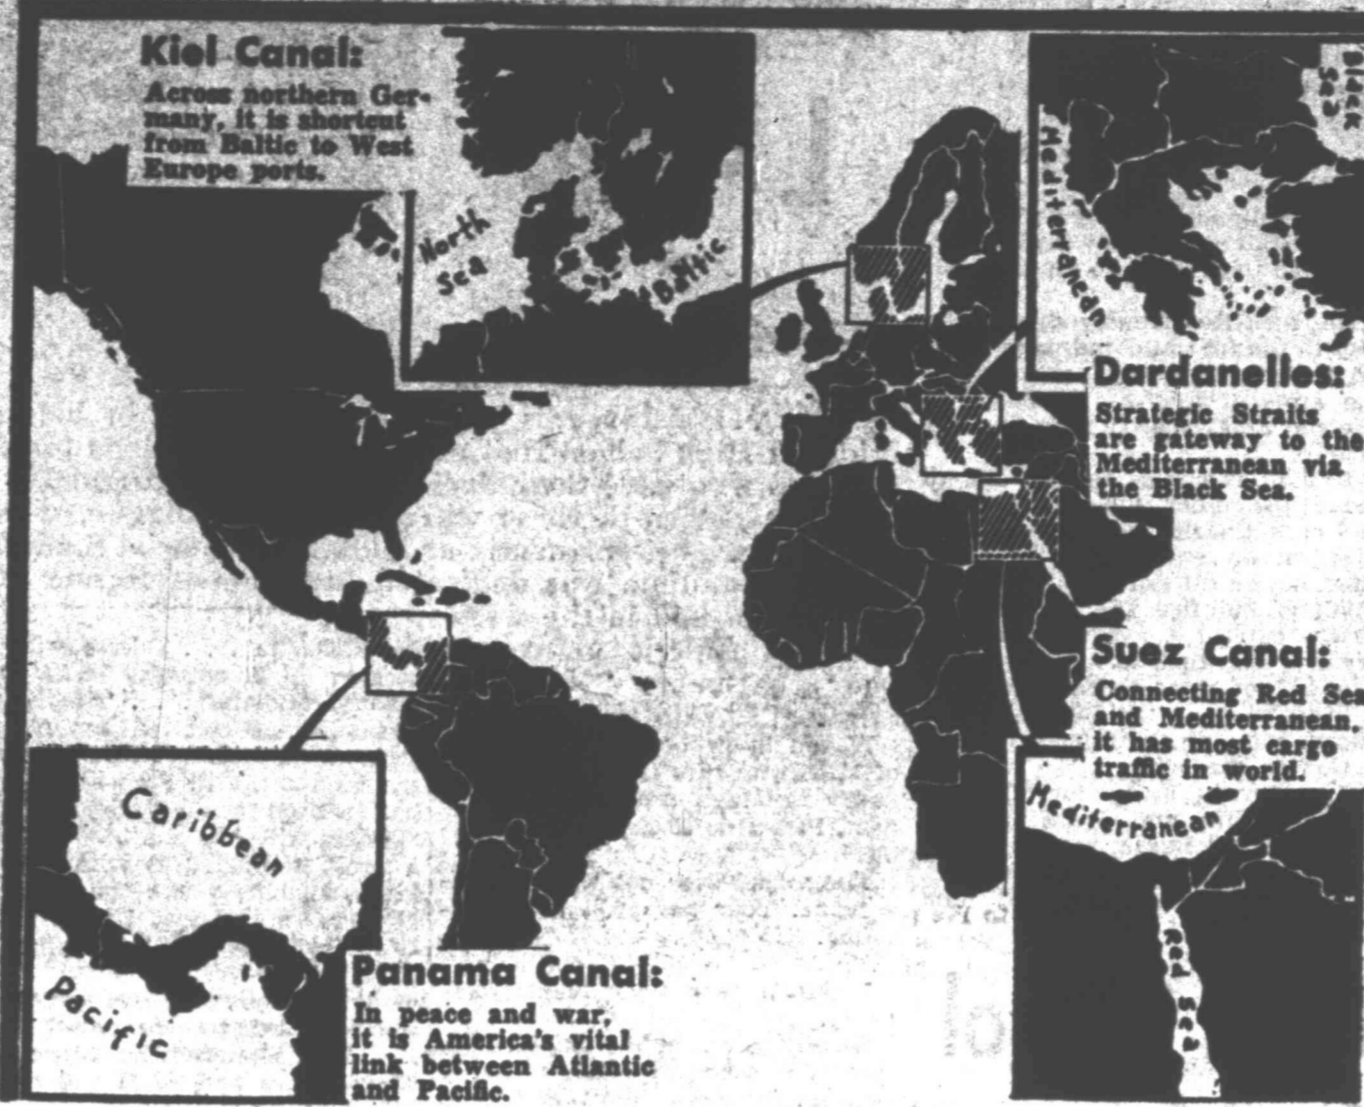

We should supply non-Communist Europe with all those physical and psychological things with which a fight is carried on. Words aren't enough.

Need Pump Priming
For example, the de Gasperi government in Italy is under attack for its co-operation with us. Through the Marshall Plan, we should give that government ma-

terial answers to its enemies—food, tools, even guns—so that the government can show its people in concrete form the advantage of having us on their side.

We can give those material things in knowledge that we don't have to go on forever, that we need only prime the pump and then they'll go ahead themselves. We should give them as a practical evidence that we really are backing them. We should commit ourselves so far that they'll know it is to our interest to stand by—so far as to allay their fear that we'll quit, and leave them at Russia's mercy.

This isn't a program of war. It's a program of peace. It looks toward giving those who want to resist Russia the psychological, political and economic weapons by which they can help compel Russia to peace. It looks toward making it to Russia's disadvantage to be belligerent, to her advantage to co-operate with the rest of the world toward peace.

Highlighted on this map are the four strategic waterways General Donovan thinks we should consider closing to Russia and Soviet satellite nations as one step toward taking the initiative away from the Soviet Union in a program to "compel Russia to peace."

Commissioners Court Picks Up Fair Check

County Judge Clifford C. Keith said Sunday the Commissioners Court has authorized an expenditure of more than \$300 to make up a deficit incurred in the staging of the recent Midland County Fair.

The fair was sponsored by the Chamber of Commerce and was financed largely by contributions from business and professional men.

The fair's budget was exceeded when the cost of erecting temporary pens for livestock exhibits was more than the estimates.

The Chamber of Commerce appropriated \$750 towards the staging of the annual event.

Library Marks National Children's Book Week With Display Of Juvenile Titles

November 14-20 is being observed as National Children's Book Week. The slogan this year is Books "Tell the Story."

The Midland County Library will celebrate the week with special story telling for grade school children and with an exhibit of books for children, Mrs. Lucille Carroll, librarian, has announced.

Children's Book Week, now international in scope, started in 1917, during a crusade started by Franklin K. Mathews, librarian for the Boy Scouts of America, to make available inexpensive editions of standard boys' books to counteract the dime novels and "penny dreadfuls" of the day.

The first slogan was "Better Books for Young People." The movement was sponsored by youth groups and educational organizations for its value in building understanding and friendship among children of the world.

Books for display at the library this week will include both old and new titles. Each book was chosen, Mrs. Carroll said, because it is of interest to children and because it fosters the growth of understanding and discrimination in reading.

Some of the newer books for children in the library are listed by the librarian as follows:

Books for pre-school children—Blueberries for Sal (Blodsky), Cats of Kansas (LeGrand), Book Town Boy (Lanski), Boo, Who Used To Be Scared of the Dark (Hunter), Riding the Rails (Olds), Creeper's Jeep (Gramatky), Story Teller Poems (Bennett), City-Country ABC (Gipson); Mick and Mack and Mary Jane (Bennett), Trucks at Work (Etting).

Older Children's Books
Snow White (McKnight), Jonathan and the Rainbow (Blanch), Tidwick, the Big-Hearted Moose (Sues), My First Picture Dictionary (Fried), Little Pond in the Wood (Ward), Little Peewee (Kundart), Old Man and the Turnip (Morey), Goodenough Gismo, (Kelsey), Roxy Nose (Martin), Little Moo and the Circus (Sterling), Tale of Peter Rabbit (Potter), Robbitt (Lawson).

Books for children of grade school age—Swamp Boy (Cormack), Lost

Karin (Kyle), Susan's Year (Johnson), King of the Wind (Henry), The Island Stallion (Farley), Mystery of Lost Valley (Wellman), Wish on an Apple (Garst), The Chesty Oak (Seredy), Tops and Whistles (Bailey).

The Invisible Island (Marshall), Matilda's Buttons (Hunt), Snow Dog (Kneigaard), Mountain Laurel (Emery), Fatsy Jefferson of Monticello, (Vance) Seven Beaver Skins, (Berry), It's Easy to Fix Your Bike (MacFarlane), Let's Look Inside Your House (Schneider), Men Call Him Master (Smith).

Markets Level Off After \$6,500,000,000 Post-Election Slump

NEW YORK—(AP)—The stock market found a temporary resting place this weekend after a \$6,500,000,000 post-election price slash.

That loss in the market value of all shares listed on the exchange occurred in three disastrous trading days. The most recent was last Tuesday when the general price level plunged to the lowest since late March. Since Tuesday prices leveled off, for the most part straying a point or less from the previous close.

In Saturday's short session gains outweighed losses and the price average showed a slight advance. Changes either way, though, were mostly fractional.

NURSES KNOW THE BENEFITS OF Electric HEATING PADS

The chances are good that some time within the next few months—when the cold weather of late fall and winter sets in—some member of your family will need the benefits of the controlled soothing warmth that only an electric heating pad can provide.

For example, the common cold often brings on a variety of aches and pains. In many instances, these discomforts can be lessened by the controlled heat of an electric heating pad. Be ready this year if the cold or "flu" bug bites—your electric heating pad will usually provide substantial relief.

Blueprint—

(Continued from page 1) other modern weapons of warfare. A peace-time organization which could be used in natural disasters as well as in war.

Howler it came, it could mean devastation and death at many points on such a scale that the tasks of rescue and restoration would be far beyond the present capabilities of the people and the communities attacked.

Farmers' Net Income Seen Dropping in '48

For the first time in ten years, says a Bureau of Agricultural Economics report, America's farmers will have a net income less than the previous year. While the 1948 gross income will stay about the same—\$34,000,000,000 this year, compared to \$34,700,000,000 in 1947—production expenses, \$18,100,000,000, will be about 7 per cent higher this year. Result is that 1948 farm net income is expected to be 3 per cent under last year's figure. The bureau estimates 1948 net income at \$16,500,000,000.

MEET THE Star Performer for '49!

You're invited to drive the New Hudson—the car that's nimble and rugged beyond anything you've known before!

"The modern design for '49"

Come in, try Hudson with the all-new, high-compression Super-Six engine (the most powerful American six built today) or the masterful Super-Eight. Both provide wonderfully alert power for a new type of motor car with an exclusive "step-down" design.

Millions say the New Hudson is the reigning beauty in the automobile parade—but you can't really know this great car until you drive it—and you're invited to do just that—now!

Hudson, with the new, 181 h.p., high-compression Super-Six engine or the masterful Super-Eight, takes you away with new zip, and outstrips the field with staying power.

But amazingly alive engines aren't the whole story of this star performer for '49. Hudson has a new big-the-road way of going in cross-winds and on every conceivable kind of highway.

This all happens because—as is widely known—the lower to the ground a car can be built, the more stability it will have. Hudson has the lowest center of gravity in any American stock car!

This remarkable car has floor recessed down within a bass frame (Hudson is the only car you step down into), enabling Hudson to build the lowest car on the highway, only five feet from ground to top—while maintaining more than adequate head room!

You sense a delightful conformity to the road the minute you begin to ride, and this gives you a grand feeling of safe well-being! This feeling is further enhanced by the ease with which this car is operated, and by the quiet with which Hudson glides along.

Come in, let us show you why Hudson's great engine and fabulous "step-down" design principle put this car so far ahead of it is a protected investment in motor car value!

***The many important advantages in Hudson's new "step-down" design are explained in a booklet available at the nearest Hudson dealer.

NEW Hudson

The only car you step down into

Solons Disinfected For Look-See Into Vaccine Laboratory

MEXICO CITY—(AP)—Three U. S. senators were disinfected thoroughly Saturday as part of their foot and mouth disease inspection tour.

Sen. Milton E. Young (R-N.D.), Sen. Richard B. Russell (D-Ga.) and Sen. Theodore Francis Green (D-RI) stripped and put on laboratory gowns for a first-hand look at the virus laboratory maintained at Tlalapala, near here, by the joint U. S.-Mexico Alfonsa Commission.

After their look they were given disinfection baths before they could get into the "clean rooms," where they left their senatorial garments.

With them is Sen. Elmer Thomas (D-Okla.). They are a subcommittee sent here by the Appropriations Committee of the U. S. Senate to satisfy themselves it is worthwhile for the United States to continue the campaign against Alfonsa, which is being fought with a newly-developed vaccine.

Texas Prepares For Good Neighbor Week

AUSTIN—(AP)—Statewide observance of Good Neighbor Week in Texas begins Monday when Gov. Beauford H. Jester will make a radio address. Ceremonies will follow in cities throughout the state.

Tom Sutherland, executive secretary of the Good Neighbor Commission, said Saturday there is "definite progress shown in the good neighbor program over the state."

R. E. Smith, chairman of the Good Neighbor Commission, will present a special broadcast in Houston during the week.

In San Angelo, radio programs, window displays and school programs celebrating Good Neighbor Week have been arranged. Greetings were sent to President Aleman and to the governors of the bordering states of Mexico, and the Mexican consul at Del Rio, Luis Witter Marin, has been invited to speak at San Angelo.

Ceremonies will be held at the International Bridge at El Paso.

...pretty new fashions for the holidays

Dunlap's

Midland's Complete Department Store

The new detailed gabardine suit fashioned by Miss Los Angeles is of 100% wool shen gabardine. The wonderful lines of the skirt and jacket are accented by careful detailing on the collar and pockets of the half belted back jacket. Brown, gray, black.

\$89.95

The tuxedo coat is of Forstmann 100% wool suede cloth styled in sweeping lines by Miss Los Angeles. Mouton fur forms a beautiful collar and flows down the front in a distinctive trim effect. The full sleeves are gently gathered into the fitted cuff.

\$149.00

A glamorous fill-in for holiday is this fallie suit, from our collection of Robert Gould originals. Self covered buttons, fitted waistline and peplum at back accentuate the jacket. Black or brown.

Truman And Party Pay Visit To Old Fort Jefferson

KEY WEST, Fla.—(AP)—President Truman took the family to Fort Jefferson Saturday for a lesson in history, leaving officials unanswered questions as to the makeup of his new administration.

With his Florida vacation a week old, the chief executive continued to maintain silence on legislative plans as well.

He boarded the presidential yacht to join Mrs. Truman and Margaret for a cruise to the historic fort where Dr. Samuel Mudd was imprisoned after the War between the States.

Senator Alben W. Barkley, vice president-elect and Senator J. Howard McGrath, Democratic national chairman, went along as did the entire White House staff.

'Tap Roots' Opens Sunday At Yucca Theater In Midland

Grand-scale melodrama comes to the screen of the Yucca Theater here Sunday when "Tap Roots" Technicolor saga of the never-to-be forgotten Lebanon County insurrection, begins its four-day engagement.

Lurid excitement, romance and violent conflict highlight the action of this amazing motion picture which is presented by Walter Wanger and released by Universal-International. The screen play was prepared from the sensational, successful novel by James Street.

"Tap Roots" deals with the bor-borve insurrection of a small band of Southerners just prior to the Civil War. The action has to do with the Dabney clan who dominated southern Mississippi. How they succeeded from Mississippi, organized the Free State of Lebanon, and their challenge to the Confederacy, is the basis for this extraordinary out-of-doors story.

Meets His Match
Van Hefflin, starred as Keith Alexander, a notorious newspaper publisher, whose dueling guns, Alpha and Omega, are feared by any man who crosses him, is said to meet his match in his co-star, Susan Hayward, the tempestuous Morna Dabney, who lives for the hour.

Boris Karloff, as Tishomingo, the Indian, plays the friend of the Dabneys and his bulwark is as deadly as Hefflin's dueling pistol.

Julie London appears as Susan Hayward's younger sister, Aven; Ward Bond has the role of their father, Hosh Dabney; and Richard Long is seen as the younger brother, Bruce. Whitfield Connor, movie newsman, has a key role.

Churchill Attacks Attlee On Make-Up Of Unity Committee

LONDON—(AP)—Winston Churchill attacked Prime Minister Attlee Saturday for refusing to name a bi-partisan delegation to the committee which will seek ways to strengthen Western European unity.

Churchill delivered his attack in a letter to the prime minister published at the same time the government released a letter in which Attlee turned down demands for Conservative representation on the committee.

The committee is being set up by Britain, France, Belgium, the Netherlands and Luxembourg, of the Western European Union to draft plans for expanding European unity. Britain and France will be represented by five delegates each; Belgium and Holland will have three each and Luxembourg will have two.

Attlee said he was naming only members of the Labor Party to the committee because they are "to be responsible to the government," which in Britain consists of members of the majority party.

Wink Hospital Unit Will Be Opened Soon

WINK—The Wink unit of the Winkler County Hospital is scheduled to open soon, and the Commissioners Court has approved the purchase of necessary equipment to furnish the hospital.

Dr. M. G. Crane, who has moved here from California, will operate the institution under the supervision and management of the county. Doctor Crane will begin the practice of medicine here Monday.

The opening of the hospital unit has been delayed several months due to the lack of a resident physician.

MIDLANDERS BACK FROM BAPTIST MEET

Exercise Gives Shoebound Feet Freedom

Dorothy Sarnoff props one foot on a chair for the exercise (left) which is designed to strengthen arches. At right, she demonstrates her favorite ankle-limbering exercise.

By ALICIA HART
NEA Staff Writer
Do your feet balk at their long hours of confinement in higher-heeled shoes? Liberate them from shoes as of-

ten as you can. "Shed scuffs or mules and walk barefooted over bedroom carpets," urges actress Dorothy Sarnoff. Because this Broadway singing star appears barefooted in her famed "Magdalena" role for

six nights running and for an extra matinee performance each week, Dorothy can testify to the value that comes from giving shoe-bound feet lots of freedom.

Important exercises for strengthening arches and limbering ankles also come courtesy of Dorothy Sarnoff. Any upholstered chair, she says, can be used as a prop for the exercise that helps to strengthen arches. Stand up close to the chair with one foot pressing toes-downward into the cushioned softness of the chair, the other foot planted firmly on the floor. Now, switching your body weight to your cushioned-embedded toes, then to the foot on the floor, exercise by rocking back and forth.

The ankle-limbering exercise that Dorothy swears by is taken sitting down on the floor. To copy this one, thrust one leg up at a time and grip one extended ankle with both hands. With your ankle in this grip pull your foot as far forward and then as far backward as you can.

Switzerland Fears Winter Tourist Slump

GENEVA —(AP)—The Swiss travel experts are not very happy about the prospects for the Winter tourist season in Switzerland. At a recent meeting of agents of the Swiss Tourist Agency from all parts of the world, it was generally agreed that a great many travelers, for one reason or another, are going to stay away from Switzerland this Winter.

This is no reflection on the fun and facilities available. The difficult international situation is one reason. Another, Swiss experts in the United States reported, is the failure of Switzerland to advertise enough. They said the prospective American guests were subjected to a "drumfire" of British and French tourist propaganda, which had been quite successful.

PRAGUE DROPS TITO NAME

PRAGUE —(AP)—Another monument to Marshal Tito has disappeared here. The name of Marshal Tito College has been changed to The College of Jan Comenius, the noted Bohemian scholar. Recently the name of Marshal Tito was removed from a heavy industry factory near Prague and its preparatory company name of Kolben-Danek was restored.

Tulane Stadium at New Orleans, scene of the annual Sugar Bowl football game, is the largest steel stadium in the world, with 85,000 seating capacity.

Fashion Critics Pick Top U. S. Designers

These costumes are examples of fashions which won their four designers top annual awards from the fashion critics. Maximilian's voluminous ermine coat (above, left) features the circular treatment of furs for which this designer is noted. De Leo's short coat of wild mink (below, right) typifies this designer's creative styling for the wholesale market.

By EPSIE KINARD
NEA Fashion Editor

NEW YORK — Designer Hattie Carnegie's long-range contribution to good taste and elegance in this country wins for her this year's Fashion Critics' Award. This car-

American GIs Aid Viennese Children

VIENNA —(AP)—American soldiers in Vienna have already made their plans to insure Viennese children a Merry Christmas. The soldiers have scheduled six events by which they hope to raise enough money to increase the number of children's parties they have been giving every Christmas since they entered the city in 1945.

The events include two theatrical performances, a football game, boxing match, car raffle and a radio request program.

ries a cash prize of \$1,000 and "Winnie," the coveted bronze statuette.

This annual appraisal of outstanding merit, proclaimed by a New York jury of magazines, syndicate and newspaper fashion editors, also singles out for special bronze-plaque awards three leaders in the field of fur design.

Designer Esther Dorothy is one bronze-plaque winner. She is cited for her youthful, provocative and talented touch with furs, a talent which has lifted the low-priced Plain Jane fur into the brackets of high fashion. Critics' appraisal also recognizes Miss Dorothy's gifted hand at making white, "star light," "dawn," and other mutation minks spectacular contributions to American fashion.

Plaque-winner Maximilian, outstanding skin expert of the U. S. A., is cited for his vision in anticipating fashion trends and for his influence on fur design at home and

abroad. Recognition goes to this designer for such innovations as fabulous fur jackets, styled like cardigan sweaters, mink coats with swirling skirts; spectacular circular treatments of ermine.

De Leo, wholesale fur designer, wins one of the three special awards for his pioneering activities in furthering creative design in his special field. This designer is also cited

Highest award went to Hattie Carnegie, whose ensemble of gray speckled tweed (opposite left, above) is worn with a gray fox stole and combines a simply-styled dress and a jacket with invisible closing. It's typical of the designer's instinct for good taste which won her this year's top honors. In the same picture, the "starlight" mutation mink coat (right) is an example of Esther Dorothy's fur styling.

Enraged Bear Defies Bullets

GRAND JUNCTION, COLO.—(AP)—Frank Bernard came back from a deer hunting trip with a tall bear story—and the bear to prove it. The bruin he'd shot weighed about 850 pounds and was seven feet long. Bernard said the big animal was only 30 feet away when he fired his first shot, the bullet striking the bear in the nose. The bear charged, paying no attention to a second bullet drilling into its side. Another hunter then shot the bear in the foot, turning it to one side and Bernard's third shot broke its leg, ending its enraged rush.

Liquid Net Keeps Hair-Do Neat

Louise Davis, Pan-American stewardess, sprays on a liquid hair-net to keep her hair-do trim and tidy on a trans-oceanic hop.

By ALICIA HART
NEA Staff Writer

Ever envy airline stewardesses that every-hair-in-its-place look that distinguishes these active and well-groomed girls?

Hair-grooming tricks used by Pan-American stewardesses who, during trans-oceanic flights, have little spare time for good grooming may suggest to other girls ways of simplifying personal upkeep.

Simply-styled coiffures, say these stewardesses, are the easiest to keep trim and tidy. Elaborate arrangements are apt to slip out of place unless they are tended constantly and are apt to appear frowny instead of glamorous.

A new kind of isocuer called a liquid hair net is used by these girls for disciplining flyaway locks. When sprayed over a brushed-up coiffure, these "nets" gently curb willful strays without flattening curls or solidifying waves into a rigid mould. One stewardess whose trim and tidy hair-do stays unruffled on the longest flight, says she uses first

a liquid "net" then one of human hair for extra control.

For easy application in transit, the liquid net is bottled in a flexible plastic container with a built-in atomizer so that a squeeze on the bottle is all that's needed to distribute a fine-misted spray over the hair.

Social Situations

SITUATION: You go to a party knowing that you will have to leave early.

WRONG WAY: Wait until the time comes to leave to explain why you have to leave early. If you do, the hostess is sure to think you are making an excuse because you are not having a good time.

RIGHT WAY: Tell your hostess as soon as you arrive.

Brush fish fillets with softened butter or margarine and broil until done. Sprinkle with salt, freshly ground pepper and paprika and serve with short sprays of water-cress and wedges of lemon.

★ IN HOLLYWOOD ★

Ella Raines and Pilot Hubby Begin 'Most Important Role'

By KRISTINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—Hollywood lifted its eyebrows when Ella Raines walked out of her contract at U-I a year ago. She was getting a fat salary and a star build-up and Hollywood couldn't understand why she tossed it away. Unusual gal, Ella. She told me.

"I had one good picture at U-I, 'The Suspect.' Then I got typed as just a flip dame and I was unhappy, so I quit."

If a gal is brave enough to do what Ella did, the results can be encouraging. She's had two good roles, in Columbia's "The Walking Hills" and now in "Impact."

Next month Ella heads for London. Her husband, Maj. Robin Olds, will be stationed there for a year. He's the U. S.'s No. 1 jet pilot. The score is partially diplomatic. "It's the most important role of my life," says Ella.

Popcorn Farable

Somewhere, sometime, somebody offered profound advice to the effect that when you can't whip 'em, join 'em. Which, in a devious, Machiavellian sort of way, is what I currently am up to in connection with the popcorn trust.

The popcorn people, in my opinion, are becoming to be a much too influential factor in the presentation of the cinema in our nation's showhouses. So now, even though I'm still highly against the chomping of popcorn and the rattling of its containers in theaters, I am going to advise corn addicts how they can get a superior product for less money.

Pop your own in any desired quantity.

Pack in a double thickness of paper bags to keep it warm and spritz to your nearest theater to gnash at it.

Now, as to my motive in this prescription of popcorn: Once you start bringing your own large, economical family-size bag of popcorn to the theater, you'll be making the popcorn machines in the lobbies that much less profitable. Eventually you may run them out of business altogether. Once the profit motive is removed, the theater operators will soon pass a rule against your cluttering up the place with popcorn bags and spilled kernels and so on. And then we'll be right back at the ideal point from which we started a few years back—the crunchless, champless, crackleless cinema.

Alas And Alack

Fan letter to Ann Blyth (after the writer had seen "Mr. Peabody and the Mermaid"):

"Without speaking a word you gave a grand performance and in my book you were lovely. Needless to say, I am hopelessly in love with you. I am afraid my love for you will have to remain very much on the unrequited side for there is a gulf between us deeper and wider than the Caribbean where this mythical mermaid gambled. Why? Because, alas and alack, I, too, like Mr. Peabody, am 50 and married."

Short Takes: Mickey Walker is talking to Hollywood about filming his life story... Gene Kelly turns director, as well as star, for M-G-M's "On the Town"... Coming up for Red Skelton is "The Yellow Cab Driver." A natural sequel to "The Fuller Brush Man"... The Protestant Film Council thumbs down on "Sorry, Wrong Number," listed as "definitely not

Treasure Hunt Tickets To Be Distributed By Stores

The free distribution of Treasure Hunt tickets by Midland merchants will be started Monday, Chamber of Commerce Manager Delbert Downing said Saturday.

The Treasure Hunt is a feature of the citywide program officially

T & P Ships Thirteen Carloads Of Cattle

Thirteen carloads of cows and calves from Thursday's sale at the Midland Livestock Auction were shipped from the Texas & Pacific Railway Company stock yards Friday.

Eight carloads went to the Bowling Cattle Company in Sumner, Iowa; three cars to Swift & Company in Fort Worth; and two cars to a buyer in Amarillo.

Auction company men here said that most of the cattle came from ranches in this area.

McCamey Couple Wed In Big Lake Rites

McCAMEY—In a ceremony performed November 8, Mrs. Mayme Davidson became the bride of T. W. Hayes.

The newlyweds plan to make their home in McCamey where Hayes is employed by Shell Pipe Line Company.

Immediately following the wedding, Mr. and Mrs. Hayes left on

a short trip which took them to Junction and Menard.

Ingenuity Makes Gifts That Teens Love

This young girl is solving her Christmas shopping problem by making imaginative gifts such as the colorful braided yarn head band which she tries on for size (inset) before wrapping it up for a lucky friend. To give holiday glitter to the band of tri-colored yarn, she added gold ribbon to braid.

By ALICIA HART
NEA Staff Writer

The ingenious teen-ager can ease the pinch on her pocket-book and please more young friends this Christmas by making clever little novelties that girls love to wear. Settle for trick accessories which have high-fashion acceptance this Winter but are as easy-as-pie to

make. No unusual skills are needed, for example, to make such style-wise accessories as plaited yarn "hair braids," tasseled necklaces for sweaters, "Diamond Jim Brady" cuff links of big sparkling buttons and flower-bedecked hosiery bands. To make a yarn "hair braid" all you need are three thick lengths of contrasting colored yarn about 24

any recipient to wear with her turtle-neck sweater, heaps of fun for you to make. To make a tassel-man, wrap a single strand of yarn around a two-inch piece of cardboard 20 or 30 times. Tie the loops together at one edge of the cardboard and cut the yarn evenly at the other edge. The result is a yarn pom-pom which you fold in half and form into a tassel-man by tying off sections to make a round "head" and two legs with fuzzy "feet."

Four whopping rhinestone buttons glued to cuff-link backings or "chained" together with a heavy thread will put sparkle on any girl's shirt like Diamond Jim Brady's. You can also make expensive-looking dress clips by cementing medallion or fake coin buttons to clip backings which you can buy at five

Two big "Diamond Jim Brady" buttons of rhinestones sewed together with a strong thread make snazzy-looking cuff links to give to a Gibson girl.

an. Some girls or you can cement on round jeweled buttons to top of an inexpensive lipstick case to add costly-looking glitter to a modest gift. Before buttons are cemented in place, metal shanks should be clipped off with a pair of nippers borrowed from your Dad's tool box.

If you have a party-going pal on your list, give her a gala headdress made from a milliner's bicycle clip wrapped with satin ribbon and ornamented with two posties. Tell her she can drape a black lace handkerchief over this, mantilla-fashion.

If you know how to crochet, metallic gold thread can be easily hooked up to make lacy mesh mitts for a Cinderella on your list. When tied with black velvet ribbon at the wrists, glitter gloves will win palms-making applause from a grateful party gal.

'LONELIEST ISLAND' TO HAVE CHAPLAIN

LONDON—(AP)—The Rev. and Mrs. David Ingles Luard, who first met on the remote South Atlantic island of Tristan da Cunha, are going back to live in the place sometimes called "the loneliest spot in the world."

The Society for the Propagation of the Gospel here is sending Luard as Church of England chaplain to the British-owned island, about midway between Capetown and Buenos Aires.

Soviet Russia covers nearly one-sixth of the world's land area and has almost one-tenth of the world's inhabitants.

I SAY FIREMAN, GAVE MY GOLDFISH

BRIDLINGTON, ENGLAND—(AP)—It looked like curtains for Sammy the goldfish. The hot sun shining through his glass bowl at Miss M. King's house set the window drapes afire. Pretty soon the whole room was blazing. But Sammy wasn't troubled. Firemen rescued him and saved the house.

AGED KIL NEAR DEATH

STOCKHOLM—(AP)—An 88-year-old sea in the museum of Helsingborg, Sweden—claimed to be the oldest aquarium fish in the world—is failing rapidly. Caught by two boys in a creek outside the South Swedish city in 1883, the sea, named Putte ("Ducky" in English, "Pueppchen" in German) has outlived his captors. About a year ago Putte developed a tumor and is now getting weaker and weaker. Experts on fisher diseases have not been able to help him.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, NOV. 14, 1948-3

Prague Bans German Inscriptions

PRAQUE—(AP)—The Prague city administration has dug up an old order that German inscriptions on tombstones must be removed, and announced that removal must be done by the end of this year except where removing the lettering would deface other art work on the grave stone.

The order was issued shortly after liberation in 1945, when feeling against the Sudeten Germans and every other kind of German ran high. German inscriptions were to be replaced by Czech. But, like all orders, enforcement lagged. Recently the question was renewed and the Prague council decided it must be obeyed.

The United States Bureau of Census estimates there are more than 36,300 Negro churches in the United States having a total membership of more than 3,800,000.

SOAKING FRESHENS CABBAGE

Cabbage that needs to be freshened and made crisp for slaw may be soaked in cold salted water for a short time, then drained and shredded.

AMAZED AT QUICK ACTION OF MERTOX

"For the past ten years I have been troubled with severe gas pains which seemed to press against my heart and made it difficult to breathe. I had a pain under my breast that was almost unbearable at times," writes Mrs. Alice Combs of Waco.

"My food would not digest and caused me very stomach. I had had many spells and when these attacks occurred I felt all washed up. My appetite has greatly improved and I can now eat lots of things that I couldn't eat before taking this wonderful medicine."

"Since taking Mertox I feel like a different person. It certainly is wonderful to get up in the morning and do a day's work, without that tired, worn-out feeling. I certainly was amazed at the quick action of this medicine. You can get Mertox from any drug store at the new REDUCED price."

Writer Pushes Letters For Europe

NEW YORK—(AP)—A young American writer and a score of continental newspapers have joined forces in an ambitious campaign to get Europeans and Americans better acquainted by mail. Their goal is the annual exchange of millions of personal letters between Mr. Average Citizen, U. S. A., and his counterpart in 10 Western European countries.

The American is Robert Farr, 30, magazine writer. European collaborators in the program are newspapers in France, Belgium, Italy, The Netherlands, Denmark, Finland, Sweden, Norway, Luxembourg and Switzerland.

Farr is founder and director of the International Friendship Association, which has launched a nationwide campaign to get Americans to write letters about themselves, their activities and America. These letters, which also may stimulate the type of European with whom the writer would like to correspond, should be addressed to "Friendship Association, Summit, New Jersey."

The association will relay the letters to cooperating European newspapers. The latter will distribute

COTTON DAMAGED BY FIRE EARLY SATURDAY

Six bales of cotton were damaged in a fire at the cotton yard of the Planter's Gin Company on Terrell Street about 12:15 a. m. Saturday. The Midland Fire Department extinguished the blaze.

HIGH SCHOOL ENGLISH TEACHER RESIGNS POSITION

Midland High School Principal Charles F. Mathews Saturday announced the resignation of Mrs. Jeanette Roberts, sophomore English teacher. Miss Irene Henderson of Georgetown has been selected to succeed her.

WE, THE WOMEN

By RUTH MILLET
NEA Staff Writer

For women's clubs all over the country, fall is open season on prospective members.

Since it is so much easier to stay out of one once you've become a member, here are a few questions a woman should ask herself before joining any club or organization:

Am I interested enough in the aims or purpose of the organization to become an enthusiastic working member instead of just another "lagger"?

Just what will I get out of the organization? Will it be instructive? Will it give me a chance to do something worthwhile in the community? Will it give me stimulating companionship? Will it offer relaxation? It ought to do at least one of these things.

Have I The Time?
How much time will it take, and have I that much time to give to it? Can I take on another activity without getting my life crowded and confused?

What will membership cost me—not just in dues, but in clothes, entertaining costs, pay for babysitters, transportation, etc.?

A woman can save herself a lot of wasted time and energy and perhaps even some hard feelings if she asks herself these questions before she joins an organization instead of waiting until afterward.

At the time, it may seem easier to say "Yes, I'd like to join," than "No, I can't." But "No, I can't," sometimes proves to be the easier answer in the long run.

MARRIAGE LICENSES ISSUED TO THREE COUPLES HERE

Prospective newly-weds made a run on the Midland County clerk's office Friday and made off with three marriage licenses.

Licenses were issued to Patsy Pilcher and Lamar Duffey, Mattie Pearl Patterson and Eugene F. Taylor, and Mrs. Mildred P. Hartwell and Walton P. Goodman.

Elbows Tell Tales About Woman's Age

To soften and smooth her elbows, model uses tiny pumice pillow and wears pink satin elbow bands while cream soaks into skin.

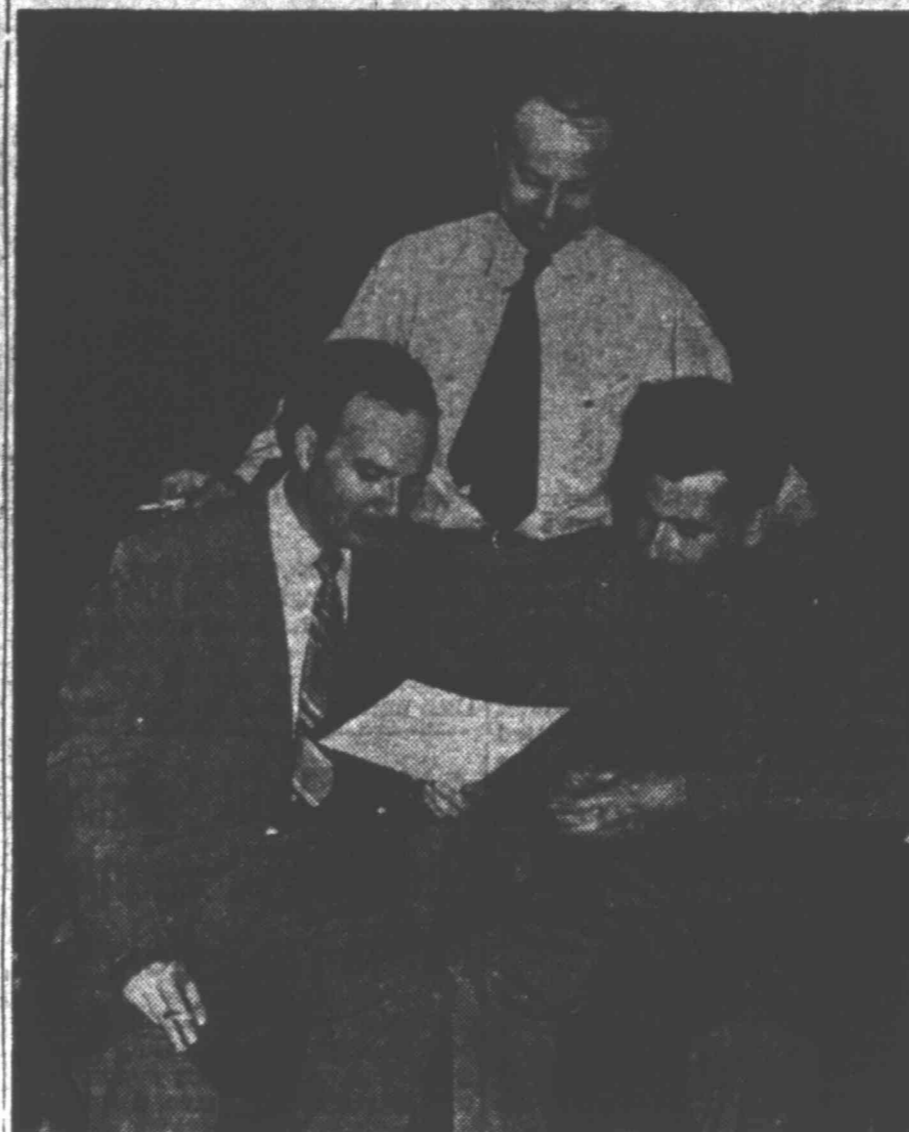

By ALICIA HART
NEA Staff Writer

Elbows are gossips which tell tales about a woman's age. But such gossiping can be stopped. That's the idea behind a new treatment package. This includes the kind of cream that's needed for lubricating dry skin and a little pumice pillow designed to be used to slough off scalliness or callouses.

An important supplementary item available for use with these products is a pair of pink satin elbow bands. Lined with washable acetate, such bands are designed to keep cream on skin where it's wanted; off clothes or bed sheets where it is most unwelcome.

The makers of these specialized treatment items suggest that the elbow bands be worn for at least one hour, preferably overnight in order to keep the skin cream confined to the skin as long as possible. In the morning, cream is removed and the tiny pumice pillow, which is packed with slightly abrasive powder, is patting and rubbed gently over the elbows in a skin-smoothing routine.

Theater Officials Check Budget

Leon Valdes, treasurer of the Midland Community Theater, Inc., seated left, with William Pomeroy, Jr., right, and Norris Creath, standing, is checking the 1948 financial report and considering the 1949 budget. The theater will complete its 1948 program with presentation of a play December 2, 3 and 4, and is starting its drive for 1949 members.

Stanton News

STANTON—Miss Quida Fay Polk, who was injured in a car-train crash here last week, is able to receive visitors at the Stanton Hospital. Visitors from out of town last week included: Mr. and Mrs. E. L. Teague and daughter of San Angelo, Mr. and Mrs. H. O. Folk of Big Lake, Mr. and Mrs. E. C. Mahurin of Winters, Supt. O. Z. Porter of Blackwell; and Mrs. Esta Beachler of Santa Maria.

Mrs. A. J. Graham and her niece, Miss Lee Handbrough of Hooper, Okla., left Sunday for a visit in Austin.

Mrs. B. F. White is now at home after three weeks in a San Angelo hospital where she underwent surgery.

Mr. and Mrs. Ellmore Johnson and family visited relatives in Amherst last week.

George Winslow, who was injured in an automobile crash near Las Cruces, N. M., last Sunday, has been returned to his home here.

Mrs. Maggie Brothers is in the Stanton Hospital with a broken hip sustained in a fall at her home.

Mrs. T. E. Brantley is visiting in the home of her daughter in San Angelo.

Mrs. B. Slauson, a member of the nurses' staff at Stanton Hospital, has returned from a visit in El Paso.

Charles Blocker, young son of Mr. and Mrs. Horace Blocker, suffered a fracture of the left arm in a fall recently.

Mrs. R. A. Bennett again is in the Martin County Memorial Hospital for treatment.

Serves Overseas

William Thomas, son of Mr. and Mrs. R. S. Thomas, 808 East Indiana Street, Midland, has finished his basic training at Fort Ord, Calif., and now is stationed in Hawaii.

Scottish Lass Wants Cowboy Suit For Little Brother

A letter addressed to "Any Cowboy," Texas, U. S. A., was received Friday by the Midland Post Office. The writer of the letter was Patricia N. Laird, Bute Drive, Johnstone, Renfrewshire, Scotland.

The letter reads: "Dear Cowboy, I have read in the papers of some boys and girls getting cowboy suits from America and I wondered if someone would be kind enough to send one for me and my little brother."

"I am 10 years of age and am four feet, nine inches tall, and my brother Brian, is four feet, two inches tall. He loves to play at cowboys and gallops as if he was on a horse."

"I am very fond of drawing and hope to be a dress designer when I grow up if I can draw well enough. I am sending you one of the drawings out of my drawing book."

"I hope you will send me a letter as I would love to have one from a real cowboy. I hope you don't think I am cheeky writing this letter but I have been wanting to do it for a long time. Love from Patricia N. Laird."

If any "cowboy" wishes to have the letter and supply Patricia and her brother with a cowboy outfit, it will be in the News Department of The Reporter-Telegram.

Questions and Answers

Q—Why do some animals retract their ears when angry?
A—Animals that fight with their teeth do this so that the ears cannot be injured or torn by the enemy.

Q—Who are the Walloons?
A—The Walloons are the inhabitants of southern Belgium who speak a dialect of French, as contrasted with the Flemings or people of Flanders who speak a dialect of Dutch or low German. The Walloons are primarily of the Celtic race.

Q—Are Panama hats woven under water?
A—The weaving is not done under water, as commonly believed, but both the fiber and the fingers must be kept moist during the process, and for that reason the work is done chiefly at night or in the early morning.

Q—Where was the first state agricultural experiment station established in this country?
A—The first state agricultural experiment station was established at Wesleyan University at Middletown, Connecticut, in 1875. Professor William O. Abrater was made the first Director of the station.

Q—How many queens have ruled in France?
A—France has never had a sovereign queen.

Of the world's states, Russia is the largest, with 8,249,000 square miles.

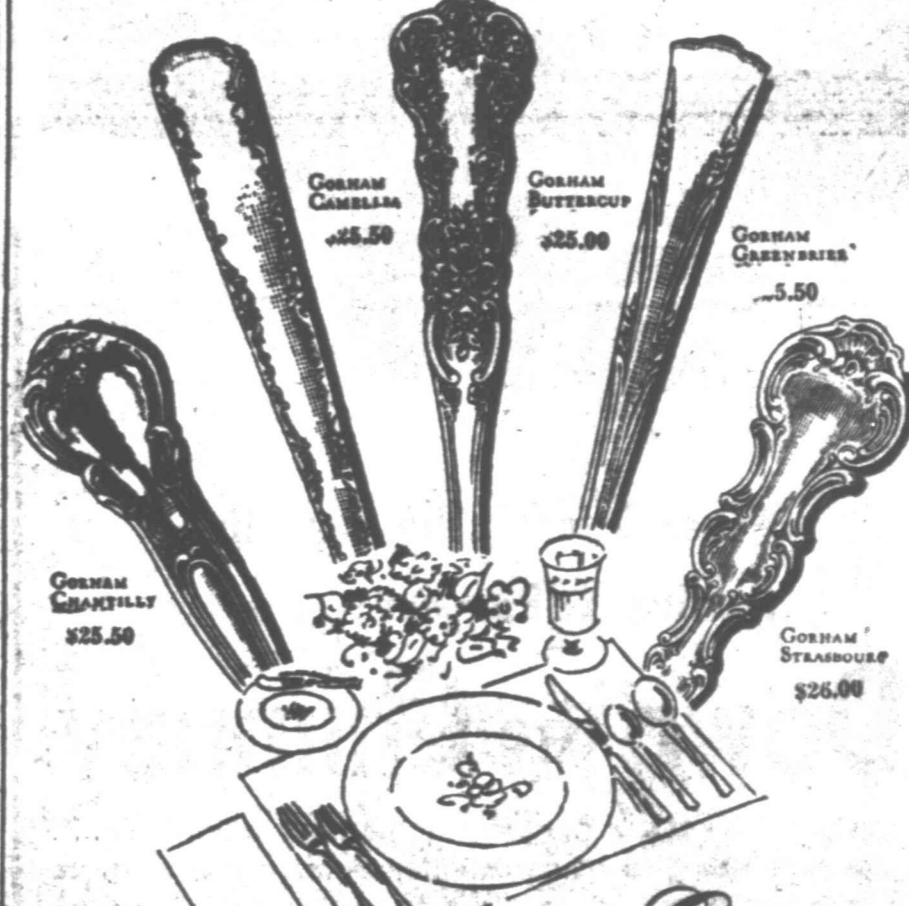

Beautiful Silver

Gallery Talk—
(Continued from page 1) collection of Boston, is especially interesting.

Dr. Palmer, who has brought art collections to Midland several times in the past and recalls one exhibit that was sponsored by the Palette Club as long ago as 1938, expects the Western paintings to be favorites of the visitors here as well as at his next showing, scheduled at San Angelo December 5-15, during a meeting of the West Texas Sheep and Goat Raisers Association.

Unusually colorful and action-filled Western scenes are Harold Bryant's "Moving the Herd" and Frank Tenny Johnson's "Indians in the Pass," and residents of this section should enjoy a Davis Mountain scene by Victor C. Anderson, an easterner who spent two years in the West Texas mountain country.

TEXTRON fashions the gown of your dreams

You're all dressed up to go dreaming... wearing moon glow rayon satin by Textron*.

Alluring... the way the back rounds to a new low... the way hand-run Alencon lace moulds the midriff... outlines the softly ruffled neckline. Truly romantic for gift giving in Snow White, Heaven Blue, Pink Angel. Misses, dress-sized 12 to 20.

Ex-Patent Medicine Barker Argued Nine Years To Sell Famous Train

By S. BURTON HEATH
NEW YORK—(NEA)—The Twentieth Century Limited today is one of the two really famous trains in this country, the New York Central's pride. Except perhaps to competitors, it would seem sacrilege even to suggest calling it off.

But back at the turn of the century a pudgy, chin-whiskered ex-patent medicine barker had to argue nine years to get the Central's high brass to let him start a deluxe extra fare train, that would make the New York-to-Chicago run every day in the year both ways, in a mere 20 hours.

Other railroaders scoffed, particularly the British. They didn't believe engine, coaches or rails could stand such pounding. If they could, the train would lose money.

George H. Daniels secretly agreed about the money part. To him, the Century was the last and greatest in a long series of promotional schemes that were intended not to make

money, but to make folks enjoy riding trains.

Daniels was just a general passenger agent who left routine to assistants. But the christening of the newest luxury streamlined Century reminded railroad old-timers that it wasn't Cornelius Vanderbilt, Chauncey Depey or any of the financiers and politicians who hunched the Century—it was George Daniels.

When they went back over the records, they discovered that Daniels also hunched a lot of other travel helps that benefit more people than ever watched the famous half-ton maroon carpet unroll for the Century's fortunate few.

Whenever you get a red cap to help with heavy luggage in a railroad station, remember George Daniels. The red cap was his idea, and in his day the service was free to passengers. If Americans weren't so eager to tip, red cap service might have stayed free until the 1930s.

Remember Daniels

Whenever you check luggage at a railroad station, remember Daniels. It was his idea, tried out in Grand Central Terminal and later extended to the whole system and picked up by others.

If you enjoy good service and food in a clean diner while you're on the road, at prices ordinarily less than those of quality restaurants, thank "Watermelon George" Daniels, who loved good food and good fellowship and thought others would, too.

The first Twentieth Century. No streamlining, but it had a barker, a valet and a hostess.

Daniels was born in 1842 in Elgin, Ill., and spent his youth peddling the patent medicine his father made and working on Mississippi River boats. He shifted to railroading because he craved speed and glamour.

Before Daniels, railroads devoted themselves to moving people who had to get somewhere. Daniels had the idea of getting people to travel for fun. That involved making their trip more comfortable, making it

Buffalo and New York, and made it famous overnight when its trial run was at the unheard-of average speed of 61.4 miles an hour. When the Central's Engine 999 hit a speed of 112.5 miles an hour between Batavia

AAUW Will Sponsor Showing Of Vaunted Movie From Italy

Residents of the Midland area who read about outstanding foreign films and wish for an opportunity to see them, will have their wish granted Monday at 7:30 with a showing of the much-praised Italian movie, "Shoe-Shine," at the Yucca Theater.

Members of the Midland Branch of the American Association of University Women made arrangements with J. Howard Hodges, theater manager, to bring the film here for a one-day showing. If it proves popular with theater-goers here, the AAUW hopes to arrange for other foreign movies including Laurence Olivier's film versions of Shakespeare.

Enthusiastic reviews of "Shoe-Shine" have appeared in such magazines as Life, Time, Newsweek, The New Yorker and The Nation. The film was made in Italy and is the story of the ordeals of two young boys in that country during the American occupation. English subtitles have been added for its showings in the United States.

The recent graduates group of the AAUW, with Eleanor Simpson as chairman, has been designated to publicize plans for showing the film and is making the announcement to all Midland clubs in meetings this month.

faster—and giving them somewhere to go. Modern publicity men still gush over some of the literature with which he enticed folks to ride the Central up to the Thousand Islands, in the St. Lawrence, which were nothing more than 1860 tiny islets until he glorified them.

The airplane hadn't been invented, but man already loved speed. Daniels played on that love. He hunched the Empire State Express between

and Buffalo, Daniels persuaded the Post Office Department to picture the locomotive and the Empire State Express on a stamp.

Great Achievement

But the Century was his great achievement. It grew out of the Exposition Flyer, which ran between New York and Chicago on a 20-hour schedule during the Columbian Exposition in 1893, and then was stopped. It took Daniels until 1902 to persuade the road to make such a train a permanent feature.

That first train would seem pretty tame to those who now ride the Century. It had only five wooden cars and cost only \$115,000—contrasted with the sleek, streamlined, stainless steel, air-conditioned, all-room, 16-car trains of today. It featured comfort and dignity at a time when most railroads went in for phony grandeur.

But the new \$2,000,000 streamliners that took over the Century run in September, 1948, are direct descendants of the dinky luxury train of 1902. They are less spectacular than some other roads

AAUW Group To Meet For Education Study

The Education Study Group, a newly organized unit of the Midland Branch, American Association of University Women, will have its first meeting at 1:30 p. m. Tuesday in the home of the chairman, Mrs. Keith Stuart.

A review of the Gilmer-Alken report, the result of a committee's study of the Texas school system, will feature the program. A meeting schedule for the group is to be adopted.

Ensemble Playing Is Aim Of Pianists In New AAUW Division

Pianists in the Midland Branch, American Association of University Women who wish to experiment with ensemble playing are forming a new group under leadership of Mrs. Leonard Thomas, and will choose regular meeting dates.

A meeting in Mrs. Thomas' home, 1607 West Texas Street, is set for 1:30 p. m. Wednesday. All interested members of the AAUW are invited.

Several members met last Wednesday for an initial session and played one and two-piano arrangements for various groups. They chose selections from both classical and modern composers. Mrs. Thomas emphasizes that the group will play "just for fun" and that it is not confined to pianists of concert calibre; strictly amateurs are welcomed.

Those already enrolled are Mrs. H. C. Bomarth, Mrs. Ralph Troesth, Mrs. Russell Ransland, Mrs. Dave Pennell and Mrs. Clem George.

FROM MONAHANS
Mrs. Mary Paffilo and daughter, Jan, were Midland visitors this weekend.

Daddy Ringtail

Daddy Ringtail And The Brush Fire

By WESLEY DAVIS

Bobby Ringtail, the little monkey boy, found a match one day, when he was out playing in the Great Forest. Bobby hadn't grown very big at the time I am telling you about. He wasn't very old.

But Bobby knew about matches. He had seen Daddy Ringtail strike them, many, many times. He knew too, that he should never play with matches—because they are very dangerous for any one as little as Bobby—but he picked up the match and walked down toward the river anyway, determined to do what he was wanting to do.

He picked up some little sticks that the rains had carried down to the river. He put them in a little pile or stack, because the sticks weren't wet any more. Then he put

some big sticks on the pile of little sticks — and some more and some more — until the pile of sticks was taller than Bobby himself.

Then the little monkey struck the match on a rock. He held it out to the stick—so that they would catch fire, and they did. Soon they were all afire and the fire was very big.

The leaves and grass around the sticks began to burn, too, and Bobby was more frightened than I can ever tell you, because it looked as though the whole forest was going to burn up.

"Oh me! Oh my!" Bobby said. "Poor Mr. Squirrel! If it burns up his house! Poor Pook Pookum if it burns up his tree. What will the Sky Bird do? And the other birds and animals—if their homes are all burned up—and if the things for them to eat are burned up too?" And the fire snapped and popped and roared. The smoke and the flames went high in the air. And the Great Forest would have all been burned—burned all black to the ground — if Daddy Ringtail hadn't seen the smoke and come along just then with Sneezy Sausan and the other elephants. The elephants carried water from the river in their trunks—and put the fire out—and it would have been a very horrible thing if they hadn't. When Daddy Ringtail took Bobby home—back to the monkey house. He talked to Bobby a long, long time—and I don't know what else Daddy Ringtail did — but Bobby never struck matches ever again, except when Daddy Ringtail was with him.

And so, happy day, and happy not-ship between appearance and intelligence. Confirmed by the Department of Psychology of New York University.

When the National Football League campaign got under way, three teams—the Boston Yanks, Philadelphia Eagles and Pittsburgh Steelers—had never won a game from the Chicago Bears.

T & P Announces Schedule Changes

Changes in the departure times of three passenger trains were announced Saturday by Midland officials of the Texas & Pacific Railway Company. The changes were effective Sunday.

The Westerner, running from Los Angeles to Dallas, now leaves Midland at 1:38 a. m. on the new schedule.

The Southerner which runs from Monahan to Dallas, now is scheduled to leave Midland at 8 p. m. The night schedule of the Westerner has been changed so that it will depart Midland at 11:15 p. m. going east.

Schedules of the Eagle and other trains remain the same.

Mother Feted By Mrs. Lynn

Mrs. Russell A. Lynn entertained Friday morning with a coffee in her home, 101 West Cowden Street, honoring her mother, Mrs. Myrtle Davis of Emporia, Kan., who is spending the winter in Midland. Friends whom Mrs. Lynn invited to meet her mother included Mrs. Jack Kean, Mrs. Bill Johnson, Mrs. Robert E. Lynn, Mrs. Paul Hausmann and daughter, Susan, Mrs. W. H. Spaulding, Mrs. O. P. Wood, Mrs. Louis Addison and daughter, Susan-Leta.

Yellow chrysanthemums made gay spots of color in the room, and were arranged on the table from which coffee was served.

Holiday Desserts Program Topic Of Valley View Club

Easy and quick desserts for special holiday meals were demonstrated by Mrs. Nettie B. Meisick, county home demonstration agent, at the meeting of Valley View Home Demonstration Club Friday afternoon in the home of Mrs. Betty Bissell.

Uncooked fruit cake, a quick plum pudding and several kinds of cookies were prepared in the demonstration, then served at the refreshment hour.

Mrs. Dave Bissell gave information she learned when she attended a recent class on landscaping conducted at Stanton by Sadie Hatfield, landscaping specialist with the state extension service.

Mrs. J. C. Stevens reported on the November meeting of the County Home Demonstration Council. The club planned a Thanksgiving supper for members and their families to be held at 7 p.m. Thursday in the Valley View School.

Mrs. L. J. Swedeen was a new member. Other members present were Mrs. C. C. Carpenter, Mrs. T. O. Midkiff, Mrs. Herd Midkiff, Mrs. W. P. Parker, Mrs. Jim Baker and Mrs. B. L. Mason.

Add a little finely grated onion to creamed celery; serve in a casserole, if desired, with a topping of buttered bread crumbs and a sprinkling of paprika.

Almost one-half the people of the world live in Southeastern Asia.

1948 4-H Gold Star Winners

Betty O'Neal and John Midkiff were presented Gold Star awards at a recent 4-H Harvest Banquet here after being selected as the outstanding 4-H Club boy and girl of Midland County for 1948. Mary Lynn Manning, 1947 winner, and Norman Drake, 1946 winner, presented the awards. Pictured, left to right, are Drake, Midkiff, Miss O'Neal and Miss Manning. Leland Howard, 1947 winner, was unable to attend the banquet.

Area Scout Leaders To Attend Conference

Mrs. C. E. Bissell, president of the Midland Girl Scout Association; Mrs. I. A. Searles, volunteer trainer for the Permian Basin Girl Scout Area; and Mrs. Paul Anderson, leader of a Girl Scout troop here, with Mrs. J. E. Starley of Pecos, secretary of the area council, will leave Monday for Fort Worth to attend a regional meeting of Girl Scout workers.

Adults from Texas, Oklahoma and New Mexico who work with Girl Scouts will be present for the conference, where national officers will be speakers. It will continue through Thursday.

Serve a Fall fruit cup of seeded grapes mixed with diced pineapple and banana; squeeze lemon or orange juice over the fruit for extra flavor and garnish with a sprig of mint. This fruit cup may be used as an appetizer or for dessert.

Radio Week Observance Is Planned By Dealers

Radio dealers of Midland are inviting men, women and children to "come in during National Radio Week Sunday through Saturday, and listen to today's new radios." The entire nation this week is joining in the celebration of the radio industry's twenty-eighth birthday.

"A Radio For Every Room . . . A Radio for Everyone . . . Everywhere" is the slogan of National Radio Week this year, and emphasis will be on the technical and styling improvements of today's new radios.

"Moreover, there has never before been such a wide variety of models to choose from. There is a radio for every taste, young or old, and for every purpose, whether it be for outdoor or indoor listening."

An increasing number of today's radio include FM reception facilities, McGill pointed out, and this feature alone opened up an entirely new field of radio entertainment and listening pleasure to owners of these new receivers.

"In addition, all radio manufacturers have greatly improved the phonograph pick-up and amplification equipment in radio-phonograph combinations and have thus increased the pleasure of listening to your favorite records," McGill added.

Special Broadcasts
National Radio Week will be celebrated with a wide variety of special broadcasts on the networks and radio stations, and will be highlighted by the second annual "Voice of Democracy" contest for high school students.

Under the sponsorship of the Radio Manufacturers Association, the National Association of Broadcasters, and the U. S. Junior Chamber of Commerce, and with the support of the U. S. Office of Education, the "Voice of Democracy" contests will be open to all high school pupils in the 10th, 11th and 12th grades wherever a local Junior Chamber of Commerce chapter and a high school principal make the necessary arrangements.

Midland dealers are anxious to show their many new models during National Radio Week.

P-TA Speaker

The Rev. H. H. Hollowell, pastor of the First Methodist Church, will be the speaker for the North Elementary Parent-Teacher Association program Tuesday afternoon. His subject will be "The Home—A Pattern for Building Sound Character and Moral Values." The program, starting at 3:45 p. m. in the school auditorium, will include music by the choral club directed by Miss Stewart.

MIDLANDER ELECTED TO SMU'S PSI CHI
DALLAS—Roy D. Long, son of Mr. and Mrs. W. Long of Midland, has been elected to an associate membership in Southern Methodist University's chapter of Psi Chi, national psychology honorary fraternity.

A graduate of Midland High School, Long is majoring in psychology. He is a junior.

Finely chopped parsley added to a bread stuffing gives it excellent flavor; use about a quarter cup of the parsley to two cups of finely cubed day-old bread.

Borden Company Officials

H. B. Schauer, left, is the general manager, and J. P. (KID) Carson, Jr., is the sales manager of the Midland unit of The Borden Company, which Sunday will hold open house in connection with the formal opening of its new and spacious plant at the intersection of Missouri Street and U. S. 80 Highway.

Grade A Milk Producers Of Midland Area Supply Needs Of New Borden Plant Here

The Borden Company in Midland buys its raw milk in and around Midland and the adjacent territory. The company buys from grade A milk producers only. Grade A applies only to the milk producer whose plant and equipment are passed on by city and state health authorities and who meets certain rigid specifications. Milk arrives at the Midland receiving dock every morning. It is immediately cooled to 38 degrees then pasteurized, homogenized and put into glass bottles or paper cartons.

All Modern Equipment At Borden's

Over a year ago The Borden Company started construction of a new plant in Midland. Operations began in the new plant four months ago. The new structure houses all late model equipment of stainless steel construction, modern in every respect. After operations each day, workers go over the plant and equipment inch by inch and clean each piece thoroughly to be sure it is as clean as is possible.

Following the processing of the milk at the plant, Borden's delivery trucks carry the product to homes in Midland, Odessa and Big Spring. Refrigerated trucks distribute Borden's milk and ice cream from the Midland plant over the Permian Basin and branch dealers from Alpine and Pecos haul milk and ice cream from the Midland plant to the Big Bend area and west.

Wilson is investment company director. Jimmy Wilson, manager of the Key Investment Company offices here, Friday was elected a director and secretary of the company at a meeting of its directors in Odessa. Wilson has headed the Midland office since its opening here several months ago.

Seeds of the sabadilla plant have been used in manufacture of tear bombs. They emit a gas that makes tears flow freely.

The Midland Reporter-Telegram

FIRST WITH THE NEWS

MIDLAND, TEXAS, SUNDAY, NOVEMBER 14, 1948

SECTION THREE

EISENHOWER

was my boss by Kay Summersby

Captain, WAC, Army Of The U. S. Copyright, 1948, by Kay Summersby

In Captain Kay Summersby's book, 'The White House Wives', she writes: 'I met Eisenhower at the White House...'

At 7 o'clock the next morning we set out for Constantine, Tebessa, and the scene of what turned into the sad American defeat at Kasserine Pass. This was my first combat drive, with no resemblance to plotting the general around rural England. We started out in protective convoys, accompanied by two jeeps, a spare sedan, and a weapons carrier. On this main highway, I realized that protection was planned for possible aerial attacks. Some stretches of that route were as lonely as any desert country can be. Still, to me, they were absolute heaven compared with the spots where we hit supply convoys traveling the Red Ball Express; the road was two-lane at best, with soft shoulders, and truck drivers hogged that center part with frightening insistence, despite our little group's horns, the siren on our car, the flag, and the four-star license plates. The solid miles-long lines of huge trucks constituted a dangerous, exasperating obstacle course. With my valuable passenger in the back seat, and remembering the rumors of sudden paratroop attacks on the open stretches, I began to see that driving a general in wartime is far from glamorous. Chilly, rainy weather added a final hazard.

Formal Opening Scheduled

Open house will be observed Sunday afternoon at the new and completely modern plant of The Borden Company at the intersection of West Missouri Street and U. S. 80 Highway in Midland. The plant was completed recently at a cost of more than \$300,000.

Community Theater Opens 1949 Membership Drive

Three seasons and an even 50 performances old, Midland Community Theatre, Inc., places its 1949 season membership on sale this week and Paxton Howard, president, invites all interested residents to enroll. "With the experience of 19 productions behind us, we offer 1949 season membership holders six top-notch plays on a par with those produced by any other non-professional theater and superior to those presented by most small traveling theater companies," Howard said.

Heading the committee handling the sale of 1949 memberships is Mrs. I. A. Searles. She is assisted by Mrs. Robert Dewey, Mrs. Norris Creath, Mrs. Lee Flood, Mrs. Paxton Howard, Mrs. W. A. Waldschmidt, Mrs. J. P. Butler, Mrs. C. E. Marsh, Mrs. W. G. Epley, Mrs. Lamar Lunt and Loyd McSpadden. Current memberships in the theater are valid through December when the comedy, "The Late Christopher Bean," will be presented. Those who buy 1949 memberships may also use the new membership cards to see this last play of 1948, plus the six productions scheduled for 1949.

Mrs. Mollie Yeates Feted On Birthday

MCCAMEY—A surprise party was given Mrs. Mollie Yeates recently in honor of her 74th birthday. The celebration was in the home of Mrs. J. G. Herrington of the Humble Pipe Line Camp. Birthday cake, ice cream, nuts and coffee were served to: Mmes. C. E. Harris, Frank Coughran, J. T. Fuller, George Warfield, Betty Moore, F. W. Culwell, I. L. Edwards, C. W. Brown, Leo Plumlee, Bill Ramsey, C. H. Bixler and C. J. Mann and Messrs. Leo Plumlee and C. H. Bixler.

Clinic For Cerebral Palsied Children Is Stated At Lubbock

LUBBOCK—A clinic for the examination of cerebral palsied children will be held Monday, November 22, at Lubbock's Cerebral Palsy Treatment Center which is sponsored by the Lubbock Crippled Children's Society and the Rotary Club. Services of the center are available to any child in the area. Specialists from Fort Worth and Amarillo will be present at the Center to examine children and order treatment. Physical therapy care is available daily under the direction of a registered therapy technician. Parents who plan to bring their children to the clinic are requested to visit the Treatment Center prior to the clinic date so that case histories may be obtained. The Center is located at 1317 Tenth Street. The telephone number is 6541.

STUDENT IS VISITOR Mike Steig is spending the weekend with his parents, Mr. and Mrs. M. H. Steig of 1400 West Tennessee Street. He is here from Rowell, N. M., where he is a student in New Mexico Military Academy. A fellow student, Jack Best, whose home is in Corpus Christi, is here with Mike.

HEAVIEST WOOD The heaviest wood known is ironwood. It weighs 81 pounds a square foot and sinks in water.

School Principal Has Housing Worries

Charlie Mathews, principal of Midland High School, is in another housing jam. Five women teachers, who have been rooming together, Saturday were notified they must vacate their living quarters due to the sale of the property. A large apartment or a furnished house is needed for this group. A new high school teacher will arrive this weekend and Mathews also must find an apartment for her. The need is urgent, and the principal faces a sleepless weekend unless someone comes to his rescue. Persons having or knowing of living quarters which might be available to the faculty members are urged to contact Mathews at his home or office. Most important by-product of the meat-packing industry are hides.

McCamey Hunters Are Back From Mountains

McCAMEY—At least eight hunters were back in McCamey late Wednesday with their deer, and some of them were pointing to the opening of the general season November 16.

Burl Williams, Ernest McFadden and Jimmy Gaddy returned Tuesday night with two eight-point flag-tails and an eight-point mule deer. They hunted on the Alton Tompkins Ranch near Valentine.

The hunting party of Bean Post, A. G. Campbell, of Durant, Okla., Dinger Barfield, and A. L. Lewis of Dallas brought back two deer Tuesday afternoon. They hunted about 30 miles south of Marathon.

J. K. Wesberry and Jack Boyd of Crane each brought back their wares from a hunt in the same vicinity south of Marathon.

Quebe Alford was reported getting a six-point buck in his hunt near Kent, Texas.

Flowers of the California lilac bush produce an abundance of cleansing lather when rubbed in water.

Little classified sell big and little things. Phone 9000 for Ad-taker.

Shaved by the Ballot

The Dewey Mustache Club is in a lather. Organized in the defeated Republican candidate's home town, Owosso, Mich., with members pledged to grow Dewey hair-lips, it recently held final rites, with victorious Democrats shaving off the GOP mustaches. Lee Janssen, president of the club, has his removed by Gino Caruso, a staunch Democrat. Looking on are William Mills and Dave Dreuth, right, the latter waiting his turn.

CARNIVAL

"Furthermore, if you stay home much on winter evenings, I imagine it would pop a mighty nice batch of corn!"

New Borden Plant Will Hold Open House Sunday

All roads will lead to the new plant of The Borden Company in Midland Sunday afternoon when hundreds of visitors from throughout this area are expected to throng the plant for the grand opening starting at 2:30 p. m. The plant recently was completed at a cost of more than \$300,000 after being under construction more than eight months.

Elaborate plans have been made for the entertainment of visitors Sunday.

Guests will be welcomed at the door by General Manager Herbert B. Schauer and Sales Manager J. P. (Kit) Carson, Jr. Guides will conduct the visitors on a tour of the entire plant, and refreshments will be served in the retail store.

Conducted Tours
For the tour, guests will be divided into groups of 20 so that the guides may be able to give personal attention to questions asked by individuals. Each employee will be at his regular duty position during the tours and will give detailed information concerning the operation and accomplishments of the machines.

Several Midland speakers will be featured during a broadcast over KCRS at 3 p. m. Piano selections also will be given during the 30-minute program.

Visitors will enter through the retail store and will visit the offices, loading docks, receiving room, processing room, ice cream manufacturing rooms, and the engine room.

Guests will be received between 2:30 and 6 p. m.

TERMITES HAS ASSISTANT
Termites carry small one-celled animals in their digestive tract to help them digest the wood they eat.

AUTOMATIC—ALL THE WAY—New Gas ranges light without matches, cook by clock control, set and keep exact heats!

PERFECT BAKING—Only air-circulated Gas ovens can bake six cake-layers at once with the same even texture!

MORE FOR YOUR MONEY—New Gas ranges cost less to buy and operate than any other modern automatic ranges!

NO OTHER RANGES IN THE WORLD give so many people—so much—for so little! This new Gas range is one example of the many fine "makes" built to "CP" standards.

See your dealer and choose the one that's best for your family. For the best in food preservation, see the new silent Serve! Gas refrigerator. It's a must, too, in a "New Freedom Gas Kitchen."

West Texas Gas Company

HELPING BUILD WEST TEXAS SINCE 1927

Texas Liberals Back In Saddle With Truman Win

By DAVE CHEAVENS
AUSTIN —(AP)— President Truman's victory and the National Democratic sweep put the liberals firmly back in the saddle on the Democratic donkey in Texas.

Dissolution is not the word to describe the party's future in Texas.

Reassignment is nearer to it. This started back in 1944 and came to a more definite head in 1948, with extreme leftwingers joining the Progressives and right wingers lining up either with the Republicans or with the States Righters.

Many Texas Democrats have felt that most of the ultra-conservatives who at times have been top leaders were at heart Republicans. There have been, for example, many instances where big contributors have chipped in to the war chests of both parties.

Some Democratic leaders believe that during the next four years, quite a few one-time Democrats will openly join the Republicans and it might even result in less squabbling and bickering within the party ranks. This warfare between factions which could not agree on party principles has broken out at numerous recent conventions.

Republican state chairman Henry Zweifel has frankly invited "purged" Democrats to join the GOP. He believes the Republican vote polled November 2 has given Texas a good start toward becoming a real two-party state.

New GOP Hope
Very few thought it had in 1928, even though the Texas electoral vote went to Herbert Hoover instead of the Democratic nominee for president, Al Smith. Most Republicans then admitted the issue in that race was not partisan, nor has it been in some governor's races where Republicans ran strong—but never enough to win.

Evidence of the new Republican hope is the fact the party will set up at Austin a permanent headquarters, looking four years ahead. In their public pre-election statements, Republican leaders were loud in predicting their party would elect Jack Porter to the senate and name Republican electors. Privately, they said they thought they had a fighting chance to name Porter, but no chance of going Dewey.

If they can persuade some of the new thousands who voted Republican November 2 to stay put, they believe they have a better chance of taking Texas at some future day.

Gov. Beauford H. Jester, titular head of the Democratic party in Texas, was supported in his first election by many big shots who this year broke away from the Demorevolt.

Many of the present liberal leaders fought him then, but they joined with him when he made up his mind to stick with Truman although he had opposed Truman's civil rights program as a federal project. He always has insisted the southern states can handle it, and that Texas is—for example, in providing better higher education for negroes.

Rededication Urged
He expressed hope the party has "proved itself strong enough to get along without its dissenting elements; now I hope it will prove itself strong enough to get along with them."

Jester called for rededication to "true Democratic principles" and said if the party can not follow a reasonable, middle-of-the-road course, the Truman victory will be only temporary and perhaps costly.

This still leaves Jester somewhat at odds with many of the group who went all-out for Truman at Fort Worth, but many observers believe the governor has become more liberal as his administration progressed. Here is what he said he is looking forward to:

"During the next two years I want to work closely with the legislature in a program of state services that will strengthen our claim to states rights. In that direction lies our only chance to meet and defeat a trend toward governmental centralization and federalization."

Test Scheduled
Many of the liberals would go along with Jester on extension of state services. Whether or not they agree with him in opposing centralization of government is another matter.

The test may come during the 51st Legislature meeting in January. Extension of state service costs a lot of money. A lot of money is available for the legislature to spend and few doubt that it will spend everything in sight.

If extension of state services should come to the point, for example, of bringing new demands for additional taxation of natural resources, it will be interesting to see how far Jester would go on that point. He opposed new taxes at the last session.

extend our best wishes to the Borden Company and its employees for a happy and prosperous future in their new plant — and are sincerely grateful to the Borden Company for the privilege of erecting this new Midland plant. We are sure Mr. & Mrs. Midland will also be pleased with the fine dairy products that are a direct result of this modern and well arranged creamery.

LIONS CLUB BARBECUE HELD AT McCAMEY

McCAMEY — Approximately 100 persons attended the Lions Club barbecue at the park recently when the losing team of an attendance contest played host to the winners and the invited guests of the evening.

The losers, headed by a three-man committee including R. E. Rumble, C. E. "Patt" Brandon and the Rev. C. J. Mann, were in charge of the festivities for the evening, with other members of the losing team in charge of the serving and the "KP" duties.

Besides the barbecue, beans, potato salad, pie and coffee were served.

Veteran Editor Writes Of Old Red River Country

By HARVEY L. SCANDRETT
Associated Press Staff

"These stories should not be read as history," cautions A. W. Neville in a somewhat superfluous instruction on how to approach his highly readable collection of Red River Valley tales.

"Some have dates, others do not, and history must have dates and footnotes to cite authority."

Very well, Mr. Neville, if you say so, your stories aren't history. But can't we say that they are living, pulsing flesh on the dry

bones of history?

And can't we say how thankful we are that this material did not fall into the hands of a historian, in the dull sense of the word.

Here are stories Texans and people in Oklahoma, Arkansas, Louisiana and in fact Americana everywhere can read like fresh letters from the pioneers.

For nearly 70 years, more than half the stretch of its Anglo-Saxon history, Alexander White Neville has been an observer and recorder of the flow of life in that fertile valley section that now is a part of three states.

Blocked Main Channel

In his lifetime, he has known men who could remember when the Great Bar, a matted tangle of driftwood and live vegetation, blocked the main channel of the river for about 100 miles.

With his own eyes he has seen and with his own hands he has written the daily progress of a people, largely through their own toll, from a cluster of backwoods settlements to a prosperous, atomic age civilization.

Mr. Neville has collected his observations and anecdotes — and those of others — into a book, "The Red River Valley, Then and Now," which will make its bow to the public November 17, which by the way is the author's 64th birthday.

It is dedicated to Publisher A. G. Pat Mayse, of the Paris News, of which Neville has been editor for many years, and to Houston-Harte, San Angelo publisher, who suggested preservation of the stories.

The volume is beautifully designed and printed by Carl Hertzog of El Paso with many unusual illustrations by Jose Cisneros. It is likely to become a collector's item of Texas.

The less competent historians are prone to crown their characters with haloes or horns. To Neville, "people lived and loved and hated, were born and did their allotted tasks and died, just as people do today, though in many instances with stouter hearts and more resourcefulness than characterizes the people of today."

There are stories of Indian raids, of lawmakers and outlaws, of outstanding leaders among red men and white, of the war "between the sections," the tragic and the comic.

There was the execution of William Goings, a Choctaw Indian killer by the rifle fire of a Choctaw sheriff. Neville saw and reported that execution, the last carried out by the Indian tribal government before it relinquished power to the white men.

Goings, who had slain seven members of his own family and thereby exhausted the patience of the surviving members, was put to death July 13, 1899 in the courthouse square at Aikichi, McCurtain County, then Indian territory, now Oklahoma.

The section of the valley chronicled by Neville extends from Miller County, Ark., on the east to the present site of Lake Texoma on the west.

School Cafeterias Announce Menus

Midland public school cafeterias this week will feature the following menus:

Monday — Franks, sauerkraut, mashed potatoes, cornbread, applesauce and milk.

Tuesday — Chicken and noodles, English peas, combination salad, hot rolls, cake and milk.

Wednesday — Pork roast, yams, lettuce salad, hot rolls, peaches and milk.

Thursday — Stewed chicken, potato salad, spinach, cornbread, pudding and milk.

Friday — Salmon loaf, mashed potatoes, green beans, hot rolls, Jello and milk.

Area Rent Director Allows Rent Hikes

Petitions from 11 landlords asking to increase rent on property in the Midland area were filed with Area Rent Director Don Seale during the month of October. Seale approved nine and denied two.

The average increase on each unit will run about \$7 per month, Seale said.

Also handled during the month of October were 17 compliance cases in which refunds to tenants were made. Total refunds amounted to \$2,382.

Officers Fear Midlanders Will Receive More Come-On "Get Rich Quick" Letters

Other citizens are warned because at least one Midlander has received a "come-on" letter, which promises share in a treasure possessed by a man in prison in Mexico.

Officers fear that because of recent national publicity of the wealth in Midland, several citizens may be approached and by mail with "get-rich-quick" swindles.

Here is the content of the letter received by a Midlander:

"A person who knows you and who has highly spoken about you has made me trust you with a very delicate matter on which depends the entire future of my daughter as well as my existence.

"I am in prison sentenced for bankruptcy and I wish to know if you are willing to help me save a sum of \$385,000.00 dollars which I have in Bank bills, inside of a secret place in a trunk that is deposited in a Custom-house in the United States.

"As soon as I send you some undeniable evidence it is necessary for you to come here and pay the expenses incurred in connection with my process in order to lift the embargo on my suit-cases one of which contains the necessary documents (a baggage check) that we need to take out the trunk that contains the cash and which is deposited in a Custom-house in North America.

"To compensate you for all your trouble I will give you THE THIRD PART OF SAID SUM.

"Fearing that this letter may not come directly to your hands I will not sign by own name until I hear from you and then I will entrust you all my secret. For serious reasons that you will know later, please reply via air-mail.

"I beg you to treat this matter with most absolute reserve and discretion. Due to the fact that I am in charge of the Prison's School I can write you freely and in this way.

"For the time being I will sign only 'V'.

"I can not receive your reply directly in the prison so in case you accept my proposition please airmail your letter to a person of my entire trust who will deliver it to me safely and rapidly. This is his name and address: etc."

The letter was air-mailed from Mexico City.

C. Of. C. Directors Will Meet Monday

The November meeting of directors of the Midland Chamber of Commerce will be held at 7:30 p. m. Monday in Hotel Scharbauer. President Tom Sealy said Saturday. The session was postponed from last Monday night.

Highway matters, plans for the official opening of the Christmas shopping season, and county fair business are among the subjects scheduled for discussion and action. Sealy, in urging a full attendance of directors, said the meeting will be most important.

Alexander Graham Bell did not make the first telephone. The model was made by Thomas A. Watson, Bell's assistant.

Forty-two of Borden's fifty-two employees are shown here. These employees represent every department in the operation of the new milk and ice cream plant.

Borden's wholesale and retail milk and ice cream delivery fleet.

Borden's retail ice cream store is popular with young and old because of its many different delicious ice cream dishes and drinks, its soothing atmosphere, its seating comforts. If It's Borden's, It's Got To Be Good.

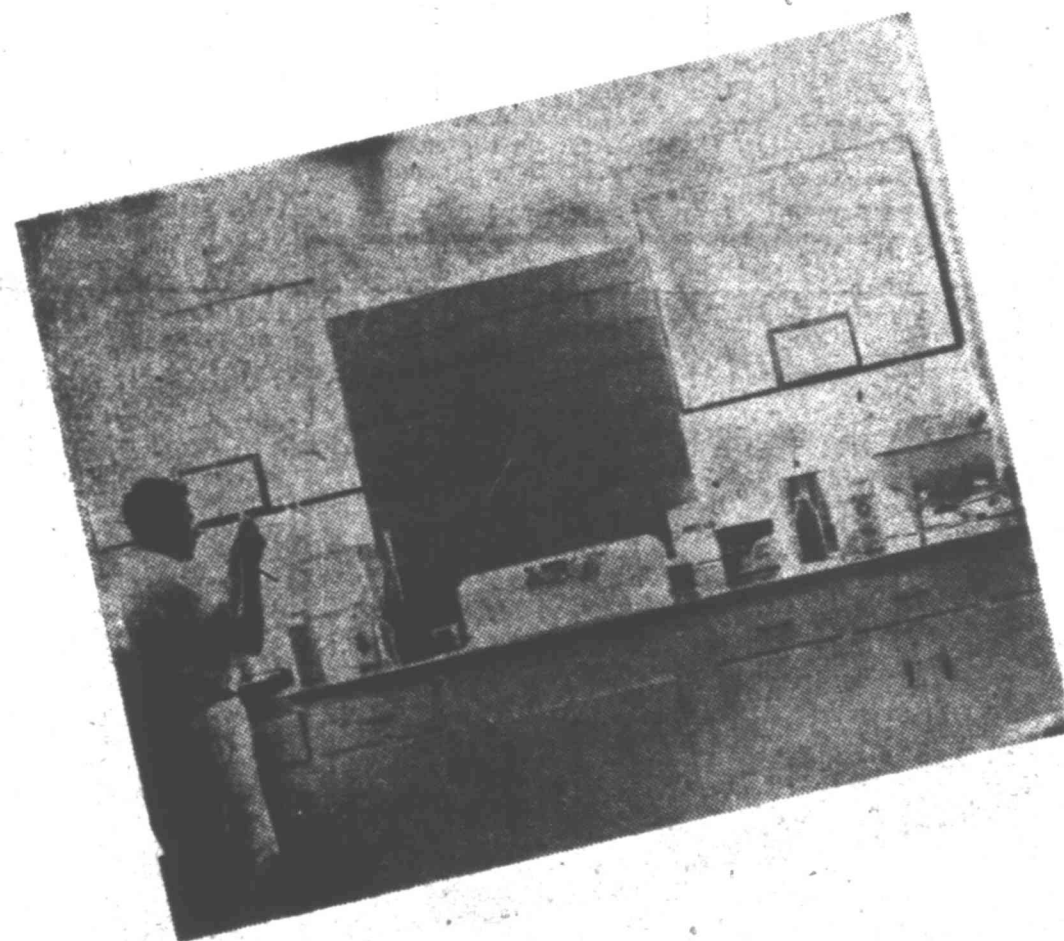

Borden's cordially invites you to attend the

Grand Opening

OF THE

TODAY-SUNDAY

In a growing area such as the Permian Basin, it is necessary to the producers of that area dairy products that are safe and nutritious! In order to have given Midland the NEW BORDEN PLANT! This plant is geared for dairy products. When you visit the new Borden plant you'll see an outstanding display of dairy products. Make your plans now to attend!

Borden's quality control laboratory where daily tests are being made to assure safe dairy products.

Jimmy Bozarth is shown operating the homogenizer. After the milk is homogenized it then flows through sanitary stainless steel pipe into a battery of pasteurizing tanks (as shown to the right) and it is at this point that Borden's milk is pasteurized.

WELCOME FOLKS

You're All Invited

This week is Borden Week in Midland and you are all invited to come in and visit our new Plant at 2405 West Missouri.

Yes, we're holding Open House from 10 o'clock, and everybody is welcome.

Our guides will escort you through the plant showing you the most up-to-date facilities in Midland County. You'll see our new steel pipe machinery that fills a stream . . .

And you'll see for yourself the new plant that's brand new from the factory and equipped with the most modern machinery known to the dairy industry.

So reserve some time today for our Grand Opening Party. We'll be expecting you.

en's E CREAM

Here Norman Hoback is regulating the temperature on a 500-gallon stainless steel buttermilk tank. The tank to the right is a 1500-gallon stainless steel holding tank where Borden's milk is held at a temperature of 36 degrees when received from milk producers.

Bob Roberts, chief engineer in charge of refrigeration equipment, is shown operating one of a series of giant compressors that furnish the proper temperature for all Borden products.

Borden's delicious ice cream of many flavors is frozen in this group of freezers, then transferred into a hardening room of 18 degrees below zero.

The above Pure-Pak machine automatically fills sterilized paper cartons with Borden's homogenized milk and then seals them with a wax coating with a capacity of 35 quarts per minute.

The Borden Pledge

" . . . to keep always in mind our original purpose—to product milk that meets, first of all, the health needs of tiny children. By so doing, to offer to people of all ages milk that fulfills these highest standards of wholesomeness, richness and purity.

"To maintain Borden leadership in scientific and sanitary requirements, to deliver this vital food to you when you need it regardless of difficulties. Finally, to bring Borden's to you at a price that will enable millions to enjoy milk that can be depended upon . . . always."

Architect Foresees Homes Using Two-Paned Windows

CHICAGO—Foster advances in window sash design forecast a trend that within the foreseeable future may lead to all homes and commercial buildings having windows of double-paned insulating glass, Edward Merrill, of the architectural firm of Skidmore, Owings & Merrill, said here.

Flexibility is the keynote of new types of sash, Merrill said. Samples from 30 manufacturers previewed at a Producers' Council informational meeting under auspices of Liberty-Owens-Ford Glass Company give picture windows and other double-paned insulating windows an all-season versatility that promises a new note in comfort, he said.

Roof Conditions Should Be Checked Before Bad Weather

COLLEGE STATION—Not many Texans are weather forecasters. No one is sure what kind of a winter we're going to have this year. It may be mild, and then again the temperature may drop way down. The bad weather last winter was a little hard on the roofs, flashings and gutters, so right now, while the weather's still mild, is a good time to check up on the condition of the roof on your house.

A little thought, a little work, and a little spending now may save a big repair bill later on, says W. S. Allen, extension agricultural buildings engineer of Texas A. & M. College.

Your roof may need only an inspection, and perhaps a few repairs will put it in shape to face the winter wind, rain and ice. The first step for the homeowner is to make a thorough check of his own. But if conditions are serious, he may need to call in an expert carpenter or builder for advice.

Roofs of any type—shingle, slate or tile—should be inspected for broken or loose pieces. New pieces can be slipped in, and it's a good idea to do this as soon as possible to avoid leaks and further damage.

Repair now before the bad weather sets in so you won't have trouble during the winter months, says Allen.

Midland Fishermen

Oscar E. Chambers, left, president of Chambers, Inc., Midland building supply firm, and Morris Ehrig, West Texas district manager for Chambers, display a part of their catch made in the Columbia River, off Chinook, Wash., during the annual Chinook Salmon Derby recently. This is the fourth year they have participated in the derby. Chambers' biggest catch, a 38-pounder, is pictured. They shipped 20 of the salmon to friends in Midland, Dallas and Lubbock.

Only about 25 pairs of sand-hill cranes are left in the United States.

The Washington Merry-Go-Round

By Drew Pearce

WASHINGTON — Just a year ago this week the Friendship Train traveled across the American continent gathering food for the hungry people of Europe. Today, a year later, a similar train is traveling through France gathering gifts for the American people.

The French train is called the "Thank You Train," and consists of 48 boxcars ("40 men 8 horses")—the kind American troops rode in during World War I.

These boxcars are being filled with gifts for the American people and one car will be left in each of the 48 states. The 49th car will go to the District of Columbia for transmission to the territory of Hawaii, which contributed an average of eight cents apiece from every man, woman and child in Honolulu to the original Friendship Train.

The French Thank You Train is coming not from the government of France, but from the French people. It is being organized by Commandant Guy De La Vasselle, who served as liaison officer on General Patton's staff and is an old friend of Americans. Several million French war veterans are contributing to make the Thank You Train a success.

The gifts in the 48 cars will not include food, luxuries or wine. Instead, they will be chosen from products which are typically French and will include several monuments, portraits, wood carvings, china, pottery, bells and native costumes. While the French people are leaving it to the individual friendship train committees in the United States as to how the gifts will be disposed, it has been suggested that some of them may be suitable for American museums, colleges and schools.

The American railroads, which were such an important factor in making the Friendship Train possible, have patriotically offered to carry the French train through various parts of the United State. Apologies to Pat Hurley

On October 20, 1948, this column published an account of how Ex-Secretary of War Patrick J. Hurley received a decoration for "gallantry in action" on the morning of November 11, 1918, the day World War I ended.

Further information now has come to hand regarding this decoration, and we now wish to apologize to Hurley.

The information comes from Col. Wilbur Rogers, formerly of the 7th Field Artillery, Third Division. Colonel Rogers is the officer who stopped Hurley enroute to the front lines and told him the war was practically over and that he was not needed at the front. Hurley was a member of the judge advocate general's office—in other words, an army lawyer whose duty was behind the lines.

Colonel Rogers now points out that Hurley knew that the "cease fire" order had been called and circulated before he ever went up to the front in order to get his decoration for "gallantry in action."

Therefore, concludes Colonel Rogers, Hurley actually got the medal for action after he knew the war over.

Colonel Rogers also reports that Hurley later applied for membership in the Third Division Association in Washington, because his medal came from the Third Division. However, Third Division Headquarters refused to accept the ex-secretary of war for membership.

Our apologies to Hurley therefore for underestimating his gall in accepting a medal for "gallantry" after the war virtually had ended.

J. Farrell Thomas

A few readers have chided this column for its original expose last August of how Chairman J. Farrell Thomas of the Un-American Activities Committee received salary kickbacks from employees—an expose which has now led to Thomas' indictment.

Some readers apparently confuse salary kickbacks with nepotism. Both are to be deplored, but the latter is not illegal.

Nepotism is the employment of relatives. In fairness, it should be stated that some relatives, such as Arthur Vandenberg, Jr., and Mrs. Glyn Taylor, wife of the Senator from Idaho, work long hours on the job. On the other hand some relatives merely draw the salary, never come near the office, and let the rest of the staff do the work. This however, is not against the law.

But it is against the law to hire a clerk or stenographer and then require them to kick back part or all of their salary to the congressman. Clerks and stenographers are paid not by the congressman but by the government. Therefore, kickbacks merely mean that the government—without its knowledge—is increasing the congressman's salary.

A congressman's salary is fixed by law. In fact, he votes to fix that salary and recently Congressman Thomas and others voted to give themselves a wage increase of \$2,500 a year, plus \$2,500 a year for expenses, making a total of \$15,000.

The result of Congressman Thomas' kickback deals meant that he was paid considerably more than his legal salary. Thomas has a long record of kickbacks going back to 1940, plus two known instances when he kept soldiers out of combat and later collected \$800 from their families.

The Merry-Go-Round makes no apologies for its expose of Congress-

man Thomas' activities.

There was a good reason why the Voice of America so consistently informed Europe that Dewey was going to be elected, Charles Thayer, New York manager of the "Voice," was in constant touch with Allen Dulles, brother of John Foster Dulles, and one of Dewey's right-hand men. . . . Diplomats are wondering what will now happen to Thayer and the many other Deweyites inside the State Department. Probably nothing. . . . When Gov. Kim Sigler of Michigan, the man who did not refer the Senator Hooper murder case to Police Commissioner Roy of Detroit, was defeated, he jumped into his plane and vanished. Sigler ran 100,000 behind his own Republican ticket. . . . Mrs. Truman thinks that Tade Styka, world-famous Polish-American portrait painter, is the only artist who has been able to reproduce the elusive blue-gray color of her husband's eyes. . . . The teachers voted almost 100 per cent against Dewey. They did not forget Dewey's diatribe against the teachers' lobby at the governors' conference in Portsmouth, N. H. last Summer.

(Copyright, 1948, By The Bell Syndicate, Inc.)

Work Underway On Community Building

MCCAMEY — Work was started recently on the Upton County Community Building, to be located north of the Church of Christ here, by the Evans and Taylor Construction Company of San Angelo.

E. G. Fisher, county judge, stated that Silas Pittman completed the survey on the area and located the four corners for the site the middle of last week.

The construction contract calls for the completion of the building within 180 calendar days.

The contract for the building was let by the Upton County Commissioners Court to the Evans and Taylor Company when they submitted a low bid of \$85,432.

Pioneer Airlines Sales Group Meets In Midland

Sales representatives of Pioneer Air Lines will hold a special meeting in this area Sunday through Wednesday, C. E. Vandervoort, Midland district traffic manager, announced Saturday.

The 20-man group will be evenly divided between Midland and Odessa for the purpose of contacting prospective Pioneer passengers in both cities, Vandervoort said.

The group will hold a special meeting here Sunday in order to assign every man a list of persons upon whom to call on Monday, Tuesday and Wednesday.

Vandervoort and John W. Force, eastern regional traffic manager, will be in charge of the Midland group.

Vandervoort pointed out that this concentrated sales meeting is for the purpose of trying to reach every businessman in the Midland-Odessa area and advise them of the service Pioneer offers.

Flight Schedules: "At the present time Midland has three round-trip flights daily to Dallas, Fort Worth and Abilene; three round-trip flights to Houston

and Austin and like service to 16 other cities in Texas and New Mexico," Vandervoort said.

In addition to contacting businessmen and others regarding schedules, special emphasis will be placed on Pioneer's recent installation of ILS, the highly technical landing system which provides for greatly improved winter operations.

The Midland traffic manager pointed out that suggestions for any changes in schedules or service by businessmen will be recorded by the representatives for possible action.

"We feel that by contacting the Midland businessman, we can ascertain his flying needs, and advise him what Pioneer can offer," Vandervoort said. Pioneer first started service to Midland in February, 1947. The company has been operating in Texas since Aug. 1, 1945, and service to New Mexico was inaugurated last Spring.

Almost 4000 persons in the United States are 100 years of age or older.

NTSC Ex-Students Slate Monday Meet

A meeting of ex-students of North Texas State College will be held at 5 p. m. Monday on the message floor of Hotel Scharbauer, sponsors announced Saturday.

They termed the meeting important and urged all exes of the college residing in Midland and vicinity to attend.

Youth Center Council Postpones Meeting

Postponement of the regular meeting of the Adult Advisory Council of the Youth Center, scheduled Monday night, until Monday, November 23, was announced Saturday by Chairman Roy McKee.

The November 23 meeting will take place of the regular November and December sessions, McKee said.

MOULDED TRIM

CLEAR, ALL-HEART REDWOOD

This beautiful trim, run to our special pattern, will make your home a place of beauty. The simple, graceful lines will harmonize with either modernistic or traditional interiors. Exceptionally lovely with clear finish, so it's ideal for use with paneled walls. It also takes paint or enamel finish with equal ease.
