SWEET N' SOUR

By A. Dill

Trades Day, a little plan cooked up by Baird merchants to turn Saturday in town into a real party day for you folks in this trade area, rolls along at a merry clip. More folks are finding out that its not only profitable to spend the shopping day in Baird, but its just plain fun. Some real thank yous should be said to our enterprising business men for being such genial hosts for these Saturday get-togethers and so from all of us to you, thank you, merchants.

Home for a short pre-holiday visit was Mary Ross, student at SMU in Dallas. Mary is loving every moment of her freshman year and is doing fine in the good-report department too.

It was a big week end for

too.

It was a big week end for deer hunters—the season opened Sunday and Tom Barton and Hugh Ross must have had their trigger fingers poised and ready, anyway, the felias lost no time in hitting the trail for Liano for a couple of days of hunting sport. The wives, Frances Barton and Ann Catherine Ross, joined them Sunday.

It was a busy and happy week end for Maude and Fred

mother's home.

Annual sales begin this week.
You have until December 1st to
place your order for a 1959
Headlight, school yearbook,
which, by the way, is the largest edition the school has ever
published. The Annual Staff
sent its first shipment of pictures to the Coorpress Co., in
Austin, meeting their deadline
and assuring you of an early delivery of annuals next spring.
Biggest news item in your
grade school this week was the
fact that new basketball suits
have been issued to the Junior
teams — red stain 'n how they
shine (children 'n suits too.)

The Corinne Blackburn Club met Monday evening in the home of Mrs. Jack Gilliland.
After the business meeting, a program on Mental Health was given by Mrs. Lynn Ault. She spoke to the club members on "How To Lose The Blues." Mrs. Ault stated that the blues is one emotion everyone has and everyone has to cure himself. Usually it is the little things in our daily lives that get us down. Usually it is the little things in our daily lives that get us down. It might be a sense of helplessness or our interest is too limited. Happiness is one of the biggest factors in fighting the blues, also everyone should have a firm religious conviction to support him.

colleges and universities should concentrate on doing the best job possible of one thing-higheducation.

To do this, some other things —like student medical services, intramural athletics and cer-tain extension services — will have to cut loose from tax sup-

port.

This is the gist of a report to be presented to the next Legislature by the Commission on Higher Education. Reached after prolonged study and discussion, the Commission's recommendations, if adopted, would be a significant and farreaching step toward directing state spending on higher educational institutions toward "pure academic pursuits."

Commission will ask the Legis-

"pure academic pursuits."

Commission will ask the Legislature for the largest appropriation in history, about \$87,000,000 annually, for the state's 18 tax-supported colleges and universities. This would be \$10,000,000 a year more than is presently provided. Extra money would be used to provide more teachers, better faculty salaries, improved library and research facilities.

On the other hand, the Com-

ed horary and research hachies.

On the other hand, the Commission turned thumbs down on the conducting of a number of extra-curricular activities at state expense. Things which the Commission recommends the Legislature not include in the higher education budget:

(1) intramural athletics, (2) free or low-cost medical services for students, (3) the 17-year-old Cotton Research Council and the Rodent and Predatory Animal Control Service, (4) a bureau of business research at Texas Tech, (5) Texas A&M's Texas Transportation Institute and (6) operation of museums a part of five schools.

the Legislature to make it a little easier for them to get a permit to use small ponds on their property for irrigation. At present, farmers may dam up to 200 acre feet and use it for household and domestic purposes. To use it for irrigation, they must get a special permit, reportedly difficult and expensive. Irrigation from farm ponds brought a hot contest between city and rural forces during the water legislation debates in the first special session, fall, 1957.

Traffic Safety Laws — Texas Safety Association, plus other groups, are pushing for legislation aimed at reducing road fatalities. Points in the program: (1) allowing for the results of the session of the results of the results of the session of the results tures" trading in hogs be launched caught the industry by surprise.

Hog salesmen and buyers at Fort Worth received the news without excitement but with some interest.

Trading in any kind of livestock in a futures market, such as other farm commodities enjoy, would be very tricky, Livestock is a perishable product, not subject to storage for any length of time. A speculator who got caught with a batch of hogs would get a stern lesson in economics after a couple of days.

We knew a fellow once who was speculating in the Chicago tegg futures market. He was swheling and dealing so fast he forgot where his account stood and wound up with some carroloads of eggs delivered to him. Any eggs over and above his two for breakfast were more eggs than he needed, so he had a bad time! fatalities. Points in the program: (1) allowing for the results of "drunkmeter" (chemical tests for alchohol) tests to be introduced in court as evidence in driving - while - intoxicated cases, (2) stronger traffic law enforcement, (3) provision for enough highway patrolmen to do the job. (4) changing speed laws to meet standards of new roads, (5) improved traffic courts, (6) a uniform drivers license law and (7) universal driver education.

Medical Payments — People approved a constitutional amendment to allow for medical ald payments to persons who receive state weifare checks. Next Legislature will have to pass a new law to put this into effect. Question is, how big should payments be? Other states average \$5 a month for adults, \$3 for children. INITELY NEW, DECIDEDLY

Chevrolet shatters precedent beautifully with a completely new car for the second year in a row. Here's the one that's shaped to the new American taste. The '59 Chevy's new and different in everything from ride to roominess!

It's new all over! In the fresh slant of its Slimline design. In the spacious comfort of its Body by Fisher and vast areas of visibility. There's a new Hi-Thrift 6 that delivers up to 10% greater gas economy, bigger brakes, better-than-ever suspensions, a new finish that needs no waxing for up to three years. Nothing's new like Chevy's new! See it at your Chevrolet dealer's now.

what America wants, America gets in a Cheryl

mpala Sport Sedan. Like all new Cheries, it has Safety Plate Glass all around.
