## **Wrong Wallpaper May Result** In Divorce, Says Decorator

By ERSKINE JOHNSON NEA Staff Correspondent HOLLYWOOD - I'll never trust wallpaper, frilly curtains or gingerbread furniture in Hollywood

All these years I've been gulp-ing down the old chestnuts about career conflict and mental cruelty. But now along comes a famous New York interior decorator and designer named James Mont to tell me that a lot of Hollywood divorces are caused because husbands can't stand the decorating

ideas of their wives. Mont, an owlish looking man who talks with a Turkish accent, has been making a study, he said, of Hollywood home interiors. And he's convinced that movietown glamor dolls are setting back the art of interior decorating 50

Maybe, he figures, Artie Shaw has been the victim of a special allergy to drapes and love seats. "Why." said Mont, "the wife of one of the screen's great he-men has done their home up in lace curtains, lavender walls and satinwood furniture. Pretty soon this actor will blow his top and move to the Hollywood Athletic Club. The whole house looks like Mae West's boudoir.

Interiors Terrifying Next to the faces of actors on television, the decorator finds Hollywood home interiors the most scary sights he has ever seen. He'd hop a plane back to New York tomorrow, but M-G-M just talked him into designing \$60,000 worth of modern furniture for

future movies. That's a piddling sum to Mont, who gets that much and more for decorating and furnishing the estates of rich New York socialtes, but he thinks his furniture can do a lot to assure the continued sex appeal of Ava Gard- Are and interior decoration. ner, Greer Garson and Elizabeth

A few months ago, Mont said 'No" to Lana Turner. It happened when Lana came into his swank office in New York with husband Bob Topping.

Lana started talking about doing over the Topping house-last done over by Arline Judge when Mont shook his head and changed the subject.

"I do not think Lana and I would be happy together redecorating a house," he tells it. "We would not-how do you say it?-see eye to eye." Mont gets a big kick out of reading about what an authority Paulette Goddard is on the subject of antique furniture.

Once Paulette dropped in on the big divan - and - coffee-table man to select some furniture for Charles Chaplin, bu Mont wasn't impressed by the way her mind

# Important Elections

Important elections are scheduled here Saturday and Tuesday and it is hoped voters will flock to the polls in record numbers to express their preferences for School Board and City Council candidates.

The school election will be held Saturday in the basement of the Midland County Courthouse when three trustees of the Midland Independent School District will be named. Five candidates seek the three vacancies.

A mayor and three councilmen will be elected in the city election scheduled Tuesday in the City-County Auditorium. Two candidates are in the race for the office of mayor, and two others are seeking the Place No. 1 position on the council. Candidates for Place Nos. 2 and 3 are unopposed.

Candidates in both elections are good citizens seeking to serve their city and school district, and few issues apparently are involved. It is up to the voters to determine which of the candidate will serve in the respective offices during the coming terms.

Citizens must make up their minds as to which of the candidates can and will do the best jobs. Then it is their duty and obligation to cast their ballots accordingly. It is a duty which should not be shunned.

Problems facing the city and school district are varied and tremendous as a result of the continued growth and development of Midland. Both the city and schools have expansion and improvement projects underway. The problems are not expected to lessen during the coming months, but rather they may increase as the growth of the city and section continues.

## Foreign Air Bases Are Handy Despite Air Force Statement

By PETER EDSON WASHINGTON-Air Force officials would like to suck back some of the more extravagant claims that foreign air bases are no longer necessary. Over-enthusiastic generals made these statements following the flight of the 3-50 Lucky Lady II, around the world non-stop. In saying that a plane based in the U.S. can now drop a bomb any place in the world and re-turn home, what they mean tous action. Take your pick.

The bomber could take off after takeoff, the bomber would be refueled by the tanker, which would refueled by the fanker, which would then return to base. The bombes would complete its mission, drop its bomb and start back for home. Two thousand miles out it would be met by knother tanker plane and refueled again for the last lap. This would have the effect of giving the bomber an extra \$,000 miles of

But if the tanker and bomber failed to make their rendezvous for refueling, it would be just too bad foreign base then mighty convenient.

The News survey of the strange malady included 34 counties in the Texas and Oklahoma Panhandles and Eastern New Mexico. It called its estimate of 1.000

dead "conservative." The poisoning generally is believed caused by an unbalance of minerals in the plants. It broke out suddenly this year about the time of the rapid growth of the wheat following a mid-March warm

Heaviest losses appeared to be in Deaf Smith, Castro and Randall Counties in Texas.

Dr. Clyde O. Morgan, director of research at Pan-Tech Farm east of here, says 85 per cent of the stricken cattle can be saved by application of calcium glutinate soon after the animals become ill. The farm is an experiment station operated by Texas Technological College and Texas A&M.

## Two Soldiers Die In Traffic Crash

DALLAS -(P)- Two Sheppard Pield soldiers were killed near here late Thursday night when the automobile in which they were riding collided with a truck. Two other Sheppard Field soldiers suffered minor injuries.

Killed were M/Sgt. William L. Blakeley and Bernard Hedington, Edward Reider, 19, of St. Mary's, Pa., and Dan K. Conn, 27, of Hen-

and bruises. The truck, driven by Alfred B. Smith of Chickasha, Okla., had stopped because of a traffic tie-up on the highway caused by a burn-

ing pickup truck. The car, in which the four soldlers with weekend passes were riding to Dallas, rammed almost half its length under the truck, witnesses said.

Investigators said traffic had stalled in both traffic lanes while firemen fought a blaze that destroyed the pickup truck ewned by W. C Farmer of Argyle, Denton County.

# **Boyle Rues** Style Changes In Education

NEW YORK—(P)—I would like to trade my education in for a new one, just as you trade in a broken down car for a later model.

I grew up in what was supposed to be the most widely educated generation in history. But it appears now that practically everythink I learned was wrong.

Today it is hard to believe in anything, because a thing that is accepted as a fact in the morning may be regarded as a superstition by evening.

Let us take a simple subject like the human body, something every normal person has. But how shall you take care of this marvelous machine? Well, what they teach you to do today they'll probably

tell you to shun tomorrow.

Tooth Brishing Technique

I was told, on the teather's word of honor, that a clean tooth never decays. Everybody today knows darn well it will—if it wants to. The school dentist showed us the right way to brush our teeth-sideways. A couple of years later we were being taught to use a rotary motion. Now my dentist is in favor of brushing up and down. And I am looking forward to a day, coming fast, when I can avoid all doubt in the matter by taking 'em out and soaking 'em in a glass.

Take spinach. Everybody was sure in the days when I played marbles spinach was the best source of iron outside the Mesabi Range. Now practically everybody knows better. People are reduced to eating spinach for pleasure.

Take mould. I was told mould was poisonous. Now if you don't swallow mould three times a day-in the form of penicillin-people get the idea there's nothing wrong with you.

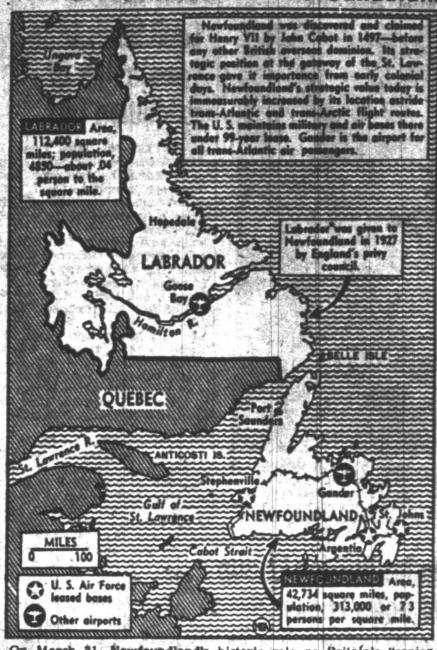

rietta, Texas, were treated for cuts Eat Hearty, Die Young The benefits of sunshine, fresh air and exercise—faiths of my childhood-have been debunked as over-rated. I used to believe people worried and grew thin. Now, they worry and grow fat. They used to say, "Eat hearty." Now they say if you do you'll become over-

weight and won't live long. As a result of all these changes, man no longer can afford to do anything to his body without running the risk of being out-of-date before his last wonder pill has been digested. About the only safe thing to believe in is the circulation of the blood.

## Newfoundlanders Now Are Canadians

On March 31, Newfoundland's historic role as Britain's "senior colony" ends and the island, plus its continental possession, Labrador, becomes Canada's tenth province. As such, it will have full local self-government and its own legislature for local matters. As part of the Dominion, Newfoundland will now be represented in the Canadian Parliament at Ottawa by six senators and seven members of the House of Commons. It is understood that President Truman has been asked to recognize Canadian sovereignty over the three air bases leased by the U.S. in the famous wartime "destroyers-for-bases" deal with Great Britain.

# RE-ELECT LLOYD MACKEY

As A Trusiee of the Midland Independent School District

Lloyd Mackey now is completing his first term as a member of the Board of Education of the Midland Independent School District in which position he has taken a leading part in effecting the following improvements in our School System-

(1) An extensive building program, due for completion this year, designed to relieve

the crowded conditions of our class rooms. (2) Equalization of taxes and re-evaluation of property on a fair and impartial basis, notwithstanding the fact that such a program greatly increased his own taxes.
 (3) The collecting of many thousands of dollars of taxes long delinquent.
 (4) Increased salaries for teachers enabling the School System to retain its best teachers.

ers and to employ others of equal competence.

(5) Continued effort toward a scholastic program which will enable our children to compare favorably in any field of competition. Mr. Mackey understands the needs of the School System, its possibilities, and its responsibili-ties. He has studied the situation of increased enrollment and how it can be adequately cared for

without wasting tax money or voting unnecessary bonds. He is sympathetic to the school problems and realistic in his efforts to solve them. Our school's biggest problems are financial, and to the solution of these he brings the experience of a successful business man.

He is interested primarily in seeing that our school children receive the very best that we can give them, and toward this end he has given unselfishly of his time, his energy and his money in the service of our schools.

With his experience, his sincere interest, and his ability, we feel that he will be an invaluable member of the Board of Education. If you would like to see a policy continued which is designed to provide the maximum, in educational facilities at the lowest possible cost to the tax payers then you should

# MINITE SCHOOL : IN C CAS 11 **VOTE FOR** Mrs. Frances M. Sidwell For School Trustee

# Consider These Qualifications

Mrs. Sidwell's education includes B.A. University of Minnesota (extension work) University of California.

Interest in education from the standpoint of a student, a parent, a teacher and a taxpaying citizen. Has taught in three states; has a life certificate in Texas; has seen three children through school, two of them graduating from Midland High School; has faught in junior high and high school.

The school system's financial affairs and tax program already are established, and experience along tax and financial lines is not necessarily a trustee requirement. The school's scholastic rating is more important than its financial rating, and Mrs. Sidwell, a former instructor, is well qualified to assist in raising the scholastic standing of Midland schools. She favors passage of the Gilmer-Aikin Bill which would raise teacher salaries and reduce teacher loads.

Mrs. Sidwell considers the most effective way to strengthen our school system is to secure real co-operation and understanding between the school, the parents and the children

Mrs. Sidwell is an independent candidate and is not obligated to any individual or group. Her thinking and her actions as a school board on other will be independent and free of political pressure.

THE CHURCH FOR ALL

ALL FOR THE CHURCH

The Church is the greatest factor on earth for

the building of character and good dittenship.

It is a storehouse of spiritual values. Without a

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly and support the Church. They are: (1) For his

own sake. (2) For his children's sake. (3) For the

sake of his community and nation. (4) For the

sake of the Church itself, which needs his moral

and material support. Plan to go to church regu-

## Daddy Kingtail By WESLEY DAVIS

It was the night before the Huffen Puffen was going to the mounfarm with Daddy Ringtail, our monkey friend, All of them were

(Copyright, 1949, General Features Corp.) Old MacDonlad looked at the

clock on the wall. "Eight o'clock," said Old MacDonald. "Time to hit the hay."

"Huh?" said the Huffen. "Time to hit the hay," Old Mac-Donald said again. But the Huffen wanted to know.

What hay?" and what the hay had done, or why anyone would want to hit it, for hay is something that's good to eat - if-you are a cow or a horse or a donkey. I mean.

Daddy Ringtail laughed. MacDonald laughed. The Huffen didn't laugh at all. "Why is it time to hit the hay?" the Huffen asked again. "Tell your old friend -King Huffen Puffen."

And so Daddy Ringtail explained that they weren't going to hit any hay at all. "But Old MacDonald said it! heard him say it, I did!" said the

Huffen.

Well, it took a long time to explain to the Huffen. When it's time to go to bed, some people say Commonwealths. Mass., Penna., it's time to hit the hay. A long timeago, perhaps - or maybe even today somewhere - very poor people without any beds have only hay to sleep on.

So Old MacDonald meant it was time to hit the hay - I mean time to go to bed - because they wanted to start very early in the morning to go to the mountains where the Huffen was going to be King of the Uphill River.

Oh, but the Huffen couldn't go to sleep for thinking of the poor hay in the land where he was going to be King. He said he wanted to be a good King, and do some-thing to help the poor people, and

beds to sleep on. And the Huffen thought had tossed about in his bed all night, trying to think of how to help, for being a king or president or anybody like that is serious business indeed. You will find it that way, if you are ever a king or president or other great leader of your people. Maybe some

BIRMINGHAM, ALA. -(P)- A Circuit Court jury pleased just about everybody when it convicted Senator Glen H. Taylor (D-Idaho) of disorderly conduct Thursday

The jury fined Taylor \$50 and sentenced him to 180 days in jail. "That's fine," said Taylor. He added that the verdict gives him a chance to test the case in higher courts through appeal.

City attorneys and Police Commissioner Eugene (Bull) Connor agreed with the senator that the verdict was fine. Taylor, then a candidate for vice
