## Midland Dries Out After Flash Flood

By BILL COLLYNS  
Flood waters swirled through Midland streets and into some business houses and dwellings late Friday, but 24 hours later the sun was shining brightly and the city was drying out after one of the hardest and quickest downpours in its history.

No casualties were reported and damages apparently were not excessive, although some sections of the city were hard hit by the flood waters, which inundated low areas and coursed across U. S. Highway 90 in several spots both east and west of Midland.

The flash flood came suddenly and without much warning. Heavy clouds, which moved in quickly, opened up and drenched Midland and vicinity with 1.75 inches of rainfall during a two-hour period, starting about 3:30 p.m. Friday. Most of the moisture fell in little more than an hour's time, flooding some streets in both downtown and residential areas. Another hard shower fell about dark.

But that wasn't all for Midland. Rain clouds which added additional moisture came in about 4 a.m. Saturday. The fall between 4 and 7 a.m. amounted to .63 inch to bring the 12-hour total to 2.38 inches.

The Friday afternoon total at Midland Air Terminal as recorded by CAA Communications, was 1.96 inches, and for Saturday .58 inch for a total of 2.54 inches.

Lightning flashes accompanied both the Friday and Saturday rains. Heavy hail also was reported in some sections of the city Friday afternoon, the ground being covered in some instances.

Damage was heavy. Boats reportedly were called into use in the Latin American section in East Midland. That section of the city, into which rainwater from other parts of Midland drains, was perhaps the hardest hit by the flood waters. Water entered a number of homes and much of the area was under water for several hours.

The drainage ditch which the city last year dug through the Latin American district carried off much of the water, preventing extensive damage and possible casualties. South Midland was flooded in some low areas.

A section of fence surrounding the Midland-Palacios Baseball Park in West Midland was blown down by high winds which accompanied (Continued on Page 9)

## Texas Headed For Financial Crash, Speaker Declares

AUSTIN—(P)—Texas is headed for what may be the "worst financial disaster in her history," Speaker Durwood Manford said Saturday.

In a letter to members of the House, Manford said revenues for the next two years will be \$38,000,000 less than previously estimated.

Manford wrote the letter as the Legislature finished its 22nd week with the tough finance spending problem unsolved.

"The surplus which the war years have built up in the general fund has given us and the people of Texas a false sense of abundance, and we have spent and are proposing to spend money which doesn't exist," the speaker warned.

He said the great general fund surplus at the start of the session is almost gone and the course being followed by the Legislature will leave a deficit of \$100,000,000 "as a heritage to the 52nd Legislature."

Oil Cutbacks Hard Blow  
The Legislature must solve the problem by holding present appropriations to minimum essentials and by providing the state with "substantial new revenues," Manford declared. He indicated it would take a special session to get the job done.

Declining production of oil and gas is the chief reason for the drop in state income, the speaker said. "The true seriousness of our situation appears in the 1961-63 biennium," Manford continued. "By that time the full impact on the general fund of the Gilmer-Alkin, Colson farm-to-market, salary increase, and other emergency bills, and the abolition of the ad valorem tax will have become apparent."

He estimated total revenue accruing to the general revenue fund by then will be only \$15,000,000 a year, while the annual departmental, elementary, higher education costs and the ordinary expenses of state government will approximate \$70,000,000.

Substantial New Revenue  
"It must be obvious x x x that the state must be provided with substantial new revenues," Manford said.

"If the expenses of government are to be maintained at the rate now being considered, the amount to be raised approximately 55 million dollars per year."

He declined to recommend what kind of new tax or taxes he thought should be levied by the state.

## West Wall Street Sparkles As New Lights Turned On

The first section of Midland's new mercury vapor "white way" on West Wall Street, U. S. Highway 90, between Carrizo Street and the Andrews Highway, was lighted Saturday night for the first time.

The light fixtures, installed on 45-foot poles, 27 feet above the street level, attracted considerable interest and comment. The poles are on the north side of the street.

The mercury vapor lights eventually will be installed from city limit to city limit on all through highways and on streets in the downtown business section. R. L. Miller, district manager of the Texas Electric Service Company, said the street lighting project will be completed within 90 days.

In addition to the white way system, conventional type street lighting will be placed at every street intersection where there are houses.

The city recently signed a contract with the electric company for the installation and maintenance of the improved street lighting program at no cost to the city. The mercury vapor lighting is the latest and most modern type of street lighting.

## Sand Bagging For Dodge City Citizens

Two trucks, at right, filled with sand and pulled by a tractor, head toward a crowd of townfolk, in distance, who are forming a human chain across one of Dodge City, Kansas', principal streets as they fill sand bags in an effort to keep back waters of the overflowing Arkansas River.

## Vishinsky, Acheson Dine As Hope Dims For East-West Truce

PARIS—(P)—Andrei Vishinsky and U. S. Secretary of State Dean Acheson had a chance Saturday night to thresh out the whole German problem at a dinner given by the Soviet foreign minister.

Vishinsky invited Acheson after having spent several hours in contact with Moscow over the Big Four German deadlock.

Acheson took along his top advisers on Germany, a handy move in case Vishinsky had some new ideas to put forward which could break the logjam. They are Dr. Philip C. Jessup, Robert Murphy and Charles E. Bohlen.

The dinner Saturday night was in the Russian embassy. A week ago Vishinsky was Acheson's guest at a small dinner party.

At Vishinsky's request the Foreign Ministers Council was taking a recess until Sunday. Most Western officials believed the Soviet diplomat was awaiting fresh instructions from the Kremlin.

Time Running Out  
In the last session of the now three-week old conference, Vishinsky dusted off his old proposal that the powers get busy on a German treaty and pull their troops out of Germany within a year after it was signed.

Acheson proposed instead that they get on with discussion of the Austrian treaty and some provisional arrangements for Germany. During the coming three days, he said it would be possible for deputies to examine whether any hope of agreement on a German treaty remained. He bluntly stated he was not willing to remain beyond the end of the coming week.

That seemed to put a seal on the prospect of any real East-West agreement at this meeting of the Big Four.

## Coal Mine Holiday Starting Monday To Idle 30,000 Railmen

PITTSBURGH—(P)—A one-week mining holiday beginning Monday sent some of the nation's 400,000 coal miners into the pits Saturday at time-and-a-half pay as producers ordered a sixth day of production.

Major anthracite producers in Eastern Pennsylvania ordered the United Mine Workers ordered a cessation of mining for one week starting Monday to stabilize the industry.

If the holiday lasts but one week, the miners will have five more working days before their 10-day paid vacation begins under the current contract. They are paid \$100 each for that vacation.

The Lewis order affected others besides miners: 30,000 Eastern railroad workers are scheduled to be laid off. However, the Pennsylvania Railroad, which leads with 15,000 planned layoffs, and the Reading Road said a drop in business had a hand in furloughing personnel.

## Truman Makes Fast Flight From Arkansas

WASHINGTON—(P)—President Truman arrived in Washington from Little Rock, Ark., at 7:40 (EST) Saturday night.

## Truman Cautions Against Aid Cut

LITTLE ROCK—(P)—President Truman Saturday called for rearming of Europe, said trimming funds for helping Europe would be "false economy" and disclosed he soon would ask Congress to help needy areas of the world.

Reaction from members of Congress was swift and mixed.

## Transplanted Texan Named JayCee Prexy

COLORADO SPRINGS, COLO.—(P)—Texas put a transplanted native son—Clifford Cooper of Alhambra, Calif.—over the top Saturday as the 36th national JayCee president.

The 32-year-old Cooper won the office when Washington cast 44 votes to send him past the necessary 363 votes for a majority.

But the Texas-born Cooper really was elected by the delegation from his native state, President Mel Evans of Texas. He is administrative vice president of Wintroath Pump, Inc. of Alhambra. He also is president and chairman of Fly-By-Night, Inc., an airport lighting firm.

The Texas Junior Chamber of Commerce's prison reform and modernization program was named among the best statewide projects in which at least 75 per cent of a state's chapters participated.

El Paso's chapter won the Clarence A. Howard award for the best chapter in the 35,000 to 100,000 population group.

Evans was elected one of ten national vice presidents.

## Robed Night Riders Attack White Woman

BIRMINGHAM, ALA.—(P)—Robbed night riders dragged a 42-year-old white woman from her home Friday night, and in the eerie light of a burning six-foot cross threatened to burn her at a stake.

Mrs. Hugh McDanel, who related her harrowing experience to police, said the men, two holding pistols, smashed a glass pane in the front door of her home and charged in. One struck her on the head twice, and another snatched an unloaded shotgun from her hands. She broke free and jumped from one man to the next, lifting their hoods to see if she recognized any. They grabbed her again.

"We could kill you for that," she quoted them as saying. They dragged her to the front lawn, where a six-foot cross was burning. There, she said they threatened to burn her at a stake and "to string her up."

Mrs. McDanel told the men she was being used "to bring men and women together, and to sell whisky." She denied it.

Before leaving Mrs. McDanel, the men told her: "We're going to leave you here now. If we hear anything else, we'll be back to bomb your house—or burn it down, and we'll be back to see you."

## Rain, Winds Continue To Plague State

By The Associated Press  
A child was swept to death in a flooded drainage ditch at Beaumont Saturday as thunderstorms stirred over the state.

Wind damaged several buildings of a resort at Costello Island on Possum Kingdon Lake. Heavy rain disturbed telephone service at McKinney for a time.

A total of 3.3 inches of rain poured on Beaumont in a two-hour period late in the afternoon. W. D. Phillips, Jr., 3, fell into fast-flowing water as he played along the bank of the ditch.

His death was the third in Texas in two days as a result of the weather. Near Ector, in the Bonham area, Riley Besley, 32, was killed by lightning as he started a tractor. James Ross Hopper, nine, of Borger, drowned in a rain-filled drainage ditch there Friday.

Heavy rain and some hail fell in the Costello Island storm. The storm hit in Palo Pinto County. The island hit it about 3:30 p.m.

Winds of about 75 miles an hour unroofed restaurant, damaged docks, and blew several boats ashore. The rain at McKinney struck during the night.

Many thundershowers  
Thundershowers had brought light to moderate rains to Abilene, Austin, Harlingen, San Antonio, Waco, Corpus Christi, Fort Worth, Coonza, San Angelo, Mineral Wells, Junction City, Tyler, Dallas, Wichita Falls, Palacios and Bryan.

For a 24-hour period ended at 6:30 p.m. Saturday San Antonio reported 1.25 inches of rain; Abilene 1.75, Waco .70.

Midland and Odessa were drying out from heavy rain.

President's 98 degree was the day's highest temperature reported to the Dallas Weather Bureau. The lowest maximum was 78 at Lubbock. Cloudy weather prevailed in the Panhandle and South Plains, from the Abilene section eastward, and along the Texas coast.

Grasshopper Threat Seen  
At Big Spring early Saturday showers brought 2 1/2 inches of moisture. Cotton farmers in that area looked at a heavy growth of weeds and an acute grasshopper threat.

Farm Agent D. W. Lawler said unless rains let up much cotton land may be diverted to grain acreage. The 150,000 tons of grasshopper poison were about exhausted.

No damage was reported on the mainland near Costello Island. Damage on the island included lightning buildings. The property is owned by Bedford Jones.

## Agreement Reached In Berlin Rail Strike

BERLIN—(P)—American-Russian agreement Saturday night signaled the end of the Berlin rail strike. Prompt union acceptance, predicted by strike leaders, promised to break a 22-day communist stronghold and clear the way for an all-Germany trade pact.

American negotiations with the Russian-controlled railway management brought a settlement which within hours may open the floodgates for 150,000 tons of supplies tied up in what amounted to a "little blockade."

Leaders of the anti-Communist rail union, the UGO, said the 14,000 strikers would accept formally Sunday a set of peace terms backed up by a solid Western guarantee and that traffic would move as soon as snarl accumulated in three weeks of chaos are cleared up.

Brig. Gen. Frank L. Howley, the U. S. commandant, negotiated the railway agreement. He announced the terms and told strikers "It is the conviction of the Western Allied commandants that this is a fair offer and I have been assured that it will be carried out exactly."

A meeting of UGO district committees Sunday will vote formal acceptance, strike leaders said. Strikers estimated it would take eight hours to repair jammed switches and unroofed rails and said that the trains would roll again.

## Texas Tech Sells Building Bonds

FORT WORTH—(P)—Purchase contract on \$2,000,000 in bonds to make possible addition of two new wings to the Texas Tech Administration Building and other improvements was awarded Saturday to Great Western of Chicago and associates.

The Board of Directors of the Lubbock college awarded the contract to a meeting here.

The firm's bid was for an average net interest rate of 1.25%. The board said that if all options provided for are exercised by direction the average net interest rate will be 1.4%.

## Opportunity Bond Purchases Increase

The sale of Series E Savings Bonds in Midland County in the U. S. Treasury Department's Opportunity Drive last week increased to \$141,968.78, Chairman John F. Butler announced Saturday.

The figure is \$78,631.26 short of the \$230,000 goal assigned this county.

The drive opened May 16 and will continue through June 30. Butler and Vice Chairman Jack Wicker Saturday expressed confidence the Midland County quota will be over-subscribed before the deadline.

The national quota is \$1,046,000,000 in Series E Bonds. The goal in Texas is \$36,950,000.

# BARE FACTS of CAPITALISM

## and the AMERICAN SYSTEM

### of FREE ENTERPRISE

Our economic system of capitalism is interwoven inseparably into the whole fabric of American life. The term "economic system" means not merely business as this word is commonly used. It includes all those activities and relations which have an influence upon or affect our making a living. Our present system of production and distribution, of government and business, are woven together like threads in a piece of cloth and anything that affects one part will alter the whole.

Our economic organization mainly is competitive, on a private profit or loss basis, and free within limits of the laws enacted by representative government. Our system is so called to express its uniqueness, its dependence upon free individuals, responsible for results of their own decisions, and its limitation of government economic activities.

The phrase "American System of Free Enterprise" recognized, first, that in our economic system the production and distribution of goods and services are characteristically performed by private individuals or privately owned organizations operating under rules and regulations designed to realize the basic ideals and objectives of the people.

Without hope of reward or compensation new economic activities will not be undertaken in a society in which citizens have a freedom of choice. For any individual enterpriser, the hope of reward or compensation must be adequate to offset any disinclination he may feel toward expanding his time and energy on the activity. He must be convinced that it is worthwhile to risk his previously accumulated wealth. In business such hope has crystallized primarily in the possibilities of financial earnings.

Our individual freedom is guaranteed by the Bill of Rights. The right to read any newspaper or magazine we want to. The right to make a speech from a park soapbox. The right to sign a petition on something we figure is wrong. The right to a fair trial by an unprejudiced jury. And the right to worship God according to our own beliefs. But, individual freedom in this country means more than a document in Washington. The right to get a free public education—no matter on what side of the tracks

we happened to be born. The right to join a union—or not join a union—to take a job or not take a job. The right—the opportunity—to invent a new kind of paring knife and make and sell a million of them at a dime each. The right to be our own boss—to have our own business. No, you won't find it all in black and white in the Bill of Rights—but those rights are real. Americans live them every day. And, where else but here can you find them—the individual's rights, the individual's freedom?

# Davis, Hiawatha To Check Oil Signs In Tom Green Ellenburger

Producing possibilities of the Ellenburger are to be determined shortly at M. E. Davis and Hiawatha Oil & Gas Company No. 1 Jones, wildcat in the southwest sector of Tom Green County.

This prospector, located eight miles southwest of Wall, and 660 feet from north and west lines of section 190, district 11, SPRR survey, is bottomed at 6,149 feet in basal Ellenburger. The lower zone of that formation had made some salt water.

The top 220 feet of the Ellenburger logged some interesting shows of oil and gas and it will be in that interval that operators will do the first testing.

Top of the Ellenburger has been picked by some geologists to be at 5,770 feet. A string of 5/8-inch casing is to be cemented at 6,050 feet. The Ellenburger zone will be tested through casing perforations, above that point. The section below 6,050 feet will be left cemented off to eliminate the bottom water.

Should the Ellenburger fail to produce, the Strawn and Canyon zones of the Pennsylvanian will be tested.

## Hiawatha Develops Diamond M Spread

Hiawatha No. 2 Wilson, one-location outpost to the nearest completed oil well on the southeast side of the Diamond M field in Southwest Scurry County, has shown that it will make a producing well.

This venture, located 660 feet from south and west lines of section 183, block 97, H&TC survey, topped the Canyon reef at 5,785 feet, on an elevation of 3,378 feet. That made it 35 feet low to the same company's No. 1 Wilson, the closest Canyon producer, according to interested observers.

The project drilled to 5,800 feet, and in a 100-foot section the well flowed for 30 minutes at the estimated rate of 20 barrels of pipe line oil per hour. There was no water. Gas showed at the surface in three minutes after the well was opened.

Operator is to cement 7-inch casing on bottom, test and complete through pipe perforations.

## Barnsdall High On North Snyder Reef

Barnsdall Oil Company No. 1 A. L. Wren, one-quarter of a mile west of Sunray Oil Corporation No. 1 Brown, recently completed, extension to the North Snyder field, in North-Central Scurry County, topped the Canyon reef 13 feet high to the Sunray producer, and is drilling ahead.

The Barnsdall development, located six miles north of Snyder and 660 feet from north and east lines of lot 9, section 20, J. P. Smith survey block 1, picked the top of the reef to be at 5,523 feet.

Operator correlations make that point 13 feet higher than the same mark on the Sunray No. 1 Brown. The outpost had reached 5,570 feet in time and was drilling ahead. Samples were showing good indications of oil and gas.

The project will drill on down to approximately 6,900 feet before any testing is started.

## Texas Gulf Extends Barnhart Southwest

One-half-mile southwest extension to Ellenburger production in the Barnhart field of Southeast Reagan County has been completed at Texas Gulf Producing Company No. 1-7 University, located at the center of the northeast quarter of the northwest quarter of section 7, block 48, University.

Flowing through a 3/4-inch choke, the well made a 24-hour potential of 628 barrels of gravity oil, with 225 feet of gas-oil ratio of 1,900-1.

The open hole section at 9,120-9,208 feet previously had been cased with 2,000 gallons.

Also in this area, and one-half-mile north of Wells, Ralph Lowe has topped the Ellenburger with his No. 1 Brownman, 660 feet from south and east lines of section 221, block 1, TP survey.

The prospector was drilling ahead from 5,985 feet in lime and dolomite. The point at which the deep zone came in was estimated as between 5,950 feet and 5,900 feet. It is scheduled to test shortly.

## Humble Prepares To Take DST In Upton

Preparations were being made to drillstem test in a lime formation thought to be the Wolfcamp-Permian at Humble Oil & Refining Company No. 1 Pembroke, wildcat projected

## TEXAS OIL ROUNDUP—

### Army Engineers Envision Era Of Synthetic Fuels

By MAX B. SKELTON  
HOUSTON.—Reactions of the coal industry to gas pipeline might surprise natural gas producers. At least one coal producer believes natural gas reserves will not permit the Eastern and Midwest trend toward natural gas to continue indefinitely.

He is Joseph Purglove, Jr., Pittsburgh, Pa., who suggests the coal industry be ready when the gas lines cannot meet demand.

In a paper prepared for the recent Cleveland, Ohio convention of the American Retail Coal Association, Purglove says the industry eventually will have to accept a larger role in the nation's energy supply pattern.

He suggests gas-from-coal can supplement natural gas "until the impact of growing demand has overcome the ability of natural gas sources and long pipe lines to meet the overall need or to meet appropriate economy."

Government officials and petroleum spokesmen long have debated the extent of the nation's oil and gas reserves. There is little likelihood of complete agreement ever will be reached.

Predictions the United States will face a "synthetic fuels era" have ranged from 25 to 1,000 years.

Last week the U. S. Army Engineers awarded a \$1,341,637 contract to a New York firm to survey 97 states and Alaska for areas suitable for manufacture of synthetic liquid fuels.

Raw materials to be studied include coal, oil shale, natural gas and oil-impregnated strippable deposits.

Experiments in synthetic fuels are being conducted, both by the petroleum industry and government agencies.

CRUDE CRISIS  
A few purchasers and producers are predicting crude oil prices will experience a crisis within 10 days.

Numerous price adjustments have been made since demand began to fall last January but most involved specified grades of crude.

A report on the State Convention of Life Underwriters was given by Graham.

At present the meetings are alternated among Midland, Big Spring and Odessa.

Roy McKee, Midland, reported that short courses for underwriters will be held at Southern Methodist University July 11-15 and at the University of Colorado September 5-10.

The next meeting will be held at Midland July 9.

Rusty Gifford of Midland was accepted as a new member.

## Bank Pay Won't Keep Wolf Away

The salary he receives as president of the Conway, Mass., Savings Bank is not large enough to support his family of four, so John H. Parker puts in 48 hours a week as a freight handler. At top, Parker is on the job at the Conway railway station where he works for a New England railroad line. After a full day unloading boxcars, Parker whips off his overalls and dons a white collar to become a bank president again. He tends his banking chores every night and on Sundays.

## Washington Oil—

### President Orders Quick Decision On Proposed U. S. Oil Loan To Mexico

By JOSEPH HUTTLINGER  
WASHINGTON—President Harry S. Truman has ordered full speed ahead in deciding whether to give Mexico a huge U. S. loan for oil development.

Under-Secretary of State James Webb, the President's trusted friend and adviser, sprang into action at once. He invited heads of Interior, Military, Commerce and Treasury departments to his office for a conference.

Officials of the U. S. Tariff Commission, the National Security Resources Board, the Armed Services Petroleum Board and other agencies were invited to the shirt-sleeves conference.

Export-Import Bank officials were asked in, which is sensible. The bank's officials have been the guiding force in the administration's six-month muddle about the idea of a Mexican loan.

What it means is that a decision may be made within a week. It may not be announced, the soon.

It is not clear if the decision is outright rejection, there may be no announcement.

Token Loan  
If, as many expect, Mexico receives a token loan, the announcement of this may be a strong indication that the total of \$200 million which Mexico wants has been turned down.

Actually, Mexico has made no formal request to Uncle Sam for a loan for oil development, according to U. S. officials.

What she has done is verbally discuss the chances of getting a loan. Reliable reports say she mentioned \$600 million of which one-third would be for oil.

This was two months ago when Senator Antonio J. Bermudez of Mexico, head of Petroleos Mexicanos, was visiting officials in Washington. At that time, he was prepared to file a formal application for a loan.

The senator, it now is revealed for the first time, was advised against it by certain policy makers.

They said such a loan "would be contrary to policy at the White House."

The officials told Senator Bermudez that U. S. agencies make no loans to foreign countries for development purposes which private capital is ready to undertake. For this there is "adequate" private capital available, if Mexico will let it come in.

At stake in the Mexican loan is a whole hemisphere policy which could cost billions, and could bar American capital from many major investments in South American countries.

Many in government and industry feel that if the U. S. were to make a big oil loan to our Southern neighbor, it might encourage other countries to follow Mexico's example; that is, to expropriate American properties, and then come to the U. S. for funds to run the industries themselves.

While the State Department is most hesitant about offending Mexico, it realizes the grave nature of the Mexican loan decision. It realizes the U. S. cannot make a loan to every Tom, Dick and Harry asking it, even if the asker is a nation we like, and want with us in the event of war.

# Lowie Plugs Back Lea Wildcat To Test Lower Permian Shows

HOBSB, N. M.—Production tests will be started early in the week to determine the value of shows of oil which have been logged at Ralph Lowe No. 1 Seaman, deep wildcat in East-Central Lea County, one and one-half miles south of Hobbs.

This exploration developed signs of oil in the lower Permian between 7,225 feet and 7,750 feet. The petroleum indications were in streaks. Some of them were considered to offer fair possibilities of yielding oil in commercial amounts.

The venture bottomed at 8,540 feet in lime and chert formation. Most geologists think that horizon is Devonian. It did not offer any signs of petroleum, and developed water on a drillstem test. The hole has been plugged back to 7,750 feet and a string of 7-inch casing has been cemented at this point. The testing will be through perforations in the casing.

This possible new discovery is 660 feet from south and 740 feet from west lines of section 11-98-38E. It is one-half mile east of nearest production in the shallow Hobbs field from the upper Permian above 4,000 feet.

Drills Lower Permian  
McAlester Fuel Company No. 1-A Denton, Central-East Lea County prospect to 11,500 feet to explore for the Devonian, about 17 miles northeast of Lovington, and 660 feet from south and 1,980 feet from east lines of section 11-156-37E, had reached 8,532 feet in lower Permian lime and dolomite and was boring deeper. It had shown a slight indi-

cation of gas on a recent drillstem test, but up to now it has not developed any signs of oil.

Continental Oil Company No. 1-A-29 Warren, one-location northwest outpost to the discovery for flowing production from the McKee sand of the middle Ordovician, to open the Warren field between Hobbs and Eunice, had cored to 9,186 feet in Simpson lime and shale, and was seaming core hole prior to casing ahead to try to find and test the Ellenburger.

Some observers expect that formation to be entered around 9,250 feet. The project is 1,980 feet from north and west lines of section 29-206-38E.

It flowed 194 barrels of oil in two hours, with a gas volume of 1,312,000 cubic feet per day, during a drillstem test in the McKee at 8,889-9,039 feet.

This venture took a drillstem test at 9,044-9,188 feet in the lower Simpson. The tester was open one hour and 35 minutes. Gas showed at the top in 20 minutes. The volume was 385.

Recovery was 180 feet of drilling mud, 1,570 feet of free oil and 50 feet of salt water.

It is understood that the McKee pay in this well covers the zone from 8,837 feet to approximately 8,138 feet. That formation will be tested further and a well completed from it, in the event the Ellenburger fails to produce.

Phillips Petroleum Company No. 1 Shipp, wildcat in Central-East

Lea County, three miles northwest of the nearest oil wells in the Hobbs field, and 660 feet from north and 1,980 feet from east lines of section 20-186-37E, has been plugged and abandoned as a dry hole.

It drilled to 12,626 feet in granite, after penetrating barren Ellenburger which was entered at 12,590 feet.

Shows of oil were logged in the Cherokee section of the middle Permian. That some made salt water, with only slight oil stains when tested.

Believed In Montoya  
Stanford Oil & Gas Company No. 1 Leonard-Federal, Ellenburger prospector in extreme Southeast Lea County, had progressed past 10,625 feet in a lime and chert formation thought to be Montoya-upper Ordovician, and was making more hole.

Location is 660 feet from south and east lines of section 11-286-37E. Mid-Continent Petroleum Corporation No. 1-D Sawyer, a flanker to Devonian production in the Crossroads field and 1,980 feet from north and east lines of section 27-98-36E, was drilling below 10,608 feet in lime.

Magnolia Petroleum Company is making more hole below 8,902 feet in lime on its No. 1-B Santa Fe, one-half mile west of Mid-Continent No. 1 Deasie Sawyer, a flowing producer from the Devonian.

It is 660 feet from east and 1,980 feet from south lines of section 28-98-36E.

Magnolia has squeezed off perforations at 8,893-9,700 feet which made water at its No. 1 Cox-Federal, extreme Northeast Lea County wildcat.

Swabs No Shows  
Operator has now perforated the section at 9,850-56 feet and swabbed dry. There were no shows of oil or gas.

It is 660 feet from south and west lines of section 1-98-38E.

Amerada Petroleum Corporation No. 1-CA State, wildcat three miles south of the Crossroads field in Northeast Lea, and 660 feet from south and east lines of section 9-108-36E, had reached 12,873 feet in lime and was making more hole.

Amerada No. 1-BTA State, flowing strike from a deep dolomite formation in Northwest Lea County, 15 miles west and three miles north of the town of Tatum, was at a total depth of 11,490 feet in lime and was trying to regain circulation, then drill ahead.

### National Guard Division Begins Training

Mortar training has important place on the schedule of the 36th Infantry Division during training at Camp Hood. Left to right at top: Cpl. Robert Smith, Pfc. V. D. Stroud, Cpl. Chester Whitley, First Sgt. Rex Gross and Sgt. Francis G. Perry, all of Company F, 141st Infantry, Kingsville. At bottom, advancing through a smoke screen under simulated battle conditions, are men of the 143 Infantry, 2nd Battalion.

# The Daily Oil Pusher

## AIME President To Speak At Midland Meet June 20

### Noland, Independent, And Wife To Move To Oklahoma Farm

J. S. (Jim) Noland, Midland oil operator, and Mrs. Noland, are to move to Ardmore, Okla., around July 1. They will live on their farm eight and one-half miles north of that city.

The move is being made at the suggestion of physicians, who advised Noland to take things slower and easier, in order to protect his health.

He says he does not expect to get completely away from the oil business. He plans to maintain his connections in this region and to carry on some business operations. He intends to make frequent visits to Midland and Permian Basin, and in between those trips probably will get in considerable rest and relaxation in the Ardmore area.

Noland first came to Midland more than 20 years ago, when the oil development activity in this region was just getting started. He has been a strong advocate of the possibilities of the Permian Basin and he thinks this territory will continue to be one of the most active and productive oil regions of the United States for many more years.

He was with Barnsdall Oil Company when he started his work in the Permian Basin. That concern moved him to its headquarters in Tulsa, after he had worked in the Permian Basin for several years. He resigned from Barnsdall in 1944 and came back to Midland as district landman for Phillips Petroleum Company.

He left Phillips in June 1948 and went in business as an independent specializing in oil and gas leases and minerals, and other petroleum investments.

Active in Civic Programs  
Noland has been active in numerous community civic programs in Midland. He is a director of the Independent Petroleum Association of America and maintains membership in several other petroleum industry organizations.

He is a member of the Midland Lions Club and has been one of the leaders in the program for the Midland Memorial Hospital, which is now under construction.

Owen's expressions of ardor, however, were confined to phrases such as: "I miss you like hell."

One of the missives to Mrs. Garnier in Honolulu said: "I did not go to see Irene Rich last weekend. I didn't even call her, as I am not interested in the lady personally."

In another he told her "There have been no calls to R, and no blondest. I've been on the wagon five days and feel better for it."

Most of the letters in one group, written to Mrs. Garnier while she was managing Owen's Beaver Creek ranch at Rimrock, Ariz., were signed "All my love, John."

Communicable diseases reported last week to Dr. F. E. Sadler, director of the Midland County Health Unit, include the following cases: dysentery, 21; measles, one; and streptococcus throat, one.

Herndon Joins The Western Company As Safety Director

W. H. Herndon is a new man with The Western Company in Midland. An educational and safety director for the concern, his duties will be to coordinate and direct the accident prevention program which has been developing over the past few years.

Prior to joining The Western Company, he was a staff member of the Industrial and Business Training Bureau, Division of Extension, of The University of Texas. He is a professional engineer with 25 years experience in construction, industrial and oil development projects.

Herndon formerly resided in Greenville. He has now established a home for his wife and three children in Midland.

Western Switches Inman To Head Of East-Side District

C. E. Inman, former manager of The Western Company's acid treating station at Eunice, N. M., has been made district manager for the company's recently established East District, Walter Beadle, manager of the concern's acid department, has announced.

The East District, with headquarters in Colorado City, serves the east side of the Permian Basin and the West-Central Texas area. A new treating station in this district was located recently at Snyder, with W. T. Ivy as manager.

Don D. Walters will succeed Inman as station manager at Eunice.

Midlander Injured When Hit By Auto

H. M. Mayo, 29, was admitted to Western Clinic-Hospital here Friday afternoon for treatment of a fractured leg. He was struck by an automobile driven by Ray Bryn on East U. S. Highway 80.

Mayo had started across the highway during a hard downpour of rain and Bryn failed to see him in time to avoid the accident.

Some Greek Gynics led lives somewhat similar to those of early Christian hermits.

### Aircraft's New New Look

This jet-powered Air Force research plane was built by Consolidated Vultee to prove the design superiority of the triangle-shaped wing over conventional "swept-back" styles. It is now being tested at the Muroc, Calif., Air Force Base. Engineers say the new wing offers far less drag and therefore provides greater performance in the transonic and supersonic speed ranges.

### Greer New Drilling Company Here

John L. Greer Drilling Company is a new Permian Basin oil well digging concern. The concern will maintain its business office in the Wilkinson-Foster Building in Midland and a field office at Sheffield.

Partners in the company are John L. Greer of Sheffield, and Don M. Oliver and Fred Kotyza, independent oil operators and consulting geologists of Midland.

The new organization will do contract drilling and will specialize in cable tool work.

A good bell should have two notes, one produced when it is struck and a hum note a major sixth below the strike note.

### Thomas Joins RRC Engineering Staff

J. B. (Jim) Thomas of Lamesa is a new man with the oil and gas division of the Railroad Commission of Texas, Midland district office.

He graduated May 30 from Texas Technological College with a degree in Petroleum Engineering. During World War II, he served with the armed forces in the European Theatre.

At present, he is just getting settled in Midland and says he likes the city, fine, except he can't locate an apartment for his wife and himself.

Stools and umbrellas are the symbols of power for chiefs of the Ashanti, an African tribe.

### President—

(Continued from Page 5)  
Howard Marshall, Ashland Oil and Refining Company.

Every oil refiner and producer is to receive a query soon on how many men he employs, and how many of them are hard to replace.

It's part of the industry's effort to keep prepared in the event of war. The National Petroleum Council, which is to conduct the manpower survey, expects to start within a week.

It awaits clearance of plans by the National Security Resources Board which asked for the survey. The questionnaire also goes to distributors and pipe lines.

An official reason for making the survey is "to provide data on manpower requirements to serve as the basis for making a case for deferments in the event of an emergency."

The developments toward a tide-lands compromise are coming along as expected, with the final outcome still touch and go.

Leaders in Congress are predicting settlement of the issue this session of Congress. These leaders include House Speaker Sam Rayburn and others close to him.

Others, who have not been informed of all the details, are less hopeful.

A typical comment of a Congressional leader is this from Representative Eugene Worley (D-Texas): "I am hopeful that the present negotiations will bring about a settlement of the situation. I am sure an adjustment or agreement, if you want to call it that, would be to the advantage of the State of Texas and the Federal Government."

Big Spring Man Named Judge

The Associated Press reports that Gov. Beauford Jester named Charlie Sullivan of Big Spring judge of the newly-created 118th Judicial District.

The 118th District comprises Howard, Martin and Glasscock Counties.

### Senators Trying To Junk T-H Strike Ban Find Selves Divided

WASHINGTON—(AP)—Senators trying to junk the Taft-Hartley Law's provision for injunctions against strikes which threaten the nation's welfare found themselves split Saturday on how to do it.

Senator Morse (R-Ore) parted company with a group of Democrats opposed to the injunction and reopened discussions with Senator Ives (R-NY) on that and other labor law issues.

Meanwhile, Senator Aiken (R-Vt) said he believes President Truman is blocking an effective compromise. "Sometimes it looks as though the White House doesn't want good labor legislation," Aiken declared.

He added that the President apparently wants to make the Taft-Hartley Law a campaign issue again in the 1950 congressional elections.

The big Senate battle over whether to keep the T-H Law's court order section—bitterly opposed by the labor unions—is expected to reach a climax in a few days when voting on a new labor law begins.

Morse Backs Down  
A week ago a group of Democratic and Republican senators got together and decided the Administration bill needs sharper "teeth" for dealing with such disputes—but something short of the T-H Law's court order section.

Members of the bi-partisan group said then they had agreed on a plan for giving the President authority to seize struck plants in national emergency cases.

The group named Morse, who then was out of town, to introduce the amendment. When he returned, Morse said the proposal did not satisfy him and he refused to go along.

Meanwhile, Ives offered an amendment which would require Congress to deal separately with each national emergency labor dispute. The President could recommend seizure, but that plan would be out the window if both branches of Congress vetoed the idea.

Ives told a reporter they might turn up with several amendments either to the Administration bill or to a substitute measure sponsored by Republican Senators Taft (Ohio), Donnell (Mo) and Smith (N.J.).

The substitute bill would make 26 changes in the Taft-Hartley Law, but retain its basic provisions—including the emergency injunction.

### Abilene Man Dies One Week After Wife

ABILENE—(AP)—E. C. Jackson died Friday, just a week after his wife and war veteran son were interred.

The retired carpenter had been near death for a month.

His wife had stayed at his bedside constantly during the last three weeks of her life. She succumbed to heart attack while keeping her vigil.

She was interred with their son. His body had been returned from overseas and held at a funeral home pending a change in his father's condition.

### Gulf Officials Tour Midland And Area

H. R. Moorhead, Jr., of Pittsburgh, Pa., treasurer of the Gulf Companies, spent several days last week inspecting various properties of Gulf Oil Corporation and Gulf Refining Company in the Permian Basin.

He was accompanied by F. J. Adams, general agent and F. E. Hatfield, production superintendent, for Gulf Oil Corporation at Fort Worth, on his tour of this region.

While in this territory the Gulf executives visited the concern's district land and geological offices in Midland and the district production office at Odessa, and they also visited several of the oil fields of West Texas where the company has production.

### Woodruff Changes Plea; Gets Two-Year Sentence In Slaying

EDINBURG—(AP)—Delbert G. Woodruff gave up his effort to clear himself of a murder charge Friday and drew a two-year prison sentence.

He changed his plea to guilty of murder without malice just as Judge Bryce Ferguson was preparing his charge to the jury. Thursday Woodruff had testified in his defense.

The judge sentenced Woodruff to the fatal shooting of Frank Evins in an Edinburg hotel room on June 21, 1947.

Woodruff still is charged with the fatal shooting of Evins' brother, Jesse, at the same time. District Attorney Jack Ross said that charge will stay on the docket.

### MUSICIANS PICK HOUSTON FOR 1950 CONVENTION

SAN FRANCISCO—(AP)—James E. Petrillo—to the surprise of no one—was re-elected president of the AFL American Federation of Musicians Friday.

Delegates chose Houston, Texas, as next year's meeting place.

### Yank: Hats On Red Heads

Hey, doughnut, recognize those helmets? Yep, they're the same ones you wore from Guadalcanal to Tokyo. Here, they're worn by Communist troops in Shanghai. They got them from captured Nationalist soldiers, who got them from Uncle Sam's war surplus. (Radio-telephoto by NEA-Acme staff correspondent Warren Lee.)

### Love Letters Read To All-Woman Jury In Garnier Defense

RIVERSIDE, CALIF.—(AP)—Mrs. Agnes Garnier, on trial for murdering her boss, wealthy John E. Owen, is scheduled to take the witness stand next Tuesday with direct testimony in her own behalf.

The trial was adjourned Friday after defense attorney Sam Houston Allen read more than 20 love letters written by the 68-year-old Owen to Mrs. Garnier. The state's 53-year-old divorcee remained impassive as an all-woman jury heard the letters.

Owen, president of the National Apartment House Owners Association, was shot to death April 22 in the bedroom of his lavish ranch home near here. The prosecution contends Mrs. Garnier killed him following an argument involving actress Irene Rich.

Allen said the letters were introduced to show there was a real and abiding love between Owen and his secretary. In some of the letters, Owen signed off with: "John, the old crab."

Not interested in Irene Rich, Owen's expressions of ardor, however, were confined to phrases such as: "I miss you like hell."

One of the missives to Mrs. Garnier in Honolulu said: "I did not go to see Irene Rich last weekend. I didn't even call her, as I am not interested in the lady personally."

In another he told her "There have been no calls to R, and no blondest. I've been on the wagon five days and feel better for it."

Most of the letters in one group, written to Mrs. Garnier while she was managing Owen's Beaver Creek ranch at Rimrock, Ariz., were signed "All my love, John."

### HEALTH UNIT REPORT

Communicable diseases reported last week to Dr. F. E. Sadler, director of the Midland County Health Unit, include the following cases: dysentery, 21; measles, one; and streptococcus throat, one.

# Indians Trounce Swatters For Fifth Straight Victory

One At A Time

Third Baseman Grady Hatton slides into second, but not in time, as Jack Lohrke makes the putout on Frank Baumholtz's grounder to Sid Gordon in first inning at the Polo Grounds. The Giant's second baseman's off-balance throw to first came too late for the double play. Umpire Frank Dascoli calls the play in game won by Cincinnati 4-3.

## Lou Dawson Leads Way To Win With Three Base Hits

The Midland Indians and the Sweetwater Swatters will meet in a double-header at 1:30 p.m. Sunday in Indian Park to complete their three-game series.

Ralph Blair and Sam Van Hooser will do the hurling for Midland.

By SHORTY SHELburnE  
The Midland Indians knocked three Sweetwater pitchers dizzy in Indian Park Saturday night and came out on the long end of a 10 to 5 score to extend their winning streak to five straight. The defeat snapped a hot seven-game winning streak by the Swatters.

Lefty Ernie Nelson scattered a dozen base hits along the route to take his fifth win of the season. He was in serious trouble several times but always managed to pitch his way out.

The Indians fielded a juggled lineup but every man gave a good account of himself. Pat Romanello played third base and Lou Dawson moved to short to fill in for the injured Stanley Hughes. Dawson played errorless ball and Romanello's fielding was amazing in spots.

Indians Open Scoring  
The Indians broke out with three runs in the first inning and never were headed. Rose and Sitter walked to open the frame and Dawson doubled them home. He scored later on an error by the Sweetwater third baseman.

The Tribe got another run in the third on a single by Dawson and a triple by Marty Filigamo.

Sweetwater scored one in the third on two singles and a Midland error and added a pair in the sixth on another Indian error, a double by Dick Steger and a single by Bill Peeler.

Lefty Cliff Craig, the starting hurler, was lifted for a pinch-hitter in the sixth. Quigley, who relieved Craig, worked two innings and Lou Lockhart, the ace of the Swatter staff came on.

Midland greeted Lockhart with a heavy barrage of base knocks and pushed across six runs in a big eighth inning rally that saw 11 batters take their turns at the plate. Pat Romanello started the whole shooting match when he walked to open the inning. Kenny Jones singled for an error and Ernie Nelson got life on an error to load the bats. Bobby Rose unloaded a long double to centerfield and drove in two runs. Warren Sitter sliced a curve ball to the same spot where Rose hit his. Sitter's two-bagger played into the hands of Dawson, who with his third hit of the night, a single, to drive in another tally and Marty Filigamo drove him home with a single.

Prexy Visits  
Longhorn League President Hal Sayles watched the action from the press box. He expressed a liking for the showing the fielders made on the muddy turf which was soaked by Friday's downpour.

The difficult playing conditions only added to the flashy fielding game displayed by both teams.

PAGEANT REHEARSAL SET MONDAY NIGHT  
A meeting of all persons interested in participating in the Trail Days pageant, "Frontiers of Progress," to be presented here July 1, 2 and 4, will be held at 7:30 p.m. Monday in the City-County Auditorium, Director Art Cole announced.

Parts will be assigned at the gathering, and a rehearsal schedule will be arranged. Cole said the rehearsals will be brief since no memorization of parts will be necessary. He urged a large attendance at the Monday night meet. A cast of 400 persons is needed for the historical pageant.

The Fourth of July weekend celebration, destined to be one of the largest and most spectacular ever staged in West Texas, is sponsored by the Lions Club in cooperation with all civic and service clubs of Midland.

The history of Midland and the Permian Basin will be depicted in dramatic form in the pageant which will be produced each of the three nights at the rodeo grounds of Midland Fair, Inc.

## On A Limb

Willys of Hollywood, president of the Hosiery Designers of America, measures the shapely legs of Virginia Mayo in Hollywood. Virginia was picked by the hosiery designers to head their annual list of movietown's loveliest legs. Anyone disagree?

## Permian Basin Shoot Sunday

Shooters from throughout the Permian Basin will start firing at 10 a.m. Sunday in the monthly Hi-Power Match sponsored by the Permian Basin Rifle and Pistol Club. The match will be held at the club ranges at Midland Air Terminal.

Five events are on tap and are open to everyone who wishes to enter. Cash prizes will be awarded in each event.

## George Glass, Jr. In Tie For State Junior Skeel Title

EARLINGEN — (AP) — Sharpshooters Capt. Mig Brown, Waco, and Mickey Michaels, Jr., Galveston, each bagged 299 of 300 targets Saturday to tie for top place in the main event of the state skeet shoot.

Miss Nancy Burrus, Dallas, turned in a straight 100 in the women's division.

Jackie Rogers, Palestine, blasted 96 of 100 targets to become the state sub-junior champion. George Glass, Jr., Midland and Stan Bell, Corpus Christi, tied up the junior division. They cracked 99 targets each.

Shootoffs Sunday  
Shootoffs will be fired Sunday. They will attempt to break ties in the amateur all-bore and the delayed Galveston Oleander four-way deadlock. In the latter are Grant Elberg, Houston; Col. Pete Reed, San Angelo; Michaels and Herman Ehler, Dallas.

Bill Buford, Austin, took runner-up spot with 149 of 150 in a lower bracket tie of the Oleander and George Glass, Jr., ripped 148 targets to become Class A winner of the Galveston meet.

Herb Parsons, Somerville, Tenn., copped first place in the pro division of all bore firing by hitting 298 of 300. Mrs. Janice Mason, Dallas, was first in the women's all-bore division, breaking 294.

In the sub-junior, Billy Martindale, Jacksonville, Texas, broke 278 to top first division in the all-bore. All events of the state meet will be completed Sunday afternoon with winners scheduled to compete in the nationals in Dallas August 1.

## TEXAS STATE REVENUE EXCEEDS ESTIMATES

AUSTIN — (AP) — Revenue receipts of the state totaled \$50,163,184, while the cost of government was \$44,659,387 in May, State Comptroller Robert S. Calvert reported Saturday.

The general revenue fund increased from \$21,184,526 to \$23,615,050.

## Pageant Rehearsal Set Monday Night

A meeting of all persons interested in participating in the Trail Days pageant, "Frontiers of Progress," to be presented here July 1, 2 and 4, will be held at 7:30 p.m. Monday in the City-County Auditorium, Director Art Cole announced.

Parts will be assigned at the gathering, and a rehearsal schedule will be arranged. Cole said the rehearsals will be brief since no memorization of parts will be necessary. He urged a large attendance at the Monday night meet. A cast of 400 persons is needed for the historical pageant.

The Fourth of July weekend celebration, destined to be one of the largest and most spectacular ever staged in West Texas, is sponsored by the Lions Club in cooperation with all civic and service clubs of Midland.

The history of Midland and the Permian Basin will be depicted in dramatic form in the pageant which will be produced each of the three nights at the rodeo grounds of Midland Fair, Inc.

## Brooklyn Mauls Red Left-handers To Gain Sixth Straight Win

BROOKLYN — (AP) — Brooklyn mauled three left-hand pitchers Saturday and ran their winning streak to six straights in a 11-3 triumph over Cincinnati.

Roy Campanella hit two home runs and Pee Wee Reese cashed in another.

The victory, coupled with Boston's defeat by the Chicago Cubs, widened the Dodgers' first-place lead to a game and a half.

Don Newcombe, Giant negro right-hander, held the Reds to five hits for his third victory without a defeat. He fanned nine and walked two. Two of the Red's runs resulted from homers by Jimmy Bloodworth and pinch-hitter Danny Ljwhtler.

The Dodgers knocked Raffenberger out in the sixth, adding two more tallies. They chased Kent Peterson with four more in the seventh.

The score: R. H. E.  
Cincinnati 100 000 011-3 5 0  
Brooklyn 000 132 41x-11 12 1  
Raffenberger, Peterson, Fanovich and Mueller; Newcombe and Campanella.

## WTGA Final Round All-Odessa Event

BROWNWOOD — (AP) — A couple of Odessa blond bombers, Don Cherry and Bobby French, will play for the championship of the West Texas Golf Tournament Sunday.

Cherry, 25, beat Bill Smith, Eastland, 5-3, and French dumped Spud Cason of Port Worth 5-4, in the semifinals Saturday.

This is the third try for the WTGA title for Cherry. The former Wichita Falls ace was runner-up the last two years.

Bill Maxwell, 1948 WTGA winner, and Jack Williams, Plainview, San Angelo title winner over Cherry two weeks ago, will play an 18-hole consolation final Sunday.

Three Holes-In-One  
The tournament saw a hole-in-one for the third day in a row. It was made by H. G. Agnew, Ballinger left-hander, on the No. 4, par 3, 137-yard hole in the senior flight.

Bob Barber of San Angelo aced the 170-yard No. 2 hole in qualifying Thursday. Bill Smith of Eastland gave the same sort of performance on No. 8, a 129-yard hole, Friday.

Veterans said they remembered no other holes-in-one in 21 years of WTGA tournaments.

## Softball Program To Be Discussed

SAN ANGELO — (AP) — Officials of the Texas Softball League and the Inter-City Softball League meet Sunday in Austin.

They will discuss possible coordination of rules and a general program for the 1950 season.

The San Angelo Standard-Times said there was a possibility the two organizations—largest softball circuits in the state—would arrange a playoff at the end of the current season. It said incorporation under one banner in 1950 is another possibility.

## ERIE-LAKE ASIA

Asia is a land of extremes. Mount Everest, its highest peak, stands approximately 29,000 feet above sea level, while the Dead Sea lies 1282 feet below the level of the sea.

## Clean-Up Man

Against left-hand pitching, Eddie Kazak bats in the clean-up position for the Cardinals.

## Summer Recreation Program Draws 150

The Summer Recreation Program has blossomed out in full bloom here and more than 150 children are attending the supervised sessions each day, according to Garvin Beauchamp, director.

Swimming is conducted from 9 a.m. to 11 a.m. each day and play sessions are held from 5 p.m. to 7 p.m.

Younger children are taking part in water coloring, drawing, chalk coloring, story telling, tumbling and quiet games.

The larger ones are playing tennis, box hockey, table tennis, baseball, basketball, volleyball, croquet, horseshoes and are getting in some licks at gym work on the bars and ropes.

Tournaments are to be conducted this week in marbles, horseshoes and tennis.

Instructional periods in swimming are conducted each day at Pagoda Pool.</

# SPORT SLANTS

BY SHORTY SHELburnE

The Midland Indians have achieved something no other team in the Longhorn League has achieved this season.

When Glenn Patton tossed his one-hitter to whip the Big Spring Broncos 1-0 in the Big Spring park, he became the only hurler to register a win there against the Broncos this year.

## Capot Is Belmont Winner

NEW YORK—(P)—Capot gave Greentree Stable a powerful claim on the 1949 three-year-old championship Saturday when he beat Calumet Farms' favored Ponder by a half-length to win the \$91,500 Belmont Stakes.

Just as expected, it was strictly a three-horse race between Capot, Ponder and Isidor Bieber's Palestinian, which took third money and another half-length back of the Calumet colt. The fourth horse in the eight-horse field, Mrs. Eben H. Ellison, Jr.'s Sun Bahram, was 12 lengths back of Palestinian to give an idea how much the others were left out of the act.

Most everybody in the crowd of 40,421 but the Greentree forces thought Ponder, the Kentucky Derby winner, was going to take this final jewel in the triple crown, because of his reputation for coming from behind.

But Jockey Ted Atkinson, who was winning his first Belmont victory aboard Capot, knew what he was doing as he had the brown son of Monow-Piquet in front for most of the dusty mile and one-half route.

Capot had won the Preakness, but most "experts" thought the longer Belmont distance would prove too tough for the Greentree galloper.

## Julian Pressley Is Leading Midland In Hitting With .386

Julian Pressley, the Midland outfielder with booming bat, moved into the top spot in the Indian batting averages this week. He currently is slugging the ball at a .386 clip for the first quarter of the season.

In moving up, Pressley clouted seven home runs and got a base hit in each of 11 consecutive times at bat to set a new record.

Kenny Jones remained in second place although out of the lineup most of the week. He is batting .363.

Carriel Nipp displayed some of his power at the plate to raise his average to .346 for third place in the Indian standings.

Warren Sliiter is hitting .314.

Lou Dawson, the newly acquired third baseman, holds the fifth place spot with a .310 average.

Rose Gains

Bob Rose picked up six percentage points during the week to raise his mark to .296 for the first quarter.

The other Indians are hitting like this: Stanley Hughes, .291; Rudy Kellee, .286; Ernie Nelson, .280; Marty Pilgamo, .272; Sam Van Hoozer, .250; Ralph Blair, .162; Glenn Patton, .136.

Ernie Nelson and Ralph Blair top the pitchers with 500 percentages. Nelson has won four and lost four while Blair has a five-five record.

Sam Van Hoozer has credit for only one win against no losses for the season. Glenn Patton a three and four record.

## Softball Schedule

All games scheduled Friday night in the Midland Softball League were postponed by rain.

Monday night's schedule calls for the Reporter-Telegram and Joe's Gulf vs. Standard in the finale.

## Midland Colts Play Monahans

Juan Lopez will send his Latin American Midland Colts to the field against the Monahans Lobos at 3:30 p.m. Sunday in the Home of the Colts here. The Midland team holds a one-game edge over the Lobos.

The Colts will be hosts to the Grandfalls Cowboys here next Sunday afternoon.

Chicago and New York hold the American League record for the most consecutive games won—19.

Likewise, the Indians are the only team which has beaten the Cubans on their home field. We have an idea there will be other victories ahead of this one when the Indians play Big Spring there again.

With Julian Pressley, Carriel Nipp and Marty Pilgamo hitting the ball like they are now, the short leftfield fence in Bronco Park is a perfect mark.

Friday was "baseball players' day" in City Court here. The funny part of it is, all the defendants went away happier than they were when they arrived.

Judge J. M. DeArmond had Stu Williams of the Ballinger club back in court to officially dispose of the charges lodged against him here some time ago for breach of peace.

Likable, philosophical Judge DeArmond fined Williams seven dollars and suspended the fine. He expressed a liking for Stu after the thing was over and termed him a very nice fellow "from all indications here in court."

Just as Williams was going merrily on his way, in stepped Sam Harshaney, manager of the San Angelo Colts, waving a red parking ticket.

After proper introductions, the case was heard.

Sam excused himself for the violation with the explanation he had lost a baseball game to the Odessa Oilers the night before and had forgotten to move his bus after letting the players out at the hotel here.

Judge DeArmond, after a recommendation from Police Chief Jack Ellington, excused Harshaney but with a stern warning.

"Next time you lose to Midland take that bus to Odessa and park it right in the middle of main street," was the judge's command.

Sam went home one better. He said, "I'll park it right on home plate in Oiler Park."

With his 11 straight hits last week and his five home runs, batted his way to the title of "Player of the Week" and will be awarded a Bulova wrist watch from Hughes Jewelry between games of the doubleheader at Indian Park Sunday afternoon.

We think the fans picked the right man for the award. Thanks to Pressley for his fine stick work. He is headed for his biggest season in baseball.

Midland has become a favorite stopping place for Longhorn League teams when they play in this area.

The Ballinger Cats always stop here when they play at Odessa as do the San Angelo Colts. Both clubs then commute to Odessa every day.

Midland should feel proud that our city is that attractive.

Bloody Cross has served notice on Sports Slants that he and Lefty Shelton are out to make us eat our words. We doubt Shelton can do it.

However, if he does it won't be the first time. If Lefty has the stuff to whip the Indians from the mound let him start showing it.

Stanley Hughes, the best shortstop in the Longhorn League, has been in somewhat of a slump at the plate here of late but it isn't without good reason.

Hughes has been ailing with a stomach disorder which has kept him upset just like any normal human being.

Fans should take that into consideration before they jump on a ball player. Hughes was the target for some rash remarks from the stands here Thursday night. It shouldn't have been so. He played the best he was able to play.

Speaking of ball players being sick, Julian Pressley was running a high temperature all the time the Indians were on the road to Ballinger and Sweetwater last week. Yet he clouted five home runs and a half dozen other assorted base hits.

Sick probably isn't the word for Bob Huntley's condition since he dropped three straight to last-place Sweetwater and a fourth one to Roswell.

Baseball men all over the league are saying, "Watch out for Sweetwater. The Swatters are the most improved club in the league." We believe it because they have been going great guns.

Charlie English, the fiery pilot of the Ballinger Cats, has been replaced by Stu Williams. We got wind of the proposed change after Thursday night's game here. English and his employers were not on friendly terms, both having their own ideas about how the ball club should be run.

Stu piloted the Cats early in 1947 and did a fair job. He may bring them out of the dumps.

The Midland Indians needed to get to bed Friday night. The water was up to the bottom bunks in the club house.

Longhorn League results Friday night: Sweetwater 13, Big Spring 0; Roswell 5, Vernon 4. Both games were called after five innings.

## Run-Down Play

Red Schoendienst of the Cardinals was trapped between third and home in the ninth inning at Braves Field when Eddie Kazak hit a ground ball to Bob Elliott, middle. The catcher is Phil Masi. Schoendienst succeeded in scrambling back to third, but Stan Musial, shown with his foot on the bag, had come on from second, and was out because there was no place for him. Alvin Dark of the Boston club stands beside Musial. The umpire is Lee Ballanfant. Despite the mixup, the St. Louis Nationals scored three runs in the inning as insurance, and swept the three-game series.

## Texas Meets Sooner Aggies For Regional NCAA Baseball Title

AUSTIN—(P)—Two college teams with fine won-lost records fight out for the Region C National Collegiate Athletic Association baseball title here this week.

They are the Texas Longhorns with a won-lost record of 18 to 7 and the Oklahoma A&M Cowpokes with a more impressive record of winning 22 and losing 4.

The Longhorns faced more professional teams in their early-season play.

Toby Green's Oklahoma A&M nine qualified for the meet by defeating Kansas University two games out of three. The Aggies, champions of the Missouri Valley, are representing NCAA District 3 for a second straight year.

Bibb Falk's Longhorns are back in the NCAA playoff after passing up a bid last year to represent District 6. The Longhorns advanced to the finals of the Western Regional in 1947 in California.

The 1949 Region C series will open Thursday afternoon at Clark Field, where the Longhorns have won 47 of their last 48 appearances against collegiate competition. The only school to defeat Texas on its home field during the last three seasons was Ohio State, which salvaged the final game of this year's three-game series.

## Yanks Blast Rapid Robert From Mound, Down Indians 12-7

CLEVELAND—(P)—The New York Yankees blasted Bob Feller and Sam Zoldak, his successor, for nine runs in the first inning, and went on to defeat the Cleveland Indians 12-7.

A ladies day crowd of 61,523, of which 31,306 were paid admissions, saw 13 Yankees go to bat in the first inning. They rocked Rapid Robert for five hits before he retired in favor of Zoldak. It was the second straight for the Yanks over the Indians, after a four-game losing streak.

Feller pitched to eight batters and retired one. The most damaging blow was a bases-loaded double by Yogi Berra.

Allie Reynolds, who had not started since Memorial Day, could not go the distance. Joe Page replaced him.

Joe Gordon smashed his ninth homer of the season. It was Feller's sixth loss.

The score: R. H. E. New York 901 000 200—12 11 1 Cleveland 100 002 103—7 10 4 Reynolds, Page and Berra, Narhos; Feller, Zoldak, Pajish and Hegan, Tresh.

Highest 72-hole total ever to win the U. S. Open was the 331 of Willie Anderson in 1901.

## Memphis Dentist Wins Open Crown

CHICAGO—(P)—Cary Middlecoff, the young golfing dentist from Memphis, Tenn., won the 49th National Open golf championship with a 72-hole score of 286 Saturday while an old familiar jinx rose up to haunt Samuel Jackson Snead.

Snead, hard luck loser in three previous open tournaments, faded on the 71st hole after a spectacular rally to finish in a second place tie with Clayton Heafner of Charlotte, N. C., one stroke back at 287.

In third place came Jim Turnesa of Briarcliff Manor, N. Y., and Bobby Locke, the South African visitor, with 289.

Al Brooch of Garden City, N. Y., who led at the halfway point with a sub-par 141, wilted and finished with 293.

Middlecoff, after shooting a 69 over Medina's 6,981-yard, par 71 layout in the morning, also soared in the hot, humid afternoon for a 75.

The 286 winning score, two over par, was the first time the open had been won by an over-regulation figure since unknown Sam Parks did it at Oakland in Pittsburgh in 1935.

Snead still was out on the course when Middlecoff's score was recorded.

## Softball Schedule

SECOND ROUND

June 13—Reporter-Telegram vs Texas Co. Standard of Texas vs Joe's Gulf.

The elephant is the only mammal that kneels when reclining. His knee joint rests on the ground while his hind feet sticks out backward.

## Get Along, Dogie

Penny Karnofsky, a Phoenix, Ariz., model, proudly shows off the brief swimsuit designed especially for her. The hand-painted number has a strictly western motif of a cowboy roping a calf.

## Bowie, El Paso, Lands Six Men On All-Tourney Nine

AUSTIN—(P)—By unanimous vote, Robert Leach of Denton was named outstanding player of the 1949 state high school baseball tourney.

The championship Bowie of El Paso team placed six men on the all-tournament team announced Saturday.

Leach is a 16-year-old freshman lefthander. He and Ruben Porras of Bowie, also a pitcher, were the only unanimous choices for the first team. Each registered two victories in the tournament.

First Baseman T. R. Taylor of Waco, Pitcher Jackie Brinkley of Austin, and Shortstop Bobby Brown of Lubbock missed unanimous selections by a single vote. The team was chosen through a poll of sports writers and professional baseball scouts.

Also making the team were Catchers Ramon Camarillo, Bowie, and Teddy Tate, Austin; Second Baseman Dick McCoy, Austin; Third Baseman Jose Galera, Bowie; utility man, Andy Morales, Bowie; and Outfielder Ernesto Guzman, Bowie, and Fernando Gomez, Bowie.

# Truman—

(Continued from Page 1)  
ed 15 blocks—the full route—in the annual reunion parade of the 35th. He was flanked by Secretary of Defense Johnson, Gov. Sid McMath of Arkansas and Maj. Gen. Harry H. Vaughan, presidential military aide.

A crowd estimated by Police Chief Marvin Potts at 100,000 thronged the hot streets to greet Truman.

In his address, the President said, in referring to the European Cooperation Administration program: "There are voices which claim that because our policy has been successful so far, we can now afford to relax. There are some who want to slash the aid we are giving to the economic recovery of other nations; there are some who want to reject the measures that are necessary for defense against aggression; there are some who wish to abandon our efforts toward the revival of world trade."

"These are the same voices that misled us in the 1920's. They are misguided by short-run considerations. They refuse to face the plain facts. They try to convince us that we cannot afford to pay the price of peace."

# Sun Oil Scout Heads National Association

HOUSTON—(AP)—S. N. Jackson, Dallas, is the new president of the National Oil Scouts & Landmen's Association.

The Sun Oil Company scout heads news officers elect Saturday at the concluding business session of the association's twenty-sixth annual convention.

The 1950 convention will be held in Oklahoma City.

Other officers selected include Fred Tyner, Roswell, N. M., first vice president.

# Midlander's Mother Dies In Fort Worth

Mr. and Mrs. L. M. Gard went to Fort Worth Saturday morning when they were notified of the death there of Mrs. Gard's mother, Mrs. Gardner.

The Gardes were in Wichita Falls when the message came. They had gone there to spend the weekend with their daughter, but went on to Fort Worth. Funeral arrangements were pending Saturday afternoon.

# Enforcement—Midland Dries Out—

(Continued from Page 1)  
bage which is not in a covered container of regulation type and size. Wet garbage should be wrapped in paper before being placed in the container. A family may have and use as many cans as it needs and desires, the city manager stated. There is no charge for collection in the residential areas.

The city manager stressed the fact that newspapers, magazines, grass cuttings, weeds and trash need not be placed in the covered containers, but will be picked up if they are placed in cardboard boxes and left beside the containers.

Garbage and trash left in oil drums will not be picked up. The city would like to do away with the oil drums completely and the collection of householders in the matter is urged.

Will Spray Cans  
Each garbage can will be sprayed with DDT as it is emptied, Thomason said.

City officials announced May 15 the enforcement of the garbage ordinance would be started June 15. The ordinance was published in full in The Reporter-Telegram as a convenience to residents. The ordinance was delayed last year, but enforcement was adopted until covered containers could be purchased by householders at a reasonable rate.

The cans now are available at several Midland stores.

Thomason stated the response to the garbage can order has not been too good to date, but he hopes all Midlanders will join willingly in the program to improve health and sanitation conditions.

He urged the full cooperation of citizens in the enforcement of the garbage collection ordinance.

GUNSHOT WOUND  
Angelina Castillo, Latin American youth, was treated at Western Clinic-Hospital Saturday for a gunshot wound in the shoulder. The injury resulted when a 22 rifle was discharged accidentally, it was reported.

# Enforcement—Midland Dries Out—

(Continued from Page One)  
the downpour. Across the Andrews highway to the northeast, a work house at the site of the new Midland Memorial Hospital was demolished. Some materials at the hospital construction job were blown down. Some observers said they believed a young tornado ripped through that sector.

The ball park was under water Friday night. Water also entered the bunk house where the Midland Indians reside. Considerable damage was reported. The Friday night Longhorn League game between Midland and Ballinger was postponed, but the water was pumped off Saturday and the two teams played their scheduled Saturday night tilt.

Water Gushes in Streets  
Streets in many sections ran full of water during the afternoon flood and for several hours afterward. Stalled cars were abandoned on many streets and intersections. Yards and yards of sand were washed into downtown and residential sectors.

Water was over curbs and sidewalks in downtown Midland. The water entered a number of business houses. Broom, mops and other articles were used to curb the overflow.

Wall, Missouri, Texas, Illinois, Ohio and other through streets carried torrents of water, some becoming impossible as the rainfall continued. Water still was flowing down some of the gutters Saturday morning.

Several police cars stalled as they attempted to cruise into all sections of the city to aid persons whose cars drowned out. All members of the Police and Fire Department were on duty throughout the emergency. The fire department made two runs during the downpour.

Many persons were caught in downtown business establishments by the sudden rain. Many residents were seen wading from one place to another with their shoes in hand. A woman was seen walking on a downtown street in a white bathing suit.

Traffic slowed almost to a standstill in the downtown section.

Some fields south of Midland were inundated to a depth of six feet Saturday morning as cotton farmers, blown out last week by high winds, took another beating.

Crops Are Damaged  
E. D. Richardson, who farms a few miles south on the Rankin highway, said a 120-acre field at his place was inundated completely. He estimated the deepest spot at six feet. Cotton fields on the T. Elmer Bizzell farm also were submerged. The same condition existed at the Doyle Rayburn farm and other places in that sector. Damage was heavy. Ranges were benefited and lakes, tanks and watering places were full for the first time in years.

The Friday afternoon precipitation extended only about five miles south, but the Saturday morning moisture covered a wide area and was termed general.

Odezza received even heavier rainfall and a damaging hail storm.

# Enforcement—Midland Dries Out—

Friday. The city was to be deluged.

Midland City Manager H. A. Thomason said streets here were damaged badly.

The southeast part of the Midland Country Club is a large lake and golf course holes six, seven and nine are submerged. No swimming signs were posted.

Flood waters also covered a part of the rodeo grounds of Midland Fair, Inc., in East Midland. The Paqueta Park area on West Highway 80 also was inundated.

Water was over U. S. 80 Highway for several hundred yards in spots both east and west of the city, but the pavement never was closed to traffic.

Joe Youngblood reported about three-quarters of an inch of rain at his ranch south of Midland. Twenty miles southeast, the Sam Preston ranch received 1 1/2 inches. The Midkiff ranch between Midland and Rankin got a good rain.

Foy Proctor received good rains over his ranch lands to the north and northwest. The Roy Parks ranch between Midland and Odezza had about 2 1/2 inches.

Forrest King said his ranch northwest of Midland also received good rains. Rain also covered the Goldsmith area. Stanton and Martin County reported good rains although not as heavy as in the Midland sector. Glenn Brunson had 2 1/2 inches at his ranch 25 miles south.

Mayor William B. Neely, attired in overalls and rubber boots was on hand at the police station Friday night to assist in an emergency.

Many telephones were put out of order and some damage to electric circuits was reported.

More than 150 chickens were reported drowned at a farm south of the city.

Taxi cabs here were swamped with calls and some cabs reportedly operated on an emergency basis.

Some roofs leaked that had never leaked before.

Small birds were found dead in some sections, pelted out of trees by the torrents of rain.

"Are there any storm sewers in this town?" a visitor asked.

"There's not two feet of decline anywhere in Midland," someone stated.

One visitor said, "I'm going back to Houston and the coast, it's drier and less rain there."

"They ought to ration this rain-water," was a during-the-rain crack.

# Sheriff Takes Crack At Crusadin' Dale's Houston Hot Spots

HOUSTON—(AP)—Sheriff Buster Kern, frankly displeased with the raids of Constable Dale Richardson, cracked down on eight Houston bookie shops Saturday.

The outcome: About 75 people arrested; several truckloads of machines, rundown sheets, blackboards and other equipment confiscated.

"I could have waged these raids a long time ago if it hadn't been for those raids by that nitwit Dale Richardson," the sheriff told reporters.

"When Richardson kept fooling around here the bookies kept moving their headquarters."

Richardson left his La Porte precinct several times in April and May to make gambling raids in Houston.

His actions resulted in an investigation by the county grand jury which released a formal report which criticized the moves behind the constable's raids.

The report added, however, Richardson could not have made the raids had Houston police been on the alert against gambling.

Richardson said the sheriff's raids came as "a complete surprise."

He told reporters by phone from La Porte he had been in Houston this morning checking up on the situation and "was told no bookies were operating."

# Hickenlooper Hurls Protest At Secrecy Bars In Atom Probe

WASHINGTON—(AP)—Senator Hickenlooper (R-Iowa) Saturday bitterly protested the raising of secrecy bars in the congressional airing of his "incredible mismanagement" charges against the Atomic Energy Commission.

The Iowa, chief critic of AEC Chairman David E. Lilienthal, demanded a one-day delay in public hearings to thresh out the problem—but with only partial success.

Senator McMahon, chairman of the Senate-House Atomic Investigating Committee, turned down the delay request but agreed to a closed-door session of the committee Monday afternoon to hear Hickenlooper's objections.

McMahon said Dr. J. Robert Oppenheimer, who directed research on the atomic bomb, had been called to testify before the committee Monday morning. Oppenheimer now heads the Institute of Advanced Studies at Princeton, N. J., and is chairman of the AEC's General Advisory Committee.

Hickenlooper, bitter over a 9-to-8 committee decision Friday requiring him to present his evidence against the commission's loyalty review program behind closed doors, had said earlier:

"No progress can be made in this investigation if the curtain of secrecy is rung down every time embarrassing evidence is offered."

To Consume Clark, Hoover  
McMahon said he wanted an open hearing plan for two reasons: (a) The investigation is turning to Attorney General Tom Clark and FBI Director J. Edgar Hoover for advice on how to proceed with the loyalty issues raised by Hickenlooper.

3. No decision has been reached whether to hold hearings, either public or private, on "Class A" That is the designation of an atomic energy Commission employee who, according to Hickenlooper, wrote "one of the hottest atomic documents ever assembled" after he had been suspended following an FBI loyalty check and then reinstated.

# Midlander Named To State B&PW Office

HOUSTON—(AP)—Mrs. Hazel Blackwell, Westlaco school teacher, Saturday was named president-elect of the Texas Federation of Business and Professional Women's Clubs.

She will succeed Mrs. Dora B. Davis, Wichita Falls, Wichita County clerk, at next year's convention.

Other officers elected at the federation's annual convention include Mrs. Minnie Cooper, Corsicana, first vice president; Miss Aileen Ater, Childress, second vice president; Miss Olive McDougle, Stamford, recording secretary; Mrs. Adella S. Drew, Plainview, treasurer; and Mrs. Frances Foote Carter, Midland, corresponding secretary.

# DUNLAP'S SENSATIONAL SUIT EVENT CONTINUES...

*Surprise Father on His Day, Sunday, June 19*

with one of these

All Wool Tropical, Spring Gabardine or Worsted

## SUITS

Of course Dad deserves nothing but the best and here is your opportunity to give him a gift he will be proud of. These superbly tailored suits styled by Hart Schaffner & Marx and Merit are not a special purchase group but are part of our regular stock. The savings are great . . . over 25%, and will go a long way toward stretching the family clothing budget. Sizes are here to fit every man from 34 to 48 in either regulars, shorts, longs and some stouts and portlies. Included are both single and double breasted models. Come in and see these values Monday.

Style-Mart suits tailored by Merit have been favorites with men who buy their clothing on a limited budget. They are favorites because the appearance and workmanship compares favorably with many suits sold in higher price brackets. This new low price enhances this value.

The tailoring and fabrics of Hart Schaffner & Marx suits are well known by men who appreciate fine clothing. Make your selections from plaids, stripes, plains or nailheads in colors of tan, brown, blue or grey. The savings in these two groups are most outstanding. See them Monday.

Plans Late Summer Wedding

Dorothy Turner

Turner-Scharbauer Betrothal Announced

Announcement that Dorothy Turner and Clarence Scharbauer, Jr. will be married on August 27 was made by her mother, Mrs. Fred Turner, at a tea Friday afternoon in the Turner home, 1705 West Missouri Street.

The late summer wedding will be an event of interest over West Texas, as the engaged couple are both members of prominent and widely-known families.

Guests at the announcement tea were greeted in the hall by Miss Emma Sue Cowden and Miss Frances Puett, each holding a white garden basket heaped with miniature bridal bouquets which they presented as favors.

Announcement In Bouquet

The tiny bouquets, made of white sweetpeas and maline, had white satin ribbon streamers to which were attached red hearts inscribed with the names "Dorothy" and "Clarence" and an arrow with the wedding date.

Mrs. Turner, Miss Turner and her fiancée's mother, Mrs. Ruth Scharbauer, were in the receiving line. Miss Turner was dressed in a white lace frock. Mrs. Turner in orchid lace and Mrs. Scharbauer in blue lace. Mrs. Lynn Durham, only sister

Dorothy Lee Smith Weds Bobby Dement

Dorothy Lee Smith, daughter of Mr. and Mrs. John L. Smith, was the bride in a wedding ceremony read under a flower-covered arch in the garden of Mr. and Mrs. J. C. Velvin's home Saturday night. The Rev. Howard H. Hollowell, First Methodist Church minister, solemnized her marriage to Bobby Gene Dement.

Miss Margaret Beatrice Wilson of Lubbock was the maid of honor, and Robert Skinner the best man. Jean Hawkins, niece of the bridegroom, was the flower girl. Ushers were Dick Morrison and Fred McMurry.

The bride, given in marriage by her father, wore a Summer bridal frock of white imported organdy, the basque waist and full skirt trimmed with rows of tiny pin-tucks and the short sleeves puffed. Her hat of the same organdy had a touch of color in blue forget-me-nots. Her slippers were of white linen and she wore a necklace of white crystals.

Best Fetals In Path Miss Wilson's bouffant frock was of lavender organdy, worn with a matching poke bonnet and silver slippers. Both carried nosegays, the bride's of white carnations with blue maline, and the maid of honor's of pink carnations.

Carrying a basket of rose petals to scatter in the bride's path, the flower girl was dressed in pink, and wore a bandeau of pink carnations in her hair.

Members of the bride and bridegroom both chose navy sheer frocks, and navy accessories for the wedding, and both had corsages of white carnations.

The arch which was the setting for the single ring ceremony was twined with ivy and larkspur blooms in pink, blue and lavender shades. Hanging from the center was a wedding bell with white maline draped to the sides and caught with clusters of rosebuds.

Bill Velvin sang the pre-nuptial solo, "I Love You Truly," Jacobs-Bond. He was accompanied by Mrs. Joe Mims, pianist, who played "Always," Berlin, and "Because," D'Hardelot, then the traditional wedding marches and, during the ceremony, "Clair de Lune," Debussy.

Wedding guests offered congratulations and best wishes to the couple after the ceremony at an informal reception. The wedding cake topped by tiny bride-and-bridegroom fig-

ures, was served by Mrs. Y. D. McMurry after the bride had cut the first slice. Mr. James C. Velvin, Jr., poured punch, assisted by Miss Yvonne Bennett of Henderson. Miss Patsy Charlton was in charge of the registry. Others in the house party were Mrs. J. D. Dillard, Mrs. Harriet Shanks, Mrs. Henry Oliver, Mrs. John B. Mills and Miss Sharon Shanks and Mrs. J. C. Velvin.

White Flowers Decorate White stock and candytuft in a long rectangular arrangement were in the center of the table, with white tapers in three-branched silver candelabra on either end. A similar scale, was set between single tapers on the buffet. Green and white caken in wedding bell shape, green punch and mints repeated the colors.

Peonies and other flowers in bouquets over the house were white, except for a vase of red roses on the table in the library where callers registered.

Included in the house party were Mrs. Al Cowden, Mrs. Nelson Puett, Mrs. Tom Sealy, Miss Elizabeth Anne Cowden, Miss Jean McMillan, Miss Jane McMillan, Mrs. John Dublin, Mrs. Charles Goldsmith, Mrs. Ray Ford, Mrs. Charles Klapproth, Miss Carole Casselman, Miss Dorothy Faye Holt and Miss Norma Jean Hubbard.

Mr. and Mrs. H. N. Phillips returned Friday from a trip that took them first to attend the commencement exercises of Sewanee, Tenn., Military Academy as the guest of Jimmy Allison of Midland, one of the graduates, then to Baltimore to visit Mr. Phillips' mother and to Washington, D. C., and a visit with friends.

Mr. and Mrs. Bill Jarmon and children, Susan and Bill, will leave next Friday for San Francisco where Jarmon will attend the Optimist International Convention as a representative of the Midland Optimist Club. They will spend an additional week on vacation in California.

Mr. and Mrs. Bob Maddox left Friday for a ten-day vacation on the West coast. Miss Wilda Drake returned last (Continued on Page 3)

The table which held the wedding cake had a centerpiece of white and pink carnations with gypsophila, and at either end of the table was a cluster of rosebuds tied with white maline. White tapers burned in crystal candelabra. On another table the silver punch bowl was wreathed with gypsophila and fern.

Mr. and Mrs. Dement left after the reception on a trip to Colorado, and will be at home at 607 North D Street when they return. For traveling the bride wore a pink linen suit with white accessories, and white carnations in corsage.

She is a graduate of Midland High School, and recently returned home from North Texas State College, Denton, where she studied the last year as a music major.

Dement, son of Mr. and Mrs. L. Dement of Roscoe, was graduated from high school there. He is employed with the Southwestern Bell Telephone Company.

Out-of-city guests here for the wedding included his parents and Mrs. Rhodes Arnold of Roscoe, Mrs. J. D. Stewart of Waco, Mr. and Mrs. R. E. Haynie and Mr. and Mrs. D. S. Smith of Dallas, Mrs. Lamar Smith, Cornell Smith and Miss Billie Jo Watkins of Big Spring.

Presbyterian Youth Attend Ranch Camp Young members of the First Presbyterian Church here are attending a series of youth conferences being conducted this Summer at the Mo-Ranch near Kerrville by the Presbyterian Synod of Texas.

Gloria Anquith, Adele Blackman and Don Drummond are to leave Tuesday for the Senior Fellowship Conference. The Rev. R. Matthew Lynn, Midland pastor, will be director for this conference.

Charles Spivey, Sally Jean and Marie Seacor and Bobby Lynn attended the Older Fellowship Conference the last week at the ranch.

Marries Oklahoman

Mrs. Johnny Jones Johnston

Vacations In Full Swing For Midland Folk

With June not half gone, vacation season is in full swing for Midland residents, and every day sees the departure and return of numerous travelers to places near or far.

Dr. and Mrs. J. F. Gaines and Mr. and Mrs. W. M. Johnson left last week for Dallas, with plans for a fishing trip to Lake Texoma.

Mrs. Leonard Proctor, Mrs. Kyle Taylor and Mrs. Josephine Ligon have returned from a motor trip to Summerville, Ga., bringing Mrs. Ligon's aunt, Miss Annie Pitts, with them for a visit here.

Mrs. J. W. Carroll is due to return this week from a vacation spent principally in Beaumont, visiting her parents, Miss Louanna Roach will return from a trip to her former home, Memphis, Tenn.

Mr. and Mrs. E. P. Birkhead and son, E. P., Jr., left Friday for Corpus Christi to visit her brother. They will return the first of the week, accompanied by Camilla Birkhead, who has been a guest in her uncle's home, and Marion Sevier, who has been visiting with Lt. Ben W. Sevier.

Mr. and Mrs. H. N. Phillips returned Friday from a trip that took them first to attend the commencement exercises of Sewanee, Tenn., Military Academy as the guest of Jimmy Allison of Midland, one of the graduates, then to Baltimore to visit Mr. Phillips' mother and to Washington, D. C., and a visit with friends.

Mr. and Mrs. Bill Jarmon and children, Susan and Bill, will leave next Friday for San Francisco where Jarmon will attend the Optimist International Convention as a representative of the Midland Optimist Club. They will spend an additional week on vacation in California.

Mr. and Mrs. Bob Maddox left Friday for a ten-day vacation on the West coast. Miss Wilda Drake returned last (Continued on Page 3)

Cut Wedding Cake

Mr. and Mrs. Walter Lane are pictured cutting their wedding cake at the reception in the home of Mr. and Mrs. Jack Horne of St. Paul, Minn., following their wedding June 4 in the First Presbyterian Church of that city. Mrs. Lane is the daughter of Mr. and Mrs. Lee O. Manning and Lane is the son of Mr. and Mrs. Eddie Sims of Midland. The couple will live in St. Paul, where Lane is a student in an art school.

To Marry On June 18

Eva Louise Fry

June Wedding Date Is Set For Eva L. Fry

Eva Louise Fry has set June 18 as the date of her marriage to Paul E. Haskins, and the couple plan a wedding in the First Methodist Church here. Their engagement was announced informally last Winter, to member of Nu Phi Mu Sorority, of which Miss Fry is a charter member.

She is the daughter of B. M. Fry of San Angelo and Haskins is the son of Mr. and Mrs. Ernest Haskins of Wolforth. A veteran of Navy service and a graduate of Texas Technological College, he is employed as a geologist by the Mid-Continent Petroleum Corporation.

Miss Fry was graduated from high school and a business college at San Angelo and is an employee of Ralph Lowe and W. H. Black Drilling Company.

Complimenting the bride-elect, Mrs. Ted Pannin gave a garden party in her home, 1605 West Illinois Street, Saturday night. She carried out a color scheme of blue and yellow.

Guests were Mr. and Mrs. W. A. Taylor, Mr. and Mrs. Johnny Bizzell, Mr. and Mrs. Charles Snure, Mr. and Mrs. Verda Bartlett, Lily Mae Stovall, Mary Kathryn McDade, Pete Van Horn, Dixie Howell, and Ray Walker.

A reception followed the ceremony in the garden. The couple stood in (Continued on Page 3)

Bride In Morning Wedding

Mrs. DeWayne Davis

Hamilton-Davis Vows Repeated In Church

A morning wedding ceremony was read for Dorothy Hamilton of Midland and Stanton and DeWayne Davis of Midland, in the First Methodist Church at Stanton Saturday. The Rev. Howard H. Hollowell, pastor of the First Methodist Church of Midland, officiated.

The bride is the daughter of Mrs. Horace Hamilton of Stanton, and Davis' parents are Mr. and Mrs. Cecil Davis of Midland.

Horace C. Hamilton of Amarillo gave his sister in marriage. She was attended by Miss Allen Maxwell of Midland and the best man was Travis Lettner of Pecos. Serving as ushers were Marvin L. Taylor of Fort Worth, Cecil Hamilton of Big Spring, Delbert Downing of Midland and John Connell of Stanton.

An organ medley of "Love's Old Sweet Song," "Milk," "Believe Me, If All Those Endearing Young Charms," Moore; and "O Perfect Love," Barnaby, was played by Mrs. James Jones of Stanton. Duke Jernstrom sang, "Because," D'Hardelot, and "Always," Berlin, accompanied by Homer B. Meek, Jr.

The processional was to the bridal music from Wagner's "Lohengrin," played by Mrs. Jones, who continued with "Liebestraum," Liszt, as the wedding service was read. She played the Mendelssohn march as a recessional.

The couple repeated vows before an altar banked with palms, woodwardia and huckleberry leaves. White gladiolus, stock and majestic daisies formed a central decoration, with floor baskets of the same blossoms set on either side. Family pews were marked with the stock, plumosis fern and white satin ribbons.

White imported linen made the bride's dress, designed with a low rounded neckline, closely molded bodice scattered with motifs of Venetian lace, and flared skirt, street length. A picture hat of Tuscan straw and white linen sandals completed the costume, and her only ornament was a double strand of

pearls. She carried a cascade of Marconi daisies with shower of white satin ribbons and Esther Reed daisies.

The maid of honor was dressed in orchid linen, a frock with square neckline, fitted bodice and full skirt, trimmed with inserts of eyelet embroidery. Her hat was of white starched lace, and she carried a colonial nosegay of yellow majestic daisies tied with matching satin ribbon and showered with smaller daisies.

For her daughter's wedding, Mrs. Hamilton wore a black and white print silk dress with a large black straw hat and matching accessories, and a shoulder bouquet of red roses. Mrs. Cecil Davis was dressed in Summer black with all-black accessories and pink roses in a corsage.

A reception in the home of Mr. and Mrs. Edmund Tom followed the wedding. The couple, their parents (Continued on Page 2)

Kidnap Breakfast Is WMU Entertainment

The Terminal Baptist Woman's Missionary Union had a "Come as you are" breakfast in the home of Mrs. Paul McNeel recently. Members were "kidnaped" at a very early hour and were not allowed to change clothing or appearance before proceeding to the meeting place.

Attending were Mrs. Rex Carter, Mrs. H. M. Brunson, Mrs. Guy Havestock, Mrs. Carol Watson, Mrs. Earl Watson, Mrs. Luther Chambliss, Mrs. J. C. Love, Mrs. Ted Grissom, Mrs. W. L. Barnett, Mrs. Jerald Johnson, Mrs. E. McEllothlin, Mrs. Mattie Kirby, Doris Marker, Mrs. Ben Hardaway, Mrs. W. R. Provenance, Mrs. Roy Tumlins, Mrs. W. M. Stewart, Loquita McNeel, Patsy Johnson, Betty Watson and Barbara Ash.

The WMU also had a business meeting earlier in the week at the church, and seven attended.

STUDENTS HERE FOR SUMMER WITH MOTHER

Betty Jo Greene arrived Friday night from Boulder, Colo., where she has completed her Junior year in the University of Colorado, to spend the vacation with her mother, Mrs. J. L. Greene. Mrs. Greene's son, Jimmy, already is at home from Schreiner Institute, from which he was graduated this Spring. He accompanied his mother to Fort Scott, Kan., last week to attend the wedding of her niece, Norma Jean Stockbrand. They returned Friday.

Mr. Tuggle gave his daughter in marriage. A garden wedding and reception had been planned, and when rain drove the wedding indoors, the floral setting was arranged in the garden theme, with a background of greenery and Marconi daisies. Baskets of white gladiolus and candelabra holding white tapers were set on either side. Daisies and other garden flowers were used in the rooms.

Candles Are Lighted Douglas Stewart of Ozona, a cousin of the bridegroom, lighted the candles while Mrs. Ronald James played a piano medley of wedding music. She accompanied Duke Jimerson as he sang "Because," D'Hardelot, and Miss Neva Taylor of Fort Worth, who sang "I Love Thee," Grieg. The wedding marches also were played by the pianist.

Attending the bride as maid of honor was her sister, Melba, and Taylor Dameron of Van Horn was the bride's best man. The bride's brother, Greytan Tuggle, and her cousin, Donald Hamblett, served as ushers.

For her wedding Miss Tuggle wore a white organdy gown over taffeta, with a ruffle across the drop shoulder bodice and two wider ruffles at the bottom of the skirt. A lace cap embroidered with seed pearls held her illusion veil to her blonde hair, and she wore mits of lace and white ballerina slippers. A single strand of pearls was her only piece of jewelry.

Her bouquet was an orchid surrounded by white shattered carnations and stephanotis, with a shower (Continued on Page 3)

Reception Sunday To Introduce Painter

An informal "meet the artist" reception is to be held from 7 to 9 p.m. Sunday in the home of Mrs. N. A. Lancaster, 1705 West Indiana Street, to introduce Eror Utter of Fort Worth, painter and teacher whose work has been exhibited the past week in the Palette Club Studio and who will begin a Summer class in art Monday.

Interested persons are invited to meet the young Texas painter, who is coming to Midland under sponsorship of the Palette Club.

Just Like The Grownups

Music and dancing at the "Junior Starlight Roof" for a mere 18 cents admission. That's what's in store for New York youngsters this summer. The "Junior Starlight Roof" Club just opened a teen-age night club on its rooftop where boys and girls can dance and get soft drinks three nights a week. Here, Walter Edward Monserrat serves one of tables.

MCCAMEY—Mrs. Bess Moorman and Mrs. J. L. Hanning are attending a state B&PW convention in Houston. Miss Myrna Holman, Upton and Reagan Counties home demonstration agent, will attend a 4-H Club Roundup at College Station following her attendance at the B&PW party in Houston. Mrs. J. R. O'Callaghan returned recently from Fort Sumner, N. M., where she visited her sister. The office of Dr. T. B. McClain will be closed June 12-20 while he is attending the National Convention of naturopathic physicians in Houston. Mrs. O. K. Furr, librarian, has announced the transfer of the Upton County Library to the front south wing of the new Community Building in McCamey. The library now is open to the public at its new location. Library hours are from 12 noon until 8 p. m. The Red Bluff Lumber Company plans to locate in McCamey. The proposed site purchased by the company is located east of Bur's Service Station. The property formerly was owned by Joe Hauser of Fort Worth. Recent visitors in the home of Mrs. Fred Gibson were her daughter, Mrs. R. E. Polinard, granddaughter, Carolyn Jo Cain, and Mrs. and Mrs. Victor Eckert, all of Corpus Christi. From Cartage, were Mrs. and Mrs. D. J. Jones, Mrs. Jones is Mrs. Gibson's daughter. Mrs. Luther Smith of the Humble Pipe Line Camp was reported to be in a satisfactory condition after undergoing major surgery at the Shannon Hospital in San Angelo Wednesday. The West Texas Fellowship Circle of the Methodist Church met in the McCamey Methodist church recently. Groups represented Iraan, Fort Stockton, Crane, Rankin, Big Lake and McCamey. Dr. W. Hal Cooper was named to replace Dr. James L. Cooper as City Health Officer at the regular meeting of the McCamey City Council recently. It was decided that the position be filled for six month periods with renewals coming at the end of each period. In addition, the council raised the health officer's salary from \$37.50 to \$100 per month. Another action of the council was to hire Attorney Charles Langdon to bring suit against owners of livestock who had not moved them outside the city limits by Wednesday night. The council also authorized Langdon to begin work on elimination of outside toilets in the city. Members of the council present at the meeting were Mayor C. W. Brown and councilmen E. F. Matejovsky, Jimmy Boyd, George Ramey and James Rutherford. The polo "close barn" was to have been lifted Friday noon according to Mayor C. W. Brown. The action was taken on the recommendation of City Health Officer W. Hal Cooper. Recent Odessa visitors were Mrs. Ross Smith and daughter, Donna. Mrs. Walter Putman and daughter Pat, and Janet Pauley.

Guests Entertained At Phil-Club Dance

The Phil-Club met Friday night for its monthly dance in the American Legion Hall. Guests present were Mr. and Mrs. O. H. Hardy, Mr. and Mrs. Claron Madson, Mr. and Mrs. George Grimm, Mr. and Mrs. Bob Wortman, Mrs. Ruth Sterling, Mrs. Gen. Watts, Mrs. Tina Buck, Al Gleason, Bill Drake and Ed Kerr. Members present included Mr. and Mrs. Dean Corley, Mr. and Mrs. Jack Firtenberger, Mr. and Mrs. Fred Forward, Mr. and Mrs. Bob Roach, Mr. and Mrs. Owen Thomas, Miss Betty Weekes and Ed Hal-fast.

Presbyterians Will Hold Summer Night Services In School

The Sunday night service of the First Presbyterian Church will be conducted in the West Elementary School auditorium instead of in the Trinity Episcopal Church as has been custom for several months. The Rev. R. Matthew Lynn, pastor, will continue a series of sermons based on "Great Texts From the Gospel of John." Morning services of the church are held in the school auditorium while the church building is being remodeled. Night services have been held jointly with the Episcopal congregation, which has only morning services in the Summer months.

Hamilton-Davis Vows—

(Continued From Page One) other accessories in rust and white and a corsage of Army roses. When they return from Colorado they will be at home in Midland. Both Employed In Midland. Mrs. Davis is a graduate of Stanton High School and attended a business college in Tyler. For several years she has been employed by the law firm of Klapproth and by the law firm of Midland. She is a member of Beta Sigma Phi Sorority and a past president of the Xi Theta Chapter here. Davis attended the University of Texas and was graduated from North Texas State College, Denton. He served in the Navy with the rank of lieutenant, and saw duty in the South Pacific during World War II. He now is assistant manager of the Midland Chamber of Commerce.

MIDLAND RECRUIT IS AT CAMP CHAFFEE, ARK. CAMP CHAFFEE, ARK.—Recruit Elbert F. Chennault of Midland, Texas has been assigned to the Fifth Armored "Victory" Division for eight weeks of basic training. Reactivated July 6, 1948, the Fifth Armored "Victory" Division hung up a brilliant war record in six European Campaigns during World War II. Before entering the army, Chennault was employed by the Texas Highway Department as a surveyor. He now is assigned to Btry. "A", 71st Armored Field Arty. Bn. Advertise or be forgotten.

SHOPPING 'ROUND TOWN with BARBARA

Plastic Garment Bags—

Now, stronger, longer, plastic garment bags in rainbow colors to make your closet fresh and bright—to save your clothes from dust, moths and light. These beautifully tailored bags are made of extra heavy plastic that can't be hurt with most chemical fumes. Moisture, mildew, and dust resistant, they come in different sizes. Hurry to MIDLAND HARDWARE LINEN DEPARTMENT and select yours soon before they are gone.

They're All Alike—

Yes, when it comes to gifts men are all alike—and your own Dad is no different! They like to be remembered with something special for them—a personal gift that expresses your love and consideration. To help you make your Dad happy on this special day, THE BOOK STALL has assembled a variety of gifts for Father's Day. They include books on sports and travel of special interest to men, such as, "Great Outdoors," "Wild Animals of the World," and books on golf, gun, baseball and fishing. Photo albums, book ends, desk pads and many other gifts are available.

Why Can't A Woman Keep A Secret?—

The story of Merle Norman's "different" skin-care has traveled wide beyond a woman's toilettries. Keep a secret—but who wants to hide a soft, vitally alive, youthful looking skin? You can share this beauty secret. Call THE MERLE NORMAN STUDIO, 1387, or visit the studio at 405 West Wall and arrange for a free demonstration. Your own skin will tell you Merle Norman is a secret too wonderful to keep.

He's Your Pal—

Let's make a fuss over FATHER. He has been your pal since the day you were born. Remember when he used to help with your "home work"? Now is the time to show your appreciation with a gift specially for him. CAMERON'S has men's toilettries in "His" and Courtney's that are recognized as the world's finest. He'll be thrilled to own the smart containers with golden horse head closures. Other gift suggestions from Cameron's are, electric razors, genuine leather billfolds, fountain pens and cigarette lighters.

Imported Crystal—

Beautiful new crystal is featured at MIDLAND HARDWARE GIFT DEPARTMENT. It is Royal Brister Crystal, imported from England. It's the ultimate of charm and simplicity. Get a start of it and add to it later. The smallest piece would be a brilliant gift holding enchantment to the eye and rare durability. It is a pattern of heirloom quality that you can add to as often as you like. You'll want it for your own and to give.

For A Man's Man—

The toilettries that a man's man goes for are Courtney Toilettries, featured at DUNLAP'S. Ideal gifts for Father's Day, they come in matchless containers of gold, maroon, black, green and white porcelain. Courtney Cologne adds the perfect masculine touch to good grooming—a fine cologne for stimulating freshness. Courtney Deodorant Cologne is a "must" for careful grooming that assures day long out-of-doors freshness. Courtney's spicy greasiness hair dressing keeps hair well groomed and natural looking. There are many others.

Time To Remember Father—

Father's Day is a week from today! No better time than now to give Dad a gift of sleeping pleasure and comfort—a handsome pair of pajamas from TAILORFINE. There are bachelor styles in Britany Batiste and Win O Spun and sleeping shorts with or without short sleeved tops. Smart styles in Vericoloc by Manhattan, Siltex (a very fine sheer cotton) and knitted jersey by Munstingwear are also available. All styles come in a beautiful range of colors.

Leather Accessories For Dad—

Whether Dad is a traveling man or a "stay-at-home," CARL'S has such a wide selection of gift-ideas that you're certain to find just the one that will fit best into his way of life—a useful gift that he can enjoy using daily and again, provide for his Summer travel needs on Father's Day. He would enjoy a fitted travel case of genuine cowhide, a fine hand tooled billfold, leather clothes brush, manicure set, cigarette case, luggage or any of the many beautiful quality leather items at Carl's.

Think Of Him—

He's hoping you'll see this ad and remember to give him a Father's Day gift from WOODFORD DRUGS. He hopes you'll choose Old Spice Toilettries for men. They come in attractive containers of masculine design and it's superior quality has made Old Spice the leading men's line. There is cologne, soap, shave lotions, talcum, deodorant, shave cream and many other products. He'll be delighted with the broad scent. Old Spice is recognized by the ship design on the handsome containers.

For Her Bridal Bouquet—

She'll exclaim with pleasure when she sees her bridal bouquet from BUDDY'S FLOWERS. You can trust Buddy's to make the special bouquet for the special occasion. And whatever the occasion, take flowers home. They brighten the home, impress guests and bestow pleasure in many ways. A member of F. T. D. Buddy's Flowers is prepared to fill all floral needs and make prompt delivery. Wire orders also accepted.

Follow The Crowd—

Everybody's talking about DAIRY QUEEN. You've probably heard what they're saying about that marvelous new taste thrill. It's the most popular frozen dessert on the market because it's rich, creamy and chock full of wholesome goodness. Just follow the crowd out West Highway to the Dairy Queen factory. Takes home enough for second helping—they'll E-Z-A-L-I-Y like it! For festive occasions and family treats serve Dairy Queen fresh from the factory, where you can buy any quantity for home use. Or, drive out and meet your friends there.

Father Is King For A Day—

Next Sunday is Father's Day! Remember your Dad with a fine gift from KRUGER'S tremendous selection of quality items. There are handsome billfolds, electric razors, tie chain sets, pen and pencil sets, watches, watch bands, birthstone rings, travel clocks, luggage, cigarette cases, key chains, radios and many other fine gifts. He will be happy with any of these quality items that will bring him pleasure for years to come.

Facts For Faces—

The fashion now is a clean, glowing, youthful skin, without the aged appearance caused by dirt and grime. First is the necessity for absolute cleanliness, second the development of a smooth, firm, fine-textured skin, third, a healthy skin, able to eliminate waste naturally, without enlarged, clogged pores. These results come from a thorough deep pore cleansing and re-growth of new tissue by DERMACULTURE. This is Electro-Chemical Therapy, available at 1300 West Wall. This method requires very simplified home care, using Derma Culture skin correctives.

Expert Carpet Laying—

When you select carpets for your home you choose good ones; therefore, you want an expert carpet layer to put them down. PETERS' CARPET LAYING COMPANY, 306 North Main, specializes in carpet laying and custom made drapery rods. G. C. Peters will make and install these rods in any size you prefer. You can get the overlap rods for glass curtains and Mr. Peters will make up double rods curved or straight. You can also get heavy duty rods.

Paint Up—Fix Up—

Enjoy the bright, gay tints, the soft, subtle shades of Cocks Paints and varnishes in your home. Walls, woodwork, floors and furniture gain new life and beauty with these authoritative hues. Exterior painting not only beautifies but protects your property from deterioration. WESTEX GLIDDEN PAINT STORE will supply paint and men to do the work and you have up to 36 months to pay for it. Repairs, linoleum and venetian blinds can be included in this agreement.

From Tots To Teens—

Young fashions with a sunny outlook are featured at THE FASHION SALON. The store has just opened at the new location, 106 North Loraine and has a department for children, complete with everything they could ever need. There are sport suits with shorts and blouses for girls and boxer shorts for boys. Tiny midriff blouses are trimmed with rickrack. Denim play suits, cord and seersucker sun suits, shorts and halters are available for playing in the sunshine. Infant's department has gowns, dresses, handi pants, bibs and toys.

We're Old Fashioned—

We may be a bit old fashioned and slow to accept something "all its worth is proven to be" but we are willing to accept the reputation established by SERVICE GLASS COMPANY, 300 North Weatherford. When it comes to installing auto glass they're experts with plenty of experience behind them. Their work is efficient, their prices reasonable. Don't drive with a broken windshield or a shattered window. Just drive by their shop and you'll be delighted with their service.

Does He Play Golf?—

No longer will Dad have to carry his golf bag over the golf course. He can put it on the easy-to-roll cart and roll it over the fairways and greens. Members of the Ranchland Hill Country Club will be interested to know that MIDLAND HARDWARE SPORTING GOODS DEPARTMENT has a complete line of golf equipment including bags, cart, clubs. Your golf score will surely be par when you provide yourself with such excellent equipment. You'll enjoy your hours on the green when you stroll out with the smartest golf equipment available.

Motor Elixir—

There's no such thing as a motor elixir to give your engine permanent life. Average driving means parts will wear out or become poorly adjusted. Your car will be better, last longer, if you get new parts when you need them. EUBANKS AUTO PARTS, 114 East Wall, has a complete line of parts for any model automobile. If you're planning a vacation trip soon, get any needed parts and accessories here.

Expert Radio Repair—

Mid-West Motor Company, 107 South Colorado, announces that they have a new and very capable man in the radio department. Mr. E. W. Sparks, who recently has taken over the department is an expert radio man and can offer you complete radio service on automotive and home models. He is well known in Midland and invites his old customers and new ones to bring their radios to MIDWEST MOTOR COMPANY for prompt repair service.

Do Your Laundry Your Own Way—

Wash your clothes your own way and still have time to enjoy the Summer sun. THE MIDLAND WASH-TERIA saves your time—energy—nerves. There is plenty of soft water and for just a few cents you can rent a machine and wash your whole wash. This is more pleasant than letting the soiled clothes accumulate. Call 464 and reserve a machine for any time that is convenient for you.

For Memorable Occasions—

Luxurious cleaning—for moments that count the VIC CLEANERS, 413 West Texas. Their modern cleaning methods get all the dirt out—even stubborn spots. Their pressing is immaculate. Better, still, you get one-day service on all cleaning and pressing. Vic Cleaners is now under the management of Albert and Nell Polakoff. Have your winter clothes and blankets moth-proofed with their new moth proofing service.

Decorating Suggestions—

Would you like to have the advice of an interior decorator on your color schemes. Mr. Gates at GATES CABINET SHOP, is an expert on color. He follows interior decorating before entering his present business. He custom built furniture. He still gives suggestions and helpful advice to his customers. He will be glad to help you with your plans. His advice is authoritative and based on his own years of experience. Call 1481 or visit his cabinet shop, 413 West Kentucky.

Call 117!—

Just when you're right in the middle of an important task—but go the light! Perhaps some wiring is strong with your wiring. Call MIDWEST ELECTRIC COMPANY, 117, for prompt service. Improper wiring is dangerous as it causes many fires. When you need this kind of service, Midwest Electric Company is your "friend in need." Visit the company at 219 South Loraine for light fixtures. They specialize in fixtures and lighting service.

Midland's New Bakery—

Visit the new SNOW WHITE BAKERY, 106 North Pecos. Newly opened, the bakery has a complete line of cakes, cream puffs, cookies—just about everything in the bakery line you could think of, and they're simply delicious! Take home some of these goodies to treat your family. The bakery is completely modern and staffed to serve your bakery needs. It is beautifully decorated and the delicacies are attractively displayed. If you haven't been there, you've certainly missed a treat.

Seatcovers Repaired—

Keep up the appearance of your car. If the seat-cover become worn there's an expert service available at MILLER BROTHERS' TRIM SHOP, 114 East Wall (rear). They will take care of any repair jobs on any seatcovers made at their shop. On a full set of seatcovers for a sedan, they can replace the front seatcover, which often wears out before the back seatcover. This is done to match the back seatcover in design and fabric.

Mark The Date—

June 19th is Father's Day! Better mark the date. Here's a gift suggestion that would be sure to please Father on His Day. Give him a beautifully framed portrait for his den or office. SIMMONS' PAINT AND PAPER COMPANY has a nice selection of moldings and will frame any picture of your choice. Bird prints or other prints would be very appropriate for Father's den or office. Also, your own portrait framed would be a perfect gift for Father's Day. Choose a special frame and let Simmons' Paint and Paper Company frame it for a lasting gift.

Freedom From The Kitchen—

Who wants to "slave over a hot stove" these Summer days when you can get a whole meal already cooked at the MORRIS SYSTEM COOKED FOODS DEPARTMENT. You can take home roast, chicken, steak, barbecue or any other kind of ready cooked meat. There is a variety of vegetables, salads and desserts already cooked. This service allows you freedom from the kitchen and, of course, food is so much tastier when you don't have to cook it yourself.

Your Friendly Grocer—

Food, protected by refrigeration retains its health giving vitamins. That's why you'll want the fresh, crisp, attractive fruits and vegetables from the sanitary electric vegetable case at NORTH WEATHERFORD GROCERY, 710 North Weatherford. The modern market is equipped with the latest fixtures to give you the best in quality meats. The store carries a tremendous stock of popular brands of groceries. S&H Green Stamps are given with purchases. Open on Sundays, the store always is prepared to serve you. Hot barbecue is also available.

Room Galore To Freeze And Store—

The Aristocrat model 10 Westinghouse Refrigerator with colder cold is a marvel of modern refrigeration. See it displayed in the beautiful model kitchen at MIDLAND HARDWARE APPLIANCE DEPARTMENT. The great refrigerator-freezer combination stores 56 pounds of frozen foods and ice—quick freezes 43 pounds. Keeps butter just right and 18 pounds of fresh meat ready to use and 3/4 bushels of vegetables crisp and moist. The lift-out and drop-down shelves accommodate bottles and bulky objects.

Southome Living Room Furniture—

One thing we all have in common—at the end of a hard day we like to go home to a comfortable chair. That's where Southome furniture, featured at MIDLAND HARDWARE FURNITURE DEPARTMENT, stars. Flexatrol spring construction is guaranteed for 25 years or for the life of any upholstered furniture. Cushions and backs are of Springfield available with foamex Rubber filling over the springs. Hardwood frames are double dowelled and glued with corner blocks. In your choice of fabrics, there is no extra charge for having it made to order.

Quiet, Please!—

Rubbermaid Housewares, featured at MIDLAND HARDWARE HOUSEWARES DEPARTMENT, bring quiet, safety, more leisure and beauty to your home. The colorful Rubbermaid sink makes a safe dishpan out of your sink and keeps bottom of bowl smooth. Best of all, it's easy to clean. The heat-proof Rubbermaid stove mat adds working space to your kitchen. The big capacity Rubbermaid dish drainer saves chipping and scratching of tableware. Beautiful bath mat is slip resistant for real safety and there are Rubbermaid toilet top trays in soft, lovely bathroom colors that provide a safe, neat place for toilettries.

Colorful, Permanent Awnings—

Here's your round protection against sun, storm, rain—with custom made awnings and outside venetian type blinds and jalousies. These colorful, permanent awnings will add beauty and distinction to your home. Contact SHU-R-FIT VENETIAN BLIND FACTORY, 900 North Weatherford, for a permanent awning installation that retains its service and attractiveness through all seasons. You can add a Summer room to your house with outside blinds tailored by Shu-R-Fit Venetian Blind Factory, for your porch.

Charming Pin Up Lamps—

Good taste need not be expensive taste as is illustrated in the charming pin up lamps at MIDLAND HARDWARE GIFT DEPARTMENT. Of copper or brass with white glass globes or shades they lend quiet charm to your rooms. Get them in pairs or singly. They are priced \$6.95 apiece. These lovely lamps would make perfect wedding gifts for the brides or your list. They will blend with any decorative scheme, conventional or period.

New Singer Sewing Machines—

Now! You can have the latest styles for half what they'd cost in a store! A beautiful new Singer Sewing Machine will help you do it. Just when clothes are so expensive, your sewing can save you half—along come the finest Singers ever! Designed not just to sew, but to sew beautifully, surely, easily. Choose the model for your dreams tomorrow! Your SINGER SEWING CENTER has all models and is ready with lessons, notions, services to help you sew the newest smartest styles.

Better Bowling—

Only through experience can you develop a distinctive style. If you want to be a bowling champion, practice afterwards at PLAMOR PALACE. Skillful instructors will be happy to teach you the correct wrist movement, timing and precision involved in following through an expert approach. Bowling is the sport of all ages and it's a thrill to watch the ball glide smoothly down the alley for a strike. Free bowling shoes are furnished by Plamor for women and children.

Rug Cleaning Service—

Your carpets are the keynote of your decor. If they're dull and drab they detract from the beauty of your rooms. Clean, fresh rugs are an asset to interior decorating, so keep them dust free by sending them to SANDERS FURNITURE SHOP, 206 North Mainfield, for expert cleaning. To protect the edges from wear, Sanders Furniture Shop will fringe or bind them. This prolongs the life of your rugs and makes them appear more luxurious. Call 757 for pick up service.

Crushed Ice For Picnics—

There's nothing more musical than the tinkle of ice in a tall glass during these hot Summer days. You can have plenty of ice for your guests by ordering crushed ice from SOUTHERN ICE COMPANY. It is delivered to you in convenient paper bags. For picnics, too, these bags of crushed ice save a lot of trouble and muss. Ice is inexpensive. Order all you need. The telephone number is 5.

For Beauty And Durability—

No more moldy shower curtains when you have Plastron for your bath. Plastron shower curtains are featured at MIDLAND HARDWARE LINEN DEPARTMENT with matching curtains for the bathroom. There are 12 colors and this plastron material is also available in shoe bags, garment bags and bridge covers. With dust or bad this time of year, Plastron is the economical material for any use. Dress up your bath with Plastron for beauty and durability.

Factory Finishing—

Now you get a better automobile paint job in one day! At MURRAY-YOUNG MOTORS, LTD., a new bake-oven has been added to the body shop. Baked enamel auto refinishing saves you dollars and time! With this new method, they are able to give you the highest quality, durable, factory approved finish... scientifically applied by specialists. Every paint job is guaranteed for one year and there are 3,700 colors to choose from.

Surprise Your Family—

What could be more delightful than a heaping dish of rich, wholesome homemade ice cream on a hot Summer day? Get a White Mountain Ice Cream Freezer from MIDLAND HARDWARE and make ice cream as often as you like. There are 2, 4, 6, 8 quart sizes to select from. Hurry down there and select the size for your family's needs. The children will think you're the smartest "mom" in the world when you surprise them with their favorite homemade dessert.

## Methodist Vacation Bible School Will Start On Monday

The First Methodist Church Vacation Bible School will begin at 9 a. m. Monday and continue five days a week through June 24. Children from the ages of four through 14 are invited to attend. The Rev. H. H. Hollowell will be the dean of the school, with the Rev. Jim Pickens, assisting. Mrs. Clark J. Matthews will act as superintendent.

"My Home and Family" will be studied by the children in the kindergarten division. Mrs. Lloyd Campbell is the leader and Mrs. Frank True, Mrs. J. C. Merrett and Mrs. Thomas Nipp will be the teachers. Other Leaders, Teachers

Primary children will study "Friends at Home and in the Community" with Mrs. H. S. McFadden as the leader. The teachers will be Mrs. Noel Oates, Mrs. Charles Reeder, Mrs. Ellis Conner, Mrs. Jim Wilson, Mrs. Wallace Irwin, Mrs. J. P. Carson, Sr., Mrs. Roy McKee, Mrs. Stacy Allen, Mrs. Russel Lynn, Betty Frothing, Peggy Whitson and Royce Ray McKee.

The theme of the junior department will be "Friends at Work." Mrs. Ray Gwyn will head the group, with Mrs. H. H. Hollowell and Mrs. Joe Birdwell assisting. "Exploring the Bible with Intermediates" will be the intermediate group subject with Mrs. Bill Wyche, leader, Mrs. J. C. Ratliff, Jr., Guy Creighton, Mrs. D. A. Pass, and Mr. Pickens teaching.

## Garden Rites

(Continued From Page One)

of Stephanotis caught on white ribbons.

**Reception After Wedding**

The maid of honor had a dress of powder blue organdy, fashioned identically to that of the bride and worn with blue mitts and shoes. Her bouquet was of white and blue shattered carnations, the same flowers used for a coronet headdress.

Mrs. Tuglie wore a grey and blue print dress and Mrs. Dameron was gowned in powder blue. Both wore corsages of gardenias.

Other friends joined the wedding guests at a reception after the ceremony. Members of the wedding party and parents of the bridal couple were in line.

After the bride had cut the four-tiered wedding cake, Mrs. Wayne Farley served it, and Edwina Hood poured punch. The table, covered with lace over blue, had a centerpiece of Maroon daisies and white candles.

Miss Wynndel Tuglie of Kermit, the bride's cousin, was at the registry, a book made and decorated by Mrs. Guy Hargraves of Merton, aunt of the bridegroom, and used as a guest book at all the pre-nuptial parties. Mrs. James played piano selections during the reception.

**Travel In New Mexico**

Also in the house party were Mrs. Hamblett, Mrs. Shirley McClinton, Mrs. J. T. Gist and Mrs. Edwin Lynch of Denton. All wore corsages of white shattered carnations. Mr. and Mrs. Dameron left on a trip through New Mexico, and will be at home when they return in their newly-completed house at 1806 South Loraine Street. For the trip the bride wore a two-piece dress of steel grey linen trimmed with eyelet embroidery, a white hat and other accessories of green. The orchid from her wedding bouquet was worn as a corsage.

In addition to those in the wedding party and reception house party, out-of-city guests included Mr. and Mrs. T. J. Free of Fort Worth. The bride is a graduate of Midland Schools and has been employed by the Amerada Petroleum Corporation here. Dameron attended North Texas Agricultural College at Arlington after his graduation from Rankin High School, and served for a time in the United States Navy. He is an employee of the Rotary Engineering Company.

## MAKES FIRST TEXAS VISIT

Glorianne Mohan of Streator, Ill., is making her first visit to Texas as the guest of her two sisters, Mrs. Rollie Hargraves, 1200 West Washington Street, and Mrs. Pat Stanford, 809 West Louisiana Street. She was one of the first visitors with Pat Stanford, Jr., son of the Stanfords who was born just before her arrival in Midland.

Oklahoma is known as the "Sooner State."

## Keep Hair on the Acid Side For Glossy Curl, Says Expert

Hair which undergoes chemical changes for a permanent is the concern of Raymond Lee who has developed a non-alkaline lotion to restore natural acidity. The model who is ready to spray this lotion over her pin-ups will derive from its use a longer-lasting permanent, more lustrous hair.

By ALICIA HART  
NEA Staff Writer

Ever wondered why your hair goes limp and lusterless or lacks body? Or how a permanent wave affects your hair? Or what makes ends split or causes the discoloration when strands streak?

Answers to these questions, which are all reasons why hair misbehaves, come from an outstanding authority on hair and its care, Raymond Lee, who, because he has aided in the development of two popular home permanents and many hair-care products, has had to make a study of the reaction of hair. He says it loses luster and "life" when its natural chemical balance is upset.

The natural chemical balance, according to this expert, is acidic. When hair goes over on the alkaline side, trouble starts. "Keep the proper chemical balance of hair intact and you keep its luster, strength, and you keep it resilient and curl," warns Lee.

All permanent-wave solutions are alkaline in their reactions on hair, and, as Lee points out, must be powerful enough to penetrate the surface of the hair shaft.

"Permanent waves are necessary for recharging lank locks with bouncy curl but should be used judiciously and not too often," warns Lee.

To renew a permanent, a fresh wave must be added to what's left of the old. As a result, says Lee, the hair shaft becomes weaker and the fiber more porous. The result, as every disgruntled woman will testify, will be brittle, weak strands that break off or ends that droop or split.

Hair weakened by bleaches or dyes requires an expert's skill for successful curling. When discolorations occur, that plight, says Lee,

may be traced to the reaction of heat on metallic residues left on hair by rinses or dyes.

In an effort to lengthen the life of a permanent, Lee has developed a new and revolutionary type of lotion. This was created to restore the non-alkaline chemical balance needed in hair to maintain life, luster and "body." This lotion, which is neither a wave-set nor a lacquer, is a protein compound that is applied by spraying it on pinned-up curls.

Although the alkaline action of shampoos may make freshly-washed locks hard to dress, don't, warns Lee, use this as an excuse to skip shampoos. "Remember that hair is a porous fiber which catches and retains dust, oil, soot. Hair should be washed twice a week, if possible, and certainly no less than once a week," maintains this expert.

Certain products tend to make refrigerator dessert—such as ice cream or mousses or sherbets—smoother since they help to prevent the formation of large ice crystals. These are gelatin, corn syrup, evaporated or condensed milk, eggs and marshmallows.

## Traffic Enforcement On Missouri Street Asked In Petition

A petition, signed by 84 persons residing on West Missouri Street between the 400 and 2100 blocks, is urging that "proper action be taken to enforce traffic rules and regulations on West Missouri Avenue between Colorado Street and the Midland-Odessa highway," has been filed with city officials, sponsors of the measure said Saturday.

The petition points out there are no traffic signal lights or stop signs along that part of the busy thoroughfare and that an unusually large number of traffic accidents have occurred on West Missouri Street in the last several months.

The West Elementary School is located in the 2100 block on West Missouri.

The petitioners ask that steps be taken immediately to avoid additional accidents and the possible death of youngsters.

## BACK ON DISPLAY

The British crown jewels, after long war retirement in bomb-proof storage, again are on display in the Tower of London, guarded by the latest burglar-proof devices.

## Vacations In-

(Continued From Page One)  
week from two weeks of traveling westward. She was joined in Yuma, Ariz., by her uncle and aunt, Mr. and Mrs. E. A. Haley, for the trip to San Diego and other California cities.

Nellie Clark will spend a two weeks vacation, July 18-August 1, in Abilene visiting her parents.

Mrs. Jack Jones and son, Jimmy, are visiting in Lufkin with Mrs. Jones' parents. They are attending a reunion of the family and will return Monday.

Lola Farnsworth will leave Saturday for Canadian where she will spend a week with her parents.

LaMoyné Tabor and Louise Harless will go on a conducted tour to Niagara Falls, New York City, Washington, D. C., Philadelphia, Atlantic City, and Mount Vernon. They will leave July 29 to join the party in Kansas City, and will be gone about 10 days.

## RESTRICTED

English makers of domestic baths now are required to concentrate on one model, to save wastage. There are 998 different types of bath in use at present, ranging from miniature swimming pools to hip-baths.

Read the Classifieds.

## Hale Vows Read At Abilene-

(Continued on Page 3)  
the receiving line with Mr. and Mrs. O. H. Jones, Mr. and Mrs. E. Johnston, Mr. and Mrs. A. B. Morris and the attendants.

The lace covered table was set in the back of the garden. A basket of cut flowers with candles on either side decorated the table. The three-tiered cake was trimmed in lavender and topped by a small basket and bride-and-groom figures.

**Guests For Wedding**  
Mrs. Walter Adams of Abilene poured the punch; Mrs. W. A. Matthews of Dallas served the cake and Miss Maureen Lamm of Dallas presided at the guest book. Other members of the house party were Miss Barbara Bell of Dallas, Miss Irene Phillips of Grand Prairie, and Miss Lila McNabb of San Benito.

Out-of-city guests included Mr. and Mrs. C. A. Tolbert of Pauls Valley, Okla.; W. A. Matthews of Dallas, Mrs. C. H. Rochelle of Midland,

grandmother of the bride, and Johnny Rhodes of Texarkana.

For going away the bride chose a navy and white crepe bolero suit with navy and white accessories. She wore an orchid corsage as the couple left on a trip to Galveston.

Both attended Abilene Christian College for two and half years. The bride was a member of the Geta Social Club and the Klison Klub. She has made her home here with Mr. and Mrs. Jones between school terms. She is a graduate of Polytechnic High School in Fort Worth. Johnston was graduated from Pauls Valley High School.

The couple will be at home in Ardmore after June 14.

## IT'S AN ALLOY

German silver is an alloy of copper, nickel, and zinc, first produced in Germany in the early 18th century, but used centuries earlier by the Chinese.

**Panhellenic Coffee Has Summer Theme**

The initial entertainment for the Midland City Panhellenic, organized this Spring to correlate the activities of the city's alumnae associations, was a coffee in the Private Dining Room of Hotel Scharbauer Saturday morning with approximately 100 guests. Daisies, flowers suggestive of

Summer, decked the room in a color note of yellow, white and green. A daisy chain around the edge of the table was caught at the corners with nosegays of the blossoms. The tablecloth was yellow. Surrounding the punch bowl was a base of greenery thick with daisies, and around the room were bouquets of Marconi daisies and yellow gladioli.

Callers during the two hours before noon were received by the Panhellenic officers, Mrs. A. E. Pettit, Mrs. Donald M. Oliver, Mrs. Raymond Lynch and Mrs. Frank Paup. Mrs. Sol Bunnell was at the guest book.

Others in the house party were Mrs. C. M. Lineham, Mrs. C. L. Chase, Mrs. Clifford Matthews, Mrs. Robert Bonnell, Mrs. Don Thompson, Mrs. R. E. Throckmorton, Jr., Mrs. F. C. Cummings, Mrs. H. A. Hemphill, Mrs. Lamar Eschberger, Mrs. Lamar Lunt and Mrs. Bill Beckers.

Mrs. Oliver was chairman in charge of arrangements for the coffee.

RANKINITES VISIT IN SOUTH TEXAS  
RANKIN—Mrs. John D. Hurst and son, Lonnie, are visiting friends and relatives in South Texas. Joe Tharp and John H. Becker of San Angelo were Rankin business visitors Thursday.

## June 25 Wedding Date Announced At Tea For Velma Cummings And Dwayne Bennett

PECOB — Announcing the approaching marriage of her daughter, Velma Jean, to Dwayne Bennett, Mrs. Herman Cummings was hostess at a tea Tuesday in the home of her parents, Mr. and Mrs. J. Q. Avery, at Barstow. Mrs. Cummings' sister, Bobby Avery, assisted her. The names of the couple and the wedding date, June 25, were inscribed on wide pink satin streamers caught with nosegays at the base of two huge silver rings that centered the refreshment table. Mrs. Max Stool was at the book.

## Wedding Plans Announced For Miss White

Mr. and Mrs. Gordon H. White, 1603 West Michigan Street, announce the engagement and approaching marriage of their daughter, Corlis Marilyn, to Ray Edward Osborne, son of Mr. and Mrs. George Shepherd of Muskegon, Mich.

The marriage is to be solemnized on August 30 in Dallas, where the White family will be residing. They are moving to Dallas next week. An informal chapel wedding is planned, with a reception afterward in the home.

Announcement of the engagement was made before the school term closed to Miss White's friends in the Kappa Alpha Theta house at the University of Colorado, where she and Osborne both have been students.

They are visiting his family in Michigan between terms, and will return to the university for Summer study. He is to receive a masters degree in the August graduation exercises, and she the bachelor of fine arts degree, Osborne, who had three years' service in the Marine Corps, attended Western Michigan College at Kalamazoo before his period of service.

## Teachers Plan Study As Part Of Summer Vacation Program

Vacation time for a number of teachers in Midland public schools will mean more school, but they will attend in the role of students rather than instructors. Summer study is planned in colleges of Texas and several other states.

Some will do their studying right at home, in the Midland Summer Workshop. The Workshop is an extension course arranged by the University of Texas, with study for credit in the university.

Schools chosen by the Midland teachers for their Summer work are as follows:

High School: Elizabeth Cope, Southern Methodist University, Dallas; Ruth Donnell, Texas Tech, Lubbock; Gwen Gordon, Verna Harris, Minnie Jackson, Helene Miley and Theresa Klapproth, University of Texas, Austin; Mrs. Elsie Magee, University of Iowa, Ames; Mrs. Inez Cheatham, Mrs. Josephine Parr, Josephine Weaver and Jack Maaburn, Midland Summer Workshop, Junior High Teachers

Junior High: Wilson Blurton, North Texas State College, Denton; Mrs. Hollye S. Friberg and Beas Thurman, Sul Ross College, Alpine; Hazel Lyles, Dorothy Mudd and Sybil Rutherford, University of Texas, Austin; Dorothy Perkins, Middlebury College, Bread Loaf, Vermont; Colleen Slaughter, Texas State College for Women, Denton; and Mrs. Opal Shew, Midland Summer Workshop. Ethel Chaudoin plans to study at Southwest Texas State College, San Marcos, or the University of Texas.

North Elementary: Mrs. Marivena Kemp, West Texas State College, Canyon; Annie P. Stout and Mary Louise Yoe, University of Texas; Mrs. Helena Grant, Mrs. Gus Peters and Mrs. Lucile McCree, Midland Summer Workshop.

South Elementary: Mrs. Doris Aldridge, University of Kansas, Lawrence; Mrs. Ruth Bedford, University of Houston, Houston; Dixie Lou Wilson, Baylor University, Waco; Lida Beasley, Mrs. Jack Ellington, Mrs. Minnie R. Martin and Mrs. Ida Stracener, Midland Summer Workshop.

West Elementary Faculty: Mrs. Faye Gilmore, North Texas College, Denton; Mrs. Grenade Peters, Sul Ross College, Alpine; Tommie Smith and Ova Webb, Midland Summer Workshop.

Terminal Elementary: Mrs. Laura Clemens, Baylor University, Waco; Mrs. E. E. Duke, Sul Ross College, Alpine; Mary Jo Kearns, Mr. and Mrs. John F. Wright, North Texas College, Denton and Mrs. Laverne West, Midland Summer Workshop.

Latin American: Susan Gayle, Northwestern State College, Natchitoches, La.; Mrs. Nova L. Campbell, Mrs. John Colvin, Mrs. Margie Kalhoefer, Mrs. Juanita Hickey and Mrs. Lucy Maaburn, Midland Summer Workshop.

Carver: E. L. Jordan, University of Colorado, Boulder; Mrs. Mildred Jordan, San Jose State College, San Jose, Calif.; and Mrs. Maxine Muldrow, Prairie View University, Prairie View.

Principals: Charles F. Mathews, W. D. Ladd, and Wesley N. Martin, Midland Summer Workshop.

## DOCTOR'S AMAZING DISCOVERY BRINGS QUICK IMPROVEMENT OF UNSIGHTLY SKIN TROUBLES

New "anti-biotic" formula shows amazing results; gets at externally caused pimples and skin eruptions; exposes and inhibits germs.

A group of doctors has discovered that in most cases of acne, with its pimples, blackheads, itching and other embarrassing skin conditions, there is an infection present due to certain types of germs. When these germs are exposed and their growth inhibited, skin conditions can be controlled as never before.

Today, this group of physicians has announced the discovery of a formula which does exactly that. This new formula, called ENCA CREAM, when applied to the skin, has a 3-way action:

- (1) ENCA's flesh-tinted film instantly hides unsightly skin blemishes, thus leaving a noticeably improved appearance.
- (2) ENCA's anti-biotic ingredients are held in contact with skin pores for hours to

## Parents Watch Kindergarten Program

Proud parents looked on recently as kindergarten pupils of Mrs. A. L. Armontrout presented a program for them. This program completed the regular term of the school. Pictured above, left to right, are Cindy Morris, June DeArmon, Ann Brennan, Mrs. Armontrout, Jody Gibens, David McCullough, Pamela Moss, Marjorie Barnard, Thurman Massey, Nick Lucas, Herman Massey, Diane Busby, Margaret Barnard, Judy Hollis, Joe Watson, David Watson, Kenneth Robey, Donna Robey, Mike Kriedel, Beau Bauer, Mrs. Jim Morris, Mrs. C. Kriedel, and Mr. and Mrs. H. Lucas.

## In For A 'Long Run'

Actress Daphne Anderson gives chase to her cartwheel hat, blown away by a gust of wind at the Theatrical Garden Party in London. The affair was held for the benefit of British stage and film charities.

## Bride-To-Be

Barbara Manning, Los Angeles socialite, will become the bride of Democratic Gov. Fuller Warren of Florida on June 26. The wedding will take place in the Westwood Community Methodist Church in Los Angeles. After a Florida honeymoon, the couple will live in the Governor's Mansion, Tallahassee.

## Wink Club Learns To Decorate China

WINK—The Yucca Home Demonstration Club held its June meeting in the home of Mrs. B. J. Walters recently.

Mrs. Clinton Ferrell, county home demonstration agent, gave a demonstration on painting china and glass. Everyone was given an opportunity to paint a pattern on a piece of china or glass.

Mrs. J. A. Ayers won the door prize, a spice cabinet.

Those present were Mrs. Bill DeMasters, Mrs. Lulu Cooper, Mrs. Ayers, Mrs. A. A. DeMasters, Mrs. J. W. Westbrook, Mrs. W. F. Ammons, Mrs. Edd Vaughan, and Mrs. Ferrell.

"Summer Deserts" will be discussed at the next meeting in the home of Mrs. W. F. Ammons at 2:30 p. m., July 7.

### Collegiate 'Father Of The Year'

Several years from now when John Rudich hauls out his old college graduation picture to show friends, this is what they'll see. Rudich, a 29-year-old Army veteran and father of seven, was voted the outstanding father of his 1949 class at Canisius College in Buffalo, N. Y. Here, Rudich holds his one-year-old twin sons, surrounded by his wife and five other children, ranging from seven on down.

### Easy Bob Is Best Summer Hairstyle

By ALICIA HART  
NEA Staff Writer  
Cutting alone will put your hair in good shape for Summer. By "good shape" is meant an attractive hair-do and one that can take ruffling of wind, the dampening effects of a daily swim and the minimum of fuss without protesting your neglect.

Victor Vito, New York hair stylist, promises all of this with for a style that takes nicely to scissor-shaping. Such a bob looks better when trimmed barber-fashion, which, according to Vito, is straight-across cut. Ends can be worn straight or can be curved easily over or under a finger.

This girl's new short bob is cool-looking and simply-styled for easy upkeep in hot weather. A simple basic cut. The more curls you can dispense with for Summer, says Vito, the easier it will be to turn your upkeep problem over to the scissors. The short bob with a neat bang above it is his recommendation.

Expert's warning: No amount of fancying up with curls, combs, ribbons or scarves will hide ends, whacked off by an amateur's scissors, or a bang that is allowed to grow shaggy. Keep hair in fine trim, bangs regularly snipped and ends cut blunt and short, and the straight-haired girl can sail through the Summer without a permanent, says Vito.

This stylist, who cuts bangs to make trade marks of these simple fringes, finds that the short-short bang leads a double life when it is combined with a side part. He tells his young customers to sweep bangs to the side when they want a change of effects.

### Ambadressress?

Mrs. Eugenie Anderson, Democratic National Committee woman from Minnesota, is expected to be named ambassador to Denmark by President Truman. If appointed, she will be the first U. S. woman ambassador. Mrs. Mabelle Kennedy and Mrs. Perle Mesta have also been mentioned for ambassadorships.

### Street-Roaming Dogs To Be Picked Up Starting Monday

City officials Saturday sounded a warning to Midland dog owners who allow their dogs to run loose. Starting Monday, City Manager, H. A. Thomason said, all dogs roaming the streets will be picked up and impounded regardless of whether they have license tags. A city ordinance prohibits dogs running loose, he stated. The ordinance provides that dogs be kept in enclosures. A secured man will be assigned, when necessary, to the dog pound truck to assist in rounding up stray dogs.

The city manager pointed out that two cases of rabies have been reported in Odessa and one at Midland Air Terminal recently. Dr. Tom C. Bobo, city health officer, stressed the fact that all dogs must be vaccinated for rabies even though they are kept in pens in compliance with the ordinance. A June 20 deadline has been set for the vaccination of all dogs.

### OUT OF HOSPITAL

John Cathey was discharged Saturday from Western Clinic Hospital where he was a medical patient.

In making a white sauce mix the fat in a saucapan, then remove from the heat before adding the flour. Now add cold milk gradually, with the saucapan still off the heat, stirring as you do so. After all the milk has been added continue to stir until there are no more lumps. A whisk is excellent to use for the stirring, but if you do not have one use a wooden spoon. A half teaspoon of salt is usually plenty for two cups of the sauce.

Children's Story Hour in the Children's Room of the Midland County Library will begin at 10:30 a.m.

Be sure to dry fish filets after you have washed them, using a paper or some other soft towel. To give the filets a delicious crisp crust, dip them in slightly beaten egg and cracker crumbs before frying, or in milk and corn meal. Lemon edges are a must when it comes to serving the filets.

### New Meat Loaf Fine For Summer

Two-layer jellied meat loaf is a hot weather buffet special.

By GAYNOR MADDOX  
NEA Staff Writer

Here's a recipe for a large two-layer jellied meat loaf, perfect for Summer buffet suppers. It is cool and appetizing with its spicy mushroom sauce. For everyday use, make either layer of the loaf to serve by itself.

**Jellied Party Loaf With Mushroom Sauce**  
One and one-half pounds luncheon meat (3 cans), 1 1/2 cups well-seasoned chicken broth, 1 envelope unflavored gelatin, 1 tablespoon grated onion, 1 1/2 pounds cooked veal or chicken, 1 envelope unflavored gelatin, 1/2 cup veal or chicken broth, 1 cup sour cream, 1 teaspoon salt, 1/4 teaspoon pepper, 1/2 teaspoon powdered marjoram, 2 tablespoons diced canned pimiento, 1 teaspoon moist horseradish.

Put luncheon meat through food chopper, using fine cutter. To 1/2 cup chicken broth, add the gelatin. Let soften for 5 minutes, then dissolve over very low heat. Add remaining chicken broth and the grated onion. Pour over the ground meat. Mix well and chill until beginning to thicken.

Mushroom Sauce  
(Makes about 1 1/2 cups sauce)  
Three-ounce can chopped broiled mushrooms, 1 cup catsup, 1 tablespoon prepared mustard, 1 tablespoon lemon juice, 1 teaspoon kitchen bouquet, 1 teaspoon sugar, 1/4 teaspoon salt.  
Drain mushrooms, reserving broth for use in soup or gravy. Chop mushrooms fairly fine. Add remaining ingredients to mushrooms. Mix well. Chill thoroughly. Serve with jellied party loaf.

### Flashbulbs Over Manhattan

The Air Force created this "string of pearls" over New York City in an aerial photography experiment. This time exposure shows the series of photoflash cartridges dropped by a B-17 bomber. The bright bursts of light, each representing 50,000,000 candlepower, were set off at intervals of about four seconds. They were accompanied by sharp reports, but forewarned New Yorkers calmly watched the show. (Photo by NEA-Acme staff correspondent Andy Lopez.)

### CITY COUNCIL WILL MEET TUESDAY NIGHT

Members of Midland's City Council will meet in regular session at 7:30 p. m. Tuesday in the City Hall, officials announced Saturday. Routine matters of business are scheduled for discussion and action.

**SMOKERS' FIRES**  
Careless use of matches and smoking materials is the greatest cause of fire in the United States, accounting for 29.26 per cent of all fires of known causes.

Never wash eggs before refrigerating them; if you do so you remove the "bloom" or protective mucous coating on the shell that is there when the egg is laid. Just before the eggs are to be broken out of the shell and used, however, they should be washed under cold running water.

### Church Musicians Go To Conference For Week's Study

Choir directors and organists from three churches of Midland will be in Fort Worth this week for the third annual conference on Protestant Church Music, to be conducted in the First Methodist Church there June 13-17.

Mrs. Frank Miller of the First Presbyterian Church and Mrs. Preston Lee of the Trinity Episcopal Church, each of whom is organist and director of the choir for her church; Don Moore, director, and Thomas B. Meek, Jr., organist, for the First Methodist Church, plan to attend the sessions.

Concentrated study of church music and its part in worship services will be offered in eight courses, including Choral Technique and Repertoire, Master Class in Organ, Religious Drama for the Musician and Total Music Program.

Instructors are nationally known musicians and teachers. Heading the faculty are Hugh Ross, conductor of the Schola Cantorum in New York City and teacher in the Berkshire Music Center; Barrett Spach, professor of organ in Northwestern University; and Deane Edwards, president of the Hyman Society of America.

### Station Manager

Earl C. Pace, formerly of Midland, has been named general manager of Radio Station WFTM, Front Royal, Va., according to information received here by his parents, Mr. and Mrs. J. W. Pace. He formerly was manager of Station WGLN, Glen Falls, N. Y. Pace was raised here and started his radio career while a student in Midland High School. He is a Navy veteran.

### Training Programs Slated By Midland's Logistical Division

Home station active duty training for members of the 467th Logistical Division are scheduled this weekend and next at the organization's headquarters at Midland Airpark, officials announced.

The program Saturday was "Organization and Function of a Division Staff." Lecturers were Maj. John Ross and Major Blankenship. Command post exercises will be practiced Sunday. The problem concerns the invasion of Normandy and deals with support and supply of a large task force. Latest directives from the commanding general's staff school will be used.

The programs for next weekend were not announced.

Col. H. W. Matthews is the commanding officer of the division, and Col. F. B. Whitaker is chief of staff. Other staff officers are Col. Luther Patterson, G1; Lt. Col. Paul Colleton, G2; Lt. Col. Walter Waine, G3; and Lt. Col. Raymond Lynch, G4.

### Pram Row Sports Tiny Handbags

Tiny fashion plates will swing doll-sized handbags this summer. The small traveler (left) fumbles for her fare in a round straw "hat" bag. A spectator sport plastic satchel is the choice of fence-leaver (center). Navy and white leather bag with out-sized rivets (above) was inspired by a pail.

By EPSIE KINARD  
NEA Fashion Editor

NEW YORK—Nickels, dimes and lollipops will travel this Summer in cool little handbags of straw and plastic instead of perspiring little palms.

That's the designing idea behind a collection of snappy little handbags for "happy little fly."

So hard to resist as such charms as doll-sized satchels of plastic, straw and fabric pouches, leather "pails" and "straw hat" handbags

are wisecracks old enough to clamor for such fittings as mirrors, notebooks and pencils and small change purses. One of two-toned saddle leather rather than its design from a sand pail.

A plastic calf satchel fitted with mirror, tiny change purses and a fancy gold clasp is another handbag style that will answer any Pram Row query as to what's smartest to wear with Summer's cotton prints.

le wisecracks old enough to clamor for such fittings as mirrors, notebooks and pencils and small change purses. One of two-toned saddle leather rather than its design from a sand pail.

A plastic calf satchel fitted with mirror, tiny change purses and a fancy gold clasp is another handbag style that will answer any Pram Row query as to what's smartest to wear with Summer's cotton prints.

### NO ARGUMENTS

The American Indian bridegroom showed respect for his mother-in-law by never meeting or speaking with her. This arrangement was believed to prevent quarrels.

### C. Of C. Directors To Meet Monday Night

The June meeting of directors of the Midland Chamber of Commerce will be held at 8 p.m. Monday in the Private Dining Room of Hotel Scharbauer, President R. D. (Bob) Scruggs announced Saturday.

Scruggs urged all directors to attend the session, stating that several important reports on matters of interest will be heard.

### FATHER'S DAY . . . JUNE 19

BOOKS . . . that you will be glad to give and a man will be proud to own.

BRAVE BULLS by John Lea. It is the unfolding of all the elements that shaped the drama of one bullfight, from its birth in the brain of an impresario to its full, unexpected flowering on a sunny afternoon in December . . . \$3.00

VOICE OF THE COYOTE by J. Frank Doble. The most peerless philosopher west and east of the Pecos, has now turned his learned and loving attention to a very American character, the coyote . . . \$4.50

SMOKE UP THE VALLEY by Monte Barrett. The rowdiest decade in Texas' violent history lives again in this turbulent story of passion, violence, tenderness . . . \$2.50

GOLDEN DOORWAY TO TIBET by Nicol Smith. His expedition to the top of the world, brought the author, lecturer and former OSS officer a store of adventures more remarkable than any other he has encountered . . . \$2.75

MAN WHO MADE FRIENDS WITH HIMSELF by Christopher Morley. His first novel in six years is as far outside his learned and learned best books as always been . . . and this surely is the best of them all . . . \$2.50

LOW AND OUTSIDE by Ira L. Allen and H. Allen Smith. A book of baseball anecdotes and oddities proving that anything can happen in a ball park . . . \$2.50

### TERMINAL TATTLER

By GENE CAMPBELL

Mr. and Mrs. J. E. Nelson and family are spending the weekend in Eastland visiting relatives.

Mrs. Walter Snead has returned from Dallas where she underwent dental surgery.

### McCamey News

**MCCAMEY**—Major and Mrs. Charles C. Rollins have arrived from Germany where he was stationed with the Army Engineers, in the occupation forces, for the last three years. They have been visiting Mrs. Rollins' parents, Dr. and Mrs. H. A. Steadman, and presently are in Fort Stockton where they are visiting Major Rollins' mother, Mrs. C. C. Rollins, Sr. They will return to New York July 3. Major Rollins will be stationed there. At a meeting of the McCamey Country Club directors, A. L. Ohlenburg, president, appointed Clyde Ash to fill the unexpired term of Left Williams as director. Williams was transferred to Winkler Station two weeks ago.

Mrs. Arthur Fleming and daughter Beth Ann are visiting her parents, Mr. and Mrs. S. B. Ramsey, in Russellville, Ark. for two weeks. Mr. and Mrs. Don Donovan recently had as their guest Mrs. Donovan's niece, Sheryle Ann, Donna and Marsha Lee Schuyler of Winfield, Kan., Mr. Donovan's niece and nephew, Carl and Marlene Donovan of Berger, and Mr. and Mrs. Dalton Kincheloe of Albuquerque, N. M.

**Beak Injury**  
R. R. Collins of Rankin was treated at Cooper Hospital for a back injury. His condition was reported not serious.  
**Admitted To Hospital**  
Mrs. Doug Gilliland was admitted to the Cooper Hospital for medical treatment.  
**Ricky Hayes**, son of Mr. and Mrs. John Hayes, is a patient at Cooper Hospital.  
Mrs. J. A. Price underwent major surgery at the hospital here. She has been released.  
Mr. and Mrs. J. W. C. Hayes and son returned this week from a week's vacation in Corpus Christi and Kingsville visiting relatives.

### Cheese It, Boys, It's A Cop

Patrolwoman Anna Garrabrant, of Teaneck, N. J., who seven years ago became the first woman traffic cop in the U. S., demonstrates her traffic-directing ability, as she stops cars to let pedestrians cross the street. She also lectures to high schools and colleges on traffic safety.

### Booklet Gives All Information On Ways To Find Uranium; New Speculation Hoped

**By FRANK E. CAREY**  
**Associated Press Science Reporter**  
**WASHINGTON**—If you've got to have more than a pick and shovel and a hopeful heart to go prospecting for uranium—the "gold dust" of the atomic age.  
The atomic energy commission has come out with a booklet giving some of the low-down on how to search for uranium ore—the precious stuff that's used to make bombs as well as peacetime products of atomic energy.  
The whole idea of issuing the booklet, says the commission, is to stimulate more prospecting for uranium.  
But—  
You've got to bone up on a little geology.  
You've got to be a handy-man with a Geiger counter, an instrument for detecting radioactivity.  
And, it would be a big help, too, if you'd load into your modern covered wagon such gear as ultra-violet lamps, photographic plates or film, a metal key, an instrument called a "scintilloscope" and another called an "electroscope."  
All of these are aids in spotting the pay dirt.  
**Goes Into Detail**  
The commission's 123-page booklet goes into some detail on how to detect the stuff and how to identify it when you find it, but it gives only very general information on the big question: Where?  
That's something the AEC boys would like to know themselves.  
The commission has even set up a kind of jackpot to encourage modern 49-ers to get in there and dig. This is a bonus of \$10,000 for the discovery of a new deposit, and the production therefrom of the first 20 short tons of uranium are assaying 20 per cent or more uranium oxide.  
You can buy the booklet for 30¢ or from the government printing office. Those three dimes may put you in the chips, because the AEC promises to pay a minimum price

of \$3.50 a pound for uranium oxide.  
Here's a little on the detection tests described in case you want to start laying in equipment:  
A Geiger counter gives audible "clicks" when there's radioactive material nearby. But you've got to get some fairly big-league clicking before you can be certain the trail is hot. Cosmic rays in the atmosphere can activate the instrument, too, and these may fool you. (Remember: you can't sell cosmic rays.)  
**Take To Dark Room**  
If you find some rocks you think might contain uranium, take them into a dark room. Put a metal key on some photographic film and then lay the rock on top of the key. If you get an image of the key on the developed film, you may be well on your way to paying off the mortgage.  
Another test: If your mineral glows under ultra-violet light, you may have made a strike.  
The "scintilloscope" is an instrument that produces bright flashes of light from radioactive material.  
The "electroscope" is a gadget that has two leaves of gold which come together in the presence of radioactivity.  
Will an AEC cop be after you if you go searching for uranium some place other than your own property? No—  
**In Several States**  
Open to prospectors for uranium and thorium (another radioactive material) are the "vacant and unappropriated public lands" in the states of Arizona, Arkansas, California, Colorado, Florida, Idaho, Louisiana, Mississippi, Montana, Minnesota, and the Territory of Alaska, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming, Nebraska, Nevada, New Mexico. So are certain national monuments and one national park—Mt. McKinley.  
You can even dig on your neighbor's land, if you get his permission. If you make a strike on a public land and establish a claim, the commission reserves the right to go in and remove the uranium or thorium itself. It says this right "protects the government from, among other things, a claimholder's refusal to work a deposit."

## New West Conquers Old In Vast Multi-Million Cattle And Oil Empire

**BAKERSFIELD, CALIF.**—(AP)—Picture in your mind, if you can, a place where:  
Cowhands live in modernistic bungalows.  
Where a monocled Englishman rides off rounding up dogies with the enthusiasm his ancestors rode to the hounds.  
Where the Old West in the form of Longhorn steers rubs shoulders with the New West as represented by oil derricks.  
It sounds like something you'd see in a movie, except that even the bravest film writer wouldn't have the courage to throw such a can go 100 miles north of Hollywood and find it in real life, here at Bakersfield, capital of a vast cattle and oil empire known as the Kern County Land Company.

The Kern County Land Company stretches across four states. It holds more than two million acres in California, Arizona, New Mexico and Oregon. Originally a cattle outfit, it now gets most of its money from oil brought in on its vast properties by virtually every major oil company in the United States.  
Although it still owns 56,000 head of cattle, earnings from oil now account for 88 per cent of the company's 1948 income, before taxes, of \$15,500,000.

The fabulous King Ranch of Texas, often called the biggest beef-producing ranch in the world, comprises 914,000 acres or 1,428 square miles—an area bigger than Rhode Island—split into five major divisions in eight South Texas counties. The ranch has 500 employees, 75,000 head of cattle, and about 20,000 head of horses to market annually.

(A tightly controlled family corporation headed by Robert Justice Kleberg and former Congressman Richard Kleberg, the King Ranch annually grosses from three to four million dollars in beef and breeding cattle sales, plus extensive royalties from about 400 producing oil wells, to earn an estimated income of about a million dollars a year net before taxes.)

**Study In Contrast**  
Because of its size, the Kern County Land Company is a study in contrast. It's quite a sight to see Maj. John B. Fermoer-Hesketh of Easton, N. Weston, Tex., standing against a corral conversing with high-booted, dust-caked Cathrino Reese, who at 69, still is one of the ablest cowpokes in these parts.  
Hesketh is a director of the company. He also owns one of the few large estates in England, some 16,000 acres. Hesketh spends several months a year surveying his interests in this country, much of the times in a saddle.  
Reese, who has been working for the company since 1896, has his own accent and his own traditions, inherited from the Old West. One such tradition is that a man says as little as possible, and that softly.

The history of this little-known company began in the 1870's, when J. B. Haggin and Lloyd Tevis began acquiring cattle land in the San Joaquin Valley. In 1890 they incorporated their holdings into the Kern County Land Company.  
They also bought land in Arizona, New Mexico and Oregon. Their plan was to maintain large breeding herds on those semi-dese-

ert ranches and send the weanlings to Bakersfield for fattening. This practice is still followed and the company annually markets 18,000 head.  
Only three descendants, one of whom is Hesketh, still are connected with the company. Hesketh is a Tevis descendant, Louis Lee Haggin II, Versailles, Ky., and John M. Preston, San Mateo, Calif., spring from Haggin stock. All three are directors.  
Around Bakersfield the company owns some 400,000 acres of cattle, farming and oil land. It has two

blocks in New Mexico totaling 750,000 acres—some southwest of Deming and the other near Hot Springs. In Arizona, the company owns 111,000 acres near Tucson and 600,000 north of Prescott. North of Lakeview, Ore., it owns a 142,000-acre tract. All the land outside of California is devoted to cattle.  
The company, which speaks of land by townships (23,600 acres) rather than acres, has never attempted to appraise the value of the land it owns.  
Currently there are some 10,000 stockholders holding two million shares of the \$5-per stock, which is selling for about \$40 a share.  
**No Collective Control**  
No one person holds a majority of stock, nor do the Tevis and Haggin descendants own enough collectively to control the company, says Thomas J. Davis, Jr., assistant to president John T. Pigott of San Francisco.

"In an operation of this size," says Davis, "there always is the question 'is bigness badness?'"  
"We don't think so. The company gets more cattle, potatoes and other crops to market than smaller operators could on the same land."

"A big-scale operation such as this is better for the community and for the land itself. We have created jobs, we have improved the land and brought water into arid country through some 800 miles of canals."  
Signs of the times can be noticed in various activities of the company. Time clocks have been installed on the huge tractors and earthmovers. Carl Melcher can sit in his air-conditioned office in Bakersfield and tell by glancing at a time clock record sheet how many hours cat-skinner George Chamberlain worked last week. He can even tell whether the tractor was actually moving dirt, or whether it just had its engine running.

Out in the range cowboys no longer make the long, spectacular, beef-consuming drives of yesterday. The company has found it is cheaper to haul the cows around in diesel-powered trucks. Cattle stay plumper that way.  
Even the old wooden bunkhouse, famed in movie and song, is vanished. In its place is rising a barracks-like building with a separate room for each cowpoke—modern as next month's issue of an architect's magazine.

Frankly, the old-time cowboy doesn't think much of his new home. "Who can sleep in a room like he can't hear the other guys snore?"  
Persons interested in enrolling in the ERC may contact the recruiting office on the third floor of the courthouse or Colonel Lowden at Midland Airport.  
Veterans and high school graduates are eligible for ERC training.

**Col. John M. Hilsher**  
Colonel Hilsher, Texas State recruiting officer, who came to Midland to assist Col. R. R. Lowden, ERC instructor, in staging the campaign, said it was one of the most successful and most enthusiastic recruiting events staged in Texas this year. He expressed appreciation to all individuals and organizations for their fine cooperation and assistance. The recruiting officer left Sunday morning for El Paso.

**W. B. Harkrider Gets Life Insurance Award**  
W. B. (Bill) Harkrider of the Southland Life Midland Agency has received the National Quality Award for 1949, according to an announcement made by W. C. McCord, president of Southland Life Insurance Company.  
The award is given to life insurance underwriters who qualify not only in the matter of large volume of life insurance written, but also in the matter of service to their policyholders and the quality of the business written. This award is made jointly by the National Association of Life Underwriters and the Life Insurance Agency Management Association.

**SOUTHWEST CC MANAGER GETS CHICAGO POSITION**  
**WASHINGTON**—Appointment of H. J. Dollinger as assistant manager of the Northern Central Division of the Chamber of Commerce of the United States is announced in Washington by Arch N. Booth, Chamber manager.  
The Chamber carries on much of its operations through its six division offices, headquartered in New York, Atlanta, Chicago, Dallas, San Francisco, and Minneapolis. Headquarters for the Northern Central Division are in Chicago.  
Dollinger goes to the Northern Central Division from Dallas, where he has served as assistant manager for the Southwestern Division since January, 1945, under Manager D. Hodson Lewis. He is well-known throughout the Southwest.

### Home-Building Boom Still Going Strong

**NEW YORK**—The home-building boom is still going strong and should continue through the remainder of this year, according to the findings of a Business Week magazine survey.

The magazine reports that all indications point to 1949 being the second-best year for postwar residential building—though there isn't much chance that it will top the 1948 record of \$28,000 starts. With any luck it will equal or better 1947's \$49,000.

"On that basis," says the publication, "home building will be a solid prop under general business during the next six months—a time when a prop is likely to be very welcome."

Dollar volume of home construction will be down more than the number of starts, the article explains, since construction is shifting rapidly to lower-cost dwellings.

**Hard To Compare**  
"It is hard to make a clear-cut comparison with previous years," the magazine continues, "because you can get more house for your money now than you could a year ago. Prices of new home are down perhaps five per cent on the average. And in the same period there has been a lot of improvement in the quality of the houses in a given price range."  
The article points out that most of the big speculative builders covered by the survey say they are going ahead with the plans they laid out at the start of the year. If they have made revisions, the changes are more often upward.

than downward.  
The real answer, the magazine adds, lies with the demand by the public. The big question now is not how many houses the builders can put up, but how many houses the public will buy since there aren't any more Y-potential production bottlenecks in the numerous fields of the building industry.

### Picturesque... But a Construction Obstacle!

West Texas has some of the most beautiful country in the world. Beautiful fields of wheat, cotton and many other crops that help feed and clothe the nation... and, too, it has picturesque canyons, rocky terrain, sunken lakes around which cattle graze and many other beautiful scenes comparable to any that a world traveler could describe.

Although beautiful—they are pipe line construction obstacles.

To maintain good gas service, pipe line construction and maintenance and repair crews cross many canyons and other natural obstacles.

This year we will invest over \$2,225,000.00 to build new pipe lines and other facilities. Several miles of these new lines will be laid in solid rock. This means dynamite crews will have to clear a ditch for the lines, but this will be but one of many construction obstacles they will overcome.

Pipe line construction and pipe line maintenance and repair are but few of many functions of West Texas Gas Company... all of which are designed to furnish good gas service, high in quality, low in price... the best bargain in your family budget.

Other facilities besides pipe lines are necessary to furnish good gas service.  
West Texas Gas Company operates seven compressor stations to maintain movement of natural gas through more than 1,700 miles of transmission and distribution lines.

**Midland Drug Establishes Record**

The Midland Drug Store, owned and operated by Barney Greathouse, last week filled its 250,000th prescription to establish a new and impressive record in Midland and vicinity. The large and attractive store is located at 122 West Wall Street, in downtown Midland. The firm has averaged more than 20,000 prescriptions a year during the last 12 years.

**Betty O'Neal Will Enter Dress In State 4-H Contest**

Winner in the Midland County 4-H Club Dress Contest, Betty O'Neal is leaving Sunday with other club members for the annual State 4-H Club Roundup at College Station. There she will compete in the state dress contest with approximately 100 other county winners.

Her dress will be entered in the "best dress" division of the contest, which also has divisions for school

Betty O'Neal

and wool suits. An award is made in each division, and the top winner will receive a trip to the National 4-H Congress in Washington, D. C.

Miss O'Neal made her frock of iridescent chambray which has changeable tones of pink, green and grey, and she will wear green accessories when she models it in the state revue.

She now is in her fourth year of 4-H Club work, and is a member of the Sunshine Makers Club. The daughter of Mr. and Mrs. B. E. O'Neal, she will be a Junior student in Midland High School next year. She has studied homemaking in high school, and won a merit award the last term for her work with the Future Homemakers of America Club, which she served as reporter and a delegate to the state convention in Dallas last month.

This is the third year for Midland County to have an entrant in the state dress contest.

**Program Plan Made By WSCS At Wink**

WINK—The Women's Society of Christian Service held an all-day meeting Wednesday in the recreational room of the First Methodist Church to outline a program for the coming year.

The Rev. George Ditterline gave details about meetings to be held on the Methodist Assembly Grounds at Sacramento, N. M. A picnic luncheon was served at noon.

Those attending during the day were Mrs. B. J. Walters, Mrs. Ora Lee Shutes, Mrs. Robert Stell, Mrs. W. F. Ammons, Mrs. Grover Orr, Mrs. W. T. Porter, Mrs. Howard Carr, Mrs. Hugh Sasser, Mrs. L. M. Feyen, Mrs. George Ditterline, Mrs. Joseph Best, Mrs. Carl Walker, Mrs. J. C. Oakley, Mrs. Edd Vaughan, Mrs. Glenn Frazier, Marjorie Orr, Marjlyn Frazier, Donald Orr, and Thomas Frazier.

The Portuguese man-of-war is a jellyfish made up of a group of small animals attached to a single float.

**Midland Drug Store Fills 250,000th Prescription**

The Midland Drug Company passed an impressive milestone last week by issuing its 250,000th prescription, according to Barney Greathouse, owner.

These 250,000 prescriptions were issued in a period of 12 years, an average of more than 20,000 per year.

The store moved into its present quarters at 122 West Wall Street eight years ago, and the building was remodeled last year. For four years it was located in the same block, a few doors east.

Four registered pharmacists now fill prescriptions at Midland Drug, including Greathouse, Bob Maddox and Joe Kelly, graduates of the University of Texas, and E. J. Phillips, a graduate of the University of New Orleans.

Greathouse emphasized the fact that only registered pharmacists fill prescriptions at the Midland

Drug. The department is open from 8 a. m. to 10 p. m. seven days a week. Every new medical product is stocked by the drug store even before a call is received for it. This policy is assurance to the physician and public that all prescription needs can be filled here, the owner stated.

Greathouse expressed thanks to the medical profession and to the public for cooperation and patronage for which he attributes the growth and success of Midland Drug's fine prescription department.

**MARRIAGE LICENSES**

A marriage license has been issued by the county clerk to Boyce L. Strickland and Mamie Henley, and Frederick J. Kern and Mary Kay Mikesell.

Officers of the recently-organized Welcome Wagon Newcomers Club met recently to plan the organization's second luncheon, scheduled for Tuesday in the Ranch House. Pictured in the home of Mrs. Lester G. Pierson, president, are, left to right, Mrs. Robert A. Bonnell, Jr., secretary, Mrs. Pierson and Mrs. John L. Brown, vice president. The club treasurer is Mrs. A. E. Puller. Mrs. Pierson moved to Midland lately from Oklahoma City. Mrs. Brown from Lafayette, La., Mrs. Bonnell from Tulsa and Mrs. Puller from Hollywood.

**High School Grads Urged To Consider U. S. Navy Training**

An invitation to high school graduates who do not plan to attend college to investigate the possibility of special training in a Navy school was voiced Saturday by Franklin Stewart, GMC, USN, district recruiter.

More than 60 major job fields are offered by the Navy, the recruiter stated. In addition to a good job which pays well, the Navy jobs also provide travel, adventure and a chance to keep active and engage in sports while building a career. Shanghai, Naples, Honolulu, Havana, Algiers and London are but a few of the centers which Navy trainees may visit. Navy schools also offer opportunity to receive college credits in spare time study. Food, clothing, medical and dental care, 30-day vacations and an early retirement with lifelong income are other inducements offered by the USN.

Full details may be obtained from Chief Stewart who will be in the basement of the Midland Post Office Monday to interview interested high school graduates.

**Midlander Is Subject Of Magazine Article**

Clarence Scharbauer, Jr., young Midland cattle and oil man, is the subject of an illustrative story appearing in the June 9 issue of the West Texas Livestock Weekly, published at San Angelo by Stanley Frank, former Midland newspaperman.

The story is by Sue Flanagan, who says, in part:

"In the heart of the Midland cattle country lives a second-generation cattle and oil man who at 23 carries one of the greatest financial responsibilities of anyone his age in the United States."

"He is Clarence Scharbauer, Jr., a husky six-footer with 10 ranches comprising 600 sections of land, and a veritable forest of oil wells, thousands of cattle, a hotel, radio station, and other interests."

Seven pictures accompany the article, which relates Scharbauer's life history, background, civic activities, business and personal interests.

LILLIAN KEE GIVES SPECIAL ORGAN PROGRAM

Mrs. Lillian Kee of Denton presented a dedicatory organ broadcast to Texas State College for Women recently over a Denton radio station, playing from the Little Chapel on the college campus.

Mrs. Kee has relatives and friends in Midland and plans to be here sometime this Summer.

Monarch butterflies are seldom eaten by birds because they have a bad-tasting chemical in their bodies.

**A Guy's Best Friend Is His Mom**

Neither presence of humans or bars of a cage keep a certain Mrs. Robin from feeding her baby formula on schedule. This baby bird (arrow) was rescued from a cat by Mr. and Mrs. Stephen Eva, Jr., of Cleveland, Ohio, christened Lucky and housed in an old bird cage to recuperate. Every 15 minutes, from 6 a.m. to 6:30 p.m., the mother bird flies from her nest, behind the Eva garage, through the open dining-room window, with a beak full of robin baby food for her young one.

**Farm Aid Programs To Hold Prominent Place In Campaigns**

WASHINGTON—Farm aid programs will occupy an increasingly prominent place in congressional election campaigns next year.

Secretary of Agriculture Brannan has suggested a plan that would put a floor under farm income. Government payments would be made direct to farmers if prices for some perishable products fell below a certain level. Non-perishables would be handled the same as they are now, through price supports.

In return the farmers would limit production, when necessary, and agree to use certain soil-conserving methods.

This plan has been attacked by most farm organizations, by some members of Congress and others on the grounds it would be too costly and would place farmers under too much government control.

But, leaving out this controversy over the details of a program, many housewives and other city people have asked why farmers need any government help at all.

**City Basic Reasons**

Why not let farm food prices find their own level and reduce the cost of living for city people? Brannan says these are the basic reasons some sort of a farm program is needed:

1. Prices of farm products are most sensitive to the law of supply and demand than the prices of most manufactured goods. There are so many individual farmers and so many factors to consider, that it is difficult for them to gauge their markets accurately and plant accordingly.

2. A study of the depression in the '30's showed what the Agriculture Department considers a definite link between national prosperity and farm income.

"Brannan says farm buying power is like the 'catalysts' you learned about in high school chemistry. A catalyst speeds up a chemical process.

"Farm buying power seems to have a similar effect in our present economic system," he said in an interview.

"He says it might seem to be an

**Land-Hungry Vets Can Start Looking At Plows, Tractors**

AUSTIN—Texas veterans of World War II who have a hankering to buy a farm or ranch can start looking at tractors, plows and livestock.

The state will sell a veteran a farm or ranch costing up to \$7,500 if he can plank down five per cent of the purchase price.

This back-to-the-soil deal became law Wednesday. The state has agreed to set up a \$25,000,000 loan fund with which to buy land for veterans who are tired of city life and think they can make a living in the country.

Here's how the idea is supposed to work:

A Texas veteran decides he wants to become a farmer. He (or she) finds a piece of land that the owner is willing to sell for \$7,500—maybe less.

The veterans writes to the veterans land board, care of the general land office in Austin, and explains what he has in mind. He must make his down payment at that time. The board will then have the title examined, the land surveyed and appraised. If everything is in order the board feels the land is worth the price asked, the board will buy the property and resell it to the veteran at cost.

He will have 40 years in which to pay off the loan. Three per cent interest is the top.

**TO SPONSOR PROGRAM**

The Terminal Home Demonstration Club will sponsor a program for children over KCRS Tuesday at 3 p. m., presenting Mrs. K. C. Heald, Jr., member of the Midland County Library staff. This is one of a series of programs sponsored by the Home Demonstration Clubs of Midland County.

advantage to a city housewife if she could buy eggs at 25 cents a dozen, pork chops at 30 cents a pound or five pounds of potatoes for 10 cents.

But he adds that if 5,500,000 farm families can't buy automobiles, fertilizer or furniture, factories have to slow down and city workers are laid off.

**Dirt, Squirt and Quirt**

— FARM, DAIRY AND RANCH NEWS —

Friday afternoon's downpour sure was of world championship proportions.

Your DSQ reporter thought he had seen hard rains in West Texas, but that was the hardest and fastest of them all. The rain perhaps came as near to being a true flash flood as anything we ever hope to see.

The extent of the damages to surrounding farm lands had not been determined at the time of this writing. Certainly the downpour was beneficial to the ranges and filled the lakes, creeks and watering places.

Replanting of cotton fields was in full swing last week over much of Midland County following the disastrous winds which destroyed crops in some sections the week previous.

Midland County Agent Hubert Martin said Friday the exact damage had not been determined, but it was extensive. Some fields were blown out completely while others appeared to have escaped serious damage. The crop damage was more extensive in some sections than in others.

Some farmers, Martin said, are debating whether to replant cotton or to plant feed stuffs. The cotton planting deadline is the middle of June while the feed planting season extends well into July. A number of farmers already have had to replant cotton two or three times this year.

Most Midland County farmers somehow have managed to get hold of enough cottonseed to replant their fields despite the reported seed shortage.

Farmers who were engaged in replanting were busy operating sand fighters following last week's showers. A sand fighter, it seems, is a long rolling device which stirs up the ground to keep the sand from blowing. It must be used immediately following a rain to obtain the desired results. Lots of fun—this farming in deep West Texas.

And on top of everything else, the county agent reports some cutworm damage in Midland County fields. The damage, he stated, is not extensive, but will be watching. The cutworms are working in spots, and in some instances only a small part of a field is effected.

A few careless worms also are reported in action in scattered sections.

While the farmers have their troubles the ranchers appear to be faring much better. Ranges are in fine condition and cattle and sheep are in excellent shape.

County Agent Martin and two of his 4-H club boys, Leland Howard, and T. O. Midkiff, will leave Sunday for the County Station to attend the annual Texas 4-H Club Roundup.

Narrow strips south of Courtney and south of Texas in Martin County reportedly were damaged severely by hail storms sometime last week.

And how fortunate are Midland and Midland Fair, Inc. in that Friday's deluge did not come a week earlier during the World Championship Midland Rodeo. The Sunday night nother was bad enough, but the flash flood would have been even worse.

The Sterling City Rodeo, entirely revamped this year, will be strictly amateur, whereas it formerly was open to the world. The show is scheduled June 23 and 24. It is sponsored by the Sterling City Rodeo Association. Events will include bronc riding, Brahman bull riding, steer wrestling, ladies' barrel races and calf roping.

Another amateur rodeo, an annual event, is scheduled June 23-25 at Winters. Porter Randall will do the announcing. A full schedule of cowboys events is planned.

Wild cow milking has been reinstated as one of the feature events of the 1949 Scurry County Rodeo to be held July 25-27 at Snyder, according to reports from that city. Double mugging will be dropped from the contests this year. In addition to the cow milking, other events include bareback and saddle bronc riding, bull riding, calf roping and cutting horse contest.

Dawson County has scheduled its 1949 fair for October 12-15, inclusive. The annual event is held at Lamesa. Counties touching or bordering Dawson will be invited to participate in the fair. These include Martin, Howard, Andrews, Gaines, Terry, Lynn and Borden.

Reports from Del Rio are to the effect that cactus plants in at least one section of Val Verde County are being killed by a bug. Entomologists have identified the bug as a cactus weevil (opuntia). Thus ends, if the reports are true, a long search for some effective method of eradicating and controlling cactus plants.

C. E. Miller of Fort Davis, a past president of the Highland Hereford Association, has purchased 1,400 head of registered Hereford bull calves from F. C. Mellard of Marfa at \$250 per head. The bulls all are half-brothers being sired by Mellard's herd bull, Musker Mischief 987th. The bulls are to be delivered in December. They are to be used on the Miller Brothers ranch south of Valentine.

An educational dairy field day is scheduled June 21 at Abilene Christian College's experimental farm at Abilene. The event will be under the joint sponsorship of the Abilene Milk Producers Association, the Abilene City-County Health Unit, the Extension Service and Abilene creameries. Purpose of the meeting is to better acquaint all parties concerned with the various phases of the huge dairy industry.

T. Elmer Bissell, veteran Midland County farmer, said Friday his fields south of Midland suffered little damage from last week's winds. His cotton fields had been worked a day or so before the blow. Bissell

said it has been an almost continuous job of sand fighting, but the hard work is paying off. Earlier this year, Bissell had had to replant two and three times. Elmer said he has prospects of a banner fruit crop this season.

Replanting of the cotton fields on the Cecil and DeWayne Davis farm to the southwest was completed late last week. The winds took out approximately 50 per cent of the crop the week previous.

George G. Chance, chairman of the Texas unit of the National Cotton Council, said recently at Bryan, that Texas cotton farmers would have been able to profit an additional \$61,368,000 if insects had not reduced the state's 1948-49 cotton yield approximately seven per cent.

Chance, in announcing initiation of a campaign by the Cotton Council to reduce damage to cotton by pests during 1949, said last year's losses in Texas amounted to an average of 4.1 cents per pound of lint harvested, and that insects claimed one out of ten bales produced.

"Pests last year kept out of production approximately 559,633 bales of cotton and an estimated 147,000 tons of cottonseed. Based on average prices, this lint would have brought farmers of the state some \$50,740,000 and the seed would have meant an additional profit of \$10,238,000," the Council spokesman added.

"Recommendations on how best to control cotton pests in Texas already have been issued. This information, which may be obtained from county agents or vocational agriculture workers, tell farmers how to apply potent insecticides which will control effectively such pests as the boll weevil, bollworm, pink bollworm, cotton aphid, fleahopper, thrips and others."

**"COLD LIGHT"**

The "cold light" produced by some luminous animals raises the temperature less than an ant's body of a degree Centigrade, according to the Encyclopedia Britannica.

The ant has two stomachs; one for himself, and the other for food to be shared with other ants in the nest.

**They're Growing Bald Cotton, Stiff Oats All For The Sake Of Machine Convenience**

WASHINGTON—(AP)—Plant breeders are designing new farm crop plants almost like automobile designers create new style cars.

They're doing this to build up resistance to disease and hardiness against bad weather—but also so that the plants will fit new and super-efficient harvesting machinery.

The scientists have produced a cotton with "bald" leaves that won't tangle in a picking machine, a round sugar beet that can be scooped up with a shallow digging machine, oats with shorter and stiffer straws that will stand up to a reaper.

Adapting still more crops to machine harvesting is one of 1949's major projects in plant breeding work. Much of this work is being carried on at the government's huge experimental farm at Beltsville, Md., near here.

The plant builders work with some materials they can't even see or identify, like genes.

Genes are units of inheritance in the life cell. They pass along certain characteristics, like tallness or resistance to disease, from parent to offspring.

Scientists don't know exactly where the genes occur in the cell, nevertheless they can catalog them.

Breeding experiments determine rather accurately which genes certain plants carry. In over-simplified terms, when plant breeders attempt to obtain certain characteristics, they study the catalogs and the plants and then breed new plants with these characteristics.

The plant breeders have succeeded in crossing a red garden beet, which is almost round, with the sugar beet. The result is an almost round-shaped sugar beet, streamlined for mechanical harvesting.

Spectacular things have been done with corn.

Farmers like to boast they live "where the tall corn grows," but tallness in corn can be costly. Scientists grew some varieties so tall that seed growers had to get up on stilts to reach the tassels.

You can't work with tassels that high, so the scientists obligingly brought the corn down to a proper and uniform height.

Uniform height corn also fits the corn picker, and its kernels are as good and nourishing as those of other corn.

Farmers also needed a new-style soybean plant. Some plants had

their pods so low the picking machines missed them.

Scientists juggled the genes of several varieties and produced soybeans that bear pods at just the right height.

One of the best examples of gene

juggling is the bald cotton plant. This work started with bug experts—not plant breeders. They wanted to eliminate the hair from cotton leaves because it harbored destructive insects.

But the hair also catches on cotton pickers and draws leaves and other trash into the machines.

Beltsville cotton breeders say it may add \$10 to \$15 to the value of every bale of bald cotton grown.

Ach! It's Der Zoab-Pox Derby

This is a German conception of what a soap-box racer should look like. Race fans gather around the three-wheeled, tub-shaped midget to give it the once over before the Nurnberg Derby, sponsored by the Geganan Youth Association and copied from the American idea, the derby drew a crowd of 25,000 along the rough, shell-marked course.

### Flying Tackle Ends Rampaging Of Deer

LANCASTER, PA.—(AP)—A flying tackle by a 33-year-old man ended a deer's rampage in the basement of a house four blocks from the heart of this Eastern Pennsylvania city of 61,000.

The 90-pound doe leaped through a cellar window into the home of Mrs. Dorothy Hahn and was jumping about frantically when Mrs. Hahn called a passerby, Anthony Mastriana.

The 65-year-old Mastriana went into the cellar, tackled the deer in football style, and used the animal with clothingline. The animal was taken to a woods outside the city where it was released.

### SLOW REACTION

The star Nova Hercules exploded centuries ago, but the light of the explosion did not reach the earth until 1934. At Christmas time of that year, the star became one of the brightest in the sky for a few days.

### Well, So Do Some American Students

HEIDELBERG, GERMANY.—(AP)—Nearly half of the 4,500 students of Heidelberg University are trying to live on one meal a day, the student association reports.

Like everybody else in west Germany, the students, mostly ex-military, lost nine-tenths of their savings and back accounts last year in western Germany's currency reform. Most of the students have not enough money to buy the food on their ration cards.

### BAPTIST MEN WILL MEET AT GATESVILLE

GATESVILLE — The Baptist men of Texas are celebrating the 40th anniversary of the organization in Texas of a men's meeting to work with the pastor and the church for the good of the church, community, stewardship, and missions. This first organization was in Gatesville, 40 years ago, and on June 23, men from all over the state will gather in Gatesville to celebrate this occasion.

MIDLAND, TEXAS, SUNDAY, JUNE 12, 1949

SECTION THREE

## The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1949, By The Bell Syndicate, Inc.)  
Drew Pearson says: Law Douglas makes deal with British on recognition of Chinese Communists; Ku Kluxers ask for accounting of Klan funds; U. S. urges British to devalue pound.

WASHINGTON—Despite a head-on eye Ambassador Law Douglas has concluded a long wrangle with the British for joint American recognition of the Chinese Communists. It won't be admitted officially, but the British wanted to recognize the Communists within two weeks after taking Shanghai. Motive: To save Hong Kong. Ambassador Douglas, however, acting on direct orders from Secretary Acheson, opposed and has succeeded in persuading the British to delay recognition until after the fall of Canton. The British have agreed to wait—with this proviso: They will be allowed to recognize the Chinese Communist regime a day or two ahead of the United States.

Klan Klax Klan Minutes  
Klan No. 1, Atlanta, meets at 198 1/2 Whitehall St., Atlanta, in the quarters of the A. F. of L. Steamfitters and Plumbers Union

...at a recent meeting, Klansman Ira Jett, an organizer of the American Bible Club which goes even further than the Klan in race hatred, got irate against Grand Dragon Green, wanted him to give an accounting of Klan funds . . . .

Klan members have no knowledge of how much money is being taken . . . by the Klan or being spent, Klansman Jett and other rebellious members claimed. . . . The grand dragon's friends squelched the rebellion, but tension between the anti-Green and the pro-Green factions simmers beneath the surface. . . . The grand dragon already has been through one rebellion, when the original Southern Klans broke away from him, setting up headquarters in Columbus, Ga. . . .

(Green now calls them: "A bunch of Bolsheviks.")  
British Depression  
Averell Harriman, Marshall Plan administrator for Europe, has been instructed to see what he can do to head off the British financial crisis now jeopardizing European recovery. . . . Harriman has orders to get the British to devalue the pound, and to get tough if necessary. . . . Sir Stafford Cripps is

dead set against devaluation, feels it is a mere temporary stopgap, in the end will raise prices for British consumers. But Secretary of the Treasury John Snyder, seems anxious to guide British finances from this side of the Atlantic. . . . Note: John is right about one thing. The 1930 slump first started in England.

Truman Worships  
President Truman's pastor, the Rev. Edward H. Pruden, was a little worried that a recent story in this column about Truman's not liking a lot of to-do in church was meant to mean such to-do existed . . . the First Baptist Church, where the President frequently worships. . . . Such is not the case. Services are routine when the President worships and most of the congregation doesn't know whether Truman is present until the very end, when Mr. Pruden asks that all remain seated until the President has departed. Then he escorts Truman down the center aisle to the door of the church.

The First Baptist Church has had two morning services ever since 1941, although it is even more crowded since Truman became President.

Money To Franco  
Generalissimo Franco of Spain is getting set to apply for a big American loan all over again. . . . For some strange reason the American embassy in Madrid has convinced Franco the Export-Import Bank really didn't mean it when it turned down Spain's request a couple of weeks ago. So Franco has ordered his financial experts to dust off the application and to again. . . . The man behind this move is Paul Cullbertson, U. S. charge d'affaires in Madrid, who seemed almost as crushed as Franco when the Export-Import Bank said no. . . . Sparks may fly when President Truman hears this because he just finished announcing that he is dead set against any American loan to Dictator Franco.

Secretary Acheson has summoned Joseph E. Jacobs, U. S. Ambassa-

dor to Czechoslovakia, back home for consultations on the critical situation in Czechoslovakia. Prediction: Jacobs will be replaced by Ellis G. Briggs, U. S. ambassador to Uruguay, a tough-talker who has battled against Peron in South America. More trouble is expected in Czechoslovakia soon.

General Vaughan's Beakie  
The Congress still seems to take a dim view of giving foreign medals to poor Gen. Harry Vaughan. In fact, they now are blocking foreign medals to anybody.

Ever since George Washington's hereditary precedent, Americans have been discouraged from accepting foreign medals—until quite recently. During the war, however, it became quite a fad in some Army-Navy circles—although it takes an act of Congress before an American citizen actually can accept a foreign decoration.

Recently the Army tried to slip through a bill, granting Vaughan and others permission to wear foreign medals. But when Vaughan's name was discovered in the list, the House Armed Services Committee dropped the medals like hot pennies.

The other day, as a trial balloon, a bill came before the Senate authorizing some U. S. scientists to accept some British awards. This time they were civilians. But the debate lasted exactly two minutes. General Vaughan's name ended it all.

Senator Millard Tydings of Maryland, chairman of the Senate Armed Services Committee, had stood up to explain the bill. "Congress," he droned, "passed a special act, applying only during the length of the war, which permitted military and other decorations during the war. But since that act has expired, it becomes necessary in each case, military or civilian, to have special legislation."

"Is the war over?" boomed out Ohio's Senator Robert Taft. "I should say some phases of it seem to be going on with increased intensity," retorted Tydings, with a grin.

"Does this bill cover the general who is connected with the White House?" asked New Hampshire's Senator Charles Tobey.

"No, it does not," snapper Tydings

## Traffic Expert Raps Cable Cars; He's Off His Trolley, San Franciscans Say

Clang, clang, clang go San Francisco's ancient cable cars as they creak and groan over the roller-coaster terrain of California street. The newest battle between a traffic expert and the sentimentalists doesn't even seem to slow them down.

SAN FRANCISCO—(NEA)—The battle of the cable cars is raging all over again in San Francisco.

Are the picturesque little hill-climbers an integral part of the color and flavor of the cosmopolitan city by the Golden Gate? Or are they just a costly, hazardous traffic menace?

The argument has been simmering for decades. It has just come to a boil again after the curt report of a traffic expert, hired to make a \$20,000 survey of the city's transit system.

Arthur C. Jenkins, consulting engineer who revamped the Los Angeles mass transportation lines, branded the cable cars "antiquated and a nuisance."

"The only value of the cable cars in the present world of mass passenger transportation," he declared, "is for museum purposes. They would serve well as a model line in Golden Gate Park, or for a few 'Museum Purposes'."

"It has nothing to do with any military personnel."

But although Vaughan's medal was not on the list, a motion by Republican Leader Kenneth Wherry of Nebraska set the bill aside "temporarily." Meanwhile, the State Department, as temporary custodian for all these medals, is turning into a glorified hock shop.

blocks to Colt Tower, as a means of preserving a remnant of this novel type of transportation. The city streets of San Francisco, however, are no place for a museum piece.

The cable cars, he said, were designed for an era when the only other traffic vehicles were horse drawn, and now are "the last word in lack of safety devices."

Anticipating the protests of sentimentalists, who succeeded in writing a clause into the city charter that the cable cars must be preserved, the engineer declared there was "no more logical reason to keep cable cars in regular service than to operate the Pony Express as a historic link."

The transit report roused the defenders of the little "dinkies." By phone and mail, they bombarded City Hall.

"The people have declared at the polls that they desire the continuance of the cable cars by a plurality of 171,000 to 61,000," asserted Mrs. Hans Klusman, a doctor's wife who headed a committee of clubwomen which led the successful drive to write preservation of the cables into the city charter.

"We serve notice now that the decision of the people of San Francisco will be upheld."

Cable cars climbing Nob Hill

and dropping down to North Beach and Fisherman's Wharf are one of the city's major tourist attractions, she declared.

Mayor Elmer K. Robinson, admitting that the cables are an expensive luxury, but quite aware of the two-sidedness of the controversy, stated that the cost was probably small compared to the free advertising the little cars bring the city. He then hustled down to the foot of the Powell Street hill to participate in a ceremony marking the start of a cable car on a trip to the National Railroad Fair at Chicago.

Didn't Last Long  
Former Mayor Roger D. Lapham, now ECA administrator for China, tried to induce the voters to junk the cable cars, but was badly beaten on this point. Michael Riordan, a former police chief, said the cars "strangle, suffocate, impede and conglomerate traffic. If we're going in for sentiment, why don't we have horse-drawn fire engines?" He didn't last long as police chief.

This may not be very far off, Jenkins warned, because the cars are obsolete and spare parts difficult to find. Mrs. Klusman's committee reported that they'd supply the parts, if necessary, to keep the cable cars running.

# BONDS ARE YOUR BEST BUY

Fete Blends The Old And New Japan

By RUSSELL BRINES AP Newfeatures SHIMODA, JAPAN—Festival days in this little fishing town bring old and new Japan together—almost thunderously. The way it is done is somewhat symbolic of modern times. Shimoda, which became famous by accident, is neither the most backward nor the most progressive of Japanese communities. It's known primarily because it clings to a fragment of history. It was here, 100 miles southwest

of Tokyo, that Commodore Matthew Galbrith Perry's "black ships" first broke Japan's medieval seclusion in 1853. Here, too, the first United States consul to Japan, Townsend Harris, lived for the initial year of relations between the two countries. Once a year, nowadays, Americans and Japanese come from miles distant to commemorate the annual "Black Ship" festival in honor of Perry's visit. The occasion calls for a celebration by Shimoda's 7,000 residents. Their drab little shops blossom

with paper flowers, and the plain street is crowded with people. But the shops are full of merchandise, and the townspeople never tire of gazing at them. No One Squirms Hundreds gather at the weather-beaten primary school to hear formal speeches sent from Tokyo by high-ranking American and Japanese officials. No one blinks when, as usual, it is recalled that the first American-Japanese treaty pledged permanent peace between the two countries. No one squirms at the mention of the "unfortunate episode" which interrupted that peace.

+Pecos News+

PECOS—Credited with being the outstanding co-operator in the Upper Pecos Soil Conservation District, Ralph Burkholder of Barstow and Pecos will be presented at the Lions Club meeting here Wednesday. He will be awarded a plaque.

Funeral services for Mrs. Ira J. Bell, 75, former Pecos resident, recently were held here. She died June 2 in Los Angeles. She was the former Etta Sexton. She left Pecos in 1924. Funeral rites for W. H. Butler, 88, retired farmer and long-time area resident, were held at the First Presbyterian Church in Barstow June 8. Survivors include his widow and two daughters. Arrangements for a softball game between the Pecos Plus Four and the Red Chicks of San Angelo are being made for June 12. The Pecos team hold two decisions over Fort Stockton this season. Purchases Cease: Announcement has been made of the purchase of the Del Norte Tourist Courts by H. E. Williams of San Angelo from Henry Fridge. The Pecos All-Stars baseball team will play Grandfalls at that town Sunday. Last week, Pecos defeated Barstow 13-9. A dark-haired beauty, Miss Greta Joyce Cumby, daughter of F. E. Cumby, was named "Miss Pecos" in a bathing beauty revue staged here recently. She will compete in the Fort Stockton Water Carnival bathing beauty contest. Runnerup was Miss Velma Jean Cummings, daughter of Mr. and Mrs. Herman Cummings of Barstow. She also will compete at Fort Stockton.

Hobby Survey Reveals New Avocation Types

Five-foot shelf of a Wheeling W. Va., collector includes this five-foot high glass vase, which dwarfs little Linda Wright. It is more than 100 years old and is worth well over \$10,000.

NEW YORK (NEA)—During the years of war and reconversion, one thing America really reconverted was its hobby habit. The first survey of hobbies since 1941, just completed by the American Hobby Federation, shows that, of the top 10 hobbies, seven are new to the list. Collecting stamps remains number one, but the runner-up, collecting American glassware, is a newcomer. Third and fourth positions also go to hobbies that just crashed the list, woodworking and model-making. The survey, which took one year to complete and was made by polling over 22,000 American hobby clubs, showed that only collecting stamps, dolls and coins survived from the 1941 study. Other newcomers are collecting autographs, and miniatures, and painting and needlework. Old Favorites: Established favorites that dropped out through the last eight years are: collections of books, buttons, arrowheads and post-cards, and cooking, model trains and the amateur naturalists—butterfly and insect collectors. Biggest jumps were made by glass lovers, who usually specialize in things like collecting five-foot-tall vases, or ruby-colored celery holders, and the woodworkers, who make useful things like toothbrush stands and magazine racks. In 1941, the glass people ranked 15th and the saw-and-hammer boys were down in the second 25.

Museum Of Blood Is Strange Bank

NEW BRUNSWICK, N. J.—A museum of blood here is the world's strangest blood bank. It contains thousands of specimens of blood, from giraffes and tigers and humans, kangaroos and cows, pythons and penguins to samples of tissue extracts from cockroaches and grasshoppers. The blood is used, not for transfusions, but in detective work of learning more about who's who among the million species of life on earth. The bank is the Rutgers University Serological Museum, headed by Prof. Alan A. Boyden, professor of zoology. For 24 years he has been comparing and classifying the blood of many animals, insects, birds, and fish.

Polo Precautions

Children should guard against sudden chilling during the summer polo epidemic season. Wet shoes and clothing should be removed at once and extra blankets and heavier clothing kept handy for sudden weather changes.

### No Gypsy Roves Like Gypsy Rose Lee, She (S)rips U. S. In Plush Trailer

MEMPHIS. — (NEA) — When Gypsy Rose Lee decides to live like a real gypsy, she didn't. She's traveling around the countryside in a swank trailer, towed by a swankier Cadillac. Her four-year-old son goes by train, accompanied by two nurses, joining his mother only when she stops. No self-respecting gypsy would sanction a scheme like that.

Nevertheless, Gypsy Rose Lee, the erudite ecologist—or smart stripper, in runaway talk—is being about as gypsyish as she can be. Miss Lee is on the carnival circuit, taking it off from coast to coast. While the

Louise Hovick in Seattle, 38 years ago, according to her figures. Her younger sister is stage and screen actress June Havoc.

Her long career (she started when she was three) in vaudeville, burlesque, the stage, movies and literature has enabled her to become the owner of a big mansion in New York, which she left to tour with the carnival. She's drawing a salary that runs into four figures a week.

Wagging Behind  
She and Julio, happy in their trailer, will stay with it and the carnival until late Fall, when the engagement ends. They will drive about in their new Cadillac, wagging their trailer behind them, throughout the United States portion of the itinerary. When the carnival goes into Canada, they'll place car and trailer on a show train flat car, because the jumps there are too lengthy. But they'll still live in it.

Traveling with the de Diegos, who have been married about a year, are Gypsy's French poodle, Georgette, and her son by a previous marriage to playwright Alexander Kirkland, Erik Lee. And the two nurses.

Trailer life hasn't changed Gypsy. She's still the same gal who was once included in the list of "America's 10 worst-dressed women." Around the trailer park she went in for denim skirts and jeans and such.

But, out at the carnival grounds, nobody seemed to care particularly how she was dressed.

Gypsy, the gypsy, now cooks in a trailer, wearing a somewhat surrealistic necklace whipped up by her artist-husband.

rest of the troupe travels on a show train, she and her husband hit the road in their trailer.

Her husband is Julio de Diego, a Spaniard turned modernist painter and metalmith. While Mrs. de Diego tours with "Gypsy Rose Lee and Her Royal American Beauties," Julio has his own show. It's called "What Are Your Dreams?" and is slightly on the surrealistic side.

Willing away the merry miles on the highway Julio (pronounced Hoo-LEE-O) designs odds and ends. He whipped up a chef's cap, which he wears as he concocts tasty Spanish dishes on the trailer stove, that seems to be top hat with an ostrich feather. He made a silver necklace for Gypsy that looks like a snake with the bends.

Mr. and Mrs. de Diego  
Gypsy and Julio took to the open road because they like trailer camp life. They registered quietly at a trailer park here, as Mr. and Mrs. de Diego. After all, that's correct, but nobody recognized Gypsy.

She did the family wash in a 25-cent-a-throw automatic laundry at the camp. She saved an additional quarter by hanging the clothes on the line instead of using the automatic dryer.

Gypsy, the gal who parlayed a G-string, bra and typewriter into a fabulous fortune, was born Rose

### Blind Pastor Leads Flock Toward Light

PIERMONT, N. Y. — (AP) — One of the most active clergymen in this area is a young Methodist minister who is almost totally blind and wears a 36-pound plaster cast fastened down one side of his body. He is 29-year-old Albert Windle.

Windle can't afford a car on his \$1,600 salary. He walks to visit parishioners and averages better than five miles a day. He manages trips to New York by memorizing subway, train and bus stops.

The young preacher and father of four never has bled himself. He was selected for the U. S. Olympic wrestling team while a student at Temple University, as blind then as he is now.

Windle is usually up at five in the morning. Years ago he started delivering communion at 7:00 a. m. every Friday to all Protestant patients at the Nyack hospital; and he rises at 4:30 to hike the distance on time.

### Medical Reserve Officers Needed

Reserve officers of the Army Medical, Dental, and Veterinary Corps have been asked by Major General R. W. Elias, The Surgeon General of the Army, to signify their availability for short periods of service ranging from one to 29 days a month, in order to help relieve the Army's critical shortages of these professional personnel.

Sgt. Shelby Wheelus in charge of the Army and Air Force recruiting station at the Midland courthouse, announced.

"If response to the questionnaire is sufficiently encouraging, reserve officers may volunteer for such short terms of service and perform professional duties at Army or Air Force hospitals and medical installations located in their geographic area," said Wheelus.

## Capital Society Outbids The Old-Clothes Dealers

With a gleam in her eye, Washington society woman Mrs. James E. McPherson takes a good look at part of the wardrobe of the late Eleanor (Cissy) Patterson before the bidding began.

WASHINGTON—(NEA)—The second-hand clothes dealers tangled with the cream of capital society over one of the most amazing women's wardrobes ever assembled under one roof.

Under the old-clothes men came off a poor second. They not only were outbid. The ladies outshouted them, too.

It was the auction of all the clothes of the late and fabulous Eleanor "Cissy" Patterson, millionaire newspaper publisher, party-giver, and one of Washington's most colorful characters for more than 50 years.

What lickered the second-hand dealers was sentiment.

Nearly every time the auctioneer held up one of Cissy's gowns or dresses for bidding, there was a loud cry.

"Get To Have It!"

"Why, Cissy wore that at a party I gave for her 10 years ago. I've GOT to have it!"

"The last time the Senator and I were at her house, she had that on..."

"She bought that riding habit when I gave her my gray mare."

This sort of chatter got so loud the auctioneer couldn't hear himself chant, and he was forced to scream:

"Ladies, ladies! There are plenty of dresses and shoes here for all of you, so let's have it quieter."

A disconsolate second-hand clothes dealer who had turned up in hopes of catching some good bargains turned to a fellow dealer and shrugged his shoulders eloquently.

"I'm wasting my time here," he observed. "My customers can't afford to buy sentimental value."

One woman explained that "Cis-

## Capitol Face-Lifting Proves Delicate Job

WASHINGTON—(NEA)—How modern can you make an antique? Kindly, grey David Lynn, Architect of the Capitol, hopes he finally has the answer.

On one side he's been mercilessly pressed by a crowd whose creed is, "Don't plug up a worm-hole in yonder venerable edifice." They would preserve every tobacco stain and spur mark in the Capitol. So what if the roof falls in? It'll make it more historic than ever.

On the other side he's been nagged by the brash moderns who want built-in television lighting, air conditioning with humidity control, comfortable seats, fire-proof walls and collapse-proof roofs.

Since long before the war Lynn has been pleading with the Congressmen to let him make the Capitol a safer and more comfortable place in which to legislate. The best he could talk them into has been the reinforcement of the roofs and ceilings of the Senate and House chambers with ugly steel girders.

But at last they've consented to some improvements. In July, the workmen will be ready to swarm all over the place and try to effect the great compromise between the antique lovers and the moderns which Lynn has worked out. It's planned to do half the job during this Summer's recess and the other half next Summer. The cost will be about \$5,000,000.

Brand new roofs over both the Senate and House are the biggest parts of the project. They will replace the sagging skylights which now are the only protection against rain and sun afforded for the legislators' heads. The new roofs will be reinforced concrete. The ceilings will mostly be of large stainless steel plates for the center sections, with painted plaster for the sides. Lynn describes part of it:

"In the center of the ceiling will be introduced an ornamental rosette, the field of which will be of carved shatter-proof glass illuminated from above so as to furnish a visible source of direct light. This light is only for the sake of appearance. The actual lighting of the floor will be accomplished by reflected light from the ceiling, the source of which will be light outlets arranged around the perimeter of the cove."

For their own reasons the senators have never permitted a public address system to be installed in their chamber. In the remodeling, however, they have permitted Lynn to put in the cables for one, in case they change their minds.

Lack of a P. A. system some-

HOUSE CLEANING: Steel beams and squeaky chairs in the midst of which these workmen spruced up the Capitol for 1949 will soon be gone in the first big alteration job since 1859.

## They'll Count Noses By Push Button In Nation's Census

Mapping the U. S. for the 1950 census is a big advance job for these workers at Census Bureau headquarters in Suitland, Md. Maps divide the country up for the census takers.

WASHINGTON—(NEA)—They've cooked up a real push-button nose count for the big decennial census next year.

When Congress ordered the first one in 1790 and then decreed that it should be made every 10 years thereafter, nobody dreamed it would come to this. In 1950, it'll all be done with electrical brains, airplanes, card machines, automatic counters, calculators with memories and magnetic error catchers. And the farmers are going to count themselves.

The only time it will be touched by human knuckles is when the census taker knocks on your door and writes down your answers. After that it's practically all electric.

**Will Use Airplanes**

Airplanes are already in on the show. They're being used to photograph every city in the U. S., plus a big share of the farmland. As many as possible of the census takers will be handed aerial photographs of their territory. This is to prevent mooching on a fellow taker's clients and to insure that none of the small post-war homes, or farm houses off the road, are missed in the count.

They will also be given a brand new detailed map of their district. This has the Bureau up to its ears in map-making. New roads, new local boundaries, changed courses of rivers and new cities have to be shown there will be a minimum chance of overlapping counts or of skipping anybody.

Preparing the maps and photographs is the biggest and costliest pre-census job. Next to that, 150,000 enumerators—the number of districts into which the country will be divided. Even part of the training will be push-button. Special films are being prepared by Census Bureau to speed that job.

**Month For Farm Count**

The census of cities of over 2500 population will start April 1, 1950 and is supposed to take only two weeks. The farm head-count will start the same day but a month is being allotted for it. It will be Bureau policy to hire as many school teachers as possible.

There will be no fixed rate of pay for the enumerators. Different scales will be used in various parts of the country. The average census taker will make about \$10 a day, and it is hoped the unit cost can be kept down to about 10 cents per person

times makes it difficult for persons in the galleries to hear what's going on and for the senators to hear each other. But Lynn hopes that the new acoustical tile which will be used to line the gallery and chamber, and the new squeakproof seats in the visitors' gallery, will help everyone to hear what is being said on the floor.

The present House amplifying system, it has been said, gives some members headaches after a day of particularly heavy debate. The new one will have small loudspeakers concealed behind gridded panels on the walls instead of one big one suspended from the ceiling.

**Rubber Tile**

In addition to providing more comfortable seats in the House, the seating arrangement will be improved. Two aisles will be eliminated, increasing the number of seats to 448 and bringing the floor arrangement in more direct view of the Speaker. Rubber tile will be put under the rugs on the floors and fireproof material will be used in the walls.

Photographers, newsmen and television men have never been allowed to work in the Senate chamber. In the House they have only been let in for special events which involves a lot of costly, temporary lighting. Lynn says he plans to put in enough fixtures in the House to take care of any extra lighting needed for such occasions.

So far, since the government started building it, the Capitol has cost about \$18,000,000. The cornerstone was laid by George Washington in 1793. The Senate wing was completed in 1800, the House wing in 1807. In 1812 the British burned most of it down and by 1819 it was repaired. An arcade and the dome were built in 1827, and in 1857 and 1859 the whole building, greatly enlarged. This Summer's work will be the most extensive alteration since that time.

## Jap Cold War—Cops Vs. RR Men

TOKYO—(AP)—Police are having a cold war with railway employees. The railway workers started it. They cut off the traditional free rides of the police.

Now comes word from Osaka that police are arresting railway workers caught secretly transporting rice. Worse, they are reporting it to the railway worker's boss.

In the days of the free ride, the police might pick up a worker for this offense now and then, but they never told his boss.

The worker automatically would lose his job.

### Brick House Is Popular

A brick house continues to be the favorite of thousands of American families, and here is an attractive design for such a home. An advantageous feature of the planning is the ease of accessibility from one part of the house to another and from either of the entrances to any of the rooms. It is not necessary to walk through any room to get from either the front door or the back door to the living room, bathroom, bath or kitchen. Room dimensions are larger than ordinary for a moderate priced home. The corner windows and picture windows create a feeling of additional spaciousness. The sidewalls are of brick veneer accented by touches of white clapboard and glass block near the front entrance. Preliminary cost estimates could be based on 1,200 square feet of floor space and 16,000 cubic foot content.

### Design Engineer Favors More Colorful Houses

Window draperies decorate the outside of a house as well as the inside. For people think of draperies as an element in exterior planning. One person who does is Howard Ketcham, a color and design engineer. As a color consultant for industry, he has selected colors for a host of things, ranging from groups of houses to service stations, automobiles, airliners and railroad coaches. Americans would like to use more colors on the exteriors of their houses, Ketcham says. Among the reasons they don't, he explains, is that they don't have enough confidence in their own innate taste and don't know exactly how to go about color planning. That's where draperies come in. They're hung on the inside of a house but they're visible from the outside. If the drapery colors aren't chosen in relation to the exterior color plan, they might clash noticeably and mar the appearance of an otherwise beautiful home. The same precautions should be taken with curtains, window shades and venetian blinds. In a survey of 3,000 homemakers, Ketcham found that more than one of every three women wants venetian blinds which match the exterior colors of her home. "The existence of other opportunities for pleasing use of color on the exterior should be realized," the color engineer says. "Among these are outdoor furniture, window sash, the roof, trim, doorsteps, awnings, flower boxes and even the flowers themselves. Colored concrete for walks and terraces is a recent development." He says the roof, a large and prominent area, offers one of the greatest possibilities for wise use of color to enhance the attractiveness of a home. To show that the home owner has a wide variety from which to choose, he calls attention to the many solid and blended colors available in roofing material. "All the exterior colors of a house should be considered as a group, matching, blending or contrasting with each other to achieve an harmonious overall effect," Ketcham says. Color also can be used to advantage on the sidewalks, the engineer believes. He says that in some cases it might be desirable to color the sidewalks completely, but in other situations it might be preferable to color only parts of the walls, thus emphasizing the more attractive architectural features while making the less attractive ones relatively inconspicuous. Color can create vital illusions, Ketcham says. For example, a band of light color under the eaves of a house with dark siding draws the eye upward and makes the house higher. Similarly, a light-colored asphalt shingle roof makes a house seem taller and a dark roof makes it appear lower. Color Planning Ketcham, who believes in planning colors on the basis of surveys of consumer taste, urges home owners to be more confident about their personal color judgments. "A house should express the personality of the family occupying it and the members of the family should do what they like best because it's their house and they have a right to be happy with the way it looks," he says.

### Summer Is Best Time For Repairs

Summer is the best time of year for home repair and remodeling as well as new construction. The dry, warm weather generally enables work to be done more conveniently than at any other season. Because a tight roof is the first fundamental of sound shelter, re-roofing and roof repair rank high in the volume of work done to keep America's homes in sound condition. The roof is the largest single area on the exterior of a house and is fully exposed to all the onslaughts of nature. The most widely used roofing material, according to the U. S. Department of Commerce, is asphalt roofing. Last year, asphalt roofing accounted for 83 per cent of all the roofing material required in the United States. Popular Roof Asphalt roofing is liked by builders and architects for its versatility. There is at least one type to suit every sort of structure. Asphalt shingles are available in a wide assortment of colors, textures and patterns. The fire-resistance of asphalt shingles is a desirable quality. They will not be kindled into flame by chimney sparks or fire brands carried by the wind. Ease of application of asphalt roofing is a significant feature, although it does not mean that the necessity for proper application is lessened. Proper application of any roofing is essential if the material is to give the full service of which it is capable. Cranes lift a giant tank onto one of the cargo ships in London bound for Hong Kong to reinforce the British garrison there. With the Chinese Communist armies moving south toward the British colony, London officials want to make sure the Reds will think twice before attacking the Oriental outpost.

### Economy Grades Of Flooring May Effect Savings

Here's a pointer for families who are planning to build homes on limited budgets. In some instances important savings can be effected by using economy grades of building materials, fixtures and so on. When this can be done without sacrificing basic quality, it's smart business. Oak and other hardwood flooring, for example, can be obtained in low cost grades which are virtually on a par with higher grades as far as strength and durability are concerned. Grading of hardwood flooring is based almost entirely on appearance. Among the factors considered are such characteristics as streaks, knots and other natural variations. While the higher grades make more beautiful floors, the lower grades also present an attractive appearance—at considerably less cost. No. 1 Common and No. 2 Common are the economy grades in oak. Above them, in ascending order, are select and clear. All are plain-sawn. Quarter-sawn oak, which is more expensive to produce, comes in three grades. Clear is the highest, followed by sap clear and select.

### Manufacturing In Four States Gains In Eight-Year Span

WASHINGTON—(AP)—Manufacturing in the four states of Arkansas, Louisiana, Oklahoma and Texas took a big jump in the eight-year span from 1939 to 1947. This is shown in a report of the Census Bureau giving comparative figures on value added by manufacture in the four states. Value added is the amount by which the value of manufactured shipments exceeds the cost of materials and supplies and thus is an index on manufacturing. The report shows that in the four states in 1947 the total value added was approximately \$1,000,000,000, compared with \$800,000,000 in 1939. This was a 27 per cent increase, the report said, compared with 200 per cent for the country at large. Texas led the four states in total value added in 1947. The Texas amount was \$1,715,900,000. Arkansas had a total of \$265,600,000; Louisiana \$692,200,000; and Oklahoma \$340,500,000. Arkansas, however, led in percentage of gain over 1939, showing an increase of nearly 300 percent. The Texas gain was 280 percent, Louisiana's was 250 percent and Oklahoma's 235 percent. For Arkansas the report covered 1,924 manufacturing units employing on an average of 65,300 workers, who received wages of \$132,900,000. The largest single industry group in the state was lumber and products, which produced an added value of \$81,400,000. Other big industry groups in the state and the amount of value added included: food and kindred products \$41,500,000; chemicals \$29,200,000; and paper \$21,900,000. Texas Units For Texas the report covered 7,124 manufacturing units employing 296,900 workers at a total salary which amounted to \$783,900,000. The largest industry groups and their respective value added included: Petroleum and coal \$356,000,000; food \$330,000,000; chemicals \$234,500,000; machinery, electrical, \$129,600,000. The Louisiana report covered 3,387 units employing 132,100 workers who were paid \$308,900,000. Big industry groups and the manufactured value they added: Food \$139,000,000; petroleum and coal \$122,000,000; chemicals \$119,500,000; lumber \$84,100,000. For Oklahoma the report covered 1,740 units employing 55,300 workers who received \$143,500,000 in pay. Major industries in Oklahoma and the value added: Petroleum and coal \$79,900,000; food \$75,500,000; machinery \$37,200,000; and stone, clay and glass \$23,400,000.

### Farm, Ranch Home Features Listed By Specialist

COLLEGE STATION — Housing experts agree on five features that every well-planned farmhouse should have. Mrs. Bernice Claytor, extension home management specialist of Texas A&M College, says these features have been named "Farmhouse Specials" by Mrs. Lenora Thyne, who is in charge of housing and household equipment research in the USDA's Bureau of Human Nutrition and Home Economics. Briefly, the five features are: 1 Entrance to both living and work rooms convenient to the main driveway, which also should be convenient to the farm buildings. 2 A well-located kitchen, with a view of the drive and farm buildings. "This feature has a number of advantages," Mrs. Thyne says. "The housewife can see any visitor or arriving, keep in touch with the children outdoors and have a watchful eye on the farmstead when the men are in the fields." 3 Good traffic lanes, so that all parts of the house may be reached without passing through the kitchen work area and other centers of activity. 4 Adequate work areas for preparing and preserving food. 5 Adequate dining area in a pleasant place, with enough space to serve and eat regular meals.

### Recreation Room Seen As Tonic For Family's Health

A home, doctors say, should offer every opportunity for normal family life. That means there should be at least one room in the house where music, games and conversation may be enjoyed without encroaching on the privacy of those who are not participating. Where there are children, it is a good health practice to provide adequate space for exercise and play. Following this advice, many families have found it advantageous to set aside one part of the house as a recreation center.

**Tin Cup, Colorado, Is Summer Home For Many Midlanders**

Tin Cup, Gunnison County, Colorado, each Summer attracts a number of Midland citizens, most of whom own cabins there.

The almost ideal vacation spot was "discovered" several years ago by a few Midland families who have continued to go back there each Summer. Friends and acquaintances have followed suit until now the village almost could be called "little Midland" during the vacation period.

Some Midlanders spend most of the Summer in Tin Cup, taking advantage of the high altitude, cool days and nights, pleasant surroundings, beautiful scenery, quiet and solitude, and excellent fishing, boating.

Some residents already are in Tin Cup and others will be leaving soon.

The one-celled animal never grows old and never dies, unless it is eaten by another animal or meets with an accident. To propagate, it simply divides itself in two.

**Daddy Ringtail** By WESLEY DAVIS

**Daddy Ringtail And The Thinking Cap**

Sammy Ringtail, the monkey boy, was almost in trouble. He had lost Mother Ringtail's scissors, and he knew he would be in trouble sure enough if he didn't find them. They were the only scissors Mother Ringtail had, and so, of course, they were her best scissors too.

Sammy looked high and low—up and down and sideways—all over the monkey house—and still he couldn't find those scissors. He

knew only one other thing to do—ask Daddy Ringtail—and that is what he did.

"Daddy Ringtail, I had them somewhere," said Sammy, "but I've forgotten where I had them." Sammy was very unhappy about it.

Daddy Ringtail put down his newspaper, the way a daddy will do when he sees that his boy is unhappy. He said: "Did you think real hard? Did you try to remember where you had them?"

Sammy said he had done everything he could do to think of the place where the scissors might be. "Daddy Ringtail," he said, "maybe my thinker isn't working very well today."

Daddy Ringtail thought that that was maybe the trouble. "I know what to do," he said, and then he did a peculiar thing. He folded part of his newspaper, and made a cap out of it. He put the cap on Sammy's head. "It's a thinking cap," Daddy Ringtail explained, and then he told Sammy what to do.

Sammy did it. He went to his room. He sat down in his chair—with the thinking cap on, of course. He thought about what he had been doing when last he had the scissors. He remembered that he had been cutting flowers, which is what the scissors were for. And then he remembered where the scissors were—there by the flowers, of course! No more trouble for Sammy.

And that's why I think everyone should have a thinking cap to help them think of things they are try-

ing to remember, if they have trouble remembering things. It may take you a little while to learn how to use a thinking cap, and it may not work every time, but often it is good to have. Happy day!

**Strikers Battle Soviet Guards**

(NEA Radio-Telephoto by Staff Correspondent Al Cocking). Berlin railroad strikers disarm Soviet-controlled German guards as 200 of their fellow workers invade the Russian-controlled railroad headquarters building in the Western sector of Berlin. One of the Russian officers who raced up from the nearby Eastern sector to evict strikers struck ACME-NEA photographer Al Cocking, pulled his hair and pointed a pistol at him.

**TEXANS IN WASHINGTON—  
It's The Seasonal Trek  
Of Students To Capitol**

By **TEX EASLEY**

WASHINGTON — (AP) — Schools out and tourists are swarming all over the Capitol.

Buses full of youngsters have been coming here on weekends from neighboring states since early Spring. Now they're rolling in from Texas and other distant points.

The bright orange Elgin High School bus, wandering off its usual run over Central Texas rural roads, pulled to a stop in front of the Capitol bearing a banner reading "Just Elgin Seniors Looking Around." Driver Bernhart Smith opened the door and 34 happy teenage boys and girls leaped out. Congressman Homer Thornberry of Austin welcomed them, and they posed on the Capitol steps for a group picture.

Scouting the Elgin graduates were E. C. Breen, school superintendent, and Mrs. C. T. Larsberg, a teacher.

Expenses are kept at a minimum. It took them five days to get here. They carried coats along and spent nights at public schools along the way, having made arrangements ahead of time. Here they stayed overnight in the gymnasium of the suburban Bethesda-Chevy Chase, Md., High School. They headed for Canada after leaving Washington, and will be gone from home 24 days.

**Rio Grande Group**

A Rio Grande Valley bus load of youngsters, 25 to be exact and hailing from various towns in that part of the state, followed the Elgin group by a few days. Chaperoning them were Al Jordan, McAllen YMCA director, and Miss Kay Wharton, McAllen Evening Monitor reporter.

They were luncheon guests of their Congressman, Rep. Lloyd Bentsen, in the Speaker's Dining Room in the House wing of the Capitol. They rated use of the ornate room with its long red window drapes, mahogany woodwork and beautiful chandelier, because Speaker Sam Rayburn of Bonham has the say about who uses that exclusive dining place. The official doorkeeper of the House was assigned to serve as their special guide around the historic building.

Scheduled to arrive close behind the Rio Grande Valley contingent was a bus of students from Sundeen High School in Corpus Christi.

Rep. John Lyle of Corpus Christi arranging for their visit, said they were being escorted by Superintendent and Mrs. William K. Fraser and three mothers of youngsters in the group.

Speaking of tourists and buses brings to mind the trip here last week of Hugh Henson, a long time Waco printer. Enjoying a businessman's holiday he went to Senator Tom Connally's office and got a note of introduction for a special

sight-seeing tour through the vast government printing office.

Visitors in the Capitol have only a few days more to see the Senate and House in their regular chambers which have been unchanged except for minor alterations for almost a century.

On July 1 the Senate will move into the old Supreme Court Chamber nearer the center of the Capitol, almost under the dome. The House will meet in the large Ways and Means Committee room in the House Office Building.

**"Construction Shakes"**

Then workmen will tear the top off the two wings of the Capitol and rebuild the entire roof and ceiling. The job is supposed to be finished by the beginning of the next regular session, in January. Preparatory to starting actual remodeling, the contractor has erected several "construction shakes" adjacent to the Senate and House wings. They are to be there only temporarily, but in fact are large two-story buildings and metal warehouses that must cost \$100,000 or more and would endure a lifetime.

Incidentally, the present ceiling of the House chamber is a sort of skylight, made up of large glass seals of the various states and territories. It has not been determined whether these will be refitted into the modernized House chamber. If not, they probably will be offered to the various states for any use they might have for them.

**Predicts PX's To Curtail Luxuries**

NEW YORK—Military PX's and ships' stores soon will stop selling most "luxury" items which retailers claim compete with their business, according to Business Week magazine.

"It's not sales to military personnel for their own use that grips retailers," says the McGraw-Hill publication. "It's the growing volume of business to non-military personnel."

A retailer-military-congressional committee—outgrowth of a congressional investigation—is working out a peace pact.

**Pecos College Students Arrive Home For Vacation; Some Return For Summer School**

PECOS—College and university students have arrived, or will arrive within the next few days for the summer vacation in Pecos.

Already here are Johnny Wallace, Jack Donnell, Donald Cox, Martha Holcombe, Rufus Roberts, Harold Wicker and Bill Cowden.

Johnny returned with his parents, Mr. and Mrs. J. H. Wallace, to College Station, where Lauren Hobbs received his degree. Johnny will go from College Station to Mason City, Iowa, for the summer with relatives.

Donald Cox, student at Peacock, San Antonio, arrived last weekend with his mother, Mrs. E. H. Cox, who went for him the first part of last week.

Martha Holcombe, Baylor University student came in Saturday. Her sister, Florence Holcombe, as well as David Hamilton and Jack Lyle, also Baylor students, will arrive soon.

**Abilene Students Arrive**

Rufus, Harold, Bill and Donald Helm, who are now living in Midland, arrived last week from Abilene, where they attended Hardin-Simmons University.

Minnie Lois Curb, LaVoy O'Neil, Donald Stell, Roy Breen and Abe Wadley, all students at ACC, Abilene, arrived Wednesday for the summer.

Ray Mack Thompson will come in soon from ACC with his mother, Mrs. Ned Thompson and sister, Barbara.

Arnold Fairley, who has been attending the Academy at ACC, has received his diploma. His parents, Mr. and Mrs. J. H. Fairley, were in Abilene to see him graduate.

John Paul Dunn, son of Mrs. Ruth Dunn of Pecos, will remain at ACC this summer, where he will receive his pre-med degree in August. He plans to enter Southwestern Medical College at Dallas in September.

Jack Donnell arrived Saturday for a brief visit and was accompanied by his parents, Mr. and Mrs. J. P. Donnell to College Station, where he will begin work on his master's degree.

Stella Clinton will arrive this week from Denton, where she is a student at Texas State College for Women.

Elsaine Bryan, also a student at TSCW, Denton, will arrive Sunday to be with her parents, Mr. and Mrs. H. P. Bryan.

Kenneth Johnston, student at

A&M, will attend the University of Houston at Houston this summer and will receive his degree in July. His brother, Ted Johnston, will arrive Saturday for the summer here. His sister, Dorothy Johnston, student at Texas Tech, Lubbock, also is expected. Ted is a student at Rice Institute, Houston.

Millie Arthur is in Pecos for a brief visit with her parents, Mr. and Mrs. J. T. Arthur, but will return to the University of Texas for the first six-weeks Summer semester. Her sister, Jan, student at Ward-Belmont, Nashville, Tenn., will arrive home soon for the summer vacation.

Annabelle Lee, student at Texas Tech, Lubbock, and her brother, Cecil Jim Lee, professor of electrical engineering at Tech, will arrive this weekend for a six day visit before returning to Tech for the summer vacation.

Gordon Doty is here for a visit with his parents, Mr. and Mrs. E. G. Doty. He will return to Austin for the Summer session at the University of Texas.

Jimmy Wilson, student at the University of Texas, is home for a vacation visit with his parents, Mr. and Mrs. J. C. Wilson.

Mr. and Mrs. George Breen and baby will arrive this weekend from Norman, Oklahoma, where he is a student at the University of Oklahoma. He will be employed this Summer at the post office.

Wayland Bessent, journalism student at the University of Texas, will be home soon for the summer vacation with his parents, Mr. and Mrs. E. W. Bessent.

Frank Foster, son of Mr. and Mrs. Harry Foster, arrived last week from Lubbock, where he is a student at Texas Tech. He will leave Saturday for National Guard camp.

Duane Bennet has arrived from A M for a visit. He will go to Danglerfield to work as engineer on a branch of the Valdez Aircraft Corp. His brother, Val Gene, also a student at A&M, will arrive Saturday for the Summer with his parents, Mr. and Mrs. Clyde Bennet.

**Vacation With Son**

Mr. and Mrs. T. B. Pruett left last week for Kerrville, where they were joined by their son, Tommy, student at Schriner Institute, for a week's vacation.

Susanne Ross, Mary Toll, Catherine Dean and Jean Howard, all students at Christian College, Columbia, Mo., will arrive this week for the holidays.

Buddy Ross and Jack May, Jr., will receive their degrees next week from New Mexico Military Institute, Roswell, N. M., and will return to Pecos for the summer.

Charles Sullivan has received his degree from Rice Institute, Roswell, N. M. His brother, Grady, also a student at Rice, and their parents, Mr. and Mrs. R. S. Sullivan, were there for the graduation exercises.

**Barbara Mae Camp**

Barbara Mae Camp, student at TCU, Fort Worth, arrived last week for the summer vacation. Joined by her parents, Mr. and Mrs. Joe W. Camp, she left the first of the week for San Marcos for her brother, Billy Jo, student at Brown School, and before returning to Pecos they will visit in San Antonio and Fort Worth.

Charles and James Titus, students at Schriner Institute, Kerrville, arrived Wednesday for the Summer. Their parents, Mr. and

**Jap 'Dawn Man' Remains Found**

TOKYO — (AP) — Meiji University archeologists announced discovery of Japan's "dawn man" believed to have lived 3,000 years ago.

Two students found remains of the ancient man at Hirasaka shell mound in Yokosuka, about 40 miles from Tokyo.

The discovery, archeologists said, supports the theory that humans inhabited Japan during the stone age.

**Nobody Can Win In A Traffic Battle**

BRUSSELS — (AP) — This Belgian city with its thousands of autos, bicycles and trucks sees plenty of accidents these days. A recent street incident, however, had even the hardened police force shaking their heads sadly.

This time it was four autos fighting for "lebensraum" in Waterloo Boulevard. The result was that all four ended up ready for the scrap heap and one driver retired from the fray with minor bruises.

Many have found relief by this method.

**NEW POWER FOR OLDER BUICKS**

Now you can enjoy once again the thrilling eager power of a new car! Smooth, quiet, responsive horse-power, surging from a mighty new Fireball engine at the touch of your toe.

Yes, it's yours! Current production of Buick Fireball engines is outstripping the manufacture of chassis. If your Buick is a 1937 model or later, we can install one of these all-new motors in a matter of hours — and the cost is no greater than a major overhaul.

Worth looking into? You bet it is. Why not come see us this week, and let us give you the exact figures?

USE THE G.M.A.C. PLAN FOR MAJOR REPAIRS

**ELDER CHEVROLET COMPANY**

**CHEVROLET**

**YOU want these EXTRA VALUES exclusive to Chevrolet in its field!**

**WORLD'S CHAMPION VALVE-IN-HEAD ENGINE**  
The extra efficient power plant that's setting the trend for the industry.

**FISHER BODY STYLING AND LUXURY**  
found elsewhere only on much costlier cars.

**CERTI-SAFE HYDRAULIC BRAKES**  
(with *Dual-Life* Rivetless Brake Linings) assuring swifter, safer stops for you and your family.

**LONGEST, HEAVIEST CAR IN ITS FIELD,** with **WIDEST TREAD**, as well giving more room, more riding-comfort, more road-steadiness and safety.

**5-INCH WIDE-BASE WHEELS**  
(with Extra Low-Pressure Tires) the widest rims in the entire low-price field, providing greater ride-stability.

**CENTER-POINT STEERING**  
giving maximum steering-ease... without fatigue or "con-wander"... and found elsewhere only on costlier cars.

**CURVED WINDSHIELD with PANORAMIC VISIBILITY**  
supplying that extra vision which means extra safety, exclusive to Chevrolet in its field.

**FISHER UNISTEEL BODY CONSTRUCTION**  
with steel welded to steel all around you for maximum solidity, quietness and safety.

**EXTRA ECONOMICAL TO OWN—OPERATE—MAINTAIN**  
and bringing you more when you trade; for Chevrolets are most wanted—new or used!

**"I'm biding my time until I get a Chevrolet—"**

I want to be sure I get the most for my money!"

It expresses the sentiments of countless people in all income groups, including many who can afford to buy much higher priced cars. They're surveying the rest but awaiting the best—Chevrolet—the most beautiful buy of all. We believe you, too, will decide that Chevrolet gives more for your money—more fine-car beauty, more fine-car features, more EXTRA VALUES of all kinds—at the lowest prices and with outstanding economy of operation and upkeep. Yes, the new Chevrolet is the most beautiful buy for everything from styling to stamina, and we cordially invite you to confirm this fact and tell your friends—**"I'm biding my time until I get a Chevrolet!"**
