# And Navigation Here

As a private engineer, for years

he has been working on an overall plan for control of the Mississippi River Basin. "This has been a labor of love for which I expect no reward unless "Greening lands to the North and

honor," he declared. "My first and favorite item is the grid of canals on the High Plains, "Now it happens that Editor Frank Waldrop of the Washington Times-Herald has a similar dream and he has taken up publicizing

mine where it must reach many im-Many years ago Sexton became interested in the problem of Ole Man River's ever-increasing waste and destruction. Recently he has devoted his time to a study of the possibilities of turning some of those muddy waters to man's benefit.

"He believes this can be done,"

the Times-Herald states, "without

overmuch effort, considering things we have already done such as TVA and Boulder Dam, without overthe almost instant returns that will begin flowing in from this investment in irrigation." Sexton's plan calls for contour

canals which follow the slope of the land, just like the plow furrows on a modern farm follow the slope of He suggests a whole contour canal system, starting in the high plains of Wymoing, a mile up, and winding down the east side of the Rockies to Texas and then to the Gulf of

lieves such a canal system would here about a fifth of the water which now flows uselessly and dangerously past New Orleans from ever entering the Mississippi River. Under the proposed program, this water would be used to irrigate an area larger than the State of Texas. and the editorial of the Times-Herald states "turning land that

Mexico via Midland. Sexton be-

farms, providing work and food for millions of people.' To construct this system, Sexton would start in Wyoming at a point the Times-Herald recently reported just west of the Black Hills, 5,100 editorially. "Some people also said feet above sea level, and wind a the Wright Brothers and Henry main ditch down the eastern slopes Ford and the atom scientists were of the foothills of the Rockies. Wherever the canal strikes a stream,

This, he believes, would make posreceived many suggestions as to how streams, valuable for irrigation of their lower valleys. Between rivers, he suggests the digging of subsidiary canals, winding from the main canal along the crests of the watersheds a hundred or more miles eastward, providing water for areas now dry. These canals, according to the proposal, would fill thousands of ponds and sinkholes, providing storage and also practically eliminating floods in

the flat lands below.

Proposes Lake Near Midland The main canal would thus curve South, dropping only a few inches per mile, through Wyoming, Colorado, Oklahoma and West Texas to the Nueces River, swelling the Nueces all the way to Corpus Christi and the Gulf of Mexico. He suggests "a large tank" near Midland for operating proposed locks on the

Nueces River, Sexton asserts the contour canal would provide navigation from Corpus Christi to the Arkansas River in Western Kansas and look navigation on further North.

He proposed that later other contour systems could be constructed on other slopes and altogether they would be aimed at diverting fourfifths of the water from the Mississippi pefore it reached the river. Sexton admits the cost of the proposed water program would be tremendous," maybe as much as we

send to Europe in six months." "But he argues that money soon would turn into work, for laborers, and farmers and shippers, work and green land and food." The Times-Herald says Federal

Power Commission engineers have approved the Eexton plan's basic recommendations. Sexton's proposal is to move all surplus water from the east slope of the Rockies into storage in sinkholes, tanks and a system of canals

of lagoons and also to shift a part the growing season is longer. He predicts navigation by bargetrains or farmers' own freight boats would be possible in the main canal system, providing cheaper transportation. He predicts power could be generated at a 450-foot drop at La Junta, Colo. He said the main carial would need only one levee, on the downhill (east) side, and could be

built mostly by local men and ma-

chinery as off-season work. He said

the slope of the land would provide the western or uphill bank. "Where land is nearly flat," he asserted, "a 12-foot levee would back water west for an eighth of a mile as a shallow lagoon, giving maximum seepage and evapora-

Janice Slough Patricia Pryor and Janice Slough are in the race for Midland's "Trail Days Queen" honors. The contest, which closes at 5 p.m. Wednesday, is attracting much interest and hundreds of ballots are being cast. An official ballot appears in this issue of The Reporter-Telegram. Other nominees in the contest are Alma Faye Cowden, LaVerne Estes, Susan Hemphill, Edwina Hood, Peggy Hyser, Royce Rae Mc-Kee, Mopsy Morrison, Je Winders and Enid Little.

### Freedom Of The Press

A Maryland Appeals Court handed down a decision the other day that gives freedom of the press a genuine

The court upset a key section of a 10-year-old rule of the Baltimore Supreme Bench which imposed strict limits on publication of crime news between the time of a defendant's arrest and his trial. The edict was rooted in the old complaint that occa-

sionally a newspaper or radio station appeared to "try a case" in advance, thus handicaping selection of a jury and perhaps prejudicing others in the trial.

In the case decided by Maryland's highest court, a negro handyman had been convicted of murder. But before the trial three Baltimore radio stations violated the

The stations and a commentator were convicted under a section of the rule that bars Baltimore police and other officials from making pre-trial public statements about a case, and likewise forbids press and radio quotations of same cabinet tob are summoned summon such statements.

It was this section that the high court declared in- ing the other. However, that is mat, the AAA has set up the folvalid. The court majority said there was merit in the what happened to ex-Secretary of lowing ten commandments of good stations' view that the rule was "in the nature of censorship."

It said further that the radio broadcasts of pre-trial last week in front of Truman. 2. Avoid br news did not represent a "clear and present danger" to a fair trial for the defendant.

Unfortunately, the appeals tribunal could not rule on a much broader section of the Baltimore edict which for- unnoticed to newsmen. Truman 4. Learn something about the bids publishing any matter that would "tend in any man- promptly challenged him regarding countries you will visit. You will ner to interfere with the administration of justice.

The judge who convicted the radio stations declined to rely on this clause because he himself believed it was charge; too vague and sweeping.

Probably the high court would agree with the judge if it got the chance to pass on that section.

Some measure of the importance attached to this case utes later, all three sat down and leaves bad feeling. by press and radio can be gained from the fact that the ironed out their differences. The stations' defense was joined by the National Association of Broadcasters, the American Newspaper Publishers Association, and the American Civil Liberties Union.

All argued that the Baltimore ruling is an abridg- laws, insisted that he saw eye-to- you meet with decency and courment of constitutional guarantees of the freedom of the

But, of course, no thoughful persons in press and Anderson showed that he was 99 arguments and fights. radio want freedom to mean license to deal irresponsibly with the issues of the day. They know they must discipline themselves wisely if they are to prevent new inroads on the Baltimore pattern.

## Diplomatic Double Talk

From Paris comes language which suggests the strain of the foreign ministers' meeting became pretty severe call for "production payments" to ment. Yet governments can change easily when the leaves are off.

A Western diplomat said that, whatever the general outcome of the conference, his side hoped something could be worked out to "conserve the relaxation of tension" be- and let them rot, Brannah would tween East and West.

That's almost in a class with "terminate the illumination," which was wartime officialese for "put out the light" in certain Washington quarters.

We presume the diplomat means the West hopes it pays. can stay on a fairly cheerful talking basis with the Russians, instead of reverting to another campaign of scowling from behind the blockades.

But the way he says it, it sounds contradictory. As if he were saying: "Okay, men, that's a nice, relaxed position. Now hold it tight!"

#### Labor, Wooing Farmer, Finds **Business Alienated Affections**

By PETER EDSON

NEA Washington Correspondent WASHINGTON-Efforts by organized labor leaders mittee of depositors and citizens quainted with Mr. and Mrs. Joe to woo farmer suupport for union political objectives are worked out proposed plans for re- Rosenfield. They have taken a now becoming pretty obvious. The recent Des Moines organisation of a successor bank, most active part in bridge there Democratic farm-state conference saw this love-making right out in the open.

Some observers called it more of a labor conference Political Education, A. F. Whitney of the Trainmen and Cy Anderson of the Railway Brotherhoods' conto tell the farmers how much they had in common with the laboring men of the cities.

a farmer than a labor movement, endorsed the co-op movement. It was wrecked when the Commualso tried to take over the Farmers' valuable ic staying in power. Union, but failed. Farmers' Union now w ks with CIO on many objectives, but is not directly affiliated with it as an organization.

Labor organizations can endorse programs which the farmers want. And farmers today generally recognize that they can have no prosperity of their own unless city payrolls are high and industrial workers | Alaska been completed? have plenty of money to spend on and laborers do have common interests. But any real affinity begoing to be hard to build up. Farmer Is 'Businessman'

ciation of Manufacturer has had a and for defense. Committee on Agricultural Rela-

One motive of the business groups clock." measures wanted by organized labor. Simple analysis of the farmers'

political strength shows why. The farm bloc in Congress and in state legislatures wields power far ifi excess of proportionate farm populaclubs he discarded the other two in the united States and only 10 per cent of the population can properly be classified as farmers. But farmers wield far more than

20 per cent of the strength in all S. law-making bodies. with the ace, and the losing heart really more than 50 per cent. Antiquated election laws and gerrymandering of election districts are largely responsible. Also, more than half the states are built on an economy that is predominantly agricul-

In the U.S. Senate, where each two members, the majority is thus only one of its kind in the country. rural in its outlook and voting. Labor political leaders realize this fully and know that they'll never get any place .iil they have farm support for their program. Friction Evident

But there are other factors. State labor organization officials have bride or groom very well. # THE NEWEST IDEA IN LUXURY

COSTS \$875 TO \$2,387 LESS\* TO BUY

Entirely new standards of luxury with economy, are now made possible by the Unitized Body-and-Frame of the Nash Ambassador Airflyte.

The beautiful Airflyte exterior is completely streamlined, with all four wheels enclosed-a new note in styling which will set the pace in cars to come. And, inside, is roominess unsurpassed in any other modern automobile.

With its low center of gravity, there's greater stability on curves. You experience new riding smoothness, with all four wheels cushioned by equal-action coil springs. The squeaks and rattles of separate body and frame are gone.

Here is the only American engine with

100% counter-balanced, 7-bearing crankshaft—so efficient that it gives up to 30% more gasoline mileage than the other three finest cars. In the Nash Ambassador Custom, you

may choose from a variety of decoratorstyled fabrics to harmonize with body colors. And at small extra cost, you may design your own interior scheme.

See your Nash dealer. Drive an Ambassador. Drive the finest first so that you may then have a standard of comparison.

In addition to the Custom models, the Ambassador is available in the Super and Super-Special Series.

Prices as reported in Automotive News, June 13, 1949,

#### ONLY THE MOST MODERN OF AMERICA'S FOUR FINEST CARS OFFERS ALL THIS

Femous High Compression, valve-in-head Ambassador engine with the jeweled smoothness of a 100%, completely counter-balanced 7-bearing crankshaft . . . like the power-plant of the world's most expensive automobile. Automatic Overdrive! All the ease of semi-

or power-loss. Automatic Weather Eye. Fresh air ventilation and heat control. You never have dust,

automatic transmission, without slippage, lag

or know cold, front seat or back, in any Smoothest Ride! Of the four finest cars,

only Nash offers the smooth, silent ride of coil springs cushioning all four wheels. ideal Head-Room, leg-room, elbow room

and luggage space—and all in a low-silhouette automobile. Twin Bods for Napping, while your partner drives, or luxurious sleeping-car comfort at night. Available only in Nash.

Girder-Built Unitized Body-and-Frame, exclusive with Nash, is one solid welded unit,

more rigid, safer, virtually rattle-proof and squeak-proof.

Alone of all Four Finest Cars, the Nash Ambassador offers the Uniscope . . . Cockpit Control . . . Uniflo-Jet Carburetion . . . Undivided, curved Windshields in all models.

#### Defense Rests At **Judith Coplon Trial**

WASHINGTON -(P)- The de- Phone 2462 fense in the Judith Coplon espionage trial completed its case Monday and the government began calling rebuttal witnesses.

Two defense witnesses appeared briefly. Then Defense Attorney Archibald Palmer said "We rest." John M. Kelley, Jr., a government prosecutor, immediately called William E. Foley as the first of three rebuttal witnesses he plans to put on the stand.

Foley, Miss Coplon's boss when she worked in the Justice Department as a political analyst, was called to contradict her version of an FBI "decoy" memorandum which figures prominently in the trial. Notes from the FBI "decoy" were

found in Miss Coplon's purse when she was arrested with Valentine A. Gubitchev, a Russian, in New York March 4.

HUMBLE esso. MOTOR OIL

The Finest motor oil

Your acceptance of motor oil quality is based on Company has ever supplied its customers. Exhaus-Motor Oil will give the engine of your car extra protection against heat, wear, corrosion and the formation of sludge, carbon and varnish. We recommend Esso Extra Motor Oil without qualification. It is the companion motor oil to Esso Extra gasoline.

# to match the high quality of

we've ever sold

faith in the Company which supplies it. The new Esso Extra Motor Oil is the finest the Humble tive testing has convinced us that Esso Extra

# Esso Extra Gasoline Gives your car Extra protection

The makers of Humble Esso Extra gasoline present with pride the new Humble Esso Extra motor oil. Esso Extra gasoline proved its quality with performance in your car—you noticed extra anti-knock quality, you noticed extra power. The extra quality of Esso Extra motor oil is hidden inside the engine of your car. But it shows up in the three-way extra protection it gives your car.

Extra 1 Humble Esso Extra Motor Oil gives extra lubrication quality—it covers and stays on

metal parts. Extra 2 Humble Esso Extra Motor Oil gives

extra cooling—hot engine parts are quickly

bathed with cooling Esso Extra Motor Oil.

Extra 3 Humble Esso Extra Motor Oil keeps engines extra clean—its detergent action picks up, breaks up and disperses soot, sludge, varnish and dirt.

This extra performance is something extra for your money, for Humble Esso Extra costs no more than other premium motor oils. Stop at the Humble station in your neighborhood - today - and have dirty, dangerous motor oil drained from your car—then refill with new Humble Esso Extra. Your Humble station salesman can do this while you wait.

HUMBLE OIL & REFINING COMPANY

# Here's How New Humble Esso Extra Motor Oil Protects Your Car

You probably use a good detergent soap in your kitchen. New Esso Extra Motor Oil contains a detergent specially designed to be added to motor oil to keep engines clean. As a good detergent seap will not injure hands and delicate fabrics, the mild detergent in Esso Extra Motor Oil is safe for use in the finest, tightest automobile engines made.

You know how a good soft water carries dirt down the drain pipe-leaves no ring in the tub. Just like that, new Esso Extra Motor Oil breaks up dirt, soot, sludge and varnish and holds it in suspension in particles so tiny - as small as 38/1,000,000 of an inch!—that they can't injure the tightest bearing. When you drain the oil, you also drain the cleans out of your engine.

Phone 841

GOOD FOR YOU-BAD FOR MOTOR OIL

You need oxygen, but oxidized motor

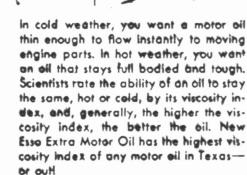

oil forms harmful sludge in the engine of

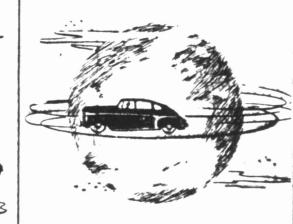

your car. New Esso Extra Motor Oil con-

tains a special anti-oxidizing agent that

fights the formation of dangerous sludge.

HOT OR COLD-ALWAYS THE SAME

OVER A MILLION MILES

New Esso Extra Motor Oil has been road tested in cars like yours for over a million miles of driving. In every test, whether the car was driven slow in city traffic or pushed on the highway, new Esso Extra Motor Oil proved to the engineers who made the tests that it gives extra motor oil performance.
