

★ IN HOLLYWOOD ★

This Time It's Really Jenkins - Not Cat-In Driver's Seat

By ERSKINE JOHNSON NEA Staff Correspondent HOLLYWOOD — Casting chuckle: Allen Jenkins will play an automobile race driver in "The Big Wheel." Last time Allen hit the headlines with speed racing he told Hollywood police his cat was driving the car.

Bud Abbott and Lou Costello hope to pay off an overdue \$33,000 mortgage on the Lou Costello, Jr. Youth Foundation with proceeds from the Ike Williams-Enrique Bolanos lightweight championship fight in Los Angeles July 21.

Judy Cook, the "Wham" girl of the Howard Hughes Washington investigation, is threatening to sue former Olympic swimmer Clarice Courtwright. Judy claims priority on an underwater strip lease. Clarice, meanwhile, is doing her aquatic work in night clubs and theaters, billed as Divena, and reciting: "Ladies, take a tip from me but don't you laugh and scoff. It's not the way you put them on—it's HOW you take them off."

Bob Hope unexpectedly took over Ken Murray's spot for a 40-minute turn as a tribute to Ken's long-time hit, "Blackouts." The show closes here August 27, when Ken heads for New York and his \$300,000 television contract. Pat Williams, who is built just like Marie Wilson, replaces Marie for the show's New York debut. Corn Film Maybe

Warner Bros. are paying Mel Ferrer for one of Joan Crawford's two leading men in "The Victim." Peggy Ryan will star in an Allied Artists film musical, "Bicycle Built for Two." Pat O'Brien's teenage daughter Mavourneen, and Addison Luce, Jr., of Santa Barbara, are steady dating. Note from Reader Harry Cimring: "Just read where experiments are being conducted to make movie film out of soybean. Next happy step, of course, is the manufacture of movie film from popcorn."

Lloyd Nolan, recently named "Movie Father of the Year" by the Parents League of America, was reprising his daughter, Melinda. Finally she interrupted with: "Daddy, that's no way for the father of the year to act."

A group of movie special effects men were talking about their greatest achievements in camera tricks like sinking battleships in miniature, blowing up buildings and sending Doug Fairbanks, Sr., flying through the air on a magic carpet in "The Academy Award Presenting."

Veteran Bob Brandt told the best one about the late Harry Carey at the throttle of a locomotive speeding through a forest fire. The scene was photographed entirely on a sound stage and the locomotive wasn't even moving. Harry just sat in the cab yanking at the throttle and every so often Brandt sent a burning "tree" whizzing past the window on a wire. The blazing "trees" were telephone poles wrapped in gasoline soaked burlap.

Little Lord Gable Promised and hoped for: Clark Gable going to a costume ball dressed as Little Lord Fauntleroy for a scene in "Key to the City." I remember when Clark ordered the set closed to visitors when he did a lap dance in "Idiot's Delight." This time he'll probably station a police line around the M-G-M studio.

It's just about set for Bob Burns and his bazooka to return to the air in the fall. Good to hear that Academy board of governors will return Oscar to his prewar glamor for the awards next March. It's Hollywood's best ballyhoo, but was fumbled badly this year. Write down Jimmy Durante as the world's greatest optimist. He's wearing a beard to disguise himself for a dual role in "Rupert II." Even in an iron mask that nose would give him away.

Now that the boxoffice is slumping, M-G-M, long anti-radio, is offering eight star shows via transcribed stanzas for local sponsorship. . . . Didja know that M-G-M made extensive film tests of Edie Pines a year ago—before his hit in "South Pacific"—and turned him down? They could have had him for peanuts then. The M-G-M contract he just signed was in six figures.

Eric Blore brings his comic mouth-in-the-mouth English butler character back to the screen in Bob Hope's "Where Men Are Men." Says Bob, "The only way Blore can blow a line is to speak so you can understand him."

The Yucca, Ritz, Tower and Rex Theatres are cooled with clean washed air, which changes completely every 2 1/2 minutes, assuring the constant flow of pure healthful air.

FAR EAST BLUNDERS—

Unstable New Republic Of Indonesia Needs Five Years Help To Resist Reds

President Sukarno: No circumstances to invite aid.

C. W. Green Assumes In-Training County Agent Duties Here

C. W. Green, a June graduate of Texas A&M College and who received the school's Brewer Award as the outstanding animal husbandry student of last year, arrived here Monday to serve an indefinite period as an in-training, assistant county agent. Employed recently by the Extension Service and assigned to this district, Green was sent to Midland by District Agent G. W. Barnes of Fort Stockton. He will work with County Agent Hubert Martin here. Green said he did not know how long he will be located in Midland. The Extension Service policy now is to give new agents in-service training before assigning them to regular duties. Salaries of the trainees are paid by the Extension Service. Green, a former resident of Coleman County, several years ago gained considerable prominence as a 4-H Club member by showing champion steers at many Texas livestock shows. He said he exhibited stock at practically every big show in the state, with the exception of El Paso. A veteran of World War II, Green spent 18 months in the U. S. Navy.

FBI Again Refuses Complete Report On Texas City Disaster

HOUSTON—(AP)—The Justice Department again has refused to release to a federal court the complete report of a secret FBI investigation of the Texas City disaster. Atty. Gen. Tom Clark in a telegram Monday said release of the report would be contrary to public interest. "Some of these documents concern the relationship of the government with a foreign government, obtainable by espionage, sabotage, and the violation of federal criminal statutes, and information obtained from confidential informants, including many undeveloped evidentiary leads," the telegram read. "The remaining documents are so interrelated to these documents that their production and inspection would inevitably result in disclosures contrary to the public interest." Part of the secret document was turned over to Federal District Judge T. M. Kennerly on May 31. But plaintiffs in the suits have demanded the complete report.

Whitney Voters To Ballot On Sittin' Bench For Oldsters

WHITNEY, TEXAS—(AP)—Age triumphed over beauty in the first round of a city-wide battle over the sittin' bench. It's a 27-year-old cedar park bench about 25 feet long—just perfect for a fellow 70 years or older to sit and pass the time on. And that's what six or seven of them used it for, up until last week. Then the womenfolks decided it wasn't sightly right downtown, and they told Mayor Fred Basham it ought to be moved. Basham bowed gallantly and Police Chief Carl Push's men quietly removed the bench to a back street during the night. Saturday, the oldsters brought nail bags to the accustomed spot. They shuffled and sat. Again the women appealed to the mayor. Monday night, a City Council meeting was called. The oldsters sprang a surprise. They presented a petition, duly signed by six or seven taxpayers from 70 to 95. Mayor Basham said. It asked a city election to determine where the majority wanted the bench situated. The election was ordered July 30. Read the Classifieds.

WE CAN'T DECIDE whether it's the sun and cool, clean mountain air, the relaxing comfort, or the good food that brings so many people back again and again. Spencer's Mountainview Lodge Fort Davis, Texas Telephones 90 and 9501

EDITOR'S NOTE: This dispatch was filed from Indonesia by Mr. Heath just before he began his return flight, on which he and 13 other prominent American newsmen were killed when their plane crashed in Bombay.

By S. BURTON HEATH NEA Staff Correspondent

BATAVIA, JAVA—Before the end of 1949, the Indonesians probably will be free, after more than 300 years as a Dutch colony. Their freedom will be complete and unconditional.

It will be at least five years, after that, before the government of the United States of Indonesia will be stable enough to resist strong pressure from Moscow. That is the estimate of Sultan Sjahrir, political adviser to the government of the Republic, which the United States has backed unreservedly against both the Dutch and the majority of Indonesians.

Even that five-year period, Sjahrir says, depends upon assistance from the western world. Without such aid, stabilization might take much longer, or Indonesia might have to turn to Russia. But President Sukarno said he could not imagine any circumstance in which he would invite the Dutch, or the Americans or the British, to help resist Soviet or native Communist interference.

Complete Confidence He expressed complete confidence—which few impartial observers feel—that he has enough loyal troops to handle anything that might arise. He says there are only a few hundred armed Reds in Indonesia. He did not account for some 30,000 "Communists" who were arrested by his government in the Stalinist coup last September, and released from prison in December when the Dutch attacked Djokjakarta in the "second military action."

President Sukarno and his vice president, Mohammed Hatta, have been bitterly attacked for their collaboration with the Japanese during World War II, on the one hand, and have been branded as Communists on the other. Sultan Sjahrir, who led the anti-Jap underground during the war, said he was formally arranged that Sukarno and Hatta should pretend to collaborate, while he and Amir Sjarifuddin—who is supposed to have been executed as a leader in last year's Red revolt—served under cover.

Plenty of Communists Most credible observers, including most of the Dutch, do not believe that either Sukarno or Hatta is a Communist. But they have appointed 17 recognized Reds and fellow travelers to their cabinet. The general opinion is that Sukarno is a sincerely patriotic rabble-rouser, a figurehead but not a strong man.

His army—the TNI—appears to include a high proportion of genuine patriots who believe they are fighting for liberty, and who, in a guerrilla fashion, are organized. But it also includes organized bands of Communists, and other organized bands who seem to be little better than banditti, who use the TNI as a cover for their activities. It has been difficult to find any indication, beyond the mere words of the Republic's leaders, that they possess sufficient loyalty to their cabinet. The general opinion is that Sukarno is a sincerely patriotic rabble-rouser, a figurehead but not a strong man.

Mr. and Mrs. Bill Oliver of Kerrville are visiting Mr. and Mrs. Hubert Martin here. Mrs. Oliver and Mrs. Martin are sisters. Oliver is the vocational agriculture teacher at Tivy High School at Kerrville.

The Large And Small Of It

Six-year-old Philip Giustino, of Elmont, N. Y., can hardly reach around that full-sized accordion he's balancing. But don't let him fool you; two years ago, when Phil was only four, he gave an accordion concert at Carnegie Hall in New York. Professionals have high praise for his skill on the bulky instrument.

Socialized Medicine Pays Dentist Plenty

EDINBURGH, SCOTLAND—(AP)—A Scottish dentist has made 25,000 pounds (\$100,000) for 11 months work under Britain's socialized medicine scheme. This was disclosed by Sir William Marshall, chairman of the Lanark County Health Service Executive Council.

Under the national health service, dentists submit a bill to the government for each patient treated. The patient does not have to pay for treatment. The government pays the dentist according to the number of patients under his care and the kind of treatment given.

COMMUTES TO ROTARY LEWISTOWN, MONTANA—(AP)—The Rotary Club here claims its president is becoming one of the most widely-traveled Rotarians in the land. He is John Peck, a Gardner rancher, who has to drive 70 miles to the weekly luncheon club meeting.

ELECTROCUTED IN ACCIDENT LLANO, TEXAS—(AP)—Glen Mitchell, about 30, was electrocuted Monday while working on a power line on a Llano County ranch.

Two Way Affair

The five-year trade pact Britain has signed with Argentina strongly accents the mounting confusion surrounding the operation of the Marshall Plan.

Britain has been the biggest recipient of aid from the Economic Cooperation Administration. It has put that assistance to remarkably good use.

Still, the Marshall Plan has broader goals than increased production and trade as measured by individual nations. It seeks economic unity among the countries of Europe.

Britain's agreement with Argentina is completely out of harmony with such objectives. It is strictly a two-way affair.

Paul Hoffman, head of ECA, says he is unalterably opposed to the new agreement. He regards it as directly contrary to the course Britain should be following.

Why has Britain taken a step so obviously in contradiction of Marshall Plan aims? The answer is easy. The British are doing everything possible to obtain the food and raw materials they need.

The American recession plus what many experts believe is an overvalued British pound generally are blamed for the drop in Britain's exports to the United States.

The dollar crisis explains also why Britain has blocked all attempts to improve arrangements for payments among the whole group of Western European nations.

Both Hoffman and the State Department took note of the British dollar dilemma in their reaction to the Argentine pact.

They are properly grateful for the courageous recovery effort the British have made. They know an economically weakened Britain would detract from the solidarity of the western powers in political combat with Russia.

But they still resent—and we think rightly so—what seems to be a single-minded attempt to produce a sort of private, well-insulated recovery for Britain that contributes but a fraction of what it should offer toward the permanent economic health of all Marshall Plan countries.

"So what if Dorothy is snobbish? We need some dues-paying members, and you ought to see the swell feeds her mother throws!"

The Seed That Returns a Hundredfold, They Hope

Illustration by [Name]

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

WASHINGTON—Summer is not a time when the American public likes to worry about world problems.

Drew Pearson says: Summer weather seems to breed world catastrophes; England has five possible choices in economic crisis; Barter trade with Russia would revive Soviet economy.

WASHINGTON—Summer is not a time when the American public likes to worry about world problems.

For reasons unknown, however, fate has seen to it that some of the world's most catastrophic events were captured upon us at a time when our primary concern was baseball, beaches, and bathing beauties.

It was July, 1914, that the Serbs saw fit to assassinate Austrian Archduke Franz Ferdinand, thus precipitating World War I.

Between 1921 and 1931, the United States had poured several billion dollars into European reconstruction in the same general way we have poured money into Europe since V-E Day.

Both Hoffman and the State Department took note of the British dollar dilemma in their reaction to the Argentine pact.

They are properly grateful for the courageous recovery effort the British have made. They know an economically weakened Britain would detract from the solidarity of the western powers in political combat with Russia.

But they still resent—and we think rightly so—what seems to be a single-minded attempt to produce a sort of private, well-insulated recovery for Britain that contributes but a fraction of what it should offer toward the permanent economic health of all Marshall Plan countries.

McKenney on Bridge

By WILLIAM E. MCKENNEY America's Card Authority

My old friend Frank E. Lyons, of Kingston, Jamaica, stopped in my office recently to pay me a visit.

Their son David had just finished his freshman year at Northeastern University in Boston and the whole family was returning to Jamaica.

Lyons is an ardent bridge fan. He is the founder of the Jamaica Bridge Association and was president for two years. He told me

that bridge is increasing more and more in popularity there. Many of the Jamaica players have participated in our national tournaments.

We discussed the importance of safety plays, and he pointed out that the one given in today's hand is frequently missed, even by good players.

Lyons said you should not play the queen. You should win the trick in your own hand with the ace of spades and then take the diamond finesse.

WRONG WAY: He remains seated. RIGHT WAY: He rises to greet her and offers her a chair.

Social Situations

SITUATION: A man is sitting at the desk in his office when a woman who has an appointment with him enters.

WRONG WAY: He remains seated. RIGHT WAY: He rises to greet her and offers her a chair.

THE DOCTOR SAYS

Newly-Discovered 'Q' Fever Could Pose Serious Menace

By EDWIN P. JORDAN, M. D. Written for NEA Service

In 1937 a new disease was described in Australia. The name "Q" fever was given to this disorder.

This disease was considered more or less of a curiosity confined to a certain portion of Australia until 1940, when an outbreak of Q fever occurred among research workers who were studying it in the laboratory.

In these laboratory investigators it was found to produce an inflammation of the lungs which in many respects resembled what is commonly referred to now as a typical pneumonia or virus pneumonia.

Good and choice fat calves 20.50-23.00; plain and medium calves 15.00-19.50; stocker and feeder yearlings 15.00-21.00; medium to good stocker calves 17.00-22.00; choice calves 23.00-24.00.

Hogs 700; butchers strong to 25 cents higher; sows and pigs unchanged; top 22.50. Good and choice 190 to 270-pound butchers 22.25. Good and choice 150 to 185 pounds 20.00-22.00; sows 18.00-19.00. Feeder pigs 17.00-20.00.

Sheep 5,000. Slaughter Spring lambs and yearlings weak to 50 cents lower, slaughter ewes and feeders steady. Good Spring lambs 19.00-21.00; common and medium slaughter yearlings 12.00-17.00. Common to good slaughter ewes 8.50-9.50. Common to good Spring feeder lambs 15.00-19.00.

Junior High Band Meet Set Tuesday

A Junior High School Band organization meeting will be held at 8 p.m. Tuesday in the band hall in the gymnasium, George Gates, director, announced.

He invited and urged all parents interested in training their children in the new band to attend the session. The musical unit will be composed of sixth, seventh and eighth grade students.

Band instruments will be displayed at the Tuesday night meeting, and aptitude tests will be given.

Band members enrolling this month may attend the Band School at Fort Stockton.

Return Of War Dead Now Nearly Complete

WASHINGTON—(P)—The task of returning home the bodies of Americans who lost their lives overseas in World War II is about done.

The Army said Tuesday only about 10,000 of the definitely identified whose relatives wish them brought back still are awaiting shipment.

In the two years since the program began more than 150,000 bodies have been brought home for final interment.

Malaria Drugs Used To Curb Cattle Disease

DETROIT —(P)—Some of the drugs used in combating malaria are now helping to curb a multi-million dollar cattle disease in this country.

The disease is anaplasmosis, which affects the blood of cattle. It is often confused with cattle tick fever, scientists say.

Use of anti-malarial drugs against anaplasmosis was described by Dr. Herman Farley of Oklahoma A and M College in a paper presented to the American Veterinary Medical Association Convention here.

Research workers at the college observed more than 90 per cent recoveries in infected cattle following injection of quinoline diphenylate, one of the anti-malarial drugs, Dr. Farley reported.

However, he stressed that only some of the anti-malarial drugs proved effective.

Lions Hear Plan For 'International City'

NEW YORK—(P)—Plans for construction of 'Lions International City' on the Lincoln Highway, south of Chicago, were outlined to the 32nd annual convention of Lions International Tuesday.

Eugene S. Briggs, of Enid, Okla., international president, announced that the international board has authorized the purchase of land for the project.

Fifteen thousand Lions and their ladies marched along Fifth Avenue Monday night in a three-hour parade.

An estimated 300,000 spectators watched the procession. Sixty-two bands and drum and bugle corps, and 23 floats were in the march.

Truman Flies To Speak To Shriners

WASHINGTON—(P)—President Truman flew to Chicago Tuesday for another statement on United States foreign policy. His immediate audience was the Diamond Jubilee of American Shriners.

He was scheduled at 3 p.m. Thousands of fellow members of the fraternal order, already were in Chicago from all parts of the country for their annual convocation.

Alex Leviness Goes On Trial For Murder

KOUNTZE, TEXAS —(P)—The Hardin County Courthouse here was packed Tuesday for the opening of the murder trial against Alex Leviness of Orange.

Leviness, 28, is charged with murder in the slaying of Mrs. Eloise Twitchell, 32, of Beaumont, last September 28. Mrs. Twitchell's decomposed body was found in a Hardin County woods 10 days after she disappeared while enroute from Beaumont to Colmesneil.

Dairus Goleman is charged jointly with Leviness. The case against him was delayed.

Hollywood, Here's A Critic

Melvin Edwards, six, went to an air-conditioned theater early one afternoon in Napeok, Ill., to see a double feature and escape the heat. The movies bored him. The cool air soothed him. So he fell asleep in the aisle and was still sleeping when searchers found him the next morning. Melvin yawned, "The show wasn't so hot, but that was the best sleep I've had in a long time."

15,000 Shriners Parade In Chicago

CHICAGO —(P)—The Shriners paraded down Michigan Avenue Tuesday to Soldier Field for a speech by President Truman. And a gorgeous cakewalk it was.

Nearly 15,000 promenaders, attired in such Arabic splendor as the Arabs never have seen, took part in the five-hour promenade along the lake front boulevard.

Bearing Shriners bands led the brightly-hued pageant of 1,000 units. It had a super circus touch, enhanced by clowns, acrobats and calliope.

The red-fuzzed members of the Ancient Arabic Order, Nobles of the Mystic Shrine, strutted their stuff on foot, on camels and on graceful Arabian horses. Shriners from all over North America are here for the Diamond Jubilee convention, and Tuesday's parade was one of the highlights.

A crowd of 100,000 was expected at the Soldier Field Stadium, where Truman, speaking as President of the United States, was to speak at 3 p.m. on foreign affairs.

He was scheduled to attend a private reception for about 50 ranking Shriners at 6 p.m. at the Stevens Hotel. He will remain overnight at the Stevens and return to Washington Wednesday.

A new plastic coating has been developed which will enable horticulturists and packaging specialists to minimize spoilage and wilt, which annually has resulted in thousands of dollars' worth of damage to fruit, vegetables, and other products.

Smith-Hall Betrothal Revealed In Abilene

ABILENE—Mr. and Mrs. O. O. Smith have announced the engagement and approaching marriage of their daughter, Jean, to Lee Roy Hall, son of Mr. and Mrs. Charles R. Hall of Midland.

The marriage will take place September 2 in the 14th and Vine Street Church of Christ, Abilene.

Both Miss Smith and Hall are students in Abilene Christian College.

Ethiopian Hanged For Murder Of Wife Of Texas Air Pilot

ADDIS ABABA, ETHIOPIA—(P)—(Delayed)—Tafari Abbe was hanged in the market place Saturday for the murder of Mrs. Gladys Folger, British wife of Ethiopian Airlines Pilot Ray Folger of Richmond Springs, Texas.

Mrs. Folger was found strangled in her apartment here March 31. Abbe said the killing was motivated by anger caused by Mrs. Folger's mistreatment of him but the court rejected the plea on the grounds of no supporting evidence. The prosecution introduced testimony to show jewelry found on Abbe belonged to Mrs. Folger.

Two Out Of Three Is Losing Average, Skunk Fighter Finds

SMITHS FALLS, ONTARIO—(P)—Two out of three is not a good batting average as far as skunks are concerned.

William Fowle, riding in a car which came on three skunks, leaped to the attack. He got one by stomping on it and another by nailing it behind the ear with a bottle.

The third fought back as only a skunk can. Fowle came home sitting out on the front fender of the car.

BUSINESS FAILURES SHOW SLIGHT INCREASE
NEW YORK—(P)—Business failures increased slightly in the week ended July 14. Dun and Bradstreet reported Tuesday.

The business reporting service listed 167 commercial and industrial casualties, compared with 158 in the preceding week.

Baby, It's Hot

These days, even a lady monkey gets her share of attention at the London Zoo. On hot days, Milady, center, is offered cooling drinks and shelter from the sun by two fellow-adminers.

PETER EDSON'S Washington News Notebook

Barkley Gets Hot-And Last Word; Businessmen Wait For Tito Break

WASHINGTON—(NEA)—Washington's new number one hostess, Mrs. Morris Cafritz threw an outdoor steak roast at her big estate to celebrate a wedding anniversary and the departure from town of her social rival, Mrs. Pearl Mesta, new minister to Luxembourg. A photographer was doing his stuff around the grill when Mrs. Cafritz remarked that he shouldn't keep Vice President Barkley too close to the fire too long—he might get too hot. "Yes," cracked Barkley, "and if I get too hot, you'll be bothered."

New U. S. Market?
American businessmen apparently just can't wait for Marshal Tito of Yugoslavia to break with the Communist East, and embrace the non-Commie West. U. S. Embassy at Belgrade has had to notify Washington that it can no longer answer requests from U. S. business firms seeking sales agents for their products in Yugoslavia. The requests

got so numerous that the embassy staff couldn't handle 'em. Every answer involved a long explanation of state trading monopolies by nationalized industries that have exclusive export-import rights.

Reds Expose Own Myth
Closer study of proceedings at the recent Council of Foreign Ministers meeting reveals the full sham of the Russian bargaining position at Paris. Foreign Minister Vishinsky never made one proposal to give the Germans more self-government, more liberties, more freedom. Members of the Russian mission said openly they thought the Germans already had too much privileges. The Russian attitude on German railway strike was that all strikers should be severely punished. This indicates that Russian propaganda about wanting a unified, independent Germany is a complete myth. In discussions about the Austrian treaty, the Russians argued constantly about their need to keep former German properties and the Russian profits from those industries. All in all it was a completely reactionary performance. It showed up the Russians as the capitalist imperialists, the Western Powers as the mor liberal.

Breakdown Of A Buck
This is how the U. S. government dollar was spent in the last fiscal year: Six cents went for social security. Thirteen cents went for veterans' benefits and another 13 cents went for servicing the public debt. Almost all of this 36 cents, therefore, went to pay for past wars. Aid to Europe took 16 cents out of the government dollar. This was just two cents less than the 18 cents that went towards the cost of general government outside the military. The armed services took the remaining 34 cents of the dollar. These figures are being cited to refute the idea that the U. S. now has or is approaching what's called "the welfare state." If it's approaching anything, it's a state of war.

Still Most For The Money
Congressional delving into B-36 bomber history will show that this plane first went on the drawing boards in 1940 and 1941. A committee headed by Robert A. Lovett, then assistant secretary of War for Air, did most of the planning before Pearl Harbor. Gen. H. H. (Hap) Arnold approved the plans. It was to be a "slow" 200-mile-an-hour bomber. Postwar developments improved it and "souped it up" to its present rating of more than 350-miles-an-hour speed and more than 40,000-foot ceiling. The admittedly heavy development costs having been written off, the B-36 now is regarded by the Air Force as the most plane it can get for the money. Air Force officials now say they never have claimed that the B-36 could not be intercepted, and they'll stick to this line in coming investigations. The U. S. Air Force lost many bombers in the last war and knows that they can be shot down. But the claim will be made that the B-36 will be harder to shoot down because of the greater range and speed, heavier armor and greater fire power to fight off enemy attack planes.

Atomic Timetable
Here is a timetable on future atomic power production. It was given by Atomic Energy Commissioner Sumner T. Pike to a group of private industry executives and members of the press at a recent Army-Navy-Air Force orientation short course. Design of two commercial-type power reactors or "piles" has been completed. They will be under construction at the new Idaho atomic reactor testing center before the end of 1949. Two others will be built from 1952 to 1954. Atomic power for propulsion should be available within five to eight years. It will not be competitive with other sources of power like coal or petroleum, save in remote areas where transportation costs are high. It will be eight to 10 years before atomic power will be competitive with cheaper fuels.

Big Business
Rural electrification administration is now definitely big business. As it starts its fifteenth year of operations, REA has loans of \$1,272,000,000 outstanding. It serves 3,350,000 members—a little more than half the total number of U. S. farms—through 1,100,000 miles of wire. Almost \$205,000,000 has been repaid on outstanding loans. Another \$420,000,000 worth of loan applications are on file. The REA system has more than doubled in the last two years and continued growth at an even greater rate is indicated.

Housing Law Into Action
It will be another week or two before the Housing and Home Finance Agency will be ready to advise cities what they have to do to get benefits under the new housing law. Federal Housing Administration will handle the slum clearance provisions of the bill. Public Housing Administration will make arrangements for the construction of approved low-rent housing projects. There are now more than 600 local housing authorities, two-thirds of which are operating properties built under the old public housing law. Construction of most of the 25,000 family units approved under the old law but held up by war priorities is expected to get under way this year, plus another 25,000 or 30,000 new units. The large number of local authorities seeking assistance under the new law indicates that many of the new developments will be in smaller towns. In fact, the new law specifies that 10 per cent of the federal government contribution in the next three years must be set aside for rural, non-farm housing. No one can yet estimate how much slum clearance will be carried out under the new law.

Officer Gets Job Soothing Tempers

MIAMI, FLA.—(AP)—T. E. Rakestraw, Miami Policeman, has completed a mission that friends believe is deserving of some sort of medal. Rakestraw was sent to Atlanta, Ga., to pacify the tempers of some 40 Atlantans who had received notices from the Miami police department to "please remit \$3" for traffic violations.

The hitch was that none of the Atlanta motorists had been in Miami. Georgia license tags expire in April. Miami police thought the 1948 tags were still in effect. The violators were listed under 1949 numbers.

Tempers of the unjustly accused have been soothed, Rakestraw reports, and now he's after the real violators.

The tin plate industry began in Bohemia in 1240.

Everglades Farmers Find Rising Profits In Diversification

BELLE GLADE, FLA.—(AP)—Farmers in the Florida everglades are reaping new harvests of dollars with diversification.

Sweet corn, beef cattle and ramie are among the crops just coming into prominence, joining such standbys as winter vegetables and sugar cane to build an empire in the mucklands.

The transformation in two decades is amazing. A newer, more stable prosperity is apparent everywhere in this vast region that extends roughly from Okechanta west to Clewiston and north to Okeechobee, on the south and east sides of the big lake.

Comfortable homes, modern schools, neat churches and substantial public buildings have replaced the rows of unpainted shacks so common in this section 20 years ago. Then it was a one-crop area or at most a land of winter vegetables plus some scrub cattle, with alternate seasons of flood and drought, muck fires and frosted fields. Farmers were rich one year, broke the next.

Endless Rows
Fields which used to crowd the rim of the lake now stretch fan-wise east and south to the horizon. Endless rows of growing things are everywhere—miles upon miles of them, bordered by tall Australian pines lining clean, swift-flowing canals which only a few years ago were choked with water hyacinths.

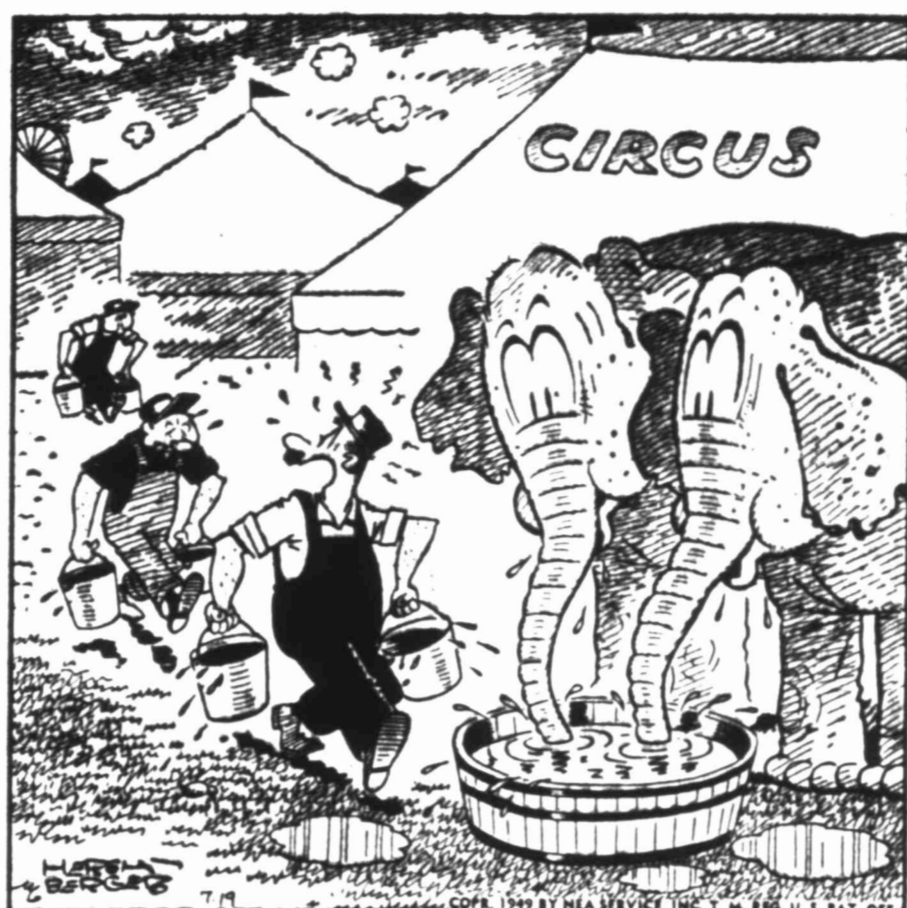

Thousands of migratory farm workers were brought in, housed in comfortable dormitories and paid fair wages. Sugar cane came. In 20 years or so it has grown into the largest single industry in the glades, employing more than 8,000 workers.

Cross-breeding has improved the native herds of cattle. Pure bred Brahman were crossed with Devon, Jerseys, Guernseys and Herefords to produce more milk and better calves. R. M. Kidder, animal husbandman at the everglades experiment station, has been working on this project since 1931. He has crossed Brahman and Devons to produce hybrid animals 200 to 300 pounds heavier than either breed. Devon calves will average 80 pounds at birth, hybrids 72.

Sweet corn brought the Area new prosperity this Spring. More than 1,000 carloads were shipped from an estimated 8,000 acres. Many growers reported profits of \$1,000 an acre or more. H. L. Speer, assistant Palm Beach county agricultural agent, believes next winter's corn planting may reach 10,000 acres.

Within the last three years ramie has become an important industry and this Summer an estimated 1,500,000 pounds of valuable fiber will be harvested from 1,400 acres of this "China grass." Newport Industries, Inc., only large commercial ramie producer in the nation, will put in an additional 800 acres next year.

Police, FBI Seek Clues As Atomic Worker Disappears

SANTA FE, N. M.—(AP)—An El Paso hotel and possibly the railway stations at Phoenix, Ariz., provide the latest clues to the whereabouts of H. Tracy Snelling. The 37-year-old public information director at the Los Alamos Atomic Energy Commission Project has been missing since last Wednesday.

Los Alamos Security Guard officers, the FBI, New Mexico State Police, the Texas Border Patrol and Santa Fe officers have joined in the search. Late Monday, Manager Jerry Palanco of Hotel Walter in El Paso announced that Snelling registered there Thursday and checked out at noon Saturday. He was accompanied by Albert Bourland of San Diego, Calif., Polanco said. Saturday, before checking out, they asked train schedules to Phoenix.

Patterson, Clark, Others Mentioned To Succeed Murphy

WASHINGTON—(AP)—The death of Justice Frank Murphy opens the way for President Truman to name his third appointee to the Supreme Court. By tradition, the post would go to a Roman Catholic; since Murphy was the only member of that faith on the tribunal.

Howe, there has been widespread speculation for months that Robert P. Patterson, New York lawyer and former secretary of war, would get the nod when the next vacancy occurred. Others who have figured in Supreme Court speculation include Attorney General Tom Clark, a Texan, and Senator J. Howard McGrath of Rhode Island, chairman of the Democratic National Committee. O'Mahoney, McGrath is a Catholic.

Scott Resigns As Chairman Of GOP

WASHINGTON—(AP)—Hugh D. Scott's decision to quit as Republican national chairman Tuesday found A. T. "Bett" Howard, Nebraska state chairman, gaining strength as his likely successor. Friends of Howard talked of a compromise under which the Nebraska might be named chairman, with former Senator John Danaher of Connecticut chosen as executive director of the committee. Scott, brought into office by Gov. Thomas E. Dewey of New York at last year's national convention, announced Monday night he will hand his resignation to the national committee at a meeting here August 4.

World Series Film Seen By Optimists

The Optimist Club saw a movie of the 1948 World Series, played by Cleveland and Boston, at the luncheon held Tuesday noon in the Crystal ballroom of Hotel Scharbauer.

Stanolind Acquires Dickens Big Spread

Stanolind Oil & Gas Company has acquired ten-year commercial leases on a checkerboard spread of approximately 150,000 acres in West Dickens County. Consideration was a cash bonus of one dollar per acre with an annual rental of 50 cents per acre.

Flanagan Offset To Try Clear Fork Pay

Attempts are to be made at completion in the Clear Fork section of the Permian at Magnolia Petroleum Company No. 2 Flanagan estate, exploration originally projected to the Ellenburger in the Flanagan area of South-Central Gaines County.

A two-hour and 30-minute drill-stem test of the Clear Fork at 7,070-170 feet recovered 2,511 feet of free gas in drill pipe and 118 feet of oil and gas cut drilling mud, with no water.

A Schlumberger survey was run and seven-inch casing was cemented on total depth 7,170 feet with 400 sacks. Operator was waiting for cement to cure before drilling plug and making tests.

The venture, 660 feet from south and west lines of section 9, block A-23, psi survey, was believed to be running considerably low to the Ellenburger discovery opening the Flanagan field.

BROWN COUNTY LISTS FIRST '49 POLIO DEATH

BROWNWOOD—(AP)—A five-year-old Brown County lad died of polio Monday night in an ambulance taking him to Fort Worth. Robert Dorman Lofton, son of Mr. and Mrs. Dorman Lofton, was Brown County's first 1948 polio fatality. His was the first polio case in Brown County in several months.

Jobless Turning To Communism, Labor Leader Tells ADA

WASHINGTON—(AP)—A labor leader said Tuesday many jobless workers already are paying attention to Communist preachings. Emil Rieve, president of the CIO Textile Workers, told a "full employment conference" of Americans for Democratic Action (ADA) that cities and towns hard-hit by unemployment make "a wonderful breeding place for communism."

The ADA is a political organization including many who once were prominent in the Roosevelt New Deal; its rules bar Communists from membership. "All the agitation in the world by the Communist Party in the United States during the years of full employment bore almost no results," Rieve said.

"During the last few months, however, it is clear that in desperation many of the unemployed workers are at least giving an ear to demagogic appeals of the Communists. USCC Asks Price Cuts

"You don't have to like communism or be sympathetic to it to realize that so long as unemployment continues and grows in the United States, the Communists will have a field day."

Meanwhile, the United States Chamber of Commerce took issue with the report recently prepared for the CIO by Economist Robert Nathan. The Nathan report contended higher wages can be granted by employers out of current profits. Nathan had claimed wage boosts would buoy purchasing power.

Herman W. Steinkraus, the chamber's president, said a four round federal wage increase would benefit only about 3,000,000 workers in certain industries. Instead, he urged labor to forego wage increases now and called on business to reduce prices as fast as possible.

Appeal Court Upholds Oilman's Conviction

NEW ORLEANS—(AP)—Two years in prison and \$10,000 fines given federal jury sentenced on May 24, 1948. They are Burton, former State Senator Joe C. Cawthorn of Mansfield, and Marcel F. Labranche of New Orleans. The conspiracy charges were the result of Burton's trial in June, 1945, on charges of evading \$135,000 in income taxes.

Atomic—

(Continued From Page One) ing the possibility of sending abroad one or more bombs—in American hands—if these should be sudden worsening of world conditions. Atom Export Illegal

It was emphasized by those who spoke on such a move that the need for stockpiling bombs abroad seemed only a remote possibility at this time. Study of the Atomic Energy Act indicates that, short of war itself, it now is illegal to export "any equipment or device utilizing fissionable materials or atomic energy as a military weapon." That could mean an A-bomb.

Lawmakers generally agreed that the law also bans an exchange of atomic weapons information with other countries until Congress declares by joint resolution "that effective and enforceable international safeguards against the use of atomic energy for destructive purposes have been established."

Until McMahon's statement, which undoubtedly had White House approval, the Blair House conference was an official mystery. But reports seeping out over the last few days had left little doubt as to the nature of the discussions.

During the war, Britain and Canada took an active role in development of the atomic weapon in this country. Both nations now have atomic furnaces in operation and Britain has announced her intention of producing atomic weapons.

Dr. Robert F. Bacher, a former member of the Atomic Energy Commission, recently said he thought Britain would be successful. Bacher also said that since the passage of the present Atomic Energy Law in 1946, the cooperation between the three wartime partners in the atomic field has been "zero."

The law bans exchange with foreign countries of fissionable materials or atomic "industrial" information. Since the war the United States has changed and improved the design of its atomic weapons.

Texas Summer Heat Continues Tuesday

By The Associated Press It was hot and dry in Texas again Tuesday. Readings of 100 and higher were scattered over most of the state Monday, with the Gulf Coast an exception. Presidio's 107 was high. Salt Flat had 104; El Paso, Laredo and Wink 101; and Fort Worth, Childress, Wichita Falls, Mineral Wells and Dalhart 100. Precipitation was scanty for the 24 hours ended at 6:30 a. m. Houston had 31 inch, Brownsville .04, Salt Flat .02, and Galveston .02.

Violence—

(Continued From Page One) napping and causing bodily harm in connection with the Saturday offense. McCall said they have admitted the crimes.

National Guardsmen, called out by Sheriff McCall for the second night in a row, Monday night ringed the negro section here some distance from the flaming structures. There were 35 in the detachment which came here from Leesburg. The mob at Stuckey's still dispersed after the gas was thrown by the sheriff. He followed them to a country road, where he talked them into disbanding.

The situation cooled off as quickly as it had flared after the houses were destroyed. One of the homes was said to belong to the father of one of the suspects. Sheriff McCall released the National Guardsmen about 1:30 Tuesday morning but an augmented detail of nine Florida Highway Patrol cars remained.

Condemned Sergeant Is Denied New Trial

CORPUS CHRISTI—(AP)—William R. Ray, 34-year-old former sergeant-cook at Carlwell Air Base, Fort Worth, was denied a new trial here Tuesday in 13th District Court in his new effort to escape death for the rape of a nine-year-old Fort Worth girl on April 8, 1948. Ray was given the death penalty here July 10, 1948, in a change of venue from Tarrant County.

The wolf now is a rare animal in most parts of the United States.

Noted Jurist—

(Continued From Page One) wrong, he declared. "I believe they can be taught the right way without writing the lesson in blood."

As mayor of Detroit at the depth of the economic depression of the early '30s, Murphy asserted a great business depression should be as much a federal government responsibility as an earthquake. In one year he spent \$16,000,000 to feed and house the city's jobless. Murphy said he probably had saved that much and probably more by economies. He was reelected mayor.

Opinions Vigorous During the year he served as attorney general, political scandals were exposed in Louisiana, and Tom Pendergast, Democratic political boss of Kansas City, was sent to prison for income tax evasion. Murphy's last act as attorney general was to deny he had "for political purposes suppressed possible proceedings" against others.

When President Roosevelt nominated him for the Supreme Court at the beginning of 1940, Murphy, with characteristic modesty, said he thought others were much better qualified. He became a member of the tribunal without ever arguing a case before it.

On the high court bench, Justice Murphy had a mystical, almost priestly mien. Extremely mild-mannered, his benign attitude toward attorneys was emphasized by his softly-spoken questions. But his opinions were vigorous. His private motto was "Speak softly and hit hard."

MAJOR LEAGUES-

Tribe Nips Bosox To Gain On Yanks

By JOE REICHLER
Associated Press Sports Writer

Just seven weeks ago the Cleveland Indians were mired in seventh place in the American League. But what a difference the next 49 days made. The Tribe did an about face and went on to win 31 of their next 47 games, rushing past five opponents into second place.

Tuesday, the Indians are in their best spot since May 10. Following Monday night's 1-0 victory over the Boston Red Sox, the Redmen are only four and a half games behind the Yankees. The Yankees helped the Indians along by blowing a 6-5 decision to the White Sox in Chicago. The Philadelphia Athletics wrested third place from the Red Sox by outlasting the Detroit Tigers 13-8 in a 10-inning struggle.

The Brooklyn Dodgers increased their National League margin over the St. Louis Cardinals by a half game, beating the Chicago Cubs 3-0 while the New York Giants downed the Redbirds 7-4.

The Cincinnati Reds, behind a combination three-hitter by Ewell Blackwell and Eddie Evers, whipped the third-place Boston Braves 6-1.

Held scoreless for seven innings, the Pittsburgh Pirates erupted for seven runs in the eighth to defeat the Phillies in Philadelphia 7-2.

The Washington Senators and St. Louis Browns enjoyed a day off.

WT-NM League

Low-Limbers Hang Plasters On Three Top-Ranking Clubs

By The Associated Press

Albuquerque, Lubbock and Abilene, the one-two-three clubs in the West Texas-New Mexico League, all took it on the chin Monday night.

The cellar crew from Clovis won a double header from Albuquerque 9-8 and 14-11. Pampa hung a double killing on second-place Lubbock, 3-2 and 7-5. Lamesa downed third-place Abilene 7-5. And Borger copped a twin bill from Amarillo 7-5 and 4-3.

Clovis copped the opener from Albuquerque after one extra frame. Virgil Richardson hit a home run, a double and a single in three trips to bat Pampa to victory over Lubbock in the opener. Four Pampa home runs in the sixth won the second contest.

D. C. Miller singled in the ninth to score two runs that gave Lamesa the edge.

Bob Ferguson's home run in the sixth sparked Borger to victory in the opener. Borger tallied two runs in the ninth to cop the final.

Syracuse University's 15 sports teams won 83 contests while losing 49 tying two during the past year for a .529 winning average.

Western Plastic Of Midland Wins First Game In Monahans

MONAHANS—Western Plastic of Midland won its opening game in the Monahans JayCee Invitation Softball Tournament here Monday as John Daylong set the Shell Oilers along by blowing a 6-5 decision to the White Sox in Chicago. The Philadelphia Athletics wrested third place from the Red Sox by outlasting the Detroit Tigers 13-8 in a 10-inning struggle.

The Brooklyn Dodgers increased their National League margin over the St. Louis Cardinals by a half game, beating the Chicago Cubs 3-0 while the New York Giants downed the Redbirds 7-4.

The Cincinnati Reds, behind a combination three-hitter by Ewell Blackwell and Eddie Evers, whipped the third-place Boston Braves 6-1.

Held scoreless for seven innings, the Pittsburgh Pirates erupted for seven runs in the eighth to defeat the Phillies in Philadelphia 7-2.

The Washington Senators and St. Louis Browns enjoyed a day off.

Softball Leagues Schedule Playoff

SAN ANGELO—(AP)—Champions of the Texas Softball League and South Texas Inter-City Circuit meet here Saturday night to determine the representative in a four-state regional tournament.

Tony Martin of Houston will represent the South Texas League. Brownwood, Stamford, Lubbock and Crane are in a playoff to determine the winner of the Texas Softball League.

Action On Angelo Shrine Temple Is Delayed For Year

Action on the application for a charter for a Shrine Temple in San Angelo was postponed a year by a Shrine committee on dispensations meeting in Chicago this week, according to information received here.

Briefs and petitions asking the charter were presented at the Chicago meeting Sunday by a group of five Shriners from the proposed temple, including J. M. McDonald of Midland, Virgil Musick, J. N. Clark and O. L. Sims of San Angelo, and Raymond Thomason of Abilene.

"Indications are that we are in a much better position than ever before to get the temple," McDonald said. "It also gives us another year in which to allow additional West Texas Shriners to become charter members."

The principal reason for the postponement was to allow time for further study of the application, particularly jurisdictional lines, it was reported here. No objections to the application were received in Chicago.

The West Texas group is attending the annual Shrine convention in Chicago.

NOTED POET DIES
SANTA FE, N. M., (AP)—Mrs. Alice Corbin Henderson, 68, Co-founder of Poetry Magazine and a noted poet, died Monday at her ranch near here.

Junior Qualifying Is Underway Here

Junior golfers from throughout West and North Texas teed off in the Sectional Qualifying Round of the National Junior Championship Golf Tournament here Tuesday morning in a battle for five places in the national meet at Washington, D. C., late this month. The sectional round and the national tourney are sponsored by the United States Golf Association.

SMU Loses Pair Of Grid Prospects To No-Marriage Ruling

DALLAS—(AP)—Two outstanding football prospects chose wives over Southern Methodist University.

Hugh Reeder of Port Arthur and Gordon Headlee of Odessa lost their athletic scholarships when they married this summer. Neither plans to return to the Dallas school.

Coach Matty Bell reinstated the pair on no-marriage rule with start of school last Fall, the Dallas News said.

Lee Pinkston of Abilene and Graham Mackey of Midland are favored to lead the pack. However, they will be hotly contested by other top flight juniors who have their eyes on a spot in the biggest of all events for young golfers.

Hogan, Hardwicke Direct
Fred Hogan of Midland, USGA representative for this area, is in charge of the qualifying round.

Medal scores posted Tuesday will qualify the youngsters for the Midland Country Club Junior Invitation Tourney which gets underway with match play Wednesday morning. The finals will be held Thursday.

Trophies will be awarded to winners in each flight in the invitation meet.

J. C. Hardwicke, country club pro, will be in charge of the invitation tournament.

Sammy Snead Wins Dapper Dan Joust

PITTSBURGH—(AP)—Sammy Snead pumped his pars and birdies out of Alcoma's soggy fairways as methodically as the oil well that stands behind the 18th green to win the \$2,600 top money in the Dapper Dan Golf Tournament Monday.

Under pressure all the way as a result of Lloyd Mangrum's final round of 81, Snead came through with the score he needed, a one-under-par 71, to win by one stroke.

The White Sulphur Springs (W. Va.) wallper posted a 72-hole total of 274 in this rain-delayed tournament.

Former U. S. Grid Player Identifies Iva As Tokyo Rose

SAN FRANCISCO—(AP)—An American-born former football player who became a Japanese citizen and the Tokyo Rose treason trial jury she called "Dopes" and "My Boneheads."

Kenkichi Oki, 36, who was born in Sacramento, Calif., and played football for New York University in 1938, testified Monday and was to take the stand again Tuesday.

He identified Mrs. Iva Toguri D'Aquino, 33-year-old native of Los Angeles, as the girl who broadcast "Orphan Ann" and "Zero Hour" programs for wartime Radio Tokyo. She is accused of eight acts of treason in writing and broadcasting programs to lower American troop morale.

"Orphans of Pacific"
Oki testified it was Radio Tokyo policy to avoid telling reporters after the surrender who Tokyo Rose was.

"We had no particular reason to tell, so we said we didn't know," the key government witness said.

He acknowledged the Japanese Broadcasting Corporation used several women announcers, including his wife.

Oki, bowing to his father's wish, went to Japan in 1940 and became a citizen. He produced the "Zero Hour" radio show beamed to U. S. troops in the Pacific.

He said Mrs. D'Aquino handled sweet music on "Zero Hour," wrote scripts and broadcast them. After the battle of Leyte Gulf, he said, Mrs. D'Aquino wrote a script and broadcast that the Americans had lost all their ships and were "really orphans of the Pacific."

RIFLE STOLEN

A Snyder resident Tuesday reported to police the theft of a .22 caliber rifle from his parked automobile here.

BOOTS TAKEN

Midland police Tuesday received a report of the theft of a pair of ladies boots from a residence here.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 19, 1949-9

Legion Nines Point To State Meet At Bryan August 2-5

By The Associated Press

Texas American Legion baseball teams can't afford mistakes now—they're in the playoffs.

Seven bi-district champions already have been determined and most of the others are in the midst of series to determine winners.

Wichita Falls and Lubbock square off Tuesday for the right to meet the winner of the Odessa-El Paso series. This also gets underway Tuesday.

Wichita Falls won District Three and drew a bye in bi-district. Hereford lost to Lubbock, District Two champion, in the first round of the playoff.

The state meet is scheduled August 2-5 at Bryan.

Waco, District 14, titlist, and Stephenville, winner in District 13, open their bi-district series Tuesday.

Waxahachie blanked Tyler 1-0 Monday in the first of a three-game series, while Galveston whipped Campo 19-3, 8-5 to win in this meeting of District 21-22 champs. Palestine beat Temple 13-8 to win the first tilt of this district series. Denison edged Sulphur Springs 2-1.

South Park of Beaumont went one up on Jeff Davis of Houston, winning the first game of the series 7-4.

Austin, Sunset of Dallas, Jefferson of San Antonio, and Corpus Christi already have won bi-district play.

Tuesday, Denison and Sulphur Springs meet at Sulphur Springs and Temple and Palestine play at Palestine.

Both Lubbock and Wichita Falls are undefeated. Lubbock has won 11 games and Wichita Falls nine.

Shooters From Three Towns Split Prizes

The fourth Hi-Power Rifle matches went over big at the ranges of the Permian Basin Rifle and Pistol Club at Midland Air Terminal Sunday. Shooters from Midland, Odessa and Lubbock walked off with the prizes.

Here are the winners in order for the nine events: B. B. Davis of Odessa, C. W. Sellon of Odessa, B. R. Brady of Lubbock, M. L. Cox of Odessa, P. D. Moore of Midland, S. Gooden of Lubbock, E. L. Phillips of Odessa and Earl Kizer of Odessa.

Standard, Reporter-Telegram Win Games In Softball League

Standard of Texas knocked Joe's Gulf back into a tie for second place Monday night by taking a 6 to 1 decision in a Midland Softball League tilt at Wadley field. The win leaves the two teams even in the standings and both are a full game behind league leading Western Plastic.

Bob Dean scattered seven hits well for Standard in hurling the win. As usual, Harold Sherrod sparked the hitting with a home run for Standard.

Price and Matejack hurled for the Gulf nine and gave up nine hits, not too well spaced.

Wheeler, Evans and Gressett played air tight defensive ball for the winners.

The Reporter-Telegram came to life and moved out of the cellar by smothering the Rebels 14 to 7. Leroy Collyar, a hard-luck hurler all season, notched his third victory.

Flea Bizzell was tagged with the loss.

Midland-Ballinger Series Opens Here

The Midland Indians open a three-game series with the Ballinger Cats at 8:15 p. m. Tuesday in Indian Park.

Ralph Blair or Leon Hayes will hurl for Midland against Roberto Rodriguez or Bill Gilliam of Ballinger.

It will be the final three-game series between the two clubs here. Ballinger returns here for two games to end the season in September.

A Winning Combination!

- AMPLE FOOD STORAGE
- GREATER ECONOMY
- MORE CONVENIENCE
- GREATER FOOD SAFETY

—ELECTRICALLY!

Either an electric refrigerator or an electric home freezer is an extremely valuable asset in any home but the combination of the two multiplies their individual benefits many times over.

For perishables which don't lend themselves to solid freezing—milk, eggs, beverages, left-overs, jellies and the like—an electric refrigerator is the complete answer to the food storage problem. For berries, fruits, meats, poultry, game birds and animals, vegetables and other important food items, the electric home freezer provides ample protection over long periods of time.

Together, these two—the electric refrigerator and the electric home freezer—form an unbeatable food-storing combination.

Daddy Ringtail By WESLEY DAVIS

Daddy Ringtail And Tell My Fortune

"It's the Monkey Catcher from the zoo!" Daddy Ringtail said. And then the firetruck came up in a hurry with the motor roaring and the siren making its siren noise.

"Happy day, Mr. Monkey Catcher," Daddy Ringtail said. Mugwump stood ready to run. He wasn't about to be caught by the Monkey Catcher, he hoped.

I have, and I have it right here in my firetruck. "Careful, Mugwump," Daddy Ringtail whispered. "Don't let him catch you!"

The Monkey Catcher turned a turning crank on the fortune telling machine. It made a noise like the ding of a bell, and out came a little card. It was a card with Mugwump's fortune written on it.

"Gotta!" said the Monkey Catcher, and there he had grabbed hold of Mugwump's arm and put him in the firetruck.

But Mugwump said: "Too late. Too late for poor little Mugwump. My fortune said he would catch me today!"

—By MERRILL BLOSSER

tomorrow—now you mustn't worry about it—tomorrow I'm going to tell you what Daddy Ringtail did about it. Mugwump is going to get away, because something was wrong with the fortune telling machine that said he wouldn't. Happy day! Happy waiting for the adventure tomorrow.

City Cab Stresses Courtesy

Horace Newton, who has been manager of the City Cab Company for seven years, constantly impresses all drivers that courtesy and safety must be kept at a high standard.

The company's office is at 311 North Colorado Street.

All the cabs operated by the firm are equipped with two-way radios and the drivers are in contact with the dispatcher at all times. This gives assurance of quicker service since the nearest cab in the vicinity immediately is ordered to the place from which the call came.

The firm offers cab service 24 hours a day.

The automobiles used by the City Cab Company are serviced regularly and the brakes are checked at regular intervals to insure uninterrupted service as well as a safeguard against accidents, according to Newton.

Utmost In Service

Four of the five cabs in operation are 1948 model automobiles and the other is a 1948 model, which assures the utmost in comfort and service to the passenger.

Courtesy has become a by-word with the firm's personnel and all drivers must pass rigid driving tests for employment by the company.

Although Newton has been at the head of the City Cab Company for seven years, it has been serving Midland for many more years.

West Firm Guarantees Good Weatherstripping

Good weatherstripping is very essential in this section of the state and F. W. West guarantees his product and workmanship to fill the bill.

All weatherstripping installed by West stands the most exacting tests and any faulty workmanship which may inadvertently occur will be made good, at no cost.

West maintains an office at his home on the Cloverdale Road, three-eighths of a mile from the "Y," on the right hand side of the highway. The telephone numbers are 1539-J and 3124-J.

West has been in the weatherstripping business 12 years and all his employees also are experienced. No man is put on a job by West without at least six months under his personal supervision.

West declares that his weatherstripping serves the purpose for which it is intended, rather than being a makeshift affair, and that its installation actually will save 20 per cent on fuel bills, besides keeping out the sand.

Proud Of Results

West and his employes take pride in their work and product, the Master Weatherstrip and No-Draft Sash Balance, and that is why, says West, "We will put the results against any other example of installation."

He added that even the best of weatherstripping is no good without expert installation.

He is sales representative of the Master Weatherstrip Service Company of Chicago.

Teacher's Neatness Lessons Pay Off

BILLINGS, MONTANA—(AP)—During her 32-year teaching career, Miss Cora McCormick always stressed neatness to her pupils. That was one reason it distressed her so much when the weeds in her back yard took over and she was unable to cope with them. A neighbor—and former pupil—noticed Miss McCormick's plight. She called other former pupils of the now retired teacher.

Sunday morning at 9 o'clock sharp, former McCormick students began arriving at their one-time teacher's home. The men-folk cleared off the weeds, spaded up the grounds, sowed grass seed and had the new lawn all watered down by noon.

The women cooked food for "lawn party" guests at the house next door.

And all sorts of gifts arrived from former pupils. There were flowers, a lawn chair, a cancelled bill from a tree surgeon and a guest book signed by three generations of Miss McCormick's former pupils.

GRAMMER-MURPHEY Women's Wear

Friend Wife Gives Wilbur Ego Booster

By HAL BOYLE
NEW YORK—(AP)—The monotony of modern life sometimes got Wilbur Peeble down. He felt that way this morning when the alarm clock shrilled him awake. "Animals don't have to wake up to an alarm clock," he said. "Why should men? The day I retire I am going to throw that darn thing right through the window." But, he figured moodily, that would be 30 years from now, and who could say whether he or the alarm clock would wear out first? Driving to work Wilbur growled: "Here I am, just one of maybe 20,000,000 jokers in a mortgaged motor car trying to beat the boss into the office. And there probably are 50,000 traffic cops hiding behind the bushes to catch us. Every day it's the same." Monotony, Monotony When he got to his desk, he looked around. There were at least 50 other desks exactly like his. And so it went all the way—monotony, monotony. When Wilbur got home he was in a blue funk. He kissed his wife absent-mindedly. Then as he looked out at the 14-story apartment across the way he thought unsteadily: "I'll bet right now a husband on every floor just walked in and kissed his wife." He turned to Trellis Mae and asked: "Honey, why did you marry me anyway?" "Why, because you were so different," she said. "How do you mean?" "Oh, I don't know. You were just different from the others." "M-m-m-m," said Wilbur. He walked into the bathroom, closed the door and studied himself in the mirror. Yes, there were lines of honest character in the face that looked back at him. "I do look a little different," said Wilbur. "Women are really perceptive." He felt much better. Trellis Mae Wonders In the living room Trellis Mae mused to herself: "I wonder why I really did marry the big ape. I guess it was because he looked so lonesome — like he needed to settle down and lead a nice calm life." Then Wilbur came back in. "Put on your glad rags, kid," he said. "Let's have dinner out and take in a show." "People don't say things like 'glad rags' anymore," laughed his wife. "I do," said Wilbur, "I'm different, kid."

Rockwall Pair Must Face New Trial On Civil Rights Charge

DALLAS—(AP)—Federal Judge T. Whitfield Davidson has refused to dismiss a three-year-old Rockwall County snage case. He ruled Monday the case charging a former sheriff and a jailer of Rockwall County with depriving a negro farmhand of his civil rights must go to trial a second time. No date for the trial has been set. Attorney Jimmy Martin on May 11 asked Davidson to dismiss the case. He represented Jack Pullen, the ex-sheriff, and Luther Hunter, the jailer. Pullen, Hunter and three other men were tried by a jury in Judge Davidson's court in November, 1946, on a four-count indictment charging them with reducing the negro, R. D. Andrew, to a state of peonage to make him work off a \$15 debt to Pullen. The other three were Rockwall County Sheriff W. J. Price, Terrill Constable William Frazier and Norris Pierce, a Rockwall County farmer. The jury acquitted Pierce. It found the other four men guilty on the third count of the indictment only—the misdemeanor of depriving Andrew of eight basic civil rights. The other three counts were dismissed. Two Pay Fines Frazier paid a \$250 fine, and Price a \$1,000 fine. Pullen was sentenced to pay a \$1,000 fine and serve a year in prison or be sentenced to six months in prison and a \$500 fine. Pullen and Hunter appealed, and about a year later the Fifth Federal Circuit Court of Appeals reversed the verdict and ordered the case retried. Justice Department prosecutors prepared and filed a new case, based only on the alleged civil rights violation and not on the peonage question. This was the case Martin asked the judge to quash. He argued that without the charges of peonage, the charge of civil rights violation was meaningless. He also argued Pullen and Hunter were being put in double jeopardy—being tried twice for the same offense.

Problem Of Blood Bank Being Studied

MONTREAL—Your red blood corpuscles are like a community of people. They are made up of individuals, ranging from newly born to old age. While not all survive to a ripe old age, they tend to a fairly uniform life-span of four months. The things that affect their life span and their work are under study at McGill University's department of biochemistry. The purpose is to improve blood bank preservation. The work is in charge of Dr. Orville P. Denstedt, who was one of Canada's wartime blood-storage experts. In health nearly one per cent of your cells die each day. They are quickly discarded and replaced with newcomers born at the astounding rate of about 10 billion each hour. In cold storage, in a blood bank, the death rate of these cells is about one per cent per day. But the bank doesn't get rid of them like your body. When banded blood is given by transfusion, the defunct corpuscles are quickly thrown out, all except the iron in their red coloring matter. Your body takes that iron, and either stores it in the liver, or sends it immediately to the bone marrow to manufacture fresh hemoglobin, the red stuff, for newly formed corpuscles. How long a red corpuscle lives depends on several conditions. One is the efficiency of his internal chemical processes. Although it takes a microscope to see a single corpuscle, each one is an elaborate chemical plant. The machinery of this little plant is enzymes. Some enzymes enable the corpuscle to use sugar and other foods. Other enzymes help it to get oxygen and to rid itself of carbon dioxide. The preservation of the corpuscles in blood banks is to a large extent a matter of keeping these enzyme systems working.

4 RARE IRIS \$1

English originations, value to \$4 per tuber from world famous Puget Sound Iris beds. BLACK MAGIC, Jet black, very rare. Plant now, will multiply five times first year. DOG ROSE, Dainty orchid in color and shaped like an orchid. An exquisite variety. CONSTANCE MEYER, Brilliant red. A consistent prize winner. SUNSET GOLD, Flaming orange. Multiplies rapidly. Japanese Immune To Polio, Says General TOKYO—(AP)—Japanese apparently have developed a natural immunity to polio. General MacArthur's public health chief said Tuesday. Before 1947, said Brig. Gen. Crawford P. Sams, the disease wasn't reported because of its relative rarity. Last year, when there were 27,000 cases in the United States, Japan had only 980. "Occupation personnel may contract the disease from one another," Sams said, "but it is unlikely polio will be transmitted between the races."

THREE DEAD, SIX MISSING IN JAPANESE LANDSLIDE TOKYO—(AP)—Six persons were missing Tuesday in a landslide which buried three houses in Kumamoto City, Kyushu. Of 20 occupants, Kyodo News Agency said 11 were rescued. Three bodies had been recovered. TO PAY DIVIDEND BIG SPRING—(AP)—Holders of preferred stock will be paid \$1.65 a share on account of accumulated dividends in arrears. R. L. Tollett, president of Cosden Petroleum Corporation has announced.

CRANE—L. R. Fugate, minister of the First Christian Church in Odessa, made the dedicatory address at the ground breaking for the Christian Church of Crane recently. The seven members of the original group who met December 5, 1948 and began the organization of the new church, were given the honor of turning the first shovels of dirt at the new church location on Gaston Street. These were: Mr. and Mrs. R. A. Carter, Mrs. M. E. Noble, Mrs. V. A. Haynes, Mrs. C. E. Shirley, Mrs. Lila Barker and Mrs. Floyd Welch. J. R. Robinson is in the Harris Memorial Hospital in Fort Worth receiving treatment for a back injury. He is a nephew of Mrs. M. E. Noble and has lived in Crane for about three years. Mr. and Mrs. W. B. Stone, former residents of Crane who now are living in Eastland, are spending a week with their daughter, Mrs. June

small fry For tired children... for long trips... there are Twin Beds in the Nash Airflyte! With one side made up, children can nap lying down while parents ride sitting up. It makes a nap an adventure for "small fry." This is just one of many luxury features that make the Airflyte America's most modern motor car. Stop by and see it and let us give you an Airflyte ride, soon.

\$96,000,000 Worth Of Fun Is Put On Cities, Tax Bills

NEW YORK—(AP)—Cities are stressing recreation more than ever to aid Americans in their pursuit of happiness, and health. Several hundred opened new facilities for recreation in the last two years. They range from softball diamonds, playgrounds and tennis courts to wading pools, drama groups, and arts and crafts classes. The fastest growth is in more activities for older people. New highs in facilities, leaders, and funds spent on recreation in 1948 are reported in the Recreation Year Book just issued by the National Recreation Association. Expenditures for community recreation in 1,835 cities in the U. S. and Canada exceeded \$96,000,000. Taxes and other funds paid 88 per cent of the bill. Nearly one-third went for leadership salaries. Sixty-seven cities passed recreation bond issues totaling more than \$21,000,000. There were 48,548 men and women employed as recreation leaders, and 5,899 had fulltime, year-round jobs. Another 89,234 volunteer workers pitched in. Men outnumbered women in both paid and volunteer leadership. Playgrounds Top List Playgrounds and indoor centers with leaders present drew 468,000 children and adults during the year. Swim centers had nearly 162,000,000 customers. Tennis players used 11,964 public courts, and there were nearly as many softball diamonds. There were more picnic areas than baseball diamonds, and almost as many ice skating areas. Archery ranges, shuffleboard courts and bowling greens attracted people seeking mild exercises. Children and young adults used 13,520 outdoor playgrounds, one-quarter of which stayed open all year. School buildings made up more than half the 8,651 buildings used for community recreation. These were headquarters for many of the forms of craft, music, drama, nature activities, and hobbies. Activities for older folks showed the greatest relative growth. Last year 404 cities provided such programs, compared with 264 in 1946. A majority of the cities reporting have separate recreation departments. Eleven out of every 12 had unpaid citizen boards.

Rankin News

RANKIN—Mr. and Mrs. R. L. Bell left Monday for a visit with their son, Howard, and family in Dallas. Mrs. Mae Fokes and Miss Melba Estes of Wilcox, Ariz., and Mrs. S. H. Reed and Mrs. Mildred Maylon of El Paso were among out of town relatives attending the funeral services for Mrs. Lola Belle Weatherly in Ozona Saturday. They remained for a few days visit with Mrs. S. M. Owens and family on the ranch east of Rankin. Mr. and Mrs. George Stephenson left Saturday for a two-week vacation in Colorado. Mr. and Mrs. Doc Adams left Sunday on a vacation trip into Wyoming and other Northern states. Guests in the M. J. Edwards home are Mrs. Edwards' sister and father, Mrs. Raymond Cearley and H. W. Baker, both of Altus, Okla. They arrived Friday. Mrs. Kenneth Rose of Fort Stockton has been visiting in the home of her parents, Mr. and Mrs. Dave McKeivley. Mann Rankin was a business visitor in Rankin Monday.

Mayor Of Decatur Tries For Eighter, Makes It Doubled

DECATUR, TEXAS—(AP)—"Eighter from Decatur, the county seat of Wise" was the point and the may-or made it twice. Crapshooters the world over will be glad to know the City Council fated Syl Hardwick's idea to erect a sign with this popular plea in bold words. One sign will be built on the east side of town, the other on the west. Both will be on U. S. Highway 81, where all can see them. Hardwick wanted just one new sign to replace a signboard near the railroad station. But, as some dice players have found when trying for the point of eight, the mayor ran into luck. The council enthusiastically decided to put its official stamp of approval twice on the fame this North Texas town has won. The cottontail rabbit may have three to seven young in each litter, and has several such broods a year.
