## Truman Signs North Atlantic Pact

**Asks Congress To Back It Up With Armed Aid Funds**

WASHINGTON—(AP)—President Truman signed the historic North Atlantic Treaty Monday and immediately asked Congress to back it up with a \$1,450,000,000 foreign arms program.

The Chief Executive said the Western European members of the newly ratified military alliance—as well as other nations around the globe—must have American help to build up their defenses against the threat of Russian aggression.

Barely an hour before he sent a special message to the lawmakers pleading for swift approval of his program to meet "the most pressing current needs," Truman penned his signature to the ratification instrument of the Atlantic Pact.

He called the treaty—ratified only last Thursday by an 82 to 68 Senate vote—"a historic step toward a world of peace, a free world, free from fear."

"But it is only one step," he said in a statement issued at the White House signing ceremony.

"We must keep ourselves morally and materially strong. We must play our part in helping to strengthen freedom everywhere."

Truman's signature to the ratification instrument of the Atlantic Pact.

He called the treaty—ratified only last Thursday by an 82 to 68 Senate vote—"a historic step toward a world of peace, a free world, free from fear."

"But it is only one step," he said in a statement issued at the White House signing ceremony.

"We must keep ourselves morally and materially strong. We must play our part in helping to strengthen freedom everywhere."

**Judge Holds Rent Control Law Is Invalid**

CHICAGO—(AP)—Federal District Judge Elwyn R. Shaw Monday held the entire 1949 Rent Control Law unconstitutional.

However, his ruling does not mean all rent controls now are off.

A government attorney said an immediate appeal will be made to the U. S. Supreme Court.

William S. Kaplan, chief Chicago attorney for the housing expediter, said the law will be "administered and enforced" pending appeal.

Judge Shaw held that in inserting a local option clause in the act, Congress had abrogated its wartime powers.

He said the whole law is invalidated by a clause permitting states and other governmental divisions to end controls in their territories by local option.

Judge Shaw held this provision was an unlawful delegation to Congress of its powers to other governmental agencies.

The opinion was issued in an action by Tighe E. Woods, housing expediter. He sought an injunction to restrain the Shoreline Cooperative, Inc., Chicago, from evicting 18 tenants. The judge dismissed the petition.

In his written opinion, Judge Shaw said Congress should have merely set a new expiration date if it wished to continue the old rent control act in force.

He announced a week ago that he intended to find the 1949 act illegal. At that time, he said, it was not certain whether he would throw out the entire law or whether only the local option clause could be held invalid.

John P. Lullinski, assistant U. S. attorney, said an immediate appeal to the Supreme Court.

Judge Shaw's opinion said:

"I can see no difference between this situation and one in which Congress should pass a selective service law with the provision that any state which doesn't care to send soldiers may pass a law and say they did not choose to be involved, or an interstate commerce act with the provision that any state that chose not to be governed thereby could declare itself out x x x."

**Capital Spots Deep Wildcat In Mitchell**

The Capital Company of Ahlens has staked a 7,500-foot rotary tool wildcat in extreme Northeast Mitchell County, about six miles north of Loraine, as its No. 1-41 Mary Eble.

It will be 487 feet from north and 660 feet from west lines of the lease in section 12, block 25, TP survey, which puts it about one-half mile northwest of the same company's No. 1 Mary Eble. Eilenburger dry holes completed early this year.

The new venture also is to explore into the Eilenburger. Operations are starting by July 29.

**Browns To Venture In Northwest Garza**

Northwest Garza County is set for a 3,800-foot wildcat by Herman & George R. Brown of Houston. They are starting immediately with rotary tools on their No. 1 G. W. Bassinger.

The drill site is 5,112.4 feet east, thence 972.2 feet south from the northwest corner of section 726, B. Hall survey, A-493. It is approximately 11.5 miles northwest of the town of Post.

**Outpost Scheduled Northeast Of Kelly**

A three-quarter-mile northeast outpost to Canyon-Pennsylvanian production in the Kelly field of Central Scurry County is to be started immediately by George P. Livermore, Inc., Lido Petroleum Company, Robert Miller and DBA Miller Oil Company.

Designation will be the associates' No. 1 J. E. Woodson, staked 660 feet from north and west lines of the northeast quarter of section 209, block 97, H&T survey, four miles west of Snyder.

It is to be a 7,000-foot, combination rotary-cable tool exploration, which should take it at least into the Canyon.

**Test Gets No Shows In Andrews Devonian**

The Southwest Andrews County Devonian again made no shows on a drillstem test at George P. Livermore, Inc., and Deeprock Oil Corporation No. 1 Mayhew, et al, wildcat six miles north of the Dollarhide field.

The tool was open one hour at 9,720-70 feet using a 500-foot water blanket. Recovery was the water blanket and 35 feet of drilling fluid with no signs of oil, gas or water. More hole was being made.

The venture is 1,980 feet from south and 660 feet from east lines of section 20, block A-51, pdl survey.

**Pennsylvanian Yields More Oil In Pegasus**

More production signs have been encountered in the Pennsylvanian at Magnolia Petroleum Company No. 1-36 Roy Glass, southwest offset to the Eilenburger discovery well of the Pegasus field in North-Central Upson County.

A two-hour drillstem test was run at 10,225-294 feet, showing gas in eight minutes at the rate of 167,500 cubic feet per day. Pulling drilpipe recovered 1,980 feet of clean oil, 630 feet of heavily oil and gas cut drilling mud and 300 feet of drilling mud. Gravity of the oil was 40.8 degrees.

The exploration was drilling ahead after the test. It now is believed to be out of the Pennsylvanian section.

It is 1,980 feet from north and 660 feet from east lines of section 38, block 41, T-4-S, 8P survey.

**Glorieta Top Picked In Lubbock Wildcat**

Slick-Moorman Oil Company and C. W. Chancellor, No. 1 Cloud, North-Central Lubbock County, staked to try to develop production from the Glorieta zone of the middle Permian had reached 4,723 feet in time and was drilling ahead.

Top of the Glorieta was picked at 4,870 feet. Elevation is 3,312 feet. That makes it 12 feet low to Seaboard Oil Company of Delaware and Stanolind Oil & Gas Company No. 1 Cravens, small pumper three-quarters of a mile to the southeast, which was the discovery well of the Cravens field. That well gets its oil from the Glorieta at around 5,500 feet.

The Slick-Moorman and Chancellor No. 1 Cloud is 660 feet from east and 1,980 feet from south line of section 22, block D, L&SV survey. That makes it 10 miles (Continued On Page 12)

**Double Insurance For Depositors Proposed**

WASHINGTON—(AP)—A plan to double federal insurance protection for bank depositors was announced Monday by Rep. Steed (D-Okla.).

He said he is preparing a bill to increase the protection from \$5,000 per depositor to \$10,000.

### Arrested In Cohen Shooting

Glum-faced Jimmy Tarantino, 38-year-old publisher of the magazine Hollywood Nightlife and bitter critic of Hollywood vice, sits in San Francisco's City Prison after his arrest in connection with the ambush shooting of gambling czar Mickey Cohen. Officer Joseph Crescini looks on. Authorities threaten to "take care of Mickey Cohen" during an argument in a Los Angeles hotel bar. Above, Tony Brancato, ex-convict and small-time hoodlum from Kansas City, smiles and smokes as he is questioned in the shooting. Brancato was looked on suspicion of attempted murder.

### Administration Launches Regional Job-Aid Survey

WASHINGTON—(AP)—The Administration launched its regional business-jobs aid plan Monday. President Truman was reported meanwhile determined to wait another six months to see whether the economy gets better or worse—and then see what's needed.

For the time being, Truman plans to pin-point federal spending in areas hardest hit by unemployment and business decline.

In that connection Secretary of Commerce Sawyer went to Boston to confer with the New England Council and governors of New England states to get the economic picture in that area.

At the same time, Undersecretary of Commerce Cornelius Vanoy, U. S. Whitney and Assistant Secretary Thomas C. Blaisdell journeyed to Louisville and Atlanta to meet with business groups.

Other Commerce Department officials were to go later in the week to the Midwest, and to other sections, to get on-the-spot data of economic sore spots.

Meanwhile a top government official specializing in Administration economic policy said President Truman has set a deadline of January for a new appraisal of the nation's economy.

If it gets worse by then, this official said, the President will come forward with a New Deal-like, pump-priming plan designed to reinvigorate the country.

"If there is no upturn this Fall, or no evidence of a steady-out which will lead to an upturn later, Truman will feel that he must be decisive," this official said. He asked not to be quoted by name.

### Consultant Charges Excessive Rates On Home Fire Policies

AUSTIN—(AP)—A Dallas insurance buyers consultant charged Monday in a brief filed with the State Fire Insurance Commission that Texas home owners are paying excessive premiums for protection.

The consultant, Ralph Soape, requested reduction in rates on dwellings, reduction in the number of classifications and simplification of rating schedules. The brief was filed for study at the board's annual hearing.

Soape had requested a hearing on his contention that in the last five years owners of dwellings in Texas have paid \$138,289,560 for insurance, \$42,000,000 more than was necessary to cover the risk.

He charged that administrative practices of the Insurance Commission encourage uniform instead of competitive rates among insurers.

"It is discrimination of the rank and order to deny the insuring public of Texas the same leveling influence (competition) extended the insuring public in other states by the same companies doing business in Texas," he said.

### Compromise May End Controversy On Federal School Aid

WASHINGTON—(AP)—Legislation permitting use of \$38,000,000 in federal health funds in private as well as public schools was approved Monday by a House Commerce subcommittee.

The bill is similar to one already passed by the Senate, but the subcommittee added several amendments described as minor by members.

The bill will come before the full committee probably later this week. It is not the same aid-to-education bill which has precipitated a hot controversy over use of federal funds for private and parochial schools. That bill, also passed by the Senate and providing for \$300,000,000 in aid to states for education, is slated in the House Labor and Education Committee.

The bill approved by the Commerce subcommittee contains none of the features which have caused Catholic leaders to assail the \$300,000,000 measure as discriminatory.

However, it has an indirect bearing on the general measure offered by Rep. Barden (D-Tenn.) which set off the religious controversy.

The Barden bill's ban on spending federal money on private or parochial schools would extend to health and transportation costs.

Rep. McCormack (D-Mass), Democratic floor leader, is one of the Catholic members of the House who has been fighting the Barden bill. Now McCormack has teamed up with Rep. Priest (D-Tenn) who, incidentally, is a Baptist, in an effort to compromise.

Their compromise would permit the use of up to \$38,000,000 a year for school health purposes—for private, parochial and public schools on the same basis.

### Courthouse Cleaning Contract Is Awarded To Midland Concern

Contract for cleaning, painting and repairing the exterior of the Midland County Courthouse was awarded Monday to Helbert and Helbert of Midland on the firm's low bid of \$12,357.16.

The sealed bids were opened in the regular session of County Commissioners Court, with County Judge Clifford C. Keith presiding.

Alternate bids of \$23,995.50 and \$12,994 were submitted by a Fort Worth firm.

A Dallas firm submitted a \$7,000 bid but its specifications included only sand blasting.

Helbert and Helbert probably will start work on the project in a week or 10 days, according to Keith.

### Anti-British Move Gains In Senate

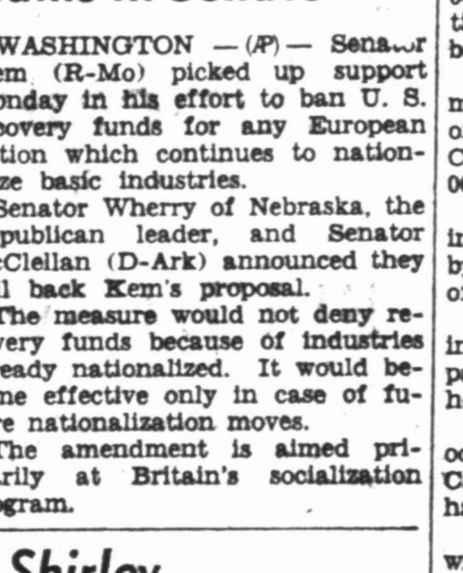

WASHINGTON—(AP)—Senator Kem (R-Mo) picked up support Monday in his effort to ban U. S. recovery funds for any European nation which continues to nationalize basic industries.

Senator Wherry of Nebraska, the Republican leader, and Senator McClellan (D-Ark) announced they will back Kem's proposal.

The measure would not deny recovery funds because of industries already nationalized. It would become effective only in case of future nationalization moves.

The amendment is aimed primarily at Britain's socialization program.

### Journey For Shirley

Shirley May France, 16-year-old schoolgirl from Somers, Mass., left her father and mother before sailing for Rome, where she will try to swim the English Channel. If she makes it, she will be the youngest person to have succeeded. Her dad, J. Walter France, former distance swimmer, is accompanying her on the trip.

### British Stevedores Troop Back To Work

LONDON—(AP)—London's month-long waterfront strike ended Monday amid threats of new labor troubles in the state-owned coal mines and railroads.

Nearly 16,000 idle stevedores trooped back to work on 150 ships. A dock official said "Everybody is back and everything is going smoothly."

Ships being unloaded included the two Canadian vessels involved in a seamen's strike which led to the dock stoppage.

### Communist Drive May Spell Doom Of South China

CANTON, CHINA—(AP)—Communists drove closer Monday to the Hunan Province capital of Changsha. Nationalist resistance only too well lost of Hunan would doom South China.

Private reports placed the Reds at points five miles east of Changsha and ten miles east of Chuehchow. Qualified quarters indicated the Nationalists are preparing for the main battle farther south.

Government sources conceded the Red capture of Yunan, 48 miles east of Changsha, 400 miles north of Canton.

The Nationalist Air Force was said giving strong support to government troops.

Mountain View Drinking Water for home delivery call J. B. Banks, 3847-J.—(Adv.)

**South Loses Skirmish On Poll Taxes**

WASHINGTON—(AP)—Southern Democrats lost the first round Monday in a fight to block House action on an anti-poll tax bill.

They tried to force adjournment before the House could start considering the measure, but lost by a roll-call vote of 243 to 102.

The move was engineered by Rep. Gossett (D-Texas), outspoken opponent of the proposed law to bar levy on poll taxes as a prerequisite to voting in elections for President, vice president or members of Congress.

Gossett's motion carried 46-30 on an initial standing vote when only a handful of the members had arrived in the chamber.

Rep. Hays (D-Ohio) asked for a roll call to give the bill's supporters time to round up their forces.

Opponents were expected to try every parliamentary device at their command to delay a showdown.

It was the fifth House effort in less than 30 years to pass an anti-poll tax bill.

And, if history repeats itself, the bill will die on a Senate shelf or lead to a filibuster.

Chairman Norton (D-NJ), of the House Administration committee, which is sponsoring the bill, predicted there would be fewer than 100 votes against the measure on a roll-call vote expected late Monday.

**Southwest Mentors Black Ball Veteran Gridiron Officials**

FORT WORTH—(AP)—As a result of a secret meeting of coaches in Dallas nearly five months ago some of the old-time football officials in Texas will not appear in any Southwest Conference games this year, it has been learned by the Star-Telegram.

The hush-hush session in the Adolphus Hotel on Sunday, March 6, saw the head coaches of the seven Southwest Conference member schools put into effect a black ball system that reduced drastically the list of officials eligible for work in their games.

Only one negative vote was required to keep an official out of all conference games for one year.

When James H. Stewart, executive secretary of the conference, makes public his assignment of officials for games of the 1949 season such well known names as Harry Vinser, Charles Swartz, Earl Dayvaull, Gene Bedford, Charles Hawn and O. N. Yeary are expected to be missing. Along with them will be dozens of others well known. No Communist Front Coaches.

Stewart now is in New England on business. The individual member schools of the conference have received the list of officials assigned to their games but no complete list has been released for publication.

Coach Dutch Meyer of TCU is on vacation in New Mexico and not available for comment. Athletic Director Howard Grubbs denied knowledge of the blackball meeting but confirmed the report that Vinser, Swartz, Dayvaull, Bedford, Hawn and Yeary are not working any TCU games this season.

**Auto Accident Mars Non-Fatality Mark**

Fred Hernandez, 32-year-old Latin American, died early Monday of injuries received in an auto collision at 3:30 a.m. Sunday.

Two other persons also were given emergency treatment at Western Clinic-Hospital for minor injuries suffered in the accident which occurred in the 900-block of North Mineola Street.

Police said Hernandez was riding in a car, driven by Willie Jackson, a Negro, when it collided with a 1947 Ford driven by Bryan Stevens of Midland.

Police Chief Jack Ellington said the traffic fatality was the first for Midland in 80 days.

Funeral services for Hernandez will be held at 5 p.m. Tuesday in St. George's Catholic Church.

**Branan To Address Texas Cotton Group**

DALLAS—(AP)—Secretary of Agriculture Charles F. Branran will address the Cotton Research Congress here Thursday.

Walter Moore of Dallas said Branran is expected to make a major statement regarding his farm program as related to cotton.

The Cotton Congress, sponsored annually by the Statewide Cotton Committee of Texas, will be held on Wednesday, Thursday and Friday.

**Three Officials Confirm Rejection**

HOUSTON—(AP)—Three veteran Houston football officials of the Southwest Conference, Harry Vinser, Charles Swartz and Earl Dayvaull, confirmed reports from Fort Worth that they had been blackballed from Southwest Conference games in 1949.

"I have 10 games lined up for next season, including such intercollegiate sites as Notre Dame-SMU, Texas A&M and Oklahoma, the Angles and Villanova, Rice and New Mexico," Dayvaull said.

"I certainly think it's an outrage when one coach says 'hell, you don't have to play a game in which I'm not worth it. x x x'."

Vinser expressed the same sentiment.

Swartz also is hanging up his striped shirt and checked shoes.

"I loved the work, but it was just a recreation," he said. "To be left out with the venom of one or two coaches who have lost tough games isn't worth it. x x x."

"The Drunkard"—July 25, 26, 30, August 4, 5, 6. Box office opens Wednesday.—(Adv.)

Somebody's On Wrong Tralee In Mixup On Famed Rose Song

By ERSKINE JOHNSON  
NEA Staff Correspondent

HOLLYWOOD — Mixup between "Mrs. Mike" and Paramount. Dick Powell sings "Rose of Tralee" in the picture and Paramount just acquired rights to the song and announced a film, "Rose of Tralee," for Bing Crosby. Somebody got on the wrong Tralee.

Shirley Temple, writer F. Hugh Herbert and producer Colin Miller have their heads together about "Corliss Goes to Europe," sequel to "A Kiss for Corliss." The picture would be shot in England and France. It's a comedy idea about a bobby-soxer who upsets fashion trends in London and Paris by introducing American teen-age fashions to famous couturiers.

Studio censor at UI had quite a start the other day when he viewed the day's rushes for "East of Java." The scene that gave him the start was between Shelley Winters and Frank Lovejoy, playing a ship's doctor. Lovejoy was listening to Shelley's heartache with a stethoscope. The scene played well and seemed innocent enough but when viewed by the camera's critical eye, the stethoscope gave a great deal of emphasis to the low cut of Shelley's dress.

Director Bruce Humberstone and the censor agreed the scene had to be cut. But how else could Lovejoy convincingly listen to Shelley's heartbeats? The studio doctor solved the problem.

"It's very simple," he said, turning Shelley around. "Just put the instrument beneath her left shoulder."

The Plague That Hops —

Battle On Grasshoppers Is Old As Human History

This was a cornfield in the Dakotas during the last serious U. S. hopper plague (1936-38). Then, as now, they will eat even the stalks if they are hungry enough.

By DOUGLAS LARSEN  
NEA Staff Correspondent  
WASHINGTON—In the history of man's fight for survival on earth, grasshopper plagues rank with floods, storms and droughts as his natural enemy. From earliest recorded history until today, the grasshopper has been one of the human being's greatest competitors for this planet's food supply.

The Bible refers to the grasshopper as a locust, but scientists have identified the Scripture locusts as a species of grasshopper. The book of Revelations, ninth chapter, describes them.

"And there came out of the smoke locusts upon the earth; and unto them was given power, as the scorpions of the earth have power."  
No continent on the globe is free of the deadly grasshopper menace. South America, Africa, China and the European countries all suffer continued serious losses from them. Experts rank the grasshopper outbreaks of the years 1874 to 1876 as America's worst agricultural disaster. Hundreds of millions of dollars worth of damage was done to crops, and acute food shortages resulted.

In terms of dollars the United States probably takes the worst loss from this pest. The period from 1936 to 1938 was the last most serious outbreak. Crop damage during those years was \$253,000,000. During a typical non-outbreak year, such as 1945, grasshopper damage was \$13,000,000. Those figures don't include the millions spent in trying to control them.

According to J. R. Parker, one of the U. S. Department of Agriculture's experts, practically every state of the Union suffers from grasshoppers in injurious numbers somewhere every year.

West Vulnerable  
The area between the Mississippi and the Rocky Mountains, extending up into Canada, is the most vulnerable to the grasshopper scourge on the North American continent. In Michigan, Illinois, Indiana and Wisconsin there is a lesser danger of "severe outbreak," with great hordes migrating in mass flights. But the annual damage done by the "hoppers" in these states still is considerable.

**CHILDREN'S SOCIETY**  
Sets \$86,000 Budget  
DALLAS—(AP)—A budget of \$86,000 for 1949-50 was approved Sunday by the executive committee of the Texas Society for Crippled Children.  
The society's annual convention will be held October 15-16 in Wichita Falls.

**PROBE OF CONSTABLE'S DEATH NOT COMPLETED**  
LLANO—(AP)—Sheriff L. B. Turbiville said Sunday an investigation into the fatal shooting of Constable E. V. Casper has not been completed.  
Turbiville said a laboratory report showed the fatal bullet came from the constable's own gun, but it had not been determined who fired the shot.

**HEADMASTER**  
The Rev. Canon Alfred L. Alley is the headmaster of the Cathedral School for Boys in Dallas. The school was established three years ago under the leadership of the Rt. Rev. C. Avery Mason, Episcopal bishop of Dallas, and a group of Dallas businessmen in an effort to give above average students better educational opportunities in preparation for college and university work. The school is located on the spacious grounds of St. Matthew's Cathedral in Dallas.

Oilman Flays Attempt Of Coal Interests To Stifle Competition By Texas Petroleum

DALLAS—The use of federal government regulations to curb the competition Texas petroleum is giving coal in the East and North was criticized by R. B. Anderson, president of the Texas Mid-Continent Oil & Gas Association, in a speech before the national convention of Theta Sigma Phi, women's journalism fraternity, here Monday.

In a luncheon session of the convention devoted to "Oil Is News," Anderson outlined the way in which the economic welfare of Texas is dependent on an annual income of more than \$2,000,000,000 a year from the sale of petroleum and products.

"The prosperity of any region is in direct proportion to the amount of goods and services it can contribute to the national economy," Anderson said in a prepared speech.

"Our chief contribution is energy. Texas oil and gas provides about 22 per cent of all the energy used in the nation's 41 million automobiles, the trains, electric generating plants, factories, and heating units. Competitive Fuel Market

"The number one threat to Texas' ability to share in a free competitive fuel market lies in the attempt by our coal competitors and their allies in labor and transportation, to use the federal government to throttle the supply of Texas petroleum," Anderson said.

Anderson called attention to the recent National Planning Association report to the President's Council of Economic Advisers which advocated a federal policy to restrict use of oil and gas from the Southwest in coal producing areas.

Coal interests have advocated the idea before Federal Power Commission hearings that the use of Southern mineral resources in the coal country would "blight" the South's economy, Anderson pointed out.

"Those who today advocate this idea in the high councils of our government would put the consumer in the East and the North at the mercy of the coal operator and the coal union czars with a government-approved monopoly. By such action, they would blight the economy of our section of the country today," the industry spokesman said.

Anderson said Texas and other Southwestern states' conservation laws and industry practices would assure the nation of a supply of energy for a maximum time.

"If Texans and others in the oil producing states of the Southwest can continue to sell their petroleum and gas in a free competitive market with other fuels, the nation will have a good source of low-cost energy and the Southwest can be assured of a continued and growing prosperity."

At the opening luncheon for their 40th anniversary meeting, the journalism group heard three other speakers describe the relationship between their profession and the petroleum industry of Texas.

Nancy Heard, oil editor of The Corpus Christi Caller-Times, described the purpose of the oil page in her address, "The Oil Story for the Daily Newspaper Reader."

Ernestine Adams of the Petroleum Engineer, Dallas, spoke on the trade journal's place in the petroleum industry.

Walter Beach, editor of Humble Oil & Refining Company publications, Houston, and president of the Society of Associated Industrial Editors, described house organs in his talk, "The Oil Story for Oil Employees and Stockholders."

### From 'No Entangling Alliances' To The Atlantic Defense Treaty

Ratification of Atlantic Pact by the United States marks a historic climax in the history of the nation's foreign policy. Picture-story below highlights the stages through which the U. S. grew from a tiny nation trying not to concern itself with the Old World's troubles to its present position of world power and leadership in the battle of the democracies against communism's aggression.

WARNING

America's traditional "no-entangling-alliances" was originally established by George Washington in his famous Farewell Address in 1796. He warned, in relation to foreign nations, "to have with them as little political connection as possible."

MONROE DOCTRINE

Real history of American foreign policy began with enunciation of the Monroe Doctrine in 1823. For the first time the U. S. assumed an obligation outside its continental limits. Doctrine extended U. S. protection to the whole Western Hemisphere.

WORLD WAR I

America had "little political connection" with Europe until World War I. Germany's ruthless declaration of unrestricted submarine warfare brought us into the war on April 6, 1917. For the first time in its history U. S. entered into a world conflict.

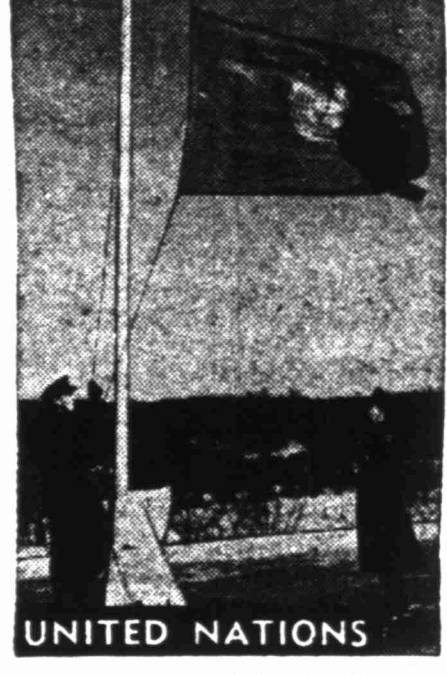

ISOLATION

Through the efforts of the late Senator William E. Borah (R-Ida), above, and other strong isolationists, cast-iron neutrality was in effect between the two world wars. Isolationists kept U. S. out of League of Nations and the Versailles Treaty.

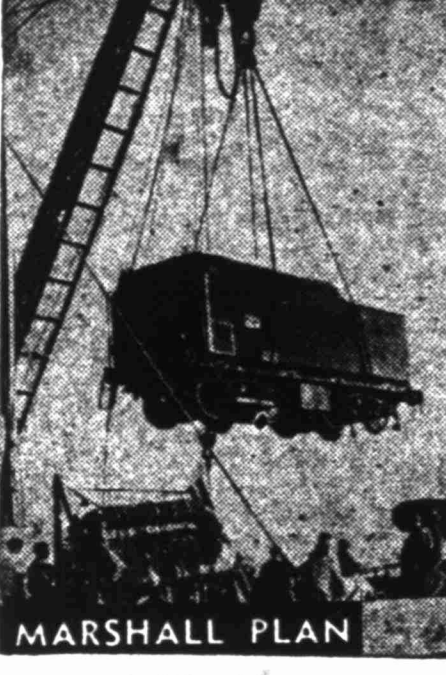

WORLD WAR II

Japan's attack on Pearl Harbor in 1941 taught America that ocean isolation from Europe and Asia did not make her invulnerable. We declared war against the Axis powers and soon had GI's fighting in the greatest war in history.

UNITED NATIONS

Since the end of World War II, the U. S. has taken major steps toward greater participation in world affairs. First was entry into the United Nations, which the Senate okayed in December, 1945, reversing a position taken after World War I.

MARSHALL PLAN

In April, 1948, Congress authorized the European Recovery Program to assist Western Europe toward economic and political stability. The program has met with success and has become west's most powerful weapon in the cold war.

ATLANTIC PACT

Complete reversal of American foreign policy came when U. S. signed controversial historic Atlantic Pact with 11 other nations to check spread of communism. For first time, U. S. made peacetime military commitments outside her hemisphere.

**Oil Imports Close Coastal Refineries**  
HOUSTON—(P)—A story in Sunday's Houston Post blamed foreign oil imports with shutting down or curtailing the operations of 12 independent Texas Gulf Coast refineries. The plants normally process 120,000 barrels of crude daily. "The situation is creating increased unemployment and lower tax revenue to local, state and federal governments," Weldon Hill, oil editor of the Post, wrote. Hill said refinery officials believe reduction of foreign oil imports is the only hope of relief. "It is possible this relief may be coming shortly," Hill wrote. "A report in Houston oil circles says the import situation may be tied in with the compromise on the Tidelands. Under this arrangement, imports of foreign oil would be limited to five per cent of the domestic demand. Bills limiting imports have been introduced in Congress."

**Rambouillet Sheep Show Set At Angelo**  
SAN ANGELO—Top Rambouillet sheep breeders from Texas, Utah and New York were gathering in San Angelo Monday for the thirtieth annual Sheep Show and Sale Tuesday and Wednesday. Under the sponsorship of the San Angelo Chamber of Commerce and the American Rambouillet Sheep Breeders Association, the show and sale has 519 entries. It is an all-Rambouillet showing. In the show division, which will be held Tuesday, some \$340 in premiums will be offered in six classes of judging. They are: light weight yearling ram, heavy weight yearling ram, four-tooth ram, champion ram, pen of five rams and pen of ten rams. L. D. White, Rambouillet breeder from Fort Stockton, will be the judge for the show. All sheep entered in the show will be offered for sale through the auction ring Wednesday. Walter Britton of College Station will be the auctioneer.

**Constable Shoots Spur Farm Worker To Death In Alley**  
SPUR—(P)—Wilmer Earl Braddy, 29, farm laborer who lived near here, was shot fatally in a downtown alley Sunday by Constable H. T. Burger. Sheriff C. C. Kimmel said Braddy was shot when he resisted arrest. Kimmel said Burger would appear before a grand jury in Dickens Friday for an investigation of the shooting. Burger was not held or charged. Dr. P. C. Nichols of Spur said Braddy was killed by a shot through the heart. Burger told a reporter he was aiming for Braddy's shoulder. The sheriff said Burger fired after Braddy attacked the constable, cutting him on the left shoulder and left wrist. Burger said he warned Braddy once not to charge him again and that he fired when Braddy ignored the warning. Witnesses told the sheriff Burger pursued Braddy into the alley after he had attempted to arrest Braddy on a downtown street.

**Christmas Babies Celebrate In July**  
AMARILLO—(P)—A birthday party was held on Lewis Nordyke's front lawn Sunday for 173 persons who usually get no presents because their birth dates are too close to Christmas. Families and friends of the celebrants swelled the crowd to 500. Nordyke originated the idea in his daily column in The Amarillo Daily News. Membership in the Christmas Birthday Club is open to those whose anniversaries come between December 15 and January 1. Sunday's party was complete with birthday cake and lemonade—plus a hill billy band.

**It Takes A Lot To Make Junior Grow**

By DAVID TAYLOR MARKE  
AP Newsfeatures Writer

Within the range of "normal," some children will develop physically much more rapidly than others, say Gladys Gardner Jenkins, Dr. Helen Shacter and Dr. William W. Bauer, specialists in family living, psychology and health education.

They have just written a book, "These Are Your Children, How They Develop and How To Guide Them," (Scott, Foresman and Company, \$3.50) in which they point out that in every group there will be some children ahead of the others

of their age physically, mentally and emotionally, and some who are behind in one or all aspects of development. But they add:

"If a child's growth seems to differ greatly from that of most children of his age, it is wise to pause and look for the reasons. Children cannot be made to grow, but growth can be encouraged by good physical and emotional care. . . . The child will grow in some measure and in some fashion whatever care is provided for him, but he may not fulfill his growth possibilities unless he receives adequate care."

**Needs Affection**  
To grow best a child needs an environment of affection. If a child feels unwanted or unloved, growth may be retarded, they say.

A child also needs good physical care. Parents must guard against his becoming overtired, for we know that a fatigued child, a poorly nourished child, or a physically ill child cannot develop as fully as he might otherwise. He needs good food, fresh air, protection from disease, the correction of physical defects, plenty of exercise and outdoor play, balanced by relaxation and rest. If we want to develop the best of a child's personality, they say.

"The child also needs opportunities to reach ahead, to take the next step, the right amount and kind of stimulation at the right time. He cannot learn either reading or independence until he has reached a stage in his growth at which he is ready to learn these things. If he is pushed ahead too soon, if too much is expected of him before he is ready, the discouragement may react against growth instead of helping it. On the other hand the child may be slowed up in his growth if his parents do not recognize when he has reached a point of readiness for the next step."

**Balance Praise and Criticism**  
Growth is influenced by many environmental factors, say the authors. A child may become discouraged at too many adverse comparisons with older children; a new baby in the family with a consequent feeling that he is no longer loved as much may deter growth; sometimes, by even well-meaning parents, he is criticized and scolded for his mistakes and failures with older children; a new baby in the family with a consequent feeling that he is no longer loved as much may deter growth; sometimes, by even well-meaning parents, he is criticized and scolded for his mistakes and failures with older children; a new baby in the family with a consequent feeling that he is no longer loved as much may deter growth; sometimes, by even well-meaning parents, he is criticized and scolded for his mistakes and failures with older children;

"If a child is tense, anxious, unhappy, out of harmony with his parents or his environment, his growth will not proceed as well as if he were emotionally secure and happy."

The age of iron began about 1000 B. C., with the date varying in different countries.

**Daddy Ringtail** By WESLEY DAVIS

**Daddy Ringtail And The Magic Beans**

Old MacDonald had a farm, and on that farm there was a cow, except the cow wasn't there any more. The cow was lost. She had walked out and away from the barn. She had jumped the fence at the corner and wandered away in the Great Forest.

Old MacDonald trembled and shook with excitement. He called and he looked and he looked and he called, but the cow just couldn't be found. Old MacDonald was a worrier. He jumped the fence himself without any shoes on. Away he ran to the Great Forest. Pretty soon he came to the Duck Pond.

"Happy day, Mr. MacDonald!" said Mugwump, the monkey boy.

"Call me Old MacDonald! I have a farm!" shouted Old MacDonald in a rage.

"Thuh," said Mugwump, "but you don't have a cow on your farm, because here she is."

And there tied to a tree was Old MacDonald's cow which Mugwump had found when she was lost. Old MacDonald kissed the cow because he was so happy to see her again, and before they left for the farm together, Old MacDonald gave Mugwump a little sack of something for a present. It was reward, you know, for finding the cow. "It's magic beans," said Old MacDonald. "Magic means that Mr. Bamboozler gave to me." Then Old MacDonald went back home to the farm with his cow.

Mugwump's hands were the ones that trembled now. He worked as fast as he could to untie the string that tied the mouth of the sack together. He poured out the magic beans in his hand. Unhappy day! Those beans looked exactly like eating beans, and never magic at all. Unhappy day!

Mugwump was about to throw the beans away, but Daddy Ringtail came walking along just then, and Mugwump told him what had happened.

opened. Daddy Ringtail smiled to hear it and he told Mugwump a something important to remember.

They could see only the outside of the beans. Only the outside looked plain and ordinary. But inside, Daddy Ringtail explained, was the magic that made the beans really magic beans. They were the kind that grows a beanstalk on up high and through the sky and to the land of the giants. Oh yes, and tomorrow I'll tell you more about it. Happy day!

### Rev. Hubert Hopper Is Kiwanis Speaker

The Rev. Hubert Hopper of McAllen, former Midland resident and civic leader, was the guest speaker at the meeting of the Kiwanis Club Monday noon in the Crystal Ballroom of Hotel Scharbauer. "Evidence of Growth" was the subject of his address.

The speaker, who left Midland about two years ago to become pastor of the First Presbyterian Church of McAllen, after serving the Presbyterian Church here six years, was introduced by L. A. Bartha, program chairman, Dr. R. Matthew Lynn, president, president.

"Coming back to Midland after two years and seeing the many changes which have occurred during that time is a thrilling and startling experience," Mr. Hopper said.

He termed as most spectacular the growth in business facilities, number and beauty of new homes, schools and churches.

"No pessimism, limitless interest, ambition and cooperation of Midland and its citizens and groups is truly remarkable," he said. "I find no evidence of pessimism in Midland."

The minister, who formerly was president of the Midland Lions Club and Junior Chamber of Commerce, said that in the face of such development, the community, the individual and the civic and service clubs have special responsibilities, many of which apparently are being met.

He urged his listeners to recognize the degree of their blessings; recognize the author of these blessings; respond to the blessings and continue to meet civic responsibilities as they arise.

Hastings Panfill was inducted as a new member by H. F. Ezell.

WANTED: Two girls to share furnished house. Call 3813-J after Five P.M.

ONE 3 room furnished apartment. Couple preferred. 1901 Lamesa Rd. Phone 66-W.

## Economy is Also a Cadillac Word!

OVER THE YEARS, there has come into being what amounts virtually to a Cadillac vocabulary.

There are literally scores of words which, when applied to automobiles, call Cadillac almost instantly to mind.

Few can hear such words as "Character," "Prestige," "Quality," "Craftsmanship," "Precision," "Distinction"—and a host of others—without associating them with Cadillac.

But there is one potent word which applies with equal emphasis to Cadillac—but which motorists, in the past, have not so readily associated with the car.

That word is *Economy*.

With its marvelously efficient new high-compression engine,

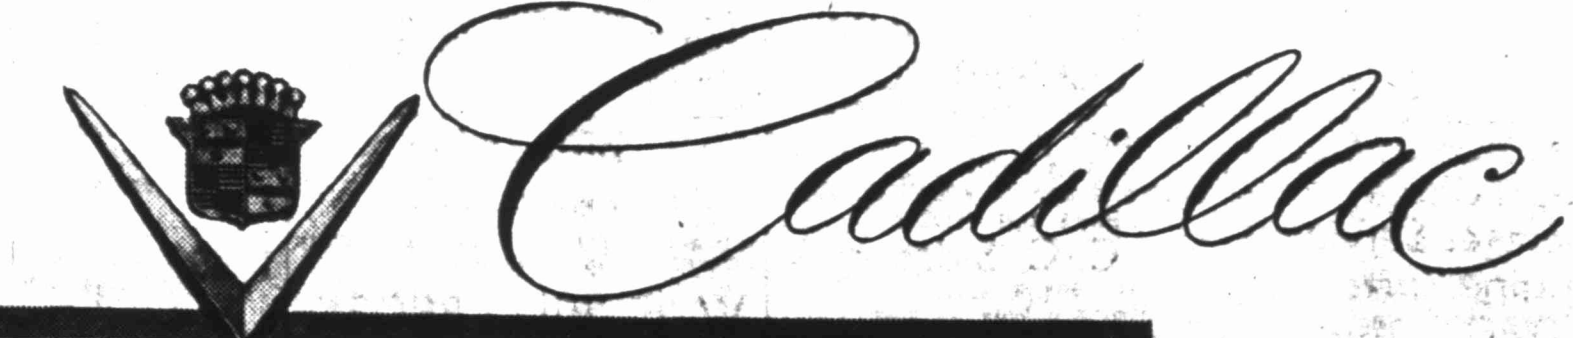

the 1949 Cadillac delivers gasoline mileage which actually approaches that of the popular low-priced cars. It is almost unbelievable for a car so large and luxurious.

And, of course, Cadillac dependability and long life have become traditional in the automotive industry. In fact, the full life-span of a Cadillac has never been accurately measured.

Yes, "Economy" is also a Cadillac word and belongs in the Cadillac vocabulary.

Have you inspected and driven a 1949 Cadillac? If not, you owe it to yourself to do so—for it is truly a revelation in what a motor car can be and do.

You are most welcome to visit our showrooms at any time.

### Second Typhoon Veers Away From Stricken Okinawa

TOKYO—(AP)—A second typhoon, expected to hit storm-lashed Okinawa, veered toward Iwo Jima Monday. The second storm was diminished force.

Okinawa was battered Saturday by winds estimated up to 150 miles an hour, leaving one American dead and 16 injured. The storm Monday was reported hitting south of Shanghai on the China Coast.

The Army said a seven-year-old American girl, among 1,000 U. S. wives and children, was killed and 18 Americans injured in the typhoon which struck the U. S. military base Saturday.

Soldiers and airmen aided dependents and civilians in digging away debris and setting up temporary shelter.

The howling, crushing winds destroyed half of the military buildings on the big island, 300 miles south of Ajap, the Army said.

Details were meager. All data on planes and Air Force installations on Okinawa are classified as secret.

The young girl, daughter of an unnamed Air Force officer, was injured fatally and two sisters hurt critically in the collapse of their sunset home.

### Credit Association Holds 16th Barbecue

The Midland Production Credit Association held its sixteenth annual stockholders barbecue at noon Monday in the American Legion Hall.

More than 250 people from the 12-county area had registered by barbecue time.

A business meeting scheduled after the barbecue was to hear discussions on farm credit by Dr. V. P. Lee of Houston, president of the Texas Production Credit Association.

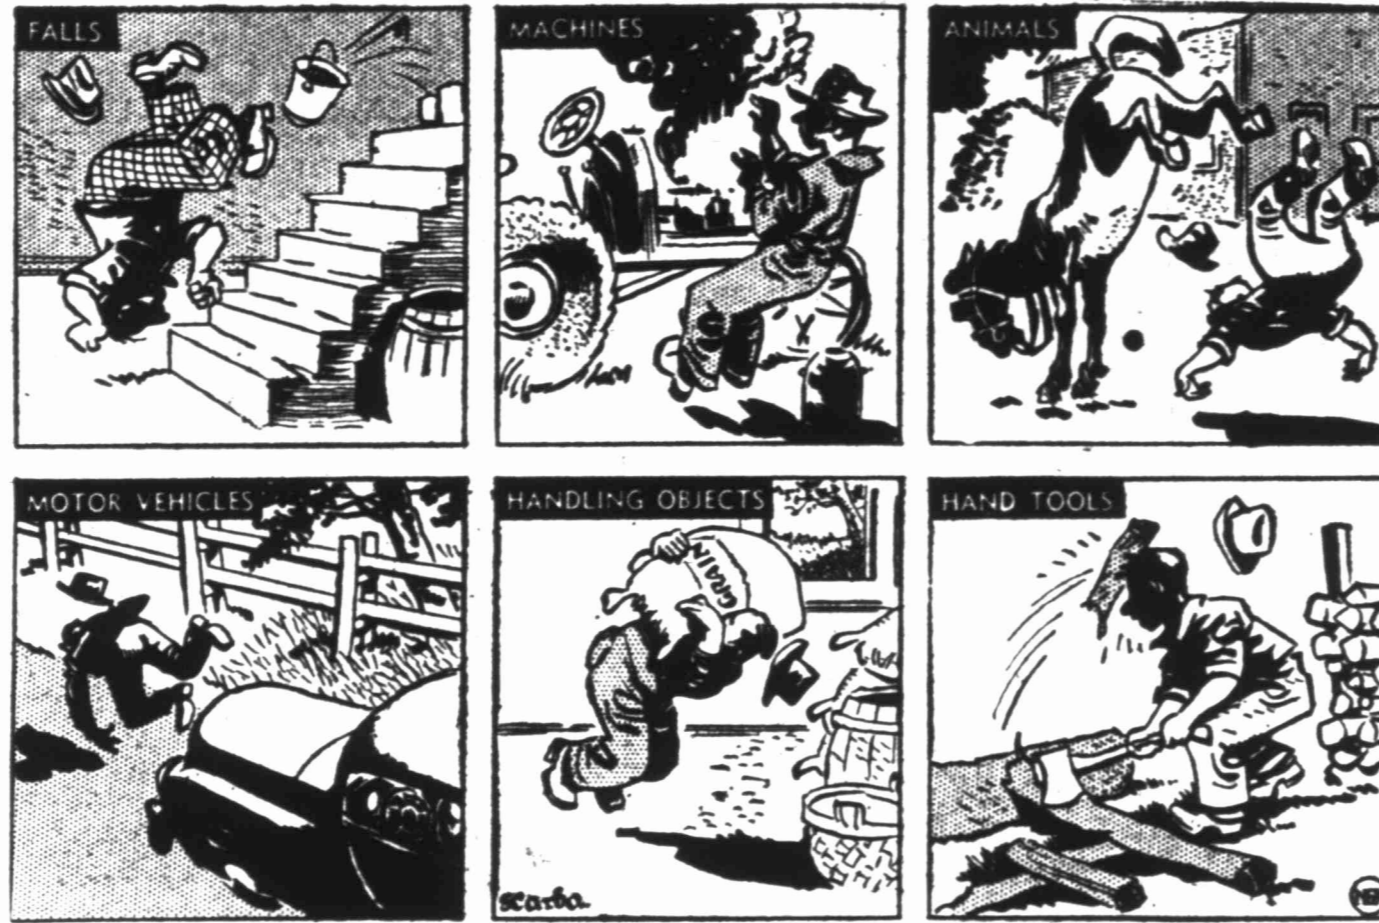

Other speakers were to include Claude Cotton of San Angelo, field representative.

Following the speakers was to be an election of officers and directors for the coming year.

Midland's Production Credit Association includes 12 counties with 315 stockholders. The counties are Midland, Reagan, Winkler, Andrews, Glasscock, Crane, Ward, Martin, Upton, Ector, Loving and Howard.

Officers and directors for the last year have been: Officers—M. F. King, president; Jim Thornton, vice president; R. H. Coffey, secretary-treasurer; and F. B. Rhodes, assistant secretary-treasurer.

### Lost: 17,000,000 Work Days

During 1948, at least one resident out of every six farms in the U. S. was the victim of an accident resulting in one or more days lost from farm work, according to the Bureau of Agricultural Economics. Such accidents cost at least \$36,000,000 in medical and hospital care and about 17,000,000 work days. Here are the six leading types of farm accidents in their order. Falls are the No. 1 cause, machine accidents next, and so on.

### Truman Signs Pact—

(Continued From Page One) Truman said in the special message, "we must prosecute it promptly and vigorously. Our policies for peace are having the desired effect. We cannot afford to lose the momentum we have already gained."

At another point, the President declared that the projected program would be "like the North Atlantic Treaty x x x entirely defensive in character."

At the same instant Truman's message was being read in Congress, the State Department made public the text of an Administration bill to carry out the arms program.

This bill would give the Chief Executive great flexibility in distributing arms to other countries but would bar giving away any atomic bombs.

In an accompanying booklet, the State Department blasted Russia with even blunter words than those Truman used. The booklet said: "The political aggression and expansionist aims of the Soviet Union, abetted by the malignant growth of international communism, have bred a new fear and insecurity in the world."

The President said the people of Europe particularly have watched the Communists take over one nation after another, have observed the civil war in Greece and the Soviet blockade of Berlin and have watched the pressures on Iran and Turkey.

As a result of their experience with Soviet communism, Truman said, "they realize that they must have a shield against aggression to shelter their political institutions and the rebirth of their own economic and social life."

That shield, the President went on, does not yet exist in the United Nations. And again he blamed Russia for this situation.

### Strain Of Yugoslav Battle With Kremlin Seems To Be Easing

BELGRADE, YUGOSLAVIA—(AP)—The first Communist ruler to say "No" to Stalin seems still to be firmly in the saddle.

Premier Marshal Tito has defied the wrath of the Kremlin for more than a year now and Yugoslavia is weathering the economic and strategic strains resulting from the Cominform blasts at Tito for being too independent.

Tito has had his troubles. Border incidents—shootings, sabotage, spies, short-lived sensations which have become almost commonplace.

Foremost in relieving the strategic situation has been the closing of the Yugoslav border to the Greek guerrillas. Yugoslav spokesmen claim the Greek rebel cause was sacrificed by the Cominform's 13-month anti-Tito campaign.

Of greater long range importance is the prospect that Yugoslavia will get economic aid from the West soon to ease the Soviet squeeze on this country's normal trade. The projected deals would exchange Western machinery for Yugoslav raw materials.

Other satellites resist. The rupture between Yugoslavia and the Greek rebels, whether or not it was intended to have that effect, should do no harm to Tito's bid for Western credits.

Belgrade's carefully supervised press reflects Yugoslavia's independence and confidence.

The press also has struck out against the actions of some of Yugoslavia's neighbors—actions which some diplomats observers here feel have been deliberately provocative in an effort to produce an excuse for retaliation.

This was reflected in the display the press gave to two Romanian officers who foraged the pilot here, felt they had been deliberately provocative in an effort to produce an excuse for retaliation.

### DIES FOR 30 CENTS

NAPLES, ITALY—(AP)—Giuseppe Auremma, 12, was shot to death Sunday by two masked robbers while trying to protect 300 lire (50 cents) he had made selling fruit.

### Scientists Find Way to Make Extra Small Particles

Scientists working on the new Humble Esso Extra Motor Oil discovered that the addition of a special disperser made it possible to break up the soot, sludge, varnish and dirt that the new product cleans from automobile engines, into particles as small as 38/1,000,000 of an inch in size. This, they say, is many times smaller than the smallest clearance in an automobile engine, so that the materials cleaned out of the engine by the new Esso Extra Motor Oil cannot damage moving parts.

Humble station salesmen are urging customers to drain dirty, diluted oil and refill with new Esso Extra Motor Oil for extra protection. Adv.

### Violence Claims 13 Or More In Texas

By The Associated Press

At least 13 persons died violently in Texas over the weekend. Seven of the victims were women. Four women died in traffic mishaps, one was shot to death, another jumped from an office building, and one was electrocuted accidentally by a lawnmower.

Two men died in a truck-train collision, another died of burns received when a locomotive boiler blew up, and one was shot to death. A small child drowned.

The latest death reports included: Mrs. Irma Mae Morrow, 28, of Houston was injured fatally Sunday in Montgomery County when an automobile plunged off a 20-foot embankment. Her husband, Stanley J. Morrow, was hospitalized.

William Earl Braddy, 28, a farm laborer was shot to death at Spur Sunday. Constable H. T. Burger said he shot Braddy when the latter resisted arrest.

Two trucks sideswiped near Rio Hondo Saturday night, killing one woman and injuring six other persons. Elvira Valerio, 28, address unknown, was killed.
