

Permian Basin OIL & GAS LOG

James C. Watson
Oil Editor

Wildcat In NE Coke Is Flowing Oil, Water

Barnsdall Oil Company No. 1 Davenport, Northeast Coke County wildcat flowed 74 barrels of oil in 24 hours, plus 124 barrels of formation water, through open tubing, and was still flowing at last report.

The oil and water were coming from perforated interval in the Strawn lime of the Pennsylvanian at 5,485-5,510 feet, which had been washed with 250 gallons of mud acid and treated with 250 gallons of regular acid.

In the first nine hours of swabbing after the acid injection the venture recovered 110 barrels of water and seven barrels of oil. It kicked off and started flowing at the end of the nine hours and made the 24-hour gauge listed above.

This exploration is 1,980 feet from south and 600 feet from east lines of the east half of the Seth Clark survey No. 475. It is three and one-half miles southeast of Blackwell, and about three-quarters of a mile west of the discovery well for flowing production from the Strawn to open the Fort Chadbourne field across the line in Northwest Rindels County.

Dawson Venture Has Water In San Andres

Seaboard Oil Company of Delaware found salt water in the San Andres-Permian at its No. 1 Mart Barrow, Northeast Dawson County wildcat to 10,000 feet, three and one-half miles northeast of Lamasa and is to bore deeper.

This venture had slight signs of gas in a drillstem test at 4,270-4,380 feet. It then deepened to 4,485 feet and took a 45-minute drillstem test with the packer at 4,385 feet.

Recovery was 630 feet of salt water, with no shows of oil or gas.

The development is slated to continue to at least 10,000 feet to test into the Pennsylvanian—unless it develops commercial production above that point.

Stonewall Project To Test Higher Horizon

Barnsdall and The Atlantic Refining Company No. 1 Sloane-Calloway, Central-North Stonewall County wildcat, 14 miles north of Aspermont, and at the center of the northwest quarter of the southwest quarter of section 27, block F, H&TC survey, treated the section at 6-311-26 feet, in an unidentified lime, with 2,500 gallons of acid.

The project then swabbed 17 hours and recovered nine barrels of oil and 79 barrels of water.

Operators have set a retainer at 6,252.5 feet and squeezed in 100 sacks of cement below that point. A higher horizon will now be perforated and tested.

Pure Schedules Two New Scurry Ventures

The Pure Oil Company has staked locations for two new oil ventures in the North Snyder field of North-Central Scurry County.

The company's No. 8 C. W. Whately is to be a 7,000-foot rotary exploration on the southwest side of the North Snyder field.

Drilling is to get underway soon at this project, located 467 feet from west and 2,235.89 feet from south lines of the east half of section 394, block 97, H&TC survey, and six miles north of the town of Snyder.

Pure No. 3 W. H. Adams, 660 feet from north and 665 feet from east lines of the southeast quarter of section 383, block 97, H&TC survey, will test for Canyon lime production at 7,000 feet.

The No. 4 is in the south extension of the North Snyder field and drilling is to start immediately using rotary tools.

It is six miles north of Snyder.

Lion Finals Scurry Well; Slates Another

Lion Oil Company has completed a new producer in the Diamond-M field of Southwest Scurry County and scheduled a new venture in that area.

Lion No. 4 Jack, 1,988.61 feet from west and 1,898.9 feet from south lines of section 196, block 97, H&TC survey, was completed as a natural flowing well with a daily production of 428 barrels of 44.5-gravity oil through a 16/64th inch choke. Gas-oil ratio of the new producer was 892-1. There was no formation water.

The production was from perforations in the 7-inch casing between 6,713-6,745 feet. Top of the pay was 6,713 feet and the total depth was 6,749 feet.

Flowing casing pressure was 150 pounds and the flowing tubing pressure was 625 pounds.

The company staked location for its No. 19 C. T. McLaughlin on the (Continued On Page Five)

Prosperity Essential To World Peace-Truman

Veterans Snap Up Insurance Blanks

Midland's World War II veterans were snapping up National Service Life Insurance dividend forms at a rapid pace Monday and at the post office two-thirds of its available blanks were issued before 10 a.m.

The forms are available at four windows at the post office.

Child Dies After Feast On Aspirin

FORT WORTH —(P)—An autopsy, partially completed, Monday failed to reveal any aspirin in the stomach of 18-month-old Linda Kay Enns. The examiner said, "A possibility of polio has not been ruled out."

FORT WORTH —(P)—An 18-month-old girl died Monday and her young brother was seriously ill, apparently from a feast of aspirin tablets.

The dead child was Linda Kay Enns, daughter of Mr. and Mrs. William F. Enns, William Floyd Enns, two and one-half, was playing.

The children apparently found a large bottle of the drug, commonly used for headaches, at their home when the parents discovered them, aspirin tablets were scattered over the floor where the children were playing. It was impossible to tell how many they ate.

The boy became ill two hours later. The girl was ill for three hours and died in convulsions at 4 a.m., 16 hours after the discovery.

Robeson's Backers Call On Dewey To Investigate Riot

NEW YORK —(P)—Backers of Paul Robeson planned to call on Gov. Thomas E. Dewey Monday and demand a probe of the riot that cancelled a concert by the negro singer Saturday night.

Their demands—coming in a flurry of charges by Robeson and others—include the ouster of several Westchester County officials.

Groups of Robeson supporters were to call on Dewey and Attorney General Nathaniel Goldstein and make charges that the officials failed to give police protection at the riot scene near Peekskill, N. Y.

Robeson himself claimed the disorder was part of a "national terror" and an attack on the negro people, and he demanded that Dewey start an investigation.

Burglary Charge Is Filed Against Coleman Youth Here

John M. Roach, 19-year-old Coleman youth Monday was charged with burglary here in connection with the plundering of Edgar Tanner's residence on Tower Road Sunday night.

Roach was arrested by Midland Police Sgt. Motony. Police Chief Jack Ellington said he admitted taking several articles from the Tanner home.

Listed as missing were two watches, a rifle, jewelry, and a small amount of cash. Police said the loot was recovered when Roach was arrested.

Ellington said Roach will be questioned concerning several other burglaries here in recent months.

Egyptian Swimmer Has Go At Channel

CAP GRIS NEZ, FRANCE—(P)—Egyptian swimmer Marie Hassan Hamad started his channel attempt early Monday.

He tried to swim the channel in less than 11 hours and break the record," he told newsmen through an interpreter, before plunging into the cold, gray waters at 6:15 (French Summer Time) 12:15 a.m. EST.

Navy Starts Own B-36 Case Probe

WASHINGTON—(P)—The Navy set out Monday to learn if Naval higher-ups had any hand in the now-expired charges of fraud and politics in the Air Force's B-36 bomber procurement program.

A court of inquiry was called at the order of Secretary of the Navy Matthews to follow up disclosures unearthed by the House Armed Services Committee.

The committee's investigation came to a halt until October 5 after reaching a sensational climax last week.

At that time, Cedric Worth, a special assistant to Undersecretary of the Navy Dan Kimball, was unmasked as the author of a document hinting at corruption in Air Force bomber policy—and naming Secretary of Air Symington, Secretary of Defense Johnson, and Finance Dept. Odium.

Worth, promptly suspended by Matthews, made a complete and subject repudiation of his charges under merciless examination by Committee Counsel Joseph B. Keenan.

The committee found "not one iota" of evidence to support the "fact and rumor" contained in the nine-page document which was responsible for touching off the House probe.

But Worth's testimony, although it absolved all of Worth's associates in the Navy Department, left a broad trail of innuendo studded with the names of Naval officials.

Matthews ordered the Navy court to follow this trail to the end, and to inquire particularly whether "other persons, military or civil" in the Navy Department had any connection with the document.

The court's instructions also were to determine if any offense had been committed in writing the document for which Worth took complete responsibility.

High Navy brass makes up the panel of Naval investigators, headed by Adm. Thomas C. Kinkaid, commander of the Eastern Sea Frontier.

The other members are Vice Adm. Donald B. Beary, president of the Naval War College at Newport, R. I.; Rear Adm. Glenn B. Davis, commander of the Potomac River Naval Command, and Capt. Stanford B. D. Wood, head of the Military Law Section of the Judge Advocate General's Office.

Waves Pound Beach

(NEA Telephoto) Crashing, smashing seas, whipped up by hurricane winds, lashed 300 miles of Florida's eastern shoreline, causing uncounted damage to boats and shore property. Here a giant wave rages into Miami Beach.

Joan Edwards Benefit Party Set At Rankin

RANKIN — The Rankin Post of the American Legion, aided by other organizations, will stage a big benefit "game night" Thursday in the Upton County Park Ballroom here.

The party is for the entire community and a large turnout is expected since all proceeds will go to the Joan Edwards Recovery Fund.

The fund, started early this month by McCamey, now is centered in Midland, where Joan Edwards was employed when she was injured seriously in an automobile accident last January 17. She has been unconscious since that time.

"Slightly Improved"

Her condition Sunday was reported by her mother, Mrs. M. J. Edwards of Rankin, to be "slightly improved," in a San Angelo clinic where she is undergoing special treatment. Mr. Edwards is the postmaster here.

Joan Edwards is a Rankin girl and Rankin residents are anxious to assist her on the road to recovery by attending the fund night.

The concert will be given with generous response from West Texas and New Mexico citizens.

In addition to the games and entertainment, homemade pies, cakes and candy will be on sale.

Everyone is invited, sponsors said.

Negro Teams Raise \$114.03 In Benefit

McCAMEY — A benefit baseball game Saturday night netted a total of \$114.03 for the Joan Edwards Recovery Fund.

The game was between the negro baseball teams of McCamey and Crane. Crane won the tilt 11-7.

Elmo Morris of Crane and Willie Lee Gilbert of McCamey took the collection from the large crowd in attendance.

The Joan Edwards Recovery Fund was launched here early this month when \$850 was raised at a benefit ball game.

Proceeds from the Saturday night tilt have been forwarded to The Reporter-Telegram, which is administering the funds.

Bolivian Rebels Hold Town Of Cochabamba

LA PAZ, BOLIVIA—(P)—Defying government bombs and loyal troops marching against their stronghold, Bolivian rebels at Cochabamba called on Tuesday for the population to help them Monday.

A rebel broadcast heard here urged the people to rise against the government which, it said, "is provoking a fratricidal war."

The rebels spurned a government ultimatum to surrender or be annihilated issued Sunday night after two Air Force bombings of Cochabamba.

Six planes dropped 140 bombs on the city, damaging the air field and destroying at least one rebel plane, in the major raid. Earlier four planes on a reconnaissance mission dropped a few light explosives.

The rebels answered with pursuit planes and anti-aircraft fire.

It is impossible to estimate casualties because of disrupted communications and continued fighting.

The revolt by violently nationalist elements of both the army and civil population broke out Saturday. The middle-of-the-road government of Acting President Mamerto Urriolagoitia said it is sparked by the outlawed MNR (National Revolutionary Movement) whose leaders, it reported, have sneaked back from exile. They also were blamed for bloody rioting in the tin mines last May.

Russians Protest As Five Americans Seek Noah's Ark

DOGU BAYAZIT, TURKEY —(P)—Five Americans toiled up three-mile-high Mount Ararat Monday to see if Noah's Ark lies on the summit.

They left this isolated village Sunday and no word is expected from the group making the perilous ascent until Tuesday at the earliest.

The Russians have protested strenuously that the search for the ark is merely a blind for a spying expedition—Mt. Ararat is on the Turko-Russian border.

West To Capitalize On Stalin's Loss Of Hold On Satellites

WASHINGTON —(P)—Stalin's grip on the Communist satellite states has been reported sharply shaken by his row with Marshall Tito of Yugoslavia.

That information comes in highly responsible reports reaching Washington from Eastern Europe.

These reports are expected to play an important part in the meetings being scheduled for next month among Secretary of State Acheson, British Foreign Minister Bevin and French Foreign Minister Schuman.

Western diplomats foresee in these meetings a three-power review of the grand strategy of the cold war with Russia, followed by a determined effort to devise new moves against the Kremlin.

The review predicted that the East-West struggle will be divided into three major sections.

1. The Far East—The Western powers have taken a complete defeat in China. Acheson, Bevin and Schuman will be concerned mostly with trying to save the rest of Asia from communism. Acheson may be expected to preach the American policy: more free play to non-Communist nationalist movements in the countries around China.

2. Eastern Europe—Russian political control no longer is as stable as it was at the time of the Tito break. The satellite countries have encountered consistent economic difficulties and large groups of their people are reportedly discontented.

3. Western Europe—In terms of industrial production, the Marshall Plan countries are far along the road to recovery. But this has not been accompanied by equal success in speeding trade and knocking down tariff barriers. Moreover, responsible officials here are beginning to wonder seriously whether the Europeans will be able to stand on their own feet by the time American recovery aid ends in 1952.

Hurricane's End Brings Wind, Rain To Far Northeast

NEW YORK —(P)—The New York metropolitan area was battered by a 70-mile-an-hour wind Monday as the hurricane that hit Florida flicked north.

The Weather Bureau said the winds, accompanied by rain, reached their highest velocity at 5:30 a.m. By 9 a.m. the wind had subsided to 24 miles an hour.

Between 18,000 and 23,000 consumers in New York were without electrical service for a time as wires were knocked down in Brooklyn, Queens and The Bronx.

Russians Protest As Five Americans Seek Noah's Ark

AUGUSTA, MAINE —(P)—The aftermath of a Florida hurricane bumped into a cold front moving down from Canada Monday and brought rain to Maine's parched fields and woodlands.

The Weather Bureau said rain will continue into Monday night and should "considerably help the forest fire situation."

Approximately 10,000 acres have been burned over.

Cooperation With Britain Pledged In Address To Legion

PHILADELPHIA—(P)—President Truman pledged full American cooperation to crisis-ridden Britain Monday, as part of a great effort by the world's free nations to achieve lasting prosperity and peace.

The President spoke before the thirty-first National Convention of the American Legion, which earlier had presented him a medal for "outstanding service to the nation."

The keynote of his address was that "world prosperity is necessary to world peace."

Because of that he said, and because "world prosperity is necessary to our own prosperity in the United States," American leaders resolved before the end of World War II that "the international chaos which led to war should not occur again."

In a sober summary of the international economic situation, Truman declared that a world trade movement—but not a world movement—was needed.

Many of the delegates to the American Legion's 31st National Convention have started an underground movement—but not a world movement.

Many of the delegates to the American Legion's 31st National Convention have started an underground movement—but not a world movement.

Outbreak Of Polio Slackens

By The Associated Press

The nation's 1949 polio cases numbered more than 19,500 Monday, but the rate of new infections appeared to be slackening.

Approximately 3,900 new cases from August 18 to August 27 reflected more than a 20 per cent reduction from the previous nine-day period, when 5,000 were reported. However, this still was well above the 3,000 cases reported during the first nine-day period of August.

The latest Associated Press survey showed actual declines in new cases reported during the last week in six states—Alabama, Arkansas, Illinois, Kansas, Maine and North Dakota. Illinois, with 1,502 cases and 111 deaths this year, is the third state in numerical incidence. Arkansas, too, has been hard hit, with 707 cases and 35 deaths.

Further encouragement came from health officials of nine other states—including the two with heaviest 1949 case totals—that there were indications of leveling off in new reports of the disease.

Fluctuating Period

The states were Indiana, Massachusetts, Michigan, Nevada, New York, Oklahoma, Tennessee, Texas and Washington.

New York, with 2,429 cases and 143 deaths, topped the list of states. But in New York City, where 1,433 of the state's patients and 114 of the dead were reported, the Health Department declared the epidemic now is in a fluctuating period before an imminent decline. The State Health Department said New York's peak is expected in September.

In Texas, which has 1,552 cases, there have been minor drops in new reports during the last two weeks. State Health Officer George W. Cox said he hoped this indicates leveling off.

The case rates appeared still to be mounting in Connecticut, Rhode Island and New Jersey.

Airliner Makes Safe Emergency Landing

YOUNGSTOWN, OHIO—(P)—A Northwest Airlines plane carrying 46 passengers and three crewmen made a safe emergency landing here in drizzling darkness early Monday.

Two passengers were injured slightly, and there was little, if any damage to the plane.

The four-engine DC-4, which left LaGuardia Field in New York at 11:55 p. m. en route to Seattle, ran into rough weather near Allentown, Pa.

Sounding Brass

The four-day meeting is the biggest in Legion history. The 6,500 delegates and alternates represent more than 3,000,000 legionnaires in some 17,000 posts. They'll discuss the pros and cons of some 1,000 resolutions.

The Legion's National Executive Committee adopted a resolution Sunday urging continued aid to anti-Communist forces in China.

The resolution said the U. S. should "not abandon the Far East to the Communists."

Meanwhile, some 4,000 members of the 40 and 8—the Legion's fun and honor group—are holding their own convention. They show off in parade fashion—at their annual "Promenade Nationale"—Monday night.

Shampoo Binge Results Sticky

McLEAN, TEXAS —(P)—Mrs. J. W. Story's freshly shampooed hair stood up as if she had just seen a mouse.

She re-washed it—with more rain water, more shampoo and another vinegar rinse.

Another shampooed Mrs. Story re-washed the shampooed directions. She had followed them.

Then she tested the water—okay; the shampoo—okay; the vinegar—okay; but the shampoo was sticky.

Mrs. Story headed for the nearest beauty parlor.

For the best in Office Furniture, wood or steel, call Baker Office Equipment Co., Phone 2634, 511 West Texas.—(Adv.)

★ LATE NEWS FLASHES ★

WASHINGTON—(AP)—Two Senate committees voted Monday to let European members of the Atlantic Pact use part of President Truman's proposed \$1,450,000,000 arms aid fund to build up their own arms production.

AUSTIN —(AP)—Education of Texas public school children under the Gilmer-Aikin minimum foundation program will cost \$181,593,637 this year according to an estimate released Monday by L. P. Sturgeon, program chairman.

TOKYO—(AP)—A typhoon with winds up to 95 miles an hour was 600 miles southeast of Iwo Jima Monday moving toward Japan at 12 miles an hour.

BERLIN—(AP)—Five Soviet zone German policemen entered the U. S. zone Monday and reported they had fled to escape service with Communist guerrillas in Greece, a Military Government announcement said.

Light Opera Stars Play Rough, Prima Donna Sarnoff Reveals

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD—Dorothy Sarnoff, the prima donna who looks like Mariene Dietrich and who chins herself on a gymnast's bar before singing, gave me the lowdown on backstage manners of light opera.

Scene-stealing in Hollywood, it appears, is harmless fun compared to the nasty things that go on while the ballet is tripping the light fantastic or the soubrette is making eyes at the tenor with the pearly store teeth and curly toupee.

Dorothy wouldn't name any names, of course. She wants to go on singing without having a potted palm fall on her some night.

As a matter of fact, a chunk of glass from an exploding stage light did land in her hair one night.

It was hot and it singed her hair. But she went right on singing oblivious of what was happening. When she got into the wings she discovered she was a singer with a singe on top.

But that wasn't backstage skulduggery. Strictly accidental, she assured me.

I found Dorothy, a New York-born Cornell U. graduate, who has been singing professionally only eight years, putting on make-up in her dressing room before a performance here of "The Great Waltz."

I had to duck under a portable gymnast's bar stretched across her dressing-room door. The chin-ups are great. She said, for stomach muscles and for limbering up.

Prima Donna Problems

But about those backstage temperaments:

Dorothy had some notes in her purse, because, she said, "I want to tell the truth."

Last season she starred in "Magdalena," which requires two prima donnas. The author didn't realize, apparently, that two prima donnas in one company can be the equivalent of two of Arnie Shaw's ex-wives at a party. (I've known several who could start riots all by their little selves.)

The riot on "Magdalena" started almost immediately. The other prima donna wanted Dorothy billed as the romantic lead because, she said, there could only be one prima donna.

Dorothy won that argument. There were two prima donnas.

The other warbler then developed a little trick to make Dorothy late for a singing cue. Dorothy had to lead her across the stage, help her to a seat and simultaneously go into a song. The nasty prima donna discovered that by hesitating a few seconds before sitting down she could throw Dorothy off cue.

It happened several times and then Dorothy chinned herself a couple of extra times on her portable gym bar. At the next performance she put a vice-like grip on the singer's arm, practically dragged her across the stage and whispered:

"You sit down this time or I'll knock you down."

Dorothy said she didn't have any more trouble after that.

Curing "Rosallinda"

Then there was "Rosallinda" and the soubrette who was playing the

Roma's Party Is Smash

When Roma, the pet elephant at the Rome Zoo, passed her first birthday, her keepers tried to make it a memorable occasion. They fixed a lovely, 26-pound layer cake with a candle and all the trimmings. Roma, accustomed to a lavish diet of milk, fruits and rice, showed her appreciation in the manner illustrated below.

Dog Doters On Disagree With Cat Promotion

By ED CREEGH
NEW YORK—(P)—Some day, I do not guarantee when, this reporter is going to learn to keep his big pup shut.

About dogs, anyway.

A few days ago I committed a piece of the papers to the effect that dogs are not what they used to be. I said they were somewhat on the sissy side nowadays, that they weren't getting in the headlines much, that the cats seemed to be taking over.

It seems some dog-doters-on in Jackson Station, Maine, Chula Vista, Calif., and points between disagree.

Also they write letters. Nice letters. Suggesting in a friendly sort of way that when I wrote my piece I probably was drunk, under ether, or in the pay of the International Association of Dog-Catchers.

There is, for instance, the case of Jetty, reported by Dick Johnson of Tampa, Fla.

Hearing Ear Jetty

Jetty is a Texan. (Why a man from Florida should be boosting a dog from Texas puzzles me.)

Anyway, Jetty, a black mongrel, is one leap beyond a seeing eye dog. She's a hearing ear dog. She telephone-listens for Mrs. J. D. Ingram of Dallas, who is hard of hearing.

When Mrs. Ingram's phone rings Jetty cocks her head to the right. When it rings a second time, Jetty cocks her head to the left. The third time, Jetty decides Mrs. Ingram hasn't heard it and starts barking like crazy.

Mrs. Ingram can hear Jetty barking and she can hear on the phone. What she can't hear is the telephone bell. Jetty knows that. How? The man from Tampa doesn't say.

The Pup Comes Back

Then there is Pat, a Collie. Pat came to live with Mr. and Mrs. Richard Douthitt of Darlington, Pa., as a pup. Fine pup, too. His favorite job was waking Douthitt each morning and he snuffed if his master got up unassisted.

Well, one day Pat was missing. Seven years later a dog turned up in the Douthitt neighborhood, all popped out. Dog tired, in fact.

"Why, he looks like Pat," the Douthitts said.

Experimentally, they took him home. He ran all around the place, sniffing, as if he weren't quite sure he belonged there.

The Douthitts weren't sure, either, but:

"The next morning," Mrs. D writes, "I said to him, 'Pat, do upstairs and get Dick up.'"

"He went charging up the stairs, barking his head off."

"He jumped right into the middle of the bed, in his excitement."

"We have never doubted for a minute after that if he is our pup, Pat."

Midland Airpark Is On Air Tour Route

COMMERCE—The largest number of private planes ever to tour Texas in a group is scheduled to take to the air September 12 for a 3000 mile "All Texas Air Tour," sponsored by the Texas State Aviation Association.

H. W. Bahnum, of Commerce, president of the association, said that around 200 planes and 600 persons are expected to make up the tour, first of its kind ever tried in Texas.

Also participating in the tour will be the Flying Farmers and the Texas Private Flyers Association.

More than 60 airports will be visited by the "All Texas Air Tour." Leaving Houston, the group will spend Monday night at Harlingen, and Tuesday night at Del Rio.

At noon Wednesday the tour will be entertained by the Odessa Chuck Wagon Gang. The planes will land at Midland's Airpark at 2:15 p.m. Wednesday night will be spent at Plainview; Thursday night at Kerrville; Friday night at Fort Worth; Saturday night at Waco and the tour will end Sunday night at Galveston.

Woman Loses Arm In Boating Accident

HOUSTON—(P)—A young Houston housewife lost her lower left arm Sunday in a boating accident at the close of an afternoon of speedboating with her husband and friends.

Grace Elizabeth Eyring, 22, is in Pasadena hospital, where attendants said her condition was good. She also suffered a deep cut nearly 12 inches long on the right arm.

Elliott Eyring, her husband, a Southern Pacific clerk, said his wife either fell or was thrown from the speedboat they were in as it made a sharp turn to dock.

"She was caught by the propeller," he said, "which severed the left and sliced into the right." Eyring, a Navy veteran, dived in and pulled her out of the water.

Herb Hicks Services Held At San Angelo

Funeral services for M. H. (Herb) Hicks, 48, of Midland, West Texas district superintendent for the Plymouth Oil Company, were held Sunday afternoon at San Angelo with the Rev. Ray N. Johnson, pastor of San Angelo's First Methodist Church, officiating.

Following the services, the body was sent to Monticello, Ky., for interment.

Hicks was a veteran employe of the Plymouth Oil Company and would have been eligible for his 20-year service award next Monday.

He died about noon Saturday in a Texas hospital, after suffering a heart attack while visiting a Plymouth field north of Rankin.

Survivors include the parents, Mr. and Mrs. W. D. Hicks, and two sisters, Mrs. Parker Cooper and Mrs. Raymond Eckell, all of Monticello, Ky., and two brothers, Clayton Hicks of Sinton, and Bert Hicks of Augusta, Kan.

BACK FROM RUIDOSO

Charles A. McClintic has returned from a two-week vacation trip to Ruidoso, N. M.

Rankin News

Mrs. E. D. (Mom) Yates was taken to a McCamey hospital Friday and was transferred to a San Angelo hospital Saturday morning. Bob Schlangel took Mrs. Yates and her daughter, Mrs. Jake Cockrum to San Angelo.

Little Kay Rankin, two-year old daughter of Mr. and Mrs. Billy Rankin, is ill with polio in a San Angelo hospital. The baby, whose body is partially paralyzed, was taken to San Angelo Thursday.

Rankin schools will open September 6. Supt. Hamilton Still said: High school students will register Thursday of this week with each student to have an individual conference concerning his work schedule for the year.

All pupils will report at the high school at 8:45 a. m. September 6 with registration of grade school pupils to take place at that time. First year students will present a written certificate as to the date of their birth.

A sharp increase in scholastics is anticipated in Rankin schools this year.

Noiseless Bag Holds Nothing But Popcorn

NEW YORK—(P)—Movie-goers are going to love this one.

It's a new noiseless, rustle-proof popcorn bag. Production of the bag was announced Sunday by the Grand Bag and Paper Company.

And it doesn't stop with just being quiet.

The soft, cloth-like paper bag also is porous, so it can't be blown up or popped, or filled with water for balcony bombing raids.

One acre of sugar beets or sugar cane produces 1,700,000 calories or about four times more energy per acre than any other food.

Teacher Receives Degree After 45 Years Of Setbacks

COMMERCE—(P)—William L. Oliver of Van, Texas, stepped up to get his degree of bachelor of science on his 88th birthday.

He was one of 714 who were graduated from East Texas State Teachers College Sunday.

For 38 years Oliver has taught in rural schools. "I started to college back in 1904 with only \$12 in my pockets. I've had a lot of setbacks, but I never gave up," he said.

The setbacks included a 1929 bank failure, the depression of the '30s, and destruction of his home by fire in 1945.

"I teach because I like it. I love children and like to be near them," said Oliver. His post this Fall is at Queen City, Cass County. He has taught in Denton, Johnson and Wood Counties.

He and his four brothers add up 123 years of Texas teaching.

Younger Brother Ben, now at Brownwood, has taught 44 years; Windell is Van Zandt County superintendent, with 24 years teaching; J. M. of Canton, has taught 14 years and S. H. of Fort Worth, three.

A mild winter in 1900 caused a world-wide shortage of natural ice and stimulated development of ice making machines.

DO YOU WANT YOUR CHILD TO PLAY THE PIANO?

Yes!—
YOUR CHILD can now learn to PLAY the PIANO—Quickly!

This booklet is dedicated as a Public Service to the teachers, parents and children of America, by the Story & Clark Piano Company—manufacturers of the world's greatest piano values.

GET THIS AMAZING BOOK—FREE!

ANSWERS ALL THESE QUESTIONS!

Can my child really learn to play, quickly?
How are modern lessons made so easy?
How soon can my child play real tunes?
What is the best age at which to start lessons?
How much do lessons cost?
How do I select a good modern teacher?
By should my child learn to play?

What would you give, right now, for the ability to play the piano? What would it be worth to your child, now and forever, to be able to play?

This little book tells how the modern child CAN learn, in a far shorter time and at less expense than you have ever dreamed possible!

Read this book, then judge for yourself! Come in and get your FREE copy, or just mail the coupon!

Stronger Democracy Is Needed In their first free election since Hitler took power in 1933, some 24,000,000 Germans in the western zones have voted for parliament members to serve in the new government created under Allied auspices.

Naturally there is satisfaction in the mere fact this election was held, for it suggests Germany is back on the road to freedom at last. Anyone must welcome the establishment of postwar self-government there, even though it does not include the Soviet zone.

There is satisfaction also in word that the election generally was orderly, and that a surprisingly large turnout—about 75 per cent of the eligible voters—joined in the balloting.

Yet the conduct of the election campaign in the final 10 days certainly must temper our enthusiasm for an otherwise hopeful event. It was marked by an emotional upsurge of strident nationalism that smacked of Hitlerism all over again.

The outbursts were toned down in the final appeals. But it is hard to shake off the feeling that the earlier thunderings represent the true German sentiment even among the more enlightened party leaders.

Fuel for this notion comes from Thomas Mann, celebrated German author just back from a visit to his homeland. He declares there is real danger from a reviving militaristic nationalism in Germany.

He advises the Western Powers to give more support than they have to the "honestly democratic forces" of Germany, which he says are in a "dangerous minority."

That is the least we can do. Until genuine democracy grows strong in Germany, the western nations cannot leave this new government or any other German government to its own devices.

Careful Now, Men!

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1949, By The Bell Syndicate, Inc.) Robert S. Allen says: Truman to face battle similar to that over Wallgren in appointment of Igenfritz to Munitions Board as later holds U. S. Steel job; California Republicans also having trouble inside party.

WASHINGTON—President Truman doesn't know it yet, but he has another brawl on his hands to get Senate confirmation for an appointee to a key defense post.

The appointee is Carl Igenfritz, U. S. Steel Corporation vice president, to be chairman of the Army-Navy Munitions Board.

The fight over Igenfritz is the battle over ex-Governor Mon Wallgren (for chairman of the National Security Resources Board) all over again, plus some new trimmings.

The latter are Igenfritz's insistence that he be allowed to continue to draw his \$70,000-a-year U. S. Steel pay as well as the \$14,000 which goes with the Munitions Board job.

Staunchly backing him are Defense Secretary Louis Johnson, Senator Millard Tydings (D-Md.), chairman of the Armed Services Committee, and Senator Chan Gurney, N. D., ranking Republican member of the committee.

As a senator during the war, the President repeatedly condemned the employment of \$1-a-year men. Leading the fight against Igenfritz are Senators Harry Byrd (D-Va.), Lyndon Johnson (D-Texas), and Wayne Morse (R-Ore.).

has become foreign minister of Argentina is a rather ominous symbol of the times. Five years ago, Hipolito Jesus Paz, then 27, was prominent among the fanatically pro-Nazi boys who roamed the streets of Buenos Aires, beating up anyone who wore Allied colors in his lapel, or sometimes those who simply refused to cry "Heil Hitler!" on command.

These militants, who always traveled in gangs of six to 10, comprised the youth element of Alianza Nacionalista Libertadora (Nationalist liberating alliance), an ultranationalist, fiercely Fascist organization which helped Peron to power.

It is interesting to note that, before long, organized members of the Communist Party began to engage in street combats with the Alianza gangs; and that Juan A. Bramuglia, the man whose job Paz has just taken over, was active enough among the former to get his nose broken in one of the brawls.

After the war, the Alianza Nacionalista split. The so-called moderates continued to support Peron, but the extremists turned against him, largely because he named "international-minded" Bramuglia to head the foreign ministry.

Actually, the "moderates" also have consistently opposed Bramuglia's policies; but they did so under cover until he won the undying enmity of the dictator's wife, flamboyant Eva Peron, by taking too much initiative and getting himself too much publicity in the UN General Assembly meeting in Paris last year.

Such tactics strongly displease Dona Evita, who believes that the men around her husband should have the passion for anonymity and a talent for taking orders—preferably hers. That explains why Jeronimo Remorino, Argentine ambassador in Washington, failed to get Bramuglia's job.

As soon as they realized Bramuglia was a marked man, the pro-Peron Nacionalista started working on Evita to throw the appointment their way. Their main argument was that, as world politics stack up today, a strong anti-Communist Nationalist would be most apt to gain the "respect and confidence" of the U. S.

In some ways, the young man who is a member of the Senate committee favors confirmation. But Byrd and the others have served notice they will wage a bitter floor fight. With the Senate logjammed by a huge stack of unfinished business, the outlook for Igenfritz is not promising.

One important segment of American industry is putting President Truman's "point four" foreign-aid program into effect without government financing. The innovators are the United Hybrid Growers of Iowa.

McKenney on Bridge

By WILLIAM E. MCKENNEY American Card Authority Written for NEA Service

I was pleased the other day when I received a check for \$500 from the Women's Contract Club of Indianapolis, Ind. Mrs. Grace C. Buschmann, president of the club, wrote that it had taken them some time to accumulate this fund, and now they were happy to pass it on to War Orphans Scholarships.

What would you play from dummy on the opening lead of the six clubs? Would you say that West might be leading away from the queen, and perhaps you ought to

South West North East 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32

Opening—4-4-3-2

take the finesse? Mrs. Buschmann said "Certainly not." The fact that North had bid clubs and West had led shows that the lead must be singleton or a doubleton, so go right up with dummy's ace.

Then you proceed to cash the king of hearts in dummy. Next cash the king of clubs to strip West of his other club, and lead a spade. If you have to hope for it, West has the spade king. West gets in and must lead either a heart or a diamond. So you trump in dummy and discard your losing club.

Midland Nurseryman Is Association Official

AUSTIN—J. H. Walker, of the Walker's Nursery, Midland, was elected a member of the Executive Committee of the Texas Association of Nurserymen when the state-wide convention held its sixteenth annual convention here recently.

Approximately 300 growers, wholesalers and retailers met in the state capital to discuss business practices, ethics, and inspection and certification methods which will assure the private home or farm owner with the best nursery stock available.

A resolution was passed by the convention to support the budwood certification program initiated by Texas A&M College on an experimental farm near Tyler. Stock grown there will be inspected regularly to insure that it is free from disease, fungi, or any cross-breeding which would be detrimental to nurseries for propagation, these firms will be able to guarantee true-to-variety, disease-free fruit and ornamental trees to the customer on a money-back basis.

Native women of the poorer classes never appear without heavy veils in the streets of Sarajevo, Yugoslavia.

do without you," Gaynel said. "Shall I pick you up downtown?"

"Of course—you're a great picker-upper. Will you globe-trotting take the whole evening?"

"I may, my love. I know of a spot on the sea-side where they serve swell sea food. And a drive along the lake; there's going to be a full moon; I called up the weather bureau to make sure. How's that sound to you?"

WASHINGTON COLUMN

Diplomat Butterworth Jumped By Senate Republican Group

By PETER EDSON NEA Washington Correspondent

WASHINGTON—The case of W. Walton Butterworth personifies the present Washington muddle over what to do about China. President Truman nominated Butterworth to be assistant secretary of state in charge of Far Eastern Affairs, last May. Half a dozen other high State Department nominations were sent to the Senate at the same time. All these others were confirmed in June. But two months later the Butterworth nomination remains unconfirmed because a small group of Republican senators don't like what has happened in China.

Senator Owen Brewster of Maine says Butterworth "represents the Chinese policy of the Administration." Senator Styles Bridges of New Hampshire calls Butterworth "the symbol of failure in our tragic era in our relations with China."

Another name for it, perhaps, is that Butterworth is cast in the role of "the fall guy." Because there is no one else who can be reached in fixing blame for the China debacle—President Truman, Secretary of State Dean Acheson, Gen. George Marshall, Gen. Albert Wedemeyer, or even Generalissimo Chiang Kai-shek himself, for instance—Butterworth heads the line to become the goat.

Senator Arthur Vandenberg of Michigan, the only one who did not vote for Butterworth's confirmation in the Foreign Relations Committee, nevertheless has said that he "was not the responsible officer in the drama."

Ducking The Issue Senator Vandenberg went on to say that "an able career servant in the diplomatic service should have his record carefully protected against any debts which are unfair." The senator therefore did not vote against Butterworth's confirmation. He merely voted "Present," thereby neatly ducking the issue.

With such things both good and bad said about Butterworth, the bare facts of his record are worth a closer look. There has been some attempt to pin a label of State Department failure on him. It comes as something of a surprise, therefore, to learn that during the war the now extinct left-wing tabloid newspaper PM branded Butterworth as a "Nazi" and "Nazi." This was while he was in Spain, making U. S. government deals with Dictator Franco's government for the preclusive buying of mercury and other strategic materials, to keep them from the Germans.

It would be a lot easier to believe that Butterworth is a reactionary than to believe that he heads up a mythical "Communist cell," sometimes believed to control U. S. policy in the Far East. Everything about his background bespeaks the aristocrat and the conservative. He is big, tall, blond, blue-eyed, a little puffy-faced and over-weight from lack of exercise.

He was loaned to Jesse Jones in the Department of Commerce to organize a British trade unit in 1941. He worked on the Treasury's stabilization fund operations. He took part in early operations of the U. S. Board of Economic Warfare and the U. S. Commercial Company. Then he was sent to Portugal and Spain in 1943, to head up USCC economic warfare operations against Germany.

Service in Spain Butterworth served as counselor of the U. S. Embassy in Madrid under Ambassadors Carlton Hayes and Norman Armour, and as charge d'affaires when Armour resigned. That's where he was when in December, 1945, he got a cable from the State Department assigning him to Chungking, China, as minister-counselor.

Butterworth says he doesn't know and his most persuasive grin. "You're a fresh one, ain't you?" the officer said. "It ain't you much. It's come along."

"Oh, but, Officer," Fritz turned on all his charm, "we haven't got time for that."

"You'll take time. The charm had not worked, either, apparently, as the officer sounded—and looked—even madder. "Time's just what you'll get. There's a drive against the likes of you. There won't be no fine; you'll have to work it out."

Questions and Answers

Q—At what hour did George Washington die? A—Washington died at exactly 10:20 p.m. Dec. 14, 1799. At the moment of his death Dr. Dick cut the cord that held the pendulum of the clock on the mantel.

Q—Who first referred to the press as the "fourth estate"? A—This term was applied to the press by Thomas Macaulay about 1828 to indicate that in his opinion it ranked in importance equally with the three estates of the realm, the Lords Spiritual, Lords Temporal and Commons.

Q—Where are the Fortunate Isles? A—Fortunate Isles is the ancient name for the Canary Islands, which in the ancient world were vaguely known, although the Carthaginians undoubtedly visited them. They were rediscovered by the Arabs in the thirteenth century.

Q—Who founded Eaton College? A—Eaton, a public school in England, was founded in 1440 by Henry VI, and built about 1441. Originally for poor children, the school now enrolls pupils at birth, to enter when they are between 12 and 14.

Q—By what authority can the President of the United States call an extra session of Congress? A—"The Constitution provides for this. Article II, Section 3, says: "... he may, on extraordinary occasions, convene both Houses, or either of them ..."

Carrier-based aircraft destroyed 12,268 Japanese aircraft during World War II, and 98 per cent of the destroyed planes were land-based aircraft.

Steps to the Moon By Adelaide Humphries

"I AM I still in the dog-house?" Fritz asked a few days later, over the telephone. "I'll let you out, if you think you can behave," Gaynel returned. Funny, the excited feeling she had at the sound of his voice. Every time the phone had rung she had thought it might be Fritz. And told herself that even if it was, she didn't care whether he called or not.

Fritz said, "I'll be a paragon. A jewel. If you'll behave and lend me a helping hand, I need a helping hand. A pretty, feminine hand."

Gaynel said, "Fire away. Both hands are at your disposal, sir." "It's like this. There's a fellow I know who is fond of traveling and would like to go to Canada, but the last time he went over he lost his entry permit and the customs guy would hardly let him get back into his own country. "How unkind!" Gaynel murmured.

"As a matter of fact, this fellow is me. The doubting-Thomas customs man said that I'd better get somebody to vouch for me." "So?" "I thought I'd take somebody along this time. Armed with nice-looking credentials like you, I know I can get back into my own country without my birth certificate." "Of course this country couldn't

do without you," Gaynel said. "Shall I pick you up downtown?"

CARNIVAL

"Here comes old may-I-please-have-a-bone-for-my-dog?"

West Texas Oil & Gas Log—

(Continued From Page One)
northwest side of the Diamond-M field.

It is to be a 6,800-foot rotary venture to test the Canyon lime reef section. Drilling is to get under way in the near future.

Drillate is 664.98 feet from north and 1,831.10 feet from east lines of section 197, block 97, H&TC survey, and 10 miles west of Snyder.

NE Winkler Wildcat Swabbing Salt Water

Richardson & Bass and Southland Royalty Company No. 1 Joe Wallace, Northeast Winkler County wildcat, 13 1/2 miles northeast of Kermit, made a little oil and considerable salt water in swabbing on perforated section in the lower Permian at 7,990-8,040 feet.

That interval had been treated with 2,000 gallons of acid. No gauge was reported on the oil recovered. However, at last report the section was swabbing 100 per cent water with a strong salt content.

It is expected that the 7,990-8,040 foot zone will be squeezed off with cement, and a higher horizon perforated and tested.

Offset To Discovery

This exploration, located 1,980 feet from north and west lines of section 38, Barbara Hill survey, and one and one-quarter miles south of the discovery for Devonian production in the Flying W field, drilled to a bottom of 11,855 feet in the Ellenburger.

That formation made only water. The project was plugged back to 8,380 feet and 7-inch casing was cemented at that point.

The zone at 8,230-80 feet was perforated, acidized and tested, and developed a little gas cut drilling mud. No oil indications showed in that section. Those perforations were squeezed off and the 7,990-8,040 foot zone was perforated for testing.

Hiawatha Gets Lease On SW Scurry Tract

Hiawatha Oil & Gas Company has taken a one-year lease on an undeveloped tract in Southwest Scurry County, about one mile east of the nearest wells in the Sharon Ridge-Canyon field.

It is presumed that operator will drill at least one well on the tract before the expiration of the one-year period.

The tract is the east 200 acres of

the north 415 acres in section 160, block 97, H&TC survey.

Consideration in the transaction was not reported. The trade was made with T. J. Sterling, owner of the land.

Flankers To Pegasus Log Small Oil Show

Drillstem tests on the Devonian formation in two flankers to the Pegasus field in Central-North Upton County and Central South Midland County failed to develop any appreciable shows of possible production. Both explorations are making more hole and are going on down to explore the Ellenburger.

Magnolia Petroleum Company No. 2-30 Glass, in the Midland County side of the area, and a long northeast outcrop to the Pegasus opener, tested at 11,755-838 feet. The tool was open two and one-half hours.

No Signs Of Oil, Water

Recovery was 120 feet of slightly gas cut drilling mud. There was a little free gas in the drill pipe after the investigation.

No signs of oil or of formation water were developed. The venture is making hole below 11,898 feet in lime and chert.

It is 1,980 feet from west and 660 feet from south lines of section 30, block 40, TP survey, T-4-S.

Magnolia No. 1-36 Glass, southwest stepout from the initial producer in the Ellenburger in the Pegasus area, and 1,980 feet from north and 660 feet from east lines of section 36, block 41, TP survey T-4-S, took a three and one-half hour drillstem test in the Devonian at 11,660-711 feet.

Recovery was 150 feet of drilling fluid, with no signs of oil, gas or water. It is now boring ahead below 11,717 feet in lime and chert.

Lubbock Wildcat Is Swabbing Oil, Water

Slick-Moorman Oil Company and C. W. Chancellor, No. 1 Cloud, Central-North Lubbock County semi-wildcat, was swabbing approximately eight barrels of fluid per hour—50 per cent oil and 50 per cent water—at last report.

That production was being developed after the bottom section of the hole between 6,134-44 feet. It was coming after that interval had been re-acidized with 4,000 gallons of acid.

Previously the entire open hole zone between 6,100 feet and the

total depth at 6,144 feet had been washed with 500 gallons of mud acid, and treated with 2,000 gallons of regular acid.

May Complete As Pumper

After the 2,000-gallon injection the 6,100-44 foot horizon had swabbed 51 barrels of new oil in 13 hours, with no water.

It is possible that operators will try to re-treat the top of the pay between 6,100 feet and 6,130 feet, and try to develop a commercial pumper from that formation, above the water.

Should that effort fail to materialize the project probably will be completed from the entire open hole at 6,100-44 feet, and pump both oil and water.

The venture is 1,980 feet from south and 660 feet from east lines of section 22, block D, L&SV survey. It is three-quarters of a mile southwest of the lone producer from the lower Permian in the Cravens field.

Pecos Deep Venture Plugged, Abandoned

Humble Oil & Refining Company No. 1 San Pedro Land & Cattle Company, North Pecos County deep wildcat, 18 miles north of Fort Stockton, has been plugged and abandoned as a failure, on a total depth of 5,556 feet in Ellenburger lime.

The bottom section of that formation made sulphur water. Operator then plugged back and ran a 90-minute drillstem test in the top of the Ellenburger at 5,230-5,346 feet.

Recovery was 190 feet of drilling mud, with no indications of oil, gas or water.

This prospector was 660 feet from south and east lines of section 2, J. C. Duvall survey, and five miles southeast of the Heiner pool.

Operator has not released the official geological report on this exploration.

PHOTOGRAPHY CONTEST ENTRY BLANKS RECEIVED

Rules and regulations and official entry blanks for the West Texas Chamber of Commerce-sponsored photography contest are available at the Chamber of Commerce office here, DeWayne Davis, assistant manager, announced Monday.

He said much interest in the contest has been shown by Midland and area residents.

The contest is for both amateur and professional photographers. Attractive prizes will be awarded the contest winners.

Champ Clydesdale Horses To Arrive In Midland Tuesday

Midlanders will get a chance to see the world champion Clydesdale draft horses of the Budweiser Brewery Tuesday and Wednesday.

The horses are being shown here and elsewhere to celebrate the brewery's \$54,000,000 expansion program, according to H. B. Dunagan of the Dunagan Sales Company.

The 10 steeds will parade through the streets of downtown Midland soon after arriving here from Amarillo. They will be drawing the famous Budweiser wagon.

The horses will be quartered at the Dunagan Sales Company warehouse.

They are the world's largest draft horses, averaging 2,000 pounds each. Besides being the most traveled horses in the U. S., they have been awarded many prizes, ribbons and medals.

Note to Employers...

Workers Without Worries Are Better Workers

Workers can't keep their minds on their jobs when they are worried over health emergencies. Distraction over possible or existing hospital bills and medical expenses cuts efficiency and creates unhappiness in your employee family.

Bringing your employees into the Blue Cross-Blue Shield Plan stops that worry instantly . . . permanently. It benefits them. It benefits you. It is voluntary individual initiative and free enterprise at work. A small amount each month prepaes the bulk of hospital and surgical expense. Groups of five or more employees are eligible.

Blue Cross-Blue Shield is a Texas institution with 16 Regional Offices to serve you.

6—THE REPORTER-TELEGRAM, MIDLAND, TEXAS, AUG. 29, 1949

Oilers Win 6-2; Indians At Home For Week's Stand

The Midland Indians open a six-day home stand Monday night when they engage the Roswell Rockets in the first game of a three-game series at 8:15 p.m. in Indian Park.

Ralph Blair is the probable starter for Midland. Manager Harold Webb will be back at the helm following several days off.

ODESSA—The Odessa Oilers had the last word with the Midland Indians here Sunday. They took a 6 to 2 decision in the final game of the season between the two clubs.

Manny Rodriguez, the ex-Big Spring Bronc, hurled five hit ball to stop the Redskins and give Odessa the series in two straight games. Ernie Nelson pitched for Midland.

Score Tied
Odessa scored two runs in the early innings to take the lead but the Indians knotted the count in the fifth. Gus Pena walked, Nelson singled and Stanley Hughes drove them home with a triple. That was the last time Midland threatened.

Les Palmer scored the winning run in the seventh. He opened the frame with a triple and scored on Al Monchak's long fly. The Oilers put together a walk, two singles and a double to count three more in the eighth for insurance.

The box score:

SPORTSLANTS

BY SHORTY SHELburnE

The Midland Indians, returning from a road trip filled with defeats, bring the pennant race to Indian Park for six days this week.

The Roswell Rockets, currently in the cellar but still potent in spots, will be here Monday, Tuesday and Wednesday. They have been an easy mark for the Indians while playing here this season. However, they could dim our pennant hopes even more by taking a game or two out of this series, no matter what they have done before.

Vernon, the second place club, will come here Thursday, Friday and Saturday.

They are fresh from a sound licking at the hands of the Ballinger Cats in a two-game series.

If the Indians can take a lesson from the Cats and nip the Dusters it will help a lot.

The other two clubs to visit here in the remaining home games are Ballinger and Big Spring.

Needless to say, Big Spring has been tough on any field all year.

Ballinger is in the midst of one of the most amazing climbs of the season. They have won 15 out of their last 16 games and still are winning.

There hasn't been any great change in the personnel of the ball clubs. The Cats are just on a hot streak.

Once they lose their suck, their string undoubtedly will be snapped. Considering that the Indians have six more games with them, it better be our side which breaks that string, too.

The Indians have a golden opportunity to make the gap between third and fourth wider this week. Ballinger and San Angelo are to engage in a three game series.

If we can win in straight games from Roswell, one of the clubs

Longhorn League—Cats, Oilers Crowd Colts, Indians For Berth in Playoffs

The big question in the Longhorn League is, will the Ballinger Cats or Odessa beat out Vernon, Midland or San Angelo for a place in the playoffs?

Only seven and a half games separate sixth-place Odessa from second-place Vernon. And fifth-place Ballinger is only half a game behind fourth-place San Angelo.

Big Spring, which already has clinched first place, downed San Angelo Sunday 11-7. It was the Bronco's 84th win of the year, which set a new league record. Jorge Lopez, Potato Pascual and Ace Mendez all homered for the Bronco.

Ballinger catcher Felipe Luna singled in Johnny Jones in the tenth inning to hand Vernon a 6-4 licking. It was the eighth win in a row for Ballinger.

Roswell broke a 10-game losing streak by downing Sweetwater 11-9. Les Palmer set a new league record of 19 triples by slugging a three-bagger that helped Odessa defeat Midland 6-2. Manny Rodriguez, Odessa hurler, banded out four singles and drove in one run, while chunking five-hit ball.

CELEBRATING THE 64 MILLION DOLLAR EXPANSION OF THE HOME OF BUDWEISER

World Champion Clydesdale Horses on the streets or at . . .

WHERE WHEN 600 BLOCK ON WEST MISSOURI AVE. (Dunagan Sales Company Warehouse) AUGUST 30, 31

When you see the world's largest draft horses stepping proudly along your streets—well, you'll know just how proud the makers of Budweiser feel about completion of their \$64,000,000 brewery expansion program. It has nearly doubled the pre-war production of the world's most famous beer.

Not only have the brewing facilities for Budweiser been greatly expanded, but the largest ageing cellar on earth, surrounded by other immense ageing cellars, is now completed and in operation. These cellars, with hundreds of thousands of barrels of capacity, are necessary because Budweiser is aged much, much longer than the 30 days or less allotted to ordinary beers. There's more Budweiser now . . . so call for it every time. Every sip tells you that there's nothing like it—absolutely nothing.

A few facts about the famous Clydesdale Champions: The largest draft horses on earth . . . weigh on the average 2000 pounds each and wear shoes twice the size and nearly four times the weight of those of ordinary horses . . . have won a great collection of medals, cups and ribbons. Budweiser's famous horses are the most traveled horses in the United States. They're a sight that all your family will much enjoy and long remember. Don't miss them.

MAJOR LEAGUES—

Yankees, Cards Widen Gap Over Bosox, Dodgers

By JOE REICHLER
Associated Press Writer

The New York Yankees won a double-header Sunday and picked up a game and a half on the Boston Red Sox, but faced the future Monday with nothing but gloom. Unless a miracle happens, the American League leaders will be forced to play the next three weeks without the services of Tommy Henrich, their star outfielder. He may do no more playing this year.

"Old Reliable," as Tommy is known, injured his back severely in the first game while attempting to catch a line drive off the bat of Chicago's Charlie Kress. X-rays taken at Mercy Hospital revealed fractures of the second and third ribs in the lower part of the back.

A six-run, ninth-inning rally gave the Yankees the first game over the White Sox 8-7. The Yanks also won the nightcap 7-5 with darkness halting proceedings after eight innings. The double triumph enabled the Yankees to increase their first-place margin to three games over the Red Sox, who dropped an 11-inning game to the Indians in Cleveland 2-1. The second game of that scheduled double-header was called off in the fourth inning because of darkness. The Indians were in front 2-1.

In the National, the front-running St. Louis Cardinals increased their lead over Brooklyn to two and a half games by sweeping a double-header from the Boston Braves 9-7 and 7-1. The Dodgers trounced Pittsburgh 9-0 but lost half a length.

Detroit solidified its fourth-place position in the American, thumping the Philadelphia Athletics 6-4. Washington and St. Louis divided a twin bill in their private battle for seventh place. The Senators walked off with an easy 13-2 victory in the opener, but the Browns won the second game 4-3.

Philadelphia and Chicago split, the Phils coming back to win the second game 8-2 after the Cubs had won the opener 7-4. The Giants also escaped with a split, defeating Cincinnati 4-2 after losing the first game 10-3.

Trailing 7-2, the Yankees went to work on Mickey Haefer, Matt Surkont, and Billy Pierce for six runs to win the opener. Joe DiMaggio began the rally with a two-run homer. Phil Rizzuto's single with two out scored the tying run, and when outfielder George Metkovich bobbled the ball, Gerry Coleman scored from first.

Heads-up running by Larry Doby won for the Indians over the Red Sox. Doby doubled off Jack Kramer with one out in the eleventh. Joe Gordon was intentionally set up a possible double play. Lou Boudreau obliged by hitting a grounder to second. Bobby Doerr flipped to Vern Stephens, but the shortstop dropped the ball. Doby rounded third and headed for home. Stephens recovered and fired to the plate but Doby slid in head first under the tag.

WT-NM League—

Prince Wallops Two Two-Run Homers As Hubbers Win Again

By The Associated Press

The league-leading Albuquerque Dukes gained a full game on the second-place Lamesa Lobos in the West Texas-New Mexico League race.

Albuquerque downed Pampa 10-6 Sunday night. Nino Barnise hurled seven-hit ball for the Dukes. Manager Hershel Martin paced the Duke attack with three hits in four trips to the plate. The Dukes now sport a six and a half game lead.

Borger edged Lamesa 5-4. Borger's Jim Batchelor hurled six-hit ball for his third win in five starts. Gene Nelson's double, a wild pitch and a single in the sixth produced the winning run.

The third-place Abilene Blue Sox defeated Clovis 5-3. Rene Vega smashed a grand slam homer for the Hose to ice the game in the seventh.

Lubbock scored four runs in the eighth to down Amarillo 12-9. Jim Prince slammed a pair of two-run homers for the Hubbers.

Texas League—

Triple Play, Three Homers Wasted As Sports Bow To Cats

By The Associated Press

The Fort Worth Cats whipped Shreveport's Sports 10-6 Sunday night for their eleventh straight Texas League victory—despite a second-inning triple play and three Shreveport home runs.

Tulsa, in second place, six games behind the league-leading Cats, beat sixth-place San Antonio 3-1. Third-place Oklahoma City trounced Houston 10-3, cropping the losers into the cellar, behind Beaumont.

Beaumont edged the fourth-place Dallas Eagles 6-5.

The Sports triple play came on a fly ball to Centerfielder Lewis Davis. He tossed to Second Baseman Al Mazar, who threw to First Baseman Les Burge, nipping two runners. George Brown, Vern Petty and Bill Sarni all hit homers off Cat starter George Dockins. The Cats led the game with three runs in the eighth.

U. S. Netters Smash Aussies In Singles To Retain Davis Cup

FOREST HILLS, N. Y. (AP)—

Having taken turns knocking the daylight out of Australia's Davis Cup players, Ted Schroeder and Pancho Gonzales Monday started along the path which should bring them together in an epic match at Forest Hills on Labor Day. Schroeder, holder of the coveted Wimbledon crown is seeded No. 1 in the national championships. Gonzales, who will be defending the title he won a year ago, is seeded No. 2, and big Pancho doesn't understand why. By custom, the champion automatically is at the head of the class.

The critics could see little to choose between the rival pair as each scored a second convincing victory over the Aussies in winding up another one-sided Davis Cup challenge round Sunday.

Heavy Rains Halt U. S. Amateur Play

ROCHESTER, N. Y. (AP)—

Play in the 49th annual U. S. Amateur Golf Tournament was suspended at 8:30 a.m. Monday because heavy rains left the greens flooded.

Eleven of the day's 82 scheduled matches were under way when officials of the United States Golf Association called a halt. When play is resumed all matches will take up at the point at which they were stopped.

MOURNING DOVE—WHITE-WINGED DOVE OPEN SEASONS 1949

You're not going to pay more to buy from us... and we don't blame you

So, to get your business, we're going to try to supply you with all the petroleum products you need and with the best petroleum products we can make, at prices that are no higher than those of other companies. Every other oil company in the industry is trying to do the same.

They are our competitors; we are theirs.

We compete in the search for oil, so that we can be in a better position to supply your demands. Our geological and geophysical crews are in the field 365 days a year seeking subsurface reservoirs which may contain oil. So are the crews of other oil companies. Sometimes we find oil where others couldn't; sometimes they get production where we have failed. Competition within the industry finds more oil than any other system.

We compete in production, and the oil company with the most efficient production and conservation methods has more oil to sell.

And we compete in the manufacture of the petroleum products you use. In our laboratories, and in those of our competitors, some of the world's foremost scientists are working at a never-ending task of improving gasolines and motor oils for your car, and the other petroleum products you use every day; and to discover new oil products which will be equally as useful to you. A good many of these scientists only recently have returned to their peacetime laboratories; during the war, they were on loan to the government for important and secret wartime scientific tasks.

You are the beneficiary of this competition within the oil industry. It assures you the lowest possible price for petroleum products (the increase in the price you pay for gasoline is less than half the increase in the price of food and clothing); it gives you more and better gasolines and motor oils; it gives you improved service at retail outlets.

In Humble's research laboratory at Baytown refinery, scientists work to improve the petroleum products you use, and to find ways to make new products for you. Humble Esso Extra gasoline was developed in Baytown's research laboratory.

Service attracts customers, and retail outlets displaying the Humble sign strive to give service that is complete, courteous and prompt. Most of them are operated by independent business men.

This diagram shows you how four oil companies may compete to find oil to supply your needs. Competitors 1, 2 and 3 lost out to Competitor 4, which found the oil in this particular "prospect."

Australians Asked To Drop 'DP' Term

CANBERRA (AP)—When is a displaced person no longer a D.P.? When he becomes a new Australian. Immigration Minister Arthur A. Calwell has asked Australians to stop referring to European immigrants as displaced persons, D.P.'s or Balts. He asks that they be called new Australians, newcomers or new settlers. Australia has received 50,000 Europeans sent here by the International Refugee Organization.

DADDY RINGTAIL

And Uncle Bunkum Up To Mischief

Uncle Bunkum lives at the zoo. He likes to live there in his monkey cage. Oh, but he keeps the Monkey Catcher busy—always wanting this and that. And the Monkey Catcher does it all, because the zoo belongs to him, and he is supposed to look after Uncle Bunkum.

On the day I am going to tell you about, the Monkey Catcher had gone away fishing. Uncle Bunkum was out of his cage. He was going to look after things, and maybe get into mischief.

Uncle Bunkum opened the cage of the lion. He grabbed the lion by the ear and led him away to the Monkey Catcher's house. In they went through the door and on to the Monkey Catcher's bed.

about it. Then away he went to get an elephant. Daddy Ringtail was standing there watching the elephants. He had come to the zoo for a visit, but when he saw Uncle Bunkum, he said "Shame, shame on you, Uncle Bunkum, because there's a mischief look in your eyes." Yes, and that's the trouble about mischief: it puts a mischief-look in your eyes for other people to see. Tch! Tch! Tch! Oh yes it does. (Copyright 1949, General Features Corp.)

Pearls On Pearl

Roma Paige, above, was chosen "Miss Victoria Pearl of 1950." The honor and the bathing suit are hers, but not the jewels. They were on exhibit at the American National Retail Jewelers Association show in New York.

SPREAD PROPAGANDA

MOSCOW (P)—There are about 250,000 propagandists of the Communist Party in the Soviet Union. Revealing this, "Pravda" said there had been a large growth in their numbers since the publication in 1938 of the "Short Course of History of the Communist Party of the Soviet Union."

Causes Of Barren Marriages Very Often Can Be Corrected

By EDWIN J. JORDAN, M. D. Written for NEA Service

No one knows exactly how many married couples there are who want children but are unable to have them. Judging from what is known about the subject, however, there must be hundreds of thousands of involuntarily barren marriages. Many possible causes for sterility exist in both men and women. Structural defects, past diseases, disturbances in the glands of internal secretion (hormones) and absent or abnormal sperm or eggs are among the possibilities. In many cases, the difficulty, regardless of whether it is in the husband or in the wife, can be discovered and rectified either by medical or surgical means. In women, for example, the Rubin test which is used to discover whether the passages by which the egg passes to the womb are open, has been of great use in diagnosing this cause of sterility.

THE DOCTOR ANSWERS

By EDWIN J. JORDAN, M. D.

QUESTION: My husband's back is always itchy, especially after a bath. What causes this?
ANSWER: It is impossible to be sure of the exact cause. Possibly your husband's skin is sensitive to soap. Another possibility is a condition sometimes called the bath itch which affects a considerable number of people, especially in cold weather.

In addition to the more definite causes for sterility in men and in women, it is now recognized that in many cases the inability to conceive is not complete but is temporary and merely caused by some minor ailment. A slight anemia, a vitamin deficiency, severe underweight or overweight, or other signs of being below par may be at fault. When such things are corrected, fertility may be restored in some cases and the desired child is soon on the way.

Considerable skill and experience is necessary to explore all the possibilities for sterility. Both husband and wife must be investigated if there is a real desire to find the solution. It cannot always be found, but in an increasing number of cases the results are turning out well.

Fully 20 to 25 meteorites are sent to the Smithsonian Institute each month for identification, but few prove genuine. Slag or cinders most commonly are mistaken for meteorites.

DR. C. L. BRADY Palmer Graduate

Case No. 227

Woman, age 23, tired and "always sleepy." She had been troubled with headaches since 1944, her brain seemed foggy and she was absent-minded. She entered the Brady Chiropractic Clinic May 17, 1949. Her first adjustment was on May 18th. On May 21st the patient called to report "It feels wonderful to go to bed at night without a headache and get up in the morning without one." "I've never felt so good in my life."

Old-Timers Take To Air Again

Two planes of another day return to the air, helping to dramatize the great progress of aviation in less than half a century. Above, a replica of the Bleriot cross-Channel plane of 1909 takes to the air at Birmingham, England, watched by crowds at the King's Cup air race. Below, at Cleveland, Ohio, airport, flight instructor Joe Smith prepares for a test hop in a replica of Lincoln Beachey's 1915 biplane. The plane was built by mechanic Bert Dudek in his basement. CAA inspectors granted Dudek a registration certificate for the craft.

HOW TO PLAY CANASTA: I

Canasta's Truly A 'Wild' Game

By WILLIAM E. MCKENNEY America's Card Authority Written for NEA Service

Canasta, the new card game, will prove popular because it is a light partnership game. It is said that the game comes from Argentina, and the word "canasta" means basket. However, I am inclined to think that it is a development of Oklahoma, a double-deck game of rummy that was introduced a few years ago.

In playing Canasta, you literally

have a "wild" time. In the four-handed game, there are four jokers, all wild of course, plus the eight deuces, which also are wild.

Canasta can be played by any number of players from two to six. When two or three play, each plays for himself. Four-handed is a partnership game and is the ideal way to play Canasta. If you have five players, put three on one side and two on the other. For six-handed, have two teams of three players each.

Some play six-handed with three pairs of two players each, but it is much better to play it as a four-handed game, and when there are three players on a side in either five- or six-handed, have the third player sit out one hand. At the end of a hand, the player sitting out comes in and one of the others of his side goes out.

In three-handed Canasta, the player who sits behind the weak player—that is, the player who receives the discards of the weak player—is bound to win. The weak player will not remember the cards in the discard pile, and therefore his discarding will make it rather easy for the next player to pick the pack and win.

The swings in two-handed Canasta are terrific. In other words, the play depends entirely upon who gets control of the pack. And these terrific swing hands may prove boring. While it can be played two- or three-handed, I want to recommend the four-handed game to you.

There is quite a few rules in Canasta, but they will come to you quickly as you play it. There is some variation in rules among proponents of different styles of play, but I consider those styles described in this series to be basic and the most authoritative. They are the rules approved by Albert H. Moorehead, noted authority on American card games. If you want his rules in permanent form, you can buy his book on Canasta for a quarter from the Greystone Press, New York City.

Before we go into the rules of Canasta, let me point out some of the important differences from the ordinary game of rummy. In Canasta, sequences do not count. In other words, you cannot meld three cards in a run such as the seven-eight-nine. You can only meld three or more of a kind.

The object of the game is to score points by melding cards. Each card has a scoring value, and in addition, there are certain bonus values, the greatest of which is the forming of Canastas. A Canasta consists of seven of a kind. A Canasta composed of seven natural cards of a kind, such as seven fives, is termed a natural Canasta. Canastas also may be made up of natural cards and wild cards, but no Canasta can have more than three wild cards. You may add natural cards or wild cards to any Canasta. They do not increase the value of the Canasta except for the point value of the cards themselves. However, if you add a wild card to a natural Canasta, you reduce its value to that of a mixed Canasta.

TOMORROW: Melding and forming Canastas.

Six GAR Veterans, 100 And Up, Start Final Encampment

INDIANAPOLIS — Six old Civil War veterans settled down to have convention fun Monday.

It's no breeze, especially when you're 100 and up, and thousands of younger kinfolk are hovering around talking sadly about "the last encampment of the Grand Army of the Republic."

Energetic old Charles L. Chappell, 102-year-old senior vice commander from Long Beach, Calif., said he might look over the town a little.

Chappell and gray-bearded Robert Barrett, 102-year-old ex-cavalryman from Princeton, Ky., decided a sun-gasboard looked better than Sunday's opening memorial service.

Albert Wilson, the 102-year-old chief of staff from Duluth, Minn., sat through half of the memorial tributes and went back to his hotel for an early dinner.

Hospital Room Unused

James A. Hard, 108, oldest veteran of the 16 left in the GAR, brought along 20 boxes of cigars. They were a gift presented to him in Rochester, N. Y., at a hometown sendoff in a Gannett newspaper plane.

A hospital room, set up in the Claypool Hotel with a cot, medical supplies, and a nurse and a veterans administration man, went unused.

The wheelchair fleet and attentive escorts of National Guardsmen and State Police cars are a far cry from the 1893 encampment here. The convention crowd doubted the city's population overnight then, and police were ordered not to arrest veterans unless they got too boisterous to take care of themselves.

Violence Accounts For Seven Fatalities In Texas Weekend

By The Associated Press Seven persons died violently in Texas during the weekend.

One of them was Norton Vinson, 29, Corsicana airport mechanic, killed when his plane crashed Sunday at a jolopy race track. He was a spare time stunt flier, performing before the race program.

Four were killed in traffic accidents, two were shot. Olen Ray Sterling, 31, of Odessa, was killed when his auto overturned 38 miles south of Odessa Sunday. His companions, John Robert Hillier, 19, and Billy Raymond Gay, 19, both of Odessa, were injured slightly.

Willie Price Harris, 28, died when his car overturned south of Skellytown Sunday. He lived at Skellytown. George E. Robinson, 20, and Howard Wayne Pugh, 17, both of Skellytown, were injured. They were taken to a Pampa hospital.

Jackie Ray Dally, 13, was injured fatally near Texarkana Saturday when a pickup truck knocked him and his motor scooter 114 feet. Louis G. Johnson, Atlanta, Texas, negro was charged with negligent homicide.

George Tom McAllister, 23, Lamesa meat wholesaler, was killed Saturday when his car ran into the rear of an oil pipe line truck in Lamesa.

Isidro Sanchez, 65, was killed by a shotgun blast at San Antonio Saturday.

Anthony George, Jr., of Tyler, who would have been three in November, died Saturday night when a pistol he was playing with discharged accidentally.

Weekend deaths also included that of Herman R. Gillham who farmed six miles north of Texarkana, Ark. His tractor reared on a steep hill and fell back on the 52-year-old Gillham as he was filling a ditch with dirt Sunday.

Monthly Rate Set On Parking Space

ELECTRA —(AP)— You can "rent" parking space in Electra by the hour—or the month.

Two hundred meters have been installed. But many business men complained at a stormy session of the City Commission that they needed free space in front of their establishments.

The Electra Steam Laundry wanted free space—one for unloading trucks and the other for customers. Bob Webb, grocer, threatened to quit buying power from the City Electric Company and switch to a competing company if he didn't get a free space in front of his store.

The council stood pat—but made a concession. The meters will stay put—but merchants may rent metered space, if they please, for \$7 per month.

Midland Sailors Get Efficiency Awards

SAN DIEGO, CALIF.—Two Midland, Texas, men, Ben L. Hedges, fireman applicant, USN, and Billie E. Smith, airman, USN, are attached to the aircraft carrier USS Valley Forge which has been awarded the Battle Efficiency Pennant and "E" for her general excellence throughout the fiscal year July 1, 1948, to July 30, 1949.

The award is a competitive one based on overall battle efficiency and performance of the ship's crew. Each department of the ship is graded to determine the vessel's final mark in the competition.

The pennant is a red triangle with a black circle in the center and is therefore termed a "meatball." In addition to the "meatball" each enlisted man having served on board the Valley Forge for at least six months of the competition year is entitled to wear an "E" on the sleeve of his uniform and receives a cash award as well.

Midland Drug Owners Back From Markets

Mr. and Mrs. Barney Greathouse have returned from a trip to the Chicago and New York City markets, where they shopped the gift and drug line shows for merchandise for the Midland Drug Company, which they own and operate. They made the trip by automobile.

Greathouse said an air of optimism prevails among the merchants and wholesalers with whom he came in contact. He said plenty of merchandise is available and orders are being filled promptly.

Some of the merchandise he purchased beat him home, he stated. "Most merchandise is lower in cost and up in quality," the Midland merchant said. "Many new items were displayed at the shows."

Greathouse said business conditions are good in most of the cities and sections he and Mrs. Greathouse visited, with the exception of the New York City district. "Chicago was going strong but New York City was comparatively quiet," he stated.

School For Drivers License Examiners Begins Thursday

AUSTIN—Homer Garrison, Jr., director of the Texas Department of Public Safety, has announced a 30-day school for drivers license examiners beginning September 1.

Consisting of 11 men who were selected from a field of 39 applicants who took competitive examinations in Austin early in August, the recruits will receive extensive instruction in various phases of drivers license procedures, standards and techniques, in addition to such related subjects as highway law, psychology and physical education.

Upon graduation, the men will fill vacancies in the Public Safety Drivers License Division caused by transfer of personnel to other agencies of the department and by promotion of four examiners to the rank of sergeant.

Seven sergeants of the License Division will be advanced to the rank of lieutenant effective September 1.

The lieutenant grade was provided by act of the 51st Legislature. The lieutenants will act as second in command to the district field captains and will be principally assigned to dealing with "problem" drivers.

Two Injured When Light Plane Crashes

SAN ANTONIO —(AP)— Two Pearsall, Texas, men were injured Tuesday in the crash of a two-place plane shortly after it took off from San Antonio's Municipal Airport.

They were Dr. M. H. Bannister, 37, the pilot, owner of Bannister Hospital in Pearsall, and S. L. Hunt, 22.

Walter C. Gunstream, manager of the Municipal Airport, said the plane's motor apparently failed just after the craft became airborne.

Confederate Veteran, 101, Dies At Cooper

COOPER —(AP)— T. R. McGuyer, 101, Confederate veteran and retired farmer, died Sunday. His death left six Confederate veterans alive in Texas.

His funeral was to be held at Charleston, Texas, at 2:30 p. m. Monday.

He had five children, 37 grandchildren, 76 great grandchildren, and 20 great-great-grandchildren. Immediate survivors are four sons, Tom and Jim of Dallas, Alvin of Detroit and Lain of Cooper, and a daughter, Mrs. D. W. Lile of Charleston.

Water covers 70.8 per cent of the earth's surface, and the United States Navy can operate throughout all of the vast area.

'Howdy Week' Is Innovation At TCU

FRESHMEN and other new students will be met at the railroad stations, but depots and airline terminals and provided free transportation to the campus. The plans have been announced by the committee in charge of "Howdy Week," which will run from September 12 through September 17, and by the campus Disciples' Student Fellowship.

The "free ride" service will be available all day Sunday, September 11, the day before school opens and Monday, September 12, the first day of registration.

The "Howdy Week" committee is canvassing all new students and plans to provide transportation for all those requesting it.

A six-day schedule of dances, pep rallies, orientation meetings and musical shows is scheduled for "Howdy Week" to welcome new students and acquaint them with TCU life.

The United States has 251,000 miles of natural gas pipelines.

Fire Destroys Two Grain Warehouses

WACO —(AP)— Two grain warehouses burned late Sunday night at Lorena, 12 miles south of Waco. The fire knocked out direct telephone lines from Lorena to Waco and Temple.

The warehouses, located in the center of town, were owned by W. P. Evans, Sr. of Lorena. They contained hay, seed and oats.
